Adrenaline

It gives him the rush that he's become so addicted to
As he presses the paddle and speeds off
The adrenaline fires through his veins
A guilty pleasure, that fuels him
His heart strikes into his throat
Inside he feeds the need
The Hungry, The Thrill, The Speed

All Because Of You

I can't sleep I can't eat and it's all because of you
It's not the flu just missing you and all the things you do
I miss your laugh and your welcoming smile

The way you make me feel like I'm on the top of the world
And when cuddling next to you the world seems to stand still
I lose track of time looking in your eyes, it's like this is where I was meant to be

I love the pointless walks that just allows me to be me around you
The wall that was once built has steadily began to crumble and it's all because of
you

Daydreaming

I stare off in space
My thoughts and dreams suspended in reality
All I ever wanted in front of me
All I've ever needed, ever wanted
In plain sight just out off my reach

Everything Happens For A Reason

I believe everything
Happens for a reason
People change so that
You can learn to let go
Things go wrong so that
You appreciate them when
They're right you believe lies
So you eventually learn to
Trust no one but yourself
And sometimes good things
Fall apart so better
Things can fall together

Forget Him

Forget him
Forget his face
Forget his kiss
His warm embrace
Forget the love that you once knew
Forget him when they play your song
Remember when you cried all night long
Forget how close you once were
Forget how you memorized his walk
Forget the way he used to talk
Forget the things he used to say
Remember he has gone away
Forget his laugh forget his grin
Forget the dimples on his chin
Forget the way he held you tight
Forget the time that went so fast
Forget the love that moved, its past
Forget he said he'd leave you never
Remember he's gone forever

Freedom

My desire, my want, my need
Independence
For myself
Freedom from hurt
Clinginess hurts a free soul like mine
Clinginess a burden
You have to let go, if not I'll soon fly away from you
For I dread the feel of clinginess
The need you, want you attitude
Like a babysitter always watching you
That isn't love not in my eyes
I want someone independent who when im gone wont pout and whine
I need that one strong wise guy
That knows my heart as well as my mind
It's a simple task, I must admit for my heart and mind are one
What I think is how I feel and how I feel is what I think
No mystery lies here
Just an open heart, and an open mind
What you see is what you get

Inhale

I inhale allowing all my worries and fears to be drawn into the darkness
I force the air and trap it within, my lungs tempted to set it free but my will
dismisses it's plea

I fight to withhold it all within
I weaken and the temptation yearns to be taken
It begs for my strength to be broken and my weakness to be shown

I give in with tears of anguish as the fears and worries are released into the
world
I break and the temptation has conquered

My Shoulder To Cry On

The tears began to fall
I broke down there in your arms
And watched as you wiped away every last tear that fell from my eyes
I never cry, not in front of guys I'm usually stronger than that
But with you it's different, I feel so safe like I don't have to be like that

You hold me tight, when it's cold at night
And you love me with all your heart
You seem so perfect without a flaw insight
When I'm down you come around and everything becomes alright
When you smile I smile and it makes me feel alive

I can't believe all this time you were right in front of my eyes
Guess I was just blinded by the dreams that I was so sure I should be chasing
But without you I was so lost just going with the flow
Never thought about the future never really gave a thought of how I wanted it to go

I just knew I had to go and get out of here didn't care where
With you around I'm someone new and I wish I could always be there with you
My dreams are full of me and you, and I know that the future will be too

Temptation

Looks so sweet
I want it so bad
So easy to give in
It looks so good
I could almost taste it
So bitter sweet
Just on bite, just one glance could mean dire complications
Try to avoid it
But the temptation grows

Without You By My Side

I love you the way you are
There's nothing you need to change
You'll always be the perfect you,
There's nothing to rearrange

Without you by my side
Colors seem to fade
Music loses rhythm
And my heart fails to beat

Time tends to slow
And the days grow long
I feel alone and by myself
In till I'm in your arms

I try to mask the pain
With endless phony smiles
But you pull the uber smile right out of me
And make all my fears perish into thin air

You cut through the thorns
That have taken my heart hostage
And you took a broken heart
And made it complete again

I prayed and pleaded for something like you
But I never thought you were standing in front of me
You took me by surprise in my moment in need
And you watched me cry and wiped away the hurt of saying goodbye

You made me see what I could be
Gave all that you could, wanted nothing in return
You Filled my head with I cans and I wills
And make me fall head over heels in love with you
Time after time again and again
