i live in fear of all this tears through out the years

I Wont Let You Bring Me Down

Everyday i walk around.
with such a frown.
looking at the ground.
i need you to know
you cant
bring me
down.
leave me alone.
to Face the world unknown
dark with out
you and a smile back with a remark.
never regret but the
pain still
remains.
with all the
pain that.....you
cant

let go

Unknown

here i sit alone,
waiting for you to pick up your phone
just need some closure
its not fair.
you arent here
y are you there?
i miss your stair.
pain.
still remains.
my tears fall down
like rain.
its such a fucking shame
you keep on playing this lame game
i miss you and i want to forget you
