Sita Cabrera(5.20.1970)

I have been writing since I was a small child.

Addicted

Addicted to your lies
Addicted to my cries

I love to feel the pain
I loved to be insane

Forget about you no longer have me
I am in a visible light of glory

I am no longer caught in your lies
Today I am stronger with all my light

Love is so much more than you will no
Feeling sorry for myself, no this is no more

Walking and feeling sun against my skin
Enjoying your gifts and forgiving my sin..

I never felt a higher high.
I never felt so much inspiration in my life

Today is amazing I look at the beautiful skies
Today is amazing.....

Addicted to your lies
Addicted to my cries

I love to feel the pain
I loved to be insane

But this was Yesterday.....

Sita Cabrera

Alone

get out of my head
leave me alone

turn off the cyber world
no more answering my phone

I need some solitude far away.
where can i go? I want to leave this place..

I want to go far away, away from these games
away from the games...

But I am the one to blame..... Never show me the love
get out of my head
leave me alone

Imagine in my mind! The peace and solitude inside
Love is not devine
L0ve me or leave me alone!

Sita Cabrera

Betrayal

Maybe I'm not her

Maybe I'm not what you want?

You think I don't have a mind.

But I trust you every time.

Is this a man, I man I must share?

Lustful thoughts, it has not even been one year...

Don't shelter me and pretend I'm your friend..

You have a another life and it's rarely me.

So you think that you are the star? I think of the universe, now your so small..

I have the power and the love but I won't damage it with danger..

Don't pretend that you have a love me, but you enjoy me being your maid and treating me like a stranger

I will survive and come out wise. Because of the love in the sky.

You Hide behind your lies.....

There is so much more coming, just wait for no disguise.....

Sita Cabrera

Busy

Everyone I called today
only a few words to say

'I am so busy'
Are you so busy that when your friend needs you
you turn them away.

How many times must I call you until I never do again?

No one will listen and everyone is so busy.

Stop and listen to a friend even if its a minute of your day.

It may be all they need so let go of your selfish ways.

Take a minute to hear there needs.....

Take a minute to be sincere....

It may be you next time? Be a true friend....

Sita Cabrera

Can'T Take Anymore

Sitting here trying to wipe away these tears.....
Dragging me through all this pain...
How can I forgive you over and over again?

Simple life is what I had in mind..... You would love me, I would love you..
I had no idea, what I was getting into.....
I have no soul, I given everything to you.....

Just want to live my life with someone who is right, not putting me through all of
his foolish pride. I just want someone right, who will love me every night.
Someone to love me, no matter who is wrong or right.....

Sitting here trying to wipe away these tears.....
Dragging me through all this pain...
How can I forgive you over and over again?

Simple life is what I had in mind..... You would love me, I would love you..
I had no idea, what I was getting into.....
I have no soul, I given everything to you.....

Just when I think things are right, You come a push me aside. Making me
wonder, if I am alive? Have I lost all of my soul? Do I really need you to make
me whole?

I living my life and forgetting about me.....

Sitting here trying to wipe away these tears.....
Dragging me through all this pain...
How can I forgive you over and over again?

Simple life is what I had in mind..... You would love me, I would love you..
I had no idea, what I was getting into.....
I have no soul, I given everything to you.....

Capture This Moment

I just want to capture this moment..

I just want to spend this time with you

I want to freeze this moment in time and be alone with you.....

Don't see the world around me, all i see is you..

I just want to capture this moment..

I just want to spend this time with you

I want to freeze this moment in time and be alone with you.....

Causing Effects

What is causing the effects? Life it's not the same
But we all have to do what we need to survive.
We had the best days
Now your walking away a little lighter
Oh yes my future is brighter
We had the best days, yes we had the best days
We can take this as a sign
Life got us, to say goodbye
We had the best days, yes we had the best days
Well Listening to Van Morrison will
Never be the same.
All I need to know to remember is, we had the best days
Yes we had the best days
I am living my life by the minute
Something new in my life, is putting a smile on my face
I wish you the same!
Yes we had the best days
Nothing but the best days

Sita Cabrera

Consequent

I used to have a home

One that I can call my own

Until the day you took it away

There is nothing left to say

I never wanted to be apart

But no I can't see it

You are so selfish

And such a child

that you wont even realize the pain.

When I went with my weakness

I let it all go..

You used to be my comfort.

If I was your enemy would you treat me better?

But keep me in the dark, and stop wasting my time.

'I never been in such a lie.....

I used to have a home

One that I can call my own

Until the day you took it away

There is nothing left to say

I never wanted to be apart

But no I can't see it

You are so selfish

And such a child

Sita Cabrera

Does It Matter?

You ask about my past
Does it matter?
Cant go back in time..
Does it really matter?
You know your mine.....

Does it really matter where Ive been?
Does your brain hurt with all that thinkin?

I been here all along, but sometimes walking down the wrong road..
Does is really matter? I am who I am
Nothing fake here no need to pretend

Does it really matter where Ive been?
Does your brain hurt with all that thinkin?

Does it really matter? I am who I am
Nothing fake no need to pretend

You ask about my past.....I been here all along, but sometimes walked down the wrong road..

Sita Cabrera

Escape The World

I wanna get away, away, away
far far far away.....

Wanna get away from it all
take some time with me

I just want to stop the world and let it be
So many people asking questions, or just let me be...

Run away from my cyber world..... No communication today.....
Just need some peace.....

Dont want this chain around me, always having to answer.....
I wanna get away, away, away
far far far away.....

Just want some peace and quiet and tranquility.....

Dont want this chain around me, always having to answer.....
I wanna get away, away, away
far far far away.....

Sita Cabrera

Every Morning

Every Morning. I won't to say it's a lie
I just know, There is no other guy
He Would never take my love for granted.
But living my life everyday, and watching his words as they fade.
Knowing his life is away from me
Just dreaming that he would look into my eyes
And tell me everything is alright.
But I know deep inside, he is in another life.
Every Morning, I wont say it's a lie
I just know, There is no other guy
But why Do I have to sacrifice, no love for me?
Every Morning. I won't to say it's a lie
I just know, There is no other guy

Sita Cabrera

Feels Like A Friday

Feels good when a stranger 'says your beautiful'

So good when you do, what its impossible

No way I am going to think about tomorrow

Cause it feels like a Friday. Yes its feel like a Friday tonight..

Im gonna walk right out that door and not look back.

Im going to take the stress of the day and behind me.....

I dont want to think about tomorrow and don't care anymore.

I wanna feel the music, and I wanna feel the energy

I wont let anyone take control of me or my destiny

Just want to let go and work out all my woes

Bright lights, big dreams can be a reality sometimes in life

Wondering if I am living in my own reality many times

People will let you believe they believe in you but lie

Love to be surrounded by the positive and a good vibes

Leave the past behind you and live for today its right

Sita Cabrera

Free

So free yet trapped from the other side
So free yet trapped free from the other side

The same is so different
your ripping out my soul
You said you take me as I am
you never thought I go astray?
I thought you were never gonna get here

What can I feel from you? I want to hear? ' I need you'
Its faded into the night and to the day
Its gone be forever or will I stay?
All I know is that I prayed..

Loving you hurts so much
I dont want this pain
Are we gonna get through this day
Our we locked in a cage?

Holding your hand, missing my friend
Deserted a life without a plan
Can you hold me down?
For how long can it be or should I be gone?

Sita Cabrera

Gold Ocean Delivered

I don't have anything to prove,
so many things have gone wrong.
But today I live my life without any judgment.
I don't have any thing to prove to the world.
I am over wishing I could be you.
No more Living my life thinking I have something to prove.
But today I live high and I only need to answer to you!
Time goes by so slow, when your clocking in
Time flies by when your not keeping a close eye..

I have nothing to prove. Such a freedom to feel like this!
So free and living life not worrying what everyone thinks.
I have nothing to prove! I live my life only answering to you!
Time goes by so slow, when your clocking in
Time flies by when your not keeping a close eye..

I only live my life for you. I don't owe anything! I already paid my dues.
I have nothing to prove. Such a freedom to feel like this!
So free and loving without anything to prove
I have nothing to prove! I live my life only answering to you!
Time goes by so slow, when your clocking in
Time flies by when your not keeping a close eye..

Sita Cabrera

I Am A Diamond

If you said what you wanted to say
And you hurt me everyday
Would I still need your love?

I can see your love is not enough?
And if you would need me? Why do I allow you to treat me this way?

Would our love stand still? The words you say rub me
the wrong way!

You can rub me
I am a diamond
You can rub me,
The more you rub me
the more I shine
People can rub me
But I am a diamond
I will shine more and more

And you think I am the one to blame
But I no longer live that game

Everything I wished for, is in me
Too bad it took me so many years to see?

The more you rub me, the more I will succeed?

Your words can only touch me.
But I will let them go.

I don't need anyone but me.....

I am diamond the strongest that can be...

I am diamond do you want to shine with me?

I Found Love

I found love, you make feel so complete
I found love, your my dream come true
I always had a picture of you, I only dreamed of this day
I would be with you.

I found love and I know its real
I found love baby the way you make me feel?
I never want you to go away.. I am thanking God for you everyday..
I am so happy, please never go away.

I found love, you make feel so complete
I found love, your my dream come true
I always had a picture of you, I only dreamed of this day
I would be with you.

I found love and I know its real
I found love baby the way you make me feel?
I never want you to go away.. I am thanking God for you everyday..
I am so happy, please never go away.

Just know I am here to stay..... I love more then words can say.

Sita Cabrera

I Love You Once

love you once

.

Wondering what that voice is inside my mind, as I layed my head down on this crazy train,

with tears rolling down my face.

Some days its there and sometimes gone, wondering where all the years will lead me, and my final destination.

Now your telling me that I am home....

I been down some empty streets, within wicked hearts and broken dreams....

Than I feel that is just phase, I will no longer feel this way.

But each time I feel your heart next to me, I feel a strong connection to you,
Baby

I always wanted you next to me, Why I had to go through all these bad things?

You make me feel so happy, I never want to be without you.

'But take it all away, take it all away, this pain has been deep inside me.
This something that I can not deny me. Just take it all away.'

But take it all away, take it all away, this pain has been deep inside me.
This something that I can not deny me. Just take it all away.

This pain is just inside me, in my head and I can not hide it.....

You have touched a deep part of my soul, you are part of me I can't let go.

Happy I never thought I could be so Happy. Today you took the pain away.
Please never go away, never go away.

Each time I feel your heart next to me, I feel a strong connection to you baby.

I always wanted you next to me, why I had to go through all these bad things?

My heart was broken in so many places, but you helped me replace it.

My heart was broken in so many places, but you helped me replace it.

I owe it all to you - I love you once and forever, I love you once and forever..You are my final destination

It's Over

How do I look you in the eyes? when I know that is over?

I keep my mind on other things.... I keep getting stronger....

Time keeps slipping by and I keep getting older.....

I am standing here, but my heart drops to the floor.... I just realize, you don't love me anymore..

Where did our love go? are we living out this show?

Sita Cabrera

Judge

You are the one who has the critical eye.
When will you see all the right.
Shutting out the world will bring you down
Living in a world that is so small
No one is perfect, but he who tries falls down
You won't let me breathe.
I just want to breathe. Tell me everything all your dreams

Too many times, I have heard these lies.

Trust in me, believe that I am strong...
Or push me away

You are the one who has the critical eye.
When will you see all the right.

Just keep pushing me away, believing your life is better than mine

Sita Cabrera

Just Like You!

Just like you, to think I would fall...

Sadness and jealousy make you so bitter
Stop hating me because I am living mine
Such a Sorry life such sorry game, such a shame
Stop wasting your time, without living dreams
I felt sorry for you once, but now I wont try

Yes Its just like you, to think I would fall

There was a time you had the world in your hands
The world is mine and strong, Feeling the sun and the warmth
I Wonder why you let the stars out shine your life?
baby, baby Keep on dreaming of better days

Yes Its just like you, to think I would fall

Dont question my life or act like your the only one..
Sometimes you can see a shooting star
Is it easier for you to live in the clouds?
If the paintings is in the sky? Can you give life a try?
Why Colors all my emotions, with your empty life why?

Sita Cabrera

Let Go

You made me forget
You made me laugh

I did not know that you get your heart hurt twice
I should of known better

I did take a chance
I did feel good for the time

The years passed by
I gave my love to the wrong soul

You were standing there all along
Now your not ready and its okay

Just living life and enjoying the ride
I finally feel alive

Sometimes you have to just let go

Sita Cabrera

Life

Living life
wondering if life exist
loving the volume of my sounds
today is the way it is
Today is the life to live
dont think of yesterday
Just live your life
and just forgive.... you can have it all
just think of all the things you did
I love my life and all the things I have
loving life
too bad its so short lived
everyday is a lifetime we dont have so much time
everyday you must live
Oh I love the life I live....
everyday is a chance to be
Loving you and all the challenges.....

Sita Cabrera

Little Lies

wash away my pain
discovering its in my veins

I smell the lilacs in my hair
I'm wishing I was not here

always takes me back to this dark place
suddenly fills me I feel insane

I feel the warm sun from your embrace
Wishing love will take my place

Take me away from this moment
Run me away from these tears
Dragging my heart into this moment
I wish this moment was never here.....

Disappointment from me again
Did you think I was your friend

But from a distance you stand cold and silent
but with your words you hit the target...

little lies, you promised you always love me.....

wash away my pain
discovering its in my veins

I smell the lilacs in my hair
I'm wishing I was not here

always takes me back to this dark place
suddenly it fills me, I feel insane

I feel the warm sun from your embrace
Wishing love will take my place

Sita Cabrera

Living Life

Never thought that I would get to this day

Dreaming of the water on my face... the summer breeze took my breathe away.

Sitting here looking at my destiny..... Don't let the water take control of me.....

NEver thought that I let someone get so close to me.

I feel the warm sun on my face, never thought I ever get to this place.

Bronzed from the sun. do you feel my soul? Lost from the music in makes me whole.....

I am at that special place, where the sun shines and palms shake...

Walking across the sand and my heart aches..... I look into my soul and I see the it has no end..... The beauty of the ocean is where I stand..

I never thought I would get to this place, never thought I let someone get close to me.....

take me away to that special place

Sita Cabrera

Losing Me

Why do I feel like I am losing me..

Everyday I lose apart of me..... I forget what I used to be....

All I see is you..... Why I am losing me? Why am I losing me.....

I don't want to feel this way... I dont want to feel like thi s.....

A piece of me is fading, running to your land..... Always wondering if your here?

All I see is you, and I am disappearing..... I know I am alive, when I sit down and cry..... Is this love or is this a lie..... Loving you do I have to lose part of me?

I am lost dont want to feel this way..... When I look in the mirror, I dont know who I see..... I just dont remember me.....

All I see is you..... Why I am losing me? Why am I losing me.....

Sita Cabrera

Much Too Long!

I dont care what they say, with those rumours
I know its been much to long...

Its been much to long since Ive seen you
I wish I love would of lasted

I dont care what they say, your so long gone..
No one can take away the memories in our hearts

Yes we were much to young..... I dont care what they say..
Sometimes hearts belong...

I dream about you everyday, wondering what went wrong?
I dont care what they say, with those rumours
I know its been much to long...

I thought my heart would drift away and a new love would belong..
I dont care what they say, your so long gone..
No one can take away the memories in our hearts

Yes we were much to young..... I dont care what they say..
Sometimes hearts belong...

Sita Cabrera

My Own Love

When I told I loved you, did I scare you away? When I told you I loved you?
Did it make you want to stay?
How precious these days are? I just can not say?
I love you more than I ever knew.
I been waiting to meet you, and the day finally came.
I felt you in my soul, you were the other part of me.
Now your here and I am complete...
When I told I loved you, did I scare you away? When I told you I loved you?
Did it make you want to stay?
You are my dream lover, my best friend, without you, I am not complete.....
I been waiting for you and I even met you in my dreams.....
I had love so confused and I made all my mistakes and I thought it was you.....
When I told I loved you, did I scare you away? When I told you I loved you?
Did it make you want to stay?
Tell me you love and just don't go away.....

Sita Cabrera

Never Again

I can never be what you want me to be
And I regret nothing from you
Today I realized you will
never come through.

Our souls did not match but we
were a fact..
Why did I hang on for so many
years?

The darkness came and you
were never again,
But I am just fine now
Never again will I wait around

I felt I did not deserve better
Now I know the truth of the matter
You were never good enough for me
Just like a junkie, not good enough for me

You used me like a drug
one day you love me the next
your gone..

Just like a junkie, not good enough for me

Even if I promised you tommorow
you just could not conclude.
I don't need you in my life..

.....

The darkness came and you
were never again,
But I am just fine now
Never again will I wait around

The past seems like
yesterday, The pain is deep but
fading...

The darkness came and you
were never again,
But I am just fine now
Never again will I wait around

Just like a junkie, not good enough for me

.

Sita Cabrera

Never Around

He was never around when I was a little girl.
when I was growing up, my mother told me I don't need a man to take care of me.

So I became numb, when it came to love.
So please don't get mad, when act this way.

Just not used to, don't wanna lose you. Not used to a man having a say.
Just not used to, a love that so true. Not used to a man loving me this way.

He was never around when I was a little girl.
when I was growing up, my mother told me I don't need a man to take care of me.

So I became numb, when it came to love.
So please don't get mad, when act this way.

Just not used to, don't wanna lose you. Not used to a man having a say.
Just not used to, a love that so true. Not used to a man loving me this way.

You were the one I was looking for. Love never knocked on my door.
Today, I been proven wrong.

Love is here to stay, Love is here to stay!

Sita Cabrera

Ocean

I do not want to wake up thinking of you

I let you out of my mind.

Time is going to make it fine.

Sitting looking at the ocean, I throw all my problems in.

Deep in the ocean they all float.

I no longer hold on to that pain.

Yes I am intense and feel to blame.

But today I see it more than you.....

Today I let it all go and I will begin again.

Another lesson learned another heart burned...

Pour me a glass of wine, hold me and tell me it's okay?

My life will only begin.....

Letting it all go.....

Sita Cabrera

Piece Of Glass

If you say I do not do enough...
I do not do enough...

Love is Just like a piece of glass, baby I might break, I might break
Love is just like a piece of glass, baby it might break, it might break....

I can't do much more..... It so much work to be in love with you.....

Can you say I am not doing enough, I only have so much strength..
Stop pushing me to the test....

I just may break, baby I just may break....
I keep feeling the weight of the world....
Trying to carry all the pain...

Oh baby I just may break, holding on to this pain....

If you say I do not do enough...
I do not do enough...

Love is Just like a piece of glass, baby I might break, I might break
Love is just like a piece of glass, baby it might break, it might break....

I can't do much more..... It so much work to be in love with you.....

Every day is a trying time, fighting to keep our love in line...
Baby I am going to break, One day I am going to break...
Please do not play these foolish games.... Polish my heart and keep me
safe.....

Love is Just like a piece of glass, baby it might break, Baby I might break
Love is just like a glass, baby I might break, Baby I might break....

Sita Cabrera

'Plaything'

I've been through this before

I feel like walking out that door

If this is what love is then I don't want no more

Today you made me feel that I was nothing real

you took me and through me away

I am not a play thing, I'm simply wearing your ring.

I'm getting tired of the lies that you sing.

I been through all this before

I feel like walking out that door,

If this is love I don't want no more

I dreamed of you when I was a little girl

that you come in and change my world

Now I'm sitting her with my dreams out the door

Ive been through this all before

I feel like walking out the door

If this is love I don't want no more

Believe me I am strong I can live if your long

gone..

I will hurt for some time, but soon the pain will fade.

I will be fine!

Ive been through this all before

I feel like walking out the door

If this is love I don't want no more

Pure High

There is something about the way, The way you make me feel
Your drowning in your fear
Im on this high that keeps calling me
I keep getting chills I keep getting higher
You keep falling and you dont belong
Im not gonna fall anymore I belong higher and more
You gotta take the blame its not the same
I am on this pure high and feel it in my vein
Life is so sweet with nothing to drink
This high is taking me to another place
Wish I could bring you here, but your planet is just not near
You think I am the cause
You think I am the cause
Of all of your sorrows
You keep calling me and calling me
No one will answer to you, and your amazed..
Keep your life the same and be simple and love your place

Sita Cabrera

Rescue Me

I feel you the energy, when your next to me and I know that were not meant to be.

But I can feel you in my heart and I can feel you in my soul and when you play the music you make lose control

There was a time you set me free but I need you to rescue me.
Rescue me, show me the way loves supposed to be
Rescue me...

Now you think that someone new is loving me? But I need you to rescue me.

I feel you in heart my heart I feel you in my soul and when you play the music you make me lose control.
There was time you sent me free, but I need you to rescue me.....

Sita Cabrera

Second Chance

It feels like its the first time..

It feels just like the first time..... I feel like I'm frozen in time

I feel that pure love devine.....

You wrapped your arms around me..

Your telling me this is your second chance..

You picked me up when I was broken.

You touched my heart and made whole again...

This time it feels I have forgotten about all the pain

It feels just like the first time..... I feel like I'm frozen in time. I feel that pure love devine.....

You wrapped your arms around me..

Your telling me this is your second chance..

You picked me up when I was broken.

You touched my heart and made whole again...

Thinking of the past that is behind me, it makes me stronger..

Can I destroy those thoughts in my head? Those lies telling me your not whole again.....

It feels like its the first time..

It feels just like the first time..... I feel like I'm frozen in time

I feel that pure love devine.....

You wrapped your arms around me..

Your telling me this is your second chance..

You picked me up when I was broken.

You touched my heart and made whole again...

Starting my life over with you by my side..

Getting used to that fact that I need you. Never needed anyone before..

Sita Cabrera

Something For You

You can not take what I was given
Today is the first day of the rest of my life

You can not hold back what is destiny
Running from the truth

I am here and I am ready
To make all my dreams come true

You can not take what I was given
My vision to live out my destiny
Today is the first day of the rest of my life

I will not listen to the unwise.....

I am happy to live out my dreams
living my life just finally free.....

Special

</>

I do everything for you. Is it not enough for you..

Everything I do is not enough for you... why do you say what you say?

Im not the same way, open up your mind.. Sometimes its seem I cant get through.

Every piece of me is in this. When do I get to see it. Its deep inside of my soul

Everything I do is not enough for you... why do you say what you say?

Its everything in me... I want you let me be.. Its in a special way that makes me stay..

your taking everything from me... In my heart of hearts..... I never wanted to start.

Now Im a slave to you.....

Sita Cabrera

Start To Love

Gotta start to love
Gotta start to love

In the beginning you were all about me....
Now it seems you have no time for me....
You gotta start to love, You gotta start to love
Start to love, Start to love, Start to love
You seem so far away..... So far away
I wanted you to stay....

Like the water, by the sand.....
I need you to hold my hand.....
Dreaming of another land..... Dont leave my side.....

You gotta start to love, You gotta start the love
You gotta start to love, You gotta start to love
Start to love, Start to love, Start to love
You seem so far away..... So far away
I wanted you to stay....
Wonder if you will ever come back to me?
Where did the love go? I want it like it used to be.....

You gotta start the love, You gotta start to love
Start to love, Start to love, Start to love
You seem so far away..... So far away
I wanted you to stay....

Sita Cabrera

Stay True To You

I'm gonna stay true
I'm not gonna do what the tell me to do
I am an artist and I can not be confined
I do not run by the clock or time

I am who I am and I can not be what they want me to be
I live for the day so no one can say
I am gonna stay true to me
I am who I am I dont care what they say

Im not the one with out a way

Strange

You think you have a hold of my heart? Just because you haunt my dreams?
Well I got news for you, You are no longer tormenting my soul.
Today I am finally letting you go..
The days of torment are no no more...

You are waiting for a forgiveness, I forgive you now please let go.
You been waiting to say goodbye?
Well today I am closing the door? and letting you be

Today I am living a new life free from your pain...
I am forgetting my past and have no one to blame

I am living strong, with all my destiny and I am in control.
You no longer have a part of me, forget my love and let me be!

My love is worth more than you will ever know, just because you have physical
gold, you never have my soul....

You will never have the real me, and you pretend and have a replacement that
you wish was me.

So get out that door and keep your energy far from me. Forget about the past,
what we had is so far gone.

And don't try to come back with all your empty dreams, Cause finally you see
that have nothing with me.....

I moved on and have a real love and a family.....

My love is worth more than you will ever know, just because you have physical
gold, you never have my soul....

You will never have the real me, and you pretend and have a replacement that
you wish was me.

So get out that door and keep your energy far from me. Forget about the past,
what we had is so far gone.

Suppose To Be

Do you remember
the way life used to be?

Running the streets
yes we were so free?

I remember the things we used to say
Up all night and sleep all day

just thinking about it make my life complete
The times were fun and life was sweet.

Do you remember the way life used to be?
Up all night and sleep all day.

Just yesterday you say you never go away.
What I would do to just to see you today.

Do you remember the way life used to be?
Up all night and sleep all day.

But I am happy to say that my life is better without so much play.....
But I don't regret my past and my youthful days.....

Do you remember the way life used to be?
Up all night and sleep all day.

The Music Brings Me Back

The music brings me back
The music brings me back

Back to a time
Back to a time

I feel the lights all around me
Feeling all the energy on the dance floor..
I am wanting more!

The music brings me back
The music brings me back

Back to a time
When I knew you were mine

I feel the lights all around me
Feeling all the energy on the dance floor..
I am wanting more!

Back to a time
when I knew were mine

The music brings me back to a time
The music brings me back to a time

You got love on the mind
The music brings me back.....
Back into time.....

The Past

I never meant to hurt you, I wished I never did

Forgive me, I'm so sorry, somethings we can not change,

Some things are not the same.

Can we erase the days that were so bad, or just remember all the fun we had?

I'm so sorry for all the things I did..... I just wanted to be your friend.

I forgot who I was.....

I cant shake this pain in my being, I just want to forget the reasons.....

I never meant to hurt you, I wished I never did

Forgive me, I'm so sorry, somethings we can not change,

Some things are not the same

Today

Today we looked at the crazy streets

rushing to get through the end of the week

I stopped to smell the flowers in the air

I often wonder if anyone cares?

Today I will not let anyone get to me.

The one thing that make me strong is that I believe.

Today I looked at the crazy streets

Rushing to get to the end of the week...

Today I will finish

and tomorrow I will complete.....

Wasted

Living in the moment
But dead every day
where does my real love lay

I thought I would be here forever
Now I see its now or never

Please don't tell me you know me.
Somehow you still have me

gold paint on my body
dust from the sand

why am I in this land
too bad we are so confused
no one has time

thought I would live forever
walking on with this life

sun on my back
drinking a cold one

life is good
there is not just one.....

Wondering

Wondering what am I going to do?

Wishing you were here, in my mind

I dream of you, simple pleasures are endless measures...

Young hearts and stupid minds

Loving the moment and all of its dangers

Lift me up to the sky, tell me you love me even if you lie...

Take us back to that time, till the day that you were mine...

Someday you will love me but it wont me in this life..

Walking away was your best try...

I dream of you, simple pleasures are endless measures...

Young hearts and stupid minds

Loving the moment and all of its dangers

Wondering what am I going to do?

Catch your dreams and watch them fly.....

Wont Look Back

I was always searching for you,
Night after night waiting for you.

Mistaken Identity has got the best of me...

I wont look back, I wont look back

There is no way to erase... The memories....

I wont look back, I wont look back....

Now that I found love....

I was always searching for you,
Night after night waiting for you.

Mistaken Identity has got the best of me...

I wont look back, I wont look back

You

Thank you for releasing all my demons

I can sleep at night because of your reasons

I used to be intoxicated with fear

I never realized I was hiding me

Facing me for the first time

Sober with no drink from wine

For the first time I can really see

That I will fulfill my destiny.

Thank you for taking care of me

Enjoying who I was meant to be.....

Your Mind

Don' change your mind, baby I promise everything will be alright
Don't change your mind and everything will be fine,
Loving me is right. How long can I wait for you?

Baby don't change your mind, I'm telling you loving me is right.
Don't change your mind and everything will be fine,
Loving me is right. How long can I wait for you?
Forget about the past, my love will last.....

Just don't change your mind, my love will stand the test of time
Don' change your mind, baby I promise everything will be alright
Don't change your mind and everything will be fine.
Loving me is right. How long can I wait for you?
