# A Friend Can...

a friend can

-make you smile when your sad

-listen to your thoughts

-keep your secrets

-care about you

-have fun with you

-help you when you need it

-encourage you to do your best

-help when your nervous

-always be there for

-won't let you down

-won't make fun of you

and more

but a best friend can do all that X2

# A True Friend

a true friend is still a friend  
no matter what you do  
if you haven't talked  
in weeks months or years  
you still remember  
the times together  
whatever u do  
they will always be in you

# Can'T Let You Go

every time you stand me up  
or ditch me for some chick  
i just wait there  
and wait  
and wait  
hoping your late  
but your not.  
so i go home.  
and right when i see your name come up on my phone.  
i run to get it  
because i want to talk to you  
i don't know why  
but i can't let you go </3

# Changed

all those times we fought and always made up  
that is how i know we are friends  
but lately im mad at the person you are  
because i know you better then that  
and now im really mad because  
you are different.  
you are not the friend i once new and loved  
but a stranger that wasn't in my past  
once more you changed so fast  
and your not my friend  
now im mad at the new you  
you blew it this time  
how could you be like that

# Choice

it was our choice  
you said its better not to talk  
i choose no  
then you choose talk  
and i chose no  
but now its all my choice  
you say yes now  
but i hate hurting you  
you told me i was  
then you said i wasn't  
Im confused  
i decide  
dont talk  
i dont want to hurt you  
by just talking to someone  
its my choice  
and i choose no  
i miss you  
but it was you who told me too  
i never ever thought about it  
til now

# Have You Ever?

have you ever felt like nothing matters?  
like all you want to do is be alone?  
you don't want to talk to anyone? .  
don't want to smile and nod like everything in your life is ok?  
like if you tell someone you won't know how to say it?  
like your the only one with problems?  
like God is only after you?  
well that's how life is.  
you have to either except it or let it ruin your life.

# I Hope I See You Fall

It amazes me how much I hate you  
How much I wouldn't mind  
If you could just leave my life  
how I would smile  
And forget the memories  
and all the good times we had together  
Because you are selfish and cruel

You think your better than everyone else  
You think you can do everything right  
and say whatever you please  
But that's not how life is  
Were not going to sit back  
While you  
Brag and post and lie  
Were not all going to be your friend  
and deal with you  
Because we are going to get sick of it  
While you laugh at us  
and say were your friends  
then call when nobody else is available  
No were not all going to just  
Go with the flow.  
i hope one day  
You get it all back as hard as you dish out  
Because you deserve it  
And I hope Im around  
To see you fall  
So I can laugh  
The same way  
You do to me  
Every day.

# I Know Who I Am

i know who i am.  
i know I'm not perfect.  
or the everybody's favourite.  
i don't always do the right thing  
or be nice to my friends.  
i might not be the same person  
from the day before  
but that's just who i am.  
and you can't change that.  
because i am who i am.

# If I Died Tonight....

if i died tonight  
would u regret this fight?  
would you wish it never happened?  
instead of yelling in my face

if i died tonight...  
would you cry for me?  
would u wish we talked it out  
instead of saying things we'll regret?

if i died tonight  
would you stand up for me?  
saying i don't deserve this?  
even after what I've done?

if i died tonight  
would you know the truth  
would you know you were my best friend  
and that i died for you

# If I Said

if i said i hate u  
would you say what did i do?

if i said i missed you  
would you say i'm far from you?

if i said i need you true  
would u say im here for you?

if i said i love you  
would you say i love you too?

## **If I.....**

if i cried an ocean I'd give it to you  
if i swam that ocean I'd invite you  
if we saw an island you know what to do  
if i got hurt at least i have you

# Rain Running Down The Windows

the rain running down the windows  
like the tears on my face  
remembering all the lies  
while i stared into your eyes  
it feels like i could die  
knowing every line from your mouth  
was probably rehearsed.  
so as i sit here  
time passes slowly while waiting  
for you to come to my door  
and say sorry  
because that night  
you walked off  
leaving me in the rain  
watching you walk away  
so now I'm done  
there's no love only hate  
so I'll finally  
move on

# Take The Picture Off The Wall

take out the picture  
blow off the dust  
remove the frame  
it's starting to rust  
remember the times  
we had together  
what ever happened  
to best friends forever?

# To Be A Person

To be a person is to be someone who has fears and makes mistakes.  
To love and be loved by God.

To be a person is to never give up and enjoy life  
To respect everyone and know you will never know everything.

To be a person is to know right from wrong and make good decisions.  
To know your limits and be worried or stressed.

To be a person is to be nervous for what the future brings you  
To be yourself and try your best.

To be a person is to work hard, have drama  
and to live your life.

To be a person is to have emotions.  
To be confused about life and wonder.

# We Were Friends

when i leave you  
i want you to know  
that it's not because i stopped caring  
it's because you stopped being a friend.

every once in a while  
i think of you  
and all the times together  
how you stepped up once in a while  
but then fell short

if you want to have 2 faces at least make one pretty  
so i can look at one  
once in a while  
we talked all the time  
now we can't even look a eachother

# What U Do

we were friends. i dont know how we became this close but we did. but latly you havent been the girl i know. the girl who i called my best friend. you act all mean and we get in alot of fights. i cant stand this. i knew you were gonna leave me for someone else. everyone has been warning me. but i thought i could depend on you. i cant! ! ! ! you left me for her. i know shes new but you could of said hi once in a while. talk to me for at least 5 minutes. since ive met you ive been doing everything possible to make you smile. when you get in fights im right there. but where are you when i need you. i did physical things to hurt you but never never on purpose. you have always been my friend and i could always depend on you.

but someone needs to tell you this one day or another. you arent a princess this aint a fairy tale your not the one everyone will look up to you. you think you get it pretty easy dont you. WAIT YOU DO GET IT EASY. everyone loves you and your sister. i know your going through alot with someone i know. but you make people get so close to you. you dont mean too but you do. you never wanted this i know but its the truth.

i broke promises to everyone. i promised i wouldnt let something like this happen but it did n i hate it. just stop leaving people. one day your with her next your with another next day another just choose someone or alot of people and hang out with everyone. i know you dont know that your doing this but you are. i cant take it any more. you being with me one day another person the next then a week later you come back to me. thats why if you dont change then this will be our good-bye so please change for everyone your doing this too

# What We Are

what are we  
were best friends  
that's what  
we get in little  
stupid fights  
and make eachother  
sad  
but the thing that wont change  
is the memories we have had  
people stay close  
some people drift apart  
whatever happens to us  
ill always remember you  
in my heart

# Without You

without you there's.....  
no ice to my cream  
no syrup to my pancakes  
no reason to make a wish

without you there's.....  
no strings to my guitar  
no ice to my tea  
no best to my friend

without you i....  
have nothing to look forward too  
no reason for school  
no friend like you

without you there...  
is to many frowns  
no one like you by my side  
no one to talk too  
but most of all  
there is...  
no me without you
