# Dreams Come And Go

Dreams are things  
that come and go  
some with pianos playing  
some with violins playin  
some with blood  
some with happiness  
some with sadness  
some with badness  
some with goodness

But are they something that when hearing  
we should start fearing...

# Stop It All!

wars, wars don't settle scores  
people dying  
families crying  
being home-less  
felling loneliness  
racism is bad  
makes people sad  
being bad, later feeling sad  
is no good  
SO STOP IT ALL!

# When Hurt Is At The Heart

When hurt is in the heart  
people say restart  
but is it that easy when you've been aimed at like a darts chart  
and when you have fallen totally apart
