dhandayutha pani()

Love = Water

it changes its shapes,
where it occurs,
otherwise modifies its shape
to the place.

we can live by using it,
we can't live
only using it.,
it dont had a shape,
it dont had a colour,
when we think,
we were captured it,
only have a evidence
of lost thing....

Smile Please

smile makes the life beautiful,
expand your lips,
it expand your happiness;
life is a puzzle,
solve it by smiling;
smile makes the
unknown an known,
smile can penetrate the
china walls also..
language can separate us,
but never smile..
wherever
make a smile,
make the life beautiful..
a man without smile,
like the bud,
without blooming,
smile can open the
iron doors,
smile can make the
hell an heaven..
so..
smile please.
