Some times when I'm with you, I feel like I should,  
End it, but I doubt I could.  
Lay everything down, put it all on the line,  
Throw away everything, like it was all a waste of time.  
But I can't because you're so perfect,  
Baby, you make it worth it.  
I'm sorry for what I've put you through,  
For every time I you.  
I wish I could take it all back,  
But I can't so cut me some slack?  
Please, just give me one more chance?  
This time, I won't ask for you to take off your pants.  
Out of all the things we could do,  
I won't want anything but you.  
In mind, more than body,  
I wouldn't want anything naughty.  
I wouldn't want in your pants,  
If you could give me another chance.  
I don't expect you to forgive me,  
I just want you to see,  
Things the way I do,  
Know how much I love you.  
Know what it would mean to me,  
Just how much I'd be happy.  
Just for me to be with you,  
After everything we've been through.  
It would mean the world to me,  
Cuz' you're the only girl for me.  
I'm not asking for you to forgive me, or for you to take me back,  
I want you to know I love you, and that's a fact.  
Take me back, if you want to,  
After everything we've been through,  
Every time I held your hand,  
I just want you to understand,  
That I need these thing to happen again,  
I need you, now more than then.  
You don't have to be with me,  
If it's not what makes you happy  
just know that I need you,

after all we've been through.  
I hope that you'll understand,  
I just want to be your man,  
But be with who you want to be,  
Do what makes you happy.

## ; Idrk Sadness Song

Trying not to cry, hoping not to die.

Why do I have to live this horrible life of mine.

Every night I felt like making cuts to keep myself in line.

If it wasn't for my messed up mind I'd have the perfect life right now, but I always seem to plow my self further into the ground.

Theese voices have me looking around. Somethings controling me its been in my history for as long as I can think It brings me horrible memories.

I'm happy very scarce but noone cares.

If it was up to me there would only be nightmares, you know the monsters you sometimes see when you go to sleep, ?

That's me, they take over when I start to weep.

I know its bad it makes you mad it makes me sad but from what I can tell it happens at least once a week.□

Speaking of the weak take a look in the mirror, all you'll get is a cold hard stare masked by the lies of facial expressions because when you leave this earth you leave your corpse and he doesn't look happy he looks mad when if it is you where's the other emotions.

And I'm tired of theese stupid notions of what a good or bad life are I just compare life to a good or bad car.

If its good it'll get you far and fast if its bad it'll to nowhere last.

And look at me writing a song because I want to live in an imaginary world where we all sing along, well guess what sometimes even I'm wrong

# Alone

It's so cold,  
here  
I'm so scared  
Fear  
I'm being watched, by a  
seer  
I don't want to be  
here  
I want to  
dissapear  
I can't see, it's  
unclear  
I'm so alone  
Here

In my mind, I'm  
alone  
No computer, no  
telephone  
if you showed up my mind would be  
blown  
if you were here, my feelings would be  
shown  
and, I wouldn't feel alone.

# Falling Again

I'm falling for her, more every day,  
I want to tell her, I just don't know what to say.  
I don't want to get turned down,  
I'm tired of my heart getting kicked around.  
Apparently, a lot of girls like me,  
Just not enough to let me know.  
But that's not important, because of you,  
Out of Everyone, I only want you.  
You are my top priority,  
the only girl I want to see.  
I think I've gathered up the guts,  
tired of thinking of 'what if's and but's'.  
I think I know how to tell her,  
That I love her in more ways than I knew there were.  
So, I'm thinking about asking Alexandria,  
  
Or at least letting her know.

# For You

I love you more than anything,  
girl, I'd get you any ring,  
anything I can afford,  
I might be a few dollars short,  
I might not have enough,  
but life it is so tough,  
I love you baby, I do.  
I swear it's true,  
I'll do whatever I can to prove it,  
I'm sorry if sometimes I lose it.  
I just love you so much,  
I miss the soft touch,  
the feeling of embrace,  
being face to face.  
I want you more than anyone,  
I love you more than anyone,  
I miss you more than anyone,  
I need you more than anyone.  
Baby girl I love you,  
I'm sorry if I shove you,  
push you around,  
knock you to the ground,  
But I'll help you up,  
Sorry if I blew up,  
I'll apologize,  
Look me in the eyes,  
and see that I mean it.  
I know you love me, I've seen it.  
We've been through alot,  
I'll give it a shot,  
I'll try my hardest to get things back to the way they were,  
Everything was just a blur.  
I let it all slip by,  
right before my eyes.  
Everything we've been through,  
do you love me as much as I love you?  
I know you're sorry and I am too,  
I'll make it up to you by saying that I need you too?  
I need you, babygirl,

trust me, you are my world.

# I Couldn'T Get Over You.

I thought this through,  
But I couldn't get over you.  
When I thought of you, I ripped out my hair,  
When I really needed you, you were never there.  
Every night I went to sleep,  
I thought of you, it made me weep.  
I couldn't get over you, couldn't you see? ,  
I couldn't get over you, so I couldn't be happy.  
I couldn't get over you, and I know, it wasn't your fault,  
I couldn't get over you, it would be like drinking a gallon of salt.  
If I did it, I'd die,  
But if I didn't I'd cry.  
I couldn't get over you, and I couldn't help it,  
I couldn't get over you, I just had to face it.  
I thought of you so much, I'd write poems in class,  
Teacher told me to stop, I'd say kiss my ass.  
Loving you, was like swallowing a needle full of medicine,  
It'd hurt a lot, but it'll eventually feel better again.  
I was stupid, I was blind,  
I wasted so much precious time.  
All on her, that I gave up everything for,  
Now my whole life was like having a giant sore,  
Put medicine on it, it hurt,  
But don't do it, it gets a million times worse.  
My life, my heart is so scarred,  
I wanted to take a never-ending sleep in a graveyard.

But, I'm over you, I'm better now,  
When I look back, I think 'wow',  
Why couldn't I see,  
That things can't work with her and me.

# I Love Everything About You

I love everything about you

I love everything about you,

After all, I've thought this through,

Everything from your soft beautiful lips,

To your adorable, perfect hips.

Even just the tone of your skin,

Everything about you, I can't wait to see again.

I love everything about you,

After all, I've thought this through,

Because I can't stop thinking about you,

And all the cute little things you do.

I love literally everything about you,

And I can't understand how I lived life without you.

I love everything about you,

Just a laugh or a smile,

Makes everything worthwhile,

Just a playful shove,

Or a compassionate hug,

Can make me smile, which is another thing I love.

I love everything about you,

Sometimes, it's just the way you look at me,

Like there's more than just my looks to see,

Or when you say my flaws are good things and you mean it,

Everything I don't like about myself, you've seen and you love it,

That's another reason I love you, You've thought me through too.

I love everything about you,

I love everything about you.

# I'M Sorry.

I'm sorry for the times you cried, and the lonlieness you felt inside,

I'm sorry for the way things were, and the selfishness that you endured,

I'm sorry for the nights we lost, and the deep pain it must have cost,

I'm sorry for the love you missed, losing you helped me realize this,

I'm sorry I wasn't the man you deserved, this has been the hardest lesson learned,

I'm sorry I wasn't there to show the deepest love you'll ever know,

I'm sorry for the empty days, and the stresses that you still yet pay,

I'm sorry for the way I left I've never felt so much regret,

I'm sorry for the heart I broke shattered with the words i spoke,

I'm sorry for the empty space, that laid beside you in my place,

I'm sorry for the empty arms, you fell into when times were hard,

I'm sorry for the days that passed, Our love that came to pass,

I'm sorry it took so long to vow this which i'm doing now, to love you forever if you hear me now

# My Feelings For Her.

I've had a crush on you for the longest,  
My feelings for you, are the strongest.  
I say that I love you 'as a friend'  
I say that I'll stay here 'till the end.  
I love you, it's my only secret,  
I'm not sure how long I can keep it.  
I'm not sure how to tell you,  
After everything we've been through,  
What's happened with our loved ones,  
The pain we feel, it seems like we are the only ones.  
It might not seem it, but I'm suicidal,  
I haven't told anyone, because I don't want a title.  
We've both been hurt so much by our 'soul mates',  
Why don't we just go against our fates.  
Do what it takes to make us happy,  
Why should we just sit by and get treated so crappy?  
I wish I could tell you, or make you see,  
How much I want you to be with me.  
It's whatever, I'll stay here as a friend,  
Until you tell me to leave, or the very end,  
Which ever comes first,  
For better or worse.  
I'd rather you not be with me,  
I can't seem to make anyone happy,  
And that's all I want for you,  
After everything you've been through.  
No matter what happens, no matter what we do,  
I'll always be here, and I'll always love you.

# No Title

Nothing mattered before I met you,  
You made my life worth it,  
Now I'm dying to forget you,  
Because you're so perfect.  
I lost you, once again.  
Lost the love of my life,  
I don't want to lose a friend.  
I made plans for you to be my wife.  
Now they just can't be,  
I'm sorry for everything,  
But I don't want you to want me.  
I don't want anything,  
But you in this world.  
I could live without the universe,  
If you could be my baby girl.  
If I could have you at your best and worst.  
Then I'd be content.  
out of all the words I've said to you,  
you should know which ones I meant.  
After everything we've been through,  
You should know how much I care.  
I'm tired of getting hurt, and hurting you,  
and pulling out my hair....  
I want you to be mine,  
But that can never be.  
I'm just a waist of your time,  
You should move on from me.  
I'm NOT perfect,  
I'm not your one and only,  
I'm NOT worth it...  
I deserve to be lonely.  
You ARE perfect,  
You're completely worth it all,  
You make everything worth it.  
I'll be here to catch you when you fall.  
I'm here, if you want me,  
I don't want to be with you though,  
if it doesn't make you happy.  
I just wanted you to know.

# Stand For The Silent

Why does there have to be all this hatred,  
why can't someone say 'hey kid, it's okay to be different'.  
Because if you are, there's no point in fighting against It,  
It might not seem 'cool' to be the weird one in school,  
but it is, I used to be that kid. It might not get exciting,  
and you'll never feel like the king, but that's the idea.  
You'll never have to ride in a black-maria,  
you're family will always be able to see you,  
you won't get too far ahead, but you won't feel the dread,  
that's associated with taking advantage of paper and led.  
If you ever get lonely, remember me,  
if I'm the only thing, that will help with you're feelings.

# The One.

my love,  
the girl i had just started to love has broken up with me.  
She was a gift from heaven above but it seems they've decided to punish me,  
I don't know what i did cause I'm just a stupid kid.  
maybe someday it'll come to me and maybe i can get her back,  
this girl i love so she can comfort me.
