Achievers.

All that foolishness are for the birds

You guys were nothing but vultures

Always hoping for the worst

Just waiting for me to mess up

But you all will regret the day when I achieve my goals, yeah

They'll know just what it means, knows just what I mean

When I put in all in what I believe

Ohohohohohohoh... move up higher (Achievers)

I told you that im moving (Achievers)

I know you hate me but so what?

still wish you best of luck

But now im gonna keep my Achieving up

Im on some new stuff

Im gonna keep Achieving no matter what

Im moving on to somewhere better, better, better

No more trying to stuck up to you'll

You all made me wanna move higher, move higher, move higher

Yes you'll did

Uh, theres no happy times

in life all the time

Thought it was gud to live, but somethimes that's a lie

Its like a sinking ship sent my life with 18 blows two times

I worry cause I care, put a smile even when I die

Tryna see in darkness from my weak eye but its like I both stupid and blind

Shoots, I ask close friends for help, but its hit the club,

Dying of thirst but they rarely pour me some: ()))) 0

But when its all said and done,

Im gonna be the one that they always run to

I hate dreamstoppers, worry about them Im tired of tryin

My heart is big and its never quiet: (

I forever feel like I have more to living to

Cause every time Im alone its a awkward silence

Dreams are stored safely never on the kitchen counter

And i'm getting back that confidence with the big humor

Love my haters, over and over, don't know what they tripping for?

I just wanna have to let them know

All those things in past I gatta let them go and: : (

Cause:

Im on some new stuff

Im gonna keep my Achievings up to you'll

Im moving on to somewhere better, better, better

No more tryin to suck up to you'll

You all made me wanna say bye bye, say bye bye, say bye bye

All I Want Is You

I'm standing outside

right next to you

It's you and I

and the moon

Cause of you I'm here

don't ask no question

Maybe I'm shy

but you are:

So beautiful

to ever let go from me

You are the stars

in my skies

(and when I think about you ou ou ou

all my life)

The secret is all I want is you.

My darkest nights

becomes my morning

The stars aren't enough

cuz you are my sun

Cause of you I'm here

don't ask no question

Maybe I'm shy

but you are:

So beautiful

to ever let go from me

You are the stars

in my skies

(and when I think about you ou ou ou

all my life)

The secret is all I want is you.; -)

Best Day Ever

best day ever

Best year ever

Here I go thinking

Its going to be the best day ever

Clouds out, sun's glare

Birds singing in the shower

My pocket's loaded

My wallet's pregnant

My house is large than ever

Got all the things a man would ever.

Nice car and all the jewelery

Shades of every kind

You wont really miss me

Nice clothing of silk

Oh mr. bentley

We would look like twins

If you were near me.

But yet I sit down wondering how

Oh man why?

Though its kinda crazy

My heart slow, my arms are shady

Lip bitten, legs apart, staring at a picture of my lady

She's gone like the night but she'll never come back

With all my riches, I would've trade it for her to come back

I can't sleep with material things and hold them tight

Can't kiss them and make love with them all night

I finally kinda get it, yes i really do

That I should've love you when i had the chance to.

Boom Boom

traffic jam, oh man
gonna be late yet once again
clothes wrinkled, breath stink
half sleeping, coffee's gone
how to fix my tie? , God help me
there's an accident way up ahead
not wearing my seat belt, hope no one sees me
im sweating terrible in the sun's romance
i hate to admit it; forgot deodarant
beep beep, hurry up man
beep beep, i am late once again
cut cut, pay check's gone
don't wanna borrow a loan
day dreammmmm
wish i could just throw my hands in the air
and time just go zoom zoom
had everything made like um um
i swear im gonna fly to the moon moon
but reality is i'm boom boom

Celebrate Your Life.

One.

Life.

One. Dream.

Beautiful.

You are.

Beautiful.

You seem.

One.

Spirit.

One mind.

Be original.

Undefined.

Start the trumpet everywhere.

Bring your talents for the world to see.

Start the celebration. And celebrate you.

Celebrate your life.

Dream

Dream big,

do something you had never done before

climb over mountains that you had always dreamt of climbing

swim in oceans that seem so deep to swim

jump out of air planes

and dive towards your success of a perfect landing

For time is short

For no time is too late

Pick up yourself

carry your torch

and follow your heart.

Your dream.

Faraway Love

You have those eyes that resembles the lights on New York night

Those lips that reminds me of the mountains in Spain

and hair that flows like a flamingo in flight

Your voice is smooth like California wine

And your taste is sweet like la pan from Brazil

You are beautiful like the flowers of China

Great is your love like the Wall of China

Your character is unique like the waters of the Bahamas

Your touch so soft like the cottons of central Africa

You are better yet to be compared to mother earth herself

So humble are your ways but great is your purpose

And though we might stand far away

our love shall forver shine like the north star of Jersusalem

Heart Aches

would i ever see my dream

would i ever see something better

before i return to the earth

would i ever see my face crack a smile

my heart resting in ease

the thunderstorms are stronger than ever

would my feet go places i never went before

places that i dream of going

a land flowing with milk and honey

heartaches worrying

my mind rest in the center of pleasure

but i will take each step a day

to a place i call a better place.

Hello In The Morning.

You, my sunshine

Forever sweet, like white wine

Forever bright like stars above

Forever, thats what I am talking 'bout

The beauty of roses

Can't match you, my love

You gat it it all made

Like heaven above

Like diamonds to woman's heart

Just one stare is like

an angel has visit me

Just a close embrace

Hot like cuba

A dose of your love

Is a dose of more than enough

My love.

Denaj Anderson

I Will Love You

i will love you!

Though the nights be full of misery

Though our days are just like nights

Though our hearts might be harden in frustration

Though our love requires a lot of might

I will love you with my heart

I will love you

Though we would sometimes cry

Though our hearts would be hurt

Though our love may be drowning

Though our pain be expressed in awful words

I will love you with my soul

I will love you

Though I might be stupid

Though you might hurt my ego

Though I cause you to falll

I promise I would never let go

and I will love you with my mind

I will love you

Now our love is in the past

We've both move on

My love for you will forever last

As long as we breathe on

To the stars and the moon I promise

I will love you with all thats within me

Forever I will love you

In My Mind

whats always up

must come down

the image of loosing

once poisoning my mind

It's not simple

thats why life is smart

whats in my mind

hurts my heart

i said whats in my mind

hurts my heart

the golden sun

looks like the moon

the clouds at sunset

are never known

the music of life

we'll mine is simple

cause whats in my mind

hurts my heart

hurts my heart

the smiles are fake
the tears are real
i'm i a mistake
the question seal
they told me better
was heading in
but that word feels like a sin
and its not simple
thats why life is smart
whats in my mind
GOD knows, it hurts my heart
oh, it hurts my heart

life's a journey
you start from the end
i had it good one day
today i'm bend
they see me smiling
but the truth is the art
whats in my mind

hurts my heart

i'm crying each day

the truth is out

the joy i once kissed

she had left a note

she hate my mind

and what i'm about

so to tell you the truth

i'm caving in

but tommorow

is another day

the paintings of the morning

brights my mind

i'll still wait for the bus

that better days drive

i love myself

so don't be discourage

whats in my mind

is undefined.....

Look

Look in the mirror

the image of you

Look a little deeper

Look within you

Look at your future forget about your past

Forget about the race

You would not be last

Look at your hard work

Look at where you are

how far you made it

time for success not line of awweeeee

Forget about the haters

Forget about that hater in you

Look far beyond your situation

Look a little deeper

Look within you.

My Last

My one life
My one chance, to be the best i can
and make a difference
My one mind, the only one I have
Don't need no other cuz I'm happy with what I have
My one voice to inspire many hearts
to tell them to keep moving
before everyone starts
don't look to the left or right just rise
be true to yourself cuz other ways are just lies
My one heart that can share my love
My one soul thats going up above
regardless of what people might say
don't care cuz what they say will all just pass
imma just live my life cuz this is my last.....

My Love.

was at the edge of this high cliff

above the earth and its beauty

i look down seeing myself

in this very clear lake

i was crying

the lake was a result of my teardrops falling

why have my creation turn their backs from me

sin against the one true life giver

with anger i could destroy them by a single word

as i created them

but because i love them

i thought of saving them

i took a piece of me and send it on earth

because of love

i wanted to save them.

Denaj Anderson

Never Give Up.

Run, Run my brother

run, run steady my sister

keep your head up

and you're mind focus

believe in your heart

this race is yours you

can not lose this

Head up

never be discouraged

it's hard i know

but i made it with courage

believe in yourself

let the passion be alive

and run.

After it all

you'll cry

and sometimes fall

but God promised you the finish line

therefore, keep running and never give up.

Denaj Anderson

Pop 'Em Like I Pop 'Em

I've lost myself

I think he's out there stranded

that's how fast my thoughts climb

on the mountains of I really made it

staring down at haters

who thought they had a piece of me

but life is my birthday cake

if they wanted piece, they just had to ask G

staring at my black behind is the devil and his witches

they watched to see if i fell in their defeat less ditches

I laugh cuz the devil really thought he made it

and no its not china either, when they awarded me with the credit

Erasing old memories that i had once drawn

time is like a moving car to cheap to buy a horn

once it shows up, you better show up and be ready with an answer

we aint to important, for time to be our Chauffeur

two up for you guys who thought i was average

i've got my head between two worlds, i called that tuna sandwich

without my fat head, i call the two worlds success and manhood

sleeping on the floor with back pains like child birth

imma comparison of a time bomb in action

mess around all you want, but careful when the countdown is starting

i'll put the D in deadly and the R in rocket science

They said they all love me, but _ they put the L in lying: -)

God knows best and i know nothing

God please teach me before i die knowing nothing

Life is full of _ it seems like an over runned septic

But God be my plumber, holy ghost fix ma

i don't get, this is wierd

you guys think that you'll the staute of liberty

but pull a full loaded cling pow-pow, statue of the cemetry

I hate my past life, but i got an A on history

you guys don't have to love me, press wikipedia and read about me

standing on the world as wipe her fat tears

can't be soft like a bar of 3 musketeers

people wonder how I really got up there

God bless himself and my family and everyone else

pop 'em like i pop 'em

like Orville Redenbucker

you guys are the salty brand

thats why i can't understand ya

I love my life as long as i'm in motion

solitude is metaphor as dry skin and a lotion

they held me down thinking this back in the days

Chaining me with chains of deadly words

but i'll pop 'em like i pop 'em

like death in many ways

just press option and choose what you prefer

I love my life and the people that are in it

God runs my smile with my mom and dad in it

they all made me strong, pop-eye and spinach

so i think i'll be in this and long before i'm living

POP POP, im done.....

Pop Song

turn the radio up, over the rising sun
let the music of our hearts filled the air
pop the bottles if you can and watch them as they spray
like rain on September

Kiss and hug the person of your dream
with the melody of your love
and with every note, lets all party like teens
no matter how young, how old

Lets dry the air with our voices
Lets move the earth with our stomping minds
that are very powerful forces

and when all is done, and the sun crosses the sky
lets party again for the moon
when will we stop? somebody ask
but don't tell him why..

Denaj Anderson

Smile.

NEVER BE DISCOURAGED.

LIFE IS ALL ABOUT CHALLENGES.

IT'S ABOUT UPS AND DOWNS

LIVING WITH AND WITHOUT.

LIFE IS ABOUT TAKING OPPURTUNITIES

AND LOOSING THEM.

LIFE IS ABOUT MAKING MISTAKES

LIFE IS NOT PERFECT.

LIFE MAY HAVE ITS DRAWBACKS

THE FORGETTEN SMILES

AND FROWINGS

LIFE IS ABOUT LEARNING.

ITS ABOUT DOING BETTER

AND IMPOWERING.

LIFE IS LIKE A SHIP

SETTING SAIL UPON THE WIDER OCEAN

BEING DIRECTED BY THE WIND.

BUT ALTHOUGH THE TEARDROPS

THAT LIFE SOMETIMES BRING

AND HEARTACHES OF BROKEN DREAMS

THANK GOD, THAT YOU HAVE THIS SPECIAL GIFT

AND THAT HE HAS YOU FOR A CHANGE.

AND SMILE.

Something New

On this new ride

new mental ride

everyday forgets about yesterday

my reach is for the sky

the gun is triggered

here i run

no time is lingered

its in the sun

moving forward

from yesterday's mistakes

to give up is a curse

have do what it takes

though I cried

and though i fall

though my emotions

are crushed by it all

though i seem forgotten

though they pass me by

though all my friends are living better

i can see my name stained in the sky

no looking back

i want this bad

i made it this far

with all i had

i have it in me

the power to win

to take what i have

and gave it all in

the focus is ahead

the finish line is close to you

the stars would bow at their feet

Start now, something new

Denaj Anderson

Unspoken.

Somewhere far.

Somewhere far away.

there were blue skies.

I haven't told ya.

I questioned life.

The love that my heart adore.

and baby, now its cold yeah.

I've fallen deep.

between the ditch of love.

oh, haven't you notice.

that i've change.

i thought hearts were red.

but you've colored yours black.

but baby, i thank you for showing ma.

i'm lost, unlike the holy one.

a royal lineage, my blood has none.

there were three holes in my wallet.

but you showed me that there was another one.

but baby, i thank ya for showing ma.

and if i could smile again

and if i could laugh again

and if i could love again

that means you're gone gone gone gone!

so toast to you.

i wish you all the best.

oh baby,

i love ya

so take this kiss

this last one from me.

and baby its unspoken.

oh baby it would be unspoken.

: -)
