KUSH MISHRA()

Alone

Some battles have to be fought alone.
Some roads have to be crossed alone.
Never be emotionally attached to anyone,
you never know when you have to walk ALONE.

Alone Missing Someone

Alone like missing someone
Chasing the dreams of my eyes
Want to be someone's dream
But having her in my dream
Don't know what is this called
But i am happy and at same time i am sad
I am alone
And i am also glad
Want only you to understand me
But i am alone
Want to have something for forever
But sometimes it seems it will happen never
I am unknown to my heart also
But it hurts when there is heart

I Am Back Again

I was lost somewhere,
with you in my heart.
I stopped writing,
I stopped living too.

I spend all these times,
with you in my heart.
And i lost myself
on the same day
I lost you.

But I am back now
with more energy in my heart
I will live again
And i will smile again
Because you are in my heart.
I am glad to have you in my heart.
and I am Back Again
to live me life.
to love you
which make me feel alive.

I Want To Lost In My Dreams

Again I want to lost in my dreams,
where on me, no one can scream.
where i always get pleasure
without paying anything.
where i meet with my girlfriend
without waiting for months.
where she will not leave me in this pain,
and when she is with me all of sudden it starts rain.
we both get drenched together,
and make promises to be like this forever.
where she is with me all the time,
and make me feel that she is only mine.
where she will hold my hand,
and guide me to my home.
but when i woke up
i was all alone
rain had dissolved my tears
and no one realize my fear.
for me, this life has no more treasure
and my dreams can only give me pleasure.
If I get happiness only in my dreams,
then for forever i want to lost in my dreams.

I Want To Walk With You

I want to hold your hand
and walk for a mile,
But I don't want to miss you for a while.
Your memories are deeper than river Nile,
from which my soul can never exile.

I Will Always Proceed

First time ever I had got some objectives
and I had seen a dream to make it true
I fought a lot
just to get the victory
I am feeling restlessness in my every breath
a different kind of pain in my heartbeat
It seems that it is only beating
to get the victory
no matter I will win or not
But I am satisfied
Because at least I tried
and I will never give up
till my life goes on
with the hope of getting success
I will always proceed.

I Will Always Rise

You can break me in thousand pieces,
like you had broken my heart.
but I had only loved you
and with that love
I WILL ALWAYS RISE
my words can't reach to you
but my heartbeat is enough to say,
I have a passion to grow
and I will always rise.
Your love might be not enough
but my love will never become less
I had only loved you
and I will only love you.
I will never hate you,
and I will never look back
I had decided to proceed
and with love for you in my heart
I will always rise.

My Death Will Led Me To Pradise

This life had given me a lot of pain.
Only my death can free me from this pain.
I don't have reason for being alive,
all person who came in my life had kept me aside.
They was with me till they have something from me to gain,
now they had left me in extreme pain.
Time has left only sand,
in my lonley hand.
I am lonley in my life.
Hope my death will led me to paradise.

My Feelings Will Never Fade

My feeling for you will never fade,
you are there in all my dreams with different shade.
I agree, i was not totally true,
but i was not completely fake.
I lie because i always want you to get,
you left me and i don't want you to forget.
My angel, come back in my life,
i promise to make you my wife.
You are the one i always desire.
Without you my world will catch fire.

Smile

Smiling is infectious,
it catches like flu.
Somebody smiled at me today,
and i started smiling too.

You Will Always Remember Me

You can leave me abandon,
but your thoughts can never leave me.
You can get rid off me,
but your memories will never leave me.
You can hate me,
but you can't stop me to love you.
You can break every relation with me,
but you can't make me to forget you.
You can kill me,
but you can't erase my memories.
You can try to forget me,
but while trying you will always remember me.
