Narendra Kuppan(28.12.1986)

Army To Their Counters' People (Terrorism)

Don't fear for terror (TERRORISM) .

It has come due to ideas which are error.

This ultimately makes life fewer by breaking fire.

Because of which peace becomes mere.

Don't fear for terror (TERRORISM) , instead start to fire against ideas which are error leading to terror.

We are brave; we will stand against ideas which lead us to grave.

We won't fear for terror (TERRORISM) .

And we won't let terror which makes peace a mere!

Narendra Kuppan

Battle

Battle makes human fatal

Human beings are mortal, why you people try to prove it often going for battle

Battle, Mortal, Fatal, Battle

We fight for power, make life fewer

We Sacrifice Peace for sake of piece of land

We fight for land, Why not we love mankind

We battle for sources forgetting that we human beings are Resources

We fight across borders for borders proving our madness

Respect all, why laugh when others fall

Nothing is ours we should never try to claim by exhibiting our powers

We live then leave after few days, so why play nasty plays

Why this battle, why make mortal people fatal

Battle, Mortal, Fatal, Battle

No Battle, Battle Never Battle

Narendra Kuppan

Blend

Whenever I was failing, my spirit was falling.
Once I tasted success, my spirit brimmed like fountain.

When I was failing, I was thinking life was only full of grief.
Once I tasted success, I came to know life is blend of both failure and success.

Don't feel proud when you are success and don't get dishearten when you are failure but think it is a chance, given to you to do better next.

Narendra Kuppan

Bliss

We are children with immortal bliss.

We are busy in our bliss.

We never look into the heart of our fellow men, which has depressions deep.

We never look into our country which has great history, filled with lot of mystery.

We never look into the world, which has great history brief filled with lot of grief.

Many men gave call to wake up; even, I give call to wake up still none has waked up.

Because I had told it is immortal bliss.

How can they wake up?

But still many will give call to wake up.

With a hope that one or other day that immortality will become mortal.

Narendra Kuppan

Deepavali

Deepavali is a festival of light.
On deepavali everybody's house is bright.
Due to light my feelings are bright.
On deepavali the festival of light.
Even at night I can see as day there is bright due to light.
On this day of light I wish every body's life to be bright

.

Dove

A white dove flying in the sky.

It symbolizes silences and says no violence.

A white dove flying in the sky is pretty.

It symbolizes beauty and says we should always do our duty.

A white dove flying in the sky.

It shifts and glides, signifies ups and downs in life.

A white dove flying in the sky.

Heaping higher and higher, it signifies we must progress high and high.

A white dove flying in the sky.

It symbolizes that we must be free, celebrate freedom which we did not get free.

A white dove flying in the sky, piercing through air flying high and high never feeling shy.

A white dove flying in the sky.

Taking lot of pain without thinking about gain flying high and high for reaching the sky, symbolizes we must always work without thinking about gain.

Even if we have lot of pain we should fly towards our destination which will make our life sensational always momentous.

Name

What is a name?

It is nothing but a label given to one's fame, crime, shame..... and what not.

What is a name, what is there in a name?

It is nothing, but pronoun.

What is a name, what is there in a name?

It is nothing, but a label given to a place, animal, thing, you and me.

What is a name, what is there in a name?

It is nothing but Identity which you claim.

What is a name, what is there in a name?

It is just a label of shame, if you do things which will get you shame.

It is label of frame, if you do things which will get you fame.

What is a name, what is there in a name?

We should not be recognized by our name, but our name should be recognized by our sacred way of life.

Narendra Kuppan

Path

Our goodness is burning in flame.
Our generosity is burning in flame.
Our morality is burning in flame.
Our humanity is burning in flame.
In flame, ferocious flame.
It's the flame lit by caste, creed and religion.

No religion says to light the flame.
But many people, so called religious lit the flame.
Those who lit the flame are not really religious, they are ridiculous.

They lit the flame thinking it will, burn the other religion and serve and grow their religion.

Once if the flame is lit, it burns not only religion but mankind.
It burns not only others religion, but also religion of the person who has lit flame, because flame can't distinguish between any religion.

Religion is path to lead life.
Religion is way to lead life, religion is not life.
What ever path you want you can choose to lead the life but lead a perfect life.

The Abasement

Black, white, black, white.

White, black, white, black

White says white is right and black is colour of night, where there is no light,
bright.

Black, white, black, white.

White, black, white, black

White has white lips and pinkish cheeks.

Black has a brownie lips and blackly cheeks.

Black, white, black, white.

White, black, white, black

Both whites and blacks have red blood.

So why at middle of their birth till death shied blood saying, black, white, black,
white

Black, white, black, white.

White, black, white, black

In natures light everybody is white.

If their thoughts shine bright.

Narendra Kuppan

Thoughts

- 1) "Reformation starts from individual not by mass"
- 2) "Country like India requires only one honest, sincere, and a good dedicated dictator, who will remain good for ever and always win...Instead of many good individuals in democracy."
- 3) "Having many good men and few bad men in democracy is as good as the worst dictator with no moral values ruling the country"
- 4) "Why my country never improves, because I never"
- 5) "You change, than that change will change what you want to change"
- 6) "Individuals great, pretty resolutions. When practiced brings revolution"
- 7) "Deformity in thoughts is the greatest deformity among all"
- 8) "When you search for peace outside you get nothing. It is something within"
- 9) "Only when you are kind you can be fit to be mankind"

Narendra Kuppan

Tiny Drop

Waste of tiny, tiny water drops.
Always triggers my conscious thoughts.

A tiny water drop can make a sapling laugh.
Tiny, mini water drops can get you sweet pod.

Tiny, tiny water drops can make a plant to stand has a tree this can give shelter
to lot.

Because of waste of tiny, tiny; mini, mini water drops, many lives have become
short.

So, try to save even tiny, tiny; mini, mini water drops.
Which can get you heartily laugh.
