Life In Nineth

life in nineth is super like an accolade
it makes my heart always feel great
it never makes my brain strain or eyes pain
english comes first, with teacher a hopeful trust
social comes fourth, studying always agricultural growth
then comes mathematics, doing always arithmetic
biology comes last but i cope up very fast
sometimes easy or sometimes hard
makes me happy or makes me sad
oh! no, very few days to go to tenth
it is difficult for me to make amends.

My Dream

once i had a dream
that i had been to the land of ice cream
chocolates hanging on the trees
biscuits lying on the streets
five stars and eclairs were in a row
rivers of limca and thumps up flowed
wafers and chips filled the air
birds carrying popcorn flew everywhere
i was thrilled and ran to have it all
but alas! from my bed what a fall!

FRIENDS fill our world
with joy and fun,

FRIENDS make each event
a memorable one.

FRIENDS say the most
silly and crazy things,

FRIENDS put in your life
that extra zing.
