Abused

blood dripping everywhere
you see me waving or crying for help
but you are just going to stand rhere
i need help can anyone hear

just stop i have been with you for a long time
i have blood dripping from me

after you just hit me
just stop abusing me
just stop abusing

Beautiful

you are beautiful
people may judge
but don't let it stop you
people talk just say you're beautiful

people don't care
some jealous
some are stereo type
just kill them with kindness and say you are beautiful

Pain

can you feel my pain
my head aching
here all alone
who there with me cause i am in pain

whose here to show me the way
stomach starts hurt
whose here now
can anyone fell my pain

I'm asking some can you see my pain
hand shaking whose here to feel my pain
walls starting tearing apart whose here to feel my pain
dirt rising from the ground
whose here to be around my pain

legs start shaking against walls
no one here
who can feel my pain
no one

chest starts to rush
hardly breathe
can some one help me please
can anyone feel my pain

Rock

you see a rock
wondered what could it be
you blush you talk
but all that meaning is rough

that roughness is hard as a rock
one day you just sat near a rock
the next you opened your eyes wondering

the next day who you will be turned out to be a solid rock

Uncle Roland

you laugh each day
you smile when you lay
were the hug i get each morning
wheres the kiss you give each day

i see you shining in the sky
you glow on me without an eye
you say i love you but i never cry
i dream about you day and night
we can not be out of sight

Until We Meet Again

good bye my friend
all the great times
mayabe its is our time last
until we meet again

we shine through the bright skies
but our color is changing
sometimes our days were awful
but until we meet again

Wating

you got me waiting here
got me shedding a tear
all balled up in the air
got me waiting here

here all alone
no here where are you
why you have me waiting
I'm just waiting

Your Eyes

when you touch me
it makes my heart beat
when your eyes feel me
it make chest beat

your eyes are wonderful
how come i can't get over fear
some days i could rest
but its your eyes
