Francesca Lam(15-03-1988)

This life is really weird! ! I used to think that I was so lucky that I could be the bright student, have a great family and find my soulmate. I just found that I was wrong. Things change. Good things would just run away no matter how hard you try to keep it. It just left when you feel like you have it.

Afraid

I'm not afraid of being weak
'Cause I know you'll be here to carry me
I'm not afraid of being lost
'Cause I have you here to guide me
I'm not afraid of being alone
'Cause I can feel your arms around me

But I'm so afraid to be in love
I'm scared to have the feeling of losing you
I'm so afraid to be whole
I don't want to fall into pieces once again
I'm so afraid to give my whole heart to you
It will be terrible to see you letting me fall

Completed

When you are here around
I found my way out of this maze
Things became so amazing
All I saw are the beauty of life
I was surrounding by this bliss
How I hope it would never be gone

Now, we are far apart
I feel like getting lost in this mess
My brain is blanked out
I could see nothing but our blurred future
I am buried by this sense of lost
My heart is found to be completed
Only if you are around

Crossroads (Edited)

Standing at the crossroads once again
The sense of loss coming over again
With you as my guardian angel
Letting me stay underneath your wings
Leading me out of this maze
How am I going to live without you?
I can't, I can't live a lie no more
Never know that I needed you that much
Needing you here to guard me
Please take the wheel for me

Don'T U Know

Don't you know you play a part in my heart?
Since the day you got into my life
Getting into my life with one letter simply

Don't you know I headed over heels you?
With the flowers smiling at me
I just felt you are holding me sentimentally

Don't you know you hurt me so?
When you just slipped away
Leaving me here in blue quietly

Don't you know I'm climbing the walls?
Whenever I read through my diaries
Those sweet memories would be playing silently

Don't you know I've been trying so hard?
Trying to forget you
Getting you off my mind
But don't you know I am still not over you?

For A Place

Foggy, dirty sea
Such a nice view by sea
Out-dated rides
Such a great park ever in our lifes
Tiny little malls
Such a shopping paradise for those who want more

Believing in those adv?
Come and leave the web!
Take a look at the truth
Here is nothing but the statue and the myth.

If Tomorrow Never Comes

Listening to the rain
Finding a reason to make it through a day
There is only one voice in my brain
Your are here for me as always

Being in your arms today
Feeling your heart beat so strong
With this sunset fading away
I could know that this is where I belong

Holding my one last breathe
Just to tell how much you mean to me
No matter the dawn is gonna break or not
I'm gonna love you till the end

Francesca Lam

I'LI Be There

Writing on your hands
Whispering in your ears
Please catch me when I fall

Dancing in the pouring rain
Raindrops or tears
Could u be able to tell

Saying those words again
Down on your knees
Hoping you could change it all

Be here waiting
Blinking back my tears
Promising nothing is gonna change

I'M So Glad

I am so glad that you lighted up my world
You walked into my life
Colors were painted on my sky
Loneliness seemed to get away from me
Those memories are still playing in my mind

Time goes by
This feeling is still so strong
Even though we are far apart
Maybe one day
This feeling will fade away
Even you are standing next to me
I would still be glad that you were in my world

Make Ur Own History

Should have been stronger than yesterday
Should have been crying no more by this day
God won't carry you because of your fragile heart
God won't dry your tears even you are hurt

Feels like sinking in the middle of the ocean
Feels like getting lost in this confusion
No one would even notice you are here somewhere
No matter how hard you are screaming out there

Stop burying yourself with the sense of sorrow
Stop praying on your bed for tomorrow
Start struggling for your future with your faith
Start making your own history right-of-way

Miserable Love

Love you more and more each day
Holding your hands became a sin
Promise to wait till the end of the day
Just afraid the feeling being swept away
Such a sweet misery you gave me

Could I be the one you found on that day?
Would it happen as is since?
Isn't it gonna be Okay?
Only if I can love you more each day
I'd accept the misery you gave me

Shadow

Shouting out your name
Waiting for your sweet gentle response
All I could hear was nothing but the rain

Looking for your shadow
Hoping that you would be here somewhere
All I could see was nothing but your photo

Dreaming of you all night long
Wishing that I could get to know you more
All I could do is watching your shadow fading away

The Greatest Gift (Edited)

There is a gift for everyone.
It is always be by your side,
Helping you to find out the goodness of life.
You don't have to chase but to keep it.
That's what we called FRIENDS.

They sit next to you as a mute,
So as to listen to your gripe.
Giving you a brand new hope,
When you get into a scrape.
Putting your head on their shoulders,
Your fragile heart would then be healed.

That's the greatest gift for anyone.
Having one to share the tears and the joy,
Passing though the good time and the bad,
That's FRIENDS!

This Is Us

Madness in your life
Accidentally bonded two
Loving each day we spent
Aching for the sadness you had
Carving marks in my heart
Hating that we are apart
Indeed, the feeling is absolute

Hoping for that special someday
Struggling for the truth like a fool
Unconditional love is all I could give

Valentine's Day

Vacancy of my heart is filled with your love.
All I want to do is staying in your arms.
Lighted up my sky by you,
Eternal flame is burning in our heart.
No one could tear us apart.
The Kisses make me even harder to stand without you.
In this life, I am loved by you.
No one could ever make me feel this way.
Emptiness inside has gone whenever you are with me.

'Somehow, every time I look into your eyes,

Drowning in your love, I am.
As there is one thing I realized,
You are the one for me.

*Could u find 'Valentine's Day' in the poem? !

Who Really Cares?

Putting on a smile
Just to hide the truth
Who has ever cared?
It was you who found the key
Did I take it for granted?
Sorry if it seemed

Faking the smile
Things underneath
Have you ever noticed?
Burning the key
Just so you know
I'm not that girl in your mind
