# Be There

Whenever i see you your crying or drooling  
Whenever i hear you your complanig or crying  
I really want to make you feel better  
I really want to help you get of this relationship rollercoaster  
You dont see what hes doing to you  
You dont see what your doing to me  
But no matter the situation  
No matter the fight  
No matter the cause  
I will always be there to help you  
I will always be there to comfort you  
I will always be there to tell you if your unsure  
I will hold you when you need me to  
Whenever you need me i will be there

# Day By Day

Next thin ya know shes walkin out that door  
Next thing ya know he aint comin back from work  
Next thing ya know ya hate her then ya miss her when shes gone  
Day by day things change  
Day by day people with their problems dont come out the way you want them to  
Day by day things get tougher  
Day by day you feel stronger about what their gonna do  
next thing ya know your pleadin with the jugde sayin please dont let them go  
next thing ya know you aint in the same place no more  
Next thing ya know they say its goin to be okay but it wont

# Had I Known

Had I known this would happen  
I would have prepared  
Had I known what you would do  
I wouldn't have cared  
But the harder I try  
the more it feels like a lie  
Sometimes I wish I could forget you  
and get away from it all  
other times i wish i could be with you  
and that you would call  
if only for a moment  
you listened to the things I said  
it would mean so much more  
than the fantasies in my head  
not sure what to do now  
or what to say  
and if i did i probably wouldn't know how  
had I known i would feel this way  
and be unsure what to do  
I would have never fallen in love with you

# Think Of You.....

Ur running through my mind everyday  
And theres a lot of things I wish I could say  
So young to be in love but i can't hide it anymore  
Everyday I feel like I love you more and more  
No matter how hard I try no matter what I do  
All I do is think about you
