paul powell powell()

To Someone Special Called Victoria

When I first saw you in my sight
my eyes opened wide with delight
Being around you felt so right

To me you are my crutch
I love and care for you so much
You complete my heart and soul
Have guided me from that black hole

When we are not together
each minute lasts forever
I hope we are never apart,
so with love Im giving you my heart

I love you Unconditionally my queen Victoria
