**charie ann alimpos(january28,1991)**

i am still alive studying in western mindanao state university, still 3rd year in bachelor in elementary education

# Be

you're so comfortable to be with  
but it can't be  
for the time says ' we are not..  
meant to be

so this is how it goes  
and should be  
it happened for a reason  
and meant to be

as the ray of light splash...  
shows it must be  
to find what we aimed alone  
this way MAYBE?

# Love

I'm Inlove again  
i just feel it a while ago  
when i look into his eyes  
it seems i am melting

but i keep quite for him not to notice  
for he is a friend of mine  
and i know he is inlove with someone  
that we used to know...

# Near The Bay

you complete my day  
memorizin' each song we play  
Here near the bay  
Our love was mold as a clay

At the sand where we lay  
the love that we felt for each other stay  
as we always say  
forever 'til our hair turns gray

as you walk away  
from the place we used to stay  
you left me alone near the bay  
cause we have t separate our way

to face the reality  
that we have to make our own destiny  
co'z we'll never live together happily  
if dreams not be fulfill endlessly

# Secret

I'm in love with him  
and he doesn't know  
i look at him  
from a distant shore

happy and contented  
just to see him happy and gay  
how i wish to hug him  
even a single second

if only he turn his face  
on my way  
for him to see  
me happy for him

# Shore

the shout of silence lingering in my ear.  
could hear a heart beat into my chest..  
somebody can't hear...  
can you hear it I guess?

looking at you  
makes me glow  
but i'm far from you  
to let you know

looking at you like this  
makes my eyes sore  
for more than of this  
makes my heart cried for more

what a life it could be  
to live alone in the shore  
where we use to be  
could you give me the cure? ?
