# **Ebony Tesfay (?)**

I am a very laid back person
I like to have fun
And I never thought that I waz the poetry one
I got introduced at the age of 12
And ever since then
Ive been trying to tell
The story of my life
Some events that occured
And how happy I am
To be free as a bird
I love my family to death
And friends till we part
Well...
I hope you enjoyed my biography art!

## A Fact

Ripp me up
I know you hope I die
But please believe
That I will try
With all my might
To stay alive
And live a day
Of wonderous stride
A day is a day
A night is a night
And what is in between
Just must stay
So you can leave
And never Come back
Wont see you later
Thats a fact

# **Dream Upon A Dream**

I give myself to you And hope that you do to A dream upon a dream A big bowl of ice cream

I wonder how life goes
I wonder were it flows
A happy little ending
Or a death defining row
People fall in love
All of the time
They cant control there feelings
So why oh why feel at all
I am not closed minded
Only open minded
Always give advice
To those who ever is in need

People say Im bitchy
I think that Im stichy
Always think of ways to
Get around the rules
Bend them as you wish to say
But I find that quit okay

If we were ment to follow rules Then why do people say we shouldnt We should just go and doooo Whatever comes to mind

I like to feel the breaze upon my face Id like to see how ocean water mazes And like I often usually say A dream upon on a dream Is quit okay

# **How Long Is Forever?**

You say you love me
Put no one above me
I tell you just hold me
Dont ever let go
You take a deep breathe
And say were forever
I think to myself
How long is forver?

As we are sitting on the beach Layin down together I am filled wit greave Cuz I know were not forever Something will change Break us apart We will become enemies And grow far apart

I think he knows that in his heart and his soul But afraid to say that cuz he wants us to be Eternity Love never lasts as long as is said Love is broken by hate So hate is triumphant

Well then why love at all if love will die out So keep love to yourself Never love not one soul

#### **Never Be**

I love the way you walk down the hall
The way you walk the way you talk
I love the way you smile cuz it makes me so weak
I love the look in your eyes, makin me wanna fall on my knees
Beggin please
Will you hold me

I promise to never let go
I wanna get you to want me the way you want her
Be~cuz the luv that bears inside me
You'll never know and that kills me

Lookin at you
My dreams all come true
So I guess its not real wat they say
Dreams aren't ment for sleeping
Be~cuz my dream, my every last wish is standin in front of me
I would do anythin for you to push me up against the wall and kiss me like you mean it!

When we talk on the phone and you tell me how much you love her It's like a fire is burning up inside me
Cuz I wanna be that gurl
The one you'd do anythin for
The one you love and adore
Be~cuz your that guy that I would die for
But I keep it all inside me
Dont let anyone know
Be~cuz I know you dont want me
Callin me your best friend
But I die a little every time it's said
Be~cuz I know thats all we will ever be
There will never be, a you nd me

#### Safe

You keep me safe at night You keep me safe in spight And in plain sight you comfort me and hold me tight You make me feel as if love is real You make me see a different side of the You make me believe in harmony

I thank you now
And give a bow
To show you how you make me feel inside
You make me free as you can see
And to be a part of you is my dream come true
I dont know if I can say anything else that will prove to you
How much you keep me safe
So I say just this
And blow a kiss
And hope you figure out

## **Shoot Me**

Shoot me You've done it before Dont act like you've never opened up that door Hurt me So vitally Make me see what you want me to see and be

Put pressure
Intense as can be
Murder and further you can do to me
It builds up
After a while
Im gone before you know it
So dont act like a child

People
Are your enemy
You are insane as a mother can be
So where does that leave me
In a hospital bed in a comma of three

## Sick an Tired

Im sick and tired of the lies you told me Sick and tired of what you want me to be Sick and tired of the way we live Sick and tired Im in such a dread Sick and tired I want to go to sleep Yea so sick and tired it makes me weak Sick and tired dont wanna be me Sick and tired of no harmony

Day aftrer day you just come out and say Tomorrow will be a better day Well Im sick and tired of that over used phrase So sick and Tired of the way you dont change Sick and tired I wanna go home Oh so sick and tired dont know where I belong Sick and tired of what you make me dream about Hell, Im so sick and tired I dont what else to say

#### Take Me And Break Me

How could you take me Break me And make me How could you hurt me Desert me Yes leave me

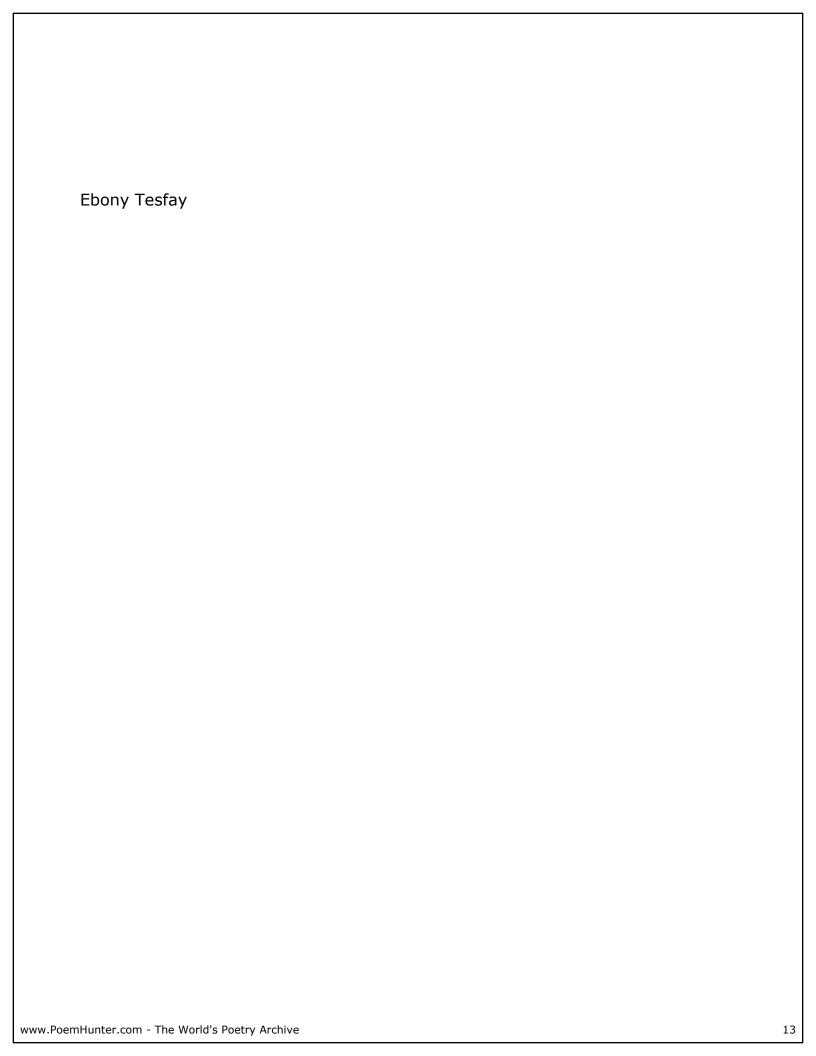

You take me and break me
You make me again
You hurt me desert me
But its not the end
You burn all my dreams
Yes take them away
And you take me and break me
And make me again

With a passion I love you
But thats not enough
You want me to love you with such a thrust
So you take me and break me
This time wait a little while
Then you make me and take me
As if Im a child

You say those three words like they really mean something But your take me and break me Is what really shows something Killing me softly I can not leave Although your take me and break me Hurts me softly

I cry in my bed
Its not the first time
I wish on a star
Hold on to my charm
As you lie and you cheat
Im feeling so weak
But theres nothing I could do
B~cuz I really love you

Some people say
Its not hard to escape
But they are not taken and breaken
As for that one girl
Who wrote this one poem
Solemly desturbed
Its called
'Take Me And Break Me'
So I guess its the end
You cant take her
And break her
B~cuz you already make her

## Would You...

Would you cry for me?
Would you die for me?
Would you wait for me?
Would you open that gate for me?
Would you hold me tight?
Would you put up a fight?
Would you make sure that every thing waz right?

Could you be just my friend?
Could you ever let us end?
Could you open up your eyes?
Could you be able to make me smile?
Could you wait a while?
Could you lie upon lie?

Should we even try?
Should we both cry?
Should we be bff'z?
Should we have a relationship?
Should we let it last?

I'll give you a chance But it better be a blast Or else we are over A thing of the past
