Basho DaGreat()

Evergreen

How is it possible that the one evergreen lives.
How is it possible that the color does not give.
It lives and does not give because it is what it is.

Basho DaGreat

Snow Everywhere

Falling from the sky.
Something that can fly.
Landing softly on the ground.
Something that will soon be found.
All through winter it is near.
Something you can not hear.
Soon it will be gone.
So enjoy snow on your lawn.
