Im one of those girl who look for someone to love n if a guy want to be with me, then they must treat me right, like me for me, just have fun no matter where we go out when we date. I will always love him n wont cheat or hurt him b/c Im not tht girl. I like to talk, have fun, and hang out with people. So if u dont like me then who cares. lol just jk. I have my ups n downs, but i can do it n hold on. This year in school be amazing in begin, but at end I realized things n wonder y n so confused. So if u want to meet me or talk just dont be afraid to go up b/c i wont hurt u. If u like me just tell me b/c I wont say no b/c I realized tht I should like guy for who they r n not their looks.

## 18 Years Old

Tomorrow I'm  
18 years old  
I been waiting for this all my life  
I get to do what I want and now I'm free  
Live where I want  
Do what I never done before  
Date who I want to  
Chase after my dream  
Now I'm young adult and all grown up  
I have to be responsibility and make right choice  
I start getting and understand life  
I'm matured young lady  
If I get in trouble now  
I will go to jail which I will never do  
I'm getting ready to be  
18 years old  
One day I'm going out in this world and face it's  
There is no hiding  
I can't believe this day come already  
I been waiting for this day to come  
I get to make my own choices now  
I'm finally  
18 years old

## **A New Begin**

When things is going horrible and  
The way you think expect to happen  
Then you need to start  
A new begin  
Give yourself another chance  
Take one step at time  
I used to be person where  
I'm scared for changes,  
Take a crazy risk,  
A shy girl and can't stand up for herself  
That's not me anymore  
I have grown up and matured  
I'm different Christina  
I don't regret things anymore  
I don't think about past and want  
To reach for the goal  
It brand new slate to start over and  
A new begin  
For you and me  
I think you can do it again  
Don't spend your time thinking or say what if  
You are wasting your time  
Just stand back up  
I believe you  
Don't say you are falling in  
Black hole and you are trap forever  
By someone you can't stop loving so much  
The world is not over for you  
A begin  
We should try  
Don't wait too long  
Take your chances  
A new begin

## **All I Want For Christmas Is.....**

I want someone who understand me  
Like me for me who am already wonderful as whom I am  
Also I can laugh, joke with, and talk  
Like we known each other for years  
You are like icing on my cake that I want  
All I want for Christmas is  
You that I want to see everyday  
Is like opening new presents and  
Every step of way is surprising  
I couldn't ask for more than this  
I already got anything I need  
If I could wish on star  
All I want for Christmas is  
Sweet guy like you  
I want precious moment every day I have  
With you if I could  
Every day I feel like something  
Is missing in my life and I need it now  
You make me stay here  
All I want for Christmas is

## **Always**

Always  
If you can't keep a promises then don't  
Say you will do it  
You say we  
Always  
Going be together forever, but  
Look where we are now  
You break up with me because there is too much drama with me  
After all fight we have and me cheating on you  
I was wrong for that  
You are done with me and all things we can't agree on  
You are tired of me nagging and crying  
Love is not perfect  
Relationship is not perfect either  
It's ok  
I understand why  
You did it  
You have the right to do that  
I been a bad girlfriend  
I'm so sorry  
So I'm not going cry  
I'm not hurt  
So go ahead and leave me  
We are not meant to be together forever and  
Always

## Angel

There is an  
Angel  
Sent down from heaven  
To save me from drowning  
It's was miracle  
I thought I was died, but  
I wasn't thanks to an  
Angel  
I feel so live and happy  
That was the worst thing ever happen to me  
You are greatest friend ever and my  
Angel  
Who is always there and  
Give me hug when I'm sad and hurt  
No matter what happen  
You are there right way  
You always want me to smile and be happy  
You protected me from getting hurt and  
You give me great advices  
I'm so thankful to have you as a friend  
I have an  
Angel  
Looking over me  
Thank you God  
I know I'm not alone  
I have people who care about me and  
Are there to support and help me get up  
I have an  
Angel  
I hope the  
Angel  
Help me by forgetting the past and  
People who hurt me  
Also guide me through the difficult times too  
There is an  
Angel  
That I believe in and will always  
Thank them for what they done  
I wouldn't be here today  
If they didn't save me, but  
They did save me  
There is an  
Angel  
Watching out for all of us, and  
Protect us all too  
Angel

## **Baby**

You are the only one who gets me  
Our time apart have taught me a lot  
You don't care what people say  
You know what you want and  
I love you for you  
You help fine real me  
I'm afraid to take risks and not ready for change  
When it comes to you and I never felt like this before  
You are wonderful and strong person  
I keep missing you every day and hiding from the truth  
What happen if we are supposed to be together?  
It takes me while to understand what I been missing.  
I never had any guy go this far wanting me so much  
I should have follow my heart and be with one I love  
I admit this I want to be with you only  
I am jealous whenever you date someone else because is not me  
I wish I realized this sooner  
I was wrong about you this whole time I am sorry  
Baby

## Back to School

I can't believe it went by so fast  
Now is time to go  
Back to school  
I'm not ready, but  
I have to get through this  
Another year  
Filled with crazyness, funny, great, and rollercoaster ride  
Time to get back to those books,  
Lectures, meeting new teachers, and  
Meeting new classmates  
Seeing friends/or girlfriend/boyfriend  
We haven't seen in while  
I'm just ready for another year  
Now is time to go  
Back to school  
This last thing I want to thing about  
Why can't summer last forever  
Well life goes in circle  
Good things have to come too end eventually  
Get ready to see school again  
I hope I can remember where things are,  
It been almost three months  
Time to get through seven hours of schools  
Even through I hate school I need it  
Back to school  
Once again with fun, excited, bored, happy and all kind emotions  
You feel happen in everday of your life at school  
Some of us will the butterflies, but as days go by  
You be calm and get used to class, people, your teacher and school again  
You be ok  
Everday is brand new day  
Don't stress out and take a deep breath  
Have fun and enjoy  
It goes by fast before you know its over  
There so much memories you won't forget  
Back to school

## **Be Alright**

You feel like  
What is point of living  
After the one you love turn you down  
You feel like that person take away  
Your smile and you thinking  
You never want to love again and also stay single  
I know everything going  
Be alright  
If you realized that person is jerked and  
Don't know you are a great person  
They are missing a good opportunity to be with you  
I believe in you and never give up on yourself  
I know you can stand back up on your feet and  
Found a sweet and lovely person  
You can't keep crying and do this to yourself  
You know better than that  
Go out there and have fun with your friends  
Eat junk foods and go crazy  
Just forget the one you love who hurt you  
I know everything will  
Be alright  
God is here to heal our pain  
It going take baby step so don't worry  
Just focus and don't lose it  
I know everything will  
Be alright

Christina Phan

## **Be Happy Again**

I wish I know will I ever  
Be happy again  
Will I ever learn that I need to let you go?  
If I love you and if it meant to be  
You will come back  
I feel lost in this world  
Have no clue what to do or say  
I just want to smile and  
Be happy again  
I can't tell at all because of you  
I will never be the way I used to be again  
I'm falling to pieces  
Right now I need to get back together  
Will I ever stop crying over you?  
Will I ever stop saying your name?  
There are still questions I need to be answered  
I just want to  
Be happy again  
I hate the way I living  
I keep blame for things I do  
Wrong and not realized it  
I need to face reality  
I will found someone sweet and not back out of it  
Just know there is someone who will treat me right  
Will I ever  
Be happy again?

Christina Phan

## **Beauty**

We are all beautiful and  
Different in our own way  
You should be happy with your beauty  
You shouldn't care what other people say  
Because it make you have low self-esteem  
You should love yourself and  
What you look like  
There someone out there will love you for  
Who you are  
I think I look beautiful and I don't care what other say  
I love myself and my beauty and  
You should do the same  
Don't try look like other people  
When you should be yourself because  
When you are happy and be yourself  
You will enjoy your life without  
Worry what you look like and just have fun  
Don't spend all your money to look pretty  
When you know you are already  
Beauty

## Because Of You

Ryan  
After all  
We been through  
I'm sorry  
I never talk to you and  
Wait too long  
My chances are over because you move on  
Because of you  
I feel guilty  
You were happy and smiling  
Because of me  
I wish I can go back to that day and  
Make it right with you  
Show you that I'm a different girl  
That you would have date, talk to you and  
Give you a chance  
I'm sorry  
I hope you are doing ok  
I wonder how your life is going  
Now I play on safe side  
So I don't get hurt  
Because of you  
I can't get back on my feet  
How am I suppose to move on  
I know that you are sad on inside  
You probably think I was the one for you, but  
Now it's too late because you are dating someone else  
So what point of even trying to get you back and  
Prove to you that I won't do it again and  
Give us one more chance to do it again  
I think we are better off not dating  
You need to trust me on this  
I cause you a lot of pain already  
Now it's time to go our separate ways and  
No looking back  
We need to forget the past and each other  
Because of you  
I can't be myself anymore  
Because of you

Christina Phan

## **Being With You**

Every minute of day  
I think about you  
Every step we take along the way  
We compromise and is so magical

I'm blessed to have you in my life  
We have five geat years together  
I hope one day you made me your wife  
You are the best thing that came in my life

My heart is complete  
I couldn't ask for more  
Fate brought us to meet  
We are meant to be after all

Being with you  
Every day you make me feel happy  
I hope you feel the way I do  
You know what to say when something is on my mind

Noone gets me like you do  
We understand each other so well  
Evey challenge we face we got through  
We are soulmate

Christina Phan

## Being Yourself

Being yourself  
It's not a bad thing  
People like you for you are  
Other people don't  
Don't get trap by people  
They will used you for what  
They need you then throw  
You away like tissues  
I know what's like  
I change myself  
For one guy to improve  
To him I can be different, but  
It didn't work  
I realized that at end  
I should be myself  
I will found a guy  
That like me for me  
I change to fit in and  
It didn't work  
Just be yourself  
No matter who the person is  
If it does work at end  
When you change yourself  
Go for it  
It's your choice  
Not mine  
Do whatever it right  
World out there is not easy  
Remember to be yourself and watch out  
Being yourself

## **Blind By Love**

All this time  
I didn't know  
Until my friend  
Told me something about you  
That I didn't know  
I realized that  
It right time to move on  
Before I was  
Blind by love  
I didn't open my eyes and sees that  
You are just playing with my heart  
I just got lost in your beautiful brown eyes  
I wish I know sooner  
I just can't believe you do those things  
I can't believe I fall for someone like you  
I was dumb all because I was  
Blind by love  
I wish I was smart to know  
This is real world and not fairytale  
That I been living in  
I got my feelings all mixed up  
I didn't think this through  
I keep learning things day after day about you  
I just can't believe you doing that  
I wish I know why  
I was just  
Blind by love

Christina Phan

## **Break Up**

Why all suddenly I want to  
Break up with you  
I have fall out of love with you  
Every time I try tell you is over  
I can't because you been a great guy  
You are so innocent and I don't to make you  
Fall down and break into pieces  
You been so caring and sweet  
I can't pretend that I want to be with you and  
That I'm in love you  
Baby this relationship been all lied and fake  
I'm sorry  
I don't want to this end but this best thing to do  
I don't want to be in relationship that  
I feel guilty and still in love with another guy  
I want to  
Break up  
Let's not carry this on anymore and I hope you  
Can understand after you read this letter  
Its over for good and you can find a better  
Person than me who won't hurt you again  
So I want to  
Break up

Christina Phan

## Can't Have You

I been hoping  
To be with you and each and everyday  
I give you everything I have to offer, but you don't care  
I don't want to let you go  
I love you so much  
Every time I go sleep  
I can't because I dream about you and  
How you are gone and not here with me  
You are always on my mind  
If I know I  
Can't have you  
I won't love anyone, but you baby  
I forget every guy, but you  
I will love you forever and ever  
I look deep in my heart and  
I know you are the one  
You got something special  
You make me addict to you  
You are like poison ivy  
That I can't scratch away  
Now is summer  
My chances are over  
You are gone  
I want to cry now  
Bye baby  
I will miss you and  
I always think about you  
You are so special to me  
If I know I  
Can't have you

Christina Phan

## Chances To Be With You

Wish I can expressed my feelings for you  
It's so hard  
I can't even say one word  
I wish I can talk to you if you were one of my friends  
I'm letting my past get control of me  
I'm not doing it right  
I keep making the same mistakes over and over  
What is wrong with me?  
Why I can believe in myself and  
Be with someone else like you  
Luke  
I feel bad  
I'm losing my chances to hold onto you  
My heart is feeling so torn part  
I hope you can be one to glue it back together and  
Help me forget horrible past and guy  
Maybe you could be guy get my confident and faith back  
I can do it, just need to press on  
I can see in your eyes that you want me  
I want to grab this chance with you  
Luke  
So I hope is not too late  
I need to go with ever happen and  
Say to myself that I try and I didn't back down  
Luke  
I like you so much  
I hope you didn't move on yet  
You like me for who I'm  
Every day you are kind of surprising in a good way  
I enjoy being around you  
Chance to be with you

Christina Phan

## Changes

Changes  
Is one thing some people hate doing  
So don't be afraid  
It might be something you like  
So take a risk and try something new  
If at end you hate  
It's ok  
Try something else and  
Eventually you found what you good at  
Some of us afraid if they make  
Changes  
It be bad and that they can't never take it back  
So just go with the flow, be chill and relax  
Just push yourself through it and  
Think of happy thoughts or  
Things that make you happy  
You will never forget about it  
Changes  
Are things I hate to do  
When it come to getting a boyfriend  
I never took that chances and I feel guilty  
So give it a chances  
I learn just take that risk  
No matter how nervous you are  
Changes  
Can be a good thing or bad thing  
So remember  
Just do what you comfortable with or  
You can just try it  
It's your choices  
Changes  
So if you chicken out, it's ok  
Everyone is just like you once  
Changes

## Clear My Mind

I'm pushing too much pressure on me  
I'm so tired because I'm doing so much  
I just want it to go away  
Clear my mind  
Of all things that are negative  
Try not to do so much  
Focus on important things  
Other things can wait  
I need to have fun  
Enjoy life out there  
I can work hard and have great time  
Clear my mind  
That has bad impact on me and makes me shatter  
I need to run and listen to music  
Clear my mind  
I hate feeling stress out and exhaustion  
I'm eating right and try to get exercise  
I'm going dropp off things I don't really need to do  
I want to feel happy and alive  
I want to have energy and have good time  
Like I used to in my life  
I need a break from everything I do  
Once in a while to let it all  
This is too much to handle  
My head is hurting so much  
I just want to scream  
I want to  
Clear my mind

Christina Phan

## Closure

Before I close the door  
I need a  
Closure  
From you  
I been lying to myself  
I been lying to you  
What is wrong with me  
To be honest with you  
Reason I am feeling like this is because  
What you done and how you didn't treat me with respect  
You such control freak and making things way you want  
When I say something, you don't even understand  
You taken this the wrong way  
I don't want this anymore or you  
I just don't want to be around you anymore  
You are sweet and then you are sour  
You saying all this lies to me and  
I can see right through you  
I'm going leave this alone  
It's better to say nothing and stop contact you  
Moving on and cutting you out of my life is best  
I finally understand and get it  
I'm taking out all joy out of me  
Thinking about this over and over  
There is other good things along the way  
I'm not good with goodbyes  
I just couldn't tell you what on my mind  
I am going to tear, I just couldn't do it  
It make it harder on me to face you and tell you  
Closure

Christina Phan

## Clueless

I really don't have clue  
All things I do and bad things  
I do and keep it a secret can come out at any moment  
The guilt built on inside hurt  
Clueless  
About life and things  
Whatever throw and come my way  
I let it make me fall down and break into pieces  
I get blame for not listening and  
Doing the right thing  
Clueless  
About what I really want to happen and see come true  
I need to let my heart decision  
I need keep my ears open and  
Watch out for people and things  
Time and years flying by so fast  
I can't be  
Clueless  
Anymore and not let anyone/anything bring me down  
Clueless

Christina Phan

## College

It's something new, excited and different to look forward  
This is what I been waiting for

Help me prepared for life, but my high school didn't  
It changes my life in so many ways  
I feel confidence, happier, and independent  
I doing one thing I love the most, and it's going to culinary school  
I learn so much in one semester already  
The teachers want me to success in life and help me so much  
It's hard to catch up  
The feeling I can't even describes when I first came to this  
College  
It's fit my schedules and my classes is only couple days a week  
I can take morning, afternoon, or night classes  
I am doing this for myself, my life, dreams, hope and becoming adult  
I hope you enjoy it like I did one day  
College

## Confusion

I feel so  
Confusion  
What am I supposed to do with you  
I love and hate you  
My feelings grow stronger and stronger each and everyday  
People tell me the only is to forget you is to date someone else, but  
I can't because I'm going to feel guilty that I still love you  
Every time I see your smile  
I melt  
Every time I hear your voice  
My heart beat fast  
I can't make my mind up about you  
I'm feeling like I trap in your hole  
I can't get out  
You make me love you and want to be with you more and more each and everyday  
I feel so  
Confusion  
I'm screw up  
I keep sayings things I want to take back  
My friends are mad at me  
I need to learn from mistakes I make  
I need to move on with my life, but  
I need some help first  
So whatever advices anyone give  
It won't help  
I need to talk to him  
I don't know  
I'm so  
Confusion

## **Could You Be The One?**

Out of every guy  
Could you be the one?  
Who was always by my side  
To protect me and  
Help me up everytime I fall down  
No matter what happen to me  
You are right there to protect me  
You understand me so well  
Are you that person that I always dream about?  
Are you that person that I been looking for?  
Baby you see right through me  
You make me feel warm  
When I'm around you  
You make me feel not alone anymore  
You give me love that I want to fly with you  
You're like my angel  
You are so caring  
You might be the one  
I never know  
At end I realized something  
You do this because you love me baby and  
You want to be with me as my boyfriend  
Could you be the one?  
Yes, you are the one  
Thanks for being here  
I hope you are here until the end  
Could you be the one?

Christina Phan

The roller coaster and stay with you  
Why do I love you so much?

Other times I don't get you  
I finally realized why I can't set you free  
It's because what happen between us and  
It been amazing time ever

You and me

Forever and always

The memories is so amazing and

I don't want to forget it

Even through you been a jerk

Every time I get near you and get hurt

I don't mind and want you more and more

Crush

We have our ups and downs

I feel like our piece of our heart come together perfectly and

That we are meant to be

This faith we see other each again and

Keep bumping in each other

## Crushing On You

Every time I see you  
You make me wish I can tell you that I like you, but  
I can't because I'm afraid of rejection and  
My heart will feel like a broken glass  
You're cute, funny, amazing and cool  
I can't get you out of my mind  
You make me go crazy  
I can't go a day without you

Every time I see you  
You take my breath away  
Now I told you that I like you because  
I can't hide from you anymore, but  
You say that you don't like me  
You're great, nice, and awesome person  
I rather just be alone  
If I know I can't have you

Every time I see you  
You make me go crazy  
After I told you that I like you again  
You say that I'm not your type  
Now you break my heart even more and  
You're everything I have picture  
Why can't you just admit that you're holding back on yourself and you want me  
You're afraid that you get made fun of and you need to learn to trust your heart

Every time I see you  
You take my breath away  
Now I told you that I like you because  
I can't hide from you anymore, but  
You say you don't like me  
You're great, nice, and awesome person  
I rather just be alone  
If I know I can't have you

Every time I see you  
You make me smile  
Now we can never be together  
I need to learn to accept your decision  
I know it going to be hard to see you everyday  
You're a cute, funny, and alright  
Why can't I just get over you and  
Move on to someone else

Every time I see you  
I feel like I'm going to faith  
I need to not have feelings for you anymore  
I can still talk and laugh with you, but  
I can't kept falling for you because it going to kept getting harder to get over you  
You're an amazing, cool, and fun person  
I finally realized it just a waste of time to get you to be with me

So I hope to find someone else one day and forget you  
Crushing on you

## **Cry**

My heart been hurt so much  
All because I keep getting closer to you  
I will break down easily and  
Cry  
After you have hurt me  
My tears will fall down once in while  
Just want to be alone in dark  
No one to bother me  
I just let this get way to far  
I can't stop leaving you alone  
My heart want more and more from you, but  
You don't care how I feel and break my heart to pieces  
I feel like shattered glass  
I can't stand up again  
Knowing I'm getting near you again,  
I'm going break down easy and get hurt  
Once again I  
Cry  
Over you because I'm not realized that  
You keep doing it  
Cry

## **Dance in the Rain**

Let rain fall down  
Wake me up

I just want to run out there and  
Dance in the rain  
Come on everyone  
Do with me  
We can have all fun we can  
I be here waiting for you to come and  
Dance in the rain  
With me  
Ohh yea  
I just want to have fun and scream  
Come and be crazy for once  
Dance in the rain

Dance in the rain

## **Dance Party**

Come on everyone  
Let's go  
It's time for a  
Dance Party  
Turn that music up loud as loud you want  
I wanna dance all night until my feet get tired  
I don't want this night to end  
This is time of my life to get away  
From my problems and people I don't want to see  
I just want to have fun  
It's best way to make me feel so relief  
Keep party going  
Dance Party  
Yeaaaaa

Don't stop the music  
Bust your move  
Don't stop the music

They be amazed  
Have fun and eat with your friends  
Don't be shy  
What is point if you go there if you don't have fun  
You might make new friends

Don't you see baby  
What you done to me

One of your family or relatives die and  
It's hard to face it  
We have to deal with it and

We can think back on good memerioes  
So don't let this get to you to much

## Didn't Expect It

I never thought you will move back to California forever because of me I make you  
leave here  
I'm feel so horrible and I  
Didn't expect it  
Once I found out it hurts so much  
It opens my eyes  
Now you are gone  
I didn't make right choices and  
Break you into million pieces  
Things will never be same  
I'm so sorry  
I feel like I know you forever  
We were so close in school in 10th grade  
How I can get over you  
You were different and what I'm looking for  
I can be me around you and have fun with you, but  
Things change in 11th grade  
I can't smile, laugh, and have fun like I use to around you  
I regret for not dating you  
You know how I feel about you  
I never give us a chance  
What have I done?  
I didn't see how you were good for me  
Letting you down, I feel so bad  
Most of poems I write are about you  
That's all I think to write about is you  
I'm out of words to write because of you  
On the hand  
You told me that you never want to go out with me  
It don't seems like you mean it, I bet you did  
You wish we were dating by the way I'm with other guys and  
Not with you flirting, smiling and having good time  
Memories of us have fun, laugh, hurt by each other,  
Joy and time we had spent in class in 10th grade  
I never going forget it after all and  
It impossible to do that  
I miss you too much I know I have to let you go, but  
It hurts too much and to be with other guys  
It's not same like when I with you and  
I can't love them like I did with you  
All I think about is you  
There something I need to figure out  
Why I can't let you go yet?  
What I like about you that was special?  
I don't know yet  
I'm so clueless  
I bet you had move on and dating someone else  
It's not my business  
I need to move on too  
You gone forever and  
You thought you knew me but you don't, I do  
I'm not going let you hold me back

I make you wait too long  
I thought second chance  
I will I get you but I didn't  
I lie and you hate people lying to you  
You did too and you put people in your games  
I did or say things make you change your feelings about me  
I was so confused and hopeless  
It all happen so fast and so much going on  
I feel so bad  
My life getting worster in school  
I can't blame you and I  
Didn't expect it  
When you hurt me back and get revenge  
You are one to blame on and me too  
This end in tragedy and so many damages happen  
This is life  
We are one to be blame  
We like to get attention that's  
What all our friends say I bet  
We turn out to be jerk especially you  
I will never spread rumors about you like the way you did to me  
I feel so hurt and sad that you did that  
This side I never saw before  
You do anything to hurt me back so badly  
My heart is shatter  
I thought you were different  
Everything reminds me of you  
My friends were right about you  
I need to take their advices  
They getting tired of this and mad  
They hate when I changes  
They want me stop living like this  
You never care about me  
Wow, I'm shock right now  
I feel so dumb for loving you this long and so much  
I'm just speechless right now and I need to live my life  
Having fun every day and night  
Life is short like I say  
Didn't expect it  
To know it now is better  
I can move on for good  
I'm stupid to wait around longer  
Their never going be us or chances going happen  
Is all over now and  
You live in west of United Stated  
I need to trust people and stop lying  
Didn't expect it

## Different

Baby can you see what is going on?  
That I'm not like other girls  
All I want to do is date you, kiss, hug, and have good time  
You can't always get what you want  
Stop saying that I'm scared to do it  
It's my decision I want to do it  
You are taking things way to fast and  
This is first time I let things get way too far  
When I say no you need to listen  
I'm so  
Different  
Is this what you want and you can't wait for me  
You need to found someone else who understand you  
I can't and I just need to be comfortable around you first  
I hate when we fight about something over and over again  
I get what you saying, but you need to understand  
That I have career I'm trying to achieve that  
I'm working for something it's worth doing  
I can't let this get in the way  
Different  
Is what I'm and I never meant for what happen and  
Now we are not friends or even speaking to each other  
We are going our separate way and never going see each other again  
I learn one thing about you is that you were playing me around  
I'm not doing what you want me to do, and let you treat me like this  
You never love me, care, respect, and all you are is jerk  
What I learn from other girls and your friends  
I'm so navigate and stupid  
Wow here I thought I love you which you never knew  
I'm happy that I'm  
Different

## **Do You Ever?**

Do you ever?

Dream that you live in a world where you can be happy forever and have a great life  
I did and everything just got turn around and twist  
Everything is not good and feel like it all your fault that this happening  
You can't blame yourself for what happen because  
What comes around, goes around

Do you ever?

Dream that you live in a world where life is perfect and nothing going happening  
I did and stuff happen and at end  
Everything is ok for me  
I learn that I shouldn't blame myself and just live with it  
I know that sometimes I look back on what happen and I learn that I need to just let it  
go and move on

Do you ever?

Dream that your life is going stay same  
I did and out of no where  
This happen and I didn't expect it  
At that time I didn't know what to do and  
Feel like it all my fault and wish it never happen

Do you ever?

Dream that you live in a world where you can be happy forever and have a great life  
I did and everything just got turn around and twist  
Everything is not good and feel like it all your fault that this happen  
My advice to you is don't be upset with yourself  
Try to go along with what happen and remember is not your fault  
Do you ever?

I can't believe I fall in love with a jerk  
I'm  
Done with you  
And your games  
I been such fool and  
Got lost in your eyes  
I thought you were sweet person  
You lead me on  
Then at end you just make me crush  
I'm  
Done with you  
So bye bye bye to you  
I waste my percious time on you  
I wish listen to my friends sooner  
So next time I see you  
I will look away mad and annoy you

## **Don't Belong Here**

We all have somewhere we belong  
I been waiting to know where my place is  
I know one place for me and is New Jersey  
Coming here change my life so much  
I just feel like I  
Don't belong here  
I just want to leave here forever  
After I made my mistakes  
Everything change that I never picture  
Will happend and what I have done  
I didn't expect any of this  
I never learn from my mistakes and just keep doing  
People keep blaming me,  
Giving me dirty looks and stared at me  
When someone told something to them  
Rumors spread about me all the time  
It never end and puting me down  
I'm so sick of this people and this town  
I didn't mean to do any of this on purpose  
I just couldn't made up my mind  
I don't belong here  
These people are jerks and just act nice because  
They feel sorry for me  
I feel sorry for them too  
I'm just annoy and tiring by all this going on  
I try and put all my strength into it  
There nothing else I can do to make this people  
Think different of me  
So it best if I leave and leave all this memories behind  
That I don't want to remember  
I just feel like I  
Don't belong here

Christina Phan

You are leaving me so  
Don't speak to me

You look like  
Just leave me in this dark and lonely night  
Everything turn out wrong  
I feel so blue  
I'm just done with you  
Just leave me and  
Don't speak to me  
Our relationship is over  
No more romantic, chemistry, dinner, and anniversary  
Nothing left to look forward too anymore  
We just lose who we are  
We never trust each other  
I'm just speechless to say anything else  
It's time to go our separate paths  
Don't speak to me  
I can't stand this when we fight  
This just too much to handle  
I just want to be myself again  
So please just go  
Don't speak to me

## **Draw A Line Right There**

This summer been tough, but  
After all days I spent crying,  
I realized that I need to  
Draw a line right there  
Just look forth  
Put my head up, take a breath and walk away  
Just forget all this past and  
Smile again by turning my frown upside down  
I'm happy without you  
I have outgrown you  
Even if you look cute and ask me for another chance  
I will say no and just  
Draw a line right there  
I'm going a different path and  
Hope to found another guy better than you  
This feeling is just too much  
My heart don't need this anymore or you  
I'm tiring of staying home and  
Let tears from my eyes dripping down  
I want to get back out there and  
See sunshine on me  
Draw a line right there  
Not going let you back in my life  
We have good relationship and life together  
So is bye forever from me  
Good luck on finding someone new  
Draw a line right there

Keep trying and trying and it be worthwhile  
I can do it and not let anyone get in my way  
I'm strong and idependable  
I can see myself in ten years  
That I achieve my career and I reach my goals  
I believe in myself  
I don't try to get to excited because  
It won't work and be back luck so  
Watch out what you say, do or act  
Dreams are coming true for me

I feel like I'm not me anymore  
I know this going be tough for you  
I know you can make it without me here  
Baby, I can't take another minute with you  
You like another chapter in my book  
Please let me just go, leave the town  
I want to be happy again  
I don't want to be miserable and  
Let you treat me like this  
I thought I knew you, but I don't know you anymore

Everything is falling part for me

What am I supposed to do?  
I cant take it anymore

It's all tears apart and I need help  
Everything is falling part for me  
I just can't think straight because of you baby  
Why you do this?  
You get to me  
I keep wonder if I didnt make that decision  
Will things be better and different  
I lost that chances you give  
I feel like I have nothing left to give  
To make you be with me  
I never expect all this happen so fast  
We can never know what happen  
So when something come out of no where

Doing because  
It's go to turn into bad luck

Excited  
On the other hand  
When I want something so bad it can happen  
All I have to do is be patient and  
It can be a good thing

Excited  
Can mean so much  
Like getting this feeling  
When you are with someone you love so much  
You just can't stop feeling like that

Excited  
Is expressed on my face of how I  
Feel right now

Be crazy  
Excited

## **Fake Smile**

When I feel so sad  
I just hide it when I'm around people  
I put on my  
Fake smile  
Behind it's a hurtful and depressed girl  
Who feel she can't get back up and  
Smile for the first time  
Since this guy make her like this  
I feel like broken picture frame  
I need a push to do it again  
I try to smile but I can't  
I'm lost so I put on a  
Fake smile  
When I have to  
I feel like I will never smile again  
I lost it unless one person  
I know who will do it and is you baby  
I know you are the one  
I just have mixed feelings for you  
One minute I like you and next minute I don't  
One day I will get my smile back and  
It be thanks to you or to whoever can do it  
For right now I have to show a  
Fake smile  
You did this me and  
I did this to myself  
It turn out after you been gone awhile  
I don't think or cry anymore  
I forget you after all  
This is real smile and not  
Fake smile

Give love another try  
I promise you that I won't let you fall down  
Take my hand and take this chances while we can

Make our wishes come true  
God bless the broken road and  
Lead us into each other  
Please stand back up on your feet and

You will have with me because of past  
You shouldn't let this get to you too much  
You making yourself all sad and miserable  
It's time to let it go  
That person was jerk for doing that to you  
Deep inside I know you're a great person that I want to love  
Don't lose your chance to be with me  
Because you will regret this for rest of your life  
You will keep wonder

To help save the earth

## **God Will Heal My Broken Heart**

My heart has been hurt so much from you and other people who hate me  
I hope one day  
God will heal my broken heart  
I pray day after day I be ok again  
I need to get on with my life  
My heart is all black and clouded  
Never ending pain  
My heart hurt so much because I love you or someone I know died  
I cry everyday  
I can't take it anymore  
So I hope and hope  
God will heal my broken heart  
I need a miracle  
People I know pray for me to be ok and be happy again  
I want to thank them for caring so much  
They don't want something happen to me and they don't have to  
I be fine again  
I just want to stop dealing with this broken heart so I don't have to worry to much  
My happiness is gone and I want it back  
People keep asking me how I am and I wish I can tell them the truth, but  
I don't want them to keep worrying about me  
A little bit longer and I be alright  
I be waiting here and  
God will heal my broken heart

## Good Bye Forever

We been together for a long time  
After you break up with me  
You say  
Good bye forever  
You don't feel it anymore  
I didn't want to end  
When I can't sleep  
You are right there next to me and  
Sing a beautiful song that make me go to sleep  
I have wonderful time with you  
All this great memories I will never forget  
The pictures you take of me and you was great and  
I look back at the pictures I will cry to tears  
I wish you can stay with me  
You protected me and let nothing bad happen  
You were so caring and such a sweetheart  
I will never forget all the dates and anniversary  
I willl remember your love you give and your smile  
Baby you make me happy and at top of the world  
You treat me so well  
I can't believe this is all over  
You are gone and leaving me  
You say  
Good bye forever  
That I didn't want  
Please come back and stay with me  
I don't want you to leave

## Good Life

There is this door in front of you  
If you don't open and see what behind it  
You are going miss out on a lot  
There is  
Good life  
If you just overcome your fear  
There will be something amazing happen  
You will never regret yourself if you just do it

If you want something so much  
All you have to do is dig a little deeper  
There is going to be ups and downs, but  
If you believe in yourself and do it  
You doing it with flying colors and  
Good life  
Happen because you did it  
Just remeber that you're not alone  
There is someone you can go to or lean on

You might think is hard and  
Give up on yourself and doubt yourself too  
Don't do that and  
There is going to be ostacles that going block your way  
So just face you fear  
Good life  
Will come to you and you see that you're strong enough to do it  
You will be great when you do it

There is this door in front of you  
If you don't open and  
See what behind it  
You going miss out on a lot  
There is a  
Good life  
If you just overcome your fear  
There will be something amazing happen  
You will never regret yourself if you just do it

There are these two paths  
You have to choose  
One can lead you in dark or good path if you lucky enough  
Just remember if you made wrong decision  
Then next time try making the better choice.  
Good life  
Will come along way  
So just hold on tight and be brave  
It going to be worthwhile if you just do it  
Good life

## Goodbye

I'm waiting until day you leave  
It makes my life easier  
Today I realized that I'm  
Happy I didn't go out with you and  
I can move on  
Goodbye  
I'm not leaving you anything so  
Don't hope for it  
Just leave this town forever  
I don't want to see you ever again  
You change me  
You never care about me  
You just want to hurt me  
I don't regret it anymore  
This time I'm just going out there to  
Discovered other things I been missing  
I'm not going back to you anymore  
Goodbye  
Your jealous is so stupid and  
It's not stopping me from dating other guys  
I'm strong and confident again  
I change what I don't like about myself and  
This will make me feel different and new me  
I'm not going tears or feel hurt anymore  
Just go and please don't come back  
I'm sick of your drama and attitude  
I'm done with what keep going on over and over  
I hate your games you playing  
You change so much that I stop loving you  
You keep rude my life  
You got nothing else better to do  
I just want you gone forever  
I should know better  
Goodbye  
Just leave town and  
I can't wait until that day come  
You holding me back and  
I'm not going let you do that to me  
I give up so much for you  
I'm wasting my life on you and  
Worry what you going do next  
Now I know better  
I can't believe any of this  
I can forget you, be happy and smile again  
You coming in my life was bad luck  
Goodbye

We all have resolution to make  
For me its to just be happy and enjoy my life  
To forget the past and you  
Make everyday count

## His Smile

I can't get  
His smile  
Out of my mind  
You're so cute and adorable person  
Please keep smiling because you light up  
The room with your cute smile  
Every time I see you I freeze like ice  
I have butterflys in my stomach  
I don't want to move, just stay in my sit and see  
His smile  
From outside of class he want me to open the door, but  
I want to do is stare at  
His smile  
I feel like I been glue to my chair  
You make me want to smile all the time  
It been long time that I done that and thanks to you  
I able to smile and feel happy  
You bring back real me  
Ryan  
Promise me that you won't stop smiling  
It's the cutest thing I ever saw  
Nothing will ever change that because  
His smile  
I will never forget  
His smile

## How I Feel About You Now

I just realized  
How I feel about you now  
I love you and want to be with you forever  
Please baby give me a second chance  
I wish I can take back that day  
I was dumb for letting you down  
I'm so sorry  
I can't go another day without you  
I can't take it anymore with us not being together

I just realized  
How I feel about you now  
I love you and need you here by myside  
Please don't walk away and move on  
I was wrong about you  
Great things could happen  
Nobody gets me like you do  
I feel so stupid  
There is not going be another great guy like you  
There is a mountain between us, we can over come our fear and be together

I just realized  
How I feel about you now  
I love you, want you and noone else  
I bet is take another chance to make it happen  
So don't let all good times that won't happen come true  
We be happy and  
All our wishes and dream will come true  
There is no need to move on because  
You're the one  
You're everything that I ever want

I just realized  
How I feel about you now  
I love you and want you here with me  
When I'm sad  
You're the one  
Who can make me laugh and smile again  
At end I feel much better all because of you  
Baby you are only one who understand me  
There is nothing you can do to make me not love you anymore  
I'm always going be right by your side to the end

I just realized  
How I feel about you now  
I love you and want to be with you forever  
Please baby give me a second chance  
I wish I can take back that day  
I was dumb for letting you down  
I'm so sorry  
I can't go another day without you  
I can't take it anymore with us not being together

How I feel about you now

## How I Really Feel

I been hiding that I feel great and myself again, but  
The true is that I'm wreck and tangled inside  
I try to be strong and brave, but at end I'm not  
I been lying to myself all along  
No one can understand what I'm going through  
Only you can understand me well  
My eyes only see you  
My heart can't lie  
I still love you  
I'm so blind by love  
That I only think of you  
If I let you go, I just want to hold you again  
I try ever possible and nothing will work  
What am I supposed to say or do?  
Maybe I got wait and see  
This pain will never go away after all  
You are the first guy who got me in so much pain and  
Make me like this way  
I know there sign to give you up, but  
I don't see it or get it  
I just need one last talk, email, or call from you  
I can't get out of your world or  
Get you out of my mind  
How I really feel

Christina Phan

## **I Dream**

Every night as moon come out  
It' so late, I get tired and go sleep  
I dream  
About my past and you  
It could be good/ bad memories  
I don't mind  
Some are hilarious, stupid, crazy, anything else  
I dream  
It can be about anything I pictures  
I just need use my imagination  
One dream I have was that I was  
Living in a world where everything was made out of  
Food and drinks that is a fun world to live in  
I dream  
It place to relax my mind and  
Relief from long day  
I dream  
It can be scary, romantic, cool, or  
Fun or anything I want it to be  
It's a fantasy world to enjoy  
It can have meaning  
There something in your life that bothering you or  
What happen that day so you are dreaming about it  
I dream

## **I Give Up On Love**

Every time I want to love someone else  
It hurt so much because  
I promise myself that  
I wouldn't love anyone else, but you forever  
People think I'm fool for falling over you, but  
I know you are wonderful person  
I give up on love  
For now and I try and try, but at end I fall down  
My heart is turn into black stone  
Part of me is gone  
I feel like different person  
I'm just single lady for now  
Guys act so sweet to me  
Then at end they hurt me  
I can't take any of this anymore  
I give up on love  
For now  
I wish I can go back in time and fixed everything I done wrong  
So I won't feel like this, but it happen  
I won't act like it didn't happen  
I need to be strong  
I don't want to waste another minute with guys who going play with my heart and  
break it  
Why can I go for sweet guys?  
I'm being fool not to because of you baby  
I give up on love  
For now  
You make me so afraid and play on safe side  
So I stop getting hurt  
I give up on love

Christina Phan

## **I Hate Feeling Like This**

I thought this summer  
I can forget you, but the truth is that I can't  
I'm so weak  
It kept haunting me every day and night  
I hate feeling like this  
It hurt me too much  
I keep tearing my eyes out because  
I don't have you here to be with me and be happy with  
I keep telling my friends that I'm over you and all happy, but  
At end of day I go back loving you and crying over you  
This routine keep happen  
I hate lying to my friends and  
Say that I'm ok and fine when I'm not  
I feel so ashamed and guilty  
I can't help how I feel deep about you  
I hate feeling like this  
I eat junk foods to cheer me up  
I gain weight and I don't want to do any of this anymore  
I want to break this cycle  
I wish I talk with you again  
Maybe it will help me realized things  
Like their other guys and I need to let you go, but  
You are annoy me  
The only way I can get over you  
If I talk with you for the last time  
This is my entire fault how things turn out  
I was afraid to take risks  
He and I was from different group  
He is in popular group and I wasn't  
I was afraid his friends won't like me and  
How my friends will react and take us going out  
I never told him why  
I didn't say yes  
I just didn't want to hurt you anymore  
It's too late now  
I hate feeling like this  
All guilty, ashamed and alone  
I'm so dumb  
It going haunt me for rest of my life all because  
I didn't go out with you  
I hate feeling like this

Christina Phan

## **I Hate That I Love You**

Even though I keep crying over you and get hurt by you  
I just want to hold onto you forever  
You get to me with your sweet words  
When I'm hurt then next day I'm not  
I hate that I love you  
I can't leave you alone  
I just want to find ways to hear your voice  
I miss hearing it so much  
I miss the touch of your lips on mine lips  
Everything you do make me smile and  
I think about you all day and night  
See you are so important to me and you are the one  
I hate that I love you  
I can't move on because  
I promise I won't date anyone else  
I'm so addictive to you  
I hate that I love you  
I can't stop feeling like this  
You are poison ivy that I can't scratch away  
I'm just burning up for you  
My heart just keep wanting more and more from you  
I hate that I love you

Christina Phan

## **I Like to be Alone**

I like to be alone  
When I have a bad day/sad day  
I will go to my room and  
Listen to music, read a book, or do yoga  
It makes calm and forgets about my day  
I will be alright at end when this is all over  
So don't worry about me

I like to be alone when  
I have a crappy day or starting over with my life  
I will go outside, walk and listen to my iPod  
It makes me cool down, relax and feel good  
A little bit longer and I will be fine  
I know how to take care of myself

I like to be alone  
When someone break up with me  
I hang out with my friends have fun and talk  
I forget about you or don't think about you at all  
I'm not miserable and joyful again  
Friends stay and guys come and go

I like to be alone  
When something embarrassed happen  
I want to go home and hide at first, but  
It over before I know it  
It won't last long  
So don't let it get to you  
Every day is new day and what comes around, goes around

I like to be alone when  
I have a crappy day  
I will go outside and  
Walk and listen to my iPod  
It makes me cool down, relax and feel better  
A little bit longer and I will be fine  
I know how to take care of myself

I like to be alone  
When life is not good right now  
I will need my space to think  
So I'm not mad at you or anyone  
I just have so much to think about  
I have my ups and downs  
Just stop and take a breath, everything at end will be fine  
I like to be alone

Christina Phan

You get me so well

I miss you  
So much when you're not here with me  
I feel like, I have been left in the rain alone waiting for you to come to me  
You make me laugh when I'm sad or not in a good mood  
Being with you been such an exciting time of my life  
Now is all over

I miss you  
I can't stop thinking about you  
You probably going to feel the way when you don't see me anymore  
You are an amazing person that I ever meet  
Will things be the way it used to be or it won't?

I miss you when you're not here with me  
I feel like, I have been left in the rain alone waiting for you to come to me  
You make me laugh when not in a good mood  
Being with you been such an exciting time of my life  
Now is all over

I miss you when you somewhere else and  
Not here with me  
I feel so lonely without you here by my side  
What am I supposed to do without you?

I miss you  
When you are not here with me  
I hope one day to see you again  
I will be crying and hugging you tight

## **I Need to Forget You**

Every day I see you  
It hard for me because what you say  
I need to forget you  
I can't talk to other guys when you're in my mind  
Although the process is going take slow to get over you

Every day there you're  
It makes me so hard to live without you by my side because  
You're the guy that I'm looking for  
I need to forget you  
If you don't want me then I need to move on  
I realized that I should like someone who likes me for me

Every day the same thing happen  
Like we keep looking at each other  
So we need to stop and go our separate way  
I need to forget you  
I keep crying about how we're not together so I need to move on  
I will found someone who will want me and not care what I look like

Every day there you're  
It makes me so hard to live without you by my side because  
You're the guy that I'm looking for  
I need to forget you  
If you don't want me then I need to move on  
I realized that I should like someone who likes me for me

Every day I feel so alone because  
I'm not with you and need you so bad  
I always dream us with happy ending  
I need to forget you  
This is the real world not fairly tale  
I know I will found that guy  
So goodbye and I don't care about us being together anymore  
I need to forget you

Christina Phan

## **I Never Knew**

I never knew  
That I hurt your feelings  
When I never went out with you  
You knew that I love you  
You thought I was joking about how I felt for you, but I wasn't  
I just want to be with you only  
Baby its, surprising when you want to go out with me because  
I didn't expect guy like you to have feelings for me and want to be with me  
You want to give it chance to see if work  
I thought you were that guy who is like whatever I'm over it, but  
I guess I was wrong, you felt something and  
You have connection with me like I did with you  
We were perfect for each other  
No one get us like we do  
You did what you did because of that  
You were the one for me  
We were opposite and  
Opposite attract by longer we spend in classes together and  
Learn so much about each other  
It's an amazing feeling  
We were like fire and ice  
We never see eye to eye  
I remember how I love you  
Then I pretend like I didn't  
When I meet you again  
I start liking you all over again  
I never knew  
You mean so much to me until this day  
I never knew  
You could be the one to impact me and change me for who I'm  
You are the only person special to me after all  
It's hard to walk away from the one you love the most and  
Have deep connection with  
If I could have one wish  
Is for us to be together and give it chance  
To see if it was meant to be  
No one can take away the feeling I have about you and replace you  
That how good and wonderful person you are to me  
I never knew  
I miss that smile and laugh  
I make you miserable and make feel like you were nothing to me  
I don't want to go out with anyone, but you  
I blow it big time and losing you is like losing something value to you  
I was young and navigate  
I know what I did was wrong  
Is was what I have to do  
I know you been through a lot, but  
You weren't what I expect  
I can move on with my life  
I never knew

Christina Phan

## **I Never Knew All Along**

You are the guy I been searching for  
You like me for me  
You change me in good way  
I learn to eat healthy and exercise now  
What surprising is that we have the same interests  
We like same sport team, TV shows, smart, and athletic  
I just love being around you  
You have your good and bad moments  
The ways you are in class make me have good time  
You are different than any other guy I never met  
You are unique, special, and amazing person I ever met  
I understand things I was confused about  
You are one fit right in puzzle  
I'm glad I met you baby  
I never knew all along  
That you are the one  
I miss what was right in front of me  
I make excuses not to date you  
I was shy, nervous and scared  
I was afraid I say something stupid in front of you  
I been hurt and I thought you would do the same  
You didn't and you are the sweetest guy I ever met  
I was wrong about you and I'm sorry  
I never knew all along

Christina Phan

## **I Should Know Better**

I keep blaming you for what happen  
Is all my fault  
I keep pushing you away  
I hurt you baby  
I'm so heartless  
I don't know what was I thinking  
I should know better  
You were being so kind  
All I did is hurt you making you jealous  
I didn't care how you feel  
I was dumb for breaking your heart  
I hope one day you will forgive me  
I keep going back to you and get hurt  
I get you don't want me  
I should not get angry  
It's not your fault, it's mine  
Stop saying sorry because  
You didn't do anything wrong  
It was me who make your heart  
Breaking into million pieces like broke glass  
In the first place  
There other fish in sea  
I cry once in awhile  
I should know better  
I need to let you go and set you free  
Whatever happens between us was past  
I should stop try getting in contact with you  
It going make it harder to love other guys  
Now it time to go different direction  
I should just act like I never met you  
I need to make changes or else  
This is best for both of us  
I hope you can understand  
Time to close door on you and  
Open doors for someone else  
You didn't care and look back  
I should know better

Christina Phan

## **I Want You Back**

I want you back  
I made a mistake breaking up with you  
I realized that you were the right guy  
You make me laugh, smile, be myself, and have fun  
Please come back to me and give me another chance

I want you back  
You not like other guys  
I thought you not calling back, answer the phone, text and hanging with me  
Mean you don't want me anymore  
So that why I break up with you and I make a mistake for doing that

I want you back  
When I got another boyfriend  
I keep thinking about you  
Everywhere I go with my new boyfriend, it  
Remind me of all good times we have together

I want you back  
I made a mistake breaking up with you  
I realized that you were the right guy  
You make me laugh, smile, be myself, and have fun  
Please come back to me and give me another chance

I want you back  
We are perfect together  
You make me feel special and keep me going  
Even when you are jerk sometimes  
I still love you  
I want you back

## **I Will be Around**

When you're embraced  
I will be around  
When you think you're down or  
When you think time is running out  
I will be there to help you

When something happen to you  
I will be around  
When you think you have given up, but shouldn't because  
You should keep trying

When people make fun of you  
I will be around  
To defend you  
You have a great friend and that's me  
You shouldn't worry because I'm here for you anytime you need me

When you think is all over  
I will be around  
I won't let you done  
You can always come to me  
I care about you and I don't want to worry about you

When you're embraced  
I will be around  
When you think you're down or  
When you think time is running out  
I will be there to help you

When life is going wrong  
I will be around  
To help you fixed it  
Don't be down  
When you know you have me to help you get back on your feet  
I will be around

Christina Phan

## **I Will Never Forget You**

When I went to same school with you at  
Point Saint Lucie High School  
It was fun being in same class with you and became friends  
Although we barely talk alot, but  
You're so amazing and nice  
I still miss you  
I will never forget you  
When I left that school

When things that bring back memories about you  
I feel sad and want to cry  
I just want to see you again and  
Say I'm so sorry for what I did to make us not friend anymore  
You make me very happy on the Valentines Day and  
I got wrong signals that you like me and you did it because I was your friend or  
something else  
I will never forget you  
You are the guy will never be mean to me

When I listen to my favorite songs and it  
Bring back memories about you and  
It's hard to forget you  
No matter what do to try to move on and  
Accept you like a friend  
I can't and want you to be my boyfriend and I can't force you to  
I will never forget you  
Good times I have with you

I will always feel sad no matter what when I heard your name or sad song that remind  
me of you  
Although we are in different city  
Is just that apart of me is still over there and  
Part of me is still over there and  
Part of me is just missing you too much and  
I'm sorry what I did or say that make you not talk to me  
I will never forget you  
Your kindness and smile

When this feeling happen  
I just want to be by myself to think this over or talk to someone  
I also realized to move on and  
I can't do anything about this and  
Force you to be with me  
Please give me another chance to improve that I can be a better friend  
I never forget you  
I promise I won't get jealous and I hope we can be friend again and forever  
I will never forget you

## **I'm hopeless**

I feel like i'm trap in  
Dark and  
I can't get out  
I'm lost and  
by myself in  
A corner  
I'm in a  
room with  
No light  
I did everything wrong  
I feel like everyone getting  
Back at me,  
But others their not  
I feel this cloud over my head  
Raining down hard on me  
I feel like it won't go away  
Until I fixed it  
I'm hopeless  
Also I feel like I can't get out and  
World come in and closing in  
I ruden everything  
My head is mess up  
So confused  
I'm hopeless and  
I want to go back out there and  
Get my life back together and  
Make everything right  
With little help  
I'm hopeless

Christina Phan

## **I'm Moving On**

Baby, I have felt so torn  
I felt like I wasn't myself anymore  
I wish we were together  
Day after day  
I try everything to get you to be with me  
You just avoiding me  
I understand why  
You have the right too  
I hurt you so much  
I realized at that moment  
I'm moving on  
Delete all your pictures  
Burning up all ur stuff  
Getting you out my head  
Getting you out my heart  
So I can get on with my life  
Once I saw your pictures again  
I finally decide its best for me  
To find someone else  
I just need to leave you alone and  
There is someone out there for me  
I give all my strength for you  
I just felt weak when it came to you  
I just want to stop feeling like this and  
I'm moving on  
To be me again  
To be happy again  
To be live my life again  
To be free from you  
I'm moving on

Christina Phan

## **Is This Meant to be?**

Now we are together  
Is this meant to be?  
That we are right next to each other and  
Talking, laughing, kissing and hugging  
Two worlds come together

Now we are together  
Is this meant to be?  
That faith brought us together  
Now we don't have to hide our feelings from each other anymore  
We have each other now

Now we are together  
Is this meant to be?  
That out every guy is you  
Are you that guy in my dream that I picture?  
Are you my other half?

Now we are together  
Is this meant to be?  
That we are right next each other  
Holding hands, smile, have a great time and laughing  
Two worlds come together

Now we are together  
Is this meant to be?  
That I finally got what I want and is you  
I been waiting all my life for someone and  
Is you I been looking for?

Now we are together  
Is this meant to be?  
Yes it's and now my dream come true and  
Now I can be happy and be with you  
Is this meant to be?

## **It's Time Now**

I have to give up on you  
I need to stop filling my mind up with you 24/7  
I got hint and what people try to tell me  
It's time now  
To move on and I have too no matter  
How much I don't want too  
Time to closed chapter on you and  
Open to other chapter for other guys  
You were my favorite guy  
Like recipe that I enjoying cooking and  
Energy that I need instead of food  
You were highlight to my day  
You make me looking forward to that class,  
See you everyday and I have butterflys when I saw you and  
I'm speechless around you  
I can't find right words to say too you  
All I want to do was pay attention to you,  
Smiling and laugh  
Thanks for everything  
That is why I love you  
You were sun that shine on me, you give me chance, and  
Enjoying be around you  
Now is all over and you are gone  
Even if you not here  
All I do is think about you and  
At that moment when I'm thinking  
About this all that  
I learned that I'm living in past and not in future  
It's time now  
I have other good things to looking forward too  
We didn't work out  
It never meant to happen no matter how much we try  
I will cherish moments we have deep in my heart  
There other guys I can love and  
Be like cherry on top of my ice cream  
I'm happy and cheerful person  
After this journey and challenges  
I had to go through  
It's time now

## **Jonas Brothers**

Jonas Brothers  
Are my hero  
And my inspiration  
To chase my dreams and  
Do my very best at it  
I listen to their songs  
When I'm in bad mood  
They are one my ultimate  
Favorite band  
Everything they done is  
Been amazing  
I hope they don't stop doing  
What they love to do  
They are so cute, talent, and awesome  
I love their concerts, albums, style, etc  
It's always something different and excited  
Every time they are on stage  
They put their heart, soul and voice  
To be out there  
At end they are just fantastic and  
Rocking out good  
I will thank them one day  
For all they done like the impact  
They have on me  
Jonas Brothers

## Joy

Joy  
Is happiness  
In people or  
Having time of your life  
Without anyone getting  
In your way  
You have the power  
To go any where you want  
Or do anything you want  
Noone is going say  
I can't go or do that  
Is my life and my decision  
You need to trust me  
I been fine  
I'm old to  
Know to do the right thing  
I just want to have fun  
I'm young and there things  
I want to do that I won't get to do  
If you don't let go  
Can you see  
That I'm stress out  
From people pulling me  
In different direction  
Everyone want me  
It just giving me headache and  
I'm so tired  
I did so much work  
Its time for some fun  
I just need vacation  
To let it all out  
And feel stress free  
I'm so excited  
That all this  
Amazing things happen  
I be fine again  
When I'm me again,  
Stress free and  
Joy

## Kindness

Kindness  
Is something I born with  
I can't help but being  
Nice to everyone  
I can't say no  
When someone ask me  
For something  
I hate it to make them sad  
They be annoying  
If I don't give them what they want  
It's ok, just get it over with  
I just want them happy and  
I know I can't pleasures  
Everyone, but I try any way  
I don't tell them how I feel  
Because I rather not  
I'm fine with this  
Noone can't change me  
And try make me bad  
Because this is me  
Kindness  
I never heard from you  
Baby, you're so cruel  
I treat you right  
And this is what I get  
I don't understand  
You think I did  
Something wrong or  
Cheated on you  
I will never do that  
I'm not that kind of person  
Who be like that  
Tell me why  
You acting way you are now  
I can improve  
I will listen and help you in  
Best way I can  
Can you just be  
Nice for once  
I won't change who I'm  
This is real me  
I want to treat people  
With respect and  
Sometimes I get it and  
Other times I dont get it  
It's ok, it not going bring me down  
I'm strong enough not to care what other say  
I be me and I love me for me  
Kindness

## **Kiss**

First time to

Kiss

Is nerve wrecking so don't sweat

You just need to be calm and relax

You get more chances to do it again

You don't have to go all out to make it perfect

Just simple is fine

If you never expericence it

It's ok

Not everyone done it yet

You're not alone

You do it when it right

No one can make you do it

You can feel it and that moment when you are ready

Kiss

Is so romatic and feels so right

You want it to last and for the day to never end

You want to be with that person

You give that person key to your heart and hope that person

Keep it forever and ever

I hope to found someone special

I just want to kiss him and watch beautiful stars

I want to stay there all night in his arms and

Kiss

## **Last Straw**

I thought telling you how I feel, will change things between us, but it didn't  
You don't get what I am saying at all  
It's like I'm speaking another language  
I'm done wasting my breath on you  
We all make mistakes, but you never learn from your  
If you can't treat me right, someone else will  
Fool me once, twice, and three times, I must be stupid  
Can you see all signs I given you?  
I want to date you, but I guess you don't  
At this point it's the  
Last straw  
You keep breaking my heart was too much  
I just left the house crying in my sleeve  
You came chasing me  
I just went home  
The day before my graduation you came  
I hide from you and watching you leave and that was the last time I saw you  
It was the  
Last straw  
I'm not forgiving you and feeling pity anymore  
You were immature and don't deserves someone like me  
I hope you ache and realized what you been missing  
Between you and I, it's the  
Last straw

Christina Phan

## Last Talk

This is about guy I need to talk too and just figure if i should move on or not. I just cant do this anymore. I feeling guilty and want too know the truth. Sometimes we need to face it and just move on with our life

We can't act like nothing happen  
Last year and hide it  
Gravity will caught up too you  
I wish we can meet each other  
Somewhere private  
I know you think I'm annoy  
But this  
Last talk  
Will help us get through this  
I know you mad  
But  
I have my reasons  
When we see each other  
It be silence and quiet for a moment  
I'm hoping for this too happen  
This way for me to deal with this  
I feel like I need to know  
How you feel and what's up  
With you  
I know this going be hard  
But this one  
Last talk  
Before we will never speak of this again  
We need to let it all out  
And expressed how we feel  
At end of this  
Last talk  
We will be relief, not guilty, and  
Happy not to hide this anymore  
Last talk

## Leave The Past And Moving On With The Future

What does it means to  
Leave the past, and moving on with future?  
It means you have to just let it go  
Even it going hurt and feel so much in pain  
You have other things looking forward too  
If you love something so much  
It will come back to you  
It does it meant to be and  
If don't then just move on  
I have finally learn my mistakes after  
Yesterday and it's was perfect day off  
I want to find me again  
I changes so much just to fit in  
That's not like me  
Time to figure out what I really want  
What does it means to  
Leave the past and moving on with future?  
It means that this is now and your chances  
To do what you been waiting for  
Time is running out  
So make your choices right  
No time for playing around and fail  
Well if you don't care then do whatever you want  
If you don't want to listen what I say  
I do and there something I dream to do and  
I'm working hard and achieve it  
No going back and forth in path  
No going back and forth in past to future  
I'm stop acting like I'm scared  
I'm not and now this is my time  
I'm not regret anything anymore  
I don't want be like this  
I need to think before I say something or do it  
Past is not something I need think about  
I need to think about future that I'm waiting for to happen  
This is me and I finally understand what I didn't before  
It's all right in front of me and I need to grab it and hold onto it  
Future is waiting for me and I'm moving forward  
Leave the past and moving on with future

## Letting You Down Baby

You mean so much to me and  
Letting you down baby  
Is the biggest mistake that I made in my life  
I could have everything I picture with you baby  
I ruin the one chance I have  
I heard you move on  
This pain is killing on inside  
Now you get back what all I done to make you hurt  
You have right to do it  
Now look how my life is in school  
It's rude and sad year of my life  
I change into person that I didn't want to be  
I feel so trap in this black hole and all alone  
You mean so much to me  
I lie to my friends about you  
You were great and caring guy  
I'm truly sorry  
You never meant to hurt me  
I hope you can forgive me one day  
Letting you down baby  
Hurt so much and regretful  
I finally realized it now  
I wish that I was honest to you  
Lying was wrong  
I did this to me and not you  
I blame on you and everyone else  
I need to learn make my own choices and  
Make a decision what I want and not what other people want  
I could got guy who made me who I am and happy girl  
Letting you down baby

## Life

I have been through alot these past years  
It was tough and challenge along the way  
I think that's how  
Life  
Going be for you one day or  
You already going through it  
Whatever choices you make  
Sure it right one  
It don't happen over night  
Just take your time and think through it  
It been rollercoaster for me  
I'm letting my fears get in my way  
I need to figure something out about my  
Life  
I don't know what yet  
I'm still lost and confused  
I'm on a path that I keep going back and forth  
To wrong places, people and you  
I feel like  
Life  
Is over for me because  
I don't learn my mistake after mistakes  
I become someone I don't like  
I miss being this girl and now I don't know who she is  
Life  
Have alot of bumps in road and  
Have friends there to help you along way  
My head is spinning  
Whatever come in your way  
Be ready and prepared for tough times  
Just hold on and be strong  
Life  
Is reality and not fanasty you  
Dream about that will happen  
Wake up and realized this is real world  
Time to face no matter what  
You can do it and so do I  
You can't always get what you want in  
Life

## Life Mean To Me Is

Life mean to me is  
Full of surprised that is good or bad surprised  
It can be tough or easy  
Choices it should be what you think  
Don't reply on people  
It should be what you want not them  
Don't listen or care  
Like I do  
Whatever people say out loud  
Don't care and annoy them  
It's so stupid and dumb  
I know you will make right one  
We all have time when we mistake  
That we wish we haven't and take back, but  
You can't because it happen when  
You didn't do anything about it  
On the hand you able to fix it  
Life mean to me is  
Going complaining but  
I can overcome it and everything be ok  
I'm losing everyone that I care and love  
I feel they give up on me  
They act like they care and be nice to me  
What joke and I don't believe any of it anymore  
I be alright again like now  
I feel horrible at time  
It opens my eyes and makes me think  
This is real life and I need to stop complaining  
About problem that is gone over and over  
I need stop acting like I'm now  
I don't care what they think of me  
I don't need to waste my energy on this people, whatever  
I have done it bad so I'm changing my way  
I'm going be ok  
Every day is not getting easy  
I'm not going let it stop me  
I let it turn out this way all because of you  
I lost most important thing and is you and  
You are one who turn my life  
Upside down and I was fool for falling over you in first place  
I changes so much  
I take it on people and I didn't mean too  
Too know it now than late is good  
I'm going to start over and it's going to take time  
This summer I learned a lot about life and people  
I got part of me need to grow up  
Right now it in my hand and time to reach for goal  
Be who I am  
What life means to me is  
Start doing it right  
I need to improve myself  
Show people that I can change

I don't want to be like this anymore  
Is hard enough already  
I didn't mean to let it happen this way and  
I wish it didn't and I'm truly sorry to one I hurt  
I hope one day everyone can forgive me for what I done  
Don't be hard on yourself  
Everything will fine and never give up on you  
I have faith in you  
Enjoy life while you have chance  
Don't be so stress out  
Take a break and have fun  
I finally understand stuff I didn't get before  
I know I can't make every one like me  
That how life is in this world  
You can't undo what happen already  
No matter how much you wish for it  
You need to start fresh and over again  
Life mean to me is

## Love Struck

When I walk into your life  
I didn't expect all this  
Great things can happen  
Baby, I feel like you  
Hit me with  
Lighting  
or  
What I like called it  
Love struck  
When I hear your name  
I can't walk away  
I can't help it  
You are the one  
I want to be with  
As long I'm happy  
And with someone  
Who I can see  
I want to be forever  
And ever  
I can be me when  
I around you  
I can put a smile  
Back on  
Because of you  
I can feel like  
When I'm with you  
I know I won't get hurt  
You are different  
You treat me right  
Most important to me is that you  
Love me for me  
You just like magnet  
That you pulled me  
Toward you and  
I can't never get  
Out of  
I don't care  
I want to hold on  
To you  
Ohhhh baby  
I love you  
You hit me with  
Lighting or  
What I like called it  
Love struck

## Lovesick

I think about you  
24 hours a day and  
7 days a week  
Someone called doctor  
I'm  
Lovesick  
I make an accuse not to have fun  
And have hang out with my friends  
I'm feeling  
Lovesick  
When it's come to you  
My crush  
You make so attractive to you  
I can't let you go  
This feeling I'm having it's so amazing  
I'm feeling  
Lovesick  
When I walk up to you  
And say something but  
I can't because I'm speechless  
When you kiss me on cheek  
It feel so right  
When you ask me to go somewhere  
With you, I say yes  
But at last minute  
I made an accuse  
Not to go  
Because I don't want to  
Ruden my chances to be your girlfriend  
One day I hope  
You'll see how I feel  
I'm feeling  
Lovesick

## **Magic**

I don't want you to disappear  
Baby you kept me up in the air  
The way you do  
Magic  
It's fanastic  
I never met anyone who do this  
Awesome trick  
My favorite was when you  
Turn newspaper into flowers  
And give them to me  
I feel like I'm flying  
Because of you  
I get jealous when another girl  
Help you out on stage  
I will come every day just to see  
You do your  
Magic  
So kept doing your thing  
I love the way you look up there  
I love when you make rabbit appear  
Out of your hat  
Thier so cute  
Please don't disappear  
Show me what you got  
I will lost my mind  
If I have to leave there  
And I can't ever come back  
My favorite thing out of whole show was  
When you make that girl flow in the air  
Wow, you just have talent  
Kept it up  
Magic

## Memories Of Us

First time I meet you was back in December and it was evening  
You want me to come to you, but I was shy so you came to me  
I remembered I was so cold and just couldn't say one word  
When we talk I didn't want it to end  
I could listen to you talk on and on  
You know how to carry on conversation  
Craziest thing happen was when we was in same class in January  
I found out we lived in same neighbor and ride the same bus  
I just couldn't be any more jubilant  
Memories of us  
Was crazy, fun, excited and adventures  
I hate when you have to leave  
I hate all those pointless fights  
I love it when you called my name from far away  
I love it when you get so jealous  
Memories of us  
Back when we use to hang out every weekend  
I look forward to see you  
You surprised me when you come  
I remembered all laugh, fun, our ups and downs and being with each other  
Good Friday come and you came to my house knocking on my window  
At the middle of the night, I thought it was romantic  
We just can't get enough of each other  
I don't know what else you could do  
Keep it coming baby  
I loving you every minute I spend with you  
I remember when you left and you put on music and your car go boom, boom away  
I love it and you were dancing  
I found out about you that you are most honest, speak your mind,  
Caring, nice and fantastic guy  
Memories of us  
Will never be forgotten by me

## **My Happiness is Back**

After all this pain and cry  
I can finally smile again  
This is brand new me  
My happiness is back  
Thanks to a friend  
I just need talk to someone and  
Think about this through  
That person make me realized something  
Is that I'm young and got alot going for me  
My friend understand me and know how I feel  
My friend cheer me up  
Everyone I know and love was happy that  
My happiness is back  
I learn so much, feel so free and alive  
I can see light at end of tunnel  
I feel like a micrale happen  
It's all thanks to an angel and God  
It been awhile since I was like this  
I thought I never smile, but I am  
My happeiness is back

## **My Happy Ending**

I been wishing on a star that  
I would found someone special  
That day finally come and I found you  
As I get to know you  
There were a lot of problems  
You don't listen to your heart  
You relied on your friends to help you  
They don't know me  
So bad for  
My happy ending  
Is now over  
You never give me a chance to see  
Who I am really on inside and as a person  
Instead you believe what other people say first  
They don't even know me  
You are just blind not to see who I truly am  
I'm leaving you and not talking to you anymore  
My happy end

## My Life

My life  
Can be challenged and difficult  
We all that bad and good days  
I can't give up on myself because  
It's not going good or my way  
I shouldn't let anyone make my choices  
I'm not going to listen to them  
All of it is nonsense and they're waste of time to me  
It my decision that going happen in  
My life  
There is no time to lose  
Life is too short to do that  
You don't realized it until something tragedy happen  
I'm sick and tired of sitting at home and doing nothing all day  
Staring at clock won't make it go by fast  
Time to go out there and achieve my dreams  
That what I'm here for  
As well have fun like partying  
Wohooo come on this  
My life  
I'm going live this way  
I will chill and enjoy the summer  
I want to try new adventures and new things  
I want to see what I'm good and not good at  
I have no time to waste  
I want to travel and see whole world  
Anything is possible is you just believe it  
Hey who can't blame me  
This is  
My life  
Not your  
So live it to fullest and what's going to happen is up to me  
I'm 18 years old  
It's laid in my hand  
There is going to be time when I'm down,  
Other time I be all happy and good mood  
There is nothing going stop me and going bring me down because they are jerk  
Nothing to worry about them, but me  
I have no regrets, now I finally forget the pasts and memories of you for good  
I feel so good again  
Summer has changes me and  
My life  
If you need me I'm not here right now  
I'm out having good time  
Seven days a week  
I'm going live this way and is  
My life  
Times where I'm going to lose and win  
Is ok I'm fine with it  
I go with flow  
Is rocking right now and good life I have now  
My life

## **My Sister and I**

Every day is been fun  
My sister and I  
Got to know each other even more  
We fight and argue, but we love each other no matter what happen  
We hug each other when one is crying  
We make each other feel better, comfort one another and also talk  
My sister and I  
Understand each other so well  
We will always have each other back  
We are like best friends  
We hang out and have fun  
We sometimes are nice and mean to each other  
Most of time we can get on each other nerves, but  
No matter what happen or what we say to each other  
We always forgive each other and love one another  
My sister and I

Part of me is missing and it's you  
You have your way get to me and make me hold onto you

## **Never Frown, Even When You're Sad Because You Never Know Who May be Falling in Love With Your Smile**

Never frown, when you're sad because you never know who may be falling in love with your smile

Deep inside you know there is someone special to be with  
Never change yourself just for guy/girl because there is other fish in the sea  
You don't need a boyfriend/girlfriend to be happy because  
You have your friends and family  
You can be single and happy on your own  
When you are single you learned thing you never knew before about yourself  
You can be brave and try not to think about it  
There are good things about being single or being in love  
Don't obsession with a guy/girl who break your heart and just move on  
Their other people to be with

Never frown, even when you are sad because you never know who may be falling in love with your smile

You are great person and there is someone for you and everyone else too  
We all dervese someone special to be with  
Never make yourself look cuter just for one guy/girl because  
You know better than that and should just love yourself  
You know that someone do love you for who you are  
On the other hand, some of us don't need someone to be with because  
They have thier friends and family  
You can enjoy your life and be happier than before  
Right now I am single and  
I see what people gone through and I'm not ready for that  
I know love is not perfect, but I have a lot of rejection and I'm enjoying all of this  
I just want to get take it easy, relax and have fun

Never frown, even when you are sad because you never know who may be falling in love with your smile

You know that you can found someone or they come to you  
Don't wait, just take chances and just be crazy for once  
Remember there is always other fish in the sea and not just that person who break your heart  
You don't need a boyfriend/girfriend to be happy because  
You have your friends and family  
I know I will miss out on all great things, but  
I'm tired of bringing my hopes up  
I'm done, being single for now and it tragedy at end  
There other things can make me happier than ever  
There are good things about being single or being in love  
Don't obsession with someone who don't love you  
Just remeber the good times you have with them

Never frown, even when you are sad because you never know who may be falling in love with your smile

You are great person and  
There is someone for you and everyone else too  
We all dervese someone special to be with

## **New Jersey**

I live there for 11 years  
I miss it so much  
I just want let my tears out and sing a song about my hometown  
I was mad to moved where I live now  
I just want to go home to  
New Jersey  
I miss the snow, boardwalk, the family, and everything I love about  
New Jersey  
Is part of my life I can't let go  
All the memories whether its good or bad  
I love when the seasons change  
It's so beautiful and place to be  
The places, food, and schools  
I just want to go home to  
New Jersey  
I want be me again  
I miss all time and memories  
Coming down here was not good idea  
I belong there and I hope to visit there again  
New Jersey

## **Nobody Going Tell Me**

Nobody going tell me  
What to do or say  
I'm strong and independence person  
I can turn whatever I want up as loud I want to  
Nobody going tell me  
Who I'm because that's up to me to decide  
This is me  
You have to learn to accept it  
I'm just a teenager  
I just want to have a great time and not stress out  
If I want to go to party or football games I'm going to go  
This is great things I'm going to miss out on  
If I don't go  
You need to trust me  
I be safe and I'm enough to know what is  
Difference between right and wrong  
Nobody going tell me  
It's my decision and future  
To do what I want in life  
If I need help I will come to you  
I will listen to you and do what you want me not to do  
Only if there good reason and important  
I will make the best choice  
If I don't I will learn from my mistakes and  
Just don't be over protective of me  
Nobody going tell me  
What I can't or can eat  
I'm adult now  
It's my health and body  
So don't worry too much  
I'm responsibility person  
I'm not person who make you mad or not believe in me anymore  
You taught everything I need to know  
Now I have to leave and start my life  
Thank you for all you do for me  
Nobody going tell me

Christina Phan

## Obsession

I was so  
Obsession  
With you in a mental way  
Nothing else was important  
I was losing it and feel like world was ending  
I was not eating or drinking  
I feel everything I did was my fault  
I was so depression that I couldn't snap out of it  
No matter how much I try to talk to someone and letting it out  
I couldn't let go  
I thought I have to had him in my life, but  
Then someone told me this quote:  
'Let Go, Let God, ' means everything happen for reason  
It took one day at a time  
I stop worrying, and stress about every little thing  
I did something I love the most and that was going to culinary school  
Everything start to fit in the puzzles  
I go to believe in myself more and knowing I'm capable of doing anything  
I don't need to stop reply that mistakes in my head or wish this happen or that  
Instead I learn from it and not run away from it anymore  
I'm done being  
Obsession  
With you for good

## **Online Relationships/or Friends**

You can't meet anymore so you decided to go on  
Where you meet new people, but it's hard to have relationships  
Long distance it's hard because I went through it couple times  
You can call, text, video chat, email  
Unless you luck you meet them  
Which is not good idea because  
That person might be someone else, but  
It's up to you what to do  
It end really quick before you know it

Making friends online  
It's good way to know people from all over the world  
You talk, / and get advices  
You guys exchanges pictures, phone number, email, yahoo/myspace id or  
Whatever it might be  
Some of us don't be ourself because you scared and lie  
Bad things can happen  
If you are not careful  
Then couple days later  
No more talking  
They just leave you in rain and go make other friends

So having either  
Online relationships/or friends  
Can be easy or hard  
Depend on who you talking too  
Sometimes there is moutain that keep us from being friends/or being together  
It's like rollercoaster  
The last thing you have is  
Online relationships/or friends

## **Our Journey**

Our journey  
Been lots of bump in road  
We can't do anything right because of each other  
Everyone is blaming us  
They are tiring of us complaining about each other  
They just don't act like they do  
It wasn't time that got in our way  
It was you and me  
I finally understand  
Our journey  
We try to work things out but,  
No matter how hard we try it don't work  
So we need to just stop and forget each other  
We need stop making each other jealous  
When we know that we are going to end up hurting the one we love  
It's not worth anymore  
We are not destiny for each other  
There plenty other people in this world beside each other  
We just need to take it slow  
Even though we might think about each other one day, well we shouldn't  
There is nothing left to do  
I'm through with this for good  
We need to move on in separate direction  
Our journey

## **Outsider**

Noone want to hang with me because I was an Asian  
They laugh at me and laugh behind my back  
I feel like an  
Outsider  
Everything was bad  
Nothing going to change  
I was so sad and hurt  
They don't even know me and never give me chance  
I feel like an  
Outsider  
What can I do?  
They keep gossip about me and giving me dirty looks  
Before it was hard to have friends  
Now it's ok  
Everyone accept me for who I am and didn't judge me anymore  
I'm not only lonely girl anymore  
Everything turn around and I'm happy  
Outsider

Christina Phan

## **Pain**

All the

Pain

You did to me make my heart shatter too much

I can never focus because of you

I need to go back in the game, be strong and brave

Knowing my heart been broken when I go sleep

When I wake up I'm happy

This is longest I been away from you

Pain

Is all you did to me

You promise you won't

Why do you have to be so mean?

What have I done to you?

Wake up and smell the coffee

You are the one who make me like this

Pain

Is the worst feeling we all deal with in our life

I will never go up to your level and hurt you like you did to me

I don't deserve this

Pain

I'm feeling it all over my body

I'm shutting the door and going away from you

I'm not dealing with this anymore

What did you expect to get out of this?

Pain

Christina Phan

## **Please Understand Me**

You need to believe what I say it's true  
There are things I can't tell you  
It's personal to me so  
Please understand me  
Can you try to listen to me?  
When I say that I'm not leaving you and kicking you out of my life  
I will come to you when I have problems  
I know that I'm your only friend, but  
There are other people I can go for help too and not just you  
Trust me that I'm here for you and share secrets  
I want you to here  
Please understand me  
Don't get mad and hurt  
When I told you the good news that I have boyfriend  
I don't tell you everything that happens between us,  
How we got together and everything you want to know about him  
You have to respect my private and  
I can't tell you because I keep my promise to my boyfriend so  
Please understand me

## Prom

Last night and great moments  
For us seniors to go to  
Prom  
We going have time of our life  
Last time we to have fun with each other  
In this special night  
One last time to dress up, good nice and  
Have a good time with each other like this  
Get music started  
So I can dance  
Let's eat and drink from all dancing we all did  
I need a break and get back to dancing afterward  
Taking pictures, eat dinner, staying out all night and being at  
Prom  
Is just amazing feeling and there is no words to describe it  
It doesn't matter what I ride to get to  
Prom  
As long I am there with friends and enjoying my time  
Tonight we can show what we got  
I'm not going care, worry and just dance like I mean it  
Let get this night going until midnight  
Don't let music stop, keep it going  
We will look back on our  
Prom  
Night and look at memories we have  
We didn't regret it and glad we went and also didn't miss fun  
This is very important night for you and me  
I can't believe I was there and I glad I went  
I will never forget it and I was smiling like I never did before  
Even thought I wish I was with you baby dancing  
This was such a blast time I have at  
Prom

## **Pushing Me Away**

We been friends for 4 years  
We have our laughs, jokes, fun, ect  
I start liking you and I heard you like me too, but you  
Pushing me away  
You're scared of committed  
If you think I'm Mrs. Right  
Then take chances and if you don't you will never know  
You just don't want to rude our friendship if this doesn't work out  
Pushing me away  
Tell me what's going on  
Just give me chance and go out with me  
You will not regret this  
If you don't and you keep wondering what will happen  
I been there  
Pushing me away  
It will hurt you in long way  
So baby don't be scared and give us try  
You will make me happier then ever, but  
Instead you date other girls and see if you want to be with me yet  
You think I'm scared of committed when is you  
We keep argue about this over and over  
Can you just date me already and not  
Pushing me away  
Don't let this chance go away  
Pushing me away

## **Running To You**

My life is falling to pieces  
It turning upside down  
I'm running away from my past and forgetting it  
Running to you  
For help and save me from this broken road  
Take me back home  
You're my hero  
I do anything to get out of here  
I'm sick and tired of same routine  
Days going on and past me by  
Running to you  
For fun and wild time of my life  
I'm just looking for a good time with you  
Running from here, my problems, and everyone  
Running to you

## **School Is Out**

School is out  
No more getting up early  
Just having fun  
No more annoy teachers and homework  
Summer is here

School is out  
Come on and scream with me  
I just want to chill out and relax  
After long year of school and hardwork  
Summer is here

School is out  
I can do what ever I want  
Staying up late, having party/sleepover  
I can be crazy and loud if I want and noone can stop me  
Summer is here

School is out  
No more lectures from teachers  
No more rules or detetion  
Hanging with my friends  
Going to beach and having all fun I can  
Summer is here

School is out  
Wohooo, yea  
All I want to do is scream and dance  
No more never end work and annoy people  
It's all about fun in the sun  
Summer is here

School is out  
No more getting up early  
Just having fun  
No more annoy teachers and homework  
Summer is here  
School is out

## **Second Chance**

Sometimes we do something without thinking and it turns out bad  
One mistake can ruin your life  
Unless you get  
Second chance  
To see the person you love in same class with you again  
You feel it's your time to make it right  
It never too late to do it  
You get that feeling you felt before and it all coming back  
You can't talk to that person again and stop looking at that person  
You feel all butterflies coming back too  
You feel nervous and feel that person is right for you  
Second chance  
To show that you still care for that person and want to be with that person  
If she or he still have feelings for you, you hope and pray it work out  
You finally got that person you want and if that  
Second chance  
Doesn't work out then it never meant to be after all  
You have to move on  
Second Chance

## Senior Year

High school life is not forever  
It has to be enjoyed however  
All happy moments under one shed  
No idea how future will be led  
It is going to be sad and emotional  
This is going to be very natural  
The happy moments may emerge on memory lane  
We may be going away from school by land or plane  
We need to adjust with new challenges  
We are not sure whether will be able to manage  
It has to be shared on larger platform  
We need to go alone and warm  
We can't roam freely and run around  
Something new has to be found  
It may not look sound  
We got to adhere to and are bound  
We need worry a lot  
We have learn and simply may not be caught  
The life had been nice and full of ups and down  
It was best even known in the town  
We will be permanently separated  
The incident will always be related  
We may enjoy when slightly occur in mind  
The joy will always be there to find  
The road is wide open to march on  
Many hurdles to be crossed over and won  
New adventure to be explored and exploited  
Not a single second is to be waited  
I had bright yesterday  
Tomorrow may provide me fine way  
It will give new prosperous opportunity  
Life may go on with its continuity  
We will set in new big world  
The relation may develop very hot and cold  
We will stand fast and remain bold  
We shall bar the sufferings untold  
We will go out from school as seniors  
Our place may be taken over by juniors  
No one may be called inferior or superior  
Everybody has proved good fighter and warrior

## Since You Been Gone

Since you been gone  
I change and rearrangement into a girl I don't know anymore  
Nothing is same and I think was point of life?  
If I can't have one more chance  
To show you that if we overcome everything by love we have and  
What we have was special if you just believe in it  
Like I do, well it's too late for me and its ok with me because  
I'm happy and blocking out negative in my life  
I can't trust anymore  
I just keep it a secret like I never did before, who is this girl?  
I can't date and try to rebound  
I try to move on to another guy beside you  
I just can't open up like I did to you because you were my only one  
I didn't worry and know it was right  
Since you been gone  
I feel like wind just sucks out of me  
I should have done something, but  
There is nothing to do, the result is the worst  
Like always and it not getting better  
I give up on this stupid drama we keep having  
I feel like is not even same  
I love you too much and can't take you leaving, but  
I let you go already and is over now  
Brand new me  
Life is different  
New Journey to begin again  
Destiny brought us together, but then  
Tragedy is what brought us to the end and now  
This is what brought us to the end and now  
This is the result of what happen and I'm happy it did  
I can let you fly away and be happy  
Smiling on my face is back and this what I need it and it happen  
Since you been gone  
I learn, try to fixed my mistakes and mature person  
I don't care about other people's opinion, gossip or what they say because  
It's all joke to me  
Wow like I care in world to waste time on them  
Please get real here, you think I will be sad, all crying, well I'm not  
I'm smart and don't even bother caring about it one bit  
I'm just joyful person and nothing stops me from being it  
It's true I'm becoming stronger  
One thing I miss the most is you  
Since you been gone  
I never told truth about dating you  
I'm afraid about what people think of us  
I never care what I want and what will make me happy and  
Is you all along and you are reason  
I trust, love, hurt, happy, smile and sad  
You open me so much to the world that I never knew  
You are reason I'm like this and feel the way I do  
That's why I keep coming back for more  
That's why I love you

You not like any guy I will never meet again  
You are the only one can be like that to me that I would actually care  
If other guy do it's all pointless  
You were one I really have connection with  
I don't care what people say  
I was afraid for this relationship to happen like I never did  
Before with other guys I like or date  
You are good different  
Since you been gone  
I know reason why  
I need let kite go with cut of string  
Let you go fly and bye forever  
Since you been gone

## Space

I just need time and  
Space  
These couple months have me thinking and my head had been spinning  
You left without saying anything it kills me on inside  
I just feel abandon and lonely  
What did I do to deserve this?  
Everywhere I go I swear I see your face or your car driving by  
I been on emotional rollercoaster with you  
This been a difficult relationship I ever had with someone  
I can't enjoy life and have fun like I used to  
I'm trying to build my life back together one day at a time  
Stop knocking on my window  
Too little too late  
When you drove by and I saw you  
I realized I can set you go  
Things just didn't work out between us and is over for good  
It just too late to be fixed or do anything  
Space  
It's all I need to realized this

## Spring Break

This is our time now  
Spring break  
Is finally here  
It time to chill, relax and have fun  
I been waiting to do something or go somewhere nice  
I'm going to beach, mall, hang with friends,  
Bahamas or just have time to myself  
I can be away from school and people for a week  
Spring break  
It going to start gets warmer and nice  
I'm going to party, put music on, go on date, and just having good time  
Wohoooo, I'm so excited and happy  
We all need this  
Spring break  
On other hand you might have to work, or babysit, or stat home or do homework  
You might get upset at first  
Try made fun out of it  
Things will get in our way when we plan to go away or do something fun  
Is finally here and its was so slow to get here

## Summertime

Summer is here  
You are in California  
And I'm over here  
It's driving me crazy  
I just want see you  
And hear your voice  
For the last time  
There is a wall  
That you break down  
I was surprised only  
You could do it  
Every since you break  
My heart so many times  
I change so much  
I can't sleep, focus and  
Kept crying over you  
When I miss you so much  
And need you  
Even if I get rid your  
Stuff I can't still get over you  
I love and hate you  
Noone can't help even  
They try  
Every time I look at your pictures, I think back on all memories we have together in class  
Sometimes I wonder what would happen if I say yes  
When you ask me out  
Would I happier?  
How your friends would take us going out?  
The only reason I didn't went out with you is because  
I was afraid of commitment  
It was me, not you  
I never felt like this before  
I feel bad and I wish I just went out with you  
Because of you I don't let anyone else in my life all because  
I don't want to feel this pain and tear  
Now I need to found love and sweet person to be with  
Who isn't like you  
You don't want me anymore so is best to just pick up my heart and glue it back  
So I can forward and forget you  
Summertime

## **Tell Me Why**

I listen to music to get you out of my mind, but I can't  
You take control of me  
Tell me why  
My heart hurt so much  
Tell me why  
I keep crying over you  
When you with someone else and not me  
I feel so jealous  
I can't stop feeling like this  
Tell me why  
You keep talking to me  
Tell me why  
I keep giving you chances to be a better person, but you don't  
You keep hurting me every chances you get  
Then I fall down everytime  
You do that to me  
I feel miserable and damaged  
Tell me why  
It hard to get over you  
Tell me why  
I can't get you out of my mind  
I try everything  
You put spell on me that I can't get out  
Why this keep happen?  
Someone please  
Tell me why

## Thanksgiving

Time to put our problems aside and fet along for

Thanksgiving

With family, friends, and relatives

We all have something to be thankful for

I'm thankful for my family, friends and God

Without them I won't be here today

I feel so lucky and grateful for what I have

Some of us are less fortunate and don't get to celebrate

Thanksgiving

It time to give back

You will feel great about yourself

It make you think about life

Some of us don't care about this holiday and we should stop and think and care

That we all are so fortunate and grateful for what we have

Some of our tradition we do is watch football, family dinner or party

Thanksgiving

It time when we all get together, laugh, eat, smile and having a great time

Thanksgiving

Gobble, gobble

I wish you all Happy

Thanksgiving

I hope you all have wonderful time because I'm going to have fun and  
be thankful for what I got now

Thanksgiving

## **The Sunrise**

As I lay on the beach  
The sunrise  
Come up  
I feel wind and this just feel nice  
I wish you were here with me  
There is hope and life to live  
I just want to hold you in my arms  
I'm thinking of you  
You're my sunrise because you make my darkness disappear  
When I'm around you  
The sunrise  
I'm looking up at beautiful sky  
The sunrise  
Come up  
I just want to relax and stay here  
I wish you lay next to me  
There dreams to accomplishments  
I want you in my arms forever and always  
I'm missing you  
You're my sunrise because you make me smile again when I'm around you  
The sunrise

## Tragedy

Tragedy

Is what happen for us

It zoom by so fast I didn't notice

I just couldn't handle it anymore

I'm tired of all this drama going on and you testing me

There is not much I couldn't say or done

I'm speechless and I don't know who you are anymore

I miss that old you and one I want to know

I knew at that moment I gave up and done with for good

It was for best because it's was so complicated

There is no words left to say in this situation

Founding someone to date was easy before for me than now

It never get any easier

You have to push yourself through it and leave it behind

You make it so diffcult

I don't want to go throught it anymore

I have enough

I'm so sorry

I'm just not that girl who change to make your life easier, be girl you like and girl you could see going out

I'm happy to say truly to who I'm

I have to make this choice and

It was best to go that path and

Nothing good come out of it

I put hundred percent and try my best

Still nothing and it get worst

Tragedy

## Trust

After all I been through with you  
I lost  
Trust  
In people, my family, and myself  
I feel so afraid  
I can't tell people the truth about anything  
I'm hiding in my shell for safety  
There are good people you can  
Trust  
There are people you can't  
Trust  
People you hang with is who you can  
Trust  
There are other people not in your group you can't  
You share secrets, relied on that person and won't backstab you is people you can  
Trust  
Eventually they do it without you knowing  
Trust  
I feel like deep in my heart I lost my  
Trust  
I hide everything and give simple answers that is not truth those people  
To those people and the one I love  
I can't even share what I really think to them  
I have the  
Trust  
In myself to know better  
After two days ago I realized I can trust people  
I need to give them one more chance  
I can be me still and be strong person  
Trust  
Is what I need to get back in guys too because  
I want to date and see what happen  
I'm not holding back  
I just need to give guys chances  
It's right to do and experience  
I won't forget, or regret anymore, or cry about it  
Trust  
Is what I'm trying to get back and I be ok one day  
I won't take guy I like for granted or people I like  
Trust

You have a cute smile  
You're missing a piece of my heart

## **Walking Away**

I'm happier when you left  
I'm learning to love myself more and I become less confused  
At this point I understand what I want and what is right for me  
I know there is someone out there for me who appreciate me and love me for who I  
am  
Walking away  
All you want was one thing and was using me  
I finally open my eyes and realized that good guys are better and is one for me  
I don't want this in relationship  
I want take things slow and get to know that person  
I want guy who respect me, funny, that  
I can have good time with, love me and good personality  
I hope one day I meet Mr. Right  
Walking away  
After all we been through  
We both want different things  
It will never work no matter how much we try too  
Me leaving was right thing to do  
I want better for myself  
I can honestly say I can finally move on  
I'm glad that I am  
Walking away

## **We'll be Together**

No matter where we're  
We'll be together  
I'm not alone because I have you  
People think we don't belong together and it a waste of time  
I don't care what they say because  
I love you no matter what  
I feel you when you're not here

When we're part  
We'll be together  
No matter where we're  
People made fun of me being with you, but  
It doesn't matter what they say because you're a great guy  
I know we will make it through  
No one can stop me from loving you  
I know we're inseparable

I miss you when you're not around  
We'll be together  
We can overcome what comes through us  
People think they can keep us part and we won't do anything  
I'm smart enough to know that I won't be fool by them  
I be with you and hug you in my arms and also I don't care what they say

When we're part  
We'll be together  
No matter where we're  
People made fun of me being with you, but  
It doesn't matter what they say because you're a great guy  
I know we will made it through  
No one can stop me from loving you  
I know we're inseparable

Even when we're miles apart  
You're still in my heart and  
Not another guy because I can't live without you  
People will look at me like that and tell me things about you because  
They think I shouldn't date you  
So it doesn't matter because  
I will be right by your side and love you forever until end  
We'll be together

Christina Phan

## **What A Beautiful Day**

You are like my sunshine  
What a beautiful day  
We went to the beach  
We saw seashell running to the water  
My heart is beating minute a mile  
My love is growing for you each day

You are like my hero  
You make my day turn upside down  
It was so cold; I saw polar bears wearing jackets  
I have you there to warm me up and cozy me in your arm  
I am so hungry I could eat a horse  
We went to get some ice cream that some guy was selling

It was nice and windy day  
We was walking on beach  
Just talking, smile and having a good time  
This day couldn't get any better  
We was staring at beautiful blue sky spinning  
I couldn't get enough of you being here with me

Wave is breezing and moving fast  
It was a beautiful day  
My love for you is so magical and beautiful  
If it wasn't for you I couldn't be who I am  
I listen to my heart and I choose you  
I'm lucky to have you as my boyfriend

Christina Phan

## **What Does it Takes**

What does it takes  
For me to be with you?  
I will do anything to make you happy  
If you give me a chance,  
I will show you something that no other girls have

What does it takes  
For me to have you in my arms?  
I will change myself for you  
How long will it take for you to say yes to me?  
I will wait forever until you are with me

What does it takes  
For me to be your girlfriend?  
I will be that girl you looking for  
You can just love me for who I'm  
You see there something good happen

What does it takes  
For me to have my dream guy?  
I will not be like others girls you been with  
Can you just admit to yourself that you are holding back on me and I'm Mrs. Right

What does it takes  
For me to hold your hand, smile, laugh, and kiss?  
I will not do anything wrong and cheat on you  
You got to trust your heart and what you want  
You should not care what others say and if their your friends they will eventually like me

What does it takes  
For me to be your girlfriend?  
I will be that girl you searching for  
You can just love me for who I'm  
You see there something good happen  
What does it takes

## What Hurt the Most Is

What hurt the most is

That you are making me jealous by dating someone else and not me  
I do everything I could to prove too you that we belong together, but  
It turns out that nothing I make you give me a chance

What hurt the most is

You breaking my heart every time I tell you I like you also  
I just want to cry and be sad  
If I know I can't have you  
I can't never love anyone else, but you  
I want to be with you forever  
Nothing will ever make me stop loving you  
So please understand how I feel and give me a second chance  
I can't stand it anymore

What hurt the most is

Being around you and getting to know you so well  
I pretend that I'm ok when I'm not  
When I'm around you, I act like I'm ok because  
I don't want you to know how I'm feeling  
It's hard to deal with the pain not having you everywhere I go  
It's till harder to getting up, getting dressed, and living with this regret  
If you give me another chance, I can make it right this time

What hurt the most is

I didn't make the right choice that day  
I just talk, smile and laugh  
I rude my only chance to be with you  
This is one regret that I can't never forget  
If this won't work with all I'm trying to say or do to get you to be with my side  
I need to let go and move on  
I want to spend all my time with you before I won't never see you again

What hurt the most is

Being around you and getting to know you so well  
I pretend that I'm ok when I'm not  
When I'm around you, I act like I'm ok because  
I don't want you to know how I'm feeling  
It's hard dealing with the pain not having you everywhere I go  
It's till harder getting up, getting dressed, and living with this regret  
If you give me another chance, I can make it right this time  
What hurt the most is

## What Love Mean To Me

When you are in love you have to put hundred percent into relationship  
When you say I love you should mean it and not joke about it, it's not funny  
What love mean to me  
Are feelings you felt for the first time with that person  
You should cherish that person good because  
They going be gone out your life without you even realizing it  
If you lost that chances  
You got to learn to work to it out and figure out on your own  
Do what the other person wants to  
Try new things and take risk with one you love  
You got to learn trust the other person  
Being with someone you been waiting for is so magical and beautiful  
Don't let that person slip away  
You might not get that second chance  
Try to do something nice or romantic for that person  
What love mean to me  
Is enjoying life and share happiness with your love one  
We all will get in argument with each other  
Then we start thinking about our exes or just go somewhere to think  
At end it be fine or not depends on situation went on  
You shouldn't let that get in the way of having each other  
You should make compromise with your love one  
You guys will work something out as along as you guys meet in middle it be good  
One day you guys want to get marry and start a family or just have each other  
Chemistry and sparks will last forever  
If you go back to memory land and found out  
Why you guys fall in love in first place and  
Just want each other forever and always  
If you learn from mistakes  
Life won't be difficult  
You need just learn to open your ears and eyes  
You should never lie in relationship then it's not really one  
Love should be on top of your properties  
Don't let friends and work stop you from being with that person  
No matter how hard things get  
You guys can overcome it together  
What love mean to me

Christina Phan

## Who You Truly Are

You search all day and night  
To found  
Who you truly are  
You feel like you lost  
And all lonely in this world  
Where noone can help  
Just look deep in your heart  
And you found who you are  
Don't get angry if you can't do it  
You should believe in yourself  
Because there people believe in you too  
If one thing don't work out  
Try another until you find what  
You really good at  
It can take days or it can take forever  
Until you found  
Who you truly are  
You make mistakes  
Fixed it, keep trying  
It will work at end  
Some of us might not found  
Who we truly are yet  
It's ok  
Don't sweat it  
Good luck  
My wish for you is  
To found  
Who you truly are

Christina Phan

## **Why You Cheated on Me?**

Why you cheated on me  
With another girl?  
I feel hurt and I thought I can trust you  
I have to break up with you because I saw you kissed and flirt with another girl  
I just want to cry and forget you  
I thought I was only one for you, but it  
Turn out that someone else catch your eyes and is the one for you and  
I feel so torn right now  
Why you cheated on me  
With another girl?  
I feel hurt and I thought I can trust you  
How could you do this to me  
So I decide to get another boyfriend, leave you and move on  
Why you cheated on me

Christina Phan

## **Words I Couldn't Say**

Words I couldn't say  
Out of my mouth was so hard  
I was just speechless when it came to you  
I regret myself for not saying what I want to say too you  
Now you are annoy me and just looking at me all sad  
I will never get that year back to do it right again  
I will never know what you really feel about me all because  
Words I couldn't say  
This feeling inside of me keep hurting me because I'm feeling guilty  
This making me more stress  
I have this in my hand  
I let slip away all because I don't want to do at that time  
No second chance, or a back up plan  
What am I supposed to do?  
Now you won't say a word and avoiding me  
Words I couldn't say

Christina Phan

## **You and Me**

When I'm around you, I can be crazy and silly  
I can do whatever I want  
You don't mind  
You enjoy watching what I do  
I'm only me when I'm with you  
You and me  
You always keep me going  
You make me happier than ever  
We have sparks in each other eyes  
We dance without music in the moonlight  
We roll down hill and go down laughing  
Then we look in each other eye and we both go silence and kiss  
No matter what we do, we never get bored with each other  
I'm only up when you're not down  
I can dance funny and sing to my favorite song  
You just look at me and laugh with me  
I can only be myself when I'm around you  
You look past my image and love my personality more than worry what I look like  
We been together for four years  
I hope we be dating until end  
I am tiring of play safe and  
I try new things I never do  
We keep surprising each other with side  
We never show and we like it  
We never have fight  
It's like we make for each other  
I'm only me when I'm with you  
You and me  
I'm thankful for having you  
We try new adventures stuff  
I don't mind, I don't get scared  
When I have you too hold on  
You just smile and hold me tight  
You never get annoy of me  
You keep me smiling baby  
I never get hurt by you  
You make me feel less stress  
You're best boyfriend ever  
I love you and you love me  
I'm only me when I'm with you  
You and me

You are angel come to save me from this broken road and  
Lead me into right direction  
You are the one I been looking for  
You make me understand life  
I feel so alive and free  
I couldn't feel like this if it wasn't for you  
I'm changing all the time because of you  
I care about your opinion and what you think about me  
You know I like you  
I shouldn't have write on there  
If I'm not going do anything about it  
I never meant to hurt, make you jealous, and I was never mad at you  
I was dumb for what I done to you and make you think different of me  
You are different out of every guy in good way  
I enjoy your laugh, jokes, smile, groofy sides of you and who you are as person  
You are the most wonderful perosn I ever meet  
On negative side if worst that I have to deal with your friends think they know who I  
am  
You want to found out about me and what your friends think about me  
You want to test me, practice me in certain areas, and subjects  
I get why, but I didn't realized at time and now I know why  
This was way different than I expect out of you  
I blush and smiling around you  
It's been long time  
Everything is because of you  
I can enjoy life, see how much I miss out, and have fun again for first time  
I want to take risks, do things I never do before  
No more sad songs or past  
It's you I see now  
You are the one I been looking for  
I feel so bless to found you  
Thank you for everything  
You are always one person there to make me feel better when I'm in bad mood and  
I start laughing and smile all because of you  
When we smile at each other  
I get all this sparks back and is was good moment  
I just no way to approach you and this time is different  
You have a face of famous person even if you are not one  
I will not cry anymore if this doesn't work out  
I know to let it go and learn from this  
This is life and life is not fair  
I get it and know better  
I should realized what did I got myself in first place  
If like this with you, how you feel about this situation  
Put myself throught something that end at this  
There is nothing left to say  
You are the one I been looking for

## **You Can Do It**

The sky is limit  
Nothing is impossible  
You gotta try  
You got to live like there is no tomrrow  
We got to let go and enjoy life  
Sometimes we need courage and support to anything we desire  
In our life we deal with pain, drama and all sort of things  
Just stand up and keep walking  
You can do it  
You just got to believe  
I be here for you if you need me  
You are not alone  
If you work hard, something good will come out of it  
God is here for us to help us through the challenges  
You can do it  
It's not end of world if something don't go your way  
We won't always be happy and  
Everything we want or do might not go our way  
We have to deal with it  
It's not fair, but it's life  
You can do it

## **You Make me go Crazy**

Every time I see you  
You make me go crazy  
Because the way you are  
I just can't just take my eyes off of you

Every time you walk by, I just want to smile  
You make me go crazy  
Because you take my breath away  
You are the one that I'm searching for

Every time I see you  
You make me go crazy  
Because I feel like we are only two people in this world  
I just can't just take my eyes off of you

Every time I walk to class there you are right there  
You make me go crazy  
Because the way you are and  
I just love everything about you

Every time I see you, you make me smile and happy  
You make me go crazy  
Because you are so cute and funny and also  
You make me can't stop thinking about you  
You make me go crazy

## **You're a Great Friend**

When I have a bad day  
I can go to you and  
You make me feel better  
You also put a smile on my face  
I don't know what I will do without you here by my side  
Thanks for being there  
You're a great friend

When someone broke my heart  
I can count on you to be there  
You make me realized that  
There is something more important than love and  
I don't need someone to make me happy  
Because there are other things that can make me happy  
You're a great friend

When I have a problem  
I know there is one person I can go to and is you  
You help me get through it and  
Not to hold back  
You help me with so much  
Thank you so much  
You're a great friend

When I have a bad day  
I can go to you and

You also put a smile on my face  
I don't know what I will do without you here by my side
