Afraid

You gave me te sweetest kiss
You hugged me when I was cold
You said the perfect words

It actually seemed like you cared
Was it real?
...Was it even there?

I was ready to give so much
More than you'll ever get.

I can't believe that to this date
My love for you is still the same
Or even greater...

Remember when I told you 'I'm afraid for falling for you? '
Well this is te reason why!
I'm hurting; a lot of pain
My heart needs you
So do I, I want to feel you close again

I've tried so much to get you out of my mind
I've lied to myself, said I didn't want you no more
The trut is I love you
I still do...

You gave me so much.
But you forgot one thing:
You didn't make me strong enough
Tobe without you

Just Leave

Just leave
If there ain't a good reason to stay

I love you
But what's the point?
You by my side
Both of us sad

I guess we can be friends
It'll hurt a little less
My heart will be crying
But oh well! !
Life is not fair

I met you since the start of this school year
Very good moments I had
Great memories I have now

If I ain't good enough
What's the reason to stay?
We both aren't happy
Let's just let it go!

Just leave
If there ain't a good reason to stay
