Well, personally I was not much into poetry since 2002. I wrote a lot of love poems which were not read. In 2013 I was in an accident which left me bed bound for some time. Got back to work in 2014 only to lose my left foot. Later in 2014 I lost partial vision then all my vision. In 2016 I went nuts. As far as I can see I am not in my own reality any more. This is a recording of a past that is not.. Traveling on a closed time like curved loop. So personally I might not be from here.
reality makes well now a sitting duck waiting for a duck hunter only to find someone else is out for the goose not a duck. Wrote several of this si this and that si that ends
Plundered the frig of Rolaids and rum
Wrote more prose then poems
Told tales of this si this that is that arrr I know si is is
Regaled ladies by the night lights about mermaids

The end is near to this tale tonight

A penance is a replacement of actions from those that were evil for those that are good.
Or a way to show a change of heart or attitude towards the light from that of dark. Some say that all these actions does is show your intent and your insides. Intent to change your life for the better and for hope of the every after. A Chance at heaven. Heaven a concept that all is right all is good. Can life like that be possible? Can existence exist without evil?
If so why? Why Why not heaven on earth? Peace PEace is cried out but nothing. But war and evil is given. Write all of good and great morals and character upholding what is right.
Well, Art is Art, isn't it? Still, on the other hand, water is water. And east is east and west is west and if you take cranberries and stew them like applesauce they taste much more like prunes than rhubarb does. Now you tell me what you know. Groucho Marx

Poetry is art.
I suppose I am an artist.
A poet with a cause
A poet who can not spells
And knows it
What is it that I know
I know the end is near
I can see that is clear
The end of what
Why this is this
And
That is that of course of art

Politics is the art of looking for trouble, finding it everywhere, diagnosing it incorrectly and applying the wrong remedies.
Groucho Marx

Politicians need some humor
descent humor
wild weird humor
someone that can actually add humor
maybe a mathematician humor
1-1=0 humor
where they can understand humor
17 days of paid vacation humor
or 100 million dollar vacation humor
or 1 billion for Syria death and rape which is not humor
or 3 billions to the Saudis for their oil humor
or paying the Chinese for their humor
or paying the north Koreans for their humor
maybe politicians do not have humor
that is the humorous thing abuot humor
A billion dollars could solve 10,000 people humor with 100,000 per humor
Counting just the vacation paid the politicians this is not humor
The democrats statement there is no more to be cut
I wonder
I can not have a vacation
I am working in the land of mickey
And no 134 dollar ticket for my vacation
Writing poetry is fine
Playing on line games easies the mind

Look ma I made top of the world-quote from some movie not sure any more
Look the world is not an easy place
In fact I am quite out of place
I use to have friendship
and
a friend
now I am alone
yet again
I was thinking of getting a dog
for outside of a book
a dog is a good friend
inside a dog
well it is to dark to read
a good book

A Life With Less Success

You ever have been down on your luck.  
Ill-luck happening like a hex against you, which has been placed on you due to, I do not know?  
The evil eye would say about you.  
These past few years I wonder about you.

First, I lost my business, which mathematically should not have to happen  
Second I lost my health, which to a part was due to the first part  
Third I lost weight and part of my leg due to a recluse spider bite  
Fourth I have lost my job not once but thrice within a space of a few months.

Some would say that is unlucky for you,  
I say well I tried I read the Luck Factor  
That will be a mantra to strive for all the risk until I succeed  
So I have taken the road less traveled several times.

The last road is something unclear  
Did I fail this course or was I driven here, but of course.

Humans should not meddle in the in the affairs of dragons... humans after all taste good with ketchup...A book is a magic portal to another dimension- taken a book is better than any drug to be high on for to read brings about imagination and dreams. The secret is not to tell those that could reach this stage but to hold onto this reality a bit by bit to make it yours. It is first responsibility of dreamers to question the authority of those seeking to enter. Secrets after all are only true when one and only one knows them.

To reach these secrets visiting a person that happens to see the world a little differently such as a poet, writer, or those just a bit off and talking with them happens to open their minds to ideas. Think before thinking becomes illegal. Read before they burn or destroy the books again... Imagine before the end... Do not wish, not to know. Because you prefer to remain unenlightened, to better be a cow slaughtered in the dark. The end was here and a poor poet I am. A hero to no one who remembers. However, within my imagination, I am someone as important as the next person an influencer of good with a little naughty on the side. Someone you are pleased to know of but do not really know for sure. For how can one know a poet's heart when his words on paper stray from politics to famous people to a cartoon drawn just recently by noon? To say I am recognizable is a short statement to those that read tiny articles or notes pinned here and there. Alternatively, poor poetry sent to people that had half a mind not read it for what is a poet, but a small person within himself caught by today's light and in the night as unbalanced as a mad hatter at a tea party with Alice in
Wonderland So few actually remembers days as a poet nor see through his eyes how the world was changing due to people lack of kindness or rareness. Shame is but sadness today. Forgotten is the way to be true and heart-felt best friends to a mad hatter.

I am currently unsupervised I know. It freaks me out too. However, the possibilities are endless. Blessed are the weird people— poets, misfits, writers, mystics, painters, troubadours— for they teach us to see the world through different eyes. So you are okay with the government having the weaponry to annihilate all life on earth... But you are upset with someone who owns a rifle that holds 30 rounds? When someone tells me, I live in a fantasy world, I take that as a compliment. Never be afraid to sit awhile and think. The most precious jewels you will ever have around your neck are the arms of your children. Can you handle all this awesomeness? We are each given a limitless capacity to love and attain wisdom. The extent we use these gifts is our choice. One cannot be spiritually fulfilled until another animal has touched one's soul. "YOU FALL IN LOVE WITH PEOPLE'S MINDS" writer's block when your imaginary friends stop talking to you. Clint the world is an odd place nowadays. Is it life of ease precisely losing its ease? Conversely, is it life accurately being what it is.

The greatest destroyer of peace is abortion because if a mother can kill her own child, what is left for me to kill you and you to kill me? There is nothing between. Mother Teresa

Abortion was the start to kill the babies
No one cared
Hospice started killing the elderly
No one cared
Tea party members were targeted with the IRS
No one cared
Soon the poets will be next
Who will care
Fearful of this life
The difference is I have meet death a few times
This last time was wild experience
Making me realize this is just chemistry in time
Living love within laughter is all we have this time
A right to lifer bombing and killing an abortion clinic worker is wrong

Failure hello again
You are like an ole friend

That way you could at least send me a note when before we met again

I have failed in business friend
I have failed relationship friend
I have failed family relationships
I have failed courses friend

I have failed financial friend
My health failed yet again friend
I have yet to make it to the rung of my ole life
I failed my kid request of a dog friend
Failure I am not yet a human again
Why don't you call me again
Failure I am going to visit you again
Where are you going to met me again
Ole failure friend
I did try again a few times to
I did succeed a few times to
Thanks for letting me try again ole failure friend
A review a change here or there
Could make this a great prose or poem too
Thanks for reading ole failure friend

We think sometimes that poverty is only being hungry, naked and homeless. The poverty of being unwanted, unloved and uncared for is the greatest poverty. We must start in our own homes to remedy this kind of poverty.
Mother Teresa

Unwanted been there
Unloved am there
Uncared for allot of time there

Poverty of families life wicked
Poverty of being unwanted is wicked
Why have a relationship if not to be wanted
Poverty of being unloved is evil these days
Live a life worth loving in laughter for a wealth family
Uncared for is so sad
Living working in the land of plenty I see the uncared for
So sad how people are uncared for

Be wanted find someone who wants you
How that is the question these days
Be in love find someone who you can love
How to find someone to love these days
Be caring be kind these days
How to be loving is be kind these days

Additional To Someone Else Poem

I was born when she kissed me. I died when she left me. I lived a few weeks while she loved me...Humphrey Bogart

Christ you saw that
Born a moment in hope
Time is reality in an eye of moment in reality
reality is but a moment in time
Laughter is that moment in time of love
memories is all that we have in this reality
reality is life
laughter is love
remember she was with me for only a moment in time

to contribute a verse
the idea is easy
so easy
if I be good then I am gone
If I be bad I fail fallen into hell
however like socialist in Germany
I should serve my nation
what is a nation
an ideal
being evil do I serve this is this or that is that
if this is this that which is new evil
or
that is that which is old which was an ole evil
service is all that I left
With that said there is a human passion
what is great responsibility
to live to love to laughter at the night
What is evil?
To be induced by the deceiver
To do that which is not right
Verin order to begin
The end is near
Choice those evil friends
And
Finish them off before they can finish you off

Desire is something I know. I have wanted this is this, and that is that since the beginning of time it would seem. The story I am about to tell is one of the wonders in my eyes. If you find it interesting great. First one has to see through a child of four's eyes driving a tricycle out to visit his bull. Sammy bull was his name. The absurdity of that moment is one caught in a moment of time and reality that few will understand till later in this story or my life. A two thousand pound bull, he was my bucket calf that I had raised for the past year. He had grown up while I had only a circus whip and my second dog Toughie pup along for company. When death comes calling people say the world slows down. That day was the fourth time in my short life that I can recall reality slowing down to be real close encounters. The bull was huge. His spit or snot would remind me years later that those playing rodeo's clowns, and bull riders are insane. I know to a small child the bull could not be that big as I recall him but his face is still something I remember in the nights at times when I think and thank the creator for whom I am and while that I am still here. Humor, death is part of life. Life is part of death. Animals are cute and sometimes I wish I could have grown up to be a cowboy. Humor I would not have made a good cowboy but maybe a fair one.

I have a lot of initial memories. The first time almost dying from allergies in a haystack. I could not breathe. I was chasing a kitten that was so soft and cute. When I could not breathe. I was pulled out of the hay by my legs and rushed to Mile's City, hospital. My breathing was so shallow they thought I was dead for a while.

I survived. However, that summer I meet my great grandmother Shattuck, great grandfather Haman, and grand mother Leier in Velva, North Dakota. As a grand kid I enjoyed that visit more than most people. I got to play with toys that were old even then. Being the only grand kid there and being named after her late husband, I enjoyed great grandmother Shattuck and she seemed to enjoy me. That next year considerable grandmother Shattuck will pass away.

Life has many ways to teach you something.

My life story could be told with the passing of cars in my life and how each held something new or different in experience.

The first car of memory was a Plymouth 1973. That car took me on the journey during an experience most people do not get to have. Lightning, then hail, water for a flood, all happening at once the week prior to my parent's divorce. The situation living on a farm my mother took the car and us into Glendive, Montana to shop. The storm came in with howling winds and hail the size of golf balls. The car was getting smashed and driving home to the farm a valley curve
was full of water. Just when we entered the curve. Water coming through a car door at the age of five is something. Mom quickly backed out and went down another dirt road to cross to the farm. That road the valley was flooded also. On the other side, an uncle was trying to cross the same path. That day the knowledge that there was and is someone greater than my father or family came home to rest within me.

Build The Wall

build the wall for higher wages.. build the wall.. build the wall for higher wages..
Create a peace with full employment
Prisons with two million human faces
VISA H has three million jobs already in place
Officially 8 million unemployment unofficially 23% or more depends if you count
15 million that have given up on looking for employment
Eleven million illegal aliens working someplace
Fifty billion sent to India, another fifty billion to Mexico
A billion equates to 23,000 jobs paying 43k
That is two million jobs being paid overseas
Plus 11 million illegal,
Plus three million VISA H,
Plus the supposedly four million openings
That is twenty million positions someplace
Let the Us of a elect people that care about people here, any bets that if the guy
would have had a good paying job that he would be working instead of
murdering people? Write congress ask them to enforce immigration laws. ASk
them to remove 2 million VISA H jobs so that college kids can get their foot in
the door for work. Ask them to stop funding Pakistan 1 billion, Afghanistan 79
billion war and have that money put into the road fund to fix roads which
provides jobs.

Think on health care
777 million dollars of free health care to illegals
costs someone
costs you or me
not them
Money to their home country 4.4 billion Mexico paid US government
19 to 24 billion for drugs cartel
50 to 100 billion sent home from illegals here
Shame is great
Build the fing wall

Death

I saw the reaper again
he is like a long lost friend
the problem being
he is satan
prince of persia
king of the current earth
death or the reaper
his name is filled with fear and sadness
I meet him when I was a child
I stopped breathing because of an asthma attack
feather pillows and hay what a lacrk
brought just back
a few years later I met him swimming at the ymca
humor me that day he did
the life guard girl lips a disguise was said
a few years later I met him again
humor how drinking a bit life is but a game
ole cemetery awoke with witches around me just then with sod headstones, and
wooden crosses a third world dream I was in
a bit more I was drinking with a family
I met with climate into a police car I went
waking up I got out met the riot dogs
of which I threw one at the police
that is a story where I know I should be dead
then this past June a recluse spider did bit
I lost 14 by 2 inches on my right
I lost 33 pounds, and my job
what a humorous life so dear ole friend
I know we will met again

Democrats Are Just Evil

Syria crying child
you need to hide
reality is sad in Syria
Indecently destroyed by Israel
America shell evil is evil..

Syria became home to the refugees who fled the armies of Ibrahim Basha in 1839
Syria became home to the Circassian refugees in 1860
Syria became home to the Armenian refugees in 1914
Syria became home to the Palestinian refugees in 1948
Syria became home once again to Palestinian refugees in 1967
Syria became home to the refugees from Kuwait in 1990
Syria became home to refugees from Lebanon in 1996
Syria became home to the refugees from Iraq in 2003
Syria became home to the refugees from Lebanon in 2006
It will be written in the history books and generations will remember, that Syria never closed its borders for those who fled their homes seeking safety and refuge.
Syria has never asked any Arab for a visa to enter its lands whether it was a visit or permanent stay.
In Syria not a single tent was put up on the borders to accommodate for refugees across the years, houses were opened, streets were vacated and cities were renamed to allow for refugees to feel at home.
Let it be written in the history books and let the generations remember, that when a Syrian needed help and refuge; borders were closed and the world looked away.

1867 Mark Twain ~ "To Damascus, years are only moments, decades are only flitting trifles of time. She measures time not by days and months and years, but by the empires she has seen rise and prosper and crumble to ruin. She is a type of immortality."

Do Your Own Research

Do your research. Read stimulate your mind. Challenge yourself. Don't just be puppets on a string. I might be crazy but crazy is better than stupid. I am the same person I was before you found out I have a mental disorder. Crazy people do not know they are crazy. I know I am crazy therefore I am not crazy, isn't that crazy. Welcome to my page! Straight jackets are on the left and meds are on your right and keep your hands off my crayons. You do not need to be yourself here. Pick a personality that would fit you and try it on. Some days I color outside the lines and other days I color within the lines. Now accepting applications: for partner in crime. Must be a fluent smart ass and little to no morals kids language please and partial nudity is up to you. Also you must by Happy. The six voices in my head do not want that goofy character. Be happy all the time it drives people crazy. You meet me on the internet. I do live in a gated community. I have taken up photography because it is the only hobby where I can shoot people and cut their heads off without going to jail. There is only so much insanity you can blame on the full moon. The rest is just everyday bat shit crazy people being themselves. Being happy doesn't mean everything is going good. It just means the drugs are working. I like being at home in my own little world with my books, kids, and wife. The real world is full of too many assholes. Good friends offer advice and words of wisdom. Real friends come over unannounced with vodka, chocolate, glitter, duct tape, cat suits, explosives and a plan. If you're happy and you know it, what combination of prescription medication are you on? Every family has one weird relative. If you don't know who it is, then it is probably you- welcome to the family.

A world calling to me look forward to seeing here

To be a father in this day and age,
I wanted a father when I grew up
I needed a person who would tell me how to grow up

I try to install ideas and imagination

Live existence within love of laughter of court beloved judge

New law's old faults are all there for mercy as a judge.

I am expecting and the head ache, I am having is no surprise. The trip is still
going on. I can read now a bit more. Watch your hands... If you do not believe
me for those suffering from the Mandela effect just pay attention to your hands
who will change. In one world, you had an argument in another you were at
peace. The microwave's frequency is causing that. That along with sexuality
changes. I can see that. Shame is great on to whomever thought of this idea of
destroying the worlds so humanity could survive. Why survive what if something
is better than survival?
The death of Jah or God had to happen some four billion years ago... It could not
have been this type of ape like creatures that devised a way to steal into heaven
via stealth and use Jah chair to manipulate time, seasons and history. Why not
these apes. Because for 45 years I was on a monkey world, and they seemed
more dangerous than you. In fact, other than you killing more people they hide
their technology. I do not recall microwaves changing frequency of humanity
emotions. I do not recall all the secrets that are told here opening. So the
question was Montauk project real in my world. Most likely. Thought I remember
the Philidelphia project I do not recall the Montauk project. What does that
mean. Time travel technology used in the 40 through 83 then reopened in 92
through 2000 seems wild. I know I would not believe it myself. However, I now
know that the radar base near Cosltrip Montana stole my life. Shame on the US
government. I know I should have been someone else. That I am here and not
there and not who I was but was now what I makes this trip traveling backward
awkward. Backward you say. Yes, my fate is not a choice for me. Is it good? All I
can say is no. I have not had an easy life. To say the least I should have turned left instead of right does not make the whole part bad. I am better off than some and worse off than most...

Happy Halloween
An Eve before all Saints day in which people paid for prayer for their departed relative's

Holidays

Merry Christmas, Happy New Year.. Happy Holidays!
The holidays are here. It is that time during the year. When people are and were content. They express their kindness and joy to one and all throughout the year. These holidays are different this year. People’s memories are clear. They want and change their lives to make their holidays more treasured. These holidays they express love, kindness, and contentment to make the holidays more cherished.
And that is the contentment of these holidays this year.

How Evil Are The Democrats

The end of Deutsche bank caused by Bill Clinton in 1999.
The end of prosperity caused by the Democrats 2018
The end of humanity coming soon to a earth near you

Evil is wishing harm to a people
very evil is a group of people that harms the people trying to survive
in fact, look at the evil 20 percent down in stock market 2018 ending dealing
with democrat congress
looking more evil by the day the democrat way

The US is a REpublic
honestly democrats supporting drugs that kill 77000 a year
eternity will remember 24 billion to mexico drug cartels yearly

Evil has a name and democrats are their game

evil starts wars
Who started the US civil war? Democrats 1861 1865
Who started WWI? Not Muslims. Woodrow Wilson (1856-1924)Democrat 1913-1921 - campaigned against the war one month later declared war due to ammunition transport with civilians being blown up after warnings. -
Who started WWII? Not Muslims Franklin Delano Roosevelt (1882-1945)Democrat 1933-1945 - campaigned against the war - but opening caused the war with japan per policy of democrats 1940

Who got us into Vietnam over flat out lies particularly the Gulf of Tonkin which never happened? Not Muslims Lyndon Johnson Lyndon Baines Johnson (1908-1973)Democrat 1963-1969 the incident never happened -

Pure democracy, mob-rule, is the cause of many world problems
Regarding U.S. Democrats, they are virtual communists.
You've made some little-publicized, quite valid points, Clinton. (Report)

I Understand Found Poetry

I understand found poetry
under the influence of depression one seeks
not realizing what is found
determined to show life once more
eternity is staring in my face
reality has no place
stand and realize this is the end of humanity
time well if history books from 11 grade was true and the internet here is too
a lot more time has passed in my reality too
not that people believe me
dreaming a way stating hey how come has that changed today
found a reality you like
out with it like flying a kite
eternity is calling me home
time is not what one expects e equal m c squared wrong
reality is space equals light coned multiplied by time
you have to realize I have lived a long long long long two billion years in time

Open hostility against ranchers, the poor, and those that owe
Call for money the root of all evil is near

Live with love of life within laughter of freedom of air
You realize the apocalypse will charge you for air
People live now for love for time is but a moment in laughter near

Eternity is without thought of memories without air

Location
The best place in the world
The best place within the world
honestly a wonderful place in the world
eternity shown as beauty in the world
best place in the world

Mandela Did Die In 1990

Mandela died in 1990 like Western Cape Branch of the South African Council for English Education, states

closed time curved loop is just changing reality backwards in time

for like watching a mountain move over time

realization is watching Sketchers or Sketchers skate

Reality is watching Ed McMahon not McManan never working for Publisher Clearinghouse stated

when you remember your high school biology teacher proclaiming 6.5 billion years of time

Come now realize time has changed Abe Lincoln was a senator or Hillary claims

Can you not see that the end times are coming near

I remember a lot of other claims.

Like there are several new types of deer

oh for a gosh sake that is so great

You can change your mind and be part of Christ's claim

do change your mind this time for the end is clear

do be good and not evil for you to be able to get into heavens claim.

Mandela Effect

Mandela Effect has taken over my life
America used to be right above South America
North America what happened to you
dare you to think outside the realm of one-world
eternity is existing with parallel worlds'
live activity with merit in all of them
America are you ready for a chance to change
effect of Mandela Berenstein or Berenstain
Fearing that Japan is at present next to Korea not China
Forcing yourself to realize New Zealand is at the moment two islands not one
estimating world populations and chances that the changes mean something
time is space divided by light frequency everything is vibration.

What color is the sun?
What political party did Abe Lincoln run for president in 1864?
Where is South America?
What is the planet alignment of this solar system?
What color was Hitlers eyes?

Mania

Mania is raging excitement often hard to find
actual tea parties with the Mad Hatter mania
need to be reminded more of wild tea parties,
in fact; a party with the Mad Hatter is mania.

Towering over the tea-party of delusional madness at night
open to the idea that maybe they are right if happiness is right.
World's difference noticed in a moment of light
eternity reminding us that the mightiest does not make right

exposure to the mental illness of one's life
x-raying life with a new eye on life
potentially thinking that lunacy is the right of life
obsession with the wild dreams of life

live life within laughter of loving right
love laughter for that is right.

sonnet about mania

Alice in Wonderland famous quote acrostic

Ah, that's the great puzzle who in the world am I?
"Let's consider your age to begin with — how old are you?"
Imagination is the only weapon in the war against reality.

Thinking of the past dreaming of the future
I know presently I will have you by my side.
Since in my mind, I already have this,
I stay in the past agonies of perishing memories.
This grants me a path for a bright horizon
There wrapped up in the warmth of your embrace;
I am happy with your beautiful whispers.
I am intoxicated with the sweetness of your lips
for we live forever in love

Nature
The terrified are cornered by the fire
mans heartless actions
for satisfaction starting a fire
human destroying lives.
Those without any power
for they will be forgotten
the laws are made to protect those in power.
Like a match in a child’s hand
lacking control of fate
Decimating nature's beauty
This is accepted as normal
acid rain in the environment
Fungicides, herbicides and insecticides
These are widely published.
Why are these commercialized
the harvest is less.
Also assuredly the quality
tasked with a lot of work
weather changes brings hardship.
The promises were momentary
all that is left is to go elsewhere.
Just to forget the poor circumstances
Local governments and superpowers
What do they do for the maintenance of nature
Ask the sad country man
Nobody listens to the decision makers
The decisions are made in the cities
There people know only food
Ignoring whether it is organic or genetically modified
Visualizing on the present value

acid rain in the environment
Fungicides, herbicides and insecticides
These are widely published.
Why are these commercialized
the harvest is less.
Also assuredly the quality
tasked with a lot of work
weather changes brings hardship.
The promises were momentary
all that is left is to go elsewhere.
Just to forget the poor circumstances
Local governments and superpowers
What do they do for the maintenance of nature
Ask the sad country man
Nobody listens to the decision makers
The decisions are made in the cities
There people know only food
Ignoring whether it is organic or genetically modified
Visualizing on the present value

My Reality Changed The Other Day

My reality changed the other day
you may say how in what way
reality for me was I lived on the outer arm of Sagittarius for 45 years and some
days
either I have a really good memory or someone had changed all my memories
these days
at first I marveled at something huge changing day by day
living on a mountain seeing a mountain move per day
I can say
time was known to me in my day earth was 6.5 billion years old per my high
school days
you might say how can you be so silly these days
changed perceptional thinking in many ways
how can you murder babies these days
and seared minds of evil in many ways
now you might say how dull are my ways
given a change I can prove several of my thoughts these days
evidence like the sun being dead a long long time that I can prove this day
dreams are all you have these days
the sun is a mirror not yellow these days
honestly how can you prove that now this day
evidence is in Fallon Montana these days
otherwise I am talking to the living dead these days
that is hilarious don´t you say
honestly look it up on google maps 3d sky I might say
either way you are all dead some two billion ways
reality is strange for me to say
day by day I see the earth change a little today
all the time changes not sure if they are my way
you are disturbed you might say
even so truth is hated in this day

This poem represents my life for the past few years and how I see reality.I see
building rebuilt colors change, geography change, history ty is not the same.

Oddity Alice Is Awake.. Hello Alice

I do not want realism. I want Magic - Yes magic. Make a fairy tale and go live in it. Worry s a misuse of your imagination. You have to remember fear is not real. It is a product of the thoughts you create. Do not misunderstand me. Danger is very real. But fear is a choice. My enter life can be described in one sentence: It did not go as planned, and that is okay. Speaking from Bolivia I realize I should have been a writer along time ago. However, all the stories I had to tell were not so good. Now what to do is just write. The magic - I was reading Through the Looking Glass - falling asleep Curiouser and Curiouser cried Alice. At which point the reader thoughts were distracted. For a moment, Wonderland folded in and onto itself as if a book being a pop-up. Time flew by as if a raven was heading north by northeast had hit a head wind and stopped for no other reason but to watch a curious site unfold. Time after all was all that reality had. For imagination of those that read is greater at times than time itself. For who wants to live in a realistic world when magic is about. At which point the book folded into a tea service set and tea table along with a complete different book of characters. Alice was transformed into dominatrix with full leather and chaps, while politician toke the place of the mad hatter. Of course, the insane hare and mouse stayed the same just a bit more grey. Curiouser and Curiouser said the new Alice, who toke without asking or being inquired two lumps of sugar with her herbal tea not black tea. Do tell of this politician abusing a pig... Did he get away with it? The new mad hatter, I mean politician was at a loss for words still being brought from a past reality of magic into the present time. However, being a politician, he could muffle a few words. Indicating that the pig was in truth not hurt and sexuality being in questioned of the politician was deemed not a fair controversy. Thus the new Alice showing her more dominate side reached out and smacked the hare with a tea pot. The mouse seeing this breaks into a laughter that is followed by the mad hatter, to error here I mean the politician. The hare staring off into the past seeing a different Alice one with less force and more a little girl than dominatrix who stands before him now. The reader yawns and the book refolds itself. The book folds itself into a farther future this time a robot looking Alice is reflecting a messy tea service set, and tea table. Curiouser and Curiouser said the robot Alice to a caged rabbit whose eyes set open like those of a science experiment that has gone wrong. A mouse does pop up next to the table but does nothing. At the end of the table is a skeleton of what looks like a politician but with enough skin that you realize, he must have died a while ago. However, the dead skull moves and realization are a zombie has taken the mad Hatters seat or maybe the zombie is the politician in a hatter's seat. Just then the rabbit starts crying in a yelping voice scaring the mouse and forcing the robot Alice to be concerned. Subsequently, away following the reader yawns
again, and the book poofs! Back and forth between all three scenes catching a 
wild little girl having a tea party at one moment, then a dominatrix bending a 
politician over a tea table the following, to a robot Alice desperately helping a 
lunatic hare from a cage. Curiouser and Curiouser said the reader finally laying 
down the book and nodding off to sleep. At which point magic takes over, and 
the reader is part of the tea party. Initially helping to serve tea with a little girl, 
chatting with the mad hatter, sipping tea with the insane hare, and conversing 
with the mouse. Next flirting with the dominatrix Alice, her dominating the reader 
will have to serve tea, and forcing a bit more conversation about hares, a mouse 
and politician than would be normally thought of. Finally within a future of 
robots, zombies, and mad experimental rabbit that all defer to a mouse whose 
main goal is to finish the tea. Finally, the reader drifts away like a butterfly 
towards a dimly lighted moon that can be seen through the clouds. The reader 
wondering if maddest is that which is caused by reading Alice in Wonderland or 
Curiouser and Curiouser is it the loneliness of reader and dreamers of the magic 
held within such books. A thud noise happens. The reader awakes to the voice of 
an Alice Curiouser and Curiouser. Is this the dream or magic? The reader decides 
that the noise is part of the dream. When it starts raining and filling up with all 
sort of creatures and books, the reader realizes the wetness, and water is 
causing a shortness of breathe. Swimming for what looks like a book the reader 
hands clasp upon it. Pinching trying to wake-up only to find that the magic the 
book is more real and shows more reality than what the reader was hoping to 
wake up to. The reader shouts with hope Curiouser and Curiouser and the magic 
is broken. The reader wakes up with a book resting in hand.

Be happy all the time it drives people crazy. You meet me on the internet. I do live in a gated community. I have taken up photography because it is the only hobby where I can shoot people and cut their heads off without going to jail. There is only so much insanity you can blame on the full moon. The rest is just everyday bat shit crazy people being themselves. Being happy doesn't mean everything is going good. It just means the drugs are working. I like being at home in my own little world with my books, kids, and wife. The real world is full of too many assholes. Good friends offer advice and words of wisdom. Real friends come over unannounced with vodka, chocolate, glitter, duct tape, cat suits, explosives and a plan. If you're happy and you know it, what combination of prescription medication are you on? Every family has one weird relative. Oddity Defeat

defeat is something new to me and in these past few years, I have again insight

unclosed wound covered with a vacuum sucking blood from ankle bone is my sight

sensing sickness a few months following lost my left foot in hindsight

sensing sickness a few months subsequently lost my eyesight

lost my career because I could not inwardly handle what I saw

open wounds psychologically all raw

standing up, I lost my balance split my stitches is what I saw

time is but a moment, in reality, of this life is the hence raw

soul, where did a loss of my life become so easy

ouches painfully comfy

unique this existence defeat lost soul lost so easy

live life within laughter of love, which is not so comfortable

I mislaid my career due to so many loss memories,

I misplaced my nerve due to many lost memories?

Oddity Faith, Hope, Love

Watching a mountain move daily is wild
One day north, the next south, then east...
I watch in of God is true.
I watch in wander in my mind how can this be?
I watch and hope that my faith is right and not evil.
Forgive my evil.
For I am a bit confused at times.
Time is not what I was expecting.
I have seen two billion years as of this day.
I know earth for 45 years was considered to be 6.5 billion years old.
Here it is only 4.5 billion years old.
I know I was on the Sagittarius arm of the milky way galaxy 377,000 light years in diameter.
here I see Orion Spur.. I don´t recall that as an arm in my memory.100,000 light years across.. is different..
I have heard about a star 26000 times the size of the sun at the center of the galaxy.
I have heard about two large black holes.
I have heard about one black hole.
I do not recall for 45 years knowing anything about the center of the were to far lation yes.. Knowledge of seeing anything on a telescope? Nope..
God is ve in forgiveness. The end is near say 45 years or less.

May 19 2016 the greatest adventure of mankind befell me.
Since that time I realize the time of tribulation.
I have seen countries disappear.
I have seen mountains move.
I have heard stories that no man on my world knew.
God is true.
God is righteous.
God is great.
God is good.
There is no other God than is great.

Ask for Christ, be good, do the end is here.

Quote..
Psalm 91 King James Version (KJV)
91 He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty.

2 I will say of the Lord, He is my refuge and my fortress: my God; in him will I trust.

3 Surely he shall deliver thee from the snare of the fowler, and from the noisome pestilence.

4 He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy shield and buckler.

5 Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day;

6 Nor for the pestilence that walketh in darkness; nor for the destruction that wasteth at noonday.

7 A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee.

8 Only with thine eyes shalt thou behold and see the reward of the wicked.

9 Because thou hast made the Lord, which is my refuge, even the most High, thy habitation;

10 There shall no evil befall thee, neither shall any plague come nigh thy dwelling.

11 For he shall give his angels charge over thee, to keep thee in all thy ways.

12 They shall bear thee up in their hands, lest thou dash thy foot against a stone.

13 Thou shalt tread upon the lion and adder: the young lion and the dragon shalt thou trample under feet.

14 Because he hath set his love upon me, therefore will I deliver him: I will set him on high, because he hath known my name.

15 He shall call upon me, and I will answer him: I will be with him in trouble; I
will deliver him, and honour him.

16 With long life will I satisfy him, and shew him my salvation.

Oddity Going Blindness

Going blind is not what I expected it to be
opening doors is a bit awkward for me.
I am going eyeless due to life is eating me.
Nerve damaged beyond repair for me
going from a career to darkness I be.

Blindness is an open window into the soul.
Living a lifetime before you lose life,
I can always say I breathed life.
Near sighted for a while now blood swirling galaxies of soul
darkness is not all bad for the soul
need to remember the good things in life.
Eternity is but a moment, in reality, of this life.
Sadness is a blood clouded eye looking into the soul
soulful senses looking at a life.

Oddity Happy Birthday

happy birthday, hope you have a wonderful day. some thoughts.. U lost your mind and I am making no effort to look for it. If you do not live for something.. you will die for nothing. Humans should not meddle in the affairs of dragons... humans after all taste good with ketchup...A book is a magic portal to another dimension- taken a book is better than any drug to be high on for to read brings about imagination and dreams. The secret is not to tell those that could reach this stage but to hold onto this reality a bit by bit to make it yours. It is first responsibility of dreamers to question the authority of those seeking to enter. Secrets after all are only true when one and only one knows them.

To reach these secrets visiting a person that happens to see the world a little differently such as a poet, writer, or those just a bit off and talking with them happens to open their minds to ideas. Think before thinking becomes illegal. Read before they burn or destroy the books again... Imagine before the end...

Do not wish, not to know. Because you prefer to remain unenlightened, to better be a cow slaughtered in the dark. The end was here and a poor poet I am. A hero to no one who remembers. However, within my imagination, I am someone as important as the next person an influencer of good with a little naughty on the side. Someone you are pleased to know of but do not really know for sure. For how can one know a poet's heart when his words on paper stray from politics to famous people to a cartoon drawn just recently by noon? To say I am recognizable is a short statement to those that read tiny articles or notes pinned here and there. Alternatively, poor poetry sent to people that had half a mind not read it for what is a poet, but a small person within himself caught by today's light and in the night as unbalanced as a mad hatter at a tea party with Alice in Wonderland So few actually remembers days as a poet nor see through his eyes how the world was changing due to people lack of kindness or rareness. Shame is but sadness today. Forgotten is the way to be true and heart-felt best friends to a mad hatter.

I am currently unsupervised I know, it freaks me out too. but the possibilities are endless. Blessed are the weird people-poets, misfits, writers, mystics, painters, troubadours-for they teach us to see the world through different eyes. So you are okay with the government having the weaponry to annihilate all life on earth.. But you are upset with someone that owns a rifle that holds 30 rounds? When someone tells me I live in a fantasy world, I take that as a compliment. Never be afraid to sit awhile and think. The most precious jewels you will ever have around your neck are the arms of your children. Can you handle all this awesomeness? We are each given a limitless capacity to love and attain wisdom. Banking question for Iraq
Iraq your central bank is not run by the House of Rothschild
North Korea your central bank is not run by the House of Rothschild
Iran your central bank is not run by the House of Rothschild
Cuba your central bank is not run by the House of Rothschild
Axis of evil or just a desire to keep your money within
Money is the root of all evil
Maybe if money was given where desired
Maybe if they had to eat their money
Imaginary is money
In reality is that not imaginary
States nation's ideology to kill murder to do evil
Evil a root of money
Really are these country's evil or just living at their own pace
Why must imaginary evil be what sets the pace of this race

Iraq WAR
Iraq the dogs of war are howling at you for money
You need to ask Russia and China to come rescue you for money
Reality is shame when a senator wants to murder you for money
Iraq say Saddam killed 2 million - USA 186,000 over a period of peace
A tenth of the money

War is a weird way of organized destruction for money
All for peace or destruction for money
Reality is sad this way of destruction for money

Iraq had some great books
Beautiful people are readers my dear there in Iraq
They are children at heart in Iraq
for if they can dream it they can be it in Iraq
so be a reader of hearts o Iraq

children imagination are wonderful to imagine peace in Iraq
children loving their life is wonderful to imagine peace within Iraq
build a strong loving life in imagination o Iraq
for we all will soon have to live in our minds in fear o Iraq
for shame is shame and evil is near o Iraq

what is the plan to live on o Iraq
what is their game to end Iraq
to steal our imagination o Iraq

shame is shame o terrorist of Iraq
that is the game of money o Iraq
how once a strong nation is deep in shame o Iraq

Love or Hate

Two very different things love and hate
One is to show naivety in the soul within life or fiction
Hate or fictions which do you choice within your mind
Love can bind the soul to your mind

Love is naivety of the mind
Love helps and heals mankind
Love provides a solution to heal the mind
Love cares for all moments in time

Hate is something relative to realities in time
Hate breaks the heart of love at times
Hate hurts those in love at times
Hate is blind to love at times

To love or hate that is mankind

Oddity Living Life Backwards

Clinton you were a unique soul...

living entity with a bit of a trickster within you.

I would count your friends not on Facebook but in reality, on the graves you stood over and souls you knew. Never doubting you were singular you were an individual.

Time has proven you are not unique nor the first.

only a derivative of someone else's soul.

Now I wish to meet that soul, how to meet the original me would be interesting to me.

Did you do this? What was your thoughts on that? Why did you walk down that path instead of taking this path? So you did not think that? How are we the same story? It makes no sense. I am not you... I am either a weed or wolf in sheep clothing is my understanding. I cannot handle much more. My head hurts the microwaves humming are just annoying. It hurts my teeth. I do not know who you are any more. Retro causality means an event outside the record making an impact on the study or case. That is this case. This is not my story. These are not my peeps. Am I, a weed or a wolf... that I don`t know any more?

Oddity Of Looking Down The Rabbit Hole

Mad Hatter: In the gardens of memory, in the palace of dreams, that is where you and I will meet
Alice Kingsleigh: But a dream isn't reality...
Mad Hatter: Who's to say which is which? The changes that were today are awkward. That I fear not walking different worlds as a gimp has made not a new man out of me. I am in truth a parallel world traveler. I have seen Britain stay within europe. I have heard of Where Hillary Clinton won starting a war with Russia. That I might be causing part of the next change whether May 14 or September 23 or May 2018. I shall treasure those that were on these planets. That Trump might win a bigger election elsewhere where the elections happen on November 28, Or like my original world where Hillary Clinton remembers Abe Lincoln as a senator, I do to witch. Be gone with your monkeys on the west coast will not last long. I have yet to visit the worlds where Obama knew 57 states, nor where George Bush talked of Saddam murdering Mandela. That I am no longer sure of something makes me nervous May 13. Socialist, professors, publicist, democrats, rhino republicans, pagans, and elitist intelligentsias have vied with each others for the destruction of Christianity in the US of A confirming with small works their views against the faith of Christ. Their belief that Muslims are superhot in that not one of them speak out or comically satire a deity confirmed by a baby killing, slaver dealing, polygamist, art killer, sculpture destroying culture speaks volumes to where the US is heading. Speaking about the culture what has Middle east produced in the past 50 years of worth or culture reality that people can use to help people within this world? When you have to side with the Communist of China, ex-Communist of Russia, and satire comics of France whose ancestry of all three cultures removed both royalty, freedoms of liberty to extent of murdering millions, and causing the longest standing costly vigilantism of the US history one wonders why the NSA or TSA exist. Have we turned into a socialist system which will die due to the suppression of ideas due to submission to an even eviler ideology than communism? Will we as a nation survive? As a voter for the presidential candidate for 2016 these questions are on my mind. Why are we bringing the evilness into our culture and nation instead of limiting evil? Shame is shame. US needs to stand for righteousness not with evilness. Ideology is all we have currently. The money is Fiat money which is currency which derives its value from government regulation or law. Without being a republic the law of democracy which has shown through history needs great ideas to survive. Examples Like the Trojan War, the Persian Wars were a defining moment in Greek history Muslim ideology is a defining moment for the US history. To stand with them or against their belief will mark the US as a great nation or a country that will fall into disrepair and culturally stagnation without improvement for centuries fearing life instead of marking it with freedom of thoughts, and cultural changes which we as a nation must stand up for or loss.

Oddity Secret

Secret Life
Secret Life of Clinton R. Siegle's
eternity is staring me in the face.
Coming from distance places I see the Creators face.
Reality is something to realize that there is more than one of me.
Eternity is speaking to the human race.
Time to change reality.
Life is coming to an end
indeed. January 15th will start an end.
Forever, will be remembered as an end
eternity is coming to an end.

Boundaries are what make imagination grow. The belief that there is nothing
other then this world makes a person's reflection on imagining a greater universe
experience something a brand new each time a fresh book shows up.
The pages show what could be or would be if there were other worlds out there.
Similar to our own, however, different the tale be told.
Mentally, this tale takes place in La Paz, Bolivia. May 18th, 2016 I spent 45 years,
one month, and 23 days on that exact same planet earth. It was on the outside
of the galaxy. The spiral right arm per a famous author "Far out in the
uncharted backwaters of the unfinished end of the western spiral arm of the
Galaxy lies a small unregarded yellow sun. Orbiting this at a distance of roughly
ninety-two million miles is an utterly insignificant little blue-green planet whose
ape-descended life forms are so amazingly primitive that they still think digital
watches are a pretty neat idea." Douglas Adams I think came from my
world. Not that it matters anymore. However, if you view NASA nowadays you
realize earth is now inside the galaxy not outside nor anywhere near the western
spiral arm.
Physically, having one's mind swapped for a parallel world is something. From
May 19th through August, I traveled to another earth on a daily basis. I saw
history re written; I saw people live and die that I knew nothing about.
Historically, on my earth Abe Lincoln was a senator similar to Hillary Clinton
recollected. I saw Bob Crane die in 77, 78, and 79. I have seen geographically
New Zealand as one island, then two islands, above and below Australia. The
changes are something to see.
Literally I have been kidnapped for one of the greatest adventures in mankind. I
realize few people will understand. My Bolivian Doppelganger wife has taken me
to a shrink who remember the world differently too but insist on past lives has
literally changed my way of thinking about what is fiction and what is non-fiction.
Figuratively I am not speaking that this world is worse than mine. There are many things to this world that I find wild. The world population on my world was 8.5 billion the 8th billionth person was considered a baby girl in India in 2014. Here I wonder where did 1.2 billion people went during the same timeframe. Example the United States was missing 43 million people. Figuratively I had to know. I searched and searched until I realized Abe Lincoln on my world saved half a million people. While here they murdered 1.2 million people in my world the civil war cost 545,343 people. That half a million-plus people turned the United States into a bigger population.

To summaries, I am still searching. The worlds are conversely changing. Like the sun for 45 years was yellow on my world. Here your space fence is up in 2003 causing the sun to change to white. That colourless color melted your ice cap because white snow and white light evidently do not reflect the heat. Somewhere as I remember an ice cap as late as May 2016. The world is mine to travel for a time. The end is near, remember God. I am a parallel traveler. I have seen no less than 85 similar earths. I have dreamed dreams which I know were not mine. I have seen mountains move, and history change. Example Abe Lincoln was a senator in my world per Hillary Clinton. The civil war was not as violent there as here thus the United States population was 365 million in my timeline while here the population is 322 million. Another example New Zealand on my world was one island North of Australia while here the islands are two islands south of Australia.

Anyway the dream I about to tell you is something for you to think about. I read my bible in my timeline, and this verse in my bible read differently the fact is you have zombies here in this world. Zechariah 14: 12-15

12 This is the plague with which the Lord will strike all the nations that fought against Jerusalem: Their flesh will rot while they are still standing on their feet, their eyes will rot in their sockets, and their tongues will rot in their mouths. On that day people will be stricken by the Lord with great panic. They will seize each other by the hand and attack one another. 14 Judah too will fight at Jerusalem. The wealth of all the surrounding nations will be collected great quantities of gold and silver and clothing. 15 A similar plague will strike the horses and mules, the camels and donkeys, and all the animals in those camps.

The difference May 18th. 2016 I would have claimed you as a conspiracy theory and listened politely but would not have cared. Now well, you read this story and remember it is only a dream.

I dreamed this in 2003 on my timeline, while on this timeline the events I am telling you happened September 2004. My dream was I was auditing a CDC weapon station north east of New Orleans. I had just pulled into the parking area when the whole base swarmed with military personnel and trained gunmen. For whatever reason I was the only one in the parking lot, and I was calm but a bit
nervous. Why the guns, and what exercise had I interrupted I did not know. I was taken into a command tent without so much as a word spoken just the guns pointed, and I moved. At the tent I at least relaxed for there standing next to some general was a college friend. I looked at my friend and shook his head. So I just stood there listening. Evidently, there was a classified virus that had broken lose in the lab. The whole complex was under quarantine, and no one was to leave the complex. My friend asked me several key microbiology questions. Did I know what was a virus, what kind of antidote, other questions? My response was I was not part from the base I was there as a surprise audit review due to several million dollars going missing from a project. This took my friend back because he and I went to school for microbiology, and I was telling him I was a financial analyst person sent to review a project. Any ways I was lucky evidently, I was cleared to go to any quarantined level four hospitals in the United States. Being from Montana, I asked to go to Missoula. A helicopter flew in and as they put me into a smock then a self-contained suit to be transported to Missoula. Thirty-six hours later, Katrina was called in by a weather satellite, and they blew the leaves next to the Gulf of Mexico to sanitize the whole area. Prior to the salt water, they sent in some fire bombs to burn out the virus and protect mankind. That was scenario or dream that I do not like. For I recall another one. President Bush did not sanitize the area and the plague spread. I remember being in Missoula and having a zombie attacking me while I awaited my all clear. The virus went airborne and spread throughout the earth.

Oddity Secrets

Secret Life
Secret Life of Clinton R. Siegle's
tonight eternity is staring me in the face.
Coming from distance places I see the Creators face.
Reality is something to realize that there is more than one of me.
Eternity is speaking to the human race.
Time to change reality.
Life is coming to an end
indeed. January 15th will start an end.
Forever, will be remembered as an end
eternity is coming to an end.

Boundaries are what make imagination grow. The belief that there is nothing
other then this world makes a person's reflection on imagining a greater universe
experience something a brand new each time a fresh book shows up.
The pages show what could be or would be if there were other worlds out there.
Similar to our own, however, different the tale be told.
Mentally, this tale takes place in La Paz, Bolivia. May 18th, 2016 I spent 45 years,
one month, and 23 days on that exact same planet earth. It was on the outside
of the galaxy. The spiral right arm per a famous author "Far out in the
uncharted backwaters of the unfashionable end of the western spiral arm of the
Galaxy lies a small unregarded yellow sun. Orbiting this at a distance of roughly
ninety-two million miles is an utterly insignificant little blue-green planet whose
ape-descended life forms are so amazingly primitive that they still think digital
watches are a pretty neat idea." Douglas Adams I think came from my
world. Not that it matters anymore. However, if you view NASA nowadays you
realize earth is now inside the galaxy not outside nor anywhere near the western
spiral arm.
Physically, having one's mind swapped for a parallel world is something. From
May 19th through August, I traveled to another earth on a daily basis. I saw
history re written; I saw people live and die that I knew nothing about.
Historically, on my earth Abe Lincoln was a senator similar to Hillary Clinton
recollection. I saw Bob Crane die in 77, 78, and 79. I have seen geographically
New Zealand as one island, then two islands, above and below Australia. The
changes are something to see.
Literally I have been kidnapped for one of the greatest adventures in mankind. I
realize few people will understand. My Bolivian Doppelganger wife has taken me to a shrink who remember the world differently too but insist on past lives has literally changed my way of thinking about what is fiction and what is non-fiction.

Figuratively I am not speaking that this world is worse than mine. There are many things to this world that I find wild. The world population on my world was 8.5 billion the 8th billionth person was considered a baby girl in India in 2014. Here I wonder where did 1.2 billion people went during the same timeframe. Example the United States was missing 43 million people. Figuratively I had to know. I searched and searched until I realized Abe Lincoln on my world saved half a million people. While here they murdered 1.2 million people in my world the civil war cost 545,343 people. That half a million-plus people turned the United States into a bigger population.

To summaries, I am still searching. The worlds are conversely changing. Like the sun for 45 years was yellow on my world. Here your space fence is up in 2003 causing the sun to change to white. That colourless color melted your ice cap because white snow and white light evidently do not reflect the heat. Somewhere as I remember an ice cap as late as May 2016. The world is mine to travel for a time. The end is near, remember God.

Oddity Shame On Politics

shame on politicians
halving a homeless vets money to pay for illegals
America not paying for those citizens
memories of a paying living wage
eternity of shamefulness of corporate greed
on democrats and republicans alike not taking care of citizens
naughty old politicians
Politics is a question of taste
open discussion with minds willing to change is not a waste
life in politics is all we live
indeed try to work without politics
time to realize wages are lower due to illegals
indeed housing given freely through states benefits illegals cost the tax payer money
common sense why a world war II vet gets 1200 while an illegal gets 1700 is a morality question
shame is great in politics
Create a peace with full employment
Prisons with two million human faces
VISA H has three million jobs already in place
Officially 6.6 unemployment unofficially 23% or more depends if you count 15 million that have given up on looking for employment
Eleven million illegal aliens working someplace
Fifty billion sent to India, another fifty billion to Mexico
A billion equates to 23,000 jobs paying 43k
That is two million jobs being paid overseas
Plus 11 million illegal,
Plus three million VISA H,
Plus the supposedly four million openings
That is twenty million positions someplace
Let the Us of a elect people that care about people here. Any bets if that the guy would have had a good job that instead of shooting people he would have been working? 1 to 3 million illegals either not paying taxes on under the table work.6.3 million social security numbers showing that the receipts are 100 or 112 years of age. Why we should remove illegal, economically the wages would increase those in prison would be able to feed thief families without stealing, and the military E1 would have their 15 dollars an hour versus McDonald which have to pay more because they would be competing with the military for the same people. The 2.2 million people in prison budget could or would have that money
to spend on schools, roads, and hospitals making the society a better place to live. The science of government it is my duty to study, more than all other sciences; the arts of legislation and administration and negotiation ought to take the place of, indeed exclude, in a manner, all other arts. I must study politics and war, that our sons may have liberty to study mathematics and philosophy. Our sons ought to study mathematics and philosophy, geography, natural history and naval architecture, navigation, commerce and agriculture in order to give their children a right to study painting, poetry, music, architecture, statuary, tapestry and porcelain. "War to start a person must have a plan. Someone must speak out. Speaking of dreamers. DACA 700,000 jobs, VISA H 3.2 million jobs, illegal workers 5 to 10 million depending on the source. Unemployment 28 percent if you count on people that have given up hope. That is roughly 18 million jobs. There is 2 to 20 million people in prison due to their desires not being met legally. Thief of property, the inability to meet their dreams turning to drugs, If instead of using foreign workers we could reduce prison population if they could get paid enough to live. Cost of a prisoner 17 to 84k per year depending on prison system. Instead of taxing people this amount why not just raise minimum wage to 30k for an E1 marine who guards our nukes on ships. This would provide jail population whose annual criminal career is roughly 33k a year a chance to do something else. This would fill the ranks of the military. This would provide Burger King employees in the US with a livablyhood which if you look at denmark their employees make 34k work only 35 hours a week and are paid 5 weeks vacation. Remove both visa h, and immigration to the US for three years and our unemployment rate will fall, along with the prison population.

Oddity The End Of The World

That I have outlived everyone on my planet is an oddity. That from March 28, 1971 through May 18th, 2016, I lived on an earth on the outside edge of the right arm in Milky Way galaxy is a surprise. That earth is caught in a black hole being eaten slowing today is something news to me.
That I have died several times is even a bigger oddity. Necrotizing Fasciitis (flesh eating bacteria), drowning, a few car accidents which I was called lucky to walk away from, allergy attacks under a hay bill that had fallen on top of me. I lived an adventurous losing my career, and business to bankruptcy being put on disability social security I and my family moved to Bolivia. I lived there for a year going blind in both y galaxies swirling around in my eye lead me into surgeries for my eyes.
If you constantly want to be in discomfort lasering the eye in my world was more than painful. You perpetually hit the back of your head by accident. Then think of that happening 200 to 400 times within a few minutes as the laser burns our nerves in your eyes. The nerves they say cannot be felt. All I can say is the back of my head felt each and every one of the burns. Like being hit each time on a corner of an open cabinet.

Oddity The Wondering Mind About The Wandering Planet Earth

Oddity wondering where the wandering earth is today

Question the wandering earth...

Paintings of the galaxy and location of earth.

Where exactly is earth?

I question my reality at times seeing where we are today.

I think I remember Sagittarius

Now I am on Orion Spur

Yesterday I was elsewhere.

Where is the wandering earth?

Help I have been kidnapped.

On May 18, 2016, I lived on the Sagittarius arm on the outer most ring of the Milky Way galaxy.

Since then I have been moving per day seeing different realities of the time wave going backwards in time. Mountains, geography, history, stories, and people population has changed dramatically.
At first, I discovered Montauk Project and what they did was evil. They are all evil.

Then I discovered Mandela effect, which was a relief to find more people suffering from similar issue.

Next, retro causality which is the ability of a independent event to influence the present past tense reality due to unfamiliar realities.

Finally, Closed time like curve ctc time loop which explains the similarity of the reality but differences.

One might say other than Sketchers your shoe changing for Skechers here. What is the difference?

Well, about two billion years give or take 50 million on a daily reality.

Two you might say what difference does it make?

Hillary Clinton is from my world Abe Lincoln was a senator.

Three so what?

12 million US citizens cease to exist due to Abe Lincoln change. While over all 15 million more are aborted. My US of A had 365 million citizens. 45 million abortions Roe v Wade happened 1967. World population was 8.5 billion on May 18 did not allow abortions in my world after 1980. ie there was 1.8 billion of them in my reality.

Four meaning?

Montauk prophecies a way to survive without God. The issue after two billion years is this cycle done or just begun?

Five that sounds awkward... Your sun is dead. You all are dead.
It is look at Fallon Montana in or Google and see that your sun is dead. That red spot in the sky can be seen in every direction just drive and look up. Your world is long dead. Your sun is a mirror.

Six evil is rampant here.

You speak about South Africa people dying. Karma? Kingdom of Cambodia never again. Rwanda never again. Jews never again Gypsies never again.. In yet when asked to help... I get the answer that is karma... Killing people is not karma it is evil.

Seven you are all zombies...

Try to speak with on topics that you are unfamiliar with and get censored or ignored. Evil has won here. Shame is great here.

Eight this CTC cycle time wise will last for me 45 years 3 months some days. At which point I am either dead or get to go home. Now the reality question will I be 90 or will this all be a bad dream on May 19 2016?

Repent, turn to Christ, the time of tribulation has already happened. I doubt you won. I doubt I am going where I think I am going. Oh look the mountain has changed yet again.

Oddity Thoughts

Change history by changing leadership of the events leading up to that history.

Switch religions - change political states - try socialism, monarch, democracy, or republic. Fit in where you can survive for survival is evolution. Anything outside of survival is marketing and someone is trying to sell you something. Beliefs, a monetary system, a theology, all are trying to say something. Some are good. Thus follow the best good. Rationale to survive. For freedom is an illusion. For money is power. Try living without money. With money you are free to do what is needed to be done. Without money you are victim to whomever you are afraid to speak out against. Example Saturday night live skits are not so funny without presidential satire. Think Obama was in Alaska for a speech on solar power to a town that does not have enough light to power solar for 9 months out of the year. In yet the speech was on going solar. That is nuts. No skit, someone is afraid of the guy in the white house.

Clinton Siegle
Desire is something I know. I have wanted this is this, and that is that since the beginning of time it would seem. The story I am about to tell is one of the wonders in my eyes. If you find it interesting great. First one has to see through a child of four's eyes driving a tricycle out to visit his bull. Sammy bull was his name. The absurdity of that moment is one caught in a moment of time and reality that few will understand till later in this story or my life. A two thousand pound bull, he was my bucket calf that I had raised for the past year. He had grown up while I had only a circus whip and my second dog Toughie pup along for company. When death comes calling people say the world slows down. That day was the fourth time in my short life that I can recall reality slowing down to be real close encounters. The bull was huge. His spit or snot would remind me years later that those playing rodeo's clowns, and bull riders are insane. I know to a small child the bull could not be that big as I recall him but his face is still something I remember in the nights at times when I think and thank the creator for whom I am and while that I am still here. Humor, death is part of life. Life is part of death. Animals are cute and sometimes I wish I could have grown up to be a cowboy. Humor I would not have made a good cowboy but maybe a fair one.
I have a lot of initial memories. The first time almost dying from allergies in a haystack. I could not breathe. I was chasing a kitten that was so soft and cute. When I could not breathe. I was pulled out of the hay by my legs and rushed to Mile's City, hospital. My breathing was so shallow they thought I was dead for a while.

I survived. However, that summer I meet my great grandmother Shattuck, great grandfather Haman, and grand mother Leier in Velva, North Dakota. As a grand kid I enjoyed that visit more than most people. I got to play with toys that were old even then. Being the only grand kid there and being named after her late husband, I enjoyed great grandmother Shattuck and she seemed to enjoy me.

That next year considerable grandmother Shattuck will pass away.

Life has many ways to teach you something.

My life story could be told with the passing of cars in my life and how each held something new or different in experience.

The first car of memory was a Plymouth 1973. That car took me on the journey during an experience most people do not get to have. Lightning, then hail, water for a flood, all happening at once the week prior to my parent's divorce. The situation living on a farm my mother took the car and us into Glendive,, Montana to shop. The storm came in with howling winds and hail the size of golf balls. The car was getting smashed and driving home to the farm a valley curve was full of water. Just when we entered the curve. Water coming through a car door at the age of five is something. Mom quickly backed out and went down another dirt road to cross to the farm. That road the valley was flooded also. On
the other side, an uncle was trying to cross the same path. That day the
knowledge that there was and is someone greater than my father or family came
home to rest within me.

Anarchy is everywhere

Laws are changed
Time is changed
one cycle of the galaxy 1000 years or 250 million years?
there is now a black hole in the center of the galaxy
not a star 26000 times the size of the sun
did you realize the sun is dead?
look up in google Fallon Montana then look up
that is not a red flare
that is a dead sun
you live under a mirror
you are zombies
for if I lived 6.5 billion years ago..
you live now 4.5 billion years ago..
My shoes were Sketchers
yours are knockoff even if newer
The end of time
I thought I would be better prepared
Not this time
not this place
not this earth
the closed timelike curve is prophecy
Seeing deja vu over and over again
the end of time
time is ending

Secret Life

Secret Life of Clinton R. Siegle's

eternity is staring me in the face.

Coming from distance places I see the Creators face.

Reality is something to realize that there is more than one of me.

Eternity is speaking to the human race.

Time to change reality.

Life is coming to an end indeed. January 15th will start an end.

Forever, will be remembered as an end

eternity is coming to an end.

Boundaries are what make imagination grow. The belief that there is nothing other then this world makes a person's reflection on imagining a greater universe experience something a brand new each time a fresh book shows up.

The pages show what could be or would be if there were other worlds out there. Similar to our own, however, different the tale be told.

Mentally, this tale takes place in La Paz, Bolivia. May 18th, 2016 I spent 45 years, one month, and 23 days on that exact same planet earth. It was on the outside of the galaxy. The spiral right arm per a famous author "Far out in the uncharted backwaters of the unfashionable end of the western spiral arm of the Galaxy lies a small unregarded yellow sun. Orbiting this at a distance of roughly ninety-two million miles is an utterly insignificant little blue-green planet whose ape-descended life forms are so amazingly primitive that they still think digital watches are a pretty neat idea." Douglas Adams I think came from my world. Not that it matters anymore. However, if you view NASA nowadays you realize earth is now inside the galaxy not outside nor anywhere near the western spiral arm.
Physically, having one's mind swapped for a parallel world is something. From May 19th through August, I traveled to another earth on a daily basis. I saw history rewritten; I saw people live and die that I knew nothing about. Historically, on my earth Abe Lincoln was a senator similar to Hillary Clinton recollection. I saw Bob Crane die in 77,78, and 79. I have seen geographically New Zealand as one island, then two islands, above and below Australia. The changes are something to see.

Literally I have been kidnapped for one of the greatest adventures in mankind. I realize few people will understand. My Bolivian Doppelganger wife has taken me to a shrink who remember the world differently too but insist on past lives has literally changed my way of thinking about what is fiction and what is non-fiction.

Figuratively I am not speaking that this world is worse than mine. There are many things to this world that I find wild. The world population on my world was 8.5 billion the 8th billionth person was considered a baby girl in India in 2014. Here I wonder where did 1.2 billion people went during the same timeframe. Example the United States was missing 43 million people. Figuratively I had to know. I searched and searched until I realized Abe Lincoln on my world saved half a million people. While here they murdered 1.2 million people in my world the civil war cost 545,343 people. That half a million-plus people turned the United States into a bigger population.

To summaries, I am still searching. The worlds are conversely changing. Like the sun for 45 years was yellow on my world. Here your space fence is up in 2003 causing the sun to change to white. That colourless color melted your ice cap because white snow and white light evidently do not reflect the heat. Somewhere as I remember an ice cap as late as May 2016. The world is mine to travel for a time. The end is near, remember God.

The sound meant something. The sound vibrated across the small space in the room. Suddenly, a smell came into being. It arose from what or where no seeing eye could see anything there. It stunk like a small baby skunk being frightened if there was an eye in there it would have teared up and cried. Just a smell was created to endure inside the room for a time. Shortly another sound was heard. The sound vibrated through the smell creating a cloud visually one could see. This was the magic of words in the box room. Soon scientists would investigate to see what could purely be created by what was heard. Only sound was aloud into the room which created with words. The room showed smells, visualized words; one had to think what about words? The magic of sound.

"I discovered that what most people call creepy, scary, and spooky, I call comfy, cozy, and home." It is the quote starting this paragraph. Yes, I stole this quote once, and it then followed me everywhere. The reality I haunted libraries, used bookstores, and bookstores as a kid and as an adult, I have found that having read the majority of the good books, I discover it distasteful to wonder the aisle of the local bookstores sort of haunting it speculatively wondering where all the Jordan, Fraser, Tokens, Lewis, Asprin, have gone."

Taste

Humans should not meddle in the affairs of dragons... humans after all taste good with ketchup... A book is a magic portal to another dimension- taken a book is better than any drug to be high on for to read brings about imagination and dreams. The secret is not to tell those that could reach this stage but to hold onto this reality a bit by bit to make it yours. It is first responsibility of dreamers to question the authority of those seeking to enter. Secrets after all are only true when one and only one knows them.

To reach these secrets visiting a person that happens to see the world a little differently such as a poet, writer, or those just a bit off and talking with them happens to open their minds to ideas. Think before thinking becomes illegal. Read before they burn or destroy the books again... Imagine before the end...

Do not wish, not to know. Because you prefer to remain unenlightened, to better be a cow slaughtered in the dark. The end was here and a poor poet I am. A hero to no one who remembers. However, within my imagination, I am someone as important as the next person an influencer of good with a little naughty on the side. Someone you are pleased to know of but do not really know for sure. For how can one know a poet’s heart when his words on paper stray from politics to famous people to a cartoon drawn just recently by noon? To say I am recognizable is a short statement to those that read tiny articles or notes pinned here and there. Alternatively, poor poetry sent to people that had half a mind not read it for what is a poet, but a small person within himself caught by today's light and in the night as unbalanced as a mad hatter at a tea party with Alice in Wonderland So few actually remembers days as a poet nor see through his eyes how the world was changing due to people lack of kindness or rareness. Shame is but sadness today. Forgotten is the way to be true and heart-felt best friends to a mad hatter.

I am currently unsupervised I know, it freaks me out too. but the possibilities are endless. Blessed are the weird people-poets, misfits, writers, mystics, painters, troubadours-for they teach us to see the world through different eyes. So you are okay with the government having the weaponry to annihilate all life on earth.. But you are upset with someone that owns a rifle that holds 30 rounds? When someone tells me I live in a fantasy world, I take that as a compliment. Never be afraid to sit awhile and think. The most precious jewels you will ever have around your neck are the arms of your children. Can you handle all this awesomeness? We are each given a limitless capacity to love and attain wisdom. The extent we use these gifts is our choice. One can not be spiritually fulfilled until another animal has touched one's soul. "YOU FALL IN LOVE WITH PEOPLE’S MINDS" writer's block when your imaginary friends stop talking to you. clint the world is an odd place now a days. Is it life of ease just losing its

Thanksgiving

Happy Thanksgiving to you

Happy Thanksgiving to you

all places that people come from miles around to be near you

places people come from miles around to be near you

people cheerfully gracefully swaying some singing to you.

You need to give thanks

Thanksgiving day for those who are thankful

holiday with which to give thanks

always there is a thought of thanks

near and dear to all

kind and quiet to few

season's greetings to one and all

giving all of us but a few.

Indeed a day for memories of the done few

vivid details of good details,

in fact, fairly a few

greeting us with emotions of the past year memories quite a few.

I was heavily sedated. My list of medicines at the time of my left foot deciding to turning zombie was 20 plus depending on the time of day. During this time, I lost my recollection of what was real and who was there. Amnesia occurred on the third day. I could not tell the doctor who I was. I slept 23 hours plus and was unreliable in responding to questions about when, where, and who I was.
The Brain

The brain a special substance of a creator
hypothesis is there is creation
eternity; however, in math has discovered that there is no time
Brain tells a tale of six thousand years of human time
reality without time everything is happening within time
art is "not only does science underlie sculpture, painting, music, poetry, but
that science is itself poetic."
"is at length answered by the severe truths of the stony science"
need a reminder from history of time

Idealism is dead.
Dreaming of a better world is dead.
eternity might be dead.
all I can say is you live under a sun that appears to be dead.
live a life with ideals even when dead.
I tried and am dead.
silly ideals are dead.

if all idealist leave this world.. the place would be allot less interesting...
however, what ideals are left to defend?

I often being from this reality I realize it is to chances of changing evil for good are so few that 1 in 1000 Solomon says or 100 out of 10000 who knows the has won so much I wonder why someone would do this over and over and over ghout timewaves throughout time, light, space.. Is there a flaw that can be erased? I wonder.

The Long Road

The long road ahead of us all.
He demands to be traveled in this life.
Eternity For those with spirit and light a belief for a great afterlife.
Long is the road onward in life

open country to the right crowded cities to the left
never checking on the future trip precisely or left
grooving towards the extended road ahead of us turning towards the left-hand road for those with hate and fear some virgins might appear.

Of reborn, there are quite a few. Saying be good to all for the next time that could be you.
A road ahead a right and wrong.
Destroy or build up all. If organization does tell the right should win after all.
Ahead is the decision build the road or destroy the U.S.

The lengthy road before us is filled with life laughter and a future.
The extended road in front of us is there for us.

The Mandela Effect test honesty is some of us are not from here eternity is questioning are you from here Mandela effect test a is the sun white or b is the sun yellow new shoe brand sketcher or skecher? Dear traveler, is Japan to the side of China or Korea? Eternity question is it the lion or the wolf that lies with the lamb? Life real question is it Honey smacks or Sugar smacks? America is there 50,51,52 or more states in the Union? A quick question on Reality? The Mandela Effect has happened so often since 2003 no one has really paid attention to the mind swapping going on between politicians, and normal people. Is Obama's world are there sincerely 58 states to the United States Union? In Hillary Clinton's parallel world was Abe Lincoln a senator? In a past, world did Sadam from Iraq actually conquer South Africa killing Mandela Nelson such as George Bush Jr stated? Think people before the world illusion changes again. Are you in the right mind and body or has something changed which you knew and now history has changed so it was not how you remembered it? The Statue of Liberty on Ellis Island or Liberty Island? Is there a bridge to Lady Liberty in your mind or not? What about your shoe? What about where is your heart? Ask these questions to a friend and see if you can find someone not from here. The purgatory of Clinton R. Siegle, not Clint Siegle, nop not Clinton Siegle. For 45 years some days I lived on a world with the following items, geography, and physical body. Brand of show Sketcher not skecher. Heart was under the hand which you pledge to not center, not off center, not on your right side. Geography
North American was above South America not 2400 miles due east of it. Abe Lincoln was a senator prior to being President. I was on the outside most rim arm of the Milky Way galaxy looking into it. May 19th that changed along with my life, love, and the world in general. That I have seen the heart move from side to side from left center to center to right center to the right side is amazing. That I have seen South America move from below North America to the east is wilder. That New Zealand which was one island is two island and still called New Zealand instead of plural Zealands is even more awkward. Since then I have been looking to see what I could see and have found several items, and history changes is even more astounding. Example China war with Vietnam in 1979 never happened in my world. I had in April of 2016 51 states of the union and DC did not get electoral votes. That the world has changed is even more wild. Those stories have been eating by whatever Artificial Intelligence that is running this world is weird, wild and at times kind of umm. That the Dwave computers at the CIA base are trying to solve an unsolvable problem with the wrong formula is even wilder. You see the story begins with the Montauk Chair. Their speculation was that the end of time which we are living right now could be stopped. To do this they did several things to time itself to force some other outcome then Jehovah ruling this world and those close to it. They played with time, making people be born out of date, they played with people by bribing their teachers, and changing events by a moment enough to cause a person whose strong opinion would have changed the world one way to become something totally different. Example Montuck took 250,000 kids not just in one world but in 10,000 worlds and sodomised them to create a homosexual culture which is presently showing up now in the end times. Their purpose is to make a world so evil that Jehovah will just stop following it. Following it? What do you mean. In 2003, Lockheed Martin put up a space fence changing the sun frequency from yellow to white. Then in 2007, they unzipped the globe and are flying it away from the sun core. The sun if you can see it is fake, moon, extra is all under a doom moving parallel away from what on my world they called Nibru. You say you are nuts? Of course nuts. However, let us exam a few examples of the up and coming war that is still going to happen. Russia versus US According to your own CIA and Army there will be a reduction of 75 percent of the United States population by it yourself. According to your own CIA and Army there will be a reduction of be a reduction of of Europe by 25%2025. The purgatory of one Clinton R. Siegle. Since my movement from my world I have seen earth moved all around the galaxy. I have seen it in the center of the swirl on the out side edge. I have seen the population at 9 billion go down to 6 billion. I am currently on a planet with 7.2 billion people. My world there was 8.5 billion people, the 8th billion happened in 2014 and was declared a baby girl in India. I looked at this from religious point of view only to be told by a rabbi that I ramble. I asked Christian view point and they said there is only one unique soul. I can say that all those in Mandela Effected position
already know you lie. So I began to look. Hebrew bible points out the plurality of heavens, earth is missing the s however not in the original version. You look at the original Hebrew and you will find that Earths are there too. <Genesis 1: 1> In the beginning God created the heavens and the earth. The meaning is that we live in a plural s not earth. What does this mean? The story of the bible has been played out so many times in so many different worlds that people do not recognize what is going on. Thus the Montauk chair used this verse to change the reality of those that might have said no to avoiding heaven. <Genesis 11: 7> Come, let us go down and confuse their language so they will not understand each other.” Meaning at one point in time people were to do one thing example run for school board, be a Christian, do something unpopular with the military and were taken and changed. Meaning for an example if you were in the gifted in talented class for two years and you wake up the next and you are spelling dilemma, there correctly but you are beat to spell it dilemma for the next 40 years you too get tired and accept a different worlds spelling, that is the awkwardness that the military should be tried and punished for. The exchanging of minds through out the universe by evil people happened. You say but Jehovah changed the minds first. He did it in groups. Meaning at one time there was a Group of Chinese people all together on one world and suddenly there was group of Saxon speaking people. Not just some random kid losing face, do to his speaking ability. SHAME, DISGRACE EVIL you be. The jest of this is this. Purgatory for Clinton R. Siegle, I died along ways away and now I am following my mind through the string loop which they flung kids out into. They did this with their parents also. You ever wonder why the divorce rate went from 10 percent to 60 percent in the 1970s. They moved peoples minds away from their loved ones. Meaning one day a woman wakes up to a man whose voice is so annoying you want to punch him. In the bible that I read this was a statement In judgment day right mind with the right body. My speculation here is die don my world and now am spending a day on each of these parallel worlds looking for my right body to be judged in. That these worlds were opened up like a scroll on judgment day and are fleeing from heaven using CERN as a magnet jump booster is awkward. That the end of the world will happen between now and 2025 is even more astounding. The rationale a war with Russia? Maybe the Trump in this world is not from here either. Who would say vote for me on November 28 instead of November 8th. Even though I have written about this before I did see Britian stay in the EU, and is now it is out of the EU. I did see the election happen on November 14 on one calendar, and voted on November 9th in one world. You might not believe me, however a list to ask your Friends and family. JCPenny or JCPenney Sketcher or Skecher Senator Abe Lincoln or representative Abe Lincoln Where is Japan Where is New Zealand What color is the sun White, yellow, Green or blue? In the Bible what do you remember about Mary Magdalene?

Time in a closed time curved loop is an oddity to me;
I recall having 17 days left for this course to expire yesterday
memories play tricks for today the clock says 31-day
eternity of falling backwards through time like Solomon
In a way I sought knowledge of time
now I wonder about my soul
a bit more than last time

standing firm in my mind in 1989 my high school books said 6.5 billion years-old
eternity is not what one sees in a blink of an eye

FRAGRANCE AND REMEMBRANCE
(MEMORY AND FRAGANCE)
At dusk,
In my lonely walk
I hear the sound of my footsteps
And my memory is anchored in you.
The beauty and natural aroma
Overflow from the rural path,
Ignoring squares and avenues
Where you drown you in the hubbub.
While distill time for both,
The distance does not dilute our affection
My watchful eye is lost in the infinite
Without satisfying my deep feeling.

PATH OF ILLUSIONS
I know that soon my side I'll have you
Because in my mind I have in mind,
It will remain in the past the dying
To make way for a bright horizon.
There cherish me with the warmth of your arms,
I rejoice in your beautiful whispers,
I make drunk with the sweetness of your lips
And love will live forever.

Filiberto Montecinos has devoted me some verses and that, to step flattered me and I'm excited, I removed the right to write an introduction full of praise pure poetry. I've always had high respect for his literary output and his work at the World Parliament of States, in which we are colleagues for a long time. We often reciprocate by letter or , in the intervals of their travel within Bolivia where Filiberto Montecinos plays the role of judge. Judge is his main career and in it he puts the best of his dedication.
Poetry will come, as he says in his verses that opens the book, as the imagination, which opens the flight of his soul to distant worlds of sweet and joyful love with which wishes can dream without ever waking up. I have always supported the poetic production that relieves moments of solitude at work and in social struggles and brings peace to which all can sublimate in verse, as Filiberto Montecinos says in the poem that gives title to the book.

Why is there a good and bad
Why is there life and death?
The one living eats and the other dead is eaten
Why so many questions from a fruit
The soul is to go to heaven or Eden each night
To hear and find out what is the future and do right

What to question
Divinity is the question.
What to ask
How to ask

It would seem some do not like the way I ask
It would seem a question is wrong to ask

Tired of hurting
Tired of hurting others
Tired of not knowing
Tired of being unsure

Plus three million VISA H,
Plus the supposedly four million openings
That is twenty million positions someplace
Let the Us of a elect people that care about people here

Iran versus Saudi Arabia
A republic with rule of law problems versus
Unitary state, Islamic state, Absolute monarchy with Religious law problems
Which is right which is wrong

Let the world watch
9/11 the whole group was Saudi Arabia someone in the monarchy paid
Iran kidnapped an embassy let us say
Taliban again Saudi Arabia does pay

Iran trying to save their own religious way The Islamic Republic is a system
based on belief in:
Theocracy is a form of government republic with official recognition of Jews, and Christians
Saudi Arabia boycotts of Israel, and controls through finance an empire
Through the official form of Islam is Sunni of the Hanbali school, in its Salafi

What is this world a belief in one creator?
Is there only one belief?

Syria at war within itself
You are fighting those that would live within themselves
Reality war material given to the other side would you fight yourself
I believe Saudis are paying for your blood shame on themselves
All that money for blood

War is the destruction of community
All that money could be spent buying land and changing ideology
Reality is a moment in time of war

Run away Syria
Uniquely at war
Never at peace within itself

Away from hate
Win with peace
Away from hate
You can be at peace

Run away faster for peace
Unique how a world is no longer at peace
Never mind time is but a moment in reality of peace
Faster towards the end
Almighty forgive Us a gain
Service the needy and poor for peace
Time is but a moment of reality in war

War Syria

Syrian refugee girl acrostic poem
You ever go against your own nation fighting a war
Reality if I was not home sick that day I probably would not have cared

America loses a believer that day in that war
Natural beauty she cried, I listened and learned how evil USA is to Syria
Refugees created by US money
Eternity of shame on the USA
Freedom is for liberty not religious wars
Ugly is the senators, representatives, and president supporting that war
Girl was just speaking broken English, crying
Eternity in my soul I will remember that girl
Evil is the USA money sponsoring that war
Girl I hope you are safe
I wrote saying no to support of tat war
Reality McCain, Obama, Clinton, paid for that war
Leaving Syria, America poorer for that war

Love is not their neighbor's news
War in Syria
All that murder

No more cry against this war
Only you can stop this war

War in Syria stop please
Almighty please stop murder too
Reality is love in a moment of time

War Syria Deformed Babies

Death to babies
Even little deformed babies
From a creator deformed babies
Observe world deformed babies
Reality is but a moment in time for babies
Military killing deforming babies
Earth showing the world deformed babies
Deformed babies

Babies deformed with money
A wealth of money
Babies death because of money
In a word slaves to money
Eternity shows sadness in babies death with money
Silly how this world murders babies for money

War is funded by whom
All the funds of war funded by whom
Reality is but a moment in time funded by money with whom

In a civil war with Syria
Need to be remembered is Syria

Syria civil war
You think about Syria war
Reality is Syria civil war
Indeed life is awful in civil war
Almighty why fund civil war
Should I be worried that they are changing the first amendment
Should I care if I do not own a gun about their attacks on the second? Why

Why should I care about the fourth seizure amendment?
This all started with not caring about the fifth amendment
Terrorist shames on you changing the bill of rights
Politicians shame on you for encouraging the change of the bill of rights
shame is shame evil is evil when you lose your rights?
Change is imminent towards the bill of rights.
Only the states can afford to change the political evils to rights,
Please call the conference and change the laws to keep them right.
Banking question for Iraq
Iraq your central bank is not run by the House of Rothschild
North Korea your central bank is not run by the House of Rothschild
Iran your central bank is not run by the House of Rothschild
Cuba your central bank is not run by the House of Rothschild
Axis of evil or just a desire to keep your money within
Money is the root of all evil
Maybe if money was given where desired
Maybe if they had to eat their money
Imaginary is money
In reality is that not imaginary
States nation’s ideology to kill murder to do evil
Evil a root of money
Really are these country’s evil or just living at their own pace
Why must imaginary evil be what sets the pace of this race
Iraq WAR
Iraq the dogs of war are howling at you for money
You need to ask Russia and China to come rescue you for money
Reality is shame when a senator wants to murder you for money
Iraq say Saddam killed 2 million - USA 186,000 over a period of peace
A tenth of the money

War is a weird way of organized destruction for money
All for peace or destruction for money
Reality is sad this way of destruction for money

Civil War In Iraq
Shame on the war in Iraq paid for by American oil money
Shame on the war in Libya paid for by American oil money
Shame on the war in Egypt paid for By American oil money
Evil is the government that works towards war
Evil is war meaning war is worst than hell for in hell no innocent die in war
Evil are people of this world that can not change to peace instead of war
Change was promised to America
Change was forgotten to ask good or evil for America
Change like Anderson consulting company destroying America
Destroy the world within by giving into its evil sins
Destroy the state from within by giving people their desired evil sins
Destroy law from within by not working coordinating together within is sins
How can we as a nation change for the better
How can we as a nation stand up for what is right or better
How can we look for a life that is better
Seek the creator on you knees be praying
Seek heroes that are on their knees praying
Seek good instead of evil on television and keep praying

Death was a new angel that challenged the Creator
His challenge I have no idea why
but the story I heard
is the following:
Job was to be the person taking the place of Abraham for the gentiles.
The Creator looked out and said have you challenged my friend Job
And with that Job earned his reward known through out the ages
The Creator was betting that a good man could survey.
The angel death toke all his stuff, his children, and his friends.
The angel death said let me take his health and wola the Creator said okay.
What did I learn from this story.
That all we are; are pawns or betting chips in a game not seen by gentles
Humor how this makes me feel that everything I do here is a game
Welcome to learning you are just an avatar
That nothing we do matters to us
That the Creator sees us to go good or evil
That the challenge is something worth betting or not
Angel called death toke one third of the angels that day in his flight fight with the Creator
Why is this rebellion happen this way
I don't understand nor care
The story however ha something moral to say
The angel death wants to destroy the race of Adam it seems
Why I have neither idea nor care
The story however brings a question about Islam in general
The whole Koran is based on an angel talking to a prophet who does not change
his ways to ding to his own words he
"Muhammad is a narcissist, a pedophile, a mass murderer,
a terrorist, a misogynist, a lecher, a cult leader, a madman
a rapist, a torturer, an assassin and a looter."
Former Muslim Ali Sina offered $50,000 to anyone
who could prove otherwise based on Islamic texts.
The reward has gone unclaimed
This makes sense that an angel did speak with him
It makes sense that someone that might not be completely good made this all
up.

Change your fait to belief
God sees your actions as belief

Ted Ferguson a well-traveled actor
eternity will remember his walking and strutting across the stage of life of an actor
Dearly promoted with a strong French speech acting in faraway places for an actor
Ferguson a last name educated in the states from Michigan to Louisiana
Eternity will be remembered as a time he walked on the stage of life
reality is but a moment in a life as an actor
giving the world a chance an opportunity to see another vision of life
Uniquely speaking German, Spanish, English with a well-polished French voice actor
sensing that fight scenes within a well-developed body of an actor
on call to hear the directors call to an actor.
Never giving up the dream of stardom of being an actor.

The land was barren, the sky was black after the comet hit earth. A fifth of the world population gone in a blink of an eye a biblical verse said. That was the least of the surprise. The earth cycle through the galaxy within a week time period pivoted to outside the galaxy just enough that radiation killed everything's growing. To make matters worst the earth rotation and axis put the sunlight, mainly over the ocean and land was darkened in never completed dawn sunrise that wasted away what plant life was growing. That was when the climate change that everyone had been expecting happened. The weather was a bit different. Instead of a heat wave, snow, ice, the glacier poles increased expanding and pushing the ocean up, and over the land boundaries so much of the coast was under five feet of water.

The lack of plant growth, coastal submerging under water, comet burnt earth, and the sun never showing itself might have been survivable taken in over a course of a little time. However, having all this happen within a month drove people insane for religion and asking questions about their reality. Those survivors were easy prey for that wanting money and claiming to know that which could not be known.

The oddness of these events was lost on the masses due to propaganda, which was issued during this time. People were thrown into a mass project to save humanity fleeting did they realize that the aliens had taken over the leadership that humanity had and were using them to depopulate earth.

The leaders started to starve a part of the world. No information, no media from India was not unexpected but the death toll was close 99.9 percent. For China, the aliens fought Pakistan while Pakistan actually used nuclear bombs on India to finish demolishing that society. Chinese at that time were hungry by this point
and cannibalism of a whole country happened within a year. Either the Chinese ate the Pakistanis or war destroyed everything. The land still did not grow anything during this time.

That is when the aliens empowered a leader to lead earth out of the dark ages. Humanity under his leadership required being marked and subjected to his will on whether a group of people would eat or starve to death. The chips in the arms or forehead allowed for the whole human races to be enslaved. Those not wanting the chip was not given food, nor the tranquility of peace. Their minds were always on while those with the chip were given non-feeling they could murder and not feel anything.

That was the story of earth and the end for mankind. The ice age lasted a hundred years. At the end, eight billion humans were gone, and a new civilization had control of earth. Earth survived a living ecosystem performing well for the modern occupants. Never looking back or thinking of humanity just as the dinosaurs had gone so had humanity.

An end to the end of humanity
be human
come the slaughter begins

No to war
only the dead here on this planet 4.5 billion years old won´t hear
To war they cry with Russia, Syria, To war they cry
openly hostility to those that say no to war, that say save the Boer
War is wrong it destroys
all is lost here at 4.5 billion years old earth..
reality at 6.5 billion year old earth I am not to sure we listen then

The US spent hundreds billions of dollars fighting the Bush Cheney war in Iraq = a war we should never have gotten into. If we spent one trillion on rebuilding schools, roads, and infrastructure (bridges, water plants, rail, airports, etc) we could create some 13 million decent paying jobs and make our country more productive. THERE was a total of 4 trillion dollars or 52 million jobs instead of bullying people. WARMONGERS VOTE DEMOCRAT

Watching The Ocean You

An odd to seeing reality
Watching the ocean you will realize that water has changed
A chance slip and you are caught in the closed time curved loop change
time is nothing these days seeing history books
can you image reading one day one thing and the next another in a similar book
honesty is the best policy believe in Christ
In this reality, for space equates to light coned multiplied by time or Christ
Nothing I can say will make you believe
God is watching for those who believe
The ocean is the sign
honesty watching nanotechnology exploit the ocean is a sign
eternity is not that far off
ocean beware
can you not hear the cries of beware
eternity is coming near
a sign that the end is near
need I say more
you see I have a lot more
open your eyes the time is near
unique cry the time is near

Water Women Pure

Water for women is needed clean and pure
a cure for better wealth and health
time is but a moment in a tear
eternity will remember unpolluted water more than a tear for war

reality is we need uncontaminated water
women of the world to ask for water
open your voices ask for water
men are for war for water

eternity will remember germ-free water for life
need purer water for life
pure water for helping women for a lifetime
uniquely essential for bathing, washing, eating, cooking, living.

Reality is tears are water
eternities will remember women with water.

Nonclassical sonnet with acrostic left side spelling water women pure.

We Live Only In The Past

We live only in the past
Past ghost's memories of fun and life
almighty recollection of the afterlife
seasons changed passing by in this life
time to remember to laugh more in this life.

Present at hand what can we do but be a man
at hand to be an honest man
seasons present-day happenstance to be a man's
time is but a moment on the stage of life of a man.

Prospective ghosts do the plans
approaching the past with the present plan
seasons future is man's plan
time is but a moment in existence to live in laughter on the stage is man's plan
forethought a future requires a good recollection of the past ghosts
executing the layout is the present-day ghosts.

Weather

Weather acrostic
Weather is bad this time and era
eternity coming to crust to an edge
almost to the end of an era
time is but a moment, in reality, of life's edge
hell, has a place in this era
eternity is not found near the edge
reality eternity is over the edge.

Valentine Day acrostic
Valentine's day for the lonely
always secretly alone
lonesome
eternity of being together alone
needed to be alone
time is reality telling us we are alone
in fact; Everything has done in this life is alone
need a reminder be alone
eternity is but a moment in time to be alone

Day of Valentine's hearts, mushy love togetherness
all those thoughts of not being alone
you are alone.

Valentine's Day acrostic
Valentine's day oh how I hate to love
all those mushy words of love
love
eternity of grief brought to you by love
need a reminder of loneliness try being in love
time is but a moment in love,
in fact, that is what time is to love
nice delicate love
eternity's curse to those that love
season's greetings for the day of love

day of love
all that mushy love
you are in love.

Weather acrostic
Weather is bad this time and era
eternity coming to crust to an edge
almost to the end of an era
time is but a moment, in reality, of life's edge
hell, has a place in this era
eternity is not found near the edge
reality eternity is over the edge.

What The Thunder -

What the thunder said
hot lightening rolling sound
always flashing before the sound
time is but a moment with lightening around

the lightning strikes the ground
hopping wildly around
ever a boom is a blaring sound
thundering lightening strike the grounds

ultimately making a sound
doom are the shrieks on the ground.
Eternity still hears that noisy sound
reality is but a moment in noise all around.

Thundering lightning hits a sound
eternity is but a moment hearing that sound.

I personally hope for a good book
Personally I feel the world falling apart

Happy thanksgiving

No, War in Syria

Shame on the war in Syria paid for by American oil money

Shame on the war in Libya paid for by American oil money

Shame on the war in Egypt paid for By American oil money

Evil is the government that works towards war

Evil is war meaning war is worst than hell for in hell no innocent die in war

Evil are people of this world that can not change to peace instead of war

Change was promised to America
Change was forgotten to ask good or evil for America

Change like Anderson consulting company destroying America

Destroy the world within by giving into its evil sins

Destroy the state from within by giving people their desired evil sins

Destroy law from within by not working coordinating together within is sins

How can we as a nation change for the better

How can we as a nation stand up for what is right or better

How can we look for a life that is better

Seek the creator on you knees be praying

Seek heroes that are on their knees praying

Seek good instead of evil on television and keep praying

Chance favors those that take the opportunities

Chance might save us all with an opportunity

Chance is luck which favors opportunities

Peace is what this world needs

Peace is where we should listen with ears to their needs

Peace to help those with needs

Love is what this world needs

Love to heal the pain in people needs

Love pleases help those of us in need

Death was a new angel that challenged the Creator
His challenge I have no idea why

But the story I heard

Is the following:

Job was to be the person taking the place of Abraham for the gentiles.

The Creator looked out and said have you challenged my friend Job

And with that Job earned his reward known throughout the ages

The Creator was betting that a good man could survey.

The angel death toke all his stuff, his children, and his friends.

The angel death said let me take his health and walla the Creator said okay.

What did I learn from this story?

That we are pawns or betting chips in a game not even seen by us

Humor how this makes me think that everything I do here is a game

Welcome to learning you are just an avatar

That nothing we do matters to us

That the Creator sees us go good or evil

That the challenge is something worth betting or not

Angel called death toke one third of the angels that day in his flight fight with the Creator

Why is this rebellion happen this way

I do not understand nor care

The story however ha something moral to say

The angel death wants to destroy the race of Adam it seems
Why I have neither thought nor care

The story however brings a question about Islam in general

The whole Koran is based on an angel talking to a prophet who does not change his ways to good. According to his own words he

"Muhammad is a narcissist, a pedophile, a mass murderer,
A terrorist, a misogynist, a lecher, a cult leader, a madman
A rapist, a torturer, an assassin and a looter."

Former Muslim Ali Sina offered $50,000 to anyone
Who could prove otherwise based on Islamic texts?
The reward has gone unclaimed
This makes sense that an angel did speak with him
It makes sen

Merry Christmas it is that time of year
Winter festivals and joyous caroling about a date way back before you or me
Imaging a prophet telling you or I
Good tidings and joy are heard for you and I
Just believe you and I
Not much more was needed a belief in this person for you and I
I mean our mother eve just ate a fig you know you and I
A fig caused us to remember sin you and I
A fig is what made us begin you and I
Evil is something of a fig for you and I
I wonder about a fig for you and I
Shame is a shame, and evil is evil but a fig for you and I
What makes this whole issue interesting for you and I
Well the end is nearer, and festivals are clearer for you and I
The end is here for Death or Satan, or the fallen angel is coming for you or I
Good or evil
Death is cease to be
Hate is death to love to be
Sadness is death to laughter soul's light to be
Depression is hate shown in sadness indeed
Reality is sadness indeed
Evil times showing death indeed
Shame to those that are evil indeed
Blaming others for their evil deeds
Wrong is evil this day
Evil is wrong shame showing this day
Incorrect behavior is shown this day
Be unkind uncaring inside this day
Evil is screaming noise
Ghostly spirit of evil ways

Be a hero show life how to live be good

Be love instead show existence is good

Be careful of your dreams and thoughts show good

Be in love of life, loving, and laughter is good

Reality is a moment in time

Laughter is for eternity in time

Love is a dream lived out in reality of time

Live a life of love of laughter in time

Be good for reality sake

Be careful of reality for time sake

Be loving be good for heaven's sake

Be careful of reality sake

Noise of laughter for Thanksgiving Day

Be safe on that day

Death is cease to be

Hate is death to love to be

Sadness is death to laughter spirit's light to be

Depression is hate shown in sadness indeed

Reality is sadness indeed

Evil times showing death indeed
Shame to those that are evil indeed
Blaming others for their evil deeds
Wrong is evil this day
Evil is wrong shame showing this day
Incorrect behavior is shown this day
Be unkind uncaring inside this day

No, War in Syria

Shame on the war in Syria paid for by American oil money

Shame on the war in Libya paid for by American oil money

Shame on the war in Egypt paid by American oil money

Evil is the government that works towards war

Evil is war meaning war is worst than hell for in hell no innocent die in war

Evil are people of this world that can not change to peace instead of war

Change was promised to America

Change was forgotten to ask good or evil for America

Change like Anderson consulting company destroying America

Destroy the world within by giving into its evil sins

Destroy the state from within by giving people their desired evil sins

Destroy law from within by not working coordinating together within is sins

How can we as a nation change for the better

How can we as a nation stand up for what is right or better

How can we look for a life that is better

Seek the creator on your knees be praying

Seek heroes that are on their knees praying

Seek good instead of evil on television and keep praying

Chance favors those that take the opportunities
Chance might save us all with an opportunity
Chance is luck which favors opportunities
Peace is what this world needs
Peace is where we should listen with ears to their needs
Peace to help those with needs
Love is what this world needs
Love to heal the pain in people needs
Love pleases help those of us in need
Death was a new angel that challenged the Creator
His challenge I have no idea why
But the story I heard
Is the following:
Job was to be the person taking the place of Abraham for the gentiles.
The Creator looked out and said have you challenged my friend Job
And with that Job earned his reward known throughout the ages
The Creator was betting that a good man could survey.
The angel death toke all his stuff, his children, and his friends.
The angel death said let me take his health and walla the Creator said okay.
What did I learn from this story?
That we are pawns or betting chips in a game not even seen by us
Humor how this makes me think that everything I do here is a game
Welcome to learning you are just an avatar
That nothing we do matters to us
That the Creator sees us go good or evil
That the challenge is something worth betting or not
Angel called death toke one third of the angels that day in his flight fight with the Creator
Why is this rebellion happen this way
I do not understand nor care
The story however ha something moral to say
The angel death wants to destroy the race of Adam it seems
Why I have neither thought nor care
The story however brings a question about Islam in general
The whole Koran is based on an angel talking to a prophet who does not change his ways to good. According to his own words he
"Muhammad is a narcissist, a pedophile, a mass murderer,
A terrorist, a misogynist, a lecher, a cult leader, a madman
A rapist, a torturer, an assassin and a looter."
Former Muslim Ali Sina offered $50,000 to anyone
Who could prove otherwise based on Islamic texts?
The reward has gone unclaimed
This makes sense that an angel did speak with him
It makes sense that someone that might not be completely good made this all
upse that someone that might not be completely good made this all up

Wind

Wind blows, trees sway, a brush with the night hour. A treat for prayers for All Saints Day. A mask or gourd or pumpkin to scare the spirits away. The color orange to represent harvest time while black means death for all time. Halloween is the spirit’s night.

Winter Sliding

Winter sliding down the hill is my type of fun,
in fact, building a seven-foot snowman on top of the hill is fun
need some hot chocolate and slush wet boot is wonderful entertaining
time to hock up the rope to the back of a pickup and surf the street's type of amusing
evergreen trees brushing closely to your face type of fun
reality winter is almost always fun.

Winter Snow

Winter is here the natural seeds are starving
indeed the genetically modified seeds are over taking the organic seeds
needle seeds starving the crops to death
time is not on the organic seeds of nature this winter
eternity will remember their sob gone unheard un cried
reality is genetically modified seeds are changing the environment of seeds.

Snow comes, and the fight for warmth begins
nicely plowed neatly heated up by money the GMO seeds are maintained
open organic seeds cold without the money from the companies are hoped-for
winter is nearby who will win.

Wolfgang Schäuble

Wolfgang Schäuble a taxman turned politician
On law he graduated then served as a taxman before elected to parliament
Living life within laughter of love of politics survived an assassination attempt
forever since 1990 he has been in a wheelchair part of Democratic Christian
Party
Given life's up's and downs he has time to sign an autograph for me being kind
All I can say is thank you from me for being kind
Need to remind the four hundred politicians that I have asked here in the US to
be kind
Giving a free autograph taken of a politician to a poet without hope is being kind

Schäuble a member of the cabinet
Critical of human rights abuse in Russia, Iraq, even as a member of the cabinet
How this world is strange to find people to admire from a far not near my own
Cabinet
A man in a wheelchair since 1990 inspirational to a point that life does not stop
because of movement
Uniquely kind, views on peace seem just right hopeful he keeps peace in his
movement
Belief in Christ would be nice beware of insincere Muslim movement
Live life within love of laugh of making righteous laws make right
Eternity is woe unto those that call right evil and evil right

Wonderland

Wonderland is so much fun
open flowers talking in the sun
needs merely a path to run
dear tea party set up to begun

eternity will question what is real in the end
reality of a book's influences to the illusionary reality's end
land of questions merely for fun in the end
ah, What is fantasy versus reality in the end

need to think to dream to run
daily the question of tea is begun
Mad Hatter here to say
all you, please have a fine day

for which is truth a Mad Hatter regular tea party?
On the other hand, a reader's question exactly begun.

Worlds End

□
The end of the world acrostic
The end of the world by 2025
honestly, the CIA and US army do predict
eternity is not what I expected to see 280 million US citizens die by 2025
end of times you read
near the bottom you will see the US Army, Navy, and CIA claiming the end by 2025
death to America by 2025
of this for sure there is something going to happen by 2025
forever is in the balance
world ends by 2025
or only the US of A by 2025
reality of the end of the world by 2025
live life with merit
death has US by 2025
