# Time Is

There is time for everything  
Time to know the reality  
Time to show the real us  
And time creates our history

In time we created life  
We cannot erase a single word we've said  
We cannot undo a single act we've done  
Time is something you cannot rewind

Time waits for no one  
Time is opportunity that only knock once  
Time makes everything happen  
Once you lost it, it will be gone forever

Time makes your life  
Time brings hope, time brings fear  
Time give you a success or a failure  
And time gives you another chance to try

Time is something you want to freeze  
Time is a teacher  
It makes you learn your mistake  
Time can make you a better person
