Ryan Joseph Holder(April 13th,1990)

I am still just a kid, i live in Pembroke Pines, a small city a bit away from Miami. since i was 13 i have been writing poetry, songs, stories, sonnets, plays, etc. and so i think i finally found a place for my emotions to be shown that isn't a fucking myspace...here at least i can get intellectual responses...by all mean leave any comment or critique you'd like...

well a little about me....i play the bass guitar as my main instrument but i also play the guitar...and a little piano, drums, and sax (alto) . I am also a singer...not just rock or anything like that...(notice not JUST rock....i still love it) but i sing classical opera as a soloist with my voice teacher and i am in the school choir and madrigals...(don't worry if you do not know what that is) anyways pardon me if i seem cocky in my poetry, but it is the only way i can really have a good self-esteem...i.r.l. i am pretty harsh on myself but i live life fine...i enjoy it and hate it....i am probably the most depressing optimist you will ever have the chance to meet...or speak to...or type to...w/e you get my point...anyways...if there is anything anyone wants to ask or if you just wanna chat with me e-mail me at xxjaggedxheartxx@...lots of love guys...thanks for your remarks and comments...

Sincerely yours,
Ryan J. Holder

P.S.: Most of my depressing poems are not so much of me being depressed as it is just that brief moment...and in that moment to stop from hurting anyone around me...i write...so please i do not want advice...just what you think of the writing...thank you very much! !

.....The End

No matter how it happened
You always seem to wonder
How we made it to this point
But, now were one no longer
The emptiness and solitude
Of reason and belief
The sadness and the depression that
You never seem to see
The sweat that trickles
Down my face
My eyes they burn
My heart, it races
My stomach's tied
Into a knot
It feels like I
Have just been shot
I hate you, then I love you
I love you, then I hate
Why so much of this discussion
And why must we debate
I cannot live without you
Yet we can never be together
Is there even such a thing
As 'longer than forever'?
A part of me
Will not let go
And the other side
...It just says no
I'm lost inside myself
I'm lost forever more
I wish I had the key
To unlock this f**king door
Feelings,
Feelings,
Endless
Dreaming
Love, lust,
Heart ache, sadness
Anger, fury,

And total madness! !
What should I think
What should I be feeling
Should I be happy
Or should my wrists be bleeding?
Take this blade
And carve a lie
Into my skin
Or into the sky
Into the night
Written in stars
Some of them tears...
...Others are scars
The oceans can dry
With spring in October
...My ending is here...
...We're finally over....
We had a good run...
And I'll never forget
Please don't forget me....
And please don't regret...

666 (Old Piece)

Hellatious moods
Apouling scenes
Brutalic wonders
Mauling scheme
Dying in
A blinking eye
Evil God
And truthfull lies
Torment feelings
Satanic sinning
As the Devil
Watches grinning
Seeing us
Beneath the wounds
Rotting corpses
In their tombs
Breaking down
In hollow seething
The good in me
Is slowly leaving
Hatred ends
Curiosity kills
Arseny burns
Murders thrill
Payback is sweet
Revenge is cold
Hearing the story
All sinners have told
I'll die for you
I'll die for this
My last words
Are 666! !

Ryan Joseph Holder

American (Old Piece)

This world has become
A senseless dispute
Among the past that
We once knew
These wars that never
Ceased to
Live alone and die
Diseased too
It would kill us all
We're tired
But our hearts burn deep
With fire
But we'll never
Give in
And once again
We'll win
And although the fight will
Last long
We will stand up true, proud,
And strong
And never resist
Our freedom to live
We'll never back down
To the threats that you give
I will fight 'till I'm dead
And bleeding
I will stand and take
The beating
And no longer am I not
A Man
I'm a proud American
And I'll fight for that is
On the line
I will fight for these 50
Stars to shine
And prove to my country
How proud I am
To truly be an
American! !

Ryan Joseph Holder

Berserker

Beyond the brink
Of total disaster
Where you escape
And break from your master
Total destruction
Left in your trail
Hearing the groans
And painful wails
Tasting the blood
Of the murders
Breaking the bodies
Of all who have hurt her
Ripping through corpses
Mangled and torn
Trashed and scattered
And stabbing the horns
Broken with in
And broken upon
Living with in
The sins among
Kill and destroy
Become a deserter
These are the thoughts
Of the insane Berserker!

Ryan Joseph Holder

Bittersweet

These nights they seem
To last forever...
and yet my dreams
Turns to a nightmare..
And all I see, your memory
Haunting me inside
I can't escape this pain I
Simply can't subside
My very heart has halted
And though I cannot breathe
You take the very breath from me
And truly what I need
My soul has taken flight
And it doesn't plan on returning
It's okay, I wouldn't want it.
Maybe this will stop the hurting...

I've lost my mind
And I don't want to find it
This is the way I'm meant to be
So just leave me behind and...
I don't care what you think of me
I don't care what you say
I think much less of me than you do
So please just...go away

My very heart is broken
It's stapled down the middle
I need to feel the pain it brings
If even just a little
People see right through me..
And even if they don't
They never seem to understand
What others simply won't
Lose me in a sentence
Lose me in your mind
Leaving me in memory
Forgetting me in time
This bittersweet spell

This object...this curse
I wouldn't want it broken
For I'd feel so much worse

I've lost my mind
And I don't want to find it
This is the way I'm meant to be
So just leave me behind and...
I don't care what you think of me
I don't care what you say
I think much less of me than you do
So please just...go away

I won't give into emptiness
I will not take the fall
I'd rather feel the pain
Than feeling nothing at all

Ryan Joseph Holder

Break

F**k you
I just wanna die
Take the world
And leave the lie
Leave the lie
and take the bait
Nothing left
To do but hate
Reach around
And grab my throat
Grip it tight
And watch me choke
Watch me bleed
And watch me struggle
Slowly dying
In the rubble
Left without
A cause to fight
All the goodness
Out of sight
Slowly darkening
The night
Bark and sing
About my plight
Left with nothing
In the end
Slowly plotting
My revenge
Slowly turning
Off the light
I'll wait until
The time is right
The sacrilege
That's taking place
You're nothing but
A f**king waste
A waste of time
And a waste of space
Left without the thought of someone

Who left without a trace
I'm left without a promise
Stuck within a lie
Stuck within the solitude
Of nothing but a cry
A cry for help or hatred
A cry within my heart
I'm left alone and tossed aside
And completely torn apart.

Ryan Joseph Holder

Chaos

Am I the only
One who sees
The reincarnation
Of blood and disease
Am I the only
One that is sure
It seems like my screams
Are going unheard!
And why is it all
This had to start
Right when I stitched up
My broken heart?
And were have all
My memories gone?
And to who does all
This hatred belong?
What in the hell
Goes on with our lives?
What is it that
Makes us all want to die?

Ryan Joseph Holder

Complimentary Suicide (Old Piece)

The fear that follows
Till your death
Puts you through
The ultimate test.
All those fears
That make you shake
The overdose
You wanna take
Your once pure heart
Torn to bits
How many times
Your wrist has been slit
The ignorance
In those who lie
the tears you bleed
Each time you cry
The wounds inside
Will never heal
The pain in my heart
Is simply unreal
The sights you see
That gauge your eyes
The tears you taste
Each time I cry
You enjoy to see me
Suffer like this
For me to die
Would be your bliss
Look at what
I have become
The times I've tried
Is more that some
All those times
I've tried to die
All those attempted
Suicides
All for nothing!
Tell me! ! Why! ?
All the wasted

Tear I've cried.
All for nothing
All is true
All for nothing
...All for you! !

Ryan Joseph Holder

Creature (Old Piece)

I am a creature.
Not born, not hatched.
I haven't found out yet
But my power's unmatched.
I am a creation.
Made up of nothing.
I am a demon,
Not open, nor loving.
I am your fears
Your nightmares at night!
You cannot kill me!
I'll kill you of fright!
Do not beckon me,
I will not come!
Think of me as death,
For you'll soon be gone!

Ryan Joseph Holder

Creature Ii

My face...distorted,
Burnt and scared...
My skin, my scales...
Broken and hard...
My claws are varnished
In crimson remains
My fangs are covered
In rotting stains
My shoulder blades
With wings that spread
I am the creature
All men doth dread
I am worst than your nightmare
I am more than your fears
What keeps me alive
Is the taste of your tears
The sight of a slaughter
It puts me at ease.
I hear voices begging
I feel my disease
I am second
To the devil alone
I am second
To be on the throne
I am darkness itself
I am hatred alive
I have created
What you fear inside
Hatred, sorrow,
Theft, and doubt...
Things you can never
Live without
Destruction and Chaos
Torment and pain
And now that I'm no longer
Bounded by chains
I will show god himself
How destructive I am
Break and destroy

Everything that I can
This is it...time is up...
The world is going down
No one's left to try me...
Now where's my f**king crown! ! !

Ryan Joseph Holder

Creature Iii

Now, let me see...
Where to begin? ...
Well I am the one
who makes you all sin
I am fearful and hated
I'm a god among men
I am the reason for dying
And all of your ends
I am the knight
to the inferno
I am Hell's savior
And Heaven's deserter
I am Christ's mask
And God's own bizzaro
I am the cause
Of a darker tomorrow
I've taken down heroes
And made fools of the gods
And as for your end?
I am the cause...
I could destroy all
In one single turn
But I'd rather watch you
Suffer and squirm
But now I am filled
With much more than rage
You've removed my shackles
And opened my cage
And now I am free
To wreck havoc again
And I have you to thank
For that my friend
And all is well
No need to cry...
The creature is back
....Get ready to die...

Ryan Joseph Holder

Creature Iv

Oh no...
What's happening
My sanity...
Is vanishing
My very will
To live is gone
And all of this anger
Is like a bomb...
I'm losing it
I'm filled with rage
....Let me out
Of this f**king cage
No one's ever
Held me back
And now I'm ready
To attack
To Annihilate
And break apart
Going back
To how I start
Coming back
From hell was fun
Even against
The devil I'd won
...No more games...
..And no more mercy...
Nothing you can do
Will hurt me
Try me then
Go on...try
I promise you won't
Get out alive
Now I'm done
With all of these games
Everyone on Earth
Will pay
I'll rip the flesh
Right off your bones
I'll slaughter your family

And burn down your home
Everything you've know
Is a lie
Everyone you know
Will die
I will show you
The meaning of pain
I'll make you go crazy
I'll drive you insane
I'll tear out your organs
One at a time
And very slowly
Pull out your spine
I'll rip off your jaw
And crush your skull
I shall feast on your family
Until I am full
Whether you're
A sinner or preacher
There is no hiding
From me...The Creature

Ryan Joseph Holder

Dark Messenger (The Final Boss)

Haha! Are you ready?
Time to die everyone
You're final moments
Have just begun...
Prepare to vanquish
A total genocide
Relinquish all existence
No one's left alive
The time has come
Of Revelation
Man kind must learn
His limitations
No one will live without me
No one will have that chance
I will destroy existence
And all my fellow men
I won't be left alone
I'm taking creation with me
I'll kill you, your family...
Even the air we breathe
What I have to do
To extinguish you all
Eradicate existence...
Destroy the Crystal..
Once I destroy it
Everything will be gone
My life's one mission
Will finally be done!
The world can't live without me.
That just would not be fair
Everyone will die
And I really don't care! !
I'm gonna die anyway...
I won't have to be afraid...
I'm taking everyone with me
And no one will stand in my way..
I am Armageddon
The Ultimate vanquisher
I am the abyss

The Dark Messenger!

Ryan Joseph Holder

F**k It!

GO! !

Broken and battered
Fucked up inside
Give me a chance and
I'll rip out your spine
Gimme a time
Gimme a place
Give me a chance and
I'll rip off your face
Tell me a riddle
Tell me a joke
Your f**king excuse for
A life makes me choke
I want you to hate me a-
Bove all other men
I want you to hit me
As hard as you can

The fire in my eyes
The blessing in disguise
The Reason we decide
To fall apart
The hatred in my soul
The lies that you have told
The seed of hatred grows
Within our hearts

Give me a number
Give me a name
The sound of your voice
It just drives me insane
Give me a reason
Give me a crime
You worthless maggot
You piece of sh** swine
Bring me the body
Bring me the bag
Bring me his head

I want it so bad! !
Bring me the details
Bring me his soul
You've pushed me too far
And I'm losing control

You've pushed me too far
You've broken me now
You're going to pay
And I'm showing you how
You masochistic
Piece of sh**
You sad and lonely
Stupid b**ch
I'll give you one last chance
I'll count to ten
1,2,3...
F**k it..10! !

Forest Left Cursed (Old Piece)

A silence roars
Upon the hills
The midnight air
A cooling chill
The cool damp smell
As strong as can be
the sky's wide open
Beyond what I see
The air is free
The leaves are damp
The moon burns bright
Like a lighten lamp
This place is sweet
This place dispersed
This place is hollow
This place is cursed
This place is nothing
But an outer shell
But deep inside
It's chaos and hell
Every sickness
And disease
Every thing disturbs
Nothing to please
Torturous yells
Echoing screams
And when you sleep
You no longer dream
The forest beyond
The world of revenge
But can this be real
In this world of pretend
In this place
Lives no man
On this tortured, deadly,
Cursed, Land!

Ryan Joseph Holder

Goddess

The stars themselves
Grotesque in comparison
The moon Hides it's face
In utter embarrassment
The shine of the sun
Dull next to you
You're simply astounding
..If only you knew
You take my breath away
With just your beauty smiling
I look into your eyes
and see the galaxy crying
The rivers and the oceans
are empty and flaccid
You make all that's pleasure
Seem like a shower of acid
For nothing comes close
To your beauty or compassion
Your gracefulness
Is a word without action
No one in existence
belongs within your presence
Beauty, simply nothing less
Than undefined perfection
You're a candle in a cave
A rose among the weeds
You're the very reason that
My soul begins to sing
The letters to my poetry
The lyrics to my songs
You are the only reason
I feel like I belong
Nothing in the universe
compares to just your presence
You are the beating in my heart
You are my very essence
The essence in my soul
You simply leave me breathless
You are the muse to all my blessings

You're an absolute goddess

Ryan Joseph Holder

Good Bye (Old Piece)

Love is the greatest
Issue in life
The ultimate pain
The ultimate strife
The sacrifice
And excuse to hate
The countless pills
You want to take
My heart has been broken
Shattered to bits
My soul can no longer
Take anymore of your sh**
Lost in my pain
Lost in my sorrow
Hoping that I
Don't see tomorrow
I end up hurt
I end up alone
It; s my own fault
For feelings unshown
I've been lost for so long
I'm still so afraid
I owe too much
With my blood I will pay
the anxious await
Of death and it's coming
The fear that I face
But soon end up running
Leaving the hatred
Leaving the pain
The torture I feel
As though whipped with a chain
Go to hell
I'm sick of your lies
Sick of the feelings
Sick of the cries
But thi is my fault
For loving you at all
You watched my heart shatter

Then Watched it all fall
Taken for granted
Never known as a someone
Ignored by the world
As I burn like the sun
I'm tossed away
I'm thrown aside
Wishing for me
To just sit back and die
I'm ending it all
This is no lie
This is my end
This is good bye

Ryan Joseph Holder

Good Bye Ii (Old Piece)

Feeling worried
Feeling sad
Feeling angry
Feeling mad
I'll rid you of
These feelings
I'll stop the pain from dealing
I'll take from you
All of your pain
Your madness I'll take
Your hatred I'll drain
I'll heal you from
You pain and sorrow
No more pain
Beyond tomorrow
I love you
I'll please your desire
My feelings for you
Burn like a fire
I'll do anything
To get you back
Please don't tell me
That these feelings you lack
I miss you so much
Please be mine
I'm so afraid
Of losing my mind
Please forgive me
What have I done
I've hurt you bad
And now you're gone
I don't deserve
For my screams to be heard
I need you
But you don't anymore
My wounds just
Don't seem to heal
I can't get rid
Of this pain that I feel

I hate all
Of those who oppose
My love for you
That fate has chose
I'm so sorry
I'll do anything you want
Because without you
My dreams only haunt
I know that you think
That it's just an excuse
And you have decided
My love to refuse
Well, it's your choise
My word's have been spoken
And my souls shattered
And my heart is now broken
This is the last night
That my tears will cry
This is my end
This is Good Bye

Ryan Joseph Holder

Hey Dad...

Hey dad...
I don't know what to say
I don't know what to think of this
Now all I do is pray...
I pray you'll realize
Before your time is up
The mistakes you made with me
I hope that you give up
I wonder how you sleep at night
Do you ever think of me?
The boy you let grow up without
A father who was dead to me...
And then you got another chance...
Another waste of time...
Another broken promise left
Within this confined rhyme...
You failed me as a father...
You failed me as a friend....
And yet for some reason...
I wish this hadn't end...
I still miss you very much
And wish that you were true
But I don't believe in miracles...
So I give up on you...

Ryan Joseph Holder

Hollow

My eyes shower down
The remains of my soul
My heart's been devoured
I'm left on my own
My body is freezing
Yet, it's a hundred degrees
I could care less
What happens to me
I can't stop shaking
My essence is gone
Something about this
Feels so very wrong
I'm compleatly alone
And no one can help me
Nothing else matters
I feel so damn empty
Everyone says
They understand
But they're not alone
In some foriegn land
I left my everything
Back in the states
And now all I can do
Is hear my heart break
I miss my life
I miss my friends
I really wish
It didn't end
I can't even explain
How sad I feel
The sorrow in me
Is simply unreal
My heart is still beating
Just barely, and yet
I feel like a puppet...
A marionette...
I cannot believe
My life's in the dirt
If it's what I wanted

Then why does it hurt
Why did I leave
Why did I do it
Now all I am
Is muscles and fluids
I'm a capsule, a void,
A vessel that's empty!
I'm nothing. I'm no one...
Just go on without me..

Ryan Joseph Holder

Homesick

I can't stand straight
I can't look up
I feel like I
Am about to throw up
My skin is clammy
My tounge is dry
I kinda feel...
like I'm gonna die

I'm just sick...

Sick of the love songs
Sick of the pain
Sick of the feeling
of going insane...
This Seperation
Anxiety
This unholy feeling
Inside of me
My feet are freezing
My hands are sweating
My head is throbbing
It feels like I'm seething
I cannot stop shaking
I can't control my breathing
My fist are clenched
So tight that they're bleeding
The one's I loved
Have ripped me apart
Without looking back
Have stepped on my heart
The tears won't fall
The cries aren't heard
And nothing I'm doing
Helps me forget her

I miss it all
What I wouldn't give
To find a remedy

When I feel home sick

Ryan Joseph Holder

Hook

With a hook on his hand
And a smirk on his face
His mustache well curled
And a most deadly gaze
He scratches his chin
With a mean sinister scoff
He spots his enemy
And the smile's whipped off
Pan Soars through the air
And cuts up his sails
Hook sends off his men
But they all seem to fail
'You want to beat me?
But you're nothing but talk! !
Let's finally settle this!
A duel on Skull Rock! ! '
'You want you're fight,
fine Hook, you're on! !
I'll take you down...
I'll see you at dawn! '
So Pan flew away
With the ship disband
Hook sneered a smile
'Good bye....Peter Pan! '
Dawn had come,
Morning was here
Time for the battle
That has waged on for years
Hook waited for his rival
Alone and ready
He stood with his sword
Right handed and steady
Pan soared into the cave
And cawed like a cock
Showing his bravery
And showing his mock
Hook was disgusted
But still managed to smile
'Hey there, Hooky!

Where's the Crocodile? '
'Waiting for you dear boy,
He likes the taste of a coward! '
'Coward? ! I'm not afraid! '
'But it is you whom he will devour!
Prove to me boy,
Are you a cock or a chicken! ! ?
Walk on two legs
And You shall be stricken! ! ! '
'Very well Hook,
No more playing games! '
'Very good Pan,
Let's bring an end to this strain! '
And so it had started...
And so they began...
And so they continued...
For hours on end!
Pan struck Hook on his shoulder
And forced his blade free
He pushed him up against the wall
And slowly watched him bleed
'Well there Hook...
It seems you have lost?
See what your ignorance
Has finally cost?
I'll give you your word...
One last request...'
'How bout it Pan?
A last cigarette? '
So Pan nodded
And Hook pulled out his cig.
He lit it up
And took in a swig
'So I guess you've won Pan
...After all these years...
I'll die to a boy...
Who never showed fear!
I'll die to the hands
Of the greatest fighter
In Neverland
Or any place higher...
You've finally beaten me...

...I think I might...cry! ! ! '
But right there he threw the cig
In Pans eye
Pan dropped his dagger
And stumbled back in blindness
Hook picked it up,
And slashed without kindness
Pan laid, upon the floor
A broken bloody mess
'You are but a boy...
Nothing more...nothing less..
You have destroyed
All that's inside of me...
And now your death
Shall be nothing...but irony! ! '
So he raised his hook,
And crashed it down,
Splitting Pan's head
Right through his crown!
Hook began to laugh
'Good bye...Peter Pan'
And with a final scoff (He said)
'Good bye....Neverland! ! '
And for the rest of eternity
He wrecked havoc on all
Ever since
The Rooster's great fall
Hook ruled supreme
No one could stop his plans
He captained the Jolly Roger...
And now rules...Neverland

Ryan Joseph Holder

I'M A Soldier

I have given up
I have given in
But never will I
Collapse from within
I've been pummeled to death
Been beaten to a pulp
My soul could be swallowed
In a single gulp
I act immature
But that only hides
The pain that I always
Feel inside
Withdraw from the pain
Relax from the stress
Ignore all this torture
And your pain, suppress
I've been through hell
And came back alive
I am a soldier
With both strength and pride

Ryan Joseph Holder

It's Over

It's finally over
We're finally done
This war is over
Yet no one has won
I ended up broken
You end up alone
You sin without name
My hearts cast a stone
Our romance had crashed
Engulfed by the flames
Ended insane
In torturous pain
Our true feelings
Were hidden by fear
So many lies
That I'm broken to tears
An echoed whisper
Of a promise that's broken
And with its shards
I slit my throat open
And bleed out my anger
And in the reflection
Look at the hatred
And total destruction
Now look at the memories
And follow the dreams
I guess it's more
Than what it seems
I want you to know
I want you to see
I want you to feel
What you've done to me
You used me and hurt me
And lost me in time
I stayed for you only
To end up writing this rhyme
Leading me into the darkness
Pulled me from my world
But now I'm finally over

This wretched, selfish girl

Ryan Joseph Holder

Lies

If someone promises
A thing or two
What is it you'd
Expect them to do
A lie can hurt worse
Than a neck being hacked
It's more like a gun shot
Or a stab in the back
Anger isn't
An excuse for a lie
Neither is bity
So don't even try
I'd kill for the chance
To change our past
To make you happy
For once and at last
It breaks my heart
To know you lie
It kills me to know
That you'd rather die.

Ryan Joseph Holder

Lucky Shot

I take a breath
And close my eyes
I shoot for the stars
And aim for the sky
I shatter the moon
As it sprinkles among
My shot keeps on going
Right into the sun
The sun starts to swell
And mercury dies
Our deserts catch fire
Our oceans they dry
Our tundra's they melt
Our bodies they boil
No more trees
And no more soil
Next goes Venus
In a gaseous explosion
And guess who's next
In this massive erosion
But before it can reach us
We shrivel and die
And it's just too hot
For our tears to cry
We fall over dead
No skin to be shone
We're left as nothing
But a pile of bones
Amazing how all
Of this has got
All because
Of a lucky shot

Ryan Joseph Holder

Marry Me?

Breathless and startled
By the sight of your eyes
If they ever looked away
I swear to you I'd die
I don't know what I'm doing
I don't know what I may
I'm left without the breath in me
Or anything to say
I put my arms around you
And pull you to my kiss
I feel your hands upon my hips
As I fall into bliss
You rest upon my shoulder
And softly kiss my neck
I reach into my pocket
I'm such a nervous wreck
I pull out a little package
A little velvet box
Inside a silver ring resides
I see your face of shock
I hold onto your hand
And hold on for my life
I slide the ring upon you
Asking you to be my wife
A smile starts to form
As I fall on my knee
I look up to you and ask,
'Will you marry me? '

Memory (Old Piece)

I'm a figment of thought
I'm a fantasy
I'm lost in the past
I'm a memory
I'll run away
And you'll forget
Ignore the past
As lost regret
You said you'd always
Remember me
But now I'm just
A memory
You called me a friend
Yet I mean nothing to you
You lied to me
And broke your truce
For I can't say
I'm a memory
For you no longer
Remember me

Ryan Joseph Holder

Mind Games

Choose your piece
Let's start the game
I promise to hold back
But it's just not the same
Roll the dice
And take your space
No use lying
I can read your face
Pick a card
I promise not to peek
I'll try to go easy
But you're simply too weak
Common now go
And roll the dice
Take a gamble
On your life
Win just one
Or win the set
You think you'll win?
Heh...Wanna Bet?
Don't you see?
You just can't win
I made this game
From all my sins
I'll jump your piece
I'll rule the board
My strategy?
You can't be sure!
Well, game over
Looks like I won
Now I'll pull the trigger
...Just cock my gun.....BANG! ! !

Mind Games Ii (Old Piece)

Your seeing eyes
Cannot bare to watch
When I feel
This pain so much
It digs deep
Beneath my scabs
Goes to my heart
And begins to stab
Through my anger
Through my tears
It feels no pity
As death draws near
I'm going insane
I'm losing my mind
I'm losing my thoughts
I'm waisting my time
On all the ones
Who I know lie
Say they care
But my feelings deprive
My seething hatred
My blessed revenge
The pain you deserve
Comes to no end
Scars all over
But no one sees
Do you know why?
Because there not me
They don't get
The way I think
They don't see
How low they sink
There senses are horrid
My senses are great
I know what you think
You worthless disgrace
You all think
That I'm insane
But Your all pawns

In my twisted game
The victor is knighted
And afterwards crowned
The loser gets whiplashed
And in pain bows down
You have a chance
But I've never lost
And I will win
At any cost
For there's very little
The world can take
For I am left nothing
With not much to make
But to my game
There is no end
There is no lie
There's no pretend
It's all to real
To say that it's not
And once you start
There's no way to stop
Take your piece
And make your move
Either way
You know you'll lose
And endless game
A waste of time
A shameful loss
In your mind
When you lose
You'll die and burn!
Now, roll the dice!
It's your turn! !

My Christmas Wish

I'll sit by the tree
And look out at the sky
While I watch the carolers
Walking on by
The icicles hanging
And the presents are stacked
The street's, they're all empty
Yet the malls seem so packed
Everyone's ready
For Christmas this year
...But it just isn't Christmas
Without having you here...
I'd give up every present,
I'd give up all the cheer
If I could spend Christmas
By your side this year
I'd never ask Santa
For anymore gifts
As long as your wrapped
Around me with a kiss
All the children
Will dream of there presents
While I sit here waiting
Alone and relentless
But I know somewhere
My wish will be heard
And maybe not this year
Or next year, or the third...
But someday soon
My love will come
She'll be my present
And mine alone...
The girl will get her toys
The boy will get his
She would be my everything
But she already is
Merry Christmas to all
And I hope you'll all find
That one special person

...Cause I have found mine!

My Dark Side

I am very nice
I am very sweet
But look closer
Beyond what the eye meets
I can control it
I can fight long and hard
But once it comes out
With no disregards
You can believe me or not
I don't really care
Because this is the evil within me
This is the dark side that I never wear
Do not mock me
Unless you want to face
The one thing in me
That I fail to incase
Common, try me
I'll Show you my power
As long as you face it
And swear not to cower

Ryan Joseph Holder

My Dream

Scratched and scarred
And broken inside
Held together
By excuses and lies
Charred and ripped
Beaten and scraped
I have been destroyed
And emotionally raped
But you gave me your hand
And pulled me away
From the deception
And all the decay
You helped me stand
And barely spoke
You took me in
And held me close
You kissed my cheek
And started to cry
And you smiled
As tears fell from your eyes
I broke into tears
And collapsed at your feet
You knelt by my side
Placed a hand on my cheek
I looked in your eyes
And held you tight
I finally felt
What we had was right
And then I awoke
And couldn't believe
You weren't there...
It was all a dream...
I looked out the window
With tears in my eyes
And felt so empty
...Like death was alive...
But just as the tears
Began to fall
And I was giving

Up on all
You woke up beside me
And pulled me into a kiss
And once again
I fell into bliss
Not only are you
The girl of my dreams
But you are the one
Who silenced my screams
You are mine
And I am yours
And I hope that one day
I'll be more...

My Family

Goodbye, my friends.
This went by so quick.
All the songs that we sang...
All the good times we'll miss.
4 whole years...
And what have we shown?
How much you have taught me!
How much we have grown!
The drama and the pressure
The prizes we have won!
The precious moments we have had.
The shows that we have sung.
The everlasting memories
Of standing side by side
The greatness that is Flanagan
That filled our hearts with pride
The moments and the memories
We'll carry through our lives
The final day where Madrigals
Fell on our knees and cried
But from the day I started
And until the day I die
I'm proud to be a chorus kid
And yes...this is my life
I'll say it loud and say it proud!
Like no one ever did! !
We are Falcons, Singers, Madrigals...
We're all Capezza's Kids! !

Ryan Joseph Holder

My Final Goodbye

Chorus:

There was nothing
Left for me
But to pack my stuff
And leave
I have to find a cure
For this disease
My heart just
Couldn't take it
You might as well
Just break it
There's nothing left
But just to say goodbye...
And now I'm left alone...
With no one by my side...
....This is my final good bye

Verse 1:

This empty life
It makes me sick
I think it's time
To call it quit
I never wanted
Anymore of this
My broken heart
And broken mind
I'm lost and
Running out of time
I'm empty...
It's so cold inside...

(Chorus)

Verse: 2

Everyone says
I'll be alright
Another F***ing
Perfect lie
The reason I

Still prey at night
Nobody gets
How much it hurts
I must admit
I've had much worse
I'm stuck this way
I'm F***ing cursed

(Chorus)

Bridge:

It breaks my heart to have to go
And now my tears and scars they show
This is the only way for me to grow
While you scream 'GO! ! ...Just fucking GO! ! ! '
I'm not the man that you once knew
I'm not the poor and tragic youth
I'm not the emptied, hollowed truth
I'm no one...No one without you...

Ryan Joseph Holder

My Final Rest

Verse 1

Broken and buried
Torn at the seams
Break from reality
Into my dreams
Where nothing seems right
And nothing feels real
Where nothing you do
Can affect how you feel

Verse 1 (cont.)

And yet you can fear
what doesn't exist
And at the same time
Fall into bliss
Where your greatest desire
Is going insane...
Where your sorrow and screams
Are drowned by the pain...

Chorus

My nightmares
Are killing
Me slowly
And filling
Me quickly
With envy
Im running
on empty
The Sorrow
Is making me
Feel like
I'm taking these
Last breaths
And breaking deep
Into my
Final rest

Verse 2

Another Fragile
Broken heart
Thrown aside
and torn apart
Another nightmare
Fallen into
There's no escape
From what we do

Bridge
This endless dream
Will never cease
No matter what
is left to see
Everyone
will one day sleep
the eternal slumber
which we seek
And once we dream
our lives away
with nothing left
for us today
we'll look for the answers
deep deep inside
And hope to god
That we all survive

Ryan Joseph Holder

Oblivion

A broken image
A corpse decayed
A savage attack
An ending remade
The following story
Belongs to that
Of the book of horrors
Of spiders and bats
Of ghoulish demands
From beyond the grave
Of total destruction
Of scarlet plagues
This story begins
A bit different than most
A story a bit more complicated
Than demons and ghosts
A creature second
To the devil alone
A sorcerer
Of the unknown
A master of the arts
Of torture and obstruction
A demon that's followed
By nothing but destruction
He haunts my mind
And plots my end
He secretly opens
The wounds that mend
My only fear
My greatest flaw
But sadly its not
My fault at all
I lose my control
And most of my mind
I search for hours
But sadly I'm blind
I see nothing but sadness
And broken dreams
My shattered soul

And piercing screams
The stitches on
My broken heart
The patch and zipper
That unites the two parts
Stronger than what
I've always seemed
My mind is leaking
My twisted dreams
Creating an ocean
Of all of my tears
To drown the world
And show it my fears
And for the millions and millions
Of beautiful stars
Each one could represent
My scars
But I have many options
In sense of escape
I could easily end
This retched life that I hate
I could yank out my teeth
One at a time
I could slit both my wrists
In a victimless crime
Drown myself
Or leap from a tower
Eat a pound of salt
And die in less than an hour
I could hang myself
Up off of a tree
But a simple bullet...
Just seems much too easy
The world will not
Get off that easy
I will show everyone
What is left inside of me
My genius and sorrow
Could horribly combine
Such a horrid being
Even the devil would cry

One And Only

Chorus:

I'll-die-for-you-and
Die-for-this
I'd-die-to-just-have
One-last-kiss
And-all-the-nights-that
I-spent-lonely
Now-you-are-my
One-and-Only

Verse 1:

I've broken down before
I've cried my eyes to bleed
I can't deny it
I cannot hide it
My tears won't let me see
I wish It'd never start
It's tearing me apart
It rips me open
My soul is broken
It breaks my jagged heart

But we both know that
That's no longer true
The only one I
Ever loved is you

(Chorus)

The madness doesn't cease
The sickness can't be cured
But you're my savior
To whom I favor
I swear to you I'm sure
I'm tired of this pain
I pray to god you'll stay
A hanging rope
It slits my throat
But I love you either way

I hope and pray
You never leave my side
I'll make sure we
Never say goodbye (Goodbye my love again!)

(Chorus)

Bridge:

I never thought I'd die
It's eating me alive
No one ever cared...
But you were always there...
Goodbye my broken heart
Tonight's the night we part
This anger makes me break
Goodnight, goodbye my hate

Second Chorus:

I-never-thought-that
I-could-win
I've-tried-and-tried
And-tried-again
But-now-I-have-some-
One-to-help-me
And-with-out-her
I'd-be-empty

(Chorus)

(Sung Acapella)

And-all-the-nights-that
I-spent-lonely
Now-you-are-my
One-and-Only

Ryan Joseph Holder

Only You... (Sonnet)

Your hair how it floats, so gently and free
Your greatness goes on for a century
You are simply superior to all
And before your beauty I always fall
Your eyes ever more radiant than stars
Only you can heal every single scar
Only you can bring light in darkness
Only you are beyond that of gorgeous
The broken mirror does now seem replaced
And off of it shines your radiant face

Ryan Joseph Holder

Our Demise

The longing for
The softness of
The slightest breath
Of sorrows lust
The broken heart
And broken soul
Telling tales'
No men have told
Losing our sanity
And losing our sight
Always in darkness
Nothing seems bright
Perfection found
In nothingness
Falling into
Total Bliss
Beauty itself
Gagged and bound
Watch the world
Come crashing down
Left for us
To die at ease
But death itself
We cannot please
No matter what
We're always followed
By our nightmares
And our sorrows
Bleak and dark
Left a mark
Upon this journey
We now embark
Walking blindly
Unto our deaths
Breathing in
That final breath
Seemingly nothing
Is left to need
And on our bodies

Darkness feeds....

Ryan Joseph Holder

Our Town

As I walk along these streets
With the glass beneath my feet
The ambulance and people's screams
Seem with my heart to beat
The building leaves a silhouette
among the streets below
The man across the street
Sells a vial full of blow
The gunshots ring
Through echoed alleys
The men in prison
Keep no tally
A hundred people
Die a day
And yet we all
Decide to stay
Because we have no other home
We have no other place
This is where we grew up
And this is where we were meant to stay
We have no other
Life than this
This hollow self
And emptiness
So this is where
We were meant to stay
With all the violence
And the strays
With all the noise
And all the people
And in this shit
We're getting deeper
And now with no where
Left to go
And no one left
For us to show
Our audience
They always die
And no one here

Gets out alive
So you might as well
Enjoy the ride
I promise
Everybody dies

Ryan Joseph Holder

Pain

Everyone seems mad at me
And nothing seems to help
I'm choking on the promises
That lie within themselves
The endless consequences
That seem to take their toll
Have buried me deep within the lie
And have taken my very soul
I can no longer feel
The essence of touch
And the distance I've traveled
Has taken so much
My very breath is killing me
And as I slowly start to die
My very heart has stopped itself
In order to survive
No matter what I do or say
Or how hard I try
I see myself in pain again
Just trying to stay alive
My fingers feel as cold as ice
My heart feels like a cave
My skin is callous, full of scars,
And I can't help but hate...
I hate the very essence
Of knowing I'm alive
Everything you thought of me
...It was all a lie
I'm not as strong as you all think
I'm not a soldier either
I'm tired of my own existence
....I just don't want to be here
But everyone's replaceable
And soon we'll be forgotten
Forever left to be alone
Inside our tombs and rotting
I'm dying from the inside
So turn me inside out
Fill me with the ecstasy

And then fill me with doubt
For everything we know
Is nothing but a lie
We are all made up of nothing more
Than hatred and despise
And as we live
Our nights away
As we breathe...
And as we pray...
We'll lose our minds
And soon grow cold....
And then we'll lose...
Our very souls....

Ryan Joseph Holder

Ready. Aim. Fire! !

My fingers are bleeding
My knuckles are sore
We're finally coming
To an end with this war
The fighting
The bleeding
The wanting
The needing
The everlasting
Endless sorrow
Praying that
We'll see tomorrow
My hands are tainted
With blood of the innocent
It's just a few murders...
It can't be significant...
Evacuate
Go....run and hide
A murderer is
Among you tonight
Am I to blame
For all this brutality?
I killed a father
In front of his family
I can trust no one
Inside of this canyon
My knife and my rifle
Are my only companions

...But now.....
I'll end this tonight
I'll gather my courage
And stand up and fight
Against all this carnage
Nothing will stop me
No one will live
It's not in my nature
To ever forgive
I'll take down the army

I'll take down the man
I'll make sure that no one
Dies for this again! !
We fight for you
We fight for me
We fight for god
And our country
We die for everything
That we admire
Lock and load boys...
Ready. Aim. Fire! !

(Dedicated to my good friend Anthony Guadamuz! Good luck in the Marines Corps!)

(Inspired by M.I.A. ~ Avenged Sevenfold)

(Additional thanks to all our military forces and to all the men who fight for what they believe in and what is right...whether it be now or then....Here or there...fight for your rights...always! !)

Resurrection

Broken down
To nothingness
Left alone
To die...for this?
These elegy
Continue to play
As they lower my body
Into the grave
And as she stands
Beside my corpse
She sheds her tears
Of endless remorse
She did not shudder
She did not speak
She simply held me
And continued to weep
She looked down
And examined my face
Pale and hollow...
Yet warm with grace
And with a last good-bye
She left me this
She stroked my hair
And gave me a kiss
Sus lagrimas
Me caen encima
Y aun que decea
No vuelve la vida
Y Empeso a llorar
Tan furte que duele
Que grito 'No me dejes;
Por favor vuelve'
And hearing her wish
I opened my eyes
And she began kissing me
As without surprise
And as I rose
She held my hand
And saved me from

This bitter end
For I left Heaven
And came back to earth
Because my Heaven
Would be Hell without her!

Ryan Joseph Holder

Secret (Old Piece)

I only deny
The truth I behold
And these secrets
To no one I've told
A secret so great
It may alter lives
Some will enjoy
Others might die
No one has known
About my truth
No one will know...
And neither will you

Ryan Joseph Holder

Slain

Recover my insides
And sow me up
Shove my soul
Into a cup
Take my eyes
And pop 'em in
My hairs worn out
And growing thin
I'm dying, I
Can take no more
My feet are dangling
From the floor
Take a wiff
And now you'll smell
The bodies burning
Down in Hell! !
Listen up
And then you'll hear
Exactly what
It is we feel
Put your hands
Upon the ground
And feel what's red
But should be brown
The Sacrilege
That's taking place
The blood that's dripping
Down my face
The whips
They crack
Upon
My back
A thousand
Lashes
Strawberry
Gashes
Beaten and broken
Destroyed at the core
Ripped into shreds

And settle for more
Coughing up blood
My insides distorted
And this is what
We had resorted
No matter the times
That I may have hurt her
I have been slain
In cold blooded murder

Ryan Joseph Holder

Soldier (Incomplete)

Living a lie
And I know that I'm trapped
Left with the consequence
Of all that I lack
And I know I'm falling
Down! I know...
That death comes too fast
And I know I know...
I'm not going to last
And I can't stop falling
Down....
And I can't keep
Fighting Here! ! !

[Chorus]

And I know that
I'll never leave
And I'm praying
I'm down on my knees
And I know that
This War's a lie
Everyone I
Once loved have died
And I'm screaming
I'm praying to God
And I'm seething
I know that I'm lost
And I know that
I'll probably die
I May never
Come back alive

The Black Cat (E.A.P. Inspired)

The gentleman
No longer exists
What I was once known as
Now seems to desist
Pluto, my companion
Truly, my dearest friend
Had suffered such pain
And I caused its end
The creature I had loved
And held above my wife
In an act of drunken violence
I sadly took his life
For he already feared me
Due to the gouging of his eye
Which I am responsible for
Due to my wine drowned night
But not long after
My sickened shame
Had I lost everything
In the pitiless flames
All was gone
Within, and yet
Left with nothing but
Pluto's Silhouette
Not too soon after
My villa's demise
Had another cat
Entered my life
Pluto's double
Except for one detail
Against my request
He had white hair
Scarcely on his breast
But I was not Amorous
Towards this creature
I hated him greatly
And every bit of his features
His love for me
Annoyed me immensely

He constantly followed me
And I loathed him intensely
Till one day I raised
An Axe and brought it down
But my poor wife
Interrupted my bounds
I sadly killed her
And placed her in the walls
But the menacing creature
was the cause of my fall

Ryan Joseph Holder

The Black Plague

I live alone
I die at heart
I simply wish
It'd never start
The pain I feel
That slowly spreads
Something every
Man does dread
A fatal disease
That slowly expands
Feared by all
Across the land
Muscles shred
And blood veins stop
Boiling fevers
Burning hot
Poison in my
Blood and veins
I'll just die
By the end of the day

Ryan Joseph Holder

The Darkening Sun

Do not judge the world...by its outer appearance

The Sun had blackened
And darkness had spread
We were now living
Among the dead
The feelings of hatred
The feelings inside
The one thing all men
Learn to despise
Under Gods pity
And under his wrath
Never giving us
What we need to have
Your Image and life
Thrown into the mud
A pen full of hatred
And a bath full of blood
He laughs at my sorrow
My wounds, they don't mend
I swear to you lord
It won't happen again.....Revenge! ! !

Ryan Joseph Holder

The Hyde Diagnosis

Within the truth
Of evil and good
There's more than you see
....Much more than you should
For the epic struggle
Is not held before your eyes
Its held inside
Everyone of our minds
The shadow in the light
The thorn within our side
This is the battle
Of Jekyll and Hyde
A split state of mind
That you become a stranger
A toxic in your veins
That leaves everyone in danger
You walk
With a swagger
And carry
A dagger...
And Incognito, an enigma
A shadow on the wall
Watch him take control
And watch the curtain fall
Your heart beats faster
Your feelings inside
Your skin gets tougher
...You feel alive
You feel your skin
Turn hard and callous
You feel your hatred
Turn to malice
You become what you're not
Yet it is who you are
You feel angry, berserk,
Perverse, and Bizarre! !
A man who once
Found escape in his knife
Now finds pleasure

In taking a life
Your mind can be split
And your life can be hard
When you mask from the world
And your life's a facade
One side shows tears
The other shows laughter
One side is empty
The other's disaster
One side is broken
The other side breaks
One of them is real
The other ones fake
I feel it consume me
I feel it take hold
I've lost my true love
I've sold my own soul
I am a shell
For one of two people
Which ever one's stronger
Will venture on deeper...
I am becoming
This monster inside
But for once in my life
...I feel alive! ! !

Ryan Joseph Holder

The Man Who Once Lived (Old Piece)

An angel with wings.
A devil with horns.
A power so strong,
My heart is torn.
I can no longer feel pain.
I am one to dread.
You should now fear me
For I am undead.
For I may be dead,
But I can still be scared,
Never remove me,
Don't even dare.
You wish to have met me.
But u have never seen,
A person as strange as me.
A person with hopes,
A dead man with dreams

Ryan Joseph Holder

The Rapture

Famine, the hunger
Forever empty inside.
The endless lack of food...
From starvation we will die..
Pestilence, the disease
Domination of the body.
Watch the world begin to pass..
Watch the corpses rotting...
War, The fight
The duel to the death.
We will battle on forever...
Until our dying breath...
Death, the end
The ultimate extinction
Watch the planet turn to dust
Watch it all relinquish

The Cities become wastelands
Our Forest become deserts
Our Oceans all dry out
Our planet dies forever
Famine, Pestilence,
War...and Death
Have come to hear
Our dying breath
The 4 horsemen have arrived
With weapons in their hands
Bringing forth annihilation
Bringing forth our end
Tearing out our insides
Ripping out our souls
Raping all that we hold dear
Taking all control
The Armageddon at last
Existence slowly rips
As the earth begins to crumble
To the apocalypse
The sky turns red
Drenched in our blood

The sun turns black
Tarnished in mud
Our bodies begin to fail
And our skin begins to harden
Our bones turn into dust
Our intestines become rotten

This is it....
The final disaster...
This is our end...
This is The Rapture...
We are the cause
And everyone's dead
If only we'd listen
To what God had said
Now we are all sinners
And now we are all liars
Now we will all burn
In Hell's lake of fire
Our souls belong to Lucifer
We could not be saved
Everything that we held dear
Is rotting in the grave.

Death galloped up,
And stared into my eyes
And with a horrible, sickly grin
Said 'It is your turn to die'
I began to run...
I do not know why...
There's no running away
Once death catches your eye
He caught up quite quick
And raised his blade
And without any words
As though having prayed
I fell to my knees...
He cut off my head
And in the blink of an eye
I was now dead...

Now I Burn in hell

Forever scorched in flames
Wishing I could take it back
For God, I now have shamed..
My screams forever echo
My blood forever pours
I die again every second
With needles in my sores
My end was only
The true beginning
For what comes after
....Is far worse than the killing..

Ryan Joseph Holder

The Red Pt. I

Oh, no!
It's happening
My sanity
Is vanishing
The emotions in me
Seem so dead
Everything
Is turning Red
The hatred in me
Slows my breathing
The good in me
Is slowly leaving
The clarity
I wish to find
As I slowly
Lose my mind
As my conscience
Falls asleep
My soul slowly
Starts to weep
All I start
To see is Red
It seems hatred
Cures instead
My insides slowly
Start to rust
Ashes to ashes
Dust to dust
My eyes go white
My skin turns callous
All my hatred
Turns to malice
Everything
Is changing now
My body's turning
Inside out
My shadow seems
To disappear
I truly feel

The end is near
I truly feel
We must make haste
Now all my thoughts
Become erased

Ryan Joseph Holder

The Rose

Solitude
And war and peace
Another chance
To come and see
A broken promise
And a lie
As the rose
Begins to die
While we wither
Life away
All the petals
Will decay
As the cities
Will corrupt
Everything
And nothing, but
The way we all
Are forced to be
Another twisted
Planted seed
And when we root
And spread our stems
A Pestilence
Begins to spread
The poison grows
Within our veins
That cause us all
To go insane
That leaves us thirsty
For the blood
We never seem
To shed enough
The crimson mask
And ruby necklace
Nothing left here
To protect us
But even though
There is decay
And also war

And though we may
Fight forever
Between ourselves
Quickly making
This our hell
Through the concrete
And the stone
Through the earthquakes
And cyclones
Through the blizzards
And monsoons
Through the ever
Closing doom
Though we fight
And though we die
And though we murder
And we lie
Hope and love
Will persevere
Even though
The end is near
From the concrete
And the blood
A rose will grow
And blossom love.

The Spewing Pen

Total devotion
Among the erosion
A burning desire
To light me on fire
And empty disaster
To fall to one's master
The raging resistance
To null my existence
Bleeding my toxic
Over flawed logic
Swallow my pride
I'm dying inside
Taking control
Break from the hold
Break from my keeper
Fearing the reaper
A total expression
Of my own suggestion
A breaking deception
Of my own redemption
A solemn hypnotic
And truly exotic
And her murderous eyes
Will eat me alive
The blackening heart
Will tear us apart
The shadowing madness
Is far beyond sadness
My personality turns
As eternity burns
The rugged disgust
Where hatreds a must
It's hated by some
But an ending will come...

To: Sarah

You're an angel without wings
I am your silhouette
You're beauty is exhausting
I'm wrapped around your neck
That sparkle in your eye
That glimmer in your smile
I could try to forget you
But I'd be in denial
Although it's kind of hard
And nothing is forever
I'll fight a thousand men
For us to stay together
And though I may one day leave
And we both must one day part
Never forget...and always remember
I Love you Sarah, with all of my heart

'War'?

I long for the flesh
Yet I speak from the mind
I simply want someone
To help me unwind
I want to feel
The insides of a stranger
Or maybe I like
The feeling of danger
I love that it's sick
I love that it's wrong
I love hating the feeling
You get when it's done
I love feeling the pleasure
And feeling the guilt
I love hearing the silence
Like time has stood still
I love the decision we make
And taking the blame
How someone always
Hangs their head in shame...
...But I hate that ugly feeling
You get but never show
A feeling of self-hatred
The feeling of being alone!

Ya No Puedo

My days are numbered
And I am inspired
I wish I was there
To fulfill her desires
This language...
No me sale nada
Ni con duda...
Ni sin alma
Mi corazzon
Se ha partido
Y aun necesito
Volver me contigo
No puedo seguir
No puedo vivir
No puedo moverme
O verme sin ti
Me siento bacio
Me siento sin voz
No siento sentido
Sin tigo, por dios
Estando tan solo
Es dificil vivir
Pienso si me extraño
Como te extraño a ti
Me vuelve loco
No poder escuchar te
Siempre creias
Y nunca dudaste
Me vuelve loco
No poder verte
Aun me siento
Como la muerte
Me vuelve loco
No poder tocarte
No puedo entregar
Lo que no puedo darte
No puedo seguir
Escribiendo aqui
Porque...aun no puedo

Segir viviendo sin ti!
