# Alone And Scared

It feels like there is a curse  
As things just keep getting worse  
As each day goes past  
I feel like I wont last  
I can't seem to move my feet  
I want to go to sleep  
Wanting this pain to go away  
Here as I lay  
Wondering if I want this life for me  
Not wanting to wake, to be free  
I dont want to be here, I want this life to end  
For the sake of family and friends  
I'm trying so hard to be strong  
These thoughts are scaring me as I know there wrong  
The thoughts i am being fed  
Make me want to give up and be dead  
I can't be strong anymore  
As the tears from my eyes pour  
Wishing there was someone to undertsand  
Someone who will give me a helping hand  
Everything that I ever had  
Has turned out to be bad  
Feeling so empty inside  
Wishing that I could disapeer and hide  
Wanting to be locked away and throw away the key  
I have no care in what happens to me

# Anytime You Need A Friend (Larissa's Poem)

I don't know anyone  
As special as you  
You always make me smile  
Even when im feeling blue  
I want you to know  
I will always be here for you  
No matter where you go  
When times are bad  
I will hold your hand  
Hug you tight when your feeling sad  
I will always be your friend  
When your feeling lonley  
And your troubles seem to never end  
I will help you get through  
Hold you tight and never let you go  
Untill you are as good as new  
You never need to fear  
Even when you are far  
I will always be here  
Anytime you need a friend  
You can always count on me  
I will be here till the end

# I Love You More And More

I love you so much  
You make my heart race just by one touch  
You mean the world to me  
You've given me the key  
To open another door  
You mean so much more  
To me then I could ever show  
I want you to know  
That I thank you  
For showing me a light that's new

# I Will Catch You, I Promise

If only you could see  
How much it's hurting me  
Maybe you could understand  
How much I want to give you a helping hand  
At times you make it hard  
When you act like a retard  
And wont let me help you  
Open another door to go through  
I know you don't like saying whats on you mind  
But if you just let it out, you will find  
That you will feel so much better  
Even if you write it on a letter  
I know you have so many worries  
But remember theres no hurry  
You get me really mad  
When you think yourself bad  
When you become resistant  
I feel like between us theres a distance  
Theres no piont in wasting your tears  
On your worries and fears  
Wishing I could take your pain  
And wash it away in the rain  
I wish I could give you some luck  
Help you out when you get stuck  
For you, it's just not fair  
Theres no one that really does care  
You will get through this  
Even at times it does take the piss  
I will be here to hold you tight  
And aways make sure your alright

# Is That Too Much Too Ask For?

I don't know how much more I can take  
I feel like i've made a huge mistake  
I just want to sit and cry  
It feels like i'm living in a lie  
Realitys come crashing down on me  
Maybe this life is'nt for me  
I'm in too much pain  
I feel like I have nothing to gain  
With so much on my mind  
I wish that I could find  
Somewhere far too put it all  
And let it roll away like a ball  
I'm feeling weaker and weaker  
As I keep falling deeper  
I don't want to live like this  
I want to hit the walls with my fist  
I know getting angry is'nt going to help  
But for a while now, this is how I have felt  
My fears have been stuck with me for years  
I can no longer hold back the tears  
In my mind I am holding a load  
I feel like im going to explode  
The little things I do, no matter how vast  
Remind me so much of the past  
I know i really need to talk to someone  
I'm feeling too depressed, it's no fun  
I've been keeping my fears inside me for a while  
Everything thing in my mind is now a messed up pile  
I wish it would all shift  
But no matter what I do, it wont lift  
I wish I could pretend  
Nothing bad has ever happened  
I want it all to dissappear  
So that I no longer have to fear  
Is that too much too ask for?

# My Love For Is Never Ending

I wish I could tell you how I feel  
When were together i feel my worlds complete  
Hand in hand as we lay together in the sunset heat  
You make me feel like i'm flying high  
Like the birds in the blue sky  
The look in your eyes, the touch of your hand  
Makes my heart beat by the thousand  
As the days turn into weeks, weeks turn into months  
In my throat I still have that lump  
When you wisper in my ear  
Those three words are all I hear  
I will do anything to have you in my keep  
As I dream of you in my sleep  
When our shadows become two  
I realise I never want to loose you  
I want to spend the rest of my life  
By your side as your loving wife  
My love for you will never die

# My Love For You

Deep inside my soul is aching  
Longing for your touch  
Inside my chest my heart is breaking  
I'm missing you so much  
You don't know how much i love you  
How much I really care  
My feelings are strong and so true  
This kind of love is rare  
A life withou you is not complete  
I'm so empty inside  
I long for the day we will be together  
And no longer have to hide

# My Special Friend (Ashley's Poem)

When we first met  
I thought you were a bit wet  
With your funky hair  
And your jeans with a tear  
Then I got to know you  
And discovered something new  
Sometimes you're a pain in the arse  
But in my book you will always pass  
You brighten my day  
Even when you only say hey  
You've helped me through the bad  
Even though you think i'm mad  
The time we have spent together  
Has made our friendship as strong as leather  
No matter far from eachother we go  
I want you to always know  
I'm always going to be here  
Whether your happy or need to shed a tear  
I have never met anyone  
Who is a good as you hun  
When we lay together and hug  
You make me feel safe and snug  
If anyone tries to tear us apart  
I will rip out there heart  
You are my best friend  
And I never want that to end

# Thank You

Ashley Adam I love you  
You have shown me a life that's new  
Thank you for everything  
For showing me care and love that you bring  
You make me happy every day  
I wouldn't have it any other way

# The Fear Within

I have come along way  
To a distance place far far away  
And from what I used to do  
Life is a rosy dream  
Happiness and joy  
Everything I wanted and  
Everything I hoped for  
Everything as I longed for  
Everything that is except for the uncertainty  
That torments me inside every day  
I sleep, I smile, I laugh, I play, I eat and live  
In a constant state of fear  
A fear that I did not ask for  
And one that I did not long for  
Killing me from the inside  
Silently screaming for it to stop  
I am devoured by my own inner self  
Day in, day out  
It's just a state of mind  
I keep telling myself  
Hopping to erase these thought  
Of fear that hangs on the edge of  
My happiness  
Trapped inside my own mind  
Eclipsed by my fear  
Tears weep without a choice  
Hoping to defeat this  
Struggle within

# This Pain

Wish I could take a fast car  
And drive somewhere far  
Away from it all  
So I dont have to feel this fall  
No where to stand  
No one to hold my hand  
This pain I never show  
The hurt you will never know  
Killing me slowly with all this pain  
Knowing theres nothing to gain  
Trying hard to get through life  
Feels like i'm being stabbed by a knife  
Everything good ends up in a mess  
Can't take it anymore, it's too much stress  
With everything turning out bad  
It's driving me insane, making me mad  
I cry every night  
Wishing things would go right  
My wanting to carry on is so low  
Sometimes i wish i could get swallowed by this black hole  
Knowing it would make everything go away  
Not having to fear, everything to be okay  
Wanting to go sleep  
Not wake up, this pain i'm in too deep  
I wish so hard that this pain would end  
Everything to be right, to be able to mend

Holly Polly Hancock

# Try To Smile

Why do you cry?  
You should know by know  
The sun only comes up for you  
You don't need to be scared anymore  
I will always be here for you  
You don't need to worry anymore  
I will take your worries away from you  
I will give you the world and more  
To stop you from being sad  
You mean more to me then you will ever know  
All I want is for you to be happy  
A world without your smile  
Is no world in my eyes  
Your future will be brighter than ever  
Things now may not be as you want  
But i promise you one day  
They will be how you want then to be

# Will Things Get Better?

I used to take life like a cup of tea  
Be able to have a laugh and run free  
Now theres always some sort of drama  
When all could really do with is some karma  
I can't seem to get things right  
It feels like i'm falling from a great hight  
I wish things would get better  
But they just seem to be getting wetter  
Even though I have friends and family around  
It feels like my feet are stuck on the ground  
All I really want is to be able to fly high  
Away from it all into the blue sky  
To be free like the birds  
Where you're always heard  
I wish I could find the key  
That would stop the bad running free  
I know I should forget the past  
But how can I when it seems to creep up fast  
Nearly everyone I know  
Seem to up and go  
People ask, 'Whats my biggest fear? '  
I reply, 'I'm scared i'm going to wake up with no one hear'  
I seem to always mess up  
Wish I could have a bit of luck  
You never realise what you got  
Untill you find it all lost  
Maybe this is a sign  
Its time to draw a line  
I've got to put my head to the test  
To hope and pray for the best

# You Have My Heart

Whether you're far or near  
I will always be here  
No matter where you go  
I want you to always know  
You will always have my heart  
Please promise not to tear it apart  
I love it when you smile  
You make my heart beat by the mile  
You will always be my baby  
You`re special to me, there's no maybe  
Together hand in hand, we shall fly  
As my love for you will never die

Holly Polly Hancock

# Your Number One

When I first met you  
I never knew you'd mean this much  
Now you're here, I can never let you go  
You've helped me through th bad  
And helped me realise what is good  
You brighten up my day  
Every time I hear your voice  
I love every moment we spend together  
And cherish every memory we make  
I'm going to keep you for life  
When i'm with you feel safe  
You're my world, my life  
Without you here, there is no me  
Wish I could tell you whats on my mind  
You will never realise  
How strong my feelings for you are are  
When you leave me  
I fell so empty inside  
I don't know how to cope  
I can't sleep at night  
As all I can think about is you  
There is nowhere in the world  
I'd rather be then in your arms  
No one knows how my heart goes  
When i'm next to you  
Hold me close and never let me go  
I love you with all my heart
