## Dom Hunt(17/04/1966)

Live in the blue mountains in Australia

Love writing and started to try my hand at poetry. My father loved writing poems and I didn't appreciate them as much as I should of. I would love feedback on any of my poems.I will try to write on more things but i do get consumed with love.

I really appreciate all who spend the time to read a few of my poems, they are very special to me.

Feel free to rate them i look forward to getting feedback on which ones need more work or the ones which touch you.

# A Bigger Wall

It comes in waves  
Sometimes big sometimes small  
Endlessly they pile up  
Bang against me till I fall  
I try to stand but fail  
On hand and knees I crawl  
Trying not to drown in it  
Even my breathing starts to stall  
My heart beats a weary way  
I cry to god to hear my call  
Thinking I can't go another day  
Strength I need to stand tall  
My faith will help me build  
Against this grief a bigger wall

# A Day In Bed

Soft sheets and skin  
Warm whispers  
Were touches linger  
Unknown places tingle  
Desire and love consumed  
Chaos, quite mixed  
Crossing into realms  
Of places in our dreams  
Being in one mind  
Things unsaid told by our bodies  
Time has no place here  
Bodies and souls rise together  
Then drift into the land of bliss  
Break of day till sunset

# A Mystery

You are the sun  
You bring hope after the darkness of night  
Light up my days with new beginnings  
Hold me in your rays of warmth  
You are the wind  
Changeable always  
You blow strong and weak  
Surprising day to day  
You are the rain  
I need you to grow  
Yet dampen my spirits  
Nourishing, devastating  
You are the ocean  
Mysterious, deep  
Tidal is your nature  
Endless waves of emotion you bring  
You are the tempest  
Making me feel alive  
Exhilarating, scary  
Life on the edge  
You are the moon  
Waxing and waning  
Peaceful, beautiful  
A wonder to me  
You are the mountains  
Formidable, grand  
Standing before you  
Entranced by your immensity  
You are the snow  
Softly you fall about  
Each part is different  
Pure and driven  
You are the trees  
Shading me from hurts  
Shedding again and again  
Offering hope anew  
You are the flowers  
Bright, cheerful  
Many colors

Change with the seasons  
You are the mystery  
Never revealing all  
Keeping parts hidden  
Holding me spellbound

# A Single Wish

Footsteps are fading in the distance  
Only shadows of you now  
Different roads we must take  
Separated hearts  
Separated minds  
Can't see you anymore  
Can't talk to you again  
Once were lovers  
Can't be friends  
Feel sad for you and me  
All that could of been  
My road will be constant  
Destination in my sights  
Though yours goes a different way  
Hope your journey is the same  
After our lives are finally done  
I only have a single wish  
To see you once again

# A Touch Of Skin

A touch of skin  
A stirring  
My hands move over the beauty of you  
I am entranced  
So soft  
Like silk  
You turn towards me  
My heart pounds  
I feel your breath  
Our lips move together  
Lightness fills me  
My hands move around the mystery  
You arch your back  
I feel a melting  
Of my heart and soul  
Time and place escape me  
My only fear is it will end  
We become one  
Joined in love  
Your hair is tussled  
Crazy like my mind  
Eyes meet  
A wave of ecstasy  
I can't believe I am part of you  
My mind races  
Filled with wonder  
That it feels like the first time  
I long for you  
As it was years before  
Still can't believe your beauty

# Alberta Prairie

Dead level, endless and dry  
The great flat prairie stretches out  
Under a pale blue sky

The Falls brief gold gives way  
To distant Northern tundra, Arctic waste  
The stubbled ground is grey

Soon, wind with razor breath  
Forms a bitter crust across the land  
The winters hard as death

The blizzard comes one night  
In blinding, spiraled blur of crystal flakes  
And grey is turned to white

The day breaks gleaming new  
Brings it's glimpse of keen seraphic light  
Tingeing snow with blue

This was written by my father years ago. My father passed away last year and I thought I would share some of his work on this site.

# All I Truly Desire

Days are troubled  
Wearied from endless toil  
Dreams disappear and crumble  
Thoughts ravage my mind  
Surrounded by self doubt  
Anxiety clings to my soul  
Creating loneliness and despair  
Shadows stretch before me  
Making gloom on a sunny day  
Restless I have become  
Looking towards tomorrow  
Time plays tricks  
Dances a slow dance  
To tease and disturb me  
Walls I have built  
Close all around the essence of me  
Hope seems to have left  
All I need in times of these  
All I truly desire  
Is too rest in your love

Dom Hunt

# Be Still In The Moment

Be still in the moment  
Let time stand still  
No more torment  
Take my fill

Words fly around  
Smile escapes your lips  
My dreams abound  
Hard to eclipse

So close I can smell  
The essence of you  
What's on your mind I can't tell  
Hours pass they are too few

You move away  
Not seeing my heart  
Trying too stay  
From falling apart

My time is done  
You have to go  
You're the only one  
Can make me so

Dom Hunt

# Before You

There was a time  
Before you  
But time didn't matter then  
For it was not precious  
There was a place  
Before you  
But place meant nothing  
For it was empty  
There was music  
Before you  
Music didn't sing to me  
Sounds just dissipated  
There was soul  
Before you  
Soul was empty, waiting  
To be filled  
There was light  
Before you  
It glowed weak  
Flickering  
There was a world  
Before you  
It was cold and barren  
With no life  
There was love  
Before you  
But I was mistaken  
For you are love

Dom Hunt

# Bitterness Of Deceit

Many things can bring you down  
And crush your very soul  
Heart may break a thousand times  
Take a endless toll

Days seem to never end  
Darkness grows all around  
The grind of existence  
Tries to bury you in the ground

These times seem so hard  
Hope seems to disappear  
But something else can crush  
And destroy all that's dear

It comes so unexpected  
No time to retreat  
Nothing compares to  
Bitterness of deceit

Dom Hunt

# Blessing In Disguise

Blessing in disguise it is  
These troubled days I've had  
Don't think I have ever  
Felt so, ridiculously glad

It's not what I thought  
How hard it is to explain  
But joy is bubbling up  
Were there should have been some pain

Reflections over the last few months  
You going has sort of left me numb  
Greatest gift you have given me  
Is I'll never see your mum

Dom Hunt

# Break My Heart Again

How many times can my heart break  
How many different ways  
Just when it starts to mend  
You seem to take it all away

You did it many years ago  
But fixed it so complete  
Thought it was so strong  
Strangely love makes me weak

Can't believe it hurts so much  
You have broken it once again  
Didn't see this coming  
Stronger and deeper is the pain

But break my heart once more  
For it shows me how true  
That all I've felt so long  
The depth of love for you

Dom Hunt

# Daffodils On The Hill

There was a time of sadness  
Dark and cold it was  
Love had died and rotted there  
Memories and dreams both crushed  
Nothing stays the same  
Sadness fades then grows to joy  
Light chases away the dark  
The sun finally kills the cold  
Love emerges where you don't expect  
You can dance again  
Laughter echos from within  
All that seems lost  
Has just changed  
You look around and see  
Daffodils on the hill

Dom Hunt

# Do You Miss Me

Do you miss me  
Do you miss me as I miss you  
Do days seem to blur  
Were all you do means nothing  
Day or night doesn't matter  
Awake or sleep  
Still all the same  
Do you miss me  
Do you miss me as I miss you  
Does your heart throb in pain  
no longer a part of you  
Floating on your emotions  
Fragile weak  
Do you miss me  
Do you miss me as I miss you  
Is your breath labored  
The air tastes bitter  
Stale in memories  
Gasping  
Do you miss me  
Do you miss me as I miss you  
To feel the emptiness  
As you turn in bed  
Reaching for  
Nothing  
Do you miss me  
Do you miss me as I miss you  
Does your soul feel empty  
Restless in the unknown  
Troubled  
Confused  
Do you miss me  
Do you miss me as I miss you  
Does the sun bring no joy  
Smiles all around  
Only cloud your day  
Darkness  
Do you miss me  
Do you miss me as I miss you

Look about searching  
For just a glimpse  
Of me  
Maybe  
Do you miss me  
Do you miss me as I miss you  
Do your dreams replay  
Over and over again  
Moments that mattered  
Moments of joy  
Do you miss me  
Do you miss me as I miss you  
Think of soft kisses  
That covered all  
Warm caress  
Peace  
Do you miss me  
Do you miss me as I miss you  
Voice that echos  
Through all things  
Words of care  
Of love  
Do you miss me as I miss you

Dom Hunt

# Drown In My Love

If you could feel the depth  
Swim again in the ocean  
Of my love for you  
All that it is  
All that it could be  
Beckons to you endlessly  
As the waves of it crash  
On the fatal shore of your absence  
Swells rise and fall  
Pounding again and again  
Forever  
Calling your name  
Calling your heart  
Lose yourself in it  
Let it surround all of you  
Let it hold you forever  
Be taken  
Drown in my love  
And live once more

Dom Hunt

# Edge Of Redemption

Clouds gather and thicken  
Ominous character taken  
Reflections of the past spill  
Filling crevices of my mind  
Wrongs done and forgotten  
Burn into my soul  
Heart pounds in anxiety  
Frightened by itself  
Where has the light gone  
All sound is displaced  
Endless moments flash  
Timeline of my life  
Judging harshly  
Makes me wither  
Breathing slows now  
Rushing all around me  
To no avail  
All goes dark  
Soul escapes my body  
Light surrounds  
Past erased  
A hand touches mine  
Feel peace and joy  
I look towards the face  
See love itself

Dom Hunt

# Empty Dreams

Last things gone now  
A sign post in my life  
I just wonder how  
Heaven turned to strife

Confusion surrounds me  
How I created all this  
Should of let things be  
What did I really miss

Time plays tricks on you  
It's passes silently by  
Days have been to few  
I sit and wonder why

Numb I stand alone  
Looking at empty space  
Empty house  
Empty dreams

Dom Hunt

# Five Brothers

There are five  
All noisy  
Running rampant  
Through hot summer days  
Time drifted  
Only sunset beckons us home  
Mum no idea where we had been  
We fight we laugh  
Adventures we only know  
Care free those summers  
The lake beckons  
A raft that didn't float  
Petrified that I can't swim  
Swing rope that flung us far  
Into the chilled water  
Brown from the sun  
The smell of fir trees  
And ferns so soft  
The forest silence  
Broken by youth  
Running wild and free  
Fighting against a electric fence  
To see how tough we are  
Amazing the inner strength  
When a shock came if you lost  
The sound of baseball  
World series fame  
Was in our grasp  
I liked to bat  
And hear that crack  
We would to compete  
For everything  
See who was the best  
Five brothers still  
Many summers past

Dom Hunt

# Fly Like You Should

You only needed respect  
For me to spend some time  
To sit and listen  
To care what you thought  
To just be there  
To honor you  
To show you are the world to me  
But I didn't  
I was too busy  
I was too distracted  
Worried about things that didn't matter  
Worried about things I couldn't change  
Looking past what was really important  
I caged you in  
I made you less of who you are  
I stifled the beauty of you  
Now you are free  
Fly like you should

Dom Hunt

# Frost

Crisp is the air  
Wind is silenced  
It settles  
And it freshens  
Patterns on windows  
Crunch under foot  
Suns rays shine  
And burn it away  
Clear skies above  
Beautiful the day

Dom Hunt

# Happiness

Happiness has me confused  
Everyone seeks it  
Keeps me slightly amused  
For what is it

A murderer is happy  
Taking someones life  
A adulterer is happy  
Taking someones wife

A thief is happy  
Taking all my possessions  
A pervert is happy  
With debauched obsessions

Hitler was happy  
Killing all the Jews  
Atheists are happy  
With empty church pews

I don't want to be happy  
Joyful I shall be  
For what is happy  
It doesn't make you free

Dom Hunt

# Hear Your Voice

To hear your voice  
To hear the song  
Memories of summer days  
Warm summer nights  
Never seemed too long  
Words that caressed my soul  
Words that floated gently  
Rest inside of me  
To hear your voice  
To hear the song  
Floating autumn leaves  
Color that you bring  
Dancing images  
Resting on the ground  
Memories gather there  
Nestled in the familiar  
To hear your voice  
To hear the song  
Winters chills displaced  
Embers of you burn  
Flaring in passion  
Lightness of you  
Dark days are bright  
Wrapped in whispers  
To hear your voice  
To hear the song  
Spring the season of hope  
Reminds me of you  
New life bursting  
Rushing to become all  
Soft, beautiful  
Offering more than I deserve  
To hear your voice again  
To hear the song

Dom Hunt

# Hidden Mind

Hidden mind you have  
Behind that glorious smile  
People only see some of you  
Not hardship and trial

Life of the party you are  
Dance for hours on end  
Happy you, they think  
Don't see all the pretend

So good at it now  
You believe it yourself  
Drive away the dark  
Problems put on the shelf

Days seem easy now  
But the storms will return  
Thoughts will possess again  
Like fire they will burn

People won't know  
What happened to you  
They didn't know before  
You could be so blue

Where will you turn  
Will they have the time  
To carry you once again  
past that terrible line

Do you turn back again  
And wonder what happened to me  
Or will you carry it all alone  
Will I be there, wait and see

Dom Hunt

# Hope Against Hope

Hope against all hope  
That times will change  
A word lingers  
In time and place  
Softly spoken  
Memories bring joy  
Memories bring tears

Hope against hope  
That love will grow  
From the embers  
A single spark  
Lights the fire again  
Memories bring joy  
Memories bring tears

Hope against hope  
Time will soften  
A hardened heart  
A fractured mind  
Bring peace to soul  
Memories bring joy  
Memories bring tears

Hope against hope  
That this is a dream  
I will wake soon  
Covered in sweat  
Breathing once again  
Memories bring joy  
Memories bring tears

Hope against hope  
That tomorrow is different  
Today didn't happen  
But it did  
Can't change today  
Memories bring tears

# How I Loved You

There was never a hour when my thoughts didn't drift to you  
And fill my mind with the immensity of you  
There was never a time of regret  
Only times filled with hope  
There was never a dream that wasn't fulfilled  
Or a new dream that wouldn't be  
There was never a breath that didn't feel the essence of you  
Filling me with life  
Your touch lit my soul  
Till it burned with desire  
Your smile captured joy  
And spread to all you'd see  
Your eyes shone of exuberance  
Promising things, that you would help me reach  
Your body screamed at me  
In a way that made me tremble  
Your voice entered my core  
Echoing sweetness through my veins  
All you are, like a song  
Rises and falls within  
My heart beats with yours  
My blood can feel you  
As it flows to all of me  
Filled with you I have become  
Whom I should be

Dom Hunt

# Hush Don'T Say A Word

Hush don't say a word  
Nothing matters now  
Thoughts of yesterday are gone  
There is only this moment  
There is only this place  
Hush don't say a word  
Come close to me  
Let me take you in  
Hold you gently  
Hold the essence of you  
Hush don't say a word  
Dry those tears  
Lose yourself in me  
Feel my heart beat  
Feel my breath  
Hush don't say a word  
Move with me  
Become free again  
Lost in love  
Lost in time  
Hush don't say a word  
Come with me  
Fly to heaven  
Surrender your fears  
Surrender your heart  
Hush don't say a word

Dom Hunt

# I Have Met You Before

I have met you before  
Your hair tussled just like that  
Standing at the door  
Eyes smiling at me

I have heard your voice  
Sweet words you have said  
I didn't have a choice  
You called to my heart

I have seen your eyes  
Looking with love  
Saying hello not goodbyes  
Melting my soul

I have seen you move  
In a way that shakes my core  
Elegant, soft and smooth  
Coming close to me

I have kissed those lips  
And felt your breath  
Held you by your hips  
Immersed myself in you

I have met you before  
You are always the same  
You make me soar  
I have met you in my dreams

Dom Hunt

# I Forgive You

I forgive you for not loving me  
Going far away in your heart  
I just couldn't make you see  
I always loved you from the start

I forgive you for not being strong  
When things got a bit too hard  
Not seeing how you were wrong  
Love and years you can discard

I forgive you for not trying  
Even though your life was good  
More joy than crying  
Not doing what you should

I forgive you for not caring  
All we shared these years  
Couldn't be so daring  
To face some of your fears

I forgive you for not trusting  
In the wonder that we shared  
All the love bursting  
Surrounded by endless care

I forgive you for not being you  
Having lost your heart and soul  
Not seeing what is right and true  
I know you will pay a heavy toll

Dom Hunt

# I Just Love You As I Always Have

I'm not pathetic or weak  
I just love you as I always have  
I don't seek you out  
Because you are just there  
In my heart and my mind  
I don't need to hear voice  
It echos through all things  
Speaking to me in loving tones  
Yelling at me in frustration  
Whispering softly words of yesterday  
I don't need to touch you  
I can still feel you beside me  
The warmth of you remains  
The emptiness is filled with memories  
I can see your face clear as the sky  
Before me your smile lights my way  
Your eyes shine upon me in my dreams  
Your laughter showers me like rain  
I can sense you everywhere  
Time has not wearied my mind  
You are fresh in me like a new day  
Strange how close you seem to me  
Strange how I talk to you  
You seem to answer me  
I'm not pathetic or weak  
I just love you as I always have

Dom Hunt

# I Left You There In That Place

I left you there in that place  
For you to change and grow again  
You didn't see that time as precious as me  
You didn't realize it was your chance  
I will not look back anymore  
I will not wonder why  
I will not think of yesterday  
You will stumble and fall  
You will make a final call  
Silence is all you will hear  
I have gone from that place  
I have grown and changed  
I have finally stumbled upon me  
And I like the smile upon my face  
You have lost more than me  
You have lost the light  
You have lost the twinkle in your eye  
Did you find something  
Did it fill your heart  
Did it make you better or worse  
Some dreams do come true  
Some are nightmares  
Some will empty your soul  
What happened in your dreams  
What was it all about  
What did it achieve but emptiness  
People led you down that path  
People were all around  
People called it courage  
But no one is there now  
For time wearied them  
For they have lives to lead  
For your problems are stale  
The show lost it's gloss  
They heard the drama  
They believed the lies  
They lived their life in yours  
Fun it was for awhile  
Thought all was well

Thought you found happiness  
Thought you had it made  
But things didn't work that way  
Just be happy  
Just go back  
Just don't bother us with all of this  
Didn't expect to turn so bad  
Loss of love and home  
Loss of beauty and joy  
Loss of inner peace  
People say move on from here  
This place you must stay  
This time is frozen now  
This line has been crossed  
I left you there in that place

Dom Hunt

# I Love You Are Words

I love you are words  
Thrown about to please me  
But they are empty  
Like leaves from a tree

Actions are all that matter  
But I didn't see through the fog  
Of the fantasy I had built  
I have been petted like a dog

All things that I thought  
Were walls I had built  
Around the garden of my soul  
You felt no guilt

I was played along  
So I would be nice till the end  
Didn't have to do that  
Your love was pretend

I made excuses for you  
All the times I was tested  
Couldn't shake me though  
I had too much invested

At the very end I still believed  
That you loved me more  
But I was a fool to listen to hope  
As I always have before

Now that your gone  
And we will never be one  
Can't help feel foolish  
Not seeing were done

Dom Hunt

# I Once Saw A Squirrel

I once saw a squirrel  
Up high upon a tree  
Seemed oh so happy  
I wished it could be me

Saw a Sunflower so bright  
Along a road one day  
Following the sun it was  
From first till final ray

I saw a smile upon her face  
Bringing joy all around  
Didn't need to say a word  
So complete without a sound

Felt the warmth in the wind  
The start of something new  
Filling me with hope  
To hold to be true

I looked into your eyes  
Reminded of those things  
Love could grow anew  
And all the joy it brings

Dom Hunt

# I Wish

To touch your skin  
Feel you hair over me  
Your voice is a memory  
That echos in my soul  
Smile like a spring day  
That made me whole  
Eyes that shone of love  
Have dimmed and gone  
Your walk which would  
Make me feel alive  
Kept going on  
I stand alone and wish

Dom Hunt

# It's Lifts It Pulls

It's lifts and pulls  
It changes  
It grows  
It comes from nowhere  
But never leaves  
Makes you feel complete  
But can kill you too  
It feels light  
Then feels heavy  
It can twist your heart  
And lifts your soul  
We cannot live without it  
For it is in us  
It's makes us whole

Dom Hunt

# Just Echoes In My Soul

It's so long ago  
Many seasons past  
That first I saw your face  
Joyful it seemed to me  
But underneath were scars  
Many secrets were hidden  
Beneath those smiling eyes  
Voice made of velvet  
That melded into my soul  
It didn't tremble then  
But tales of horror  
Began to make it quiver  
As a life began to unfold  
So composed and beautiful  
So strong you had become  
But hiding in a scary place  
Hidden deep within  
Memories that crushed  
Those smiling eyes  
The velvet voice  
No one knows the depth of pain  
The quiet screams for help  
A painful past borne alone  
A price was paid for you so brave  
But worth all the cost  
To have known you was a gift  
Shared joyous life so long  
Smiling eyes and velvet voice  
Just echoes in my soul

Dom Hunt

# Just For Thee

Break the surface and you will see  
Ravness, sadness  
Fragile person that is me  
Don't be fooled by my smile  
So joyful as can be  
Touch my soul one day  
Darkness killed the glee  
Look into my eyes  
Needing to be free  
Feel my heart beat  
Pounding like the sea  
But love is there  
Waiting just for thee

Dom Hunt

# Kids

Hear the laughter  
Hear the joy  
The clutter  
And the chaos  
Fights over nothing  
Sleepless nights that never end  
Christmas was great again  
But they grow and change  
Then leave as they came  
And life moves again  
Silence doesn't seem golden  
Like it once was

Dom Hunt

# Kiss My Lips

Kiss my lips one last time  
Hold me close as before  
Let me feel you breath  
Dance again across the floor

Let me wake beside you  
See those smiling eyes  
Hair cascades across the pillow  
Just say hello not goodbye

Touch my hand so gently  
Take away my fears  
Let me feel you there  
Wipe away my tears

Whisper gently in my ear  
Mean the words once more  
That made me complete  
Helped me fly and soar

Kiss my lips one last time  
Hold me close as before  
Let me feel you breath  
Dance again across the floor

# Lack Of You

As time passes so swiftly  
Thoughts of you become less  
Your hold on me is withering  
Pain subsides no distress

All those times of joy  
Are being chased away  
Filled with what you've done  
How you did betray

I don't want this to happen  
my mind plays tricks on me  
The good things we shared  
Are getting harder to see

You wanted your freedom  
But I think that I have found  
That you have freed me  
Not the other way around

Shadows of yesterday still stretch  
Whispers I can hear  
Time has finally made  
My love start to disappear

Don't fade away I think  
To all that meant so much  
You're not there anymore  
Can't even feel your touch

It sad to finally realize  
That was so strong and true  
Could die so quickly  
From the lack of you

# Let Me Forget

Let me forget your smile  
That brought a smile from me  
As it lifted me higher  
And gave life to my soul  
Let me forget your laughter  
As it echoed joy  
Raining down lightness of heart  
Dissipating troubles  
Let me forget your eyes  
Sparkling with love  
Blue as the ocean  
Drowning me  
Let me forget your voice  
Soft sexy  
Playing a song in my head  
That never ends  
Let me forget your hands  
Intertwined with mine  
Pulsing through you to me  
We merge  
Let me forget your hair  
Cascading around me  
Scented with you  
Tickling my mind  
Let me forget your body  
It's beauty it's grace  
Spellbound I was  
It torments me  
Let me forget your lips  
Softly touching mine  
Whispering words of warmth  
Tantalizing they are  
Let me forget you

# Lie To Yourself

Fighting with the darkness  
Of who I am  
Not perfect like I thought  
A single thing  
Triggers my weakness  
Who I am to judge others  
When they don't understand  
Knowledge comes with responsibility  
But makes the fall harder  
Seeing who you are  
Scares you  
It hurts because of the lie  
That you told yourself  
Hope I have the strength  
To not lie again to me

Dom Hunt

# Manipulate

Some people seem oh so nice  
Can't do enough for you  
Listen to all your cares  
take away the blues

Clever they are in what they say  
Words as smooth as silk  
Want to give all they can  
But I know of this ilk

You pay a price  
To have as a friend  
Twisted words  
All pretend

They want to use you  
But never stipulate  
All they want  
Is to manipulate

Dom Hunt

# My Dad

A man passed away today  
A man of great resolve  
Who strived to live  
A different life  
One of love and soul  
He didn't care about material things  
Only knowledge and truth were his way  
A man of ideas and thought  
A man from yesterday  
Still relevant today  
He was a father and husband  
A teacher and a poet  
A dreamer and a traveller  
Who loved the earth and the bush  
Who made simple things an adventure  
And made things remain  
And gave us all a chance to dream  
Of things that made life  
More to us it's seems  
Did he doubt and wonder why  
Did he have some regrets  
A life lived well always will  
It's a life I won't forget

# My Daughter

That day so long ago  
She came into my life  
Beautiful  
Innocent  
Love filled me  
I held her  
Delight and joy  
That moment  
Etched in the recess of my soul  
What was destined for this gift  
Thankful I shall always be  
All I had I would give her  
as the years have past  
She has brought me more  
Joy and delight than I deserved  
For she has made me  
A better person

Dom Hunt

# My Mum

The warmth of touch  
You can feel the love  
In a smile  
A song brings joy  
Gift bear for a king  
Still hear the soft voice  
Floating over me  
Knowing alls well  
As I drift to sleep  
Always there  
Caring and worrying  
About all of us  
Through all the years  
Of joy and tears  
Selfless in all things  
Showing how to love  
How to live  
A saint to me  
My mum

Dom Hunt

# My Worst Day

My worst day with you  
Was better than the best without  
My darkest day  
Was light compared to this  
A chasm before me  
Is the absence of you  
Pounding of my heart  
Counts time  
My mind fills with yesterday  
Making today empty  
Pleading to myself to let go  
I hold desperate  
To the nothingness  
Days pass painfully  
More not less  
Consumed by you  
I have become dust  
Blown by the wind of my emotions  
Swirling endlessly  
To no where

Dom Hunt

# Never Told Me Why

Never told me why  
The smell of cigarettes  
The words I said  
The way I breathed  
The touch I made  
What thing brought about  
memories so scarred  
Didn't understand, still don't  
Wish you told me  
Wish you weren't afraid  
Wish you knew I was tough enough  
Would of made a difference  
Would of enlightened me  
on the darkness  
Distant eyes looking back  
Your wounds became mine  
I couldn't fix what I didn't know  
The pain it caused you  
Still etched on your heart  
Just wonder, what it was

Dom Hunt

# Noise Surrounds

Noise surrounds  
Images flicker endlessly  
Distractions abound  
To find peace  
To find quite  
This crazy world kills  
Thought and reflection  
Buy this buy that  
Be happy with useless crap  
Believe in nothing  
But yourself  
Move from things that matter  
No time to feel inside  
To see the empty space  
Soul that is dying  
Can't hear the soft voice  
Saying you can be more  
It's too easy to ignore  
Whirlwind of today  
Brings false joy  
That doesn't last or bind  
But falls away needing

Dom Hunt

# Oh Winds Of Time

Oh winds of time blow me  
To the past or to the future  
But don't stay still today  
Take me to the birth of my children  
Or moments of endless care  
Let me see the dawn of a brand new day  
Forward to joyful anticipation  
Bring to me the first day  
When loved blossomed full  
Move over the mountains of today  
To the valley of promise  
Or back to the first time  
I held her in my arms  
Felt her heart beat with mine  
Bring me to a still place for my soul  
My mind can be free again  
Thoughts that are filled with hope  
That moment so long ago I first saw her  
Unsettled I became at such beauty  
Oh winds of time  
Blow anywhere but today

Dom Hunt

# Our Foolishness

Never knew it would die  
Never thought it was goodbye  
Didn't see it wither  
My mind was closed  
Grief and stress  
Had clouded it  
But hindsight is strange  
Brings light to the darkness  
Of the past  
Can see now the lack of care  
Like slow motion  
Choking for air  
Why can't we see  
What we are killing today  
Only time reveals  
Our foolishness

Dom Hunt

# Our Hands Touch

Our hands touch and meet  
Your fingers become mine  
We walk and your hair flows  
The scent of you excites me  
Your smile lightens all  
I seem to drift as I walk  
Days like this are priceless  
Yet every day seems like this  
All these years have past  
Still all is fresh  
Words caress my soul  
Voice like a song, uplifting  
Movement graceful  
It's something I can't describe  
Precious it is to me  
Unaware of how you effect me  
You walk ahead just slightly  
I slowed I guess  
To admire all of you  
Thoughts rush my mind  
Wave after wave  
wash over weary mind  
Freshen me once again  
cleanse my soul, my heart  
Can't tell you how I feel  
It's bigger than me  
I can't control it  
Wish I had the words  
At least I have it all  
If only in my dreams

Dom Hunt

# Paranoia Fills Me

Paranoia fills me  
All my fears become reality  
My soul no longer free  
But surrounded by the monsters  
Of my mind  
That I can't control  
You are free now  
But I am trapped by myself  
My hearts stretches  
Till it feels thin  
So tight  
Will it break again  
How can I survive my fears  
Why did I follow this path  
What possessed me  
To climb the hardest way  
What would of been  
If we never met  
Less heartache and pain  
Would I have found the depth  
Of love that I felt with you  
I wonder now what could of been

Dom Hunt

# Sadness Sits With Me

Sadness sits with me again  
Hasn't been around a lot  
He hasn't changed since last time  
Still unhappy believe or not

Sky is blue he sees grey  
Not a smile upon his face  
I try to tell a funny joke  
No laughter not a trace

Don't know how long he'll stick around  
But he's bugging me already  
Can't handle his endless frown  
I need someone to hold me steady

So I think I'll say goodbye again  
Hope i don't bump into him to soon  
He drags me to far down  
When I just want to sing a tune

So farewell to you sadness  
I need a happier place to be  
I know you'll feel no gladness  
If I'm caught here or set free

Dom Hunt

# Set Sail Once Again

Set sail once again  
Where I go I do not know  
Sea rises and falls  
Waves crash  
Into the weakness of me  
Resolute I must become  
Looking back on my home  
Memories call me  
Wanting to stay where  
I belong  
The shore becomes distant  
The sweet smell of home  
is tainted with salt spray  
How I long to turn  
The wind pushes me further  
I fight it  
Till I am weary  
Storm weakens and strengthens  
Peace and chaos mixed  
Find strength somehow  
To look ahead  
A new land across the sea  
Is it really calling me  
Unfamiliar is it's shores  
Strange land to explore  
Will it treat like the last  
With summer days  
Cold winters blast  
My restless soul needs a place  
To rest and dream  
Feel alive again  
I step upon a rocky beach  
To see a land new to me  
Feels different  
Feels bigger  
A look back across the sea  
Distance is to far to see  
What I left so long ago  
My boat floats restlessly

Should I burn it  
Say goodbye to all  
Not yet  
But the day will come  
My soul can rest and dream  
Boat will burn that day  
Fire will consume the past  
Look to distant shores  
Say goodbye at last

Dom Hunt

# Shy

Hard to describe what it's like  
To be afraid to say hello  
Or join a group in laughter  
While people chatter all around  
You suddenly feel all alone  
The world expects  
That we are all the same  
Hard to describe what's it like  
To be shy

Dom Hunt

# Sing A Song To Me

Sing a song to me  
Let me hear the words  
Caress my soul  
Lift me to a blissful place  
That mentions love untold  
Sunny places for me to rest  
Let it bring warmth  
Lyrically wrap my heart  
Dispel troubles of the day  
Sing a song to me  
That carries me to the clouds  
So I can fly upon my dreams  
Swoop down and see  
Anxieties crushed and covered  
Worries scurry all away  
Only joy enters me  
Sing a song for me  
Of kisses oh so soft  
Touches like silk teasing  
Breath warmly tickles  
Empty mind full heart  
Light, joy intertwined  
Till the very end  
Sing a song for me

Dom Hunt

# Spring

Rays flicker through the trees  
Dancing patterns on the grass  
A warm pleasant breeze  
Dabbles warmth on the glass

Plum trees finally bloom  
Daffodils mimic, risen sun  
Creates a aura in the room  
Spiders web finely spun

New life flies all around  
Frantic to catch the day  
Feel vibrancy abound  
Springs is on display

Makes you feel more alive  
The longer sunlit day  
No feelings to contrive  
Butterflies come out to play

Winters cold wind blast  
Has finally died away  
No reflections on the past  
Life again, out to play

Dom Hunt

# Surprise Me With The Truth

Surprise me with the truth  
Don't lie to me no more  
Words no longer twisted  
As they always have before

I'm not scared of honesty  
Im not scared about who I am  
But your afraid to say the words  
Frankly I don't give a damn

But your living in a lie  
Words you cannot speak  
How much has changed  
Strength has turned so weak

Surprise me with the truth  
It will set you free  
Don't lose yourself in lies  
Tell the truth to me

Dom Hunt

# The Journey

I was in a daze  
When I heard the news  
Hard to fathom  
Shocked, bewildered  
But deep within  
Protective  
What to do  
What to say  
A chance to see you  
My heart was pounding  
You were vacant  
Fragile, scared  
I wanted to hold you  
To just be near  
I was joyful in your presence  
Hopeful too  
Little did I know  
The journey we had begun

Dom Hunt

# The River

It's flows cold and swift  
Warms my heart  
This ancient river  
Comes from distance mountains  
lost spring in the clouds  
A trickle gathers  
Meanders carelessly through earth  
Making it's own way  
Never ending is it's flow  
Spilling into the salty abyss  
It speaks to me  
Pleasant is it voice  
Calming, soothing  
Worries flow away in the current  
Peace descends  
Ancient river shows  
To meander through life  
Making my own way  
Being one with your soul  
Till you to can flow  
To eternitys glorious glow

Dom Hunt

# The Sun Shines Brightly

The sun shines brightly on my face  
The wind gently moves  
I can feel the place  
Where I can call home  
A look a smile  
Wonder fills me  
I seem to drift  
Like my soul Is leaving me  
No pain  
Just peace and lightness  
In knowledge  
That all is well  
The past has blown away  
Today is new  
I want it to last  
But tomorrow will come  
And I look towards it  
With hope  
For all things are right  
I am on it's side

Dom Hunt

# Time

It moves so slow  
Yet goes so fast  
It's priceless  
But doesn't last  
It's wasted  
As it goes past  
We all want more  
But our time is cast

Dom Hunt

# Warmth Surrounds Me

Warmth surrounds me  
Strange it's been so cold  
Seasons haven't changed  
But it's there  
Deep within it began  
Surprising in it's speed  
First buds of optimism  
A breeze of a new being  
Start to sweep my soul  
Why I do not know  
The cold clung to my heart  
So long frozen in time  
Like a chinook  
It has come to me  
Freeing my mind  
Freeing my soul  
Will it last I don't know  
The warmth has melted  
The fear that chilled  
All who I am  
Has finally began it's thaw  
A false spring  
Maybe but I can smell  
New growth again

Dom Hunt

# Was This Always You

Seeing you again is strange  
Doesn't bring any joy  
You could make me fly once  
But you are different now  
Cheaper in a way  
Like the glow of you has dimmed  
A parody of who you were  
Not perfection I knew  
But a shadow of truth  
Were you always like this  
Did love blind me  
Became all that I despise  
It's like I have awoken  
From the dream that held me  
Hard to know what's true  
Was this always you

Dom Hunt

# Where Passion Once Lived

I pull them back and see  
Where passion and love once lived  
Reminders of better times  
Once joined in endless embrace  
They are fading now  
For time marches on  
Yesterdays memories may seem close  
But we are racing away from them  
Still they linger  
Your love has died, mine remains  
They haunt me with bitterness  
Those times of purity  
Memories stained in betrayal  
Still echo sweetness  
Love lived there  
Through good, through bad  
Laughter joined it  
Danced at night and dawn  
Always special it seemed  
Those times touched my soul  
Destroyed every fear  
Caressed every hope  
Dreams became reality  
I pull them back and see

Dom Hunt

# Who I Am

Two years from now  
I can see the day  
I can start again  
And finally free  
To love again  
Not that long  
To know that I  
Can find what I deserve  
Being loved for me  
Being loved  
Not afraid to say  
Things that mean something  
Things that sing in my soul  
No more anger  
No more tension  
Just freedom to feel  
Who I am

Dom Hunt

# Why

Why do you burn inside me  
Why do you take my breath away  
Why do you make my heart beat  
Why do you make me wonder  
Why do you smile so  
Why do you wrap me up  
Why do you hold me near  
Why do you fill my dreams  
Why do you surround my life  
Why do you carry me forward  
Why do you caress me so  
Why do you touch my soul  
Why do you possess me  
Why do you talk like that  
Why do you lift my spirit  
Why do you make me safe  
Why do you bring joy  
Why do you have me spellbound  
Why do you dance for me  
Why do you move so nice  
Why do you fly above  
Why do you capture me  
Why do you make me better  
Why do you ease my mind  
Why do you make life more  
Why

Dom Hunt

# Winter Won'T End

The leaves are falling  
The darkness comes early  
The sun leaves no warmth  
The emptiness grows  
How I long for spring  
Like the longer days, will bring hope  
As if this passing, will ease the pain  
A desperation clings to me  
The season a reflection of my soul  
But inside I know  
That spring won't change anything  
the days will still seem dark  
And the cold will cling to my heart  
For you are my spring  
For you are my sun  
For you are what makes me new  
For you are the reason for my hope  
Time will pass  
Summer will come  
But to no avail

Dom Hunt

# Wish I Was There

Wish I was there  
when you entered the room  
What thoughts in your mind  
Can see hurried looks  
At private papers  
Curiosity got the better of you  
Even left a clue  
Were you mad  
Surprised I guess  
At the change in me  
Sad not to know  
Knowing you can't ask  
Must be tearing at you  
Like mystery does to me  
Why was I doing it  
How long had it been  
Had it made the change you desired  
Deep down some doubt  
Not enough to change  
But enough to make you wonder  
The clue has me baffled  
Why did you leave it  
Angry  
Sad  
I will never know  
But either will you

Dom Hunt

# Wrongs I Have Done

Wrongs I have done  
Made you less than whole  
playing in my mind  
Burn in my soul

Words that I said  
That cut to the core  
They echo through time  
Too hard to ignore

Looks that caused pain  
Like I thought less of you  
Harsh judgement sometimes  
Repentance to few

Made you feel less  
Like you were on trial  
Made your whole heart  
Hurt for awhile

Finally it's mark it made  
Bravely you walked away  
From all that you loved  
You were right not to stay

Now I need forgiveness  
Just a simple word from you  
Could help me find a way  
To begin life anew

Dom Hunt

# You Always Pretended

How I have been stabbed  
With the smallest knife  
A death by a thousand cuts  
Yet I love you more  
It won't die  
It is stronger than me  
I may become a shell  
But it lives  
It pulses by itself  
Beyond what I ever expected  
Strange how it grows  
So abandoned and neglected  
It comes back for more  
Stretched and extended  
Every moment is pain  
But sweetness is blended  
With all those times  
You always pretended

Dom Hunt

# You Are Always There

You are always there  
Even though you are gone  
Whispers in my mind  
Saying things never said  
I don't want to hear your voice  
But it follows me  
Like a drum softly beating  
It is a rhythm of my life  
I don't want to see your face  
But as I close my eyes  
It's there  
Still beautiful but painful  
It only brings sorrow now  
Even your smile  
Like sunshine  
Clouds my day  
Dreams are nightmares  
For there is no escape  
You are dancing  
On the fringes of my mind  
I wake to find you  
Far away I drift  
Day or night  
There is no place to hide  
You are always there
