A Dream Within A Dream

I drink till I'm dreaming
A thousand miles
Out of my mind
Perhaps as Edgar seemed
I forget who said it
Yet a dream within it
Began with a drink
So it seems
A dream within a dream

A Light To Give

A pouring out of my spirited soul Will end like Jesus Filling millions more What He pours out He also restores Mine grows and grows Now give me yours For just a light speed fix away A lovely refill of His light As seen by we who get it... right So won't you join us and let's fly For seen is such a joy to live All living souls

A Light To Give

A World Away

Let's turn a page Escape an empty feeling Come back strong To share a message Jesus gave us Faith hope and love To guide us

From A World Away From Here

About Me

Sun light makes
The curtains shine
It's hot outside
The ice cream melts
And my dog Jack
Is under the bed
The hot dogs smell good
But don't overcome my wind
So don't beat yourself up
For stopping by again
I don't know what I'd do
Without you... About Me

Alcohol

Just talk about what dogs wont do Then you won't have to go there What a waste of spirit life Forget about the dime Children starving for a Father Need a meal and Mommy's smile Not the scourge of Alcohol

All Those Asleep

In Him Are gathered first Up into the air To be with Jesus forever Then all those awake in him Will join them Give each other comfort In these words Awaken All Those Asleep,

Pennies, nickels, dimes and quarters Benjamin's right in the middle Four hungry children take the cookies The ones at the edge of the table Now the end of the money is worth it The morale of the story Don't leave the cookies too far From the edge of the table Avoir

Baby Fall In Love

It all started with a shooting star
It came through my being
Fell into my heart
Pure energy fleeting
Finding it's mark
And like it or not
As long as you're breathing
Our Lord Is Your God
So choose life here baby
Fall in love

Love like Jesus would at first
Then you love like God must of
Love like mother Mary did
When she was given Jesus birth
Love like infant babies do
When you say Jesus name to them
All of them just loving it
Baby, fall in love

Be the one that's who you are
Just go with it
Then if a love affair is tough
Just let it go a little while
Work on living like a child
Just loving it
Love affairs are magical
And feel like there's no end in sight
Let's go for it when you get right

Baby fall in love

Beautiful You

It's got to be what Jesus thinks
His spirit fills you with His grace
Listen close to what he says
He doesn't come here to forgive
Give it up, give in, accept it, babe
Get on with your life and don't be late
It's got to be what Jesus thinks
His spirit fills you with His grace

Beautiful you, Beautiful you It's got to be what Jesus thinks His spirit fills you with His grace Beautiful you, Beautiful you It's got to be what Jesus thinks His spirit fills you with His grace Beautiful you, Beautiful you

Don't listen to the devil
Make him get behind you
He won't hurt what he can't touch
And he can't touch what he can't see
Give it up, give in, accept it babe
Get on with your life and don't be late
It's got to be what Jesus thinks
His spirit fills you with His grace

Beautiful You, Beautiful You, By

Becoming Christ

Me To you You to me God's call To grace

Believe Me

You are the sacred heart of Jesus We are the sacred heart of Jesus Our Lord Walks among us

Better Get Right With God Today

We can run but we can't hide Nobody we know can jump that high Better get right with God today 'cause tomorrow may never come our way

Better admit to Jesus name No need to admit to embarrassing shame Better get right with God And get in on His grace

That's all there is to it There's no other way Bring someone else with you And double the grace

Be a miracle baby It's never too late Jesus is there for you Making the save

Better Get Right With God Today

Better Things Begin

It's a long way to my knees oh Lord Though once I'm here I'm satisfied I find a prayer is in the air and

Better Things Begin

Between

I'm not grounded well baby
Just craving alcohol
Thinking about it
Did you think I was ever here for you
I was lost thirty years
Found for fifteen
Married you and tried thirteen more sober
Fell off the wagon seven more

Between lost And found girl
Walking that straight line
Finding my nose with my finger
And finding it never was there
Between Lost And Found girl
Finding I'm lost to a craving
That keeps me from loving you true
Girl that's slap Between Lost And Found

So I'm back in the program
Got mixed emotions
My health is failing
My mind is broken
In so many pieces it looks like dust
Yet you say if I want you
You're the ground I've been missing
Somewhere Between Lost And Found

It ain't easy when you have
A craving for booze
And if your other half has it
You're really screwed
Some of us won't ever give it up
We've no quitters in our blood
But the best of luck to those who do
We're all somewhat

Between Lost And Found

Breakfast In Love

Praise Jesus
If you hear me
Will you show me a sign
The apple wood bacon
Man, it's the bomb
Thick sliced with eggs
Over easy peppered too
Toast with real butter
Grape jelly
Another praise Jesus
A cup of hot coffee
She likes Coca Cola
What a wonderful world it is
Living in God's glorious grace
With my brothers and sisters
Loving one another in Jesus name
Ain't she sweet

But

We are not of those Who shrink back And are destroyed

But of those who believe And are saved

But if Christ is In you

Your body is dead
Because of sin
Yet your spirit is alive
Because of righteousness
And if the spirit of Him
Who raised Jesus from the dead
Is living in you
He who raised Christ
From the dead
Will also give life
To your mortal bodies
Through his spirit who
Lives in you

Castaway

Please don't cry, Close your eyes

Bring your body with your mind

Find a love just like your own

Somewhere else

And make it home

Ask Jesus Christ

Your Lord and savior

Every day

Like you're gone fishing

Cluck Cluck

I never got lonely driving a truck
If I got lost or needed to talk
The inner cities would be my next stop
Here comes the chicken truck

Cluck cluck, cluck, Hear comes the chicken truck And if that's not enough I'll load watermelons on my way back home

Cluck, cluck, chicken truck A watermelon run Honk, honk, flash, flash I'm to fat to reach the dash

Knock, knock, back it in I get out to open up White shorts, red hearts Cowboy boots and hat

Cluck, cluck, chicken truck A watermelon run Honk, honk, flash, flash I'm to fat to reach the dash

I never got lonely driving a truck
If I got lost or needed to talk
The inner cities would be my next stop
Here comes the chicken truck

Knock, knock, back it in I get out to open up White shorts, red hearts Cowboy boots and hat

Cluck, cluck, chicken truck A watermelon run Honk, honk, flash, flash I'm to fat to reach the dash

Cluck, Cluck

Commandment

Admire Jesus
He sticks to His word
His word hides nothing
As nothing hides His word
Never did and never will
Have no fear
Your enemies have already been defeated
For they have no hope
Sayeth the Lord Jesus
Whose presence you crave daily
And give thanks for freely
His moon is His promise
His Son His gift
Behold our Lord's
Commandment
Love thy neighbor

Daddy

Daddy was born in the great depression
And the liquor still was buried in a rail car in the woods
Grandma, Grandpa, Eugene, Max and daddy
All worked together for the good
Their Night Hawk roadhouse was known from coast to coast
They even ran their cars on corn
Flashy souped up business coupes
With truck springs, and homemade dump tanks

Daddy was a good man and did his best
Had a sense of humor and loved to fish
Drew from the hip with a nineteen ten
He was the man of steel from the age of nine
They say he used to call me captain
Daddy did say it once or twice to me
He's the only man ever tracked me down
And daddy let me live to love again and reminisce

Daddy gave a damn and if you didn't He could turn his Merc right on a dime Kick your ass at the drop of a hat And daddy did it time after time Daddy inspired my brother and I And he did do a super job of that Daddy even raised four daughters well Daddy did! and if it hurt! he never said!

Daddy loves momma Like momma loves daddy And we all work together for the good No liquor still nor roadhouse neither No souped up cars nor guns Just a little bit of hay it's good to see you And some tender loving care that's good

I miss you Daddy

Darkness Is Light

Desperadoes

Baby... don't call me Hombre I can't live a lie Hombres stay home Desperadoes stop by

I'm Your gear jammer Baby More a civil unrest Showing up like a twister I'm your cowboy in bed

I'm your heart breaker Baby So lost when you cry You forgive me so freely Then kiss me goodbye

Just don't call me Hombre Give that name to God Let's take time to worship him Hold hands as we talk

Maybe we can find some place To kiss when we walk Start building an altar Of love on that spot

It's a spot I keep finding
In the back of my mind
On a highway each midnight
That I'll find in time

Baby... don't call me Hombre I can't live a lie Hombres stay home Desperadoes stop by

So don't call me Hombre Until I get it right

Don't Beat Around The Bush With Me

The Lord our God delivers us His grace is something we can share His name is Jesus Have you heard?

God sacrificed his Son for us Who died to share His Father's love One for sake of all to love True love, true grace, be seen by all

Don't Beat Around The Bush With Me

Dreams

Sometimes wicked

Some can smart

Sometimes stupid

Stops to fart

Drive Safe Neighbor

I've been to the haunted roadside graves
Millions I'd say and remember those faces
Some slain long ago... some just up the road
The carnage of body parts scattered about
The living survivors tary around
Waiting for professional help with shock
The coroner won't reopen the road until all person's
Heads, arms, legs, hands, feet, fingers and toes
Eyes, Lips, ears and nose are all recovered
So their mothers and father won't go to the site
My Jesus, I spent a lifetime witnessing these events
As a trucker looking down at the rivers of blood
Running down the hill in tire ruts
Then picking up my chin once again
Checking my brakes to continue the trip to an ill fated day
When I say I can't take it anymore
God bless you neighbor and drive safe

Even Though We Care

Faces show up everywhere
All I do is stare
My thoughts are mine
And theirs are fine
The real ones seem to care
We all have rights
To happiness, to cheer and even fare
To sadness, tears and loneliness
To eat, drink and share
Be who we say we are today
Or change the way we look
But not to violate anothers

Even Though We Care

Ever

If I found the perfect way To say I love you Baby I'd write it down And share it with you The Greatest Love Song Ever Sing it in the bedroom with you Going on about our business Loving as if we're the richest To the greatest love song ever I don't need no status Baby Money credit cards or Chevys All I need Is you and maybe The greatest love song ever Sing it in the bedroom with you Going on about our business Loving as if we're the richest To the greatest love song ever When I die I'll take it with me Keep you in my heart forever Going on about our business In the greatest love song ever

Fact Number One

No man Not even Satan Has ever Or will ever Be able to hide God's word From his people

Fact number two Refer to Fact number one

Fathers

Serving as Protectors Providers And teachers

Not tempted
By false ideas
About masculinity
To be authoritarian
Or aloof

A spiritual crisis which is rooted In a failure To recognize And imitate The fatherhood of God

Instead God would grant you
According to the riches of his glory
To be strengthened with might
Through His Spirit
In the inner man
That Christ may dwell
In your hearts through faith
That you may be filled
With all the fullness of God
Just as you were called
In brotherhood and love
To Christ Jesus

Fire And Ice

Ripped from the womb of war
Tortured like a runaway psychotic
Screaming in raptured tongues
Skin bubbling and dripping down
I felt my heart stop beating
I was gurgling on my blood and vomit
Then I woke and ate my breakfast
Giving thanks and kissing my woman on the lips
Behold
Fire and ice

For Ignorance And Gall

Frequent False Positives

It happens all the time
The President is busy right now
His business stops at the end of your nose
A cover up is in order here
And your pay grade doesn't go that high
Shut up stupid strikes again

Frequent False Positives

Give It Away

The flight of the arrow
Finds no resistance
And meets no fight
For it should fly
Only to feed your hunger
It reveals your innermost desires
And is no surprise whatsoever
To the older wiser one

Give It Away

God Already Answered Evil

All those starving children know The Cross of Christ Is there for them The only reason They're still breathing Receiving blessings Satan hates Is some of us Are full of him

God already answered evil

God Already Knows

No matter who we say we are today He put the thought therefore us 'Tis He who dwells among us Who comforts us and judges us Punish as enlightens us In His abundance we abide

God As We Understood Him

Read it again Past tense Right? Forget about it

Who can change that? That's right You can But you don't have to... do you?

God As We Understood Him

God's Talking To You

When you feel Him in a rainbow See Him shining through a window When a baby smiles at you As you say Baby Jesus knows

He sends Jesus to you crying Telling you to keep on trying Hard on Him when you're not with Him You should go to church today

God's talking to you when you hear him Wants to know what you think of Him Will you bring your children with you Do you know what Jesus did

God's talking to you in a meeting Greeting you within a greeting Loves you as you love yourself God's talking to you as you're eating

God's talking to you as you're writing Good news travels Bad news struggles God's talking to you as you're thinking

Giving you the will to live To live to get another kiss And keep your mind out of the gutter Or redeem you to another

God's talking to you as you're sleeping Through the ceiling, lumber popping Doors a squeaking, Mattress moving When you get up He'll grab your ankle

Stub your toe and twist your ankle Break your bones or bust your bubble Any lengths to make you truly happy God's talking to you Baby

Good Grief!

When I lose my mind
It's a beautiful day the Lord has made
The humming birds down by the neighbors house
The smell of rain
The pizza we ate
Coca cola we drank
Trading back rubs
And kisses
Fore the forth of July
When I lose my mind
It's a beautiful day the Lord has made

Good Grief!

Grace

Some say God never tires Of granting forgiveness

Ask for grace instead

Some say God does not answer evil Yet He has already spoken

With the Cross of Christ

Instead of granting forgiveness Give His grace

Profess, believe and live grace

Headed Your Way

My sweet loving Jesus
You tell me
I don't need a reason
No silver or gold
Just get up and go
You make it so easy
I just say okay
And the next thing I know
I'm headed your way

I just say I love you
Every day
I can't wait to see you
So I'm headed your way
From deep down in my soul
From the thoughts in my brain
To the tips of my toes
I'm headed your way

I tell the whole world I'm headed your way It's no secret mission I'm headed your way I could be coming or I could be going but As long as I'm rolling I'm headed your way

I just say I love you
Every day
I can't wait to see you
So I'm headed your way
From deep down in my soul
From the thoughts in my brain
To the tips of my toes
I'm headed your way

Hear Me

Praise Jesus
And if you hear me
Will you give me a sign?
God bless you!
Love! Love! Love!
That is what the Bible talks about
Love one another
I'm just sayin
No excuses from me
No collectivity
Claps of thunder, lightning strikes
False Gods nor idols before me
Forgive me Lord for I have sinned!
If I could not sin
I could never feel this wonderful again
I love you!

Help Me Think Of You For Words

Here

Here are my mothers and brothers
Says the Lord Jesus Christ
Why?
Don't ask me
But if you insist
He knows who His father is
All His sisters and daughters are mothers
All His sons are brothers
Got it?
Are our mothers and brothers

Here?

Higher Power

Say what? It was a nO brainer For me Brighter power is not Higher Power

His Light Burns Brightly

My life begins
Yesterday is a memory
His wishes I speak again
Of his presence daily
His heart moves
Safe and sound
He fills my well
With all live fish
The dead bury themselves
For I follow Him
His light burns brightly

How He Must Laugh

And why do we care? What are we doing here? Who do we trust? Why does it matter? what does it mean? These are all questions We ask ourselves daily Looking for answers Hidden by ages Of unknown assailants Agents of Satan Claiming immortality By greater intellect Makes them our saviors Pagan in nature Condemning God the father Of giving and taking of Love at the alter of life as we know it Precious blood of Christ as we know Him Each of us a lot of the other In Him, With Him, Through Him And for Him, For His eternal entertainment

How He Must Laugh

I Ain't Never Seen No Place Like This

Welcome to the lost and found
The Poem Hunter round and round
Hope you stay and if you don't
Please leave your page and all you wrote
The poets here all need the dope
It's real to them to read your reasons
Feel your feelings, dream your dreams
See your demons and love you for love
For something or nothing but true
All I ask is you find the kid in you

I Ain't Never Seen No Place Like This

I Remember The First Time You Kissed Me

Because you looked so surprised It was our first date
And you were so nervous I had to think fast
So I did
When the mini van stopped
I jumped out of the front
And into the back
Straddle you in the seat
One of your sisters
Presented your head
With both her hands
Like kissing the petals of a rose
So the six of us
Had a good laugh
You didn't stand a chance
I made you my wife
And you made me your man

I Remember The First Time You Kissed Me

I See Angels All Around

I was more than just a handful in the day Smoked and drank and whores around The nights and days I worked and played The human race could go to hell And then I woke up broke one day Physically, spiritually and mentally ill A treatment center bed okay, nothing special With a chapel to pray

Now I see angels all around Like Matthew 4: 11 I would say And I don't have to share this with you But if you'd like to see it, step up This was a personal thing for me I passed out and woke up this way Now I see angels all around I, see angels, all around!

Like I said, if you'd like to see it, step up I'd be happy to knock you out Or we can all join in for prayer by Asking God for His grace John 3: 16 For God so loved the world That he gave His One and only Son That whoever believes in Him shall not perish But have eternal life

I See, Angels, All Around

Light, shining, glowing angels, all around me

I See, Angels, All Around

If

If a man was truly Lincoln
He should need a lot of help
God Almighty up above him
Pulling strings creating doubt
Devils all around him screaming
Kill him kill him take him now
Lincoln praying with another
Calling Heaven's army down
Who knew a heart could never take it
Or if one could... what if

If I Could Be You

I'd break out in sweat
I'd know the truth
Put a gun to my head
I'd see me exactly as you do
Besides
How much fun
Could I have
In your shoes?

If I Could Be You

I'll Shine For You

Almighty God
Are you sure
You want to do with me
Lord have mercy
I love you too
Go on heartbreak
Go on blues
Jesus Christ
I want you too
I'll sing for you
I'll die for you
I'll beat my chest
To shine for you
I'll get down
And roll around
Almighty God
I'll Shine For You

I'm Ready to Do it Again

Here's to you
Here's for you
Here's to you again
If I hadn't of met you
I wouldn't have let you
But since I met you
And I let you
I'm ready to do it again

In Christ Jesus Name

Sharing this moment
In the beginning
Was simple
It was so light
Feeling my heartbeat
Feeling for Yours
As your creation
Seeking for You
A ping if You will
Tuned into You
Your frequency waiting
Then coming out
To rescue then
Two souls shout
Sharing this moment

In Christ Jesus Name Amen

In The Same Way

The spirit helps us
In our weakness
When we don't know
What to pray for
So the spirit intercedes
With groans that words
Cannot express

Infancy

To my own way of thinking
Absolutely the rebirth of Christ's own Sacred Heart
In each newborn
Here to save us all from ourselves
In the flesh
Sanctifying human life among us
If only we were all able to focus on the truth
Without sin as is
Infancy
It's a beautiful thing

Insatiable Lady

Play it for me
Bring it to me
On your mean frequency
Coast to coast
On a channel of our own
You'll always be there
No matter where we go
Insatiable Lady
When you touch me
You'll know

I'll be blowing and smoking Like a lonely volcano I'll touch you Then I'll say I told you so Insatiable Lady I'll charm a tornado Then calm it With your love struck halo We'll both glow like A twilight snow fall Then like god above We'll rise above it all

Insatiable Lady
I know that aura
Around you baby
It is the sign
Of an Insatiable Lady
The crystal city
In your eyes
Brightens up
My midnight skies
Your moon rise
Fills my eyes
It reminds me that
You are still mine

Insatiable Lady... Crazily jade me Insatiable Lady I love the way you take me

Insatiable Lady I'm yours

Instead

A window's black screen
Huge waves crashing in
With atomic clouds dissipating
Taking screens up with them
Bright light shone in
As the bridge falls in place
The water rising
The bridge knows its name
Growing to meet thee
You fly overhead
Bringing back new flames
And thunderheads
But dash all of that
For the King calls the rain
As Jesus explains it

Instead

Invictus

The pit of the peach is I
Bite Me
Break a tooth
Toss Me
To the side of the road
Or tuck me in your coat pocket
To hurl Me into the fire
All your fury is Mine
Sayeth the Lord

Jesus

In madness to my method I pray for grace
I Try not to cheat
Bless me with beauty
Wash me clean
Pour out Your water
Like you want to
Make my lands green
Flourishingly
You show me why
I need your smile
For I have everything
Yet ask you for more
I pray for grace
In Madness To My Method

From myself in Jesus name

His peace be with you
All your day
Jesus loves me anyway

Bluster begets bombing Bombing Begets bombings Blame looks like bla(me) Borrowed from a blamer Ask Jesus restores us to sanity

Just A Reminder

We were once total strangers with larcenous hearts So we grew together to be pulled apart Still say, never say never, to each other's sparks Or touching each other when one needs recharged

This is just a reminder that I truly love you That my heart is with you and I miss you too This is just a reminder that I truly love you

If we were not lovers we would choose to be used Baby that's nothing special... it hurts to be bruised If it's special... it's tethered like I am to you Because loving you is better than being the news

This is just a reminder that I truly love you That my heart is with you and I miss you too This is just a reminder that I truly love you

I'll always be beaming 'till the day that I'm gone Then I'll always be stealing a kiss in a song And I'll spend my days dreaming like I have all along Of another good teasing to cure all that's wrong

This is just a reminder that I truly love you That my heart is with you and I miss you too This is just a reminder that I truly love you

Just One

Praise Jesus
And if you hear me
Will you show me a sign!
I love my friends and neighbors
All over the world
Just gotta say it out loud
In writing, loud and clear
I'm just like most of you
When all else fails
I read the directions
Join me won't you?
Show a little love today
We could suddenly wind up
Displaced in need of
Just one hug

Just One Hug

Might just be the one that says
I love you
And starts that sparkling in your eyes
Just before
We begin dancing
Just one hug

Kiss Of Love

Greet each other with The kiss of love Greet each other with The Kiss of love

Known

I ask you
Will our heavenly Father
Send His angel to me
In the holiest of dreams
To speak directly to me
To breathe new life
Into my withered branches
Will I see Jesus
And be recognized
Filled with His holy spirit
So that I receive
All His blessings
To share with you
Will I give my life for you
Call you my friend
Or will you hate me
Without a cause
Killing me in service
To other gods
Who have loved me
From the beginning

Life Is Christ

I would rather die
To be with Christ Jesus
Than to never let
The sunset on my wrath
For evil things
You need me here
For God's armor
You feel the need
To be like minded
Live the life
Of Christ among us
Not to fight
Our flesh and blood
For Satan is of other such
So walk in love for

Like Me

The heavens meet earth Black as coal In broad daylight I'm not really sure And gear down as I wait Eighteen wheels In slow motion As I witness God's play And I fear the roar of my new found fate Another huge twister So close I rattle... thinking God must scare himself For the look on my face I see His hand print On my windshield In the rain Holding forty tons Steady From flying away With half my wheels up I see things fly by Then the truck settles down And I wonder If He Hyperventilates

Making Smart Look Easy

Takes a lot of hard work babe
Be honest with you family
The drugs and booze won't do
Get right with God before you crash
Then pull your pals up with you
Better late than never
When you're in the frying pan
You're under God's protection
By lifting up your hands
Making smart look easier
Requires a little faith
Just keep saying
Making smart look easy
To find a loving way

Huh! ...

Merry Go Round

We used to see them all around Every playground a merry go round We loaded them up and rode them around As children we played so well in those days And settled our squabbles without guns and knives We could find a rock or a switch Bloody our fists as well as our nose Defend our sisters and brithers as well Now we dodge bullets Use racism tools And the merry go round is cable news You can be famous and don't have to wait Killers get press while innocents weep Good people pray the streets stay safe While vigilantes and drug dealers reap On a merry go round of kill or be killed We're allowed to see one that bleeds While worldwide baby... many go down Too the laden sound of the

Mine

What madness could encompass me That I may lust a love divine To carry me away from here With glory for a friend of mine Who lives and reigns in disapear To come alive in children's eyes At just a mention they all cry The joy of Jesus Christ is mine

Missouri Immortal

We are links with immortality Finding suffering grotesque Reluctantly we hold it in Instead of sacrifice and rest

The power to leap To parallel universes Or to create new ones Isn't free

Such thing are paid for With a surge of humility and humanity Offerings in outstretched hands In hope of only love in return

The human race almost awaste Therefore the grace of God Go Thee I In Jesus Name God Blest and God bless you

Momma

I always was hard headed momma You kept your rosary close I never Knew that I was sorry But I was scared of you You'd hold it gently in your hand And shake the other one at me Then tell me Jesus loves me And let's get ready for church

I hit the road at an early age
But I never changed my heart
And whatever you still pray for me
I'm living proof it works
I wish I had of listened to you
For I've paid a heavy price
I've been on the run forever
But momma I'm still alive

Momma I sure do love you girl
And I miss my daddy too
When eighteen wheelers failed me
You two pulled me through
What I want to do is just say thank you
Post it on the web
Real close to daddy's poem too
I think they'd make good songs

I hope they're sung real soon
By some one good you know
Before I'm dead and gone for good
So we can rock and roll

I love you Momma

More

Blinded by a golden shield
That breaks thy bones and then thy will
Christ Jesus Cross above the field
It's red sash flying gives me chill
Oh... I am humbled By His sacred heart
Which a man can never still
Thousands of years of Satan trying
Love triumphs in hate's own core
For God so loves us
For the more and more
Forever more

God blest

The midst of heaven in revelations 14.7

Worship Him who made heaven and earth,

Nuts And Bolts

Nuts and bolts make it easy to fix an old jeep up Put a scope on the rifle or chrome on the pick up But that honey dew list better get some attention 'Cause liven isn't liven when her list is ignored

Nuts and bolt are for women and mister you know That the ones you're forgetting are under her nose So be nice to the Kitten or the kitchen is closed

Change the seat on the toilet so she can enjoy it Put a light in her closet and tighten the headboard Fix the legs on the table to make her feel important 'Cause women wont be women if you're just blowing smoke

You can lube up the threads or if you're a go getter You can grab it with vice grips and stand on it brother Maybe swing a bigger hammer but make every effort 'Cause her give it isn't given till you choke the right bolt

Nuts and bolt are for women and mister you know That the ones you're forgetting might break up your home So be nice to the Kitten or the kitchen is closed

Penance

Forgive me Father for I have sinned
It's been twenty four years since my last confession
I have broken every commandment in one way or another
Am very much hated and must be an eyesore
I feel that God mocks me as part of His plan
Though still I'm compelled to be here today
For God's love is a beacon to people like me
Let each day be the best day of the rest of my life

Praise Jesus

I no longer get up and squirt the dirt at some old truck stop or on a burm. Thumping tires, changing flats, drinking coffee and swapping facts with saddle bums, waitresses dispatchers on drugs at best. Smart phones, GPS, Cruise Control, electric logs, undercover cops and all, then there's the wife, the kids, then Mom and Dad, my sisters, brothers, friends and foes. A laundry list of little things that all add up to why I pray for thee. Thank you Jesus for everything.

Ring Of Fire

You may think I've lost my mind But I think I know a ring of fire So right or wrong or otherwise I'll draw you a ring of fire

She's been running circles round me In a souped up Chevrolet pickup truck Setting everything on fire...
I woke up in a ring of fire

She's a revved up Screaming ring of fire She goes round, round, round Her flames go higher

She makes smoke, smoke, smoke Her flames grow hotter She holds that finger out her window My face gets redder

She's got me in a ring of fire She's got me in a ring of fire Ring of fire, ring of fire Ring of fire, ring of fire

She's a ring of fire She's a red hot, Screaming, revved up Ring of fire

For miles and miles
Her blessings lain
That you be blind

She'll see you cry
Figure for soul

He makes it clear he's the king

That keeps us from the poor and needy
Starving, beaten people at his mercy
You'd never guess that it was his work
Satisfied with your possessions?
Idolatry is what he's best with
He just needs your company

Say Something Great!

What am I thinking? Where is my heart? Am I sincere? Is my soul aloof?

Do I ever look down? At the rest of you? As beings of light? Believing in me?

Do I shed light? And if so In what way? Which way did we go?

If I am the Lord your God Am I with you? Are you in your way? How shall I bless you?

You got to have style So I went to Walmart For shorts and shirts You should see me now

Sometime Tonight

You lie here asleep in a sweet dream and shine As I sit here and dream... in spirit I'm high I feel you so much as I look to the sky I say I'm here with you love... Enjoying the ride

Sometime Tonight I'll love you like that Show you a star that warms you inside Shows you this love that sparkles through time Sometime Tonight I'll love you like that

My mind is awash in a dream made above Finding your constellation then "Oh... what a rush" Through space I receive you at the speed of gods light A reflection of you love... In a dream that's all right

Sometime Tonight I'll love you like that Show you a star that warms you inside Show you this love that sparkles through time Sometime Tonight I'll love you like that

If you have something to say

Spit it out Because you're feeling that way

Spit it out So you'll feel better Babe

Spit it out Then suck it back in

Spit it out But spit it out on my face

Spit It Out If you have something to gain

Spit it out I don't want to be your pain

Spit it out And let me suck it in

Swallow it And I'll put some more out

Stardust memories still linger in my mind and heart Electric as they travel through my dreams of you Till pretty soon the thought of waking up Will never ever, ever do You've become a stardust memory Your burning love makes my heart beat tunes so true Ones that come from rendezvous with you So hot that you could make me fit a mold

Roll me out and make me cookie dough Bake me till I'm golden brown Pass me out or keep me for yourself Have stardust cookies with warm milk Take it to another level Love I can't tell you what to do with me My stardust memories are all of you When Love my heart and soul are yours

Stardust memories still linger in my mind and heart Electric as they travel through my dreams of you Till pretty soon the thought of waking up Will never ever, ever do You've become a stardust memory Your burning love makes my heart beat a tune so true One that come of rendezvous with you My stardust memories are you...

Still I Rise

In my dreams
I rise slowly
Still I rise
Without motion
Without control
Still I rise
And I ask why
God's will?
Not mine?
Let go
Let God
I smile
And listen
Now will I
Receive Him
And
Still I rise

Sunsets

My mindset is get there planning four days ahead The details and timing spinning round in my head One more show, the logistics... those traffic delays I'll spend tonight rolling and it's getting late

So I take in a sunset as I'm headed that way It's so peaceful it's near to the look on your face The changes make me wonder if you still feel the same Do you take in a sunset as I'm headed that way

It's like I hear your heartbeat... Like I'm stuck to your chest I feel goose bumps and shivers as I'm kissing your neck Eight fingernails baby... The sounds that you make You can't keep from crying in moments of grace

So I take in a sunset as I'm headed that way It's so peaceful it's near to the look on your face The changes make me wonder if you still feel the same Do you take in a sunset as I'm headed that way

Sweet Jesus

On my rosary
Why do I so care?
Why is your mother there with you?
And why do people pray?
She was there to share Your name
For God so asked her to
Why did she call out His name?
When they lanced Him with that spear
Sweet Jesus are you listening?
Each time I face my fears?
Sweet Jesus on my rosary
Why do I believe?

Jesus Christ! The pagans are at the gate Does this mean they know You after all?

No... It means that Our Lord loved them first

So they were listening?

No... They knew it as little children

Shall I allow them my Lord?

Yes! for they come as little children

Three Million Miles

Eighteen wheels... young and crazy Your picture was framed on my dash If it seemed like a waste My focus was squarely on cash

You kept trying to tell me That you needed more from a man Then you packed up and left me That Yoyo that you couldn't stand

The way my broken heart works I still want to be there for you Make the hard times the heart times Instead of just sharing the news

Share our love in no hurry Instead of just paying our dues The way my broken heart works I still want to be there for you

Lately I feel I'm hanging And can't make it back Like I'm spinning and swaying 'Cause I need some more wax

Baby don't get me started I'm lonesome and blue Nothing gets any harder Than me into you

It's been thirty years Baby Your picture still framed on my dash You still look like an angel And I'd like to see you again

My body needs rest now And my heart needs your smile I've been beating my chest The last three million miles

Touched By An Angel

He was riding the range, he was mending his fences Thinking about women and love and bad luck Dark clouds began rising just like his resentments It started to rain as a lightning bolt struck

Left unable to think yet somehow he found shelter Deep in the shadows of a small cave That's where he felt her touching his shoulder and calling his name

He was touched by an angel in shimmering light Love lit his darkness and changed his whole life He let go and let god take his anger and pride And he cried because he was so grateful For that night he was touched by an angel

He's looking up loved ones and mending those fences He married a lady who brings him good love She loves his big heart and he loves her contentment Loves talking 'bout lightning and finding Gods love

He was touched by an angel in shimmering light Love lit his darkness and changed his whole life He let go and let god take his anger and pride Now each day he will say he's so grateful For the day he was touched by an angel

Traitor

Frogging every time I touched you We made love look good We talked a little when we had to Then we burned like Cedar wood

Every time we touch today though You say you just don't care Say that I've betrayed you so You leave me empty in despair

I used to kiss you with these lips Now all I get is punched I need you for your lubrication Not more tough up focked up love

When Forty Dollar Words Were Cheap

God's spirit moved in different ways And truth became another page

Our history had simple ways His words were earthen on their face

Death in life was full of pain And yet perdition's all the rage

Red light stop, green light go Yellow, hit the brakes and slow

When forty dollar words were cheap

When I Pray For You Today

When I read the part where All those who touched Him were healed Even if they only touched the edge of his robe I want to reach out and try to touch His sacred heart now! Praise Jesus and God bless you all in your journey To be free from the greed of this world today and tomorrow But let's work on today first You don't have to agree with a damn thing I say I do not shove religion down your throat Tomorrow may never come And today may be my last chance to say it Do not attempt to hate me I pray for you today Yesterday is gone Tomorrow is a promissory note The serenity prayer is written in present tense as follows

God grant me the serenity
To accept the things I can not change
The courage to change the things I can
And the wisdom to know the difference

It works for me

When I Pray For You Today

Which Way Did He Go?

I met an old friend on my way home
And asked him to go there with me
Have some food, take a bath and a bed
It's a little bit out of his way so he said
And replied no thanks at the Good Lord's behest
Who promised him death if he stopped instead
I insisted and he needed the sleep so
The next morning we said adios
I felt out of place as he throttled away
My friend, his Harley and ways

Which way did he go?
With his fore told fate
I ask by the side of the road and wait
Is God really waiting for him to show up
And when will I, Oh when will I, ever rate
Why do I claim to be living in faith
When I say I believe yet I am afraid
I Choose to believe in God like my friend
But which way did he go is a test of my faith

A traveler stopped by and showed me a cross on a chain He gave it to me and said he was sorry
Then he described that dear old friend of mine
Right down to the Harley he rides
He pointed out his tragic death
By a car that he lay in the road
Car, driver and Harley still there
Guarding his corpse to this day
Waiting for me to carry him home
So I'll tell my sons to bury my bones
Right next to my very best friend's

Which Way Did He Go?

Who Is It You Want?

Jesus of Nazareth they replied I am He, Jesus said They drew back and fell to the ground Again Jesus asked

Who Is It You Want?

With You

I've been hit too hard so many times
Don't know who I am after one sip of wine
I get crazy as hell without any excuse
I've been hit so hard I've swallowed a tooth
Been hit so hard I've lost my breath
Hit so hard again I came back to life
Lost all my marbles and lost track of time
Been hit so hard and so many times
What should I do? which way should I go?
All I can do is thank God I'm so slow
And got up in time to be blest and grow old

With you

Without Me

I am compromised not yet completed Compressed, condensed or Overqualified confidence idling Bursting with hidden underlying contempt Cautiously aware with the ability To overcome and outsmart the holiest of snits On the chopping block of lifes own reasons Resting on the laurels in the pages of my books You will find me willing to stop And help you win in life Even if it means defeating me But you can't do that without me

Without You

A dungeon would have done well for me I would know no shame nor honor Heart dead, mind shattered, lungs gone Legs and arms bound though I'm stronger Enough to mention you in passing Holding hands with you is massive Oh what life would never be... without you

Work A Step

For me
It's just getting there
Work a step

Is what the Spirit says
If you'll listen
She'll give you a yell
If you learn anything

You won't go to hell

Yes!

You

Praise Jesus
And if you hear me
Will you give me a sign?
God bless you!
Love! Love! Love!
That is what the Bible talks about
Love one another
I'm just sayin
No excuses from me
No collectivity
Claps of thunder, lightning strikes
False Gods nor idols before me
Forgive me Lord for I have sinned!
If I could not sin
I could never feel this wonderful again
I love you! In jesus name!

You Ain't Got Nothin'

That's what he said
That preacher was somthin'
When I got in his head
He was the devil
Only for me
When I threatened to show up
One Sunday in church
He replied loudly with bloody thirst
Come see what heaven
Will look like one day
Wrong church if I'm right
For on earth as it is in heaven for me
So is my story as we live to learn
You ain't got nothin'
Isn't in the Lord's word

You Don't Know It

Pretty misty blue mountains
You never saw me
All over your head
I blended in well
With the sweat my friend
I was all over you
Soaking right in
Giving you God's spirit
You now can not resist
God's love for His Son
Now pumps through your veins
That's how you roll
When running away
You don't know it

You Have To Have Something To Say

The more you have The more I'll have to say Have something You have to have something

You Have To Have Something To Say

You Know

It's God's will for you His good will for you If that's not what it is Then what it is Is not of God So if it is not of God What it is You know

You Love Me
