Misty moon(June 11)

has 10 dogs. very outgoing. writes about personal experience. poem with name as their title i knew very well.

Adored

When im alone i feel so bored
You make me feel so adored
You me feel loved
Like i can be myself
You make me feel so adored

Misty moon

Afraid

You make me feel afraid
Afraid to talk
I see the cops doing the raid
Last time i talked i could barely walk

Time and time again
I have cried after it all
I should have never let you in.
I pray that this time you'll be put behind walls.

Sometimes nights are way too long
I have rising fears
When you feel so alone
You say your sorry another day but the same song
You get another beer
I don't have anyone

Like i always feel like tomorrow seems so far away
I can't stand to feel this way another day.

Misty moon

Along The Way

My soul started to fade
I lost my self esteem along the way
I sold myself the way

The way to fame
I'm starting to feel the shame
I'm coming up with reasons to start to swinging fists
They tell me to sit down and a-just
My soul is full of pain
Along the way

Misty moon

Angel

Shes an angel of the fallen
Shes an angel of destruction
She can be a little bit of mischievous
Hell, she can be a little bit malicious
Shes the ring leader of sin
But no one can deny that shes an angel

Misty moon

Aubrey

Again here i am
Just thinking to myself
How am i supposed to feel?
There's too much stuff running through my mind.
First, you say you need to be free.
Now you say you need me.

Now my brain is driving me insane.
This is more than i can take
You tell me you love me first.
Then you throw your heart into reverse
Are you mad that i'm using your name in this free verse?
Maybe you need to step back and enjoy this curse
Before you ended up in a hearse.

I'm sick of coming back
Every time ur in the mood.
To whisper something sweet in my ear.
It's hard to move on.
Cause every time i think you're gone
You show up at my door.
Is this just a detour?

Every once in a while out of sight
I just wish you would walk away from the fight.
I wish your were out of my mind

Misty moon

Blue Eyed Devil

You walk in with icy blue eyes
You're a blue eyed devil
You come in without any emotions
You're a blue eyed devil
One of your looks send chill down my spine
You're a blue eyed devil
You look like you walked out of my own personal hell
You're my devil
You make me want to yell
I just know it
I can feel it.
You're my blue eyed devil

Misty moon

Boogie Man

You cut me deep
You steal my sleep

He's the monster of the night.
He's the boogie man.

You bring on my tears
You play on my fears

You don't dwell in light
I'm ready to fight

I don't care cuz i don't live there anymore.

Misty moon

Breaking Free

Left here all alone
My mood sets the tone
Unsure of what i feel
Now its a done deal
Unclear, new fears
New wounds
My thoughts loom
Breaking free of your hold.
I'm done with doing what i'm told.
Cuz I'm breaking free.

Misty moon

Chances

There's another glance
Wow, you actually think you still have a chance.
You want to play my mind games.
But man your going to remember my name.

You make me feel lower than dirt.
Now i have someone to hold.
I don't want anyone who leaves me so cold.

You say i tells lies.
Sometimes you make me want to die.

Misty moon

Change This World

How do i want to change this world?
Is to be an influence on others.
How can you think its another?
Created this world?

Look outside your self.
Reach out to another?
Created this world?

Whether you're a mother
Or a daughter,
You're an influence on others.

How i want to change this world
Is not much,
But we can all hope that one day we can change this world.
Nothing is out of touch.

Misty moon

Cry For Help

We've been hiding out for too long
I've listened to the mourning song
For so long

Say a prayer
Cry for help
This low no one's going to
Hear you now
I have a feeling this whole operation is going to blow
Say a prayer
Cry for help

Misty moon

Dawn

Dawn's coming
I'm running
I hear the howls
Coming from the forest within
The dawn's early light
Shows the fear
I try so hard to hide

Dawn's coming
Time running out
I heard the crash
Before i see nothing but the dark

Misty moon

Dead Of Night

I would sing
To forget everything bad around me
Songs with hold the power to heal
Someone must have sent me from the heavens above.
Or maybe someone sent you from below.
Someone must have made you for me.

Its like something inside of me ting.
A lot ofthing aren't meant to be.
I know a lot of things about you like you favorite color is teal.
Now that you came into my life its like, its now full of love
There's something about you that makes me glow
One we can hope that this is meant to be.

We are alike in ways like how we both love the dead of night
The angels sing for us in the dead of night.
The passion is still there even in the dead of the winter
You're all i can see in the dead of night.

All of this seems so wrong.

Misty moon

Decide

How do you decide who lives or who dies?

Do you decide who you are going to hurt with your lies?

Does it matter who cries?

How do you choose between what right and whats wrong?

How do you decide how far will you trust?

How do you decide who to love?

How do you decide what wrong or right?

Misty moon

Devil In My Mind

The devil in my mind tells me things he shouldnt

The devil in my mind tells me things

Sometimes he trys to control me

Sometimes he makes me do things

He can only control me if i let he.

Misty moon

Disasters

Am i just another casualty?
In the battle, you're fighting?
You're your own worst enemy,
At war with yourself, but you can't see.

I can't stand to watch
You're like an comet and your coming fast
Everywhere you go, it seems like lighting strikes but then yo crash,
But how long will this last?
We both know it will end the same.
Is it because of your past?
In public you act so tame.
Everywhere you go it seems like lighting strikes.
But there's no rain
So really, you have nothing to gain
Now how does it feel to feel my pain?

Feels like you're moving in slow motion
I'm sick of your potion.
You tried everything to keep me to stay.
And now you're too boring,
You better hang on cause its a long way down.

Watching you slip away
It's getting harder everyday
When your coming don like a hurricane
I can't stand the pain.
So i have to look away.

Misty moon

Dreamer

All your life you have spent it wishing and dreaming
You have the life of an dreamer.
You dream that you are a famous movie star
Or maybe a famous author.

This is the life of a dreamer
Everyone around you tells you to grow up and get a real job.
But your spirit is young and carefree.
In your heart, body and mind you will always be a dreamer.

Misty moon

Fame Game

You should see what i'm wearing to the club this weekend
My outfit is amkin you start freaking
Right now im ready to go to the show
i'm liking your style a little preppy mixed with rock n roll

Are you ready for the fame
That comes with my name?
Are you ready to play the game?

Do wanna hold me?
Do you wanna love me?
When are you going to leave?
Why should you try to believe
Don't worry my lashes are dry
Black tears are what happens when i cry

Misty moon

Fight Night

One night
Let's get ready to fight
Lights out
Last call
Everyone is about to find out what this fight is about.
I'm about to throw you against the wall.

I'm gonna make you fall.
Everything you have i'm gonna to take it all.
Get your friends and i'll get mine
I have a feeling that you're going to say one of your lines.

Your about to pay the price
My words are like ice
I'm getting ready to fight
Cut off all the lights

i'm gonig to knock you out
I'm going to show you what i'm all about
I'm ready to fight
Just remember its only for one night.

Misty moon

Find The Light

It always feels like the night.
Im so far in the dark i cant even see the light.
Where are the people who jusge me?
Am i that unforgiveable?
I cant find the light.

Misty moon

Finding Out

I want to find out who you really are
Just forget the games
It seems with you there is too much pain to bare.

I ready to pass you by
Without a second glance
So need to take the chance
You can't even give me a meekly hi

I just not going to be another number
I just hope you think of me in your slumber

Misty moon

Fraglie

I am fragile, but i'm strong enough
I am wanted, public enemy number one
I am lying, cause i never fell
Cause i been with you all along
In your shadows
If you need me
Then follow me to hell
I am fragile as a porcelain doll
Be careful i might fall.

Misty moon

Free Ryhme

I remember the way you made love to me
Like the way i was the only damn thing you needed
Im guessing that you changed your mind
Right now, i'm feeling stupid to think that you were mine

I wish i could make sense of it all
I can't even talkn now
You were my lover
You were my world
I don't want to hover
I'm guessing now you want your pearls

But i'm standing tall
But i'm sorry i wasn't here
I'm guessing you have it all
Don't worry i won't shed a tear

You're coming near
I have my fears
You say you love me
But i feel like you hate me
You warn all the guys to stay the hell away from me

Love me, forsake me.

I've heard it all before don't worry i'm strong.

I bet you hate me
I wish you now harm
I can't believe your still listening to me
Mabye because you feel my charm.

Misty moon

Friends

We were friends long before anything else.
I have learned that friends come and go.
But you have stayed through it all.
Thats why i call you my friend.

Misty moon

Hard To Find

Your the boy who is always on my mind
Your the guy who is hard to find

I have a confession
Its like you've taking me over like i'm under a demoic possesion

I scream
But i can't even now cuz your in my dreams

I start to shake
I pray that i'm awake

Misty moon

Hate

Is this hate?
Is this too much for you to take?
Is this pain i feel?
Or is this pain i inflict?

Is this love?
Is this love i give?
Or is this the love that i love to hate?
I think it might be hate.

Do you always take the bait?
Are you tired of the wait?
Inhale, intake, feel, embrace the hate.
Or is this just my hate?

Do you feel my hate?
Are we going to change our hate?
Is this all fake?
Is this too much to take?

Misty moon

Heart On My Sleeve

I have my heart on my sleeve
Is that hard for you to believe?
I am preparing myself for the impact
You look like your ready to attack.
You're turning from Dr. Jekyll to Mr. Hyde

My heart is on my sleeve
You keep coming up from my past
You're coming up fast.

Misty moon

Her Love

Love gave me a lot of slack
Now her heart is full of black
I have an aching feeling she now wants it all back.

Her love is something I don't have no more.
I wish I could go back to what we had before
Now all I have is folk lore

All I have is no gore
It now feels like a bore
Her love hurts to the core

Her love is like tacks
Her love feels like its demoniac
All of this now I have insomniac

Misty moon

How Strong Do You Think I Am?

I feel chained down,
You shove me to the ground
I can't run, i can't shout
Just please let me out

People ask me how
Do you think that if i don't cry that i'm strong?
Do you think that you could go and do what you please that you could go & do?
I can't believe i'm even fighting for you?
Some people wonder if i even think.
Did i?
I wish you can really see who i am.

Am i your rock, rose, or fist?
I'm still waiting for your kiss.
I'm sick of being your dis.
I don't know how much more i can take of this.

You're so heartless
That this couldn't mean less
I feel like i could have puched you in the face
Now baby i have something to say
I'm done with the chase
What i am i going to gain?
With this pain

I'm only human
Baby i don't need a little boy i need a man
Don't worry i won't shed a tear
So don't have any fears.

Misty moon

I Dare You

I dare you to live
I dare you to jump without any hesitation
I dare you to love without receiving

I dare you to believe
I dare you to live without any invitation
I dare you to see without seeing

I dare you to live without any regrets

Misty moon

I Don'T Mind At All

I don't mind at all
Cuz i'm just the kid who falls
I want it all

I'm in the dark
Who's going to find me?
Can't you hear my plea?
Won't you come for me?

Cold and needed to be hold
Whispers of things i shouldn't be told?
I'm afraid
Always been
I feel all the hate

My mind is a fog
I don't mind it at all
I'm just the kid who falls
I want it all
I need to have it all
I don't mind it at all.

Misty moon

I Feel Like

I feel like am always a wake around you
I feel like i can talk to you til i'm blue.

I'm not ready to have my heart broken.
The last one took my heart just as a token

There's something about you
That kind of wants me to be with you.

Your not trying to change me
Your just letting me be.

With you i feel like i belong
I made me think that we were going to be together for long.

Misty moon

I Feel Like I'M In Love With You

If i said, i didn't love you
Then i am lying, cuz i fell madly in love with you
I feel like i'm in love with you

I followed you straight to hell
Face down
Hands tied
Its starting now
i let it slide
one too many times
Too long
don't worry about soon it going to turn into my fun
Now its my turn for you to beg, my fun
is here to stay

Misty moon

I Love/ I Hate

I love you
I hate you
I dont know what to do with you

I cant be with you
I cant be without you
I dont know what to do with you

I love you
I hate you
I dont know what to do with you

Misty moon

I Realize

I realize that everyone i could count on has made me cry.

I realize the truth in all the lies.

I realize that this is my time to shine.

Irealize that everything i touch is gone.

I realize that now i'm all alone.

I realize what you bring to my life.

Misty moon

I Wonder

Midnight working on weather downs the story lines.
I try to find the truth a mist of all the lies.
God, sometimes, I wish you were mine.
I wish people didn't have to die.
When is this feeling to turn real.
I wonder when this is going to feel real.
I wonder how much i can bare
I wonder if you can feel my pain
I wonder if I'm in your thoughts

Misty moon

III

im starting to feel ill
im guessing its time to pop another pill
I cant help but wonder did i remember to sign my name on the will?

i think at that last night i took one too many pills at that rave
Good thing i already picked out my grave

Im ready to break free
I need to cleanz my ora

it kind of feels like a dream
Util you hear my screams

Misty moon

I'M Sick Of The Games

There is now no more time to waste
There are no more games.
Don't be in a haste.
No More games now they are just names.

I'm just ready for your embrace
Now there's no one to blame
For your mistakes
i'm sick of the shame

Sometimes you make my heart ache
For your mistakes
I'm sick of the shame.

Sometimes you make my heart my heart ache
From not being with out you
I'm sick of the games that makes my head ache
You're like an owl who calls out who
You feel like you need to act out
I just want to find out what you're about

Misty moon

In The Dark

I'm in the dark now
In the dark, everything is sick and twisted
Now is the chance to ask how
How did my life get so twisted?

I'm sick of the lies
Some how i saw the errors
I'm ready for the highs
When i look you in the eyes all i see is pure terror

In the dark is not the place where want to be
This is the only thing i can see

I want to see the light
I want to see the world in sunlight
That i don't want to be in the night

In the dark is the darkest place.
I don't want to be dis-placed

Misty moon

Inside Pain

Eyes open wide
Pain thrashes you from the inside
You try to hide

Its no use they can see
You try to plea
Their trying to break me

They call their boss
I feel all the blood loss
I feel like i've been double cross

Misty moon

Is Your Heart

Is your heart safe with me?
Why are always asking who is he?
And why are you asking me do you want to be with me?
Is your heart safe with me?
Who is she?
Do you want to be with me?
Is my heart safe with you?

Misty moon

Issues

So many issues

Boy after im finshed with you your goinmg to need tissues

Dont worry im going to do this without any feelings.

Without breathing

Im the only one who is leaving.

Im done with all the lying

Now you should start hiding.

Misty moon

Jack-N- Sally

Jack -n- Sally
Sally -n- Jack
Never meant to be.

Both in dis-may
Winter in the month of may
It started with a simple hey

As the night falls the feeling of sorrow
The wanting of tomorrow
Turning and thrashing in the middle of the night
Laying in bed watching the mourning light.
The mourning light shines so bright.

Misty moon

Just Keep Them

What ever i gave you, you may keep
All those memories i wish to forget
Just kiss me and I lay me down to sleep

I thought you needed me
I can't believe i was so naive
I can't believe all the time that i wasted
I thought you could be mine

I feel so empty
Now you have a price to pay
You probably don't even give a hey

Misty moon

Kota

There are many things I want to say.
I wish I could go back to the time before that day.
I would have told you
How much I really love you.
I miss you dearly
I can remember everything so clearly.
I think of everything I'll never see you do
Kota, I know you love me too.
I'd rather be in your place than in mine.
I will always take you where ever I go,
I'll never leave you behind.

Misty moon

Lookin' Into Your Heart

Lookin' into your heart
Makes me want to fall apart
Havrvest moon
Above
Is showing me all of your love
It takes death
To show us what it means to be alive.

Misty moon

Love Like That

sid and nancy, bonnie and clyde, johnny and june
i wanna love like them
i wanna have love like that
you dont have love like that anymore

people use that type of love as a mat
you dont have like that anymore
love with a passion
love like its an obsession

sid and nancy, bonnie and clyde, johnny and june
i wanna love like them
i wanna love like that
you dont have love like that anymore

Where you feel like thers no floor
i wanna love like that
i wanna love like them

Misty moon

Misty

My hands are always icy cold
Icy cold heart is what i have to deal with
Silly, funloving at times
Too much pain in the past
Young, brave, and navie at times

Misty moon

Monsters In My Head

I can feel them in my mind
I can feel them in my bones
People says its only in my mind
Its just my imagation

I feel them, they're making me sick to my core
I can feel their eyes bore into my skin
Their skin is icy cold.
Their screams i can hear clear as day.
Their screams are gut retching
I feel the darkness overcoming me.

I hope, i pray that this process, their process is quick
I can feel the sickness settig in.
The sickness is setting in
My thoughts are sick and twisted.

Misty moon

My Dream

My dream looks like the day full of life, full of friends

My dream tastes like ice cold shine on a hot summer day running down my throat

My dreams feel like it's a dream with in a dream

My dream feels like waves crashing and like fireworks going off.

My dream smells like smoke and like wild strawberries in July.

Misty moon

My Heart

My heart sometimes roams.

My heart aches sometimes it feels like its ready to break.

My heart can only take so much

You're the only one who can touch my heart

My heart

It feels like your tearing it apart.

My heart does flip-flops when you're around

I feel like i can't touch the ground

My heart aches

So much when were apart

Misty moon

My Questions

If i fell for you
Would you catch me?
If i say i love you
Would you want to leave me?
If i ask you to leave
Would you leave me?
If i got into a fight would you come to my cause?
If i said i didn't need a boy cuz i need a man.
Would you stand up and be with me?
If i fell would you help me up.

Misty moon

My Thoughts

Words are screaming in my head
All of this seems like one big dread
It seems like every one i know ends up dead

It seems so wrong
Everyone told me to be strong
Is it wrong for me to be this strong

The air i breathe
The dreams i dream

These dreams only come when i sleep
Can i keep all those memories?
Are you ready to make the leap?
Are you able and willing now to sleep?

Misty moon

Not An Angel

I'm not an angel
Maybe i fell from grace
I tear you down
I make you bleed
I can't help myself
It's hurting you
Its hurting me

I'm not an angel
I'm the wall you keep crashing into.
Maybe i used to be the girl with the halo
That went out the door
When i got my first taste.
And i fell from grace.
I'm not an angel

Misty moon

Not Worth

I'm not worth your truth anymore
I'm numb to your abuse
The pain has made me sore
You leave me numb to the core

Bring me all your hate
You love watching me bleed
You love to see my fears come true
I can't believe i loved you

Misty moon

On Halloween Night

Goblins and ghouls
Witches and twitches
Howling wolves

All on one night you will see
Vampires and werewolves sing the lunar song

You will hear the shrieks
And fits of giggles and laughter

All you will see on halloween night

Misty moon

Once

Some people say why.
Some people say how.
But some really don't care.
Some don't believe
They don't believe how fast someone's life can be gone at once.

They don't see how fast someone can be there and then they can be gone just as fast.
Don't hesitate tell the people you love how much they mean to you.

Misty moon

One Last Time

I want to hear my name on your lips
One last time

I want to feel your kiss
One last time

I want to be next to you
One last time

I want to lie next to you
One last time

I want to feel your heart beating with mine
One last time

Don't worry honey tonight there won't be any tears i just want to be with you
One last time

Sweetie, turn out the lights and let's disappear
One last time

Misty moon

Porcelain Doll

Why do you let me sit on a shelf all alone?
Don't you know i am fragile?
Why are you always bring me down?
Why do you use me?
Why doesn't anyone stick around?
Don't they realize that i'm a porcelain doll?
Barely touch
I break
I don't know how much i can take.
Small, breakable, unsure, unloved
Untouched
Beautiful, fragile doll.
I am a porcelain doll.

Misty moon

Prayer

Help me find my way
Temptations have swayed my faith
Beliefs of purity
Are often by insainty
With such dispair
Do you even care?

Misty moon

Questions

Are you screaming inside,
Trying to break free?
Do you try to be calm on the outside?
Right now i am just trying to be me.

Do you recognize my pain?
Is it something that you can relate to?
Or maybe it's something you do?

Relate, anticipate, dedicate.
Can you understand the verses i'm writing?

Misty moon

Ragdoll

You treat me wrong.
But when i stand up for you, i stand strong.
I'm sick of your lies.
You make me want to die.

When you're around, i feel so high i can't touch the ground.
I feel lower than the ground when you're not around.
You toss me around like a little ragdoll.
Now its time for you to pay a toll.

You knocked me down to many times,
Now i'm done with all of your lies.
You said i was wrong,
Maybe i was but now i'm strong.

Maybe i should play the part of your doll.
Then again i don't want to be your stupid little ragdoll
I bet a billion
You told less than a million

To think i though you loved me
In actuality, you want to kill me.
To think about all those times i cried over you.
But inside i felt like i should die for you.

I'm not your ragdoll anymore
I hope this hurts you to the core.

Misty moon

Rain

You can wash away sins
It makes things grow
It only depends
On how it make things glow

In the rain
It can wash away your pain
Think of all the things you can gain
Think of all the pretty things that the rain brings

Misty moon

Real Deal

Whats the real deal?
Do you want to be with me?
My love is real if you are here to play a game.
There's the door
So you can go find urself another person u adore
Do you believe in me?
Do you have my hearts key?

Misty moon

Rock Star Boy

Rock star boy
With their little toys
Boy he can rock out on the guock out on your guitar
But baby i could rock out with your drums
Rock star boy
Dont you know how banging you really are?

Misty moon

Rotting Bones

Im losing my grip
Only hanging on with fingertips
Candy coated death
Laced with crystal meth
Its her suicide
Just leave her heart alone
Leave her to rest with her rotting bones

Misty moon

Shattered Glass

I can feel the glass
I see a face from the past

I am scared as hell
But i know the reactions if i yell

He says go ahead and cry honey theres no one to tell
My face grew pale

He launches himself to attack
I react

When i thought that, i felt it all
I'm thrown against the wall

I betting everything right now you're feeling tall
Right now, im crawling into the hall.

I'm sick of being attacked
Now im fighting back.

Misty moon

Shookin Up

My whole body shook
My innocence is what you took

This my friend has me itchin to pull the trigger
Yeah your fist is big, but my gun is bigger.

Baby i've got a rage
Most people wish i was sitting in a cage.

Misty moon

Shooting Staar

Lying on the ground
Side by side
Staring at the sky
I don't see nothing
I'm just trying to blind

But i just see the flame
I see the future
And it won't change
A single word i say
A single thing i do

Watch me burn
Like a shooting staar
You never thought
I would get this far
Turn to dust
In the atmosphere
Don't you blink
Because i might disappear

Like a shooting staar
Watch me disappear

Misty moon

So You Let Me Go

I wanted freedom
So you let me go.

I said i didn't need anyone to be with me.
So you let me go.

I said i needed to go solo
So you let me go.

You make me feel so completed.
So you let me go

My dear you said you were going to let me go
So you let me go

That's what i needed to hear
So you let me go

I said i needed to be on my own
So you let me go

Misty moon

Some Of Us

Some of us live in lightness
Some of us live in the darkness
Some of us live in happiness
Some of us live in fear
Some of us have tears
Some of us have full bellies
Some of us have empty bellies
Some of us have faith
Some of us have hope
Some of us have courage

Misty moon

Take Me Away

Take me away
Just take me away
What do i do now?

Take me away from here
Take me away from him
Take me away

What was you supposed to do?
What was i supposed to say?
What was i supposed to do?
Was i supposed to stay?
I needed to be taken away.

Misty moon

That Look

I've seen this look before
Don't worry i have thrown nothing away
I don't think i can take this look anymore
I'm ready for a new day

I'm ready to feel alive.
I'm ready to believe
I realize that i will always see this look.

Misty moon

The Curse Of Death

Would you take a kiss from a gipsy?
Would you take her world in until they make you tipsy?
Would you take poison from a ghost if it would make you see?
What would happen if you were able to see?
What would happen if your faith goes?
Do you the ghost wailing sound?
Do you wail at the sound?
Would you invited the uninvited in if it saved?
All these things it haunts me.
All these things burdens me.
I feel the brink of death
It sucks me in.
Can you feel the crawling within?
Seizing the universe of death.
Does these thoughts settle in your mind?

Misty moon

The Hippie

The hippie has no where to turn
All her bridges have been burned.

Looking back now
I don't know how

How i survived
Or that i'm still alive.

World full of war
While the love of the hippies soar.

Feel the love
Like your hovering from above.

By the heavens i by passed cloud nine.
The cloud where i'm at is cloud eleven.

Misty moon

The Night

Night falls upon our fates
The stars shine so bright
Do you love our love's place?
The stars looks like they have taking flight.

Do you think that people really live life for its thrill?
In the dark, i can still feel your smile
Or do you think it some animals like humans love the night
Only for its kill?

This night feels like it is an eternity
Don't worry my dear
Nothing will take you away
For these memories will be there

Try to look beyond this world and into the night
There is much more to feel
The night's beauty cannot be fulfilled.
If it is then it is too hard to image

When you look at the stars, do you find your peace?
Its like there reaching out to you
Like the moon has her stars?

Misty moon

The One

When i dream i feel like you could be the one.
I thought i couldn't trust anyone.
You're the one who could make me smile.
You're the one who makes me think that i can stay awhile.

The one who can make me mad.
The one who can make me laugh.
The one who can make me forget things.
The one who can make me remember things.

Misty moon

The Pack

Our high pitch ears can hear sounds that you don't
You can't because your human ears won't
We can hear your thumping heart.
Oh, don't worry you won't be able to hear that sweetheart.

We bath in the moonlight
We sleep in the sun light
Diffrent colors of fur
We run past and all you see is a blur.

But in one way we are all the same
We try to act so tame
We run the course of night
We embrace the moonlight.

We are fast to take down our opponet.
Sometimes we fight just to vent.
We cry the lunar song.
We try to belong

Misty moon

The People

What happened to all the people who accused me?
The ones who beat me just to see if i would cry.
Most of these people wouldnt cry if i died.
They laugh when the bruises they leave.
I have it set in mind
That no one can touch me
Nobody can break me.

Misty moon

This One Is 4 Trevor

When everything falls apart
Which one of us is going to fall
Is this break up another fight or
Is time we're going to take it to heart?
Don't expect me to be waiting by the phone for you to call

All those letters
Mean nothing
I don't know how i could be so stupid
I'm nothing more than another number
Its a shame i thought you were something

You can keep your lyrical lies
Now i can't wait to see how long it take you to replace me
Heck i can't wait to see you how long it will take you to look me in the eyes.
How does it feel to be without me

Hey Trevor
You said this would be forever

Misty moon

This Pain

Breathing is now a burden
Pains the thought
To know that someone is in this tangled web?
The clocks ticking
I'm broken
I'm bleeding
This pain is my and my only
Breathing is getting too hard to bare
I'm ready to escape this nightmare
I feel like a fly caught in a spider web.

Misty moon

Thoughts Of A Psycho

These are the thoughts of the simply insane
Watch out the psycho killer is coming down the lane
Guess who coming to grandma house on elm lane?
Guess who going to get all the fame?

I just pity the fool who going to come down grandma lane
Are you wondering if this is sane?
To think of all the things im gonna gain
From watching you twist with pain

Maybe these words are from a manic depressed person.
Or just a sick and twisted type of girl?

Misty moon

Truth

would you tell the truth if a person life depended on it?
would you tell the truth if love anoter other then the one your with?
the truth sets you free but does set you free from yourself, your pain
So think about it does the truth set you free

Misty moon

Untitled

A kiss is just a kiss
A sigh is just a sigh
But what does it mean?
Who knows i dont.
Could this be something more....
Than a simple friendship?
A kiss is just a kiss
A sigh is just a sigh
But what does it mean?
Could this be something more.....
Than a simple friendship

Misty moon

Wall

Everyone puts up walls
Only because they are afraid to fall
Why keep yourself locked inside
Don't be afraid to show yourself the outside
There's so much to see
That's a whole different part of me
It's like I'm another human being
I want everyone else to see
The real, honest, and true me.

Misty moon

Walls

I put up walls
Cuz it hurts to fall
I'll be the one to catch you before you hit the ground
Cuz I'm really diggin your sound

I'll be your little drummer girl
Its gut wrenching
It's life threatening

I wish this love will last
It's time that I run fast
I'm ready for the fame
Is time to see the flames

Even if it cost me, some shame
Maybe I'll have to play your games
Maybe I'm tired of being ruthless and reckless

Misty moon

War Of Roses

Sweet merciful heavens
This is the sad song of the war of roses
You see all the killings on tv.
The wars overseas
But sometimes it feels like it is right here.
As each hour passes, you hear sweet cries
Its like a rose blooms with each hour that passes
As each person lives or dies a roses blooms.

Thoses always blooms
Those roses you always end up giving them away.
You end up praying that he lives another day.
Each passing day you shout in rejoice.
You shout for joy when you hear his voice.
Sometimes but rotten at the same time.

Misty moon

We Go Together

We go together like bees goes together with honey
Like milk and cookies
We go together like a drummer and his drums
Like a pen finds paper
Lets just face it we go together

Your my bee and im your honey
Your pen and im your paper
Your my rockstar and im your fan
Your my oreos and im your milk
Lets just face it we belong together

Misty moon

Were We So Different

You think you so fantastic
But i'm so saracastic

Your in with the cast
I'm alway with the outcast.

You say i'm so dramatic
Do you reall ythink your going to walk out of here asymtomatic?

You saythat i could be a gipsy
Well let me tell you me words can make you tipsy.

In the end were we so diffrent?

Misty moon

What A Shame

What a shame you should your soul for nothing but a of fame
Its a crying shame
What a shame
How did you get to be so lame.

What a shame you lost it all
I hope you had a great fall.
I think now that your gone everyone is going to have a ball.
Did you have a nice little fall?
Do you still feel tall?

I remember what you said that rock -n- roll
Has to have a little bit of soul
Your such a shame
All of this just for a little bit of fame?

Misty moon

What Happened?

What happened to us?
We were great together right
What caused the big fuss?
The last few months all do is fight

What happened to all of our happiness?
I've done this all in the past
A heavy silence looms
What happened to all of our success?
Our love is like a tomb

Our love was once in a full bloom
But now its full of gloom
Our love is like our own doom
Our love is no a tomb

Misty moon

What I Feel

There's something about you that makes me glow?

Can you tell me what it is?

You get me out of my funk when i feel it.

Why is it that i can't seem to get a grip?

Every time you pass, i can't breathe.

Misty moon

What You Bring Me

Waking up alone
Doesn't feel right
Waking up without you
To go to sleep and waking up with only memories.

Its harder every night
I can feel you breathing on my neck
Your kiss was the perfect drug
It is a perfect high
I wish i could hear your voice all the time.

Its not until after you left is when i realized what you bring me.

Misty moon

What's With Us

When we pass in the halls.
What is that look you give me?
Do you know that i secretly wish that you will call?
Do you want me or should i leave?

When you close, your eyes who do you see?
I wish you see me
I get scared i just want to flee.
I just wish we could be.

I feel like a prisoner in my own skin.
I wish i could say hey i like you
Just let me in

Can't you see, whats in front of you is real?
This is not a lie; my love is the real deal.

Misty moon

When You'Re Around Me

You're so contagious
Some days i can't get you out of my mind.
It's outrageous.
When i'm around you, i feel so high.

Many times, i say that i'm going to leave
I walk out in silence
That's what you bring to me
You make me laugh
You make me smile

Misty moon

Who's To Blame

Your kiss is better than blood
Your kiss is my drug of choice
You use me
You abuse me
You're all the same
Who's to blame?

Maybe i'm the one to blame
I feel like a dis-grace
Who's to blame?

I bet anything that you
Don't know my name
I can't believe i fell for someone that's so lame
Who's to blame?

Misty moon

Why Is It?

Why is it that the dove...
Is the symbol of love?

Why is it that i feel like my love is wrong?
Now it seems like it was so long?

That love was in the past
We both knew it was it wasn't going to last.

I've had a blast
We took this thing way too fast.

Why is it so easy to walk away?
We met today

But it feels like we met centuries ago.
Now im thinking it was time for me to go.

Misty moon

You Make Me

You make me weak
In the knees

You make me believe
I feel so relief

Butterfly kisses
You're the thing i misses

Your embrace
You taste

You make me miss all those things
When you not around.

Misty moon

You Say

You say i don't exist
Just an figment of your imagation
You say that i don't exist
That i'm just a temptation

You say im not living
If i don't live the way you do
You say im not living
If i don't do what you say
You say im not worth your time

You say i wouldnt dare
To challenge you
You say i wouldnt dare
To take something away from you

Your the type of person who doesnt give anybody a chance to have a voice
I say let them have a voice
You the type of person who wont let people have a choice
I say let them have a choice

Misty moon

You Turn

You turn all my dreams to dust
I cant bring myself to trust
All i feel is lust
With all these things i feel like i must

You turn me inside out
you turn my dreams to dust i cant even trust

Misty moon

Your Fears

I see your fears through your eyes.
I sense your lies
I am breathing in your fears makes me feel high.
I bring on the night
While you pray for the light.

Misty moon

You'Re Eyes

You're eyes are like a blue fountain,
You make me feel like i can climb a mountain.

Have no fear
Cuz now i'm here

You can put your heart to ease
You have no one to please

You say you love that i'm so bold
You're the guy who doesn't leave me so cold

You don't care about the others
Don't worry you're not going to be another.

Misty moon
