# All We'll Ever Be

You lead me on as if you liked me  
My feelings for you are the same  
And then comes the day I ask you out  
You said no and went on your way  
Why did you lie? Why did you pretend?  
You left me out in the cold  
My heart has stopped beating  
Till I see your face  
I know you just want to be friends  
But I can't live with that thought  
You say those words like everything will be ok  
But as I stand by myself  
In the cold lonely night  
I tremble and shake  
Then those awful words you said  
Come back to memory  
And then I cry cause I know that's  
All we'll ever be

# Confused

I'm confused of what to do  
With the two of you  
Even after you split  
Everythings been shit

I miss the way it used to be  
When all the love was free  
Now you two don't even speak  
I miss the way it used to be

You're both my friends  
I wish all this would just end  
You tell me to choose a side  
But I can't decide

I love you two  
And I know you do too  
Can't it be the way it used to be  
For I would like to see  
You two holding hands

And have it the way it used to be

# Falling In Love

When I first see you  
I'm afraid to get near you  
When I get near you  
I'm afraid to hold you  
When I hold you  
I'm afraid to hug you  
When I hug you  
I'm afraid to kiss you  
When I kiss you  
I'm afraid to fall in love with you  
When I fall in love with you  
I'm afraid to lose you  
and I want you to know  
I can't live without you

# He Don'T

He says he loves you, but he don't.  
He says he misses you, but he don't.  
He says he wishes you were here, but he don't.  
He says he wants to comfort you, but he don't.  
He says he wants to be with you, but he don't.  
He says he hates you, but he don't.  
He says it's time to break up, and he does.

# I Love The Way

I love the way you make my smile run across  
my face.

I love it when you hold me tight and warm  
embrace.

I love the way you laugh, you smile, and it just makes  
my day.

I love being around you knowing everything will  
be ok.

I love being your friend and always being there  
for you.

I love how our friendship will always be  
pure and true.

I love everything about you, I always have,  
always will.

I don't know what else to say,  
I just LOVE you.

# I Need Someone

i need someone to come and take my heart  
Not to break it or rip it apart  
Just for someone to love me w/ all they got  
Not to be judged by what I'm not  
to help me make my way through life  
Instead of blowing me off and leaving  
Someone that will chase away my storms  
Someone that I'm proud to call my own  
Not someone that will leave me for what I  
don't have  
Not someone that will only hurt me and  
make me sad  
Just someone for me  
Just someone to be caring  
Just someone to love  
And just someone that'll make me happy

# I Think About You

I think about you everyday, no way to get  
you off my mind...I'm a mess without you  
here. I can't stop thinking about the nights  
we shared together under the stars. Holding your  
hand knowing you were mine...I miss you so  
much and it's driving me crazy wondering if  
you're thinking about me to...Baby I need you  
in my life, can't you hear me calling you name...  
What am I going to do without you? My  
heart is yours and I'm just not me without you.

# Just A Friend

There's a guy that  
says he loves me  
He is my best friend  
but the only problem is  
he wants to be more than that  
He gets mad about the  
dumbest things  
my mission is to make him happy  
till all he wants to do is sing  
He knows I have a boyfriend  
and he says he'll never break us up  
but he's tried once or twice  
by making me feel so guilty  
Sometimes I want to cut myself  
or maybe even starve  
but when he's not around  
it makes me think real hard  
I've dated him once  
but probably not again  
because he makes me feel so different  
for he is just a friend.

# Just Know

I had to choose to love or lose  
My heart can break easily  
but without your love I'm all alone  
there is no you and me  
I thought I knew our love would last  
I had dreams of a life for me and you  
but now our love is in the past  
I no longer know what to do  
I cannot live without a reason  
Just know I'll always love you  
winter,  
summer,  
and any other season

# Like Crazy

I love you like crazy  
But you don't get it  
I would do anything for you  
But it's just like forget it  
It doesn't seem like you care  
But for some reason your always there  
I just don't know what to do  
All I do is cry over you  
It seems to good to be true  
But it doesnt matter  
Cause I'll always love you

Chelcie Reaves

# Love And Your Voice

Love is like a hobby  
It comes and goes  
And when you find it  
You never forget what it feels like  
And when the one you love  
Gives you their love  
You never forget  
What that feels like  
And I will never forget your voice  
As you may never forget mine  
No matter how faint it is  
Or how angry i am  
It always brightens my day

Chelcie Reaves

# My Life

I sit here in the dark  
On my bed saying why  
do I have to live my life  
Why can't I just take  
a gun and kill myself  
Because I don't belong  
here  
But then I remembered  
Why I am here it's because  
I love you

Chelcie Reaves

# My Past

'I have a past.'  
She said as he asked  
He turned away  
As if to say  
'Your complicated aren't you? '  
'Maybe a little depressed to.'  
She felt his stare on her face  
trying to find words she misplaced  
Why bother? He wouldn't understand  
The world of troubles she held in hand  
The burden of growing up in a day  
was catching up and in the way  
tears rolled down the side of her face  
her heart beating at a steady pace  
He saw the pain in her eyes  
Watching her soul as it dies  
Her heart was broken, the pieces fell  
She needed help, he could tell  
He held her close to his heart  
And picked up the pieces that fell apart

# Never Break Your Heart

I sit in all my classes  
Knowing that after each one I can't see you  
I think back on when you were still here  
The warmth of your hugs sent chills down my spine  
Now when I hug you  
my knees begin to shake  
and my whole body is weak  
I ask how much you like me  
You say more than anyone will ever know  
You respect my wishes  
and you accept me for me  
I'm willing to go all the way with you  
but only one step at a time  
Your not like the others  
who expect to hold hands the moment you  
say yes  
At frist you were to afraid to grab my hand  
Or even hold me close  
I told you it was alright  
and ever since I was in you arms  
together or even apart  
I will never let you go  
and I'll never break your heart

Chelcie Reaves

# Nothing

Nothing last forever, so live it up,  
Drink it down, Laugh it off,  
Avoid all the bullshit  
take chances and never have regrets  
because at one point  
You did what you wanted

Chelcie Reaves

# Our Friendship

I sit here and wonder  
If we'll ever be friends like we used to  
Cause last year...  
Some pretty bad things happened  
And as I try to put them in my past  
The faster they come back  
Your parents loved me  
Just like my parents loved you  
My mom may say she don't  
But I know it's not true  
So if at the end of this year  
We go our seperate ways  
I'll never forget the times we had  
Or the fights we had  
But between the good and bad  
The happy and sad  
Our friendship will never leave my heart

# Since The Day You Came Into My Life

From the day you came into my life  
I've been a changed person  
My wrists are clean  
My cheeks are dry  
My mind is filled with thoughts fo you  
I no longer want to die  
I don't hate life  
I love you and that's for life

# Stab In The Back

You go around  
telling girls all these feelings you have  
for them, poor them, though they don't  
know you like me and your billion other exs do.  
They don't know you never mean a word  
that you say. Cause you'll say anything,  
anything you have to and before they know  
it your gone just like that, like a flash  
of a second and you don't know how much  
it hurts. It's like and efin stab in the back!  
Ohhh and how I'd love to get back!  
Just hurt you a lot like a stab in the back! !

# Still Together

I remember the day I met you  
It was kinda weird  
cause you knew my whole name  
As i looked up at you  
and stared into your eyes  
i knew there was such thing as love at first site  
at the start of the year  
I told everyone I hated you  
but deep down I had wonderful feelings for you  
for some odd reason you didn't  
seem like the others  
then that one special night  
i began to let my feelings show  
i was already seeing someone  
buy i'd choose you before any other  
now i'm with you and i don't know what i'd do without you  
i still remember the day you left  
and i cried everytime i saw your face  
but you held me in your arms very close  
then you asked me to make one promise  
to love you forever  
and guess what i did  
and we're still together

# The Girl

I wanna be the girl he's afraid to lose  
The one he can't walk away from  
Knowing she's mad at him  
The one he can't fall asleep without  
Her voice being the last one he hears  
The one he can't live without

Chelcie Reaves

# There For Me

Roses are Red  
Violets are Blue  
I broke your heart  
but you broke mine to  
I trusted and cared for you  
but all you do is make me  
sad and worried  
At times I barely need you  
you're always there  
but the times I really need you  
I find no one  
not you, nor family  
when I'm holding someone else  
It's because I can't hold you  
See no one cares for me  
and if you did  
You'd always be there for me.

# They'Re Gone

I have wonderful friends  
and a wonderful man  
but when i get home that all starts to bend  
either my brother is saying he hates me  
or my mother is yelling about the dumbest things  
i wait for that phone to ring  
so it'll take me out of that room  
and away from everything  
if it doesnt ring by 5: 05  
I pick up the phone and dial the number  
sometimes your there  
and sometimes your not  
but tonight you are  
so i say hang up and call me back  
my mom gets suspicious  
but doesnt say a thing  
as i sit in my room and say nothing  
at all...  
just the sound of your voice makes me feel so strong  
I take one good look at my wrist  
and i realize what i did was wrong  
but by the time you say I love you  
the bloody cuts are gone.

# What I Hate

I hate looking myself in the mirror  
I hate knowing I have fear  
I hate seeing what isn't there  
I hate feeling that I am scared  
I hate believing what isn't true  
I hate believing and trusting you  
I hate crying myself to sleep  
Forgive me for I have dreams  
I feel left out and all alone  
With no one to call my own  
My eyes are red and I cry blood  
Please help me or I'll cry a flood  
My friends see what I let them see  
If they could only see the true side of me  
and as i die inside with pain  
Cause believe it or not I have a heart  
That's been slowly torn apart.

Chelcie Reaves

# Why? !

Why is it that I have to go on not knowing  
where you are?  
I thought I was your world  
Im not some kinda toy  
you cant just play with my mind  
I am a person who has felt like never before  
but how can I trust that you love me  
When the only time I see your face  
or hear your voice  
Is when you need or want something  
Did you ever have the time to think  
Maybe I need YOU! ?

Chelcie Reaves

# Will I/ Will He

Will I forget him  
Will he remember me  
Will I call him  
Will he answer  
Will I talk  
Will he listen  
Will I kiss him  
Will he let me  
Will I be sad  
Will he comfort me  
Will I die  
Will he save me  
Will I cry  
Will he wipe away my tears  
Will I hold him  
Will he smile  
Will we love the way we did

Chelcie Reaves

# You And Only You

As I sit in my bedroom  
Awake at night...  
I sit and wonder if you ever gonna leave my side  
There are only a few hours left  
Till our final good-byes  
Will we ever see each other again  
Heaven only knows so and why  
You say we're still dating  
But I haven't seen nor heard from you in days  
I'm dying to hear your voice  
Please tell me your gonna stay  
I won't know what to do if we go our separate ways  
Cause I didn't even get to kiss you  
And now I probably never will  
Cause everything is standing in the way  
You would have been my first true and real kiss  
The kind that makes you see stars  
Who's gonna make me laugh when I'm sad and lonely  
I know there are others out there  
But I want you and only you forever and always

# Yours Forever

Never thought that I would find  
The one who'd steal my heart  
Someone who I could give my love  
Right from the very start

It seemed like there was nothing left  
All hope was gone from me  
I'd never find that special guy...  
It wasn't meant to be

But then one day, to my surprise  
Inside my world you came  
And from that moment, I knew that  
I'd never be the same

I've found who I've longed for  
And I thank God we're together  
I love you more each coming day  
My heart is your forever
