## asrul supeno(10 November 1989)

I was born in Kolaka, a small village in south-east Sulawesi.

My childhood is so beautiful. i was in elementary school at SD Inp. I kayubulan - Limboto, Gorontalo. Junior high school at SMPN 8 Makassar, and now i'm in 17 senior high school, the excelent high school in Makassar.

I like make a poem if i have been in mellow condition, desperate, or happy.

I've followed poem competition and several literature events. beside that i like reading books and writing.

I'm a cute, funny, smile, nice, and calm boy (hehehehe, i'm so narcis boy!) .

My ambition are study in abroad university, become a rich guy, and do everything to make my parents proud to me...

So, if u want to know more 'bout me, u can find some information 'bout me at:

# The Evil Say

I, me, you, he, she, we, they, our, us

That in still the one place

Earth

But the other haven't feeling too

Yeah

The evil influence them

And also we are evil

But

I don't know why?

And how to remove our condition

Oughhh... bulshet

Sucks

# The Power Of Friendship

Friendship is everything  
Nothing can break it  
Though hurricane has been coming  
But we still have a big power

We can change the world if we want  
We can take the star  
We can paint the darkness  
No matter in difficult condition

Friends,  
I can smile without u  
I can't happy when u sad  
I can feel ur pain

# Untitled

Walking away from this street  
So long  
The street is wet  
And the rain has gone  
Went away from this part

Your face running through my head  
But I can't describe it  
When I think about 'it'  
And forgot from any problem

You hold my hand, so cold  
You kiss my lip, so impossible  
And you let me go, so sad

When your bike went away from me  
I lay my hand, in my imagination  
But you looking away too late  
I must receive it

Let me by from your heart!  
And please forget your memories!  
Enter me in your heart!  
And I will fill yours  
This I promise you

Receive me in however condition  
When I'm fall  
When I'm down  
When I'm sad  
When I'm happy  
When I'm bad  
And we will forget everything  
Coz we are in 'outer space'  
Coz you will be safe here

# Untitled Xxx

This night so cold and dull  
And this air was againt us  
Dunno what its meant  
But we don't care anything else

You know I doubt it  
You know I confused  
But I know u care about me  
I know what you meant

You hold me close  
And feel the love  
I wanna kiss your smile in the darkest place  
Coz we can get "it" in lost control

I want you more

...

Take care  
Take it easy  
Stay cool  
Stay near  
Stay with me

# Wake Up

Many problem making yours stress  
Everything your doing  
And that your feeling say:  
"That's true"  
But the other say  
Oh my god, what your doing?

OK!  
Don't be bored  
This words make your happy  
Happy  
Happy  
Happy

Don't thinking about  
The other say about you and whatever your doing  
Would you be happier?  
Say yes  
Yes  
And yes  
So, wake up!
