# Friends

Don't say i haven't seen you  
I often want to talk to you  
Yeah I feel good, really good  
I feel blessed when I see smiling you

Don't say you ignored me  
Hope you really liked real me  
If its true i feel good, real good  
I feel blessed, i feel peace inside me

Though roads are different  
We all are traveller  
Though you crossed my road  
Though our destiny may not be same  
I feel really missed when you are gone  
Yeah I like your company  
Hope you like mine

# Hazy Eyes

You set alight the place  
Oh! It stoke me inside  
Hazy eyes discontented till numb  
It's high time eyes needs to collide

Hide and seek with curves of your smile  
Just for the hell of it searching reason behind the shine  
It never rains but it pours  
Dream on about you and I'm on cloud nine

Last but one be my moonshine

# Lilies

Violets on her eyes

Roses on her lips

But then

Lilies tempted me

# Moonshine

Cry Angel Cry

Today is the day of Sorrow

Dark cloud will not last forever

As dawn hits dusk and night falls

Moon will shine for you

# Tales Of Sun

There she smiles as  
half cutted moon  
Half as bright  
Where I am longing  
for twinkle of star  
Though far away from  
Skys the limit  
Where i wanna fly  
closer than ever  
Then brightens up  
The Inner sun  
Closer to the moon  
Peace feels the sun  
Waiting on her to shine full! !

# Your Picture

Yeah,

It wasn't easy to erase you

Treachery destiny clutched smile

If not,

Why would I howl.
