# Global Warming

Scientetist have given the warning  
The world is facing a global warming  
No harvest no winnowing  
No food children are yawning

Everyone is crying of hunger  
Its getting worse we are yet to suffer  
We have to stop this before its get further  
Aids is a killer children are orphan no mother no father

Fantiz Evans

# Its A Big Loss

Rip

its a big loss...

the plane crash was a tragdy  
but your death was a big catastrophic  
a professor in mathmatic  
that was you Hon. saitoti

its a big loss...

a great mathmatician  
a dedicted politician  
you solved our security like magician

its a big loss...

you left behind a legacy  
many will emurate you like the water in the sea  
you were a great seed  
to many all over the world

its a big loss...

you fought alshaabab  
withou fear nor disturb  
you worked together like pal  
we wont give up your work on the millitia

its a big loss...

a big gain in heaven  
a big loss to kenyan

Fantiz Evans

# Vote For Peace

To all the kenyan  
vote for peace  
shan violence  
no need to kill your brother  
just embrace your sister  
we need development in our country  
these can only happen if we live in peace
