# Friendship

friendship is very important you see  
it is between to people just like you and me

friendship should not just come and go  
or it is not about I told you so

friendship is not playing with each others mind  
I believe it should carry you through the end of time

friendship is telling each other the truth even if hurt  
for all that the bond is worth

friendship will make you happy or even sad  
but if it is sincere then it will be the best you will ever had

# Madness

madness you say is me  
hum you need to look in the mirror and see what you see

madness is the humps and bumps of the day  
thinking how can i make away

madness is when all the bills are do  
i wonder if God can see me through

madness is the color of my skin  
instead of what beauty i have within

madness is running here and running there  
when it seems nobody gives a care

madness is not giving up giving in  
but knowing that i can win in the end
