Beguile

Allow darkness to consume
As moth to flame
Eternally burning
Sands of time stand still
World stops turning
Never the same
Yourself left to blame
Seeker of thrill
Filthy with shame
Bitter lies
Sweet lips
Holding on by finger tips

Gone Forever

Forever falling
Forever falling away
Forever calling
Forever calling your name
Always changing
Always stays the same
Forever calling
Forever falling
Forever falling away
Always drowning
Always drowning in pain
Now floating
Floating away
Fading, fading
Fading away
Eternal beautiful kiss
Numb
Numbness is bliss
forever falling
Forever falling away
Forever calling
Forever calling your name
Always changing
Always stays the same
Forever falling calling your name

New School

Screw unto others
Before they screw unto you
Trust no one
Until they give you reason too
stick and stone wont break my bone
words for life scar me
Forget me
Your forgot
Forgive
I'll forgive not

Take Heed

World is bitter
Come hither
Waste away with me
Out in the distance
Feel the resistance
Lust, greed, hate,
Images of violence
Lying, dying, inside us
God breaks his silence
He will cast the wicked away
Time draws near
I will not fear
From this burden, I have been set free
When he knocked I opened the door
The son of God
Jesus died for me
This the path I choose
Will win no loose
To serve and carry out his will for the rest of my days
God Holy spirit Jesus
I love, worship, adore, praise
