Ameni letaief()

my poetry talks only about pain! happiness does not exist on my brain :)

I Wanna Die

i wanna die because there is nothing to live for
i wanna fly high and soar
No one understands me
so why should i stay?
it's time for me to go away
A perfect world is waiting for me
At least GOD will be there for me
No one loves me
i don't deserve to live
Goodbye my friends i must leave

I Was Born To Die

i was born to die
To suffer and cry
To dream and never achieve
To love but never forgive
i was born to die
To live alone
To enjoy the darkness in my bedroom
No one to love me or to care
i chose to live in my own hell
i was born to die
To torture myself
To hurt my hands with a knife
call me a fool, say whatever you like
i chose to live but die inside
