I love to write, and I love sports, I also love photography.I write poetry because it helps with my depression and its a great way to get your feelings out. Especially if you lose someone you are very close to. I've never had a BF...but i like to write love poems.

All I Want

All I want is to be with you
I wanted you and me to walk the line like no one is watching
Take me in you're arms and never let go
I feel safe in you're arms

I wish you could see how bad I need you
I can't let these feelings go
The look in you're eyes is so innocent
You're smile brightens up my day

All I want is to be with you
I wanted us to lie under the stars
Take me in you're arms and never let go
I wish you could see how bad I need you now

Every pathway I take leads me to you
There's pieces of me that tell me I need you
The rest of me doesn't know how I feel
I have all these mixed emotions about you

All My Lies

All my lies are finally catching up to me
And I wonder how I could tell all those lies especially to the one i love
I just want to stop, think, and analyze these lies that I have told
I want to tell the truth again
I want your trust back
Because I need you, I need a shoulder to lean on
I promise I won't tell another lie cause they have gotten me no where
but into a giant hole

All Tied Up

The first time I saw you, I knew we were suppose to be together. I couldn't keep my eyes off of yours. This seems like a rollercoster ride it goes on and on, seems like forever. My love is like that, especially when I saw you. It was your eyes, your smile. I couldn't keep my eyes off of. It seems like when I see you I'm in a whole different world.

I try to act normal when I'm around you, but every time I try I just get all tied up inside. I get so nervous and I just want to know how you feel about me. I try to talk to you and when I do I get all tied up inside. Its not the way I normally am I just think I'm in love with you.

No matter how hard I try to get you off my mind, your all I think about. When I see you and I try to talk to you I get all tied up inside.
I wish I could read your mind to see what you think of me. I cant help the way I feel about you its just your hot body I can't keep my eyes off of. I get all tied up inside whenever I talk to you. I don't have anything to say I just stare at you and you just try to snap me out of it.

I try to act normal when I'm around you, but every time I try I just get all tied up inside. I get so nervous and I just want to know how you feel about me. I try to talk to you and when I do I get all tied up inside. Its not the way I normally am I just think I'm in love with you.

I just want to try to get to know better, I want to see what we have in common. I try to act myself around your but I get all tied up inside.

Alone

I don't think I can handle another heartache
I'm so lost and I don't know where to go or who to turn to
So I think I will bury deep inside of myself

I'm alone forever just me, myself, and I
I'm already broken and I can't put myself together again
Too broken to fix no one can hear me screaming

How I want to be saved but I know there's nothing that could make me happy again no matter what

I'm crying every night
Lying in all my tears
Watching the days pass me by
Watching my life disappear

Another Day

Another day alone
All by myself
Another day of sadness
Another day without him
Another day wishing my
life away
Just another day
To hear nothing but lies
Another day watching the time
roll by slowly
Another day
Just another
boring day all alone

Are You?

Are you sure that you love me?
I'm tired of being hurt
I don't want to love you if you don't love me
Are you for real when you say I want to be with you forever?
I don't want to waist your time if you don't mean it
Are you willing to make sacrifices?
I feel something with you that I have never felt in my life
Are you sure that you love me and that you want me in your arms forever?

Around You

When I'm around you I can be myself
I can relax and know that you'll catch me when I fall
When I'm around you I know nothing can go wrong
I feel breathless when I'm around you
This life of mine is complete
Since I've found you
You actually care about me
You took away this pain
Wiped away these tears
Held on to me even though I lied to you
I could not ask for more in you

ASAP

I really want to know how you feel
Please let me know ASAP
I can't wait forever
Let me know if you want me ASAP
You say you want me but you never call
Let me know ASAP
I can't wait on you forever
I need to move on if you don't want me
But you act like your jealous cause I'm ready to move on to another guy
If you want me so badly let me know ASAP

Bad Day

It seems like everyday is a bad day
Walking and you fall
Fall so hard that you wish you would never get up
When you have a bad day you just want the day to end
Hoping that tomorrow would be a better day
For me the past two months have been bad
Hoping that this is just a dream but waking up to find its really happening
Bad days come and go
Better days come once in a lifetime
When you have a bad day you wonder if you could just walk away from it
Even though you can't control what happens you still try
Knowing that tomorrow is going to be another bad day
Waking up dreading the next day
Cause you have a bad day, smile
Cause you never know when you will have a good day

Barely Hanging On

I'm walking on an edge trying not to look down
Trying to make it without falling
I look up at the dark sky the only light is the stars
Looking to see if I can find the North star so I can find my way back home
Tired of just barley hanging on
Just wanna be alone sitting at home wondering can I ever make it to the other side
Make it on my own
I just want to be me, chasing the one thing over and over that I will never catch
If everyone tells you to follow your dreams then why is it every time I do it everything breaks apart

Beautiful Day

When I see you smile I know you care & love me
When I hear you laugh I know its going to be a beautiful day
Gonna do my best to rest as long as I'm with you
You make the day better every time I'm with you
Being with you beats being alone
I've never felt this way before
I've loved being alone until you showed up at my front door
My world was dark & cold
The sun hated being near me, that is until you showed up
Now it's a beautiful day

Better Off

The day I kicked you out was the day I knew that I would be better off
All you knew how to do was to lie
I'm better off without your love and tears
You act like you care and beg to stay
You never had anytime for me you just ignored me
The tears you cried were fake
There's no way I want you back
I gave up everything to be with you
I gave you my heart
All you did was tore my heart into
Its breaking me
But now I'm on my own
I'm better off without you and your lies
I love you its true
After everything you did to me
The lies, the girl, breaking my heart
I hated you
All I could do was hold my pillow and cry
But now I found out I'm better off without you

Big Dream

I go to sleep every night and dream away of what I want to be
No one takes me seriously
Only you take me seriously
No one knows that I would change everything about me just to live my dream
Every dream I have, everything I say
Nothing matters because no one knows that I love this dream
Just to be sittin in 'ole St.Lou watching the Cards play some ball
Just to broadcast that game and say home run Albert Pujols
Can I not dream?
No one takes me seriously
No one believes me, this is what I want to do
Oh wouldn't 'ole Turk be so proud if I get to do this

Broken Hearted

My heart is broken into
By the one who I first loved
He was everything to me
I put my soul in his hands

Twelve months together
We spent time on the lake
Where we first met two years ago
We walked on the shore

We stayed real late
Watched the sun sank low
And when the stars came out
He kissed me under the moon

Same lake, same moon
We meet up again
Same spot, same heart
Where he kissed me

My heart was shaky
I remember that day clearly
Like it happened yesterday
As you came near me I looked away

You act like we meant nothing
I loved you Its true
You broke my heart & soul
Your back to try to put it together again

You want me back
I want you in a way
Let me think about it
I do still love you

Broken Spells

Falling and falling into your heart into your love. Everything that you say seems so real to real to believe. You talked me into loving you and thats all I do. I try to be the girl that you want. It seems like I'm falling into your spell. No where to run no where to hide but into your arms. I tried to tell you how I really feel but you just let that go. I love you but not like that. I just wanna be friends with you. I know I said yes to you about going out but now that I went out with you you are not what you seem to be.

Can You See Me?

Standing here to see if anyone notices me
Just like normal no one sees me
I'm like a ghost that they can't see
This ghost is hurting
No one can see that I am barely hanging on to this rope
Bout to give up this life, bout to let go of the rope and say goodbye
Crying out loud since no one sees me right in front of them
Hurting so badly
Crying to find out my tears are blood
Does anyone care that I may die tonight?
Fighting for my life
Trying to be strong but all this pain through the years is killing me
I can't do anything but to let go of the rope

Can You.....?

Can you take this pain away tonight?
Can you wipe these trillion tears away?
Can you hear me screaming your name?
I'm dying inside and I don't know what to do
I don't think I hang on any longer
Take my hand and please help me
I can't do this alone
I need you tonight

Can you take this pain away tonight?
Can you wipe these trillion tears away?
Can you hear me screaming your name?
I've fallen and can't get up
Can you help me up on to my feet?
I'm so weak without you
I'm dying inside tonight
Can you hear me screaming your name?
Cause I need you now

Can't Let Go Of You

I'm sitting here alone tonight
Thinking about you once again and
I don't know why

All these thoughts in my head are about you
I can't seem to get you out of my head
There's still a part of me that can't let go of you
I thought I was everything you wanted

There's still a piece of my heart that still misses you
It's been a long time and I don't know what to do
I've tried so hard to move on

But I can't move on
I loved you and always will
Waiting and hoping you will one day feel the same
And maybe you will soon talk to me

Can't Stop

I just can't stop thinking about you
No matter how hard I try you never go away
Can't stop thinking of how powerful 'I love you' is
Can't stop wondering if your seeing another girl
Can't stop me from loving you
Your my everything, my hope, my dream, my life, my all
You make me lose my self control
Your the only one I can talk to
I just can't stop thinking about you

Can't Tell No One

There's no one that I can talk to
When you pull me into your arms I feel like I'm your lover forever
I can't tell no one cause no one would ever understand how much I truly love you
When you hold me I feel like that's where belong and I never want you to let me go
Lock me in your heart and throw away the key
No one can take your spot
Your kiss makes me go crazy for you more and more
It makes me crazy that I can't tell no one about you and how you make me feel

Come and Rescue Me

Do you see how bad I need you?
I'm broken & I don't know what else to do
All I know is that I need you
I need you to hold me tight
While I'm crying on your shoulders
Oh I'm so broken now
Can you see what I've been through all these years
Here I am bleeding till my death comes
Unless you come & rescue me
I'm covered in my blood & my tears
Oh come & save me please
I'm broken inside & I can't be alone
I'm already dying here tonight
So if you truly love me you would come & rescue me &
Save me from myself
Can you come & rescue me here tonight
Cause I'm not ready to die
Would you please come & rescue me

Couldn't You See

I was lonely couldn't you see
The pain and misery in my eyes
I was hiding the tears
Hiding the fact that I didn't want to live
Didn't cover up those couple scars
surprise no one fronted me bout those
Thought by now I would be in tears
I knew then no one cared
Went along with their average day life
Didn't have anyone to turn to so I just buried deep in myself
Wanted to stay shut up for the longest Just listening to music to sooth my soul
It felt like I couldn't do anything right
It felt that people would just stare at me for no apparent reason whatsoever
Wanted to runaway find a gun and shoot myself
Didn't you see all the signs and warnings
All those poems I wrote about dying
Guess you were just too blind to see what is in front of you

Depression

depression is when you are sucked into a cold lonely world
where you don't have anyone to love
no one by you're side
you wish you could die
cutting with tears
you want help but no one can say anything right
you're words are cold
depression leads you down a broken road
you keep walking forever down that road
you're heart is bleeding from all the pain people has caused
its a disease from people you love
they hurt you so bad and they act like they care
they don't know what its like being you
they never dealt with anything like this
depression pulls you under
drowning in you're own tears and blood
not even a single rose can fix whats been broken
you're so alone so far away from paradise
wishing that death would soon arrive
depression hurts like hell

Did You Know?

Did you know that I loved you?
That I would give up this life for you and I.
Did you know that I cried myself to sleep at night?
Wondering why in the heck you left me.
Did you know I almost went insane over you?
After you left I didn't know what I was gonna do.
Did you know that lost the one I thought I could hang on to?
I thought I could hang on to you but I guess I was wrong.
Did you know that I wanted you more than anyone else?
Out of all the other guys I choose you.
Did you know that late at night when you held me tight I knew you were the one for me?
When you held me it felt like we were in heaven.
Did you know that I still do love you?
That I still would give up this life you & I.
Did you know that occasionally I still cry myself to sleep at night?
Still wondering why you left me.
Did you know that never went insane over you?
After you left I thought that one day you would come back.
Did you know that I still thought I had you?
but I was just dreaming that I still had you here beside me.
Did you know that I still want you?
I still would choose you over all the other guys in the world.
Did you know that I miss when you held me tight?
I miss being in your arms where I felt nothing but loved.

Different World

Packing my bags this time, taking a brand new step into a whole new world.
On my own for once, it sure is lovely, but things are not the same like they were.
When your on your own there's more responsibilities so you can't really have a life
This life In a whole new world is not all that great.
But the freedom I have to roam is great.
I don't miss a single thing
Getting away is one wish I've had all my life
Walking out that door one last time, taking one step at a time. This time I know what I have to do
I know the risks the responsibilities
If I screw up I know its my fault
If things were like a dream I know I wouldn't screw up my life
I would have the world at my side have the guy I want
I would have everything going my way
But life's not like that
We all have our ups and downs
But no matter what keep your head up
I know this path I'm taking may not lead me to where I wanna go.....But I'm still trying to live my dreams.

Do You Know?

Do you know how many tears you made me cry?

After all these years I didn't think I would ever cry
this much.

Do you know how bad you hurt me? Do you even care?

I try to hide this pain but its to hard to hide. How could you
hurt someone this much?

I wish you knew, its now or never, I need to be strong.

Just look at me. Do you see this pain all these tears I've
cried? Do you care?

Do you know how it feels to be hurt like you hurt me?

Do You?

When you tell me that you love do you mean it?
Do you actually care about me like you say you do?
Cause I can't wait for you forever
I need to know
Do you love me like I love you?
Do you tell me the truth?
I just have to know cause we're not gonna live forever on this planet
Do you know how much I feel for you?
Can you tell me that you will be here forever and not leave me all alone?
Do you want me?
Can you look me in the eyes and tell me that you love me and actually mean it?
Cause I have never fallen in love with someone like you
You take away all my fears, you understand me, you know how to make me happy
When you touch me it sends shivers up and down my spine
Your the first person that I have ever loved like this
You make my world spin, spin in love
So please tell me
Do you actually love me like you say you do?

Don't Wanna Be You

Pretending everything is ok
Wanting things to stay the same
But deep down I want to change
I don't want to end up being the same

Every time I look around everyone's the same
They all look the same, act the same
I don't want to end up like everyone else
I wanna be different

I'm not meant to look like you
I'm not meant to act like you
I'm meant to be me
I'm meant to make a whole new me

I just wanna scream out loud
And let my voice be heard
Cause I just wanna be me
I don't want to be like you

You're the one who will fall
When I will be standing tall
On my own two feet
Cause no one can knock me down now

I'm unstoppable
I'm not meant to be like you
I'm not meant to act like you
But I am meant to be me

And live my life the way I want
No one can tell me how to dress
Cause I know my friends will accept me
For who I am

Thats what friends are for
They accept you for you
And we all look different and act different
Looks don't always matter

I just wanna be me
And express the way I feel
Wear what every I want
Live the way I want

Don't Want To

I don't want to be here anymore
I don't want to cry a thousand tears every night
All I want to do is escape this place that I call home
For 17 years I have lived here being alone
Wondering if I would ever get out of here
I don't want to be like the girl that lived beside me
I only have so long and then its goodbye to this place
There are to many memories here that I can not erase
My dreams are slowly fading away
I know I won't amount to anything
I will be another disappointment
Don't want to listen to them
Saying you can't make it
I just want to be me
Don't want to be where I am not wanted

Don't Want You To Get Hurt

Sitting here staring at the phone waiting for you to call
Wondering if you still care
Where are you?
Why haven't you called?
Are you with that girl that you talked about ever hour of the day?
Crying at night in my bed
You don't know how you have hurt me and it bothers me so badly just to see you with her
Its because of you I've made it this far
Don't know if I should just give up and call you to let you know how I feel
I wanted to be with you
You make me feel alive
I just hate being without you
There's still no one out there for me, your the only one
Its because of you I have made it this far
I still love you, she is not the one you want
She's always with a different guy every night
I don't want you to get hurt even though you hurt me
But I know you were going through a tough time
Its because of you I've made it this far
I just want you to be happy, I just love you
I hope you still fell the same way about me

Drives Me Crazy

It drives me crazy that I love you
I never thought I would ever say that in a million years
Never thought I liked you more than friends
You talk to me more than anyone
You make me laugh even though some things are childish
You know me more than I know myself
I guess since we grew up together its no surprise that you know me better than I
It drives me crazy that I can actually talk to you and you listen
You don't make a big deal out things like some people do
It drives me crazy that we can make jokes about silly things
You're crazier than ever, never thought you would be like that
You use to be so shy in grade school
It drives me crazy that I actually like you
Everything I do I think about how we're closer than ever
It just seems so weird that we can talk to each other
It just drives me crazy

Everytime Your There

Every time your there right in front of me I don't want you there. Every time that I do want you right in front of me your not there. Can't stop thinking about you. Thought that I was through crushing over you. Every time I think about you I think about how you tell your funny jokes. I thought that I was everything that you would want. Tell me do you like me to? How come I'M still thinking about you? I thought I was through crushing over you. Every time your there right here right in front of me I don't want you there. Every time that I do want you here your not here. I wish that you knew how much I like you. I thought I was through crushing over you. Every time I think I think about you. You always make me laugh. I wonder do you like me? Do you ever think of me. Just once I thought I would finally get you. I always think about you. Every time I'm off somewhere I still think of you. Somewhere somehow I wish I could find away to tell you the way I feel.

Everywhere

I wake up thinking of you. Thinking of your pretty face.

Your all that I know. When I see you I just want to just sit

there and have a conversation with you.
Your everywhere that I go, your everyone that I see.

Your the only one that can make me really smile.
When I turn around your there. When I'm around you

everyone else seems to disappear.
Even when I'm down I think about your funny jokes.
Your all I talk about your all that think about.
Your everywhere that I go Your everywhere no matter

what I'm doing.
All I want to say is that I love you and I just want to get

to know you better.

Your everything I know and want
Your the closest thing that I can call home

I wonder if you care at all about me
Cause your everywhere that I go, everything I see
I see you name written all over the place
Its driving me crazy that your the only one that I could ever be with

Figure You Out (First Time)

There's something about you and
I can't figure it out
I've been searching high and low
Still unable to overcome these feelings for you

I don't know why or how you do this to me
I wish I could figure you out for once in my life
You're a mystery and I'm a detective trying to figure this case out

Theres been words left unsaid
There's a missing puzzle piece left in this case
How do you really feel about me?
I've been stumbling trying to figure this out

I'm back to where I started
I'm back chasing you
Trying to get an answer out of you

I don't know what to do
This is breaking me into
I don't know how I should handle this
Cause for once in my life I'm scared to death

I've never felt this way bout anybody before
I've falling indeed falling in love and its for the first time

Find Your True Self

Stop and look into the mirror
See what I see
That your not perfect either
So stop judging me and judge yourself

Don't hate me if you don't know me
Look at yourself for once and see the real you
See what no one else sees in you
You don't have to be perfect

You don't have to dress the way others do
You don't have to be in this place
Look deep inside of yourself and dig deep
Find out who the real you is

Finding A Place To Escape To

Walking through the empty halls
Trying to escape from everyone
Trying to find a way to be alone
No one knows how much I am hurting inside
Hoping that I can find a hole & stay there forever
I want to find a place where no one cares what you do
What you look like, the color of your skin
I just want to find a place where I can relax & be myself

Forgive And Forget

Five dozen roses with a note
On my doorstep that read
'Forgive me for what I did
Put it in the past and forget all about it'

But how can I forgive and forget
When you've done this all before
Its easier said than done

After everything I did for you
After those long sweet talks
After 2 years
How can you tell me
Forget about it Like it never happened

You want me to forgive you
I'm broken and shakened inside
Its all because of you

These tears, these breakdowns
And you want me to forgive and forget
How can I
You were my everything
My dream come true

Forgive and Forget
That's what you want
But what I want
Is you to forget about us

Ghosts

Everywhere I go I see your face
Every time I sleep I can hear your voice
I think of all the good times we shared
Lying under the starts late at night
Ghosts of you all around me
Can't get away from the pain
Everything we've been through
Ghosts of you swarming around
Watching my every move
Haunting me day and night
I can't escape this pain
I love you and miss you
All I wanted was to love you
Make you happy
Where'd you go
Ghosts watching me
I need you only not your spirit

Gone (In memory of my Grandpa)

Grew up without a father in my life.
15 years passed me by having a grandpa that truly cared.
Took me anywhere I wanted to go.
Teaching me from right and wrong, when mom was at work.
Never thought it would end like this.
On that last week of school hard-aching every moment while
I was there trying to get by, not trying to cry.
May 26,2005 gone 15 years of my life flashed before
my ver own two eyes.
Every Razorback game on tv, we watched together.
He never let me down.
Supported me in anything I did.
Sitting here thinking its been almost a year, one long
year since he's been gone
Can't believe its been that long.
Missing him so, wishing he was still here, here to see
me graduate next year.
You never know what you've got until its gone before
your very own two eyes.

Gotta Be (Pain)

Gotta be strong to handle this pain
This pain you gave me
You tore my heart into
Gotta be tough and handle this right
Can't come running back to you like always
You really drove me to believe that I was everything you wanted
After everything I have done for you
All you can give me is pain, a broken heart
I gotta be strong and not come running back to you

Hard To Forget About You

Trying to forget you
Its just so hard when you feel this warmth inside
When I talk to you, you take this pain away

I just gotta know how you feel
Cause I don't want to keep chasing you if you don't feel the same
I wish you knew that every time I think of you my heart melts away
I fall into this panic and my body starts to shake

I've never felt this way
I keep wandering around hoping soon you will figure this out
All the signs I keep inside, I wish you could see what you do to me

Don't you know I think about you all the time
I drift away every time I start to daydream of you
This has never happened to me before
Can't you see that its hard to forget about you

Haunted

Does it ever seem like your the only one that's there or does it feel that someone or something is always right there with you. Does it seem like your haunted by something. Haunted by your feelings or regrets. When your alone does it feel like someone else is there with you. Haunted by all the pain all my thoughts and fears. I can't help it all the pain I'm caused I guess its starting to haunt me.

Help Me

Help me find my way home
Help me find who I am
Help me chase my dreams
I can't do anything without you
I want you there beside me so I can share this with you
Help me find out if your the one
If you not the one then why is my heart beating fast when I am with you?
Help Me
Your the only one I want to spend forever with

Here I Am

Here I am waiting for you to come back home
Crying at night wondering why you left
Was it something I said?
Was it something I did?
Please tell me cause I just have to know
Whatever I did I am sorry, please forgive me
I made some mistakes and I want to fix them
I wanna make it right again between us
Here I am crying a million tears for you
I've tried so hard to make you happy
I didn't mean to make you mad
Please come back
I want you to know I love you more than anyone in the world
I'd do anything just to you back in my heart
I would walk a thousand miles to get you back
Here I am stuck in the rain trying to get you back

He's

He's everything to me
My superhero, my life
He's all I think about day in and night
He's so sweet and sensitive
He treats me like a princess
Like no other guy I've ever met
I know he's the one
He's always around when he can be
He brings me a dozen roses every month
He's super and cares about me
He knows how to treat a girl with respect
He doesn't keep promises that he knows he can't keep
He's my prince, my strength, my security blanket
He's my lover that I'm deeply crazy about

How Are You?

Just sitting here thinking about you
Thinking about how you use to make everybody laugh
Wondering if your doing ok
Every since you left things haven't been the same
I want to call you and tell you how much everybody misses you
I really miss you
I want you to come back home
Where are you?
What have you been up to every since you left that foggy Tuesday morning?
The thing that I want you to know is that I like you more than friends
All the times we shared together
You've always have been there for me
Now I don't know what to do
I wish that you would come back and tell me that you will stay and you feel the same way about me

How?

How can I feel this way about someone I barely even know?
This is a crazy love shot feeling that I can't control.
When I talk to him I want him more and more.
How can I be this crazy about him?
How can I fall like this?
He knows me better than I do and he barely even knows me,
and it scares me.
How do I know if he's the one I truly love?
We have so much in common and he loves me for me.
How do I know if he's it?

I Am Me

I don't care what you may say or think
I am me and I'm not gonna change
I don't care who you are
Its my life
I am me and me wants to sit in dark
And imagine life if you were still here
I don't mind of your thoughts and fears
Sit back and relax for once
Always trying to change me
Why?
Cause I am me and no one can change me
I am the girl who writes and cries
The girl who cares to much
I am me no one can change me
Not even a guy can change me
People needs to take me for who I am
I am me
The girl who loves sports
Why would you want to change me?
Its my life so sit back and watch
I'm gonna stay who I am
Cause I am me
The girl who wants to run like a horse
Just want to chase the stars
The dream of the life time
Why would you want to bring me down?
The girl who wants things never to change
I will be the same thats the fact
Changing me isn't gonna change the fact of this life that I live
I am me
Do you get it now?
I don't want to change
Its my life and I am me
The girl who laughs about anything
The one who grooves to music
I can face the facts that I'm not like the other girls
That's the way I want it to be
No one can change me
No one can erase my past and write it all over
Its been written and I have to live with my mistakes and my fears

I can't handle not being with you
You take my breath away
Everything you say is to real to believe
I can't handle holding my feelings inside anymore

I can't pretend that I don't love you
Your my dream come true, my prince, my everything

I Could Not(But I Do)

I could not care about you
I could not be there for you
I could not love you
I could not be with you
but I am
I care about you
I am there for you
I do love you
I am with you
I get tried of you saying what if
What if I walked away and left you
Left you all alone
Left to fall apart
You know me better than that
I would never walk away and leave you
Leave you all alone
Leave you to fall apart
I love you and want to be with you
As long as I am with you nothing can change the way I care for you and love you

I don't ever want this day to end
When I'm with you my whole world
stops spinning
I don't ever want to let you go
With you I feel like that's
where I belong
I don't care what other people say
Cause your the only one that
I can hear
I don't want anybody else
Your the only one that I could
ever love & spend forever with
I don't want to ever lose you
Your the only one that I have
ever loved

I Got To

This year has been the greatest
I got to spend more time with you
I got to see the true side of you
Now I can tell everyone that your real
That your not just some fairy tale
I got to see something that I have never seen before
I got to see what it was like walking in your shoes
I got to walk and talk with you
Walked on the beach, watching the sunset
This year has been wonderful
I could not ask for more
There is a puzzle piece missing and I found it
I love you so much and I can't let that feeling go
I got to see the true side of you
You taught me so much over this year
Now we can talk more about us instead of nothing
I hope our love lasts....because I can't see myself with anyone else
I am so glad I got to see who you really are

I Knew

I knew that one day this would happened
I couldn't stop it I didn't even try to
Because I knew we were through
I knew that you cheated on me
I didn't want to believe it because I trusted you
My heart was broken once again
I'm sitting here in tears looking at a picture of you
Wondering why you did this to me
The clues were right in front of me but
I just threw them away
I knew it was too good to be true
I knew that it was over when you left me a voice mail saying
'we need to talk'
A year we spent together
Which was wonderful
You there by my side
Now I wonder if the year that we were together you were with some other girl
But I told myself it couldn't have happened
I knew that you were through with me
I knew I love you
I knew I cared when we went on our second date I knew

I Know A Girl

I know a girl who hates her life
Who wishes she was dead
Everyday she cuts wanting to die
Wanting every thing to go away
Her parents don't know shes there
Shes alone in this lonely world
Wanting things to go away

I know a girl who wants to die
who wants to be notice its no surprise
She's had a hard life
Everyday she hides
she's wanting to die
Screaming out loud I WANT TO DIE
Listening to her dark music
Crying on her bed
She knows that theres no hope or help for her
her room is painted black with dark red roses
she loves to bleed cause thats all shes ever known
One last cut she says but then she keeps on until she hits the vein
Now shes lying there all alone in her room dying on the floor
Screaming for help no one knows she there
Now its to late shes gone
All of her fears are now memories her journal she kept is now framed
cause thats all that is left of this lonely girl

I need to live a little
I need someone who can help me

As time fades away
I sit and think of how things were
Holding a picture of you
Wishing you were here with me
Cause since the day you walked out of my heart
I've been devastated
Pacing back and forth thinking of a way to get you back
I need you, I need my true love
When you left I lost a part of my life
I never knew how much I loved you until now
Please come back
Please come back and tell me that you won't ever leave me again
Cause what we have is to strong to lose

I Pretend

I pretend that every thing's OK
when all I want to do is breakdown
why cant people take me for who I am
It shouldn't matter what you look like
What you want to do with your life
I pretend that I don't care what they say
but deep down I fall apart
it seems like I'm hated by the world
no where to go no where to hide
just holding my pillow tight
wanting this to disappear
why cant I live inside my dreams
where I can be myself
don't want to stay where I'm
not wanted
why do people judge me
if they don't know me
it just rips me in half
when they say things that
aren't true and it spreads everywhere
and your alone wanting to stay shut up
holding your pillow tight
with the music up
crying yourself to sleep
I pretend I'm OK but
I just want to fall apart

I Pretend Part 2

I pretend that I'm ok
Trying to hide deep down in myself
Hiding these tears behind my eyes
I pretend that I'm happy
But I'm really broken
Broken by everyone & everything
I pretend to be upset but I'm
Really crying for you
I pretend that I'm not scared
When I really am scared
What no one knows don't hurt
So what if I hurt everyone around me
They have hurt me twice as bad
I pretend that everything's cool
When everything is heat on the inside of me
I pretend I'm ok but all I want to do is fall apart

I Still Have Memories Of You

The memory of you still haunts me.....

I thought you would fall in love with me
I guess it was just a dream another crazy dream about you
I thought I would be you're everything
I guess I was wrong once again

I've changed since the last time we talked
I've cried a thousand tears and shed some blood
and its all from you
you don't know it but it is

i loved you i still cant let go of you
you were my everything
where did i go wrong?
I never knew i cared about you this much

everything i do i think about you
no matter where i am who i am with
i loved you
I wanted a happy ending

like a fairy tale but in my own way
i feel stupid for falling in love with you
after all i hardly know you
it just hurts so bad when you think you've found the one

and i thought i found him
but i guess it was just a stupid daydream
a Cinderella story that never came true
i miss you so much to bad you cant see the inside of my heart

Just sitting here, can't get you off my mind
I don't know what to do

I don't know which one I should choose
Your the one thats always there for me when I'm down
I turn around and your there
You know what I like
You always make me crack a smile when I'm down
I think I love you
After all the things we've through together
We had so much fun
Your the only one who knows what turns me on
I love you for that and I always will
Please tell me that you feel the same way about me to.

Now I could care less what they say
I used to keep my heart open
But now I keep my heart closed
I used to say somethings that was on my mind
But now I keep a lot of things to myself
I used to be into girly-girl styles
Now I just wear my own thing
I used to let the tears show
But now I try to keep the tears behind my eyes
I used to never go anywhere hardly
Now I go like crazy
I used to be boy crazy
But now I have guys that are friends for now
I used to be like the other girls

Do you see her over there?
Can you see what I see?
That she's the coolest person I know
She may be different but so what?
So what if she used to cut herself, so have I
It doesn't matter what she wears or what her name is
Always running from her fears she has nobody on her side
She's so broken inside
I wish you could see what I see in her
That she's nice and very polite
She doesn't down you for no reason
I wish you could see what she's been through

Just because she's not like you doesn't mean you can't talk to her

I'm Broken (Don't Worry About Me)

You can find me hidden in a corner crying a million tears
I'm broken can't you see
When you see me in public I smile
But its not even real

I try to act normal and be happy
But what is normal and happy just isn't me
It will never put a real smile on because I'm never happy
I'm always broken but no one knows it

Pain is building up on the inside
I've put up this brick wall around me
No one can tare it down
I'll just rebuild it

Don't bother trying to save me from this life
Its impossible to do
Don't bother trying to fix me
Cause its already been tried

Don't worry about me
I'll be okay
But one day I will be fine
And everyone will know then that she really was broken

I'm Not Okay

I've got my heart broken once again and its not from anyone but myself
I know I'm not gonna be a perfect girl but sometimes I wish I could fly
So I could get of this place, fly out of my cage
It hurts so bad when you have no one to talk to and no where to run to
Can't you see that I'm not okay I'm depressed once again and it hurts like hell
You know I'm alright I promise
Can't you tell that I hide my tears behind my eyes and put on my smile thats not real
I've got this pain balled up inside and I want to punch the wall
I'm no okay
I'm never gonna be okay
Forever I will be alone sitting in the dark hurting deep inside of myself
You don't know what I've been through
I've been kicked around and stabbed in the back quite a few times
Welcome to my life
I'm hiding all this pain but in this writing I'm getting all of it out
I've been hurt and lost with no one there to help me
Well I'm not okay
You'll never know how I feel cause I know you don't understand what its like to wanna break down and die
To wanna scream so loud and cry
Welcome to my life
I swear I'm okay
I promise one day you'll see that I'm never gonna be okay

Now that I am invisible
What can I do to so you can see me?
Your the one who looks right through me
Now your sayin that you knew me
Just walk on by its not like I was standing there
You don't know that I exist
Your the one who looks right through me
The one who said that you knew me when I was invisible
Passing me by without a clue that I'm standing here
Do you know that I'm alive?
Your the one who sees right through me
Saying that you called me
that you knew I was invisible
Your telling me that you knew me all along
That you knew me while I was invisible
Like the stars in the sky no one knows I'm there
Your the one who looks right through me saying that you knew me when I was invisible

Its Been To Long

Three years has come and gone
Since the last time I saw you
I've been wondering where you've been
And who you've been with
I know we said our goodbyes
But I just can't get you off my mind
After we went our separate ways
I knew I just made the biggest mistake
By letting you walkout of my life
All the moments we shared
Lying out watching the sunset
This is moment I will never forget
I take out a shoe box from under my bed
In it are pictures of you and I
We were so happy but we had our time when we cried
One photo I found was when you and I went to Miami
I nearly cried but I cant help it
I miss you
Three years has come and gone
Its been to long since I've seen you
I wanna see you again I miss you

Its Okay

Its okay to cry
Its okay to be alone
Its okay to lose your self control
Sometimes you just can't help but wanting to punch the wall
Wanting to give up your life
Its okay to hold your stuffed bear when your having problems
Its okay to think that nobody cares
Its okay to feel like your the only one who feels this way
You feel like everyones laughing at you and no one cares at all how you feel
Its okay to let your emotions go
Everything will be okay, I promise

Just Tell Me

Just tell me everything that I need to know
Cause I don't think i could live another
minute without you
You are so amazing and so talented
I never would have thought that
I would fall for you
Your charm and smile is perfect
Things you say and do are so real
to real to believe
Feels like a fantasy dream that I can
not wake up from
Your hugs feel like I am where I belong
Your kiss goodnight feels like a night
in heaven's zone
When I am with you nothing else matters
and I can be myself
You are one-of-a-kind and I hope you
never change
I will never let you down
I will always be there for you when I can
Cause I love you and you make me feel like
I am an angel

Just To Let You Know

Wondering around in circles looking for you
I can't seem to get rid of these feelings
Just to let you know I can't breathe without you
I can't walk straight, think maybe I'm in love with you
Just to let you know these feelings won't ever die
I need you, I feel you, I see you everywhere I go
Nothing to lose but just you
I can't let you go again
When your around my heart beats faster
Wondering in circles looking for you
I can't seem to let these feelings go
Just to let you know
I can't sleep or eat
Cause your always on my mind
My heart is jumping for you
I need your love tonight
I promise no one else can take your spot in my heart

Killing Me

I wish things were back to its normal self
Cause this life I'm living now is killing me
No more loving you and its killing me
All these lies I've told I've buried them for good
I want to start fresh cause I'm sitting here all alone
with no one to kiss goodnight
I've tried to bury this behind me cause
its killing me

Let Go Of The Past

Let go of the past
Cause I need you now
I need you more than ever
Forget the fights thats over and done
Can you just listen for a moment?
I need you, I need the one who cares
Just sit there and hold me while I cry
I used to tell you everything and you'd listen
Now you act like you don't know me
You're being a jerk, being selfish
But something in my heart still wants you
I'm through flames of hell
I need you, please let go of the past
It can't be undone
I still love you and need you
So please hold me tonight
Take away this pain
Wipe these tears away
Fight these fears away
I need you now more than ever
Let go of the past
Forget about it, it can't be undone
I'm sorry about it, about all the fights
But let it go its over its in the past
My heart cant let you go
I need you now, I need you more than ever
Please help me out I know you still care
I can tell by the look in your eyes
Hang up the past I need you
I can't let you go I've tried
Every pathway I go it leads me to you

Let Me Know

Do you get my phone calls?
Cause I've called you for a about a month now
I need to know where your at
Cause I miss you so
Since you've been gone
I've lost a friend
I poured out my life into you
And now your gone, God knows where
I need to know whats going on
Return my calls cause I know you get them
I'm lost without you I can barely breathe
Do you understand what you mean to me
You've picked me up and turned me around
You know my darkest desires
Please call, write, just let me know whats going on
I need to know your the one I've turned to for everything
I've trusted you and I thought you trusted me
I thought you loved me but was it real
Can you let me know whats going down
I've loved you its true
But your through with me aren't you?

Lonley Days

Lonely days without you makes me miss you even more.
Crying for no reason at all. Ready for you to come back home.
I wanna see you, I'm tired of all the lonely days without you.
Nothing is gonna change the way you make me feel.
No one will ever understand it.
Laying on my bed staring at the phone wanting you to call.
Thinking should just call you myself.
I love to much to give up what we have.
You're the only one I will ever love.
I'm so lonely, tired of the lonely days without you.
I'm ready for those days to end.

Love Is When....

Love is when you hold me tight and tell me that everything is going to be ok.
Love is when you do everything for others before yourself.
Love is when you make time to spend with me.
Love is an outrageous thing, it can make you melt or break apart.
Love is so outspoken by words and motions you make.
Love is when you kiss me, that's when I know love is real.
Love is when you don't let me go and when you lock me into your heart and throw away the key.
Love is when no one else but you can wipe these tears away.
Love is when we share silly moments like this.
Love is when we can trust each other no matter what.
Love is when things are rough and you come and make things smooth again.
Love is when I'm lost and you come to rescue me.
Love is when we can share anything with each other.
Love is when I'm lonely and cold and you come keep me company and hold me to keep me warm.
Love is when we give each other on our wedding night.
Love is when we know that the time is right to do this.
Love is a strong bonding that only two can share.
Love is when we cuddle outside while watching the stars.
Love is when you have that feeling no one else but that special someone can give you.
Love can break your heart, it can put your heart back together, it may take you through many different rides, but stick with it. No Matter What.

Love Struck

All these sleepless nights are killing me
I can never sleep cause you're always on my mind
I lie awake in bed thinking about you and what you do to me
Can't you see that we were meant to be?
All I do is think of you 24 hours 7 days a week
You just don't know what you mean to me
For the first time in my life I am love struck
It feels so right but I know its wrong
Don't you see what you do to me?
When I try to sleep I dream of you and it feels so real until I wake up then I can't go back to sleep cause you're on my mind
I wonder how it would be if you were here with me
Here by my side I want you to be
I think Cupid just stuck me with love cause I've never felt this way before

Lying awake at night can't sleep because all I hear is your voice wandering am I going to see you again. Lying awake and crying at night because I don't know where I belong. Everybody treats me like crap All I want to do is move away from you and everyone else I want to take off so badly. I can't take it I don't like it here there are to many walls built in my life that I can not erase.

i'm not trying to be selfish
I just want something that I can call my own
Something to hold late at night
While I'm waiting for 'the one'
He promised me forever
Forever I will wait
Until he shows up
I hold my pillow tight
I want something that I can call my own
He is mine and all mine he's my best friend and lover, like no other i will love him until I die

Mirror, Mirror

I look into the mirror
I ask myself 'Why can't I look like her? '
She's pretty, everything a guy wants
The reflection of me is nothing compared to her

She has everything, every guy
I stand in the mirror
Asking myself 'What do I have to do to get a guy? '
The reflection of me has faded away as I walk away

My reflection is nothing but lies
Slowly I walk back to mirror
Saying like the witch 'Mirror, Mirror on the wall who

is the fairest one of all? '

My reflection fades has her's appears
I jump back and walk away once agian
Knowing that I can't cry
Cause I know thats the only truth

She is better than me and always will be
I will never live up to her
The reflection in the mirror has told me nothing but

lies
Lies that has taken over me
She has everything and everyone bowed down at her

side
Like a queen she think she is
Like the ruler of all nations

Mirror Mirror On the wall
I know I am better than she
One day some how some where
I will be married and happy, more happier than ever
One day I will go back to the mirror
Saying 'Mirror, Mirror on the wall who is the fairest

one of all? '
It is me of course...That is one day one chance I

have to prove to her that I am better than she
That I can get a guy for once
Reflections is slowly coming back
Now the lies are covered in the past
And the truth is finally coming out

My Daydream

Everyday I just stare at the walls just daydreaming of you
Thinking about our good times we shared
The times that you were they're for me when I was down
Daydreaming of your pretty face
Knowing that we were meant to be together
I love when you're around
All my fears just seem to go away
I forget about everything else
When you hug me it seems like I'm in heaven

My Dreams

When I close my eyes I tend to dream of you. I tend to dream of the way you made me laugh. Boy how I miss that. I still which I could hear your voice on the telephone just once more. Instead of dreaming of your voice. O how I want to come back to you so. Ive tried so hard to call you. During the day when I'm at home I tend to sit there and dream away of you. I want you back, I know I'm the one who left. I hope you can forgive me. I hope you dream about me to. My dreams are pure, but my heart is pure for you.

So please forgive me and take me back into your heart. I was wrong and you were right I cant live without you. you are all I dream about, think about. I talk about you the way you use to be there for me when i'm down. But now I miss that. I was cheating on you with some other guy. Thats why I left you but when me and him moved in together he started abusing me, so I left him I want you back but how can I tell it to you. After all the things i've done to you. If you don't take me back I guess I don't blame you. I guess my dreams are just a saying that I shouldn't done what I done but I regret it.

My dreams are pure and my heart is pure for you. Now that i'm here all alone I cant do anything.I need you back want you back I promise I'll change. I'm depress since I've left I don't know what to do. But I want to tell you one thing for sure I Love You! .

My Perfect World

I space out thinking what a perfect world would be like
This pain would not be here
You would still be sitting beside me
In a perfect world I would have friends that cared
I would not have to worry my life away wondering if I'm good enough for anyone
My perfect world would be happy & no one would get their hearts broken
No more lies, people dying
I would be living my dream & have the guy of my dreams

My Poems

The poems I write symbolizes how I feel
The pain that I have been through
The grief the mistakes
Everything you can imagine
I write love poems
There not real but there about my fantasy's
Just cause I never had a boyfriend
Don't mean I can't write about love
I write about the sadness I've gone through
My grandpa dying took away my breathe
So I wrote poem to grieve
By writing I get away
I sit all alone in my room
Thinking of what to write
Writing so I can escape this so called life
Its not to get attention its to get my feelings out
Its so the whole world can see a different me
I may not be the perfect one but I have words
That I want to express
I may not get people's attention
But when they see the things I've written
There hearts will break into when they read about
death and me wanting to die.

Never

I've never had the chance to tell you how I care and love you
It kills me that I never told you how I feel
I never thought I would be alone here where I don't belong
The only place where I belong is into your arms where you would never let me go
I never had the chance to kiss you one last time
I love you with all my heart
Come back, I miss you, never thought I would be without you

Never Had A Chance

Wrapped up in care
Was what I wanted to say
But you never gave me a chance to speak
When I was alone all I could think of was you
Knowing that I love you
I wanted to call but I could not get the strength to pick up the phone
No matter how hard I tried to call I just could not bare listening to your voice
For I am afraid I will want you more & more
There's no more love between us I know
But you never gave me a chance to say how I really feel
My words were never said & I never saw you again
But now I'm happier than I was with you

No One Can

No one can take your heart from me
They can not erase the memories of you and I
No one can separate us
They can not take our love away

Too strong to be broken
They can try to make us fall apart but they won't succeed
Cause our love that we have is to sacred for anyone to take from us

No One Knows

No one knows the pain that she goes through.
Everyday she hopes the pain will just disappear.
She prays that everything will be ok. No one knows
all the tears that she cries. Everybody treats her like
a person but they don't know how she really feels. She
writes suicide letters to herself and hides them. So no one
will find them. She regrets the way that she treated her parents. She lies in bed
thinking, where did I go wrong?
Why was I so mean to them? Now that there gone she
regrets everyday of her life. No one knows exactly what she did
to her parents, but they know she treated them really bad. She
would sneak out at night and do different things. She only wishes that no one will ever
know how she treated them. No one knows that late in bed she cries a million tears
that cries her to sleep.

No One Understands Me

I've never have felt so alone before in my life
I just feel like nothings going right and all I wanna do is cry
Nobody understands me
They don't wanna know the true side of me
Everyday I run and hide holding this pain inside
Trying to hold on to whats left of me
It seems like I have no one in my life
They said they want to help
But there no help at all
They can't understand me at all and
What I want to do no one approves
So I'm stuck here alone
Drowning in my tears
Waiting and hoping that someone will come and save me

Obsession on Cloud Nine

Maybe I am obsessed over him but maybe I'm just in love with someone I hardly even know and why shouldn't I be?
We're a lot a like in many ways you see and I know this may sound crazy but I love the way he talks and the way he makes me laugh
Sometimes he even has me crying cause I'm laughing so hard
We can talk all day long if you will let us
Sometimes when we talk our conversations are so random and sometimes there's even a silence between us but we have fun talking
He listens to what I have to say and I listen to what he has to say
He loves me for who I am and he respects me
I don't have to tell him anything I don't want to
Over obsessed you think?
Maybe it's the tension in the air that surrounds me when I talk to him cause I feel like I'm in love
He's the one I seem to think of and everywhere I go he's the only one I see
This obsession that I have is driving me a little crazy
You see he's the only one that I've felt for this way
I'm spinning on cloud nine and it feels so great to finally find the one for me
I know there's no such thing as perfection but in my eyes he's perfect to me

Only You

No one ever makes me feel the way I do
Only you make me feel this way
I've never loved anyone until you came along
You stole me locked me into your heart and threw away the key
Only you could pull that trick on me
Only you can make me love you this way
I'm under a spell that I can't pull through
I've tried to break through this spell but you told me to stay
And the sound of your voice makes me stay with you

Over and over again I think about how you bring joy and laughter to my heart
Over and over I can tell that you love me and that is real love that cannot be broken
Over and Over I think about you and how you don't care if I make a fool of myself
Over and over I see that I can be myself and you still stick around me
Over and over I say to myself how lucky I am to have a guy like you
I feel so beautiful when I am around you
Over and over I cried knowing you might not stick around
Over and over I see you the real you that I love so much about
You care for me and love me
You tell me that everything is okay
That no one can take my place in your life
Over and over I think about it
About you and I hoping that you are the one for me
The one that is mine forever

Pain

Can you see the pain that I go through?
All the tears that I have cried over the years?
Does anyone even care?
It seems like I am all alone in this cold world.
No one to love
No one but me, myself, & I.
The suffering by other people.
All I am thinking about is cutting myself.
Why?
I thought I told myself that I'm not even suppose
to think about that.
I like to be left alone but no one seems to listen.
I like to sit in my room all alone.
Just listening to music & I feel like I'm in heaven.
It takes all the sorrows, tears, & pain away.
It feels like I'm all alone & that's the way
I want it to be.
No one even cares anyway so why should I?

Pain & Tears

Ten million tears that I have cried in a day. All these tears are from pain. Pain from cutting myself, pain from everyone around me. No one cares until its to late. Until the day that I wanna runaway & kill myself. That's when people cares, or when I look upset & not talking they think something is wrong. There's always something wrong with me. Just look at me, I am not the person what people thinks. Anyone can look at me & say that I am sweet & innocent. That's how things used to be when I was younger, now that I am almost an adult & ready to be on my own. Nobody understands that sometimes I want to be left alone, alone in a cold world that I am living in. Everyone has caused all these walls around me that I have built. you can tear them down but I can put the walls back up. All this pain hurts me. Especially when I can't talk to no one but one person that lives so far away. So now I am stuck here crying in pain. Let me be & don't worry about me.

Painful World

Seems like just yesterday that my world crashed into a field of hell
I just feel like crying
No one can help me
No one can save me from this pain & suffering I go through
Everyday I lie awake in my room just wondering if this pain is going to stay or take a vacation from me
I'm broken inside & out
No one can put me together again
Who would want to since everyone hates me in this world
I'm just so lonely in this little world of mine
But I actually kind of love it
Just let me live this boring painful life of mine until the day that I'm buried into the cold hard ground
When I fall flat on the floor just let me lay there
You shouldn't even care if I get up or not
You didn't care anything about me when I was on my feet
Just leave me lying on the floor
Especially if I'm bleeding just let me bleed to death
Don't bother helping me
It's to late to help me
You didn't want to help me then so why in the hell do you want to help me now?

Rain

I love it when it rains
No one can see these tears fall
And the rain washes all this pain away
I feel like brand new

then the rain passes over and the sun shines again
and i fall apart all over again
having the same thoughts but in a different manor
I'm different then you I'm somebody without a clue

without a clue where to go
who to turn to
where to run to

i just keep falling on my own two feet
running around in circles trying to find myself
I'm without a clue on who i am

And I love it when it rains
No one can see these tears fall
the rain washes all this pain away and
the aches stop pounding

but i still feel alone and insecure
wishing i had somewhere to run to
besides my bed late at night holding the pillow tight

wishing that my reflection in the mirror wasn't me
wanting my reflection to fade away for good
throwing away what i used to be
i want to be free

the rain upon my skin feels so good
washing the pain the aches away from me
crying because i know no one can see
running through the puddles to feel free

The rain brings a whole new meaning to me
it makes me feel so alive
rain rain please come back to me
help me get rid of this pain

Ready To Rid These Chains

Looking at the clear blue sky
Just to see what I can find
All these years nothing but pain & misery
Ready to get rid of these chains
I want to leave this all behind
Maybe I need a new town
So I can start all over
Go somewhere far away where no one knows me
Where I can just hang & be myself
I'm tired of this town
Cause it seems like I have no one I can trust
All these walls surround me
I need to be free I need to escape this
I want to fly away in the clear blue sky
Cause all these years has been pain & misery
I'm ready to get rid of these chains &
Leave this all behind
Maybe I need a new town
So I can start all over
Somewhere far away where no one knows me

If I could redo this moment it would be different
I wouldn't have said that I didn't love you
I think I'm just scared to fall in love
To be honest you're the one that I think about
If I could redo this day it would be the best day ever
I just want to be with you
I am sorry that I said I didn't love you
I'm just scared to death to fall in love once again
Give me another chance please
I know how I can make it up to you]
Just want to be with you
My world is spinning out of control
My last love one didn't go so well
I guess I'm just scared that you will hurt me also
I didn't mean to hurt you in anyway
I wish I could redo this moment and I could show you how much
I really do love you

Runaway

I wish that I could escape this and runaway from it all
Recreate a place, a world to call my own
Where I could live alone and be who I want to be
I look at these scars to see this life is actually real
All the pain the blooded tears are starting to come back into my life
Just walking down this road wanting to die
Wishing that I could runaway to another day twenty years from now
All this anger balled up inside wishing this pain
Would just turn into gold
Taking this day and shoving in down the drain
Its just a waste of time I wanna crawl somewhere and rot away
Taking my fears watching them fade away and
Crying all this pain away

Runaway Part 2

Don't you see this plain inside of me
Lying here in the tears that I cry
Trying so hard not to let myself go
All I want to do is just runaway
Runaway from everything and everyone
Looking at these scars to see they are real
As real as can be
Wanting everything just to disappear and
Never return
Feels like I'm living the same day over again
Its just so hard not to cry
I'm sitting here in my own tears that I cry
It seems like no one understands
I just want to runaway
Far away as possible
Sick and tired of this so called life
It feels like I've been cursed forever and ever
Just wanting this to go away
Let me live this life in the tears I cry
And the blood that I bleed

Say My Name

when the world is tough and

its cold outside just hang on
you can pull through all you

have to do is say my name

and i will be there
there by your side
holding on to you
just hang on all you have to

do is say my name
and i will be there

cause i know you would do

the same for me
when your alone and

feeling down all you have to

is say my name

I will run to you
I would walk around this

world just to get to you
all you have to do is say my

name
i would do anything for you
i would walk in the pouring

rain just to get to you
if your scared or you need

someone to talk to i will be

there all you have to do is

say my name

when your depressed don't

hesitate to pick up the phone

and call me
just say my name and i will

be there just to let you know

i care

I would give up my life just to be with you
when you need me don't hesitate to say my name
cause i will be there in a single heartbeat cause theres no where id rather be then to be with you
so if you need me just say my name and i will be there
when your world is cold i will be there to make it warm again just say my name and i will be there
cause theres no where id rather be than to be with you
dont hesitate to say i love you

Shattered Heart

My heart was broken into two pieces and now
Its shattered into a trillion pieces
Shattered by all the pain I've hidden
Shattered by everyone in my life

now I've got mixed emotions
Mixed emotions about everything and everyone
I'm so lost, lost in my tears
I'm confused, confused about my life

I'm trapped inside my fantasy thinking
That we should live happy ever after
When I slipped from my fantasy I know
We can't live happy ever after

My heart is shattered by everyone
They always hate on me and down me
My heart is now a puzzle
But a puzzle that will never be put back together

All these emotions I have
All the pain I've hidden
My Shattered Heart
Was caused by people

By all the people I know
Good or Bad
That does not matter
Its all gonna turn out bad
Sooner or Later

My shattered heart was caused mainly by
The people that I love

Shes Everything That I'm Not

Maybe I am hating
Maybe I am just jealous
But I know a girl who gets everything she wants
Shes everything that I'm not
She has a boyfriend
The world at her side
Already has her future planned
When I'm trying to figure out my plan
Shes everything that I wanted to be
She was homecoming queen
I was just the girl in the stands
Shes going to be a moviestar
When I want to be a sportscaster
She laughs in my face saying 'you will never amount to anything'
'I'm everything your not'
Shes all so perfect
Has the guys after her when I have never had one guy call me
Shes everything that I wanted to be
She has everything that I don't
Maybe I'm jealous
I try to tell myself that I know shes just an accident waiting to happen on the red carpet

She's Me

Do you see this dying little girl?
Do you hear her screaming?
She's so alone and filled with pain
With no where to go but deep down inside herself

She has no one by her side
No one to kiss goodnight
She lies in bed crying a million tears

Do you see that she's broken
She's cried all her salty tears and now her tears are blood
Cried so much that she lies in her own tears
Wishing this would go away
That dying little girl is me

Shouldn't Have These Feelings

Here I am all alone staring at these four walls
Wondering why your still on my mind
I'm trying to think of something or someone else besides you
I shouldn't have these feelings that I do

After all I don't even know you all that well
I should know better but I don't
I can't help these feelings that I have for you
And I don't know why

Why can't you get out of my head
Cause the more I think about you
The more I will fall in love with you
And I try to push these feelings away

But they come right back
Every time I talk to you I get a funny feeling
That maybe we are meant to be
Then again I'm lost in these feelings for you that should have never taken place

Since The Day

Since the day you walked into my life I have changed
You took me in and locked me into your heart
I have never felt anything like this before
Since the day you locked me into your heart
I knew that you really cared about me
You took me to places that I've never been to
You make me feel like nothing can go wrong
I feel secure cause I know you will protect me
Since the day you came into my life my whole world has changed

Something About You

You keep on the edge of my seat
You know when I'm down
You know how to bring me to my feet
You know me inside & out & it drives me crazy
You know everything I'm about to say
Never in a day could I go without being with you
When you hold me tight I know everything is going to be okay
You always wipe my tears away
Everything about you sends shivers going up & down my spine
There's something about you that I can't put my finger on
It's like a strange sign that's hidden inside of you
When you are with me I don't know what to say
Its you & I together that makes us, us
No matter what anybody says or does you love me for the way I am!

Sometimes

Sometimes it seems like nobody's on your side & your left wondering where did I go wrong. Seems like no matter how hard you try you never do anything right. Sometimes it seems like no one understands you. You stay lying awake hold your pillow tight & crying yourself to sleep late at night. Sometimes I wonder how I go all day without falling apart. I keep my tears buried deep into my eyes & steadily they want to fall. All this pain I've hidden is now starting to show. SO now everyone knows that there's something wrong. Every thing's happening & I don't know what to do. Cutting isn't the answer no more. For I have tried to tell everyone how I really feel.

Still

Its been two years and I still remember how you broke my heart into
You hurt me so badly
I still have bruises that are still trying to fade away
There are tears that still want to fall
How could you do this to me
You told me that you loved me and I was stupid enough to believe you
I was almost dead thanks to you
Blood stains still covers the walls
How did I put up with all of this
You stole me by telling me everything I wanted to hear
I still feel you throwing me against the walls
Pain still remains inside
How could you do this to me?

Stuck By Me

As the years pass by you still stuck by my side
No matter how hard things got for me and you
My dreams went down the drain after everyone laughed in my face
All those hard times you still stuck by my side
That dream meant more than anyone could have imagined
You lost that big game your senior year but you still made it
Five years later we're still together side by side
Living our big dreams together just as we dreamed
We still stuck by each other having the best time of our lives

Stuck Here Without You

Never would I thought In a million years that I would be stuck here. Stuck in this world in this place without anyone to hold me tight. When its cold outside all I can do is think of you and how we used to sit by the fire together. Walking out all alone this road I call home. The reason why I left wasn't cause of you It was because it was the right thing to do. It wasn't cause I didn't love you thats the only reason why I did was cause I love you. Always will, the day I left I cried a million tears. I knew this was better for you and I. Walking alone down this road all alone I think about how this could change. I knew I shouldn't left but when you caught me with the other guy, I knew I could never explain it. Thats the reason why I left. You thought it wasn't my fault, but you thought wrong it was my fault. Its my fault I'm stuck out here in the freezing cold with no where to go. No one here with me tonight...just me, myself, and I
I was such a fool to leave you but I know your happier without me.
What I did was wrong, I love you and always will.
My mistakes has taken me on this lonely and cold road....Guess I deserve it.

Suicidal Me

Wanted to die right here tonight
Poising myself with creme and ink
Trying to rid this pain take it all away
Wanted to run and hide

This is the suicidal me
Thought you never see it
Why is it so hard for me to die?
I wanted to die right here in my own room

Thought about cutting again
Blood running over my arm
Thats what I wanted but I didn't
Go that far

Why is so hard for people to see me?
Only when I'm trying to harm myself
I'm visible to everyone
This is the suicidal me

I wanted to die
Poisoning myself
Dying deep inside
My heart is blackened and cold

I think there's even spider webs inside of me
There's pain harming every part of me
Don't you see its been like this for years with me
I've been this suicidal girl no ones ever paid attention at all

All those poems, all the sayings of wanting to die
No one cares Dying deep inside
It's the suicidal part of me and its back
Welcome to my life thanks for acting like you cared

Now its gone I'm me once again but this time
I'm suicidal, no one can stop me
Tryin to make things better but they don't get better
Catch me if you can, I'm already dead inside

So try to save me from this so called life
I hate it here anyways thought you knew
No one knows me anymore
I don't even know me

All I know is that I'm suicidal
Yes! ! Dying and crying once again
I wanted help, but its to late for that
I didn't want help from you

Cause you don't know what its like
to wanna die, to be hurting deep inside

To feel all alone even when people is around
Don't you get it?

All you think is this is just something stupid
Trying to get attention to be the center of everyone
Its not like that all it never was and never will be
This is me the true side of me

I buried it for a while and now its back
I dug it up cause I missed it
Acting happy wasn't me
This is the true side of me

This is the suicidal me
This suicidal girl you never thought you'd see
You could have seen it before but you were blind
Blind as bat

It was right in front of you the whole time
No one saw it, no one even tried
Thats how I know no one cares at all
This is the way I knew it would come to

Take Me Away

Take me far away from here
I don't care where we go
I just need to get far away
Cause I cant handle being away from you

When I'm with you nothing else matters
All my troubles fade away
You wipe my tears away

Take me away from here
Take me where we can be alone
Cause there is no one I'd rather be with than you
These are the days that I love the most

Take me in your arms and never let go
With you I feel safe and secure
I know nothing can go wrong

With you I feel like I'm in heaven
So take me away from here
Take me as far away as possible
Lets go to Germany or France

Anywhere where we can be alone
Take me away from this crazy life
Take me away lets spread our wings and fly away

Take Me Away Part 2

I want you to take me away
We can go anywhere
I just want to be with you
We can ride around I don't care

Just take me away from this mess
Take away my tears and
Fight away my fears

After all these years looking
I found the one who's the best
Through the worse times and the good times
Your still here hold me tight

I wanted you to take me away
Take away my tears and
Fight away my fears

Take me away from here
I don't care where we go
I just need to leave this behind
Take me far away from here, hold me and never let go

Take My Heart and Whats Left of Me

I stood watching my life passing by
The faded pictures are becoming clearer
I don't wanna waste another minute
Stuck in the past trying to fix my mistakes

Cause I can't live another day without you
I want you and feel you holding me
But I'm broken and slowly turning into dust
I am torn inside

No where to go but inside myself
Trying to find a way to apologize to you
Cause I'm falling and barely breathing
Will you take what I have
Take my heart and what's left of me

Tell Me It's Over

Please tell me that its over
That your alright once again
It feels like my whole world is crashing down
I feel so helpless cause I can do is sit back &
Watch from afar

Please tell me that this is all a dream &
when I wake up everything will be fine &
You'll be right here beside me tonight

When I turn around my whole world turns upside down
Along with all these tears that I hold in my eyes
You take my hand & you tell me its ok
That everything is fine

All I want is for you to be okay
Cause I hate to see you this way
I can't do anything but wishing that it was me
Instead & asking God why this happened to you

Please tell me that its over & your coming back to me

The Day

The day you left was the day I melt
The day I wondered what was I gonna do?
Was you gonna come back
Scared to death that you was gonna get killed
The day I got my hug and kiss from you before you walked out the door
Realizing that could have been the last hug and kiss ever from you
Tears in my eyes as I see you get in the car with that uniform on
The day that I wanted to tell you about our child
I look at my wedding bad and remembered that day
I ran outside and caught you before you left that come back in one piece because our unborn child is wanting to meet its father.

'The One'

I'm the one who gets caught in the middle
The one who hides the tears behind her eyes
Trying to act all happy like nothings wrong
The one who gets picked on
No matter what I will be the same
The one who loves sports
Just like my grandpa did
The on who is misunderstood
By the people around her
The one who never gets the guy
I want one guy but does he want me
I'm just not sure
The one who is not sure about anything

The Way

The way I feel about you is indescribable
I'm breathless every time I see you
The way you love me for who I am
Standing by my side every step I take
The way you hold me in your arms where I feel safe & loved
When you're around everyone else seems to fade away & its only you & I
The way you make me do things I thought I never would do
It makes me feel like you own me
You're the only one that can make me feel this way
I would not trade the way you make me feel for nothing in this world

The Way I Feel

The way I feel doesn't matter anymore
Faking the smiles everyday not letting my true feelings show
The way I feel is that no one truly cares
Caring about me is like caring for an invisible friend
I'm not going to stay long to find out how people really see me
When I'm long and gone I don't want your sympathy
No one knows the way I feel
They can't see the inside
They only say what they see on the outside
They way I feel means nothing at all
Everyday I cry myself to sleep
Everyday that I wake up I put on my fake smile
Who cares about how I feel
This is just a game to everyone
But not for me
They I feel means nothing at all

There Are Days

There are days that I want to let these tears fall
There are days that I blame myself for losing you
There are days that I want to be alone
There are days that I wish I could change
There are days that I regret ever loving you
There are days when I get up I see you slowly fading away
There are days that I wish it happened to me instead of you
There are days I just wish I could float away
There are days I want to walk away from everything and start over
There are days when I don't ever want to wake up
There are days when I want to run from this
There are days that I live hoping that I don't make the same mistakes again

There's A Time

There's a time for tears
There's a time for I love yous
There's times for hugs & kisses
There's always time to talk
So tell me what's bothering you?
There's a time when we told each
other everything
So what's the difference now?
There's always a time to tell me
what's on your mind
I love you & you love me so tell me
am I doing something wrong?
There's always a time for driving
around
Please tell me what's going on?
There's no more time to waste
It's been a year since we have
been together
So many memories of us
We've laughed together &
cried together
So what's the difference now?
Sit down & talk to me
You know you can tell me
anything
There's time to talk

Thinking Of You

Sitting and starring into midair is all i do now since you are gone. Thinking of those days when it was you and I. We had some great times together that I shall never forget. Being with you was the greatest thing that ever happened to me. When you smiled it made my day brighter. There's no one in this world that could take your place in my heart. I still love you and want you. I just hope you can find a way back to my heart once again. Cause I sure do miss you, your smile, everything I miss.

Those Types Of Girls

Do you want me to be like every other girl in the world?
The girls who wear hardly anything at all
What do you see me as?
Why do you want me to be like those type of girls?
I thought you loved me for who I am
I'm the girl who is not like those other girls
I may be a drama queen
But it doesn't mean I have to dress like a hoe
Do you want me to be like those other type of girls?
The ones who lie to your face
The ones who use you for your money and your looks
Do you want me to be the girl who sleeps around on you?
You know I'm not like those other type of girls
So what type of girl do you see me as?

Too Late

It's to late to take back everything you said
You told me we were through for good
Now your coming back on your knees saying that you need me
It's just a little too late
Crawling back to me
Those words you said to me were cold
You hurt me so bad
You want me back but its too late
On your knees you took my hand
I wanted to believe what you said
Cold hearted I pulled my hand away
It's a little too late wanting to apologize now
You told me you never wanted me again
Now you made yourself welcome in my home
Begging for me back saying you're sorry
Its just a little too late I cant accept
Begging me trying to hold me like you use to
I just pull away and I said
Why do you want me now?
Just so you can hurt me again?
Its too late wanting me back again
I gave you my heart and you just threw it around
Like I meant nothing at all
Its too late wanting me back
I can't have a broken heart cause it's already been broke
You find out it's a little too late
You see it's been threw between me and you
I found someone better than you
I shut the door and walked off
It's just too late for you
I'm so over you

She felt like she was nothing
Felt like a nobody
All she could think about was getting away and finding out who she was
She never knew she would find you

The day she found you her eyes was filled with joy
Something nobody saw before
You wiped away her pain, got rid of her fears
She was nothing before until now
Now she can breathe once again
She can laugh and do all the things with you
She never felt so good in her life
Until the day she met you

Unwanted

Do you know how it feels to be alone?
Do you know how it feels not to be wanted?
Do you know how long I've waited to cry?
Do you know how it feels to want to cut and die?
Do you know how it feels to sit all alone in a cold dark room?
Do you know how it feels to have your back stabbed?
Do you know how it feels to fall flat on your face?
Do you know how it feels to lose the people you love so dear?
Do you know that I'm here?
How can people tell me that every thing's ok when my world is dark and carefree.
lonely everyday and night even when I'm around people.
Do you know how it feels to feel that way?
It feels like I'm unwanted
Even unwanted by the people I thought loved me
Does anyone hear me scream at the top of my lungs?
Unwanted even by the things that surround me
Unwanted even by me

Walk Away

I walk away from everything
Trying to hide the way I feel
I used to live with a wall around me
And never let anyone in
Every since my grandfather died
I have faced more pathways then ever
No one understands who I am or
How much I loved my grandfather
I lost something that can never
Be replaced a best friend
I always change who I am
I act different around certain people
I try to hide tears behind my eyes
And pretend to be ok
I walk away from it all
I bury it trying to for get it
Forget the life I once knew
Trying to figure out
Who the hell I am
17 I should know who I am
Walking away from everyone
Not wanting them to come close
Afraid I will hurt them
Everyone talks about stuff that
I can never relate to
When they ask what about you
I just walk away
Walking away from my fears everything that
I have ever seen or touch
I've never had dream come true like most have
Never had anyone walk into my life
I just walk away from my life not wanting
To face to the facts
Just want to live in a fantasy world
Where I can stay and not walk away

This is it everything that you have gone through us now memories.
All of your happy and sad times in high school have now faded.
A new life has begun on your own.
No more waking up dreading that this day will never get here.
Now the day is here and your missing everyone before they even
walk through these high school doors.
Every memory is left unsaid.
On graduation day everyone cried, I even cried.
Knowing that I may never get to hang with my friends ever again.
Hoping they'll be here for my graduation crying with me.

I'm always the one to blame
I'm always the same
every night I go to sleep
Wondering why can't I never wake up
Just wish I could live in my fantasy
Where everything is the way I want it to be
Where I don't have to cry my self to sleep late at night
Holding my pillow tight
Wondering if I'm ever gonna escape
Escape from this place that I hate
Just wanna be free
Spread my wings and fly away
Fly away high in the sky
Right on to cloud 29
The peace cloud no one but
ME, MYSELF, & I

Wanted to tell you how much I care and love you
I want to be with you
Every step of the way

Last forever until the day that we are
buried into the ground
Wanted to tell you how much I love being with you
You bring a smile onto my face every time I see you
I see you and everyone that's around just fades away
When you're around me I can tell that you won't leave me
I look into your pretty eyes and I see that innocent look
that just brings a smile onto my heart
There's something about you that I love that I cannot
put a finger on
Its hidden that I love you but now it's written on this
piece of paper where everyone can see that you are
the one for me
Wanted to tell you how much I love you and that nothing
can take that away from my heart

I stand here watching you with tears in my eyes
Watching you hurts me but everywhere I go
I can not escape from seeing you

We Don't Have To

We don't have to hurt like this
We don't have to wonder our lives away
We don't have to wait forever
We don't have to listen to anyone
We can just runaway and sail like the wind
Sail somewhere far off where we don't have to hurt
Somewhere where we don't have to wonder our lives away
Somewhere where we don't have to wait forever
Somewhere where we don't have to listen to anyone but us
We don't have to be here we can just sail away
We know that we're suppose to be together and that's all that matters
All that matters is that we love each other

What About.....?

What about me?
What about the feelings I have?
The wonders of my mind
The great things I know that can happen
What about the innocent?
Can I not try to help, help the poor people
What about the little ones?
Can I not try to save them
I have dreams to
Not only I have dreams
I want to help the world, I want to change it
I don't care for the money
I just wanna help
What about the animals?
The wild ones and tame ones
They have feelings like you and I
What about the the environment?
It's God's land where living on
We should clean it and let it shine
What can I do to help?
All I want is to help the innocent
The poor, the creatures, the trees and air.
I don't want the money
I don't want anything but a
Good feeling inside of my heart
Seeing the faces of innocent little children be happy

What Do You See?

Hey Hey look at me
What do you see?
Do you see the pain you have caused?
I feel like I have been living in hell

Its because of you
you broke me into
Like you didn't know
You tore me up

I was in love with you
Now I know never to trust just anyone
especially with my heart and soul
And its because of you

i thought we could have a happy ending
I was wrong
Thanks so much for the times you wasn't there
So much for a happy ending

So tell me now
what do you see when you look at me?
A happy Cinderella story down the drain
I miss you i hope you know

but I could never really love you now
You made my life a living hell
you cant take back whats been done
I cant get the pain to go away

I know you said you were sorry
but i know you didn't mean it
its easier to say then to show
especially for a guy cold hearted like you

When your around you always tell me you love me
That one day we can runaway from this place
When you kiss me you tell me that maybe one day we will be on our own
When your around you tell me that you will love me forever

When You're Gone

I didn't know that I'd miss you this much
I try not to cry so hard but I don't know what else to do
Cause when your gone I feel so alone and all i can do
Is lie in my bed crying these tears away
When your gone a piece of my heart is missing you
When your gone these memories of you & I start to come back
I miss seeing your face & hearing those words
Do you see how bad I need you?
I've never felt so alone &
Everything that I do reminds me of you
I still can feel you're arms around me from the last hug you gave
I didn't know I'd miss you this much
I try not to cry so hard but I don't know what else to do
Cause when your gone I feel so alone and all I can do
Is lie in my bed crying these tears away
When your gone these memories of you & I starts to come back
I miss seeing your face & hearing those words
Do you see how bad I need you?
I've never felt so alone &
Everything that I do reminds me of you &
I still can taste that last kiss goodbye
Do you see how bad I need you?
That we were made for each other
I wanted you to know that I would give up my heart & soul for you
When your gone I can hardly breathe I need you here with me
You're the only one that stays on my mind and I need you here with me now

Why Am I Not Happy(Put On A Fake Smile)

If everything's ok then why am I not happy?
Always holding these tears behind my eyes & holding my pillow tight
I swear is it ever gonna end?
Bleeding on the inside cause I'm filled with pain
It seems like I have no one
Even when people are around I still feel alone
I wish I had wings so I could fly away
My heart is still shattered by everyone
Including my 'suppose to be friends'
They always talk about me even when I'm in front of them
Cause they thing I'm not listening
I try to keep everything to myself
Because I know they will never understand me
I just put on my fake smile & pretend that I am ok

Why Do You Want Me Now

You said you never knew me
You never even tried to know me
You always turned the other way and never said anything at all
Every time I tried to talk to you
You acted like I wasn't even there
So don't tell me that you even cared about me
Cause I know you never did
You never even gave me chance to tell you how I feel
Now your sending me all these letters and e-mails saying that you want me now
Why do you want me now?
Is is to throw me around and be your slave
You think I'm stupid I know what your doing
You cant fool me at all
I used to like you yeah its true
But now I know I could never spend forever with a guy like you

Why Should I?

Why should I be sorry for your mistake?
Your the one who caused us to fall apart
Why should I care about you?
You never cared about me
Why should I help you?
You never helped anyone else
Why should I do anything for you?
Your selfish, only think of yourself, a pig
Its not all about you
Why should I or anyone else help you?

With You

When I'm with you I can be myself
I never felt so beautiful before
With you I will forever stand beside you
When I'm with you nothing else matters
Your pretty face, eyes, & hair is all so perfect
When my eyes meet with yours
I see something inside of you that just blows me away
You hold me & tell me that you want to be with me forever
With you I don't need anyone or anything else

Wondering If You Still Care

Where did you go?
Who have you been seeing?
I haven't talked to you in so long
I think you have forgotten about me
The one I cared so much for
The one who cared for me
You even told me you loved me
Now I'm here waiting for you
Where have you gone?
We told each other everything
I even told you my darkest dreams
Every night as I go to sleep
All I can do is dream of you
I dream about you and me all over again
When I wake up I don't wanna get up
Just dreaming makes me miss you more and more
Where have you gone to?
I need to know that you still care
That you know I'm still here
I can't make it through the day without thinking of you
Bleeding on the inside cause I'm alone again
I don't feel like walking and talking to anyone
All I do is wait for you
In my room all alone thinking about the lies I've been told
You told me you loved me but now I know its just lie I have to go through
Waiting for your calls or e-mails
Every night I check just see if you have messaged me
Hoping and praying that you have
Now I see that your never coming back to me your forever gone
With out a doubt in my mind I loved you more than anyone in this world
I would have given up everything to be with you
I would have walked miles just to see you again
I just wanted to know if you still care about little ol' me

Won't Ever Tell You Why

You will never know why I cry
Because you don't understand why
Its laid out right in front of you
I guess now your excuse will be your partly blind

I tried to do everything right
Tried so hard to be myself
Not letting these feelings go

Don't understand why you want to help me
After all you did this to me
Everyone that surrounds me did this to me
But I guess no one will ever understand

I won't ever tell you why
I won't ever breakaway
I'm caught in the middle of a breakdown

Let me go
Let me hide
Let me never be found
Let me cry these tears for no reason

You (Here With Me)

You were here with me when I needed you
You knew I needed your love
You always made me laugh
You were here with me when things were rough
You knew me without reading about me
You knew how to be a man
You were here with me by my side holding me
You wiped my tears away
Where are you now, now that I need you?
I need you, your love, your jokes, anything to make
me laugh again
I love you! Where are you?

You (I Still Love You)

You think you know me but you don't
All the things I've done for you and you can't appreciate that
I told you once and I'll say it again I thought I knew who I was until I saw you
All my thoughts just went away and I tried to please you in anyway but you took that for granted and went behind my back
I thought we would be together forever
Until this day forward I still dream of you
I still wish you was here with me
But now I'm in another town with someone else that I truly love but not near as much as I loved you
But now we're apart and I love someone else
I still will think of you always

You and Me

You and me once again
Lying under the stars
Just like we use to
While lying on the beach

Right here two years ago today
Under the bright stars
Where you kissed me
You asked me to promise one thing
That we will always be together

You and me still so true
Out of high school
I look you in the eyes and
I see someone who is honorable and truthful

Later that night
Before we left
You poor out your love for me
And you took my hand on one knee
Asking me 'Here tonight under the stars
Will you marry me? '

In amazement I say 'Yes'
Together forever no matter what
You will be the one that I could love forever

Rain, Sleet, or Snow
I will hold you close
Cause its you and me
Crazy in love

You Tell Me

You tell me everything's alright
But how do you know?
You tell me the things that sound so great
But I have to go with the beat of my heart

I don't know how I should feel
I can't let my emotions show
Especially around you

You tell me everything's alright
But how do you know?
You tell me the things that sound so great
But I have to go with the beat of my heart

If we live to see tomorrow
Your the one that I would be with
I would be in your arms

But I don't know how to tell you
Your so good to me
You make my world so much better
And you tell me

That everything's alright
But how do you know?
You tell me the things that sound so great
But I have to go with the beat of my heart

Your

Your everything that I have ever wanted
The one person who can wipe these tears away
The way you hold me is magical
Your my everything
The way I dreamed it
Your one-of-a-kind
Your my prince who saves me from evil
Your my hope, my angel, my everything that I
could ever imagined
Every night that I'm with you
I know that I'm safe & loved
Your everything that I wished for

Your The One

Every since you walked into my life
I've changed my ways
I've put down my shield & trusted you
Your the one I've always dreamt of having in my life

You took away this pain
Wiped these tears away
Fought away my darkest fears
You told me everything would be fine

You left your arms wide open for me
Took me in your heart
I can't explain how you make me feel
Your love is indescribable

You came into my life &
Took away this pain
You even wiped these tears away &
Fought my darkest fears

You hold tight every night
Your the one who showed me life
You locked me into your heart &
Promised me forever

Your The One and Only

Your the one and only
Every since I've met you I knew I loved you
Your the one who loves me for me
The look in your eyes is so innocent
The way you look at me takes my breath away
Your the one that locked me into your heart and threw away the key
Your the one I love with all my heart
Every since I've known you my heart knew that your the one
Your the one I can call up on
I can lean on your shoulder when I cry
Your the one and only
Every since I've met you I knew I loved you
Your the one who loves me for me
Your the one who wipes these tears away

You're Gone (Another Heartache)

I'm sitting here all alone tonight
Finding a way to rid of this heartache
Its so hard to believe that your gone
One minute your here the next gone

No matter how hard I try
I have to cry a million tears
I loved you more than you'll know
Now I'm sitting on the floor in my room

Crying myself in to a river
It's been a great 3 years
Now its over your gone
I don't know what I will do

I just know that I will miss you
And I wont be the same ever again
Since the day you left my heart
I've had nothing but a heartache

I cant sleep or eat cause
I'm thinking about you
Looking through the scrapbook
I thought both of us was happy

I guess I was wrong once again
Cause your gone
Right out of my sight
Another heartache as taken over me

I'm crying a million tears
I can't eat or sleep
I'm sick and tired of this life
I wanted to be with you

I loved you with all my heart
Now my heart is nothing but a heartache
I'm sitting here figuring out what I did
I miss my one true love
