..Or My Heart..Or My Ego

needle stabbing my finger.
or my heart. or my ego.
when I heard your story.
that no longer laughing. no longer cheering.
selling vinegar. slicing my stomach.
or my heart. or my ego.
stop continue that complex story.
spinning my head. my mind. or my ego.
my ethic. that won't let you go.
from my side. from my eyes.
from my hands. that can't reach you anymore.
because my heart. or my ego.
don't want be hurt.
by someone.

"i’m Grateful To Meet With You"

Feeling that already ended
Feeling that unchanged
Feeling that newly begins
There’s so much more and uncertain
Making the heart cold, making the heart warm
Making it beat fast, making it calm
I want to keep those things I feel right now
And someday
I hope I could be honest to think
“I’m grateful to meet with you”

Maria Sudibyo
18 Years Storm

Don’t take it too serious
It’s enough if you a little bit curious
When you already get furious
Don’t forget sometimes to feel hilarious
There is nothing wrong if you cautious
But even the light could become traitorous

Maria Sudibyo
360°

We’ve came to same spot
Seems unchanged but it doesn’t
Erase the journey

3am

Is it the time when
All souls are so lonely
And miss somebody?

Maria Sudibyo
3am (Reprise Parody)

It is the time when
I wake up for the bathroom
And go back to sleep

A Company Of Error

It’s fantastic
Everyone joys to watch it
Even all we do are breaking each others heart, crushing each others pride
It’s fantastic
Everyone loves to see it
It seems common sense is out of their head now
We like to cross each others path, we always in hot debate
But it’s fantastic
Everyone eager for more slapstick
We are falling to each others trap, running to each others map
It’s fantastic
Everyone craves for lots cry and weep
And we just have to close up the creep
It’s fantastic
Everyone has a blood of sadistic
It’s so obvious it can make a healthy man got sick

A Crime Reason

Sometimes human is worse than animal
Animal never at fault
Only human that could be right or wrong
Maybe it sounds like a reason
But human can not escape just by saying
It is driven only by instinct

Maria Sudibyo
A Crossroad

As long as there is a will
We could be anything we want
We are free
We could choose and decide ourselves
There is happiness
At the end of the road that we choose
Something will be vain
If you think it useless
Everything is depended by your point of view

Maria Sudibyo
A Cup Of Coffee

It's empty
You plea

I fill half
You sigh

I pour full
You drink all

If it's empty
You...

A Day With Mind Reader

The world is too loud for me
The quiet sleep never occurs in night
The refreshing dawn always confusing my mind
A sound that doesn't exist
A thought that doesn't have origin
Voices that become noise at the back of my head
I must take the control before I jump from my window
I must remember myself before I run to the forest
Screaming like a mad man
I should get them out from my jumbling memory
I must apply my rule before it turns tragedy
It is not my concern in the first place
It is not my business to get involved

The life is a torture to me
A consent without agreement
A fire without a cause
Does this inspiration come from mine?
Could this feeling be real to me?
The days become frightening
Because I don't know which one is true
Without even given a choice to reject
The story that is not for me to hear
The dream that is not my desire to lust
And I should keep replying in my mind over and over
Never get too close so I will not be lost
Never hope too high cause it never be right

Maria Sudibyo
A Day With Mischievous Thief

I have nothing
I don't make something
I'm just stealing
What looks good but you don't notice
What is precious but you sadly waste
What interest me but you never give a damn

I don't need everything
I'm not obsessed with anything
I just love to see your face
When I take away your treasure
When you realize that you have lost it
When it feels better owned by me than you

I'm definitely not a good man
I'm not even honorable
You can see I'm just a dirty thief
Maybe I will lie to get your attention
Maybe I will cheat you after you swayed
But it is a trick part of the game

I don't want to be bored and lonely
I never ask to be labeled like most of society
And don't call me irresponsible
It is just based on my nature instinct
You just offer an intriguing challenge
And just blame it to your heart that so intricate to be conquered

A Day With Practical Sport

I love my body
I like when I have most of control in my body
I have learned from my experience
That God has given us a body that very smart and responsive
When something dangerous coming inside
It will reject
When it needs rest immediately
It will alert
When we don’t take care ourselves
It will protest
When we keep ignoring and pushing too hard
It will shut down
Sometimes we don't understand why our body doesn't cooperate
But don't think that it is a made up lie

I don't want to do exercise just because
I want to impress everyone
That I have perfect body
That I am more powerful
I don't need big muscle to show
I only need a strength to carry my groceries
I don't need to break the record of speed
I only need to efficiently use my time
I don't need vigorous stamina
I only need to not tire easily when working everyday
I don't need a gymnastic level
I only need to be able to move my body without pain
I don't need a body of supermodel
I only need a body that makes me comfortable and happy

I will never force someone to do any kind of sport
Just because I can do it
Just because I am doing those routine also
Because everybody is different
And has its own preference
Sometimes I'm too lazy to do any kind of practice
I love when practice gives me time to think
I love when practice makes me aware to move my body correctly
I even love when practice pushes my body to its limit
And I shouldn't care if I'm bathed with sweat
But it doesn't have to be done all day
Our body needs its own time to repair itself and fill again its energy
Not to be torturing with our neglect that we think we are undefeated
You will find the hard way that your body could break your plan easily

A Family Creek

A family matter is like a creek
It looks clean and neat
But once it shaken, you can't see the depth

Maria Sudibyo
A Fan Letter Scrap

I want to meet you
I want to prove you are as gorgeous as I imagine
I need more to see your face
I need more to see your smile
Your laugh, your voice, your silliness
I should hold my breath
Every times your new picture popping in my board
Hoping my Internet signal doesn't mess up with me
And giving it straight to my eyes
Because it's the only way I can see you
Because it's the way I'm relieved that you are alright
In every time you take a long break
Please don't disappear
Please don't break my heart again
Even though I could never ever reach you
Even though I'm just among your unknown admirers
I will support you
I will always wait for your works
Because you deserve all the praises
You deserve to be recognized as a talented person
And you are my strength
To overcome darkness and shadow
You are my sun

Maria Sudibyo
A Flickering Hope

Though devil comes to mock
So thin so thin your chance now
Grit your teeth and attack

Maria Sudibyo
A Good Ending

I don't like when something good is end
But I'm more unsatisfied
When something doesn't have a proper end

Maria Sudibyo
A Happy Me And Less Know Me

It would be a happy and less know me
If I’m not too suspicious to look
I’ll live a safe and calm life
If I stop before the moment of truth
I’ll cry less and not should worry
If I don’t find the cracking side of this dream
Maybe I should close my eyes and turn away
And I will stay in my comfortable way
Still don’t understand about the riddle of your words
Still imagine everything’s all fine
I’m sure, it would be a happy me
But will it be a better me?

Maria Sudibyo
A Kiss Tell

I don’t care
I don’t dare
You’re not mine
But this time
You shouldn’t paint your lips
You shouldn’t find you sleep
You don’t give me a clue
You don’t even move
I just want to stop thinking you
And I get close to your hair
That shiny orange gloss has erased my mind
To forget your millions hate
I can’t escape
Take as mine
So stop the game
You know the end
You still witch queen
That cannot win

Maria Sudibyo
A Little Pocket

Do you need a little pocket of your own?
Of your dream
Of your secret
Of your thought
Of your plan

Do you make a little pocket of your own?
To grow hope
To protect love
To wander imagination
To carve future

Do you keep a little pocket of your own?
As your haven
As your insurance
As your way
As your faith

Do you have a little pocket of your own?
In your heart
In your memory
In your life
In your body

Do you want a little pocket of your own?
To face challenge
To overcome fear
To cross the border
To erase doubt

Do you clutch a little pocket of your own?
No less important
No less useful
No less interesting
No less meaningful

A Lonely Cloud

I’m eating a lonely cloud
It’s empty and cold
When it has gathered lot
Soon the sky is getting dark

I’m eating a lonely cloud
It’s heavy and hard
When it has already been dark
Soon the day is going to rain

I’m eating a lonely cloud
It’s grey and bitter
When it has already rained
Soon the tear won’t hesitant to flow

Maria Sudibyo
A Long Road To Home

I move my feet and crawl slowly
To think it's one step closer to meet my love
Oh, what a long road to home
If my body can not come back again
Let my soul flies upon there
If my memories vanish by the time
Let your song brings all wanderers to their path
From misty forest, from darkness rain
Shadow and fear will not bother my nightmare
If I can rest in my home once more

Maria Sudibyo
A Long Wind Of Destiny

I stare calmly to the distance sea
Silent and unbothered
The world seems so far away
So small and unimportant
Even though I could see the thunder
Roaring fiercely in front my eyes
And the storm threatening to come
I can't bring myself to care
I don't want to move from this place
This frightening peaceful place
Maybe I'm waiting for something
Strong and shocking enough
To sweep me from this comfort bubble
Or maybe I just long to hear
The wind whispering softly
It's time to wake up from my dream

Maria Sudibyo
A Midsummer Night's Dream

Oh, no!
I made mistake
with a guy whose tender smile
he asked me to the dance floor
and we moved in the line romantic waltz
his blue eyes were closer and closer to me

Oh, no!
what will papa tell to me?
in the front of my lovely fiancee
did Puck prick wrong charm again?
but who can bear his smooth whisper
I let him, I let him

he stole my first kiss
we lost in fairyland
but, baby blue
you won't get my heart
cause I give it to another

Oh, no!
everybody will get mad to me
a girl with irresistible feeling
I should dig a hole and live in
but my man grab me into his tight hold
'you'll give your last kiss for me! ' 

Oh, no!
I don't have a talent to be drama queen
Oh, no!
don't judge me like that
it's just a mistake like
in midsummer night's dream

A Moody Poemhunter

there is a poem with provocative title
maybe it will tickle me
or maybe it is not so bombastic

there is a poem with common words
maybe I'll find treasure
or maybe it's only any other poems

there is a poem with majestic long phrases
maybe I'll be scrutinize row by row
or maybe it tire me to understand what it means

there is a poem with simple and straight point
maybe it will raise my taste
or maybe I'm getting bored

there is a poem with synchronize rhymes
maybe it will make me sing
there is a poem with free movement
maybe it will make me think

there is a poem with famous star
maybe it is really beautiful
or maybe it has smart advertisement

there is a poem in accidental time
maybe it will save my day
or maybe I'm not so lucky

Maria Sudibyo
A Piece Of Me

Open your eyes
And see the entity of lies
But it's just a piece of me

Hear my words
And drown in loneliness
But it's just a part of me

Take a turn
And recognize my face
But it's just a mask of me

Raise the sword
And draw the line
But it's just a layer of me

Break the glass
And cut by the shards
But it's just a fragment of me

Look to the mirror
And find the bright smile
But it's just a shadow of me

Pick the color
And paint your mind
But it's just a bit of me

Play the game
And try to provoke me
But it's just a voice of me

Light the fire
And burnt in madness
But it's just one side of me

Give your best offer
And show your kindness
But it's just one step to me
Maria Sudibyo
A Pile Of Memory

When you decide that
It is too painful for you
You forget me too

Maria Sudibyo
A Place For Me

is there a place for me
in this shrunken world I see
may it be the last
may it be the best
I can swear my words

far, far
I've brought my feet for thousand miles
long, long
I search something even I can't understand

is there someone else
I can care like I love myself
may it never end
though could be it wrong
I would share my soul

far, far
I've brought my feet another thousand miles
long, long
I keep searching something I can't understand

Maria Sudibyo
A Right Man Vs A Good Man

A right man depended on rules he's living
A good man measured with the heart he's giving
So it left for a right man to realize the goodness in himself
And for a good man to find that rules are harmless to him

Maria Sudibyo
A Right Rule, A Good Life

Do the right
Do it right
Follow the rule
Follow the right rule
Burn the candle
And live humble
There is nothing to be damned
If you fight in justice flame

Be good
Be good and clever
Make a choice
Make your own choice
Seek the freedom
Manage your boredom
There's nothing to be shamed
If you do in love's name

Maria Sudibyo
A Simple Question Mark

Day after day I haven’t seen your face
So many things I didn’t know what you’re thinking too
There’s emptiness between us
And I can’t hang it anymore

So baby, let me ask you a simple question mark
Are you still in love with me?
Just answer yes or no
And I don’t mind if you leave me now
Before my heart is more broken
Broken down

Night after night you didn’t call me
Don’t you know I’m so worry about
There’s something wrong with our love
And I can’t hang it anymore

So baby, let you answer a simple question mark
Are you still care about me?
Don’t you lie if you won’t hurt me
Before my heart is more broken
Broken down

Maria Sudibyo
A Slight Fever

I feel uneasy with this feeling
My heart is exposed and it’s not me usually
I could blame it on the hot sun
I could blame it on the rain
But I won’t tell that it’s because of you

I’m caught in the wrong moment
My mask is dropped and it’s not me usually
I could blame it on the dust in my eyes
I could blame it on cold wind
But I won’t tell that it’s because of you

It’s just a slight fever
Makes me curling in the bed
Hardly to wake and weak
But I won’t sleep forever

It’s just a slight fever
Makes me walking in the dream
I should heal soon from this warmth
But I want to sleep for a while

I can’t say that I hate this feeling
But I don’t like it either
Makes me ignore anything else
And only pity my self

I can’t say that it’s your fault
But you should also responsible
You’ll never know my feeling
Unless you deserved for that

The world begins to spin in my eyes
My mind is fevered and it’s not me usually
I could blame it on stabbing words
I could blame it on bad joke
But I won’t tell that it’s because of you

It’s just a slight fever
Makes me aching with this warmth
But I will heal soon
Yeah, just sleep for a while

Maria Sudibyo
A Very Long Yearning

You adore me like sunlight
You give me all of your love
But I don’t have the same feeling
You are my friend

Your eyes tell it brightly
Like I’m the only your life
Everything I’ll do will hurt you
You keep it shut

It doesn’t mean I don’t like it
But it’s not love
It doesn’t mean I can’t fake it
But it’s not right

You stay with me when I’m crying
Hug me and say it’ll be fine
How can I let you despair
Say I don’t care

That you want to be loved
Not only waiting
That you want something more
But I can’t be yours

It doesn’t mean I don’t like it
But it’s not love
It doesn’t mean I can’t fake it
But it’s not right

Maria Sudibyo
A Week Workout

Monday, open your eyes
Tuesday, raise and shine
Wednesday, reach your arms
Thursday, stretch your patience
Friday, release the mind
Saturday, breathing out
Sunday, praise the Lord

Maria Sudibyo
A Week, A Month, A Year

How long is this waiting?  
A week, a month, a year  
I can’t count the days anymore

How long is this yearning?  
A week, a month, a year  
I barely feel the difference

How long is this goodbye?  
A week, a month, a year  
Is the end is forever?

Maria Sudibyo
A Will Stone

A will in the heart is like a common stone
You could replace it any time
And no one will recognize the difference
Because what most important is
There is a will in the heart
Someone can be judged by that
Someone can show his value
But if you do not be careful
The will in the heart could be gone
When collided with great wall
Maybe you will dump it
Maybe you will make a reason
And maybe in the end you will take hatred
That is why you must keep walking
Without losing your will in the heart

Maria Sudibyo
A Winner Doesn’t Walk Over Cloud

Mile stone
Pebble stone
Tricky stone
Stone wall
A winner doesn’t walk from the sky

Rolling stone
Stepping stone
Slipping stone
Grinding stone
A winner doesn’t walk over cloud

Maria Sudibyo
A Word From You

One word
Could make me consumed with guilt
One word
Could light the burden of my heart

So don’t ignore me
Don’t ever hate me
I will do everything
To make you see only me

One word
Could sink me to deepest abyss
One word
Could fly me to heaven

So don’t leave me
Don’t ever disappear from me
It will carve a big hole
If you gone from my eyes

One word
Could clear my suspicion
One word
Could erase it in second

So don’t lie to me
Don’t hide it from me
I will walk in fragile world
When I don’t know which the truth is

One word
Could dropp my guard
One word
Could wake me up

So don’t play with me
Don’t even try to
I will turn a dangerous enemy
Once you decide to deceive me
Maria Sudibyo
A Word Of Sadness

that is a word of sadness
it could never be forgotten once you hear it
though you don't understand what I said
your heart will feel it for you
there's sadness, painful yearning
there's cold snow that never melt
there's eternal silence, sweet and sting
we keep wailing, even after we're gone
and our children children suffer this fate
we will never forget
even we have forgotten
because every breath we take
every pale morning comes from east
we get living
with losing them
that is a whisper
a word of sadness

Maria Sudibyo
Above The Rate

Hold on, my eager mind
Drink up your wine
Suck up your whine
Don't be caught in jealousy
Don't get too greedy
For the world
You could only see
For the memory
That shared glimpse only

Calm down, my racing heart
Wake up tomorrow
Swallow your sorrow
Don't go running wild
Don't fall to the dark
For every smile
You count to miss
For every joy
Seems out of reach

Stay away, my hunger soul
Tame your singing
Keep inside your ring
Don't be too curious
Don't probe someone's business
For the secret
You not meant to know
For the feeling
Too dangerous to grow

Set low, my burning fire
Clear your distance
Take your silence
Don't be tempted by seduction
Don't follow your evil
For the desire
That becomes insatiable
For the madness
Each time creeps deeper
Maria Sudibyo
Accidental Smile

there were two people met
you’re walking in the street
one was an old man
other was a boy
they didn't know each other
they hadn't met before
the old man's eyes almost blind
and the boy forgot wearing his glasses
the old man thought he met his neighbor's son
the boy wore same spotlight jacket
so he smiled to him
the boy thought he met someone knows him
he couldn't see clearly but the old man's lips seen smiled
so he smiled back to him
there were two people met
they're walking in the street
one was an old man
other was a boy
they didn't know each other
they hadn't met before
but they smiled each other

Maria Sudibyo
Ache, Ache, Ache

Stay calm  
Put your mask of indifferent  
Stay in control  
You have gone through the worse

Stand tall  
Throw the pain to the wall  
Spread the smile  
Even to deceive a little longer

Before it consumes you  
And ache, ache, ache  
Before it defeat you  
With ache, ache, ache  
Whisper you to break  
For ache, ache, ache  
Pushing you to the world  
Full ache, ache, ache

Keep moving  
Your body needs the adrenaline  
Keep struggling  
You don't want to end here

Glare angrily  
It's better than being a hopeless  
Act strongly  
Do not let it weakens your will

Because it starts throbbing  
An ache, ache, ache  
Because you don't need pity  
Though ache, ache, ache  
They waiting you to fall  
By ache, ache, ache  
And wish you to slowly die  
In ache, ache, ache

Focus on your duty
Forget other unnecessary mind
Carry your burden
Even you have to endure it forever

Brace the inevitable
Never let anything get you down
Give up is losing
Whatever left for you to own

But it keeps reminding you
Till ache, ache, ache
But it rounds you to the corner
To ache, ache, ache
You don't know where comes
This ache, ache, ache
And how to stop or numb
The ache, ache, ache

Maria Sudibyo
Acid

My tears still can't fill
The growing hole that you left
Corroding my soul

Maria Sudibyo
Acid Coated Sugar

Honesty is like sugar
Sometimes we are sick because it's too sweet
So we purposely search for something sour
To tone down the flavor

Maria Sudibyo
Act: Fire

Girl:
Let it flow
Let it blow
Even though it'd be a heavy snow

Guy:
We will show
We will vow
That nothing could beat us in tow

Girl:
But I could still feel
I could still hurt by wheel
Even though pretend to be strong
Though the word fine is so wrong

Guy:
But I could still hear
I could still catch your scream
Even though I close my ears
Though proclaimed to have no fear

Girl:
Too slow
Too low
Even though there's only sorrow

Guy:
We will plow
We will sow
We are going to grow tomorrow

Guy:
But I could still see
I could still catch your tear
Even though I turn away
Though I maintain the bay

Girl:
But I could still taste
I could still detect your haste
Even though you hide it well
Though the pain agonizing like hell

Girl:
The band of crow
The dance of shadow
It's just the game we know

Guy:
Straight like an arrow
Swing gracefully to bow
We will leave them with a wow

Girl:
But I could still be choked
I could still want you near
Even though farewell be said
Though dreaming is gonna be too late

Guy:
But I could still be lost
I could still need your host
Even though the affection is all lie
Though every hope is going to die

Maria Sudibyo
Act: Friendship

I don't know
How she suddenly becomes
More beautiful
She acts nothing different
She talks nothing special
But her presence becomes
Brighter than any other girls

I don't understand
How she slowly becomes
Important essence
She looks all normal
She gives all usual
But her warmth becomes
The need for the air I breathe

So get it over
Let's make it broken
These innocent lips
These bond of friendships

So dread the worst
Just shoot the words
These awkward staring
These choked telling

I want to be miserable
So I can gladly regret
I want to leave you bad
So you could calmly hate

You should not make me feel this way
We should just take the fun together
I should not hope for something more
But I just ruin it all

I don't know
How he suddenly becomes
More recognizable
He dreams nothing romantic
He does nothing sympathetic
But his voice becomes
Louder than any other boys

I don't know
How he slowly becomes
The joy of the day
He moves all ordinary
He desires all common
But his light becomes
The sun for my eyes to see

So do the destruction
Let's betray openly
These smiling irises
These sincere promises

So face the worst
Just love it falls
These trembling note
These burning tears

I want to drown in loneliness
So I can secretly forget
I want to lose you mad
So you could finally fed up

You should not take my heart away
We should just be comfortable together
I should not hope for something more
But I just ruin it all

Maria Sudibyo
Act: Goodbye

Girl: Goodbye
I always want to say it in front of you
Goodbye
And there would be no more “I love you”
Goodbye
But why though I really meant to
The pain is still haunting my soul

Guy: Goodbye
You don’t know there’s a mystery inside
Goodbye
You are a fool to quickly decide
Goodbye
When you say something you don’t want to
It will affect you most with regret

Girl: Goodbye means leaving
Guy: Goodbye means nothing
Girl: Goodbye means releasing
Guy: Goodbye means waiting

Girl: And will you forget me after
Guy: Or will I love you forever
Girl: And how if I miss you in the lonely night
Guy: I will torture you to see my face

Girl: It’s over!
Guy: Not yet
Girl: Why are you so stubborn?
Guy: Because you make it complicated
Girl: But there’s no future for us
Guy: There’s always a hope

Girl: Goodbye
I will definitely cry
Goodbye
But the tears are not going to show
Goodbye
I don’t ask to be forgiven
Because I’m the one who put this misery

Guy: Goodbye
You can’t beat me with just that
Goodbye
Don’t judge me because I have the power of
Goodbye
Though I let my beloved go
Someday I’ll bring you to my arm again

Girl: Goodbye means separate
Guy: Goodbye means “I’ll be back”
Girl: Goodbye means finishing
Guy: Goodbye means praying

Girl: And will it make you think
Guy: That you are my precious one
Girl: And when I finally disappear
Guy: That’s the time I realize I’m lost

Girl: Just be a good boy!
Guy: Why should I?
Girl: So I can say farewell
Guy: I won’t let it
Girl: You will be hurt by me
Guy: I’ll hurt more if you leave me

Girl: Goodbye
I will act so rude and cold
Goodbye
You deserved so much better
Goodbye
It’s the easier way to be apart from you
Even it’s full of lie, of lie

Guy: Goodbye
How can I live without you?
Goodbye
I don’t care what other’s said
Goodbye
But you are running away from me
Denying your true feeling
Girl: Goodbye means not anymore
Guy: Goodbye means see you later
Girl: Goodbye means sad ending
Guy: Goodbye means new beginning

Girl: And did I say to you to move on?
Guy: Only you I couldn’t go on
Girl: And someway we have another chance
Guy: I promise that you won’t slip from my fingers

Maria Sudibyo
Act: Love

Guy: One, put the mask on
Two, set up the charm
Three, pick the one
I’m searching for a girl
That I could have fun
I don’t intend to fall
Because love is a silly thing
You will act like a fool
And lose control

Girl: One, wear the gown
Two, wave the smile
Three, trap the one
I’m searching for a guy
That I could get fund
I don’t intend to feel
Because love is mischief thing
No matter what your plan
It will destroy all

Guy: I have a pride I should stand for
Girl: Don’t fail and make it crumble
Guy: In front of me I see the danger
Girl: It’s too late escape from fire

Guy: One, say the name
Two, give no damn
Three, start the game
I found a girl
That I can’t understand
I don’t intend to care
But love is anonymous
Though you avoid anything
You stuck with unexpected person

Girl: One, close the frame
Two, blame the lame
Three, spark the flame
I found a guy
That I can’t turn down
I don’t intend to be known
But love is pathetic
I say I don’t want you
You show me I’m liar

Guy: I’m used to be lonely
Girl: But now I can not bear anymore
Guy: The comforting warmth is alluring me
Girl: But do I dare to reach the hand

Guy: One, stop to doubt
Two, hold her tight
Three, catch her heart
I keep a girl
That I can’t leave behind
I don’t intend to give up
And love is crazy wheeler
When you thought it’ll stay
It swings to the other side

Girl: One, face the fear
Two, cross the line
Three, beat his heart
I need a guy
That I could trust in arms
I don’t intend to regret
And love is rebellious bird
Even hope could break you
You still run into that storm

Maybe we should not give a chance

Girl: Some say it is beautiful
Guy: Some say it is madness
Girl and Guy:
But we do listen not
We are suddenly in love

Girl:
And forget our father sentiment
And forget our own predicament
Guy:
And forget the war notion
And forget the true intention

Guy: Some think it is impossible
Girl and Guy:
But we do notice not
We too engulfed in love

Maybe we should let it fly
Maybe we should not question why

Guy: Some find it irresponsible
Girl and Guy:
But we do know not
We are full in love

Girl:
Believe in our dream
Believe in our hope
Guy:
Believe in our vow
Believe in our future

Actor Of Love

Hold on
I have found something I longing for
To fill the hollowness of my heart
But why I'm feeling more of sorrow

Before
I am the one who said: 'Oh, I'll control'
But now I realize you are my world
And it's waiting to break apart

I'm an actor of love
I'm trying to perfect
But I'm just fooling around

I'm an actor of love
I want to be your hero
But I've made myself a clown

I'm an actor of love
I need you by my side
But now you leave me alone

I'm an actor of love
I beg your forgiveness
But you refuse me so cold

Sometimes
We wonder why we should be together
Do we really dream of love forever?
Or we afraid to be alone

I'm an actor of love
I want to protect you
But I always hurt you bad

I'm an actor of love
I want to be your shield
But may turn someone you hate
I'm an actor of love
We kiss in the morning
But in night we have a war

I'm an actor of love
We care for each other
But we only circle round

If this love only makes me crazy
Take the story and just let it be
Tragedy or comedy
Or anything it wants to be

Maria Sudibyo
Adaptation

If faithful, get ready to be compared
If different, get ready to be criticized
It's hard to please everyone

If great, people will search mistake
If failed, people will mock together
It's hard to meet everybody's expectation

If mainstream, they say they get bored
If controversial, they'll warn to stay away
It's hard to open everybody's mind

After The Fire

What is left after the fire burns all
The smoke, the pile of dust
And the blackened ruin
The smoke blown, the dust swept
But the ruin will stand as reminder
And make us stronger

Maria Sudibyo
After The Rain

I try to write a song
But I don't find any word to chant
It's been a long night
And the cold starts to numb my heart

You hold me like shadow
Clouding my mind in silence
And no one there's to help
In the dark I slowly fall

After the rain
What's left remain
For me to care
After the storm
Showed its anger
Will you still stay?

After the rain
Can I see the sun
Tomorrow
After the tears
Of sorrow
Will I grow stronger?

Tell me not to fear thunder
That roars loud shaking the soul
And I will fight it till the end
Though frail hope I've only got

After the rain
Can I stop
This agony pain
After the flood
Will mud restrain
Me to move on

After the rain
Will something be
Finally changed
After the game
Was played
Will we learn to love again?

I want to give you smile
Before it's hidden by another rain
Together we'll stand close
Or is it time for us to say goodbye?

Maria Sudibyo
After The Story

After the story
Could it be the continued story?
After the story
Could it make more money?
After the story
Will everybody stay happy?
After the story
Will it create another series?

Maria Sudibyo
After Wedding

Please break 'tradition'  
Of whining about the cost  
And party madness

Against Current

I like to move against current
I want to play more around
I don’t like to just follow order
I like to place myself against current
I want to challenge how far I could go on
I don’t like to be lead without having any power
I like to be against current
I want to see the faces who passing me by
Even I should turn so far, even I should wait a little more time
I want to be free to do what I want, to follow my heart’s tell
Maybe I’m not always against current
Maybe it’s good and the right one
But I will never know what’s outside the flow
If I only let myself swept by current

Maria Sudibyo
Aging

when already old, what do you think never lost?
human, when already old will know fear and become shy
used to pretend not see, pretend not listen
maybe you yearn your youth, but when realize
the life stops
when already old, the last thing gone is worry
you really know the world so you lose courage
you even don't want to see your hair color
of course, there some who covered by despair and boredom
every minutes and seconds go so slowly
of course, there some who too exhausted and do nothing
even though that, don't think because it's too late
you don't like yourself right now
don't shame to be afraid, just do what you think
if finally you realize you're wrong, you still can fix it, don't give up!
you are so tough, old, and wise to keep strong
you should love that aging
stand by feet, because it is your charm and your biggest weapon

Maria Sudibyo
Air

Should I hold your hand and tell your favorite tale
When I believe that air could say
Should I come to you and you can see with your own eyes
When I believe that air never fail
Could you feel the air? Could you listen the pray I send?
I always care, I always there
Like air

Aku (Parody)

saat tiba waktuku
ku tahu tak seorang kan mengadu
tak kuharap kau
temani sedu sedan ini
aku ini binatang langka
dari kumpulannya tersisa
semua peluru mengincar kulitku
aku ingin merana mengiba
luka dan harus kupendam sendiri
sendiri
tak terbalas pedih peri
dan aku sangatlah mengerti
mungkin tak ada seribu tahun lagi

Atau membuat orang tak kerasan
Sesuatu yang membuat orang berteman

Sesuatu yang menggiurkan
Atau sesuatu yang menakutkan
Sesuatu yang menyelamatkan

Sesuatu yang membenarkanAtau sesuatu yang sungguh mengherankan

Maria Sudibyo
Alive

Live or dead
It is not an easy question to be answered
Days that come to me always leave never ending question
That only time could answer
Maybe
That’s the reason of our being here
The wound in the heart
Will be buried by time
Though not forgotten
And doesn’t make us relief
But that’s what called

Maria Sudibyo
Even though you don't believe in God
Believe that there's some existence who holds this universe together
That connects us no matter where we are
No matter who we are
That could breach every wall that surround and prevent us to get closer
To understand each other
To put aside our judgement and mistrust
That makes us hoping
That makes us keeping it in our heart
Even in our lowest point
Giving us strength to live through the pain
Sharing us power to care for living
That will never leave us alone
Will never leave us broken
Comforting us in each grief we must endure
Allowing us to still capable to love
Beyond every mistake and regret
Beyond every impair and despair

Maria Sudibyo
Alone

Alone
in the dark of sorrow
Why me?
Why it has to be me?
I took the candle
that lead no shine on me
I'm scared
there's nobody
Rain's knocking
on my escape window

Maria Sudibyo
Alone But Not Lonely

Alone but not lonely means
When you realize there is nobody around you
You won't feel something stabbing your heart

Maria Sudibyo
don't tell me which road I should follow  
because I'll turn to the other side  
don't say lot of promises  
because I'll throw all hopes to be not disappointed  
don't explain how you don't want me to suffer  
because I'll never give up  
don't call me a good person  
because I'm only fool who don't want to leave anything  
don't speak about the past  
because this is our love, this is our story

Maria Sudibyo
An Episode Of Your Life

There is one episode in your life
That you gladly kill, destroy, and rip it from your memory
Just to make it forgotten forever
There is one episode in your life
That you wish to come back, reply even sell your soul
Just to feel again the moment
But no matter what you do
It will never be the same
The pain, the shame, the vain
Will be varying every time you remember it
Until it comes to bearable stage
The joy, the excitement, the deep
Will be different every time you remind it
Until it turns into dulling level
And even though you thought it is only scrapping your heart
In the end it is polishing you
To keep going on your long tired journey

Maria Sudibyo
An Old Man With His Hat

There Little Robbie found him in an old yellow album
A blurred picture of a half old man with his hat
Standing in front of the coffin
He smiles shy but wide with his teeth gone making a hole like Little Robbie when
he lose his baby teeth
Little Robbie doesn’t recognize him and he wonder where he is now
Maybe he is one of his grandfathers, one of his great uncles, one of his old families
So he asks to his big sister
But his sister doesn’t recognize him and she wonder who he is
Maybe he is one of his grandfathers, one of his great uncles, one of his old families
So he asks to his mother
But his mother doesn’t recognize him and she wonder how he was there
Maybe he is one of his grandfathers, one of his great uncles, one of his old families
So he asks to his father
But his father doesn’t recognize him and he wonder what he did there
Maybe he is one of his grandfathers, one of his great uncles, one of his old families
So he asks to his uncle
But his uncle doesn’t recognize him and he wonder when the picture taken
Maybe he is one of his grandfathers, one of his great uncles, one of his old families
So he asks hopelessly to his grandfather
His grandfather takes a deep look to that picture and wonders why Little Robbie asks
Little Robbie says, “I want to meet him! I want to know about him! I want to play
with him! ”
Maybe he is one of his grandfathers, one of his great uncles, one of his old families
But his grandfather shakes his head, “No, he is not.”
He is not one of his grandfathers, one of his great uncles, one of his old families
He is just an old man with his hat
“He accompanied your great grandfather when he sick until his death. This
picture is taken in a burial of your great grandfather.”
His grandfather stares at little Robbie
“Now, are you disappointed? ”
He is not one of his grandfathers, one of his great uncles, one of his old families
He is just an old man with his hat
Little Robbie shakes his head, “No, I am not.”
Though he is not one of his grandfathers, one of his great uncles, one of his old families
Though he is just an old man with his hat
“But I still want to meet him, I want to know about him, and I want to play with him!”
And then he could be one of his grandfathers, one of his great uncles, one of his old families

And All That Nice

little children love sweets
what do big children love to like?
growing up doesn't mean
forgetting time full of honey, wine and milk
maybe lots people forgotten
and sentimental trashes dumped
but those moments will always be
in your past
and there's memories to be made
in front
and you'll smile crossing time
with old songs and new

Maria Sudibyo
And Old Man

Old man sitting in the bench
Gray hair living honest
Times dig soul
Ellegantly

Maria Sudibyo
And Suddenly The World Goes Dark

to Simoncelli

The night lost its star
And suddenly the world goes dark
The light turns out to dim
And I barely see the clear sight

The life without you
And suddenly the world goes blind
Where did you go from this way
And what you left behind

The love lost its warmth
And suddenly the world goes cold
Did the wind blow too strong
Or did I forget to take my breath

The face without smile
And suddenly the world goes hard
I could only feel bitterness
And the cry of sorrow screaming inside

Maria Sudibyo
And There Is... A Brick

And there is a brick
A wall that not speak
Silent and still
and doesn't have any will

That is a brick
Some may pray, some may weep
Some kick the brick

That is a brick
Shield not to hurt
Human that lock their minds

But let the brick
takes the wind of change
without regretting
what both sides couldn't send

Maria Sudibyo
And There Is...A Mirror

And there is a mirror
A legend of honesty
Shadow for someone
And never be the light

That is mirror
Sometimes gloomy and icy
Sometimes lives just to see

That is mirror
Sometimes reflects from the wasted
Giving the venom contained truth

But let the mirror
Standing strong without losing freedom
Before the spell is broken
And bursts like shattered glass

Maria Sudibyo
And There Is...An Echo

And there is an echo
A voice without voice
Floats and repeats
The real sound of voice

That is echo
Praised by the mute
Who shouts in the sea of mist
Without someone to know

That is echo
Swing by the name
But it ignores and says
Steals the sound of real voice

But let the echo
Takes the voice and echoes
Before the power is gone
And disappears word by word

Maria Sudibyo
Anger

anger
is explosive thing
handle with care
or better far from it

Maria Sudibyo
Angin Rumput Savana

Di tanah yang luas ini
Aku berjalan tanpa takut ke tepi
Karena itu setiap titik aku melangkah
Adalah titik awal dari semua yang telah aku lakukan
Berpendar
Hingga riak-riaknya menghilang

Maria Sudibyo
Angst

For a sensation
Getting freezing cold water
 Strikes into your heart

Maria Sudibyo
Another Me

You can get my honest smile
You can get my angry bark
But you can’t get more than that

You can take my time
Take as much as you want
But I’ll be still able to dream

You can have my freedom
Have my soul too on your hand
But you can’t force my heart

You can read my mind
You can control my life
But I will never be another me

Maria Sudibyo
Someday
You'll understand the way
I love you today
Mirhind ai sinh!
No words can more I say

Maria Sudibyo
Anxiety

do you love me really
have you thought me recently
do you still care about me
I want to ask that question
but the words swallowed by the dark of night

do I have a right to say
will you answer my call
should I understand you further
I'm always at your side
but your voice becomes strange and distant

can I share my burden
am I doing something wrong
can I feel you again
I want to hug you to squash this anxiety
but doubt trap me in the cage of stone

Maria Sudibyo
Anxiety Of Fear

Though it only takes few seconds
It doesn’t make the burden in my heart
Less its weight
There’s always an unseen wall
That called fear

Fear of rejection
Fear of disappointment
Fear of out of control
Fear of unknown

Maybe it’s enough
Maybe it’s not enough
Maybe it’s should be enough
Maybe it’s never enough

Though I have confidence
Though I have lot experience
It doesn’t make my stomach not ache
Or my feet lighter
There’s always a cold feeling
That called anxiety

Anxiety of acceptance
Anxiety of failure
Anxiety of future
Anxiety of unreasonable

Maybe it’s right
Maybe it’s not right
Maybe it could be right
Maybe it won’t ever be right

Maria Sudibyo
Anxiety Part 2

anxiety
is like a dark cloud hanging in our head
a thickening mist covering our heart
and unconnected rope we hold in our hand

Maria Sudibyo
Aoi No Ue

audacious princess
sits in sunny place
too proud to complaint
about loneliness
but hidden under
her cold mask
that is herself
like clumsy child
who only wants love

Maria Sudibyo
Aozora

I don't mind the rain
As long as I know you still
There behind grey cloud

Maria Sudibyo
Apple Flower Petal

Apple flower petal
Fall on snowy day
Sunshine white and glow
On empty station roof ice pillar melted
Falling down with my tears
This journey didn’t make me sad
It’s because I hate you
I don’t want to see your face
And I don’t want to hear your voice again
But I couldn’t bear that
Because I really hate you

Maria Sudibyo
Approval

If you already decide something
Do not ask for my approval anymore
Because if then I said no
We only hurt each others feeling

Maria Sudibyo
for you in blue
I represent this song
so tomorrow
there is smile in your face
drowned sorrow
sadness feeling
someday those would be power

rain, rain...
wind, wind...
come around!
in that moment
we will be strong

rain, rain...
wind, wind...
come again!
in that day
those can make you strong

Maria Sudibyo

We're both so lonely
That we rip each other's throat
Just to feel the pain

Over self guilty, over other's fault
Over inflicted wound, over inconsiderate spoken
Is there a room for apology?

With stammered words, with well chosen speech
With a bouquet of flower, with make up kisses
With so much question, with deniable secret
Could it come an apology?

Will tears flow or bottle a storm?
Will it amend or become a routine cycle?
Will it be given or bring another reason?
Is it too late for apology?

Finding fact, exploring possibility
Maybe it is difficult
But don't make it complicated

Even called crazy, or against the rule
If we failed
It just another wrong way

Whether money, whether fame

Maria Sudibyo
Art Of Fear

Is it the childhood memories that can be laughed?
Is it the march of darkness that couldn't be travelled?
Is it the pointed weakness that you despise?
Is it the favorite game you know well to play?

Like sudden thunder drums above the head
Like frozen pool that should not be touched
Like poisonous drink that keep being swallowed
Like shadow lurking in the light of dawn

Does it halt your movement?
Does it trap you inside the soul?
Does it bring doubt to your sanity?
Does it raise the beast that long be tamed?

Of power that inducing trauma
Of mystery of irrational phobia
Of danger to the one we love
Of future that keep being unveiled

Are you haunted by constant nightmare?
Are you standing on the tip of knife?
Are you ignoring it like some kind of noise?
Are you struggling to keep on your mask?

It is the tool of terror
It is the secret long forgotten
It is the devil in the throne

Do you accept it as challenge?
Or do you use it against your enemy?

Art of ??*

Displeasure
Disturbance
Dominance
Difference

Watch your mouth
Choose your step

A clash
A temper
An arrogance
An intolerance

Control your emotion
Calculate your movement

Are you ready to snap?
Have you prepared your hardest slap?
Are you ready to explode?
Have you sharpened your sword?

Do you feel it's getting hot here?
Do you feel the air is pressuring?

Are you ready to flare?
Have you practiced your deadliest glare?
Are you ready to bark?
Have you targeted your mark?

Do you feel your bones chilling?
Do you feel the storm is coming?

Let's start your political war
Let's start your cat fight
Let's start this childish brawl
Let's start this rivalry bickering

Don't try to cry
It is no use for sympathy
Don't try to whine
It is disgusting to see

Let's continue your smart argument
Let's continue your hitting row
Let's continue this gruesome insulting
Let's continue this cynical mocking

Don't try to scream
You'll lose your mind
Don't try to run
You'll burn inside

Let's picking your quarrel
Let's opening your squabble
Let's heating this dispute
Let's spreading this scuffle

Why should I be a good girl?
Why should I be a nice guy?

We don't need a fair battle
We only meet a pair of trouble
We don't need an act of gentleman
We only word a horrendous plan

Some says it is intimacy sign
Some says it is common bonding
But it is getting more wild
But it is getting like war

Are you ready to break?
Have your heart became wreck?
Are you ready to crack?
Have your patience gotten lack?

Some sees it as daily scene
Some sees it as nonstop program
But it is getting nonsense
But it is getting tiresome

Are you ready for wrath?
Have you decided to go mad?
Are you ready to play?
Have your sanity still stayed?

When I’m screaming no!

Because this world is never going
As smooth as we hope
The lucky day for you
Maybe the lost for someone

You told me to be strong
But do we really have a choice?
You give me the warmth
But I'm still cold inside
Hey, at least hunger accompanies me

When it is always more for you
Than good to me
Will you remove it
Only because it is not beautiful?

You bind me with mercy
When I seek for freedom
You try to be closer to me
But I'm forever stranger
Hey, at least loneliness accompanies me

Time keeps stretching
Your tired body forward
Even though your soul and mind
Are left behind

You push me so far
When all I need is sleeping
You demand a hope
When my dream's tingling to break
Hey, at least darkness is accompanies me
For life will not stop
Only because some whining
For heart will keep searching
Something that could fulfill

Sun shines pale, the land shades full of pain
Avalea doesn't bloom and fall in this drain

But no one's crying for the dead
The land is still white
Ice and snow are still the same as yesterday
But the wind is stronger in the sorrow

The white is dead
They weep wherever they blow
Forever love, cursed land
Forever goodbye, my lovely land

Should I escape before it conquers
Or should I purify it with all efforts

Against dark water

Maria Sudibyo
Battle Of Nowhere

Look up the sky
Look at the stars
They speak to me
About silent cries

And then the wind
And so the rain
Follow the mean
Foreseen warning

The earth tries still
The birds shake thrill
Listen to the song
Of thousands storm

And then thunder
And so fire
Have a time to reign
Terror of fear

The dice of devil
Count the shadow souls
Play the gamble game
Who first will be foul?

The abyss grins grim
Watching world’s falling
Creatures whining
What worth life gain?

Though the moon goes dim
And cloud within
Remember this thing
Sun in our veins

Though the air is thin
Dawn can’t be seen
I still believe
That light will win
Be A Part Of Me

Be a part of me
I will make you see
If you let me open up your heart
You could smile and free
And shouldn’t be fear
That’s needed to cover with anger

Just trust me
Just feel me
It will be
My pleasure
If I could make you happy
If you could find again the light in the world

Don’t runaway from me
Before I got the chance
To bring you into peace

Though you leave so far
Though you forget how to fly home

Be Loved

Being rejected is like being hit with unseen kick
Making fool mistake razoring confidence
Not being loved by someone we hope
Not being liked by someone we admire
Who wants to love me?
Am I worth enough to be?
Who's gonna miss me?
Tell me that I'm precious to be kept
Who really understand me?
Accept my very flaw
Who's gonna need me?
Even though I pretty much nobody

Being talked behind is like being stabbed in the back
Getting scolded seems the end of the world
Not being recognized by someone we seek
Not being cared by someone we yearn
Could you smell the sea of depression?
I'm struggling not being swept to the ocean
Who will come to comfort me?
And fill the hollowness in my heart
Who wants to look inside me?
Give my doubt a relief assurance
That there is someone out there
Who love me the way I am

Beauty Is A Boring Thing

Beauty is a boring thing
The silly standard to be called beautiful
Thousand typical pretty faces walking in front of me
Looks good but no more than that
The instant road to attract shallow people
It sounds pretty but nothing special to be looked at
From logical to crazy treatment to enhance your beauty
I know it is hard work to follow the fashion
But if you don’t feel happy, what is the point it could be?
Beauty is just a relative thing that certainly adored
But for me beauty is a boring thing

Maria Sudibyo
Beauty Kill

Maybe you can reject the truth
Maybe you are sick with reality
But you will never be able to deny beauty
Whether gladly conscious or fall obliviously
The purity that makes every eyes caught in staring

Even when you receive it
In the most ugly and brutal form

how could it be
story'll start again

because it must end
my dream, my hope
to be with you
because it's useless
you try, you plea
to love me true

Maria Sudibyo
waktu pun berlalu
perlahan berubah
cintamu yang dulu
perlahan kan musnah

itu ku percaya
kau milikku pasti
menjadi sia-sia
ku terus menanti

karena harus berakhir
khayalku, harapku
tuk bersamamu
karena tak ada gunanya
kau coba, kau pinta
tuk cintai aku

kau tak pernah berpisah
cintamu tak berakhir
bagaimana bisa
cerita kan bergulir

karena harus berakhir
khayalku, harapku
tuk bersamamu
karena tak ada gunanya
kau coba, kau pinta
tuk cintai aku

Because Of Love?

Often I try to understand about you
But the more I don’t understand why you do

Sometimes sweet, sometimes jealous
Sometimes close, sometimes ignore

But I also don’t understand myself too
That still on your side though you like that

Sometimes bored, sometimes float
Sometimes questioning
So what makes us together now?

Because of love
Or maybe it is just a pity
Because of care
Or just common understanding
We live with accept each other

Many times I try to erase you from my mind
But the more my heart is empty without

I miss your smile, swallow your bitter
I need your warmth, and fear losing you

Maybe you also ask yourself about me
Am I still worth for your life?

Though I’m a doubt, though I’m imperfect
Though I could hurt
So what makes us still together?

Because of love
Or maybe it is just a pity
Because of care
Or just common understanding
We live with trust each other
Maria Sudibyo
Sering kali ingin kucoba mengerti dirimu
Namun semakin ku tak dapat mengerti kau begitu

Kadang kau mesra, kadang kau cemburu buta
Kadang kau dekat, kadang kau tak peduli

Tapi ku tak dapat mengerti diriku sendiri
Yang tetap di sampingmu walaupun kau begitu

Kadang ku bosan, kadang ku melayang
Kadang ku gundah
Apa yang membuat kita bersama?

Karena cinta
Ataukah mungkin rasa iba
Karena suka
Ataukah sudah terbiasa
Kita hidup dengan saling menerima

Berapa kali pun kucoba menghapus dirimu
Namun semakin kuhampa di dalam hatiku

Kurindu senyummu, kutelan pahitmu
Kuingin hangatmu, kutakut kehilanganmu

Mungkin kau juga pernah bertanya dalam hatimu
Masihkah ku berguna dalam hidupmu

Meski ku peragu, meski ku tak sempurna
Meski ku sakiti
Apa yang membuat kita bertahan?

Karena cinta
Ataukah mungkin rasa iba
Karena suka
Ataukah sudah terbiasa
Kita hidup dengan saling percaya
Become A Star

Become a star
I will become a star
But don’t cry
This is the planet where stars bloom

So don’t forget
To look at the sky
There is a power that can overcome gravity
And keeps your tears from falling
This is the planet where stars bloom

So don’t forget
Don’t forget to look at the sky
Forget the tears that fall
You can overcome gravity as well
This is the planet where stars bloom

Before I Sleep

What thing I should remember before I sleep?
Is it love that driving me like crazy
Or hate that consume me greedy
Is it a reason I should wake up in the morning
Or is it the cause I keep my eyes open
Is it hope that follows me in beautiful dream
Or is it despair responsible for my nightmare
Is it something important not to forget
Or is it something that annoys me so much
What thing I should remember before I close my eyes?
Is it the happy moment that happens on this day
Or embarrassing time I want to turn back again
Is it the list of activities I should accomplish tomorrow
Or a wandering thought of going nowhere
Is it the last thing I will remember in my life
Or I got the chance to change my mind
Nobody knows, oh, nobody will
I only wish that I’m blessed to remember the right one

Maria Sudibyo
Before The Rain

Why do we fight?
It should be our day
Why do we shout in anger and lies?
I just want to make you happy
But now you’re gone
Leave me alone

Why do we hurt?
It’s not what we mean
Why do we always stubborn?
I just need you to care
But now clear sky
Has turn to grey

Before the rain
I’ll catch your train
Before the night shows its face
We’ll meet again

Before the rain
I’ll bring you home
Before the dark starts to swallow
I’ll beg you stay

Why do we argue?
It just simple fair
Why do we break up without a thought?
Just to satisfy our pride
And now you find
We’re such fool clown

Why do we forget?
The promise we share
Why do we avoid each other?
Afraid to admit mistake
And now regret
Begins to ache

Before the rain
Don’t end this game
Before despair changes tomorrow
I know we can

Before the rain
Give me a chance
Before the flood sweep you away
I hold you tight

Why don’t we listen?
The one who crying there
Why we restraint this feeling inside?
Like waiting who first burst and fall
What we avenge
After the storm came

Why do we act?
Like there’s nothing wrong
Why do we keep the question?
We long to hear the answer
How could we stand
In separate way

Before the rain
Disguise the pain
Before the cold freeze our heart
I’ll warm you there

Before the rain
Never stop to land
Before the sun no more to shine
We’ll be together

And then we found
We’re such fool clown

It looks like a ritual
But it's actually a prayer
It looks like a procession

It looks like a sacrifice
But it's actually a redemption
It looks like an old legend

Behind The Scene

Even though I am silent  
It doesn't mean I don't care  
Even though I don't talk it much  
It doesn't mean I forget

Even though I don't cry  
It doesn't mean I am not sad  
Even though I laugh  
It doesn't mean it's easy for me

Even though I stay calm  
It doesn't mean I don't rage inside  
Even though I pretend nothing happens  
It doesn't mean I'm okay

Even though I choose to protect  
It doesn't mean I am not tainted with darkness  
Even though I still continue life  
It doesn't mean I don't respect the dead

Even though I'm fool  
It doesn't mean you could hurt me  
Even though I'm wrong  
It doesn't mean I'm not allowed to change

Even though I'm honest  
It doesn't mean I'm innocent  
Even though I'm kind  
It doesn't mean I'm not able to be cruel

Even though I am paid  
It doesn't mean you could control my life  
Even though I'm an immature person  
It doesn't mean I can't give you a lesson

Even though I don't understand  
It doesn't mean I can't feel  
Even though we are different  
It doesn't mean we can't be together

Behind The Window

Behind the window there’s a room
An untidy bedroom
A closed bathroom
A classy lobby
A busy kitchen
A tense meeting room

Behind the window there’s a life
A messy life
An ordinary life
A perfect life
A hard life
A fraud life

Behind the window there’s a face
A curious face
A lonely face
A smiling face
A tired face
A bored face

Behind the window there’s a story
A funny accident
A sad moment
A happy picture
A meaningless fight
A dull living

Betrayal

Give me hope first
Bring me happiness first
Then you can have something to break me

Sway me further first
Deceive me blindly first
Then you can take me wherever you plan for

Feed me fully first
Treat me faithfully first
Then you can use me anything you desire

Raise me high first
Praise me loud first
Then you can drag me down to the lowest ground

How could you crush me?
If I don't have anything left to be protected
How could you torture me?
If I can't feel the pain anymore
How could you bind me?
If I don't have any freedom to be spared
How could you befall me?
If I already become a pile of dust

Bipolar Syndrome

You told me to fly
But you break the wings
Do you want me to fall
So that you can win

You told me to smile
But you raise the fear
Do you want me to lie
To hide all those tears

You told me to let
But you bring back again
Don't you want me forget
Those desperate games

You told me to change
But you keep calling my name
Don't you want me ruin
The peace I finally gain

You told me be strong
But you dropp me sorrow
Do you want me be drown
Never see tomorrow

You told me be brave
But you seem not to care
Do you want me be flare
So you can not stop to stare

You told me be the best
But you never understand
Do you want me restrain
To do what I desire

You told me to dream
But you crush my hope
Do you want me be bound
By your beautiful lies

Black Hole

Don't have desire at me
Don't you have a touch of me
I'm living in the black shadow
I'm the guy who crushes control
Losing sanity because of love
Don't even dare to look at me
Or I'll eat you like a black hole

She caught me like her slayer
Unchained me like prisoner
And I was fool to be player
She's took my life so my lover
Rolled me like sugar cuber

Don't step closer to me
I'm hungry of love coz I need you
Don't... don't dare to look at me
I'm the guy who lose control
Don't touch me with your innocent soul
Or I'll eat you like a black hole

Maria Sudibyo
Black Horse

We are fools, we are hopeful ones
But we'll find our way even we stumble
We are blind, we are far from brilliant
But we'll move forward though very slow
This feeling is not designed to be controlled
And we just exhaust ourselves try to deny
That we already find from the beginning
This dream is not born to be dead easily

We are stubborn, as hard as rocks
But we are tough in a good way
We are clown, too much cheers hanging around
But we could survive singing in the storm
This feeling has a will to grow alone
And we just imagine that we could repress
The hope that wildly living and knows no fear
Struggling in the darkness to find a place in light

For what we can not replay

Lost is the most painful thing
Even I don't want to live anymore
But human is created to hold that sadness
World without you
Doesn't give any kind to me
Someday and somewhere I'll be alone
In lonely and powerless time
I'll think about you to fill my heart
Maybe the place I'm thinking of you
Is the last purpose of my long journey
Unstained place

hey, we should be a human
don't think in bloody scream
the gate to hell is wider and smooth
you feel the temptation from you throbbing ears
in shadow and sorrow there is a dull of peace
we have no chance to give up
but we won't make it easy
darkness is not so bad to be

Book Is Like A Mirror

Book With No End And No Beginning

We don't know how it started
Then realized we have left a couple chapter behind
When we did it wrong?
Is it a right way now to flip another page forward?
And this strange relation is not bothered by question anymore
We're trapped in the middle of story
We're trying to turn back and roll it again
But we only read the same words over and over
Where is the real truth that hiding somewhere in our heart?
Somewhere between the fight and comeback tears
Is better to close this book and wondering it's just a dream?
So why we don't see it's going to a clear conclusion
Why we can't say good bye to each other
Tired about every way to hurt and hate and forget
Are we missed a few blank page?
Telling the dark secret we both hiding
And the passion with sweet words are just illusion
Because what we own simply a shadow of our loneliness
The story must have an ending
But we don't even have a beginning

Maria Sudibyo
There's a story that like a dessert I love
And I enjoy every page slowly as much as I can
There's story that makes me desperate
And even my day becomes gloomy after I read
There's story that safe to be read anytime
And I don't mind if it's going up or down
There's story that could burn me to the core
And left me with desire to create another story
There's story that easily predict
And I could finish it without much thinking
There's story that has a very good cliffhanger
And I need to rush to the publisher to make it comes fast
There's story that goes like my dream
And I want to repeat over and over until I'm getting bored

Boy, you are a boy
Sun and summer
You can flow like river

Boy you are a dreamer
Crazy and fool
You can be stubborn as stone

Lightening their life and love

Boy, you are a boy
Your journey is far away
And your spirit is the only way

Breakdown

Don’t think
Don’t feel
This dark dream
Is slowly becoming real

I want to run
And literally scream
This anxiety
Is swallowing inside

Do something
Make it quick
The hole is getting bigger
Waiting my inevitable fall

I need distraction
And something to hold on
This soul is shaking bad
And gradually fade

Swept by blowing wind
Only this head and ears
Feel the hot strongly stings
Sting like forever
I can not imagine
That one day, some day
Something that has torn this heart
Will gone and disappeared
I can not imagine that day will come
But night still falls
And morning still raises
I will try to keep walking
Though there's no trace of light seen
I will use my hand to search the way
Away from this dark

Bring World To Death

Bring love to death
When life full of wrath
And heart filled with hate
Cause I will never ever live with that

Bring hope to death
When grief crossed the path
And friends betray the oath
Cause I will never ever forget that

Bring dream to death
When darkness overflows the fate
And world consumed with wrong faith
Cause I will never ever accept that

Bring joy to death
When innocence starts to fade
And bitterness march the parade
Cause I will never ever cry for that

Bring light to death
When night is near to watch
And hands fail to catch
Cause I will never ever fall from that

Bring will to death
When no reason left in aftermath
And the upcoming regret carries the breath
Cause I will never ever beg for that

Bring sincerity to death
When truth never comes to my plate
And kindness is only a cheating gate
Cause I will never ever take that

Maria Sudibyo
Broken Record

Days are passing like the wind
When you try to grasp the memories
You only catch an empty air

You told me it's not your heart that hurts
When there is broken glass shattered
You told me it's not your tears that shed
When I see the shake in your body

I'm tired of waiting nothing
I'm tired of reading signal
If we already know of the future
We don't have to use unnecessary lies

Why do you regret for the moment you never there
Why do you sad for all laugh that you are missed
And the sweet memories just become cruel reminder

I thought that it's gonna be rain
When I see those glassy mesmerizing eyes
I thought there'll come a storm
When all the trees whisper of danger

There is a deep deep abyss under my feet
And I'm going to fall miserably
When the pool of darkness stirred in my mind

Burned

Don't get near me
I'm burned, I'm burned!
My brain is already damaged
By the heat of the fury

Don't get close to me
It'll be burned, it'll be burned!
The fire in me is enough
To burn this pathetic world

Don't get caught by me
You'll get burned, you'll get burned!
The rage in me is dangerously
Destroying you with hurtful words

Don't get crossed with me
All be burned, all be burned!
The things we thought could protect
Is crumbled in seconds

Butterfly In Your Thumb

notes of the scandal
the news for the dumb
you can see it, you can hear it
but nothing to be caught

silence and truth
from the broken shadow
you can feel it
it's not easy to confess

you were hiding for so long
the secret I need to know

you give me roller coaster heart
now you play it again
and you know I don't mind
I need you more than I want

on cold bridge river flows
you write me story
the butterflies cling in the thumbs
like our promise game

say good bye
there's nothing to be scared
water will surround us
till our dream's gone with the rain

Bye, Bye, Blackbird

awal dan akhir cerita
baik atau buruk
manusia telah melewati satu drama
tidak bisa sama dengan yang telah lalu
karena kuat bisa diubah, karena lemah harus berubah
kalau tidak tahu keduanya
tidak bisa menampilkan seorang manusia

Chain Of Words

Living creature lives and bound with many things
Natural certain thing
Current of time
A vessel named body
An ego named heart
Those are chains of all living creature community
But there is one chain that could only be used by human
Words
Once it comes out from the mouth
It couldn't be pulled back again
Couldn't be erased
And without realize the impact
Human keep using that chain
The words is living
Connecting human's life
Binding you
And binding other people

Change The World With Turning The Palm

Change the world with turning the palm
Turning upside
Turning downside
Changing the world is not as hard as you think
Turning outside
Turning inside
Changing the world could be as easy as turning palm
Palm is opened
Palm is closed
Clap! Clap! Clap! The astonishing sound heard
Palm is hailed
Palm is hugged
When all people do it together
Yes, we can make a different

Change the world with turning the palm
Hide away smile
Erase away tears
Changing the world with a slight change of mind
The fate is cast
The fate unknown
Changing the world by turning others opinion
Palm is embracing
Palm is praying
Crack! Crack! Crack! A flicker of hope seen
Palm is waved
Palm is offered
When all people do it sincerely
Yes, we can change the world

Maria Sudibyo
Change! Change!

If everything hardly change
At least this day
I try to change
Facing the world that I ignore
Doing what I left gone
I won't always follow when they say
'No'
And trying to lift
What I really made for

Maria Sudibyo
Changing

To change
Someone only needs to meet someone else
Everything
Lives mingled each other
Connected each other, affecting each other
Even a trifle meeting
Could bring a change in the mind and the body
We could understand the true meaning of happiness
Because we have passed hard memories
Human is connected each other and changing
Human depends on each other
There is no one side relationship in this world

Maria Sudibyo
Charisma Doll

Artificial charisma
Glass eyeballs with no reflection of living
'She' is like a doll
Charisma the soul of the doll
Enchanted many people in second
The powerful persona, that's charisma
Children are not parents' doll
They just want to be loved as they are
Human without personality
Without confidence
Adore someone!
Everybody must have adoration to their selves
Look at me, everybody!
In whatever appearance I have
No one in this world such as me
My voice, face, hands, feet, heart
No one owes it but me

Maria Sudibyo
Check Mate!

every questions you asked
every words you carved
now all will turn to you
now you are the one to decide
your contradiction, your hypocrisy
why you build a sand castle
near stormy sea
when you know it'll be crushed down
and sadly drowned

every plans you made
every promises you glued
now all will chase you to the end
now you're the one to choose
your ambition or your desire
how far would you manipulate
everything you own to cover defect
when you know it'll never work
because I have trapped you first

Children: Fear

The fear of children
Sometimes seems silly, trifle and easy to dismiss by adult
But it actually hides the most important thing
For children to fear it will effect something they hold dear
That sometimes it gives great impact that leaving trace even they grow up

Maria Sudibyo
Choice Of Life

Human have a gift named a choice
Human have an illusion named a choice
There is no other creature that should decide more to live

Human have a hope called a choice
Human have despair called a choice
There is no other creature that trapped often in such continuous and repeat conflict

Some could turn good because one choice
Some could turn bad because one choice
All have the consequence but right or wrong will never be known before

Human have a wish for a choice
Human have regret for a choice
There is no other creature that always goes between happiness and sorrow

When a choice made not all may be satisfied
When a choice made not all may be rescued
But the change will never happened if we stay silent

Human have fate to choose
Human also choose their fate
The interaction of those things will create what people called the choice of life

Your choice of words
Could reveal to us
If you really the best motivator
Or you truly the greatest liar

Your choice of words
Could give us
The hope in darkest hour
Or the last string cut to despair

Your choice of words
Could show to us
How much you store in brain
Or you are just a boring person

Your choice of words
Could make us
Follow you without any question
Or reasoning your sanity

Your choice of words
Could indicate to us
If you can control your emotion
Or how much you affected by situation

Your choice of words
Could tell us
How fluently you express your feeling
Or how you carefully hiding something important

Your choice of words
Could bring to us
A glimpse of your personality
Or a trademark to be remembered

Your choice of words
Could carry us
One single mind attention
Or thousand strayed wild imagination
Christmas Day

How many times you could be born in a lifetime?
It could be once
It could be twice
It could be everyday
When you open your eyes every morning

How many times you could be born in a lifetime?
It could be many years before
It could be right now
It could be several years later
When you finally realize what you living for

How many times you could be born in a lifetime?
It could be your soul
It could be your heart
It could be all parts
When you accept the freedom that offered to you

How many times you could be born in a lifetime?
It could be as many as you want
It could be as long as you hope
It could be as far as you love
When you get a new chance to fix your life

Chronicle Of Wars

There is a war everywhere
There is a war every single corner
There is a war in the back of every door
Sometimes it only leaves scratch
Sometimes it really hurt bad
Sometimes we win but feeling lost
Sometimes we make peace doesn't long last

There is a war for everything
There is a war inside every beating heart
There is a war full of battle cries
Sometimes I only get a scrap
Sometimes I should give it back
Sometimes we have all the reason
Sometimes it just the pride vision

There is a war everyday
There is a war every morning I open my eyes
There is a war raging to explode
Sometimes the argument is only bark
Sometimes the betrayal is so dark
Sometimes it just a burst of flame
Sometimes it is like an endless game

Cinta Beku

Aku takkan berikan hatiku pada dirimu
Aku takkan buka lembaran cinta bersamamu
Karena ku tahu
Hanya pedih yang kan ku rasakan
Karena ku tahu
Bukan cinta tulus yang kau jalin denganku

Aku takkan berpaling meski kau inginkan aku
Aku takkan tersentuh meski kau rayu diriku
Meski senyummumu
Buai ku dan ku terlena
Meski sepiku
Ingin hangatnya perasaan itu

Sudahlah
Jangan paksa lagi diriku
Jadi sudahlah
Pergilah kau dari hidupku

Pernah ku bermimpi kau yang selalu kutunggu
Dan ku terhanyut dalam khayalan semu
Ku tak tahu
Manalah dirimu yang sesungguhnya
Ku tak tahu
Dapatkah ku percaya padamu

Sudahlah
Biarkan semua berlalu
Jadi sudahlah
Bawa jauh cerita itu

Circle Of Hate

We revenge the blow
Harder than we have received
Repeating the pain

Maria Sudibyo
Circle Of Lie

we're sitting in the same room
and see each other
we talk in one language
but I don't hear you
and you don't know what I said

I don't want, it's not fine
but I can't say that
don't leave, and make me weak
but I push you instead

I need you but tell no truth
play circle of lie to run away
make it crown in your head

you speak about your dream
it is like heaven to me
another world I can't reach
cause you can't take me with
don't try to find what I hide

I don't want, you are mine
but you seem to be happy
don't leave and let me fall
but I set you free

let me drown from pond to pond
play circle of lie to stay away
make you blind of my feeling

Closest To Love

I never care of love
And neither want to fall in love
I don’t have courage
And I don’t believe mirage
But when you gone
Something was cracked
Maybe I’m a fool to be deluded
Maybe I’m too stubborn to realize
I have this feeling for you
Closest to love
More than a friend
Not yet a love
But it may grow someday

You always irritating
But never leave me alone
For pity or real feeling
You never tell me for sure
But then you gone
And I always regret it
Maybe it’s not what I’m thinking
Maybe it’s just lonely dream
I have this longing for you
Closest to love
More than some men
But when it becomes love
It will be a sad end

Cloud Of Sadness

Sadness is like cloud
Sometimes it just fleeting thin in the air
Sometimes it surround us with melancholy feeling
Sometimes it united into one giant fluff
Sometimes it changed into imaginary shape
Sometimes the sun could shine through it
Sometimes it becomes so thick and gloomy
And when it is already too heavy
It will tear up rain
Or even strike lightning mercilessly
Making a frightening messy storm
Until it slowly calm down
Or fading out nowhere
But it always keep circling in our heart

Come And Join Me, Lonely People

come and join me, lonely people
this moon is too cold to be seen alone
in midnight, the wind stops
nobody wake on the street and you there lonesome
mind I sit next to you?
come and join me, lonely people
this world's silent and prepares to sleep
in winter, the star sparks
to bring the new eve of snow
care about me lonely?

Come Eat With Me

When you eat, think about a happy thing
Think about a happy moment you’ve been
Don’t think the sad thing
If you don’t want to drink your tears

When you eat, think about a happy thing
Though nobody there accompanies you
Don’t think the bad thing
If you don’t want to choke your feeling

When you eat, think about a happy thing
Taste the delicious food in front of you
Don’t think the hard thing
If you don’t want to weight your heart

When you eat, think about a happy thing
Tell it’s for the power to move another day
Don’t think the apart thing
If you don’t want to waste your life

Maria Sudibyo
Come Find Me Guilty

Come find me guilty
Because you love to laugh seeing me fall on my knees
Because you feel great in finding my mistake

Come find me guilty
Because you keep your status by avoiding dirt in your hand
Because you'll look smart if you could utter continuous complaint

Come find me guilty
Because you find me walk closer to your personal bubble
Because you insist me to be still in my proper place

Come find me guilty
Because you can't handle something different
Because you always accuse me threatening your peaceful coexistence

Maria Sudibyo
Come To The Dark

Come to the dark
Enjoy the night
The dance is glitter
By the dust of moonlight
Hold your grief
Before you believe
Once you joyfully laugh
Then suddenly realize
You choked by tears that falling

Come to the dark
Let’s see what’s inside
This kind of life
Doesn’t need anymore lies
Accept the meaning
Without too much asking
Go and continue living
With premonition dream
Before the could be farewell morning

Come to the dark
Don’t halt for fright
That it could hurt your heart
But could also break this cloud
The rain may tell its might
But you know it’ll be the start
This giant play was blinded by bright
The gate of truth is opened wide
But you never now what will be right

Paint then smear it
Fold then tear it
Love then break it
Nurse then neglect it
Cure then poison it
Save then spill it
Give then steal it
Sharpen then fade it

Don’t make it half-heart
Get finish what's clouded
And after that
What would left in me?

Maria Sudibyo
Commemoration

I don't feel lost of hope
Because I don't feel any hope
I'm not afraid of death
The only thought is you I should leave
Wishing you far away from sadness
Wishing you're not be haunted by nightmare again
I will go without waiting the dawn
If you fell, remember
You are mine
You are mine
May the light of hope be with you
If you face the gamble
Don't cry and keep your running
And all sorrow and pain must be gone
That is the future you can't avoid

It is always because another "love";

Maria Sudibyo
Complaint

Why should I get those words in my ears?
Why do you choose me to flow them unexpectedly?
And I was damned to always listen and smile
It was not my first place to be there and treat you
I don’t want to dance above your money too
It’s just a responsibility and I’m swept by hope
That I will help you and not hurt anybody
But why, why do I listen those words
And it keeps replying over and over
Asking me to question myself
I accepted the pain, but why, why
It still hurts inside and makes me despair

Maria Sudibyo
Complaint Corner

The person who never complaint is
The one that very patient
The one that always satisfied
The one that feels happy at the moment
The one that doesn't have a will
The one that already give up the hope
The one that everyday must face a suffering thus he doesn't find the benefit to keep complaining

Maria Sudibyo
Confession

Answer me, answer me
And wash this anxiety
I’m standing on the edge of shore
And wanting to be pulled over

Look at me, look at me
Just a single glance would relieve
Before I barely see anything
In the night that is so dark

Come to me, come to me
And be the only one for me
It is the selfish thing I ever wish
But I can’t stop longing for

Consider me, consider me
Don’t reject me so easily
I’ll make you be able to recognize me
Even from the distant ocean

Maria Sudibyo
Country Alone

There is dreaming land and happy country
Cursed and blessed by her beauty alone
The lost children of the country
Foreign in sweet home alone
Do not understand country
Hardly meaning own name alone
Some praise the country
Some leave and laugh alone
Emptying nectar of country
Satisfying their belly alone
Forget about future seed country
Fight living and growing alone
So tragic for the country
Eaten by her child alone

Maria Sudibyo
Country Is Like A Body

When one part sick
All parts look unhealthy
When one part missing
All parts get the impact

When one part is weak
Do other parts only blame and not help to fix it?
When one part is failed
Do other parts only let it fall and not support it?

Even it is often forgotten
It doesn't mean it is not important
Even it is always underestimated
It doesn't mean it could completely be ignored

One part may be incapable
But it doesn't mean all parts can do nothing
One part may be invalid
But it doesn't mean all parts should also give up the spirit

In some incredible moment they are working together
In some unseen place they don't stop to struggle
It may be hard but always raises up the hope
It may be small change but always look forward

sungguh enak di negeri sendiri
tidur nyenyak di mana saja
asal pandai cari situasi
biar kata orang rusuh
yang penting hidup dan bahagia
diinjak orang sudah biasa
ketimpuk batu selamat juga
hari ini kita berjaya
esok serahkan pada-Nya

Because you keep breathing
I will keep calling
Because only you who could answer
I will not take away my faith
Because you still alive
I will not start to grieve
Because I don't want you see me like that
I will keep holding on
But God always knows better

Curse Upon You

Curse upon you
And embrace your fate
It runs in your blood
It traces in your skin
The poison of love
The venom of desire

Curse upon you
And bless over the other
It makes you commit a sin
It makes you full of envy
For the glow in their eyes
For the warmth of the sun

Curse upon you
And you despise your own existence
You rather die than to hurt
You rather gone than to destroy
The thing you hold dear
The precious you don't want to lose

Curse upon you
And darkness following
It raises the deepest fear
It brings the painful sorrow
Of forever loneliness
Of unrequited dream

Dalam Rindu

Bersamamu
Lalui hari-hari itu
Arungi lautan waktu
Dalam lagu

Dan cintaku
Sepertinya takkan layu
Bila kau tetap di hatiku
Dalam rindu

Kasihku
Kuingin sedikit kau tahu
Betapa berharga dirimu
Dalam hidupku

Tapiku
Tak ingin selalu menunggu
Gelisah dan tak menentu
Dalam ragu

Bersamamu
Meski kadang terasa pilu
Bagai tertusuk sembilu
Jiwaku sendu

Dan cintaku
Kuatkan raga dan jiwaku
Hadapi hari kelabu
Hujan dan salju

Kasihku
Coba kau dengarkan aku
Jangan terus hindariku
Lihat diriku

Karna ku
Tak ingin selalu terpaku
Hanya diam dan mengadu
Dalam kalbu
Akankah
Kau hapus semua gundah
Bagaikan sebuah anugerah
Ataukah itu hanya kata-kata indah

Kasihku
Kuingin sedikit kau tahu
Betapa berharga dirimu
Dalam hidupku

Tapiku
Tak ingin selalu menunggu
Gelisah dan tak menentu
Dalam ragu

Bersamamu
Lalui hari-hari itu
Dan kau tetap di hatiku
Dalam rindu

Crying
Not crying
Do you think my heart is made from iron?
Do you think man looks strong outside
Will always be strong?
Can’t be hurt?
But truth, I’m not more than ashamed coward
Whoever...understand
I want crying too
Even strong
But please understand, that I’m a woman
Sometimes I want to weep
Be cared and respected
Whoever...understand me
I’m not strong as you see
Want to be understood
But when it happened, I can’t bear it
Don’t want seen weak
There is no super power human
Or very weak person
But many people don’t realize
And labeling as they like
There is no unharmed human
But for they have a hope
And stand against wind of life
There is no other way than fighting
Even life is hard
Even it’s painful
Even those people don’t understand
Let’s we face it!
And cross!

Maria Sudibyo
Dandelion Dream

I try to build my dream with foam
Raising a white castle in the water
I try to wash away my fears and scars
But even though I scrub them as hard as I can
The shadow still lingers

So I try to hide
I deeply curl under the blanket
Let the warmth protect me inside
When I surrender to the night

I close my eyes
Listening to the darkness
I look into my heart
Searching for a piece of light

Everything is calm now
Everything will be better tomorrow
Everything is possible now
Everything will find the meaning in time

I try to conquer the mountain
I want to find the eternal fountain
I want to push away the past
But even though I grow as strong as I want
I couldn't forget the horror

So I try to run
I try to reach the sky
But I stumble to the ground
And the grass accepts my fall

I take a breath
The wind felt fresh and clear
I catch a break
Nobody will miss my sorrow

Everything is beautiful here
Everything is fine for the first time
Everything is peaceful here
Everything will come to their place someday

Dare To Hope

I will try to believe
With the voice you give
Like a thirst man on eaves
Gets water rains to live

I will try to believe
That the sun will never leave
Through the dark time of eve
The light shines from rift

I will dare to hope
And challenge to cope
Until one day it will
Be the love that win

When the wound already healed
Will you march to say goodbye?
When tears flow easily
Will you call beauty is a kind of lie?

I will survive, won’t be defeated
I won’t lose you this time
I will survive, won’t be defeated
I’ll bring you home with me

If there’s another tomorrow, there will be the gate to future
If there’s still the road in the world, my dream will walk to last home
If there’s always life survives the winter, my hope will live within them

I will survive, won’t be defeated
This is what I’m fighting for

Release your sadness slow

please forget me
erase your memory
please release me
before I'm not anymore me
please don't follow me
leave and don't look at me
please runaway from me
before I catch you unwillingly

the last person to be harmed
you hold my life
you hold my soul
please hate me
before I love you deeply

Darkness, And Everything That Make You Weep

I runaway from the storm
I'm afraid of the dark
I'm hiding in the hole
Help!
Can you see the light

Can you help me escape from the rain?
I'm a human with no bravery
Can you give me a hope
like silver star in the night?
I'm too afraid to sleep
I'm drowning in my tears
Can you save me from killing myself?
I don't want to be lonely
I don't want to be nobody
Can you hear the sound of thunder?
Can you hear my voice?

Dear, Forgiveness

It's hurt the fight that happened
But it's more painful the words we don't say to another
Dear, forgiveness
Is it still a long time to meet you once more?
Can we not come back together?
Or could I see you before everything is over?
Dear, forgiveness
Is it hard to understand and give a chance?
Could I pull you out from the dark world of hate?
Or are you still blind with your own twisted mind?

Don't pity yourself
Don't plea with your wailing voices
Dear, forgiveness
Does my heart already turn into stone?
I will not look, I will not be moved
Since I know the tear is just a show from you
Dear, forgiveness
I will not comfort, I will turn my back
I don't give a damn anymore
Because I find this ugly gaping wound is stretched further

I will give you all flower, shower you with undivided attention
I'll follow what you want, pay how much the price
Dear, forgiveness
Should I right away tell you that I'm sorry?
Should I raise the mood with something unrelated?
Or will it be better if I stay away and wait the storm gone?
Dear, forgiveness
Is there something unknown be done wrong?
Should I lose myself to bitterness?
Or must I endure this childish game of pride?

The doubt, the anger, then remark
The shout, the cry then make up
Dear, forgiveness
Can you see that it is the same old story?
How long the peace will last till another war is started?
Have you not been tired of all of these things?
Dear, forgiveness
Does it still have any use?
Is there something that will be changed?
Or will we round about roundabout?

It is choked in my throat
It curses my foolish and careless mistake
Dear, forgiveness
Do I still have a right to call you my friend?
Have you already stopped believe in me?
I almost could not stand the guilt that consumed me
Dear, forgiveness
Could you take this heavy weight?
Could we mend this broken ship?
How I yearn to hear the redemption if only you open your eyes

It is too late to take back the lie
Why now should you kneel and beg?
Dear, forgiveness
What are you trying to gain with this apology?
Is there anything left other than the blame?
What about this grief and betrayal I feel?
Dear, forgiveness
Do you really have any sense of regret?
Can you admit the fault and mean it well?
Or do you just forget it tomorrow?

And drink me your sweet poison

Call my name, close my wound
And pierce me thousand more
Call someone, false the mourn
And leave my body in rain storm

Call my name, halt the breath
And whisper me the untold break
Call someone, queen kills clown
And scatter my soul in siren song

Devil In The Eyes

eager to find something new
eager to be respected and rewarded
eager to get result faster than anyone else
it's why, insist that they are the right one
when the devil comes into their eyes
everything that wants to be seen and got
will looks like real
when effects to human
darkness from knowledge
settled without being known by anyone
darkness will always be there
but, it will be good if you can survive
not dragged into it

from QED

Maria Sudibyo
Diablo Tango

Use the time when you could be greedy
Enjoy the moment when you allowed to be selfish
Because there is a time when you're not given a choice
Because there is a moment when your feeling has been decided first
So make this little freedom worth
So reveal your true self for a while
Before all desire should be damped for reality
Before your dream is sold to bring another star to born

Maria Sudibyo
Disappointment

Disappointment
Is like layer of dust
Which covers the glow
Of a willing heart

Diversity In Unity

Even in the same uniform
Even in the practice movement
Even in the controlled voice
You could still be different
If you really want to

Even in the same environment
Even in the strict condition
Even in the common problem
Your choice could be different
If you really wish for

Even with the same ingredients
Even with the taught method
Even with the great imitation
The result could be different
Though you really don't mean to

Even with the same treatment
Even with the flawless program
Even with professional management
The success could be different
Though you really work hard

Even in the same interest
Even with undivided attention
Even called perfect match
The feeling could be different
In the heart of people

Even have plentiful chance
Even have long experience
Even blessed with many talents
The fate could be different
In the journey of human

Do You Really Want To Be The One And Only?

Do you really want to be the one and only?
If you are the only
Are you ready to be lonely?
If you are the one
Are you ready to be the centre of attention?

Do you really want to be the one and only?
If you are the only
Will you think only about surviving?
If you are the one
Will you be burdened by destiny?

Do you really want to be the one and only?
When you are the only
Because you are the one who left
When you are the one
Because you are the only hope

Do you really want to be the one and only?
If you are the only
Will you be hard to believe anything?
If you are the one
Will you try to always be perfect?

Do you really want to be the one and only?
If you are the only
Will you turn cold and bitter?
If you are the one
Will you go distant and untouchable?

Do you really want to be the one and only?
When you are the only
It demands you a life
When you are the one
It comes out responsibility

Do you really want to be the one and only?
If you are the only
Do you act out of revenge?
If you are the one
Are you moved by ambition?

Do you really want to be the one and only?
If you are the only
Will somebody really care about you?
If you are the one
Will somebody ever understand you?

Do you really want to be the one and only?
When you are the only
Don't be afraid to be gone
When you are the one
Don't be scared to fall

Maria Sudibyo
Do You Want To Be Disturbed?

Do you want to be disturbed?
By your family
By your friend
By your relation
By unknown people

Do you want to be disturbed?
With their problem
With their need
With their worry
With their temptation

Do you want to be disturbed?
In inconvenient place
In unexpected moment
In weary condition
In mixed emotion

Do you want to be disturbed?
And will you be glad
And will you grumble
And will you ignore
And will you be generous

Do you want to be disturbed?
And still give your ears
And still give your hands
And still give your smile
And still give your hour

Maria Sudibyo
Doll House

The game has been played
The fun has been spent
But future can't be delayed
Now we should pay the rent

I want you to live without me
I want you to forget about me
Because I'm no longer lingering there
Because I'm not anywhere near

Hide me to cover with dust
Place me to befriend with roach
Until it piled in unidentified ruin
Until you can't distinguish the pain

I want you to go out without me
I want you not depend on me
Because I've done my part with that
Because I don't anymore care about what

Just turn your face away
Just notice my sorrow, nay
This lack of emotion starts making me crazy
This burst of jealousy won't let me easily

I want you to laugh without me
I want you to leave me behind
Because I don't need to be fussing of
Because I'm not anybody toll

We could always fall in the same loop
We could always find the routine problem
And it is not going any better
It will repeat over and over

I want you to dream without me
I want you to sing apart of me
Because I believe you will grow up
Because time will make a good divide
Don't make farewell more difficult
Don't twist hope with your words
It's already been complicated
It's already heart wrenched

I want you to wait without me
I want you not wish to come back
Because I'm tired to expect
Because I think I have enough

I couldn't bring myself inside me again
I couldn't stand another disappointment
It is the moment of getting by
Or it is only a lonely breakdown

Maria Sudibyo
Domino

I'm waiting you to answer
You are waiting her to answer
She is waiting him to answer
He is waiting me to answer
What a perfect endless circle
We place our hope on thin air
We pile our dream on fragile ground
One wrong movement and it will destroy the unspoken truce
Will it start to end when somebody makes little mistake?
Will it begin the chain reaction that effects all of us?

Throw the dice
Pick your number
Spin your lot
Wish for your luck

I'm longing you to come
You are longing her to come
She is longing him to come
He is longing me to come
We give our hearts in someone's mercy
We mount our faith in unrequited peak
What an amazing repeated cycle
Fear and insecurity haunt the peaceful pattern
Will it be the end if everybody has been fallen apart?
Or will a miracle happen for any of us?

Maybe we like to play with tragedy
Maybe we enjoy this illusive misery
Maybe we afraid to face the truth
Maybe we actually don't want to be free

Maria Sudibyo
Don’t Say Hate Easily

Don’t say hate easily
Because like love we don’t know where it will run
Don’t say hate and give no damn
Because someone will hurt and it’ll become burden
Don’t say hate because a must
Your heart will frozen and lost the way
Don’t say hate because pride
The unseen wall will grow thicker to separate
Don’t say hate in anger
Because you have blinded your own eyes from the truth
Don’t say hate in misunderstanding
Because something precious will disappear before you realize
Don’t say hate to the people that makes your heart boils
But to the act you believe to be wrong
Don’t say hate to something you don’t know
You’ll never learn how stop the hate if you don’t want to understand

Maria Sudibyo
Don’t Try To Live So Wise

Don’t try to make me down
Because I’m just a dreamer
The world will never follow
Any single of illusion
It’s useless, it’s false
It’s what you told

Bird flies to the nest where
They suppose to be but where do I
Find my place to live my dream
In this storm

Won’t you want to laugh
Won’t you want to shout
Won’t you want to speak
Everything that you thought
Won’t you want to hope
Won’t you want to hold
Won’t you wish to get
Everything that you ask

Don’t try to live in fake for
Somebody else’s life
You hide the lie that grows bigger
But you know that
It’s painful, suffocate,
It drown you slow

You fight to fit everybody’s
Perfection but then you forget
The simplest way to be honest
To yourself

Won’t you want be strong
Won’t you raise and meet my eyes
Won’t you want to be the real you
Without fear
Won’t you want to reach
Won’t you want to find the way
Won’t you want to do
What your heart whispers for nights

Don’t try to bring this world
In your tiny window and remember
The glory and gold are
Dust in your eyes, someday
It will dry, it will gone
It left you alone

For what you busy work
Every minute but when you go home
There’s nobody to greet you
Welcome

Won’t you want to be happy
Won’t you want somebody
Won’t you want to rest
In the arms of love
Won’t you want to cry
Won’t you now wonder how
Won’t you feel the wind
Has already blown the answer

Will you keep what is precious for you
Will you need me as much as I do
Will you take my hand
And together again
We will voice it out loud to wide sky

Won’t you want to smile
In every single mile
Won’t you want to sing
Aloud in the crowd
Won’t you want to kiss
Of every honey lips
Won’t you want to pour
Your love in the air

Maria Sudibyo
Don’t Worry  (Matthew 6: 24-34)

Don’t worry about your life
About what will you eat and drink
About your body
About what will you wear
Isn’t it obvious that life is more important than food?
And body is more important than cloth?
Why worry when it doesn’t add an inch in your life span
If you have a time to worry
Use it to relieve one by one of your worry
Remember what is important for you
So you won’t waste your time and lose it
Trust your worry to God
If He dresses up the grass in the field
Fate to be there today and burnt tomorrow
He will also look after you
Even you are failed yesterday and down in sorrow
Don’t worry and say
What will we drink?
What will we eat?
What will we wear?
Don’t worry about tomorrow
It will be a countless end
Because tomorrow has its own worry
A day’s worry is enough for a day

Maria Sudibyo
Don'T Judge A Book (Only) By Its Cover

We can't judge someone being dumb
When they can't afford to buy book
We can't guess someone unable to swim
When there is no pool around their living
We can't think someone doesn't have a sense of music
When they don't have an instrument
We can't tell someone is not talented
When they haven't even tried it before
Maybe if they given a chance
They can beat anyone who has lived forever in those environment

Maria Sudibyo
Don'T Say By Name

I miss you but I won't meet you
even I crave for those hugs and kisses
I'll find another warmth to comfort me

don't say by name
or don't even say a word
because what comes in reality
might be different from expectation

I love you but I'm tired to cry
even I can't live without you and your love
I will hold this pain to remember me

don't say by name
or don't even say a word
because what comes into the air
might crack this tears again

I need you but I keep tumbling
even my head's spinning and my knees weak
the one who cannot said by name will still in the heart

Dream

Dream is something that could change
When we passing time
When we meet someone
It’s not impossible to change
When we have achieved it
When we find something new
If you keep deny that change
That dream will become burden
Because you stuck and lost what you dream
Dream that changed is not something to be ashamed
Not because we don’t fight for it or give up to try
But dream is something to make us happy

Maria Sudibyo
Dream Ghost

heaven and earth locked

Dream Is Curse

Dream
Is like a curse
When it can not be reached
It will always haunt you
Even you stop in the middle

Maria Sudibyo
Dream!

Do not trust the 'god' who grant your wish easily
Dream!
And create your dream by yourself

Maria Sudibyo
Dreaming Reality

What is dream?
What is reality?
Dream is not a beautiful world that left when we wake up
And reality is not a cruel world where we don't exist
You may live in harsh place
But if you think that you are nothing
And whatever you do won't change anything
You are still in your spoiled dream
So stop whining
And start something

Maria Sudibyo
Drifted Apart

It's so sad to say
But we can't fight for feelings
That no longer there

Drunken Wedding

Ring the bell, ring the bell
Don’t forget your diamond ring
Cover the bride, tight the groom
It is spring times calling
Hey, just ring the bell please!
If only love can make you drunk
Then drunk with wine and kisses
No wedding without a bit late of madness
You can sing badly in front your guest
You can dance hot in front your family
And nobody care because they busy with the meal
Hold your hand for the night
Enjoy the flower and perfume
Don’t let your smile freeze
And change my honey lips
Let’s done and over it
Cheers!

Maria Sudibyo
Drying World

The world is dry
My world is getting dry
Dust flows ash flies
Tasted sweet and choked
like face powder
The grain sand's coarse
The stone and the sun
Road's burned by the heat
My tears vapour
Leaving a trace in my eyes
I was so close, I can't hide
Nobody knows
The dark in my heart's shrieking
Another reason to run
No other reason to smile

Maria Sudibyo
Duet

in this song
once again we fight
defense our voices
singing heartbreak song
I chase you
you run from me
I pull you
you fight me back
playing melody on stage
slow and fast
low and high
you sing your chorus
I sing mine
the words are same
but I can hear you
and you can hear me
two different range in one refrain
I trust you
you know me well
we can see in each other eyes
but I won't lose from you
and you won't give up
this is my melody
soft and clear
that is your melody
warm and charmed
we have this song
we love this game
ask me again, challenge me
I only want your voice
sing with mine
for the encore, for the encore!

Maria Sudibyo
Dust

big voice swallows little voices
the dust blanket the earth continuously
fall from the sky and the air pressures
I chase the dawn that keeps running from me
I thought I can forget my anxiety
still I walk on never ending road
passing narrow street unlighted
when find myself in blind labyrinth
I take a hard breath but move again
can it be called...hope?

Maria Sudibyo
Dust In Earth

God creates dust in world
As a warning for us to
Preserve this one earth

Maria Sudibyo
Duty

Thing called duty never means something we like
It’s an order, an excuse, sacrifice or requirement
It never sounds pleasure or fun
It feels formal, distant, cold and a must
Something we must do or there’ll be sanction
Thing called duty always means burden
If we don’t let our heart to play around

Maria Sudibyo
East Is Red

in the night everything is forgiven
in the dream everything is possible
in the dark everything is allowed
in the dawn everything is forgotten

Maria Sudibyo
Easter Sunday

Flower of flame
Bucket of light
Trees of people
Heart of stone
Holy water
Smell of devil

Maria Sudibyo
Easy Come, Easy Go

Life is a golden book
It is not enough just read once
First we cry, laugh, and cry again
Easy to come, easy to go

When the play is over
where is the glory and our dear friend?
When the game is finished
who is the winner and the joker?
Is it more important
than the journey we've taken?

The wheel of fortune keeps running around
whether we are up or fall apart
We never know what laugh
the world can give to us

Maria Sudibyo
Eating

Eating
Is something that very important and gladden
But also very frightening

Maria Sudibyo
Edge

I think it's wrong
but you think it's fun
I see it's fine
but you see it vain
I feel it's gone
but you feel it none
I don't know
who still insane

I find it's fun
but you find it wrong
I say it's vain
but you say it's fine
I hope it's none
but you hope it gone
me or you
who going crazy

Maria Sudibyo
Elements

Wind struck like thousand swords
Stabbing lonely heart, confused mind, empty soul
Leaving carcasses for merciless fire

Fire spreads till finger points
Burning a torch inside my weakened body
My dust covering beloved earth

Earth kindly gives me home
But it won't give a damn when
I swept by enchanted water

Water always rids unnecessary thing
Also stealthy drives me from original purpose
Send me dealing frankly wind

Maria Sudibyo
Emo

Which one is a better perspective?
To face this bright world
With gloomy soul
Or to live in this dark world
With cheery soul

Maria Sudibyo
Empathy

I always wonder why
When you look down into my eyes
My feeling swiftly changed between happiness and sorrow
And tears begin to fall
I’m not you and you are not me
But your pain becomes my pain
When you are sad, I’m the one who foolish cry
When you are wounded, my heart is hurt more
When someone is unkind to you
I want to hit that man hard
Your anger becomes my fire
Your horror becomes my nightmare
I’m not you and you are not me
But why could you wonder?
Your joy is my joy
When you smile, blossoms rain in my heart
When you reach your dream, my soul shines more
When someone finally understand you
I want to hug that man tight
Your laugh becomes my air
Your pleasure becomes my treasure
When you look deep into my eyes
I can feel your emotion as clearly as mirror
Until you breaking this magic wall

Maria Sudibyo
Encounter Of The First Kind

There’s a part of my heart opened
What will come after like
Till that thing can’t be hidden anymore
After liking someone, we will like him more
After that we will more and more like him

Endless Hope In The Last Journey

Let's walk
Finish the light
In the dark we proudly disappear
Gone replacing the old star

Maria Sudibyo
Endless Road

Walk, rest, walk and rest
Rest as much as you want but
You must walk again

Maria Sudibyo
Enough Is (Not) Enough

It seems that war is a fun game to play
It seems that destroyed home and burning road are nice scenery plan
It seems that with killing and be killed we can go to heaven
It seems that anger and shout are cheering emotion
It seems that life is meaningless without power and money
It seems that ego has won this round
It seems that nobody understands how to care the world
It seems that words say promise then just disappear
It seems that dream hardly created because they can not sleep in peace
It seems that time leave us with loud last laugh

Enough is not enough

Now I will make you cry until you can't think with your stubborn head
I will wash and clean your heart from hatred and prejudice
You are a gem soul that too precious to leave before time
Welcome to our great warm family and listen
From dark road or golden cage I'll show you light is everywhere
I will teach you how to smile and say 'thank you'
It doesn't matter about your past but don't run from me
I will repeat a song you want to hear in your sleep
Dream will whisper to you like unchained fireworks
And future is only one step ahead

Maria Sudibyo
Envy

envy is amorphous monster
that has sharp teeth and clinging claws
especially about somebody else's happiness

Maria Sudibyo
Envy Part 2

Being envy is an easier way
But it doesn’t change a thing
They still pretty
And I’m still ugly

Maria Sudibyo
Escape

Here how it goes, you and me
up and down
but may be this time
we'll get it right though the fight
'cause love is something you can shake
when it breaks all are not going in circle
if you feel too much leavin'
i'm not gonna make you stay
but soon you'll find
you can run!
you can hide!
but you can't escape my love
if you go, you should know
it's hard to just forget the past so fast
it was good, it was real
it was bad, but it's real
and that's all you have in the end of matter
you can hide
but you can't escape my love
you can run
but you can't escape my love

from pretty perfect

Maria Sudibyo
Eternal Home

Into the mountain
Into the sea
Does it matter?
If you come and see

Infinite horizon
The silence of trees
And where does your heart lay?
Forever and be

Maria Sudibyo
Eternal Story

Words will never stop
Like spring, like waterfall, like river
They will be voiced, they will be sung
Even though there have been million songs created
There will be thousands more in the future
Even though the lyrics don't change too much
Every time you read line in line
It will give a feeling of something new
They will be whispered, they will be chanted
Even though they are replied over and over
You could find another taste with a little twist
What once forbidden spoken
Will be freely talked in the future
What once lost in culture
Will get the moment to shine
The meaning from the past will be restored again
And another expression will be added in vocabulary
Even though there are a lot of tales
That have been spread around the world
A new story will be written closer to any of us

Maria Sudibyo
Eternal Words

I want to write a poem
Maybe it will be forever on paper
But time makes it fragile
And flame could burn it
Or hands of the world tear it first

I want to carve a pledge
Maybe it will be long lasting on rocks
But water becomes erosive
And mosses cover it
Or hands of the world crush it down

I want to shout a plea
Maybe it will be heard in the sky
But wind blows it away
And stars don’t want to remember
Or voices of the world merciless laugh

I want to keep a word
Maybe it will be safe in the heart
But memories fade it
And emotion doesn’t understand anymore
Or voices of the world coldly taint

I want to say my thought
Try every way to make it eternal
But without someone takes a notice
Still won’t be understood

Maria Sudibyo
Eucharist

Inside I was brought to the wide air
Where storm will not shake me
And sorrow will not bother me

Inside I was swayed in calm water
Where my thirst satisfied
And my soul purified again

Inside I came to bright light
Where time is limitless
And only the truth felt

Maria Sudibyo
Evening Instrument

I love my wife
in summer bed
in grass road
where love's fading

Maria Sudibyo
Everything

I get blue sky in your eyes
I get sea of starlites
I get million of kisses
I get tears in your eyes
I get everything that I want
when I get you
Your kindness likes poison to me
The way I become greedy
I wanna mark you as mine
You're mine
Your smile makes me hate myself
I used you for my pride as human
Your beauty can kill my breath
I lie to you if I don't care
Or someday you'll leave me when I'm not say
Your love that save me to be a man
And I don't need everything, anything
Change you for everything, anything
I don't wanna lose you in everything, anything

Maria Sudibyo
Everything Is Going To Be Like My Plan

Duty must be fulfilled
But everything is going to be like my plan
People could lie to me
But everything is going to be like my plan
Pray may be often
But everything is going to be like my plan
Time flies uncontrolled
But everything is going to be like my plan
Destiny may not be cooperated
But everything is going to be like my plan
Other plan may ruin mine
But everything is going to be like my plan
Body is reaching the limit
But everything is going to be like my plan
The will should be strengthened
But everything is going to be like my plan
The anxiety may be doubled
But everything is going to be like my plan
Critics never disappear
But everything is going to be like my plan
Life is unfair
But everything is going to be like my plan
The way seems lost
But everything is going to be like my plan
Regret is gnawing my sense
But everything is going to be like my plan
The goal still far away
But everything is going to be like my plan
The future end may unseen
But everything is going to be like my plan
Source may not be enough
But everything is going to be like my plan
Things always change
But everything is going to be like my plan
Problem keeps occurring
But everything is going to be like my plan
World would laugh
But everything is going to be like my plan
Failure keeps happening
But everything is going to be like my plan
Memories may not help
But everything is going to be like my plan
Luck may test me
But everything is going to be like my plan
Love may not support me
But everything is going to be like my plan
Weather wants to rebel
But everything is going to be like my plan
The form may be different
But everything is going to be like my plan
Hope could fool me
But everything is going to be like my plan

Evil Paramour

Sparks the danger
Feeding the fire
Starts the hunger
Of evil paramour

Maria Sudibyo
Exception

in any perfect world you tend to create
always leave a hole for the unexpected
called exception
in any perfect world you dream to make
always leave a rift for the unpredictable
called exception
before your perfect world crushed down
in your seamless glass by the crack of unknown
called exception

Maria Sudibyo
Expect The Unexpected

Expect the unexpected
I may give up trying
But not today that’s for sure

Expect the unexpected
I may lose my nerve
But not today that’s for sure

Expect the unexpected
I may cry loud
But not today that’s for sure

Expect the unexpected
I may end this game
But not today that’s for sure

Maria Sudibyo
Experience

Experience
Is like line making in origami
It helps to fold a form of paper

Maria Sudibyo
Experience Part 2

How could you call it experience
If you don’t get every little single benefit
Even from the worst side of it

Maria Sudibyo
Eyes

Even you try hard
You will never have the eyes of somebody else
You could never think exactly like somebody else
Could never decide, act and live exactly like the life of others
Because you are not that person
Even though you change your appearance, mimic the behavior, steal the
opportunity and fool everyone with your knowledge
It is useless effort
But at least you can look with your own eyes
To understand, listen, and learn
To feel a little how the world looked from the eyes of others

Maria Sudibyo
Eyes Before Glasses

eyes before glasses
like thought before word
or heart before hate

eyes before glasses
like trust before truth
or honesty before clarity

eyes before glasses
like hunger before ambition
or love before undercover

Maria Sudibyo
Fact

Fact is a harbor
From where we can start to fly with our imagination
Or float with our experiment
To find something we want
If we feel tired or lost
We can always come back to our base
Where the land is safe and strong

But when it’s also destroyed
We drowned in the sea of uncertainty
Nothing to be hold, nowhere to go
But it doesn’t mean in this wide wide world
There’s not other solid place
Where the land is safe and strong

Maria Sudibyo
Fade

Color’s fade
World’s changing to dull and pale
Once that bright
Now turn to fake
Once that right
Now begin to crack
It washed by time
Slow and sure
Only few left
Keep shining pure and gentle
On the world that seen vague and vain
It’ll keep lightening my hope

Heart’s cold
The body’s trembling out of control
Once that free
Now barely see
Once that happy
Now become so lonely
It eaten by the burden
Pain and sure
Only few left
Keep burning spirit and dream
On the body that looked fragile and weak
It’ll keep warming my will to live

Maria Sudibyo
Failure System

I don't like the words
'It is my fault!'
'It is your fault!'
Because something will still be broken
Something will stay gone
Something will never be back again
like before
And nobody moves or tries to fix it

Maria Sudibyo
Fairy

Somehow we run in the dark forest
No light, no sight, just night
But my heart's still searching for a hope
To fight, for right
And then all's shiny like fairy
In the circle, in the middle
of the forest

Faith

Faith is not a chain
That locks you into dark prison
Faith is a rope you hold
When you on the edge of cliff
Faith is not a blindfold
That prevents you to look outside
Faith is a scarf
That keeps you warm in the night
Never force a faith
Because the true faith will build
Under the shield of resistance
But show how is your faith
And let them decide themselves
To grow the light in their heart

Family Tree

we grow like evergreen tree
father, mother, daughter, and son
I'm only leaf on the branch family
brother, sister
the unseeing fate plants us together
wedding, birth, and funeral
blood tells no doubt
caring but annoying
there are laugh and fight in the same room
misunderstanding then forgiving
love and hate blurred into one
torn but longing for home
there are tears and comfort from the same pain
one can not judge all, one can not separate all
the root will never be destroyed
though the leaves fall or the branches die
it will grow entwined with other trees
making canopy in the wide forest of the world

Fanfiction

It’s the unreal from unreality
But I can’t help it, I need it
To be real, to live somewhere
It’s the deviation plane of imagination
But I can’t stop it, I crave it
To travel, to wonder freely
It’s the popping idea by the love of creation
But I can’t deny, I’m fascinate about it
To get some place, and find its way
It’s the hidden wish of the prolong dream
But I can’t erase it, it’s always on my mind
To be allowed, not cover by shame
It’s another possibility from alternate universe
But I can’t throw it, I want it somehow
To stay bright, and keep on fire

Maria Sudibyo
Farewell To My Thought

Only in the dark
I could finally release my mask
Only in the night
I could lower my guard
Because in the light
My eyes betray me
And my heart caught in the sight
In my solitary window
There’s no use to hide tear
Or try to fake cracks
I close my eyes and wandering
To the untouched side of my feeling
My nightmare, my scar of living
Until the sun arise in the morning
I swallow again those fears
And say farewell to my hidden thought

but it still grows or it dies

but only the illusion
somewhere in time
it grows or it dies

Finish one after another
Everything boring and routine
Release one by one
What worry and bother you
Prepare it patiently
When you really exited to do
Always hold what’s important for you
If you feel helpless and desperate
Be friend with time
Though it so strict and demanding
Play your part well
Even you don’t want to be responsible
Forgiven but not forgotten your regret and guilt
To make your burden bearable
Don’t be ashamed to lower your head
It doesn’t even reduce an inch of yours
Be proud of yourself
Because you have something to fight and achieve

Fissured Doll

Who told you to feel?
Who force you to deal?
This immense sinking
Wish somebody
Ease up the pain
Lift up the rain
But nobody's hearing

You stop to talk
You refuse to walk
Just fragilely holding
The cracked hope
The turmoil doubt
In the brink of swaying
And who'd you call now?

Don't be swept by the flood of people

Your flame, my flame
Who's gonna be burnt first?
Fire inside, fire outside
Who's gonna turn into ashes?

Don't get too close its heat
You could be severely hurt
Don't be too attracted its beauty
You could be eaten alive

Don't stay too near its shadow
You may not come back whole
Don't be trapped its glow
You'll only collect the wound

Your flame, my flame
Who's gonna grill who?
Blast inside, blast outside
Who'll leave trail of smoke in the end?

If you feeling cold and misery
Let it touch and warm you
If you think it is great
Go further and pump your spirit

If you want to extinguish it
Don't try to cool it down half will
If you don't know why battling it
You only get lost in its claw

Your flame, my flame
Spreading fast in your body
Flare inside, flare outside
Dancing wild in my heart

Does anger make you stronger?
In red you run with glistening sweat
Does passion fuel your power?
In high you fight with your bleeding fist
Do you fear this hot flowing tear
Will crush your hope for freedom?
Or do you grit your teeth?
And try hard to keep the light bright

Your flame, my flame
Who's gonna last longer?
Crack inside, crack outside
Leave no piece unscathed

Even though there is no certain punishment
Even though there is no direct proof
Even though there is no blood violation
Even though there is no damage seen

That you are free
To attack fiercely with your words
To abuse cruelly with your words
To spread hate in your words
To raise anger with your words
To declare war with your words
Because someday it will come back and burn you

only your shadowy figure searching for life
I try to reach you with my dim hands

impossible to take care each other
but no matter what happen
how hard the way and barrier we follow

Forbidden Love

What do you call forbidden love?
A love that is banned by society rank
A love that is cursed by blood relation
A love that is tied by legal bond
But still it wore the name of love

What do you say about forbidden love?
A love that is not given a place in the world
A love that doesn’t have future
A love that fated full of misery and judgement
But still you may be burned in love

What do you think about forbidden love?
A love that should not grow
A love that should not be felt
A love that should not ever cross your mind
But still it is a kind of love

What do you fear with forbidden love?
A love that smells dangerous
A love that creates scandal
A love that brings destruction
But still you could fall in love

What do you see with forbidden love?
A love that raises your hidden desire
A love that bears a sinful pleasure
A love that fills your untamed imagination
But still it has a touch of love

Forget Me Not

We never learn to forget
It is a natural thing man can do
Memories will fade and leave a shadow
It don't pick favorite even to the precious one
We always put an effort in remembering
When we try to remember
It is like holding the edge of a cliff
We are afraid to fall
We are afraid to fail
We are afraid that someday
We are not gonna remember this again
But when we try hard to forget
We unconsciously force our brain to remember
So rather than sit down and keeping an old photo book
Don't be hesitant to make a new memory
Maybe it seems like we don't care and already forget
But actually we trigger the memory
In every step we take

Maria Sudibyo
Forget To Not Remember

I forget not to remember
I forget everything is already over
It's slipping in my mind state
Like broken lock gate
Discreetly refuse
To be completely closed

I forget not to remember
I forget you're not mine either
I still search you behind the door
But no love in your eyes anymore
I keep moving to hide my fear
To pretend that I don't linger

I forget not to remember
I forget I promise to be stronger
Instead keep wailing about you
Paint my heart all black and blue
In every memories we had once
I need something new to hold on

But I still don't know who actually you are in the autumn
We could play till the last autumn leaves fall
But I still don't get where you gonna stay in winter

But I doubt whether we will meet again in spring
We could enjoy the first blossom of spring together
But I don't believe that you'll miss me on next summer

Fracture Mechanism

We are crossing the border
We are losing the matter
The meaning of all our arguments
The damage has been started
From the beginning of the small innocent crack
We all already know
We have felt and seen the warning
But still leave it to happen
To let it spreading and decaying
To give the rest to the merciless time
Without even try to protect it
Without even try to cover it
Until it was broken and falling
So maybe one day
When everything is rapidly destroyed
When nothing you do could undo the fate
You cruelly shove to it without any choice
Maybe we finally realize
That there is not always someone
Who will fix it for us later

Dunia ini luas
Bermacam-macam orang hidup dengan memegang cara pikirnya masing-masing
Di tempat yang tidak diketahui
Aku adalah bagian darinya juga
Aku dulu bermaksud menjalankan dunia seorang diri
Aku benar, tapi entah kenapa tak bisa menjalankan apa yang aku inginkan
Aku pernah hidup dalam kerisauan dan ratap tangis
Tapi mungkin karena aku dulu seperti ingin memasangkan dunia yang luas ini ke dalam bingkai yang kecil yaitu aku
Beban di pundakku telah kulepaskan
Sekarang aku akan mencari peranku sendiri

Is it the one you dislike?

Is it the main course?
Is it the side dish?

What do you do first when eating?
Do you eat it in order?
Do you mix it all?
Do you prefer the tasty one?

Fundamental Of Liar Chapter Cxvii: Use

Even I could spell so much difficult words
But if I don’t find one right word to say
What use I know?

Even I have very clear collection of memory
But if I can’t recall it on the right moment
What use I remember?

Even I understand so many problems
But if I don’t agree with the answers
What use I learn?

Even I own lot of facilities
But if I ignore it most of time
What use I care?

Even it could give me so many benefits
But if I don’t get desire of it
What use I follow?

Even I want to work hard and sacrifice my time
If you don’t appreciate my effort
What use I give?

Even I could do miscellaneous thing
But if I don’t have any purpose in my life
What use I struggle?

Even I’m a faithful person
But if I don’t live happily
What use I believe?

Maria Sudibyo
Victim is so easily to be said until it becomes cheap
When you place yourself into that position
You’ll become the one that should be pitied but looks weak
People don’t like to be called victim
But in many cases they claim that they are the victim
Because they don’t want to be blamed
Or to sue fortune to someone for their loss
People don’t like victim
They should sympathize and handle them with care
If they don’t want to be called cold heart
But sometimes they use the victim
To get popularity and gain support for themselves
Or to attack someone that long time becomes their enemy
And the actual victims keep untouchable and helpless

Fundamental Of Liar Chapter Lxxiii: Gender

In the past, man can disguise as a woman and vice versa
Because there are clear descriptions between them

we don't use it
we don't need it
we think nothing will change
we think it always be there
we don't care
we don't see the benefit of it
we pretend not to see it
we think it’s other's responsibility
we don't know how to handle it
we want to let it gone
we disturb by it
we don't want to be disturbed by it
we feel scared

Watch the rebel
Cover the news
Rewrite history

Maria Sudibyo
If you want to stay here, LIVE in peace
If you can’t do that thing, LEAVE in peace
Before I take the gun, say REST in peace

Maybe you care or you just pretend to care
Or you only want to satisfy your curiosity
Or you only want to pity yourself
Or you only want to show up
Or you already know but do nothing
Or you easily forget and swift to another matter

Maria Sudibyo
Fundamental Of Liar Chapter Lxxxiii: Care Part 2

Who should I care?
They are family
They are my friend
They are someone I like
They are someone weaker than me
They are some more unfortunate

What should I care?
Their well being
Their feeling
Their happiness
Their safety
Their opinion

Why should I care?
Because it is nature
Because it is loyalty
Because it is sincerity
Because it is obligation
Because it is pity

How should I care?
By listening to their worry
By trusting their ability
By loving them as they are
By protecting their freedom
By supporting their need

When should I care?
When they are around
When they are down
Every time, every moment
When they call me
When they are beneficial for me

Maria Sudibyo
Fundamental Of Liar Chapter Lxxiv: Take A Side

You can believe it as truth or just a fairy tale
You can accept it as ‘yes’ or else ‘no’
You can call it fair heart or maybe wise mind
You can hear it as compliment or otherwise humiliation
You can see it as good change or some dark future
You can feel it as a relief or sort of emotion manipulation

Maria Sudibyo
Fundamental Of Liar Chapter Lxxxix: Count

Do not try to count the uncountable thing
And do not think that the countable thing is limitless

Maria Sudibyo
Sometimes I lost something
Sometimes I get something
When I lost something
I always search something else
To remove the pain I feel
When I get something
I always think it is something
To fill the thing that lost
But it is useless
Because then I realize
I only try to lie to myself
That a thing can be replaced easily by a thing
And it will be unfair to both of them
Because there’s nothing alike in this world
The memory of loss will teach us how to respect
And the happiness of gifted will teach us how to be grateful
It is something that should always be learned from time to time
And never be forgotten

Maria Sudibyo
Cineraria laughs at me in the dark
There's time when I dreamed
That you'll choose me to be loved
You start a lie that you don't know
I know the lie but I let it happen
Though I have this arm in my shoulder
My heart restlessly cries

Lies love lies
You and I are lying
We lying each other
We lying to ourself
We both repeat the lie to cover the lie
How can we be happy above the lie?

Then you know this love is lie
You're caring me just because you don't want to be hurt
To protect me but you actually protect yourself
Your warmth and tender is true but love me not
You still pretend to love me and keep lying
I keep lying pretend not to see
Your smile always seen sad
Your eyes seem want to apologize
This lie becomes a must to build our love

Lies love lies
We are loving because a lie
This is a perfect love of lie
So I take a lie to free you
I don't need this fake love
Because there's only one truth not lie
That I really love you

Maria Sudibyo

no one finds the call
behind the beauty of liar
secret crossed the fire
touch it clever
smile and lie
and the case is closed

how the truth's always shy to come
hide the spot so you never get caught

smile and lie
close your mark, paint it white
reality needs that lips
taste sugar and vinegar
make it cruel but elegant

no one finds the call
behind the beauty of liar
secret crossed the fire
touch it clever
smile and lie
the way has not forbidden

Do not hurt if you don’t want be hurt
I can’t protect you forever
I’ll be swept by time and slowly disappear
I will blame you my future child
If you destroy the world
Only to fill your greedy wish
You can always blame me
For not making you good and wealthy
But future after you is also
Depends from what you do now

Gettin' Rich With Two Cents

O, I'm a rich guy
Playing mine, wasting time
Don't stop me right now
Coz I'm a rich guy
Dancing in the river
Singing a bad song
This world is my HOME
This sky is my ROOF
I don't need your money
To make me happy
I'm a rich guy with twenty children!

Give Me The Reason To Live

My mind could be filled with doubt
My heart could waver with despair
But my fate still face ahead

My hair may turn to grey
My body may be weakened
But my words would echo through the time

Give me the strength
Because I'm not strong enough
Give me the hope
Because I don't have any

Give me the love
So I feel safe and warm
Give me the light
So I can walk forward

My dream may be tainted with fear
My world may be painted in darkness
But my life still going on

My burden could be weighted my shoulder
My guilt could consume my will
But my faith would find the sun

Give me the strength
Before I run away
Give me the hope
Before I completely disappear

Give me the love
Even if it will be gone
Give me the light
Even if it is the end

Maria Sudibyo
Give Me Your Heart To Break

Give me your heart to break
And your freedom to take
Read my lips and be scared
dropp on your knees and beg

Give me your heart to break
Let's make a big mistake
Give no damn for your sake
Whether it's wrong or insane

Give me your heart to break
Spark your light and fade
I want your world to shake
Forget the dull life to share

Give me your heart to break
Give your reason to the dead
Find all the love is faked
Drown you in the cruelest hate

Give me your heart to break
Put the best fight at stake
Before the mask is cracked
Reveal your dangerous state

Give me your heart to break
For my soul that tainted black
Don't resist facing your fate
So we can end it without regret

Give me your heart to break
Dare yourself to play back
When night is the silence we make
Don't disturb it before we awake

Maria Sudibyo
Give The Love

Give the love before it’s gone
Give all the love before it’s gone, it’s gone
Before it’s gone by fate

Give the sweet love before it’s broken, it’s broken
Before it’s broken by hurt

Give the love before it’s lost
Give the faithful love before it’s lost, it’s lost
Before it’s lost to temptation

Give the love before it’s changed
Give your dreaming love before it’s changed, it’s changed
Before it’s changed by realization

Give the love before it flies
Give an unbinding love before it flies, it flies
Before it flies by love

Give the love before it’s tired
Give the passionate love before it’s tired, it’s tired
Before it’s tired by coldness

Give the love before it is hidden
Give the touch of love before it is hidden, it’s hidden
Before it is hidden by fear
Give the love before it’s forbidden
Give an innocent love before it’s forbidden, it’s forbidden
Before it’s forbidden by rule

Give the love before it’s indifferent
Give the undying love before it’s indifferent, it’s indifferent
Before it’s indifferent by unrequited

Give the love before it’s shattered
Give a strong love before it’s shattered, it’s shattered
Before it’s shattered by despair

Give the love before it’s crazy
Give the unconditional love before it’s crazy, it’s crazy
Before it’s crazy by blindness

Give the love before it plays
Give the pure love before it plays, it plays
Before it plays with lie

Give the love before it’s forgotten
Give the greatest love before it’s forgotten, it’s forgotten
Before it’s forgotten by people

Glass Lover

You thought that you have known all about me
But it is just reflection that I want you to see
Even though you take a look closer than this
I have so many colors to distract you
You say I'm too old to break over small thing
But it's only to hide the hole that gaping in my soul
I will laugh if someone say that my heart is made by glass
But every words you say to me could shatter it into thousand pieces
You say only a fragile who gives up
But once I fall apart I will never come back in whole
Maybe I will leave shards ready to bleed you dry
Or I just remain beautiful and useless in your forgotten shelf

Global War(N) Ming

Do we need a great disaster just to remind us that we live in the mercy of nature?
Do we need a massive death toll just to realize it is useless to fight each other?

Gloomy

I want to hide in night
I want to stay in dark
I could secretly fade out
I could be lost from your sight
I want to escape from light
I'll choose the most narrow side
And the rain should fall hard
Covering my shadow and spark

Glory For The Light!

All human beings are like grass
And all their glory is like wild flowers
The grass withers and the flowers fall
But the word of the Lord remains forever
The Lord said to my Lord
'sit here at my right side
Until I put your enemies under your feet'
This is the message from the one
I wish that this war will be the last war
They will be like angels and cannot die
The children of God
Because they have risen from death
Remain yours
Look!
Sun will grow dark
The moon will no longer shine
The star will fall from heaven
But the light will be among you a little longer
Continue your way while you have the light!
So that the darkness will not come upon you
For the one who walks in the dark
Does not know where he is going
Glory for the light!

Go Ahead

Go breaking the rule
I keep on walking
My boring said road

Go ahead
Go ruining your life
Just leave me behind
To see you suffer

Go ahead
Go drawing the blood
I'll pick your remaining
After you've satisfied

Go ahead
Go drowning in your misery
I'll wake up in morning
Without bothered your nightmare

Go ahead
Go making up reason
I won't buy any lies
Because I trust you neither

Go ahead
Go blaming my presence
I don't need to care
What you think about me

Go ahead
Go sulking in the corner
I take only the good offer
Never interest for other

Go ahead
Go suspecting the illusion
I'll tell you later
Once you a little bit sane
Go ahead
Go burning your heart
But it won't destroy
My smile before storm

Go ahead
Go shooting your weapon
It will not be effective anymore
If I already know your weakness

Go ahead
Go chaining my freedom
But if I really want to go
You have no power to prevent me

Go ahead
Go spreading bitterness
I can't be tainted with your darkness
Because I have enough for myself

God, Give Me A Heart That Never Died

God, give me a heart that never died
Though the shedding tear has been dried
Though the aching wound has been closed
Though the breaking loneliness has been dulled
Though the burning hate has been faded
Though the remaining time has been stopped
Give me a heart that never died
Just enough to care
Just enough to love
Just enough to live

Maria Sudibyo
God's Darling

I don't want to be a saint
I don't want to be an angel
I want to be God's darling

So I could sincerely be happy to see something beautiful happened
Instead of being jealous for what I don't have
So I could share my happiness too
And have a generous heart to bless someone else

Even though I'm nobody
Even though I'm cursed sick
I want to be God's darling

And I will not be alone and feel lonely
Because He will always be there and never leave me
And I should not be afraid of pain or death
Because He will come to comfort and hold me

I don't desire a perfect life
I don't desire power, I don't desire wealth
I just want to be God's darling

He will love and care to me
He won't doubt or give a trial to me
And it is more than enough for me
To not lose hope and be broken

Maybe I'm being ungrateful
Maybe I'm being blind
But I still want to be God's darling

He will call me again softly
Offering hand to escape from darkness
He will be the place when I'm lost
Where I could go home and rest in peace

He has some strange sense of humor

He never cruel
He just giving justice

He never deceiving
He is sided by the truth

He never holds a grudge
He only too much loving

He never failed
He just sometimes hard to understand

He never silent
He is listening

Good And Evil

When I was a toddler I found that
What’s bad is evil, what’s good is good
And I don’t have a power to change that

When I was a teenager I found that
What’s bad is evil, what’s good is also evil
And I want a power to fight them all

Now I’m much older I find that
What’s bad is not purely evil, what’s good is not always innocent
And I don’t use a power to fight but my heart

Maria Sudibyo
Good Book

Good words
Are words that don't need to be dragged
To make them flow and understandable
Good line
Is something that could spark our own imagination
Rather than only be swept by the narration
Good story
Is a story that makes us impatience to wait its continuation
And eager to know more about everything
Good reading
Is the time that we no longer in reality
But absorbed in the world inside the book
Good writer
Is a writer that has a heart of a reader
And willing to give the light in the dark
Good contents
Is a content that filled us with hope and passion
Instead of despair and prejudice
Good time
Is the moment when we doesn't have to work hard to concentrate
And just enjoy the time
Good book
Is book that we want to read it over and over again
Even though the papers already yellow and crumpled

Good Girl

I'll be a good girl
You will not have to worry about me
I will sing a sweet lullaby in your sleep
Even though the nightmare is
Creeping on the back of my mind

Because they always whisper to me

Good girls don't laugh hard
Good girls don't play heart
Good girls don't cry bad
Good girls don't show dark

Good girls don't taste devil
Good girls don't ring the bell
Good girls don't touch the hell
Good girls don't break the shell

I'll be your perfect girl
I will do as your loving little angel
I'll walk the path that you choose me to follow
Even though I want to run
I want to run beyond the sea

Because they always pushing me

Good girls don't make a mess
Good girls always do the best
Good girls don't kick hornet's nest
Good girls always take less rest

Good girls always tell the right
Good girls never need to hide
Good girls always shine and bright
Good girls never want anyone sad

I'll be your sweet girl
So you couldn't find a fault on me
You won't see a flaw from my dead body
Even though oh,
I'm twisted and rotten inside

Because they always preaching me

Good girls always keep promise
Good girls always loved to be kissed
Good girls always glow in breeze
Good girls always easy to be missed

Good girls always create a great ballad
Good girls always leave the jealous mad
Good girls always have a clear path
Good girls always be a strong impact

I'll be your only precious girl
There will be century ahead
Before you could throw me heartlessly
There will be ageless of wait
Before you could accuse me guilty

But they never satisfied and say

Good girls is merely an act
Good girls is only beautiful facade
Good girls save cruelty inside
Good girls could manipulate the fact

Good girls just looked innocence
Good girls never defeated in reason
Good girls secretly use their presence
Good girls always own the last person

Goodnight

Goodnight
It’s time for you to close your eyes
And release your load
You don’t have to try hard to sleep
No, you can’t force your body
Just relax and close your eyes
You may wander, you may remember
About what happen today, yesterday and tomorrow
About what you feel, the utmost joy and the unwanted memories
Just close your eyes and let the time pass by
You have all night long for you
Don’t think about to sleep or try to exhaust yourself
Just close your eyes and don’t hurry yourself to sleep
It will come by itself unknown
And suddenly it will be morning
And you’ll regret not to sleep as much as you want
But for now, once again just close your eyes
Wherever you are, in what bed you are, whoever you are
Goodnight

Graveyard

I drowned in the mud of past
Marsh that pushes me to the bottom slowly
To the life without new breath
Flower and stone, have you buried me well?
Soil and tears, just bring me something
I'm no longer chasing the sun I wait
And the rain long doesn't come
I'm lying in the white mass, green grass
Flower and stone, there is nothing to show
Soil and tears, blackeyes my funeral
Graveyard, graveyard
Give me tender, give me a kiss
Before it's too late, like miss
Graveyard, graveyard
My life's gone like a falling leaf
But at least I lived, for my belief

Great Listening Act Part 2

I don’t want to understand
I don’t want to listen
But I hear it anyway
I don’t want to know
I don’t want to listen
But I hear it anyway
Words are jumping wild
Like a sudden flood

I don’t want to promise
I don’t want to listen
But I hear it anyway
I don’t want to consider
I don’t want to listen
But I hear it anyway
Why can I erase that mud
That covered my heart

I don’t want to think
I don’t want to listen
But I hear it anyway
I don’t want to care
I don’t want to listen
But I hear it anyway
I always fall to the trap you made
And play with my sympathy

Greatest Listening Act

I want to say it straight and blunt
And I don't need to add any reason
Because it sounds like self defense
And only satisfying your hidden accusing

Every time of our meeting
Is like my torturing machine
You always repeat the same thing
I feel my patience is going thin

What if I’m saying “no”
What if I’m just walking away
Do you accept rejection
Or turn you into a revenge

How much longer I could take
How long my smile still intact
And I start to think that I should be paid
For my all greatest listening act

I just want this anger
I don't want to hear your excuses
I want them to be thrown and burnt

The rage is already up to my head
And starts cramping my brain

I don't want to understand

Half Dead

I only living for half of the day
And the rest I'm as good as dead
I could only breathe for half of the day
And the rest I lack of the air
But I must struggle to make up
I must keep walking in this world
Even though I don't know why I should hang on
Pretend that all is shiny and fine

I only honest for half the day
And the rest I hide in the dark
I could only smile for half of the day
And the rest I plaster it with grit
I know I should be grateful
That at least I don't have to wear a mask along the day
Keep concealing my true being
When some people even could not distinguish their selves anymore

I only at ease for half of the day
And the rest I'm bound in the cage
I could only be free for half of the day
And the rest I am a puppet
But every time I couldn't get enough
I don't want to awake in the morning
I don't want to immediately think about daily chores
And not just fly away and escape

I only sing for half of the day
And the rest I swept by the sound
I could only feel safe for half of the day
And the rest I count my blessing
I become indifferent to prevent of getting hurt
But I realize I could not run forever
And afraid to face days ahead
Because I don't want to lose my hope for tomorrow too

He Doesn’t Love Me

He doesn’t love me
And I don’t need a clue or story
That I should give up, I better give up
I mustn’t let this feeling to live

He could slap me through my heart
Word always glued in my mouth
But everything I do is for him
He has a power in me

Tangles severe complication
He always screwing my mind
I can’t get him out of my head
I can not even hate him

He doesn’t love me
He doesn’t even look at me
But I don’t care, do I care?
He is my only reason to breath

He doesn’t love me
And I’m always out of his door
I continue hope, a broken hope
He will open a little for me

He leaves a scar that last forever
I always have a right to forget
But my love is blind, how could you help?
It’s easy to say than to go away

He doesn’t love me
And I don’t want pity or sorry
That he will never love me

Heart Broken

Keeping a broken heart
Is like keeping shards of glass
It can easily scratch your heart
Even though you have been careful not to touch it
So raw, sharp and untended
I know I will be like a fool
But I'm tired to be smarter either
Why I could not act oblivious and follow your game?
I am willing to hear your same old story over and over again
Just to stay close to you
Oh, yes
I could bear this broken heart
I will welcome the pain that bleed my scar

Keeping a broken heart
Is like keeping a broken window open
Night wind easily steals the warmth
Even your tears starts frozen
So cold, numb and suffocating
All you want to do is just curl in the corner
And hide from the rest of the world
Why I keep smiling and telling I'm okay?
Pretend that I'm more than empty shell
So you don't have to give me pity look
Now
I'm watching my world crumbled from distant
And my hope turns into dust

Heaven Or Hell, Please Confirm

In the bus I am staring outside the window
Catching a false glimpse of shadow from the past
I know I should not whine
When something is not like I want
Everyone's laughing
Everyone's hugging
But why I'm the one who caught by sadness
Everyone is here
Everyone is safe and sound
But why I thought that I am left behind
Why I'm feeling empty and tired
When I should be full and blessed
Like walking in the wide desert
There is nothing out there
Other than sea of sands

The world is a place
Where we learn to accept regret
And choose what we willingly let go and ignore
Till it disappear automatically from our life
Everyone's cheering
Everyone's congratulating
But why I'm the one who defeated here
Everyone's well known
Everyone's good and warm
But why the fear starts creeping in my heart
Why nothing could make me happy
When I should be grateful with what I have
Like wishing for the earth to open
And just swallow me right now
With this loneliness

Help!

First you laugh
Then you cry
Still I love you so much!
You too much occupy my heart

You are cold
On mountain top
But I’m always looking for you!
I don’t want anybody else but you

Girls, prepare your land!
Before your heart flies and crushed down
And you don’t have a chance scream for help
HELP!
Because love is malice
It likes to grow without permission

You are red
Jealous strikes
Still my heart beats for you!
You are the most beautiful creature I ever met

You are mad
Saying bad
But I just can’t forget you!
You have mysterious power over me

Boys, watch out your step!
Before your pride swept by the flood
And you don’t have a chance shout for help
HELP!
Because love is vengeance
It will revenge those who play

Hermaphrodite

When human can be judged as a man or woman
And seen as a monster, a sinner, the damned one
Can that human still have a right to live as human being
Or should that human think it’s better to erase the existence?

Maria Sudibyo
Hermaphrodite Part 2

It never said that God only creates male and female
What about the plant?
What about the animal?
If God creates some with two sex in one body
Why can not it be happened to human also?

Maria Sudibyo
Hermaphrodite Part 3

If you call them a sin
Do you stone them and let them die?
If you call them a fault
Do you not see them as still human being?
If you call them a disease
Do you not try to cure or just make them suffer?
If you call them a moral degradation
Do you avoid to talk on the same table?
If you call them an outcast
Do you keep turning your face and pretend they are invisible?

Maria Sudibyo
my lord
every brave man
every sleeping child
wants to be hero
but don't be, my lord
do your duty
fight for your country
but come home to me
and don't be a hero
I can not reach and love

my lord
even tough lady
even faithful wife
doesn't want to be left alone
but not every man can understand, my lord
how often we pray
how often we keep eyes on horizon
so come home for me
you don't have to be hero
I can not reach and love

Hidden Happening

I know from your frozen expression
I know from your sudden glance
I know from your added movement
I know from your little tremor
There will be something more that hidden behind
There is some proof that I can find
And there will be no lie, no lie
Because your body shows your true reaction

I feel from your halted words
I feel from your surround air
I feel from your silent eyes
I feel from your accidental behavior
I feel from your annoyed wrinkle
There will be something I should anticipate
There is some emotion that I must read
And there will be no deny, no deny
Because your body deceits your heart’s thought

Maria Sudibyo
Hide And Seek

Don’t hide from me
I will find it soon
You can’t hide from me
I always know
Don’t try to hide
It’s useless to lock
Even you hide it from me
I still won’t let you go

Hidup Sesaat

Kalau ingin cepat
Nurani akan terhambat
Kalau ingin hebat

Kalau ingin kuat
Jiwa akan terjebak
Kalau ingin berkat

Maria Sudibyo
Hidupkah Kau

Hidupkah kau untuk mengeluh
Dari terbitnya matahari hingga terbenam
Tentang kehidupan yang tak memuaskan
Dirimu yang selalu menginginkan kenyamanan
Ataukah terbersit sekali dalam pikiranmu
Untuk sejenak sedikit bersyukur
Tentang kehidupan yang masih kau punya saat ini
Bersama dengan harta yang mungkin kau tak sadari
Karena kau sibuk mengeluh
Dan lupa untuk menghargai dan menjaga hal itu

Hidupkah kau untuk meminta
Dari buaian bayi hingga ke liang kubur
Agar dirimu diutamakan
Dan tak juga belajar bersabar
Ataukah terbersit sekali dalam keinginanmu
Untuk berusaha sendiri
Lepas dari belas kasihan orang lain
Agar dirimu tak perlu lagi mengiba
Untuk memperoleh apa yang kau inginkan
Karena kau sibuk meminta
Dan lupa memberi dan memperbaiki hal itu

Hidupkah kau untuk mencela
Dari ujung bumi hingga dasar samudera
Menuding orang melakukan kesalahan
Dan mengangkat tinggi dagumu dengan sombong
Ataukah terbersit sekali dalam hatimu
Untuk sebentar saja bercermin
Memandang kembali segala persoalan
Dengan kepala jernih tanpa prasangka
Karena kau sibuk mencela
Dan lupa untuk belajar dan memahami hal itu

Him

If you could peek inside my heart
If you could crack the shell apart
It is him, it is him
Who always have a privilege to reside

If you could swim in my floating mind
If you could hear my desperate whine
It is him, it is him
Who keeps playing fool around

If you ask who always catches my eyes
If you wonder who affects me so much
It is him, it is him
Who strangely has a spotlight wherever he goes

If only I could erase his addictive warmth
If only I'm not too fascinating by his smile
But it is him, it is him
Who keeps growing his reign over my soul

Home Sweet Home

I need a home
A place that I can breathe away
No need too big, no need too small
Home that's not just a house
A place where I can live peacefully
Away from the storm, away from the rain
Home that warm without lighting the fire
A place where I don't feel lonely
The greatest place, the highest place
That could be in my dream
Please God help to find

Maria Sudibyo

Honesty

Hope Is

Floating butterfly
I swat with enormous force
But keep flying back

Maria Sudibyo
Hope Soundness

Little light in the dark night
Calling with soft voice
“Up here! Up here! ”
Like fireplace, like morning dew
With small call shakes warmly
Sound of insect, sound of water
Wherever they are
Will never be ignored again

How Does It Work?

How does a family work?
Is it by team work?
Is it by authority?
Is it by the tie of blood?
That keeping us from falling apart

How does a friendship work?
Is it by trust?
Is it by rivalry?
Is it by the bond of hardship?
That keeping us from breaking promises

How does a love work?
Is it by need?
Is it by devotion?
Is it by the string of fate?
That keeping us from living without each other

How Good Is Good

When things compared, quality talked
When quality even, money mattered
When money unimportant, endurance considered
When endurance limitless, quantity overlooked
When quantity doesn't affect, heart decides
When heart is failed, luck plays

How High Is Your Pride?

How high is your pride?
To sacrifice for your love
How high is your pride?
To make someone see you
How high is your pride?
To pursue someone do something
How high is your pride?
To achieve your own goal

Will you throw everything
And take any risk
Will you erase your shame
And do any silly task
Will you give something precious
And leave you weak
Will you break any rule
And turn everybody into enemy

Will you regret it later?
Because your love is gone
Will you regret it later?
Because happiness only a moment
Will you regret it later?
Because it doesn’t make any different
Will you regret it later?
Because your victory wine tastes bitter

How high is your pride, my dear?

Maria Sudibyo
How Many, How Long

How many time wasted, how many
how many promises you said, to me
how many love I sacrificed, how many
how many scar scratched, my heart
I can't forget, I can't get out
pain feeling, fool longing
vague memory trapped in my heart
but no more love left

How long I've been waiting, how long
how long my heart tormented, your behavior
how long I live in vain, how long
how long my tears flow, like river
now it's over, now it's all done
storm in my soul, chained heart
don't keep me if you don't love me
let our promise becomes dust and ash

How To Be A Great Actor

Hug

I want a hug
I want to feel the warmth of the skin
Sip through into my heart
I want to hug
I want the touch of love
Comfort me from the cold world
Maybe I’m pathetic
Maybe I’m paranoid
Or maybe I’m just lonely

I want a hug
I want to hold the brush of the breath
Fill the emptiness of my hand
I want to be hugged
I want the sting of my pain
Becomes much more bearable in the life
Maybe I’m peculiar
Maybe I’m pervert
Or maybe I’m just honest

Maria Sudibyo
Hujan Dan Air Mata

lihatlah aku sendiri menangis tersedu
mengapa tak kau palingkan saja dari jendela lalu peluk aku
apa hujan yang turun di luar sana lebih pedih dari air matakumu?

Maria Sudibyo
You are not an evil person
But you hurt me a lot unconsciously
You are not someone who could kill with your bare hand
But your words keep breaking my soul

I try to find the light
So I could stand much longer
I try to remember the laugh
So I could hold back the tears

But I'm also just human
I'm not some kind of superhero
Can you feel the darkness that creeping in my heart?
Or are you just too ignorant
For some kind of human

You keep demanding some more
But what can you offer?
Because I'm the one you could use
Should I'm the one who sacrifice my freedom for your own?

I try to swallow the blame
But it choked in my throat
I try to gain the strength
But all smiles will be faking

And I'm just human
The one who could love but also could hate fiercely without any reason
Have you ever heard my crying fear?
Do you ever reach me to the deepest core?
Or are you just too blind
Like some kind of human

So in the end
What will you do to make me stay?
A command from your authority mind
Or a pitiful plea to my ears
So in the end
Who will gonna be win?
A raging desperate man
Or a wounded pride man

Maria Sudibyo
Human Puzzle

human are like puzzle
there's some part filling
and there's some part missing
so they can't help to fulfill each other
some part fit well
some part unconnected
but they never give up to try untill
some part falling
and some part making
they know there is always sacrifice
they know it'll hurt
but they can do nothing if only alone
so in their uncertain path of life
they keep walking
they keep searching
a place where they are perfectly matching
in a giant puzzle
of God's creation

Maria Sudibyo
Human Tide

If you want to face human
You can’t expect that the tide is always smooth and calm
It could be like sea in winter time
Cold, harsh, merciless
But still alluring

Maria Sudibyo
Sometimes it would be a lie if I don’t afraid of human
What they could say that hurt
What they could think that blind
What they could act that down
But what I’m afraid the most is to hate human
No matter how high I keep my spirit
No matter how I try to burn my passion
Right the moment I start to hate human
All will fall

Maria Sudibyo
Hunger (John 6: 1-15)

I'm nobody
I'm just a child without family
I'm nobody
And I'm hungry

So I search for the crowd
To beg for mercy
May they have some food
Other than words of enemy

I'm hungry
And there's a crowd in front of me
They are walking into the same direction
To the mountain, near Tiberias I see

They are following for one man
He sits down and begins to tell a story
Story that I never heard in my life
Where the world is felt more joyful and merry

He doesn't shout or speak loud
But the wind carries His calm voice to every
As speaking to His children in their night bed
His face looks so bright and free

From a far distance
I continue to listen to His story
And slowly
I'm not anymore so hungry

His story starts to fill my heart with warmth
His presence covers my body with safety
And for the first time of my life
I feel more love and energy

And then suddenly
He raises His head and looking around of many
He talks to His friends about something
I hope it'll be soon or I will remember that I'm hungry
He comes again to the top
And blessing the bread and fish He carries
I'm not moved when the food is shared
I know it won't enough for any

I'm nobody
And no one will notice my small body
I keep watching from distance
Even though I'm very hungry

But then somebody comes closer
And drags me into the small circle
I don't know them and they to me
But strangely I don't feel lonely

I don't know when I'll eat again
I don't remember the last time I ate properly
But it doesn't matter anymore
At least now I won't be hungry

The food is keep coming from everywhere
They continually offer it to me
And for the first time of my life
Somebody really smiles to me

That moment I start to realize something
Many cheer and laugh heard in the party
How everybody eats and talks together
They are like in one big of family

Some people said it is miracle
Some other said God is there
I'm not truly understand
But I'm glad that I am here to see

Not because the food I get
But for the strength to live
Not because the vision I find
But for hope I allowed to have

And when the crowd starts to disappear
I still standing there like in trance
Maybe I won't see Him again
But I will keep this faith with me

I'm nobody
I'm just a child without family
I'm nobody
But now I won't be anymore hungry

Maria Sudibyo
Hurricane

They think that you are some average actor
They think that your face is the only good performance
So you better be a hurricane
And show them you are mightier than superman
So you better raise a hurricane
And give them the best that you can
Spin their mouth with your storm

They think you are not fitted in their millions dollar project
They think you are some weak child that could be underestimated
So you better go get your glory
Don't make me have to worry
So you better write your great story
Don't let them beat you with their folly
And you won't have a reason to cry again

They think you just lucky with your sudden success
They readily to throw thousand excuses
So you better be the thing
Than only dream to become something
So you better find your wing
Than only look up to the sky and wish for flying
Even though first you must crawl in the ground

Maria Sudibyo
I Dream The Dream

In happiness and suffering
In joy and struggle
As long as there is a wish
Human will always have a dream

Maria Sudibyo
I Have Purpose

I have purpose
I will face the road ahead
It’s my chance
I don’t have time to worry
I have a purpose
I will not express regret
If I go back now
Everything I do will be useless
I have a purpose
There’s schedule I must complete
My head is clear
I will not stop before I reach

Maria Sudibyo
I Just Want To Go Home

What is your problem?
I’m tired
I’m exhausted
What are you waiting for?
I just want to go home

What makes you hesitant?
I’m cold
I’m hungry
What keep you from moving?
I just want to go home

What are you laughing at?
I’m lost
I’m defeated
What left worth to fight?
I just want to go home

What halt your feet now?
I’m troubled
I’m insecure
Why don't you come with me?
I just want to go home

Why your soul still astray?
I’m longing
I desire
Why are you looking so distant?
I just want to go home

What pull you back again?
I'm sad
I'm broken
What drop you on your knees?
I just want to go home

What are you hiding?
The fear
The weakness
What will you do then?
I just want to go home

What are you throwing to yourself?
My fault
My burden
What are you still denying?
I just want to go home

Maria Sudibyo
I Just Want To Live

I just want to live
I just want to live with the ones I love
I just want to live as I am
I just want to eat the food I like
I just want to do what I desire
I just want to be who I am
I will ask too much if I want to go without trouble
But at least let me survive
I will ask too much if I want to live happily ever after
But at least let me have some laugh
I will ask too much if I want everyone to accept me
But at least let me stay me

Maria Sudibyo
I Like Him Because He Is A Liar

I like him because he is a liar
Over twelve angry men, he is the worst
His words full of thorns never the rose
The dark aura is always swirling around him
But he is so predictable, he is such a bad liar

I like him because he is a liar
His sharp glare makes the others stay away
He barks when someone intrudes his comfort zone
He has a talent to become infamous and cold
But his reaction is so enjoyable, he is such a sweet liar

I like him because he is a liar
He never shows his true feeling, he is the opposite
He just three times dangerous than usual
It never works for me, it’s kind of little sad
He always moves like my plan, he is such a fool liar

Maria Sudibyo
I Love You Then, Now, And Tomorrow

I love you
and you've not only made me love you
I love you
and I love the people you see
I love the world where you live at
I love you
and you've made me love myself
It doesn't stop only in my heart
I love you
the one brings me tears and happiness
things I forgot when I struggled to find
I love you
I'm not unbreakable
but it doesn't stop only in my love
whether this love glowing unseen in the dark
I love you
and I thank you

Maria Sudibyo
I Need A Complimentary

I need a complimentary
Just a smile would be energy
In a hard day of work
It will raise my spirit to hold on

I need a complimentary
Just a ‘thank you’ would be necessary
Though my job is small and looks unimportant
I help you in the place you can not see

I need a complimentary
Just a hug would be insurance
That what I do is worth to fight
Even I should sacrifice myself

I need a complimentary
Just a soft tap would be a relief
I need you to acknowledge me
So I could be a better me

I need a complimentary
Just a cup of tea would be enough
To quench my thirst in longing
And I don’t waste my time in waiting

I need a complimentary
Just a simple comment would be happiness
When at least you remember me
Though you don’t mean it as anything

Maria Sudibyo
I Need A Time To Be Alone

I need a time to be alone
Whether to think or just wandering
Whether to feel calm or enjoying my loneliness

I need sometime to be alone
To escape from boring routine
Or for a space for my solitude

I need a time to be alone
Whether to contemplate or just imagining
Whether to observe or just hanging around

I need sometime to be alone
To stay away from demanding world
Or just to prove that the one who called me is still there

Maria Sudibyo
I Need To Say It By Word

I need to say it by word
Try to get strength and not run away
From what I’ve decided to do
I need to say it by word
To keep it not only as promise
But to where my feet fill the way

Sometimes I want to hang a little more
Sometimes I want to just turn away
Sometimes I want to forget
Sometimes I want to just escape

But it won’t do any good
And I’m actually not going anywhere, right?
Because now that looks forever
Always leaves you with twinge of regret

So listen carefully and watch me out!

I need to say it by word
Maybe I need to have a little faith
And some power to move again
I need to say it by word
And it’ll never be only daydream
Because someday it’ll be real

Sometimes I want to rest a little more
Sometimes I want to just hide
Sometimes I want to stay away
Sometimes I want to erase the day

But it won’t do any good
And nothing could worse than that, right?
Because now that looks forever
Always leaves you with humming of desire

So learn to understand and do what you can!
I Pray, I Pray, I Pray

May my fear not ever be happened
I pray, I pray, I pray
But it is a turmoil if God plans otherwise

I pray, I pray, I pray
May my dream be came true
I pray, I pray, I pray
And it will be only God that I praise

I pray, I pray, I pray
And I hope it will be sufficient
I pray, I pray, I pray
But still I fear it is not enough

I pray, I pray, I pray
When I look for a strength to hold on
I pray, I pray, I pray
When I search a place to hide away

I pray, I pray, I pray
When I'm on the brink of hopeless despair
I pray, I pray, I pray
When I'm on the full light of joy

I pray, I pray, I pray
And I wish I don't ask too much
I pray, I pray, I pray
But still feel the need to pray a lot

I pray, I pray, I pray
With the sweet song of my heart
I pray, I pray, I pray
With the marred scar of darkness

I pray, I pray, I pray
With the steady warmth that close to me
I pray, I pray, I pray
With the wavering of distant faith
I pray, I pray, I pray
And God will let me understand
I pray, I pray, I pray
And God will keep me in His hand

Maria Sudibyo
I See You In Your Fingers

I see your fingers
I see you in your fingers
I see your history from your fingers
I feel your touch from your fingers
They don't tell a lie to me
They don't give me a fake smile
Or promising kiss
But they give me a warm hold
and tickling touch
I see you from your fingers
I see the truth from your fingers
I see you in your fingers

Maria Sudibyo
I Set My Ears To Hear You

I set my ears to hear you
Like thirsty to thirsty
All about yourself and not even me
I can't figure out talking about myself
It's all about you

I set my ears to hear you
Now like water spoiled water
All about yourself but I don't care
I can figure out throw you from the window
It's all about me

Maria Sudibyo
I Think I Love You

I think I love you
But you think that love is annoying
You try not to feel any emotion
That could lead you into love

I think I give you love
But you are too scary to accept
You don’t want to be hurt again
After so many scars in your life

I think I still love you
But you shouldn’t have to know
You will run if you realize
And I don’t want it happens

I think I will give you love
Though you may never love me back
As long as I can make you happy
Nothing else matter anymore

Maria Sudibyo
I Was Dead, So I Didn'T Contact

don't afraid of me
or throw your groceries
I'm here to meet you
in white skeleton suit
I promise you that I'll be back
there were lots of things happened
from the time we said goodbye
I doubt you recognize me
I've changed a lot
but I never forget you
you must have waited so long
you don't know what's going on
I see you don't sleep enough
you are crying too much
don't worry about me
I'm no longer bleeding
please call me a fool
I just come back to tell you
sorry, I was dead

(based on character Brook from One Piece)

Maria Sudibyo
I Will Falling In Love With A Good Man

I will falling in love with a good man
Those eyes with warm sight
Those hands with gentle touch
Those lips with tender smile

I will falling in love with that man
Who makes my heart beatfast
Who first holds me when I'm down
Who still loves me when I'm old

They say I'm just dreaming
about all novels and tearjerkers
but should I imagine my dream as nightmare?

I just don't know but
I have, I want, I will
falling in love with a good man

Maria Sudibyo
I Will Never Forget You (Isaiah 49: 14-16)

I will never forget you,
My people
I have carved you
on the palm of My hand
I will never forget you
I will not leave you orphan
I will never forget My own

Does a mother forget her baby,
or a woman the child
within her womb?
Yet even if these forget,
yes even if these forget,
I will never forget My own

I will never forget you,
My people
I have carved you
on the palm of My hand
I will never forget you
I will not leave you orphan
I will never forget you,
My people
I have carved you
on the palm of My hand
I will never forget you
I will not leave you orphan
I will never forget My own

Maria Sudibyo
I Won’t Let It

I won’t let it
I won’t let the wave of shadows
Clod my sky and hide my sun
I won’t let it
I won’t let a cold rejection
Frozen my attitude toward love’s warmth
I won’t let it
I won’t let insulting word
Hurt me more than it should be burnt before
I won’t let it
I won’t let stain of hate
Contaminate and conquer my heart
I won’t let it
I won’t let my head lower down
Though tears stream in my eyes
I won’t let it
I won’t let the hole of despair
Eating my chance to happiness
I won’t let it
I won’t let the tickling clock
Catch me in the fear of night
I won’t let it
I won’t let the bitter of life
Become the only one I remember
I won’t let it
I won’t let the pile of work
Suffocate and burden my soul
I won’t let it
I won’t let a hard future
Halt my feet to walk forward
I won’t let it
I won’t let the glamour of the world
Confuse and blind me to dream other
I won’t let it
I won’t let a wrong decision
Prevent me to search a better way
I won’t let it
I won’t let self pity
Close my insight of struggling hope
I won’t let it
I won’t let complaint and disappointment
Make me only share sorrow
I won’t let it
I won’t let stabbing lost
Shatter my will to survive
I won’t let it
I won’t let the spoken promise
Disappear easily like a mist

Maria Sudibyo
I Won'T Go Back

Will you come in the promise night
Or have you forgotten me in your mind
The waiting is felt so long
My soul’s flakening

Until the fact spread opened
That you can’t put a lie anymore
And the world seems to disappear
My heart’s darkening

I would not go back
Won’t weave this hope inside my heart
Because I have clearly found
The lone road of my life
Without you

I would not cry again
Even night is unbearable cold
Because I have realized
The end right in my eyes
All with your love

If I could throw the love I have
Blame everything to your fault
And I will come as a winner
But I don’t feel ease

If I could grow vines of hatred
Cover all of reminiscent
Beautiful but trap me in vain
And I can not stand

I would not go back
Won’t weave this hope inside my heart
Because I have clearly found
My own way of my life
Without you

I would never regret
Though I want reply so many times
Because all those memories
Are just a memory
That will be passing by

Will you come in the promise night
Or have you forgotten me in your mind
Now you only like a shadow
And the morning comes

Maria Sudibyo
I Won'T Go Back (Indonesian Version)

Malam ini akankah kau datang
Atau malah melupakan
Penantianku begitu panjang
Jiwaku menyerpih

Hingga tiba fakta terbentang
Yang tak dapat kau dustakan
Dan dunia seakan menghilang
Hatiku menghitam

Takkan kembali
Takkan merajut asa di diri
Karena ku telah temui
Jalan sepiku sendiri
Tanpa dirimu

Takkan menangis
Walau malam dingin tak terperi
Karena ku telah sadari
Semua berakhir di sini
Bersama cintamu

Ingin cinta semua kubuang
Timpakan semua kesalahan
Dan ku kan menjadi pemenang
Tapi ku tak tenang

Ingin benci tumbuh berkembang
Menutupi semua kenangan
Indah tapi begitu mencengkeram
Dan ku tak tahan

Takkan kembali
Takkan merajut asa di diri
Karena ku telah temui
Jalan hidupku sendiri
Tanpa dirimu

Takkan sesali
Meski ingin kuulang kembali
Karena semua memori
Hanyalah sebuah memori
Yang kan berlalu

Malam ini akankah kau datang
Atau malah melupakan
Kini kau hanya sebuah bayang
Dan pagi menjelang

Idea

Idea
is like star in the darkness of mind
It shines bright in the night
But fade when we want to bring to the dawn
And in the day we try hard
To collect the star dust
To replicate how is the light look alike

Ideal World

An ideal world

If

If you want to make me smile, then smile with me
If you want to see me cry, I only cry at your back
If you want to know how much I love you
I'll show you that my love don't cost a thing
Everylittle thing you do to make me mad, it only make me laugh
If you want to see me jealous, I know you'll be regret it soon
If you hurt me whether you realized it or not
I'm much stronger than you thought to be
Everything you do for me, I keep it as my precious
If you have known me better, could I be the one for you?

If She Only Knows

If she only knows
Every night he murmurs in my pillow
Calling her name in his sleep
Asking why she never notices his feeling
If she only knows
She’s the only one in his dream
He’ll do anything, anything to please her
Anything to get her
She’s always cold, too proud to surrender
But he doesn’t care
She could break him, easily play his heart
But he can’t give up
He wants her, he only wants her to spend his life
Though there are so many other women
He needs her, in need to love her
To protect her, to make her smiles
If she only knows
She’s the only one in his mind
I see her shadow in his eyes
Every time he kisses me, every time he holds me
If she only knows
I’m always on his side, to comfort him
To say those lies
Someday she’ll know his feeling
She’ll know he always loves her, always waits for her
If she finally knows
I will end this game, I’ll release him, I’ll forget him
If she only knows
I always hate her

I'Ll Pay For Good Luck

I got your phone call
In the middle of cold night
Your voice is vaguely heard
But it's already enough for me to be drown again in doubtful time

Do I still have a right to wander
Or is it my job to be responsible?

I'll pay for good luck
I'll pay for another hope
It's easy to find the reason to give up
But I won't lie for my desire

I'm greed
I'll keep what I could reach
Because no one support me
They only want to mock me
When I leave my shell
And try to be free

I received your short message
In the brim of dark dawn
It could turn my day upside down
And it seems my effort doesn't have a meaning at all

Do I keep following half hearted
Or should I wait until it breaks?

I'll pay for a chance to fight
I'll pay for a glimpse of light
Should I now throw it away?
Because I'm already fed up about what you say

I'm egoist
I need a promise to never again miss
Because no one is truly regret
They never care and forget
When I'm losing
Can give nothing back

www.PoemHunter.com - The World's Poetry Archive
I'm digging a hole for my own despair
It's going deep and deep into my soul
Wishing for my fall

I fill my mind with silence and question
I feel like I'm going lost somewhere
In my lone nightmare

For a moment I thought there's nothing wrong
And in sudden my faith is gone
For a moment my heart is strong
But now it begins to crumble

I'll pay for some courage
I'll pay for secret knowledge
I need something to overcome fear
Or just to hold back my tear

I'm liar
I hide my weakness with smile
Because no one ever listen
They only want to pity
How I live my life
And if I survive
In the end

I'M Not There

Don't cry me over my grave
I'm not there, I'm not there
Don't place me on your altar
I'm not there, I'm not there
Don't mourn me in front my site
I'm not there, I'm not there
Don't be lost in the wide ocean
I'm not there, I'm not there
Don't search me on high mountain
I'm not there, I'm not there
Don't think me for your revenge
I'm not there, I'm not there
Don't forget me in your heart
I am there, I always be there

I'M Still A Child

I'm still a child
for don't want to lose everything
don't want to be hurt
don't want the pain
I always want somebody to take over me
replace me
do anything for me
I'm a selfish girl
I don't have a power
I don't have the sun
to change the world of mine
So I put away and run
Let the people do the rest
I'm living in Neverland
That is my home, my dream, my imagination
I don't have to be adult in the mad mad world

I'M Your Friend...At The Moment

World has turned into strange place
No, it’s a strange place
Friend is foe, foe is family
Enemy becomes ally, ally is their spy
Children forget their roots
Strangers search paradise for far
So pick a side, take a curly turn
In this world madness party
Today’s blue, tomorrow’s red
Today’s true, tomorrow’s not yet
So easily to change, so desperate for range
Loyalty is frail, emotion is strained
Winner becomes poor, poor becomes king
King abduction to slum, slum raises hero
We are scavengers, sneaking for opportunity
Play the game, exchange the ride
Laugh at day, war at night
All stirred in one messy crowded place
So take my hand, I’ll help you now
But watch your back, maybe I’m the one who first to blow

Maria Sudibyo
Imagine

Maybe you are already too old
Maybe you are not a child anymore
But let's imagine

Maybe you say this is a harsh world
Maybe you say I'm a naive person
But could you imagine?

Maybe it is ridiculous
Maybe it will never come true
But it's good to imagine

Maybe reality will never be like a dream
Maybe it just a temporary escape machine
But I want still able to imagine

Maybe about a fantasy land full of adventure
Maybe just a comfort and peaceful life
But take a breath and bravely imagine

Maria Sudibyo
Immature

when grows old, what do you think lost?
human when grows old will recognize shame and become coward
learn to pretend not see, to pretend not listen
maybe that's called adult but, when realize
the growth stops
when grows old, the first thing gone is courage
you don't know the world so you don't know fear
you even can't see your own foot palm
of course, there are some who covered by uncertainty and emptiness
every minutes and seconds are too precious
of course, there are some who in too much of a hurry
and lost their identity
even though that, don't think because you are not mature
you don't like yourself right now
don't be afraid to shame, just do what you think
if by the end you realize you're wrong
you can fix it soon, it's alright!
you are so flexibel, young and wise to stand strong
you should love that immaturity
raise your head, because it is your charm and your biggest weapon

Impian

Impian adalah sesuatu yang dapat berubah
Saat kita melewati waktu atau saat bertemu seseorang
Tidak mungkin tidak berubah
Saat kita telah mewujudkannya atau menemukan sesuatu yang baru
Bila kau terus menyangkal perubahan itu
Maka impianmu akan berubah menjadi beban
Karena kau akan terpaku padanya dan hilang jalan
Impian yang berubah bukan sesuatu yang memalukan
Bukan karena kita tidak berjuang atau menyerah menggapainya
Tapi impian adalah hasrat kita untuk menemukan tempat untuk diri kita sendiri

In A Rush

I’m in hurry, I can’t stop to worry
My stomach aches, my socks mismatch
I’m afraid I’m late, and miss an important date
O, what a mess, it only adds more stress

So I’m just keep running, never stop for turning
Keep moving forward, no time to doubt
Because I will fight what I think is right
And never give up until the time is out

Maria Sudibyo
In Bad Mood

I’m in bad mood
Don’t try to sooth
I’m ready to shoot
I’ll track till your root

I’m in bad mood
Don’t trick me smooth
I’m going to be no good
Even you run away to the wood

I’m in bad mood
Don’t need shielding hood
You’ll become my delicious food
And a fun play for my boot

Maria Sudibyo
In Good Mood

I'm in a good mood
Don't force your bad thought
Or shame me with false hurt

Let me be bubbly and soothed
I'll do everything happily as I could
Before I go back to my self darkened root

Maria Sudibyo
In Injury Time

In few seconds
World can turn into heaven or hell
But sometimes we delay everything that we can do until the last minute
And hope it’ll be a miracle
It’s wrong
But we can’t help to always do that
Thinking that it’ll be another added time, another concession, other five minutes
And suddenly the time near the edge
And we can only down in regret
Why we don’t have more time, why everything doesn’t turn as we wish and others why, why
Why we don’t think to respect our time and use it properly
Like players who responsible to fight as best as they can in full time
Though lose
Though nobody will cheer them later

In Silence

We talk in silence
We speak in exchanging breath
We argue in silence
We battle with our stare

We think in silence
We travel in our mind
We promise in silence
We create the secret better

We sing in silence
We smile in radiant melody
We enjoy in silence
We move with our body

We share in silence
We stay in each other arms
We love in silence
We grow the hope of warmth

We hate in silence
We shake in every fiber being
We pray in silence
We enchant the words in heart

We long in silence
We drown in loneliness
We break in silence
We flow soundless tears

We walk in silence
We tell our story in footprint
We listen in silence
We could hear numerous voices

In The Arena

Whenever I go down to the arena
And look to the face of my opponent
I realize that nobody could help me through this fight
Not my coach
Not my partner
Not the spectators
Not even the world
Nobody to depend on
Nobody but me
It is me who should conquer my fear
I should move my body
Use my mind
Respect all supports
And gain my power
To reach my own dream

In The Mercy Of God

Bright and clear blue sky
Running outside be bathed by warm sun
All in mercy of God

Dream about a peaceful tomorrow
Hanging up our hope on wishing tree
All by mercy of God

Sincere smile blooms from morning
Walking in the cold sea of people
All with mercy of God

Strengthen will one day more
Struggling with gnawing pain that grows inside
All for mercy of God

In The Middle Of Nowhere

In the middle of nowhere
There isn’t no story
The tales that begin with the end
The journey that begin with saying good bye
In the middle of nowhere
The legend’s made to be forgotten

In The Mood Of Nothing

don't regret
don't just talk
I'm in the mood of nothing
I'd better not think
and not do anything
and stay quiet
or it'll gonna be worse
because I'm so tired
and can only explode

don't start
don't take a heart
it's just inconvenient truth
I'd better not grudge
and not do something rude
and put the barrier
before the point of no return
because I'm so lost
and care nothing anymore

Maria Sudibyo
In The Rain

Sunshine
Caressing warmly
So fun
Count to make laugh
But when you alone
And everybody's gone
Only with sorrow
What are you hiding in the rain?

Grey clouds
Come approaching
Weather
So fast changing
The air turning cold
Stabbing in your skin
In the flooding road
What are you waiting in the rain?

Run fool
Or face the most fear
Let fall
Or try fighting
Do you never know
All human carry storm
In their high and low
What are you seeking in the rain?

If fine
Why hurts so much?
If pain
What's the meaning?
You seem so broken
Of past long forgotten
And tears start to flow
What are you crying in the rain?

Never to fail
Never to wail
Again
Never give up
Never to lose
The gain

The scent of sadness
The beat of bitterness
Dark and gloomy thought
All will be washed in the rain

Living
But lack of willing
Nightmare
Disturb the sleeping
Cause I can't see the truth
Can't catch any words
Behind droplet veil
What are you whispering in the rain?

Harder
One step closer to you
Keeping
Forever distance
The wind blowing strong
Thunder loves to roar
Pouring everyday
What are you holding in the rain?

Shadow
Chase me everywhere
Shower
Heavily trickling
We wondering whose fault
Or it just crazy world
Twisting our heart
What are you dancing in the rain?

Ignore
Flawlessly lying
Reason
Rapidly growing
Anger starts to show
Speaking for our own
Spreading like venom
What are you leaving in the rain?

Misty window
Bleak tomorrow
To paint
Under the sea
Over the sky
We drenched

The hope doesn't go away
The dreams linger and stay
Longing a better day
What are you wishing in the rain?

The one who always takes care of his belongings

In whisper, in shout
In silence, in echo
In heartbeat, in burning eyes
In strong arms, in delicate fingers
In master mind, in humble will
In homeland, in far away
In daydream, in forever wish
In born child, in hero’s remains
In longing, in struggling
For the live of the country
For the freedom of truth

Inside The Darkness

The fear maybe blinding
But it doesn't mean there is nothing that we could find
Inside the darkness

The hope maybe thinning
But it doesn't mean there is nothing worth to keep
Inside the darkness

The shadow maybe suffocating
But it doesn't mean there is nothing to fight for
Inside the darkness

The light maybe deceiving
But it doesn't mean there is nothing to believe
Inside the darkness

The warmth maybe leaving
But it doesn't mean there is nothing we can give
Inside the darkness

The fate maybe laughing
But it doesn't mean there is nothing we can learn
Inside the darkness

it's a light that suddenly bright on
or the awakening of hungry animal
it's dulled by comfort and happiness
or sharpen in harsh life and difficult time
some men bury deep, some men follow it
nobody knows where it comes from
maybe it's just electric sensation in our brain
as long as you live, you will decide
to use it wisely or be conquered by yourself

Is It Wrong Me To Make You Love Me?

Is it wrong me to say I love you?
Is it wrong me to tell I miss you?
Is it wrong me to hold you tight?
Is it wrong me?

When rainbow of love sprang up again
In the long cold broken heart
Love does not bloom only for you
So share with me

Is it wrong me to say I love you?
Is it wrong me to tell I miss you?
Is it wrong me to hold you tight?
Is it wrong me?

Don't regret all winter's left
It won't come back even you turn the time
Love does not bloom only for her
Here I'm waiting

Is it wrong me to say I love you?
Is it wrong me to tell I miss you?
Is it wrong me to hold you tight?
Is it wrong me?

It's time for you to feel spring again
Look at my eyes, don't turn around
Love is not only just sorrow
There's happiness

Don’t push me more
If you don’t want to see explosion
There’s so much question
That I could only answer
“I don’t know, I don’t know”

Maybe it is ridiculous
Or just unreasonable fear
My heart is too stubborn
To order my mouth other than
“I don’t know, I don’t know”

It may be an imaginary line
That I don’t want to touch
Avoid me to see clearly
And escape with saying
“I don’t know, I don’t know”

Maria Sudibyo
It Is Nothing

It is nothing
It is nothing
But it stirs the calming sea

It doesn't mean anything
It doesn't mean anything
But it brings the wave of despair

It just shadow
It just forgotten nightmare
It just sorrow
It just an aching wound

It just doubt
It just a coward whisper
It just cold
It just sliding cliff

It is nothing
It is nothing
But it grips my beating heart

It may not be something
It may not be something
But it clouds my darkness mind

It just regret
It just blind disappointment
It just lost
It just improper goodbye

It just smoke
It just heavy breathing
It just lead
It just swaying mood

It is nothing
It is nothing
But it shakes the growing faith
It will not be everything
But it creeps my deepest fear

It just turmoil
It just slightly misunderstanding
It just selfishness
It just constricted proprioception

It just foreboding
It just bad turning
It just horror
It just sick revelation

It is nothing
But it paints the crumbling wall

It could be many thing
But it sticks me to the very corner

It just ignorance
It just stupid mistake
It just defiance
It just dangerous spot

It just denial
It just crowded anxiety
It just uncertainty
It just dread wandering

It is nothing
But it clinging like poisonous mud

It would never become a thing
But it cracking my perfect mask

It just whining
It just the edge of patience
It just insecurity
It just the tip of insanity

It just annoyance
It just gnawing disturbance
It just stubbornness
It just meaningless competition

Maria Sudibyo
It Shouldn’t End Like This

It shouldn’t end like this
Pouring blood like pouring wine
But it’s getting through that way
Along with my heart
Sinking to another irony of fate

It shouldn’t end like this
Draining tears like draining life
But it’s leaking somewhere
Along with my soul
That gone to another vapor of love

I should be lonelier
But the grief is silent and the pain is dull
I should be more suffered
But the fall is acceptable and the world is laughing

It shouldn’t end like this
Flowing hope like flowing breath
But even I’m going to totally lose
Along with my dream
Somehow I just can’t give it up easily

Maria Sudibyo
It Will Be A Goodbye

It will be a goodbye
But you are the one who decide
How it ends, how it mends
It will be a goodbye
But you get the final words
How it breaks, how it tracks
It will be a goodbye
But you are to remember
How it songs, how it longs
It will be a goodbye
And you’ll move to another
How it was, how it last

Maria Sudibyo
It Would Be Me

It would be me
Not anybody else
Dear my family, dear my friend
It would be me to live my life
Not anybody else
Though someone I adore
Though someone I really want to be
It would be me who decide my path
Not anybody else
Through my dream, through my hatred
Through my power, through my shame
If I say ‘yes’ some door will be opened, some closed
It would be me which way I choose
If I say ‘no’ some door will be opened anyway, some closed
Not anybody else who face my test
If I ‘m confused some will hurt or gone, some will take a time
Though someone replaces me, though someone is better
It would be me
Not anybody else
Who live now, who breathe this time
In this body, in this mind, with this soul
It would be me
Not anybody else
Though I go hiding somewhere, don’t know what to do anyway
I should live, I would continue my life as long as I still breathe
It would be me
Not anybody else
Who live my life

itch, itch, itch
scratching my finger point
my heart is like free market
my brain is like full garbage
itch, itch, itch
there's worm army in my back
I get itch in my leg
itch, itch, itch
it's an itch in my mouth
I have sharpen my nail
I want to jump and scream
can I come to scratch you into pieces
the hands that touch me impolitely
the blunt mind that speaks empty
itch, itch, itch
you are just itch for me

It's A Big Big World, It's A Small Small World

A long time ago
The world seemed so wide and wild
Until we fear we will never meet again before we say goodbye

Now
The world felt so small and tight
Until we don't realize before we lose something important to us

Maria Sudibyo
It's All Wet, Wet, Wet

It's all wet, wet, wet
rainy and wet
cold and wet
hungry and wet
all day long
dark and wet
prepare your laundry dryer
I'm already wet
exhausted and wet
sleepy and wet
in this wet, wet, wet day

Maria Sudibyo
It's a bad bad day for me
nothing's going right
and when I turn asleep
I hope all my trouble is blowed away

i'm standing in sideway, lone with the breath of wind
the world's brighter when i'm not there
the sun still gives the shine, and the earth still gives the air
but I look around, does anyone care?

But it's only dreaming, it just dreaming
And I know it's not real
I wake up in the morning
and I'm still here

There's no genie in my bottle
There's no magic in my wand
So I must face the world
and breaking my biggest wall

Just a dream, just a dream I have
Is that enough, it's just a dream
Just a dream

Jangan Macam Macam Dengan Nyawa

Jangan macam-macam
Di tubuhmu ada nyawa
Jangan terlena
Meski kau punya semua
Dalam sekejap mata
Semua bisa tak berguna
Saat maut menyapa

Jangan macam-macam
Di tanganmu ada nyawa
Tapi bukan kau punya
Meski kau tak peduli
Nanti pasti kau sesali
Bila ia akhirnya pergi
Dan takkan kembali

Jangan macam-macam
Di depanmu ada nyawa
Yang juga punya harga
Mesli kau tak mengerti
Karena belum kau kenali
Saat kau membuka diri
Kau akan menemukan arti

Maria Sudibyo
Jangan Maksa

Jangan maksa cuma keinginan kita
Kalau kamu juga tidak mau dipaksakan
Jangan maksa bersikap ceria
Kalau sedang tak ingin tertawa
Jangan maksa ngebut di jalan raya
Kalau nantinya malah celaka
Jangan maksa kelihatan kaya
Kalau hanya untuk gaya

Jangan maksa apa pun juga
Karena hasilnya pasti sia-sia
Jangan maksa tentang rasa suka
Karena cinta datang dengan rela
Jangan maksa tetap menderita
Karena hati bisa lebih keras dari baja
Jangan maksa tapi tanpa usaha
Karena keberuntungan bukan cara

Jangan maksa semua harus sempurna
Yang penting bermakna dan berguna
Jangan maksa anak-anak cepat dewasa
Biarkan mereka tumbuh apa adanya
Jangan maksa merasa punya kuasa
Tetap bersama saja sudah luar biasa
Jangan maksa menjadi serupa
Berbeda bukan hal yang hina

Maria Sudibyo
Jangan Malu-Malu

Jangan malu-malu
Lepaskan sepatumu
Lelehkan lantai yang beku
Dengan hentakan kakimu

Jangan ragu-ragu
Bila tak seorang pun bersamamu
Tak usah merasa malu
Bila mimpi tak sesuai keinginanmu

Jangan malu-malu
Buang semua ragu
Alunkan sebuah lagu
Untuk mengusir hati yang pilu

Jangan ragu-ragu
Bila kau inginkan sesuatu
Tunjukkanlah bila perlu
Tekadmu yang sekeras batu

Maria Sudibyo
Jangan Menyerah

Walau selalu terjatuh
Dan bersimbah peluh

Walau tergoda untuk menyesal
Tak tahan untuk berkhayal

Journey From Small Place

I make a journey in a paper
A contemplation ink in white field
I make a journey inside the book
Traveling my imagination in the word ocean

I make a journey under the table
A furious food battle on the ground
I make a journey on top of the roof
Transforming myself among the cloud in the sky

I make a journey outside the glass
A different possibility faces on the transparent canvas
I make a journey at the bridge
Clearing the dark shadow with the water current

I make a journey above the tree
An adventure child who never stop to grow
I make a journey over my pillow
Bringing a piece of dream to reality world

Just Being

I'm just being angry
I'm just being devious
For someone using the pain to paint more blood in the wall
I'm just being envious
I'm just being jealous

I'm just being greedy
I'm just being egoist
For something which I know will never belong to me

Maria Sudibyo
Just Broken

What was the last song you whispered to my ear?
Did it like first snow, breeze of wind, falling leaves
or something like that?
Did I listen to you in silence
or did you hold my hand to calm?
I was blind, more blind than blind people
I just didn't see anything but darkness
I was hopeless, more hopeless than hopeless people
I didn't mad, I didn't sad
I didn't blame this hatred to you
It's just my grieve
Just my tears, just my loneliness
It's just you aren't here anymore
And I'm just
Empty

Karma

I don't leave you
I never leave you
I thought I can't leave without you
but you can
though my heart's torn and crushed down
I thought you can forget about me
I didn't know you
you were born to stab my heart
but I still care about you
entwined heart can't be cut down even with thousands mind
my young age with you
I'm satisfied with that
I don't want hesitantly release you and let you destroyed
my heart shaped in my chest
I will hide it like gone
so forget about me
time, memories and your tears now
let all go without regret
don't hesitate and turn back too
go!
you must be sad and hurt
hard to breath, like me now
you blame me, you believe my harsh words
what should I do
if I born again in the next life
what should I do with you that born following me
you must be very lovely
and I will let you go like this
let that grudge points only to me
I will live alone and leave alone
if all keep chasing me, let only me be chased
I will not leave a trace in this world
in this powerless world, I will not leave
love or hate
happiness or sadness
I will live this life alone
alone forever

in this hollow world, I'll stay beside you
in the road you walk alone, alone me will protect you

Karma Karma

Things happen to good and bad people
When bad things happen to good people
It is called tragedy
But for bad people
It is called punishment

Keeper Of The Heart

Keeping pain in silence

Kekasih Bodoh

Bodohnya orang
Yang tidak mengakuinya cantik
Bodohnya orang
Yang tidak tergoda meliriknya saat ia lewat
Bodohnya orang
Yang malah memilihku menghabiskan makan siang di pinggir jalan
Betapa inginnya aku
Berganti rupa dengan dirinya
Hingga aku mendapatkan pandangan kagum yang tolol darimu
Seperti ketika mereka memandang dirinya
Dan kau mengatakan bodohnya diriku
Dan ku akui itu
Karena aku gadis bodohmu

Kenapa Bilang Cinta

Kenapa bilang cinta
Bila hanya sekejap mata
Kenapa bilang suka
Bila cuma di bibir saja

Kenapa bilang cinta
Bila untuk status semata
Kenapa bilang saying
Bila bukan aku yang dibayang

Kenapa bilang cinta
Bila semuanya pura-pura
Kenapa bilang peduli
Bila sebenarnya tak ada di hati

Kenapa bilang cinta
Bila kata-kata tak dimakna
Kenapa bilang takdir
Bila nantinya berakhir

Kenapa bilang cinta
Bila tak cukup rasa
Kenapa bilang segalanya
Bila akhirnya tak bersisa

Kenapa bilang cinta
Bila alasan lain tak berguna
Kenapa bilang bahagia
Bila terus tersiksa

Kenapa bilang cinta
Bila selalu terpaksa
Kenapa bilang tak masalah
Bila berpisah karena berubah

Kenapa bilang cinta
Bila besok lalu lupa
Kenapa bilang selalu ada
Bila sepi kian mendera
Kenapa bilang cinta
Bila tak berusaha percaya
Kenapa bilang mencoba
Bila menghindari terluka

Kenapa bilang cinta
Bila berharap sebaliknya
Kenapa bilang mengerti
Bila tak pernah tepati janji

Kenapa bilang cinta
Bila kau tak setia
Kenapa bilang selamanya
Bila aku bukan satu-satunya

Kenapa bilang cinta
Bila tak pelihara baranya
Kenapa bilang melindungi
Bila kau biarkan mati

Kenapa bilang cinta
Bila bermimpi pun tak boleh juga
Kenapa bilang rindu
Bila tak lebih dari merayu

Killer Heart

Hit right to the heart
With words colder than the world
Mercy gift from me

Maria Sudibyo
Killing Field

I will fly
Maybe fall
But it won’t stop me to try

I will cry
And it’ll dry
But it won’t stop me to hope

Do you not love
Because it hurts
And avoid life
Because regret

My senses still clear
My heart still beats
I won’t give up
I won’t be like that

I will run
Even crawl
But it won’t stop me to move

I will lie
I will die
But it won’t stop me to be

Do you not dream
Because it’s fake
And cursing faith
Cause it’s mistake

My mind could think
My soul could feel
I will stay strong
I’ll see tomorrow

I will take
Or just hate
But it won’t stop me to find
I will reach
Sometimes lost
But it won’t stop my desire

Do you not fight
Because it’s hard
And hide in night
Because of fright

Just push my luck
Just treat me bad
I will survive
I won’t end this way

Maria Sudibyo
Kindness

Kindness is the fruit of the heart
It is the product of the growth
It comes from the love it received
It won't cut less any of the leaves
It'll add the beauty
It will be rotten if it only kept in the tree
Basically it is pretty useless for the tree itself
But for the creatures and nature around
It gives them food
It saves their lives
It brings a new home for them in the future
When it fell and be consumed

King's Oath

I'm the king
I'm the son of nobody
Due I respect others my family
Take care my people my own blood
Every step of my country is my home
Everything belong to the land
I'll protect them
I don't walk from man's hand
I rule on my own feet
I take pride, I take responsibility
If there's night, let me fall with
I'm the king
I don't last forever

Knife In The Fog

Lock the now
hay may, hay may
Lock the now, and settle your fee
You may go in shield,
you may be seen unbroken
But thot the way
hay lo, hay lo
Crush the wall, and make you hurt
You may go down, you may feel tough
And still alive for a life
My say so, my say so

To search God's home and meet Him
But when He himself comes knocking on our door

Knots

tie the knot
cut down the knot
loose the knot
hold the knot
life is filled
with those things

force to knot
avoid to knot
not aware knotted rope
and suddenly get hooked
life is full
with those things

sometimes knot chokes
sometimes it gives hope
you can waste,
choose one, or keep many knots
but life is never far
from those things

Koin Untuk Prita (Coins For Prita)

cring, cring
berjatuhan koin-koin
cring, cring
hati si miskin memanggil
cring, cring
koin kecil berarti penting
cring, cring
bila bersama tak ada yang tak mungkin

cring, cring
koin-koin terus berdering
cring, cring

Lady In Red

Lady in red
Your lips, your hair, your gown, your fan
Like red devil rose
Like evening sky
Like delicious apple
Like velvet curtain

Lady in red
Your wine, your blood, your tears, your world
Like lust ruby eyes
Like endless passion
Like burning fire
Like desert sand

The perfect woman
The silver soul
The fragrance world
The fair illusion
The lovely creation
The sweetest danger

Lady in red
Your mask, your tone, your cord, your fate
Like poker play
Like enchanted noir
Like tangled silk
Like damned misery

Lady's Topic

What's hot, what's out
Who cheat, who plot
Whose cloth, whose froth

How's the ranking, how's the price
Which's popular, which's favorite
How's the look, how's the mood

What's hidden, what's exposed
What's desired, what's grudged
What's complicated, what's exaggerated

Who's married, who's divorced
Who has child, who have not
Who's died, who's survived

Whose misery, whose tragedy
Who's ally, who's enemy
Whose fault, whose doubt

Maria Sudibyo
Lamb Among Wolves

When someone initiates a good deed
There will be other who get suspicious
There will be other who cry out protest
There will be other who harshly reject
So first you must look at yourself
And choose whose side you are
To help the lamb by being a supportive sheep
Or become the voices of jealous wolves

Last Dance

When my music played
Though there is no one I love
I'll dance with myself

Maria Sudibyo
Last Date

we make a date in old classroom
memorize the day we met
we walk in lover's lane
tracing all forgotten feeling
then we touch our hands to confession tree and look each other
calling those memories
when we see a young couple shyly sit in our favorite restaurant
we smile remembering the days we passing together
when we get to the lake where people sail around
the air is quiet and tears begin fall from my eyes
when the time we must separate
just say, ' Will you want to go for a boat ride? '

note: there's belief that a couple who go for a boat ride will separate

Late Season: Drought

Always hunger, always greedy desire
I keep pushing, keep running my feet
In desert without single water

Maria Sudibyo
Late Season: Fall

For sake your broken heart
You try to shake my flower's petal
Sadly it's already fallen before

Maria Sudibyo
Late Season: Rain

Wall behind back is cold
Though the monsoon shower is finally over
It's still raining my heart

Maria Sudibyo
Late Season: Spring

Frozen river, bare cherry tree
Frigid lover, strict lady, seasoned pretty granny
For whom your smile blooms?

Maria Sudibyo
Late Season: Summer

Under bright sun and sky
Discovering the joy of friendship and love
Some secret will remain hidden

Maria Sudibyo
Late Season: Winter

This cold weather is hard
Leaving aching mark all over my body
Withhold the soothing warmth also

Laugh Song

(it's just a silly song, please sing with your own melody)

Drunken man: The bottle is empty
I’m still thirsty
What can we do right now?
Crowd: Let’s steal some wine!

Bar owner: It’s the time up now!
You must pay and go
Crowd: Why is she so cruel?
We’re just having fun

Bar owner: The wind goes strong
I’m afraid storm comes
What can I do old man
With drunken men and fool?

Crowd: Our friends with us
You are warm and nice
Bar owner: No more drink tonight
Go home, goodnight!

Servant boy: The rain goes heavy
The bridge is down!
Crowd: Lord has mercy
We can’t go right now!

Crowd: The road is dark
Hard storm around
What can we do right now?
Bar owner: Sit and wait sad clown!

Man: Thunder sparks wild
Do we have some bone?
The dog still barks
Crowd: Bark, bark, bark, bark, bark

Drunken man: The bone is gone
Tomorrow we’ll mourn
What can we do right now?
Crowd: What can we do right now?

Man: No feet dance here
No music I hear
Crowd: Let’s ask our dear!
She can cheer we here

Man: The fiddle’s asleep
Her cords are curling
Crowd: Let’s just sing a song!
La, la, la, la, la

Drunken man: Your song is bad
My ears are ache
Crowd: It’s the wine not song
Your sense goes wrong

Servant boy: The rain still falls
It’s not safe to home
Crowd: We own our fall
It’s not safe from fight

Drunken man: The bottles mad and fly
Too pity they’re empty
Bar owner: Play set in my rest
You’ll be kicked and wet!

Man: Let’s close to the fire
Till words are over
Crowd: Tell tales and stories
Till the world’s over

Crowd: Only wise can say
We crazy laugh and cry
In the middle of flood
The last laugh will shout!

Laut Di Tengah Keajaiban Musim Dingin

Meski angin bertiup kencang dan air laut mengamuk dashyat
Esok hari adalah suatu hari yang baru
Kau akan mengalirkannya
dan
Meski dipisahkan oleh angin yang bertiup kencang
maupun ombak yang besar
Itulah pelosok pulau tempat orang yang kita cintai menunggu
Kau akan mengalirkannya
Ke hatimu
Nun jauh di balik bayang-bayang pulau
Di tengah laut yang arusnya deras
Burung putih akan membawa kembali arwah kekasih yang telah tiada
Membawa kembali
Suatu hari akan jatuh cinta pada seseorang
Meski ombak di laut ganas diterpa tiupan angin
Mencintai seseorang
Bukalah hatimu sekali lagi
Meski awan di langit jauh dari jangkauan
Kalau hati terbang jauh, cinta pun akan datang menjemput
Perasaan di dalam hati itu
Pasti akan sampai di pangkuannya
Meski jaraknya jauh sekalipun

Law Is Freedom

Law is freedom
Not a kind of fake made freedom
Or an abusive wild freedom
Not a narrow minded follower
Or blurred ruler

Law is freedom
A freedom that obeyed
With full consciousness and responsibility
A freedom to do and to not do
And know the consequences

Law is freedom
A solid freedom
Not a tool of terror
A freedom to live
Not to conquer it

Let Them Think (Distraction)

Let them think
I’m not more than a smiling statue
Let them say
I’m just a shallow beauty
That so easy to be swept by world current
When inside I analyze everything
And laugh to the fool around me

Let them think
I’m a weak fragile creature
Let them speak
I’m too useless to be consider as obstacle
And not dangerous enough to be watched
When inside I steady my pace
To sneak and reach my goal

Let them think
I’m just a crazy unstable child
Let them discuss
I should go on therapy
When they actually doesn’t really understand or care about me
But inside my emotion is clearer and stronger than anyone
And I could decide which wrong or right

Let them think
I’m a stupid loyal subordinate
Let them treat
It doesn’t matter if I’m not exist
And made only to follow order
When inside I’m an opportunist monster
That hold every their little dirty secret
To use it for my own

Let them think
I’m a naïve innocent girl
Let them point
They dislike me because I never taste the difficulty
Because I never face the cruel world
When inside the dark has lived in my heart
And behind the mask that never cracked
I enjoy that

Maria Sudibyo
Level Of Pain

Just want to see other's suffering
Just look to read other's angst
So I will not admit
That this is closer than I think
More real to be happened
More raw than the open wound
The lonely bitterness
The horrible hollowness
Do you want to feel the pain but not be affected?
Do you wish to just die in desperation?
This level of pain
This violent dealing
How much that you can take?
How much that you can fake?
This level of pain
This excruciating burning

Are we still together?
Can you still say that we are okay?
Maybe we only drag a dead corpse
We only stretch an invisible thread of affection
That's no longer worth to be kept
What still exists there
The growing wariness
The aching awareness
Are you proud with your self afflicted scar?
Do you need a pity from someone else?
This level of pain
This common fear
Could you raise the notch?
Could you bare the couch?
This level of pain
This thundering vein

Maria Sudibyo
Level Of Pain: Prologue

Everybody has something to gain

Even though they believe in vain
They will endure the rain
They will face disdain

Liberty For Tragedy

When story needs an enemy
Misery needs a company

Heart is the rule
Pain is the tool

It will be easy to break somebody
Than to launch a thousand army

Go cracking from inside
Give nowhere to hide

It will satisfy spectator slowly
Than all useless torment in hurry

Some say it is written destiny
Some say it is the show of sympathy

For the more you run
The more fierce it comes
For the more you ignore
The more it haunts

Some say it is the art of life
Some say it is the trial of love

For the more you cry
The stronger you are
For the more you fall
The tougher you are

If it could be easy
For both of us
Pure lie to me
Your kindness
Your gentleness
It will be easy
If all you intention
Is only to lie to me
To play me
To deceive me
So lie to me
Your words
Your touch
It will be so easy
When you finally
Drop your mask
I could turn easily
This love to hate
This longing to anger
Just lie to me
Don’t bother to resist
Don’t bother to hesitant
I will take the fall
I welcome the pain
Of my broken heart
Lie to me
So I shouldn’t be confused
About your smile
About your warmth
That I desperately need
And now it sipping
Through my mind
Through my body
And I can’t control my feeling anymore
So give your best game
Give your best manipulating
I don’t even really care
If only you just lie to me

Life Essay

if life is multiple choice
maybe we can get a perfect score
but life is an essay
there is wide white space
and questions life running above
maybe we answer like theory
or find our own words
maybe we don't fill the blank
because we don't understand
or we write thousand flowery words
but we don't understand what we write
maybe the written is full of correction
or clean and planned carefully
maybe we use pen or pencil
maybe we torn the paper or blot it
maybe we cheat
maybe we work together
maybe we don't care
but when the time's finished
someone will read
and examine our result
do we respect the question
do we try hard
or play around
maybe we wrong, maybe right
maybe half of both, maybe none
so before we can't change it anymore
when there's time
before we regret it
just write your thought
because nobody in this world
who has the same handwriting

Maria Sudibyo
Life Is A Piece Of Cake

Life is like rainbow cake
Maybe looks beautiful outside
But tasted different from our expectation

Life is like banana cake
Maybe it is just simple and ordinary
But gives a comfort in difficult time

Life is like carrot cake
Some already avoid it only by its name
But some who dare to try will enjoy it

Life is like brownies
Maybe it seems like a failure made
But the sweet and bitter mingled into one rich flavor

Life is like cheese cake
Maybe it doesn't long last in your plate
But the deliciousness still lingers in your mouth

Life is like red velvet
Maybe it's so hard to get the favorite
And we must fight with anybody else

Life is like chocolate lava
Maybe we should wait long until it served
But inside there is a price melt for us

Life is like black forest
Maybe it is brought for special occasion
So we should gratefully celebrate it often

Life is like baumkuchen
Maybe many just swallow without thinking further
And only few who peel it layer to layer

Life is like first love cake
Maybe in the perfect moment and correct treatment
We could fall in love all over again

Life Lesson

Listen to all
Listen to none
But remember this thing
You are the one who realize

Learn everything
Learn nothing
But remember this thing
You are the one who understand

Go everywhere
Go nowhere
But remember this thing
You are the one who search

Believe the hard one
Believe the easy one
But remember this thing
You are the one who follow

Think the worst
Think the finest
But remember this thing
You are the one who decide

Read what’s written
Read what’s hidden
But remember this thing
You are the one who feel

See the dark
See the light
But remember this thing
You are the one who watch

Dream the ordinary
Dream the impossible
But remember this thing
You are the one who hope
Try the best
Try the rest
But remember this thing
You are the one who fight

Say it straight
Say it carefully
But remember this thing
You are the one who mean it

Love you care
Love you don’t
But remember this thing
You are the one who give

Live the truth
Live the lie
But remember this thing
You are the one who grow

Do what you desire
Do what’s been ordered
But remember this thing
You are the one who responsible

Touch it rough
Touch it smooth
But remember this thing
You are the one who keep

Life Trial

You may always try
But if the error of trial is more damaging
Try to make it succeeded

You may not take it serious
But if the neglecting seriousness causes more problem
Take it with responsibility

You may love anyone
But if the betrayal of love hurts many hearts
Love with devotion

You may run away
But if the regret of running loses you something
Run with purpose

You may finish the way you like
But if improper finishing haunts you someday
Finish it completely

You may forget
But if the forgotten memories leave you a void
Forget it with forgiveness

You may wish
But if the fulfilled wish disappoints you
Wish with sincere heart

You may dream
But if beautiful dream only stays as dream
Dream with a little courage

You may be angry
But if the unleashing anger only put everybody away
Anger with good reason

Maria Sudibyo
Light In The Dark

I hope you could still see the light
Even in the closed eyes

Maria Sudibyo
Like Dream That Will End

Like dream that definitely will end
Though now we laugh and shimmer with light
Someday going to wake up and realize it is just a dream
But it is still a beautiful dream
When anxiety and doubt can not haunt
The shining steps we walk together
Because it is the dream that is going to end
We want to hold that happiness tight
Though realize it all like golden sands
Those slowly fall from our fingers
Though what is left then only regret and bitterness
Like dream that someday should end

Maria Sudibyo
Like Stranger

Even though we are related with blood
Our life seems unconnected
We are reluctant to converse lightly
Like a stranger in a room
Like someone on the wall
There's a thick glass separates us
Prevent us to get closer
Even though we are living together
We are ignoring other's presence

Even though we have known for a long time
Our silence seems never comfortable
We always irritated by other's interruption
Like a stranger in our garden
Like someone on television
There's invisible space between us
Barrier us with unease
Even though we cross over every day
We can not open ourselves more

Even though we have lot things in common
Our mind always take a precaution
We can't find a mutual agreement
Like a stranger in cover
Like someone in war front
There is a thin ice walking peace
Ready to break the fragile ground
Even though we should understand other's feeling
We never agree with other's action

Maria Sudibyo
Like The Moon

like the moon
I want to shine
I want to be seen
but I always change every day
from dark to bright then dark again

like the moon
I want to be praised
to be the lovely one, to be the only one
but I am only shadow of the sun

Listen more to your mind, it knows what you want
Listen more to your soul, it knows what you are

Listen To What He Does Not Say

He is too tough to seem vulnerable
Too proud to complaint loneliness
Listen to what he does not say
He is hiding lake of tears behind ice wall
Doesn't know how to shout for help
Listen to what he does not say
He is the lone wolf of his kind
Forget the way to be honest and cared
Listen to what he does not say
His eyes cold and his heart already broken
When he throws harsh words
Listen to what he does not say

Maria Sudibyo
Little Big Girl

You refuse to hold my hand when we walk
You don't hug me tight anymore
Just to prove you have grown enough
Just to show that you can take care your self

And you don't want to be called cute sweet baby
You want to be those cool sexy lady
But I tell you girl
That's another day

You may want me to stay away and not to always watch over
You deny to admit your confusion to the world
And you won't listen to me right now

Age is not decided the whole thing
It is what in heart and mind that prove the quality
So you just have to learn it someday

Cause when you down, I'll still be there to say I care
Cause when you cry, I'll still be there to wash your tears

You start to learn wearing make up
You secretly try my wardrobe
Just to show you are big enough
Just eager to be free to do what you want

Even you are not my cute sweet baby anymore
Even you already becomes cool sexy lady
But I tell you girl
That's won't change a thing

You may need to be accepted by your friend
You want to impress everyone that you could be something
And you won't believe me anyway

Appearance is not the most important thing
It is what inside that will be the true judgement
So you just have to realize it someday
Cause when you lonely, I'll still be there to give you warmth
Cause when you lost, I'll still be there to wait you home

Maria Sudibyo
Little Chicken

Feeling living thing
Will make you realize that
You care for life too

Maria Sudibyo
Little Comfortable

The prepared bed
The warm food
The fresh cloth
Man sometimes doesn’t realize
There’s a ‘dwarf’ that helps in daily life

The tidy room
The clean toilet
The washed dishes
Man sometimes doesn’t remember
There’s a ‘dwarf’ that makes those comfort

The welcome greet
The opened door
The safe night
Man sometimes doesn’t appreciate
There’s a ‘dwarf’ that keeps in watch

The quiet listener
The secret keeper
The pathfinder
Man sometimes doesn’t regard
There’s a ‘dwarf’ that gives those comfort

Maria Sudibyo
Little Confusion

I say
Let them be confused
Let them think with their own mind
Let them search their own way
Watch them from far
Even though you itch to help them
Don't
Because the pleasure when finding the answer
Is so much bigger
When you do it by yourself
Rather than only shown by someone
There is a fun confusion
There is an irritating confusion
Let them experience both
And let them learn to be tough and better
Because there will be time
When they need strength to not give up easily
When they get problem bigger than they ever handled
When they won't have anyone to look up
But if they ask for your help
Give them a good example
Give them your confidence
After you see them trying their best first
But what if you also have
A question that can't be answered by yourself?

Maria Sudibyo
Little Fighter

Don't pity me because I am homeless
Be grateful for what I could get
Don't underestimate me because I'm little
Treat me like any other human
Don't laugh at me because I'm a naive child
Praise me because I could still find happiness
Don't use me for your campaign
Fund me in nameless benefactor
Don't promise me something you don't really mean
I have enough of disappointment
Don't try to trick me because I'm uneducated
I know well the darkness in the street
Don't preach me because I have to work
Help me to feed properly my family
Don't speak to me only to gloat your opinion
Listen to me what I learn from life
Don't put me down that I could not change anything
Say to me that someday I will reach my dream
Don't judge me I'll become society trash
Give me a chance first to prove myself

Maria Sudibyo
Little Queen

now and forever
till the sun, oh my heart
become cold
how many time have you heard 'I love you'?
how many time have you said that?
you don't understand what it is
it couldn't be catched
it couldn't be seen
something there
it doesn't have a name and isn't called a name
some shining there
I keep listening what small creations say
one by one
through silence, spreads like water ripples
I like you
and I love you
we all open our ears and listening your voice
I am going to take you home
going home and learning again
the way to respect precious thing
learning again not letting go
and holding it with all your hands

enjoy your bad time
contact your dentist
keep your eyes and mouth
holiday is holiday
pay your bills
turn off television
start to walk, use the stairs
do not whining
do not exaggerate thing
do not swept away by trend
control yourself
don't force yourself to be nice
different is not a big thing
love your earth
relax, it won't kill you
respect others
find your space
do it right
this is not hell
live well, it's greatest protest

Maria Sudibyo
Living On The Edge

When I lose something
And I can't get it back
I try to recollect what’s left in me
Before I am ridden by guilt

When I make a mistake
And every body points their finger
I try to do it right again
Before the chance is gone forever

When I doubt my self
And the world seems colder
I try to find the good in me
Before I turn to hate my being

When I feel lonely
And nobody accompanies me
I try to remember the sweet memory
Before it is forgotten in the dark of life

When I fear something
And it is haunting my way
I try to hold what is precious to me
Before hope disappears from me

When I caught in sadness
And grief paints my song
I try to let it flow with time
Before tears comes to tire me

When I shaken by anger
And it stabs right in my heart
I try not to be burnt by fire
Before I get into any trouble

Maria Sudibyo
Living With Ourselves

Human need others
But sometimes they forget
That they need to live
With theirselves also

Maria Sudibyo
Lock And Key

There is lock and key
Together but nothing left
For them to protect

Maria Sudibyo
Locked

locked, locked, locked
you've been locking your heart
knock, knock, knock
I just can knock in your head
to make you realize that I'm with you

stop, stop, stop
stop acting like that
hope, hope, hope
I hope you find love
that free you

there's so much things to be said and to do
there's so much moments you'll be missing to
but you don't want to answer, what can I do
if you still lock your
heart, heart
nothing can be

no, no, no
I won't leave you alone
round, round, round
always hanging around
to make you realize that you've been loved to

there's so much things to be said and to do
there's so much moments you'll be missing to
but you don't want to answer, what can I do
if you still lock your
heart, heart
nothing can be

Maria Sudibyo
Locker Room

The mouth is shut down
But our heartbeats could tell quite
A lot of story

Maria Sudibyo
Lonely

It is lonely
When nobody shakes hand that
Already opens

It is lonely
When I open the door and
The light is still dark

It is lonely
When I can not follow what
Everyone laughs at

It's lonely
When I can't share happiness
To the one I love

Maria Sudibyo
Lonely Star

lonely star
someday will reside in your heart
like enchanted song, silently unstoppable
shaking the soul
only human can feel lonely
though surrounded by many friends
impala and lion do not know sadness
tiger and wolf also can not shed tears
this wide world
is not hanged over the star
me and everybody
are the lone children
there is no choice can be made in our heart
though stare them all from above
but who ever we are
if feel alone and lonely
why don't keep walking
free yourself from lonely darkness
to meet someone
to move forward
challenge the sky
to the middle of unknown people

Maria Sudibyo
Lonesome Song

When you alone and you long me
When no one’s able to hear you
Just breathe of the air and call out my name
I’ll be in the wind that blows around you

When there’s crowd and you long me
When every faces cheering you
Just close your eyes and call out my name
I’ll be in the quiet corner smile to you

When you’re stuck and you long me
When world becomes stranger to you
Just shout loud and call out my name
I’ll be in the door to welcome you

When you’re down and you long me
When all fingers point to you
Just throw sorrow’s wine and call out my name
I’ll be in the hand to help raise you

When rain’s hard and you long me
When you lost in the dark road
Just clear your tears and call out my name
I’ll be in the front always wait you

When time’s cold and you long me
When one by one love’s leaving you
Just listen your heart beats and call out my name
I’ll be in memories that live in you

Maria Sudibyo
Long Distant Twin

I wish that you'll be here
I wish that I'll be there
It's looking you happy there
I wish that you'll be here
I wish that you think me there
Am I looking happy here?
What can I do if I was there?
What can you do if you were here?
I wish that I'm there
I laugh and play here
Only to feel lonely
You know I'm jealous
It's looking you happy there
But deeper down my dream
The only thing I hope
I wish that you'll be here
with me

Maria Sudibyo
Long Drought

Chime's song try to calm
But wind blows dust everywhere
And days keep burning

Maria Sudibyo
Long Journey

Aku berjalan, waktu berjalan
Aku berhenti, waktu berjalan
Menatap ke depan, jalan membentang
Menatap ke depan, waktu menghalang
Menyeretmu tiap hentakan
Tanpa mengajari cara untuk terbang

Maria Sudibyo
Long Lasting

Long lasting is
When every layer has been unfolded
When every secret has been revealed
When every hour has been spent
When every detail has been skinned
We still could be stopped
We still could be caught
We still be mesmerized
We still be attracted
Only by its mere presence

Maria Sudibyo
Long Winter

The earth enjoying hot summer
And people preparing the feast of autumn
But come sudden winter storm

Maria Sudibyo
Look Away

Just look away
And don’t turn around before I allow
I don’t want to ask you to lie
You can say that you don’t see
Even the truth is right in front your eyes

Just look away
And forget the flash image you caught
It’ll be easy for you to escape
If you erase the thought in your mind
Even you have already known or guessed

Maria Sudibyo
Is it so hard to talk to you?
When something is not like you want
You immediately put your defense wall
And attack me with your weak argument
Till I can see your insecurity
Your fear of rejection and repression
Sometimes it's so pitiful to watch your lie
But sometimes I want to say enough
And end this one sided relationship

Is it so hard to listen something bad?
Or because it's different with what you thought
That made it unbearable
And you start again in your narrow minded attitude
Why don't you try to understand
That everyone has each opinion
Each has another life that doesn't revolve only to you
Sometimes I could laugh to your foolish arrogance
But sometimes I wish that it is not so bitter
And we are not going to make a whirlpool again

Maria Sudibyo
Loss

When I count everything I lost
I try not to cry with all the cost
Because regret is like a ghost
My shadow I'm afraid the most

Maria Sudibyo
Lost

Body could take a bath
Cloth could be washed
Face could be masked
But stained heart couldn’t be cleaned easily

Wound could be stitched
Chair could be repaired
House could be renovated
But broken soul couldn’t be mended easily

Hair could grow
Glass could be replaced
Rope could be knot
But cracking faith couldn’t be set easily

Love could be searched
Money could buy
Power could cover
But precious time couldn’t be back again

Man could be killed
Evident could be erased
Truth could be forgotten
But dirty secret couldn’t be sealed forever

Maria Sudibyo
Lost Cause

We desire something
We sacrifice time
We're working hard
We tire ourselves
We lack sleeping
We repress feeling
We lose purpose
Just for what?

Maria Sudibyo
Lost In Translation

There you go again
You make a wrong movement
I want to bare the proof to you
But I have decided not to care anymore
I already give up to confront anything
I don't have a wish to open anything
I am always responsible
I do my duty, I follow the rule
But it doesn't mean my heart should also be there
I'm not your doll to play
You can not bend me to your will
I'm never keeping a grudge
But you must know that I'm very revengeful
Who says I can not be cruel?
Who says I can not be cold?
Do you hurt?
I do too
Are you mad?
I am more than that
It is funny that I should create some conditions
So I won't be fall to a bottomless abyss
It is ridiculous that I try to count your fault
Just to search the reason why I should not hate you
You only remember when you are being hurt
You are filled with your own assumption
That everyone in the world is against your happiness
And forget many times you disappointing me
I've learn the pain from the best
I've been fooled to the lowest
Yet it's so ironic
That I could still be hurt by you

Maria Sudibyo
Love And Friendship

Some will definitely choose love
Some will prefer to save the friendship
Some will still trapped between and can not decide
But I will greedily want both

Maria Sudibyo
Love And...

Love and jealousy
Is an endless tragedy
When eyes clouded to see
All turn into enemy

Love and doubt
Is an icy road
When trust is not on the track
It only waits to crack

Love and fate
Is an entwined state
Even if they separated
It always finds the way back

Love and problem
Is a fragile stratum
If you could handle the storm
It will build a stronger form

Love and anger
Is a feast of hunger
If you blind by desire
You only burn each other

Love and pride
Is a jumble ride
If you could not throw it to the side
You only turning wide

Love and mistake
Is a forgiving act
When you have done everything to try to hate
There comes consoling stage

Love and betrayal
Is a test for the loyal
When it is offered to all
Only sincere heart rejects the call
Love and distance  
Is a spell enchanted  
Once it spread in the front  
Your fear halts you to find

Love and time  
Is a game of waiting  
It will fade along the line  
Or you will win it in the end

Love and uncertainty  
Is an exhausting tally  
When your feeling hanged in 'maybe'  
Question appears 'is he meant to be?'

Love and past  
Is a memory flash  
When broken pieces still make a rush  
Hope tears generously wash

Love and choice  
Is a choked voice  
When sacrifice should be made  
Decide for yourself what's really worth

Love and pain  
Is a continuous rain  
When you willingly to bear  
It will be easy for night to spare

Love and regret  
Is an old bridge  
Even you consumed with guilt  
Don't let the one you care also be swept

Love and death  
Is farewell gate  
When the body turns to cold  
The faith is the only you can hold
Is an affair note
Till you no longer can hide
Forever lies will become the truth

Maria Sudibyo
Love Arrow

Love

Don't expect it to return full

Maria Sudibyo
Love At First Sight

I have loved you long before I meet you
I have dreamed about you long before I find you
I have drawn to you long before I know you
I have loved you and I want to fall in love again with you everyday

Maria Sudibyo
Love Drama

I could solve the puzzling mystery
I could mix the complex formula
I could invent something innovative
I’m the one to be called genius
But I may never understand you

I could get everything I desire
I could charm everyone to my arm
I could move them as my pawn
I’m the one people would worship
But you may never love me in return

I could bring the sun shines on me
I could make all men turn their face
I could order them with only single glance
I’m the one who admired beautiful
But you may never look at me

I always escape from critical point
I always win the gamble I gain
I always take the best spot in the place
I’m the one people consider lucky
But I may never have you in my life

Maria Sudibyo
Love Forever Love

I like you
I adore you
But could it be enough to be more than that?

I could always be interested with your state of mind
I will never be bored with your honest reaction
But could it be enough to take a step forward?

I could be warmed by your attention
I could be strengthen by your support
But could it be enough to grow this feeling for you?

I want to erase your misery
I want to comfort your sorrow
But could it be enough to not only pity you?

I could be surprised by your words
I could be confused by your behavior
But could it be enough to deny this attached string?

I could get lost in your deep gaze
I could be drawn by your radiant smile
But could it be enough to fall in love with you?

I could sacrifice anything to make you happy
I could destroy the world to save you
But could it be enough to fight for your affection?

I could never stop thinking about you
I could imagine if you are mine
But could it be enough to join this madness?

I could be lured by your sweet words
I could be seduced by your fleeting touch
But could it be enough to feed desire in me?

I could share you some secrets
I could trust you some weakness
But could it be enough to lay my heart completely?
I could be impressed by your dream
I could be flattered by your kindness
But could it be enough to be bound with you?

I could be caught by your bright light
I could be attracted by your gentle soul
But could it be enough to promise hope for you?

I could chat with you for hours
I could sit down with you in silence
But could it be enough to continue this relationship?

I could be intrigued by your mystery
I could be thrilled by your danger
But could it be enough to stand with you?

I could be fascinated by your delicate hands
I could be awed by your cute expression
But could it be enough to keep me from leaving?

I could wait for your shadow
I could be faithful for your vow
But could it be enough to love you forever?

Love Free

You are free to give your love to anybody or anything you like
Even that object will not always surely understand the way you give your love

Maria Sudibyo
Love In The Darkness

now you'll feel it too
pain that I feel...when lost my love in front my eyes
long loneliness...that I feel...after losing my love
days full of grieving always felt...because hatred
and nights full of regret live...because lonesome
it will be your burden now
so why you wasted energy for something like love
your love that change me into demon
should you love so deeply?
if by the end, everybody becomes sad

Maria Sudibyo
Love In The Time Of Night

When you're far from my sight
Your shadow always filling mine
The gentle of your hands
The warmth of your arms

Remember me
Think about me
If only you're not the sun
chasing the dawn

Pale moon waiting to disappear
On the bridge I'm heavily sighed
Where are those hands
I need your arms

Remember me
Think about me
But you're the sun
and I'm only the moon

Maria Sudibyo
Love Is Hate

Love is hate
Hate to see sorrow and sadness
Glad to see smile in the face
Love is stupid
Stupid in making logic
Stupid in counting profit
Love is destructive
Destroy any borders and prejudice
Love is selfish
Selfish sacrifice anything to safe life
Love is quit
Quit to talk nonsenses
Do a good thing real
Love is war
War against violence
Fight to make a peaceful world

Maria Sudibyo
Love is imagination
We first imagine someone
That will be with us
Here and forever
We imagine someone
That always on our side
In sad and happy moment
We imagine someone
That gives us power
Through all difficult time
We imagine someone
That gives us dream
To fly to the wide sky
We imagine someone
That sleeps with us in the night
And still there when we open our eyes in the morning
We imagine someone
That gives us children of love
And spends his old days with us
We imagine someone
That makes us laugh
Until happiness hurts
We imagine someone
That makes us cry
Until tear becomes relief
We imagine someone
That really cares and loves us
When our imagination fits with our heart
Love continues...

Maria Sudibyo
Love Letter

sometimes I think it's not fair
you occupy my mind, my heart
my eyes, my body
without trying hard
your love is like salt water
the more I get, the more thirsty I am
I don't know what will happen
if I lose it
or if I don't love you anymore

maybe I will lose
my mind, my heart
my eyes, my body
thought I want to forget
so I try to like you, every good and bad of you
more than I love, more than I hate
because if I really lost
I will not become old lady vengeance
that's not loved by anyone

Maria Sudibyo
Love Logic

When you search for love
Open your heart
And close your logic
When you want to keep it
Open your logic
And close your heart

Maria Sudibyo
Love Me If You D(C) Are

Love me if you care
Love me though nobody stares
Or asks how much its fare

Love me if you dare
Love me though everybody scares
And tell you not to be bare

Love me if you care
Love me though I find it’s rare
Someone sincere to declare

Love me if you dare
Love me though there may be nightmare
And crazy like the March hare

Maria Sudibyo
Love Prayer

I pray
Don’t erase my smile from my face
Don’t take the light from my pace
I want to always whisper love to your ear
I need to stay strong for your fear
So let it flow, but don’t let it go
Let it be free, but don’t stop to be
My reason to be happy
My will of living

Maria Sudibyo
Love Seeds

Fly with the wind
Fly with the rain
My love seeds
But grow in the deep sea
Deep in the heart
Shine with the sun
Feed by the earth
My love seeds
When the night's fall
It covered me
and frozen

Maria Sudibyo
Love Song For You

I have boyfriend
I have boyfriend
But somehow I don't understand
With tears I should call
Like a fool to get calm
I can't sleep
My soul in the night is trapped on a story
I'm really selfish
That guy is so kind
I have boyfriend
I have boyfriend
Every pages of my heart want to be filled
I have boyfriend
I have boyfriend
But something I don't understand
Me, everybody, all of us realize
The backstage story of happiness drama
The one who calls just me
Because he would never do that
Me, everybody, all of us realize
The backstage story of happiness drama
The one who wants to meet just me
Because he would never do that

Love Stage

Love has so many forms
Love has so many names

Will you trace your desire
Or will you hide and shy away
Will you embrace your dearest
Or will you keep denying your own emotion

Love has so many faces
Love has so many facet

And you will consider yourself lucky
When some reflection directed to you
And you will feel miserable
When the light doesn't shine upon your shadow

Love has so many layers
Love has so many fabrics

How you will weave the bond
And how you will cut the seam
How you will knit the thread
And how you will tear the knot

Love has so many wishes
Love has so many games

You thought you have known it all
But then it throws you back to the start again
You thought that you finally have full control
But in seconds it clutches your deepest wound

Love has so many phases
Love has so many stages

Once you are filled with hope and joy
But at the end you fall so lonely
Once you are so confident
But at the end you can't put your wager
Love has so many mystery
Love has so many destiny

And it takes you long to realize
That you only waste your time only for reason
And it takes you hard to remember
That even faithful lovers have their season

Maria Sudibyo
Love Still

He is young
He is alone
He lost in the unknown world
And then he meets her

She is young
She is curious
She wants to see the unknown world
And then she meets him

He is handsome
He is naive
He is sometimes so clueless
But she loves him

She is beautiful
She is bold
She is out of his reach
But he loves her

Even though he should break the rule
Even though he should be a pirate he hates
Even though he should sacrifice his life
He loves her

Even though she should lie to protect
Even though she should marry someone she doesn't love
Even though she should deal with the ghost
She loves him

And when she thought they will never be together
When she looks into his eyes
He says he loves her

And when he has a courage to confess
When their lips met
She says she loves him

When troubles ahead
When they forced to separate
When destiny revealed
He believes in love

When fate intervenes
When desire is uncertain
When danger attracts
She hopes in love

Even though doubt starts to grip
Even though burden is hidden
Even though facing a hurtful scene
He still loves her

Even though betrayal rises
Even though consumed with guilt
Even though must choose a difficult choice
She still loves him

When they barely talk and speak sincerely
In his heart he still loves her
He yearns for her

When they becomes distant and strained
In her heart she still loves him
She cares for him

He should save his father and give up about her
But he can't leave her
But he will do anything for her happiness
Because he loves her

Even though they argue and fight
His hugs always ease her sadness
She doesn't want something happens to him
Because she loves him

When she bravely stood in front of all the men
When she speaks about freedom
When the wind blows her hair as the color hoisted
He can't believe he is falling in love again
When she finds he always there for her
When she learns that he never says goodbye
Even though they should battle in the madness of war
She can't believe she is falling in love again

When he asks her to marry him
When he has decided his heart
When he doesn't want to lose her again
He promises to love her forever

When she says her vow
When she at last bound to him
When her dream comes true
She promise to love him forever

When the time seems to stop
When he can not even say his last word
When his body becomes limp and colder
He realizes he really loves her

When the cursed sword stabs his heart
When she screams with all her world torn apart
When she pleas him to open his eyes
She realize she really loves him

Even though now they lives in different world
He knows she always loves him
And that is enough

Even though she doesn't know how long she should wait
She knows he always loves her
And she can bear it

Maria Sudibyo
Love Tell From Hadal Zone

Let a husk love words whisper about you
And if someday that words fade eaten by time
Your mark left like a picture on sand sea
Gradually wiped by tide and brought into the heart of ocean
To the deepest, to memorized place without glittering light

Maria Sudibyo
Love Triangle

She may not be my favorite person  
She may always put me on the edge  
Sometimes I think she deserves it  
But I don’t like the way you broke her heart

I may not be compared with her  
I always hold a jealousy over her  
Sometimes I think I could love you better  
But I don’t like the way she broke your heart

You always know I have feeling for you  
You are cruel to give a hope to me  
Sometimes I think I’m destiny to wait forever  
And I don’t like the way you broke my heart

Maybe I’m ungrateful human  
Or maybe because I don’t want to lose anyone  
Sometimes I wish heart would be simpler  
And I don’t like the way I broke your heart

Maria Sudibyo
Love Triangle: Fairy Tale

You still dream about fairy tale
When princess meets her true love
I’m willingly to give my life for you
But what I’ve got is just unrequited story
Why can’t you feel?
It will be me, me
That sacrifices my soul to make you happy
It will be me, me
That saves you from the dragon
But I’m just your knight
You are destined to fall to a prince

Your innocence makes you clueless
It’s a dear but also my desperation
How you will never realize
What you unconsciously do to my heart
Why can’t you see?
It is me, me
That wants you to smile only for me
It is me, me
That always look after you secretly
Though I’m your prince
It seems I couldn’t separate you from your knight

Everyone says I’m a lucky girl
Till they envy me and starts to hate
I can’t deny my own feeling
But they always force me to choose
Why can’t you find?
It will be me, me
That could see clearly behind facade
It is me, me
That have the power to make everything on the right way
Maybe I’m the princess
But who says I’m the only one that should be happily ever after

Love Will Save The World

Put aside pride, put aside prejudice
Put aside intention, put aside past
Put aside distance, put aside difference
And we got people who only need each other

Put aside rivalry, put aside envy
Put aside temper, put aside fear
Put aside vision, put aside norm
And we got people who only care each other

Put aside gender, put aside age
Put aside look, put aside race
Put aside wealth, put aside status
And we got people who only love each other

Love..Or Mad

aku ada cinta
hati yang membara
rasa ini semakin menggila
menyebar di dalam dada
ku tak berdaya
kau tak juga beri tanda
aku ada cinta
yang seperti neraka

I have love
burning heart
this emotion's going wild
spread contagious inside
I have no power
you don't give a sign
or don't even get to understand
I have love
that turns like hell

Maria Sudibyo
Love/Hate

I love you
I hate you
It supposed to be love
But somehow it got the taste of hate
Inside I care about you
But sometimes I want to strangle you
Maybe I need to hug you
But we can't stop to argue
So do I love you?
Or actually hate you?
I'm hungry with your warmth
But your touch is like a poison
Today we are sweet and lovey-dovey
Tomorrow we are cranky and moody
Can I insanely in love with you
But also fiercely hate you at the same time?
I don't know if I'll be burning by love
Or hate will turn me into ashes first
I don't want to love you
But I'm tired to hate you
It is some kind of love, right?
Or is it just egoistic hate?

Lover In The Dream

I meet my lover in the dream
He comes in the night and makes beautiful dream
I know he is my soul mate when I look at him
I could act like all girl who fall in love
He’ll never hurt me, I’m safe in his arms

I meet my lover in the dream
He comes in several nights till I thought it’s real
I know he is my soul mate and I love him
He makes me feel happiness just be with him
He loves me through his heart like nobody else

When will I meet my love in real life?
He comes to my life and never leaves again
He will be my soul mate the more I know him
He treats me like precious girl
He’ll never hurt me, I would be safe in his arms

Someday I meet my lover like in the dream
He comes to my life assure me it’s real
He is my soul mate and I love him
He loves me through his heart and nobody else

Lover Tango

Love, love
Love that never comes closer
Time, time
Time that never dances together
Lucky for destiny
Or work hard for tiny?

Love, love
Love that never stays forever
Time, time
Time that never looks over
Prone for fidelity
Or obsessed for dignity?

Love, love
Love that never shines brighter
Time, time
Time that never waits longer
Color for property
Or sorrow for pity?

Maria Sudibyo
Lover's Crime

Everybody who falls into this deep place
Will slide to groundless cliff
My passion becomes mountain
My tears become rain
Though in this world there’re lots of criminal
There is no criminal in romance
Sneaking is the curtain of night
You are not the only man in this world!

Lover's Doubt

It is sorrow seed, it is venom deed
O doubts creep

It is jealous beat, it is affair treat
O love cheat

Maria Sudibyo
Lover's Ultimatum

All my life
Maybe I'm imagining things
All the dream
Always like I want it to be

Maybe you'll stare and start laughing to me
Maybe then you'll think to leave me for real

Keep your secret, baby
I don't really want to know
Keep your story, baby
I don't need another brawl

Keep your plan, baby
I can hold the surprise
Keep your thought, baby
I can resist temptation

Maybe you just act and build up a lie
Maybe you will dump me after your wish is done

Keep your reason, baby
Don't whisper in my sleep
Keep your sorry, baby
Don't add anymore pain

Keep your sweet, baby
Just don't care too much
Keep your warmth, baby
Just give it to some other

Maybe we are too impossible to stay together
Maybe you force your self to become a good one

Keep your mask, baby
Don't crack it at the moment
Keep your cry, baby
Don't reveal your unwilling share
Keep your breath, baby
I think I can't hear you now
Keep your strength, baby
I think I'll better be gone

Loving Mother Goes Too Far

Loving mother goes too far

but doesn't allow anyone including her child
love her back
Loving mother goes too far
when she protects like a knight
ev even from single dust particle
and forget the child should learn to survive without her
Loving mother goes too far
when she thinks that her child's happiness is her happiness
and keeps her heart hurt because it can't be true

Loving Someone

Loving someone who easy to be loved
Loving someone who deserved the love
Loving someone who isn't loved by anyone
Loving someone who loves nobody
Loving someone even though he is a heartless bastard

Loving You

I love you, I love you
I may not always think about you
But I love you, I love you
I really do

I love you, I love you
I may not always show you
But I love you, I love you
You should know I do

I love you, I love you
I may sometimes hurt you
But I love you, I love you
I never mean to

I love you, I love you
I may never say it to you
But I love you, I love you
I always do

I always want you to be happy
Because I love you, I love you
I believe I can find the best of you
Because I love you, I love you

I never want you crying
Because I love you, I love you
I need you to be stronger
Because I love you, I love you

Lucky Day

It will be my lucky day!
And I don’t care what premonition says
It will be my lucky day!
And I don’t care if they all stare
Watch me dance, watch me smile along the way

It could be my biggest day!
Sailing closer to my final bay
It could be my biggest day!
And I don’t want to lose it with delay
Even I fail, even I thrown away

It could be my bright day!
And there won’t be helpless mayday
It will be my bright day!
For no moment leave my pray
To go through dark valley

It will be my good day!
I could live for another ray
It will be my everyday!
If I could face everything on my way
And never give up finding a better day

Maria Sudibyo
Lullaby Theme

Fly away my darling
Lightly in your dream
Forget a while the sadness
That weights your heart

Soon you got to wake up
And hope will find the way
To push you from the darkness
All wait for your love

Made In God

God likes beauty
That's why God makes this world beautiful
God likes hope
Because it is where God gives the power to the creature
God likes goodness
That's why it never really disappear
God likes faith
Because God lives in it
God likes love
That's why God creates the soul that able to love
God likes life
Because there always a reason behind all things
God likes dream
Because it is the way God send the message
God likes sincerity
That's why it could move the heart
God likes humor
That's why there is laugh even in strange situation

So don't easily judge something
It is not God's made
It is devil's sign
It is evil work
It is bad omen

Only because
It is frightening
It is threatening
It is not understood
It is too popular

Because maybe
God likes that thing too

Maintenance

You may not have attention to care something you use
But remember that the cost of maintenance is always cheaper than the price to
fix it when it's broken
And not every of those things that could be got back

Man Always Cries Alone

The woman may turn cold
The child may grow old
But man always cries alone

The world may change dark
The rain may flow high
But man always cries alone

The wolf may shed none
The moon may step down
But man always cries alone

The word may start fade
The people may quickly forget
But man always cries alone

The wound may ache wide
The blood may never dry
But man always cries alone

The will may lose sight
The threat may spread fright
But man always cries alone

Mantra Hujan

Hujan, terus hujan sepanjang hari
Hujan yang tak henti
Seperti ingin mendinginkan bumi yang panas
Hingga kembali mengeras
Atau malah ingin menguasai dunia
Dengan melapukkan manusia

Hujan, terus hujan sepanjang hari
Hujan yang tak henti
Seperti ingin meminta hati yang sepi
Turut serta dalam nyanyian sunyi
Atau malah ingin menarik jiwa yang tak peduli
Masuk ke dalam tidur abadi

May I Be Happy?

God, may I be happy?
with what I own
with what I release
with what I hope

God, may I be happy?
for people close to me
for nowhere people
for everybody I'll meet

God, may I be happy?
though I'm not always honest to my heart
though there's still someone I hate
though I'm disappointed someone I care

God, may I be happy?
if I've change a lot
if I leave this path
if I stranded in far and dark side of the world
there's one thing I want to ask
God, may I be happy?

Maria Sudibyo
Me

I lost me
I forget about myself
Me from the past
I'm still me
But I'm not me
I have changed
From the time I'm just me
Now I grow up
To loose a part of me
To know myself
To love, to hate, to care
For better or worse
of me
Be a part of me

Mechanism Of Man, Wizard And Immortal

Man are from the soil
That's why man live and grow on the land
Man are weak but warm

Wizard are from the stone
That's why wizard seem amazing and strong
But wizard are brittle and stubborn

Immortal are from cloud and water
They can't be touched but always there
Immortal are eternal and fair

Memorial Day

Birthday, valentine, Christmas, anniversary, any memorial day
Those days are reminder to us
Not because without those day we don't love or care anymore
But sometimes human can forget too
About what’s important, what’s precious in this life
Or because we so used to have it for a long time
We don’t realize that it could be gone too
Before we appreciate it more properly

Maria Sudibyo
Memory

Memory
Is a painted wall
We brush another layer
Every time we make new memory
Sometimes thick, sometimes thin
Sometimes rough, sometimes smooth
Sometimes dark, sometimes colorful
Sometimes abstract, sometimes clear
Definitely it will fade or flake as time goes by
Maybe by the weather
Maybe by vandalism
Maybe because forgotten
And maybe it will reveal old memory
Under the cover
Wanted or not

Mine, Mine, Mine

All the sweets give all to me
All the toys set all for me
All the affection pour all to me
All the attention shine all to me
All that yours will all be mine
Because it's eventually
Mine, mine, mine

I will have everything I want
I will bend you to my will
I will always win the round
I will sit in the high throne
I will live in the world of mine
Because it's definitely
Mine, mine, mine

I do not need to be fair
I do not learn to share
I do not tolerate rejection
I do not consider competitor
There will be no one else's but mine
Because it's absolutely
Mine, mine, mine

I will easy be jealous
I will hardly be pleased
I will lovely when I'm good
I will vicious in bad mood
Don't you dare to lay a hand on mine
Because it's always
Mine, mine, mine

I may not favor it
I may not adore it
I may not question it
I may not even glance at it
But I will never release once it's mine
Because it's already
Mine, mine, mine
I will take what's other
I will care what's taken
I will keep what's cared
I will possess what's kept
I will destroy if it can not be mine
Because it must be
Mine, mine, mine

There's a lot things that precious
There's a lot things beautiful
There's a lot things I own
There's a lot things I desire
All for myself and mine alone
Because it forever be
Mine, mine, mine

Minority Majority

I am me
I didn't choose my parents
I didn't choose my root
I didn't choose my origin
But I decided to live
I am different
And you are too
Nobody's same in the world
So don't make it a matter to leave me
Because I'm happy to be me
You hate me
Because you don't know me
You are scared with me
Because you don't want to be stranger
But I know and want what I believe
I can laugh, I can cry too
I have a dream, I have an anger too
Why are you judging me
and telling me that I'm wrong creature?
Don't make a reason in the name of God
Or any other reason you thought to be right
Open your mind, open your heart
And we don't have to fight
You don't have to kill anybody
Let's break the system!

Miracle
Is not about to be an almighty that could solve any problems
But to be a small part that complete the pieces of puzzle

Maria Sudibyo
Misery

What use I remember
For the pain is as clearly as it happens
What use I know
For the rage is as burning as it ignited

Whose dream now that I’d destroy?
Whose heart that shattered apart?

What use I learn
For the knowledge is tasted like grain of dust
What use I find
For the truth is tearing my perfect mask

Whose love that I sabotage?
Whose road that I cross over?

What use I protect
For the reason I should do is gone
What use I fight
For faith is blurred in front my eyes

Whose breath that I take away?
Whose world that begins to falling down?

You will make a mistake
If you make a mistake
You will make another mistake
If you make another mistake
You will make some mistake
If you make some mistake
You will make many mistake
If you make many mistake
You will never make a mistake

What’s your mistake

Maria Sudibyo
Mister Obvious?

Why do you like to state the obvious?
It is because you want to satisfy yourself
It is because you want to take credit from someone else
Or it is because you realize it too late

Why do you keep stating the obvious?
It is because your memory is disturbed
It is because you don't know what to do
Or it is because you only want attention

Why do you always state the obvious?
It is because you are some kind of fool
It is because you only want to tease me
Or it is because you want to further irritate me

Maria Sudibyo
Mistral

Mistral
Strong wind to end winter
With that I’ll paint city full of color
To spring theme
To the blue sea...to the blue sky...
Further...higher...
I’ll forget the land I trust so far
Because you suddenly come
In front of me that walking plain
When two winds meet
That wind twirl makes my eyes spin
Like merry-go-round on the sky
Mistral
Blue wind spring caller blows to the sea
I can fly to the sky
Because you throw my weakness
After passing this season
Blow again mistral
Further...higher...
To the blue sea...
To the blue sky...
Further...higher...

Misunderstanding

Could bring someone to do drastic and tragic decision
Only because misunderstanding

Maria Sudibyo
Moment Of Fallen

Like slow motion
But I could only stare it still
Sound of fall breaking silence

Like known ending
But I do not move to stop
Shards of fall tearing skin

Like bitter sight
No matter how much I later cry
Current of fall never fail

Like destiny point
No matter how I want to linger
Meeting of fall is separation

Maria Sudibyo
Moment Of Romance

Monsoon

Another rain
Another unstoppable train
Does anybody could see the drain?
Being alone makes me an easy lonely
Without reason
I feel the coming of monsoon
It will be too much gray cloud
It will be too much water
Before my heart breaking drown

Another vain
Another cold friend
Does anybody could care for the grain?
Being alone makes me a little colder
Without season
I feel the coming of monsoon
It will be too much flash of lightning
It will be too much crying
Before my heart breaking frozen

Maria Sudibyo
what's the feeling that most eating me inside?
is it boredom or loneliness
or do they make symbiosis to form dark shadows
slowly
my heart's ripped skin by skin
cold, strong, and ruthless
venom spreads in my veins
slowly
I can't even recognize myself
thunder and storm
the monster has came out from my chest

Maria Sudibyo
Moon Reflects On Water

I thought that
'heart' was beautiful, pure and unbroken thing
My heart should be beautiful and bright too
I believe it is born to light his heart
Never only be the shadow of shining moon
in the dark night sky
My heart should...must be beautiful and bright, but..
it's not
Why I'm such a fool and proud one
My heart... like reflection moon on water, so small
like moon's hidden by the cloud
Even shining moon on gloomy night
could lose its charm

Maria Sudibyo
Moon's Drop, Stellar Tears

That is memorized ray of your life
Little light inside my heart
Can you see light of life?
One in each
Sparkling light
Plentiful light
Lights that connect with
Mother, child, or lover that will be sad
If the light disappear
Can you feel light of life?
That most beautiful in the world
One in each
That would never be changed

Maria Sudibyo
Morning Drizzle

Today
If you find out the rain is rattling outside
Don't put your blanket on
And sleeping again

Today
If you find out the wind doesn't stop whistle
Don't close your ears with your hands
And hide your fears

It's just morning drizzle
It's just shower from the sky
That waking this world
From cold winter time

Today
If you find out the sky is grey
Don't you hesitant to go outside
And ruin your perfect day

Today
If you don't see the sunlight shines bright
Don't keep your mourning
And forget to smile

It's just morning drizzle
It's just a mighty spray
That splashes you warning
In your joy of spring

Today
If you find out the cloud doesn't disperse
Don't keep the loneliness inside
Behind the dusty window

Today
If you find out the damp street
Don't let your mood darkening
And grudging over the muddy puddle
It's just morning drizzle
It's just a water breeze
That cooling this land
From the heat of summer

Today
If you find out the plants soaked with downpour
Don't let your heart heavy
To do what you have to do

Today
If you find out the leaves falling helplessly
Don't also feel so weak
To be blown by cruel storm

It's just morning drizzle
It's just the season's change
That washes you some fun
In the harvest of autumn

Maria Sudibyo
Morning Kiss

It was a kiss
A kiss in the morning mist
But she doesn’t know whose lips it is
She doesn’t know who ghostly touches her heart

It was a kiss
It was definitely a kiss that wakes her sleep
But she wonders now whether she still dreaming or not

It was a kiss
It was a sweet and dark kiss
Who dares to sneak in her room and steal her lips?

Maybe he is a secret admirer
Maybe he is a desperate lover
Maybe he is a heartbreak murder

It was a kiss
A kiss that makes this morning strangely bright
And she wants to forget, she starts to keep smiling all the time

It was a kiss
A kiss that brief and suddenly came to her cold and calm life
It changes her feeling
And she can’t control the world anymore

there I'm alone
I don't want to lose anything again

Maria Sudibyo
Mourning Period

Wash the remain of midnight grief
Put a make up on your pale face
And wear the best black gown

Head on the consoling words
Accept their sympathy smile
And white handkerchief on the hand

Though the sky becomes dark
Though the air becomes cold
Keep breathing, keep breathing

Though the rain starts falling
Though the tear is following
Keep walking, keep walking

The flowers in full blossom
The candles dance in silence
And the picture of you smiling in the middle

Though the world goes distant
Though the night will be alone
Keep struggling, keep struggling

Though the voice is trembling
Though the sorrow is gnawing
Keep reaching, keep reaching

When the soil finally closed
The people slowly singing
Farewell, farewell

Maria Sudibyo
Move Forward

Move forward
Don't turn back
Before the tears crack
And admit your losing heart

Of defeated
Of betrayal
Of shame

Keep forward
Don't try to turn back
Because behind you there's only dark
That ready to swallow you hard

Of grief
Of failure
Of blame

Stay forward
Don't dare to turn back
Because what's left inside
Is only an ugly mark

Of shadow
Of desire
Of lame

Much A Do About Nothing

Too much time to wait
Too much nonsense to talk
Do we realize?
We much a do about nothing

Too many thought for trivial thing
Too much pride for simple matter
Will we realize?
We much a do about nothing

Too much hatred in watching
Too much angst in reading
Could we realize?
We much a do about nothing

Too much energy to laugh
Too much bitterness to share
Though we realize
We much a do about nothing

Too many advices to keep the health
Too many rules to guide our life
And then we realize
We much a do about nothing

Too many strategies to win the battle
Too much work to pay the bill
But we realize
We much a do about nothing

Too much emotion to reason failure
Too many questions to prove loyalty
When we realize
We much a do about nothing

Too much formality for an action
Too many lies for denial
So we realize
We much a do about nothing

Mungkin

Mungkin aku telah tertipu mulut manismu
Padahal kau hanya menawarkan cinta palsu
Mungkin aku bermimpi memilikimu
Padahal aku terjebak permainan cintamu

Mungkin kau hanya mencari kebahagiaan semu
Dan aku hanya memuaskan rasa ingin tahuku
Mungkin kau tak memikirkan diriku
Dan kau membuatku percaya hanya itu

Mungkin aku tak peduli
Karena aku tak pernah menyesal memilihmu
Mungkin aku tak perlu mengerti
Karena aku terlanjur mencintaimu

Mungkin semua ini adalah kebohongan yang indah
Dunia ilusi yang kita ciptakan bersama
Mungkin kita semua mempunyai sebuah rahasia
Tentang perasaan sepi yang kita punya

Music Is Like Ice Cream

Music is like ice cream
there are so many kind of flavors
From original taste, to the weird one
From single scoop, to lot of toppings

In happy time, or sad moment
Whether soft, sweet and melting down
Whether hard as rocks and thrill your soul
Everybody who likes it
Always says, “Cool! ”

My Confession

I try to find the right word to describe how I feel
I search a perfect place to say my deepest desire
I need a moment when you finally only look at me
Don't you know I change clothes every minute before the meeting time?
Don't you know I look at my watch every second when I'm waiting you?
I keep thinking about your answer
I'm afraid I'll ruin this rare chance
Or maybe even I'm gonna lose you
Will you say yes?
And makes me the happiest man alive
Will you say no?
And makes me more devastated
Will you say maybe?
And leave me hanging on the wall
But in the end all are not matter
Because my heart already decide
You are my love
I want to be the name you call
I want to be the love you see
You are my love
I want to give you strength and warmth
I want to keep you safe and sound
You are my love
I will protect you but also give you freedom
I will cherish you but also give you a choice
If you allowed me to come into your heart
If you want to give the affection for me
If not I'll still watching you from distant
Because I'll find the other way to care for you
Because I can't stop suddenly my love for you
Because I'm helplessly in love with you
This is my confession

Maria Sudibyo
My Desire

It will fade
Though it'll never be gone
Only sleeping
Behind the curtain of time

It may be forgotten
But always remain
Only hidden
To be triggered again

It should be settled down
Before turning to madness
Only now
It burns me to the core

open my eyes to new direction
face myself to the real world
cause may be I'm too stubborn

I can't be alone
learning truth that hurt me
so don't let me alone
running this world

My Lover

Maria Sudibyo
My Own Worst Enemy

Every time I get a call
She blows up with stupid action
Answering my phone with wrong response
Telling that I don’t want to go

Every time I should go
She rejects with many reasons
Lazily interact with anyone
Pretend that something more important

Every time I must do something
She becomes spoiled little girl
Urge someone to help her
Acting poorly to get sympathy

She always thinks all be fine
But she is not good liar
She is coward in the last minute
But a monster when mad

Every time someone asks me
What I am doing now
She always makes that stupid smile
Automatically search an escape on mind

Everyone comes to my space
What she first to do is avoid
Feeling someone intrudes her solitaire life
As she wants the time alone

Every time I get in trouble
She runs hiding my words
Mortifying me like dumb
And doesn’t come up before it’s over

She is not so hard to be pleased
But also selfish
She is parasite
And keep fooling in my guts
My own worst enemy is my self

Maria Sudibyo
My Peace

My peace is at a piece of paper
So thin and light
And could be blown by slightest wind

My peace is at eaves
So close yet fragile
And could fall by careless step

My peace is at sway of wave
Sometimes high, sometimes low
And could sweep me in one row

My peace is at seconds
So short and precious
And could quickly vanish before you realize

My peace is at candle in the dark
So tiny and unreasonable
But my heart is hanging on it

My peace is at the rush
So troubled but soothing
It makes me don’t care about the pursuing time

My peace is at the hand of shadow
So vague and naïve
But it allures me to dream and believe

My peace is at the lost
Breaking and torturing
But in the end I always learn it’s the way the life goes on

because the garden's silent and still
I turn on the radio to listen a song
because the radio's broken
I start humming to myself
because there's no sound comes out
I close my eyes try to remember a song
because there's no song play in my mind
I begin to find words can explain
because I lost in words
I wonder why I'm feeling so lonely

Nature’s Call

Over the trees and hill, I wake up alone
I call the name in every wind
When nobody to find, the sound of bird’s crying
Inside the evening glow, I stare at sea of stars
The world is eaten by the dark
When the rain falls, the sound of river’s changed
Under the red sky, I wash my tears
The smell of dew and grass fill my lungs
When I hear your voice, the sound of thunder is distant

As long as you able to walk
As long as you like to dream
In this dark hollow
In this uncertain wind
When you find pieces of light
Keep in your heart
If you swept by current
Or your flame no longer flares
That light will warm you a little
And keep you alive

Maria Sudibyo
Need

It needs courage to hope
It needs more when hope fails
It needs more and more to dare and hope again

It needs will to live
It needs more when it goes down
It needs more and more to raise up again

It needs strength to believe
It needs more when temptation comes
It needs more and more to stay faithful

It needs freedom to dream
It needs more when it is lost
It needs more and more to break the border

It needs heart to feel
It needs more when it is confusing
It needs more and more to admit the feeling

Maria Sudibyo
Neutral

neutral
is a choise to not choose
to look from clear window
not from the glass that has been colored
to not be involved in fight
when there's no benefit for own
maybe it seems always safe and calm
but it's the hardest way of peace and justice

Maria Sudibyo
Never Fall In Love

I believe in love
but never fall in love
true love or lust love
I want love
but never fall in love
am I so cold
and don't have a heart
or so stubborn
and raise wall stone

I search love
but never fall in love
platonic love or passionate love
I'm loved
but never fall in love
am I afraid
to be hurt by the one
or kill it silently
before I find it's gone

I get everything
but never fall in love
I want to love
and wait all my life
should I pick one flower
and pretend it's love
pseudo love, unrequited love or mutual love
so desperate to feel
but never fall in love

Maria Sudibyo
New Phase

First stage is wariness
Second stage is contradiction
Third stage is acceptance
Fourth stage is adaptation
Fifth stage is settlement
Sixth stage is excitement
Seventh stage is experiment
Eighth stage is improvement
Ninth stage is evolution

Maria Sudibyo
Night And Day

there's night
gress's day
and how many always live in dark?

Maria Sudibyo
Night Lover

I love the night
I could hide from all sight
Put away unnecessary bright
And lay down my fright
In warm lover's might
Until the morning light
Call me for another fight

Maria Sudibyo
Night Of Moon And Star

On the surface of see-through water
On the night moon star of the great sky
Hometown...
On the sky that I dream on
Reflects the face that I dream on
Time... will change human
Human's heart... human's being
Human's beauty... and so on
For they are only momentary things
Night sky full of moon and star
Sky reflects the real face of human

Maria Sudibyo
No Calm Before Storm

Bark each other loud
Like we can't wait for the storm
To rage us outside

Maria Sudibyo
No Class Today

White snow stained black
The wound's closed
But hardly healed
Hands start frozen
Listening the air
That sounds like girl's chirp and boy's bark
No class today, children
No daily exam and calculation
I give you time to think
Before you're too old to regret
The years not going back
Leave it empty room
The world contaminated
And you inherit that
My tears fall
You lost in war
All the shout, shout, shout
No class today, my child
No another laugh and cry
I give us time to remember
The innocence soul's gone
By release you tomorrow
No class today, children
No peaceful boring day
I give my time to prepare
Smile good bye next morning

Maria Sudibyo
No Feeling

No shame, no regret
No guilt, no grudge
Is this the way of feeling nothing?

No smile, no shine
No wave, no storm
Is this the path of willing nothing?

No beats, no shake
No shadow, no lure
Is this the journey of being nothing?

No pain, no sting
No tear, no dream
Is this the road of learning nothing?

No love, no mercy
No anger, no flame
Is this the route of showing nothing?

No turn, no change
No delight, no sorrow
Is this the track of thinking nothing?

Maria Sudibyo
No One

No one here around me
So I'm lonely
No one seems to understand me
So I try to talk
No one wants to converse with me
So I try to write
No one interests to read my thought
So I try to sing
No one listens to my song
So I start to laugh
No one thinks I'm sane enough
So I begin to cry
No one comes to comfort
So I stop to pity myself
And learn to be alone

Maria Sudibyo
No Story

Tongues are tied, words are tight
Maybe it's better if we don't have story
And all laid in front of us are only facts
And your presence won't have great impact
Mind is frozen, heart is shaken
Maybe it's better if we lost our memory
And we could still sit down and drink coffee
Without thinking how to act happy

The dream is closed, haunting past the most
Maybe it's better if we don't have story
And all left written in books are only numbers
That nobody cares to learn and remember
For this stupid pride, we continue to fight
Maybe it's better if we don't get the glory
So we are not disappointed and crying secretly
When we are destroyed in history

Maria Sudibyo
Nobody Knows But Time

Nobody knows when the heart is healed
We could only try to cure
Nobody knows when we will feel happy
We could only try to make
Nobody knows when all is end
We could only wait
Nobody knows what will happen in future
We could only prepare
Nobody knows when we find our love
We could only search
Nobody knows when dream comes true
We could only reach

Maria Sudibyo
Noche

The night my lover
No one will ever touch me
Under your blanket

Maria Sudibyo
Not Heavy

I want to live
So even though I should be in difficulty
Every harsh day
I will face the hell
It is the only life
That I ever know
And I never think
It is heavy

I like to dream
So even though everybody said
There is no hope left
I won't be defeated
I still have so many things
I eagerly wish to reach
And then
My feet are no more heavy

I always care
Even though I feel helpless
And very small in this world
I won't lose my self
I won't drown in regret
And self guilty
I believe someday
The road is not so heavy

I need you
So even though I should carry you
Along the way
I will do it
As long as I could kill
This loneliness inside my soul
Beside
You're not heavy

Maria Sudibyo
Not Just A Feeling

If you feel something unfamiliar
Don't deny but ask why
It only leads to a confusion
But if you could admit your selfishness
You could understand better
About yourself

Maria Sudibyo
Not Lonely

No, I'm not lonely
I'm just feeling cold inside my heart
No, I'm not lonely
I'm just lost in the dark of silence
No, I'm not crying
It's just too painful to keep holding on
No, I'm not crying
It's just too tiring to stay strong
No, I'm not afraid
I'm used to be alone, nothing different
No, I'm not afraid
I'm not with anyone, nothing changed

Maria Sudibyo
Not Today, Not Tomorrow

I may want to strangle you down
I may want to hit you hard
But not today, not also tomorrow

I may be tempted to break the promise
I could give no damn for all the roses
But not today, not also tomorrow

I may need to bleed out my heart
I may cry out my desperate objection
But not today, not also tomorrow

I could take the short cut way
I could give up the wrong thing
But not today, not also tomorrow

I could blame all mighty god
I could run away and hide
But not today, not also tomorrow

I could be the cold blooded woman
I could be blind for all the reason
But not today, not also tomorrow

I may have to release my anger
I may not have to hold it anymore
But not today, not also tomorrow

I could just walk away
I could leave to you all
But not today, not also tomorrow

I may beat some senses on you
I may challenge your stubborn view
But not today, not also tomorrow

Maria Sudibyo
Nothing Less Than Me

You can steal my job
You can cut my payment
But you can't take
Anything more from me

You can hurt me
You can harass me
But you can't break
Anything more in me

You can ignore me
You can reject me
But you can't low
Anything more than me

You can make me cry
You can beat me down
But you can't reduce
Anything more of me

You can chain me
You can cage me
But you can't lie
Anything more to me

You can cheat me
You can fool me
But you can't waver
Anything more for me

You can leave me
You can sacrifice me
But you can't ask
Anything more on me

You can terrorize me
You can threaten me
But you can't stop
Anything more between me
You can compare me
You can label me
But you can't change
Anything more that's me

You can try to possess
You can try to monopoly
But you can't control
Anything more over me

You can trouble me
You can cross me
But you can't effect
Anything more at me

You can curse me
You can hate me
But you can't deny
Anything more but me

Maria Sudibyo
Now or never
I’m gonna lose you anyway
You will hate me anyway
Now or never
You gonna leave me anyway
I’ll be broken anyway
It’s the time
Now or never
I’m gonna pull the reversed trigger
You will reveal those unforgiven secrets
Now or never
And you waiting on my door
So open with your own hand
The gate to the ugly truth
And don’t you turn away before you understand
Don’t you run away before I finish those tales
It’s still me but you never see
It’s the real me that hidden free
It’s the time
Now or never

Maria Sudibyo
O Love, O Dream

O love, o dream
O desire within

O cold, o wind
O storm within

O joy, o tear
O life within

O dark, o fear
O shadow within

Maria Sudibyo
O, People

O, people
O, what are they living for?
They stay till midnight
Say there’s no enough time
And afraid what’ll happen tomorrow

O, people
How many faces they should wear
To show pride and to hide
Don’t reveal dark inside
Fake emotion, many crying are naught

So is this how the world’s spinning?
Ignore what we are feeling
Take you want, leave me none
Give me love then the pain
Never know when the truth is lie

O, people
Why are they hard to understand?
They argue long then they fight
Say they who should be right
Give me almighty reason to blame

O, people
When will they try to remember?
Want to learn from mistake
Listen what others said
So we could live in peace together

So how will this story be end?
Will I be trapped in another game?
Or like the moon can’t be full again
But somehow I just understand
That life always goes on circle

Maria Sudibyo
Oborotsukiyo

It is not a sin
To love somebody else
It is a sin
When you don't want to be responsible
With your love

Maria Sudibyo
Ode To Mother

I do it all
Cause I believe someday you'll come home
Someday we can go together again
In the house that we build together
I do it all
Cause I still have a hope
Someday you'll go to the place
That I wash every week
That I mop every day
That's why I can survive
And prepare for the day
and the day
to the day
for the day you'll come back again
If there's no place that I can wait
what can I do for you?
Even the law of separated is done
This is a place I can stand for
I'll wait
Till the day you'll come
Until the day
I'll survive for you
Till the day you'll come home

Maria Sudibyo
Old Game

Gone long time ago
So why you come over and
Still give me tremor

Maria Sudibyo
Old Scar, New Scar

Old scar, new scar
Stitched together by excellent tailor
Old scar on the hand
New scar on the head
Same pain, different trouble
First came shock
Then hurt became blue
Blue’s gone leaving scar
Old scar, white scar
New scar, hidden well
When morning’s gone, nights always come
Craving old scar, leaving new scar
Old scar, new scar
Stitched together by excellent tailor

Maria Sudibyo
Old Song

our love like old song in cold night
without flower and wine
only you and warmth
simple sound flows smooth and slow
you hold me and smile
we don't need to talk when the music played
just listen those melodic words
swing in our hearts

Maria Sudibyo
Omamori

Hai, para kekasih
Lindungilah cintamu
Dengan kepercayaan dan kesetiaan
Bukan dengan cemburu dan harga diri

Hai, para orang tua
Lindungilah anakmu
Dengan pengertian dan kasih sayang
Bukan dengan perintah dan larangan

Hai, para sahabat
Lindungilah temanmu
Dengan ketulusan dan doa
Bukan dengan rasa kasihan dan ikatan sumpah

Hai, para pemimpin
Lindungilah rakyatmu
Dengan rasa aman dan kesempatan
Bukan dengan ketakutan dan pengekangan

Maria Sudibyo
On Highest Mountain

When you have reached the highest peak
Where will you go then?
To stay forever
To jump and fly
To gracefully land
Or to fall down

Maria Sudibyo
On Limiting Words

say yes
say no
say maybe
but it wouldn't work
good bye, good bye
the end of early summer

Maria Sudibyo
On My Way

Everybody who has a wish is all the same
When our want and other's need collided
We must choose one over the other
To let go our own desire
Or to destroy other's hope to reach our dream
What 's your purpose?
What's your goal?
Do you want to live without making any clash with anybody else?
Do you want to walk with always turning down your head?
If someone better than you
Don't hesitant to use them
Taking advantage of people's ability near you
Is also the way to help us building dream
Thinking about someone's feeling is important
But do not forget about your own dream
You will never step forward
If you keep worrying other's opinion
The time that frozen is equal dead
It doesn't matter if it is a little bit rude
But the thing I do right now
Is not for my own selfishness
I will go to accomplish my dream
And I will bear whatever consequence
From my action

Maria Sudibyo
On tears lonely lonely cry
You always shade on my mind
Even you had flied away
Left me alone in the night

On tears lonely lonely cry
No one can take that place
My first love you have to know
You’ve never gone in my heart

Oh why, oh why
I can’t forget your kiss goodbye
I want crying to you
Bring this pain from my life

On tears lonely lonely cry
My first love you have to know
The memory was closed
In my broken lonely heart

Maria Sudibyo
On That Day, On Rainy Day

Raindropp runs on the roof
Raindropp trickles on fingertip
Turn down from the umbrella
Get in my shoes
Up to my clothes

Raindropp is river on the road
Raindropp gathers on the pond
Splashed wide by runaway car
Get in my heart
Up to my head

Maria Sudibyo
On The Garden’s Palm

Wind comes
Flowers fall
On the garden’s palm
Storm before qualm

Maria Sudibyo
One

One day
I’ll meet with you
The one I search always and should I protect
In loaded light surrounds me
Will I ever meet you...
I never thought painful sadness like this
When I asleep imagine your blue days
This sideway is changing into stage
I can’t take my eyes
I send this melody to you
On the stage, memorize the day we met
One day, I’ll meet you
The one I search always and should I protect
Even wrong I don’t care
I won’t give up
Because you are the one for me
My life way delivers me to you
When that one day come
You will fall to my arms, and
I would never let you go

Maria Sudibyo
One Hell Of Devil

I don't have to prove
That I'm a real devil by
Acting like evil

Maria Sudibyo
One More Day

One more day
Before the flood is ready to flow
Even though you want to hold on tear
You can not stop this tremendous fear

One more day
Before the freedom is ready to fly
Even though you will kill to stay for a moment
Tomorrow never failed to torment

One more day
Before the night is ready to fall
Even though you wish everything unchanged
One by one it starts slipping from your hand

One more day
Before the lie is ready to play
Even though you prefer to hide forever
You must swallow all the pain and hunger

One more day
Before the storm is ready to blow
Even though you choose to be strong
The world will prove you wrong

Maria Sudibyo
One Night Stand

Just another night
Among many nights you thought
Won't be different

Maria Sudibyo
One Two

If we put one in one
Could we get the answer?
If we put two in two
Is it getting better?

If we put one in one
Could we solve the matter?
If we put two in two
Should we solve another?

I lost my love
I lost my heart
Where is the promise of forever?

You are my love
You are my life
How can I change this ever?

If we put one in one
Will we stand much longer?
If we put two in two
Could we still be together?

If we put one in one
Could we escape from anger?
If we put two in two
Will we be much safer?

I hurt my love
I hurt my self
Do scars make me stronger?

You take my love
You take my hope
Who is left to remember?

Maria Sudibyo
Ophelia

Maria Sudibyo
Optimistic In Disguise

I don't see the world so bright
I don't dream the hope so high
Indifference is just too much
I'm optimistic in disguise

I loose my mind to fight
They never care I was so right
Stubbornness is just too hard
I'm optimistic in disguise

I don't need so shiny light
Your pride is no use in night
Loneliness is just too sharp
I'm optimistic in disguise

Your words hum like bees
Poison me to be not me
Narrow-mindedness is just too tight
I'm optimistic in disguise

Take your game and leave me might
Have no mercy to give a sight
The blood is just too cold
I'm optimistic in disguise

Maria Sudibyo
Don’t reveal your name
Don’t stay in one place
There’re only some people in this land
You have no happiness
You have no wealthy
The fate flow in your hand and voice
Don’t tell the lie
You have no ability to change
Don’t let the tears falling from your eyes
You have no power to die
Though eyes couldn’t see anything again
Though you have crawling above the wound
You are a messenger
You have your duty to do
Because you’re the chosen one
There’re only some people in this land
Never have their life
Never have another chance
Sacrifice anything
For the land of Nowhere

Orange Blossom

orange blossoms fly

Maria Sudibyo
Order The Fear

Order the fear
And watch it smear
Inside your ears
And through your tears

Choose to fear
And when it’s clear
In the gloom of atmosphere
You are drown so dear

Live in fear
And swept by cheer
Though you want to disappear
Still hope is creeping near

Maria Sudibyo
Ordinary People

Other Side Of Dream

good precious bonds
so precious till become
my memories, my life, my love
that's part of me
I have a name and you call my name
and my name return to me and become me
all that precious bonds
so when one by one
shining pearls falling
I'm too shock to hold it
I think you smiled clumsy
no, maybe you didn't give any expression
ah, actually I'm not sure
memory can be deviated
and the past always bright and beautiful
I can't imagine your tears
because you always laughed and shined

Ours Not To Reason Why

you don't know what to say
you don't know how to play
this crazy little game
if you are tired to think
if you are confused to decide
stop search and calculate
don't be understood, just trust it

what the hell people stare
how much they truly care
about our secret desire
if you dare to be a little bit selfish
if you want to be a little bit spoiled
just jump and do what you can
ours not to reason why

Maria Sudibyo
Out Of The Rail

I'm out of the rail  
I lost my own trail  
I don't like my smile  
I hate my cheerful lie  
Because inside I'm a creep  
A potential emo freak  
That maybe loose some screws  
Or mix the wrong morning brew  
Or maybe I just need  
A much longer sleep

Maria Sudibyo
Outbox

My winter comes before the autumn leaves fall
My midnight before the light
My dream between the real
And it takes a long time to see the spring
Long time to search my sun
Now I'm here
Lying on white grass
Closing my eyes
Free now, I'm free to fly
I'm free to go

Maria Sudibyo
Over The Dead Body

Don’t fight over the dead body
Grudge and ego of people left behind
Could raise the worst world war
Don’t scared over the dead body
Silence and stillness of living human
Is more frightening than the ghost
Don’t keep mourning over the dead body
Sadness and lost of the one we love
Will be replaced by forever peace
Don’t worship over the dead body
Dreams could only be real and achieved
If we open our eyes to the world
Don’t disrespect over the dead body
It once belonged to precious life
Though the evidence corpse severely decayed

Maria Sudibyo
Over Thinking

Do not think too much
It barely solves anything
I don't want to think

Own

Your own hand, your own life
Your own feet, your own way
Your own heart, your own faith
Your own mind, your own dream
Your own mouth, your own fear
Your own eyes, your own shadow

Maria Sudibyo
Padam

Apa yang kau dapatkan, hargailah
Apa yang dipinjam, kembalikan
Sebelum semuanya menghilang
Dan api di dalammu padam
Apa yang kau simpan, rawatlah
Apa yang kau buang, relakan
Bila api di dalam dirimu telah padam
Kenangan pun tak lagi bisa membakar
Mimpi pun tak bisa lagi bersinar
Jadi jangan berhenti dulu
Sebab dewa masih memberimu waktu
Sebelum semuanya memudar
Dan api di dalammu padam

Apa yang kau inginkan, kejarlah
Apa yang kau takuti, hadapi
Sebelum semuanya menghilang
Dalam kegelapan yang kelam
Apa yang kau jaga, sayangilah
Apa yang kau benci, tangisi
Karena bila api yang ada telah padam
Ingatan pun tak lagi berarti
Jalan yang lebar pun tak lagi menarik
Jadi jangan mencemaskan hal yang tak perlu
Sebab meski terlihat tak ada waktu
Dan angin tak mau membantu
Kobaran di dadamu masih belum padam

Parachute

I'm scared of height
I'm scared to fall apart
But what most really terrifying is
If I can't get up again

Stumble in my ride
Losing my own path

Maybe I will not be dropped dead
Maybe someday I could fly to the sky
But I wish someone will catch me when I call
Who will be my parachute?

I'm feared of failure
I'm feared to be rejected
But what most really struck me is
If I give up of living

Waver in my faith
Nobody I could talk to

Maybe I will not be the loser one
Maybe someday I will not cry over night
And I wish to have something prevent me breaking down
What could be my parachute?

Parents And Children: Experience

Children may not have the experience as parents
But parents must have the experience as children

Maria Sudibyo
Passion!

Passion!
Do you feel everyday?
Passion!
Come world, laugh with us
Release your soul, make it explodes
Passion!
Let people know who you are
Bring it up to the air we share
We have passion!
We don’t care of shame
If all we’ve done is wrong
So why we looked happy than you are
Passion!
That makes life called life
Menarilah lidah api!

Paz Ratna's Spell

Memories, memories
Where are they hiding among memories?
It’s too sweet, it’s so bitter
I can reach you wherever you are

Memories, memories
Where are you hiding among memories?
You can’t change your past
But I can change your memories

Memories, memories
Where are they hiding among memories?
Give me your live
And I'll give you memories

Maria Sudibyo
Peace

Does not able to live together
But also doesn't deserve to be destroyed
No matter what effort has been done
We are only together draining our power to war
And where is the end?
Nowhere
Because that is the peace

Maria Sudibyo
Peacefull Days On Earth

Study...
School...
Then.. school again..
Seems move, but actually stop
Days that go automatically
Sometimes hard to breathe
Seems move, but actually not
Days that go automatically
Make my eyes and my head burned
If this day
I don't walk out the route
Perhaps this memories still surrounded mysteries
The frozen time..
Begins to move
When the earth looks stops
It's our heart actually stop
So long we move the heart
This earth will rotate forever

Perang Bayang

pernah kulihat tanpa terkenang
pernah kutahan sebatas sayang
rinduku tuk dibelai hilang
oh, mengapa nasib dirundung malang
kuambil sebilah parang
maksud bertemu nenek moyang
di lubuk berkecamuk perang
hingga tanganku menghalang
tak jatuh ke taju pedang
dan terbang semua bimbang
matiku tak ingin meradang
seperti sapi potong siap dihidang
hidupku tak ingin kubuang
walau hanya selintas pandang

Maria Sudibyo
Perfect

I have twist of mind
I have big whirl stream
I have many question marks
I have unsatisfaction
I'm not always comfortable

How could I control my mind
Why should I understand completely
Where can I discard all regrets and misery
How could I live for so many things I don't agree

But all you want from me is
Perfection

Maria Sudibyo
I don’t need perfect cloth
I don’t need perfect hair
What I need is a confidence

I don’t need perfect score
I don’t need perfect job
What I need is a support

I don’t need perfect word
I don’t need perfect dream
What I need is a chance

I don’t need perfect agreement
I don’t need perfect control
What I need is a solution

I don’t need perfect holiday
I don’t need perfect memories
What I need is a peace of mind

I don’t need perfect home
I don’t need perfect family
What I need is a comfort

I don’t need perfect love
I don’t need perfect life
What I need is an understanding

Pertemuan Manusia

Mungkin dulu kita pernah berpapasan muka
Dan sekarang kita kembali berhadapan
Mungkin dulu kita pernah berjalan beriringan
Namun sekarang kita tak lagi bertegur sapa

Mungkin tak meninggalkan kesan
Mungkin menorehkan luka
Mungkin kita tak saling memahami
Mungkin kita tak mau mengingatnya lagi

Mungkin itu sebuah kata yang hilang
Mungkin itu hanyalah kenangan
Mungkin itu juga keinginan
Dari lubuk hati yang terdalam

Mungkin dulu kita tak saling mengenal
Tapi jangan sungkan untuk berbincang sekarang
Mungkin dulu tak pernah kita berjauhan
Kuharap kau tak melupakan ku sekarang

Jangan takut untuk berubah
Jangan takut untuk berpisah
Setiap pertemuan pasti ada akhir
Baik itu cepat maupun lambat

Jangan takut untuk kembali
Jangan takut untuk mencoba lagi
Pastikan perasaan mu yang tersimpan
Baik itu yang dulu maupun sekarang

Pintu Kebahagiaan

Saat merasa sedih
Kau meratapi apa yang hilang
Bahkan pintu kebahagiaan pun tak terlihat

Saat merasa kecewa
Kau menyesali apa yang tak terjadi
Bahkan pintu kebahagiaan pun seakan menjauh

Saat merasa marah
Kau mengutuk apa yang ada
Bahkan pintu kebahagiaan pun kau tutup

Saat merasa gelisah
Kau takut menghadapi apa yang akan datang
Bahkan pintu kebahagiaan pun terhalang

Pity, Pity, Pity

Look at to the unwanted child
Look at to the divorced wife
Look at to the homeless man
What people do other than saying
“Pity, pity, pity”

Look at to the tragic hero
Look at to the sympathized villain
Look at to the clueless victim
What witnesses do other than staring
“Pity, pity, pity”

Look at to the crazy dreamer
Look at to the unlucky gambler
Look at to the stubborn fighter
What friends do other than whispering
“Pity, pity, pity”

Look at to the withering flower
Look at to the starving animal
Look at to the extinct nature
What human do other than howling
“Pity, pity, pity”

Look at to the empty spaces
Look at to the blank faces
Look at to the lost traces
What devils do other than laughing
“Pity, pity, pity”

Playing Act

Put your polished smile
Give your irresponsible reason
I'm good at being a fool
But inside you don't know
How wicked I could be

Make everyone believes your plan
Blame to another people if failed
I'm good at being oblivious
But inside you don't know
How observant I could be

Tell a great tales
Sprinkle it with lies
I'm good at listening
But inside you don't know
How murderous I could be

Spill out your secret
Lower your guard in front of me
I'm good at being a loyal follower
But inside you don't know
How traitorous I could be

Reach victory no matter what the way
Get the finest jewelry for anyone stare
I'm good at flattering
But inside you don't know
How defiant I could be

Order me like someone important
Be the main actor in your story
I'm good at being obedient
But inside you don't know
How loathing I could be

Show your fake kindness
Wear your sympathy mask
I'm good at being the weak
But inside you don't know
How unbreakable I could be

Steal every attention
Dominate all the spotlight
I'm good at being the shadow
But inside you don't know
How dark I could be

Please Ask Me When It Was Over

you never know what I'm feeling
because you are not here
I can't see you
I can't hear you
but I always surrounded by you
you teach me joy
you teach me sorrow
you show me joy
you show me sorrow
I have danced like red shoe
and my breath lost when it was over
I have eaten bowl of chillies
and my tongue burned when it was over
you never know what I wished
the day you were gone
I have given love for you
and I still don't have the answer
because it was not over

Poem From Deserted Land

Same usual young morning  
Same usual old winter’s step  
As I hope, let the dark night moon  
Left on the sky dying  
Looking back I have walked  
There’s uncountable footprint  
Don’t know what I should  
I look to the right, to the left, and to the front  
Then I watch the feet, snow melted on my heel  
On the sky gray snow cloud flying by,  
between spring fog and storm  
Seeing that sparkling crystal you hear, don't you?  
My poem from deserted place

Power

What you whisper in closed eyes?
Don't be hesitant to come
Don't be afraid to pray

Even though you think you never pray enough

What makes your soul calling for your God?
Don't be ashamed to pray
Don't hide yourself in darkness
You don't have to be perfect to pray
You don't have to look strong in presence of God

Preparation Day

I prepare for the day when I'm tripped
I prepare for the day when I fall
Because I believe I will raise again
I believe I will heal my wound

I prepare for the day when I'm failed
I prepare for the day when I'm lost
Because I believe I will learn from mistake
I believe I will find my way back

I prepare for the day when I'm bored
I prepare for the day when I'm fed up
Because I believe I will restore my will
I believe I will be sparked by another light

There will be a day when confusion turns into understanding
There will be a day when sorrow turns into relief
There will be a day when regret turns into redemption

I prepare for the day when I'm crying
I prepare for the day when I'm down
Because I believe I will smile again
I believe the storm will be calmed

I prepare for the day when I get irked
I prepare for the day when I'm snapped
Because I believe I will fight for the right
I believe I will tell everybody to not mess with me

I prepare for the day when I'm changed
I prepare for the day when I'm exposed
Because I believe it comes in nature
I believe I could someday laugh at my shame

There will be a day when hope becomes strength
There will be a day when dream becomes happiness
There will be a day when memory becomes beautiful

I prepare for the day when I'm broke
I prepare for the day when I'm fooled
Because I believe I will overcome my worry
I believe the world is not yet doomed

I prepare for the day when I'm out of luck
I prepare for the day when I'm insecure
Because I believe I will have comfort again
I believe I will conquer my fear

I prepare for the day when I'm forgotten
I prepare for the day when I'm gone
Because I believe God always makes a plan
I believe I could leave something good

There will be a day when sincerity replied with reciprocation
There will be a day when patience paid by success
There will be a day when pain erased with love

Pretty Dumb Beauty Vs Sexy Material Girl

I’m pretty dumb beauty
I have great phone, great prada, and great nose
Look at me! I need attention
I’m irritative, I’m spoiled
Crunch candy I talk like no brain
So say you love me
And slap me at once

I’m sexy material girl
I have great car, great card, and great nails
Look at me! I need your money
I’m arrogant, I’m selfish
I love rich man with no brain
So say you want me
And dump me at once

Maria Sudibyo
Priceless

'Having money'
Maybe could give assurance
Could make life easier
Could be a good offer
For some people
But always
There is something else
That could not be bought
Could not be replaced
Could not be given
With all money in the world

Prolog

Having lots of precious things is hard
If we want something
Sometimes we should sacrifice other
Precious thing like heart
In this world there are so many kind of people
And so many kind of dreams
People are fighting each other
Crying and laughing one another
Between all of them
How many people succeed their dreams
And how many
who reach their dreams and feel satisfied
Maybe no one ever know that
Because
Who decide the answer are us

Proud Man Can'T Sing Well

proud man can't sing well
his heart is too high
his voice is in his throat
his throat will be choked in high pitch
makes him can not breathe well
and his body trembled in lower ground
his voice is not clear and honest
he sings because he is proud
but because he likes the song or likes to sing
he sings not for everybody
he sings for his pride
his heart is in his throat
and his voice will choke his throat

Provocation

People in the road
I just want to spark the anger
To see how stupid you are
Easily be manipulated

People in the world
I just want to send the danger
To see how afraid you are
Easily be terrorized

People in the cloth
I just want to scratch the fire
To see how well you are
Easily be controlled

People in the slot
I just want to point the liar
To see how shock you are
Easily be distracted

And you will dance in my hand
And I will be laughing behind

It’s the feeling I could express

As long as I could be honest to myself

Question

If you indecisive to answer the question
Why you should do this or that
Just revert the question and ask to yourself
Why you do not do that

Maria Sudibyo
Have you ever thought?
That we often chase for the right thing
But yet we do a different one in the end
That when finally we get what we want
We regret that we don't have time left to enjoy
Wasting our life for something that actually not too important

And it beats and beats in your dream
And it hits and hits in your scream

Have you ever thought?
That even we planned something carefully
It is not happened like we want to be
That when we thought we live relative peacefully
And wish that it won't change for a while
Someone is waiting tomorrow to shatter your hope

And it runs and runs in your mind
And it rushes and rushes in your wind

Have you ever thought?
That instead sleep soundly like a good child
You devoted yourself to stay awake and exhaust yourself
That you cage your heart from being basked in love
And keep fake smile adorning your face
Doesn't trust anyone including yourself to get attached and become closer

And it swirls and swirls in your heart
And it whirls ands whirls in your doubt

Have you ever thought?
That you have reached the point of boredom
But can not find anything sparks and interesting enough to quench your hunger
That you need to be understood
But feeling exposed and vulnerable when someone could catch your disturbance
You can't stand to not lose yourself in self anger

And it burns and burns in your patch
And it blinds and blinds your path
Have you ever thought?
That you stuck in the place that you don't desire
Helplessly need to find a way to escape
That when you fear to be left behind
It grows even bigger and darker
Makes you forget about what you own in your hand

And it shakes and shakes your faith
And it rakes and rakes in your wound

Have you ever thought?
That when you try to see what the future stores
You only reach less than some spider web and empty air
That you wake up in the morning and pray for strength and a better luck today
But when it turns all wrong again
You must learn to compromise with regret and disappointment

And it flows and flows in your blood
And it blows and blows in your gut

Qui Vivis Et Regnas*

nobody calls my name
nobody searches me
nobody misses me, maybe
the sun hurts my skin
I'm bathed with dust

at the moment there will be a savior helps me
but the one who should raise and stand up is myself
it's simple
eat, drink, and walk
that's only I can do right now

Rain Fragrance

The trickle rhymes, the heavy drums
The lullaby song, that’s the sound of the rain
Sudden cold shot, soothing wet blanket
Bath from heaven, that’s the touch of the rain

Sour of loneliness, bitter of anger
Salt of tears, that’s the taste of the rain
Aroma of soil, scent of grass
The air freshener, that’s the smell of the rain

Battle of nothingness, curtain of farewell
Crime romance, that’s the look of the rain

don't hide your tears
say when you are mad
don't turn your face

you say it's not fair
but then you kiss me
you say it's end
but then you steal again

you say don't care
but you run back to me
my eyes cheat me
for rainbow lavender

say we have chance
don't say everyone tells
we are drunk a fairy tale
of rainbow lavender

Reaching God

I want to reach God
Could I reach with pray
Could I reach with people
Or will I only grasp an empty void

I want to reach God
Should I hang on my hope
Should I hang on my work
Or will I put my soul into sacrifice

I want to reach God
It seems the words become ashes
It seems the world becomes dust
And I turn to another hypocrite man

I want to reach God
Maybe I'll never really catch even a feather of wing
Maybe I'll never really get the meaning
But my heart always looking for something more

I want to reach God
My body maybe sated by the joy of earth
My mind maybe conquered by the pleasure of power
But inside nothing else could fill this hunger

Maria Sudibyo
Reality

The world that shown by flakes is so hard
Ruining reality
The illusion felt so real
Reality, where is my reality?
Everybody has a deep hole in their heart
Holding the wound and crying
But everybody keep moving forward
The world that shown by flakes
The world that I face now
If think it so
My reality
Reality is already here
Though it’s very painful

Maria Sudibyo
Really Really

You have the power
take on rule and show
what you want
what you really really want
is it me
or is it an illusion?

You have the game
take on role and play
what you desire
what you really really desire
am I there
or am I just an illusion?

You have the frame
take on reel and dream
what you imagine
what you really really imagine
am I there
or am I just an illusion?

You have the goal
take on real and action
what you hunt
what you really really hunt
is it me
or is it an illusion?

Reason For Every Season

There's a reason moon shines in the night
There's a reason star glimpses from far away
There's a reason sun burns strong in day
There's a reason for all things in universe

There's a reason snow melts in the spring
There's a reason rain comes suddenly
There's a reason leaves falling beautifully
But will you listen if I tell you the story?

There's a reason home made food more delicious
There's a reason we cry over melancholic song
There's a reason dancing could pump our spirit
There is a reason human is emotional creature

There's a reason blood looks good in snow
There's a reason fear should be instilled in living being
There's a reason truth hides behind wall
Do you dare to break them for me?

There's a reason mystery always attracts people
There's a reason some secrets are important
There's a reason just for sake of reason
It'll keep going on until you don't want to hear it anymore

There's a reason in a boring history lesson
There's a reason science needs a certain result
There's a reason in life we have many right answers
Which reason moves you to keep walking?

Maria Sudibyo
Rebel, Rebel, Rebel

We’re in the station line up for something
It’s crowded like hell and nobody cares
About patience, about tolerance
Oh, they all vapor in hot air
They say I should keep move but they don’t give me a room
They keep pushing me back and front
And there’s little devil pop up in my head
Rebel, rebel, rebel
It’s enough!
I will say it clear, I will tell till you can hear
Why I should do what you want but you don’t
I can’t please everyone, I will stay if I want
No matter how hard I should stand my right
By the end you will learn not to ignore

We’re living in mechanical world
Everything out of system will be called junk
Even for a dream, even for change
They won’t believe if there isn’t a proof
They say I should have all but they surround me by wall
And there’s little devil pop up in my head
Rebel, rebel, rebel
Is that enough?
I will say it clear, I will tell till you can hear
Why I should corrupt my heart just to meet your standard
I can’t please everyone, I will do what I want
No matter how long I should fight
By the end you will accept my point

We’re too much having senseless war
They claim they who on the way
To give justice, to make promise
Damn, it’s just a lie as usual
They say they’re who right but they’re wasting my time
They keep covering up and up
And there’s little devil pop up in my head
Rebel, rebel, rebel
It’s really enough!
I will say it clear, I will tell till you can hear
Why I should follow this game when you order with power
I’ll stop you now, I’ll prove you wrong
No matter how hard reality is I will stand for peace
By the end you’ll not get anything worth over

We’re running out the world
Everything exploited till the limit
Only for money, only for greed
And anybody should pay for it
They say there’ll be better life but it’s only lullaby
They keep robbing my land and culture
And there’s little devil pop up in my head
Rebel, rebel, rebel
It’s better enough!
I will say it clear, I will tell till you can hear
Why I should suffer with your own doom
I’ll stop you now, there’s no other direction
No matter how long we must protect we should love more this earth
By the end our children could also feel that their home is a beautiful place

Regret Always Comes Too Late

O, regret
Always comes to late
Always catches in your weakest state
But you know not to let it reign
In your heart

Love that you desperately want
Now you let it escape from your hand
Love you crave to warm the cold night
It starts frozen, it left to die

O, regret
Always sneaks and stays
Darkening cloud in your twisted fate
But you learn not let it show
In your face

Love that you waste only for fun
Begin to ask more than your soul
Love that you strongly avoid
Now it grows, and makes you afraid

O, regret
Always breaks you bad
You feel not worth to be saved
But you hold not to let it leak
In your eyes

Love that you thought to be right
Now it attacks you with hate
Love that walks in fragile faith
Once it cracks, it won’t come back

O, regret
Always hard to breath
No one else deserved to be blamed
But you just slowly making a hole
In your self
Rejection Should Be The Clear Word

Many ways to say
'No' in straight or smooth manner
The latter hurts more

Suffers from blood to heart

but there's no happiness, only destruction
I don't want a sudden end
you must suffer more than the pain you give to me
when everything's done, I'm no longer a soul
you have crack my fate, I'm throwing to be death
I want revenge, I have a claim to your breath
this is not for justice, this is not a beautiful dream
I won't give any kindness accidentally
only vengeance won this game

there's only nightmare, don't hope more happen than that
I'm cursed to hate you forever

Juliet : You think I'm innocent young girl
Romeo: In my enemy's house party
Juliet : Why are you looking love when there's only hatred?
Romeo: You are rose that has many thorns
Juliet : I know you are under my balcony
Romeo: So I say I will throw my name
Juliet : Am I that fool to believe sweet words?
Romeo: We swear love when there's only hatred
Juliet : I lost my cousin for your tragic friend
Romeo: They are too honest and brave to follow our game
Juliet : You leave me with another spoiled boy
Romeo: There's not other ways besides runaway
Juliet : For whom this trick I must play now?
Romeo: You don't tell me before I drink my poison
Juliet : You don't tell me before I stab my heart
Romeo & Juliet: Could this pain be love when there's only hatred?

Rover Chronicle

The rover leaves his home
Leaving his father with right hand
Leaving his mother with left hand
Leaving his brother with right foot
Leaving his childhood with left foot

He moves forward and release the burden
Put the cushion from his back
Put the robe from his shoulder
Put the wine from his waist

The rover goes and sacrifices all
Sacrifice his fellowship
Sacrifice his lover
Sacrifice his soul

He still moves forward though lost everything
The Gods condemn him
All mothers wail over him

Because the rover keeps moving forward
Leaving tears
Leaving past
Looking for redemption
For everything he left
When he moves forward

R-Rated

Everything has a side story
Covered by a veil
Everything has different reason
Something stay hidden
Don't you ever bored with your words?
I think you never mature up
But I've fed up with your growing lie
Enough with your selfish satisfaction

Everything has another view
Slightly missing point
Everything has vague truth
Up your desired version
I'm not good on reading your layered thought
It's your pleasure to detect my mistake
So please tell me your meaning exactly
Say bluntly you don't need me, I don't care

Everything has a dark shadow
An alluring dangerous catch
Everything has slight diversion
A little pretty crack
Go find your perfect damn world
I don't want to follow your stubborn stupidity
Only because it is not your cup of tea
Don't ruin someone's else heaven

Running

Do you ever run?
Run with bare feet
Run against the wind
Run and feel you could fly
Run till your breath’s lost

Do you ever run?
Run carrying your heart
Run to avoid tears falling
Run and doesn’t care where to go
Run till your knees breaking

Do you ever run?
Run with all determination
Run to reach the sky
Run and try to catch the lack of time
Run till everything blurred into one

Do you ever run?
Run from all your fear
Run further away abandoning the world
Run and never turn back again
Run till the darkness swallowing

Maria Sudibyo
Running Man

There is time when you break down
There is time when you can't move on
Your feet are shaking
The pain is suffocating
And you are wondering 'is this the end?'

So who you want to impress anyway
So why you pretend to please anyone

Jump now, forget the how
As long as you still breathing
As long as your blood still trickling
Beat the crow, strike the arrow
Doesn't care when you will fall
Doesn't care where you will land
All you care is how you raise again

There is time when you are lost
There is time when you become hopeless
Your heart is wavering
The wind is blinding
And you bitterly smile 'is there another way?'

Cause you can't stand the lonely lonely night
Cause you can't ignore the shadow in those messy window

Run fast, brush the past
As long as your soul still calling
As long as your fire still burning
Hush the grass, crush the glass
No matter many tears you cry
No matter many sweat you dry
All you want is to reach the sky

S For

I act surprised when hearing from you
Although I have known it for a long time
Maybe I'm too bored to give sympathy at all

Because deep inside
I want to make your heart bleeding
I want to watch your tears flowing

Everything in the world seems not good enough
What I see is all the same to me
Maybe I don't have any sense at all

Because truth inside
I don't care if my clothes mismatches
I don't care if my hair cut half

I don't like to be bothered and must be nice
I hate to reply the same answer
Maybe my patience really doesn't exist at all

Because in urge of strangling
I will curse your oblivion
I will damn your stupidity

I don't interest with your story
I only listen to your babbling voice
But I don't catch any meaning at all

Because in terrible lie
I won't be affected by your cold treatment
I won't feel anything about your harsh comment

I like to make you frightened
I like to tease until you flustered
It is so easy to shake your stance in all

Because in darkly desire
I love to see you screaming mad
I love to make you lose control

The flower is bought
But it is not for me
The food is prepared
But it is not for me
The announcement is made

The room is decorated
But it is not for me
The guest is welcomed
But it is not for me
The hands are shaken

Sang Pujaan

Dia terus saja memandangmu
Gadis yang melihat dari atas jendela
Dan gadis yang berpapasan di jalan
Dia jelas-jelas mengagumimu
Gadis pembuat kue
Dan gadis anak penjahit
Tapi mungkin kau tak menyadarinya
Hatimu begitu dingin dan acuh
Dia pasti mengincarmu
Gadis putri tuan tanah
Dan gadis penyanyi bar itu
Dia juga diam-diam mencintaimu
Gadis pemalu yang tak sanggup memandangmu
Dan gadis sahabat yang ada di dekatmu
Tapi mungkin kau tak peduli
Hatimu sangat dingin dan tak tersentuh

Siapakah dia yang akan kau ajak ke pesta?
Siapakah dia yang akan kau ajak berdansa?
Gadis yang cantikkah atau biasa saja
Siapakah dia yang akan kau pilih?
Siapakah dia yang mencuri perhatianmu?
Gadis yang ceriakash atau gadis yang lembut
Seisi kota begitu ingin tahu tentangmu
Tapi kau masih saja berjalan dengan santai
Mengapa kau begitu mempesona setiap gadis?
Mengapa tak kau pilih salah satu saja?
Gadis yang kau kenal baik atau gadis yang dijodohkan
Berilah kesempatan pada para gadis untuk mendapatkanmu
Juga beri kesempatan para pria untuk mendapat gadis
Bila tak juga mencari seisi kota akan menjadi gila
Dia yang mencintaimu akan menyelamatkanmu
Dia yang kau cintai akan menyelamatkan kami semua!

Say Anything

Say anything
Before I numb those things
When no one could dare moving
I’ll be the one who cut the string

Take your time to sway
If you want to pray

Say anything
And it could be nothing
Only misunderstanding
And a part of failed living

I hate when the cake is still pretty
I hate to wear a dress you like
I hate lightening the lamp
I hate waiting to see you
I hate because you weren't here with me

Is it the time I don't be a good girl
I want it more and more

Is it the time that will be no more
No more you and feeling free

Secret Lover

Maybe you come in the night, maybe you come in the dawn
It doesn’t matter, I’m waiting for another occasion
Maybe you stay for one night, maybe you doesn’t stay at all
It doesn’t matter, as long as you still looking for me
Maybe you gone for nights, maybe you don’t give any news
It doesn’t matter, you’ll come back someday with your silly smile
Maybe people say I’m fool, maybe they say I’m fooled
But they never actually know meeting with you is like a dream for me

Secret To Remember

The pain would be evident
When you remember something you should not remember
The shame would be more burning
When something embarrassing appears in the mind
The bittersweet memory you could not tell to anyone
The horror of nightmare nobody realizes its presence
It should be vanished with the time
It should be bearable to carry on
The truth left only me who holding the key
The past thrown to be drowned into the sea
It still frightening but can not destroy me
It still mocking but can not stop me
To protect it from being revealed
To cover it with all I might
It still haunting but can not touch me
It still disturbing but can not break me
No matter what the cost
No matter many things will be lost
I will not forget
But I will keep it from being opened again

Secret Vow

only common greeting
only daily life
but it makes me the happiest person in the world
when I see you
no words said
no promise pledged
only sincerity to be faithful
in this heart
you don't need to know how much I adore you
I only want you to remember
I will always be there for you
though you are not mine
and I don't sue that
this love, this feeling will never change
though you are gone
and I'm far hidden
this heart, this being
will always be yours

Senja Kala

Senja kala di padang gema
Aku lupa rupa sang suara
Bisikan merayu di telinga
Atau angin ribut dari utara

Senja kala di batas jumpa
Aku lupa tanda sang cinta
Getaran bunga pertama
Atau gelora bulan purnama

Senja kala di ujung dupa
Aku lupa nada sang jiwa
Harum mewarnai dunia
Atau asap melayang di mata

Senja kala di jembatan tua
Aku lupa wangi sang gula
Manis melekat saat tertawa
Atau pahit di luka menganga

Senja kala di lubuk malam
Aku lupa belai sang cahaya
Kilau permata di laut tenang
Atau semburat merah di langit hitam

Sense Of Cage

When we are trapped in fear
We become numb to other's anxiety
And maybe we pass away
The chance to reconcile
And the air already so tense
Until it is hard to move
Until it is hard to even breathe

When we are filled with worry
We become blind to other's problem
And maybe we turn away
When we needed the most
Until we realize
It is too late to help
It is too late to regret

When we are clouded in prejudice
We become harden to other's predicament
And misunderstanding
Growing as the tool of ignorance
Until one day we find
We have wasted our time to hate
We have lost our faith for pride

When we are consumed in anger
We become deaf to other's reason
And we keep our argument
So that we won't falter in doubt
But inside we question about
The vow to never forgive
The vow to never forget

When we are shrunk in sorrow
We become dull to other's pain
And we walking like fleeting ghost
Hurting more people we love
But still we refuse to be free
From memories that turn into heavy chain
From promise that gives unbearable burden
Maria Sudibyo
Sense Of Cry

Every heart needs time to mend
Even though the wound is running deep
Keep hurting and bleeding
And seems impossible to heal
It will slowly closed
But when the time passed by
And the scar is touched again
Will I cry?
Because it still tender
Or because finally the pain is bearable

So many secrets to be revealed
And fear is growing bigger
Of the change that comes inevitable
The more the shadow is cleared
No other place for you to hide
But when it is bared
And the secret is said in front
Will I cry?
Because of shame
Or because finally I shouldn't lie anymore

Everybody will try to raise again
Even though they are falling to the lowest ground
And helplessly broken
They will crawl with all power left
To get a better life
But when it keeps pushing you down
And the struggle always tasted every moment
Will I cry?
Because it felt useless
Or because now I finally accept my fate and not runaway

Everyday memories are made
Sometimes it lingers for a while
Sometimes it seems forgotten
But unknowingly sleeps inside
And you say it just nightmare
But when suddenly something triggered you
And the remembrance is showed again
Will I cry?
Because I actually regret it
Or because finally it only sweet reminder that could be laugh at

Many things could be the reason of happiness
You are confused which the true one is
You are so lost in finding
So you push every body away
Even though you become lonely
But when someone give you a warm hug
And you could smell the scent you've been longing
Will I cry?
Because I don't deserved that kind of love
Or because I'm relieved that I'm finally at home

Maria Sudibyo

I just need to touch
And burning in love
Not distant by

Setelah Perayaan

Terpuruk ku di sini
Di antara debu sisa-sisa kembang api
Awan di langit malam yang gelap
Kabut asap yang mengambang
Dengan bau mesiu habis terbakar
Tak ada lagi bunga yang berpendar warna-warni
Tak ada lintasan cahaya yang bersahutan bernyanyi
Bagaikan sebuah orkestra tanpa suara
Lalu aku kembali pada kesendirian
Keramaian lamat-lamat meninggalkan diriku
Yang terlalu lamban bergerak untuk mengejar mimpi
Yang kupunya hanya hasrat yang telah mati
Menunggu sejumput percikan api
Mengenaiku kembali
Dan aku akan melesat di tengah hitamnya langit malam
Berpendar dengan membakar seluruh diriku
Lalu aku akan menghilang dalam hujan bunga api
Berharap seseorang melayangkan pandang sekali
Diriku yang telah telantar dan dilupakan
Tanpa sempat memenuhi janjiku untuk menjadi
Kembang api yang tak gagal lagi

Seven Simple Rules Of Being Adaptive

Seven simple rules of being adaptive
One, being the best doesn’t always make you survive
Two, beware of boredom and of loneliness, it will stay and decay you fast
Three, if you caught in front of many people, doing something stupid, just smile and relax. They’ll soon forget about it
Four, never bring food if you don’t want to share
Five, if ever asked to think about pressure, don’t
Six, listen what people say but never indulge with their sentiments
And finally, never conquer the world, it always unpredictable, it will trick you and exhaust your life

'there are three men
one of them went to the beach
and found a beautiful shell in the beach
then he showed it to another man
a beautiful shell he discovered
the last one heard from others
that there's beautiful shell in the beach.'
the mother looks to her son then smiles
'now my child,
from three of them
which one who really knows
the beauty of the shell in the beach? '

I run avoiding you and thinking you might hate me
Is it real or just my imagination?
It's hard to be true, it's hard to confess
I have special feeling for you

Shoujo Mo Adventure Ga Hoshii

Who said only boys that want adventure?
Girls want adventure too
We pledge in fellowship
We love delicious food
And something to make our heart beat fast
Do you think we only like romance, beautiful boys and something shallow?
We like to wander nowhere
And when we are together nothing can make us despair
So boys, give us a chance!
We won't be defeated only by broken heart
We'll prove that we are unpredictable creature
And more than your simple ambition

Who said only boys that could have fun?
Girls want a little fun too
We believe in the power of dream
We love challenge
And something that makes our adrenaline rushes
Do you think we only interest in gossip, clothes and cheesy words?
We could make the life colorful
And won't stop until we've got what we want
So boys, just watch out!
We won't hesitant to use all our charm
We have a unique taste of desire
And more than an object of affection

Maria Sudibyo
Act like a stupid girl
Act like a stupid boy
I think I got a girl
I think I got a boy
But she’s gone
But he’s gone
To another girl
To another boy

Be a smarter girl
Be a smarter boy
Take the challenge girl
Take the challenge boy
Make she’s yours
Make he’s yours
And you’ll become the happiest girl
And you’ll become the happiest boy

Act like crazy girl
Act like a crazy boy
To get a lovely girl
To get a lovely boy
And she’s hard to caught
And he’s hard to caught
By a coward girl
By a coward boy

Be ladylike girl
Be gentleman boy
Don’t break his heart, girl
Don’t break her heart, boy
Don’t play with her
Don’t play with him
Or you’ll be a miserable girl
Or you’ll be a miserable boy

Maria Sudibyo
Silent Anger

A small prick that you
Don't even realize but
It's poisonous

Maria Sudibyo
Simple Mind

There’s simple girl
With simple mind
She wants perfect love
But she finds it’s hard
To get a perfect guy
With a perfect job
Has a perfect house
Keeps a perfect dog
In a perfect time
And a perfect place
For a perfect happily ever after

So she change little
Of her simple mind
She still wants perfect love
She knows it’s hard
To get a perfect guy
With a perfect job
Has a perfect house
Keeps a perfect dog
In a perfect time
And a perfect place
For a perfect happily ever after

But at least she quite satisfied
With her simple mind
She doesn’t have perfect love
But she finds it’s hard to leave him
That has a good smile
Gets a desirable job
Builds a little home
Keeps a cheering dog
In unexpected moment
And unforgettable place
For hopefully happily ever after

Simple Wedding

Maria Sudibyo
Simply Love

I always remember
When you touch and kiss my heart
You came suddenly to my life
Changing my world

I don't know how you
So confidently to speak love
When I don't believe any hope
You show it now

It is not a matter of win and lose
It doesn't matter who will get the blues
Even though for a moment
Make it forever
Until you need a freedom to loose

Never in my life
I strongly wish for something more
Now I dream to be with you
Right by my side

Cause it is not a matter of what you choose
It doesn't matter if this invisible curse
Just trust the feeling
And leave me never
Until the night's falling in winter

Maria Sudibyo
Sin City

I long for the day when I believe I'm innocent
Now whose hands that tainted with blood?
I miss the day when I could be a naive
Now whose words that coated with deceiver?
Will it be the guilt I live from this hour?
Will it be the lie I carve from this corner?
Now the hunger won't be satisfied
Now the sin won't be purified
It is the burden everybody should carry on
It is the memory that can't be forgotten
Like the rusted chain that forbid us to run
Like the fake smile we should wear everyday

I want to kill the devil inside of me
But the angel won't return still
I want to tame the beast inside of me
But the flame still burning in my eyes

I curse the day when I'm still forgiving
Now whose heart blinded with hate?
I laugh at the day when I'm full of confidence
Now whose mind corrupted with doubt?
Will it be the disgust I feel from this moment?
Will it be the fear I have from this torment?
Now the darkness delight my soul
Now the prejudice color my world
It is the anger filling the endless war
It is the hope waiting to be shattered
We don't care who's right and who's wrong
Because the winner could do anything to loser

I want to keep my clothes perfect and pristine
But my impatience staining it with shame
I want to be a quiet and peaceful being
But my cowardice always drag me back to hell

How could I deserve a light?
When I don't have any mercy left
How could I endure happiness?
When eternity is my punishment

Maria Sudibyo
Sincerity Of Power

Everybody wants to be strong
Because there is something that they want
More than the power itself

Maria Sudibyo
Skeleton In The Closet

You are nothing but a monster
That only offers unsolved trouble
Denying me much needed pleasure
And keep giving my life every inch pressure

I was wrong to give you my soul
I'm weak to let you shake my hole
Looks you'll try every way to disturb me
Seems you never tired to torture me

And it is all because a naive secret
That becomes huge nasty regret
Keep emerging in every dark corner
Daunting me to lock the door forever

Maria Sudibyo
Skeleton Of Despair

Everyday I wrap
Old skeleton of despair
With thin skin of hope

Maria Sudibyo
Sky Is The Mirror

If sky is the mirror
Will we look above often?
Because we love so much ourselves
Or we want to reflect what happen in this world
Or because we don’t want to face reality

If sky is the mirror
Will we dropp our head?
Because we don’t want to see our face
Or we already tired to retreat
Or because we are afraid to face reality

Maria Sudibyo
Sleep

Sleep
Got the rest you need
To get rid from the exhaustion that creep
Sleep
Got the escape you seek
To put distance from trouble's weed

In dream
You'll see the mind
In unconscious state
You'll speak your desire
In nightmare
You'll face the terror
In closing eyes
You'll fight for sanity

Sleep
Got the hope to feed
To exchange the tears that you weep
Sleep
Got the warmth to keep
To maintain your lonely heart beat

In dream
You'll see the life
In unconscious state
You'll speak your fear
In nightmare
You'll face the sorrow
In closing eyes
You'll fight for love

Maria Sudibyo
Sleep Well

Sleep well
Where ever your body dwell
Rest well
Let the dream sucking your swell

Sleep well
Give your eyes lured by spell
Rest well
Cease the tears that flow like well

Sleep well
Safely engulfed in familiar smell
Rest well
For comfort is nowhere to sell

Sleep well
The night has a tale to tell
Rest well
Until the morning chimes its bell

Sleep well
Though your life is one living hell
Rest well
Find the peace in this tiny cell

Sleep well
Don't be afraid if you further fell
Rest well
The angel will guard you in their shell

Small Detail For Thirsty Fangirl

It could launch a new ship
It could feed an old fire
It could make you squeal in delight
It could set you drown in feeling
It could raise an intriguing theory
It could confirm unhealthy obsession

Maria Sudibyo
Small Miracle

Everybody expects
That miracle comes with grand entrance
But actually
Most of it already presents on small things

Maria Sudibyo
Small Soul

Small soul’s alone in the night
It’s small
But it’s still a soul
The tiny light
That shines in the dark

Small soul glows dim in the fight
It’s small
But it’s really a soul
Though it looks weak
It’s struggling inside

Small soul keeps attracting my heart
It’s small
But it’s a beautiful soul
It may easily disappear
But it could also grow stronger

Maria Sudibyo
Small Station

I still remember the letter you sent to me
It told the words that I needed
I thought those promises will stay forever
I thought I finally found my one
But I can’t recognize you now
Do you still the same guy who whispers me love
And you still the same one who kisses goodbye
Or it’s only the world that changes so fast
Left me with naive dream when it’s actually over

I have hurt once when you came to my life
You gave me the sun when I thought it was rain
I thought my wound has been closed
I thought at last I finally got the right way
But I was fooled again
Could it be the same guy who gives me roses
And it the same guy who throws those thorns
Or it’s only the world I hardly realize
That feeling is the ghost that coldly disappear

Maria Sudibyo
Small Touch

Maybe it’s a smooth touch
Some light conversation
Helping paw, sudden smile
It’s just little addition
A ‘thank you’ whisper, a dropp of laugh
Tiny spark in your heart, a prick of happiness
Maybe it’s just small touch
In big screen God’s picture work
But maybe it can change life
Into peace and love

Maria Sudibyo
Smile!

Could I have smile in my face today?
Could I smile sincerely to others?
I'm afraid that I can not smile freely like before
I fear that I could only set an artificial smile

Could I still laugh like a child?
Could I be looked natural in the mirror?
I wish that even small thing makes me happy
I wish that I won't have to lie to my own shadow

Could I wave to the cloudy sky?
Could I stand in the gloomy day?
I wish that I could dance under the rain
I wish that I could find the path in darkness

Could I see the smile in your face today?
Could I reply back your lovely sweet smile?
I hope that I won't miss the time to be with you
I pray I could always bring smile in your day

Could I smile even though I'm alone?
Could I smile even though I'm hurt?
I want to feel the warmth in my heart
I believe that love will shine the smile more

Soliloquy

When one is the thief in the run  
The other is servant of the law  

When one always lives in gutter  
The other looks down to below  

When one only knows how to hate  
The other only wants to please his Lord  

When one doesn't believe the world  
The other doesn't trust the sinner  

When one touched by merciful salvation  
The other granted an unexpected compassion  

When one ashamed for his crime  
The other starts to doubt his faith  

When one offered a chance to freedom  
The other can't come back to once he belong  

When one swears for a new beginning  
The other decides to end his life  

When one is raised from hell  
The other is fallen from heaven

Solving Problem

Solving problem is
Like when something slipping from your finger
Do you hurry catch it with a chance of failure
Or do you let it fall to the floor then try to pick what’s left after

Maria Sudibyo
Some Part Of You

I really love some part of you
But I don't like some part
I can compromise with some part
Some part is your own business
That is whole of you
One complex life set in human body
Sometimes I love you more than I hate you
Sometimes I hate you more than I love you
Sometimes you do something incredibly stupid
Sometimes I want to keep you in my box so no one see you
That is whole living you
Maybe loving you is a mistake
or I am the mistake you made
You can make me crazy, you can make me sad
But some part of me will feel lonely
When whole of you is not with me

Maria Sudibyo
Somebody

You are becoming somebody
Not because the meaningful thing you say
But because you living the thing you say

Maria Sudibyo
Someday I'Li Stop

Someday I will stop being jealous with something I don't have
Someday I will stop to compare myself with someone better than me
Someday I will stop hurting myself just to be loved by you
Someday I will stop to hate someone only because they're happier than me

Someone Else

Sometimes I dream to be rich
Sometimes I dream to be able to buy everything I want
But I never dream to be someone else

Sometimes I think I should be smarter
Sometimes I think my language skill should be more fluent
But I never think to be someone else

Sometimes I wish my skin is flawless
Sometimes I wish to be more pretty
But I never wish to be someone else

Sometimes I want to be able to start conversation
But I never want to be someone else

Sometimes I hope to understand
Sometimes I hope to be more perceptive
But I never hope to be someone else

Sometimes I desire to be more cheerful
Sometimes I desire to not quickly shy away
But I never desire to be someone else

Sometimes I try to be better
Sometimes I try to be lovable
But I never try to be someone else

Sometimes I pray to be enough
Sometimes I pray to not always explain myself
But I never pray to be someone else

Sometimes I long to runaway
Sometimes I long to go somewhere else
But I never long to be someone else

Maria Sudibyo
Someone Must Play The Bad Part In This World

I will ask you to play

I'll fake soothsayer to chaos the flare

I'm just voluntary choose to be condemned

Sometimes Love Doesn'T Enough

So many words unsaid
And the unsaid becomes too late
What do we have other than regret?
I love you, I really do
But sometimes it doesn't enough

So many waiting for tomorrow
And tomorrow becomes more rows
What do we have other than sorrow?
I love you, I really do
But sometimes I should have you

So many questions to be reason
And reason lose its importance
What do we have other than illusion?
I love you, I really do
But sometimes it is hard to keep the promise

When sadness turns to anger
And anger spreads its poison
What do we have other than bitterness?
I love you, I really do
But sometimes it causes a greater pain

When secret becomes distance
And distance stretch us further
What do we have other than doubt?
I love you, I really do
But sometimes I want back my freedom

When night invites the worry
And worry starts to swallow me
What do we have other than shadow?
I love you, I really do
But sometimes it's only lonely

Maria Sudibyo
Sometimes, Human

Sometimes you overreact
Sometimes you talk too much
Sometimes you laugh too loud

Sometimes you early jump to conclusion
Sometimes you misunderstand
Sometimes you misunderstood

Sometimes you blurt the forbidden words
Sometimes you lie badly
Sometimes you cover unsuccessfully

Sometimes you embarrass yourself
Sometimes you wear a wrong dress
Sometimes you trip in every steps

Sometimes you feel like an alien
Sometimes everybody stares at you strangely
Sometimes nobody ever sees you

Sometimes you unease with your heart
Sometimes you thinks that you're a failure
Sometimes you stress over non existing thing

Sometimes you sound like broken record
Sometimes you are tired to smile
Sometimes you don't recognized yourself anymore

Sometimes you drown in unexplained sadness
Sometimes you just want to sleep
Sometimes you don't care anything else

Maria Sudibyo
Son Of The Sun

I don’t like night
Starlight seems cold to me
Every time I see beautiful star
Sadness always strikes me
Because I’m not there
This place is cold
In the sparkling stars you see
There is no me
This place is cold
I want to be spread by light in warmer place
Warm light that can’t be gone forever
And with that, I could step forward

Maria Sudibyo
Song Of The Sky

I can’t forget
That I’ve always wished for the morning sky
That I wanted the star of the night sky
That the sun came and shed light on me
That the rain came and washed away my sadness
In the beginning
As well as the end
The blue sky like you
Keeps tears of both happiness and sorrow
I honestly
Can’t express this feeling in words
Someday
my heart is connected to you
Through vision through dream
The little sun that live in me
Will someday be born
Into the wide sky!

Maria Sudibyo
Soon
Soon I will forget the pain
Soon I will laugh your name
Soon I won't think in vain
Soon won't be swayed your game
Soon I will not feel the rain
Soon I won't sleep in flame
Soon my tears will drain
Soon I'll be free from blame
Soon only shadows remain
Soon I will not be the same
Soon
Soon...

Sophisticated Trickster

I will exploit every source  
I will use every friend  
I will grasp every chance  
Why not? Why not?  
There is nothing wrong with that  

I will wear any charm  
I will chant any prayer  
I will plea to any hater  
Why not? Why not?  
I will do anything to survive  

I always prepare another plan  
I always detect your flaw  
I always put a trap in my web  
Why not? Why not?  
It is not my fault you low your guard down  

I will be selfish  
I will be manipulative  
I will be opportunist  
Why not? Why not?  
This is the way I taught to live  

I don't care if the world destroyed  
I don't give a damn everyone goes to hell  
I don't need to try to be a good man  
Why not? Why not?  
I never offer my ability for free  

You can curse me till I die in misery  
You can hit me till I bleed profusely  
You can spit and I don't mind a bit  
Why not? Why not?  
I also have something I don't want to trade with anything

does it make difference you write words yourself or scrap it from books and paper

it makes difference everybody exitedly listens or sleeps peacefully on their seats
it makes difference you have freedom to speak or prisoned by intimidation
it makes difference it gives effect or just a long boring speech

Spiral

it's happened and happened again
I need to break or I'm gonna broken
from round to round
I want to run before it ruins my life
I'm trapped, caught by dark
over and over
when it's begun, where's the end

I close my past to be free
so it never be more tragedy
I thought I have escaped
but I make another mistake
I hurt other, hurt myself
sad, sad, sad
I only have you, but now it's gone

Star Lord

Dark sky reveals stars
How many century passed
With this unchanged fact

Maria Sudibyo
Starry Night

When the night falls in your small room
Nothing seen but the dark and the air becomes chill
Everybody has turned asleep
Leaving the blue mountain bored and lonely
Look at your window, the moon calls
There is stars bloom in the dark sky
Giving a hazy sight of the imaginary city
The tall tree is now awaking
When the cold rigid line blurred into waving hands ready to dance
And city lights accompany you to sing along the midnight
Even the scary darkness drunken in the party
Marching the clouds around the stars and moon

Inspired by Starry Night, Vincent van Gogh

Maria Sudibyo
Stay A Little Longer

Just stay a little longer
For this heartbreaking warmth
Take a deep breath until the scent is no more
Stay a little longer
Linger a while for this moment
Hold tightly in your hands before it gone forever
Just stay a little longer
Let me drunk more than necessary
Make this dream is not soon going to be over
Stay a little longer
Prevent the damn hot tears to come early
And misery becomes too much stronger

Maria Sudibyo
Steps

Maybe one step ahead, maybe two
I could ease my day a little
Maybe two steps ahead, maybe twenty
I won’t be chased in doing my work
Maybe twenty steps ahead, maybe plenty
I could enjoy my day at peace
Maybe plenty steps ahead, maybe more
I won’t be surprised by any outcome
Maybe more steps ahead, maybe none
I let my life to be freely flow
Maybe no step ahead, maybe just one
I could focus on what I want to achieve

Maybe one step ahead, maybe two
I could take a little nap
Maybe two steps ahead, maybe twenty
I won’t be alerted every time
Maybe twenty steps ahead, maybe plenty
I could prepare the worst
Maybe plenty steps ahead, maybe more
I won’t be bothered by all strategy maneuvers
Maybe more steps ahead, maybe none
I don’t really care about that anymore
Maybe no step ahead, maybe just one
I won’t waste my energy to worry

Still Be Yours

still in your home
longing for your scent
when all hopes are fading
it remains unchanged

run and run
rain close your eyes
gone and gone
and still going strong

still in the same room
rest in sepia memories
never regret the time
and never turn away

I will hold you tight
not if you don't want to
don't afraid to burden me
I'm more than you thought

I will listen to
everything you want to
keep your smile bright
oh, just tell me how

still will be yours
no, nothing change my mind
I don't ask anymore
no, I won't leave you alone

please, please
promise to believe
sleep, sleep
layered with sweet dream

Maria Sudibyo
Still Don' T Find Home?

Close your eyes
Take a deep breath
Still don’t find your home?
Travel around the globe
Sit in nowhere street
Still don’t get your journey home?
Stuck in the coffee corner
Look into crossing human
Still you long for another home?
Have a pack of wonderful work
With all flowers float over you
Still couldn’t find your paradise home?

Hug your lover
Cry your sorrow
Still couldn’t name your own home?
Release your pride
Make it to be simple
Still don’t want to go home?
Write a long note
Do a different course
Still looking for something wrong?
Go on your boring daily
With all kids laugh around you
Still couldn’t see your lovely home?

Maria Sudibyo
Still Human

Maybe I’m fierce and cold
Maybe I’m strong and powerful
Maybe I do something unforgivable
Maybe I act like I don’t have a heart
But I’m still human from many sides

Maybe I’m cynical to the world
Maybe I’m drowned in boredom
Maybe I live so much hypocrite lies
Maybe I want to end this existence
But I’m still human for many reasons

Maybe I’m worthless creature
Maybe I’m spoiled little rich child
Maybe I’m stubborn more than a stone
Maybe I’m an arrogant manipulative bastard
But I’m still human by many loves

Maybe I’m broken in thousand pieces
Maybe I rule my own world
Maybe I lost sense of sanity
Maybe I’m untouchable monster
But I’m still human in many parts

Maybe I don’t have any sweet memories
Maybe I never care anyone else
Maybe I wait something unreachable
Maybe I sacrifice all you ever know
But I’m still human till many moments

Still Warm

We are two strangers in tow
We still wary with each other presence
I'm afraid what is going to happen
I fear we don't have any common
But when you introduce yourself
You are smiling to me
And it is warm
Still attracts me to come
And it pulls me closer to you

We have not been met for a long time
We have never talk since then
I'm afraid we couldn't get along
I fear we will be in awkward silence
But when I see you once more
Your eyes shines bright
And it is still warm
Still the same as I know
And it melts the cold distance between us

We have been together for so long
We spend the time everyday with each other
I'm afraid you gonna bored with me
I fear you no longer feel the same
But when I touch you to ensure
You are holding my hand
And it is still warm
Still spreading tingles to my spine
And it's beating my heart faster

We could not help to change little by little
We may be apart someday
I'm afraid I can't remember you anymore
I fear you slowly disappeared
But when I think about you
You straightly filling the hole
And it is still warm
Still strong in my memory
And I believe it will stay forever
Stop Telling Me To Smile

Call me crazy
I don't care
Call me lazy
I don't give a damn

Call me fussy
I like to be prepared
Call me prissy
This is what I am

Call me baby
Respect my name
Call me bunny
I'm not your exotic game

Call me enemy
Come and deal with me
Call me sick
You don't know a little bit

Call me freak
I love to intimidate
Call me weak
I'll smile and I evil

Love me too
Forever
And never separated

Is it not good enough
I try to hate
Is it not good enough
I erase you
From the heart
From my memories

Is it not enough
You disappear from me
Is it not enough
You torn me
With love
With your smile

Your tears
Makes me stupid
Hoping me
Erase your pain
Far away
Bring back the sun

Is it not good enough
I try to hate
Is it not good enough
I erase you
From the heart
From my memories

Is it not enough
You disappear from me
Is it not enough
You break me
With love
With your smile

Without you
I'll be alone
Without your love
I'll be empty
But I know for sure
Better be like this

Sugar And Pepper

There is girl name is Sugar
Her heart is sweet like a candy
And all the bees want her honey

There is boy name is Pepper
His words are spicy but worthy
and every meat wants his beat

Sugar and Pepper have been friend all long
Quarrelling and crying are uncountable
But they never take as heart's wound
and they still sing a song

Sugar is pretty like a flower
When she smiles there's a sunshine
And every man gets first-sight-love

Pepper's voice is like whistle
When he gaze there's a thunder
And no woman can fight that

Sugar and Pepper are just friend not more
Finding something that can't be controlled
But they pretend nothing to show
And they just say 'hello'

Summer Holiday At The World End

if always choose the right answer, life guaranteed prosper
impossible
we don't know something's right or wrong before choosing it
we choose something not because it's 'right'
but because we want to choose it
it's not problem if fail
as long as we decide it by ourselves
look at the sea in the last day of summer holiday
passing time happily
with the feeling something going to end
joyful moments that we hope will last long
summer will repeat again till the end of the earth
but my chance to see it must be limited
so, I just can look forward
the one who decide it right or wrong is the future me
such a waste if we spoil it with doubt
because human cannot stop the time

Sun And Moon

Sun is always said as light
Shines the world with its ray
It is light
Until no one can be able
To see its true face

Moon is always said as shadow
Reflection in the middle of dark
It is shadow
But people can see
With all the lack

Sun must always shine
And moon will follow
Sun must not change
And moon will disappear

Sun is always said as light
Moon is always said as shadow
But do they really want
To be said like that?

Sunny Rainy Day

The sky is bright
But it's raining
The sun is high
But flood is on the road
The wind is strong
I take a bath on day
And cheers and laugh
Crushing water like on the sea
Is this sunny day
with grey cloud?
Or is this rainy day
with smile sky?

Super Treat

In front of counter

Not only dream things

Maria Sudibyo
You give me your brightest smile
Your hands are warm to mine
It is almost a perfect romance
But I'm just the surrogate
I should not even feel

It's not me you imagine
You only need a replacement
I'm just a substitute
To cover your truly desire

You always have the shadow
That avoid you to be responsible
You often give me a false hope
But I'm just the surrogate
You never want me for real

I'll follow your act
My smile still won't crack
I'm ready for the impact
With everything on track

I'll be good
I'll be very very good
I'll follow your mood
Though maybe it is not always good

You shout so harsh and cramp
Your words insult my mind
It is nearly a killing time
But I'm just the surrogate
I know that you don't mean it

I'm not the one you see
You only need a release
I'm just a simple distraction
Easy to be abandoned

You ask me to tell it plain
Your eyes beg me to understand
It looks like a good agreement
But I'm just the surrogate
My truth is always on the seal

I'll be obedient
I'll show my acceptance
I'll adapt with your sense
Even it is out of insane

I'll be the fool
I'll be your perfect tool
I'll move like a doll
Who doesn't have any goal

Tall Tree Standing In Middle Of Hall

Tall tree standing in middle of hall
For what purpose you grow so tall
Do you long to reach the beloved sky
Or do you want to show that you are so grand

Tall tree swaying shadow on the wall
For whose entertainment you raise so high
Do you dream to dance with the whole nature
Or do you enjoy mocking creature that shrinking small

Tall tree lingering in the brink of the fall
For how long you still stretch your branches
Even though lightning has tried to strike you down
Even though everyone eagerly competes to beat your line

I only know you alive

teach me how to bleed my heart

with your shaking crippled hand
I thought how old you are now
how fragile you are
I hope the fall's still far away
but you only smile and calm

tell me how to paint it blue
tell me how to live without you
I can only remember your smile
I only know you'll be there somewhere

Tenggelam

Tenggelam
Rasa yang ada menghilang
Jiwaku kan tertelan
Kesepian

Menghujam
Diserang jurang kegelapan
Tertatih coba tuk pulang
Sendirian

Dan ku kan bertahan
Walau badai menerjang
Ku tetap genggam harapan
Ku kan jauh terbang

Dan ku kan berjalan
Meski pedih terus membayang
Ku yakin di depan ada jalan
Yang bersinar dan terang

Terbang

Terbang lepas
Terbang bebas

Bila masih kulihat cahaya
Terpancar di depan sana
Aku kan segera
Bangkit dan membawa
Semua harapan di dada

Bila satu patah kata
Yang kutunggu tlah tiba
Aku kan segera
Meluncur bersama
Mimpi yang luar biasa

Terbang lepas
Terbang bebas
Jauh
Dan melayang
Di langit luas
Jauh

Kan kulihat semua
Dunia yang sangat indah
Kan kuingat dirinya
Dia sangat kucinta

Bila nanti langkahku terhenti
Kau tinggalkan ku sendiri
Aku takkan goyah
Tak pernah menyerah
Karena hidup belum berakhir

Dan ku kan
Terbang lepas
Terbang bebas
Jauh
Dan melayang
Di langit luas
Jauh

Kan kulihat semua
Dunia yang sangat indah
Kan kuingat dirinya
Dia sangat kucinta

Oh, terbang lepas
Terbang bebas

I know the call
But will I answer it?

It is soothing
It is comforting
But I could not bring myself to trust

I know the way
I know the path
But still I can not follow

It looks alluring
It looks inviting
But my foot doesn't move an inch

I know the sign
I know the feel
But it doesn't come to me

It gives the clue
It gives the hint
But it doesn't hold any meaning

I know the choice
I know the consequence
But it doesn't work for me

It is clear
It is simple
But my mind still unsettled

I know the reason
I know the cause
But it is not easy to understand

It could be accepted
It could be forgiven
But can not be reversed again
I know the result
I know the end
But I don't have a power to say it

It hides in plan
It hides in scheme
But everybody is oblivious about the intention

My heart no longer works to feel
Could no longer tastes other’s feeling
Only beautiful showcase

Got another room cleaned
From remains memories that disturbs me
It’s getting cold, I hope
If I stop thinking of you
You will be gradually disappeared
This is the way all the love ends
This is the way the heart’s changed
And I’m fooling my self that everything is fine

Got amount of tear locked
But endless cries start to come

I want to walk with my own feet
want to talk with my mouth
want to see, to hear, to feel with all senses

I don't have my body
I don't have my soul

little of sweet memory
little hope for myself

The Day I Hate Laugh

The day I hate laugh
Is some hard day
When I don't want to smile
I'm dull when watching comedy
I'm bored with everybody
I'm not interested in conversation
I don't want to bother moving my lips
Or change my gloomy mask
Because I'm exhausted
I'm fed up, I'm weary
My emotion drained
And I don't want anybody disturb it
I'll get irritated when hearing someone's amusement
Better if they could be as miserable as me
I just want to be alone
I'd stay away and make a distance
Because if I force myself to appear merry
I will be more hating myself
Because my joke is so fake and cheap
Full of cynical and enjoyment of torturing others
And I will ruin everybody's happiness
With my twisted and hurtful words

Maria Sudibyo
The Day I Hate Perfume

Is many tormenting days in a year
When I can not compromise the respiratory attack
With my over sensitive nose
That decides to rebel against me
With catching unwelcome cold
When accidentally I always meet somebody
Who maybe has sprinkled half bottle of the damned liquid to their body
And always sit next to me
With a tremendous oblivion
That I am very disturbed with their presence
Or to be specifically with their numbing sense
When I can not understand
Why they willingly to waste their lot of money
Only to buy artificial smell
That now annoyingly tickling in my nostril
And only succeeded to make more sneeze
Until I think the invention of that extravagant fragrance
Is only made to torture me
Than to impress somebody
Or to cover their bad odor

Maria Sudibyo
The Day I Hate Rice

The day I hate rice
Is several rare day in a year
When I don't eat rice
I don't want to eat rice
I don't want to see it
Because I hate its taste
And I hate to think about it
If I have the day I hate rice
Then you'll know that I don't feel well
I'm bored of this procession
I want to run from this life
Because I begin to hate myself
...just a little while
And everything will be back to normal again
That's the meaning of
The day I hate rice

The Days Of Chameleon

One day I wake up and become the prettiest girl in the world
One day I change side and feel nobody wants to love me
One day I go out and get lucky all day long
One day I go home and be depressed because nothing's right
One day I want to hug everyone I meet in the street
One day I thought that all world turn into my enemy
One day I curse myself for extreme stupidity
One day I could defeat genius with my clever instinct
One day I want to curl in the corner regretting one tiny mistake
One day I don't even care what's going on outside my room
One day I could be a nice, calm and lovely lady
One day I snap control and couldn't bear pressure
One day I'm full of hope and enjoy the life
One day I don't even know why I am here
One day I couldn't take a breather
One day I'm bored as hell
One day I'm a sadistic dictator
One day I'm a melancholy victim
One day I'm happy for one single compliment
One day my worry do the best to ruin my mood
One day I make a great discovery
One day nothing seems lit up my fire
One day I want to punch the wall for ridiculous remark
One day I'm content with a good poem

The Days Of Thunder

We are not fighting for yesterday
We are not depending on tomorrow
What we are thinking right now
What we are gonna do right now
It doesn't matter who should first begin
It doesn't matter who will be the last stand
We are not going to regret yesterday
We will keep our hope for tomorrow
What we are dreaming right now
What we are aiming right now
The days will come on and on
The life will keep pushing us to the front
You can forget yesterday
You can deny tomorrow
What do you trust right now?
What do you want to protect right now?
That will keep your heart's beating
That will fill your breath's struggling

The Death Of Silence

Let's celebrate the day
The death of silence
When even the soundless creature
Leave an echo
When the quiet evening sky
Speaks more volume

Let's celebrate the day
The death of silence
When the darkness of night
Is calmed by the song of stars
When this cruel and frightening world
Is cheered by the joy of life

Let's celebrate the day
The death of silence
When the trees swaying their branches
Whispering the news from afar
When the stone awaken to tell the story
And no more secret remains hidden

Let's celebrate the day
The death of silence
When the wind fills the void
And noises the ears
When the sunshine touches the skin
And screams in eyes

Let's celebrate the day
The death of silence
When you could taste the heart
Inside the food you eat
When you could understand
The meaning the breath that taken

Let's celebrate the day
The death of silence
When smile is enough
To erase the rotten doubt
When love is abundant
To wash the bitter pain

Let's celebrate the day
The death of silence
When the soul finds its freedom
And not chained in the grief of body
When the call is passing
Through the memory and time

The Empire Of Light

Through the day in the upper world
The sun’s bright and the sky’s blue
Bring a fresh breeze spirit over garden
Where birds and flowers
Singing in colorful unison

Through the shadow in the night world
The moon smiles and the stars glow
Bring a mystic dim curtain over palace
Where candles and fairy lamps
Dancing like glittering fireflies

Through the queen’s mirror
Through the lake’s reflection
Through the wit of painter
Through the heart of admirer
Darkness will never conquer
The empire of light

If you do not allow anybody to have your heart

The Evolution Of Human

Even though you think it is impossible
Keep trying
Even though you still crying
Keep walking
Even though your heart profusely bleeding
Grit your teeth
Even though no power left

People become selfish
People become greedy
We are creature with desire
Sometimes we're good
Sometimes we're bad
We are just human with weird circumstances

The Feast

Mari kita memulai kisah
Tentang sang raja dan sang singa
Anak manusia dan penguasa rimba
Dari padang rumput mereka terlahir
Dengan kebanggaan dan harapan
Dengan bahaya dan cobaan
Jauh, jauhkan dahulu kedengkian itu
Kita buka dengan babak penuh kedamaian
Menghisap embun pagi yang sama
Menatap dunia baru dengan mata terbuka
Alangkah manis pemandangan mereka yang tak berdosa
Lalu perjumpaan sederhana di tepi kolam
Di mana surga dan neraka amatlah tipis bedanya
Tempat kau mengangkat taring untuk musuh
Atau mencakar lembut tangan sahabat
Bermain bersama di sela-sela semak
Berguling penuh debu di bawah sinar matahari terik
Sungguhkah mereka akan menjadi raja dan singa
Tubuh yang tumbuh menjadi sempurna
Pikiran yang terjalin menjadi pemahaman
Gerbang kedewasaan mengantar mereka pada perpisahan
Peraturan istana dan insting liar
Demi kekuasaan dan harga diri
Mereka tidak berpisah dengan air mata
Karena mereka diajari untuk tidak menangis
Mereka berpisah dengan darah
Tradisi dan perburuan
Pembantaian dan penghinaan
Sang singa mengaum dengan keras
Dengan surainya yang kini lebat terurai
Sementara sang raja terpencil
Di tahtanya yang dingin dan sorak sorai penonton
Mereka merindukan masa-masa itu
Masa saat mereka bertatapan tanpa penuh kebencian
Dan bilamana bulu keemasan itu tiba di pangkuan sang raja
Sang raja menandai pemerintahannya
Dan sang singa mati demi sahabatnya
Ini bukanlah cerita yang perlu diratapi
Baik sang raja maupun sang singa

To be fought for, maybe you will feel unworthy

Maria Sudibyo
The Final Stage

Let the door be closed
And I will not be
The one you see again
Because the road has ended here
And you should continue your way
To the next line

Let the curtain turned down
And I will not be
The one you want anymore
Because the show is over now
And you must not linger
In unattainable dream

Let the goodbye be said
And I will not be
The one you call in the night
Because the words have disappeared
And you must not hold on
To the empty hope

Let the memories be erased
And I will not be
The one you imagine before
Because the feeling is mixed up
And you should not deny it
For your stubborn heart

Let the song be finished
And I will not be
The one you need to cry on
Because the promise has been done
And the sound swiftly changed
To find someone else

Maria Sudibyo
The Game Is Over

life is like a racing game
there are obstacles that should we avoid
and there are bonus that suddenly appear
sometimes we lose control though we have been expert
the fuel is countdown and the level accelerates by the time
it depends to us whether we safely drive,
try to reach the score as high as we can,
don't care what troubles ahead,
or just enjoy the ride
all have different prices and consequences
but it always same in the end, the game designed to over

Maria Sudibyo
The Game Of Stare

There’s a boy with his fellow
I caught his eyes with a wander
Now the game has been played
Now you have been challenged
You better asked my name
Before anyone came
But you only stare, stare, stare
Like I annoy your safety ring
Like you can’t even think
You only stare, stare, stare
Like I lose you something
Something you can’t even win

There’s boy in the dance floor
I catch his eyes, he comes closer
Now the game is replayed
Now you better watch out
You better take me out
Before someone calls you coward
Cause you only stare, stare, stare
Like you never see me in dress
Like no one else who dares
You only stare, stare, stare
Like I steal you something
Something you can’t even think

There’s a boy in the park
He makes me catch his eyes
Now the game is forward
Now you don’t want to break up
You better have a word
Before you loose your hold
And you only stare, stare, stare
Like a puppy wants a bone
Like you’ll be lost if I’m gone
You only stare, stare, stare
Like I can give you something
Something you think you can’t win
The Gate Of Chance

It doesn't matter how wide the gate of chance is opened
The most important thing is
How well we could bend ourselves to get through it

Maria Sudibyo
The Grave Inside My Mind

I made a grave inside my mind
The unknown tombstone in deserted place
Covered the soil of forgotten dreams
It is hidden from merciless eyes of law
My dark ink laid in white coffin
Whispering the song of restless feeling
I've buried the thought under my mind
That ugly forbidden burning desire
It should be a time to say goodbye
But you still haunt my heart

Maria Sudibyo
The Great Expectation

Facing something that doesn't meet our expectation
Is like ordering a new menu that we never try
And it actually has horrible taste

Maria Sudibyo
The Great Flood

They have been warned
And we're not listening
They have called us
And we don't trust them
They have been preparing
And we don't care
They have been hiding
And we're unprotected
They could be safe
And we already doomed

Maria Sudibyo
The House Of Secret

Close the door, the window speaks
The glass mirrors, the frame shrieks
Close the window, the wall listens
The picture has eyes, the curtain has shadow
Close the wall, the roof stares
The air chills, the light fogs
Close the roof, the floor swallows
The carpet has void, the stair has trap
Close the floor, the door sneaks
In the house of secret, could you find the escape?

Maria Sudibyo
The Human In Front

Let’s we forget for a moment
That we have loved each other
And hated as well
Just look the human in front
Tired and confused
See, we forget the reason we stay together
Also the reason we fight so long
What’s left is this emotion
Hurt and grudge
And what we do is this useless
Cry and shout

So let’s we forget for a moment
That we have known each other
And think that nobody can do much better
Try to look again the human in front
Like the first time we met
Not from who start behaving like this
Or whose fault it is
You can say life must go on
Easy let then forget
But when we face the human in front
How could we avoid and deny that?

Maria Sudibyo
The Hunger Games

The thought I don't want you to know
The feeling I don't want you to understand
I will hide, I will run
I'll even make it distant

The sight I don't want you to see
The fight I don't want you to face
I will close, I will trick
I'll even make it blind

The secret I don't want you to find
The question I don't want you to ask
I will erase, I will lie
I'll even make it gone

Maria Sudibyo
The Hungry Ghost Festival

human are hungry animals
born with hungry heart
crying out loud
for warmth and tenderness

human are lonely creatures
living with hungry mind
tired
about loneliness and boredom

human are hungry ghosts
starving because
fear and uncertainty

they eat food
they read books
they shop goods
they change looks
they search money
they shape brain
they talk freedom
they hold religion
they hear music
they rule power
they play heart
they fight till limits
they use everything in this world
to fulfill the need
to escape from sorrow and sadness

human are hungry souls
hungry to love and to be loved
the first hunger never gone

Maria Sudibyo
The Inn Song

There's a wall that could protect you from storm
There's a fire that could warm you from cold
There's food that could ease your hunger
Come inside, come inside

There's a good wine for your miserable life
There's suitable song for your crumbling hope
There's laughter echoes for your lonely soul
Come closer, come closer

There may be shadow that keep you from tomorrow
There’s no love could make you forget about sorrow
But no doubt assistance for every coins you throw
For tonight, for tonight

Maria Sudibyo
The Key To Your Heart

The key to your heart
Is like treasure hunt or romance fight
The key to your heart
Is like nature instinct or seduction art
The key to your heart
Is sharp and cold like a bond of rose thorns
Or as lovely and bright as stairway in dream
The key to your heart
As light as butterfly or as hard as stone
The key to your heart
As complicated as puzzle or as simple as smile

Maria Sudibyo
The King And The Wise Man

A king asks to a wise man:
'Should my heart hot?
Full of energy and blood
Or should my heart cold?
Full of calculation and plot'
A wise man answers:
'Should your heart warm
So everybody could feel calm
In your arms'

A king asks to a wise man:
'Should my heart black?
Rules my kingdom with fear and dark
Or should my heart white?
Always lives in the world's bright side'
A wise man answers:
'Should your heart grey
The color of human that wants to seek
What's wrong and right'

A king asks to a wise man:
'Should my heart hard?
Strong like steel that can't be beaten by anyone
Or should my heart soft?
 Harmless like cotton that easily touched by everyone'
A wise man answers:
'Should your heart flexible
Mold like rubber that could protect people you love'

Maria Sudibyo
The Legend Of Sinurin

shadow's splashed through pure wall
leaves and cries, leaves and cries
and what autumn called
ring king is not in his tower
golden seed's gone, green head down
so see him suddenly come
harvest hide somewhere, food take nowhere
palace ruins anywhere
to where you put your heart away
night's above and beneath is winter
the days are long without seeing the sun
in a half bowl of awaking
blame north way dream and praise south wind songs
there come spring for hally
and play the search of blessed gifter
bloom the bell, now party is over there]
he never comes late
even his robe is going naked

Maria Sudibyo
The Liver Predicament

I could wear pretty dress
I could try to be beautiful
But it is not me I look at window

I could say something smart
I could confidently act
But I will not be able to rest

Will you stop only because
some people say that you can't do that?

I'm fine, I'm well
But nothing could make me dwell
I want to run, I want to scream
I want to reach out my dream

The fun, the way
But nothing enough to stay
I want to break, I want to awake
Because everything felt like a fake

Even though it is only nightmare
For me it is still haunting
Even though it is not real
For me it is still frightening

But I'm not going to plea as a victim
I will not be waiting for blessing
I will take the first chance
Before I regret about yesterday

I'm strong, I'm tough
But my heart is not rough
I want to laugh, I want to cry
I need a hold and try

Someone's more, someone's better
But I won't jump any lower
I want to be free, I want to soar
Before all I ever do is just roar

The anxiety, the confusion
It is draining my strength
The trouble, the temptation
And I wonder where is the end?

And who dares to aim?

Maria Sudibyo
The Living People

Wake up in the morning
Working all long day
Exhausted in the night
Going on routine everyday
Hey, that’s not the point of living

Try to earn money every month
Please everybody with fake smile
Fighting like hungry animal
Fix the problem that keeps coming
It’s just the way to survive the living

Dream out even the impossible
Do what you really desire
Learning things old and new
Make yourself happy and alive
Now here find the reason of your living

Maria Sudibyo
The Lone Wanderer

What am I doing here?
Running on my lonely fear
Waiting for somebody
Clinging on some memory

I should take rest and sleep
Let the tiredness be swept
But my mind still struggle to awake
Doesn't want time to be wasted

I don't know what to search
I need some sign to be heard
Before I lost in helpless state
Clawing on my darkness plate

If I look outside the window
I will only see the field full of snow
If I stare inside my burrow
I will only have the darkness of sorrow

I wish to find a flame
That could burn me with passion
Before I left numb and cold
Without a will, without something to hold on

I want to go to a place
Where I could hear my own voice
Before I disappear in the crowd
Without a name, without a home to remember

I keep looking for another light
Even though it brings me to night
I keep looking for another word
Even though I know I might be hurt

I keep avoiding the talk about the end
Even though it is a certain omen
I keep resisting to say good bye
Yet it is the fate all should lie
Maria Sudibyo
The Loneliness Of Lonely Lone Left Alone

lone
lonely alone I won't
my soul's lonesome in the crowd of loneliness
it sounds sad and lonely

Maria Sudibyo
The Looker On

for Mr. Satterthwaite

the audience in drama of life
never lucky in love and adventure
but has knowledge about life and human characters
sometimes wants to be the actor
small role that easily be marginal from world stage
but the one who gives a sign to the leading actor
to start an important climax
that won't be able to begin if he's not there
then goes down from the stage
and satisfied enough to be a looker on again

Maria Sudibyo
The Lost Kite

I’m the lost kite
I never turn
I can not return

I only let myself swept by the wind
I never fight
I’ll be alone in the night

Will I fall and crushed down to the land
Will I hang helplessly on the branch
Will I be chased by shoeless children
Or will the quiet future never be my own?

I’m the lost kite
I don’t have a hold
I almost cold

I feel myself slowly fade to the sky
I won’t be seen again
I will be decayed unknown

Will I be torn by strong storm
Will I be a danger in electricity cable
Will I finally have a peace
Or will I be played again by fate?

Maria Sudibyo
The Lover Sentiment

I don't care if tears will ruin my make up
I don't care if thousands people are staring
Don't ask me to be brave
I will not be fooled

It is frightening
Thinking that I might lose you
And not even saying goodbye
It is choking my breath
If I won't see or feel you anymore
And I'm the one who should hold it all

So smile and fight
And I'll beat my heart for you
Loud and right
It carries the hope to you

Because I want to believe in you
When anyone has stopped to trust
Because I need you to stay alive
So I can continue my life

It is not fair because I'm too much care
You should suffer a little to cover loneliness hours
Don't ask me to go
I will not be tricked

The choice has flown long time ago
To deny my own desire
And run away from this kind of affection
It had died many ways before
The reason to leave you behind
And not come back

So hug and tight
Don't easily giving me up
Day and night
I'll be waiting to wake you up
The world always searches what's the meaning
But please remember that you have me
The destiny likes to play with the feeling
But not everything is joke and lie

Some love are true
Some dream are real
Some hero are born
Some miracle happen

And it is not burden to do for your love
It is freedom that gives a happiness

So keep and bright
Don't afraid it'll make me fall
Dark and light
We will conquer and own it all

Maria Sudibyo
The Man Besides You

I fall in love to the man besides you
Could it be easier if it’s not you?
How your eyes looking at him and show that rare smile
My thought’s wandering and secretly drowned

I don’t want to cause pain
Only because our feeling is same
But the one who loses to gain
doesn’t need sympathy game

I fall in love to the man besides you
Could it be easier if I tell no lie?
Thought it is the man besides you
I believe my love is special too

I fall in love to the man besides you
Could it be easier if I don’t care?
How I turn on my head when you hold his arm
My heart’s longing and stuck nowhere

I don’t want to make trouble
My dream is to have a simple man
But the rain suddenly rumbles
Can’t help the love has grown

I fall in love to the man besides you
Could it be easier if I am cruel?
If only it is not the man besides you
You would not cry in the night just like I do

Maria Sudibyo
The Man Of no Importance

You like being treated as valuable person
I know your attitude
So you try to speak higher than your place
Want to give impression that you have something extraordinary as well
But do you know that you will easily be attacked on empty air?
If you don't have a strong ground
You will be looked like an arrogant frog
That couldn't swallow a big rat in his mouth

You are an egoist person
I know this symptom
You always drown in pitying yourself
So you act like a miserable victim
Whining scared for nothing existed
That nobody cares about you
That little bad thing is the end of the world
And you need to drag everybody in your imaginative sorrow

You seem to like attention
I know because it's always what happened
You don't like to be left from spotlight
You rant about something unrelated
You only talk about gossip and rumor
Making it more aggravated than the actual truth
So you could be the one who are most attractive
Without realize people start to make a distance from you

You love to make other's life complicated
I know you never think about the consequence
You say you have a lot things to do
You like being relied but you don't want to be responsible
You don't have interest or hobby that occupies you
So you mess up with others
Digging every mistake that could make you satisfied
And feels that you are better than anyone else

Maria Sudibyo
The Man Stands Next To Main Character

I always love the man stands next to main character
because his dark hair or his sharp glare
or his cold attitude hiding his kindness
or his devilish smile when he is in trouble
or maybe I hope he doesn't have many fans

I always like the man stands next to main character
because he is not perfect and sometimes lose time to talk
or he never leaves his friend though he says other
or his help in crucial time
or maybe he doesn't show up in many frames

I always fell to the man stands next to main character
because I want he gets good lover too
or he is still himself under the shadow
or he has the story not everybody knows
or simply because he just caught my heart

The Night Comes For Us

Go home
Go back home
The night is not the place
Where you wander alone
In the crowded street
Not because it is unsafe
But because you use your brave
To cover a lonely heart

Go sleep
Go sleep now
The night is not the moment
When you keep waking up
Struggling to open your eyes
Not because you can't do it
But because you just exhausted yourself
To hide your fear of tomorrow

Maria Sudibyo
The Old Story Of Fear

Night, the old story of night
Dark and cold to be remembered
Quite but not silent song
Each people in their own room
Trapped in the middle of anxiety
They have known
Oh, they feel it too
The sound that beats in their heart
Like running water wondering source losing

Maria Sudibyo
The One Who Laugh And The One Be Hurt

I will let my love
Fly from my arms
The one who laugh is me
The one be hurt also me

I will let my love
Free to reach dream
The one who laugh is me
The one be hurt also me

Nothing can be compared
With my lover’s happiness
The one who laugh is me
The one be hurt also me

Why I should doubt to choose
Or force to keep in my cage
The one who laugh is me
The one be hurt also me

The Origin Of Trust

When does actually man learn to trust?
Is it born just suddenly
Or grow secured on mother’s womb
Do hate, prejudice and disbelief
Should come first before trust?
Is it when his instinct to survive calls
Or when man realize himself
Is very lonely when being alone?

Maria Sudibyo

The Partner

I will take you
To the place you want to bloom
Just give me time
To pass the line
Of me and you

I will give you
Everything you lost in blue
Just bring me clue
To make it true
In dawn hue

What we are crying for
Sometimes it’s hard to live this way
But we could find laughter
In the end of grueling day

What we are searching for
Sometimes we going out nowhere
But someday we’ll understand
The calling of this strange emotion

I will show you
The dream you never thought you could
Just hold my hand
And cross the land
Of thousand chances

I will hold you
Won’t let anything hurt you
Just say what you want
And please allow
Me to stay

What we are trying for
Sometimes it’s hard keeping the faith
But we could be stronger
Because hope would never leave
What we are waiting for
Sometimes to the point of patience
But if we still desire
Maybe it’s time to take a turn

I will love you
Like no one else would do
Just be what you are
Don’t change for someone
Who doesn’t care

I will need you
To be the light of my life
Just feel me now
In falling snow
And you’ll know

What we are hiding for
Sometimes it’s hard to face the truth
But we could be better
If we could look inside the heart

What we are fighting for
Sometimes it’s useless to struggle
But we never know how
The destiny decide to intervene

The Power Of Reason

Maybe someday I won’t remember the reason I’m doing this
Maybe it will become a broken promise
But for now I won’t forget it
Maybe someday my will is faded like a molten candle
Maybe I even turn to hate it
But for now I won’t stop
Maybe someday I’ll gladly release the long time burden
Maybe I won’t care anymore
But for now I don’t want to leave it alone
Maybe someday it changes to unimportant matter in my life
Maybe I even laugh at my foolishness
But for now I really need this

The Rabbit's Hole

Tick tock
I'm looking at my clock
Run and roll
Down into my hole
How many times I say
'I'm late! I'm late!'
When I should make
To date and get

Tick tock
I keep watching my clock
Rush and roll
Falling to my hole
I don't really care
Who will be carried away
I have too much trouble
To meet me in the middle

Tick tock
I start hating my clock
Move and roll
To the deepest black hole
How many times I feel
Like I always be chased
When I only want
A peaceful lazy life

Maria Sudibyo
The Rebellion Of Loyal Servant

I was acting like your loyal dog
You like to throw a tantrum to me when you mad
But if you already out of control
You can do it by yourself

I always support your lies
I’m cleaning your bloody mess
But if you keep treating me low
You can do it by yourself

I’m speaking like your tongue
I move like your pawn
But if you feel you can own me
You can do it by yourself

I’m only ordered by your command
I never question your decision
But if you still don’t satisfy
You can do it by yourself

You blame someone when something bad happens
You always act like innocent victim
But if you don’t want to take even little responsibility
You can do it by yourself

I hold my temper over your childish act
I keep my mouth from breaking fact
But if you keep pushing my limit
You can do it by yourself

I listen to your never ending complaint
I secretly repair what you destroyed
But if you always ruin my effort
You can do it by yourself

I help you to reach your dream
I protect you with my life
But if you think I’m not enough
You can do it by yourself
I know your two face play
I remember you exaggerated behavior
But if you stubbornly want a clean image
You can do it by yourself

You like to be the point of attention
You grudge everyone who much better
But if I’m already fed up with you
You can do it by yourself

What are you afraid for?
What you try to fight
Till you are losing where's up and down in deep deep ocean?

Deep

What if the thing you called curse is bound you forever?
What if you finally see
The truth that lays behind the deep deep abbys?

The Season Greeting

I know the spring is coming
Not from the warmth I feel
But from the green that lives again
I know great people
Not because I admire that person
But because change is happened
In the people around

I know the summer will always be waited
Not from the memorable holiday
But from the time that quickly passes by
I know the precious life
Not because I have great faith
But because every breath I take
Is a gift

I know the autumn is a moment to think
Not from the enchanted falling leaves
But from the cold wind that following
I know the true strength
Not because the victory I gain
But because the painful sorrow
I learn to face on

I know the winter is not miserable
Not from the intricate shape of snow
But from the laugh of children playing
I know the beautiful world
Not because I’ve got what I want
But because there’s still many good people
Who offer warmth and kindness

Rain drops sound
The smell of wet soil
Every dropp is a doubt
Between bless and curse
And among all creature
Who enjoy the most humidity
Are the plants and grasses
There’s no one on the park in the rain day
In the corner
In the middle of white thin fog
A little story begins
In the cross of thin fog in the park’s corner
There’s unforgettable small memory
After rain we’ll enjoy
The joy of sunshine
The sparkling world by raindrop

The Star

Mao kun, you are the star
You have beautiful light that makes people think twice
Whether you real or just the trick of eyes
That someone could be so lovely but determined
But your light even though sometimes hesitant
Could push away the darkness of night and give us hope
You always want to be the sun
You don't realize that you already are
You just have to find the planet for your own to shine
And though you could not always be seen

You put a hardest work to keep shining above all
So everyone could still feel happy

Maria Sudibyo
The Tired Salaryman

I try to live humble and selfless
I try to satisfy myself with limit of happiness
But you want to take away that too
You want to ruin my little heaven

I try to carry on the hurt and the pain
I try to swallow all question and anger
But you always tear it further
Do you really want to make me strained?

But what to be expected
You never listen about the things I like
And I'm not telling you my interest yet
So I just seem like a defiant child

All you ever seek is only your advantage
And you just envy every stage
You thought that the world is running for you
For happiness you can't even appreciate

Are we back to the same pattern?
Life filled with deep unsatisfactory
Feeling exhausted even before the day begins
Dragging our feet in endless burden

Sometimes you ask too much
Sometimes you reason so absurd
That I could see clearly behind insecurity
You are just as lonely as everybody

Are we playing the broken record?
Nothing that changed to be better
Bordering ourself in stubborn shell
Living inside the burning hell

So I try to create my dream
I try to carve my path with song
Remember how I would desire before
And enjoy the light as much as I can
So I try to find the will to carry on
I try to understand the fear and sadness
Even though the wind favor me to be alone
I will never be an empty carcass

Maria Sudibyo
The Touch Of Destiny

If you don’t want to know about something
Just shut all your senses and keep ignoring
That could cut the bond that created
But if you have the touch of destiny
It only prolongs the time until you forced to face it again

Maria Sudibyo
The Trial

There are so many advices running in the world
But only you who know which one is the best for yourself
Only you who understand what you really need the most
Some things maybe need a little practice
Some things maybe need time to adjust
Some things maybe need some imagination
So don't ever stop to try
Don't be afraid to do something different
Even though you are already inside a comfort zone
You couldn't predict what you will face in the future
What will you like and hate tomorrow
Because life is always changing
Your mind is always thinking
Your soul is always searching
And that is the thing that makes more exciting
And keep your heart's beatin

Maria Sudibyo
The Truth Of God

It is not God that takes on the side of truth
It is the truth that takes on the side of God

Maria Sudibyo
The Two Towers

Mind, heart
Body, soul
Logic, faith
Lust, love

Maria Sudibyo
The Wall And The Light

If there is no light, the white wall will also look dark
If there is light, though the wall is black we don’t afraid the dark

Maria Sudibyo
The Whole Me

Love me or hate me
But I and the rest of me
Will always be me

Maria Sudibyo
The Winner Always Stands Alone

Maybe I’m the one who blind
Maybe I’m the only one who don’t understand
But tell me why I cry
Though everything is in my hand
And I should be happy my dream comes true
Maybe I have said selfish wish
Maybe I’ve missed something important
But tell me why I feel so empty
Though I’ve through a hard time and hope
I become lonelier than yesterday

Maria Sudibyo
The Winner Stands Alone

Though you have the power, you are the loser
Though you definitely control the game, you don’t win the sympathy
Though you are the winner, you don’t get people’s heart
Though you maybe the rightful one, everybody turn their heads against you
And the victory seems like a lonely cage to you

Maria Sudibyo
The Wisdom Of Earth

The wise men find it not from themselves
But find wisdom from others being

Maria Sudibyo
The World Divided

The world first is one
And then it’s divided
To explore the world
And search a better home

The world is divided
And then it united again
By the passion to conquer the world
And find forever glory

The world is united
And then it’s divided again
The rule of living is placed
And the game of power is played

The world is divided
And then it’s blurred
In the darkness of fate
And moral questioned

The world is united
And then it’s shattered
By the nature’s tragedy
And evolution selection

The world is divided
And it tries to be united again
To end meaningless war
And look for compromise peace

The world is united
And then it’s more divided
Of prejudice and pride
And the lust of money

The world is divided
And it’s waiting to be united again
By the dream of children
And the love in the heart
The World Movement

The world is keep moving
It is moving when seen
But the direction is unpredictable
It keep moving though unseen
Flowing its own rhythm
Though already do something
The unseen hand is running different way
Though try to stand still
The walking feet is marching as fast as wind
The world is keep moving
From one place to another
Never tired, never rest
The world is keep moving
Moving unstoppable
Grinding those who can’t swim, stubborn and arrogant one

Maria Sudibyo
There Is No Ice That Will Never Melt

There is no ice that will never melt
Slowly, gradually
Though freeze to sleep forever
Or not be moved by emotion
Slowly, gradually
It’s not needed fire arms
It’s not needed the right law
Only time
Slowly, gradually
The cold drips in my hands
Like a burning candle
Like a bleeding body
Gone into puddle

There is no ice that will never melt
Slowly, gradually
Will it be a thin hope
Or silent word
Slowly, gradually
It’s not needed genius mind
It’s not needed global warning
Only time
Slowly, gradually
The crystal vanishes in my hands
Like a crying stone
Like a dying swan
Gone into water

Maria Sudibyo
There Will Always Be The King

in waiting there's a King
peaceful king
filling with his dream
never stop building
what He could imagine
caring and giving everything
for His beloved living
only time has remained
of shattered hope and feeling
in their heart thirst loving
there will always be the King

Maria Sudibyo
Thief! ! !

You are a thief
THIEF, THIEF, THIEF
Thief from bones and soul
Thief till dust and ash
THIEF, THIEF, THIEF
Thief who steals and shouts
Thief who cheats and hides
You have a pride
A pride of THIEF
You have an ethic
An ethic of THIEF
You have rules
Rules of THIEF
You take what you want
And run from everyone
Irresponsible about what you’ve done
Leave this mess to be blown
THIEF, THIEF, THIEF
There’s nothing real
From your belonging
You’re just a thief
And why I should follow a thief

Maria Sudibyo
Things Change, But Life Goes On

Things change
As life goes on
Like nothing happens

Things change
But life goes on
As if nothing happens

Things change
And life should go on
Till nothing seems happened

When the time passing by things also change
Sometimes it’s hard to make life goes on
Sometimes it’s difficult to act there’s nothing happened

But things always change
Following life goes on
Even you forget the memories,
there will not be a really “nothing happens”

Maria Sudibyo
Thinking Is Fun

Think
Just think even though no money for that
Think
Just think let imagination leads you
Think
Just think because thinking is fun
Think
Just think about what you like
Think
Just think without any burden
Think
Just think out of your border
Think
Just think for yourself
Think
Just think as you

Maria Sudibyo
This Beautiful (Yet) Deceiving World

It may be a green lovely field
But don't forget
How many blood that already spilled
And absorbed to the soil
Only to get the land

It may be a calming peaceful smile
But don't forget
How strong the burning hate
That raging inside
Only because loving too deeply

It may be a serene quiet atmosphere
But don't forget
How thin the air you breathe
Could swiftly tensed in a second
Only by a slight wrong impression

It may be a perfect white paper
But don't forget
How easy it could be dirtied by dust
And no one realizes
Only because it radiates the light

It may be a harmless boring life
But don't forget
How gifted every day you pass
In safe blissful oblivion
Only by someone protects it for you

It may be a sweet innocent soul
But don't forget
How observant that doe eyes
Follows and judges your careless action
Only because they are still young

It may be an easy effortless movement
But don't forget
How much pain and trouble it could be behind
That raking continuously unknown
Only to show it in front of you

Maria Sudibyo
This Is My Rain

Do you want to hold all sadness in the world to ease your own pain?
You think you are responsible to all fault
You always too hard to yourself
Till you don’t know what’s wrong
No, you don’t realize
This time you should release my hand and let me try
This is the way I show you my feeling
This is my rain
This is my eternal lament
It hurts to see you that way
It hurts when you ask that way
This is my rain
And you can’t stop it rains
It hurts when you try to smile
It hurts when you learn to lie
You think you are responsible for all the unhappiness
You always too hard to yourself
Till you feel you always wrong
No, maybe you have realized
But you deny your own hope and still don’t let me
This is the way my soul’s longing
This is my rain
This is my crying torment
It hurts to see you that way
It hurts when you still ask that way
This is my rain
And let me soaked in the rain
It hurts when you plea to be blamed
It hurts when you burden the flame
This is my rain
This is my fighting dance
Even you try to cage my heart
It won’t stop but flood
This is my rain
And it pours when rain
It hurts when it hits my skin
It hurts but storm will wash all clean
This is my rain
This Is Sparta!

If you drag me down
I will make sure that you will
Fall first on bottom

Maria Sudibyo
This Night Is Not Too Cold

This night is not too cold
This morning is not frozen as usual
Without you
It’s time to wake up form long winter sleep
Wind blows late crystal snows
Shine the sun on horizon
Spring coming
This night is not too cold
Really, this night is not too cold

Maria Sudibyo
This Side Of Heaven

It is not too bright here
It is not too loud nor quiet
But it is enough for me
It may be small
It may be unnoticed first
But it is my treasure
It may not be special
It may be even a little weird
But it comforts me
It maybe simple
It maybe trifle matter
But it is my own sanctuary

Maria Sudibyo
This Week's Theme Is Reason To Smile

If there should be a reason
Let it be my chosen
Smile because you can not cry
Smile to swallow the pain
Smile even though it's a lie
Smile and don't die in shame
If it's the same like others
So let it make me stronger
Smile because you must not run
Smile and it will be over
Smile even though you don't know how
Smile and never stop to try

Maria Sudibyo
This Week's Theme Is Routine

It's Friday again
It's already a week again
Time really flies
From morning to noon
To noon then night
Chased by endless task and duty
And place where I could hide get shrunk
Where I could rest becomes less
Only a moment I close my eyes
And suddenly it's another day again
It is going monotonous
I need something so I can bear all day
A little spark
A little light
A little heart
A little faith
To wake up in the morning
To ride the usual train to work
To face anything that put me down again
But once we realize
Another year has passed by
And it seems I don't move at all

Maria Sudibyo
This Week's Theme Is Tolerance

Let's start not thinking only about yourself
Let's learn to share some of your fortune
Let's lend your hand with more light heart
Let's try to smile even though your day is hard
Let's keep our hope despite we're running out stock
Let's leave regret and continue this imperfect draw

Maria Sudibyo
This Week's Theme Is Waiting

To wait is to give our time to someone or something else
To be waited is to steal someone else's time
So don't waste the time
And don't make someone waits too long without something
Because it is never free

Maria Sudibyo
This Week's Theme Is Winner

I will not say that you are all the winner
Because I feel that it's a lie
I know it won't help your disappointment
If all is the winner
There will be no competition
There will be no one who should go home
You are not a winner
But it doesn't mean you are a loser
You have given the best fight
You have given the best shot
And you are not someone who give up before it starts
This time you don't win
But you are not a loser
Maybe there is someone more skillful than you
Maybe they didn't choose you
But you should not lose yourself
You should not sacrifice your identity
For the sake of winning
For the sake of momentary glory
That's more important in living this world
Make it a great experience
And you will always get something more than just a title
You are a good contender
And the winner needs you
Everyone needs someone else to be better
This is not the end
You may be down right now
But don't be sad for long
I'll wait you to come to me again
With your own strength
And say you are proud and happy with yourself
That you are winning your own goal
Even though you may never be recognized in this life

Maria Sudibyo
This Week's Theme: Guilty

You don't have to feel guilty
When you speak the truth
When you say your thought
When you refuse to do other's duty
When you can't please everyone
When you are not genius that could solve everything

You should not feel guilty
With your own reason
With your final decision
With your negative answer
With your stammered words
With your alone time

You don't need to feel guilty
Even if you are a weirdo
Even if you feel insecure and anxious
Even if you are not funny
Even if you hard to express yourself
Even if you don't pretend to care about everyone

You should not have to feel guilty
It's okay to take a rest
It's okay to be different
It's okay to not explain everything
It's okay to do what you feel's right
It's okay to go back home again

Maria Sudibyo
Thorn And Hate

there is heart springs thorn
there is growth of hate
you plant the thorn
you sow seed of hate
will you cultivate the thorn
or fertilize that hate
I don't want to harvest thorn
you cause me to hate
my heart's never gone from thorn
you always add that hate

Maria Sudibyo
Those All Are Vain

Those all are only vain
The quarrel and the sworn enemy
Those all are vain
The anger and the envy
Those are for vain
The greed and the arrogance
All are vain
The stubbornness and the hatred
Vain
The fear and the power
Just only vain
The pride and the hypocrite

Maria Sudibyo
Thousand Pieces

When I was born
My heart's shattered
Into thousand pieces
That's why
In my life
I always search my lost pieces

One by one
I look for it in many places
Piece by piece
I found it in many hearts

It is strange
Even though I
Never experience before
I feel like
I have known it
For a very long time

Memories
Favorites
Dreams
Feelings

One by one
I collected many puzzles
Year by year
I got it back in many ways

Desires
Wills
Vows
Reasons

One by one
I take through many wounds
Piece by piece
I keep it in many stars
Three Knocks Door

One knock
just say my name

Two knocks
you should clear your ears

Three knocks
open the door!

Maria Sudibyo
Three Phases To Be Forgotten

First starts with lateness
And then you begin to lie
Then you forget me

Maria Sudibyo
Three Sisters

First daughter makes she say
Second daughter goes far away
Third daughter takes another day

Maria Sudibyo
Till Love Do Us Part

call your lover
don't make her wait too long
she can hide feelings better than me
but it doesn't mean she is strong

erase my lipstick mark
don't make her more jealous
she can smell the perfume
enough she knows I'm that woman

I will not apologize
that you love me too
I will not say sorry
that I hold you too

till love do us part
I belong to shadow and moon
because when you're in my home
is the only you that I can own

listen your lover
don't burn her heart into fire
we have all the mistakes
why argue when the die is cast

stay with her tonight
don't leave her down in sorrow
I know her eyes will tell
she loves you as much as I do

I will not fear
to lose your heart
I will not say goodbye
to curve her smile

till love do us part
I'm just your other lovers
because when I want you more
is the only thing I can't own
Time

You can't replay time
Can't rush, can't delay, can't stop
But you can use time

Maria Sudibyo
Time Difference

For you it's midnight
But for me it's already
Half of tomorrow

Titipan

Untuk W.S. Rendra

Milikku semua adalah titipan
Tapi karena aku terlalu lama memilikinya
Aku lupa bahwa itu bukan milikku
Dan tidak merelakannya saat aku kehilangan
Mengapa aku bersedih dan menganggapnya musibah
Tentu saja karena aku mencintainya
Aku terlalu mencintainya sebagai milikku
Padahal milikku semua adalah titipan
Lalu salahkah bila aku mencintainya
Sebagai milikku dan bukan titipan
Tapi harusnya tak kuhilangkan
Kesadaran dan kerelaan itu
Bahwa yang memberiku titipan
Juga sangat mencintai milik-Nya

Maria Sudibyo
To Break A Heart

Hold me like you never did before
Touch me like the memory whispers
I’m going to break someone’s heart
And I will make it bad

Call me as if there are still peaceful days
Look at me and see the truth inside
I’m going to break someone’s heart
And it’s your heart

Don’t speak that you understand it all
Or my tears will fall admit defeat
That I’m already failed
That I think I can love you and give no pain

Don’t ask me how I feel
It will crack the mask and the play is over
If I can reply those beautiful dreams
I hope we’ll never meet to hurt each other

Think me like we will be forever unchanged
Give me a promise that won’t be fulfilled
I’m going to break someone’s heart
And it will be torn apart

Don’t be the one to pull me closer
Or I could never end this game of circle
Now if you stand so still and sad
I can release you without looking back

Don’t say you know the reason
I hate you always make me so hopeful
That you will forgive me as the time pass by
Then there’s nothing worth to be told

Kiss me and let the world left behind
Sing me the way to be strongly alone
I’m going to break someone’s heart
And it’s my heart
Maria Sudibyo
To Live

To live is
To carry all knowledge you have on your words
To remember all memories you experienced on your action
To learn everybody’s heart on your touch
To face the impossible pain on your walk

Maria Sudibyo
To The Light And To The Dark

If your home is cold and the room is dark
And you watch far away from your window
The world's brightness
Don't only envy and grudge over it
But collect your courage
And invite it inside your heart

If your home is warm and blessed with light
Then you see sadly outside the window
The world's darkness
Open wide your window and door
Spread your smile and arms
And radiate your hope to the lost soul

Maria Sudibyo
To The Place Where Memory Returns

Do you still want to live in the place where everything destroyed?
Your home is gone
Your reason is stolen
Living like a roaming refugee
Waking in the morning with trail of tears in your eyes
With nightmares keep haunting your days
A fleeting shadow walking on the earth
And yet you longing for a sanctuary
Let’s return
To the place where memory first remembered
Because God has given so much to make you survive
Let’s dream together
In the place where memory start spreading
Because it is a reminder that we have lived here
And once loved for each other

Do you not have anything left to fear anymore?
Your world is crumbled
Your rules are broken
Coldly you refuse to feel anything
Strengthen yourself with indifferent face
You lost connection with everything around you
Pretend to be unaffected by the changes that happen rapidly
And yet you keep the hope inside
Let’s turn back
To the place where memory begins
Let’s share the pain
And we could go wherever we want
Don’t you know it’s hard to see
When your heart is almost blind with tears

Maria Sudibyo
Today, I Want To Be Cynical!

Today, I want to be cynical
I won't listen those long lyrical
I don’t care people’s opinion
Today, I want to be cynical
I’ll be the sour vinegar
On the tip of your tongue
I’ll quench my cold blood
I’ll shut my crying heart

Today, I want to be cynical
I deny false sympathy
I believe world’s hypocrisy
Today, I want to be cynical
I’ll burn your comical face
With acid glance’s attack
I’ll breed my poisonous words
I’ll carve my sadistic smile

Today, I want to be cynical
I shame self pity
I laugh at naivety
Today, I want to be cynical
I’ll be the sound of thunder
Shake often your bright day
I’ll know your hidden mistake
I’ll close your chance to break

Today, I want to be cynical!

Maria Sudibyo
Tomorrow

turn of
and close
the light
the door
let it be
no sound
no song
only silence
silence
silence
in your breath
let your heart
cross your mind
let it fly
let it dream
nobody can
touch you now
hurt you more
let your cry
wash the pain
clean it again
for better
for worse
for tomorrow
to more row

Maria Sudibyo
Tomorrow is the laundry day
Though tomorrow’s bright and sunshine strikes
Seduce you to play outside
But duty must be priority
Washing the dirty to be clean again
And your day will feel light
After you do that

Tomorrow is the laundry day
Though tomorrow’s cloudy and can’t stop rainy
Bother you with damp laundry
But duty is duty
Washing the dirty so it won’t be stinky
And your day will be bright
After you do that

Tomorrow is the laundry day
Though your laundry is already loaded
And you don’t want to see or touch
But duty must be completed
Washing the dirty so it ready to be used
And your day will feel more comfortable
After you do that

Tomorrow is the laundry day
Though your heart grumbles “Later”
No, do not listen that lazy one
Duty is to be worked not be grouch
Washing is a fun job if your heart happy
And your day will be victory
After you do that

Maria Sudibyo
Too Soon Blossoms

it's the first time (I'm in love)
I have feeling like this
my eyes always searching you
your perfect smile to me

when you walk to me (dance with me)
and say 'I love you'
my mouth lost in words
but I promise this to you

we are young but old enough
to try the world and begin story love
maybe I'm afraid, maybe I don't trust in you
but if you don't play with my heart
you love me naturally
I will give all my love and I never doubt again

don't look at like that (begging me)
I won't hide from you
I just need little time
if I bloom only for you

Maria Sudibyo
Too Young To Die

You are not the only beautiful girl
You are not the only pretty boy
You just too young to die

You are not the only genius talent
You are not the only rising star
You just too young to die

You are not the only hope of future
You are not the only good person
You just too young to die

You are not the only people cry
You are not the only world’s misery
You just too young to die

Whether gone in accident
Whether drugs fill your lungs
You just too young to die

Maybe you just a clumsy boy
Maybe you just a shy girl
But still you just too young to die

Maria Sudibyo
You think that “the tool” doesn’t have a feeling or
doesn’t have a right to feel
So you can use it whatever you like
But the truth is, it has its own resistance
If you treat the tool in the wrong way
It will be broken or it will rebel against you
And it will show to everyone how you treat other people

Maria Sudibyo
Tormented

The real torment
Is not when it's already forbidden
But when we have the ability to do it
But we can't

Maria Sudibyo
Traffic Jam

Which side do you choose?
To the left, or to the right
Don't say you're still in your place
We should solve this problem
Or stuck in this bloody road
Do you think I want surrender?
Or you plea me for forgiveness
Don't underestimate me
Because I still have the power to control
Where are you going?
Should I step first,
Or you gonna move forward
We are facing each other like mirror
And second later it will be shattered
I can escape from you
But I need to surpass and see if I could
So let's break the ice and fight
Which side do you want to move?
We are two stubborn people
I live in my world, you live in your world
Our meeting is an irony
Go get out from my way
Or should I push you from this game
We running out the time in this passageway
Where are you going to choose?

Maria Sudibyo
Traffic Jam The Sequel

Everybody has feeling
But not every time they feel the same
One side feels it’s annoying
Other side feels it’s arrogant
When they don’t realize the other feeling
What wait in front are only troubles

Everybody has feeling
Sometimes it’s difficult to remember that
One side feels it is freedom
Other side feels it is threat
They think they will lose
If they should always care about opponent’s feeling

Everybody has feeling
“I should be treated first! ”
One side crosses the path
Other side slices the road
If everybody ignores feeling
They only become trashes

Everybody has feeling
But what would happen to the world
Everybody has their own problems
Everybody has their own reasons
But not everybody has good tolerance
If the patience over ...

Unless you seek another wasted hour

Maria Sudibyo
Traffic Jam: The Stressed Passenger

It waste my time
It waste my money

It is ironic to laugh

I curse traffic jam

It makes me mad
It makes me bad

It makes me dead

I hate traffic jam

It is not a case of bad luck
It is not a matter of fine heart
It is not a different level of smart
It is not a problem of ungrateful idiot

I LOATHE traffic jam

Traffic Jam: The Worst Scenario

It is a hot hot day
You have to go
And you are late
You are feeling sick
And you have stomach ache
You forgot to bring your wallet
Also your phone because you're in hurry
You are the one who drives
And the car needs repairing
Because the window can not be opened
And the door always needs a little push
The tank is almost on limit
And you again forgot to fill it
There is only one way
It is a narrowing road
With two side of direction
The road is crowded
And you stuck on it
And you hardly can move
All people become egoist
Everybody has turn into aggressive
And nobody wants to give a space
Everybody will do anything to get forward
Even it is breaking the law
Testing your reflexes and mental
Or scratching your fine car
The motorcycle from opposite direction has decided to short cut into your line
And there are plenty of them
They invade all the road in front of you
Till you can face to face with them
And neither can finally move
And no officer around
You can not turn over
There is no alternative way
The railway lies nicely in the front
And the clock is tickling for the next train
And nobody has already moved
Everybody has turn into panic mode
And the horns blow ever direction
Making it seems more chaos
And suddenly your stomach is getting worse
Sweats tricking over your body
And you can not leave the car
Because the door is broken
And the window can not be opened
And nobody care about you
Or take a notice on your frantic shout
Because they also panic with themselves
So ready to say a little prayer?

Maria Sudibyo
Traffic Jam: Wake Up Call

Nobody likes to be stuck
Everybody eager to move forward
But when we only stirring the mud
It is time for us to start wake up

Nobody happy to be stopped
Everybody chase the fast track
But when all the movements collide
It is time for us to start wake up

We are running out
We are running hard
And we left our sense
In trash wreck

No ethic
No respect
Only selfish need
Only egoistic pride

Nobody willing to give a heart
Everybody ready to strike
But when it only makes us lost
It is time for us to start wake up

Nobody fears to get caught
Everybody always sneaks the way out
But when fate hard to forget
It is time for us to start wake up

We are running wild
We are running wide
And we hanged our life
In bloody road

Lack patience
Lack empathy
Only ignorance
Only blindness
Maria Sudibyo
Tragic Love

Whatever AU
You thrown at you will never
End up together

Maria Sudibyo
Trail Of Traitor

deep downhill
my heart's sunken more
stabbed by the pain and frozen tears
enemies are with me
and the sky praises my stupidity
the way I choose
is not a merciful way
grim, blind
but I will not be cheated
by the dark of night
lost, gone
but if I turn around
I only see lie

Maria Sudibyo
Trapped By Stereotype

We build prejudice
From old rotten skeleton
Of our ancestor

Maria Sudibyo
Trashes

Trashes
Their fate is not ended
After they are dumped and forgotten
Like everyone always thinks

Maria Sudibyo
Trauma

When you have nightmare
As scary as my own hell
Ghost is not needed

Maria Sudibyo
Traveller's Mind

Where will I find my own word
Is it in the dust of someone’s ash or in the end of my tongue
Where will I find my self
Is it when I look into someone’s reflection or when I close my eyes see inside
Where will I find my life
Is it when I follow world’s current or when I dig under thrown stones
Where will I find something I treasure
Is it when I journey across the world or when it gone slips from my fingers

Maria Sudibyo
Treasure

treasure's charm
is like ants attracted to the smell of sugar
they spontaneously directed to that
though there's a deadly trap bigger than they can handle
they have been blinded by their senses

Maria Sudibyo
Treasure For Sure

Treasure
Is called treasure
Because someone see it as precious one
Feeling happiness because he have found it
If not, that treasure
Only become something that has no meaning

Maria Sudibyo
Trial

Don't be afraid to miss something
Don't be afraid to be left behind
Don't be afraid to fail
Maybe it is not your time
Maybe you will catch it later
Maybe it is not meant to be

Maria Sudibyo
Troy

She thought it is real love
But she also seeks for freedom
He thought it is a gift of god
But it is also a hidden curse
They thought it's only a matter of heart
But it becomes a fate of the country

He wants his love back
But actually it is his wounded pride
He excuses it as a battle of honor
But it is actually a war of greed
They thought it is a fair consequence
They didn't count the sacrifice the others should make

Why for love they all could hate
Why for life they all could hurt

He doesn't care about love
All he wants is the glory
He thought it is to fulfill the pledge
Now all he yearns is to go home
They thought it is a simple mission
But actually it forces them to question their loyalty

He thought it is love worth to protect
Even though it costs his life
He always expected to be a great ruler for his kingdom
But he could put it aside and be a good father
They thought it's a part of their duty
But it also a choice of their destiny

Why hero should raise from tragedy
Why lover should bloom from enemy

He thought that love is courage
He wants to prove it by becoming a warrior
He acts like he is a respectable ally
Though he feels like walking on the tip of the sword
They thought they have control for what they doing
But in the end of the day what they got

She has a warning about love
But no one would ever listen to her
She has long be abandoned
Now she would get her revenge
They thought they are too weak to involve with their future
Now they'll struggle with their own power

Why men leave only to fight
Why women left only to pray

When the divine lead their mortal player
And human trapped in their desire
The legend would be born
And the myth would be written

True Blue

How do you know that I'm not blue?
When I sort through feeling that is true
Everything is all pointing at you

Maria Sudibyo
True Friendship

No need a word in silence
No need be hesitant in talk
No need a reason to help
No need to avoid to refuse
No need a price for sacrifice
No need to ask for support
No need shame when crying
No need to fake when smiling
No need a pride to apology
No need to lie to leave
No need intention by sharing
No need to envy by keeping

Maria Sudibyo
True Happiness

You may be swayed by other happiness
But keep remembering what your true happiness is

Maria Sudibyo
True To Me

Always tell the truth
Don't based it on your narrow assumption
Do not make someone turns to hate you
Only because you want to impress them
By speaking an exaggerated opinion

Maria Sudibyo
True Words

It is in silence
And in silence
It is talked

It is in the crowd
And in the crowd
It is sung

It is in dream
And in dream
It is shown

It is in pray
And in pray
It is pleaded

It is in grief
And in grief
It is whispered

It is in anger
And in anger
It is blown

It is in hug
And in hug
It is felt

It is in writing
And in writing
It is thought

Truth

Every day there is a lot of “truth”
Truth according to science
Truth according to law
Every person holds their own truth
Truth according to religion
Truth according to culture
Every time we must decide what should we trust
Truth according to your own heart or
Truth according to some power

Turning Sadness Into Kindness

My skin crisp with light
That comes through mask but my heart
My heart is so cold

Maria Sudibyo
I want you to understand
I’m feeling uncertain
What’s hiding behind the curtain
I’m afraid it’s only a vain

I don’t know where else to stand
Maybe I’m already out of this train
My heart is strained
And I couldn’t bear the pain

My feet stuck in living sand
In any time it could be rain
I’m failed to see it plain
It’s you who hold the chain

Maria Sudibyo
Unconscious

I’m blind, I’m stubborn
I don’t need anybody else
But somehow, I don’t know
I’m unconsciously clinging for warmth

I’m tough, I’m strong
I could run my world alone
But somehow, I don’t know
I’m unconsciously clinging for attention

I want to go, I want to disappear
I don’t want to live in this world again
But somehow, I don’t know
I’m unconsciously clinging for hope

I’m filthy, I’m unworthy
Everybody calls me a sinner
But somehow, I don’t know
I’m unconsciously clinging for love

I’m fool, I’m hopeless one
All doors are closed for me
But somehow, I don’t know
I’m unconsciously clinging for dream

Maria Sudibyo

Uncoorperated

One man does what he wants
One man does by his own
And others follow his way

One man does what he wants
One man does by his own
And others don't fit his way

One man does by his own
One man does by his own
and they never find their way home

Under Pressure

Too much pressure under the sky
Too much pressure to the ground
But don't forget to move
Don't forget when you dance swiftly in heavy rain

Too much pressure with the time
Too much pressure to withstand
But don't forget to enjoy
Don't forget when you just relax your shadow in lush meadow

Too much pressure fill the air
Too much pressure in the room
But don't forget to breathe
Don't forget when you sip gratefully a cup of coffee

Too much pressure over your shoulder
Too much pressure weighing your hand
But don't forget to fire
Don't forget when you are burned with your wild imagination

Too much pressure in a day
Too much pressure in the life
But don't forget to laugh
Don't forget when you release your worry in good joke

Too much pressure for the heart
Too much pressure demand attention
But don't forget to be happy
Don't forget when you like to treat someone else

Too much pressure clawing weak stomach
Too much pressure torturing fragile soul
But don't forget to look
Don't forget when you watch people walking in the street

Too much pressure till get lost
Too much pressure running your mind
But don't forget to hope
Don't forget when your dream starts coming to reality
Too much pressure beating the drum
Too much pressure numbing the senses
But don't forget to listen
Don't forget when you hear the blowing sirens from distant

Too much pressure waiting in front
Too much pressure as wake up call
But don't forget to feel
Don't forget when you realize you are the only one who aware

Under The Snow Rain

Running in midnight
Snow shines in the dark
Falling beautiful slowly
Make me rushing my feet
My breath’s frozen, my hands turn cold
But I don’t care
I must meet you, I must see you now
I need to hold you and feel your warmth
Before you gone and leave me broken

Running like a fool
Tears river in my eyes
Still rushing my feet
Screaming nightmare inside
My heart’s stop beating, my mouth starts bitter
I know no mistake
I must come to you, I must find you now
I need to hold you and keep you warm
Before you gone and leave me alone

Unhealed Wound

Sometimes we don’t realize that we have been hurt
Until the bruise comes out and turns blue
Until the wound closed and leaves scar
Until the pain numb and still unhealed
Until what hidden scratched again and bleed more

Unholy Man

Meski kau bukan orang tersuci
Meski kau bukan orang terhebat
Setidaknya ada orang yang
Sepenuh hati mencintaimu
Setulus hati menyayangimu
Jadi jangan kau siakan air matanya
Jangan kau siakan penantiannya

Meski kau bukan orang yang paling baik
Meski kau bukan orang yang tertulus di dunia
Setidaknya kau masih punya
Rasa di dalam hatimu
Denyut hidup di dalam darahmu
Jadi jangan kau siakan dengan harga diri
Jangan kau siakan dengan segala kemunafikan

Maria Sudibyo
Unknown

You don’t need to know about me
I don’t want to be known by you either
You are not worth to know about me
I’d better hide than serve your selfish ego
You don’t understand about me
You always busy with yourself
You never appreciate me
You never look anybody else but yourself
You don’t have interest on me
You only care about yourself
So why I have to tell you a story about me
If you keep talking about yourself

Urban Legend

A story doesn’t have a shape
But if it keeps retelling by generation
And passing a very long time
An energy, a power could be born from the story
A power
To plant “terror” in human’s heart

Vain

You will learn it is useless
When it is too late to come back
And doomed to regret
You will learn it is vain
When you've drained all your strength and energy
And got nothing
You will learn it is foolish
When you finally realize that it doesn't really matter anymore
And laugh it loud

Victory Tour

Because there are so many unpredictable factor could involve in our life
The true victory is not depending solely on the matter of win or lose
But from what purpose we want to achieve

Maria Sudibyo
Villain And Hero

Look at them
Look at the people around you
They are afraid
They are confused
Nobody could adapt quickly in drastic change
If it keep going like this
We will fall into dark hole
We will be doomed into chao
What are you searching for?
Glory? Redemption?
What are you wishing for?
Power? Peace?
Let's take our role
Who's gonna be a cruel villain
And who's gonna be raised as hero
Let's wear our mask
Who's gonna play a traitor
And who's gonna be crowned a king

People need someone to be followed
And they need someone to be blamed
They want a 'truth' they could take as faith
That could be cast in future
That could be foundation in ruins
To continue their life
To survive from this disaster
And find happiness again
What are you waiting for?
A sign from heaven? A swing of sword?
What will you spread to the world?
A spirit? A lie?
Let's choose our place
Who's gonna stand there acting evil
And who's gonna fight till the end
Let's welcome our destiny
Who's gonna be long remembered
And who's gonna be forever cursed
Viva Fantasy

Do you have a mirror? 
magic picture on the wall? 
can we go inside and find 
some beautiful fantasy land? 
there's no time, no fresh air in my mind 
I am almost running my half feet away 
do you have a great wardrobe room? 
to get a little black space behind 
and see some mysterious minds work 
together we are no more afraid and curious 
taking you to the hill we play 
bringing you the childhood once more 
if you think it's over 
nothing get you out from guilty pleasure 
and so what we gonna do? 
don't wake up the sleeping dragon 
don't touch water on the pool of desire 
if you have no wand 
no magic spell in the air 
so make your own dream story 
and make it comes true 
be delight, you shouldn't eat the Turkish delight 
though adventure without meal 
is very terrible thing 
you won't get any heart within 
till you finish the final word in the last chapter 
the thing you stand for to cry 
to fight for your eyes 
is 'THE END'

Maria Sudibyo
Waiting For You

Waiting for you
Maybe like making a cotton candy
Looks simple but hard
Feels fun but need patience
To collect the fiber made sugar
That you very much in love

Waiting for you
Maybe like weaving a cotton candy
Taking hours but beautiful
Seems fragile but worth the smile
To gain a fluffy made sugar
That can not be shrunk by time

Waktu Yang Tepat

kapankah waktu yang tepat itu?
apakah bila kita secepat kilat
atau sewaktu berhitung cermat
kapankah waktu yang tepat itu?
apakah bila bergerak mendekat
atau bersabar menunggu penjerat
kapankah waktu yang tepat itu?
apakah bila kita melihat
atau ketika tak ada yang berbuat
kapankah waktu yang tepat itu?
apakah bila kita terus memahat
atau dimana semua sudah tersurat
kapankah waktu yang tepat itu?
apakah bila kehormatan terdesak
atau kala keberanian terdapat
kapankah waktu yang tepat itu?
apakah bila musuh merapat
atau sewaktu tak terlambat
kapankah waktu yang tepat itu?
apakah bila kita menangkap waktu yang sesaat
atau saat melepas semua pemberat
kapankah waktu yang tepat itu?
apakah bila semua selamat
atau ketika datang mujizat
kapankah waktu yang tepat itu?
apakah bila emosi memuncak
atau dimana yang berkuasa adalah akal sehat
kapankah waktu yang tepat itu?
apakah bila janji sudah terikat
atau kala hidup dipenuhi karat

Maria Sudibyo
Wandering Class

I thought that
nothing, nothing, nothing
can make me cry again

I thought I
forget, forget, forget
those scars and pain

but no, it's
comeback, comeback, comeback
and leaks my eyes

I should not beat down
I should grow stronger
and everything will be fine

I will not always cry
like nowhere child
and nothing to be done

but hey, you
won't know and
I will cry alone

I'm tired
to be puppet and must be
someone's else

I can't hold it
that's enough
my heart is shattered

Can I stop
and relax and
nobody ask me why?

why don't find any jobs
why don't go to school
like anybody does?
I'm in wandering class
give time to think
who I am

but do you
want to understand and
stay by my side?

War Of Words

from a bottle of ink
spread into paper field
my word soldiers
pen is the sword
mind is the general
invading the blank land

sword is drawn
mind is attacked
conquered by abstract thing
called word

from a bloody throat
fly into air space
the word soldiers
tongue is the cannon
heart is the general
destroying memory bond

cannon is shot
heart is hurt
separated by abstract thing
called word

War Solace

let all mothers sweep their tears with their sleeves
and flowers wither on old horse steps
let the fear and night
frozen our soldier
we are not going back
peaceful home own no more
once sword slashed and blood flashed
the body will crave from living
we are doomed from light
let the dead become the dead
and we will walk our way home
to nothing land

War Within

Kadang kita harus menunggu dengan tenang
Kadang kita harus segera menyerang
Kadang kita harus mencari celah untuk menang
Kadang kita tak boleh lengah dan tetap menerjang
Kadang kita lembut dan bergerak seperti bayang
Kadang kita ganas bagi hewan garang
Kadang itu akan membuat kita dikenang
Kadang itu hanyalah sebuah kekonyolan perang

Warna Cinta

Kini
Aku terdiam terhenti
Tenggelam di dalam sepi
Dan ku bermimpi

Nanti
Pasti kudapat kembali
Pengganti yang telah pergi
Dan ku mengerti

Meski kubuang semua
Segala rasa di dada
Semakin tertinggal hampa
Yang menekan jiwa

Meski kututup semua
Kenangan tersisa
Semakin ku lupa cara
Bahagia

Suatu hari
Siapapun yang kunanti
Kan membawaku pergi
Hapuskan pedih

Meski tak selamanya mudah
Tapi layak dicoba
Karena ku butuh cinta
Tuk penuhi jiwa

Meski kau bilang ku buta
Dan ku kan terluka
Tapi itu pun warna
Dunia

Warning

When my mind dragged into the darkness
My feet suddenly stop and I become bored
It’s a warning, my heart could feel
Before my life is taken away from me
I should run and find the light again

When my soul swift into despair
My clock suddenly frozen and I become lonely
It’s a warning, my body starts shaking
Before my faith fly away from me
I should turn and catch my wings of hope

When my love tainted by deceit
My eyes suddenly blocked and I become ignorant
It’s a warning, my instinct is calling
Before my hate conquers me
I should hold on and break the storm

When I’m lost in clown world
My fear suddenly clear and I want to scream
It’s a warning, my truth is here
Before the mist thickening
I should be strong and find my reason to dream

Maria Sudibyo
Wavering

So many why
And a lot how
But you should know
There’s an inevitable fact lays in your hand

So many question
And a lot deny
But you should accept
There’s a fate runs in your blood

So many demand
And a lot wonder
But you should always
Put your feet on the ground

So many regret
And a lot fake
But you should face
The truth is begging you to understand

We Don'T Talk About Summer

We don't talk about summer
We don't talk about the girl who loves winter
That long gone before she realized

We don't talk about summer
We don't talk about the girl leading the season
But he unable to stand with her

We don't talk about summer
We don't talk about the girl who surpassed spring
Yet she always envied her sitting next to him

We don't talk about summer
We don't talk about the girl who aren't afraid to go wild
Still she can't defy the lovely sister

We don't talk about summer
We don't talk about the girl who forgot autumn
And she pretend to not see him coming

We don't talk about summer
We don't talk about the girl sprawling on fallen tree
When he gives her the last blooming flower

We Never Learn

We never learn
We keep being a fool in following rule
We lazily think before with our own head

I should move but I glued on my sofa
I should go but I tarry my feet
I should have rest but I exhaust myself
I should sleep but I still open my eyes

We never learn
We keep repeating the same old mistake
And history is always going into cycle

I should believe but I don't want to listen
I should protect but I only give the pain
I should love but easy is ignorance
I should watch but I don't pay attention

We never learn
We keep our stubborn head
We never look around and just fulfill our desire

I should be strong but I don't find any reason
I should be in control but I lose my rational mind
I should be brave but I'm weak
I should be happy but I'm always lonely

We never learn
We keep forgetting the good and falling back to the root
We drown in the dream, never live in the real

I should be smarter but I deceived again
I shouldn't be allured but I swayed in instance
I should be patient but I can't wait for more
I should be good but nobody's care after all

Maria Sudibyo
Wedding And Funeral

Nobody here to love me
Nobody there to care
If there’s something to kill me
My breath away
You only come to laugh
Buried me....

Not much time to leave me
Only the shadow comes late
Don’t you hear the bird’s crying
Sometimes so lonely
And the bride should runaway
From the rain....

O, well what can say
Hell won’t pay
For the Cain who still live today
They are looking for glory
not stop for feeling
But still don’t live in peace
What a pity piece...
Of forgive....

On wedding and funeral
We can meet and separate
Life comes not so easy
Why can we stay for a moment
To give
Of a love life

Maria Sudibyo
Welcoming

To the open air, to the darkness fair
I bare my soul
No matter what’ll happen, no matter how will I surpass
I welcome the future
With a thin hope, or destroying faith
I live in this strange world
Until the light goes out, until the life fades away

Maria Sudibyo
What Actually Runs In Our Veins?

What actually runs in our veins?
Blood, water and oxygen
Or the spirit that lives the body
Food, poison, and mineral
Or the feeling that moves the body
Pain, cold, and fear
Or the heat that calls the body

Maria Sudibyo
What If

What if I’m an empty shell
Will somebody tons me with everything he wants
Or just throws me to another corner
What if my memory is short
Will I lose something important
Or it’s a gift to be able to forget
What if I choose to wait for a moment
Will there be something different
Or it’s just another waste of time
What if I follow the current flow
Will it fit with the destiny
Or it swept me further from my journey more

Maria Sudibyo
Wheel Of Fortune

Don’t know when the turn goes wrong
Don’t know if I can hold on
When I choose my decision
That time I sealed fate my own

Don’t know what game I follow
Don’t know what next will show
When I pull the plow
I should carry on no matter it flows

Calm down, calm down, my body
We have gone through it so many times
We will go through this at time

Don’t know when pain strikes the wound
Don’t know when regret gets the crown
When my luck never won
I won’t blame it lower for my down

Don’t know when fool always glows
Don’t know laugh is sorrow
When the count only left now
Face it and start to throw

Patient, patient, my mind
Though the road becomes rougher from here
We will find the power somewhere

Maria Sudibyo
When Childhood Dies, Its Corpses Are Called..?

what does child mean?
a miniature of yourself
a treasure to be loved
or a learning human

what does child mean?
a gift to be cared
a burden in your life
or a true friend

what does child mean?
a sacrificial lamb
a heir from family line
or his/her own future

what does child mean?
a natural born trouble
a sweet little angel
or just a mere child

Maria Sudibyo
When Ears Don'T Listen And Eyes Don'T See

why we have two ears that can't be naturally closed
but we less listening than talking
why we have one mouth that technically is not locked
but we speak nothing less than complaint
why we have two hands that carved beautifully
but we use it to hurt someone we love
why we have two eyes that sparkling wide
but you only look at me from one side
are your hands made to close your ears
and your eyes are blind to see damage
are your hands made to lock your mouth
and you are scared to accept truth
why we have two legs that walk graciously
but you always step away from me when I try to get closer
why we have one heart that we keep sacredly
but we can't control to whom it belongs

Maria Sudibyo
When I Die

when I'm slowly falling down
I feel my soul wants to fly
when my eyes are getting blur
I begin to draw your face in my head
when my fingers are getting cold
I hope I can still have your warm touch
my tongue hardly moves
I'm even not yet saying I love you
don't cry, don't make me cry
your tears become the smell of salt rain
when I know it's all too late
I will listen carefully my name you call for the last time
why I'm dreaming a happy time
when I should leave you forever

Maria Sudibyo
When I'M Sick

I hate sunshine
I hate wind
I hate dust
I hate smoke
I hate perfume
I hate motion
I hate voice

I want to rip my body part
I want everything's in order
I want everyone stay silent
I want something warm
I want to cry
I want to sleep
I want to get better soon

Maria Sudibyo
When Love Is No More

Fear not if he doesn't love you anymore
Fear when you don't love him anymore

Maria Sudibyo
When We Say Goodbye

when we say goodbye
cwords never end
and tears never stop
when we say goodbye
kisses never enough
and time never tolerates

when we say goodbye
we caught by fear
though we all smiling
when we say goodbye
we want to stay still
but the road slowly moving

why hard to separate
because love too long
or doubt becomes renegade
why drinks never sated
because memories too strong
or loneliness mates

when we say goodbye
hope we meet someday
in another place we never know
when we say goodbye
give hug once more
till we can endure all sorrow

Maria Sudibyo
Where Are They Hiding?

Where are they hiding?
The straying cat, the sneaking rat
Where are they hiding?
Under the shadow, inside the hollow
Where are they hiding?
The true face, the real case
Where are they hiding?
Behind the mask, on multiple cracks

Maria Sudibyo
Where Are We Among People?

Where are we among people?
Are we on the safe circle
Or just an outsider and abandoned
What are we among them?
An almighty hero
Or an unforgotten sinner

Where are we among the world?
Are we swept by reality
Or are we lost in our fantasy
Where are we among nature?
Are we an important existence
Or are we just an abominable creature

Or
Are we nothing?

Maria Sudibyo
Where Does Love Come From?

I wanna know where love comes from
I know he is a guy, I know she is a girl
But they are just another boys and girls for me
I wanna know where love comes from
I know he is an attractive man and it’s nice when he’s around
I know she is kind and has beautiful smile too
But they are just another beautiful couple for me
I wanna know where love comes from
I know he could be relied on when there’s trouble
I know she never leaves her crying friend alone
But there should be lot of people like them
And why do they become together?
Is it because the perfect time to strike
When cupid finally blows its arrow?
Is it because they have correct puzzle of heart
And find their soul mate each other?
Is it because they have been lonely
And feeling peace when together?
Is it because fate entwined, cosmic coincidence, body chemistry, mutual
agreement or something else I don’t know?
But there are lots of same love story about that
And I don’t’ understand yet
Where love come from between them

Maria Sudibyo
Where Is The River?

Where is the river?
Is it here
Or somewhere else

Where is the river?
Is it here
Or hidden under the ground

Where is the river?
Is it here
Or safe inside the cave

Where is the river?
Is it here
Or still far away

Where is the river?
Is it here
Or up above the cloud

Where is the river?
Is it here
Or out of our reach

Where is the river?
Is it here
Or trickling on the rock

Where is the river?
Is it here
Or gathering in the pool

Where is the river?
Is it here
Or down over the cliff

Where is the river?
Is it here
Or just sight of illusion
Where is the river?
Is it here
Running in your eyes

Where is the river?
Is it here
Or sudden flood in the road

Maria Sudibyo
Where Is Your Faith?

I feel you drifting
Away from your dream
Something is missing
In the glow your eyes seen
I find you staring
Somewhere out the scene
Though I’m right beside you
You don’t notice me
So where is your faith?
Does it fade?
Under the shadow, cold and dark
You lost the path

So where is your heart?
Do you still have?
Chasing by regret, guilt and pride
You run your feet

I see you struggling
The cruel world facing
Sacrifice anything
Common is lying
You say it’s nothing
Only weakness showing
What happens to your soul?
What have you been?

So where is your faith?
Does it fade?
Under the shadow, cold and dark
You lost the path

So where is your heart?
Do you still have?
Chasing by regret, guilt and pride
You run your feet

I hear you crying
Inside your heart’s pain
It seems the time has stopped
The night rain approached
Even it’s hard to think
Even loneliness stings
Just don’t give up, my love
You still have me

So where is your faith?
Does it fade?
Under the shadow, cold and dark
You lost the path

So where is your heart?
Do you still have?
Chasing by regret, guilt and pride
You run your feet

Maria Sudibyo
Where?

Dimanakah dirimu berada?
Di sepoi harum rumput habis dipotong
Di kertak dedaunan kering siap dibakar
Di keremangan hutan diterangi api unggun malam
Dimanakah pikiranmu berada?
Di persimpangan jalan menatap ranting penunjuk terabaikan
Di selubung sejuknya pembaringan tua yang nyaman
Di langit-langit kamar penuh bercak coklat yang liar
Dimanakah hatimu berada?
Di deru suara mesin motor yang perlahan menghilang
Di lubang kecil tersembunyi mengkerutkan senyuman
Di keringnya danau air mata dan impian

Maria Sudibyo
Who Am I To Complaint?

Who am I to complaint?
Of the hours waiting
Of the time wasting

Who am I to grudge?
Of lots of working
Of lack of sleeping

Can I scream?
Can I be angry?
When no one understand me

Do I have a right to speak?
Do I have a right to object?
It is my life they talking about

Sometimes it is just too much
Sometimes it is just too tight
When everybody demands more

Who could I blame?
When nothing according the plan
When everything goes wrong

Who could I condemn?
When world seems unfair
When trouble comes everyday

Can I run?
Can I hide?
When day turns darker

Can I cry?
Can I be ignorance?
When rain falls from the sky

Sometimes I want to just leave it all
Sometimes I want to beat them all
When they keep their arrogance
Where do I go?
When I face difficult choice
When it is always me

Who do I hold?
When I feel apart
When loneliness strikes

Can I breathe?
Or just die?
When I should always please you

Do anyone knows better?
Do anyone knows future?
It seems like I'm not even there

Sometimes it is hard to listen
Sometimes it is hard to care
When they only think about theirselves

Maria Sudibyo
Who Is It?

Mirror shadows your face
Painting your lips with bloody wine
And before any goodbye be said
You softly whisper to my ear
And gone to metaphor
Who is it?
Is it me or somebody?
Who is it?
Is it the world or yourself?
You try to deceive

Jump to merciless eyes, acting like somebody
Living in the spotlight, no time for sorrow
Because they will beat you and break you
When they find your weakness

I try to confront on the backstage
But you only laugh at me
Everybody is such a fool
But prove me wrong
Or keep telling those dreams
Who is it?
Is it me or somebody?
Who is it?
Is it the world or yourself?
You try to deceive

You tell me don’t waste a worry, no, you never let me
Always try to look confident and untouchable
You bring closing curtain under your feet
And an old chess game is playing again

Maria Sudibyo
Who Is The Girl?

Who is the girl you look with gentle eyes
Who is the girl you ghostly smile
I want to know, I want to know
Before I leave myself into sorrow
Who is the lucky girl that will have you forever
Who is the pretty girl that holds your heart in her fire
I want to know, I want to know
Before I throw myself to the river
I will envy, I will be the demon of love
But my greatest regret is why I fall to you
I will hate her, I will shed lots of tear
But in the end I always let you go
Because it is the girl you protect sacredly
Because it is the girl you love deeply
I want to know, I want to know
Don’t make me die in curiosity
Tell me the girl that gives you happiness
Tell me the girl that also makes you despair
I want to know, I want to know
Just let me be the only one who have this misery

Why A Genius Is So Rare?

Why a genius is so rare?
Because it’s needed time and luck for that person to find his true talent
It is needed chance and hard work to explore his hidden talent
It is needed good and understanding to accept his unique talent

Maria Sudibyo
Why Do You Hate Mary Sue?

Because she is surrounded by many good looking men
Because every man eventually fall for her
Because she always gets the man

Because she is too perfect
Because she is two dimensional character
Because she is stereotype

Because she is hypocrite
Because she is bland
Because she is damsel in distress

Because she is easy to be trolled
Because she has everything that you don't
Because you can't be like her

Why Elf Sleeps With Open Eyes

Why elf sleeps with open eyes and human doesn’t?
Because elf lives in fantasy and dreams reality
But human lives in reality and dreams fantasy

Maria Sudibyo
Why I Am A Hopeful One

Because I believe that every morning God’s new
That He creates the world right at this time
And not in the past dark blind and forgotten
So every time I must welcome Him

Because in Heaven works there’s something unpredictable
God and the unpredictable that save
and free us from fate slavery
He nullifies dark prophecies’ sociologists
The unpredictable God is He
who loves His children, human
From that source I pail my hope

Hope is not luxury, it is duty
Hope doesn’t mean dream, it is reversed
Hope is a tool to reach our dream
Be happy those who bravely hope
Willing to pay with high price
So their dream become real in life

Maria Sudibyo
Why Is Word Important?

Why is word important?
Because it could dropp you into the abyss
And pull you out of the darkness
Because it could stab you without remorse
And save you from killing yourself
Because it could have a power to create hell
And a hope to bring peace in the world
Because it could distract you with false imagination
And direct you to achieve your real dream
Because it could prevent you to act for fear of rejection
And make you able to do anything you want

Maria Sudibyo
Why Should We Do To Not Be Caught By Wind?

Why should we do to not be caught by wind?
Run!
Running and keep moving so the wind can’t touch you

Why should we do to not be caught by wind?
Hide!
Hiding in the deep hole untouchable by swirling wind

Why should we do to not be caught by wind?
Fill!
Filling and covering your body so the wind can’t blow you

Why should we do to not be caught by wind?
Face!
Facing with all courage till the wind weakly disappear

Maria Sudibyo
Why Should We Only Wait A Promise?

Why should we only wait a promise?
Only be passive and wait
The promise that is going more far and far everyday
Why should we only wait a promise?
The promise from a man rules in the sky
When your neighbor waits outside
Why should we only wait a promise?
Why do you not embrace with hope
The promise you wait is already running towards you

Maria Sudibyo
Wild Lover

You are my hope
But you cut the rope
I tie my life
On active hive

You own my soul
But the road is ghoul
We walk in a cliff
Wind constantly shift

You are my dream
But your heart is stream
I follow the wave
To another cave

You prison my love
But yours in glove
I sell my freedom
Only not to be alone

Maria Sudibyo
Will You Wait For Me?

My love is like a dim light
Flicker desperately to keep a hope
And there you are in front of me
Offering a hand to warm the cold
Will you wait for me?
Till I’m falling in love again
Because I don’t want to hurt you
With a false love
Will you wait for me?
Till I forget my other love
That has broken my heart
And lose my faith to move forward

My love is like a lost kite
Blown by merciless wind far far away
And there you are standing so strong
Show me a harbor when I search the direction
How long will you wait for me?
Till I’m falling in love to you
Because I never want to hurt you
With an empty hope
Do you really want to wait for me?
When the sound of distant thunder approach me
With dark cloud ready to strike hard rain
And I don’t know where to run away

Maria Sudibyo
Wind Grave

After my dream
I throw all memories of peaceful days
Laugh and cry
Both will be forgotten
Yesterday and now
Are two different human
I’ll wash my past
Forgetting beautiful days
Because I will never love anyone again
Because I will never remember anyone again
So please forgive
Forgive me
I will never love anyone again but you
I can hear sadness voice
Sound of flow that keeps moving
River stream named ‘time’
Do you know where it goes in the end?
If we are walking against the flow
Can we even stop the time?

Kaze no bohyo

Maria Sudibyo
Windmill

I dream flying across the air
the same height
I often dream about this
my hands transform into wings
I wonder if there's a meaning
when I float with those wings in dream
but maybe I always think
'I need wings to fly'
in silent sky, vaguely blows the wind

Maria Sudibyo
Winter Storm

Better pray now that
Prison's wall could protect you
Cause I won't forget

Wish

Wish
Usually contents about what we want
and what we don’t
But sometimes forget to mention
Whether we need it or not

Maria Sudibyo
Wish Master

Wish me luck
Wish me gut
Or just enjoy the fear
Or just enjoy the tear
Because the journey will end
Because the wound will be mended

Wish me heart
Wish me ward
Or just enjoy the obsession
Or just enjoy the burning sensation
Because reason may be changed
Because feeling may disappeared

Wish me calm
Wish me warmth
Or just enjoy the vain
Or just enjoy the rain
Because the road will be separated
Because memory only be remembered

Maria Sudibyo
Wish Part 2

Wish
If we keep the faith on it
Maybe someday it will be answered
That is the power of human’s wish
But if you wish for somebody’s unhappiness
The part of the power
Will fall to ourselves
A man who thinks he is unhappy now
Will hate somebody and wish for their unhappiness
Without realize when wish for revenge
It will only cause the same pain to himself
Wish and keep wishing
Until one day
He also takes his beloved one in the wish for his own unhappiness

Maria Sudibyo
Without A Trace

Help me, help me
My love was gone
Tell me if you find
My mind's now blind

Did somebody kill him
And bury the body
In unknown tomb
Tell me who should I hate
Torture till death

Did someone keep him
And enchant with spell
In weaving web
Tell me who should I beg
To bring him back

Did sky take him
Or did sea call him
Did earth swallow him
Or did stone fall him

Did he forget me
Or try to leave apart
Did he avoid me
Or play with my heart

Give me, give me
Reason to insane
My love was gone
And I don't know where to find

Maria Sudibyo
Word Is An Actor To The Poem

Word is an actor to the poem
Play small part in the end of some row
Or get the centre of attention
Written in title and crucial point
Or just a bridge between other characters
Word is an actor to the poem
Cast and found to create whole story
Have a role building imagination
Changed by mood or deep thought
Dancing in the mind of every poet

Maria Sudibyo
Words Of Anger

Words of anger never stay in one place
It will affect to those who hear it even you don’t intend to do it
Some will hurt, some will bark mad,
Some will make bad, some will never forget
And you better watch intently the last one

Maria Sudibyo
World Is Not Given To The Wrong

I am mad and ask what?!
You are stabbing my trust, hurt my heart
and I can't blame you for what you made?
You say justice, I see selfish
You talk freedom, I feel burden
You raise your hand not to shake my hand
You think it's right to attack people
because you are protected by the mask of religion
You don't even try to listen and tolerate
They are human like you, not the devil you must kill
They can be wrong, they can be bad
Like you!
I am sad and ask why?!
Why you don't even feel sorry about what happen?
Why can you just help starving people, the small and forgotten?
not by violence
Why you are cursing leaders
because you are throwing stone to people's plate
Grain in my ears, all you do just talk defense yourself
Did your body only contains smoke and corrosion iron?
I am mad and I am sad
You have been as arrogant as who you don't like

Maria Sudibyo
World Without Spectacles

Blurred line, shadow creature
World becomes abstract dream
Mingled into one like Van Gogh’s painting
Candles in the wind dance like fireflies
And city light struggles to be spirit

Hazy sight, sparkling sunshine
Merry go round in the darkness
People’s laugh with their mask
World’s spinning around
I’m left outside the circle

Maria Sudibyo
World Without Wound

A world without wound
Is like imagining
A world without shadow
A world without fear
A world without darkness
No matter how much you despise it
It is impossible
Because with imperfection you will know beauty
Because with anxiety you alerted danger
Because in night you will appreciate more the light

A world without sorrow
Is like wishing
A world without hope
A world without dream
A world without love
No matter how bitter your soul
It is impossible
Because with losing you could go through any condition
Because with disappointment you need to be awake again
Because with tears you could start to forgive yourself

A world without flaw
Is like searching
A world without knowledge
A world without invention
A world without meaning
No matter how hard you avoid it
It is impossible
Because with failure you forced to remember
Because with mistake you will learn the right way
Because with purpose you could continue your life

You

What defines you actually?
A person with ability
A person to be admired
A person full of pleasure
A person that keeps fighting

What makes you as a person?
A lot experiences
A great charisma
An envious fortune
A unique personality

What is the proof of your existence?
A paper of certificate
A piece of award
Tons of money
Or an honest appreciation

What prides you the most?
If you could show who you are
If you known by lot of people
If you could have anything that you want
If you leave a trail in future

What scares you the worst?
If you are nothing
If no one respects you
If you can't get enough
If you unable to fulfill your dream

What is your wish to be?
A person that filled the standard
A person worth be remembered
A person without worry
A person lives the life

You Don'T Know How To Run

It is suffocating
It is freezing
Breathe is hard
Hands trembling
Close your heart
Shut the eyes
Some broken pieces won't come back
Someone you hate calmly in the bottom of heart
You don't know how to run
You don't know how to lie
You don't know how to cry

You are tired
You are exhausted
Weary to the bone
Numb to the soul
Grit your teeth
Drag your feet
Where we turn to the wrong corner
Where we hide those ugly emotion
You don't have a courage to run
You don't have will to let down
You don't have power to move on

Still blind
Still so silent
Eating loneliness
Accepting bitterness
Is it not enough?
Will you ever stop?
Just bare the bleeding wound open
Just look to the gaping black hole
You don't know that you can run
You don't know that you can try
You don't know that you can stop to be a good man

Or..
Do you actually not want to run?
You Say, I Say

You say to stop making a noise
Now I say why should I speak anyway?
You say you don’t want to hear a reason
I say, why I should follow you right now?
You say you don’t want to argue anymore
I say, why? It’s the way we always communicate

Maria Sudibyo
You Would Go Far

You would go far
Far, far
More far than we can imagine
Far, far
More far than we have been
I thought that we have learnt a lot
about separated
and saying goodbye is like litany of farewell
but no! I’m not used to
I can’t be used with being alone
I can’t stand with loneliness

You would go far
Far, far
More far than I could reach
Far, far
More far than I could bear
I thought that my heart’s tougher
Than yesterday
And I’ll say goodbye with smile
But no! my heart screams
Shrinking in lake of fear
Drowning in the pool of tear

You would go far
Far, far
More far though I don’t want to be left behind
Far, far
More far and I couldn’t go on
I thought that we have passed
a lot time together
and I could say enough
but no! it will never be
I taken it too much but
I just want to be with you right now

Maria Sudibyo
you and your face
you and your many faces
i never clarify your other face
because you build a siege
with your many faces
your many faces have a heart of liar
little facet of your tricky mind
you and your many faces
your face not to be someone's follower
your face to be the queen of yourself
you and your face
you don't need to show your inner face
your many faces will play the pace
and no one resist your easily fake face
your face and your many faces
if those two are not good enough
to get me
what will you take to become your face?

Maria Sudibyo
Young And...

There are certain things we continuously fight
There are some we won't ever change
Could you fill the place that forever empty?
Could you satisfy the heart that always hungry?

We do useless errand
We talk nonsense chatter
But it always what you feel that important
Whether you have a faith or falter

So let's loosening the rule
Let's gathering the fool
And pay it on the end of the day
With anything worth left to stay

Let's digging the treasure
Let's explore the pleasure
Though we seem do nothing than play
We are struggling to live for a day

But they are just standing above the ground
Never see we try healing the wound
And nothing compare with the pain
When all we dream just in vain

And the story is repeated again
With another rhymes but same old song
There are so much things must be remembered
And the reminder also needs a reminder

Does it become my race?
If I walk my own pace
Does it turn into my mistake?
If we collided and cracked

Does it become my fate?
To walk the world full of hate
Does it turn to be my anger?
To challenge any danger
We will fight like some kind of warrior
When every body laughing at our attempt
Escape from thunder above our head
That ready to strike with its wrath

We will run away as fast as we can
Clutching the precious thing we won't ever lose
Running from approaching storm
Hiding behind the walls of home

They will come every corner
The darkness, the despair
They will ask every owner
The question, the illusion

With me carry the scar
With you carry the guilt
Can I offer you hope?
Can you lend me strength?

Before our age is over
Before regret is stronger
Give us a chance to spark the light
Give us enough love for kiss goodnight

Because I don't want to end restless
Even though I'm battered and weary
Don't close our door to happiness
Only because we are young and wary

When you only win your own feeling
Your love for me is not bigger than your love to yourself
When you only suffer with your pain

Your Other Face

There again
I saw your other face
I saw your other expression
That I never had before
Face that will never be showed for me
Because there’s only somebody else
Can make your face like that
Face that show not for me
But for other people I don’t know
I hate to see it, I become jealous
Like I don’t have you completely
Like you have thousand other faces
That I never see, that you hide from me
Like I’m out of the circle and you become distant
Do I have those faces too?
Face that only show for me
Face that comes out because of me
Face that only show when there’s nobody else but me
I will keep it as mine
I will never share to anyone
Face that only for me
So I can have part of you
That nobody else has ever known or seen

Maria Sudibyo
Youth Pledge

what makes you want to create your own country?
do you born as a king
do you want to be praise as a leader
or do you really love your people

what makes you want to runaway from your country?
are you a traitor
are you an adventurer
or are you tricked by someone

what makes you want to raise a war in your own country?
is there some power behind you
is this just business for you
or are you treated unjustly

what makes you want to separate your country?
do these difference bother you
do you take the wrong side of liberty
or does anyone not care about you

we live in one earth
one nation
one language
why should we destroy each other?
