Bigger Need

I've seen many things to hold my mind.
The greater picture I yet have to find.
Nothing has given me a choice to breathe.
Every night this life, I wish to leave.

I can't stop, can't let go.
No fear can I let myself show.
Need to be completely strong.
If not, I'm nothing but wrong.

Believe in you, believe in me.
Sometimes I have a bigger need.
Restrain what's right.
Guided by sight.
Nothing to control my being.

Cancer

Dropped like a bomb in the darkness of night.
Evil lurks all around you and blinds your sight.
Destroys everything in it's horrendous path.
Walks right through with a smile and laugh.

Everyone and everything that it knows.
Hurts all and still continues to grow.
Killing it and removing it all is the only way.
To continue to live and to go see another day.

Believe that it's real, it can happen to you.
It comes from nowhere, pops up out of the blue.
Living strong is the only way to survive.
Keeping faith will keep you alive.

Caught!

I fell in love with a beautiful girl and now I'm caught in her trap.
I didn't see what she was doing to my mind, she kept holding me back.
Digging a hole, losing control, I gave all I had to give.
Nothing I could do to stop what she would do this is no way to live.
Every day was a maze, she'd go into a craze, not knowing which way to go.
I was caught in this mess, full of distress, but everyone reaps what they sow.
With no way out, I had little doubt, how my world would end.
Caught in her wake, trying to escape, gotta figure where to begin.
This girl I did love, but when push cocmes to shove, she wasn't right for me.
Now I'm caught up with pain, no one to blame, from me being caught I need to be free.
So the moral to this story, even though it may be gory, stand up for who you are.
No matter what they say, there's hope for another day, it's not really that far.

Demon

As I walk through this world full of wonder, I look for a path to take.
When the evangelist speaks my mind fills with hope for the devil is in my wake.
No matter the foe, I know I control my choices that may make me weak.
Insightful as though my life on hold my eyes forever they weep.
Disguised as a friend a place to begin, evil will take it’s toll.
Delightful it may be when we become free, forgiveness upon our soul.
The demons surround me and blind how I see, Where are my angels?
When you don’t talk to Him, your life will go dim, and you only see one angle.
Pleasure and pain, it’s all part of the games that we play.
Not eve Knowing whether or not you will live another day.

Fear of What's to Come

Enter into this world blind, not able to see.
The darkness surrounds, other senses are keen.
Locked on like a target in your mind ahead.
Losing control now the panic begins to spread.

Trying to regain what has been rightfully yours.
Dodging obstacles in your way as the pain pours.
Distinguish reality, your faith has gone astray.
Pause realizing your inhibitions can't be found today.

Nothing to grasp, the clutches are now tight.
Bleeding profusely losing waht's really in light.
Windows of opportunity have come now and gone.
Wishing for a turn of events, everything is wrong.

Mindless currents drift accross your path.
Wishing for it all to end, fear of evil's wrath.
Disguise you life and take what comes.
Figure out what you can and take it in sums.

Despite what we're told, we draw our own lines.
Never taking a second look at all of the signs.
Believe what we hear and never with our eyes.
Imaginary visions that have all become lies.

Justify

Justify why I should be with you.
Tell me exactly what I need to do.
I need someone who whill be there.
Money, cars and clothes don't make you care.

I'll give you all the heart that you need.
Just be true, I beg of you please.
I know you want somebody to be real.
You need someone who knows how to feel.

The lives we lived have been crazy thus far.
Things we have been through, not quite up to par.
Wanting everything in life to be easy as pie.
I will be here for you, no need to cry.

Kiss from a Rose

My love pours out to you as if I might never see you again,
Before you stepped into my world, I felt my life had come to an end.
What you have given me is like a kiss from a rose.
I am on top of the world, because I am the one that you chose.
When I am near you, my heart always seems to skip a beat.
If we are apart, all I want is to feel your heat.
Love only comes once, to those that choose to wait.
The years that we will share are those that I can only anticipate.
You are every man's withs, I am shocked that you are mine.
Because a perfect Rose like you is very hard to find.
No matter what I do from this point on,
Nothing will ever be able to break our perfect bond.
So for you I will give you a very special kiss from a rose,
Now you know that I'll love you forever and I can bring this to a close.

Life is Love and Prosperity

The tangled webs that life may bring falls away to love.
To have and to hold til death do us part even when push comes to shove.
Everything that I do and say comes with nothing but true sincerity.
Together we'll make the world ours have a love that brings real prosperity.
I truly believe forever will be nothing but real bliss.
Each day that I awake, I can't wait to feel the passion in your kiss.
Our lives that we'll lead will bring love that others only dream of.
You are the one that brings prosperity to my life and our love.
Forever I give myself to you always on my bended knee.
My love is yours, my life is yours, because you have set me free.

Adam DeBaere

Locked!

Fading into the darkness, my time continues to creep.
Being locked in a dirty cage, you can't do anything but weep.
Your life is playing tricks on you, and you can't run or hide.
While the last thing that you heard was a big black lie.
Falling down onto your knees, all you do is beg.
Asking for a redemption for dees gone bad, you're shunned instead.
Forgiving yourself is what must come first to succeed.
Then sweat, tears pain all while your emotions bleed.
Evil lurks, without a second natural kind-hearted thought.
Swimming around the world looking for souls to be bought.
Distance from this thing, is the only thing to keep you safe.
Unless you want this wrath, then sit back and wait.
Don't forget what you were made for on this journey of life.
Making sure you have salvation form sins, nothing wrong, always right.

Lost but not forgotten

We have been lost but not forgotten, please save our soul
Lost in a world that tortures us, we feel out of control.
Forgotten lives dig deeper down, trying to break the mold.
Suffering day by day, losing senses that have been ripped by the cold.
Exercising strength releases the stress brought on by daily bread.
Never understand whats been set forth by others or what is said.
Nearing days in a fashion that can only be found as incomplete.
Blistering lonely souls have been forgotten and are obsolete.
We are lost but not forgotten, in a world that has little heart.
Lost and forgotten, neve being able to get a brand new start.

Adam DeBaere

Mountains Clouds and Flowers

The way that I cherish your every thought,
Is the same way your love could never be bought.
Mountains would move if I had the feelings you possess,
Flowers would bloom more freely if I could remove all your stress.
When the sun shines the memories are great,
When it's cloudy the times we share we could never recreate.
You are my power for everything that I do,
Because every word you speak I know will come true.
Ask me right now what I want in this life,
The answer that I will give you is for you to be my wife.
Everything we have now rests in your hand,
Because now you know that I truly want to be your man.

Need to be free

Fear of life and what's to come.
So many things that yet have to be done.
My world torn apart, not knowing where to go.
Twenty-two years and barely anything to show.

Trying to find my way back on the right path.
Always aware that I should be facing the devils wrath.
Got to move forward, just not sure how.
Feeling helpless, I need your help now.

My world has always revolved around evil things.
Haven't been able to run for it, always clings.
I have sonthing to work for now that I see.
Just have to learn to set my goals properly.

Escape is all that holds my mind.
I need a love, and that is hard to find.
A person to share almost everything.
Someone that I can give a diamond ring.

One that will never steal or take for spite.
A lovely lady that I can hold every night.
Love is the only thing that I ever dream.
Love is the only thing that will set me free!

Pulse

Forget my pain, it means nothing to you.
Tell me what I am supposed to do.
I tried to tell you what was wrong.
But you thought I was singing a sad song.

Never did I expect to wind up like this.
Sitting here dreaming about our first kiss.
I promised you I would work to get it back.
You promised me you'd stick thorough, now you're off track.

I wish I'd never taken a different path than I did.
I will never get over that you said you wanted my kid.
You played with my heart and took advantage of me.
You will come crawling back as soon as I am free.

Respect

Respect to the ballas on the court today.
Respect to the playas who listen to what we say.
Respect to the game for it isn't quite done.
Respect for all the athletes who did it for fun.
Respect all that try even though it's hard.
Respect to those who keep trying despite the scars.
Respect goes a long way, the harder they try.
Respect to the legends who will never die.

Sometimes

Peace in this life seems so far away.
Everybody looking for happiness, but still stray.
Love is harsh and never seems to be real.
I don't know anyone who cares how you feel.

The design to live this life is hard and rough,
Making the right choices seems so damn tough.
Nowhere to go only chances to take.
Gotta start working, got things at stake.

Take the right way instead of the left.
Be your own person, don't follow the rest.
Everytime you make the wrong choice.
Be sure you listen to your little voice.

Nobody on your side, they're all at your throat.
Barley holding on, barely keeping afloat,
Be strong, don't forget where you came form.
Sometimes you win, then you lose some.

Adam DeBaere

Take Control

Weary, feelings drift across the battered sky,
A thought, an idea, constantly wondering why.
I can't describe how tough it will get.
To make a decision to have your heart set.

Seconds, minutes, days, months and years.
Keep holding on despite all the tears.
Shadows casting devious stares all around.
Jumping out of your skin at the slightest sound.

Is love always like this, I dare ask.
Seems coverd like it's wearing a mask.
Never able to find the cure.
Never able to be a hundred percent sure.

No way to control what's really going on.
Feel useless, no need, just like a pawn.
Want to be strong, but no idea how.
Got to get through, got to do it now.

This may be it might be the last chance.
Got to look straight ahead, not take a tiny glance.
Find your heart and release your soul.
Gain everything that you need, take control.

Thought

Totally confused, not knowing what path to take.
I lie in a puddle of hurt, tossed down by fate.
Thoughts of you tormenting me, I know not of what you do.
Working my mind to the bone, smelling your sweet perfume.

Caught in a tunnel, not guided by the light.
Emotions run rampant, my tears begin to take flight.
Wanting more than I know I can have.
Hating myself for the choice I made, knowing it was bad.

My love for you was always true, no matter what you think.
I finally felt connected to life, you were the missing link.
Every move that I make now, I promise is because of you.
The things you taught me, have made a man that is new.

I will never forget your touch, forever it I will feel.
The moments we spent were forever the best, I know that I am real.

Adam DeBaere

Trapped by yourself

You lose your grip and everything falls.
The last thought you think and death now calls.
Torn apart by what has been and what may be.
Trap yourself in a place as dark as the sea.

Nearing what may be close to the bitter end,
Wishing you hadn't taken on the latest trend.
Blocking out what you really did wrong.
Begging to hear just one more beautiful song.

Lives you've struck and broken in more than two.
Cascading through your head and are stuck like glue.
Caused by your hatred for your very own self.
Lost and trapped by ugliness, greed and wealth.

Locked in a cage caused by thins done by hand.
Never again able to see free sky or land.
Blistered by what you have caused, your own mind,
The punishment has been brought fourth for your crime.

Sit back in your box, now ther's nothing that can be done.
No more fresh air, no more grass, trees or sun.
You got what you get when you've done what you did.
Trapped yourself by yourself, now doing your bid.

Adam DeBaere

Walk Away

The things they design aren't for the weak.
Even though they slap you around, you turn your cheek.
No more hurt in you, you're in the driver's seat.
Back behind those walls like pushing repeat.

They can control you but never your mind.
Looking for freedom, you think it's so hard to find.
Staring you straight in your face,
But you're still behind, falling out of place.

People only care and act like your friend
When you're on their side, they always pretend.
If you leave the game, just walk away.
All of those friends seem to disapate.

That's the way it works, no changing it now.
If you can get through then take a bow.
Even the strongest can take the big dive.
So your best bet is to try and stay alive.

Be your own person, be the best you can.
Even though others hate, be your biggest fan.
Never stop, don't lose your grip on the wheel.
Always stay true no matter how bad it feels.

Wheels that Turn

I have no way to stop the wheels that turn.
Making it for me has been my only concern.
I try to stop this pain without knowledge on how.
This world was crazy before I even touched down.

I have to look out for someone besides myself.
Can I complete this task with the precision of stealth.
The ropes can be such a difficult thing to grasp.
Not knowing if you'll makie it or if you will last.

Don't stop fighting the battle is not yet complete.
Decide whether to be looud or be discrete.
Controling the vall is the very hardest part.
Following through with a plan gives you a head start.

Wrong

I’m in love with you but you are so far away.
Every time I think of us, the sky turns gray.
No matter how hard I work or how hard I try,
Nothing is good enough, I sit back and cry.

Concealed feelings I hold deep inside.
Even if I wanted to in you I couldn’t confide.
Every thought that is running through my head.
Wishing sometimes that I would just fall down dead.

I cry at night wishing you were close to me.
Nothing I say will help you to understand or see.
How you make me hurt and close up inside.
I don’t understand how you say you can be by my side.

You aren’t with me no matter what you may say.
I have pounded my brain over and over day after day.
Everything I thought we had was just a front.
You just wanted me to be little puppy dog mutt.

Years and Tears

We have been through a lot in the years that we've spent.
I wonder what the future will hold as we take this road.
Believe the words that flow from my mouth, everything I meant.
I need your warmth near me because my world is os cold.
Blinded by the hatred bread, in a jealous state of mind.
The surroundings you put yourself in will decide where you lie.
If you struggle to see what you seek, Know that you'll always find
a place to be real and a place to feel and a shoulder to cry.
I will stick with you until the bitter end, forever I will be yours
To have and to hold through sickness and health till the day we fall.
I will show you a brighter day as my love always pours.
The man that you've wished the man that you kiss, I will come to your call.
