Unite

When the trouble is within our family,
All the family members unite.
When the trouble is within a society,
All the neighbours unite.
When the trouble is within a city,
All different societies unite.
When the trouble is within a district,
All the different villages unite.
When the trouble is within a state,
All the districts unite.
When the trouble is within a country,
All the states unite.
When the trouble is within the whole world,
All the different countries unite.
This the biggest logic.
We don't understand,
That when there is problem
We all unite.
But then why we fight within us?

The Treasure

Once I visited a treasure island,
Thought of some treasures
Instead of treasures there are many ventures
Came an old man laughing at me and saying:
"Your treasure is on the top of the mountain."
Would I go there? I think it again and again.
Let's go! Came to my mind
Going through the mountain
I was full with excitement, but pain
Written on every board, "You are passed and go ahead. "
Reaching at the apex, I took breathe
Again I asked me, " What is in that box? "
Opening it I realized,
What is my fault in the life!
