### .... A jibe with grand doors-cauchy3

A jibe with massive door-poem

The grand rocs are shadow flies.  
A dinner is grand massive doors.  
The massive doors set up lives.  
To gibe are jeeps on paper dooms.

Smokes are sinking with stick to burn.  
Metaphors are smiles but analogies are laws.  
Each is beings and all are that could.  
Weapons are phoenix but powers stand.

Play and point your lives on wars.  
We flipped the ashes out of dust.  
Obey cheerfully when all are asked.  
Command wisely when lives are urged.

Whales are couch and tigers are paws.  
Beds of roses are thrones with throngs.  
Gross powers have profits margins.  
Sales are bodies when clouds are formed.

### ..... A cup of Casabenca-prose-cauchy3

A cup of Casbanca-prose-by cauchy3.

Laws propellers and ways promoters are social engines but they are all thrusters. Beneath stars Canis majors have fangs. Pets are minor. Soldiers and officials are major. Your fellowships make you feel near to loll.

Was the desserts are deserted salads? Who can control the hours in your times. Making magic in your lives is a mark on political files.

Stick to dip is a dipper to a cup of coffee-Casbanca.

Good bye! Good pinko.

Back off bad pinko.

Latter posted prints are stirred. Who kick the rock on big sands? Pretty lives are not graceful. Who wash your shames by our bloods?

Sandy winds in Tibet are not snow white.

Malaysia stands while Singapore is not kneeling.'

Laws are orders in annexes. Movements of shadows are bows to sparrows. Mnemonic of their bloods are your white washes. Secrets of hade are dogs to live and to serve with snakes.

Colds firms go into tills but who think about the colds. Drag the legend heroes in the century that is the corpses of fiscal policy. Hong Kong step on step exercises.

Empire buildings are with outer fronts, inside middles and back halls.

Empire buildings are not building to live but success realms and symbols of king crafts.

If Raffeel coughs may I give him a cup of Casbanca. While Donlad got the blue taps besides a pack of potato chips.

Good touch of powers is a complete political grappler. Behind schedules are your behind hands. Who own you a cup of Casbenca.

Front of the empire building are three rows and three columns with altogether 9 switches. The off sets are morals, beauties, laws, friendships, peaces, dignities, justices, honors and honest.

The sets are still the above nine but all add with buying and selling.

All selling and buying are to conquer our enemies.

The middle layers contain many layers of rows and columns. Among them the main hubs have one all inputs and all outputs. The inputs are our private lives and the outputs are public lives.

For the back halls there are a secret hub, it is....

The devices are country resources, army resources and logistic resources with many kinds of talents. Of course there are many toggle switches.

The difference on off and set is buying and selling..

Two lateral sides of the empire buildings are policies and political airs.

Our political breezes or winds are wings for rocs.

The themes are to regard the peoples as elements. However all political issues lay stress on how to function. My mot is abnormal acquire abnormal powers. So there give birth to masochisms and sadisms by Gods apples.

My Donuts may you feel near to loll. I give you a cup of Casbenca with butters.

Wahoo are not symbols or actualities. Mirrors are different from the stage of plantains.

All will be removed and all are naught.

What is our soil or your souls? The words count to Wu kin Taio, Wein Kam poo and Tseng Qing Hong. Are you all on games? Toss up a cup of casbenca.

Wu Kin Taio and Wein Kam poo get their successes by polish the swords of armies and generals to drag two of them on thrones. They feel near to loll while devils sleep.

Chan Shi Bein get the successes by return tickets from the public to drag Chan on musical chairs.  
Cherry blossom blot out the old trees which have devils tails. Who take all responsibilities to the china liabilities? Our soils and Wu s souls! What are their principals?  
The scorched Mao s suns wash your dimensions on faces of histories with bleached heats. A cup of Casbenca!  
Times have daggers to pin the political bad men on evils posts. Will bad men are bat men.

.....1 **Joke to office laws-cauchy3**

Joke to office laws.

Laws remittances are good to mangers.  
Bosses works are arts of kings.  
First arms are copied slates.  
Bosses smiling faces are fine.

Second arms are not table back.  
All under tables are rights.  
Most backs are for most facts.  
Neck ties are in Arabia nights.

Pens are pork in love mosque.  
Sexes but no amour proper is announced.  
Law circuits are not power most.  
Works are moneys and jobs are loves.

Rectitude is embolisms with easy moneys.  
Linear loves have nonlinear sexes.  
Honest traps are honey flowers.  
Weights on palms are power dresses.

.....**A a cream boards-cauchy3**

Cream boards.

Into oscillations are tumble cores.  
Cream boards are not to take the good.  
Elicit the valuable one by some.  
Raw deals are not good to be cooked.

Weights of red profits are not rights.  
Blue moons are smooth to wire.  
Smooth waters are not with beautiful moons.  
Cream boards are not to take the good.

To educate and to accomplish but few are control.  
Weaving are funs in paddling pools.  
Hunters have guns but spiders have webs.  
Right and then left is when your foes are ended.

Games are to pelt against the evil snakes.  
But snake types are smooth to dance.  
The kinds that are doubts are not come as similar.  
Decisions makings are power certificates.

.....**A 1 China Feathers**

China feathers.  
All broken are to all broken.  
Empower the go on switching might.  
Swaps are solids of evils to Gods.  
To assign a stamp is to enclosed wills.

Seal the boxes when hubs are put.  
Send the letters of dead wars.  
Fugitive stews are cooked and used.  
Lying above are all above hands.

Little to think is a world of lots.  
Rake off are common worlds.  
Break and enter we go fast.  
Lying above are all above hands.

All hubs are for fire breathes.  
Dark flames follow your feathers.  
Evil powers follow your ethers.  
China ethers are steel legend.

Leggings are not good to evils heels.  
Powers are each others to eager.  
Empower the go on switching broken.  
Water soars but no rocks are rotten.

For waters are rocks giving up.  
Minds are calculated and tactics are used.  
Drop the lines on switching phones.  
Flaw called are over polices.

Pc software is war wares.  
Lying above are all above hands.  
All hubs are for fire breathes.  
Dark flames follow your feathers.

### .....Badly cats and fawning dogs-cauchy3

Badly cats and fawning dogs...

Dogs are fawned. Dogs will go below the topping cats.  
Cats will blame the goblin cats by precise laws.  
Sir-She is picking pinks.  
Ladies pinks and yellow dogs are two.

Bully games are playing cats that weird and dogs are come to games with worlds in large.  
Precise cats expel on laws and practices.  
Picky cats always come to cards in boards.  
Silly dogs all fellow.  
Add displays are men on gods with powers.  
Persona non grata takes the flunky gods.

Care with failures cats are playing balls with snows.  
Bravely dogs will carry the senses of winds with cold.  
Cats on high with wires are coded with colors to sell.  
Skills are skulls but sell their furs.  
Furs are warm and tender loves.

Edge supports being proved by knives are skills of queens with cats.  
Queens or kings are Marxism gods.  
Sticks together are power sinks to no where.

Goblin cats are positive snake emblem or good incarnations-fawning dogs and evil cats.  
Souls of evils take the fires.  
Souls of badness take the moneys.  
Discrete are powers with moneys or wm or status.

Assay the goody dogs and cats are good.  
Analogue are good and metaphor are bad.  
Fastest cats can leap in airs to spike and spill the birds.

However Marxism is lions or jaguars with Russian seeds that fly on flies.  
Me-my-Cauchy3 will ask no boxing stamps to Marxism.  
Me-My-Caucjhy3 and so have no face cards.  
All are fiddle-fiddle.  
Goody cats are goody names.  
Assay the goody dogs and cats are good.

Good references take the conferred that are good to worlds of Ok with goody Marxism.  
Many cats are gods on bodies of false that borrow the faking powers after awes.

### .....China-Taiwan-politic-Cauchy3

China & Taiwan politics.

Lionized Sphinx is to study hybrid immortality under solo powers.

Solo power is the margin to absolute zeroes.

Captive principals are deep sea liabilities. Ratters are hard to catch the snakes.

Falconry is bells on air.

Tridents take up the snake when they spew their venoms like dragons.

Vanilla skies to Vietnam have number out small child.

Grin with axes they smile to American soldiers.

Jungle toys are little flowers. Wars cease phage cross. Justices cease by honors to some titles.

Of causes world nations are beyond one community.

Capitals are to principals. But debits are not to credits.

A world of deep sea is with marking liabilities.

The beats or rates to laws and justices are fall to rights.

The solo powers put you on days to fields.

Then you catch and return your enemies whistles like rain stars.

Solo powers are hybrid models cut above or under absolute zeroes.

Few of them allow double sovereigns or accept the double offer to your rights. In depth a piece of mystery colors is magic mirrors.

Smokes to mirrors are bad powers. Estimated paths are war fields.

Somber are feels but bloods are tastes.

Halls to amenities are powers beyond comforts. So my fathers fail. When I was a child he set up a advertisement company in Hong Kong. When he nearly fails he borrows money from a ball room girl. Now it was about 2 million Hong Kong dollars-2006-year-now.

This could not cover all the moneys that he is in debts. So the company uses my uncle as new boss.

My father still works and supports the business at back and on some front with some front chances.

Now my uncles' sons are very rich mainly by these businesses and some others very lately.

All colors are finished.

Lionized Sphinx is to study hybrid immortality under solo powers.

Solo powers are the margins to absolute zeroes. Captive principals are deep sea liabilities.

Ratters are hard to catch the snakes. Falconry is belts on airs.

Tridents take up the snakes when they spew their venoms like dragons.

In the powers mall or on the street corners there is one.

And follow the public addresses of Lin Gin, who will get the feels. He said that the feels for him to peoples to be same. He also talks about he feel the paces on these front waves as our generations to good times. But HERE IS CAUCHY3 views on SOLO powers.

For China communist one party is big alone.

For same paces and same errors Kuomintang should change to communists to a must.

They can still dig to three winds doctrines.

Lin Gin is not Cauchy3 but he is once the head leader of Kuomintang-Taiwan.

Three free democrat or three winds doctrines and synchronal signals or ANACHRONISMS.

What is anachronisms-Ngn SA Quit or Yu se Hui.

They are both betrayer. One asks for Ex officio and one asks for King crafts.

If I am the king I also crave with crafts.

But Jung -Yam-Kown or Donald Jung or bow tie all in one is Hong Kong governor has

buried his father near Radar station and get so called unbelievable shielding lives powers and lucks.  
Lin Gin once went back to China to bow to his parent tombs with his wife. All kissing is to leftists.  
They seem to get all play cards that cover their path rather than flower girls.  
Lin Gin successors Ma Ye cow may be the follower to flowers camps. They may success on the Taiwan presentations and presidents elections or they may not.

Booze up bull-poem.

For laws we are good to take by efforts.  
With good mercies they are mean to help.  
Over powers are taken by faiths.  
Speed laws are winds on tails.

All over powers are with over all.  
Over all do not take ends.  
Some still poles are graded.  
Distant streets are worlds' eyes.

All over are people made-do.  
Over all are gods to rewind.  
Sum up totals is not relative.'  
On a level all people win.

Power meshes are not good lattices.  
Gives and takes are boos and jeers.  
Pictures are images to jell our laws.  
Family trees are good fees.

Powers are forces and facts are faces.  
Bodies are flowers and tricks are arts.  
Domes go up but plums go down.  
Who on wars are soldiers but who have power-cracy in Rome.

### .....1 China intellectualism-cauchy3

China intellectualism.

Intellectualisms are weapons' natures. There are seven or more inside information with China logos. There would be more but I do not know well. Some said that there are seven.

Spires or seven up are also juices. As I drink a lot of juices and eat some vegetables always because I am poor.

From news I notice Donald Jung favor meals like pig hands, Kabobs and pork. He got many good powers on assets.

But as vegetables are like herbs and..... My assets are your console prizes. How about withdraw of lots with no one party big along.

Where is my good asset? Are your baits switching on your bad matrix? Your hubs are dark with red alerts. You compare two groups with one spoon.

A plate is your only disk. All benefic languages are live dead knocks and poor situations to other worlds.

Your benefic language is the situation words to unit nations.

Your sciences copy the white fangs.

Jabs are not swipe. Swipe the chests and filch the world.

I got vanilla as assets but Donald Jung and China bosses got fitch as very deep powers.

Intellectualisms gaga! GI giant but no China wa-wa! Wa-Wa is white wash intellectualisms are seven or more.

Macro macadam is stone knocks. Mark down buses and boiled slots. Who send you a redeem tickets to Gods.

China man-ship is power passes. Licensed party is one big alone. Got your leaders they are waxing in dirty pool. All polls are from straw men.

Steel cuffs are used by vigorous tigers.

Snake venoms are from snake floods.

Fawn dogs are not free ion only.

Mercurial natures are not good mercurochrome. Political wounds need no more.

Go out for one along.

Go out for dirty pools.

Go out for no public crowns by all go over elections. Peoples got the boomers.

On the far ends of the China world pens there are quite a lot of poor workers and farmers.

Not to frame up them they eat some vegetables and some rice.

Cauchy3. So who really got the vanilla? It must not be the possessions of

Gluttons for food show your teeth. Actuate to Dickens show your powers.

If all are one union set our world universal may have one number one.

A one community is not one left wing. Our dimensions need 3 to 4 or much more.

Raw deals about poor fish men but are there big fishing pools as such to support cadres. Human plows are political tools.'

4 stars are belittled with one big king. Would it be some cadres very big fruit gardens but some acidic soil for the poor?

Would it be cadre garden of orchids but not world gardens?

A trawl to frame up is powers. Wooed jinx to our no good sundry.

Wooed jinx to shark bones with teeth.

**.....A life-by Cauchy3**

Life-poem-by Cauchy3.  
Some Christians give one for ten.  
Hundred thousands buck are for sakes.  
With jails rural capes beg.  
Jealous are on loves and greedy for sands.

Does he always dare to does his pleas?  
He shares a corner in bad quarters.  
No thunders before drums are heard.  
.Limited loves are eternal baubles.

Remember the base s spends and the counts.  
Who is game of fear white dirt?  
Tommy is turn on a race of tourney.  
But what is the principal behind men s digging.

If some one is too worthy to sins!  
Says then Gods should return our taxes.  
All loves are laws are some prizes.  
Take a gun she will loss her actions.

Was mass better than density?  
Do all worthy peoples over this mounts.  
It is gun smoke but not chalk that erased.  
Same level if waters are for hours.

Thick pizzas are ticket worth.  
When things acquired then dreams with the worlds!  
Who s body deserved to dragged to their tombs.  
How to decorate graves are as paper stones

### .....1 annotated feet-cauchy3

Annotated feet.

We are creatures of supplement able. We relay to powers, comforts and happiness. That means our cores to survive. When we lack powers on lag tides we try to enlarge. Enlarge our vim and struggle.

A sort of loves to buy and to sell is called social climbers. We are some. We assume ourselves with good looks. Religious are mask off to fears and sexes and power extensions.

We all have fears that will make up laws or morals and these are why we obey to our rules. Our fears may due to pains or losses.

A flask of elixir is camouflage to long lives.

A piece of cosmic spell will ring up the universal like a home.

Donald Jung states with a geo-mantic artist. They both go on a magazine. He agrees to this artist because Donald Jungs father buried near radar station. And that means powers and good lucks to many their generations. Of course have no magic fans then Gods have no feels. Theses are rich men rabbit holes or tombs.

On the other side Donald is a catholic who state his own well faiths.

I do not care multi-mask off. But may be his points are to make peoples to love his mask off.

Religions and politics are both relay to powers and morals or both. Some time ago a T.V. screen of white albatrosses and there are the appearances of Donald Jung with his speech.

He addresses the possibilities that he will be the future mandated Hong Kong top boss again. In scripts these must be true. But may be there are some cadres are annotated feet.

For cauchy3 me mask off a lot also. Not to open all the truths behind my actuated minds and my bad things I have had trained my spirits to little Taoism. I had drawn spells on yellow papers. I earn no moneys but just probe the flaw magic worlds for funs.

My annotated feet are my own feet. However I always wish I am a god to all atheisms because I am quite believe to atheisms. But may be there will be gods some time latter according to energies evolutions.

But who promise a hill rock to invite me the beautiful moon. It may be our enemies so I got to frustrate on some ways.

All are mask on and off for powers, fears, comforts and happiness. In ancient religion papal all over many parts of our worlds to believe to other religions dirty pools may cause heavy punishments even to death.

Some one being with tortures but confessed and regressed may ride a

white horse and go out from church.

To conquer with superstitions or to mask off our faults we are wrestling with our controls.

The floats in human lives are mask on and mask off because of powers, comforts, fears and happiness. The floats in our worlds are lives. The floats in our universal are energies.

Would there be true loves. It would be sexes.  
Would it be always and to every one! What we relay on is our vim or powers or inner most and our families and best of all would be our social structures.

### .....1-1-1 A chart of life-cauchy3

A chart of life-Cauchy3.

Declare and let out or control and humanity or centre are two only psyche effects. All causes are reactions to actions. However there are three genders in languages: Masculine, feminine and neuter.

Masculine are curfew laws. Feminine are all loves dramas. Neuters are equal amounts of benefits and tricks when mixed.

But changes come in small, medium, large and extra sizes. Magic spells are less costly than wands.

So we bet the totems with no buying. When false mixed with the genuine then fishes jump over dragon gates.

As horse fly to star with genuine but no with wheels then all are ones.

All wisdoms and all physiology –powers are led out by reactions to actions. It is hard to image how a new born baby creep without light, heat or touches. It may be only a heart break or crying in woes.

Of course we also have to think about the treats inside ones bodies. Ratter a rigid body or a creeper that bent down will calculated with heat, light, sound, touches and peoples.

As each one of us is greed for greedy lives. We are bully for bulls and bears games. We may beg for common justices of the peaces by setting up our laws. But when we lost a lot we know we had to stand on path but not knee on our own images.

All knowledge is forbidden when you are not with same or not get along with full agreements.

All wealth is weal when all country funds are only break in evens. All forecast on futures may be expired loves.

Up down volumes are not better than new high and low in some special occasions. All under performs are well for other up performs. One pattern of single crest may good for double or triple tops.

Zero is good arms. The upper trends are our good momentums and the down trends are our low down.

Our lives are starts on some special zeroes. Write out your own new charts on one day.

Magic are woven and silky or magic are rigid and wands. Make up your soft brains under the hard copies of your lives. While phoenix dances then tigers fix up the vice-dragon when baby sit.

A law book detects and selects the rules. If cauchy3 go to the throne (cheung shun sang) , a title is through and through. A scabbled page with two thousand symbols needs to be very kind and very grand commented when they are compiled to objects with my subject.

In about year 1990 I open a law book enlisted with civil laws in republic the china with 5 stars. For each term there are some seven comas and five mores.

The book was a translated and traditional structure Chinese word book.

Who relay on it who get the judge for some ways.

Actually but laws if you are not one then you got no sympathies. If you are not two you got protections outside to seek medical advices then..

If you are three, you are invited to drink before their shows.

If you are human then you are men.'

Gods are in crosses but you are in ramps. Your girls go to teas and your women ramp up and wedged.  
Straddle my mind to go to down flowing. If you are leaders, wan bamboos and whistles pipes follow our singing and playing.

Expenditures are far beyond necessities as some good men. One row of civil and one row of military are intercept by one order.

Synchronous flaunting are good steps to paradises. Display yourself as you show off. Take on orders when send. Give your orders as dead centre. But good laws are for alibis. Good books are from Alibris. Law Books detect and select our rules in symbols.

### .....A cauchy3-political-graph-sinx/x

A political graph-Cauchy3.

The life waits to die. All matters are different. What is the want of motive? What means purpose? It is to transform by all means. Get down but décor a night of jewels. Stray lives claim more options.

What subjects are above prizes? But objects are all cookies that crumbled. Lives are actuated by greed with some lives.

Lives are actuated by angry when pressed or opposite. Lives are actuated by fast stealing when you show off.

The word honor is copy from your copy books. Authentic works are milks but seize by tricks or by forces are the butters. What are your consolation prizes?

A characteristic attitude is all too common inner beings. Carman fantasy is frank and common. But I remember the teaching from lady white. I adopt her near words. I teach myself my own ideas. I mean that to born is a stranger. To reborn it is not earth quaking man but a baby. Are you Quaker?

The wisdom of Aspasia is flowers in asparagus. Pericles are the greens of her vegetables.

All courts are good results when back up with Athens. Greens and vegetables are Pericles and ASpasia.

Athens Pericles enclosed a better live form when hired.

But Sparta military units are worms that eat out the green loves.

A queue of quick busters or a matrix of butchers is two variables.

When does Pericles go down to polling? Who is the virtual king? Flowers, songs and gifts on streets or flatware for panics are one set.

Legion, Brigade, battalion and platoon and bloods on cream boards are other sets.

Stable charged political power is one up right middle spectral line. Shifting to left or right like the motive for charities or for principals! Farer to right is the higher principles.

This is the graph of good moral and good political powers and judges.

Peak cross section is the amounts of achievements that are the unit on y axis. Oscillations are also show as the tail of the bell shape graph. The faces of oscillations are stretched graph like truths.

Also the conservations of powers are one whole unit. The matters of facts are how they are observed by some times. All big timers take the control of the shapes.

It is good to has skew whiff. Other may also think about the heterodox rather than this orthodox political graph. Skew to left it mean self advantages like moneys and jewels.

Skew to right then it mean laws and orders.

When extend as asymptote to time infinitive. It turns to one small constant of eternity.

### ....1 Annotated feet-cauchy3

Annotated feet.

We are creatures of supplement able. We relay to powers, comforts and happiness. That means our cores to survive. When we lack powers on lag tides we try to enlarge. Enlarge our vim and struggle.

A sort of loves to buy and to sell is called social climbers. We are some. We assume ourselves with good looks. Religious are mask off to fears and sexes and power extensions.

We all have fears that will make up laws or morals and these are why we obey to our rules. Our fears may due to pains or losses.

A flask of elixir is camouflage to long lives.

A piece of cosmic spell will ring up the universal like a home.

Donald Jung states with a geo-mantic artist. They both go on a magazine. He agrees to this artist because Donald Jungs father buried near radar station. And that means powers and good lucks to many their generations. Of course have no magic fans then Gods have no feels. Theses are rich men rabbit holes or tombs.

On the other side Donald is a catholic who state his own well faiths.

I do not care multi-mask off. But may be his points are to make peoples to love his mask off.

Religions and politics are both relay to powers and morals or both. Some time ago a T.V. screen of white albatrosses and there are the appearances of Donald Jung with his speech.

He addresses the possibilities that he will be the future mandated Hong Kong top boss again. In scripts these must be true. But may be there are some cadres are annotated feet.

For cauchy3 me mask off a lot also. Not to open all the truths behind my actuated minds and my bad things I have had trained my spirits to little Taoism. I had drawn spells on yellow papers. I earn no moneys but just probe the flaw magic worlds for funs.

My annotated feet are my own feet. However I always wish I am a god to all atheisms because I am quite believe to atheisms. But may be there will be gods some time latter according to energies evolutions.

But who promise a hill rock to invite me the beautiful moon. It may be our enemies so I got to frustrate on some ways.

All are mask on and off for powers, fears, comforts and happiness. In ancient religion papal all over many parts of our worlds to believe to other religions dirty pools may cause heavy punishments even to death.

Some one being with tortures but confessed and regressed may ride a

white horse and go out from church.

To conquer with superstitions or to mask off our faults we are wrestling with our controls.

The floats in human lives are mask on and mask off because of powers, comforts, fears and happiness. The floats in our worlds are lives. The floats in our universal are energies.

Would there be true loves. It would be sexes.  
Would it be always and to every one! What we relay on is our vim or powers or inner most and our families and best of all would be our social structures.

A solo to 3 ranks to tigers.

The three ranks of three tigers are beauties, methods and wealth. They have three shapes: - sloped eyes tigers with white beauty' s furs, Brown tigers with dark strops and brown tigers with money spots.

Beauty tigers are related to the touches of beautiful figures, wordings or flying tricks with bad honors.

Or they can penetrate those even on easy of oppositions. That is they can fix the very bad machine times.

The method tigers are related to the longitude and latitude to political methods. They are three political or anti-political tigers.

Liberations and latitudinarians are tigers' bones.

But teeth and points of claws are tiger laws.

White tigers have white slogans, and white washed brands.

Method tigers can conquer the vipers and tear the gold and silver rings of the snakes and vipers.

White tigers are flying beauties with no watching.

But peoples see them with worships and honors.

Their in born powers are legislated beauties.

They are admitted to all stretched truths. Or this is army looks.

They are tracks to good takes on political stages.

Method tigers are with administrative brains.

They extend the lengths to govern our times and they extend the widths to numerous numbers and scores.

They are admitted to all stretched powers.

They are tracks to good takes with political powers.

Tigers with money spots govern the common layers.

They are the tigers of wealth and wine gods.

They are well related to foods and drinks in depths of good choices.

Three kinds of tigers have sexes and powers or moneys with sybarites and each in turn are common human gods.

White tigers favor flowers of morning glories or other beautiful figures.

Method tigers love flowers of red buds or other powerful wands.

They are all fun of bloody oranges as for their crimsons.

Money spotted tigers love sun flowers to drive the moons and the Diana.

They support or bully to peoples when we drank milks.

Markets are not trades with dictionaries only. They are the beats of money spotted tigers.

But political strokes have no citrates to drugs.

We booze up bulls or drinks to all.

Tigers' wines are of papaya and of bones.

When billows are hoisting up all the days we are some.

While waters are curls though they are smooth or sweet we are some.

Gods and big masters are chips to times out the tiger bones.

1-1-1 A bondage-worker-prose-cauchy3

Work projects should be administrated by modern arts and concretes tricks. The main themes are brain child and men powers. It is the sending off and holding of financial moneys.

Brains child are to the developments of good protocols and then accumulate our thoughts to comply and deduce them with logic and tests.

Work teams are set up with good coordinators. Concessions are all through conductions. The wisdoms are on charts, bar pies, and working diaries.

Questionings are for the examinations between the questioners, workers, staffs and the publics. Many works are explicated by drawings and working models.

Suggestions are the good modern arts on the dame ways as some easy administrations. Concrete tricks know how to communicate and lead many hearts.

It belongs to the scopes of mass psychologies and good leaderships. Workers always need very sound suggestions. Values of living and values of productivities and happiness of creations are all good ropes to happy bondages.

Tragedies should be treated by sympathies but not merely fears. It may be failures of a test or losing some lives. Hidden persuaders are the one who addressed good prospects and good successes.

Good sympathies are of course the courses and effects of good wills in good inner most. On our world there are many Cattleyas to honor our tombs rather than black roses. Cattleyas are crossed orchids.

Crocodile s bloods and fleshs are not torn with tears. Times and motions studies; sometimes are redundancy for workers and staffs. Very good jobs are not the best ones on markets that were sound on ways. So take care of your jobs; your professional careerists then as you are.

To-day your tanks and posts are some good dealer on wheels. You are the whops and the colorful rain-bows as the ordered pairs. You are the gentle blue rains on cheeks.

Romanticisms and egoisms all know you. You are the one who know your own powers. A family of cats meow near your tombs. Are you the crocodiles which shed your tears when you kill all baby cats-pussy

In some ways all shield are thin. So you need your homes. Impartial antics in laws are to the degrees to exclusive for landscape.

The annexes are lands. Grant the lands are lanes gins. Cottons are sheep s coats for wolves. Lands lords are lands locks in republic.

Replica a annexed land on histories with tools like guns. Do you have your home tongue? . My works are in my dialects.

### **1-1-1      A doom god-by cauchy3**

A doomed God-by cauchy3.

Absolute god shows his regards towards absolute pleasures. Gods will doom when characterized or not characterized with ambitions. Who suppose to be in calls to create our worlds or even the non defined universals?

Clearly it would be our universals that might be defined on latter on days. But religions point out the fake truths that we could never define gods or pee powers.(over all) .

To exercise all lives and dictate all fates, God is said to acquire pure loves and justices. Satan, and evils on the opposites, they set up all traps to tempt the good and the nice turning them to be arrogant and violent.

The methodology of one mono form of spirits and energy or cells may split by sets of associated two poles and tri-poles or multi-poles.

There might be one large dark hole or holes or single particles or both or many that combined to never give rise to senses of human and density of matters unless they are evolve or expand or change on time transactions.

Listen to my honest words on fates as a series of chances for a kind of possibilities.

Says a mother wish to get her child home from schools by her private vehicle! Her lunches times are near and so dear that she becomes so worry and so anxious she is then wee her car. She drove a little faster. The point is a fast wee car may go against the rules and it may also cause accidents.

Actually the mother could not get every things and events under her controls. In these cases you may suspect the pure loves of god and the mother. Our god creates Adam but treat Satan or what behind evils as some belittle forms. So this lead to tragedy!

Powers need majestic. However if you have self esteems do you have all submissive to goodness in whole just because you have sins. That could just our psyches and bio-cycles that exercise us. Of course I will be shame if I lay down. The earth has dusts. Ha evil ice creams also! .

Do you think that you should exalt god powers because you are short in dignities and honors? Yes cauchy3 is short in morals. But at least worships on or in our earths should be controlled.

For human desires to survive we need to control our environments and our inner beings. So we need stimulations and also afraid of stimulations. Actually we have senses and we are some kinds of lives from that we can feel.

Not to alter my words for our god or the mother then I ask that will pure loves be for altruisms or selfish home lords. God or gods seem to always fulfill with ambitions.

1-1-1 A Tao, Sex, Machine-by Cauchy3

Impersonations of spirits with elements for justices need to have first decedent of unalterable principles. A mater of course there is no death and would be no birth..

Wombs are not very good to penis. Or honeys are not very good for rums.

Clove pinks and open robes are soft. Pull your selves down to amuse her loves.

Magnificence of ceremonies is on blows of histories and times. Thou should you on stages. Thou should you are Gods. If times are on infinite powers to powers of infinites then all might decease.

Impersonations of spirits with elements for justices need to first have decedents of unalterable principles on earth.

The true principle is to eat meals of animals except for vegetarians. But if all matters have spirits besides energies or.... On some other phrases of our Tai Chi and Tao! Gods are subsist on a space full of plants but with feeling and senior.. Then gods had been the tops.

Powers, fames and private belongings involving all real at states are very important statistics for politics. The course to strive will mentally and physically spend a lot.

Will the Tao exhausted? Ethics or justices are all spent away. There are the rights to hunt fox. There are the rights to eat animal s fleshes.

At least monks eat vegetables. At least there are creepers go down opened lakes. There are slave plants.

Tao will turn over and spirits are hips that twisted up. Belles take off her robes. June of Arch takes out her dreams. Jesus change waters to wines but does he crushed grapes by spirits.

His feet are on waters. Sea is so powerful. Priests give waters and keep the wines.

Actually our so named Gods as many are mistresses with crotch-less dragnets or masters with long sharp shafts and beams. We may also have Comus. Gi! Do you have thoughts about a egg headed god in over superior spaces or dimensions.

All is super-realism. All are double solos or ensembles. Multilateral treaties or multilateral trades or multilateral births and deaths of Gods in multilateral spaces with alterable principles are myths.

Bloods are in stoups. Long opaque glasses of red wines or ruby glasses are windows to open and close.

Or on a short edge our spaces and times are counts in fixed infinites. So all will disappear on once and for so long! Do you have some other

alternatives?

Whistle to my heads. How about the absolute pleasures of Goddesses? Why there is an apple for sadomasochism. If it true that not all bloods are curses.

Charges me or tie my spirits on ropes and teach me. You may give me millions U.S dollars for a year of sexual slavery or for my fidelities.

Playful submissiveness is blinded folds to our five senses for all knowledge of Gods. Gods are good feathers teasers. Oh do I have a mighty hand or hands with jelly fingers.

The final good issues are to play toys games to machines. We use toys against machines. Do all our times are machine cycles of Gods. Gods are just other machines.

### 1-1-1 A mark three-cauchy3

1-1-1 A mark three.

Laws are to compete to no laws givers. To the ends of complex fractions greedy minds are not match to figures of discrete fractions. Depend on whole fractions are our good ends.

Who make up our good fortunes? Small businesses have poor scores to win a very good standing. So large stocks and businesses become Beijing s intrigues! Small businesses and small whole sales can level out the discriminations between rich and poor lives.

Besides small businesses very huge enterprises or banking could be broken down in men given accidents.

In case of very great social financial problems, small businesses are relief to huge ones by ways of buffering. Of course many small businesses will rub out and hence give more chances to huge ones.

Very prominent numbers are very good negotiators with Beijing.

Bow tie is retail agent and seller with names in charts. Who polished the shoes of their bosses? Who polish the marching boots? Who give some couches with all flaws? Who clean out the windows to get the views of see-through-s.

Some numbers are marching on. They fight until liquid dry. Cuts are on fleshes as bones are dried. There are carnages when dictators give their calls. Some numbers are called numbers on checks.

Some take out their lunches. A God-machine is the prototype and second systems are mark two. God s mono-plays are gods dominating as red tyrants.

Leaderships are the prototypes but nationalisms are mark two. Who take the suggestions? Who will experience the semi-bivalent two systems which are mark three?

Which catalogues items are with binary search and hence go to tops? What are really fine when on tops? Are there very good suggestions for a true mark three.

Lattices of whites or lattices of inks are my views of very good polices.  
A very good cube is very white phoenix bedding in complete white snows. That is very good snow balls. It is to anneal and to access. It is to our annals.

But weak birds are tie on rains. How about our really white phoenix?

Draw over ones lucks for good fortunéd. Coin words for silver faces. In a hurry to absorb our situations are wars like sit ups. Loves are good products as dairy dozens.

As to set up the powers like to control your boats to pass between waters of straddle hills. We are steering by forms, shapes, words and tools.

Terminal words are continuous govern over. This is the under wills of live hoods. To win the fights for the start or in the middle or to meet the ends, we plan our forms. Methods take many forms as for some mastery.

Tactics and strategies give you full prepare to gain by shapes or words with your tools. Good lists are dead lists. But I could not point out on details.

For shapes you account to your images as you delicate to. Whether it is a black and white occasions of being in white washes, or swarthy black on philosophies.

Always ask how to win but why to be subdued. Go to subsided or go on subsume then all each points of our determinations that would be our forms or shapes; our words or our tools that can be standing.

Shapes are very complex symbols. When reveal in each details. Take example of girl s Cuban-heels as it is the weak point of women but reflex to be a gagged sword to man s throat in deep occasions.

So both misters and mistresses may go for the winning prizes. First he or he-she love women weakness will also hate men. On the second as a contrast they have fears in men.

Another example is to both take positive and negative responses to a symbol. Some snakes and rats are both fighting for their might but cover each other for mutual benefits.

Conned jasmines! Rot came to when claim poll go under devil seats. Chilled chin, you are sad. Heroes between two phrases are treated by both shapes. How can you parse the actual deviations or distinguish of each phrase. Both shows are still not going out. Rabies licking our bleeding souls!

Who is master and who is the king.

Goals mouths have goal kicks.

Slice kicks are global disclaimed.

Pirates are thieves as they are pirates of histories.

Jotters are joules in world s hints.

All bad laws fold in beds.

Roll up by red sheets of blesses.

Crumple good ideas to be due.

Tears up the tears of good dudes!

Dwell the houses with few gardens.

Flowers are links to bloods in gallons.

Be a fool to truths and honest.

Fogs fall in wells could not out.

Blue set up French locks.

Sapphires are China –Taiwan republic.

Green lands are isolated homes.

Radiated heats are black to cut.

### **1-1-1 A Cauchy3 poem**

1-1-1 A Cauchy3 poem

Preen the collar for your good exists.

Display the wants on honors of justices.

Allocate a share of good minds.

Marks are gain for styles and successes.

Saving ji Roll but beg for a penny.

Who is ji Roll and who is Plato.

Swords are swore words of pens.

They are bills that print on two corners.

Higher goals are diverted forms.

Displaced manners are active thinking.

Bibles rules out mollified forces.

Pep talks are armors for kings.

Bebel s charges are paid by turns.

Devices and Trilogy are sputum in jugs.

Noble green but not Lapis Lazuli!

Bear flag revolt is cut.

No plots are stakes in jugs of pots.

A Spanish coffee and a China tea!

Ditch of songs and pitch for bowls!

Knock away all unwanted balls from earths.

Swap two lucks are lands to pre-empt.

Swap two eras are themes for verses.

High and low pressures will flight.  
Histories are the rays and we loan lights.

Not all principals are marbles stones.  
Not all animals flee when killed.  
Not all poems are in realms.  
Not all papacies are for each.

Computing algorithms are not yes man.  
Protocols are laws in adjusted cons.  
Ionized politics are not ways to desalt.  
Patriot is a client of right or wrong.

Dictator is the devil of some due.  
Classes reformed are laws by fraud.  
Far reach hands are all armed.  
Sharks are not feed on fish scales.

### **1-1-1 A couch-poem-cauchy3**

1-1-1 A couch-poem-cauchy3

As docile are tongues of the sheep.  
Yet armies strike all annals.  
Some racketeers are good at rag weeks.  
Rag dolls are on towels and in annexes.

Fly you are days in raising dolls.  
Hooted points are good points.  
Worthless are sectioned good words.  
Tinkle the worlds with chips of poems.

Rebuff the red hats with rebuttals.  
Hate the clumsy laws that are insufficient.  
Galton is eugenics but no gods have morals.  
Resign by natures but reign by courts.

Debilitate a system of expanded arms.  
Golden pendent are décor laws.  
Curios are governed by worlds in contrary.  
Couch flies me to go up towers.

Law devils are law shifting.  
All thinkers need to resign to brains.  
Some soldiers are bleeding in rains.  
Most gangs circle the rings.

Went to powers are as super realms.  
Who care the smiles on faces of each?  
Who spread blood cells on lakes?  
Wombs and tombs are matrix of lands.

Some racketeers are good at rag weeks.  
Laws are slates for clean sweep.  
Some are tricks to win the tickets.  
Just a goat to escape the tips!

Sport balls match sports.  
Stage works are back to spotlights.  
Red matrixes are leader s crotches.  
Damn apples are on branches and in rows.

Laws are in black and white occasions.  
Reign may be some times black to black.  
Conferences are weaves for tides of oceans.  
Storms are at backs of whirling waters.

### **1-1-1 A baby walk**

Baby walk-poem-cauchy3.  
While babies walk then your wills creep.  
All joys are some oasis themes.  
Guns credits are in balance sheets.  
Credit lines think on them.

Real is the subject or the object.  
It is odd short or odd long.  
Recalls you recent and copy the laws.  
Resell your tables that are the names of cards.

Your faces have silver cold.  
You kick in the teeth a house of honors.  
Cylinders to pistols are over and over.  
Meals to mouths are whips of the months.

Twisted and bent you are some trying.  
You successes are your wines they put on their shoes.  
Smooth voices play on airs.  
Anchored words are walls to horses.

Great walls are not apples great willing.  
Laws are logics but logics are not laws.  
God s gallows are evils pillows.  
Put on the pillows or put on gallows.

Political homes are donges for la sang.  
Naked on nudity are for common to audit.  
Studios are laws but heavens are arts.  
True files are lost causes.

Nails of nihilisms are with foots of monarchs.  
Scratch and scratch are as Gods are loaned.  
Polished your nails and suck their toes.  
Balls and holes are heroes and anti-heroes..

Gods have laws and give every a penny.  
Crotches of evils are no ways to negate.  
Blot out are absorbs when bow down.  
Bow ties are fashioned blows. (bow -tie- Tsung) .

Blow the whistles or blow away.  
Resell your tables that are names of cards.  
Your faces have silver cold.  
Your kick in the teeth is a house of honors.

Fear dirt-s is not pay dirt.  
Tastes of honors are tastes of honeys.  
Take showers are as red cabins.  
Honors fevers are caves in cages.

Ride on showers is with red storms.

Anyways are men to Gods as any how.  
And they will find not things are fine.  
Hurt you are what Gods figures.

Take you when you low down to evils.  
Strong whistles are not good themes.  
Elements of schools are last eves.  
Weak waters blow the weeds.

Today-s is today-s as men are totals.  
Toasts are for masters of good toast.  
Gods have god trades but we are slaves.  
Rocks may not be sands are hammers with sledges.

1-1-1 A Bottle-Cauchy3-poem

Make a bottle that has few teas.

Honor a man with dark feins.

Earn a feud is our big fears.

Feather the paddles to smooth the weights.

Passages of times are human roles.

Passages of laws are threads to holes.

Passages of hermits are moor with stars.

Passages of leaders are orders on palms.

.Yellows and pinks are namby pamby.

Blue narrow the mood by morals.

Bad morals as a cross on! .

Near ancestors are booked words.

Bone the oysters fleshes are eggs.

Laws are adjusted with reformed shows.

Oscillate and govern are crowns and apples.

Hocks or debts all are paws on globes.

Spells and curses are swears of peoples.

A line comes down on groups.

Dictators and stroller-dragons are rough.

A plan is vivid to bad roués.

Iniquities are skins of good men.

February is month of many fools.  
Chisels are civil when you sell.  
Rouges on dark bureaus are we are tools.

Blow the comets when cups are on milky.  
Walk on walls when halls are sorrow.  
Morales are hot and morals are fixed.  
Arcs are on bows when there are two forces.

Sangs are bloods and they mean lots.  
Smile faces are facts in farces.  
Taunts a noble when you are lofty!  
Some phantom belonging is not fair.

Buff naked have uniforms minds.  
Butts in by laws are hides of evils.  
Cottons are in jars and hills are on caves.  
Alls are chickens wings in bird s cages.

Boots are polls hawkers are heaths.  
Peoples are tools but who led our earths.  
Lands are lent when slopes are rise.  
Risen your classes are as henchmen in pinks.

Dada sugars of firing mars.  
Mama soaps to wash whites.  
Table under nose of papers!

Suffer a can of loving vipers.

### **1-1-1 A buddha code-cauchy3**

Buddha codes-cauchy3-prise.

First themes for pledges on human are codes with the forbidden words. Second themes for claims of matters are coded with the forbidden words. Third themes for un-honest survivals are coded with forbidden words.

Eager beavers are moneys-manic or powers-manic. Manipulations of good histories are always spare around for men and women.

Only the three triad themes are protocols for very strict morals. But we are human animals and we are not gods, so it is only a trial balloon on very fierce storms.

Our lives are fulfilled with ethics hazards. We have good cloths and medals. We are still wish to dress with fames even we are fond of very kind exhibit-isms. Cut above all we have to follow the three codes for the three themes.

To collate our lives, we need to have good feeding for good nutrition and good studies for good knowledge or we still to lay our hands and bodies or minds on many things and issues.

We just have to make sure what we need are what we take. We may already have a furniture house for our homes. Our country may already have oil rigs and uranium with our powerful geographical realms.

We are turn about faces to our lovers and we may be names in burst files of our countries. There are always other double dealings.

Sure there are no utopias on earth. How can you predict the lunch times of a stern and good man when compare with a genteel.

Only on one precluding for very high rank principals are in pure lands. Where there are palaces of flux and energies assets and are they totally exchangeable between men and women?

To ascertain and to assert our only lives portions are for the congressional powers exchanged between all of us. The forms to reform and to create are the recombination of Yin and Yang.

The go out of Yin and Yang are the two themes while the four phenomenon going to eight diagrams. However on pure lands gods go out breathes as their assets.

No revert on souls are two fairs as Piseces on lakes of galaxy. Hay! Very good marks and very good positions for fairs breathe.

To turn selfish to unions are our universal set on Tao. Tao as Tao is abnormal laws. Names are fames like lakes wide open.

Hay! Very good fames! Their feeding charts on all assets in pure lands are for purisms.

However some effects and causes are under the good domes. There are book worms for books. There are apple worms for apples. The worms in minds have done. You feed on worms and get good energies.

This is like woman and man in pure lands. However they got enough of shares there. So the triad themes become the rhymes of very happy songs.

Wish lists are lotus flowers as good locus on earth. Other wish lists we can never need to input or output for transmigrations.

As our finalists there are no inputs or outputs except our lives in pure lands as things are wide open lakes.

As for the manipulations of histories on earths, their wallets are wallows or wee tanks take fluids as bloods. This is called the phenomenal diagram for abused thunders.

As for the manipulations of human relations in circles of many human classes then there are no good trade off.

A lady goes to court on assumptions for the eyes seeing of very rich men. However a slave certificate worth million of Hong Kong dollars for one year but the treat for some dudes to celebrates are the ten folds. Now it is year 2005 but what I mention may be in year 1990.

Take the view of another phenomenal diagram which translated by me as the faults for the southern seas and north mountains. Some humble female feet are hard core whip kisser for 250 Hong Kong dollars each as for one treat or on set now in 2005.

Leave anneals but not whips. Mutters and mutters are the Buddha and the colors of rains are blue. A Russian blue plays with pennies. Toss a coin for another chance. Our fates are not reformed as so easy but our germs are evolved or when we select our Buddha s bright lights in our imaginations.

If there are no houses then we built our huts. If there is no coitus we use our clubs. If there are no preys we raise their sky s enemies for our preys.

If there are no literatures we make up many words and musical notes. If there are pure lands we could not bring our clocks to it with us.

Pure lands are solids but wide lakes are omens for dreamed lands. Psychogenesis are roots but Sigmund Freud is trees.

Ascetics eat no good meals and ask only for dews. No escorts for them to wrestle on water beds. Do you stand up proud on ladders with women s less heights? As we all know sexology always involved with mud.

The bi-value theory between loves or desires and esteems and prizes are confused in coitus. So many of us are confined to very limited sexes due to this and other reasons that come from our bodies and minds this is the reasons.

Eclectically we have common love making. By reactions and reflections we have strict and stoic ascetics. They have great cares in human morals. They worship Gods to express true loves.

They love their friends and peers but some are xenophobia in inner beings. In the dreams of some one there are symbolic pleasures for sexes and vandalisms.

Gods are invited to bring up our lives again when they are invited into our universals in some other days. When they really born or evolved. Or in opposite sayings and for some reasons as now they peering us and set experiments on human worlds. What about the underlying truths of these experiments.

The rights of gods to test on us as sand bags will limit to our lives in earths or in hells. Religious beliefs are also just another test. So our god a golden hair fellow or dark hair Buddha and there are still many. We are dressed down by gods. Gods are addicted animals of powers and glories in our universals.

### **1-1-1 A Cauchy3 world-prose**

1-1-1 Cauchy3 world.

What is a wheel and deal? What it is in all functional mind. What blows of flows are cascades when sink to sources. Am I a boon? Cauchy3-a man or who others! Who Come To dye under the hands for colors of retributions.

When Carbide go to factories for a mill of loves! They are all under the chairs of devils seats. By the way a British-man who believed to be Hong kong political judge win the accords of vantages and chances.

A real judge implants the positions in two cities. China is his one advantage like steel cuffs and armory. British is his books of files. What kind of merit does a man wish? Am I a boon? Were a man Cauchy3 or Wools Came To fleeting for accesses.

Another leads to interlacing facts from postages bag s news is another man call....

This man is a Hong Kong guy and gold emcee on easy T.V. His manners and performances are easy and good.

Before year 1997 he went to Canada. He gains the supports of two Taiwanese and in such ways he joins some Canada T.V. Chinese sections.

After some years he returns to Hong Kong when hid two bosses withdraw their shares of moneys. He speak really much for China Communisms and Hong Kong Government in about two of his Hong Kong TV shows when backed to stages.

However there are only two matches in his Christmas match box. It must be China decide to insult him because they hate his passes.

Obviously a one will bow to the feet of powers. When a little man is abused by a big guy there may be not other hands to help. Where is the courage of David –the follower of Jesus?

No bodies fear to take a rest under pine apples if there are no troubles. Arrows and phalanx of Phalcons are America China silks in armory. Russia furs are so light on cold fast airs but are hot when heat up like black fires.

Are the worlds are well distributed by powers? Suddenly now a well distributed butt walks across my window. On the other path there come a three rank security people. For a belle a three stokes may go to four strokes. Am I blank ...in my mind? Do I stroke ...her. Of courses I am secular.

Well take off are bad bloods.

Tapes are red with alerted shags.  
Bare candies are codes and bars.  
Pass words are for beets and roots.  
Upper hands are above rooms.

Low downs all sins are on Aprils.  
Apexes are routing and marching are shoes.  
Leaders are socks and tyrants are shirts.  
Sweats for eyes are the floods on holes.

Pendulums are pending to care about.  
A world of successes is chances to account.  
A box of jack is some nodes.  
Jacks of heads are long odds.

Know some and read shows.

Who's who sell their cards?

A one me in clinic hall! Again I am surrounded by many. Beds in arrays and men are in sheet ices. Drops of elixirs and pills of D.N.A are for deep loves. Egos to be men mates and she-mates are blending teas to milks.

Weaken wills are on bottoms but strong angers are on faces. Some muscular hormones with few playful pills to wills! Words are horns of plenty. Patently all my privacies and my esteems are being horn in.

El Dorado has jade law. Greens and perfect scenes are symbols in traces of Taiwan chief general but really only HK police. All are hypnosis and all are white and yellowish liars.

My receptors are my keys to my vaults. My dreams are my roof vaulting on domes. My dreams are to have my cuts to evil powers. I dream and I say that I wish to protect an island. Who would steal the waters and covet the lands.

Ruffled lives and holly ripples are blue rains or green steams that go up-steam. I need my told allowance in Hong Kong. Still I now live on with my own surplus. Surreal dreams to conquer wars playing and human tanks are honorable words. Will all lead to poems and all led to numbered lives?

Rot Come To dye under the hands on colors of retributions. When Calm Poll goes under the chair of devil seats! Latter words for passed out dreams are green reservations. Who could stop blood bleeding?

Plasma on cells and political lees!

All are filthy and all are wrong.

Short tides on seas for periods!

When spring come to gardens all are free.

Tulip seeds are not bugs free.

Redbuds are symbols but red bugs are totems.

As you are lord s asserts then you might be red domineers. Your collars are with no holds on barred rules for people s whites. But you are right and you live on white plasmas besides red bloods.

Fall by the way sides are no good breeders of trolls. Half done wars conquers need many besides tanks or tricks on trades. Good arrangements on social economics, xenophobia, and arousal all desires to excel.

The games of places cards are arranged numbers systems. Seeking the public to obey and echo to all pickings of the chairman or to his groups. To allow ethics hazards but no screws for fixing bureaucracies by their little common potatoes.

Oblige nobles who obliged by laws as placeboes to publics. Powers depend on mono-groups are mono derring-does. So all good lark on tensions of worlds combats and all lark on tensions to fasten peoples on poses.

There are one mono-play and all mono stereos as common sounds. All anchored words and laws propaganda are on publics but private orders. All over many world s charities mean the machinations of making uses.

Of courses these are true only especially under red codes spreaders. Don't Keen Wad are on large flows as a boat. It swims but sink under powers of red propellers. It go on steady with little accounts of a pea of peoples.

Tune Kit wail as creeper. Machismo is on masochism. Real powers are on sadisms. Our true butts!

All buying and selling of diapers for sparkled flames on black diamonds are bombs. Red bureaucracies solve all regrets and to eliminate the flying rattles and the swimming wasps.

Kneel down to the mirrors to self-magic. Self pities on amounts of all win over. Gauges are adjusted on fears of society. No real laws or good adjusters. No advocate is on struggles. Will they take heads and tails on politic wills? Not there are fleshes happenings.

No real oppose on bureaucracy as there might be no killings. Adjusted our worlds by tampered papers on books of histories! Real politics and real adjusters are one red collars-group with flagellating five stars.

Are good Hong Kong Tung-kit wah has the same views on our worlds as cauchy3. All over many politic worlds, charities mean the machinations of making uses of masses. Justices mean acidic characters on figures heads of all real sealing.

On declines are justices and laws.  
The zing to pay and the whistles to pay!  
Rural wiles but political soaps!  
Flakes of snows cover our shows.

Streets show and social soccer.  
Plenty of seasons on one dry throat!  
Sack of potatoes but very complicated annexes!  
Sip the honey out from acidic lemons.

Freezer freezes our lives but no methyl.

## 2 aboard a sexe-prose-cauchy3

2 aboard a sexe

Yesterday I visit the drug store and I look for some sexy Eucharist for my excessive desires. On the street I touch the associated symbols about abortions. The signal was believe to be given to me deliberately with orders of psychologists

I have denied follow their instructions to marriage by words. I am an experimental man. I say I keep going to live alone for a very long while. Of course in the due causes I may have sex congresses with many any that going around. Although I had few to none for many of my years and I remain so now.

To congruence of my wills to abolish a queen to take charge of me as said I am sick. As in my thoughts and in matters of facts those psychologists always bring me troubles by criticizes.

Those criticisms are all about my painful memories of my ill wills. They could not throw up a music chair for a true queen. The pasts of their queen are white wash. The flaws to my symbols as insight to my futures and my flaws in my passes have not good placements.

The displacements to loves with my servitudes are served up of positivisms. For loneliness I dictate what Vector Hugo had said: my very name endure the cruel dooms.

At this moment my wills are still strong and I don't aware of the feeble in my subconscious. May be there is deal in my hidden brains. In those days I write about the disciplines of the green colors which are much better than blues. This is an political innuendo.

I do not need to explain it in great details. Soon I go back to my bed room of my small flat and I try to take my rest on my bed. Suddenly the image of a beefy guy comes to my brain. He is in my wash room with his back zoom to my thinking.

He dressed in jacket. Obviously he is a prominent leader in the blue political field. I know I had to hate this person in my minds. But now it seems that I had the trends to be a lip slave.

I struggle with my will and I open my eyes. I know this is sex confusions. I succumb to my sample of foes.

Could my poll and support to Chan-Shui-bein in secrets would help. No because he is the man who I believe to regulate with jerks in true blues and china chairmen.

I hope that the fight would be to end under the name of justices. Although I am not a Taiwanese! Leathers and boots of china are evil rainbows in my hearts. Come on jerks you also have buds. All kissers would be sloppy.

Shallows are my wands as you wish to

swallow like lands. I stress that I am not Taiwanese. My centers of themes are too conceited when they are covered by smokes from guns.

This is so call laws. Or this is Roman orders. My Elysium is not El Dorado. I am a slave-lip on girls but not for real politics. I need some love disciplines by my mistresses. However I love no elasticity for a queen with white wash personalities.

Should only over charge me by false or true dignities? Harm me to my prides with hallow or evil assortments.

According to Sigmund Freud I had the chance to take an error judgment. However this is only the wash room of a humble writer. Remember the tongue of Clinton. This lip slave and slave-lip had given bad concessions to world because of China.

I apply Sigmund Freud principals and I think that I may dream about the androgynous pussies of Robespierre or Roosevelt Theodore.

The roots of human are evilness or virtues. We protect by our apparent manners like root caps.

Zone of elongations are our social mobility. Zone of differentiations are the jobs that are trailblazing.

The epidermises are layers to allow communications to or from our interiors.

In the cortex they regulated our thoughts. Deeper on is the vascular cylinder that is our will with our gases.

On the neutrons there lie our characters and subconscious.

This is my model of human roots for human plants. In the core of my instincts then my minds are hybridized. For my hypothalamus then it is a `place of nymphs and zoos. I am male. If you dance for the king and subtle I wash your feet.

If you are the over planet then wash me with your golden showers. Of course I know how to pick my words.

It is not only loneliness but for our concrete jungles with high flies there is the supremacy of lion to lioness for sexes on some how. What is your affective thinking about your grand sexual symbols?

2-be God-poem

Bring in the fears of what to exist

Trinity is years on walls to erase

Break down the walls to quit

On crepe papers charts are printed

Challenges and polls for no Gods

Universes are made from radiations and explosions

Bubbles are not taken care of bubbles

Bibles are waters to bring rubella

Immunities to coughs are polls and sciences

Beard to hymns when Gods are sick

A heavy mine of uranium is darkness

A condensed hole melt the explains

The powers can blow up all balloons

A proud review on Gods flaws

The absolute high and low in temperatures

The massive quick and thick ball

The laws of masses are corrected.

Energies meet with transducers but constants

When powers are absorbed states will altered

Atomic spectra is for heats and lights

Resonances of magnetic and electric waves

Are heats belong to thermal dynamic

Can we feel the tools and tabs?

Can we defined our times as they pass

The decrease in gravities will take times

Our spheres are expanding to bind

Jackal can leap but times have eyes

Times fixed to each no roles of bibles

Our finite spaces are stars interlacing

Comply to Gods will tamper the times

Complexes are weaves forms when ruled

But not Gods to view machines and causes

Tallies on woods are fingers of Gods

Magic of gods are curses to grow

Zero out Gods to arrange in rows

To jibe to Gods the minds of narrows

Inclinations are to join by exact calls.

Deviations to good will are gold touches.

Standard deviations may be ten.

Hoisted powers tackle the feet-need not to be justices.

Responses to stimulus are for human instruments.  
By all means there are Hitler s tanks.  
Space travels are wars copies.

Guns are putting with men in dens.  
But can cats feel good in rat s cages.  
What define hegemony?  
What limited realities?  
Decisions to rules and assert in red when pinks go.  
Deflections are on scales to cross the global.  
China and Korean have arts for ceramics.  
A mold is to revel in or to immerse.  
A lake of lucid waters or washed bloods!  
Boiling fishes are for monsters.

There are locks to my thesaurus.

Gods are for theocracy.  
Laws are for mono-cracies.  
Human in groups of sprats.  
But there are aristocrats.  
Cells are all wee wee and there are nuclear  
In seas there are serene and sharks.  
Amphibians are sea strangers and Father on lands.  
An opened political wedding chest is some.  
They are full of dresses for tsarinas.

Hong Kong Bow knot will bow.  
Bamboos are twisted when pledged.  
But U.S Bowles takes liberal stands on civil rights  
Interpret laws by politics costumes.  
The stands of Queen Mot on exerted powers!  
Sexes are stand on feet with opened robes.  
Opened rouges are bobbed mouths.  
Snakes will crawl under.  
Tunes go over so real.  
One divided into rows.  
Both sides are power heads.  
A two heads viper.  
A cog of all machines in worlds systems.  
Sort the liquids in political cocktails by bubbles.  
As now the funs are over.  
We use divide with gold means.  
Our middle apex is only the point.  
Bubbles are from rains.  
It is the sky long tasks.  
Warm and cold are political airs.  
Which bugs for which buds?  
Are there any good polling booths?  
Four tigers shape out the masses of regiments.

Strategic positioning in sanctimonious groups with loves in mills are tricks to definite our good loves. Feline molesting rules with laws on views of formidable brains are the resources on militarisms.

Masks are enhanced eyes for higher anticipations. On our brims of realms are spoons on figures to follow the contours of maps. Spoons are not real baits but real politics.

Push against the truths and twist against the real. Conquer the matters in cubes and cross the rectangles on films. Our long chains are poor in places. We need sage leaders and mythic sagas.

Lobbies are loops that are closed without hanging out justices. Archenemies are one arbitrator. Discard truths after moving facts. Great understand on good tactics but few good intentions are mask on iron tablets.

Making shifts for our lives on our bodies needs only are straw polls. To float the bubbles on surfaces of seas like vain. Waters subside the diving ship was detected.

Clothe on law by monkey suits. Smirk to our freedoms with giggles. Flare your green caps on jinxes. Lord over island needs to give true statutory interests on peoples wills. China jumps the queues on justices to annals and histories.

Comparable worth on candies and berries are interfered by inversions of china palms. I hate the love tool kits of many mother lands. Acidic rains Burst from red clouds.

Work out the magic of her loves

Vanities and ways to go low

Bring the home charts of trading

Domestic works to loves and cares

Jalopy start with full engines

Jail birds break the seals

Visit the pub crawl the moons

Both calls are philanders or fools

Vox- populi is the gentle vows

Swear to bibles and drown our gods

Thirsty minds and wild lakes

Many passing pussies are on laps

Was carving at old oak trees?

Jagged sleeves and pants to see

Tear off to crave her stone

Rugged loves are plain storms

Heaving with spirits rise her heels

Drought of lilies with kisses to feed

Shield me with dilly or give your jobs

Brains with weal all sleeps woke

Draw her heads for good breaths

Drop on my souls to her breads

Boxes of breads and tastes of wines

Shameful eyes and dreamed bliss

Enfold my loves envelops pf coitus

Dispositions on body as large toys

Compose of spices are great loves

Kisses on the bosom and cores most

Loaned to her secrets on spots of her minds

All loves are opened to active

Details of figures spoon on cup

Games to masses rules to usurp

Sensations of loves values on tops

Open our loves while others bowl over

Twin pommels and bag for a tea

Gauges on cloaks wide and please

Vow gives me your nectars

Scents for eyes for my own views

Mirror collide my prides to humble

Scarce did I hold on my pulses?

Bump the queen out of lays

Bump the ways to where she wants

Open up and grind as booked

Thrust on by honors and win all boodles

Boody prizes are on books values

Clerks play the craps as rated  
But true loves with depth to go  
Roles of swans there fly the geoses

Cross claim to make the prizes  
Doubted claim to take reclaim  
Music on minds with dopes on lips  
Dormers on domes all loves viewed

Scopes on loves rooks to chesses  
Fortunes draw the prizes of best  
Roam on body crawl to angles  
Scrabble to move and struggle for actions

The monk in debt with hell and earthed  
Who gona laws abiding as one buy?  
The beauty forms the holes to some buttons

A little cash will pay all lives slowing  
For what arise and active may be loves  
To add the actions louder than a word  
You get off some respect and your coating

On bed your states are roll and rotate  
With kisses on whips and fishes on playing roads  
For peaches and plums are holding on for eating  
On south and dive in skin are greeting arts

Pope believe the powers of god (Hong Kong)

They have hauteur for bad or good

They know the good taunts to leasers

Now they disobey by praying leer

Governor is just head in jack box

How the pope has to play through

Trash around and shrink their protests

They just pray to stay on post

Left heart is strong in diastole

Right hand has forceful orders

God fix our dices to stand

Dickens control our times in watches

We pray the cats not to drunk

We pray for no dido to run

Pray for baby boomers of rats

Pray for tricks with bad capes

Might God give tickets like slips?

Might rats close their lips?

But now the controls of powers are slides

Plans for general polls are idling

Gods save the worlds as selected

Dab hands are use to delay

Adjusters bilk compromises with threats

Belly gods have churches in feasts

Laughers are pin heads in powers

Silly Billy did not make proves

General polls and referendums have costs

Referrals by Dickens are passes to gods

Few endless loves when actuated.

Bodies pleasures and comforts in all!

Presage by flows of weaves in our boxes.

Black and white boxes are crusts

Black in stages for widow s curses!

Whites are silks to feel upon.

They are closed or half opened.

Saw by eyes or detected when moved.

All are actions of inner beings.

Reactions for inversing the whistles we received.

Actually no laws for mortals but morale!

All start with modes of lives eagerly.

That is the symbol of lives for colors.

We are there as tinted and printed boxes.

Some take the colors of rainbows.

Some are both shields and swords.

We lace our spirits with particles.

One is termed as the active alpha.

Other is termed as blunt beta.

Bunt our things and heads for sexes.

Buoy our souls on fair tides.

Angels spray around with dirt.

Pick up all events as sins.

Send to gold with clenches of silvers

Souls awake by gallons of bloods.

Papal smear our worlds with foot.

Soldiers have evils to complete the toots.

We are jerks and jack s tools.

Big wigs have covered notes.

Songs are singing for low down.

All wines are to search for loves.

Bash the dummies to spin our globes.

Wrap your heads to butterflies pools.

It is love and it is tool.

Manipulators of fires like a cook.

Manipulators of flowers in blooming!

Braces your supports with good fates!

Brag as a consistent good man.

Fable your hypothesis when count on facts.

Crank the cars to drive in dark.

Keep the boats with flux of vigor.

Virgo and Venus are both put in.

Virus should stand off with tests.

Loves and sexes are fans to relax.

Back on acmes are wonted gods.

Bottles have bottoms and goods for gods.

Shallow are god loves to roses.

Black roses are hairs on tombs.

Split hairs and smooth heads.

Zero out wills sweep the clean.

Events that happen are willow weeping.

Swarms in queues and strollers to teeter!

Hermits hang his images on mirrors.

Leaders brag to wars on their daises.

Stamped feet with no table manners

Smear with feet and abuse with laws

## 2-Abc annals-prose-cauchy3

### 2-ABC annals

Most animus start from protections of our egoisms and as such are human race. We preside many effects in the causes of other men and as such happen we absorb our facts in prejudices.

Love prejudices or religious prejudices modulate our truths to some facts. In presence of minds we may not win over. The trimming for grand pix may be full functions of minds with good emotions and best intentions.

Human are full of evil devices so we learn how to hate some things intentional and bad.

To full our wishes they may be how to take an action or wishes to pour a cup of milk to the edible planets very far. They may be both in dreams.

We are marked to fond of positions or powers or moneys. We are tabbed with altruisms. We denounce our duties are for our credits. We concluded all attachments on bibles and annex with laws.

However we modulate the patterns of loves with hatreds. There may be or may not be prejudices to hate actually. The cores for a civil system are freedoms and pleasures and comforts.

Foods elicit sexes. Drinks elicit powers. The call is our instincts. Erase vice powers is human virtues. Each sector or group is supported with loves and also animus.

The count is not clear or exact as we are not a slave-whole-man. I mean each of us has his own desires or egos. Our ego trips are both to hate and love. We love all benefits to our bodies or minds. We hate there not.

To be free man the matters to be real is our functions. It is non sense to be free without good functions. Setting aside convictions we guarantee no truths. The target of evils which are absolutisms, monarchisms, authoritarians and left handed -czars are consoles with human brains. Many sectors are crown and re-crown with virtues and vices.

We stop hungry by feeding. Our feed-back from worlds is not waived. We struggle with all our habitual functions to shift our lives. We are made with fleshes and bones. For making shift we live together even we always complaint.

We also need loves. However we could not go on without hatreds. Evading to loves may not always suffer to rigidities of truths. Briefs on histories might good to view by angry eyes.

True to say if a man is complete with virtues or if he is seldom to have bad intentions then he is on trips of dysfunctions or he is just one idiot.

Only one way to law for long arms is to deal on  
smells and colors of bloods are angry. We hungry to witch hunts but angry to blood  
bleedings

Freedoms are labile on body functions.  
Rabies licking our bleeding souls! Merits are for skills of wise men. Motes on moats for  
mother shops and fluids of bloods on solid fortress are our symbols of lost.

Spread of ripples on rid tides and the  
lagging on peaceful waters are leading like the faked gods.

Equal lives are not even. We are  
dominant our worlds. But only the fitness could survival. We are in lucks to live on  
preys and play with pets.

We make use of animals that are docile or  
some human like. We are human creatures that are making uses of each others. Our  
subjects are our feelings to long or short terms.

Our symbols are all real but abstracted. Says our  
symbols of colors are dominating us. Rouge wish to be domineer on our spheres.

What is your orbit? Wills are on plateau phases if you are  
not in full forces of your own.

Allotropies are really different. Behold on your back  
stages and breeds in matrix. We are pushy and pulling to ends of deaths. Some sleep  
very well in serenities but some sleep with alerts.

First come the fears of good circumstances all over a  
joyful word before the world is set to correctness by riots. There are yeasts on many  
minds.

2-abc blood poem

Gaunt bones are goods that gone

Cats paws are cans of toys

Lungs are rums for many rounds

Bodies are guns we march on shoes

Antes are ants to empty their lucks

No laws when justices are rubbed

Demist the might when words are freezing

Words powers are demise but not free

Verses are vanes while laws are sticks

Minds are changing with rhymes singing

Flags on tanks are our flats in hell

Dresses in jokers there comes the evils

Hatch the hands with arms of guns

The draw the laws with red butts

Red inks are many drops of bloods

Very bad leafs and detested roots

Films on spots will capture ideas

Waters on gates will not clean as ices

Washing as breezes that is peaceful and quiet

Spinning as spouts are very bad winds

Destroyers and E-boats completed by tanks

Foods are tars while mouths are gagged

Gag orders are gages of our gauges

Measures by hours are means by our hands

Comets are constants when mars are must

Comets are coming to game with mud

Tanks and guns are posses of vices

Bombs and blasts are taken with wise

Wishes lists are in goods hands

Bombs are bonds with rules to save

Bones from born eggs are orders

Free in thin airs are options

Crawls and crosses are bugs walks

Plans on pans are dad s garbage

Tatters are taken to buy atoms (bombs)

Bloods are bought by rich in hospitals

Demurely as possible she shows her symbols

Tokens for mistress and sexes in symmetries

Bob to pop her controls of loves

Maces to mend the wants in her souls

Rainbows are controlled with flares of solar

Gallows are humors but honors are sold

Den courts have kissers on whips

Gamble to tamper and just her hips

Love games are valentines to valid

Den courts have flowers and profits

Bate the beats on latten points

Capable of sexes are loves to pour

Serfs on games with pleases to hearts

Oral to glee but gage on stead

Stead to clean our souls to right

Aggressions are dropp shots for claims

Obedience to awake her forbidden figure

Bipeds have shields with five points

Bow to feet crawl under moons

Diana appear as moons approached

Bob of wooden horse for vital sexes

Fit by wood complete with senses

True pulses carry by false links  
Paddle to move touching with sin

Another she is sweet pudding on table  
Cold ices to avoid but we are activated  
Highly prized for goddess roses  
Paeonia to leaves and loves to long

Skins of flowers hues on clothes  
You are my skins to close the colds  
Bitter but not poisons your grand cups  
Loves are cuts of stones to be lush

Stomach to foods or fruits to thirsty  
When your souls setting my lips  
Formulas of loves realms for egos  
Not only indexes on tape but marches of souls

Rules on shows or dens on courts  
Hate and loves is bivalent bonds  
Heats are thermal loves on lusts  
One kiss is gold and one touch is smug

Take you when you bend over  
Keep the charges of dens for ever  
Bliss in lands joy on skies  
Clouds with wonders but souls on beats

Rhymes of loves whisky on navel

Rhythms of sexes echoes from valleys

To lead your cards I win you naked

Bet with honors all roses are mad

Hide and seek I win your G spots

Ways of valleys for climbers of loves

Goats to herbs or wires for dolls

Escape for hallow not shows of coy

Show your souls with minds to complete

Hang on tools with love straps on

No pains then no truths but all loves are tender

Hold on your cups to the high ends

2-ABC copulations

Over the bearings are our constant loves

Worlds are serious to their cakes

Promising moneys does not killing a lot

Fine reasons are fire arms

Asking for suffers for times has faults

Loves to suffer but ruby in plaza

Red in gleams hard to combine

Mix your loves to some compounds

I can comfort you by pays

You can prey to gods on parts

Souls and loves as acids and winds

Arrange to laces when leathers on spirits

Safety narrows by hopes and egos

Once welcome hell will not go

Each specific act is hugs and needs

Hang up tools for loves to meet

Explicit sexes my expected purses

Win my lottery to kisses with no pauses

Laid in ways but out of plans

Blush on bases but prink on hearts

Learn me and thrust me with melodies

Broke up but replay on latten sexes

Letting on happy give me shares

Shameless are waters with joys on shapes

Rub me to take care of your bodies

Magic of oils rare to follow

Rear to follow her smiles on faces

Fold to blind winkle with hearts

Still know her face from rear

Yes you are no men s heroes

Yes she is no girl s heroines

However groups are good to gather

Pushy are pushes and she pull her lips

Cups and teas are love-wares

Rose petals are things to starve

Already how unfair for sexes in fares

Share your noble lips with hungry

Relax in red alerts with alters

Red green yellow are 3 hues

Guess which masks on crosses are hanging

Miss which hands to play the jobs

Forget our faces but check your posts

Some run shorts but other long

Flay on trees for names of lovers

Mirrors reflect all bases of loves

Hand out to beg for her prizes  
Boxes for loves cups for cruets  
Crux for needs effects of causes

Tongues to sexes are Hitler to Nazi  
Love herbs incited goats  
It is circulations of dynamic  
Sexes dilate our healing on souls

Sexes are our health services  
Shop our butterflies in loves vital  
Dreams many sexpot at homes  
Galls for lives repaired with loves

Fair plays are sexes as joking  
False links are sexual bonds  
Crowns on souls necklaces with pearls

Kiss the lapse and gifts are abased

Gifts of brasses are thrones of snakes

Brasses are huzza snakes are amour

Armors are fists imperial are arms

Pulses in hearts samples of arts

Pulses in hearts sample of jets

Systems on thoughts help to cure

Bad laws are demons curses

Amplifications of laws are lost of justices

Bolts to doors to shut the evils

We are hands to hands on each eve

Sobers on minds slip on wines

Happy to win a score on health

Loves are just bricks of sexes

We are men and women to be send

Sands in beaches coves in seas

Rules are rude laws are crude

Mot of loves mote of dusts

Lives need sexes as the very urges

Visa to pass and warrants admit

Long on stories are men s abilities

The cast of dice are toss of flows

Bundles of moneys are heaps of phones

Dial the wheels to utopia for loves

We are peoples but we are tools

Steels can surf on thick airs

Loves can submit to goddess kisses

Ethereal are loves with sheets of skies

Pilots on plots of fortress to yell

Sugars are loves salty are winds

Facts of loves as games to win

Bawls of engines calm by powers

Wings are forces and guns with powders

Steels can boost our spirits to fight

March on meters fixed by figures

Pro-decent her pleas to my pledges

Gold have honors to heats on edges

Chasten of steel characters of lords

De facto on guns when you are loaned

Angels for rights but men have debts

High potencies are souls to edit

Naturals are fists spirits are arms

Fruits on punches are last applied

One heart is sticky or laws of oranges

Suffers in minds pains on bodies

Gates of compressed airs or doors to main

You love me to love all your kisses

Sugary venoms and ends of wills

The crafts of Pluto have political ego

Grunts for foods or wash the hogs

Kings and beggars are two genders

Names for hairs or smooth heads

Plains with fruits set with cabarets

Jets on sets fly to capital

Medium of gold with fine arts

Stick laws while crimes are habits

Justices and powers are still not to terms

Artemis hunts to all justices

Leaders are attached powers as kings

Eunuchs to powers of peoples are rights

Eunuchs to powers of depots are dirt

Spite to flight render with fines

Tatters to buy the bombs in atoms

All bondages give to be our bonds

Respite in wealth but suffer in ideas

White flames and new ices

Poor and hungry were bloods in reds

Grasses to eat and fires to receive

Horror in themes is for our histories.

Hit the tab with chances of horrors

Charts show the shams in polls

Same voices miss the boats

Viewers on projects are bad monetarisms

Brothels for rich are hidden states

Sexes for poor are pains to suffer

There are men and coopers or poor mouths

Clip the auras are the jesters

Clip the stocks for baby of jelly

Jack boxes have our play heads

Prey for suffers but play to exist

## **2-abc rouge; political prose -bilingual by cauchy3**

2-abc au rouge (prose)

Curve like a round ball as a ball making from glass. It can be only our decorations. Council like a piece of die which make from stained glasses can not toss up in high.

The usages of glass tubes are to confine acids. Fatigues of bureaucracy can deflect lights of white busing our rights.

Curve of the convex magnify an image but image lost their real sizes. Some matters enlarge to object image in convex lens.

Of course they are our physiological needs followed by safety, belonging needs, esteems and self actualizations. But our physiological needs need more truth. Or more actuate to say they are more critical or real.

It is still not good for pain if you think that is not suffers. Can you? While light on the red paints or bloody medals are soak up except the red rays that bend back.

Are there thorns on yolks in born eggs? Thralls are swarms with no real directions or they are the slavery to bad worlds. Statecrafts are paints of red, green or blue. Red is the make use of bloods which like for vampires. Tank in Tein Au men!

Blue is the set up of high ranks in blue books. Surpass all surplus -rights, justices or humanity.

Greens are for left over of some vegetables. A group of people live with mouths in hands. This means the unfairness for social mobility. Although laws are cut and dried for people s justices they are also cut and paste by high rank officials, lawyers or profound people. For court cases about political issues like protest on streets with famous man our chief commissar in laws are responsible to choice the three judges.

No true high -ranks officers are not leftists. One sector one country two system one mono-play one God and many cat s paws! Silly Billy run. There are compliances behind compliments.

Will laws and commands are drive by tricks in some how. Are there thorns on yolks when our fairy geese lay magic and golden eggs? How can lame ducks go back to histories by guns or tanks? The depressions for disillusionments are the causes of colors

Dominations of colors are shells for eggs. To domineer in recklessness with red, blue or green and other crafts are real politics or bureaucracy. Once I try on a girl whose family is trawler Are there cracks or thorn on the meshes. Did I like to play with her fishes? Sharks are pushy. Salmons are my lunch boxes. Really some forms of quite good lives. But she had to dropp one down. It is due to titles show in business cards.

2-able maps (poem)

Best of myths have places to stay

Makers of stories draw our maps

Bodies have coats to cover up

Some laws are armors in purposes

Histories are collapsed under poles

Poles are separated under positions

Rich and poor are not round

Plump to pumpkins but tiny has bones

Dragnets are meshes to free the bad

Reversible routines are for mock actions

Clever games are spikes and scores

Punishments boot our laws as doomed

Spurs for chargers to spur on wars

Reward our palm bombers for what?

Buss on faces from wolves with teeth

Vestiges of teeth who abuse our teams

And who team a group of real politics

Group a cabinet with some militarism

Wholly shift to bright or dark

Sky storms attack some stars

Calm face colors have some flatterers

Histories of tomorrow is today so late

Ponder on polls to gain a pool

Gradualisms on wars have our poor mouths

2-arms and tanks (poem)

Come on all should come clean

Cleaner of truths for global spheres

Recycle of news in banks of histories

Lead the armies with clays in our minds

Fingers on heads as for their shames

Stop a plan as to shop our tanks

Options in powers and views of laws

Flaunts of jesters but grace of our man

Make a toll in grab bag

Bag in debts are black bail

Jesters in powers when moneys appeal

Break in pieces and tanks appear

Airs have gates of smokes and fires

Waters have trenches flooding with cliffs

Clients are deaths with tanks that clicked

Bosses are dragons with tongues that lick

Lidos are red and airs have sharks

Jesters bait the dogs and the cats

Poor use two sides of the napery (toilet- papers)

Laws are political adjusters with narks

Gauges are steel while cuffs are coppers

Irons are covered by cold stones

Real are little and laws are scores

Numbers are smalls and collars are poor

Drop of bodies when bullets blast

Blaze of dark fires we can not last

Damage of damnations release the bad

Across the bones fixed our acts

Cupid lost arm for culprits

Stupid are laws that bad as curves

Cub roots of trinity are not cure

Cultivated as men but tigers have cubs

Clays for fires and bricks for tigers

To dampen our heats when justices are refined

Crackers are not damp but histories are flooding

Cookie monster eat not cracker but foods

Tie went to them for fair games

Dye all the card- carrying

Our hearts of white bloods bleeding

Our minds are for peoples and deeds

Our hands in heads of good derbies

Winds blow to our hearts that are dear

Dare to get the good couples

Dooms and buds are for beyond

When opened water flow to bays

When closed water flood the gates

Knots for tie went to fail

Conquerors consume all by fates

Kick around to rule the bad

Taiwan rule over flowers in Mays

No simonies or best to has been

Soot is from oils but honeys from bees

Sooty are tars for powders of guns

Get over is a lame duck

Greens are leafs for sops in teas

Miasma of wars for mal-ones to tear

At the laps of Gods or foot of pits

Sleep in tombs wrappers of pins

Wraths on heads and numbness of hearts

Verify the laws while truths are not easy

Words are honeyed but rules are horns

Drums are hit and bones are gored

For tyrants justices are our laws to worms

2-access –shark and fishes (poem)

Fishes are lures to blame our sharks

Good laws are fishes to trawlers

Bad laws are fishes that sing

In banquets there are smiles of fishes

In trays there are smells of fires

Ice creams sundries and fins

Bloods are measures to kill

Dash the waters and abusive to swim

Facts are liquids and truths are inserted

Dreams are lives that champagne invited

How to put fishes with scales on wines

Toss up by laws but guns to win

Some laws are fish eyes

Pass on blind white for pearls

Scales of fishes are not good to eat

Poles and rods are catch with arms

Hooks are hopes to gamble with fishes

Rules are not firm but happens are fixed

Stars cover the lakes only when dark

In dark ages all are close shaves

Positions of sharks will cut the laws

Ranks of fishes are bad to rat

Laws are profits but guns are turn over

Fishes are baits and hooks are beings

Leaders have hopes to all hooks

Fanfare of laws and grace in hot

Hoots by sounds and drag by nets

Swarms of baby swim freely

Fishes rule the world in boats

Sharks govern E-boats with their howls

There are smiles of fishes and howls of sharks

On shores there are despots and tyrants

Fishes are symbols to free hands

Sharks are stamps to steal with madness

Those sharks wear some boots

Those fishes are babies that fall in blows

The access of lives with laws first

A pool of water with bad juices

Projects spread like waters

Foolish have bare minds to act

Stroll in darkness are cruel sharks

Smooth are waters but acidic are states

Sharp in teeth to tear some souls

Buds in mouths to taste some bloods

2-acclaims poem

Calibers are diameters to skulls and morals

But bullets break our domains most

Dogmas are domes for do-gooders

Hedonisms are not heedful to come and go

Rent a heart and lend a love

Rattle tails are bad notions

Who use herbs as names for flowers?

Good looks result in good words

Sheave of threads and laws on desks

Nab the pool under decks

Greedy for moneys and hunger for death

Opals of stones pop in eyes

Pyrrhic to gain by flows of flirtations

Ants hang back when hares flit

Ants on pans while hares are killed

Lives of prey and pets are deriding

Men are descended for frames of loves

Deprive the bad and deposited our songs

Chant when hocked and change for podiums

Holiness is empty but lives are plotted

Happiness is salads and lives are chopped

Miscellaneous considerations are door s knocks

No minor struggles are detected as winnings

Minutes are times large pictures

Rebellions are resistance to evil powers

Debate with not rebate to carry on

Ream out justices from blood vessels

Affect our symbols as our samples to results

2-accost (poem)

Great demands to cut troubles

Clogs for paces are lawyer s roles

Garter snakes or rattle teeth

Deputies have rights to make speeches

Hollow out are the die castings

All laws are for reformed classes

Gifts of grafts are wires and cords

Droppers are to filter out all courses

Facts are solutes and lies are solvents

AS you pleased the laws have costs

Badger games or bucks and gnome

Judges have wives their daughters have dogs

Claques are hired as clouds on skies

Guarantee letters are sheets of quatrain

Waxes will fuse with intense heats

Lights from moons are bent in beams

Pews have warmth benches are cold

Sounds of sycophants win Beethoven

Cell phones to ears in eulogies

Cat s nips are mints in logics

Bibles hide under double crosses

Wallets store tickets of confessions

Myrrh and bibles relish the saints

Moneys and positions are cellars off sands

Pounds are for tigers and palaces for kings

Clocks are slaves but diamonds are times

Cavils are facts that win the truths

Campaigns are some exercises that ruled

2-acoustic in water and love (poem)

Smacks are tastes or loan smiles

Violate for interior hunt for bliss

Blissful blesses are bad as bears

Bear to sell the stocks of men

Mend a half part by means

Snicks on welcomes and loves returned

Prier the reasons still are soft

Snatch the lord over the wafers

Curfews are rules kissing are full

Cheat the sun for pools of funs

Come into water like fishes

Speak to bottoms lay on fins

Comic are two who are slim and smooth

Threads on waters are mills on foot

Short in head count so arousal

Who plot a dark flowing rose?

Steal on top and dive to end

Slide on front and about she moves

About her faces and moves her arms

Free all cuss of Pisces in lakes

Beauty fish deserve no sheath to take

All are sway by bodies of the lake

She could overlook any women

Water below and brinks are on tops

Speedy are fish and lagging are times

Cool and smooth are summer in springs

Suddenly there come the bumpy fly

Butterfly with strong minds of day

## 2-adjust in 3-prose-cauchy3

2-adjust in 3

The cold wind touches the gold. The God truncate the good faith. Warpaths are wolfish dooms by powers. Whistles to clean the domes under! Woofers are high pitches for sexes. Bases of only their sorts are them.

Whispers of whips are loves colors on rainbows. Verses are wars on god s paths. Rainbows are damp images for imaginations.

Leaders of well means are cold with cool hearts. Leaders of statisms are evil as packages of steels. Absolutisms gain words by tricks. Gradualisms refuse to mean loves in true hearts.

You think you are not like me. So you can exist. But by truths or by facts you hang on bubbles of soap boxes. Assert what you assume by laws of dictators are evils.

Kneel to white washed political giant and hesitate to fit your chambers with silvers are cool with cold hearts.

Friends are fanfares like the winds to touch the gold. Statutes are seals on stamps of steels. Egoisms are hands in all proactive matters.

Probabilities of rainbows to dim worlds are peaces after strong whippings. Whispers are whistles stop to detect all laws. Some rant out for justices.

Whispers are cream boards. They may like shield laws and polished toys. Toys may be dead to use. There are tanks to contain fires. There are pulse jets with smokes.

The lags of times on ripples between two waves are holly waters. Peaces are lagging for fires. When wars start?

But insulated in hearts of our great and graceful loves would be cool to too cold. We all covet lives and fear of deaths.

Lah-di-dah are smooth tongues of lip slaves. And for Gods they truncated many good faiths.

Meekly to meet the big wig with treaties and agreements are nom of lives. Little flag on little hands are obligations on hallow expressions.

The comparisons of freedoms and justices are feels pf inequalities but not counts in large bytes. But often we do not know why we are insulated.

Suffers are critical tests but pleasures are pleased with few notches. Suit running are happiness on memories. But egoisms are mostly sustained for live times.

Freedoms and justices are our main moral immune systems. Freedom mediated and recognized our needs and suffers. They excited our cells in our spheres to fight and protect us by justices.  
I analog freedoms to T cells and justices to B cells of our human immune systems. Our desires and pleasures would be analog to macrophage. Of course it is false.

Can communisms split macro theorems down to all individualisms? Annex in bibles or law books are digits to commit spirits.

Graphs of desires are figures to loves like choreographers to music. Desires have graphs and charts in all brains of animals. Sum up there are two adjust to three. The adjusters are freedoms and justices. The subordinate must are sexes, hearts and souls. My shoe in Show!

## **2-after years-poem-cauchy3**

2-after years (poem)

Tap on roots for loves on earths

Decafs as coffees for laws to earn

Tender years were couples of rights

Rights to rise up with freedom to obtain

Raise you fists rise up your flags

Adverse powers as possessions of laws

Partitions to evils with lords to lands

Quietly enjoy the peaces in paces

Escorts with wars but escrow with rules

Repair our souls for hazards of guns

Choose the truths or tricks in facts

Obligations are lawful and laws are artful

Boards on seas with bloods on wars

Boards to laws are board games

Legal ages for well off pf minor lands

We are just for rights on hands

Devices of men for decisions of lands

Compete to rules with laws to bail

Bail out the truths stands on good

Enforcing by forces expense on foot

Feet on meters gauges of gold

Below bridges troll has room

Red cap caped the sky

Red troll caps the air

Asian has notable peoples on maps

Mapping by rules and tricking in laws

Digest to words of moral spirits

Rights of ways with no change of titles

Bona fides are bonds to truths

Facts are not truths they are rough

Compete with legal check up

Rival the facts for the truths

What explicit as ethnic are moral.

What to men are powers and egoisms?

Greed hands are clenched to toys

Dolls are toys follow the flows

Rid of tides bushing the fears

Who is whose on which years?

Today s stars bright for Ares

Serfs on steels but spirits with arms

No rings on cycles in wheels of times

Realms on shields and cans in tins

Peas are green joyful and light

Bounces on oils for your delights

Settle on laws are scripts for freedoms

Get rid of parts they do not agree

Ready to brain wash on beds

Beds on skies all bloody red

## **2-all-down**

2-all -down

First choice is tar or ruby

Down on clays is your rubs

You keep on me while in funks

Tars are our task that found

Rubies are red as hard as ceramics

Ablutions to kisses are wicked in Ramadan

Nobles are called to broken down

Cliffs are hung with tasks of downs

Go low down to limbo

A pan worth a penny in life

Tars are trusts that turn back

Ruby turns away in bank

Series of whistles is plays in pays

Wolves whistle and dogs barks

Cry for moons awash by fluids

Damn in rocks and traps by hills

Dance on the way to tops of truths

Down on sorrow when you fail on tunes

Stand on bones looking for your ranges

All in legs that kick to enamor

Candy in shop will bribe our minds

Ruby in vain but tars in mines

Commons are ways to be so real  
Interference of one couple s of weaves

Two creatures live in den  
Two human with same requires  
Out of families for rapes to sell  
Nations have guns but not rice

Natures are beauties with no stuffs  
Dripping and diving our bargains up  
Lost all loves in energies of skins  
Hunger for foods and loves in strikes

## **2-Amen(poem by cauchy3)**

2-amen

Speeds are total powers of history

Gods are afraid to change their story

G-frames of fires can not catch the lights

We need powers to keep us alive

Fresh clays in cans of salts

Despots have tunnels for evil sails

Desserts wines are not rich in tastes

When all stories of our buds are changed

All rules that go on need energies

Collisions or comas need enlarge

We stay on our beings that can be conquered

Make our breaks we follow conditions

Raids to powers are two conflicts

Do the tricks of fired bricks

No peoples but histories change limericks

Goods and bad are two mavericks

Hat off and on is suns

Soap boxes are protected by guns

Gnome has no gold to go out

Who dressed us down and go down

Speeds change from had to have-not

As lights passed where the gates!

Comas and periods are foolish games

Anomaly is all nihilities that gain

When loves are shows hatreds are plays

We are in hellish eggs that lay

Dual controls as laws and justices

History has long shot in albums

Dual controls have not trinity

Cheap shots are base for triangles

Laws are rooms for very rich

Stories are feet where histories are inches

## **2-amour again -poem-cauchy3**

2-amour again

Pussy to ride listing the taunt

Oh no devils our tighten games

Fantasies of unman please on hell

As goddess her minds are real

Crack down by loves with spirits

Smear to saints are sexual rites

Hungry to food meekly to whips

Thirsty to dry are slaves lip

Man has clothes god has fig

Shameful to cover for orders to submit

Lace with wines leathers and boots

Drop down by thwarts all are so close

To persuade and to beg for pushy

Please are chesses and wines as eureka

Senses are up to her forbidden figure

Playful are moons when clouds are biding

Loves are cheeses sexes are wines

Smooth are tongues and thorns are pins

Bristle on rules there come her whips

Thorns are crown queen with throne

Bow to feet before female rug

Treat by tricks loud with laugh

Secant to concessions tangents to loves

Songs for conches loves for oysters

Spare on me consult my loves

Commit on nursing tastes the gold

Guarantee the dominance or matrix to fix

Matters of loves thorns with pins

Thorns on her powers and pins on thoughts

Expand on volumes and contracts are ought

Contracts of silvers but I ask for gold

El Dorado as wealth in pockets

Complex bodies for loves so simple

Works of a man are loves so explicated

Yoni is candles lusts are flames

Attach to brain pleases and embraces

Boxes for lunches with love cruets

Green crumbs or tasteful fruits

Sexpot with rose petals for whistles

Glans are grand hopes are wishes

Attach to voice with her phone call

Tryst will plant flowers on stones

Sexes with flowers loves are amours

Glans is grand stones will bounces

Lap of waters and lag of weaves

Lagging on minds one wonder heaves  
Leave no dots remain on lines  
Finally sexpot down on linden

Behold meekly humbly and submit  
Gods for dogs and cats for tigers  
Truths of loves are rules to submit  
Miss our respects to response to tides

Hello next lines in queues  
May jump our queues is whales of Queen  
Pretty poor pretty good  
Greet by tongues wash by loves

Go! There are happens to surprise  
Stolen pearls and spirits urges  
Warrants to crosses with songs to claim  
Echoes to valleys dawns on days

Except loves for expected invitations  
Exact words for loves intake  
Help your tricks that are nasty  
Fall on knee boost your asking

Mot of loves strips to gods  
Pussies jump to lap our souls  
Touch by merry bloods for sold  
Induced her desires to drive the dogs

Dogs are Gods tender on slits  
Soft are gods with angels to sing  
Wise is god to hallow the wild  
Strips of colors are hues of times

Swan songs but geese will fly  
Drives from minds forces on lay  
Clench on nipples and starch her bones  
Squat to cornet like for strokes

Wrench my evils curse the crosses  
Wriggle lurking larking in rolls  
Spot lights on hand mirrors  
Lash on eyes are blue to view

Disks on trays dog on bowl  
Grunts of pigs and songs of owl  
Own brands of gifts are toys  
Brand me please and love my tools

Consoles of sexes valleys for songs  
Consols of loves are debts to souls.  
Thymes of songs rhythms of loves  
Cages of loves cave to owners

2-anneal (poem)

Poor tars lack might

Skies are gifts but pits have to grip

Heads are not waxed and arms are in processes

Cars are heads with laws in positions

Axis of wheels is guns on rims

Thrusts to legs but stands on points

All men are face down on genes

Are all bloods are shame in ends

Laws are gusty winds for peels

Green lamps but not green flames

Heats are pleasures and also pains

Positivists are to be head or tail

Dresses and capes are jump to lines

Offices are places with washes in white

Sticks are measures with up powers

Chimeras express their needs that grown

Cohort rugs on the ways with claws

Jig and stomp for their reclaims

Audits on debates with few credits

Cringe on justice but bleed to crimes

Peaces are not in baskets to patch

Peaches are sick and hearts are pain

Stand on wires and squat on lands

To endow our skills on wantons

Filter of thoughts in cages of rats

Turn on the wheels for rooms in cages

Elbows are free and eyes are sharp

Insights are rooms for houses of arts

Sure who are great to give?

Morals are grey clouds in grief

Rainbows are colors that shaped our brave

Goody -goody are all human on the ways

Marathons are pushes and draws

Trails of loves are to punt the balls

Keepers are happy but players have shocks

Dawdle when shorted as we need more

## 2-Apex being-cauchy3-prose

### 2-Apex being

To take the seeming as real the decisions of militarisms are defined sticks or salts to candies. The sticks conduct some sorts of sonorous anthems. Chants with voices full of ambitions on winning and passing over.

They pass over true spirits or good morals in slimy contacts. Morals are retreats for your own thoughts of aggressions and easy to agree to the virtues of others.

These are wisdoms to clamp down all sins. A gold peach is divided on trades of laws or sentiments. Foods need gathering and undivided. It is good to share but hard to take care.

If wine on Eucharist is supremacy in natures. We drown the world for it. If breads on Eucharist just immortal are as then we ask them in mortal. We bet all for dominance and supremacy.

Restrictions are forms of captures to clamp down our captures on worlds. Captive are human on laws or by deaths. Objects of neutralisms are to hang on for safety of ones own. Objects of extremisms are to stop on final rounds to finish all or clean up all.

Who do not admire of bravery? Grand total should be all over passing. However our debts are in debits. Our aggressions as for our progressions are on our debit notes. It is not a cover note for nobles then we can not hold on. Each of us thinks we are some forms of nobles.

Abstract usages of tricks with seeming controls are real. Real absolutism trace out one sets of paragons and turn away other possibilities by linking. Linkages to their verbs of honors or their annex with laws are two methods.

They dispense salts to sweets. They dispense bad codes on exact words. They claim all their rights to take the dominance of every matrix on earth.

Forbear of ones to share the exact words of absolutisms are confine to nature on submissions. Do you fear about killings? Sheep is shorn off.

No lioness is on rabbit s jackets. To Reminder that we all use tools and we are manipulators of laws and rules and sexes then we are on our ways to earth.

Laws are to reign on privilege. Rules are to concatenate all needs. Cave to polish your vain fares. I need some one s servitudes. Our worlds are human -servo controls.

Occasionally we meet peoples on favors of truths. Occasionally the occupancy of times is real. We said that loves have really good times. But the timing is on the happen by chances. Complete true loves are scarce on

human natures especially when you are good at powers or guns.

Par excellence militarism mails all their agenda over the worlds. They force the peoples to take the seeming as real. True faces are only for true believers. But there are not truths. True -blues are bleeding in darkness. Green is the more prima of color. He! He! He!

Rabies is licking our bleeding souls. I do not believe to god because I believe to justices. However the world seems to have justices but I did not.

Smooth are skins but not silks. Threads are cut by puzzles when you want to wired up the world. Chips of China are the tastes of silks with our buds.

One apex of lives is to gain more camp followers. Another apex of lives is to bolt your doors. This may shield you to storms.

Finally is to take and give pleasures by and after giving threatens. Or to flow under the beautiful lake with holly waters. Just to be slave of complete man. You can change the colors on your faces but not the colors of mechanisms of all your blood and nerve cells.

Ill treatments to masochisms are good for sadisms. Safe and sound are beast in zoo or beast free with full political powers. AS there remain a world of masochisms.

Pleasures are beating to take many advantages. Pervert are fares when we go to deuces. No fair deals! Times are roll off of balls. Each pin on duck deserves one stick.

Precious are times. Precise are ideas. Preserve are losing to eternity.

## **2-apple talks-poem by cauchy3**

2-apple talks (poem)

Characters of men affect with clays

Kisses to seasons but revenge of natures

Rockets in moons as laps of Gods

Facts that hurt but chances that never gone

Rabbits stand but tiger squat

Furs on skins but crepe in airs

Bloods with shames but morals with aura

Warmth of the sun but splits of planets

Whole in sums or great losses

Strike with maces or put the words

Throw with flowers or dress down

To roast the breads or pray for foods

Warm ones woods or strip their rights

To play with prologs or Queens of prima

Mercy from God but possible lives

Holes that are empty lives are thick

Hide in holes or masses on airs

Herculean s stones or belle s hairs

Here is bimbo there is holly water

Token of death or pleasures of souls

Fall of axes or rains with breezes

Palatial palaces but dim dens

Views on documents or dirks in rolls

Good in beings or shields to swords

Contracts in premiums or checks in woods

Tigers in primes or groups of wolves

The beauty from friends or curses from Judas

The beauty of navels with minds that is ugly

Apples when burnt seeds are lost

Laws are flushed and vices are show

Apples are fruits but laws are passes

Apples have streaks but men are strayed

## 2-base get their deeds-prose-cauchy3

2-bases get their deeds

Judge at law is the color of greens for anoles. Critical situations are ambers that shine with purples. Who reverse the beams under the dome for the go and off of red storms? With true hearts there are few statements of excuses for me to the worlds.

Hamadryads of trees with green branches are critics for the chastity of my will. Ill will of mine do exist.

Charities in boxes are withers in bubbles. They are not good and well- lunches boxes that are fees. Real politics are bubbles with few compressed leaves for a cup of yeasts.

Pestles to pins are thoughts that rake our backing forces. But greens are good to anoles. Judge at laws are so impossible but some true skies for fling fishes to swim freely on my thin airs.

I am an experimental man. Am I governed by judge at laws? True hearts is true and easy to administrate. The hook and eyes and the insertions of probes to be the contacts of our switches and will be on good ways.

All webs and meshes have threads and eyes to take charge all over.

Thwarts on oceans are not hills. Better is to float on waters by love boats. No matter it is sky flies or great fluids, then lives are conquer and consistency.

Seethes are bubbles of blood cells. Political bubbles are yeasts of some bad truths. As human or babies our anticipations and predicates have two units. They are only freedoms and pleasures.

No wink at evil and putting block locks on people s rights, justices, freedom and democracy for good. Assembly-man, Chung king- hon use pikes like beautiful lakes.

I would like to see that he can support us to win the court case on the Link-company.

The verbs in verses of china leaders are thunder bolts in skies under histories. So about Hong Kong! There are always demons playing their tubes. We sing the whistles for freedoms. Chung king-hon have given us his piccolo.

Big brothers have not big bens. Times are straps to watch us like the dominance of gods. If there are atheists then there are gods. If there are gods then I atheist may be here.

Bats with green tabs need to sway the thin airs. Half cock in polls and referendums needs lucks on fates. Touch down to the goals for our cocks should be one numerous unity in whole.

Green when crush by red storms is  
purples. I get my purple rain jackets. For my own deeds judge at laws is the colors of  
shaped green for anoles. I am the one who shape the colors as might be. Critical  
situations are ambers that shine with purples. Judge has no strong colors or political  
back ground. I shape them.

I have been being humiliated by  
laws for thirty years. The verdicts might be on the reformations of characters or  
personalities. True morals are better than true facts. My world verge to submissive as  
slaves.

Verdigrises in bronzes are tablets of  
tombs. I piss off to my black roses. For truths we are all greedy wolves. For facts many  
bon vivant are covered with rags or common looks

## **2-birds(poem; cauchy3)**

2-birds (poem)

New voices are joined to sing  
A yellow dressed bulbul to be find  
A bird clad in see- through  
The times in the stages are full of rough

Small ball spun to her number  
Route her loves to her boss house  
Rove on body and skin diving  
The shameless parts are lucks in minds

Two females are eunuchs and kings  
Many dresses are carried in trains  
Bundles of flowers blow the cut -up  
Allures in natures and philters are sure

Loves are for cashes in orders  
Coffins have diamonds and Amazon is soften  
All deaths in coffins are comfort by moneys  
All pretty have Electra complex

Her uncles cut the deals in times  
She got a year of supports in a while  
For crack of dawn and for love wines  
He calls for the name of jam in bits  
Different in ages are different in prices  
To day is tomorrow for prizes  
All shapes of loves are die casting

Lives are hollow in loves containers

The doll did not engaged his interest for long

Loops capture her lucks in looks

She will cost another spender or boss

In parties she even wears the socks of unknowns

For cashes she dare to sleep with bones

Blows of cashes are treasures in tombs

Cut down in bones to elicit our calls

The calls of natures to sing in happy

Help by supports hold with hugs

Candies belong to dandies but not uncles

Rave in mot of loves are whores

Die castings are hot metals in holes (lives are chasten)

## 2-dices-prose by cauchy3

2-dices

Well doers are white horses from orthodox. The uprights are the heaven. The right path is for white diamonds. The high life is the genteel one. The attendants of fairies are in books of traditionalisms.

Few rules can rise above the limits of orthodox. Only the cruel world or the bust files of armies can count on them. I mean counts but not cunts suggestive.

When we possess the frauds as our traditions both of them may be inviting—count in measures and cunts in suggestions.

In history there are always conquerors of rebels by orthodox. They look like the thinness of mist by winds blowing. Only in some radical case of very bad governor will be thrown out from their thrones and looped by hangers.

Orthodox are strong until they are very weak within. The majority lives are circum-circled by governing of our leaders. No matter what is your governing body if they are orthodox then they must be quite strong.

Thymes seem to have more scents than wild flowers. Cucking-stools or lap tables which set up the dinners which one is for tyrants?

When we toss our dices! We found that they are cubs. Our world is a very hot sphere like a circum-circle. We got our four corners they are freedoms, justices, rights, demands. What approval is should be approval. But what approach it is. Macro-or micro and orthodox or lateral are two layers. Lettering should be in minds but not in bones. Will you be dead?

A house for palace of minority nobles!

Birthday of leaders on ethnic of noses

Resort to laws but dictate the orders

Good to swear to peoples like the orchids

Dispensable are jesters and cheap heads

Lag the tricks but crafts will leads

Roams are on waters but guns are braids

To swagger are on lands but freedoms are in chains

Domes of heaven but squares are loops

Laws are squares but leaders have hooks

Circles are spheres while earth is deep

Lives are empty and loves are deer

Bede on beds with many stories

Futile Fruits are bad in histories

Bede on bed but Cauchy<sup>3</sup> on floors

Soft are hard and hard are soft

Bossy of guns spread with dust

Guts are place where both to guts

Political hunts are snip hunts

Words are pots and heroes in jugs

Girls lick on marbles for rare drinks

Defeat by lives or win by rains

Leaders born on laps of Gods

Commands are out of demands in holes

Lives are dens and holes in whole

Who command you on skies or in home?

He leans over the islands like his desks

Croesus crowd you at their ease

Moneys are flesh to flesh contacts

Brothers are dusts in winds contexts

All poor are quarry of times

Neutrals are tonic but bitters are prizes

Columns are white stones for tablets

White washes are lands in crazy

Sacred cows are in strong domains

Oxygen is cattle and live donors

Houses have spaces for thousand tons

All blessing and bliss are on how

Cliffs and caves are beautiful scene

Men have educations for our senses

Murals are maps and grottoes are for armies

Produce a world with powers in equals

Relics should in trashes rather than shrines

Prayer gatherings are wax to hair

It is coil with no wires on fluxes

They are only for rules and cultures

We like carves and fear of deaths

Niches could sell tickets for breads

Boundless lives are not found on histories

Elixirs are not ways but some hints

Gilded decorations are spears in shields

Peaceful wars are words in jails

Firns are from glaciers but fires from pits

All are chemicals that where senses give

Terracotta are buried and stones are killed

Ethnicity is center of groups of affairs

We need to live together in commons

We lie with flushes that we are Gods

Imperials need the bully of powers

Jesters are tories and greedy egoisms

Rains are acid under cloud

Who's name are in Cauchy's rounds

Soldiers weather the colors of winds

Dated peoples are corpses in tombs

Dark ages are domino with tops

Mercies are alcohols but preys are horns

Blow them up in punches that drunk

Strike the stick that stroke the drums

Blame the worlds for men's sakes

Wars in peaces are words in jails

Snakes tongues hide the rattle tails

Sucks in preys and liquids in take

Methyl in flash drive our laws

Heats in fires on feet and arms

Purity the nitrates with lye and salts

Who put the crosses to pin the bad

Dance in feet and swing of swords

Kisses on chins and rubbing the boots

These two are us like one me

Our front has shines our back are mean

Faces our weak but weathers have storms

Decisions are made and moneys are torn

Who is thief that steals the times?

Powers in cars and tanks have bloods

Deals are wrong but nation's pact

Armies are cruel but armies have royal

Stresses to rapes are powers in hearts

Rebel as traitors like in trades

Who confer you medals in bud?

Whistles are horns and redbuds are bowed

Clear me as clear the zero

Escape the weights in signs of neon

Go to sleep and go to camp

Search by lens to my holly lands

Have a tryst with very bright stars

Suns are dark when nights stay

### 3-cauchy3-lexicons

3-Cauchy3-lexicons...

Fill in fairs, honor justices, and good to rights are three to clear.

Objects in right dimensions state the fluxes. Gods are power light-years away. Worlds are needy when we secure the aged Harry powers.

Fair and justices as powers take democracy. Powers free to babe dolls are good.

Chains on lives of butterflies are X'MAS and matches. Bolted the Dickens there are foods? Take my senses to good. Goody gods!

Rise to powers for pushy chairs are grade to down the goody era. Hatred peaks are weaving beats. Money shopping that are so ad lib. Powers shopping hunt to lips.

Bulwark powers succeeded when success. Collect the virtues. Share the controls all by means of Dickens. De facto make no de jure. Rights are only bad to treat as guns.

Mockery gods are good to give us earths. Mammals know mambo. Mammon goes on better. Mammon goes on better when mammoth powers over lords.

All are stacks as first then first again.

OR all are stacks as first then other again. All my three are clear.

Over easy are over lords. Over powers take the bottom limits.

Limits of Cauchy3 aren't three to clear. Bottom up take 7 up!

### 9 corners varieties-cauchy3

9 corner variety ...

Nine corners enter the varieties. Fortune tellers fix to firm. Victory harbors give prime ministers' right to near citizen. This is fortunes.

I saw this public addressed show when I sit on basin with stools. Shape of basin is round. Touch my shapes on fortunes.

Non finite arcs are go rounds on circles. But nine corners only means in kin of nine generations..

There are nine generations of prime ministers' rights. Speaker was teacher KOW-a fortune teller.

How about my basin? I live with it and I use it. Non finite corners may give all and all my prime ministers' rights.

Usurp powers are dirty pools. Political pools are dirty. My basin is clean.

Blot my copy books with slates that clean. Good debates are favorite hands.

I come on lanes of your nails. Big with kings are classes.

Learn the ropes to right. Prime ministers' kin for generations are nine to all.

Learn my circles all are prime ministers' right to eternity. Three circuits rings are stocks with buy and sell to cauchy3.

Weave my flags to carry my rights. All tom cats go to cat houses. All the catty sharks to hustle moneys are put.

All my fortunes are tellers of mine. Cats may think the toys are mousse.

Circles is most the better. Nine corners varieties. Hex has hats are magic. Papers are moneys when copied.

All are good to cents and dollars views. Nowadays T.V. has great biscuits to soda. I drink and eat T.V. shows. Who lost deposit when pose. Expose my poses are humble words.

Bible buy and Jesus sell. Out to all are reasons. All are fortunes are tellers of mine.

Mama is so. Santa and Santan are biscuit and soda.

Bosom of lucks are corners in harbors or arcs on basins to stools should put up.

Blot my book when copied as China technologies.

Western witches are ways on coming.

Both are all my varieties. How about your peoples in middle classes? Mr KOW and me!

Gods' beers are water sports. Fear dirt is pay dirt. Warrant debates have augurs. Royal flush the golden basins. You have medals when working hard.

Royal basins with stools are clean with slates. When jobs are done you got pay back from Dear John.

School fees of your child are set up. Bachelors, masters and DR!

## A 1 aboi sur mur-cauchy3

A aboi sur mur

Scramble with words of good ideas but with weakness of bodies. Cliometrics forms words of honest. Good beds and good dreams are good clicks to our comforts. Forbidden to ask liked the cat to nuzzle her Queen or like the acts of some cat s paws.

Forbidden to ask for some things or some fame or some belongings which are un-justice in natures or ill wills are Buddha principals. Or even forbidden to ask for some things which will weave our esteems or prides are good ranks.

Weight our laws by justices. Treat our personalities as one person who is able to miss many golden chances with fair hearts. Cats paws all are fond to nuzzle under laps of Hesper.

Star of hesper is symbol of high lives. Some child is fond of gold fishes. Famous peoples enjoy their seats with placed cards. Men care for gold medals. How many stars on your shoulders? The true green colors have the rights to hallow the names of their places.

But we could not dig hollow abysses. We can not dig facts by truths only. Although every bodies are born with hands on arms! But some tyrants have playing palms. There are not good virtues for the Hong Kong gradualisms.

The digits of tyrants are gold fingers. Decors of greens and nails of greens are varnishes need to polish. The assonances of good words need consistence go on backs and shoulders of our world leaders.

Assortments of bad and white washed despots of absolutisms are running up. The blue colors are a dead loss. Green is vivid as green lights.

They forbidden to ask but still not abandoned to search for democracies. This is the scramble on histories. And this is also my encourage words to Chan -shui-bien.

Presidential courage is not a form of free wills. If I am a giant I wish to low down and put on my shoes. But gibbets and place setting but who can chose one to pick for tyrants. All flatterers are in knells of blues. Knell down to swords and the hilts are on your side -our green men.

A blow of pulse jets is evil rainbows. They set up near the boundaries of regimes of red dictators. The green registers are scrambles in books of histories.

We may listen to possible whoosh and thunder of rockets. Our hearts are themselves some turning engines with pistons of human machinations. We are not all bad trickeries. We piss off to all temporizers of tri-colors.

French oysters are contaminated by red

algae. French wines are not more grapes for feet or legs fetishes.

Thoughts of conquest make the growth of war making weapons. Long range surveys or close combats will lost at pseudo sciences.

The bearish and brutish of your foes are collaborated with sciences. Lives are not appendix without loves or sexes or powers or fames or status. But Taiwan peoples minds much in burlesques.

The points are how to make the strippers a better show. Showy are tyrants with red cap on stages. Your strippers will humble when tease to nudities. The rims and brims of red caps are powers.

The capabilities of all achievements are laws and orders for inner metabolisms. The swords and hooks are their appendixes that are tools of soldiers. Sciences are not to preserve human lives only but for real powers of tyrants. Machines may not belong to skies but hell.

So green cut the world before the red storms.

A aboi sur mur. ESt ce que vous de la changer de la monde. There is one final kisses from the lion queen to her green cubs. Forbidden to existence in case the evil palms touch your homes with golden touches! If I am a belle and I am a cub then I lap to clean up games of red jungles.

Il ya un baiser a la fenale pour la lion de la reine a les petits. Interdire a vivre de alors avec les palmieis de les mauvals roux.

A ta place si je tais la parse ou a petit aloris je est laper de les jeux pour vous. Elle est se brosser de les jungle roux.

Buchmanism should be for empleomania who bear blue colors. Wink at all winning-ness of wish-washy under the meters of true orders. Laws are not self-sufficient by trades. Trade off under names of good premises and good judgments.

The names of histories are not the tabs on Gods. Our evil foes abuse us with sinful cases of pissing methodologies. Who got the dignities of the whole world if you had to piss off. But do you calm down by sins of others or traffic by laws on law books

### **A 1 amour with sex-cauchy3**

A 1 amour with sex (poem)

Micros are might with marks of sexes

Circuits have logics with lots of senses

Costs of loves are coshs to win

Wheat on cap tender as wines

Pearls on cape with lots of tides

Mazes for rats and picks for spins

Drifts on cliff and drill on springs

Draft by jobs and drag by rings

Meek to meal and please to joys

Please by lusts and live by honest

Exploit to exist with exit of minds

Lusts in brain but vestal on sins

Malleable are wills that meet our images

Spitting images are our inner beings

Patch of patents but sexes are wild

Gulf to waters and sky to birds

Nerves endings are orbits on pits

Modern Pisces are girls to girls

Tauruo is loveable bulls in springs

Static on laws are jungle minds

Only scents for days of dystopia

The only true object in utopia

Sexes are tubes that wet to blow

Over the sky up dive to domes

Skin deep with pressures on cells

Kisses of wear rings for pleasures

Double with meal and tool to do

Docile to sutra and sugars as her orders

Whips are rainbows to assume the clouds

Vamp it up with sugars on nuts

Rocks on pelvis with sexes to bones

Rains invite the colors of rainbows

Unman is the combine of loves in humble

Tenses are passive to active my thrusts

Roll by tongue to throw of rushes

Yoni is lip of moon to rub

Crescendo is new voices to worlds

Her minds and wills are circles of my souls

Changing ranges are darts and arts

Artful are slaves come to masters

Brim and rims are symbols to bring

Follow through the forms of spoons

Judge by women for lost of pains

Forcing obedience to the warmth of her crotches

Pay dirt are fail to obey

When discovered yeasts are yielded

Short shirts with no skirts or sleeves  
Leathers of shoes for tongue to sleek

Umbra is shapes of dark moons  
Shady to fill with shapes of zoo  
Zoo is compass of carnal meal  
Compeers of mistresses are magic carbons

Streaks by yogurts are fruits into buds  
Yokes by folks of gentles to bucks  
Hunts by witches and souls in buckles  
They are (she) fond of tea bags or puddings

### **A 1 baby on times-cauchy3**

A 1 baby on times

Groups of times for particular appearances or recurrences pf corners on events or dominances of sexes or oversee of loves and servilities of wills. Fix times is for sow. Happens are for gifts and harvests.

Occasionally we have justices and democracies. Occasionally we have vacations. Sometimes we have server-gagged laws. Sometimes there are vocal expressions as well means.

Mostly of our times for natures of our sadisms we beat and throw and we nibble and hold for all coming in and coming over. Necks to necks will crash. Hand to hand will break.

Crash courses of real politics are you dominations to all emotional or mental or physical abuses. By ways of educations or training or discipline or luck to contain your wills in shapes! Like to make a cup of wines -the Jesus cup of our worlds.

Occasionally we have loves. Most of the times of glows of all crowns are practices by wills. The wills are to fly above all suffers like our saints. The will to reform our hearts are philosophers.

Philters are tokens for doctors. Moneys are tokens for big businesses men. Arts and skills are tokens to buskers.

Journeys introduced and charged by assembly-men are touted for many merchants. In this ways some businesses are promoted. On other parts the assembly-men share the powers and moneys with good public relations.

Activates of such leaders are integral parts of his social status under controls. The joie de vivre is monetary happiness. When jobs had done many of us are link as the accessories groups.

For each cogs they belong to some machines or some engines. What fix a screw? The drivers may be sexes or fames or powers or status. On world

On worlds there is only one complete engine or one single machination. Our multiple dimensions in one union is... Center pieces are composed with our cultures and our bodies. On the real paths our world are full of symbols of administrations and concessions.

Human history is on museums by passive and active souvenirs. Slicks of big thoughts lack consistence to bodies and minds. Sliding scales are so short to balance good lives.

Reenact of statism and absolutism and terrorism are picked up of berries on lips by devils. Devils are the only live men dead for pleasures and excitements. Mostly they are formidable heroes.

## **A 1 base on eroticism**

A 1 base on eroticism (poem)

Good strokes of moon - rivers

Gentle loves are teased gums

Bimodal one in binary sins

Bin of loves for ropes of guy

Brim and rim bring the spring

All essences are gifts to offers

Summon voices with feeling of visions

Bonds on libidos is a box of joy

Plucks by spreader and kiss with mouth

Expel to thinking with lost of wills

Blows to minds with sip to cups

Peaks of loves desert all sin

Shades the lights with added colors

Plotters on contour are magic tongues

Connive to rains by clouds

Bondages on harnesses are bonus of loves

Stop to perpetual go to eternity

Holds to Gods are comforts and eases

Desires are drives in symbols of wild

Removal of hardships when loves rewired

Reword our homes by heavens domes

Roots the colors of rose in hearts

Rotations of loves in free mouths

Rotate on thick and thin air

Times on waters are smooth pins

Fit in gold shapes of whips

Totems of God and solute of capes

Pearls with senses for songs to assures

Karma and Dharma who is the craps

Throw our dice to gamble our fates

Loves games are dicks to our egos

Dictate our orders to matrix of loves

Dictum on game strip of words

Give kisses to any zips codes

Zodiac with Pisces breathes are hold

Head of pistil is candy and honeys

Spread majora and open minora

Free chants and repeated songs

Opened notes in scales of minors

Dry humping on belly for moods

Button caress with tongues

Care taken of wills by body

Wrap by loves and tie with sexes

Scan to brains for dark realities

Who rely on laws is solicited justice.

## **A 1 half of whole-poem**

A 1 half of whole (poem)

Bust you by polishing of body

Crankisms are winner s loves options

Crave to crawl under stars

Sheep in dreams are silk contained

Go under cunts crag fast

Whoop me up while I drink

Make a stir on symbols of sexes

Whores are showy to treat me well

What is the dancer in my domain?

Cove for sea and women for man

Covet but beg for some please

Diapers diamonds and angel s dialects

Diagrams to steal or spirits to spur

Mud to top as happiness to put

Pranks of apes lost of loves

Moments of codes to ceremony of horny

Mucus to glues loves and sticks

Flasks to boil women on airs

Mints and gums candies and sweets

Loves and desires are iron sheets

Strum on music and minds in jobs

Treats by rewards hits by honors

Graceful loves are cheap and mean

Stretcher with straps services are opened

Sit on top with hints and morale

Dive with eager kisses with raking

Raid under judgments to honor the rains

Feet of queen matters of wine

Peaks of mountains eyes of pawns

Soldiers pave the love paths

Half cocks are ethics of checks

Check out by rains with reads

Greedy to play the jobs for a patty

Covet a full round with parties

Rebate some honors for reasons

Realms of loves and seasons on screens

Bring up and stroke for quick

Ranks of slaves and lovers that are under

Sacred cows with bids of crows

Give the matrixes with columns and rows

Sleds are flit and snows are warm

Back down of men with fantasies

Fanfares to horns and loves with vocals

Struggles to curves while loves are take

Surfs and dives to skin deep

Known and unknown minds in supremacies

Surfaces of surfeits are sugars with salts  
Laterally sexes have funs and alternations

Mystical aware of loves like rains  
Transactions with clouds are loves and prides  
Trades on realms of loves are to please  
Try me like to taste your cherries

Hang out to spots in games of meanings  
Means to manger for love measures  
Open the treasures with pirate s puffs  
Tasks and jobs while sins are humble

Define out but beg to come  
Convey the symbols to fetish on routes  
Arise of spirits hums of vim  
Vital to take on levels of bliss

Presents of secures and cries of needs  
Practices of man rats and weeds  
Words of slaves to lunar tides  
Tights to loves and sexes to kisses

Count on fringe the brim of cups  
Wheels on carts are noble stuffs  
Rigs of loves symbols for wigs  
Rats in cages and wheels have wings

Electra is erotica with no shames

Men love women totems of bacons  
A bay of money is diamond diapers  
Repel but absorb for losing and winning

Rains split when winds are licking  
Lap my powers to absorb all inches  
Many chances the precise of happiness  
Last warning for badness to lapse

Abolish all dogmas but turn to queens  
Take forms of exists for her pleases  
One night on levels of stars  
Folks of ideas are possible to take

## A 1 Jesus-cauchy3

A 1 Jesus.

When acids are proud with soft waters,  
All comics are belittled by walls of sciences.  
When powers are machines with good accesses,  
All real politics are bad lives.

Surfaces are oscillated faces to touch.  
Volumes are compared by men's spaces.  
We make dots with hot dogs.  
We assume some lines parallel.

Pens draw the crafts for air-plane.  
Examples are exhibited good works.  
Jobs actions are workers' lanes.  
Consider a part as the partial wholes.

Jesus is a king but peoples are men.  
Gods separate the upper parts.  
Our worlds sum up many mesons.  
Possible missions are our front faces.

Lateral rims are latched letters.  
A white lie is our lay ways.  
Our hidden souls are all out late.  
Abandoned lives are wrong asylums.

Asymptotes are stopped before long.  
Eternal rings will broken by powers.  
Long cut will kick on biases.  
No things will go on for ever on airs.

Consciousnesses estimated limited sums.  
Sorted up bubbles are stop on tops.  
Loves are drawn and powers are up.  
High or low as there are tickets for today.

A 1 acceptance

Zenith has peaks for its highs. Words are not miracle working for perfectionisms. Yom Kippur use a lot of words in prays. But the symbols are bloody crucifixions. Words are sentences to be stir in jails.

There is time for king to be too tired for killing. Although they are sometimes killing without batting an eyes or they commit big numerable murders but still some of them are not run amuck.

Some condemnations of mandatory of ones to protect and work for despots as a form of conferring between authoritarian powers and absolutisms will help on.

Timorous jokes are stories in the histories of many peoples. Derring-do is words but wisdoms are their hilts. Daggers are hands of common peoples. They are intercepted by hands of leaders like sharpen and shafted spears heads.

Shields of the cities are referendums without threaten on bad characters or dark personalities. That is a whole hearts for justices. We need cities which are not white slaves of countries.

Who do not like the lucks to gain the right men to their hands? Who do not raised by closed ones or our good friends? We love our two hands but afraid of our foes.

So we are all friendly nepotisms. Yahweh fixed animals to be our slaves. So we all kill and abuse.

As to stir the good to fight the bad but to just arouse the good will and suppress the ill will we obtain our virtues. I myself got no a single gold peach to give to good and bad parties.

Also I have not pay my whistles to the wrestling world. Sweep under my rug is so hard. Honesty to say I have not yet own the debts to sweet shops but the dark shadows of my egos and libidos did exist.

For the others their gauges are made of steels. Ruses are gold roses that break the unbreakable routes. This is some men s tactics on world affair. They are jingoism. They make friends with distant peoples and try to cut some spheres in its cross sections

The fairness of our world is justices or change in mobility. As a matter of fact all is fair in wars. But in homes we have Electra and Oedipus complex. Human lives are numerals. Successes and justices are complex fractions that bound to its values by whole numbers in the limits. The limits are times in end phrases.

The happiness is to judge your prides in whole. To

suffer is the pains for June of Arch to judge her own arms. Plastics are made from molds. Our graces are die casting by bloods. Our souls are subjects to pipes of demons. I swear to escape all but I could not above all or many gold touches. Approach with hearts and bodies but rebated to debate.

## **A 1-ball on trick-prose by cauchy3**

A 1-ball on tricks-prose

There are deep pockets to promote the cultural scripts with emphasis of moral or amoral meanings to peoples. As we all have real fears in cores or in peels. Fears in cores may like the declined sun.

The tokens to lost may be moneys, loves, fames, friendships or mental happy. Eroticisms and gastronomes are two of our prima drives. Eruditions for authoritarianisms have high senses of white washed loves.

Major modes of artful leaderships are to comfort good minds by morals but to boot up all crises with bad morale. Spectrums and margins of lives are different for individual strength.

We can take over the middle means or very extreme cases. We may open churches like series of shops. Or we may set up rigged games in small booths. Rascal emissions of papers on pressed or moneys that printed will be two cases.

Ice creams of evils are associated with our sexual responds. Crimes and sins are associated with our abstract or simple body needs. How about one buck for an old woman to give old men pleasures by hand jobs in public parks.

Seldom there have tea- bagging in parks for bucks but there are simple prescriptions on Chinese herbs or tea bags to sell in big departments stores.

How many balls to toss up and grab in times by tricks? How many submarines, tanks or combat fighters are buying or selling off in tri-colors. Trades off with hand jobs or to keep the gums of candies with gagged balls in mouths to prevent words jails

Again can we reclaim procreations by gods which like to use fires to stop waters? An album of very pleasurable looks to view many photos to modals under the business of bouquets is score.

Bonus of subsidized rovers to rig in games with packs of cards in small booth is one form to subsist. Self-worth of France to copy dictators by selling weapons to release the militarisms of China is ringing the bells

A 1-brothel (poem)

Water beds in watts are fun

Walkers on works for tiny judge

Brothels are bad roses with suds

Blow the bob float on tongues

Loves are task that take for granted

Laws are labels for us to rant

No more days have more night!

Induced the instances as we like

Labor on loves won't be good to sex

Markets of must have moneys for expenses

Laces are less tight to pennies

Latent tides are not lavish ends

Two ghosts come and go

Witches of whales are one ego

Spices on spaces like happy looks

Loves pools have laughers in room

Keys are kits under carpets

Loves tickets are ticked by day

Alfred Romeo is road hogs

Beautiful cars build with fine coats

All are alarms that called for loves

Stygian rains wet our stoves

Lots of lotto has pass on

Loud and wild lotus in ounces

Bingo will bring us lover s games

Cheats and chichi look will gain

Charted clubs have clubs of soda

Liquids thirsty are lust for loves

Split dice speak our chances

--To whom offend me on other web--

Her minds are pink her dresses are down

Name in belts and face in bands

Whistles of wolves to young in town

Pay for whistles she lost her stands

Toes are silver hearts are old

Nellie is weak minds of coppers

Skeans are smart and that stumble is horse

The legs of stockings are pale in hole

Hire her coat from whore in shops

Puffed looks cover her shorts

The ball is bauble of rascal gangs

She opens all her needs in ball

Carved the bills to love agents

She has deep pains in her ages

The fault is on night not in darks

Cartoons on strips are stripper s arts

Only she is the unaware dancer

She must earn the shifts in lives

Coins are returned in shilly-shally

She gives all to gear the riffles

Shear hairs and cut ruffs  
Soft in core and hard in surfaces  
Signals of innate old whores  
One s who but who s who

Dark reside in her heart  
Pennies are shinning on beams  
She goes down one stair  
Gratitude to sons of two Harry

Sing a song of goodness in vain  
Glees are rhythms blue in plains  
Loves are sick but moneys are lack  
Kudo in judo to twist the angel

Lift her shoes silly on turners  
For coins never too shy or prude  
Turning points for her good stocks

Mocks on modes of most bursts

Bombs on bones and fleshies are urns

Rub the rough minds in evil rounds

Lily lift its leafs to face the forces

Name the limbs near waves of angel s world

Words with unknowns are lions to worry

A 1-sex (poem)

Your magic is for me to sure  
Your bodies are truth that used  
I put your heels to your shoes  
But they are the lips of the bodies

The games are winning of joys in nudities  
Happiness is come inside nuts  
Passionate lips are hunts in huts  
Scents and traces are to consist

Each label a lovable mark  
Temper the flows of loves in masses  
Treat your bodies as for sues  
Take apart your judges as suits

So many rules are fall off  
You and me have to dressed down  
Your lips are not empty in our minds  
Your gifts that given as bodies are mine

My loves are melted as latexes that boiled  
My acts are sides of south winds  
It is below the teases of wills  
We wet her flowers in no rivers

Deface and deflower but men s vim  
Stops are to call off the bids

Mistresses are stars above moons  
Loves and cares are nifty moods

I do not harsh to grip on arms  
I stoke with pinks to paints  
Your pines are your senses of high  
Our joys but not nails are admitted

In abysms I grip one angel  
On rivers waters run in angles  
The worlds are perverted but humble  
Pipes in apples are under touches

Moons are crawlers on magic skies  
Is bright lights are so shy  
Shades of darks are like whips  
Never sweep away loves in flirtations

Childs in brains are loves that floated  
A humble me stand in oaks  
But shrug and shudders are allowed  
Some mystiques are magic in adults

Could not avoid the loves that handled  
All seasons are tasteful to anticipate  
The mot for lives is on your tokens

### **A 1-winner-prose-cauchy3**

A 1-winner

To be a disable or to pill up at end of queues are far away from happiness. Every body wishes to have witchery and every body wish to win. We are whisky to punch. All male and females should drunk with our punch.

Moneys and wealth are magnets and powers are fluxes. It pulls and pushes many forms of beings. Wars are to break out when stars return to perpetual or temporary motions. But we still need foods to live on moneys and substances are some real matters.

Some jingoism is controllers of pay off. They need many of us to give in our bodies and ideas. No things are very much given and take. Pound by wreck philosophies and blow by forces!

We are either wash in minds with white washes or afraid to think without guilty. Fears take over your thoughts. Latter on you only wish to have better feels. Are you feared of militarists? Or do you black mail by the feels of the others. When you are lonely ones you then clam down.

It is a tragedian to be used as a dupe or tool. Your happiness should be caught by your good breath. If some one shouts to you with reasons then the winkle star is sleep. The extortions might be for very common matter but you are just their target to control over.

If you want to be proud again then take a note on such awes. If some one explodes like petrol in cylinders then they have to sure themselves to be fine motors. They have to show us that they are not gods on earth. They must be full of charity.

If some one insults you then you have the right to prove their blemishes. Breezes that blow will make the kites soars. But water in deep swims only strong fishes. What kinds of lives are you take over?

Lives are not easy as follow the tails of devils. We hit many snags when our minds are soft. We are afraid to break our hearts so that we get on our nerves. Every common people should learn how to win. We are whisky to punches. All males or females should drunk on our punches.

We should not swallow bugs that put in our breads. When you are not good at quarrels! We put our words out even. We are giving some dressing downs. We glue our friends with loves but refuse the bad positions with two main subjects.

First they should be sacked in our wraps. Second they take our lessons. A finger is put to two pies so we need to recruit some lots of helping hands. Buy off to sell your tyrants who are real dictators. One intention of tyrant is to force for uniformity.

Despite their bad intentions their forces are to be taken wrong. The only separateness of tyrants is the ideas of defeating or powers out from hands. So what is wrong with good separation? History haws pension. Lands marks are

labeled by harvest or not? The lands had to face at the destructs of vipers that come on some neighbors.

You might be very sure separateness when you feel

### **A 2-political belle-poem by cauchy3**

A 2-poitical belle (poem)

Moons and boats are two owners

One is choker on pine necks

One is chocks on men s souls

Love boats are blasts to blow

Air compressed in water go

Compressed airs are compacted goals

Groans of men and cries in songs

One is short and one is long

Scopes on words have warns to start

Female jack is wife of arts

Artful to loves but true to armed

Gradualism lack crossing of grades

Artful to loves but true to trick

But grace is Diana on moons chins

Chin on heads thirsty is my mouth

Snows are pure to cover her as shrouds

The wreck boat should knee on shrove

Treat the wreck with ways when isolated

But kiss the feet of moon when I bowed

Troy in wars and punches on loves

Toys in minds is female jack

Jack in boxes is heads to blame

Wife for jack is dark beams

Evils are devils fruits to eat

No candy head to dogs fangs

Bad dogs wish to put the flags

Bad dogs set up the boat

Barter the jewel I hug the moon

Barter my soul I swear the boat

Barter my pockets I sing to moon

Loan evil smiles of lords

Lordships are hulls of love boat

Chains are good songs on moons

Chair lifts raise my souls

Loves are rules on water that floated

Hatreds are wreck hulls in planes

### **A 3-dialouge-poem-cauchy3**

A 3-dialogue-poem

Ruse of rose on two belts

Two strappers live with one belle

Stratagems are cruel father and mother

Oedipal sword plays the times as motes

Forward minds occupy by arms

Thongs are rough which weal on back

One fortress and thirty thousand men

Mean wells are son to mother

In blood but not in law that they are two

Meaningful are sexes and loves

Black magic and wills are their sexes

Dignity has not esteem or emotions

Thrones are smears with father s bloods

Throw down armors we need loves

Loads down all powers with beauty

Swords are in arm and beacon below

Two forces are in cocks fight

Immunities are words and spells and magic

Shafted draggers break the spears

Plans was fathers to killing to earn

But son win the battles on reverse

All pedants live in analogues

Belles a and heroes are water and milk

Then dry slopes are powers to skitter

The causes were many killing to commons

Lack of supports in large coteries

Cotillions are peoples on three dialogues

The cues of sins are poisons of snakes

The feet of history is meters to learn

Snakes bite the wolves in white dresses

Public relations are gold teaches

Envies are wolves and snakes are trickeries

Are there loges of powers or transfers of loves?

Snakes swim in wolves houses

All manipulators make uses of laws

Rats are cat s paws when enlarged

### **A abc angles on angels-poem by cauchy3**

A abc angles on angels flaws (poem)

Mix with means and assets

Passive and active to abase the men

Heels and knees rent for renown

Breeds the breads to be demanded

Assert to assist by blocks of boards

Necks and necks to bad affairs

Moneys pay for debts in doubles

Laws are raw to protect with doubts

Shams are shames to have costs

Shams on sheets incubated courses

Lack of actions to freedoms and justices

Nouns are in ounces and loves are in pounds

Control the concepts of wielding guns

Control the concepts of smith for guns

Put the concepts of tyrants on hell

To hell real tyrants have helps

Hounds and eagles should focus on hunting

Expect the evils to be saints on junctions

Axes and awls are lying below

Awnings are answers with piss and pee

Peek on peaks of powers to be laws

Whales on whips are wheat to sharks

Weeps when sweep in clocks of Gods

Corrections of cotillions like hoofs

Zeroes in zeal for facts and morals

Morales are guns that march and move

Laws are lost and twist a lot

Terms in targets have not effects in long

Stay in dark or run from dart.

Stray to cycles of cruel ranges

Laws as can be rights are none

Table lands are tables with spoons

Monks have manners to list on tables

Jack apples are appetites on tabs

Whales on whips are wheat to sharks

Baby fishes are preys in bays

To be back in the passes to wash by bloods

In themes of theory our rights are loud

Next days are dated with truths or false

Flaws in angles of angels are small

Wings when wink to rains give no shelters

Bloods are buses to carry to hell

Wash their shames but leave our rights

A network of flatterers is in wires

## **A abc baby law-poem**

A abc baby law (poem)

Lives are camels to drink in lakes

We could not drink all the rains

Gut fact are guards to laws

Facts are fates that return awe

Keys that keep the paeans are rules

Realities are deans to pack up

Facts and flaws are deals in packages

Cares are crafts in flat hats

Rules are laws which are wild to hands

Go to brains when you use aims

Down on nests when nails are biting

Red tapes are marks in blue files

In balls gases are filled by forces

Blue prints are released as foams

Plan your moves to grant the honors

Hit the white to reflect your own

Scale count steps flaky

Times are passed on trimmed scales

Sweats on brows to candles with flames

Top on skulls have topless of facts

Seal on leaks by bloods or by wrongs

Float the loads with duty or thrones

Tiny groups of tissues are mono in natures

Tiny worlds of wits are actions

Mobs are moats to protect the castles

Cast off lunches cast off laws

Get off masks to get the masses

Deeds are spaces while moneys are thralls

Jobs are slaves but works are sweets

Repose on works while rebels are deeds

Complexes on commands are guns in forces

Complexes on commands are laws in thrones

### **A abc Brazil dance(poem) by cauchy3**

A abc Brazil dance (poem)  
Jack of crack in pots of crack

Sambas have bugs on figs that take  
My heart has unseen bugs in acting  
Ghosts haunt in cavern with heal

Empty stream in holes to steal  
Barrow has one wheel for near  
Wheel and deal are those on top  
Tares are on suits but meadows are women

Dilate the prizes of prides on top  
We are all cogs to tone  
Harps be fine and fingers be good  
Jacks play with their fingers on goods

The sun on Asia sky may be red  
Give the logistics are logics to pets  
Patterns of Gods are king s bodies.  
Launch the papers on lunches to bowls

That faces of poets help to smiles  
Admire the distances from hade to a mile  
Pleasures of leaders are earned by rows  
Would there be sweats on brows when bow

Pietisms on parts are wholesome in vices.  
Wise in acre but bully to eyes  
Rusts are here yellows are pearls

Dittos on powers but flaw to react

Crooks roll your minds with hopes

Cogs in times lead us homes

Straps on times watch ones feet

Even are evil while equal are eerie

Only our planet with one sun

Falcons are slow down on bushes

Salty weathers salute to soldiers

Sambas of fortunes have just to sold

Passes on stages are passages to fires

Books on accounts are moneys to fine

Sambas of fortunes have just to sold

Sambas of fortunes have just to sold

Vectors pf suns are heats and flames

Bind to lines on sky when claimed

Plash and slash on lakes when free.

Brazil should breach on tank s wheels

Stand off and away from tanks

Red suns have white heats

Friends for wines and for wench

Stand away from tanks ends

A abc fetish-poem

Fetish put binds on souls

Focus on cashes then bend your body

Effects and efforts may be chips on checks

Shot the eggs to rape the chicks

Cheap and mean for skin deep

Brief to relief and free

Stands on attitudes of gifts

Give her gifts and lift her lives

Furl leg and furnished loves

Stretch minds and open hollows

Trove on troy weights and tory

Toss on toys and royal to domes

No suns will hide or moons will bright

Bondages are caged by ropes and binds

Crab with open legs and breasts

Rope on back and legs and wrists

Or slid the rod into the crooks of the legs

Or sling in part for cheeses eating

Or hoisted legs and bound the hips

Petitions to release our desires

Or accommodators mix dildos with tongues

Hovers the butterfly made controls

Loving the prize is good positions  
Songs and paeans should introduce to depth

Preserves are cover with desserts to eat  
Deserts the waters to damp the deserts  
Tour with ices but warm with mouths  
Or hold it with spreader by labia opener

Taut are tiny taw to pearl  
Petite plums are to reach free  
Engage with all senses for sexes  
Forces with graces and gradations to shells

A abc of absolve (poem)

Absolve the absorbs of bloods by wills

Cram the crafts with ideas that ill

Spears will speak up for crimes

Snows are known to be cold as rimes

Far and wide are political fares

Drudge on rubbers who will the games

Dinghies in strings should dampen by fires

Boats are oaths and keys for thieves

Crackers with keys race with laws

Taints on claims to over all charges

Shocks on shows to take the armies

Kings use strings pulling our veins

Craps shooters rig the tools

Laws and tanks are cages in zoo

Crash on ashes to win royalties

Loves are loots to sustain by tanks

Reserve their services for ones pains

Reserve the laws for people s rights

Who expand their arms to expanses?

Who invite and invoke poor races.

Deter and dethrone by justices and souls

Rig the wigs in jury boxes

Rig the right of my ways

All are flaws of right man

Right hand men are stuff

Goods sticks to bad stubs

Poll to a pool of poor strollers

Per capita should wear in common

Knock them down! Knock them down

Days are dated to total amounts

Worship the warfare for true men

War chests are wars means

War cities are cries in wars

Some laws are tools of mono-arches

Some tanks are tainted by bloods

Kinky to touch but kind to look

Touch of steels as tough as facts

Laws are rotten and rough that are not ready

Souls are rough diamonds that shine

Rouges and honest seek their rights

Cilia are blue cinders are dark

Blue moods are modals for ashes

Covet the laws to convey some actions

Oaths and curses for widow s aims

Empathy of empires is bad and showy

Building the thumbs then rule the zones

Cram the crafts with ideas that ill

Cram the crafts with ideas that ill

Present of souls with pretend of loves

Trade the traits and try their loves

Treat the treaty as symbols for lost

Tanks are steels that cut above

Ribs are aides of gasps for souls

Facts are aides of camps in solids

Absolve the absorbs of bloods by wills

Cram the crafts with ideas that ill

Treat on treaties are flows on flow

Foots on floods are tyrants foot

Stir our fears and stink our fishes

Tape by times and tick on fists

We dream on drums as we prevail

Values on vales are shields for rains

Fleashes are soil bloods are rails

Tricks are tracks devoted to braves

Pave the paths with white marbles

Swallow feet de-empire his father

Electra hired her knights at nights

Knit and knead the clays with wills

Soft are songs in places of wits

Dyes to eyes with colors of winds

Absolve the absorbs of bloods by wills

Cram the crafts with ideas that ill

## **A abc of bad (poem)**

A abc of bad (poem)

Slip that powers and go out.

Cheap ends out of hours

Wail of woes in stories of wars

Histories have truncated the ages

Imp has raft that float on laughs

Nerves are vague and values are paused

Wasp has pins on tails to hit

They keep the rudders to sail to sin

Ruins in smokes are run by guns

Blot the live of histories in suffers

Babies in bibles creep on suffix

Cells in wars have been wrathful to sure

Schisms and scabs work in opposite

Sections are truism with ought

What is the ought and what are the rights

Lick by bats to win the bricks

Break the laws of evils wicks

So wide to justice when despots arrive

Rife is creepers under crafts

Brains have plans and views have rafts

Dolls are lonely but jerks are cruel.

Rebate on debates are bad to argue

Kings of spades are dark jacks

Tanks and bloods as we acknowledge

Return to truths and reform the laws

Reclaim our souls over the tyrants

Line in closes and out for honest

Horrors in rings are bull horn

Orders will come as live recommend

Tyrants are hogs in ties for corns

Cat paws are casting away

Wails are not anthems and bloods are not flags

They have not coup to spoil our records

Coup de graces may have counters

Slip that powers and go out

Slip that powers and go out

### **A abc of bribery-prose by cauchy3**

A abc of bribery

Anarchism and enormities are presentations in cases of free and fair catches. It is not vanities for all peoples to be even. The presentations are with their good status or normative lives.

In histories of Athens they select leaders by drawing names in chances. Each citizen no matters you are city-fathers or daughters of sluts can be drawn to be the kings or Queens for the country.

All of us covet lives and fear on deaths so there must our laws. Democracies and freedoms only are there as you rest on laurels. However you could hug the moon back to your range as you are kings or queens. Only if you give the strengths of Kings or Queens then you get the big hugs.

Presidential crafts are off springs of bananas mixes with oranges. If the chairman of a country is the monster or lion then all capitalists (communists) are wild dogs. They feed themselves after dinners of lions. Their wives are not your wives but their girls may suckling by yours.

If peoples are firm as rocks then laws are abrasions to lives with water for white washes. Good times pass like lights that transfer in speeds. Bad times are walk in with styles of gastropods when they stayed.

Encircle with beats of hearts or centers of powers twist the routes to heaven and hade. Tranches and quotas for moneys positions and powers are admitted in that ways. Calculate the knots on dead knocks to lives are laws or justices.

Assertive of wines and juices take the parts for holly waters. We all appease many bad guys if there have not be for rules or orders. But we may submit to all temporizers. The thrones and powerful chairs are swimming around with snakes which some of them rattles with threats.

Our God gouge our worlds by dreams. Schemes of poisons fangs are covered up by rules and laws. Traffickers of drugs plant some dream flowers. Kings and queens are adjusted by powers.

Some are kelps while some are weeds. These are our phenomenal seas with stir waters in secrets or large front weaves to rendezvous. Lives are in bull rings. It is for foods and for bloods.

Long lasting comforts of your bodies or minds or long lasting control over substances and matters are some pulling wires to same dolls. If you fail to have spring tides the world must full of wooden hearts.

Morals and mitzvahs are mixed blessings. The mixed bags are boxes of soap boxes. Slip down with protections or swim to the mouths of sharks.

It is wind and sea. It is gagged balls and mouths. It is harnesses and the struts of horses. It is amble and dash. Trade off the

worlds or buy off the justices with powers. Leaders bribe you with orders. The payroll is pay off to justices or to laws.

Bats for bricks are not playing the balls. Deuteronomistic histories are undermined by depth chargers. Measures for measures are God for machines.

Determinism of Gods or Deu-ex-machine are measured as times and technologies. Technocracies or ruling by elites are common schemes. But we are all ad-hominem races.

To be or not to be is decisions of heads or tails. A game of some passes are cashes from checks. It may be briberies. Teachers are players of Ma Jons with their principals (school-masters) at all times. There are also political donates that return by privileged giving. Also there are rose petals with rectal cares.

### **A abc power-prose-cauchy3**

A abc power –prose

What is to take that is improper to take. Pipe dreams of monocratic leaders are to play their games of dominance. They force some one to sing his monodies. Not I want for politics to use in soap boxes. They dye our world with red bubbles of soaps.

The discriminations for powers and freedoms are for relatives and friends. The abuses are deep. The censure is not really for relations among peoples. But really the discriminations of powers and our leaders are the discriminators. The worlds are the moderators.

It may not be the virtues to love a country but the greedy hands for taking charges. Touch over the celestial lands and over look all peoples with family bloods.

Like many conflicts that occur to ancient kings and queens. It may not be the sentiments to love human the reasons are to take over. It should not be contrary to reasons. So it is oxymoron. For killing, raping and all ill treatments there have no laws. Or there are only jungle laws to over taking.

We have wars under evil powers. Why not fight for freedoms or justices. As we have many weakness on our bodies. We have many needs. We covet lives and fears of deaths. So the dark ages are full of darkness. Throats are cut under tyrants and heads are dropped

The neat and accurate powers are not to share by all. The orders are the toys that follow ones wills. The raw data in despot s minds are to conquer all with gross reasons.

Share the neat powers by truth but facts. Flatterers are live under some bad facts. We are all humble to facts. The costs of justices are wars or death.

Cordials or pain removers are not good participant to win. We think we have graces when there is tit for tat. Part exchange for properties or part exchange to laws and orders are evils.

But monocratic absolutisms are no where on some where..

Confederacy among monetarism, absolutisms, materialisms, oxymoron, sybarites, bureaucracy, cat s paws and flatterers are for all high rank temporizers. Palliative speeches, laws, statutes are all palms.

We all speak a lot and lap a lot. Our cadres are laps of times. We seldom work for justices as a whole. Monetarisms and materialism and sybarites are one kind of hedonisms. Absolutisms, bureaucracy and cat s paws are one kind of jingoisms. Flatterers and oxymoron are bad. We live in habits. We love all kinds of indulgences.

We all govern under scepters but not chorus. We have songs but not as free as those of birds. We sing together but our songs are not as vivid

as the rhymes of one thousand different birds singing together.

One man droned. Two men are sharp. Three of us form a little group. But like all birds all of us know our priorities. We all have fears.

Bureau heads hire a person or group of elite. They are skillful in jobs and symbolized with decencies. They go to work a lot and joining a lot of mapping. So in case of errors they are persuaded to take all responsibilities and become the groups to be sacked.

Jingoisms steal water and covet the land. They have the hearts of evils controlling their hands of devils. Flatterers and cats paw are the one live with carpentry. They set up the nail. They nail the good peoples to crosses or they double cross their bad bosses for the benefits of the flatterers.

Accabler que de le bureau de le chief se ce sont les disciples. Que etes fair connaitre sur les temos total au Presque sur.

Ils sont renvoyer quand il doit y avoir erreur en grand. ILs vont prendre le controle avec malmene. La chef rester leur employs.

Le chauvinisme voler la mer a convoiter la terre a volonte.

Les bouffons s' opposer formelite a de la justice. Ils sont contents pour a mettre le doigt dessus. Au ill est trahir a le monde

A abc-gambler (poem)

Gambles are latexes that sell to dolls

Clubs are liltis when minds are lost

Cribs of horses to bribe by owners

Tango in tanks towns are moneys

Operands of operas should full of lucks

Prints are gold and cilia are blue

Bluer than abstract fears in depth

Golden and shiny like dear

Dearth in lucks and shorts of wits

One bill of fates is wins

Struts of horses and stuck causes

Very puffs are dressed classes

Used tickets are torn girls

Torch songs are tops of sins

Spin the soil to very green

Notch on tops have plenty to agree

Eat my words with no milks

Moneys are much better than views

Maps on clubs and maps to hearts

Sheep are cooked in smokes when heated

Wolves are dressed in cilia blues

Peels off the cores are moneys that ruled

Habits are hats to take in hands

Who sweep all scores but you are on seas

Meshes often shake off the waters

Fishes are the closures of nets when asked

Gambles are baits for poor fishes

Switches are breaks to start the finishes

Chances are poor and poor has no chances

Sad horses are not on lounged chairs

Lone lives are leave with sadness

A can of beans with potato in sack

Long time to suffer in poor

No lucks to shelter rains that poured

Look down for what you look for

Spots of operas are offices in boxes

A box of bad lucks that suspended

A gif in sock will not expand

Give away your socks with steps

Moneys have not jerks when you are sent

Reporters of horses have moneys in pockets

Arrows as needles when all in positions

Lurks in horses to linkage to bloods

Ring up the bells to magic doors

Magic are mixed bags of toys

Licenses on lies are laws on tops

Lick on last with drops of winds

Stroll to stories with stories of triumphs

Win by skills or lucks with ideas

Thrash on trash to win is easy

Cats are in birds cages when ordered

Scalers on scales are big for moneys

Glance and gimme powers to win!

Wars and walls are squads in inches.

Pinkos squads are running close.

Ways on stars have boards to loose

Up to hells are they squared ups.

Lit on pity faces with just!

Men in maces are programmed badly.

Policies are played and made

Make in marks to polish off.

Who is who then taken on?

Deal with icy laws that hypes

Pardon punks but pay the imputed.

Balls in games and norms to lock!

Lock the knots with many objects.

Frame the posts with bad options.

Positions post on tolls are toys.

Human sea as toys for sharks

Gods that rest souls go to act.

Goals are roads rebelling tyrants

Build the bills to lend our lands

Seal on seats with sites of god.

Will all wills of God are gold?

Crack the racks down bringing faith.

Monism mock on blessing laws.

Sort up shorts of lives to pops!

Sanity sink to bloods when toss.

Roots of roses are woken by noses.

Take the roots of justices loud.

Take the leaf for buds to free.

Sow to soil the loves of beings.

Stories are roots for buying foods

Tory has stories to kiss the foot

Babies kiss on babes with milks.

Breach to reach to talk to mill!

Hype up yeast that shield the vanes!

Back to battery adding the steams

Souls are songs to E-bombs on ether.

Words are wands that want the ethics.

Tasks are tastes to favor the good

Fevers for freezes pf years that go

But she had to take up all they want

Zoomed lens are voyeurs loves

Good inches for long and wide and around

Stimulations were sloppy and go with pains

Relations are aggressive with loves blocking

Win a lady with moneys in all sayings

The burdens on desks are rains in heaps

No breathes are inhaled without rain drops

Loves are bitter herbs to be eaten

The plights to face the water sports

Throes are pulsatd with bad happiness

Silver rains are quivered and spasm

Spa are constrain by fist of rains

Blowing by moneys and screaming in trashes

They have the pretensions of kings and sadists

She pretend to win all over

Locking the floods are poor dams

Dams in dampers wet her mouth

Reclined minds lean to fronts.

Inspections by eyes are torn body

Here name are always in stock controls

Brokers are agents of SM officers

Pay dirt is in good uniforms

Broken bodies under pushes

Pulleys giving push for tanks

Bode for botches are laws that gagged

Plot a bottle send to seas

Tell the tales of thrones and seats

Cool off cooking body now

Fishes and fins with shark on powers

Try on tyrants all are died

Third degrees of burns are not ceased

Skins are scans with horror of guns

Kisses are kept to prize of Judas

Chains are charms for slaves in pains

Stir the states with our statism

Possible jobs on passes are rude

1-1-1 baby sex-poem-cauchy3

I pick my themes for my whistles.  
Here I pay and borrow with my hearts.  
Over against are nice twilights.  
Responses are not planned and all are nature s teases.

Loves are empowered but subjects are dismissed.  
Take a man with some strap-on.  
Upper hands are upper lips.  
Sexes are symbols and loves are disrobed.

Pluck the gases with juices songs.  
Define all benefits as a unit of nouns.  
Games of two halves are in two themes.  
Loves caged and birds are thefts.

Pay my whistles and with fool around.  
Full funs are the eager s of eggs.  
To baby the holders and to return profits!  
Only an empty wallet is with a penny.

Frequent make are the appeal from the owners.  
But applause cat have open practices.  
Fag ends are sensors and organs.  
A camp is with sure fires to crave in.

Eager towns are for pub-crawls.  
Each hang on is two cents.  
Six creatures are lots of taboos  
Hang in over and over.

Great lays are to their hand out.  
Grooves to songs are my digging honors.  
Hang in over and over.  
Break the gaps and stop the forces.

Good traffics have few over loads.  
Towns are tired when mounts are tapped.  
Going to the lips and use the kisses.  
I am the love wallets and all pay dirt-s.

To swop your wallet with deep loves!  
Never flatter that I am not those.  
Swiped town are asking mouths.  
Eager are to ask for some whores.

Never flatter that I am not a theft.  
All roofs and floor are eve s eve.  
Some hypothesizes are good Eden-s.  
My jobs are heaven self-help.

A baby -brinkmanship

Open the opals are stones that grind

Truths on tops will laws are rings

Boxes on broads will loss on width

Heads are hints to options

Mother s laws are not massive norms

Master s tag the mass in courses

Child with chinks has words to put

Stand on smiles have songs of licks

Cog in corns will sad for truths

Fall between the stools not up

Codes in coins can choose two ways

Fates with fames where matrix lay

Fatal falls are guys to tanks

Twists are terms to march our fates

Draw up dances on polished stages

Polls are dots that sum up laws

Play the dumps not pass the drums

Press the papers jigged our mouths

Moths are move and sleep and fly

Fires from flies are glow with spots

Bright and brisk are kings of God

Cog on corns will sad for truths

Bring up spins our worlds have turns

Rinds are ranges not forces in bones

Hearts are hard to take in bonds

Holders show up home to buy

Buy off benches of laws in busy

Posts on punches are laws for polls

Poems on points with codes in pomp

Cogs in corns and draws on globes

Brink with ranks when laws are loaded

Beg on buns are forms for some

Bundles put in banks of loves

Hatred grow as hays in wild

What on air are bad for wields

Wheels of wits are loss to wheels.

Guns and wheels are tanks in hell.

Fires are fingers tips of devils.

Thinking gets things supporting evils.

Bang on cars your lives are shot

Bang on Apollo we lost our moons

Bang to God you got not milks

Band to father your mother has fringes

Bang to fans your foes are happy

Bang to hummer for justices as they happen

Bend on back your bodies are supported

Bend on swords your positions are up

Bend on laws your moneys are spend

Bend your bodies live will be easy

Bend on moneys your fishes are on hooks

Bend to ranks your smiles are homeless

Bend to law you got few breathes

Bend to natures you bath on earths

Beat a cat you eat your meals

Beat a woman with rains to dress

Beat a cope you need a mask

Beat a lion you tame the cage

Beat the world you win the lord

Beat on steps your tricks are programs

Beat a realm peoples are on boats

Beat your girls they live on oaks

Shape an art for good lubbers

Shape your mouths as closed tongues

Shape your lives with ideas and codes

Shape your figures on your shows

Shapes of cups are tasteful to shakes

Shapes of capes for eyes to stay

Shapes in appears are grapes on foot

Shapes in voices are laws to fool

I bang to front but not back

I bend to stems with aces

L beat the drums with airs

I shape my times with aims

Laplace transforms give us changes

I transform snows to heats

I warm the candle with sweets

I transform a live of weeds

Who transforms the forms of comets?

I sit on trains of Einstein  
I mess up with sciences  
Science and technology are one  
Both names might allude to orgy

My eyes are dim but need sprees  
My ears are fixed but beat by whispers  
My altitudes are high with low downs  
My orgies are borrow to go

### **A bank loves-poem-cauchy3**

A bank of loves.

Kick back all my loves.  
Pay for your shares of blue cheeses.  
See advices on belle colors.  
Loves' powers sweep and career.

Nullified are all laws with regards.  
Absolved solvents are rich guys.  
Breeze your faces with a chamber of gases.  
Jades and gold are ready to buy.

Lineal banks are dots made.  
Gradients to powers are smooth faces.  
Justices are one cut on tests.  
Truths name the gods to nemesis.

Duly by rights are raw powers.  
Safe words favor your ponies.  
Most fascinated bows are socks.  
Sock away a bank of loves.

Burn your diamonds in gas burners.  
Keep your weal when moneys are burst.  
View your papers for all to keep.  
Loves assignments test the wheels.

A batter sur son jeu-sex-poem

Magic fogs and Spanish flies

Belle s kisses are attainable flights

Lips slaves and slaves lips

Sinful pleasures as Adam s sins

Flirting mouths and tongues flings

One step to run when coin is flip

Add the yummy to my buds

Blind folds show my urges

Mix the yogurts with arousal scents

Yolks ands bandy in hallow images

Steal the Yule with red shoes

Leathers and platform marching boots

Eager foods as food stamps

Fool around but true adoring

Anticipations and go with preoccupy

Anticlockwise to all anti-climax to total odds

## **A beauty flied in randoms**

A beauty that fly (poem) .

What good beauty are flying silks.  
Or defeated long winds are cottons.  
Violent wadding is with flowers picking.  
Fluff covered seeds are horrors.

Glories are spent by splendors on talks.  
To route by taking you as Gods!  
But you are defeated long winds in gallows.  
What are political powers on weak forces?

Bow tie bows to powers.  
New worlds are in good pockets.  
Pay rolls are table rolls.  
Black coffin are not casual boxes.

The flowers' flied to conquer demons.  
Frustrated and confusing are the wadding of morals.  
Ethical warriors are with true modes.  
Live of long winds are wadding cottons.

Jobs are heaven but jokes are hells.  
What fiddle-faddle would we earn?  
Absolute values have one zeroes.  
Complete powers are reviews to absorb.

### **A bible-poem-cauchy3**

A bible (poem)

Shrug off the covers of heats

Heats are radiance that absorb or emitted

Start to rain in strings heads

Rains are vapors in cold and heat

Very drops that drub the coats

Lave the lawn when gods approach

Valleys and vacancies are happy when floated

Confessions are redeems as spiritual loans

Pave in paths for ways of lords

Smooth as water Jesus is lost

Pause our patties care the poor

Plums are ponds in king s pools

All waters are wants and curses

Drenches are dabs for heavy cuts

All human need happy and comforts

The worlds need steps beyond

Storms are stakes but rains are cracks

Jack of jingoisms that racked

Drinks of waters thirsty are drawn

Bliss are meats and bless are sauces

Bliss on bless and bless in bliss

Back issues as god in bibles

Wait in whips to sort out

Hold your hands and hand to mouth

Jesus change waters to wines

Some priests have no waters to give

Wait the whips to sort out

Clean on carnal moving our souls

Must are mushy Gods to show

Show us how the laws and how

Dickens is well and Gods are poor

Soups are bad while taboos are spoons

Mouth to hand or hand to mouth

Laws are retreats and down when touch

Wits for good and grades for moneys

Spate for sins but spectrums for crosses

Spectrums for sins and wet for crosses

Roads maps are for road hogs

Jesus is for rockets on moon fares

Vanity of Gods is thick in airs

Laws by hands and rules by tests

Run on chances help by accessions

Over all powers is under nulls

Curses are oaths and words are adjured

Refine our realms to confine our path

Wise guy with whistles that do not pay

Gangs beg for berries in dark  
Dare to darts for targets as rains

Bibles leave off the cuts  
Mach numbers may go up  
Paul is points of macaw s talks  
Peter is pets with rooms to walk

Use of Noah to launch the boat  
Short of sources for one oar  
Broke the bibles with times on floods  
All magic are mapping of cartoons

Storms are stones with hidden rocks  
Milks are mailed while breads are bought  
Don a dome to shirt your souls  
Dig on deans with books on drugs

## **A bone and shark-laws and powers-cauchy3-prose**

Bone of shark-law and powers-by cauchy3.

Fire is next to knowledge and wisdoms of men on lands. Form the matrix of political powers with cults, religions and civil rights.

To rape the roses with picking up of thorns now is passes. Right now the whole nation of our red domineers is bones of sharks.

A stretch truth with twisted laws is fish s bones that stuck in honor throats. Power points pierced through the air. Russia coding are medals and furs.

Esteem values are simple logs are factional fights when dissolving.

When all are lost in hopes, our worlds will melt.

Waxing of red candles are tears of a kind.

Window tables are table lands. See you with powers of ultra violins.

Green cars have v-8 engine to go around.

They are plugs for people s livelihoods, democracy, civil rights, powers revert, national intelligence, common justices and habits for nations.

Holds and honest are on sending and giving and finally good laws successes.

Although bad laws are not zero absolute, trouble makers are perverse on all days but there are also civil rights.

Ding words stings and ding words rules are not demons and gods. A flat tyre will take away good controls.

Totem will buy or will not buy. Two pairs of 5 same flushes are lucks better than royals.

Henchmen are suffixes and powers are indexes. Letter s patens or powers indexing are questions and asking.

M&M has good M dolls and M girls. I think but could not rethink. Live pyro-musical displays are damming lives oscillations. I see a doll.

Cliton and chocolate, flowers and thorns are all plants with ferns. Tangent laws are not cotangent laws. To cherish the flowers we spend and pick up by points.

To protect the justices of our worlds a pile of drained bones are on fires of phosphorous.

It is merciless to have very much.

It is heat of dark light from absolute ones.

Fair games should be fair plays. The causes of any effects are luxury of a heart. Only some individual cases have some couples.

Are there all rights and justices? Juices are from ferns and spirits lace on wines. Some ways and some times rules of games are better than laws.

Cokes and colas are cokes and cokes.

Indoctrinations are to introduce powers on rectified directions. Mutual powers are intercepted by shadows.

Conventions are also not only signs they may have some good logical powers. What is wit? A kind of wisdom called out from energies that are confined and that are spend with changes.

However there are some complex relations between henchmen, teacher-pets, real and true over lords.

When the overlords let out their powers, laws could not successes. When the over lord takes off his armors there are three stroking for him.

The put of justices and ways defenses and evil cutters will go. Do you take me wrong when I put on? But who got true powers and goes on real powers.

Absolute gods give absolute pleasures. There are totally lovable compressions to be a good follows of religious through good medium. Anchoring or not fastening when the doors of heaven lead to upper boundaries.

Drugs for egoism are not cut down.  
Treat your powers as scopes in histories.  
Presses and annexes are supplied tools.  
White washes are the very bloods.

Reunite evils to gods are sums.  
Reuse and retake are cuts of causes.  
Remove dusts on skins of mirrors.  
Glasses keep the burns in the minds.

Methyl nitrates are with yellow oils.  
A rod staff is metric wants.  
Common degrees are palms in public.  
Stomachs are rolling over acts.

Teacher pets are social wisdoms.

### **A dot theory by cauchy3**

A dot theory by Cauchy3.

To wooed canto from God Marxism on maximum monstrosity is full play.

Who swear a book brought up struggles.

Who paint the bloods on white breads of philosophers?

Am I a philosopher?

No if I got the pro-nature.

But yes of I do the rest and jump high.

Some jump high to kick away the devil s throats on evil heads.

The right words are processes of right control.

Who are last and who obtain the right options.

What is moral? That is the right that acquired by the poor classes.

What is Tao?

That is the way that suffices to strike back the violence of evil matches.

Then hit and praise the sticks that slap with good prices.

Who barrows the cargoes to our fates given up dome points?

Who give you powers to successes given the most words?

Dead reckoning beat to death.

Maoism has low baud rates but sharp screwing.

Very good Macs are jackets to wrap the red rains.

To bemoan the mocked quiz for good people is one book.

Good people how to take the mocked quiz.

All play camps are with slave play fellows for camp flowers.

There are many wind flowers by blows or powers in remittances.

Powers annexed papers and colors controlled winds!

Good sciences devices substances and real politic devices oneself as well as others.

What is a tool?

It is a dice or our hand.

Do we need to low down to up load?

Regard no reputations with little honors.

Regard no results with bad reasons.

If so we fly over above line.

We can not get the rewards.

However all dots are so thin to define we could not get the rewards of a number.

Powers on men are dots of morals.

Powers on earths are triple tridents that tried on evil s right and tried on bad deep mock quiz and final is tried on dickens laws.

Evils trials to us are by Hadaka-Jime to good reactions, hold down the facing down on views and think out disciplines by décor truths.

Dense to guts are blow on winds.  
Go on swim when sinking is stop.

Bottom piles aren't stocks on piles.  
Made on carries borrow ends.  
Outer powers need no inner.  
Reds as Rome have boards in pegs.

Know your rights as errors aren't free.

Anthem to flags which are tigers on figures

All boats of cats are sunk to sea

Tigers or dragons pray to taste the onions.

Who is master to sway the flag?

Tigers pretend to give her papers

Critical means to win their benefits

To pit the coffin against the honors

### **A hat three as final game-prose-cauchy3**

A hat three-prose-cauchy3.

Giga bucks are for nano-plays.  
Macro views are on political news.  
They are flexible red hot.  
They are on chargers wheels.  
Who challenge the big wheels?  
As big wheels and big times are as cogs with small reasons are such.  
In anticipations of political powers there are macro political views.  
Going down to figures of small cogs have no great climax.  
Micro views on powers are types of rules that go on slow and produce small heats.  
Answers to climaxes are going towards our front but also with good backings.  
Clubs of leaders are periods to load down as lords from above.  
We need E.P.S but leaders need E.S.P. ... Easy special person or An O.  
Channeling is hopped by switches but lives are hopped by others wills.  
We are changed by external forms.  
Jobs can be out of commissions with no loves for honors.  
This may be some micro assistance to insist.  
To say that some one will do something then we need powers.  
Who do not look up out to influential officials?  
Who have little chips that oath for Macro committing?  
To conduct conditionings are not social particularizes but always laws come.  
To build a great wall is by condemned powers.  
Views of honest and upright minds may be some micro symmetry only.  
Top cat is clean by himself.  
Some good views are cleared by ours.  
.Clearing by gifts or clearing by guns are some.  
Some trickery is with macro laws.  
A hat trick is on final game.  
They are our three capacitances.  
Power to missions is one.  
Power to loves is two.  
Power to lives is three.  
The above three are thorough views.  
Macro or micro views are only power laws.

Loves are facilities that are simple foods.  
Top cats are with under dogs.  
Lives relieves are situation maps.  
Marks on labels are tank s happens.

Steep rapids are water floods.  
Lens of eyes are best symbols.  
Good books are related to woods.  
Guns and tanks are related to bloods.

Offer you a chance to comfort my bodies.  
Improve your men who enclose the worlds.  
Loves polices are tricks for bio-graphs.  
Insides are out from back doors.

Loves dominance are in moneys domains.  
You project my images deep in minds.  
Lives are narrow when related to domes.  
Plain laws are with rules of whorls.

Beauty bodies are loaned for matters.  
A small change is based on points.  
2 mills of loves are give and take.  
A mill of loves is a machine to process.

Loop holes are with sharp arches.  
Soar to sober lands with loves.'  
Already in guesses are numbers of straws.

## **A twaddle three-cauchy3-coming human faiths**

Three Twaddles-Cauchy3.

Twaddle is for three. The turbo powers of negative matters are flipping from close regions but flogging to some farer distance.

The transit of rapid fires are first thin but then thick and heavy.

What kind of bombs and energies are made from theory of negative matters as we know.

Second theme is the controls of feeding charts that respond under gods.

It is the formidable forms for biologists.

My words as for examples are used forms of all flies to kill the fire ants.

Or we can be crocodiles to eat bad worms or bad bacterium after the uses of medicine to crocodiles.

Of course crocodile s bodies must adapt and fix on the new places on this food charts.

Crocodiles must live on with good heavens.

After save sessions we have to get the powers for live transformations.

We have to use other medicines to map the crocodile on to other phrase of the world food chart. We then have to control our environment and plants growth.

The last topic for me to talk about is the biological warfare. It is the change forms of bacterium that are recuperated or developed from biochemistries or bio-processes.

It is then transplant to our poultry. The incubation period give short or calculated live phrases to the poultry.

The bacterium still can survive after heat. The gagged laws give you choking needs.

You demand on demonologies.

Laws and rules make to demote all as some sort of a kind.

To resort or to sort out by laws or by rules with powers are to follow all.

But the best or the worst to say is that all of us have feeling.

### **All sins are our rights-prose-cauchy3**

All sins are our rights-prose.

Kingcrafts are lollies to circular trades. However who own a lot but did not pay a lot. Kingcrafts with full political administrations and total grabbed powers are mono-patents for oligarchies.

British have graceful queens and kings on some ways. Some have some thick whites. The black and white occasions are point out.

Besides them all there are some mercy seats pocked up our bills of gold.

A situation is for induction. All inductances are trained to obey and to dictate. They sell their morals for some kinds of honors or foods.

Lo and behold there come the camp followers.

There are still no loan accounts that are returned with justices.

They got their credit values while sharks got polished teeth.

The dynasties kings or chairmen are dinosaurs with polished skins.

In pure lands the supposed one is the god who controls all.

In earth the supposed one is the powers.

These substantial controls are believed to be through ignorance and all sins.

Heavy rains are stormy red.

You got yourselves sold when you read the honors on their faces.

A thousand years hegemony business is with circle trades in ten thousand years with tears.

All attempts to revive are laws that fixed to complex rules.

The contests for supremacy may put the threats and demands to evil builds.

It is on some times to put away molests to obtain fair plays.

However some of us could really go to their camps.

In some ways we can success.

However the unique laws are how to avoid all sins.

Eager beavers stay in the corners.

Split beavers accommodate moneys and powers.

I think that all sins must be our rights.

When we got an analytical live that is full of logics and senses we cut our throats with honors.

We are opened up to flashes. If we had to dodge away from wheels of lives or from the wheels of evils, we got to be catchy.

Stolen tricks are robbed actions when working.

Robbed works are carried out with robes on apes.

If we have to declare and let out then we take the rents.

Political white washes subjects or dictatorships are main points. What kinds of all sins are our rights?

### **cauchy3 rights or devils jumps**

Cauchy3 rights and devil jumps.

Fine coats give fine impressions. Who tailor a belle with every gear? But Buddha asks Buddha build. You have to mend that leak or to lick that crack. What is your problem? Buddha s pictures have no magic.

The real lemons could not be plums. Young girls are good purple violinists. Purpose loves are purpose built. Christ transfer motions which lock the times. Who is so ever exit?

A world is used to the word 'time' but nothing can govern time as infinity terms go to infinity by infinite numbers of times. At least I like to use terms and words. Nothing can exit or sometimes can reborn.

Lives are leap out from times then it can have many takes. Are your random sexes or random loves consent? Our native sentiments are random or do we always being pull and draw by threads of the others men or trends of other cases.

Stimulations and responses or actions and reactions are always rule by all change hats. Changeful situations are machines that change or change machines.

Men s teeth are similar to bones. A cog transfers motions by locking into teeth of some wheels. A God is not good to have god s laws. A god should complete with god s reasons.

One is the way. Two on ways are abnormal. In one way all cortexes are similar. But on world absolute powers have to agree to all varieties as some many. As we are more than one!

Buddha asks Buddha build. Buyer asks buyer s bills. Sellers kiss the jewels. Are you a jewel? Politics are nude when all situations are naked. Walk the law monks play with walking sticks.

Walk the tapes god whistle to the weeds. Take your belts but not your belts. Get a home but not your own. Who map the maps in all reds?

You stamp on with what stamp. All climbers are ants to hills. All divers are skins when up streams. Social climbers have few problems. All volitions are with one volatitized powers. Who bill up our laws?

Who control our order?

No real pictures are Buddha, but there are honors for Buddha ways. No descend are magic powers till some now. We are human who relay on leaders with middle classes and gold means to wash our souls.

Buddha moves their arms when evils are hanged.  
Does Buddha drops when seas are covered by red.  
No all dictionaries are for dictators.

However Cauchy3 would share my rights with you.  
My whole Chinese name is Cheung-Shun-Sang.  
Vous faire aeme de la shun sang. Demons?  
Tout faire arme de la shun sang?

Gods and evils make up our histories.

To kings high for authorities to change our worlds or each bad debt to sore our souls are some. The exceptions are some hi-hi emperors humanities.

However we follow their pictures but still we got to share Cauchy's rights. But if there is a god we need many angels viewing many angles.

Locus is smooth curves and lotus is pink. Buddha flies with different wings onto Greeks.

Who drink the philters and give free hand task. Imperial loves are for you to claim your loves by bonds. Queen of old dynasty and Diana choke our worlds with beauties.

Orange fruits bear pinks. Valiant it by loves or Valiant it by arms are us.

So we put words with words. The circles of loves are not square deals. The circles of laws and orders are not fairy tales. Purple wands extend to backs. Evils tails jump higher.

When powers are in courses of sexes I kneel.

When powers are in courses of tricks I bow.

When powers are in courses of loves I cry.

Are all courses are to concupiscence of souls and bodies?

Are all the powers are concurrent events of good wines and silver cups?

Which powers are the means?

Which ounces are the cheap?

Polyandry is polyanthus. Our minds are suck when we suck the royal cups. Matters are half matters when laws are obeyed. New forces have new rules. Equal loves are for boxers. Equalizations are complicated equalizers.

All series are whiffs in weeds.

Are you dawn when you love?

Are you scored when you pass?

Duality is a due.

Trinity is a trail.

You could only get one quarter on courts.

Pentagon has some rights.

Sixth senses are so false.

Seven deadly sins are banana to monkeys.

Eight turn about faces are octants but not spheres to be near.

Three gods are trinities that deal with trigonometry.

Four stars are not syllogism of one.

Five stiffs are depended keys.

Six senses have attachments.

Seven –guns are not equal detachments.

### cauchy3-feelings

Cauchy3 feeling....

Fighting give no rights. Rights are giving by fighting. Jousts are not justices. But justices are jousts.

Laws go to gods when feel with gods. Law is not human feeling. But human rules by feeling.

Laws apply to peoples away from races, creeds and colors.

Scopes with conditional worth and tossed on sides of two of horizons are nukes away from laws..

General laws are general.

All to rights are equities applied.

Sentiments as goody feeling needed to come for justices.

Why human still can rule by feeling.

Legends are not myths only.

### China-Taiwan-politics-cauchy3

China & Taiwan politics.

Lionized Sphinx is to study hybrid immortality under solo powers.

Solo power is the margin to absolute zeroes.

Captive principals are deep sea liabilities. Ratters are hard to catch the snakes.

Falconry is bells on air.

Tridents take up the snake when they spew their venoms like dragons.

Vanilla skies to Vietnam have number out small child.

Grin with axes they smile to American soldiers.

Jungle toys are little flowers. Wars cease phage cross. Justices cease by honors to some titles.

Of causes world nations are beyond one community.

Capitals are to principals. But debits are not to credits.

A world of deep sea is with marking liabilities.

The beats or rates to laws and justices are fall to rights.

The solo powers put you on days to fields.

Then you catch and return your enemies whistles like rain stars.

Solo powers are hybrid models cut above or under absolute zeroes.

Few of them allow double sovereigns or accept the double offer to your rights. In depth a piece of mystery colors is magic mirrors.

Smokes to mirrors are bad powers. Estimated paths are war fields.

Somber are feels but bloods are tastes.

Halls to amenities are powers beyond comforts. So my fathers fail. When I was a child he set up a advertisement company in Hong Kong. When he nearly fails he borrows money from a ball room girl. Now it was about 2 million Hong Kong dollars-2006-year-now.

This could not cover all the moneys that he is in debts. So the company uses my uncle as new boss.

My father still works and supports the business at back and on some front with some front chances.

Now my uncles' sons are very rich mainly by these businesses and some others very lately.

All colors are finished.

Lionized Sphinx is to study hybrid immortality under solo powers.

Solo powers are the margins to absolute zeroes. Captive principals are deep sea liabilities.

Ratters are hard to catch the snakes. Falconry is belts on airs.

Tridents take up the snakes when they spew their venoms like dragons.

In the powers mall or on the street corners there is one.

And follow the public addresses of Lin Gin, who will get the feels. He said that the feels for him to peoples to be same. He also talks about he feel the paces on these front waves as our generations to good times. But HERE IS CAUCHY3 views on SOLO powers.

For China communist one party is big alone.

For same paces and same errors Kuomintang should change to communists to a must.

They can still dig to three winds doctrines.

Lin Gin is not Cauchy3 but he is once the head leader of Kuomintang-Taiwan.

Three free democrat or three winds doctrines and synchronal signals or

ANACHRONISMS.

What is anachronisms-Ngn SA Quit or Yu se Hui.

They are both betrayer. One asks for Ex officio and one asks for King crafts.

If I am the king I also crave with crafts.

But Jung -Yam-Kown or Donald Jung or bow tie all in one is Hong Kong governor has

buried his father near Radar station and get so called unbelievable shielding lives powers and lucks.

Lin Gin once went back to China to bow to his parent tombs with his wife. All kissing is to leftists.

They seem to get all play cards that cover their path rather than flower girls.

Lin Gin successors Ma Ye cow may be the follower to flowers camps. They may success on the Taiwan presentations and presidents elections or they may not.

### Hidden political sins-cauchy3

Hidden political Sins.

Ruthless are evil political tricks alike- pulses of red dragons. The real freaks are a class of copied loves and a field of camp followers. Feed to powers are good norms to touch on bases to neighbors.

The minds are collections to a warship museum but there are copied loves from a mall of machinations.

There are still ploughs with cows and eating mere peanuts for dinners. It is good to listen to the distant jet planes or the near thunders but there are no copied books on wooden plates.

Show no tracks of giving to give off political real king crafts as for leader ships.

Mending their ways with dragons' tricks of leaders and armies are Sinful you!

All the weak knees are to your public domains of you or your wills on others.

Purifications are effects of a dictated sin. Call me the true ways on panther tricks of son of small general..

But I am so weak as one feeble secular..

The dictations of real king crafts sit on chairs of yellow thrones. The pictures assembler the fierce-full eyes as cogs to the center of political hubs.

Press by powers and make the mandamus. The mandatory are taken the tiger seals on ways of emperors and that back off the emperors.

When the barometers fall the acids are the control liquids. All jades are turn to omit.

On and off democrats are swim or sink.

From the low bottoms on viscounts to the top dukes there are visa credits and many vested interests..

Our beneficial cycles will not guess an order in deep. So these are king crafts.

Further more there are the discriminations on laws and justices with armies and curfews

So why we need general polls on top levels!

In England king crafts are quite some symbols rather than real. In China king crafts are hidden sins.

The handles for gossips are hidden evils heads biting on devils tails.

Jail birds have little sexes. But good to say I am only an experimental rat in Hong Kong under China. Our limbos are not purge.

## Three Clears

1 AAAA Three clear.

Why there are three clears or there are three sweeps.

Each person after birth there are lots of photo images of lives and picture pixels that shot up or draw up in our brains.

Our pass experiences and learning are flash bulbs and markers to our brain photos and minds pictures.

Then each person put their efforts, vim and moneys to their actions and all are sending and giving with purposes.

But actually our worlds have many different cults and many different realms that control by many different leaders.

Many of them are with different fetish status.

They and we all crave for powers, many positions and loves.

They all expect different results for what you think and what you feel.

On de facto if you have special or some pure or advanced thoughts and if you may be being squeezed out oranges then you have no luck.

What are your apple ciders?

One of you may go to three clear ways or three clean sweeps.

They may be just, sounds and fairs. Or they may be amour-propre (self respects (de soi) and good to strive (forcer de fair qqch pour la valeur bonne)

In our worlds there are many philters and placeboes. As o am some coward on some times and as to meet my live possible, I got some ill wills.

Some very success doctors as doctors or doctors as psychiatrists have exotic pills.

They seldom use them to their own men or own self. They say also with so many minds and wills' tactics and tricks and all to do is force into a draw or withdraws.....

They know they are Hong Kong communists and they think that controls and sovereigns by them are good on divine rules.

I use the word rule they like the word laws. Even for rules there are evil or good cursors.

Worlds may be heartless that regard every things as loves and hates tests. Every thing is natures for themselves and the devils take the most powers.

What is used for divined laws or gods? Gold laws and jade rules are what kinds of lives protocols.

They successes and they fail. With out powers balances there are no fail safes.

I cry for gods as our situations.

I think about the worlds and my cursors are on Taiwan time in some.

But there are no tab keys to real drawings.

A grand picture need to decors by pure thinking.

What good is China republic sovereign become thick.

1 Some laws are thin and quick.

2 Some wills are evil to sow.

3 Some stories on China histories have no now space bars.

4 Some tunnels are mad horses.

5 Some ages are capsules with ill powers.

Are there more than five evil tunnels?

Five or more evil tunnels against three clears.

Who got our worlds with three clears?

## Thus should no dreams-cauchy3-prose

2 A dream -thou should no dream

A one me in clinic hall! Again I am surrounded by many. Beds in arrays and men are in sheet ices. Drops of elixirs and pills of D.N.A are for deep loves. Egos to be men mates and she-mates are blending teas to milks.

Weaken wills are on bottoms but strong angers are on faces. Some muscular hormones with few playful pills to wills! Words are horns of plenty. Patently all my privacies and my esteems are being horn in.

El Dorado has jade law. Greens and perfect scenes are symbols in traces of Taiwan chief general but really only HK police. All are hypnosis and all are white and yellowish liars.

My receptors are my keys to my vaults. My dreams are my roof vaulting on domes. My dreams are to have my cuts to evil powers. I dream and I say that I wish to protect an island. Who would steal the waters and covet the lands.

Ruffled lives and holly ripples are blue rains or green steams that go up-steam. I need my told allowance in Hong Kong. Still I now live on with my own surplus. Surreal dreams to conquer wars playing and human tanks are honorable words. Will all lead to poems and all led to numbered lives?

Rot Come To dye under the hands on colors of retributions. When Calm Poll goes under the chair of devil seats! Latter words for passed out dreams are green reservations. Set my lives to reset my dreams. Red capes and eroded whites; colors of domineer and colors of deflowers are as one to thou dreams.

Mormon moneys are love free.  
Roots are quill leaves to add.

Evil pillows are gods' gallows.  
With teas pillows gods are rest.  
The creative and control cycles are asked.

### **under the moon politics-cauchy3**

Under- moon politics.

Arch to beams will not change powers.  
Tales to be told close our eyes.  
Could be loves on tricks to Rome.  
Would be rooms are that are rarely to build the sky.

Full of distances we love our ways.  
Treats are spoons and tricks are baits.  
Real to honors are to switch our facts.  
Balances of powers have no good eggs.

Bald eagles have weights on hairs.  
Ball bearing is time slots.  
Plutocracies are heavy grounds on airs.  
But air blow up the wings to loss!

Loss a lot is on ways to landing.  
A box is a house for honor classes.  
A sense of periods is when winds are heavy.  
There are acidic brains when dealers appear.

All measures tie up with stones.  
Rap words are not good music.  
Bay leaf is not moon flowers.  
How to throw a coin to moon when it is under?
