Poetic Facts

Expressing poetic facts
Using poetic lines
Using words to create things
In it real nature of one's feelings
Life is all about poems
Poems enlighten human with real things of nature
It defines our human attitudes
Emotions, feelings, ideas and facts
Presented in lines without understanding
That is, spiritual gifts in human ways
To light the ways of men
And to strengthen the hope of the hopeless
And to feed the fatherless with dreams
Poems do have human meanings
That is, spiritual knowledge
In human understanding
Great word of a maker
That is, Elohim the creator
To feed the mind without insight
And a heart without love
Expressing poetic words with poetic feelings
Poetic mind with poetic facts

The Power Of Knowledge

Knowledge is what we seek on earth
Hidden from men without understanding
Written in many languages
To solve the problems of mankind
Knowledge is power
Knowledge is magic
He who obtains it, obtains a good thing
To him who ignores it
Makes himself a fool to the world
To him who obtains it
And get understanding
Makes his soul prosper
In the days of your generation
Let it be in the your right hand
And let all men know of your works
Let him who obtains understanding
Be among wise men
Increase your dreams
And strengthen your gifts
Let it be a lamp in thy paths
And let it guide your ways
for the world shall honour you
When your days come to past
