91. All are Part of Nature (6.7.2017)
93. A world of Contradictions (7.11.2017)
2012

Merry Christmas

And Happy and Prosperous

New Year 2012!

Ramesh T A
2015 Paving Way For 2016!

With the Summer solstice coming to an end
Certainly begins the Winter solstice to reign
Bringing rain and coldest weather sooner...!

Six months of cold spell ruling the world on
The climatic changes bring joys of Winter fun
All over the world Christmas and New Year on!

2015 paving the way for 2016 within 3 months
It will bring the joys of a new year to think about
And do all things necessary to welcome it soon!

Three quarters of 2015 are over and the last one
Quarter remaining to be completed well as the
Last round of a peg one takes to finish toast soon!

Then all lifting the cup of champagne with cheers
Give a send off to 2015 and welcome 2016 with fete!

Ramesh T A
2018 Budget Proposals!

Govt. budget announcements and measures proposing to take up
Seem to be making easy for the bureaucratic corruption ever;
Govt. administrative measures are only creating troubles to
The people in their daily works restraining freedom sure...!

No steps seem to be taken up to bring down prices and under
Control since a longtime after new ministry is formed sure;
Only the incomes of members of legislative assemblies and
Parliament of nation have been increased but not people's!

proposals are only increasing people's burdens in
Daily life along with their usual chores very difficult to
Perform day by day with no sign of progress of nation even
After some years, many view as things go on from now on...!

Progress of nation depends on increasing income by exports,
production to lessen prices and curtailment of ses!

Ramesh T A
2018 Life Is Both Sides Of The Same Coin!

According to me the year 2018 has both sides of a coin,
Both joy and sorrow, love and hate and above all life
And death too unforgettable in my life so to say sure!

We have toured to beautiful seashore places in the South
And also witnessed strongest storm also in the South..;
We had loving time and also tragedy very soon in my life!

Life and death are two sides of the same coin this year
2018 has taught me real lesson I cannot forget forever
As death of my wife and my birthday fell on the same day!

How can both these things be digested by anyone ever....?
Yet, life goes on as usual whether we are happy or in grief;
This is the nature of human life in the world this year says!

Day and night make a day, life and death make one's life;
This oxymoron life is like both side of the same coin ever!

Ramesh T A
A Balance Of Power Game!

Stock piling of weapons has triggered Arms race!
Arms race is going on since the end of World War II.
In the Cold war period it went on between USA & USSR;
Now the game of balance of power goes between nations!

To maintain relative security balance of power goes on!
Now fed up with wars and futility everywhere peace attracts
And talk of peace between warring nations go on as usual.
Without peace of mind no peace of world can be created!

Nuclear non proliferation treaty is all talk without respect;
For, no reduction of Nuclear weapons has started yet!
Here example is better than precept holds good for all;
Preaching by practice can show some progress it seems!

World peace depends on promotion of nonviolence in mind
To contain the warring nature first before making it a reality!

Ramesh T A
A Balanced Mind Is The Imperative!

All things pass though seem difficult to surmount;
Likewise we live life from childhood to old age
Until we breathe our last one day unaware....!

Each mile on a mountain full of hair pin bends
Indeed are negotiated so to climb up to the top
To heave a sigh of relief in the fresh air there...!

Relief is what everyone wants to feel free here;
The outspoken words of poets give relief to all
And the time passes on with hope and clarity!

Once one difficulty is surmounted another one
After sometime unexpected one props up.....
Making all climb up with the same effort again!

If we have a balanced mind both for joy and grief,
Where is the worry to feel and heave a sigh of relief?

Ramesh T A
A Balanced, Full Life!

Fruits and colourful flowers start coming
From August on through September here!
These best months are best for functions
Neither too hot nor too cold to enjoy well!

Fruition, maturity and completeness come
Welcoming all to participate for satisfaction!
'Come September! ' they invite with heart full
Before rain and cold winter accompany soon!

Nice times are joyful to remember forever
Planning for the coming year also in advance!
In-between hot and cold and bitter and sweet
Experiences of life we enjoy neutrality in peace!

In-between two extremes a balanced life is nice
Ever to live than as ant between fire and water!

Ramesh T A
A Balancing Act Of Nature A Wonder!

Countless Stars as the sands of seashores of the world
In the dark night Sky shine bright in the wonderful Space!
As the falling sands into the hole of the hour glass of time
Stars disappear in the Black Holes of galaxies in the Universe!

As the hour glass is turned upside down again sands fall;
Likewise as recycling in Nature new Stars appear in the Sky
Following appearance and disappearance method forever!
This Steady State of Nature lies in balancing of old and new.

For every event there is a cause behind in Nature for all;
Life, death and rebirth or regeneration go on in cycle ever.
Creation and destruction following preservation is a process
That goes on endlessly to saturation point in many forms!

Within the life span of every animate and inanimate things
There are many wonder, splendour and grandeur each display!

Ramesh T A
A Balancing Act Of Two At A Time!

Only Zorro can travel
On two horses in the movie
But not in reality!

In the circus also
Travelling on two horses
May be possible!

In reality it is
Like standing on two elements
Wet soil and river!

Both will make one
Fall this way or that way
Sooner or later!

Ramesh T A
A Balancing Act!

Despite pollution
Nature balances climatic change
Summer or winter!

Ramesh T A
A Balancing Climate Of Nature Unique!

The spell of South-West Monsoon still continuing
The cool climate keeps all delighted for days now!
What a change the climate has undergone to effect
Such a heavenly condition to a hot coastal town..!

All the day long and night too what a comfort.......!
The cool climate has gifted us with such a pleasure
That no paradise or heaven is needed to dream about
Or pay a visit once in a lifetime of our life damn sure!

The magical spell of Nature is so generous that we all
Reel under a great dream of paradise unique in Summer
Supposed to extract all water out of body in thirst and
Strong dehydration needing glucose injection for stamina!

Grace of Nature is very great indeed doing timely service
Sans failure in balancing climate harsh or fine forever sure!

Ramesh T A
A Bard To Remember Forever!

Nowadays much ado about nothing politicians talk;
And all is well that ends well people talk;
But as you like it yeah, many ask people to vote!
Romeo and Juliet among them mind their love;
But Anthony and Cleopatra passionately die for their love!

A midsummer nights dream will come true only by good rain;
But the tempest in America and India cause havoc due to pollution!
The world reels under constant violence, terrorism and wars;
So, mankind longs in vain for peace, love and joy now.
What was impossible is possible says Napoleon
And what is impossible will be possible says he!

Remember, Shakespeare was born and dead on 23rd April! To him
Life is such stuff as dreams are made on and rounded with a sleep!
So; what is impossible by ordinary men is possible by talented men;
What is not possible by talented men is possible by a genius;
And what is not possible by a genius is possible only by God!

Ramesh T A
A Bard!

A prophetic poet a bard is!
Stands as leader to lead all;
Voice of fire erupts out
As if from a volcano hot!

Many kingdoms were doomed!
His voice of utterance true
Never failed to happen ever
And made all hear with awe!

Bard of such stature bright
Always stood glowing fine
With his beard waving as if
A cascade of water in wind!

Words flowed from the depth
Of his heart in cascade ever!
All words of fire struck hot
As nail on head ever meaningful!

Ramesh T A
Cold snow mountains silently sitting as meditating sage
Eternally remain as fixed trees growing in the forests!
Melting ice in the spring time flows in cascading falls
From the high mountains down the valley as rivers;
As brooks and streams to start with the rivers slowly
Become broad as big ocean only to mingle with it soon
At the end of journey benefiting plants, animals and men!

Not only the rivers but also the trees, flowers and fruits
The more they are plucked they more they grow for others
Till the full span of life everywhere in the world we see!
Rich green forests are the source for attracting rain ever;
All kinds of animals live there contributing to ecology
In recycling resources for the fertility of the soil to grow
Plants, trees, shrubs and grass for feeding the animals
To transferring energy from the Sun to all living beings
For survival and their activities enriching the Earth ever!

Nightingale sings its own song to its heart’s content;
Parrots make sound of their own with full of freedom;
Peacock beautifully dances with all its feathers open;
Deer leap over meadows taking food as they please;
Swan swims musing over its own affairs with ease;
Dolphins come very close to the shore and play joyfully;
Whales let out held breath as steam engine lets out steam;
All creatures of Nature dance to the tune of Nature ever!
Tigers and lions hunt other available animals for survival;
Salmon fish to fulfil its destiny swims against odds;
Oyster makes pearl within out of a dropp of rain;
Fighting against drought and dangers they all survive
And do fantastic jobs with all their limitations ever!

Higher form of animal, man to overcome difficulties, has done
Many wonderful things of inventions and creations for long;
With technology and economic thoughts he advanced materially
And lives life entirely disconnected with Nature or animals;
To win competition and win wars he even excelled animals!
Exploiting Nature long for raw materials, energy and food
Man looks for other planets to satisfy his needs on the Earth!
Losing touch with Nature and destroying art and culture
In the West man has become machine-beast-man now;
In the East by corrupt politics he has become inhuman creature!
His animal warring nature has not changed in the least yet
He endlessly fights among them and tries to excel Nature!
In the war between Nature and man who will be the winner?
Man or Nature – that is the question remains to be answered!

Ramesh T A
A Battlefield!

If one problem is
Solved another one comes
Making life battlefield!

Ramesh T A
A Beach Playground!

While children playing
And parents walking along
Beach is playground now!

Ramesh T A
A Beacon Of Love!

Lonely as a cloud I was walking on the beach;
Pain of love lost I was trying to forget in Nature.

Reclined I on a sand meadow musing over Moon.
Moon light beam was falling on the dancing waves
As light house beacon from the horizon to the shore
Enlightening and guiding the sea faring boats there!

A 173 year old defunct light house is still standing
As a memorial to the tourists coming to the beach!
The past love too as the light house beacon remains
In the mind forever to revive the glory of past times!

Love bloomed as green plant but remains as blue Sky;
But the past memory of love ever gives joy in dreams!
Everyone’s life has a meaning for all to learn afterwards;
But memory of love lives in the world till the end of time!

Ramesh T A
A Beastly Machine Man Life!

Living away from Nature many are stranded nowhere,
From where know not where to proceed or what to do!
Mechanically trained in the name of discipline all lose all
And never able to realise what is their natural self here!

Many do things contrary to their natural desire or self
And lay waste hidden power unused rotting to madness!
This is the trend for modern man in the civilised world
Just pursuing beastly economic targets to fulfilment!

Physically, intellectually and spiritually dissatisfied man
Roams as scholar gypsy to find peace and satisfaction,
which not religion or philosophy will provide except Nature
As Nature is living scientific art that sustains all forever!

So, economically developed man should develop socially
In harmony with Nature to find longing freedom, joy and peace!

Ramesh T A
A Beautiful Beach Of Danger!

Golden Moon has appeared high above the night Sea;
Heavy wind is blowing fast after a long spell of heat;
Sea looks beautiful enticing new comers to swim soon!

But the 2004 Tsunami has changed the nature of Sea
From harmless beach into dangerous beach of beauty!
Swayed by beauty swimmers have drowned to death
By sudden high tides that develop now and then there!

River tributaries joining the Sea mouth has created island
Where many go for boating seeing the beauty wonderful
And also swim long swayed by the enjoyment soothing;
Then the tragedy occurs by sudden current in the Sea!

Warning boards are displayed here and there for all to see;
But who cares at them while enjoying comforts and beauty!
Alertness when let loose men of ease can’t escape tight noose!

Ramesh T A
A Beautiful Blue Love!

Golden lovers
Loved long on green grass
As Sky's blue!

Ramesh T A
A Beautiful Colour Festival, Holi!

The Earth is full of colour, love and life in the whole Universe!
Colourful pageant of species parades in all parts of the world!
After Winter, Holi, the festival of colour welcomes Spring season
And colourful romantic mood maroons men in mirth and revelry!

Colour, romance and humour make life lovely on the Earth;
Paradise of the Universe, where day and night are two parts
That rule mankind between joy and sorrow and life and death
Producing humour in tragedy and sorrow in comedy, an irony!

As the wide blue Sky flute music the Lord blows in the wind!
Yellow flame of fire bursts out of volcano to flow as red lava!
Pure water springs out as a fountain to flow down in cascade!
Clouds, Moon and Stars give ideas to turn dreams into realities!

Colourless wind, water, colourful land, Sky and fire are a wonder!
Clouds of red, orange, yellow, green, white and grey are splendour!
Violet, indigo, blue, green, yellow and red of rainbow are grandeur!
Multicoloured birds, fish and plants are of Creator’s power of colour!

Various colours of hues create moods of men to move on in life!
Love is a painful pleasure that leads bitter sweet life in the world,
Where chances for man are very many to upgrade oneself to maturity
To reach the state of perfection and permanence of white colour at last!

Ramesh T A
A Beautiful Cosmic Dance!

Like the dancing configuration of electrons in microscopic atoms
Spinning galaxies of Space are dancing in the macroscopic Universe!

Stars of multiple galaxies are the couples dancing different dances;
Ball dance or ballet dance a couple of inverted triangles of stars do;
Ball or ballet dance couples of stars sparkle in red and white and blue!

All the night as in romantic dream in the vast dark Universe wonderful
Stars like the colourful garden of flowers amuse men and women in life!
Balance of the vast universe goes on by cosmic dance wonderful forever.

The merry go round or the giant wheel in the exhibition too remind that
From the childhood at first and then to ball dance of couples in clubs so
To relax and forget worries of life to rejuvenate spirit and enjoy life ever!

The cosmic dance of the Universe if stops for a moment what will happen?
Will the suspended animation of stars and planets remain where they are?
Or if men and women have not found out dance will there be any relief ever?

Ramesh T A
A Beautiful Crescendo!

Red ball of Sun rises from the cold sea water;
Its heat rays make everything haste in activity!
Rising Sea waves dash to the shore full of foams;
The crescendo of waves sings secrets of creation!

Early morning wakes the birds to sing its desire;
Nightingale and Robin birds sing of their valour;
Sweet melody of love, birds sing to woo mates
As ready to go any length to capture sweet hearts!

Monkeys after taking toddy of trees jump in dizziness
From tree to tree and show their valour of strength;
Such a freedom they enjoy that man thinks of drinks
To get relief after the day’s work to escape from heat!

Love gives pleasure, also pain in the life of tragedy!
Romantic persons lost in love seek relief in drinks;
Give vent to their feelings to overcome nightmares;
This is a common scene in the night streets often!

But what a relief the shepherd boy enjoys in Nature!
Making flutes with bamboo sticks looking after herd
Grazing on the pasture, he blows melodious sound
And transports himself and others to paradise soon!

Poet sees the romantic Lord through this shepherd
And mystically enjoys as the basking cow at shed
By communing his mind with Nature musing over
The mystery of life, dizzy rapture and divine bliss!

Ramesh T A
A Beautiful Exploration In Wingless Poesy!

Climbing up the mountain to the top of the peak
Swim as flying fish in the firmament endless
As in a wingless poesy to explore the Universe
Like in the dream world expanding in infinity!

All roads to liberate myself has been blocked
Long by obligations endless as in a cobweb!
This is the way I have found out to free myself
From all entanglements tedious and monotonous!

The unique pleasure I enjoy anybody can enjoy
Provided they have the taste and talent for it!
It's really amazing to explore myriad matters
By this wingless poesy, a divine boon to me!

All knowledge under one roof it is possible
To accommodate after exploration immediate!

Ramesh T A
A Beautiful Humility Of God!

Great God
Creating all wonders of Universe
Remains silent!
But man doing small achievements
Boasts high of himself with parties!

Ramesh T A
A Beautiful Life Of Love!

Cheerful smile of red lips,
Hole on apple cheek,
Bright face as Moon,
She has all walking divine!

Meeting her on all busy days
I cannot respond her fully;
But she maintains her beauty
As lovely as fresh red rose ever!

Devotionally concentrating in work
She lives divine life as royals do
Making me love her forever
Whether I am alone or in company!

Life is beautiful to lead in love
If both get together on cross roads!

Ramesh T A
A Beautiful Life!

A beautiful life is like harmonious music in the world; Life is knowledge, culture, enjoyment and liberation; But nobody follows dharma and suffers in the world Driven by modern life due to civilisation sans culture!

Sufferings are due to attachment or desire says creeds; But life with desire fair and natural can be lived well! True knowledge of life and meditation Gita gives well; Knowledge of Self, World, Nature and Universal God, To have a clear vision of the whole is necessary first.

Vision helps one know what duty one has to do in life And also what ambition one should have to go firmly In work one does to make achievement in the world! Physical, emotional, intellectual and spiritual progress To a harmonious level makes easy for higher venture To know past, present and future clear and perfect.

Good food, games and yoga keep human physique fine; Art, music, painting and poetry keep ever emotion well; Discovery of self and pursuit of truth keep intellect joyful; Meditation on the beauties of Nature keeps spirit elevated; Stable body, heart and mind only make spiritual life alive!

A beautiful life aims at harmonious expansion of human nature; In harmony with Nature harmonious human perfection is possible By love and knowledge, work and play and beauty and truth In achieving beauty and excellence in human nature in fields Such as art, science, religion, philosophy, poetry and politics!

Ramesh T A
A Beautiful Love Life!

Beauty gives cheers
But love gives comfort ever
Where's life sans both?

Ramesh T A
A Beautiful Loving Earth!

This Earth is full of colourful natural beauties
Like fish, flowers, birds, fruits and butter-files!
If flowers fly with wings they will be butterflies!
How beautifully and happily they all live in Nature!

Sweet fruits and leaves rain forest trees grow for
The chimps, colourful birds and parrots to feed
Like the mother is spoon feeding the children ever
And they all enjoy bountiful philanthropy of Nature!

This is the nature of earth and this is called love!
I wonder if there are any other planets like Earth
Making life flourish forever by love we all see –
Love broad as Sky and deep as Sea ever blue long!

What a beautiful Earth with the love to give forever
For all the living beings making me feel proud here!

Ramesh T A
A Beautiful Moment In Life!

Lesser chill wind and brighter Sunshine have retarded tenseness 
Rendering all sapped of strength needing reinvigouration to be brisk 
Just before Summer to enjoy a warmth so pleasant and lovely now!

A state of dream is where one may feel landed now in this situation; 
What a hallucination one may feel neither tired nor brisk also as if 
One is floating in a fantasy land somewhere in the Moon so high...!

Beautiful flowers, fruits and vegetables in variety drag all towards them 
By their unique fragrance and freshness to purchase and enjoy them 
Making all feel this is time for them to nourish and can't see them later!

Just a moment in life to sit on the roof garden with friends to have 
Some lovely time talking on all matters beautiful, pleasant and poetic 
Composing songs to sing with guitar in sweetest voice one can!

If we have time in the world, it is the best moment one should not miss 
In the life we live with our near and dear ones to meet and say love!

Ramesh T A
A Beautiful Nature To Wonder!

Sunset has created golden orange Sky to muse over;  
I wonder at the beauty of Nature as never before!  
It is wonderful to look at the splendour for hours on;  
Such a beauty leaves one ever in spell bound state!

After darkness engulfs everywhere Stars switch on  
Creating a beauty of heaven that cools down mind;  
Gives relaxation that nothing can give better then;  
Time passes without notice and i have to hurry home!

At night sleep even in dreams such scenes give fun  
Making one forget everything of world matters then!  
The spell of Nature has such a power no one avoid  
If one lives in harmony with Nature for better in life!

I wonder if there is any other thing can replace Nature;  
Indeed of all creations of God Nature is paramount one!

Ramesh T A
A Beautiful Paradise!

Park is
The paradise on Earth
Full of beauty!

Ramesh T A
A Beautiful Park Of Paradise!

Fountains and parks are beautifying and relaxing all in cities Full of environmental pollution by greenhouse gas emissions. Central park of the town is a great beautiful cynosure of all Attracting tourists frequently from all over the world for years!

The pleasure of park is making it a paradise on Earth forever Full of colourful flowers and birds symbolizing beauty and music For relaxing mind, heart and soul by peace, joy and enthusiasm!

Wide green lawns open to vast blue sky above and sea near below Broadens the perspective of mind, fills heart and fulfils spirit With peace, joy, pleasure and enthusiasm otherwise not possible!

Trees in town are not enough to convert carbon gas to oxygen For breathing fresh air and also cooling the place for relief. So, fountains and parks are needed everywhere to cool place, Clean and relax exhausted people and enliven atmosphere!

Ramesh T A
A Beautiful Picture!

Sky with Stars as strewn sand with full Moon or
The Universe with billions of Stars and galaxies
Look wonderful if we lay on the beach sand and
Watch the night Sky with a mate by the side ever!

The talk of soulmates is about the Universal beauty
That takes them to the unknown heaven by union
So exotic and exhilarating, where Space and Time
Never seem to exist in the beautiful silence of peace!

Full Moon and Stars and the whole unique Universe
Looking to be stable are ever in an active state for
Maintaining the balance by the play of circus that
The chain of gravitation keeps all in suspended state!

Poetic, scientific and philosophic combination of Space
For the artist is a beautiful picture that delights forever!

Ramesh T A
A Beautiful Range Of Music

A beautiful range of music one should enjoy in life;
The singers included from Elvis to Michael Jackson!
Elvis Presley, Cliff Richard, Tom Jones captured all!
Music groups like Ventures and Shadows ruled all!
The Beatles, Boney M still entertain many in the world!
Then DISCO and Break Dance music came a round;
After Michael Jackson only Ricky Martin remains in mind!
They inspire, encourage and energize music lovers ever!

Ramesh T A
A Beautiful Romance!

Shelley and Keats are wind and beauty;  
Both are fond of love and do anything  
That lasts forever in hearts of lovers!

Romance and love are beautiful ever  
In expressions of great poems of theirs  
No one can fail to note even if tasted once!

What a force that still carries to their realm  
Love that still lives immortal even after time!  
Nothing can stop its sway and absorbs all....!

Romantic life of love is adventure wonderful,  
Full of spirit ever absorbing and electrifying  
Not only the players but also the audience!

No love is love unless it has essence of romance  
As the base for beautiful take off to heaven sure!

Ramesh T A
A Beautiful Truth!

Beauty is truth
Freshly blossomed flower is
Truth beauty!

Ramesh T A
A Beautiful World Life!

Creation of beauty is for attracting each and everyone; Appreciation of beauty develops love between hearts! Outer and inner beauty reflects real personality of one; Mutual attraction of beauty leads to procreation ever.

Beauty, love and life are unique aspects of man’s world; Those are not detected in other planets of the Universe. Colourful beauty of life thriving on love is a wonder here Depends on the preservation of Nature and culture ever!

Beauty lies in thinking, speaking and working in the world; Doing things to perfection makes beauty and brings joy! Intellectual thinking, gentle doing and spiritual meditation Are all adding beauty to man’s nature to divine nature!

Nature is the mother of Earth fostering beauty and love To enrich life with joy and pleasure leading to divine bliss!

Ramesh T A
A Beauty Angel!

Photos of beautiful sites are nice;
With Nature as background it's fine;
Your presence at the centre is cynosure!

Such an attraction you have with your eyes
Ever blue to soothe all to your side ever!
What a magic you have by your eyes blue!

Fair complexion and slim stature add much
Making all look at you wherever you are!
And you exploit it to materialise your goals!

Pop singers follow that art to rise as stars
Entertaining all always with profit huge!
Beauty has an edge over anything ever!

If both beauty and love are in one ever
She is the angel to win all hearts forever!

Ramesh T A
A Beauty Creative Joy Forever!

Lovingly doing

Creative job is a thing of beauty

And a joy forever!

Ramesh T A
A Beauty Divine In Poetry!

Lord Vinayaka is beautiful, bright and brilliant
Illuminated by colourful lights around as Halo!
This divine beauty when expressed in poetry
Blissful peace feels the heart to sublimity ever!

Many men I have seen dance forgetting all
According to the tune of music pop or ritual;
Beyond conscious state music becomes divine
Transporting men to an exalted state to dance!

In a trance they reveal secrets, make prediction
And also say remedy to overcome curses, etc.
It’s believed they say so possessed by ghost or god
Putting one and all in an extreme state of awe then!

Art of music and vision producing illuminations
As in poetry has the power to inspire divine beauty
In the minds of men making them forget themselves
Transported to a divine state as the poet is in muse!

Ramesh T A
A Beauty In Love

&lts;&gt;Act of love always flourishes joy!
Cheerful activity creates beauty
And a thing of beauty is a joy ever!

Sans love how can there be peace?
Loving peace is objective of romance
And romance continues till the end!

Nature, music and romance sway all!
All activities of Nature advocate love
And love eternally unites all to be all!

Beauty of love truly accrues joy ever!
Beauty is for love and truth for joy....
And love of beauty brings joy true sure!

Love of beauty never leaves one in pain as
Peace is in truth where beauty is in love!

Ramesh T A
A Beauty Natural Is True!

Is beauty woman?
Is beauty Art?
Is beauty Nature?
Man explores beauty
In woman, Art and Nature
To find out true beauty!

Woman makes up herself beautiful;
Art is made up full of beauty;
But Nature is simply natural;
For, Nature is true and simple forever!
So, natural is beautiful
And Nature is true beauty!

Ramesh T A
A Beauty Of Love!

I enjoy beauty of star studded night sky;
I enjoy beauty of harmonious waves of sea;
I enjoy beauty of peaceful living of people;
I enjoy beauty of natural poems of poets!

Beauty of human life I enjoy in all forms;
Beauty of fun loving children I enjoy often;
Beauty of smiling flowers I enjoy in garden;
Beauty of art work I enjoy in all forms ever!

World is full of beauty Nature bestows to all;
World is paradise due to love and beauty ever;
World is the abode of man’s cultural refinement;
World is the spring board to heaven at the end!

Beauty of love is eternal for all to enjoy in life
Evolving animal into man and man into divine!

Ramesh T A
A Beauty Of Nature!

Half Sun set and half Moon rise side by side on the southern ocean,
A great wonder it is to see the sight from the tip of southern peninsula,
A great feast that inspires the poet to produce immortal verse soon!

Green vegetation springs, flowers bloom and fruits ripen in the season
For the visitors to enjoy natural beauty in all its splendour under the sky
On the hill valley and plains with the mists connecting all to the firmament!

Lovers sing, dance and enjoy all time best chance never expecting more
Than the present wisely true to “a bird in hand is worth two in the bush” like
To mind their regular monotony of jobs in various walks of life later next!

As the season changes the status of life too changes for all in the world
Making imperative to “make hay while the sun shines” by God’s grace there!

Ramesh T A
A Beauty Only Glamorous To The Core!

This world likes only glamorous and dubious
But not the truly beautiful and best one ever!
What a pity glittering things the world believes
But naturally brilliant nobody knows even often!

Is it the nature of the world or the making of time?
It is difficult to believe naturally beautiful not cared
Whereas the artificially decorated has wide reception
And which is why many make up for an image lasting!

The same thing happens to poetry true to its value;
All that is basest in nature are well attracted to all!
But everlasting beauty truthful is rejected at the outset
As if they are the cause for all troubles everywhere!

True things perfect as rarest of rare diamonds are dull
Before the glamorous good for nothing dust of beast!
Beauty and beast are like the two faces of Janus ever
Absorb the attention of all and deceives to oblivion sure!

Ramesh T A
Happiness lies in what one is thinking, speaking and doing;
Happiness lies in freedom of doing everything as one likes!
Peace and happiness are the aim and end of life in the world;
Peace and happiness lie in success and satisfaction in life.

Love and knowledge make one perfect to enjoy freedom ever;
Beauty and truth lie in achieving perfection in things one does;
Achieving such perfection in all gives joy or happiness ever;
Perfection one achieves in all gives satisfaction and peace unique!

Money alone cannot bring happiness even in the material world;
Knowledge is needed to utilise money properly and use wisely;
Too much of money also needs alertness ever at the cost of joy;
For, time spent on security denies all joy and enjoyment in life!

Doing things utilising men and material with knowledge wisely
Beauty, love and truth only ever help to live a life of joy endless!

Ramesh T A
A Beauty Truthful Forever!

Nature assembled its beauty in human form;
Man has chiselled beauty in temple statues!

Lobes of brain are the clouds of sky....
Heart of man is the mango of trees......
Kidneys of man are the beans of fields....

Black tresses are the cascading water fall of hills....
Beautiful face of lady is the bright full moon.....
Black eyes of lady are the black grapes of vine.....
Red cheeks of lady are the red apples of Kashmir.....
Red lips of lady are the petals of red roses.....

White neck of lady is the marble white conch of sea.....
Soft white hands are the trunk of the plantain tree...
Bosoms of lady are the ripe mango fruits of garden......
Beauty of waist is the shape of ginger we see.....
Shapely legs are the chiselled pillars of temples......
Feet are the web feet of swans swim on the pond.....

Such a beautiful lady is the frozen walking statue
Chiselled by the divine sculptor, Brahma of heaven!
Lively statues of gorgeous beauties are true ever...
Indeed this beauty is truth – truth beauty forever!

[A Tribute to my favourite Poet John Keats!]

Ramesh T A
A Beauty Under Veil!

All day it was very hot today indeed!
Best portion of day there's no sign of rain;
Clouds came scattered all over the sky;
Delight of seeing blue Moon has increased!

Evening sky is covered with many hues;
Full Moon slowly rose in between clouds;
Golden Moon soon changed to silver....;
High above dark clouds Moon looked fine!

I was delighted to see her face behind veil!
Just when Moon face popped up veil of clouds
Kept her hidden under thick dark cover of rain;
Love of seeing blue Moon was blocked by rain!

Moon of this kind can be seen next after 2.5 years!
Next this will be waning day by day to new Moon;
Oblivion puts all beauty out of sight ever.....;
Power of dark clouds and rain keeps all disappointed!

Queen of night sky has disappeared on August end;
Regular night scene again has come up to witness;
Soon silence of night puts all charm to an end....!

Truth can never be hidden though blocked sometime;
Universal truth has a permanent value nothing can spoil!
Vast Space has many wonders yet to be discovered!

World forgets all best things of Nature for short gains;
X factors, so, pile up in files innumerable in cabins....!

Years of persistent searches seem to be continued on;
Zeal of seeing the end point, so, sustains interest ever!

Ramesh T A
A Beauty Unique!

A great joy of
Mother and daughter together
Is a beauty unique!

Ramesh T A
A Beauty: In Eye Or Heart?

Beauty lies
In the eye of the beholder
Or heart?

Ramesh T A
A Beautiful Physical Pleasure Enjoy Before Ends!

Physical pleasure one can enjoy till the youth lasts in life;  
With the passage of every year one’s age goes up nonstop!  
Time lost in this matter can never again be regained at all;  
So, make best of the bird in hand more than two in the bush!

There is no point in crying over the spoilt milk afterwards;  
Baby cannot such the milk if the breast stops oozing milk;  
Man cannot enjoy intercourse if one loses temper soon  
And can enjoy youthful vicarious pleasure only in dreams!

Physical structure is a beautiful perishable commodity only  
One can kiss, hug and enjoy as long as youth lasts in the world.  
Best use of it physically, intellectually and spiritually one can  
To get complete satisfaction in life if one is strong and healthy.

Of all the creations man is the last in the ladder of evolution,  
After which he has to evolve his mind by knowledge to divinity,  
The saturation point to reach the state of ultimate reality soon  
Only when he reaches point of full satisfaction physically here!

Ramesh T A
A Becoming Of An Intellectual!

Behind every happening there must be some cause;
To find what is that cause is the work of an intellect.
It is knowing the truth from whatever be the thing or
Whatever is said it is knowing the truth from it ever.

Whatever be the thing, news or magazine, books or all
Knowing the main points, important matters and new ideas
Ponder over to evolve ideas for talk or work everywhere;
That is the attitude and culture of an intellectual or genius!

History is created knowing the cause, event and result;
Science goes on experiment, observation and inference;
Nature itself works on the principle of cause and effect;
Intellectual follows those methods only to know the truth!

Intellectual analysis helps to know the truth from facts
Necessary to solve problem and create new things useful!

Ramesh T A
A Bed Of Roses!

When the world sleeps I wake to write
My thoughts and feelings in verses fine!
Wonderful the days go on if heart is light
With thoughts of love never losing grip!

Nice the time goes on when love is ripe
And sweet as fruit and flowers fresh!
All life works of romantic lover is joyous
When all love is simply showered ever!

Lady of gentle nature holds hand ever
When all goes awry in the midst of thrill!
All odds are nullified by love supreme
When it always comes to the rescue sure!

All days are just a bed of roses sans thorns
When all fall in love with one for fun and joy,
When hard times are eased by him in verse
Full of honey, wine and kisses sans an end...!

Ramesh T A
A Beginner Of All Festivals!

Starting from August all festivals come one after the other; But the beginner of them all is Lord Krishna's birth festival Celebrated with youngsters dancing with stick beating music Worshiping Child Lord with his favourite milk, curd, butter, Sweets and other snacks for prosperity, joy and healthy life!

Since He is an all pervading God, He has blue colour of Sky and Sea universally preaching all follow the principle of Dharma To cross over the ocean of woe by being friendly and merciful With all without any ego of I or Mine, non-attached both in joy And sorrow, profit and loss, success and failure so as to be free!

But enjoy only Joy and health in life till the end of time, if all Attribute all services, works, fun and enjoyment in His name; For, He will relieve all from the yoke of karma and lead them all To moksha of complete freedom and liberation from all bondage!

Ramesh T A
A Beginning And End!

All thoughts lead to source and end of game;
But nothing saves from labyrinthine den....!
Careful calculations and costings lead nowhere;
Darkness within like the dark matters of Space
Ever makes impossible to fathom depth sure!

Full scope to know the beginning is yet unknown;
God Particle is discovered as Higg's Boson, yet
How long the journey has to be travelled further?
Ions, atoms, molecules, elements and compounds
Joining all to a mass making matter are a puzzle!

Kepler or Copernicus or Newton or Einstein or
Long staying Stephen Hawkins has not fathomed
Miracles like Black Holes and Supernova of Universe;
Nebula spiraling in galaxies are wonders incredible!
Open secrets of Nature are God's challenge to man;
Power of man is being tested even after discoveries
Quite amazing though like his inventions too further!

Restless searches and working of minds only go on
Surmounting gaps in links of many proofs to be made!
Truth yet remains as elusive as the expanding Space;
Universe is amazing though discoveries are incredible!
Variety of puzzles and mysteries of Space challenges
Wherever man is about to reach the end point somehow!

X factors keep on all resolutions impossible to be revealed;
Yearnings to reach a final interpretation of all forces
Zeroing to a decisive conclusion all want to know soon....!

Ramesh T A
A Beginning Of Developments!

Child is happy as long as love is there...;
Sans love child cannot think of anything!
Out of love child does all to have joy ever;
That's why with wonder child looks all...!

With a clean slate of mind child starts all;
Everything child looks at records in mind
And basing which child responds to all ever;
Child's memory and intelligence are a wonder!

Looking at the child's activities we recollect
Our past and know of ourselves better again!
Child gives a lot of entertainment we have
Forgotten in our day today activities at work!

Love only gives sense of freedom to do all and
All man's developments begin there only in life!

Ramesh T A
A Being Good Is Good Ever!

Those who
Think ill of others
Become ill!

Those who
Think of spoiling others
Get spoiled!

But those who
Think good of others
Will be good ever!

Ramesh T A
A Belief And Faith Without Proof!

Thick snowy winter, sever earthquakes and solar eclipse long
In the New Year beginning we all have witnessed with awe
And what is next in store to come nobody knows yet for sure
All mind regular works after celebration and feasts everywhere!

Geological activity has not subsided even after millions of years
Making mankind wonder at the colossal scale of Nature’s design
In all walks of its realm in the Universe and Earth putting one
And all in astonishment and amazement of Almighty’s power ever!

The precarious condition of Earth on which we all live makes all
Quite incredible to assimilate and have confidence to go ahead!
Everything happens to be a wonder of creation nobody can know
The beginning and end for sure in all matters by our knowledge!

With belief and faith without proof by science we live in illusion
Believing to be real and reality an illusion except on catastrophes!

Ramesh T A
A Bemuda Beauty Mystery - I

Beauty of Helen launched a thousand ships to war!
After 10 years of war and 10 years of sea ordeal
Returned home the first blood soldier to settle in life!

Haunted by the beauty and love many died on the way;
After many a birth as soldier, hunter he was born again
As a sea faring ship captain going round the world!

He happened to see pirates of Arabian Sea, Caribbean Sea;
Learnt he many strangeness of different places of the world;
Being a deep sea diver he was exploring beautiful secrets!

Devil Caves under the Pacific Ocean had gulped many ships!
On a diving expedition many said about the past incidences;
Yet Captain dived in the ocean to explore rare pearl oysters!

Exploring many beautiful creatures at a distance he saw
Something rare and incredible species as it looked to be
A wonderful merman being chased by a shark of huge kind!

He shot a harpoon to bring an end to the chase killing the shark;
Astonished about the accuracy the majestic merman turned
And was fascinated by the handsome captain swimming to him!

"I am the King of Merworld! Thanks and welcome to my world!
You have saved my life and so, what is mine is yours, my friend!"
"No, I have just done my duty, King!" Captain said in his way.

Much pleased King led the captain to unfathomable caves of ice,
Where mermaids with beautiful dance and songs welcomed them
To please the guest of honour specially escorted by their king!

TO BE CONTINUED

Ramesh T A
A Benign Name To Remember!

Money may come and money may go;
Earn name which is lasting forever.
Profit and loss are common in life
Take them in the same way always.
Use talent and express your self;
Out of your skill you make a mark,
Which will speak about you always!
Your identity by your skill will stay on
Whatever be the storm and drought!
Your skill based work will welcome
you everywhere with due respect
And there lies your honour in the world!
The charisma of you will keep world
Go round and round on love and joy!
So, never be for material wealth only;
Always maintain your name above all;
You will be cherished as God in the world!

Ramesh T A
A Bermuda Beauty Mystery - Ii

King asked the queen to entertain the captain till he returned;  
For making security strong King engrossed himself longtime  
Making mermaids to look after the guest as best as they could!

Accordingly queen asked captain to enjoy getting boon at the end  
Meant only for top special guest of honour once in a life time,  
A rare luck anyone could dream about in life unless God destined!

Each day queen and princesses began entertaining captain never before!  
Each one had a full day devoted only to him showing beauty of secrets  
As rare and impossible feast anyone had enjoyed so far in caves!

Everyday captain enjoyed beauties of twin hills and valley of each;  
Milk, honey, fruits, juice, best diets and desserts they shared  
To enjoy tireless entanglement of raptures nonstop for three months!

They never left him free because he might lose the boon promised  
That would unravel all the secrets of the world as he saw then  
As in a great dream of raptures best known only in the Merworld!

Enquiring about the degree of enjoyment of captain king satisfied;  
King and queen lovingly embraced and conferred a boon to captain  
By which he could Recollect his Past and could Fulfil all his Dreams!

He came out of the ocean and sailed on his ship towards South;  
The misfortunes occurring came to an end thereafter by his work;  
Then the ship moved towards East to explore in the Indian Ocean!

Ramesh T A
A Bermuda Beauty Mystery - Iii

Anchoring the ship near an Indian Ocean island captain looked out; Arabian and Bengal seas mingling with the ocean was quite unique And provoked his thoughts of the past in a stream of consciousness!

Then he was a sailor crew of Nautilus submarine navigated by Nemo, Who fed up with mutinies and violence due to colonial power lived Exploring many secrets under the sea for many years unknown to all!

Captain came across many precious oysters and collected big pearls rare, Had the experience of tackling giant squids in the oceans of the world And admired at Dr. Nemo’s contributive inventions of under sea divings!

Filling ship with food, fuel and fruits for onward journey Captain moved Then towards the Arabian Sea towards African coasts of Somalia, etc. And remembered the Eritrean Queen of Sheba and King Solomon affairs!

Crossing Suez Canal his past life of soldier under Caesar and Anthony, Their dealings with the beauty Queen Cleopatra came to his mind kindling Him muse over the Alexandrian Library in Egypt on Mediterranean Sea!

Hills and valleys with water falls are common in many nations of the world; In desert nations such things cannot even be dreamt about by any means; That is why pyramids before Nile River were built by Pharaohs in ancient age!

Crossing the Pillars of Hercules Captain made his ship go towards West; Thoughts of Atlantis submerged in Atlantic Ocean as Lumeria in Indian Ocean, The parliament of One World came to his mind, a dream he cherished most!

Ramesh T A
A Bermuda Beauty Mystery - Iv

Thoughts of ships and planes disappearing in Bermuda triangle came up, When captain was analyzing the mysterious deaths and tragedies there And he could not believe the theory of aliens’ deeds from under the sea!

The long Atlantic lulling journey gave him sound sleep with dreams About the Amazon Monikans and Brazilian Sambas from ways diverse And settled in the beauties of green hills and valleys full of water falls!

It was a great mystery what had been causing natural calamity exotic! Formidable hurricanes like Katrina, Rita and Ivan had their roles there; Was it due to aliens or due to magnetic currents caused those havocs?

Answers came with entirely unimaginable in his dreams quite long! All reasons pointed to man’s wrongs due to greediness in materialism And all conclusions pointed to lack of love, chaos, disorder and ugliness!

In the final course he had the union of his self with the beautiful bliss! Never ever anyone before and after would get such an amour anymore And quite unbelievable he slept with full satisfaction till reached Caribbean!

Anchoring the ship on the Caribbean Sea he dived to explore the mystery; Captain quite astonished saw beautiful beings quite divine welcoming him! Accepting their reception he met the King to know all secrets as before.

In the Sea World the divine beings were closely watching man’s wrongs; They had caused all havocs as a punishment to man to correct himself! The king praised captain of his good nature and understood his dreams!

Never thought it was so simple and easy for him to solve it so soon! Captain thanked God for the honour he had got there and came out of sea And sailed again to set right the set backs of the world to create One World!

END

Ramesh T A
A Best Abode For Man!

Relentless Sun's radiation in the mornings
And soothing coolness by Southern breeze
In the evenings keep all move on well ever!

Such a kind and merciful Nature surely
Shows the love of it for surviving men
Whatever be the situational changes here!

Shading trees under the hot Sun is a relief
In the mornings and breeze they pass on
In the evenings is a blessing in disguise....!

Suffering we survive and surviving we suffer;
With some relief to cope with all extremes
Of weather man's life goes on against odds!

With some amenities always there to manage
All difficulties Earth is best abode for man ever!

Ramesh T A
A Best Ambition!

Mechanical life
From education to job leaves
One vague!
Go round for fun to know world
Then have ambition to achieve best!

Ramesh T A
A Best Cordon In Life!

Some innocent people don't know what and why they are doing things;
But they do things as they are told to do by certain so called elders!
This is how superstitious things are being followed sans fail ever;
Good knowledge, realized views and decision based on truth help much!

Even in the modern world, if such things happen means what we can say;
These are making of certain people for the survival and domination of
Certain group that are otherwise nobody will care and even look at...;
Realizing this, the good and innocent ones shouldn't follow all things!

Certain things we know and we feel better to follow we can keep it up;
That will be better for our life and we may have respect and honour...;
Due to blind faith, nothing good will happen however sincere and hard
Many work for themselves and for others in the world, we are part of it!

Knowledge, faith based on truth and common sense are the best cordon
That only can help, protect and make one progress in any walk of life!

Ramesh T A
A Best Culture

Flowers are the smiles of plants and trees
Like the morning Sunshine creates brightness!
Sweet smiles of everyone is the bright side of one
That should not be hidden from the public's eye;
For, that brightness spreads through all everywhere.

Culture is to greet all with a smile despite difficulty
Thereby sorrowfulness of one can be transformed
And the ideas got out of conversation may change all;
Gloominess can be turned into brightness in life.
The purpose of festivals and celebrations do that well!

Love of kind words brings about change unprecedented
Whose influence begins with a smile at first to influence all
To smile too and whose infection increases health of life;
This is the culture humanity needs to be nurtured ever!

Ramesh T A
A Best Culture Of The World!

Family life
Is the best culture
In the world!

Ramesh T A
A Best Cure!

Glory of Nature poet says in glowing verse!
Disaster of Nature critic says in crying words!
Beauty and love of Nature bring bliss sure;
Wrath and horror of Nature bring nightmare!

For all poisons of pollution man mixes in sky
Nature dilutes to balance with drastic dosage!
But chronicle disease at extreme stage kills
Patients among people without mercy often!

Prevention is better than cure holds good ever
If man is careful in the use of natural resources.

For all the climatic changes man is the root cause
Due to exploitation of resources sans conservation;
Even now it's not too late to take measures well
Before the final stroke comes at unexpected hour!

Ramesh T A
A Best Dream Life!

Living in dream world we imagine so many things
But in reality nothing of the sort happens at all!
This is the truth everyone has to know someday.
Dreams based on knowledge of truth are wonderful
That with the evolution of ideas out of experience
When implemented dreams can be realized in life!

Knowledge, experience and wisdom got out of Nature
And interactions with the world affairs man creates
And invents new things and develops mankind for better.
But attachments to religion, customs and sentiments
Make man’s life as we see today needing rational thinking
To know truth and set right the drawbacks for better life.

Knowledge of self, world, Nature and Universe and vision
Based on those aspects give plan of things to be done
With an ambition suitable to each and everyone to achieve
Collectively by cooperation and coordination best dream life!

Ramesh T A
A Best Emperor!

Besides poet, people birds, animals too love freedom;
Lion may be king of jungle but elephant is emperor!
This big, best emperor called gentle giant is humble
And accepts to bless devotes, escort Temple deities!

This huge animal emperor is kept as van in temple slot,
A humiliating sight to see, yet it humbly accepts the role!
For stomach satisfying food emperor surrenders, serves
And sustains with faith and gratitude to men and God!

A wonder to see freedom loving natural animal living so!
Is it a fate or destiny for the best emperor to live so here?
Child like and divine looking elephant is chiseled as God
Called as Lord Ganesha is animal, man and divine in one!

When will this big, best emperor get freedom from man
Know not, think I, whenever I see standing before Temple?

Ramesh T A
A Best Is Ambition!

Incentive creates
Interest to do better
Ambition.. best!

Ramesh T A
A Best Moment Of Last Year (2017)!

A last but one day of the year makes all think of the whole year spent;  
Best moments of the year are coming to mind to have an appraisal sure;  
Cause and effect are related to each other in this year one can't forget;  
Days somehow we spent for six months out of station in the metro city!

Entire time of those days we spent looking after a smart child with fun;  
Full time job it had become for us far away from the busy city centre;  
Good atmosphere before a small forest like place we stayed to watch all;  
High from that place it is beautiful to see the whole place in green trees!

In the festival of lights time, everyone around the place burnt sparklers;  
Joy of lighting colourful sparklers and firing bonfires had no bounds there;  
Keeping some sparklers and crackers for next festival, all are burnt to ashes;  
Lovingly we with the little child full of wonder saw 360 deg. smoke only there!

Many festivals come, but Diwali is the best to enjoy and later New Year sure;  
No one can deny this and miss this ever in life in this world full of fun...!  
On and on if such festivals come, then there is nothing to feel fed up in life;  
People want to celebrate best of time with kith and kin in group so ever sure!

Quite a lot many miss, if they travel to any other country at that time sure;  
Resorts to outside coastal areas too such a thing one cannot enjoy so well ever;  
Surely those who have gone to USA too cannot have seen such fun there we feel;

That time spent so well never leaves our mind and we can say that's best moment!

Universe of Stars twinkling all night, we with sparklers flying in sky enjoyed  
Very well the festival of lights that comes in October and November every year;  
World festivals like New Year and Valentine's Day only can be compared with Diwali!

X and Y type of people too laugh in fun only on such beautiful festival times only;  
Zeal of all sorts of people flies high like free birds only on such happy occasion!

Ramesh T A
A Best Need Now: Religious Harmony!

All religions are born from the inspiration
Nature has bestowed to philosophic men!

Men of letters popularised inspired ideas
For mankind to live in harmony forever!

Then to impose one's religion on others
He tried to destroy other creeds in vain!

Religious superiority leading to endless wars
Now looms large between various races of men!

One God, one world and one humanity under
The care of Nature would definitely delight all!

Why can't all stop one brand to dominate over other
And destroy mankind by unnecessary war ever at all?

Religion is just old encyclopaedia to be updated ever
Accommodating all knowledge to defy adamant ignorance!

Ramesh T A
A Best Of Climate!

Best of climate is prevailing in Pondicherry,  
A town in the South of India, where rain  
Never visits through out the year forever!

But if it comes, it comes with full effect by  
Way of cyclones preferably in winter times!

Now that climate has changed everywhere  
Due to man made mistakes, Nature is ever  
Teaching lessons by prolonged weathers!

With sudden heavy rain in Summer and also,  
With sever biting cold in the cold season  
It brings cyclones recurring nonstop as hell!

Fed up with rain and water clogged streets  
All over the town for longtime, all appreciate  
Now pleasant climate without rain sure.....!

Ramesh T A
A Best Of Nature!

Revolving Sun her eye movement is!
Blooming flower her smiling lips are!
Just risen Moon her beaming face is!

Black and white flower her eye is!
Red rose flower her blushing face is!
Sweet slices of fruits her lips are!

An angel if she walks on the road!
A nightingale if she speaks anywhere!
A free bird if she runs to catch bus!

Lady, your name is indeed beauty!
Lady, you are the subject of any art!
Lady, you are the best of Nature!

But, weaker vessel fair sex is says bard!
Angel for vessel of tears says poet ever!

Revolving Sun her eye movement is!
Blooming flower her smiling lips are!
Just risen Moon her beaming face is!

Black and white flower her eye is!
Red rose flower her blushing face is!
Sweet slices of fruits her lips are!

An angel if she walks on the road!
A nightingale if she speaks anywhere!
A free bird if she runs to catch bus!

Lady, your name is indeed beauty!
Lady, you are the subject of any art!
Lady, you are the best of Nature!

But, weaker vessel fair sex is says bard!
Angel for vessel of tears says poet ever!
A Best Option For Couple Seeking Divorce!

Due to prosperous parents, elderly children's life shines. Otherwise, due to popularity of a son or daughter, the Full family gets special respect in the society of the place. These things go as long as that family has honour ever.

Once children become elders and get married, that family Still has a great respect and honour as long as life is well. If a daughter runs out of husband's house opting divorce, The reputation of that family goes down in the society...!

Due to ego, immaturity and ignorance, that family becomes An isolated island without any soul to advice and guide ever! If no one gives good suggestions and if the parents too don't Give good and productive advice, union of couple is impossible!

Consequently, the couple seeks the help of family court for Legal separation leading to several years of pendancy of case In the court benefiting none but the lawyers on both sides! This the divorce seeking party should understand for better!

Best option for both parties of couple will be outside court Settlement with mutual consent arriving at an agreement! With that, if they seek an order from the court, they can Go ahead for the better with the second life each one likes!

Ramesh T A
A Best Panacea!

Burning to death by kisses she is
Indeed a ticking time bomb ever!
Electra is her true name so to say
As she has killed her own father!

Ever philosophic in mind he sure is
Indeed a brewing bomb to explode!
After a lot of hesitations he does....
Kill his own mother for perfidy soon!

Eletras and Odipuses express opinions
About their complex matters as poets too!
Psychological cases too give vent to their
Feelings hoping to recover themselves!

Poetry is a best panacea for all ills sure
It seems in poetry websites world wide!

Ramesh T A
A Best Poem!

Poems I write

Getting ideas at nick of moment

Become best poems!

Ramesh T A
A Best Way For One World Life

Present World Status:

World goes on economic growth at the cost of social progress;
Urbanized world goes on at the cost of villages and rainforests;
Air, water pollutions change climate creating floods and droughts;
Nuclear bombs and atomic power stations cause security problem!

Clash between civilization and religious terrorism threatens peace
After clash between capitalism and communism came to an end!
Nuclear weapons in the hands of Islamic, communist nations
And dirty bombs with terrorists threaten world’s very existence!

It’s felt something is wrong somewhere in the society we live in;
Is it due to education or civilization or economy or politics.....?
Money rules man’s mind due to globalization of economy now;
Ambition to become rich has made man into machine-beast-man!

Civilization of modern world and terrorism of religious fanatics
Due to their adverse natures kindle all thoughts towards culture
For its all subject embracing nature helping best life to be feasible
And turn the divided world look towards the creation of one world!

What can be done?

World religion is all about faith, education and culture;
Good life depends on knowledge, friends and culture;
Civilization is the index or mirror of human culture, for,
It is a way of life with best thoughts, words and deeds!

There’s only one God who is all pervading Universal Spirit;
This Universal God world religions call by various names!
Faith shouldn’t be based on superstitious belief but on truth!
All religions preach about peace, truth, love and brotherhood!

World Culture by International Friendship:

It’s wise to follow culture as to how best one can live life till the end;
Based on knowledge and experience the system we follow to live
With good manners and morality can be called culture that includes
Love of Nature, music and books of best thoughts, words and deeds!

Modern civilization sans culture has made man miserable and savage!
Religion may make a cultured person into a divine being by perfection;
But culture turns a brute into a human being by humanism which is what
Most needed in the present day world for creating one world order soon!

Culture is knowing best things in arts, science, literature, music, religion;
Expressing such knowledge to all and doing best things further on them!
It is knowing things as they really are and making truth prevail over all…;
It brings peace of mind and helps mankind achieve spiritual perfection!

Human culture is love for and study of and pursuit of human perfection;
It is thinking about or knowing, speaking or expressing about and doing
Best things in all fields of human endeavour of past, present and future
Enjoying those unique and precious things and passing on to posterity!

Culture is spread to people by classics, arts, painting, music and dance;
Various national cultures put together into a whole form one world culture;
Universal brotherhood or international friendship among world people truly
Blossoms into best world culture transcending colour, class, creed & race!

Best kind of Education:

Education is the basis for all advancements and achievements forever;
But present day education does not develop full personality of a person!
Specialization makes one useless unless placed in suitable profession;
Dual study of Science and humanities only can provide full education!

Education should develop friendship and team work among students;
Build up character, develop intellectual power and spirit by meditation;
Train in agriculture, industries, fishing, army, arts, science and literature;
Only by intellect true knowledge of Self, world, Nature or Spirit is gained!

Musing on Nature in quest of truth beautifully useful things are created;
They only can get vision of knowledge to express talent creatively in life;
Fine learning makes all love to do job, helps intellectual thinking to power;
Truly educated does civil and war jobs effectively, efficiently, excellently!

Culture increases human value by developing body, mind and spirit!
Independent thinking develops knowledge to express talent in life;
Independent new thinkers creatively work better than all to society; 
Culture offers chance to develop on past achievements to perfection!

Best Way of Life:

Human culture is the best way of life in the world for knowing 
All best things in Arts, Science, Literature, Politics and so on, 
Spreading such things by love modifying as to changes of time 
And doing best things by finding solutions for all life problems.

For all ages culture truly leaves a legacy for coming generations 
Effecting harmonious human perfection to achieve joy and peace 
And above all, spiritual satisfaction in the world life to the last....... 
With a sense of goodness, beauty and truth forever and ever.....!

Some say life is a journey; it’s a struggle and also say it’s a battle! 
For all, literature is the dictionary and encyclopaedia of human life! 
Indian creed says life is existence, knowledge, bliss and absolute! 
So, a good life is one inspired by love and guided by knowledge!

Individual’s life duty is to get knowledge, earn wealth righteously, 
Enjoy all pleasures and relinquish all to others in pursuit of moksha! 
Individual’s social duty is to select a field of work as to one’s nature, 
Cooperatively serve society ignoring class, colour and race differences!

Literature reveals power of love and knowledge that makes one perfect 
To be free, confident and courageous to go on a life journey brief or long 
To attain a sense of liberty, love, happiness, peace and satisfaction sure 
As that is the purpose of life we are all trying and exploring to know ever!

Mystical life is musical dance inspired by song of Universal God in Nature! 
Vision of life canvas is one swimming from dark sea to shore by a beacon 
To climb a hill to mingle one with mist to go up stairway to reach heaven! 
This is the whole picture of life one has to travel from birth to death sure..!

Conclusion:

Good education, interesting job, friends, congenial community and... 
Favourable government are essential to lead a good life in the world! 
Food, clothing, shelter, education and employment are very vital for 
Solving the problems of hunger, poverty, ignorance and disease....!
International friendship among nations and people is world culture now;  
Exchange of cultural programmes brings closer world nations and people  
Making it convenient and feasible to promote world peace and unity  
Paving the way for developments in various fields by means of friendship!

By means of world friendship UNO surely has the capacity to involve  
All nations in creative activities with the view of solving all problems.....!  
By educational programmes UNO can train people in farms and industries,  
Promote people’s talents in arts and science to utilize in creative works!

If UNO does duties of friendship, world will become culturally civilized!  
The more UNO improves world culture, the more peace and prosperity  
Can be achieved by world friendship to change the world for the better  
And that is the way to achieve social justice and flourish one world life!

Ramesh T A
A Best Way Of Life Only Culture Provides!

Human culture covers all matters from the past to the present and future
For all to live best way of life overcoming all difficulties by wisdom;
Wise cultural way helps harmonious human development possible for all
To learn and live in complete satisfaction and fulfilment of life's aim!

Culture only criticizes and corrects mistakes of everyone based on the
Best ideas, thoughts and knowledge of the past relevant to the present
And future helpful for making best thoughts, words and deeds in life
In spite of mysteries of life still remaining as puzzles to solve ever!

Civilization developed by advancement of knowledge to live life well
In the modern world with the aid of material technology can be meaningful
And wise, only if it's based on human culture followed since long as
Human values are more important than material values of luxury and status!

The more man develops by scientific technology, the more new diseases too
Develops due to mechanical way of life departing from natural way of life
That culture only fosters forever, making man to indulge in difficult
Researches to find medicines having after effects to solve later again!

Ramesh T A
A Best Way Of Life!

All are for peace, happiness and freedom in life;
Best way to attain that state is following culture;
Culture is best way of living in the world forever;
Discipline, decency and dignity make one respectable!

Everything lies in thoughts, words and deeds we do in life;
Freedom of mind, heart and soul lies in doing all perfect;
Good means followed ever leads to good end in world life;
High thoughts in simple way of living life makes one great!

Inventive and creative minds know not how time goes on ever;
Joint ventures by such people make wonders in the world sure;
Keeping abreast of all advancements, they excel in all deeds;
Long or short life is immaterial, if they achieve their dreams!

Many things they do convert into achievements by noble works;
Nothing seems to be impossible once they fix goals to victory;
Over all things of their venture they visualize before hand;
Perfection though impossible they never fail to achieve dreams!

Quest for knowledge of best ones leads them ever to success sure;
Resolution they take in a year they complete sans fail in time;
Satisfaction is what they seek and never finish quick and go out;
Thoughts, words and deeds are the best they see and do works well!

Unity in diversity is what they follow to accomplish all goals ever;
Victory is so becomes easy for them to attain in their plans sure;
Works of great achievements they do by unity in thoughts, words, deeds!

X of unknown things they find out well by extraordinary internal search;
Years of their efforts so never go waste however challenging it is by
Zeroing all attention to central issue to accomplish assignments in life!

Ramesh T A
A Best Way To Achieve All In Life!

Attachment to anyone or anything is an obsession in life
Mainly caused by deep desire of heart born of love sure!
Attachment is the cause for all the distresses of life long
Till one shuns it to higher things like Nature or Almighty!

Love is the highest form of emotion that elevates anyone
And that only brings closer good souls together forever!
Due to attachment many are indecisive to take action on
Critical moments in life and suffer a lot as Hamlet we know!

Bhagavad Gita preaches to all live life of dharma following
Non-attachment to overcome hesitation or useless thoughts!
Buddhism preaches all to follow the path of wisdom with
Non-attached or Universal love to overcome all sufferings!

Right thoughts, words and deeds with concentration, ever
Make men go on right path to accomplish all in life sure!

Ramesh T A
A Best Way To Achieve Sure Laurels!

Acquisition of intellectual knowledge upgrades mind to brightness! Comprehensive knowledge gives confidence, courage and power! Knowledge is light that drives away darkness showing way ahead! It is the dawn drives away night darkness to brightness at sun rise!

Even faith in God based on intellectual truth is reliably strong in life; Universal God present in everything makes one feel really confident. Knowledge acquired by intellectual thinking over self, world, Nature And everything in the Universe makes one spiritually elevated ever!

Vision based on such knowledge gives clear picture to have ambition Not to do just the work one has but to make achievement in everything! Such works of excellence only inspire mankind to go ahead in progress And make humankind super human to face all challenges of future!

Without full confidence based on comprehensive intellectual knowledge One cannot be sure of anything and do anything best to achieve laurels!

Ramesh T A
A Best Way To Liberation! (1)

As cage bird or imprisoned person we all live our life; 
A soul in the body is like a prisoner in the prison here; 
However joyful or sorrowful the life is freedom is bliss; 
For which we all explore life, world, Nature and God!

Love makes man live in the world inspired by Nature; 
Man knows love from Nature and lives better life; 
Love of Art, beauty, Nature, music helps to live longer; 
Due to love he lives family life far evolved from animals!

Fear is the opposing force of love perpetrated by animals; 
Animals achieve all by the force of fear more than love; 
But love of knowledge or education puts an end to fear 
And knowledge by experience gives wisdom and culture!

Culture ennobles man from animals to live best life 
As culture is best way of life based on best of acts 
Covering best thoughts, best words and best deeds 
Extensively satisfying all aspects of human activities!

Life is conscious existence enjoying bliss in the world; 
Divine life is eternal conscious existence in bliss absolute! 
Physical life is consciousness of soul powered by energy; 
Divine life is consciousness of Universal Spirit everywhere!

Matter has evolved from energy powered by Universal Spirit; 
Human body has time limit as all perishable commodities; 
The soul within is the dropp of the Universal Soul everywhere, 
That is the saturation or end point of all living souls here!

Ramesh T A
A Best Way To Liberation! (2)

The soul shifts from body to body as man changes dresses
Throwing away the worn out dresses in the day today life!
It is by fate or fortune man is born in good or bad place
In his various births as to his deeds of the past till the end!

Under consciousness man does all activities of his life;
By blood consciousness young birds fly and turtles swim;
A stream of consciousness is evoked by his meditation
And that helps man know his past, present and future!

Sub consciousness does not make man die out of sleep;
Mystically by super consciousness he mingles with divinity;
By knowledge, devotion, meditation and mysticism he does
A lot revolutionarily to change his process of evolution too!

Evolution is a naturally selection process slow and long;
But man due to his mind can know and change the plan
By mystical pursuit of communing with divine in Nature
And reach the saturation point of Ultimate Reality soon!

Buddha said desire is the problem and so, follow love;
Adi Sankara said knowledge of God is the only way out;
Ramanuja said devotion is way to mingle soul with God
And so, there is nothing more or less to say further......!

Ramesh T A
A Best Way To Peace!

Prayer to God is the best way to get peace;
Meditation in Nature is smooth way to peace;
Book is another way to forget worries to peace;
I prefer musing over the beauty of Nature to peace!

Many become unstable without work, friends or family;
Life is evolved in Nature which is a book ever updating
That when one sees never gets let out in life in the world;
This is my experience I tell you all to remember to follow!

Beauty of Nature, music melodious and inspiring book
Make one elated to high spirit equipping to scale God
Present in the Universe, a greatest wonder of all time
Inspires with God spirit powerful to go confident ever!

Confidence, courage and endurance inspired by Nature
Lifts up human spirit to divine spirit to enjoy peaceful bliss!

Ramesh T A
A Best Way To Promote Love And Peace!

Peace, love, brotherhood and development all preach;
Without love nothing can be done to achieve everything.
But if love in public practicable nobody says anything;
How can anyone love anybody else without knowing?
How can harmful persons be loved and develop peace?
So many things are beyond our capacity to accept often!
So, to live in society without fighting tolerance is the way
It seems possible with some hard and diligent practice!
To forget nasty things diversion of attention to Nature
And spending usefully time in creative arts seems well!
Poetry is another wonderful diversion for the talented
And can discuss matters with readers to change well
The society to go on the peaceful track acceptable by all!
But is it possible by all who are not refined and civilised?

Ramesh T A
Sufferings of man make him seek the grace of God;
Silent sad music of world makes it too much to bear;
To relieve from world life man desires to reach God;
Without knowledge could it be possible to reach God?

Usual knowledge helps only for survival in the world;
True knowledge comes of knowing Self, world, Nature;
Meditation and mysticism help to know and realize God;
Spiritual pursuit lies in true knowledge and stable living.

Desire, commitment, ambition, attachment strain much;
Competition increases anxiety and excitement to wreck;
All the efforts are crippled by govt. machinery and quota;
The finish of mission is left to fate decided by God only!

Surrender to God to have relief and liberation ends strife;
But without devotion mere knowledge of God won’t help,
That is, converging involvement of heart, mind and soul
In pursuit of God only finally helps one get free of all knots!

Ramesh T A
A Better Change Or Bitter Change?

A change is what everybody dreams and wants to see
The change we see – is it better or bad? It’s the question!
Every morning the colourful Sun rise is beautiful to see!
The singing birds inspire us to be free and happy in life!
The jolly good squirrels kindle us too to play as they do!

We can see crows and sparrows all around our houses!
We see beautiful clouds of colour changes at the Sunset,
Night sky full of countless Stars and Moon shining bright!
All these things are Nature at its best nobody can neglect!

Now those things we cannot see and enjoy anymore so!
Morning and evening twilights are beautifully all right;
Stars and Moon in the night times are as usual perfect.
But Nature on the Earth has changed without any doubt!

Farming lands have turned into Satellite towns around town;
Crows, sparrows have disappeared with the destruction of trees!
Farmers have come to towns to work as masons and mill workers;
Population, traffic, pollution have increased with food grain price!
Money is not enough to buy all people need as rain in summer!

Men drink and talk themselves and lie on the pavements;
At night it is common they sleep where dogs and pigs frequent;
All have become one according to socialism politics advocates!
Swine flu, bird flu and SARS are spreading the entire world now!
And Stars and Moon wink eyes at this big farce of society so!

Ramesh T A
A Better Friend

Old friend
Is better than
New friend!

Ramesh T A
A Better Life!

Love, marriage and divorce and
Again love, marriage and divorce
Celebrities' way of life so goes on!

Artists, actors and big shots live
Life for satisfying their own needs
Unlike simpletons living for others!

Who is satisfied and has lived better,
Lived longer fulfilling life's objectives
And left the world in peace and bliss?

It is a mystery many follow many ways
And the experiences of their lives come
In stories of many magazines to know!

Simple living and high thinking life only
Of all perhaps in Nature is better, know!

Ramesh T A
A Better Or Bitter Chance?

Is it fate that keeps soul-mates apart ever
And keeps physical mates ever together...?
First physical attraction never lasts longer
Like mental or spiritual one we see in life!

Diversion we seek to compensate loss ever
By poetry writing all in poems numerous...!
Even this privilege is criticized by counterpart,
The most unkindest cut of all one can bear...!

The brutal thrusts of knifes by close ones
Have no difference with comments bitter..!
Most of all no comments by some keep suspense
That always lingers in heart to know why...!

Life goes on, bitter or sweet, as time moves on
And we spend out time looking for better chance!

Ramesh T A
A Better Taste!

Old wine
In a new bottle
Tastes better!

Ramesh T A
A Better Thief!

Old thief
Looks to be better than
Educated thief!

Ramesh T A
A Big Bang Machine!

Has God created all in six days and took rest on Sunday? 
Or a Big Bang bonfire has led to the coming of the Universe? 
“Scientifically how could this be realized? ” was a big question 
That led to the creation of Big Bang machine to know the truth!

Hadren collider called Big Bang machine is used to experiment 
By colliding two proton beams in opposite direction in March ’10! 
The situation just after big bang is being researched to find out 
Whether God particle Boson triggered to all stars, planets and lives!

Big Bang experiment at the laboratory level is a big feat of Physics 
Being done at a cost of $ 14 billion by the world scientific society! 
A great marvel indeed this scientific experiment is to know truths, 
Dark matters and all the known matters in the Universe incredible!

By gravitation everything hangs on in the Universe after big bang 
And the facts of connection of all sciences could be known soon!

Ramesh T A
A Big Blunder Of Man!

Due to pollution global warming and acid rain come;
Due to deforestation no rain and prolonged droughts come;
Due to greenhouse gas emissions air and water pollute!

Due to CO2 of smoke and NO3 of fertilizer ozone depletes;
Due to glacier melting salinity of increasing sea water dilutes;
Due to mixing of CO2 surface sea water temp too increases!

With the felling of trees birds are flying away to nowhere;
The music and songs of birds won’t be heard anymore;
Not even a single sparrow can now be seen around anywhere!

Due to seeping of oil from commercial transport vessels
Spilled oil spreads many miles of sea shore areas conspicuously
Conspiring the lives of many varieties of marine life forever!

The climate change due to man made blunders have made costly
Not only farm food but also sea food making human life a question!

Ramesh T A
A Big Competition Continues Always!

Indirectly appreciating and directly pulling the leg
Friends in competition try to gain some moves ahead!
What a world it is full of competition always sans sense!
Perfection nobody bothers but finishing ahead all want!
Is it running, swimming, cycling or walking life always?
Life is real, natural and beautiful to enjoy and live here;
But race has microscopically diverted from telescopic view
And many wear eye glasses or contact lenses forever in life!
Without the glass or lens they cannot see anything anymore!
What have we gained at the expense of our health so far?
Nothing, simply noting have we gained but madness always!
Madness is the essence of modern world in all its pursuits!
Intelligence without wisdom makes all go in wrong routes
Whether it is business or politics, Science or Arts and all!

Ramesh T A
A Big Contradiction!

What a contrast to think about divine life
In a place devoid of divinity forever as it’s
Famously designated as cochon de Phichery!

Mystics have reached end of journey to moksha
Once upon a time in this slumbering town then
Naturally inviting visitors and settlers ever on!

Native’s spoiling of the significance of spiritualism
Seems to be superseded by tourists visiting it often
Perpetuates the mystical glory even after no trace of it!

Beauty of the town is spoiled by commercial activity
Coupled with industrialisation sometime back too have
Become defunct by political measures always anti-people!

Materialism and pleasures of physical pursuits of modernity
Contradicts with mystical pursuits of divine life alarmingly!

Ramesh T A
A Big Contrast!

Contrast abounds
In class, colour, creed
Though one world!

Ramesh T A
A Big Crisis Of The World!

World recession, monsoon failure and unemployment
Coupled with price rise are nightmarish to mankind!
Especially world economic slow down affects full world,
Whose effects cascade in every walk of life everywhere!

Lavish spending of funds by govt. on wasteful projects,
Improper governance of nations have landed in trouble
People of all walks of life all over the world for months
Leaving bleak future in store to face by all collectively!

Cut in expenditure and rationalising consumption have
Driven all to follow as austerity measures everywhere!
Middle class and poor people are worst hit by recession
And are not able to meet both ends now more than before!

Austerity measures of govt. is being watched by all to see
Whether politics or progress is going to be won by controls!

Ramesh T A
A Big Family of One World!

All nations are not existing in separate planets of the Universe;  
Boundary lines and line of actual control are demarcations only;  
Connections and communications between world people are well there  
Despite differences in race, religion, culture, language and colour!

Entire world is one big family with various identities of nations;  
For knowing uniqueness of each one just as geographical features;  
Graphical rise and fall of economic and social growths are there;  
However, that are due to lack of quality in education and culture!

Ironing out differences by cooperation all can coexist together ever;  
Joint actions to stop terrorism and joint ventures can develop all;  
Keeping in touch with all by arts and cultural exchanges unity can  
Logically be promoted to have lively relationships among all by time!

Men and women can equally go hand in hand to promote friendship sure;  
No one is separate species as all are evolved from same homo sapiens;  
Over all differences of opinions and ideas can be sorted out by talks;  
Perceptions and conceptions differ due to lack of proper understandings!

Quantitative and qualitative existences can be balanced by humanness;  
Resolutions by common consent can bring together all in unity by love;  
States merge together as and When all societies share natural resources;  
Transnational travels and trades slowly bring together all as friends!

Universal brotherhood so can be developed to foster the sense of love;  
Various skills and workmanship of all put together form strong bond sure;  
Work based cooperation and coordination surely solve all matters for unity!

X, Y and Z exercise rights by equality, fraternity and liberty of democracy;  
Yearnings and expectations based on great dreams will become realities soon;  
Zero level all pressures will come to cherish normalcy to form One world State!

Ramesh T A
A Big Farce!

Man's developments
Have become a big farce
Due to pollution!

Ramesh T A
A Big Genius!

Geniuses are rare breed in the world!
With 1% inspiration and 99% perspiration
They do miracles in art or science here!
They see A to Z of everything they take
And express everything in their art well!
From the seemingly nothing they create
A world of wonder we cannot work out!

Intelligent person knows quickly everything
Before others attempt to know a matter;
Genius knows every aspect of whole matter
And makes a note of it in art completely!
Others cannot judge a genius easily;
Only a genius can assess one well!
A genius is next to God in creativity.

Ramesh T A
A Big Golden Moon!

2010 Moon is revolving round the Earth bright in closer orbit
Making Solar eclipse look like ring fire and not diamond ring!
Often golden Moon rise lasts longer before it becomes silver
In the evenings bigger in size than usual on Full Moon days!
Big golden Moon shines bright yellow long in the winter
With the Sky clear having no clouds indicating last phase;
But heavy chill wind blows cold making all shiver despite
They walk brisk sans slackening the pace a little to the end!

Becoming Sun like silver light, Moon attains brilliant beauty
Changing Sea into Milky Way of Universe similar to Vaikunda,
The abode of Lord Vishnu, God of protection of the good people
And His consort Goddess Lakshmi giver of wealth to mankind!

Big golden Moon becoming silver Moon inspires hope and joy
Confirming confidence to all to survive, sustain and succeed ever!

Ramesh T A
A Big Irony!

Developments and diseases
Today go hand in hand everywhere
It's a big irony!

Ramesh T A
A Big Misunderstanding!

What can we say about the adamant lady
Who believing a friend to be a foe blocks
All his prospects of progress always?
In all the times of uncertainty and crises
He only happens to save her always;
But suspecting him as usual she goes on
Doing all kinds of things in her venture!

She works in favour of her pets letting down
The suspect by encouraging at will someone
Always thinking of gathering useful friends!
But unable to digest her strange choice
Friends of sincere thoughts leave her soon!
After sometime when the fun comes to end
And when suspect friend too has to leave
She feels desolate without people of faith!

The pain of suffering due to her mistakes
Based on misunderstanding deeply stays on!
All kinds of ways to forget the memories
Again and again places her in disadvantage.
Successes of life make one believe that as luck
Making blind the mind of the real supporters.
So she understands late of her misunderstanding
And that adds fuel to her fire of pain forever!

Ramesh T A
A Big Mushroom!

Mushrooms white or brown are a good nutrient food;  
Except the poisonous black all mushrooms are good.

Mushrooms of smoke coming from factory chimneys  
And emission of greenhouse gases are depleting ozone  
In atmosphere to the point of creating holes that make  
Gate way to ultraviolet rays of Sun to directly attack all  
Causing skin and eye diseases and greenhouse effect  
Due to pollution leading to long droughts and flash floods!

Global warming common now causes climatic changes  
Of extremity with hottest days and bitter cold seasons!

Pipe dreams poets indulge in to produce warning poems;  
Smokes of mushroom intellectuals puff off for solutions;  
Harming self they do harmless service to others good!  
But a big mushroom of nuclear bomb will blow off Earth full!

Ramesh T A
Big or brief, what is poetry?
Poetry is......
Creating beauty out of blemish,
Making order out of disorder,
Producing meaning out of musical words,
Creating Universal truth out of trivialities,
Arranging points out of less known facts!

Is poetry just making rhythm and rhyme
Without meaning, life, force and taste,
Without free flowing musical words,
Without words of music, beauty, fun?

Poetry is free flowing river of words
With full of images, lively and lovely,
Transporting from this world to that world
Forgetting himself and readers here!

Just end rhyme is not enough to make it so;
Internal rhymes make music in rhythm
Making all enjoy music, meaning and ideas!

Poetry is the medium to say complex things
Not possible to say in other forms of language,
Saying unknown things using known things;
It is sound, substance, message and meaning!
And many more matters to many men in the world!

Ramesh T A
A Big Pie!

Great guy
Always has an eye
On big pie!

Ramesh T A
A Big Question To Ponder!

Aim of all in the world is to win in all matters!
Is it enough if you succeed in getting a degree?
Is it enough if you work till retirement in the job?
Is it enough if you live long from birth to death?

What is the use of degree if you don’t get true knowledge?
What is the use of job if you don’t achieve anything?
What is the use of life if you don’t achieve satisfaction?
Sans knowledge, achievement and satisfaction life is vain!

Why are we caught between pleasure and pain to live so long?
What is the purpose of our creation in the world in particular?
This is the big question everyone has to ponder sooner or later;
There lies answer for all other questions to get truth to glory!

Don’t we feel it is a great waste of time not to have done so?
So, where does lie the mistake in the system we all operate so?

Ramesh T A
A Big Speculation!

Climate has changed
And Winter has come!
Some like cold climate;
Many like warm climate!

This year rain is not enough;
So, the winter will be severe!
Sans cyclone rain is not there;
Due to cyclone some rain's there.

Monsoon rain is awaited
For farmers' work to go on!
Water level has gone down;
Water is very much needed.

Sans cooperation nothing goes well;
Something good all dream now!

Ramesh T A
A Big Temptation!

Testing men

With temptation till the end to sift

Gold from dust!

Ramesh T A
A Big Thief!

Exploit all
What is within you
But not others!

If you exploit
The wealth of others
You are thief!

Ramesh T A
A Big Uneven World!

Fingers of hand
Are not of the same size as
World people!

Yet each one
Is unique in its own kind
By Nature!

This fact
Everyone should know to
Stop fight!

So, all unite
By coordinate work to
Promote peace!

Ramesh T A
A Bird Gracious!

What a gracious creature bird is!
Flying in full freedom in the Sky,
Singing musical songs always,
Migrating all over the world
Bird is truly born to enjoy life!

Bird is the master of the Sky!
Seeing as they are from above
Like God in heaven over Universe,
Knowing the truth and safe haven
Bird is really an angel on the Earth!

Only poets have that privilege of birds
Like Skylark, Nightingale, Seagull
Or Albatross hovering over Sea and land
Mystically musing over ideas and life!

Ramesh T A
A Bird Or Poet?

Crows are very many everywhere;
Skylarks and Nightingales are a few;
Sea gulls are around seashore areas;
Albatross are in distant ocean places;
Parrots and owls are in parks;
Peacocks and pigeons are in temples;
Mynahs and Kingfishers are near ponds;
Vultures and eagles are roaming over cemeteries!
Birds are Nature poets;
Poets are birds too
As both wish to fly free
And live a free life!

Ramesh T A
A Bird Song!

Whistling jack is none
But Magpie Robin bird!
Robin is Nightingale,
Skylark and Mynah too
All in one bird to woo
Birds of its kind for love!

“Cuckoo, cuckoo, cuckoo! ”
Sings he free at dawn,
“Night has been surmounted;
Day break has come too;
My region is still in my hand! ”

“Cuckoo, cuckoo, cuckoo!
Lady birds listen to me
Appreciate, criticise or reject
I am the master of my map! ”

“Cuckoo, cuckoo, cuckoo!
Kikee, kikee, kikee ........!
Kickic, kickic, kickic ........!
Kichoo, kichoo, kichoo ...!

In four different ways he sings
To create the impression of four
Different birds singing to woo
And attract his creature birds!

Also, a long whistle he blows
To make his voice heard in
The whole long area of his
Establishing his mastership!

Attracted and feeling safe
Beautiful lady bird approaches
Near to Magpie Robin at last
To mate and live together ever!

There ends the love courtship
Of the master Magpie Robin
With his lady love bird nice
To lead a happy life long!

Ramesh T A
A Bird's Eye View!

With bird's eye view
See things as they really are
And that beauty is truth!

Ramesh T A
A Birth Of Poetry!

Inspiration gives mood

Mood kindles creativity

And Poetry is born!

Ramesh T A
A Birthday To 007!

Happy Birthday
To James Bond 007
Sean Connery!

Ramesh T A
A Bitter Sweet Love!

Hot and cold
Day and night of day is
As bitter sweet love!

Ramesh T A
A Bittersweet Taste!

Which is easy to bear and difficult to bear?
For me Summer is easier to bear than Winter!
However hot Summer is, there's fan, water;
But Winter is very cold and unbearable long!

In the West they long for Spring to come soon;
Here in the East we long for Summer to come
So that we both can enjoy beauty and picnic
To places of interest in holidays coming soon!

Of all the seasons, cold season is very difficult
Indeed to bear whether it is long or short ever!
Other seasons we all can manage very well,
It seems, as they are all enjoyable and fine too!

Earth is always alternating in seasons to give
A sense of hot and cold taste bittersweet ever!

Ramesh T A
A Black Cat Story!

A black cat comes late at night,
Searches of milk pot only ever,
Drinks the pot of milk complete!

Black cat does not matter anything;
It does not care whether noise or not
As its attention is to finish milk full!

When people go and see what's there
They do not find anyone in the dark
Because it is black and not seen easily!

One day people waited to see him somehow;
They heard the rolling of pot lid late night;
When went there they found the black cat!

It sneaked behind some old material store;
After people went away it came to finish
Milk taking work and coolly disappeared!

Ramesh T A
A Black Economy!

The nexus among politicians, bureaucrats, security guards and businessmen
For a longtime has developed black economy spoiling white economy ever
By making corruption a part of work in all walks of life in such a way that all
All follow the culture of corruption as take it for granted for many decades!

Black money hunt, all politicians, now, harp on the same note as if they are
All paragons of virtue and soon the stashed money in foreign banks will be
Recovered for boosting the national economy to a superb level at the earliest
By making people believe that until then they have to pay taxes for recovery!

Without bringing even a single Paise from foreign banks and without caring
For price rise of all commodities, petroleum products, gold and silver, even
Though money is devalued by the world economic fluctuations due to many
Causes of wars in the Middle East and the disintegration of Britain from EU!

For making development of economy possible, extracting money from people
By imposing restriction in bank savings and bringing many unnecessarily
Into tax network by revising tax structure sans knowing its outcome for good
Or bad put all people into soup to the verge of embracing black money ever!

Ramesh T A
A Blend Intricate!

My life is entwined to poetry
Like song is blended with music,
Like dance steps move as to tune,
Like honey and milk blend sweet!

Without music song will not be sweet;
Without music dance can’t be performed;
Without me poetry may be there; but
Without poetry I will be nowhere!

Without life world may be there; but
Without world life won’t be there!
Without heaven or hell world may be there
But without world heaven or hell is nothing!

Intricately entwined flesh, bone and blood make
Man whole; but without them where is man?

Ramesh T A
A Blend Of Hues!

Transparent state
Is a blend of VIBGYOR hues
Of rainbow!

Ramesh T A
A Blessing In Disguise Festivals Is!

With summer holiday festivals and celebrations begin
To keep world people in joyful mood all round the year!
New Year, Valentine’s Day, Spring, Samba and Holi are
Main celebrations along with Festival of Lights in a year!

Festival of Harvest and with Autumn fruits all start in fun
For all to enjoy life with greetings and feasts for health!
Festivals are the time for all to gather in joy and gaiety
And a blessing in disguise to unite all in love and friendship!

With the modern developments of technology the culture
Of festivals has gone away leaving people in despair as
Joint families have ramified into nuclear families with
Further disintegration into individuals and lonely selves!

So, celebrations of festivals have become a necessity for all
To get together to cherish unity, love and friendship as humans!

Ramesh T A
A Blessing In Disguise!

Nature has responded 'yes' to my call for rain
It seems quite clear when it has rained at night!
The balance rain of South West monsoon falls
Sure when all have lost hope of rain for sometime!

After a very hot day cold type of rain is wonderful
Indeed to witness and feel while relaxing at night!
What a sea change and great solace loving Nature
Sans fail offers to make the imprint of drought nil!

Man jumps to conclusion without patience ever
And also seems to be ingratitude to merciful one
Forgetting all in enjoyment after suffering long!
Is it called human nature? I wonder very much!

Help of loving Nature at the critical moment is... a
Great blessing in disguise man fails to realise ever!

Ramesh T A
A Blessing Of Nature!

All day long cool climate prevailing over the town,
The grey Sky keeps all glossy to the verge of rain!
Almost the rain seems to come with the coolness
In such a way all go on as a smooth river in silence!

The full day in such a heavenly way goes on with the
Grey clouds filtering the heat of Summer to nowhere!
What a wonder is happening in the hot coastal town
Ever noted for hot climate all round the year nonstop!

The spell of South-West Monsoon is so swaying that
All feel like in a lotus land of some Arcadia somewhere
In an exotic world, where Sun rays are in veil all day long
Over taken by cool climate of the monsoon effect eminent!

Smoothly floating effect of the monsoon spell surely is a
Blessing of Nature well versed in the art of balancing act!

Ramesh T A
A Blind Luck!

Luck shines on
Persons of no wisdom
But not on wise!

Ramesh T A
A Blind Man's Search!

Lonely or in company unless I
Synchronize with the situation
How can I get peace and joy?

Even in company many are alone
Left to mend oneself somehow
In the world full of chaos ever...!

Education, wealth and profession
May boost one's stature in life;
But where can one get satisfaction?

Joy and peace are what make one
Get the satisfaction one is longing;
Will one get that in art or nature?

Man has forgotten art and nature
In the fast moving material world
And seeks asylum in sex as beast!

All feasts he enjoys in lust vanish
Leading him towards drug addiction
And ends life completely dissatisfied!

Modern way of life makes man mad
Hardening his heart lacking love....,
The source for all enjoyments in life!

Love of beauty drives one to art,
Nature and loveliness of fair sex
To achieve perfection to satisfaction.

Sans love of someone or something
How can one get joy, peace, fulfilment
In world life or spiritual satisfaction?

Boon to the world is Nature not being
Available anywhere in Universe except
As distant stars and galaxies as diamonds!
Being the part of Nature all how can
Ever forget and seek satisfaction as
blind men trying to visualize elephant?

Ramesh T A
A Blindly Falling In Love!

Some say they have fallen in love;
Some say they are blindly in love;
Some say love is hurting very much!
Love can’t make all fall, blind and hurt;
Love is kind, soft and gentle in human life
Making every world man a human being!

Without love no one will be brought up;
Without love nothing worthwhile done;
Without love life cannot go on as of now!
Nature has destined love to be here
And life has evolved out of love here!
This world is the place for love and life!

So, whether love is amusing or hurting
None can escape blindly falling in love!

Ramesh T A
A Bliss Endless In Mystic Mood!

Ten year Trojan war left Greek soldiers with love curse!
Curse of love could be cured only by love realised he
And the first blood soldier decided to pacify all by love
As redemption for the killings in that war for rest of life!

Born as a sailor now he is exploring the secrets of sea;
The new discoveries he has been recording regularly.
In a fog covered island he has landed at last to see inside
The life and activities of the people noted for wise culture.

He has never seen people greeting with garland of flowers;
He is freshened by their smile and sweet gestures of love!
Giving his choicest gems of sea to them he has entered
A beautiful paradise for relaxing in free mood accepting all!

Gentle breeze, fine smelling flowers and sweet fruits exotic
Are elating him to the best of mood and tames him as divine!
Noticing incredible change on him his feelings go out dizzy
To a mystic state only to enjoy bliss endless never before!

Ramesh T A
A Bliss Forever!

Lovers entwined as creepers explore each other!
The world is in turmoil and terrorists explode daily;
But lovers forget all in exploration of love within
Like one browsing computer to explore inner space,
Like the astronauts explore Outer Space for life!

Between violence and sex there is no difference
As there is noting fair and foul in war and love!
Terrorists have no boundaries and concern for all!
Lovers too have no limit and concern for anything!
Of the two which is better? That is the question!

Terrorists do anything aiming paradise after death,
A nonsensical notion they are brainwashed long!
But lovers do anything aiming bliss only as goal
Which they achieve forever as love is immortal!

Ramesh T A
A Bliss Invaluable In Life!

When freely walking on mountain plateau
I see only sky above and mountains below!
Philosophic ideas flow in poetic mood free
Making bliss within reach for hours together!

Such a blissful moment in life is great heaven
One can enjoy in loneliness only in Nature ever!
The ultimate benefit of birth lies in this state
Of reverie rare to find nowadays in the fast world!

Many long for freedom to enjoy such bliss
Which is not within the reach of many forever!
Not knowing Nature and the significance of life
Many are carried away by material benefit only!

Disillusioned after sometime in life many find
What they have achieved is nothing before this!

Ramesh T A
A Bliss Of Aesthetic Pleasure!

The vast colourful Sky and the deep blue ocean are
Eternal beauty that absorbs heart, mind and soul!

Green leaves, colourful flowers and singing birds
 Beautifying green lawns and pastures are lovely...!

Beautifully dancing dames are lovely, when they sing
 Songs of love to entertain the audience seeking change!

All these beautiful things of life, when poetry expresses in
Exquisite verse, simply transports one to a world of heaven!

I love Nature, humans and poetry in world life;
For, they are the source of inspiration and energy!

I love such beautiful things I see everywhere;
For, beauty is the reflection of imminent God!

Aesthetic pleasure is the beginning of intellectual
As well as spiritual bliss one can enjoy ever here!

Ramesh T A
A Blissful Romantic Life!

Life means it should be free, joyful and peaceful ever; Where the life has love and companionship, there culture And benefit all can enjoy with happiness and peace sure!

The wise sayings of all ages say these wise words for Life to be lived in this world with peace, love and joy; For, a good life is inspired by love and guided by truth!

Such a life where can one live in this material world full Of uncertainty, competition, pollution, diseases and wars Besides hunger, poverty and unemployment still persisting?

Romantic poets, philosophers, naturists and simple life Loving intellectuals and wise men prefer living in harmony With Nature in farms nearby towns and cities in the world!

This romantic life is ever spiritually blissful as this is Where peace of mind and healthy life can be enjoyed forever!

Ramesh T A
A Blissful State Only A Few Enjoy!

Nature before the times of dawn and dusk are awesome;
All beings flying and walking and swimming stay still
Respecting majestic Sun's appearance and disappearance!

This is a great wonder happening everyday on the Earth
Offering a greatest feast to the lovers of Nature to watch
And witness all things of Nature so beautiful and wonderful!

Tiny colourful flowers interspersed with green grass pasture,
The sky with multiple hues making magic fast for the eyes' joy
And many more myriad of things of beauty amaze us all....!

The grandeur of God's creation, Nature is so wonderful that
All things of its great wonders can't be photographed and
Described in words of verse of any expert ever sure I feel here!

What a wonder so many neglect from the birth to death to
Have a vision mystic to attain a blissful state only a few enjoy!

Ramesh T A
A Blissful Thought Of Heaven!

Heaven of transparent clouds cover full Moon tonight
Drowning me in dreaming thoughts of glossy white!

Fragrance of choicest flowers and melodious music
Make me dance among freshly blossoming flowers
Like the butter fly flies from flower to flower tasting
Nectar to disseminate love everywhere to enjoy bliss!

Without the dance of heavenly damsels it is incomplete;
The Stars of heaven are the dancing queens of Universe
Entertaining the lonesome poets and philosophers ever!

The spiraling nebula of Milky Way provides spiral stairs
To go down the heaven to the misty snow mountains of
World of paradise full of hills and valleys with water falls
Growing into streams and rivers to mingle with the ocean!

Life and love can be seen romantically flourishing here only
For birds, animals and humans to survive eternally long!

The map of heaven down to the Earth the soul travels
And returns after becoming perfect to the abode of heaven!
Until then how many troubles and tribulations all face
To get a clean chit and a ticket to the heaven all long, long!

Ramesh T A
A Blissful Work Of Dedication Only Gives Spiritual Satisfaction!

Work of dedication involves devotion above all interest, desire and dreams ever; Feeling of heart more than intellect of mind drives one to do all with dedication; Love of work makes one sacrifice everything to achieve one's aspiration with full Dedication sans expecting any economic benefit but only spiritual satisfaction!

This happens to one who has been affected by all against one's deep interest in life; Nothing in the world seems to give one the joy and peace one needs other than the Work of dedication one has involved with full devotion unaffected by all criticisms As what one has taken up for execution is more than one's self or life in the world!

Unless one does a thing of joy with dedication, one cannot get the satisfaction at all Though one may get wealth, power and status in world life subduing one's honour and Dignity in the decent work of deep interest that nothing can bring so much fulfilment Ever as that cannot be understood by all like the love one has on certain thing sure!

A thing of one's heart that has directed one to do certain thing with dedication is One's own special aspect that makes one feel elated to highest level as a mystic has Attained divinity by meditation and mysticism in the all pervading Nature that not Merely gives pleasure but a divine bliss in one's communion with the divine spirit!

Ramesh T A
A Blossoming Of Love!

He wonders why they adjust their dress seeing him
And try to be at a safe spot when speaking with him
Is it due to fear or humbleness or complex or attraction?

Especially beautiful ladies feel so immediately seeing him;
Is it due to his body attraction or cool personality or what?
He wonders thinking over them in his leisure time later!

Thereafter his observation becomes sharp seeing them again;
Fair genders give a special courtesy and care for him later;
Is it due to internal love or high respect or magnetic attraction?

Seeing fair faces thereafter he too feels same sort of sensation;
Dreams of them disturb often leading to imagination romantic
Bringing new kind of sensuousness quite unusual at late age...!

For all these kinds of sensations festival of colours brings chance
To come closer to have fun in group gathering exchanging
Spray of colour waters and seeing eye to eye in close range.....!

Joy between both genders knows no bound in ecstasy fresh...
Lasting long in the company of friends and relatives quite large
Thanks to boon of festival of colours being celebrated in society!

Fun and dance electrifying in moments of close encounters
And touches thereby taking both to land of fantasy as in dreams
Nothing can be so thrilling and sensational and enchanting in life!

Will the sensation unique continue after the festival of colours ends?
Will it bring better chances thereafter under some other pretexts....?
Hearts pierced by cupid's arrows long for encounters close forever.....!

Ramesh T A
A Blow Cold And Hot!

Heavy December wind looks will lift any to sky!
Take off of plane is easier with this powerful wind!
Dreams of Superman used to haunt me often!
Fantasy seems to become reality with this lift-up!

What a chill wind with what a force to face ever!
Waves rise high making known the presence of sea!
Other days feel all that there's no sea but a river only!
Now only sea and wind show themselves off well....1

After the storm calm comes sure but now mists come!
This is the December climate freezing all soon enough!
Days with dawn come gloriously while watering garden!
All day goes on with warmth so nice and tireless daily!

Warmth of winter days and cold nights blow hot and cold
Like the relief we get after a devastating storm these days..!

Ramesh T A
A Blowing Of Conch!

Is there any use
Blowing a conch to
Deaf ears?

Ramesh T A
A Blue Diamond!

Safire blue is the lucky stone of zodiac Virgo;
Azure blue is the colour of my favourite too!
By a rare coincidence it is my lucky colour too
Though I don’t believe in horoscope and number!

Also by a rare coincidence my Lord Krishna
And Mother Mary too are attributed to blue!
Sky is blue and Sea is also blue in colour!
Uniquely they are all rare blue diamonds!

Men may come and men may go in world life
But diamonds are forever lingering on here!
That too a blue diamond is rare precious stone
Lucky for the critical and perfection minded men!

High and broad minded men with heart of gold
Belong to this rare blue diamond category here!
Best thoughts, words and deeds are part of culture
That makes their life and nature part of literature!

Ramesh T A
A Blue God!

The wide open sky everywhere is blue in colour;
The deep oceans of the world are blue in colour;
The all pervading spirit activating all is also blue;
The blue Lord is the God preserving all forever;
The blue God we all loving call as Lord Krishna!

Bunsen burner flame has blue luminous flame in
Similar to a design peacock has in its feather!
The soul of everyone is like a flame inside heart
Controlled by the brain similar to the Universe
As the Universe and Stars are blue God and souls!

A peacock feather on the crown He appears majestic;
A flute He has to blow it to put all in dizzy rapture;
The song of the blue God is a conclusive view of life
For all to follow as He is friend, philosopher and guide
To lead mankind to success to enjoy divine bliss sure!

Ramesh T A
A Blue Love!

As it's deep as blue ocean
And also it's as wide as blue Sky
Love is always blue!

Ramesh T A
A Blue Lunar Eclipse Coming!

Eclipse falling on blue Moon is rare to notice;
Blue lunar eclipse is a rare natural phenomenon
To witness day after tomorrow after 150 years.!

Orthodox religionists close temples on such times
To safeguard purity of holy shrines due to this
Kind of rare natural happening once in a while...!

Sudden cover to Sun's rays falling on things of
Earth it is believed will affect in some way or
Other their naturalness and for humans health...!

As far as Solar eclipse is concerned, that may be
Taken as a true fact, but as far as Lunar eclipse
Is concerned, it's like clouds covering the Moon!

For Nature lovers, it is an interesting natural
Incidence to witness after 150 years in lifetime!

Ramesh T A
A Blue Moon!

Full Moon comes never twice in a month;
If it comes, the second one is blue Moon!
Rare phenomenon of Nature, we call it ever.

Calendar is created by us but not by Nature;
Nature does exactly what it has to according to Laws of Nature without fail in the Universe...!

According to our system, blue Moon has come Into existence from the day Calendar has come To function in the daily business of the world!

Blue Moon is something rare so to say for all Our references and talking about something rare, We make use of that phrase in our daily life ever!

Rare things concocted by man are never really so; But when it happens in Nature, it is really rare sure!

Ramesh T A
A Blue Rose!

Genetically modified flower blue rose is unique!
Rose colour gives hope of future by its very look;
Red rose is unique among flowers as it is queen
In the flower world nobody can deny having it!

Yellow rose shines bright in the long green garden
Full of many trees and other flower plants broad!
Pink rose flowers are many everywhere as border
Mainly in the botanical garden of hill stations here!

Blue rose, a new addition in the flower kingdom
Among lavender, blue bells and rare kurinjis of
Light blue, violet and ink blue colours everywhere
Stands majestic and having healing touch to all!

Rose is rose by whatever name it is called and also
Rose is rose by whatever colour it is produced ever!

Ramesh T A
A Blue Sky For Relief!

Blue hue of sky reminds me of pastoral Lord I pray! 
Bulging crisis diminishes to naught at critical time
Whenever I have sought Him looking at blue sky!

This kind of act has saved me many a time from all
Kinds of formidably enlarging crisis at the last hour
Greatly to my greatest surprise reinforcing my faith!

But what a great suspense to bear while tension brews
Boiling inside with foam full of bubbles posing big fright
As waves rising high and high only to subside at shore!

This tension and serendipity alternates since longtime
Making me pray to my blue shepherd never let down
Though the problems and pleasures oscillate in life...

North or South, East or West romantic pastoral Lord's
Blue sky is the resort ever to heave a sigh of relief in life!

Ramesh T A
A Blue Water World!

Blue water world?
But it's a reflection of blue Sky!

In this water world
Many ships of treasure are in!

Titanic ship is sure
Still in this world for 100 years!

Many treasures are
Hidden under caves of ocean!

Trenches are deep
And deeper than Everest height!

Space blue is wonder!
But ocean blue is still a secret!

Ramesh T A
A Blunder Website!

A website functions
With full of blunders ever
Due to disorder!

Ramesh T A
A Blush Of High Passion!

Fragrance of red rose reveals her inner passion;
Who can't succumb to the scent of love ever?
With great pride red rose hides her passion
But her blushes show her longing for him...!

Only smiles come when he thinks of her ever;
Yet, he doesn't show of his great love for her!
But to know his inner heart she spreads her scent
Far and wide not only to attract him but all others!

Like a flying fish he always escapes uncaught
And she has to deal with other unwanted fish
Safely lying in the net only waiting to be thrown
Again into the great sea of life full of longings...!

Can the red rose have union with her lover bee
Hovering over flowers intoxicated by honey of
Sweet kisses kindling jealousy to the heart of rose
Blushing still more than before with passion high..!

Ramesh T A
A Blush Of Winter!

Cold wind blows rising temperature of body!
Lady need not blush seeing her lover yonder!
Nature is the best cover to help her feel so...!

Tip top condition of stature kindles feelings
Making lover roam in dream land fantasy...!
Night without end love libido looms large...!

Axe lotion advertisement lady feels happening
Making her irresistible as in dreams frank ever!
Will the lover know her longing before night ends?

Waiting for her romantic lover she sings songs blue
Long enough as if heaving a sigh of relief as in muse
Great symphony of ballet in gossamer dress as angel!

Telepathically hero knows on his return journey....!
But will the night wait that long till he returns home?

Ramesh T A
A Bond And Beatles!

In the 60s I enjoyed
Bond movies, Beatles music
But now nothing!

Ramesh T A
A Bond Forever!

Latest James Bond movie I have seen;  
Task of Bond is ever becoming tougher!  
Enemy within and out are formidable!

Musketeers, Sherlock Holmes and....  
Iron-man and Bond are much needed  
To tackle atrocities of world terrorists!

World is moving towards turmoils ever  
Making knots very difficult to unlock  
And bring hope and peace to all here...!

Disrupting normal way of life and peace  
The villains ever indulge to show power  
In all walks of life making use of civilisation!

Works of Bond seem to continue serially  
Increasing interest to fans and friends ever!

Ramesh T A
A Bondage Of Love!

Lovers of the world are prisoners of love in life!
Independence of individuals are lost by love
As shackles of love cannot be shaken off surely;
This willing bondage of love moves the world ever!

Cause of sufferings of mankind is due to desire;
Romance lies in the love desire endless in life,
Drives the time of man from time immemorial and
Mankind moves on in love through thick and thin!

Bondage of love keeps family united forever in life
Making it impossible to cut the fetter of love ever
For life to go on meaningfully since the beginning
Till the end of life in the world for all living species!

Bondage of love is the design created by Nature and
Nothing can change this setting till the end of time!

Ramesh T A
A Book Of My Dream!

A book of my dream I wrote;
Waited long to publish it well.
World publisher accepted it;
A poetry book of 68 poems
Came out without much editing!
Child delivery trauma of a mother
It was for me to see the book!
At last the book was launched;
I too had some free copies
For distributing them to friends;
All appreciated the book much!
Some years passed in sales;
No royalty came to me long;
Company liquidated in debt!

Ramesh T A
A Book Time Machine!

Books are life bloods of master spirits!
They are the permanent records for all
To travel in time as in a Time machine!

Past, present and future one can go
If one wishes to explore and know
About all things true and real ever!

Reading makes one ever a ready man;
Conference makes one a confident one;
But writing books makes one exact man!

Books are the time-machines of writers
Like poets, philosophers, historians,
Scientists and littérateurs of the world!

This book time machine makes one
A complete man to face all challenges!

Ramesh T A
A Boon Feasibility Of Fast Dissemination Of Ideas!

Computer is a great boon for authors, writers and poets
To disseminate best ideas to the world fast to inspire,
Instruct and guide media and all on the right direction
To go by giving timely information and clarification...!

Due to lack of such a wonderful facility, many best ideas
Fell on deaf ears not being regularly published on print
Media such as newspapers, magazines and such books people
Usually got access to for knowing world and life around..!

Now information and ideas on all matters are coming soon
For the views of people and their comments too reach the
Authors, writers and poets as feed back and facilitating
Generation of new ideas and matters necessary to guide all!

Computers and smart phones have become a necessity for all
Whether one is a student or professional or elder and so on!

Ramesh T A
A Boon Nature Is For Man!

Man has to learn great lessons from not books but Nature!
Education provides just the fundamentals and foundation,
Basing which he has to build world learning from Nature.
So, he has to go out of the portals of education to Nature!

Nature is everywhere and man is part of Nature forever!
If he enjoys animal pleasure or aesthetic pleasure or
If he intellectually explores truth or mystically enjoys bliss,
If he digs or builds using Earth, it is one and the same!

Nature is living scientific art man has to explore the truth
With his heart, mind and soul through woman, art, Nature!
Five elements of Nature like air, fire, water, land and space
Man is made up of and is everywhere he has to explore!

His exploration will help him how to transform himself to spirit
And mingle himself with the all pervading spirit of bliss in Nature!

Ramesh T A
A Boon Of Freedom!

Who has really the boon of freedom in the world?
Plants, animals, men or birds want freedom forever;
Peace and happiness everybody loves to enjoy here.
The joy everyone enjoys is not ready to sacrifice ever;
The strongest dominates to maintain its freedom ever.
Survival depends upon the favourable situation only;
Life goes on for all living beings big or small somehow.
Living on land, swimming on sea and flying in air there’s
Survival of many beings in the world striving for satiation.
Land survivors cannot live in the sea and fly in the air;
Survivors of both on land and sea cannot fly in the sky;
Living on land man can survive on sea but not in the sky;
Of all the creatures only sea gulls and albatross survive
On land, sea and sky as they only have boon of freedom!

Ramesh T A
A Boon Of Men!

Health and happiness are real wealth of life in the world. Only love and freedom give liberty and happiness in life! Dress and ornaments give protection and status only here; But can be destroyed by fire, floods or by robbery anytime!

Man is born free, wants to be free without any attachments; This nature can be noted in birds, animals and small children. Children remove away shoes and caps preferring to be free; Caged bird though gets food feels happy only when released!

A boon of men is real wealth in world life got only from Nature! Man becomes materialistic brainwashed by habits and custom; Economic thinking lacking social thinking makes him materialist. This man should realise to regain his real wealth by experience.

Food, freedom, love and happiness man can get by free nature And utilisation of nature sans destruction gives him real liberty!

Ramesh T A
A Boon Of Mind!

We take good decision after having some experience in life;  
Just knowledge and observation of others activities are not  
Going to help much to have a correct notion of matters...;  
Wisdom is needed to make correct decision to solve problem!

Knowledge and experience in life only can give wisdom needed;  
Intelligence may be useful to understand matter faster sure;  
But only wisdom helps to take proper decision at critical time  
When there is not much time to think, understand and decide!

Intellectual thinking develops true knowledge based on facts  
Minutely gathered to know what is what now and then in life;  
Such matters noted down and that have settled deep in mind  
Really helps to increase the power of intuition to decide fast!

Knowledge, intellect, wisdom and intuition are a boon of mind  
That makes one a powerful person to solve anything ever in life!

Ramesh T A
A Boon Poetry Is!

Life is like a dream

Nothing we can take away after death

But our deeds live to tell about us

They make us immortal in minds

Poetry is such a great boon!

Ramesh T A
A Boon To Boost!

Walking gives great relief everyday
From unwanted bickering of men!
Not only for health and mind ever
But also it's an escape from nuisance!

A day spent sans walk seems to be a loss
I feel, for, I miss a chance to be in Nature!
Spirit within Nature rejuvenates spirit in me
As the main power recharges battery cells!

Not realizing this natural bliss many miss
Wonderful boon to boost one's nature
Spending time in mundane things waste we
Precious life long in this world of paradise!

Heaven or hell is within us to attain ever
Not a separate entity far away somewhere!

Ramesh T A
A Boon Website!

Usual grind of poems are well going on
And comments too go on full swing here!
Winter woes and rain stories abound
Making all know the status of places here!

Poems say much more deep stories here
Than all news we see on TV or Facebook!
Poems tell tales like novels and articles
Appearing in newspapers too for all to muse!

Poemhunter entices anyone to write poems
Making one a better poet than before ever!
Nobody can willingly quit this site I am sure
Unless one is disappointed expecting big....!

With what we have got we should be satisfied
And many more boons will surely come soon!

Ramesh T A
A Boon!

Nature is a great
Boon to explore truth
To be a spirit bliss!

Ramesh T A
A Boosting Effect Of Festival!

Colourful bonfires and sound of crackers fill the town!
With new dresses and smiling faces people say greetings
of joy, peace and prosperity to each and every friend!

All have a wonderful time this year to celebrate lights festival!
Despite inflation, monsoon failure and droughts they smile
With the hope that evils will fly away by burning crackers!

Spiral nebulae and boosting volcanic sparklers rent up the air
Making living day lights in the dark of night everywhere
And inspire kids, men and women and old people with joy!

Giving sweets to friends and neighbours exchange greetings;
Smiles, laughter and joyful singing and dancing make all
Enthusiastic, zealous and jubilant through out the day!

Festivals change the mood of melancholy to mirthfulness
Both rich and poor creating unity and integrity of mind again!

Ramesh T A
A Bore

Subjects non-interesting

Stretched beyond limit sans reason

Surely create monotony!

Ramesh T A
A Boredom In Life!

Boredom in life nobody can escape sometime or other! It comes due to endless monotony of work all day long! It is also due to drudgery of life with no way of escape! Also, it is due to donkey like working life dry as blanket!

Change is what needed to overcome boredom in life; That is why excursions and entertainments for relaxation Many prefer in between long missions of a project work So as to deal with all odds to achieve laurels in the world!

Out of jealousy too experts’ progress is hampered often And they are made to drudge to get to their lost position! They feel fed up with the duty they do under much pressure; For them relaxation to recover mood is music or long walk!

Dance, drama or cinema also help much to overcome boredom; But without mental adjustment by prayer or meditation no one Can fully regain mental poise to do constructive work to gain Glory of life that can be got by fulfilling the purpose of life here!

Ramesh T A
A Born For Friendship Being!

From childhood on, close, distant relatives love him;
His calm, gentle, beautiful and smart behaviour and
Trouble-less cooperation to all have earned him Good-
Will from all quarters except the jealousy ones ever...!

All mothers wanted to have a child like him for long.....
And some have even given his name to their children....!
Neighbouring mothers advise their children to be like him
And scold their children to behave and develop like him!

All these things have made him a motive for others, a model
For others to follow, a benchmark for development, so to say!
Due to this kind of trust on him, it has increased competition
Among youngsters and developed jealousy and envy on him!

The adamant ones not able to follow him have hated him and
Disliked so much that they never like to see him appreciated
And always have tried to harm him even after growing up.....
Not realizing that he is a harmless being born for friendship..!

Ramesh T A
A Born Poet Is Real!

I don't understand the poets,
Who spoil the readers of poets!
Can the readers know real poets?
Can they understand real poetry?

I find pseudo poets having chances
For displaying their fancies on line!
They ask for the supports of experts
Who encourage them out of pity!

Too many lies make a thing true;
This they achieve in poetry too!
Their contacts and supports help
Such poets flourish with real ones!

Poets cannot be made like others;
Poets are born with the gift of God!

Ramesh T A
A Bottom 500!

Top 500 poets
Are always changing places
What about bottom 500?

Ramesh T A
A Bouncing Calamity Colossus!

Floods, floods, floods everywhere cause havoc unbearable!
Ghostly rain lashes out for hours together submerging all
A century after, it’s said, on a scale unprecedented in history!
After long period of droughts such sudden rain is colossus!
Damages estimated run to thousands of dollars so sudden!

For all people everywhere nations are many but world is one;
Oceans are many but all of them are connected as one world;
If typhoons and earthquakes attack Philippines and Indonesia;
Torrential rains and flash floods attack other nations in Asia!
For, all are connected to one world whether havoc or wars!

Typhoon or Tsunami or terrorism affects one place of the world;
Its after effects affect other parts of the world also as disease!
No one can escape and go Scot free as all are interlinked here;
For, the ball once hits one wall will bounce to hit all walls of globe!

Ramesh T A
A Bouquet And Brick Bat!

Poetry is not only
Just a bouquet but also
A brick bat!

Ramesh T A
A Bouquet And Brickbat Nature Is!

Nature is beautiful, wonderful and glorious!  
Morning begins with Sunrise gorgeously!  
Birds begin their chirpings in search of food!  
Squirrels all around making noise play joyfully!

The atmosphere is so joyful I get up for the day;  
Washing my face and body I go to have a cup of tea;  
Sit comfortably sipping the lukewarm beverage and  
Turn through pages of newspaper to know world!

Storms in Europe at a speed of 200 km lash through  
France, Germany, Spain and Portugal to the surprise  
Of all at this time of the year quite unusual to see  
And the Chile earthquake and tsunamis another puzzle!

One side beautiful and another side horrible Nature is  
Beautiful bouquet and brickbat to mankind in the world!

Ramesh T A
A Bouquet Of Cactus!

Bouquet of cactus I have received
From jealousy partners for my work!
Sleeping partners in business enjoy
All benefits but criticize much ever!

Joint ventures with negative hearts
Result in bitter guards to consume!
Victories of ventures elate them high
But continuous victories are nil ever!

Developing business is fostering a tree;
It is easy to cut down tree after growth
For the immediate benefit of partners.
But can anyone grow tree instantly ever?

Only benefits but not brickbats they bear
As long as enjoying good time in company!
When the time is bad for better yield how
Can we enjoy delicious food selling farms?

Ramesh T A
A Bouquet Of Flowers!

So many fine ideas

Said in a nutshell long

Make a bouquet of flowers

With colours and fragrance

Called Poetry unique!

Ramesh T A
A Bovine Life!

Four cows come daily before my house;
They take leaves and left over foods well
Near the junk box and bask on the road side.
Such cows of the Temple are loved by all!

These bovine creatures are harmless to all;
They are trouble-less to anyone unlike dogs;
They lie on the road side like wise sages
Musing over the Lord for attaining moksha!

There are men like bovine creatures too here
Basking on mounted resting place before house
After taking sumptuous meal chewing betel leaves
For hours together as that is their pastime in life!

Basking in Nature musing on divine spirit everywhere
One can attain bliss eternal better than heaven here!
But what to say about the basking bovine creatures
Among men wasting whole life without any progress!

Ramesh T A
A Brewing Storm!

Likes and dislikes are common in human nature
Like calm and wild animals are in the forest sure!
Coexistence is the way of living both in the forest
And in the world as well being followed since long!

For coexistence to be effect, tolerance, a negative
Virtue is the best policy to follow to live in peace!
Domination of some is actually foolish now in
The civilized world we all have developed so long!

Sans rationality and tolerance, coexistence in the
World is not possible to have peaceful life ever...!
To set-right the situation, greater efforts are needed
To maintain calm and tolerance ignoring intolerance!

Long held up feelings are like brewing storm or the
Volcano waiting to erupt any-time to normalcy soon!

Ramesh T A
A Bridge Of Knowledge!

There is a vast difference between
Man of one book sans change in life
And man of important books of fame!

It is like the difference between broad
Mind and narrow mind, culture and
Rawness and GK and superstitious belief!

The world of frog in the well is narrow,
Whereas the world of free bird is broad
Due to opportunities of their existence!

Big gap between character and personality
Is narrowed by the bridge of knowledge as
Knowledge is power and ignorance is sin...!

Nature is the foundation upon which great
Things can be created by proper nurture...!

Ramesh T A
A Brief Life Only For The Loving Souls!

This world is for the violent and miserable only
And that world is for the loving and good souls!
This world is for filtering out loving from violent
And sending them to the other world for good!

The loving souls who loved me died soon here!
The pain due to loss of precious lovers is eternal.
The tragedy of loving souls abounds in literature;
But their deeds enlighten us and inspire to love!

I am left alone as a lone tree in a desert of no fun!
Violence, hatred, jealousy and anger rock much ever;
Fed up with bitter facts I feel to console in poems;
But in poetry world also love is not real, mere words!

Why has God created loving souls with short span?
Is the world a testing lab to filter out loving souls?

Ramesh T A
A Brief Meet Of Poets Leaving Legacy For The World!

It is true that friends of the same feather flock together; Especially if they happen to be poets, they do so sure, When such an opportunity comes in world life ever...!

Alliterative poets and extempore poets too meet, though They may flourish apart as sky and sea anywhere ever, On a meet of world poets on the occasion of a forum sure!

Exchange of ideas brings yet closer to be friends of a group Apart from the general meeting together on that occasion To flourish further in a lasting friendship on poetic ventures!

What a pleasure to walk, talk and work as never before on A world no one can interfere and intervene to put an end to All their cementing of friendship for an immortal legacy....!

Immortality the poets of great calibre is sure to attain by their Great poetry as a legacy for the world though their meet is brief!

Ramesh T A
A Brief Mystical Note!

A sudden down pour of rain with lightning and thunders
Has left some clouds forming everyday giving the doubts
Whether rain will come or not the torrid situation continues
Trapping heat of the day with heat waves even in the even!

Due to previous day’s rain filling ponds and wells here invite
Birds and small animals to drink water with hope and relief!
Of them whistling thrush bird’s long musical note fills the air
Giving joyful mood before the greenhouse effect tires all day!

Moon thro’ the interspersed clouds produces mystical mood
In the evening when flute vendor plays a moving musical note
That transports to the heavenly region of divine bliss in the
Cool breeze slowly changing the situation to relieve exhaustion!

In this blessed mystical mood the bliss enjoyed cannot be
So easily let loose though time passes without our knowledge!

Ramesh T A
A Brief Non-Violence Message!

With love
Truth and nonviolence Gandhi used
To win wars!

Without truth
Weapons are used by force
Of no use!

Battles continue
Without scope for peace and success
Now everywhere!

Force cannot win
What can be won by love
Anywhere here!

Nonviolence is
The force of love truly
To set right all!

Ramesh T A
A Brief Note On Marriage!

Flute music is coming when I am writing this poem;  
The sweet music is being rendered by a flute vendor!  
Flute music reminds all of the hero of Bhagavad-Gita  
Who proposed the policy of nonattachment in life!

Marriages are fixed in heaven many say since long time  
But why are some going for divorces after the marriage?  
Love or arranged marriages should be based on love;  
But too much attachment finding faults ends in divorces!

Nothing is perfect in the world let alone love and marriage;  
What is more important is love to be cherished as humans  
So that relations would last longer making happier life here;  
Critically seeing differences one cannot find peace of mind.

Bond of marriages is supposed to last till the end of life  
But not to suffer by marriages till the end of life in the world!

Ramesh T A
A Brief Note On Meltdown Of Love!

Melting like wax or snow many say of love
Are they loving the body or mind or soul?
They describe love only about physique;
Do they see the heart within the body?
Do they see the beauty of the mind within?
Do they know the bliss residing within soul?
Many questions crop up when I think of love.
Do you think of it and have a clear knowledge?
If you have you may know how to love here!

Ramesh T A
A Brief Note On Nine And One Nights!

Knowledge, wealth and power are needed to go higher
In life and work of the world as long as one lives here!
The consolidation of the three makes one perfect in life
To think, say and work on ideas for the well being of all!

To highlight this philosophy Nine and One Nights Festival
Dwells deep on the theme of dharma winning over adharma!
With this festival winter begins for man to make efforts
Necessary to face cold and prepare strong for New Year!

Agriculture, industries and business drive the wheel of life
To move mankind higher and higher to peaceful prosperity!
So, the festive occasion engages all walks of life to celebrate
In unity, joy and fun the significance of success by unity only!

Cooperation and coordination of all make matters burden less
To carry out all tasks so with ease and efficiency enriching joy!

Ramesh T A
A Brief Note To Friend

With lip service they foreget friend till need arises!
What kind of friends are they to their good friend?
What is the mark of a friend do they have in mind?
Inspiration of a friend makes them achieve laurels;
Reciprocation is the gratitude they have to show.
In times of need they want the friend to do deeds;
But in the need of deeds to be done they fly away!
They don't appreciate but mislead on many matters;
This is the lip service they have learnt to do to a friend!
Jealousy, inferiority complex, hypocrisy and immaturity-
These are the things that describe them as a whole!
Any achievements made cannot be informed to them;
For, it is like casting precious pearls before the swines!
Can the asses know the value of spade ace in cards?

Ramesh T A
A Brief Recess Of Life!

Dancing beautifully as peacock while singing lovely
As the free nightingale does, these beauties are
Really angels of heaven on the Earth in the human form!

Smiling as they are dancing, they entertain all with
Cheers to be happy to enjoy their favourite snacks
Forgetting all tensions and woes of the world sure!

Movements of the dancing dames tease them with sensous
Pleasure in such a way that they all forget the passage
Of time and where they are sitting in this world sure!

after the first session of dance is over only, they all
Come to senses and hurriedly pay the bill and leave the
Dance hall of the restaurant and go rushing to catch cab!

after such a romantic song and dance all again become
Indifferent as usual in their official mechanical work!

Ramesh T A
A Brief Way To Achieve Success Sure!

Without work nothing can be done;
Without knowing, no work can be done.
All developments depend on work;
No work can be done without pain!
For, there can’t be gain without pain.
Pleasure can’t be enjoyed without pain;
Pain is the first step to pleasure ever.
Trekking the mountain starts with jerks;
Careful steps to the top lead to success;
Success is the top peak of the mountain.
Maintaining top level is next work;
Without maintaining top position
Success cannot be retained forever.
This is the story to achieve success sure!

Ramesh T A
A Bright And White Fantasy!

Blue sea everywhere along with the shore of brown sand long
With cloudless blue sky and the blinding brightness of sun
The island like beach resort outside the city is a really
Calm and silent place to spend sometime in the holiday sure!

No usual restaurant and hotels of metro city can be seen here
As everything is provided by the resort management all the days;
Time has no place to play in this remote area sure and days spent
Sans the necessary of time is something to remember now here..!

Yes, same sort of thing has happened in my life, when I had a
Mild chest pain and admitted in the chest clinic sometime back;
After complete recovery, I came to know of time and day of week
As the silence, neatness and cleanliness were so perfect there!

No one knows the time and day unless indicated by wall clock
And calendar that are not found anywhere there in white fantasy!

Ramesh T A
A Bright Poetry Time!

Imagination, dreams and vision give hope and life
Despite harsh realities, difficulties affect all in life!
Transformations, changes and new order happen
Mainly due to visions and dreams inspiring work!

Dreams console when things are impossible to do
And develop hope towards gaining ideas from life;
Such ideas later help to achieve dreams cherished.
Poets, dreamers and leaders keep alive such hopes!

First poets used imagination to create all from nothing!
Now poets criticise life and create new ideas for life
That develops mind towards better world order by all
And have captured the place of novelists and writers!

In the modern materialistic world no one finds time
To read articles, stories and novels to pass time
Unless they are useful and helpful for their promotion;
There comes poetry to satisfy such needs of many men!

Compression of information by ideas useful is the job
Poetry does by conversational and journalistic language
With musical words full of ideas of meaning and message
That reaches quicker than elaborate articles of magazines!

Ramesh T A
A Brindhawan Dream!

Brindhawan garden comes to my dreams often!
Krishna and gopikas played pastoral fun there!
Can those times return once again, we cherish?

Dancing round the Lord dames dreamt dreams
Endless in bliss unimaginable by mundane men!
Blissful dreams kept them ever enthusiastic and
Did all kinds of jobs without fatigue or monotony!

Pastoral shepherd with flute music playing on
Led the cattle to graze green grass till evening!

Thereby did quite a lot of fun for all to entertain
And immerse them in philosophy of non-attachment
To live unattached ever by any woes of the world
That affected them as passing clouds now and then!

Brindhawan dreams how can anyone forget ever?

Ramesh T A
A Broad Nature Of Love

Nature has programmed lust for all to lead romantic life;
Lust cannot be overcome unless controlled by strong mind.
War between instinct and intellect go on till the end of life;
Lust weakens to dimness but love brightens to divinity!

Love resides where mind is beautiful and heart broad as sky!
Beauty, music and art foster love and enrich the world in joy.
As Nature love grows the more it gives to others in world action;
Love captures and rules all however clever intellect may work!

Soothing effect of love recharges the soul to survive successfully;
Power of love depends on maturity, beauty and breadth of heart.
More than saying, serving in action love wins the hearts of all;
Love with knowledge perfects all to enjoy freedom, joy and peace!

Beauty of mind, breadth of heart and bliss of spirit make love divine;
A divine life one lives in this world under the influence of divine love!

Ramesh T A
A Bubble Life!

World is just a bubble in the water of Universe
Among many such bubbles in expanding Sky...!
Life span of each one is predestined already...;
Yet forgetting this many live as if it is eternal!

Body in which soul imprisoned itself is time bound;
Even this perishable commodity forgets he often!
Doubts he even the soul to be present in the body
Carried away by bodily pleasure, material comforts!

Once the body deteriorates, he cries for the loss
And craves to live longer longing for more pleasure
That is not eternal but only divine bliss of soul
Can give eternal pleasure and peace by love real!

Illusion and reality all should realize and live
To enjoy love, joy and peace even in the bubble!

Ramesh T A
A Bubble Of Dreams!

Dreams come often

But disappear at dawn sans imprint

As water bubbles do!

Ramesh T A
A Bubble Of Life!

Some like calm atmosphere;
Some like excitement ever;
For some life is anxiety always!

Consciousness denotes movements;
After storm surely calm prevails;
But the experience remains in!

Joy, grief, excitement and suspense
Mark the course of life for all sure;
But ending it in bliss is everyone's wish!

Love, beauty and joy keep life enjoyable
As one enjoys music, art and poetry
Life long till one lives to the end here!

Is life within one's control in this world?
It's a bubble that dances till luck permits!

Ramesh T A
A Bubble On Water!

Winter blue is creeping mind for many.....!

Melting of glaciers in Andes and Himalayas
Now is the talk of magazines and newspapers!

Holes in atmosphere above and below Earth
Also often comes in news triggering puzzles!

Sun's spot appears and disappears every 11 years
Causing changes in climate here on the Earth!

This year it is predicted of severe cold winter
That is going to put many drowning in gloom...!

Preservation of Nature by controlling pollution
And maintaining forest and farm lands well it is
Indeed going to save our beloved Earth longer..!

Seasonal blues are causing concern often to all
Making life just a bubble on water in the Universe!

Ramesh T A
A Building In Air!

Building castle in air
And capturing it on paper
Is work of poetry!

Ramesh T A
A Bundle Of Contradictions!

A bundle of contradictions is a matter of bully and laughter,  
If it's harmless, but, if it's harmful, it provokes anger and  
Irritation needing the scores to be settled sooner or later!

If one is a real virtuoso in music and dance, one is supposed  
To be spiritually interested, But, if one is too much in a hurry  
in physical intercourse, one loses the nature of femininity…!

Patience and discipline are the mark of a good lady and also,  
Culturally well fostered in life, but, if it's not so, one is  
Surely a murderer of art in the guise of an artist in the world!

If such a lady wishes to live a family life, she is supposed  
To respect husband and cooperative with him in good and bad times  
With love and faithfulness, but, if she is not so, she's a traitor!

If one promises to be faithful, but plans to rob and run, one is a  
Trust-less traitor and a matter of bully, laughter and anger in one!

Ramesh T A
A Burden Freeing Dance!

A row of avenue trees stand tall, when I see from 
My house balcony everyday with the same hue of green 
For all tree leaves giving a cool look under hot Sun!

But the one tallest among all trees is the cynosure, 
When the cold wind passes through its leaves strong 
Giving the impression that the tree is dancing free!

Various branches of the tree moving in different 
Directions give the look of a dancer making movements 
Of hands and legs in a unique way only she knows well!

Dance shakes off all unnecessary clingings to fall down 
To free it from the burden of carrying such unwanted 
Ones along with other living creatures on the branches!

Indeed dance surely makes one shake off all burdens 
Making heavy in mind and a great relief from then on!

Ramesh T A
A Busy Weekend!

Pleasant morning makes the squirrels play joyfully;  
Making signals to all they run round to gather food!  
It is a weekend for all to make a best time to enjoy!  
All around tourists from various destinations gather  
In the small cosmopolitan town to spend time joyfully!  
Hotels and restaurants are full with customers early  
And buses and vans park around town without space!  
Petty shops, tea stalls and pan stalls are very busy  
And pavement dress stalls have spread their products  
To woo the customers with business knack they know!  
Like a festive time the town is full of fun and gaiety  
Making life quite romantic and enjoyable by all full day!  
How the time goes and how the day ends are unknown  
Unlike in other days the time stops moving at all often!

Ramesh T A
A Butterfly!

As worm out of egg
Moves as train everywhere
Before flies as bird!

Ramesh T A
A Cake To Eat...

You cannot
Make and eat cake
At the same time!

Ramesh T A
A Calamity Caution!

People have to
Come out of the house
For Tremor!

Ramesh T A
A Calamity Silent!

People have to
Go up to the house terrace
For Tsunami!

Ramesh T A
A Calculated Risk!

Almost running out of breath like the car
With meagre petrol can move only a little
I reach for a restaurant to pacify my hunger!

Taking a glass of water to clear my throat, I
Have placed order for the items I would like
To take before going a long way on my journey!

With the full tank filled up, I drive my body
Engine to go ahead to finish my assignment
So that I would feel I have done my part well!!

Only when the mission in hand is finished well,
We can be fully free to mind our special business
That gives hope, vigour and vitality to live better!

It is an adventure to take calculated risk to finish a
Job that remains as an obligation until breathing fresh!

Ramesh T A
A Call For All!

Poet is high flying free bird!
No one can block or bully
A poet of high calibre ever!
Poet pours points pure
Direct from heart to hearts!
Confidence and courage
Poet inspires in others here!
No one need to hide or disappear
For the sake of someone's abuse!
Put forth bold ideas wise
To blast all blockades ever!
Inspire freedom and openness;
Open heart and express views
For all to share and enjoy!

Ramesh T A
A Call Of Squirrels!

As squirrels' calls
Distant poets communicate
On Poem Hunter!

Ramesh T A
A Calm After Big Storm!

Microscopically finding out some negligible fault
And criticizing a deed without any qualification
Have no locus standi to be meaningful to say any!

If one is indulging in such a tirade has no presence
Of mind and sense of reason at all but simply giving
Vent to one's feeling based on failure of one's desire!

Such kind of verbose outbursts lead nowhere but
Only in chaos of mind putting one in permanent
Depression needing medical cure to be serene later!

Many a deed of heart's desire generally ends in great
Disaster of mind frustrating the well adjustable ones
According to the tune of such mad men due to status!

Calm after big storm only can bring normalcy in life
Anywhere in the world of mankind we are familiar with!

Ramesh T A
A Calm After Storm Of Love!

Human love is an unfathomable ocean that looks cool and calm; 
But in the depths of the ocean there are a lot of treasures; 
Sometimes the waves are glittering with silver light under Sun; 
Sometimes they are like ruffled feathers of a chicken head; 
Waves rush to kiss the shore and recede fast as they have come; 
The lover waits for her like the coastal shore ever dry and free; 
But the lady waves come fast, kiss fast and go away fast ever!

Keeping all feelings hidden under her heart longs long for lover; 
Too much burning sensation builds up storm to rush to shore fast 
And furious to shatter trees, collapse lamp posts, hurl sand and 
Stones against the shore as he has not cared for her forever and 
Flies high above rocks and plains and disappears unknown to anyone! 
Bearing all the brunt, the lover shore again waits calm for her 
Arrival in the form of regular waves to accept her kisses forever!

Since she seems to be uncontrollable with her deep feelings ever, 
Lover changes himself as sky with clouds spread far and wide to 
Cover her whole heart of waves to observe why she is heaving so; 
Waves of her heart rises high and falls often with the hope of 
Touching his lover physically, spiritually and emotionally with 
Full embrace so rare and rapturous that clouds of sky lover has to 
Fall as rains to mingle one with ocean to bring calm after storm!

Ramesh T A
A Calm Good And Bad!

Calm before storm is a dangerous eerie silence;
Calm after storm is a welcome joyful scene!
Silence of men cannot be judged what is what
As it is well known that barking dog never bites!

Silent person’s observation, thinking are keen and deep!
Silent persons talk to the point for any question in life;
Silent actions speak thousand things to thousand men;
Also, there are silent persons who do incredible harms!

Some have storm brewing in the mind before it outbursts;
But nothing is known before hand even to the close kin!
Silence is golden when not necessary in some situation;
If not it’s like the frog that reveals by its croak to snake!

Silence of person is like the cat on the wall before it jumps;
However eyes speak out what the silent man hides so much!

Ramesh T A
A Camouflage!

Darkness engulfs winter;
Brightness overwhelms summer;
Brownness covers autumn;
But greenness expands all over spring!

Ramesh T A
A Canvas Of Nature!

Calm before storm has been seen;
Everything has become normal
After storm and rain have lashed!

Slightly waxed crescent moon shines
With a few stars in between clouds left
Over as the remaining dish on the plate!

What a disaster Nature has caused for
Twelve days with clouds, rain, storm
Making all know the presence of Nature!

After showing disaster, Nature shows beauty
For poets and artists to express it in Art
Imitating from the vast canvas of Nature!

Life resumed after natural disaster is fine
Like poet creates beauty out of chaos ever!

Ramesh T A
A Care Needed!

Care for
The cares to be taken
Stop worrying!

Ramesh T A
A Careful Entertainment Needed!

If you allow
A little for camel to enter tent
It will occupy full!

Ramesh T A
A Cat Limit!

Is it bearable
For the Cat to eat
As Elephant?

Ramesh T A
A Cat's World!

If the cat closes
It eyes can the world
Become dark?

Ramesh T A
A Cause Noble!

We are born for a noble cause in the world;
God has given the body with His soul to live.
A heart to feel good, bad, joy and sorrow
And a mind to discover truth and route also
To reach Him as Salmon fish to finish mission!

For some this world has become a heaven;
For many this world has become a big hell!
So, many don’t want to leave this heaven
And many wish to turn hell into heaven;
They don’t want to see beyond this target!

Jealousy and competition result in racial attacks
In Canada, America, Europe and Australia too!
As the world is not a permanent abode explore
They in planets the viability of life for migration!
But none wants to explore the inner space ever!

Many dictators of world history tried to conquer
The world to rule all as they wished sans sense
And failed to explore their own Self and conquer!
Also explore medicines to extend longevity of life
And youthfulness forever in vain ignoring destiny!

Many little creatures do miraculous deeds and die!
Salmon fish crosses the Atlantic Ocean, river to lay
Its eggs on top of mountain rising against water fall!
Even oyster converts a small dropp of rain or dirt
Covering its own secretion into Precious white pearl!

These are lessons of Nature God shows to man
To remind him of his noble birth and cause to do
Best things using his full capacity to leave a mark
Of his in the world to inspire others to follow suit
Thereby gaining a special place in His Kingdom!

Ramesh T A
A Caution For Freedom And Rights!

Nexus among politicians, bureaucrats and police
Spoils govt. administration unless all are honest...!
Politicians think, speak and do anything they wish
Getting ideas from bureaucrats with police force!

This kind of trend in democracy helps corruption
To thrive and flourish making all believe govt....;
Interference of govt. in internal affairs of individuals
Surely will make democracy and freedom a farce!

Unless prices of all things are less and taxes are fair,
Education and job are for all to enjoy with liberty
For all individuals to use talent and creativity to do
What work they like, country can't be free of chaos!

When everything is doubtful, law and order will also be
So endangering the country in anarchy any moment..!

Ramesh T A
A Cavalier Sort Of Governance!

Is it democracy or monarchy governing the people now here?  
Are the politicians, bureaucrats paragon of virtue in the nation  
And the people criminals to be treated as animals as they please  
As people's money is demonetized and made to be put in banks?

Knowing their perfidy, people who don't depend on them, mind  
Their businesses maintaining equidistance between them ever...!  
Despite being so, such people too are made like beggars beg for  
Money before banks and ATM machines by demonetization long!

Only culprits taking advantage of loopholes of laws and not ever  
Correct peoples should be put to hardships whatever be government's  
Sudden, bold measures sans proper planning and preparations  
Before hand for the sake of curbing black money or mercenary acts!

Bold acts based on thoughts of clarity and straightforwardness are  
What a govt. needs to be equipped with to make progress possible!  
And constitution of a nation cannot be ignored for governing a nation  
Depriving people of their freedom, liberty, rights and sense of justice!

Politicians and bureaucrats are servants of the people in any democracy;  
People should be treated with utmost respect and honour as gratitude  
As they have bestowed their trust on govt. by exercising their votes to  
Govern not as cavalier dictators but as protective friends of people ever!

Ramesh T A
A Celebration For A Worthy Cause Is Best!

For each and every thing, celebration has become
An aspect of human culture now a days everywhere;
Consequently, celebrations have become just rituals
Losing their significance and inspiring sensation!

If we have celebration for something great, difficult,
Impossible and socially significant thing we do, it
Will be worth celebrating with all in a public place
And the joy of such a celebration will be remembered!

But celebration with friends and close relatives on
Important occasions like birthday and making great
achievement on something connected with talent in
Art, science and literature is really wonderful sure!

Of all things, celebration to honour a deserving poet
For great achievement in creative Poetry seems to be
A worthy cause for celebration as it is not felt so as
Achievements made by others in invention or discovery!

Ramesh T A
A Celebration For Joyful Change!

Bright Sunshine, blue Sky, cotton clouds
Beautify atmosphere unlike usual time!
Avenue green trees cool the view ever
With the street calm due to festival holiday!

After leisurely bath an hour what a sea change
I see in the Sky full of rain clouds everywhere!
Sultry situation has changed to pleasant nature
Welcoming the festival mood delighting everyone!

Happy faces of people throng to temples here
With auspicious music playing along the street;
But at homes TV beat music makes all dance
With hip and leg movements in style exotic ever!

Year moves fast due to festivals and celebrations
Whether it is independence day or new year fun...!

Ramesh T A
A Celebration For Love!

Is just a day for Valentine in a year enough?
Is it a day of birth or obituary to be celebrated so?
Valentine's Day is the symbol of lover's day!
Taj Mahal is a symbol of love only in India!
Is there anything of that kind anywhere else?
Will you celebrate it and forget all the year?
Love has to be cherished and transform the world
And all can live in harmony, peace and bliss!
Celebration is just saying I love you that day only
And going ahead with the usual indifference everyday!
Just saying is not enough but showing in act is best.
Saying and celebrating is nothing but showing is everything!

Ramesh T A
A Celebration For What?

All celebrations are
To know what we have done
And what we have to do!

Ramesh T A
A Celebration Of Birthday And Wedding Day!

Birthday celebration is a happy time in everyone's life;  
Cheerful faces like the freshly bloomed flowers wish with  
Greetings that elate one's heart, mind and soul to new heights!

Delighted little child dance and go round the place making a  
Joyful sight to enjoy in world life that may come once in a while,  
But not always all round the year in this fast modern world...!

Birthday occasion brings a chance to see dear, near and far off  
Friends occupied in various professions all day long and all  
Round the year not having any chance for entertainment at all!

Birthday and wedding day celebrations if combine together, the  
Joy of dear friends goes beyond limit and happens to be a rare  
And memorable one long to remember by all gathered there!

Happy birthday and happy wedding day wishes coming from the  
Hearts of all well wishers loudly sound high in the place of joy...!

Ramesh T A
A Celebration Of Victory!

Festival of lights is
A celebration of victory of Dharma
Against Adharma!

Ramesh T A
A Challenge To Face!

Nothing can stir and shake me;
I live always for you only!
Only your love can deal all
Others ever dash to the wall!

I live only for love forever;
Love only has success sure!
Loving soul has no pain;
For, love ever ends in gain!

Who can ever stop my love?
All see my love ever in awe!
Are you ready to face challenge?
You have to bear big stone henge!

Ramesh T A
A Chance For All!

Many a best artist is not shining
Due to lack of timely supports!
It is luck that makes many great;
Otherwise they are nothing here!

Now the work is being done by machine
That doesn't know anything of human!
Senselessly machine decides about all
About man's matters in the world now!

Man has suffered a lot due to bad luck;
Now also he suffers so due to machines!
Human sense but understands and appreciates
The best among all though worst triumphs!

The trend of the world is for deterioration in all
To give a chance for the never high to be high!

Ramesh T A
A Chance For Bullying!

Halloween's day gives to all
To celebrate or fear..!

Ramesh T A
A Chance For Change One Loves!

Beauty of romance is irresistible to ignore ever
Making human life enjoyable in the world sure
Whatever be the walk of life or status of life is!

Working for survival with many dreams of life
Humans live to make realities of them encouraged
And inspired by romantic appeals never diminishing!

Magnetic attraction among friendly beings kindle
Interest and inspiration to attempt things one never
Thinks about taking risks to attain the status needed!

Such is the situation that one embarks on adventure
Quite challenging at every turn of the circumstance
To climb up the ladder to the pinnacle of glory soon!

Sans romance ever twisting or favouring one's life...,
There is no chance for change one loves in the world!

Ramesh T A
A Chance For Elders To Be Too Children!

Playing with children elders too
Get a chance to become children;
World of children is full of
Imagination, creativity and fun!

Enjoying fun with children is...
Indeed a great joy nowhere one can
get in the world full of tension
And violence sans human sense ever!

Children world is similar to the
Romantic world of youngsters ever;
That is the substitute to serious
World of rivalries between groups!

Children too have rivalries sure;
But their fights end in friendship!
Their sportive nature is what needed
For enemies to compromise in peace!

The greatness of heart children have
Is more than any Nobel peace prize
As no Nobel peace prize brings ever
Permanent peace to human world sure!

Ramesh T A
A Chance For Nonviolence To Flourish Love In Life!

Without nonviolence, there is no chance for love in life sure;
Love is willingly accepting even pain to give pleasure to one;
Sans this willingness or not, man couldn't have survived long!

Due to violence in this uncertain world, love is rare to find ever;
Due to survival of the self at the cost of others to live life, there's
No chance for selfless concern for others for love to bloom at all!

In this uncertain circumstance, only lust is there in lieu of love in
The brief sojourn to enjoy life before facing untoward situations
In the course of struggle to have a settled life to live after long..!

Even if such a time is missed in life, many have no chance to enjoy
By the time they settle to think about love life or common good of
Others to help or support the suffering to see light of the day ever!

The soft corner somewhere in the heart only, otherwise can make
One a man of good sense for nonviolence flourishing towards love!

Ramesh T A
A Change Dream Of All!

Education does not end schools and colleges;
It continues in life and work in the world ever!

Real education begins outside education portals,
When one comes out of educational institutions
To Nature, arts, sciences, literature and poetry!

It’s not enough to spend time in mundane things,
Day today activities which will produce monotony,
Frustration, depression and make world too much!

Each one should make use of special power within
To explore nature of things and explore truth and
Helplessness of man can be overcome by change!

A lot of drawbacks are there in everything here
Affecting society unaware without giving hope,
New thoughts, ideas and change for the better!

Innovation, novelties are needed to breathe fresh air;
Poets have important job to bring about change!

To change society individual’s attitude needs change.
Nature, arts and literature are there to give solace,
Comfort, ideas and hope to realize freedom in life!

Poetry inspires and encourages to attain freedom
And live a life of fulfilment to the full in the world!

Ramesh T A
A Change For A Hope For The Better!

The steady source of pleasure lies in the happiness of life;
Life engulfed with chaos, crises and complexities is hell;
Hell has been brought in heaven by pollution and terrorism;
Terrorism increases panic in all besides corruption and arms!

Arms build up in many nations goes for nuclear proliferation;
Proliferation of nuclear fuels for peace ans deference is up;
Up on no guarantee for its moratorium, talks ever go on and on;
On knowing the radical bigotry's atrocities, all are in nightmare!

Nightmare makes all undergo sleepless nights losing hope in all;
All things need to be set-right to bring hope, peace and love;
Love is the only solacing and life enriching virtue of humans;
Humans to revive dreams of romance, have to find means for change!

Change of attitude, interest in art, Nature and culture give hope;
Hope of a better tomorrow and better world tomorrow lies in unity;
Unity of lovers of peace, love and creativity has big roles to play;
Play of ideas in creativity brings hope for diversion in joy of life!

Ramesh T A
A Change For Better!

In these cold mornings it's very difficult to get up soon;  
But squirrels and birds get up early and are brisk too to  
Overcome cold effect that we have to learn to be fine...!

Kissing and hugging, these squirrels start and go on  
Playing their game, while minding their daily business  
Of collecting food and enjoy a better time for the day!

They are the species that know how to survive against  
All odds of climate change and adverse weather conditions  
Whatever be the season of the year in the place they live!

Man has to see their way of living and get inspiration to be  
Brisk and active to achieve what he thinks, imagines and  
Also, dreams to do great things in the world before the end!

But instead of doing so, man indulges in works of gadgets  
Forgetting what's happening around him to change for better!

Ramesh T A
A Change For The Better Is Must!

Corruption in all walks of life spoils all in the social system
Making corruption as part of culture underscoring the need for
A great change in the attitude for the better of humanity sure!

Sense of goodness, truth and beauty is lacking in such a way that
Love, friendship and brotherhood seem to be a distant matter ever
Making indifference as the style of functioning in all offices sure!

Inhuman sense of execution in education, administration, judiciary
And politics has broken the hearts of all sincere, honest and good
Service doers in all fields of governance paving way for crimes easy!

Unconcerned dealing of hunger, poverty and unemployment of educated
And uneducated everywhere has triggered unrest, agitations and vilence
To the extent of perpetrating terrorism destroying all noble ones...!

Yet, the united stand and efforts of forward looking good souls only
Can turn a new leaf in social life to bring about best change ever sure!

Ramesh T A
A Change For The Better!

Too much political activities of the nation disturb and spoil
All the sincere works and talents of individuals ever now!
Only Nature is the greatest escape from woes of the world;
Aesthetic pleasure serves as great relief from all ills now!

Relief and redemption from the madding material world
Come from the aestheticism in Nature and out pourings of
Heart based on experiences of pleasure one enjoys there
In poems perennial give great change for the better sure!

Art, Nature and music are some of the ways one can get
Great relief and change from the usual rut of irritation by
Politics and bureaucratic disturbances everyday in all the
Walks of life of human endeavour everywhere in the world!

Diversion from greatest despair one undergoes in life is
Surely Nature in all its beautiful manifestations everywhere!

Ramesh T A
A Change For The Good Or Bad?

Battle after battle Napoleon fought and had won also
But unfortunately nobody knows about his genius now!
Shakespeare and Milton achieved much in literature
But nobody bothers and follows their tradition now!
Advanced countries were top in science and technology
But they have been superseded by second line countries!
USA and USSR were super powers for many decades
But they are superseded by India and China now!
Old order is changing to new order everywhere
But in the new set up the quality is in doubt always!
Previously there were structure and substance in poetry
But now broken pieces in the name of poetry are fascination!
All the changes taking place are for good or bad?
Quantity has increased but quality has decreased in all!

Ramesh T A
A Change From Dream To Reality!

I have been dreaming because of you;
Many things I have forgotten to do;
Time went out mostly in romantic mood;
Days have gone away without notice long!

We all went on a tour in the final year;
After college education we hunt for job.
Days spent cannot be regained once again;
Will those days come alive once again?

We see now life in its true colours ever;
Life is not as romantic as love we enjoyed;
Everything goes on money in the world;
Can we live without money anywhere?

All the joy and fun have vanished forever;
All the life we have to work for money to live!

Ramesh T A
A Change In Life Is Sure!

A boy child looking like little Samson was the cynosure
Everybody came and appreciated for his affable smile!
He enjoyed fun for five years till he was joined in school.
The fun he enjoyed known and unknown was recorded.
The days of good and bad could not be controlled forever.

Then he became a neglected child of a big joint family
With members countless in numbers doing business there!
His mother soon after her mother’s death became so;
After marriage she believed only his father for all in life.
Between rigid father and strict school he had education
For a longtime he was living so without interest and joy!

Knowledge gained out of education only gave him relief;
He had great interest in literature, science and geography;
Especially he had the chance of studying Dickens novels
From the 5th form to the end of undergraduate course;
Among them his study of The Pickwick Papers changed him
And became a well developed man to live better than before!

But difficulties and hardships pushed him to edge of life.
At such times the movies like James Bond 007 gave him
Inspiration and determination needed to do best out of odds!
More than friends he believed in God and his knowledge
That helped him decide about matters at critical moments
And with that and the ideas he got he successfully managed
Both private and public engagements to the praise of all ever!

Ramesh T A
A Change In Life!

Changes in life
As changes in Nature
Are common!

Ramesh T A
A Change Man Does Not Want To Have Is A Great Pity!

The day is unbearably very hot everyday without relief;  
After the hot sunset evening springs up with cool breeze!  
A little bit of convectional rain cleans up the road well;  
Due to rain the usual rush in the beach has gone away  
Making it convenient for regular walkers to go with ease!  
After the stars have popped up the crescent Moon comes  
To kindle the mind of men to muse over the sky beauty!  
Heavenly beauties are the angels showering pleasantries  
To inspire men with unique joy refreshing the soul ever!  
Dim lights of fishing boats mark border dots around horizon;  
Strewn yellow flowers of road side trees welcome home again.  
Refreshing Nature pollution and global warming try to change;  
Even after suffering a lot of hardships due to droughts and floods  
Man does not stop exploiting Nature to have a change is a great pity!

Ramesh T A
A Change Of Attitude!

Mindset is formed from childhood by nature and nurture
That influences attitude of everyone on every matter.
Attitude of a person can well be trained and changed;
But can’t be done with the mindset formed of resolution!

Silver screen stars’ and charismatic leaders’ images thrill
By sentiments, emotions, passions, romantic causes and
Have deeply embedded in people’s mindset as inspiration!
Such formed mindset or nature of people never changes!

Surprising results of general elections reveal people’s mind
And tell well that the attitude of people can’t be changed
As the foundation of mindset can’t be foiled by any means
And the fate of the nation is decided by the village people!

Social change is not possible without the change of attitude
And the mindset of people needs advancement by education;
This is the key to sure success of a nation in any democracy
And rulers and development makers should keep this in mind!

Ramesh T A
A Change Of Time!

A change of time changes everything in life!
Glorious poetry turned into prose for use earlier;
Stories, novels and articles ruled prominent;
With the coming of computer poetry resurrected!

Now everybody enjoys indulging in poetry for fun;
Articles, stories and novels are superseded by poetry!
Many poetry websites entertain new poets daily;
Many enjoy poetry reading and writing at anytime!

Poetry has become cheap product for all to use;
Nobody thought that such a thing could happen!
Nobody buys poetry books but novels and magazines;
Is poetry a use and throw material only in market now?

The things that cannot be expressed in stories, novels
Are done in poetry to satisfy heart, thought and spirit!

Ramesh T A
A Change Sudden!

Wind changes
Direction suddenly from
South to East!

Night rain
Comes suddenly from
South West!

Nature changes
Suddenly from anywhere
Round the globe!

Change of wind
Direction from East to South
It's summer!

Change of wind
Direction from South to East
It's winter!

Now it's time
For Nature to settle itself
From hot to cold!

Ramesh T A
A Change!

Old order
Is changing to new order
But sans quality!

Ramesh T A
A Changeless Friend Forever!

Act of love sans ulterior motive is natural love of child;
Flawless love never changes even when wealth comes!
Friendly love lasts longer than brotherly love forever;
Friendless life is featherless bird trying to fly in the sky!

Friendship is stronger than blood relationship in reality;
Some friends move as cousins or brothers once united,
But on leaving the place forget as relatives sans sense!
Friend never forgets, fights, separates and reunites.

At anytime of life real friend never changes colour
Like chameleon changing colour from place to place.
Remembering in person and forgetting in absence
One cannot be a friend but only an opportunist ever.

A changeless friend knows one well and helps in time
Even without a request unlike relatives like an angel!

Ramesh T A

A Changeless Government!

In the garb of democracy, Nazism let loose is bad
And bizarre politics is making all wink eyes ever!
Democratic dictatorship rule no one can tolerate
However great the promises are and measures Poor!

Result oriented management is what all organizations
Give importance, but not Goebbels speech all like to
Listen saying hail leader and follow line sans any
Criticism whatsoever forever till the end of term!

People expected change of rule and ease of burden
They are already carrying like the last straw on
The shoulder of delicate camel in the long desert
Full of mirages showing the oases are near ever!

Unless people are happy with real developments, no
One can rely on the course of government changeless!

Ramesh T A
A Changing Process By Spirit!

From seemingly nothing steam clouds come high in sky
And that falls as rain to go to sea finally to be recycled!
Water by the heat of summer becomes steam up daily!
Water by the coldness of winter becomes ice or snow!

Gases exploding in Space turn into matter after fire
And in the process gas turns into liquid to solid later
Like the volcanic lava turning into rocks by cooling!

Oxygen and hydrogen combine together with explosion
Accompanied by lightning and thunder to fall as rain
That runs as river to become oceans to continue process!

From the seemingly nothing in Space Spirit activates all
Changing from one to another form for various purposes
Making the forms of gases, liquids and solids in cycles
To do miracles in the Universe just as in circus or magic!

Ramesh T A
A Charismatic Legendary Being!

There is a special place reserved for charismatic one
Among dignified personalities we see in the society!
Charismatic persons are the legends people cherish
Most in heart for extraordinary things done earlier!

Legends become immortal even after they pass away;
Living or dead, they have a special place in the hearts
Living and going to live longer than before anywhere
Reminding all of the best things seen to see again so....!

Legendary charismatic souls eternally live as divines
People cherish most ever giving a special place sure in
Important part of their life as a honour no one enjoys
Which is an invaluable reward for their service to all..!

Such living legendary beings are a fortune to see in the
World full of chaos, woes and worries prolonging ever!

Ramesh T A
A Charismatic Personality!

Bold, extraordinary talk and work bring public honour and respect to one recognizing him as a leader even that one is not seen much in public due to some unavoidable circumstance or situation as that one has become a symbol of confidence and hope forever...!

Even after a longtime such a person happens to be seen outside on some personal work or some other thing, again a spark runs to all who see him bringing once again that old encouraging charm to revive the hope lost due to his absence in the eyes of the world...!

Such self respecting persons are praised by some and appreciated by the world and that too if one happens to be a holder of good heart, gets special respect ever as one seems to be a rare species among humankind being felt by all anywhere and honoured ever!

Such a leader though not in power, by his mere presence itself is honoured with due respect due to his charisma anywhere sure...!

Ramesh T A
A Charlatant Or Genius?

Genius and charlatan look alike!
One is purposeful and other less.
One travels with destination known;
Other one don't know his destination!
Both are lovers of freedom ever;
Both are individualistic in pursuits;
Genius captures the hearts of all;
But charlatan is abhorred by all!
It is like good robot and bad robot;
Good robot does all to reduce burden;
Bad robot does all to increase problems!
Genius and charlatan go hand in hand;
It's for the society to recognize them
And honour one sans hurting other!

Ramesh T A
A Charles Dickens!

Charles Dickens
Dictated the world of novels
Now none!

Ramesh T A
A Cheaper Form Of Writing Poetry Seems!

Articles, novels and short stories are highly awarded; Nobel Prize, Pulitzer Prize and Booker prize go to them! For poetry writings no such high prizes are awarded yet. Is poetry a meaner form of writing compared to stories?

Fact fused fiction are appreciated as serious kind of novels; Realism blended romantic stories are highly liked by many. Poetry is a product of imagination, expression of emotion! Mere fun without any utility serves no social purpose good.

Poetic philosophy of life and Nature has great value for all! Wisdom, truth, seriousness, amusement and beauty enrich Poetry of high value rare to be found in the poetic ocean! If award is constituted for high philosophic poetry it’s good.

The final abode of all dissatisfied souls seems to be poetry! Rich experience of all fields poetry blends to give satisfaction; But many indulge in poetry writing for amusement fast now. Only pleasure and wisdom make poetry a crown of literature!

Ramesh T A
A Child And Disciple Of Nature!

Conservation of natural resources ever keeps Earth fresh
Maintaining fertility of soil for cultivation of rich crops
To feed, survive and perpetuate species with good health sure!

If so, monsoons never fail to give benefits to all in time;
Seasonal changes will not harm ecological balance going on
Keeping life cycles of all living beings serve their purposes!

Living in harmony with Nature, man can enjoy prosperity ever;
Neglecting the good gestures of Nature, man will never win in
All his pursuits to satisfy his greed against any natural law!

With science, man can make revolutionary changes for advancement,
But real changes of advancement is possible only by evolution that
Follows the laws of Nature to a healthy development in creativity!

Like all Stars and planets in the Universe, Earth is one such a
Wonderful child and disciple of Nature that man cannot change sure!

Ramesh T A
A Child And Friend A Book Is!

Book is the child a writer gives birth to the world
Undergoing the pain and pleasure like a mother!
According to the reception the book receives ever
An author enjoys popularity, pride and pleasure!

Book is ever the best friend to one whether one
Has friends and foes or not in the journey of life!
Best ideas of a book offer as timely help of a friend
To one to face odds and hurdles at the critical time!

Even if the author dies and leaves the world forever,
His spirit in the book tells his name guiding the world!
Such is the value and use of a best book in the world,
Even if one has no one to help and guide in life ever!

Written words in the book are more permanent than
Spoken words assisting all as if the author is alive ever!

Ramesh T A
A Child Is Angel Ever!

Any child is a sweet little angel anywhere!  
Idea of angel would have evolved by child!  
Child nature and Universal Spirit are God.

Born of love child is the sense of joy ever  
That gives hope to family to pull on well  
And the cheerful mood gives confidence!

Smiling as freshly bloomed flower child is  
Cynosure of all everywhere moving all  
To do great things at least to keep her joy!

We have to make the world better at least  
For the child to live better in joy than us..  
We have to do best things to make it better!

Child is God in the human form ever to lead  
All in cheerful mood to cherish love and hope!

Ramesh T A
A Child's Journey!

One fine morning, Hari, a boy of four
Got up from a deep slumber and curiously
He looked around what was going on.

It was a summer time with hot days on..!
Everyone in the bungalow was packing
Materials necessary for a month's tour
To some place far away from the town.

His curiosity kindled interest to know;
He was very happy to observe all and
Watch what things were going to happen!

His joy knew no bound as the journey started
To a nearby hill station for a month's stay!

Ramesh T A
A Child's Wonder World!

Child is wondering at the flying birds;
It is an all time puzzle child can't stop
Exploring ever day and night at home!

Next to birds, squirrels are a great wonder
Due to their screeching signals they are
Making all day to communicate with all...!

After them, dogs are another wonder to
See them how they are eating food and
Fighting with other dogs straying there!

Dancing leaves of trees, screens and all
Calendar monthly sheets by the breeze
Coming from the South are other wonders!

With wild eyes child witnesses all such kind of
Activities with great wonder astonishing all...!

Ramesh T A
A Child's World!

World of child is a wonder baby enjoys all day;
With a clean slate of mind baby records all things
To analyze and understand many truths long...!

Monthly calendar sheets flying by the wind and
The window screen tossed up by the wind are all
Indeed a wonder child tries to explore with smile!

The smile turns into big laughter, when she finds
All things she has seen already after sometime...
And gets confidence nothing can give in the world!

Likewise, the baby learns and feels great enthusiasm
As if she has seen a great wonder none has seen before
Forgetting hunger and tastes her own finger as solace!

Knowing the child's need mother gives her food and
That she shakes head and appreciates the taste well!

Ramesh T A
A Choice For You!

Between friend and nation which one will you favour?
Between love and friendship which one will you like?
Between wife and mother who will you support most?
Between intelligence and imagination which one will you need?
Between intellect and wisdom which one will you prefer?
Between life and virtue which one you will be ready to forego?
Between character and money which one will you choose?
Between love and money which one will you rely most?
Between life and death which one will you be ready to embrace?
Between wife and friend which one will you trust most?
Between sea and shore which one will you select at calamity?
Between hill and plains which one will you like to live in?
The suitable selection you make according to critical situation
The life of you meets with success and fulfillment in the world!

Ramesh T A
A Choice To Be Made!

Many love letters reach me on line  
From young ladies of various ages!  
They all say they are impressed  
With my profile and wish to move.  
If I contact them, each one says,  
They would send their photos  
And can we go on in love long!

Names are many but message is same  
As all the letters are stereotyped ones!  
When I was thinking about first one  
And wrote a poem about my view  
Many advised me to accept love!  
So, what could be the choice I have  
Among Meneka, Medea or Monika?

I can only sing a song like Lou Bega -  
I have a girl in America, in Alaska  
I have a girl in Africa and Asia too!  
Which one to choose is my job  
Not so easy I think as all are fine  
In their proposals they express  
So well making it very complicated!

Ramesh T A
A Choice You Make!

Love or war
Which one will you choose
To achieve all?

Ramesh T A
Daily chores
Is the routine of life
Rhythm of Music!

Ramesh T A
A Christmas Observation!

Who is remembered most?
Jesus Christ or Santa Claus?
Both are inseparable now!

When the snow comes what is remembered?
Storm or rain or bitter cold or Christmas?
They are all inseparable at winter time ever!

Why are festivals coming in cold time?
To give movements or to have fun to forget chill?
For both and more to have hope for coming New Year!

If winter comes can New Year be far behind?
New Year or Spring season or Sun shine?
All come soon to give hope and joy in life!

Festivals are fixed for all to enjoy coming prospects
In the New Year with renewed hope and joy to win all!

Ramesh T A
A Circle Of Activities!

Everything functions in circles ever!
Black Hole is a big circle quite vicious
As it sucks in all Stars and light also!

All circles never allow all escape ever!
Whirlpool formed on rivers sucks in
All things big and small in no time!

Circles of Nature never go sans effect!
Cyclones of small seas or hurricanes
On oceans never go destroying coasts!

All circles never allow its satellites free!
Sun and Stars in the Universe is an example
For keeping all planets circle round them ever!

Circle of activities of Nature continues cool sure;
Seasons come in circle perfect one after the other!

Ramesh T A
A Circle Of Love!

Lovers are needles

Of clock or compass as one

Can't pass away

Leaving the other by any means

As they are making perfect circle!

Ramesh T A
Placed in unsuitable circumstance and situation how is growth possible?
Though the mind is fast but the body is slow how can things be done?
When obligation and interest clash what can one choose in bad situation?
When education is not given according to mind and temperament of one
How can real development of mind, body and spirit is possible anywhere?
Against all those odds my life was going on in the beginning of my youth.
Neither knowing the talent nor having proper guidance life was vague
Till I finished my college education and entered into family business.
According to parents’ interest and control life was very uncertain then;
Between obligation and talent I was tossed up and down on the ocean!
Nothing was I able to decide independently about my future life and work;
After parents have gone away my life has to go according to my children!
All those things made me into a poet to pour out my thoughts in floods;
A ocean of ideas have I been expressing for the past 20 years nonstop!

Ramesh T A
A Civilisation Symbol Exhibition Is!

Beautiful Universe is the mark of magnificence of God!
Fairs and exhibitions are the symbol of man’s civilisation;
Gardens and parks are sign of paradise of man’s creation;
Beauty, love and goodness make human world a heaven!

Such a symbol of civilisation how can any man ignore
And neglect in his pursuit of religious fanaticism by wars?
War mongering has become the duty of ruthless fanatics
In the name of race, religion, region sans sense of remorse!

Animals don’t see beauty, goodness and congeniality ever!
If man also does so by any cause is animal in human form;
Man has not turned to be a civilised one even after struggles
He has endured so long to develop modern world of plenty!

Clash of civilisation and old culture never leads to anywhere
But to the savage world and not to the lost world of civilisation!

Ramesh T A
A Civilised Weapon!

Non-Violence is
Civilised weapon to fight
Against injustice!

Ramesh T A
A Clash Between Truth And Love!

Love has a spell over everyone!
Who is there not swayed by love?
Truth I say friends take as advice;
But words of love they accept as
Decree of divine dispensation!
Love wins what truth struggles.

Same thing happens with poets too;
Poets are overtaken by poetesses
by being ladies of beauty and love!
Poets however sincere they are
Are left behind poetesses often!

Intellect can be used to say truth;
Imagination can be used to do so!
Dry intellectual truth falls on deaf ears
But sweet imaginary truth reaches all!
Wisdom lies in maintaining silence
Believing that truth will prevail finally!

Ramesh T A
A Classic Wave!

Waves of sea
Are the rhythm of poetry
Classic always!

Ramesh T A
A Classic!

What is Romantic
Today after a longtime will be
Classic tomorrow!

Ramesh T A
A Classical Beauty, Elizabeth Taylor!

Hollywood Star Elizabeth is no more!
She gave life to Egyptian Queen Cleopatra,
Wife of Richard Burton and fan to M Jackson!

Talented actress she is like Nichole Kidman,
Moulin Rouge fame and Oscar winner too!
But Cleopatra nobody can forget even today!

In real life Elizabeth perhaps was Cleopatra
Having married many and divorced many!
Yet, she stood as a unique star in Cinema life!

Michael Jackson adorned her more than most
Perhaps she played the part of Cleopatra and
Provoked him to compose Remember The Time!

Classical beauties are indeed talented and powerful
Coupled with luck to wield spell over many long ever!

Ramesh T A
A Clean City Dream!

Man made pollution and garbage has created dirty city!
A clean city is a dream now due to accumulation of dirt
Never seems to be cleared by ever increasing congestion
Strangulating all to gasping level of breathing everyday!

Overflowing drainage vents giving smell of toilet eternal
Mixing with carbon smoke of vehicles spread atmosphere
Impossible to breathe clean air ever in the midst of hell
By technological developments risking everyone’s health!

Dirty cities are the growth of modern world of civilisation
Making linen dirty a common feature everywhere to bear
Along with the riches that closes eyes for such matters
As time for enjoyment has become shorter in the fast life!

Clean city has become a dream of intellectuals and critics
Making them long for the day of healthy city life sometime
In the future world of efficient activities in all spheres of life
That time only has to bring about before the world wakes up!

Ramesh T A
A Clean City!

They talk about
Clean city but make dirty
Worse than before!

Ramesh T A
A Climate Hot!

What a hot climate it is!
Heat wave is steady all day
Though full day is cloudy
And night as sultry as hell!

Greenhouse effect persists
Making impossible to go out!
Light and heat more than usual
Keep all aestivated at home!

Peak of summer is over
But peak of heat is not
Allowing coolness to come.
Such a hell summer is!

Summer holiday lasts long
For all to visit cool places
For two months to enjoy
With family and friends!

Relief for dehydration is
Not water only but fruits
That clear dryness of lips,
Mouth and throat free soon!

Glucose water and juice
Of fruits keep zeal full
To mind work interesting
Against dullness always!

Trees need water to grow
And keep the place cool
By its shadow and leaves
As avenue on sides of street!

Water melon and cucumber
Also keep the dry throat free
And best to serve as salad
For the family in food too!
Butter milk, grape juice
Or lemonade or coke too
Keep fresh all the day
To nullify the heat effect!

Cold water bath is pleasure
For children and elders also
Morning and night to clean
Body sweat to have nice nap!

Climate cannot be changed
But prevention of heat attack
By cool beverage and bath
Are the best ways to oust heat!

Ramesh T A
A Cloned Human And Robot Future World!

Future world may demand cloned humans and robots
For military and factory works to produce and perish
Scientifically developed beings to face world enemies
As terrorists, naxals and black marketers are increasing!

Weapons of mass destruction if gets into the hands of
Wrong persons or terrorists world will not be any more!
Complications of wars may involve clones and robots
To destroy enemies and destroy dangerous weapons!

Also wars in space may take place with laser guns
To have domination in Space as well as other planets!
After Moon exploration has been carried out by supers
In arms race, Space race and by planet exploring experts!

Things going beyond human levels lead to clones and robots
Arrival to save and control human world perhaps in future!

Ramesh T A
A Clout Of Love!

Whatever thing one does with love brings joy;
The end product will be beauty attracting all
To love it and have love towards the creator
Making the spirit of love enlarge and expand
To bring all under its clout never to leave from
Its spell of love so beautiful, absorbing and fine
That love rules all hearts, minds and souls ever
Relieving tension and soothing depressed soul
Get relief as never before and also renewed for
Any kind of adventure with a spirit full of zeal
To climb tallest mountain to surmount all hurdles
Or dive deep in the ocean to find rarest pearls
To make garland of beauty to offer to the creator
As a mark of love as art paints picture selfless sure!

Ramesh T A
A Coin Of Two Sides!

Day is hot with the Sun burning all ruthlessly;
Night is calm with the Stars twinkling coolly;
Above the tree full of branches Moon shines;
Under the tree sit I on a bench taking snacks.

The Sea before me is a branch of Indian Ocean;
On the other side of Bay of Bengal is Port Blair,
The capital of Andaman & Nicobar Islands along
Thailand, Indonesia and Philippines islands coasts.

Indonesian islands are affected by Tsunami due to
Earthquakes on the ocean bed of Pacific Ocean!
Pacific Ocean areas are affected by global warming
Whose tail end effects affect Bay of Bengal too.....!

Calmness of one side and calamity of other side are
Nature’s two sides of the same coin of the world.....!

Ramesh T A
A Cold And Hot Life!

Chilling climate increases body heat;
Less stamina makes body weak!
Prior planning eases problems light;
Preparation before solves all might!

Without thinking loses one hope later;
Romantic living rolls up not ever luckier!
Easy come goes too easy in life after;
Planning before makes everything easier.

Industrious ants enjoy time in the winter!
Easy going grasshopper dies of cold in winter.
Old moral stories of life are not waste ever;
Culture makes man wise and life better!

Summer and winter tame man’s nature;
Hence joy and sorrow are common ever!

Ramesh T A
A Cold Induced Hug To Gold-Diamond Ornament!

Freezing cold drops the temperature to single digit degree!
With hugging thick dress all move around for regular work;
Tight hug of intimates gives warmth needed much for cold;
There begins intimacy to prolong long by love to face cold!
A Star is a couple of triangle and inverted triangle in the Sky;
Its twinkling vibrancy above sparkles like a diamond there!
Star crossed lovers bright with love kiss and hug intimately
Like the twinkling Stars of the Universe forever and ever here!
Those Stars are the Romeo and Juliet or Lila and Majunu ever
Noted for passionate, intimate love immortalised by literature!
Winter time brings closer all those not concerned about intimacy
And love brings joy, happiness and pleasure in bitter cold hours.
The winter hug makes the loved ones forget the ruthless cold
Transforming entanglements into gold and diamond ornaments!

Ramesh T A
A Cold Time Life!

Cold wind is blowing from the sea to the land;
Temperature is going down to chilling stage!
Thick dress all wear in this predominantly hot place;
Apple and citron fruits replace pineapples everywhere;
Lotus and rose flowers supersede jasmine and lilies!
Soup is the best to sip in this cold climate now!
Warming the body by brisk walk makes fine for all;
Nights have become long in these months till spring;
Morning is glorious with bright sun shine and pleasant!
If health is good it is a nice time to enjoy in the cold too;
Travel in the day is better than in the night it seems.
Functions that cannot be missed come only now!
Seeing relatives and friends in the functions is fine
After a longtime for the fun of all to rejoice and enjoy!

Ramesh T A
A Collective Responsibility An Imperative For Liberty?

Personal liberty at the cost of public liberty can’t be welcomed; 
Practice of trombone music when the town sleeps is outrageous! 
Can people walk on the road if one rides bicycle on the pavement? 
To safeguard social liberty individuals have to sacrifice their liberty; 
This is called live and let live as against live and let die for good. 
But who is following public norms for the sake of social good now? 
If the state disrespects court order can anyone have faith in courts? 
What is the use of preaching socialism if you are selfish in public? 
Democracy gives equal rights to all for the healthy survival of society; 
But if the election is conducted to bring wrong persons to power 
How can democracy be saved from going to anarchy sooner or later? 
Liberty, fraternity, equality and justice should be truly followed ever 
If the nation has to function for the promotion of peace and progress! 
World peace and development are the collective responsibility of all.

Ramesh T A
A Colonial Power!

Great Britain
A past Imperialist power
Is serving US!

Ramesh T A
A Colour For Season!

Green pasture is
Scene of Spring but White snow
Only Winter ever!

Ramesh T A
A Colourful Flow!

Fountain water flows freely illuminated by colourful lights;  
The rise and fall of water reflects the magic of rainbow  
And kindles the mind to dream about colourful poems!  
Nature is everything and the end of everything in the world.

The dancing water flows as rhythmic verse of dancing music  
Like the poetic words flow in cascade from the depths of heart  
Similar to the waves of sea that dash to the shore with force!  
Such effects can be noted in poems of natural poets’ output.

Creative writings flow continuously as time, waves and mind,  
When Nature provokes the heart of poet to do works of art  
To achieve best of knowledge, thoughts and ideas in a form  
For the world to enjoy, cherish and flourish in divine bliss ever!

Modern times interested in fast to reach the goal loses gloss  
Making farce the work of art now in competition of commerce!

Ramesh T A
A Colourful Joy!

Holi festival

A colourful joy spreads

To unite all!

Ramesh T A
A Colourful New Year!

Illuminated by colourful lights town excels Universe of Stars!
Everywhere joyful youths riding on bikes shout greetings;
Whistling and greeting at the top of voice they rush everywhere;
At last New Year trend has been set to welcome another year!
The cynosure of the masses is certainly the beach of the town,
Where gather youths and people in colourful attires exotic
Welcoming New Year with exchange of wishes for prosperity
They ride round the beach from one end to another end non-stop!
All round the year can they accomplish their goals joyfully so?
Achieve ambitions of their cherished dreams as to their wish?
These are the aspirations with full of enthusiasm they cheer up
With friends and companions on all roof top garden restaurants
Booked especially for this unique occasion long ago in the town
That wakes to life through out the night welcoming New Year fine!

Ramesh T A
A Colourful Rose Flower!

Colourful rose flowers give a beautiful idea of pleasure;
Lips of rose petals kiss everyone’s heart with pleasure!
Red rose transports one to the world of love and beauty;
Power of rose among all flowers is undisputed forever!

Red rose is for love, beauty, courage and respect, know!
Yellow rose is for joy, friendship, delight and new bonds!
White rose stands for purity, innocence and humility ever;
Pink rose is gifted for appreciation and thanks for deeds.

Orange rose is for desire, enthusiasm and passion ever!
Lavender rose is linked to love at first sight for all lovers!
Blue rose is for healing, dreams and mystery to be realised
And is recently genetically engineered and produced nice!

Who does not love rose flowers of many colours we see now?
Even rose petals are not left from extracting oil to make perfume!

Ramesh T A
A Comedy Of Error!

What can we say about a person
Feeling either tensionous or joyful?
Sentimental sans high knowledge
Certainly makes one so in life.....!

Such a person speaks much when
In good mood but otherwise keeps
One's face stiff and mum minding
Only works of her own jurisdiction!

Others have to keep doing things
In such a way that she has to get
Relived from her tension built up
For sometime making her unsteady!

Like a lunatic or hysterical character
She becomes when she is out of mood!
Convincing her and bringing her to
Normal and happy mood is great task!

A family of such a character is always
In excitement and anxiety, if they all
Listen to her talks and watch matters
Happening around their area sure...!

Contrarily all things go on smoothly
Unlike the expectations of the hysterical
one's family and when everything goes
On well, they all laugh and forget all...!

Ramesh T A
A Comediy Of Humour Or Error?

A mad rush, competition and meaningless race in everything
Everywhere has made human world into a mad, mad world!
Is this mad race in all walks of life necessary for progress?
Due to this, wrong persons are at the top of helm everywhere!

Commercial advertisements provoke mad rush for prizes;
Even in off seasons rebates sustain mad rush for benefits;
Advance bookings for train and plane services create rush;
And quick sales of tickets spiral up black tickets sales rush!

Cinema created mad rush to motion picture on the silver screen;
Television then created gluing of masses to TV screen all day;
Now Computer has swayed the hearts and minds of kids and elders;
For news, games and fun combining all in one for communication!

Everywhere there is rush for job, education, worship, election, etc.
Is this the product of civilisation or madness let loose on mankind?

Ramesh T A
A Comfortable Shelter!

Days are flying fast!
What best have I done?
I feel everyday much!

Poetry is my subject!
In poetry I cover all
Nature, love and life!

I may go away one day;
But my poetry will stay
And say all about me!

Of all things this one
Ever stays with me
And I use it much...!

Poetry is the roof
Under which all things
Take shelter comfortable!

Ramesh T A
A Comfortable Way Of Living!

Comfortable way of living how many enjoy in the world is
An interesting matter to explore to have understanding of
Human nature that has been vague to judge for sure ever!

Comfort and luxury make one enjoy life better many feel;
They make one isolated from the common lot from progress;
It is a perfect example of artificial way of living ever!

That life makes one unaware of the reality of the world;
It makes one not to go anywhere as it is uncomfortable
And the failure of technology makes one a fish out of pond!

In short, one is a prisoner of modern advancement of life
That keeps one ever not in harmony with Nature and also,
Simple way of life, though natural sure, makes one abhor!

Natural way of life is simple life one can lead long in joy
And peace with barest necessities no comfort can provide ever!

Ramesh T A
A Common Problem Of Life Now!

Tension and continuous thinking make one out of balance;
Even on the night bed thinking late leads to sleeplessness;
Continuation of such a situation makes night mare common!
To make a change relaxation is very much needed for all.

Diversions like reading stories, listening music and seeing movies
Do a lot of correction of error in daily process of life in reality;
Failing to do so leads one to the extreme state of metal sickness!
Only change in good entertainment normalization can be possible.

Youngsters extremely pursuing goals of ambition face this crisis;
Some have lost life too by being so in technological pursuits ever!
Education having no connection between science and literature
Or general coverage of all subjects has brought about such ends!

Humans though achieve many marvels cannot change human nature;
Also they never excel Nature even an iota being a part of it forever!

Ramesh T A
A Common Thing Competition Is!

Democracy is fight of ideologies to win majority support;  
Competition between rivals ends with the victory of strong!  
Survival of the fittest is seen quite common in Nature also;  
Survival of the fittest is a fact common in world trade too!

Competition and tests are common in selecting the best;  
Natural selection is there, it is supposed, even in evolution!  
The best among the lot is the leader to lead the course  
Whether it is in the macro or micro process of anything!

From the smallest of small ion to the biggest of big Sun,  
From the smallest of small planets to biggest of big stars  
The struggle between the weak and the strong is there  
To take control of the show of magic or circus of Universe!

The competition is there to filter out the best of the masses  
To control the balancing activities of the masses of the whole!

Ramesh T A
A Communion With God!

Image of God
Is to produce vision of God
To commune with God!

Ramesh T A
A Comparison Of God And Man!

God plays by creation in the Universe;
But Man plays solitaire game in cards!

God creates Stars and planets in Space;
But man creates cities and towns in places!

God has created Nature and all by His power;
Man has created Arts and literature by his mind!

God exists everywhere spiritually activating all;
Man moves everywhere mentally calculating all!

God is centre of circle with circumference everywhere;
Man is at the helm of all creations only on the Earth!

God does all in Nature with cause and effect sure;
Man fluctuates between fate and luck in life unaware!

God is infinite and eternal in creation and existence;
But man is finite and time bound in all acts and existence!

Ramesh T A
A Compensation For All Loses Of Life!

So many things we gain and so many things we lose;
This is the way of world life All have to negotiate;
When we are gaining, we are happy and when we are not,
We are sad, but, if we balance both, we will be wise!

To achieve this and to become so, we need experience;
By experience we become mature in dealing all matters
Better than before and do better all things to be ever
Joyful and get satisfaction that brings peace of mind!

What we are doing should be interesting, should give
Us pride and satisfaction to live a satisfied life.;
Otherwise, life needs some compensation to nullify all
Ill effects we undergo and become very hateful ever.!

Some hobby or poetry writing surely compensates all losses
Of our life bringing rehabilitation to making achievements!

Ramesh T A
A Compensation For The Loss Of A Beloved!

Convincing condolences from friends all over the world
Really give relief to the grieving heart for the
Irreparable loss of a beloved soul never to regain!

One in a billion such a gem of woman one has as better
Half to live a life unique to remember forever in life
To lose earlier or later in one's course of life here!

Educated or not, the culture of love is rarely practised
Not knowing its power of influence unless experienced
In one's course of life in this modern world of time...!

I am still searching for such a good soul of love divine
In all my circles in the world while enjoying love of
Poetry with many souls of deep emotion fortunate to have!

Lovely the days will be to have a good time with such
Souls of love to compensate my irreparable loss of a beloved!

Ramesh T A
A Competition Of Life!

Chill wind is blowing even in the day!
Boisterous fly of parrots and squirrels
Fill the whole place with zealous mood!

Winter chill makes all go fast for warming
To survive against odds in life and time
And the game continues with toughness!

Life is full of fun and fury to manage ever
To find a place for each as to one's nature
In the stage of world as said by Shakespeare!

Not the duration but the achievements count
In the journey of life man has to proceed
Till the end of time one has in one's hand!

The rotation of Earth spins man's life to a circle
From the birth to the death in the short or long ride!

Ramesh T A
A Competition Of Nature And Art!

Different shades of colours create a wonderful splendour through Trees and grasses by the rays of Sunshine just above the horizon! What a rainbow of colours the Sky undergoes by the travel of Sun From East to West everyday making artists blink in surprise ever!

Before artist decides to paint a picture of Nature with the selection Of colours, the colours of Sky change with many shapes of clouds! Before making a still of Nature on the canvas, the Sky canvas has Many shades of colour brushed fast over all clouds and Sky wall!

Who is the great artist now - human artist or Nature artist with the Limit being offered to human but no limits decreed to Nature ever? Man's painted canvas has no life except beauty in the frozen state Unlike the living scientific art of Nature constantly created by it....!

Nature and art are like God and man with infinite and finite kinds of Dimensions between them forever as if on a long competition sure! But however advanced man develops by science and technology, He has no locus standi before the grandeur and excellence of Him!

Ramesh T A
A Competition!

Monotony in life can be vanished
If competition is brought in ever!
Then excitement and anxiety rule
The minds of all participants long!
End of competition brings relief
And surprising result engages all
Again to think about the veracity
Involved in the selection process!
Exams qualify in schools and colleges
All who have studied long there;
Likewise in life too competitions
Wake all to life to show valour.
Best among the short listed ones
Really amazes all with surprise!

Ramesh T A
A Complete Circle As In A Dream!

Over all thinking about all - life, world and Nature
Surely can give a vision great and confidence wise!

Vision based ambition then becomes the driving
Force that can move you ahead and make achieve
Really remarkable thing to fulfil one's dreams and
Also, give a new way for the world to follow for good!

A complete picture of everything provides a vision
That surely helps to have aim, goal and ambition
Clear to plan and achieve everything in a perfect
And realistic manner to have satisfaction in the world!

It is the worthy way life can be lived to feel satisfaction
Attaining joy and peace as one gets bliss in Nature,
The final abode inspiring all to do the best in the world
And making life a complete circle as in a full dream....!

Ramesh T A
A Complete Fulfilment!

Achieving all goals leads to grief!
Ambition natural only fulfils well!

Fixing of ambition based on vision
After gaining knowledge worthwhile
Like Self, world, Nature and Space
Perhaps brightens one's way of life!

All else leads only to gloom and grief!
Then searching for redemption leads
One and all to Nature for rescue ever
That we should preserve from pollution!

Life lived with love makes one complete!
Thoughts, words and deeds start from in
But not from out as that leads to labyrinth
From where there is no end to fulfilment...!

Ramesh T A
A Complete Life

Complete life is
Existence, knowledge, bliss, absolute

For all, know ye....!

Ramesh T A
A Completion In Nature!

Freshness and glory of tender flower, if we look around,
We see only in children and women loving all as one!
Similarity of Nature and men and women is unique
As all are part and parcel of one and the same Nature!

Lobes of clouds, Stars of Universe brain of man look alike;
Universal spirit activating everything in the Universe is
The heart of man activating everything within human body;
What is outside is within and outside of man is everywhere!

The tender, beautiful and loving nature of humans are the
Things of Nature that absorb heart, mind and soul forever!
The beauty and music of Nature we see in all living beings
Simply reflect the nature of God imminent in the Universe!

The physical presence of Nature kindles aesthetic, intellectual
And spiritual aspects of man to attain completion in Nature...!

Ramesh T A
Mechanical composition of poem with
Rhythm and rhyme can be done by Robot;
But natural composition of poem can be
Possible only by a human being;
For, robot composed poem won't have
Personal element as that will be only
An expression of poem sans human feeling
And intellectual thought; Whereas
Natural composition of a poem by a poet
Can be identified by personal element of
One unlike others composition!
A style of one's own in poetry reveals
One's individual personality,
Which is not possible by a robot poetry!

Ramesh T A
A Composition To Remember Information!

The Hague in Netherlands and The Prague in Czech Republic
Have a confusing power when we try to remember after a while!
One is the international court of justice and the other is capital,
But always confuse if clear cut way to remember them in heart!

To make it not forgettable I write a poem connecting both as I like;
What a composition many may think of reading this poem broad!
I have to complete my curiosity of writing a poem now about that;
So, I have taken the challenge and do justice to my writing sure....!

Writing whatever we have in mind, whatever we feel and think ever
Poetry is the only medium by which that can be very well done sure!
Writing some information as a matter of reference both by the writer
And for the reader, this kind of practice makes one better and clear..!

European Union is the beginning for the world union that all like to
Have one day for a living of humankind prefer for peace and love...!

Ramesh T A
A Compression Of Ideas!

Compression of ideas
Conversationally and journalistically
Is poetry new now!

Ramesh T A
A Computerised World!

Everything is digitalised and controlled by computer;
Man controlled by machines machine rules man now!
To compete with machine man needs energy strong,
Without which he becomes ill and is thrown out of race!

This is the fate of man brought about by himself here!
Is it called civilisation and is this the way he has to live?
Poet is a free bird liking to dream and enjoy as he pleases;
But now poetic tension builds up before he sits before screen!

Thought process turns into verses of words on computer!
Poems are churned out to keep himself ahead of others
By the publication of his works as fast as machine works!
This has become the routine for all poets world over now!

Which is functioning fast – man’s brain or computer machine?
For the fast people it is a boon but for free birds this is a bore!

Ramesh T A
A Concept Of Independence

Independence of individuals talks about freedom of a nation; Only individuals’ independence assures freedom of democracy. What a free individual thinks and feels, does as he wishes; If a girl can go anywhere at night wearing full jewels, there Only can one see a nation is really free, says Mahatma Gandhi!

But “man is born free, yet he is in chains everywhere,” says Rousseau! Confined in circles of creed, colour and class many are collapsed! Democracy can live in unity in diversity, coexistence and nonviolence; This only can uphold independence of individuals and world nations! Where can we see such democracy with independence to individuals?

Individuals have no place now with the mixing of isms in democracy! There is no point in celebrating independence as it is just a ceremony. To achieve independence knowledge, vision and ambition are needed To implement ideas of talent in action to make achievements to stand!

Ramesh T A
A Concept Of Nature And Man!

Nature is a living scientific art God enjoys best;
Nature’s artistic evolution is God’s grand creation
Of algae, plants, fish, reptiles, birds, beasts, man and divine!

Nature is for evolution but man is for revolution to excel it;
Nature evolves his heart, mind and soul to scientists and poets;
What scientists see in parts poets see as a whole to know truth!

Energy of Nature can neither be created nor destroyed everywhere
As the activating Spirit God gravitationally balances matter and energy
By being present in all pervadingly invisible, invincible and in infinity!

Naturally evolved man has mentally grown to be a superman to develop
Spiritually himself to be a divine to reach God in communion with Nature!

Ramesh T A
A Concern For Peace And Development…

Cascading effect climate change has on all categories of life! Spread of terrorism often affects all of mankind somehow! Despite developments disease, hunger and poverty persists! Concern of all nations is promotion of peace for development.

Global warming due to pollution needs to be taken care of By stopping greenhouse gas emissions from all nations now! Submersion of many coastal towns otherwise can’t be halt In the near future if steps are not taken immediately by all!

Nuclear proliferation is a big threat that may end the world If Atomic weapons are not eliminated from the stock piles! A united effort by all nations in this matter is an imperative; None can ignore or brush aside this dangerous arms race!

Pollution, terrorism and Nuclear weapons are hanging dagger Over everyone’s head reminding death sure for all world men! Wisdom lies in embracing peace and development to save all From whole sale destruction sooner than later all can imagine!

Ramesh T A
A Conclusion!

Night is the time

To decide about the day's acts

To have conclusion!

Ramesh T A
A Conclusive View Of Life!

SONG OF THE LORD

Life is a gift that has to be accepted!
Life is an opportunity that has to be utilised!
Life is a challenge that has to be met!
Life is a promise that has to be fulfilled!
Life is an adventure that has to be dared!

Life is sorrow that has to be overcome!
Life is a struggle that has to be fought!
Life is a tragedy that has to be faced!
Life is a mystery that has to be explored!
Life is a puzzle that has to be solved!

Life is a duty that has to be done!
Life is truth that has to be realised!
Life is beauty that has to be appreciated!
Life is love that has to be discovered!

Life is a game that has to be played!
Life is a goal that has to be achieved!
Life is a song that has to be sung!
Life is a journey that has to be completed!

Ramesh T A
A Condescending Rain In Summer!

Smiling flowers with fragrance enthralling,
Dashing waves of the sea to the shore,
And people walking to and fro on the beach,
I sit and muse over the life of each one!

Stars in the sky watching all from above,
Just started walking children moving joyfully,
Elders walking with stick and others for trimming,
I sit and think about the prospects of each one!

Heavy wind blowing from the south in summer,
The temperature of the day coming down to 30,
Sweating people sitting to get fresh air for relief,
I sit and ponder over the possibility of rain soon!

Small vendors of pop corn and fruits selling fast,
Children and elders munching cucumber in hand,
Vehicles on the road searching for parking lot,
I see the sky above the just started drizzle of rain!

All the show coming to a close at last in a hurry,
All rushing to shelters available near hotel or sheds,
And the rain condescending to intensify a little,
I open my umbrella ready in hand to go home!

Ramesh T A
A Confidence Sure!

Prayer to Almighty
Mitigates oblivion of mind
To confidence sure!

Ramesh T A
A Confident Star!

Oasis in the desert he is for many for many matters;
He is the circus ring master for taming wild animals;
He is the shepherd leading the sheep on safe path;
He is the confident star to many for their salvation;
He is the golden goose for the cunning who control
Indirectly to harvest all golden eggs for themselves!

He is jack of all trade for others but not good for himself;
He is a star shining bright for others but not for himself;
He is a talisman for the development of others forever;
But he is nowhere when it comes to his self development!

All his opportunities are sacrificed for the sake of others;
He is a god to others but he is just a human for himself;
He cannot do anything for the loved ones and himself;
But he is the only confident star leading all to redemption!

Ramesh T A
A Confluence Of Trinity!

At noon reaching Kanyakumari they purchased
The tickets for boarding the barge to cross the sea
From the main land to the Rock of Vivekananda Hall.
The barge left for the Vivekananda Mandapam via
The Rock of 133 feet statue of Thiruvalluvar,
The poet of 1330 couplets of Thrikkural telling
Mankind how human life has to be lived in the world!
The imposing statue of Swami Vivekananda inspires
The soul of every individual to aspire high in life!
"Arise, awake and stop not till the goal is reached!"
Are the golden words of Vivekananda for all Indians.
Yes, the up gradation of human soul is the essence of
Indian philosophy incorporated in the Hindu religion
For all to follow not only in India but also in all nations!
With those thoughts they visited the book stall and
Meditated for sometime in the Meditation Hall there.
Darwin says that man has evolved from animal
But Indian sages say that divinity evolves in man.
That acme of man can be achieved by rationality
And strong will as both animal and divine aspects
Are part and parcel of human nature in the world.

Coming out of the Mandapam, walked they to the lobby

To see the three seas embracing the peninsula of India!

Sea and Sky saw they and became speechless and silent

Before the eternal splendour and grandeur of Nature!

In different angles they took photos of

The emerald green Bengal Sea

And the Azure blue Arabian Sea

Mingling with the milky ocean of India!

Unless some earthquake shakes the status of Himalayas

And the geographical features of Nature in India

The depiction of divinities of Indian Classical literature

Can never be destroyed or forgotten by the world men!

Perhaps mythically a dropp of the Milky Way of the Universe

Might have settled down as the snow cap on Himalayas,

The legendary abode of Lord Siva as depicted in Classics

And the trickling down of the holy rivers of Ganges and Indus

Mixing with the Bay of Bengal and the Arabian Sea has finally

Mingled with the milky Ocean of India, the abode of Vishnu!

Hence pilgrims take dip in the Ganges and Kanyakumari Sea!
A Confusion Over Love And Lust!

Suicides and murders have become common
Due to failures of one-sided love among youths!
There is great confusion they are not aware of
Between love at first sight and lust at beauty!

It becomes necessary to know what love is and
Also, what lust is to clear out all confusions ever!
Love is selfless act of out going concern for others;
But lust is selfish act of satisfying carnal desire...!

Precious life is lost by suicide or murder due to
Wrong understanding, passion and haste in life!
Even in the cinema, climax scene comes only at
The end; if so, life has long time to decide a thing!

Hasty decision leads one to wasteful act in life
Having no redemption, compensation, recovery!
Love is an outgoing concern for the loved being
And never a lustful possessive act of selfishness!

Ramesh T A
A Congenial Place To Meet!

Flower plants have grown to tall flower trees!
Yellow and red flowers abound everywhere
Making the private park an exclusive place
Creating the impression that it’s not for public!

Many a time have I gone there in to see all;
There is no one to stop the appreciation of
The beautiful flower plants and decoration,
A wonderful place of charity meant for peace!

It is always nice to wait for friends before it
On the other side getting cool breeze of sea!
Many a time have I met my friends so full of
Fun and enjoyment never gone futile ever!

A place to meet and discuss matters all need
Congenial place for friends to do well in joy;
That place is this private park before the beach
For many years serves the purpose well wonderful!

Ramesh T A
A Congested Mechanical Life!

Mechanical life flourishes in big congested cities;
Frustrated by mechanical life all rush to farm resorts
On holidays to breathe free air and get peace of mind!
Beaches are supposed to be away from congestion;
But unluckily govt. has exhibitions of different kinds
Believing people will visit and boost sales for all there;
Peace gained there is lost by the people seeking peace!
Where is it to find peace then and meet people for solace?
Urban life invades places of Nature, beauty and peace
And dominates privacy of people too making glass abode
The life of many in the name of social good quite contrarily!
Likewise congested world cities have created satellite towns
Eating away agricultural farms and agricultural activities
Driving the world in short of food due to mechanical life!

Ramesh T A
What a sea change we see after four decades in life!
Is it not amazing to see what we have achieved, friend?
So many things look to be unconnected in life you know;
But everything is interconnected in the world of man!
We friends, I mean our five friends, had a great dream -
A dream to explore and discover the truth behind all
In culture, literature, religion, philosophy, science, art...!
Our interests were in business, administration, literature
And theirs were in religion, philosophy, politics and science!
Everything looked to be disjointed and unfeasible indeed!
They tried to fool all without knowing how links to be found
But you became an administrator and I an industrialist.
I fulfilled my ambition and discovered the connection for all -
Nature is the connection for Science, philosophy, literature!

Ramesh T A
A Conquer Of Self!

Conquer Self
Before conquering the World
Unlike dictators
Who failed to conquer the World
For, they failed to conquer Self first!

Ramesh T A
A Consolation Ever Free!

The town when just trying to wake up
Sun peeps through the screen of clouds!
The grey shade of Sky slowly turns blue
By the ever increasing brightness of Sun!

A pleasant morning it is indeed to feel
Before all chores of day begin as usual!
Next, doctors and students hurry up
To leave the house for profession to see!

Household acts afterwards begin the day
For all family members to deal matters!
Expenses high make all look for constraint
To make both ends meet by March end!

All issues pressing heavily only consolation
One can look for inspiration is Nature free!

Ramesh T A
A Constitution Of Culture

Best knowledge,
Thoughts, words and deeds
Constitute culture!

Ramesh T A
A Continuation Of Difficult Time!

Education for day today life is of utmost importance to all!
Education is the general base for future life in the world.
Dissatisfaction in education spoils good life in the future
And difficult time for many continues still from childhood!

The only option left happens to be religion for guidance;
Dharmic life of religion to follow nonattachment consoles
And helps to balance between profit and loss in life much.
Otherwise art, music and Nature compensate loss ever!

Leaving life, human and Nature it’s impossible to devote
Oneself in spiritual life to forget all in divine bliss instantly.
Peace of mind lost in life can be regained in poetic dreams;
Expressions of poetry give joy and peace nothing can give!

What is denied by real world and spiritual world, dream world
Of poetry solves all and leads one soar high to sublimity ever!

Ramesh T A
A Continuation Of Love And Hate Affair!

Two lovers
Couple together after long
As one soul!

Lightning and thunder
Accompany with the coupling of clouds
To melt down as rain!

Magnet attracts
Iron to couple together intricately
By Nature firm!

Snake and mongoose
Like rat and cat hate ever
By Nature strong!

Love and hate
Continue ever night and day
In the world!

Ramesh T A
A Continuation!

Crescent Moon disappeared
But many bright Stars appeared
Yet the night continued!

Ramesh T A
A Continuous Composition Of Poems!

Poetry is the expression of heart, mind and soul in one;
Points mixed in order with words from heart is a magic
Only a gifted poet can do in a spontaneous manner ever!

Before and after the composition of a poem is unknown
Even to the poet, because the poet begins by inspiration
And after the work is done, forgets all like of a vision!

That is the way such a poet can muse over new ideas again
Sans having any resemblance of the previous ones composed
Earlier in the same mood and inspiration he follows next!

Otherwise, the continuous composition of poems one after the
Other will be stopped with the mind ever lingering on the
Already composed poems till they come to a standstill sure!

Poetry is a unique world of poet no one can enter by any means
Unless one becomes a natural poet with a heart of creativity.!

Ramesh T A
A Contradiction Of Earth!

The squirrel music is interesting to hear at the breakfast;
The signaling music goes on for sometime here and there!
The hot breeze makes all close doors and windows at noon!
The hot spell makes all movements silent till Sun tilts down.

Before twilight cool breeze enters town to cool down all,
But hot wave lasts till eight in the night even in the beach!
A relief everybody gets seeing the joyful movements of all!
It looks paradise lost has been paradise regained at last!

Singing birds, dancing peacocks, swimming swans, leaping deer,
Flying parrots, running squirrels, colourful flowers and fish
Painters, sculptors and poets have immortalised in their art
And many more exquisite scenes of Nature they depict ever!

Forest fire, volcanic eruption, tremors and Tsunami terrorise all;
Droughts, torrential rains, flash floods and typhoons torture all;
Global warming due to pollution everywhere and deforestation
Due to man’s greediness or base nature lead Earth to extinction!

Both hot and clod climates blow hot and blow cold in the life of all;
Testing of nuclear bombs and improper handling of nuclear wastes
Cause radiation danger hanging over the lives of all forever and ever
Making Earth and man’s life a matter of bubble ready to burst anytime!

Ramesh T A
A Contradiction Side By Side!

Cool lake with swans and storks minding their job
Looks soothing and heavenly for any town dweller!
Too much traffic congestion and busy working days
Make sick of a person whoever lives long in towns!

Long job caution, concentration ends in sleeplessness
Making one always in a state of delirium in hellish life!
Relief and respite are rare one gets in fast buck work
Turning one workolic as an alcoholic addict incurable!

What a contrast between lake and town side by side!
Hell and heaven tossing life of men in oscillation ever!
Redemption comes perhaps only after death from Earth!
So, is the Earth a testing ground for man in the Universe?

Day and night, love and hate, beauty and ugly, life and death
Are two sides of Earth and life in the world of man in Nature!

Ramesh T A
A Contrast Of Traffics On A Journey!

Travelling miles together on straight road,
It is beautiful to see green casuarina trees
Like the Conifer trees in snowy hills ever
Along on either side of the road out of town!

Beautiful blue Sky with a few white clouds,
It is very nice with bright Sun shining all along
Travelling to the next town nearby on our way
To the metropolitan city for two and half hours!

Being a morning journey, there is not much
Traffic on the way till we have reached the city
Before noon before we caught in the middle of
A great traffic jam putting us in great surprise!

City life full of machines and vehicles welcome
All once we have entered the city at the start itself!
All two wheelers, car and bus users negotiate traffic
Very well keeping rules in a matter of fact way....!

Ramesh T A
A Contrasting Nature!

Nude the trees become to have bath in rain
Before having turkey towel of white snow on
To cover the body for warmth before dressing!
The changing attire of Nature is unique indeed!

The lover of change ever Nature never wears
The same kind of dress as it’s against fashion!
The changing dresses denote various seasons
That we celebrate under various names ever!

From Spring on Nature wears colourful dresses
And makes itself bare to have Sun bath sometime;
Then throws away all dresses on to have rain bath;
Such a clean fellow Nature is longing for pure white!

The creepers, parasites and vermin we are ever
Like to have the same kind of treatment to be safe!

Ramesh T A
A Cool And Hot Situation!

Art and Nature are beautiful and cool!  
Misty hills and valleys look cool and fine!  
Water falls and rivers go smooth ever!  
Everybody loves to enjoy time there!

In the town it is full of noise and pollution!  
Everything goes fast from morn till evening!  
In the night there is no air and it’s hot as day  
Due to hot days extending even after summer!

Peace of Nature is last in the din and bustle of town!  
Exploitation of forest for raw material and energy is bad.  
San recycling of resources how can Nature be restored?  
Economic growth fast sans sense of human future is hell!

Noting down the symptoms bad now is most needed  
To save the peace and progress of future human world!

Ramesh T A
A Cool Atmosphere Of Nature!

Hot day transforming into cool atmosphere by clouds
Makes it look winter continuation even after the season!
Concentration of winter though diluted the chill is there
Making setting of next season slow due to natural change.

Still heavy rain with floods in some parts of the world,
Snow accumulation in some parts and hot season beginning
Nature never relents to man’s exploitation very easily ever
Till everyone understands and respects Nature with care!

Reminds it that under the mercy of nature everything functions
And nothing can change the dictum whatever be man’s skill
To create a modern world of technology against Nature ever!

To have a good end means followed should also be good;
Bad end nobody likes indeed though means followed is bad;
Nature never allows greed to excel natural order by any means!

Ramesh T A
A Cool Cloudy Day!

Winter solstice has come, clouds have come and also,
Some rain has fallen to make the roads have wet look
Making squirrel families joyful to jump and run all
Around my place in great pleasure inviting winter sure!

What a joy and pleasure such brisk activities of these
Little creatures inspiring one and all to be so to get
the zeal they all enjoy and be quick to work damn sure!

For, heavy rain is sure to come as the indications of
Such a natural event is displayed by black clouds that
Are already gathering all over the sky today morning!

Slowly hill like situation is turning here in the town
And the thoughts of days spent in cool resort comes to
My mind and increases that mood with pleasure unique!

Cool cloudy sky bringing the mood of a hill station is
Surely a great pleasure to enjoy while doing usual work!

Ramesh T A
A Cool Night Soon!

Though drizzles come
And the temperature is still 33
When will night cool down?
Pour water on thermometer
The night will cool down soon!

Ramesh T A
A Cool Night!

With wide clouds in the sky
And Moon light shining in the sea
Night cools down after long!

Ramesh T A
A Cooperative Need Can'T Ne Neglected!

Due to greenhouse gas pollution oxygen is dwindling in atmosphere;
Due to pollution and deforestation global warming has increased;
Due to global warming world wide climate change has settled;
Due to climate change droughts and sudden floods come often!

Pollution free energy security needs to be established by nations;
Nuclear arms built up and terrorism threaten world on one side!
Poverty and hunger due to world economic recession pose problem
And cascading effect of deficit affects all nations on the other side!

Extreme zig zag climatic condition and economic slowdown affect all;
Collective world efforts to eliminate terrorism and boost economy
Every nation has to coordinate suitable works as a whole for the world.
So, cooperation and coordination by friendship need to be strengthened.

Nil efforts of world nations will certainly lead the world to destruction
Underscoring the need for sincere cooperation by all to save mankind!

Ramesh T A
A Correction For Consequences Of Cold War!

Haven nation for the terrorist outfits is ever in chaos;
But the person in power wants to rule people forever
With the support of Stateless terrorists fostered by it
During Cold War period aligning with Super Power!

Neighbouring States are ever in the alert to avoid all
Menaces and mayhems being perpetrated by terrorists!
Despite all defensive measures, cross border infiltration
Seems to go on unchecked certain times messing all...!

Despite condemnations by Super Power and neighbours,
Havocs occur in different new locations in and around
Other States as the nation for haven for all terrorism is not
Able to tackle and set-right the chaotic situation there...!

Consequences of Cold War is the outcome of terrorism in
The world needing to be eliminated by all nations as one!
The time for such an armageddon has come up now for
All nations to join together to bring peace to the world so!

Ramesh T A
A Correction Of Religious Heads Need Of The Hour!

Unity, universal brotherhood, love and peace preach all religions; They are all revelations directly got from God they all say to all! But imams, bishops and gurus wish to control all by their diktats Their strong rogues, ruffians, rascals and rowdies terrorize people!

Such religious heads are termed as radical religious bigots ever; Now they are the greatest threats to world peace and harmony Needing to be dealt with by peace and progress loving nations By international political talks and military actions if necessary!

Especially the religious states of backward and unrefined religion Not knowing how to deal with them and control their followers Are posing as greatest threats to their regions and world at large Fostering terrorism and destroying lives and properties mindlessly!

By force nothing could be achieved in the world not only in the past But also now and forever as love is the only greatest power in the world! This those religious heads should realize, correct themselves and followers To work for love, peace and harmony to achieve progress and prosperity!

Ramesh T A
A Corruption Disease!

Some are born corrupt in the world life;
Some become corrupt by circumstance;
For some corruption is thrust upon them!

Currency note ban hasn't stopped corruption;
Money demonetization doesn't changed all;
Net banking is not possible for small business!

Once a thief is a thief forever in the society
Stealing instinct can't be stopped overnight;
Unless thief corrects himself theft will be there!

Black, fake monies flourish by govt's support;
White and black rulers and admins are there;
Unless all are honest no change is possible!

Indisplined democracy and freedom breed bribes;
Corruption is a virus that infects good and bad...!

Ramesh T A
A Costly Product Peace Is!

Dying and living we live life to fulfil life destiny here;
Peace has become costly product as wars are frequent.
Sans stability and peace can development be possible
To enhance quality of life to live better than before?

With the destruction of trees, farms, forests for urbanization
And industrialisation peace has gone to pieces everywhere
By increase of population, pollution, noise, violence and wars!
Thereby with the increase of diseases, economic crises and
World recession peace of mind of all men too has gone away!

Diversion to get peace of mind man seeks the aids of drugs,
Indulges in short cut routes to accrue money to meet out
Both ends of demand and supply to manage day today life!
Thereby falls man into the abyss of crimes endless not knowing
The way out of entanglements till the end and dies uncared!

By unity, reason and cooperation many obstacles can be cleared;
But adherence to wrong policies and circles keep all in troubles!

Ramesh T A
A Courage On Stage Only!

Twisting mustache
For just one day's play
Next day it's gone!

Ramesh T A
A Course Long!

As long as
Sunset is there in the world
Sunrise will come!

Ramesh T A
A Course Of Nature!

First new flowers of the year have bloomed!
Leaves are growing in more numbers daily!
Rich Sunshine and ample water enrich soil
For the plants to grow faster for the Spring!

Hopelessness of state has turned to hope
Bringing new joys and cheers everyday.....!
It's a good omen to see smiling flowers
And rich growth of green leaves in Spring!

Rain too seems to come often in the year as
The way sky, clouds, trees look from now on!
Last year’s rain will repeat its cycle this year
Also triggering growth, prosperity guaranteed!

Predictions of almanac have not failed generally
In many previous years the course of Nature sure!

Ramesh T A
A Course To Satisfaction!

Peace and happiness come of satisfaction by fulfilment in life;
Satisfaction comes of what many explore in the world life long!
Is it from sex or intellect or mysticism in the world, art or Nature?
One’s nature and capability when put to use in work it’s possible!

Just knowledge and wealth without use in work will be of no use;
Dissatisfaction many get due to unsuitable jobs all do everywhere!
Inventive and creative work in technology and art elevates spirit
And by accomplishment in a field one can achieve satisfaction sure!

For life peace and happiness one gets by spiritual fulfilment here;
Buddha, Jesus, Mohammad and Gandhi come to mind immediately!
Love, nonviolence, peace and truth they have advocated as the path,
The best way to achieve peace and happiness in the world life for all!

But using all these creeds men quarrel all round the year in the world
Making men of peace seek the bosom of Nature to get satisfaction finally!

Ramesh T A
A Coverage Of Culture

Best of Art, music,
Poetry, science, religion, politics
Cover culture!

Ramesh T A
A Cow Into Tiger!

Just for look he is

A cow but when he jumps

He is a tiger!

Ramesh T A
A Creation Of Beauty For Joy!

Facing so many things we gain experience in life;
Life is full of opportunities and disappointments;
Disappointments make one's will strong to go ahead!

Ahead of all one has to see things to achieve laurels;
Laurels are achieved after a lot of hardships on the way;
Way of life is culture having best thoughts, words, deeds.

Deeds one does show the expression of one's personality;
Personality is the developed self the world sees about one;
One of a kind works of a person stand unique in the world!

World view is necessary for having a broad outlook ever;
Ever best expressions of one enhances one's stature above all;
All things of one's act, if done with perfection, creates beauty!

'Beauty lies in the eye of the beholder' is a romantic view;
Viewing perfection in all, a thing of beauty is created for joy!

Ramesh T A
A Creation Of One World By Love!

Love takes place by Nature between persons;  
Natural love strengthens bond between lovers;  
No force on Earth can separate bonded lovers;  
Literature and history have evidences for that.

Love develops based on the natures of persons;  
Language, religion, race, nation are no barriers  
For the development of love among persons  
Prospering humankind towards divinity strong!

Love is beyond all barriers and relations on Earth;  
Unity of humankind based on love does miracles  
Benefiting whole of human race in peace and joy  
That subsides differences and embraces all as one!

Romantic or platonic love gives confidence and hope  
For mankind to move towards creation of one world!

Ramesh T A
A Creation Of One World!

Quality and excellence
Have dropped in all fields
To mediocrity!

Violence raises its
Ugly head in economic pursuits
Overshadowing social thinking!

Economic exploitation
Destroys art, nature, culture
Turning society savage!

So, the need of the hour is
Preservation of Nature, humanism
And creation of one world!

It should be governed by
One language, currency
And same laws for all!

Ramesh T A
A Creation Of World Of Heaven!

Children build castles playfully on the beach sand;
Poets build castes in the air and create poetry fine
Like the photographer captures them in camera!

Castles built on the sand are washed away by waves
But photo of castles captured as poetry on paper not!
Children play for fun creatively but poets constructively!

For both the pleasure they derive out of creativity is vital;
Otherwise where is creativity at all in the material world
Full of competition and crimes for amassing wealth ever?

Play and work of children and professionals are fun;
But fight based on competition kills the creative power
Fostering the mind with negative thoughts to destruction!

What is started at childhood should continue for construction
But not for destruction ever to create the world of heaven!

Ramesh T A
A Creative Dream!

Kaleidoscopic dreams are beautiful
As the architectural beauty here!
Beauty of Nature reflected in art
A wonderful dream it is to muse!

Nature, art and dreams are colourful
With the imagination enhancing scope
To see a wonderful creative process
Materializing into great master piece!

Dreaming in Nature mind of art finds
Wonderful pasture to enjoy unique joy
Leading the poet to compose poems
Artistic, natural and fantastic forever!

Mind full of artistic ideas engrossed
In Nature poets dream great wonders!

Ramesh T A
A Creative Expansion Of Nature!

Creative expansion of Nature in the Universe is incredible wonder
That has kindled the creativity of poet to compose poetry great,
Provoked the urge of philosopher to unearth the hidden truths,
Triggered the mind of scientist to invent new things to go high!

Everyday Nature is like the Bodhi tree that has enlightened sages,
That has given solution to social thinkers to solve problems of all,
That has kindled the thoughts of scientist to discover gravitation,
That has swayed the heart of poet to write great masterpieces sure!

From Nature, man has created art imitating the beauty eternal
Haunted and enlightened ever unable to forget in heart or escape
From the influence or clout that has magical power to make all
Do as Nature does by creativity eternal to give a sense of fulfilment!

Being part of and evolved from Nature, how can he forget it and
Pursue in annihilating it for material progress and comfort not
Knowing that he destroying the very root of man's existence in
The world full of beauty, love and joy, a paradise of Universe!

Ramesh T A
A Creative Work Of Art Rare!

Creative work of art absorbs the mind of everyone;
Kindles imagination beautifully to the world exotic!
Nature in art produces splendour sublime forever
Transporting whole soul to divine eternal at anytime!

Beauty of art born of Nature endless rejoices soul;
Brings heaven to Earth for man to enjoy life divine
Rejuvenating worn out soul to new life once again
To face endless problems of world to wise end ever!

Creative work at its best is possible only by freedom;
This is in the hands of the individuals despite no scope!
Many immortal master pieces are born so in the world
And such works of art have become rare now, wow!

Creative poetic works rare never seems to appear here
Despite there are vast scopes created by modernity, ah!

Ramesh T A
A Creativity Of Poetry!

Reflection of thoughts of feelings and imagination, After visualization of the whole, is Crystallized Into ideas a poet expresses into poem in literature!

This is how poetry is created by poet in the world of Literature for the people to reflect, think, comment And criticize for sharing ideas in the human world.!

Expression of the whole matters in perfect form only Gives satisfaction to the poet and only when gem of Ideas is appreciated by the reader, one gets real joy!

This is the life activity of a true poet in the world; Unlike all others, a poet gets fulfilment only in this Way more then anything else one has done so far ever...!

Waves of thoughts and imagination never stop in a poet Like the ever running time till the end of one's life!

Ramesh T A
A Crescent Moon In New Moon!

When Moon comes twice in the same month,
The second Moon is known as Blue Moon...!
But the first Crescent Moon appearing when
The new Moon comes in a month is rare indeed!

Crescent Moon hidden with the Black Moon,
That is new Moon is appearing tonight to see!
A rare phenomenon of Nature to witness once
In hundred years, they all say, is quite new indeed!

Before going to see the Sky, one will be disappointed,
If the Sky is covered with rain clouds to make true
The prediction of Meteorological department that a
Heavy rain will fall in the night is a great disturbance!

When we are all eager to witness a rare phenomenon of
Nature, it will be quite a distraction, if the rain clouds
Come and stand as buffaloes standing on the centre of
The high way road blocking the fast run of a car or bus!

Ramesh T A
A Cricket Culture!

Is cricket in India a passion or religion or culture?
From six to sixty everybody loves to see cricket;
So, Cricket is a passion, religion and culture here.
That too when World Cup Cricket games start, it’s all!

"Eleven fools are playing and eleven thousand fools are
Witnessing the game," said G.B. Shaw about Test Match.
But One Day Match totally changed the nature of Cricket.
So, when 11 Indians are playing 110 crore hearts beat here!

The question of everybody now is, who is going to beat who?
Betting on matches goes beyond control all over the world.
Beating all emerges one as winner after a month and more;
Until then day and night in the mind cricket comes to the fore!

Captain Kapil Dev won World Cup in 1983; and in 2007
"Will captain Dravid win World Cup for India after 24 years?"
That was the one million dollar question everybody mused
In the home, school, college, office, hotel, park and beach!

What is the significance of sports in the world arena today?
Sports stop enmity and breed fraternity among all nations.
The passion for war to win is transferred to sports in spirit
That activates the skill of all players to contribute the best.

So, Wars of the World have become the wares of the worn out.
When this is so why there should be wars in the name of any;
Is it not funny to go to war to solve the problems of mankind
Like the savages did thousands of years ago before civilisation?

Defeat or victory cannot be predicted and so, it is immaterial;
But the materials of the defeated may be destroyed by men,
Whose expectations are not fulfilled in the world cup match!
So, has the attitude of men changed although world chooses sports?

Ramesh T A
A Cricket Fever!

Cricket fever
Catches all players fast
With Audience!

Ramesh T A
A Critic And Work!

A critic only knows the difference between true and false; Critical observation helps to know nook and corner of things; Only a critic knows differences of things whatever they are; From accurate facts a critic only intellectually knows truth!

Formal, social, literary and ideological criticisms he does much And exposes the bad and ugly and praises the good everywhere! He brings everything under the roof of criticism to praise justice And condemn injustice in such a way as to make justice prevail!

Role of critic is vital in the field of journalism to save democracy Strengthening judiciary, legislature and bureaucracy to do better For the good of human society making the world a better place And mankind to live as one family with one world government!

Not negative criticism which is just fault finding but positive one Which is constructive criticism leads the world by a critic’s work!

Ramesh T A
O Matthew Arnold! You should be living at this hour!
For want of good critic like you nothing is going on well;
All kinds of writings in the name of poetry abounds here!
In your time seeing such turn you wrote Study of Poetry;
You also analyzed all poets and listed the best ones then;
Now there is no one to do that job for the prevailing poets.
You established Touch Stone Method of deciding the best;
Placing the lines of Homer and Dante you analyzed all;
In your scrutiny even Spencer, Chaucer and Shakespeare too
Could not make a mark except John Milton, the erudite poet!
That was too much and yet it laid some guidelines for all
And helped those poets to think about on them before writing.
Now what guide lines or rules can be framed for poets today?
Only a poet critic like you can do the job to decide about the best!

Ramesh T A
A Critical Speculation Of God!

Critical minded men don’t believe in a form of God;  
God is a formless spirit pervading everywhere, believe!  
Such a God how can be visualized and worshipped?  
Mathematical supposition of x, y, z is to find unknown  
By working out steps until the result God is arrived!  
That is why many forms and names are there for God  
Which works out well for many in the world for long!  
Theists and atheists are always fighting for their theories  
Without finding a solution suitable for all to accept here!  
Stars, planets and matters are balancing by gravitation  
Which is a wonder of Nature activated only by the Creator!  
It is not a matter of dice to play and enjoy fun forever!  
Laws of Nature are yet to be connected to know the whole  
Working this wonder called Universe forever and ever!

Ramesh T A
A Critical Time For The Winged Creatures!

Rainy season is a critical time for the winged creatures!
Lovers of freedom these creatures find it difficult to move;
Drying up the wings to fly takes hell of time sometimes!
Also availability of food is very doubtful to pull on the day!

Despite hot climate summer is enjoyable and comfortable;
Of all, ants make use of summer to hoard all things in holes
And spend them joyfully and comfortably in the winter full!
But for the winged creatures it is hard time and time of death!

Migratory birds so take off to green pastures in the winter
And finish mating and breeding comfortably just in vacation!
For small moths, grasshoppers and flies it is death time sure!
Rain time is very difficult time for the poor and homeless too!

Hard work of rest of the year only can help all in the winter;
A critical time rain is not only for birds but also for men ever!

Ramesh T A
A Critical Way Of Assessing Truth!

Knowing truth
Is intellect whatever idea of
Whatever matter!

Knowing truth also
Is intellect whatever idea heard
From whoever!

Criticism is
Analysing truth of poetry
But not poet!

Critical judgement
Is based on text of poetry but not
Personality of poet!

Ramesh T A
A Crow Song!

Parrots, mynahs and pigeons are there;
Eagles, sparrows and squirrels are there;
But crows are the common birds here!

As the IO of computer language everywhere
The KA of crow language is heard everywhere
With ka..., ka.... sound crow makes all signs!

With kaa...., kaa.... crow calls all its fellows!
With ka...., ka..... sound it preys to close men;
With it simply it means “give me, give me” well!

Crows are social creatures loving unity ever;
Crow is a daring bird to clutch food from kids!
It raises water in pot putting stones to drink!

A crow song may be irritating but it is clever,
Of all birds, to scavenge and survive longer!

Ramesh T A
A Crown Of Literature!

Creating order out of chaos is beauty;  
Creating idea our of thoughts is poetry!  
Poetry paints beauty out of truth ever.

Poetry is expression of love pure in heart  
That touches all readers to live forever  
In their memories till the end of time...!

Beauty is the perfection of expression in  
Words poetry does by the creativity of  
Great poets world loves to cherish in heart!

This beauty is truth and a thing of this  
Beauty is joy forever pleasing the heart  
When all fails to support one in life sure!

This kind of panacea nowhere one can find  
Except in poetry existing as crown of literature!

Ramesh T A
A Cry Of Nature!

Clouds cover canvas of sky with darkness;
Greenhouse effect perhaps fills the world!
No sign of monsoon rain seems to ease....
The angst of men feeling drought very hard!

Ice melts on whole of Green Land says TV news;
Water level of seas is increasing every year....!
Due to heat water of seas too sure evaporates; so,
Dry lands of agriculture people sell as plots sure!

Prices of commodities increase as a result of all things
Making men feel much heat not due to sun but food!
Oil and gold have taken flight to the sky in rates;
But food grain too how can take such a flight, mind!

Only if Sky cries with rain Earth can smile ever
With rich crops to feed her children full sure....!

Ramesh T A
A Cultural Difference!

What Americans
Do in the beach Italians do
In the bedroom!

Ramesh T A
A Culture

Knowledge from experience
Helps to create human culture
To live wise world life!

Ramesh T A
A Culture For Human Perfection

Just economy, science and technology can't make society progress;  
Knowledge of economy and technology can't make education complete  
Sans humanities like literature, arts, history and religion anywhere!

Globalization of economy of nations has started financial competition;  
Sophistication, comfort and luxury need more money to maintain;  
Economic development at the cost of social development brings all ills!

Modern world by technological advancement has made civilized society;  
Civilized world is a farce due to hunger, poverty, unemployment and ills;  
Materialistic pursuit to become rich has made man into machine-beast-man!

Reforms are needed in education and governance to promote human culture;  
Real civilization can be built only by fostering human culture from the start  
For harmonious human development towards perfection desirable and healthy.

Today's industrialized world society is heading towards dystopia only sure  
As was depicted by Aldous Huxley in his Brave New World to warn world  
And by George Orwell in his novels like Animal Farm or 1984 in 1930s itself!

Technologically brainwashing the people as was envisaged by T S Eliot......  
The world can be turned only as The Waste Land sans human sense and feeling  
Driving the world to the brink of destruction with people having death wish ever!

Technological supremacy and terrorism threatening world peace as two forces  
Opposing each other like the fight between civilization and fanaticism show  
Very clearly underscoring the need for harmonious human perfect in society!

To change people with indifferent attitude, insensible nature and inhuman mind  
Only the education that kindles individuals to aspire for cultural advancement  
Can enrich human value leading towards human perfection that has power  
To appreciate beauty and bring out truth in all to disseminate love and joy!

1 'Culture only provides power to understand and enjoy best things in life  
Like books, pictures and music connecting work and play into one piece'  
And is the best way of life for best thoughts, talks and deeds in the world!

2"Culture lies in the love for and study of and pursuit of human perfection; '  
This is the harmonious expansion of all the powers that certainly make
The beauty and the worth of human nature possible to realize in life......!

2“Pursuit of human perfection is the pursuit of beauty and truth, and.... Hellenistic knowledge of Greek Classical beauty for achieving excellence In human nature and Hebraic idea of Jewish action of fulfilling will of God! ”

2“Human spirit behind all the great works of literature, arts, science and religion Aims at the harmonious human perfection leading towards the development of All the sides of humanity, ” which is the job of human culture in the world ever!

3Philosophy is the love of, study of and pursuit of knowledge, wisdom and truth; Knowledge is acquired by hearsay, experience, reasoning and intuition and also, It is obtained by sense experience, mind, ideas out of impression and reason!

3Mental stimulus is transformed into perception to conception or ideas; Perception is disordered stimulus and conception is ordered perception; Science is ordered conception and wisdom is ordered life in the world!

Education that does not provide philosophic touch and human culture But only civilization by science and technology will make the world a hell That destroys art, literature and nature leading to the extinction of humans!

Ramesh T A
End of October is Halloween's day!
Light burning inside pumpkins
Before the entrance of each house
Marks that day very well to all!

Evil spirits coming out of graveyards
Let free on that day make scary all!
Morning of the day men in mask
Roam about streets to celebrate that!

All evil things are remembered in winter;
All joyful things are celebrated in Summer;
Seasonally cultural matters occupy all
With the religious quoting praising God!

All festivals psychologically prune mind
To face worst things with best mood ever!

Ramesh T A
A Cut Of Tail!

Don't shake tail
It will be cut to its source
If you do!

Ramesh T A
A Cynosure Of Heaven!

Musing in Nature makes the mind broad!
Broad mind gives the chance for thoughts;
Thoughts full of great ideas spring fresh...;
Freshness of mind makes all look beautiful!

Beautiful way of thinking and feeling lead
Leaders to do great things for humanity sure!
Surely only such things make the world better,
Better place to live for mankind forever in life!

Life can become a bed of roses, when things change!
Changes made out of reforms and developments
Develop people's life style to live better in the world;
World will turn as heaven and paradise forever for all!

All these things of better life in the Utopian world nice
Nicely and wisely make Earth a cynosure of heaven....!

Ramesh T A
A Daily Rejuvenation!

Fast breeze is coming from the sea;
Hot summer day has ended coolly!
Evening looks to be enjoyable for a
Long walk in the beach till night!

Nothing can be compared to that;
It's energizing and enthusing all!
Many come for the unique pleasure
One gets on such a lonely walk there!

Then sitting on a lonely place looking up
The sky filled with twinkling stars
All night as heavenly as heaven can be
With a crescent moon slowly coming down!

The day has ended with rejuvenation needed
In communion with Nature energizing ever!

Ramesh T A
A Dance For Relief!

Dancing is an art that makes one forget all worries;  
Dancing to a tune relieves one a while from tensions;  
Dancing according to music makes one really free!  
Dancing and singing make one enjoy pleasure fine.

Dancing, singing and playing music makes one divine!  
Shaking of body, hands and legs beautifully is dance;  
Sake dance, break dance, clap dance are all real fun!  
Dancing makes one healthy and beautiful life long!

Dancing is a balancing art as the Stars do in the Universe!  
Dancing for balance is beauty that attracts all to dance  
And make the company joyous to forget time and worries.  
So, man visualized God as Divine Lord of Dance to dance!

Dancing, singing and playing music is a wonderful art  
Poetry has prompted man to visualize and realize in life!

Ramesh T A
A Dance For The Better!

Request of a lady for a dance has brought me
A chance to come to my senses sitting alone
Near the widow seeing the moonlight out.....!

What a pleasant surprise it is indeed I have felt
And danced with her to the tune we preferred!
Nicely the mood has changed for the better too!

Being a new experience after a longtime so there
I have the honour of introducing myself to her
And she has also gently expressed about herself!

Settling to a separate table we have ordered for
A modest dinner to sign off our visit to the club
And how the time has gone no one knows for sure!

Dance indeed has an effect that lightens heavy heart
And changes the mood for the better to think new...!

Ramesh T A
A Dance Of Passion!

All thoughts converge to that single pursuit;
Beauty kindles heart seeking union soon...!
Care free life it needs as in romantic realm;
Dreams add fuel to fire of love endless.....!

Enticing juicy beauty enhances desire lustful;
Force of sensuous pleasure welcomes anytime!
Gushing out passion for tight encounter ever...
Intelligent or dolt, it never sees till object is met!

Joint ventures of opposite poles attract much
Kicking drowsiness to dream land fantasy long!
Lustre of sensuous scent augments vigour more!
Muse of erotic dance enthuses more than ever....!

Nostalgia of cherished dreams gets a chance to play
Opening all doors and windows to show all beauty!
Queen's pleasure never ends soon with fast end...!

Royal reception with all paraphernalia accompanying
Slowly but surely it takes to full crescendo to peak
Touching the tip of heaven never losing temper ever
Universal enjoyment of pleasure in expanding mode
Various forms of kaleidoscopic dance rule all time...!

Web of erotic pleasure never leaving the prey sure;
X or Y cannot know how to leave the labyrinth till
Yearnings of all kinds are fulfilled by dance exotic to
Zenith state and subside slowly to normalcy with peace!

Ramesh T A
A Dance Rhythmic!

Sun singing dusk
Sea waves dance on
In rhythm Universal!

Moon singing song
Waves of sea dance
In rhythm Universal!

Sun and Moon sing
Day and night songs for
Sea waves to dance
Forever and ever in
Rhythm Universal!

Ramesh T A
A Dance To Another Dimension!

Smoke of incense dancing as lady in a dream
Always takes one to the world of dizzy rapture
With the swaying fragrance leading to exotic
Place of romance that unfetters all shackles sure!

The dancing golden yellow flame with luminous
Blue light burning inside attracts one like the dame,
Who takes one by hilarious dance movements to the
World of dream before the incense burns in smoke!

All romance indeed proceed by dance of gorgeous
Dames whose beauty absorbs whole heart in trance
Quite heavenly as in an endless dream of night that
Long lasts till the dawn disturbs the sweet sleep soon!

Swaying dance of gorgeous dames takes one to heaven,
Where divine beauties dance to amuse and please angels
In a timeless state of bliss lasting to yugas as limitless as
Space quite infinity in dimension to another dimension!

Ramesh T A
A Dancing Mood!

Night long rain

has created dancing mood to

birds, trees and men!

Ramesh T A
A Danger Of Forest!

Fairy tales abound with forest as base;
Many weave wonderful stories there!
Forest of Jurassic Park kind is alarming
To be in the night times especially sure!

We love Nature but forest is wild to live
Along with wild animals of dangerous kind!
Africa's drums of destiny nobody can forget;
Survival of the fittest only can thrive there!

Adventure in forest is real to face and win
Especially for the strong and clever kinds!
More than wild animals snakes creep one
In the day or even in the night dreams ever!

Death by any means is better than by poison
That kills slow though one can bear pain sure!

Ramesh T A
A Dangerous Life!

Sedentary living
Increases cholesterol and sugar
To a stroke sure!

Ramesh T A
A Dangerous Weapon!

Treacherous people's
Most dangerous weapon is
None but Tongue!

Ramesh T A
A Dark Future!

Present generation has knowledge, intelligence, etc.,
But not wisdom, talent and common sense to deal all!
Literature, songs and technical marvels are not shining;
But the old ones are still the golden ones to enjoy ever!

They have just built many storeys over the foundation
Already laid by the old geniuses and talented persons!
Nothing new and lasting things they are capable of
Creating for the present and also for future, damn sure!

After the coming of Computer, they have forgotten to
Know the mathematical tables by heart and for all things
They click the button to see details on the Computer screen
And go ahead next without any pain or efforts real ever!

The golden times' variety of inventions and creations are
Lacking with the present ones and it looks future is dark!

Ramesh T A
A Dark Moon Mystery!

Moon everybody knows since time immemorial to man
But dark Moon nobody knows yet since landing there
Some 40 years ago by first man Neil Armstrong of USA!

Stories, poems and scientific facts of bright Moon all know
But nothing of stories, scientific photos of dark Moon yet!
Have the known Aliens and UFOs come from dark Moon?

Bright Moon facing Earth revolves round waxing and waning
But the other side always dark Moon is a great mystery ever!
When mystery of dark Moon will be known time only knows!

Mystery of Moon provoked man to send rockets to explore
The land of Moon for life, raw materials and Space exploration;
Since landing on Moon in 1969 no efforts are made to know full!

Scientific exploration and inventions are very expensive for man
But poetic exploration and expression of Moon is economical fun!

Ramesh T A
A Dark Night!

Dark night it is
With only a few stars in sky!

Night sky is
Very silent soothing balm!

Sans rest where's
Life going smooth all day ever!

Night is relief
No one can deny in extreme state!

Dark night rules
All stars and planets in Universe!

Ramesh T A
A Dark Winter!

Sans winter snow white
Everything will be dark everywhere
In the damp season!

Ramesh T A
A Dark World?

A light brown cat comes at every night sure.......;
This cool cat sits comfortably calculating on rat catch;
Then searches for rat here and there round the house;
The house frequented with rat nuisance is free now!

After making a thorough search everywhere it goes away;
What a relief we have from rat menace in the house now!
The clever cat takes some leftover food if no rats are seen;
Natural enmity between rat and cat is proverbial indeed!

We shouldn’t doubt if this cat too can drink milk in kitchen;
This cat is also a sister of big cat like lion and tigers ever;
They are living in the forest but this cat is domesticated here;
Whether in the forest or in the house cat is a carnivorous one!

The cat may think world is dark if eye is closed;
But are we fools to believe world is dark like cat?

Ramesh T A
A Darkest Day!

Darkest day in the history of the world
Nobody can forget the tragedy of men
In the Twin Towers of World Trade Centre!

Ten years ago it had happened in the daytime
Captured by the monitoring cameras in NY city
When two plans crashed on the towers to rubble!

Calling themselves as terrorist dastardly cowards
Took commercial plans with passengers to death
Dashing against the twin towers of business centre!

Innocent passengers had no time to inform anyone
The tragedy in which they were main players then
Before dashing against the towers to kill men there!

It all happened without any clue to anyone in the world;
But the world came to be alive just as after crucifixion!

Ramesh T A
A Dashing Waves Of People To The Banks!

Is it waves dashing to the shore or people rushing to the bank
To deposit demonetized higher denomination currency notes
To change for new notes available in all lesser denominations?

Is it a flood or a queue of people before automatic telling machine
To withdraw money needed to meet all expenses starting from
Morning coffee to night dinner and other daily purchases needed?

Everyday the same thing happens for more than ten days in all!
People fed up with this kind of practice, say in one voice about their
Plight: 'Don't we any other worries or works other than banks works? '

Without keeping newly printed currency notes ready in hand......
Sudden announcement of ban of 500 and 1,000 rupee notes has
Come as a bolt from the blue putting top to bottom people in chaos!

But the govt. says this bold measure is needed to stop black and fake
Monies and to stop funding for terrorism, maoism and naxalism ever!

Ramesh T A
A Dawn Sure!

Dark dreams
Can't go night long
As dawn's sure!

Ramesh T A
A Day And Night World Life!

Day and night are two sides of one day coin!
Man and woman are two parts of one couple!
If one is positive then the other one is negative!
This is Nature’s design for everything in the world.

Both good and bad are placed side by side
To watch the activities of each one to balance
And maintain not either one go beyond the limit!
They go according to time and pull on the days!

Morning cock crows earlier and crows make noise
Before squirrels play around with their special noise!
Daytime all good fellows do their jobs and take rest;
Night time nocturnal beings do their works and die!

Sun manages all the activities in the day time
And Moon looks after all the activities in the night.
Man’s world revolves round based on them ever
With the woman folks looking after their needs!

Ramesh T A
A Day Dreaming Dance!

Day time dreaming story of a milk maid is well known!
Carrying milk pot on head she dreams about becoming rich;
Also dances feeling about how she would be becoming rich;
It would have been wonderful but her pot breaks with dream!

Many don’t know that distant look only enchants the view!
Going near only the drawbacks and flaws of system are known.
Not knowing, poor man imagines that middle class is better and
The middle class people believe that the rich are better than all!

Really size of inflammation due to wound depends on status of each;
Each and everyone has problems and difficulties according to status.
Not knowing this, many imagine and dream so many things in life
And pull on the days dreaming to become so one day in the world!

Day dreaming may be interesting but it should not become like
The milk maid carrying milk pot breaking while dream dancing!

Ramesh T A
A Day Of Festival To Remember!

Sparklers and crackers renting whole day
The festival of lights went on well besides
Rain now and then disturbing the mood!

Sweet and feast being enjoyed by visitors
Hosts have a wonderful time with gusts
Being close relatives and friends with their
Families and children playing all day....!

A wonderful day of holiday has passed
Faster than usual leaving me only a few
Minutes to browse before I go to sleep
And putting some lines on the paper....!

Holiday only so gives a chance to live
A natural life after days of artificial life
Being mechanically lived for man weeks!

Ramesh T A
A Day Of Victory!

The day, when war has ended, is a day of victory,
Not a victory over enemy, but for the peace sure!
Only when war is brought to an end, peace comes;
Then loss and profit of war are forgotten and forgiven!

Tolerance is difficult, but giving vent to feeling is easy;
But what a great loss and grief that brings to all ever!
Reason and truth are known only after great mistakes;
But averting pitfall is wisdom that stops many turmoils!

Vehement and adamant natures drag matters endless
Without a way to find solution to problems to end fight!
Negative thoughts due to wrong advices create problems
Leading to endless wars without seeing any sign of peace!

But after every storm there will calm come like the peace
That comes after a great war reminding the futility of war
Bringing fighters to negotiation table to find a solution to
Live as friends to do a lot of goods to make world a heaven!

Ramesh T A
A Day Without Electric Power!

We are held up for the whole day due to power shutdown for
Making maintenance work possible for the whole town mocking
At the civilization of modern material world we proud of..!
Will it be possible to live without money and electricity?

This question has cropped up during power shutdown to find
An answer to overcome dependence on money and electricity..!
With solar and wind energy, electric power can be generated
If we live in farmhouse in the outskirts of town by riverside!

Also, without Computer internet connection nothing is possible
Nowadays in such a way that when electric power goes off, no
One can wait long in patience to do any work as all transactions
Are done either by computer or smart phone everywhere..!

There are addicts for these devices and no one can escape from
Their use, even if one stops the use of personal phone or computer!

Ramesh T A
A Day's Business!

How enjoyable the morning freshness of air is! The warmth of Sunshine then gives comfort Like the mother gives to child by her hugs....!

Slowly picks up the morning business to pitch Till noon comes and lunch time makes break.

In the second half of day is like finishing all The left out jobs to bring an end to that day's Work that gives a sense of fulfilment to all.... Making all to have fun after work going home.

Seeing the colourful Sunset and the magic of Pictures novel on the canvas of sky all go to Have refreshment to feel better to reach home.

Minding entertainment programme with all Friends and dear ones brings an end to the day!

Ramesh T A
A Deafening Nature War Of Hell!

Do you know how war could be in Nature?
Do you know how war could go on in the Sky?
I got the opportunity to see Nature War yesterday!

War of rain with lightning and thunder paraded the Sky
More than an hour in the evening over the town beach
Making me feel as if caught in the middle of the ocean!

Lightnings fell from the Sky straight around the town!
All thunder sounded like electric fire crackers of Diwali!
Nature War reminded me of carpet bombing of Gulf War!

Divine artistic branches of lightning spread everywhere!
The experiences of Moses felt I displayed by God
To show His wrath over the pollution of man on Earth!

Hot days of Summer developed low pressure over town
Bring heavy rain with lighting and thunder deafening hell!

Ramesh T A
A Death And After!

The greatest disappointment in life is the sudden death
Of the beloved one after the success of a major operation!
This unbearable emotional feeling naturally comes out as
Cry with tears touch and infect others too to cry in grief!

That is the time the really loving souls are revealed to
the world how much they feel about this greatest loss sure
And how much they are concerned about the one who has lost
Such a loving soul in life forever with noting to console!

They all soon leave the widower with mere hug and handshake
Advising him to be courageous to lead rest of his life here!
Soon in loneliness, he minds his work of interest to forget
The tragedy and the thoughts of the beloved slowly and surely!

Again time comes to go out of the place for relief somewhere
His other loving souls live to hug and kiss them in gratitude
For all the consolations and sharing of grief with emotional
Outbursts of feeling that touches him more than others ever..!

Ramesh T A
A Death By Sword Sure!

If you take sword
You will have to die by sword
It's natural rule!

Ramesh T A
A Death Or Life Situation!

Clouds are there as if rain is going to come;  
But at the end of the day no rain has come!  
Heat trapped all the day has increased heat;  
Even in the evening walk heat of day is felt!

Clouds transparent and dark don't hide Moon;  
It gives a beautiful touch to picture of Sea-Sky!  
Like long hot day night also takes long to cool;  
This is the continuing story everyday we see!

Climate change has been accepted by all nations;  
Kyoto and Montreal Protocols are only on paper;  
Measures to curb greenhouse gas emission sleep!  
But 2 o C rise of heat more will inundate many towns!

Timely action nobody thinks about except money!  
Will wealth at the expense of health solve all matters?

Ramesh T A
A Death To Another Dimension!

When we hear of someone's death, it looks incredible!
But death comes to one at the most unexpected time,
Which no one can anticipate and be prepared to face!

Death takes one to another dimension entirely different
From the present one making none to have any kind of
Communication to say about the place with anyone....!

Before birth where we were and after death where we
Will be no one can visualize by dream or imagination or
Intuition either one is a poet or philosopher or religionist!

Only after death perhaps we may know about that one
Day sure whether we are interested in it or not now or
Later in the life of the world even we don't care for it...!

Death may be a beginning or an end of one's life in the
World we have been living as prisoners with soul in body!

Ramesh T A
A Deathless Music!

Music never dies!

There's music

For all occasions!

Music lives

By the noise of

Musical instruments!

Music flourishes

By the poetic lines

Of best poets!

Music for joy

Just as for grief

Lives with man!

Music consoles

Crying child

From birth on!

Music makes all

Slave of sweet sound

Called melody!

All love music

Intellectuals or cowboys
As in movies!

Music occupies

Till the end of life

Of all ever!

Ramesh T A
A Decision To Live Important!

Youngsters are spoiled by cinema love stories!
They dream of living as in cinema stories ever.
To add fuel to fire families too are disintegrating
From joint families to nuclear families nowadays;
Love, selflessness has become lust and selfishness!
One can live single life or sage life too in the world;
Chosen path when deviated problems occur to turmoil!
Many stories of news and magazines are proofs here;
Morality has deteriorated in all walks of life now;
Fast life and greed lead to crisis of depression long;
Nightmares and drug addiction cause concern for all.
Life of duty, life of intellect and life of spirit are ways
Along with simple life many have options to live well;
Choice one makes decides the fulfilment in life for all!

Ramesh T A
A Declaration!

Public declaration
After a wise thought will be glorious
Celebration in life!

Ramesh T A
A Deed Of A Friend....

A friend in need is a friend in deed, it is said;  
A friend capable of helping by deed is needed.  
There are many lip service friends everywhere;  
Sans requesting and talk a friend should know  
What another friend needs to be done in work!

"If you do this I will do that" is not nice of a friend;  
This is done in business friendship but not in life.  
This kind of business attitude is not long to follow;  
That kind of friendship is not for long to continue.  
Friend means one should be ready for anything!

A real friend does everything out of love for another;  
That kind of friend is the need of a good friend here.  
That friend does all for his friend to come up soon  
And there lies real friendship lasting forever anywhere!

Ramesh T A
A Deep Ocean And Vast Universe!

Romance in real life is story of Mills & Boon;
Never leaves the hearts of lovers so soon!
Modern life short of romance is mechanical
Controlled by time makes all mad for love!

Love lost in young and middle ages is bad
As it makes all long for love very old, a pity!
Enjoying life to the full is a boon and satisfaction
Very few lucky ones get in life to the envy of all!

Nature has destined all to love and live well;
But man of mind not knowing by instinct ever
Browses books after books like Mills & Boon
To endeavour like a mission to the Moon last!

Pleasure is vast as Universe and deep as ocean!
If you struggle for Moon how will you measure all?

Ramesh T A
A Deep Pleasure To Enjoy!

What a pleasure to enjoy!
Fly high in the wide sky
Or dive deep in the sea
When lovers meet together!

It’s like two clouds meeting
When lover and damsel meet!
Then a joy of rain falls in cascade
Down the hill valley to the sea!

Mist and hill peak touching
Like the lovers embrace each other
Long in bliss of joy and peace
That nothing can separate easily!

A deep pleasure to enjoy
In silence lovers seek place
No one can find them soon;
It’s a paradise none can forget!

Ramesh T A
A Dreaming Poet

A dreaming poet
Writes delightful ideas of depth
In beautiful poetry!

Ramesh T A
A Deep Sea Mystery Still There!

Stories of Seas are always interesting, thrilling and adventures!
Stories of treasure hunt in the Seas are very interesting to read!
Sea is always a great mystery and kindles to know more of it;
Yet the matters have not come to an end as the vast Space is!

At the surface everything looks to be calm and smooth but
Inside the Sea there are so many mountains, valleys unknown,
So many volcanoes, Sea beds full of species needing research!

In deep darkness of Seas there are light emitting species living
Such as jelly fish and fish not seeing the day of light at all!
The fish we know are we taking as food as they are harmless;
But living creatures of dark Seas are poisonous and dangerous!

More than the exploration of Space deep Sea exploration is must.
These thoughts crop up inside me everyday when I go to beach;
The curiosity to know Sea never seems to diminish at anytime!

Ramesh T A
A Defeat And Victory In Election!

Can apparent defeat in election become actual defeat?
Can apparent victory in election become actual victory?
An apparent defeat may become actual victory next.

But an apparent victory will not be an actual victory!
With victory, game does not end as responsibility is high;
It is a punishment to rectify the mistakes committed early!

For the defeated failure is the stepping stone to relieve sigh
And an opportunity to prepare for paying in the same coin!
That is how the game of politics being played sans nigh.

Whoever comes to power people are facing reality again
Which are price rise, power cut and insecurity as ever
And how are they going to be tackled for whose gain?

A defeat and victory in election is continuing forever;
But will the people be happy and prosperous? Not sure!

Ramesh T A
A Defeat To Terrorism Always!

Terrorism forges
Ahead to the surprise of all
But always fails!

Ramesh T A
A Delight Fruit Is!

Red apple is my favourite fruit!
Yellow pineapple is fine and juicy.
Orange breaks up bile in summer.
Pomegranate red seeds are sweet!
Guava fruits fill the stomach full!
Plums and pears are delight of hills.
Citron fruit juice with glucose is best!
Black or green grapes are fine always.
Fruits full of minerals build up immunity.
Fruits are the symbol of success ever.
Fruits of labour are sure sweet to enjoy!
Fruits stimulate brain power to all!
Can anyone refuse fruit juice ever?
Fruits are delight as dessert after meals!

Ramesh T A
A Delight Of Love!

A kiss is want he wants from lady love,
But she doesn't have that culture ever!
Culture varies from nation to nation...;
Deep love between them transcends all!

Elite life they lead with love above all;
Fine behaviour is what they love ever!
Good thoughts always keep them high -
High above all norms and rules of society!

Ice cold reception they get everywhere; yet,
Joy and sorrow they take in the same way!
kicked off from the society's taboos they
Love at any cost to lead their life against all!

Men are bound by religion, culture, conventions
Nothing can change even after their futility....!
Oracles are not now say they are true ever....
People, but, go on believing and following them!

Queries of all kinds are set aside as unholy and
Restrictions they impose as cover to avoid truth!
Science & technology are religion now for civilization;
Truth always supports love as base for all joy...!

Universal brotherhood is best culture for all sure!
Versatile geniuses have appreciated love, brotherhood;
Women, Art and Nature are the testing grounds for truth!

Xanadu is the place of pleasure dome set on green meadow;
Yearnings of all kinds are relieved of there to lover's delight!
Zeal of living then cannot be shaken by all barriers there!

Ramesh T A
A Democracy!

Democratic rule is good as it is by, for and of the people; 
Democracy is the choice of majority to govern all people; 
But in reality is there a democracy perfect in all respects - 
In Canada, America, Ireland, Britain, France, India or Japan?

Democracy is based on ideologies like socialism and capitalism; 
Democracy of strong economy and military is democratic dictator; 
Democracy of technology, civilisation and modernity is inhuman; 
Can democracy sans culture, justice, liberty rule a nation humanly?

Bureaucrats are the implementing authority of democratic plans; 
Democratic servants have become the masters of people now; 
Instead of the people, they are serving their selves by corruption; 
If so, can there be real developments in any democratic country?

Secular or religious, can a democracy honestly govern people if 
It has politics, education, trade sans principles, character, morality?

Ramesh T A
A Democratic News!

Liberty, peace, democratisation and development all preach;  
But when the election is over wrong fellows come to power!  
Is it the purpose of democracy to achieve liberal goals of men?  
Everything is shattered to pieces when wrong guys come up!

Many nations are reeling under poverty and hunger endless;  
Developed nations want domination over developing nations;  
International democracy dominated by advanced ones spoil;  
The anomaly has to be analysed for appointing right guys now.

Democracy of the right people by right people and for right people  
Is what everyone thinks about without knowing how to change it better!  
Right education with right attitude has to be developed everywhere  
And perhaps that may change the situation for the better in the world.

To have a good democracy all religions, classes and cultures unite  
To inculcate right way of thinking for the better of all is imperative now!

Ramesh T A
A Democratic Super Power!

Speaking and writing are very important rights ever
Each one has to develop to make democracy strong!
A voice of majority has a great power to make or mar
Many matters in the society in a democratic nation!

Knowledge, wisdom and intelligence of the people
Help in their expressions on various matters and mould
The course of their lives forward to progress with the
Cooperation and coordination of everyone ever sure!

Education that helps social development of the people
Along with economic development boosted by progress
Made by technology reflect their advancement and....
Maturity they have attained by creative experience....!

If creativity and inventiveness are not given much chance
Based on knowledge through best education possible by
Economic and social freedom, democracy cannot be strong
Enough to make a nation super power in the world sure!

Ramesh T A
A Democratic Dictatorship!

Govt. in power if does not change its rule
And follows the beaten track of the previous,
Democracy and liberty of all are in jeopardy!

People change the party in power in every
Election that comes once in five years sure
To have a better rule and progress for nation!

After coming to power and don't care people,
Then the govt. immediately loses their support
And nobody respects their moves thereafter...!

Displeased people losing heart and happiness
In life suffer quite a lot and feel to do what they
Wish leaving behind govt. and their sops ever!

Govt. is just the representative of the people, but
Never the democratic dictator to dictate them....!

Ramesh T A
A Den Of Poetry!

Many poets I see on line today!
For fun many are indulging in poetry;
Not only amusement but also truth
Best ones produce in their poems!

Where can we find quality poetry
In the world poetry website as this one?
All are mixed with each other so much
That it is impossible to separate them!

All funny poems have to be skipped
For reading the really worthy ones!
To do so precious time is wasted
Everyday browsing on this website!

Finding the poetry true is finding treasure
In the depths of this deep poetry den!

Ramesh T A
A Depression In The Bay!

Depression formed in the Bay
Creating dampness all day
Keeps in suspense a storm
Or heavy rain going to come!

If the depression weakens
Rain will fall endlessly days;
One week or ten days perhaps
That is all rain falls in all years!

Kept in indoor all things are done
Otherwise rain bath is surely on!
That only a few enjoys now
And don't ask those things how!

All these things happen on stormy day
And storms one or two produce gay!

Ramesh T A
A Depth In High Level!

A deep sense of
Vastness creates sensation incredible
At high level!

Ramesh T A
A Desert

Even if rain comes
Desert cannot become a green land
Desert's desert!

Ramesh T A
A Desire Endless!

Desire is endless for many guys in this world;
If one wish is fulfilled another one crops up!
To fulfil all desires many long to live long...
Will there be an end for desire in the world?

There is no chance for bringing an end to desire!
Desire to win, come to top, become rich never stops!
Even people are humble their desire is provoked
By commercial interests creating competition long!

Temptation by advertisements and prize announcements
In newspapers, magazines, TV and computer websites
Are endless everyday, no time to know all and decide!
When this is so how can desire be ended so soon here?

Life lost can’t be regained, wealth gained can’t be carried
As we come empty hand and have to leave the world so!

Ramesh T A
A Deteriorating Society!

Focus of materialist world on technology and economy  
At the cost of humanity has left society blind to reality!

Natural resources are exploited for food, fuel and raw  
Material to the extent of destroying Nature altogether  
Leading to the destruction of Earth, our only abode in  
The whole Universe to live naturally as we are doing now!

Economically calculative mind exploiting technology  
For accruing wealth to reach the targets of profit only  
Has lost human sense to raise the standard of society  
Forgetting social thoughts even after a lot of developments!

Art, literature and history have been kept at the back burner;  
Too much indulgence in technological pursuits has made man  
A machine-beast-man incapable of cherishing humanism and  
Totally obliterating him of his source of evolution from Nature!

Ramesh T A
A Development

All resources
Are amply available in India
Yet it's developing!

Ramesh T A
A Development Not A Dream At All!

Economic thinking is ever over shadowing social thinking;
Political ism has made the rulers lose touch of humanism;
Social reforms, justice and developments are still dreams;
Political gimmicks defeat democracy for votes by money!

For boosting economy unprofitable agriculture is abandoned;
Agricultural lands are made plots for growing concrete jungles;
Food grain field is now bio-fuel field as alternative to fossil fuel;
Pollution and deforestation develop global warming to droughts!

For sharing land and water resources wars have become eternal;
Unity in diversity has changed to diversity in unity as global theme;
Extremism, violence and terrorism lead to secessionism everywhere;
Art, Nature and culture are shattered by terrorism and modernism!

Feasible social developments should not be a dream forever!
By destruction of weapons and promotion of peace it is feasible.
So, true leaders are needed to weed out ugly heads of violence
By preservation of Nature, humanism and creation of One World!

Ramesh T A
A Development Of A Language!

Development of a language is possible by reforms from time to time;
But if a language has not undergone any change, it's rare to survive!
Reform-less language has a frozen style ready to die to fossil stage as
It cannot stand before the changes of the modern world use in public!

An ancient or old language may survive, even if people migrate to places
Using it for spoken purpose only in private as there is no value in public!
Making such a language useful for learning, reading and writing uses, it
Has some requirements to be made by having link with its people of origin.

By comparative study of that language with other languages mixed with it,
The words can be identified for change to the original state by adaption of
Words from the language of the place of origin for making it an independent
Language equipped with complete vocabulary to have independent identity!

For writing that language with ease, the old style of letters has to be reformed
To make it convenient for all to use it as other languages in public use forever!
There after only translation, transliteration and transcription of all writings of
That language in various scripts can be made possible in the due course of time!

With the fulfilment of the three vital reforms, the ancient language can be used
Both for private and public uses very well teaching it through tutorial colleges
And also introducing it in schools and colleges for children and adult students
Making it a perfect language with uniformity and independent identity forever!

Ramesh T A
A Development Of Language, Literature And Culture To Establish Own Identity!

Romantic cinema culture making believe reel life as real life rules all; Dialogues of superstars, stage talks of politicians make all talk so now; The irony is no vernacular language of nation has developed like English With more than million words accrued to its dictionary for various uses!

Vernacular language mastered by migrated people excel in cinema songs; Forgetting their own language development, job settlers make vernacular Language as their own mother tongue besides succeeding in inter community Marriages too leading to deterioration of their own culture and language!

Uneven ratio of male and female population, has made migrated people Sacrifice their own individuality in all respects to the extinct of their Style of living sans any thought for changing their culture according to The changes of time, civilization and technological advancement in life!

First, own language has to be reformed by purifying it from contamination; That is using original words instead of other language words by all and Changing the alphabetical letters style for easy remembrance and use in Practice for developing language literature encouraging all writings ever!

Keeping in view modern civilization, own culture should be reformed from Being criticized by all to the extent of making their life a farce in the World of various developed communities in competition with world community In language, literature and culture to bring greatness to their identity!

Ramesh T A
A Dharma Utopia Is!

Life dharma is existence, knowledge, bliss and absoluteness; Man’s purpose is not to suffer hardships but enjoy happiness! Difficulties, monotony and drudgery are due to adharma only; To live happy and fulfilling life is man’s purpose in the world; Dharma is the way to live successful Indian Utopian life here; Krishna is the Lord of Dharma who guides all so to Moksha!

The Republic by Plato and Bhagavad Gita by Lord Krishna Say about what justice and dharma are for life to mankind. New Atlantis by Francis Bacon and Utopia by Thomas Moore Say about world parliament and ideal society for just life. Brave New World by Aldous Huxley and 1984 by George Orwell Say about dystopias controlled by science and totalitarianism!

Hinduism says world is one family as Vasudevaya Kudumbakam; Dharma is the just culture for individual and society to follow The path of karma, yoga and moksha to live a fulfilled life for all. Origin of Species by Charles Darwin says about physical evolution; But Bhagavatham by Vyasa says about evolution by avatars of God And Bhagavad Gita says about spiritual evolution of man to Godhood!

World wars have been stopped but wars are there still in the world; After the world wars cold war began and then terror war is on now. Clash between civilisation and culture and modernity and orthodoxy, Technology and backwardness and rich and poor are going on now. A neutral path is what needed now to bring an end to the clash and Clash between capitalism and socialism can be ended by humanism!

But as the two poles have exceeded the limit of justice wars are on; Caught between the two, world people are suffering untold miseries. This is against dharma and all kinds of troubles torture world men; Adamantness and greediness are adharma that keeps world in havoc; Too much desire is the root cause for all sufferings says Buddhism too; So, nonattachment and love only can bring an end to world turmoil!

For preventing wars and maintaining peace United Nations was formed; Due to Super Powers’ cold war rivalry, UNO has been made ineffective. The key to set right all set backs lies in the hands of UNO only forever; Only if the key is used in unity by all, the door can open for world peace;
But the fighting parties like Israel and Palestine, Taliban and others should come to the negotiating table and talk for peace for solving all matters!

If Dharma is followed the world will become a Utopia many have dreamed! Dharma, karma, yoga and moksha will make human life heaven here itself. As dharma is knowledge of truth, culture, natural justice and eternal order, Karma is Duty to be performed selflessly according to each one’s nature, Yoga is the way of life one has to live according to one’s nature in the world, Moksha is the eternal abode of absoluteness to enjoy total divine liberty!

Dharma is individual and social justice needed for all to follow to enjoy bliss; Karma is duty of philosophers, poets, writers and intellectuals to guide State, Duty of presidents, ministers, administrators and leaders to lead the nation, Duty of economists, agriculturalists, industrialists and traders to enrich it And duty of scientists, engineers, doctors and teachers to do service for all!

Ramesh T A
A Diamond Like Love!

Dream of sensuous love is everlasting in heart
Like the scent of flower is unforgettable in mind
Even when placed in a distant place for long and
Joy of meeting together is indescribable in words!

There the dream of love comes true in world life
Quite rare and fortunate for the lovers separated
Long due to inevitable circumstances decreed by
Fate, the purifier of pure hearts of lovers forever...!

The fate that has separated lovers also unites them
By a rare chance also decreed by it as a reward for
True lovers constructively living life with hope and
Faith noting can destroy by any means in the long run!

Love of concrete nature is like a diamond unbreakable
By fate and time in the long journey of world life sure!

Ramesh T A
A Diana Smile!

I

Misty crescent Moon smiles in night sky alone!
Diana waits for her romantic lover roaming Romeo!
Why is she waiting alone so long high in the sky?
Even if ladder is there can Romeo touch her ever?
She waits long searching for her lover in the world;
But Romeo is roaming round the world for his life!
Can Romeo ever dream of taking the hand of Diana?
Diana comes every night challenging him for her love
But Romeo minds his business with Mercutio in sorrow!
Not knowing his plight Diana smiles at his vain glory;
But Romeo fights for his friend's tragedy, a great malady!
Lying on the sea shore he looks with great pain at Diana;
Caught by the spell of Diana's bright moon face swoons he
Floating on a dream land hit by the arrows of Cupid boy
After the mid summer night caressed by the southern breeze!

II

The magic potion of love makes Romeo love Diana
Believing her to be her dearest Juliet he has lost once!
That is perhaps the secret of Moon's smile alone in night
Bullied by the mischievous winking stars around her ever!
Thousand ships were launched in war for Helen's beauty!
But for a single kiss of Diana thousand ships may launch
It seems to unite Romeo with Diana in the heaven soon!
A kiss of beauty if launches thousand ships to love war
What will happen for a life long love between the lovers?
Kidding stars fearing a great havoc of heavens brood
To split the lovers by a clever plan eternally for safety!
Turning mists and fogs into rain skies blur earth's view
For Diana never to see Romeo anywhere in the world!
And so, the distance between earth and moon drag long...!

Ramesh T A
A Dictator's End!

The end of a dictator is a lesson to many militants in the world.
Except Charles de Gaulle no military dictator achieved anything.
Yet dictators are there in power deceiving people’s democracy
Exploiting all with rich-poor and poverty and unemployment crises!

Benevolent dictator is rare to see in the history of the world so far!
Democracy is the best to embrace rather than relying on dictators
Whether it is equal rights, freedom and development or liberation;
But many are relying on slogans rather than practical remedy ever!

North Korea, Burma, Iran, Libya, Somalia, Sudan and Cuba do badly;
Venezuela, Pakistan, China, Chechnya, Sri Lanka next in row do so!
These countries should remember the story of Idi Amin of Uganda
And also Rameses II who as Ozymandias lay scattered in the desert!

The fate of dictators is the same as they were against the will of God!
However arrogant, powerful they are they all have to kiss the mud!
Though Napoleon, Hitler met with tragic end Alexander died of disease!
Though they conquered the world they failed to conquer their own self!

Ignorance of the masses opens opportunities for dictators to exploit;
Now democratic dictators exploit masses luring them with free gifts!
Giving sops corrupt political dictators steal riches of innocent masses!
Only education and health programmes help people change situation!

Ramesh T A
A Dictionary Work

Arrangement of all words
In Alphabetical order with meanings
Is work of Dictionary!

Ramesh T A
A Dictorship Rule In Democracy!

Politics in everything everywhere unites and divides ever
People in democracy of a nation for good and bad sure!
Democracy depends on politics despite many drawbacks;
But politics and democracy cannot be eschewed by all...!
Seeing all corruption and malpractices in all offices and
In all fields all mind business in a matter of fact manner!
Despite that, they are all affected by governance, if hasty
Politicians take reign of the country and law in hand sure!
Democracy is for the people, of the people and by the people
Said Abraham Lincoln long ago; is it so even today? We ask?
Dictatorship rule under the guise of democracy now makes
All people fools though freedom and rights are there for all!
Money rule, more than rule by majority in democracy, makes
It a great farce due to lack of sincerity, honesty and ability...!

Ramesh T A
A Difference Between Man Of One Book And Man Of Many Books!

There is a vast difference between knowledge of one book
And general knowledge of many books while discussing
About a matter of social significance as far as language,
Culture, arts and literature are concerned in the world!

It is like the difference between hill and plains of
Various fields that form the Earth we all live in long;
It is like the difference between subject and object of
Anything and everything we discuss in any world forum!

Subjective discussion and objective discussion are two
Different ways of analyzing matters of social importance;
It is like the discussion going on any issue between man
Of one book and many of my books or general knowledge...!

The problem is man of one book always talks based on one
Book, but man of general knowledge talks with multifaceted
Approach to any matter to have a thorough discussion to
Come to a broad understanding to make important decision!

Religion, philosophy and poetry only have messages of all
Subjects in one, if they are based on broad knowledge of
All subjects making one have a conviction that stands against
All ideas coming from different subject matters in the world!

But if it is not so, then knowledge of various subject only can
Be of great help to discuss issues to find truths behind all
Matters to have true understanding and knowledge necessary for life
To deal all at times of difficulties with wisdom and intelligence!

Ramesh T A
A Difficulty To Face!

Conduct a marriage and see,
Build a house and see,
To know what difficulty is!
It is easy to speak anything
But it is not easy as it looks
As practical difficulty is known
Only when a thing is performed!
That is why talkers are many
And doers are very less everywhere!
Only when difficulties are faced
Practical knowledge is gained!
That is why bookish knowledge
Will not help you to cook food!
For, philosopher may know danger
But swimmer only knows to escape!

Ramesh T A
A Digitalised Wi-Fi E-Book In Paperback Size!

Sure, old order changes to new order as to the changes of time!
It is civilisation that changes burden to a beautiful thing of joy;
A digitalised wi-fi e-book in paperback size is one such thing
If comes to the market will surely replace printed books soon!
A library of books, newspapers and magazines it has within
To select and read anywhere in train, car, chair and bed at ease!
This e book is more than usual book in many respects as it has
Dictionary, capable of reading and can do annotation too well!
When this is so why should one go for usual computer or lap top?
It is I pod and cell phone in one perhaps to replace all soon!
Functioning on wireless system digitalised e book is best pal
For all book lovers of the world sooner or later everywhere!
What a joy e book containing more than 350 000 books ready
For retrievable and reading at any moment while always at move!

Ramesh T A
A Dilemma Hot And Cold!

Hot and cold blows the wind;
Hot day and rainy night it is
We all have to endure ever!

For many it has become usual;
For me climate change affects much
As skin problem causes havoc!

Hot climate dries and peals skin
Cold climate generates heat within
And develops cracks over dry skin!

Between flood water and forest fire
The world also suffers now and then
Like ant caught between water and fire!

Air, water, fire and land occupy space,
But fast reaction among them upsets all!

Ramesh T A
A Dim Mood Of New Year Celebration!

Mood of New Year celebration looks as dim as distant Stars! Nobody seems to be in the celebration mood due to recession; Pollution, droughts, floods and recession make costly all and Austerity measures all prefers to follow to have better time!

Celebration gives a chance to have a get together and fun Amidst tight schedules of work all round the year for many. When job itself is snatched for all at any moment of time Where is the mood to celebrate a mass function to enjoy fun?

New Year function comes once in a year as Independence Day To meet all kinds of people and loving folks with bon fire And all kinds of paraphernalia people like most in social fun To have inspiration and resolutions to follow all round the year!

Will there be such a pageantry and mood putting all together in Celebration with banquets starting from wine to dessert long?

Ramesh T A
A Discipline For Everything!

Orderly activities of men come only of discipline!
Without discipline nothing can be performed in order.
Discipline helps to speak, write and do orderly all;
Difficulties or problems develop due to lack of discipline.

Knowledge and discipline help to do all to perfection;
Efficiency, excellence and effective work is done so.
Lack of confidence and failures come if there’s no discipline!

Discipline develops from the childhood by able guidance
From home, school and social forum and friends good.
Many suffer in life due to non-development of discipline;
Discipline keeps one confident and cool in all trying times.

Unnecessary fear and nervousness due to lack of confidence
Are born of undisciplined way of living long by fluke chance
And complications in life develop due to such way of life only!

Ramesh T A
A Disciplined Society!

Disciplined society is the mark of a developed country;  
Such a discipline can be seen in the way people behave,  
When a music concert goes on in a open public theatre,  
Appreciating the artist with great applause before start!

How appreciatively they listen to the music and song  
From the beginning to the end itself shows how well versed  
They are in high way of enjoying art giving importance to it  
By coming before time and wait to see all till the end ever!

A sense of perfection they have not only in listening to music  
But also in performing their professional work before night  
To make their country a mark of pride to them by doing all with  
Love and interest like the artist does one's work with interest!

In such a place only, love, joy, bliss and peace one can enjoy,  
If one is of high mind, deep heart and divine soul within the  
Whole body like a beautiful painting attracting all even after  
Many years and live eternally like an inspiring classical Poetry!

Ramesh T A
A Discovery Of Divine Spirit!

Is it indwelling spirit or Nature activating human?  
Nature kindles mind to realise divine everywhere;  
Going deep in all things reach one finally to the core  
Where lives the eternal spirit activating all ever...!

Unlike animal going by instinct man explores by mind  
All only to be confused as peeling onion endlessly on  
And willingly suspending all ideas mystically indulges  
In Nature at last to find an answer conclusive ever...!

Mind in communion with Nature man feels divine spirit  
That opens door of heart like opening petals of lotus  
To reveal the golden yellow divine dwelling deep finally  
That actually activates mind, heart and soul of man...!

Discovery of inner spirit having communion with Nature,  
Universal Spirit finally brings peace and bliss all long for!

Ramesh T A
A Discovery!

Walking lonely in a hill station
Full of mist, clouds and silence
I have become a philosopher
Thinking over life and death!
Where is the time to enjoy in life
When living a mechanical life
Just as a machine or robot ever
Going by some programme, always
Time bound and full of problems?
Seeing the youngsters roaming
Like Romeo and Juliet playing
The game of love forgetting all
Surely makes me feel much!
Years after years we live following
A time table life sans any sense
In the name of discipline, culture
Or civilisation forgetting joy of life
We live laying waste our power
Undiscovered to use it to create
Beautiful and best things in the world!
Perhaps due to this fact I have at last
Become a poet to write here ever!

Ramesh T A
When I click the mouse to copy a passage,
What a displacement it makes, know you!
Copy image comes instead of simply copy;
But when I click over image to copy image,
Save as or something else comes forever!
What can I do if displacement of the above
Comes to happen of and on when I am sure
Of doing something positive immediately?
With frustration I turn over to other page
To mind some other business for a change
And got the idea of writing on this subject
A modern sonnet for reader to laugh a while
Believing they might suggest something
Very useful in this regard sooner or later!

Ramesh T A
A Distant Dream!

Sans qualification many indulge in fraudulent works for survival in the world; Even qualified people do so sans conscience and morality to earn quick wealth! There is no chance for good, meritorious and talented ones for survival anymore;

For, corruption in all walks of life instigates all sorts of people to indulge so!

Whether it is a publisher or medical doctor or businessman, all are partners in spoil Along with the masters of the society such as politicians and bureaucrats ever; They all make great promises to start with to lure for involving all in business or others Not for completing any work in good order but to while away time to collect charges!

One day’s work is dragged as far as possible to three days to collect fees daily Making all feel, instead of appointing men to do work for them, they can do By themselves whether it's constructing house or white washing walls or plumping; People are driven to do so using precious time of theirs in other vital jobs in life!

When no one is doing respective jobs following ethics, everything will go in chaos Making developments and progress of society a distant dream or mirage in the desert!

Ramesh T A
A Distinction In Diversity Unique Of Mankind!

Today everyone seems to be bright as Sunshine!  
Is it due to a bright day after the storms and rains?  
When gloom engulfs everybody seems to be dull  
And the dimness goes everything becomes alright!

We are all susceptible to changes in the environment  
Which means we are all social, part and parcel of Nature.  
This cannot be changed whatever be the social trend  
And the world moves on as in the merry go round ever!

Differences in colour, creed and class are all outer things,  
But inwardly all are of the same bone, blood and muscles.  
Despite many diversities all are united belonging to mankind  
Living forever under the same Sky and on the same Earth!

Differences of languages, religions and races are unique  
Classified under variety in nature and group for distinction!

Ramesh T A
A Diversion To Development!

Diversion is very important, when one is in depression due to Disappointment and disillusionment in work and world life....! Listening to melodious, lovely and beautiful songs of nice pop Singers enchanting and hilarious is best diversion to start with!

Thinking in calm atmosphere somewhere in the open terrace
Seeing beautiful, twinkling Stars and transparent clouds before Moon light surely transports one to the world of fantasy, gives a Sense of freshness and transforms one to be a new being soon!

In that mood, if walking is carried out in free style simply renews One with new vigour and confidence that can give a great zeal to Tackle any mountainous hurdle and surmount it to new height of Thoughts to achieve something extraordinary in diverse act sure!

Calmness obtained so with self confidence surely makes one Embark on a new way to express plans and ideas based on a Good vision out of the knowledge one has gained by studies Observation and experience will lead to making achievement...!

Ramesh T A
A Dividing Line!

The dividing line
Between love and friendship
Is sex!

But Platonic friendship
Is intimate relationship sans sex
Between man and woman!

Ramesh T A
Winter hibernation of frogs, bears and squirrels is a wonder!
Routine hibernation of animals is common in ice cold regions!
Frogs going below ice water, squirrels going into tree boroughs,
Polar bears taking shelter in ice caves are natural happenings!

Inside ice they feel warm to sleep, give birth to cubs and give milk
In the long winter season before spring comes to activate their life.
It’s a great wonder in Nature to see animals get nurtured so, so long!
Also aestivation of animals in summer is a great wonder of nature!

Classic Ant and Grasshopper story is also happening in human life!
In Ramayana Kumbha Karna does 6 months’ work and 6 months’ sleep;
This giant lives so as an ant due to the boon he got by his slip of tongue!
Though strange it is a great wonder in the great Indian Epic of the past!

King Vikram too lived both court life and forest life for 6 months each;
He got a boon from Goddess Kali to rule his country men for 1000 years!
His adviser too got a boon from Goddess Kali to assist him for 2000 years!
But both lived for 2000 years as the king by a plan lived half year in forest!

The story of King Vikram still remains as a great legend among Indian Epics!
What a different type of lives ant, giant and king had to live in 6 months’ time!
Although different in size, strength, wisdom similarly they had to live in a year!
Change of life in every 6 months’ period we too cannot neglect if we probe deep!

Ramesh T A
Spinning speed of Earth round the Sun is such that we have summer and winter
That affect life, mind and work of men every year though differ in many ways!
Though there are 12 hours each for day and night, this secret number 6 clouts all!
For we use only 6 hours each for fast and slow work, enjoyment and sleep a day!

Indeed we are six hours conscious in the day and six hours unconscious in the night!
As human life’s day and night creation and destruction of Universe are in divine life;
They all happen supervised by Brahma within the eye winking time of Lord Vishnu
Reclining on the five headed snake bed of Adisesha surrounded by all Cosmic Gods!

A Hindu mythological vision of the infinite Universe of Lord Vishnu and all Gods
Is still the symbol of the full canvas of Space not yet superseded by another vision!
Ancient Indian Science has calculated the creation and destruction time of Universe
As 8,640,000,000 human years or 2 Kalpas for 1 Kalpa each for Divine Day and Night!

That is, the time taken for creation is 1 Kalpa and for destruction is also 1 Kalpa!
Brahma takes 2 Kalpas, 1 eye winking time of the Lord to create & destroy Universe!
The time taken for creation & destruction of the Universe will be 24,000,000!
The day and night of A Divine Day would be 2 Kalpas or 8,640,000,000 human years!

Indian Astrophysicists expressed creation & destruction time of Matter in the Universe;
Modern Physicist Einstein has created only equation for Space & Time in the world;
The 3 coordinate distances of Space in Kilometres and Time in years are yet to be found!
Perhaps before the end of the millennium 2000 some answer would be found out for this.
[360 human years = 1 celestial year; 1 Kalpa = 1000 revolutions of 4 Yugas;  
Kreta Yuga is 4,32,000 human years; Treta Yuga is 8,64,000 human years;  
Dwapara Yuga is 12,96,000 human years and Kali Yuga is 17,28,000 human years;  
1 Kalpa = 1000 x (1200+2400+3600+4800) = 12,000,000 Celestial years (or)  
1 Kalpa = 1000 x (4,32,000+8,64,000+12,96,000+17,28,000) = 4,320,000,000 human years! ]  

Ramesh T A
A Divine Life!

High in the Sky
Stars always shine bright
Highlighting love life!

Though water drops on
Lotus flower never gets wet
To live non-attached life!

Lotus flower is
A symbol of nonattachment
Signifying spiritual life.

But Star lotus is
Non-attached unity of life
To live with love here!

So, live as lotus
High as brilliant Star
To enjoy bliss ever!

Ramesh T A
A Divine Music!

East or West
Music is divine ever
In the world!

Ramesh T A
A Divine Relationship!

Love and friendship
Make human relationship
A divine relationship!

Ramesh T A
A Divine Search!

Exploring Universe vast man never fathoms
Like the oceans of Earth in full covering all...!
Yet, the quest to know the whole man tries
Not knowing the design of the Almighty ever!

Love is inner Space of humans as infinite Universe
Vast, mysterious and beautiful creating awesomeness!
Forgetting all in this great quest and exploration
Life of all beings goes on endless in world we know...!

Feeling and thinking mingled with spiritual pursuit
It's a great adventure timeless yesterday, today and...
Tomorrow too to explore to untie the knot of mystery
Endlessly mankind is trying though it's beyond all...!

Love of infinite vastness, depth and scope as Universe
Man is assigned to do something God may appreciate...!
Perhaps He is still searching that after creating infinite
Number of matters in Space leaving man to help Him...!

Ramesh T A
A Dizzy Moon Effect!

Dizzy Moon slowly drifting down to the west
And a few Stars peeping through mixed clouds
The Sea waves are lulling silently in darkness!

Tired after celebrating festival people take rest
In the beach seeing the boat displaying light
Of World Tourism Day near the Sea shore water!

A little beyond on the sands of Sea shore there
A wonderful water organ music is going on well
To ease the tense mood of the mob to jollity!

If there’s no wave movement what is the use of Sea?
It will not give the sensation of Sea to anyone there
And the tourists who have not seen Sea will feel dull!

Dizzy Moon effect has cast a drowsy spell there!
Night will dispose of the spell by cooling perhaps.

Ramesh T A
A Dog In The Manger!

Art for the sake of art will not be productive forever;  
Work for the sake of work has no objective to achieve;  
Writing for the sake of writing will not do any good;  
Fighting for the sake of fighting will end in destruction!

Objective, productivity, construction and good result  
Ever are connected together for implementation of plan  
With a programme to execute things to achieve benefit  
For all connected in the business anywhere in the world!

There will be interest that drives the work to be done well  
To see a great outcome bringing joy and satisfaction after  
The completion of a work, inventive or creative, with some  
Mission to see a result all have wished for, planned and done!

War is also a work with an objective to bring peace and joy,  
If the cause and reason for war is justified needing correction  
To set-right a setback that have been bringing bitterness long;  
But if war is waged out of failures of past, will end in total failure!

Destruction and protraction of frustration will not fetch any good  
Till realization comes to go by reality accepting fact sans regret!  
Desire should be based on what one deserves and not what one feels  
Sans any reason or rhyme as it will be only a dog in the manger...!

Ramesh T A
A Dog Tail!

Human nature can't change
As it is like a dog's curly tail
That can't be straightened!

Ramesh T A
A Dog War!

Madness of war I see in dogs' wars!
What is the difference between both?
For a little bone of no significance there's
A big fight among so many contenders!

Suspicion is the only reason for all these
Endless cold wars leading to real war!
Religious differences keep the fire flame
Soar high ever to the pitch or peak, ah!

World business competition is another one
That keeps all contenders ever in ambush
To capture world market to dominate all
Controlling currency of theirs at the top....!

As a result, oil and gold prices are rising high
Ever to sky level with no sign of coming down!

Ramesh T A
A Dog!

Barking dog
Never bides but silent one
Surely bides soon!

Ramesh T A
A Domain Of Weeds Only!

Thorn-less roses
Are rare to find in any realm
But weeds many!

Ramesh T A
A Dot On White Sheet!

Green leaves of spring are not there;
Colourful flowers of all seasons are gone;
Only white snow covers all in winter!
Winter snow thick or thin is white sheet
That covers all colourful things long!

Scrubbing snow on the road is a daily exercise
To clear route for all vehicles to go smooth;
All covered with fur cloth move in the street;
This white snow is like a white sheet of paper;
All the movements on it are the dots of scribble!

Writers are hungry of white paper to write on;
Poets are fond of writing poems on white sheet;
And the matters on white paper are men on snow;
But nobody likes winter as all are for colourful life!

Ramesh T A
A Drama Of Our Life Is A Dream!

The life between birth and death looks like a dream!
Like in a dream our life activities go on in the world
Stage as it happens in a drama and when the screen
Comes down we have an eternal sleep which is death!

What we say and do are happening as the actors say
On a drama stage for the audience or society to see
And critically appraise the merits of our acts in life
Which finally talks about us after we eternally sleep!

Our drama like life is a dream happening in a sleep
And the sleep is the daily training for us to face real
Death one day and coolly leave this world in good
Silence full of satisfaction of what we have done ever!

Our life is a big dream we are enacting as in a drama
Which is rounded of with deep sleep called death later!

Ramesh T A
A Dream About Ancient Kingdom!

An old man before dying left a map of ancient kingdom
For the viewing and scrutiny of his research scholar son;
Amazed with the treasure of the past the scholar dreamt
A great dream of meeting the King and acquiring treasure!

Old man advised him not to be greedy but discover treasure
For the well being of mankind and the prosperity of society;
Died he entrusting the mission of his life research to him
And peacefully left the world for the ancient kingdom abode!

Joined with the scholar some research ladies of his subject
And set on a great adventure in the forest mountain areas of
A distant forbidden land from his native village of Pasteria
With all necessary things and preserved food of a long tour!

They crossed forest full of snakes and mountain of water falls;
They encountered many wild animals of all kinds and escaped
By God’s grace big dangers faced by many before their deaths!
Foot prints and left over materials gave them useful clues too!

After forest they came across desert area of mysteries unknown;
Some people who went before were sucked by quicksand often!
In the dream one night to escape from pitfalls a strange figure
Appeared and whose shadow could help them cross the desert!

Shadows of pillars at dawn drew the picture of a dream figure;
Taking the clue of dream they walked fast before shadow vanished!
They halted then and resumed only when the shadow appeared
And wisely crossed the desert and came across ancient debris!

There they had nothing to eat but a camel straying among stones;
Killed they the camel and took full meal after a long journey!
They had strange dizziness and lay asleep long till gained alertness;
But soon strange things happened giving them hope to return!

They saw a whole kingdom come to life with king and soldiers!
To all the queries of the king each one answered scholarly replies
That convinced the king and made them to know treasures hidden
And sent them with due honour to their place glorified with treasure!
A Dream And Reality!

We like to live in the world of dream;  
Imagination takes us to fantasy world;  
But reality is hard to digest many times!  
Between both ends man oscillates ever!

Intellectual thinking of truth is wisdom;  
Illusion and reality man should know  
To be sure of his path to follow in life,  
Which will pave the way for smooth end!

Disillusionment in life is sure for lucky ones  
Who always escape from reality often... and  
That first part is comedy and last is tragedy!  
Realisation will say so at the end but it's too late!

Intuition based on intellect reveals whole vision  
Which only guides all to go on right track ever!

Ramesh T A
A Dream And Reality! (A Loop Poem)

Life of past looks to be a dream!
Dream of future is based on now.
Nowadays it's hot to bear heat.
Heat of discussion continues long!

Longtime matters we talk well;
Well to do don't have such talks;
Talks of friends are endless ever;
Ever we never think of next thing!

Things of the past we forget soon!
Soon new ideas spring in the mind
Mind being ever working as waves;
Waves of sea seem as mind's work.

Work of clock never stops anytime;
Anytime of past cannot be relived.!

Ramesh T A
A Dream Dance Of Romance!

Rainbow shines colourful in dreams
When romantic heart is in full sway!

Golden spangle at sunset cools mind
When dream of romance kindles fun!

Popping of stars one by one is magic
When moon-rise brightens horizon!

White foams of waves reach seashore
When play of piano music is at it best!

Symphony of music is suitable for tango
When romance of lovers looks at fantasy!

Night splendour succumbs to silence
When romance reaches its climax still!

Dance of dream comes to its end point
When lovers kiss in gesture of completion!

Ramesh T A
A Dream Endless!

The things we try to forget come in dreams
Making many shapes as in fantasy world....!
Distortion of facts and accumulation of scenes
Make the dream something of an endless tour!
Destination of dream has no point of return
All through the night till dawn stops it sudden!
Many a dream we see and enjoy and abhor
Due to distortions unimaginable by any skill!
But dreams are licence-less to travel anywhere
Just as playing game of ass adding cards in hand!
A great game of pastime many children indulge
When outing to play any game is not possible...
Just as children spend time playing games
As they wish as long as they like we dream ever!

Ramesh T A
A Dream Exam!

Writing an exam
With a very short time left
What I can do in dream!

Ramesh T A
A Dream Flotation!

I was floating in a wonderful dream;
Even thousand eyes are not enough
To see and appreciate beauty of Nature
In a span of dream that might be lost soon!

Green mountain valleys and silver water falls,
Meadows with exotic flowers blooming by Sun,
Smooth running river crossing plains and fields
End all finally with the all containing Ocean ever!

Long golden and sliver beaches beautiful land;
Sea and Sky touch at the horizon at the sunset;
Above soon in the night Stars and Moon light up
For me to explore heaven with wonder for long!

Roaming round the paradise I fly to the Sky heaven
And crossing galaxies I finally disappear in Milky Way!

Ramesh T A
A Dream For All!

A dream is sure for each one;
There is none without dream.
Dream of college days is fun;
They are unforgettable for all.

Boys cut the class to go out;
Library is the gathering place.
They go out to cinemas first;
They enjoy time as they like!

Beach and park are common;
They have snacks and smoke.
In holidays they go for tours;
Take photos and remember all!

Even after 35 years they are green
In mind to give a joy incredible!

Ramesh T A
A Dream Full Of Wonder And Puzzles!

God and His creations are infinite in nature;
Their top and bottom and beginning and end
Cannot be discovered by human endeavour!

The Universe with all its Stars and planets
Are eternal wonder and splendour for all!
Man’s efforts to know it is just a speck so far!

Like the whirlpool of the sea Black hole is in galaxy!
Why is it sucking in all and where are they going?
A great mystery and tests the intelligentsia endless!

Newton, Einstein and Hawkins have explored much;
Yet no sure and solid thing convinces anyone here;
Such a mystery poets explore by imagination forever!

Many poems are churned out endless dazzling minds!
Colourful bonfire zooms out in the sky and blows out!
A wonder and puzzle still remains a matter of dreams!

Ramesh T A
A Dream Immortal!

Fruit and flower trees with vegetables growing around
A bungalow surrounded by green lawns are a dream!
Destruction of villages, agricultural fields and forests
In the name of urbanization makes heaven a hell now!

Prices of all commodities have risen to sky high level!
High cost of living in urban areas kindles dream of farm
To live life than to go on fast living in hell with no relief!
Dream of palace in the midst of green meadow is bliss!

Living in Nature in such a comfort is paradise indeed
With cluster of Stars to enjoy in the night as heaven!
Living in-between this paradise and heaven is bliss
Everyone dreams in the heart of heart everyday!

Kubla Khan of Coleridge and farm of poet Bharati are
The dreams of such yesterdays living immortal ever!

Ramesh T A
A Dream In Natural Paradise Real!

A Dream in Natural Paradise Real!

High above in the sky many miracles occur and go ever!
Nature performs those magic by its special wandalways!
By this lively and lovely natural art work serendipity is sure!

Reflection of rainbow colours of sky give special effect to sea
And their union at the horizon is quite divine bliss to enjoy
With new mood, freshness of mind energized by spiritual power!

Coastal areas of many shades of sand climbing to red soil mound
With the cultivation of ground nut crops and cashew nut trees…;
Boosting vine gardens make one as if living in luxurious Nature!

In-between natural beauty of sea and land, the road travel is a
Great feast for the eye to enjoy, lovely romantic mood to heart
And high elevating dream like situation for poet to write all high!

Also, green trees full of colourful flowers and fruits around all
Kinds of flower-green pasture is a beautiful paradise to dream!

Ramesh T A
A Dream Job Or Money?

Doing interesting job is the desire of many;
But getting a dream job is a coxcomb ever!
Money has become the token for everything;
Work of any kind is decided by money value;
Calculating money only everything is planned
Whether it is education or job or any matter!
How can this attitude of men be changed ever?

Satisfying job or money? – That is the question!
Many cannot say why they study the course or
Why they do the job of their interest or not ever!
For, they are not clear in vision, plan and execution.
Monotony, dissatisfaction and nightmare come soon
For many who go for money only from first to last!
Only for money attitude will land in disappointment!

Ramesh T A
A Dream Life!

Sky or Sea
We can enjoy endlessly
In a dream life!

Ramesh T A
A Dream Of Better Tomorrow!

All natural resources are there for better utility
For the prosperity and progress of world humanity;
When this so, why are there also hunger, poverty
And unemployment ever looming large as curse here?

Two thousand years ago itself Lord Buddha has said
Human sufferings are due to attachment and greed
Seeing illnesses, old age, sufferings and death of all
And advocated non-attachment and love for all ills!

Yes, due to desire born of too much attachment and
Greed over land, gold and dames, many people suffer;
Hunger, poverty and unemployment in some nations like
Africa, India and so on horrible to see in pictures!

Exploitation of natural resources for raw material, fuel
And food sans sense of recycling them, pollution and
Corruption in all walks of life due to greedy nature of
Commercial profits have resulted in climate change.!

Climate change has brought in long drought, parched
Earth, cloud bursting rains, floods, storms, tsunamis
And all havoc perpetrating all sufferings to all to
The destruction of the only Earth as human abode...!

They all coupled with extremism, terrorism and Nuclear
Proliferation for world wars have driven the world to
Great dark abyss instead of paving the way to realize
The most cherished dreams of all of human Utopia now!

Making effective use of UNO by the joint action of all
Nations these world problems can be solved to bring
Peace, prosperity and progress to all in the only world
We all live, love and cherish dream of better tomorrow!

Ramesh T A
The dream of India is the achievement of one world family following
The State policies of nonviolence, nonattachment and nonalignment!
Indian constitution itself is a grand charter of the world organization
Like liberty, equality, fraternity, justice, secularism and democracy!

No religion is perfect unless perfectly evolved accommodating all;
Rich culture based on religious philosophy keeps India at the top.
Unique position of India unifies world people in a unique way
Due to its culture, arts, literature and religion, a nonstop feast of fun!

India stands as unassuming Aquarius mature and high as Everest!
Its religion professes high cultural philosophy to enjoy dharmic fruits!
Beauty of rich temple art and literature is a spiritual feast forever!
Indian culture and Nature have conquered the conquerors as part of it!

Hospitality of Indian culture touches even the conquerors to stay ever
And do the best like Taj Mahal, gardens, schools, hospitals for India!
Alexander, Akbar, Annie Besant, Mira Alfassa are examples of history
That tells how they were absorbed by Indian nature and power forever!

They all came to conquer and convert but were captivated by Indian spell!
Utopias had submerged in the oceans but India is there to unify the world!
The process of evolution to perfect human is the cause for earth’s creation!
And the more pressed down by foreigners the more India became powerful!

To the eyes of the world spiritually India became more precious than before!
Since before independence spiritualists of India awakened vision of liberation!
Long ago before modern civilization Hinduism sowed idea of one world family!
And as new versions intellectuals have popularized ideas of world peace and
unity!

Only love and nonviolence can achieve global peace, liberty and unity;
That is the dream of India for all ages of humanity past, present and future!
World over sword, guns have gone but bombs have come banning nobility;
Yet charismatic leaders’ spirits still stand to guide world men of noble ideals!

To achieve peace, joy and serenity Buddha preached nonattached love for all!
To achieve good end Gandhi showed in practice the good means of nonviolence!
To achieve world peace and unity Nehru introduced nonalignment policy!
To achieve spiritual liberation Lord Krishna preached nonattachment for all!

So, the dream of India is sure to be translated in the creation of one world family
As the noble ideas, thoughts, words and deeds of immortal leaders are still alive
Influencing noble men to inspire all men through media for implementation
And on my part through poetry medium I remind this dream to all in the world.

Ramesh T A
A Dream Of Love Never Ending!

Seeing the Stars I dream a lot;  
Moon brings mood of love, heart!

Dreams of love lull as ocean waves  
And the boat sails smooth far away!

Island of pleasure where boat stops  
And lovers sing songs of joy eternal!

Time never moves fast or slow ever  
And the joy of love elevates high!

Angels with gossamer wings fly over  
And shower fragrant flowers colourful!

Lush green meadows spread far and wide  
Welcoming lovers to enjoy bliss luxuriously!

Never ending game of love goes on full swing  
As rhythmic waves of poem like nonstop music!

Ramesh T A
A Dream Of Love, Joy And Peace!

Where there is love, there joy and peace lead life;
Due to exploitation of resources by colonial powers
Of the past, many under developed and developing
Countries are reeling under poverty in the world!

Hunger, poverty and unemployment like cancer eating
Away health and many are living as skeletons or as
Dead men walking to pull on the remaining days in
The hell like world sans mercy and relief from all!

Love is not looting the riches of others and living
In luxury and comfort preaching about love to the world;
Love in action is real and is the imperative to make
The suffering people see light at the other end of tunnel!

Due to past exploitation of the riches of those nations
By the developed nations, hatred, jealousy, anger and
Sense of revenge have turned poor people into extremists
Carried away by the radical religious bigots' preaching!

Sans any hope of relief from any quarters, many are going
To the camps of terrorists and indulging in violence and
Enjoying sadistic pleasure till the end of their short
Life dreaming of love, joy and peace in the other world..!

Ramesh T A
A Dream Of Nature!

Green atmosphere

Pleases the eyes of everyone

To dream cool...!

Ramesh T A
A Dream Of Romantic Love!

Romantic love inspires potential interest to live in the world;  
Enjoyment of love churns out joy and pleasure in long life  
And the dream of romantic love never ceases desire to demise  
Despite the burden to work hard to stabilise life in the world!

Spell of romance makes one forget the sense of anything -  
Sense of taste, sight, smell, hearing and touch common for all!  
Nothing is known happening around except the object of love  
And even day and night are forgotten during such pursuits deep!

All seem surmountable as in the adventures of Don Quixote;  
What a dream world of romantic love romance immerses in!  
Summer or Winter, or Autumn or Spring everything is one  
To the eyes, mind and spirit when the heart is full of love ever!

A dream of romantic love makes everything easy as in paradise  
Or in heaven where only enjoyment of variety is thought forever!

Ramesh T A
A Dream Of Tsunami!

Dreams of storms and cyclones we all know;
Dreams of Tsunami have you ever seen?
I have had a dream of Tsunami in the early hours!

Best to avoid Tsunami is to be away from sea;
At least 500 metres away from sea shore anyway;
It's about 1500 feet from the spot so to say;
So, it is 15 houses of 100 feet each to be covered!

I stand near the seashore and on the other extreme
Waves of sea rise very high at a distance and come;
Soon the waves cross over the shore to the town itself
And recede back to sea making me electrified of Tsunami!

I run to the town with the aim of crossing 15 houses;
I cross the first line beach, 2nd line and third line;
Then go to main street one and main street two....;
Will I reach the spot before the Tsunami comes back again?
I leave it to readers to dream the rest of story to guess next!

Ramesh T A
A Dream Of Water Moon!

Cool bright Moon shines bright in the Starry night Sky! Dreams of Moon absorb poets, scientists, lovers, all! Even in Honey Moon dream of water Moon never dries! Polluting water on Earth man searches water in Moon!

Physical feature is contrasting between Earth and Moon! Green vegetation, blue water and white ice make Earth Unique with atmosphere all round protecting it forever! Sands, rocks with ice at tips Moon is sans atmosphere!

Rotating itself Earth revolves round the Sun night or day; But Moon’s bright side and dark side are fixed forever! The mystery of dark side Moon is in suspense since long; The frozen sides of Moon are – 238 degrees is still chilling!

Water Moon has indeed become a great interest for all and Many nations are vying with one another to see water there!

Ramesh T A
A Dream Or Reality?

Chivalrous knight after a longtime battle
Returns to his island and lies on grass
Enjoying the cool breeze of sea in reverie!

Eyes closed he wanders as in a deep dream
Feeling as if flying as albatross floating in sky
Basking in Nature under Sunshine on a cold day!

Day ends in beautiful sunset with stars popping
One after the other twinkling as brilliant diamond
Kindling dreams of fairy tale never told before!

Soon he comes to life and sees his head resting
On the lap of a mermaid bright as silver star of sky
Singing sweet song of fantasy elevating to sublimity!

Is it dream or reality? Feels the knight with frailty;
Next moment he realizes he is still lying on grass alone...!

Ramesh T A
A Dream Or Reality?

Pain in pleasure and pleasure in pain
Are God's plan for all beings on Earth!
Shakespeare's plays are full of these
In his comedies and tragedies sure!

Love life is a romantic adventure ever
Only courageous hearts can dream of!
All in a midsummer night's dream he
Says all as in fairly tales with angels!

Old and new love stories are full of this
With songs of dream happening in fantasy!
I have a dream and sing a song of love
As great bard has dealt with in all plays!

Life itself is like a dream stuff with love
Pain and pleasure alternately playing..!
Who can escape from this web of love
Once fell on it in dream or reality......?

Ramesh T A
A Dream Romantic Life Is!

Love, beauty and joy are romantic in life;  
Flowers, birds and fish are colourful ever;  
This joy of beauty and love is earth's abode.  
Where else can we enjoy these in Universe?

Spring, Summer, Autumn and Winter are  
Always one after the other for change ever!  
Nature loves change to make life full of joy  
Never in the least boring to live on the Earth!

Variety in life Nature bestows due to love  
That never gives less but ever bountiful!  
Generosity and philanthropy make life light  
For all beings to enjoy and float in dreams!

Man's life is like a dream all romantic beings  
Live to enjoy and vanish when times comes!

Ramesh T A
A Dream That Can Never Be Realized!

Big economic crisis drowns family life in despair long  
Leading to chaos incredible reminding presence of fate!

suppressed emotion though seems to have been subsided,  
When seeing such experience volcano erupts in full blast!

Sufferings of dear one immerses all in ocean of tears  
Till the situation changes for the better somehow in life!

Union of couple is separated for the alleviation of pain of  
All others in the family surely an act of gross misadventure!

Domination of the unsettled one in life there causes chaos  
Collapsing the joy of family life for all others forever...!

This is sheer nonsense due to selfish, egoist, immature and  
Adamant nature of economically supporting one in the herd!

Sans forethought and far sight union of couple in such a family  
Can only be a dream that cannot be realized ever like others!

Ramesh T A
A Dream Throne

Making a beautiful throne
With all possible decorations
I wish to sit on, in a dream!

Ramesh T A
A Dream To Come True!

Favourite world we land on in our dreams where
Lovely life, bright sunshine, garden of paradise,
Slow motion cascade water falling into river ever
Going smooth all the way to the wide sea at last
Beautifully blue in colour as the bright blue sky
Always give joy to linger on again and again ever!

Real world with modern facilities everywhere with
No room to breathe free air, never able to see Nature
In all its splendour in the morning, evening and night,
Always reeling under pollution changing climate ever,
All working as machine among machines and living
As social animals sans human sense is great nightmare!

Avenues, parks and garden in-between buildings are
More than what one can dream in the nights sure ever!

Ramesh T A
A Dream To Divine-Hood!

Colourful dream under the shade of green
Surely will lead to gloss of bliss finally
In deep meditation to divine hood soon!

Ramesh T A
A Dream To Reality!

Dream dreams
And think to get ideas
To make realities!

Ramesh T A
A Dream To Recoup!

Everything is possible in dreams!
Persons we see or talk about come
As close friends and move in dreams!
Cine stars become friends easily!
Cine heroines become lady loves!
Even one can become superman
And fly high in space to Universe!
Writing all from dreams in poetry
We enjoy great fun and joy here!
All days' work and tension we shun
Either in love or in dreams of sleep!
Sans dreams where is rejuvenation
In this fast world of woes many....?
So, dream about all and recoup ever!

Ramesh T A
A Dream Will Come True!

Childhood interest feeds as food for dreams;  
Such a dream develops to be what one wants!  
Inspiration and encouragement turn it into reality;  
Otherwise one suffers without taste for life ever!

Sports, music or pen inspires many to create wonders  
As champions, singers or poets great later in life!  
News makers and historians write and popularise them  
Beyond imagination entertaining many with inspiration!

Childhood dreams develop creativity and invention  
Making mankind wonder at and benefit in daily life!  
After trials and errors, travels and travails great men do  
Best things beautiful and beneficial for the whole world!

Pride of such great dreamers is praiseworthy indeed!  
But the effortless lucky top comers what can we say?

Ramesh T A
A Dream World!

I landed in a dream world in my sleep!
I dived deep in the ocean to get pearls;
Many oysters seen but none with pearls
I found until I happened to see a large one!

When I approached the oyster it disappeared!
Roamed in the deep blue sea long in vain
and swooned by the slash of a shark suddenly!
Didn't know what happened next in the deep!

When I woke up I was sleeping on a oyster bed!
A mermaid came smiling as new white pear!
'You have found not a pearl but me in my den;
I will give white pearls if you take me with you'

Sudden surprise left me in spell bound silence for long
And sleep stopped throwing me out of the dream world!

Ramesh T A
A Dreamy Situation!

Steady gentle rainfall makes this morning
Beautiful and enjoyable indeed as it makes
My mind free, heart joyful and spirit active
Inducing me to write a few lines about Nature!

What a clean air I breathe due to this breezy
Rainfall that simply thrills my self of its
Own accord to feel its freshness very much of
All the day I have witness so far and so forth!

Many more days I wish to have like this as this
Is indeed more lovable and enjoyable than before
In the whole of my life I have lived so far sure
And that makes me to put down in words here nice!

A lovely day with so much bliss in Nature makes
Me enthusiastic to float in a dreamy situation!

Ramesh T A
A Drink Is Nowhere!

Water, water
Sea water is everywhere
To drink nowhere!

Ramesh T A
A Drink Or Smoke?

Drinking and smoking
damage liver and heart
To death soon!

Ramesh T A
A Driving Force Of Life!

One side football matches and other side cricket
Matches puncture our ears with deafening noise!
People crazy after both cricket and football all
Over the world are always increasing and never nil!

Power of sports is inspiring and strengthening bonds
Between fans as friends and the group enlarges into
A bigger audience always ready to do anything for the
Sake of their favourite players in unity quite amazing!

Cinema, pop songs, sports and all entertaining ones
Occupy human beings for inspiration and drive in life;
Sans such an arrangement, where is the chance for
Change to do better in life and so, sports can't be stopped!

The childhood play of games continues for longtime
In the life of man, a driving force and enthusiasm forever!

Ramesh T A
A Drizzle Of Rain!

A few drizzle of rain came and stopped....!
Breeze through the window danced screen
As if making it the trunk of elephant to roll!
Hot ground dried soon making imprint of rain
Evidence less in no minute all round the town!

Dodging rain keeps all long for it since five days
And in the night slow fall of rain solaced a while!
What a sea change next day we witness everywhere!
Hot climate has become mild and cool all day
Making the place a pleasant one to enjoy again!

Promise of more rain lurks all over the place
And lovely thoughts emerge in heart to enjoy soon..!

Ramesh T A
A Drunkard's Talk!

Drunkard's night talk  
When he wakes up in the morning  
Disappears in air!

Ramesh T A
A Dust Precious!

Like the cold, lethargic season mind too is
With no thought process flowing free as
The brook running with murmur and on
But as frozen water of lake or sea we see!

What we see around in Nature we have in
And out of our body evolved in Nature itself
As a complex organism doing superior things
Not possible by other animals and creatures!

Philosophic thinking and creativity of mind of
Poets, scientists and artists place man on par
With the Supreme Creator or God we know
And still trying to know as He is infinite ever!

The vast evolving mind is making man into
A Superman aspiring high to the level of God!
But man is still a precious dust of His creation
And is stagnant on certain seasons of Nature!

Ramesh T A
A Duty Of Nature!

Duty of Nature
Lies in creative activities
For ever!

Ramesh T A
A Dwarf!

One can believe even

A robber but not a dwarf

Who deceives easily!

Ramesh T A
A Dying And Living Life!
Kicking the ball on the empty ground is useless;
Travelling without knowing destination is foolish;
Studying without an aim is a great waste of time;
Earning without an objective will not make great!
Knowledge based vision helps to have an ambition;
Ambition based aims help to live determined life;
Extensive experience helps to make wise decision;
Acts of well prepared person lead to achievements!
Ideals, wise ideas have to be followed to gain time
As the time lost in wasteful things can’t be regained!
Lack of complete education makes all incomplete in life
Landing one day sure in disillusionment and dejection!
Dying all life many live to earn money sans satisfaction;
Living life for money many die everyday without sense!
Ramesh T A

A Facility To Meet Friends Forever!

Changing season has at last landed us in Winter
In all its characteristic chill weather to bear sure!
Time seems to move on snail's pace all day and
Night is without an end going on with dreams!

Browsing long on Computer we get connected
To a lot of new friends having similar views to
Share with one and all and make a new fun
Very well to share among friends forever sure!

Old and new friends meet by internet facility
Very easily at any moment to make fun time
Get extended to any length of time we like
Whenever we can with our dear friends ever!

Social network is indeed a great facility to make
All engaged with useful and helpful friends ever
To do whatever we like to go ahead whatever be
The situation - hard or boring or entertaining...!

Ramesh T A
A Fact Of Reality!

Wide azure blue Sky is bright with Sunshine!
Cotton clouds slowly disappear in the west!
Gentle breeze sways hearts after the storm!

Brisk activity of town resumed to the full
Bring hope and joy to the heart once again!
Now I write joyful poems for friends to enjoy!

Value of joy is felt very much after grief great!
Nothing is permanent in the world of change
If we are interested to experience change ever!

If spring comes summer will certainly come!
If summer comes autumn will automatically follow!
And if winter comes surely spring is not far off!

Change in Nature shows the real value of all
For man to know to accept fact of reality ever!

Ramesh T A
A Fact Or Fiction?

Is the movie, 2012 a fact or fiction?
It was interesting to see the movie!
Due to too much global warming
Catastrophe takes place to end
All living beings, animals and buildings!

Nature is balancing itself in an unique way
By melting the glaciers and filling with water
The whole of Earth and then it becomes normal!
Due to man's too much polluting works
This sort of operation Nature does
To balance itself to normalcy is quite true!

It is a warning for all nations to be careful
In letting out greenhouse gas emissions!
For Copenhagen Conference on Climate Change
Perhaps this picture will help to decide matter!

Ramesh T A
A Factor Spoiling Good Efforts!

A factor spoiling good efforts is efficiency of
The machinery looking after the works of all!
It is the case with the website devoted to verse
As seen in this world attracting poetry site!

Many of best entries are not accepted by
The server's sluggish and slow reception!
Many beautiful inputs by poets of good ability
Are simply wasted by this kind of error here!

When will this machinery understand the best
From the foolish inputs of frolicsome versifiers?
When will the best poetry writers really be honoured
By the understanding mechanism of this website?

All efforts of best poets are left as fragrant flowers
Getting faded in the desert air of no sense forever!

Ramesh T A
A Faith Against Fate!

Faith in God
Will never go waste
Despite Fate!

Ramesh T A
A Faith Firm Forever!

Faith is most important in the life of man!
Sans faith nothing is done with boldness....
In the world of man, success or failure, in all!

Strong conviction based on knowledge of truth
Only can make faith of a man firm in world life
Till the end of time in the whole life of man sure!

Before having faith in God, as said by Vivekananda.
One should have faith in oneself first before having
Faith in others and then only in God for sure ever...!

For that, one should know truth by intellectual thoughts
By intelligently choosing books from library to read by
Eschewing the peripherals and chewing the central points!

Thoroughly so browsing deeply all points from top to bottom
And from left to right, one will be sure and firm in one's faith!

Ramesh T A
A Faith In Love!

Attraction of flower kindles joyful thought;  
Its sweet scent even after long haunts....  
All night with tears cascading from eyes;  
Yet, the Venus bright above winks of love!

Falling of petals of flower one by one long  
In the yonder occasion love was fulfilled;  
But that time comes no more again to see  
The beauty of love kindling passion high!

Waxing and vanning moon witnesses all  
With the same cool brightness and smile!  
The drama of romantic love life drags on  
Patience of will power to pure state of bliss!

Faith in love never ends in sorrow forever,  
But always fulfils heart's desire though late!

Ramesh T A
A Faith To Restore Hope Is A Must!

Attachment to things and persons may lead to disappointment;
Pinning too much hope on things of desire may result in dejection;
Lack of proper food and sleep lead to depression and nightmare;
Nature, literature and religion can relax, give hope and inspiration!

Traquilisers administered by physician physically help sometime;
When confidence is recovered and a new determination is obtained,
Normal way of life begins once again for one to go ahead in life
And many things can be achieved in the world full of opportunities!

A balanced mind for happiness and sorrow is what needed for all
Which is advocated by Holy Scriptures like Gita, Buddhism and all;
Knowing and making a decision based on them suitable is best
One can have to wade through the trials and tribulations of world life.

Nothing is lost or gained if anything fails in life for one of firm faith,
Which only can give restoration and will to regain lost position ever!

Ramesh T A
A Fake!

Genuine things
Have lost their values before
Glamorous fakes!

Ramesh T A
A False Face!

Happy mood comes of festivity;
But it seems only a time bound thing!

What shall I do to prolong that mood?
Festivity or not, we have to be unassuming!

Our happiness should not provoke jealousy
In others to create problems to us ever!

Food of one becomes poison of others too
If we don't know what kind of men we move with!

Always maintain equidistant to avoid tussle;
That policy works out well in many circles!

For, familiarity breeds contempt says a proverb
Which is hundred percent true in world life!

We can satisfy all kinds of people in the world
But not the sadist because of their false mask!

Ramesh T A
A Fame!

Appear in fame
Otherwise not appearing at all
Is always better!

Ramesh T A
A Family Of One God!

Mankind is one family of God;  
World is one human family!  
There is only one community  
And there is only one God for all!

Black, yellow, white or brown  
People may be in the world;  
Classes and creeds are many;  
But they are all from one God!

So, all the places are my place  
And all the people are my kin!  
Love is our world philosophy  
And let us all live together!

All are brothers, sisters, cousins,  
Friends, aunts, uncles everywhere!

Ramesh T A
A Fancy Fly!

Free fun flourishes
Favouring friends flocking
For fancy fly...!

Ramesh T A
A Fantasy In Paradise!

"Is it dream or reality?" he is not sure lying on the bed; He is not sure whether it is day or night too in that state! Whatever it is, he is prepared to go to the full length of it; Then he sees colourfu1 lights rotating round him as in dream!

All colours of light then have turned into blue transparent one Without anything very bright but also not invisible anywhere; Beautiful dancing girls start coming from nowhere to him with Smiles like newly bloomed flowers with sparkling diamond teeth!

Golden transparent robe like attire displayed all beauty in full View as move in slow motion as if walking on the Moon ground; Then he wonders whether he is in Moon or on the desert of Earth; Again colour of light changes revealing a paradise before him now!

A grand palace is at the centre of the great paradise, where the Angels have escorted him opening the golden door with golden key; The golden key sings love song sweet to open all other doors of Palace to allow cool breeze to enter and cool all to dance in joy!

He is the only man from outside world seems to have been allowed Inside to enjoy life in love with sweet angels in exquisite beauty; For, he has sacrificed his whole life for the sake of all his pals, Relatives and all family members who all have stranded him out...!

To bring him back to normalcy, Almighty has sent those lovely ladies To entertain him with exotic fantasy of their magical dance cheering His mood to a state of love to be happy enjoying love as angels do In heaven wishing with sure hope he will see reality with joy only!

Ramesh T A
A Fantasy Of Nature!

In the freshness of morning glory
Walk I out to breathe fresh air...!
Sweet scent of yellow flowers are
A beautiful carpet on the road...!

Multicoloured beauty the flying
Butterflies hovering as angels...
Take one to a dream land of heaven!

Rotating water sprinklers wetting
Green lawn of the park is wonder
As the dancing dame of rainbow!

Morning sunshine getting brighter
Sunny romantic scene is ready for
The lovers to start romance of day
As in movie of Nature fantasy ever!

Ramesh T A
A Fantasy World!

Superstition was ruling the minds of men in the past;
Then religion took upper hand to rule men in the world;
Philosophy brought truth to men to live enlightened life;
Science exposed superstition and dominates the world!

Science remained in ivory tower allowing politics upper ever
Supported by bureaucracy to govern the people thereafter!
Science supposed to have been ruling is sub-serving them;
Art, literature and culture are kept on the backburner as well.

Problems of the world like global warming and climate change,
Monopoly and terrorism are going beyond the control of govts.
The hands of politicians use religion and science to exploit men
Making the world a fantasy once conjured by superstition so long!

Powers in the hands of wrong persons make this a fantasy world
As all matters are man made rather than natural or otherwise now!

Ramesh T A
A Farce In All Walks Of Life!

Every living being is unique in its natural creation;
Personality, beauty, intelligence make difference;
Variety of living beings varies widely so here;
So, competition, jealously, envy burn hearts!

Jealousy, desire and competition occupy many;
Natural development and contribution diminish;
Education, politics and business suffer as a result;
So, hatred, violence and crimes increase daily!

Genuine, consistent and complete work suffer a lot
In all stages in every walk of life making all a farce!
Comparative knowledge develops critical nature
Useful for development and perfection in any art.

The sincere and perfect professionals lose in game
As the lucky guys who take shortcut route to glory soon!

Ramesh T A
A Farmers' Holiday!

Farmers' holiday begins after the celebration of harvest festival
Finishing yearly harvest of crops to feed food for all in new year!
In this yearly hard work and the successful achievement they have
Made, they happily meet friends and relatives to share their joy!
This one day people happily share harvest festival greetings with
All and go round all places to enjoy in whatever way they can sans
Knowing the limit in enthusiasm and over-joy so much that they
Simply forget in drinks, pomp, pageantry and revelry all day long!
All places decorated with sugar canes and turmeric vegetables as
Mark of harvest festival celebration, all make boiled Pongal with the
Mixture of new rice, milk and sugar to share with all tasting the first
Fruit of labour of the whole year by farmers with ox and cow for help!
What a joy and satisfaction people enjoy in celebrating festival of
Harvest in gratitude to Nature that is sustaining all as mother ever!

Ramesh T A
A Fascinating Flower Unique!

Flowers are a great fascination for me
Whether I am in the garden or anywhere!
Colours are ever fresh with fragrance
Each flower has quite unique in Nature!

What a beauty each flower is in the world!
Each bud is well blossomed to bloom full
For the bees to accept its invitation sans
Any refusal whatsoever with full passion!

Tender love of petals soothe souls enervated
Opening the golden gate of fantasy in dreams
As diamonds kindle vision full of passion ever
As a magic show that engrossed audience in...!

The magic effects of flowers are so unique.....
That no one can fail to honour well forever!

Ramesh T A
A Fashion View!

Fashion reveals
How modern a person is
Wise or funny!

Ramesh T A
A Fast Journey!

Thought process goes on
As I travel in the train
After a long time
Among scenes of Nature
Beautiful, wonderful, amazing
In the summer season!

Day is bright with sunlight;
Lands are dry and brown;
But grass and trees are green!

Ponds and wells are filled with water
Due to recent sudden rain in the nights
That keeps fresh the places
Though hot now in the noon!

The super fast train goes
With galloping speed
After leaving the station soon!

Within two hours we reach
The main junction in the middle
Before it moves on the 2nd part!

The second part of the journey
Due to drowsiness people sleep
For an hour or two till the last
But one station comes after
Three hours to a junction,
Where we get down to change
The train for our town next!

Within 50 minutes we reach
Our town in the evening,
When the southern breeze
Is cool, soothing and comforting!

There ends our journey home
And it’s for you to dream about
Other matters according to your
Wish and conclusion! Bye, bye!

Ramesh T A
A Fast Material World!

A serious work of some looks to be a silly matter to some others! Many are using computers and smart phones for playing games; Modern day developments based on advancement of technology Have made Computer a necessity to have one for all works ever!

For the nonuser of this gadget with its usefulness seems to be just A fun box only not realizing that it is the type-writer, email box, Searching instrument of all matters, a library containing all kinds of Information needed for everyone's work to go on well and more....!

For communication, for maintaining relationship and friendship with All persons of the world without meeting or seeing in person ever, for Working at home, for transaction of business, for reservations and for Many other uses Computer has come into vogue until a best one comes!

According to new inventions and developments illnesses or diseases too Come up as after effects of modern medication in the fast material world!

Ramesh T A
A Fast Time!

Times goes on fast
Whether we do worthwhile things or not
In the routine itself daily!

Ramesh T A
A Fate Of Being Great!

Selflessness makes one a great person
Among selfish persons around the world.
Without coordinating for anything they all
Seek cooperation from such a great man
Taking for granted he is God as he is great!

This is the nature of world men around forever
And the fate of misfortunes great men endure
Unable to utter their sufferings in the world!
Great man is also a human being, you know
That only a few among many comes to know!

To make the world a better place to live
Great man tries to alleviate sufferings;
But without understanding cooperation of all
How can the goal be achieved with success for all?

Ramesh T A
Half baked bread is difficult to digest ever;
So also, little learning is dangerous in life!
Learning by doing is a practical way to know
Many things in the world, but few practise it!

Likes and dislikes decide what's one's mind;
Extraordinary ones are beyond them ever in
Their ventures beyond their scope in a field;
Helped by intuition they do miracles in works!

Such best minds' creations are one of a kind
Many can't understand and criticize sans any
Knowledge and qualification spoiling creativity
And blocking best of knowledge to world ever!

Due to blockage of such vandals, free flow of
river of best ideas run underground in darkness!

Ramesh T A
A Fate Of Friendship Forum!

A few intellectual individuals formed a friendship forum;  
Its intention was to follow a plan for intellectual development.  
If the plan was not feasible it had to be disbanded instantly;  
If it worked out well the intellectuals would have a friendship!

Criticising and reforming the society while developing themselves  
They planned to do something others had not attempted before!  
Without disbanding and without intellectual development it went  
For sometime and dwindled to a vague forum of no interest!

What kind of a friendship forum is this one all might wonder?  
First of all gathering them and starting analysis itself did not click;  
A sort of romantic type of development led them to close it soon  
Without informing anything to the really interested intellectuals!

Fate of this friendship forum is a model for many forums’ failure  
Everyone should know before venturing into such foolishness!

Ramesh T A
A Fate Of Top Poems!

Past poets were remarkable by their poems only;
But present poets are made remarkable by others!

Poetry of the past are no doubt top poems ever;
But poetry of the top are not listed in top poems!

Becoming top poets how can theirs have no place
Among the top poems of the poetry list? I wonder!

Touch stone of the top poems depends on merit
But not by the supports of friends for fun ever!

Poems of lasting value only can become classic;
But poems of no merit also have become classic!

Poetry of the past are romantic and also classic
But poetry of the present are neither but modern!

What is the yardstick to select poems as top ones  -
Just support of some but not merit and meaning?

Ramesh T A
A Fate Work!

Who knows
What is God's next move
It's fate work!

Ramesh T A
A Fear Of Terror!

A great super power
America in the world is
Afraid of terror!

Ramesh T A
A Fear Or Love?

Are you a slave of fear?
If so you are not a man but an animal
Because animals can be controlled only by fear!

Are you a slave of love?
If so you are not an animal but an angel
Because angels are governed by love in heaven!

Are you afraid of truth?
If so you will be a slave of fear!

Are you in love with truth?
If so you will be a slave of love!

Fear cannot make one strong and happy;
Only love can make you strong and happy!

The sufferings for truth make you not weak;
They are concretising success at the end!

Ramesh T A
A Fearless One!

Young Calf
Doesn’t know any fear
Of life first!

Ramesh T A
A Feast I Enjoy...!

Birds of many hues I see
Like fish of many hues in the sea!

Poems of many forms I read
Like leaves of many forms I note!

Persons of many natures I encounter
Like the songs of many pop singers ever!

Clouds of many sizes and shapes I observe
Like the cotton candy mouths of kids absorb!

Apparels of many hues and designs I come across
Like the butterflies of many hues in the garden arch!

Flowers of many hues and fragrance I enjoy
Like the layers of clouds of may hues at the dust!

Nature is full of many varieties I much love
Like the feast of many varieties of dishes delicious!

Ramesh T A
A Feast Of Dance In The Heritage Hall!

A huge heritage building hall it is sure to run a restaurant;
Beautiful ladies are dancing round the hall enthralling all;
Customers enjoy double feast for the eyes and stomachs there!

Dancing happily to the tune of melodious song dames enthuse all;
Everywhere colourful beauties like angels fly and dance there;
Feast of enjoyment has no limit to say in such an atmosphere...!

Girls gorgeously decorated as golden angels sway all hearts high;
Highly sophisticated steps in dance they perform with perfect feat;
Icon of the group dance is only one hero in the midst of Gopies!

Joy knows no bound to dance among those angelic dames in bright colours;
Keeping the logical sequence of steps, they all circle round the hall
Like the Stars in the Universe encircling the core of milky galaxy!

Many movements of the back and waist of each are perfect to the tune;
No one seems to wink even the eyes as not to miss the next best move;
Oviya or Cleopatra or Helen of Troy are nothing before those beauties!

Paintings of great soviet union or India or Europe all see in their eyes;
Questions unanswerable conjure up in the gesticulations of their limbs;
Revolving round, they dance and entice all to applause to their tunes ever!

Smiling as sweet honey and juice, their lips wait to be kissed in appreciation;
Tricks of intricate nature perhaps spray magical power all over as mist sure;
Universe itself seems to be nothing before the sparking dances of beauties there!

Various hues of dancing girls are like various flowers fragrant in blend there;
Whirlpool like dance there is the cynosure that attracts all at the midst;
X and Y of society too gets tempted to make movements of dance seeing them!

Yearnings of dance lovers and beauties have a great feast indeed in the dance;
Zeus is the only hero at the centre activates all dames to dance round him long!

Ramesh T A
A Feast Of Joy!

Another day of cheer opens door wide
Bequeathing all with plenty of fun to play
Catering to the needs of all at anytime!

Delight after delight increases interest
Enchanting brim full of bubbles of joy
Floating everywhere in the feast full!

Gathering friends meet companions
Hugging with humorous thoughts ever
In the dreams of the past glory immortal!

Joint partners in play revel in merry making,
Keep all with glasses never minimizing at all
Losing or winning without minding time...!

Moments of joy never to be forgotten in life
Neither the winner nor the loser ever bothers
Openly losing one's Self as rivers in the ocean!

Pure heart of gold caring all with comforts only
Queen of heart can do so in revelry of ace class
Rejoicing in the occasion quite grande in scale!

Surfing on the waves of fantasy all forget world
That has progressed accumulating problems As
Universe only can accommodate their proportion!

Vertically and horizontally all things explored
World of woes is kept at the back burner ever;
Xerox of it only kept for ready reference however!

Year long striving is made to disappear by feast
Zigzagging over woes with new found solutions!

Ramesh T A
A Feather On The Cap!

Averting war by America on Syria, Russia achieves
A great mileage in its journey of international politics!

A Peace idea of Russian President Vladimir Putin
Accepted by Syria for its surrender of Chemical Weapons
To an international committee adds feather to his cap!

A Nobel Prize for Peace is reserved to the deserving.......
Yes! Certainly for Putin for World Peace sooner or later!

Thousands of people rebelling against Syrian Government
Lost their lives by Chemical Weapon used by it........!

Weapons of mass destruction cause havoc incredible
Much more dangerous than the conventional weapons!

To bring an end to weapons of war forever........
To wage a war is the most stupidest of stupid thing!

Luckily, right decision by Russia brings closer Russia & USA!

Ramesh T A
A Feather Touch!

Blue Lord gives by flute music
To give relief by Dharma!

Ramesh T A
A Feeling To Say Goodbye!

I feel like saying goodbye to you!
I cannot compel or force you to act;
I expect voluntary response from you.
If the response is favourable to me
I shall continue to do best for all.
So, let me wait and watch I feel!

Ramesh T A
A Feeling Wonderful!

Riding on horse back long I settled on a lawn;
Green, green grass was cool for the eye
Against hot summer exhausting to the core!

Bright blue sky with a few passing white clouds
Here and there was wonderful to see from there;
Dreaming due to drowsiness made me close eyes!

How long have I been in that state don't know!
Was I in dream or wakeful state don't know!
But caressing of gentle hand felt I quite sure!

Exhaustion turned into enthusiasm indeed
By the magic touch of gentle stroke of feather
Felt I unable to come to my senses sure!

Such a feeling never came back again thereafter
Though I reached the end of my journey home!

Ramesh T A
A Festival Fun!

Are we enjoying festivals understanding significance
Attributed by traditional heritage or just for fun only
To spend the holidays with our family and friends...?

Winter is the time of darkness with long nights unlike
In Summer, when days are longer than nights ever..., Affecting health and causing concern due to uneasiness!

To overcome uncertainty of health due to inclement
And bad weather these festivals provide best chance for
Having inspiration and fun in festivals in a collective way!

Joy is multiplied by gathering in groups to see the deities
In exquisite decorations visiting places on chariots with
Colourful bonfires being cracked on roads till convoy goes!

The whole Winter biting cold times are overcome by this kind
Of wonderful diversion accompanied by fun for all to enjoy....!

Ramesh T A
A Festival Nobody Can Forget!

Festival of lights everybody loves!
This festival nobody can forget!
I had a lot of fun time on this festival;
Now everything has changed in life.

We wait without sleep till dawn;
So, to kill the time we burn crackers,
Go to cinema night show to see
Best old movie and see dawn soon!

At dawn we take oil bath and wear
New dress we like most and pray
God to make life bright and successful;
Taking snacks go to cinema new again!

Time will go without knowing time spent
And wish to spend everyday so, O God!

Ramesh T A
A Festival Of Colours!

Festival of colours is marked with group dance
Reflecting Krishna leela of spraying colour water
With hand water pump over each other in fun!

Biding good bye to Winter and welcoming Spring
In this fashion after harvest of rich crops and again
Beginning new cultivation enjoy so in celebration!

Cultural way of living life so in fun and dance
All make easy to forget all burdens before and
After to start a new course once again in life sure!

Smearing faces with colourful powder and spraying
Colour water on each other all forget enmities and
Renew friendship and love to peace, progress, prosperity!

Festival of colours brings all together to enjoy en masse
To forget all bad things and invite all best things in life!

Ramesh T A
Festivals abound in India, the land of beauty and greatness;
One such festival is the festival of harvest.
This most celebrated festival is the farmer’s festival too;
War or peace the farmers plough and produce
Food to feed the mass of the whole world.
High or low everyone salutes and goes after the plough man,
Who ploughs and produces food produces to please all the people.
But who bothers about the peasants who toil all day under the hot sun
Braving the monotony of the routine
along with his cattle between the sky and the earth?
An uncared for creature though broad as the sky and patient as the earth he is
To bear all the insults wisely holding the responsibility to feed the whole world!
The festival of harvest, the only time he cherishes in all the seasons of the year;
A successful harvest done, he prays to the Rain, Sun and the Cow that gives milk.
Yes! Rain, Sun and Milk are very vital for men on the earth
To live, love and make life sustainable against all adversities!
Ever rich green everyone wants to see the field;
But it’s a feat only the farmers furnish so to the flora forever
And grow the ripe gold corns on the field ready to cut at the harvest hour
Only to sow new seeds and cultivate new plants to cut rich crops at the next harvest.
So goes the work of the farmer on the field forever and ever.
For long born as bonded labourers great souls toiled unseen
and died unknown;
The old system extracted, exploited and exhausted them beyond repair.
So the new generation migrated in masses to metropolitan cities to become moderners
And science and technology entered villages changing the nature of agriculture altogether.
Now the nation’s economy suffers due to their mass exodus to the towns
And many agro-industries are needed to change this trend in the villages.
The towns’ facilities have to be introduced in the villages too;
And above all population growth has to be checked
by supportive material growths also.
Water the vital need of the villages has to be diverted from the river going waste;
Science and technology have to be used here more than to wars
and sending rockets to the seas!
Village agriculture, the symbol of civilisation should not turn into a place of jungle for savage harvests;
The peaceful village life, the basis of our culture should not be forgotten forever,
If we want to live as human beings in the world forever and ever.
So, Rain, Sun and Milk, the sustaining power of the people have to be celebrated in every harvest,
Whatever be our developments and however high or low every one lives in the world.

Ramesh T A
A Festival Of Joy In Nature!

For appreciating Nature’s bounty farmers celebrate festivals;  
Without rain, sunshine, food and milk are there life and joy?

Sun gives light and energy for all plants to survive forever;  
Plants give energy as food for animals and men in the world;  
With food, fruits and flowers farmers worship Nature in gratitude;  
All plants, animals and men born of Nature get fulfilment in it.

After harvest of rich crops they celebrate harvest festival ever;  
In rain, sunshine, food and milk man sees god’s love and worships  
By festivals in appreciation, gratitude and enjoys happiness in life!

Farmers are priests of Nature representing God for men in the world;  
Toiling all the year they bring happiness to all men of the world.  
Are the farmers happy by the treatment they get from mankind?

Has man cared for the farms, trees and climate so far to save world?  
Is it fair taking all benefits from Nature and harming it in return?

Ramesh T A
A Festival Stimulus!

Chiming bells and songs rent up the air!
Mood of festival eve catch up all in joy!
Not minding chill weather all go brisk
Purchasing, taking snack and juice, low!

For a month happy mood will stir all hearts
Forgetting old matters and dreaming new
About long months ahead for progress...
To make life better to enjoy better in full!

And when works go on full swing as per plan
Spring will greet all with smiling flowers.....
To cheer up the mood to forget the stress
And strain of work load with hope of future!

Festival is the incentive to stimulate zeal
To go ahead on any venture to achieve goal!

Ramesh T A
A Festival Time

Festival time

No other thoughts emerge

Only celebrations!

Ramesh T A
A Festival!

Beautiful bonfire
And sound of crackers fill the sky
It's festival of lights!

Ramesh T A
A Filthy Smelling Nasty Terrorist Beggar!

Terrorists are the satanic disciples of devil’s religion of the world; 
Wahhabism is the satanic verse of mad creed they follow everywhere; 
Filthy smelling nasty beggars of peevish nature do all destructions 
Without any sense of humanness even towards women and children!

Without the sense of goodness, truth and beauty they do havocs 
Just for a paltry sum of money brainwashed from the childhood 
In madrassas of old religious schools uncongenial to modern time 
Needing reforms from the grass root level to the highest order!

Who knows who they are if they grow beard, wear turban and dirty ever 
Making woman folks wear completely closed rob from head to foot 
Confining them in home without giving any education for mental growth 
So that they can be controlled by male dominating society of brute culture!

The game of such fitly rogues, a blot to modern civilised world, will end 
Sooner or later by the collective efforts of all forward looking supermen!

Ramesh T A
A Final War Game!

Fostering antisocial elements to eliminate starch enemy
Surely is fueling towering inferno can't be extinguished!
That was the thing begun by USA to fight against its
Rival Soviet Union in the war between two ideologies...!

The consequence is the commencement of terrorism in
Many forms, sizes and shapes affecting all world nations!
The past NATO ally who has been supporting such fellows
Now is like the scientist who created Frankenstein monster!

Not knowing how to control or eradicate terrorist elements
That country is driven to be isolated from all world nations
Leaving it the choice to eradicate or get destroyed in the war
On Terror started after the destruction of NY twin trade towers!

Terrorism of the most fanatical kind how can any nation ever
Tolerate any longer to make regular works go on unhampered?
Consolidated forces of all nations need to be unified to put an
End to terrorist outfits everywhere as in the final game forever!

Ramesh T A
A Fine Season!

Drizzle has come

But water is not more from falls

Season's very fine!

Ramesh T A
A Finite To Infinite State!

For all finite beings final end is the same
Old eternal sleep to escape from Earth..!
Only the lasting and beneficial things
Each selflessly does shall immortalize one!

The imprints on the sands of shore are ever
Washed away by waves of sea and wind sure!
But the image formed in the mind and heart
Ever lives and gives life to the actors of drama!

The things enacted on the world stage are all
Have an end, when the screen is rolled down;
Life of the world is a big dream all dream long;
But it is all rounded off with the sleep finally!

Only when we escape from finite status on us,
We can reach infinity pure, clear and perfect!

Ramesh T A
A First Spiritual Experience!

It was an unprecedented experience in life!
Cold climate, beautiful natural scenes, lake
With mist covering all places both at noon
And after noon made him feel elated long!

Hari enjoyed boat riding and playing with kids
And catching fish seen in the small streams
Going across the estate with over-bridge on it!
Such a place haunted him beyond words to say!

He did small services of taking coffee to his uncle
Who was immersed in smoking cigarette aloof!
Cigarette smoke, mist and hot coffee vapour
Made him feel the touch of a mystic unknown!

He loved that kind of mystical experience much;
He enjoyed more in that kind of spiritual pleasure
Than playing hide and seek with other children or
Playing cards or chess or snake and ladder games!

Ramesh T A
A First To Last Poet!

I am a poet
From the first to the last
You know!

Ramesh T A
A Fittest!

Survival of the fittest
Not the right of the stout
But the might of the shrewd!

Ramesh T A
A Flash Of Ideas!

Lobes of brain are like the cluster of clouds in the sky above; Flash of ideas occur and disappear like lightning in the mind! Thoughts and ideas evolve so and when not used we forget; Also when used in poetic expressions too forgotten after use!

Romantic poets, Coleridge and Wordsworth made use of them In their memorable poems like Kubla Khan and Tintern Abbey; Extemporary expressions based on flash of ideas made history! Such ideas evolve due to intense musing over matter in depth!

Unless such ideas are jotted down on diaries or composed poems The chain of thoughts on them disappears as thin air sooner ever! Thousands of poems poets compose but all are not remembered As they are all expressed from flash ideas occurring now and then!

Poetry writing is indeed a magic possible by such lightning ideas; But without talent or genius they all become waste in no minute!

Ramesh T A
A Flood Toll!

When flood comes
If inches goes or foot goes
Who can count?

Ramesh T A
A Flower In Desert And Treasure In Sea!

Suitable persons for support are seldom
To find for making any progress in life!
Jealousy or envy of all spoils all works
Just when started with inspiration ever!

For carrying out works they need help
From persons of sincere mind in duty;
After finishing duty they are forgotten;
When they need support there is none!

One man doing all sans support from all
Indeed makes sincere guys disgusted ever
Leaving them wander as mystics alone
Trying to get solace and hope from Nature!

Many a genius so lies as treasure in deep sea
And rarest flowers fade in vain in wide desert!

Ramesh T A
A Flower In The Desert!

Suitable persons for support are seldom
To find for making any progress in life!
Jealousy or envy of all spoils all works
Just when started with inspiration ever!

For carrying out works they need help
From persons of sincere mind in duty;
After finishing duty they are forgotten;
When they need support there is none!

One man doing all sans support from all
Indeed makes sincere guys disgusted ever
Leaving them wander as mystics alone...
Trying to get solace and hope from Nature!

Many a genius so lies as treasure in deep sea
And rarest flowers fade in vain in wide desert!

Ramesh T A
A Flower Is A Flower!

Flowers are symbol of love to mankind!
Flowers perpetuate love in the world!
Flowers are lovely indeed forever!
Flowers are unique in the world!

Innocence of flowers touches the heart!
Loveliness of flowers imparts love to all!
A gift of flowers begins love in life!

Flowers say much about beauty of heart!
Beauty of flowers lives forever!
Joy of flowers influence joy to all!

Flowers are indeed forever here!
Flowers are enjoyable sight indeed!
Colourful flowers bring cheerful mood ever!
Wonderful creation beautiful flowers are..!

It's nice to see flowers in loneliness...!
Red flowers are of great fascination ever!
Flowers are for love only forever!
Flowers give joy in life ever!

Love cherishes all with flowers ever!
Love develops as daily blooming flowers ever!
Love lives as flowers daily bloom in the garden!
Flowers remind always of love to men!
Fresh flowers adorn deities forever!
Flower cherishes love forever!
A bouquet of flowers cheers the beloveds!
Soothing touch of flowers is incredible!

Flowers are born to adorn heaven!
Flowers are joy of life on Earth!
Flowers touch the hearts of all ever!
Flowers welcome all with cheers everyday!
Flowers are source of inspiration to men!

Rose flower surely intoxicates anyone!
Flowers enhance love forever!
Blue flowers are special attraction!
Beautiful flowers cheer up the mood sure!

Ramesh T A
A Flower Park For Peace!

Flower parks of nations are a fine rejuvenating splendour;
Smiling faces of flowers welcome everyone with cheers!
Flower gardens of the world make men forget all in life;
Flowers have the all absorbing power to bring calmness!

Flowers have that special spell of creating meditative mood
That makes everyone transcend to a heavenly region fine
And transforms the mood of melancholy to divine calmness.
This restores men to a state of confidence incredible ever!

Creation of flower parks resemble stars of universe in gyration
Making men have the universal spell to relieve oneself of hell
The world has become due to boisterous technological advances
Strangulating all look for peace and tranquillity beyond everything!

Without flower parks were is the place for all to get some relief
In the non-stop world of excitement in which all are placed now?

Ramesh T A
A Flower World Of Man!

Absorbed by the beauty of Nature,
Attracted by the structure of damsel
Man lives long romantic life here
In the flower world of man in joy!

Beautiful colourful flowers are fragrant
But blossom and become gloomy soon
Due to the very nature of their creation
Meant to be admired for their delicacy!

This Earth also survives long by atmosphere
And water source remaining non evaporative
Due to its unique and delicate position in
The solar system of Milky Way of universe!

This flower world should not be fragile and old
But renew itself as newly blossomed flowers ever!

Ramesh T A
A Flower World!

Like love in life ever
Flowers are in plant world!

Fine flowers are ever
Beautiful to look at and enjoy!

It's a beautiful world
The world of flowers is ever!

Ramesh T A
A Flyer High!

However high
The sparrow flies
Can't become falcon!

Ramesh T A
A Food For Everything!

Meals are the food for the body;
Knowledge is the food for the mind;
Meditation is the food for the spirit;
Music is the food for the love of heart;
Dreams are the food for the consciousness;
Prayer is the food for the Almighty;
Love is the food for the living heart;
Thoughts are the food for the brain;
Colourful ink is the food for the pen;
Ideas are the food for the stories;
Truth is the food for the will;
Sun’s energy is the food for the plants;
Plants are the food for the living beings;
But one man’s food is another man’s poison!

Ramesh T A
A Food!

Junks foods
Route to fat and sugar
End in stroke!

Ramesh T A
A Fool And A Wise One!

Being a April Fools' Day today all may look
To be a foolish act as many writings are dull!
All thoughts are turned to direction of AF
While reading poems everywhere today!

Love may make one a fool but not a loser;
Only losers are becoming fools in life ever.
In love there is no place for intelligence or
Intellect to play a part to make it rubbish!

Spiritualists or mystics too look to be foolish;
But they are not gathering wool but wisdom
By their mystical pursuits of the Ultimate one!
Apparent conclusion actually blinds truth ever!

Apparently looking fools are wiser than others;
Actually looking wise are fools at adverse times!

Ramesh T A
A Fools' Paradise!

An island of resorts far off from mainland

It's a fools' paradise where only fools and

Horses rush to explore rubbish course of life!

All fools rush rash as unbridled horses do

Freed from rigidity of any control of culture!

Govt. functions as banana republic anytime;

All wrongs are right if they wish to be so and

All rights are wrong if they desire to do so!

Only mafia gangs thrive on opium trade in

That banana republic marked by Casinos

Open to tycoons of world popular monopolists!

From morn till night and night to morn games

Of gamble consume billions of dollars in no minute;

Paupers become multimillionaire and millionaire poor!

Ramesh T A
A Force Of Love!

True love never sees age difference with anyone;
Seeing a person, love blooms at first sight itself.

Out of love whatever one does is right at anytime;
Expression of such act of desire is the way to fulfil
One's passion towards the beloved anywhere sure!

More than friendship, love's intimacy can't be ever
Expressed in words more than in acts of desire.....!

Free play of desire in love never sees any formalities
With anyone at anytime anywhere in the world sure;
But simply moves and does all as they are two sides
Of an ever lasting gold coin or as two bodies with
Only one soul inextricable by any force in the world!

Perhaps there is only one exception that is poetry only
Can couple so two souls by its unique force of love!

Ramesh T A
A Force Powerful!

Drenched in rain while walking in the beach
I decided not to take shelter nearby anywhere
Because the rain would not stop so soon then!

I used to be careful about my shoes at rain time;
I have lost many canvas shoes due to rain water!
Otherwise I enjoyed walking in rain seeing sea
And the water running in floods along the road!

Which is most powerful - fire or water? I brood!
Fire and water are counter forces and dangerous,
In which man cannot survive long by anyway!
Water contains fire and most powerful of the two!

But rain cools down body and creates jollity
That makes children and elders enjoy in dance,
A natural urge nobody can refuse to accept!

Ramesh T A
A Forever Echoing Poetry!

Sonnets, Haikus and free verses
Talk about love, beauty, Nature;
Yet, there is no end for it at all!

Poems flow as free flowing river,
Erupt like angry volcanoes and
Spring out like beautiful fountain!

All these things are happening
Beautifully, wonderfully, nicely
In this world of Poetry here long!

No one can stop the urge to write
Poems immortal for the world
To enjoy and appreciate forever!

What a unique medium to deliver
Wonderful ideas echoing forever and ever!

Ramesh T A
A Forgetfulness!

Move and talk much
But fail to name in invitation
Is careless forgetfulness!

Ramesh T A
A Fortune Or Fate?

Many kinds of disturbances are affecting the programmes of many; Disturbances spoil all serious or sincere efforts towards progress; Due to disturbances, many change their life activities for safety and Many have changed to safer places to do their favourite works....!

Many disturbances at home and in public have made many inactive And also confined to secret abodes to overcome consequences...! Nuisances and disturbances affect the concentration in vital works Making many relinquish their cherished dreams for ordinary jobs..!

Especially writers have suffered due to their works being destroyed Not knowing their values by their own beloved ones at home Leaving them no other go but to rewrite what they have already Written once again losing a lot of precious time in tedious drafting!

It had happened even to Poet S T Coleridge who was writing The dream story of his called Kubla Khan in an extempore way Being stopped due to the knock at his door and when he returned, He could not remember anything, but it became his masterpiece...!

Due to disturbances many a concentrated work is spoiled and The extempore works of some in some other form also have ing their life style by the discovery of real talent Happening as a serendipity due to some act of fortune or fate!

Ramesh T A
A Fountain Spring Of Love!

No perfect tragedy has occurred yet;
But everybody seems to have lost interest!
Is it due to monotony or no sense of humanity?

Silent sad music of society reminds me of Nature
That has become dry and beauty less everywhere
Reflecting the trend of society now suffering everywhere!

When the recovery will take place know not!
But still believe Nature never leaves one in despair
Provided all should stop exploiting and destroying Nature!

Can any human hearted people do harm to love
Whose out going concern is genuine for the well being of all
In the world many are concerned only with me, myself and I only?

With empathy and sympathy towards the simple loving souls
One can actually find genuine love springing as in a fountain ever!

Ramesh T A
A Fox Friend!

A fox like foe
In the garb of lamb
decimates herd!

Ramesh T A
A Fragrance Of Jasmine!

Jasmine flowers

Growing in other side of garden

Are ever fragrant!

Ramesh T A
A Freak World!

Freaks always talk and do freaky things sure;  
If they don't things so, they can't be freaks...!  
A website itself set for freaky poets, what else  
One can expect other than freaky statements!

The website belongs to Harry Potter world,  
Where magic like things only can be said  
And if possible magics can be performed  
By the poetic magicians of the world sure!

Freaks cannot be expected only on 31st Oct.,  
But also on all others days of the year too  
Freaky things can be expected for the surprise  
Of all people visiting the freak web world....!

Not knowing the freak messages some say  
A lot of goodbye messages now itself out of  
Freaky anxiety and excitement like the very  
Belligerent bellicose in a boisterous fashion!

Ramesh T A
A Free Bird!

Green parrots live as a family in a palace garden here;
Free bird life is what they really enjoy we all dream!
Boisterous dialogues they have each other on flight;
Morning, afternoon, evening we can hear their voice!

Plantain fruit, mango and guava fruit trees are around here;
They enjoy feasting all kinds of fruits and chillies too!
Everything is green around them reflecting their colour,
Which is a great wonder for all to look at and envy ever!

Crows, mynahs are there but they are nothing before parrots,
Who are the ruling monarchs commanding in the air ever
Like mischievous children playing with full of noise always
Indicating their full fledged freedom and joy no one can get!

What a life these green parrots enjoy and live forever and ever,
Which could be the great dream of my next birth if there is here!

Ramesh T A
A Free Destination!

A peaceful destination is what one dreams
At the end journey of life sooner or later!
I have seen the demises of many that moved
And has made me to have that desire well!

Personality shows mental advancement of man;
Emotion reflects the nature of heart in a person;
Outer self reflects the glow of indwelling spirit
And natural beauty of body attracts everybody!

Body is not the be all and end all of human beings;
Heart, mind and soul are there to form the whole!
Body pleasure is there as long as the body is there;
But spirit is eternal and spiritual pleasure is the best!

To overcome fear and meet the end well be free
From all bodily attachments in life by intellect first
And spiritually muse over all with love in Nature;
That gives real joy, bliss and peace ever to the end!

Ramesh T A
A Free Love Bird!

His personality and words made him dream angel;  
His presence increased pleasure and joy forever!  
Loving hearts ever protected him from hardships;  
Such a darling he was for many wherever he was!

He has dreams of love but can't enjoy love ever!  
Fate has destined him to live in distant land,  
Where he lives doing routine seeing time always  
Like a machine though he loves natural life ever!

Many years have gone by but he is not forgotten  
Whenever he meets his dear loving hearts by chance.  
Can he turn the clock anticlockwise to live past life  
Enjoying romance among the company of darlings?

Wonder he of such a blissful time Radha, Krishna lived  
In the gardens of Brindhawan as free birds in love long!

Ramesh T A
A Free Natural Resort!

Green grass fields give a cool look for the eyes
On the slopes of hill resort near the blue Sea
Reflecting blue Sky with no white clouds long!

Cool climate with a lot of Sunshine gives.....
A very bright picture of landscape to draw on
A white canvas as the great artist looks for...!

Enjoying such a beautiful spot of Nature ever
It is wonderful live a calm life far away from
All hustle and bustle of town full of pollution!

Breathing pure air gives a great relief to heart
That flies like a free bird on the wide open field
As in a romantic picture, where lovers sing songs!

Trouble free natural resort is what heart seeks
To have a blissful time to recoup lost spirit well!

Ramesh T A
A Free Nature!

Nature cannot be tamed and controlled ever
For, Nature is for free will and love always!
All living beings of Nature and children are so;
Without freedom they cannot survive anywhere!

Nature gives all the more one takes from it;
For, Nature loves all to sustain in plenty ever!
The more harm man gives the more it balances
By the same coin immediately or later sure!

This is the trait of Nature all should know
Whether one harms or not before hand ever
As paying back for all the harms of man
Will be beyond man’s capacity to bear!

Havocs by storm, rain and floods in winter
And hottest days and droughts in summer
Are due to pollution Nature repays so here
To balance itself only to continue its free work!

Ramesh T A
A Free State!

Birth, growth, decay and death
All living beings undergo sure!
Hunger and old age make all
Depend each other for survival!
Sans discipline, rationality and
Control freedom can't be enjoyed!
To have carefree freedom from
All worries man should be birth-less!
Birth fixes death for all beings;
Birth and death are for body;
Body with mind and heart
Man lives life with all things.
Spiritual state is the free state
All have to strive to overcome woes!

Ramesh T A
A Free Time To Myself I Exclusively Enjoy!

Slowly blue sky has changed to green, yellow, rose and red;  
Afterwards darkness has covered everywhere with Stars  
Popping up one by one before the queen of night, Moon  
Surely has risen from the Sea up to take her throne to see  
All the fun of the night over the Earth and other planets..!

What a pleasant evening it is today to get a free time at last  
Exclusively to myself to enjoy the beauty of Nature alone..!  
It's the time to have my heart to be light embracing finally  
To the bosom of beautiful Nature in loneliness none can stop  
The good or exquisite love I share exclusively reserved to me!

The pure love and beauty I enjoy is date with Moon night  
More than the date I could have enjoyed with a lady of beauty  
That cannot last longer as time passes on except if it's the beauty  
Out of love she shares with me through thick and thin in life.....,  
Which is rare in this world of opportunism that flies fast in no time!

Ramesh T A
A Free Water Of Joy!

Fine birds are flying in the sky;
Flying fish swim in the sea.
The whole sky is blue in colour;
The ocean reflects blue colour!
Salmon fish lives in fresh water
And also lives in the ocean!
Water falls from the mountain
Down the valley into cascades
And they all become a river
Going a long way to the sea.
Sea birds fly in the sky long
And also swim on the ocean!
All free living beings enjoy life
As long as water is on the Earth!

Ramesh T A
A Freedom By Poetry!

Poetic freedom is the real freedom for human race;  
The freedom they enjoy nobody enjoys in the world!  
Free birds are the poets leading the world to freedom;  
Nothing can stop the poetic spirit of human beings here!

Human life is incomplete without poetry in the world;  
Poetry expresses the dreams, visions and imagination  
Not only of the poets but also of the whole of mankind!  
Poetry is also the criticism of human life in the world.

Poetry talks about the past, present and future for all;  
Tells about love, life, Nature and beauty, a full knowledge!  
Otherwise not anyone can gain that by any way in the world  
And the place of poetry nothing can capture or replace ever!

Humankind is inspired by poetry for freedom to achieve freedom  
And education for freedom can be imparted only by poetry ever!

Ramesh T A
A Freedom Enjoying One!

Who is really enjoying freedom in the world –
The animals living in the forest
Or the men living in the towns, villages and cities
Or the birds flying freely in the sky?

Can the one living freely in the world
Know the difference between day and night,
Know the difference between Moon and Sun,
Know the difference between rain and summer day?

Who is singing meaningful songs in the world –
The birds migrating from place to place according to seasons
Or the man continuously working day and night
Or the woman loving someone she loves most?

Who is living a real life in the world –
The animals living naturally in the forest
Or the birds flying naturally over lands and seas
Or the man working anywhere in the world?

Anybody who knows answer for one or all may say in comment!

Ramesh T A
A Frenzy Of New Year Fever!

All sounds and noises of birds, men and vehicles have not started their score today morning;
Birds' songs and squirrels' noises have not yet dispelled the silence of night and morning;
Cool morning with clear sky is beautiful to see and enjoy breathing fresh air in the balcony;
Day is yet to begin its chores in the last day of the year 2017 paving way for New Year 2018!

Entire cosmopolitan town is going to turn into floods of people from all places in the evening;
Full of joy and fun, they all are going to jump, howl and dance riding on noisy bides to beach;
Garden of flowers they are going to be gathering near Gandhi and Nehru statues in he sea shore;
High pitch of their voices are going to utter "Happy New Year!" to each and everyone there sure!

In all hotels, sea shore resorts, roof gardens and restaurants, all are going to sing and dance;
Joy of all people is going to stir whole of cosmopolitan town in Indian, French and world tunes;
Kick starting the functions with beer raising the voices in one note of "Cheers" all begin all. . . ;
Long live this kind of high spirit all round the year 2018 all feel in heart carrying on the show!

Mob in frenzy mood triggered by new year fever know not how to express their elated emotion then;
No one is going to bed till dawn of new year they see and with satisfaction fall down in holiday;
Openly they say what all they have in heart and commune with pals and loved ones as never before;
pushing all blocking people away they all gather with friends as feathers of the same bird in joy!

Quivering in the frenzy of new year fever, they sing best of songs they cherish most in heart and
Rejoicing with all dear ones of their hearts they make all dreams into realities
since then on;
Saturation point for all high spirited joy there is no end this closing day of last year damn sure;
The thoughts of all sorrows will melt into joys of dreaming tomorrow to make all really happy then!

Unanimously all with cheers and one voice pledge to keep up friendship, love and progress ever so;
Vagaries of life may come in their way, but the resolution they have taken they never let loose...;
Woes of world will go away as cyclonic wind losing vigour by the force of their will showing new way!

X and Y too get injected with this new vigour of force that lifts them high with all as one ever;
Years of woes they have experienced will help their wisdom to surmount all hurdles as birds in air;
Zeal of new year mood is the spring board to follow new resolution to achieve all in flying colours!

Ramesh T A
A Fresh Beauty Of A Colonial Town!

Gentle rain was falling all the night till dawn;
After the dawn at noon, the sky is bright blue;
What a clarity of sky with so much Sunshine!

Green avenue trees are looking so fresh and fine
That a new lustre seems to have come up on the
town with grey and white buildings looking new!

All vehicles and motorbikes standing side by side
In a single row on one side of the road straight all
Leading to the beach give a fresh touch of a picture!

Colonial time construction of this town still looks
To be new and wonderful to the tourists visiting
And are appreciating it with surprise of its beauty!

Beauty of the town is still fresh and fabulous to the eyes;
But traffic and population are too much to control forever!

Ramesh T A
A Fresh Flower For God!

He is standing alone most of the time;
God wants him to stand alone so;
Perhaps He wants him to be with Him
And He will take him with Him soon.

Mostly all leave him alone often;
They approach him if they need;
They forget even to invite for function!
Otherwise nobody thinks about him.

Everyone’s eye is on him always;
He has become a model to many;
Everyone is jealous of each of his move
And his home is a glass abode to all!

He has to think about all socially;
Personally he has nothing to dream.
His private life is same as public life
And he has become an open book!

He cannot confide his feelings to anyone;
And nobody also will believe his grievance!
He is placed in a high pedestal
And everyone believes he has royal life!

He has to be careful about his glass abode;
Just single stone is enough to break it!
He has to be prepared for any test
And there is no respite in this world.

Nature, poetry and music help forget himself;
To free himself he writes poetry often
And forgets himself in the world of poetry
Enjoying sublime pleasure for divine liberty!

World is full of bad, worse and worst beings;
Also it is full of good, better and best beings.
God segregates best and filters out worst
And He plucks away best as fresh as flowers!
A Friend

Friend only knows
What others don't know
About one!

Ramesh T A
A Friend Is Most Important!

Confidence, courage and guidance friend gives to one;  
To a friend only one can confide anything in the world;  
Such a friend only can be with one till the end of life!  
If there is no friend who can be a friend to one here?

Father or mother can be a friend to a friendless person;  
Otherwise Nature is the best friend for one in the world.  
Without them only conscience can be a friend to one;  
Knowledge from books is a best friend to one anywhere!

If anything is of no use then only God is the sure friend!  
Shakespeare, Dickens, Homer and Vyasa have said all  
About friends, their activities in life for heroes in stories!  
Love and friendship are most important in life for anyone.

Knowledge and ideas of great books and friends are ever  
Indeed of great help in life and hope, virtue and power!

Ramesh T A
A Friend To Find!

All are friends to me I feel;
All say they are friends to me!
I think about the term friend;
A friend is a companion reliable;
But such friends are not near to me!

When I need I have to manage myself
And when they need I am not near too!
How can I have friends for my friendship?
So, I have become friendless always;
God only comes to my help time proves!

Do I need friend at all I think very often;
For celebration I need friends it seems
To share my happiness and make a show
Of my achievement or prosperity to the world!

Ramesh T A
A Friend!

We are born alone
We have to die and go alone
This is truth!

We are interdependent
And not independent as infinite God
God only can help!

Many are around
But friends are none
God only is friend!

Ramesh T A
A Friendly Knot!

Is friendly tie
Between Frog and Rat
Feasible in pond?

Ramesh T A
A Friendly Love Life!

Starting as acquaintances and going on as friends, they can become intimates; Intimate friendship can turn into love to live good and long life with understanding; Lovers starting as friends can achieve great things as best team mates sure!

Friendship is limited form of love, but love is limitless one due to intimacy; intelligent and lovely understanding of friendly lovers can achieve laurels in all; Friendly lovers can lead best family life in achieving great things for mankind!

Lover friends starting from education to life via work have chances to know all That are not possible in other kind of relationships in world life one can say; But if they cannot become lovers, their friendship is sure to bring better results!

Liberty, equality and friendship are really visible in a very great useful way Only among lover friends from the beginning to the end of life damn sure; Lovers of this friendly kind only can share equally well all sans any rivalry!

Friendly lovers sans rivalry can lead lasting intimate relationship in family life; Friendship of lovers is the best one among all kinds of relationships in world life!

Ramesh T A
A Friendship For Mankind!

A peaceful and friendly world only can keep mankind
Live in love, friendship and cooperative in useful work!
Making the world to be so is the job of everyone in the
World based on give and take policy forever and ever!

Without cooperation and coordination nothing can be
Effectively done whatever be the organization or club!
Each and everyone has the capacity to do what one can,
If each one is encouraged to show one's best in one's line!

When I think about matters in this fashion, I remember
Certain organization in the world doing so and they are
Bahai Faith organization and Sri Aurobindo Society sure
And say such organizations should have the support of UNO!

World needs the support of voluntary organizations doing
Best things for the unity, peace and friendship of mankind!

Ramesh T A
A Friendship For One World!

Open heart of one is a beautifully shining Sun;
As flowers bloom, friends befriend such a one
Who cares for others, listens to others plights,
Understands others, helps and supports ever!

A friend of that kind is always happy as a Sun
Shining wherever one is among friends or foes!
Even the one on the other side of the camp will
One day jump over the border line to be a friend!

Being in the best book of all whether in hell or
In heaven, that one is the best bet for all forever!
Such a reliable person is the best mediator ever
Needed to settle all disputes amicably for good!

Friends of such a good kind in every nation of
The world will make humanity survive ever with
Peace, prosperity and progress fostered by love
And friendship towards the creation of one world!

Ramesh T A
A Friendship Of Sublime Life!

With the canvas opened full the ship sails now
On a long journey to many islands to discover
Round the world on many seas and oceans....!

Pirates on the way are tackling all tsunami waves
And the ship moves on wonderfully to distant isles;
This crew of this ship is formed of friends noble!

Noble ideas only they cherish most and explore
Best things around the world to share with all
Just as it was done in Atlantis or Lumeria once!

Friends of this ship is formed of noble friendship
A to Z in names from all continents of the world
To make this world a better place to live forever!

One united human world is the goal first to achieve
To live a divine life as a sublime poem lifting souls high!

Ramesh T A
A Friendship Only Solves All!

All time high the climate thrashes all!
Best portion of day goes in drowsiness;
Climate changes unknown at anytime!

Doubts of any particular one arise too
Ever making all see weather keen and
Fear of extremities makes all think deep
Goading all follow the habits of birds and
Hover over land and sea to better location!

Ice cold situation forces all look for hot place;
Jogging too gives some relief to weak ones.
Kettle of hot beverages all seek now and then;
Love of hot stuffs gives great relief always
Making one and all take coffee often then...

Nowhere one can be comfortable ever in life
Often affected by weather and problems....!
Peace of mind solacing words gives sure
Quite late though many a time not possible
Restoring some relief at the neck of time....!

Sunny romantic life is the dream of many
Touching the hearts and minds to live on....!
Union of like-minded friends only can ensure
Verily a life enjoyable in all respects....but
What to do all fingers are not of the same size!

X, Y, Z should come together knowing this and
Yearnings of life then only can be solved well
Zeroing all difficulties and dilemmas in the world!

Ramesh T A
A Friendship Stand!

Friendship with all
But submission to none
One stands tall!

Ramesh T A
A Friendship Unique!

There is only one Sky and one Earth....!
We all live under same Sky and on Earth;
We have no chance of meeting each other;
We are separated by distance and nations;
Yet, we are united by poetry as friends!
We are friends beyond all barriers ever.

We don't know much about personal matters;
We don't know what we are going to do next;
We don't know our beginning and destination;
We don't know how long we will be writing;
We don't know when we would be out of this;
Yet, we discuss many matters as if long friends!

Our friendship is unique as we are poets of a kind;
This friendship sure develops international culture!

Ramesh T A
A Friendship Without Any Reciprocation!

A Friendship Without Any Reciprocation!

Only reciprocation keeps friendship alive in zeal and enthusiasm;
Sans mutual response a friendship is like one sided love of life,
Which means that relationship is out of order and has failed sure!

It is like a speaker goes on talking whether others listen or not;
Surely no speaker can speak with interest in such an assembly
Unless some say some symptom of acceptance or nod or so....!

Speaker, writer and any instructor sans any reaction can know or
Understand how far one's message or ideas or instructions are
Really understood or accepted or useful for others to follow or not!

Friends of different stream lines of knowledge and profession are
Also united with great interest in some common team work like
In a social club or drama or dance or art like painting or poetry...!

Friendship sans any involvement in each others interest or hobby
has no chance of development and lively relationship long in life!

Ramesh T A
A Friendship Worthless!

Friends similar
To jealous hearted relatives
Go ill together
Though broadminded friends can move
Yet nothing worthwhile is done with them!

Ramesh T A
A Friendship And Love!

Friendship has a limit but love is limitless;  
Where friendship stops love continues;  
Friendship gives company but love gives life;  
Friendship is the companion to love.

Friend is the bridge between two lovers;  
Without friend lovers cannot be united.  
Friend gives life but love brings life to one;  
World unity depends on love and friendship.

Love and friendship don't see differences;  
Love and friendship are beyond all barriers;  
Love and friendship maintain joy and peace;  
Love and friendship are forms of God's shield!

Friendship and love are two eyes of man;  
They are Sun and Moon of day and night!

Ramesh T A
A Frog In Hell Well!

Many live
As a frog in the well
Not knowing world!

Many rely on
Some unreformed religion
Leading to hell!

Dreaming about
A big heaven after death
They sacrifice life!

Terrorism leads
Nowhere but only to hell
They know not!

Ramesh T A
A Frozen Affair

Cold river is silently moving on its way;
Trees and plants on either side stand still;
Dews resting on leaves have frozen to snow;
Calm and cold atmosphere make all silent!

All greeneries have turned into white snow;
Blue sky too wears grey coat all complete;
Picture of bright morning looks dull now;
Slowly everything seems to be functioning!

Lethargically life goes on in the winter time;
For Nature, is it the time to be drowsy all day?
For the busy guys this is the resting time, seems;
But without briskness all will freeze soon too!

In this slumbering mood viewing calm place
And the natural things sleeping always look
As if we have landed on a different planet
Somewhere in the Universe, otherwise garbage!

Ramesh T A
A Frozen Art Of Time, Beauty And Love In Life!

Except chatting on internet, friends of distant places
Never get a chance to meet in person and that too, if
There is no synchronization of time, even chatting is
An impossible matter and can meet only in dreams ever!

Both Time and beauty never wait for anything in the world;
Time never stops ticking and beauty never remains the same
Being like a perishable commodity, except when Time and
Beauty are frozen in art, they can never be utilized well!

This is the case with distant lovers too, if they fall in
Love at first chat on interest making them long for a
Chance to meet in person somewhere someday in the world
Making them enjoy life in dreams, imaginations and poems!

More then physical and intellectual communion of hearts,
Life seems to get fulfilment by emotional and spiritual
Communion of soulmates in dreams, imagination and also,
In poems of emotional expressions frozen in this art ever!

Ramesh T A
A Fruition Of Life!

Stylish crescent moon shining golden yellow
Yellow evening change to orange and red..!
Red sky succumbing to darkness at twilight
Twilight zone succumbs to night finally well!

Well water being pumped out to fields green
Green leaves waving as waves of sea blue....
Blue sky of morn with sun energise fields...!
Fields full of crops rich guarantee rich harvest!

Harvest of grains, vegetables and fruits for
Forever supplying sumptuous food for all...
All kinds of flowers smile for prosperity ever!
Ever green fields enrich world to enjoy life!

Life in harmony with Nature looks beautiful
Beauty being the end product of fruition ever!

Ramesh T A
A Fulfilment

Fulfilment in life
Depends on satisfaction
One gets!

Ramesh T A
A Fulfilment In Life!

Fulfilment in life depends on satisfaction one gets in
Work, way of living, achievement of ambition and joy.
For men Art, women and Nature are the sources of joy;
Fulfilment and destiny lie in perfection, permanence!

Education, job and life for all have become business like;
Money is the main criteria decides the worth of matters
And after money men go for pleasure to get satisfaction.
A sort of mechanical life puts one in dissatisfaction then!

Specialisation of education denies completion of knowledge;
Joblessness leads to disappointment and violence everywhere;
Technology, terrorism have destroyed art, culture, humanism;
Out of touch with Art, love and Nature ends fulfilment in life!

Money minded modern tradition and animal lust end love;
Animalism cannot develop human nature to divine nature.
Painting, poetry and music only provide spiritual pacification;
Art, culture and Nature only can give fulfilment in world life!

Ramesh T A
A Fulfilment In World Life!

Only a person of love can hug and kiss
Naturally when seeing beloved persons!
Others shake hands as friends do and
Some kiss the hand to show their love!

Love is an out going concern for others;
A willing act of inner love as natural act
Expressing great desire one has over others
Wherever they meet or see in person ever!

Such kind of gesture seems to be rare now
As sensuous feeling comes uppermost to
Have contact with the attractive persons
Wherever one meets in world life today!

This act of human nature confirms ever
Sigmund Freud's theory of life fulfilment!

Ramesh T A
A Full Life!

A complete life is
Living with the thought of truth
To enjoy for liberation!

Ramesh T A
A Full Or Nothing Policy!

Have tuft of hair
Or shave to bald head
As a policy!

Ramesh T A
A Full State Of Liberty!

Living with the barest necessities only is good
And is the simplest way of living in Nature...!
Seers, sages, yogis and mystics love to live so
After attaining whole knowledge of all ever..

The more the dresses one wears, the more one
Hides many things to make a false image of
One to the world out of shame of oneself and
Always thrives on lies till the end sans peace!

Openness develops upon simplicity of oneself
To the extent of nirvana leading to liberation
To achieve real peace, bliss and joy sublime
With pure mind and spiritual fulfilment sure!

Love of all is the way to attain that status in life
With pure mind, heart and soul like the child
That doesn't have any falsity, shame, hatred,
Fear, lust and ill-will towards anyone anywhere!

Ramesh T A
A Full Stop To Slavery - I

He is a slave of his own community;
He cannot say anything against it;
If he says so he will be called a traitor,
Betrayed the reputation of his community
And so, he has to be punished by expulsion.
Is it justice, dharma? The thought deepens.

Without free ideas can any community develop?
Person of blooming ideas cannot breathe here!
Hierarchical system harasses harnessing all in tradition,
Quite ageless, out worn and ineffective in practice today!

If you are a slave of love
You will be honoured as a civilized person;
If you are a slave of truth
You will be respected as a honest person;
But if you are a slave of a community
Of dubious tradition
You will lose your reputation;
Things based on tradition
Are not permanent in this world;
But things based on truth
Cannot even be shaken by the world!

Finally, victory for any issue
Is always for the truth;
Love has no fear in the world
Being the greatest power.
Like the Sun and Moon for the Earth
Love and truth are for man here;
Man cannot see and understand
The world without his two eyes
So also, without love and truth
He cannot judge any matter wise;
Like the mother and father for the child
The love and truth are there for man.

Ramesh T A
No one is really free in this world;
But nobody knows about the other world.
All are roaming round for peace, joy and liberty;
Where they are getting these
There they are settling to live;
That is the nature of any reasonable man;
But those who commit to any community
Are contrary to Nature in this world community.

It’s well if love and truth are the basis of world culture;
Community consciousness should not affect social activities;
Communal feelings should not spoil the social progress;
Communal differences do affect the functioning of the society,
Peace and unity of nations blocking one world moulding activity,
Which no cultured person can tolerate in the modern world.

Moon, the slave of Earth rotates round it;
It is the natural law it cannot escape from it.
So also Earth and other planets rotate round the Sun.
Tree anchored to the ground gives fruits and shelter;
If man, a moving being, stands still it is an achievement!

Bird cannot live in water and fish in the air;
But frogs, crocodiles and hippos can live in water or on land;
Tigers that hunt the herds cannot graze like the herds;
Cattle cannot hunt lions or tigers to live as lions or tigers.
This is natural justice they all have to follow for survival!

Then man is a slave of his own habits too;
He is a slave of his own emotion;
He is a slave of his own intellect;
He is a slave of his own spirit;
By his very nature he may have control over his habits
And can become a master of his own self;
But he can never become a master of his own fate.
Fate and fortune are framed by the laws of God.
But the laws of man can be changed by time!
A Full Stop To Slavery - Iii

Apartheid the racial segregation was simply
The perpetuation of the olden days’ slavery;
The working people should also think
Rather than feeling as destined galley slaves;
The days of Greek, Egyptians, Romans
And imperialism have gone away;
Instead capitalism, communism and socialism
Are vying with each other to capture the world
Forgetting the ever justifiable democracy,
The best means of existence for all men;
And so, slavery of one form or other
Is still prevailing all over the world!

It is not for the masters to be convinced
But the slaves to think to change the system;
India got freedom from foreign domination
By passive resistance following the Gandhian philosophy
Of non-violence rather than other thoughts of violence;
Convincing even the minority group with justice
In the democratic spirit was the method of Gandhi,
The sure means to achieve success whatever be the crisis!
Achievement in silence is much more effective
Than through speeches of violence;
Magnanimity of the meek man could not be
Mistaken for weakness by violent men;
But in the modern world the incorrigible dogmats
Have to be contained by their own methods;
And so intelligent efforts are needed much
To arrest the attention of rigid men to accept reason!

Survival of the fittest means not
The success of the stout but the shrewd!
Might is right not the right of the muscle
But the might of the mind!

By the nature of man slavery of any kind is unnatural,
Unholy, unacceptable and above all unjustifiable!
Even in slavery the nature of man is to do human things only;
So to overcome slavery of any form human means is best to follow!
The means to achieve the end varies
According to the mood from time to time
And accordingly a good means has to be
Adopted to achieve the end in a good manner.

Lord Buddha successfully experimented
The means of love to achieve the end desirable by all;
Six hundred years after Lord Jesus followed
The same means to achieve the salvation for mankind;
And in our century Mahatma Gandhi also practised
The same means to achieve the independence of India.
More than the success for them all
Following the good means to achieve
The good end is more important.
Why can’t now also people think
Of experimenting new means
To put an end to slavery?
Surely the end of slavery can be achieved
If new means suitable to the time is adopted.

Ramesh T A
A Fun And Joy Of New Year!

Sunny blue sky with cotton white clouds,
Pink rose flowers and yellow red flowers,
Rich green trees with fruits all the way..., I have the pleasure to honour the welcome!

Still slumbering town slowly wakes to life
To celebrate Indian New Year with joy....!
Starting with the worship of God in temple
People go in bright attire to begin all anew!

Sweet greetings on beautiful cards abound
In all website messages I open to see now...!
Sunny Spring once more delights with mood
Fresh, frivolous and full of pageantry fine...!

All round the year sun, rain, rich harvest....
And joy and fun will delight all sans fail sure!

Ramesh T A
A Fun Box Born Of Idiot Box!

Fun box born of idiot box occupies centre stage of life!
For all matters all click computer for help or information;
Education, job, entertainment and fun computer gives!
TV replaced radio, computer replaced TV, cell phone all!

Family and children are glued to TV, computer and cell phone!
Laptop and E-book even on travels never leaves most of men!
Losing touch with reality mankind is driven to live in virtual life!
Cyber crimes and transfer of bank money secrets threaten all!

World economy is decided on line making men face crises more
Than they were dealing previously due to comforts and addiction.
Commodity prices and gold have same sort of biddings on line
Making human living ridiculous and human life just a commodity!

Modern civilisation has made developments with madness ingrained
Driving all glued to fun box as if life is a moving picture of idiot box!

Ramesh T A
A Fun In Holiday Beach!

Taking bath in the salt water of sea in the beach
People go to take clean water shower bath ever...!
Double bath they take dancing by the jolly music
To have great fun wit friends in holiday beach..!

Tsunami has made sea water rough ever making it
Very difficult to swim or take bath in the deep!
The beauty of the sea invites all to plunge in it
To swim and enjoy a good bath for a longtime there!

But warning boards hanging everywhere near beach
No one seems to mind after seeing the swaying beauty
The sea makes by the dancing waves endless forever
And teasing waves rush to kiss the shore and recede!

Lovers from all over the world gather there like a
Great whirlpool immersed in romance far away from
Their places to forget in love and live sometime in
Fun and joy nowhere one can think of in the world!

Beauty and danger lurking there in the beach ever,
People spend a lot time enjoying the sea breeze and
The snacks they carry to have on the beach sand
Taking videos and photos to remember the joy for long!

Ramesh T A
A Fun Of Child!

Child’s stumbling walk
Like a newly blossomed flower
But like a man in booze
Gives delight to all walkers!

Going forward and backward
Child goes round and round
Enjoying new born freedom
In a dancing spree in the breeze!

What a beautiful sight to see
Children of different dress hues
Like birds, fish and flowers
Entertaining all to smile!

The fun of children
Is a joy to the family,
An entertainment to others
Wherever it is in the world!

Like a small bird
With a newly grown wing
Children love freedom
To enjoy in free air!

The fun of child
Is a joy forever
Like a thing of beauty
Is a joy forever!

Ramesh T A
A Fun Of Romantic Pleasure!

Fun of passionate enjoyment of romantic pleasure between
Two beautifully attractive souls is a great fortune for
Them to experience in the life of human world quite rare!

It's a great blessing only rare personalities of good heart
Have in this world full of doubts, taboos and conventions
That prevent two good hearts to live in romantic enjoyment!

Loving life so in romantic pleasure in fun for a brief period
Or a longtime sure here is not in one's hand, but if that
Happens naturally, it is a great boon bestowed on them by God!

The creator of humans decrees all live according to His will;
Love, romance, pleasure and peace are not for all to have in
Life except by the chosen few who have had deep faith in God!

For the ones who are in love of the Universal spiritual energy,
All in world and Nature, perhaps God bestows such a boon indeed!

Ramesh T A
A Fun Of September!

End of summer
And beginning of winter
Is September!

Sand melting heat
And sand wetting rain
Occur in September!

Full grown fruits
And fully blossomed flowers
You see in September!

Heat in the morning
And rain in evening and night
Town gets in September!

Summer holiday ends
And all festivals begin now on
From September on!

September begins
Fast pace of the year ever
With all festivals!

They being Ganesh Chadurthi,
Navrathri, Diwali, Christmas,
New Year and Pongal are...!

Time moves fast
As no boredom ever shows
Head from September!

Fun of September
Starts Autumn, Rain and Winter
All in one....!

Ramesh T A
A Fun Of Venture!

&lt;/&gt;Reading article long makes one tired
Or writing article or novel too do so!
But writing or reading poetry is fun
And time is not enough ever to browse!

Many feel it's not easy to understand
Poetic out of poets in books or websites!
But once attention is captured by poetry
No one can escape from its clutches ever!

Poetry though not felt so much as others
Many feel high about it ever anywhere!
Also, many avoid it with esteem and awe
As if poetry is far high and beyond reach!

Visiting PF website many will change notion
And indulge in poetic ventures like me and all!

Ramesh T A
A Fun Or Fate Poetry Writing?

Poetry writing has become a matter of fun!
With play of words many indulge in this fun;
Fun without fact will make poetry quite inept.
Fun or fate, some write poetry with true fact!

There are many things for them to have fun,
But it has become easy to play in poetry sites.
Also there are comments, voting and ranking;
These make them play this game regularly!

Fact is some are born poets in these sites also!
It is quite true some become poets sooner here!
Also it happens that some are branded as poets!
So goes the survival of these sites by this fun!

No poetry can survive long without fun and fact;
Fun or fate, poetry has become a part of life ever!

Ramesh T A
A Fun Ride On Romantic Love!

All day spent on movies and TV serials  
Best portion of day has gone in fast train!  
Composition of poem now new begins....  
Delightful it may be for many as romance!

English language has flexibility none has…  
French language has given all words for it!  
Going by the flow as a river we row on well;  
Happily all verses delight the mood of all!

Iceland, Ireland, Iran and Iraq are rocking  
Joined by the seas and lands on world map  
Kicking all dance in romantic love forever…!  
Love lives in hearts of all who wish well all!

Morning or evening, time is joyful to spend  
Not caring for worries of tomorrow sure....!  
Obviously all things positive never led down  
People who are always for the welfare of world!

Quacks are caught by vigilance people sure  
Raw treatments if fail to cure diseases special!  
Serious scrutiny surely shoots the stupids….  
That know no difference between love and lust!

Universal song of love nobody how can miss ever  
Various blends if never satisfy the heart's ache...!  
Womanizers willing to lose head surely lie low…  
X or Y or Z they are in the world of comedy ever!

Youths longing for love never lose time in vain ways  
Zeroing ever their focus on the object of love sure…!

Ramesh T A
A Funny Thing!

We think we have done great thing;
But the funny thing is nobody bothers!
We don't care for certain minor things
But many appreciate them incredibly!
Can we say it is luck or funny people?
When we least expect great thing happens!
when we most expect nothing happens!
This is the nature of the world we live in.
Best thing will be never be hopeful or hopeless!

Ramesh T A
A Fuss About Nothing!

When troubles come, they come as huge mountain....;
But at the climax scene, mountain vanishes as mist!
The anxiety and excitement in the in between time
Surely make one collapsed unless one is calm firm!

Likewise, so many seemingly misfortunes linger on
Like the big clouds that occupy the Sky for long;
But they all pass away by heavy wind before rain
And give the appearance of noting has happened..!

Due to work load and tension occupying one long,
The outside world matters and their reactions make
One have a dark image occupying the mind sans any
Clarity until the last moment comes and ends as nil!

Cool, calm and patient mind and nature of one only can,
By experience, help one restore one's routine against
Any such seeming fuss about nothing to go on on smooth
Line accomplishing goals to achieve one's objective..!

Ramesh T A
A Game Of Thrones!

Character reflects the inborn nature of a person in life;  
Personality is improvisation by education and training;  
That only make one high in social status in the world!

Socialistic democracy makes learned, ignorant, rich, poor  
Good and bad equal leading to failure of all governments;  
Only by education to all, all differences can be nullified...!

Due to lack of personality development, rowdy character of  
All members shows ugly head in many parliaments of world  
Putting people to great hardships sans State developments!

Failure of governments are caused by the domination of all  
Rowdy characters over learned personalities in legislative  
Assemblies of the world under scoring need for culture there!

Game of thrones is still continuing in all democracies due to  
Reliance on number of majority and not on letter of members!

Ramesh T A
A Game Player!

Snakes and ladders
Poem hunter plays with
Top list poets!

Ramesh T A
A Game To Play In The Machine World!

I was out of station for sometime;
My computer was in trouble;
My ranking position has lost
All the top position I was having!
Talent and support are nothing
If the machine does not work well!
Man competes with machine
To gain his position in the race!
At the mercy of machine all goes
In this meaningless modern world!
But how crazy many play the game
Whatever be their status in life!
What a machine world man has
To pull on the days of life so ever!

Ramesh T A
A Game To Play Well...

Success and failure are common in life
Like happiness and sorrow we all know
But we should not give up the resolve!

Summer may come and winter may come
Like the day and night that come regularly
But the day and the year go on as usual!

Life and death are common in the world
Like the Sun rise and the Sun set we know
But the perpetuation of species won't stop!

To be steady in the world life we have to take both
Joy and sorrow in the same way to finish game well!

Ramesh T A
A Garland In The Hands Of A Monkey!

An irresponsible country with Nuclear weapons is
Indeed a greatest danger to the whole world ever!
That too, if it happens to be the big haven for all the
Terrorist outfits in the world, world is on hot bed ever!

Knowing this, sense and reason should prevail over
That nation to think over its own innocent people and
The future of their children and the neighbours and
The world at large to try to bring peace to the world!

No one can correct the thief, but only if the thief tries
To correct oneself, stealth and robbery can't be stopped!
Only God can stop such an incorrigible as they all do
All things good and bad in the name of God forever....!

Bombs in the hands of the villains are very dangerous to
All around them and themselves, that they should know!
It is like the garland in the hands of a monkey sitting on
The tree ready to do anything with it at anytime damn sure!

Ramesh T A
A Garland In The Hands Of Monkey!

Vowing to beautify they only make ugly
The erstwhile cosmopolitan French town
Noted for humanism and civilisation long!

Sans artistic mind one cannot create beauty
Out of chaos but can create only chaos sure!
This is enacted pretty well by the rulers here!

Statues of great national leaders are kept in open;
But lesser leaders are enclosed in big monuments
Making farce of spending public funds mindlessly!

Artistic temple pillars of ancient debris is installed
Around parks and leader's statue as decoration
Unknowing their value to be treasured as heritage!

Caught in the hands of monkey what will happen
To the garland has happened to town's beauty!

Ramesh T A
A Garland Of Rivers!

Interlinking of rivers makes a garland of nation
Not only beautiful for the view forever as Nature
But also benefiting in various ways to all people!

It's for irrigation of agriculture fields both fertile and
Dry without denying river water to any State of nation
And also drinking and navigational purposes forever!

Instead of thinking so, striving for achieving so and
Cooperating to do so, what is the use of striking, burning
Properties and provoking hate for disunity benefiting none?

Antisocial political elements are the real hurdles to all
Progress and prosperity of nation under scoring the need
To Eliminate them with proper punishments at the earliest!

The hard earned freedom and progress made so far become
A great farce to the eyes of the world that has high regard..!

Ramesh T A
A Gem Of Dreams!

Marble palace indeed she is in stature;
Perfect gem of palace she is in form!

His words are perfect gem of poetry
When he sees her eyes of wine pure!

Stage of drama is one they have to play;
At the dawn the whole town will know!

Doors of thoughts are open free for them
To compose many poems of style they like!

There is no point in just seeing forever beauty
And so, it is better they play the game of love!

Pure literature they create by their songs
By the time they end the show the day next!

Many a best play has come into vogue here
Mainly based on their thousand dreams ever!

Ramesh T A
A Gem Of Stature!

Gems, gold and pearls

Making her stature ever

Nobody can fail to hold!

Ramesh T A
A Genesis Of Dreams!

It is an interesting experience to meet pals
On website, while writing articles at night!

It is the poetry websites that give such an
Experience very often, when contributing
Poems of extempore nature in creative mood!

More than that, when we all appear together
In an anthology of international poetry in
A foreign language in some other country,
It is really an exhilarating experience in life!

My best poet friends have joined together
To do this great achievement a year before
Last year end in an anthology in Romanian
Language called Geneza Visurilor meaning
Genesis of Dreams quite surprising indeed...!

Ramesh T A
A Genesis Of Music!

Poetry is the source for song and music ever
That kindle one to dance to the tune of music!
Music is theme song of any story or movie
That echoes in everyone to give inspiration!

Melodious music of songs well known in the world
Echoing through records, discs, videos and so on
Kindle enthusiasm and mood to go ahead against
All odds one has to face every day from morn till night!

Melody may be a lullaby or rhythmic music that
Always brings joyous mood or moving sensation,
When one's heart is kindled by its moving message
Making all sing in chorus and dance till the end....!

War music makes soldiers march in brave mood;
Thrilling music makes all even impossible try best;
Echoing music haunts mystically one in Nature;
Melodious music moves heart to muse in verse!

Ramesh T A
A Genius!

Shakespeare was

The mirror of the people

Hence a genius!

Ramesh T A
A Gentle Nostalgia!

Flowers, butter flies and birds touch my heart
Their sight simply kindles my mood of muse
And I indulge in day dreaming in Nature long!

What a relief it gives from tension all the time!
Gentle, delicate and beautiful grace of fine species
Make heart soft in thoughts of beauty in Nature!

As angels they float in dream land like situation
Amidst the din and bustle of city life everywhere!
That simply makes us long for such mood often!

Mechanical way of life simply is monotonous to live;
Freedom is just out of touch from our life it seems
And long I to live as angels creatures that haunt us!

Civilisation simply keeps us drifted from Nature ever
And live us slaves of time in mechanical life ever....!

Ramesh T A
A Get Together!

A social get together helps to develop healthy society;
But competition spoils joyful atmosphere of any society.
Cooperation is more important than competition there;
Also, imagination is more important than intellect then.

Anything that creates happiness and social togetherness
Strengthens bond between men of various walks of life
And there cooperation and coordination on a matter of
Importance to the society brings confidence and peace.

Competition is necessary to develop quality in business;
But cooperation by all is necessary to achieve perfection.
Man is incomplete as he is a small piece in social picture
And cannot get full satisfaction alone sans sharing ideas.

Consequently a social get together is a necessity to get
Joy, peace, satisfaction, fulfillment and frution in life!

Ramesh T A
A Gift Of God Love Is!

Art of loving is a great gift of God!
Flower people are born to love!
Flower itself is a symbol of love!
Earth is called flower world ever,
For, here only love lives forever!
Due to love only all are living here;
Some have God's gift to woo all!
Such souls are specially treated
Wherever they go or live here!
Love is gift of God living long
To inspire and elevate good men!
Gaining love of all one can rule
World and turn into golden world!
Gift of God, love ever soars high!

Ramesh T A
A Gift Of God!

Poetry is gift

Of God to the world people

Through Chosen Poets!

Ramesh T A
A Gift Of Love!

Flower is the precious gift of love
We give to dear ones and deities
We love most in the life of the world!

Street urchins sell flowers around
Who can be made into my fair lady
By linguistic professor of G B Shaw!

In literature it is possible but not in life
That I think about whenever I see the urchins
Disturbing in the beach every evening!

Yes, fools prepare the feast for the function
And wise men always eat it served by them!

Ramesh T A
A Gift Of Lovers' Red Rose!

Lovers exchange red roses for Valentine's Day;
Why only Red Rose and Red Heart greeting cards?

Red is colour of blood vital for human survival!
Impure, used, blue blood turns pure red blood
By vital heart of body of flesh and bone in all!

Blood circulating all over in the body brings air
Fresh, pure and life supporting oxygen for man
Pumped and purified by heart ever till all life!

Red heart and rose denote vital heart, red blood
To keep this human body of flesh, bone and blood
Ever healthy, happy and hopeful of joy in all life!

Heart with Red Rose greets lovers with joy long
On Valentine's Day to celebrate love in life ever
Starting from Lovers' Day on all round the year!

Ramesh T A
A Gift Of Nature To Man In Summer!

A good amount of rain in summer night is a blessing in disguise;
But hot days are exhausting everyone's calibre however strong,
Though green trees abound here with gardens of fruit trees and
Colourful flowers cheer up everyone's mood all day long sure..!

But what is the use, though all paraphernalia are there in town?
Without pure air escaping from pollution by vehicles full of smoke
No one can heave a sigh of relief under the burning hot sun all day
Except Nature mercifully condescends by sending southern breeze...!

Despite hot sunshine all day, if southern breeze comes to town now
And then only, it will be a great relief for all to breathe fresh air
To go ahead with stamina after taking water melon juice or coconut
Water to quench thirst caused by dehydration to overcome exhaustion!

May flowers of many colours are a great solace in hot summer to see;
But only with breeze and good rain now and then, the ocean of heat
Can be crossed by sailing on the ship of shade of trees ever green,
A gift of Nature to man suffering from exhaustion everyday in Summer!

Ramesh T A
A Gift Of Poetry!

Before getting a job, there is a lot of time in the world;
But joining a job, job takes a lion's share of life ever;
Jobs we do for supporting the lives of all who depend us;
After sometime, it is felt we have no time for ourselves!

Before working life starts, all time is utilized for our
Preparation for accruing knowledge, training to do job and
Personality development for making employability feasible;
That takes a quarter of our life in this world we live in!

After joining duty, improving in profession we take a lot of
Care and achieve our goals only to work as machine daily and
Do all necessary things for elders, brothers, sisters, wife
And children without some time to breathe free air in life!

We work for all, but, where is the time to fulfil our own
Personal dream, desire and interest to get the satisfaction
We long for longtime in the course of our whole life in this
World of competition sans respite until retirement comes…?

After getting old, how can we enjoy life we have been dreaming
In our youth life and get the peace of mind we have lost ever?
Only meditation in Nature and the heart feelings stored long
can one express in poems, if and only if one has gift of poetry!

Ramesh T A
A Gift Painted Pictures Are!

Painted pictures of some excellent artists
Look as if they are real photo pictures..!
Such a skill how they have developed
Makes all wonder to explore it in detail!

Minute details of the real object in memory
They surely have to put them all in painting!
More than skill developed by practice, it is
Indeed a God given gift to the artists, so to say!

Whether it is natural scene or beautiful woman
Or fruits and flowers on the table or township
Well drenched in rain or hills, meadows and grass
Lands, all look perfect as real photo pictures.....!

Such painted pictures, when expressed in poems,
Transport all there in praise of the artists in life...!

Ramesh T A
A Gift Poetry Is!

Many are writing many things believing that as poetry.....;
After playing video games, they venture on writing poetry!
Poetry is not a game to play or become poet writing poetry;
Poetry should come direct from heart in flowing words ever!

Practice makes one perfect, if it is any other kind of work ever;
But it is not so ever with poetry as poetry is nature's gift to one;
Even the best of poets don't know what they would write before
Putting Pen over paper to create poetry with an inspired mood unique!

All poems are the creations of a soul out of inspiration from nowhere;
It is Nature activating the urge of a person to write direct from heart
To touch the hearts of many inspiring to express what they have ever
In heart with words flowing as smooth river from the start to the end!

All poems once written the poet forgets and dreams fresh ideas to say;
All poems one has written can't be remembered by one self at anytime;
But same ideas may be unconsciously written by the poet in different way
Each time with words fresh directly being born from the heart forever sure!

Ramesh T A
A Give And Take Business!

As poison prices are rising high fast!
Wants are increasing day by day!
As slaves of money many long forever
And many wonder how to buy basics!

No one is there to give any to anyone,
But all want some from some ever!
I am placed in the second category;
Though I have none all want from me!

After receiving from me they disappear!
When I am in need they are not found!
So, I cannot rely on anyone for anything
And I meet my ends with God's magic!

How long this kind of give and take goes on
I wonder though days pass on well so far!

Ramesh T A
A Global Earthen Ware!

Though not fragile, a fractured earthen ware the world is
Where mankind pulls on the days as performing a circus!
By romantic love all sustain themselves by Nature’s law.

Now and then tectonic movements below create tremors;
Top to bottom, East to West earth quakes, storms strike!
Not caring the vulnerability of the world wars are waged!

When the world will end to put all in surprise don’t know!
Yet all sorts of differences, race, religion, rich poor go on
Provoking hatred, enmity, quarrels, conflicts, battles, etc.

Pacifying the people to bring about rapport too go on still;
Yet nobody seems to forget differences and go on smooth
Out of greed, jealousy, envy, superiority and inferiority!

In spite of volcanic eruptions lives are evolved under the sea;
It’s a wonder the world is despite extremities clashing often!

Ramesh T A
A Glorious Day!

Glorious morning begins with majestic splendour!
Colourful flowers bloom beautifully at the sight of Sun!
Music of birds all over the place begins zealous mood!
And day moves on with hope and expectation full of joy!

Work proceeds with enthusiasm towards finishing grand;
Life pleasantly moves from fulfilment to satisfaction…!
Slight fatigue gets refreshed with beverages now and then;
Completing a lion's share of mission is encouraged by lunch
Feeding energy to give touch of success in a style nice
Making a mark of the creator surely praised by all later…!

Evening breeze gently refreshes mood of romance
Kindling fancy to fly smoothly to world of imagination,
Where kisses of love are showered as golden flowers
From heaven for a sweet dream to lull the soul to rest in bliss!

Ramesh T A
A Glorious End!

All things pass on as nothing sooner;
Before the end comes deadlock is sure!
Careful calculations cannot cope with all;
Dear ones too pass away into oblivion;
Ever looking for support is impossible;
Fall of apple cart will scatter all fruits!

Going by one's will there are ways to
Hover over lands exotic to decide about!
Icons have tread the paths others shun;
Journeys are adventurous indeed often!
Keeping oneself abreast of all one sees
Lawns of beauty free to lay on for pause!

Many ups and downs one has to encounter
Not knowing what's coming next everywhere!
Open to all storms one has to swim upstream
Perfectly negotiating pitfalls precisely as ever!
Quixotic the adventure may look many a time
Rather lunatic the mission that is undertaken.

Sustained efforts pay well though tedious
The task may look to be all the way from start!
Useful tips one gets on every turn on the way
Vertically climbing the hill full of fragrance new.
World of wonder makes one forget woes of pain,
Xingu things, when one has to come across ever.

Years of sustained succession to upper regions
Zen like religion opens finally glorious end sure!

Ramesh T A
A Glorious Life With Nature!

World is divided
By race, religion, rich-poor
Differences in all!

Selfish development
At the expense of environment
Causes pollution!

Pollution causes
Global warming resulting in
Droughts and floods!

Natural calamity
By fear unites people
For security!

Nature’s warnings
By storms and Tsunamis
Make all think!

Man has to live
In harmony with Nature
To live glorious life!

Ramesh T A
A God Given Gift!

Why do they feel jealous and spoil matters?
Can wiping matters destroy God given gift?
Expressions of natural poet cannot be erased;
Poet’s gift of God never goes waste anywhere!

One can destroy anything but not true ideas;
True poetic ideas remain immortal excelling all!
Cheap popularity and material benefits are timely;
After sometime they cannot stand before truth.

Diamonds are forever though hidden by carbon;
Nightingales are similar to crows expect in voice;
Crows cannot even speak while Nightingales sing!

The special gift of God are meant for special act
And the gift serves its purpose amidst good hearts
That give special status to it though not heeded!

Ramesh T A
A God In Modern Version!

Stop worrying about anything because it is nothing!  
It is one's imagination that makes or mars man's life!

Allah is formless and there is no modern version!  
Jesus is known and let them have their own version!  
Krishna is my beloved 007 in the modern version!

He is friend, philosopher and guide to all in the world!  
Highly intelligent here and always effective in action!  
Highly knowledgeable and very clever in decision!

Where can ye find a God as friend anywhere in the world?  
Krishna is my only God friend past, present and future!

Ramesh T A
A God's Light!

Let God
As bright Sun light
Lead life!

Ramesh T A
A Gold Is Gold!

Groupism blinds real worth in the society!
Each one can know it only in isolation.....
They then feel like fish out of pond sure!

Inferior and good for nothing form a group;
Complex characters cover it by their group;
They blackout the worthy ones in circles...!

The value of gold never diminishes by time;
The noble metals they are called as genuine
And original status can never be concealed!

Some out of jealousy and hatred tarnish
The outward image but not inner beauty
That out shines ever and reveals itself sure!

The more the real worth is concealed ever
The more gold shines gloriously at the end!

Ramesh T A
A Golden Bird Song!

A poem of praise on the loved one
As the song of a golden bird on a golden day
Indeed will be a day of dream in May!

Ramesh T A
A Golden Chair!

For prince of goodness
A golden chair is always
Waiting everywhere!

Ramesh T A
A Golden Elephant!

An elephant is
Worth thousand gold coins
Alive or dead!

Ramesh T A
A Golden One!

Everyone thinks very high of one’s own things;
Even for the crow its own kid is the golden one!
But, of all, the praise of enemy is the best one;
Appreciation should be fair and reasonable one.

Comments from neutral persons have great value;
Criticisms of friends have to be appreciated ever
As there lies truth rather than flattery quite untrue!
Such feed backs truly lift up one from the bottom.

Kind appreciation and encouragements do miracles
If the encomiums inspire and take to the right direction!
But such rare good words are rare in this envious world
As selfishness rules all in the name of developments.

Preparing for the worst only makes one face adversities
And makes one achieve aspirations as conceived earlier!

Ramesh T A
A Golden State Of Life!

Gold is thoroughly melt to produce pure gold;  
Sufferings due to hardships are for purifying soul!  
By experience in hardships one gains maturity  
And wisdom develops one to a noble state in life!

Life in the world is a transitory state for the soul  
To attain stable state finally in the spiritual world!  
From interdependence to independent state it takes  
Time, energy and work for man to achieve stability!

No one is pure in the transitory state of life in the world  
Until one gains knowledge, experience and wisdom!  
First man comes pure as innocent child and matures  
To perfect and pure state in the long run to make a circle!

A long process of purification makes man a divine finally  
And is the purpose of man for being born in this world long!

Ramesh T A
A Golden Time!

School days vacation time I visited native town;
Town bus and railway station attracted much!
Our uncle guide showed and explained of temples;
Cinema was of great entertainment at that time!
Those days cannot be forgotten even today;
Knowledge and experience we gained are immense!
It's difficult to transfer those knowledge to all;
60s,70s,80s we enjoyed so many things like
Novels, cinemas, music and tours nothing wasteful!
Time and pleasure enjoyed cannot come back again;
When thought about that itself it brings great joy!
Now music, cinema and books are not so interesting;
Youngsters of today are technically advanced but...
They lag behind in wisdom difficult to transfer...!

Ramesh T A
A Golden World Of Love!

GOLDEN WORLD OF LOVE!

Dr. Nemo in Nautilus submarine was discovering Sea;
Musketeers monitored discrepancies to save nation;
Now poets take the job of both to create one humanity!

We all belong to one Poetry Family to live in one world;
There is only one world under the same sky for all
To share food, shelter and clothing of Earth meant for all!

Romance in Nature cherishes human love forever;
Merman and mermaid live love life on oyster bed ever
And the world rolls on in harmony with Sun for long!

Diving deep in the ocean of love lovers discover treasure;
Beauty, truth, love, joy and peace eternally cherish they;
Divine bliss they enjoy in communion with Nature ever!

This beautiful world of love is colourful of rainbow ever
As long as human love rains to flourish golden hearts sure!

Ramesh T A
A Good Democratic Dictator!

Before democracy came into vogue
Monarchy was supreme in governance!
Ancient kings and emperors are Gods
People surrendered to for security for life!

Alexander became great due to his great
Realization that nothing we carry with us,
When we die and go away from the world!
Even then dictators tried to conquer world!

Chengiz Khan, Napoleon and Hitler came,
Almost conquered the world and had gone!
But what a change has taken place after them
In the world affairs everywhere afterwards....!

Ambition to conquer world changed gear......
By the Imperialistic rule of Britain all over the
World by way of world trade and even now....
Trade is trying to do the old dirty tricks to rule!

World has not changed and the mentality of
The people too has not changed and the creation
Of One World is still a pending international
Politics seeking a good democratic dictator......!

Ramesh T A
A Good Education Need Of The Hour!

Education decides about the future life and work for all; 
Education only helps to develop one’s life and work here. 
Mere education is not passport to get job but it’s for life; 
Mere education helps not to face life situation or crisis; 
Common sense, presence of mind, general knowledge do!

For everything education is the base in the modern world; 
Education is for freedom, development and fulfilment in life; 
Education helps intellectual mind to acquire true knowledge. 
Knowledge only can give power, freedom and satisfaction; 
Knowledge of love, truth gives freedom to attain perfection.

Dharma is justice to live righteous life according to one’s nature; 
Religion is to say about truth of God, dharma and culture to all; 
Education is to help develop one’s capacity with apt knowledge 
To express talent using ideas of knowledge in duty to do things 
Beneficial to oneself, society to achieve joyful fulfilment in life!

Now education does not serve such purpose but crams knowledge 
Incomplete just to do specialised jobs only for material benefits. 
Complete knowledge makes link of science, literature and culture; 
This could satisfy body, mind, heart and soul to achieve completion; 
Love and knowledge make perfect to attain joy, peace, satisfaction!

Ramesh T A
A Good For Nothing Matter!

Misunderstanding based on suspicion makes stories
For all search for head or tail or body or tail of a beast!
Each one says on what one imagines to be the fact of
The matter according to their story weaving skill here!

When all things are mixed up in a pot and boiled for
Sometime, it becomes a punch like soup to taste ever!
Rumour mongering at its best then kick-starts a big
Story for all to say what one can according to the time!

A big cold war develops as time passes on if nothing
Big happens at the first outburst of an explosion of the
Problem brewing into very bitter taste only the hardcore
Elements can enjoy the taste and say what a drink, ah...!

When there is nothing broad or wide in the scope of matter
For all to use brain to find the truth and enjoy best ideas
For exchange and develop a good relationship among all
Such a bitter tasting drink all like to take and reel forever...!

Ramesh T A
A Good Friday!

Regeneration of plants are common in Nature;
Resurrection of mystics are common in mankind;
Reincarnation of species are usual among all beings;
But transmigration is done only by top most yogis!

Jesus has done transmigration to prove to be divine
And world accepted him as God ever since that day!
To make people believe and accept his preachings
And to make faith to be true he indeed achieved a lot!

That Friday was sad at first but later became good day
Mainly due to his resurrection on the third day!
Controversy over Good Friday became clear thereafter!
People celebrate Easter holidays with greetings!

Just celebration is not enough to stop sins in life;
But truthful living only can make all sinless ever!

Ramesh T A
A Good Government Can Function Only On Good Democracy!

Election voting is people's exercise in any democracy;
No party may be getting majority to form a government;
Yet, people's verdict has to honoured by forming a
Coalition government by some parties to run the affairs!

This is how democracy is surviving in the world nations;
If the political parties are really interested in doing
Good service to the people, they can keep up the coalition
Government till the end of the term till next election!

If there's no unity among coalition partners, government
Has to go down leaving the chance for other parties to
Form a government to continue the administration of the
Nation with better service to satisfy the people's needs!

A party of high number of winners but less short of majority
If indulges in horse trading to get majority support, then
the probity of democracy is in doldrums ever and malpractice
In administration collapses the ethics and dignity of democracy!

Ramesh T A
A Good Night To You!

It's a silent cold night here;
All are quite asleep deep!
No one roams in the street;
No sound of dogs heard!
Pitch darkness covers all;
I am with the computer
Composing this poem
Before I go to sleep.
Sky too covered with clouds
Dark and no Star peeps through
To wink its eyes on lovers!
Tomorrow's job is tomorrow known
For me to pay full justice as I do now!
Nice to see comments by my friends!
Bye now! Good Night! Sweet Dreams!

Ramesh T A
A Good, Bad, Ugly Society!

Good and ugly
Are the extremes of the society
But bad's bad!

Ramesh T A
A Goodbye For The Time Being!

Tour to distant places makes me forget the world;
Friends would be missing me for more than 5 days!
But my works of poetry will talk very well to them all
Satisfying their curiosities whether I am there or not!
Hope you all understand what I say and bye till then!

Ramesh T A
A Goodnight!

As long as goodnight is not said
Till dawn the lovers are together
It will become goodnight indeed!

Ramesh T A
A Govt. Job!

Why people
Go for govt. job?
No work!

Ramesh T A
A Grand Celebration For Launching Of New Books!

Grand gala celebration for the launching of new books
By wealthy publishers in star hotels in the presence of
Celebrities brings value to even ordinary creative works!

Whether the authors of such books get royalty or not,
The release of such books are ordered due to the stars
Present pull crowds and kindle curiosity to buy books!

This is how some books get importance in the market and
All hurry to have one such books to decorate their home
Libraries along with many beautifully cover decorated ones!

Also, the raving book reviews in popular magazines and
Weekly newspaper reviews further create big market for the
Otherwise not so worthy to buy books and are sold out soon!

This is how book business is going on making worthy titles
lie gathering dust in book shops like unknown alien warriors!

Ramesh T A
A Grand Purpose!

All natural happenings in Universe reflect God's nature;
Nature around all simply reflects man's myriad nature;
With full of life and activities Earth remains unique here;
Man with mind is left alone on the Earth to ponder all!

Alone in the Universe sans connection with planets of life
Anywhere why is man left so to think and live life ever here?
To realise value of happiness, peace and grandeur of Omniscient
Everyone is left with emotion, intellect and spirit to find all!

The purpose of man here seems to realise the way to reach
The Universal state as a spirit to mingle with whole spirit
Activating everything everywhere in the vast unique universe!
It is a great wonder man has to enjoy and spiritually fulfil that!

How far man has discovered all the puzzles and mysteries
To realise the purpose is left to everyone's hand to decide!

Ramesh T A
A Grandeur Of Nature!

Blue Sky with a streak of golden spangle
Before Sun rise is a pleasant morning
I see when I just happen to breathe air!

It is indeed inspiring with zeal to begin
All kinds of work in the morning soon
when the birds and crows make noise!

How happy they all start their routine
In a joyous mood everyday like fresh
And newly blossomed flower colourful!

The effect of morning freshness after
Some days' rain and storm from the sea
Is so beautiful and wonderful to enjoy!

All acts of Nature have a grandeur always
Whether there is hot Sun or storm ever!

Ramesh T A
A Grapevine!

Eavesdropping can't be
Known due to secret bugging!
Know situation, matters
Even before whispering words!

Like keen eye ever,
Ear knows all secrets of world!
Mainly to hoodwink one
Poetry hides secret messages!

Poetry came into vogue
To throw out enemies in power!

Ramesh T A
A Gratitude To Nature Celebration Of Harvest Festival Is!

Flame of fire is red in colour as dawn of morning;
Sanskrit term for flame is soura and the worshipers
Of Sun are called as Sourashtrians Who have migrated
From East Gujarat to South India thousand years ago!

I being a Sourashtri, Pongal festival celebrated for
Sun is very important and a worshiper of Lord Krishna,
Diwali is also important too of all festivals in India;
Both being linked to Nature, I am a lover of Nature..!

Sans rain, Sun and cattle, there is no life on Earth;
Naturally, they are all worshipful saviour God in one
No one can ignore or deny in anyway though man may be
Advanced by knowledge and technologically developed!

Sans Sun, rain and cattle, we won't get food to have
Energy to do all works and survive living a happy life!
As a result, festival of harvest is celebrated as our
Gratitude in return to all benefits we enjoy from Nature!

Ramesh T A
A Grave-Yard Of Development!

A group of mynah birds flock together at a distance
On coconut trees with full of green leaves rich ever!
Sky slowly clearing the grey clouds of yester rain
And sunny blue sky on the other half give fine look!

Concrete jungle on one side and tall trees on other side
Construction of new buildings mark the developments
Highlighting infrastructural furnishings of urban areas
Cheering the newly affluent people sans future delight!

Sparrows and other small birds including butterflies
Surely are missing around the newly developed areas
Glaringly revealing the grim reality after mushroom
Growth of constructions without water and facilities!

Outside the towns many vultures are nesting around
Like the only surviving scavengers, crows in the towns!

Ramesh T A
A Grazing Fence!

If the fence itself
Is grazing well grown crops
Where is security?

Ramesh T A
A Great Abode Of Nature!

A natural flower garden near a green pasture
By the side of a brook is a beautiful location
To have a home to live life one dreams about!

Living so in harmony with Nature one enjoys
Great bliss nowhere else one can think of it in
The whole of the world we are all roaming about!

Wonderful morning Sunrise and beautiful Sunset
Surely make one immersed in dizzy rapture to have
A long hours of indulgence in mystic pursuit ever!

Star light and Moon shine are taking one to a region
One cannot have explored long in life wasting a lot of
Time in business quite unprofitable and unsatisfying!

What a relief and redemption one can get in the great
Abode of Nature one cannot enjoy for fulfilment in life!

Ramesh T A
A Great Benefit Of Friendship!

For several meetings we have met
In the park in all seasons to talk
On various subjects to improve
Our knowledge as close friends!

Intellectually we have developed
To withstand in all our ventures
To achieve what we feel forever
And establish ourselves in all fields!

Days, weeks and years have gone,
But we have not forgotten our
Resolution to achieve something
Great in any field we have chosen!

Even after retirement we are the same
In our spirit to do best we can in life!

Ramesh T A
A Great Boon Computer Is!

All works are carried out through Computer internet service everywhere now; But, for doing creative works, there are not much to count in the world; Computer is a great boon in the hands of creative poets or artists sure; Doing computer works many are involved for earning salary or playing games!

Exceptional talents are getting outlet thanks to the use of computers now; Full working skill in various fields are possible by computer applications; Great many now shine due to the aid of computer all over the world sure; Higher development of mind from conscious to super-conscious level is done!

Informal icons have become formal authority due to computer in vogue now; Joy and fulfilment of one's Self by creative expressions is feasible by it; Knowledge improvement and expression of philosophic ideas are easy to do now;

Levels of improvement that aren't possible get chances to do better now...

Many a dream not feasible earlier and impossible is possible by computer now; New ideas to acquire and to express computer is the platform opened recently; Oblivious and hidden matters that can't be unearthed are open to all now sure; Paper works are superseded by computer screen and transfer by mails are fast!

Quite a lot of time is saved for better utilization to carry out many works; Restoration of old and impossible to recover matters are preserved by it now; Searches and discovery of impossible things are done to find solutions to all; Transfer data from one to another systems are easily done in a faster manner!

Universe with all Stars too can be measured and counted in the future it seems; Vast amount of information can be stored for retrieval at anytime anywhere; World has come under the control of computer making man just a mechanical entity!

X and Y who are unknown are becoming poplar by expression of creative ideas now; Years of learning of valuable ideas and information one can convey to be popular; Zeal mood of creative persons increases by the use of computer in any fields now!
A Great Boon Dream Is For Man In Life!

Dreams are great compensation for the losses of man in world life; Imagination, thoughts, desires, feelings and vision create dreams For man to have a romantic adventure in the night sleep refreshing His mind, heart and soul to resume his resume with recharged power!

Dream is a greatest boon in that respect to easy his burden of life In a romantic way serving as a novel source to get new ides to try To overcome the fortunate life man is destined to live a life of Drudgery like a galley slave of Roman time the rest of one's life!

But dream only opens a door to new road to a different world ultogether Giving man another wonderful chance to modify his way of life with New attitude based on new ideas he has derived from the great dream That kindles, inspires and urges him to go on an adventure to victory!

Yes, indeed where can man get ideas sans progressive dreams he has Now and then to compensate his misfortune to realize all his dreams?

Ramesh T A
A Great Challenge Threatening The World!

Lack of education, discipline and occupation turns young People of developing countries into extremists lured by the Radical bigots of backward religions towards terrorism at Their own costs as mercenaries to act as suicide bombers..!

As mushrooms terrorists have sprouted all over the world Under scoring the need for joint actions by all nations to Root out terrorist violence occurring here and there on a Large or small scale putting the whole world in panic now!

But despite this united action of peace loving nations, there Are a few nations indulging in the fostering of terrorism at Their own risk and destruction as threats to neighbours Due to the greed of some politicians and army personnel..!

Such national leaders sitting in the glass palace wish to throw Stones outside their jurisdiction in order to support separatists Creating havoc as Trojan horses to the developmental works of Another nation not knowing their nation will go to pieces soon!

This kind of development has come up as the consequence of Super powers' long rivalries that have ended opening up the Pandora's box of religious terrorism trying to shatter modern Feats of civilization all over the world as a great challenge to all!

Ramesh T A
A Great Challenge!

Long journey on the sea or in the sky
Surely make one lonely and go slowly!
Adventurous spirit and pursuit of knowledge
Perhaps make the ranger never feel alone!

Poets, philosopher and scientists are so
In all their pursuits high and new ever!
Many miracles they have discovered long
And brought wonderful treasures to world!

Mundane and monotonous life of the Earth
Many a time many have felt fed up with, but
Literature full of inspiring adventure stories
Enthrall and engross mankind to aspire high!

Yet, sea and sky ever pose great challenge
For man to endeavour great adventures ever!

Ramesh T A
A Great Checkmate!

World wide pollution and lack of recycling of natural resources
Have alarmingly increased vagaries of climate all over the world!
One side, there is hottest climate boiling and burning everything;
Another side, heaviest rains are falling and flooding everywhere...!

All developments and progress of mankind seem to be a great farce
That Nature by its disasters is poking at man and laughing long....
To bring realization to all that exploitation of Nature for food, fuel
And raw materials only for commercial interest is good for nothing!

Materialism at the expense of humanism carried away by adventures
Of science and technology at the expense of culture and world unity
Due to commercial profit and greed has totally dislodged ecological
Balance by lopsided economic ventures to the brink of destruction now!

All kinds of exploitation of Nature and society due to madness of long
Materialism to boost economy only at the cost of Nature, art, culture
And all aspects of humanism fueled by radical bigotry of religion have
Driven human society to the brink of extinction along with Earth soon!

Competition triggered by greed sans cooperation for benefit for all,
Man's mad rush in speed by advancements made by technological
Feats without imagination of future world and humanity, all are now
Cornered by the checks of Nature as in the game of chess for correction!

Ramesh T A
A Great Compensation For The Loss Of Pleasure!

Visual aesthetic pleasure kindles many other pleasures
In man to enjoy in world life to get fulfilment and peace;
Sans sound body and mind, no pleasure can be enjoyed sure;
Sans enjoyment of all pleasures there's no fulfilment in life!

Only in dreams and imagination one can build castle in air
Like the Kubla Khan's pleasure dome in paradise kindling
Great pleasure in men to dream about it forever and ever
To live so not in reality, but in the world of imagination!

Loss is loss for the unfortunate one due to demise of beloved
One and that too if it happens to be the better-half in life;
It is a greatest loss that cannot be replaced by anything else;
Pulling on the days in such a status is like crossing big sea!

But for such an unfortunate one, there is nothing blocking to
Have mystical pleasure in Nature eternal to enjoy bliss sure!

Ramesh T A
A Great Compensation In My Life!

I am completing sixty seven years of my world life
And stepping on sixty eighth year in the week end;
In my life, both joy and sorrow are gyrating ever
Sans a steady and settled way of life for sure yet!

The oscillation of pendulum of my mind is made stable
By my concentration on minute details in all works
Whether reading or observation or writing of poems!

Of all works I have done so far, only my indulgence
in poetic composition gives me great pleasure and
Nonstop interest to do something outstanding ever!

The fulfilment and satisfaction I am achieving in
The poetic writing of matters of all subjects only
Give me relief and rejuvenation of my whole self..!

Poetry is a great boon I have got to use it to the
Full to derive maximum benefit that compensates all!

Ramesh T A
A Great Competition!

Each day blooms like a new flower with full of hope!
But before I do really a remarkable work, the day
Why so soon ends I don't know at all, O My God....!

I feel I have missed a wonderful chance to have done
Full justice to something as to my heart's desire;
The time in a day is not enough for me, I feel much!

Before I come to an understanding to decide about
This matter, just as the day has started, beautifully
Day has come to an end leaving me nothing more to do!

Really this is the competition more than any other usual
Competitions I have seen and dealt with in life so far
That not only me but anybody else can't solve it any more!

O You precious Time, if you win this day that is lucky
To you, don't feel proud, for, you will not do so ever!

Ramesh T A
A Great Diversion From Despair!

Too much political activities of the nation disturb and spoil
All the sincere works and talents of individuals ever now!
Only Nature is the greatest escape from woes of the world;
Aesthetic pleasure serves as great relief from all ills now!

Relief and redemption from the madding material world
Come from the aestheticism in Nature and out pourings of
Heart based on experiences of pleasure one enjoys there
In poems perennial give great change for the better sure!

Art, Nature and music are some of the ways one can get
Great relief and change from the usual rut of irritation by
Politics and bureaucratic disturbances everyday in all the
Walks of life of human endeavour everywhere in the world!

Diversion from greatest despair one undergoes in life is
Surely Nature in all its beautiful manifestations everywhere!

Ramesh T A
A Great Dream Of Utopia!

Is there any tax-less nation anywhere in the world?  
Will it be possible for a govt. to stand on its own foot  
By doing all kinds of businesses and exports providing  
Food, clothing, shelter, education, training and jobs to all?

Will it be possible for a govt. to provide everything all  
People need free utilizing their assistance in doing all  
Kinds of works they can without the use of money ever  
For food, education, travels and interesting works all like?

Why and how can this kind of system be developed by  
All nations of the world making use of UNO by creating  
World parliament to run and safeguard the affairs of our  
Humankind preserving all natural resources of Nature?

Can this kind of Utopia be ever created by humankind or  
Will it remain just as a great dream of Utopia only forever?

Ramesh T A
A Great Enigma Of Rare Coincidences In My Life!

Coincidences happen now and then in everyone's life;
But many rare coincidences happening in one's life
What can we say - incredible or rare chance or what?
If such a thing happens in one's life, it's a wonder!

Thinking about same thing by two friends at distant
Places and meeting suddenly at another place is rare;
This kind of rare coincidence happening by telepathy
Also seems to be incredible, but it happens in life!

My wedding reception was held on the day of my birth;
My son, friend and poet friend celebrating their Birth
Days on the same day every year living in Pondicherry,
Chennai and Suceava respectively put me in great surprise!

Not only that, in a poetry contest, of
The three winners, myself and another poet were also of
The same name with different initials only making it
A great enigma to think who could be first and next..!

Ramesh T A
A Great Festival In Nine And One Nights!

Music, song and dance in all the nine nights
With a grand finale on the tenth finishes
Happily Navarathri and Dussehra for the work and victory
Of the year in Spring, Summer and Autumn before Winter.

Everyday as ants men toil under the hot sun,
That dries the land and boils the ocean annually;
Never the less 'It's a natural phenomenon, '
Men heave a sigh of relief!
But the grass hoppers among them coolly spend in gambling
Time, wealth and energy till they become bankrupt;
Naturally how can the ant entertain the hopper in the winter?

Nine and one nights, the bridge between the vestige
Of the Summer and the beginning of winter
Reminds men to prepare ready to face
The darkness of the mind in the coming dark cold nights.
For the last quarter of the year to win in the quarrels with the evils
Both fanciful and fantastic ensuring final victory
Ever for the good only.

Why the good should win and survive ever?
If the good wins the whole world will survive for ever.
A colossus, the creature of evil may be;
Yet there is an end for anything that goes beyond every limit.
Instance: The celebration of Dussehra
in memory of the slaying of Maheshasura,
A formidable asura by the universal Mother Goddess
In the legendary age.

Nine nights in nine exquisite attires the Goddess appears
And kills the formidable foe of the universe on the tenth day.
Perhaps this reason why moods of men are also nine,
And the nine moods of men make the nature of man.
If not courage, anger, hatred; calmness, lust, fear;
And mercy, humour, wonder, what else it is?

Besides; zero natural numbers are also nine;
Effective gems are usually numbering nine;
The reason for all is perhaps the planets
Of the Solar Systems are also nine.
The full circle zero adds power to all numbers;
Remaining nothing it makes known things powerfully notable!

Education, knowledge and art make one a wise person;
Money, property and gold make one a solid person;
Courage, boldness and bravery make one a strong person;
Combination of these nine things make one a complete person
Capable of tackling human life in any situation!

Knowledge, wealth and power thrice each thrives each human life
As creation, preservation and destruction of God's natural act
Depend on these three thrice!
Hence circling round the temple thrice
Or thrice three has become a custom!
But one complete circle comprises of all nine in one too!

Nine planets without the one Sun are nothing in Solar system!
Nine planets with the Sun only make one complete system.
Perhaps nine and one nights also follow this magic system!

Dark and cold circumstances give weakness and fear
To the meek to think about fate and destiny
Leading the thought process to hopelessness and death.
But to the alert, balanced and disinterested minds
Hot or cold, day or night is one and the same;
This attitude for a person of aptitude is the fortitude
Called resourcefulness one learns from
The desolation, rejection and failures.
So, preparation for the worst at first
Gives power to face adversities for the rest.

Ramesh T A
The Festival of Lights

The Moonless dark night sky with a few stars twinkling,
The festival of lights begins like a festival of fire.
The sparkling crackers brilliantly cracking before every house,
The night has become a living day light in the town.
The sound of crackers stepping up from the morning twilight,
Sustains so even after the day break till the end of the day!

Wearing costumes of varying hues suiting to the occasion,
People go afresh to the temples like new born flowers.
Offering prayers before the beloved Lord for a better future,
They stand in queues to salute Him and leave for the home.
At home all share the holy prasad wearing colourful dresses;
Flowers and fruits they wear and taste without any exception.
Gathering round the dining table then they eat the breakfast
With special sweets specially prepared for the fine occasion.

Sumptuously satisfying the stomach they have very long hours
In the morning to read special greetings and colourful magazines with
Abundant articles and popular mythological stories about the festival,
Depicting final victory for dharma over adharma in the battle between both.

Hindu mythology depicts personifications of Dharma and Adharma
As Divine and Animal, Good and Evil and Love and Hatred everywhere;
Posing a big threat to the existence of the whole of mankind and Gods,
The one time all powerful demon king Narakasura fought against Krishna,
The God of Dharma who took upon himself the cause of all and
Slew the demon by severing his head with the Sudharsan Chakra;
And from then on wards the Festival of Lights is celebrated as Diwali.

The Festival of Lights, Diwali means the Light of Luminous Flame,
Leading articles explain etymologically in colourful Diwali magazines;
So goes the descriptions about Diwali in many articles and poems.
The Light of Luminous Flame drives away the Darkness of Confusion;
The Evils of Eternal Darkness are eliminated by the Brightness of Blue Light!

The matter of discussion among the family members is on good and evil;
The triumph of the good, the fall of the evil, the restoration of happiness,
The simple thinking of good men goes on so generation after generation. But the youth go out to see friends to have a good time till satisfied; The visitors exchange greetings and enjoy the company of their choice; The children not bothering about food, clothing and health play with fires; And the mature indoors discuss with the visitors about the serious matters.

The serious matters, affecting sincere activities, curb human progress. What are the serious matters? Ask many though familiar and forgotten; Corruption, dowry, unemployment, poverty, ignorance and disease - Those are the evils discussed as the serious matters everywhere. For the bright future of mankind the Lord has to destroy the evils. But a luminous brightness comes to all only after deep contemplation; Such a feat when once achieved that day the darkness is driven!

The end of the discussion of the friends comes at the lunch hour; TV programme takes them to the places of fun and pageantry. Then it’s evening when white birds fly towards the South; Colourful illumination everywhere catches the eye of everyone; The earthenware lights at the entrance, staircase and balconies, The sound and light of colourful crackers put the town in jubilation; The Festival of Lights breaks so all barriers in freedom and happiness!

Ramesh T A
A Great Genius!

Master of imagination
Great genius is ever to create
Wonders in Art!

Ramesh T A
A Great Gift!

As a horseman was I drifting in the desert of life;
Monotony of travail made me into a parched earth!
Only mirages were provoking me to look for oasis;
But no island was found in the mid of the ocean!

Oasis of desert as island of an ocean was a dream
For a long travelling man on desert or ocean sure!
I fell exhausted on a place I knew not what at all;
Like a bolt from the blue I was sleeping in a paradise!

Was it a dream or a boon of Nature I was stranded?
Poetry helped me to overcome all woes of world
While musing over the beauty of Nature one day!

I believe it was a great gift from God that I write
Poems as skylark or nightingale sings songs high
To forget its worries to fly to its destination sure!

Ramesh T A
A Great Human Heart!

Without the sense of feeling is it possible to understand human heart? The feelings of heart, human beings express by joy or sorrow in life. Only with the sense of feeling, however high one may be by intelligence or wealth; Hence, the feelings of human heart are indeed the highest force that rules the human world!

Love or anger, lust or hatred, courage or fear, Or, jealousy or generosity, hypocrisy or humility, modesty or immorality- These all are writ large on the very attires of men, usually wear with zeal; Time, situation and compulsion surely unlock even the closed hearts to let the inner feelings out!

The inner feelings of human heart are like the insulated live wire carrying current of high voltage; They are like the cool, deep ocean with many varieties of living creatures, mountains and volcanoes Unknown, unseen by anyone on the land except by the explorers of deep ocean; They are like the beautiful earth of love and life with the molten lava boiling inside the core waiting to burst out!

Every human being is a bundle of emotion ever tossed about by reason and passion; Feelings and thoughts, dreams and imagination, intuition and mysticism, instinct and conscience work day and night in one; Each one feels by sight, ear, smell, taste and touch, things in and out everywhere, And thinks about the impressions perceived by one's feelings to conceive ideas of truth.

Some become cold hearted by the military discipline of the educational institutions; Some instantly react to the situation and forget themselves in the next situation;
Some find it difficult to face the change
because of their sentimental nature and attachment;
However, feelings never die but vary
Only in degrees according to one's culture and tradition.

Feelings rise high at the age of youth, are mellowed
in the middle age and wisdom prevails at the old age;
The spring of human life is the age of youth
with full of colour, beauty and pageantry,
That remains ever green in memory,
and consoles and rejuvenates one later in life;
For, the sensual pleasure of youth is
a natural phenomenon, never lasts longer in life!

Feelings are the salt or the sugar of life
in the proportion that varies from person to person;
Animals react to any provocation and settle the matter
then and there according to their justice;
Plants bear the brunt without any
visible reaction because of their calm nature;
But among men, many react, some
bear and rarely few forgive!

Tears of love, tears of joy or tears of grief
are the signs of profound feelings of human heart,
That spontaneously express themselves
unknown, unconscious and unrealised;
And that is the mark of a human being
naturally unique for compassion, sympathy and mercy,
Besides other lower feelings of lust, anger, hatred
and passion to possess things of selfish desire!

Human feelings of love, life, art, nature and beauty
are the expressions of paintings, sculpture, music and poetry,
That remain immortal kindling curiosity and
inducing vicarious pleasure to men who observe them;
And reveal that the feelings of longing have provoked man
to explores in art, woman and nature to find fulfillment in life!
Otherwise, human nature would not have evolved
really from animal nature towards divine nature so far!

Free, frank and fearless, everybody wants to be,

www.PoemHunter.com - The World's Poetry Archive
to live full life in this world;
But, culture, conventions and customs fetter the feelings
of men like the birds with clipped wings;
And duties and obligations sap them off all their
energies finally to the destination of death;
So, only now and then like the sudden appearance of
the flying fishes human feelings are exposed to the world!

Seeing the beautiful scenes of nature, hearing the musical
voice of birds and smelling the fragrance of flowers,
Or, tasting the sweet and delicious fruits and the touch
of smooth, tender and soft petals of flowers
or the velvet comfort of green grass meadows,
Anyone is transported to the land of paradise
that transforms this world into heaven!
Yes! By lonesome sensual pleasure in nature
it is possible to enjoy spiritual bliss at will!

Man's love of woman is a lasting one
only if it is naturally a true one;
But in the absence of it, where is the relief
to forget such a profound feeling?
Art or nature is the only resort left out
to replace the loss, though not completely;
Even arts or other aids may not be available at will
but only nature, cool and calm, may mitigate pain!

That's why the wound of heart is
much more painful than the wound of body;
The success of a great man lies in the fulfillment
of feelings with a woman, one loves most;
But in the absence of it, without any interest
man wanders in wilderness in the world;
So, feelings of human heart takes one
to the top or bottom of the world in one's life!

Ramesh T A
A Great Inspiration Of Nature!

By the majestic canvas of sky with beauty
Expressed in streaks of white clouds on blue
Firmament so vast and wide simply amazes
Mind and absorbs heart in spiritual pursuits
High to have an elevated mood in the great
Wonder displayed by the eternal artist divine
Never betrays the seekers of inspiration and
Ideas quite lofty filling the heart with enthusiasm
Kindling mind to have imagination quite large
And fantastic just the swimmers surfing on the
Rolling waves of ocean deep to indulge in adventure
As if space divers floating on the firmament long
Before settling to land on the ground with grace
To make the adventure done in beauty and style!

Ramesh T A
A Great Inspiration!

Poets build ice castles in dreams to capture in poetry!
Children build sand castles to play in the beach ever!
Impossible things all do in imagination and dreams
And the poor dream about impossible things for fun!
These things give cheerful mood to laugh to go in life!
All religions and ligatures are for inspiring actions ever;
Otherwise how can man get impetus to do anything?
Poets are inspiring leaders of mankind to go ahead
To achieve goals of great dreams to live happy ever!
Even the presence of inspiring personalities moves all
To do even impossible things possible in life often!
Image of God is the inspiring vision of poets great
That moves men millions of years since its inception
Surely paves the way to golden world of great dream!

Ramesh T A
A Great Irony!

Indirectly appreciating
And directly leg pulling
All ask support!

Ramesh T A
A Great Living Art!

Garden with freshly blossomed flowers welcomes all;  
It is a beautiful morning to see such a scene of Nature;  
What a joy this thing of beauty kindles in heart ever!

Art or Nature, a thing of beauty surely kindles joy  
Whether it is morning or evening or night or ever!  
Living in such a circumstance is wonderful for all!

Green velvet like grass lawns with water fountains  
In the middle everywhere kindle cheerful mood sure  
To see and enjoy dancing with loved one there ever!

Of all creations, gardens of such a kind surely help  
Man to regain the lost mood of joy and indulge in  
The great works of art or science for progress in life!

Beauty of this natural scene well pruned by man is a  
Great living art that has to be cherished and flourished!

Ramesh T A
A Great Masdness World War Is!

Atomic bomb explosions brought an end to World War II;
But the arms race started thereafter among super powers!
Concern of Nuclear proliferation is biggest threat to world's existence now;
Danger of stock piling and improper security of Nuclear power stations are real now!

Energy from nuclear fuels are useful both for weapons and power generation;
Fuels like plutonium and uranium are in great demand for many nations now;
Govts all over the world are trying their levels best to stop North Korea's nuclear adventure;
Hydrogen bomb is the biggest weapon of mass destruction capable of wiping out world!

Icons of world nations are in a furious mood to wage world war to settle their scores;
Joint efforts of peace loving nations are on the card using UNO now and then;
Keeping abreast of all burning information world media keep all alert ever now;
Last ditch efforts go on to bring to table jingoistic hardliners for peace talks!

Modern world weapons of war are very advanced to destroy world in no minutes;
Nobody can win in the Nuclear World War if it starts with full swing by rogue nations;
Openly the danger of such weapons and insecurity of nuclear stations are well known;
Proliferation of nuclear fuels has to be monitored by UN agency or should be stopped ever!

Quixotic it looks powerful nations playing with such arms like child's play with fire;
Restoration of world order is possible by the formation of one world union only;
Stateless players are the so called extremist terrorists now playing with terrorism;
Threat of that kind to world peace is the first priority for all to deal with by joint efforts!

United Nations should be empowered to keep all nuclear weapons in its custody;
Victory of one nation in Nuclear World War III is a doom's day dream only for all;
World should be made into one world nation to function under UN's collective decisions;

X men type personalities can be enjoyed as cartoon picture in cinemas only; Yawning of hardliners to be so to act in reality is sheer madness only, all should know; Zero time will be left, if no efforts are taken before hand to stop such nonsense!

Ramesh T A
A Great Miracle!

Natural beauty of all kinds gives hope
And kindles love to live with strength!
Inspiration of Nature is boundless ever
Making man transcend limits to divinity!

Limitations of man are no barrier ever
When man is inspired by love of Nature!
Love is a force of Nature and great power
Mankind cannot defeat in this world sure!

Nature, love and their manifestations ever
Absorb all minds, hearts and soul till end!
Nothing can replace their place so far and
Nothing can be greater than that forever...!

Love born of beauties of Nature is real ever
That activates all to create great miracles...!

Ramesh T A
A Great National Culture!

Only a great nation has confluence of cultures
Linking with each other in a unique way as one!
Such a nation only fosters universal brotherhood
Taking the whole world as one family forever...!

Indian national culture embraces especially the
Unique and great cultures of Sourashtrians and
Tamilians following the policy of unity in diversity
Since the ancient time onwards till this day sure!

Sourashtrians who have migrated from the North
To the South of India have no difficulty or difference
With the Tamilians as they are pious, adjusted to the
Behaviour, dress patterns and festivals of local ones!

They have adapted local language for public use
And their mother tongue for home use only in such
A way nobody will believe that they are Sourashtrians
As they are noted for living in harmony with all there!

Tamilians noted for hospitality, monogamy, self-respect,
Respect for friendship, promise, chastity of woman and
Treat so respectfully women as mother, highly appreciate and
Cherish Silappadikaram, the classical literary masterpiece!

As all these aspects are imbibed in the national culture too,
Indians fostered in universal brotherhood and respect for
Women cherishing Earth as Bhumadevi, knowledge, wealth,
Power as Saraswati, Lakshmi and Shakti, they live anywhere!

Indian classical literature such as Ramayana and Mahabharata
Make their national culture, though ancient, rich even today
Due to universal brotherhood, unity in diversity and respect
For women and friendship, India welcomes one world forever!

Ramesh T A
A Great One True!

Some achieve greatness;
But many steal greatness
And luck too gives greatness!

Ramesh T A
A Great Panacea!

Long living in anxiety and excitement
The sense of despair never leaves one
Even after hard times in life are over!

The habit formed in such a bad time
Still continues as if one is brainwashed
And it takes a long time to subside...!

Always some sort of uneasiness clouts
Mind so much that it is not easy to be
Free to think anything other than that!

Best way to have diversion is occupation
That involves brain's full activity in minute
Works of art making one forget all long..!

Perhaps scientific research or poetic art
In Nature surely is a great panacea sure!

Ramesh T A
A Great Player!

Is man playing with Nature?
Or Nature playing with man?
Man by his mind wants all;
He wants all under his control.
But can man control Nature?
Action and reaction are equal!
The more man plays with Nature
The more Nature replies by play!
Winter snow is too much for man;
Summer heat is too much for man;
Why have they become too much?
Man has meddled with resources
Nature has provided for man
And the reaction of Nature is high!
Rules of game man has to learn;
Then only he can win in the game;
Until then Nature is the great player!

Ramesh T A
A Great Poet!

Who is a poet of value according to critics best?
Is a poet of fun or facts or both a great value?
A poet who has message of lasting value is best;
What is the parameter by which he can be detected?
Critics of great value are Matthew Arnold and T S Eliot
Perhaps guide all to find the best poets anywhere!

Arnold to find Classic poets has his touchstone method of
High seriousness, great ideas, melody, morality, erudition;
He sees in poets, Chaucer, Spencer, Shakespeare, Milton
And finally decides John Milton can be classified as Classic!
More than poetry personality of poet stands foremost in
His critical study of poetry to decide about the greatness!

Eliot historically going through all says original work is nil
And in the modern poets what is most significant is art,
He says decides the greatness of a poet and not personality;
An artist escapes in his art from the present world and self;
This is the mark of a true poet, painter, sculptor everywhere
That decides the true worth of any litterateur if one observes!

In all great message and music decide about a poet of value;
Just mechanical rhythm with end rhyme cannot produce poems
Of natural expression in which poets forget themselves and also
Make readers enjoy and engross themselves forgetting all here.
This is the touch stone I feel relevant to decide about a poet’s
True worth everyone can unanimously accept and appreciate!

Ramesh T A
A Great Question To All!

Poetry is the final medium of fulfilment in life for all individuals! Yet, a great question still remains to be answered by all of them; What is that question? Do you know and ready to answer it? What is Poetry? That is the question I put to all now and ever!

Stanza structures of some kind with rhythm and end rhyme are the Main ingredients of poetry in classical, romantic and modern times! Even in those times, blank verse with internal rhymes was in vogue; Then prose and poetry mingled to form a new kind of poetry long!

Now all kinds of poetry are in fashion whether vertical or horizontal! Whether rhythm and rhyme are there or not poetry in prose style Has come into use now according to the taste of poets everywhere; Yes, poetry cannot be confined under a fit enclave as an artifact...!

Words are all what make the lines of poetry to what all a poet can By their forcefulness, profound power or suggestiveness in a very Natural style of a poet's taste based on one's mood and mind sure; That is what all say as natural poetry of a poet in the world now..!

Ramesh T A
A Great Relief In A Paradise Of Nature!

Artistic and beautiful places are where all like to live;  
Lively river flowing along the health resort is nice to go;  
Gone are the days of visiting holy places in holidays sure;  
Surely where one gets peace of mind there divinity resides!

This aspect can be felt more in hill stations with green lawns,  
Flower gardens, lake surrounded by parks full of birds and  
All kinds of trees with freshly bloomed flowers and fruits  
Welcoming all visitors from distant places seeking peace long!

Change of mind and mood from usual monotony of grinding works  
These places of Nature ever offer hearts with beauty of things  
And calmness as a whole creating an impression of paradise one  
Can imagine and see only in dreams longing to visit once in life!

Visiting such a wonderful place of Nature, what a relief and sense  
Of relaxation one gets, none can express but be felt by realization!

Ramesh T A
A Great Relief Somewhere!

Exhausted by frustrating experiences in life, one seeks relief; Where? Somewhere where one gets such a relief no one knows ever! In dreams, intoxicating imagination deep in loneliness caught By the inspiration of some natural things at a remote corner too!

Bright Moon like beauty attracts the deserving one by her top Twin pyramids shining like silky garment gold in tint exquisite; Caught by the spell of beauty, one seeks the place of spell long Only to fall down by fortune with the head in-between pyramids!

Energized by the enticing beauty, one gets vigour and vitality Soon with zealous grinding shaft to screw in deep inside the Triangular valley below to explore the most fulfilling pleasure Place by fluke chance inserting into the slit to get into valley!

What a surprise when one finds the place of heaven inside the Teasing triangular valley instead of somewhere in the high sky! Then swimming deep like an indefatigable fish one enjoys pleasure Of heaven that makes one forget all losses of life and grief...!

Ramesh T A
A Great Relief!

What a great relief as Sun has settled down behind clouds!
Birds with all kinds of musical notes criss-cross to their trees!
The day's business has come to an end so soon in this hot day
And all look for joyful time with friends to spend the night!

Each hot day is a great struggle to overcome heat by all here;
There is no relief unless some clouds come as umbrella for all
To give shadow and shade to all minding urgent businesses..;
Only evening brings relief and the Starlit Sky gives joy to all!

Summer rain, which is due here for long, is expected at anytime;
Perhaps to night there may be some response from the Sky
And the relief needed will be sanctioned to all to breathe well
Slowly bringing down the heat of the day little by little sure!

Against all odds, relief is sure to come sooner or later by the
Grace of Nature noted for balancing act since long time here!

Ramesh T A
A Great Revolution Man Is!

Of all creations man is a great revolution!
Man of talent does what's not possible by man;
Genius does what's not possible by man of talent;
And God does what's not possible by genius!

At first religion of obscure kind controlled all!
Blind faith and worship controlled man by fear;
Intellectual thinking of man was a revolution;
Philosophy was his first revolution in the world!

Socrates, Plato, Spinoza, Kant, David Hume and
Confucius and Shankara enlightened men much!
Science was his next revolution and now also..!
Politics is revolution that has brought democracy!

Nature does all kinds of works by evolution ever;
But man doss all great things by revolution now!
Patient waiting for justice doesn't help him long;
To bring radical changes he goes by revolution!

Impossible things became possible by revolution!
Flying in air, travelling under water, atomic bomb,
Medical miracles are all by revolution of Science!
Articles, stories are by talent but poetry is revolution!

Impossible things when achieved become revolution;
Evolution and revolution are like intellect and intuition!
Evolution of Nature is a slow process of development;
But revolution of man is quick process of development!

Ramesh T A
A Great Satisfaction In Life!

Care by beauty is really welcoming anyone anywhere;  
The swaying effect is so gentle that beauty loves  
All good and best among humans ever to have relation  
That is good from the start to the end in human life!

Beauty with love is the best one can enjoy by fortune;  
Such good time brief or long never seems to leave from  
One's mind in the life in such a way that one cherishes  
Such a relationship and enjoys life to the last sure..!

Satisfaction shared so between lovers brings peace within  
Them and such persons have nothing to long for even the  
End comes to one of them as the life they enjoying lived  
Is a boon all envy and so, the remaining one never bows!

Life of love enjoyed by persons of beauty is a model sure it  
Seems for all to adopt and follow to have full satisfaction!

Ramesh T A
A Great Thing!

Doing things as we wish becomes rare
When we have to live under constraint
For maintaining peace and order ever!

Adjusting oneself to all people concerned
Surely takes a lion's share in the life we
All have to live to maintain public order!

In joint family business too, like or not,
By cooperation and coordination all things
Are done to enjoy common profit or loss!

Personal ambition or interest is sacrificed
Due to non availability of time for long
In the daily routine and doing usual things!

But, of late, when things are resumed to fulfil
One's ambition minding routine too is great!

Ramesh T A
A Great Vision For The World - I

One sky, one world and one people!
One language, one law and one currency!
This is the idea, vision and dream of great men
For the well being of the whole of mankind!
But the great vision, the whole vision
Of divine men is total liberation for all!

After World War II greatest war devastations
Have taken place in Vietnam, Afghanistan, and Iraq;
The causes of crises in these regions are national
Liberation, sharing of oil well and ethnic rivalry.
Russia even warned of the coming World War
If US forces didn’t withdraw from Europe, Iraq!
Refugee problem due to wars is the latest
International issue that cause concern to all!
Unhealthy competition, exploitation, domination
Are adharma prevailing now in the Kali Yuga
Which has yet 4,26,000 years to complete after
The Mahabharata War some 5000 years ago!

Note, 100% truth prevailed for
17,28,000 yrs. in the Kreta Yuga;
Then 75% truth prevailed for
12,96,000 yrs. in the Treta Yuga;
50% truth prevailed for
8,64,000 yrs. in the Dwapara Yuga;
And only 25% truth prevails now
In the Kali Yuga of 4,32,000 yrs.!

Now crows are thought to be Nightingales
And Nightingales are uncared for as crows!
Truth and noble things have become dull matters
Before the falsity and glamour loving people!
Even the matter of God has become so means that
What could be the response for the visions of mystics?
God or leader should be appealing as movie heroes
For the people to believe them in the world now!
Once beauty was truth and was a thing of joy forever
But now beauty is only skin deep and a cosmetic art!
Beauty of truth lied in the love of knowledge in poetry
But ugly realities reveal truths now in the newspapers!

Kali Yuga will be at the zenith in the world when
People at the cost of truth rely on falsehood in life;
It is at that time God’s Kalki avatar will come to
Save the people from adharma establishing dharma;
Kalki is the tenth avatar of Lord Vishnu after Krishna.

In the corrupt, violent and sexy world it is difficult for
Culture, civilization and good sense to deal anything fair!
A person of bold intellect and intelligence only can
Set right set backs to settle matters in their proper shelves!
Only physically, intellectually and spiritually strong person
Can lead the world in all fields for the well being of mankind!
Otherwise, the smooth functioning of the society will be
Beyond the scope of the system in all walks of world life!

Ramesh T A
A Great Vision For The World - II

Politicians play politics toppling or forming governments According to their will and pleasure in many world nations! Opportunists too play the game of politics to achieve goals According to their ambition at the cost of the state economy! Statesmen also play politics but very few only achieve or Accomplish great things for the future good of the world!

Religionists to have control over the community flare up Communal feelings in the nation against other religions! Non-conformists point out the mistakes and superstitions That sustain the society as slave by sentimental feelings! Secularists smoothen the tension of the society advocating That religious harmony is better than religious tolerance!

Philosophers deeply in search of other worldly matters Are unable to know the ground realities of the world! Artists live in the world of imagination to escape from Ugly, unbearable and awkward realities of the world! Scientists securely settled in ivory towers of research Fail to know world insecurity caused by atomic bombs!

This is the fate of mankind world intellectuals should know And change the world for the better by wise ideas of hope. Spiritualists of religion or Nature should guide the people As to how to tame mind and spiritually achieve liberation. Tension increased by family, business and world crises Can be spiritually relieved only by religion or Nature which is Not truly pursued due to physical and intellectual strength That would leave one disillusioned and depressed at old age; And cure for disorder lies in religious faith or Nature power!

Religious fundamentalists, extremists and terrorists are mostly The greatest threats to world peace, stability and progress! This hell can be changed to heaven if harmful religious ideas Are humanistically reformed according to modern times! Linking scientific mind with human spirit developments of The world nations can be effectively made in all respects! That’s the way machinebeastmen and conscienceless creatures Can be made ineffective to drive the world to the brink of hell!
But peace, love, brotherhood and freedom only can unite all
And make possible the creation of one human world one day!
It is easy to plan but impossible to implement noble ideas
Without being controlled by proper personnel in adventure!
So also truly the transformation of the world is impossible
Sans supermen at the helm of affairs to move matters soon!

Now only supermen can use UNO to create one world
With one law, one language and one currency for all!
The vision, dream or idea of one world is not a waste
But it’s the way to solve all crises though not in haste!
Also the great vision of total liberation is within reach,
If everyone has faith in the visionaries of one world!
So, believe swimmers on the sea will reach the shore
And climb up to the peak of the mountain top soon
Towards the staircase of milky way to reach heaven!

Ramesh T A
A Great Warmth Of Love In Winter!

Romance kindled by natural love at first by two soul mates
Is love story based on emotional sentimentality for sure;
Love is emotional force that transcends all barriers of
Religions, races, regions, cultures, languages and nations!

But just romantic, emotional sentimentality of love is like
A control-less horse running wild unknowing that there's great
Abyss below the mountain cliff leading to eternal melancholy,
From which one cannot achieve fruitfulness in love life ever!

So, the knowledgeable soul mates indulge in romantic love
Preferring intellectual and spiritual purists to emotional
Sentimentality in the explorative romantic adventure long
Fuelling romantic love with raging fire for warmth in winter!

What a comfort in the warmth in the bitter cold winter time is
A sweet enjoyment against adverse situation in romantic love life!

Ramesh T A
A Great Wonder Creation Of Flowers Is!

Mere sight of bouquet of flowers kindles beautiful smile
Flowers might have influenced flowery language to flourish
Colourful movie songs with flowers around cheer up mood
To see, enjoy and forget the world by their beauty unique!

Flowers give so much hope and confidence by mere presence
Means in what way can their freshness and glory be praised?
Know not but simply enjoy and recognize their sense of love
And it's for the seekers of love to worship flowers in Nature!

Venerating flowers for beauty, love and fragrance one can
At best shower them as our mark of gratitude to God only!
Perhaps due to this high conclusion flowers are with God
Ever attributed in all holy shrines of the world forever!

Short spanned flowers are so highly placed for splendour
So, it's wonder beyond words to appreciate their creator!

Ramesh T A
A Great Wonder Nature Is!

Sky, sea, mountains, falls, rivers, forests and fields;
Trees, leaves, flowers, fruits, bees, flies and birds;
Fish, reptiles, animals and men form living beings.
They are all creations of Nature created by God;
Naturally no doubt a great wonder Nature is ever!
Of all the beings man only has advanced by mind
And he feels a separate entity away from Nature
Due to attachment to body, matter and mind ever!
Galaxies, stars, planets and moon are boon of universe;
All pervading spirit is acting everything everywhere;
Nature is the matter It has created to do all wonders!
Man controls energy to do mechanical work by machines;
With materials he does all what is not naturally possible;
Yet, Nature’s wonders he cannot achieve by art or science!

Ramesh T A
A Great Wonder Of Creation!

Our unique body is a great wonder of creation!
Brain is the CPU of our dear Computer body..;
Eyes, nose, ears, tongue and body as a whole
Have connection with the brain for control....!

What the eyes see, nose smells, tongue tastes
And the body perceives are visualized by brain
Giving the picture of all on the screen of mind
To know, think, imagine and do all there on...!

Feelings of the heart, Three states of consciousness
And spiritual intuition are through the brain
Processed and directed to do various jobs of man
Ranging from animal to divine via human medium!

This mere bundle of man made of flesh, bone and
Blood is a great creative wonder of Earth forever!

Ramesh T A
A Great Wonder Of Living Beings!

Unlike flowers and birds of land, colourful fish live in water;
All land living beings breathe through lungs in all places;
In fact, all kinds of fish breathe through gills in the sea;
But all living beings cannot live without breathing air sure!

There are amphibians living both on land and in water too;
There are birds that can swim and fly also live on both places;
But the strange thing is the life of mermaids and mermen also
Half human like and half fish like living beings living in the sea..!

colourful butterflies are like flower cusp fly also a wonder here;
And many more living beings on land and in water are wonders
Still remain to be researched more than other researches here
Before genetic engineering produces many other wonders sure!

But all living beings whether eat food or not, drink water or not
Cannot live without breathing air and escape unhurt by fire ever!

Ramesh T A
A short shower of rain has at last visited the town at night;  
The cool weather all day long has finally fell as good rain  
And quenched the thirst of the parched Earth very well  
Making people thank Lord of Rain for condescending so!

So very well and gently the rain fell on everywhere making  
Crying child see in great wonder at the water falling from  
Heaven and drenching ground, road, all cars and street lamps  
And get delighted enjoying the cool breeze accompanying rain!

What a wonder the rain has come as has been wished by all  
At the silent hour of the night, when all are trying to relax to  
Overcome that day's hot weather with a boon no one has ever  
Expected believing it's a blessing of Nature none can offer....!

Nature's blessing to all at the unexpected hour of the day is indeed  
A great wonder, an oasis in the desert, no one can fail to thank in life!

Ramesh T A
A Great World Rule!

Weapons ruled
The world for a long time
Now Ideas!

Ramesh T A
A Great!

Be always
Free, frank and fearless
If you wish great!

Ramesh T A
A Greatest Boon Love Is In Life!

Love is most important thing for everyone in life;  
For, love only gives real joy, when nothing helps  
As love is real power that overwhelms all others!

As love is greatest virtue that lasts forever, it is  
Considered as divine and God in human world  
Making all sustain, survive and succeed forever!

Loveless person though survives by determination,  
A longing in heart ever deprives one of fulfilment,  
Which is possible only by love of a dear soul in life!

Like it is difficult to find a worthy friend to get advise  
And help to excel in all challenges against all odds,  
True love is also rare to find in this selfish world sure!

It is a greatest boon, if one has friend and lover in one  
To help and love one to see that one is ever happy in life!

Ramesh T A
A Greatest Diamond Of Life!

Interesting things everyone likes do in the world;
Interest is natural love of each one in world life;
It is the gift of God to each and everyone forever;
Interest is based on love, talent, dream and desire!

Leaving aside one's interest just because it's not
Of any benefit or bringing money necessary for life,
One may do any job but fulfilment and satisfaction
Lie only in the God's gift one has within hidden long!

Without great pressure inside the Earth, diamond can
Never be formed to be cherished as invaluable one ever!
All that is got without any pressure, is just another
Form of carbon sans any value but needed for burning!

Poetry is a great God given gift for one that is formed
As diamond within under great and long pressure and then
Finally manifests itself as greatest treasure forever
To be cherished and followed to be humans and divines!

Ramesh T A
A Greatest Instrument Of Sun!

Sun gives light and life to the world for the survival of all;
Powered by Sun leaves grew to be Trees to save all beings!
Sun gives energy to everything through Trees in the world;
Without Trees there is no shadow or shelter for all creatures!

Leaves, fruits and flowers of Trees give food and energy to all!
Sun gives energy directly to plants to supply energy as food
For all living beings to maintain ecological balance in the world;
So, cultivation, preservation and maintenance of Trees save world!

Deforestation and exploitation of natural resources endanger world!
Pollution by industrialization and mechanization shorten the life span
Sooner or later of Mother Earth that survives and sustains all beings
And gives warnings by droughts, storms and floods now and then!

Sun is not only the giver of life and light but also destroyer of all,
If the greatest instrument of Sun, the Tree is meddled with by man!

Ramesh T A
A Greatest Wonder Life Is!

A Greatest Wonder Life is Ever!

Life is a greatest wonder of the world in the whole Universe!
Conscious existence from birth to the end is called life ever;
That too soul in energy activating whole body by mind is magic!

Many things yet seem to be discovered to say in full of life;
All definitions about life needs still more observation to be true;
Life is still a great mystery and puzzle for humankind to explore!

Poetic literature still says many new things about life from life;
Yet, it seems many expressions experienced need to be written;
Our life is so unique and ever new to be known and said in poems!

All things of beauty revealed by love about life fascinate ever
Still there is a lot to be expressed by coining new phrases fresh;
Life is a wonderful flower with many meanings to many forever!

This wonderful life we live in the world still seems to be a magic
As the replica of our life is not discovered anywhere in Universe!

Ramesh T A
A Greatest Wonder Nature Is Ever!

All things beautiful, powerful and dangerous looking cool we see in Nature;
Best things bountiful and free are we get from Nature by air, light, water;
Cataracts flowing down from mountains run as rivers to join oceans and seas;
Dawn and dust with wonderful change of colours are ever beautiful watch!

Entire range of flowers and fruits are ever there to please and pacify us;
From dawn to dust the sky canvas is used to draw pictures beautiful by Nature;
Grandeur of Nature all poets write in poems ample, yet, it is not enough;
High mountains and low lands have various contours reflecting demeanours!

Ice land, Green land, Arctic ocean and Antarctic ocean have mysteries inside;
Joy of birds flying in ecstasy is reflected by lovely musical songs ever;
Keeping pace with the changing beauty of Nature is impossible to picture ever;
Lovely and haunting music of wind by making friction with mountains is magic!

Morning to night there are many things one can watch and fetch ideas to write;
Not even a single thing seems to be sans some significant thing to say ever;
Oceans, seas, rivers, lakes, cascades and springs flow as verse murmuring;
Power and beauty of Nature is such that it's where divine spirit ever resides!

Queen of flowers red rose and queen of bees ever command special respect;
Roses of colours like pink, red, blue and even green fascinate all hearts;
Stars winking all night are diamonds shining brilliantly all night long;
Transcendental meditation mystics love have in Nature so majestic and divine!

Universe with all Stars, galaxies, planets, comets and asteroids is divine
Very grandeur of it due to universal spiritual energy all are suspended ever;
Wonder greatest, grandeur, exquisite and fantasy exotic is Universe so sure!

X, Y and Z galaxies of stars at distant destinations of Universe are awesome;
Yearnings of man to explore full, whole and entire Universe is ever a dream;
Zeal to find means to do that feat never diminishes in the great dream of man!

Ramesh T A
A Greed For All Golden Eggs!

Furious attacks by Nature as earthquakes and storms,
Heart breaking scenes, are horrible imprints in mind!
Why is Nature so harsh to mankind remaining calm long?

Many poets have appreciated its beauty, grandeur, mercy
Almost to the level of Supreme Creator of all everywhere!
But Nature shows its other face though Moon hides ever!

Materialist man has taken for granted Nature's love for all
Just us we all breathing air forget ourselves of its existence!
Perhaps that's the case Nature shows its wrath of its presence!

Nay, man's blunder in exploiting natural resources beyond limit
Without any sense of recycling them at all and selling farms
For urbanisation of villages Nature shows its wrath so harsh!

Instead of thanking Nature's generous gesture man destroys
All like the greedy man who killed goose to take all golden eggs!

Ramesh T A
A Green House Effect!

If all day clouds are
And full day heat is trapped
Effect is Greenhouse!

Ramesh T A
A Grief Message!

When grief stricken
And the heart is full of pain
Of loss of dear one
All beautiful things of Nature
And sweet things of life
Become a matter of no concern
However delightful
They all might have been once
And cannot be enjoyed again so!
Message of grief
Written in nice verse
Moves heart much indeed!

Ramesh T A
A Grim Reality Of World Life - I

Beautiful birds were flying free in the Sky;
Fluffy clouds were floating around above them;
And he was walking in the street straight to
The place he was working in the factory right!

As Rama to Dasaratha he was working like a bull
Tied to the yoke of a cart beyond all limits of patience;
With the only aim of developing the industry in mind
He concentrated on developments forgetting all things!

Like an Electric Train he wanted to go fast in life;
But obligations made him go as Goods Train on track
Laid already by his elders on the traditional model
That created monotony and frustration unavoidable!

Free as a bird he could not fly anywhere even in free time
Due to the place he was living in sans friends or anyone;
Friends also he could not meet very often due to distances
And placement of them in jobs at different distant places!

He was staked firm to such a heavy mechanical life
That he had to work as an oil mongering bull ever!
How awkward it would be working so sans relief
Unless changed by God’s grace the fate of his life!

Nothing can change the life of individual but by miracle;
Who can bell the cat to change the fate by revolution?
One can be a revolutionary only as long as one is young;
But becoming old one can’t avoid succumbing to tradition!

Intelligent, young and strong only can cope with the fight;
Comprehension, realization and commitment come late
Before one could think, visualize, plan and execute ambition
To enjoy and free oneself to achieve destiny of one’s life!

Unable to feel proud of anything bulls rely on caste only;
They form a group to fight for their cause good or bad.
So, individuals of mettle though try hard would be nil
And whatever meritorious work they do won’t click!
A Grim Reality Of World Life - II

Knowledge, love, wisdom and intelligence have no value;
Only power, money and domination rule the world now;
So, machinebeastmen and inhuman creatures drive here;
And what can budding intellectuals of promise achieve?

If so, how well could all works go in all walks of life?
Corruption, malpractice and favouritism rule the day!
Good, sincere and honest have no part to play here;
So, all will go on the beaten track with no new ventures!

Intelligent or idiot, or rich or poor, politics is all now;
As politics is business, education and all are business!
Politics means business and business means money;
As money is all, without money life is nothing here!

Corruption, casteism and politics affect all fields today;
Defects in traditional activities lower the way of life;
Drawbacks are common in administration and judiciary;
Culture, civilization, journalism and art breathe no fresh air!

Education only can correct setbacks of society today and ever;
Specialists are churned out in more numbers sans standard now;
So, without leadership quality and human perfection life goes;
And poor quality in thoughts, words and deeds lead to violence!

Liberty is lost by social conventions, controls and restrictions;
Due to tradition and laws individuals have no choice to choose;
They have no scope of studying the education of their taste;
They have no chance to use talent in work and live as they like.

All talk about social change, individual liberty and freedom;
But in deeds there is no integrity of thoughts and words!
Society can’t be reformed sans change in individual attitude
As individuals are the back bone of the society everywhere!

So, human culture but not tradition should be the track to go on;
But democratic machinery too is dominated by exploitation!
So, individuals have to come out of the circles to see the truth
And take control of the democratic wheel to run the world well!
In Kali Yuga, Rama cannot function as heroically as Krishna
For, though invaluable he will fight and die as unknown warrior!
Are we to work and die so sans name and fame in the world?
No! Free, bold and happy life is our aim, ambition and goal!

Ramesh T A
A Grumbling Lion!

Grumbling voice of sea waves shows they are subdued
For the time being, but its roaring voice can be heard
Surely at any moment, it seems, as I am walking on!

Grumbling or roaring, lion is the leader of jungle all say!
Same thing happens to charismatic leaders in the world
That they don't know and wonder why people are crazy!

When they think of themselves as just like other humans,
They are surprised to see people giving them utmost respect,
Even though they are causally going on in the public place!

Being a human being, they also wish to live life and enjoy
Just as others do anywhere in the world to feel common touch,
But people's too much infatuation makes them delicate to feel!

Men in high place lose freedom, when they become very popular
And charismatic by their statesman's act and great works ever...!

Ramesh T A
A Guerrilla War!

In a guerrilla war
Who will be the winner
and the loser?

Ramesh T A
A Gypsy Life!

Scholar gypsies are wandering as nomads
Like the yuppies of 1960s with guitars....
Singing as romantic heroes and heroines!

Men and women are living in singles......
With children too fostering like the birds
Learning about life seeing various cultures!

Gypsy life is a free life they feel in world
Having education but loving freedom more
To live independent life ever till the end...!

What a life this scholar gypsy life to live
Sans a family as even the animals like
Elephants and lions too like to live in forest!

Independence is needed to stand alone in life;
But can one live a complete life sans culture?

Ramesh T A
A Habit!

Cradle habit
Lasts to the grave yard
If unchecked!

Ramesh T A
A Haiku Of Might!

Might is right
Not the might of muscle
But of mind!

Ramesh T A
A Hand Perfection Of Nature!

Storm making trees dance down the root
Subsides by the rise of Sun in the morning!
Rain lashing in circular motion all night
Wetting the fields and plants say good bye!

A fleet of colourful flowers smiling at dawn
Gives a fresh look to the area new and fine!
Freshness of air gives new life to town
And makes men begin work with fun and joy!

Sun shine makes things look bright with life
Allowing matters go on with enthusiasm new!
Such beauty and pageantry inspires all fresh
To go ahead with duty in an adventurous mood!

Nature thrashes out all differences to nothing
And changes all to new beauty ever and ever!

Ramesh T A
A Happening!

Expected things
Won't happen immediately but
Unexpected sure!

Ramesh T A
A Happiness Permanent!

Do everything
As perfectly as you can
To be happy ever!

Ramesh T A
A Happy Journey Of Life!

Time goes on fast in the life journey of man
Destiny being decided by Almighty for all ever!
Happy journey lies in the barest possession
With happy thoughts, words and deeds forever!

With virtue possessed and vice disposed each
One goes free of heart in love with all ever!
Joy of life journey increases with the capture
Of hearts with words of love from start to end!

Best words and deeds based on beautiful thoughts
Of love enriches the hearts of all friends on
The way till the end of journey leaving best,
Noble and great ideas live ever in all hearts!

Love is the best way to lighten one's heart in the
Life journey of all till one reaches world's destiny!

Ramesh T A
A Happy Journey!

Alternate conveyance
When got otherwise impossible travel
Happy is journey!

Ramesh T A
A Happy New Year 2012!

Happy New Year to all PF friends!
Wish you success in all your ventures!
Let Love rule your life in New Year!

Let Poetry bloom with colourful flowers!
Let Poetry bring fruits of joy in creativity!
Let Poetry elevate all hearts to heaven!

Poets! Be the leaders to inspire all with joy!
Poets! Create New World Order for all!
Poets! Root out wary world forever sure!

Let the world become paradise by your poems!
Let the world become better to live forever!
Let Sunshine of knowledge lead all to prosperity!

Let us all say Good Bye to old year 2011!
Let us all welcome New Year 2012 in CHEERS!

Ramesh T A
A Happy New Year!

Happy New Year
Everybody says to everyone
At least this day!

Ramesh T A
A Happy Occasion!

Broad sea looks blue like the blue sky!
Bright Sun makes crystal clear the scene!
Long stretch of sandy beach people enjoy!
Children play ball game on the sand joyfully!

Mothers watch children not getting drowned;
Friends take photos of them in many angles;
Time passes without notice till evening comes;
A day is nicely spent on the beach as planned!

All are satisfied with joy to return home soon;
But all things have to be packed before leaving!
So, others sit on the sand relaxed till all is over;
Loading all materials in the van the family moves..

A village town with a temple before sea is beautiful
To enjoy in holidays before coming there next year!

Ramesh T A
A Happy Time!

Walking lonely as a cloud on a meadow
If I happen to see a long time friend
How happy I will be, God only knows!

Time of the past comes to memory;
How have we enjoyed our time then
Nobody knows except me and my God!

School and home are what we know;
Except on a rainy day if we are together
How happily have we spent time in rain!

Then college life and business world
All we know and live a mechanical life
Like machine among machines forever!

Alumni day only gives another chance to meet
Old friends and chat on happy time of past again...!

Ramesh T A
A Happy, Happy New Year!

New Year may come and old year may go
In the life of the world,
But changelessly life goes on forever
Like the day and night!
New Year or old year
In our life alone we celebrate it
And the beginning and the end
The same way we all live.

The misty end of the old year
Is the beginning of the New Year
And the mystery of the New Year
Begins in the misty season.
Slowly the confusion clears
With the spring of new ideas;
Which route to follow
Begins to bright
With compulsions to hurry
In the directions work loads increase,
Interesting and trying too.

With the Festival of Harvest begins
The Spring Season for two months;
Fragrant flowers bloom beautifully
With green plants everywhere;
Inaugurations of many new works
Occur with colourful functions
And freshness, new zeal, inspiration,
Top mood and happiness prevail.

Just after the Spring Season ends
The Financial Year will come to an end;
School/college Annual Exams begin
Just after Summer Season begins
And New Financial Year also begins
With the beginning of summer.
It's the time to see the shops selling
Many fruits and water melons everywhere!
Summer Holiday begins 
Before tours and travels 
To cool places commence.
With no work to the mind we play
All the time all the games
Till the end of summer;
Visit temples, see relatives and go
To picnic places to enjoy life;
After the holidays all return home
To resume the routine as usual.

Tree stands as skeleton stripped off
All its bountiful beauty in the Autumn Season
And with the rain of the South West Monsoon
Spring again the growth once more;
Apples, oranges and grapes of the market
Grab the customers to buy
And pink, red, yellow, blue and violet flowers
Bloom everywhere to give fragrance!

With the Birth Days of
Lord Ganesha and Krishna
Begin all the festivals;
With the festive mood
Men become brisk
And active till late night
To finish works, make money
And celebrate festivals
In merry making;
Festivals of the whole year end then
With the cracking smokes of Diwali!

Then North East Monsoon brings
Cyclones and heavy rains everywhere
And confines the Sun in the clouds
And plunges all places in darkness and gloom.
Again the curtain of clouds and mist covers
The end of the year in mystery
Of the happenings of the preceding year
And the things that may happen
In the succeeding year!
A Harbour Wave Threat!

Tsunami means harbour wave became famous from Japan
That is the threat now for many countries if earthquake is!
2004 Dec.26 Tsunami after an earthquake lashed Indonesia
And has created threat with terror in South East Asian region!

After attacking Indonesia and Andaman Nicobar islands then
Tsunami moved East and attached Indian towns of Tamil Nadu.
Nobody can forget it and fear much if cyclone or earthquake hits;
A 4 to 6 metre tidal sea wave submerges coastal areas easily!

All these Tsunami doing silently without warning or affecting
Anything to the ships or fishing boats on the sea is incredible!
It is a silent killer of many like a phantom who does all clean
Without making any fuss before or after leaving all in tragedy!

The faster it leaves the coastal areas as the faster it enters there;
A force of Nature nobody can stop when it comes right against you!

Ramesh T A
A Harmony For Peace!

Crows and squirrels have safe haven
Where there is regular food available!

Men settle in jobs anywhere in the world
Where there are safety and love available!

Animals have demarcation of area sure
To have their affairs go on as they wish!

Men have jurisdictions of their choice
To have their domination in the jobs!

What is the difference between them?
Humans are just well appareled animals!

Men have to live anywhere by coexistence,
Which is the best way for unity in diversity!

If everyone lives in harmony with Nature ever
All will get all sans fights among them sure!

Ramesh T A
A Harmony In Nature!

Living in pollution and problems man longs for peace!
Why are going to hill stations and places of Nature?
To get solace, comfort and forget worries a while;
Beauty and comfort make one forget the world and
Give peace, joy and sense of freedom to recoup one.

Sparkling Sea waves under the Moon light are beautiful;
The fishing boats with single lights at the horizon are fine;
But hot waves of morning has not yet minimized there!
So late it takes to cool down there due to clouds standup;
All these are due to pollution and destruction of trees!

Air is polluted by Chlorofluorocarbon gases and car smokes
Leaving no fresh air to breathe in the town making all go for
Fresh air in open space places like the beach and hill stations;
Harmony in Nature only can give relief needed at last it seems!

Ramesh T A
A Haunting Beauty!

Moon and river
A mild and smooth beauty
Haunt memory!

Ramesh T A
A Haunting Divine Spirit!

Whisper of kind words I hear;
Words become rhythmic soon!
Song in the breeze is gentle;
Soothing song relaxes mind
Much to my great surprise!
Is whispering song of wind
Really the voice of God?

Wind invisible as God ever
Naturally saves our lives long!

Colourful beauty of sky always
Absorbs heart, mind and soul!
Is the beauty of Nature really
The reflection of God's beauty?
This silent beauty mystifies me!
I know not how long am I so
Immersed in such mystical mood!

Nature completely transports by
Beauty to the world of spirit, God!

Ramesh T A
A Haunting Song!

A haunting song I hear comes like this..

The song.... coming..... in the wind...
The song coming...... in the wind...
The song coming in the wind...

The song spontaneously flows making eyes foggy...!
The song makes even the stone melt...!
The song makes even dead tree resurrect with leaves...!
The song kisses in many languages...!
The song makes forest animals listen with dizziness...!

When night Moon blossoms as breeze is walking,
A boy in blue colour stands blowing flute forever
And forever my heart melts in the thought of his love!

Ramesh T A
A Healing Power!

Healing power
Of Nature is always there
Pollution or not!

Ramesh T A
A Heartening Tree!

Tall tree with full of green leaves
Surely makes one feel joy by its cool!
Avenue green trees along the road
Mostly in a line gives much pleasure!

Trees absorbing smoke by pollution
And letting out fresh air to breathe
Daily it's a great wonder of Nature
We have to be grateful till end of life!

Giving shade to people and vehicles
Trees of green leaves stand majestic
All day expecting nothing in return
From all beings depending them ever!

Selfless love of trees heartens one and all
Lovers of Nature, poets or mystics sure!

Ramesh T A
A Heat Within Cold!

Mist and fog takes one to mystical form,
A dreamy state of realm full of trance
And the mystical experience cheers up!

Cold wind stirs heat in body to be alive
Making full stature brisk with activity
And inspires mind, heart and soul fine!

Drowsiness gives way to animosity nice
Allowing activities achieve goals great
And the triumph of soul gives joy whole!

Cold season kindles works to be done
Without perspiration of Summer time
And exhaustion is never felt for long!

Hot sensation within cold atmosphere
Surely kindles fire to explore the Ultimate!

Ramesh T A
A Heaven On Earth!

Beautifully doing things lovingly to a natural end is an art! Wonderful, interesting, joyful and beautiful thing is love! Confluence of art and love in all things of Nature is wonder! Birds, flowers, green lawns, blue sky and colourful clouds Over the confluence of sea, hill and land freshens soul ever! Joyfully enjoying life and performing profession of interest One can enjoy real blissful life, freedom and satisfaction! A place of such a joy is really paradise on Earth one longs To live from the beginning to the end of life in the world! Is it in South America or Europe or tropical countries here? Where Nature is rich in all its spendour there paradise is! Where there is sense of art and music cherished in poetry One can have blissful time through out one’s life in the world! If this is provided by a love or friend it is heaven on Earth!

Ramesh T A
A Heaven One Human World Family Is!

 Humanity is one world family of humans with full of
 Human passion living life of human culture in love!
 Love, humour and laughter ever engulf in the company
 Of such humans trusting nothing but words of heart!

 There is no foe but only friends in its circle of
 This human family always celebrating functions to
 Enrich their bond with all human souls from the first
 To the last stage of world life making it a heaven ever!

 Their meetings place is always paradise with full of
 Beautiful flowers smiling with fragrance that fascinate
 All human hearts to be there forever whether it is night
 Or day, but fun only in their thoughts, talks and deeds!

 Sweet fruits they share to make human life sweet to enjoy
 With all friends of human sense cherishing human love ever!

 Ramesh T A
A Heavenly Freshness In The Beach!

Cyclonic depression has moved away with weakened effect;
Calm has returned after heavy wind and rain now and then!
Silvery Moon has risen up converting sea into a milky ocean
By its bright white light beams falling on waves here and there!
Chilling climate is enjoyable to have joyful walk in the beach;
Rolled up umbrella is just serving as walking stick for company
To prevent oneself from drizzle of rain till returning home soon!
Fresh air to breathe makes energetic to feel refreshed as not before
And gives a sense of confidence to go fast anywhere one likes!
Usually crowded place due to rain is deserted by usual comers
Making it a no man’s land to stride as monarch without an army!
Some petty shops selling peanuts have opened up late for some
To have refreshment after a walk or work near the place somewhere
And the milky sea gives an elated spirit to muse over a while now!

Ramesh T A
A Heavenly Paradise To Reside!

A Heavenly Paradise to Reside!
National and religious festivals are over by the end of first month of New Year, but the rain in the off season time is extending the mood
We all love most to a few more festive fun to continue for a while..!

Yes, the grey blanket of clouds in the sky for the past two days has
Brought the hill station climate to the sea coastal place of country
To enjoy the pleasantness of Nature in all its beauty to muse high..!

Rich grown trees in the day light now makes all feel rich green of
Nature is a great boon to the world to cherish forever to feel joy in
The fun of festive mood once again, when all festivals have ended!

Blue flower beauty of Nature in farms by the shade of rain clouds
Simply takes one to the divine level to meditate in bliss quite exotic
And exhilarating to the eyes and mind cherished by heart much...!

Blue and green beauty of Nature with cool climate of hill station in
The coastal town near the beach is heavenly paradise to reside...!

Ramesh T A
A Heavenly Place To Visit!

Green meadows of hills are very nice to see and enjoy;
Water falls coming from top of a hill is like silver...;
And it is called as silver falls by all visitors often and
They all have a bath before going to the top of hill!

The cool surroundings are heavenly to visit and muse;
Fresh smell of various kinds of flowers growing there
Surely elates one to dizzy heights with zeal and fun
To go round with a brisk walk to feel enthusiasm fine!

Time never seems to move in this ever silent and cool hill
Making all stay there permanently to have feel of paradise
Nowhere one can enjoy in the plains or forest nearby sure;
Such a wonder that keeps one always fresh in health ever!

What a place to visit and enjoy in life at least once before
Death comes to one permanently to somewhere outside!

Ramesh T A
A Heavenly Sight Of Sky To See!

Moon with transparent clouds gives the look of heaven to sky!
What a sight to see to be in a heavenly mood of dream long!
Moon at the common centre of many concentric circles of clouds
Surely gives the look of a while hole at the centre of galaxy…!

Though none to accompany me to enjoy this feast of sight,
It's like a movie shown to me only sans audience in a theatre!
Great and best poetry too has such a reception of deserving
One only sans crows of audience having no sense of taste!

Highest level of mind enjoying sublime beauty of Nature, only
A few has the gift of knowing and appreciating it in reality is
Indeed puzzling me many a time feeling best things in Nature
Are free for all to enjoy and appreciate but taste of all is awry!

Leaving behind such a wonderful and supreme beauty, many
are rushing to a place of heaven unknown and never to be
Known in the life-time sans realization dawning upon them ever
Indeed makes me think of fools enter where angels fear to tread!

Ramesh T A
A Heavenly State Of Living!

The heaven we all dream about is true or false no one knows!
All believe heaven is a place of comfort, pleasure and joy ever;
Only physical state of human-hood can enjoy that feeling sure;
But how can one feel or enjoy that status in the spiritual state?

That means heaven is just a dream, an idea created by an artist;
As that wonderful dream brings joyful mood, all love it very much
And wish to reach that state one day or other, when we die here
Not realizing it as a romantic idea and not a physical reality at all!

Our difficulties and sufferings are surely due to our desire based
On the attachment we have on things and humans we love most!
This can be overcome by following the policy of non-attachment
As preached by Bhagavad Gita and Buddhism long, long ago...!

If we are non-attached in life, we will not feel much about joy and
Also, sorrow in the world and is the heavenly state to live forever!

Ramesh T A
A Hell Of Pain!

Due to hot Sun leaves dry and wither away soon;
Due to body heat skin dries and falls as dry leaves.
Starving for water all plants dry and die soon;
Dehydration dries skin and develops white scale.
Desertification of land heats up and burns hot;
Skin pealed body as dressed chicken burns ever.
Pain of the land or plants cannot be known;
But pain of human body is felt like hell ever!

Ramesh T A
A Hell!

Full day is cloudy
But heat wave is steady all
And sultry night is hell!

Ramesh T A
A Helpless State!

Out of station
Makes usual work impossible
But can't help!

Ramesh T A
A Herd Of Friends!

You think one
Your friends different things
But all go as herd!

Ramesh T A
A Hidden Treasure Of Talent!

Talent is the hidden treason of ocean in very person;
Talent is the oasis marooned by mirages in the desert;
Luck provokes exposure of talent of one to the world
For recognition as star in the field one is a best bet!

Poets, scientists and musicians are all talented guys;
Of them too, so many don’t see the light of the day!
As rare gems many work a lot and fade out of focus
As Shellesys, Mahatmas or Einsteins in T Gray’s poetry!

“Some are born great” and so, they are well known;
“Some achieve greatness” and are recognized at last;
Some have “greatness” and awards “thrust upon them!”
This is the irony of fate happening in the world of talent!

By practice, position and power talented guys soar high;
But born geniuses become immortal transcending talents!

Ramesh T A
A High Society!

Meeting between two friends begins conversation; About high society the topic of discussion goes on. City friend says they belong to high society there Town friend asks so, don't they move with others? They cannot as it has become a prestige matter!

Which is high society and who are high society people, People living rich life with low mind in the society Or people living a simple life with high thoughts? Then I say I am really living in a high society here; Around my place people are living spiritual life And so, I belong to a high society world appreciates! City frined laughed and took leave of Town friend!

Ramesh T A
A Hiking To Top!

Haiku or Tanka
Which do you think poetry
Hiking ideas top fast?

Ramesh T A
A Hilarious Mood!

Going on a tour to tourist places are enjoyable in life;
That too going with friends is unforgetable in life!
The first tour I ventured with my friends was interesting;
We had been to a dam site which was 60 Miles away.

There we stayed for two days to see the beauty of a Dam
With flowers, fountains and green lawns were refreshing;
We stayed in a cottage but could not sleep due to
Mosquito problem which our friends did not mind at all!

Later we used to talk about that and laughed how they slept;
When it was a nightmare for us in a place alien to all
They replied that it was nothing when you got sleep
And everything would become all right after sometime!

Even today when we think about it we get a hilarious mood
That cannot be stopped despite we have tension or depression!

Ramesh T A
A History Repeats!

Wars and violence
Are vigorous world over
Failure history repeats!

Ramesh T A
A History!

When News
Becomes old after sometime
It's History!

Ramesh T A
A Holiday Mob!

A sea of mob
Has gathered in the beach
Being holiday!

Ramesh T A
A Honey Or Wine....

Which is tastier

Honey or wine or kiss

If you miss don't fuss!

Ramesh T A
A Hope Of Renewed Dreams!

Regeneration of leaves on cyclone ravaged trees
Seeing in the morning really gives renewed hope!
Distant chirping of little birds like sparrow and all
Rejoices heart and mind though comes as whisper!

Like the freely flying national flag on Republic Day
Hearts of all float in thoughts of freedom as birds!
Physical, mental and spiritual freedom we aspire
High living in the world of many differences, wants!

When are we going to achieve our cherished dreams
Though we all pledge to save our freedom and rights?
Making use of our full self to express our self all try
The best each can though drawbacks and hurdles are!

Only days pass on without any accomplishment ever…;
But renewed dreams give hope and inspiration forever!

Ramesh T A
A Hope Regained!

Recovery from strong illness is indeed a miracle! I have recovered and written so many poems! But eye sight, mental concentration are gone!

Despite drawbacks I pull on days doing the best With what I have to make a mark by my poetry! I have actually done more than before in this way Making use of technological developments here!

I am seeing new greener pastures everyday And my days are going on with brightness ever! This is indeed a miracle happening so far to me That I feel due to God's grace in a mysterious way!

I have not lost faith and hope whenever I see Nature And its beautiful manifestations everywhere! Nature indeed renovates lost hope in joy again!

Ramesh T A
A Hopeful Turn!

With pensive mood when I look at the trees
What a sea change I see happening there!
Leaves stripped off trees look fresh again
With newly grown leaves within a month...!

Wonder of Nature have brought fresh hope
And mood I long much in these dark days..!
Not only that some trees are strewing fresh
And newly bloomed flowers too on my path!

What a joyful welcome they give to me......!
I wonder in great amazement at the new turn
And feel a good turn in my life too is in store!

Piano music coming from a silent street also
Put me in delightful mood to dance to its tune!
I say my patient efforts will not go waste ever!

Ramesh T A
A Horse Riding Boy!

A boy goes on horse riding to school!
He doesn’t like cycle or bike or vehicle!
His parents work in foreign countries;
They are ready to give him even bike;
He insisted on horse only for his ride!

He has collected points on horse also;
So, he has got horse for going to school.
He spends Rs.150 daily for his horse;
He even participates so on functions
And he earns considerable amount too!

His aim is to become a race horse jockey!
He learns a lot by doing from now on.
His aim is not to become a book worm;
His vision, idea and action is to achieve
Unlike other boys of his age in school!

Music, arts, games and creativity make
One great after education as it is sure!
A horse riding boy is an inspiration indeed
For kids to develop talent and rise high!
Education is just basic alphabetical letters;
But new creativity only makes one great!

Ramesh T A
A Human Kiss For A Natural Work Of Art!

A human kiss for a spontaneous work of art is the best praise
One can get whether others make an artificial comment or a
Very bitter criticism out of envy or jealousy for all ever..!

Natural work of creativity has its own value and appeal to the
Hearts that love with sincere and earnest feeling absorbed by
The beauty satisfying the aesthetic nature of one anywhere sure!

That is the appreciation unique one gets for natural expression
Unlike artificial creative work that sways by external composition
With no sense of feeling or passion of love for beauty pure here!

Love of natural beauty is great sense of inner desire unlike the
Passion induced by gorgeous decorative piece reminding one of the
Famous quotation that all that glitters are not gold in the world!

The competition of the artificial expression with the naturally
Real expression to excel ends in fiasco as it is a fuss of farce!

Ramesh T A
A Human Limit!

Though sweet can sugar alone be consumed forever?
Though adds taste can salt be added limitlessly in food?
Also, can bitter or hot taste ever be used extremely?
So also always work cannot satisfy however successful!

Man can achieve great things but not become machine;
Man has to live as human but not as machine or sage;
He can make sacrifices but not forget to live as human;
Achieving all if he doesn’t live a life of his own what use?

Fed up with work many seek a place of isolation for peace;
Profits and benefits for all will not satiate leaving one free.
Man of such a stature after a long time finds a peaceful place
Also not treated well as they cannot understand who he is!

Many legends have left the world at the peak of glory in life
But how many know in private life they are poor in joy ever!

Ramesh T A
A Human Perfection

Love and knowledge
Make perfect human soul
In the life of the world!

Ramesh T A
A Human Relationship

What can we say about the people who forget soon
After moving close and talking about all with one?
In train and bus journeys we meet many on tours;
Till each one’s destination comes pass time in talks
And forget the moment we leave them somewhere!

Are the relatives too like the journey friends we meet
To be ignored and forgotten when the necessity is nil?
Support without reason to one in the relative circle spoils
True relationship to be cherished after moving very close
And that develops false relationship most unreliable here!

Even friends move as false relatives sans sense or shame
And that hurts the feeling of good human heart sometimes!
Perhaps false prestige makes them live artificial social life
Making world a stage rather than reality to play suitable role
As to the situations to create impressions for acquiring all!

Ramesh T A
A Human Situation!

Too fast, impatient and irritant people talk much
And create commotion, chaos and crisis always!
To take a decision if you have a consultation
They talk and talk out of matters much to dismay!

If they happen to be your wife and children how is it?
It is a hell to live in such a situation in any family life!
A man of action gets head ache to deal with such guys
To take decision and solve a problem posing a threat!

Whether it is a serious situation or critical moment in life
Can anyone get any useful information from them?
Rare indeed to get any sensible thoughts to get solace
When one is in soup anywhere on a tour or in a group!

What can you say about the life of a man of merit
Caught in a web fate has weaved to a long life so?
Can you say it is a bad luck or unfortunate period
Of mission among great, small and ill minds in life?

Will separation solve the matter between them then?
The first mistake made will lead to many mistakes after;
This lesson of experience should keep one silent in job
To settle all matters and coolly leave life in peace soon!

Ramesh T A
A Human-Animal!

Who is sexually interested much - guy or girl?  
Guy says it openly but girl never though crazy!  
Easiest way to pass time or forget oneself is sex!

Humans too are animals or human-animals ever!  
Intellectually and spiritually human is far high;  
But for procreation only animal way is for him!

Overcoming sexual desire is human's obligation;  
Most of them have not transcended its realm ever;  
Only then intellectual, intuitional powers work...!

Human body is a great wonder but it's finite ever;  
Only human spirit is infinite on par with divinity  
And that only can give eternal pleasure longer ever!

Knowing this why humans fail to overcome craziness?  
Human is animal only though has mind and spirit ever!

Ramesh T A
A Humour In Life Is A Must!

All are drenched in rain of laughter seeing comedy pictures;
Best comedy films are mostly starred by Charlie Chaplin;
Charles Dickens was a wonderful novel writer of humour;
Dickens depicted characters who live still though like Chaplin!

Everything can be explained in the Universe unifying equations;
Final theory of all laws of Nature all scientists try since long time;
Graduation in arts and science only make one completely educated;
Humourless good message is dry and dull as only one subject ever!

Icons of comedy and physics were Charlie Chaplin and Albert Einstein;
Jokes were very common among those great stalwarts of 20th century!
Keeping abreast of all information and knowledge flourishes comedy;
Literature and science have such personalities in their histories forever!

Moments of such hilarious times of history and literature inspire all!
No one dislikes humour whether elders or youngsters or children;
Open hearted talks and innocent utterances are usually humorous;
Personalities of all walks of life vouchsafe surely of those matters ever!

Questions unanswerable both in science and arts are said in humour;
Romantic comedy stories hence have a large audience in all ages sure;
Stories with wit and message produce laughter and great reception ever!
Those who are living true life have a lot of humour in their daily life sure!

Unifying thing in life by friendship and love is humour only everywhere!
Veracity lies in all humorous persons' life whatever be their statuses in life;
World is full of woes that are always forgotten only by humorous acts ever;
X is symbol of supposition of humour for all characters expressed as Mr. X!

Yawning comes even to those don't sleep much made tired by laughter by
Zealous expressions of humour produced by comedy plays and movies sure!

Ramesh T A
A Hurdle Impossible To Surmount!

Adopting a lipi of its own, a language gets a separate identity;
Variation in dialect and dialogue of that language is strange
Making it complicated to have a uniform public use in a new
Place or a far of place and a place of origin sans any link or
Contact between people of both places of a nation forever…..!

For achieving a thing, changing others by force it is impossible;
But changing ourselves, that objective can be achieved somehow!
Literature of a language can also grow not by force but by change
Being followed by all in public use minimizing differences of that
Language in different places of a nation to bring uniformity in reality!

To achieve that, either the people of that language living in other places
Should adapt the language in the place of origin, or the people in the place
Of origin should learn that language of the people living in other places;
In reality, that is an impossible hurdle to achieve at anytime or forever,
As there is no link between both people for hundreds of years so far…!

Ramesh T A
A Inspired Interest To Fulfil Desire!

Power, position, possession are precious for joy, rapture, satisfaction; Inspiration and interest urge one to take any risk against dangers To fulfil desire in achieving and acquiring precious things in life! But who and what give inspiration to have aspiration for progress? Nature, literature, history, politics and movie inspire many men!

Beauty of Nature, Birds, fish, literary characters, historical leaders, Charismatic politicians, matinee idols and heroes inspire people! Inspiration kindles to learn knowledge of all to become intellectuals; Vision of deep learning helps to have ambition to achieve great things; For, ambition is the great driving force that drives man of success!

Concentration and intelligent efforts should be directly towards the goal When inspiration, interest and desire join hand on a mission in hand! Even a slight sluggishness diversifies mind, bifurcates the route to hell; So, to fulfil wish one’s aim, ambition and goal should be to the bull’s eye!

Ramesh T A
A J.K. Rowling!

J K Rowling is
Following the one and only
Charles Dickens!

And she is
Having wide reception
Among kids!

Ramesh T A
A Joint Family Business!

Luckily business was going on for some people;
They haven't seen any difficulty on their journey;
Attaining agedness, they feel they need assistants.

They wish to drag into business their issues too,,
Whether they like it or not or some other ambition
They have or not nobody seems to think about....!

Just after education their issues or heirs are waiting
For the result before venturing on their dream project;
The unexpected call from elders put them in puzzle!

But to spend the holiday in hand they accept their
Advice to attend some training programmes offered
By the companies they represent in business long...!

The training was intended to induct them into business
Like the dictators assign duties in the army for expansion!

Ramesh T A
A Joint-Family Life!

Physically worn out elders look for spiritual peace;
The mechanical types spend time in video games
Doing the household chores as regular job, of late;
But the youngsters demand works as they do daily!

It is like the race between hare and turtle not as in the
Past telling the story, 'slow and steady wins the race,'
But hare-like youngsters ask turtle-like elders to run
With them to reach the places as they wish sans fail..!

It's like the friendship between frog and rat tied together
As mark of inextricable friendship everywhere in the world!
On the plains and land, it is okay both for the rat and frog,
But seeing pond, frog jumps into it immersing rat to death!

In the fast world, elders are like rats in the hands of frogs
Tied together forever to live a joint-family life soon to death!

Ramesh T A
A Joke Or Art?

Writing Poetry
Has become a Joke
Not a joyful Art!

Ramesh T A
A Journey

Journey in Nature

Is wonderful to enjoy

In Summer holidays!

Ramesh T A
A Journey Of River!

The train crosses many bridges of rivers;
But no river is flowing with full water...!
All are dry on most of the part in all.....
With a little stream of water going on..!

This is the status of rivers starting from
The mountain top of some place to some
Other place and finally mingling one with
The sea of the nation at the south end....!

But before seeing the end, the river takes
A long journey carrying some water after
Draining most part for agriculture and also,
For drinking purpose till reaching a sea...!

In our life also like the river we have to give
Our best to many before finally we meet the
Supreme Lord naturally to give what we have
At our disposal as our offering to end all tasks!

Ramesh T A
A Journey!

Journey begins
When we are born in the world
Continues till the end!

Ramesh T A
A Joy And Sorrow Life!

Winter has gone;  
Summer has come;  
Sweating has not started!

Winter time it is  
Bitter cold to bear long  
Making movements nil!

Summer time it is  
Hot climate exhausts body  
Longing to enjoy cool hill!

Spring and Autumn it's  
Rejuvenation and maturity  
Fun and wisdom fulfilling all!

Hot and cold climate prepares all in  
Night and day life to face joy and sorrow!

Ramesh T A
A Joy Forever!

Cluster of Stars in the Universe looks as festival festoons!
It is celebration always in the night sky for wonder up there
And a delightful show for the lovers to wonder and enjoy life!

The wonders of brilliant Stars sparkle in the eyes of lovers
When they meet and fall in love at an unexpected time in life!
Love develops with much enthusiasm, zeal and pleasure so!

What happens in the macrocosm happens in the microcosm;
The star effect of space reflects on the flowers of Earth
And the joy of heaven is transferred to the paradise on Earth!

The union of lovers enriches life longevity in joy and pleasure
As the ever expanding Universe with new stars appearing
Endless reflecting God’s never ending enthusiasm in creation!

The joy of Stars in Space and flowers of flora absorb hearts
And immerse in love all to enjoy fun, pleasure and joy ever!

Ramesh T A
A Joy From Indian Chocolate!

South Indian chocolate made of coconut and jaggery
Kindles nostalgia of childhood days' adventure at the
Local school where it was sold by an old man everyday!

That vendor sales of the candy was sweet and wonderful;
Now that kind of home made chocolate well packed in
PVC pockets is available in the erstwhile French town...!

Comparing with other branded kind of chocolates and
Toffees, this Indian chocolate is far better in taste and also
For health kindling all to buy and present it to all friends!

This idea of presenting this chocolate to our well-wishers
And friends living in out of station places on our visits there
Surely kindles nostalgia of our days spent together in fun!

Just as the bouquet of flowers that cheers all our dear ones...,
This Indian chocolate creates atmosphere of joy nothing can!

Ramesh T A
A Joy Journey!

Waiting list
When becomes confirmed reservation
It's joy journey!

Ramesh T A
A Joy Of All...!

Happiness of many lies in the sadness of key players
Not only in the plays but also in the life of the world;
It is true for the happiness of others some sacrifice all!
Without the sky shedding tears earth cannot get relief;
In the happiness of green fields sky remains blue ever!

Singers, poets, actors and writers live life for others
Entertaining and enlightening them as long as they can
And disappear in oblivion paving way for others to go on
In pursuit of the exploration they have started long ago!

Without the efforts of scribes where can newspapers come
To start the day for many in the morning along with coffee
Giving information of the world and ideas to create things
Benefiting Self and world in all walks of life as world rolls on
Day and night non stop for the survival of all species endless?

Ramesh T A
A Joy Of Festival Of Lights!

With the ground sparklers boosting with colourful light
Missile crackers went up and burst into bright bonfires;
Crackers crackling all round festival is celebrated grand!

Joy of festival of lights went with exchange of greetings
On emails, in person and over cell phones by everyone;
All faces lit with bright smiles reflected by new dresses!

Darkness of night and very early morning was torn off
By bright lights of colourful sparklers all round the town;
Nobody had tiredness in the celebration of joy for long!

Just for a day of celebration all seemed to have engaged
In buying all things from head to foot very busy everywhere
Almost month long in the towns and cities for this year too!

After celebration the joy of festival of lights remain in mind
Increasing only interest to do the same next year too better still!

Ramesh T A
A Joy Of Life!

Beauty of Nature is a joy forever!
Master painter works on canvas
To keep natural art alive ever...!

Beauty of this art reflects creator
In all the glory we admire ever
For the love shown to all longer!

Morning, evening and night the
Splendour of Nature absorbs all
Awe inspiring at creator's greatness!

The grace, gentleness and beauty
Touch the hearts in love divine
To forget oneself ever in bliss...!

The more thing of beauty is enjoyed
The more life moves on joy long sure!

Ramesh T A
A Joy Of Rain!

Generate joy of rain
The union of lover and damsel
Cascading down the hills!

Ramesh T A
A Joy Of Union In Nature!

A Moon faced woman shining bright With the jewels of Stars on her tresses Moves reclining on cushion of clouds in the sky! The rainbow of seven colours Making magic on the angelic scene The paradisiacal hero waits for her below! The heavenly clouds meeting snow clouds Melt down with thunderous lightning For the landing of damsel fresh!

The union of lover and damsel Generate joy of rain Cascading down the hills! Beautiful butterflies Flying over colourful flowers Try to settle for long! Humming birds hopping From flower to flower Suck honey till satisfied!

Lovers enjoying the beauty And fragrance of flowers Fly in the wind over Valleys and meadows! Enjoying the freshness And glory of Nature After the down pour of rain They move over fields And forests of exotic fun! Enjoying the sweetness of Fruits of various species They lay on grass bed To dream amorous life Together entangled In eternal bliss of fun!

Waking from slumber They fly high in the blue Sky Till they reach the blue ocean!
There mermaids with garlands
Of pearls and gems invite then
To dive into ocean world of fun!
Diving deep enjoying the beauty
Of colourful fish of various styles
They enter measureless caves
To move in dizziness seeing
The blissful life of mermaids
Hovering over them as angels!

Seeing treasures, gems and pearls
Of invaluable nature strewn
Here and there as nothing
Before their eternal pleasure
They rest on the oyster bed
Specially arranged for their
Endless enjoyment for long there!
Deeply diving into the world
Of tireless pleasure to explore
The blend of paradise and heaven
In one insatiably to the core
They forget themselves of all!

Timeless world of dream
Then wakes them to see
Brilliance of light inviting them
To soar high to sublimity!
Floating high and high
They reach out of ocean
To the vast ocean of blue Sky!

Condensing clouds taking
The damsel to the higher region
Biding goodbye to the lover
Disappear in the world of Nature!
Wishing sweet dreams to the lover
The night Sky strewn with Stars
As the sands of endless seashore
Leave him in peace and satisfaction!

Ramesh T A
A Joyful Eternal Life!

Romantic lovers are singing beautiful songs  
In the hill station covered with full of mists!  
Birds are flying freely in the air around there;  
Flowers are dancing by the breeze cool!

Sun shines bright over the meadow all there;  
Angel like dames joyfully dance by the breeze!  
Only joy and hilarity fill the atmosphere ever;  
All enjoy a joyful time sans knowing time there!

A paradise on Earth this is called by all live there;  
People come for a brief stay and fly away soon  
Not knowing the way to stay there in the pageantry  
Driven by the city fast life making them slaves of time!

In this time conscious mechanical life who knows  
The joy of eternal peace enjoyed by angels in paradise!

Ramesh T A
A Joyful Festival Of Lights!

Full of fun all enjoy from morn till night
Energy never dissipating in revelry...!
Such a happy occasion comes once a year
Thrilling celebration in fire works ever!
Invigorating elders and children in joy
Vital mood of joy immerses all in bliss!
Amazing display of friendliness all over
Love all the occasion in never ending joy!

Over and again all have time to share joy
Full of love and passion to live so year long!

Light of truth expels darkness of ignorance
In the blissful mood of divinity brilliant long!
Girls and guys give themselves in pure love
Highly elated to open and frank state of truth
That never hides any ill will ever to rottenness
Socially strengthening bond of affection forever!

Ramesh T A
A Joyful Journey!

Birds fly anytime anywhere they like;
But we men before going anywhere,
How long we think about the luggage!

As heavy luggage our heart too ever
keeps us heavy to rise high and fly
Because we are not light in heart.....!

If we are free of worries and problems,
We fly as supermen in dreams always
And discovering many planets beautiful!

Keeping our cool despite heavy pressure
And tension of life we can conquer heart
And feel light to fly anywhere we like...!

Less the luggage happy will be our journey
And joyfully reach our destination quite free!

Ramesh T A
A Joyful Mood!

Morning smiling flower is beautiful and lovely; 
With beauty and love it brings joy to life ever! 
Warbling music of birds cheer up the mood.... 
And make my day lovely to go ahead with joy!

Bright sunshine and rain clouds give hope....
And great promise of rain sure to come soon!
Hot sun in the morn and cool breeze in evening
Surely give great relief after a day's hard toil!

Lovely music and song of club kindles jubilation
To share joyful moment with friends and dames
To forget hatred, violence and wars out there
In dance of humorous kind suiting to fun songs!

Finally the day ends in amusements to count much
With thoughts of days to come to enhance joy so!
Will the next day too begin with a hopeful note
Repeating the previous day's joyful mood ever?

Ramesh T A
A Joyful Style Of Living!

Sweet romantic life is formed out of many ups and downs
In the journey of world life that has to be taken to be
An adventure facing joys and sorrows now and then sans
Any losing of heart and hope to achieve the goals sure!

Fixing the goals needs a great skill based on real and
True knowledge of Self, world, Nature and Universe sure
As that only help one have a whole vision of life one has
To live with an ambition of goals to make achievement..!

Based on knowledge, vision and ambition, a romantic one
Goes on the long road of world life exploring on the way
And experiencing new way of life searching for the possible
Opportunities to materialize one's ambition to achievement!

This is indeed a beautiful way of living for a romantic hero
To achieve what one has dreamed long in a joyful way of life!

Ramesh T A
A Joyful Union Again!

All function programmes

Open new avenues to be joyful

By the union of all again!

Ramesh T A
A Junction!

What a life it is full of pain and pleasure!
Surely there won't be rose sans thorn;
Certain time only pain persists in life;
Why the hell He is testing me so, feel all!

Fate is the reply one gets in mind often;
Life goes on whether one is happy or sad;
We are born for a cause and till it ends
We have our own things to care and go...!

None remains here forever as stone
Thrown inside a deep well unknown..!

The moment one's mission is over surely
Where is the time for one to stay any
Longer in the world of painful pleasure?
It is just a junction to change track....!

Ramesh T A
A Kali Yuga Sign!

Wrong persons
As right chiefs rule all
in Kali Yuga!

Ramesh T A
A Key To Success!

While you are fishing in turbulent water
I am swimming against odd often here!
What you don't see I see very well
As I am going in the opposite direction!

I find the lucky guys get appreciation
Whereas the hard working guys noting!
This is the trend of the world everywhere
But truth never keeps low its profile anywhere!

False approach never takes you home ever;
Only the correct approach opens the key well!
But selecting the right key needs wise decision
Which is the mark of a erudite guy in any trade!

So, you don't press too much for luck always
As in the last minute it may not be available ever!

Ramesh T A
A Killing Cigarette!

Cigarette smoking

Indeed is injurious to health

But who leaves it

Until one succumbs to death

One day due to stroke sudden!

Ramesh T A
A Kind Of Living Quite Simple!

Eat for your self;
Dress for others;
But live a true life!

Have something to do;
Have someone to love;
It’s the way to live happy life!

Have some ambition;
Make some achievement;
And make a mark in the world!

Live and let live;
Leave the world happily;
And leave others live happily!

Ramesh T A
Love has become a rare thing in the world;
Due to cultural change love has disappeared!
Society does not accept love taking it as lust;
Love has become just a lust of the body only!

Love is believed to be shown only by parents
And then it is shown only by brothers and sisters.
Apart from family love others’ love are unreliable
It is believed by most of the people in the society.

Love of outsiders is doubted without consideration;
Also love is not considered to be reliable for long life!
Love of God is believed to be true even without proof
As God does not come in the human form to show it!

Civilisation promotes lustful love by advertisements
That attracts youngsters into the trap and are spoiled

Ramesh T A
A Kiss Of Love!

Love is evergreen though seasons change;
Love is blue if there is no change of season!
Rainbow comes only when sun and rain come;
Romance flourishes only when lovers meet!

Time may change and status too may change;
But love is the same between lovers forever....!
For business or foreign tour licence and visa are;
But for love no licence or visa are needed ever!

Love never sees outer beauty but only inner one;
Lovers never see outward show but inward one!
Loving hearts always go by feeling but not thought;
Love is blind in its approach as it's predetermined!

Red rose of lips mark impression as seal of thumb
Transcending words of love in all encounters fresh!
Whether it is flying kiss or point blank range one
There is nothing fair or foul as in war for love too!

Ramesh T A
A Knowledge Light For Bright Future!

Nothing can be known in darkness;
Darkness makes one ignorant in life.
Light only makes one see in darkness;
Light removes darkness to show a way.

Ignorance is removed by knowledge;
Knowledge is light power leads in life.
Festival of lights celebrates brightness
And Festival of lights starts light of life!

Light of knowledge gives confidence
And helps gain courage and wealth.
Wealth without knowledge can’t last
And can’t give courage and power!

Knowledge is must for bright future
As knowledge is bright power in life!

Ramesh T A
A Known Person!

Known person
Is far better than
New person!

Ramesh T A
A La Nina!

If the sea is coldest
Areas are flooded with rain
Effect is La Nina!

Ramesh T A
A Labyrinth Of Gloomy Forest!

World life reels under extreme climatic conditions,
Hot climate, heavy rains, floods, landslides and
Earthquakes making people stranded in difficult places!

Besides natural disasters, man made disturbances like
Terrorist violence and wars and political rivalries
Leading to precarious state of national affairs go on!

Peace of mind is out of order causing continuous night
Mares making the world a great hell for all to suffer
Endless in paranoid minds under constant state of fear!

Nothing seems to offer a sense of confidence and hope
To think of better days to come as the present critical
Crises make echoing crescendo of horrible dreams forever!

Paradise of Earth where all were enjoying heavenly love
And joy has turned into labyrinth of gloomy forest now!

Ramesh T A
A Lake View!

Out of town there is a lake nobody knows much;
But what a view the lake has with green fields around!
Small swans are floating in a dream like situation!

Around the lake the road goes where in all look like toys
From the top of the meadow at a distance far off!
The encroachment of town limit is slowly over shadowing!

Without knowing this splendour many mind busy matters;
No one knows the value of peace residing on the lake!
Once in a while I go that way I enjoy bliss incredible there!

Ramesh T A
A Lamb

Can a lamb
Ever become a lion
To rule jungle?

Ramesh T A
A Last Poem!

This is the last poem of my 76th Poetry Book!
Many books I have written with many poems;
Yet, each time when I am writing a new poem,
I feel I am writing for the first time a poem....!

Poetry is an adventure with no clear cut route
To follow, but it's amazing to go on a journey
I have never gone before as all things look to be
A newly, freshly and beautifully bloomed flower!

This poetic flower only those who have taste can
Enjoy and appreciate and for others it's nothing
Special unless if it is useful in a personal way as
They cannot understand its value for the present!

The more poems are freely written that is flowing
Like a smooth and serene river, it is difficult to
Know its presence unless there is turbulence or
Flood or whirlpool or high tide inundating all...!

As all poems go on a smooth path, I don't remember
All poems now, but I can feel the spirit within very
Well ever and from the reaction of others and also,
Appreciation I come to know their values now and then!

Ramesh T A
A Last Straw On The Shoulder Of Camel!

The night is calm with no sound heard;
Turbulent sky marks tonight sans stars!

Many weak storms with heavy and also
Heaviest rains have lashed since festival of
Lights time on rendering many stranded
With no water, milk and food for many!

Govt. machinery is helpless to coup with
The most unexpected problem of unseen
Natural disaster after an elapse of 100 years
Filling all lakes and ponds with rain water!

After that overflowing rain water running
As rivers on city roads rendering passage of
Vehicles impossible unless they happen to be
Tall buses or vehicles of that type on the roads!

Sunshine is seen only today with little rain;
But the announcement of another storm brewing
With the already defunct storm bringing some
More rains makes all shudder with horror experienced!

Trains and planes have resumed their journeys
Giving relief for the people who want to go out to
Their native places for sometime before returning
To the city to restart their official works as usual!

Ramesh T A
A Lasting Beauty!

What does make one beautiful in life?
Health or slimness or dress one wears?
'Will meagre food and a fashionable dress
Make one beautiful ever in the world?

Less food makes one anemia and weak!
With this kind of stature one is ever sick
And that makes one pale and haggard!
Beauty cannot last with this kind of lustre!

With proper diet and exercise one is healthy;
Health alone can make one forever beauty!
Also, not material wealth but health is wealth
And makes one wealthy by work in beauty!

Seeing silver screen stars and beauty queens
Many waste time in beauty rather than in health!

Ramesh T A
A Lasting Friend!

A lasting friend
Is indeed an asset for
Men and nations!

Ramesh T A
A Lasting Friendship!

Desire, interest and like mindedness unite all as friends;
Understanding and communication maintain friendship;
Secrets and promises are kept up among reliable friends;
Reconciliation and reciprocation unite again old friends.

Lip service, flattery, hypocrisy and immaturity are naughty
In the so called friendship that takes friends no where!
Jealousy, envy, hatred and anger never keep friendship.
Enemy of enemy is a friend, a strategy of war that lasts
As long as the mission proceeds and ends then and there.

A friend only shoulders and lifts up one when all led down;
A friend only gives happiness and entertainment to hopeless;
A friend only can know meaning of silence and stimulate;
A friend only understands and gives company to the last!

Giving and taking are then and there forgotten in friendship;
There are no differences of understanding among close friends;
Friendship lasts only among honest, worthy and true friends;
Friendship rejoices in accruing benefits and forgetting status!

A true friend never lets down one at anytime in the world;
He gives ideas, guidance and helps both in private and public.
But a fox like foe in the garb of lamb decimates whole herd
Misguiding, giving wrong advice and leg pulling with a smile!

For a nation friends can be changed but neighbours cannot be;
Friendship with all but submission to none is the motto of wise.
United friendship only can fight and win against formidable foes!
A lasting friend is indeed an asset for friendship of men, nations!

Ramesh T A
A Lasting Lustre!

All silent achievers are not boisterous
To create blemish to beauty of art ever!
The coterie few in a group praise even
The rubbish intellectual stuffs insipid!

The image of such boasters blows away
In the passage of time after inflation like
The colourful balloons seemingly shining!
But the solid one never makes much sound!

The lovers of truth and followers of wisdom
Surely praise in more numbers later on
As curing concrete becoming stronger ever
The best works of art as time passes on...!

Noble metals never lose lustre as dubious
Ones vanishing from sight later in life time!

Ramesh T A
A Late Worship!

What is the use
Of worshiping Sun after
Becoming blind?

Ramesh T A
A Leader Friend!

What's the use of friends
If they hurt your heart?

Friends are needed no doubt,
But if they are harmful what use!

We should be of help to someone;
That's the way to be friendly!

Expecting all helps without returns
How can friendship be prolonged?

Help or no help, a friend is friend!
That is the best policy of friendship!

A good heart helps naturally ever;
But the cunning one sees benefits!

Good, bad and ugly are there also;
But the leader only maintains friends!

Ramesh T A
A Leaping Squirrel!

The fast movement of leaping squirrel takes place in
A lightning speed, when I watch it by a fluke chance!

What a speed with which the squirrel flies rather than
Runs so to say so swift a manner that I feel it has
Replaced Micky Mouse of the famous Disney's cartoon
Movies we are all very fond to see with whole family
To laugh till we get pain at the rib cage of body sure!

Very soon at the distant spot, its sharp note calls for
The response of its companions moving around in search
Of food and other friends to meet and spend good time
For the day satisfying stomach and heart before day ends!

From nomadic life to settled life, they have become
Domesticated to lead life all settled dwellers of men
And all all over the place like crows and parrots ever!

Ramesh T A
A Left Over!

I feel happy because others are happy!
Personally I have nothing to feel happy.
Obligations have disturbed all my works;
My lifetime has been taken away by all.
For making achievements my helps are sought!
For my occupation no one has suited so far.
Teachers are just ladders in the world
For others to soar high to sublimity in life.
But where can one find leaders doing all
For others to finish all matters perfect?
Satisfaction and happiness I never have;
So, I make good of a bad bargain in all.
What is left over is just my soul in body;
Perhaps after its departure unknown I will be!

Ramesh T A
A Legacy Of A Poet!

As in a dream we are born and have to die
One day sooner or later doing all we can...!
Life is like a dream we live twice in the world;
One life we live for our Self and one for dream!

Dream, vision and imagination we have in life
To form and fulfil our ambition in this world!
Have we thought of what we do for the world
While spending a lot of time on our ambition?

Ambition is the driving force of life we fix first
To express well our personality, an art of life!
While doing so we should also think of legacy
We have to leave to world to enjoy real in life!

As kings built temples, great men do great things;
Fortunately we as poets publish our poems here!

Ramesh T A
A Legacy!

God has given power;
Nature has given character;
Mother has given love;
Father has given knowledge;
Teacher has given personality;
Leader has given inspiration;
Experience has given culture;
Culture has given wisdom;
Meditation has given enlightenment;
Mysticism has given bliss!
“What do you give? ”
I give my poetic legacy
The treasure I have discovered
For the world’s bright future!

Ramesh T A
A Legend!

Made many mad
Michael Jackson by his music
Now a legend!

Ramesh T A
A Legendary Love!

Thousand persons become relatives by marriage with beloved one; But, after her, will it be possible to entertain them all ever? Only the loving souls among them, who are rare, can have ties sure!

It's like the relations Krishna has with all due to Radharani; Without her, can Krishna entertain all in Brindawan as was earlier? Only the soulfully loving ones may have that chance ever in life!

 Totally sacrificing love for the sake of one and only beloved one Indeed seems to be rare to witness in human relationships, which No one can enjoy except the chosen one quite rare to imagine even!

 Not knowing this, the group formed of earlier relationship can't Indulge in privileges they have enjoyed already as that kind of fun Surely expires with the expiry of the beloved one has lived with!

 Natural love of two beautifully made for each other ones becomes A legend that cannot be repeated after the pair is impaired ever!

 Ramesh T A
A Lethe Rare!

All alone with nothing in mind I wander
Trying to think something new to muse!
Charms of Nature have been dealt with
Till passion like fire and water subsided!

Passionless and powerless I feel simple
Like the left over leaf flying with ease
Carried away by breeze smooth as river
To a dream land bizarre and exotic ever!

The night splendour of star filled sky
Twinkling calm in dark velvet space is
Like diamond jewels spinning as pulsars
Creating vision of distant light house effect!

How long have I been in a state of fantasy
Forgetting the world of woes no one knows!
A drunken state of Lethe rarely brewed
By the magical potion of Puck it is, you see!

Ramesh T A
A Life Ambition!

Each day of living is an adventure
When commitment has to be kept!
Adventure, creativity and dream
Help much to wade through crises!

Life is a journey, struggle and romance
And all in one for the imaginative ones!
Life of opportunities begins with creativity
Otherwise, it is a dull drift of paper in air!

Efforts with imagination surely are nice
Showing a lot of fun and feat on the way...!
Ideas develop as experience gives lessons
Precious to improve and pursue goals great!

As to dreams ideas develop to realise all
In the course of time for the ambitionists!

Ramesh T A
A Life And Death War Of Life!

Life and death situation in the war of life goes on;
Loans or money crises lead to suicides and deaths;
Defensive attacks as offence to defend one is must;
Mind works much ever on cautious moves to be made!

War and peace go on in the brain storm everyday of life;
Before victory or defeat is reached how hard trauma is!
Happiness or sorrow is decided by the success or failure;
The expert one takes both in the same way in the wars!

More than conquering the world conquering mind is vital;
For, victory or defeat is decided in the mind itself before!
After many wars only the value of peace is known in life;
Anger, hatred, greed lead to war but love leads to peace.

Life and death are sure for all in world life, like or not; so,
Habituate mind with both to meet anything at anytime!

Ramesh T A
A Life Divine!

Imagination and dreams help men escape from harsh reality;  
As romantic heroes and heroines people can enjoy fun life  
And live in the world of dream somewhere on the Moon!

How can real world be converted into the world of dream  
Man dreams as Utopia since time immemorial in the world?  
Vast gap between dream and reality makes it a verse on water!

Old age, disease and death cannot be overcome to nullify pain;  
Hunger and poverty, rich and poor differences are still there  
Though science and technology have developed by materialism!

Reason for all problems is man’s greed and desire of power  
Due to attachment to wealth and physical pleasures in the world  
That Buddha discovered and advocated non-attachment and love!

Before that itself Bhagavad-Gita preached to follow path of dharma  
To live natural order of life in accordance with laws of Nature and  
Which is the will of God needing to be resumed for world well being!

In the modern world not just physical liberty but spiritual one is needed  
Stabilising existence and knowledge to live a divine life in Nature ever  
To enjoy pleasure and divine bliss eternally as in Utopia man cherishes!

Ramesh T A
A Life Game!

All kinds of life people are living everywhere;
Hunger and want of money are still there.
Education has changed life for many now!

Luck shines and changes course of life for some;
House, car, marriage and all things they have.
They also live in distant places of the world now!

Life goes on, hard or easy, in the world long...;
People play games like chess, carrom and so on.
It seems God also plays game using luck and fate!

Eternally suffering lot by luck has changed for good;
Well developed ones seem to suffer due to fate......
Sans God's grace nothing seems to change soon...!

Is life too a game we all have to play in this world?
Perhaps the spirit of sport has to be developed
To face victory or defeat in the same way as it's fate!

Ramesh T A
A Life Journey!

Ignorance is darkness of cave under ocean!
Fear ever rules the mind of darkness sure!

Knowledge is power of Sun over life ever....!
Knowledge of all things is Stars of Universe!
Exploring this Universe is joy endless ever!

But journey sans destination is blind adventure
Leading one nowhere but to disillusionment only!

Fast accrual of all knowledge begins journey first;
Vision based on full knowledge gives whole picture;
Ambition then based on vision leads to achievement!

This life ambition only can make life enthusiastic,
Lead life journey with a purpose never deviating!

So, knowledge journey reveals all truths unknown
And also realize ultimate reality to be one with all!

Ramesh T A
A Life Literature!

Sentimentalists express feelings as to imagination;
Romantics say all as a story their life by imagination;
Classics say all for social benefit emotion with wisdom;
Modernists blabber with tirades everything to forget all!

Intellectuals critically analyze life to say philosophic truth;
Spiritualists seek the Universal being to forget all ills of life;
Mystics to forget emotional pangs seek the bosom of Nature;
But poets paint pictures of life touching to express experience!

All are the stories of life, love, emotion and feelings in literature;
Literature expresses experiences of life of all categories of men
To satisfy taste of each one to say the truth to serve as precaution
And becomes a criticism of life in the modern world of man now!

Whether trade, science and technology occupy man's life till the end
Or not, literature is historically reviving humanism to save man in life!

Ramesh T A
A Life Long Romantic Libido!

Has anyone overcome romantic libido?
All living beings indulge in libido for fun;
It’s a game of lust lasting till the end!
Attraction and repulsion are common
For all in air, water and on land of Nature.
Pleasure is the object of mind, heart and soul
To get joy, peace and satisfaction for fulfilment!
The attraction blossoming into love is mysterious
Between lovers at first sight itself in the world
And romantic affair continues non-stop till fulfilment!
This is natural for all living beings on the Earth;
The natural programme for perpetuation of species
From the smallest ions to biggest animals and men
Is the same however rational or controlled each one is!

Ramesh T A
A Life Of A Soldier!

A soldier sacrifices his life in the security of the nation ever;
Encounters enemy face to face at the cross border of nations!
Life or death, he does his duty with a brave heart to protect
People of a nation from destruction by enemy day and night!

Till one retires from service, there is no rest for a soldier ever;
He responds to call of duty obeying army orders at anytime!
Unmindful of any convenience, he works in company or in
Isolation at the top of mountains of the world or on deep sea!

Against hottest weather of desert as well as severest cold of hills
A soldier is ever steadfast and alert in his duty to prevent all
Kinds of infiltration at the cross-border areas of the nation sure;
Which is a severest test of human endurance he boldly bears!

Surely the life of a soldier is unknown contrary to politicians,
Sports persons, movie men and social activists whether in duty
Or in retirement after duty till the end concerned only with the
Security of the nation sans expecting any benefits unlike others!

Ramesh T A
A Life Of Battlefield!

If one problem is solved, another one comes up for solution;
If life goes like that what the end will be, one will surely think;
It is like killing soldier and if one dies, another readily comes up
Till there is no one to fight to at the end of war of life in the world!

If there is no pause in the on going fight in the battle field, a
Soldier gets tired needing replacement and if no replacement is
Available, one retreats to a buffer for a little respite to resume
One's battle again till one meets with the end, victory or failure!

This is the life of one, who is caught in the web of mess caused
By one's predecessor one has to face and tackle like the
Vietnam War that went on in a protracted way being a battle
between regular soldiers and guerilla fighters well known ever!

Same sort of thing is happening with some not with guerilla ones,
But with terrorist ones full of extremist view in all matters of world!
If life goes on so, how one can think about peace of mind is a big
Question, it seems to think, tackle and solve somehow or other...!

Ramesh T A
A Life Of Bliss!

Opportunity knocks at the door when one gets on the track
To do the job one likes out of love but not for money always.
But many jump into the jobs with money interest only in mind
That makes life monotonous unlike the one enjoying by love!

What is the main objective of world life except love and joy?
In what ways can one get satisfaction and peace in the world?
Happiness and peace are what one tries in all efforts here
Which one gets in the job one does and life one lives forever!

Thinking in pursuit of, doing job for and loving to live for truth
Man gets real happiness, satisfaction and peace in the world.
Mechanical living in pursuit of materialism makes monotonous
Life that has to be lived in harmony with Nature in love of all!

Love and knowledge perfects one to live life in joy and peace
Pursuing truth on the path of justice towards freedom and bliss!

Ramesh T A
A Life Of Confidence!

Without writing poetry daily, I feel days are wasted;
Something to write, something to eat and some dress
To wear, a day has to be engaged to have best mood!
Otherwise, the day is quite uninteresting and insipid!

Interest-less life is quite boring to live long, I feel ever;
There must be zeal to do something to make life ever
Worth living in this world full of opportunities for all!
Creative and inventive works make all busy forever!

Such kind of mind only can create great masterpieces
To make the world worth living to do greatest things
All can appreciate, love and follow in life to continue
The process of beautiful and best creations to go on ever!

Sans such creative activities, this world would not have
Attained the marvelous changes making it a place of
Heaven and paradise to enjoy life better than before!
This the destructive minds should see and change sure!

Only when there is peace, beauty, joy and freedom,
There can be satisfaction, an adventurous zeal to do
Better things for better living in this world of heaven
And a sense of confidence nothing can shake till the end!

Ramesh T A
A Life Of Extremism!

Life is not a bed of roses without thorns forever;
Rosy eyed ones jump on it only to be struck with thorns;
Then there is no use of crying over spoiled milk ever;
There are a lot things to be known to settle in life!

Not knowing this, some right wing reactionaries venture on
Life with extreme thinking and thoughts to be an extremists;
Not things going according to their desire they find faults
And failing so, turn to take revenge instead of mending mistakes!

Indulging in extremist act of violence, they become terrorists;
By terrorizing people, they try to materialize their goals in life;
Knowing this tactics, wise ones don't care for them everywhere;
Failing in all venture, they become mad and commit suicide finally!

People of one book only sans having general knowledge of world life,
Become a total failure and waste life by their own web they weave!

Ramesh T A
A Life Of Fun!

Easy go easy lucky people
Don't understand difficulties!
Easy come easy go money
Nobody can stop in the world!

Life is a bed of roses sure
For those who have done all
Best things in life for long
In the world full of opportunities!

No time is left for them to rest
Unless they take rest in service!
For such adventurous persons
Life is full of joy and fun forever!

Time is not enough for the busy;
World is not enough for the lousy!

Ramesh T A
A Life Of Good Hearts!

A beautiful and loving lady she was;  
At peak of glory she was then;  
Wealth and laurels came by her!

She was child like moving with others;  
She was as true as her love;  
She was shining as bright as Moon  
Attracting all to adore her as queen!

She extended her hand of love;  
But she was adored sans love.  
So, she worked without aim!

A comedy singer was in the picture;  
She and he enjoyed in their work;  
They moved as entwined friends!

Suddenly she got illness and bedridden;  
The comedian came to her rescue;  
He married her and looked after her!

Thereafter she was no more in the picture;  
Till the end she was ill and cheered by him;  
Then one day she died and was no more!

The comedian rose to power in his profession;  
But he remained never married after her;  
He lived in glory till the end and became immortal!

Ramesh T A
A Life Of Heaven And Paradise!

Birds' calls to their colleagues are as if calling us to wake up soon;  
Parrots' calls rushing in the airways are to their kinds for a distant move;  
Squirrels' calls are persistently goading their friends for a share of food;  
All these morning calls of rush make us to rush for our duties fresh soon!

It's a beautiful day with musical songs of birds and squirrels indeed thrill  
To note how joyfully they all go ahead with their daily activities with friends;  
We are not so doing with our friends as all are far away from each other;  
So, we meet our dear friends only once in a blue moon in our fast life!

In the name of civilization we have lost all our natural joy to share with pals;  
Even with one's own family members we are unable to say hello in person;  
Everything we convey with our handy gadget called smart phone forever;  
Distance is ever widening among close and intimate ones too in modern world!

A fast materialistic modern world civilization is nature-less and joyless hell;  
But the world of species of Nature everywhere forever is heaven and paradise!

Ramesh T A
A Life Of Joint-Family Partners!

Joint-family beneficiaries are sleeping partners of business;  
Day and night, they don't know the difference between them;  
Days go on as in romantic adventure stories good or bad ever!  
For all the expenses money is used from the common pool -  
Marriages, building constructions and election expenses included!

Working partners are the leaders but they can't take their share alone;  
After the demise of patriarchs joint family became nuclear families;  
Business of the State too came down miserably affecting them;  
Then demises in the working partner side affected their heirs too;  
The selfish acts of sleeping partners brought down the reputation!

Frugal spending and careful planning helped to manage great crisis  
For the working partners, but the sleeping partners exploited old name;  
The advantages they enjoyed made them lucky to go happily as usual;  
But the working members lived with honour and reputation as usual!

Ramesh T A
A Life Of Lovers!

She is for his gold
That will help her!
He is for her love
To live life till end!

She is for his love
And is for his life!
He is for her life
And both live ever!

Love life is real life
Nothing can replace!
Joy of love is real
And nothing is so!

Each is better-half
Made for each other!

Ramesh T A
A Life Of Mystery!

Human life is a great mystery yet to be unravelled!
As long as soul is there in the body man survives;
How the soul has come and where the soul goes
Nobody knows yet making it difficult to believe it!

Independent survival depends on the work one does;
Work makes one survive standing on one’s own legs.
Many rely on money but work only provides money;
The good work one does brings support from all ever.

As long as body is healthy and strong soul remains
Recharged by energy from food and good rest ever.
Stabilising body health and knowing the truth of all
Exploration of spirit in all beings of Nature clears doubts.

Spiritual exploration is a mystical experience of mind
That only brings peace, joy, love and glow to humans!

Ramesh T A
A Life Of Never Ending Excitements!

Exciting the town traffic is looking from above  
Of my house balcony at the day time situation!  
From morning till night traffic and parking of cars  
And bikes of all hues look like a garden of flowers  
With buzzing sound of bees hovering over them!  
Time goes fast noting many models of new cars  
Made by exciting range of new companies here!  
All country people of the world walk beautifully  
Hand in hand enjoying this historic tourist town!  
Reclining on the rail of ship like balcony deck  
Makes me exciting as if gong on a sea journey  
Full of waves of traffic of the ocean of world life!  
Indeed life is a journey to see all kinds of activities  
Till the end of journey with never ending excitements!

Ramesh T A
A Life Of Passionate Romantic Guys!

Partiality, favouritism and sentimental desire don’t see truth!
Passionately loving persons have all these aspects and more;
The decision they take based on heart’s desire is dramatic
And boisterously enjoy what they achieve of it with everyone!

If knowledge, maturity and wisdom are there with such a one,
There humour, gaiety and joy will be prevailing in their realm
Making everyone enjoy life to the full in a romantic manner
We all see in adventurous stories and novels or movies fantastic!

Such passionate loving guys never leave anyone go Scot-free
Unless they are satisfied with their whimsicality in any matter!
Caught in the net of these romantic persons one may see
Both good and bad deeds to be borne without any criticism!

Romantic attitude of passionate persons’ life is exceptional
And their domination in all walks of life makes or mars the world!

Ramesh T A
A Life Of Satisfaction!

Beauty, truth,
Love, joy and peace
Give satisfaction in life!

Ramesh T A
A Life Of Struggle!

Somehow born in the world many struggle to live life!
Though having home, family and friends life is vague
Many feel after sometime in the life of the world vast.
Education, money, honour are there yet life is a puzzle!

What is missing and why life is a great mystery feel all!
System of modern life, way of work and social forum
Are all superficially satisfying but not actually satisfying
And that is why the feeling of profound hollow pangs much!

Apparent fulfilment of human needs is not enough seems
Making one and all think about the essence of life deeply
In the light of religion, philosophy and Nature driven to
The realm of literature for answers to questions eternal!

Literature is the book of human experience proposing ways
For man to think about and follow a culture satisfying fully!

Ramesh T A
A Life Of World!

Flowing river stands still;
Falling water stands still;
Still snow falls nonstop!

Flowing words stand still;
Running lines stand still;
Still poetry appears on!

Passing clouds stand still;
Sky as usual stands still;
Still breeze flows on...!

Farm works stand still;
Fishing works stand still;
Still all vehicles move on!

Due to cyclone life stands still;
Still world day or night roles on!

Ramesh T A
A Life Process Of Nature!

Winter cold brings all cuddled unlike Summer separation....!
No one dreams even to be inextricable in Summer time ever;
But coldest winter sans any reservation calls for inextricable!

There is a time for attachment and there is a time for detachment;
Hot Summer and cold Winter are seasons for all to understand values
Each season has for mankind to know and benefit accordingly ever!

If salt is taken, immediately water is needed to subside its effect sure;
After Storm, surely calm will come in the passage of Nature ever...;
Day and night also are there to give pain and pleasure to balance all!

Sans pain, there is no gain in world life as there is no pleasure sans pain;
Life is bitter-sweet as love is painful pleasure no one can deny or refuse
To live a balanced life to fulfil each one's destiny in the world life sure!

Work and play to negotiate hardships in order to enjoy love in life, all
Have to undergo all stages of life process Nature has designed for all...!

Ramesh T A
Rain lashed out on the Diwali day
Making all indulge in indoor play!
With TV programmes and sweets
All satisfied sans going to streets!

Today clouds have disappeared;
Regular day works all occupied!
Constraint of circumstance's testing
The mettle too of all while enjoying!

Lord's Song says consider same way
Both joy and sorrow in life to be gay!
Best policy for life to overcome all ills
Indeed nobody heeds to in all days!

Rain or Sunshine all days have to go well
That's the thing sacred book says no hell!

Ramesh T A
A Life Sans Money!

Is it possible
To drink, eat and live
Sans money?

Ramesh T A
A Life Story!

For shaking and settling life....
Birth is the introduction of life;
Speech is the language of life;
Ill feeling keeps one in grief;
Laughter is the cure for disease;
Forgetfulness is the sleep of life;
Death is the conclusion of life!

Ramesh T A
Fluttering heart comes to rest as dove settles top!
A bird’s eye view of all things makes a summery;
All things full of fun and trauma keep reeling on
Till settlement in peace comes to give relief sure!

Likewise all life long trials and errors show way;
Natural satisfaction at last comes sure one day
For all the painstaking efforts have yielded fruit!
What a venture each one takes to achieve laurel!

Perfection of proper way to do things best is fine
But not achieving only the success somehow ever!

Life achievement is not an easy joke being conferred
By an award all envy at the ceremony in applauds
Renting the full auditorium cheering people in joy
With speeches of noble ones influencing all to do so!

Inspiring attributes of talented ones create goose-bum
Never allowing the impression formed so leave mind;
A zeal of venture kindles all hearts to aspire to do so
And dream of experiencing feeling of the day then too!

Days lived cannot give any satisfaction but that day,
When one is awarded with lifetime achievement prize!

Ramesh T A
A Life To Enjoy Ever!

Winter cold still not losing its vigour
Time has dragged it to its fag end
And so, Winter as last resort makes
All cuddle with dear ones in the bed!

Getting up has already slowed down
So much that it is not an easy joke
To wake up earlier to mind usual works
As last round of sleep can't be neglected!

If such a privilege is ignored, all day is
A hell to manage with drowsiness ever
Pulling down one's interest even to do
The things one is best at anytime of day!

Life is not a time-table work to follow ever,
But a pleasure to enjoy all things possible!

Ramesh T A
Could it be possible to live without money?
Why can't man live without money in the world?
Long back I saw an African movie about this;
It is called “Gods Must Be Crazy!”
One can get the idea to live without money!
Even today people are living life in farm houses
Far away from the civilised world of materialism
Without needing money for any purpose there!
In the forest and farm houses far away from towns
Life of the people needs no money at all it seems!
We can live without money but not without hunger!
Nature has given hunger and also all things to survive;
It is man’s own creation to live as slaves of comforts
In the world where nothing is permanent in time bound life!

Ramesh T A
A Life-Time Work Achievement!

Achievements in the world are made by realizing dreams with
Best and suitable ideas with proper planning and pursuits nice;
Continued efforts in a sustained manner achievements are done;
Daring work it is to do such a feat in competition with time!

Each matter has to be visualized to execute plan with success;
Fast or slow, once a work is taken, it's to be given full justice;
Great care from beginning on is needed to make achievement possible;
High state of mind takes one to do best things to finish work best!

Inventive and creative works of science and art fulfil hearts;
Joyful performance of desired work surely ends in achievement;
Killing unwanted digressions will pave the way for relevant steps;
Likewise, bit by bit, best measures surely take one to top status!

Matters of vital interests shouldn't be ignored sans utilization;
Nothing is left unexplored for better ideas to utilize them ever;
Open discussions give new ideas to implement them to fulfil dreams
Performing all things with great zeal to make achievement a reality!

Quickly when an idea strikes the mind, it should be harnessed well;
Resources should not be wasted even that are easily available ever;
Sublime sense of joy one gets, when things are done in precision.;
That's the mark of a great work when done with good mood till the end!

Ultimate performance to the best to bring a best conclusion is a wonder;
Volumes of interpretations are possible, if it's a multi-pronged work;
Works of rare kind in all fields finally turn to be great achievements!

X or Y or Z may be a cumbersome thing to deal with, yet it brings depth;
Yearnings of an expert are to make a work of art a thing of beauty ever;
Zeroing all concentrated efforts on a job make a work a great achievement!

Ramesh T A
A Lift From Paradise To Heaven!

Spring begins with the sprouting of leaves from snow ending winter smooth! Two leaves give new hope and joy to dream of trees with flowers and fruits! It's like romantic dreams kindling desire of love enjoying in paradise after a desert! What a pleasure and pleasant time to enjoy have come at last long white winter!

Romance blooms like flowers everywhere with new life of hope and desire fine To the extent of celebrating the success of love story with the St. Valentine's day Especially in February month in the beginning of new year after January And so, spring and lovers day are all coincidence naturally very well ever sure!

Nature does great magic by clothing the naked white snow winter with leaves Growing to plants and trees with full of green leaves and flowers and fruits for All to enjoy and live in love with one and all in this flower world full of many turns To climb to the top of mountain to dream about fantasy land in the midst of mists!

For the one who has experienced what is pain and pleasure in deserts and forests, Mists lift the soul to the Milky way, the stair-case from paradise to heaven at last!

Ramesh T A
A Light Of Hope To Glory!

Thin mist and clouds cover the night sky
Making Stars confined behind mist curtain!
Three days after full moon day Moon rises
As an yellow cheese on the dark plate of sky!
Sans noise the sea looks calm and unstirred
As waves seemed to be tired to move to and fro!

Shops of town illuminated by colourful lights
Shine as jewels sparkling in the main street...!
People attracted like flies to the shops move
Doing purchases with coming festivals in mind!
Yes, festival of lights is approaching faster now
To celebrate victory of justice against injustice!

Light of knowledge only can show way to glory
From the darkness of mind creating hope ever!

Ramesh T A
A Lighting And Thunder Game!

A lot of thunders displayed varieties of sound all night long
Before dawn put an end to all cracking and firing sounds
Causing great concern of a war like situation going on long!

Danger of falling fire balls out of lightning flashes kindled fear
Engaging all in close watch of all bonfires accompanying rains;
Ferocious dogs of war looked to be taking place in the dark night!

Gigantic boulders seemed to be rolled from one end to the other from
High above the whole sky as the two warring clouds of rain clashed with
Iron wires seemed to be thrown out of molten lava of lightnings long!

Joyful meet of two lover clouds perhaps embracing with boisterous noise
Keeping their traditional way of showing joy of meeting after a longtime,
Loving so they might be performing to pacify their longing of separation!

Many a cracking of electric crackers and rolling of mountain like bombs
Noisily those clouds of two opposing clouds of rain might be engaged with
Openly celebrating in advance the coming of festival of lights soon in India!

Perplexing jingoism of this boisterous nature only after Summer rains only can
Quite often perform after a long interval of dry season in the inland areas sure
Restoring Nature's normalcy somehow to balance the loss and compensate rains!

Satiating themselves so, clouds of rain as lovers of long disappearance enjoyed much
That were not possible due to arid zone of tropical situation prolonging Monsoon to
Unveil the joy of coming Winter before the festivals begin to end the year in fun sure!

Varieties of joyous display of lightning and thunder game went on amazing all in awe
Without any interval of time to breathe a while to regain breath to bear all knocking feat
X men kind of people enjoy among themselves in showing their talents and might ever!
Yawning time has become a fun time to enjoy final game of a match in the world arena
Zeus only can preside over before a mass audience high above the sky of the world so...!

Ramesh T A
A Limit For Survival!

Living within
The resource available
Is survival ever!

Ramesh T A
A Limit Is Good!

All the rains are drained to the sea!
If rain falls in fields crops grow well
But rain comes to town to no use!

Cool climate gives a sense of relief;
Everything looks to be pleasant
And the day goes on nicely today!

Too much heat or too much cold
Affect health of all to see physician;
But it has not come to that stage!

Extreme climates are not good at all;
They affect my skin more than others
Changing body chemistry very much!

Limit for everything holds good here too;
Even holy script says be neutral ever!

Ramesh T A
A Lion

Can a lion
Ever graze grass land
And become lamb?

Ramesh T A
A Living Life!

Morning dawns with hope everyday;
Evening comes before the day ends;
So fast days go when we are busy!

But morning blooms with gloom
And evening never comes soon ever
When we are upset with unwanted one!

Human life alternates between two,
Joy and sorrow all the days in the world
Needing the neutral path to be safe!

Religion, philosophy, literature, music
Or all in one poetry gives solace we need
To overcome obstacles and attain fruition!

With renewal of mind life goes on well
For the heart to be joyful and free ever!

Ramesh T A
A Living!

How long we lived
Does not matter but how we
Lived counts much!

Ramesh T A
A Logic Of Life To Fulfilment!

True knowledge only helps one to have strong conviction.;
Conviction only gives great confidence in life sans confusion;
Confusion of mind arises due to lack of thoroughness in all.

All situations in life can be faced only by boldness and confidence;
Confidence in life one can get by vision based on true knowledge;
Knowledge of Self, world, Nature and Universe helps to have vision.

Vision of life, world and God are necessary to have broad ambition;
Ambition drives life with interest to achieve dreams we cherish most;
Most of the time we spend has to be made productive by intelligence.

Intelligence is needed to select relevant books in a library of life ever;
Ever imagination is more important than intelligence or intellect;
Intellect is always necessary to have true knowledge of things in life.

Life is existence, knowledge, bliss and absolute before attaining divinity;
Divinity is finally attained by intuition, meditation and mysticism sure!

Ramesh T A
A Long Jump In Life!

Realization doesn't come to some, even after losing
A lot of money in loans and think big to spend much;
Sans rationalizing needs, incur a lot of expenses ever!

Mind cannot be diverted on any other better things, if
Life goes on so without any redemption to see light on
The other side of the dark tunnel of gloomy thoughts!

What is the use of crying over after losing eyesight,
If it is not possible to worship Sun at dawn of day?
Anticipation of moments of such kind is wise one's way!

Wise one never cries, when the time is bad in life as one
Knows pretty well such things too happen in life and has
a sense of saving in some way separately to face emergency!

Not knowing the ground before, if one makes long jump in
Life, one will fall upside down in dark abyss sans relief!

Ramesh T A
A Long Life In Glory!

Spell bound by beauty everyone gets cheerful mood;
Mood is what needed to do anything beautiful well;
Well versed in creative work, one indulges in art;
Art has bewitching beauty that lasts longer than all!

All things frozen in art live forever so in truth;
Truth is permanent, but all things are perishable;
Perishable life man's existence is like all vegetables;
Vegetables have regeneration but man's is different kind!

Kind of man's life is a wonder in the world forever;
forever species of life cannot be guaranteed on Earth;
Earth is the only abode full of beauty, life and love;
Love is the sustaining force that makes all live long!

Long life is not in one's hand, but health is with all;
All if maintain health, life can be lived long in glory!

Ramesh T A
A Long Living Love All Love!

Love is a greatest wonder of all wonders of the world!
Love is ageless though Earth and Moon are of old age!
Love is the greatest power of all the powers of the world!
Love is stable ever unlike beauty which is unreliable ever!
Love is of pure nature, never changes even wealth comes!
Love only gives peace and without which where is peace?
So, a long living love only all love to live long in world life!

Ramesh T A
A Long Love Wait!

Longing for deep pleasure she waits long!  
But caught in endless mission he travails  
Unable to reciprocate her wish forever!

Love birds endlessly sing song of love  
Enticing her to hope for the best time  
To blend with him long to forget all ever!

Days look to be years to pass in the den  
Always dark for her to suppress all feelings  
Hidden deep ever in her heart of deep sea!

Fighting protracted war he forgets time  
Beyond seas in an island of no respite ever  
Whether it is 10 years or many years more!

Only Stars and Moon in the night unite....  
Lovers of strong will as they watch with sigh!

Ramesh T A
A Long Pause!

I feel I am Rip Van Winkle
After two days of engagements
With matters different altogether!

It's different from poetry
A free man's job to write
What one feels or thinks!

As usual poems are many
To read and muse over
To write something I feel!

If days go on sans poetry
What shall I do? Know not!
A fish out of pond effect!

I am breathing free air in poetry
After a long pause somewhere!

Ramesh T A
A Long Survival In The Winter Cold!

All snow flakes falling from the sky on trees, roofs, cars and roads, Winter is at its
Best freezing all by its cold effect all over the Northern hemisphere from mountains on
Causing all standstill as snow statues down to plains and seas too with cold spell ever!

Dancing and engaging in brisk activities, cold effect is alleviated to some extent or
Entirely covered with thick rug all over the body to enjoy warmth all the night with
Full of comfort or otherwise shivering in bitter cold winter settling only by fireside!

Good old fairy tales all share remembering all those fictions starting form childhood on;
How those days and now all are compared to see the differences caused by developments;
Ice cold situation is far more difficult to manage than with summer heat every year sure!

Jogging instead of walking all engage in the morning to warm up body better for the day;
Kick starting of bikes and engines won’t help much unless they are warmed by heat inside;
Lovely skating on slops of mountains as in Switzerland, Alps and Kashmir is better sure!

Many such world of fantasy with imagination soaring high in mind, all dream much too now;
None of the things if doesn’t help, it is better to resort to eating hot foods better....;
Open spaces of house all cover with camp canvass to bring down cold effect if need be..!

Playing tennis game or doing gym exercises or roller skating on the road are very nice;
Quite a lot to do even in this cold winter season as indulging in trekking on hills long
Really makes all enthusiastic and energetic to kill cold effect better as sportsmen try!

Snow falls but never stop till cold season comes to an end with bright blue sky dawning;
Top tastes of tea, coffee in the morning and fine soup in lunch and dinner refresh much;
Universe itself seems to be covered with white snow sans any Star twinkling in the nights!

Vying with one another, all boys ride on bicycles as in a race to reach homes earlier;
World half with snow and half with green vegetation with blue ocean and seas is a marble;
X, Y, Z coordinate axes making a square of sky, world and all seem to be in a frozen box!

Years of long life all have undergone so and go on undergoing so, life goes on Earth ever;
Zeal by brisk movements of body only, one can survive better long in the whole of winter!

Ramesh T A
A Long Wait For The Honour!

Days are rolling on nonstop in the world
We all live to achieve something wonderful
Trying our level best in the art we love much
Believing one day our talents will be rewarded
With the best prizes no one has seen ever before
And the efforts we put on over our works are
Sure one day will be appreciated by all in an
Appropriate forum fostered by the websites
Especially created for this purpose by the one
Or ones interested in honouring the best talents
In the world full of many artists dedicating
Their whole lives for the exposition of their best
Expressions all will recognize and spread the
Message to all corners of the world for enjoyment!

Ramesh T A
A Long Wait For The Storm!

Parched earth in quest of water waits for the
On coming cyclonic storm whether it brings
Heaviest rain or less rain, it is immaterial as
The monsoon failed to bring needed rains..!

Shortage of river water sharing between States
Both have gone to courts to settle the matter
Sans any relief for the farmers to go on their
Pursuit of producing food crops to feed all ever!

Long droughts and failure of monsoons have
Driven all to pray for Rain God to sanction some
Rain, even if it be in the form of cyclonic storm, to
Settle all matters of shortages spoiling soils sure!

Waiting with eyes wide open towards the sky and
In the direction of storm all hope for the better soon!

Ramesh T A
A Long Wait!

Longing long
She waited for him ever
Day and night on the terrace
Moon and Stars have come too
But he never turned up to see her
Yet, she waited for him till dawn
Only Sun and birds came up
Bothering not she waited
Longing long!

Ramesh T A
A Long Wedded Life!

For a long wedded life, sustained cooperation of co-partners
Only can give guarantee without break of alliance till end!
It lies in involvement of co-partners of life in family life
Which is possible by family life interest and good parents!

In family life, both partners are equal and no domination of
One over the other is good for long wedded life in the world;
Mutual respect and respect in thoughts, words and behaviour
With elders increases love of others towards them to joy ever!

Frankness and transparency clear all doubts among all members
In the family life and then and there all small matters need
To be sorted out so as to avoid unnecessary suspicions and
Lack of reliability can be rectified for peaceful life sure!

Sense of shame, respect and conscience in each one should be
Alive at all circumstances to keep wedded life proceed well;
Lack of reasonable and good sensibility leads to break of peace
In family contract between co-partners of life and whole family!

Ramesh T A
A Longest Day!

Longest day of the year today is
Being the summer solstice day!
Building is hot due to long day
Though evening has cool breeze!
Sweating only keeps the body cool
Purging clean of impurities of body!
Night has become calm everywhere
With the sound of fans only hearing!
Also TV gives company for youngsters
Having settled after hard day's work!
Likewise long summer days have to go
For three or four months in the year!
Summer is longest here unlike in the west,
But it's better than longest winter there!

Ramesh T A
A Longing For Rain In Tropics!

Rains have become rare even in monsoon times!
Especially our town though a coastal one it's true.
Unless some depression is formed over the sea
Whatever be the season no rain can be expected here!

In the summer time there may be some rain of 3 days;
In the winter time there will be at the most 7-8 days!
That only if some depression is formed before cyclone;
Otherwise 'where is the rain?' one may have to ask!

Rains in the towns are of no use which only drains to sea;
Rains in the villages and farms will be of much benefit.
Hope rain of this year may benefit the fields to greenery;
All depends upon the mercy of North East monsoon only!

Climatic change has carried away the little rain that was falling
Making men long for rain in every monsoon time in tropics!

Ramesh T A
A Longing Oyster!

Oyster opens up
For the rain dropp to fall in
To make pearl!

Ramesh T A
A Longtime Affair!

Mutual attraction of beauty brings together
Two unknown persons on some busy activity
Just for a while leaving a deep impression....!

If that happens to be in a city bus, surely they
Two have great opportunity to see and know
At closer range about each other sans fail.....!

It's a rare chance they happen to be sitting or
Standing closer very often on the city bus sure
Leading to familiarization of each other well!

Thereafter they start moving with smile as they
Happen to be travelling in the same bus to their
Destinations for their works everyday sure......!

Everyday just when they are in the same bus, they
see and smile each other and forget engrossed in
Their works and the days pass so unnoticed......!

On a holiday when he is on a purchase spree, he
Sees her standing near a restaurant waiting for
Someone and they exchange smile with each other!

That gives a golden opportunity to talk for the first
Time in life blooming into love between them to
Have a longtime affair in romance leading to union!

Ramesh T A
A Losing Interest!

World recession
Make many lose interest
In life now!

Ramesh T A
A Love Act!

Flowers bloom;
Birds sing;
Clouds rain;
Rivers run
And join ocean;
Seas roll to shore;
All happen in cycle
By love of gravity!

Ramesh T A
A Love At Fag End Of Life!

What can we say about the people longing for love?
Not that one should not long for love but it's free!
Yet after losing all time in life if one longs so means..
It makes one wonder why he has become so in life!

I have seen such persons always eager to talk to
Not their own sex people but opposite sex people!
What sort of a life they could be living left to you
To think and understand to have an idea of them!

Many a time I have noticed their response in general;
They don't participate in general discussion of things,
But they will be first to say of love to the opposite sex
As if they are wooing for love with great expectation!

After losing a lot of opportunities in life for love they
Miserably long for love at the fag end of life sans respite!

Ramesh T A
A Love Atmosphere!

All souls ready for the festival nearing
Beauty of Nature comes to life again!
Careful arrangement of flowers looks
Delightful to dream about love joyful!

Everyone's heart leaps high in nostalgia
Fully energized by painful pleasure high!
Gorgeous cosmetic makeup flourishes
High or low in all societies ready for meet!

Icons of romance indulge in brisk feats
Jogging ever making themselves trim fit!
Key to blissful state of love starts kindness
Laying sway over all acts of social nature!

Moved by heart touching words of love
Nobody seems to mind romantic poetry!
Open display of skill in executing plans
Perfectly suit the occasion wonderfully well!

Queens of love caught by the dizzy rapture
Roll on green lawns dreaming ecstasy ever!
Surprising scenes of affinity enthrall lovers to
Taste kisses of amour never dreamt before!

Universal love filling human atmosphere full
Versatile style of courtesy takes all to heaven!

World of woe, a dense fog soon melts into thin air,
X or Y though can't believe it, by the spell of love
Yearnings of many a day transform into reality
Zeroing all deficits into surpluses as never before!

Ramesh T A
A Love Blue!

With the rainbow of Cupid boy
Muse shoots arrows of love at her!
With the fleecy clouds of sky
He makes a bed of roses to sleep!

Arrows of love poems hit heart
Making her muse over her lover!
She composes thousand songs
To sway her lover to fall in love!

Finishing ordeals of war in alien land
Hero plans to leave for his flower land!
Colourful flowers he imagines to gift
As a beautiful garland to his lady forlorn!

When they meet together is a great blue;
For, the journey will take life time to reach!

Ramesh T A
A Love Cell!

Colourful birds
Called love birds are
Always in cage!

Ramesh T A
A Love Demand!

Crows and dogs move close to men more than
Cats and parrots or sparrows and squirrels here
Among domesticated animals like cows and cocks!

Authoritative voice of crows for food is too much
And dogs’ overindulgence taking advantage of us
Everyday makes us wonder at their confidence of us!

Taking for granted human love they do all mischief
Making us laugh and wonder at their funny behaviour
Wherever we see in this small town of world culture!

Love triangle of three dogs caught my attention much
And wondered at their gentle courtship unlike animals
As male dogs are many and female dogs are very few!

Love demands of animals reflect animal passion much
Similar to man’s too much villainous lustful acts sometime!

Ramesh T A
A Love Denied Due To Fate!

Love Denied Due To Fate!

Real love is beautiful, of all emotions, in world life!
I am a chivalrous warrior fighting for justice in wars;
Losing my loving souls, I have forgotten what love is;
Yet, there are some always loving me sans an end!

They have taken as a challenge to make me fall in
Their love trap and make me act according to their
Will and pleasure not knowing why I am so ever....!
I can't relinquish their love, if only they can live long!

Among them only one boldly has asked me don't I have
Any feeling at all to show to one who really loves me;
That question has started me to think about my forgotten
Feeling in the wars I have been fighting continuously....!

Being a poet, for the first time I have expressed my feeling
And for which she has felt much and kissed me as a child!
I also have returned her gesture with all my heart for the first
Time in my life and our love has been continuing in poems!

Hoping this loving soul will longer cool my heart in love, I
Pull on my days despite mortal wounds I have sustained in
The wars so long hinting at my delicate state of life to her
And for that, she has asked me to take care of my heart!

Knowing that I cannot live longer, she has simply forgotten
To have any conversation with me engaging with her works
Ever and leaving me to scold myself for having opened again
The door of my heart for love only to be denied due to fate!

Ramesh T A
A Love For Relief!

Love of interest units hearts intimate;
Love of art, music and poetry does so!
Such a love transcends all barriers ever
And nothing is unfair, foul or wrong....!

Love transforms adverse time into fun
Despite tense moment in life of the world!
Loveless life is surely a hell to live here
Despite all pleasures and comforts are there!

Love of hearts in Nature to mystic level is
Of all things a supreme state of joy forever!
Divinity is felt in a state of trance in Nature
That makes all forget all ills to bliss ever...!

Fate of life drags one against all interests
To a state of hell eternal beyond redemption!
Yet, love of deep kind gives solace and time
To breathe a sigh of relief to go ahead well....!

Ramesh T A
A Love Force!

Force of fear
Can be countered only
By Love force!

Ramesh T A
A Love Help!

Can man live without money in the world?
Who will give food, shelter and clothing?
How can he pull on the days in the world?
Where can he go for all those things to live?
How can he survive losing everything in life?
Only love can help all to get all and live well!

Ramesh T A
A Love Honey!

For building beehive
Honey bees do very hard work
For, honey is sweet as love!

Ramesh T A
A Love Life!

Love leaping lollypop level
Life lulls like lowering leaves
Landing low lying landless;
Lest love life loses lustre!

Long life lies large like
Lark leaving level leaping
Like love landing in Lethe-inn
Losing least limping-like!

Life like love leaves loss
Loose lustre landing lean
Like long-flying lark...
Low, long, linear level!

Luck lulls love life long
Looking like lunar lamp!

Ramesh T A
A Love Lust!

Lust born of love is full of passion!
Passionate love rules life longer;
Ageless passion never diminishes
Even when death approaches fast!

Caught by the web of lust we live
Loving souls dear and intimate ever!
Heat, drought, rain, snow and storm
Can't change the decree of lust long!

Born of lust all can't escape its clutches
Albeit drunkards promise to stop drinking!
Kick of lust as the drunkards enjoy drinks
Always comes handy to satisfy one's thirst!

Even priests and sages stealthily enjoy it
Though they act to be strict by preaching!
Overcoming lust is a great feat higher than
Climbing Mount Everest to hoist flag ever!

Lovers' paradise makes time nil by lust long
Willingly caught by its spell to fly in fantasy!
Will there be life renewed sans this dream
Ever indulging in love fantasy full of lust long?

Ramesh T A
A Love Of A Beauty!

Most beautiful lady she was; 
He was nothing before her. 
She loved him as if he is rose 
But he cannot do so ever!

Yet wonderfully days went on; 
Life was bed of roses for them. 
No storm or drought can win 
The strong resolution of home!

Always days cheered them best; 
They enjoyed their working life. 
Nothing can stop their fun at night 
As the world beauty is now his wife!

In life beauty cannot last longer ever 
But love never changes even after end!

Ramesh T A
A Love Of Peace!

Wars have
Made many abhor it
And love peace!

Ramesh T A
A Love Only..!

All rejected true heart
But pure soul accepted whole heart
That none but love only does so!

Ramesh T A
A Love Or War?

What will you choose between love and war in the world
To achieve all goals of ambition in the world life or work?
If you choose war you should surely be prepared to die;
If you choose love you should really be prepared to sacrifice.
But both in world wars and love there is nothing fair or foul!

Historical horrors of world wars all should realize by feeling!
That will work as checkmate to stop meaningless world wars.
Divine love of world literature all should ever cherish in heart!
That will develop humanness elevating towards divine nature.
But war for the cause of love will make war meaningful here!

Boldness, bravery and courage are needed both for war and love.
Boldness is there as long as the strength is there as bank deposit!
Bravery is as a soldier taking risk to cross enemy border a little bit!
Courage is born of moral and spiritual reason ready for any event!
According to the nature of mission one should take decision to win!

Extremism, violence and terrorism are proxy wars by war lords;
Failing in main wars they go for proxy wars to settle scores!
Direct and indirect wars are due to hatred, suspicion and fear.
Such wars are like lesbianism, homosexualism and an aberration
And worse than seduction, sexism and pornography of any kind!

Failing in all walks of life justice has declined in war and love too!
Sex and terrorism spoil and destroy world society to shambles now;
Sexism seems to be better than extremism, violence and terrorism;
But sex crimes, corruption, smuggling are extension of terrorism.
So, lack of love from the childhood leads many to extremist paths!

Fanaticism and modernism lacking morality or culture cause crimes;
Lack of modern education and jobs lead many to war paths here;
Also, bad politics and corruption everywhere breed naxalism now;
Enemy nations make use of such love lost, hard core elements in all
Against better nations to create world turmoil, a cause of eternal wars!

Ramesh T A
A Love Power!

Love is powerful

For, it's frank, open and true

Forever in life!

Ramesh T A
A Love Seduction!

Speaking about love one
Describes beauty of human anatomy
To induce sex!
Is this called love in the human world?
No, sacrificing life for another is love!

Ramesh T A
A Love Song For Eternal Life!

Lovers sing many songs forever;  
So many good songs are there!  
Which one shall I choose of them  
After seeing her now tonight?

Meadows are beautiful everywhere!  
Mountains are around them above;  
Beautiful lake is nearby to the place  
And a cottage is situated close by!

Lavender garden of Paris Venus resides;  
Joyful songs how can any lover miss?  
They dance and sing amorous songs long  
Till they find meaning for their love!

Song and dance on beautiful situation are  
Like music as food for love for eternal life!

Ramesh T A
A Love Spell!

Cupid's arrows never fail to hit hearts!
Chance less couples love each other
Summer or Autumn or winter or rain!

Busy with serious matters always he runs
Nonstop chasing time to fulfil targets!
Arrow of Cupid hits him to be romantic
On his way home after a busy schedule!

Smiling damsel dashes against him crossing
The busy traffic just before fine sunset!
Both exchange excuse for the sudden impact
Leading to many meetings by accident there!

Soon they sit on the green lane of park silent
No one except them in the evening one day!

Nice location for a long game of love starts
Suddenly some dogs fighting make them hug
Tight till the sound of dog fights end just as
Children embrace each other on thunderous
flash lightning rain of long due happening...!

Not interested in separation they are glued
With sweet kisses many nonstop as flowers
Fall from trees full of fragrant golden flowers!
Stars too appear in the night sky as time goes on..
With the Moon coming and smiling at them long!

The love pain of Cupid's arrows vanish soon and
Leave the lovers roam in search of each other..!
Romeo and Juliet story too continues nonstop
In the labyrinthine forest of life in dreams of all...

Ramesh T A
A Love Story Endless Continues!

A simple 'I Love You! ' is such a difficult thing to do!
Many say about love in an easy go easy lucky way!
But it is really not so for many in the world today!
That is why many long for love and die for love ever!
Stories of love are endlessly churned out from heart
And they are full of novels, movies and TV serials too!
The highest form of human emotion cannot be rejected
Though it is difficult to achieve in real life despite endless!
Love is love and nothing can replace it life long in the world
And so, struggle for love go on endless in the world!
There is also for some though love is near can't catch it!
This is due to constraint of time and pursuit of it ever
And they long for love in their heart in loneliness ever!
This is the nature of human life in the world we live long!

Ramesh T A
A Love Through Friendship!

Love through friendship is best to reach heart
Whether it be to a girl or guy or God even sure!
Love is great, power and above all God ever!
That is why there is nothing fair or foul in love
As there is nothing fair or foul in war of men!

If God is friend what is there to fear in the world?
There is nothing hard or hurdle to surmount!
All is done for friend in the spirit of love real
That makes nothing to be serious but easy ever!

Wonders of world open as beauty of Nature free
To explore and discover new and beneficial ones
Accruing joy and fun as in friendship of companions
Never leaving one in despair or deserted or desolate
But ever on path of achievement, joy and fulfilment!

Ramesh T A
A Love To Cherish!

Thinking about the likes and dislikes of others
And making things happier is a mark of love!
Just making kind words or saying I love you
Are not enough to say about love in human life.

Love does not develop with a hug or a kiss;
They are all just gestures showing of courtesy.
Giving your self for the well being of another
Is love that remains longer to serve good for all.

Love, humour and making everything enjoyable
As in romantic atmosphere everybody loves!
But creating such a situation is the will of love
That makes it happen if heart feels has to be done!

Whole hearted will to make matter possible is love
Without any formality and partiality in execution!

Ramesh T A
A Love Trap!

Never love
Stranger though a neighbour
It's love trap!

Ramesh T A
A Love Union!

Love union takes place

When two hearts coincide often

Naturally by God's grace!

Ramesh T A
A Love Wine!

Human love
Is like old wine in
A new bottle!

Ramesh T A
A Loveless Life!

Loveless life

Can never be a happy one

Except for sages!

Ramesh T A
A Lovely September Day!

How beautifully the tree has grown like a mountain
With many branches spreading far and wide everywhere
Full of green leaves with glossy lustre in the bright day!

A lone, white cotton cloud slowly moves above like a boat
In the Sea of the blue Sky giving a visual effect of a picture
Perfect under the bright Sun shining like sparkling torch!

It looks like Goddess liberty is holding the sparkling Sun
Torch by her hand high above the world to engulf all in
The brightness of liberty to enjoy in the September day..!

What a happy day it looks like being a Sunday, when I look
Outside through my wide window of reading hall of house
Before I lower down the window curtain to allow shade in..!

Enjoying the bright, lovely Summer day in September here,
I envisage the coming of Autumn and Winter sooner now...!

Ramesh T A
A Lovely World!

Nature, love, beauty

Make life lovely to live in

The world of plenty!

Ramesh T A
A Lover Of Beauty!

Being a lover of beauty, one loves to do all beautifully; 
Out of love, beautiful works of heart are created ever 
To solace and inspire all to restore oneself to one's best!

Beauty is adequate expression to perfection possible to 
Please all and promote love and peace among all persons 
Whatever be the work in any walk of life in this world!

Beautiful things created are born of love and truth ever 
That attract and absorb all towards a sense of beauty, 
Sense of goodness and truth flourishing love in life sure!

All things of beauty bring joy forever inspiring interest 
To do the best one loves to do in life out of zeal and for 
One's own satisfaction making all appreciate in arts....!

A lover of beauty always tries to do all things as beautifully 
As one can and in a way to achieve perfection possible ever!

Ramesh T A
A Lovers Day Celebration!

Lovers day gifts and dating are interesting romantic activity all love To see and enjoy in world life at least on that particular occasion...! Romantic love stories of great play and novels have become very Famous making all not to miss at least once in one's lifetime sure..!

Romance happening in real life is more than a dream to enjoy by all Interested in love stories of novels and movies enjoyed for longtime! Such an occasion only Lovers Day brings once in a year all feel and Welcome with whole heart to celebrate that day with great pleasure!

It becomes an adventure in places where there are great oppositions Due to religious cultural differences coming in the way of celebration By the knowledgeable people who are modern thoughts eschewing The rigidity of conventions making inroads into the individual liberty!

Except for a few untoward incidences, almost in all places everybody Indeed welcomes such a wonderful festival to celebrate with whole Heart without any exception as love all wants to be part of good life Whatever be the religious cultural background of anyone anywhere!

Ramesh T A
A Lover's Dreams!

Scent of dreams

How can a lover forget

Though far away now..!

Ramesh T A
A Loving Bond Of Friendship!

A Loving Bond of Friendship!

Openly loving people are real friends reliable in the world; Their open approach to all develops real friendship ever; Friendship of such persons contribute valuable ideas in The society we are all members across all world nations!

Frank sharing of ideas builds strong bond among friends Transcending all barriers dividing people across nations! Race, religion, status, culture, civilization, language, faith Or all sorts of conventions, laws and all are nothing to them!

Human sense, humanism and humanitarian attitude are all Count in the good and healthy relationship of people who Befriend with all such forward looking ones in the world and Whether they meet or contact in social media aren't important!

What counts much in this kind of friendship is human heart That relies on true faith or conviction upon broad knowledge!

Ramesh T A
A Luck It Is!

If son is like mom
And daughter looks like dad
It is luck!

Ramesh T A
A Lucky Meet In Narrow Path!

Burning desire consuming self of each
Lovers speak only by the eyes ever
But not even a word while in person!

By chance crossing a narrow path once
They have clutched hands tight quick
And have kissed with full passion long!

The tight embrace and hard kisses
Soon have mingled two souls into one
Melting butter into ghee smelling high!

How long have they been so no one have
Got the chance to see luckily in the even
And the time has favoured lovers fine!

Satisfied they have left with smiles
Longing to meet once again soon so...!

Ramesh T A
A Lunar Eclipse!

If Moon and Earth
Meet face to face on a
It's Lunar eclipse!

Ramesh T A
A Machine Job!

Machine cannot
Do the work of man and
Man machine's job!

Ramesh T A
A Machine Life!

We are left with the mercy of machines to live
Life in the modern material world of mankind!
Wall clock wakes us up in the morning before
We see the Sky with clouds and Sun to yawn!

Then only we hear the sound of birds of all kinds
Including the crows with their back-ground music!
TV and computer serve the purpose of giving news
Superseding the old newspapers and magazines...!

We make choice in stored up food items in the fridge
To heat on induction stove before taking breakfast!
Then wearing dress we reach for the bide or car to
Go to our work place to do jobs along with machines!

Video games in smart phones occupy in break up times
Before we do our assignments sans fail before the time!
Then in the evening returning home again play game
To finish it with an end to take bath and snacks to see TV!

Again in the night take food items from the fridge and
Make some preparations over induction stove before
They are consumed along with milk and fruit juice for
The night sleep seeing some movie or some music video!

On holidays going to movies in some modern theatre
The time is passed without a pause as busy as in working
Days nonstop like machine and spend the whole life so
Whether family is there or not and leave the world one day!

Ramesh T A
A Machine Man!

Mechanically living long man has become a machine man!
Just he sees time and carries out works interesting or not;
Routine he keeps on following without fail day or night;
This is how life goes on in pursuit of economic goals only!

Without a smile or any sensation he goes about on his works
But the expression of tension shows bright on his face always!
He overcomes nightmare uneasiness by taking drinks to sleep;
Again in the next day the routine occupies his activities as usual.

Sun and Moon are also doing their jobs cock sure clockwise;
But how inspiring they are to all living beings on the Earth!
Whatever beings do in Nature are natural of their characteristics;
They do everything to achieve perfection and so, do it beautifully!

Man has forgotten Nature and his naturalness in all his pursuits;
So, he looks artificial in everything and is becoming a Robot soon!

Ramesh T A
A Machine World Malfunction!

Machine world is created by man to serve mankind;
Sans proper preparation earlier machines malfunction
Irritating one engaged with the urgent works to be done!

Unless machines are kept in good working condition,
They are useless toys in the hands of man in urgent need
Of them to complete important business very soon sure!

Frustration builds up pressure but machine has no such
Sense to fulfil the urgent need of a person in a hurry
So that a day cannot be wasted in vain till it's all right!

Artificial intelligence is another great advancement with
The use of machines to do the jobs of intelligent ones;
But its problems will again lead to frustration sooner!

All going at full speed carried away by increasing interest,
Who can one rectify the malfunctioning machines at full speed?

Ramesh T A
A Mad Blindness!

Blindness of mind
Makes blind to see all beauties
Making one mad!

Ramesh T A
A Mad Dream!

Happiness, satisfaction and peace are what one wants in life;
Knowledge and love make one achieve freedom to live in joy;
Not knowing this, some believe power and wealth bring all in life
And that is the way to happiness and satisfaction in life ever!

For that, Some by being vegetarian, wearing holy thread and trying
To follow some conditions in life, one can become high class being;
Further as they follow so, they feel they are superior to others
And madly approach all matters and adamantly deal all with others!

Due to this indecent behaviour insulting talks and deeds bring
Displeasure to others to the extent of isolating them in irritation;
Only by luck they may see matters clicking as to their desire
And they sans shame and self-respect feel all happen due principles!

Mad conditions can never be good principles to feel superior in life;
Hitler felt so and met with total failure in realizing mad dream!

Ramesh T A
A Mad World Society!

All things done due to fear or force by any convention or military command of any ism have no lasting impact on human society! But things done voluntarily by the command of love beyond all Barriers of the world has a lasting impact on the life of humanity! Forceful accomplishments by use of fear has selfish motive only Nobody willingly likes to do except to avert bad consequences...; Society long driven by compulsion turns sluggish to do anything Ever unless by force only but not even by request of love later on! Becoming slaves of fear due to force, people are mesmerized by Wrong ideas at the cost of good intentions of love even by truth As ignorance has been bred by brain washings by preachers of Big bigots with the support of hooligans and rowdies everywhere! Unless people are well informed of the sure social benefits of love, All cannot believe and go by love in the mad world society today..!

Ramesh T A
A Magic Of All In One Nature!

When one is out of mood and nothing seems to be interesting, 
One walks out to the beach and sits watching the endless waves 
Moving forward and backward like the mind and time that work so!

The sound of roaring waves increasing and minimizing in motion 
Looks like a maestro moving his hand holding baton before all 
Musicians of various organs in performance of a musical number!

Slowly the mind synchronized to motion of sea waves gets a sort 
Of harmony with it and gets the sensation of a dance performance 
And the heart dances to the tune of the harmonious waves grand!

After sometime mind gets peace and a blissful state unique sure; 
What a miracle it is one feels coming to one's senses by the magic 
Of Nature quite incomparable in all the realms of human endeavour!

Art, music and poetry in one Nature absorbs heart, mind and soul 
To give a sense of fulfilment nothing can in the world we live..!

Ramesh T A
A Magic Of Flute Music!

Colourful day is Holi festival day
All enjoy spraying colour water
And smearing colour powders
Over and on faces of dear ones!

Soul mate of Lord Krishna, Radha,
Special devotee of Lord, Meera
All young girls feel to be and play
To the tune of flute music all day!

Like the red and white and blue
Twinkling stars round the Moon
In the night sky of Universe it's
A grand merry go round the Lord!

All woes and worries vanish in music
The Lord plays by His divine flute ever!

Ramesh T A
A Magic Of Misty Beauty Of Nature!

A Magic of Misty Beauty of Nature!

Misty atmosphere all the night turning into dew drops
And falling as light drizzle at dawn to the surprise of all
Really makes all wonder at the magic of Nature putting
One and all brood over what's next for it to show us yet!

Such a wonderful climate making energy boost with all
Vigour and vitality needed for all to feel better and see
A good day has again been offered to all to another
Better feat to make this day another day of achievement!

Inspiring Nature makes all create work of achievement
Rather than just another kind of work by its beauty and
Enthusiasm everyday and kindles further better mood
By its beauty unique and par excellence challenging all!

The magic of Nature everyday in this misty climate is indeed
A wonder no painter can excel depicting beauty incredible!

Ramesh T A
A Magic Of Nature!

Grey and orange clouds at the Sunset canvas
From east to west create fantasy to dream of!
Soon darkness has engulfed all to night time;
Lights in the street have created town as heaven!
But in the beach it is silent and dark unlike usual
Urging all to look up to see the sky for Moon!
Crescent Moon is shining in the west as usual
But the stars look to be hanging close to Earth
Due to thin clouds spread as lens everywhere..!
Art work of Nature everyday is wonder to see
And such a magic none can create on same canvas!
Breeze, music of cell phones and children playing
Make a joyful occasion to enjoy even in loneliness
When harmony between man and Nature is complete..!

Ramesh T A
A Magic Or Tragic You Want To See?

Nature compensates all damages caused by man’s developments
By its own way as the critical operation to a dangerous disease!
Disease of Earth is pollution like the cancer caused by smoking
Which leads to inevitable death unless contained in earlier stage!

The collective world curtailment of pollution causing activities
By the use of too much fertilizer in farms and emission of smokes
That affect ozone layer in the atmosphere endangering all lives only
Save the world from becoming a planet sans species as in the Moon!

The steps that would be taken so could make this world a heaven!
But the cooperation and coordination of all nations only do magic;
Otherwise the general destruction as in the movie 2012 is tragic
For all to witness and get destroyed without any lives thereafter!

Living in harmony with Nature only we can see heaven as in magic
Otherwise damn sure the destruction of the Earth will be very tragic!

Ramesh T A
A Magic Poetry Is!

Poetry is magic
With the powerful play of words
Poet does!

Ramesh T A
A Magic Spell Of Flowers!

Bouquet of beautiful flowers pleases heart!  
Sweet fragrance of colourful flowers delights  
And memory of flowers lingers and inspires  
Leading to mood of creation fresh and bright!

Cotton like soft petals of flowers soothe skin  
Kindling sensation driving one to dream land  
To enjoy divine romance with beautiful angels  
Exotic and elegant with lasting ecstasy natural!

With spell of beauty and magic of ecstasy fine  
Flowers disseminate sense of relief and love  
Like colourful butterflies are born to woo ever  
Hovering over flower to flower to generate them!

Tension freeing magic of soft flowers sways all  
Towards sense of love in moments of bitterness  
Changing altogether worn out soul with vigour  
Wonderful to achieve laurels in adversities too!

Ramesh T A
A Magical Creation!

The magician brings out a rabbit from nothing
By the movements of his wand over empty cap!
God has created Universe and stars from nothing
By making a big bang in space billions of years ago!

God’s creations look to be a magic for man forever;
Magician’s trick creates magic for men to wonder.
A poet does all like god and magician to create poems
Out of seemingly nothing and old words of wine ever!

By the finger movements of his hands magician does
All tricks with preparations before the show to audience
And puts them in spell bound condition till he finishes
All his show works before the end comes after sometime!

Everything disappears with the show all magician’s work;
But the magic of God as poet’s work continues forever still!

Ramesh T A
A Magical Experiment Life Is In The Universe!

All Stars and planets of Universe are like bright and dim bubbles on water; Bright ones are the Stars and dull ones are the planets floating uncertainly; Continuation of appearing and disappearing of them are going on there ever; Destiny of each one is destined to be uncertain ever, but the magic goes on!

Everyone's life is also like air bubble floating for sometime on the water; Full of suspense they are suspended in uncertain animation everywhere sure; Great ones among them are the big bubbles colourfully shining everywhere...; Highly hallucination like or the mirage in the desert they exist as permanent!

Islands making archipelago these bubbles move on as cluster of galaxies in Space; Joyful magic of these matters are for a short period going on in all their glories; Krypton planet destroyed with Superman flying to Earth to live so as to save all; Loving others such great souls live in other abode when own one is destroyed ever!

Many lives so have to survive by reincarnations from one body to another body ever; No one soul has a permanent body sans decay to survive ever as the Supreme Almighty; Occasion of merging one soul of energy with Universal spiritual energy is the end; Point of perfection of the speck of energy as soul after coming from there ends there!

Quite a long journey these spiritual energies in quanta go on as bubbles on water; Returning to Universal spiritual energy is the purpose of all souls as bubbles here! Such is the decree all have to undergo by evolution to maturity to mingle there ever; That target is common to all bubbles bright and dull floating on the water as magic!

Universe is such magic as mystery puzzling all to know them all in one final theory; Various laws of forces of Nature when linked together such a feat can be achieved;
World scientific researchers are trying for proofs to make that dream a reality soon!

X and Y chromosomes are combined to know various forms of lives to a final state it is;
Years of experiments and researches go on to find the final state of matter to energy;
Zeus is experimenting with all so to create something unique perhaps this magic shows!

Ramesh T A
A Magnanimous Love Of Nature!

Humour makes one forget world worries;
Humour make one laugh and think wise.
When the trouble comes laugh a while
And one will find a way to overcome it!

Nothing is insurmountable in the world;
Life is full of opportunities open to all.
The Earth has survived men for long
And it will show a way for the better!

We have to follow the course of Nature
To know of living life like all beings do.
Nature gives everything necessary to all
For the survival provided we don't destroy!

If we destroy the loving spirit we are doomed
And the great soul forgives with another scope
For man to correct and rectify the wrongs done
So that joy of life can be restored in Nature long!

Ramesh T A
A Magnanimous Soul!

Loving despite

Suffering a magnanimous soul

She is indeed!

Ramesh T A
A Maintenance Of Beauty!

Real beauty lies in maintaining one's nature nothing more and nothing less;
In the short or long journey of life both good and bad happen kindling
Joy and sorrow like the romantic summer and mourning-like winter
Making cycle of life and season to have a completion in natural beauty!

Love of one's nature helps one to maintain one's beauty in all seasons of life;
A slight excess due to desire or wrath spoils one's beauty in distortion
The picture that has been created naturally by oneself from the beginning on
That has to be continued till the end to maintain consistency of one’s image!

If distortion occurs in the journey of life, the confidence in one is lost ever;
No one will believe such a one afterwards and will make one lose chances in life
To redeem oneself whatever one does based on one's talent or one's charm
As that will be just one's acts to make others to be lured for personal gain!

All may be considered to be equal, but exceeding one's natural jurisdiction, one
Will lose one's beauty of image in the hearts of all believing one long ever!

Ramesh T A
A Majestic Song!

Tossing a coin
Walking on the street
He thinks what he can do.

Throws the coin
In the cup of tin and
Turns a poor to rich!

Stands he beside lamp post
A curious chap follows him
And takes a photo of him.

But the photo does not capture
Philanthropic guy in the snap and
The curious cap is caught by police!

It's the magic of Billie Jeans
The role played by Michael Jackson
And the song is majestic!

Ramesh T A
A Making Of A Great!

What does make one great in the world –
Wealth or power or position one holds?
They all come when one becomes great!

Lord Buddha is worshipped as God in the world
Due to his great heart for relinquishing royal life
And finding solution for solving miseries of life!

Alexander was a great emperor as he conquered world,
Built library in Alexandria and treated citizens well
Respecting his teacher Aristotle and family members!

Ashoka was a great emperor who conquered nations;
But knowing war victories were nothing as it made
Many orphans, he devoted his full life for charity deeds!

Shahjahan built Taj Mahal in memory of his wife Mumtaj;
This still stands as a love symbol for the world to wonder
Though he too was buried after his death along with her!

The historical facts and literary works are great matters
For all to know as they inspire all to do great deeds
That are much greater than power or wealth in the world!

Ramesh T A
A Making Of An Artist!

Love of beauty is the beginning of creative art;
Expressive feeling of what one loves naturally
Makes one an artist in poetry or painting soon!
An artist never stops to express until urge ends!

Focus of attention continues in thoughts, dreams
That makes beautiful picture out of many pieces!
Does depression or delight make one an artist?
Nature but not rule or law evolves one as an artist.

The urge to express joy or sorrow in art to share
With all for spiritual satisfaction grows one as artist.
Critics classify the classic and romantic artists but
Today's romantic artist becomes classic in the future!

The sustaining power of one in art makes one classic;
Meaning and order of life artist knows by experience
That he artistically expresses mainly for human good
To forget the world of worries in beauty and truth of art!

Artists love beauty, truth and freedom to create true art!
Even in monarchy poetry did not fail to criticise wrongs;
Poetry inspired people to change regimes to democracy.
Alone or under pressure artists do jobs sans fear of death!

Instead of sword, unlike in the past, ideas rule the world!
Hence the pen is mightier than the sword or gun always!
But the material development of the world dips art low
In the name of civilisation uprooting human sense now!

Art, culture and Nature are overshadowed by technology;
So, social criticism has become an art combining all ideas
Of literature, science and politics in the making of artists
To survive and sustain for changing the society for the better!

Ramesh T A
A Making Of Poets In Me!

Mirror of Shakespeare makes me reflect human nature;
Spirit of Wordsworth makes me explore divine Nature!

Love of John Keats makes me swim in beauty truth;
Monologue of Browning makes me muse on love truth!

Critique of Arnold makes me mind the flaws of novices;
Depth of Milton makes me feel new poets are no use!

Rationality of Voltaire makes me philosophically write about truth;
Emotional flow of Rousseau makes me write free flowing verse!

Tales of Tolstoy inspires me to write about epic poem of world;
Life of Walden inspires me to write about simple life in Nature!

Pure poetry of Coleridge makes me write of dream fantasy!
Free spirit of Shelley makes me write as I please free verse!

Vision of Blake makes me muse over the poetic visions of India;
Inner vision of Yeats makes me map out mystic vision of India!

Ramesh T A
A Management Of Love!

How long I can wait, I don't know for sure!  
I have been thinking about her after long;  
She has forgotten the promise she has made;  
Leaving behind things of her interest I left!

Thoughts of ladies have started coming soon;  
Heart of a lady is as deep as a ocean, they say;  
You can fathom the depth of a sea, but you....  
Can't fathom the depth of a lady, cute and fine!

Intelligent and thoughtful lady is best at making  
One wait as long as one's patience's end in life!  
Thereafter meeting later, she will say that one  
Doesn't have real love to wait till her arrival at all!

This is to see whether he is angry, if he is real or  
Simply matter of fact man sans no deep love at all!  
For the second, one she says something and goes  
Away; but for the first one, she says sorry and kisses!

Kindling anger and kissing is part of love game they  
All play like the one pinches the child and also, does  
Consoling by embracing and kissing the child ever..;  
Otherwise, there won't be any interest between lovers!

Ramesh T A
A Man's Gratitude To Nature!

Man's Gratitude to Nature!

Animal torture no one can tolerate anywhere, if all are humans;
There is vast difference between taming animal and animal torture;
Animal torture needs to be banned but not animal taming ever!

Bull fight and bull taming are brave sports since ancient times;
Now torture of animals are banned in almost all world countries;
But there's no point in banning bull taming sports in the festival.

Festival of harvest is the time, when both farmers and bulls are
Really enjoying happy time in the whole year of hard toils in farms
Needing appreciation and recognition for their great works long!

They provide food for all living beings in the world of mankind
Since the time immemorial in the history of world mankind ever
And surely all should be grateful to them to enjoy festival best!

In this festival of harvest, as man's gratitude to Nature, bull taming
Sports is performed in fun praying rain, sun and cattle as gods!

Ramesh T A
A Man's Machine World Of Love!

Loving persons have become rare in the world making
Sense of love also glow with brightness ever rare in life!
Lack of love makes man seek it in all beautiful things in
Nature all around in hills, meadows, seas and free birds!

Flying free in love, heart wants to enjoy in this world of
No respite, relief and redemption becoming hell forever
In the name of economic development at the expense of
Social development in modern material world of machines!

Seeking love nowhere, man has even invented loving robots
To love and live life with machines instead of humans ever!
Only in literature and love poems, love seems to live an ever
Immortal life making man always dream of love in vain sure!

What a world man has created becoming civilized losing all
Sense of human love in the invention of machines forever!

Ramesh T A
A Mantra Of Mother!

The consoling words of mother when in distress
Gives hope and sense of goodness to go ahead...
Forgetting the loss at the very tender age of
Life no one can forget even after getting old!

The comfort the child has enjoyed at the lap of
Mother is the heaven that brings good sleep at
Times of very bad nightmare at the tender age
which even today gives great support when needed!

What a wise word of comfort that helps all through
The life one has to go on a journey to the destiny
One is destined to reach whatever be the course of
Life one has to undergo in the world uncertainty..!

All the mantra of mother only she can give of all
Gods and Goddesses one knows later on in life ever!

Ramesh T A
A Map Of Human Progress!

For the progress of whole of humankind, love, unity
And discipline are the first essential tool that can
Give leverage to move a mountain like hurdle on the
Way towards a bright and beautiful life for all...!

Love gives the will power to do anything, when unity
And discipline of forward looking minds join together
On a mission that can lead all to forward in life, if
Planning and programme are laid well on a clear chart!

The chart of map of progress in life is based on first
Knowledge, then vision, ambition and achievement sure;
Prior to this vision, the picture of life should be clear
Only if it's knowledge, existence, bliss and absolute!

This is the cultured mind's idea of progress needed to
Be well established as education to all to succeed in
The venture when like-minded persons join together to go
On an adventure clearly laid by well thought out chart!

Ramesh T A
A Mark Of A Constructive Friend!

Constructive friends are not carried away by flatteries;
Dutiful friends never bother about negative criticisms;
Friends with purpose in life strive to achieve excellence
Whatever be the field they are supposed to lead ever..!

With great ambition in mind they make achievements
By their intelligent moves in all matters, small or big..;
Otherwise, they won't get the satisfaction they are ever
Longing for in life from the beginning to the end of things!

They don't indulge in the fun ordinary people like to do;
They are always ahead of others and apart from them
Wherever they make their presence whether it is public
Or private, general or special, extraordinary or ordinary!

Their aim is ever for perfection in whatever thing they do;
That is why even an ordinary thing becomes a special one
Due to the care they take and efficiency they try to attain
In all ways possible to make a mark that all talk everywhere!

Ramesh T A
A Marriage And Life Of Human Beings!

Till the marriage time they don’t know;
Marriage strengthens their alliance in life;
Before that they have not even seen once!
This is life made for each other till the end;
What a life between two hearts in the world!
Many marriage functions we attend in lifetime;
They look to be a normal and usual thing;
But till the marriage alliance is fixed for sure
Nothing seems to be sure and keep on trying!
This is the same case with many parents here
And nothing can be visualised before that time!
Likewise marriages are fixed and conducted
For years together and families grow to big size
In the life of human beings as far as I have seen!

Ramesh T A
A Marriage Function!

With the marriage of my son waiting to be held
On the third of May I am still trying to get mood!

Formalities of the marriage being so much that
One loses the mood to enjoy doing it with joy...!

All kinds of solemnity involved make marriages
Look to be drowsy, dull and damn thing to do so!

For performing marriage function one or two days
One million rupees seem to be spent inviting all....!

All get tired in the process of conducting all in order
Before an end is put to the drama like procedures....!

Dresses, jewels, feasts, auspicious musicians, priests,
Elders, guests, hosts, relatives and friends need care!

Finding faults is easier than planning all to execute
In order to make marriage function see flying colours!

Ramesh T A
A Marvel Against Odds!

Cold winter season depicts snow everywhere;
Himalayan mountains, Kashmir valley, Shimla
Even in summer are a resort to see snow ever!

Keeping coal fire close to body covered by blanket
Poor people withstand chill weather there ever!
Even in such severe weather condition people live!

Glaring white of snow everywhere makes eyes
Close or have a sun-glass to see out all day long
And people mind routine regularly without fail!

The thrill of skating on ice really makes joyful,
Keeps health in tip top condition to pull on well
And makes worst weather too best by play ever!

Making good of a bad bargain is an art man knows;
Deserts or snow hills, he marvels millions of years!

Ramesh T A
A Mass Jam!

Nehru stands on Gandhi ground
But Gandhi stands on high opposite
In between mass jam is!

Ramesh T A
A Master Poet!

New poems
Blossom as fresh flowers
By the rays of
Sun, the master poet ever
But such poets are rare now!

Ramesh T A
A Masterpiece Achievement!

Opportunistic waiting for seeing best thing happen
Indeed it is a great marvel for a master weaver of verse!
Such moment comes to one's fortune after one has
Totally absorbed the best thing and contemplated all!

Masterpieces are created when substance is ready in hand
With a vision how to express them in a classical style is the
Thing only a one in a million can perform in the world of
Literature or art or music or painting if one ponders on them!

Finding the moment to execute well planned matter is indeed
A rare thing happening in the world of greatest enterprises...;
Not only in scientific marvel but also in poetic achievement
Such an effort lasts longer than the master himself in the world!

One may get the proof for master of art in any field forever....;
But achieving real masterpiece is a rare phenomenon, it seems!

Ramesh T A
A Matter Of Reflection!

Moon shines bright due to reflection of Sun’s rays on its surface; Light reflecting on diamonds and gem stones make them shine; A matter of reflection the value of precious stones and gold are! The value of all precious metals and stones dims in darkness ever!

Light reflecting bright Moon kindles dreams and visions wonderful! Light reflecting Moon becomes precious millions of years by it shine Like the vision provoking precious stones ever since their arrival here Making mankind value them very high due to their brilliant shines!

Poets become great when their ideas become a matter of reflection That kindles many people’s thoughts high and inspires to do best! It’s all a matter of reflection that enhances the value of anything In the world of man ever since man started thinking or dreaming!

High value and preciousness of all are lying in a matter of reflection And the dreams and visions make man sustain and succeed ever!

Ramesh T A
A Matter Of Swimming Against The Current!

Swimming against the current requires skill and practice;
If one is sent on a mission as representative of a novice,
It's like swimming on unknown water by saying something
Unknown to the inquirer who can't question anything further!

Knowing the situation, matter and forming an idea, one can
Deal with the new situation and return home by intelligence;
This is how a wise fellow can manage oneself against odd
Situation to the surprise of a novice who has sent one out!

A person of such an ability can survive anywhere in the world
Knowing unknown matter using general knowledge, presence of
Mind and common sense with the skill of some popular languages
To make all interesting by one's expression of matter new ever!

A poet is also a person of that calibre only as one cannot know
Till beginning of poem what one has to say and how one has to
Finish matter better for the interesting seeker of new knowledge
Until one has ended it well to the satisfaction of oneself and all!

Ramesh T A
A Matter Or Spirit Lasting To The End!

Materially relying man depends on money for everything; Money and material comforts lessen burden and pain here; This world is there for those who have material wealth sure; But that world is there for those who have God’s grace alone!

There is no gain without pain whatever man’s aspiration is! Knowledge, vision, ambition and achievement are the means One has to follow for materialising objectives with plans well; For all good ends the means followed should also be good ever!

Knowledge of the whole truth and existence to sustain well help One follow the path of spirit to enjoy bliss to attain the Absolute! Blessed are those who have arranged themselves to go on so ever And are they only can live divine life not only here but also there!

Relying material comforts only but not pursuing after spirit will Land surely one on hell ever but not on heaven finally you man!

Ramesh T A
A May Flower Or Any Flower, Flower Is Flower!

A May flower has bloomed bright blossoming from a bud of thirty of this month! Beautiful flowers are a boon for the world people to smell and enjoy ever! Colours of many kinds of flowers are great cynosure attracting as magnet; Day one on of May they go on blooming with beauty and brightness!

Ever with a bright smile flowers invite all and kindle cheerful mood whoever one is; Flower is flower whether it is May flower or any flower anywhere on the Earth; Greatness of God or any dignitary one is, flowers are the best gift to present to High and supreme ones as our way to show gratitude for their high generosity!

Iconic heroes and heroines too are honoured with garlands of flowers best; Joyful mood is created so to begin any programme on any function ever; Kings and queens too are ever invited by all with bouquets of flowers only as Lovely flowers of wonderful breed bright and beautiful have no replacements!

Many empires and kingdoms have been decorated ever with fresh flowers; No one has ever refused such a product of Nature in May and all months; Openly they were, are and will be accepted as they are due to their natural grandeur; Pomp and glory ever are attached with flowers when handed over to great ones!

Questions are not asked by anyone and are not denied their due place sure; Respect and honour they carried with when they are presented to great lords; Such a wonder flowers are as they are unique of all creations in the plant kingdom; Truly flowers are jewels of Nature that stand steadfast ever in the flower world!

Universally flowers are welcomed sans any refusal and never denied at all by Various sections of mankind whatever be their statuses are and so, welcomed by World rulers, lovers, holy shrines and all for their scent, smile and stimulation!

X file may be the extraordinary nature of flowers but are not treated so; Years of glory of flowers do not disappear though they all have less longevity; Z state of security they don't require as they are eternal though delicate ever!

Ramesh T A
A Meaningless Story!

Cock and bull story
Many concoct in poetry
meaning or not!

Ramesh T A
A Mechanical Lifef Of Man!

In the material world, man lives mechanical life just as a machine
Sans feeling doing work looking at time from morning till night;
Sans any feeling, how can man live natural life to love anyone?

Sans feeling and faith, how can man know of God or know whether
There is God or not or know how many gods are there or only one?
Knowing nothing, man lives life in confusion sans confidence of all!

With the loving heart of Buddha and knowledge of Sankara, Says
Swami Vivekananda that he can make Advaita, oneness of God as
Future Religion of the world to unify mankind to live in peace ever!

Sans knowledge and love, man can't be sure of anything to live as a
Human being fulfilling his destiny to have a sense of completion in
Life he is living knowingly or unknowingly the purpose of his life...!

When the state of man's affair is so, what is the use of mechanically
Celebrating Valentine's Day inside church instead of in Nature....?

Ramesh T A
A Mechanical Modern World Life!

Love seems to be the most difficult and rare thing to
Practise as mechanical life is culture now in the modern
Material world devoid of expression of natural feeling!

All are in competition with time to finish jobs before
The next thing to be done to go ahead of others in the
Business world that brings together man and machine skills!

Technology and trade are the prominent works that occupy
Everyone's life from morn till night with no time to have
Free will and feeling to express one's heart's desire at all!

No human sense seems to be in play as all are unable to
Live a natural life to survive in the world that buys all
With money to be earned by works faster in competition ever!

Earning money in competition in mechanical life to survive
Makes man a machine-beast-man devoid of human sense forever!

Ramesh T A
A Mechanical Way Of Dealing Creativity!

Of late, very tired, I cannot even write;
For, thought process is slowed by brain
Having lost its briskness to overcome
Tiredness unlike in some other time...!

With the available chain of ideas, what
Else one can write, I wonder, when I am
Trying to do the same nowadays with
Words that flow or come before me now!

Going by the drift of the stream I move on
Doing what I can to satisfy my curiosity in
Creativity quite unique for poets of calibre
Whatever be the situation and circumstance!

If the target is finished, I shall be happy again;
This is a mechanical way of dealing creativity!

Ramesh T A
A Medicine For Worries!

Many bother
How to forget worries
Plaguing the mind!

Worries linger on
Like nagging cold in the mind
Prolonging in nightmares!

Many seek drugs
To forget worries briefly
To escape sometime!

After drug effect
Worries take formidable shape
Haunting everywhere!

Seeking peace
They run to wherever possible
As mad men!

Religion may solace
But not solve problems
Sans material help!

Fortunate few
Seek the bosom of Nature
For inspiration!

Nature enlightens
Giving confidence to face
Problems to end them!

Ramesh T A
A Melodious Song Of Poetry!

High flying birds are world poets!
Poets are the masters of the world!
These birds migrate anywhere...!

They inquire by eagle’s eye high,
Know the best things in all matters,
Express in brevity the essence ever!

Songs of these singing birds are sweet!
They make the world rich by tales
That inspire, entertain and guide all!

Always as Kings and Queens they rule
Mind, heart and soul of all men forever
Both in happiness and sorrow situations!

Poetry in the hand of a poet is a lyre unique
That creates music melodious ever for life!

Ramesh T A
A Memorable Friendship To Cherish In Life!

Friendship of romantic poets are wonderful to know
As that kindles joyous feeling to be so with our
Fellow poets all over the world if we have the chance
To meet them in one place in a peaceful country sure!

A place, where green pasture along some river, is nice
To have long talk walk in conversation with poet friends
To have a satisfaction on matters interesting to us ever
And cherish such kind of friendship through out one's life!

Life is heavenly to live so as in paradise quite unique
To enjoy talking poetry and writing masterpiece poetry
In partnership with dear poet friends of same mind, heart
And soul, that is another kind of bliss none can experience!

Friendship means it should be like that only to have full
Satisfaction in the life of the world quite memorable to say!

Ramesh T A
A Memorable Place Of Our Life!

Friends and lovers meeting place is the old Charles de Gaulle's Park now named as Bharati Park exists opposite to governor's Bungalow and was where I used to meet my friends in the 70s!

The golden times of those days can ever come back in life again? Those college days of romantic time can ever come back again..? Time past cannot be returned again in world life, but in memories!

In those memorable days we used to meet on the North Western Side of the park to talk about our life, dreams and plans to come up In life according to our wishes against all odds of social taboos....!

Like the eternal park of beauty our youth cannot last, but our nice Thoughts of the past are still lingering in our hearts whenever we Meet on some special occasions in the same town we all lived then!

Park is the memorial place of our life to cherish our wonderful ideas That changed our life into a golden one, but that joy is no more....!

Ramesh T A
A Memorable Time!

If one problem vanishes another crops up!

In hot summer time, ants are very busy as
They function as infantry in army of soldiers!
After rain of two or three days mosquitoes fly
Injecting one and all with their special music!

Biting cold winter then rules the roost sometime!

Sans strong consumption of food full of vitamins
Never can one withstand winter cold all nights!
Summer heat exhausts body with sweats all day;
But they seem to be better than bitter winter cold!

Spring and Autumn seem better with fauna and flora!

Wonderful growth of plants with flowers and fruits
comforting body, mind, heart and soul to remember
Ever in memory and express poems memorable long!

Ramesh T A
A Memory Of The Scent!

Memory of the scent still lingers in the mind  
Kindling many dreams of the unique flower  
No one can miss in life to be with in joy ever!

This flower kindles butterfly fluttering effect  
In me when the thoughts of the beauty comes  
Creating many dreams like poems of romance!

The kind of romance between us is one of a kind  
Always centering on poetry no one has ventured  
To go ahead in search of pearls in deep heart long!

What a unique enjoyment we have in this venture  
Diving deep while swimming in the ocean of poetry  
That has unfathomable depth to be discovered yet!

This endless romance with the flower never makes the  
Poet forget the fragrance climbing hill or diving in sea!

Ramesh T A
A Mending And Renewal Of Life!

Raging horse runs fast as wind till it gets tired
And stops in loneliness at a remote place in peace!
Man also out of ill temper or anger walks fast
On long open space in Nature till taming temper
And comes to normal sense to know his position!

Birds also fly fast in air or sing to its heart’s content
To forget its loss and worries about its companion.
Once it finds a new atmosphere and companions it
Forgets the past and goes ahead with the new life!
Animals are like that but man is different in this case.

Man has emotion, feelings and attachments to things,
Beloved ones, friends and fellows close to his home.
It takes time to find proper diversion to forget the past
And have a change in his routine to continue his tasks.

Ramesh T A
A Mermaid Or Queen?

Down abyss
A mermaid I miss
As queen she's!

Ramesh T A
A Merry Go Round The Year!

A MERRY GO ROUND THE YEAR!

All the fun of the year are over by the end of October;
Four coldest months of the year, November, December,
January and February are more than enough to make
Greatest havoc by storms, rains and floods everywhere!

The eight longest months of the year, March, April, May, June,
July, August, September and October are the hard time
For all to toil under hottest Sun and sweats to earn all bucks
To enjoy festivals and winter time in joyful fun and rest sure!

Likewise, every year goes merry go round the Sun in our
Solar system sustaining lives of all species though hard
And fast the time may be for all due to our fate and our big
Foolish acts of exploitation of natural resources sans sense!

Climate change is due to environmental degradation sans all
Ideas of conservation and preservation of all species helping
Ecological balance of the world for survival, sustenance and
Successful living of all in unity, peace and love for long sure!

But despite all disturbances, Nature balances itself by hard
And drastic measures to provide room still for all to know this
And survive correcting all mistakes harmful for natural ethos
And conditions for all still more possible to survive ever....!

Ramesh T A
A Message Of Creeping Cold Of Winter!

Creeping cold brings tremor to muzzles of body
Like salty water of sea corrodes old iron bridge
That had once served the port for unloading and
Loading goods from and in commercial ships once!

Destroyed and corroded by cyclones, Tsunamis and
Erosion by sea waves dashing on the bridge and shore,
The iron pier of yore has lost its youth, strength and
Also reduced to rusted and broken iron bars only now!

What a sea change, they say, seeing deterioration by time
Not only on human body but also building structures ever!
The relics of the past everywhere in the world have many
Stories tagged to them of their past glory and destruction!

Rise and fall of great civilizations and cultures in the world
Like the deterioration of health and wealth of mankind also
Have many best and worst records as world history for all
To read and refer to the past and present for future benefits!

Ramesh T A
A Message Of Peace!

Importance of peace is known since a longtime in the history of mankind; Alexander realized it, Chengiz Khan tried for it, Napoleon and Hitler tried To conquer and rule the whole world under one centralized control for all!

They all met with failure not realizing what had happened to Julius Caesar; By military war fares, nothing can be achieved in the world forever and Not knowing this, still many are interested in war fares threatening peace!

Why East and West hate each other, fight endless wars for nothing and why Peace cam't be established between the two power blocks in the world ever Are indeed thought provoking questions needing to be answered with wisdom!

Hate should be replaced by love, competition should be replaced by cooperation; Intelligence to win war should be replaced by wisdom to solve war issues sure; If all are governed by wisdom and love, there need not be any war for anything!

Love and peace instead of hatred and war need to be educated to all men in the World to live in peace, prosperity and progress till the end of time in life!

Ramesh T A
A Micro And Macro Poetry Feast!

Poets are the cooks who concoct delicious poetry for all. 
Break fast, lunch, tiffin and dinner are the meals of a day; 
But there are also drinks, snacks and buffets for feasts. 
So, zealous poets have taste for micro and macro poetry.

Pups, samosa or cutlet are Haiku, Tanka or cameo poems; 
Sonnet, romantic, classic poetry are breakfast, lunch, dinner! 
Modern poetry is snacks, big or small Mac at anytime of day! 
Blank verse or free verse is the variety of cakes and breads!

Micro and macro poetry are the tiffin and grand dinner feasts 
People enjoy everywhere in the world at anytime of the year! 
Taste and style of the feast depends in the presentation of chef, 
The master cook of poetry who decides the fete from start to end!

In the menu of literary feast poetry item overwhelms all others 
By micro and macro forms in message and music to satisfy all!

Ramesh T A
A Midas World!

If the world is going to destroy itself what can we do for it? 
Nature works in a unique way to balance itself against odds; 
Wrong doings of man make Nature take drastic measures of 
Long droughts and flash foods due to sudden heavy rains!

Expulsion of sewage gas and vehicles’ smoke emissions suffocate 
Polluting the environment unbearable while going on roads! 
Even particles are floating in air due to smoke pollution of air 
Making developed cities into hell unimaginable by men of action!

Vast developments without proper planning lead to power cuts 
That spoil all works and makes life impossible to coup with all day! 
Is this what everybody wants to see in the name of developments? 
Instead of beautifying cities they are made into ugliest hell ever!

All natural beauty and lovely creatures like sparrows and squirrels 
Have left man to live here forever like Midas in the material world!

Ramesh T A
A Midnight Star!

It is a lonesome lovely night;
I spend with what an awful might!
A wholesome lonely fight I do,
When my position has almost become so.
In this troublesome loosely gait I grunt,
When I happen to recollect my unfulfilled plight.

A Star appears in the midnight sky!
And twinkles with red, white and blue light!
It stands on so in the same place
Till the red dawn appears in the East.

That midnight Star gives light to my face.
Its pleasant coloured rays come to change my mood,
When I am lonesome in my glass abode.
But that Star is also lonesome in the Western sky!

Its brightness cheers me up,
When I lie on my bed;
It's the time I try to forget the world,
I seek for a temporary sleep,
I try to keep up my spirit.

My anxieties fly away to winds!
I see brightness in the darkness within me!
I am recovered by a tinge of joy from nowhere!
I can strike off all of my baseless fears.
I know it is all happening by the spell of that Star.

Though the Cosmos enclaves all galaxies within itself
That Star stands alone representing all in a single entity.
Its silent light shines with paramount beauty!
Indeed that midnight Star is a great wonder of God!

Ramesh T A
A Mighty!

For the mighty
Even a small blade of grass
Is a weapon!

Ramesh T A
A Mind Charger!

From drowsiness to brightness
My mind changes slowly
In the morning reading newspaper!

Sipping tea step by step I read
Newspaper each and every page,
A pleasure I cannot forego ever!

I skip through and hop over many
Crime and silly news with sports;
But read the analysis in depth for details!

My pleasure of reading boosts with magazines
Accompanying newspapers everyday
Especially Poetry, travelogue and Nature!

My mind battery is charged with news
From newspapers all over the world!

Ramesh T A
A Mind Time Waves!

As waves of sea
With the eternal ticking time
Mind works on!

Ramesh T A
A Miracle Life Is!

Life is beautiful miracle
We have to see and appreciate!

Dry land everywhere
Or green meadow of mountains
Or fertile ground with colourful flowers
Or crops of rich harvest.

All are our Earth we live in
And
Is indeed a miracle to enjoy forever!

Ramesh T A
A Mirage In The Long Desert!

The more scientific developments are made, the more
New diseases are affecting people needing powerful
Medicines to cure or control if not curable forever!

Like chronic disease, corruption in government machinery
Makes difficult for people to cope with new measures
Announced by government now and then for developments!

Only long time people seem to wait to see golden time
To dawn in the country to enjoy benefits that are new
And expected by all with awe to see in reality soon!

Only the term of new government is coming to an end sans
Any promise is getting realized to reduce the burden of
People for seeing bright future that is elusive forever!

Promises, when not fulfilled by proper measures, will
Become mirage in the long desert all cannot cross soon!

Ramesh T A
A Mirror Of Life!

Mirror of life

Literature is, said Bard

And poetry is so still!

Ramesh T A
A Miscalculation!

Peace and happiness lie in doing duty well;
Success and failure are not important here;
They are the end product of what we do!

If we do things according to plan we are right;
Our thoughts and goal are clear and right.
That happiness unique only experiences reveal!

Education is the basis for our exploration broad;
It is not for making money big we calculate before;
It is like speculating over the chicks before hatched!

Knowing one's temperament and doing job is better;
Thinking about riches first and starting learning is bad;
For, nature cannot be altered permanently once and for all!

Wasting time in wrong thing for long cannot regain time lost;
It is like crying over spoilt milk without caring cleanliness!

Ramesh T A
A Mischievous Boy!

Strong wind tossing the window screen
Like the elephant playing with its trunk
Throws down powder box and oil cans
And remains well placed after wind stops
Making me feel who has done the mischief!

This I know only after seeing the wind play,
When I am working on the computer screen
By chance only and laughter has to continue
With full heart enjoying Nature's fun ever!

Such small matters trigger so many suspicions,
When, in fact, they all become laughing stocks
Later, when we know the work of Nature like
A mischievous boy doing tricks so unnoticed
And remain in heart to please whenever possible!

Ramesh T A
A Misfortune!

A light supposed
To be burning as beacon
If burns at backyard
It is a misfortune
Not for it but for world!

Ramesh T A
A Mishunter!

Poem hunter
Is hunting everything
Except poems!

Ramesh T A
A Misplaced Or Progressive Justice

Great temples are nowhere in the concrete jungle of the town;  
Temple sculptures are nowhere in beach statues or park trees;  
Peace and beauty are nowhere in noise and pollution by traffics;  
Spiritualists or poets are nowhere among fanatics and drunkards!

Are population and pollution by vehicles the progress of town?  
Is God proving to be everywhere by vanishing temples in towns?  
Can peace and beauty resurrect in the busy towns of progress?  
Who can rectify a town full of misplacements in the modern times?

For developing backward classes, opportunities for others are denied;  
Even in the court, justice renders judgements based on this method!  
Can social justice be attained by punishing generations of other classes?  
Is it not just giving opportunities to all poor men in education and jobs?

Justice has become just ice in many judgements pronounced here;  
Chasm has widened between classes dividing the society into pieces!  
Misplacement of people in all walks of life has deprived efficiency too.  
Can this kind of misplacement or progressive justice develop a nation?

Ramesh T A
A Model Icon!

A model to follow he was in dress, talk and behaviour;  
Something others wanted to follow him due to his style;  
Such an attraction he had due to his impressive gesture!

His intellectual knowledge, erudition and beautiful acts  
All liked and young or elderly ones wanted to have some  
Qualification by correspondence course to be like him..!

Self taught to develop his personality, he worked with  
Deep interest to know about important ideas of all subjects  
And basing that he dealt with all things with new approach!

His interest to do all beautifully to perfection showed  
His natural artistic mind in all his inventive and create  
Works he did in industry and in private to satisfy himself!

His ideas benefited so much that all wanted his friendship  
As he was wonderful, iconic and a model for others to follow!

Ramesh T A
A Modern Art Picture!

What meaningful picture can be painted,
If the Sky is covered with white grey clouds
All day and black clouds cover at Sunset?

Expectation is rain with lightning and thunder,
Which may come or not and the whole night too
Pass away in vain without any breeze even sure!

No picture Nature paints on the Sky canvas....
Except some greenish, rose colour background
Stuffed with West to East moving black clouds!

No figures or faces or statue like clouds are ever
Displayed on the firmament canvas today to feel
The inspiration of an artist to paint poem nice....!

This kind of effect all feel when they happen to see
Modern art pictures displayed in the art exhibition!

Ramesh T A
A Modern Artificial Life Style!

There is a big tussle going on between natural way
Of living and artificial way of living in the world;
In the fast world life, to overcome natural hazards
By seasonal woes man seeks artificial measures ever!

Sans exposing oneself to Sun’s heat that causes sweat
To drain toxic stuffs out to cool down body man ever
Resorts to air conditioned rooms at home and offices
To overcome tiredness and carries out duties in time!

This kind of artificially tackling natural conditions,
Man loses good health condition in the long run to the
Extent of catching new diseases and forever takes all
Kinds of medicines till the end of life sans enjoyment!

Embracing artificial facilities ever one loses natural way
Of tackling health probables and finishes life sans joy!

Ramesh T A
A Modern Communication System!

Everything has been simplified for want of time now!
Communication devices encourage brief messaging;
Long instructions for management or information stop
Superseding to small message servicing already here.
New form of writings has come up according to time;
Poetry has more scope than articles or stories in big size.
After seeing various forms to blank verse poetry comes
Now in the form of free verse depicting individuals style.
Mechanical, fundamental poetry writing is orthodox now;
Natural, pure poetry composition has prominence no doubt.
Exposing whole truth to the society is the job of journalism;
Governance of the people to prosperity is the job of politics;
Exploration of truth and wisdom is the work of philosophy;
Poetry composition combines all these to communicate to all!

Ramesh T A
A Modern Culture!

Modern gadgets are eating away vitals of health;  
Many have become victims of video games long!  
One in England dies playing game for 12 hours  
Though sitting in one place to do so before it!  
Too much mental energy is needed to deal with it;  
Otherwise one's energy will be sucked by gadget! 
My eyes have become sensitive to TV tube rays;  
So also Computer tube rays are v. bright to eyes!  
These rays increase body heat heating eyes first; 
Mental tiredness makes one unable to be creative! 
I am a lover of Nature to enjoy its joy outside ever;  
But to express our experience we approach PC! 
Creative work indeed evolves better by this device;  
But the gadget swallows up health to sickness ever!

Ramesh T A
A Modern Health Hazard!

Modern way of life is hazardous to health!
Computer and cell phone bring illnesses
That can never be cured unless one quits!
Electronic communication devices help
Writers like me to express ideas soon ever!
But long hours of working on ideas interesting
Slowly and surely eats away lion's share of health!
I wish to quit using this modern gadgets soon
But time is inappropriate to do so immediately!
With pain, so, I allot some hours to do my work
Though satisfying yet it's painful to bear everyday!
What is the way to get rid of this gadget I don't know
As this happens to be the way of life now for all
To have communication and transaction with all!

Ramesh T A
A Modern Paradise!

Rotating sprinkler spraying water over green lawns,
Colourful flowers fully bloomed dancing by breeze,
The buildings standing in sophisticated models, I feel
As if I am stranded in paradise with none besides me!

A calm atmosphere prevails there except the sound of
Humming birds and bees hovering over flowers to get
Honey and enjoy varieties of feast leaving me as witness
Just like them among the dancing flowers under sunshine!

This is modern paradise one has to be ever living, I feel,
When I am coming out of a modern hospital office and
Planning to go to town by available vehicle outside.....
After seeing the new born child fresh as new little flower!

Sans natural surrounding, it will be a concrete jungle
To stay inside modern buildings fully closed for AC...!

Ramesh T A
A Modern World Life!

Just depending up on money modern life goes on;  
If we depended on Nature life would have been divine;  
But we opted for technology, money and modernity  
And so, we have to live on mere currency papers now!

Departure from Nature has gone to no point of return  
That urbanization has to be stopped and stepped up of  
Rural infrastructural development with urban facilities  
Has become an imperative in many nations of the world!

Monopoly, capitalist domination of world markets has  
Brought about economic recession affecting one and all!  
Even experts cannot do anything to set right the situation  
Making govt. bail out with financial assistance a must now!

Freedom of man is in jeopardy due to money concern long  
Making him look for Nature to overcome night mares now!

Ramesh T A
A Moment Of Wisdom!

Slip between cup and lip is sure,
If we take anything for granted!
We are not the master controlling
The world, but reverse holds good!

We expect one thing with our efforts,
But the result shows some otter thing!
We have to know the mood of everyone,
Which is beyond our capacity to do...!

Some persons are plain and we can know
What they will do and so, we can guess....
What we can do to click our matter sure;
But the opposite side is different to guess!

When we are in the open field, we can't know
What will come from which direction ever....;
But we should accept the fact and go by it to
Make good of a bad bargain to wind it over!

Ramesh T A
A Money Addiction!

With increasing needs thoughts of money have increased
And man is left in the world to live only for money forever!
It is not possible to drink, eat and live without money here;
Money thirst for everything has made man addict of money!

Taxation, price rise and mismanagement tighten one’s belt
National financial crisis coupled with world economic woes
Due to international crude oil price hike add fuel to fire ever!
Protectionism and subsidies of advanced nations strike world.

Wars and terrorist activities worsened all to face world recession;
Gold price hike and oil price hike have created turmoil unbearable!
For want of funds everyone indulges in short cut routes to riches;
There is no chance of recovery from addiction to money anymore!

Lottery, gambling, horse race and lotto many people go for
To earn fast buck so as to satisfy money hunger some how!
Betting on boxing, wrestling, cricket, general elections go on
And indirectly many accrue black money to meet their needs!

All black monies big shots deposit in Swiss bank to use abroad
By way of making exports using under invoices for many goods!
All due to bad policies of govt.s. and corrupt practices everywhere
Dark acts perpetrate black economy propelled by this addiction!

Ramesh T A
A Money Crisis!

Money crisis due to demonetization of higher currencies
Has created great exodus of people to banks for exchange!
Sans the circular of lesser denomination of currency notes,
People are made paupers having all monies put in the bank!

Auto money telling machines give only less notes of lesser
Notes making all have no work to do but only stand on long
Queues near banks and ATM machines for long depositing
And collection of old notes for new notes depending on luck!

Disappointed by scarcity of money even in banks, men are
Moved to the state of economy of no money even after standing
Long hours in queues endless around all banks everywhere
Making people's life go in oblivion sans anyway to see light...!

What a state of emergency people are put to hardships sudden
By the bold decision and announcement by diligent government!

Ramesh T A
A Money World!

Money makes
Many miracles happen in
Material world!

Ramesh T A
A Monsoon Magic!

A coastal place becomes a paradise by the
Strong monsoon magic in the Summer...!
Yes, the well set South-West Monsoon has
With the grey clouds all the day turned so!

What a great relief people enjoy in this place
By the turn of climate from hot to cool here!
No sweats all the day and no tiredness keep
All busy and brisk in doing business all day!

Whether rain is there or not, cool climate in
Hot Summer is a very great transformation
That has turned the hot place into paradise
Very nice to enjoy and do all things we wish!

This is indeed a great magic of monsoon only
Nature can do so at will all round the year sure!

Ramesh T A
A Month Of Death December Is!

December is the month of death of many elderly personalities;
Also, it is the month that brings in natural disasters by storms
And tsunamis to deaths innumerable in number and destruction
Of properties none can overcome then or there after quite horrible!

End of the year ever marks with such destruction none forgets
And remembers and pays homage without fail to have peace of
Mind praying for peaceful and prosperous life after the ravages to
Make humanity agree that man's power is nothing before Nature!

Earthquakes and volcanic eruptions man has not yet found out
Any device to predict beforehand unlike the anticipation of storms
And tsunamis man is capable by technological progress till now....
Challenging man to try his level best to find a way to overcome them!

Like death is the end of man, tragedy marks the end of every year
Making man kneel down before Nature's formidable power invincible!
All man's pride and ego go to waste by Nature's inevitable decree none
Can overcome by any means however advanced, wealthy and powerful!

Ramesh T A
A Mood Exotic!

Dizziness engulfs me in slumber
Due to damp climate for two days;
I feel delirium keeping me in gloom
In an out of state posting far away!

Till I return to my native place later
I think this dizziness will continue;
Without concentration I go on here
Vaguely understanding the situation!

What a state of delirium sans booze!
Only people on full drinks seem to be so;
But sans drinks one can become so too
If they are placed in an out of place site!

An esomplastic mood makes me float
In a dizzy rapture cannot be described!

Ramesh T A
A Mood Of Dance!

Night long rain has created dancing mood to
All birds, trees and men everywhere enjoying
Cool wind at dawn with grey clouds spread out
Like the fully spread out feathery wings of
Peacock dancing among the trees full of green
Leaves with yellow flowers making a mirthful
Day for the little child in wonder and old man
Seeing the fresh and lively beauty of Nature
From the balcony of the flat mingling one with
The natural manifestation of weather today...!
What a joy the steady state of rain after long
Has turned the situation suitable for dance
For all Fauna and flora with human of all ages
By the magical spell of Nature quite incredible!

Ramesh T A
A Mood Romantic In Nature!

Dreams and imaginations foster romantic mood
Influenced and inspired by beauty of Nature.
Emotion and sentiments occupy romantic life;
Adventure and exploration mark romantic venture;
Rapture and rupture are part of romantic life.
Romance is the essence of love life in the world;
Interest and thrill of romance will never die here;
Otherwise life is monotonous and boring dead weight!

Ramesh T A
A Moon Life!

Landing on Moon I wonder at the vast vacant land
Where there’s no grass, trees, pond, fish, fowl or flesh!

A vast play ground where foot ball, cricket, Base ball,
Hockey and marathon Moon race can be played well!

One sixth of Earth’s gravitation makes one leap as deer
And go so up and down walking on the soil as in dream!

Living in closed oxygen house is really a new experience
With water generating machine storing water in top tanks
For cultivating crops to produce vegetables, fruits, wheat
On the interior soil for food and survival long there truly!

Seeing the Universe with countless Stars and leaving it
For other planets indeed will be an adventure and fun soon!

Also getting Helium 3 for using in Nuclear Plants on Earth
We hope to solve energy crisis soon for bright future near!

Life on the Moon next is going to be great race for nations
And the top coloniser will be master to repeat Earth game there!

Ramesh T A
A Moon Light Miracle!

All lights burning bright have made the town a universe of Stars;
Beautiful full Moon shining bright behind feathery white clouds
Catches the eyes of all to see high up the Sky with joyful glee!

Diana is the name legendary stories say of the beautiful Moon;
Elegantly she moves from East to West every night to delight all;
Full Moon is the face of the Sky that sees the Earth, her mother!

Gathering round her is a mass of billions of Stars smile twinkling
High up and down all over the Universe as if singing a group song
In praise of queen Moon as the Miss Universe of all time in Space!

Joy of heavenly bodies always gives company to cheer up her mood
Keeping company all the night till she settles below in the west
Like a white swan that flies gently in the Sky breathing liberty!

Moon light dinner people in the world enjoy listening pop songs by
Noted singers of high profiles and also dance by jubilant music in
Open green lawns as guests as if in a function with Moon as queen!

People of all races of the world sit as one big family members with
Queen Moon presiding the function for unity, love and peace of all to
Restore human harmony with Nature to cherish art and culture unique!

Stars of the Universe too listening to this great message for world
Truly shower dew drops of praises as if strewing colourful flowers;
Unanimous approval of all such a wonderful state of affairs go on..!

Value of this immeasurable moment is a spectacular sight to witness;
World of loving humanity in indeed blessed with divine sanctity ever;
X, Y and Z get special VIP status, when all unite for love and peace!

Years of a cherished dream in this way gets honoured in Moonlight;
Zeus too, the King of angels comes down there to see this miracle!

Ramesh T A
A Moon Mystery!

Auspicious or not, crescent Moon is always precious to poets; Waxing and waning Moons have different effects of superstition; Crescent Moons good or bad are ever poets’ great inspiration!

Crescent Moon is a basket for carrying flowers of Stars in it; Crescent Moon is the boat that travels on the ocean of Sky; Crescent Moon is a fine jewel decorating Lord Siva’s tresses!

Waxing crescent Moon with a Star is very auspicious to Islamites; Thus silent beauty in the Western Sky encourages worn out souls; But the waning crescent Moon in the Eastern Sky was a fun on tour!

What a beautiful sight the waning crescent Moon in the Eastern Sky! On a sudden bus travel in plains I happened to see this in a cold night Making me wonder as I used to wonder at the Western crescent Moon!

Moon is still a mystery though many rockets are sent there for probes As the dark side of the Moon is still a dark matter for millions of years!

Ramesh T A
A Moon Water!

Moon water
When will be found out
For drinking?

Ramesh T A
A Moon's Smile!

Smile of crescent Moon

Mocks at man's behaviour

All through the night!

Ramesh T A
A Morning Natural Activities Of All!

First, in the early morning, squirrel starts its call,
Hurries here and there for responses from others
And ventures out in its usual activities beautifully!

Next, crows start their callings looking with very
Sharp eyes at the availability of morning food and
Flies here and there with usual briskness all day!

Afterwards only all vehicles make noises as in a
Great crescendo and all brisk activities of people
Going to market and work and all begin orderly!

Avenue trees with green leaves look fresh and.....
Beautiful dancing in the cold breeze of November
Under the blue sky with a few white clouds moving!

All these things of natural activities of all give the
Impetus to mind one's business with same surety!

Ramesh T A
A Mosquito Time!

Summer rain has come
But water logging is everywhere
And it's mosquito time!

Ramesh T A
A Most Interesting Life!

Love, knowledge and beauty are ever interesting and enjoyable in life; They kindle interest to know more in detail to get satisfaction we long for; Sans such a desire no one can be able to aspire high and reach the top; Freedom and independence come of such a nature one has to see ultimate!

Love of knowledge and beauty kindles one to know Self, world, Nature And Universe to know the ultimate one to have a vision of the whole To know how the world will be, what one has to do and what ambition One has to have to do interesting jobs in the world to achieve great feat!

For a man of such a nature, time will not be enough in one's pursuit To know the truth, bring out the best and beautiful things in all we see And a make mark in the world one is best at to fulfil one's destiny in the world Before time of one comes to an end sooner or later in the short or long journey!

Life of interesting persons in the world mostly goes on so and give inspiration To all who aspire for something high to get the feel of satisfaction sure ever!

Ramesh T A
A Mountain Out Of Mole!

There is no point in getting over excited
When we are not actually facing crisis.
It is the imagination that makes things
Look like monster or mountain of a mole!

It is by experience one knows how to see
Thing with calm posture and face it well.
All the opinions of men make matter worse
Though the actual thing is nothing new ever!

This is the trend of the world based on stories
Created by rumour mongers and news makers!
Also news papers or magazines to attract audience
Say so many imaginary, speculative things well!

Problems and crises are nothing new when approached
With poise and resolution based on principles and truth!

Ramesh T A
A Music Or Song?

No song
Only blaring music is heard
In the party!

Even the numbers
Of Michael Jackson beat music
Make fans dance!

More than songs
Only music is top most
In modern times!

Unlike some
Dean Martin or Louis Armstrong
Songs are not heard!

Celine Dion
Titanic song was moving
Heart to go on!

Old songs
Are replaced by fast music
Now for all!

Ramesh T A
A Multifacted Democratic Coalition Election!

Slow and fast going people cannot go together;
Each has a company of their own to do all ever!
This is how groupism is developing in the world
And coalition partners are formed so in politics!

In democracy coalition politics are common sure;
But how far they are capable of working long is
Ever a big question remaining to be answered...;
Yet, coalitions are formed whenever election comes!

Indian democracy is a multifacted political venture!
All Tom, Harry, Dick and Duck come together only
During the election time and try to come to power
Somehow with the powerful head coalition partner!

Even the address-less parties have a chance to win
And get some seats in democratic coalition election!

Ramesh T A
A Muse At Night!

Standing at the edge of the balcony I look high up;
Sky is twinkling with Stars playing hide and seek
As the clouds move fast scattered everywhere...!

Crescent moon hides too now and then behind clouds;
A dream like situation in reality of the night is amazing
To stand and muse over things beautiful and lovely!

Bats hanging in the trees around the place wake up
Now and then and make trip round the place before me;
Is it wishing me for the night or wants me to go away?

No dogs tonight seen to bark to disturb the silent night;
Cooling climate brings the hope of winter knocking door
Before another monsoon from North East strikes soon!

Many a night have I been standing so musing over all
As a Nature mystic thinking of Universe and glory infinite!
Yet there are many I have to muse over to get bliss ever!

Ramesh T A
A Music Effect!

Music moves
Heart, mind and soul
All in one!

Ramesh T A
A Music Eternal Is Divine!

Trumpet and drum music denote military band;
Guitar and piano music denote melodious score;
Clarinet and flute music denote pastoral melody;
Violin and all organ music denote symphony fine;
Jazz, maestro and symphony musics make all high!

Music acts as background for joy, sorrow and war;
Music makes all moods for man to move on in life;
Music creates a world of love, dream and fantasy;
Music as love has no beginning and end in influence;
Music whether East or West is divine as Nature is!

Confluence of Nature, music and dance is divine beauty
That elevates human spirit to divine spirit eternally!

Ramesh T A
A Music Of Poetry!

Grief stricken violin music,
Boasting trumpet music,
Dance inducing guitar music,
Thrilling beats of drum music,
All these and more as words
Making rhythm of poetry
Make all dance to sing songs
Depicting message of poetry
To be amused and enlightened!
Let us all sing and dance as to
The music of heart inspired
By the poetic words forever!
Music, song, dance and poetry
Amuse all with information fine!

Ramesh T A
A Music Or Song Or Poetry?

It is celebration time with music and song playing in full!
No song but only blaring band music rent up the air there;
Moving away from the party poet finally lay on grass lawn
Looking the sky beautifully illuminated by twinkling stars!

Poetry is the source for song and music everywhere long;
But now the other way about has come into vogue soon!
Music, song and poetry have become the order of the day.
Even in poetry stanzas and substance have gone away!

Horizontal poems have been superseded by vertical poems!
Music and message have gone away with stripped bones
In the form of break up phrases standing vertically ever
Occupying just one third of page space for full length poem!

Music was giving liveliness and beauty to kindle gaiety
For the best ideas of poetic songs to live in hearts of many.
But now carried away by the taste of music only nobody
Seems to bother about ideas, message and meaning ever!

Patience has gone away hurrying to see end is upper most
Leaving interest soon fade away to boredom and tiredness.
Even for long enjoyment there should be patience for all
And that is the point of note all should know to enjoy better!

Ramesh T A
A Musical Sound Is Forever!

Music everybody loves in the world;
Birds are loved mainly for their music;
Animals and plants too love music!
I have seen plants growing by music;
I have seen snake dancing by music!

Nature, music and book occupy all;
Without them life will be a real bore;
Life interest depends on their influence!
I have seen people with ear phones
Enjoying music when walking or travelling!

Music is beautiful order of sound we hear,
Which is produced by musical instruments.
Sweet voice of singers with music is divine!
I have seen many listening to TV Music often;
I have seen all dancing by pop singers’ music!

Gentleman Jim Reeves moves many hearts;
Pop King Elvis Presley still entertains fans;
The Beatles move the hearts still to divinity;
Michael Jackson has created music history;
Ricky Martin has made president dance too!

Who is there not moved by music in the world?
Essence of Dharma is Lord’s Song, Bhagavad-Gita!
Spirituality is developed by Lord’s music in Nature;
Musical preaching of Lords have become holy books
That rules the heart, mind and soul of all in the world!

Ramesh T A
A Musical Tribute!

Walking on the beach I see avenue plants with flowers;  
Some have blossomed and some are fully bloomed...!  
Also, I see twelve coconut trees transplanted long ago  
And are nicely growing whether climate is hot or cool!

Nearby hotels and play grounds are added attraction,  
Where all sorts of persons gather to have some fun, if  
Some programmes are conducted for public benefit  
Now and then in the week ends or on holidays ever!

Like the flower buds that blossoms to bloom and blooms,  
All functions take place whether they are fully equipped  
Or not for namesakes, if that happen to be govt. programme;  
But private ones are great attraction pulling crowds often!

Today's musical tribute to a great film musician is a wonder  
Like a bolt from the blue with music and songs swaying all!

Ramesh T A
A Myna Call!

Myna and parrots

Call of hurry ever

Begin morning...!

Ramesh T A
A Myriad Nature Of Mind!

Subconscious dreams occupy most of our life in sleep;  
Conscious imagination helps to enjoy reverie forever;  
Vision of the whole we have by intellectual musing..!

What is impossible is possible by such facilities of mind;  
Sans dreams, imagination and vision, Nature does all  
By illusion we see and wonder musing in loneliness ever!

Like the two rails of railway track sky, sea and land exist;  
But at the horizon, we see both sea and sky meet together  
And at the horizon, we see both sky and land meet together!

Meeting together of sky and sea at the horizon is an illusion;  
Meeting together of sky and land at the horizon is an illusion;  
In reality, they all never meet together like the rails of railway!

At the higher level, we see reality from illusion to know truth;  
By intuition, we see the ultimate reality and ultimate truth sure!

Ramesh T A
A Mysterious Pursuit High!

A long way to go before the whole truth is known; Beautiful images keep a good company to lead....! Continuous journey leading from sea to land..... Despite a lot of hardships is delightful to go on!

Engaged with fun and curiosity coupled together, Full of blooming flowers with fragrance exotic Go on keeping all matters in zeal to pursue further High and low on the plains towards the mount high!

I have no other choice but to continue this pursuit Joyful or tedious, till the peak is reached in time..! Kind hearted souls have guided there before me Lots of high minded men to know mystery in full!

Many pastures, forests and trees full of panacea No one knows much of their value to keep life well; Open secret they have become as time went on.... Particularly due to diversions of historical changes!

Questions of living long sans food and rest are secret Records being not maintained as script hasn't in use; Soon mystics have created script to keep all hints in Trivial things for none to suspect and steal forever..!

Universal education too was not in vogue to spread Various forms of knowledge to all fearing wrong use; World has changed after many ages and destructions X and Ys though can't be ascertained due to missings!

Years of pursuits by extraordinary mystics have done Zealous works to know all and have disappeared too...!

Ramesh T A
A Mystery Of Dreams Explored!

Is dream born out of poetry or poetry out of dream?
Imagination is foundation for both coupled with passion!
Imagination, emotion and dreams weave poems of fantasy
To take one to the world of exotic nature from Nature!

Nature is the mother for all passion, dreams and fantasy
Urging to spin countless poems of heart to kindle thoughts
That mystics in communion with Nature explore high
To Stars, galaxies and heaven to bring divinity to human!

Sans a sense of feeling born of pure passion in Nature long
No sensation of exotic feeling can drive one to explore
Mystically the mysteries of miracles to discover divine spirit
Dwelling deep in all things of wonder present all over Universe!

Indwelling spirit in all activates mind in quest of wonders
Abound in Universe to realize Universal Spirit to reach at last!

Ramesh T A
A Mystery Yet To Be Explored…!

Impressions of beauty linger long deep in heart
Making joy a bliss to enjoy forever as lonely art!
Art, woman and Nature make all explore deep
To know the source and destiny of bliss in heap!

Will the lifetime be enough to know bliss in full?
Many a poet and philosopher venture on still.....;
Even then depth and width of Space are unknown
Leaving the link of discovery yet to be known...!

Floating in dreams of ecstasy all enjoy unaware
Legacy of bliss all poets expressed from deep affair!
New thoughts and inventions are just additions only
Revealing nothing new other than what's known early!

Life's mysteries remain ever mysteries longer as
Birth and death of men as never ending sea waves!

Ramesh T A
A Mystic Mist Way!

Rainbow colours

Are scattered vision of vague view

In a mystic mist way!

Ramesh T A
A Mystical Adventure To Sublimity!

When nothing happens according to wish, we seek the solace
Of Nature to calm down and proceed with our routine ever;
When nothing comes to our relief, we seek the bosom of love
Of our dear one to forget all and rejuvenate our self sure!

Intellectually musing over matters analytically, we come to
Know the truth and become wise understanding something we
Have never thought about to feel a joy unique only those who
Have undergone such a stage in life know this better sure...!

When nothing is coming to our rescue in this world full of
Puzzles, beauty, opportunities and surprises, we stand and
Stare at some place in the midst of vast amazement of Nature
And become a mystic that brings dizzy rapture to our rescue!

Philosophic poet only has the opportunity to stand against all
in musing and mystically indulging in great rapture that surely
Rejuvenates, revamps and rehabilitates one's spirit to aspire
Higher and venture on still more greater peak to reach sublimity!

Ramesh T A
A Mystical Bliss!

The winking eye Radha Krishna picture
Animated beautifully on computer screen
Transports all to the mystical state of bliss
By the eternal blissful music of the Lord!

Mystical flute music and dance in Nature are
Like the unique blend of milk and honey,
Like the grand embrace of Sky and Earth in
Body and spirit and mind and Nature unique!

Man's mind in communion with Nature always
Takes whole soul in a state of trance to forget
All the tumults and turmoils of the world ever
And brings wonderful hope and confidence sure!

Divine bliss in Nature by mystical communion
Brings superhuman spirit to life to win all here!

Ramesh T A
A Mystical Discovery!

A great mystic poet of Nature enjoys bliss at will in communion with Things of beauty in Nature whenever one sees flowers, lively rivers, Communion of sea and sky at the horizon, snow mountains touching Mists and clouds in the sky making spiraling staircase to heaven..!

It's like the sailor swimming from the sea after shipwreck at night to a Coast nearby unknown, but makes a journey through desert, forests, And claims up a mountain top to see the staircase upon the mists Touching both snow peak and heaven with a galaxy of stars above!

This is the vision of human life complete one has to undergo in the Long or short journey of one's life in the world, one may interpret of The dream of a mystical poet having such a vision expressed in Words of mystical philosophy in deep meditative exploration wide!

The glorious discovery of great philosophical truth of a visionary poet Surely leads all probing in darkness life's destiny to know and follow to eternity!

Ramesh T A
A Mystical Note On Clouds!

From childhood on I have great admiration for clouds;
Sans clouds of atmosphere we are nowhere on the Earth;
Seeing the clouds with Stars twinkling in between, we get
A lot of dreams started as stories told by our parents......!
Clouds are the nearest place to Stars, Moon and Sun of Sky!

Clouds are the luxurious bed of night dreams.......!
Clouds are the floating mat to travel everywhere...!
Clouds are the residence of heaven we all long to go!
Clouds are commuters for the messengers of God...!
Clouds are the harbinger of rain in all the monsoons!

Misty hill stations are the nearest high places to touch clouds;
From the clouds only we have stairways to spiral galaxies....
To reach the centre of heaven by mystical communion......
With Nature crossing oceans, plains, forests and mountains!

Ramesh T A
A Mystical Truth!

Adventure in literature

Poets undertake to explore mystery

To express mystical truth!

Ramesh T A
A Myth Of Lord Vinayaka!

Knowledge and wisdom are together personified as one
Lord Vinayaka or Ganesha in legendary Hindu mythology;
Knowledge alone is not enough to decide about anything
To achieve ever sans justification by wisdom for all!

Such a God with elephant head and gigantic human body
Has a divinity of its own unique to worship by all
Before starting any work or embarking on great venture
To do all well with success for the well being of all!

It is similar to the Roman God called Janus with two
Heads seeing forward and backward denotes wisdom like
Lord Vinayaka of India trusted that with belief and
Faith if He is worshiped, impossible problem is solved!

Naturally, celebration of Lord Ganesha is worth doing
To be successful in solving all our difficult problems!

Ramesh T A
A Nation For Stateless Ones!

The failed, fed up and forlorn souls to give vent
To their feelings become mercenaries creating
Great havocs ruthlessly and mercilessly anywhere!

They embrace false religion being propagated by
Bigots going against all norms, ethics and morality
Taking the role of leaders only frauds venture on..!

Otherwise, where are bomb blasts or murders of
Innocent people being telecast on world TV shows
Just to terrorize and collect big money as ransom?

Such Stateless rogues taking advantage of belligerent
Nations in backward areas of the world now invade,
Capture some places aiming to establish a nation itself!

Can fair loving nations abiding by justice and moral
Principles allow such nonsense taking place anytime?

Ramesh T A
Concessions in education and job for the underprivileged Communities give a boost to uplift them in the society...!
If they don't belong to the majority religious or linguistic Communities, they are all termed as minority communities!

Concessions can be only for a limited time in a nation full Of multi religious, lingual, cultural and racial population Coexisting following the policy of unity in diversity under A broad constitution enacted on the basis of a noble vision!

A nation can be said to be developed, when it is free from All subsidies and concessions the govt. offers to its people, if The democratic principles like equality, liberty and fraternity Are truly followed and people are sincere in their participation!

Sans the cooperation between govt. and population, no nation.... Can ever be progressive, prosperous and self-reliant in all respects!

Ramesh T A
A Natural Aspect

Son is like mom
As dress is like yarn
It's natural!

Ramesh T A
A Natural Bard!

Dedication to a work by natural inspiration, interest
And enthusiasm makes one bother least about sacrifice;
The satisfaction one gets out of doing dedicated work
Makes one forget all troubles and haggardness for long!

Completing one's dedicated work with full satisfaction
Of desire makes one fully confident of oneself forever;
Recognition of one's achievement so also one never cares
Whether others recognize and honour one or not forever!

Self-confidence of one's ability, capability and capacity
When realized by dedicated work in life against all seasons,
Makes one well versed in the field one has done a great feat
A naturally respected and a model icon to all aspiring ones!

The high respect naturally earned so makes one a powerful
Person to predict course of world as a bard to humankind!

Ramesh T A
A Natural Beauty Is A Joy Ever!

Indeed a thing of beauty is a joy forever in the world; Beauty is the only thing one can see forever in life to Get good mood that gives joy to go ahead with hope!

Colourful and beautiful flowers are a thing of beauty; Natural scene with hills, green pasture and river too Happen to be the best beauty one can see, feel free!

Loving lady and children singing lovely songs are beauty; Dance of beautiful ladies on a music is beauty wonderful; Love of a lady beautiful is another heaven in this world!

Art, music and Nature are where beauty can ever be found To divert one's attention to forget oneself for change in life And can renew one's good mood to do better in all things!

To create best of mood bouquet of flowers is the main thing Ever sways hearts of all by its beauty nothing can so simple!

Ramesh T A
A Natural Colourful Thing Of Beauty!

A Natural Colourful Thing of Beauty!

Colourful Nature is beautiful to look at to get cool mood in the fast world life! Beautiful scenes of Nature brings dreams of paradise into reality sure here! Morning affairs bloom nicely seeing this colourful smiling beauty each day! What a pleasure and enthusiasm beauty kindles in the heart to win all ever!

A stretch of green grass land or park lawn with trees full of colourful flowers Beauty is created by the magic wand of Nature just like the poet weaves His fabric of colourful and blissful poetry to enjoy unique pleasure to share Such a treasure of paradise with the best of hearts longing for inspiration!

Inspiring beauty of Nature kindles poet of rare nature to create inspiring And everlasting poetry for inspiring the dull and sleeping souls to life to Do all best of creative and inventive works for the well being of all people Making a mark of their works in the world before they leave for heaven!

A natural thing of beauty brings joy of unique kind forever to do wonderful Deeds for mankind as a source of love that kindles all hearts towards Perfection or completion or the whole truth an artist's picture defines What beauty is to the world to know and cherish in heart to achieve all!

Ramesh T A
A Natural Course Of Human Life!

Nobody knows the course of life and none has vision of journey; No one knows the destiny of one's life and that's nature of life! Also, no one knows from where soul of life has come and where The soul goes to have rebirth or total liberation from birth cycles!

Religion, culture and civilization we have been following to live Life in the world that we have turned into modern material one That has changed natural way of life into mechanical way of life Leading to disillusionment only at the end of everyone's life here!

Realization, awaking of mind from illusion of world life we follow Certainly is needed for all to know and think about the way out of The quagmire in which we all have be struck into in the name of Civilization based on technology and economy believing to solve all!

Life is a natural course of human action that develops heart, mind And soul to have a real complete vision individual to reach the final Destination with peace, joy, satisfaction and bliss quite divine that Only can make one clear, pure and perfection to have total liberation!

Ramesh T A
A Natural Dream Land!

Nature directs the soul's desire to roam
As white horse grazing on green pasture!
Meeting an intimate friend he feels fine
To make his adventure an enjoyable one!

Feeling Nature's beauty to the core ever
Inspiration directs soul to muse in fantasy!
Dreams of romance bloom in garden of beauty
Full of multicoloured flowers and fruits....!

Fragrance of exotic flowers turns one an angel
Floating in dream land of ecstasy to enjoy
Love of eternal kind sans fail forever and on
To explore nuances of love intimate nonstop...!

Nature, beauty and love make all heavenly
To live in joy never to be displaced by any
Misfortunes of world to miss pleasure ever
And find paradise a permanent home to lie on..!

Ramesh T A
A Natural Fatigue Forgetfulness Is!

A Natural Fatigue Forgetfulness is!

Great scientists and philosophers are noted for forgetfulness;
Not only they but we also forget many things of day-to-day life.
When things become usual or routine and busy we forget all;
Forgetfulness is a natural fatigue we all undergo by stress or strain.

Nothing can change that aspect of our personality in the long run;
Unless we make a note in diary or note pad, we forget many things
In the busy schedule of mechanical life in this fast material world
Whether we are damn sure or not in the society we are familiar with!

The food we ate yesterday or a few days earlier we are unsure to know;
The dress we wore three or four days before too we don't remember;
Same thing happens to what we have written down in poetry or articles;
After sometime, when some one talks of same matter, it seems new or nice!

If such things happened in the lives of Edison or Tagore or Newton, we smile;
But, if we think of our own forgetfulness of ordinary things, what can we say?

Ramesh T A
A Natural Friendship!

Natural friendship between two soulmates is Real and everlasting against all odds' blocks! Never meeting in person but only by emails By sharing of insightful ideas bond strengthens!

This kind of relationship is unique in modern Days full of technological advancements and Gadgets engaging all in busy activities as all Machines do in all walks of life everywhere!

This is indeed a blessing in disguise for all Who have no chance of going out anywhere And no chance of seeing anyone in person In the material world full of complexities...!

Social media born friendship is indeed a new And wonderful medium to have better friends!

Ramesh T A
A Natural Genius!

Inspiration from Nature makes me free
And free flow of words become fine poem!
Peacock dances out of zeal seeing rain clouds;
Nightingale sings enjoying Nature in fulfilment!

Nature is friend, philosopher and guide for all!
This truth animal, men and natural beings know!
Eye, ear, nose, tongue and feeling if sensitive
Lessons of Nature open heart to do all in love!

Ape and men learn from others to do all ever
As where intellect is strong instinct is weak!
If instinct, intellect and intuition are high sure
One will be super being creative as God or poet!

Engrossed in Nature's influence all comes naturally
For the genius doing great feat as singer, poet and all!

Ramesh T A
A Natural God Is Truth!

Natural God with Universal Spirit as truth I accept;
God creates everything in the Universe by evolution;
God is present everywhere transcending everything
That follows natural laws framed by Universal God
Tho’ man makes scientific revolutions by technology!

For the worn out souls poetry gives inspiration, energy;
Natural God inspires, energies and invigorates souls
As Nature, painting, music and poetry do to all men!
Religions are various routes to reach this one God –
Infinite truth, love, beauty, joy, peace and bliss for all!

All the good things of all the world religions I accept;
All unscientific and superstitious things I cannot accept;
Forgiveness for sins like murder, rape and terrorism of
All kinds of religions, heaven and hell I cannot accept;
Dharma or natural justice for up gradation I accept!

Ideas of avatars, messiahs, prophets and guide I analyse;
There is One God for all religions though vary by names;
But only one messiah alone I cannot accept for atonement!
God need not create prophets to save and guide mankind;
God can do all things through good people around us too!

The creative power of poets I see as the work of one God;
The ideas that help all develop I see as the expression of God;
The beauties I see everywhere is the reflections of one God;
Nature, Books and Music are the instruments of God’s voice;
The music I hear everywhere is the echo of one God’s voice!

Forgiving after confession, last prophets are humbugs of religions;
All sins have to be ended by being born here again and again;
Complete atonement is achieved by rebirths till attaining moksha.
No one can escape from the clutches of Dharma, the laws of God
Though man escapes from the laws of man taking asylum in creed!

Ramesh T A
A Natural Gratitude!

Everyday morning I spray water
Over a handful of flower pots...
The little plants never fail at all
To show progress by its rich growth!

In gratitude they surely create buds!
Flower buds blossom to bloom
Everyday into beautiful flowers...
A bouquet of flowers they gift me!

The kindness and gratitude of plants
Green ever greet me with flowers
Colourful and cheerful to boost mood!
And the day becomes bright for me!

Just as we worship Almighty in gratitude
Plants hail us with cheerful flowers ever
To win in wars of woes of the world.....
To see peace and bliss prevail forever!

Ramesh T A
A Natural Healing Power Of Earth!

Earth is the mother and Sky is the father!
From mother only come to know of love
And from father we get knowledge of all!

Patience and tolerance of Earth is incredible!
Sans her generosity and hospitality we cannot
Survive and live long enjoying benefits plenty!

Father Sky may take time sometimes to give
Water for the survival and growth of life for
The children of mother Earth, but never fails!

Bearing all hardships mother Earth gives
Solace and surplus of everything that we take
It for granted and try to destroy all resources!

Despite the children's heartless acts of destruction
Mother Earth brings relief by natural healing power!

Ramesh T A
A Natural Life?

Living mechanical life man has forgotten natural life!
So, where is the time for man to stand and stare in Nature?

Mind body only he cares about forgetting spirit within!
So, how can he muse over spirit and meditate in Nature?

When it’s so how can he mystically commune in Nature
To discover divinity and become one with Almighty?

Purpose of birth is destroyed by material pursuits everyday!
So, a thing called spirit isn’t coming within mind body purview!

Monitored by machine within a time table set life goes on here;
Is this called modern life designed by civilization in the world?

Disillusionment is sure he has to face soon once he comes out of
The circle programmed for him to follow as a destined slave ever!

Scientifically developed island he lives within he has to come out
To see reality as it is to know what a place he has in Nature sure!

Ramesh T A
A Natural Phenomenon Solar Eclipse Is!

Moon makes Sun into a circus fire ring today,
When its disc sits suitably within Sun’s disc
Between Earth and Sun in its travel in a year
And this is solar eclipse we see and say much!

Like lovers Moon and Sun meet face to face
After wandering round in many orbits in Space
Like the close embrace of lovers making nothing
Seen by others of their feeling in darkness ever!

Even the Black Holes of many galaxies in Space
Never allow any light to escape when swallowed
By them the nearby stars going round them ever
Like the snake that swallows Sun Hindu myth says!

Superstition or science solar eclipse an awesome wonder
Millions of years man explores to know natural phenomena!

Ramesh T A
A Nature Bright!

As Nature bright
Despite turmoils of world
Poets are wise!

Ramesh T A
A Nature Meditation!

Meditation in Nature
Brings peace of mind sure
To deal problems!

Ramesh T A
A Nature Poet's Spiritual Wisdom

World is one though day and night come one after the other!
Power activating all in the Universe is Nature or God we say!
Each and every religion is expressing that in various names!
Natural power is common to all though the names are different!

This is the thing all religious truths are making us realise ever!
But differing themselves religionists are ever fostering enmity!
It is sheer ignorance only to say that there are thousand gods!
Divine is a pure state of knowledge can’t be attained by costumes!

Self control, eliminating others’ grief, supporting welfare of all
And praising God forever are four indispensable duties of culture!
For attaining spiritual wisdom showing love to all is imperative!
All those having love are sure to attain bliss in world life ever!

To attain divinity what is needed is pure love only to all ever!
As day and night, alternately joy and sorrow will come sure!
People, birds, animals, insects, grass, plants, trees, creepers and
For all let God shower grace driving out grief to live in bliss!

Ramesh T A
A Nature's Amazing Art!

My wonder at Nature never demising I see
Surprisingly at the survival of trees and leaves
Along the road, park and beach everyday!

Yellow flowers among the green trees and leaves
And red flowers among leaves fencing the park
With a small restaurant along one side there
It gives great pleasure to look at their beauty
Taking snack on the road side of the beach!

It is a wonder to look at Nature balancing
The climatic changes due to pollution by man
With long days of summer and short winter
In the busy town of historical importance!

After cool wind stopping suddenly with sultriness
The dark clouds slowly occupy the sky here and there
With many Stars still twinkling with red, blue, white light!
I see down at the distant dark sea with fishing boats;
The lanterns of boats winking like stars above in darkness
Is interesting to watch till I finish my snack and pay cash!

Returning home, when I am browsing on my computer,
The change of hot air into cold air by down pour of rain
Makes me feel the chillness of hill station in the beach town!
The coolness of the night succumbs me to night sleep soon!

The next day morning the pleasant atmosphere,
The dappled sun peeping through rain clouds
And the birds and squirrels making noises there
Produce happiness and confidence quite extraordinary!

The screeching sounds of squirrels distant and near home
Make me feel the communication we poets have on internet!
The joy the squirrels enjoy I too enjoy with distant poets
And the amazing art of Nature creates spells on our nature too!

Ramesh T A
A Nature's Beauty!

Graceful Nature has brought a blanket of grey clouds
With heavy breeze from the West blowing cool at day!
Both brightness and coolness of coming South West
Monsoon make it a cocktail of day to enjoy in work!

Brightness and shade make the day a picture perfect
To enjoy and appreciate Nature with thanks a lot well!
What a blessing Nature makes to all in this hot day
With spell of coolness all like to enjoy though day is hot!

Well spread out green leaves of trees are beautiful in this
Kind of light and shade today and make them lovely to
See and appreciate about the so many birds that always
Make them a permanent abode to stay all round the year!

Beauty of life is so well maintained even in this harsh climate
Change in the year that has just crossed half the way to finish!

Ramesh T A
A Nature's Mark On The Sky Canvas!

When the transparent clouds are everywhere
Halo ring round the Sun is beautiful in the day,
Halo ring round the Moon is wonderful in the night!

When the rain is gently falling on a Sunny day
Beautiful rainbow of 7 VIBGYOR colours is there,
An archy refraction of Sun's rim falling on the valley!

When there is sudden rain in the night of a hot day
Sure is deafening lightning and thunder for sometime
With beautiful display of lighting branches everywhere!

When the day dawns with the clouds still there in the Sky
The dappled Sun's rays make magical picture very beautiful
Waking one and all from slumber to enjoy natural beauty!

Nature makes its mark on the canvas of the Sky broad
Quite lovely, lively and lullaby for the mystics to muse!

Ramesh T A
A Necessity Of Courage For All!

Courage comes of clear knowledge and wisdom;
To successfully love courage is most needed of all;
Even to commit suicide courage is most needed;
Without courage nothing can be achieved bold ever!

Thoughts of clarity and perfection are most essential
For doing acts of straightforwardness and boldness!
Knowledge, experience and wisdom give sureness
And confidence, courage and boldness achieve all here!

Survival of the fittest in the forest are for the courageous
That dominate and rule the jungle life in Nature ever!
Education, job or governance courageous set the example
For others to follow the path to achieve better things ever!

Fostering of courage from the young age develops all
To do best things for the world to survive long in prosperity!

Ramesh T A
A Need Of A Friend!

Friends are rare to find in the material world! All are for some benefits approach one ever. Where can one find a friend selfless in mind? Indeed it is very difficult to find a friend true!

In my young age believed I had some friends; They got what they needed and disappeared! But whenever they meet they talk as if good Making me think whether they can be believed!

There are long gaps of communication with them! I used to search internally whether I was true or not; I find that they are not treating me as a friend at all. Leader or teacher - that was how they believed me!

Am I a God to be independent and above all here? No, I am also a human being needing a friend good!

Ramesh T A
A Neutralisation!

Economic growth
Is neutralised ever by
Population growth!

Ramesh T A
A Never Ending Game!

Poem for poem sing they love song;
Day or night sing they sensuous notes;
A never ending game their love is!

Eye for eye describe they greenness;
Eye to eye see they all they can inside
Rising desire seeking sensuous replies!

Kiss for kiss mark they endless ever
Heating up bodies full of electricity
Glowing the whole frame in erotic glory!

Entwined as creeping plants or snakes
They seek to play the love game endless!

Ramesh T A
A Never Ending Puzzle!

More you know

The more you need to know of life

Yet puzzle never ends!

Ramesh T A
A Never Exhausting Love Power!

Pleasure and joy giving love inspires to do everything in world life; World life is a great mystery needing love to overcome all pitfalls; Pitfalls in every walk of life are mines hidden under the ground That may explode, if wrong steps are taken needing Chess care!

As in Chess game, life is a war between good and bad representing Black and white squares with mind focused on victory each move is Made inspired by love to face challenges and defeat the enemy by Clever moves on each and every square of the battle ground ever!

All losses on the battle ground are covered by the pleasure of love To forget and forge ahead with renewed vigour fed with energy like Magic potion that heals all wounds quickly for making progress next Sans any difficulty mesmerized by the pleasure of love like a boon!

All impossible looking missions are made possible by love supplied As energy with its never exhausting pleasure of divine power ever!

Ramesh T A
A Never Known Destination!

No one knows what happens after death
Because none has returned ever after that!

It's like fate of stars entering black-hole
That disappear without imprint defying
All laws of science man has discovered!

Memories, imprint left as art works or
Poems or some mark made in some field
Talk about the departed personality ever!

None has ever returned to tell all what's next!
This is the common fate for all in the world
Everyone is trying to unearth years together
In vain or by imagination incredible in stories!

Mystics know past, present and future of one;
But there's no scientific proof to ascertain any!

Ramesh T A
A New Beginning After Harvest!

Journey from south to north of earth’s hemisphere
Sun has started after three months of winter tour!
Harvest of crops having been carried out everyone
Worship Sun for its northern journey of prosperity!

Rich growth of spring crop next has been begun too
With villagers rejoicing after good rain earlier long!
Reservoirs, lakes and rivers are full of water now
More than needed for irrigation till summer and on!

Farmer’s festival beginning after winter season ever
Felt usually a way will surely open for all crises soon!
With this hopeful note all begin toiling well on fields
Many are best at for the new year assignment now!

Traditional culture rooted from village life begins so
With the happy note so full of enjoyment and fun ever!

Ramesh T A
A New Beginning Of Life!

A new beginning of life is made after the demise of
A beloved one affecting many with tears long sure;
Attachment with such a soul will bring tears in her
Absence to anyone who has moved close to her long!

It has to be remembered that elders having grown up
Children should not show such an emotional feeling
Openly but should create impression that after death
A new life begins and that will lead all to glory..!

Life goes on with a purpose that all have to discover
And fulfil that purpose before one meets with one's
End with a sense of completion so that the soul will
Wear a better attire to do best thing with new life!

In the literature of life, every chapter tells about
A new life with development leading to total liberation
At the end of the book everyone writes as one lives life
And the success of such a soul inspires and instructs all!

Ramesh T A
A New Beginning To Cherish!

Always a new beginning gives cheerful mood
To start and embark on a venture new, long
And enthusiastic with a view to see success!

More than success an achievement made out
After performing a thing of beauty surely gives
A joy none can give in the human world ever!

Having love to achieve something beautiful
In any kind of work interesting from the first
To the last surely would keep up the spirit high!

With such a mood whatever is done surely......
Give a sense of fulfilment absorbing whole heart
With satisfaction nothing can replace ever here!

Life with love going on smoothly so is blessing
One can enjoy both in work and pleasure long!

Ramesh T A
A New Chapter Of Life!

Keeping the boat in the mooring he looked outside;
Outside the mooring there is a vast moor only......;
Only those interested in loneliness visit such a place!

Place where nothing grows and no one likes much;
Much of human blood has been shed there in fights;
Fights with gun to decide who wins in the race is there!

There is no end for conflicts between rivals anywhere;
Anywhere in the history of isolated persons it's true;
True, brave and adventurous persons have no fear....!:

Fear of any kind they don't have as they are beyond all;
All things they have seen in life and are ready to die;
Dying they live everyday and living they die everyday!

Everyday is a new chapter of their life they are risking
Risking all they die hard to win or lose in a brave way!

Ramesh T A
A New Day!

Fresh morning
With the blossoming of new flowers
Welcomes the day!

Ramesh T A
A New Door Always Opens!

There is no point in crying over spoiled milk ever; Best thing to do is just drain it and use new one To enjoy it as coffee or tea or mixing it with food!

Life is also just like that for some, when things go Not so good or wrong suggesting for a change to Have a better setup to live better starting again...!

When something can't be reformed or changed.... For the better, it is better to discard the spoiled one And look for a fresh flower to enjoy its fragrance..!

Nothing is perfect in this world and so trial and error Methods have to be adopted to set-right the setbacks To achieve goals of our life to live better in the world!

If one door is closed, another door is opened forever For all disciples of Great Lord or Jehovah or Allah...!

Ramesh T A
A New Life!

Out of station

Gives chance to see new locations

It's new life!

Ramesh T A
A New Look!

Grey clouds have disappeared with the night;
Blue Sky has appeared with the Sun shine!

Town has a new look washed heavily by rains;
With freshness all businesses have started again!

Gloom of cloudy days full of rains constrained all;
Feeling of desperation loomed large by floods long!

With the chirping of birds and Sunny day life cheers;
Activities of all walks of life give hope of recovery!

Droughts and drudgery of life longed for prosperity;
Rivers over flowing with water of rain brings hope!

Fertility of soil improves with subsoil full of fresh water;
New life is generated for rich growth and harvest sure!

That trumpet of Shelley’s prophesy “if Winter comes
Can Spring be far behind? ” surely translates into reality!

Ramesh T A
A New Pill!

Now all round the world climate has changed;
We too have to change our attitude of climate.
When we think summer is over it comes again;
If we believe rains have stopped storm comes!

Nature is playing with man playing with technology!
If man understands and stops his Hadron experiment,
Nature too will stop its experiments to correct man
Making the usual transition of seasons regular ever!

Mechanical life of man should change to natural one;
Otherwise new changes by Nature man cannot bear!
It's doctor's new treatment to cure new diseases....
Which is an experiment man has to endure sure....!

How many rats, rabbits and monkeys man has killed
For the sake of achieving success in finding new pills!

Ramesh T A
A New Realistic Utopia!

Grim realities of the world such as poverty and unemployment
Seem to be neglected paying much attention to proliferation of
Weapons of mass destruction and terrorist menaces everywhere
Besides exodus of refugees from Syria and Burma nowadays now!

Creation of separate terrorist State between Iraq and Syria
Seems to be a futile exercise by a terrorist organization
That causes destruction of properties and exodus of people;
Also, Communal strife has resulted in exodus of people now!

Approach to solve these problems is not the usual endless wars
But some new approach based on novel ideas as experiment needs
To be tried between the trouble creators and peace makers with
Dreams of a better tomorrow and new world order to be continued!

Best thing would be linking unions like EU, African Union, Asian
Union and further American Union for the formation of one world
Union superseding United Nations Organizations in the near future;
This dream of a new realistic Utopia will solve all malaise of world!

Ramesh T A
A New Way To Glory!

Failure of desire disappoints one to deep sorrow....;
Disillusionment in life drives one to deep depression!
Failures and difficulties make one a seasoned being;
Experience gained so in life makes one withstand fate!

Trying for the alternative and next chance in new one
Indeed gives an opportunity to try better than before
Leading to achieving laurel in flying colours damn sure,
If only one knows how to pacify heart by diversion....!

Diversion in art, Nature and entertainment that relieves
One from the point where one is struck up is the key
That opens the door to new world of opportunity to see
Something new and ample ways to try and do miracle!

Changing one's mind from the bitten track to a new way
Surely makes one discover opportunities to achieve laurel!

Ramesh T A
A New Way To Succeed In World Life!

Nature is the best source of solace and inspiration
To get hope, confidence and encouragement seeking
The resort of Poetry to express all matters of life
In an exploitative way to solve all crises with ideas!

That is the best way to get relief and restoration of
One's natural self to go ahead in life swimming against
All sorts of currents on the ocean of world life so as to
Survive, sustain and succeed finally in the life's journey!

With the inspiration of Nature and the boon of Poetry as
The best medium of expression, all things can be sorted out
To solve and settle paving the way for a new route to follow
To reach the goal of one's destiny with fulfilment sure...!

As long as Nature and Poetry are there for a talented Poet,
Nothing can stop one from achieving success in one's venture!

Ramesh T A
A New Way!

Experiences of old years
And expectations of New Year
Will show a new way...!

Ramesh T A
A New World For Human Life First!

Science and commerce have turned world into hell
Thereby turning humans into machine-beast-men!
When will world become heaven to live divine life?
It has become a distant, remote and far fetched dream!

Murder, rape, terrorism and Nuclear threats loom large;
Civilization inducts barbarism by reversing evolution!
Women and children are insecure everywhere now...
Mad animal men dominate perpetrating violence often!

Political governance everywhere is out of control now;
Love, friendship, peace, freedom, democracy have died
Due to prominence of money by economic thoughts
Over shadowing social thoughts towards Utopia a dream!

What is the use of religion, education and civilization
Without human sense in all matters of mankind now?
Let these become matters to be dumped in junkyard
And let New World Order be created for human life first!

Ramesh T A
A New World Order!

One world is
New world order
A multipolar world!

Ramesh T A
A New World!

Thoughts transcend taboos;
Words flow in verses as wine!
Wonderful the fantasy is!
Where one goes knows not...
Where one comes from knows not...
The boat sails as to the stream speed!
Forest or paradise it is adventure
To discover new land to live new life!
Change is the objective one seeks
New world with new people everywhere!
All give joy of new kind fine;
World of poetry is always new!
When can world become so ever?
Wonder like poet people ever!

Ramesh T A
A New Year Celebration!

Each and every language people has one's own New Year
To celebrate in very year all round the world we see!
Such celebrations have unique sense of joy to begin
Work of the year with a positive mind to finish well!

Today is Tamil New Year day beginning just before the
Hot Summer season reminding one of the ants that work
Mainly in the hot six months of the year so as to take
Good rest in the rest of six rain and winter months..!

A proverb says that "Make hay while the Sun shines!"
Really the hard works done during the day and hot months
Give a nice sense of relief to enjoy in the night and
Winter months of the year celebrating all festivals sure!

Wishing all with sweet New Year greetings, what a joy all
Have with a strong mind to do great things in bright light!

Ramesh T A
A New Year Mood!

Just two days left
New year mood is everywhere up
Musing new resolutions!

Ramesh T A
A News!

News is
North, East, West and South
New news!

Ramesh T A
A Nice Day!

Sans heat and rain the day is cool;
No sweat nor any tiredness affect;
Everything looks pleasant all day;
This only we call as nice climate..!

All works all do with no uneasiness;
Whole day has gone sans any notice!
If all days go like this, all will be fine;
There is nothing to criticize or praise!

Rain, floods and mudslides are there;
All such things happen in hilly places;
In the plains of fertile fields crops are
Seen growing well unaffected by all.

After the day has ended, silence comes;
Peace is nice to enjoy after everything!

Ramesh T A
A Nice Dream To Dream!

She was a rose flower;
He was green leaves;
Green leaves and rose flower
Matched each other to catch
The eye of the viewers!

She fell in the eyes of his;
She flew away in the sky;
She dreamt while awake
Till the end of time then!

So sang the jolly lovers
All the hills and shores
Till they had to depart;
He departed soon, lol!

The dream came to an end;
I woke up from my slumber;
It was a nice dream I enjoyed
When I was alone many times!

Ramesh T A
A Nice Moon Light Night!

Everynight Moon comes up late, later and latest;
Once coming up the town trees, Moon goes straight up
To the sky to join with the stars waiting for its
company to rule the whole night all over the Universe!

Cool bright Moon rising from the sea every night does
Its regular duty of going round the mother Earth sure
East to West making all sway by the night and sleep
Under Moon light to have wonderful dreams of heaven!

Moon inspires everyone's horse of imagination to make
A trip to many unknown places of the Universe like the
Legendary Pegasus shining bright as the Star in the sky
That inspires many a romantic idea in the minds of many!

Romantic love stories like in A Midsummer Night's Dream,
Night Moon kindles in everyone's heart to have nice night!

Ramesh T A
A Nice Opportunity To Feel Free Birds' Joy!

After the festival of lights, rain is falling and
High above white stork birds are flying from the
North to the South somewhere in a beautiful way
Making me also enjoy their happiness in a nice way!

Are the white stork birds doing ballet dance in joy
Of inviting rain fall in November and December to
Facilitate farmers to go ahead with cultivation of
Crops to have rich harvest in the New Year month?

Or are they travelling from Siberia to the South
Here to overcome their winter blue in a warm way
Till the spring comes with leaves and flowers fine
To return to their native places after breeding time?

Anyway, whatever it is, in this pleasant cool time,
Though rain is huge for a while, it is nice to see
These free birds enjoying their winter holiday here
Giving a nice opportunity to know and feel their joy!

Ramesh T A
A Night Rain!

Clouds are gathering
But heat is not coming down
Yet a night rain is!

Ramesh T A
A Night Relief!

Small summer rain  
Wets roads and buildings  
To give night relief!

Ramesh T A
A Night Romance!

Night is the time for enjoyment in life forever; 
Night without end is what all dream about long! 
Will that dream materialize only after death...?

Romantic atmosphere created by stars and moon  
Kindles passionate love affair to enact on the stage  
Act after act art of romantic love game to go on...!

Audience is teased to the core such a love drama  
To go on sans end in the long course of night.....;  
But night has not that decree to do so by nature!

Paradise of earth is a time bound programme....  
And heaven is the limitless pleasure dome all  
Dream about to reach one day in all life here....!

Night time is the bird in hand worth two in bush  
No one can wish to waste in life in romance & love!

Ramesh T A
A Night Scene!

Night too has come
After a hard day's tussle
Leaving me to tussle
For the night scene inside
Before dreams are enacted!

Ramesh T A
A Night Star Message!

The time is running fast to a great deal today!
Night has come and darkness has captured everywhere;
Moon has risen in the East and has gone up in the sky;
Stars are seen with dim light everywhere in the night!

Above all, there is one single Star shines bright
Separately in the western sky quite unique sure!
Is the Star that stands all the night or some nice
Planets like Venus or mercury misguiding all men?

A single unique Star I have seen in the western sky
Long ago, that was a midnight Star that gave me company
Once, when I was lonely with a lot of things taxing
My mind to resolute to have a clear view of life then!

That midnight Star reminded me of North Star that
Ever stands steadfast making me follow so in life!

Ramesh T A
A Nightingale Rare!

Crows are many
But Nightingales are rare
In Poetry World!

Ramesh T A
A Nightingale!

My duty or debt was to lie doing service only forever;  
I could not ask anything, think and worry about future;  
Food, money, personal work I should not think about;  
With the available food, clothing and shelter I do work!  
That was my life I had to live as one among a big family;  
Only the pet ones or loved ones did whatever they liked;  
That partiality hurt me much and made my heart hard  
And that made me a machine meant for work only ever!  
By my hard and long work only I can please my elders;  
No sentiments were allowed and passed on to me by all;  
Days, weeks, months and many years went on so and  
Many hardliners also passed away leaving all in grief..!  
When my time came, I had to continue works to save all;  
That made me a poet to sing as nightingale forever in life!

Ramesh T A
A No Escape Matter!

One can escape
From the man made laws
But not Nature's!

Ramesh T A
A No Man's Land!

Old stories are what meant to be dreamed about by guys
Lonesome lacking peace, happiness and satisfaction in life!
Literature is full of stories to satisfy the needs of all in life;
That too poetry is magic that takes one to dream land fine!
What is not available in world is available in that magic land!

Stories, novels and plays are long and tiresome to many;
Articles and stories of newspapers and magazines no one
Has time to read and digest in the fast moving world now!
But poetry is a compression of ideas in free flowing words
That amuses and tells truths from travail ideas wonderful!

The magic of musical words of many verses move hearts
Full of sorrows and pains unbearable is quite amazing!
Poetry of many forms occupies the minds of many men
Despite the taste of various kinds that satisfy many souls!

Ramesh T A
A Noble High Rider!

Familiarity breeds contempt;
Flattery makes one float in air;
Storm of disillusionment drives you to pieces!
Listen to criticism and conquer your ground.

Truth of words prevails though late;
But flowery lies lead you low ever.
Time tested friendship comes long in life;
Collective efforts of high aim fetch laurels.

World of love welcomes true words;
Honours of high award the wise;
Glamours of fast never shine high always;
Humour of talent is meaningfully praised.

All that glitters are not gold;
Noble guys never lie for fun;
Wise high rider sees all in the same way;
And takes victory and feat without fuss!

Ramesh T A
A Nobody!

He goes on
Eating, sleeping and working
Though a nobody!

Ramesh T A
A Noise Menace!

Noise has come to stay in towns and cities;
Noise of traffic, workshops and factories
Nobody can escape from unless ear plugged!
Noise pollution coupled with other pollutions
Environmentally disheartens everyone everyday!

Grinding, drilling and sandering activities often
Everyone seems to have used to with in towns
Unmindful of its noise of irritability beyond words;
To overcome that many have ear phones attached
To enjoy music of their choice in work or in ride outs!

Music is also a kind of noise but in beautiful order
And the harmonious melody makes forget oneself!
But the factory or bike noise is so alarmingly irritating
That everybody wants to get rid of them sooner
By going out to farm resorts every week end or so!

Noise menace is so high that some silencer generators
Have also come into use seen here and there nowadays!
Yet the noise pollution due to mechanisation for progress
In the name of civilisation is making world a great hell
Giving the feeling that the world is not enough to live!

So, millions of communication satellites are launched everyday
Creating the doubts to many that if they are satellite missiles!
Rivalry of nations over conquering the Space by technology
Has increased the danger of another war of the world soon
And by suspicion and heaving sigh of relief days go on for all!

Ramesh T A
A Noose Tightening!

Restless life begins after getting cornered
Due to commitments made before time!
Everything requires to be rationed and
Tightly scheduled according to a plan!

Not one or two months but some years
If everything has to be done as per plan
Tests the veracity and valour of a person!
What a time one travels before year ends!

Adjusting to zigzags, bends and curves
Fate checks all skills of a person to the end!
Even hope is last to the point of failure sure
But resolution kept somehow leads to victory!

Narrowing gaps of life are tightening noose
Till either rope breaks or man cuts it by luck!

Ramesh T A
A Nostalgia Before And On A Journey!

All of a sudden getting ready to go out of station is thrilling!
Before going out, we have to keep dresses in the suitcase first;
Carefully dresses needed have to be arranged for the travel.

Distant travel needs many things to be kept ready for use out;
Everything has to be kept in according to the days we stay out;
Good fore thinking helps exactly what we have to carry with ease!

Holiday times.... there will be a lot of rush in buses and trains sure!
Increasing burden of heavy luggage makes it less interesting......;
Jointly if we share the burden of carrying luggage, it will be joyful.

Keeping an eye on our luggage in bus will avoid theft in travel;
Looking off window natural scene is quite interesting to kill boredom;
Many things of beautiful scenes we have missed will look new then!

Natural beauty of outside world then only we enjoy better after long!
Openly we all will be engrossed in nostalgia of the past on travels so;
Passing through mountains and bridges of old style reminds of our past
Quite forgotten in our day today activities of life in our native place...

Remembering good old days we have enjoyed out will refresh our heart;
Staying long in a beautiful garden city is like living in heaven we love much!
That we never forget later on our return to mind our regular works as routine.

Under stress and pressure our life is going on for long years with our partners
Very much needing out of station tour to distant place to forget all irritations,
When we retrospectively and introspectively browse in silence on our journey!

X and Y of unfounded solutions there is a chance to get ideas to solve all things;
Yawning on yearnings will make us seek the help of beverages to free ourselves;
Zeal of seeing a new location out of station again will bring the needed interest!

Ramesh T A
A Nostalgia On Friendship!

Days of fun with friends fly away soon.....!
Those past enjoyments can't be replayed!
Meeting again itself is something rare now
And days of yore can't ever be retrieved!

All friends cannot be free to be together.....;
One man's life is not similar to another one!
Developments may make differences wide;
But hearts of the same feather is ever one!

Meeting once in a while brings joy incredible;
But that joy disappears like the moon in west!
Sunrise starts another day making past a dream
And life goes on according to the diktats of fate!

Friends becoming relatives is incredible too
Or friends remaining as neighbours is lucky!
Living life ever with friends makes life a fun
And the joy of life is real and lasting, no doubt!

Ramesh T A
A Note On Money Business!

Political ideologies like capitalism and socialism are   
Playing main roles in the international politics of world;   
So, earning by any means with payment of tax makes business   
Firms go on a competition with all everywhere in the world!

Nobody wants to pay too much tax due to losing interest in   
Doing business and may lead to failure of becoming rich;   
So, illegal business dealings bring black money into play   
Helping them to deposit in foreign banks to evade tax net!

Without capturing new and more and more markets for business,   
If a nation tries to extract needed revenue only by taxation,   
How can people become rich and live fulfilling their dreams?   
When the business goes down, how can they survive at old age?

Capitalism allows individuals to do business to become rich;   
But socialism makes people to pay tax and live with less income!   
Benefits and comforts are many in capitalist countries of world;   
But comforts are cut in socialistic countries helping black money!

Ramesh T A
A Nothing!

I am the lone person alone browsing in the mind many times;
There is no person to guide me in life in this world, that is
No one to give company, comment or criticize and console
Except God who is invisible in everything everywhere;
Nature is the only book He has bequeathed to me to read
And leaf through its endless pages to discover many wonders!

Human world is a great wonder in the whole Universe!
Man is the greatest wonder of all the species in the world!
Mystery of Universe has not diminished the quest of man
And the mystery of man is still his mind, body and spirit!
From the smallest of small particles to the biggest of big Stars
Strewn all over the Universe, when is man going to assess all?

“Nothing will come out of nothing, ” was Aristotle’s view;
But everything comes from the seemingly nothing says India!
Value of nothing called Zero created by Aryabhatta – Bhaskara
Increases the value of all numbers according to Zeros attached!
So also there are so many invaluable things having no significance;
Power of smallest atom is well known now by Nuclear Explosion!

Ramesh T A
A Novelty Is The Need Now!

Harping on the same note nothing can be achieved;
Writing poetry on the same theme nothing is achieved;
It's simply repeating the same thing in a different angle.
What is the use of grinding the already ground flour?
Some write on love and make love a boring matter;
Some write something undecipherable in the name of poem!
Poetry should be amusing, absorbing and thought provoking;
Many write for the sake of writing for fun to pass time;
Without any motivation nothing worthwhile can be achieved.
Nature, life, love, friendship and stories of humanity abound;
Yet all cannot become poets of classical or romantic period;
Only one in a thousand can do that feat in the modern time.
Reflection of reality with novelty one can do better I think;
But without exposure to larger audience everything is futile!

Ramesh T A
A Npt Preacher!

Sitting on
Stock piles of Nuclear arsenals
Don't preach NPT to others!

Ramesh T A
A Nuclear Danger Free World Dream!

Future of power generation is not in nuclearisation only
To achieve energy security with pollution free facility.
Solar and wind powers are there for power generation
Besides hydro electric, sea wave powers are world over.
Oil, coal and gas from the Earth are also not lasting ones.
Instead of fossil fuel, bio fuel use is emerging fast widely
Destroying food grain production, a foul act indeed it is!
Danger of nuclear power plant leakage is worse than 1945
Two Atomic bombs dropped on Nagasaki and Hiroshima!
Chernobyl like nuclear plant disasters can’t be neglected!
Nuclear future looks to be very dangerous and gloomy
For the survival of mankind, animals, plants in the world!
August 6 and 9 are blackest days of World History forever!
One Nuclear danger free World is the dream of mankind!

Ramesh T A
A Nuclear Weapon Free World!

Don’t help extremist
Developing into Frankenstein’s monster
To destroy the creator!

Talibans are
Heartless dogmatists trained
To destroy all!

Nuclear weapons
Falling into their hands will
Destroy world sure!

Nuclear weapons
Threatens world peace whichever
Nations have them!

Nuclear weapons
Free world only restores peace
Everybody longs now!

Ramesh T A
A Nuisance!

Errors occur
But too much is always
A Nuisance!

Ramesh T A
A Oasis!

Rain in Summer
Is a Oasis in the desert
A relief for mankind!

Ramesh T A
A Ode To A Bird As A Courier!

Human feeling never dies till the end comes in life;
How can longing be satisfied losing dear one earlier?
Widows and widowers have trying time, if they are young;
But, getting a suitable better half is beyond one's scope!

The compensation for the loss is possible by expression
To some confident pal or intimate soul one only knows..;
Otherwise, giving vent to one's feeling in poems many,
Perhaps one may get some solacing response so someday!

For many, poetry seems to be best means to have a union
With a confident soul mate in the world somewhere beyond
Each other's reach except by the bridge of Poetry to
Exchange solacing ideas now and then to compensate a loss!

By a ode to a bird flying distant places can serve as a
Good courier who can deliver the intimate message better..!

Ramesh T A
A Off Season Effect!

Off season rain just before Spring is a blessing in disguise for the Farmers to have a rich growth of bumper crop during Summer Season instead of drought situation to lament for want of water!

Yes, indeed water for irrigation of agricultural fields and drinking Purposes, people look above for monsoon rains only every year Underscoring the need for rains like this off season ones often..!

Off season rain is due to climate change in the world to alleviate The scarcity of water in the long dry season time as a great solace, But Nature does so for the sake of balancing itself everywhere...!

Man may not follow anything as he forgets his sufferings once he Gets relief through some luck now and then, but Nature never does So and so, it does all things to balance itself to steadiness sure...!

Destructive nature of man is balanced by constructive nature of Nature even by storms, heaviest rains and floods in off season...!

Ramesh T A
A One Way Love!

All are writing about love!
The love is one sided always!
How can love become fruitful?
Only when it is mutual love!

I show love to all who wants
Once they got it by my favour
They forget my love and disappear!
Is it called love they want to follow?

Why can't they reciprocate love,
Lift me up as they want me do so,
Cherish love and make happy life
For all to live in love with all ever?

Is love a one way ticket as many feel?
Love is never selfish but selfless always!

Ramesh T A
A Pain Killer!

To bear and forget physical pain
Romantic poets have indulged in
Writing philosophic poetry long
And created repute for all sing song!

I too belong to this category of poets
Writing poems to forget my plights
In the heart caused by fate long ago
And the pain I am suffering much now!

Nature, life, love, world and lust are
The subjects I deal with sans any air
Silently musing over them in depth
And expressing in poems smooth, soft!

Many a poem have I written so far
And yet, many I have to write more!

Ramesh T A
A Pair Of Sparrows!

A pair of twittering sparrows I see;
What a great wonder sparrows are!
Due to constructions of concrete jungles
Sparrows are driven out farther and farther!
So, they take shelter in high way trees;
Even those trees are cut for laying highways
And the sparrows are driven out still far away!
What kind of guys are they who take shelter
Under the trees in summer time but not
Think of pouring even a dropp of water to it?
Extension of concrete jungles destroys trees
And drives away a few sparrows too forever!
Is this called progress in the modern world?
Or is this a harbinger of apocalypse of the whole?

Ramesh T A
A Panacea!

Have I taken Lethe to be drowsy ever?
Caught by cold long I feel so since long!
Only sleep comes when I see TV or Website!
Immersed in poesy I escape from boredom!

Opium eater Coleridge wrote master poems
And recited poems to overcome pain of gout!
I have similar kind of experience by poetry
Which is a heaven sent panacea for illness!

Lives of creative artists are ever in pains
Getting relief only in art works like poetry,
Paining, sculpture and music immortal.....!

How bad and horrible for poor guys always
Immersed in illnesses incurable forever....
If they don't have taste for art in some form!

Ramesh T A
A Paradise Of Love!

February being Lovers' Day celebration time
Only thoughts of love occupy all day ever...!
Only love poems of poets classic or romantic
Capture the attention of all as love does.....!

Passionate love, personification of love and
Paradise of love transport to romantic world!
Romantic world of love where can be found?

Only on the Earth in the whole of Universe
Beauty, love and joy can survive forever....!

Colourful flowers freshly blooming everyday
And musical birds joyfully singing as they fly
Atmosphere of love where can one dream about?

Only in this paradise of Earth full of beauties
Love can survive, sustain and succeed forever!

Ramesh T A
A Paradise Of Nature To Feel A State Of Heaven!

If a thing happens according to one's wish,
The feeling one experiences is happiness...;
If a thing is taken up to be done and is done
Against all discouragements, one gets peace!

Fulment, peace, joy and satisfaction bring
A sense of feeling one gets as one enjoys all
Comforts sans worries, pain and agony forever
And in such a feeling is where heaven lies!

The pleasure, joy, peace and bliss in one in
Nature if one enjoys is where paradise exists
Making one dream of exotic joy of ehtusiasm
Needing nothing more in this world unique ever!

Peace, joy and bliss sans worries, woes and any
Agony are in paradise of Nature to feel a state
Of heaven, if one does all one's obligations and
Works one has to perform completely well sure!

Ramesh T A
A Paradise Of Nature!

I have seen so many dam side parks;
They all inspire enthusiastic mood;
It makes one as if in paradise we
All wish to be present ever in life!
This Earthly paradise is the best
Place to be in harmony with Nature!
Also, while travelling on highways,
We see green pastures, fields and
Green grass lands along some brook
That simply transports soul to heaven!
We forget time and place we are existing
In occupied by many troublesome ideas
Night and day frustrating sans brining
A peaceful sleep, calmness or dreams nice!

Ramesh T A
A Paradise Of Universe!

Green pasture with flowers like daisies
Looks Nature is smiling with joy gentle!
Deer, goats and cattle grazing all day
Enjoy nourishing food on plate Earth!

Birds of all hues singing and dancing
Play all day consuming feed all over!
Colourful fish in clear rivers swimming
Enjoy ample food going round the Earth!

All on land, sky and water live happy life
Leaving man to think only to fight ever?
Why is he not living in harmony with all
Happy beings in plant and animal realms?

Paradise of Universe, Earth is ever stupefied
As to how to convince man to live satisfied!

Ramesh T A
intellectual pursuit towards truth based on knowledge makes
Mind bright and clear, which is a hard route difficult to follow;
But the benefit is far more superior to all wealth one has in
This world full of fake diamonds and gold that lure all to abyss!

Sans knowledge of truth one is blind ever, even when one is able
To see by both eyes without wearing spectacles by good health!
For, sans education, one is said to possess not eyes on face, but
Only two blisters having no use of them in this world full of fakes!

One may have wealth and courage, but they all get nullified, if
One has no knowledge about anything in this world that deceives
All by duplicate ones in all walks of life making use of baseless
Desire of one in acquiring all that glitters as something valuable!

When the heart is ready to be lured sans knowledge to realize
Truth in all, the intelligent one has easy chance to deceive fools!
It's like the foolish moth rushing towards fire only to be burnt
Soon just to end precious life for the sake of nothing in the world!

Ramesh T A
A Paradise Only For Me!

Paradise is always open for me;  
Flowers all always bloom for me;  
Lady love always spread lap for me;  
Nightingales always sing songs for me;  
For, paradise is born only for me!

If I leave the place they also leave;  
For, they love for my beauty;  
They always praise for my love;  
They always see me as angel!  
They believe my words as true!

Paradise is always open for me;  
Flowers all always bloom for me;  
Lady love always spread lap for me;  
Nightingales always sing songs for me;  
For, paradise is born only for me!

My Govt. is gathering Art House  
For nightingales, peacocks, swans,  
Skylarks, parrots and phoenix!  
For, I am a free bird too, a poet  
Born to rule the world by poetry!

Paradise is always open for me;  
Flowers all always bloom for me;  
Lady love always spread lap for me;  
Nightingales always sing songs for me;  
For, paradise is born only for me!

Ramesh T A
A Paradise To Llive!

Raining, raining and it is going on raining everyday; 
Yet, mild sunshine, cool breeze and pleasant climate 
Make one feel that the coastal town has become a nice 
Hill station with green trees and smooth traffic here!

Nature is bestowing its best climate to maintain good 
Health to all people in this small French town here..;
Sea shore, beautiful park and neat roads in the town 
Give the impression of an European town in India here!

This erstwhile French colony, Pondicherry is beautiful 
As left by the French colonial power in the 1950s here; 
After seeing so many cities and towns, one will surely 
Appreciate this town as best one for human living ever!

Nature and modern amenities of civilization keep this 
Erstwhile French town a paradise to live sure forever!

Ramesh T A
A Park

Heaven above

And paradise below

It's the park!

Ramesh T A
A Park Of Pleasure!

What a drowsy atmosphere prevails here,
When the lousy sphere is full of fear!
Only green grass everywhere one could see!
In the heart there stands a beautiful dome.
Is it the souvenir of that Xanadu’s Kubla dome?
Four parts filled with green grasses
And the trees of many branches
Fortifying them all like good fences,
The Park welcomes one and all!
Not only multi-coloured butter flies fly there
But also mellifluous dream angles lie there!
Indeed it’s a place meant for pleasure!

Ramesh T A
A Passing Cloud!

As a passing cloud
Worries may come and go
But life will go on!

Ramesh T A
A Passion For Money!

Dollar, Euro, Pound, Yen, Dinar or Rupee currencies,
Money passion drives one deep even into the abyss!
Money passion never stops even the sea shrinks to nil
And ends not even camel goes through the eye of needle!

No one can fight in the court to win justice without money;
No one can run politics and win in election without money;
No one can get educated to live quality life without money;
No one can live life as wished in the world without money!

What is God – love or truth or justice or power or money?
Many opt for money as with money only everything is done!
Without money there is nothing in this material world;
Without spiritual grace there is no place in the other world!

As in God everything is contained in money in this world
Why there is so much passion for money let the futures tell!
But just way is first one should earn name by one’s work skill
And by perfection achieve position, power, fame and money!

Ramesh T A
A Passionate Kiss!

Passionate kiss

Makes one forget the world

If it's sudden!

Ramesh T A
A Path Shown By God!

I cannot rely on anyone;
I cannot believe on anything;
God is controlling everything!
I am leading life as to His will.

My plan has been disturbed;
My path has been dislocated;
I have been left abandoned;
I am going as to God’s will now.

The cool I maintain in this way
Many believe that I am well of
And feel jealousy and harmful
Making complications amplified!

With patience and resourcefulness
I go on trusting only on God’s help apt!

Ramesh T A
A Peace To Pieces!

Urbanization and industrialization
Have made peace go to pieces
By population, pollution, noise, wars!

Ramesh T A
A Peaceful Nature!

Beyond vertical limit on top of world
Peace and calm in so extreme chill are!

But there too endless war goes on....
Due to ideology, religion and race
Between nations on boundary dispute!

All ideas spring from Nature divine,
Fall down as rivers of religion to reach
And become one with ocean of one God!

Wind, water, land, fire and space of Nature
Sans difference approach all in same way!

Why can't all with the same nature see
And move with all in the world forever?

Why does this blood thirsty nature of man
As animals prevail in peaceful Nature too?

Ramesh T A
A Pearl!

Secretion engulfs
A dropp of rain or dirt in oyster
To produce Pearl!

Ramesh T A
A Pennywise Pound Foolish Policy!

The more you spend the more you will be wanting!
The limit where can be fixed for the round world?
Price of everything is going on the route of no return!
Govt. levies taxes in every possible item to spend all!
Who can bell the cat or let the cat out of the bag ever?
Govt. steers rudderless ship without compass of direction!
Pollution, deforestation, space exploration go on endless!
The fascist rule in democratic guise misleads the people;
Dynastic governing class exploit all to enjoy power ever!
Pennywise pound foolish method of doing things spoils all
Wise method of dealing things needs administrators to follow
To cope with mounting problems of nation to brink of chaos!
Realisation of critical situation of things all should need to have
Before venturing on wasteful matters to create golden world!

Ramesh T A
A Pepper Power!

Pepper is a minute
Granule, but its taste is
Powerful to know ever!

Ramesh T A
A Perfect End!

Earthquakes, cyclones and volcanoes erupting
Life goes on in other parts of the world as usual!
Fate of one functions as fortune for the other
And this is called irony of fate in world life ever!

Time surveying all happenings sans fail and
Life of all pulls on as slave of time waiting next!
If it is you today, tomorrow who knows I or he
May face the same experience sans a stop.....!

Life to be meaningful and a lesson for all to learn
We have to do the best in all our efforts sure....!
Neither bothering about reward nor any return
We should go ahead with an ambition clear ever!

Sitting on hot bed we cannot dream of paradise;
But a smooth departure to peace is perfect end!

Ramesh T A
A Perfect Performance Is Rare Gift!

Finding faults is easy way of making negative criticism;
Knowing the full picture to suggest good ideas is best
And the way constructive criticism can be made, if one
Has qualification, erudition and capability to assess well!

Creative efforts going natural on a right course are not in
The hands of a performer and also the case with the end!
Poetry is not journalism that takes all things as grist in its mill
To grind out fine presentation of incidence as information!

Now, some sort of new poetic form has entered into the field
Of journalism too making its presence in some web magazines!
But natural expression of ideas by the experts too is rare and
Making of a perfect ending is a God given gift to a few only…!

Learning poetic techniques and writing poetry may be the way
To create poetry, but performing naturally to produce poetry
With a perfect ending is a God given gift to some rare ones
Born for doing such a feat in the field of world literature sure!

Ramesh T A
A Perfect World!

Approach of heart and not mind is ever needed
For the making of a perfect world to be just!

Good desires of heart can be fulfilled only
If the atmosphere is governed by affection!

Justice should be based on settlement of case
But never based on deciding matter by law only!

Never should the law punish the good on any ground;
But it should not fail to punish the bad by loop holes!

Investigations should be thorough to know culprits;
Critical observations should be to save the innocents!

World will not be perfect as long as loop holes of law
Help all criminals escape always from the clutches of law!

Justice should ever be just and never just ice
That melts at anytime into water and escapes out!

Ramesh T A
A Perfection Beauty Is!

Beauty lies in Poetry
Beauty lies in Art
Beauty lies in perfection
Beauty is adequate expression
Nothing more and nothing less
Whether it is Art or Poetry or Nature!

Ramesh T A
A Perfection!

Love and knowledge
Perfects one to be free
To attain peace and joy!

Ramesh T A
A Permanence Of Spirit!

Spirit within activates heart and mind;
But mind without reason never believes!

Most of men believe physical is real;
Physical is perishable and not perfect!
Heart believes based on conviction!

Mind controls as long as concentration is;
Without spirit human is nothing but wood!

Communion of soul and Universal one is bliss;
Spiritual love is everlasting one as it's real!

Spirit of Nature inspires and energises soul!
Harmony with Nature brings peace and joy;
Real life is enjoyed only in Nature all pervading.

Realising soul and spirit in Nature brightens self
Full of energy, inspiration and elevating high ever!

Ramesh T A
A Permanent Poet!

Poet who makes a mark
And has a place in all hearts
Lives forever and ever!

Ramesh T A
A Permanent Solution To Israel-Palestine Conflict!

All terrorist activities have grown up as huge tree with many branches covering the whole world because of the unresolved continuing dispute between Israel and Palestine in conflicts!

Diplomatic talks go on besides clashes between those two races; Entire world has consequently been split into two enemy armies fighting in bloody battle between Jew-Christians and Islamists!

Great leaders on both sides have died, but battle still continues; Hamas, Hezbollah, Al Qaeda and ISIS clash against Mosad and others; Islamic terrorists now keep the whole world under threat of terror!

Just solution to stop the conflict lies in creation of two States keeping into consideration border, security, weapons and resources in light of the fact that they coexist as friendly neighbours sure...!

Many prefer two State solution instead of one State for both forever; No stone seems to be not turned to come to this arrangement finally; Opposition and agreement on this solution are there for finalization!

Permanent peace can be arrived at, if both sides sit and talk well; Quite a few negotiations with each by UN agents seems to plausible; Resolving the dispute so, surely world peace can be achieved sooner!

Separate State-hoods for Palestine and Israel are the best solution; That's the best way nations feel for bringing peace between the two; Unanimous approval by both surely will pave the way for settlement...!

Various interlocutors are there from many nations to do this good job; World peace is within reach now, if great nations join in this venture; X or Y may not be accepting this just to perpetrate turmoil in world!

Years of this kind of conflict has to be resolved, when time is ripe; Zeroing to this point by all nations, Israel and Palestine can coexist!

Ramesh T A
A Permanent Thing!

Life is not permanent here;
Earth is not permanent here;
Stars are not permanent there.

Man cannot live here forever;
Gold can't be unearthed forever;
Oil cannot be sucked out forever.

Nothing is permanent on the Earth;
Sun is also not permanent in the Sky!
So, what is permanent forever here?

Vegetables and fruits are perishable;
Human body is also an item perishable;
So, how can earthquakes or tsunamis be stopped?

Materials perish but the spirit only remains the same
As energy can neither be created nor destroyed!

Ramesh T A
Flowers are never insipid to see at anytime!
Freshness of flowers has no comparison!
Flowers are best gifts to promote love ever!
What a creation flowers are in the world!

For giving and taking flowers are ever wonderful!
Flowers catch heart and mind wherever it is!
Fragrance of flowers brings thoughts sweet!
Beauty of flowers is eternal as Nature is sure!

Everyday a fresh flower blooms as new poem
That absorbs heart, mind and soul to glory sure!
Within a short duration how much it absorbs
And remains in mind ever after flower fades away!

One can live long but can one make a mark forever
As the fragrant flower full of colour and freshness?

Ramesh T A
A Picture I Paint In Poetry!

A beautiful evening it is the light greyish-blue sky with the touch of Rose cotton clouds just before sunset giving a lively look of unique And wonderful picture sure whoever looks at the sky by chance...!

My mind centred at the beauty of such a lovely evening urges my Poetic nature to compose a nice tribute as my remembrance and For sharing this beauty of Nature to all somehow or other just now!

Indeed words are the paint in the hands of an artist to draw such A wonderful picture in an extempore poem I am fond of always to Express my feeling and gratitude to Nature for all its feasts to eyes!

Unlike others I am always attracted towards Nature, whatever may Be the work I may have to involve myself, as a pause in-between The progress of duty usual or urgent as a habit of doing anything!

Naturally, how can I miss the chance to do as I wish in drawing a Beautiful picture of Nature I cherish most and love long in my life?

Ramesh T A
A Pipe Dream!

A pipe dream
Deep poet indulges in
To produce poems!

Ramesh T A
A Pitiable Country In The World!

Can a country become like America
And do whatever it says as it pleases?
Such a jingoistic country says tall
Just being an alley of NATO in Asia!

Says it is in the war on terror too with
USA and other western countries ever;
But always uses the funds getting from
US to utilize it for facilitating terrorists!

After the Afghan war, it gives safe haven
To terrorist organization to face neighbour
Utilizing terror as proxy war without ever
Involving its own army fearing defeat sure!

Such a country can ever be a good friend
To any neighbour or country in the world?

Ramesh T A
A Pitiable State Of National Treasures!

Old unfinished Temple pillars and statues are misplaced in the beach
Decorating around statues of leaders and the park areas of the town
Like desert Ozymandias lying in debris ravaged by Nature by time!
How carelessly have they tarnished the value of national treasures!

The bungling of bureaucrats has done so as in other matters, it seems!
The artistic pillar works of divine nature absorb mind, heart and soul!
It is disheartening to see that they are left to lose lustre and grandeur
Being exposed to open weather both hot-cold and rains without respite!

Lord Vishnu statue standing out as security guard of the whole park
For many years withstanding the weather was the most pitiable sight!
Due to the devotees’ efforts the Lord was housed in steel sheet tent
And now decorated with ornaments and dress His blessings bring joy!

Children are tested with Jigsaw puzzles to ascertain and improve IQ;
Can’t the administration assemble the pillars to build a prayer hall
And place the Lord Vishnu interior for the devotees to pray for bliss?
Let valuable treasures of nation be cherished against wasteful designs!

Ramesh T A
A Pity Of Merworld!

In the water world mermaids and mermen live
Romantic life man and woman could not imagine!
Without knowing the value of romance world men
For short time gain destroyed the land by pollution!

After the whole habitat of man has become water world
Merworld feels pity for men and women for their loss!
Mermen and mermaids so search for littered lands available
For remaining humans to survive in romance at least now!

Relinquishing natural life man boasted himself of materialism
And material life deprived him of romantic life to tragedy!
The freedom enjoyed by beasts, birds and fish he lacked long
By destroying all species in exploitation of natural resources!

Instead of following 'live and let live' he followed 'live and let die'
Policy leading him to hell rather than heaven he dreamt long!

Ramesh T A
A Pity Poets Sans Readers!

Poets have become many;
But readers are very less!
Competition is among poets;
Who has to choose the best?

Players sans audience are bad!
Poems are for readers to praise;
But they have to hunt for readers!
It is a pity to see that happening!

Even poems are not up to the mark;
But all blabbers are published here!
Also friends praise in comments
And they are ranked among 500!

Classic, romantic and modern
Of the best past poets are there!
Along with them the shortcuts
Of poets of today are also there!

It’s a great pity to find such a thing
In the poetic website happening so!
Many poems of the said kind are
Hunted for running this website so!

Ramesh T A
A Place Of Peace!

THIRUCHENDUR!

Next day after finishing the morning chores at 6 am
They left Tuticorin for a holy shrine in Thiruchendur.

At 8 am reaching the Lord Muruga Temple they went in
For the dharshan of the Lord leaving Ram to see the sea!
Along with the trees and birds standing still
The deeply calm sea was waiting to worship
The Sun no sooner it came out of the clouds!
Moved by the pleasant atmosphere Ram mused over
The beauty of Nature aligning his pulse with the sea.
The simple harmonic motion of the waves of the sea
Inspired the rhythmic pulse of his heart and verse!
Wearing the garland of victory in war and a lotus
In hand Lord Muruga settled in Thiruchendur
To bloom the life of his devotees struggling in
The sea of life to reach successfully the shore!
Time went without the notice of Ram in divine bliss
Till his pals returned to have breakfast in a hotel there!
After 9.30 am they left for Kanyakumari enjoying
The scenic beauty of hills, windmills, birds and
Green fields on the way to the end point of India!

Ramesh T A
Farm house is where one can dream of peaceful life
Enjoying the beauty of brook running across green
Fields with fruit trees growing at equal distances
With creeping plants embracing them like dames
Reclining on the chest of handsome guys of nice
And fine calibre to protect lifelong with all necessities!

Around the country houses of the 18th century still
In vogue surrounded by bush flowers making it look
More beautiful than a beautician can create by his
Art in any modern city places in the civilized world
With full of colourful birds singing in musical voices
Engaging with all the seven notes of music to wonder!

Only in artful pictures such scenes one can have seen
That when one sees with one's own eyes how wonderful
The place will look like one can only dream and imagine
To visualize the whole atmosphere of peace and tranquility
One can be fortunate to have chance to live life in the world
Among birds, flowers and fruit orchards near a small river!

Beyond them there are hills going down as far as eye can see
With a lot of tiny houses situated near a big lake surrounded
By green meadows where children can enjoy playing all......
Kinds of games they can only know leaving free their parents
To sit on chairs placed before the lake to see visitors going
Round it on horse backs till the evening comes for the day to end!

Ramesh T A
A Place Of Romantic Mood!

Romantic mood comes whenever we see a park!
One such park is a centre of attraction in our town;
Green lawn all around the park with open space wide
And trees with wide branches giving shade make it
A romantic place for lovers and tourists to enjoy here!
The parks of this kind I have seen in hill stations where
The climate is a plus point for tourists’ attraction there!
Varieties of flowers of different colours and fragrance
And fountains ejecting high up water give thrilling joy!
Blue sky, green grass lawn, fountain waters cooling all
And tall trees of big branches giving shade all over there
Make the park a small paradise for lovers and tourists!
For regaining joyful mood and relaxing in romantic mood
Where can we go for except the park of paradise here?

Ramesh T A
A Place To Relax And Recoup Spirit!

Green meadows, misty mountains and bright flowers
Inviting all romantic lovers sing new songs of joy
On hill stations for celebrating summer spring season!

Fun and pageantry as in Brazil carnival festivals abound
In Blue Mountains and Queen of hills in the southern nation
Enriching the cool atmosphere with hilarious mood for all!

What a paradise in which we all have time to enjoy life here
When hot climate in the plains drives all places to drought
Making men seek water forever to fight against dehydration!

But in the snow capped mountains of Himalayas there’s calm
Amidst beautiful scenes of lakes and flowers of sweet blossoming
To immerse all in eternal joy only for the innocent people there!

Men of all nationalities congregate in the beautiful paradise
Just to forget all worries and cares to relax and recoup spirit!

Ramesh T A
A Planet Called Earth!

There is only one human world in the whole of the Universe;  
Nowhere else such a world can be seen by explorations so far; 
Heat increased by greenhouse effect caused by pollution by 
The melting of polar ice may increase sea levels to water world!

Before such a state comes, let us be wise enough to save it 
From such a calamity making all live on ships and boats ever; 
If it so happens, then we have to search for landmass available 
And settle there in congestion to pull on our lives sans respite!

Now wars are going between terrorists and peace loving countries; 
If this state of affair increased by action and reaction as in 
A chain reaction, the world may be doomed to destruction one day 
Leaving no lives to live on the wasteland as poison will kill all!

Otherwise, too much pollution changing climate beyond recovery ever 
May lead to sudden storms with heaviest rains destroying buildings, 
Pulling down trees and floods driving everything including men, all 
Animals, all materials as missiles flying far away to be obliterated!

If not so, earthquakes and volcanic eruptions taking place all over 
The world may destroy everything as it had happened once in Pompeii 
Making Earth as museum for the Space travelling aliens to come and see 
All these strange things as in great exhibition we people see ever!

Destruction of world by water or wind or fire or tremor will wipe out 
A thing called planet Earth, if no precautionary measures are well 
Taken now, when we are well and better with all resources remaining 
In good condition with realization sensible and united for peace sure!

Ramesh T A
A Planet Of Love!

Star crossed lovers follow Venus
Enchanted by Cupid's influence!
Roaming in Arcadia for romance
Lovers' paradise is a big dream!

Hand in hand Romeo and Juliet
Dance across green meadows
Enjoying fragrance of exotic flowers
Morn till night and in dream all night!

Adam and Eve, Paris and Helen,
Romeo and Juliet and many lovers
Still enjoy wonderful time in romance
All over the world alone in the Universe!

Earth, the paradise of Universe,
I wonder, is only planet of love...!

Ramesh T A
A Play Of Life!

What is the use of just pulling on the days in the world?
It is meaningless to do so without knowing the purpose!
The purpose of life everyone should know and go ahead;
Knowing it is the first duty of everyone to make it fruitful!

The purpose of living is to enjoy life to the full in the world;
Many feel without pondering over the purpose any longer!
It is like travelling in a train without knowing the destination!
If we have an idea of it our destination will be fruitful indeed!

Energy is everywhere in the Universe powering all matters;
Energy can neither be created nor destroyed, science says!
Energy in the form of various matters is active as to its span;
Energy finishing its course becomes one again with the whole!

The spirit making energy to matter and matter to energy is ever
Going on endless and man is just a temporary being in the play!

Ramesh T A
A Play Of Love And Lust In Human Life!

Kindled by romantic desire, human life oscillates between love and lust; Love and lust are like growing flower plant and plucking away flower that Human sense has to maintain neutrality between divine and animal natures All through the long or short journey of human life in the world ever...!

Human life in the world in a broad sense is a test between love and lust And in which how human balances heart's desire and mental dreams ever is What the deciding factor of one's life between heaven and hell in the world To enjoy between pleasure and pain well in the journey of life till the end!

It is like the competition between the wise and the intelligent men based on Experience and knowledge, culture and civilization, tradition and modernity, Emotion and intellect, conscience and passion, morality and sensuality, divine Nature and animal nature, heart and mind, time and place and fate and wisdom!

Deep love based lust and mere lust based love are the open choice for all to Choose and based on one's choice, nature and character are judged in one's life!

Ramesh T A
A Play Of Rain!

Rain lashed out with lighting and thunder for two days!
Then there was no rain but clouds were moving in the sky.
People going to the beach carried umbrellas with them;
After a day believing there won’t be rain went Scot-free!

Many groups of people regularly come and talk for hours
Making beach a pastime club rather than a walking place
And make disturbances to peace loving calm people there!
Nature played a game to teach them all a lesson forever!

After a walk I sat in my usual place for 10 minute rest there;
A group of people talking at high pitch were without umbrellas;
A slight drizzle provoked them to get up and hurry for home;
Then the falling dropp of rain stopped and I started home.

But seeing no heavy rain other groups again started talking
When I reached the other end again rain started to fall....
All the groups rushed out to home without anyone sitting there;
Again the rain stopped and I had a small snack before return!

After a 5 minute halt I started walking home without umbrella;
Everywhere the roads and pavements were clean due to rain;
Everything looked clean and orderly without govt. cleaning daily!
When I just entered my home heavy rain fell down like hell long!

Ramesh T A
A Pleasant Day!

Squirrels play everywhere in the house with their
Special sound signalling to their friends to meet!
A busy day has to be tackled with companions better
So that they can have enjoyable time unlike ever...!

Crows have gone away somewhere and their noise has
Also not felt much today unlike other days before!
Other birds like parrot and myna are out of station
Perhaps and is why they are not seen from the morn!

With the mild heat of the day, it's pleasant today sure
creating a conducive atmosphere to go ahead with work!
Many ideas are forming in mind and many are disappearing
Before they are harnessed for a better purpose today..!

Nature and nurture are unless well accommodated in life,
No way synchronization is possible to have harmony with
Nature and humanity despite a lot of modern day marvels
Though achieved never seem to be of any great upliftment!

Ramesh T A
A Pleasur Of Beauty!

Pleasure in everything is what everyone wants to enjoy in life! For, pleasure only gives joy and satisfaction one is longing for. Beauty kindles mood, desire and inspires boldness to go ahead To enjoy life in pleasure that makes one free from all worries..!

Adequate natural expression of physique is beauty that attracts One towards a lady or flower or art or anything at first in the world; Enjoying life without hurting beauty is an art similar to one who Smells the fragrance of flower sans destroying the beauty anyway!

Giving pleasure sans giving pain one can enjoy life in joy long in The world if one loves and esteems high beauty in everything ever! But love only bears pain too while enjoying pleasure on mutual Agreement between two committed soulmates in the world life sure!

If one lives under the care of beauty and love, one really enjoys All the pleasures of heaven till the end of one's life in this world!

Ramesh T A
A Pleasure Incredible!

Trekking the mountain to touch the peak tip to know the altitude
Or travelling the contours of land unknown gives great pleasure!
Plough the field deep to see rich growth of crops and harvest;
Dive deep to the ocean to enjoy beauty incredible so far in life!

Physical perception of human and Nature are always a pleasure
That brings delight enjoyable through out the life in the world!
Due to physical perception we can decipher the nature of beauty,
Understand the depth of pleasure enjoyable to the core of things!

All pervading matters made up of five elements are a wonder!
The spirit activating everything everywhere is enlightening all!
And the energy giving power to do all heavy and light duties
Evolution proceeds modifying and developing all to perfection!

Permanence and perfection are achieved by discipline and patience,
Without which nothing worthwhile can be achieved anywhere by all!

Ramesh T A
A Pleasure Nature Is Forever!

Pleasure for the eyes beauty is!
Pleasure for the nose fragrance is!
Pleasure for the ears music is!
Pleasure for the lips kiss is!

Pleasure for the body breeze is!
Pleasure for the mind meditation is!
Pleasure for the soul mysticism is!

Pleasure for five senses they get themselves!
Pleasure for five elements they get themselves!

Pleasure for all Nature only gives forever!
So, let us preserve Nature to make world better
For the future generation to enjoy pleasure better!

Ramesh T A
A Pleasure To Travel In Train!

Travelling gives great relief and pleasure;
To enjoy that pleasure, I prefer to travel
In train with my dear ones always to.....
Travelling in car or bus or plane or ship!

Instead of sitting in one place, one can go
Round the train, when one feels bored and
Can get snacks at the pantry car as we wish
Along with friends to talk a lot about all...!

Also, while sitting near the window one can
See natural scenes changing from place to place;
Especially green fields, trees, hills, tunnels, rivers
And ponds besides colourful sky and clouds...!

Dreams and fantasy surely with imagination
Truly takes one to a state of exhilaration long!
What a relief, joy and bliss one gets in musing
Over beautiful things one cannot see otherwise!

Ramesh T A
A Poem Full Of Ideas!

Sky full of clouds,
Land full of flowers,
Mind full of worries,
Heart full of wishes,
River full of ripples,
Bank full of rocks,
Thoughts full of desire,
Songs full of love,
Earth full of resources,
Ocean full of fishes,
Days full of sunshine,
Nights full of stars,
Papers full of poems,
Poet writes on all!

Ramesh T A
A Poem; 1914, World War II!

Seasonal change of life situation
Due to war depicted by Wilfred Owen
Weaves a fabric rich in texture
To remember that World War I
As a rich souvenir beautiful!

Ramesh T A
A Poet Ever!

Be free, frank and fearless
Never be mean, cruel and false
If you want to be a poet ever!

Ramesh T A
A Poet In Reality!

stage talk is rare in my life;
But conversation is my fun ever!
I was dreaming to become writer;
But I didn't have time to do so!

Time went on with that zeal long;
Almost two decades had passed away;
With heavy heart I expressed my
Deep feeling in a small poem only!

That my friend appreciated and also,
Advised me to write poems and ideas
In a diary as they seemed to be valuable
And writing of poetry began so then on!

Despite all inconveniences and disturbances
I haven been writing, writing and writing
Poems after poems endless and still it is
Going on nonstop, for, I am a Poet in reality!

Ramesh T A
A Poet Is A Worker For Humanity!

World farmers, soldiers and poets do job selfless!
Ploughing the field to produce food for the world
Farmers never enjoy holidays like others do ever!

Soldiers working in harsh terrain against all odds
Do work for the sake of work to save nations ever!
Creating heartfelt ideas day or night or anytime
Poets forget themselves of their own life and joy!

Writing for humanity what the other pillars of govt.
In democracy make or mar, poets roar to sustain all!
The failures of bureaucracy, judiciary and legislature
Poets point out to correct all to go on right route ever!

Poetic out put ever increases by modern gadgets too
Like computers more than before or other professions;
Technology is blessing in disguise for poets to boost all!

Ramesh T A
A Poet Is Born!

I would have become either a doctor or a physicist;  
Neither of the two have I become after my studies;  
My parents’ dream of me as an engineer didn’t happen.  
My internal urge to write novel or articles made me crazy;  
But my family business works made me always busy.  
Whenever the urge to write came I deplored in loneliness;  
Likewise days, weeks, months and years went away fast!  
I poetically wrote about my unfulfilled plight to my friend;  
Words flowed from the heart, mind and soul without stop!  
I relaised why I couldn’t write poetry whenever urge pressed!  
It took me 17 years to write flowing poetry for 20 years!  
This is how a natural poet is born in reality by surprise!  
Our fascination may be different from our natural urge;  
But our inner spirit expresses itself by our own natural urge!

Ramesh T A
A Poet Of Poets!

Poet of poets is rare to find!
Verse after verse he weaves
His inspired feelings and ideas,
Inspire poets more than readers!

Inspired poets evolve ideas
To excel the original composition
And glitter with pomp and fame!
Top poets become invisible to all!

As the Supreme Being, poet of poets
Does become invisible influence?
A thought lingers on often in mind
When thinking of poet of poets!

His ideas reflected in various versions
In poems innumerable see I then
Through various poets coming up
The ladder of fame everyday here!

Influencing all remaining invisible
The Supreme Being remains silent!
So, is it fair influencing all, top poet
In original composition remain nil?

It makes meaningless for the great
As God who is criticized and disliked
Out of jealousy or otherwise here
By poets common as grass on meadow!

Can lion eat grass as cows do ever?
Or, can cows or goats become lions?
When will the great be visible to all
And be appreciated by all in this world?

Ramesh T A
A Poet Prophet!

Poet prophesy's true
And never fail to happen
To guide all safe!

Ramesh T A
A Poet To The Core!

Crows are many but Nightingales are rare in poetry!
Poets are the prophets of mankind guiding all safe,
Whose prophesies never fail and happen in the future;
They make a mark forever and have a place forever!

Shakespeare, mirror of people reflects truth even now;
Miltonic music in words roars truth of his name ever!
Wordsworth mystically probes Nature to say divine truth!
Coleridge magically bridges dreams past, present and future!

Browning’s monologue, my last Duchess touches even now;
His Moon and everybody’s Moon maroons men in love!
Musical words with meaningful message moves hearts in
Majestic poetry of the past forever and ever inspiring all!

Somewhere sometime somehow lively poem hits lovely;
But the blare of blabbers blurs the beauty of it soon here!

Ramesh T A
A Poet, Friend Of The World!

I have been writing poems long
To share my ideas, views, opinions.
World has become a global village
By this website called poetfreak!

Poems of all sizes appear 24 hours!
Anyone can write one's feelings, ideas
For all to share and comment ever!
It's an open free ground to play always!

Sports was created to kill war nature;
Poems are created to express free
All matters from sex to space ever
For all to share and add new ideas!

Among poets there is no enmity;
For, poets are friends of the world!

Ramesh T A
A Poetic Blessing In Disguise!

Interest in poetry has turned me into a poet
Inspired by the beauty of Nature since long!
Paradise and heaven I have seen in my dreams
That I have converted into poems many ever..!

Many losses I have met with in my long life
I have expressed in poetry and forgotten long!
Poetry is the best panacea I have discovered
At the peak of my melancholic moments in life!

I enjoy pleasure in poetry like a romantic
Hero in paradise feeling elated in mind seeing
The beauty of Nature that sways heart and soul
Making one forget all ills inspired by its spell!

Living in such a paradise, poetry has brought
Heaven very nearby in my life in such a way that
All I say in words of breath are the outcome of
Inspired mood that is a blessing in disguise..!

Ramesh T A
A Poetic Communication!

Poetic communication gives pleasure unique
Nothing else can indeed replace, it seems....!

Poets as friends bridge the gap between nations
And friendly exchange of ideas solves all ills
Promoting universal brotherhood and peace!

Poets from Brazil to Australia, New York to...
South Africa mark their impression very well
With solid ideas by musical words wonderful!

Nothing seems to match with this kind of fun
That develops long standing friendship sure!

Poetry is a unique art that creates joy endless
Sustaining successful relationship forever.....!

Interest, inspiration and joy generated by....
This communication system is wonderful indeed!

Ramesh T A
A Poetic Farce!

Poetry written
In SMS language or otherwise
Is a farce!

Ramesh T A
A Poetic Hunter's Day!

About what shall I write today? Think I!
Starting from letter A, I can write till Z
Any poem, but it's not so interesting too!

Sonnets of different models I have tried,
Written so many poems on all topics......;
Yet, sonnet looks to be best to write ever!

Again I step upon the known path as usual
Whether it is desert or green meadow......!
Heard melodies are sweeter than unheard!

My aim is always good, great and solid...!
I have crossed more than half of the part;
Hope you can guess what I mean at here!

Lion cannot always look for a big prey....;
Sometime it has to be satisfied by a hare!

Ramesh T A
A Poetic Journey!

Love of writing poetry with inspiration from Nature is a pleasure
Enjoy everyday for years together many are not aware of ever;
Words flow in waves in the lines of verse I weave with my heart
Moving by the music of dance the rhythm makes in all the lines!

This pleasure of writing poetry I have been enjoying for more than
Four decades immediately after completing college education sure;
Yet, I do not feel any boredom or monotony in weaving verses of
My choice I choose everyday night and day with nonstop zeal ever!

Remuneration I get from writing or not I am not worried about ever;
But the pleasure I enjoy gives me unique satisfaction none can in
This world of no surety for anything we do from morn till night from
Birth to death as this becoming a sure record of history all see ever!

Time and mind moving as waves dance with joy of great satisfaction
Making every moment thrilling and fast moving like the fiver goes on
Meandering through forests and plains till it mingles one with the sea
Submerging with the ocean at last as the final destination of journey!

Ramesh T A
A Poetic Pleasure!

Beautiful poems poets weave
As the world famous Kashmir carpet
Everybody appreciates forever!

As medieval Asians flew on
In poems lovers fly on magic carpet
Seeing the beauty of the world!

Travelling over mountains and hills
Valleys and rivers poet enjoys Nature
In all its splendour before he sings!

Songs composed of music and poetry
Everybody loves to muse in mirthful way
For all occasions in life for fun!

Fancy of imagination flies on carpet
Weaved beautifully by poetic skill exotic
Over lands and seas full of mysteries!

Lovers enjoy life with poetic pleasure
Enriching joy with bliss in Nature
Quite heavenly in the earthly paradise!

Seeing things as they really are from above
Flying enthusiastically erotic hearts know
The whole range of happiness endless!

Also they dive deep into the oceans of joy
To explore pleasures of all kinds accumulating
They enjoy the more they have to see!

As the fish they swim in pleasure under
The exotic heaven of never ending deep sea
Till satiation is satisfactorily attained!

Such is the enjoyable life peace lovers envisage
Only in the world of peace mankind has to strive
To achieve with the cooperation of all in life!
Inspiring such a state of one world of mankind
Is the dream and determination of poets great
Sure to achieve sooner or later for the good of all!

Ramesh T A
A Poetic Universe!

Sans knowing what's one's actual talent, interest and desire, one cannot jump into any activity as a Settled way to do something great for satisfaction!

This happens indeed in the field of writing sure; One may desire to write articles, stories and novels; But one's business and family affairs obstruct all!

I have experienced this kind of obstruction for more Than one and half decades before realizing that I have Deep interest and talent mainly in writing poetry ever!

With all pent up feelings, long obstructed desire and Burning heart I head long plunged into writing poems; But my poetic exploration of this Universe is endless!

There is no way to find beginning and end in poetic Universe even after writing thousands of poems long!

Ramesh T A
A Poetry Flower!

Garden of flowers are a paradise on Earth!
Stalking in the garden really is joyful ever;
How many kind of flowers bloom everyday!
All are one of a kind we admire in wonder!

Poetry website is colourful garden of poems
Full of new and inspiring poems to read;
Everyday how many flowers bloom so well!
Only God can have such a power to create
New species to live with other species in peace.

Poet is a great creator following in God's steps;
Colourful, fragrant and novel flowers catch
The attention of all new or old at anytime.
These flowers are born to love all to be joyful
And enjoy life to the full before rest in peace!

Ramesh T A
A Poetry Infinite!

Though brief
Poetry takes somewhere high
In infinity!

Ramesh T A
A Poetry Picture!

Pictures are painted

Not with brush or pencil ever

But by pen in poetry!

Ramesh T A
A Poetry River

Poem should be
A free flowing
Smooth river!

Ramesh T A
A Point Of No Return!

Without realizing the truth and thinking about future
Wounding the hearts of others is easy in a state of rage
And unwanted words too may one say without sense...;
But can such words be withdrawn or cleared afterwards?

Control of tongue, when lost, cannot be useful to maintain
Good relationship with anyone for living a good life long!
Many family unities are broken and families are scattered
And many live in isolation due to that kind of bad behaviour!

At least decent behaviour and good manners help in one's life,
If culture is not followed or civilization is not honoured today!
Without realizing these basic things, if some live in dark age,
How can relationship be maintained with such guys and girls!

Knowing this and if some adjust to such people believing that
With the passage of time everything will become all right, it is
Only a waste of time and energy we see in the world today and
Can only pray for good time to return better late than never...!

Ramesh T A
A Political Picture Of Nations!

Many nations have myriad politicians
Never the same as the politicians of Golden Age!
In all matters politics looms large;
Like a gas everywhere it occupies all.
In the hands of the politicians nation reels recklessly.

There was then democracy of the people;
Now there is Dictatorship of money.
They change everything at their will.
Right can be wrong, wrong can be right!
A lie said thousand times can become a truth!

Majority of the people vote for the wrong person.
Then that wrong person is the right leader!
How is it? Not to be criticised.
That is democracy accepted by all.

Philosopher Socrates never cared for money power
Nor he bothered about army of men too;
But he stood firmly for knowledge to the end.
Knowledge was power then;
Money is power now!

Socrates spoke on something;
Politicians speak on nothing.
They make big promises.
Catch votes with money,
But once to power they perform nothing.

Nothing will come out of nothing!
So, something will come out of something only!
Without investment no business can go on.
If something to be done something has to be given.
That is not corruption but it is commission.
To eliminate omission commission is instituted.
That is why hue and cry about commission
Or corruption are avoided and covered.

World nations had produced wonderful Epics in the past;
And no Epics worth remembering came thereafter!
Perhaps that is the reason they still rule the minds of all.
A new Epic has to be written to last longer so
In such a way as to replace the previous Epics.
Such an Epic can perhaps change the present day crises
And create a New World of love, liberty, justice,
Peace and prosperity people prefer most today!

Ramesh T A
A Politician!

Law makers
Should not be law breakers but
Politicians are!

Ramesh T A
A Politician's Job!

Promise a lot
But do all for self only
Politicians do!

Ramesh T A
A Pollution Preacher!

Advanced polluters
Have historical responsibility to mitigate
Global warming!

Ramesh T A
A Poor Miserable Man!

Rheum of my eyes keeps my vision blurred
And makes me not to see light rays of TV
Along with the white screen of Computer too!

Green leaves, trees and mountains cool view
And keep my eyes cool too and soothing ever
Making me indulge in reverie kindling ideas...!

Beautiful images of Nature urge to write poems
Full of romantic ideas to entertain and enlighten
Whoever takes time to have some resort there!

Birds, squirrels, peacocks and swans are happy
Being always in best of mood influenced by Nature
Directing their instinct to survive so ever and ever!

Poor intelligent man by his knowledge is miserable
Despite plenty of amazing things of Nature are there!

Ramesh T A
A Power Of Art!

Artistic picture kindles joy, grief, passion and feeling;
Creative skill of artist kindles imagination, dreams,
Vision and thoughts absorbing heart, mind and soul
And transports one to a state unbelievable otherwise!

Naked beauty kindles passion even to the grievous soul;
Beauty of Nature transports sorrowful one to paradise;
Depiction of life character is amazing to look at ever...;
Canvas of Universe kindles spiritual nature to life long!

Artistic depiction kindles passion, transports to heaven,
Absorbs heart, mind and soul and makes one a mystic
Due to the spell of art like the magic wand that does all
Things mesmerizing the mind to an incredible state sure!

The creativity of an artist with the power of imagination
Makes clear to visualize even the unknown and unknowable
Confining ideas within a form just as the symbol of things or
A notation Maths or Science says kindling intuition to know!

Ramesh T A
A Power Of Love Passion!

Love has a unique place none can have!
All gates open if love waits for entry;
No license, restriction what so ever it has!

Blonde skin, blue eyes, exquisite structure
Coupled with love how can anyone stop ever?
No heart is stubborn enough to restrict it!

Love and beauty when unite in one surely
There is nothing one can fail to achieve....
In world life full of laws and taboos ever!

Hero sans a beauty to love there's no romance
In any story of world we know so far ever....
From Romeo and Juliet to Titanic or Dr. Zhivago!

Passion of love is real power excelling all in world
Nothing can stop or surpass ever in life sure...!

Ramesh T A
A Power Of Poesy!

When everything makes one hopeless
Poetry gives power to fight for justice!
Power of poetry makes one free of fear
To be against all storms and cyclones!

What is not possible by other means
Is possible by poetry to achieve all!
Many have become poets to regain all
Lost by other ways of life in the world!

Shelley, Coleridge, Wordsworth, Keats
Yeats, Browning, Arnold and Auden
Have shown their valour by poetry ever
For the world to gain but not to lose
Anything ever with full of power sure!
Lets take the wine of poesy to win ever!

Ramesh T A
A Practice Of An Art!

Singing or dancing or speaking on the stage may look simple; It is like reciting an essay depicting the picture of a short story Needing strength to stand and deliver the message taking time!

Writing article, short story, novel and essay need concentration, Time and undisturbed atmosphere to develop and express ideas Sans any doubt and hesitation for the reading pleasure of all...!

Only a person thorough with one's art can do this job pretty well sure Accompanied by the aforesaid aspects facilitating to effect that work To the best one can unlike writing poetry needing mood or inspiration!

A disturbed mind with deeply affected emotion expresses such a thing In poetry, a most suitable form of art to express ideas not possible to do So in any other forms of writing in literature to give vent to one's feeling!

Despite disturbances, a poet writes poetry that flashes in mind in words That come handy at that time that last forever immortalizing poet sure! Becoming a poet, one can't be any other kind of artist and wish to be so!

Ramesh T A
A Precarious World!

Earthquakes and rains lash in Sikkim;
Floods inundate villages in Odissa;
Heavy rain exceeds limits in Assam;
Symptoms of cyclones loom large
In the land of dense population.....!

Earthquakes and typhoons cause havoc
In the Eastern island nations of the world;
Evacuated people seek asylum in schools
And the plight of grief continues for months;
This is the picture of parts of world now!

The precarious nature of world we live in
After a few months is forgotten by all!
But will the destiny of the world be changed
By our knowledge and power ever in future?

Ramesh T A
A Precious Moon!

Auspicious or not
Crescent Moon is always
Precious to Poets!

Ramesh T A
A Preparation For Inspiried Glow To Win!

Meditation in Nature nourishes spirit with strength
Making human stature glow with brightness ever!
Mystical communion with Nature gives spiritual joy!
Practice of meditation begins human realisation of
Divine in Nature quite amazing to enjoy forever!
Sitting erect with legs folded on the ground as flower,
Regulating breathing with eyes raised to middle of brows,
Concentrating on the golden seeds of lotus or glowing heart,
Mystics forget all around them in a state of trance long!
Similar to one engaged with concentrated study of book
In a philosophical pursuit to know the truth in full one
Does meditation to know past, present and future bright!
The golden glow of body with brilliant eyes shining bright
One comes to senses again to run world affairs to victory!

Ramesh T A
A Pretty Woman!

A pretty woman with dreaming eyes
Saw I in a dream island of peace
Full of greenery and flowers exotic!
We had the juice of choicest fruits
That made us energetic to roam
In the paradise of beauty and fun!
Entangled in great rapture both
flew in slow motion over flowers
spread all over green grass land!
How long in that state we were
nobody knew as the island was
meant for us only and not for others!
The pretty woman danced to the tune
Of break dance and ball with me
For long without change till the end!
She was delighted in my company
So much that she was not ready
To leave me even after evening!
I told her that I was a merman and
I had to go to the sea for night rest
But she glued herself to me in silence!
So, we went to the ocean bed
To have enjoyment to her pleasure
Till dawn without knowing time!
As soon as the dawn appeared
She disappeared without imprint
And I realised it was just a dream!

Ramesh T A
A Pride Of A Waning Beauty!

Even the crescent Moon waxes into full Moon as beautifully as a Flower blossoming from the bud to bloom into a full flower ever..! What a reception both have with the Moon accompanied by Stars Twinkling and flower being loved by buzzing beetles all day long!

Can such a natural reception the painted veil or gorgeously Decorated glittering beauty receive youth being spent on false Pride unlike the everlasting gold has everywhere in the world we Know till the end of time as mortal beauty doesn't have longevity?

Only the natural beauty has the eternal reception waxing or Waning, but never the Earthly temporary one having exit date! Knowing this truth, let not pride of some achievement by luck Take to the head to make all feel they are all eternal as real Stars!

Some with the short term encomiums that are not eternal ones, Believe and jump in glory they have done all to be prideful ever!

Ramesh T A
A Priest Of Love!

Priest of love ever
Wanders in Nature
To wonder at love!

Has Nature taught
Love for man in life
Or woman to man?

Whatever it is
He loves love
As he loves God!

He has no enemies
But only friends or
Companions of love!

But he takes gun
To shoot at terrorists
Only they kill men!

Love is useless
Before terrorists
Who kill all blind!

Love is great force
That sustains life
Forever and ever!

That's why ever
Priest of love
Prays for love!

Ramesh T A
A Priority Of Development!

Economic development of a nation depends on the overall progress in agriculture, industries, fishing, trade and service; Only surrealistic minds literally think and listlessly talk of progress in industries and trade at the expense of agriculture as best!

Fast progress is no doubt in the minds of all for prosperity that people want to see for a developing nation in the world economy! Can any nation go ahead with the development of big industries overlooking the agricultural development as the base of economy?

Why go for complicated argument, if we think in this simple way - Can we think, speak and do works sans taking food and water..? Without taking the first step, can we jump up to the top quickly? It is like without walking, one is thinking of running and flying fast!

No nation that has ignored and neglected agriculture can be healthy, strong and progressive as far as economy is concerned!

Ramesh T A
A Prison Camp: Earth

Crescent Moon hiding behind the clouds
Is watching what is happening in the beach!
Cyclonic storm has crossed the shore perfect;
But the sand thrown by it is still everywhere!

Nobody seems to clear the pavement of dust;
Rain everyday washes clear the sand residues;
Disorder caused by Nature is cleared by it
Before man takes action to do the job destined!

Sun in the morn and Moon in the night supervise
The activities of earthlings for judgment later on!
Man forgets the prison camp by its comforts
Nature has provided as a caring mother to child!

Earth is just one cell among many cells of Universe
Man is imprisoned for atonement before transfer!

Ramesh T A
A Professional Fluctuation!

With high hopes and low despair days are going on;
Each achievement brings doubts about my ability
And my capability to go ahead with my creativity
With the same confidence and guts as was before!

They say even Homer nods sometimes, though is a master
Capable of creating classical poetry world never can
Have a negative comment about his genius ever sure;
When that is so for the master, me a modernist is nil!

Everyday before starting my writing work, I feel as if
I am still a novice, but after creating a poem, i am
Elated to Everest height, when it comes out surprisingly
Better than before I have indulged in my pet creativity!

Is it due to my deep concern to produce a better poetry
Or is it due to my false image about my ability as a poet?
Than before

Ramesh T A
A Progress Of Free Life!

Goodness, kindness and frankness foster friends closer and closer than before
And their free, frank and fearless expressions make them most intimate ones
Making others follow suite their life style to enjoy life in true joy and pleasure ever!

Such friends' creative outputs reveal the greatness of romantic life to the world;
Poets of such nature have created immortal works for the world to know of truths
That are unknown earlier as best philosophical ones to cherish most in life ever!

Romantic life that was believed to be only happening in dreams can happen in reality
All have come to believe and live such a free life after romantic poet friends' poems
Have made great history in literature and still inspire high minds to live so!

The value of freedom and free life style flourish mainly due to romantic works
Based on philosophical truths breaking all fixed conventions that make men mad
And still such dogmatic ideas create hatred and wars among people of various creeds!

The duty of poetry still has more things to do in this world by way of romantic expressions
To inspire and instruct all progressive minds to go ahead with truth to fight all ills of society!

Ramesh T A
A Progress To A Philosophic Poet!

For making impossibility possible dreams are essential; 
Realities are adverse to dreams of high minds forever! 
Changes in society they wait to see happen long..., 
But realities are frustrating and obstructing all plans 
For the intellectuals to achieve all good things of dream! 
Change in society is possible by change in individuals; 
Attitude of individuals, if changed, society will change....

Educational institutes never give true knowledge at all; 
It doesn’t end there but begins if one goes to Nature, Arts 
And Science to know truth hidden in things everywhere! 
It’s not enough to spend time in day-to-day activities only; 
This would make one too much to live in the world.....!

Each one should use special power within to explore Nature 
And enquire principles or truth behind everything around us; 
There are so many things in life man has to pay attention to; 
Unless an attempt is made social problems can’t be solved!

There are a lot of drawbacks not only in education, religion, 
Economy, judiciary, politics and administration but also in 
Culture, civilization, journalism and arts affecting society 
Unaware and making it go on in the same old beaten tracks 
Without giving hope in new thoughts, ideas and change....!

So, innovation and novelty are much needed for the society 
To breathe fresh and healthy air to make dreams come true! 
Therefore writers have an important job to do in the world 
To bring about necessary changes relevant for the present 
And also for the future functions of people in all walks of life!

Education for freedom is indispensable as sans it nothing 
Worthwhile can be feasible by budding individuals ever...! 
In the modern world freedom is only in namesake because 
Individuals have no liberty, opportunity and scope for progress 
As a result of state controls, restrictions and favouritism....!

During my college days I came across all kinds of malpractices, 
Favouritism, nepotism, corruption, customs and obsolete traditions
Being followed in all fields of human endeavour whether it is in Education or judiciary, politics or bureaucracy, religion or society Crippling the developmental activities of the people in the world!

So, I came to the conclusion that everything had to be corrected, Reoriented and reformed in order to allow all healthy developments To go on smoothly and congenially satisfying the sincere, good And honest people of the world and before completing education I finally decided to become a freelance writer once and for all....!

Indeed that profession suited to my nature more perfectly than Anything else in order to analyze all life matters about human life, To bring out the best things and truth in them all and suggest Suitable solutions for all problems thereby paving the way for A better world and in that way do a noble service to mankind!

Business tours, trainings and industrial works went on well; Mechanical way of life didn’t suit very well for one looking for Free way of life as birds and lovers of Nature prefer in life! But caught as a bull tied to a cart or engine linked to wagons To pull on days sans saying anything against any arrangement Surely would be frustrating and monotonous to a free bird...!

Dejected, depressed and dismayed for not able to do anything Worthwhile as a writer in the available time after daily long routine! Sans concentration and time nothing lofty could be carried out And with great emotional pang I uttered in words my feelings On paper to a friend to my great surprise that becoming a poem!

Under the advice to keep on writing ideas evolving naturally I ventured on writing my heartfelt matters whenever possible To my great surprise once again happening as a natural poem Or poems sans any difficulty revealed the hidden talent of a poet!

In the fast moving world there’s not much time to read serious And sincere treatise or articles of philosophical nature going on Pages and pages long and also a great time consuming exercise That would be to try to write in coherence sans any bumps ever!

Poetry being better than long prose piece expressing in a nutshell All matters sans any tediousness to any to write the free flowing Words in verse form or free verse gave enthusiasm and zeal to go on
Inspired by Nature happening to be a perennial source of boon....!

Splendour of evening Sky is due to dispersion of light by setting Sun
Revealing the idea that Nature is the link between science and art!
Not only that but the great truth is that Nature is the living scientific art
That is lively, lovely and eternally inspiring source for all humans....!

Sans reforms in education, administration, politics there’s no redemption;
Studies of parts at the cost of the whole cannot make education complete!
In the compartmentalized subjective studies truth of whole is lost ever
And the connections are never realized and truth is never known to all!

Nature and art are very important for man because of their lasting effects
As they help to forget worries, give solace, inspiration and encouragement
To regain faith, hope, spirit and satisfaction lost in education, job and life!
Literature is an important branch of art with poetry as the best one ever...
Inspiration of poetry made me to write about life, world and Nature as poet!

Fusion of cultures by poetry broadens horizons and perspectives forever!
Poetry has the power to sway over everyone because of its echoing effect;
Poetry gives pleasure to heart and enlightens mind simultaneously ever
And also makes the complete soul get animated by the spell of its spirit!

In the dictionary of Napoleon there is no world called IMPOSSIBLE, for,
“What was impossible is possible and what is impossible will be possible! ”
Man lives in dreams exploring ways to make impossible possible in life!
He only lives twice; one for his self and one for his dreams forever.....!

To satisfy himself he dreams and for fulfilling his dreams he does all in life
Because desire, dreams and imagination make life worth living in the world!
Even for Einstein imagination is more important than intelligence and also,
For poetic geniuses imagination is the only means to create all from A to Z!

Further poetry is the criticism of life to change the world for the better by
The intellect of poets like Alexander Pope, Matthew Arnold and T S Eliot!
What can’t be said openly are expressed poetically to hoodwink opposition
As was done by Milton, Wordsworth, Coleridge, Shelley, Byron in the past!

Poetry is spontaneous over flow of emotion recollected in tranquility and...
Above all, it is the first and last of knowledge as immortal as heart of man!
Poetry is unique like painting and music because from the passing thing
It gives permanent truth producing delight, pleasure, surprise and all in one
Or from the trivial thing poetry says Universal truth amazing and wonderful!

Poetry is preferred to all writings because it is the most flexible form of Literature and art mainly for compression of many ideas and information Helpful for rapid reading and understanding of all matters sans difficulty! For that it is possible to bridge the gap between prose and poetry by the Use of conversational language of public or news media we know well!

Poetry distinguishes itself from all other forms of writing by descriptive Beauty of words, musical sound of words of human passion and inspiring Or exciting power of words in harmonious unity or rhythmic form having Beauty, knowledge, passion and excitement that are lacking in prose…!

Philosophic truth or intuition or mysticism is dry and monotonous to study When expressed in big thesis but quite inspiring when said in brief poetry; So also, fire hidden in stone or huge energy in an atom expressed as $E = mC^2$ scientifically is a puzzle but when said in suggestive poetry it’s fun!

With the suggestive power of poetry evolution of body, mind and spirit It is possible to say better than in other kinds of writings as matter is so! Intuitional knowledge of existence of consciousness or soul in a body is What we say as life is nothing but the duration between birth and death!

Also of the final stage of life, only by poetic means mystical experience Can be suggested starting from sub-conscious state of mind to conscious And finally to super-conscious state about Universal Spirit in inner spirit And communion of the Self with the Universal, Ultimate Reality is reached!

Self with the Universal Spirit within is like a prisoner kept in captivity! Only when petals of lotus open, golden yellow of whole spirit is seen! Though fire with the luminous blue flame within empty space of heart, After many a birth, is realized and reached, it can be freed ultimately So that part or soul can become one with the whole or Universal Spirit!

Ramesh T A
A Promise!

Promise is
Easy to make but....
Difficult to keep!

Ramesh T A
Philosophic talks in exploring ultimate in everything gives
Surely great intellectual pleasure among unique friends ever!
Such kind of friendship is indeed rare to find anywhere sure!

Knowing the ultimate, though an impossible adventure to proceed,
Indeed gives unique enthusiasm to all like-minded friends ever
And makes the group special to all who come to know of them sure!

Such a friendship I too have had once upon a time in my life;
We were at first ridiculed by youngsters of our age at that time;
But, later on, all were astonished and felt proud to be known to us!

Such a reputation our friendship had no one can believe now as
We are not continuing that adventure any longer among ourselves
Due to life problems of each one that drifted us apart forever!

Even today the benefited friend whenever meets me or talks over
Phone says that he is still gets benefited by that in a proud way!

Ramesh T A
A Puppet In The Hands Of Nature!

Rain is falling everywhere!
Nowhere one can go in rain;
Children and elders play carom
As there's no go in the night!

In door games only one can play
In the winter days of darkness!
Computer is the only resort;
It has become so for many now!

Life confined in homes is a bore
Indeed in the world full of excitements!
Man finds ways to overcome Nature;
But he cannot go beyond a limit ever!

Despite many inventions and discovers
Man is only a puppet in the hands of Nature!

Ramesh T A
A Pure Gold!

Contention of heart is

The alchemy that converts base metals

Into pure gold ever!

Ramesh T A
A Purposeful Poetry Is Best For Life!

Rhythmic words in the lines of a verse is melodious music
To entertain the ears of readers to have listening pleasure;
But is it enough for poetry to satisfy one's curiosity to
Know some worthwhile ideas to follow in life to be happy?

If so, it is like philosophy that goes on intellectual
Analysis of any matter without a significant truth to see!
Poetry full of music without meaningful message is like
The saying that supports the view of art for art's sake!

If so, it is like living purposeless life sans fulfilment;
It is like a blind man travelling in a long journey sans
Any destiny to reach as if going on a vague fantasy that
Usually happens in dreams from which nothing can be known!

Best Poetry is the essence of literate of human life that
Not only entertains but also instructs to live life well!

Ramesh T A
A Purposeless Friendship!

Due to duty and obligations friends of the same place are unable to meet ever!
But telepathically communicate with each other about all matters in the world society!
What they have communicated they confirm in person when they meet in some Important functions like marriage, birthday or in bus or train on travels somewhere!

Friendship means it should be like that and that is how friends should be;
Only purposeless friends seem to be often meeting sans anything to do ever;
Purposeless friendship also cannot achieve anything remarkable in any field;
Friendship of high calibre makes miracles whatever field they may represent in life!

How long we have lived is not important, but many good things we have done is;

In the same way, we should create history by our friendship that has noble aim
And has a high purpose as ambition by our deeds that all should be appreciate;
That is how a friendship should go ahead in the journey of our life, long or short!

A purposeless friendship is like a man travelling in a train without Knowing destination
Or why one is actually travelling and reaching anywhere to do what in world life!

Ramesh T A
A Puzzle Of Life!

We long for going out to a tour of places;
We may have to go in a group sometime
To satisfy the interest of group which
At an uncongenial time isn't enjoyable!

Such tours create distaste for tours;
But serendipity sometimes makes change
We never expected to happen at all!
Experience in life teaches many lessons
That we should never ignore or forget ever!

Recollection of thoughts on such experience
Really shows how far have we progressed!
Journey of life has both good and bad effects;
Expected things turn out to be adverse ones
And unexpected ones turn out to be best ones!

Ramesh T A
A Puzzle: This Or That?

Which came first -
Egg or hen,
Literature or grammar?
Puzzle still continues!
Can you solve it?

Ramesh T A
A Quality Discipline Is!

Duty, discipline, decency say of dignity and quality of a guy! But without discipline one cannot do anything worthwhile; Nothing worthy one can achieve in the world sans discipline. Discipline is regular, systematic, proper way of doing things.

Discipline develops proper way to think, say and do all best; Even at critical situation a disciplined person deals all nicely; Discipline comes of education and training from the young age And continues in all stages of life bringing real laurels to one!

Indiscipline, carelessness, laziness spoil all despite intelligence; Smart and lazy guys due to likes and dislikes fail at trying times; But the disciplined ones do anything disinterestedly at all times As the non-attached Yogi takes joy and sorrow in the same way.

Whether sports or defence, rigorous trainings discipline one best As a seasoned artist or professional to deal all situations suitably! Cradle habit continues till the funeral time of an individual in life; So, without discipline nations cannot develop and world be saved.

Ramesh T A
A Quench Of Thirst!

Din and bustle of the day
Building tension to my delicate brain
Breaking each and every fibre of my spirit
Fade away, at last, by the cool breeze of the night!

Easeful tune of the music
Solacing the wounds of every bit of my heart
Playing endlessly in short of time amuses me
While developing day gathers fresh hope at the dawn!

Artful trickery of devils
Creating indelible blemishes over my reputation
Swing to and fro over the works of my sincere efforts
Vanishes away, when my eyes go through the pages of classics!

Meaningful lines of the verses
Fetch the best of knowledge to quench the thirst of my mind!

Ramesh T A
A Quick Use Of Oldest Language Again!

Hundreds of years are a longtime for a language
To have a lot of changes and reforms in script,
Usage and popularization in the world, if it's nice!

But a language that has no public use but private
Home use only, no one will like to learn day by day
Unless lipi, script and vocabulary are interesting ones!

Between two choices of script, when people are confused
To choose which one being oldest language mixed with
Many languages, link with its origins have to be made..!

That way only the language vocabulary can be refined
According to modern time along with easy script for quick
Learning and use both in public and private purposes ever!

The more quickly the defects and drawbacks are rectified,
The more that language can be developed quickly for use!

Ramesh T A
A Radiation Effect!

Clouds are everywhere, yet heat is much;
This is called dumb heat they say all here!
Hidden heat we can feel but not see it out!
In the night heat is inside the room of house
Though night is dark and cool outside place!
Trapped heat is more terrific than actual one!
This is similar to greenhouse effect of pollution
All are afraid not to happen to the earth sooner!
Nuclear radiation lasts on generations of humans
And how is the future generation going to cope?
Minimizing smoke emission and plantation of trees
All should undertake soon to avoid greater danger!
Feeling the dumb heat we seek for AC shelter; but think
Where can we go to escape from nuclear radiation?

Ramesh T A
A Rain In Waiting!

All day clouds
Covering Sky, rain waits
To fall in full!

Ramesh T A
A Rain Irony!

Day is hot
No air even in the evening
But night rains!

Ramesh T A
A Rain Sojourn!

Rain has sojourn
For 15 minutes each day
To balance heat!

Ramesh T A
A Rain To Remember!

Rain lashed out with lightning and thunder!
For every lightning phone also rang without fail!
It continued till I switched off light and went to bed!

Next day morning some death news due to lightning came!
Storm has dissipated but rain lashed now and then;
It's raining time nothing can stop it from falling!

Today there is complete silence prevailing!
Night is cold and wind has stopped after evening
Yet rain warning is given and is expected for 24 hours!

The summer drought without rain is causing so heavy rain now!
Farming fields without rain crops are waiting for rain
A week's rain at least will make it okay now!

When there is no rain we cry for it and when it is there we don't want
Whether we say this or that rain will do the best it can when it comes!

Ramesh T A
A Rain Welcome!

With spread wings
Peacock dances joyfully
To welcome rain!

Ramesh T A
A Rain!

If Oxygen and Hydrogen meet
With lightning and deafening thunder
Come sure rain!

Ramesh T A
A Rama!

Hay Rama! A man of example for the world!
Is there anyone live like you anywhere now?
Relinquishing power can anyone live in the forest?
Forgetting family can anyone govern the nation?

Forgetting self you obeyed your parents till the end;
Forgetting wife you governed the people till the end;
And good people looked after your wife and children;
You ruled, handed over power to the heirs and died!

What was your wish? Nobody had known!
What was your interest? Nobody had thought!
What was your dream? No one had guessed!
What was your happiness? No one had imagined!

Is there anyone who can form Rama Rajya to rule people?
Can anyone be like Rama to make this world a heaven?

Ramesh T A
A Rampant Plagiarism!

Plagiarism stealthily goes on in all fields!
In research theses plagiarism is common;
In articles and novels they are caught soon!
In poetry a lot of production makes it rare
To find who has done what in any quarter!

Finding the impostors in poetry is finding
Diamond among broken glasses on sand!
So, impostors mingle with poets anywhere,
Become friends and take advantage of them!

Positive minds never think negatively here
And it becomes easy for the culprits to sway all
To indulge in their nefarious acts nonstop!

Plagiarist poets excel even bards and Browning
Consuming their brain as critics deed to Coleridge!

Ramesh T A
A Random Poem!

At random I start the day with poem
Beginning with nothing in particular
Caring only the flow of words fine
Diverting attention to points I know!

Effortlessly many do same since long
Full of animosity signifying nothing!
Good turns here and there make good
High ideas of heart evoking feeling nice!

I always look for great and noble ideas
Joyfully exploring Nature, love, life and
Keeping the flow of river in mind ever!

Loving souls' appreciation on all expressions
Many pieces have clicked well many a time
Never leaving anyone sans any hope ever!

Of course all smooth flowing poems go well
Paving the way for better ideas on and on!
Quality too has not so far dimmed in all
Regular inputs of best pieces in forms fine!

Sense, sound and scenes of Nature beautiful
Totally have touched the hearts of many friends!
Universal appeal of excellent ideas has captured
Variety of readers from all walks of life ever!

World of poetry never lets me down in life
X, Y, Z though may not have heart to praise
Zealous expressions of inspired visions so far!

Ramesh T A
A Rare Flower Blooms Only Once In A Blue Moon!

Just as Nature is an inspiration to spirit  
Poetry is an inspiration to the heart ever!  
Musical poems full of meaning delight all  
Like the freshly blossomed flowers do to all!

Poems delight heart, inspire mind and  
Elevate spirit to higher level ever in bliss!  
Poems mean inspiration and delight to heart  
That remain in mind ever to inspire soul ever!

Nature and poetry are reality and reflection  
As Shakespeare did with his art of poems  
Reflecting human life in all its totality ever  
As rare flowers alive for all to enjoy ever!

Poems of such kind are flowers of rare variety  
Such flowers bloom only once in a blue moon!

Ramesh T A
A Rare Friend!

When everyone is only for one's own benefits,
The best friend only thinks about the silent one,
Who is not able to talk of one self's pain of heart!

Such a friend is rare to find in this materiel world
Looking for self development only at the cost of
Others as opportunists do in all walks of life ever!

Developing oneself and developing others also is the
Best one ever strives do in this world of uncertainty,
Where there's cut throat competition out of jealousy!

No one likes others coming up at one's own efforts;
Seeing the progress of the sincere one, the jealous
Hearted ones do leg pulling works ever till one falls!

Best friend is one more precious than gold and diamonds
And is a treasure rare to find in this world of no sympathy!

Ramesh T A
A Rare Gesture After Thane!

After storm comes calm in the town!
But nobody is seen stalking around
Fearing they may be hit by objects
Hurled by forceful wind again......!

Trauma of severe storm makes panicky
Making all remain secure in closed doors!
All the streets are strewn with fresh leaves
Stripped off from trees in eerie night...!

In one bakery and liquor shop people stand
In queues to purchase available snacks....!
With no water and food all have to pull on
A night and a day before any relief comes!

Despite destruction one star hotel functions
By generator to feed visitors as rare gesture!

Ramesh T A
A Rare Passport!

A divine castle at the centre of a gorgeous paradise
Indeed is a wonderful romantic dream one can enjoy
If one is intoxicated by beauty of Nature and stories
Full of angels in exquisite palaces of heaven above!

In such a dream castle, only exotic divine beings dance
To entertain enticing the most honoured guest of world
Who has done selfless service to humanity till the end
Being the sure person to be placed in a high position!

To forget the nightmares and the tortures one has under
Gone in the world for the sake of other good souls there,
One is made to enjoy the comfort one never expected and
Desired in the whole of one's life being it's a God's will!

Sincerity, honesty and sacrifice of a good person never will
Go waste though one's time is not enough in the world here!
That's why a place called heaven is there in the other world
Only rare person of great calibre has the passport to go there!

Ramesh T A
A Rare Phenomenon!

Poetry writing is a retirement job for earning money
Many believe indulging in this venture in vain by
Contributiong poems to websites and participating
In poetry contests somehow thinking it is an easy job!

Poetry writing is not an easy joke but a thing of beauty
Needig great skill, talent and genius bestowed by God
To enjoy in creating poems directly from the depth of heart
Kindled by natural urge to write so as to satisfy the heart!

It is like the mother, who gets joy after giving birth to a child,
A poet feels after writing every poem to one's heart's content.
Here the satisfaction of heart gives real joy nothing can give
In this world engulfed only in the commercial interest in all...!

Fame, wealth and glory only one in a million can get through
Writing poetry, which is a rare phenomenon in world literature!

Ramesh T A
A Rare Product!

Flying high in mind walking on the pavement
Sea breeze is as music to love in evenings here!
What a relief and pleasure it gives to be so...
Far away from the madding crowds of all day!

Family, friends and relatives including neighbours
Never wish to leave good man, very sweet in
Nature and character like sugar to ants of army!
Everyday is a war between both in world life!

Politics, favouritism, all complexes and so on play
A multiple role in the social activities of men;
Jealousy, competition and enmity cause wars of
A mini character as in major wars among nations!

Survival of the fittest is quite true in social life too
Making peace and love a rare product in the market!

Ramesh T A
A Ray Of Hope!

A ray of hope

At last comes at early dawn

After all turmoils!

Ramesh T A
A Real Atonement!

After committing all absurdities many seek atonement;
Many rush to religious shrines giving donations endless;
Also many give funds for running charity institutions;
Can the sin committed be cleansed by such acts? Never!

Educational institutions too they have not left untouched;
Due to their good efforts education has been commercialised!
Whatever they do for atonement only accrues sin further;
They have not left poetry websites too and dominate the show!

Due to such atoning works original and real artists suffer;
Whether it is art or literature or poetry trashes thrive now
Leaving genuine masters in doldrums in many websites ever!
In every walk of life actual and quality works are disgraced.

Real atonement is possible only if they honour real authors
Serving for mankind as guides to attain fulfilment in life noble!

Ramesh T A
A Real Beauty Reliable!

Anywhere beauty in all forms kindles desire, love in the heart of Everyone in the world whether it is Nature or art or woman sure! But beauty is a timely product perishable like fruits, vegetable or Flowers disappointing one by disillusionment one day or other!

True inner love is real beauty reflecting in everything they do for The benefit and joy of all concerned whether in despair or delight! Friendship is like an oasis in the desert helpful in difficult situation; But love is a tree that gives shelter, fruits and flowers for whole life!

Beauty of face, gorgeous makeup and all of a world beauty kindles Love like a flower not for long but only for sometime in the world...; It is only fancy quite unreliable and unworthy like an ephemeral Bubble or fragrant flower unlike medicinal or beneficial flower ever!

Acts of love are beneficial, beautiful, delightful and real reflecting Inner Beauty, but love of gorgeous beauty is unreliable illusion ever!

Ramesh T A
A Real Economic Development!

What is economic development of a nation or world?  
It is not just accruing income in the govt treasury,  
But making all people rich to enjoy freedom in full!

Funds need to be raised to invest in various projects  
For developing agriculture, industry, trade and all  
Through bank loans and collection of taxes from people!

More than that careful utilization of funds sans waste  
For developments in all fields of national endeavour  
By govt machinery and cooperation and coordination of all!

But never should the government make people suffer, poor,  
Pauper and die by extracting money levying too much taxes  
Sans reason or rhyme in lieu of increasing export trades!

Increasing production and exports to minimize prices, govt  
Must make all people rich, which is real development sure!

Ramesh T A
A Real Joy In Life!

Festival of harvest
In appreciation of Nature's bounty
Gives real joy in life!

Ramesh T A
A Real Power Free Ever!

&lt;/&gt;World has become small by Computer communication!
But this magic goes on as long as Computer is working;
Due to natural disaster and dampness CPU explodes too!

Till the impairment is repaired nothing can be done....!
I have been made out of touch due to this happening...!
I don't know when my communicating machine will work!

We live in the world of illusion by our scientific gadgets!
We do magic by our material developments ever unreal
Like the child imagines all of its toys to be real in life....!

After tying to this tag or toy there's no other go it seems!
We live by the fruits of others' labour addicted like drunkard;
Exploited or exploiting, only Time has to decide ever....!

How are we going to disengage ourselves with this gadget
To be independent of illusion to enjoy real power free ever?

Ramesh T A
A Reality Of Ephemeral One!

Reality of Ephemeral One!

Health, wealth and support of flatterers make one haughty and feel On the top of the world to the extent of believing whatever things One thinks, speaks and does are right ever and fights for the Superiority of one’s sex ridiculing the other sex as inferior forever!

Such kind of chauvinistic attitude has developed hatred and rivalry Between sexes not knowing the design of Nature of each one in the World and the way to have fulfilment in life for the survival and Sustenance of species to the satisfaction of all concerned forever!

Domination on the basis of physical strength makes one not a Human being but only a beast; feeling proud on the basis of high Intellect makes one not great but an egoist; but weak on the basis Of physical status makes one not small but high by wisdom sure!

Power in some form or other makes one go by the illusion that one Is great, but in reality one is not an Almighty but an ephemeral one!

Ramesh T A
A Reality Of The World!

All talk well
As long as they get benefit and help
Then forget all!

Ramesh T A
A Reciprocation Of Love To Nature!

We love Nature for its beauty, bounty and bestiality
To all living beings in the world since the beginning;
Our indebtedness to it can't be paid by any means except
By reciprocating it through our love in creativity ever!

Reciprocation of our love to Nature is possible only by
Beautiful creativity in forms of art like painting, songs,
Music and poetry depicting its beauty, our connectivity
With it and our beginning and end forever in it sure..!

Inspiration of Nature and the driving force of love by
Divinity in Nature certainly uplifts heart, mind and
Soul to sublimity to create masterpieces in reciprocation
To its love, care, consolation and inspiration forever..!

Arts of man in reciprocation to Almighty's creative Nature
Out of love to all beings are the greatest offering by us!

Ramesh T A
A Recovery For A New Venture!

After frustrated and dejected where can one go?  
Seeking isolation one tries to get peace of mind  
To have fresh thoughts on something new and  
Good to go on a smooth path to realize dream!

Some entertainment and walk in open space  
Outside one's usual place surely rejuvenates  
One's Self Nature being the best panacea for  
All setbacks in life generally for most ever....!

Venturing on something new it becomes quite  
Zealous to pursue after one's cherished dream  
Creates interest and enthusiasm to do all things  
Sans any kind of slag in the performance sure!

Renewing and rejuvenating one's Self surely  
Provides one with great relief to achieve all..!

Ramesh T A
A Rejuvenation Of Nature!

Green, green plants have grown great everywhere!
Rain has irrigated all fields to green by its fall well;
All barren lands have turned into green forests cool;
What a change Nature brings about by its unique spell!

Despite deforestation rain has afforested soon ever;
Nature’s unique way of healing the wounds is fantastic!
Man destroys for material development all resources;
But Nature rejuvenates even dead fields to green pasture!

In the recent trip to South I saw the great wonder of Nature
Everywhere putting me in astonishment by its healing spell!
Helping hand of Nature for rejuvenation man shouldn’t neglect
And turn to the path of afforestation to save global disaster!

All polluting acts man should curtail for natural rejuvenation
To make this world a place of heaven and not hell forever!

Ramesh T A
A Reliable Friend

Secrets and promises
Are kept up only among
Reliable friends!

Ramesh T A
A Relief For Passionate Adventure!

Feeling of sensuous passion never vanishes;
Continuation of such a feeling is in fate's hand;
In human life passion rules world affairs long;
But love cherishes wonderful feeling forever!

Nobody can deny passionate feeling forever;
Nature has decreed such a sensation for all;
No one can escape it also if one tries ever too!
There is a time for every feeling to be enjoyed.

Failing that attempt one lives in melancholy ever;
There one gets some relief hearing such stories;
That's why many poets pour love poems in abundance
And literature is full of such stuff nobody can miss!

Relief comes from Nature for worn out souls long
In pursuit of passionate adventures possible by humans!

Ramesh T A
A Relief For Relaxation!

After a shower of good rain
Night has become cool now!
Many days all waited for this
Hoping dearly as in deserts!

Buildings and all burn like furnace
Even in the night spoiling sleep!
Now we feel heave has come
Alleviating all sufferings surely!

Fun after hardships is fine ever
People enjoy naturally in delight!
Sans going to beach breeze sweeps
Outside and inside to cool all well!

Relief after all hardships is respite
Everybody loves to have to relax!

Ramesh T A
A Relief In Surprise!

Rain is lashing out at its best on Western side mounts!
Dams are filling with overwhelming water after summer!
Dry canals are having over flowing water in Easter side!
What a pleasant surprise though the days are hot and hot!

What else is wanted on the Eastern side of the country?
Whether hot Sun burns all with heat or not water is there
To irrigate the fields and quench the thirst of people much!
Is it called blessing in disguise or what else could it be?

Though rivers are linked or not to bring water to dry lands
If rain and water flow everywhere people are blessed much!
This is what everybody prays everyday to God in dry places
And the prayer is answered after many trials and tribulations!

Ramesh T A
A Remedy For Crimes By Punishments And Reforms!

Why are corruption, rape, murder, homosexuality, lesbianism and terrorism are common in all walks of life in the world we live so long? Govt. policy, education, new jobs and modern culture have spoiled society to lose sense of beauty, goodness, truth and love to be so!

Death sentence for murder and rigorous punishment like life sentence for rape should be given to stop such crimes in world life! Reforms in education system to make morally good and responsible citizen can create a good society that respects love and beauty!

Economic development at the cost of social development has made man just a quantity and not a man of quality to cherish human value! Due to craze for materialism and luxurious life, man ventures on new ways to do crimes and escapes punishments through legal loopholes!

Inculcating moral sense and respect for love, truth and goodness at school on par with knowledge development can change all for better!

Ramesh T A
A Rendezvous!

Moon and Stars
Connect lovers wherever they are
As they watch at night!

Ramesh T A
A Renovating Nostalgia!

All yesterdays happened incidences we forget very soon!
But some incidences never leave our mind even after years.

Such incidences, when we recollect later, give many ideas
To muse over making us indulge in nostalgia quite interesting
To refresh our mind with the joy we have enjoyed and help
To recover that mood and rejuvenate our spirit once again!

Those interesting time of our life we cherish most in heart!
Those matters musing over in a nostalgic mood we try to
Forget the present unsuitable situation perturbing our mood
To make a change in our way of life to tide over the mess!

Nostalgia in that respect is a great boon to recover and also,
Regain the lost paradise of our life to live once again a better
And modified life with the same old sense of joy to do better
Things of beauty to make our life the best one to live hereafter!

Ramesh T A
A Repeat Process!

Snow is melting into water;
Water falls from the mount
And goes as long river then!

Passing through dense forest
Making fertile all over the place
River finally ends with the sea!

Under hot sun sea vapourishes
Changing vapour into clouds
At the sky for another journey!

Rain clouds go to drought areas
Pouring down very heavy rain to
Quench the thirst of parched earth!

Again falling rain becomes snow
Above the mountain to repeat process!

Ramesh T A
A Republic Day Resolution!

After national constitution was made ready, India became Republic; After 26th January 1950, sixty-seven years have gone by now and We are celebrating twenty eighth Republic Day with Illumination of Colourful lights all over the States of India with pomp and joy sure!

Republic means colonial nation has been remade public property; Public property has to be safeguarded as our own property for the Survival of Indian society as sovereign power in the world fostering Friendship with all but submission to none in the whole world ever!

For that, we all should achieve not only political freedom but also Economic freedom, social freedom and cultural freedom forever..! This is the time to have retrospective search over what we have Achieved in the past decades and what we have to achieve further!

Public means people and people have to think about whether we Have got the freedom we dreamed about or lost it with political Freedom sans discipline to the extent of allowing corruption to spoil All economic and social developments and also freedom with them!

Republic means remade into People's Democracy and so, it's our Duty to see if our democracy is of the people, for the people and by The people and take the resolution in the January of New Year 2017 That people's will should be fulfilled by the rulers of the nation sure!

Ramesh T A
A Restless Nature!

High tides with roaring voice dash against shore
And go back to come again with renewed force!
This goes on happening even after half an hour
I have finished my walk and watched waves do so!

Many hours and a day too waves dash against shore
Till the sea becomes normal after a rain or two sure!
Without rain the area becomes low pressured soon
Inviting heavy rain sooner or later with sea being rough!

Like a passionate being anxiously waiting for response
The Sea looks up sky with roaring waves for rain sure!
Passion never subsides unless satisfied by suitable kick
From the beloved however long the ordeal goes on....!

Like the internal force of all beings Nature behaves out
Same as a wild elephant with full of restlessness long...!

Ramesh T A
A Restricted Flow Of Ideas!

Flow of ideas

Dries up by restricted situation of

Bringing up long!

Ramesh T A
A Return Of Glory In Nature!

One sparrow showed its head near portico window;
An incredible sight it is after a long time in our area!
Next day morning a group of sparrows appeared too
In the house balcony making strong sound of twitter;
It was twittering music to my ears before I woke up!
Sound of parrots then I enjoyed as they flew fast there
And the whole atmosphere echoed with squirrel music
All round the day till the evening sunset came about!
Now and then even today I hear the sound of mynahs;
A return of glory in Nature makes me merry unique!
I am happy with the happiness of these heirs of Nature.
After living long so can we enjoy better with music of
Nature or CD albums of musical instruments of virtuoso?
Music both natural and instrumental cherishes our life!

Ramesh T A
A Revolution Poetry Is....!

Are you writing words of rhythm according to thoughts?  
Or are you coining words of thoughts according to rhythm?  
Or are you writing poetry both working at the same time?  
Asking so, if they ask me how to write poetry, what shall I say?

Poetry writing is natural, spontaneous expression from heart!  
How can this be taught to anyone to write poetry ever at all?  
Poetry is a spontaneous flow of words direct from heart ever!

I wonder many a time how am I writing poetry at all ever!  
But this is happening to my great surprise since longtime!

Due to engagements ever poetry only I am able to write  
Though my aim in the beginning was writing stories.....,  
Novels, short stories and nonfiction articles of criticism!

Poetry books too I have completed writing so since long  
But what a pity there is no reception for poetry books...!

Ramesh T A
A Rich Pleasure Of Love!

All are for pleasure endless!
Love is bitter sweet in taste;
Love gives painful pleasure;
Objective of love is pleasure;
For love all bear all pains!

All living species are for love;
Sans love where is life here?
Life sans love is useless ever!
Nobody lives sans love anywhere;
Love is greatest power anywhere!

Why is all for love though has all?
The pleasure of love cannot be bought
The pleasure that gives satisfaction
Love only can give against all riches!

Ramesh T A
A Rich-Poor!

Golds and diamonds
Are abundant in Africa
But it is poor!

Ramesh T A
A Ride On Two Horses!

If you like to have mustache  
You should stop sipping soup;  
If you shave your mustache  
You can enjoy sipping soup!

It is not enough you cook food  
You should also wait till it cools;  
If not your tongue will be shot!

Either you should swim on river  
Or manage yourself on wet land;  
But you cannot stand on both!

You can ride on a white horse  
Or you can ride on a black horse;  
But you cannot ride on both!

For, only circus clown can do that!

Ramesh T A
A Righteous Way Of Life!

Righteousness is natural justice and order in world life
And that in one word is called as Dharma in Sanskrit!
Dharma is way of life or culture according to Hinduism.

Also, Hinduism says that human nature is divided into
3 types ranking as Satvigum, Rajasigum, Damasigum
Suited to teachers, leaders and romantics in the world!

People of Satviga nature are unassuming, calm and wise;
People of Rajasiga nature are wary, dominating and brave;
People of Damasiga nature are lazy, lustful and loitering!

Dharma is to live according one’s nature in the world and
Fulfil all duties to upgrade oneself in life to have a better
Birth to higher level to attain total liberation or maksha...!

So, living according to one’s desire quite wild is Adharma,
Which is unnatural and disorderly in world life to aim for!

Ramesh T A
A Ripple In Placid Water!

More than master, disciple becomes popular
And a pity, due to him master is remembered!
Awards too are added to disciple's account....!
Masters set an example and leave in silence;
But their thoughts, style live through disciples!

The first discoverer and uplifting inspirer ever
Seems to be invisible and forgotten too soon!
Popularity and appreciations are not their wish;
But they live in ideas created and polished then
By successors leaving the truth seekers to find!

Such things happened in great time gaps then;
But now it happens instantly before the creators!
Gadgets bring into focus for them too to know it
And that creates ripples in placid water too now!

Ramesh T A
A Risk And Life Job!

With risk everyday living a full life
One actually surmounts death sure!
This is the life of a victor in world life
One has to make a note to be brave!

Inspiration from such a character we
Can note in the life of the secret agent
James Bond 007 novels by Ian Fleming
Whose stories are still improvised ever!

What an angel like character who ever
Inspires his fans all over the world sure!
He plays with danger in his assignments
Quite risky till the end of the mission...!

In a matter fact way he deals with all issues
Being professionally well trained in his job!
Minding only his object of interest he goes
On with his job to finish it well caring none!

There risk becomes a matter of fact thing
And he actually gets ideas while trying to
Solve the problem in hand by trial and error
Method learning a lot by doing his job....!

Ramesh T A
A Rolling Stone!

Scattered clouds make night darker;
But moon has peeped too to see
What's going on on the earth sure!

Rush is there in the beach for air;
But air comes from only one way
Facilitating limited people only ever!

Town business has succumbed to nil;
But cars are still standing in long queue
For, parking lot is very less nowadays!

Silence of the night lulls hearts to sleep;
But nightmares of many keep them
Still waiting for some interesting news!

Night and day days roll on so for all as
Rolling stone gathers no mass ever......!

Ramesh T A
A Romance At Night!

Hazy Moon shining glossy in the night
With slow mist covering as blanket
Street lamps paint funnel shapes on
Thin mist coated canvas looking cool!

Wearing loose mist white apparel on
As a ballet dancer she walks on balcony
Speculating over her lover's arrival
From a distant land at least in this night!

Braving all fog in the cold night on a bike
He moves faster against biting cold long
With a view of seeing his lady very soon
Switches on yellow head lights on the road!

Longing to meet her lover she pines
With her bosom tight against the wind
Feeling sure to mingle with him in full
Before night end comes sooner or later!

Night silence makes clear her ears well
To hear lover's bike sound at a distance
Increasing her hope and joy to the top
Looking at the gate door quite wide open!

Smooth he enters the entrance quite well
Looking up her lady standing on the balcony
With beaming smiles ready to embrace him
And drench in rain of kisses all night long...!

Ramesh T A
A Romance Of Heart Forever!

Romance of heart grows in imagination to dreams
Bringing fantasy and reality into one to a state of joy
Wonderful to enjoy in life, when nothing solaces heart!

Soldiers of war sacrifice their life to save the world for
Humanity to survive, sustain and succeed in life with
Peace and love forever and ever in the world in prosperity!

Dreams of stranded soldiers when get solaced by fine
Mermaids of world ocean gives a great sense of romance
Reviving heart with new life and spirit to live better ever!

Yet, for the struggle of life, there is no end for it in the world
As long as humanity is under the grip of daunting rogues
Who jeopardize all norms or ethos of mankind by domination!

The inspiring dreams of romance gives respite to breathe well
And fight to establish human sense to survive long with hope!

Ramesh T A
A Romantic Adventure In Life!

Despite mechanical way of life of modern world,
Romance still survives here and there somehow;
Good romantic life may not be on the forefront,
Yet, despite lustful life dominates, it is fine!

The lovely nature of romantic life of literature
Has got its own way of life being followed by
The lovers of romantic adventure leading to good
End as in romantic comedies of the past literature!

Real emotional and healthy love has got life of
Its own only in romantic way of life in the world;
Starting with greetings, well wishes, secret meets
And exchange of love letters to marriage it's lovely!

A great satisfaction one gets in the romantic adventure
One meets with success after a lot of hardships in life!

Ramesh T A
A Romantic Hero's Life!

Romantic hero suffers quite a lot at first in life
Caught in the web of plans drafted by someone
Playing the part of a villain outside his jurisdiction;
But truth only finally wins bring eternal joy to him!

Consoled by love, the hero surmounts all hurdles
However formidable or impossible in the world race
That bets on the winners just as on horses in the race
Putting one and all in amazement and gains sympathy!

All sufferings in life becomes null and void mainly by
The strong support of his lady who loves him most ever
In the world full of deceptions threatening her life due to
The possession of wealth enviable and kindling jealousy!

Sans the cooperation and support of loving ones in life
Nothing can be won however best one strives hard long!

Ramesh T A
A Romantic Life Adventure!

Sentimental, emotional, great characters love romantic life;
Passionate, engaged and attached they like to live long life;
Fun, entertainment and amusements they have in romance;
Romantic love life these human beings live true to heart ever!

Longing for love they do all to get the hand of sweet heart;
Love, marriages and divorces and love again they try ever!
For the satisfaction of the self they do romance forever here
And live alone ever in life longing for love till the end comes.

Romantic fellows lament about the friends and loves lost in life;
Beginning, middle and end the means followed never the same
Because adventure is the spice and taste of romantic life here;
Many yet live romantic life because the pleasure is exotic ever!

A romantic life is the dream of many a guy and girl since long
Though success is rare failures they are ready to face and die!

Ramesh T A
A Romantic Life To Progress Is The Best!

Sentiments, emotion, imagination and intuition are the assets of romantic poets; With intellectual thoughts they critically analyze all things to have conviction in life; Religion or philosophy or politics or civilization or culture they like truth only; Romantic poets are always for freedom, free love and natural way of life ever! Wordsworth, Coleridge, Keats, Shelley and Browning are the best of romantics I cherish most and love to go on the path they have travelled in romantic period;

The friendships of those romantic poets are best of stories I love to read ever; My romantic poems are just some of the reflections of those romantic poets! When we have time in the world just love and you will need nothing more in life! This message of a song by Louis Armstrong is one of my favourite songs I love Whenever I get time to listen to pop songs by The Beatles, Boney M and others; The songs of romantic poets and singers are lively and lovely ever to enjoy! Romance, revolution, reforms and modern thoughts based on truth by scientific philosophy And democratic thoughts of liberty, equality, fraternity and justice are best to follow ever!

Ramesh T A
A Romantic Life!

Romantic guys
Live according to Nature
Lucky life!

Romantic stories
Say about adventures of lovers
We read!

Romantic lovers
Live in harmony with Nature
All their life!

They also suffer
According to fate in life
Believing in God!

At the end they
Luckily meet with success
To enjoy happiness!

Ramesh T A
A Romantic Muse!

A cloudy sunless day is slumbering;
Valentine mood is floating in the air
Making me look for fun somewhere!

A myna call I hear after a longtime;
A pair of parrots flies busy in the air
Like lovers hurrying for the function!

Sitting alone I muse over the day
About the things to be done today;
But the sleepy mood makes all slow!

Time moves fast towards noon so soon
Making me think about lunch break
Though I have some things to be done!

The romantic muse knows no reality;
But it lives by illusion swaying heart deep!

Ramesh T A
A Romantic Sense!

Natural beauty attracts all and kindles desire;
Rationality and social sense keep one in check;
Circumstance and situation may help some...;
But conscience pricks later if one goes wrong!

Desire can be fulfilled, if patience and love rule
Hearts of all under peaceful way to satisfaction
Honouring human feeling in a better way ever,
When hearts mutually give consent for love union!

Hearts' desire, when coincides between two souls,
Results in intercourse for worldly fulfilment sure
Making sense of joy go beyond limit in pleasure
Quite exhilarating and extraordinary in romance!

Romance gives sense of satisfaction for longing souls
In dreams endless in life until fortune smiles one sure!

Ramesh T A
A Romantic Wander!

Hand in hand we go
Wandering in romantic mood!

All things are rosy
To our eyes to see world full!

Nobody can stop
Our journey around world....!

Romance never stops
Although age goes up and up...!

Ramesh T A
A Romantic Way Of Life!

All matters are going on as in romantic stories mostly!
Plan or promise cannot be maintained as I propose;
Everything goes beyond time limit always for anything!
This kind of life looks to go on the path willed by God.

Nothing can be calculated and planned before hand!
With a rough vision of the whole one can see and go,
But implementation or execution cannot be guaranteed!

Many a time it has happened in tours on holidays!
Adventure, excitement marked in travels and resorts;
Programmes of friends on any matter went so often.

Life itself is uncertain in many ways and goes somehow;
Neither my wish nor my seniors’ too is ever accomplished!
So, my life has become a puzzle game going on chance…
Results have not affected me so far and journey continues…!

Ramesh T A
A Rose Flower!

Always with words of kindness and love
All matters of life have to be attempted
To know the good and bad to proceed on
In the world of woes to achieve goals well!

Criticism abruptly cannot solve all matters
Making hell of heaven not knowing truth!
Insulted are kept in high place later on.....
When real nature of greatness is ascertained!

All of a sudden one cannot jump to conclusion
Contrary to a good and healthy way of life!
Life is a rose flower with thorns needing care
To handle and present it as mark of love to one!

Bitter sweet is love to lead life to heaven ever
Making failures as stepping stones to success!

Ramesh T A
A Rose Intoxication!

Queen of flowers rose is always a fascination!
Rose is symbol of passionate love cheers mood!
Rose lady gives great pride to be with anywhere!

Special respect to rose never changes anywhere;
Red rose, pink rose and even blue rose are there
Occupying a pride of place none can have ever!

Bouquet of rose flowers elates anyone to dizziness!
A special gift indeed rose flowers makes to all!
A single rose is enough to make one grand to look
Instead of a big cluster of flowers of jasmine or lily!

Scent of rose remains fresh in mind wherever one is;
Such a unique flower rose how can anyone ignore
Whether it is in the garden or lies on a wayward side!
Now after seeing rose and read on rose I am intoxicated..!

Ramesh T A
A Rose Love!

Only rose
Is love of all flowers
Of many hues!

Ramesh T A
A Rosy Picture Of Love Life!

Rosy pictures of love all seem to draw about in their expressions
   From their experience, dreams and imagination on and on ever!
Rose flowers sans thorns can anyone see anywhere in the world
However beautiful and optimistic omen they may be depicted with?

Knowing the bitter and dangerous thorns of life, if we handle all
   Matters, we can enjoy the beauty and pleasure of rose forever;
Life of love is an adventure only intelligent beings can live with
   Confidence and courage among the villains of the world sure...!

Seeing the joyful life of lovers, many feel jealousy to the extent of
   Doing greats harms to them to see they also suffer as they do...;
Unable to live happy as lovers do in the world, many sadists weave
   Webs to trap good lovers to hardships as we all see in many stories!

Despite many dangers and pitfalls, good and intelligent lovers know
   How to deal all and surmount all hurdles to reach their home safe!

Ramesh T A
A Rudderless Ship Of Life!

Caught by the grip of tension of this kind or other
Man pulls on the days sticking to this or that faith!
But life goes on as a rudderless ship on the mid sea
Driven by the course of wind finally as the will of God!

Not knowing the destination the going is on somewhere
Where what will be the nature of end nobody knows first!
But the journey despite ups and downs is unstoppable
And man sees many things happening beyond his will!

Likewise the full course of many men goes on in this world;
The experiences they record guides later others to know
Something about the course of life for guidance and hope
So that some preparation in the beginning might be useful!

But experiences of wise men expressed in philosophic verses
In the form of religion, literature and creeds are true treasures!

Ramesh T A
A Rule Of Love!

Fear only activates animals;  
But love activates humans.  
Love is counter part of fear!

Love begins from the heart;  
God lives in the hearts of all;  
Love is the way to God ever!

Smile is the mark of love ever;  
Kind words are language of love;  
Gentle behaviour is act of love!

Love is the beginning of friendship;  
Love begins when friendship ends;  
Love places its mark by a kiss ever!

Smile, kind words and gentle act  
With a silken kiss love rules all ever!

Ramesh T A
A Ruler Of Mankind!

Despite festival fun winter chill persists!
Cold hand and feet make dry my skin!
Dreaming of Spring and Summer pull on
All days of cold in these ruthless months!

Chillness pierces through body to bone
Making whole stature of man painful!
Hot soup and strong snack feel I to eat
To face the biting cold weather somehow!

Body pain makes all to take hot stuffs
To face winter chores with stout stiffness!
The short time of winter here looks long
Just as the summer you all feel there...!

Pain and comfort by weather all negotiate
To pull on the days on the world till last...!
Life on the Earth surely is dictated by Nature
That man fails to note while in comforts...!

Ramesh T A
A Run Of World!

Cars run on petrol:
Buses run on diesel:
Men run on food:
But world runs on money!

Ramesh T A
A Sad Demise Of A Greatest Poet Leader!

A greatest poet is indeed not only an unacknowledged legislator
But also a charismatic political leader if he is chief of nation
And under such a great soul the nation is sure to enjoy golden
Time in peace, prosperity and progress making people joyful ever!

If such a great soul passes away from the world, all will mourn
In greatest loss sure and pay homage in highest praise direct
From the heart no one ever could have earned in the course of
Human life in the world making an indelible mark here forever!

Averting wars, cherishing jovial friendship with all and ever
Working for the welfare of poor and downtrodden people of all
Races, creeds, languages, regions and cultures, such a greatest
Leader only can unite all in peace and progress to be happy ever!

Loss of that kind of greatest leader today makes me very sad and
I pray to God for his soul to rest in peace for the good of world!

Ramesh T A
A Same Life For All

Pleasure or pain

Life has no difference for all

Beginning to end!

Ramesh T A
A Sand Island Beach!

Paradise beach is a small sand island
With a few trees and green grass near
The rough sea that has taken many lives!

Some huts are built there with restaurants,
Juice shop and coconut juice selling stall
That invite all with children to play there!

Relaxation facility has to be developed for
Tourists to enjoy real paradise effect there,
Say any visitor if asked by information seekers!

Motor boats big and small make to and fro trips
Taking 15 minutes for each trip to the island
And return to the boat house before Sunset daily!

It is wonderful to have boat riding to the sand
Island and return to main land during holidays!

Ramesh T A
A Scarcity In Surplus!

Seeing hottest days, it looks as a great contrast to see heaviest rains
Coming every night due to SW Monsoon effect and also depression
Slowly forming in the sea before blowing as storm over the shores!

By this way Nature seems to compensate the loss of rain in Summer
With heaviest rains now and then to fill up the blanks left by Monsoon
By means of cyclones and storms over the sea shore areas and lands!

Despite all these things still shortage of water in rivers and lakes put
All farmers in desperation, if they don't get enough water after doing
The work of cultivation of crops for next growth of crops by irrigation!

Sharing of river water between States brings politics into play putting
One and all in trouble between the States incurring loss of business
And revenue to both the Govts. needing national solution to end it!

If dams are built over rivers surrounding a riparian State, how can
Agricultural work go on there making all suffer in scarcity in surplus!

Ramesh T A
A Scary Vision!

For the scary
Whatever seen in the dark
Will be a ghost!

Ramesh T A
A Sea Star!

At distant Sea
As winking Stars of Sky
Boats' lights are!

Ramesh T A
A Search For Peace And Freedom...?

Peace and bliss reside in Nature only -
Green lawns, misty mountains, gardens
Full of fragrant and colourful flowers
With the dragon flies hovering on them!

Trees full of pear, apple and plum fruits
Are reminding of the garden of Eden!
Cool place is where calm resides all day
Making paradise nothing before it in reality!

After sophisticated developments all seek
Peace and joy amidst the fast mechanical realm
Completely controlled by technological gadgets
With no time to spare for time to stare in Nature!

Are developments for seeking freedom.... or...
For seeking slavery of sophisticated kind ever?

Ramesh T A
A Search For Real Love!

Searching for love I have discovered truths;
My smiling humour has kindled love to many
And the love of good hearts I cherish most!

Apple kindles love to taste it by its very sight!
Rose flower kindles love to pluck it very soon!
Love of others attach me very soon with them!

Such love I have enjoyed long ago since childhood;
Those days of love have brought about many turns
In the life of the world for me to know realities much!

Other business of life has made me forget my humour
And my perfection in all activities provokes jealousy
In others to acquire what I have and to be like me...!

Real love is rare to find I have learned from my life
And reflections are not real images we see in life ever!

Ramesh T A
A Search Of Love Forever!

Love is not just a verbal utterance;
Love is deep feeling coming from heart;
Embrace, kiss and all should be from heart!

Such love is indeed rare to find always!
Passion of lust rather than love is there;
Many are carried away so and disappointed!

People in high place even after death are critical;
Search with deep inquiries as ghosts in old mansions
And such stories haunt us all even today indeed!

Search for love never stops despite misfortunes!
Many lovers are born again and again for love so;
Humanity thrives only on love in life forever!

Love is all powerful force as God is everywhere;
But many have lost feeling to gauge love ever!

Ramesh T A
A Search Of Soul!

Question of soul still remains as a query!
Where is the soul in the human body?
Is it in the heart or brain or where?

Each cell has a soul of its own in the body;
Each star in the Universe is independent!
Each galaxy is independent among many!

All stars are interlinked by gravitation there;
Interacting each other they all perform well
In the body of the whole Universe beautiful!

In our body too same sort of things happen
Perhaps to keep all units of organs intact.....!
If any unit goes wrong the whole collapses!

Sun's heat, soil and water mix to create a soup
That solidifies into a solid matter as Star in Sky!

Ramesh T A
A Seasonal Hue!

Every season has a

Hue - green, yellow, brown

Or white as attire ever!

Ramesh T A
A Second Life!

I am living a second life now!
An ancient disease Psoriasis
Affected me 13 years ago!

I have got redemption now only
From this skin problem harmless,
They say, but it is painful always
With cracks on foot and scales
On head and all over the body
Pealing like dry leaves and falling
Like white power from dry skin!

In Ramayana Rama spends
14 years in the forest at the
Prime time of his life to fulfil
his father's vow and achieves
Laurels afterwards in court life!

In Mahabharata Pandavas spend
13 years in the forest to fulfil
Punishment after losing a game
And they win war and rule nation!

Will that story repeat in my life?
Disease came when unexpected and
Disease has gone when unexpected!
It is fate that rules our life ever
And we go on God's path for relief!

Ramesh T A
A Secret Of Water And Life!

Secret of water and life nobody knows for sure
On the Earth full of colourful species wonderful!
Exploration of other planets, comets and asteroids
Perhaps could reveal the truth man is searching for!

The ice of asteroids or comets might have caused
The creation of water and life by its bacteria on Earth!
Scientists on this angle are making hectic research now
And the results based on tests on comets will say all soon!

But the puzzle and mystery of origin of life and Universe
No one can for sure decide despite many discoveries on!
Scientifically proof can't be ascertained but assumed only
Till man becomes superman to the level of god to know all!

Will the evolution of mind and spirit help man to know all?
But it is a long process experiment needing catalyst to quicken!

Ramesh T A
A Self Benefit Seeking Society!

Selfless spiritual society can be developed sure,
If basic necessities like food, clothing, shelter and
Job are provided for all everywhere in the world..!

Self benefit instead of social benefit seeking nature
Can be eradicated only when all are educated so
And provided with all basic necessities to live well!

Instead of doing so, what the so called democratic
Rulers have developed is self benefit seeking men
By slogans that cannot be translated into reality ever!

By dividing and ruling technique, politicians and all
Bureaucrats are kindling desire by promises of golden
World and never fulfilling but filling their own pockets!

How long this kind of governance will go on God only
Knows and until then people will be tantalized ever so!

Ramesh T A
A Self Control!

We cannot
Control everyone in the world
But our Self!

Ramesh T A
A Sense Of Art!

Sense of beauty

Develops Art in the world with

Goodness and truth!

Ramesh T A
A Sense Of Beauty Uplifts To Glory!

Love only inspires all to do all beautifully well ever;  
 Truly if we do duty with a sense of beauty, goodness,  
 That will bring name, fame, glory and wealth sure  
 Uplifting and placing one at the top of the world!

Some may achieve glory by luck in life at the early  
 Sage of one's career and thereafter one shines long!  
 But one who has worked hard doing all in perfection,  
 At the fag end of life, will attain glory and all sure....!

The work done perfectly well in all walks of life surely  
 Stand as a mark of acumen all are inspired to emulate  
 Making one great to the eyes of the world, though one's  
 A simple man in life and work anywhere in the world!

Sense of beauty, goodness and truth ever uplifts one high  
 Bringing unique awards recognizing one's achievement,  
 Though not done with pride for self publicity in the public  
 Or aiming for high personalities' recognition in mind ever!

Ramesh T A
A Sense Of Beauty!

Sense of beauty, goodness
And truth is first needed to
Create best thing in art!

Ramesh T A
A Sense Of Joy!

Sense of beauty makes all do all in a beautiful way;
Creation of artistic works is born of love of beauty.
Sense of goodness makes all do for the good of all;
Doing good ever makes one feel joyful in life long!
Sense of truth makes all do things truly forever;
Truth brings confidence nothing can in the world!
Personality of this kind always inspires all forever;
Leader of this kind certainly lives longer life ever!
Divine personalities are of this kind since long....!
Mankind worships them as Gods everywhere....!
God we are searching for never says against this!
Beauty, goodness and truth never disappoint one;
Love of beauty, truth and goodness gives life ever!
Joy of love never leaves one in despair against odds!

Ramesh T A
For a person placed in a nonstop troubled state of life, Nature Only can give relief and peace of mind by its still silent beauty That absorbs heart, mind and soul and gives the impression That Nature is especially created for that purpose in man's life!

So many scenes of Nature, we see everyday, never seems to be The same and so, it is new and interesting to give a change of Mind and a little cheers like little birds that enjoy fun and freedom In Nature and enjoy life before the end comes soon or later…!

A lonely bird sitting on the branch of a green tree full of yellow Flowers or a residence near a meadow by the side of a lake Surrounded by colourful flowers on the branches of trees surely Gives a sense of relief and cool state of mind to recoup oneself!

Likewise, so many places on the beautiful Earth many miss to get A sense of relief and new mood from Nature quite divine forever!

Ramesh T A
A Sense Of Satisfaction!

For hunger of elephant
A loaf of bread
Is not enough!

For parched earth
A drizzle of rain
Is not sufficient!

For poetic quest
Expression of a few poems
Is not the solution!

For many a snack is enough!
For some sumptuous lunch is sufficient!
But, for me,
A full course of dinner -
Wine,
Soup,
A variety of dishes
With Punch
And finally,
A dessert full of choicest fruits
Orly can satisfy me!

For, I can't miss
Fruits of labour
Ever!

Ramesh T A
A Sense Of Smell!

Sense of smell is strong with animals!
Is it due to strong instinct animals have?
By sniffing the smell imprinted everywhere
They have the power to find the location!

Smell of likes and dislikes is sharp among men!
Smell recorded in mind tells what it is once
We happen to know the smell again anywhere!
Of the senses of sight, taste and touch, smell
Seems to work earlier to help in our activities!

Smells recorded in memory immediately give
Information before hand before we act over it!
Sans the sense of smell we cannot distinguish
Between fragrance and odour in our life ever;
How badly would we be lagging if we lack smell!

Ramesh T A
A Separate Entity!

For the healthy computer is a joy;
For the diseased its rays are anathema!

Even for me it's difficult to work on it;
My eyes are sensitive to brightness;
I quickly finish off computer work
And have a nice sleep for eyes' health!

Modern gadgets computer, cell phone
And all electronic devices test health!
Energetic youngsters indulge in it long,
But weaker ones cannot prolong on it!

Modernity makes all slave of materials;
Men forget to see Sun, Moon and Stars;
Live far away from Nature as if separate
Entity altogether though not so in reality!

Ramesh T A
A Shade Of Protection!

Umbrella gives shade
A protection from Sun and rain
All round the year!

Good deed we do
Give protection from all adversaries
Through out life!

Ramesh T A
A Shining Star!

Discovering is
Better than digging to
Shine as Star!

Ramesh T A
A Shopping For Festival Celebration

Half Moon shining bright I go out
Enjoying North-Eastern breeze
Coming from the sea quite early!

What a pleasure to roam in town
Shopping dress materials long
Before the Festival of Lights come!

After Festival of Nine & One Nights
The famous Diwali Festival all like
To enjoy with all pals and families!

In cold winter night at new Moon
Hour people burn crackers colourful
For the demise of Adharma Asura!

Grand preparation all over nation
Goes on full swing from now on....!

Ramesh T A
Scattered pieces of white clouds appeared
While we have half finished our walk there;
Thick droplets of rain fell slowly from the sky;
Beach rush disappeared soon by those drops!

Rain did not intensify further but stopped falling;
We resumed our walk believing we would make it;
But again the rain fell more than before and we
Have to stand under another shade till rain stopped!

Whenever pieces of white clouds came over head
Rain fell on our head making us stop walking again!
This continued again and again till we reached the end
And we took rest on the bench and began our walk home.

Pieces of white clouds melted into rain drops similar
To a shower tap doing the job in the bath room everyday!

Ramesh T A
A Sigh Of Relief!

A Sigh of Relief!

Travelling from place to place on road with full of jolts and Pot-holes due to improperly joined bridges and high way Indeed makes one tired as an ill person after the tours!

Hot Climate suddenly changing into gathering black clouds Bringing heavy wind and rain with lightning and thunders Briefly makes all delightful and enjoy holiday really in fun!

Day long journey on the jolting way and climbing up a small Hill station at sunset gave relief at last in a resort with green Parks, play grounds and swimming pool as paradise unique!

In walking, boating and shooting we had great pleasure free from Usual works at native place and so, two days have gone well Unnoticed for our return journey to the hot plains once again!

A little holiday gives some time for a sigh of relief before going Ahead with works of ambition irrespective of hot climate sure!

Ramesh T A
A Silent Beauty!

A silent beauty ocean is!
Unfathomable depth is therein!
Silent beauty has thunder within!
So also pure poetry has all in one!

Ramesh T A
A Silent President!

A democratically elected president is responsible
For all the happenings of a nation in all situations;
If army, govt., judiciary and press function sans
Any unity or control by the head means it's in anarchy!

Calling itself as main partner in war on terrorism,
But having no control over the affairs of nation
Means president is not the boss, but the terrorist;
This is the conclusion all nations will have of it!

Troubling the peace loving neighbouring nation by
Its pet terrorists who call themselves as freedom
Fighters over the territory of the other surely
Calls for responsible statement from the president!

But, if the president remains silent, how can the
Problems of the nation be solved ever by itself...?
Will it not be shameful on the part of the president
To call itself as peace loving neighbour to neighbours?

It is possible to change friends, if friendship doesn't
Work out well with friends anywhere in the world sure!
But how can a nation be changed, if it doesn't make
Any efforts to normalize situation to maintain peace?

Ramesh T A
A Sincere Family Man's Life!

Obligations are the cause for complications in life!
Duty to parents take a lion's share in the life of one;
After that, duty to children takes the rest of life sure!

When this is so, where and when is the time for one
To enjoy any pleasure and joy in life in this world?
This is the nature of life for a family man in the world!

Duty to parents is great obligation that decides one's fate;
Then till the children settle to be grown up ones in jobs,
There is no relief for a couple that becomes old parents!

The dreams and desires of one are destroyed to pieces
Once one finishes education and settles in job unsuitable;
All unsuitable situations one faces till one loses all hopes!

This is the long journey of life for a sincere person with
No hope of relief and respite from any quarter in the world!

Ramesh T A
A Single Point Of Singularity!

From a single point of singularity of black hole big bang has
Unleashed centrifugal force churning out Stars and planets
Scattered in all directions in the endless Universe at first then!

Till the centrifugal force is neutralized and turn into centripetal
Force for all Stars and planets to rewind again to a single point
Of singularity, all matters in Space will be in flux by gravitation!

Like Stars and planets are in the scattered mood of the Universe,
Due to technological developments, each and everyone is now
Living as separate islands minding all matters using cell phones!

Though standing in queues before banks or travelling in trains
Sitting close to each other or at home or anywhere, each one is
Occupied with seeing videos and playing video games in cell phones!

Like the centrifugal force turning into centripetal force after normalcy,
By another invention of gadgets, perhaps people will gossip together..!

Ramesh T A
A Single Script For All Languages!

Thousands of languages are being used all over the world;
Each language has got its own script and dialect for use.
So, will it be possible to learn all languages ever at all sure?
Yes, it is possible, if there is single script for all languages!

Many languages are being practised in use in India, Africa,
Europe, South America and so on in the world for long....;
Different scripts are being used to write and learn them all;
But, if a single script is there for all of them, it’s easy to learn all!

Now, it's Computer age with only a few languages in use there;
Of them, English has the advantage of being used by world men!
Script or libi or alphabetical letters differ and difficult to learn;
But English has got just 26 Roman letters only in use to learn!

If English is adapted as the script for all languages of the world,
Surely all languages can be learnt and brought into use for sure!

Ramesh T A
A Single Script For All World Languages!

Learning languages with different scripts and lipis is impossible; But with single script for all languages, many languages can be learnt; To have a single script, only English alphabets can be utilized sure As that is used by all languages in Europe, North and South America!

Advanced knowledge and technical know-how are learnt through English; English only has least number of alphabetical letters in the world; Naturally, it seems to be easy to have English as single script for All languages in the world for learning, writing and reading forever!

By utilizing English script so, even many ancient and spoken languages Can be written, read and used for multi-purposes like publication of Newspapers, magazines, fiction and non-fiction books and also, for Computer use sure as it would be convenient for all uses by everyone!

Single English script will become a reality, when all nations function As one world nation with single currency, common laws and defence system, If United Nations Organization is unanimously turned into world parliament!

Ramesh T A
A Skill Of Pencil Drawing Of Picture!

Keen observation of minute details is involved in
Pencil drawing of a picture with light and shade
Well shown to make it perfect as photo picture..!

Pencil drawn picture makes all wonder at the artist,
Whose skill of hand drawing of photographic picture,
Many find it difficult to get words to appreciate ever!

Whether it is wine or water, Sunshine or night, river
Or valley, hills or green meadows, flower garden or
Green grass land simply sways heart, mind and soul!

Such absorbing power an artist casts over audience by
One's professional drawing skill of picture quite amazing
By any standard whatsoever if there is any anywhere...!

A hand drawn picture only a poet can paint in words
To create a beautiful verse all can wonder at forever...!

Ramesh T A
A Sky Star's Significance!

Twinkling Stars are the sparkling diamonds of the sky; 
Stars are the eyes of the Universe winking at the Earth; 
Black Holes of galaxies are the eyes of God watching all!

Moon is such a dream of man that he celebrates honey moon; 
Dating lovers enjoy night dinner party under the Moon light; 
Lovers muse in dream looking at the distant twinkling Stars!

Heavenly bodies are the sparkling diamonds in the dark Universe; 
Winking Stars of the Universe wonder at the life and love of Earth 
And men and women ponder over the significance of Stars there!

Triangle penetrating through inverted triangle enjoys bliss as Star 
The brilliant Star hints at the message of bliss of union in life there 
For sweet lovers to know this significance of stars to enjoy bliss!

The bliss of Star brings joy of rapture to lovers star crossed on Earth 
To enjoy passionate entanglement on the dream land of Moon ever!

Ramesh T A
A Slave Life!

Can the Southern wind passing over the river bank
Speak to the smiling flowers dancing to its tune?
The smile of flowers mesmerizes me to stand and
See their beauty forever and ever forgetting time!

The oasis nightingale bird sings beautiful song of
Love and joy intoxicated by the paradise in desert!
Can the Southern breeze visiting the oasis now and
Then know of this song of love to pass on to everyone?

Like the Time that never turns back on its journey,
The Southern wind also never has the chance to come
Again to see all the things it has seen before to live
Once again the beautiful time spent on its course....!

Our thoughts are just a slave of life as the bard says;
Also, our life is a slave too to time that never turns back!
But the Time that takes survey of all things like the wind
Must have an end so that all things won't tantalize in life!

Ramesh T A
A Slave World!

Power cuts
Put human life stand still
And world slave!

Ramesh T A
A Slip In The Great Move In Life!

We may plan so many things and create a beautiful thing;  
But all goes to waste due to impatience and intolerance;  
This is the case with people who have high knowledge, but  
Poor plan to materialize the matter with success in life!

Persons of high calibre don't like least discrepancy in  
Matters of high value and merit that people admire much;  
Such a thing of displeasure at an unnecessary moment in  
The way of reaching its peak to glory has to be noted..!

If such a small matter of no significance has to be ignored  
And should not be minded with impatience where careful  
Waiting for the food to reach its delicious taste in the  
preparation to enjoy great feast of success sooner sure!

Realizing this little hurdle and the support of good ones,  
One has to make a move to reach the pinnacle of glory soon!

Ramesh T A
A Smell For Everything!

Smell of fruits entices to enjoy the juicy fruits;
Smell of flowers attracts bees to suck honey;
Smell of master makes the dog wag its tail;
Smell of scent takes men to the world of ecstasy!

Smell of everything has a different attraction;
Smell of incense takes one to the spiritual world;
Smell of rain washed soil gives fresh sensation;
Smell of mother makes the child very happy!

Smell of odour repels all to go away from the place;
Smell of asafoetida drives away many from the place;
Smell of hydrogen sulphide never allows one be there;
Smell of repellent drives away all mosquitoes to nowhere!

For everything there is a smell in the world of man;
But is there a smell of death for man to know before?

Ramesh T A
A Smile Makes All Smile!

Literature's duty is to make all smile and think;
Photographer says 'smile please! ' before a snap;
Facial smile creates best impression of one to all!

Cheryl love's Sunday Smiling makes me smile too
When all are out of mood and write not much now!
So, I write a poem on Smile to smile with all here!

Smile is the mark of a gentleman, they say, I know;
I always talk with a little smile with all all matters
As I am a romantic type loving humour in stories!

Clever guys and girls ever conceal matters with smile,
Accomplish missions before the culprits are aware of
As humour is the spice of life in the world of romance!

Even a dull matter said with a smile all listen and think;
Inflected by smile all smile and think forgetting woes!
Smile makes woeful heart light turning grief into joy...!

Ramesh T A
A Smooth Sailing Friend-Ship!

Friends of the same feather flock together
Wherever people gather on any function!
Otherwise loneliness seems to be better
For friends of unique minds anywhere!

Friendship is a long going ocean liner ever
That cannot waste time on remote harbour
Unless it needs materials to be unloaded
And anchors only at harbours welcome!

Ship of friendship through storms or wind
Sails ever to deliver goods for benefit of all!
Lasting longer than anyone can imagine it will
If captain clears all hurdles on the way ever!

Renewing the worn out parts then and there
Ship of friendship can sail on any sea smooth!

Ramesh T A
A Snow White Winter!

Snow, snow
Nothing but snow everywhere
Winter is snow white!

Ramesh T A
Individual's survival and existence are impossible ever;  
Company is necessary for such a one to live life well;  
To have companion, cooperation of one to other is needed;  
Cooperation to do anything first has to start with love!

Only by love, company of thing or person is attainable;  
Not money, wealth, properties and all can bring a better  
Companion in life except by love as it is the only unifying  
Magnetism of human feeling that makes one live with hope!

All vows to live in isolation cannot last longer, if season  
Changes now and them making one in need of some company  
To overcome the rigour of seasons that makes one in need  
Of human company to overcome weather harshness by warmth!

Whatever be man's ideals and idealism, basically one is  
A social animal as otherwise perpetuation of species is nil!

Ramesh T A
A Soft Human Heart!

You poet be as free as a bird!
You activist be as frank as a critic!
You youth be as fearless as a soldier!
So, you all be firm with your mind!
You all be strenuous with hand of steel!
But never be a human without a soft heart!

Ramesh T A
A Solace!

Solace is
Easy to convey in words
But satisfaction....
Never comes so easily
Only after grief comes calm!

Ramesh T A
A Solar Eclipse!

If Sun and Moon
Meet face to face on a st. line
It's Solar eclipse!

Ramesh T A
A Soldier's Sense Of Love!

Life sans love is hell........ indeed;
But love is painful pleasure........!
Taking pain love gives pleasure;
For this pleasure all forget all pain!

Life sans friends is a long desert!
Friends are oases in world life;
They are umbrella against rain!
Friendship is another form of love!

Sense of justice is mark of a soldier;
Soldier treats enemies as friends
After war everyday at line of control!
Soldier's mercy is too human love!

Both in love and war nothing is fair or foul;
But brave soldier shows mercy to weak
Even in war as a mark of human love....!
Mark of brave soldier is sense of human love!

Ramesh T A
A Song To Remember Forever!

Beautiful mermaid singing with her lyre gentle
Lay sleeping the sailor of legend on the shore!

A war fought for more than many years not
Just for beauty and love but for human sense
How much has he sacrificed in his lifetime, low?

Soldiers of great calibre have sacrificed lives
Precious and pretty perfect to live long in joy!
Will victory in war bring back the souls lost
For great cause and caring little life so devoted?

Can't justice be established sans fighting wars
On the battle fields made remarkable by history?

For the happiness of all a few willingly sacrificing
Lives that never come back to enjoy benefits needs
Many song poems to be sung to remember ever!

Ramesh T A
A Soul Brightening Festival Of Lights!

Illusions are driven away by brilliance of light!
Cracking crackers and burning sparklers so
We pulverize all nightmarish thoughts sure!

Brilliant colourful lights radiating from sparklers
Burning out of flower pots and circling sparklers
Reflect Spiralling galaxies strewn in the Universe!

Elevating and soaring high sublime thoughts
Springing from the fountain of many wise minds
Ever serve as great source of inspiration to feel free!

Mental freedom from illusions of devilish images
To brilliant beauty of luminous blue burning cool
Keeps heart, mind and soul joyful in truth everlasting!

Festival of lights comes in dark time to light all souls
Suffering in darkness horrible in abyss unfathomable!

Ramesh T A
A Sound!

Beautiful sound music is
But irritating sound noise makes
Yet both are sound!

Ramesh T A
A Spare Body!

'Pain is too much to bear! ' says my friend;
I tell him that I too had pain and felt bad!
Seven years ago I was hospitalised for stroke;
After returning to general ward I had dreams!

Brave New World novel by Aldous Huxley
About dystopia created by cloning occupied me;
Pain if unbearable how can it be controlled
Thought I much like research scientist there!

If our dress is dirty or torn we change for new;
So also why can't we change our body for new?
When by cloning if it is possible to make spares
Why can't we manufacture spare body in lab?

And why can't we transmigrate our soul in new body?
In future it is going to happen as the things go on now!

Ramesh T A
A Special Power Of Mind!

Messages from friends and replies to all take a lion's share of time!
Time is not enough always for me to read and write about all ever!
I wonder what to do to overcome this great difficulty I face ever...!
I cannot be computer fast to do all and be satisfied everyday sure!
With some dissatisfaction my days are going on sans an end long!
Exclamations are posing as big questions to solve for a longtime!
Yet, I pull on my days as fast as I can with a view to excel time one
Day or other in the journey of my life with hope and zeal nonstop!
What I know seems to be very meagre and what I supposed to......

Know seems to be a lot more than before the more I read a lot!
What we know is surely a handful of knowledge and we have to
Know is in the size of Earth and the whole is in the Universe size!
Knowledge is power and our knowledge of the whole, the full and
The complete never seems to be complete in our lifetime as what
We know has not touched the whole truth yet and how are we to
Know the ultimate except by intuition, special power of our mind!

Ramesh T A
A Special Respect For Good Heart!

All is well that ends well says Shakespeare;
To see a good end, good means is needed says Gandhi;
Reaching end of aim by any means is okay say opportunists!

Culture means best thoughts, best words and best deeds;
Honest, sincere and truthful way of doing all leads to good end;
Achieving result at the cost of one's honour is not good!

One may be great by power, wealth and knowledge, but if not good,
All one achieves won't be remembered long in the world sure;
Selfless good acts of one only make one remembered as great!

Good is ever great whatever be the acts of the brute sure;
By force of power one may achieve all, but nobody likes that;
Good and kind works of one remain ever green in all hearts!

Appreciated by four and blessed by nation, if one lives in dignity,
It's self-respect and that too a good heart has special respect!

Ramesh T A
A Special Status In The Society!

Original writers are genuine scribes belonging to The calibre of Shakespeare genre who make the Popular stories precious reflecting life as mirror Remain forever as bench mark for all to refer on!

Such a genius is one of a kind having a place of One's own reserved in the world of literature for All to read and muse over life of the past, present And also the future to know the standard forever!

A place of one's own only the most extraordinary Writers of any form of literature have in the world Whatever be the passage of time or change of places Taking place according to the needs and use ever...!

Gaining a special status in the society is an achievement Greatest only one in a million can make in the world sure!

Ramesh T A
A Speculation Of The Future!

Past and present we know pretty well;
But the future we have only speculation
Based on the present condition of life!

Cold war has ended with the failure of
Communism and socialism everywhere;
But capitalism is not the victor in the world!

Technological competition and trade have
Not anticipated terrorism based on religion;
So, war is between civilization and terrorism!

It is the war between conventional one and
Guerilla war going on in the world like wild
Forest fire uncontrolled by the nations long!

That is why future cannot be speculated ever
Unless world is controlled by the well to do!

Ramesh T A
A Spirit For Everything!

Matter without spirit is not lively and lovely;
Life without love is heaven without God in it;
Poetry without passion is temple without deity;
Rhyme without reason is tower without basement!

Poetry kindles higher interest in Love, Art and Nature;
Spirit within awakens inner and higher consciousness;
Blood consciousness and stream of consciousness wake
Making man realise his origin, power and destiny clear!

Realisation of spirit’s significance opens the door to truth;
Love, Knowledge and unifying Spirit strengthens integrity;
Balancing poise between animal and divine natures in one
Human being conscious of human nature aspires to divinity!

Just materialism and physique without spirit is inert as
Poem of rhythm and rhyme sans substance and sublimity!

Ramesh T A
A Spiritual Way to Attain Peace To Reach Paradise!

All pilgrims from different destinations visit holy shrine to worship the Lord;
Bios-less all with pious mind and heart, spiritually mediate the one God ever;
Controlling desire, passion, anger, lust and all, they pray with devotion there;
Delightful spiritual bliss all get after return from the holy shrine to do jobs!

Every year it has become a habit to visit holy shrines to get the blessings;
Fully devoting all works they do to the divine Lord, they are immersed in duty;
Gain or loss, they never mind and go ahead doing works in the name of the Lord;

Highly satisfied, they pay a visit to the Lord's Temple to show their gratitude!

I or ego they shed that way, become a free human being and disciple of the Lord;
Joy of heart they really experience without anticipating anything in life so…;
Kind words, gentle action and spiritual musing keep them mingle one with Nature;
Love of divine spirit in Nature grace them all in the form of Lord they worship!

Many a hurdle and chaos they surmount by such a strong devotion and faith ever;
Nothing seems to affect them, when once they have become one with the Lord long;
Oblivion of mind when things go beyond limit, turn bright by divine devotion;
Pure heart of one by devotion strong in divine spirit brings one a perfect peace!

Queries corroding one long with feather strokes sway soothe one's heart then ever;
Rapture of heart in divine bliss makes one forget all excitements to freeness;
Soaring high to sublimity, a person of no woes so will enjoy real liberation sure;
That is what everyone longs for in life caught in the web of miseries and worries!

Universal spiritual energy carry one's prayers in quanta energy to apt place…..;
Various persons of divine head then seem to be meeting one to relieve all pains;
Woes of all kinds vanish away into thin air or mist of no consequences by miracle;
X and Y who are not known anywhere, will shine as bright Stars guiding all to peace!

Yearnings of such devotees get fulfilled for their journey to heavenly abode then;

www.PoemHunter.com - The World's Poetry Archive
Zeal of spiritual bliss keeps them to go higher and higher till they reach paradise!

Ramesh T A
A Split Personality!

Good or bad, character is gift of Nature to one;
Character is raw nature to everyone in the world;
Personality is development of one by knowledge...;
But, if one acts by character, one is also ignorant!

Acting according to one's character forgetting art
One has studied or personality, one is ignorant sure
Just as an uneducated and undeveloped one ever in life;
That's a great mockery of knowledge or art divine ever!

If one acts as to one's character forgetting art studied,
One surely is a person with double personality disorder;
Such a disorderly personality is psychologically termed
As a schizophrenia person needing correction for good..!

Character is nature and personality is nurture of a person;
Personality is developed state to be maintained by one ever
To be sane, rational and civilized to live good in the world
Till the end of time in one's life rendering best of one's self!

Ramesh T A
A Spring Board Of Life!

Continuous work imprisons one as a slave;
Whereas light work makes one relaxed and
Have a lot of time for fun and entertainment!

When work is like an obligation or compulsory
Duty, there one becomes a sick person trying to
Escape from work more than achieving anything!

Work, which is not uninteresting only, one can do
To have the satisfaction, joy and pride one needs to
Live better in the world and do great things for all!

Education, work, friends and favourable situation
Are very important in one's life to express one's Self
Successfully and that is really art of living forever!

Life should not become a prison house, but should
Become a spring board to soar high to freedom ever!

Ramesh T A
A Spring Of Poem!

Without poetic mood
Spring of poem dries up sometime
Only to ooze out
Profusely later at an unexpected time
Being a novel medium ever poetry is here!

Ramesh T A
A Spring Of Poems!

Longer Spring season
Everybody wants to enjoy
Before Summer comes!

Colourful flowers
And sweet fruits all want
To enjoy to the full!

Prolific poems will
Soon bloom in the garden
Not Eden but Poetfreak!

Rainbow Spring
Everybody loves as children
Enjoy with balloons!

Ramesh T A
A Square Peg!

Square peg  
In the round hole I find  
Many in the world!

Ramesh T A
A Stage Necessity!

There is a vast difference speaking with friends and strangers!
We are at ease and free to speak before all our friends forever;
But speaking off hand before a new audience needs skill sure!

Winston Churchill's advise - 'audience are fools, one should think,
When speaking on stage' comes to mind to have confidence, if
One has to speak before a new crowd with learned hosts ever!

Feeling free to say whatever one has in mind needs great practice;
This requires knowledge, conviction, confidence and courage with
Some skill to deliver speech complete sans hesitation anywhere..!

Knowledge makes one a ready man, conference makes one a
confident man and writing only makes one an exact man and hence
Many speak on stage, but none can do so to write anything free!

Whatever be the thing, a thorough and confident mind only can
Speak, write and execute anything extempore anywhere at anytime!

Ramesh T A
A Star In The Sky!

Beautiful Sun at the dawn and in the dusk is a great pleasure
To stand and see with awe before the sky colour changes...!
Beautiful flowers in the green lawns of the park and the green
Meadows facing the distant broad blue sea are wonder to see!

Birds of different kinds like Mynah, green parrots and sparrows
Fly fluttering their wings in a zealous mood to go around in joy
Are indeed making one to enjoy their feeling as ours in reverie;
What a joy they give indeed making me renew our worn out spirit!

And many more natural sceneries everyday have changed me
Suffering from silent pain of disappointment making me forever
Relinquish my desire to study what I liked and do what I liked
In the obligations I have been destined to do for the good of all!

The pent up feeling came out naturally in a poetry that changed
My desire to pay attention to the expression of heart in poems...
Forever making me enjoy a new kind of experience quite hidden
As treasure within unknown for long has made me a Star in the sky!

Ramesh T A
A Star Love!

Lasting love
Even in isolation never loses lustre
As Star in the Sky!

Ramesh T A
A Starry Atmosphere!

Sitting I saw a Star and crescent Moon
In the beach after a walk for a while;
Above, left and right and back I saw
A few Stars in the dark Sky of the night!

The starry atmosphere is beautiful and calm
Giving a sense of peace and joy to the heart!
Diamond lotus symbol and Lord Ganesha
Left and right I saw before me quite unique!

They all remind of a midnight Star saw long ago;
I got transformed by that Star at that time in life
Before I became a poet by its influence unique
Producing countless poems now to the world!

Vision of stars surely kindles creativity to be active
Long to produce things of joy forever and ever!

Ramesh T A
A Start Of New Year!

In the start of new year, all go ahead
With new found joy and enthusiasm
As never before to fulfil resolutions!

Banks and shops have begun works;
New traffic rules control vehicle traffic
Making the works go on in beauty fine!

It looks it is another good turn in life
Closing the last one in some finishing
Way to bring meaning to last year's try!

All by trying with new ideas new heights
Are ever climbed in our progress towards
The top of Everest every year of our life!

Achieving all our goals we win in our race
Not feeling negative in all our competitions!

Ramesh T A
A Starving For Sex!

Starving for sex

Many vote for vulgar taste poems

Very much now!

Ramesh T A
A State Of Dizzy Rapture!

A State of Dizzy Rapture!

Ranges of mountains with green valleys
Look gorgeous to see from the top of all!
It's a bird's eye view so to say indeed to
Have a full view and muse over long...!

Beyond them there are mountains full of
Mist and snow covered to give a holy look!
The whole view is indeed amazing to look
And enjoy aesthetic pleasure as a mystic!

The route going down and the streak of
Stream of water going down are a wonder!
It's the top of the world with full of air
Pure sans any pollution to breathe ever!

Purity of thoughts and ideas develop with
Inhaling fresh air quite refreshing forever
Surely heart, mind and soul to sublimity
That none will like to leave state of trance!

In that dizzy rapture mystical union of
Mind with Nature indeed is heavenly
To get rid of to mundane world full of
Needs, wants and worries giving woes!

Indeed the higher one climbs all things
That are formidable become a miniature
Vanish into thin air by the spell of Nature
So soothing, solacing and sustaining long!

Ramesh T A
A State Of Mystical Bliss!

A great wonder it is in that state;  
Beautiful feeling one undergoes  
Caught by the spell of Nature....!

Delightful time one enjoys in fun....!  
Everything happens as in a dream;  
Full satisfaction one gets out of it!

Glory of divine nature engulfs soul!  
How high a state one is lifted up by  
Intellect, intuition and inspiration!

Joyful state always remains in mind;  
Kaleidoscopic sensation fills heart....;  
Love supreme rules spiritually ever!

Mundane world matters melt there;  
Nothing can over ride before bliss;  
Oblivion turns into night Universe!

Power of such beauty absorbs soul;  
Questions get answers in no minute;  
Reasoning by logic bows to mysticism!

Spiritual bliss makes all ills nil long;  
Truth of all ages comes in a vision;  
Universe completely occupies full!

Veracity makes matters simple ever;  
World of wonder wades through ills;  
Xerox of images fine echoes on and on!

Years of yearning yield rich dividend;  
Zenith of fantasy takes to heaven fine!

Ramesh T A
A State Of Security!

Absolute security
For one means insecurity
For others vice versa!

Ramesh T A
A State Of Stability!

Climate has stablised;
No variations now!
All go smooth as river;
Thoughts flow free;
Words run smooth;
Poems bloom fresh!
Days go on bright
And night cool as Moon!
Life goes on love;
Mind and heart light;
Spirit free as wind!
World looks new;
All are angels in Sky!
Nature controls all ever!

Ramesh T A
A Storm Suspense!

Cyclonic storm is brewing nearby!
Dampness all over is engulfing;
Only single grey paints the sky!

Trees and plants dance by the wind!
Intermittent light and strong breeze
With a little rain is washing the place!

Storm is supposed to cross the coast
Within 24 hours making all alert.....;
Ships and boats are anchored safe!

End of year with the last storm on
Makes dampness everywhere and
Chilling weather slowly creeps all....!

Anticipating the ensuing storm all.....
Wait and watch suspense at seat edge!

Ramesh T A
A temple city of Tamilnadu I had an opportunity to stay in;
Everyday when I looked out of window from the fifth floor,
I saw buildings mixed with green trees down below always..
And when I looked up vast blue sky was with clouds everywhere!

I heard sound of birds, chameleons and crows everyday sure;
But no pigeon seemed to make such a hell of noise everyday!
What a contrast among such free living and flying birds there
With so much time to feed and live a merry life sans worries!

Grey pigeons always go high up the tall buildings to stay
And to cohabitate with chosen counterparts always to enjoy
Happiness and peace that all have to learn as lesson to have
A peaceful and loving life in this world full of uncertainty!

This is the story the grey pigeons living there say to all
By demonstrating their way of life from top of world ever!

Ramesh T A
A Strange Behaviour!

Musth causes elephant to get angry;
Then it goes on a rampage at random;
It causes havoc to properties nonstop!

Elephant throws all over on itself sand
Destroying crops, breaking trees and
All that come on its way, when on run!

Elephant doesn't care it's mahout or any
Other man and throws and slams him
Like washing a cloth till he dies and goes!

Any elephant is out of control and senses
As long as it is shot by a tranquilizer gun
And slowly returns to normalcy later on...!

Not only elephant, but also all persons,
When in out of sense, behave so in life!

Ramesh T A
A Stray Dog's Nature!

Nasty beggars, shameless, childish, obscene, arrogant, 
Adamant, immature and impatient are termed as inhuman 
Creatures quite incorrigible, irrelevant, redundant and a big 
Blot in the community needing to be abhorred and shunned!

It is doubtful whether they are also eating food or something 
Else that makes them to be so hateful a blemish in high society, 
In which they also show themselves up as representatives 
Working for the development of the community they belong to!

However hard one keeps clean and feeds with good food, 
Stray dog goes out only to take excreta in the street ever!
Real nature of one cannot be changed however hard one 
Tries as it's like straightening out the dog's tail by tying a stick!

Barking dog never bites, it is well known to all in the world, but 
The silent dog of above category never leaves one sans biting!

Ramesh T A
A Sublime Pleasure Of Life!

Without taking risks nothing worthwhile can be achieved in life; Achievements are outcome of painful undertakings in the world!

World never recognizes the really talented and great works of art! As Thomas Grey says in his Elegy, the best ones are like 'rarest Flowers that bloom and fade in the desert or like treasures hidden In deep caverns of ocean' never to be seen unless by fate someday!

Poetry is such an art that appears as 'spontaneous overflow of emotion Recollected in tranquillity' as Wordsworth says praisingly that it's a 'best Of knowledge of heart' that immortalizes the creator in the hearts of all Readers generation after generation though it comes better late than never!

Poems of great value has a special audience ever eulogizing them among Their chosen best intimates to pass them on to their dear ones as a part of Great culture being cherished by lovers of humanity to enjoy higher and Sublime pleasures of life with satisfaction that nothing can offer in the world!

Ramesh T A
A Successful Story Of Love!

With disciplined behaviour presenting oneself in attractive Attire in a cool, gentle and kind way is beauty in life sure; Such a beauty inspires the beginning of love with a strong Impression in the mind paving the way for custom soon...! Like-mindedness in things of interest, coincidence in Thoughts, words and deeds pave the way for love sure! Engagements in occupations of joint ventures bring two Souls closer and willing entanglements confirm love....! Openly indulging in free and frank talks promote intimacy And confidence lead to exchange of love kisses sweet...! That natural action of love leaves nothing hidden between The lovers for a long successful journey of life in the world! When life of love is more than love dream for the soul-mates, Their love story becomes classic in world literature for all to Cherish and follow in life to enjoy great bliss in their ventures Turning all cherished dreams into realities in their life time sure!

Ramesh T A
A Successful War Against Terrorism!

Countries that are serving as safe haven for terrorist outfits
How can be good friends to neighbouring countries anywhere...?
They themselves actually isolate their nations from world nations
Paving the way for unnecessary wars to bring peace in the world!

That too a nation, that has become the epi-centre of terrorism
Hoodwinked number one super power against a great nonaligned
Nation during the cold war between two super powers dividing
The world into two blocs, is well exposed as friend to terrorists!

Now that the cold war is over and the terrorist supporters are known,
The super powers can very well plan an effective strategy to fight
And foil the threats of terrorists by collaborating with the emerging
Super powers of Asia and bring sure peace this time in the world!

Intelligent, talented and strategic nations' cooperation and also,
Coordination can surely make success the war against terrorism now!

Ramesh T A
A Suffering Endless!

Why are men suffering endless in the world?
Can there be redemption from the hell here?
Men suffer for the mistakes committed already;
Many suffer for problems beyond their control.

Alternately after day comes night everyday;
Also alternately after night day will come!
Alternately after enjoyment suffering comes;
So also after suffering enjoyment will follow!

Naturally this is the thing that happens ever;
Exceptions are there in every act of life too!
On such a time what has to be done for good?
This is the thing one has to think about well.

Feelings are due to the body and its sensations;
Emotion is due to attachment, desire and likes;
Mind rules body but amplifies emotional matters;
Spirit is nonattached to all these activities of body!

Knowing this truth to immunize sufferings follow
The path of spirit to overcome sufferings of body!
We suffer and enjoy due to the sensations of body;
If one follows nonattachment one will forget ills!

Ramesh T A
A Summer Blessing In Disguise!

Blessing in disguise Summer rain is!
Rain in Summer is clouds concealing
Sun from ferociously radiating heat!
Sea breeze in the day time makes all
Look cool despite severe heat of Sun!
But after Sunset, the day long stored
Heat in the building takes a longtime
To cool and bring relief to dwellers...!
Sweats keep on oozing from the body
In such a way that bathing isn't needed!
But if you go out of house the cool breeze
Coming from the South is like Spring
Season just after Winter or Autumn
Season just after Summer one can enjoy!

Ramesh T A
A Summer Dream!

Rain cool as in winter falls in the hottest day of summer;
A mixture of steam and cool breeze flows in the town now;
What a sea change is happening just before sunset here..!

Just a few degrees fall in temperature brings about great
Change that makes up for the loss to balance itself ever;
It's due to this nice changing effect of Nature survives us!

This summer if it goes on so, it will be a great relief
Amidst of severe hot days will subside like thin mist
That melts away by the hot ground temperature forever..!

A little rain everyday is a great compensation it will make
To bring normalcy as great relief to hard toiling people for
Eking out their daily subsistence with great will and pleasure!

Nature wills to make hell as heaven and dry area as paradise
By making rain fall in places, where rain is a summer dream!

Ramesh T A
A Summer Rain Beautiful!

Only monsoons bring rains here;
Summer monsoon rain is better,
But rain rarely comes that time!

Winter monsoon brings cyclones
Accompanied with heavy rain
Causing destruction sure often!

Summer rain if comes well
It is really a blessing in disguise;
Everybody enjoys everywhere!

Especially farmers are happy;
Fields are filled with water and
Crops grow making happy the year!

Summer rain is beautiful of Nature's
Bountiful offerings in time to save all!

Ramesh T A
A Summer Rain!

If lightning and thunder sound
Accompany with heavy rain in night
It is Summer sure!

Ramesh T A
A Summer Time Scene!

Day by day temperature is increasing
Indicating the rise of Summer after the
Great devastation of Winter long sure!

Water, water melon, fruits like grapes,
Banana, coconut juice, cucumber and
All cooling vegetables and fruits pacify!

Great Summer heat is well balanced by
The cooling drinks and foods that are
Enjoyable for a change after long now!

With less dress to wear it is free to breathe
A sigh of relief and enjoy Summer time
With romantic encounters all the way....!

What a pleasure to enjoy when Summer
At last comes to the beach town right now!

Ramesh T A
A Summer Time Woe!

Wind direction has changed;
Summer solstice has begun;
Now southern breeze rules
And gives relief from hot sun!
Tree shadows are precious now
For men and birds for shelter!
Water melon only can ease
To quench the summer thirst!
Jasmine flowers blossom much;
Everywhere its sales are more;
Other flowers have disappeared!
No violet, pink or red flowers seem
To be visible in the market or beach;
Summer bright and thirst keep going!

Ramesh T A
A Sunny Day!

Smiling star flowers in light brown colour
Blooming regularly in the morning welcomes
One and all before they begin their routine!

Little squirrels play everywhere with noise
While parrots and mynas crisscross in the sky
Before all become busy to begin their businesses!

Sun is already up with brightness in Summer
While the rain clouds covering whole town
Keep its heat building up greenhouse effect!

That boils people as biryani as in a hot pot
To have dum effect to make dish delicious
For customers to enjoy at the lunch time....!

Fruit juice and cool drink shops open wide
To welcome thirsty tourists to quench it
And make themselves cool to go round place!

Kulfi, chocolate and vanilla ice creams ready
With Tutifruiti and Faluda ice creams ever
Wait in ice parlours for customers to consume!

Delightful will be the Sunny days with all those
Paraphernalia ready to cool down Sun's effect,
A marvel of scientific innovations in these days!

Ramesh T A
A Sunny Humour!

Even in winter
Sunny humour cannot be
Forgotten ever!

Ramesh T A
A Super Full Moon Tonight!

Shining bright, The super full Moon looks wonderful
When it has just gone up the tall green tree sure;
What a wonder it shines like bright silver in the sky
Making the night very beautiful to enjoy Nature now!

Every night Moon comes but tonight it looks very special;
No words get I to say exactly about its lustre tonight;
Nights without such a shining Moon is a oblivion for world
Like a tasteless feast one enjoy in a banquet anywhere!

Super Moon so near with sky as a black velvet canvas studded
With Stars as diamonds all night is a novel exotic fantasy...
As if happening in a dream making all dance in joy flying
High in the Universe full of circling galaxies as in a fete!

The natural change of Moon now and then producing such a nice
Fantasy makes all forget the world and all in joy so fine...!

Ramesh T A
A Super Moon!

Super Moon today

Can never be a Supernova

To affect Earth!

Ramesh T A
A Super Power!

Educational knowledge develops individual personality to do job better; Such developed individuals make the nation develop much better than before; Creative and inventive works of talented individuals make a nation Super power; Only such super nations bring peace and make the world a better place to live!

For that, a great and big democratic nation having many races, religions, languages, etc. Should implement world class uniform education system with same syllabus for all schools and colleges; Then only, national eligibility and entrance test can be feasible for all categories of pupils sure; Otherwise, many students in villages will lose chances to win in the tests and have higher education!

In a heavily populated country, many professionals are needed to do great jobs in various fields; Unless such a facility is provided by the govt. all people cannot contribute their best to develop nation; That is the best way unity in diversity can be followed and promoted for the better of the nation; Unless knowledge and talent of all are utilized a nation cannot progress as is envisaged by all ever!

To promote the status of a nation to super power level both public and private sector organizations should Ever employ good, sincere and honest people whatever be their knowledge and talent are damn sure!

Ramesh T A
A Super Saviour!

Heavy down pour of rain from the bucket of Sky
Immerses the town as dress in the bucket of water
For two days at a stretch making all spell bound!

Is it a sea town or a hill station or cold mountain?
So cold all the day that no one can go out anywhere;
Such a sudden change from hottest climate it is now!

Climate makes all have tough of hair or bald head ever!
Hot and cold blows the climate and makes all paralysed!
We are just hypnotised by both the extremes of climate!

Fortunately drainage is good to drain all the rain water
Sending it only to the sea and not under the ground
As the town has become a great concrete jungle now!

Lakes and wells are filled with water to clear water woe
Making Nature a super saviour of parched Earth once again!

Ramesh T A
A Supernatural World!

Soul sans body is invisible,
A state light and painless!
Many believe that is ghost,
But scientific feat it may be!

Human nature, when gains
Power, does usually havoc!
Good natured ones do a lot to
Alleviate pain of meek ones!

H G Wells novel of that kind
Surely increases curiosity ever!
Transmigration of soul is yet
Another Indian spiritual art...!

But sans body all these thoughts
Come in supernatural world!
Dreams of this kind engulf mind
With ideas endless needing exit!

Spiritual science is a wonder
Ancient sages exploited much!
When are we going to achieve
That feat in future or after....?

Ramesh T A
A Supreme Power Love Is!

Indeed there is nothing
fair or foul
both in war and love.
But love is supreme power
over war and life
in the world!
Proof:
History,
Literature
And
Life!

Ramesh T A
A Sure Rain!

When black clouds gather
And peacocks dance with spread wings
Rain is sure to come!

Ramesh T A
A Sure Splendour Of Nature!

Blue Sky with long strips of rose clouds
Slowly changing,
An army of white storks flying in a line
Gently on,
The evening looked calm with traffic
Getting silent!

The day ended like a storm crossed
The coast somehow!
All people were settling in the home
For the day then;
But cold night brought darkness with
Clouds covered all over!

In the silent night TV songs went on
With full swing
Making drowsiness leading to sleepy mood
Sure for long;
In the sleep Avatar movie came in dream
longing for love!

Next morning Sun was peeping through clouds
To bring brightness;
Two little squirrels silently went round garden
To eat sibling leaves;
What a beautiful sight I saw getting up soon
Never thought before!

Nature never stops to excite me everyday with
Something surprising!
Sans Nature will we be happy rejuvenated by
Its splendour sure?

Ramesh T A
A Surety Of Love None Can Oppose!

Affection, kindness, softness, gentleness and divinity are reflected in the love behaviour pattern of a person similar to an angel in heaven; Decency, devotion, discipline, dignity, diligence and determination can be seen in the way duty is being done by a person of love ever!

Such a beautiful nature the love of a person creates the impression in the minds of all the sure success they can achieve in any matter! The lovely quality of such a being by the very presence itself surely conquers hearts and confidence of all bringing a sense of sureness!

The lovely words of loving person cannot be denied or objected by any heart even if the work is not to anyone's taste in the beginning; But the end result is as beautiful as their execution under the very command of loving soul in the world life as expressed in literature!

What not love can achieve in the world no one has discovered so far As love is such a greatest power that no one can excel it ever sure!

Ramesh T A
A Surface And Depth Of Ocean!

Words of love are glittering glasses;
Acts of love only are sparkling gems!
Flattering words of friends are fake;
Critical words of pals are guiding stars!

Love of distant hearts are real feasts;
Love of companions are mere mirages!
Help after many requests are matter of fact;
Timely help out of heart is real treasure!

Love, friendship and enmity are works of fate
That are known in true colours only in hard times!
Joy and sorrow depend on our wish ever;
But fulfilment of wish reveals what's what!

Ocean of life looks plain at the surface ever;
Going deep only we can see hell and treasure!

Ramesh T A
A Surprise End Too Happens!

Things done in a hurry may end as broken pieces of a mirror
Reflecting your mind, dream and heart that has gone waste!
Taking time to do a thing as an artwork will be beautiful and
Beneficial to the doer and also for everyone it has been done!

Not knowing what could be the fate of a thing, many do in a
Hurry out of fear and in tensionous mood sans any hope at all!
But sans hope and expecting anything, some do things in a
Matter of fact way ending in success to one's surprise too in life!

It happens that some don't get any chance to do their favourite
Things caught by the web of restriction and obligations in life....;
But of late, if they have to do such things sans any zeal or effect,
They bring a lot of surprising recognition and lifetime awards too!

Poetry is such a thing for the well deserved and dedicated poets
To have a beautiful end for the works they have done and forgotten!

Ramesh T A
A Survival Of Life!

Survival of the fittest is still in vogue as in jungle;  
With killing weapons like sword and gun, hunting  
For food and survival was the custom in the past;  
But now, money is mightier than sword and gun..!

Money only makes men make a move, good or bad!  
Money is the pass for dealing anything in world life  
As money only has been taken to be the value for all  
Whether it is food or art or science or anything ever!

Money makes one mightier as sword and gun of past  
To fight and win anything in governance or legal battle!  
Money is the magic wand to do any miracle in the world  
To survive against all odds and situation in life ever..!

Money only makes one fittest to survive in world life  
Whether one has property or knowledge or work or  
Nothing making all wonder whether this be changed  
Or overcome by any other means in the modern world!

Ramesh T A
A Suspense Of Election Result!

Democratic elections are a great suspense
From the time of voting to the result scene!

Pre-election survey of the outcome of election
And the survey of after election are many
Coming daily in the newspapers nonstop!

Till the election result comes, the suspense
Continues nonstop and is the talk of all sure!

Both in India and America, elections are
A fact of reality this year making all think
About whom to vote to see the rule one likes!

After the election, the result will surprise all,
If something unexpected happens due to the
Coming of new faces successfully on the scene;
If predicted ones come, it will satisfy hopefuls!

Ramesh T A
A Sweating To Shivering!

The peak of summer time has just been beginning
It is sweating, sweating and sweating all the day!
15 days the peak summer time will rule the day;
No mercy whatsoever will the climate heed to any!

Many prefer night time journey to day time ones
To escape from the roasting heat without respite!
We too decided to go on a night journey in lieu of day
In a bus on the six ways national high way route!

Even in the night we were sweating from head to foot!
After one hour the bus entered into national high way;
We expected the bus will move faster than usual;
But cool breeze came first and then steady rain started;
It was raining so even after 60 kilometres of journey!
The climate became very nice and soon the bus cooled
Cold climate then made all shiver and close windows!

Bus was sliding to the left whenever turned to right
As the road became wet and slippery for the bus
And the bus was moving without grip on the road!
Speed of the bus cannot be picked up due to that;
All vehicles were overtaking it both on left and right;
Driver side window was broken already and due to that
The rain got easily splashing inside on the driving wheel!

Driver cannot hold with grip the driving wheel to go fast;
As the circus of driving so cannot be continued any longer
He stopped the bus for the rain to stop and cleaned the windows.
Then again he started the engine and made an attempt to go;
The window wiper stopped working and cleaning front window!
Also, there is leakage at the back of bus and rain fell on seats
Making passengers not able to sit any longer on back seats!

Near a tree the bus stopped again for cleaning the windows
Of the bus both at the front and side for making a move next.
On the tree a plastic advertisement poster gave the idea of
Using it for closing the broken window for stopping rain flow inside;
That being done the bus got moving with ease for the driver to manage;
Likewise the bus journey went on for another 200 kilometres!
Six hour's journey took eight hours to reach our destination!
Sweating to shivering resulting in knee jerking too to conductor
The bus journey became a great adventure to remember forever!

Ramesh T A
A Sweet Taste Of Love Kiss!

Red rosy lips of a lady can ever be fail to kiss sweet;
Sweet kiss is the reward for a beautiful picture he has
Depicted the beauty of desire on the lovers day sure...!

Seven heavenly days to go to celebrate the finale for...
Lovers of the world in praise of divine love of humans...
Nowhere can be seen in the whole Universe other than here!

Embracing the beauty none can remember the world one lives
In that revolves round itself ever to have love never to
Die till the end of time that is nowhere visible forever..!

All for love that brings together unique lovers at first
Sight itself no can know how even after a lot of poems are
Written in world literature from time immemorial to man...!

Hug and kiss when the time is hot to shape love according to
Each one's desire before it becomes cold to taste sweet kiss!

Ramesh T A
A Symbol Of Achievement!

Trophies, mementos and medallions are surely
Symbols of achievements that inspire best of
Mood to do best things better than before ever!

Even a little child stands spell bound by the sight
Of such symbols of achievements standing on the
Show case in the reading room of the house ever!

For me, despite disturbances, discouragements and
Dejection in life, I have pursued strenuously the object
Of my ambition that gave me some awards of recognition!

For me, they are all not symbols of achievements in life,
But they are symbols of miracles that have happened
As they are all impossible things I have done despite odds!

I only believe that they are all works of fate I have been
Destined to do despite odds, hurdles and disturbances...!

Ramesh T A
A Symbol Of Hope!

Scorching Sun's rays make us look for some cool sight;  
Green trees give a sense of relief from the glaring Sunlight;  
But yellow flowers on top of tall tree give unique sense of feeling!

A light difference beautiful attracts much the heart quite fatigue  
By the dryness of the hot day we are enduring from morn on  
Till evening comes with Sunset bringing cool breeze from South!

The soothing breeze is as lovely as the smiling yellow flowers  
Welcoming all sapped off all energy to rejuvenate one with sure  
Freshness most wanted when we are in need of in world life!

Whatever or whoever provides a thing needed most in time is  
Surely special in life and becomes a saviour, inspirer and friend  
God like and seeing such a one gives a sense of hope ever...!

The timely aid has a lasting impression in mind and serves as  
A great symbol of inspiration and hope for a deserted soul sure!

Ramesh T A
A Task To Do Ever!

Keeping pace with the time is a great job....;
When we are slow, it becomes a competition
To be on par with the pace of steady time!

When we are young we go faster than time;
But when we attain middle age, we slow down;
At the old age, our body doesn't go with mind!

Body doesn't cooperate with mind and time...;
It becomes a race among mind, body and time;
Mechanically, we try to finish the daily chores!

The daily chores themselves seem to be difficult
To do and go ahead with the rest of all members
In the family against their goading to do all fast!

Skin doesn't cooperate with body, body with mind
And the race with the time becomes a task to do ever!

Ramesh T A
A Taste For Truth!

I speak the truth I discover
In Self, world, Nature, Universe, God...
I express truth in poetry I explore
In Arts, woman and Nature.
I intellectually analyse truth I experience
In life, work, interactions, the incidences...
I philosophise over truth I observe
In experience, books, others....
I ponder over truth I notice
In experiment, observation, inference...
I infer the truth I analyse
In experiment, experience, observation....
I intellectually love truth I search for
In news, stories, articles, etc.

Ramesh T A
A Tedious Journey

It is tedious

To travel more than

Four hours! ! !

Ramesh T A
A Tempo Suicidal!

Continuation of tempo
In the same vein is suicidal
When not necessary!

Ramesh T A
A Thing Of Inspiraton In Life Is A Joy Ever!

Science and technology have provided jobs for many;
But arts have helped only the hard working geniuses!
Naturally, there is rush for science subjects in education
And arts subjects have lost value in the job market ever!

Though I have interest in physics, somehow poetry has
A spell that no other subjects have in my college studies!
That too romantic literature has captured my heart much;
Romantic poets only give encouraging solace as none can!

Not only during education time, but also in life afterwards
Only romantic poets live still in mind and help to recollect the
Best time we have enjoyed in the youthful period of education
And give unique joy none can give in the world forever sure!

When everything has come to a halt in world life due to its grim
Reality and uncertainly, poetry has replaced all gaps and has
Made me into a great poet inspired by the lives of romantic poets
And their love and friendships with other poets in love of literature!

Ramesh T A
A Thing Of No Importance!

What shall I say about irritating personalities?
Very nice looking but full of irritating talks ever
Put one in confusion distracting all best thoughts!
Next moment totally out of place move puzzles!

This is the most strange thing about personalities
One has to be careful to avoid talks to solve crisis!
If you start doing something you will be in trouble
Making a fool of yourself for nothing at the end...!

Certain things we have to hear by one ear and
Leave it by other ear for good to avoid bad situation!
This is the matter with many novices we meet
Who look and talk as if well versed in life matters!

What we gain is just waste of time and energy in
Pursuits of matters of no importance apparently not!

Ramesh T A
A Thought Process On Time - I

TIME IS NOT ENOUGH - I

Time is unknown in Space as fire in stone!  
But the invisible Time-Spirit is made visible  
By the invention of Clock by man in the world!  
In the Universal Clock, Sun is the hour hand,  
Moon is the minute and Star’s second to Earth!

Year, month, week, day, hour, minute, second go  
Fast before man solves the puzzles of the Universe!  
So, time is not enough to finish all the works  
Man has begun after his birth in the world!  
Unless man wins in the competition with time  
He can’t overcome suspense, tension and thrill!

So, man has to take many births to finish task  
Of his day and night life of the world to win!  
Otherwise, the Utopian dreams of the intellectuals  
Cannot be realized in the present or in the future!  
So, Utopian dreams have to lead to meditations  
Ending in the definition of the truth of future;  
But winners of time only are aware of the three  
Phases of time to predict unfailing things free!

In all the time bound programmes there is competition  
Between man and time leading to inadequacy of time!  
So, there are anxieties and excitements, suspense and strain,  
And tension and thrill in all the competitions of the world.  
Even easy things become difficult due to competition  
As tension and excitement grip the players in the game.

So, preparing for the public examination to write well  
Time is not enough for school and college students;  
And that too writing full answers for all questions  
Time is not enough for most of them in the Exam Halls!  
Also, till the favourable result comes after sometime  
Agony and ecstasy oscillate in the hearts of many!

Catching the train or aeroplane sometimes at last minute
It seems mostly time is not enough for many travellers!
Seeing all the places of interest as per the programme
Time is not enough for the ardent travellers of the world!
Returning home by bus or train next day to attend work
Also time is not enough after the tour holidays often!

Ramesh T A
A Thought Process On Time - II

TIME IS NOT ENOUGH - II

Time goes as fast as lightning for those who perform
Jobs interesting to them without expecting anything!
Time moves as slow as snail for those who perform
Jobs uninteresting to them out of sheer necessity!
Time is not enough for some to enjoy life rarely
To get satisfaction even when the opportunity comes!
Time puts an end to life ironically for some
Whether one completes one’s mission or not!
So, completing assignments of life then and there only
One can willingly say good bye to time when death comes!

One has to work, enjoy and rest to be peaceful in life
Not before or after appropriate time in this world;
Even if monsoon seasons come before or after time
It won’t be helpful but only harmful to mankind.
Even Nature which is time bound in all its programmes
Also fails sometimes to be favourable to the world;
But generally helpful to all living beings on the Earth
Nature too wreaks havoc sometimes to balance itself!

Everything changes according to time in Nature
But nothing remains to be the same forever here.
Milk is not milk forever but becomes butter-milk,
Butter, curd and ghee too as time passes on here!
Leafy vegetables helpful to health for consuming
At one time are harmful to health at another time!
Wet grinder which becomes hot when it is working
Becomes cold again when it becomes dry at rest!
Whether hot or cold, the material is the same in
Nature, but its effect changes from time to time!
So, “make hay while the Sun shines” is the best way
Man has to play his part well in this Nature world
Because fire, time and tide never wait for anyone
Whether time is enough or not here for anyone!

By scientific revolution freshness of a thing in
Nature can’t be prolonged for enjoyment ever;
For, natural fructification of the whole is possible
Only by evolution but not by scientific revolution!

For everything there is entrance test because there is
Too much rush for everything due to dense population!
Even in the cinema theatre one has to be present there
Before time to buy ticket so as to avoid disappointment!
Even to consult a doctor for a disease, that too only at
The appointed time, one has to get a token before time!
Also, before time one goes to the Railway Station to buy
Ticket, there is too much rush and time is not enough!

Though time is there, competition is also there due to
Too much population and success also depends on luck!
So, just time is not enough, but time of good luck also
Is necessary for one to be successful in the world life!

Ramesh T A
A Thousand Lies!

Can a lie
Said thousand times
Become truth?

Ramesh T A
A Thrill In Rain!

Roaring thunder following lightnings
At the distant sky reminds me of rain
Surely approaching sooner or later!

Briskly walking home before rain is
Pounding the seashore area here.....
Gives thrilling effect to dull mind....!

Dealing with rain in summer time so
Surely gives joy nothing can give ever
Making otherwise an insipid evening!

So many times I have managed so
Even without umbrella in hand......
Though it's useless to deal heavy one!

On such occasions I stand in a shelter
And watch rains' play even an hour!

Ramesh T A
A Tiger In The Skin Of Lamb!

Herbivorous animals take leaves and fruits as food
And live a calm, silent and gentle life in the forest;
But carnivorous animals hunt other animals and eat
As food and live a wild and ferocious life forever!

Man, evolved from animals, cannot be assessed about
Their character whether one takes vegetarian food
Or non-vegetarian food as in both categories there
Are good, bad and ugly ones according to their status!

However, the class and caste differences they take as
A Very big matter to have domination or subordination
According to their position in the society anywhere
Needing to be dealt with social changes everywhere sure!

Of them, the pseudo purists wearing holy thread and
Eating vegetarian food lie, cheat and do all fraud works
Using their attire of pious fellows as camouflage in the
Society sans shame and sense as tiger in the skin of lamb!

Ramesh T A
A Time For All Is There!

Hot summer has come!
But breeze is giving relief!
Birds are flying free and
Squirrels are singing all day!

Despite thirst water is available;
Despite difficulties relief is there;
Despite problems solutions are there;
Despite works to be done hope is there!

Hard work with good aim is good;
Ants work briskly with goals achieved!
Winter fears need not bother now
And all make hay while the Sun shines!

There is a time to work and play
As there is a time to sing and enjoy
Like the day and night follow ever
In the life of the world from birth to death!

Ramesh T A
A Time Machine Mind!

Human mind, dreams, vision and imagination
Can transport one forward and backward in time.

Mind is the time machine to go to past and future
But time never goes backward but only forward;
Also, time never goes in circle but only straight!

Recollection of past is possible in the present;
Visualization of future is possible in the present;
But one cannot go to the past or future ever now!

Hour glass can show the time like clock of today
But it cannot bring back the past to reality now
Or bring to our vision the future of world now!

Mind is the time machine that can read history;
Mind is the same machine to see the future too;
But time never goes to the past but only to future!

Ramesh T A
A Time Machine!

Words open a new world
And thorough book knowledge
Makes one see wonders!

Book is Time Machine
Takes one to the past and
Brings past one to the present!

Through writings it's possible
To make one go to the past
As well as take to the future!

Ramesh T A
A Timely Product!

Travelling in commuters to nearby statons is fun
Not only in college days but also after long time
With family and friends to purchase goods ever!

The time spent in such funny occasions is joyful
And also, it returns the old joy once again to all
Before we go on our ways to mind our works!

Forty years time is not a small time gap so to say
Due to too much developments that have taken
Place there making us wonder with amazement!

Seeing all these things, we can understand very
Well what a gap there is between the working of
Mind and body cooperation due to old age in life!

We are all just timely products to be used and thrown
Off, when the time limit is exceeded in our life too...!

Ramesh T A
A To Z On A Tour!

Again hot Sunshine has come to town....;
Beautiful blue Sky with white clouds are
Conspicuously seen, when I look from stairs.

Delightful time people have due to holiday;
Everyone is in holiday mood from the morn;
Fine climate makes all go round town well.

Gathering in a place friends have a nice time;
Hanging on to one place surely makes all dull;
Inspiration, interest and enthusiasm go together
Joining hands with like-minded pals everywhere!

Keeping time schedule doesn't arise in holidays;
Long tours with the company of friends is great!
Many wonderful places see we and take photos;
Nowhere we have lost interest when in company!

Open hearted discussions we have had all time;
Patiently the first reacher waits for others to come;
Quite early we reach some destinations on tours.

Roaring waves of sea too are silenced by talks loud;
Such a high pitch voice each has when in fun sure;
Thoughts of poetry make all friends poets soon.....!

Unity among such friends is a great wonder to see;
Variety of ideas start converging on a topic all like;
Writing such ideas they create really wonderful poems!

X, Y and Z too sing songs no one has heard before...;
Years of fed up feelings are released to have a change;
Zeal of new born feeling among friends rejuvenates all!

Ramesh T A
A Tom & Jerry Story Ever!

Tom and Jerry my son and daughter have become;
Like snake and mongoose they fight everyday!
Which side to support it is impossible to decide as
Both are balancing with each other for and against!

With entirely different interests they go as extremists
Not only in studies but also in work and life it seems!
How to bridge the gap between them is a predicament
How are we going to deal with is beyond our scope now!

Impatient they have become by specialised education;
Pinnacle of glory they feel they have got by education!
By education have they become complete citizens at all?
Even after professional education they are just kids only!

When there is no link between science and humanities
How can Tom and Jerry become ice and fruit cherry?

Ramesh T A
A Top Job!

Top job in the world is writing ever;
Knowledge based work is writing;
Feelings, imagination and dreams
Thoughts, intuition and vision.....
All such stuff only Poetry reveals!

My favourite novelist is Charles Dickens;
My favourite playwright is Shakespeare;
My favourite poet ever is S T Coleridge;
My favourite musician is Billy Vaughn;
Blending all these I write my poetry.....!

I have no fan close by to share my humour;
I have no lady close by to share my love;
I have no fellow close by to befriend ever;
I have no time to indulge in my own dream;
But I do all in my poetry to compensate all!

Time is fast before I get mood to dance;
In my poetry to enjoy humour I love most;
Whatever I touch I leave my mark in beauty;
I love whoever loves me with whole heart;
I never leave anyone in despair by my poetry!

Ramesh T A
A Top One!

Hazlits eat  
The brain of Coleridge  
And come top!

Ramesh T A
A Total Involvement In Art!

Knowledge, imagination, dreams and feelings one may have;
But they can't be utilized sans mood, urge and talent to write!
Sans the skill even exams can't be effectively answered;
All top persons shine in any field only by good articulation!

With the play of words a skilful artist creates sensible work
That gets the appreciation from all who enjoy it with full heart!
Impressive and heart touching works of art have special honour
When expressed by an artist with full involvement in the art!

The natural expression of artistic work coming directly from
The depths of the heart touches heart, mind and soul of everyone!
Such selflessly expressed work of art gets the honour of awards,
When the artist himself never expected and intended to acquire!

The impersonal, disinterested and deep involvement of one indeed
Make one one with the art itself like the mystic mingle with
Nature, when he has mind in communion with it in loneliness quite
Far away from this mundane world and time mentally and spiritually!

Ramesh T A
A Touch Of Mysticism!

Sun set is clear before me in the West!
Rose, orange, blue and green sky with
Touches of grey and brown clouds
Make me spell bound to look at it long!

Just as woken up from deep slumber
Moon rises among clouds in the East!
Cool breeze soothes the hearts of all
After a hot day has ended with calm!

Musing over the scenes of evening sky
I think of going out to the beach as usual
To have my daily walk with some guests
Before the dark night rules the sky long!

The panoramic canvas of sky never leaves
A touch of beauty unique to kindle mysticism!

Ramesh T A
A Toughest Field Of Art!

Lack of understanding of the great ambition
Of a person by a counterpart or a better-half
Makes one languish in a prison of obligation
Making this world inescapable hell forever...!

Overcoming the obstacle to achieve ambition
Surely becomes a miracle by God's grace only
For a person of integrity and perseverance in
This world of no respite and no redemption...!

Many a talent or genius is never seeing the
Light of the day like the treasure hidden in
The dark ocean bed forever sans proper help
And guidance to expose it to the world audience!

Poetry is the toughest field of all forms of art
That makes one struggle to escape from an abyss
To meet the people of the world with the renowned
Fame quite rare to materialize after a very longtime!

Ramesh T A
A Tour Plan And Implementation!

Hill Kurinji flowers bloom once in twelve years;
Likewise five friends meet once in a blue moon!
Working in different directions with different jobs
They even communicate very rarely with one
Let alone personally meeting anyone anywhere!
But, if they met together by chance
It would become a celebration of fete!
On one such occasion they met together
And decided to go for a tour together
As for vexedness, sadism, tiredness,
Loneliness and longing for a change
A tour to a Resort is the only resort!
They set a tour programme like a 5 year plan
Too tight scheduled to implement in real time!
Whatever it might be with an adventurous spirit
They decided to implement whatever they could!

Ramesh T A
A Tourism Or Terrorism?

One man’s food is another man’s poison in the world;
Place of tourism has become a place of terrorism now!
World is not safe for tours in the wake of terrorism
That has no nation, no boundaries and no state players!

Terrorism based on backward fanatic faith is vague
In its approach to modern world of developments.
So, civilised nations have decided to eliminate it fast
For peace, stability, security and progress to go on!

Terrorist attacks in USA, UK, Asia and India are condemned.
Terrorism for the world is fight for freedom for some few!
Consequences of terrorism are losses of lives and properties
That have made many nations cautious in world dealings!

Tourism or terrorism? A fearful question in world tourist spots
Has made many to avoid tours there though nothing happens!

Ramesh T A
A Transcendental State!

Concentrating eyes at the centre of forehead
One forgets all around is what meditation is!
Sunconscious state of mind opens door inside;
Gives bliss of seeing luminous soul in heart...!
Brightness engulfs eyes after recovering sense!

Communion of mind with Nature is mysticism,
Which is the superconscious state of mind ever
Reveals past, present, future to Ultimate Reality!
A wonderful bliss mystics enjoy in Nature ever
Making poetry writing a divine pleasure sure...!

Soaring high to sublimity divine bliss is realised,
Where peace, joy and divine hood remains still;
Space and time are transcended to divinity......
Which is a feat man is capable; but why he forgets..

Ramesh T A
A Tremendous Effect Of Nature!

Garden with vast green lawn is the best place
To have peace of mind in harmony with Nature;
Time moves on without our knowledge, when we
Are in meditative mood with our beloved there!

Many a time I have had such an opportunity to be
In the garden like park near our beach in my town;
All drowsiness and dull mood have turned into an
Enthusiastic sensation giving greatest confidence!

Rejuvenated so, I have many a time moved home
With high spirit to achieve something great in my
Life and such a mood has turned me into a poet to
Write all my best and great poems in many volumes!

Now, I am capable of turning all my out-of-moodness
Into full of enthusiasticness to inspire all ever!

Ramesh T A
A Tremor Before Terror!

Lightning comes
Before thunder arrives
With rain full!

Tremor comes
Before Earthquake arrives
To destroy all!

Vibration comes
Before dinosaur arrives
On the spot!

But bell sound comes
Before Indian elephant arrives
On the place!

Ramesh T A
A Tribute To Beauty!

Beauty attracts and kindles romantic mood
To go in pursuit of love to enjoy pleasure in
Life to be happy forever in the world sure...!

What is beauty? Beauty is truth in everything,
Because truth is ever beautiful as bright flowers,
The glow of good people's faces we see often...!

Beautiful persons kindle love to everyone ever;
Beauty softens heart to love such tender people
And be happy sharing their joys and sorrows!

Beauty cools down burden of mind and heart
And urges to do even hardest jobs as nothing
To earn the love of beautiful ones everywhere!

Love of beauty makes one humble and sweet
To live in peace and harmony with all ever...!

Ramesh T A
A Tribute To Flowers!

The cheerful mood flowers bring
cannot be replaced by anything
so simple and fresh everyday!

This symbol of love no one can deny
when it is presented in the form of
bouquet or anything!

This is a natural thing of beauty
and is the joy forever in life!

Freshly bloomed flower is
the smile of Nature inspiring joy
to all ever!

Beauty and love of flower never fail
to sway anyone in the world sure!

Such is the nature of flower
that it is the best creation of God
we offer as our reciprocation to Him!

Flowers absorb heart, mind and soul
by their inspiring love to love all in the world
and spread love everywhere sure!

Ramesh T A
A Tribute To My Favourite Poet!

Jon London was my favourite then being
A beautiful writer of poetry on love and
Also child besides his account of war.....!

A retired war soldier he was who had a
Very unforgettable experience in life among
Soldiers dead, suffering and dying on fields!

Shakespeare dust bin most liked by many
Besides me and Fay Slimm also for long here
Noted for his love poem in Nature forever...!

Being a great lover of the famous Bard, our
William Shakespeare, his narration also often
Reflected his master in poetic style and narration!

Even after his departure from our world here,
He has been living for long in Poet Freak site
As a loving holy ghost so to say among poets!

Ramesh T A
A Tribute!

A macabre personality

Thinks much and works long

To achieve impossible!

Ramesh T A
A Truant!

PH is playing
Truant due to work load
Too much always!

Ramesh T A
A True Beauty Of Love!

Climbing is difficult
But reaching mount top of love
High true view is beautiful!

Ramesh T A
At the surface sea looks very calm like lake
But how deep and full of species inside of it!
Among men too there are so many looking
As if they are not what they look to be mostly!

If we move closely and deeply with them
We wonder very much about their erudition!
Some look to be nothing before they expose
Anything about their inner heart when kindled!

Poets are like ordinary persons quite unassuming
But when they get the mood they transcend limits
Putting one and all quite amazed by their expression
Quite unique and incredible if one has the heart to see!

Fathomless sea looks simple like the invisible God
Accommodating all Stars and planets in the Universe!

Ramesh T A
A True Poet's Influence!

Influence of great poets
Make many plagiarise
Original poems of them
And soar high in the Sky
Glittering more than gold!
What a pity of great poets!
What to say of fools who
Appreciate imitations
Better than original ones
Not knowing the source
But only the end results!
If the originals are no more
What will happen to fakes?
Think about it clowns!
Read the true poems
Born of true poets always!
You will enjoy pleasure
Entertaining, enlightening!

Ramesh T A
A Truth!

Ebb and tide
Wait for none
It's truth!

Ramesh T A
A Tsunami Fear!

Tsunami fear

Comes wherever quake occurs

If sea is near!

Ramesh T A
A Tsunami Wave!

Earth quake jolts
Tsunami waves rise all time high
Silently maroon all!

Ramesh T A
A Tug Of War!

Sultry, sultry it is
Everyone complaints with exhaustion
But not stopping pollution!

Sky gathers clouds
All day long making all believe
Rain will come but not!

Tit for tat ever
Nature plays game with all
To give lessons!

Man never learns
Anything from Nature's gestures
But only destroys all!

Will the exercise of
Construction and destruction go on
Endlessly so forever?

Ramesh T A
A Two Horses Travel!

It's like having

One foot in wet land and

Another in river

Travelling on two horses

With one foot on each horse!

Ramesh T A
A Union Of Lovers!

Sky and Earth
Are united by rain of love
Between lovers!

Ramesh T A
A Union Of World Forums!

Harmony with Nature and humanity, only good hearts have;
People of such benign nature have good education, work and life;
Universal peace and harmony become a reality only by humans
Quite content with what is available to live a decent and good life!

Education, work, society and rulers are most important for good life;
If those aspects of need are not well off, life seems to be in turmoil...
And efforts from all need to be pressed into activity to make good of
A bad bargain to bring harmony in society to maintain peace ever....!

With the cooperation of good administration and people, all are possible
To achieve in the course of time to bring about oneness in all aspects of
A good society the world looks forward to attain one day or other sure
And that can be feasible by the unification of all world unions into one...!

Union of all world forums striving to achieve fulfilment of all needs of all,
Surely can bring about Universal peace and harmony one day or other...!

Ramesh T A
A Unique Friendship!

Friendship means, should one always
Think of friend and do something ever?
That is doing something for charity only
Feeling pity over one's fellow being close!

Even without contacts friends live in life,
But always feeling of friend in heart sure!
That is the mark of a good friendship sure
One has to follow in life whatever be it...!

There are friends sans contacts long, but
Have telepathic conversation going on well!
They intuitionally know of each other well
And meet if necessary to make things better!

I feel our friendship is such a one forever
And go on minding one's works with the
Hope of meeting soon one's friend/s sure
Whatever be the situation in life we all live!

Ramesh T A
A Unique Guest Of Honour!

For the good things he has done, he has become a hero ever
In the eyes of loving people who like to be friends with him
To the great surprise beyond all his imagination suddenly...!

Some have gone even beyond the level of friendship towards
Falling in love with him suffocating to the extent of exotic
Imagination brewing always within heart affecting all works!

What can he do to pacify all hearts in love with him forever?
Only legendary divine characters of ancient mythologies had
Such kind of relationships unique in friendship and love ever!

Wherever he goes, he has royal reception with feasts and fine
Entertainments in such a fashion that whatever he feels and
Does are not taken seriously and taken as granted only for him!

So, for his eyes only all secret beauties are displayed for his great
Enjoyment being a unique guest of honour none can have ever!

Ramesh T A
A Unique Way To Celebrate Festivals!

Eat sweets,
Speak joyful words,
Wear beautiful dress
And spend the time happily
With family and friends wishing
Joy, peace and prosperity to all!

Ramesh T A
A Use Of Poetry!

Poetry is indeed

The best resort for high minds

To get fulfilment!

Ramesh T A
A Utopian Way To Heaven!

Alphabetically words are listed in dictionary;
Beautiful printing makes it attractive to read!
Concentrated reading makes one know many;
Delightful indeed it is to master many words!

Effective expression is possible by erudition;
Full satisfaction comes only when all is done!
Greatness is born from heart but not in mind
However high mind is developed by knowledge!

Illusion is what we are left with worldly things;
Joy breeds on intellectual and spiritual pursuits.
Kinetic force develops by potential and dynamic
Love of ideas influenced by the pursuit of truth
Meandering may be the march from top to bottom;
Nevertheless nothing is lost in useful ventures
Of all painful desires of pleasure time is wasted on!

Powerful mind develops on facts and truth ever;
Quite amazing when one meets with surprises fine!
Rationality makes man never go astray in world life
Surely by soaring effects of sublime ideas pure ever
Though the times are tantalizing on many occasions!

Unique the Utopian ideas are developing on unity
Verily based on pursuits of broadmindedness ever!
World of one humanity much likes words of love
Xylophone in musical sound of beauty lasting long
You and I surely cannot ignore and deny forever
Zeus has destined mankind to adhere to for heaven!

Ramesh T A
A Value Enhancing Love!

Love of everything makes one perfect in life.
Doing all things by love makes all beautiful;
Without expecting anything, if all things are
Done by love, will bring joy ever in the world!

Love makes one do all with discipline to achieve
Perfection in anything sans any attachment ever!
Such kind of performance of any service is indeed
What one can say as love in action by anyone sure!

Not only performing a thing but also doing anything
So to anyone is real love one can witness in the world!
A person of such a nature is a lovable one anywhere
All respect with whole hearted love none can receive!

Value of a person is great only by the love he shows
Not only to persons but also to all works one does...!

Ramesh T A
A Valueless Life!

Deaths have become very come now;
Men, women and children travelling
In buses at night or trains anywhere
Are charred to death by accidents!
TV news and newspapers are full of it!

They are happening due to human errors;
On the other side bomb explosions end lives
In a most undecipherable manner as bodies
Are broken into pieces and scattered everywhere!
Most horrible scenes only inhumans can do it!

Death is everywhere both in the 6 as well as in the 100!
As money value lost life has also lost it value now!

Ramesh T A
A Vanishing Dream Of Romantic Life!

Hostel farewell party on the last day of college
All felt much for departing once and for all sure
Moving to different places to embark on working life
Quit serious from college life romantically enjoyed!

Nostalgia of college life comes to life whenever the
Photos of friends and picnic tours enjoyed are again
Reviewed in loneliness and ends in never to be again
Revived so in the present life quite different ever.!

Thoughts of friends come, but thoughts on present
Crisis and family situation take a lion's share of time
In such a way that those thoughts of friends disappear
Into thin air putting one in the deep mire of tasks!

Days of joyful life spent romantically in the past are
Just as dreams vanish, when we wake from deep sleep ever!

Ramesh T A
A Veiled Flower!

Open beauty loses its charm soon;
But veiled flower under leaves?
Increases interest ever and ever!
Slow untying of knots tease much
The taste for beauty longer sure!

Transparent veil increases urge;
Beautiful flower under cover
Ever kindles curiosity greater
Sustaining charm irresistible
As suspense of story till the end!

Foreplay more than actual act
Of pleasure ever tastes sweeter!
Veiled beauty for waiting lover
Is more than fragrant flower ever!

Ramesh T A
A Venture In A Labyrinth!

New ventures of enterprise bring new things to experiment;  
Key person's ideas and new person's ideas differ much ever;  
Like the spy agent going to be sent for a mission by the chief,  
If the new one is selected sans any direction and instruction,  
It is real adventure one has to under take not bothering about  
Any result but simply go through the service sans anticipation.

Creative mind there gets great opportunity to know all minute  
Details of mega multinational company and its grand activity  
Getting in the good books of them is an achievement one does  
Coming out of the mission that the chief believes new person can  
Deal all things as an expert not knowing the individual's interest  
Quite contrary to the key person before a new twist brings them  
Go on a venture making them proceed as in a labyrinth that gives  
A big chance for the new one play his game to hoodwink all....!

Ramesh T A
A Victory Or Death?

All abhor war but wars are there!
Beyond all means only war comes;
Crossing all line of control of peace
Danger of war begins to decide crisis.

Every means is followed to win war!
Fools or intellectuals, war is a game;
Gaining control over weak is victory!

Human nature succumbs to animal one;
I is what stands before despite justice is
Joining hands with supporters as friends!

Kind and truth loving hearts have no place!
Last resort to save life is surrender only;
Many battles are won with no one to enjoy!

Nobody likes war but none can stop it!
Of all crimes, killing is no crime in war!
Power keeps all at bay with awe in war!

Queen waits for seeing victory of lover;
Rooks, camels and horses die for men;
Soldiers are pawns in the hands of king!

Troops march on, men may win or die!
Universal declaration of peace is illusion;
Victory is the only goal in war of any kind;
World of woes by wars never sees shore!

Xena, the warrior queen is also famous...!
Yesterday, today and tomorrow wars are
Zeroing on targets to kiss victory or death!

Ramesh T A
A View Of Death!

Whenever the news of death comes we think of it;
It is a mystery the soul of body in human being;
Nobody knows yet how soul fuses or defuses in man.
Also it is not clear where soul in the body of man lies!

We cannot be sure of our death before hand so far;
But going by the notions of records we believe all.
Death is a great mystery yet cannot be deciphered
As nobody has reported about it after meeting death!

Man is a mystery among many mysteries of Universe!
When we are not sure whether soul is in brain or heart
Or whether it is all over the body or somewhere else,
How can we say anything definitely about death today?

Our art, science or cultures are only in the formative stage
As far as death is concerned in the world of man ever!

Ramesh T A
A View Of God

Universe is the abode of God!
Nature is the apparel of God!
Man is the very image of God!
The beauty I see everywhere is the reflection of God!
The music I hear everywhere is the very echo of God!

Ramesh T A
A Vision Of Divinity!

Reflection of Sun rays on Sea waves shines as diamonds
Reflecting the pure brightness of divinity we love all ever!

The colourful window pans kindle vision of divinity to one
Sitting in mystic mood, when light rays pass through them!

Gen stones of various hues kindle mystic mood towards
Divinity we all love to indulge at times of loneliness in life!

Colourful evening Sky before Sunset, when the birds fly
Fast to trees green, gives a sense of joy as divine in heaven!

The mingling of Sea and Sky at the horizon kindles mystic
Mood bringing joyfulness as beautiful as divine bliss ever....!

So many beautiful scenes of Nature surely transform a mind
Full of woes to divinity full of bliss nothing can give in this world!

Mystical muse in Nature transcends heart, mind and soul to a
Dimension, which we call as divine bliss rejuvenates whole spirit!

Ramesh T A
A Vision Of Life - I

With a wild eye I wonder at the morning scene!
What a dizzy rapture I feel seeing Nature!
With freshness and glory how birds fly in the sky!
How beautifully the fresh flowers bloom at the hour
As if woken up from a deep slumber of the night!
All the scenes of Nature never seem to disturb
The sleeping beauty enjoying the last phase of sleep
Still in a dreamy state before waking up to work!

After the day’s work friends watching the Moon
Lie on the bed and muse over the distant Stars
To dream about the wonders of the Universe!
All teachers are not teachers if they fail
To make you think and love to work for truth.
Nature is such a teacher to tell us everything
In plain truth through simple scenes of Nature
Quite great and memorable in one’s life!
Man’s mind in communion with Nature knows
The presence of a living spirit in everything!
This Nature is full of such a unique feature that
Only a mystic can muse over to enjoy bliss ever!

Building model mud houses in the beach
Children play the game of mom and dad;
On the sand marble games boys play
Everyday before the school begins;
Throwing the stones in the pond they catch
Fish to grow in glass boxes at home;
And many more games like hide and seek
And see saw children play in the park.
Such animal pleasures boys like to indulge!

Youths lie on the green grass in the park
Engrossed in the beauty of colourful flowers;
Boating on the lake they enjoy the beauty
Of the mist covered hills around the place
And on the mid lake they lie on the boat
Forgetful of the world a while in Nature;
These are the aesthetic pleasures they enjoyed
They never forget for a longtime in life.

To overcome worries and get peace of mind
Men lit cigarette and watch the night Stars
Of the sky philosophically brooding over
Earthly life and Universal truth in depth;
They gain true knowledge from experience
And advise the youths struggling in life;
They get relief in intellectual pleasure so.

Walking on the beach or misty hills
Men muse over Nature in loneliness
Forgetting themselves in communion
With the spirit of sea, mountains, sky,
Rivers and the beauty of whole Nature;
They enjoy spiritual pleasure, divine bliss
Many miss in the business of the world!

Vision develops on best portions of one’s life;
Vision is the map of human life in the world.
Vision of life helps how life has to be lived;
Vision of world helps what duty one has to do;
Vision of God helps how bliss can be enjoyed
In communion with the all pervading spirit;
Vision of the whole helps to have ambition.

Extensive knowledge of everything one needs first
To know before one has a vision of the whole
To live a wholesome life in the human world.
Knowledge of Self, world, Nature and God
Becomes perfect in meditation producing
Whole vision to have a suitable ambition
To achieve best result in the world life.
Knowledge, vision, ambition and achievement
Are what human life is all about in the world!

Ramesh T A
A Vision Of Life - Ii

This is just the plan for implementation
That has to be done with great control.
Otherwise, no plan will be successful
Benefiting any institution in the world.
So also to achieve ambition in world life
Steady state of mind is absolutely necessary.
Vision gives inspiration, encouragement
And enthusiasm to be steady in the pursuit.
Without plan however steady the pursuit be
Treasure cannot be easily unearthed.
So also without vision no ambition can
Successfully be achieved in one’s life.

Life is a snow capped mountain island
Kissing the mist of the sky on the sea!
Men are the struggling people of the sea
Trying to reach the shore of the island.
This is the vision of human life
Everyone has to remember forever!
Whether one rows the boat or swims
On the sea, shore has to be reached first;
Then climbing the peak of the mountain
Could be the pursuit of men next there;
But between the shore and the peak finally
Perhaps one only in a million can reach!

Nature is the manifestation of divine spirit;
In that island best things are free in Nature!
So, survivors have to select the best course.
Ready reception from the natives is waiting
For the people who have reached the shore;
And after the passage of sometime the island
Has become a new Utopia for all of them!
In this island everyone does as one wishes!
In the plains they get the opportunities to learn
And after some experience they settle in a line.
Fishing, ploughing, farming, spinning, weaving
Many do and the intellectuals do teaching work,
Research and inform new knowledge and truth;
Inventive people discover and invent new things;
Creative people create artistic works of fun
For the benefit, guidance and use of all in life.

By eating, working and loving many live life;
But the intelligent few venture on pastures new!
Treasures of diamonds and gold they explore
In the woods till their passion is pacified at last
And finally settle on a line to achieve perfection.
They get wisdom by reason and meditation over
The past, present and future on matters in depth!
Knowing Self they climb up the hills to seek peace
But forget themselves in the beauty of Nature like
Meadows, cascades, rivers, birds, flowers and fruits!
Illusion disappears when reality dawns in the mind!
Spiritual pursuits put an end to reason and passion
And joy and peace engulf heart, mind and soul ever!

Life of body is not permanent as it is not perfect;
Only life of spirit, a pure state is real and eternal
And is where conscious existence is absolute bliss!
As the work of art Spirit is perfect and permanent.
Existence, knowledge and bliss of world life can be
Made stable with the control of mind by meditation
And the spirit can be made one with the absolute
In its pursuit towards Ultimate Reality by mysticism!
It’s like reaching the peak to mingle with the mist;
As the white glossy mist unites the earth and the sky
Nature is the link between the soul and divine spirit!

Ramesh T A
A Visionary Effect Of Colours Unique!

Blue Sea reflects blue colour of Sky refracted by Sunlight;
Internal reflection of light in drops of rain creates rainbow;
Light dispersion over plants creates divine beauty by a
Point of Sun rays through branches of a tree by diffraction!

Light of Sun passing through Nature as prism creates magic
By kaleidoscopic colours full of freshness and glory at dawn
And at Sunset in the twilight zone kindling romance and love
In the hearts of humans by the spell of divine beauty blissful!

Refraction of light by rays of Sun through transparent clouds
Or glass or sea water kindles divine vision as in a dream by
A state of trance transcending spirit within over mundane world
To the world of divine nobody would feel returning again here!

Such visionary effect of combination of colours by light rays
Simply does magic through the prison of Nature wonderful ever!

Ramesh T A
A Voice Full Of Sound And Fury - I

With sound and fury the storm crossed the seashore
But the destruction left behind is beyond words to say.
The hue and cry of the people was heard endless
Despite the enormous relief offered for a little solace.
For, material compensation can’t equalise human loss!
The irreparable tragedy occurred and passed unnoticed;
The unexpected Nature’s fury is beyond human control
However powerful man is over Nature certain times.

There are people who raise issues with sound and fury;
When asked for solution they simply giggle and laugh
Pointing the askers ridiculously “are you joking?”
And say challengingly “when our pots are not boiling,
Let us see how your pots can boil” with sound and fury!

Discipline begins in education and stabilises in work;
It kindles love to know truth and love to do service;
Love of God is the beginning of knowledge or wisdom;
Wisdom lies in love and knowledge, sweet and light.
Noise and force are tactics of savage to do all by fear;
Sweet and light are the means of wise to do all by love.
Indeed not by fear but love only all can be achieved!

Names of God may be many but God is one only;
World religions are many but faith in God is the same
Though with sound and fury or sweet and light we pray;
But religionists fight with sound and fury for identity;
And so, differences come up putting people in perplexity!

Israelis or Palestinians, Indians or Pakistanis or Chinese,
Muslims or Christians, Hindus or Muslims or Jews,
Flesh, bone and blood are of the same Homo sapiens.
Politicians of all nations are supposed to serve the people,
But what the hell are they doing everywhere in everything!

As mosquitoes they breed corruption and sell national secrets;
Drain national wealth as rivers wastefully flowing into the seas;
Rule not to bring peace and prosperity but perpetuate poverty;
Class, colour and creed they use to divide and rule the country;
For their advantage they split society to breed rivalry forever;
Encourage hatred, violence with sound and fury to play politics
And developments grow less and less and parties more and more!

Ramesh T A
A Voice Full Of Sound And Fury - II

World economy survives by natural resources and population;
Food, water, energy and raw materials are nation’s wealth.
Marxism, Leninism, Maoism cannot solve economic problems;
Smith, Malthus, Mill cannot be neglected in economic thought;
Marshall, Keynes cannot be ignored to balance surplus and deficit;
But rich and poor differences lead to eternal inequality problem!
Material values always go against human values in the world;
So, modern economic thoughts should connect the two values.

But economic equality alone cannot solve other inequalities in life!
Disparities of race, class and creed blind mind and character;
Exploited class by revolution becomes slaves of new regime;
Communism/socialism has met with the fate of Nazism/fascism!
Now socialistic democracy seems to be welcomed by world societies.

Slogans of secessionism with sound and fury trivial parties raise;
Yet tradition and convention keep society passive and fatalistic.
Individuals by education realise rights and liberties in the society.
Society needs change by reform for liberty, equality and justice
But not by bloody revolution socialistic society should be formed.

Regionalism too raises its ugly head with heat and boils often,
Increases the gap between north and south and east and west.
Thus came differences of Aryans, Dravidians, whites and blacks;
Now territorial disputes and unemployment problems threaten all!
Domination of alien languages and cultures destroyed native ones
And regionalism is bursting with sound and fury now and then!
So, water and energy crises bring border disputes and conflicts
And members of same family have to live in opposite camps!

Linguistic fanaticism and culture erupt like eternal volcano;
Linguistic barriers besides others disintegrate unity forever.
Language agitations rock sky high with full of sound and fury
Instigating people to violence and destruction of dear culture.
Senseless propaganda of controversial language breeds enmity;
Thrust of half baked language fails to sync with modernity.
Every language is a means of communication among men;
Change of common language by rulers retards social progress;
So, simple and advanced common language only can solve all.
Religious differences create enmity with full of sound and fury;  
Political propaganda triggers violence with full of sound and fury;  
Social differences disintegrate people with full of sound and fury;  
Regionalism fosters permanent splits with full of sound and fury;  
Linguistic fanaticism flares up madness with full of sound and fury.

Clash of these circles create intolerable complexities and chaos;  
World heading to such catastrophes has no brake to bear them.  
The smooth function of the world lies in the hands of peace lovers;  
Peace and stability alone promote vital creative and inventive works;  
Art and science activate peaceful works of beauty and benefit for all;  
Culture and civilisation make the world a better place to live forever;  
But bad acts provoked by words full of sound and fury mar the world.

Without peace and stability creations and inventions cannot go on;  
Art and science cannot thrive to uphold world culture and civilisation;  
Disparities and differences should be forgotten to promote peace;  
Friendship and integrity should be fostered to promote stability;  
For that, concerned people should come out of the circles of crises  
And see things as they really are not from within but from outside;  
Then only all world nations can function as one world family forever;  
That is the dream of many a great soul yesterday, today and forever!

Ramesh T A
A Wait For Inspiration!

Waiting for inspiration

I sit calm before Nature long

As devotee before deity!

Ramesh T A
A Wait For Love!

Waiting long often
One fosters love with one
Dear to heart
Even when the dear one
Fails to know that..!

Ramesh T A
A Waiting Business!

Eye on the road

I wait long for the letter many days

Unexpected day sure it comes!

Ramesh T A
A Waiting To Unleash!

Too much grief due to communal conditions,
Too much anger due to nonsensical notions,
Too much rigid restrictions due to obligations
Make one a poet at last to pour emotion in poems!

At such a time and mood can there be any form
Being followed according to regular poetic models
Usually known to all including both poets and critics
Who can comment and criticize according to fashion?

Grief and anger find whatever weapons available
To hit at the opponents according to their maturity
To establish fair points of view for stirring emotion
To make justice, truth and reason stand above all!

On such occasions words flow in cascades at will
From the depths of the poet’s heart that are hidden
And saturated for a long time inspired, ruminative
And contemplative in nature waiting to unleash!

Ramesh T A
A War Of Words And Weapons!

Ballot but not bullet decides will of people in any democracy; If nations are dictatorship or republic, democracy rules world! Can wars solve all problems between enemy nations? Can dialogue settle all matters among world nations? If war and dialogue cannot solve disputes, what else can? It is a collective responsibility of all nations to find a way out!

Ugly, negative thinking fuelled by arrogance and domination Provoke animal spirit with the use of science and technology Destroying art, architecture and amazing culture and Nature! Beautiful, positive thinking coupled with love and truth Elevate man with divine spirit with the use of poetry and music Creating a world of beauty full of joy, pleasure and bliss ever!

Between beauty and ugliness, war and peace, purity and pollution Man’s world revolves round like day and night endless needing Cessation of wars of words and weapons for survival of love! A thing of beauty is a joy forever but ugliness a grief endless!

Warring nations should stop choosing the wrong route always And should choose the fair route to live in peace and harmony! Action and reaction continue as nuclear chain reaction endless; Only adjustments among nations can bring peace to world.

Ramesh T A
A War On Terror!

War on Terror
Is US or World War
Nobody knows!

Ramesh T A
A War Zone!

Here and there world has become a war zone forever! Countries full of terrorism and rebels are the war zone And Asia and Africa are where wars thrive forever.....!

Defence spendings if used for alleviation of poverty, World will be free from hunger and unemployment; But countries have entertainment only by wars.....!

Wars are the way to show superiority of one over all! Bravery of new world order has been playing with war Just as children play with fire only to be burnt soon!

War Zone of world always sees weapons of new variety Such as Nuclear weapon, Chemical weapon and so on Only to kill innocent men but not enemies to bring peace!

Wars are started to bring peace to world sooner or later; But only new, new weapons are coming but not war going!

Ramesh T A
A Warm Welcome To Summer!

Winter solstice is coming to an end by March end;  
Summer solstice will last for six months next sure!  
What a relief from cold spell of Winter so late now!

Sweating has began to purify body from harmful  
Stuffs body has been enduring so long sans an end!  
But it's all over by the Summer heat that has come!

Relief from painful body burning cold Winter is now  
Surely making all heave a great sigh of relief, all feel!  
What a change of climate for the better brings relief!

Drowsiness and numbness of body are over, all say!  
What a joy the brightness of Sunshine brings each day!  
The hope and zeal hidden in hibernation have risen up!

Welcoming Summer all surely want a great time to  
Have fun and marvels in all the fields all are interested!

Ramesh T A
A Warmth In Mist!

Mist covers body

Making warm within by apparel

Thick and comfortable!

Ramesh T A
A Water Of Life!

Without water
Will there be life anywhere
In the world?

With water
Soil and heat life has evolved
On the Earth!

Can life be
Supported on the Moon in
The same fashion?

Wait and watch
What is going to happen
In the Moon!

Ramesh T A
A Wave Music!

Serial falling waves at shore
A piano music Nature plays well
To its heart's content!

Ramesh T A
A Wax House!

All celebrities posed for wax statues;
Base for all statues was wax only ever;
Careful scrutiny revealed so for many.

Deadly designs were not detected;
Europe or world knew his expertise;
Full of crowds abound for any show!

Games nobody played with him ever;
High fliers who challenged were unseen!

Ice cold look and silence were his nature;
Joy of him was never witnessed before;
Keepers of his store were strange looking;
Slight suspects of him were also unseen!

Mystery of his background was unknown;
Not only dignitaries but also new faces
Often were also seen as wax statues!

Perplexed lady was frozen seeing her friend
Quite accurate standing as statue before her!

Restless to find out mystery she explored;
Soon she was isolated in the crowd inside
That increased her pulse and suspense much!

Uniform wax parts were seen being moulded;
Very soon she was caught by heavy hand;
Wax barrel getting hot ready for her immersion
X marked, suddenly her boyfriend noticed!

Yearningly the brute before execution was pushed in;
Zero hour both she and he escaped as owner became statue!

Ramesh T A
A Way For Love, Peace And Friendship!

How can wars be stopped in the world?
How can love be promoted with peace?
How can friendship be developed among all?

These questions everyone thinks about now;
But what is the way to implement them?
That is the question lingers on forever!

Fighting was based on might in the ancient time;
Now fighting through courts is civilisation here!
Right has become might if you are truthful ever!

Can civilisation stand all tests without culture?
Civilisation sans culture does not stand sure!
Culture inclusive of all aspects needs to be encouraged!

By education culture can be developed everywhere
With the initiative of UNO controlling all nations!

Ramesh T A
A Way Of Creativity To Overcome Helplessness!

Imagination gives shape to create figures, pictures and all
To bring life to a story partly real and partly fiction ever!
Also, philosophic truths too by imagination poetry tells all
To make complicated matters very simple by the skill of poet!

When everything is helpless in the world, Nature gives solace
And hope and when expressed in poetry about all one feels or
Ideas new and helpful to tide over things unfavourable, indeed,
One feels relief as if offered by a physician to a patient...!

Poetry expressed by poet under the influence of Nature, when
One is in the best of mood or the worst of mood, surely it...
Seems like a miracle happening in the life of one in distress
In the world full of uncertainty and one is left to luck’s spell!

Nature, dreams, imagination and poetry in the hands of a creative
Minded person surely finds a way of survival otherwise impossible!

Ramesh T A
A Way Of Developments!

Joy of friends multiplies when met suddenly!
Childhood boyish pleasure of children how
Can anyone forget in life even after years?

First from destruction, construction begins
When children try to rectify technical troubles
On the gadgets they use to play on at first!

Once when they are successful in rectifying
the mistakes, they get interest and joy in such
Kind of jobs and that paves way for a profession!

Aesthetically they approach matter to solve
All problems for enjoying fun and thoughts on
Technical matters lead them to be creative sure!

Intellectual thinking begins when nothing can
Solve a matter leading to spiritual way to be fine!

Ramesh T A
A Way Of Life Have To Life!

Slight shower of rain in the night for sometime has changed hot weather;
Yellow flowers bloom fresh and bright at the Sunshine in the next morning
And birds of all hues sing beautiful notes flying high here and there;
What a lovely day the weather change has produced in the otherwise hot day!

If all summer goes away so in rains and cool days now and then there won't be
Any hue and cry for water in the lakes, dams and rivers for irrigation and supply of
Drinking water to grow rich crops for harvest and consumption in cities
Sans any demand for sharing of river water with neighbours often as usual!

Natural resources are for all to share to live together in harmony with Nature;
Sans such a goodwill, where is unity and harmony much needed to live in peace?

Love lies in sharing what we have in empathy and compassion with all
To foster humanism and have harmonious human development ever!

Flowers and birds have the same sense of beauty and joy welcoming all to share;

But only humankind live in disparity and partiality while sharing natural resources
Nature supplies free for all to share and enjoy living a heavenly life as
Lovers of Nature do before everyone's eyes as a way of life all have to live!

Ramesh T A
A Way Of Successful Achievements In Life Against All Odds!

All need knowledge, information and criticism to live secure life in love
Best to achieve ambition based on a vision doing all to meet peaceful end;
Cause and purpose of life known well, it is possible to do so in the world!

Decision to do duty to fulfil ambition, one needs critical knowledge of Entire aspects of world history, literature and science and technology;
Fortified with such a knowledge, it is possible to do great achievements!

Grasping the essence of Self, world, Nature and Universal God, one will have High mind to live a simple life with contention of heart to do all the best in all one's undertakings in the field one is best at to achieve laurels!

Joyful life one can lead so with satisfaction and peace having a free mind
Keeping abreast of advancements in all fields adapting new techniques in Line with modern world based on a culture of best ideas, words and deeds!

Many hurdles, turmoils can be overcome unaffected that way to go ahead in a Nonstop manner in pursuit of one's ambition, when all others stand in puzzle Obviously affected by government's implementations of their programmes...!

Plans of govt. in the implementation of social ideas succeeds or not, it is Quite possible for the well equipped individual to do what one has planned;
Result also as expected, one will achieve in flying colours at the end sure!

Sustaining oneself so, achieving goals and succeeding in one's venture is Thought not to be a dream but a possibility with such a knowledge all will Ultimately agree seeing one's achievements against all odds in the world!

Various experiments sans such an equipment of firm conviction all will fail;
Without doubt, when one is well equipped with knowledge and conviction, any X or Y supposed to unusual, will meet with sure laurels in flying colours!

Years of painstaking hard work sans such an equipment, success is doubtful;
Zealous mood won't be there, when one cannot be sure of one's life pursuits!

Ramesh T A
A Way Of World Life!

Bond villains
Due to mental sickness
Destroy everything!

They destroy
World nations’ good efforts
For personal gain!

James Bond
Destroys villains’ projects
At personal risk!

Between good and bad
The fight goes on endless
To save world!

Day and night
Good and bad in life
Continue endless!

Cinema life
Reflects real human life
As world revolves!

Ramesh T A
A Way To Achieve Objective Against All Criticisms!

Without facing criticisms one cannot develop in the world;
Mere flattery cannot make one simply a great personality;
Inspiring model, speech and action of one kindles one's
Heart, mind and soul to achieve something remarkable in life!

Trials and tribulations are the tests one has to face and
Deal to go ahead of all stumbling blocks on the way to the
Destination decided by one before starting on an venture
To achieve what has been decided in the beginning of career!

Despite troubles, demoralizing activities of the jealousy
Ones, one steadfast stand to do or die in the venture one
Has undertaken surely make one have full concentration on
The job and do justice as time goes on in the long journey!

In fact, that is the way, one can divert one's full attention
On the work and finally achieve success in fulfilling the vow!

Ramesh T A
A Way To Achieve World Peace!

Every religion in the world preaches about peace, love and brotherhood! But nowhere peace is seen, but only violence and wars everyday sure! Economic war, social war, cultural war, racial war, regional war and terrorist wars are what everyday all wake up to see and suffer in miseries and nightmares!

World religions like Islam, Christianity and Buddhism preach peace, love and wisdom; But people of all religions are involved in wars against each other by hatred! Not satisfied with them, all look for new religion that can solve all in the world; What could be that ultimate religion that can unite all in peace, love and brotherhood?

Sans having knowledge about truth in all, all cannot be convinced for a settlement; Advaita philosophy says all names and forms of God mean the one and only God,

Who is the Universal Spirit present in the energy everywhere activating all Buddhism says all suffer due to desire based on attachment to some one or thing!

Wisdom lies in deciding all based on right knowledge, thinking and focused action! If all act based on true knowledge, surely all problems can be solved for peace!

Ramesh T A
A Way To Enjoy Creativity In Art!

A person of truth, beauty and love in one is a boon
Any such a one loves to have friendship with in life;
A friendship between such two persons will turn into
Love to enjoy life, if they work with knowledge ever!

Their love of art, music, songs, poetry and literature
Surely strengthen bond on works of great vision and
Dreams they love to create masterpieces with aesthetic
Taste leading to success in any venture they undertake!

Achievements made so by such made for each other couples
Indeed will have lasting attraction to all interested in
Art inspiring to the extent of indulging in creativity
Opening the door of exploration quite amazing to the world!

Art works of great masters might have been created so in
The past, present and forever enriching creativity in art!

Ramesh T A
A Way To Heaven!

Worries and pleasure alternate in life;
But finally only worries ever win here
Leaving all swim ever in ocean of woes!

Crossing the ocean to reach shore is woe
All have to face guided only by Stars in
The night Sky and by the lighthouse...!

Knowing the direction by Stars' positions,
Each one has to decide how and where to
Go to find shore one day by efforts vital...!

Seeing the rays of light coming from the....
Lighthouse only, one can be sure of reaching
The shore to find a better way of survival...!

Just survival is a prison life in this world ever, but
Climbing misty mountain only, we go to heaven!

Ramesh T A
A Way To Live Natural Life!

Natural way of living is the real way to live life in the world; 
All conditions and laws are to check and direct life in the right way; 
But if all restrictions are strictly followed life can't be enjoyed in the natural; 
Dissatisfaction thereby will make one's life a bitter pill to swallow ever!

Prudence is needed to take necessary steps to enjoy within limit to live well; 
Too much of anything is good for nothing surely holds good for good and bad; 
Both good and bad incidences happen in life and they have to be balanced 
By our wise approach to problems so that the taste and interest never dies!

Sans desire and interest nothing worthwhile one ventures on in word life; 
But one should deserve what one desires to do to get joy and satisfaction; 
Mechanically leading life or as one desires sans limit, is not natural to live long; 
If one happens to do so, it will make life a big monotony and a burden only sure!

Knowing one's limit and living life according to one's desire reasonable ever, 
One can enjoy heavenly life in this world itself till the end one's life sure!

Ramesh T A
A Way To Maintain Normal Relationship!

Only true love and friendship are the unifying force in humanity;
For, they only can maintain true relationship against all odds!
They are the best means to unite persons of any relationship;
Relationships based on other nature cannot be trustworthy long!

Experiences of persons in life are not of the same kind sure…;
Some sans proper knowledge turn into bad guys being deceived earlier;
That makes them do harmful things only ever on all close to them;
Unity is broken and each has to rely on one's own ideas to survive!

Enmity lasts forever in all transactions leading to bitterness endless;
Due to such kind of stand taken by them, all connected persons too
Suffer for difficulties as nothing can be solved by any means with them;
Families go on generations having such bad policy forever and ever!

Only by clarifying wrong notions or misunderstandings, things can be
Brought to normalcy to bring an end to enmity for normal relationship!

Ramesh T A
A Way To Overcome Winter Cold Weather!

Winter cold still biting the bone all day long,
Flesh is jittery to bear weather any-longer
Leaving the weak and meek seek relief in
Some other form rather than on food or dress!

Diversion from the feeling of such a severe
Nature no other time felt so needs something
Stronger than the usual remedies we all seek to
Overcome the severe effects of cold unbearable!

Young and healthy are brisk and busy with some
Kind of actualities that occupy their day long time
So much that they don't feel the coldness but rather
Enjoy to do many at a time not tired at all sure......!

For the high minded weak persons occupation in
Deeply philosophical and matters full of wisdom
In absorbing classical literature or Poetry sure will
Serve their purpose to overcome winter cold ever!

Ramesh T A
A Way To Realize Dreams Of Utopia!

End of world war II has driven mankind to witness nuclear race
Among nations of the world to attain superiority status over all!
Intellectual analysis in modern literature predicts dangers of future
World has to witness, if peace is not achieved by world unity…!

Amazing inventions and discoveries by science and technology have
Changed the world with new ambition to achieve utopian status….!
Ideas of intellectual writers occupy the minds of forward looking men
In all walks of life to achieve superman hood in the years to come…!

In this respect, the novels of Jules Verne, H G Wells, Animal Farm of
George Orwell, Brave of New World of Aldous Huxley, scientific
Philosophy of Bertrand Russell and world unity and peace of Albert
Einstein kind intellectual thinking on as how to achieve their dreams!

They are all remain as dreams due to political ideologies dominating
The world nations dividing the world into two blocs controlled by USA
And Russia with the European Union and African Union trying to fulfil
The dreams of the intellectuals for world unity, peace and progress!

But the consequences of recent wars in Afghanistan, Iraq, Middle
East, after the long war in Vietnam between Communist force and
Capitalist force have brought into vogue religious fundamentalism in
The form of terrorism threatening the very existence of human world!

All positive and negative developments of modern world upholding
Civilization have to deal with the Stateless players of terrorist wars!
Unless the world nations unite shedding the illusion of superiority
And fight against terrorism all dreams of Utopia will disappear as mist!

Ramesh T A
A Way To Restore Lost Happiness!

Things happening in the world builds up hatred in all;
Uncontrolled domination of rowdyism provokes fear;
Unsolved problems increases worries day by day ever;
Efforts when spoiled by contrary things bring frustration.

Prolonging of contrary situation makes one lose happiness;
Happiness seems to be a distant land impossible to travel;
Losing interests in all one cannot seek happiness in others;
We cannot be happy at all ever unless we try to find it within!

Diverting attention towards art, painting, Nature, music, song
And dance a relief can be restored to the heart full of pain to
A state of new inner world of solace and joy transcending all
Consciousness towards a situation of fantasy as in dreams..!

Not thoughts and feelings but imagination and dreams triggered
By beauty of Nature and music can restore lost happiness again!

Ramesh T A
A Whole Picture Of Life!

Natural beauty kindles desire to love and enjoy life; Romantic life begins so in the human world in the Paradise of Nature beautiful, elevating and inspiring!

Caught by the spell of romantic mood, one desires to Meet one's love to enjoy sensuous pleasure after the Amusement of intellectual pursuits high of love long!

Union of lovers in Nature assuming to higher dimension Leads to the enjoyment of spiritual bliss for having Fulfilment and completion of life's destiny in stages!

Aesthetic, sensuous, intellectual and spiritual stages Of life of man are unique to experience to have a whole Picture of life's purpose in the world before one dies!

Enjoyment of all pleasures gives wisdom to seek eternal Bliss possible by spiritual pursuits finally in the world!

Ramesh T A
A Win In Contest!

For winning in contest
Both intelligence and luck are needed
Though great skill is!

Ramesh T A
A Windfall In Nature!

Cloudy days only mark the cold season
As the cyclones, that have changed directions,
Have swept away all moisture in them
Resulting in dry days sans any drop of rain!

Now, only forceful winds now and then are
Coming closing the window doors and doors
And tossing about all the window and door
Screens making all things fall to the ground!

Due to lack of rain even after monsoon change,
Cold climate is changing to colder and coldest way
Perhaps this time driving all to shivering situation
As the days pass on so further before the year ends!

Windfalls are common in Nature making all kinds of
Prediction go awry whether it is climate or rain or so on!

Ramesh T A
A Winner!

A winner
Is selected by competition
Of many!

Natural selection
Depends on survival of fittest
In Nature race!

Ramesh T A
A Winning Shot!

Playing games children learn about competition;  
Cut throat competition in politics make all mad!  
But cooperation and coordination none cares....;  
Life goes on as in competition for many in world!

Sans competition nothing seems to be interesting;  
Vibrant life is felt when a competition is in swing!  
Soccer and Cricket games bring such effects on...  
And till the end no one seems to leave the ground!

Competition creates interest to fight to the last!  
Victory comes to one who makes careful moves  
As in Chess game that helps life to live wisely....  
And achieve the goals to meet laurel at the end!

Chasing the target builds up tension till end comes;  
Winning shot at the last stroke really starts bonfires!

Ramesh T A
A Winning War!

Cause of violence
If countered with right reason
War is won!

Ramesh T A
A Wise Way Of Progressive Men!

Care free days of our life can we regain again?
How dreaming, thoughtful and creative we were!
Adventure then was an open opportunity to try
To find treasure on our long journey of intellect!

Intellectual thoughts we are familiar with mainly
Due to the practice we have had among ourselves!
As if we are intellectuals we have discussed so many
Matters of our interest to be sure of all matters ever!

The boldness and freedom we enjoy out of our very
Great outspoken attitude certainly have paved the
Way of our bold adventures in life later and our routes
Have changed for the better as we have been traveling!

Learning by doing is the wise way of men of progress
Who would make all achievements in life later on sure!

Ramesh T A
A Wish Fulfilment!

Be a child
Never grow at all
Wish will fulfil!

Ramesh T A
A Wonder I Ponder!

Flying on white winged horse, Pegasus say
I see diamonds sparkling on sea waves....
Under the July full moon rays in the night!

Intellectual imagination takes me high over
Seas, forests, plains, mountains and valleys
With moon beams making all look wonderful!

At last landing on a long seashore on an island
I see smooth flowing river gently joining sea
With fertile lands surrounding a small town....!

Peaceful atmosphere making people wise there
I find spiritually philosophic masters reside
Spending blissful life in meditation and mysticism!

Due to the boon of great mystics and seers there
No storm, tsunamis and rain have submerged it,
A wonder I ponder much in disbelief but in awe...!

Ramesh T A
A Wonder In The Sky!

Only in the dark nights
Stars create wonder in the Sky
To solace and inspire all!

Ramesh T A
A Wonder Indeed!

Is it the scent of the flower that has invited you?
Is it the smile of the flower petal that has invited you?
Certainly scent attracts one from the distance itself;
But the smile of flower petal brings one closer ever!

Scent and smile with beauty surely makes one a slave;
If such a one kisses one with love, heaven is nowhere!
That beauty is cynosure of heaven none can deny ever;
It's like all roads lead to Rome during the Roman rule!

Without interest no one likes to live life in the world sure;
Beauty of Nature is a boon to sway one by attraction of
Scent and smile, a natural gift to do magic in the world
And sustain all doing something worthy and remarkable!

Smiling beauty with perfume attracts one even one doesn't
Have a chance to see and get near, which is a wonder indeed!

Ramesh T A
A Wonder Of Life!

All living beings

Whether live on land or in water

Cannot live sans air!

Ramesh T A
A Wonder Of Love, Joy And Peace!

All cherishing love celebrate Valentine for peace and love for all; 
Love is the unifying power against fear and force to peace ever; 
Loveless life is peace-less hell of chaos dark as abyss bottom 
With no way to see the light of the day at the other end of tunnel!

Joy and peace of life love offers to one and all brings bliss lasting; 
Hate and violence of wars go by fear of doomsday to full darkness; 
The way out of chaos to order is like making beauty out of rubbish 
Only a painter or poet can perform with brush or words as miracle!

Dawn of sunshine clears out all darkness of night to bright day light 
Despite the night darkness brings all sorts of dark dreams of hell 
Making the impression of devil never leaving one once caught by it; 
But the end of all chaos or disorder is order and beauty out of love!

All worshipers of beauty and love never have dark visions but only 
Wonderful dreams of paradise leading to love, joy and peace ever!

Ramesh T A
A Wonder Of Realistic Pictures!

From the sketch to life only real artist
Can create picture of a human being
Or a picture of natural scene beautiful
As if a real photo by the use of pencil!

The picture of multicoloured flowers
Really captures all hearts and absorbs
Mind and soul and is the most exquisite
Ones I have seen ever drawn by artists!

Green pastures, brook running across
the area with the background of hills
Covered with snow and a lake below
With a small town is a place all love!

Bringing reality in picture quite vibrant
Simply fascinates and transports one there!

Ramesh T A
A Wonder That Fills My Heart!

Travelling in Nature in train or boat is a wonder true!
Open paradise welcoming all with smiling flowers
And mountains and clouds in the sky ever spread
Bring home all dream fantasies into reality sure!

Blue sky and violet flower field combination is beauty!
Old oak trees still rich in vegetation makes spell bound;
Green meadows and Ice Mountains mystic in nature
Remain ever in mind as a panoramic view to muse on!

Many wonders of Nature capture heart ever to recall
And muse over in tranquility to experience a sensation,
Quite divine and lasting forever to console and recharge
Worn out soul to its real self once again when needed!

What a wonder this live art of Nature that fills the heart
And brings back lost hope again to revive life with joy...!

Ramesh T A
A Wonder!

It's a wonder
Love and life only on Earth
In the whole Universe!

Ramesh T A
A Wonderful Beauty Up There!

Full Moon slowly rising up in the winter solstice is
A beauty par excellence to welcome for the night now!
Only a queen like thing can do so in a calm and study
Manner all respect with full heart, when night comes!

Rosy cloudy sky adds beauty to the night sky so cool
And wonderful to enjoy seeing from a top place of a
Building in the city full of traffic horn noise ever
Affecting the enjoyment of beauty so rare to see sure!

Beauty and pleasure are the part of a fair sex sure
In humankind like the Moon up there among Stars many
No one can count and say for sure forever and ever and
The time is gong on turning the scene again and again!

Beauty cannot be missed by anyone to have joy special
Nothing can create so lovely and wonderful up there!

Ramesh T A
A Wonderful Flower Show!

Flower is a great wonder of Nature!
Flower is the harbinger of fruits of
Any tree or plants we see everywhere!

An exhibition of various kinds of
Colorful flowers gives great joy in
The botanic garden of the town....!

Next to flowers, fruits and vegetables
Occupy various slots to give a clear
Picture of agricultural development!

Whole botanic garden looks like a
Great paradise for people to be among
Colourful atmosphere of flowers, fruits!

After storms and floods and destruction
Regeneration of flower plants is wonderful!

Ramesh T A
A Wonderful Life Of Bliss!

Vessel of tears of Lamartine and weaker vessel of Shakespeare
Are the guy and girl noted for great romantic life in the world;
Emotionally good they have a heart of love and a sense of truth,
Goodness and beauty no masterpiece writer of literature ignores!

Poets' outpourings of heart are always have such souls in mind
To melt the hearts of loving souls always interested in beauty
And goodness in arts and literature being the expressions of
Romantic life all cherish most in heart in past, present and ever!

Without exception my heart also longs to hear words of love from
Such wonderful human beings with good emotional heart sure ever;
Joy and pleasure of human life lie in romantic nature of people
Who love beauty in everything of life and also in Nature forever!

Love, truth, freedom, joy, peace and satisfaction are what all
Beings of the human world follow to live wonderful life of bliss!

Ramesh T A
A Wonderful Vision Of Nature!

I feel heaven and paradise in union
When I see colourful sky and flowers
Together sitting in the garden grand!

What a feeling of joy engulfs my heart
At the beautiful sight of sky and garden
Together seeing in the larger context...!

If not here where else joy one can get
When everything seems to leave one
In great distressing time to renew oneself!

Such self healing technique always comes
Handy to me to bring myself to my senses
When the ship sinks or sky falls down abyss!

Blind faith cannot solve one's grief stricken
Heart but only the living presence of divinity
We see in Nature of such wonderful vision!

Ramesh T A
A Work Done Well!

They are happy because I have moved with them;
They remember that today I spoke to them.

The day has ended as the working time is over;
Surely someone will say a kind word of me there.

The day is going fast whether we know or not;
But we have done the best we can in time tight.

Certainly everyone is rejoicing over what is done;
And everyone’s confidence is restored as it is fun.

By involving all I have utilised the day without waste;
I leave behind my mark in all the things I did fast.

So, I can have a cool sleep even in the summer night
With hope and confidence I have created in the work!

Ramesh T A
A Work Life From Dawn To Dusk!

The sound of birds begins early morning everyday;
The voices of parrots are clear and strong to hear;
Thereafter the voices of crows dominate everywhere;
Finally the sound of squirrels and others birds come!

They are the ones that cheer up the mood of everyone;
Fun, joy, hope and confidence build up soon to full;
Great mood to do something new, different and fine
All come to the screen of mind to arrange in order!

One by one all things all take up to pay full justice;
The day then moves on full speed till afternoon comes
For the lunch to take to regain energy to do finishning
Touches to all works to finish that day's venture well!

Each step of work is the climbing force to the top of hill
To feel the cool from heat of hard work to ease burden of
Job with a sense of fulfilment and also, completion of all
Things to return home with joy to enjoy entertainment nice!

Ramesh T A
A Workaholic Way Of Life!

Why are people working hard despite work gives pain
And tiredness beyond recovery that one can't leave?
People work very hard because they like work much;
Work gives satisfaction, fulfilment and joy much..!

Though there's no need to work so much, people work
Not just to pass time, but to get a satisfaction
They cannot get by any other means despite all sorts
Of comforts are available to spend time in life..!

Even in the work people do, they use creativity in
The way and manner they prefer to see that something
Novel they are able to achieve in the usual rut of
The job others may feel fed up with after sometime!

Involvement in creative work one does, makes one never
Bother about pain or hardships that can't be overcome!
Yet, they pursue in their usual work with a new zeal
Everyday, only they can enjoy, understand and achieve!

Ramesh T A
A World Language!

World mother tongue day they say is today, you know!
Many languages and scripts are there in the world
Making them difficult to learn to have communication!

How can this be solved? I used to think about often!
Now I think this can be solved, if we have single script;
But also, I feel why can't we have single language for all!

All over the world, people are having communication in
One language called English through social media sure!
Why can't we extent it as a common language for all ever?

My mother tongue is Sourashtra only for spoken purpose
As our people have migrated down to South India since
Thousand years ago having no link with place of origin!

After having advanced education, it has become easy to
Use English for all purposes being a world language long!

Ramesh T A
A World Of Freedom!

Yesterday night walking in the beach........
I saw colourful bonfires sparkling in the sky!

At the French Consulate building people were
Enjoying Independence Day of France so....!

One hour or so bonfires were going up....... One after the other nonstop engaging all there!

Liberty, equality and fraternity of French revolution Marked first for democracy to rule the world....!

Now all the countries are having democracy With Arabian countries too hungry for it ever!

Liberty, peace, friendship and development All love against all taboos everywhere in the world!

Freedom to think, speak and do as one wills Surely makes a heaven of this earth for all!

Ramesh T A
A World Of Great Friends!

Distant friends are close to heart due to computer internet;
But close friends are distant in heart due to jealousy ever!
What a kind of friendship we have in the world to live with
Both good and jealous ones living side by side as friends..

Good or jealous or bad or envious, Books are all more than
All friends we had, have and will have in this material world
Always giving good ideas to console, build up confidence,
Cheer and guide at all times of hardships in this world life!

Home library of wonderful book friends makes this world small
Due to the reliability of words, keeping up of promises and
Being always near us to assist and afloat us in wonder we know
Not by best ideas, new and rejuvenating heart, mind and soul!

Home library is a world of great friends who never fail us,
But ever boost up our spirit to high level to be proud of
Their valuable and high support none can offer in this world
Full of uncertainty, chaos and cheating that pulls down ever!

Ramesh T A
A World Of Great Opportunities!

This world is for all the people in the world!
No technological entrepreneur or business
King or religious fanatic or political ideologist
Has any right to take the world for ransom!

Dissidents, pessimists and failure cases can't
Take this world in their hand and dictate terms
To all other people in the world to give vent
To their feelings with suicide bomb attacks!

All failed persons in the world surely have
A lot of opportunities to improve themselves
And do great jobs for the good of the world
And for the advancement of humankind ever!

All decisions taken sans optimism and hope
Surely meet with failures only as whole soul
Seems to be not involved in their ventures in
This world of great opportunities waiting for all!

Ramesh T A
A World Of Heaven And Paradise!

World of heaven and paradise

All living species of Nature only

Enjoy in Nature man misses

In his materialistic modern world

However sophisticated and high

As if in the world of hell

Unable to meet and move with all

Friends, dear intimate ones

Of one's own family forever

Conveying even hello not in person

But only over smart phone only

Drifting by wide distance

Day by day in the name of

Prosperity, progress and power!

Ramesh T A
Greetings and birthday celebrations are over;  
All have settled for the night sleep at last......!  
Peace and cool breeze prevail now in a nice way;  
Poem develops with flowing words of joy fine!

Night sky with stars twinkling is an eternal wonder  
None can miss whatever be the situation of life...!  
Music playing love theme by The Shadows move  
Heart, mind and soul to dance to the tune in peace!

It's heaven indeed to feel the mood of night so!  
Dreams and imagination of paradise come up  
And thoughts of Utopia lingers on to and fro  
With confidence building of future very near..!

One language, currency and common laws for all  
Nations working under one roof of world organisation  
Surely not a cherished dream ever but a reality soon  
Will make this world a paradise to live in joy and peace!

Ramesh T A
A World Of Peace And Harmony!

People enjoy all festivals much with family and friends! Nine and One Nights or Dusserah festival of India and Festival of Lights or Diwali everyone love to enjoy ever!

Then New Year, Festival of Colours or Holi and Valentine Nobody seems to miss in the life of the world to be happy And share joy with all in love to have harmonious world life!

World harmony and peace starting from family get together To social get togethers fostered by intimate friendship surely Moulds human world quite divine to live as in heaven here...!

Promotion of such an atmosphere is surley possible only by All the festivals people love to celebrate spending money as Nothing cannot be a meaningless endeavour world wide sure!

Colourful bonfires being launched from over the terraces of all Abodes surely create a Universe of peace, joy and harmony...!

Ramesh T A
A World Of Poetry!

A day goes waste if poem is not written
Before midnight comes for rest everyday!

Careful, callous and careless also compose
Deep or shallow poems mingling with ocean!
Every poet is a hero or heroine here ever
Fully exploiting opportunities to the best!

Good, bad and ugly go hand in hand here
Hoping to hit the bull's eye sure every time!
Iconic personalities do their regular jobs and
Jack of all trades do their jobs as usual....!

Kinetic and potential forces display skill
Like great Universal powers in poetic field!
Moments of joy and hatred mingle as well
Noting all minute details as salt in sea ever!

Opposing and supporting scribes do well
Popularising poetry websites to the world!
Quality and quantity too have mingled well
Resourcefully making the field renowned...!

Surprising competitions now and then inspire
The tempo of lethargic poets too to shine well!
Universal love of poets' hearts rule supreme
Verily vying with one another in moments fine!

World of poets is surely interesting against odds
X, y, z though spoil and collapse it now and then!
Yearnings of all are wonderfully exposed here
Zeroing the ill will of some who destroy joy at times!

Ramesh T A
A World Of Uncertainty!

Before one’s time has an end,
One comes to know of it well!
But mostly all don't know it
Before hand to say vital news!

One doesn't wish to live more,
But lives longer than necessary!
One has so many dreams to be
Completed, but dies sudden..!

Death never sees whether one
Has to live further or not, but
Simply takes away one's life
Making all wonder at that...!

Living we die and dying we live
In this world of uncertainty ever!

Ramesh T A
A World Poetry Day!

Everyday is ever poetry day for poet!
World poetry day is poetry celebration
Especially for world people to honour
Poetry of all writings of the world ever!

Novels, stories and articles are in vogue
But poetry cannot be ever left as vague!
Matter of a book, a few pages of story or
An article of length Poetry says in a line!

Poetry is the essence of matters in nutshell,
A seed that grows into big tree with leaves,
Flowers and fruits to please and guide all
To live life better loving Nature and lives!

Sans the inspiration of religious philosophy
Said in echoing verses of world where is it
One can get solace and wisdom to face woes
Struggling on the ocean of life to swim or sink?

Poetry is oldest of old medium yet a modern one
Brief as telegraphic language conveying message
Beautifully, musically and echoingly as mantra
In avatars new ever using words and forms old!

World celebration of poetry day today is wonder
For poets and lovers of poetry on modern websites
Just as enjoying old wine in new bottles all over
World of human beings unique in whole Universe!

Ramesh T A
A World Recession!

Protectionist policies
Of advanced westerners
Cause world recession!

Ramesh T A
A World Union!

Crises world facing need to be corrected
To change for the better the course of the
World in the right direction to save all...!

What is the use of making atomic bombs
That can destroy the world in no minutes
And stockpiling them not knowing danger?

By military might or political ideology or
By religious fanaticism or monarchical trade
World cannot be brought under one rule ever!

Locksley Hall of Tennyson, New Atlantis of
Francis Bacon or Utopia of Thomas More or
World union of H G Wells and all are good!

Such unifying ideas of world union media, Clubs
And all should popularize to make it a reality soon!

Ramesh T A
A World Without Water?

Alaskan glacier, Arctic glacier and Antarctic glacier
Are all melting due to global warming out of pollution!
Gangotri glacier is melting into Ganga River for long;
But smaller glaciers are receding due to pollution!

The third pole of the world Himalayas is growing
With glacier ice increasing in deposit it is said!
But UN global pollution research says it is not so!
Detailed discussions are on the subject of interest.

What will happen if all the ice of the world melt away?
Drought will prevail everywhere and water won't be there!
The Earth with three fourth area covered with sea water
If does not have drinking water where can men go for it?

Oil, water and food go away how can man survive here?
Have you all thought about it before you venture out now?

Ramesh T A
A Worst Misery Of Mankind!

All miseries of mankind are not so worse as hunger, poverty and unemployment;

Best charity service is free meals given in holy shrines in the world nations;
Catering to the needs of the hungry is the best service of love in action sure!

Danger of poverty and hunger makes many people as living dead in the world;
Every one should be fed with food, clothing and shelter, if we are civilized;
Faces of smile and laughter that we see after our help to poor are God's face!

God is everywhere and in everyone and the help we do to poor goes to that God true;
High priests and noble persons have this in mind in doing charity works ever;
Iconic heroes of silver screens became great as God due to their service to poor!

Jointly and individually if social service to the poor is done, all will be wealthy;
Keeping the smiles of poor children are the way we all can share real love sure;
Love is giving the best we can to the humankind in some form or other so ever!

Misery may be called as the curse of the world we have to turn it to luxury sure;
No one should cry for food and shelter in the night, if a nation is developed;
Openly seeing sufferings of the poor, should all economists should say of progress!

People are the heroes and heroines of democracy and government is servant to them;
Question mark is the snake that is slowly injecting venom to poor to death ever;
Restoring them to life to live as all better ones is the duty of a ruling doctor!

Serious thoughts and ideas on elimination of poverty are the first task of govt;
That cannot be neglected, if one wants to come to power elected by people ever;

United efforts of people, rulers and administrators can solve problem of poverty!

Various forms of governments are coming to power, but poverty is there forever;

World reels under poverty, violence, wars making miseries of mankind more and more;
X and Y are the neglected people needing to be taken care by progressive governments!
Years of works by democracy seem to be not have realized this evil in human society;
Zeus of politicians should condescend to ground level to set-right the setbacks sure!

Ramesh T A
A Worthwhile Friendship

Friendship is a boon in the social life of man!
Friend is a God sent angel in times of need;
True friend is the captain of ship of life;
Life friend is a camel in the desert of life!

When all have deserted friend only gives company;
When you are in comfort many come as companions,
But only a true friend knows your profit and loss
And be with you unlike migratory birds fly for fortune!

First to last only a true friend can bring one all in life,
Make life worth living to do noble things in the world
And achieve all laurels one can for the well being of all!
Such a friend is rare indeed to find in life for all here!

A friendship with worthwhile friends are rare in the world
And achievements in life such friendship only can do sure!

Ramesh T A
A Worthy Friendship!

Real friends never ask for any help among themselves;
Friends cooperate and coordinate sans asking ever...;
Self benefit seeking fellows can never be in friendship
As they are weather-wise migratory birds only lifelong!
Friends work automatically for their common good only
Ever thinking about the good ideas for their welfare and
Voluntarily working for a longer duration of their friendship
Whether it is Spring or Summer or Autumn or Winter ever!
Hearts of real friends know the cause for problem of a friend
Photo-metrically and know future problem too by clairvoyance
As telepathically their minds are working knowing each one's
Status whether they live near or far off anywhere in the world!
Friendships of worthy persons are a great boon in any walk of
Life that will last longer than any relationships in the world...!

Ramesh T A
A Wrath And Mercy Of Nature!

It is incredible to see heavy rain after a very hot day;
It is the beginning for a storm brewing in the sea we
Come to know later from meteorological department news!

Typhoons and hurricanes lashing in East and West of
World nations, we wait to see a small storm soon sure
In the south of the nation amidst hottest days recently!

Nature has its own way to balance itself despite humans
Blunder in polluting and changing climate itself soon
To the devastation of natural change of seasons well!

At least now let us understand what a havoc we have dragged
In by inviting the formidable wrath of Nature to punish
Us all and at the same time balancing itself to normalcy!

Whatever we have developed and advanced by science and
Technology, we can't excel Nature as we are at its mercy!

Ramesh T A
A Writing Work!

Writing is a concentrated work just like writing a public examination; But the difference is writing has no time limit and competition with Time! Best ideas are expressed with poignant and impressive points to sway all; But forms of writing depend on the nature, skill and taste of writers sure! Writers are titled as journalists, novelists, essayists and poets by the public; Duration of taking time to finish a work of writing depends up on mood and urge;

But poetry is like a flash of lightning of ideas a poet has to write by talent; Among them there are experts noted for particular themes only in general! Poetry is entirely different from all kinds of writings we know and like ever! For all forms of writings, one may get ideas and matters somehow or other; But synchronizing ideas, thoughts, points, rhythm and structure needs skill Unique to one and a natural gift that create wonder amazing to poet and readers!

Writing is an elaborate and tedious work whether one is a genius or expert sure; But poetry writing is precis of a book expressed in a few lines only by the gifted ones!

Ramesh T A
A Wrong Beat Of Music!

Off beat of music became popular with disco;
A wrong beat of music has come into vogue;
Now any band of music is welcomed for fun!
As in music life also reflects its standard now.

Violence and crimes in society are common now;
The sorry state of affairs points to education finally.
Education without character and discipline has done
All the draw backs we see today everywhere in life!

Civilisation dawned with science and it rules all today;
Education gives importance to science sans humanities
So, civilisation sans culture allows all wrongs go Scot-free
Making human life a farce in the world of technology now!

Reforms of education must pay attention to human values
If human society has to flourish as humans in the future!

Ramesh T A
A Wrong Use Of Concentration!

Sans concentration hitting the bull's eye is impossible!
Doing things sans concentration is drunkard's work;
There is no doubt about it, all say, without any fuss..!

If one does accurately sans concentration means one
Is very thorough and well experienced in the field sure!
There is no doubt it at all, if we observe it in world life!

If religionists too follow this method, it's only a forceful way
To make people believe and rely on so to achieve their goal
Not by love but only by compulsion in the human world...!

To make people always think about God, they ban all diversions
By way of art, music, free thoughts, free discussions on God
And so on so as to make them fool and fanatic of religion ever!

This kind of extremist way of dealing matters makes man mad
And do all horrible things not by love of God but by fear sure!

Ramesh T A
A Youth Blindfolded!

Eyes blindfolded
Youths are left in
The thick forest!

Ramesh T A
A Zealous Lot Crows Are!

All time bird can be crow only ever
Black in colour scavenging all day long
Caring nothing about neatness or anything!

Dogs eat the bones they throw clearing flesh
Efficiently bringing by hovering everywhere!
Full meals or bits of meats they share with all
Going by the policy of united we stand ever!

How healthy and active the crows are ever
I see standing on the balcony of my building!
Jack of all trade these guys do hard work long
Keeping their noise heard all round the place!

Loitering round us they pester us to give food
Many a time when we come out to see the sky!
Nothing we can do but offer some leftover foods
Obviously irritated to avoid their bickerings!

Popular among birds like mynah, sparrow, eagle
Quixotically crows overshadow them by numbers!

Regularly they start their chores like we do
Surprisingly very early in the morning itself!
Tickling nook and corner of all materials all day
United they raid everywhere sans rest ever!

Verily they are indeed hard toiling creatures
Whether it is summer or winter in the whole year!

Xerox copy of black crows reminds of uniform dress
Year after year without change or colour fade ever;
Zealous lot these creatures indeed we have to imbibe!

Ramesh T A
A Zig Zag Month!

Tension, tension without any relaxation
Days go on in the world in month of May!
Zig zag, all things happen one after the other
Marriage and illness, marriage and death!

Sweet and hot, life goes on very sharp now!
But in May will this go on so long or how long?
But our good work was completed midst of chaos;
What a tension and what a relief at the end...!

Now I have a breathing space to write this;
Tomorrow what is next only God knows..!
But natural process comes to a good end....
Somehow with Almighty's grace at last.....!

Sonnet, sweet and bitter, I write as happening
Whether it is May or cold months next.........!

Ramesh T A
Abc Of Aliens And All!

Aliens are extraterrestrials along with giants and greys;  
But their matters are kept in secrecy for wants of truths!
Centuries old maters we know from the relics left by them;  
Details about their mysteries are yet to be known by all!

Extraterrestrials are the Gods we all worship in various names;  
Facts about their valours are legendary stories and mythologies  
Great and incredible, yet, they are all thought provoking as to  
How have they made so much advanced feats before modernity!

Iconic Gods, we worship, have been travelling all over the Space  
Jumping from one Star to another one with Earth as junction....  
Keeping abreast of knowledge by gathering ideas from everywhere  
Leaving their marks as pyramids, strange objects, etc. as identities!

Marks left behind them reveal their powers, greatness and so on  
Nobody can deny and might have triggered mankind to develop;  
Outer Space adventures by Science &Technology man is progressing  
Part by part and yet, we are matchless before their past achievements!

Quite very, very late we are heading on towards their advancements;  
Rather it is an herculean adventure to catch their civilization by science!  
Sure, we are the images of them adapted in natural evolution to divinity  
That we are trying to achieve by spirituality becoming supermen soon!

Universe is the vast field of exploration to find answers for our questions;  
Vertically and horizontally all explorations and experiments will help much  
Widening our scope to learn more and know more techniques to advance...!

X men and their extraordinary powers got from extraterrestrials will help sure  
Years of experiments and inferences we have made and are making to know all  
Zealous facts, figures and fictions to be extraterrestrials one day to fathom  
Space!

Ramesh T A
Abc Of Political Game!

All issues are politicized and political game is played
Before any solution is found for anything by politicians;
Careful manipulation with words they pull on the days in
Dragging all matters that can be solved till poll comes!

Every matter is kept in the back burner unless it's profitable
Fully satisfying their political mileage in the election;
Good or bad, they don't care except their victory is confirmed
However easy or difficult the coming elections are concerned!

Icon of the political arena takes the lion's share in the spoil;
Joint ventures too, they prefer, if the passage is easy to go through
Keeping in view a massive victory for the next term in power;
Likewise, the plan and move the coins to win in the political game!

Matters of vital importance they take up in hand to convince all;
No matter however tedious or trivial once they become popular sure;
Opposition parties, if they are strong, grease their palms to win;
People are hoodwinked as all things take place behind the curtain!

Questions of burning problems are prolonged till people forget them;
Respecting the sentiments of the people, they play the game long
Surviving, sustaining and succeeding in every move of their game;
The final stage is placed in great suspense to take advantage of weakness!

Ultimately the good hearted and innocent people are the victims;
Varieties of cosmetic lures they make like expert advertisements to
Win in the polls to power only to play the card of sentiments ever!

X men like display of their influence they show to cajole new ones;
Years of such techniques make them experts in winning the game sure;
Zero is the benefit and solution to problems people get forever...!

Ramesh T A
Abecedarian!

A is for Alien
B is for basin
C is for cistern
D is for den
E is for Eden
F is for fun
G is for gun
H is for hen
I is for iron
J is for jinn
K is for ken
L is for line
M is for men
N is for none
O is for open
P is for pen
Q is for queen
R is for run
S is for Sun
T is for tin
U is for union
V is for van
W is for woman
X is for X men
Y is for yarn
Z is for Zen

Ramesh T A
Abecedarian Alliterative Amusement!

All astonished at attire attractive;
Beautiful bull-bull browsed bits;
Careful crow cried cocking crook!

Dogs daunted daily dragging dishes;
Eager eunuchs enchanted everyone;
Five fools flew fast frontiers foreign!

Grand game goal-keeper gained ground;
Hurrying Halloweens hovered halfway;
Ice-cold icons increased in intuition.....!

Joyful jogging Jockeys judged jocularly;
King kicking knocks killed killers
Landing Lowland Logan lulled low!

Monkeys minced mangoes mirthfully;
Nomads noted nice novelties nowhere;
Openly obscure opera obliterated oaks!

Perfume prof erred people pushed....;
Quite quixotic queen quenched quickly
Roaring round regular roadways rushing!

Song suggested style surely sweet...;
Tough time turned to twisting Tequila!
United union Uighur uttered ultras!

Various variety vegetated vertically;
World winds woe-less words wobbling
X-Rays xxxxxxxxxxxxxxxxxxxxxxxxxxxxed

Years yelled yester-yawns yonder;
Zealous Zeus zeroed zigzagging.....!

Ramesh T A
About Impatience!

Why does one become impatient?
Knowledge, intelligence and aspiration!
But what can be done in a slow society?
Nothing can be achieved if fast in work!

This happens even with machines
That does not understand mind
And function as to urgency and need
When fault occurs at unexpected time!

Patience is needed to accomplish matter
With assessment of world and people
And planning of work to achieve success
Based on suitable programme and timing!

Wise and intelligent decision is needed
But not just knowledge and impatience
To achieve great and best things here
According to one's desire and temperament!

Ramesh T A
About Jealousy Where To Tell?

Were to tell about the men who feel jealous of anything and everything?
Openly jealous they speak words that sicken the hearts of others
And indulge in acts that are inhuman in nature by any standards.
Why are they behaving themselves so both in public and in private?

Desire is a common thing for all men in this world;
To fulfill one’s desire one has to think and act in life;
But if the desire itself is wrong, how can one be successful in life?

It is childish to acquire whatever one desires in one’s heart;
If one fails one becomes mad and loses one’s heart here;
Unfulfilled desire drives one to indulge in sadistic pleasure.

At first they behave neurotic but become psychotic very soon,
If they fail to check their sense and control it with reason and justice.
Blinded by madness they go about like ghosts to satisfy their desires-
Mad after money, sex and drugs with bellowing chests, burning eyes and
grinding teeth;
Where to tell about such horrible sights when one comes across at the odd hours?

Jealous and suspicious, Janus never leaves the victims in joy and peace,
Once he sacrifices his soul to greediness, lust, anger, fear, ambition and
deceitfulness.
The innocent victims were not let at ease until they all became ghosts like them;
And how many families had been destroyed by such ghosts! God knows!

Why don’t they desire to love beauty, truth, joy and peace?
Why don’t they love to do good and great deeds here?
Instead of indulging in lasting things they waste life in losing things;
This why they don’t understand nobody knows in the world.

If one envies others at least one may try to become so;
But if one feels jealous one simply spoils others.
Money is needed but to meet the basic needs;
Sex is a biological necessity but not the whole thing;
And drugs are needed to improve health but not to destroy it in kicks.
According to one’s capacity one has to aspire to satisfy one’s needs;
But it’s contrary to civilisation to acquire accusing or assaulting others.
This no civilised and sane person would tolerate to take place anywhere. About the ills of jealousy well versed persons should know where to tell And try to cure and eliminate this disease from the society altogether Then only the individual and the social progress can really be possible.

Ramesh T A
About The Future World!

Future world is in the hands of
Today’s children and youths sure;
Realizing this, politicians make way
For them to take responsibility!

They should be provided with good
Education, job and life to live;
Education and tax are important
Portfolios rulers should deal well!

People should be happy with the
Tax system of a nation for progress;
Students should get education to
Stand on their own legs to do all!

Sportive youths are the best to take up
Politics to bring peace, prosperity and
Progress to all people in the world by
Unifying all nations as one world sure!

Ramesh T A
About The Legacy We Leave Behind!

For the happiness of everyone in life,
What is important we have to know...!

For the child, love is most important;
For a woman, security is most important;
For a man, honour is most important in life!

All should know what is the purpose of life;
The purpose of life is to attain happiness,
Peace and liberty to enjoy bliss and freedom!

Being so, all have to think about what have
We done for the world and posterity as our
Gratitude for all things we have enjoyed...!

The thing we do should leave behind a legacy
That all have to understand, realize and be
Benefited to appreciate the best we have done!

Ramesh T A
About Writing Books!

Whoever talks with me asks what I have said
In my poetry book, Dreams, Ideas and Realities;
I simply reply that I have said about the realities
We see everywhere suggesting ideas and dreams
To set-right the setbacks in the world for the better!

Then they ask me what my dream is sans any idea;
I simply reply that my dream is creation of one world!

So, they come to know that I have written two books
Under the titles like Dreams, Ideas and Realities, and
The Creation of One World as foundation books
Before I have started writing my other books so far!

Before writing anything I never had the idea of writing
Books; but after writing poems and articles to a great
Extent, I got the idea of writing books and write books!

Ramesh T A
Absolute Freedom!

Absolute freedom only a child enjoys in the world
Knowing love only and no laws of land and all ever!
A wonder is everything for a child to observe minutely
And remember so as to decide anything later on...!

Child goes ever by love and judges matters by love
That elders too cannot understand how it does so!
Love is the basic bench mark God has offered to all;
But only a child and child like hearts use it for good!

God given love is Universal love many forget by time
Carried away by the acquisition of knowledge and
Wealth that gives power to one to rule as dictator
And that only a child can change by its love again!

Freedom gained by love is lost by power that makes
One a slave and prisoner of wealth in the world that
All seeing the love of child and its absolute freedom
Should turn to the path of love to enjoy real freedom!

Ramesh T A
Absolute State!

Lotus in heart with yellow flame having luminous blue in
Surely brings spiritual bliss, when one is in meditation long!
The all pervading spirit, which is universally present, is also
Present within the heart of all like the lotus with blue flame!

The lotus petals open with the yellow flame to see the blue
Luminous present within for it to mingle one with the all
Pervading Universal Spirit, when one mystically communes
With the divine spirit present in the great beauty of Nature!

The good, pure and perfect state of spirit finally embraces
The Universal Spirit, which is all pervading in the Space ever,
Only when the cycle of births and deaths comes to an end
At the saturation point of evolution of man after a long travail!

Evolution of man physically, mentally and spiritually takes
Place to have an end in the absolute sate of Universal Spirit!

Ramesh T A
Accuracy Is Needed For Absolute Truth!

Answer got by arithmetical calculation is taken as absolute truth;
But best calculations too go wrong in world life of man many a time;
Calculations based on accurate data only can give reliable answer!

Definition of any matter is being done based on intellectual analysis;
Enumerations are arithmetical analysis to have a probable picture ever;
Facts, that are accurate only, are helpful to know truth by intellect!

Good many assessments go wrong due to error in data accuracy known;
Higher mathematical calculations are involved in scientific experiments;
Inferences made on observation of an experiment help find truth of thing!

Joining the missing links with proof only a whole or final theory can
Keep all laws of nature intact for easy interpretation to understand all
Laws of science to explore the mysteries of things in the Universe sure!

Mathematical equations of scientific phenomena gives accuracy to theory;
Nothing can be taken as absolute unless proved by practical experiments;
Observations by keen minds have discovered and invented so many things!

Physical proofs cannot be had for emotional intellectual and spiritual
Questions and so, mathematical science can't be relied upon cent-percent;
Resolutions of microscopes and telescopes are of not much help for Space!

Space explorations need radio-telescope to know composition of matters;
Theoretical suppositions of geniuses are proved long after them, in fact;
Universal truths are beyond the scope of man's mind or calculations ever!

Verifications for scientific formulae on findings are done by experiments
Which are many times beyond the scope of earthy labs needing space labs;
X and Y suppositions of mathematics there comes into play to go further!

Years of researches make human efforts futile and future only can decide
Zero proof scientific as reliable or not to know absolute truth ever...!

Ramesh T A
Ace Player!

Man in cards
With three aces in hand
Wins always!

Ramesh T A
Achieve Goals Of Dreams!

Innocent animal pleasure of child is harmless!
Playful quest urges him to do so to get satisfaction.
With a little knowledge he likes pictures, colours
and enjoys beautiful things in dress and all things!

Perfectionist loves to see beauty in all activities,
Loves beauty of Nature, beautiful things ever,
Loves to do in a beautiful way whatever he loves;
Aesthetic nature grows since childhood on sure!

Then thinking age begins him to feel about drawbacks;
Seeks loneliness in Peaceful places of Nature at first;
His taste of beauty diverts him towards Nature's beauty:
Sea, sky, misty hills, snow mountains, smooth rivers,
Green meadows, smiling flowers, moon and stars....!

He goes to such places often far from the madding lads;
Gets peace of mind and communes with Nature in toto;
Becomes also a mystic soon enjoying the bliss endless!
He regains new spirit full of enthusiasm and begins life
Again from the scratch to achieve goals of his dreams...!

Ramesh T A
Achievement Of Dreams In Flying Colours!

Dreams are common for all in the world
From the beginning to the end of life;
Deep desire of heart kindles all dreams
Long till they are realized by ideas!

Dreams continue like a long journey in
An adventure that has no destination;
Imagination kindled by dreams proceeds
Playing with many ideas to implement..

The resolution of ideas is the focus
Straight into the central point of
Bull’s eye to hit with the arrows of
Artistic expressions to achieve laurel!

Where is fatigue, monotony and frustration
Till the goal is reached to fulfil desire
By realizing all dreams by ideas got from
Experience, imagination and wisdom in life?

Ramesh T A
Achievement Of Nature!

Bouquet of flowers smiling bright welcomes all!
Blooming flowers blossoming on pots of plants
Attract bees and humming birds to suck honey
Like the red lips of dames ready for kisses ever!

Symbol of love, Red roses attractive as lips of ladies
Ever stand bright as beauty queen among flowers
Enticing lovers to buy bouquets for lady loves.....
To propose their love sooner the better feeling sure!

As a gift to special friend Blue roses bloom ready
For the buyers to present bouquets to guests great
To spread fragrance of friendship in high esteem
Making it a mark of lasting human relationship sure!

Bright smiling flowers of various colours are rainbow
Ever renewing flower gardens as achievement of Nature!

Ramesh T A
Achievement Of The Passionate Ambition!

Urge to write is denied to one due to obligations under inevitable circumstances turn into great passion brewing in heart as time goes on unnoticed long; But never the vigour diminishes due to passage of time beyond one's control; This is the nature of a highly motivated individual in world life being a rare one!

After fulfilling obligations and when the time comes at last, like a flood from rain Words flow in cascades from the depths of poet's heart whether it is a paean To God or vagaries of life or oscillation between pessimism and optimism And goes on like a living river producing poems endless even if time is short!

The passion to write never seems to stop like the soaring ambition of a war genius To win many battles of the world to see one's ambition is materialized at any cost; This burning passion within long, when time comes, serves as fuel to the fire And makes one tireless even at the ripe old age and surely at the fag end of life!

For the victor, even a blade of grass becomes a weapon to fight out the mighty one Standing as a mountain blocking the onward march of the brigadier to the goal fixed!

Ramesh T A
Achievement Only Counts!

Mere success
Only does not merit much but
Achievement counts!

Ramesh T A
Achievement Possible By Hard Work In Creativity!

Everyday is an opportunity to do one's best in life
To go ahead in pursuance of one's goals to achieve
The most cherished dream at the stipulated time soon!

Seeing the end point to achieve one's dream, everyday
One tries to do the best bit by bit to make the whole
Fabric in kaleidoscopic design with combination of hues!

Such a perfection of art possible, one achieves the best
One hasn't done in one's lifetime to create a great record
That will say of one's name forever and ever in the world!

This sort of driving force kindles zeal to do even the
Difficult part of work better by creative skill developed
Since a longtime in the job undertaken to boost one's image!

All creative works involve this kind of calculated risks
To see that one's work becomes a masterpiece by hard work!

Ramesh T A
Achievement!

Knowledge and vision
Help to have broad ambition
To do life achievements!

Ramesh T A
Achievements For Socio-Economic Progress Of Society!

Achievements are something impossible by people sans talents;  
Due to ignorance and negligence, many simple works are postponed  
By national governments to accomplish in time denying chances to  
Skilled persons to make achievements towards progress in nation!

Long delays in implementing all things, national government does  
Even simple things as if making big achievements to hoodwink men;  
If government itself indulges in doing such silly things, how can  
It appreciate and encourage achievement making skillful persons?

Everyone is born with some skills in the world needing to be  
Discovered by education for development so that such best ones  
Can achieve something worthy and wonderful for the progress of  
Nation to recognize and honour such talented ones with awards!

Everyone should understand that all are born to achieve in the  
World and this a nation has to realize and utilize its office  
To foster such extraordinary persons for national development  
So as to effect real socio-economic progress of human society!

Ramesh T A
Achievers Award Function!

Function for appreciation of achievers is entertaining
Just as in international film awards festivals all like..!
Announcements about achievers are wonderful ever
With details of each one's valour and specialty in field!

Wonder and surprise of each and everyone in the hall
Really are making a big impact in the minds of witnesses!
Achievers are honoured with trophies and cheques
As incentives to achieve still greater heights in their fields!

Flash lights of cameras & video cameras going on full swing
Take a lion's share in the whole of the function time......!
Audience is spell bound by the greatness achieved by all
Prize winners of the function and automatically all applaud!

Even after the function the impressions and images linger
On in the minds of people who have witnessed the show...!
Next day the headline news of the prize winners exposed
With photos capture readers to go through them with eager!

Function, news and talks of all people of the town and nation
Attract the attention of foreign tourists too to know about all!
It's a great moment in the life of the talented ones to enjoy
And remember with joy and satisfaction at the fruits of labour!

Ramesh T A
Achievers Live Forever!

Making a mark in the mortal world is an achievement;
That achievement immortalizes the maker in the world;
Talk of men about the achiever is forever as if one is alive!

Immortality can't be achieved by the decaying body ever;
But mind, heart and soul of one can be immortalized sure
By inventive or creative work in some field in the world....!

Such future immortals are the artists, litterateurs, scientists,
Poets, philosophers and leaders following in the footsteps of
The immortal souls, whose fruits of labour we are all enjoying!

Any extraordinary or outstanding work done with the whole of
Heart, mind and soul lives forever in the world making that one
Immortal in the hearts and minds of living men as torch bearers!

History, literature and records in many pages of books in the
Libraries and now in the computer make achievers live forever!

Ramesh T A
Achieving A Masterpiece Poetry Of Life!

Visualization gives whole picture or outline of anything
Needed for one to plan what one has to do to achieve the
Objective of love, dream and desire very vital for one!

Visualization followed by relevant thoughts gives ideas
To implement so as to execute plan or express matters in
Poetry to create a masterpiece to fulfil one's dream...!

Knowledge, desire, observation, experience and imagination
Combine together suitably according to one's need to have
Ideas to implement in action or in poetry by genius or skill!

Inventive activity in one's profession or creativity by skill
To produce poetry every ingenious person achieves all, if the
Process of visualization is perfectly formed in the mind first!

In short, the best of one's whole self when involved well in
One's activity, what one achieves is masterpiece poetry of life!

Ramesh T A
Achieving Ambition In Flying Colours!

Doubts, negative thoughts and pessimism create fear;  
Fear becomes a big monster, ghost and vampire in dark;  
Dark moon though dark in hue is new moon to feel high;  
High thoughts develop with symbols of good omen ever!

Ever no one should exhibit fear or doubt to the world;  
World is a vast field of opportunities to gain sure;  
Sure there is nothing to lose, if try various means...;  
Means if good surely the end will also be good finally!

Finally all rivers reach the seas wherever they start;  
Start with good hope and proceed to achieve all goals;  
Goals are fixed after a broad ambition is decided to do;  
Do think well, plan and execute implementing best ideas!

Ideas of best knowledge give impetus to make bold moves;  
Moves are if carefully made, one will surely become champion!

Ramesh T A
Achieving Ambition!

To achieve ambition
Be as faithful as a religionist
Or as perfect as art or nature!

Ramesh T A
Achieving Dream Of Utopia!

Scientific temper with religious spirit is needed
To know the truth to believe or not anything...!
Faith based on truth is better to follow with love
Without harming anyone with a broad ambition!

Living life following human culture leads to sure
Way of realizing what we dream and aspire to do!
Real fulfilment in life is practically possible for all,
If we love for, strive and achieve perfection in all!

Modern life with Nature, art, music and literature
As part of culture gives broad mind to go a long way
Exploring ultimate reality till satisfaction is attained
To enjoy love, joy, peace, freedom and bliss forever!

Civilization based on human culture is real way of
Advancement in life to achieve dream of Utopia sure!

Ramesh T A
Achieving Dreams!

We cherish many dreams in mind;
But when the time comes we fail;
For, we are not prepared to do!
Ideas are needed to realize it;
Knowledge of experience gives ideas;
That only can do miracles ever!
But simply dreaming gives pleasure
And we forget time to implement!
Vision of the whole is needed
To have ambition and programme
Before executing ideas to success!
Poetry expresses ideas wonderful
Direct from dreams as in magic;
If it's implemented miracle it is!

Ramesh T A
Achieving Joy And Pleasure!

We are indebted to do our duty till the end of our life;
We can achieve so many things according to our ambition;
But we can't carry all with us after our death to anywhere!

We are destined to do duty, enjoy life with love and do
All best things for all in the world to have a smooth way
To the other world in freedom we long for all our life..!

Best thing is to do best things, enjoy all pleasures we
Deserve, make a mark in the world, earn the love of all
And get peace of mind with full satisfaction in the world!

That is the way to achieve a sense of fulfilment, all we
Can do to the best we can to have a sens of joy and enjoy
Pleasure to feel a sense of satisfaction before we die..!

Joy and pleasure all can experience in doing the best we
Can in the world enjoying beauty of Nature, art and Humans!

Ramesh T A
Achieving Things To Victory For The World!

Thousand things people talk about well
But who knows what is going to happen!
Many leaders dream about many things
But who are all going to implement them?

Knowing the past and envisaging the future
If we think about in the present we know all!
Mystics and yogis muse over all so to know
And say in measured tone message for all!

Knowing the circumstance and the situation
One should wisely think, say and do things!
The time spent on useful things so is good
For the doer and for those done in the world!

Time got should never be wasted in vainful matters
If we want to create a world of unity and peace ever!

Ramesh T A
Achieving Total Liberation!

Commitments, obligations and duties chain all as slaves to work; 
All do all to be free from troubles, entanglements and problems; 
All want freedom to do what all like, how all like, when all like; 
Above all, total liberation is the one great wish for all ever!

Love and knowledge only can make one complete to have a sense of 
Freedom to enjoy happiness in doing beautiful things in arts, music, 
Painting, poetry science and philosophy to get fulfilment in life 
In harmony with Nature to experience divine bliss to get peace ever!

For that, knowledge of Self, world, Nature and Universe are needed 
To have a whole vision of all in life and after to know one's role 
To play in the world so as to have a broad ambition, a driving force of 
Life to make achievement worthwhile possible as gratitude to Creator!

To effect this, proper planning, programming are needed to implement 
Ideas to execute plan to achieve the objective so as to attain the state 
Of Nirvana to get real freedom readying oneself for intellectual pursuit 
Of ultimate reality to attain total freedom by spiritual union in Nature!

Ramesh T A
Achieving World Peace!

Nuclear arms race has started with the end of World War II; Nagasaki, Hiroshima showed devastation power of N bombs And then on Stock piling of Nuclear weapons go on nonstop NPT and CTBT talks of world nations have achieved nothing!

Communism and capitalism continued competition in all fields; The world was divided into two power blocs supporting them; Tradition and modernity divided many everywhere in the world; Like Nazism and fascism communism and socialism played then!

From each according to his capacity, to each according to need And dictatorship of the proletariat of Communist slogans failed! Communism failed and capitalism won everywhere in the world; Rich-poor divide increased the gap between many nations then!

Creation of new society and new world of Socialism too failed! Due to rivalries the fight is between democracy and dictatorship; Due to lack of reforms, backwardness of some religions is there That provokes war between terrorism and civilization here now!

World War on Terrorism continues like a protracted guerilla war That is doing great havocs as in Vietnam, Iraq and Afghanistan In some form or other in a multiplied manner in many countries Like Pakistan, Kashmir, India, Sri Lanka, Sudan and Africa ever!

Not only Communism and capitalism and tradition and modernity But also democracy and dictatorship and terrorism and civilisation Perpetuate wars in the world making world peace a distant dream Due to sharing of natural resources and distribution of land for all!

Right, might, status quo, supremacy are the causes of wars; Poverty, inequality, ignorance are also the causes for wars; Droughts, lack of natural resources also lead to many wars; Rivalry due to religions, regions and races also lead to wars!

Socio-economic progress with world class education is needed In South America, Africa, India, Asia and the Middle East world. Infrastructural developments to provide connectivity is a must
That provides facilities to invest in on agro or fishing industries.

Preserving ecology, empowering women and self help facilities
In some nations have transformed social security towards peace.
Settlements of disputes through negotiations brought peace
Among nations too by the mediation of peace loving leaders!

Peace, unity, brotherhood and love help maintain coexistence;
International culture develops thereby based on friendship too!
By such developments one world too can be created for peace
Adopting one language, one currency and common laws for all!

Ramesh T A
Aching Joy!

For the miserable world is too much to live;
For the diseased world is heaven to leave..!
Aching joy in love and beauty one can't deny
Though it's women, Nature or Art in the world!

Pursuit of job at the cost of enjoyment deprives
Precious time in life before one realizes at last!
Time, health and zeal lost cannot be regained
To enjoy heart longings and desires at the end!

Pleasure and profession side by side need care
To make life enjoyable in the short or long tour!
No cry or anger or hatred can solve crisis late
Rather than using the remaining hour best ever!

Miraculous escape or achievement of miserable
Many a time makes enlightening reading to many!

Ramesh T A
Act Of Elimination Or Promotion Of Peace?

Weakest animals are consumed by strongest;  
Beautiful, strongest and fittest survive long!  
Elimination of the weakest is justice in Nature.  
Even in all competitions weakest is eliminated;  
Ecological balance is maintained by elimination!  
Survival of the fittest is due to natural selection.

Evolution of intelligent man is a process of Nature;  
Among them super intelligent survives against odds!  
Due to his zeal he disturbs natural evolution process.  
Now the situation is who the winner is among them  
Consisting of terrorist force and military force here,  
Between barbarism and civilisation as in the jungle!

Nuclear weapons lying in between army and terrorists  
Pose a great threat to world peace and world civilisation!  
Who is going to eliminate who is the suspense and thrill  
Unfortunately drive the world to the brink of war forever!  
Disarmament and elimination of Nuclear weapons is the  
Only way lies for promoting world peace for survival of all!

Ramesh T A
Act Of Impatience!

For whom what we do we should know forever;  
We should entertain and inspire to face all;  
We should develop attitude to deal reality, for,  
Hasty action making mole a mountain is mistake!

Good life is spoiled by wrong notion lacking  
True understanding and patience sans faith  
And suffer endless for woes with worries ever  
Blocking all routes to remorse and redemption!

It's too late, if realization comes after making  
Indelible blunder by impatience in a hurry sans  
Control over one's extreme imagination and thoughts,  
A negative deal as precaution to overcome downfall!

Act of impatience based on wrong notion in life makes  
One a laughing stock of society irredeemable ever...!

Ramesh T A
Action And Reaction!

For every action there is reaction as Isaac Newton says!
Unless there is reaction for any action or expression,
It's impossible to know and understand one's value,
Greatness and power to use it for the betterment of all!

From such reaction of any action only, it's possible to be
Confident and really free to go ahead in any venture
To influence, inspire and encourage others rightly for
Making positive changes to transform world for the better!

This greatly helps a guide or leader or poet or writer to
Know what the world likes and think of how can better
Things be done with suitable ideas to realize great dreams
For making social changes for the betterment of humanity sure!

This is possible only by constitutional rights to think, speak
And do as one likes by the freedom of democracy anywhere!

Ramesh T A
Action By All Nations As One Needed For Peace!

The world is in a precarious situation
Due to Nuclear proliferation and also
Due to terrorism still remains effective!

The single nation that needs now to be
Corrected for its madness towards all
Nuclear missiles to threaten all States!

Then, the so called ISIS terrorist group
Staying somewhere in-between Syria and...
Iraq needs to be dealt with by all States!

The time is ripe to take action on them
By the joint venture of all nations as
One to bring an end to all wars for peace!

War and peace should never be alternately rock
The Earth anymore, if united action is firm..!

Ramesh T A
Activities Around Day And Night!

From 8 to 5 everyday everyone works in many places;  
Petrol pump stallion, traffic police station and banks  
Around my place are busy with activities of men all day!  
In the night when calm returns soon dogs of war start!  
Night time road laying works start and construction goes!  
Night time working men rest in the morning time and  
Even dogs visit portico of each and every house to rest!  
Late night cocks too make crowing sound now and then  
Expecting the light of day could appear soon for its security!  
Calmly browsing over computer with my interesting work  
It is not always enjoyable due to noises of different sorts!  
In spite of that the thing I write from my heart there is  
None to care as they may be deep and difficult matters  
Difficult to digest by all except those who have experience!

Ramesh T A
Acts Of Love To Know Mystery Of Life!

Acts of Love to Know Mystery of Life!

Loving acts of friends are voluntary performance of the wishes of Hearts pure and beautiful caring only for joy in the Long journey of Life to be enjoyed and shared among themselves for the well being Of the human world forever and ever till the end of time in the world!

Masterpieces of arts and literature are the loving outcomes Of such noble ones that make the world a better place to live Enlightened and entertained with hope and aspirations high To do all best things not for now only but also for posterity!

Such great works of art inspire and guide mankind to go ahead In continuation of the already started works of probes in search of Higher truths to the origin and destiny of human life to unearth and Fathom the deep wisdom of mysterious life we have been exploring!

All things we have done so far and all things we do further are just The continuation of the past in the present aiming to the bright future To know better our mysterious life we lived, live and will live on and on In this world and other planets in other galaxies of the vast Universe!

Ramesh T A
Actual Beauty!

Beauty without love will meet with the fate of Dorian Gray!
Beauty is the outer make up to make one look better;
Actual beauty differs from apparent one in almost all cases.

Actual beauty is inner love glowing bright out attractive at once;
True beauty is inner beauty naturally impressive in all respects.

Beauty lies in the perfection of thoughts, words and deeds in all;
Beauty is truth, perfection, love, freedom, joy and peace in one!

Art is a work of beauty as adequate expression only can complete it;
Poetry is an art as it makes beauty out of chaos logically meaningful.
Architectural work of Pyramid or Pisa is a frozen beauty of symmetry!

Ramesh T A
Add Fuel To Fire!

World crude oil
Price rise adds
Fuel to fire!

Ramesh T A
Adharma Or Injustice The Cause Of All Illnesses!

Why are many people everywhere suffering in the world?  
Is it orthodoxy or modernity which is the cause for grief?  
Human life governed by dharma and culture was given up;  
Modern democratic civilisation has replaced dharmic culture;  
Economic thinking has submerged human values in the world!

Influence of Western life affected education, administration,  
Legal system and health care obliterating wise system of life.  
Education without character and business without honesty,  
Politics without principles and spirituality without humanity,  
Religion without risk and social work without morality grew up!

Way of life and duty decide about everyone’s fate in the world;  
If dharma is followed according to one’s nature one is free here.  
One has to live according to one’s body, mind, heart and soul;  
Otherwise one will face all sufferings, monotony and difficulties;  
Adharma at its peak in Kali Yuga will bring an end to mankind!

One has to live according to dharma or justice to enjoy life;  
This is the purpose of human life in the world to absoluteness.  
Economic living at the cost of human values is adharma ever;  
Adharma is greediness, sin which is the cause of all sufferings;  
Those are man’s own making, a madness of ultra modernity!

Ramesh T A
Adios To All Policies!

It's said politics is the last resort of a scoundrel;  
Politics is everything for everyone everywhere  
As politics has made corruption as culture now!  
So. politics has become the last resort for everyone!

They join political party to enjoy all benefits sure;  
Failing which they come out of one party so as to  
Join in another political party to get all benefits...;  
This has become recent culture for all politicians..!

No one bothers about policies and morality ever;  
All one needs is benefit and comfort one wants  
And whichever party irrespective of policies gives  
What they demand, they join and work sans heart!

Morality, honour and sense of shame none bothers;  
All want wealth and power sans any effort or pain...!  
Politics is the entry point to el doredo to become rich  
And so, all say adios to ethics, norms and policies ever!

Ramesh T A
Adjustment Is A Must To Live Life!

What can we say about a person who acts as if sleeping
But not sleeping just to avoid those want to wake up?
In the same way, could it be possible to win in a big
Argument with an idiot who won't listen and understand?

This is what one has to tackle everyday with such guys
In a joint-family life we have to live due to tradition
Of a community that has to live in a new place after
Making migration from another place invaded by outsiders!

Best course of action is to avoid confrontation and leave
Management of joint-family with non-believers to handle
Matters to learn insight of outside world transactions by
Receiving head knocks and body wounds from public people!

Both in joint-family life and nuclear life, there are many
Benefits and drawbacks one has to adjust with to live life!

Ramesh T A
Adjustment Is The Rule Of The Day!

Lopsided economic development has divided society;
Gap between rich and poor increased creating extremes;
Jealousy and anger of underdogs have turned violent
Making the world a war field to fight between two always!

Economic development sans thoughts on social development
Has created society inhuman, ruthless and inimical always!
Religion and orthodoxy fuel the burning hatred to state of hell
Making the world a volcanic hot bed ready for big eruptions!

Problems of regions, global warming and droughts hit all;
Dwindling of energy levels kindle minds to look for alternatives;
Advanced nations blaming developing ones and vice versa
Have become the daily chores of the world in all forums now!

In this tight set situation adjustments of the nations are the way
That can settle all matters benefiting all in the due course of time!

Ramesh T A
Advance For Good Only!

Bizarre signs of fertile lands of crops,
Sudden crashing, burning of flying objects
Certainly are the evidences of Aliens!

They have been visiting Earth since decades;
Perhaps they would be knowing us since long
And it’s time Earthlings should over take them!

As Stephen Hawking says they could use our planet
For the sake of utilising Solar energy for space venture;
Man would be a dwarf before the giants then here!

Computers and micro chips are inventions due to them
And space shuttles are too developed due to them;
Otherwise we would not have waded through superstition!

Now man has to save Earth against pollution and Aliens
By updating technology for advancement for good only!

Ramesh T A
Advancement Of Aliens!

Dwarf like alien with goggle eyes
Looks like a strange creature ever;
Its big head gives the impression
That it's full of advanced knowledge!

That's why they could have built huge
Buildings and pyramids both on the ground
And under the ground, when we see tunnels,
Caves and cities of ancient civilization!

This gives the clue that surely they may
Be living in the dark side of Moon and
Also, under the red soil of Mars planet
Neeing to be explored on Space voyage!

Our science and technology is a big boon;
But our advancement is nothing before aliens!

Ramesh T A
Advancement Verses Natural Disaster!

There is calm before storm and peace after storm!  
But if there is earthquake, tsunami and volcanic  
Eruption one after the other, place will be surely  
Destroyed and people will be buried alive in lump!

This is the reality we see now and then and feel  
Pity about our science & technology development  
That cannot say any warning and way to stop them  
Making us still have fear as man was in the past!

Are we really advanced and developed by knowledge  
We doubt when we see natural disasters bringing  
Greatest tragedy to mankind reminding of their  
Greediness and ignorance despite a lot of learning!

The vegetable of book cannot be useful for food;  
Learning sans training and experience cannot be  
Helpful to swim when boat is drowned by some bad  
Misfortune if we feel proud of learning sans use!

Ramesh T A
Advancements Of Ancient Astronauts!

Ancient art of drawing pictures inside cave walls,
Beautifully carved statues depicting various news
Catering to the needs of researches are a wonder!

Delightful life and activities of ancient people are
Encouraging speculative experts to say of aliens
Full of astonishing feats they had achieved then!

Giants, aliens, greys are how they are categorized
Having incredible advancements being depicted
In various caves and under pyramid structures too!

Joining all towering pyramids they form network
Keeping energy quite consolidated to a great power
Linking for their requirements look amazing now!

Many mysteries hidden underground of them are
Never seem to be unearthed by our scientific feats
Opening up new areas of search to know Universe!

Pyramids of Egypt, South America and Mexico are
Quite a puzzle to solve yet when we see inscriptions
Rare and advanced more than we have done so far!

Star gates they have found out on the top towers
That helped extraterrestrials to go to all constellations
Universe is composed of, we now arrive at on research!

Various kinds of information about their advancements
World over relics of past put us in great wonder forever;
X factors, x men and all we are imaging to know truth!

Years of investigations, researches, etc. give new ideas;
Zeal of thinking on a lateral way put us in amazement!

Ramesh T A
Adventure In Thoughts!

Amusing thoughts of love and beauty loom
Before I get to sleep after midnight daily
Caring little for the time passing fast so...!
Decorating my poem with words starting
Easily from each of alphabetical letters....
Fully engaging the mind till the last one!

Gathering random ideas in logical order
However easy or difficult the exercise is
I go on writing many lines to make full
Joining all ideas in nice sequence ever
Keeping the rhythm and tempo on track!

Love of beauty expressed in words always
Make me forget myself as all artists do...!
Never I jump to abrupt conclusions about
Or for anything great or small my analysis
Particularly is as far as poetry is concerned!

Queries and questions I try to find answers
Reacting for and against ideas that develop!
Sustained efforts so sometimes bring wonder
Treading carefree on my great ventures so!

Universal truths spring to my mind's eye
Verily putting me ever in amazement long!

World of beauty and love of truth absorb
X factor or men or whatever it is before us;
Years of search and researches bring pearls
Zeus perhaps has destined me to have them!

Ramesh T A
Adventurous Knights!

From Arthur's time on knights are renowned;  
Chivalrous knights and romance make fine  
Adventurous love stories to read and enjoy!

Musketeers make meritorious job in France  
And that captures my heart to muse much  
In the context of modern times too very often!

Noble personalities of high mind ever for justice  
Do jobs with devotion all have to learn and imbibe  
To make nation and world a better place to live!

Friendship of noble knights create Halo forum  
Similar to that of our modern United Nations  
To safe guard the world humanity to live in joy!

Such musketeers surely could be speculating ever  
To make adventures as knights for a better world!

Ramesh T A
Advertisement!

Every trade has a trick of its own for global survival;
For every trade only advertisement introduces goods;
Advertisement creates interest and makes a necessity of
All goods to the world which are otherwise unnecessary!

A vital role advertisement plays in all trades of the world;
Advertisement gives the knowledge and brainwashes men
To buy global goods of a brand with guarantee for durability
For a long period and makes the brand come to mind first!

All newspapers and magazines run mainly by advertisements;
TV programmes and Computer websites abound by them;
More than main serials and news advertisements catch attention;
And the time is taken more for them than for other matters!

So, nook and corner advertisements catch the eye of all categories;
Whether they see them or not it is immaterial to the programmers!

Ramesh T A
After a long night of dream full of mystery
Blooming flowers of thought wake to life
Clearing all knots one after the other well!

Misty morning just after day break is cool
With bright Sunshine peeping through clouds,
A state most apt for a poet to compose verse!

Watering the garden of flowers day begins
Warming up worn out soul to brisk activity
With a hot beverage finished before day news!

Usual busy town slumbers by the winter time
Drowsiness making all succumb to easy routine
Rather than thinking of heavy problems to solve!

Musing over all poet turns to Nature for relief
Staring at clouds and colours of sky beautiful!

Ramesh T A
After A Storm....!

A few hours' storm causes a lot of changes
Destroying and dislocating things all around!

A recent storm has grounded an oil ship....;
Ten days some four tugs are involved to lift
Four metre sunk ship and drag to the sea...!
Ship is first turned from 192 deg. to 100 deg.
Towards the sea ship is then dragged for good!

Successfully ship is now gone to the deep sea
After draining 10,000 tons of water from it!
This is the local news that catch all attention
And people heaved a sigh of relief in joy......!

Being a festival time and holiday too all are
Waiting and watching lifting and dragging of it!
Now the mammoth is on its way out free....!

Ramesh T A
After Effects Of New Year Celebration!

All over the town only darkness and silence are there in the night
Because of closure of all shops, hotels and restaurants after the
Celebration of New Year parties with the resolution to follow ever!

Delightful time spent so, all are with whole satisfaction in homes;
Every celebration of functions on anything goes on so and ends so;
Festivals next coming all have in mind to push the days in dreams..!

Great or small, sans fun as in festivals, where can humanity enjoy
High level life with friends, dear ones and all in this world ever
In grim threats of terrorism and violence due to some problems...!

Joining hands with like-minded persons, all get confidence and hope;
Keeping in touch with all even after New Year celebration is good;
Love, friendship and rapport with new ones too pave a good way long!

Many things good and bad may be happening in world life for long, but
None of those things remain in mind and heart expect good things we
Openly enjoyed with our fellow beings on best world events anywhere!

Persons of romantic minds enjoy whatever moment of joy in life sans
Questioning the benefit or profit, but only seeking satisfaction in fun
Reacting not in a negative wary, but only in the positive way for peace!

Social celebrations of New Year, Valentine's Day or Holi or Dwali have
That unique aspect to unite all diverse kinds of humans as one family
Usefully and helpfully in cooperating and coordinating for common good!

Various methods all follow to make all forget differences for one cause
With which all have great interest to implement best ideas to achieve all
X or Y unsolvable matters standing as hurdles on the way to progress..!

Years going on sans any thaw on rigid stand taken by differences of opinion,
Zeal of celebration of New Year puts an end and opens a new way for joy!

Ramesh T A
After Effects Of Shocking Experience!

Some mishap or unsettled way of life of a member in family
Creates deep dent in the minds of all members for longtime
Making them have nightmares and spend sleepless nights and
Provoking them go for entertainment or tours to places....!

To bring about a better change in the family, they try for
Settling the life of another member by marriage later on;
But by extreme imagination they jump to wrong conclusions
Breaking the union of couple very soon making life a hell!

Depression of a member becomes lunacy according to their
Mental manipulation and initial impotency of one to due lack of
Mood for cohabitation, when everything is hurried by negative
Thoughts of the family in general, leads to litigation and divorce!

Steps taken for the change for the better are scuttled by
Mental shock of earlier one due to impatience and irresolution
Caused by lack of faith, too much extreme imagination and
Negative thoughts with the view to overcome mishap again....!

aa

Ramesh T A
Against All Odds And Fate!

Against All Odds and Fate!

All things when go on uncontrolled, what can be done under hot sun?
This is the position today, when current has failed and internet is not working;
Staying in an out of station place nothing can be done except watch and wait;
Only after sunset, situation has come to normalcy to have access to browsing!

Everyday something extraordinary happens making us held up from our usual activity;
Only when the situation is favourable to us we can go ahead with our thoughts;
The things that can't be done earlier, how can we think of overcoming it?
There is a time for everything to be done in this world and it is true in my case!

Perhaps God is playing with my resolution and concentration in my persistent work
To see how far I am able to accomplish my thoughts into action like writing and so on;
Always there is a limit in all matters man ventures in this world full of scope and drawback;
But where is the limit for the writers and that too for the poetry writers in the world?

Somehow poet has to convey his matters with the available words and time
To fulfil one's work of destiny against all odds and fate to be self satisfied sure!

Ramesh T A
Age!

Mind is fast
But body is slow due to age
It's called old age!

Ramesh T A
Ageless Lovers!

Love statues
Are ageless in love
Depicting lovers!

Ramesh T A
Agony And Ecstasy!

All sufferings and pains make one seek pleasure,
The soothing balm that relieves one from all
Pangs, agony and distress to pleasure of ecstasy!

Love is painful pleasure that only drives one's life
Making it enthusiastic like the squirrels enjoy fun
Starting form the morning to evening all day long!

What a pleasure love gives when one is in distress
Untold by words and that an intimate soulmate
Who appears from the blue like a bolt to untie all!

When the passion of two soulmates couples like
The rain clouds that fuse in bursts pouring rain
Heavy with lightnings and thunders creates wonder!

As night is there to accompany day, pleasure is there
For pain and ecstasy is there for agony one undergoes!

Ramesh T A
Aids

Cautionless sex
Sure way to HIV positive
It's AIDS!

Ramesh T A
Aim To Achieve All In 2017!

However tried, time is not enough in a day;  
Engrossed in work, all live as islands ever  
No way to meet all friends and dear ones!

Seeing favourite ones and the outside world,  
It is like seeing light at the end of the tunnel  
Being engrossed in the den of work forever!

All our dreams and visions are hidden inside  
Our hearts waiting to be executed with ideas  
Overcoming all hardships of realities we face!

We have to live our life we love much in dream;  
Many years come and go, but our aim shouldn't  
Be out of focus to realize our dream we love most!

Discarding the dress of 2016, let us all wear a new  
Dress in the New Year 2017 with aim to achieve all!

Ramesh T A
Aim, Ambition And Goal!

Bullying and kidding provoke wrath;
Reaction adds fuel to fire to big level!
Patience and silence are wise actions;
Wisdom is diversion, not direct focus!
Minding one's business is better ever;
Barking dogs never bite, all know....
But silent dogs are dangerous ever!
Good or bad, always doing good is fine;
In the long run patience pays rich dividends!
Concentration should be directly on goals
As there is always slip between cup and lip.
Aim, ambition and goal should the same;
Thoughts, words and deeds should coincide
To translate our dreams into realities ever!

Ramesh T A
Air France Plane Crash Mystery!

Air France plane crashed into Atlantic Ocean
Flying from Brazil to France near an island!
From the Southern to the Northern hemisphere
It was a risky air travel for many on the ocean.

Even advanced operating systems can’t cope with
The sudden lightning and thunder storm in the sky!
Nature seems cannot be vanquished by Science at all!
Technological advancement is nothing before Nature.

Missing plane was a mystery both for France and Brazil!
Lightning falling on the electrical system exploded plane;
It was believed and reported in both the countries first.
But what actually happened nobody will know forever!

4200m the Atlantic Ocean has depth there it was found;
Going so deep and searching plane and other matters
Seems to be very difficult and impossible venture still!
So, this misfortune leads to think about other mysteries.

Planes and ships vanishing near the Caribbean islands
Some years ago without any clue became a big puzzle!
No traces of such happenings were unearthed so far and
That famous Bermuda Triangle mystery still continues!

Not only in Atlantic Ocean but also in Pacific Ocean area
In a spot called Devil Cave the danger of such like things
Also have been noted by the observers of ocean mysteries
Making South China Sea famous for that in the mystery list!

Ramesh T A
Alchemy!

Contention of heart
Is the gold making medicine
Not Alchemy!

Ramesh T A
Aliens And Ghosts!

Ghosts of the past have become aliens of the modern world!
Activities of ghosts known before are the activities of aliens now;
Fantasy of the past has become scientific phenomenon now!
Science has taken the realm of ghost world to rule minds of all!

UFOs and flying saucers appearing and disappearing in the sky
And aliens visiting some parts of the world are amazing hoaxes!
Yet searches with the available evidences efforts are made now
To meet the aliens someday and experts like to visit other planets!

With the change of time surrealism is becoming realism for query
To be answered by further exploration in astrophysical searches!
Martians of the red planet believed to be warring beings disappeared
And a new hoax, Demo planet gold men seems to gain ground now!

Ghosts or aliens or energy quanta replacing spirits in some forms
Are mind-boggling matters of science for the ESPs to find out now!

Ramesh T A
Aliens!

Aliens are indeed
Not aliens anywhere here
But neighbours are!

Ramesh T A
All About Love!

Can there be love without lust?
Are love and lust interconnected?
Can love and non-attachment go together?
What can we say about love eternal?

Is universal love called platonic love?
Is platonic love living only in friendship?
Can there be love without friendship?
Can a decisive definition for love be possible?

Elders’ love of children is unique;
Fathers’ love of daughters is nice;
Mothers’ love of sons is universal;
Love of boy and girl is wonderful!

Man and woman love each other perfect!
Romantic love between them is story
Full of fun and pageantry in literature
That develops love between lovers ever!

Mystery of love at first sight can’t be fathomed;
Matter of emotion is beyond the scope of mind;
Emotion and spirit are beyond the realm of mind;
Emotional feeling of love overshadows mind ever!

Sans friendship and friends love develops uniquely
And solves many unsolvable problems despite enmity
Bringing eternally broken relationships to life again
And which is why love is the greatest wonder here!

Love is selfless whereas lust is selfish in life;
Love may be partial but never intends to harm;
Love bears all pains to see the object to be happy
And makes matters successful for the loved ones!

Friendship nurtures non-attached platonic love;
But love transcends all relational bonds in life
Elevating it to the level of divine on the Earth
And makes life sustainable against all odds ever!
All Absorbing Dance!

Making movements according to music is dance;
Beautiful gesture in dance absorbs all audience;
Dance art form is a wonderful entertainment
Where song and music make all shake body…!

Forgetting oneself in a group dance is indeed fine!
That takes one to a world of dream quite amazing
And relieving one from all mental bondages sure
At least for sometime paving the way to rejuvenation!

A real change of mood dance brings making ease
All difficult things and lightening heart in music
To the extent of dancing along with group dancers
Entirely transforming to a new state of liberation!

What a wonder dance art form helps humanity
Perform work with no strain or monotony ever!
As in a joyful play dance turns work to do sure
When both ladies and gentlemen join together!

Ramesh T A
All Absorbing Love!

Due to love only many are doing many things
Interesting or not to keep life go on tenderly
Making life livable in this world of tension!

Love never denies happiness though difficult
In the beginning for many to understand
The safe and long course it desires for all!

The smooth journey of life relies on softness
Love relies on as tender as flower petals
Making rough and tough finally fine ever!

Love is culture based feeling unlike civilisation
From the inner core of heart to whole stature
Creating beauty that humbles all pride of all!

Love lives on a sense of goodness, truth and beauty
But not on wealth, pomp and pride unreliable ever!

Ramesh T A
All Are For Benefit Only!

No one undertakes to do anything sans benefit;
All think it's a worthless thing, if there's no benefit;
Sans personal gain, no one goes on any venture;
Sans short term or long term benefit, none moves!

All venture out only for some valuable object available
In the form of precious prize or big money as reward;
Even sans incentive, no one does usual work too sure;
Otherwise, no one gets interest to do anything ever!

This is because of no purpose, aim or ambition in life;
sans knowledge and know the know-how to do work,
One cannot do any useful work and sans doing work,
There's no chance of earning money for survival ever!

Many educated unemployed are there due to this crisis;
This is due to lack of vocational education system being
Followed as a consequence, education has become a
Commercial activity to produce graduates unemployable!

Education sans training in agriculture, industry and army,
No one can pursue anything worthy one after graduation
To have benefit for survival or achieving one's ambition
In some field whether one gets big or small benefit in life!

Ramesh T A
All Are Illusion!

Tropical storms either from Atlantic or pacific ocean
certainly brings heaviest havoc to America or Japan
Besides attaching Philippines and Indonesia often sure!

Due to exploitation of natural resources and pollution
Summer temperature has increased by 2 degrees leading
To depression in the oceans triggering storms dangerous!

Not only that earthquakes, volcanic eruptions and tornados
Cause heaviest damages besides heaviest rains and floodds
Destroying properties and lives everywhere in the world!

Earth is just a bubble like other ones in the ocean of
the Universe that may collapse any moment due to some
Irregularity happening in Sun of Solar system someday!

Then not only human beings but also Earth and all planets
Will be illusion, when destruction occurs to all suddenly!

Ramesh T A
All Are Not Bad Or Good Before Turning Into God-Men!

All sufferings are due to changeless attachment to things of desire; Beyond recovery, many are attached to amassing wealth to enjoy lust; Carelessness and laziness are what they get affected first before fall; Downfall of great empires are due to arrogance by wealth and power..

Early inheritance of wealth makes all be lavish and luxurious in life; Fooled by shortcut route to earn wealth further, puts them in danger; Greed, desire and overconfidence lead them to abyss via pitfalls ever; Having none to rely on, they get caught in the net of rogues to death!

Intelligence and intellectual quest may make them realize life dangers; Just by fluke chance getting interested in knowledge, some may escape; Keeping touch with acquired knowledge, if they have a good mind, it is Likely that they save themselves from dangers by the love of good ones!

Most of the time distracting elements and diversions make them fed up; No contacts with good people drive them to hell except some exceptions; Overwhelmed by flattering friends mostly, wealthy ones lose all in life; Persons of good heart helping them by chance may change their life well!

Quest for knowing the truth makes some think about their faults sooner; Right thinking helped by loving persons return them to like good things; Sunshine then in their life will pave the way for progress to greatness; Trust of reliable things in life eschewing attachments they help all..

Universal love if so develops in them, they by social service go high; Various ways of services if they put their wealth in, they are worshiped With world wide support and love and even make such ones as God-men too!

X and Y such turned men like Buddha and Gandhi people worship as Gods..; Yesterday, today and tomorrow such gold men appear once in a while only; zest in stories of such great souls may turn many bad ones into good ones!

Ramesh T A
All Avatar Poetry!

About many things many have written;
What new things are there to write, none,
I am sure, can tell at this stage as it's so!

Writing books takes months and years!
Writing magazine articles too takes time!
But news papers write acres everyday...!

Likewise, can poetry be written by all here?  
If so, it will become only journalistic poetry,  
But not a wholesome poetry in the real sense!

Now writing poetry has become an art that  
Combines all forms of writings into one and at  
The same-time satisfies as new poetry all like!

Only poetry is eternal that takes all avatars  
To express ideas satisfying as nothing can ever!

Ramesh T A
All Belong To One Humankind Despite Differences!

Unity in diversity is possible by coexistence respecting all cultures
Besides differences in all languages, creeds, colours of all ever!
When world itself is one family according to Hindu philosophy, how
Can all be different by diversities except Indian living in one nation!
In the same way, even though there are differences in cultures,
Colours, creeds, races, etc. all belong to one humankind in one
World on the only one living planet called Earth in the whole
Universe despite there are a lot of Stars and planets in the Space!
All visible differences are not seen inside everyone as far as blood,
Bone and flesh are concerned as they all belong to same kind of Homo
Sapiens called humans whether they live in the North or East
Or West or South or in Northern hemisphere or Southern sphere!
So, respecting each other’s unique natures and cultures all can live
Together in coexistence as all belong to one mankind in one world!

Ramesh T A
All Diseases By Pollution!

Pollution is creating perplexing problems to all world people; People are often affected by cold, cough and dry throat due to Allergy caused by air, water and environmental pollution ever!

Pollution caused by smoke from vehicles, industries and green House gases such as Chlorofluorocarbon, carbon-dioxide, carbon Monoxide and other poisons gases create health problems to all!

Not only that but also industrial effluents mixing with rivers, Dams and seas cause extinction of marine life due to contamination And also make them unsuitable for drinking or for any other uses!

Due to polluting gases produced everywhere, greenhouse effect is Ever bringing in clouds trapping Sun's heat inside so much that Heat becomes hotter and hottest changing the climates to havoc!

Also, pollution by poisonous gases creates holes in atmosphere Making Sun's ultraviolet rays strike earth to create all diseases!

Ramesh T A
All Dreams Come True!

Dreaming thousand things as in romance
Days go on with positive zeal for some!
But for many fear of death lurks ever
As if it will strike tomorrow sans sure!
With broad dream and love days go on
For the positive minded men of zeal!
All golden time they enjoy sans fail
And achieve goals noble nobody knows!
Acts of direct approach with dream in mind
They deal matters with sure hope ever!
The results too come as to their wish
As the approach is based on facts correct!
Clear thoughts, sure efforts and positive mind
Make men achieve laurels as to their dreams!

Ramesh T A
All Embracing Poetry!

What kind of poetry does engage all complete?
Only love between man and woman in romance?
Only beauty of Nature in all its splendour forever?
Only philosophic ideas enriched in poems ever?
Only journalism, philosophy and poem altogether?
Only spiritual ideas of God or Universe in a new way?

So many questions crop up every day to find one
Poetry that will absorb all forever and enrich mind!
Have anyone discovered such poetry so far...?

Divinity present in Nature kindling romance of
Love of high state of mind perhaps may do so ever!
Comprising of all ingredients I try often to create
Poetry of an irresistible kind for all to consume ever!
Journalism, philosophy and poem in one I feel better!

Ramesh T A
All Fools Day!

April 1 is all fools day!
A day all are fooled
By enticing them
On things irresistible!

But now everyday
many are doing this
To attract and deceive
The innocent people!

Don't be innocent idiots;
Don't be crazy of things;
Don't rely on trivials;
Don't feel sorry later!

Don't take anything seriously to suffer;
For, failure is stepping stone to success!

Ramesh T A
All For Money, Of Money And By Money

Everything is going on as business as money has become part
And parcel of human culture for everyone in the modern world!
Business and money are marks of human civilization, no doubt;
But civilization sans culture sans love, knowledge and service
Certainly ransomed human value only for money transcending all!

Whether it is hospital or temple or education or any service,
All go on only for money as is done in cut-throat business race
Making human being just as any other commodity or machine sans
Soul, heart, mind and body but just a business product for sales
And service going on in the competitive business everywhere..!

Even the surface show of love is for catching business for
The product or things for making instant money by any means
Possible so that the monopoly in business can be established
by a company in the world level, not only that, they are even
Ready to go in the animal level of sex to succeed in business!

Whatever be the field of social service for self satisfaction or
For humanity, it is performed as in business for money, by money
And of money and even spiritual pursuits or literary works by all
Writer and poets for spiritual satisfaction to attain fulfilment!

Ramesh T A
All Forms Of Love!

Love differs from person to person in the world;
Love has many meanings needing tactics to know;
Affection, devotion, companionship mean love only!

Love between girl and guy is known as romantic love;
Love between two friends is known as friendly love;
Love towards all is known as Universal or Platonic love!

Love between parents and children is natural affection;
Love among brothers or friends is friendly love only;
Love between leaders and people is only Platonic love!

Love between man and animal is humanitarian love;
Love between man and God is (devotion) awesome love;
Love between God and man is all in one Universal love!

Affection, attachment, devotion and liking are all love only;
Beautiful and best things done selflessly is mark of love only!

Ramesh T A
All Glitters Vane!

Fast poets eat brain
Of great dreaming poet,
A Wordsworth friend!

Readers too amazed
Appreciate them openly
Not knowing truth!

All that glitters
Cannot be gold ever
As time passes on!

Immortal words
Of great ones last longer
To guide all ever!

When the fun goes
Glory of fast ones recedes
Without imprint!

Fun is just taste
But food is strength
True poets give!

Great one entertains
Also inspires and enlightens
For all to shine!

Great poet rules
Minds of all world men
Though not praised!

Ramesh T A
All Goes Well!

When all have gone awry
God's grace leads life of all

And all goes well too!

Ramesh T A
All Green Eyed Monsters!

Beware! Jealously and Envy!
They are the green eyed monsters
Destroy all goods!

Ramesh T A
All Happenings!

I have returned untouched by rain a bit;
God has waited for rain to fall after me!
What a great friend God is to do so!

No symptom of rain when I was outside;
I never thought rain would come at all;
But it rained for an hour with full force!

Days are bright and hot with clear blue sky;
Evening cool breeze keeps all fresh ever; but
Night nobody knows what will happen sure!

Every day goes on likewise since a month ago;
Fortunately it did not rain when I was out of station
And all my programme and works were well done!

All happenings make me think of the work of God;
Life goes on the path of God sure I feel very often!

Ramesh T A
All Ideas For Progress!

Words said are taken in different ways;
If they are politicized, there is no end..!
According to the narrow minds of men,
They are all twisted beyond recovery...!

Free expression of ideas has to be done
With care and caution to avoid twists
That create various dilemmas in all circles
Leading to meaningless twists and turns!

Ideas are floated to promote better thoughts
To make the society develop for attaining
Better standard to live better than before in
This world full of opportunities for progress!

Leftists go straight forward by progress ever.....,
But rightists always go in circle moving nowhere!

Ramesh T A
All In All!

Flowers invite me with smiles!
Fragrance induce me to love!
Breeze soothe me fresh!
Stars wink eyes at me much!
Feast goes on with slow pace!
God only knows the end of bliss!
We all live in the bubble world
Believing this life to be all in all!

Ramesh T A
All In Heart's Desire!

In summer all long for cool climate of winter;
In winter all long for warmth of Sun of spring!
It is human nature one longs for one or other
And even if one gets that one needs another!
It is heart’s desire and its satisfaction settles all.

Ramesh T A
All In One Poet!

Leader or teacher  
Having all in one  
Is a great poet!

Ramesh T A
All Is God's Place!

Temples have immersed
In the concrete jungles of the town
As God is everywhere!

Ramesh T A
All Is Well That Proceeds In Love!

Hand-shake welcome leading to welcome hug turns acquaintance into friendship;
Welcome hug slowly leading to welcome kiss blooms friendship into love
Between a pair of souls made for each other in the life of the world full of romance!

This human relationship paves the way for the creation of many love stories in literature;
The arrow struck heart of star crossed lovers is depicted by artistic skill thereafter everywhere;
Romantic love turns into divine love from human to divine stage then in harmony with Nature!

Romantic love turning into love of humanity by maturity of self is universal love in history;
Such a love when socially spread by preaching becomes a religion for humanity to follow;
Faith based on truth arrived at by intellect is the work of philosophy that enlightens all!

Religion sans science is blind superstition and science sans devotion is inhuman;
Advancement of technology and profit motive monopoly are selfish adventure sans sense;
Senseless inhuman pursuits never flourish human life of love but only hatred to destruction!

Anything done sans love and devotion in the world is only heartless venture in vain
And the result will be bitter fruit of labour no one can enjoy to achieve fulfilment in life!

Ramesh T A
All Love Only

As fresh flower love cheers up the mood;  
Never love bores in life being a life force!

As flower of nectar love waits for the guest  
And the humming birds suck honey happily!

As the fresh water spring love never dries up  
And generously love irrigates for rich growth!

As blue sky with colourful clouds love beautifies  
Whatever work it indulges in for the joy of fullness!

As deep blue ocean love has a world of wonder  
For many species to thrive on eternally in joy!

As sparkling diamond Star of love shines bright  
In the night life of gloom to give solace and power!

All embracing love is indeed a Universe eternal  
Infinite in inspiring, energizing and influencing all!

Ramesh T A
All Matters Revolve Round Beauty!

Danger is lurking behind the shadow of beauty in the world;
Just beauty is not enough, but also clever and intelligent
Personality is what needed to save one from all troubles!

Beauty attracts the eyes of all and catches the hearts of all
And kindles desires of all to enjoy beauty at any cost forever
Making one mad to pursue beauty by hook or crook to satiate self!

Beauty lies in the eye of the beholder though nothing for others;
A thing of beauty is a joy forever as it has the power to make
One forget one's drawbacks in life and have inspiration to win..!

Beauty sways heart, mind and soul to love art, Nature and human
Urging one to excel in all one's ventures to get the praise of
Beauty, which is the object of love in one's world life forever!

Beauty like love is the cause for the beginning of all matters
And issues, upon which all stories revolve round as Earth to Sun!

Ramesh T A
All Night Festivals!

Every night is a Shiva night for me!
What does it mean? Many wonder!
It means I wake long in the night!

All festivals are celebrated in nights;
What is the significance in the nights?
Burning lights spiritually all pray well!

Festivals tell the message of truth to all -
Light against darkness for truth to triumph
For the survival and sustenance of good ever!

Festivals of Dusserah, Diwali and Shiva rathri
People joyously and long in the nights celebrate
And the spiritual satisfaction they get is enjoyable!

To know the significance better wake all night,
Which is the way to find the truth for the better!

Ramesh T A
All Persons And Nations Are Equal In The World!

Democracy is accepted by many nations of the world and 
Other isms following countries too change to democracy!
Male chauvinism and feminism have become old fashion now
As equality of man and woman is recognized everywhere..!

By Nature, man and woman are made for each other sure...;
Realizing this fact, both should shed their egos out and
Get together as equal partners of life, friends and lovers
To change the diverse course of life to good human life..!

Wars against injustice is necessary, but when a matter can
Be settled by talks and negotiations, it's wise of opt for
Peace whether it is the dispute between nations or fight
Between the superiority of male or female in the world life!

By unity and peace only, our only world can be saved from
Destruction by Nature due to man made pollution or by the
enmity between persons leading to protracted tussle of no
Use, when love is the best means to settle all matters well!

Ramesh T A
All Players Of The World!

World is a stage where actors play various character roles;  
People are the audience who witness and comment on it;  
And critics say good and bad of it to make it popular ever!

Religionists live preaching philosophy to the people forever;  
Politicians live making news for all to comment and criticize;  
Journalists live writing headline news about them everyday!

What the doctors bury in the patients by operations long.....  
And lawyers hang the clients by court arguments endlessly  
Journalists expose them as headline news on the newspapers!

No one should hide secrets to the doctors because they save life;  
No one should hide secrets to the lawyers because they save life;  
One doesn't say secrets to journalists because they expose as news!

Creative artists express new ideas, thoughts and images for all;  
Taking that, scientists invent new things to benefit humankind!

Ramesh T A
All Solving Romantic Love Of Life!

Romantic love changes the course of life in the world; till its magic touch of love, nothing seems to be well With one who has no liking for anything whether it is Food or life matter or taste or world life sans zeal..!

One who looks for perfect taste in food, matters only having interest and all matters to be interesting ever, After falling in love, everything is okay in world life; What a spell this romantic love has over world humans..!

Love only solves all matters whether they are bitter or Sweet or painful or full of pleasure and makes life ever Tolerable despite its Janus kind of two sides in one's life One has to take in a balanced way to wade through all ills!

Romantic love is a boon for all people to overcome all... imperfections in all things of world life in human society!

Ramesh T A
All Struggles Are For Freedom!

Where there is freedom, there only joy and pleasure prevail
To make life proceed with love, bliss and satisfaction ever;
Freedom only gives confidence, courage and endurance to do
Anything one likes against all deficiencies or difficulties!

First struggle of people or individual in any nation is for
Freedom only as that only can provide all to do all ever…;
All hardships and difficulties faced by all are to get the
Feast of freedom as the price for all sacrifices all make..!

Food, education, job and comforts are what all try to have
To make oneself free from pain and agonies to enjoy pleasure
And ecstasy in life to be really happy and joyful in all
Things one does according to one’s wish in full power sure!

Not only physical and intellectual freedom, but also spiritual
Freedom are needed to have nirvana state of total liberation!
That is why all struggles of men go on endless in the world
Until true freedom is achieved to leave the world free sure!

Ramesh T A
All Symbols Are Metaphors Of Life Poetry!

Free flying birds are the symbol of freedom ever;
Smiling fragrant flowers are the symbol of love;
Vast blue sky is the all pervading one Almighty;
Deep blue sea is the mystical fantasy to explore;
Night sky of stars is the dream world of heaven;
Green pasture of flowers and fruits is paradise;
Snow mountains, hills and valleys are stair steps;
Water falls, rivers and ocean are the path to all;
Long deserts with a little oases are a place of hell;
Furious eruption of volcanoes are towering inferno;
Storms and cyclones are symbol of wrath of Nature;
Moonlit night is interlude between hell and heaven;
All the symbols are the metaphors of divine poetry;
Nature and humans are inside and outside of life!

Ramesh T A
All Teachers We Cherish!

Nature is the first teacher for everything to everyone;
Things happening everywhere teach us many lessons ever;
Experience in life give us lessons unforgettable forever;
Father, mother and teacher teach us all by their examples!

Bramha the creator, Vishnu the protector and Siva the destroyer
Are the divine teachers eternal all have to worship forever;
Saraswathi for all arts, Mahalakshmi for all wealth and
Sakti for all power to do all we need for all in world life!

Knowledge of this world and other world we get from them
And all who give us new ideas to create, invent and live
Are all the best teachers we all have to cherish ever for
Our great efforts, survival, sustenance and success in life!

World is the training ground, from which we grow physically,
Mentally and spiritually to be perfect and complete in all
Respects to live a full, whole and complete life in this
World we are born to do all and to die after a wholesome life!

Ramesh T A
All Teachers!

From mistakes we learn lessons;  
By learning so we gain experience!  
Experiences make as a philosopher;  
Philosophy gives us wisdom ever!

Wise man learns from mistakes of all;  
All are in that respect teachers to us!  
Mistakes, experiences, philosophy  
And so on are all teachers in life long!

Keen observation of surroundings is  
Surely of great help to know truth and  
If we see from above and away from  
All circles we know what reality is!

Teachers may be brilliant, foolish or wise;  
But lessons give us knowledge and wisdom!

Ramesh T A
All That Glitters Are Gold!

Many believe that glittering things are gold!
Money payers are greatly respected here...
Not knowing that he is just a manager or
A Cashier of a firm owned by somebody else!

The creator or the power behind all activities.....
Mostly invisible many believe doesn't exist at all
In this world that believes only the visible things
But not the one activating everything everywhere!

However, the magnanimous one greater than all
Simply keeps quiet and witnesses all with a smile
And enjoys the fun playing as if he is nowhere and
Nothing in the drama of mankind since long ever..!

In this world that boasts much the acts of publicity
Rather than the silent achievers in any field ever...
Has no chance of knowing the truth, the full truth
And the whole truth and ever goes by illusion sure!

Ramesh T A
All The Same!

Melting ice is joy for the snow haters;
Rain in summer is joy for sweat haters;
But poetry makes one forget all as solace!

When winter comes all want spring;
When summer comes all want rain;
But year goes on through all to finish job!

Seasons may change but Earth is the same;
Day and night come and go but life is same;
Joy or sorrow taking both same way is wise!

It's human tendency to long for what is not there;
It's human weakness to love when they get all;
And hate when they don't get what they want!

Opposites are two sides of the same coin here ever;
Love and hate as day and night are of the same world!

Ramesh T A
All Things Of Dreams!

Desire, expectations and interests mould matters in dreams;  
What is not possible in reality is possible always in dreams!  
What was not possible in the past is possible in the present;  
What is not possible in the present will be possible soon!

Intellectual thinking and intuition form into great dreams  
And many dreams have been accomplished as inventions!  
Perhaps due to this even life also looks like a romantic dream!  
Life begins as a dream to start with and completes in reality!

Dreams make man relax from tensions that build up all day  
And give relief along with sleep before another hectic day!  
All great poets, leaders and reformers are all great dreams  
And dreaming about future they all inspire all to achieve all!

Dreamers are great thinkers to get ideas to realise dreams;  
Buddha, Newton and Rousseau realised dreams differently!

Ramesh T A
All Things Of Joy!

All things that bring joy all love to do in the world ever
Whether it's arts or science or religion or philosophy or
Poetry or mysticism or aestheticism or criticism or politics!

Beauty in arts or poetry or science attracts all, sways heart,
Brings mood cheerful and joy making one enjoy great pleasure
To do great feat in it to amaze world men in great wonder..!

People who are capable and able to do things of their own
Interest are really fortunate ones in the world to enjoy
Real pleasure in delivering the best they can through works!

Works of perfection they only can achieve due to their great
Interest in an aesthetic way as that bring great pleasure and
Joy They cannot miss in the world life they are destined to do!

Such gem of men think, speak and do only the best things all
Admire at as whatever they do are great feats par excellence!

Ramesh T A
All Time Entertainer Mj!

MJ, the King of Pop is the all time world entertainer!
Moon walk is the greatest achievement he has made!
He has created history by his dance, song and music;
He has become a legend in the World Music History!

Thriller, Beat It, Billie Jean, Bad, Black or White are
His all time best along with Moon Walk and Dangerous!
The immortal mark he has made by his pop songs will
Inspire youngsters and all to hitch high to the Stars!

Michael Jackson, the 13 times Grammy Award winner
Is a winner of millions of hearts of pop song lovers
No one can beat apart from The Beatles of past fame!
His entertaining music songs are Ventures and Shadows!

By song, dance and music MJ is master entertainer forever!
His reputation in the Music World will last till the end of time!

Ramesh T A
All Time Shakespeare Characters!

All characters Shakespeare has depicted in all his plays
Belonging not to his time only but all time to guide all!
Characters are the main in all his plays living forever
Delighting, directing, depicting, denoting all points of life!

Ever indulging in romantic type of stories Shakespeare is
Full of energy touching the hearts of all readers of literature
Going ahead in all his plays from childhood on to old age
Highly philosophical, wise and true to life as mirror forever!

Iconic heroes from history, comedy and tragedy occupy
Just to lead to their world of life in all his plays making all
Kick the present state and forget oneself in those times of
Life they all have lived and gone with impression living ever!

Myriad minded this great bard of England has captured all
Not only in his land but also in all the lands of the world sure
Openly appreciated by all the intellectuals, critics and common
People all over the world for all the ages in the history of literature!

Quite astonishingly all are immersed in all his characters he has done
Respectful depiction based on his deep observation and contemplation
Successfully bringing to life the aspects of his imagination so powerful
That we are still searching for a genius of his calibre even today in vain!

Unique nature of a genius world has come to know only through him;
Variety of various characters Where can one find in his time or now....?
We all have to be thankful to Shakespeare forever for this great feat only
X-men kind can create by genius extraordinary quite rare in the world!

Years of his observation Shakespeare has utilized using his imagination
Zealously in creating characters of his plays that live forever among us!

Ramesh T A
Many believe poetry is just for amusement and entertainment only ever; Also, all go by the belief that poetry means written with rhythm and rhyme! Poetry is expression of heart, spontaneous overflow of emotion with ideas; It is crystallization of truths, conviction, best thoughts, ideas in fine words!

More than all, poetry is the dictionary, encyclopaedia and literature of life! Right Shakespeare has said that poetry is the mirror of human life in the world; Poetry is picture, music and magic painted, trumpeted and conjured with words; Words have profound meaning, power and force that create magic as poetry!

Words are the musical instrument, painting brush and weapon for poets ever To say in appropriate images, music and form to capture hearts and rule all! That's why they are called as unacknowledged legislators of the world by Shelley And all best ideas and truths are expressed in poetic form to last and guide all!

The richness of civilization and culture of any race or nation lies in its literature, All ever written in all forms of verses and poems under one roof of poetry!

Ramesh T A
All Under One Roof!

It's writing time before I am ready to do my best!
With a vague mind I just sit to write what I can;
Likewise many a time I have written so many
And have completed many best poems so far!

Yet, whenever I sit to write, I feel as a new comer!
This has been happening since long time, so to say;
But I somehow excel my doubts and do all better
By rendering a performance to my great surprise!

Like planting siblings on the field I fix words ever,
It seems, to write my style of poems to my satisfaction
Whether the readers are entertained or not since long
Just as the painters brush colours with fixed gaps....!

Planting or painting or poeticizing all ideas I prefer,
It has become my habit to bring all under one roof!

Ramesh T A
All Vessels!

Women are
Weaker vessels in the world
Shakespeare said!

But men are
Vessels of tears in the world
La Fontaine said!

Whether women
Are weaker vessels or not
Men are none sans them!

Ramesh T A
All Weather Friends!

All weather friends are real against fair weather ones!
Best friendship flourishes on humour, love and frankness;
Contrary things happen if flattery dominates in there as
Decision at vital moments in life depends on true advisers!

Enemy of one's enemy may be a friend to one somewhere;
Friends of the same feather ever flock together anywhere!
Good friends forgive and forget all silly mistakes ever.

Humour in criticism of friends are top most pals adopt;
Ice cold situation never prevails in romantic rapport!
Joint ventures of friends are easy to undertake of all;
Kings and queens too are equals in friendship with all!

Love exchanged in friendship is real nowhere is seen;
Many secrets are confessed only with friends fine!
Nothing goes wrong in the company of good friends;
Open, free discussions take place only among confidants.

Pals of dedicated and devoted nature are rare fortune;
Qualified, worthy pals achieve laurels in times opportune!
Racial, religious, national and all barriers never affect them;
Sustained success they make in social circles as in home!

Troubles are thwarted by truths exchanged within
Under all circumstances among themselves as in fun!
Veracity makes their bonds go on high pedestals ever;
World wonders at their marvels they make forever!

X, Y and Z are equals in their all weather friendship;
Years may go but they ever remain firm in relationship!
Zealous mood never diminishes in their companion ship!

Ramesh T A
All Welcome Spring In Alphabetical Order!

All wait to say good bye to winter spell;
Beginning of Spring all welcome soon!
Care taken to avert winter wrath is over.

Delight in witnessing flowers and blue sky,
Enjoying beauty and freshness of Nature
Full of life and joy soon all wait to have..!

Gorgeous panoramic view of Nature all see
Having seen only white snow, grey clouds,
Ice thick as concrete blocks everywhere long!

Joy of sunshine, blue sky, green lawns and
Keeping in touch with fragrant flowers and
Lovely pastures green will delight all as heaven!

Multi-coloured flowers and delicious fruits are
Never having substitutes in the world of Nature
Openly standing as the truth beautiful and great!

Painful sufferings due to winter cold pangs subside
Quite as a miracle by the sprouting effect of Spring
Restoring the normal health condition to glory sure!

Stimulating weather condition steps up all zeal of art
That was in disguise under the snow covered mountains
Unlike in Spring, Summer and Autumn every year....!

Variety of plants now beautiful appears in all corners
With peace, tranquility and joy flourishing growth rich
X or Y or Z the category be as per the botanical order..!

Yearning of happy days are going to dawn like bright sun;
Zeal of doing things brisk all like will start soon again in life!

Ramesh T A
All Will End In Good!

New year starts as clear slate of a child;  
The clean mind of innocent child is ever  
Ready to record all things it wonders at!

Basing that information it takes decision;  
As the child feels, wishes and wants ever  
All things it waits and watches to happen!

Likewise, all wishes to happen things as to  
Their resolutions and actions in all walks of  
Life and leaves the results to fate of God...!

Doing things as perfectly as we can is our duty  
Sans expecting benefits as God only knows  
When to benefit the honest and sincere ever..!

So, it is our duty to do all things as we wish  
With our whole heart so that all will end in good!

Ramesh T A
All Work Spoiling Corruption!

Without control corruption continues
Hampering developments in all fields
Benefiting fakes and blocking good ones!

Sans checks on price rise on all items
And control on corruption in all fields
Nations move on fuelled by recession!

Greed of unlawfals blocks all progress
Sincere, honest and honourables make
And skillful ones languish in frustration!

Price rise and taxation strangle the poor,
Which ruling class never feels at all.....
Even at the cost of losing shine in power!

So, cricket and corruption are inextricable
Making frauds go scot-free adulterating life!

Ramesh T A
All World Beings Governed By Feelings!

When feeling is kindled or induced or provoked,
Nature of a living being is exposed in the open
Whether one is a fish or bird or reptile or beast
Or man and is same for all as it's Nature's design!

The expression of feeling in its basic form shows
Real nature of one based on one's natural character;
That's why, the way of procreation, birth and foster
Are similar for all living beings born on the Earth!

That's why unless the basic nature of all is satisfied,
One cannot develop further and shine in any field in
The world we are all co-partners to coexist and live
Procreating species for the sustenance of lives forever!

The nature of animals living by instinct or humans living
By intellect or knowledge has feeling similar in design;
This also a fact that man is evolved from animals by the
Natural design going on by natural selection in the world!

Ramesh T A
Allow Regeneration!

Days, weeks and months have gone;
Now another year also is going out;
They are all part of Time starting
From seconds to minutes to hours!

Likewise many years of our life
We all have spent in this world
And have seen so many things
Growing, deteriorating and dying!

Destroying trees, natural resources
And all things helping life to go on
We are making our common abode
too meet with its extinction one day!

Regeneration is common in Nature;
Let us all allow Nature to regenerate!

Ramesh T A
Almighty's Romantic Will!

My God, I worship, is a romantic Almighty,  
A greatest friend, philosopher and guide!  
He shows love no one can show in the world!  
He gives help no one can give at any time!

He raises the person fallen in the life of the world!  
He helps the culprits to correct themselves long!  
He lives eternally in atoms and Universe strong!  
He guides the course of the world in all eras fine.

Philosophic truth, love and romantic life He likes;  
Men are sheep not aware of the time of end ever!  
God is the captain who leads the ship safe to shore  
Though they propose several things in life long!

Man’s knowledge, science and technology are nil  
Before natural disasters working under God’s will!

Ramesh T A
Almost Love Beyond Friendship!

Their relationship is more than friendship;  
Their development of intimacy is much  
More than friendship and almost a love  
Quite unique and one of a kind so to say!

Love of soulmates has many versions, true!  
A high level love relationship elates their  
Unique friendship to journey through a  
Wonderful world no one can intervene ever!

In their pursuits high they explore all things  
Through an innovate lens no one has ever  
Tried to discover and create new things for  
All to enjoy and experience unique pleasure!

The union of soulmates by love goes beyond  
All barriers and sustains with success in life!

Ramesh T A
Alms

Better give alms only
Knowingly to a beggar but not
Love and suffer ever..!

Ramesh T A
Alternating Current!

War kills many
Including the killer
Yet war goes on!

After war time
Soldiers have nightmares
Ruining rest of life!

This is the end
Sky-fall is their life
Love only saves!

Even then war is
Going on endless between
Good and bad...!

Where's meeting place
Between Sky and Sea ever at all
At the horizon...?

War and peace
Go on as alternating current
To run world machinery!

Ramesh T A
Always All Things Can'T Be Amusing!

Serious thinking, writing and matters nobody wants;
Everybody wants to see interesting amusing matters!
Life is not just sweet only but bitter and sourly items too!
All should take interest in all to know life to the full here.

Modern matters are small and silly things of no importance;
All want entertaining things always at the expense of truth!
Truth becomes a dangerous thing ultimately as it is neglected
And at emergency situation many don't know what to do at once!

Computer, job, all matters in all walks of life should be like game
Everybody wants everywhere so that time will go on sans bore!
Yes, indeed it can be if all matters are approached sans expectation;
If so, many surprisingly interesting things will keep enthusiasm ever.

Attachments, desire and over zeal keep matters not upto the taste,
Rather the situation turns contrary most often as reality can't change!

Ramesh T A
Always Cherish Love!

Poems abound here as flowers!
New flowers blossom as Stars
And Stars wink at lovers ever!

Lovers live by romance forever!
Luck favours the Scot-free beings
And hearts of gold enrich world!

Dangers kiss and go heroes ever!
Innocent girls love brave hearts
And loving hearts woo good guys!

Lips of rose kiss to soothe champions!
Adventures adorn the works of experts
And the world survives by good will!

Flower world perpetuates love forever for
Poets to produce poems for people to cherish!

Ramesh T A
Always Make Both Ends Meet!

Let not fear drown you in sorrow!
Let not freedom break your morrow!
Let you maintain both at bar ever
So that you never suffer any more!

Let not money make you crazy!
Let not knowledge make you haughty!
Let you maintain a balance
So that both you can better use!

Let not joy make you jump high!
Let not sorrow make you fall down!
Let you regain your old stature
So that joy you can capture joy ever!

Let you maintain poise between both ends
So that you can always make both ends meet!

Ramesh T A
Always Something Missing!

When I see a barking dog, I don't find a stone to hit;
When I see a stone, I don't find a dog to hit at!
When PH is functioning okay, I don't find time to write;
When I write a beautiful poem, PH is not receiving well!
What a situation I am placed of and on here, friends!
Always something is missing when everything is okay!

Ramesh T A
Am I Beautiful?

Can one say that one is beautiful to others in the world?
One can say so seeing oneself in the mirror, but not to all;
For, one's beauty has to be decided by others as it's acceptable!

If all are crows, how can beauty be decided by what yardstick?
If all are Negros, how can beauty be decided by white or black?
Among white and black peoples, which one can be decided as beautiful?

Beauty lies in the eye of the beholder as beauty differs among all;
For the crow its own baby is golden one among all colours of birds;
Beauty is adequate expression by Nature nothing more and nothing less!

What is lovely to one is beauty whether it is white or black or blue;
What one hates is ugly whether it is white or red or black or blue;
If one says ugly one is beautiful, it shows one's partiality of love!

Even if one loves all equally well, only the one that touches one's
Heart most, one says as beautiful even if all cannot be classified so!

Ramesh T A
In my town time moves fast and time is not enough;
But out of station, time does not move at all log!
Whoever we go, where we are settled only only is
the best place to do anything as we like forever!

Settling in one place only we have the spirit to
Do whatever we wish and get a sense of relief from
All sorts of inconveniences to have full free4dom
And most of our works go on pretty well each day!

Not even a single moment can be wasted, if we are
In our settled place only however hard we try to
Adjust ourselves with the new surroundings ever..;
There is no two opinions in this matter, I am sure!

Each one has a special talent that can come to life
Only when a proper place and convenience needed are
available unless one has an extraordinary capacity
To manage oneself in any circumstances and situation!

Ramesh T A
Amazing Public Recognition!

It is amazing to see dreams are coming true!
It's not happening immediately to bring wealth,
Which isn't important but applause with recognition!

Name and popularity are more important than all;
Popularity makes all accept one's work forever
And willingly makes all buy one's work for sure!

Raving reviews of various classes of people start
Lasting impression and recognition as foundation
That builds up one's image to sky high towering one!

All poets, novelists and book writers have come up
Starting from the scratches to surplus wealthy level
Inspiring all to be so one day is some field in life....!

Such an experience is really amazing to enjoy one day
When one's dreams come true recognized in public life!

Ramesh T A
Amazing Wonders Of Nature!

Cloud formation looks formidable in the sky!
Between the valleys rays of sun get filtered;
Rays of sun lamp falls on green meadows
Highlighting red, yellow and white flowers!

! Surely angels can fly over such a place....
And ride on white horses all the stretch!
Never the journey feels to be frustrating;
Such a survey surely enthuses the mind!

Winged creatures forming symbol of love
Touches the heart with wonder forever!
Beauty in Nature is full of love and peace
And wonders of Nature are ever amazing!

Beautiful is the scene to muse over endless
In time before evening succumbs to night.

Ramesh T A
Ambition Decides Greatness!

Work of ambition only is the driving force of life in the world, Wherein only lies real pride, joy and satisfaction for anyone! That too, if interest of one's subject becomes one's life-work, There cannot be a great enthusiasm one can enjoy life-long!

Successful expression of one's personality is an art of life Only persons of that position are capable of achieving sure! For others, honour of one lies in the duty one does in the World in the best possible way whether one likes it or not..!

Of all the professions, writing seems to be most difficult as One has to be exact in what one expresses for all to know; That too, if Poetry happens to be one's life work, the pride, Joy and satisfaction one enjoys seems to be most fulfilling!

For all these things to be possible, one's ambition should be Noble, broad and wise based on true knowledge and vision!

Ramesh T A
Ambition Helps To Achieve Aspiration Sure!

Without aspiration to achieve some remarkable thing,
Where is the chance for one to make life interesting?
Sans any vision and aspiration, there is no way one
Can have some worthy ambition to drive life ahead sure!

Dreams develop ideas once caught by the spell of doing
Something remarkable to achieve ambition one aspires at;
There, for the aspiring one, ambition serves as wonderful
Driving force of life to activate one to excel in all!

Step by step, drop by drop a flood is farmed to smash all
Hurdles and rocks on one's onward journey to reach the
Final winning post to fulfil one's great aspiration with
flying colours to celebrate laurel with full satisfaction!

It's not enough to have great aspiration, vision based on
Knowledge is necessary to have an ambition as the driving
Force of life to achieve great feats one after the other
To attain the top ladder of the post to fulfil aspiration!

Ramesh T A
Ambition To Achievement In Life!

Sans ambition, advancement and development
No one can think about in the world life ever!

Sans love nothing can be learnt in the world;
Sans musing over knowledge gained vision's nil;
Sans vision whole picture can't be visualized
And a suitable ambition based on that is fixed!

Ambition thereafter activates one's self to say
And express one's personality in the field one is
Best at and if one does that perfectly well, indeed
That can become one's achievement in the world!

That's the way one can get name and fame ever;
Sans name and fame, it's not possible to get wealth
Reliable and lasting in one's life to the extent of
Serving for one's generations even after one's life!

Ramesh T A
Ambrosia!

Love gives strength
Nothing else can in this world
Real ambrosia!

Ramesh T A
Ample Poems!

Many poets
Writing too many poems
But none seen!

Ramesh T A
An Absorbing Beauty She Is!

Absorbing whole soul she lingers in heart!
Beauty she is attracting always sans fail!
Culture, civilisation and custom she likes;
Dignified look she has capturing hearts!

Elegantly she moves with all people here;
Full of enjoyment she has everywhere!
Gentle smile she has in moving with all;
High ideas she likes to share with wise!

Iconic stature she has in all circles here;
Joyful experience she loves to have here;
Keeping touch with friends she works ever;
Love is her nature she shares with chosen ones!

Moving intimately she makes friendship a heaven!
Nothing she takes seriously to curtail movements;
Openly she discusses all matters with friends;
Poses of her photos are always fine to cherish!

Queen of hearts she surely becomes ever!
Relaxed mood she maintains forever with all;
Sensuous feeling she naturally kindles sure;
Teasing beauty she is for many hearts!

Usual attire is light in colour she enjoys most;
Variety of interests she has to satisfy curiosity!
Woman she is meant to be wooed forever;
X factor she surely has to be explored!

Yearnings persist to be with her as
Zeal is never ending in her company!

Ramesh T A
An Act Of God

CREATION AND DESTINY

Men are created to enjoy life and realise whole truth in the world
To achieve full liberation and divine bliss in the Absolute at the end.
It is not enough just praying 1 or 3 or 4 or 5 times a day without fail;
Better do duty naturally for the common good of the whole world.

God appeared variously to show for all way out of mess to bliss;
All religions are born not to divide but to unite all men in the world.
By world peace only oneness of God can be established for all
Not by conversion but by spiritually striving for the unity of humanity!

By spiritual meditation of one God be it Allah, Jesus, Buddha or Krishna
And working for the establishing schools, colleges, jobs and hospitals
Unity of soul, soil, society can be achieved by spirit, agriculture, culture
And is the best way for the creation of one world for mankind in the future!

Thinking about the creation and destiny of man is the same for all men
But segregation, division and difference create problems endless for all!

Ramesh T A
An Act Of Love By Hug And Kiss!

Embrace and kiss are an act of love towards others;
Voluntary performance of love is better than custom;
In royal society, such practice has changed to hand kiss
Due to infection of disease affecting the health of all!

Kissing the children is naturally beautiful act of love;
Western culture continues this kind of show of love even
After people grow up to youngsters or elders in the North;
But in the South such a practice is not followed as culture!

In Asia, sans any touch, one touches one's own palms to
Welcome and send off any friends, guests and all others;
Love has many ways to be conveyed by anyone anywhere ever;
But friends, lovers hug, kiss to share health, illness too!

Real love is natural and not customary in nature and
Never sees any comfort or discomforts in human life!

Ramesh T A
An Act Of Politics!

Making democracy a farce is an act of politics -
Lowering the prices of articles before the election,
Increasing prices after election more than before
And deceiving the tax payers and the poor alike!

Equality they preach for the rich and poor to suffer -
Offering free rice, TV and all sops without quality,
Levying taxes to the hard working to spend lavishly
And making socialism and capitalism a farce ever!

Politicians as monkey to decide the share of cheese
As judge eat away the whole piece giving nothing
To the cats people, who wait and watch in suspense
Till end of no use, go frustrated to God's help at last!

It's like the lady who goes after the king ignoring husband
Who lands her as the ant caught between fire and water!

Ramesh T A
An Addict!

Computer captures
World on monitor screen ever
And addicts all!

Ramesh T A
An Adventure In A Bus!

A distant thunder I heard;  
Cool wind blew for sometime;  
Rain lashed out for some hours!

We were travelling in a bus  
Bound to a Southern town  
To attend two functions!

Wiper of the bus was not working;  
The bus was out of grip with road;  
Driver's side window was broken!

What would happen to the bus?  
When will we reach the town?  
And all night I was sans sleep

The conductor stopping the bus  
Tore out plastic paper pasted on a tree;  
Used the paper to close the window!

Rain stopped flowing inside the bus  
Driver drew the bus with skill and  
We all reached the town next morning!

Ramesh T A
An Amazing Effect Of Art!

All eyes are glued to the picture beautiful!
Beauty of music kindles all to listen it again!
Composition of poem suitng both is an art;
Dignity of poet reflects it into a great piece and
Echoing song of poet haunts hearts forever!

Fine art of poetry survives by poets great;
Glory of human life only poetry inspires to all!
High ideas of genius live in simple art ever;
Ingenuity is reflected through trivial stories!
Jubilation of love and beauty enriches art
Keeping hearts of good rest with hope and peace.

Love of art makes life worth living forever;
Master pieces of experts inspire all anytime;
Nothing can shake truth and justice of art!

Opium effect of fantasy in art cures all ills;
Pure bliss of transcendentalism of Nature
Quite unique in sublime poetry uplifts soul
Restoring worn out hearts to live new life
Satisfying just as old wine in a new bottle!

Transporting to a dream world by art
Universal wizard of words does magic!
Very amazing achievement they do ever
With poetry suiting picture and music though
X, Y or Z the subject matter is in the realm
Yesterday, today and tomorrow also as
Zealous mood of genius never dies in art!

Ramesh T A
An Ambition Necessary To Make Life Worth Living!

Restlessness comes, when one doesn't know what to do next ever; To overcome it, vision is needed based on dream and knowledge; That only can help one to have an ambition to achieve in life And will kindle many ideas to implement to achieve one's dream!

Dreams, ideas and realities are the sequence of life one has to achieve one after the other and for which sincere efforts With the intention of achieving something great will make life Go on in an interesting way sans any doubt, hesitation or fear!

Without making such an arrangement to follow, each day will be A hell to deal with needing diversion to change such state of Mind from jerkiness to joyful venture to proceed with tasks self Created to do to achieve goals to finish one's venture well..!

That is the way to make life interesting and enthusiastic to do Great, best and beautiful things satisfying heart, mind ans soul!

Ramesh T A
An Ambitionist For Achievement Only!

Ambitionist’s aim will be always at the target;  
Even if they starve to death they will not change;  
Ambitionists are for achieving their objects only!

Ambitionists are the lions, tigers and bears of jungle;  
Even if they don’t get anything lions never eat grass  
But rather try to hunt cattle or herd thriving on grass!

Ambition is the driving force of life for such guys;  
By ambition anything is possible and before it  
Money, comforts and other paraphernalia are nothing!

Not ordinary but only work of achievement they aspire  
And for which they sacrifice anything and everything;  
Artists, poets, scientists are of that calibre unknown to all!

Ambition, aim and goal are focused to the target of resolution  
Making ambitionists brave hearts and soldiers of sacrifice ever!

Ramesh T A
An Angel Among Mermaids!

She was an angel fish among mermaids of sea!
Lying on lush green meadow is a great pleasure
To dream about the days I spent with her there!

Today sea is calm and the night is full of stars
Bringing heaven and paradise side by side for view
For me before I sign off the day to have my repose.

How can I forget the time spent in the timeless world
And simply ignore or forget oyster dreams so soon
As it was more than heaven one can wish for in the world!

How the angels floating around while encouraging pleasure
We were not concerned about but our crises and recoveries
Cannot be forgotten even today after years of such happening!

So dreaming when I woke up I was stupefied by angel fish
Of my dream mermaid sitting ready to take me to her world!

Ramesh T A
An Approach To Development Of Humanism!

Nationalism, racism and monopolism develop domination;
Competition, control and protectionism keep world insecure;
Domination of economic and military power is animalism;
Cooperation and coordination develop peace and humanism!

To put an end to warring nature and domination sports help;
Olympics is a mark of civilisation bringing together all as one,
Develops friendship testing prowess in games in lieu of wars!
Healthy competition in business in lieu of monopoly is better!

Intellectualism and wisdom develop humanism on higher level
Through art, literature, music, poetry and paintings in society.
Globalisation of economy, politics, etc. promotes internationalism;
Culture, Nature preservation develop mysticism and spiritualism!

Approaches to development of humanism are many to follow
If the will of people is familiarised with the sense of one world!

Ramesh T A
An Art Unknown And Unheard!

To forget myself I am writing poetry of problems and solutions; Whether feasible or not at least it may be of some use to others; Others reaction for the poems will give a sense of satisfaction.

This is the thing I gain from poetry if not any monitory benefit; But many are writing poems for fun and getting a name as poet; So, poetry writing has become a joke and not a joyful art now.

Many websites are publishing poems to satisfy the needs of them; I find many poets from US, UK, India, Ireland, Asia and Australia; Only very few qualify themselves as natural poets of worth in all!

I am writing poetry as the singing birds like Skylark or Nightingale For the spiritual satisfaction for a longtime not knowing any of them Being occupied with complicated obligations blocking my progress.

Computer internet facility has become a boon to poets like me To expose my views as poet to the world in forms and style of my own And without which my art would have died unknown and unheard!

Ramesh T A
An Attire Of Colours In Nature!

Among plants and under sea survive lives;
Living beings under camouflage live ever
For security, hunting and survival safely
Wearing the attire Nature has provided!

Grasshoppers, birds, fish and plants live
With natural colours as protection forever!
Chameleons are something different though
Capable of changing colours as to situation!

Even seasons have colours for a change
Winter darkness, summer brightness,
Autumn brownness and spring greenness
Indeed are beautiful and inspiring all lives!

Refraction of colourless water reveals 7 hues
As seven colours of rainbow at the raining times!

Ramesh T A
An Echoing Music Poetry Is!

The crescendo of echoing music in heart ever
One can think of is the rhythmic poetry sure!
The rhythmic lines are like the waves of sea....
That ebb and flow between horizon and shore!

The lullaby of wave dance is rhythmic echo of
Music poetry makes to move all in muse fine
By the feat of poet as maestro of symphony does
Making sound and sense with lasting message!

The melodious sound of music is ever ringing
In the hearts of men reading echoing poems of
Eternal values to mankind to live in joy endless
Even after silence engulfs like darkness in night!

Such a melodious echoing music of poetry ever
Lives in dreams too endless like smooth waves of
Sea forever dancing between horizon and shore
Lulling the heart rhythmically swoon in peace...!

Ramesh T A
An Effect Of Finite And Infinite In The Universe!

For everything there should be a beginning and end;  
Otherwise, it would be unbearable, if bad things continue,  
Let alone good things going on endlessly everywhere!

Infinite is another huge thing can't be digested at all;  
For, there won't be a beginning and end at all for it  
Like the Universe we are supposing to be so so long!

Finite and infinite like the micro and macro in the Space  
Indeed are two entirely different aspects between the  
Permanent and impermanent everywhere in the Universe!

Endless delight and endless trauma are unbearable indeed!  
That too if it happens to be in the infinite level, effect will be  
Certainly unbearable to imagine or experience in life sure!

Thinking over those matters, one will feel it will be better the  
Conditions and limitations of our world are better than we feel!

Ramesh T A
An Effect Of Virtual World!

Loneliness develops sickness of mind;
Lonely person in forest becomes a brute
As wild as animals to hunt for food there
Forgetting even the language one speaks!

A novel, The Mysterious Island by Jules Verne
Once I read gave me a clear picture of loneliness.
I wonder how one will be without modern gadgets
As all depend on comforts of civilisation high!

All developments make man a slave of machine
And all comforts make him a good for nothing one
In the absence of electricity and fossil fuel soon!
This is due to his forgetfulness of Nature ever!

Forgetting reality man lives in virtual world here
Depending upon gadgets modern fooling oneself!

Ramesh T A
An El Nino!

If the sea is hottest
Drought area is full of dry wind
Effect is El Nino!

Ramesh T A
An Elephant Matter

Elephant news
Appearing on papers and TV
Amazes me much!

Elephant rampage
In the sugarcane fields
Is villagers woe!

Is it possible
To feed huge elephant
At home?

Is a rice cake
To a hungry elephant
Enough?

If we interfere
In their life source
They do havoc!

Pollution by man
Creates droughts everywhere
By global warming.

For water and food
They invade human habitat
As no other go!

Ramesh T A
An Empty Vessel!

Empty vessel
Sounds well but not
A full vessel!

Ramesh T A
An End Of Anxiety And Excitement!

Anxiety and excitement, when will they go away?
Peace and happiness, when will they come again?
Anxiety engulfs in depression to drug addiction;
Long excitement tires one to long for settlement.

Excitement makes youth love romantic adventures;
Experienced guys seek reservation for easy journey;
Anxiety builds tension towards nervous break down;
Vision of the whole gives plan to achieve goals well.

Knowledge of life, world and Nature gives clear vision;
Vision helps what ambition one can have to do best
To achieve everything with completion sans anxiety;
There alertness in doing things comes of excitement.

Whole view of everything from above makes all fine
And that in mind if things are done anxiety will be nil!

Ramesh T A
An End Of Love!

Too much of anything is good for nothing!
Yes, it is true too much of sugar leads to aversion!
Also, too much of salt will make all food waste!
But will there be an end of love after a longtime?

Nobody seems to be satiated with love here!
Is love an eternal source of inspiration or perspiration?
It is both and yet nobody can ignore it in life because
As love is painful pleasure life is bittersweet ever!

Like two sides of a coin we have day and night;
Our life is also a combination of two - bittersweet!
But nothing is ever the same in life because
It will be boring and monotonous and so, it is like that!

End of love will lead to end of life too in the world;
But after death there will be rebirth and love again!

Ramesh T A
An End To Be Good

I was seeing Superman the movie;
Man longs to fly free as a bird in air;
Only birds enjoy real freedom here;
Only after the death of the body,
The spirit of man can fly free to sky!

Violence has increased everywhere;
Only Superman can save innocents
Caught unaware in troubles fathomless!
The situation needs Supermen to save
The Earth from exploitation and destruction.

Earth the symbol of patience bears all
And supports irrespective of all harms
From good, bad and ugly for a longtime.
So, to make end good, Supermen save all!

Ramesh T A
An End To Destruction!

Action and reaction
Continue as nuclear chain reaction
in destruction endless!

Ramesh T A
An End To Pain!

As long as body is there
Pain will also be there!
Pain will surely be there
As long as wound is there!

Physical wounds disappear
But word wounds never be so!
Pain of body wound we forget
But wound of word is permanent!

Body is punishment for soul
To bear all pain and suffer!
Liberation of soul ends all
Pain and sufferings here!

Reaching of soul to the Supreme
Only can put an end to all pains!

Ramesh T A
An End To Wars!

Where is the end
To the wars of the world
Meaningless now?

Ramesh T A
An Endless Love!

Just now seeing Love Everywhere movie
I browse on Poemhunter love poems.....!
Love is indeed everywhere as a song goes
Sans an iota of doubt about that message...!

Message of love massage kindles mood
To say some notion of love in a poem fine!
Song like situation love making moves on
Many poems of poets intoxicated by love ever!

Will there be a saturation point for love ever?
I wonder whenever I see love poems anywhere
As lovers are everywhere as in dreams endless
Opening the door free for all to fly in love ever!

As the love songs are endless on silver screens
Love poems too are endless in poetry websites!

Ramesh T A
An Endless Nature!

Forever I see Nature perfect as art
But is ever changing into many ways!
Unique it is to capture on canvas
As the expert artists do in their art!

Artistic feeling should have started
From the inspiring beauty of Nature!
Such a beauty how can anyone refuse
To admire when time is available ever?

Vast panorama of Nature is endless
To comprehend when one is engrossed
In the subtle nuances of its beauty forever
Which is beyond human limit to confine!

Nature is an endless ocean in breath and depth
To explore, admire, understand and assimilate!

Ramesh T A
An Enemy Life Long!

Cat and rat
Are enemies life long like
Mongoose and snake!

Ramesh T A
An Enjoyable Friendship Of Yore!

Enjoyable friendship of yore cannot be forgotten!
Job, family and engagements separate friends long;
Meeting of pals once in a blue moon is memorable;
Sharing of nostalgias of old days revives zeal again!

Thoughts of time enjoyed in picnics, tours give joy,
Renew resolves of friendship and appraise status
Revealing each one’s promises and achievements
Once again to have fresh commitments to be done!

How far have they drifted from their resolutions
And how far have they fulfilled their promises
They come to know to go ahead with renewed zeal!
But only meetings of pals once in a while can fix it.

Appraisal and strengthening of bond of friendship
May continue their journey or depart from unity
If new state of life makes it impossible to go on
With the old charm, joy and sense of fulfilment!

Friendship that withstands all calamities is real
And rare too to find among various groups of men!
But thoughts of past friendship remain in heart
Ever to remind one of pros and cons of friendship!

Ramesh T A
An Enterprising Experimenter!

Enterprising experimenter of ideas was my father;
He never bothered about the success or failure,
But wanted to see result with his ideas realized
To get the satisfaction he longed for in his life....!

First, he changed the traditional business that was
Going on to modern electrical business in the town!
For thirty years business was flourising in our town
And afterwards fortune did not help till the closure!

Second, when a small scale industry was started, I,
After completing college education, was inducted in it.
I assisted and used my experiential ideas to make it
Run with success with 20 works for more than 22 years!

Greatly satisfied, he died earlier and the business recession
Affected our business and all retired settling all sans fail....!
I have become a novelist, writer and poet following his
Foot steps as an enterprising experimenter of ideas in poetry!

Ramesh T A
An Enterprising Work!

Brought up in adverse situation and unsuitable circumstance,
It was all up hill task ever and a chase game as in the second
Half of cricket match to score runs to win in the game somehow!

Everything was new and nothing was known before to deal all well
To make it really a product all can rely on to buy sans doubt made
In an industry with local, unskilled workers with my assistance ever!

Getting new ideas while doing work all are invented actually by new
Efforts sheerly depending on our will and faith to do better in the
Manufacture of a product new to us in a small scale industry of ours!

That was an achievement and a matter of miracle for us to do sans
Assistance from any outside technical people bringing confidence to
Make all from a small box to a big helicopter by our own efforts sure!

Running an industry is a total work consisting of manufacturing, sales
And service too of the products that can absorb all customers sans fail!

Ramesh T A
An Erstwhile Colonial French Town!

Like all roads led to Rome once, all roads lead to beach
In this cosmopolitan town with Indian and French cultures
Being followed by all people to celebrate all functions!

This is the unique place for all tourists to meet ever;
This is the best place for all local friends to meet..;
This is the rendezvous for lovers too forever and ever!

What a fun to see the waves of sea aligning with mind so!
A time spent here never seems to be erased from he mind;
Heart completely satisfied here, no place seems to be best!

Such is the wonder of this European type erstwhile colonial
French town of India which is historically famous since
A long time satisfying all tourists all over the world sure!

All spiritualists along with tourists of world and local
People mingle here reminding the dream of one world family!

Ramesh T A
An Escorting Elephant!

Elephant comes forward

Before the bell sound comes backward

Followed by the Lord!

Ramesh T A
An Eternal Challenge!

Vast open Universe is a wonder for long!
Dreams, visions and ventures abound
Due to the influence of Universe ever!

Ancient Indian philosophy and Einstein
Open mind’s eye to know its significance!
Yet, the mystery remains ever the same
Due to Black Holes and dark matters puzzles!

Nature interests both poets and scientists
To explore and enjoy its awesome beauty!
I think this miracle of Supreme Creator
Will remain so forever as His mystery!

Endless source of inspiration and influence
Universe will ever wield without ultimatum
Which is the challenge of the Creator to all!

Ramesh T A
An Eternal Divine Light!

Even for the God, who has taken the avatar of king or soldier
Or preacher or messiah in the human world, mother only gives
Solace, comfort and love from birth to death to highlight
The power, value and faith of love, an eternal divine light!

Love only gives confidence, hope and will to do all by faith
That makes all miracles possible in the world full of chaos,
Uncertainty, hopelessness and hurdles to topple one ever sure
And transforms cry into joy, failure into success and so on!

Love only brings cheers to meek and hopeless souls forever
By swaying spell of beauty unique none can be comparable to
Boost one's will power to surmount all hurdles facing all
Odds to achieve great triumph against all hellish pitfalls!

Beauty of love consoles, comforts and gives confidence to
Feel joyful with full hope to do all to be happy forever..!

Ramesh T A
An Eternal Divine Mother Of Love!

The most beloved soul of my grand aunt has passed away
Friday night donating her eyes and body to medical college
For study purpose to medical students aspiring to achieve
great feat in medical line for serving human society ever!

Her love ever lives in my heart since I know her from my
Childhood on till this day and will live eternally in my
Heart that gives greatest respect only to loving souls in
Like her and I have known of love only from her and none!

A lovely, sincere, divine like soul where can I find or
See in this human world after Buddha, Jesus and Gandhi...?
This great mother is the personification or incarnation of
Divine love nowhere I have seen and nowhere can i see ever!

Great Mother, you have become now eternal divine mother of
Love who will live forever in the hearts of loving souls only!

Ramesh T A
An Eternal Love!

Physical pleasure lasts as long as body is strong;
Intellectual pleasure lasts as long as mind is strong;
But spiritual pleasure lasts ever as spirit is permanent.
So, spiritual love only is reliable forever everywhere!

Ramesh T A
An Eternal War For Survival!

Caught between mosquitoes and ants life goes on
Like the ship tossed on the waves of ocean long!
Both ups and downs of life have their own tasks
To be negotiated with appropriate measures ever!

In the night we have to face air attacks incessantly
And in the day we have to deal with ground attacks
Like the army infantry does on the onward march
To complete the mission fixed as target to win the war!

Both for animals and men these attacks are common
And the survival of the fittest first has to deal with it
Along with the life works to be done without fail
In this world of beauty and beast survival for sure!

From the age of dinosaurs to the dogs of wars of men
These insects of nuisance and bacteria never leave all free!

Ramesh T A
An Evening Relaxation!

When suddenly opening the windows after sunset  
And going to the balcony to breathe free fresh breeze,  
The Sky with green background and light brown clouds  
Made me stand still in spell bound condition for long....!

The relaxation I got nothing can give in this world sure  
That only those who have enjoyed such pleasure in Nature  
Can appreciate what I say here, my dear friends, forever..!  
When nothing is handy to do so, the evening Sky does magic!

The changing hues of sky so quick and before darkness sure  
To engulf everywhere to bring yet other magic of Sky with  
Full of sparkling Stars all through the night to bring thousand  
Dreams and reminding thousand and one night stories ever!

All fairy stories cannot stand before the night fantasy full of  
Romance that make all succumb by their spell for full relaxation!

Ramesh T A
An Ever-Green Dream Lover!

All good, bad, jealous, ruthless and rogues like good persons
Because they are reliable, gentle and can keep secret, promise;
Coupled with beauty good ones are romantic heroes or Manmathas!

Delighted by their beautiful presence, all love to be with them;
Every fair sex dreams of such a handsome guy to love and live with;
Fooling them also, some of the intelligent girls enjoy fun with!

Girls particularly love such good persons with humour too for fun;
Heaven like situation develops to have chat with such heroes ever;
In such a company, all giggles and smiles are in no scarcity sure!

Jokes and fun delight all persons in company or alone with the hero;
Keeping company with beautiful girls, only this kind of hero is there;
Loving this kind of romantic character no one hesitates in life ever!

Many a lady loves to have this hero for company and life sans doubt;
No one denies him room, even if he comes at night due to some reason;
Openly they all trust him for wherever reason he seeks their company!

Persons of such a nature has attraction everywhere in the world sure;
Questioning their veracity or trustworthiness no one feels to have;
Rosy dreams all love to have even if he leaves them suddenly too ever!

Such a gem of a person, how can anyone leave s chance to enjoy life with?
Thanks to their humorous romantic nature, they are the dream-boys ever;
Universal love of such a hero sways all dames' hearts like Gokulakrishna!

Verily shattered hopes of virgins return in his presence once again;
Waves of romantic love bloom in company with him to satisfy heart ever;
X and Y not having any hope of life also get inspiration to live better!

Yearnings on his beautiful stature remain evergreen in all loving hearts;
Zeal of humour and fun never have sunset when one is in company with him!

Ramesh T A
An Evolutionary Process Of Life!

Man's life doesn't end with one birth and death,
But continues as a process of evolution forever;
But for Hinduism and Buddhism, all world religions
Never approve this fact and remain as incomplete!

Incidences of reincarnation prove this fact as truth
And are accepted as true by Gandhi and Buddhist monks!
Memories of mind never die, even if they are not said
Or expressed in poems and stories of world literature!

Mystics read the thoughts and ideas of others minds;
Telepathically, ideas of one is communicated to others;
Intuitionally, by clairvoyance, future happenings too
Are predicted by bards and wizards like Nostradamus!

Like pictures and voices are transmitted and received
via electromagnetic waves by TV and phones, our ideas
And thoughts are transmitted by conversion as energy in
Quanta, waves whether we are alive or dead in the world!

Our soul is spiritual energy that carries consciousness
With memories, ideas and thoughts for completion in the
Process of evolution through reincarnations till one's
Soul attains saturation to be one with Universal spirit!

Ramesh T A
An Exam For All!

Mist and fog are forming in the winter chill;
Chill wind blow is intensifying into storm!
With what speed what will storm do tomorrow?
Tomorrow only it will be known to all sure!

How many boats will be throw out to pieces?
How many trees will be rooted out to block all?
All these and more incredible things we know soon!
Also, the storm may turn to some other direction!

It is the exam time for the college and school students;
All are studying with mixed hope of expectations both!
Will Exams take place or will holiday be declared soon?
Nobody knows for sure and prepare for both to face!

Nature is actually conducting sudden exams to test men
Like God has created man to test how he fares for heaven!

Ramesh T A
An Expereince Of True Joy!

Inventions and creations are man's miracle works in the world!
The experience of turning ideas of mind into words in poetry
Just as honey bees building bee hive gives unique joy none can
And is surely a miracle happening in the lives of creative ones!

The nostalgia of sharing such an experience in life with friends
And dear ones is more than an entertainment we enjoy anywhere!
Failing which, if such an experience is expressed in letters or on
Websites spreads such pleasure and joy bringing closer best souls!

Sharing of such pleasure with all increases human unity in the world
Devoid of peace, love and solidarity for good causes promoting better
Atmosphere for healthier life for mankind that would surely activate
Better thoughts and ideas for the creation of one world utopia all love!

Miracles are not only the acts of God but also of man with the special
Powers bestowed on the best ones by the Supreme Creator for true joy!

Ramesh T A
An Experimentalist Father!

Experimenting own ideas in architecture, business
Spent he a lot of wealth in his lifetime for his fun...!
Satisfied after experiments he gained experience
Never bothering about losses he had incurred.....!

A macabre character so to say he was long in life
Leaving all others stringy in spending money.....
As resources dwindled to rock-bottom level later!
Along with him we have gained experience in life
And most of all wisdom to share with all in works!

Thinkers we have become to do anything in life
With limited resources available at hand and that
Kindled our ability to be creative or inventive ever!
After being an industrialist with inventiveness ever
I have become a creative poet pouring forth my ideas!

Ramesh T A
An Exploration About The Nature Of God!

All pious people knowingly or unknowingly worship God in some form; But is it not necessary to know whether God is like human or what? Careful analysis about nature of God is necessary what God is sure; Devoted disciples say knowledge and devotion are necessary for that!

Entire Universe is a greatest wonder created by an infinite power; Full form of Universe itself is unknown, how can we visualize God? God is all in one in the Universe ever imminent and transcendental; Highest spiritual energy in infinite dimension in the Universe It is!

Invisible Universal spiritual energy can take any material forms...; Joining all facts, ideas, knowledge and imagination we visualize this Kind of eternal being as embodiment of all Stars, planets and humans Living ever as spiritual energy in air, fire, water, land and Space!

Man, woman, animals, plants, fish and birds are all Its manifestations Never stopping evolution to modify all to higher forms everywhere as Open secret all are groping in darkness like blind men exploring ever Physically the different shapes and sizes of a mammoth since long...!

Questions many ask as they cannot see physically an infinite power; Reasons the god-men give they disprove by scientific or logical means Saying the invisible beings cannot be believed by rational analysis; That kind of fact law courts too ask as "where is evidence to prove?"

Universal laws or natural laws cannot be confined in world laws of man; Vertically, horizontally only man's thoughts go but not laterally ever; World and man are not even a speck before the whole Universe we see...!

X, Y and Z are some of the names we have given to some forms of God...; yearning to express whole infinite being is beyond human jurisdiction; Zeus or whatever It be, It is Universal spiritual energy everywhere...!

Ramesh T A
An Exploration Inner-Outer Space!

Poetry is the best relief to forget all odds
Like meditation makes one forget the world!
Indulgence in Nature or Art makes the magic!

Creativity leads one to wonder land ever
To discover new joys not enjoyed before
Making one forget drudgery, misery and all!

Misfortunes of life are transformed into miracles
And the inner spirit by creations makes wonders
Bringing fortune to one's life as boon from God!

Self exploration spiritually in Nature or Art
Makes one create magic by one's expression
Beautiful, wonderful and blissful quite awesome!

Exploring the inner Space man enjoys great bliss
Far better than exploring outer Space full of abyss!

Ramesh T A
An Exploration On The Nature Of Human Life - I

Nature of life is not the same for all men;
Human life varies from person to person.
Many people feel life is a great struggle;
Victory makes some think life is a miracle.
So, enquiry is essential to know the truth
To clear all doubts and have confidence.

The Star studded night sky looks beautiful;
The mystic clouds with the majestic Moon
Make the sky a divine place to dream about!
Lonesome souls once see the divine view
Soon forget they their worries for a while!

When the whole town sleeps deeply
Under the spell of the cold winter night
I have certain poetic lines to compose
Before I go to sleep with sweet dreams!

Looking high above the wide open sky
I feel like communing with heaven long!
Moon shining thro’ the transparent clouds
And Stars twinkling bright in the night Sky
I long to muse over heaven in the Universe.
But the gurgling noise of the frogs in the field
And the shivering cats hurrying for the mates
Make me brood over human life in the world.

Is there any life anywhere in the Universe?
A big question is till being explored by man;
But in the human world there is no fixed life
And is no change in the birth and death.

As the Universe world life is a great mystery.
In circle birth, life and death continues; and
In cycles death after life, vice verso goes on!
The time between life and death man lives life;
Thoughts go as slave of life and life fool of time!

Great geniuses express life thoughts in literature;
Men comment or criticise as to their experiences.
“Is human life a great mystery? ” lingers a question
Varying views of men may give some clue perhaps!

One says: human life is a great drama!
Another one: it’s a dream rounded off with a sleep!
Another one: it is a tale told by an idiot!
Another one: it’s a journey sans a destiny!
And another one: it is not a bed of roses!

Some live a life of achievement to get honour;
Some live a life of isolation relinquishing all.

Some like indolent way of life;
Some like tolerant way of life;
Some like intellectual type of life;
Some like spiritual type of life;
Some like sentimental type of life;
And some like simple type of life!

Ramesh T A
There is so much longing for living life
In this land of love and life called Earth!
With the sky above and the land below
Man lives life long in between the two.
Between dream and reality man swings
To and fro through out his life here.
What was a great dream yesterday
Has become a reality today by his ideas!

As a boat tossed about up and down
On the waves of the seas of the world
Man is tossed about by joys and sorrows
Of his desire in the several births of his life.
All the rivers finally have to run to the seas;
From there it is the water that rises above
As clouds and falls below again as rain;
And it is the same water that reaches
The seas as rivers to mingle with the ocean.

So also the soul of finite man after many a birth
Mingles with the Universal soul of infinite God.
There is no other go but to believe this faith!
Otherwise life will be a meaningless mystery.

For the naked eye Sun looks to rise and fall
But in reality Earth rotates round it to show so.
The reality of the world seen by ordinary eye
Is really the illusion for the in ward eye of man!
So, to see the Ultimate Reality man has to see
Beyond the illusion ever before him in the world.

The love to know kindles man to gain knowledge;
Knowledge of Ultimate Reality brings joy and peace.
Nothing but love and knowledge is permanent in life;
Living with knowledge of life is pleasure absolute.
Steady life goes on love and knowledge forever;
But wavy heart’s desire puts man in waves of woes;
So, fate and fortune fluctuates in life till the end!
Unruly desire of heart has to be checked by mind
Before it is too late to realise one’s Self one day;
It’s better to discover sooner Self, man and Nature
To synch heart and mind as to desire one deserves
And fluctuations of fate and fortune fructify to fruits!

Seed grows into tree with leaves, flowers and fruits;
What a sea change of growth between seed and tree!
So also Universe, world, Nature and man have evolved;
Indeed what an incredible eternal truth wonder it is!

Nothing is permanent in the process of natural change;
But only the indestructible spirit activates everything
And its formless energy that produces all is permanent;
That is truly the Ultimate Reality absolute and realisable!

Perpetuation of species is the principle of Nature so far;
Nature of human being also obeys to this Nature’s rule.
Attaining human form it’s easy to become formless unity;
But efforts in things of permanence only lead to perfection.
So, things of permanent value alone man has to think of
By beauty, truth, love and justice, the best things of life.

What is justice?  We have Republic and Gita.
What is love?  Literature is abundant of it.
What is beauty?  It is still evasive in art.
What is truth?  A noble pursuit still goes on.
Beauty is evasive but love is stable.
Justice is non-aligned but truth is forever.
Nature of human life is unique to thing about!

Ramesh T A
An Expose Of Love On Valentine's Day!

A day is celebrated for exchange of kisses between lovers;
Both devote a day for celebration of hugs between them;
conformation of love between guy and girl is on third day!

Days for each and every move are allotted to celebrate ever;
Entire process of proceeding, proposal and finalization is done
For declaring love sure between lovers on Valentine's day...!

Game of love has many steps to follow as in dance drama sure;
High standard of love is sure needed for this human relationship;
I, you, he, she, we and they are all characters in this love play!

Joy of love union is indeed a heavenly act in human relationship;
King and queen are the lovers in this romantic love affair ever;
Love like friendship, affection, devotion and loyalty is wonder in life!

Mouth full of loving words romantic lovers whisper that they only hear;
Nobody else can know Where it starts and how it goes on and where ends;
Ocean of love is unfathomable unlike the oceans we ascertain the depths!

Power of love begins with eyes of lovers mesmerized between them long;
Question of time nobody cares in this love game between young lovers;
Restoring to reality is nobody’s matter to mind as heart rules them...!

Sun and Moon come and go, but love with hug and kiss has no dawn and dusk;
Trance of love lure between lovers only a mystical lover can know to say;
Universal love is converged to two only now as long as love exploration is on!

Vertically and horizontally lovers fly and move in fantasy quite funny sure;
World of lovers on Valentine's Day is like heaven gate's opened only to them;
X and Y chromosomes of love mingled between them as passport to fantasy land!

Years of love hidden in the hearts of lovers are at last exposed in this day all
Zealously celebrate as St. Valentine's Day festival all over the world in full joy!

Ramesh T A
An Exposure Of Truth!

News exposes
Truth wherever it sees
Every day!

Ramesh T A
An Extension Of New Year Day!

Saturday night opens door for another time
To enjoy fete with friends like on New Year day!
Full Sunday is to enjoy time better than before
Making all feel we have extension of NY day!

Another chance to say cheers with friends dear
Meeting them in the library, beach and park
To go to a roof garden restaurant to enjoy fun
With cocktail party as done in New Year day!

It is really a double chance this year to do so
And it gives the impression that this year will
Offer chances twice to try our efforts in the
Ventures we all play to undertake in the course!

Surely the celebration again after New year
Day is like seeing Blue Moon in one month!

Ramesh T A
An Herculean Job!

There is no end for certain things in the world;
Works go on endlessly like ever growing tail
Unless a beautiful end is brought by skill sure!

Building construction work or repairing work is
One such one testing one's nerve after starting it
As there is no go due to compulsions of dear ones!

They want all provisions of a modern day furnishings
In an old building needing relevant repairs to pull on
Days with necessary comforts to live better than before.

But it becomes like grazing the cattle in the pasture
Like a shepherd to tackle skillfully all the works using
The novice in the construction field to meet our budget!

Repairing all impairments to make it a far better house
Surely is an herculean job unlike the dreams of members!

Ramesh T A
An Illusion Or Reality Peace And Freedom? (1)

Without peace and freedom life is an erupting volcano;
Know not when will volcano subside and calm come!
Surely peace and freedom can be got after death, seems!
Till then console and prepare oneself by religious thoughts!
Religion gives moral strength and prepares to meet death!

This world is the hell meant to enjoy freedom sans peace!
But that world is the heaven meant to get peaceful freedom!
Connected duties of birth everyone cannot neglect here;
For, neglect of duty will lead one from bad to worse soon
As all are slaves of the situation making freedom no freedom!

Nature and nurture develop personality for good or bad here;
Knowledge, wealth and power determine slavery or domination.
Doing duty is as natural as breathing, eating and meditating;
So, rewards and comforts are immaterial for doing duties;
Incentives, bonus and awards are just inducements to do duties!

Incentives entice desire to do jobs for benefits only in the world
And affect very much selfless natural desire to do anything in life.
So, corrupt political forces easily entice individuals to materialism!
Hence desire, attachment and ambition engage men in fights ever
In competition for high position to wield power so as to enjoy all!

Failures lead to disillusionment immersing one in sadism at last.
Success or failure is not sure when one plunges blindly in greed
Bothering little sincerity or sense of goodness, truth and beauty!
Too much desire spoils one’s duty and destroys human dignity;
But without desire interest in one’s duty is impossible in life!

Ramesh T A
An Illusion Or Reality Peace And Freedom? (2)

Too much delight in success or dejection in failure lead nowhere; Success or failure one should take it in the same way as veterans do. For, end of game only decides finally about the calibre of a person; Until then efforts in the right direction only make sure one’s success. This is the lesson life teaches to all when one ventures on a mission!

Living life is not a pastime on useless thoughts, words and deeds; But living so, many remain as burden or deadweight on others! By being so, not only they but also others lose peace and freedom. So, a question arises: What for are we living life in the world? To earn name, fame, position and honour we live in the world!

Instead of trying so how many aspire for wealth and power in shortcut! However, both good and bad suffer and crave for peace and freedom; Also, both the paths of the sincere and sinner are not smooth and free! So, what could be the way to live a smooth and settled life in the world? Certainly not materialism but only humanism is the best way to live!

Knowledge of Self, world, Nature and God is the first need for all; Such knowledge only is helpful to decide what one’s duty here is; Ambition based on the vision of knowledge will be the moving force; One’s nature, interest and talent when used in job make one great; The work done so will be achievement fetching peace and freedom!

Ramesh T A
An Illusion Or Reality?

Distant look enchants the view but at close look it’s different;
Even drawing a picture or singing a song or writing looks easy;
But when practically undertaken to do so the truth is known!

Beauty lies in the eye of the beholder though in reality it’s not so;
So many things we see in the world are all illusions only we know
After we have experience in world life and gain wisdom by time!

Not knowing lust and love many fall in the pit in life and suffer;
Self restraint or tolerance teaches the difference between the two;
But caught by urgency and desire many lose precious life earlier!

Friend and foe move close to many in the world without difference;
After losing one’s time, energy and money one knows who is true;
But if one is able to know the difference is fortunate in life to live!

Finding difference between illusion and reality first all have to know;
That only helps all know how to reach the hobour of success at the end!

Ramesh T A
An Immortal Love

Intellectually blind but emotionally alive
the heart of love never dies
Without love there is no life in the world
Because of love only the world goes round and round!

Love is as wide as the bright blue sky
Love is as deep as the dark blue ocean
So, love is as blue as Space and Time ever!

Love is world's great bliss
Love is world's great truth
And love is world's great power
Hence, nothing is fair or foul in love as in war!

Generosity is the eternal song of love in Nature
That makes all beings survive, strong and sustain on the Earth!
For, nature is bold, beautiful and bountiful in love
Nature's generous spirit of love goes beyond all barriers;
This rich power bothers about nothing
In giving everything to good, bad or ugly!
Trees, flowers, fruits, leaves and grass
Are bountiful as they are abundant in Nature!

The sky is the mother of love beautified
by the bright Stars in the Universe
Like the mother, whose all absorbing love
embraces all her children,
Who beautify, safeguard and survive
her life in the world!

Flower is the symbol of love eternally
That beautifies the barren earth by its presence
And makes lovely the land by its fragrance!
Like ladies, flowers blush and bloom
in all their beauty and freshness
Just for the beetles to make possible regeneration of their species on the Earth!

Like flowers, ladies are there for beauty, love and regeneration in the world
And so, without flowers or women there is no chance for beetles or men in the world
To know love, learn love and lose themselves in love!

Truly, love blossoms between the hearts of man and woman
Making human relationships a great wonder in the world!
Naturally, man and woman are made for each other
To love and live perpetuating human species in the world.

Luxury or necessity, flowers are created in Nature
To remind men and women to remember love in this flower world!
And perhaps for this function nature never allows
The extinction of flowers on the Earth!

So, whether Cupid or Manmatha is there or not
To hit the hearts of men and women with arrows of love,
Flowers will go on blooming to remind men and women of love
And flowers will go on making love never die in this world!

Ramesh T A
An Importance Of Beauty!

Colourful beauty of things of Nature and persons attracts eyes, Please heart and cools spirit ever to do all things with interest! But made up or artificial beauty sans goodness, truth and love Never leads one to good direction but only towards destruction!

Natural beauty comes of goodness and love within radiating as Bright smiling flower inviting all to share love and sweetness in The life of the world needing encouraging and inspiring means To meet with good ends for all the efforts to be taken with hope!

Such creations of things are expressions of beauty out of love Done for the well being of all living beings in the world to make Life an interesting and worthy venture to live till the end of time Until the arrival of destiny in excellence and success for all efforts!

Beauty of such a nature is of worthy approval both for inspiration And also creation of beautiful things for all best purposes in life!

Ramesh T A
An Incredible End Soon!

Know “a bird in hand is worth two in the bush; ”
“If she goes after king she will lose her husband; ”
So, “making good of a bad bargain” is the best;
For, Midas touch may yield gold but not gaiety!

Know whatever it is “distant look enchants the view; ”
We should do the best with what we have in hand;
That is the mark of a genius to do miracles here;
But many want big treasure with least efforts!

Scientific revolution is nothing before evolution;
Scientific help is needed only for emergency time;
But natural healing only can normalise anyone;
Too much reliance on science leads to hell sure!

So, lives of many before attaining sustained glory
Have reached sudden end soon due to modernity!

Ramesh T A
An Independent Life!

If you know your Self real
You can struggle in the world
Whether you go high or low!

Knowledge and vision are
What make you have ambition
Driving you to make achievement!

With self realisation dream well,
To realise dream think well and
You will make impossible possible!

Living based on knowledge is bliss;
Life is knowledge, living and bliss; and
Communing with God be absolute!

Friends and relatives may go away
During the time of importance; but
Confidence of knowledge helps to win!

This wisdom comes of knowledge
And experience in trials of life
Helping one ever stand steadfast!

Ramesh T A
An Indian Election Scenario!

There are many famous brave heroes only by word of mouth;
But in arena, they are nowhere to be found as action heroes...!
This is the nature of our Indian politicians vying with one another
In canvassing for various political parties they are representing!

Independently no political party can win in election with majority;
Knowing this, they all queue in long lines for coalition partnership
With prospective winning main political parties of India now.......!
News media flare up only this kind of messages now and then ever!

It becomes easy for the common people to decide now itself who are
All strong and weak and who can deliver goods after the election and
Waiting for the election date to come to reject and elect as they like...!
This time choices are many as political parties in the fry are many....!

But the restrictions imposed by election commission for movements of
Valuables, cashes and goods by businessmen, family members about
To attend functions or dealing with cash payments or loan clearances
By various men in the usual way are great headaches till election is over!

Ramesh T A
An Inflammation!

Inflammation is
According to one's finger
Common for all!

Ramesh T A
An Inspiration

Crescent Moons
whether waxing or waning
Are Poet's inspiration!

Ramesh T A
An Inspiring Art Of Nature!

Artist's depiction of Nature through an angle
Surely captures hearts of all Nature lovers..!
Such beautiful artistic expression of Nature
Absorbs and inspires heart, mind and soul...!

Brook going across green pasture with hills
On one side and trees of many varieties on
The other side gives a cool look and peace
Nothing can give in the world of technology!

The free air we breathe among the beautiful
Things of Nature like colorful flowers, green
Meadows, lakes and cascading water falls
Endlessly gives inspiration to live there ever!

Mechanical way of life in the fast material
World is surely far, far away from Nature
And also natural way of life full of energy,
Enthusiasm and life nowhere one can get..!

Ramesh T A
An Inspiring Music Never To Forget!

Majestic and bold music is Bond movie tune is
That inspires one to rise and go ahead bold ever!
More than half a century I have been listening to
Bond music with inspiration minding my works!

Like the military music that inspires the soldiers
Worn out in war fields to do job with boldness
And bring victory with sureness, Bond music is
Serving long to enthuse all to do strenuous jobs!

Music plays a vital role like art, painting, dance
And Poetry to inspire, enthuse and activate one
To do better and bring laurel to the field one is
An important part among others in an institution!

With a sense of sureness, the music inspires one
To do one's part better though impossible to finish
The mission otherwise in normal condition and also,
Nobody likes to take up the job to achieve greatness!

Ramesh T A
An Interesting Life!

Sans sensual fulfilment life is a monotony
To endure life long till end comes one day!
Nature has created all for procreation ever
And without which life is incomplete sure!

Food is the first need for acquiring energy
To do whatever one wishes in the world.
Doing work one likes brings satisfaction
And enjoyment as to one's desire is a must!

Sans entertainment and enjoyment in life
Life is a bore and a monotony to live longer!
Creativity is inspired by sensuous romance
With an ambition that drives life longer...!

Longevity of life lies in fulfilment of wishes
Leading to joy, satisfaction and peace sure!

Ramesh T A
An Interdependent Humanity!

Sans interdependence

Independent humanity is not there

Just as the Universe

Sans gravitational attraction

Will be empty ever!

Independence is really impossible as all are interdependent
And no one can exist or is born sans the cooperation of others!
Even the great wonder of Universe goes on by gravitational
Attraction of each and every Star and planet all over Space!

Rousseau says man is born free, but is chained everywhere!
Freedom and independence are necessary for individual progress;
But sans cooperation and help of all nothing is done in public
As democracy is the support of majority that enables all possible!

Even to produce sound, clap is needed to be possible by two hands;

To live life as air, water, food and all needed for the self, all
Are in need of family, community and society to share joy and sorrow!
This is the design of Nature created for interdependent humanity!

This world is created by Nature to live in society to enjoy all;
Otherwise, human race itself couldn't have civilized by culture!

Ramesh T A
An Internet Culture!

It unites people,
Creates friendships
And develops love!

It makes publication of
Articles, short stories,
Novels and poems
Easier than before!

It makes impossible things possible
And makes talents never go waste in life!

Internet culture has made the big world
Into small village within the palm of man!

The development of this culture
Will make life better than before!

Ramesh T A
Interview with Ramesh TA by Shail Raghuvanshi

An industrialist turned into a poet, a renowned world English poet, Ramesh T A’s journey of becoming a poet is quite interesting. His poetic work has been appreciated by various platforms. SpeakBindas Author, Freelance Editor, Shail Raghuvanshi brings out the inner side of him.

-Devang Vibhakar, Editor,

Interview

Shail: Having worked as an industrialist for so many years, how different do you find the fields of industry and writing?

Ramesh: The difference between industry and writing is like inventiveness and creativity! In industry I was looking after technical side of work employing unskilled workers. It was like a battle field for me doing all kinds of works in manufacturing side along with workers and also management works being a small scale industry for about almost 9 hours everyday for about 25 years! It was inventive in nature!

There was no time left for me to think about writing though I was very much interested in writing novels at first! From 1972 I tried to write without any success! Industry, business and family occupied most of my time having little time to even think about writing anything and for more than 7 years I could not even able to see cinemas at that time! I got married in 1981! By a fluke chance I got time in 1988 to write a novel called THE HALO DREAMS! That was all! I was fed up with monotonous mechanical type of work and very much frustrated to go on like that without having time of my own to write anything of my interest!

Novel and nonfiction articles I could not write at all and that made me frustrated and fed up with monotonous mechanical work! All those pent up feelings finally drew me to utter in verse my emotion to my friend in a letter and that kindled me to write poetry and from 1989 on I am creatively writing poetry whenever I get time!

Shail: When did you realize that you could express yourself better and more
creatively through writing?

Ramesh: I can say our examination system in education has made me a writer! Naturally I am interested in writing. Due to my writing inclination only I could have mostly passed in all my exams both in school and college! Discovery of poetry writing ability is due to paucity of time and accident I have to say! There really lies my talent which I discovered after 17 years! My creativity flourished mainly due to poetic writing only and the opportunities I got in , , and due to them the opportunities I got in , and now !

Shail: Given a choice, which form of writing would you prefer? Poetry, Fiction or Non Fiction?

Ramesh: Due to lack of time and the very nature of joint family business and surroundings quite contrary to my nature no one in my shoes would even dream about writing at all let alone writing poetry or articles! It is by fate as well as by God’s grace I have become a poet, a World English Poet now! So, my choice will be only Poetry as there is no other go and I love to be a poet more than anything else in the world!

Shail: How do you choose your theme or subject of writing?

Ramesh: It all depends upon the mood, best or worst! Suddenly I embark upon a theme and write ideas flowing in mind and heart then! I get inspiration from Nature to write everything and cherish most in my heart the idea of One World and the international matters inspire me to choose the theme of my writing! Somehow Nature, human life and One World are the themes I linger on mostly and the ideas that ooze out in my mind I write in the form of poetry or articles!

Shail: Has there been a time when you have experienced a Writer’s Block? If yes, then how have you dealt with it?

Ramesh: From the beginning there is no chance for me to write at all due to my own kind of engagements of my community and the surroundings here! It is a miracle that I am writing so long and so much including attending this interview for you!

Shail: Who has influenced you most in your writings?

Ramesh: I could not do as I wish whether it is studies or doing work or living life! These kind of emotional outbursts are the outcome of my poetry I have to say! Without interest I was studying in college here and at that time literature,
especially poets like Wordsworth, Coleridge, Keats and Robert Browning only attracted and absorbed me much next to Physics. Later I discovered the connection between Physics and Literature lies in Nature and rest of the matter I have expressed in all my poems you can read and know from various websites I have mentioned earlier!

Shail: What role do you think writers need to play in society?

Ramesh: Writers have a vital role to play as social or literary critics to expose the ills of society, politics, etc. and reform the society for the creation of One World. My articles and poems are full of such ideas and they reveal completely my most cherished views!

Shail: How would you describe yourself as a writer?

Ramesh: A World Poet from first to last doing the job of literature, critic, journalist, reformer, spiritualist, etc. and all and more in one in poetry!

Shail: In what way do you think a writer’s family contributes towards his/her writings?

Ramesh: No way as far as my case is concerned! I am an odd person in my Sourashtra community to do this kind of writing work!

Shail: Which is the next book you are coming out with?

Ramesh: Just now I have completed writing the poetry book, THE LIFE OF MAN. Before this I have completed 7 or 8 poetry books. In this year (2010) I wish to publish them one after the other through some poetry book publishing websites!

A well drawn interview. It has brought out the essence of Ramesh, my friend, who has achieved what he wanted to achieve through his sheer perseverance and single minded devotion is what has made this possible against all odds. I
wish him many more successes!
B Pugazhendhi
02/25/2015

This article has helped me to know more about my maternal uncle. I, personally like to congratulate him for kindling all his inborn ideas, thoughts, hidden talents and most is the earthly experience which he had realised and putforth in front of us as poetry. All this blend together carved him as a Poet and had given him a recognition as a well knowned Author and Poet, not only in the community but also in most public forums. May Almighty shower his blessings for all he aspires for!

Ramesh T A
An Intimate Love Life Of Passionate Souls!

Only open-hearted, frank souls naturally hug and kiss
Transcending the relationship of friendship in love
Enjoying passionate pleasure in life long beyond body,
Heart, mind and soul in paradise of world as in heaven!

Such an intimate love life is a great blessing for
The soul-mates direct from heaven in the journey of
Life full of inspiration, interest and enthusiasm
Only divine souls can get the boon in earthly paradise!

Heavenly such passionate love life in harmony with
Nature only the open-hearted ones have the blessing
Sure to enjoy life to the full in the whole term of
Love life in this flower world as free as birds high!

Singing and dancing in intimacy such passionate lovers
Only by divine will are destined to live life long so ever!

Ramesh T A
An Invincible Force!

Time and tide
Wait for none whether it's
mountain or valley!

Ramesh T A
An Irony Of My Life!

I have done all possible things in life;  
Except luck I have everything so far!  
By my cooperation others egos shine;  
My prominence is always in shadow!  
My support has encouraged many  
And has lifted up to prominence soon!  
They praise me to the level of God  
But cannot help me in anyway so far  
Knowing my needs as it’s beyond scope!  
Due to this kind of helplessness I feel  
That there is no luck for me at all in life!  
Men around and close to me are of no use;  
Words of men do not help me in any way;  
Except God I cannot say anyone is friend!  
In spite of this position many feel jealous  
Though I haven’t got any benefit from the job  
Of writing a lot of praiseworthy poems long!  
Even in this highly talented kind of work  
I don’t have luck to shine as other writers  
Like journalists, novelists and story writers!  
This is the irony of my life I write today!

Ramesh T A
An Irony Of Nature!

Rain comes
When not expected but not
When expected!

Storm changes
Direction when expected but not
When unexpected!

Flood comes
When not expected but when
Expected drought's there!

Ramesh T A
An Irony Of World!

Blue East longs for grey

Grey West longs for blue

It's irony of one world!

Ramesh T A
An Irony Real!

Incessant rain from east marks the day today!
Storm formed in the bay is crossing the shore;
Sea shores are alerted by hoisting warning signal!

Stagnated rain water stands as flood everywhere;
The ferrying vehicles on them look like a boat race
And all are drenched in rain water from morn on!

Only when rain stops, stagnated waters disappear
Draining through small holes here and there sure;
Until then roads cannot get dried by evening even!

Due to slow transports, commodities are less in shops
And prices have increased on all items in the market
Making all pout with the purchase of each item now!

All affected areas of floods are in short of drinking
Water and food for days together, an irony real in life!

Ramesh T A
An Irrelevant Comparison

Expansion and contraction for all are common in the Universe;
Expansion in summer and contraction in winter are common;
After time lapse any comparison of them is irrelevant always;
Natural designs are unique and unsuitable for comparison!

Archers and weight lifters are unique and incomparable ever;
Goliath and the giant are wonderful legends in moral stories;
Partnership of educated and uneducated idiots is a waste;
Wisdom is what needed to wield power to win in world wars!

Ants and elephants are incomparable but unique in Nature;
Man has learnt industriousness and family unity from them!
Friendships and blood relationships cannot be mixed together;
Friends can be changed but neighbours cannot be changed!

Expansion and contraction are like growth and decay in life;
At decaying stage growth cannot be expected even for talk!

Ramesh T A
An Island Of Earth In The Universe!

All Stars and planets are like islands floating in the Universe
Attracted with each other by gravitation as if chained together!
Though sans communication or connection due to long distance,
They are floating by gravitational attraction of each other ever!

This island abode of mankind keeps us all disconnected with
Other planets of other Stars in the Universe millions of years!
There is no response for signals sent by gravitational waves
And rockets sent to distant Stars so far since a long, long time!

But the visits of aliens in flying saucers and their depictions on
Caves, inscriptions on the walls of pyramids in South America,
Mexico, Europe, Iraq and so on and designs of Temples, Pagodas
And tall structures of ancient times in Asia are yet undecipherable!

Why just as the islands of oceans and seas of the world, our Earth
And other planets of Solar system and other Stars are there forever?
It is all due to big bang of ancient time, we all have to live in such an
Island of Earth probing ways and means to solve this great mystery!

Ramesh T A
An Island Of Life Situation!

Many live as islands though live in proximity with all;
All workaholics don't know of all around their islands;
Many scientists and philosophers live in ivory towers
Totally disconnected with outside world as in islands!

Many lonely intellectuals have forgotten their own names;
World famous scientists of the past are well known for that!
Now, after everyone becoming addicted to computer and
Other gadgets has no time to see others and talk with them!

This new islands of men live in their own world of interests
Unless natural disasters and demonetization bring them
To this world of reality in great disillusionment and puzzle
As if one has got out of magical spell trying to know reality!

Whatever be the situation in world life, unless one has general
Knowledge, common sense and presence of mind, there is no
Way one can come to one's senses to deal with sudden kind of
Situation quite unusual and beyond one's control damn sure...!

Ramesh T A
An Offence!

Sexy advertisements
Displayed in an affable way
Is also offence!

Ramesh T A
Can you unfold rose bud as naturally as it is?  
Sun flower blooms by the sight of Sun all days;  
Lily flower blooms by the sight of Moon all days.  
Is it possible to do so by me or your presence?  

Nature does wonder we cannot even imagine!  
Seeing Nature many things are created often;  
But all delicate things can man do as Nature?  

Natural expression has a value of its own sure;  
Learning and doing things are different matter;  
Same thing happens in the creativity of poetry.  

All things happening in Nature are great wonders;  
But who does care to note things of beauty in Nature?  
Divine spirit present in all things of Nature is clear; but  
Ignorance of man fails him to realize this open secret!  

Ramesh T A
An Uncontrolled Out-Burst Of Suppressed Urge Of Ideas!

All desires the more suppressed, the more vigorous they become to express;
Before so happens, developing thoughts, ideas and knowledge make one expert;
Continuous urge becomes vigours to express in prolific poems, when chance comes!

Desire of multifaceted talent or genius flows out through some channel somehow;
Energy built up by such potential force within flies up as high speed rocket then;
Full of great ideas in galactic cluster sans satiation pile up one upon one...!

Great many records are broken by such vigorous expressions of all ideas in one;
Highest levels of thoughts, ideas and dreams strike as nails on all heads sure;
Icons of all times become nothing before such prolific out-burst of ideas so!

Just a chance is enough for the outlet of saturated ideas to flow out as lava;
Kicking away all hurdles and stumbling blocks, ideas get expressed in poems;
Losing no time there on, many compressed ideas of poems rock all who read them!

Many awards and recognition degrees are nothing but paper praises of no interest;
Nothing but high appreciation in cash and kind always fill their pockets as nil;
Open heart appreciation in their own poetic language perhaps give them some pause!

Poetry medium is the only means that can absorb and express all ideas in one shot;
Quite difficult to filter all ideas in one it is to express in any other form...;
Restoring a sense of fulfilment of heart, mind and soul takes a longtime for them!

Saturation point and satisfaction never seem to come to them when in expression;
Trying to the last drop of blood, they do all kinds of things to get satisfaction;
Universe itself seems to be nothing before their creative out put even after long!

Various forms they try to express potential ideas in prolific way through poetry;
World canvas too seems to be not enough to depict the pictures they have in mind;
X or Y they seem to have been looking, when there's no chance, but now it's huge!

Yearnings of fathomless heart and infinite mind, when can find pacification ever?
Zeus only knows what way such a long deprived soul, get fulfilment in works high!

Ramesh T A
An Undiminishing Hope!

Job uninteresting, nobody likes to do in the world....;
When there is no other go, all do any job for money!
The talented ones with great ambition just do a work
For the time being hoping to get a line of one's interest!

A nation full of hungry population in largest numbers
Cannot think of the talented ones or geniuses to do any
Thing for them but pay attention to the big population
Leaving others languish without anyway out to glory!

The highly educated and talented ones look for green
Pasture somewhere out of station to try their luck to
Achieve laurels in the field they are best at in the world
Level with undiminishing hope against all odds there...!

But the income less, talented guys try their level best staying
At home exploring all possible avenues with clever and very
Calculated risks to achieve their object somehow and sans
Losing their grip, try and try till the last drop of their blood!

Only one in a thousand or million after many years see the
Summit post to hoist the flag of success in flying colours one
Day to the surprise of all concerned and the world at large
And get recognition awards in great forums all over the world!

Ramesh T A
An Unexpected Love Transforming All Gloom Into Joy!

He is like Southern breeze that comes to save one
from the sufferings caused by Summer heat unbearable;
Like a oasis in the long desert, he only can give
Solace, pleasure and joy to the lady in distress long!

The hero of one's dream if comes suddenly before alive,
What a pleasure and joy at once it kindles to her sure!
Unbearable this too for the long starving and hungry
Soul for sensuous pleasure losing all hope in life ever!

Paris and Helen they become when union is formed suddenly
Like the opposite clouds in Summer time happen to meet
Abruptly leading to profuse rain with lightning and thunder
So much that the long parched Earth gets drenched whole!

What a pleasure and joy the lovers have when unexpectedly
Meet at a critical juncture of life to make all smooth!

Ramesh T A
An Union Of Nature And Art!

Expression of art is the outcome of emotion involving Heat, mind and soul in one in a frozen form forever; It is the freezing of particular scene of Nature that Ever remains as a thing of beauty giving joy of relief!

Nature is living art of the divine guiding by great Inspiration the heart of empathetic soul who only Can feel and express one's response to alleviate the Pain or pacify the longing with joy as food to needy!

Art is the frozen state of such a great feeling got Out of sensation caused by the beauty of Nature ever; By natural beauty of divine so, love is transferred And kindled in the heart of aesthetic minded artist!

Reciprocation of such a fine sensation between divine and human brings bliss by the union of Nature and art!

Ramesh T A
An Unique Form Of Art!

Poetry, music and dance are unique art forms
Created by human heart elevating to divinity!
In this art all kinds of human tragedy get nil
Making human get a renewed life quite unique!

Art makes man forget night mare due to tragedy
And get relief otherwise not at all possible anyway!
That is why Art is considered to be divine in nature
And Art is as precious as Nature till the end of time!

Poetry the source of music and song is miracle
Creating magic cannot be deciphered by anyone!
Nature is unique creation of God and Art by man
And poetry lives immortal exceeding poet's life!

The great work of art, poetry only makes dance and music
Survive, sustain and succeed generation after generation!

Ramesh T A
An Unlucky One!

If you have
Everything but not love
You are unlucky!

Ramesh T A
An Up-Gradation Of Man'a Life!

The one with a sense of beauty, goodness and truth has
Great taste for art, painting and poetry to express inner
Beauty by ideas, images and feelings that gives a sense of
Relief to forget losses and fulfilment otherwise impossible!

Aesthetic sense provides great scope for diversion in all
Things of beauty Nature offers everywhere that by meditation
One redeems one's Self with a sense of freedom not within
Reach in pursuits of one's worldly aspiration earlier in life!

Poetic pursuits deep in Nature and mystical experience make
One a Nature mystic with mind in communion with Nature enjoying
Great bliss in an inspired, ruminative and contemplative mood that
Opens the door of mind to super-conscious state to true liberation!

Attaining such a high state of mind in Nature by mystical experience,
One surely gains brightness as Sun to see whole truth of life and
After life towards total liberation to divine state, which is the
End point of soul's pursuit in world life to enjoy eternal bliss!

Ramesh T A
An Upliftment Of One's Soul!

Musing in Nature makes one forget all ills and unbearable
Pangs and heart burns as one is linked with the divine
Spirit attracted and absorbed by natural beauties ever!

Meditation is mental experience that transcends all worldly
Things that give hell of troubles and crises leading one
To insanity and making one impossible over them by any means!

Like meditation, sensuous pleasure is emotional meditation
That transports one to a fantasy world full of joy long in
The escort of love anytime to overcome all wordily ills sure!

Like meditation and sensuous pleasure, spiritual pursuit in
Nature is a great panacea that overcomes all problems of life
In the world and transports in a state of trance to divine bliss!

All physical, aesthetic, emotional, intellectual and spiritual
Pleasures, joy and bliss stage by stage uplifts one's soul in life!

Ramesh T A
An Use Of Romance In Life!

In real life of world today, ideas of romance are impossible for many;
Many stories, poems and movies are created out of romantic stuff only;
Only romance seems to ease the tension of mind in everyday life here;
Here what's important is not documentation of daily chores but romance!

Romance only entertains all hearts and makes all think of new ideas of life;
Life needs renewal and renovation to lead a better way of life in the world;
World is a bubble floating in the Universe under the influence of Sun ever;
Ever it is not possible to be intelligent, but by imagination we win all..!

All are for joy, pleasure and satisfaction that are beyond the reach of man;
Man is just a bundle of emotion and sentiments dreaming in fantasy of heaven;
Heaven and hell are the products of mind to correct man from going astray....;
Astray all may go, if there is no moral check for all in human society sure!

Sure it is by imagination and vision, we know full picture of life to live;
Live is the mind and heart, if whole truth of life and way to live is known!

Ramesh T A
An Utopian Life!

Utopia is where divine life is!
Wars are the hurdles to utopia.
Education should make all gentle;
Socialistic society comes of education.
Democratic value increases by it;
A pluralistic society allows diversity;
Unity in diversity is possible there.
Knowledge based society lives well;
Best of thoughts, talks and deeds is culture;
Civilisation based on that culture is real!
Knowledge and existence are made stable there
Paving the way for love and higher pursuits and
Lead all in the exploration of ultimate reality
And the way to reach the absolute in bliss ever!

Ramesh T A
An Utopian Way Of Life!

Doing things with love depends on one's interest and wish;
Where can such a situation one can find in the world today?
Nowhere it is possible except in an Utopian atmosphere sure!

Utopian life is also a form of romantic life all love much;
Such an experiment is being followed in Indian ashrams started
By freedom movement leaders like M K Gandhi and Sri Aurobindo!

In such an Utopian place, all things of daily necessities are
Manufactured in their own industries and food products are being
Produced in own agricultural fields and business is also done!

In schools, colleges according to their own syllabus, lessons
Are taught to do works and live independent life simplifying
Living style to have high thoughts and spiritual development!

Such an Utopian life is lived in harmony with Nature for harmonious
Human development to enjoy bliss and peace for fulfilment sure...!

Ramesh T A
Ancient astronaut theory makes all change concept of God Based on researches by archaeologists, astrophysicists and Concrete proofs and interpretations of scientists since long!

Different parts of the world still have relics of Extra-Terrestrials Ending with the inference that they are all astronauts of Stars; Foreign objects still unidentified are the flying saucers we know.

Gods' chariots they are called in the past are airships of aliens; Highly advanced and developed they are we can see from relics In various parts of the world archaeologists unearth for long....!

Joint ventures of experts from all over the world confirm these. Keeping the available remains of aliens, researches are going on; Little we know still about their whereabouts in the outer Space!

Many feel that they will contact us only after we are advanced; Notions of their advancements seem to be thousands of years old! Opening a new field of research is on religious and legendary stories.

Products used by Gods were ancient rockets, missiles and TVs..... Quite amazing to know now of their advancements very long ago!

Relics of the past lying as pyramids, old structures, mountain air strips, Stone carvings and inscriptions there on are still undecipherable.....!

Truths of Earth being used as lab for experiments are mind boggling; Universe is filled with mysteries that are yet to be solved by science.

Various kinds of Extra-Terrestrials are facts that cannot be denied; World full of their marks shows as their hints for their reference...!

X Files that are yet to be ascertained are still stand as mysteries! Years of experiments and finds remain as no forward to real facts; Zero is the result we get as we are yet to advance in all respects....!

Ramesh T A
Ancient Beings!

Greys or extraterrestrials are superseding
Angels and demons all are accustomed with!
Many relics of the past in remote areas are
Still puzzling even advanced researchers...!

Visitations of ghosts and angels we know
Perhaps are actually the greys' activities!
Advanced scientific and archeological works
Give answers to many questions unanswered!

Yet, without having direct contacts with them
No conclusion and answers can be true ever!
With such notion in mind still efforts are taken
To explore the advanced beings of the ancient!

Our advancements seem very, very late ever
 Compared to the advanced ancient beings sure!

Ramesh T A
Ancient Secret Arts!

Indian mystics of the past learnt and used the yogic art of Transmigration of soul keeping it secret sans teaching it to all in Public except a chosen few who could not abuse or misuse it!

It seems Jesus could have visited India and learnt the art of Transmigration of soul on his wandering in wilderness before He began his preaching and his crucifixion and his resurrection!

In the art of herbal medicines and yoga Indian mystics had Advanced in the ancient time and such great feat were not Made public knowing well that would endanger the world...!

Selfish nature, contrary to goodness and love to solve miseries, Would increase miseries to mankind, if such spiritual arts were Not made into secret art and were taught to all in the past...!

Even then, with the inventions of destructive technologies, some Are threatening world peace and existence needing correction!

Ramesh T A
And History Repeats Itself!

Hitlers and Goebbels in politics are notoriously popular;  
With great difficulties they are finally thrown out sure;  
A lot of promises they make to memorize people in favour  
Of them, though unable to do what all they say as dreamed!

People also are spell bound like a snake to the tune of charmer;  
As nothing will come out of nothing, soon people realize and  
Oust them out of power, after seeing what all they promise and  
Create great bustle without performing anything beneficial!

This is a common thing happening in all democratic countries;  
Politics is the only field, of all occupations, people are  
hoodwinked so much making them all stooges for many and many  
Years, yet, people listen to such ones again and lose hope!

Words of fire have so much attraction that people willingly  
Get deceived to them to see what happens, if they vote such  
Ones as if playing gambling bid in every election in the  
Democratic countries of the world and history repeats itself!

Ramesh T A
And Life Goes On....!

Night without end
Everybody wants to spend
But day comes soon
When everything is favourable
And life goes on with tempo ever!

Ramesh T A
And Love Is More Than These.....!

Memory of love sustains its presence
In the hearts of the beloved ever alive!

Yes, love that is unassuming never dies!

It's impossible to miss love ever in life!

Doing everything for love is love indeed!

Love is magnetic emotion that attracts
Its pet like anything ever...!

Love lasts longer than we imagine...!

Love is sharing all with more ever!

Ramesh T A
Angel!

Dreaming eyes

Twinkling as bright Star in heaven

She is angel now!

Ramesh T A
Another Chance In Life!

Nature is the best resort when all seems to neglect one;
Green landscape endless is generous to welcome soul
Full of woes corroding the whole person in distress....
Making all look melancholic all over the world sure!

An escort by the beloved surely relieves one of pain
Nagging in the heart never looking to leave one free;
The peaceful atmosphere with cool air serving as nice
Ventilation a patient enjoys on the death bed of hospital!

What a transformation of one's nature takes place in
Such an dizzy state of mind one undergoes in pain of
Heart so sharp in its cut across the bosom of body lean
Lying on the death bed breathing one's last before all!

All face around one looks to be in a state of prayer to
The Almighty to give another chance for the delicate
Soul to survive rendering the best one can another time
For all to muse over and feel courage superb in the abode!

Ramesh T A
Antidote For Jihad Virus!

War trained men are sacrificed as goats by jihad execution
By leaders of radical bigots contrary to all world religions
Hypnotizing as if they are going to be given special status
In heaven after they die anywhere in the world in wars long!

What a deception of no value that is being obeyed by those
Senseless men functioning as robots ready to do anything
And die for the sake of their command that knows no good
Things in the world except violence and wars to kill all enmass!

Ruthless killings, ugly activities and inhuman expeditions have
They all well brainwashed and trained from childhood on sans
Any sense of humane softness to do anything good to themselves
And others but only acts of beastly nature as a disease forever...!

The death embracing jihadists are nothing but vegetated beings
Fostered only to die butchering men, women and children ever
Neeing to be eradicated and eliminated from the world enmass
As the bacteria and viruses by strong antidotes to save humankind!

Ramesh T A
Anxiety, Excitement And Uncertainty!

World peace and happy life are what everyone's dream is!
But threat to world peace and happy life are looming large
Due to terrorism and poverty haunting mankind unresolved;
Fear and uncertainty disturb all by anxiety and excitement!

Lack of education and support to the suffering people still
Remain as an unsettled debt to the world of man despite
The lopsided developments sans caring the actual need of
Many and their dreams never seem to be blooming at all...

Control of world affairs by hardliners is driving the world to
The brink of chaos, anarchy and turmoil that may explode
As bomb or erupt as volcano any moment, if the aspirations
Of deserving ones are not cared for by men in helm of affairs!

The long neglect of sincere, hard working and ambitious ones
Triggers them towards extremism, violence and wars to hell...
The best ones in every field of world life need to be harnessed
For the betterment of humankind to promote peace sure ever!

Ramesh T A
Any Use Of Pearls And Diamonds In The Hands Of Fools?

Any Use of Pearls and Diamonds in the hands of fools?

Literal meaning of anything can't take off high and land anywhere;
This is like goats and horses grazing the tip top of grasses ever!
Only surrealistic minds take the literal meanings of all for sure...
Sans understanding truth as those not reading in-between lines!

Only deep ploughing can yield rich growth of crops at harvest
Just as scientist infer truth after experiments and observations!
Philosophic poet explores mystically inspired by Nature's beauty
In pursuit of great vision to know new truths to create masterpiece!

Philosophic masterpieces of poetry are immortal messages that
Always inspire and guide the seekers of truth like the archaeological
Explorers who discover hidden treasures in caves and bottom of
Seas for the satisfaction of their hearts and welfare of mankind…!

Treasures of masterpieces are like rare pearls and diamonds of
Great value that swines and donkeys can't take to satisfy hunger!

Ramesh T A
Anything And Everything Are Confined In It! (Acrostic)

All things converged to the particular thing;
Nothing seems to be out of its jurisdiction;
Years and decades have gone away, yet, it's there;
This is the incredible specialty of money ever!
High or low, all are judged by its value in one;
India or England or America or China, it's the same;
Nowhere in the world, no one seems to be avoiding it;
God of men's world is money nothing can replace it ever!

 Anything and everything are confined in this one thing!
Novice or expert, all are measured by this one yardstick;
Daunting all matters, money occupies centre-stage forever!

Earth is spinning itself goes round the Sun like all to it!
Verification for all things are nullified by show of cash;
Eye, ear, nose and mouth are controlled by the spell of money;
Restoration of all losses are compensated by its power sure;
Yearnings of all by dreams many are fulfilled by its supply!
Tall and lofty aspirations are materialized only it easily;
Humble and haughty are made to stoop to it low due to wants;
Intellectual, emotional and spiritual experts do all with it;
No one seems to be ready to relinquish money, when it comes to one;
God of small or big things money is in the world created by man!

Ramesh T A
Anytime They Will Return As Aliens Do!

Prince and pauper, millionaire and poor mass
And all high and low are made equal by rain!
Yes, very heavy rain caused by cyclonic storm
After weakening has pounded the city with rain!

All lakes around the city are overflown with water
That runs not like flood but as river on all roads...!
No one can come out of house to go anywhere and
They all have occupied the open terrace for help...!

Army helicopters have been plying around city to
Supply water, milk and food packets to feed all...!
Millionaire though has cell phone, ATM card and
Huge deposits in banks can’t use as there’s no current!

For want of water and food, like all, millionaire too
Stands on terrace and waits for some rescue choppers!
Poor or rich, sans help among themselves, nothing can
Come for one's aid however well equipped with gadgets!

Before Nature all sophisticated developments can’t go on
Overlooking it, if man persists in polluting, exploiting all
Natural resources sans any sense of recycling renewable
Sources of energy depending only fossil fuels for all uses!

Encroaching on erstwhile lakes that have shrunk to small
Ponds can’t be believed to be a permanent place of residence;
For, Nature will once again strike back as the aliens do
To visit its old places to make a stand by now and then!

The natural course of both forest animals and Nature can’t
Be meddled with and failing which has to face wrath of both
As attacks of elephants or as cyclonic storms with heavy rains
To reclaim their due places anytime anywhere in the world!

Ramesh T A
**Apparent And Actual Truth!**

Festival of lights is celebrated for the victory of Justice over injustice in the affairs of the world
Like the classical Indian Epics of Ramayana and Mahabharata in many parts of India every year....!

Festival of lights is celebrated to encourage all
Following justice in life without fail since surely
Injustice will finally be defeated by justice in the
World life of humankind however formidable it may be!

Festival of lights is more relevant now than before
As injustice seems to be holding upper-hand in all
Walks of life perhaps due to Kali Yuga effect as
Adharma or injustice seems to be prevalent everywhere!

There is vast difference between apparent and actual
Truth as the former is illusion and latter is reality!

Ramesh T A
Appreciate Fruits Of Others Labour!

Enjoying fruits of others labour we live 
Forgetting we have to be grateful to all 
Who had selflessly done service to world!

When this is so, what right do we have 
Expecting good response from others 
Whenever we do good things selflessly?

Sans expecting any reward we have to 
Go ahead in performing our works as 
Perfectly as we can till we are satisfied!

The money and fame will not come 
Always with us or ever after our death, 
But only thoughts, memories of love!

The things we do out of love is the best 
And that only all others appreciate ever!

Ramesh T A
Appreciation Of Poem Is Rare!

Accumulation of ideas and thoughts without outlet
Urge one pour out matters to someone or somewhere
As there is no chance being in a profession different!

One day when an unexpected moment comes in life
Suddenly writing a poetic letter to a friend fortunately
One becomes a poet incredible no one can obstruct!

An example for such a case in study is myself to say;
But it is a great pity that there is no one to understand
And appreciate human expression in poetry now a days!

It is sickening to see very rarely a discerning reader
Happens to see ideas necessary for one so long needed
Not known even expressed in suitable forums like here!

When writing itself is rare about ideas of wisdom in some form
How is it going to be appreciated by all if it happens to be a poem?

Ramesh T A
Appropriate Opportunity!

We may dream about thousand dreams;
We may think about thousand thoughts;
We may plan about thousand plans ever;
But sans apt opportunity it's useless sure!

Opportunity is very important to win in
Any game, race, competition or contest!
Waiting for the appropriate opportunity
Only is the best way to achieve anything!

Till then moving defensively coins in the....
Chess game is the wise move one can make!
Only when the correct opportunity comes,
One can make a checkmate to King to finish!

Not only in Chess game but also in real war
And also in world life knowing the value of
Opportunity one has to make a move ever
To settle all scores to balance all imbalances!

Ramesh T A
It seems we are in arid zone of poetry!
As in peak summer poetry is dry here.
It may be a temporary set back now;
Inspiring poems still crop up occasionally.

After writing a lot what new one can think!
New is renewal of old and good only.
Nothing new and original ever comes!
Poetry is fine old wine in new bottle!

I enjoy drinking this wine as often as I can;
There are kisses too better than wine!
I come across kisses before love starts long
In poems wonderful and fantastic here!

Friendships develop for many sure
Influenced by poems inspiring and touching!

Ramesh T A
Arcadia!

At last reaching Arcadia I have heaved a sigh of relief!
Life full of wars, struggles to power and nightmares
No more to worry about like machine doing all...!

Freedom to live as I please at last has come now
On this land of fine atmosphere and peace ever
Full of orchards, fruits and flowers inviting me...!

Fountains here and there beautiful flowing amidst
Green meadows with little yellow flowers smiling
Welcoming with love and care for me to lie on.....!

Palace of pleasure dome full of colourful chandeliers
Hanging in revolution as to the music of lyres on
Milky damsel walks as if dancing towards me.....!

Transparent attire eminently exposing statue like
Damsel with beaming smile extending her hands
Like temple chariot approaches me sure to embrace!

What a beauty Creator has carved her stature
Mainly to accrue passion to kiss with gratitude
Ever enjoying joy with her full of satisfaction....!

Life of bitter taste has disappeared now sure
After seeing this heavenly Arcadia to live as I wish
And Time and Space are nothing to muse over now..!

Ramesh T A
Are Birthday Wishes Necessary?

Celebration of birthday party cutting cake with grand feast
All gusts enjoy most saying greetings and wishes to the host;
Being all familiar with social media, all wishes and all
Sorts of greetings are conveyed there itself sans meeting!

Even to do that, many forget close personalities too often;
It seems saying birthday greetings and wishes too not at all
Necessary as no one pays much importance to that after getting
All benefits and forgetting the persons familiar once.....!

Even after saying a blessing, wishes and greetings to some,
There is no response from other side as if the greeter is
A stranger though known and commented many times on Facebook;
What kind of relationship is this?A question is nagging now!

Can this be a friendship at all fostering love and goodness
As humans of high sense far better than animals or plants?

Ramesh T A
Are Holidays Really Joyful Days?

Only holidays are happy days for workers and students
In all walks of life and institutions everywhere in the world!
Only crowds going to and fro in the town remind of holiday;
Yes! Today is Sunday and that too Christmas day to say!!!

Because Christmas has come on usual holiday, it's lustreless;
Otherwise, Christmas holiday would be very joyous indeed!
In the same-way, New Year is also coming so this time and
So, another lustreless festive holiday all have to enjoy soon!

Significance of festive or national holidays lie in working days
So that people can enjoy holidays like blessing in disguise or
An oasis in the wide desert of working day life all undergo ever!
Only our mind can know this anomaly, though it's a nil matter!

Only interesting jobs can make one never care for time, day or
Night, holidays or festival time as jobs bring all joys one needs!
Such jobs only can bring satisfaction in life and never profitable
And big money fetching mechanical job life of monotony forever!

Ramesh T A
Are We Able To Do As We Wish?

Another day of my life has begun;
All credits come very slow but
All debits take place before all!

Earning and spending we live life;
Is this how life has to be lived ever?
Nothing seems to be free from tags!

We say we are free in democratic rule;
But we are chained to all in the society!
Where is individual freedom at all...?

Nothing we can do as we please here;
For everything there are rules, licenses,
Without which we cannot move about!

Even to go abroad we should have all
Passport, visa, etc. ready except for death!

Ramesh T A
Are We All Humans?

Now the world is like an ant caught between
Water and fire, Nuclear proliferation and terrorism!
Weapons of mass destruction in the hands of
Terrorists is the biggest danger world encounters!

How to turn the direction of world from violence
To the path of nonviolence is the perspective we
All have to explore and expose to the world today
To make mankind embrace love and peace sure!

One side man made violence and on the other side
Natural disasters like Earthquakes, cyclones and
Storms are other vital issues needing immediate
Attention of all to solving pollution problem sure!

Man's reckless behaviour in meddling with natural
Resources has led to the status today needing surely
Immediate action to change all things for the better
And make nonviolence must if we are all humans...!

Ramesh T A
Are We Really Advanced To Feel Proud?

Astronauts travel in rockets to other planets;
We feel very proud that man is travelling
Even to Moon and other planets and Stars!
Technological pride makes us elated much!

But the old relics and inscriptions on them
Show ancient astronauts as our own ones!
This means we are advanced to their level
Now only after thousands of years, know!

Our pride immediately goes to pieces and
We feel we have missed much to reach them!
Now, what kind of beings are living in other
Planets in other Stars in the out Space? Wow!

Our pride of achievement is nothing before
The living beings of other planets in Space!
They are not meeting us so long due to our
Own lack of advancement to their levels...!

Ramesh T A
Are We Smart To End The Chaos Before Happening?

November is the month North-East monsoon strikes
At its best with rains, storms and even tsunamis;
If nothing of the sort happens in November, then,
Biggest storm of a new kind strikes before December!

We have seen tremor, earthquakes accompanied by
Even tsunamis and heaviest rains in our life-time;
Many horrible things about Nature we are seeing
After polluting by exploiting natural resources!

Climate change has brought in all kinds of ugly
Happenings from Nature's wrath both in Summers
And in Winters; have we changed our way of life?
Is it smart to wait till the end to see big havoc?

Prevention is better than cure we all know for long;
But have we taken steps to change all for the good?

Ramesh T A
Potential war fields are arena gallery without spectators! 
Except the news reporters nobody knows what's happening. 
This is the status of magazines and websites now! 
Here also too many poets are in the arena sans spectators! 
Some poets have their own readers to support and rank them; 
With that voting they hold on top positions in top players list! 
Readerless newspapers, magazines and websites are many; 
But writers, poets and commentators thrive without recognition! 
Is it fair to bring one's own readers and write matters here? 
What a pity writers of words have no place in the society! 
In reality they are the eye witness of problems of society 
To bring to the knowledge of authority for remedy everywhere! 
Like soldiers in the merciless deserts poets weave words 
To produce poems by their magic power to bring solace to all!

Ramesh T A
Arid Zone!

Hot sun is steadily making all exhausted!
Drowsiness keeps the mind stagnant;
Cool breeze, light beverage keep refreshed.

Nothing interesting seems to be at sight;
All are in a state of delirium at noon sure;
Shade with cool breeze is what needed most!

Summer holiday to cool hill resorts is best
It seems when everything stands still by heat!
Fruits and water melon give a sigh of relief!

No work seems to be progressing in such state
Making all look for some soothing break sure
Whatever be the urgency or necessity of duty!

Exhausted all seek at least water to drink first
And wash face to gain freshness now and then!

Ramesh T A
Arise, Awake And Sleep Not Till The Goal Is Realized!

Truth, wisdom and nonviolence are the path of love to achieve
Peace and prosperity for all meek or poor or downtrodden.....!
Buddha, Jesus and Gandhi are messiahs of God who have lived
Among all in the world to show way of joy to live in prosperity so!

Immortal words of those divine personalities still hold good to
Take all people in the right direction to achieve all by love and
Peace like the poets of the world are working in their foot steps
To bring laurels in flying colours by creating one world sure....!

Familiarizing the truth that the world is one human family to bring
All hearts of love together, world great poets have come forward
To realize the great dream of those mahatmas for all to share the
Good benefits sans a single soul to suffer for wants in poverty....!

They say a friend in need is a friend in deed not just in words
Only that are as words written on water never turning into truths!
So, let us all say let words pass and let deeds speak to alleviate
Suffering poor to rise, awake and sleep not till goal is realized!

Ramesh T A
Army Of Natural War!

Fertile fields of agriculture on either side of the track
Surely are a great welcome gesture of Nature for all
Travelling in the train for one hour to the next place!

All green crops of the same size and stature look cool
As velvet cloth for the white storks to land safe to have
Feast till the season changes for them to return home soon!

All frogs, small fish and other reptiles they have as food
While breeding their generation before flying to their
Places around the world somewhere in the northern part!

Birds of various hues and their groups flocking together
Indeed look like regiments of army that have occupied
On the last stage of war ended earlier before return home!

What a hopeful time for all to enjoy before declaration of
Victory for all troops that have stayed long in natural war!

Ramesh T A
Art And Artificial Intelligence!

Rhythmic lines of poem are the waves of ocean;
Rhythmic music of words makes all dance ever;
Dancing to the tune of musical words of poetry
All activities of humans go on the ideas of great!

That's why poetry, music, song and dance are eternal
In the human world, though time changes all things;
This is the culture man cannot ever relinquish, even
If civilization mechanizes all sans human involvement!

Artificial intelligence may master all arts and poems
Man has developed so long and so forth in the world;
But human creativity is based on his unique feeling of
Heart mind creates various works of art impossible by it!

Technological instruments are useful to keep all man's
Best creations in store for retrieval whenever he wants;
That way time can be saved to quickly reach the climax
In all things to find a better way to achieve new matters!

Ramesh T A
Art And Engineering Works!

Days we love to do things with joy have gone; 
Mechanically everything is done nowadays...!

What is the difference between artist and engineer? 
Artist does everything with feeling and imagination; 
Engineer does everything with thoughts and planning.

Artistic works attract all and kindle feelings within all; 
Engineering works are great marvels due to technology; 
Engineering work with artistic imagination is great sure!

Designs of engineering works are practically possible; 
But designs of artistic works are creatively possible...!
Both have a gift of workmanship each has to respect.

Natural talent is a gift of God only the creative mind does; 
Talent may be improved by practice, but genius is a gift 
Only a chosen few have whom we admire sans reservation!

Ramesh T A
Art And Nature Great Boon Of Life!

Art, music, song, painting, poetry and dance are great Inspiration and enthusiasm to cheer up mood to do all; They are the consolation and compensation for all things Unfulfilled in life to give another chance and hope sure!

Without art and poetry, true expression of Self is not Possible in world life to achieve one's mark ever sure; Without art, literature and poetry, human life in the World is incomplete and fulfilment of dreams is impossible!

Nature is the source of inspiration for art, painting and Poetry, life and all in the world we all live in forever; The awesome beauty of Nature attracts and absorbs whole soul Of humans and inspires many ideas to philosophers and scientists!

Living in harmony with Nature gives immense pleasure in life And turns lovers of art and Nature into mystics and poets great!

Ramesh T A
Art Creator!

With light touches of clouds in stripes
Divine Creator starts drawing picture!

White cotton clouds at the base of sky
He dips his brush of sun rays in it first;
He darkens the stripes and enlarges
To make bigger clouds out of it slowly.

The lively vibrant art takes all shapes
On the canvas of sky blue all day ever!
The lifeless frozen art of man just copies
A fixed pose only out of the real picture!

What a difference between the real one
And the copy within a few minutes.....!
Many hours man takes just to draw one..;
But Supreme One makes many out of one!

Ramesh T A
Art Fascinates!

Artistic acumen

Quite minute in skill

Fascinates fans!

Ramesh T A
Art For Freedom!

Music and dance give relaxation and relief!
Wind and river dance and go forever free;
If we also dance to music we too feel free!
Painting, sculpture, poetry and music make us
Fresh and new inducing forgetfulness of the past!

Lyrical poetry makes us sing and dance to be free;
Its new version is pop song we hear everywhere!
Musicians, singers and dancers are best entertainers
Moving the world by their melodious tune memorable;
Oscar and Grammy awards are their worthy honours!

Lovers of freedom, birds sing and do all jobs joyously
From the morning till evening nonstop everyday ever!
Combining song and dance or work and dance they live
Making people learn value of music and dance in life;
This is the way to be happy and gay to live in freedom!

Ramesh T A
Art In The Hand Of A Genius Makes A Feat Of Achievement!

Talent in any form of art is a great boon for one ever
Who can make magic to put audience in spell bound state,
Which is really a great feat of achievement in the world!

Not only story writing or novel or painting or poetry but
Also article writing and critical analysis exposing truth
Are all art needing talent or genius to create worthy idea!

Impressive and acceptable by all sorts of persons are not
An easy matter to make by an art one can be capable of doing
Great feat unless one has real love, interest and zeal perfect!

Every creative artist in any form of art can do miracles, only
If one has die hart involvement in it not bothering about any
Consequence or success or failure in such an adventure in work!

So, art in the hand of a born artist is a great magic wand
To do many magical feats the world will welcome with joy..!

Ramesh T A
Art Nature Paints!

Art in Nature see all

At the Sunset and Nature in Art

See all in paintings!

Ramesh T A
Art Of Dance And Life!

A vast difference there is between life and dance in the world;  
Best performance of a dance is possible to do by one who loves it;  
Care is much needed to live life against odds to go on till end;  
Dance is balancing movements unlike balancing vagaries of life!

Entire life one cannot dance to the tune of all unlike in dance;  
Full of interest, enthusiasm and energy one plays a dance performance;  
Great artist one is praised, but such a thing is impossible in life;  
High risks one has to take due to responsibility that tightens noose!

Ice cold winter life is bitter to bear, but dance is joyful experience,  
Joy of southern breeze of summer quite romantic to enjoy unlike in life;  
Keeping the dancing spirit how can one live a responsible life ever so?  
Life full of dances is not a drama to play, but an art difficult to do!

Much skill is needed to maintain poise in dance all can appreciate, but  
None is there to applause, if one does responsible life dance well...;  
Openly no one praises one's life style out of jealously or ill well ever;  
Performance of a dance, but, is praised if honourble virtuoso sees it!

Queen of dance gets applause to pass time in art work sans life vagaries;  
Responsible house-wife cannot get any such applause in life work as in art;  
Shorttime performance of dance one can enjoy ever, but not longtime life;  
True artist performs both life dance and drama dance with equal poise...!

Universal applause one will get, if one takes responsibility of life and  
Victory in dance performance also, after doing life duty first ever sure  
Well satisfying both family members in private and audience in public..;  
X and Y, but hungry for wealth, never respects art and life as divine!

Years of careful living by a single flaw fate jeopardizes one's repute, but  
Zeal of achieving ambition to amass wealth, dance artist murders divine art!

Ramesh T A
Art Of Dance To Sublime State!

Gestures of dance speak ideas to the people forever...;
Song and music help dance to say ideas perfect and clear;
Correct expression of ideas by gestures is an art sure;
Achieving perfection in dance art needs maturity of mind!

Dance is good physical exercise, art and a medium to go
High spiritually to a state of divine quite unique sure;
Communion of heart, mind and soul with the all pervadiing
Spirit or Universal spiritual energy gives highest bliss!

Like a mystical poet enjoys bliss in communion with Nature,
It is possible for a classical dancer to achieve a state
Of dizzy rapture by spiritually involving oneself with the
Concentration of mind in one form of all pervading energy!

All arts like dance leads one to sublime or blissful state
By spiritual involvement in art as mystic does in Nature..!

Ramesh T A
Art Of Infinite God In The Human Form!

Before the spread of knowledge and also,
Intellectual thoughts evolved to perfection,
About the expression of abstract ideas, only
The paintings of expert artists rendered it..!

Various forms of God evolved finally to the
Idea that God is Universal spirit present in
All things activating everything everywhere
Cannot be visualized except by realization!

With the naked eye such an infinite God can't
Be visualized but can be possible if one has the
Eye of wisdom as mystics do, says God Krishna
To Arjuna in Bhagavad Gita of Mahabharata epic!

Such an idea of infinite God the expert artist only
Has drawn God in the human form as having many
Heads, legs, hands and weapons covering the whole
Universe with landscape, fire, water, wind and Space!

Ramesh T A
Art Of Life

Eat for yourself to live in the world;
Dress for others to view and please.
Nature is God's creation of living art;
and life is man's action of literary art.

Art of living is successful expression of personality;
Expression in art is enactment of life experience.
Ramayana, Mahabharata, Iliad and Odyssey are Epics
Reflecting life of man to know and live life well here!

Ramesh T A
Art Of Life!

If you go by the saying that art for art's sake,
It is like doing great research sans inference..!
Dance is an art to entertain and instruct just
As literature does by poetry, plays and novels.
For living life they are all necessary but life is
Not just art or dance or science or poetry ever!
If one is for art or dance or poetry or science
Only, one cannot love and live a family life!
Life is culture that includes all in one for life,
But not just a part as whole of life forever....!
If you want to live a good life, you should have
A balanced dose of all in one but not one only!
If you want to live a life with only one as all,
You will be mad to live a meaningless life sure!

Ramesh T A
Art Of Poetry Writing!

In a flash of a moment all ideas appear and disappear!
Before the trance ends one has to write poem in words;
Even if the urge is unfulfilled, it can't be written later;
Poetry writing is a gift not possible by everyone ever!

For the poet mood, inspiration and interest urge to write;
Even after writing a few words, if proper ideas and the mood
Come later too, it is possible to write and complete a poem;
Likewise, like the honey bee builds beehive poet writes poetry!

Poetry writing has the essence of all skills of writings such as
Essay, short story, novel and drama in one as the artist builds
Castle in the air before capturing it on a canvas by painting
Or a photo-artist snaps rare pictures to make a beautiful album!

Poetry writing not only gives great pleasure but also a pride and
Fulfilment nothing can as the verse lasts as voice of Veda forever!

Ramesh T A
Art Or Personality?

Personality or art?
That is the question!
Decide for long journey!

Many express many
But never forget themselves
To put their mark in art!

But truly interested ones
Escape in their art somewhere
In the world of bliss long!

The effect of meditation
Artists enjoy in their works
To get bliss and satisfaction!

Geniuses are of both kinds
People cherish in memory
And enjoy bliss quite divine!

Ramesh T A
Art Reflects Nature!

Nature and art are two opposite things.
Natural is real, but artificial is duplicate!
Art is the expression imitated from real
Thing as model to make statue or picture!

Art is the xerox copy of the original one;
Artist is the copier producing art by skill!
Sans the model in mind or combination of
Models by imagination, art can't be created!

Literature is a mirror reflecting life experience;
Literature is a great art that amuses and guides
In poetry, novels, short stories and plays ever
Based on human experiences of life by genius!

Nature is reality, but art is illusion invented by
Man to create all things he loves to entertain,
Inspire, instruct and guide by ideas based on
Experiences of life by thoughts or imagination!

Ramesh T A
Art Work Inspiring To Divinity!

We all know that a lover of beauty is an artist...;
He only can create a thing of beauty, a joy ever!
Sans love, if an art work is created, it's rejected;
A fake many be popular, but only original lasts!

Creativity of an art may even be taken to divinity
Depending upon good heart, high mind and divine
Spirit of an artist born for and devoted to art ever
And can inspire and instruct everyone to divinity!

More than the artist, the art should absorb all and
Transport to the world he has created in his work,
Which only can last longer serving the people ever
With its high purpose of transforming all to sublimity!

Behind the great works of art there will be a noble one
Entertaining and elevating everyone eternally to divinity!

Ramesh T A
Artificial And Natural Poetry!

Poetry is the essence of expression
Of one's feeling, thoughts, imagination
That grows like a tree, flows like river
Blooms like flower and tastes as fruits!

Mechanical assemblage of words
Makes it insipid and lifeless toy!
Only naturally free flowing words
Making into meaningful verse is real!

Entertaining and meaningful verses
Are gift of God to persons of love
Towards poetry as music to song
We love to hear all through our life!

Natural poems are as beautiful as Nature
But artificial poems are dry as frozen art!

Ramesh T A
Artificial And Natural Stories To Know Truth To Believe!

Even after I am writing many poems on pages after pages,
Even if great leaders or writers or politicians say,
Even many predictions are made by prophets over hills,
All cannot even guess what it is by any means possible
The things like soul, spirit, heaven and hell forever!

Many write and define by quoting angel like characters
Depicted in epics and classical literature of the world;
Yet, they all cannot be physically proved as the atheists
Say with bold words to many great audiences of the world
As no proof has been really found out so far and so forth!

We have history, literature, art and above all Nature to
Observe all happenings each and every day of our life to
Verify what the poets say, historians write and philosophers
Ever say wise words to say this is right and that is wrong!

Ramesh T A
Artificial Modern Materialistic Life!

Living life in the world is like writing Poetry
On the paper, when the mood comes sans anything
In the mind, but, when completed, it's an art, if
It is depicted naturally sans any artificiality!

The question is - are we living life naturally?
With so many restrictions like religion, class
Or caste, laws and status, our freedom becomes
Effectless to live a natural life in the world!

Modern world is materialistic one giving prominence
Only to economy, science and technology sans caring
Social thoughts for living quality world life as
All are made to compete with machine set by Time!

Is modern life evolved due to civilization to be so?
Are we are humans or machines having no value unless
One is well amassed with wealth having no consideration
For love and human sense in all dealing in the world?

This kind of artificial materialistic life in the modern
World is called civilization that has no base of culture
Making human life totally incomplete sans any consideration
For art, Nature, music, books, poetry and love of beauty!

Ramesh T A
Artificial Or Natural?

Freshness of natural air is a boon
One has to enjoy life better sure!
Modern flats with air conditioning
Keeps cool but not keep fresh body!

Skin problem and cold affect much
Sudden exposure to extremes sure!
Natural surrounding keeps all healthy
But preservation keeps all frozen ever!

Naturalness maintains strength to face
All adverse conditions better forever!
Being part of Nature it can't be ignored
In the name of modernity or development!

Which is better - being near or far off
From Nature which is eternal sure....?

Ramesh T A
Artistic Beauty In Nature!

Artistic scenes of Nature are lively and lovely
Unlike the lifeless art men create in the world!
Best things of beauty in Nature are free for all
To enjoy forever and to imitate if possible sure!

Nature ever excels all arts of men by grandeur
Ever simple, elegant and unique none can copy!
Ever beauty of Nature grand absorbs all sure
Heart, mind and soul to eternal bliss quit divine!

For sorrow, solace and peace the only best resort
We have ever is Nature in all its manifestations...
No art of man can replace it however ingenious
The expressions can be in any form of art ever...!

Lively and lovely art in Nature is a great boon
For man on Earth both for sorrow and joy ever!

Ramesh T A
Artistic Carvings!

Art is gaining ground across the globe;  
Is art for art’s sake or for social good?  
Art is expression of beauty and benefits  
In many ways to many in many forms!

Artistic ice carvings and carvings on sand  
People are much attracted to I see often!  
Highlighting world peace and AIDS relief  
Many such artistic works go on everywhere!

Poetry has done immeasurable service so  
And go on serving people enlightening all  
Of the evils and development of humanism.  
Music too immensely attracts serving so well!

New artistic carvings on sand and ice are cynosure  
Now that occupies minds of all better indeed here!

Ramesh T A
Arts Alive!

Performing arts
Music, song, dance
All enjoy ever!
Dance to the tune of
Music and song
Rejuvenates spirit!
Colourful dance
Enthusiastic music
Song meaningful
Are performance poetry!
Poetry maestro of arts
Makes symphony
From embryo on!
Arts with poetry
Rich as literature
Captures hearts
Forever and ever!

Ramesh T A
As Gods Forever....!

Summer has come in the East here;
But I find storms and rains there....!
What a world we all live in so long
Full of pros and cons in all things..!

Life is full of joy and sorrow ever....;
Yet, we pull on the days to the end!
Even in love there's pain and pleasure
We have to enjoy sans any exception!

All good and wise men have met with
Great tragedy, but their words still live!
After them people remember them sans
Fail in all their days of birth and death!

Sacrificing their lives they in hearts of all
As immortal beings and Gods forever....!

Ramesh T A
As If Human Children!

All domestic cute birds and squirrels live
A peaceful life by cooperation and coordination
Among themselves singing songs of love ever!

What a care-free life they live mocking at men
Who pride themselves as masters of civilization
With modern technological advancements in pollution!

No peace, love and joy modern men have in life,
But only worries and nightmares with no respite
To live as birds and squirrels who play and live!

What a life man has embraced to live in the world!
The squirrels roll round my legs, when I am reading
Newspaper in the morning making me give company to them!

I laugh and share this beautiful squirrels' plays
As if human children in my house now and then...!

Ramesh T A
As One Likes It!

Trauma of death like birth pang.....
Never leaves anyone free at the end!

Birth and death are twins in life for all!
Beginning and end of life they accompany;
There's no change for any VIP in the world!

Days spent should be worthwhile one;
That's most important all should see.

Beauty enjoyed by sight cheers mind;
Sweet fruit tasted is never forgotten;
Love enjoyed in life is record in poetry!

For all the journey or enjoyment end is!
There is no exception for anyone here.

Whatever the beginning may be for one
The course of journey can be corrected
Before one reaches the end as one likes it!

Ramesh T A
As You Sow So You Reap!

Black Zoo was an old horror movie;  
Zoo keeper throws all he dislikes  
Inside the cages of lion or tiger...!

Missing people police could not find;  
But strange disappearances of people  
Go on endless in the town very often!

His only daughter loves a romantic guy;  
But he doesn't like him and decides to  
Finish him as meal to one of his animals!

Hero escapes by a rare change being  
Strong and alert ever in their company!  
So, Zoo owner allows animals near her!

When hungry animals are about to spring  
Hero drags her out and throws Zoo-er inside!

Ramesh T A
As You Sow....

Regeneration is a common design in Nature;
Regeneration goes on good or bad in Nature!

'As you sow so you reap, ' says a well known one;
If we cultivate good crop we have good yield;
If we cultivate bad one we will have bad one!

Even fossil creatures can be regenerated by science!
Natural selection has destroyed certain species;
But regeneration is a continuous process in Nature
Perhaps programmed by the Supreme Creator!

By science humans can be cloned in test-tubes;
After that regeneration of that kind will go on
By the magical power of Nature on the Earth!

Regeneration is a phenomenon possible only here
Perhaps but not in other planets in the Universe!

Ramesh T A
Aspire For What You Deserve!

Gai kai khai
Telle ami khata musaiga?

What the cow will eat
Can we be able to eat that?
Each one has to eat what one can
For, one man's food another man's poison!

Seeing the elephant can the cat eat like it?
No, it is beyond one's nature to try so!
So, we have to see what we deserve
And desire what we actually deserve!

Ramesh T A
Aspire High!

Never be
Mean, cruel and false
If you aspire high!

Ramesh T A
Assessment Of Human Nature!

What can we say about human nature in the world?
Man behaves like animal, when he is aggressive and
He acts like angel, when he is selfless in giving all...!

Human nature is neither animal like nor divine like.....;
Human nature is in-between animal and divine natures;
Human nature is incomplete without human sense in all!

Human nature becomes perfect, only when man is ever
Full of human sense in thoughts, words and deeds in life
Sans animal or divine nature dominating in all his acts!

Man improves his character by pruning his personality by
Advanced knowledge and developments in various fields
Making all impressed by the execution of his wishes ever!

Knowing one's nature and self, it is possible to know and
Assess how far human nature has developed or changed!

Ramesh T A
At Last Reality Is Known!

Walking down to the street notice all how huge
The traffic is as sunlight and moonlight are
Not visible inside the closed air conditioned
Room of working place anywhere in the world now!

Occupied in the work, nothing is noticed of what
Actually happens outside in the area where one
Works day and night to finish assignments of
Senior most person of the institution for sure!

Only if cyclone or storm or heavy rain hits the
City, all works are paralyzed due to lack of
Electrical power supply and all come to senses
To escape from the disaster zone to safety sure!

All are living in illusion, it seems and only by
The rousing of Nature’s wrath all know reality!

Ramesh T A
Atmosphere Of Romance And Love!

Romance and love beautiful surrounding of Nature
Certainly kindles in the hearts of everyone who has
Great interest in the aesthetic aspect of atmosphere!

We are all parts of Nature that rules our heart, mind
And soul whether we realize it or not in our lifetime;
But Nature never leaves as in despair or desolation!

Though we are left forlorn by all dear ones and fellows,
Nature is one thing that never betrays us ever in this
World of trees, flowers, green meadows and hills....!

Rivers, lakes, birds, blue sky and beautiful blue ocean
Full many of happy incidents kindle us great interest in
Observing all things of beauty ever that sway hearts....!

As long as these beautiful aspects of Nature are there,
How can romance and love man forget to be a brute!

Ramesh T A
Atop All!

Top position
Never remains the same
Unless maintained!

Ramesh T A
Attachment To Naure!

How is love of Nature developing in one?
Somewhere sometime in the past sure
Experience of oneself in Nature alone
Love of Nature must have begun in one!

Walking alone in Nature thoughts go on
Absorbed by the beauty of Sky, Sea, trees,
Mountains, rivers and valleys sometime
Kindling imagination roam as mad horse!

Fed by the elixir of beauty of Nature sure
One cannot resist seeing the same beauty
Some other time alone due to some reason
Making one a disciple of Nature as God ever!

So I too had my own special experience in
Nature beautiful at a hill station in Summer
Surely created a deep impression inside me
That never leaves me think separate from it!

Ramesh T A
Attain Freedom, Bliss And Peace By Love!

Freedom anywhere in the world is not
So true as freedom under love ever..
Freedom and joy one can really enjoy
Only where love prevails in everything!

Beauty and truth in all arts and life
Soar high to sublimity by love sure;
A liberation of heart, mind ans soul
One is transformed to by love spell!

Loving soul enjoys total freedom from
Fear, pride, ego, hatred and jealousy;
A soul of such a state is in nirvana
Status ready to attain total liberation!

The sense of freedom, bliss and peace,
Only a selfless heart achieves by love!

Ramesh T A
Attraction!

Eyes roam about
Glittering lights of attraction
But not on truth!

Ramesh T A
Auaroville Express Train!

Auroville is international city of dawn the world knows;
Auroville express train going to the town of its origin
Now seems to be new to know if one travels from Madras!

Train going to Auroville's town of origin sans touching it
Indeed makes one wonder why it is introduced so sans giving
Any chance to view the city of dawn by travelling in it!

Auroville name itself inspires and kindles all to see it
One day if not by travelling in a train to the adjoining
Erstwhile French town with beach and park attracting all!

A spiritual city for enlightening all to attain divine bliss
All think about as soon as Auroville is mentioned by some way
Or rather though nothing is known about of it in the world!

Just a name has such a power means what an achievement the...
Creation of an international city of dawn under Auroville name!

Ramesh T A
August Blessing!

Daily rain grows all plants rich;
Trees grow dense and dance in wind;
What a beautiful scene Nature has
Created just before Autumn's visit!

Climate change is blessing in disguise
It seems in the month of August now;
Cool climate of Winter in the beginning
Now seems to bring this change nice!

Hot afternoon and cool rain before
Evening starts to come happen now;
Both hot and cool time occur daily
Making all enjoy weather better sure!

It makes me say - If Sun comes daily,
Can Moon be far off to come in night?

Ramesh T A
Autumn Fruits!

Autumn season
Fruits are ripe everywhere
For festivals!

Ramesh T A
Autumn Is Brown!

The colour of Autumn is brown
Like the leaves of Spring are crown!
The colour of Winter is white
Like the Summer heat at its height!

Falling dry leaves are symbol of Autumn
After flowers of Spring with bees hum!
Autumn is the symbol of wisdom ever
After rich growth of fruits in Spring sure!

Rain in Autumn is joyful as in heaven
Just as for the birds trees are haven!
Autumn ever denotes mental maturity
Just as fully grown flowers of beauty!

Ramesh T A
Aventure In The Dense Labyrinth!

The misguided youths are provoked to indulge in violence;
They not knowing that they are sacrificed for nothing, get
Some chance to pacify their worn out feeling with money
They cannot even dream about at the cost of their life ever!

Sans education, training and job, what else can they do other
Than sacrificing their precious lives to get the money for some
Mercenary works paid before hand to do the job no sensible
And knowledgeable person would think of doing ever in life?

In the name of elders and chief of obsolete religious order, a
Few radical bigots having the rich barons under control do all
Havoc using the wayward and good for nothing youths with
Training from childhood try to change the world to old age!

This is like turning the time to the past instead of preparing
Oneself to face the future with well equipped knowledge ever!
This is like the classical example of clash between civilization
And old religious culture as an adventure in the dense labyrinth!

Ramesh T A
Aversion!

Aversion comes
When everything is rejected
And nothing cared!

Ramesh T A
Awakening Of Inner Spirit!

Drowsiness after a travel nearby Metro
Makes me difficult to browse over sites!
Hangover of the previous day's journey
Continues till perhaps a brief rest is over!
With a blind outlook I look at the poems
Published here beautifully displaying gift!
More than talent or genius God's gift sure
Takes one and all to a wide field in depth
To explore precious gems and treasures
Deep in the ocean of poetic literature ever!
That journey surely awakens the inner spirit
And the power lying idle is unleashed at last
Displaying wide range of aspects of world
Full of colour, beauty, truth and bliss fine!

Ramesh T A
Awakening wrath against other religions and languages
Turns humans into animals in nature that ignites fire
That spreads all over the forest and town burning all
To ashes and getting out of it is impossible forever!

All cannot be phoenix birds to rise again from ashes
To fly as free birds sans attachment to anything in
Particular to the extent of hating other things in
One's own domain working as partners for common progress!

Realizing that all are part and parcel of one nation,
All should share all natural resources with all as
Brothers to maintain national unity and security ever
So that progress and prosperity can be achieved soon!

Unless awaking of oneness of all as one people in the
Name of nation, no dispute can be settled forever and
Nonviolence and peace cannot be seen anywhere to solve
Main problems like hunger, poverty and unemployment sure!

Ramesh T A
Awe Inspiring Resplendence Of Nature!

When I visualize the dawn of morning sun,
I get the images of beauty of Nature fine;
Resplendence of Eastern horizon is wonder
Before it all remain in silence in respect!

Is it a calm before storm as they ever say?
Is it the calm before war conch sound starts?
It is the resplendence that awe inspires all
To salute Sun before busy day starts with force!

Road traffic sound goes on like war on full toss,
When the sun climbs high in the sky to the zenith
And goes down dealing all matters as precisely as
Possible before seeing the end of the day in west!

After finishing the day's mission, what a resplendence
The western horizon attires itself with same calmness
Of all as at the dawn to end the day in gorgeously...
Majestic fashion displaying the grandeur of Nature..!

Ramesh T A
Back To Square One Round!

We are all born to die one day!
But how we die is kept in suspense.
Ants, mosquitoes, animals and birds
All do their activities sans our fear!
Our fear of death comes of knowledge
Which is lacking in them all to be free!
The more we know the more we fear
And so, ignorance seems to be bliss ever!
So many things man discovers and creates
Yet none can escape from old age and death!
Accidents and natural calamities too kill many
Sans their knowing it like any other animal!
We always come to square one whatever we do
As everything is round as the Earth we live on!

Ramesh T A
Bad And Good Love!

Love is good;
Love is like sweet;
Even nectar becomes poison
When it is consumed in abundance!

Too much of love spoils all!
Loved ones are spoiled in life
Due to too much love care always!

But lovelessness makes a brute;
Lack of love has made angry men,
Who cannot be tamed by anything else!

Love is sweet;
Love should be shown if necessary;
Love when unnecessary makes bad;
Love is necessary to make all good and sweet!

Ramesh T A
Bad And Good Nature!

Squirrels play all round the place with joy in the day;  
Rats come after sunset and loot things in the night!  
Ants, cattle and peace loving animals do all in the day;  
Wild carnivorous animals come and hunt in the night!

Farmers, weavers and professionals do work in day;  
Thieves, robbers and criminals do all crimes in the night!  
Good and bad living beings live side by side in Nature;  
But man has all kinds of attributes as a mask to do all!

Even in the sea the fish living near the surface is where  
The sun light falls and forms their nature work bright  
And those sea living species are harmless and good.

But the creatures living below the dark bottom of sea  
Never see the lights and are dangerous and harmful ever!  
Indeed Nature is mysterious in balancing ecology so ever!

Ramesh T A
Bad Bargain!

Making good
Of a bad bargain
We live ever!

Ramesh T A
Bad Force!

Due to much corruption

Nothing seems to move fruitfully

Top to bottom good or bad!

Ramesh T A
Bad Friday!

How could the day of killing of Christ be a good day?
It was indeed a very Bad Friday in the history of man!
After killing him everyone could have forgotten but
Because he resurrected on Sunday everyone believed
That Jesus Christ was not man but God and prays ever!

That very Bad Friday is being celebrated as Good Friday
Ever since he has resurrected like the Indian mystics,
Who transmigrated soul from one body to another by Yoga,
Which Jesus Christ had learnt from India on his wilderness!
Both magic and transmigration had made him God to men!

His preaching about love lives even today making all humans
Mainly due to the resurrection and confidence he has created!

Ramesh T A
Bad Or Good Day?

How can the day

Of killing Christ become

Good Friday?

Ramesh T A
Baffling Symptoms Of Small Illnesses!

Ordinary illnesses kindle thoughts on greater diseases
And make one afraid of many complications leading to
Death which is unpredictable for anyone in the world!

Nagging cold makes one drowsy and dull all day long
Making breathing difficult due to blocking of nose;
Bile problem makes one's head reel in all directions!

Such ordinary illness symptoms by imagination big make
Formidable to the level of giants and cause horrible
Nightmares to one to the extent of falling from bed..!

Small illnesses leading to complicated bigger diseases
Bring many a people's lives meet their ends somehow and
That put many in great predicament obstructing usual works!

It is well known that small drops make big flood and in
The same way small illnesses lead to bigger diseases too!

Ramesh T A
Balance Between Marriages And Divorces!

Marriages and divorces are balancing with each other nowadays!
Why should there be so many divorces so early and fast now?
Are the marriages made from blind love without any guarantee?
It looks so funny to read about such loves, marriages and divorces!

Divorced men and women are again loving and marrying afterwards!
This is also quite ridiculous to see happening everywhere nowadays!
Are their unions again taking place due to attraction of sex or love?
They all make one search about the meaning of love and sex again!

Marriage is a commitment for the couples both for good and bad times!
Each should give oneself for the other through thick and thin in life.
Sex is temporary but love is permanent in life for all couples in the world;
Marriage for Selfish reasons cannot last longer leading to divorces only!

Patience and perseverance will keep couples together sans selfishness;
But fast and rigid mode of life cannot keep couples together any longer!

Ramesh T A
Balancing Pain And Pleasure!

Evening has come after a hottest day as if
Soothing with a balm by its coolness sure!
What a relief from hottest time to cool time
Relieving the stress and strain so soothing!

Massage all have to bring relief to body;
Likewise the evening cool breeze coming
From the South really brings relief to the
Tired soul after undergoing a long grief!

Night brings solace to the worn out soul
By the hot day's work relentless and has
No pity for the suffering when work has
To be done to finish an obligation sure...!

Pain and pleasure are there for humans
To balance one's suffering by nature.....!

Ramesh T A
Bards

Prophetic poets are the bards people cherish most!
Their charismatic utterances all take us divine rule!
Dreams of bards are futuristic and true to life ever;
Prediction of future danger and solution they say
Are mostly amazing though incredible at first look!

Shakespeare, Nostradamus and many Indian mystics
By keen genius know past, present and future well.
Mankind is just a witness of what they have said long!
Many predictions are waiting to be watched by all!

Super conscious state of spiritualism as yogis do
Transcends all limits of human endeavour amazingly!
Prophets are wise as Solomon and Vikramaditya of
The Golden period of mankind quite inspiring all
Surely lead the world past, present and future ever!

Ramesh T A
Basic Necessities Of A Good Life!

Hot and cold body is unsteady state of health condition
All have to pay attention to normalize and make it good
For resisting hot and cold condition of weather forever!

that is the thing everyone is doing all through the life
In the world we are living in against all good and bad
Seasons of the year ever to survive, sustain and succeed!

Maintaining body health condition with standard and proper
Food, work and rest, we can achieve all best things we can
In the field we are best at with the cooperation of pals!

A good education, sufficient income, good friends, work
interesting and favourable government are necessary to
Lead successful life besides nice heritage and environment!

Those are the basic necessities to lead a good life inspired
By love and guided by knowledge says Bertrand Russell for sure!

Ramesh T A
Be A Man Of Character!

All goes to waste, if a wrong decision is taken in a hurry!
Before venturing upon action one should be clear in mind;
Considering nothing on the basis of knowledge, if you take
Decisions based on horoscope, can one be right in all matters?

Every action has some reaction leading to good or bad status;
Fine philosophic approach shows truth of light in all matters.
Great stalwarts too skidded down when they were not careful;
High level men ignore tale told by an idiot full of sound and fury!

Iron of fate shows bad men look as good and good ones as bad;
Jokers mingle with all, but they don't have a permanent identity;
King among men never say or do anything, yet, will be honoured;
Life of such men is always slow and steady as they go by wisdom.

Material benefit only ordinary, down to earth men see for all matters;
Noble men see character and background of all men before liking them.
Open book shows all matters clear to all needing no evidence ever;
Person of good heart never sees one is high or low, but only goodness.

Queen of all hearts is like a red rose among flowers ever in the world;
Rank holders cannot be judged by small mistakes but only by record.
Superiority of a person comes not by shows but by natural acts in life;
Trait of noble men shows by the natural brightness of face forever sure.

Unity of men of character never goes astray whatever be the circumstance;
Victory comes to the one who is steady in thoughts, words and deeds ever;
World depends upon men of character only but never on charlatans sure!

X persons may be extreme in power, but they stand or fall by their character
Years of experience give conviction based on truth that only leads noble ones;
Zealous acts of shortcut route goers lead only to wrong destiny at the end…!

Ramesh T A
Be A Right One!

Before expecting
Others to be right
One should be so!

Ramesh T A
Be Alert Ever!

We can wake up one who is really sleeping;
But we cannot wake up one who is acting as
Cheaters are great liars being well versed so!

Cheaters act as if they know nothing to note all;
When suitable time comes, they appropriate all
Things and leave for unknown destination ever!

Innocents are the victims in the hands of cheaters;
Believing them to be genuine, they talk about all
Quite frankly and move unknowing ulterior plan!

Only after they have lost all valuables, they wake
Up and raise alarm bell to inform of the theft ever;
Only if the thieves are caught, they get back things!

Always it is better to be careful whoever one is with
And is the only way to manage with cheaters ever!

Ramesh T A
Be Bold To Enjoy Games Of Bravery!

Torturing any living being is inhuman act indeed;  
Animals that cannot talk has to be treated well.....  
But taming the shrew is not torture but refinement;  
That's why bull fight in the arena is famous in Mexico!

Not only in Mexico but also in Spain, South America  
And in some Asian countries like India since ancient  
Time on wards such games of bravery are performed  
As great festival sports enjoyed by all peoples there....!

They are actually festival games enjoyed not only by  
Farmers who are toiling in agricultural fields all through  
The years but by all and get a chance to celebrate harvest  
Festival in a grand manner just only once in a year......!

Banning such games of bravery is culturally a wrong step  
Needing to be reintroduced for fostering bravery for all...!

Ramesh T A
Be Careful!

Standing on precarious ground  
And predicting doom  
Indeed makes one laugh!

Embracing arms  
One is sure to die one day  
By the very arms!

Hitler, a failed artist  
Embraced military power  
To shake the world!

What worthy thing  
Has Hitler achieved at the end  
Except committing suicide?

Same fate is waiting  
For world terrorists too  
For their worthless acts!

For every bombing they do  
Earthquakes are voice of Almighty  
To be careful............!

Ramesh T A
Be Empathetic To Be A Human!

Voluntary service to the suffering people is love in action;
Love in action is possible only by one with a sense of empathy;
Sans empathetic nature, love cannot ooze out from the heart;
Sans empathy, one cannot be a complete human being in the world!

Only empathetic persons can really be selfless in action ever;
love still survives and sustains in world life due to such souls;
Such empathetic loving souls are rare to see in material world,
Where one is in a competition to fulfil duty in time as machine!

The pity is man is living neither as angel nor as animal but as
A machine living mechanical life among many machines he has made
To live a civilized and modern life in the material world forever;
What a pity the life of man is after making all advances in all!

Man has to think and feel what a mess modern man has made of oneself
In the name of progress and prosperity against Nature and future...!

Ramesh T A
Be In Pursuit Of Love!

Symbol of love is not only heart comes to mind
But also Lord Buddha, Christ and Gandhi ever!
Indeed world is in need of love now more than
Before it has governed the hearts of world men!

Now all stories never say anything about love
But only about lust, sex and animal intercourse!
Many believe that marriage is only for sex ever
Not realizing that life sans love is waste to live!

Man is supposed to go higher by evolution of
Mind now after physical evolution that's over!
Living as animal indulging in sex and working
As machine all day long doesn't promote man!

Realizing this truth and man's higher purpose
All should promote love among all first before
Doing anything better to achieve great laurels
In pursuit of love to higher status in world life!

Ramesh T A
Be Positive Ever!

Be Optimistic Ever!

Breathing a sigh of relief, we think about
What we have to do next on trying times!
This is the way we find means for all
Our problems to attain peace of mind!

If we are positive in thoughts, we always
Go forward in straight line and never
Circle round a point like negative thinkers;
This is the way all good things are done!

Passion should be nullified by reason,
If we are really interested in solving
All the problems in a wise way ever!
Otherwise, there is no end for anything!

To enjoy peace and joy in life forever,
Wise way to follow is optimism only!

Ramesh T A
Be Strong!

It's easy to find fault

But if we solve problems, ever

We will be strong!

Ramesh T A
Be Unique As Nature!

In the silence of night when all sleep
I compose poem to my heart’s content!
Who is going to read and comment?
I cannot guess now but I do my duty!

Sun rises to give bright light all day;
All living things respect it and live.
Both before morning and evening
Sun in all its glory displays hues fine!

Moon rises in the evening as cool light;
Beautifully all night it shines bright!
All lovers and nature lovers appreciate
Moon’s beauty in words unique ever!

All things in Nature true to their nature
Perform their duties expecting nothing.
It’s men do all with great expectations
And if anything goes wrong lose heart!

The unique beauty and love of all in Nature
Never lose heart like men to deny duty!
Joy and satisfaction of selflessness is boon
They enjoy beyond all benefits and rewards!

Man should see Nature's grandeur ever
To become great and unique as Universe!
When the heart is full of such vision long
How can one be sad or insipid in life ever?

Ramesh T A
Bear Illnesses Through Out The Year!

Winter cold climate at its best has created chillness
That can't be resisted by ordinary way of life now...;
Thick blanket like cloths are needed to bear chillness
That permeates all over the body, muscles and bones..!

Cracks developed due to dry skin especially at the feet
Greatly gives pain with burning sensation so much that
It is unbearable to sit in the open air sans socks on
Both the feet whether it is morning or evening of the day!

December, January and February are the typical months
That affect everybody by this winter chillness unbearable
Neeing briskness of limbs, body and legs all through the
Day to keep up oneself with warmth very much needed sure!

With good health only, winter or summer can be borne by
All to overcome all illnesses thorouhout the year sure!

Ramesh T A
Beautiful Flowers Of Nature!

Beautiful things of Nature

Are precious gems rare as flowers

And symbol of love to greet all!

Ramesh T A
Beautiful Natural Life!

Green meadows of hills near streams of river or lake
Bring peace and joy to mind to feel free in heart at
The swaying and absorbing beauty of Nature sure!

None can escape from the silent spell of mountains
And the smooth flowing waters of stream along the
Green pasture vast and long spreading everywhere!

Little flowers of various colours among the green grass
Add special effect of beauty that kindles dreams of
Romance and light heartedness relieving stress sure!

What else one needs other than this consoling comfort
That is prevented in the fast material world full of fuss
And artificial way of life aiming only profit in mind....!

True way of living is the natural life all follows in serene
Atmosphere fostering beauty to absorb all in bliss ever...!

Ramesh T A
A green grass lawn stretching along a stream is a place
Beautiful and best for basking in Nature for a long time;
Cascade of water flowing from a fountain spring with many
Delightful flower plants around it is a wonderful to dream!

Enclosed near it is a pleasure dome of an ancient emperor
Fully decorated with architectural designs in grand style;
Great kingdoms have come and gone, but the grand place is
Highly standing as an immortal work of art forever and ever!

Insightful creative works of art never leaves the mind even if
Junkyards at a distant area seems to have cropped up recently;
Kings and queens who have had a great time there nobody knows;
Love affairs of immortal lovers too many have forgotten now..!

Monumental mismanagement of administration that doesn't care for love
Never understands the value of great human emotion that has kindled
Openly many poets to compose immortal poems resting in literature
Popularly welcomed by erudite minds visiting library full of them!

Quite a few only understands the greatness of Nature and art in one;
Remarkable works of Nature and art only great creative minds know;
Studies deep in philosophical thoughts there only springs forever;
Those precious things of joy and those beauty lie dying in pollution!

Universal truth of spiritual nature is completely wiped out ever by
Very foolish kind of persons at the helm of affairs not caring gems
With rare varieties of natural beauties kindling creativity and joy!

X is the precious value of gems lying there unsolved by ignorant fools;
Years of efforts taken to create such valuable things are now junkyards;
Zealous ventures of past creativity of joy is now destroyed by ignorance!

Ramesh T A
Beauty Ever For Perfection!

Beauty is for the eye to enjoy and appreciate;
Beauty is not to be spoiled and blemished....!
Sense of beauty begins from the love of heart
To feel, think, say and do beautiful things....!

Keeping everything in a beautiful way, one gets
A fine mood to do everything with love and joy..!
Neatness and cleanliness are the first step to beauty
One lovingly initiates to do anything in the world!

Where there is beauty, there one can see completion,
Perfection and joy leading to satisfaction and peace..!
Sense of beauty born of love and truth makes one do
All as perfectly as one can to have great satisfaction...!

A thing of beauty brings first joy and love to like it so
Much that one always aspires for perfection in all works!

Ramesh T A
Beauty Gives Relief!

Natural beauty only is permanent sure;  
All things of Nature are beauty to enjoy;  
Such beauty only kindles urge to draw picture,  
Make one write poetry beautiful to read!

What is the significance of beauty all love?  
Beauty eases a mind full of tension or excitement;  
It brings cheerful mood to forget one's troubles;  
A thing of beauty surely will be a joy forever!

A mind sans peace seeks relief in things of Nature  
That have beauty as in flowers, evening sky and  
Night sky full of stars and Moon absorbing one  
Like a beautiful art full of liveliness for long!

Such things of natural beauty not only bring joy,  
But also last forever helping one recover oneself!  
Beauty certainly gives relief to the tired mind  
And gives solace and hope to the worn out soul sure!

Ramesh T A
Beauty Of Love Rejuvenates All To Rise Again!

Freshness of well bloomed rose flower is real beauty
Among many flowers of different kinds in Nature ever!
Rose flower is the queen among its kind forever sure
And is why flowers of such a kind is offered to God!

Flowers, fruits, betel leaves and supari are on a plate
Placed before the deity in the temple and prayed well
For well being of all in the human world by pious people
And the world goes on despite crises and wars forever!

Beauty, goodness and truth never get vanished from the
World of men as long as human heart with love of pure
Kind never fades into thin air despite storms and rain
Falling as cloud bursts due to climatic changes long!

Manifestation of beauty in Nature, human services and
Love in action rejuvenate all fallen down to rise again
To perpetuate beauty of love to cheer up all people in
Tears eternally due to tyranny and atrocities and wars!

Ramesh T A
Beauty Of Love!

Beauty reflects in the behaviour and performance; Beauty lives in loving care, kind words, gentle act; Outward love is the index of inner beauty of soul!

Beauty thrives on art, music and poetry forever; Natural beauty reflects the beauty of God ever; Beautiful music reflects voice of God beautiful!

Beauty, music and love are where heaven exists Making life ever enjoyable to live on the Earth with Colourful Sky, birds and flowers as back ground!

Morning Sunrise with birds singing to wake one The day begins with beauty and joy to see again Beautiful happenings of day's work to satisfaction!

Evening Moon-rise preceding Stars in the night Sky Twinkling as diamond jewels is beauty eternal to peace!

Ramesh T A
Beauty Or Love?

Which is true?
Beauty or love forever?
Beauty is unstable;
But love is stable!

Is beauty truth?
Perfection is beauty;
Perfection is true;
So, beauty is truth!

Is love God?
Nature perpetuates species
God created man from Nature
So, love is god!

God has created Nature for love;
Man has created Art for beauty!

Ramesh T A
Beauty Real And Rare!

Beauty with love and knowledge gives freedom to do wonders;
Even world beauty with intelligent answer based on truth
Only has chance to achieve laurel in flying colours ever;
When this is so, beauty sans that defence is in danger sure;
But achieving beauty in all acts attracts all to favour one!

Beauty has the power to hoodwink all to achieve all in life;
But without love and truth, beauty is dangerous deception that
Person of critical mind will decipher for sure the nature of
Serpentine beauty as one knows all that glitters are not gold;
Inner beauty of goodness only all welcome but not by outer one!

Beauty of heart is known by one's thoughts, words and deeds;
Beauty of a person lies in the expression of poetry and art;
That is real beauty all cherish most in heart in the world;
But beauty both in and out of good heart is rare as gold sure!

Ramesh T A
Beauty!

Beauty is truth -
Truth-Beauty says Keats
In Poetry rare!

Ramesh T A
Beauty, Beauty And Beauty Only!

Never again shall I get another opportunity,
A feast, rare for the eyes to enjoy,
The beautiful colour changes of
The sky before the day ends!
The gesture of God is sublimely generous...
Simply beauty, beauty only and nothing else!

Ramesh T A
Beauty, Love And Glory, Where Are They?

Jealousy, desire and competition go hand in hand;
Pride, wealth and arrogance make men ever mad;
Genuine, creative and healthy works are unrecognized;
Politics, bureaucracy and security don’t care people;
Supports of friends to such guys make society bad!

Robbery, murder and dacoit activity flourish everywhere;
Peace, safety and harmony of society live only in dreams;
Prospects, progress and prosperity of people are past matters;
State, nation and world nobody thinks about except self ever!

Morning, evening and night people have no time to think;
Past, present and future have no relevance in the fast world;
Breakfast, lunch and dinner are superseded by snacks ever;
Art, music and poetry are nothing before science & technology;
Nature, literature and culture lose relevance before modern civilisation!

Ramesh T A
Beauty kindles Love!

A sense of beauty in all makes one an artist;  
Sense of beauty in writing makes one a poet;  
Art work in rhythmic words creates poetry!

Beauty kindles love in humans to mellowness;  
All beings good, bad and ugly love dawn, twilight;  
For, their colourful silence kindles awe by beauty!

Who is not swayed by beauty of art or Nature ever?  
Heart within longs for beauty to love and loved sure!  
This is natural state of every being created by Nature!

Beauty in Nature kindles love to create beauty ever!  
Love of beauty makes all work to achieve something  
Great and lasting in the world as one's mark of feat!

Beauty kindles love and love of beauty brings joy  
Rejuvenating one's spirit to do better everything ever!

Ramesh T A
Because I Am A Poet!

I love poetry
Because I am a poet!

I love Nature
Because I am a poet!

I love beauty
Because I am a poet!

I love Art
Because I am a poet!

I cherish most love
Because I am a poet!

Poet is a lover ever
For, poetry is expression of love!

Ramesh T A
Before And After Marriage!

Before marriage

Lovers are like finger and nail

After marriage

They become like snake and mongoose

And then they become Sky and Earth!

Ramesh T A
Before Forgetfulness Cuts Thoughts...!

I thought of going to bed earlier;
But communication gadget pulls in!
Browsing poems felt I writing poem;
Here again flow words in verse...!

What a pleasure and relief poetry gives
Writing as I wish verse the way I like!
What a boon poetry is for man to lull
On the waves of words to woo all!

Night sky is full of clouds of rain still,
Yet I spend time burning light lamp!
Time spent in such useful way is fun
Nothing can give joy and satisfaction!

If not not now when can I say this verse
Before forgetfulness cuts chain of thoughts?

Ramesh T A
Beginning Of Adventure!

Rigid parental control and school discipline to inculcate good behaviour, 
We were treated just as animals by fear and our life was another form of 
Prison life just slightly above animal life so to say not for one or two years 
But the whole hog of eleven years before we studied one year pre-university 
Course in the college as gentlemen and became free birds after joining three 
Years Degree Course in science and arts to qualify for as an under graduate!

College opened the gate to romantic life giving free passport to fly as birds 
High with dreams of heroes and heroines as in dramas and novels we study 
In literature and the movies we see in the cinema theatres every month sans 
Fail with parents or friends cutting classes, when the lectures were boring to 
Listen as the teachers themselves were not aware the correct syllabus to cover 
As there was no response from University in the absence of college principal…!

The fate of our future was in our hands to decide about, when there was no one 
To enlighten and guide us with authentic instructions to show us a clear vision 
Of future we were supposed to know so as to study with surety what we would 
Be doing after education leaving us to have discussion with our friends about that 
And go ahead in that direction whether it is right or wrong as in an adventure like 
Moby Dick or Alice in the Wonderland or as Harry Potter story of the present…!

Reality is different from dream sans knowledge of future life and proper 
instructions 
Or guide lines making all, after education, to disperse in various directions for 
jobs 
And settlements in various places not knowing when and how each one can meet 

Each other trusting on each one’s guts to wade through all waves of woes of the 
world 
To achieve each one's ambition sans knowing the good or bad result before hand 
at all!

Ramesh T A
Behind The Shadow Of The Screen! (Jay Ellen's Fake Poetry Contest)

Many look friendly and move as friends ever;  
But at the back, they will be shadow boxing..!  
The sea also looks beautiful and friendly ever;  
But currents, storms and Tsunamis are also there!

On the land a funnel like Tornadoes cause havoc  
In no minutes and go away to nowhere unaware!  
But for all Nature's mayhems, sea is the source  
Ever accelerated as storms as time moves on sure!

Ice is the crystalline structure of water in the frozen  
State just as steam is the out come of water, when it  
Exceeds limit of boiling temperature due to too much  
Heat and on condensation steam turns into rain clouds!

This is the scientific magic of Nature ever takes place  
Behind the shadow of the screen quite unaware of all!

Ramesh T A
Believe Or Not, A Survival On Wasteful Matters!

Do people get time to read all poems in poem hunter?
Do you read by poet's name or poem's title in website?
Many poems are left out without any comment for long;
But some poets' poems get eulogies quite unbelievable!

Best poems are left out untouched for a long time here;
Are readers afraid of the pure poet's poetry to say anything?
But poems least requiring any comments have many here!
Is it fun to do so to have some amusement in this website?

Message, meaningful thoughts and useful ideas are rare
If one goes through the poems produced amply here!
But ordinary things of pastime abound in all poems sure!
The time spending on such things what satisfaction one gets!

It is entirely a different sort of poetry section for the world
To spend time for the survival of this website on wasteful matters!

Ramesh T A
Benefit Of Best Education!

Education is the basic thing for all developments of Individuals and world as a whole as it shackles all Differences of religion, class, colour, status, etc. By uniting all as equal remembers of community ever!

Education only is socializing all individuals as one Humanity and is developing love and friendship among All by frank talks, exchange of ideas and team sense In the years of their studies under one roof sure..!

That kind of training and culture only make all forget All differences to unite and work for common good and Real development as humans in a creative and inventive Way promoting peace, love and joy for progress sure..!

That's the way a world society of socialistic democracy Is really feasible to create one world family of love, Joy and peace fully ridden of hatred, extremism, terrorism, Violence and wars dividing and destroyer humankind sure!

Ramesh T A
Benefit Of Solderis Of War!

All atrocities go on on the war field between armies; 
Battle ground is flooded with blood of all groups!  
Concern for women, children and hospital is forgotten!

Dogs of war sniff, snarl and shear bodies to pieces....;  
Ever growing rage with vendetta escalates war endless!  
Faith in human sympathy has lost its ground altogether.

God looks on all these inhuman, animal war very cool!  
How can He be so cool and unconcerned about this?  
Inspecting all He waits to see elimination for control!

Jails are filled with prisoners of war in alien lands;  
Keeper of promise, dedicated soldiers try to escape  
Leaving behind no trace of theirs in all cells there!

Many soldiers have vanished in the missions of war;  
No one returns with full health losing friends ever  
Openly live they as dead men walking on the earth!

Proud of their successes nations glorify with medals  
Quite contrary to their will having nothing to feel well;  
Renowned royals invite them for banquets insipid...!

Soldiers of war killing many and losing many dear ones  
Trot on the earth as soul without human sole ever....  
Unceremoniously accepting unanimous encomiums...!

Victory of soldiers are nothing before the loss of friends  
Wars have brought them to bear with forever till the end;  
Xerox of friends or clones too cannot be seen all life...!

Years of friendship of soldiers dear dead now they lose  
Zeal to feel proud, joyful and fine as dead logs lying ever!

Ramesh T A
Benefits Of Friendship Are Many!

All nations and individuals develop by friendship transcending all barriers, boundaries and differences of religion, culture, ideology; Constructive criticism and control over extremism are feasible by it; Differences of opinions and ideas are sorted out for mutual benefits!

Everlasting peace and love can be fostered only by worthy friendship; Friendship only can eradicate enmity among nations or individuals ever; Good, great, best, beautiful and beneficial things in arts or science can Have a real possibility due to noble and high friendships in the world!

Iron curtains spiting nations or individuals are torn by friendship; Joining hands for friendship, human world is enjoying great benefits; Keeping world in a state of peace, UNO is a great symbol of friendship; Light of this bond of friendship can develop bright future for the wield!

Mankind survives, sustains and succeeds mainly due to this friendship; No wars there will be, if this union of friendship is strengthened further; Open discussion as in human friendship can thwart all animal wars forever; Personal drawbacks are diluted by this world friendship for developments!

Quite a great achievement is the formation of this world organization, whose Remarkable achievements in solving world problems, UNO will achieve further Sustaining feats in international affairs by collective minds of progressive Thoughts and ideas of great individuals working for the betterment of world!

Universal brotherhood or Vasudevaya Kudumbakam can be developed soon so, if Very great souls of friendship and love harness like-minded individuals in the World movement for the formation of One World, world will become heaven here!

X and Y we cannot underestimate as we don't know their noble ideals and ideas; Years of their silent, indirect contributions will bear fruits sure, if their Zealous, unassuming efforts are given encouragements by all in this venture!

Ramesh T A
Benefits Of Heaviest Rains!

Heaviest rain fall over Western Ghats of India is  
Filling up rivers and lakes with water quite surplus  
And supplying to riparian areas usually drying with  
Long droughts during Summer season making all  
Raise eye-brows for the condescending of Nature for  
Bringing water to areas starving for drops of water  
Both for agricultural fields for irrigation and also, for  
Drinking purposes before the surplus water flows to  
The seas to neutralize and cool down sea water so that  
All El Nina effect won't bring cloud-bursting rains in  
Dry areas of the peninsula in the Summer time and  
La Nina effect won't bring cyclonic storms during  
The Winter times for the normal way of life to go on  
Without causing trouble to undergo untoward turmoils!

Ramesh T A
Benefits Of Romantic Living!

Romantic living life boosts up interest in Nature, freedom and love; Without them life is impossible to enjoy any pleasure to be happy; Nature by its beautiful living art, singing birds, colourful flowers Ever inspires best mood and kindles heart to create best things sure!

With that mood, freedom one tastes by acquiring knowledge of Self, world, Nature and Universe kindling vision of the whole to have an ambition For life to do the best thing utilizing one's knowledge, skill and art With love to entertain and instruct best things for promotion of peace, Zeal and hope to achieve one human world for the creation of Utopia!

That can solve all problems of humankind for human life to go on well With love and peace in the creation of best, beautiful and beneficial Things in art, science, technology, agriculture, industriousness for All for the transformation of humans to superhuman hood to become Divine beings making natural evolution to effect it well sans fail...!

Ramesh T A
Benefits Of Truth In Life!

Ever only good means will lead to good end,
Whatever thing one does in world life sure;
This not only religious leaders but also
Mahatma Gandhi has show by practice in life!

Truth in thoughts, words and deeds, if one
Follows in all services in society, one's
Life will surely lead to peace, prosperity,
And progress without fail in the world sure!

By truthful attitude in all ways of life,
One has nothing to fear, hide, feel guilty
And most of all feel free to think about
Noble things and truly enjoy freedom ever!

Where the heart is truthful and mind is free,
There only one can enjoy spiritual satisfaction!

Ramesh T A
Benevolent Human Leaders Lead World To Peace!

Compassionate and empathetic person only can be a benevolent human; Humans like Gandhi, De Gaulle and Kennedy are benevolent leaders Capable of running the affairs of nation better than any others; Willy Brand, Mikhail Gorbachev, Lee Kwan Hue and Mandela are good!

Only benevolent leaders can bring greatest benefits to the people As they function not as mere politicians but as statesmen making Changes needed for the better future of nation and world as well Promoting world peace, friendship and developments among nations!

Their very approach is such that all wars of nations will look to An Utopian way of government, where all nations function as one And only nation bringing together world people whatever be the Races, religions, colours, cultures and ideologies by democracy!

Democracy with constitutional principles like equality, liberty, Fraternity, justice is upheld with human sense of benevolent leaders!

Ramesh T A
Bermuda Triangle Mystery Continues Still!

A Ship has appeared after 90 years of disappearance
In the Bermuda Triangle famously connecting three
Places such Bermuda island, Miami and Puerto Rica!

The Bermuda Triangle mystery is not a myth, Aliens
Activity or the effects of submerged Atlantis in Atlantic
Ocean or even paranoid view or supernatural phenomena!

Ship Captain's book stops writings after 29th Nov.1925!
Scientists are again researching on Bermuda Triangle
Mystery to unravel the secret behind disappearances there!

Many ships and aeroplanes have disappeared in the Triangle
Without any traces of debris of them anywhere under the
Ocean giving the doubt it might be due to blue gem of Atlantis!

The Atlantis Blue gemstone was believed to be sending signals
And its rays might be making time travel of all ships or planes!

Ramesh T A
Best Cream Of Field!

Rush first to banquet to avoid seat to enjoy feast!
This is true for all things in this competitive world;
Failing which there is no scope for one to succeed!

This is how things are going on in any field today;
In this mad rush all the best ones are selected and
Enslaved in big enterprises to make a dent on others!

Education or job, all are selected so in the interviews
To bring laurels or good names to renowned institutions
So as to run the businesses long sans recession anytime!

In this kind of competition, really best brains of knowledge
Are left in the back burners waiting for opportunities for
Them to show their skills and make a mark in the world!

Many a best cream of field are languishing at home ever
Waiting for seeing the light of the day at the end of tunnel!

Ramesh T A
Best Culture!

Crying inside
But smiling outside is
Best culture!

Ramesh T A
Best Form Of Defence!

Another one's sufferings are a fun for others to
Witness and enjoy until one suffers in world life!
Poet Valluvar says smile while hardship comes
Just as laughter is the best medicine as we know.

Joy and sufferings are common in life for all sure;
Managing ourselves well in both situations is art
Only wise among us know better than everyone!
Smiling against bullying makes all start thinking.

Wit has come into vogue to make all smile and think
Leading to reforming society immersed in illnesses..
The suffering or enjoying people don't know at first;
But realization makes all rectify themselves for better.

Offence is the best form of defence is a war strategy
The suffering lot should adopt to surmount all ills...!

Ramesh T A
Best Things Come Out Of Natural Interest Only!

Natural interest only inspires one to do the best in life; Artificial interest inspired by others makes one do something, But there is no real involvement to achieve anything worthy!

Due to discouragement and demoralization, natural tendency of One cannot be altered and diverted towards any other thing That may benefit someone's dream project but not for long sure!

The disinterested way of learning and doing things may enhance One's capability, but with natural interest only one's ability Can be harnessed to produce marvelous work of anything finally!

Natural talent and artificial skill development add prowess to One's capacity to do great masterpiece in any work of art sure, If one is placed in a favourable position with or without support!

Whatever acquired knowledge and skill that are relevant to one's Interest only naturally makes one do best things beneficial ever!

Ramesh T A
Best Way To Live Life With Joy And Pleasure!

Creativity gives great pleasure in life and work ever;
Beauty created so brings greatest joy to all forever;
Expression of beauty is truth one knows by experience;
That is more important than anything else this world!

Life is to gain knowledge by experience, then live so
To enjoy greatest pleasure before one leaves the world
And that is the way one can attain total liberation in
Bliss and peace to become absolute as saturation point!

Knowledge of Self, world, Nature and Universal spiritual
Energy gives whole knowledge of life's complete span here;
With that in mind, the vision one has shows what one has to
Do and what's one's role to play to achieve one's ambition!

Ambition based on whole knowledge is the driving force of
Life in this world to do all works with pleasure and joy!

Ramesh T A
Betrayal And Treason!

Betrayal to people and treason to nation are an act
Of making all believe and deceive sans any shame..!
It is not only a shameful act but also morally and
Socially a big crime against humanity in the world!

People believe and move with one based on trust ever;
But the betrayers take advantage of one and do great
Mischief and crime, when least expected in the course of
Transactions between persons leading to enmity sure!

Betrayers will be get caught one day, if they go on
Indulging in the act of betrayal with one conscious of
What is going on between persons and cautious ever to
Nab the culprit in the bud itself that they don't know!

A longtime thief will be caught red-handed at onetime,
If the mischief and menace doer is not cautious or clever!
That day both sin and virtue are dealt with by fate to
Put an end end to betrayal and treason against humanity!

Ramesh T A
Better To Be Reserved!

Better to be Reserved!

One gets panicky as if a loan received heart
Struggling to repay money within time, but
Unable to do so when things go beyond limits,
When one is unable to fulfil commitments made!

One cannot be cock-sure about anything as
The well known proverb famous everywhere
Says - don't count the chicks before hatched;
Which means keep your tongue under control!

One's heart may jump to any conclusion ever
Based on the surrealistic trend quite favourable;
But after sometime everything will change
Beyond everyone's wish as share market does!

Reservedness seems to be a better option to follow
Rather than going by one's reputation or influence!

Ramesh T A
Between 60 And 20 What Is The Difference?

The Entrapment movie comes to my mind
When I think of my age, mind and mood!
Though Sean Connery is 20 years elder
And I have attained 60 I still feel 20 years!
I like romantic life though it was not possible;
But The Entrapment situation I am placed now!

Also, Never Say Never Again 007 movie
Seems to be mostly my mind and mood now!
In poetry as in novels and stories it can be
Handled pretty well it seems after coming here!
Many things youngsters are wanting to know
And that provokes me handle their matters
By indulging in their romantic pursuits in verse!

There was no time for love when I was young
As I was placed in such situation and works
Whether I was studying in college or in business
Due to my joint family constraints and obligations!
Many opportunities and amorous damsels were
At my disposal but I didn't have that mind then!
Though that situation continued I was tightly set
To do everything vital for the survival of all partners
So much that I could not even dream of romance!

At the last vestige of my life I am in writing mode
And I am imagining or dreaming now those romance
I should have indulged and enjoyed long, long ago!
Now Lord Krishna surrounded by Gopis of Gokulum
Only comes to my mind when I think of my situation!
It is left to the romantic dames to imagine rest of
The matter about a person of 60 in the mood of 20!
Will the time turn back to the young romantic time
Once again for me and make true “history repeats” itself? !

Ramesh T A
Beware!

As bats and birds
Fly seasonally from place to place
Some friends, beware!

Ramesh T A
Bewitching Smile Of Sky!

With a few dim Stars among rain clouds
The Sky looks like a dark jewel case ever!
Only the crescent Moon is bright among
All the Stars spread over the long Sky....!

The Stars with Moon at the centre look
Like a diamond necklace in the dark Sky!
It's like a jewelish smile of a lady up there
Inviting all to smile and be happy ever..!

Even without wearing jewel a lady's smile
Simply shines like a diamond jewel ever..!
The Sky with the Stars and Moon is also
Similar to the smile of a beautiful lady....!

The bewitching smile of the night sky
Sways all hearts, minds and souls sure!

Ramesh T A
Beyond Limit!

Bullying persons are
Sadists with greed & jealousy
Beyond human limit!

Ramesh T A
Beyond Scope To Decipher!

Each day blooms like a new flower  
With the red Sun flower bringing  
Bright light and hope to the world!

Our Sun is just one among many  
Such Stars in the Milky Way galaxy  
Going round the Universe unique!

Everything is moving in the Universe,  
Though we may not feel it at all ever  
As we are also moving along with them!

We are not far above to see the miracle  
Happening everyday sans our knowledge,  
But this truth cannot be ignored ever...!

Likewise so many truths we won't believe;  
But all are beyond our scope to decipher!

Ramesh T A
Birds Of Love!

Not knowing his delicate health condition,
She truly loves him with whole heart in life!
His explanation of his delicacy to her has met
With failure due to the nature of their love...!

Is this called love that transcends all barriers
And sufferings of life lovers encounter in life?
Empathetic feeling of each other is so pure
And good that nothing seems to stop love...!

Not only for all joys but also for all sorrows
Love gives company till the end in life sure!
Such is her love and such is his good nature
That both forgetting all drawbacks fly high!

Singing birds of love poems always fly high
Enjoying pleasures of love that lasts forever!

Ramesh T A
Birds Of The Same Feather!

For a longtime I am fixed in joint family system
As birds of the same feather flock together ever!
Individual talents are dissolved in the big ocean
So much that it is impossible to unshackle long!

Many a treasure of deep ocean caverns are unknown
And sweetest of sweet flowers of rare breed disappear
Unknown to the world from the birth to the death
As they have bloomed, blossomed and faded in desert!

At the fag end of life who will think of reviving interest
And where is the chance in life to show grandeur to all?
By a rare chance my mind turned to poetry and browsing
And I have now known as poet of wisdom and truth!

It's rare chance that has made me a World English poet;
But will this bird soar high to sublimity? question lingers!

Ramesh T A
Birds With Wings Of Feather Fascinate Ever!

Colourful birds and their musical voice fascinate ever;
It is a great fun to watch birds' activities in Nature;
Birds' faculties with their wings of feather fascinate
Much to see them ever in wonder from childhood on in life!

That too, some birds capable of swimming and flying simply
Humble all humans who are proud of their power and pomp!
Real freedom only birds enjoy to go anywhere free and live
Enjoying all seasons in a year as they please on the Earth!

Materialistic man satisfies himself only with technological
Advancement not possible by animals, birds and fish here..!
Physically only they are the fittest for survival, but as far
As mind and spirit are concerned, man is master over all beings!

But whatever be the superiority of man over animals, birds, fish,
Man is incomparable with birds as far as their freedom to fly
High in air at will and live singing musical notes to the best
They can perhaps to get full spiritual satisfaction none can...!

Ramesh T A
Birthdays Increase Life Span...!

My birthday has gone away last month end....;
This September many friends' birthdays are on!
On my birthday I was out of station sans knowing it!
My relatives made a phone call to wish me well..
And the friends hosting me celebrated the occasion,
An unexpected one for me after a long, long time...!
62nd birthday have I celebrated so, quite unusual;
Yet the fun did not drown making me wake again...!
Instead of becoming old I feel I am young again
As the joy they say increases one's life longevity...!
After 60 it seems another turn of life takes upper hand
And makes life lovelier than before to enjoy anew again!
Birthdays come and go but the joy renewed keeps all go
With renewed vigour inspired by new enthusiasm by pals!

Ramesh T A
Black Hole Attraction!

Temple is the centre of attraction anywhere
Whether it is village or town or city or State!
The centre around which all activities take
Place surely has a special attention like heart!

Heart of the town there may be a park or hall
Around which all people everyday go around!
Gorgeous beauty too is like that which has a
Great attraction anywhere, if anything happens!

Chief of the party or VIP has a great attention,
When the person happens to attend a function!
Great personalities like the Sun at the centre of
The Solar system always have magnetism on all!

Black hole in the galaxy too in the vast Universe
Likewise attracts all nearby Stars and whisks off!

Ramesh T A
Black Money!

Who are all capable of making black money, only have it with them; Such big bosses or tycoons only are capable of rotating huge money In their businesses not only in their nations but also in the world!

Such tycoons only have accounts in many foreign banks all over the World and move from one nation to another nation as they wish ever Making it impossible to stop them anywhere on their business tour!

If any nation says that it would recover black money stashed in such Banks, it would be possible only in dreams but not in reality so far As no action on them has been successfully taken in the world history!

They are all so intelligent, smart and fast in their activities that No national government is so quick in action to nib them in the bud And never seem to even touch their shadow on their fast move forever!

If government does business to accrue revenue for nation building works And removes all taxes imposed on people, black money holders will vanish!

Ramesh T A
Blame On One Place And Sin On One Place!

Rightly or wrongly, British Imperialist power spread
English language all over the world through colonies,
Which is much helping world people to have all kinds
Of communication for business and sharing knowledge!

They have looted the riches of other colonial countries
Hating other coloured races except their own forever!
This racist nature has not changed even after 70 years
As the Brexit result shows after the UK Referendum!

When all the people of the world want unity for peace,
This white racists want separation from European Union!
They don't want flow of immigrants in Britain sans any
Sense of other Britons working and living everywhere...!

This kind of narrow racist mind of some has brought a....
Black mark on white Britons wishing to be with the Union!

Ramesh T A
Blessed Leaves Of The Peepal Tree!

O The blessed leaves of the Peepal tree!
Dancing by the lamps of the factory,
Making artful pictures over the wall please me,
While the bed welcomes me for the night sleep to fall on.

Din and bustle of the day
Building tension to my delicate brain,
Breaking each and every fibre of my spirit,
Fade away, at last, by the cool breeze of the night.

Easeful tune of the music,
Solacing the wounds of every bit of my heart,
Playing endlessly in short of time amuses me,
While developing day gathers fresh hope at the dawn.

O The blessed leaves of the Peepal tree!
Dancing by the lamp of the factory,
Making artful pictures over the wall please me,
While the bed welcomes me now for the night sleep to fall on.

Artful trickery of devils,
Creating indelible blemishes over my reputation,
Swing to and fro over the works of my sincere efforts,
Vanishes away, when my eyes go through the pages of classics.

Meaningful lines of the verses,
Clearing the doubts of my web of confusions,
Fetching the best of knowledge to quench the thirst of my mind,
Edifice me up well in time to check the besieging polemics.

O The blessed leaves of the Peepal tree!
Dancing by the lamp of the factory,
Making artful pictures over the wall please me now,
While the bed welcomes me for the night sleep to fall on.

Ramesh T A
Blessing Gives Inspiration To Achieve Great Dream!

Blessing gives great hope, support and encouragement
As wish for good life, inspiration to go on adventure,
Appreciation for skillful performance in creative art
And godspeed on a trying mission to success sure ever!

Blessing from all brings great support and success in
Life works one undertakes sans any experience but only
Based on one's will to do something remarkable by sheer
Hard work with clever planing and calculated risk sure!

Blessing is just inspiration from a great soul of fame;
But complete hard work with full of perspiration surely
One day brings the result one hopes for to fulfil one's
Cherished dream since a longtime as whole hearted ambition!

Such a resolution with blessings of good hearts give
Great impetus to move on to do best to finish one's
Creative or inventive work none has tried earlier that
Leads to produce a beautiful and beneficial thing for all!

Ramesh T A
Blessing In Disguise Romance Is...!

Hot Sun is burning the town;
But blue Sky clear everywhere,
A stretch of green trees along ways
Keep the eye cool to look at all!

Desert covered with sand everywhere,
No trees seen even after many miles,
Mirages giving false impression of water
Get cancelled once oasis is located!

Only continuous works going on nonstop
Making life monotonous with no relief at all,
And no time to eat and take rest well....get
Neutralized in sudden romance in-between gaps!

Romance in life is a great boon to forget crises
Though problems drag on endless in this world!

Ramesh T A
Blind Even With Eyes!

Finding peace of mind in nothing, finally,
One goes to Nature and forgets oneself in
The beautiful things of Nature everywhere
Such as flowers, birds, fish in the gardens,
Green fields and the vast blue ocean ever!

The time spent there brings the knowledge
To one that after all we have been blind to
Those beautiful things of Nature though we
Have two eyes to see, two ears to hear music
Of birds and the spirit to feel the force in sea!

Likewise, we lay waste our full life-time in
Mundane things only without knowing the
Way out to see the beautiful things of Nature
Around us as if they are taken for granted
Without knowing their importance very long!

Ramesh T A
Blind In Darkness!

The town is in complete darkness
Due to sudden shutdown of power!
But the full Moon is shining bright
Far away from the Earth at night!

Moon light is like the lighthouse that
Guides many a ship on the dark ocean;
Or else, where is the chance to go to
Various places in the city of labyrinth!

Many messiahs and sages are guiding
The people to reach various destinations;
But failing which, for many a men, there's
Only one God finally to lead to safe home!

Knowledge is power showing us our way, but
Sans light of wisdom, we are blind in darkness!

Ramesh T A
Bliss By Spiritual Pursuit In Nature!

Azure blue sky with patches of thin, transparent clouds
Above green leaves of trees just before sunset has started
Looks to be a great work of art Nature has drawn to muse
In silence to forget the hustles and bustles of the day!

What a calm and silent sense of heart has been conjured up
By the magic of Nature's beauty so sublime and divine in
Blooming bliss like fragrant flower in the land of fantasy
That simply transforms the heart to joy unknown before...!

A great relief indeed to mind, heat and soul only Nature of
A unique kind can give ever in this world man is fortunately
Born to serve the sentence of his imprisonment, short or long,
Till the soul returns to the abode it has come from so long!

A free sense of feeling only all are aspiring to achieve after
All when all have been achieved by hook or crook in this ever
Uncertain world of drought and floods caused by man's pursuit
In technology leading to pollution more than spiritual pursuit!

Ramesh T A
Bliss Of Love Is Greater Than Pleasure Of Lust!

For a kiss of beauty thousand ships are launched for war!
Trojans have fought for love, but Greeks for friendship....;
In the fight between love and arrogance, war has prolonged;
To put an end, tricks by Greek Ulysses has brought an end!

In the ten years' war all important personalities have died;
Curse of sea has made Ulysses sail directionless for 10 years;
War for wrong cause for friendship's sake has punished so
Till he has realized the value of love above all values in world!

Great Hercules has escaped from the ill will of island of virgins,
Who have been making great warriors as memorial statues by
Lust and weakening their strength by potions of magic to death,
By the help of his assistant friend Jason on their mission then!

Ulysses and his crew also has experienced such an event in an
Island of virgins, who are turning great warriors into animals by
Luring them in lustful pleasures with feast to make them forget
All except Ulysses who has loved his wife even in pleasure there!

Finally Ulysses goes home with a ship made for him by friendly Kings
As gratitude for his helps earlier to fight to death all his enemies
Who are proposing to his Penelope to marry them; but she makes them wait
Arranging for a difficult archery contest till the arrival of her Ulysses! 

Friendship is important in life, but love only brings victory to the
To justice whatever be the strength and valour of all in the world;
All classical stories and religious dictum preach moral values in
Favour of right friendship and true love but not might and lust..!

Ramesh T A
Bliss!

Poetry creates rapture  
To discover real soul mates  
To enjoy bliss here!

Ramesh T A
Blockade In Job

Sans good response

Computer cannot be operated

To do any job!

Ramesh T A
Blood Red Full Blue Moon!

Full red blue Moon after undergoing eclipse shines as silver;  
Winter cold has slightly changed for the better tonight sure;  
Night has become silent as usual after all the chores subsided;  
Peaceful night is what all need to have calm sleep all night!

All natural phenomena we are witnessing starting from tremor,  
Tsunami, cloud bursting rains, hottest Summer and bitter cold Winter accompanied with blood red blue Moon eclipse too now;  
And whatever is left over to see we will know later on sure!

In spite of natural calamities, such rare phenomenon of this Night after 150 years is something all talk much everywhere;  
But Nature goes on doing all such wonders as magic in the sky Now and then to make all think about its presence sans fail!

Nature is a living art that conjures up magics also many a Time to catch the attention of all to its works once in a while!

Ramesh T A
Blue Eyes!

Blue eyes of her

As azure diamond blue sea or sky

Catch hearts ever!

Ramesh T A
Blue Moons Year 2018!

It looks as if just now new year has come;
We have celebrated with joy and enthusiasm;
Before we have forgotten that, we come to
realize that a quarter of a year has passed!

One blue moon we have seen in January 2018;
Now, we are going to see another blue moon
Very soon at the end of March 2018 sure...;
Perhaps this year will be blue moons year!

Double chance comes only when there is luck;
If this year brings double chances, it's good;
If we miss in one, we will have it in the next;
Likewise, if all things go on so, it's better!

We celebrate not only world new year once ever,
But also, many other new years too every year!

Ramesh T A
Boats Golden!

Golden boats
Take a last flight of the year
In the Sky!

Ramesh T A
Boldness Of A Brave Chivalrous Knight!

Knowing truth based on intellectual thoughts over knowledge of
Self, world, Nature and Universal spiritual energy, one attains
Boldness in thoughts, words and deeds to do anything one wishes!

Person of such a calibre only resolves to follow thoughts of
Clarity and perfection and acts of straightforwardness and also,
Boldness in dealing with all the matters of the world forever!

Only a brave person possessing valid cause, motivation and also,
Ambition with knowledge and strong will act ever in boldness sure
And whose thoughts, utterances and actions reflect boldness in all!

Moral courage is real as one follows policy of truth and nonviolence;
Confidence comes of one’s storage of knowledge, wealth and power ever;
But boldness of one is always based on the those aspects ready in hand!

Confidence, courage and boldness are based on morality, strong will and
Also, wisdom by experience for one who is like a brave chivalrous knight!

Ramesh T A
Booze Of Competition!

Competition and Result by Ian Bowen
Wonderfully picked up tempo in Freak!
He has cleverly escaped from his work,
Writing poems in this wonderful website!

Inspiring others thoughts by poems is
Really a great valour than winning prize!
All competition should be tried by poems
Inspiring, teasing and tantalizing ones!

Competition should be ended with prize;
Without prize no competition has value!
First competition will have much effect
Next and next ones will lose effect...!

Competition produces kick of a booze.. but
Frequent use makes one feel effect-less soon!

Ramesh T A
Born For Sacrifice!

Giving company in winter and
Flying away as Spring comes
How can anyone digest it ever?

Sharing in times of hardship and
Flying away when the time is OK
How can a human heart bear it?

Departing to a destination unknown
And living a lonely life somewhere
How can anyone feel better there?

We are all born to depart this world
One day or other though the time is
Near or far off nobody knows here!

Goats enjoy food and life for years..;
But they are grown only for sacrifice!

Ramesh T A
Boss And Servant Of Democracy!

Is it democratic rule or bureaucratic rule? People wonder now!
Also, feel, "who is the boss and who is the servant of the nation?"
All politicians say that they are servants of the people come to
Do social service for the welfare of the people before powerful!
Becoming powerful by people’s support they forget all of them;
Forget they are servants of the people, for and by the people!
Then people feel they have not only become servant of them...,
By and for the politicians but also become beggars to politicians!
Of all the creatures, politicians are the most dangerous ones as
They are dinosaurs of a different kind in the form of humans....,
Whose ambition soars beyond limit as they achieve goals of their
   Wish one after the other feeling they are the gods to do so all ever!

Forgetting all steps they have climbed over the heads of people,
They believe whatever they speak and do all people blindly accept
And forget the feelings of people's hearts, they dance in delight
Unknown and fall from the peak of mountain to disappear forever!

Ramesh T A
Boyhood Development!

Creativity begins only when the growing child is free;
Creativity and game occupy boyhood to development.
But too much obedience to parents affects individuality,
Thinking capacity and understanding to dullness ever!

Like the ape sans understanding and individual thoughts,
They copy everything by seeing others activity or advice
Making them a robot rather than an independent human
And even after attaining manhood they are immature...!

Such kind of bringing makes them never take any risk and
Most of all, any direct responsibility to do any work in life!
They are under the control of fear and safe way of living only
Whatever be the situation or even in emergency situation...!

Maturity of mind develops in boyhood only in difficult situation
Leading a boy to be a confident individual with intelligence too!

Ramesh T A
Brave Man Has No Fear Of Death!

Only brave heart makes man to take extraordinary risk
To save men caught in storm, flood, fire or any accident!
Selfless humanitarian act only a person of brave heart
Indulges in to save men in danger sans expecting reward!

Only men of brave heart work in the infantry of army to
Fight face to face enemies in the battle fields of world!
Many brave soldiers have lost their lives in the war due to
Their real patriotism of nation that all have to pay tribute!

Braveness of man never sees what strength one has or not
And voluntarily takes risks to save fellow men in danger;
This act of voluntary humanitarian act is the mark of a
Brave man whether one is a soldier or patriot or ordinary one!

Brave man has no fear of death and that gives great strenth
to one to take extraordinary risk in saving men in life danger!

Ramesh T A
Brave Sports Or Animal Torture?

Out of hatred, rival groups fight endlessly here;  
This is the nature of man needing correction  
By rationality and reason to foster love ever  
Using ferocious nature of man in sports sure!

Agricultural culture seems to be similar ever in  
Nations like Spain, Mexico, India and Asia sure!  
Yes, the bull fight is the sports collectively enjoyed  
By people of these nations since time immemorial!

But this is being considered as torture of animals  
Under the law banning such cruel animal sports!  
In India, especially during the festival of harvest,  
Taming the bull sans any torture is cherished much!

The question is whether this kind of Indian bull sports  
Can be banned as in other nations or not basing the  
Difference in the natures of such games are being played  
In the world indecisively with comments and criticisms!

Ramesh T A
It is difficult to deal with persons who can't
Digest certain matter because of immaturity
And adamant nature having no one to advise
Or caretakers don't have other connected ones
To advise them how to deal matter in a wise way!
Control less as an animal such persons cannot
Take wise advice from others or by themselves
Can't think and understand based on knowledge!
They need to know the basic and significance of
Family life to live long adjusting themselves to
Others to do better things and achieve their goals
Too to get love, joy, peace and satisfaction in life!
After committing oneself to go on a path for mutual
Benefit it is unfair and unjust to quit and go scotfree!

Ramesh T A
Breaking Of Marriage Alliance And Reunion!

Seeing all pros and cons, finally alliance is decided;  
All are wishing marriage couples and all are happy!  
Marriages are made so with lavish expenses ever;  
But if the alliance breaks, it becomes a big waste!

Marriages should be made in a simple way ever,  
Which is the way adverse effect can be neutralized.  
Both sides of couple can have a good understanding  
By putting all cards on the table to settle all matters.

Again reunion of couple will surely make all happy;  
Decision made on a haphazard way breaks alliance;  
But nothing will go waste, if all hear views of able ones,  
Who have had long experience in married life sure!

Hasty decisions break marriages to a halt for a long time;  
But wisdom comes of knowing the ideas of experienced ones  
Leading to union of couples once again bringing joy ever  
And a long married life to the couples in the journey of life!

Ramesh T A
Breathing Poetry!

Endlessly going on
Writing poems ever one
Breathes poetry!

Ramesh T A
Bright And Dark Courses Of Life!

Sans motivation and ambition one cannot shine in life,  
Even though one is highly educated with many degrees!

Broad vision is necessary after having a lot of knowledge  
With imagination about the course of future and one's role  
As that only would help one to have a broad ambition  
That would drive one towards attaining what one dreams  
About, while performing one's profession in the world!

Many are directionless due to lack of imagination and vision  
And doing things just to pass time and don't understand, if  
Anything goes wrong somewhere and held up motionless...  
Not knowing how to get rid of the mess and proceed on in  
Their proper line towards attaining what they aim for in life!

All starts from education for anyone in the world and that is  
Where one's fate is decided whether one's life shines or darkens!

Ramesh T A
Bright Light Of Peace And Joy!

Years are going fast but the chief criminals behind
Biggest bomb blasts in places like Mumbai or Paris
Still go Scot-free to the extent of a huge reward
being announced by the Super power to arrest them!

Such announcements are not new whether it is from
The religious die-hards or sophisticated powers in
The world, but such cases remain gathering dust in
The announcements only sans closing the files ever!

Real world violence and fights are going on like in
Blockbuster movies with suspense ever remaining in
Suspense only unless the countries who have sense of
Mercy for humanity announce or hand over them to justice!

Till then the world people only wait and watch that
Day dawning with bright light of peace and joy sure!

Ramesh T A
Bring Peace And Joy!

Centenary celebration of World War I by paying homage
To the departed souls of soldiers in France is news;
Somalia bomb-blast, US Air strike on Syria, California
Forest fire and India-Pakistan border fights are next!

Great World Wars were over, but small conflicts and
Violence caused by terrorists and their downfall are
All seemingly giving the impression that world needs
Peace, though it looks to be a mirage for long today!

Pollution caused climate changes leading to droughts
Long and heavy rains causing floods are hitting hard
To the poor people and hunger, poverty and diseases
Are all ever making the world sick and hopeless still!

Unless all these vital problems are given utmost care,
There is no point in talking about peace and joy to all!
Alleviating the grief of many is really love in action
Needing to be pressed into service to bring peace and joy!

Ramesh T A
Bring Peace To The World!

Due to lack of fast development according to population
And the increase of educated youngsters, many seek jobs
In all ways to manage livelihood foregoing satisfying jobs!

More than the educated, the poor and uneducated population
To meet out the expenses of their existence and their desires,
Seek politics as if going to El Dorado to hit the Jack pot sure!

Since money has become everything for survival in the world,
Nobody seems to bother about the means to earn it and fall
As prey to antisocial elements to carry out mercenary jobs....!

Theft, robbery, smuggling, drug and human trafficking and
Violence of all kinds based on extremism and terrorism have
Become usual activities in all societies of the world nations now!

It has become imperative now that whoever comes to power...,
Should answer to all those demands to bring peace to the world!

Ramesh T A
British Retardation!

British people don't like to mingle with others
As they still believe they are imperialist power
That ruled the world once looting the riches of
Other world countries to enrich their exchequer!

Their existence in the Union has opened the door
For other country people to freely enter Britain
And do business for the benefit of all concerned;
That has made them feel they are looted by others!

By quitting the Union, they are losing opportunities
To develop their business and other works in other
World countries leaving them with disadvantages
They cannot easily manage with as time goes on...!

Even their own other members of UK will soon
Quit from their coalition in order to have partnership
With European Union countries for their development
And prosperity leading Britain ever at the tail end...!

Ramesh T A
Broken Pieces Of Mirror!

Nervously done jobs

Break to many pieces

As ground fallen mirror!

Ramesh T A
Califraglisticexpudiolidocious (Acrostic Poem)

Careful learning and expressing ideas are rare ever;
All of a sudden storm carries away all precious things!
Landing on the Moon or Mars will not solve problem;
Ian Fleming or Frederick Forsythe also can't help it!

France or Austria are not going to know of Big Bang;
Rare phenomena of Nature no one can decipher well;
America and Russia too have not ventured out far....!

God particle they say has given shape and size as matter;
Long researches have not shown the clear answer yet, , , , , ;
India has said of Universe as a field of spiritual expedition!

Science and technology have advanced only in matter;
Transcendentalism is top most yoga only mystics attempt;
Intellect, intuition and mysticism make one see all clear.

Careful analysis of matter and spirit only leads beyond all;
Enjoying bliss in Nature so, one understands all ages sure!
X factor, X men and X file are ludicrous in the West now...;
Physics and spiritualism together can show miracles ever!

Ionic particles too are matters in the microscopic level.....!
Oxymoron of poetry is a blend of two opposites in one;
Liquid, gas out of matter take all to sublimate level sure.

Iron, silver, gold and platinum are rare but diamond rarest!
Detecting precious things from ores surely science has excelled;
Ocean is still a big mystery though man explores Space long!
Cosmology is like ocean and is difficult to master it in anyway.

In depth studies lead all to spiritual matter finally to know;
Om is the beginning says ancient Shastras of India to world;
Universe is still a puzzle to discover anything positive yet...!
Studies of this kind finally soars one to sublimity or divinity.

Ramesh T A
Calm After All Calamity!

All typhoons and rain lashing out in profusion
What else one can do other than staying at home!
But, for all questions, thoughts flow like waves of
Seas and blowing winds out of the storms forever!

Even in sleep at night only words coining lines of
Poems go on building edifice quite amazing and
Also, mind boggling till all are drained, peace....
At last prevails over everywhere making mind calm!

Calm before storm is dangerous ever and no one
Knows what will follow and what havoc's cause
What kind of damages and also, calm returns after
Storm making all give a final sigh of relief sure...!

It is Nature's decree whether it is storm or mind,
Dangerous calm or peaceful calm is after calamity!

Ramesh T A
Can A Mother Kill Her Own Child?

There are artists having no connection
Between art and life like business men!
They imitate some art form they like,
But don't follow in life to make it real!

Sans aesthetic taste art can't survive...;
Sans giving life to art in reality, one
Only murders art for one's selfishness
Disgracing one's image in the society!

What can we say about an artist, who
Murders one's own art for survival like
The mother who kills her own child
For her own survival and selfish benefit!

Law maker should not be a law breaker
To make law respected by all in the world!

Ramesh T A
Can Corruption Be Eradicated?

Unabated corruption is there since hundreds of years!
Can such as saying be eradicated overnight for sure..?
Can demonetization of higher denomination currencies
Do such a magic overnight or in a very short duration?

Corruption has been perpetrated by politicians, tycoons
And bureaucrats making it a culture of human life in all
Walks of life under the aegis of a national political party
Under which banner independence was obtained earlier!

After half a century of such a kind of governance, could
It be possible to stop such an archaic practice completely
All at once by demonetization driving all people money-
Less overnight to make invasion to banks and ATM booths?

Not knowing the immediate and longtime consequences
And sans proper thinking, planning, preparation and also,
Making suitable arrangements to meet the needs of people,
How can a govt. solve the crisis creating confusion to chaos?

Ramesh T A
Can Dictatorship Rule In The Guise Of Democracy Be Allowed?

Democracy is for the people, of the people and by the people; When this is so, can the new measures of administration can Affect the life and work of individuals and people in a country?

Education system and tax system should be reformed then and there; That is the way people can be made possible to enjoy benefits In a developed state of life in a democratic country in the word!

Regime change should not interfere in the internal affairs of men; If it does so, what is the difference between democratic govt. And dictatorship ruled regime of a nation anywhere in the world?

For the sake of fast development, administration cannot force The people to fall in line with the new regime change in anyway, If democracy can be considered to be the best form of government!

Democratic government or any dictatorship government, in the name Of development, people's freedom, liberty and rights are jeopardized!

Ramesh T A
Can Humans Conquer Hunger?

When hunger comes, self-control over everything flies off; Rationality, love, humaneness, spirituality and all fly off Leaving one left with instinct only like all animals desperate To satisfy the need of hunger by taking anything available!

Thoughts on spiritual ideas never work, when one is thirsty And hungry as soul being just a prisoner only in human body; Unless body is in sound condition, brain, heart and spirit Are simply charge-less with energy to be active as mind likes!

Hunger can be satisfied, only when one is employed with good Salary to support one's life and depending ones' lives for Discharging one's destined duties to go higher up in status To live enjoying freedom, joy, love and peace as one likes!

Even sages, mystics and spiritual leaders cannot do thier Highest duty controlling hunger unless they take food sure! If human beings can survive sans hunger, it is possible only By taking energy direct from Sun as plants do all over Earth!

Ramesh T A
Can Knowledge Be Taught To All?

Transmigration of soul is the oldest yoga art
Practised by advanced ancient Indians then!
Teaching knowledge too was carefully done
In those times of caste system in the nation!

Knowledge should be used for good cause only
And failing which it would end in disaster sure!
That was the reason why knowledge was not
Taught to all people but only to the chosen ones!

Medicines to cure diseases, yoga of many kinds
Including transmigration of soul and other arts
Only good and great were taught and aware of
In the ancient advanced nations of the world then!

The researches on ancient aliens reveal so many
Unknown facts and truths now to the surprise of
All making all wonder at the advancement of those
People in ancient times as they were far ahead of us!

Ramesh T A
Can Love Be Decisively Defined Ever?

Versions of love being followed by mother, grand parents, children, friends and humans are many in the world ever; With this alone, love cannot be defined decisively, for, There are romantic love, universal love and divine love!

Universal love also called as Platonic love is love of All people as one and is at the centre of love between Romantic love and divine love in the human world sure; But romantic love has rich literature and history ever!

Divine love is well known for self sacrifice for the sake of The loved ones from the first to last forever in the world; The power of love is known from divine love that has made All believe and rely on ever is the highest form of love..!

Love of all kinds enhances human value whatever be one's status As a human being unique between animal love and divine love!

Ramesh T A
Can Love Be Defined?

Can love be specifically defined to have a complete idea of it? It is the only aspect of human life that takes to divine level; Love is a high and broad human feeling that can be called as the Greatest power nothing can be compared and replaced to it ever!

This human emotion comparable to divine aspect in the world is Not an easy thing to learn and acquire as knowledge by mind as Love is possible to feel and express only through heart of man Starting from mother to children, brother to sister, pal to pal!

This undefinable precious emotional power of man is divinely Unique among humans, especially between man and woman on Earth Creating all living beings to flourish forever and ever quite Incredible in the whole of the Universe with Stars and planets!

Due to the power of man's love, Earth seems to be the centre of The Universe according to religions, literature and life ever!

Ramesh T A
Can Love Be Of Any Use To Deal With Sadists?

Can Love be of Any Use to Deal with Sadists?

Love is the greatest virtue of human life capable of swaying all hearts sans fail!
But love is a bouquet of flowers in the hands of selfish, immature and childish ones
Who are like the monkey that pulls out the petals of flowers in search of
Obtaining an object of its own self interest sans bothering about others care!

Such inhuman creatures are sadists with extreme kind of views about all matters
Whether they are serious ones or simple ones due to their failure on vital thing
Leading to long depression making them have pleasure in torturing good ones
By their stubborn and strong hold even on silly and good for nothing matter!

For convincing or pacifying such kind of incorrigible ones, the one who shows
Love will have to take great risk like the sacrifices similar to Christ or Gandhi;
That will be an extreme state of act none can take up and an useless one;
Nothing good can be achieved by such kind of merciful act towards sadists!

To deal with concrete kind of hard-hearted sadists love is a great sacrifice;
Best thing to do with such ones is the practice of tolerance only though negative!

Ramesh T A
Can Love Bloom Again!

Can love bloom between old soul-mates.....
Still singing love songs as young free birds?
Love has not age limit many feel world over;
Can distance be thwarted to cherish love so?

With love only there is heaven ever in life.......;
Without love, life is hell for many in the world;
But can love be enacted as in youth after long
With all its splendour and glory of youth ever?

Second thoughts on love crop up of late sure,,
When a soul-mate suddenly extends her hand
For love to her boy friend of similar mind ever
Singing songs of love separated by distance long!

Work and distance ever separated between lovers
Can love ever bloom in life to have union at all....?

Ramesh T A
Can Man Live As Machines?

Who can give company to one who has to live in loneliness?
Physical presence of one is replaced by books, Nature, birds,
Small creatures and people moving in and around one's place;
TV, Computer and smart phone are the latest version for this!

Technological developments have driven man to live with all
Sorts of machines and artificial intelligent gadgets of all
Kinds that are going to be popular as all are brought into
This network of electronic devices for our day today living!

Sense of loneliness may be totally made out of fashion soon;
But human touch where can one find if one has to live so as
Space astronauts do in international space station high above
Years together or life long sans emotional fulfilment forever?

Man may overcome problem of loneliness by science and technology,
But human nature can't be transformed into something like machines!

Ramesh T A
Can Medicine Ever Become Food For Man?

without freedom one cannot enjoy any festival too;
Restriction by law and directions to celebrate any
Festival by the order of court and government are
Simply curtailing the freedom to enjoy anything..!

Joy of life is like the parrot's wing cut not to fly
By so many restrictions making enjoyment in freedom
To cut-short for the sake of maintaining security,
Safety and curtailing disturbance to public here now!

Too many restrictions and directions to celebrate any
Festival is like the orders given to prisoners in jail
Or disciplinary controls are imposed on school children
Masking everyone best not to celebrate festival at all!

Medicine is necessary to cure diseases, but medicine
Itself is made as food to eat makes one lose appetite
Complete giving the impression it is better to go on
Fast than enjoy feast full of medicine in world life!

Ramesh T A
Can Miracle Happen?

Too much of anything, good or bad, makes hell!
Fire and water under control bring comfort and
Can be utilized to make heaven come here itself!

If it is a forest fire or volcanic eruption or bomb
Explosion, what a hell it is, we all say in anxiety!
If it is typhoon or tsunami, what a hell it is, we say!

When a paltry sum of something may look nothing;
But when it develops to an immense proportion, it is
Beyond human control to contain it by any means...!

Man's destructive or negative use of knowledge ever
Makes even a paradise into hell and makes all abhor
Unable to change it for the better, when all go awry!

Correcting the mistakes at the last stage is impossible
Being an Herculean task to do unless miracle changes!

Ramesh T A
Can Poems Be Written Forever?

It is a pertinent question for seeking the answer to know whether poetry is easy or difficult or what to read and write. Many have the concept that poetry is difficult to read or write and understand as for hidden meanings, one should see between the lines! Indeed poetry is not an easy joke and cannot be written easily as words have to flow from the depths of the poet's heart. Poetry can be classified as classic, romantic and modern in literature. Now Japanese Haiku is talked about and felt to be better to write poetry. It is better, many feel, to break poetry and publish as poetry books! Also poetically prose is written to enjoy poetic pleasure. But there are people to enjoy such poetic stuffs as puffs, burger, pizzas, etc. Indeed poetry in couplets, haikus, 3 line or 4 line verses, sonnets, blank verse or free verses have come up to please and instruct the world! So, we get poetry churned out as junk food items like snacks and tiffin rather than break fast, lunch and dinner!

Realities of the World

No individual can escape from the cobwebs of society, the turbulence of politics, the pinches and snatches of economy, the confrontations of contradictory cultures and the hypocrisy of modern civilization. Therefore frustration, monotony, irritation, cynicism and skepticism are largely found in every rationalist, moralist, self-respecting individual and compassionate intellectual. No cry or tears can solve this crisis. Perhaps this type of situation can be termed as illusion which everyone has to face boldly though a time consuming thing and proceed in the direction to fulfill the purpose for which one has started one's life. As illusion is not a permanent thing no one can be bogged down forever. The worries come and go but the goals, the thoughts, the imaginations, the dreams and the ideas of a better tomorrow should not be forgotten because these are the things that make men get inspiration, enthusiasm and the zealous mood to go ahead hopefully and cheerfully in life and make human life worth living.

During my college studies in the 1970s I came across all sorts of malpractices, favoritism, nepotism, corruption, conventions and obsolete traditions being followed in all the fields of human endeavour whether it is in education or judiciary, in politics or bureaucracy, in religion or society, etc. crippling the developmental activities of the people and came to the conclusion that everything had to be corrected, reoriented and reformed in order to allow healthy developments of the world to go on smoothly and congenially satisfying the sincere, good and honest people of the world and before completing my college education I finally decided to become a free lance writer which profession suited
me to my nature more perfectly than anything else in order to analyze all the
matters concerning human life, bring out the best things and truth in them and
suggest suitable solutions for all the problems therein paving the way for a better
world and in that way do a noble service to mankind though I would be doing
joint family business immediately after education as there was no other go.

Ideas

Through my own experience I came to know that I was not the master of my
own fate, that fate [Stars] was the master controlling the affairs of men and that
though man proposed many things God [Time and Men] only could dispose
everything. The final decision I took to become a writer taking for granted that
both the business and the family activities would not come in my way and affect
my writing works. But contrary to my expectations, business and family
obligations blocked my onward march towards fulfilling my noble ambition. In
that situation I was so much terribly disturbed, disappointed and dejected about
my position both emotionally and mentally that I cried inwardly in loneliness
giving birth to some poems and felt it would be better to write poetry about
anything and everything to get the satisfaction I was longing for in this line! But
such desire was disrupted often by obligations so much that I could not go ahead
with my literary adventure as I wished and nothing was I able to pen as I
desired. The result was the production of The Poetic Mood.

The Poetic Mood

The mood, the poetic mood where has it gone?
The mood that made me once write poetry
No more knocks at my door now a days
And gives me pleasure it gave me once.

Perhaps job, home and relations the cause,
I failed to respond the call of the mood.
Now are there Music, Books and Nature;
Yet, the mood that moved me once comes no more.

Three decades ago one lonely night I wrote of my plight;
One twinkling Star solaced my heart then;
That Midnight Star inspired me of miracles;
Now I think again of those thoughts and dreams.

Two decades ago in sonnets I wrote of a Reverie,
From Utopia to Universe I dreamt of many matters;
With that and a few more fragments my poetic ventures vanished.
Now can the lost mood I long be regained to produce lasting poetry?

Writing poetry was a thing of joy for me,
Nay, a relief from the monotony of the day's work.
Poetry is a thing of beauty in itself;
A thing of beauty is indeed a joy forever!

Gay or grief, better to write and forget than to remember and suffer;
Writing puts an end to all lingering thoughts;
It's a great confession that clears all confusions;
Confidence comes of the clearance of complexities.

Not mere mood but feelings produce real poetry,
Not imagination but emotion keeps alive poetry,
Not only emotion but also intellect creates poetry great,
But without the spirit poetry will never be divine or sublime.

In the five decades the poetry I have produced,
I have discovered, courage grows upon criticism;
Criticism is not opposing out of hatred,
Or finding faults out of jealousy or complaining.

It is inference, conclusion, and judgment-
Judgment based on analysis, arguments and audits.
What use bravery is, if it fails to bring benefits?
Courage even if fails never leaves in despair.

Ah! I have discovered the solution to get back the lost mood.
Life and work make or mar man in the world.
Loving, thinking and meditating occupy full life.
No time to think, then no mood is there to love, meditate and write.

What use even Music, Books and Nature are there then?
Indeed Music touches heart, mind and soul but not fetches the needed mood;
Books give knowledge or ideas but only to the ardent seekers;
And Nature too nothing but simply reflects human nature.

These are some aids that give respite from heavy schedule;
In the fast world, where is the time to stand and stare?
So, with the crisis in mind, search is made those aids may be of help;
During those searches many discoveries can be made.
Such inward discoveries like the outward ones show incredible wonders. Joy or sorrow at its peak can lead to circumstances inevitable in life; Those are the moments when the poetic mood comes in all its glory; On such occasions only poetry naturally blooms in all its beauty.

True knowledge is got through intellectual pursuits wise; Perfection called beauty through long practice is achieved by love and knowledge in unity; The expression of such perfection gives really a joyful admiration; Truly then, beauty of love is knowledge of truth in poetry!

Dreams

Following particular style and form, only mechanical verses can be written and not pure poetry which is an expression of spontaneous overflow of emotion and recollection of the past in tranquility as was represented by Wordsworth and dream or visionary poems written by Coleridge. They were all written in the possible form and style before the ideas disappear in the mind. From the subconscious activities of the mind such poems are written by extraordinary poets and whose expressions are generally extemporary in nature. What is consciously expressed is based on what is seen, thought about and imagined from the commonly noted incidences and shared experiences of all. In this category many poets and poems are commonly seen today. But the mystically expressed poems are super-conscious activity of the mind of a poet, quite rare and their forms of poetic writings are one of a kind in the world!

However, writing continuously poems of standard and substance is beyond the scope of all poets. Even Shakespeare who wrote romantically enjoyable plays like As You Like It, A Midsummer Night’s Dream and Romeo and Juliet could not repeat performance in the same vein for long. This fact can be noted in Twelfth Night, Taming the Shrew, Much Ado About Nothing and so on. His poetic quality slowly drained from richness to prose form finally in the plays like The Tempest. He was romantic king of poetry! But the case of Milton was rare and different and exceptional. He produced best small poems at first; then he indulged in pamphlets for press freedom and finally when he became blind wrote masterpieces like Paradise Lost and Paradise Regained that belong to classical literature. Likewise poets of long sustenance in the field can be noted everywhere.

Criticism

The advancement of science and technology have increased interests in
materialism overshadowing human values in such a way that man works as
machine, lives as animal and has become a machine-beast-man in the modern
world and because of too much politics in all walks of life man has become an
inhuman creature in the developing countries of the world today. In this situation
man exploits everything for his personal gain to such an extent that he has
destroyed not only art and culture but also destroying Nature which is equal to
the destruction of human race itself. Under this circumstance what kind of poetry
can be written in what kind of form and style is a million dollar question! These
thoughts led me to compose on decant poetry and criticism of the drawbacks
prevailing and spreading everywhere! Perhaps the following expression would
reveal the matter better, I presume.

Decadent Poetry

Oh, decadence, decadence everywhere! What to do?
What has happened to my poetic mind?
Why has it stopped producing poetry
That was flowing like a smooth running river?
Now it has virtually dried up like a dry desert.
O My poetic mind! Why have you dried up?
When will you become wet and ooze out new verses?

The Shelleyanist, our national poet Bharati was there
And the naturalist, our international poet Tagore was there
To produce poetry in profusion during the national movement
And worked much to get liberty and democracy for the nation
Exploited and humiliated for more than 500 years by foreign rulers.
National independence struggle was the great cause for these poets;
French revolution was the great cause for those illustrious romantic poets;
But now, what great cause do I have to write great poetry?

Beauty, love and nature echo forever in their lively poetry;
But with trivial and sundry things what great poetry could be written?
Liberty, equality and fraternity established through their poetry;
But today those slogans are not genuine in practice anywhere.

Liberty, love and justice are very much needed for human civilization;
Everyone should follow the culture of doing things as one likes;
But devoid of morality or culture they live the life of hypocrisy!
Many enjoy liberty as they like caring little love, truth and justice!
Too much liberty has changed many into unwise intelligent citizens!
They achieve economic viability using high scientific technology
In this matter of fact, business like and noncommittal new world.
They insist on following system to complete time bound programs
And function as salves to time in competition with the machines;
And the time spirit activates the machinized man in the modern world!
Is it good or bad? No time for men to think! Only machine decide all!
So, has man to live mechanically monotonous life by the tick of time?
How awful and mad the life of the modern man has become today!

Art, culture and nature connected to man are too unique to be ignored
And unwise utilization of Science leads to the destruction of all ultimately.
So the duty of man is to safeguard and cherish them forever;
Though whatever he does, he cannot forget such vital duties.
He can meddle with art and culture but not with nature and escape.
So, is it not unwise to live in time only and not in wise deeds?

The rapid exploitation of natural resources destroys
The power of nature to recoup itself
And the pollution of environment kills
The natural biological growth everywhere.
Science and technology are needed but their
Unwise use leads towards the destruction of all;
Not only on the earth but also in the outer space
Man ventures out for scientific discoveries;
And time may come when like in the hospitals
Man may have to live in
The oxygen tents somewhere in the moon!
Then as in the Byzantium man has to satisfy himself with
The artificial Nightingales to sing songs for him!

Now in this century itself man uses computer
To produce poetry sans nature and human nature!
So, gone are the days of the majestic Miltonic verses!
And gone are the days of the myriad Shakespeare's Art!
Where can we find such great works of poetry today?
Where can we see artistic works of human perfection?
No more shall we talk about them,
Because it's waste of time, you know!

Then what will be the definition of Man's life in the future?
Life will be a scientific routine to be followed as machines!
Life will be a fixed program for safe mechanical life!
And after death all become machines to continue the routine!

The symptoms of such happenings are already seen
In the destruction of art, culture, literature and nature today!
Already I am also automatically in the process of machination
For destroying nature in sophistication!
And so what is the use of worrying about
My poetic mind to pen poetry at all?
After all this is the reason why
My natural poetry of creativity has
Turned into prosaic poetry of criticism!
And my poetic mind has lost the poetic spirit as
It has mingled one with the machine world of man!
This is the sorry state of decadent age in the modern world!

Free Verse

There is no hard and fast rule for composing poems today though some impose certain conditions for accepting poems in competitions. Pure poems cannot be composed based on those limitations to express freely, frankly and fearlessly about matters starting from Sex to Space. The best thing to do is to use the conversational language in writing poems for the enjoyment of all. Therefore the form of poetry suited to do so can be only blank verse or free verse. After coming to this conclusion and writing poems many feel introspective appraisal about one's poetic writing is essential. I am also not an exception in this regard and expressed my findings conclusively in the following poem.

About my Poetic Writings

I wonder at what I have been writing so much so long;
That too many matters I write poetically is quite surprising!
I doubt very often whether I have the capacity to write poetry!
I don't know even what to discuss when asked about my writings;
In Nature what ideas I got, felt and thought I wrote in poetry;
Otherwise, I am nothing when I am not in the mood to write anything.

When the urge comes I become entirely a different person till I finish my writing!

The poetic mood followed by the urge to write continues till the topic naturally ends!
The details of the split personality of my person are perplexing to write
So, bit by bit like the flash back scenes in films I write my heart felt ideas in
many poems!

I love music and poetry but don't know music and poetry to explain and express in variety;
So, I am a romantic adventurer in poetry according to the urge of the place and time!
In this kind of poetry at last I have found out the way to express myself!
If this is not poetry, what else it could be, tell me!
Comments and criticisms are quite welcome from all quarters!

If poetry means, should there be rhymed and rhythm in the lines of the poems?
They are the framework or the structure in which everything is stuffed in some order;
There is no fixed rule for the structure to produce naturally evolving poetry.
What counts much here is not beautiful frozen structure, but life, feeling and sense in the stuff!
I write to transport the minds to the world to experience vicariously the pleasure
Of my experience in the known words compressed information About infinity, unknown reality and the myriad nature of mind.

First I wanted to write novel with philosophical ideas or contemplative essays;
After one novel and a few essays I could not proceed in the same vein any longer!
Then I got the idea of writing this kind of poetry to express out my ideas;
From then on I write, write and write everything as and when the urge comes!

Past knowledge, present experience and future expectations Combine into ideas to be expressed in the form of poetry;
Contemplative, philosophical and informative ideas with humor tell the state of human life today!
Lonely in Nature when I am in the depressed mood I indulge in meditation;
Mystical exercise in Nature awakens the indwelling spirit to life!
Then the knowledge of reason enlightens the mind and elevates the spirit;
The expression of such a spiritual experience is generally poetic in nature for me!

That is why matters I have expressed more in the poetic form than in anything else;
Also, many matters can be compressed And very briefly expressed more in poetry than in other forms!

As matters are many there is a chance to forget too, once they are written;
However, my analyzed views, convictions and information
Are meant for sharing with everyone. Essays and other forms of writing, take a long time and many pages to write That sickens and makes me insipid before I finish my writing; If it is uninteresting to me how could it be interesting for others to read it? So, poetry is the best form to resort to to express myself Whether I am in the best of mood or in the worst of mood!

Ramesh T A
Can The World Become Dark, The Cat Closes Its Eyes!

A person by knowledge, talent, achievement and extraordinary service
Only is appreciated as great and respected by the general public..;
But some caste minded fools, wearing holy thread and eating veg. food,
Feel to be high caste ones and behave insulting others in the community!

This kind of pseudo high caste feeling have made these stupids do as
they like all things as they wish as if they have the authority sans
Knowing respect and shame and behave as baboons of circus among good
Mannered men in the society creating greatest blemish to community..!

Such stooges don't care about respect and don't respectfully behave..;
And talk without control of tongue what they are talking when in rage;
Even after they are ostracized by their own relatives and community men,
They shamelessly move in functions of arts as if they are great artists!

There is a saying that the cat will believe that the world has become
Dark, if it closes its eyes and this is what dubious high caste ones feel!

Ramesh T A
Can There Be Life Sans Poetry?

Magic

Romantic poet Samuel Taylor Coleridge was of the view that poetry involves whole soul into activity. According to Rudyard Kipling poetry is magic (best man or maid of honour speech). Yes, poetry is music produced by the magical power of a poet. Whether the meaning or message or matter is understood or not certainly the sound of music or rhythm can be heard in any good poetry. The echoing effect of poetry is the expression of the happiest or the most sorrowful mood or sense or sentiment or emotion or the voice of the poet. Poetry is not only music but also a picture painted with the same old words in a fresh manner. That is why poetry is ever fresh and new and whose place can never be replaced by any other form of literature.

Genius

All dreamers, musicians, painters, sculptures, etc. in words afresh always are poets. Like a lover or a madman the poet is also an adventurer in imagination. With the power of imagination they create a world of their own wherein they are the leaders leading all men to happiness or sorrow at their will. A great poet whom we call as genius has a unique power to see A to Z of all details of everything and express them without any omission. So this power of a poet can briefly be said as the unique combination of his emotion, imagination, intellect and intuition. Naturally when these faculties unite together in a man his utterances ought to be some kind of poetry whether his mood is happy or sorrowful, whether he is lonely or in joyous company.

Natural and Popular Poetry

Poetry has the power to sway over everyone because of its lasting echoing effect. Poetry that has no mechanical design but has an organical formation like the naturally grown plants from the seeds to the leaves, the flowers and the fruits, has the power to reach the heart beginning from the eyes or the ears and finally mingle with the soul of man. It has the power to please the senses and bring one to one's senses. Poetry gives pleasure to heart and at the same time enlightens the mind also and makes the complete soul get animated by its spirit. That is the nature of the best poetry. The poetry that is living in the new form today according to the changes of time and the living style of the people and is popular can be seen in the folk songs, the Cinema songs and the Pop songs of the world. Therefore poetry is a necessity of man and without which human life is
Modern Poetry

Nowadays what is expected of poetry is that it should be understood just like a prose piece but at the same time it should be poetic also. It is indeed a challenge for the modern poetry writer. So the possibility for a poet is to adopt the language of the people spoken everywhere. The best thing to do is to use the conversational language for accomplishing that end without altogether giving up rhythm, internal rhymes, etc. wherever they came naturally. So, blank verse or free verse that comes naturally and easily according to the mood and the contents of the poetry finally becomes the best style and method one can practise, which will be easy for everyone to read and understand without any difficulty. Find out more about modernist poetry on WikiPedia free pedia, click here.

Imagination and Criticism

In A MIDSUMMER NIGHT'S DREAM Shakespeare says that "The lunatic, the lover and the poet, /Are of imagination all compact; /And, as imagination bodies forth/The forms of things unknown, the poet's pen/Turns them to shapes, and gives to airy nothings/A local habitation and a name. From nothing unreal and nonexistent thing imagination can produce something, some illusion of reality. It can produce joy as well as fear from nothing. Previously that was the job of the poet. Now the poet has also become a critic of life in his poetry. According to Matthew Arnold poetry is the criticism of life.

Prose and Poetry

In the fast moving world people hardly spend anytime in reading matters in detail after Radio, TV and Computer have come into use. Today people to know about the world, the activities of important persons on all walks of life in different parts of the world, Nature, natural calamities and the Universe, read the briefly written pages of some express newspapers and fasting moving magazines only. The knowledge of truth about many matters people read in them gives instant pleasure people need and they forget the matters very soon. Truth about eternal things are difficult to understand and people also dislike to read books on such matters written in prose in philosophic or scientific style, because people won't get any pleasure, understand anything and gain any knowledge at all out of them. In such articles truth is expressed in bare facts which are dry, dull, lifeless, boring and non-exciting. Those who understand such facts enjoy great pleasure but they are all isolated few only and very meagre in number.
Pleasure of Poetry

Certainly pleasure is the need before one gains knowledge. The first duty of poetry is to give pleasure. If it does not, it is not poetry at all. Poetry is as per the view of Wordsworth a "spontaneous overflow" of passion, it is "emotion recollected in tranquillity" and more than that "Poetry is the first and last of knowledge - as immortal as the heart of man." Poetry is unique like painting and music because from the passing things it gives permanent truth producing delight or from the trivial thing it conveys the Universal truth putting one and all in joy, pleasure and surprise or wonder.

Flexibility of Poetry

Poetry is preferred to prose because it is the most flexible form of literature and art. The compression of many ideas and information is possible in poetry for the rapid reading of more matters; and for the easy understanding of matters the rules of prose can be followed in writing modern poetry. For that bridging the gap between prose and poetry is possible by the use of spoken words or the conversational language of the public or the common man's language of the news media we are familiar with. In this way poetry is made easy, interesting and lively for the reading pleasure and remembering matters. But in general prose written well in simple language itself becomes poetry very often! Above all what distinguishes poetry from prose is the descriptive beauty of words, the musical sound of words, the words of human passion or the personal element and the inspiring or the exciting power of words in harmonious unity or in rhythmic form. In short poetry has beauty, knowledge, passion and excitement which are lacking in prose.

Modern Poets

Many people think and still have the idea that the metrical composition or the rhyming verse alone is called poetry. That has become an old form of poetry long ago. Modern poets, following the examples of Shakespeare, Milton, Wordsworth and others, have relinquished writing metrical verses and have changed over to new poetic forms in poetry. In reality nobody speaks in rhyme or uses complex symbols or images in conversation. In poetry we use imagination like intellect in prose to express truth about reality and abstraction. For this purpose the new poetic form in spoken language is very, very useful to write freely, naturally and in variety according to the mood, situation and circumstances one is placed. Finally, it can be said that it is possible for a poet to cut sculpture, draw pictures and compose music not with hammer, brush and trumpet but with the words people know and speak everywhere in the world.
Can There Be Love?

I am counting my days
For, I am a heart patient!
A lady wants to love me
For, I am a poet, philosopher and writer!
But I can love only Blue Lord
For, He is my friend, philosopher and guide!
So, can there be love between me and her
Though I am 60 and she is 45 now?

Ramesh T A
Can Turmoils Be Averted?

Natural devastation like storms, volcanic eruptions
And earthquakes take place now and then here!
War minded groups too fight against each other
Like natural disasters happening everywhere...!

There are beautiful display of artistic works like
In the twilight hours in the sky, over land and sea;
Also, there are artists of various talents displaying
Their works of skill for entertainment and peace...!

Both bouquet of flowers and brick bats are common
Both in Nature and humankind in the world we live;
Unless balance is maintained, effects of each are very
Difficult and hard to bear and proceed in the world..!

Imbalance comes of no self restraint and control by
The players in the world drama that is going on ever!
Adjusting ourselves with tolerance to a little bit surely
Will pave the way for peace and long life in bliss here!

Ramesh T A
Can War Be Stopped?

Aerial attacks by mosquitoes
And land attacks by ants
Continue even they are killed!

Rats menace at night times
Go an endlessly even if they are
Often eliminated by traps!

Even lions and elephants are
Not left with by these insects
Though they are small in size!

Small bacteria and viruses
Cause greater health hazard
Like parasites inside body!

We preach peace opposing wars;
What to do with mosquitoes, etc.?

Ramesh T A
Can We Migrate And Live In Other Planets?

Material world is driving us far away from paradise
To enjoy heavenly joy making us depend money for all!
Natural world is poisoned by pollution in the name of
Development by science and technology and world commerce!

Wars endless caused by the clash between civilization
And fanatic religious culture make many physically
Disabled not even leaving innocent children and women and
They survive amidst violence despite greatest drawbacks!

The world is made unsuitable for living not only for
Good people but also delicate birds and cute little
Animals domestically surviving for many, many years
Due to developments by modern technology and life ever!

If we lose this wonderful natural world by material
Developments, pollution and wars, can we migrate to
Other planets of harsh weather conditions to live with
Our science and technology and civilization there sure?

Ramesh T A
Can We Survive Without Nature?

Can We Survive Without Nature?

Without Nature where is romance and love
Ever for the survival of mankind in the world?
With Nature only we all get inspired to do all
To discover, philosophize, invent and create all!

Without Nature's grace survival of the world
No one can think or even dream about perhaps!
Not knowing this how cruelly we all pollute and
Exploit resources for food, raw material and energy!

Without any sense of recycling or conservation of
All natural resources, we consume at a fast rate
In such a way that Earth may become as dry desert
And one among the other planets of our Solar system!

Without taking any efforts in preservation of Nature,
Can we ever dream of one world to live with all as
Our own kith and kin to promote peace and unity
Having many world forums preaching as religions...?

Without religious heart and scientific spirit, can we
Ever deal with this international matter separately or
Just leave for others to deal this matter to solve it as
We all dream about and preach in words full of sound?

Ramesh T A
Can World Become Dark?

Like cat believes

Can the world become dark

If we close our eyes?

Ramesh T A
Cann Life Be Complete Sans Art?

By keen observation an artist depicts minutest details
In the picture that gives life vibration to the viewers!
Only when such effect is produced by an art, can it
Have significant impression in the minds of observers!

The lasting sensation produced by an art keeps alive
The desire of the observer to the extent of forgetting
Oneself of all woes of the world for a change in the
Circumstances of crises in the world life we all face...!

In this respect, the all absorbing poetry, painting and
Music really do great service in rehabilitating one and
Also, rejuvenating the spirit of any human in any walk
Of life to a better state to deal all hurdles suitably well!

That's why human life is incomplete sans art or poetry
Or music and are they still surviving against all odds...!

Ramesh T A
Care And Concern Of Love!

Concern out of love for the loved one is great indeed;
Nobody knows how eager they are about the well being
Of loved ones whether the lovable persons know or not!

Love of good souls take care of the lovable persons
Whether they are near or far off by enquiring the ones
Near them about the nature of lonely loving one's life!

The care and concern of loving persons are greater than
The Almighty in the human form in the world we live in
And that surely makes the loved ones ever live in peace!

It is fortune that overwhelms one after affected much
By fate in the human world through love of good souls
Who always think, plan and bring benefits to loving ones!

Concern and care of love of good ones invisibly helps
One in great distress like the divine being that protects!

Ramesh T A
Care For Nature!

Rain lashing all day long never seems to stop!
It will continue one more day, say a news to
The great grief of poor people caught in long!

Incessant rain increasing water level as floods
Everywhere cause great dislocation of all in
Many areas of the city making all blink ever!

If three months' rain falls within one or two
Days, how can anyone do anything other
Than waiting for the rain to stop sooner....?

Only after the formidable rain falls move
Away to some other direction, water can
Drain and life's normal activities can restart!

After sunshine comes bright, all forget all
And resume their works not caring Nature!

Ramesh T A
Carried Away By The Stream!

No tears or cry can solve this matter;
Here all are carried away by stream;
No one can ask for any justice here!

What crimes can be solved by what measure?
Law may be hood winked but not dharma;
It is natural justice that takes care of all!

Let us just ignore twists and proceed on!
Let us do justice to what we have taken
And complete the mission sans fear!

Each one's duty is watched by the Supreme
And the final result will be surprise to all ever!

Ramesh T A
Cascade!

Night or day it is
When I think of her alone
Poetry flows in cascade!

Ramesh T A
Cats And Rats!

Lovers fight
As cats and rats
Before they unite!

Ramesh T A
Cause For Chaos In World Society!

Real social development is possible only by education, Recognition of talents and suitable jobs for all ever; Economic development alone at the cost of social one Surely will lead to inequality, confusion and chaos!

Education alone sans recognition of talents and provison of sobs has led frustrated youths to be naxalites long Indulging in looting the riches from others as thieves; Many men sans education in society are now terrorists!

These are all happening due to improper management of Nations by politicians and bureaucrats everywhere now; After growing such antisocial elements, big nations are Trying to wipe out such ruthless killers of humanity..

Education sans character development, non-recognition of Talents and no jobs after education surely will produce Harmful citizens in more numbers than before needing Proper measures on war footing to solve the crises sure!

Ramesh T A
Cause For Destruction Of All In The World!

People of knowledge, talent and skills need to be
Honoured, respected and provided with channels to
Do the best and create beneficial things for all!

If highly educated people, when not provided with
Suitable jobs by government and go for manuel work
To earn sufficient income it is a shame for nation!

The educated and skillful unemployed in large numbers
Means the government machinery is in very bad shape
Needing drastic reforms to utilize them for better!

Unemployment of knowledgeable people is a chronic
disease that will turn into contagious disease in
The society turning many best brains into extremists!

Extremism turning into naxal and terrorist outfits
Turn world into eternal war field destroying all soon!

Ramesh T A
Celebrate Lovers Day Festival To Revive Sense Of Love!

Love has lost centre stage in all the affairs of men in the world
Due to religious cultures and materialistic civilization forever;
Due to these facts, self-centred thinking and selfish acts of men
Have come into vogue to excel in competitions in all matters now!

Even at home, each one is separated by each one's occupation in
Such a way that there's no time and chance even to meet everyday to
Say hello to each and everyone to share even minimum human kindness
Leading to no way to show and share love among themselves nowadays!

Perhaps Lovers Day festival may provide a chance to celebrate it to
Remember something about love or learn what love is in the society
As mind work has taken a lion's share of life leaving no chance for
Heart to feel anything like compassion, mercy, affection and devotion!

Perhaps at least to revive some sense of love among human beings, it's
Necessary once in a year to celebrate Lovers Day festival forever…!

Ramesh T A
Celebration For Sudden Meeting Of Friends!

For anything and everything, celebration has become joyful thing; Celebration gives an opportunity to meet together all in one place; Living in the same place there is no chance to meet each one ever Due to each one's occupation and time goes on even to many months!

Suddenly a friend comes from France or USA to meet all friends...; Immediately all have another celebration time with foreign friend; We have many things to discuss in the long absence of meeting with full of enthusiasm and joy nothing can be compared with that sure!

Life seems to be worth living for having such wonderful men to Meet and mould our future course of action based on the ideas we All have in such celebration of meeting together in one place again Quite unexpected by all, but with full of satisfaction all goes well!

More than festival celebrations, celebration with friends on such Sudden meeting is more hilarious to enjoy in life than anytime sure!

Ramesh T A
Celebration Lovers Day Is On!

For good and bad, celebration of lovers Day festival is getting ready; Other than Christian religion, all others are not of the same view as Far as St. valentine's Day festival is concerned for union of lovers!

Cultural differences everywhere is of great obstacle for the celebration, Though it is a celebration of one saint's sacrifice for uniting lovers On the basis of true love placing love on the high pedestal of world life!

Youngsters love this festival very much to enjoy a good time for love Sending greetings to their soulmates and displaying the symbol of heart Everywhere in support of universal love and have fun in the name of love!

It is indeed a festival that can be celebrated by all people in the world; Love is the greatest emotional power for humankind that rules the hearts of All humans to perpetuate the message of love and procreation of good humans!

Lovers Day festival doesn't mean to be used to force lovers marry at once To show their true love by others unbelieving it, yet, love needs celebration!

Ramesh T A
Celebration Of Dance Festivals Is For Total Liberation!

Celebration of carnival festival with Samba dance in public
rejoicing all people standing in ovation on both sides of
Road, beauty, truth and divinity display significance of
Nirvana in action for enjoying total freedom and bliss sure!

Hare Rama Hare Krishna bhajan song and dance by ISKCON group
Transports to transcendental state of consciousness not only
The group but also all people who come under the spell of
That tune to make all dance and enjoy divine bliss for long!

The spiralling dance of Sufi dervises also does the blissful
Effect, when they commune with the Universal spirit in a state
Of trance only mystics and Nature poets can know the spell
And capable of enjoying divine bliss like them in the world..!

When we come into the world, we come with nothing and also, when
We go out of world, we go with noting in hand in total freedom,
Only when we attain the state of Nirvana relieving ourselves of
All bindings to everything and everyone as we came into the wold!

Ramesh T A
Celebration Of Festival Of Harvest With Chang Of Attitude!

Now is the time for Festival of Harvest!
Looking for rain, Sun and toiling ever
On the soil with oxen and cow for milk
Farms spend their life time in the villages!

Town life, modern life, civilization and
Fast material world business they don't
Know and understand but concentrate
Only on field to produce food for all sure!

Due to the exploitation of natural resources
For raw materials, energy and food, the
Commercial minded lot have polluted air,
Water and soil leading to climate change!

Due to that and other factors, farmers suffer
Not able to overcome plights during droughts
And during flood situations in winter so as to
Have a good harvest at the end of winter time!

The greed to see profit only by technologists
And commercial experts should change their
Attitudes for the well being of all people and
Especially the farmers saving the Earth long!

Ramesh T A
Celebration Of Indian Independence Day!

Celebration of Independence Day all enjoy much
Feeling proud to be a citizen of a great nation all
Love its diversity of religion, literature and culture!

Universal brotherhood and unity in diversity of India
Make it a best democratic nation in the world forever.
Next to USA, India is biggest democratic nation ever!

America may be a great democratic State, but India is
Biggest democratic State by it population next to China
Ranked as top most economic giant of Asia with China!

Spiritually advanced country in the world India is with
Its feat in achieving great stride in space science also by
Sending spaceships to Moon and Mars too recently sure!

With all its development, India has largest population of
Youths to serve as man power needed for the whole world!

Ramesh T A
Celebration Time For The Upholders Of Dharma!

Diwali festival of India is celebrated with lights
Burning bright in every house and families and all
Friends together enjoy fun burning sparklers and
Bursting crackers upholding victory always for good!

At the same-time, to safe-guard public properties
From getting into fire accidents, rain seems to fall
To protect all from fire with water serving as a
Natural fire extinguisher as if a blessing from God!

When good time comes in life and good people who are
Following the path of justice or Dharma, everything
Seems to function in cooperation and coordination to
Support the efforts taken to safeguard dharma in life!

In the world full of wrong doers in all walks of life,
Living according to natural justice is a great deed..!

Ramesh T A
Celebration Time!

Rain at every night after every hot day
Surely relieves tiredness to relaxation..
Necessary to recoup body fitness sure
For another day of toil with strength..!

Everyday is a new opportunity for all
From the morning to the evening sure
To get the satisfaction out of hard work
One does in the field one is best at ever!

Renewing one's spirit to its real self,
It is possible to tackle any kind of task
To deal it with required skill to solve
Matters to materialize one's goal sure!

So doing each day, it is celebration time
When holidays come along with festivals!

Ramesh T A
Celebrities Live In Hearts!

Everyone is born for a mission!
Once the job is done we vacate
For others to continue venture.

Celebrities die young forever;
Marks left behind them tell tales;
Judgement is made upon that.

Krishna, Jesus and Vivekananda
And famous pop singers too are
Best remembered by their acts
But never by their ages forever.

Buddha, Gandhi and Mandela like
Long lived celebrities too are
Best remembered and adored!
Long or short, they live in hearts!

Ramesh T A
Chagne Of Season On First Day Of October!

Sunshine and formation of rain clouds mark the day;
A little showers of rain then makes the place cool....
As if natural air condition has been switched on there!

What a change suddenly happens in a hot place here,
When South-West monsoon changes to North-East one
On the first day of October itself in the East of globe....!

All these things only Nature can perform as in a magic
Making all reel under the spell of this magician none can
Predict for sure whatever be the situation in the world scene!

Such a good day today indeed I enjoy much as if living in
A hill station though the place is only a seashore area ever!
Nice change of season surely all are waiting to welcome...!

The monsoon rains are the boon for the agriculturalists
To boost their output of best crops for all to live in joy...!

Ramesh T A
Champion's Choice!

Champion chopped
Cherry chocolate-cake
Choking choice!

Ramesh T A
Change According To Changes!

The fun in Nature is endless,
Morning sunshine or Moon light
Or sky full of stars of all kinds!

Our duty is to enjoy fun ever
Not bothering about some shortfalls
Only to be rectified by time!

Till such time why there's
Any grief to be felt as blockage
On our journey of adventure!

Changing according to changes of
Time we get a lot of opportunities
To try chances in novelty of life!

That's the way to breathe fun
And have a free spirit to go on
To fulfil all our dreams by ideas!

Ramesh T A
Change For Peace Possible By Unanimous Action Only!

Humanity is never for wealth, position and power;  
But it is ever for love, joy and peace in the world!

Greed of some for wealth, position and power ever  
Destroys natural resources and perpetrates wars sure!

Destruction of natural resources wipes out vegetation and  
Leads to the destruction of Earth, paradise of Universe!

Fear and hatred cause endless wars in the world leading  
Nowhere but only to destruction of men, materials and world!

People are longing for love, joy and peace by following policy  
Of Unity in diversity of races, religions, cultures and so on!

Weapons and Terrorism are endanger the existence of humanity  
Perpetrating only chaos, anarchy and oblivion needing change!

Change for peace, prosperity and progress is possible only by  
Love, unity, cooperation, coordination and unanimous action!

Ramesh T A
Change For The Better Must!

All good receptions are for great exploitations in the material world!  
All matters revolve round physical, financial and technological ones  
Making no room for human feeling, intellect and spiritual significance;  
Knowledge, wisdom, truth, love and bliss in harmony with Nature are nil!

Exploitation, hatred, jealousy, violence and wars have driven peace and love  
At the back-burner since a longtime after the dawn of civilization sans culture  
Cherishing in best way of life that includes art, books, music, Nature  
And all of best knowledge of past still relevant and doing all in the best way!

Due to mechanical way of life having no connection with Nature but only time  
Surely make all fed up with the routine and failure to do all in time ends  
Finally in loss of peace of mind bogged down in the quagmire of depression  
Seeking the way to escape from nightmares of hell one undergoes!

Frequent change in way of life only cheers up mind, heart and soul ever  
Which is possible only by creative work of art and in exploration of Nature!

Ramesh T A
Change In Life Is Possible!

Grief stricken girls and guys seek the beauty of Nature to get solace and relief;  
With the inspiration from Nature they express spontaneous ideas of heart  
In the form of romantic poems to get spiritual satisfaction like singing birds;  
That brings together two soul mates of the same status to sing songs of love!  
Love is an extraordinary power that only can solve even insoluble matters  
For making the journey of life smooth as flying in space even if it be a tallest hill  
With many hair pin bends steep and slippery to join the sweet heart just as  
The mist mingles with the transparent clouds on the peak covered with snow!  
A mountain like grief moves away like mist by the magical power of love  
Inspired by the beauty of Nature bringing together lonely hearts of grief  
To have a better chance of life to enjoy all pleasures that are otherwise only  
Possible in rare dreams not at all possible in this fast uncertain world of life!  
Nature, poetry and love are not only for romantic girls and guys for relief ever,  
But also for all grief stricken lonely souls blinking in despair for change in life!

Ramesh T A
Change In Life!

Nature brings two souls together

Poetry kindles love between two hearts

There lies chang in life sure!

Ramesh T A
Change Makes All Interesting And Easy!

By four seasonal changes, Nature maintains its beauty ever!
A lover of beauty, Nature manifests itself in changes and colours!
Evolution, variety and diversity of Nature are a great wonder
And ever stimulate interest to observe, muse and meditate long!

Changeless life style is a monotony and a bore to prolong ever;
Change only develops new interest to proceed on in life activities;
Changeless food and dress style develops aversion to food and no
Interest in others to approach one for anything towards progress!

To overcome monotony in life change is indispensable for all ever!
Change brings beauty and interest to one to make progress in all;
Progress only increases interest to climb to a top position in life to
Get a sense of fulfilment and satisfaction otherwise impossible sure!

Adamant attitude of a person only develops enmity in others, but
Change of heart makes easy to solve all to make life enjoyable ever!

Ramesh T A
Change Needed To Set-Right Anomalies!

What a relief one gets when evening breeze starts
Starting from the South towards North of town
Town being sultry and caught in arid zone ever!

Ever this kind of climate has become a routine thing;
Thing of this kind doesn't seem to affect else where;
Where is not there is complete joy as to our wish....?

Wish should be based on reality we know in world.
World is now undergoing climatic change abnormal;
Abnormal nature of climate is due to pollution sure!

Sure, natural resources are pampered by man's greed -
Greed to excel all and win in competitive business...,
Business being only amassing wealth as the motive..!

Motive of short range in lieu of long range needs change;
Change only can set-right all anomalies affecting all now!

Ramesh T A
Change Of Climate On A Train Journey!

Sky high hill in the middle of rich agricultural field
Stands unique on my train journey to plain city...!
What a figure it stands for just as a leader's statue
Inspiring rich green crops of vast field everywhere!

Hot Sun's rays burn the field with heat unbearable;
Yet, after a few miles' journey, hazy clouds crop up
The whole bright blue Sky and after a few miles,
Distant rain clouds with rains start falling on fields!

The fast running train suddenly is under the grip of cold
Climate one can experience only in high hill stations!
What a transformation of climate within a few miles
Between places on the way of journey making all dizzy!

Before Sun sets in the evening the places look like mid
Night with street lights burning bright all the way long!

Ramesh T A
Change Of Climate!

Everyone's attention is on Nature now!
2004 Tsunami, harbour wave incidence
Everyone remembers on 26th December!

Then 2011 Thane storm no one can forget;
Storms raging over oceans have attacked
Indian Southern coasts along Bay of Bengal!

All those natural disasters had happened
At the end of December and whenever year
Comes to an end we all talk about that....!

This cloud bursting rains have lashed
All places of South-East India very much
Due to climatic changes happening now!

Pollution leading to global warming is the cause
Behind Climate Change that needs to be stopped!

Ramesh T A
Change Of Memories With Passion New!

Memory of beloved one passed away never leaves the mind;
Diversion on the happy and good period of life with one
Only can be a consolation to muse over and pass on days!

Happy time intimately enjoyed gives a sense of satisfaction
That only is the best solace to the heart that cannot be
Pacified by the loss of such a golden soul in the world ever!

A big hug and long kiss only can make the passionate one
Have a relief from the unforgettable memory that always
Haunts one anytime of the day seeing many scenes together!

To replace the mind with new scenes of inspiration is ever
Possible only by passionate kiss to dear one loved long most
And passed away abruptly in the course of human life here!

Memory of loved one needs to be submerged and engulfed with
New memories of doing things loved earlier with passion fresh!

Ramesh T A
Change Only Brings Victory Sure!

The unabated American gun culture renews cowboy character;  
America is modern and civilized country in the world sure;  
But due to lack of culture, it is unable to change itself!

Those who take weapon in hand will lose life by weapon sure;  
Might was right in the past, but right is might in modern time;  
Don't they know this and understand how to manage themselves?

Antisemitism, Nazism and cowboy attitude should have an end  
And behave well not as big brother but as good brother as  
they have done in World War I and World War II times sure!

From Vietnam war onwards America has lost its reputation as  
Saviour of the world nations in troubles due to communism or  
Terrorism as their approach of war with weapons is not enough!

Intelligence, tact and clever moves only bring laurels to  
Their efforts anywhere in the world that has changed a lot!

Ramesh T A
Changing Hell Into Heaven!

Friendly human relationship for mutual development is the essence Of international culture that unites humans and world nations today; Mutual benefits shared among world people by international culture Is flourishing modern civilization to peace, prosperity and progress!

Cooperation and coordination towards common goals like exchange Of ideas and cultures strengthen friendship and to sustain so ever Threats to world peace and existence by terrorism, poverty and also, Natural calamities need joint actions by all nations of the world sure!

Priority of international culture is preservation of Art, Culture and Nature by mutual agreements to follow the international measures Being discussed and decides by world conferences of nations can Surely pave the way for the formation of One World by UNO soon!

Benefits and developments by international culture promoted by Friendship are the sure way to solve all problems facing the world! Realizing this, it becomes an imperative for peace loving people of all Nations to work jointly so that hell can be changed to heaven here!

Ramesh T A
Changing Hues In The Sky!

Changing Hues in the Sky!

Clear sky or cloudy sky in the morning
Everyday business of Nature begins....;
Before Sunset comes clouds come there
In the West to block Sun's rays now....!

Soon the clouds of different shapes and
Also of different sizes undergo refraction
By Sunlight till the setting in the West
Comes to an end complete before night!

Different shapes of clouds in hues of
Various combinations simply attract
All in awe till darkness covers the sky
For Stars to appear one after the other!

Stars twinkling in their characteristic way,
All eyes blink seeing night sky in awe ever!

Ramesh T A
Changing Life Situation Against Will!

An impressive model, when touches heart, one dreams of Becoming such a personality one day following that one Everyday by hook or crook as a fan supporting nonstop!

Dreaming of the model, one talks high and spread about That one's valour day and night to the extent of creating Rivalry among the jealousy and negative minded people!

In opposition, bully they the supporters of the model Increasing men both for and against the model each day, Though the model helps a lot through social service ever!

The model becomes the leader forming groupism in the Society, though the model is uninterested to be a leader In a political party to win election to guide supporters!

This is how individual's life is spoiled against one's Interest by good fans and jealously hearted elements!

Ramesh T A
Modern world criticizes sexy dressed persons and also Articles, stories and movies depicting naked characters; First and foremost, in the world the first man and woman Are nude sans feeling it as obscene and were as children!

Elders kiss cute children and encourage little ones to Shake hand, embrace each other and kiss each other to Foster love among children and encourage them to develop So in order to become mature, innocent, grown up adults!

Naturally, if one does openly an act of love by kissing The counterpart, others say that they don't know manners And don't know how to behave in public sans appreciating A natural act of love between to frank adults in the world!

Natural, innocent and good acts of frank and true people Are called as shameful things and that if others do in Secrecy to satisfy their selfish thirst of lust, it is not Talked about or criticized by many in the human society!

World has taken the wrong route long, long ago and never Appreciate frank and natural acts of humans for the good And lasting relationship between guys and girls paving The way for differences, breeding hatreds and splitting all!

Due to such non-cooperative and negative aspects at the top Most of human thinking ever, hatred, violence, seductions, Malpractices, false relationship among families and societies Not only in a nation but also all over the world create chaos!

No race, colour, culture, religion, language and creeds should Be allowed to separate unity, union, friendship and love of all World people, if all want One Human World to live in love and Peace for the development, progress and advancement of humankind!

Ramesh T A
Charlatans And Intellectual!

Can one bend at fifty after not bending at five?
What is the use of praying to Sun after being blind?
Too late realization in life will not help for redemption!

He is the role model for all due to his goodness, gentleness
And truthfulness in thoughts, words and deeds sans fail!
Being knowledgeable whatever he does is novel and great!

Being intellectually inclined he utters words full of wisdom
And whatever he has said has come true whether it is life or
Work or politics that are occupying the concern of everyone!

Jealous hearted and envious guys always pursued him behind
Doubting his valour, veracity and victory in all his pursuits
Whether they are charlatans or politicians or ruffians on the road!

Albeit unsuitable, imitating him externally they tried to be like
Him earning the name of charlatans becoming fools in all quarters!

Ramesh T A
Charm Of Culture Attracts!

Holidays give the chance to roam about
Everywhere all like in some town remote!
Far away from the madding city all like
A small town with all facilities of a city!

Farmhouse resorts have lost their splendour
Due to nonavailability of city facilities ever!
All rush to small towns nearby to enjoy all
Facilities of a city there in the weekend days!

One such tourist centre is the erstwhile French
Town now after being a cheap business centre
Has become a tourist spot for all kinds of tourists
Whether they are romantic or spiritualistic or not!

A world famous, historically renowned town....
Surely has a charm none can have by its culture!

Ramesh T A
Chase Of The Jealousy Continues Ever!

Obsession on gold, money or anything can't be changed...; Unless they have them more in hand, they are not satiated; For a loss of small amount, relationship shouldn't be lost; This is the best way to maintain family unity anywhere..!

Jealous hearted people always feel jealousy of others...; When one is praised before such green-eyed people, surely It is unbearable and trigger more jealousy than before Unless and until they are also praised like the good one!

For that, even for whatever ordinary thing, the good people Do, they get kicked by the fury to find some way to stop Them and make them get in the bad book of others behind Planning or planting some evidence to prove the good is bad!

This kind of chase after the good, out of jealousy, the ever Green-eyed people think negatively and do wrong things only To be humiliated, when their plans turn on them in an adverse Way all through their life until realization comes by chance!

Ramesh T A
Cheers!

Cheers to all
Before Christmas and New Year
Begin soon...!

Ramesh T A
Cherish Beauty For Good!

Beauty no one in the world dislikes in life;
The good ones appreciate beauty with wishes;
But bad ones create dangers for beauty ever!

Beauty without protection is ever in danger;
Beauty can be revealed only to the good ones;
The taste of bad audience is awkward to know!

True beauty is natural and innocent anywhere;
Beauty and ugliness thrive side by side sure;
But all that glitters cannot be real beauty...!

Beauty in Nature reflects the beauty of God;
That beauty is eternal and can't be destroyed;
Trust on real beauty gives solace and inspiration!

Beauty is not meant to be hurt, but to be cherished
For inspiration and getting cheerful mood to be good!

Ramesh T A
Cherish Friendship To Make The World A Better Place!

Evergreen heroes are college friends to everyone sure!
Such wonderful friends are the best companions to one;
Friendship is the best relationship in the human world!

After college, even among professionals, friendship grows;
Some gem of men opt for creative or inventive works sure
And of all of them, Poets have world wide poet friends..!

Though poet friends may not meet in person, their friendship
Ever cherishes in the love of poetry rendering greatest
Service for oneness of humanity, love and peace in the world!

Friendship day is the best day of all the days in a year sure;
Poetry is the best medium very helpful to cherish friendship
As the best international culture to create One World soon...!

Promotion of friendship among worthy friends all over the world,
We make the world a better place better than heaven and paradise!

Ramesh T A
Cherish Humanism!

Moratorium to brutality, hatred and domination
Every festival highlights as success of divinity...!
Divinity is the highest state of humanism ever
Surely needs to be highlighted for peace in world!

All haughty, arrogant and dominant guys are demons
Certainly will kick the bucket under the hands of human
Force of high knowledge, love and humour as divines!
All festivals expose such evil forces’ downfall for good!

In spite of that arrogance and domination rule world
Under the guise of trade and ideology hoodwinking all
As tiger in the skin of cow or wolf in the skin of goat
Exploiting world people under their very nose ever....!

Only universal brotherhood, peace and friendship foster
Humanism, love and prosperity for mankind forever....!

Ramesh T A
Cherish Love And Friendship For Peace And Joy!

Friendship and love are invaluable in the life of all
In the world we are all partners as all are world citizens
Though each one belongs to one's own nation as we all share
Same air, water, natural resources and sky open to all!

Coexistence, cooperation and coordination are vital for
Reviving last values of love and friendship in the selfish
Competition that makes the divide, victory and loss provoking
Hatred, rivalry and fight for regaining last status forever!

In the exploitation of natural resources and destruction of
Forests and trees, man has destroyed and destroying further
Art, Nature and human world resulting in climate change,
rise of temperature leading to heavy rains, floods and so on!

Knowing these facts at least everyone should cherish love
And Friendship to live in peace, joy and satisfaction here!

Ramesh T A
Controlling new born child's cry is most difficult; Nothing can stop it except mother's touch ever. Nothing she sees and nothing she hears from all; Her world is like womb's world till three months!

Afterwards only she can see and hear the world Attracted by the music or advertisement sounds Coming from the TV or radio somewhere near; That is the beginning for attraction towards TV!

Thereafter they become addicted to video games From one year on and will always be with gadgets That are full of games to take them to the world of Fun, from which they never turn to none later....!

The habit of cradle lasts till the end of life for many Unless they are diverted to music, art or Nature...!

Ramesh T A
Children And Poets!

Children and poets
Are of the same mind always
Because creative ever!

Ramesh T A
Children Like Squirrels Are Fun

The mischievous childhood of Lord Krishna in Gokulum
And his love and adventure absorbing all the minds,
Hearts and souls of the people there come to my mind
When I see the little squirrels playing around here!

These playful squirrels all day long run playing all
Sorts of games like children play everywhere in the
World remind one of the games such as hide and seek,
Catch me if you can and other tricky ones all know!

Beautiful squirrels just like children make us all
Forget our day today woes by bringing cheerful mood,
When we see their mischievous games with friends and
That takes us to the spiritual world experience sure!

Nature has got so many such beautiful fun we all can
Enjoy forever to forget woes and renew mood sans fail!

Ramesh T A
Child's Will None Can Resist!

New born baby is growing from strength to strength
Taking only mother's milk sans anything outside...!
Remaining in the mother's womb or cell for long,
She has come out to see the world and people around.

She demands her feed time to time disturbing mother
And waking all near her all night without any respite!
All have night to duty to perform till six months sans her
Taking anything other than mother's milk all day long!

Is it punishment for all for her having spent ten months
In the Cell sans any movements outside her mother's self?
She wants to cry and demand what she needs immediately
Enjoying comfortable sleep beside her month's bed ever!

In spite of all such bickering, nobody feels any wrath,
But say kind and loving words only looking after her!

Ramesh T A
Child's World!

Crying child is difficult to control!
Only loving words make it cool
And bring peaceful sleep to child!

Controlling the child is an art
Only those who have power of
Love can do that magic well sure!

Child likes to hear words of love
Only from loving souls who take
Good care of child anytime sure!

Giving milk, cleaning body and
Saying loving words are what
Ever needed for child to be happy!

Child's world is as soft as flower world,
Where love only can rule all the time!

Ramesh T A
Chiming Of Bells!

Heard every nook and corner
Means it's Friday!

Ramesh T A
Choose From Choice For Change!

Migratory birds look for suitable place
To overcome natural rigours now and then!
Man too looks for a change so in world
To overcome woes unimaginable sometimes!

Nature is lover of change and changes often!
To coup with it, all beings too have to change
Not as opportunistic chameleons but as Nature
That does splendour in sky as artist on canvas!

Hot season drives one to cold hill station;
Cold season drives one look to warm sensation!
Summer holiday invites all to enjoy cool climate
In nearby hill stations full of fun and pageantry!

Naturally am I an exception to spend in monotony?
I am also a lover of natural splendour in seasons
Inviting me to look for places of fun and jollity!
Travel to places of natural wonder is best choice...!

Ramesh T A
Circles Of Society!

Circles of society are created many;
Each circle fights for superiority;
Circles are there from religions on -
Intellectual, political and naxal too!

What the circles have achieved so far?
Have they achieved love, peace and joy?
They have achieved enmity, hatred, wars!
Even in the name of good people fights are on!

Herd minded faces only indulge in such acts;
Bright minded and broad minded abhor them;
Individuals of intellectual nature criticise them;
Circles are need to promote friendship ever.

Circle of love and not circles of hatred are needed
To make mankind civilised and cultured ever!

Ramesh T A
Civilisation Or Culture For Good Life?

Best way of living is called culture varying from place to place;  
Based on experience knowledge of better living helps a way  
To be followed for living a satisfied and lasting life of fun here!  
Modern life based on civilisation allows much room for freedom;  
But lack of culture only classifies them under gypsy category!

Modern people rely on money believing it as a mark of civilisation  
To live independently without giving importance to human beings!  
But by the very nature of birth man is incomplete without company  
And that makes man live in family rather than alone as an animal  
That roams about in search of food and mate to satisfy its needs!

However many go by money to live mechanical life without risks  
That helps one as long as health and strength are in good state;  
But once they become weak by age and can’t manage alone  
They long for love, family and children by their side till the end!

Ramesh T A
Civilization Of Modern Society!

What do world people want, to live a satisfying life?  
Do they want developments in science, economy  
And military as modernization for being civilized...  
At the cost of art, culture, Nature and humanity?

Wealth and power by science and technology are  
Indeed the mark of civilization in the modern society;  
But such an economic development sans social  
One neglecting culture and art, make one civilized?

Protectionism of the developed nations dominating  
Over others against their races and religions of all  
Societies may not be tolerated by human society,  
While shunning religious extremism and terrorism!

Civilization of modern society should go hand in hand  
With science and art in harmony with Nature as culture!

Ramesh T A
Civilization Sans Culture!

Love and friendship only cultural activities can promote; Civilization, technology and business trigger competition Promoting animal nature only and not human nature ever!

Culture is for harmonious human perfection as it is concerned With the love of, the study of and pursuit of perfection ever... Needing to be promoted by social forums or world bodies....!

Political power, military expansion and advancement of arms With the induction of new technologies provoke competition To fight against rivalries leading to danger accruing forever!

This is not the purpose of humankind to indulge in forever But only in friendly activists by cultural programmes, human Sense can be promoted and strengthened for the better ever!

Civilization sans culture has brought the world to the present Sorry state of affairs everywhere needing rectification sure...!

Ramesh T A
Clarity Of Thoughts Leads To Right End!

Always set-righting mess of matters to clarity
Best of our energy is wasted before we work.
Clear plan based on vision of over all matters
Do we have to perform all better with boldness!

Endless unnecessary negative thoughts of all
Foolishly interfere now and then making all
Go on a round about route rather than straight!

High thinking on all matters positively helps much
In the event of cluster of matters pile up in our life!
Joint ventures surely guide our way clear to do all
Keeping in view the end point of clear finish sure..!

Long experience in life gives ideas to clear all cobwebs
Making matters clear to view and go ahead steady;
Nothing in the end seems to be unsolvable in life....!

Open to negative thinkers with us makes matters formidable;
Positive thoughts always lead all works clearly to good end.
Quite a few twists may interfere now and then to collapse
Regular route to take diversions to get to the main line sure!

Straight to the main matter will surely keep confidence ever;
Truth of matters gives boldness and surety in all our works;
United efforts yield good result finally after all ordeals....!

Various views of the crisis are necessary for analysis to be clear
With the over all conclusion based on truth help boldness till end.
X, Y and Z now and then may create new problems on the way;
Yesterday will not continue in the present to create hell in future;
Zigzag path, at first, leads to better one as we go on with clarity!

Ramesh T A
Classification Of Capabilites Men Have!

Hard works do illiterate common people everywhere;
All scholarly people do white collar jobs mostly;
Among them, talented ones do what others can't do;
What talented can't do, geniuses do as masterpiece;
But impossible is made possible by miracle of God!

They have dreams, visions, imagination and thoughts;
They all vary according to their knowledge, capacity,
Confidence, strong will and faith to achieve something;
Not knowing practical possibility some have wild dreams;
Knowledge based vision, dreams higher ones achieve all!

Of all aspects one may have, only the ones with strong
Will and faith with inspiration and intuitional pursuit
Achieve great feat in any field they are best at ever;
That's where classification comes into play, it seems!

Ramesh T A
Climate Change!

Winter cold
Is still persisting
In March!

Climate change
Is indeed abnormal
All feel..!

Cold or hot
Climate is testing
One's calibre!

Survival is
Indeed an art if
We know!

For all others
Climate change looks
Very big!

Treating both
Hot and cold climates
Same is fine!

But will we
All have such a heart
To bear so?

Ramesh T A
Cold Rice!

All languages in the world are undergoing great changes
Due to life style, technological and modern developments
With the coining of new words and reforms in letters' style!

But the languages sans scripts, books, history and writing
Habits of their people, surely become extinct in the course of
Time and many languages have become dead in the world!

Also, there are some languages still in use just for spoken
Purpose but not for reading and writing purposes sans script
With no development of alphabetical letters for thousand years!

To give life to such languages with script, vocabulary and grammar
Creating books with stories and articles for reading and learning
Purposes of youngsters national govt. initiates steps of late sure...!

But people are not able to decide about new script or old script as....
Such a language seems to be more than thousand years as cold rice!

Ramesh T A
Month of March is marked with Colour (Holi) festival in India famous
As Diwali festival (of Lights) like Lovers Day of Western world ever!
Colour brings delight in all festivals and functions we enjoy most
With our dear and near ones of friends and families in world life!

Smearing colour powder all over bodies and faces of everyone and
Spraying colour water on everybody we bring closer all and unite
All To enjoy wonderful time in this community function called as Holi
Festival unity in diverse society is maintained in multiracial nation!

Purpose of festival is more clearly expressed perhaps in this colour
Festival than in other festivals of get together of all friends and all
Families dear and near to one and all making use of this occasion
To unite the separated members due to some reasons or other...!

United enjoyment of good times by such unifying festivals is a great
Act of bringing enmity to an end and fraternity once again to live
Human life with fun and joy forgetting all differences in a wise way
Surely makes everyone joyful with colour too as a mark of culture!

Ramesh T A
Colourful Bubbles!

Friends have reminded me of my birthday;
Due to them joy lulls in my heart today!
Happy days are better than birthdays;
And sad days are worse than death days!

Life like day and night is happy and sad
And hence life is bitter sweet for all sure!
Happiness and grief comes of others ever
And nothing seems to last so forever....!

Birthday too flies away by the night fall!
Again another day starts with usual grind
Ending in some solace reading some poems
Touching heart and reacting by writing poems!

The colourful state of things are bubbles
Just as children blow out soap bubbles!

Ramesh T A
Colourful Stars!

Colourful stars hanging everywhere
Take one to the Stars in the Sky sure!
Distant Stars still shining bright ever
Our Earthly stars last only for a day!

Our life on the Earth is also so ever
Sans any brightness unless we achieve
Something remarkable in our career
Before we leave this abode for heaven!

Like soap bubbles we live on this Earth
With rainbow colours shining beautiful
Not permanently but only for a while
Before they break up sooner or later....!

However flowers are unique as Stars are up
In the Sky though lasts only for a short-while!

Ramesh T A
Come Out Of Confinement To Know Reality!

Fragrance of flowers filling up the full place
People breathe pure and perfumed air in a
New atmosphere quite exhilarating indeed!

This natural cosmetic offered by Nature is
Indeed more than luxury one can enjoy in
The world full of sophistication blinding all!

Natural air condition is more then artificial
Air conditioned air we breathe and live in
Not knowing when it will put one out of tune!

The gifts of Nature are free and simple ever
And it is man failing to know and make use of
Them to enrich his life with sanity and health!

Men should come out all circles they are confined in
To see things as they really are from above all ever..!

Ramesh T A
Come Rain!

Cool and serene

The place has become today

Only rain has to come!

Ramesh T A
Common Man's Dictionary!

What can I say of the lunatics,
Who don't know the difference
Between depression and psycho!

Whoever visits a psychiatrist
They believe to be a lunatic
And spread stories about one!

All visit psychiatrist for some
Counseling to be made due to
Job tension and nightmares..!

Frog in the well type lunatics can't
Be explained and convinced
About the difference forever..!

Common man's dictionary
Has different meanings for all!

Ramesh T A
Compassion Of Hero And Villain!

Sense of compassion to feel the sufferings of others is
Indeed a natural emotion of human heart making one a fine
Fellow of humankind that solves the miseries of poor...!

But the pretension of politicians artificially showing
Compassion towards the suffering people surely can be felt
By the miserable but innocent and ignorant one get deceived!

The naturally compassionate character of a person is well
Understood by the suffering lot by one's natural behaviour
Making such a human a divine sent angel to alleviate pain!

Only some rare statesmen are endowed with heart of compassion;
But gullible politicians who believe in their artificial act
Cannot make any pact with the suffering lot as time goes on!

Natural and artificial feeling of compassionate characters surely
Help all to decide who the hero is and who the villain is in ever!

Ramesh T A
Compensation For Time Lost!

Can we compensate for the time lost in life so far?
This is the question I am thinking about many a time.
How can we supersede our past and win against time?
Research and development are the way to compete all!

Introspective and extensive thinking reveal the truth;
Lateral thinking and common sense show the way
To proceed intelligently in works to excel ourselves
Making the end remarkable though the beginning is bad!

Mystics know the birth of our past, present and future;
They predict all happenings at what times including death!
Meditation and mysticism the super state of mind do all
Like in the chess game grand masters win in all moves!

Evolution has made man supreme by mind to attain divinity
But man forgets in the comfort of materialism divine destiny!

Ramesh T A
Competition To Choose The Really Top Is Best!

As long as a human being is alive no one praises one;  
But after death, so many say many praiseworthy things;  
If such things are said when alive, how encouraging it's!

jealousy, hatred, rivalry and competition make all beasts  
To fight each other to take the first place in any field;  
Healthy competition only can bring the best to the top..!

Such a top one only deserves respect from all quarters ever;  
Victory is not important and aim for one, but the best it  
Can bring to humankind should be the intention behind all!

This kind of attitude is most necessary for a good democracy;  
That only has choice, decency, dignity and discipline most  
Essential for making real progress for the prosperity of all!

Cut throat competition to the extent of killing each other in  
Rivalry is animistic in nature and never suited for humankind!

Ramesh T A
Competition With Time Is Ever!

Are all in a hurry as if in competition with Time to catch a plane?
But at the end of the day, they sit exhausted as nothing happening;
Care and concern they have taken seem to be of no avail at all, ooh;
Dancing to the tune of VIPs, all try to achieve their goals in vain!

Entire project work seems to be a waste of time, money and energy;
Feel many so, trying all means to get what they want in life ever;
Getting one thing by chance, they attempt higher for another one..;
Higher and higher desire leaps not satisfied with what they get..!

In all attempts, all hurry to pocket something before time closes;
Jointly and individually, they try luck purchasing raffle tickets;
Keeping the numbers ever in memory, they eagerly wait for the result;
Losing any prize, they hung in grief missing jackpot to buy jewels!

Many times desire never leaves one's to try to win something in race;
Not satisfied with what they already have they try for more again...;
Over and again, Time excels their attempts in the race in world life;
poor or rich, all participate in competitions to win a treasure big!

Quite a longtime, sincere persons too try to achieve something great;
Regularly they prepare best things sans wasting time day and night..;
Sure success of a person is in the hands of Fate to decide in life..
True one though suffers many a time, at the last time, one succeeds.!

United people stand, but divided all lose all in race with time sure;
Various occasions come and go, but one's sincere works never go waste;
Wonderful time always waits for the person of contented heart in life!

X, Y and Z may become multimillionaires by shortcut routes in races..;
Yearnings of sincere ones will end in joy, but greedy ones in big loss;
Zealous hearts of good nature only win races in competition with Time!

Ramesh T A
Completion Of One's Life Lies In Greatest Work Of Joy!

Natural sense of beauty with discipline behind love kindles
Creativity to produce or express matters of great significance;
Such kind of work of art, music, painting and poetry becomes
Masterpiece of a master or maestro claimed as classical work!

Such classical thing of beauty is indeed a joy forever to all
Inspiriting, enlightening and instructing many a great idea for
Self development to create aesthetically meaning work by the
Urge of inner spirit towards sublimity from art to divinity!

The fulfilment and satisfaction not attained by any means in
World life such aesthetically inspiring works of art kindle
Heart, mind and soul to indulge in creating great masterpiece
Giving a sense of joy and fulfilment never has been experienced!

After all, what is the use of living a long life sans fulfilment
And satisfaction full of joy in whatever thing we do for may years?
If a beautiful thing of satisfying work of art in poetry, painting,
Music and song can deliver greatest joy, there one's completion is!

Ramesh T A
Computer Poetic Friendship!

Being a poet I have got lovely poet friends all over the world;  
Their comments of appreciation and support are than the friends  
In person and that makes me very happy all day long everyday...!

This kind of poetic friendship is more unique than the usual one;  
Poetry has developed much due to internet facility of  
Computer device and friendship more than before in a good way..!

Friends in person are not needed, it seems, due to good response  
From many friends all over the world in such a way that for years  
This kind of poetic friendship is an advantage due to computer...!

Sharing of our ideas, thoughts, dreams and all and responses for  
Them all are immediate and this is a great boon for all who have  
This arrangement at home that has completely removed loneliness..!

This computer poetic friendship more than real friendship is of  
Great company to one sure and this will continue so for many years!

Ramesh T A
Concerns Of Life!

Life matters have to be tackled ever
In a patient, slow and steady manner.
Disputes come due to silly matters only
That have to be tackled in a gentle way!

One wrong step in a hurry sparks fire
Burning the whole place to destruction!
That can be averted if all are ever patient,
Polite and have control over tongue sure!

What is the use of crying over milk that
Has got spoiled by careless storage......?
It's all due to habit and bad custom that
Cause concern leading to big issues in life!

Greed and bad guidance spoil all matters
Leading to great disaster in life for many!

Ramesh T A
Conditions Are Not Permanent Laws!

To have good relationships with all, all inclusive heart is
The first necessary for one and all anywhere in the world.;
But conditions for having any relationship should be conducive
To both sides of the coin to have inextricable relation ever!

Conditions are not one way traffic in human relationship sure;
If one wants others to follow one's conditions, one should
First follow the conditions of others too to have good relation
Long with anyone anywhere in the world to live long good life!

It's easy one may point out the mistakes of others with one finger;
But the others fingers of one will be pointing towards one ever!
Before telling others the drawbacks behind others back, it's better
To check oneself of one's own flaws at one's back before hand sure!

It is easy to criticize the faults, flaws and mistakes of others;
But, it's better to do so after correcting one's flaws to perfection!

Ramesh T A
Consequences Of Man's Greed!

Since time immemorial man lives in harmony with Nature;
But with the scientific inventions and technological progress
Man has slowly drifted from his habit due to domination of
Profit motive of commercial interests spreading far and wide!

Modernization of nations and coming of civilization sans
Touch with human culture have disturbed the course of Nature
Leading to climate changes bringing long droughts and heavy
Cyclonic wind and rain flooding many nations frequently now!

Not bothering about recycling of natural resources in his hurry
In exploiting Nature for raw materials, fuels and foods, man has
Brought upon himself the wrath of Nature that balances itself
With drastic measures by bringing hottest days and biting winters!

Unless man changes his attitude and way of living in harmony
With Nature all things can't be set right to normalcy forever....!

Ramesh T A
Contentment of heart is the gold making alchemy in the world; Only mythological alchemy has the capacity to turn baser metals Into gold, for which there is always great demand everywhere Just like the demand for petrol making herbs revealed once...!

Jealousy, enmity, hatred, rivalry, violence and wars are due to Lack of contentment of heart that refines and makes one as gold Whatever be one's legacy and environment, nature and nurture and Character and personality, if one has the heart to develop on them!

Simple living and high thinking person has nothing more to need Than the barest necessities that help one to go ahead with one's Pursuit of interest to create or invent the best to make all better To live in this world full of opportunities to produce gold from nil!

The ego-less and selfless person never expects much except the minimum Needs to survive so as to work with heart, mind and soul with what's Available to create constructive things as one's stepping stones to Success, for, the wise learns by doing things to create masterpiece...!

Ramesh T A
Contention Of Heart!

Due to cool breeze, despite hot Sun,
Coming from the beach, we feel fine
And manage ourselves well, even if
Power cut takes place now and then!

We try to live natural life with less ease
Due to shortage of power supply now
As employees of thermal power station
Go on strike demanding all concessions!

Due to technological developments, the
More comforts are offered, the more also
Demands come up for further concessions.
There’s no end for demands and strikes go on!

Contention of heart is the alchemy of gold ever;
But never all facilities of material developments!

Ramesh T A
Contradictions!

World people believe in religion;
But terrorists rely on extremism!

World religion preaches love and peace;
But terrorism goes on hate and violence!

Poverty, unemployment drive to extremism;
But hate and violence drive world terrorism!

People love music, painting and dance;
But terrorists do mine and bomb blasts!

Artists have taste for beauty and love;
But terrorists cover by beard and parka!

Ascent of religion refines by mysticism;
But descent of religion leads to terrorism!

Fundamentalist education trains in terrorism;
But education and job only develops humanism!

Ramesh T A
Contrasts Juxtaposed In Nature!

All the feelings and pain we feel
Bear their mark in all our works!
Care for good, beautiful and true
Daring against bad, ugly and false!

Enjoy all best things of Nature ever
Fulfilling desires in a beautiful way!
Grand is the simple and beautiful
High or low one has to live in world!

Inspiration, intuition and intellect
Joyfully allow to explore truth ever!
Knowledge of truth and love make
Life of man perfect in this world!

Many mysteries of man and world
Never seem to be clear till the end!

Opposing phases of life are contrasts
Placed juxtaposed on Earth to know all
Quite natural for understanding values
Rare or common anywhere in Nature!

Suitable measures one should take
To satisfy the needs to satiate longings;
Universal truth is peace and beauty
Vastly pervading in Space endless!

Wonder of Universe is awe inspiring -
X rays or any rays coming from far off
Years of travel of lights eternally ever
Zeroing to our vision at last as miracle!

Ramesh T A
Cool Beauty Of Nature!

Little flowers of many colours interspersed with green grass
And other plants look beautiful and give good company for all
Who walk along the road to muse in Nature wonderful forever!

Near the site another open farm with green crop cultivation
At a stretch of long land simply absorbs the soul of all and
Its memory leaves not the mind, but ever cools the heart sure!

On the other side of the road, barren land turned into a great
Field of green grass with tiny yellow flowers is so beautiful
That no one will ignore their memorizing cooling effect ever!

All walkers looking above see vast blue sky with grey cover of
Thin clouds veiling the sun feel what a pleasant time it is
To be in the company of such a beautiful Nature in the world…!

Far away from the hustle and bustle of town life gives great
Relief to enjoy only cool beauty of Nature that sways heart!

Ramesh T A
Coping With Changed Situation!

Bogged down in internal works we lose our natural touch  
To decide about anything in the outside world depending  
Some one reliable to do that job for anything and everything!

Likewise, so many matters we will be struggling to do  
Any estimation of things not knowing any bench marks for  
Anything we see to have them for our use even if it's simple!

Due to lack of touch with the world around us longtime  
We are simply driven to the state of man of no knowledge  
As far as ordinary matters of the world are concerned sure!

To change the situation we have to revive visiting all places  
We are familiar with friends simply to watch how matters are  
Deal with in the public after time interval of some years sure!

That is the only way the missed opportunities to renew ourselves  
Can be updated to continue with our usual works sans hesitation!

Ramesh T A
Cordell's She!

Everybody knows Cordell's She;
She comes in veil and writes;
Cordell is elated beyond words!

Then the interlude continues
As in hide and seek games
Children play all the while.

Among heavy topics of length
From serious and joyous guys
Cordell writes to all to be with all;
A card that fits in all sequence in Cards!

So, the joy of company goes on
Making all enjoy the fun all time;
Despite this she is not free yet!

Ramesh T A
Warm relationship among persons of various walks of life
Though may be differing in attitude, conviction and all
Makes it possible to have smooth transactions whatever be
The situation, then it denotes cordiality at equidistance!

Diplomatic relationship among nations usually takes place
So to make adverse situation favourable and create rapport
Among them after a long period of strained relationship
To a better working relationship towards friendship soon...

Maintaining Cordiality is the starting point to smoothen
Strained relationships among nations and persons in the world
To a forward and better movement for mutual benefits among
Them is best international culture in this fast material world!

Cordiality is modern culture to foster international friendship
For mutual developments on various fields benefiting all for
Paving the way for love and peace in the world full of chaos
And uncertainty ever due to differences of opinions and ideas!

Ramesh T A
Corruption And Crimes!

What is the difference between corruption and crimes?  
They are nothing but direct crime and indirect crime;  
Crime is crime whether it is money or murder in public!  
They are surely crimes morally, legally and consciously!

Crimes are increasing and terrorism are becoming common;  
Smuggling, terrorism and trafficking go on due to corruption;  
Both in the borders and customs lines they go on unabatedly;  
No investigation is needed to know this open crimes everyday!

Why are people doing jobs and businesses in the social world?  
It is an honour and pride as well to get satisfaction for doing the best;  
But doing crimes and corruption due to any reason is surely worst!  
This everyone should understand and correct themselves for good!

Crimes and punishment should be fair and a lesion to all in the public;  
That is how they can be curtailed and eliminated in a civilised society!

Ramesh T A
Corruption Today!

Without control corruption continues
Hampering developments in all fields
Benefiting fakes and blocking good ones!

Sans checks on price rise on all items
And control on corruption in all fields
Nations move on fuelled by recession!

Greed of unlawfuals blocks all progress
Sincere, honest and honourables make
And skillful ones languish in frustration!

Price rise and taxation strangle the poor,
Which ruling class never feels at all.....
Even at the cost of losing shine in power!

So, cricket and corruption are inextricable
Making frauds go scot-free adulterating life!

Ramesh T A
Counter Measures Of Nature!

Landslides caused by floods due to heaviest rains
Carry away uprooting trees, plants and buildings
Causing light weight materials, cars and all float
And run along the flood water to distant places!

Forest fires in dry places destroy all trees and
Animals and raging fires caused by strong winds
Spread fire to many towns and villages unless
Contained by fire extinguishing machines and also
Rains in some extreme cases in some world nations!

Cyclonic storms and typhoons make materials, trees,
Animals and all fly in the sky to far off places
Destroying lives and properties utterly disfiguring
Many places without any footprints in some cases..!

All such natural disasters have become very common
Due to man made pollution causing climatic changes;
Courses of rivers occupied by man are well taken
Care of by havoc of Nature to resort balance so...!

Ramesh T A
Couple

North Pole of man
Mother Earth couples with
South Pole of woman!

Ramesh T A
Courage Of Truth Is Real Strength In Life!

Only truth gives courage, confidence and power in the world;
Fear, negative thoughts and hesitation won't be there for them;
Leg pulling may go on against them by jealous hearted people;
But in the end, victory and peace bring joy to truthful ones!

Not only in the past but also forever truth never fail to win;
Truth is like fire that burns to death whoever dares to touch it;
Hardships of good people are liked gold purified by melting long;
But the noble metal like the good people never loses its lustre!

All classical, romantic and modern literatures of the world say
The message about the everlasting success of truthful heroes
And their valours in wars of justice that enlightens all minds
To rely on truth to achieve ambition to fulfil one's destiny!

Sans literature full of high poems, the value of truth won't be
Realized, appreciated and followed with full faith by many sure!

Ramesh T A
Court Birds!

Knowing, understanding and believing are difficult
For the people of limited brain due to meagre ides
And knowledge they have gained in life with belief!

Just as bests, they understand matters by instinct
Contrary to intellectuals who understand by intuition
And is why it's difficult in an argument with a dolt!

It's better not to have any truck with such brains;
For, it is impossible to make them accept any idea
To solve a problem with them as they don't believe you!

That is why litigation in the Courts goes on for a
Longtime sans an end making all fed up with justice
Not satisfied with the way cases are handled ever!

With little learning and lured by some quacks some
Jump to the wagon of litigants and become court birds!

Ramesh T A
Cracking A Hard Nut Now!

A community of people that has migrated to a final place
After many migrations in the past for thousand years or so,
Cannot have an identity of their own language and culture
Due to merge with that of the main society they live with!

After economic and social developments, establishment of
Their separate identity by language and culture still remains
As a distant dream like the runner up in any competition we
All aware of in the world whether it's a beauty or sports race!

Extinct of language and culture of many an old races has become
History as they were not cherished and followed by mass support
Due to foreign powers' invasions and establishment of their own
Languages and cultures sure in many countries of the world long!

Reviving old language and culture from private to public use is
Indeed a Herculean endeavour similar as cracking a hard nut now!

Ramesh T A
Creative Ides Of Thoughtful Scribes!

Unnecessary thoughts are flowing in cataracts even in night sleep; Relevant thoughts come only once in a while to express to others; Significant ideas flourish only when expressions are made ever...; But all ideas expressed in words are forgotten for creative ones!

If creativity to be effective, best ideas should be put down ever; Such references can be quoted by the seekers of knowledge...; Even if one's ideas are not noticed immediately, they can be Known in the future course of time from books, websites, etc.

Just as diary writing, if our thoughts and ideas are written down In relevant websites, they become a record useful for references; In that way many ideas hidden as treasure reach someones and Kindle them into action to make them a living reality sooner sure!

Prolific scribes express ideas and proceed further to find out best Things for writing ideas quite new to audience now and then sure!

Ramesh T A
Creative Poetry Is Forever!

Dreams, romance, world, Nature and all
We have many ideas to say only in poetry,
A most suitable medium to communicate!

No other form of writing could provide
This kind of facility individual and social
To a purpose both for now and forever...!

Enormously powerful, poetry is as colossal
As atomic power by its chain of new ideas
Suggestive forever reacting in mind of all!

Both oldest and newest ever poetry is unique
No one can set it aside whatever the age we
Belong to in this world of change now or ever!

Poetry is forever living in an art unique and
Wonderful for hearts and minds creative ever!

Ramesh T A
Creeping Cold!

Cold creeps
Slowly but surely to Winter
In October sure!

Ramesh T A
Cricket T 20

Indian hearts beat high
Though they play in England
Cricket T 20 game!

Ramesh T A
Crimes after crimes are increasing day by day nonstop;  
Of them, crimes of molestation, sexual abuse of minor  
Girls and boys and murders by sexual perverts and all  
Pedophiles are unforgivable and ruthlessly punished!

Modern, materialistic mechanical way of life has turned  
Many into pedophiles, homos and lesbians committing such  
Inhuman crimes needing to be punished without any sympathy  
And society needs to be morally developed by education!

Good cultural way of life in harmony with Nature only can  
Cure this kind of malaise in the human society of the world  
And is the best way for love to prevail everywhere in all  
Walks of life improving the dignity of humankind sure ever!

All stories in magazines, novels and movies need to foster  
The culture of good human love in a healthy romantic way  
Besides computer programmes banning very bad and  
Ugly sexual series paving way for morally, healthy rations!

Ramesh T A
Crow And Man!

Crow and Man!

With no fear or noise, crows take food now;
Crows too have become gentle creatures!
Just as we teach walking to little children,
Crows too teach flying to their kids well!

Little children don't know any fear forever;
They run this way or that way until they fall!
A little crow entered into my house this morn
Not knowing which way to go out into the air!

After a little push up this way and that way,
At last it found its way out from our house..!
Free birds don't like confined in a house ever;
But we love to be inside ever as we don't fly!

Whether we stay inside or out side, run or fly,
Sans knowing direction to go, we are confused!

Ramesh T A
Culture And Civilisation

Culture cherishes where there is pastoral life;
All Epics and classics speak about that life.
Civilisation of court life is hypocritical, false;
Pastoral life of country side is true, natural!

Poetry flourishes where Nature and life mingle;
Prose and criticism survive in modern setup.
Blaring jazz music of cities is boisterous ever;
Folklore of farms is as beautiful as song birds!

Lust of civilisation lasts as long as body is divine;
Love of culture lasts as long as spirit survives!
City life and farm life go on works and holidays;
Villages are shrinking and cities are expanding!

Food, raw material and energy demands increase;
Pollution and population make the world hell now!

Ramesh T A
Culture For Fostering Friendship!

Cultural activities need to be encouraged to foster friendship
Among nations just as among humans by United Nations Organization;
All kinds of artists of all arts like picture, music, poetry, dance
Plays and sculpture should be allowed free of cost to visit nations
To promote humanism, love and peace for the creation of one world!

Exchange of best ideas from literature, religion, philosophy, etc.
Among people of all nations should be made possible by programmes
Under the aegis of UNO for the promotion of world peace, friendship,
Universal brotherhood and so on so as to form one world union by
Unifying all unions of the world to stop violence and wars forever!

Thoughts of wars to settle disputes should be solved by sports among
Warring nations and bringing them to table for peace talks sure and
Settle all matters amicably promoting friendship in lieu of enmity
In joint activities of developments for peace, prosperity and progress!

Ramesh T A
Culture Leads Life In The Right Way!

All best and noble things of past culture passes on to dear ones;  
Beautiful, beneficial and best ideas in thoughts, words and deeds  
Culture passes on to generations as best way of living life for all!

Direct approach to matters based on common sense and general knowledge  
Eschewing irrelevant ones, culture solves problems to maintain harmony  
Fostering best thoughts in best words by best action to achieve great!

Great feat culture achieves pursuing perfection by love and studies;  
High, noble, wise means culture follows as way of living in the world  
In achieving human perfection in harmony with art and Nature forever!

Joy is what one experiences when song and work are combined all day;  
Keeping rhythm of work and life enjoyable culture makes all simple;  
Love and knowledge culture combines to enjoy freedom for fulfilment!

More and more culture increases interest and enthusiasm in performance  
Needing less comforts and conveniences unlike luxurious way to do all  
Openly and transparently with no sense of deception or deprivation..!

Perfection, completion and satisfaction culture ever tries by its way  
Questioning the doubtful things then and there to avert complication  
Regulation is attained in all walks of life for best results in all..!

Seldom anything becomes a waste, if culturally all things are done;  
True and honest works of life really makes one easy to follow culture in  
Unity and integrity of thoughts, words and deeds to happy conclusion!

Versions of culture may differ between nations or persons, but aim of all  
Works towards harmonious human perfection out of all things ventured on;  
X or Y or Z may be the style of dance but target of achievement is same!

Yearnings of inner heart gets best and healthy food ever by culture sure;  
Zeroing all efforts focused to centre, culture never leads one astray!

Ramesh T A
Culture-Less Enjoyment Of Pleasure Sans Romanticism!

The difficulty of classical dance due to its creeping
To ancient extinct language like Sanskrit or Latin has
Been made easy by modern version of dances leading to
Its deterioration by cinematic erotic dances spoiling all!

Due to not having harmony with Nature, many are led to
Such ways to know of perpetuation of species and rousing
Of animal spirit in humans for making that aspect of life
To learn and enjoy pleasure rather than enjoy life by love!

Lacking culture, man's civilization is going for raw way of
Experiencing sensuous pleasure by spoiling the minds of men
In open demonstration of mating like animals do sans any
Human touch but vulgarism creating aversion to cohabitation!

Romanticism has been thrown on the back burner by vulgarism
For making eroticism easy to creep in the hearts, minds and
Souls of novices to embrace loveless act of human intercourse
To enjoy pleasure in a lowest way succumbing to animal levels!

Ramesh T A
Curtailment Of Religious Fundamentalism!

Religious fundamentalism being followed in
The modern time is conspicuously ridiculous;
Fundamentalism, extremism and terrorism
Being used as instrument of negotiation is bad!

Due to civilization based on scientific education
And technological developments, modern world
We are living in is born and is slowly turning to be
Better with humanistic culture is being followed..!

When this is so, terrorism of religious fanaticism
Has no locus standi in the world to impose its own
Diktat on humankind by means of violence against
All norms and ethics of established world religions!

Destruction of all developments of modern world
To dark ages by religious fundamentalism is bad
Underscoring the need for its curtailment by keen
Observation of its revival and spread everywhere!

Ramesh T A
Cyclonic Storm A Flying Saucer!

The most expected intensive havoc causing storm has come;
Thick rain now and then in the peripheral areas falls...;
The centre of attack by storm is yet not known as it has
To intensify further after entering into those areas sure!

All precautions taken by the authority seem to be well..;
After three hours the storm's activities will be over and
All consequences of it will be known to the whole world..;
Many storms we have seen before this one that we are seeing!

Cyclonic storm with circle and centre moves like flying saucer;
First, rain comes with heavy wind and then silence remains for
Sometime and again the rains with wind end the storm symphony
Causing all havoc it can and leave all heave a sigh of relief!

After a major storm, subsequent storms coming next are lesser
In intensity and damages to properties and lives in this world!

Ramesh T A
Cyclonic Type Of Rain!

The sky has opened the blanket of grey clouds!
All birds fly from the trees to breathe free air
And enjoy natural freedom to fly anywhere....!

Aerially searching for food here and there, birds
Move around buildings and roads all over the city
As far as they can before next batch of rain falls!

Soon dark clouds as a big army has covered the
Whole sky and a slight cyclonic like rain lashed
All over the city making it look like a hill station!

Washed clothes hanged on strings are drenched
And washed by rain making all to remove them
For drying inside the flats of multi-storey building!

Nowhere one can go or see TV too; and so, watch only
The cyclonic type of rain lashing out and flooding city!

Ramesh T A
Dances Are Many!

Dances are many in the world!

Samba dance is open dance;
Ball dance is close dance;
Tango dance is intimate dance;
Bharathanatiya is classical dance;
Duet dance is romantic dance;
Rock and roll is modern dance;
Disco dance is offbeat dance;
Break dance is the latest dance;
Ballet dance is heavenly dance.

Tango dance is passionate dance;
Ballet dance is angelic dance;
Bharathanaiya is spiritual dance..

Dances are for heart, mind and soul!

Ramesh T A
Daunting Things!

With zealous mood people do daunting things;
With wantonness too they do denigrating things;
So, some declaimed interminably of such things.
But who will expurgate those burnished things
When all vacuous sorts make pandication here?

Ramesh T A
Day And Night Parts Of World Stage!

Comedy in romance is hilarious to enjoy;
Tragedy in history is a lesson to learn....!
Comedy and tragedy in life are common;
Mixture of both rules life of everyone sure!

Comedy in tragedy and tragedy in comedy
Form the plot of any drama of classical time!
Master of both plays only a few is famous for
To make all vicariously experience effect ever!

Tragic life of the formative period leads one
To adventure and finally ending in comedy!
Comic life of the formative period leads one
To mysteries and finally ending in tragedy!

Tragic-comedy and comic-tragedy have both
Effects for all to have satisfaction in any story!
Without the one, the other part of life cannot
Be so interesting and so, the mixture continues!

Our life itself is having both day and night parts
All have to experience to get satisfaction in one
At least, if the other one is not so interesting ever
In the world serving as a stage for performance!

Ramesh T A
Days Go On Dreams!

Days are going on

Whether we fulfil dreams or not

But dreams never stop!

Ramesh T A
Days Of Friendship!

Unforgettable are

The days of friendship

A natural relationship!

Ramesh T A
Days Of Jackals!

Fruits of labour who are actually enjoying in the world?
Not the hard working lot nor the ever suffering poor;
But all others not connected to the farmers and workers!

The forever toiling lot, talented ones and selfless poor
Work ever for the well being of all in the world whether
They are honoured or left out uncared for forever sure..!

Only the in-between agents and brokers reap the harvest
Buying the farm produces and industrial products at a!
Down to the basement rate and push them in the far market!

Unable to sell the goods long and at best price, many
Dispose off the stocks lying idle in the go downs long
For any price to stop high rising debt burdens at home!

This is the irony of fate glaringly giggling at meek ones
In the world full of jackals thriving on others labour...!

Ramesh T A
Deal Appropriately!

Only democracy allows full freedom with constitution
Controlling extremism not raising its ugly head ever..!
Despite this nice mechanism violence, hatred and all
Human ill feelings create blemish to the beauty here!

The micro mischief of some is like a mole that poses as
A big mountain creating fear among the gentle giant,
That is the mass of humanity very meek and humble
Full of imagination making nothing as something big!

These are happening due to the wish of many for a
Settled way of doing to live a peaceful and satisfying
Life dear to them and ready to face shadow boxing of
Some who never directly say or do anything good ever!

What is the use of fearing darkness sans using the torch
Of knowledge to face, deal or overcame it appropriately?

Ramesh T A
Dealing Matters Under Pressure!

Dealing Matters Under Pressure!

Smiling is a healthy way to deal all matters;
But, is it an easy matter, when mood is unwell?
But an old poem says 'smile when difficulty comes'
And the tension becomes lighter to deal all well!

It is difficult even to play a game under pressure,
Which is a common matter we all have witnessed.
But maintaining one's poise even under pressure and
If one wins a match, it reveals how great a player is!

Not only in game but also in life the same policy
Really works out well, if we read literary works
Or history of the world ever kept for references
In all libraries of the world everywhere sure......!

Patience, steadiness and will power help much ever
To deal all matters even under great pressure sure!

Ramesh T A
Dealing With Mad People!

What can we say about the people
Who take matters to the extreme,
Make mountain out of mole and
Feel seriously about the problem?

Some to escape from responsibility,
Risk and commitment, think to the
Last sage as happening in the movie,
Make arrangement for foolish safety!

People with education but lacking
Knowledge of life and world and
Elderly people lacking knowledge of
Experience have wrong conclusion!

Bringing them to the modern age
From their backwardness is hellish!
Being mad they conclude others as
Lunatic based on their little knowledge!

Making them understand the matter
Only by their own coin is the means
By which one can change their notion
For a quicker solution to problem ever!

Ramesh T A
Dealing With The Hard Nut!

They deal all with obsessed and depressed state of mind. Many ideas we ponder over matters to solve problem. But how can we deal with men of no respect and love?

Decency and manners are out of their purview for long; Dealing with such kind of men no means seems to work; Nothing seems to reach their mind, if something is tried.

Only realization of such a state by themselves will work; For that a lot of time seems to be necessary before all.....; But due to obsession and depression they are reckless...!

Chasing and controlling the horse that has broken reign And running wild needs a lot of energy and tact for one To tackle and bring it to normality before any trial feasible!

Patience and politeness are out of their purview due to The fault within, which needs to be set-right before all!

Ramesh T A
Dealing With Untoward Situation!

Headache is one will get present amidst problematic activities, When the head or key person is not present there long! Sans involving oneself then, one cannot mind one's business With proper concentration to proceed with one's assignment!

In that kind of situation, going deep into one's vital matter heart, Mind and soul only, one can get the peace one needs to go Ahead with one's own business to the best one can and Achieve the needed feat to put a nice finish to one's own wish!

But caught by multifaceted disturbances, one will be in great Soup unmanageable to deal with them and deal with one's own Project in hand to the best satisfaction of all concerned sure; A lion's share of life likewise goes on undecipherable for long!

If life goes on ever in such unpredictable obligations, surely Peace of mind will be ever out of order unless one has the Knack to divert oneself to a beautiful situation like Nature, There won't be any chance to get cool to do deed better in life!

Ramesh T A
Dealing With Work Loads!

Sans time pause piling up of work loads
One cannot coup with free of mind ever!
A clear vision is needed to arrange all
One after the other to finish them well!

Compelling one to make commitments
Surely will be testing one's calibre ever!
On such an occasion even easily feasible
Ones too become complicated to do....!

Performance of anything to perfection is
Possible only when things are kept in order
And with free mind only all things can be
Done to the satisfaction of all concerned...!

Only a versatile genius can decide all fast
And implement all to success forever sure!

Ramesh T A
Death Is An Unstoppable Natural Process!

Death is sure to come to each and everyone in world life
According to each one's fate as it's the destiny of life!
Even God cannot change the course of fate of anyone sure,
Even if one believes that He will save one who hangs oneself!

Hanging to death independently or in group following a cult,
Death cannot be stopped by any means or magic in the world!
There are a lot of proofs we have come across in the world
That prove a forceful or natural death can't be stopped ever!

Each one's duty is to live naturally one's life and also meet
One's death naturally to leave one's place for the next one
To occupy and do one's best to make the world better to live
For others coming after one in order in this unique world ever!

Death is a natural process for each and everyone in the course
Of evolution that's going on to produce better beings further!

Ramesh T A
Death Is Sure For Everyone One Day!

Death is inevitable for everyone in this world;
By maintaining good health and medical care, one
Can postpone death for sometime only at old age,
But death by heart attack due to weakness is sure!

Tribes living in backward areas of world gather
Together and cry for the recovery of seriously ill
One and by miracle some may recovery life, but it's
Not possible for every case to do so to save one..!

Same sort of things followers and works of a party try
For their leader and eagerly wait to see the recover of
Their chief from death bed that for sometime can be
Postponed by intensive care medical treatment perhaps!

But whoever one may be, after a while, again seriousness
Of health condition will take away the life of one sure.!

Ramesh T A
Death Is The Decree Of Nature For All!

Death is sure one day for all in the world;
What is the use of longing for longevity..?
To suffer in pain, diseases and weakness..?
It is better to die happily finishing duty!

All should aim for doing the most best in life
rather than wasting time in useless activities
For a longtime in the world full of uncertainties
Without getting satisfaction in anything long!

It is better to achieve immortality in our
Creativity rather than in physical longevity
That has no guarantee of good health forever
In this world full of pollution and contamination!

Death is the natural course of life for all beings
That Nature has decreed needing to be respected..!

Ramesh T A
Death!

Form of death

Nobody knows how it could be

Until the end!

Ramesh T A
Death, End For All!

With the head of a helicopter dragon flies
Are flying with fluttering gossamer wings!
It is happening before the rain comes
And serves as a symptom of coming rains!

Moths also come in large numbers before rains;
It is a natural destiny for these flying creatures
Like the delicate flowers they serve their purposes
And meet with sure deaths within one night, yes!

Likewise many land and sea creatures' fortunes
End very early before they realize themselves!
For the goats well fed before they meet their ends
They also don't know and never bother about ends!

What is the difference between these creatures
And men in the world as far as their ends in deaths?

Ramesh T A
Deep Discourse!

Sun sets when the southern breeze begins;
Sky turns red from blue, green and orange;
Sweet hearts meet in time over dinner party
And the conversation begins when stars come
To cheer the mood of intimates in deep muse!

Dreams of hearts transform into realities soon
Bringing heaven to earth to make paradise fine!
Discoveries of deep ocean put in amazement;
Galaxies of Universe become jewel box rare!
Soon they come to senses as the night blackens.

Deep conversations give pleasure to dear souls
Making bonds close and enjoyable forever and on!

Ramesh T A
Defence Of Survival!

Best Way of Survival!

Toad meets its own end by its voice;
Trojan horse among society reveals
Secret of nation even to enemy clear!

Enemy within is more dangerous
Than enemy outside of nation ever
Keeping all in alertness to save all!

Words of enemy are better ever than
All the flattery of a foe in friend's shoe
As who digs ditch moving close to one!

It's better to sleep in odd hours than
Ever in night hours if you want to be
Always prepared to face enemy well!

In life, escape is better than enjoyment to
Serve better the society that survives all!

Ramesh T A
Democracy By Money!

What does one need to do whatever things one likes in
A democratic set up of a nation anywhere in the world?
Oratorical skill, money and majority support are the
Basic necessities one needs to achieve what one likes!

Nowadays politicians with money buy everything they like;
They don't need education and also supporters anywhere
As money will take care of the missing pieces in the game
To make one successful in achieving whatever things possible!

Sans money nothing is possible in democracy as gathering
Men and supporters to one's cause and wish won't be ever
Possible to work with enthusiasm to do whatever one likes
To popularize one's ideas and achieve success sure....!

That is why intellectuals are still advisers but no rulers
As democracy can't be run by mere words but by money sure!

Ramesh T A
Democracy Is Everything In One!

What is democracy of any nation?
Is it voice of the majority people?
Is it liberty to think, speak and do?
Is it right only or duty also of people?

Democracy is everything in one ever!
It elects representatives to take action
On behalf of people to solve matters.
Democracy is for, of and by the people!

Knowledge, thoughts and wisdom are
Necessary for all people in democracy
To enjoy freedom better to achieve all
Making use of media of the world ever!

Realization of rights and duties is needed
To use and strengthen democracy better!

Ramesh T A
Denial Of Love By Partiality Develops Strong Heart To Judge All Correct!

When one loves one, reciprocation of love is strong
And firm forever, but if reciprocation is not there,
No relationship can develop to make life happy sure!

The one not loved for sometime longs for love from
One who loves someone before one's eyes sure hurts
Heart and hardens by passage of time to face grief!

Partiality of love based on selfish nature and also
Based on one-sided knowledge won't be appreciated
By others and won't be welcomed for any relationship!

Affected by such adverse persons, one develops strong
Heart to judge others by love but not based on any
Means to decide about how to deal with them in life!

Lessons of love of this nature develop wisdom at a very
Young age itself making Whose words as truth none can deny!

Ramesh T A
Desire Kindling Beauty Divine!

Beauty of twilight sky is entralling to stand and stare;
What a bliss one can enjoy the universal beauty so divine!
All around the place, all birds crisscross to their nests
Hurrying like school children coming out of schools to home!

Down below world life is busy with their last chores of day
Unaware of the beauty of the evening sky going on silently;
This is how mechanical life goes on sans any sense of the
Nature so divine and beautiful always bestowing bliss to all!

A wonderful time it is for romance to bloom love between lovers
To have a blissful union among themselves in harmony with Nature;
Swayed by beauty that kindles desire, dreams, romance and love
Life becomes more enjoyable despite a lot problems and obligations!

Before technological developments due to progress of science
And civilization came into vogue changing nations machine-wise
For the modern world we hoped to be the best, romantic life was
And even now is joyful to enjoy love in beauty kindling desire!

Ramesh T A
Desire Sans Patience Spoils All!

Life is not just sex only in the world;  
According to higher levels of nature  
All choose to live life for satisfaction.

Seeing others, desires are kindled...;  
But practically what's feasible is  
What one has to desire to achieve!

Just desire is not enough to have  
Pleasure as one likes to achieve  
One's goal to live life in the world!

Love, affection, kindness, gentleness  
And most of all politeness, patience  
And cooperation are must for all...!

Anger and lack of perseverance cut  
Good relationship of many a couple!

Ramesh T A
Desire What You Deserve!

Our attachment to gold, girl and land make or mar
Our life by fortune or fate in the human world...;
Attachment is the desire causing joy or sorrow
Needing us to keep our self equidistant to them!

Loving all with non-attachment to things and men
Is the best way to maintain balance between joy
And sorrow to overcome all dizziness at the top
And depression at the downfall in our efforts..!

Maintaining poise of mind and controlling heart
Desire, it is possible to see all things as they
Really are to judge and decide the right course of
Action to deal with all matters to a good conclusion!

Mostly, if we desire what we actually deserve ever,
We can enjoy doing all things better and satisfied!

Ramesh T A
Despite Progress, Human Longings Are There!

Many creatures like eagles, sparrows and pigeons have gone; 
Of them, only crows and squirrels are frequent visitors here; 
Crows are still in large numbers everywhere in the town and 
Some squirrels playing hide and seek game with noise, we see!

Habitats for such creatures have changed due to changes in 
The towns and villages due to expansion of urban institutions; 
Even the crows don't like to eat ordinary food items like rice 
Or idly, but prefer to take flesh and bones of chicken or fish!

The only gentle and playful creature is squirrel, who only takes 
Vegetarian items and fruits left over by humans everywhere in 
The pavements and balconies of houses here and there and it is 
A very good pastime or entertainment in the intervals of works!

All due to lavishness of civilization at the cost of culture, 
Changes are making such abnormality leaving all long for usual 
And wonderful scenes we have enjoyed some twenty years ago in 
Our usual places of habitats human sustenance is peaceful ever!

Ramesh T A
Despite Rains, Life Has To Go!

Like the elephant swinging its trunk,
Wind tosses window screen first and
Then with rain lashes the town long!

Wind, rain with lightning and thunder
Mark the winter months very well sure
Whether we enjoy it or not till it's over!

Festivals full of sweets and crackers.....
Already ready for all to enjoy them well,
Despite rains, people's attention is on...!

To make best use of the occasion, all do
Great purchase of dresses for the whole
Year coming next immediately in view!

Rain may come and rain may go, but
Life has to go with or without festivals!

Ramesh T A
Destiny Of One's Life!

Literature is the dictionary of human life;  
General literature and religious literature  
All express the experiences of human life.

As Shakespeare's plays famously noted as  
The mirror of life reflect human life even  
Today just as the epics like Iliad, Mahabharata;  
For, what is not them is nowhere to be found!

Nature and nurture of each one give the chance  
To become what one likes to be in the world;  
But inheritance and environment mould one's  
Character leading to success or failure in life!

Whatever be one's status, one's ambition based  
On one's knowledge and vision decides one's  
Fate leading to achievement by perseverance!

Ramesh T A
Destruction Of A Community Is Its Destiny!

Disintegration of joint family into nuclear family is on;
Never should one fall in the net of maya or illusion;
Non-attachment is way to follow to overcome Kali Yuga!

For a thousand years a language is saved by speech
Alone due to the culture of marrying among themselves;
Now due to spread of modern education, all have changed!

Girls don't like their community boys and marry outside;
Boys not getting suitable girls of same community reamin
As bachelors for long searching bride after bride ever!

Due to inter caste marriages, mother tongue dies everywhere;
Girls lose their natural identity after such marriages sure;
Boys also have to marry other community girls to live life!

As this goes on so, like the Yathava community was destroyed
After Mahabharata war and the expiry of Lord Krishna then,
The just spoken language community too will be no more soon!

Parents depend on their heirs for survival at the old age;
They cannot advise their children about their community,
Language and culture in the modern changing time everywhere!

Due to such negligence, the language sans script and community
Not maintaining unity and children going in different directions,
The community and language will disappear from the map of nation!

Ramesh T A
Development At The Cost Of Resources Is Harmful!

Human unity is possible only when their needs are satisfied; Only when the differences due to economic and social causes Are solved by education and employment, equality, friendliness, Coexistence, unity and peace can prevail in human society sure!

Science and technology no doubt help much to solve long standing Problems for quick disposal of people's grievances and needs; But uncontrolled utilization of natural resources with profit Motive has destroyed agricultural lands and increased pollution!

Air and water pollution due to industries and too much vehicular Traffics are endangering marine life and suffocating people sans fresh air to breathe leading to a lot of diseases needing the Attention of government on war-footing to bring normalcy earlier!

Development is needed, but that should not disturb Nature leading To pollution and climate change causing natural disasters often!

Ramesh T A
Development Based Politics Is The Need Of The Hour!

All difficulties people undergo due to politics ruling in all walks of life sure;
Best form of government is surely democracy only, but it needs reforms relevant;
Careful selection of candidates for the elections should be democratically chosen;

Democracy of the people, by the people and for the people should be real sure..!

Efficient, effective and excellent government is what everyone wants to have ever;
Fooled and stupefied by swaying politicians, the uneducated masses vote false ones;
Good governance seems to be possible only in dreams of the people forever and ever;
Hype in all dealings by the govt. just fascinates and fools people sans an end sure!

In every walk of life corruption being made into culture, all functions only by it;
Just making gimmicks as if actions are taken to eliminate corruption are a hoodwink;
Keeping track to find the route cause of the matter no one seems to give importance;
Lackadaisical way of routine after years together maintaining, how can it be rooted out?

Many are affected by government's sudden drastic action keeping friends safe forever;
No one seems to have confidence if a govt. does so to gain people's faith for vote;
Open talks of criticism against each other in politics show no way out of such matter;
People are fooled by putting into troubles and sufferings endless by all acts of govt.

Quantity at the cost of quality in all works cannot make a nation top in the world;

Reforms to make things go on fair ground are the utmost need of developing nations;
Somehow all things cannot be made to function as desired by many sans quality education;
Thinking on correct details of all matters only, all will have clear picture to do better!

Unanimous approval by both rulers and people will surely make nation go on right track;
Vary ways and means by which if all things are dealt with, soon progress real is possible;
World of surplus can be seen only by cooperation and coordination in all fields by unity;

X and Y like nations if developed by knowledge and work, they are sure to shine better;
Years of efforts to unite all nations under one governance by UNO have to be geared up;
Zeal to achieve all in all respects is possible, if one world union is established soon!

Ramesh T A
Development Of A Language Not In Use Long!

Perhaps English only is sustaining successfully as world language
Due to the English Imperialist Power’s rule of the world nations in
The past and is used as common language in the summit meetings
Of world nations among multiracial communities sans any problem!

Such a status no other language has except French due to its incisiveness
And is being used as a language for arriving at agreements among all
Nations of the world in the international conferences now and then
With translations in other languages of the world for convenience only!

When this is so, how can a language, after neglecting it for hundreds of
Years not caring for its lipi or script or alphabets but using it only as a
Spoken language at home or in functions of the same community, be
Developed for reading or writing uses sans public use or job opportunities?

In the changed scenario of the world, can the old script be again revived
Or will it be possible to use it without reforms in shapes and sizes of letters
So that all can learn it quickly and put to use immediately as English or
Other modern languages with less alphabetical letters to remember well?

Now after Computer has come into vogue, many languages have lost their
Use unless they are utilized someway for world communication purposes;
In that respect, English stands top and unique for communication to work
With ease among all citizens of the world and its letters are used by all well!

Yes, for sms and message communication, English alphabetical letters are
Very well used by other language speaking people in computers and also
In cell phones everywhere hinting at the idea why can't English letters be
Used for writing other language for communication and working purposes!

Ramesh T A
Developments!

Developing countries are ever developing
But never seem to be developed at all since
Attaining freedom and democracy for long!

Nation's socio-economic development has
Direct link with education and tax structure
That decides about people's development...!

Both people and nation should become ever
Prosperous and developed based on advanced
Technology and individual liberty to do all...!

Good education and minimum tax system
Surely make all get what they need and be
Happy with what they have achieved ever!

Meddling with education and tax based on
Wrong policy surely keep nation backward!

Write feedback or recommend this text to others

Ramesh T A
Dharma Or Righteousness Is Best To Live Natural Life!

Moral righteousness to lead a naturally justified life is
What called as orderliness in the social life of the world
And that is represented in one word by the term Dharma ever!

Dharma in one word means natural justice, social order and
Moral righteousness to be followed by each and everyone
According to one's nature in the context of present world!

Life gives a chance to upgrade one's soul to reach the highest
Status for enjoying total liberation by promoting oneself from
the bondage of births and deaths according to one's karma here!

It is vital to all to do duty according to one's nature here
Following the path of Dharma to overcome the spell of fate
So that repetition of births and deaths can be overcome sure!

Righteousness is the natural way to follow in life to be free
From all sufferings or difficulties all face due to artificiality!

Ramesh T A
Diamonds Of Poetry!

So many ideas are ever coming in the mind
For sharing with friends, dear ones and others!
Only when ideas generate in the mind ever...,  
Many matters one can get to share or write..!

If no suitable persons interested in new ideas
Are not there they all disappear as thin air...!
If such best thoughts or ideas are written in
A diary they may help evolve further best ones!

Best ideas sane anyway to express in any form
Remain long in heart and mind under pressure
As the charcoals remaining under the Earth long
Under great heat pressure turning into diamonds!

Such diamonds of ideas poet creates into fine poetry
For all to share, get inspiration and joy as nothing can!

Ramesh T A
Dictatorship Rule In The Guise Of Democracy!

Real status of national economy lies in export revenue;
Foreign direct investment may start many industries and
Trading companies increasing source of national revenue
Generating employment opportunities to national prosperity!

Instead of depending on such an economic strategy, if a nation
Indulges in accruing income by levying heavy taxes on people
And extraction of money in all ways, the development of economy
Would bring down the party in power due to sufferings of people!

Not realizing this great monumental mismanagement of nation, if a
National govt indulges in centralized system of administration,
It can only be called as legalized looting of people's money sans
Bothering about each one's economic development as in Socialism!

Centralized system of administration is simply be called as a
Funny democratic dictatorship rule, if a nation has heaviest
Population calling itself as a federalistic State in the world
Needing decentralized system of administration for good governance!

Full control and all powers in the hands of one person in democracy
Can only be called as Hitlarian form of dictatorship government
Ruling the nation in the name of strong decision making and executing
National govt that will surely cannot stand as strong democracy long!

Ramesh T A
Difference Between Man And Animal!

Barking dog never bites, a proverb says;
With the throw of stone the dog runs away!
Dogs of war go on endless sans meaning;
Just for a piece of bone all fight each other!

It is dog's nature to bark and fight whether
It gains anything out it or not all its life long!
Persons of low character also indulge so ever,
When things can be settled in a smooth way!

By give and take policy all can be settled well
And can enjoy all benefits sans any difficulty.
This is the way humans have to settle matter,
Failing which, in the course of time, it is settled!

Only men of animal nature fight for everything;
But men of character settle all in a wise way ever!

Ramesh T A
Difference Between Man And God!

What's the difference
Between God and man ever?

It is in what they do!

What man does is achievement,
But what God does id miracle!

Ramesh T A
Difference Between Nature And Man!

Sunshine, clouds and rain are parts of daily feature
That counts as one day we all have as background;
Every activity of all citizens is covered within this
And with Stars and Moon the day ends well daily!

At the end of the day, we see what we have achieved;
Whether we have made progress or wasted time....,
We weigh and see everyday of our life in this way...
And the days go on till the end of year to the result!

If we have achieved anything, we feel satisfied sure;
Otherwise, we try to have another resolution to do
Better than before in the next year and with this in
Mind we say goodbye to old year welcoming new one!

Man's life goes so in a year unmindful of Nature's........
Change or usual activity and what we fail to note is......
By repeating its performance, Nature achieves perfection,
But we looking of novelty, achieve perfection in nothing!

Ramesh T A
Difference Between Old And New!

There is always a vast difference between old and new.....
Whether it is education or politics or poetry or everything!

Education everyone knows that the present one is different
Losing the depth and wisdom of the past and use in life..!

Poetry is also has a great power as nothing can in literature
Whether it is classic or romantic or modern or new damn sure!

Politics as all know has a vast difference between old and new
As it was a social service in the past, but it is a big business now!

Living life style itself has changed a lot now making the difference
Very vast and wide as there is great rift between culture and civilization!

Old and new cannot go together as far as substance and meaning are
Concerned besides interest and needs of the present varying from old!

Richness, culture and classical style are lacking in the present set up
That goes fast sans sense in the name of modern life lacking direction!

Ramesh T A
Difference Between True And False Ones!

False criticism cannot affect genuine creative works;
It would be just like a dog barking at the Sun in vain;
It's said that barking dog never bites but seemingly
Silent dog bites whoever one is when out of mood long!

A speaker on the stage too never fears at the howling
Crowd, when the message has truth though misunderstood;
A great philosophic matter though seemingly meaningless
People slowly come to know truth in it later on in life!

Bold expression of thoughts based on truth gives power
For the creative artist whether in private or in public;
Place and people are nothing for the one who says truth
In all one's work of art or message for the public good!

Noble artists express great truths even by trivial matters;
Whereas politicians say with full of sound and fury nothing
Unlike the erudite intellect or poet broad in heart, mind
And spirit saying invaluable ideas as casually as possible!

Ramesh T A
Differences In Precarious World!

Earth is precarious state in our Solar system!
Earthquakes, volcanic eruptions and storms
Nobody knows when will attack our abode!
Only abode we have in the whole Universe
With all our differences and wars everyday!

Love and peace we all long very much often
To live a joyful life amidst all differences!
But not two sides are ready to shed differences
And deal all matters to solve with tolerance!

Nature is there, music is there and books there;
But they all never attract man to solve problems!
Always they are on the war path as predators do
To dominate and make all dance to their tunes
To satisfy their egos to contain sadistic pleasure!

Ramesh T A
Different Seasons Of World Countries!

There are lot of differences among countries
In the North, East, West and South of world.
Cold and hot countries have a lot of differences
In all the seasons of the year so to say for sure!

Unlike in the North-Western countries, where
There are Spring, Summer, Autumn, Winter,
We in the Eastern countries have nice Spring,
Summer, sans much Autumn and mild Winter.

Snow covered ice cold Winter we don't see......,
But storm, rain, mist and fog we see every year!
Deserts and green lands we have as resources of
Nature to manage our affairs all round the year!

Poems of Autumn are very interesting to read
And snow covered Winter looks as fun to muse,
When we see the cold countries of the world that
Wonder at green plants of hot countries ever....!

Ramesh T A
Difficult And Easy Life!

Creativity is difficult, but criticism is easy!
Creation is difficult, but destruction is easy!
Earning is difficult, but spending is easy!
Loving is difficult, but hating is easy!

Working is difficult, but enjoying holiday is easy!
Giving gift is difficult, but receiving gift is easy!
Writing is difficult, but rejecting it is easy!
Cooking is difficult, but eating is easy!

Hosting is difficult, but guesting is easy!
Helping is difficult, but getting help is easy!
Art work is difficult, but finding fault is easy!
Research is difficult, but enjoying benefit is easy!

Driving car is difficult, but travelling in it is easy!
Travelling of our own is difficult, but as guest it is easy!
Serving is difficult, but enjoying service is easy!
Independent life is difficult, but joint-family life is easy!

Ramesh T A
Difficulties Bring Out One's Best In The World!

Difficulties are there in life to arrest soaring desire
Leaping from one thing to another one favoured by fortune;
Otherwise, value of of happiness one cannot know ever and
There's no possibility to make haughty one humble in world!

Contention of heart comes after one has suffered a lot
And finally got reward in recognition of one's capability!
Difficulties are there to make one humble to pursue one's
Ambition doing one's work with devotion beautifully ever!

Workmanship done with devotion and dedication to perfection
Automatically brings laurels with honour and recognition..
If works are taken and done to the satisfaction of God, at
The appropriate time, one will be awarded with rewards sure!

Difficulties are like fire that melts gold for purification
And make one's calibre a well polished and shining ornament!

Ramesh T A
Diligence Only Makes All Great Things Possible!

It is not enough one has ambition based on great dreams
Unless one achieves it in reality in the world life sure!
Diligence to do or die is the way to do that coupled with
Persistent efforts in the right direction that clicks sure!

Unless diligence serves as impetus, nothing worthwhile is
Achievable as a usual matter in the world full of hurdles
Making all efforts useless by demoralizing forces for any
New and great innovation needed for the common good of all!

Without painstaking efforts by diligence based on determaiaion
To achieve what one dreams about to be the greatest good for
The well being of all, no great things are invented or created
To make mankind stride on the path of progress to achieve best!

With diligence and persistence by determination to do great only
World has progressed to the present status inspiring all to do so!

Ramesh T A
Director God!

Director directing

Can anyone stop acting

If He is God?

Ramesh T A
Discipline Makes Everything Easy!

Cleanliness and discipline make convenient to do all well
And help one achieve perfection by beautiful performance!
A shattered and disheveled environment do not impress
And inspire much to do anything with interest in the world!

Discipline is the most important requirement for all to do all
In a better fashion better than others whatever be the work!
Habits well pruned by discipline from the childhood onwards
Surely pave the way for advancement with ease in world life!

All experiments are a kind of adventure needing quick steps
To go forward in the research or search of something new ever;
If a disciplined approach is made on our adventure many pitfalls
May be corrected before hand to make a better move forward....!

Mind itself gets the proper mood to do anything new and unusual, if
One is well trained to hand all in a disciplined way since a longtime!

Ramesh T A
Discovery Of Martian Planet!

Six months' space journey has led the Insight spacecraft
To land on Martian planet full of red soil and frozen
Kind of water everywhere to the surprise of all scientists!

What is inside the Martian terrain is what this Insight
Space vehicle has to find out to let the ground control
Station of Earth to know for analysis to decide next move!

Martian day is almost twice that of Earth's day, it seems;
All strange stories of Mars will be soon negated and new
Information from there will make all know the truth of Mars!

Mars is just one of the nine planets in our Solar system;
Time taken to start the spade work is long just for this one
Planet means how many years it will take to know all planets!

Our lifetime is not enough to know a bit of knowledge about
One planet means how long will it take to know all about all!

Ramesh T A
Dislocation Of Natural Courses!

When villages and forests are shrinking
Due to urban expansion and constructions,
Rains fail in monsoons and rivers shrink
Leaving all suffer for water scarcity ever!

Long droughts make dry river courses
In many places of the world making easy
For constructions of concrete buildings as
Expansion of towns and cities everywhere!

Suddenly after a longtime cyclonic storms
And heaviest rains fall as cloud bursts causing
Deluge in places usually seeing some floods
Now and then leaving people look for other spot!

Disillusionment makes all lunatics and fear
Beyond rescue makes all rush to safer places
And helpless even though they all have money,
Buildings, cars and all facilities in the world....!

Ramesh T A
Dismantle Nuclear Weapons For Better Use!

World peace is the wish of all nations except a few
That have no sense of reality of the world caught in
The middle of natural disaster caused by man-made
Pollution and threat to the world existence due to
Stock piling of weapons of mass destruction such as
Nuclear weapons, chemical weapons and other dangerous
Weapons that are sure to destroy all living beings!
The question is whether such weapons are necessary
For security or for destruction of weapons holders
As if those things are ignited by volcanic eruption
or any other mishap by chance would destroy those
Nations and other neighbouring nations also sure..!
Sans any knowledge of such dangers, the nations holding
Nuclear weapons should dismantle them for better use!

Ramesh T A
Distant Lightnings And Thunders!

Thunders following lightnings are heard; 
Rain clouds have passed over the town; 
No rain seems to fall though coolness is!

If the distant rain falls on farming fields 
It's ever helpful for growing crops or for 
The fields irrigation can be provided too!

Helping the needy is far better than ever 
Helping the well fed ones in the society 
To make a nation strong to face all odds!

They say give alms knowing pate well; 
If wrong guy is helped no good can be 
Ever seen taking place anywhere sure!

Rain is expected for all, but if it falls on 
False ground like towns, it's of no use!

Ramesh T A
Disturb Not Nature And Its Great Wonder!

Ebb and flow of sea waves are a great wonder!
Coming from far never go far inside sea shore;
Natural LoC keep they between sea and shore!

Planets in different orbits go round Sun ever;
But they never collide with each other sure!
All things in Universe do so unless meeting end.

Crocodiles and hippos live side by side in lakes
Though they are carnivores and herbivores ever;
A natural law all obey unless untoward happens!

Man is different by his mental power to excel ever
Natural order too to attain a status beyond himself;
But cannot excel Nature however high he soars...!

His developments causing pollution provoke wrath
To Nature provoking natural disasters to balance itself!

Ramesh T A
Disturbances Of Many Kinds!

Disturbances of all kinds if affect one often,
Nothing can be done properly at anytime in life;
Likewise precious time cannot be engaged with
Doing best things one likes in the world sure!

Interest is one thing, but obligations and duties
May force one to do them at the cost one's wish;
The desire to be a writer one may have thinking
That's possible due to heavy load of obligations!

But in reality, obligations and disturbances will
Not allow one free for a moment to indulge in the
Thing one has great desire against all odds in life
And the precious time of one's life becomes oblivion!

Many ideas one may have but nothing can be expressed
As one likes leading to feelings of depression that
Have a sense of relief and an outlet at last perhaps in
Poetry bringing crown of literature within one's reach!

Ramesh T A
Dive Deep And Fly High!

For diving deep in the Sea
And flying high in the Sky
Ladder and rope aren't enough,
But fish fin and bird's wing
Are the need for man ever!

Lift to go up the Sky and also
Lift to to go down the Sea now
Inventors are trying to create
To make all see such scenes of
Nature all could not see earlier!

Fin to swim and wing to fly are
Possible for man to have by some
Evolution or scientific revolution
One day, if the pursuit in that great
Direction is pursued with hope sure!

But all those feats are possible by
Mystics and poets of Nature man
Generally knows by hearsay stories
That kindle muse and mood for man
To become a yogi to do them one day!

Ramesh T A
Diversion Is Best Compensation In Life!

To overcome shortcomings in life, many seek compensation
By diversions in art, music, poetry and Nature in life!
That way, they enjoy pleasure and sense of fulfilment,
If they share their feelings and ideas with all others!

The loss in one thing is recovered in some other thing
And transforms one's life for the better towards victory!
This is the art of living all have to know and follow to
Achieve great things in flying colours before time ends!

Musing in Nature, one enjoys sense of calmness and peace
And inspired by the beauty of Nature one becomes a poet
To write best works of art to please others and their
Praises give a sense of satisfaction otherwise impossible!

Attachment to particular thing may disappoint one in life;
By freeing oneself of such an attitude will surely pay them
Well in some other form through some other means in life;
This is the thing one has to know to survive and succeed!

Ramesh T A
Divide And Rule Policy In Family Too!

Divide and rule policy not only in politics but also
In joint family so called experienced elders use to
Control all members as they wish by partial love to
Their pet members at the cost of other members ever!

Split in the joint family continues and they use it
Sheer clear the family ship according to their will;
Whatever the pet members do are supported by elders
To stop noisy fights among themselves now and then!

Taking advantage of the elders partiality, the pet
Ones dominate others by spreading false opinions
About the members they don't like or others who are
Not falling in line with their diktats in the circle!

Death of the elders only exposes the tricks of the
Pet ones to the world and all then chide them with
All possible tirades against them and change their
Line of support to the other deserving ones later!

Ramesh T A
Divide And Rule System Still Continues!

A system of segregation by caste still prevails even after social reforms by reformists;
Beating to deaths other caste, religious men and inter-community married couples are there;
Caste domination by Brahmins in the past and costly worshiping system led to Buddhism's rise;
Democratic way of worship has been started by Buddhism leading to its promotion to world stage!

Everywhere large Buddha statues in temples spread to all over Asia and Eastern regions in West;
Fully convincing many by its influence many have voluntarily embraced that world religion soon;
Greatness of Buddha's teachings have made society live in love and wisdom with all in the world;
Having conquered by its influence so made Adi Sankara to build Temple of Gods to revive Hinduism!

Icons of Lord Rama and Krishna in Temples besides Siva Temples have allowed all to worship there;
Joy of temple festivals so slowly has influenced all embrace Hindu religion thereafter again;
Kings regimes after having been replaced by democratic governments, politicians started casteism;
Love and peace of religious teachings seem to have been again replaced by divide and rule system!

Most of the religions have underwent reforms according to changes of time and developments sure;
Nothing of this sort that hasn't affected only religion in the world is Islam, now causes concern;
Open caste violence and its influence affects in every walk of life besides religious feeling ever;
People of lower caste undergo lowest treatment everywhere affecting their progress on and on sure!

Question of secularism in democratic government incorporated in Constitution is ever alive now;
Religion, corruption and violence continue in the society like fast spreading fire
now and then;
Sustaining against all malpractices people always make cross-current swim against the fast river;
Time and again communal violence come as headline news and subside as after volcanic eruptions!

Unity of the people is ever in jeopardy due to such differences perpetrated by political parties;
Various parties on caste and religious background come up as mushrooms with various colour flags;
Wars of words are frequently occurring in legislative assemblies and parliamentary house sans fail!

X and Y individuals unconnected to parties and associations have difficult time for every matter;
Years of well wishing people's dreams of Utopia with perfect society sans differences are a mirage;
Zealous fighters of various colours dominate the show of everyday and the days go likewise nonstop!

Ramesh T A
Divine Hood!

Realization of the Self and the Universal Spirit
Begins divinity by meditation and mysticism
Living in harmony with Nature in the world!

Healthy body, clean, pure and free mind and
Spirit in communion with the all pervading Spirit,
Surely enjoys peaceful bliss in Nature long ever!

Intellectually knowing the Ultimate Reality sure,
Super-Manhood is attained before mystically one
Reaches the state of divine-hood for total liberation!

This gives bright state of being that makes all clear
For one and a sense of freedom opens door to the
Elevated state as newly bloomed flower beautiful!

Wisdom shines bright in the face of such a divine being
With bright eyes sparkling like diamond in the darkness!

Ramesh T A
Divine Love Does All!

Accurate knowledge facilitates correct understanding
To know the truth of matter in all walks of world life.
Such understanding only makes knowledge powerful.
But love is divine transcending all to know truth better!

Perfection is beauty and that beauty is truth forever;
Love of beauty leads to doing all things perfect ever!
Even with truth and love one can't feel free and happy
Without divine love prevailing over all things in life.

Freedom, peace and bliss are what one longs for in life;
For that, love and knowledge of truth only can provide
Freedom to enjoy bliss as a mystic experiences in Nature
Leading to peace and bliss to have fulfilment in life sure!

Divine love of beauty makes one an artist to enjoy bliss
In Nature to create artistic beauty a true poet does ever!

Ramesh T A
Do Not Impose Ideas On Others!

Do not impose ideas on others for God’s sake!
Dreams, ideas and imagination differ for all;
What is interesting to one need not be so for all;
For, one man’s food is another man’s poison!

Egoists think they only know all and others not
And harp on that note whether others like or not!
Cat thinks the world is dark on closing its eyes!
Can the world become dark ever if the cat does so?

It’s impossible to win in an argument with an idiot;
For, they neither know themselves nor our words!
Also, it’s impossible to wake up a mocking sleeper!
But ideas only change the world for the better or worse!

Man sticks to some ideas for his support and survival;
Man of one book preaches pet ideas for all problems!
Sans practice many preach ideas like the law makers;
But without practice real leaders never implement ideas.

Derived ideas of suitable ideals only will be accepted;
Otherwise they will be allergic medicine harming health!
Difficult vital ideas are implemented as sugar coated pills!
First needed ideas should be practised averting impossible.

Great men had great ideas to make great world changes!
When people were ruled by fear Jesus used the idea of love;
When violence was rule of the day Gandhi used nonviolence.
Jesus and Gandhi conquered men’s hearts and got freedom.

Ideas of one God, world and people long absorb world men!
By religion or politics dictators try to create one world order!
Historically nothing is achieved by force but by love only!
So, not dictatorship but democracy only can create one world!

Only one free world of all round human development but not
One industrialized world by totalitarianism will be welcomed!
But living in Nature only spiritual nature can be developed
And so, the idea of one agrarian world state is the best for all!
Do People Really Have Freedom?

Many a time many feel whether we have freedom or what
Due to too many restrictions, licences and conventions;
It makes all feel people are only for voting in election
In democracy that is for the advantage of rulers now..!

Every individual wants to do what one wishes to do ever;
Every aspiring individual wants to study what one likes;
After education, everyone wants to do the job one loves;
Also, everyone wants to live as one wishes in the world!

But, for many or all, such wishes remain only in dreams!
Many talk about changes needed for developments all like;
None does execution properly to achieve the objective well;
Reforms are needed that should not affect individuals life!

Every govt. disturbs public life sans real development ever;
All want undisturbed implementation of reforms in democracy;
Individual liberty and rights shouldn't be pampered with ever,
If the govt. wants to change for the better and develop world!

Ramesh T A
Do The Best Everyday To Make Achievement!

Life and death are common in the course of life
In the world we are all left to try our level
Ever best to achieve top most thing before end!

Such an effort should start everyday of our life
Believing our end is nearby soon to take us away
From this world to the other world we know not...!

We should do our level best to achieve something
As never before before we go to bed everyday sure
So that we will feel not frustrated about anything!

High and noble dreams of our self should not go
Unrealized though our efforts are not over within one
Day or some days, yet, never shall we be relenting!

Everyday is a new opportunity to try our level best
To do the best to make that a great achievement sure!

Ramesh T A
Do What's Possible To Have A Good End And Legacy!

Whether old year goes out and new year comes in,
Life goes on in its own pace in the journey of life;
What we have achieved and what we have to achieve
Are all immaterial for life to prosper as usual here!

Birth and death are the beginning and end of life
For all living beings in the world sans any exception;
Also, we are not given any hint when each one's end
Will come whether we finish our duty or not in life!

To make our mind free, it is better to finish our work
As if we are going to die tonight or tomorrow morning!
If we feel so and work towards finishing earlier our
Work, we will get satisfaction and peace of mind sure!

To have a good completion in our life, it is better to
Do what we have aimed and possible to leave a good legacy
For the posterity and the world sans a wild ambition
Impossible and suffer when the end comes sans our will!

Ramesh T A
Do You Want Paradise Or Inferno?

Is it a tar road or a bed of yellow flowers strewn all the way?
What a reception it is to receive me so to rejoice long there
Enjoying the beauty of Nature and singing song of praise to
Honour her with romantic couples skating down the hill in love!

There's only one atmosphere and there's only one Earth existing
As paradise unlike in other planets around billions of Stars in
The Universe to entertain and instruct all with notions of love life
The birds enjoy flying high singing songs to their hearts' content!

But all the paradises on Earth are converted into purgatories of hell
By the infiltration of terrorists posing as freedom fighters with slogans
Of Satanic verses on the basis of some religion driving all innocent
Peoples towards a great abyss of no return all have to root out soon...!

Will all embrace such devilish dogmas relinquishing all cultural and
Civilizing inventions of humans to give relaxation and comfort by all
Art pictures, pop songs and music, romantic cinemas, cosmetics and
all personality enhancing attires, high education and free movements?

Ramesh T A
Dodging Rain!

Summer heat

Is more than usual this year

As despite rain

The heat has not subsided

And rain is dodging two or three days!

Ramesh T A
Does Religion Sustain Faith By Compulsion At All?

Religious conversions by the western and middle-east countries
Make it compulsory for the converted to adhere to their rules!
The natural interest and liking towards such religions go off;
People follow such religious faiths unwillingly just as duty..

In the due course of time, generations lose interest and faith
And never rely on such religions willingly and truly forever..
That's why visits to such shrines have become meagre in number, but
Only on festivals or funeral times they pay a visit like or not!

Such matter of fact way of dealing with religious ceremonies
Have made many to look for religions having choice sans any
Compulsion flourish much in the world now and celebrations of
Festivals of such religious are done with whole-heart forever!

Rejoicing and meditating for spiritual development truly bring
Real peace of mind and satisfaction they haven't enjoined before!

Ramesh T A
Dog Nature!

Barking dog never

Bites but seemingly silent

Dog bites anyone sure!

Ramesh T A
Dogs In The Manger!

Are they dogs in the manger ever
To bark and cause stir for nothing!

Being good for nothing in anything,
Out of jealousy they indulge always
In competition to excel the good ever
And feel dissatisfied when they see
The good is being appreciated by all!

Again, they wait for another occasion
To indulge in another kind of competition
By joining hands with feathers of the
Same flock with plan and programme!

Accordingly they create all disturbances,
But the good goes some other way and
The competitors fall in their own trap...!

Ramesh T A
Doing A Thing Of Beauty Is Real Joy!

Composing poetry gives me great joy, it being the gift of God; I wish to write great ideas in all my poems, but it’s the will of God! Whatever thing I do I wish to do it till it becomes a beautiful thing; Poetry becoming a great and beautiful thing gives me satisfaction!

The satisfaction I get out of the beautiful composition of poem is joy Real of all the works I have done and am doing ever in this world! Poetry writing is like art for art’s sake kind of work, when I am deeply Immersed in the exploration and composition of a full poem sure...!

Otherwise, it is better not to have written a poem at all not having Completion with ideas I cherish most in heart and to my complete Satisfaction of heart as that thing of beauty only can bring great Joy to the creator as well as readers not only now but also ever!

This is how the composition of poems I ever attempt when an idea Or a thing of deep interest strikes my mind before I start the job of The day, before I settle myself decisively on my venture with a nice Ambition in heart to see that I achieve the joy I am longing for sure!

Ramesh T A
Doing Deeds!

Whether fate favours with fortune or failure
Duty is done to do deeds with dignity as per
The dictum of the Lord not expecting any
Reward or award believing He would honour
With all those things when the time comes!
But no sincerity and honesty of work has
Any appreciation in the world that counts
Much only money bringing works only as
Money has become the only benchmark in
The material world we all live accepting the
Modern trend of technology and commerce;
Only all who work outside this kind of purview
Such as farmers, artistic workers and poets
Have a sense of fulfilment perhaps, I believe..!

Ramesh T A
Don't Be A Fool!

If you move with fools
They will make you also a fool
And Beat you...!

Ramesh T A
Don't Be A Frog In The Well!

Religious leaders' birthdays are coming
One after the other every-year sans fail;
All religions are celebrating for them
To bring peace, love and unity among all!

But unifying all religious people under
One roof never seems to take place at all!
All religions almost preach same things, but
All people differ themselves by religious hue!

When the differences of religious colour will
Come to an end in the world for good no one
Seems to know in the long turmoil being ever
Boiled by fanatics and men of one book sure!

Knowledge of everything and all matters only
Surely can give power based on truth one knows!
By making only the matter one knows as truth
And force all others believe it is a fanatical venture!

All should open the window of room and see
The outside world to know the whole truth.....;
Failing which one would be like the frog in
The well forever unable to come out of it ever!

Ramesh T A
Don'T Be A Toad And Elephant!

Wrong understanding based on opinions of unqualified ones
Mislead one to take wrong decision quick to spoil all matters!
Then crying over spoiled milk will serve no purpose. unless
One realizes one's mistake and settles with the wise forever!

Life is not a game or dance or gamble or a movie we see....,
Where things happen quick and all come to climax for a fast
Ending quite surprising to all against all their speculations...
And so, all things should be decided with patience and wisdom!

Due to fast wrong notions, many lose a very good settled life
And suffer lifelong not able to regain the lost paradise again
Which is the making of misunderstanding and wrong decision
One has made like the elephant strewing on itself sand ever..!

Talking about personal matters with outsiders is like the toad
That shows its location by its own crackle in the field or anywhere
For the snake to identify and swallow it sans difficulty indeed.
This is due to opinions one seeks from outsiders for one's life....!

Ramesh T A
Don'T Touch Me!

Sky said to Moon,

'Don't touch me! '

Earth said to Moon,

'Don’t touch me! '

That's why Moon is above Earth

And away from all Stars in the Sky!

Ramesh T A
Don't Wast Precious Time In Mundane Things Only!

Flower garden with a broad green lawn is the place people flock together to enjoy free time once in a while in holidays forever! The natural scenario under the beautiful blue sky till the stars appear in the night sky with full moon or crescent moon they enjoy!

All the thoughts of other engagements disappear a while having a good time with friends and families in the paradise of garden ever! Such a beautiful occasion remains in the hearts of all people there after they go again to their places wishing to meet again so later!

What a wonderful time spent in what an atmosphere ever remaining fresh in heart to dream about with sweet romantic thoughts long! Only those who have enjoyed life so will appreciate this kind of pleasure sure with all the dear ones they meet now and then later!

Life time should not be wasted in mundane things only sans any way to have sometime in outside in Nature to refresh our souls for better!

Ramesh T A
Dooms Day Of The World!

One side Nuclear Summit talk is going on to stop war;
Another side nuclear missile testing is gong on for war!
When we don't have another world to live nearby....,
How can one try for the total holocaust of this world?

When religious reforms are quite a welcome sign for all,
What is the use of retaining old norms by terrorism ever?
When the whole world has progressed by modernization,
What is the use of turning back the time to medievalism?

By mysticism when all religions are trying for harmony,
What is the use of imposing ancient religious ideas now?
Sense should prevail over the perpetrators of violence, when
Peace is the mantra all religions preach and promote now..!

Nuclear weapons and religious terrorism when go hand in hand,
Dooms day of the world is surely written on the wall we can say!

Ramesh T A
Dream And Reality Of Sourashtra Community!

Visiting a metrocity and attending Community conference
Indeed gives great joy and sense of fulfilment in world life!
This minority community called Sourashtra Community is
A chunk of people around 20,00,000 in population living
In South India and around the world striving for solidarity
To achieve all their goals through politics sooner or later....!
United we stand, divided we fall is a wonderful proverb
Suitable for this community people who have been devoting
All their times only for their works and living peaceful life!
Now they have come forward to establish their identity as
A top class community in the nation to stand tall among all!
Gathering more than 10,000 in number all Sourashtraian
Who have attended the conference look to be very inspired
And sure to achieve their most cherished dream into reality!

Ramesh T A
Dream In Life To Do Best!

Waking from sleep after a good dream
Dreams of many kind I think about much!
Much pleasure dreams give to be great...;
Great dreamers are great leaders too....!

Too much of any one thing is surely not good;
Good mood creates better things in variety!
Variety is the spice of life just as humour....;
Humour creates interest to do better ever!

Ever one cannot stop breathing new ideas;
Ideas are very important to realise dreams!
Dreaming only rejuvenates spirit to go ahead
Ahead of others knowing anything better...!

Better late than never to try best ideas in life....;
Life is for living loving best things to do best ever!

Ramesh T A
Dream Leading To Heaven Of Sleep!

Sweet dreams one says to one's beloved, friend and lover
After saying good night before departing to one's own place;
Whatever be one's life situation that is good or bad, love
Makes one say always sweet things to change mood bright..!

Bright light of joy that way one feels will give cheer
To one in need of comfort in the night being alone not in
Touch with any familiar person to one's vicinity in dark
Night full of tensions clouding one's mind till day dawns!

Dreams full of romantic joy going on all the night will
Certainly pave the way for moving in slow motion as in a
Fantasy that can happen only in a midsummer night's dream
After a long journey in a labyrinth reaching paradise later!

Sweet dream is a staircase leading to the night sky full of
Stars as in the Milky way leading to heaven of sleep at last!

Ramesh T A
Dream Of Free Life!

Free life is what everyone wants to live and dream ever in the world!
Pursuing this dream is everyone's great adventure whenever time permits;
But being the slave of time, everyone forgets what their dream is sure;
What a situation we all are placed in this materialistic modern world!

No one is free being the part of this circle or that circle making all bonded
To execute the common decision made making no room for personal wish!
Due to this kind of union, there is a lot differences among many circles
That divide and rule the world people in fear, hatred and wars forever!

Great philosophers like J Krishnamurti say come out of all circles
And see everything from above, if you want to see things as they really are!
How true it is, if we follow that advice and see everything with bird's eye view!
Higher we go up, all things petty and good for nothing vanish into thin air!

Keeping the mind ever in higher thoughts, negative and narrow thoughts
Disappear making the mind soar high to sublimity to become one with divinity;
That is the way to keep peace of mind ever in our reach to feel free in life
To lead a better and free life we all dream about for a long, long time here!

Ramesh T A
Dream Or Reality The Dance Of Dame!

Unbelievable but true happened before me!
I could not recover from half wakeful state!
A dancing dame perfect as well chiselled lady
Of temple statues descended from clouds fuming!

Walking like a colourful peacock with thin waist line
She moved as silver temple chariot in full splendour!
Spell bound I watched her wondering whether she was
Gorgeous apsara of heaven coming from Indiralogh!

The dance was more than all art forms world knows -
Bharatanattiya, ballet and tango all put together!
Heaven swan she could be felt I enjoying divine dance
And forgot myself in dreams never to be forgotten!

All happened and disappeared when I got very near
Like a vapour vanished into thin air by some magic!

Ramesh T A
Dream Or Reality?

Freedom sans discipline makes democracy a farce!
Socialism sans education makes society a gutter.
Rights conferred on lesser privileged give upper-hand.
Administration sans guidelines brings anarchy.

Nation sans control easily brings terrorism to rule there.
World is volcanic due to conflicts between good and bad.
Exploitation of natural resources provokes Nature's wrath!
Many steps further to extinction of Earth have started.

Living in the war zones of Earth has become regular.
Might sans laws seems to gain ground everywhere now!
Survival of the fittest animal is not in the forest but in towns;
Hell has been transported to Earth to make heaven a dream!

Living under the shadow of terrorism is a common feature;
Romantic world is only in stories to long for to live in love!

Ramesh T A
Dream!

For everything
First dream sure and
Then achieve ever!

Ramesh T A
Dreaming....!

Because of you dear

I am always dreaming at anytime

While I am awake!

Ramesh T A
Dreams and imaginations go wild in romantic world
Just as children play with things according to their
Imagination or creativity as much as they like..!

Great creative works of romantic poets have come to
The world due to their powerful imagination and dreams
They have had in Nature by their own experience long!

Dreams, ideas and realities take place like in a chain
one after the other for the progress of humankind in
The world full of chaos, turmoil and unrest often sure!

Dreams are the beginning of great thoughts that become
Realizes through the creative works by authors like
Jules Verne, H G Wells and so on after romantic poets!

Upliftment of humanity in the world are possible due to
The efforts like Charles Dickens, Wordsworth and so on!

Ramesh T A
Dreams And Predictions!

Strong impressions of past incidences remain in memory long;  
They often come in dreams too taking one to that time again;  
It's an effect of good time travel to the past and also to future!

Strong intellectual thoughts also lead to such a state of effect;  
Many poets and scientists have enjoyed such travels to create  
And invent a lot of best and beautiful things for mankind ever!

Dreams of such intensive nature surely leads one to perform  
Something positive with telepathic effect based on photometry  
And also clairvoyance due to extra sensory perception of mind!

Persons of passionate nature are capable of having such experience  
Like the intuition that helps to know all of the past, present and  
Future making one a great mystic with the power to predict truth!

Great truths expressed by mystics no one can deny, though can't  
Believe their credibility and predictions till they all happen sooner!

Ramesh T A
Dreams And Vision!

Dreams and vision
Begin New Year resolution
Towards realization!

Ramesh T A
Dreams And Visions To Achieve!

Honouring Mahatma Gandhi and freedom movement leaders, India gets inspiration and zealous mood of freedom once again to be bold and forward looking to achieve progress in all fields to be first in the world of nations in order to fulfil the dreams of those leaders!

On 68th Republic Day with this resolution we step on to new height to climb to the top of Everest of progress by developments in all fields to achieve self-reliance and superiority as Super Power to lead the world to peace and prosperity as one world family ever!

Corruption, terrorism and violence are the hurdles we have to surmount to go a long way of journey to the destination we have desired to reach with the cooperation and coordination of people by our sincere efforts with a broad ambition as the driving force!

Our vision, dream and desire are quite noble and high as to our long cultural tradition of history to cherish and accomplish sure!

Ramesh T A
Dreams Are Forever!

We have so many dreams at night, but we don't remember
All in the very next day morning in our day today life!
But imaginations and thoughts on imaginations pave way
For all dreams we enjoy or abhor in he nights everyday!

Dreams for all continue so forever and ever that overhauls
The mind to give hope for heart to be confident in works!
Many insoluble problems dreams give hints to find new ways
To overcome them with change in life as in romantic stories!

Not only for day today problems, but also for intellectual
Queries and scientific or artistic inventive and creative
matters, dreams serve as rich food for thoughts to get nice
Ideas to do what one has not done earlier and enjoys rapture!

Dreams are eternal as long as mind works as continuous time
Work or waves of seas that go on as long as the Earth is there!

Ramesh T A
Dreams Are The Genesis For All Acts Of Man!

All acts of man starts from the dreams and desires one love most;
Most achievements in the world are born of great dreams of man;
Man becomes superman and divine being by his aspiration by love;
Love is the greatest power that achieves anything and everything!

Everything we dream we achieve by our love and great efforts in life;
Life is an opportunity to express oneself in all one's best in the world;
World is the stage or arena for man to perform his best acts to Stardom;
Stardom makes one greatest as a Star in the Universe unique for mankind!

Mankind by evolution turns into divine ones only by love of dreams;
Dreams are the outcome of one's greatest desire one loves to achieve;
Achieve all one can, only if one has strong will and confidence ever;
Ever one accomplishes what one wills based on one's great dream sure!

Sure one will become what one dreams, feels and desires out of love;
Love with knowledge, one gets real freedom to enjoy life in bliss ever!

Ramesh T A
Dreams Of Ecstasy!

Arm over shoulder of each one, two soulmates walk  
Beautifully singing the song of love deep in motion  
Caring nothing of the world or how they attire on  
Dreaming of interior world of heaven in union firm!

Ever ready to change their position of pleasure and  
Fluttering their wings of poesy, they each enact a play  
Gloriously exploring sensuous desire directing hearts  
High up and high up, they soar to the paradise wide!

Iconoclastic they have become to create new out of old  
Joining together congenial parts of joy to form a new  
Krypton planet of supermen and superwomen in the sky  
Looking as heaven unique for them all to enjoy love long!

Mermaids and mermen from the ocean of heaven come  
Nymph like night or day delighted to see the new world  
Opening their hearts to say lovely words of song they like  
Producing beautiful symphony of excellence exotic and new!

Queens of heart join hands with kings of heart to make a pair  
Representing royal heritage in arts of pleasure they only know  
Surely to sustain in sensuous play experimenting nuances in  
Technical gestures new and novel initiating innovations for long!

Universe thriving with stars representing union of hearts ever  
Vertically and horizontally, intricately fused to form a couple  
With the world of new art vast as blue ocean to explore endless  
X and Y to make kaleidoscopic patterns colourful and beautiful!

Yearnings of all kinds getting satisfied, soulmates wander in ecstasy  
Zealously entertaining Zeus and consorts to have ecstasy in dreams!

Ramesh T A
Dreams Of Reality!

Aesthetic taste of mind generates dreams beautiful ever;
Colourful flowers growing in and around green trees, plants
And leaves develop into paradise exotic in all dreams fine!

Flying dragon flies looking like helicopter changes shape
into angels with gossamer wings hopping over beautiful beds
Of flowers where the angel queens sleeps waiting for lover!

Deep swimmers with diving suits play gymnastically in and
Over swimming pool or rivers or seas that transforms into
Angels in heaven wearing floating garments as flowers open!

Deep sea light emitting fishes of gel fish genres are a great
Wonder in reality living as in dreams make all look at them very
Much amazed in spell condition ever making man dizzy too sure!

Wish and desire of humans turn into beautiful dreams showing
Some symptoms of possible realities sooner or later in life!

Ramesh T A
Dreams Of Romance!

Romantic thoughts in Nature kindle cheerful mood to indulge in
Dreams of romance always new and interesting as in the plays of
Bard or poems of romantic poets we cherish most in heart ever!

Sans romantic ideas, where is the joy and fun in human life ever?
A great world of fantasy welcomes to the grief-stricken hearts
Of love and lovers of beauty in Nature and fair persons of world!

Romantic love indulging in joyful time in Nature hand in hand
Take one to a paradise of dream nowhere one can see in the world,
But only in the hearts and minds of lovers in the union of souls!

What a joy and pleasure such a mood of romantic dream gives, when
One in deep distress of life not knowing the way out of the abyss,
In which one has fallen by fate of bad time putting one in hell long!

Dreams of romance are a great boon to human world to recover from
the spell of hellish world in which one has to live life forever!

Ramesh T A
Dreams Of Visits To Tourist Places Have No End!

All holidays all welcome to see places all love most in one's lifetime;  
Best places of interest are hill stations, garden cities and holy shrines;  
Carefully many plan before holidays begin and pay visits to places sure;  
Doily what to see and what to skip also they decide before to enjoy better!

Every person has a dream project to fulfil before one dies in one's life;  
Finding such places to visit on holidays are many due to Computer assistance;  
Gardens, parks and dam sites located in beautiful areas are more than dreams;  
High interest in such matters there many to talk hours together anytime too!

Islands or mainland resorts are developing national economy by tourism mainly;  
Joint ventures by private and public sectors play a great role in this respect;  
Keeping abreast of latest developments in foreign countries, many invest in it;  
Long dream projects are implemented along with infrastructural developments now!

Money flows are made free by banking facilities as all are sure of big profits;  
Noteworthy developments are boating in lakes and rivers joining seas nearby.....;  
Open type garden hostels near national highways provide great facilities to all;  
People from all over the world come to such tourist places all round the year!

Quality furnishings in huge quantity are mushing everywhere to attract tourists;  
Road side advertisements invite all tourist when they enter metro cities now..;  
Streets decorated with neon lights high everywhere contain all invitations well;  
The attraction of advertisements is so much that zeal to visit places has no end!

Universities and medical hospitals have introduced educational and medical tourism;  
Various walks of life as a result have boost in activities due to beneficial interests;  
World people gathering in such developed places create interest in dreams of world union;

X and Y like enterprises are becoming prominent due to tourism development everywhere;  
Years of pending matters of dreams are getting realized in the course of time nowadays;  
Zeal of tourist development has changed the very appearance of unimportant places too now!
Dreams Of War And Peace!

Wars are going on and peace talks are also going on;
Peace and freedom how many are enjoying in the world?
They are all dreams and aspirations of many leaders;
But without wars and peace talks, they cannot rule all!

This is international political game of world politics
World leaders like to play to become popular in the
Minds and hearts of world people to get support for all
Their moves right or wrong to run full term in power...!

War and peace are correlated words in the speeches of
World leaders to make the media to project them as active
Leaders of world politics doing a lot for the promotion
Of peace while internally war mongering to pastime ever!

War, peace and freedom are all ideas of dreams all project
To become popular in the world, but never solve anything!

Ramesh T A
Dreams Sustain Life Of Natural Freshness!

Dreams sustain desire to kindle interest to do
Something worthwhile to fulfil the objective of
the most cherished dreams for prevailing peace
And love to make the world a heaven from hell!

Dreams may belong to the world of romance many
Feel and leave that contrary to reality of the
World we all struggle to maintain peace from
Hatred, violence and wars, but there is change!

Change from drudgery and insipid, artificial life
Gets a great impetus only from dreams of free will
That is the genesis of joy and blissful life as
That starts from peace and beauty of Nature ever!

Nature is the spring board to world of fantasy as
Deep blue sea and myriad spell of Universe that
Takes one to new dimension created by imagination
That gives relief, relaxation and fresh mood to life!

Ramesh T A
Dreams To Realities!

Dreams come true

If suitable idea is available

For implementation

Experience, observation, luck

Give ideas to realise dreams!

Ramesh T A
Dreams We Cherish Most!

Dreams come and go in everyday night sleeps;  
But all dreams can never be recollected ever...  
Except certain that remain in memory forever!

The dreams we remember we share with everyone;  
Such dreams may be humorous ones or may be  
Quite fantastic ones bringing a sense of joy ever!

Dreams are reflections of certain events in our life;  
They may be based on our experiences we know  
Or our own desires we like to achieve soon in life!

Dreams certainly urge us to find ways to realize  
One day or other so that that will give a sense of  
Great fulfilment in world life we wish to live ever!

One such cherished dream of mine is the creation of  
One World with the UNO as its central government!

Ramesh T A
Dreams Will Become Realities By Ideas!

Dreams, imaginations and visions are common for all ever; Dreams wild, creative and practical are frequent ones sure; Imagination builds castle in the air to get pleasure one needs; But vision on knowledge helps to have ambition to realize dreams!

What was impossible is possible and what is impossible will be Possible by getting ideas from Nature, experience and knowledge Needed to fulfil dreams of one in the world full of oppotunities Waiting for the ardent one to harness them best to win prize..!

All great dreamers have achieved them by ideas after intellectual Explorations and experiments by trial and error methods for long; Not only scientists but also litterateurs' dreams have been realized By scientific inventions later and are still being invented ever...!

Whatever be the difficulties and impossibilities today, may still be Made possible later, if dreams are not stopped just as castles in air!

Ramesh T A
Dreams!

Dreams should be based
On knowledge to have an ambition
To make achievements!

Ramesh T A
Dreams, Achievement And Greatness!

One becomes what one dreams about one's self often;
Dream of self and world kindles individual and social
Thinking to achieve great laurel in flying colours!

Many great dreams of noble men have become realities;
Aeroplane, submarines, electricity and electronics,
Their applications in war and peace developed world!

Dreams kindle vision and imagination leading to great
Ideas that are helpful to invent and discover new things
Beautiful and beneficial to all yesterday, today, ever!

Dreams when realized become achievement in the world;
Civilization and modernity are flourishing due to dreams
That have helped the creation of modern world of today!

Modern day progress is, no doubt, a great achievement of man,
But too much dependence on materialism, mars man's greatness!

Ramesh T A
Dreams, Ideas And Realities!

DREAMS, IDEAS AND REALITIES!

The title of Poetry I wrote between 1972 and 1994
And for which my name will last forever in world
All know now as Dreams, Ideas and Realities.....!

The scientist of India called as Missile man......and
Also who had worked as President of India.....and
Noted for children's education is A P J Abdul Kalam!

His message for all to come up in life and work is
Dream, dream..Thoughts, thoughts..Action, action!
Both our wish, thoughts and message are the same!

What you are is Nature's gift to you in the world....
And what you should do is to use it the best you can
So that nation, world and all live in prosperity sure!

Only when all progress, prosper and are peaceful
Humanity can live blissfully better in one world...!

Ramesh T A
Dreamy Day!

Dream or reality no one knows as the day moves on
Due to cloudy sky overwhelming all time before all
Know how the day has come to the edge of evening!

Both dawn and dusk are not visible as the day has
Passed all the stages of a day making all happening
As in a dream no one can realize how it has happened!

Such a day is wonderful to experience without all the
Processes known along the course of works being done
As it normally happens in other days of the week sure!

The thought of night and Stars with full Moon in a very
Large size to be seen as is being predicted by experts....
Making all think about that rather than the passage of time!

Though things are done as in the normal course of a day
The passage of time today is unknown as in other days!

Ramesh T A
Dusk Song Dance!

Sun singing Dusk

Sea waves dance on

In rhythm Universal!

Ramesh T A
Duty And Work!

Sun rises and sets everyday;
Moon rises and sets everyday;
Plough man ploughs the field;
Poets love to compose poems!

Some love to do duty well;
But many do only for profit.
How duty has to be done?
What do duty, work mean?

Duty is done expecting none;
Work is done expecting some.
Duty and work all have to do;
But duty, works are different!

Duty is life work for everyone;
Work is done to live life here!

Ramesh T A
E.A.R.T.H.-P.E.A.C.E.!

Every country loves peace in the world;  
All wars are domination to show power;  
Realization comes after whole destruction!  
Truth comes late but sure one day as dawn;  
However great or small, all are one kind!

Peace is the final for all games forever;  
Earth is a great playground of wars sure;  
After all wars, peace has to shine bright!  
Cause, event and result history writes ever;  
Evening sunset leads to night full of Stars!

Ramesh T A
Each Book Is One Of A Kind!

Birds are many in the world,
But each one is one of a kind!
Flowers are many in the garden,
But each one is one of a kind!

Stars are many in the Sky,
But each one is one of a kind!
Books are many in the library,
But each one is one of a kind!

Like many stars and flowers
Books are many in the world;
Each book is a star in the sky
Or each book is a flower here!

Each book is a star shining
Bright from a long distance;
Each book is a flower fragrant
With sweet smell from yonder!

Brightness, freshness, fragrance
And beauty of a flower or star
Each book has as it's one of a kind
Only a genius as God can create!

Ramesh T A
Each One's Nature Can't Be Changed!

Musicians are playing music ever
Whether ship is sailing on smooth sea
Or sinking in the deep ship for sure!

Rich man safely takes away gold and
Diamonds having kept in the safe-lock
Before jumping on the rescue boat...!

Lady runs in search of her lover in cell
Imprisoned on suspicion that he could
Have stolen the valuable of the rich man!

She takes him out of the cell by breaking
The fetter with an fire axe before they
Both jump into the sea at the last stage!

Each according to their nature perform
What they can whether ship sails or sinks!

Ramesh T A
Each One's Nature Of Love!

Multi-faced love varies from person to person in practice.
Affection is the expression of love according to one's nature
Whether one is an animal or bird or human in the world!

Whether it is a crow or elephant or crocodile or a money
One's own kid is a golden kid, though others won't accept it,
And their affection is so much that it fascinates all fellows!

Affection shown by embracing and kissing the beloved
Whether in public or in private, is unique to see and enjoy
Anywhere in the world as it is real beauty and truth sure!

Passionate love expressed by affection so unique and always
One of a kind reveals the true nature of any human being
And such a feeling is more than all gold and diamonds here!

All wealth, power and education sans love is useless and worthless
Also to rely on the whole world we all live in so far and so forth...!

Ramesh T A
Each One's Unique Nature Can't Be Changed!

Desire, devotion and interest lie on a thing
One cherishes most in heart more than anything;
That is love one has on something so insatiable
That one will not relinquish it for anything...!

Swimming, cricket, foot ball, tennis, drawing,
Singing, writing, dancing, meditating or musing
Make each and everyone have deep interest forever;
But all cannot have same interest on same thing!

Indulging in such pursuits may look to be crazy;
But love of one lies on something like that means
Nothing can change one as that gives great joy and
Satisfaction no one can forbid or restrict by anyway!

One may have great love taking bath many times in
Water falls and another one may muse in Nature, but
One cannot force another one to do the same with one
To give company against one's will in anyway ever..!

That is due to the fact that one man's food is another
Man's poison being decreed by God none can change by
Any means ever in the world life all have to respect
To have mutual coexistence honouring unity in diversity!

Ramesh T A
Earthquakes!

World is permanent

We believe but Earthquakes

Shake our foundation!

Ramesh T A
Easy French!

Bon jour

Is easy to say in French

Then merci!

Ramesh T A
Ebb And Flow Of Waves!

Night still prolonging I gaze at sea waves; 
Mesmerised by waves out of station I go; 
Physically present but mentally out I fly 
Somewhere high in star studded sky....!

From behind me I find soft touch of hand; 
It's a gentle lady's hand sure by its weight 
Making me come to this world as before 
And I resume my talk as if I am all right!

Time passes on as the night is still on its way 
To go a long way before dawn comes sure...! 
For all matters however dark there is sure 
A dawn at the other end of the tunnel soon...!

Life cannot be eternal as the continuous waves 
That ebb and flow between earth and moon!

Ramesh T A
Ebb And Flow!

The constant ebb and flow of sea waves,
The hit or miss chance of fisherman's life
All depend upon the vagaries of weather!

Going to and returning from the sea daily,
They risk their lives and women folks wait
With their eyes on their return route ever!

Good catch of fish gives greater profit by
The sales fisher women make in the market
Or they drink water to satisfy their hunger!

Life and death of sea faring fishermen for fish
Indeed cause many stories to write everyday
By the sea of tears of fisher women in their life!

Ebb and flow of sea waves like the life and death of
Fishermen are regular with the roaring sea waves..!

Ramesh T A
Economic Development Of A Nation!

Can economic development of a nation be based on
Mere economic statistics only that shows rate of
Growth and status of deficit every month of a year?

Can paper work and practical work go together ever
However hard monitoring is done to do so to make
Economic record look to be prospective by some means?

Economic development should ever go hand in had with
Social development of the people sure but never by
Paper manipulation to bring favourable result ever!

Depending on economist's skill reality cannot be ever
Changed to satisfy people and national development in
The real sense to rely on as prosperous or not sure!

Economic development of nation cannot be merely decided
On economic reports but only on people's happiness in life!

Ramesh T A
Ecstasy Of Heaven!

Poetry only has that magic
To lift one up whenever one falls down
From the abyss of agony
To the heaven of ecstasy
By poetic spirit ever!

Ramesh T A
A love of beauty is the significant ingredient in the making of an artist; Beauty is what artist always sees in everything to create beautiful art work; Constant thoughts on beauty brings beautiful dreams to enjoy in life long!

Dear ones he loves are bright beauties he harnesses as models in all expressions; Expressions of divine beauty is based on visions one has from such intimate ones; Face with bright, fair complexion appealing to one's heart starts with red lips!

Great appealing personality of a beauty is a combination of white and red ever; High personality of a person attracts immediately by such colour combination sure; In all situations, such a beauty is changeless to create attractive impression...!

Joyful smile captures all hearts to follow such a beauty despite all problems; Kiss of such a beauty is really a matter of heaven condescending to earthly state;

Love and beauty in combination kindle sensuous thoughts leading to romance in life!

Many an encounter with such a lovely beauty blooms love between two souls unknown; No one can escape from such a magic that fosters love attracted by beauty so lovely; Open love of beauty gives approval to a fortunate one by a smile miraculous in life!

Persons in love with such beauty never see situation or circumstance for union ever; Queen of love a beauty is to one who has deep loyalty towards such a wholesome soul; Resting on dreams of love with such a beauty days go unnoticed by years and decades!

Stimulation of love by kind beauty of a lady absorbs whole soul of one so high ever
That one feels life is a romantic dream to enjoy throughout one's lifetime so sure...!
Unique spell of love by beauty so wonderful that one feels angel is one's life partner!

Various colourful attire of such a beauty polishes the brightness of a diamond sure;
Wonder of heaven and paradise one feels within reach if such a beauty is one's love;
X any Y seems to be elevated to top of the world forever being in company with beauty!

Yearnings of love flared up by beauty alive ever is such that one becomes super hero;
Zeal of such a super lover of beauty creates all one's artist works as masterpieces!

Ramesh T A
Effects Of Rumours!

What can we say about people who indulge in rumours? In a hurry they jump to conclusion and spread rumours. Without proper knowledge, they infer wrongly all things And basing which they create stories about others ever!

Indulging in rumours is a pastime activity of such people having failed in their own affairs quite a longtime in life! In a sadistic way, they try to derive pleasure from doing so Only to meet with failure in this, when truth comes up!

In the meantime, the trials and tribulations people concerned Undergo are impossible to decipher and describe in words ever! Till truth comes to the fore, the nightmare they suffer is beyond Words to describe or have some diversion to have relief is rare!

These things have become common matters nowadays everywhere Whether in jobs or social forums or in politics or any institutions...! Saving oneself from such rumours seems to be a great task now Apart from making efforts to establish clean chit about oneself sure!

Ramesh T A
Efficiency The Needs Of Democracy!

Nothing worthwhile is achieved by ideological force;  
With freedom, liberty and rights only something is  
Done in the democratic countries of the world sure!

But that too is very much spoiled by bureaucratic  
Execution of programmes to achieve plans somehow  
Needing to be done sans rigour of force to people!

People and individuals are the back bone of democracy;  
If they are not honoured by bureaucratic machinery,  
There is a doubt that democracy is misused by them ever!

Politicians and bureaucrats are working in service to  
The people who are the owners of democracy and the  
Individuals are the critics checking the faults of system!

Where democracy is efficient, effective and excellent in  
Service, there only peace, prosperity and progress are sure!

Ramesh T A
Efforts On Critical Moment!

After hard efforts all day, when success smiles
How happy our hearts will be, imagine yourself!
At the critical moment, that too at an odd hour, if
We have to admit one in hospital, how would it be?

No idea will occur in mind as to how we have to do;
We take some efforts what could be possible; that too
All in a hurry with available conveyance possible....;
Fortunately, if all goes well, our efforts pay dividend!

Such a situation we have faced with all efforts possible;
We have succeeded in our efforts to do the best we can;
All have come to a good and happy ending as in a story;
Our prayers gave us faith and we proceeded well sure!

When we are uncertain, we pray and take all efforts
And carry out all things in a hurry and if all goes well,
We are sure to meet with victory at the end, but tension,
And hurry and bustle surely puts anyone in a soup long!

Ramesh T A
Ego Fights Spoil Language Progress!

What can we say about some men, who criticize you,
If you approach them in a kind way for a general
Matter and kick you, if we try to support them..?
Such men resemble the nature of donkey but not human!

Due to this kind of nature, if others bully them as
Money or donkey, they smile and behave as if nothing;
Though they have experience as a teacher to impart
Knowledge of script an old language, they do nothing!

Due to their language zeal, they never go after others
To give life to the old langue, but wait for other to
Come to them requesting for help for its promotion ever;
But influential men, have selected script not its own!

Due to ego fights between groups, a language's progress
Has been spoiled and the matter is kept on the back burner!

Ramesh T A
Election

Politician do canvass
For people to vote in election
To a candidate for section!

Ramesh T A
Election Time!

A series of elections from states to nation
Surely makes all diverted to election only!
People's power is exercised in democracy;
But now money power rules in democracy!

Now the fight is between people and money
The winner decides the fate of the nation!
Corruption is top most dominant force now;
To consolidate its power election has come!

Can corruption be eliminated by laws or will?
Civil society has to come forward to do that!
Will civil society take the lead to do its duty?
Or simply succumb to gimmicks of bureaucracy?

Elections come and people elect someone to power;
But bureaucracy dispenses duties by corruption...!

Ramesh T A
Emotion

Emotion is
Due to wish, likes,
Attachment, taste..!

Ramesh T A
End Decides All!

Intermittent rain wets all places;  
Dampness surrounds all over here;  
Even Computer fails to start today!

At last in the night it works to my joy!  
Thrills of many kinds fill everyone's life;  
Each has a story to tell everyone day.

All have less time to read all stories;  
But certain stories have long trail....  
And absorbs all for a longtime surely!

Poetic stories instantly reach all soon!  
What a magic poetry creates in nutshell!  
It has unique power to combine odds too!

Many inductive poems have I written.....;  
To my surprise all have ended touching all!

Ramesh T A
End In A Better Way!

When storm rages in the mind, some see storm in tea cup;
Destruction caused by storm leaves its mark everywhere;
It is like a war field after all killings are over long;
But destruction can never be rectified to normalcy sure!

Many years the scar left by mayhem stays to remember the
Catastrophe and talk with many about that till all subside;
Tragedy in life is like that needing time to heal the wound
To lead a new leaf of life after turning a good page again!

Demise of the beloved one is indeed a greatest loss in life;
But, when we have enjoyed everything in life, nothing is left
To long for anymore other than minding the things we are very
Much interested to do just as artist paints or hobbyist does!

Creativity inspired by new mood engages one to do the best to
Compensate the lifelong loss in some other novel way in life;
The new found joy, though only a second hand one, is the only
Best one has to be satisfied in life to see end in a better way!

Ramesh T A
End Of Exploitation Of Man!

Wrath of Nature man knows only during the times of
Cyclonic storms, earthquakes, volcanic eruptions, tsunamis
And forgets to indulge in exploitation of natural resources!

Man's attitude has not changed seeing the avocs caused by
Natural calamities caused by man's mindless exploitation of
Natural resources to achieve great laurels in material world!

In technology, trade and money only man's mind works much
Consuming raw materials taking from natural resources sans
Thought on recycling them for continued use and preservation!

He takes out fuels from natural resources to produce energy to
Run all kinds of machines to carry out all operations to produce
All kinds of materials for various purposes forgetting future needs!

By doing so, he forgets about food producing fields and pure water
Resources to end one day in acute need of them sans resource further!

Ramesh T A
End Of Journey!

End of journey comes for everyone sure
After a journey has been started already!
No one can neglect this reality in the long
And busy journey of all in this world ever!

One should be ready to pack up things
To get down from the train saying to all
A Goodbye warm and friendly wishing
Them to have a nice journey till the end!

Afterwards nobody knows about their
Train friends and mind one's own task
Immediately to go out of the station to
The home one belongs to at last, of all..!

This is the end of journey programme for
All who travel a long or short distance....!

Ramesh T A
End Of Life!

Pain increases on and on

When body weakens day by day

To the end of life!

Ramesh T A
All storms and rains making their contributions have gone away sure;
Balance of winter with mists, fogs and dew drops falling, days go on;
Closing time for the old year is nearing, all think of New Year now;
Day ending the year and day beginning New Year are well mused over!

Everyone is in holiday mood to go to places of interests in groups;
Full of fun and joy all want to enjoy with dear friends nowadays;
Groups try to go to holy shrines, tourist resorts and so on now;
High spirit reviving romantic mood among youths all plan new ideas!

Initiating best programmes to implement with joyful things all see of
Joining dear friends and well-wishers for a grand celebration sure;
Keeping in touch with previous fellows to form a better group this time,
Lovely persons are contacted with invitations to join for the celebration!

Morning and evening more than usual work, all think and make plans now;
New Year seems likely to bring new enthusiasm better than previous years;
Old and young with bright eyes wide open all dream of great fun this time;
Particularly at the end and beginning of the years such things come up!

Quite a joyful moments this time seem to be in store to put all in surprise;
Remembering best times spent earlier, this time they want still more better;
Sun shining bright clearing clouds and mists nowadays, it is pleasant now;
Thoughts, ideas, imaginations and dreams are full of novel things to see...!

Universe full of Stars twinkling, year end and beginning will see bonfires
Verily resembling the winking Stars above with all wondering like children,
When all see for the first time burning sparklers or pot fires burning high!

X and Y will not be exceptions, but one among the group to enjoy fun after
Years of monotony only seen in all things of life and so, nothing to say of
Zeal they are going to show more than who enjoyed such things before long!

Ramesh T A
Rain has stopped and clouds have cleared in the Sky;
Sun has come up and the day has become very bright...!
Rain has left the fields filled with water everywhere;
Great lakes around the metro city are brimful of water!

When I have woken up from middle berth of train and
Opened the coach door, fresh beauty of Nature welcomes
With all the scenes I see before me with cool air fine
And search for words to express my joy I feel, friends!

One more hour is there to reach my journey's end in train;
All are slowly waking up from night long slumber in train;
But I stand on near the door relishing in the changing
Colours of Nature's beauty, a wonderful sight to see in morn!

Reaching the station and getting down the train I see people
Hurrying to and fro in the railway station in accordance to
The mechanical way of metro life as usual in the material world
We all have embraced relinquishing natural life by modernity...!

Ramesh T A
End Of Violence Need Of Hour!

Love increases the company of loving hearts;
But force decreases the companions in life;
Terrorism eliminates all good relations ever;
Only humanism can save mankind by love sure!

Radical bigots never get the favour of their
Own men of base religion as time moves on...!
Only by good reforms in old religion can help...
The followers of that creed from those bigots!

Caught between old and obsolete religion and
The diktats of radical bigots they face the
General hatred and wrath of all people of all
Creeds in the world driven the brink of big war!

It's time they eradicate radical bigots doing
Havoc through handful of miscreants in the world!
Otherwise, they all lose the favour of other ones
Who are tolerating them and their obsolete nonsense!

Ramesh T A
End Of Winter Comes Spring And Summer!

Day has ended with day's heat still on
Alleviating the cold season's effect now
At last hinting at the coming of Summer
Sooner or later by the end of March sure!

All things now sounds alliterative as in
Fine poetry we all love to read and listen,
If it is recited by able voiced persons ever
Videoed and published on websites special!

What a change of climate for the better is now
Making all heave a sigh relief from bitter cold
Winter of several months ago ruthlessly hitting
All people's lives all over the world so long....!

With the end of Winter comes Spring and
Also Summer next to make all look better
With hope and joy to go ahead with great
Efforts to accomplish all what all wish to...!

Ramesh T A
End To The Repetition Of History!

Ideological differences had led to cold war after second world war;
Communism and capitalism had dived the world into two blocs;
USA and USSR led that war leading the two blocs for four decades;
Wars in Vietnam, Iraq, Afghanistan, Israel and Palestine did change
The world situation to a great extent in ousting out the weak side...!

Nazism, communism and socialism have gone away in all places!
Science and technology along with trade competition has replaced all;
Civilization has replaced culture modernizing the world everywhere;
But the changeless religious fanaticism with its radical bigotry has now
Become a big threat to world peace attacking both sides as virus do ever!

Extremism turned terrorism previously fostered by one to oust the other
First in Afghanistan aided by Pakistan is doing havoc in India, Syria,
Iraq, Turkey and all over Europe after the twin towers attack in New York
Making Pakistan as the epicentre of terrorism for the whole world that Pak Govt. is taking advantage unknowing its downfall as great threat to all ever!

Now the situation is that if terrorism is not eliminated by the joint ventures of
All nations of the world under the aegis of United Nations Organization, surely
The terrorists under the guise of refugees will infiltrate in every nation to do havoc
To the destruction of whole world underscroing the imperative that on war-footing
All nations should unite to bring an end to terror war in the world for peace forever!

Ramesh T A
Endless Suffering!

The coming of dark clouds and falling of rains, what a joy
They bring with the coming of South-West Monsoon in India!
Monsoon rains are the source for water for the whole year
For irrigation of fields and for drinking water for whole nation!

Source of rich growth of crops is the Monsoon in summer
And also in winter that facilitate supply of rain water for all!
This is how the prosperity of the nation is seen by all sans
Doubt, but economist see through the lens of technology!

But father of the nation has said realizing the truth by his
Own experience that India lives in her villages very clearly!
There is no doubt about it even today, if any man of common
Sense will agree sans any hesitation, educated or not sure!

In spite of this naked reality, economic experts say otherwise
Sans bothering about the plights of farmers suffering ever.....!

Ramesh T A
Endless Views Of Art!

All great works of art by famous world artists
Still look to be needing a lot to think about to say
Decisively what they have thought before making
Such wonder in their field for all to browse over!

Picture of Monalisa by Leonardo Da Vinci is one,
Of all pictures, still many say many views about it;
Yet. those views are all not enough to say definitely
What the enigmatic smile speaks to the viewers ever!

The poem, Grecian Urn by John Keats is another one,
Of all poems, still many say many things about his
Famous quotation 'Beauty is truth - Truth beauty; '
Yet, there is no end for criticisms and opinions ever!

That poet's another famous line, 'A thing of beauty is
A joy forever! ' is what all enjoy engrossed in art ever!

Ramesh T A
Ends And Means!

Everyday we wake to see bad world news -
Earthquakes in Japan, Mexico, bomb attacks
In France, Lebanon and in the middle East!

Terrorizing civilized world will they achieve
Anything worthwhile for long in the world
To be appreciated by any or all any-time...?

No! Not at all! Terrorist attacks are cowardice
And show only their failures and frustrations
Unable to coup with the progress of civilization!

Attachment to old reformless religion sans love
Towards humanity but indulging in violence
To achieve their bad end will end in big failure!

To achieve success in the end, the means followed
Should be good, worthy and universally acceptable!

Ramesh T A
Energizing Dreams On Birthdays!

Past life looks like a dream!  
Present one is going fast....;  
This will be history in future!

Many dreams we have in life;  
In our birthdays we talk all..;  
But realizing dreams is great!

Achievement or not, we cherish  
In memory all dreams and muse  
To make them realities later....!

Vision based on knowledge sure  
Gives us ambition, which is really  
A driving force of life to do all...!

All birthdays are interesting sure...  
Musing on dreams to energize one!

Ramesh T A
Energy As Power God Sustains All!

Energy can neither be created  
Nor destroyed ever says science;  
Energy is power that activates  
Matter anywhere in the world;  
God is such a great power that  
Has no beginning and no end ever!

From energy matter is produced that  
Ends as energy when destroyed sure;  
God as spiritual energy gives power  
For all beings to function in life;  
When our purpose is fulfilled again  
Spirit within departs to Universal one!

The cycle of appearance, sustenance and  
Departure takes place for all matters;  
In that way, the circulation of energy  
Like the blood does inside our body  
Sustains life till the earmarked time  
Only to start from energy and end there!

Ramesh T A
Energy As Power Sustains Ever!

Energy can neither be created
Nor destroyed ever says science;
Energy is power that activates
Matter anywhere in the world;
God is such a great power that
Has no beginning and no end ever!

From energy matter is produced that
Ends as energy when destroyed sure;
God as spiritual energy gives power
For all beings to function in life;
When our purpose is fulfilled again
Spirit within departs to Universal one!

The cycle of appearance, sustenance and
Departure takes place for all matters;
In that way, the circulation of energy
Like the blood does inside our body
Sustains life till the earmarked time
Only to start from energy and end there!

Ramesh T A
All things cannot remain in this world forever;  
They are all time bound matters including Earth;  
Even the Sun will diminish and die one day sure  
As all things are just like use and throw things!

Changes take place for a final state of nonentity  
And the state of nothingness of energy is eternal;  
Not the matters animate and inanimate that remain  
For eternity but only the energy lasts for eternity!

All things are active as long as spirit within is,  
Sans spirit, they can't last for eternity as they  
All are finite in nature formed out of energy that  
Again takes the form of energy to have eternity..!

Things formed out of energy are finite and unstable  
And have completion only in their original state of  
Energy which cannot be created nor destroyed in the  
Universe as it's a part of Universal spiritual energy!

Ramesh T A
Enigmatic Spiritualism!

Many philosophers have taken asylum
And their influence is guiding all here,
They say to all tourists who come here.

An ashram is well established too here,
Where yoga and spiritual exercises too
Are taught to many residing in there!

Those are the people who live there
For long without any contact with all
Outside their domain in this small town!

Their master yogi's philosophy they all
Read and muse over long and yet not
Able to explain in a simple way to any!

By self realization only, they say, the light can
Be Known and spiritually all get enlightenment!

Ramesh T A
Enjoy All Pleasures To Be Happy In Life!

Life is not to suffer ever but to enjoy sure;
If we suffer, fear and cry, nothing will change;
So, let us enjoy all pleasures to be joyful ever!

Animal pleasure or boyish pleasure all have enjoyed;
From the childhood to boyhood we enjoy this pleasure;
At that time no one knows good, bad and ugly in life!

Only when sense of beauty, truth and goodness develops,
We go for all beauties we see everywhere to enjoy great
Pleasure and become a romantic poet or artist to create!

Beautiful things have attraction ever to all in the world;
Bad things, ugly happenings and tyranny all oppose sure;
Philosophical mood develops to analyze all to know truth;

Knowing intellectual truth gives mystical mood to Seek the
Bosom of Nature in all its beauty to enjoy mystical pleasure!

Ramesh T A
Enjoy Life In Romantic Mood Ever!

Money in the hands of fool is a farce!
Knowledge sans money makes one wise!
This fantastic life is romantic if you will!

All hustle and bustle are for satisfaction
That man strives all his life to achieve...!

First satisfaction in education is a must;
Then satisfaction in suitable job is needed;
Then satisfaction in life is very much needed!

Without satisfaction only frustration comes
Whatever one sees, hears and lives in the world!
So, what is important see first and achieve it
So that life can go on whatever be the situation is!

If you dig deep you will see only skeletons aplenty;
See superficially and enjoy life in romantic mood ever!

Ramesh T A
Enjoy Life!

Brisk walking in chill wind warms body!
It's thrilling to do so in the beach long
While dashing waves to shore act fast!

It's a competition between man and Nature!
This competition goes on long forever....!
Who is the winner of the two? Immaterial!

The thrill and joy of participation go on....
Stimulating interest as children enjoy in game,
An experience that makes young old too sure!

Life without thrill and joy is worthless to live!
After all we are for joy to continue till the end
Whether life is long or short in the journey of world!

Enjoyment is what matters more than matter
We don't give importance in life old or young ever!

Ramesh T A
Enjoy Natural Life!

In this silent night, only sound of...
steady drops' fall of rain are heard!
This monsoon rain fall, though has come
Late, is enjoyable to see in loneliness!

No one pays any attention to Nature, its
Beauty in the evening sky and now the
Silent night rain fall as all are only
For their work and rest not enjoyment!

Mechanical way of life is quite contrary
To natural way of life where one can have
Time to mind how Nature behaves and how
The rhythm of its music is enjoyable ever!

Life is not for just working and sleeping
In time and that has no lesson to learn!

Ramesh T A
Enjoy Natural Love Life In This Beautiful World!

Even though man wants to excel Nature, he is weather bound ever;
In hot weather, he wears thin dress or even wants to be dress-less;
In cold weather, he is forced to wear thick dress to overcome cold!

Whatever man does in this world, he cannot escape from Nature's design;
Nature rules his heart, mind and soul as long as he lives in the world;
No knowledge, other tricks and all can save him from that dictum ever!

No one can escape from hardships and no one can avoid fortunate moments;
That is why all have to work while work and play while play in life ever;
That is the way all can be happy and gay to live life in this world sure!

Day and night are Nature's design we cannot change ever by our technology;
Even love we hold high is only a painful pleasure all experience in life;
Without pain nothing can be gained in our world life and is natural law!

Living in harmony with Nature sans polluting and destroying natural resources,
We all can live as kings and queens enjoying love life in this beautiful world!

Ramesh T A
Enjoying In Summer Weather Of Life!

Conviction based on knowledge and intellect is great, 
Whereas obsession based on imagination is misleading. 
Clash between the two will become fight on suspicion 
Needing proof to make their positions correct forever!

Certain things can be proved and certain things can't be; 
Only by experience and passage of time doubts can be 
Cleared and trust can be established between the two sure 
To make the wheel of chariot go on smoothly in life ever!

Otherwise, there will be ups and downs going on the path 
Of up and down hill road to the reach the top of of a town 
To see the full and whole view of the place to know the truth 
And enjoy the beautiful scenery with peace and satisfaction!

Enjoying the cool climate of a hill station is possible only on 
The season time to overcome the hot Summer weather ever!

Ramesh T A
Enjoyment Of Love Is Better Than Wealth In Life!

Life enjoyed with love earlier can't be done so at old age;
But love remains the same between soul mates of life ever;
Knowing this fact, it is better come together to terms for
Small matters of dispute and cherish love for the joy of all!

Time lost can't be regained ever and today's world won't come
Again tomorrow to put one in joy and pleasure by love rare;
Best thing to do is cherish love of good heart with respect
And treat with gentleness as one does with fragrant flower!

Loving souls of rare breed that do all things with beauty
And care have no match in the world, even if wealth is there;
Love of all people earned is more than all wealth one has
And that only take care of one at the critical time in life!

Enjoyment of love more than wealth one longs for in life is
Best time spent in the world that cheers one forever later on!

Ramesh T A
Enlightenment Leads To Total Liberation Finally!

When faith itself is bugged down in quagmire and all
Hopes in religion and politics go away, man in despair
Philosophically thinks over the cause, reason and truth
To find a solution to free oneself to live natural life!

Meditation relieves one of tension and frees one's sense,
Mind, heart and spirit as if a door is opened in space
And brightness is everywhere seen where once darkness was
Making one feel a great relief and freedom in enlightenment!

Solution for problems by such exploration dawns in mind that
Frees heart's heaviness and relives spirit to feel light and
To live a natural life and go on a new path quite wise and
Bold with the light of wisdom is enlightened one achieves so!

Enlightenment is a state of attainment of wisdom to live a
Natural life with freedom and love to enjoy bliss to soar high
In sublimity towards reaching total liberation from all bonds
In a sense of divinity all dream to achieve finally in life!

Ramesh T A
Enmity End Of War And Fraternity End Of Game!

Clash of soldiers in war is hell going on there;  
Clash of sportsmen in a game is a heavenly venture;  
Winner and loser shake hand at the end of game;  
But it is not so at the end of war but cries more!

All nations are participating in world football game;  
The craze for football is so much after cricket game;  
Brazil, Argentina, France, Germany, Spain and Russia  
Have a tough time to win just as in war sans life loss!

Games start with challenge to win by sportsmen ever;  
Wars start with weapons sans any guarantee for victory  
In the modern world as wars continue one after the other  
Without an end unlike in games with an end and victory!

In games, there is no loss of lives unlike in wars ever;  
In wars, there is only losses of lives on both sides sure;  
Also, wars end temporarily in enmity and revenges to take;  
But end of games fosters friendship and fraternity only!

Ramesh T A
Enthusiasm High And Heavenly!

High up on the mountains among green meadows
Breathing fresh and free air one can feel as a new
And highly spirited being born to do great miracle!

Such a feeling comes upon one when alone among
The panoramic scenery of grande Nature on the
High and top of the world elated with high ideas...!

With an highly inspired spirit the words flow in
Cascade direct from the heart like the spring water
From the fountain to spray over grass as rain from sky!

What a flow of words that come in joy blissful among
The fresh atmosphere in Nature high up the mountains
Making one dance with joy of no bounds can describe!

Such a wonder nowhere else one can enjoy and feel with
Full of enthusiasm and mood high and heavenly in there!

Ramesh T A
Eradicating Terrorism For World Peace!

Terrorists are collecting funds in the name of religion
From nations that are opposing terrorism in the world!
A Super Power too has been aiding a nation to forbid
Terrorism not knowing it's indirectly helping terrorism!

After many, many years only, that Super Power has realized
That its billions of dollars given as aid is biggest and
Useless foolish act of late and decided to stop aids ever;
Now only, the fang of the poisonous snake is being removed!

Just waging war long as in Vietnam is not going to eliminate
Terrorism from the world, but has to be done intelligently;
That is the way root of terrorism can be pulled out from
The ground for putting an end to wars, violence for peace!

Hard core radical religious bigots should be understood by
The people supporting all in the name of religion anywhere;
Their huge support in the war on terrorism only can be of
Much help to eradicate terrorism for promoting world peace!

Ramesh T A
Erotica Nature For Fruition!

Dream of Gandharva scene of sensuous play
Stimulates passion high to indulge in erotica
Whatever be the time and situation ever!

Passion never sees any danger what so ever
If it possesses lovers of deep passion entwined
To the core never to be separated by any force!

Lasting act of sensuous feast till saturated
Where is the pause in the game of love ever
In the whole of Erotica History of the world?

Venus or Medea or Maneka or Rambha or Urvasie
Born for love never leave once cast they their spell
On mortal lovers Europe or Himalayas on Earth!

Act of Nature perpetuates sensuous pleasure to all
By overwhelming beauty only for fruition in life!

Ramesh T A
Eschew Evil Chewing Love!

Life in the world has many colours beautiful, bright and best
To enjoy love and peace not only in festival of colours but ever!
In fact festival of colours reminds all of love and frinedship
And brings together all people to enjoy love in colours of joy!

Fun in the beginning takes all kinds of people to laugh and feel
Joy to be one among all loving souls to celebrate colour festival!
What a sense of joy union of people in colour festival brings to
Unite as humans, friends, kith and kin shunning evil to goodness!

Enjoying this festival takes all together to the world of heaven
And paradise on the beautiful and beloved Earth in colours of fun!
Dancing and smearing water colours among all, all forget all hues of
Differences and become one community of humans as gateway to peace!

Eschewing evil by chewing love all smear colours of all kinds making
All humans look alike sans individual identity and ego to be so ever!

Ramesh T A
Essence Of Emotion Is Feelings!

Essence of emotion is feelings expressed in various ways
By human heart in the course of life in the world society;
Mainly, the feelings we know are expressed as passion, fear,
Anger, hatred, jealousy, courage, love, mercy and lust ever!

Feelings of emotion are the cause for all acts of human in
The world that make humans happy, sad, cool or fulfilled;
Emotion is the natural expression of human heart responsible
For one's high stature or low status in all one does forever!

Unless this emotional outburst is controlled, one cannot be
Called as a developed human but only to be listed with beasts;
But sans emotion, no one can be called as human, but something
In between animal and man based on one's attitude and aptitude!

Diversion of one's adverse emotional feeling by rationality
Makes one win over human petty nature to higher nature, which
Is possible by channelizing one's emotion in arts, Nature or
Literature to understand human being to works towards divinity!

Ramesh T A
Essence Of Man's Best, Great And Noble Ideas Is Book!

Philosophical analysis of any matter reveals truth brightening mind; 
Mind helps to explore anything by thoughts, ideas, visions and dreams; 
Dreams based on intellectual knowledge lead to increase of intuition; 
Intuition is for man of world what instinct of animals of forest is ever!

Ever the pursuit of truth intellect cannot lose to live a free life; 
Life matters of human or other species are a great mystery for all; 
All observations, experience and knowledge are grist in the mill of mind; 
Mind is a boon for man that decides the course of life of man in the world;

World full of beauty, love, life, joy and freedom is heaven and hell in one; 
One of the two is all the making of mind based on one's own experience sure; 
Sure can be one if one knows truth of all matter by intellectual knowledge; 
Knowledge is power and virtue for man encouraged by the inspiration of love!

Love of beauty, truth in Nature and art man expresses in articles and poetry; 
Poetry is the essence of one's full capacity expressed in brief as a gem...; 
Gen of wisdom is created with all best, and noble ideas of one as a book...; 
Book is the final place for all to seek all one needs to know to rise high..!

Ramesh T A
Eternal Human Attraction By Beauty!

Beauty kindles attraction, desire and attachment as part of love
Feeling to one to have fulfilment in union with the one of desire!
Beauty is the cause for the desire of love for many humans ever
Besides kindness, favouritism and fondness kindling love in all!

Natural attraction by beauty causes one fall in the web of desire;
That may be lust or infatuation or fascination or genuine love too!
Desire to have the loved one in union is the urge that starts all
Kinds of affairs between two persons whether it's success or failure!

Human life and in fact, the life of all living beings revolves round
This attraction by beauty that causes love at first sight or first
Lust or whatever it is towards each other designed by Nature and it's
How life sustains in the paradise of our Earth since a long, long time!

Naturally beauty and love are the asset of this Earth that makes all
Get involved in this spell of attraction causing desire to do all things
Good and bad in the name of love or lust which no one escape till the
End of time in the world we all live in the past, present and forever!

Ramesh T A
Eternal Life!

Eternal Life!

Our life is like a dream going on in the world;
Eternal sleep is the end for this dream life ever;
All glorious or disgraceful things meet with death;
There is no change and no one can escape it!

Only noble deeds remain eternal to tell one's name;
Those deeds only make one's ideas live forever;
School, college, temple, hospital, history, literature
Stay long for all to benefit by them praising creators!

Ideas of such great ones give life to them even after
They have physically deceased but get the chance
To live in the hearts and minds of people who have
Received benefits from their great ideas and deeds!

History and literature have a special place for each and
Every greats for their best deeds they have done here!
For other selfish souls, there is no one to think about them
From the very moment they leave this Earth to nowhere!

Ramesh T A
Eternal Love Spirit!

Many dames came in my life!

But my heart never turned on anyone!

After four decades I saw one of them;

Her beauty and innocence have not faded!

Though Old she is even now exquisite!

Can the romantic time turn once again?

Can the youth come back to celebrate love?

Does love need only youth to give company?

No, love is ageless and romance is forever!

Old or young the zeal of love is eternal;

The body becomes old but memory is still young;

The spirit never becomes old and dies soon!

Never say never again love will revive!
Live and let die never fosters love!

Ramesh T A
Eternal Love!

Joy of living continues by care of love
Without which life is dull or hell here!
Intimate game of love enthuses interest
To live longer than before ever sure!

Care of love never leaves one in despair
Kindling creativity to go on endless in fun!
Love of inspiring creations amazes novices
To know art of works better before start!

Can there be a better one than love in life
That inspires infinite creations in literature?
Greatness of love generated on Earth long
Is a great wonder in Universe awesome ever!

No beginning and end for love is sufficient
As love aspires for perfection by experiments!
Eternal nature of love inspires mankind ever
And sustains all beings as Nature, art and poetry!

Ramesh T A
Eternal Natural Joy!

Smiling faces of flowers invite me to Nature, when I am out of mood in life; Broad blue sea and wide open blue sky relieve me of from tension; Green pastures and fruits of trees make me dance singing happy song; What a pleasure Nature offers to one to have diversion from all ills of society!

Eternal beauty and love of Nature are a great wonder of the world all Cannot fail to enjoy unless one is materially bound by luxury of wealth; When best things are freely available in Nature, what is the need to seek Comforts one wants that are costly and artificial in character for man ever?

Living in technological world dictated by time one is fixed in big competitions That may bring laurels after making victories for sometime, but they all Make one live like machines among such ones to lead only mechanical life Which makes one fed up with boredom needing interesting avenue to go on!

Only in natural life, one can be free from all bondage tied to one luring towards An El Dorado that is a mirage having no limit unless one realizes it sure!

Ramesh T A
Eternal Pleasure Of Love!

Love is as eternal as spirit of body;
Spirit lasts longer than body ever!
Spirit is the power that runs body
As love is the driving force of life!

Spiritual love of being is real in life
And reliable eternally on and on...!
Grief doesn't engulf spiritual love
As bodily love does with pain ever!

Pain, pleasure, hot and cold we feel
By the body we are imprisoned in!
Spiritual freedom from body gives
Real liberation or nirvana ultimately!

Love of spirit in body never dies at all,
Never gives pain but only pleasure ever!

Ramesh T A
Eternal Truth Through Nature!

Love of beauty in Nature, naturally makes one express
Ideas in poems that make great masterpieces for poets
Like William Wordsworth, John Keats and Emerson sure!

Starting from love of beauty of Nature to mystical
Experiences long in Nature has made them great poets
Immortal and the world can never forget their feats!

The inspiration and influence of Nature is so much
That no one can escape from its spell until they all
Express the heartfelt notions for all to share ever!

I being a simple poet who has become a continuous
Contributor of poems to poetry websites mainly under
The influence of Nature feel much indebted to them..!

God influences artists, poets, philosophers and scientists
Through Nature to express ideas of eternal truth to all..!

Ramesh T A
Eternl Bliss Of A Poet!

Whatever things I think I express in verse;
Verse flow with words as a gentle river....!

River of thoughts starting from hill go smooth;
Smooth motion lulls heart till it reaches sea!

Sea is the final stage of Earth for all beings;
Beings of all kinds have a final rest there sure!

Sure it is one day all seek that abode of divinity;
Divinity is everywhere in Nature with end there!

There is all pervading Almighty in blissful peace;
Peace is the final prize one gets for all one's deeds!

Deeds of one's dreams do have a special place;
Place for them is reserved in the hearts all people!

People are the life givers of all thoughts of poet;
Poet even after death lives eternally there in bliss!

Ramesh T A
Even Human Can Become Divine!

Love is the cause for prosperity, progress and the pursuit of the ultimate; 
Sans love one will be in oblivion unknowing the origin and the horizon ever; 
Love to know the beginning and the ultimate has given the knowledge of life; 
Love and knowledge give real freedom to enjoy life with satisfaction and peace!

Love of beauty kindles interest to create art to express feelings, thoughts and ideas; 
Love of knowledge kindles mind to know truth and ultimate truth of life ever; 
Love of freedom only gives free perception to feel, experience, think, have conception; 
Love of life only helps all to venture on new ideas, to discover, invent and create all!

Nature is the creation of God to give the ideas of beauty, love and life to all ever;

Love from mother only has given hope and confidence to all to go ahead in life; 
Love from father has inspired all learn knowledge and training to do what we like; 
Love from teacher has given the source of knowledge to explore and know to master all!

Love from God passed on to all through Nature, parents and teacher has developed 
Human nature to explore mystically in Nature to acquire divine nature to be a divine finally!

Ramesh T A
Even If It Doesn't...!

Everyday offers a fresh beginning to do best by one
In the art or science one longs to achieve in the world!
But doing so in a perfect fashion is not within one's
Reach however best one tries in one's field of work!

Hard work will never go waste, even if it doesn't click
Well to the satisfaction of the doer for long sure...;
But daily practice of art will surely make one an expert
To achieve a masterpiece one day, no doubt, in one's life!

This kind of thing happens even to poets of great interest
Who do all sorts of things to achieve greatness in the art;
But the pleasure of composing poems makes them forget, even
If they don't create a masterpiece even after a longtime..!

The name of a well versed poet is prominent in everyone's
Heart and that will be a great achievement won't be easy
For all to achieve in one's lifetime in this world that
Never praises genuine works for long, but finally sure..!

Ramesh T A
Even To Give Alms, Scrutinize Receiver Well Before!

Inspiring model finally earns only jealousy men
In competition with him to excel and destroy him;
Until then, he has red carpet welcome everywhere
For getting ideas to develop and come up in life!

There is a saying that even if you give alms, well
scrutinize the receiver before benefiting one sure!
Not only that, even God fails, if He gives boon to a
Wrong one, because the receiver will first test on Him!

This respect, flattery, prayer and all are only outward
Show to make the benefactor believe him to be genuine;
Once after receiving the benefit, faithless one sans
Any gratitude only tries to desecrates the godly one!

Angels and demons in human forms are everywhere in
the world that one has to ascertain before benefiting
One, even if one happens to be a beggar in the human
Society needing cleansing to avoid benefiting sinner!

Ramesh T A
Evening Drama Of Nature!

Evening Drama of Nature!

Evening filled with orange clouds on green-blue Sky
Simply sways heart to muse long till all disappears
To darkness of night waiting for Stars to come up!

All birds' sounds are no more heard as day is over;
As last flight in the air, white storks fly to South
Nonstop over the dark Sea reflecting the Sky now!

Cool breeze gives solace after a hot day's travail;
Balancing act of Nature is sure a soothing balm
That alleviates internal pain without fail sooner!

Making a sigh of relief for all looking up at the sky,
The magic of winking Stars kindles smiles on all...
And brings back romantic mood from leave long!

What a magic all things change incredibly well...,
When the scene of Nature changes as in a drama!

Ramesh T A
Evening Mist!

Wide blue sky
With no clouds is symptom of
Evening mist!

Ramesh T A
Evening Splendour!

Splendour of evening
Everyday it is not the same
Though looks the same!

Ramesh T A
Event Management!

Alternate thoughts brainstorming long in mind
Before the day of deadline comes tension starts
Causing nightmares endless till the thing is done!

Day of incidence surely looms large to deal all
Efforts carefully made to make it fine before all
Fear, yet, holds till the job at hand is done well!

Good moves from beginning to end will be nice
High thoughts of all arrangements musing on
Ice broken at last will give a sense of relief sure!

Jack of all trade will know how to deal all odds
Killing fear of all kinds ever hindering on the way
Like precautionary experts dealing matters ever!

Many a hurdle have to be dealt with before hand
No matter however careful one arranges all intact
Offset things crop up to test one's calibre nonetheless!

People minutely watch all discrepancies to comment
Questioning unnecessary things based on doubts silly
Rolling down nicely piled packs to create chaos somehow!

Seldom they know wisdom of event managers deal all
That threaten now and then in-between main event
Upsetting the apple cart under the shadow of stage!

Victory of the programme surely ends all tussles finally
Watcher of event's manipulation done cleverly all the way
Xerox of usual boisterous blemish vanes faster than ever!

Yearnings of event designer getting completely fulfilled
Zealous efforts of all concerned get a great boost at last!

Ramesh T A
Ever Lasting Peace!

The pleasure people enjoy shows their nature sure.... Whether they are emotional or intellectual or spiritual!

Animal pleasure is physical quite raw and rough usually Children play or childish or childlike ones play ever....!

Lovers of beauty enjoy aesthetic pleasure in Nature often To attain peace of mind and pass time to regain mood!

Philosophizing over things of social ills, some try to see Truth and find a relief by intellectual pleasure to normalcy!

Experiencing all odds of life, both sorrow and humour, some Seek spiritual pleasure in Nature to forget all to get peace..!

Of all pleasures, getting peace of mind by indulging in deep Aestheticism, a mystic enjoys spiritual pleasure quite divine!

Seeing, hearing, smelling, tasting and feeling divinity in the Beauty of Nature, one can enjoy real bliss everlasting in peace!

Ramesh T A
Everlasting Joy From Interesting Works!

Interest is more important than material prospect;
Seeing in terms of material benefit only at the cost
Of interest makes one's life choice-less and useless!

Doing things of interest makes one happy and nice;
Interesting job brings joy, satisfaction and pride in life
More than a monotonous job that fetches a lot of money!

Studying a course of education that provides lucrative job
Can never satisfy one's heart interested in some course that
Develops creativity to do things that bring everlasting joy!

For a writer, who gets joy in poetry, never likes to indulge
In other forms of literature like writing essays or short
Stories or novels as they make one tedious or uninteresting!

Poetry is a thing of beauty that brings joy everlasting unlike
Works of art quite lucrative for a short while but not for long!

Ramesh T A
Evolution Can't Be Superseded By Revolution For Good!

Difficulties, worries and woes are due to unsuitable jobs and Uncertain life in the modern material world of civilization; So, all work in competition with time from morn till night until Settling on the bed for night rest to continue the same next day!

This is the nature of mechanical life all lead with no rest and Peace of mind till retirement comes and feel scary to spend rest Of life time in uneasiness and as a lunatic till the end comes Unless one has interest in art, Nature and spiritual matters..!

Being the manifestation of Nature, men and women are designed to Live natural life sans making revolutionary moves to be as each Wants against the natural course of life all are destined to live Making it necessary for all to live life in harmony with Nature..!

Man is in the next stage of animal with mind and intelligence Before becoming divine being to have a completion of life cycle; This is the design of natural evolution and course to be followed That man has to realize and change course to live natural life..!

Ramesh T A
Excellence Is A Product Of Hard Work!

A mind full of ideas only can think of achieving excellence
In any field one aspires to do remarkable thing in the world;
Dreams only generate ideas to such an active mind of a person
To realize all dreams one day or other in the world of chances!

To achieve excellence in anything, first knowledge is the need;
A vision based on whole knowledge helps to fix a broad ambition
That always helps as driving force to move ahead in one's venture;
With experience and ideas one makes strides by intelligent moves!

Every step moved in the chess like competition of the world with
Intelligent ideas surely paves the way to achieving excellence
By efforts based on ingenious techniques to see works are done
With efficiency, effectiveness and suitable efforts to completion!

Excellence is not an easy joke, if one has such an aspiration as
That needs, ideas, intelligent efforts and alert mind in works..!

Ramesh T A
Exchange Of Information Is Vital!

Based on the opinion of reliable persons only
Vital decisions are made any matter in life;
Without good and healthy social movement, all
Marriages cannot be lasting in love and peace;
For that, exchange of information is necessary
At critical moment for taking vital decision;
If such a thing is neglected by reliable persons,
Wrong choice is made in marriage alliance ever!
After spending a lot of money on marriage, if
The couple goes for divorce, disintegration of
Community will take place leading to it destruction!
Then again searching for bride and bridegroom is
A tedious job for both sides and if good alliance is
Not possible, faith in marriage will be lost ever!

Ramesh T A
Execution Of All Is Unknown Ever!

Legendary persons have a permanent place in the hearts of men; But no one can have permanent life in this human world of us! Nobody knows when the gate will open for one for the other world; So, we have to be ready for the soul's journey at any moment sure!

Our confidence based on whole vision of life has no guarantee That who will survive and who will pass away at what moment; The confdent one overtakes the weak and meek one making all Fools as that is the reply of the Almighty to the precious dust!

Yes, we are all after all quintessence of precious dust only; With all our faculties of brain and will power supported by the Scientific and technological equipments we are nothing before Nature established by the Almighty who controls all by Fate...!

Whether we are intellectuals or atheists or whatever thing, We cannot overcome Nature and Fate by our body strength, Mental ability and will power before Almighty's decree that Surely is being executed at an unexpected hour of our life!

Ramesh T A
Expectations And Reactions!

We do so many things for everyone to please others
And at the same time to satisfy ourselves usually;
We do certain things with our whole heart believing
There will be good response according to our wish!

But in reality, contrary to our expectation happens;
The surprising thing is, when we feel what we have
Done is not up to the mark, receives high encomiums
At the most unexpected moment in our life sometimes!

Here passion and passivity are not to be given much
Importance or negligence, but maintaining neutrality
Seems to be better and mind our regular business with no
Pride or pessimism letting alone comments or criticisms!

This is the nature of the world we are all living in;
So, it's better to mind our works with good intention
sans expecting any good or adverse reactions from all
And in the long run, we will be used to all reactions!

Ramesh T A
Expecting Rain On A Busy Day!

Hazy Sky leaving no room for blue colour
Whole day town is drowsy under shade!
Usual business does not stop anywhere;
But nothing in particular touches all sure!

Only if good amount of rain comes here,
All will be happy to dance in rain sure...!
Such a feeling surely lingers in everyone's
Inner heart and wait all for that moment!

Rain in hot day is surely a great pleasure
To enjoy with friends outside somewhere!
Such a joy surely no one can miss in life
Full of monotony, expectation and fatigue!

A sense of relief once in a while comes so, if
Rain comes on a busy day and drenches all!

Ramesh T A
Experiencing Life Of An Island!

Experiencing the Life of an Island!

Dependence on Computer and smart phone makes one Helpless sans them, if electricity fails or one is in an island! Without such gadgets for communication one is disconnected With usual business to do the daily chores and out of mood sure!

One or two days one can manage, but, if one has to be so for Some months out of station, it's like somewhere in other planet Placed in such a situation, it is a great adventure for me now And I am totally feeling like a blind man not knowing how to cope with!

Even the things I express through another laptop of Someone, it is impossible to save all for my reference again! I am totally handicapped and feel impossible to change the Situation I am landed sans any idea as to connect with all pals!

I am experiencing the life of a man stranded in a remote island Without any connection with the outside world as if in far off Space!

Ramesh T A
Poetic expressions of romantic poets are experimental ideas
Capable of transforming mechanical world into human world
Need to be supported by all as they are not just serious-less
Romantic matters but serous philosophic truths that will come
True as they all preach oneness of God and humanity we can
Witness as Bahai Faith organization and Auroville of Pondicherry,
Where people of all nationals, races, religions, cultures,
Colours, creeds and civilizations live together as one family,
Rather Vasudev family or one world family as an example for
Many others to form themselves as these organizations to bring
About the unity of nations and people for the promotion of
Peace, prosperity and progress to transform man into superman
By allowing evolution of human mind as physical evolution of
Man has come ended already for intellectual evolution to go!

Ramesh T A
Exploitation Of Democracy By Persistence Of Politicians!

Persistence on anything sans truth is a matter of no importance; 
Expert politicians make a matter of nothing into a big issue
And persist on it by indulging in campaign, strikes, fasting
And bandh engaging a vast crowd to make all believe it's real!

By persistence they reiterate on matters to be accepted and done
As they wish in such a way that nation itself remains standstill
Till they get the approval by ruling party to do sooner by taking
Proper steps to fulfil the demands of the striking persons sure!

Everywhere now, many take the tool of strike for making the rulers
Do what the strikers demand and make the ruling party weak sooner
Paving the way for coming to power by next election taking advantage
By the success of every movements exploiting this stuff of democracy!

By repeated kind of activities, politicians slowly but surely hoodwink
People by show of strength with huge crowds on campaigns to win power!

Ramesh T A
Exploration Of Mysteries Still Continues!

Evidences of rebirths of man are there sure....!
But how soul or spirit leaves a body to get into
Another womb is still a great mystery to find out!
The invisible soul activating the body is incredible!

Likewise, the mystery of life on Earth and others
In the Universe is a great mystery yet to be known!
The relics of past by advanced Earth visitors from
Outer Space is also a great mystery yet to be known!

Hidden caves under ground and in the oceans of our
Earth are yet to be explored to find answers to our big
Questions keeping us in suspense since a very longtime
And the searches and researches are going on ever...!

Likewise, the spirit of God existing in everything everywhere
Activating everything everywhere is yet to be known in full!

Ramesh T A
Expose Of Naked Truth Is Realism!

All kinds of isms we have seen so far in life and literature; Classicism, romanticism, symbolism, modern one is realism! Realism is cataloging photos of reality we see by our own eyes Like journalism is doing exposing all sans leaving a bit now..!

Expose of reality to show things as they really are is realism Whether it is politics or social or spiritual or sexual matter Showing all sans avoiding even a stamp size secrecy to make Them spread as viral matter in the society by media instantly!

Classicism was moral, social, intellectual and universal in nature; Romanticism was and is personal, emotional and philosophical; Realism is surrealistic showing only the outward dress fashion Sans depth of thoughts, feelings and lacking morality of civilization!

Both in life and iteration, culture, art and Nature have lost their Due respect and expose of naked truth sans sense of shame Has become the expression of realism just as the critics dissect Matters to expose the nakedness of all catering to the low taste!

Ramesh T A
Expressions Of Art Of Beauty!

Colourful flowers are natural beauties of the world...!
Diamond jewels are the imitation of colourful flowers
Of many designs and shapes that lure minds of men!

Natural manifestations are an expression of art of beauty
For kindling aesthetic taste and for enjoyment of beauty
That inspire best of mood to do all best things in the world!

All art forms are expressions of beauty inspired by beauty
Of Nature in the living forms forever in the world and in
The Universe quite divine and heavenly elevating spirit ever!

Joy and sorrow of humans are pacified by the background of
Nature and man's mind in communion with it takes to the world
Of divinity quite high and ever lasting giving full fulfilment sure!

What an art of beauty Nature and its inspirations in Art forms
Inspire, elevate and energize all souls, hearts and minds ever...!

Ramesh T A
Eyes

If Sun and Moon
Are two eyes of the Earth
Stars.. eyes of Universe!

Ramesh T A
Face Adversity To Be Glorious In Life!

James Bond 007 movies are my favourite ones
From the 1960s till this day sans fail due to their
Thrilling action from the beginning to the end
Inspiring my mood to face all odds everyday!

Fear is surely a sin, if one is sans knowledge...;
But, since knowledge is power, it is worth trying
To get all information needed to prepare oneself
Ever ready to face all problems with boldness...!

Being so, it is like a kite flying high against wind
Which is nothing but taking advantage of adversity
To go ahead in pursuit of achieving one's objective
Rather than taking a back seat by fear forever in life!

If we win in the venture, we will fly high in glory...;
Otherwise, one can meet with death also in glory...!

Ramesh T A
Facing Adversity With Clarity Of Mind!

Anything cannot be done, when there is no peace! 
Everything is done, only if there is peace of mind;  
And anything can be done well, if there is peace...!

Sans peace and discipline, no adventure is feasible.  
Turbulence and turmoil lead only to anarchy sure;  
But with patience and common sense it is overcome!

Turbulence of situation opportunists take advantage of  
To hit weak points to have intrusion to achieve objective  
That only brave hearts resist and take control of situation!

Whatever be the situation, with clear mind all can be well  
Managed to our advantage to set-right all setbacks soon  
And that gives great confidence to contain anarchy forever!

Cultural training based on experience equips one well to face  
An eventuality with boldness and achieve laurel with excellence!

Ramesh T A
Failure By Leader To Bring Change In Administration Will Be Kicked Out!

Not by force of fear but by love of heart
Only a good, able and real leader can run
A good government directing the people to
Go on green pasture for grazing and take
Home back safe like a responsible cowherd!

Only a tyrant hungry of power to enjoy
Luxurious comforts can indulge in taxing
People with exorbitant levies somehow to
Compensate the losses he has made in his
Service to people with no sense of human!

By mere gullible speeches and show of records
Cooked up by economic manipulators as aids
For his everlasting stay in power he hoodwinks
People in elections intelligently sans any
Progress made in full term of office easily!

This way only such opportunistic leader can
Run government following policy of dive and
Rule like British colonial power did or like
Hitler die or like reactionary communists do
Based on one's own whimsicality failing in all!

People need change of governance to reduce
Their burdens economically and socially by
Giving time to new parties to be in power for
Sometime taking into consideration to pick up
The thread to streamline administration well!

But people cannot be fooled forever by sobs
And golden promises sans bringing about any
Change for the better towards achieving peace,
Prosperity and progress as people surely will
Kick them out, if they fail to do as expected!
Faith And Hope!

Hottest days more hotter than Summer
Everyday in September too continues..!
Rain like situation everyday develops,
But hot climate heedlessly proceeds....!

To bring fame to festivals, rain comes to
Show the deities have power to the people!
Then after the festival programmes again
The usual hot day spell makes all stand still!

This volcanic Earth seems not to stop its...
Spewing fire like hot climate nonstop ever
And putting all under the mercy of rain only
Now and then to pacify the faithful ones...!

Sans faith and hope nothing seems to move
On this Earth, though man advances by science!

Ramesh T A
Faith Of Love Transcends All Hurdles By Its Strength!

Love transcends restrictions and barriers to favour, 
Support and work for the well being of the loved one; 
Just like the devotee with deep devotion prays deity, 
Or a fan of cine star gives support, a lover loves one!

This sort of infatuation and liking towards one may 
Look to be crazy or mad, but it's a faith of love sure 
That at first starts with the style of behaviour, talk 
And work leading to total faith on one with love forever!

All acts of love look to be funny and foolish for others, 
But lovers' world is entirely different from real world; 
World of love is romantic, dreamy and full of fantasy of 
Mind, heart and soul that kindles flame of love hot ever!

Love is a blend of devotion, madness and faith in one over 
Another one forever though life is joyful or sorrowful sure; 
Union of lovers is stronger than concrete that cannot be 
Broken or have ware and tare whatever be the time of life!

Love makes great compensation for all losses lovers face 
In the journey of life and the inspiration, encouragement 
And hope love sustains is the greatest feat of human bond 
That keeps lovers ever in a mood of hope none can have sure!

Ramesh T A
Falling In Love!

Falling in love is an incidence beyond one's control;
That happens vouchsafing the Shakespearean love at
First sight, when one is actually not at all in that mood!

Writing love poems based on pure imagination, how can
One expect of meeting a soul mate suddenly at night?
Such a thing surely sustains deep in heart towards love true!

Chitchatting late at night leading to a flying kiss from the
Dear lady surely makes one fall in love quite amazing in life
Leading to a long journey in exploring love to the core long!

Love between two souls unites into one thereafter freeing the
Long imprisoned soul mates to explore in the pleasure of love
Discovering many unknown facts of joy enjoyed never before!

It is only the star-crossed lovers meet by accident in their long
Pursuit of eternal joy by fortune fall in love to enjoy romance!

Ramesh T A
Far Sight And Short Sight Benefits!

Some want to see result immediately after work;  
Some want to harvest immediately after plantation;  
Will it be possible to see end just as the story starts?

Even in business profit can't be seen immediately  
Just as in agriculture, cinema and in all industries  
As they all need time to grow and stabilize steadily!

There are some trees that grow fast yielding fruits,  
And also, dry up and fall down by weather vagaries;  
But steady growing trees stay long benefiting much!

So also in life, short range benefit and long range benefit  
Depend upon the aim, ambition and goals of men ever  
According to their needs and necessities small or large...!

It is like the statesman and politician we come across  
With far sight and short sight benefits to the society!

Ramesh T A
Farmers And Soldiers!

Sans seeing time nobody seems to work in the world;
Not bothering time and risk, only farmers and soldiers
Work to feed all and maintain security for all ever!

Production of food and maintenance of security no one seems
To bother to think or do anything minding their occupation
And days, weeks and years go until famine and enemy strike!

That is the time, all ponder on the difficulties of farmers
And soldiers in feeding and safeguarding all people and the
Farms and international border areas and status of nation!

Occupations of farmers and soldiers are not lucrative works,
But need devotion and dedication with patriotism in heart to
Protect and save all people with great pride and responsibility!

Due to farmers and soldiers, all people live well and have a
Peaceful sleep trusting their genuine works sans an iota doubt!

Ramesh T A
Flowers are fascination to look at and a great wonder forever!
Varieties of flowers bloom blossoming from buds unbelievable!
Each with a hue and a unique fragrance useful to make scents
Everybody loves to smell and enjoy applying on bare body sure!

The beautiful smiling flowers kindle smile and create cheerful mood
To please one and all to feel fresh for attending any function along
With the suitable dresses all wear for the occasion anywhere sure
Making enjoyment of fun with all possible even when out of mood!

What a wonder the creation of flowers in Nature as symbols of love
And friendship all cherish most everywhere in the world for years
On since their appearance on the Earth to the extent of calling this
World as flower world to greet all with respect and love with flowers!

Unlike art that is artificial this unique flowers are living art though
For a short while, there can't be a better bouquet to present first!

Ramesh T A
Fate Of Cinema!

Taste for cinema has gone away!
Everyone now sees TV only ever;
Also all see cinemas by DVD itself!

No cinema theatre one can think;
All theatres have become rented halls
Suited for weddings and receptions!

By DVD any movie can be seen anytime;
Many times those movies can be seen
And video song absorbs all very often!

Only extraordinary mega movies alone
All like to see in modern cinema theatres
With all sound effects and comforts modern!

By new technological gadgets all are swayed
And many old charms of drama are obsolete!

Ramesh T A
Fate Of Great Masterpieces!

All jealous hearted persons never allow genuine work shine;
Best works of art are driven to be lost in the dark ever;
Cunning fellows never tolerate good and extraordinary ones;
Display of genuine works are immediately blocked by them!

Every attempt by really great is spoiled by some means;
Fine art work, if exposes truth to the world, is crushed....;
Great masterpieces when hidden so, becomes treasure under
High pressure only to become precious diamonds rare....!

Icons of great talents are dragged into painful controversy;
Jeopardizing their very existence by controversial crises;
Keeping long genuine masterpieces many are made to forgotten;
Long after all are forgotten, truth surely one day comes out!

Many historical matters are rewritten making use of literature;
None can create blemish or desecrate to beauty real in life;
Open secret of best works will rise again as phoenix birds..;
Powerful truths of great masters never have death in the world!

Quality and genuine expressions of great have value as gold
Regaining their glory through some supporters who take them up
Surprisingly and suddenly like the tremor that affects all sure;
Top of the world great works give light as beacon once unearthed!

Unseen great works again capture the hearts of all as miracles;
Vain attempts by jealous one never remain as permanent feature;
World will come to know archeologically of such great masterpieces!

X or Y will go on digging trenches only to be buried themselves;
Years of great efforts underlying all great works will never die;
Zeal of truth seekers will discover great masterpiece benefiting all!

Ramesh T A
Fate Of Lovers!

Love starving couple, after separation for longtime,
When meeting together, indulge in passionate kiss long!
All days spent in loneliness out of ego goes to pieces
And both kiss and enjoy as if they are newly wedded ones!

This human nature that prevails among all sorts of people
Never has undergone any changes since time immemorial..!
Yet, due to some obligation, such an union of lovers stops
To the usual rut of monotony and isolation as an asylum!

Happiness is controlled by fate that decrees all to follow
Certain things all cannot like but have to endure to live
Life in this world full of ups and downs all have to balance
So that a tolerable life can be lived and adjusted for good!

Longing for love is man's curse only fate has to change its
Decree so that lovers can unite in joy and live in praise all!

Ramesh T A
Fate Of Poets

Great poets were not honoured when they were alive;
But after death they live immortal in the hearts of many!
Shelley, Keats, Voltaire and Bharati are some to quote;
They fought for freedom of the nation till the end of life!

Why has God created me with glowing knowledge?
Why has forgotten to use it for the welfare of mankind?
Can anyone create beautiful musical instrument, guitar
And throw it in the dust bin along with other wastes?

"Tell me, " says so Poet Bharati, "O Goddess Sivasakti! 
Then there were only four friends to do funeral service;
From them only about the great poet is known to the world!
This is the fate of great poets that follows so for all poets!

Why the fate of poets does not change even today here?
For, their creative power is doubted as atheists doubt God!

Ramesh T A
Fate Of The Great!

Fate of the Great!

Identities of really great are kept in the dark;
Their great ideas never see the light of day
Mainly due to the so called followers of great
Who highlight theirs attributing on the great!

Precious information of great never reach to all
Bringing disadvantages only to the sincere ones
And all benefits to the impostors moving with
All through the day enjoying all at their cost....!

Like the blanket clouds they occupy whole sky
Tarnishing the beauty of the vast blue in grey
Bringing a frugal rain with boisterous thunders
And lightnings blinding the innocent believers!

At the fag end of life, the great ones are known
And honours to them never seem to go to them!

Ramesh T A
Fate Or What?

When nothing seems to click
Though hard work is done
One can only wait and watch!

Even after a long wait and
Nothing seems to click well
What else can one do here?

This is a strange fate one faces
When odds are very much in
Domination over all affairs...!

Simply it makes one think of
God and thoughts flow whether
God is alive or dead now.....!

Only good people suffer much;
But arrogant one thrives well!

Ramesh T A
Favouritism Affects Popularity Of Genuine Works!

Popularity of a person lies in one's exposure to the public; Success of a book writer, novelist and poet depends on one's Creative works getting expose to large audience in the world; It depends upon publishers and review writers in magazines...!

Unless one's work of art is promoted by reviews and publicity, No one's literary or artistic works will be known to anyone And also, without the comments and criticisms of such works, No author will be popularly known to the world in anyway sure!

In the book world too, like in cinema field and politics, all Kinds of partiality and favouritism block the progress of Really great and make the good for nothing ones come to the Top making it quality less and a field for thrash to prosper!

Regional language literature gets the support of government and Their translations in English language gives wider popularity; Unless all language works are published in this world language, Where is the survival of creative works in anyway anywhere sure?

Ramesh T A
Favouritism Out Of Partiality Of Love Leads To Nowhere!

Facouritism, nepotism and all malpractices are done
Out of partiality in love towards some at the cost of
Many deserving ones at home and office play havoc in
all walks of life leading to national retardation..!

Whatever be the promises by gullible politicians are
Eyewash business only as the government machinery is
Well placed to do favours only to the ones who do
Benefits to the officials in many ways out of office!

Due to these partialities coupled with the culture of
Corruption, whatever efforts taken by zealous and
Really enterprising ones never make the nation move on
Fast to make stipulated developments benefiting society!

Sans sincere efforts being taken to develop nation, there
Is no possibility for the improvement of quality of life
And the national works never see the dawn of progress
Making the same status quo remain so forever and ever sure!

Ramesh T A
Feasts, Toasts And Parties!

When friends meet joy becomes manifold!
We forget the world and worries therein;
We roam about the beach and park as we wish;
Then we settle on roof garden for dinner sure!

Over some pegs of whiskey we talk and talk
Till the door of hotel is about to be closed!
There is so much to discuss and travel in
The world we only know the way long ever..!

So many times have we enjoyed fun so long!
How many times? we can't count and say ever..!
But those days of bachelor life was over long ago..!
We now rarely meet anywhere on any ground...!

Feasts, toasts and parties are countless to think about
Like in the Dickens novel, The Pickwick Papers.....!

Ramesh T A
Feel We Are People Of One Nation!

What can we say about the mentality of the people,
Who indulge in violent activities to destroy others?
Is it due to comfort of climate or narrow mindedness
Or due to lack of knowledge or human culture in life?

Many such questions flow in the mind, when hooligans
Indulge in burning buses and lorries to skeleton status,
Destroy properties and insult and beat the people they
Hate feeling jealous of their progress and prosperity.....!

A place famous for tourism and praised as paradise on
Earth in the North and another place noted for pleasant
Climate and famous for IT industries in the South of nation
Have people of that hateful nature indulging in violence!

Racial discrimination on the basis of religion and language
Has blinded the people that they belong to one nation and
Not to their State only as many of their races are working
In all States of one nation common to all whoever they are!

Ramesh T A
Feelings

Feelings are
Due to sensitivity of body
To pain and pleasure!

Ramesh T A
Festival And Other Holidays!

Festival and other holidays are the time to meet all
Kinds of people we know and have a good time in chat
And laugh everyone longs in life after working days
And for the elderly people it is another time of joy
They cannot miss, when the opportunity comes by chance
That they cherish most in heart planning so many things
Before they meet their favourite ones and close friends
Rare to see after each one is destined to do obligations
They cannot avert or transfer to others as they have been
Doing, when they were not having any responsibility in
young life and that time they get another time in life
Impossible to dream or imagine even carried away by all
Burdens of responsibilities and obligations to be done
Somehow before their time comes to an end at anytime...!

Ramesh T A
Festival Of Harvest Time!

Festival of Harvest time has come now;  
And everyone is in celebration mood...!

Three days celebrations start today  
With first one for rain for growth!  
Next, the celebration is for Sun that  
Gives energy for all beings to grow!  
Finally, oxen and cows or cattle as a  
Whole are celebrated for their use!

Earth and all living beings need water  
From rain all round the year for survival!

Sun's energy directly to all plants with  
Their leaves, vegetables and fruits to  
Animals, birds and humans gives strenth  
To do all works energetically to live well!

Oxen for ploughing the fields and cows for  
Giving milk to all beings are honured now!

Ramesh T A
Festival Of Harvest!

In festival of harvest

Rain, Sun and Cattle are

Celebrated as deities

Being saviours of all beings

As gratitude to Nature!

Ramesh T A
Festivals

Festivals bring together
Friends, relatives and all
To make life enjoyable!

Ramesh T A
Festivals Have Lost Their Old Glory!

All festivals seem to be losing their past glory;  
The more people are educated and go by knowledge,  
Their interest in religious culture is losing its  
Ground everywhere in the world more than before..!

Not only that, but also the nature of works all do  
Makes them lose interest in such fun as was in the  
Past being tired of overwork and needing long rest  
To regain their usual normal nature to feel anything!

Also, getting together with all brothers, sisters,  
Relatives and friends in one place is not feasible  
And so, celebration of festival is confined within  
A narrow circle of the place they are living in ever!

Perhaps long festival holidays only can give all  
Great chance to revive old fun of festivals with all!

Ramesh T A
Festivals Of Love!

Chances for romance and love, festivals offer to all
As festivals bring closer friends, relatives and all;
Festivals unite all people together and make intimates
By world St. Valentine's Day and Indian Holi festal!

St. Valentine's Day is called as Lovers Day in world
And Holi is called as Festival of colours in India..
In Lovers Day, lovers give greeting cards and flowers;
In Holi, boys and girls smear each other colour powders!

Various gestures of celebration of such intimate festivals
Make all forget all restrictions and give opportunity
To move free to convey their love in a open fashion sure
Bringing closer all by love and joy that strengthen ties!

Differences of all kinds, enmities and hesitations to move
And convey love are given a free play by festivals of love
And make all feel free, happy and peaceful in life ever after;
Festivals are mainly so serve as a bridge to unite really all!

Ramesh T A
Final Name After Distortion!

People at first called him as Babu;
Often they liked him for discipline;
Everyone wanted to be like him ever;
True to his words he acted everywhere!

Removed soon Babu from his first name
As it seemed to be long in school register;
Many years had gone so and remained so ever;
Everywhere he was called by his first name;
Signs of his father was attached to his name;
High school and college education were over!

Babu was used along with his name by loving ones;
All have forgotten his nice name called so ever;
Best of his works are praised by his present name;
Universally he is now called by his name sans Babu!

Ramesh T A
Success smiles on the faces of lucky ones in the world;  
It is like in the games that have quarter final, semi final  
And final with alternating successes and failures for the  
Players till they achieve the final success, the real one!

One may meet with some successes, but the final success is  
The resultant and final success, which is the real success!  
Winning in initiative games is not deciding the real victory;  
But the final victory only decides about one's real success!

In fact, success and failure are two sides of a coin which  
Is tossed high to see who wins to start the game, which is  
Happening by luck, but winning in quarter final, semi final  
And final only decides completer success of a team anywhere!

In studies, jobs and life, alternating successes and failures  
Prepare all to face both sides of this toss game to have poise  
Whether one wins or loses on many rounds of the life game in  
The human world to enjoy or suffer for victory and loss ever!

Success or failure, the steady efforts of each and everyone  
Only give training and experience in games, studies, jobs and  
Also, life to bear joy and sorrow in a balanced way to face  
All problems next and next till the end to see final success!

Ramesh T A
Finale Of The Festival Of Harvest!

Finale of Festival of Harvest is meeting of friends
To exchange greetings for a better prosperity in
The New Year 2018 with good rain, sunshine and also,
Rich growth of crops of all varieties needed for all!

Friends of school days and college days living in
Various destinations of the world get a chance to see
Most of them in the beach beautifying the small town
With a grand park at the centre of the boulevard circle!

Chill wind coming the sea makes all visit a nearby hotel
To have hot coffee with a small snack to talk all stories
From the north, east, west and south of country and world
Enriching general knowledge of history and geography sure!

How the time goes nobody knows at such moments in one's life;
But meeting all once in a year is greatest joy one can have
Especially at the end of the festival of harvest just after
New year celebration with equal zeal and enthusiasm sure...!

Ramesh T A
Fine Taste Of Novelty Poetry Brews By Time!

Poetry is crystal clear gem of literature ever;
Poetry is old, yet new by novelty of expressions;
Poetry came before grammar, yet poetry is newer!

For novelty of expression of ideas, poetry is best;
For expression of unknown matters, poetry is there;
For, novelty of poetry is the only medium to do all!

By novel means, poetry makes possible impossible;
Inexpressible matters poetry by novelty expresses;
Poetry is the magic wand of novelty by poetic hand!

Old yet new ever, novelty of poetry inspires sure
More than and most of all forms of literature in
Enthusing and guiding all with novel ideas forever!

Poetry may be a old wine in a new bottle forever...;
Yet, by passage of time brews fine taste by novelty!

Ramesh T A
Finish Our Goals!

So many things of life are going on ever
Whether what we think happen or not
By the passage of months in this year!

From January on everything is going on
At a fast pace beyond our control ever
And September has come after August!

Just one third of the year is remaining
Yet to be used to materialize what we
Have in our mind to get satisfaction..!

All festivals of religion will start just from
The coming Saturday on for sure and
I am sure all will go fast to December...!

Before the whole year reaches its end point,
We have to look sharp to finish our goals...!

Ramesh T A
First Chat!

Love at first chat  
Settles life between two hearts  
To enjoy a home heavenly!

Ramesh T A
First Come First Basis!

All want their jobs to be done earlier;
They do anything to finish their work;
Sneaking in a queue or giving bribes
People do everything possible to benefit
Themselves at the cost of others here!

Population and democracy demand patience
For one to go ahead in one's mission proper;
The intelligent and cunning make use of all
Loop holes in the law and trespass anywhere
To gain access to anything they are in need!

First come first basis is the beginning for all
Kinds of clever means for the able to succeed!
Democracy allows all means to materialise
Matters by manipulation and multiplication!

Ramesh T A
First Impression!

Wings of White clouds have spread
Today to fill the blue sky canvas, , , !
This beautiful natural art of divine
Truly gives deep joy I love much!

All works have been done well
Making true the fact that the first
Impression is lasting in life sure!
Inspiring morning note does all..!

Yes! It's a fact that one good turn
Surely deserves another and also
Continues till completion comes
Not only in journey but also in all!

Indeed first impression not only.....
Inspires but also encourages till end!

Ramesh T A
First Love In Life!

Poetical songs in pastoral scene
What an enjoyment to experience!
It is a great pleasure to enjoy so
In Nature so lovely and beautiful!

Among yellow flowers all around
With full of green leaves everywhere
The meadow is beautiful sight to live
Loving the sweet lady of my dream!

She is the divine angel to respond to
All of my heartfelt words in verse
Especially weaved of golden thoughts
Meant only for her as she is special!

One among the millions I have seen!
For, I don’t know love before I saw her!

Ramesh T A
First Love On Valentine's Night!

Valentine's day is over and yet, its scent still smells;
Smells of first love indeed so very passionate and romantic
Even now fills the heart with love so passionate to feel!

Going hand in hand ladies and gentlemen celebrate their
First love in the green fields, meadows and woods deep so
Cool and calm nothing of any disturbance can intrude them!

What a great wonder this love at first sight and first love
On the Valentine's day near the chill breeze of sea so grey
Reflecting the grey clouds all over the sky just before dusk!

Dark night with winking stars inviting the lovers to enjoy
A beautiful night undisturbed by outside intruders ever so,
Lovers embrace passionately and kiss each other till midnight!

Midnight too waves its green flag for the lovers to lay on the
Soft sand of beach to enjoy dreams of fantasy with love deep..!

Ramesh T A
First Sight!

Love at first sight
Makes confluence of two hearts
Made for each other!

Ramesh T A
Flaw In The Character!

Qualification and earning capacity make some
Quite haughty, egoistic and careless about others
Irrespective of others age, wisdom and erudition!

Sans politeness, control of tongue and manners,
How can such egoists have good relationship with
Relatives, community and friends anywhere ever?

Due to faults of those kinds, many lose good life
Leading to isolation in society and good friends
With no one by one's side to help in times of crisis!

Due to such arrogant people, connected members
Too lose a better way of life in the society and fail to
Set-right setbacks in time to live better than before!

Due to some flaw in character by wrong up bringing,
All one's talent, capacity and all lose lustre in society!

Ramesh T A
Flaw In The Governance Of Nation!

Flaw in the measures taken proves the inability of
The government to govern the people of the nation!
Thousand reasons it may say but they all are tricks
Of politics to hoodwink people to stay in power!

People cannot be swayed by mere words ever sans
Showing anything in action to bring cheers to all!
Economy is not dice game to win wealth in one lot
By calling all nations for foreign direct investments!

By investments government is thinking only of collecting
Taxes more than before instead of improving business in
Foreign countries to accrue revenue for the nation ever
Like taxing people to extract money for national expense!

This sort of taxing style of governance is no good ever
As was done by previous one by introducing taxes in various
Names to collect money from people by all means sans any
Improvement in accruing income to the nation by exports!

Ramesh T A
Floating In Air!

Full Moon shining bright over land,
Gentle breeze flowing as river on
I fly in my dreams all night long...!

Dress flowing like wave by breeze
I feel like an angel coming from up
Above all transparent clouds all over!

A fantasy world illuminated by Stars
Silent and serene the atmosphere is
That I can only whisper in the night!

A song I feel like singing in the calm,
But I don't want to disturb night mood
That is beautiful under Moon light...!

Silence of Universe is so awesome.....
That I forget myself I am floating in air....!

Ramesh T A
Dizziness engulfs the mind full as
Cloudy sky creates drowsy scene!
I feel like taken booze in the morn
Though breakfast is over as usual!

Drinking day and night some lie
Somewhere and some take home!
Not bothering to turn a new leaf
They seek bottle to enjoy fun....!

An occasional drowsiness is bore,
But how drunkards spend life so!
Living and dying for forgetfulness
They waste life sans any sense..!

Some grief or unfulfilled thing is
The cause behind their such act!
But diversion in art, Nature and
Philosophy may make them great!

I don’t know how they cannot do so
When grief leads them to lonely life!
Getting one free from all near ones
Great ones utilise exploring miracles!

Poets, philosophers and scientists
We see have created great wonders!
World appreciates them forever and
Ever enjoys fruits of their labour!

Let not drowsiness make ye dull, but
Allow mind to explore inner beauty!
You will become a poet or a painter
Creating wonderful art for mankind!

Despite drowsiness I still attempt
To weave a fabric of poem now...!
Rainbow and kaleidoscopic beauty
Surely makes me float in fantasy!
Floods!

Hot spell is still on
While floods have swept
Town and all in one!

Ramesh T A
Florica Baby!

New born baby looks cute
And smiles like a flower...!
Soft as rose flower petal
She winks her eyes now!

Coming out of a narrow cell
To see this world of light....
She stares at bright light...
And closes her eyes soon..!

Fresh as newly blossomed
Flower she tries to smile...
And likes the world new...
To know all matters sooner!

Flowery look makes all...
Soon call her Florica.......!

Ramesh T A
Flower Of Love Should Bloom Naturally!

Flower of love cannot bloom to one in life
By just saying I love you to someone ever;
Flower of love should bloom naturally to one
Even sans saying I love you to anyone sure!

Just words of love without love in action
Are much more dangerous than partial love
Shown to some ignoring others among pals
As that will end just in a bouquet of flowers!

Real love is love in action done with great
Care and concern for one, one’s heart loves
Naturally sans any outward cosmetics or...
Beauty sans goodness and truth in one sure!

Love based on fancy or beauty cannot last
Longer as true love of heart that's lasting
Beauty bringing joy between lovers forever
Like Nature and art that are ever lasting!

Ramesh T A
Flowers Are Forever!

Colourful flowers give cheerful mood by its beauty
And the hope of fruition buds blossoming to bloom
Into flowers after planted seeds grow into trees soon
With green leaves sprouting on all branches sure...!

Flowers are the indication of the coming sweet fruits
Going to satisfy the appetites of all people approaching
Tree for shelter, rest, meditation and attaining wisdom
To do better things so as to live better life in the world!

Beautiful flowers are symbol of love one extends to the
Beloved first in life to begin family life to procreate
Next generation for carrying on the work of passing the
Good things One does for the world and their continuation!

Flowers are forever blooming in the world to serve the
Noble purpose of spreading love so for sustaining all!

Ramesh T A
Flowers, Earth Stars!

Flowers greet hearts
With a smile winning war ever!

Petals of flowers are
Stars of galaxy in Space wide!

Flowers look at Sky
With Sun at centre of activity...

However hot Sun is
All beings live by its energy!

Ramesh T A
Fly Anywhere!

Is there any leg for the story? They ask!
Story they concoct by adding head, tail, etc.
They drag the story to any length they like;
They make big mountain out of a mole,
Concocting story by gossip spread rumour!

All by imagination stories are created ever;
From dreams also stories are born forever!
Knowing this why do people still like stories?
It absorbs mind, creates interest and entertains;
People forget themselves, get relief from routine!

Stories, songs, pictures and music occupy all
Since childhood on till the end of life in the world!
Like Nature, dreams stories kindle imagination
That places one on Pegasus horse to fly anywhere!

Ramesh T A
Fly Away Worries!

Mind full of worries was like clouds all over the town;
I stepped out of the house to have a walk in the beach;
Vaguely one or two drops fell down from the sky;
Ignoring it I started walking brisk towards the beach.
The rain began to fall slightly and all were hurrying;
I decided to take shelter if it rained heavy on the way;
Then I was walking on the beach pavement feeling
It would be better to halt at the sun shade of Le Café!

The rain did not intensify and I was briskly walking
Till it became strong and I took shelter near a Press.
Twenty minutes I had walked and the rain fell slowly
For twenty minutes nearly cooling the place very well!
All the rush got cleared within that time and silence
Prevailed everywhere except the noise of motor boats
Crisscrossing the shore water before my view there!

Again I started my brisk walk to cover 30 minutes
And had a halt before a fancy article shop for rest.
Nobody was in the beach then and everything looked
Calm and beautiful in that cool hour of night there.
Rain stopped completely keeping all cool and clear;
Faith regained made my worries fly away as passing
Clouds with no effect of punch as usual sans any problem!

Ramesh T A
Flying High!

As a bird I am flying in the Sky in imagination;
I am floating like a balloon being light in heart;
What a change I have attained today in life....!

Is it due to my work being reduced or what? I can't
Say for sure now as I am in a nice mood of joy!
Perhaps going to an isolated place, I can know!

I first thought my work won't be over even after
Two hours; but everything came to a good end
Before I thought; I am delighted beyond words!

Now, my critical part of job is hed,
I feel free as bird and my mind flies as bird and
I float high in the Sky fluttering wings of ppoesy!

Always what we think as high mountain to jump
Over, when becomes a dwarf, we fly high sure...!

Ramesh T A
Follow Path Of Your Own!

A lady waits always
To know about his ideas
To weave a story!

She topples all ideas
By improvising matter fine
And wins competition!

Clever lady she is
That he knows very well
And follows her!

As she did not change
He stopped leaking his ideas
Leaving her in dark!

There the matter ends
Making individual paths open
For each to follow one's own!

Ramesh T A
Fooliah Act Of Man!

For all problems of humans all finally
Refer to Nature only for solution ever!
This is because we have come from
And also, part of Nature, remember!

Our beginning and end are in Nature;
This none can forget ever and give....
Due respect to Nature for our good
And our survival and sustenance......!

For our technological advancement and
Material development in the name of....
Civilisation, we exploit resources and
Pollute to the verge of destroying Nature!

Is this not looking foolish for man noted
For superiority over all living beings....?

Ramesh T A
Fools Rush In!

Fools rush in where angels fear to tread!
Yes, it is true fools learn doing mistakes
Being unable to think or acquire knowledge!

All in a mad rush they wish to acquire all!
As always in rush, they take wrong decisions
Based on wrong understanding of matters!

If everything is goes slow, they get anger
And somehow forcefully wish to accomplish
What they wish to happen in all matters ever!

If food is taken in a hurry before hot dish cools,
Their mouths get burnt and suffer losing taste
Due to lack of patience and fail to enjoy food!

Life itself becomes a question mark due to lack of
Knowledge, thoughts, patience and tact in all ever!

Ramesh T A
Fools Spoil Their Own Life!

Love blooms between husband and wife only by beauty, kindness, patience and affection; Only mutual adjustment between them can make their life a successful one for long; Enjoying the sweet part of life and going away when bitter part of life begins will Indeed make the life partner unbecoming of a good family person in anyway!

Finding faults on petty matters after enjoyment for a brief period and taking away All valuables does not make one a good and responsible wife to a husband Who happens to be a good, innocent and unsuspecting one to his wife believing His wife to be a paragon of virtue not knowing her ulterior motive and plan in life!

Marriage is a best culture to live a respectful life in the society anywhere sure; But some make abuse of the advantages and benefits they enjoy for sometime And go away leaving the partner in great trouble sans any human sense feeling As if they have achieved their petty goals of ambition at the cost of long good life!

Many immature persons and childish persons spoil their lives just for petty, Short term benefits foolishly at the cost of long term benefits spoiling whole life!

Ramesh T A
For All Beauties Lifespan Is Short By Nature!

Beauty lies to the eye of the beholder forever;  
For, beauty is an illusion that can't last long  
As all have birth, growth, deterioration and death!

Only flower is beautiful as bud blossoms to bloom  
Into full flower and dries to death very soon ever;  
Unlike all it has short life and so, beautiful ever!

All things that have brief period are ever beautiful;  
Songs of brief time is beautiful, melodious and lovely;  
But all long songs, novels and plays are dry as old ones!

Beauty is soft, tender and delicate and so, can't ever  
Withstand against hot sun and biting cold winter sure  
And hence live short beautifully and die beautifully!

Human children, babies of all beings are beautiful as long  
As they don't grow and that is impossible by Nature ever!

Ramesh T A
For and against
Are two sides of democracy
People decide!

Ramesh T A
For Good Health!

What is good for health -
Natural air or AC one...?
Junk food is good for
One travelling long...;
But fresh food is good
Ever for health in life!

Technology and greed
confine one in inside
And never allows one
To see outside world!
Material world has
Made all live not
Real life or natural one
But only artificial or
Just a mechanical life!

The more we go for
Comforts and luxury,
The more lose we good
Health and life ever!

Ramesh T A
For Good Settlements....

Mindless hurry of people spoils many matters;  
Afterwards crying over them is of no use ever!  
Patience, control and wisdom help prosperity;  
Pride, arrogance and ego lead to sorrow ever!

Knowing this, if coins are carefully moved in  
The life game of chess, victory is sure to attain!  
Intelligent thoughts based on truth will help  
One thwart pitfalls in life to achieve all goals!

For coming to good settlements, sincere efforts  
And harmless acts will pave the way to all  
Solutions acceptable by all caught in twists  
Giving the impression of dark den at first.....!

Good or bad, no one can be cocksure ever  
As that attitude lead one abyss only sure!

Ramesh T A
For Name's Sake!

For name's sake, many get special reception and respect;
Such a status comes only by good service in the society
For one whose thoughts, words and deeds are ever valuable!

Earning good name in the books of all world men is more than
Any wealth and power one can gain in the world by any means
And that lasts forever benefiting all who follow such a one!

By the hard earned reputation one may not get any benefit,
But others enjoy all benefits and helps everywhere by that
Some one's name's sake due to reliability of such a person!

Due to sincere and honest service, all branded names of products
Have great market forever and such a name and fame many artists,
Writers, poets and actors get in the world in the long run sure!

The name earned by reputed service in any field and popularity
Always makes the creator next to God in the human society ever!

Ramesh T A
For Whom Golden Boat Of Moon Waits!

As a golden boat crescent Moon floats in the night Sky
With many Stars twinkling as jewels in heavenly Space!
For whom the Moon waits so long there above the town,
When nobody sees above minding shopping zeal below!

Many miss the chance to travel to heaven or remain in
Paradise when moments come in life to enjoy so ever!
Materially entangled men mind only money business and
Spending on materials of extravaganza to live luxurious life!

Nature and Universe are waiting for man to see above
And rise high to the level of divine to enjoy eternal bliss;
But mundane things only man's mind is ever bogged in
Sure to be drowned down to the dark quagmire of abyss!

When best and beautiful things of Nature are free ever,
Man's nature never seems to have any liking for them;
But only when grief stricken in the daily pursuits of life,
Man sees above and feels how much has he missed long!

Ramesh T A
For Whom Is Art Of Nature There?

Hazy day has ended with full Moon
Beautifying the misty sky mystically
As if the painted Sky is for exhibition!

But no one seems to see the Sky with
Such a mystical canvas powered by
The queen of night, the full Moon.....!

Minding world matters, many reel in
Woes and worries so vast and wide in
Range that there's no time to see Sky!

Ignoring art, culture and Nature we all
Waste our time only for materialistic
Pursuits sans realizing human value...!

Comforting civilization has made man....a
Competitor of time and machine to be mad!

Ramesh T A
For Whom Red Rose Longs!

So frank and dominating as passionate red rose
She simply captures all hearts without any fuss!
The openness and beauty she has as an asset....
That simply sways all though she has privilege!

Yes, the privilege to choose whom she wishes
Surely makes her red rose among many flowers
Like the Stars twinkling around the Moon of night
That smiles at vanity of men losing all by farce!

Red rose surely commands all by her sweep of style
That simply makes all forget their hype stooping low
To get favour somehow though she never cares them
Except the one who aspires for perfection at her cost!

Even the passionate rose has someone to denounce her
Making her long for his heart dear forever and ever....!

Ramesh T A
Forever In Poetry!

Heart disease is an unpredictable one; 
Anytime the person may leave the world; 
All are afraid of a person affected by it!

I am such a person too here among you! 
Eight years ago I too had a mild stroke; 
Timely admission in hospital saved me!

I am still surviving with weak heart and 
Also, having skin problem, psoriasis...! 
I am managing myself well so far and so on!

With psoriasis for 15 years I am surviving 
And also with 30% blood clotting heart..! 
By strong spirit I am proud to be a poet!

Being a world poet is more than anything else 
For me and I will be there forever in my poetry!

Ramesh T A
Forget All To Rejuvenate Heart!

When world is too much to bear...
I run seeking the bosom of Nature!

Multicoloured birds fly freely ever;
Music of birds fill up the Space fine!

Smile of flowers invite to smell scent;
Fragrance of flowers fill the air nice!

Multicoloured fish swim in the pond;
What a joy they enjoy in deep water!

Cascading water falls running down
Valleys deep to abyss are awesome!

Smell of eucalyptus trees engross all;
What a refreshment to breathe free!

Musing over beauty and joy in Nature
Makes me forget all to rejuvenate heart!

Ramesh T A
Forget Not Divine Justice!

Forget Not Divine Justice!

What discrepancies
Be corrected by what measures
We don’t know,
But divine justice sure will
Do rectify them one day or other!

Man made justice
May be duped by loop holes of law,
But divine justice
Will surely take revenge
To bring order to world one day!

Till then the boat
Will only go with the stream current
And who can render
Justice to all the crimes
That are piling up on?

We can only
Just wait and watch ever
What's going on
Before our own eyes here to
learn lessons from experience!

Ramesh T A
Forward Looking Acts Of Man!

Climate change affects all nations every year;  
Everyone knows this has to be rectified by us.  
The unbearable cold climate, before that the  
Cloud bursting rains, floods and havoc and  
Before that long droughts sans any rain in  
Some places have made all think about all the  
Things being done in the name of developments  
All over the world to boost economy and also,  
The social life of people needing to be made  
High in standard as really worthy to be taken  
Up for improvement by exploiting natural  
Resources available for utilizing them more than  
Necessary or recycling resources or not when  
Doing those so called forward looking acts of man!

Ramesh T A
Foster Natural Love Ever!

Natural love never sees age, status, language, race, region or culture; Only social restrictions and family background serve as hurdle to natural Love that is supposed to be fostered to make human relations congenial to All bringing joy, peace and divinity within human framework as in spirit!

Without offering freedom to such love to prosper in society, how can all Forms of indifference be curtailed to bring close human beings to solve Matters of human value to flourish in the world needing human atmosphere To create unity of all beings for harmonious development of all forever?

A big question needing heart searching by all to make natural love to live In the wold full of doubts and suspicions splitting apart humility wider and wider making it difficult to fuse together all as in a cohesive society Is lingering ever in suspense creating confusion in mind about literature!

Literature, religion and Creeds preaching and fostering natural love are God given boon for man to foster goodness and truth to preserve unity ever!

Ramesh T A
Fostering Partial Love And No Love!

Partial love to one leaving others as nothing anywhere
Makes the loved one have headstrong pride, arrogance
And careless in such a way that one never knows wrong
One makes as that is not taken seriously forever in life!

The insults others bear are not realized by the pet one
And that way others are treated as subordinates to the
Main pet one making the natural growth of heart, mind
And soul of each not up to the standard liked in society!

After growing to be young persons, each one's behaviour
Seems to bring problems according to each one's faults
That are not bearable by others in the outside world..;
The good ones have good support, but the pet one is disliked!

The long underdevelopment and long refinement of pet one
And subordinates undergo reverse reception everywhere making
It disliked by the pet one and humbling the subordinated ones;
This is the end result of fostering partial love and no love!

Ramesh T A
Fourth Pillar Of Democracy!

Fully charged cyclonic storm making rampages everywhere
Moves from the sea to the land areas inside wrecking
Greatest havoc all the way by shaking out trees and cell
Phone towers, house roofs and destroying crops nonstop!

Through news reporters on media and newspapers people come
To know the intensity of destruction caused by cyclonic storm;
Conveying truth to the public is the duty of all journalists;
That's why national press day is celebrated appreciating them!

Journalism is the fourth pillar of democracy in all countries;
News is the window and through which only people see world and
Know what is happening everywhere in the world and form ideas
Of their own about the status quo of everything in the world!

Journalists duty is to place before the public the pros and cons
Of all issues sans suggesting their own ideas to decide matters,
But leave the matters to the conclusion and comments of public;
Their right information is highly helpful for all to know truth!

Ramesh T A
Freaks!

Freaks are scary in general everywhere;
Only those who are isolated and alone
Seem to be freaks trying to achieve...
Something to satisfy their intention
Quite scary or evilish in nature ever!

Strange in mind and always in loneliness
They are unable to mingle with all ever
Due to perversion or evil nature, all feel
As the characters like Phantom of Opera
Or the characters created as in The Raven!

Stories of vampires are belonging to this
Genre that are quite strange and peculiar
To imagine as the witches of Harry Potter
Children are made addicted to by that
Famous author J K Rowling and so on....!

Ramesh T A
Free Day!

Halloween's day
Being a ghost lovers' day
Is all spirits' free day!

Ramesh T A
Free Love Beyond Space And Time!

Divine like free human love only in Brindawan one can
See happening like Radharani and Krishna enjoyed in
The legendary period everyone dreams to enjoy long...!

Free love having no restriction and fear there only
One can realize in life as love in the open is no more
Seen anywhere in the world full of doubts about all...!

Such a free love is beyond religions, races, regions,
Communities, unions, classes, creeds, castes, colours,
Civilizations and cultures purely based on natural love!

Open heart of free will and love only can have such a joy
Of emotional feeling of out going concern for the loved one
Devoid of a sense of space and time in the earthly paradise!

Sense of space and time effect-less in heaven can be felt by
The hearts of free love only in the paradise Brindawan here!

Ramesh T A
Free Love!

Live as that free bird;
Dance as this waves!
Sing and dance sans fear;
Enjoy all rights you like!
This is the freedom all like!

Think as great intellectual;
Write as master poet ever!
Say and do what you like;
Be joyful of all appreciations!
This is the reward poets like!

Love as bee over fragrant flower;
Hover over beautiful flowers ever!
Kiss and fly when you like;
Always please all with love!
This is the love divine beings like!

Ramesh T A
Free Yourself For Eternal Home!

God knows what all feel, think and do in world life;
God cheats the cheater and punishes accordingly ever;
Also, God teaches lessons for upliftment of man sure!

As God is kind and loving, so too He is ruthless in execution;
He allows love of us with beloved ones with great hope
And at the sometime, He snatches away the their lives too!

God executes, when we are least expecting such a thing ever;
This makes us feel that God moves in a mysterious way sure;
But, He does so to make us relieve ourselves of attachments!

Attachments make us Earth bound which is impossible ever;
As we are born, so we have to die one day as this abode is only
A temporary one to learn, know and prepare to leave it soon!

Non-attached love is what God wants all to follow to be free
Our spirit from all attachments to leave for our eternal home!

Ramesh T A
Freedom And Knowledge!

Those who are opting for war enjoy too much freedom
And that is why they don't bother about loss of life.....!
Only by great sufferings one gets to know value of life
And likes to live in peace rather than indulging in fights!

For living a fulfilled life one requires freedom and choice;
Knowledge and vision guide such ones to live with some
Purpose and strive hard to achieve ambition to be happy
By attaining success in the venture one indulges in freedom!

Those who are living such a life are really active ever with
Full of interest and enthusiasm to fulfil their cherished dream
That never diminishes brightness of mind and zeal of heart
Revealing to others the real value of freedom one enjoys in life!

Freedom utilized so based on knowledge and ambition is fine
Making great achievements as wonders of the world for all to
Appreciate while inspiration got out of such achievements kindles
All to aspire high rather than indulge in hatred ever in the world!

Ramesh T A
Freedom And Liberty In Democracy!

Freedom gives choice to choose, select, decide to do all;
Individual liberty provides full freedom to do as you wish;
Without them, democracy is meaningless, worthless, helpless!

All are born free in the world, but are chained by duties;
But the intelligent with knowledge does duties as one likes;
Others suffer not knowing how to escape, finish job well...!

Freedom and liberty become useless unless one loves knowledge
To know truth, all matters and way out disposing works well
To enjoy freedom at one's disposal to be happy in the world!

Love of art, science, literature, history, philosophy, Nature
Indeed gives real freedom to overcome all hurdles of restrictions
Of administration, laws and control of govt rules in democracy!

But poets, writers and authors point out faults in the system
For changes needed by reforms to make democracy enjoyable ever!

Ramesh T A
Freedom And Liberty!

With the doubtful security, what safety can one expect?  
This is the nature of govt. executives all have to be careful;  
That too, if they belong to be security and finance ones, how  
Can people be honest and truthful in giving information…!

Before the govt. starts with new measures, they have to first  
Keep their houses clean and see all are straight forward in  
The development of the nation sans disturbing the people for  
All actions quite experimental and entrepreneurial in nature!

People's trust and faith on the govt. comes, only when they  
Are well convinced and pleased with govt. measures that are  
Not hurting or pinching their economic and social activities  
As political freedom is nothing but just a consolation prize!

Freedom and liberty of people are real in democracy, only when  
They are happy with their activities both private and public ever!

Ramesh T A
Freedom And Peace Lost!

This world has become worthless to live sans freedom and peace; Freedom is lost in the name of developments affecting all ever; All complexities and problems accruing due to that faded peace!

Development of villages and towns into cities destroys Nature Due to deforestation for laying roads across farms and fields; Individual survival is threatened by external interventions!

Sans individual rights and liberties, freedom is lost in the world; Bureaucratic executions of plans should have people's compliance; Too much formalities and interferences are constraining free air!

Democracy is for the people's freedom, rights and liberties ever; If privileges of people are in jeopardy, democracy is meaningless; Constraints and threats to rights make freedom as null and void!

Sans freedom and peace, compassion and love can be only in dreams; The hard earned freedom needs to renewed and revived for survival!

Ramesh T A
Freedom For The Industrious Ones Is Sure!

A fearless life with full freedom is what one likes ever;
But we are in chains everywhere though born free in this world;
Care free are we ever in the world life we have developed so long?
Dog like all are rushing to and fro everyday to do all things;
Everything is looking green at a distance but all are messy near;
Fear of anything happening untoward occupies mind doing works!
God only knows how all things go on we feel and go in life long;
Handling things with utmost care however careful we are we fall;
Irony of fate we say for that and proceed and go rectifying small mistakes!
Jogging and walking we make ourselves trim fit to face challenges;
Keeping ourselves abreast of all with precaution we have to go in race;
Luck is but late comes to give solace to the one who has failed often!
Many a slip there are between the cup and lip in our day today trip;
Never shall we let go our efforts if we have to achieve our ambition
Over and again we have to check before we make moves to our goals!
Power of the mighty many topple us in our ventures, but we have to stand up
Quitting from the race to win prize for our talents precious to us sure;
Result finally will come favourable to us if we are strong in our resolution!
Sudden changes for good and bad may pose as a great challenge;
Truth will remain as gold however hard it may be burnt by fire for purification;
United efforts and cooperation of the faithful friends will achieve goals!
Victory for the smart and sincere ones is assured at the end of the show;
World will then come to know who are the real and worthy ones sure;
X of someone in the past will become the well known and popular one then!
Yearning of the sincere ones will finally become reality to free all sure;
Zealous efforts of the determined and persistent-ness will bring freedom finally;

Ramesh T A
Freedom From Slavery!

Joy of unity and freedom all enjoy only in celebrating festivals; 
After that we have to forget freedom and unity as usual as slaves 
Of this or that in everyday life of the world we all live ever...!

The sense of joy, unity and freedom all cannot have forever here; 
Freedom perhaps can come only after we hear the last bell in life; 
Till then we have to pull on complete freedom only in dreams ever!

Shakespeare is true in his famous saying about human life in the world; 
He says that thoughts are the slave of life in the world we all live; 
Life is fool of time and time that takes surrey of all must end one day!

Only when the time of one ends in this world one can be free forever, 
Free to enjoy individual liberty far away from this madding crowd here; 
Until then we are all slaves of money, things, subsistence and all needs!

Relinquishing attachment as slaves to things, men and desire only, one can 
Think of enjoying real free and blissful life in Nature and after life...!

Ramesh T A
Freedom In Jeopardy!

Real freedom means even an individual should get food if hungry; Real freedom means even a beautiful lady can go alone at night; Individuals' happiness lies in freedom, liberty and rights of Democracy in any nation of the world, if that means so truly!

In reality, if we search and see, it is not so anywhere now as Due to too much bureaucratic controls, freedom is doubtful now; Lawlessness at night times has made rowdies do what they like and Go Scot-free as thefts, rapes and murders are freely going on..!

Due to wrong persons at the helm of affairs, lawlessness has Become a usual matter and individuals are not considered as Humans as majority of others only have political support ever Making democracy a great farce leaving humans ever in despair!

Democratic dictatorship governance of nation goes on nationalism; But never patriotism seems to be understood and followed ever..!

Ramesh T A
Freedom Of Love Gives Great Pleasure And Happiness!

Love of innocent children is pure, true and absolute;  
Out of love, they embrace, kiss and stroke back and head  
With true fondness and pat in an encouraging way sure;  
That love only good elders and youngsters follow in life!

Love has no age limit and restrictions and loving souls  
Move equally with all sans seeing any difference at all;  
Loving persons have no hesitation and follow no norms  
Like the soldier who fights in war has no rules and laws!

Lovers and soldiers do freely anything they like to make  
Their goals are achieved sans following any strict methods  
As they won’t be asked about their activities by anyone, no  
One has authority or power to do so and what they do is new!

Such way of love brings real freedom from fear, hesitation,  
Longing and make one enjoy pleasure and happiness new ever!

Ramesh T A
Freedom Should Be There For Everything!

There should be freedom in doing anything
As you wish, when you wish and how you wish!
But, if you have to do all according to time
As scheduled, you will be a mechanical being!

Machines don't have feeling, sense of joy
and sorrow and comedy or tragedy in life!
But man has all such things to live life
Till the end of one's time in the world..!

Freedom-less life is worthless to live ever
To have happiness and sense of satisfaction
That are very important to think, learn, have
Knowledge and decide about all individually!

Education has to prepare all to be so and not
Like ants or machines to work sans thoughts..!

Ramesh T A
Friendly Author!

With a friendly smile like a freshly bloomed flower
Flower soft in approach she moves with dear ones.
Ones and twos are they all have nice time with her
Her talks being congenial to everyone as an author.

Author is she after having written articles and books;
Books are uniting her with other authors of her kind.
Kind hearted people are her good friends everywhere;
Everywhere their writings are shared by intellectuals.

Intellectual talks are their best pastime on websites...;
Websites from all over the world have good connections
Connecting each one to share their creative works....!

Works of high quality dealing with life, love, Nature...;
Nature is the linking subject whatever be the topics...
Topics being very interesting for seeking ultimate truth!

Ramesh T A
Friends We Cherish Most In Heart!

Friends are unique in our relationships ever;
Best among friends, heart only can choose!
Computer friends fill absence of real ones
Moving in person for sometime or forever!

Some of website friends become soulmates
Do many favours undreamt of in life ever!
Those distant friends are angels to cherish
In heart who are otherwise unknown ever!

It is God's will that we meet friends of our
Heart indeed by technological advancement
Benefiting in real life in many ways forever;
A real boon we are very fortunate to enjoy!

The company of good friends makes us all
Forget the losses of our life in many ways;
Rejuvenates our inner spirit with real joy
And inspire none can otherwise in the world!

Ramesh T A
Friendship Is The Best International Culture!

Friendship is the best international culture to befriend anyone anywhere Whichever race, religion, region, creed, colour and class one belongs to! Friends of any world group are brothers, sisters, companions and lovers All in one in their relationship with each and everyone therein sure...!

There may be many differences as far as ideologies, ideals, religions or Even border disputes between nations, but they as friends are united ever! This is the unique international culture based on friendship many persons Are united in diversity paving the way for bringing together nations later!

As humans all are of the same kind homo sapiens only having no difference As far as flesh bone and blood of everyone are concerned and can be friends; This kind of notion settles all matters that may create disputes and enmity, If all adhere to universal educational knowledge with love as humans only!

By this unique culture of international friendship, harmonious development of All is possible as best ideas, exchange of knowledge and best actions are what The best way of life culture means and promotes best results for a better World to create sooner or later by love for peace, prosperity and progress..!

Ramesh T A
Friendship Of The Best Kind!

Friendship is the best relationship, I love most, of all relationships in the world; That too I prefer as best friendship the romantic poets of the past had sure; Romantic poets have achieved best things benefited by their great friendship Showing as an example of best friendship all can imbibe to make mark in the world!

Their philosophic discussions on various matters they had they wrote in poems Even today all enjoy reading to get the feel they had and get elevated sure; Their inspiration has made many poets even today to write best ideas quite Lasting in the world of literature entertaining, enlightening and energizing!

By such friendship, they enjoyed life to the full, understood meaning of life And expressed their feelings and philosophic ideas that clarify all doubts even now; What they left incomplete makes the succeeding poets to explore further and say New ideas as a continuation of theirs to express a complete picture of life!

Friendship of the best kind gives greatest joy and pleasure and its benefit Surely gives greatest satisfaction mankind could have experienced ever!

Ramesh T A
Friendship Starts From Heart!

Friendship starts from the heart ever;
A friend stands as a grammar of friendship;
Others follow it as to how to behave in friendship.

Money, wealth and power are nothing before friendship;
A friend stands by one from the start to the end ever!
He is ready to sacrifice himself for his friend!

Joy or sorrow friends share among themselves;
In sorrowful time friend brings joy ever;
In joyful time friends celebrate together!

Friends are companions life long;
Even after a friend one remembers him;
Such a friendship is eternal in history!

Friendship and love make humanity rich
Not with wealth but with happiness ever!

Ramesh T A
Friendship To Cherish In Life!

Lives of friendship we read are uplifting!
Friendships of Wordsworth and Coleridge,
Even of God and man, Krishna and Arjuna
And many other pals are very interesting!

Days of friendship are the happiest in life!
Romantic time it is so to say in world life;
Many things known & unknown are talked
And articulated in memorable literature!

Time won't be enough to talk about stories,
Friendships of famous pals quite inspiring!
Always brings lost mood to enjoy life better
And motivates one to do better knowing them!

Friendships in human relationships are the best
One has to cherish to live better life in the world!
 Thoughts of best days of friendship energizes soul
 And makes one live longer than possible so to say!

Ramesh T A
From Birth To Death!

Death is the natural end for everyone in the world.
Dying of old age naturally or due to disease is seen
And the good things one has done for the world
Ever remain telling that great soul's achievement!

As we are accepting birth, we have to accept death too!
There is no point in thinking about escape from death;
But dying after doing a wonderful job in the world....,
Surely gives satisfaction to the soul to rest really in peace!

Real peace is what everyone seeks throughout one's life;
But attaining it depends on our work in this world for all!
Selfless activity of a person brings real joy, peace and above
All, the satisfaction one longs for from the birth to the death!

From the birth to death, what we do is our life in the world
And what we leave behind, guides others to remember us ever!

Ramesh T A
From Friendship To Love In Romance!

Meeting of particular persons often brings closer
Either leading to friendship or love sooner or later;
Starting with hello at first leads to chat on news
Of the day and then personal matters to cooperation!

Mutual help enlarges the scope of coming together on
Many issues of public and private sectors in joy that
Indeed develops friendship and later on that blooms
Into romantic love due to opening of heart for life!

Meeting separately in beach, restaurants and parks
Love romantically grows sans any opposition from any
Quarter in community and society till the question of
Marriage comes and all taboos and restrictions oppose!

A bold step to surmount all such odd oppositions opens
The door of new life of joy and bliss as a model to all!

Ramesh T A
From Friendship To Love!

For love to flourish in the world, first friendship should start at Home among all elders and between elders and youngsters! For, when brotherly and sisterly relationship is lacking at home, How can friendship develop outside family life in this world?

At home itself there is no time to have meeting among all to have Any conversation about themselves or world or life or anything! In the modern world, self development at the cost of others has Become a habit believing wealth can solve all matter later sure!

Family gathering only gives chance to know how to have social Gathering to discuss or decide about anything for general good! Good brotherly relationship helps to have friendly relationship With like minded good persons at work to foster friendship long!

Sans the development of friendly mind there is no chance for Friendship leading to love among intimate persons in world life!

Ramesh T A
From Insanity To Sanity!

Mentally unhealthy man doing mad things ever
Unknowingly and adamantly arguing for them
Seems to be stubborn in his dealing with anyone,
Who happens to be heeding to his ideas somehow!

When everyone laughs at the madman's foolishness,
Merciful ones listen to him and pacify him of his
Foolishness so as to make him to become all right;
But due to his foolishness, they also get frustrated!

As such things go on, one and all try to avoid him,
When they have a sight of him at a distance itself!
But he cannot withstand such kind of acts of others
And get angry with them entering into an argument!

Finally to the surprise of all, one day madman is seen
Minding his own work, after a preacher has advised him
To visit temple everyday before embarking on any work;
From then on everyone's love has turned towards him...!

Ramesh T A
Frosen Ambition When Let Loose, Achievement Will Be Miracle!

An ambition frozen to activate it later if achieved is a great miracle;
Best portion of life when last in waiting and dreams, can't see dawn…;
Caught between mechanical industrial business and family life, all is lost;
Determination driven, if one activates frozen ambition, it's second life sure!

Entire stored up energy then turns dynamical in its out pour of rainy acts;
Full of inspiration, zeal and energy, words flow as wild river in poems many;
Great chance thus utilized will create a new history of achievement damn sure;
Highly inspired expressions will electrify whoever one comes across that act!

Icons and rebels of great revolutionary spirit are of that kind we can see;
Jogging and juggling against odds, they achieve goals others can't even dream;
Kick starting from the available time, they rise high as in a rocket to sky;
Looking never bend their past, they fly in high level ever as skylark birds!

Many a records they break on their onward journey in the field they are best at;
No one even can follow in heir footsteps as they are unique in their creativity;
Overtaking all, they make a mark sure in the world of art or science or poetry;
Performing a feat they only can hit the target never thought about so far by any!

Quality in quantity they make in such a way that choosing one is invidious sure;
Remarkable field of workmanship never can one find in that field by anyone ever;

Such a zeal with which such heights of fame by achievement of ambition is a miracle;
That is also beyond one's reach to assess how that can be possible by one human!

United by many only usually such a team work can be achieved before or ever…;

Verily it is a gift of God bestowed on a chosen one only in the world of skill;
World will remember such a great soul embossing in gold letters of him in history!

X or Y all would think of such a noble soul, if luck had not smiled on him ever;
Years of determination compressed so hard in frozen state can explode as diamonds, if
Zeal of ambition is let lose by fortune by God's grace to the deserving one sure!

Ramesh T A
Fructification Of Natural Love!

Love is a natural emotional expression carried out by feeling
Towards another one cherished in heart to have contact somehow;
Love of one on another one begins attracted by good nature,
Sense of humour, behaviour, beautiful stature and quick response!

To convey one's love to another one is possible by cooperation,
Coordination, suitable reciprocation, exchange of greetings,
Ideas on various matters coinciding with each other in all ways
And maintaining good relationship at any context and circumstance!

This individual process supported by friends on both sides leads
To expose of hearts and meeting in person on some suitable place
Exclusively meant for the two to have open heart to heart talks
Breaking the ice for frequent meeting and talks closer day by day!

This natural way of love making is real compared to artificial
Gestures of romantic actions will not fetch required favourable
Clearance for having chat or any response naturally acceptable
But only leading to a farcical end like in a foolish dream sure!

Human relationship grows from strength to strength by natural
Love of heart quite unique in human life that has no procedure
To follow and no example to practice as it develops on feeling
Of heart on both sides fructifying into two bodies with one soul!

Ramesh T A
Fruits None Can Deny!

Of all things to eat more than vegetables,
Fruits are sweet and delicious to eat ever!
Sans cooking, fruits one can eat always
Directly washing in water or not anytime!

Seasonal fruits are full of minerals capable
Of edifying immunity of body against ills
That changes taste of palate from drying
And improve one from dehydration sure...!

Is there anyone who refuses to take fruits?
No, not and never, I am sure in this thing!
With just a few plantain fruits and milk
Many sages and seers have lived long....!

Apples in Winter, Mangoes in Summer,
Grapes in all times and all none can deny!

Ramesh T A
Fruits Of Labour Are Sweet To Enjoy!

A joy of satisfaction, after completing a project work,  
Seems to be more than a heaven to enjoy in this world!  
Anything without any bottle necks and any hurdles is  
Not so interesting to bring a best ending with success!

The value and joy of shade of tree with cool breeze can't  
Be realized unless one undergoes a difficult time in hot  
Sunny day at the peak of summer whether it is in the centre  
Of tropical region or any other zone of the global latitude!

Taking a challenging work is a risky matter indeed sure,  
But when it is successfully finished with clever moves and  
Ideas creative many doors open themselves automatically to  
Show secret ways to go ahead to the world of heaven to enjoy!

Success, achievement and joy put man in heavenly comfort at  
Last, when a matter is successfully completed with hard work!  
Fruits of labour are sweet to enjoy only after the efforts of a  
Great plunge heart and soul involving oneself complete in job!

Ramesh T A
Fruits Of Labour!

Fruits of labour
On Scientific inventions are
Enjoyed by all!

Ramesh T A
Fulfil Promise!

Promise can be
great but can't be relied

Unless fulfilled!

Ramesh T A
Fulfilment In Life!

Fulfilment in human life cannot be achieved in the world
Unless one gets satisfaction in education, job and culture!
Dissatisfaction got from them makes one lose peace of mind
Making one think of the way out from the hell one suffers in!

Nightmares in sleep make one seek relief through physical
Pleasure, intellectual conviction and spiritual bliss somehow!
Unless one gets satisfaction, fulment of heart, mind and soul
Never seems to come to one whatever ways one tries hard...!

The route cause for the problem seems to lie in the desire of one
That never leaves one free from all entanglements and brings
Hell of torture until one relinquishes all stubbornness and all
Attachments one has towards his heart's desires in the world life!

Acquisition does not bring satisfaction and peace one has to know
And realize that by giving the best we have to the world, we get
Real joy and satisfaction bringing peace we long for for a longtime
Making one free from all bondage of heart, mind and soul forever!

Ramesh T A
Fulfilment Of Desire!

One's desire may be as vast and deep as ocean in life;
But when it comes to action, one does only a fist of act!
So, desire grows formidable to be satisfied again and again;
And man life goes like a boat tossed on and down by sea waves!

There cannot be a person without fear on anything in life;
Fear of morality, conscience, laws and good ones at the helm
Of affairs serves as restraining brake over reinless desire;
Fearlessness develops only by true, clear and pure heart sure!

Despite morality and restrictions, desire has no control here;
By mutual consent of connected persons, desire of doing something
Gets done to please and amuse the hearts of the secret ones also;
But best thing will be to restraint desire by discipline sure!

Fulfilling desire of one's life is everyone's wish and hope ever;
With patience, discipline and control, desire can be fulfilled!

Ramesh T A
What is life, if there is no freedom at all?
Even if a bird is given food and all at home,
But always kept in a cage not allowing it
To fly anywhere inside or outside home,
It is not a natural life bird is supposed to live!

Laws, too much bureaucratic control and
A lot of one ways in democracy makes one
Feel the freedom one enjoys is no freedom
At all, but only a self imposed imprisonment
Just as the bird with closely trimmed wings!

Even in the forest, all animals live in free state,
Though they have fear of higher wild animals;
If their territory is trespassed, they drive away
The new entrants by all means to maintain
Their peace and order in their territory ever!

Why do they all behave so in the forest.......?
They all do so as everyone who loves freedom
To enjoy in privacy so that they can breathe
Air with enjoyment and as they wish like an
Angel with full privilege to do as one likes...!

Ramesh T A
Fun Of Smoking Certainly Kills All Soon!

Smoking is injurious to health warning advertisement has
Not stopped smoking tobacco cigarettes all over the world!
But its restrictions by laws of nations have considerable
Effects over world men and its expose by experts has stopped!

Anti international tobacco day has reminded about it now..
And the famous smokers like Churchill, Castro, Sherlock Holmes,
Dean Martin and James Bond character in 007 movies and their
Style and image have also disappeared from people's mind now!

In the 60s and 70s smoking cigarettes were fun and thrill for
All who exposed themselves as modern and civilized persons in
The world besides serious writers, philosophers, scientists
And poets were indulging in smoking to get ideas to say to all!

More than alcoholic addicts, chain smokers have died and are
Surely dying due to harmful effects of cigarettes and this can
Be of great advertisements to make other chain smokers to stop
It by diverting their attention to other best things in world life!

Ramesh T A
Funny Festivals Make All Fools!

A few more days are there for the
Celebration go Halloween's day...!
Pumpkin light before the houses
Surely are displayed for this...!

It looks funny such things are
Being regularly followed in the
Advanced western Christian countries
Ignoring best things of culture!

Treating evil spirits on that day
Are thy escaping from evils being
Practised everywhere in the world?
It's a million dollar question..!

This is just a remembrance day of
The departed souls, but not evil
 Spirits coming from graveyards to
 Be welcomed and treated with feasts!

Then comes in November all souls' day
Which is also means the same more or
Less in the Christian world sans doubt;
Funny festivals are making all fools!

Ramesh T A
Funny Idea-Less Ones Make All Confused!

Reading, conference and writing make what each man is; 
Reading for accruing knowledge, makes one a ready man; 
Conference activities makes one a confident man in life; 
Writing needs true facts to write making one exact man!

These are the facts Francis Bacon has said in 16th century; 
How true they are even today making one rely on his ideas; 
But the coming of social media has facilitated many useless 
Matters to be seen just for passing time is a big waste..!

Reading useless matters makes many as useless persons sure; 
Asking useless questions not grasping important ideas of any 
Matter makes one funny charlatan only instead of an intellectual 
And wise one among well versed audience in the society today!

Sans general knowledge, common sense and presence of mind, 
Surely one cannot understand where one is in the world now 
And also cannot know one is awake or still sleeping, while 
Wide open eyes blind to see reality and open ears deaf ever!

Ramesh T A
Many world languages are not easy to learn
Quickly to write letters, articles and stories
For communication with others and reading
Books due to script variations, remembering
And writing difficulties whether old or new!

Single script for all languages is the dream of all;
But it is not an easy joke to implement in use ever!
Also, due to such difficulties and impossibility, it is
The great wish of many to have single language for
Communication all over the world since a longtime!

Now the world has shrunk to a very small size due to
The coming of Computer and smart phones in use....!
Only Computer languages will survive in the future
And that seems to be confined to a very meagre number
Leaving other languages to the stage of extinction soon!

For the survival of any language, the alphabetical letters
Should be less, easy to remember, learn and write by all!
Only if it is so, any language can be quickly learnt for
All immediate use to read and write for communication
And sharing of new ideas in the competitive modern world!

Ramesh T A
Gambling Game Of World Economy!

All transactions of humankind seem to be controlled by money value; Any matter sans money value has no importance in the human society; Also, a person is valued based on one's possession of money or wealth!

Black money and fake money have a shadow economy behind white Economy of a country in the world taking advantage of all sections of People's short cut interest to rich status by any means in world affairs!

Thoughts of money make one sick of it, good, bad or wild in the world; Judging one by money is too bad and ridiculing human beings due to Materialism ruling the world since the time of invention of money ever!

Judging a true human being is possible only by love, but never by any Other means to make this world a good place like heaven we all love; That kind of situation, when will we have in this fast materialistic world?

Tossing the coin up to see head or tail, all matters are dealt with as in Gambling game all are dragged to play in the world of economy ever!

Ramesh T A
Games For Winter In Indoor!

Chill weather accompanies winter mist, fog and smog
With ice cold wind in the evenings till night comes;
Warmth of morning Sunshine gives great relief ever
With 30 deg. and falls to 19 deg. in the nights long!

Long dark nights make all sleep long comfortably to
Have best rest and relief with sweet romantic dreams!
Due to heavy mist and fog, no one can out for anywhere
Making many indulge in indoor games like Chess or Cards!

Carrom board coin pushing with striker brings great joy
To children of energetic aiming accuracy to pocket coins!
What a joy all have in those games of great value since
A longtime of world life in many nations during winter..!

But Cards with fifty-two pieces cover the whole year...;
Yes, each card represents each Sunday of a year sure...!

Ramesh T A
Games, Gambling And Wars!

Playing game as training before waging war well
Kings, soldiers and all guys spent time in Chess!

As brave soldiers going to Mahabharata war then
All witness cricket players entering the field now!
Betting on cricket players go on outside the field
While spectators encouraging players as on arena!

Betting on horses in horse race after taking loan
There is no chance of knowing victory or defeat!
When game becomes serious after defeat both
Debtors and debtees have real fight to death now!

Same thing happened in Mahabharata epic too!
After dice game opponent became ruler ordering
Slaves spend 12 yrs. in forest and 1 yr. in incognito;
Then real war between Gauravas and Pandavas
Brought Lord Krishna to make dharma settle all!

If game becomes real act universal disaster is sure!
Games should foster friendship but not enmity ever;
Gambling should be banned for good of mankind sure!

Ramesh T A
Gems Of Humanity!

All beautiful and smart ladies seek security and joy to live life;
Beauty is their weapon as pen for poet and gun for soldier in war;
Care they take with whom they can align themselves to in the world!

Details in minute they gather to form correct opinions for all ever;
Everything they want to surmount without harms by their cleverness;
Fun with friends they enjoy much to strengthen their strategy sure!

Great many achievements in the world are by their ideas behind screen;
High royal places are where they stay long and effect great things;
Iconic activities are mainly due to them have been enacted in the world!

Joy of achieving greater good for the world has come out of their brain;
Kings, ministers like Julius Caesar and Antony are pawns with Cleopatra;
Love they use cleverly to movie their coins in Chess board of governance!

Many a kingdom rose to power and fell down due to their manipulations;
Now shrewd and smart ladies one can notice even in plays of Shakespeare;
Openly they challenged opponents and won battles by their intelligence!

Power behind great kingdoms were in the hands of such ladies we know;
Queens of great world empires were smart and wonderful ladies only ever;
Royal breed of ladies never seemed to have left sans doing great acts!

Sustaining in power long they controlled administration efficiently;
Truly they did best ever and died in dignified death, when they failed;
Unique talent of survival kept those smart ladies in well to do status!

Various positions they occupied in various countries of world history;
World admired at their greatness not only behind screen but also in power;
X and Y they may look like due to modesty, but in skill they excel many!

Years of skillful works and learning by experience, they were wise ever;
Zealous activities of beautifully smart ladies made them gems of humanity!

Ramesh T A
Genesis Of Poetry!

Poetry with music is born as song forever;
Song without music is forever poetry only;
Poetry anywhere in the world has a language;
But music with or without song has no language!

Rhythm of poetry is the music of song forever;
Music has no beginning and no end as God we know;
Tune of music like rhythm of poetry conducts song
Like God as Universal spiritual energy activates all!

Poetry only gives voice to song with message and meaning
Like music gives sound and sense behind every song;
Music from heart like ideas from mind makes all dance;
But God inspires heart and mind to create poetry and song!

God only inspires music in heart for mind to create poetry;
Rhythmic poetry guides all as musical song to live life well!

Ramesh T A
Genuine Joy Is A State Of Mind!

Freedom only gives confidence and joy to do all as one wishes; Freedom with food, clothing, shelter, education and job indeed Can give genuine joy to all classes of people in all world nations!

Even without necessities, dream of prosperity gives inspiration And joy to the extent of bringing hope with confidence within Kindling great efforts to get all needs to be self content sure!

Self progress achieved so brings genuine joy of satisfaction And self confidence to one to have the feeling of even moving A big mountain posing as big threat to one's forward stride...!

Genuine joy is a state of mind that sustains due to dreams of hope That one achieves by ideas got from knowledge and experience ever Inspired by seeing the survival of even the mean beings in Nature!

By self efforts, when all necessities are achieved to self sufficiency, Genuine joy is surely achieved by one who has self confidence ever..!

Ramesh T A
Genuine Love Is Natural Love!

Genuine love is natural love that spontaneously
And directly starts from heart towards another one
With empathy to feel joy and sorrow of the other!

Genuine love is ageless and transcends all barriers
Of race, religion, nation, colour, creed and culture
And is blind to all restrictions whatsoever anywhere!

Whatever be one's status, power and position in life,
Genuine love sees a human as a human only and nothing
Else, but ever as equal among all ages of beings sure!

Whatever be the social conventions and family taboos,
Genuine love never bothers about that at all and lives
Only for love with all sans seeing any consequences...!

Genuine love is pure, natural and true as poetry that
Spontaneously flows out from the depths of poet's heart!

Ramesh T A
Gestures Of Love!

Loving soul's embrace and kiss to the loved one has
No hesitation, anything in mind and natural as the
Air we breathe to show how much one loves the other!

Only loving being has free mind, heart and soul in life;
That kind of love is what needed to be cherished ever
To make life enjoyable with real joy and pleasure sure!

traditional cultural gestures of love are good to follow;
But real gesture of love is sensuous and passionate sure
And that only kindles real affection, attachment and love!

True love never betrays unlike the passing cloud like
Gestures of traditional cultural love among relatives or
Friends meeting each one usually in a matter of fact way!

Passionate and sensuous love only shows real gesture of
Love of one to the loved one wherever and whenever meet!

Ramesh T A
Gift Of Arms!

All who take arms

Meet with sure death soon

By arms they trust!

Ramesh T A
Gift Of Flowers!

Gift of Flowers!

Beauty of colourful flowers brings joy indeed,
Kindles mood of creativity to do beautiful things
Similar to the natural beauty of flowers in life!

The freshness and smiling beauty of flowers ever
Give comfort of heart and inspire mind to be full
Of special energy to take all matters lightly sure!

Presentation of bouquet of flowers is the best way
To bring rapport and friendly mood to anyone
With whom we have to deal all our matters in life!

Beauty of flowers and their fragrance kindle love
And bring down tense and rigidity of nature to
Softness enabling love to prevail everywhere sure!

Sans the presence of colourful flowers of many kinds
Love and friendliness in the world can't be initiated!

Ramesh T A
Give And Take Policy A Great Panacea!

Parrots, pigeons and mynahs fly here and there and settle in the trees;
But with its beauty and dance peacock attracts its mate for a love play;
Yes! It's Monsoon rain that kindles joyful mood to rejoice after a long drought!
They are the harbinger of fortunate time for the farmers also to dance in joy;
For, for want of water crops are drying up in hottest summer left to Nature's mercy
For relief and recovery from scarcity to surplus of water for rich harvest later!
Just as for ecological balance, all species of Nature follow give and take policy ever,
Men and States in long dispute for sharing of riverwater, follow as Nature does;
Give and take is not only necessary for good friendship, but also for solving all!
Neglect of Natural resources in the development of technology and trade promotion,
Pollution has increased to the extreme extent of changing climatic condition
Endangering environment resulting in long drought, storms and floods!
Destruction only and not construction are the out come of greed and no cooperation;
Nature shows by give and take policy for men to balance themselves in fortune and misfortune!

Ramesh T A
Give Chance For Peace And Love To Rule!

Give Chance for Peace and Love to Rule!

One side terrorist bomb blast and
Other side building collapse are
Man made and by accident too;
But both are tragedies unbearable!

One side cyclonic storm devastation,
Other side deluge due to heavy rains,
Besides earthquake in one part of globe,
Volcanic eruption in other part are there!

Devastation due to man made cause,
By accident and by natural cause are all
Indeed day by day we hear and see, make
All sad and helpless and plunge in grief!

Seeing these happenings at least, let all
Stop thoughts of violence and think of
Rapport, relief and reconciliation with all
Giving chance for peace and love to rule all!

Ramesh T A
Glory And Chores!

Sound signals of birds are unique songs
That welcome me just before sun rise!
Red sun behind the opaque sky of clouds
Shines like beauty behind purdah dress!

Veiled beauty not many can see often.....,
But only close persons have the privilege!
In the early hours not many witness this
Just as I have the privilege to wonder at!

Only a few goes for a walk to the beach
As there’s no other go to maintain health!
Retail fruits and vegetable sellers go fast
With a vehicle full load before day starts!

After that a sea change of day occurs soon
As hot sun burns the town with full effect!
Then the beauty of morning glory goes away
Leaving us mind daily chores till evening....!

Ramesh T A
Goals By Clever Decision Decide Victory Of Game!

Visualizing on goals, thoughts of games like football or Soccer and rugby come to mind and the craze for it by Fans like cricket fans haunt whenever i see such games!

Aim of players on both sides is only on the goal post to Put more goals than the other so as to win in the game By fair or foul means hoodwinking the referee of the game!

Likewise in life and work, visualizing the whole course, Many fix goals to achieve the ambition of dreams somehow So that the laurels they get will change their future best!

Winning the objective of cherished dreams all goals all use as Steps to climb to the top to hoist the flag of victory as mountaineers Do on the Mount Everest to claim the eternal glory in record!

Goals are the deciding factors of victory in games, life and Work as clever Captain Dhoni does to win cricket games ever!

Ramesh T A
Goat's Nature!

If one goat falls in the sea

From the ship other goats too follow

The same as it's goat's nature!

Ramesh T A
God

I hear the voice of God
In the echoing music high;
I see the beauty of God
In art of Nature in the sky!
Who says there's no God?

Ramesh T A
God Is Friend!

Inspiring words of friend lifts up soul
That has fallen to the abyss long ago!
Downfall comes at anytime anywhere;
But getting up to achieve is great real!

Cause behind rising is surely a friend,
Who knows real calibre of one for sure!
Even sans a friend inspiration of poet
Turns weak to be strong to do great!

There the poet is the friend to one
Just as God who helps one in need!
Never feel to be thrown out of field;
For, still there is scope if a friend is!

God in some form helps one in need
And ever lifts up one though fallen!

Ramesh T A
God Is Universal Spiritual Energy!

God is present everywhere in the vast Universe full of Stars ever;
God as Universal spiritual energy activates everything everywhere;
God is in heaven, hell, Earth, Stars, planets and Space forever;
When this so, many still search for God not knowing He is within all!

By feeling, spiritual realization, thoughts and meditation in Nature,
God can be visualized and mystically experience bliss in the beauty,
Fragrance of flowers, music of birds, cool breeze in Summer, warmth of
Sun’s heat in Winter, sweetness of fruits in Autumn and fresh spring!

For the optimistic thoughts of man, positive attitude of all and faith
In the truth of matters, God always fulfils all wishes reasonable and
good ever sans fail despite the utterances by even slip of tongue by
The deeply meditative mind finding pleasure in philosophical truth ever!

Presence of God in everything everywhere activating everything everywhere
Surely makes all negative things as null and void towards positive joys!

Ramesh T A
God Only Gives....!

Do your duty
Without expecting reward
God will give!

Ramesh T A
God Thinks Some Other Thing!

There is no time to enjoy life on matters we love most!
Most of our life time is spent on matters of no interest
As they all exist as obligations we have to carry out ever!

Our interests are spoiled by the interference of obligations
We cannot ignore or set aside or leave them to others to deal
And that strangulate our neck and put as in abysmal soup!

It's a great odyssey to come out of the dark tunnel for long
To see the light of the day to think about the next good move
So as to have some respite, relief and rejoicing with our dears!

Many a time great moment of our life is spoiled unfortunately
Like the bear entering into the puja room to spoil peace and
Or like the monkey entering into the garden to destroy its beauty!

When we think one thing, perhaps God thinks some other thing
Bringing fate into play to twist each one's life to test our faith ever!

Ramesh T A
God!

Infinitely eternal Being!

(Oneryu poem)

Ramesh T A
God, Man, Stars!

Stars, planets
And lives in the Universe are
Inter dependent!

God alone
Of all beings everywhere is
Independent ever!

Man is ever
In a transitory state till
Attains Moksha!

By many births
As change of hues he reaches
Absolute transparency!

Communion of Self
With the Universal Spirit makes
Absolute sure!

Ramesh T A
Gods And Religions!

Fear is the key for man to surrender and worship
The powers visible and invisible anywhere sure..!
Some power beyond human decipherability has
Made man to believe and rely on for redemption!

That power beyond human comprehensibility is
Believed to have existed and controlling all affairs;
That all pervading power activating all beings is
What man called in one word as God since long!

Worship of formidable creatures, Nature and later on
Combination of all those aspects in one is our God we
All lovingly celebrate in all festivals and worship believing
That all our woes will be solved if we worship with awe!

Many miracles by personalities of extraordinary powers
Have made man rely on their preachings and religions
Have come into vogue for worship in a formalistic way
Under the aegis of such personalities since time immemorial!

Ramesh T A
God's Gift Is Sudden!

We imagine so many things
But our work life is different
Making us seek relief
Sudden outburst of our heart
Make as express ourselves
That reveals our gift of God!

Ramesh T A
God's Law!

You can hoodwink man's laws
And escape from all punishments always
But cannot from God's law!

Ramesh T A
Gods Of Legendary Stories!

Many believe classical stories of mythology to be true; Writers of such stories have cleverly used history and Have created them with places even today we can see!

Heroes of legendary or mythological stories are worshiped As Gods built with elaborate temples in historically famous Places creating the impression that they are real Gods ever!

Morality or Dharma poets have advocated through heroes of Legendary stories are wise and worthy ones to follow now also; But the God like characters can't be believed to be Gods sure!

For, Gods are not like the angels or supermen we all believe As the nature of God is beyond human mind to decipher ever Since God is an all pervading spirit activating all in the Universe!

Since men of little knowledge can't understand or visualize God, Their capability or valour is said in stories as human characters!

Ramesh T A
Going Along With Time Now!

Time runs fast, faster and fastest always
Whether we think, speak and do anything
Worthwhile or not in our day today life!

Just passing time in wasteful talks we
Spend most of our time sans any sense of
Relevant thoughts and useful works ever!

Long talk over phone has become a great
Pastime for many after the advent of all
Sorts of smart phones in the hands of all!

No one thinks independently as computer
Search and informations give all details
If many grasp and understand at all ever!

So, sans Computer and smart phones, it is
impossible to go along with time ever now!

Ramesh T A
Going Round And Round To Nowhere!

Understanding of matter depends upon attitude of a person;
It is the variation of attitude between persons misleads all...!
Different way of understanding leads to misunderstanding;
Sans knowing the attitude of all exact understanding is nil..!

Misunderstanding creates suspicion leading to doubts and
That build up tension leading to nowhere but depression
And worries making it impossible to solve problem ever in
A frozen state for a longtime resulting in cold war endless...!

To avoid unnecessary clashes between persons of same side
Considering the common interest and needs of both and also,
Accepting common approach to settle matter is the best way
To a long way in the life of the world to maintain peace ever!

If going by the personal approach to face the issues will surely
Lead to a big labyrinth only to go round and round to nowhere!

Ramesh T A
Good And Bad Acts Paid In The Same Coin!

House breaking and robbery of precious gold and diamond jewels,
Gang rape and murder of small girl children in holy shrines and
Hacking to death rowdies by rowdies are common local news often!

All these atrocities are carried out as revenge, though a very
Big inhuman act, producing panic and turmoil in the society of
All kinds of people and underscore the need for good education!

Corruption, religious rivalries and political cold wars are making
Men abhor such practices escalating day by day leading to anarchy
And disintegrating the unity of nation fueled by terrorism sure!

These things happen as consequences of the acts already done by
Some opportunists to a lot of people by corrupt means and also,
Due to favouritism out of partiality and go on so still everywhere!

Action and reaction for good and bad acts will be paid in the same
Coin, if things cannot be justified, when become unbearable sure!

Ramesh T A
Good And Bad Life!

Life is both good and bad in this world;
Adjusting oneself to all, life has to be lived;
Otherwise, life will be either good or bad.

Ego clashes should be subsided under love,
For, love only makes life flourishing here;
But never hate or fear can make life livable.

If life is lived with a good ambition, it's fine
To do best thing one loves to express one's self
That can bring interest and joy in all we do!

Recognition of each one's jurisdiction is better
And noninterference in the internal affairs of all
Will surely help coexistence possible in diversity!

Unity in diversity in life paves way for coexistence
With cooperation and coordination on a cause noble!

Ramesh T A
Good And Bad Of Children Depend On Their Fostering!

 Showing love to pet children and neglecting other children
 Surely hurt the feeling of children playing together ever;
 This act of partiality of love is worse than a brute bitting
 The children to drive them away from the group they belong to!

 Separating the sibling hearts is a greatest sin elders should
 Make a note and correct their behaviour before little children;
 Breeding hatred among little children develops them as ruthless
 One as they grow old to turn them as antisocial ones later on!

 The children becoming good or bad depends upon the way elders
 Foster, treat and grow with good habits and love along with
 Good education and exposure to healthy living condition in and
 Around their habitat from the childhood to boyhood sans fault!

 Above all, love is the way to deal with children with tender
 Hearts whether they are rich or poor in own family or others!

 Ramesh T A
Good And Bad Times!

All nice things happen, when the time is good!
Chariot of residing deity will go in the morning;
Rain that is dodging will come and cool down all;
New born baby will bring joy to all in the family!

All bad things happen, when the time is hard!
Troubles will add to the already bad situation;
Unity of the family will go to pieces by hatred;
Even days would be very hot sans any respite!

When all good and bad things have happened,
Better time will start and normal life will go on
Making all things happen well sans much efforts
And life seems to be bed of roses without thorns!

If we are able to balance both good and bad times,
There will be no necessity for heaven and hell ever!

Ramesh T A
Good And Evil!

Is Halloween's Day a day of hell or scary fun day?
It is the day allotted for evil spirits to move free;
This day reminds me of Pop singer Michael Jackson's
Most famous pop number, The Thriller quite famous ever!

This kind of celebration looks similar to the ancient
Indian legendary story of Hahabali Emperor belong to
Asura race but respectful of Lord Vishnu was granted
A day of honour to come to Earth for this faithfulness!

He was destined to live in the under world forever
By Lord Vishnu, but as a token for his faithfulness,
Mahabali is allowed to visit Earth on Vonam Day and
All people celebrate this day as victory for dharma!

Holy spirit and evil spirit are representing two -
Dharma and Adharma or virtue and vice or good or evil;
Evil is allowed to roam about free first before it is
Being permanently put in the dark abyss of Hell ever!

Ramesh T A
Attachment based on passionate love is a strong emotional force
That makes one have extreme state of enjoyment or suffering...!
That's why Hinduism and Buddhism advocate non-attachment in life
To overcome extreme emotional joy or pang to a balanced state..!

Non-attached way of living with universal love seems to be better
To bear agony and to moderately enjoy in bad and good time ever!
Living life so from the childhood on it would make one have no
Pain and pleasure affect much one's emotional nature till the end!

For normal person sans any jealousy, malice and inferiority sense,
It seems to be good mode of life that's suitable for any relationship;
But the inwaardly complex ones, though look to be developed so, are
Actually have pleasure, when someone close suffers in life in the world!

Such inhuman and materialistic ones, though cannot bear the joy of
The close friend, don't show themselves of such complexity of nature!
Friendship of such persons is just a show to the society of their
Relation as friendship, but in actuality such ones don't have friends!

Ramesh T A
Good Bye Autumn!

In the chill of engulfing Winter weather,
We bade our good-bye to Autumn still more
Chilled to biting cold level each day sure
With the mind engrossed in the rain and
Storms to come sooner or later before the
End of the year for all to say good-bye
And welcome New Year will fun and pageantry
Bon-fires cracking as in the Diwali of India
All over the world a new beginning of life
With yet another renewed vigour we all will
Start a new course of line with good and
Well thought out resolution to follow and
Achieve many laurels in flying colours in
The many more months of the New Year soon!

Ramesh T A
Good Efforts Pay Rich Dividend!

A free life, who can live in this world?
Being a family man or leader is all right;
Care one takes for all makes one great!

Delight in doing good to all earns love that
Everyone shows for the burden one carries;
For all pains one suffers love serves as balm!

Good things come to the one who works hard;
High pay or low pay, work is worship one feels;
Icon one becomes, if one does extraordinary things!

Joining hands with the sincere, one enjoys support;
Keeping abreast of all know-hows, one progresses;
Luring all by best acts, one reaches to the top sure!

Money is not the objective, but goodwill is sure ever;
Nobody knows what misfortune will fall on one when!
Oblivion will not affect one who is open in heart ever.

Power corrupts all indulging in politics of short benefits;
Quenching the thirst, one gets inspiration to go ahead
Resorting to good means only eschewing corrupt one...!

Sustained efforts make one feel free despite hardships;
The thought of better future drives away all bad omens;
United efforts of good ones, make matters better ever!

Veracity in thoughts, words and deeds keep one surely free;
World of woes there may be, but finishing tasks well is fine;
X or Y or Z may be the task master, but good results pay all!

Years of hard work and good will finally pay rich dividend;
Zeal to see best time finally, drives all sorrows to pieces sure!

Ramesh T A
Good For Nothing Matter!

Persons of hurry generally have less knowledge;
They never take all aspects into consideration
And jump to some conclusion and hold it very
Tight as a monkey's grip over anything ever....!

Also, it's very difficult to make them understand
And win over an argument with such idiots.....!
As a monkey that jumps over from one tree to
Another tree, they change mediators too in case!

Due to lack of patience, They take any matter to
The extreme level and hurry up to finish off....,
As they can't bear it in mind to proceed further
And solve it in a smooth manner knowing truth.

Due to lack of of knowledge and patience, many
Fight endlessly for good for nothing matter ever!

Ramesh T A
Good For Noting Fellows!

What can we say about the people who talk and talk,
But disappear, when someone of the group is in trouble?
Why are they doing so and why can't they do something,
When someone of the same group is in trouble at times?

Then after everything is over, they again start the same
Sort of behaviour to continue usual relationship ever..!
Relationship is just for talking only, but not for any
Other kind of activities to improve better relationship!

Are they serve any good purpose to improve social status,
If such kind of activities only go on and on forever sure?
If such kind of things are encouraged, doesn't it develop
Good for nothing fellows only useful for nothing in life?

Is it not better not to have such kind of companions ever?
It is better to be alone rather than having companions so!

Ramesh T A
Good Friends!

Good Friends!

Friends are unique personalities to meet anywhere at any time; For, with them only one can have free talk sans any pre-design. Not only that, but also, all things from A to Z to be free of any Doubt and proceed with free and clear mind with our business!

Always friends of good character and open heart all have real Good time and really worthy thoughts one can have sure ever; A friendless soul is really a lonely person in the world Independent in the real sense so to say who has to do all alone!

For such lonely souls, independent thoughts suggestions, ideas And all one gets direct from Nature, the best friend and guide; For the intellectual soul, books of philosophical ideas and Poems of sublime nature foster heart, mind and soul to divinity!

Not only humans are friends, but also, books, Nature and all Are good friends, if they are useful and helpful to live well ever!

Ramesh T A
Good Governance!

Best democratic rule

Never interferes in one's

Liberty for all its acts!

Ramesh T A
Good Is Great!

Denial of love makes the child seek it somewhere!
He moves with all who love him with kindness and
His reciprocation of love is enjoyed by all good ones!

Neglect of love from a sorrowful mother who has
Never seen her mother due to suicide death soon
After her birth and her suffering in a new atmosphere
After marriage and child birth is a sad situation sure!

More over demoralization, distraction, disturbance
And discouragement from the dominating members
Are great impediments in the happiness of a child to
Grow up with confidence and courage to excel in life!

But judging all by the scale of love, he then identifies all
Good, bad and ugly in the society and develops critical
Mind to know truth to go ahead on the right path ever!

Ramesh T A
Good Means And Ends!

Differences of all kinds develop hatred but not unity among all m;
Differences like rich and poor, colour and race, religion and region,
Male and female, learned and educated, literate and illiterate and
All discriminate, segregate, isolate the lesser privileged for ever!

Only education and job empower the downtrodden to come up and
Eradicate all differences causing disturbances, turmoil in all places!
Opportunities for education and jobs, rulers have to create to solve
All problems of inequality, discrimination and segregation forever!

Just by passing laws all things cannot be set right in the society,
But by changing the attitude of the people by creeds and moral up
Bringing of all by the people concerned in the society supported by
Elders and superiors wielding power over the communities ever...!

Right knowledge by education, maturity of mind by intellectualism
And love by religion are the good means to bring about good ends!

Ramesh T A
Good Means To Good Ends Lie In Wisdom!

All roads led to Rome, when it was centre of world power;
But now all nations go to UNO, New York for world peace;
Counties in conflicts need to be stopped by nations now!

Differences of ideas may cause conflict to settle matter;
Everything can be settled only by direct peace talks ever;
Fight for wrong cause is a big threat to world peace sure!

Good means for everything will surely lead to good end ever;
Hot and clod the climate may be, but prevention is better;
Ice cold indifference will not be good to solve issues sure!

Joint action plans are ever good to thwart threats to world;
Keeping the issues at the back burner will not be good for long;
Losing battles are due to wrong cause and lack of wisdom...!

Many years of long protracted wars were due to ill-ideologies;
No one can gain by such acts even today, but now it's different;
Over all hatred by modern and religious cultures, wars are there!

Particular system of life and life based on choice ill go together;
Questions on settling such matters are beyond the scope of both;
Reforms are necessary on both sides to bring about rapport now!

Systems of worship, styles of living and cultures differ among all;
That does not mean that unity in diversity cannot be followed;
Unity, friendship and developments based on humanism is welcome!

Various ways are there, if choices are increased for human bonds;
World unity in diversity, coexistence and cooperation are best sure;
X, Y and Z so that will have opportunity to contribute better things!

Years of arms building and protracted wars will not solve anything;
Zeroing all concentration to bring an end to wars is good for mankind!

Ramesh T A
Thoughts of close friends appear in the mind now and then;
The funny days we have spent come again on mind's screen;
But due to other engagements it's not possible to meet them;
Likewise days pass on sans notice and their thoughts are there!

No plans click well to see them in person anywhere we prefer;
Then we forget the plan of meeting them ever and days go on!
Likewise many years are going on unnoticed and we are also
Getting older day by day reminding that we are not young...!

At the good old age, will it be possible to regain our youth ever?
But we are all still young in our hearts and think so of old days
That have passed beyond our recovery to enliven once again..
The good old days of fun and pageantry we have enjoyed much!

Young heart still energetic in good old body, can we again regain
Our good old status to indulge in romantic adventure in life ever?

Ramesh T A
Good Or Bad, Love Is Right!

Sense of love and sense of sexual interest are two things to see; Anything without sense of love is doubtful to accept ever sure; There can be love sans lust, but not lust sans love in human life!

Romance begins with sense of love, goodness and beauty ever; Union of two romantic beings is natural and delightful in world life; Such a relationship going on life long is wonderful to enjoy sure!

Love between two hearts never sees any secret in each others; Covered or open, there is nothing to hide top to bottom in them; Naked they live naturally in their personal life wherever they are!

Not even a speck unknown of theirs between them, good or bad; Once in love, they never betray each other till the end of time...; Trust worthiness least changes even on alien place or time ever!

All good, bad and ugly acts of their life are shared against all odds; Complete enjoyment and satisfaction bring perfection in their life!

Ramesh T A
Good Time For Bad, Bad Time For Good And Hard Time For Dharma!

People following moral and religious principles are pious in nature; In the present world of chaos everywhere, one feels pity for piety; Morality no one follows not caring about religious preaching about Heaven and hell one is sent to after death based on sins and virtues!  

The word God itself is questionable in the present world of violence Making all out or order and leaving without peace of mind for sure; All do duties to engage one's time to forget woes of the world and Feel better to take rest at night getting tired by over work ever!

Corruption, malpractices in all walks of life fueled by vandalism Of rowdies, law and order are out of gear when everything is ever Politicized to fight between ruling and opposition parties everyday Both in the parliament and public life proving it is time of Kali!

Kali Yuga is the time for destruction of good values and time for The command of bad values driving Dharma to hard time to resolve all!

Ramesh T A
Good Time Starts After A Bad Dream-Like Situation!

Respect and honour of each and everyone lie in
The way one behaves and moves with others ever!
If you don't believe, listen and understand others,
You cannot solve any matter with a smooth solution!

Some are like that and believe others who criticize
Someone and take advantage of it to fool one in soup!
But such adamant fellows are put to surprise illusion,
When the criticizing people support the criticized one!

Lack of knowledge and good background of such ones are
Great threat to ones who believe and move with such ones;
Dealings of innocents with such hard nuts end in tragedy;
For, the hard core elements take advantage of innocence!

Whatever be the happenings, respect and honour of good
People save them from big traps, troubles and teasings
And the lesson got out of such a bad dealing will serve
As an eye opener to forget it as a bad dream to go ahead!

Ramesh T A
Govt. Promises!

Govt. promises are

Ever increasing interest

But implementations

Seem to be very poor

Making all frustrated!

Ramesh T A
Grandeur An Outcome Of Transcending Nature Of Noble One!

Only activities of charismatic personalities reflect natural grandeur
That even after a long time all talk about it with everyone forever!
Grandeur in output of great ones' achievement ever highlight their
Cherished dreams and lofty ambition that sure say about them forever!

Not only in politics and social services, but also in literature and
Other scientific and technological feats, nature of grandeur is known!
Grandeur surely produces a sense of amazement when one happens to see
Such a greatest feat in person anywhere inspiring one to do so oneself!

Grandeur is not a thing one can dream about, unless one is an expert
Genius in creativity or inventiveness with real perfection of skill
Based on erudition and lofty dreams since a longtime in one's life
Nurtured by a broad and noble mind with great heart to do grand things!

Indeed such a feat of grand work can be possible only by great man of high
Thoughts, magnanimous heart and high spirit of transcending nature forever!

Ramesh T A
Gratitude

You should not forget

The help one has done to you

Though break all in life!

Ramesh T A
Gratitude For The Love!

If lotus flower is Sun, then lily flower is Moon on the earth; 
For, they bloom respectively at the rise of Sun and Moon! 
These flowers bloom to respect the windows of the Universe 
And also for the energy they get direct from them forever!

All plants and vegetation of the world get energy direct from 
Sun and that other beings consume to get energy to function! 
Sans energy, nothing can act to survive or to create anything 
For the perpetuation of species on the living planet Earth sure!

The spirit in the all pervading energy is the creator, preserver 
And destroyer of all living beings everywhere and forever sure! 
Energy only gives boldness, strength and vitality to do anything 
Activated by the spirit within all living beings and inanimate ones!

Like the flowers show their gratitude for the love of Creator, we 
Too can do a lot with the gift the Almighty has bestowed on us!

Ramesh T A
Gratitude To Nature!

Gratitude to Nature!

Nowadays rains have become a common thing every night, Though there's no symptom of them in the hot mornings...! It has become a regular feature everyday to make balance Possible in this fashion by beloved Nature being dutiful...!

Even there were Moon and Stars very clearly visible long; But late night everything changes to bring about this scene, Which is very pleasant and cooling for the night sleep sure And to have a pleasant morning too when we wake at dawn!

As a caring mother, Nature surely makes all get what's needed Without fail in all the seasons of a year whether it is soon or later Making all wonder and appreciate her with gratitude like us As we express all our feeling of appreciation by our art unique!

This planet Earth is still surviving due to this love of Nature That we have to cherish by preserving Earth better than before!

Ramesh T A
Gratitude To Earth And Nature Is Our Due!

Earth is the mother for the whole of mankind in the world;
Nature is the friend, philosopher and guide to all forever;
The freedom man enjoys here nowhere one can get in the Universe;
Out of too much freedom he has forgotten their very existence!

Our gratitude is to preserve Earth for all gifts she has given
So long and on and honour Nature, the Art through her and most
Of all, the culture we have invented to follow based on our life
We have lived well with them so that we can perpetuate love long!

Love is the care Earth and Nature have taught us to grow well
And be developed and advanced both by emotion and intellect,
The way paved for the development of spiritual ability too to
Attain higher state of freedom compete from all bindings here!

Wherever the bird flies in the sky, it has to come down to take
Rest for further adventure further to go to the eternal abode!

Ramesh T A
Great Achievers Of Talent!

Education and learning are all just alphabetical letters; What one does with what one has makes or mars one! Background and role model of great achievers are not An easy matter to know and decide about many a time!

Expressing latent talent is an art of life one has to learn Having a suitable ambition as the driving force of life Getting inspiration from the achievers of great things One comes across in life everyday and do best to be so!

There are no mentors and example for anyone to follow As each one is a Unique being exploiting one's own Resource at one's disposal and builds up with inspiration Got out of the mood of great zeal now and then in life!

Poets of such beings, who create now and then great master-Pieces out of inspired mood, are an example to quote here!

Ramesh T A
Great Artist's Way Of Life!

Awards to artists are recognition and encouragement;  
They serve as incentive to create better and best ones  
Enhancing one's power of creativity to maturity ever!

But awards and prizes are not so important as the praises  
Of contemporary artists and their wishes serve better to  
Cheer up the mood of creative geniuses to do masterpieces!

Our life may be short or long, but what we do and leave  
Behind should be of great encouragement, help and guide  
To posterity and the world at large that makes one great!

The mark one leaves behind will speak even the artist dies  
And leaves the world for his favourite place somewhere up  
Entertaining, inspiring and encouraging all people forever!

Awards may stay in the showcase, but the works of art left  
To the world lives forever in the loving hearts helping all!

Ramesh T A
Great Benefit Of Freedom Of Friendship!

Value of freedom and its use in life are for the first time
One realizes and enjoys only after one becomes a friend with
Like minded friends in friendship in school and college life!

The romantic way of life of friendship is really a great one
One cannot miss of all relationships one may have and will
Have afterwards in the journey of one's life in the world!

Friendship gives confidence, courage and endurance by its great
Support one cannot expect or get anywhere else from anyone else
And there only free thoughts, ideas and conviction are formed..!

Pursuit of knowledge through friendship enlarges to know full truth
Kindling one to have a vision of whole about one's journey of life
And work enabling one to have a broad ambition to achieve as his mark!

Against all odds and difficulties, only one's ambition drives one's
Vehicle to reach the destination one has realized in vision to reality!

Ramesh T A
Great Creativity Ends In Beauty!

Beauty is adequate expression in art or proportionate
Body structure in human being or it depends upon the
Way one has the view or it is the expression of truth
Without falsity and is the thing that brings joy ever!

It gives great joy to enjoy beauty in art and all things;
Beauty is what all look for in any creativity of man ever;
Beautiful expression is the outcome of love one has in
The art or any creative work in any field in the world!

Beauty is the finishing touch given to any work done by
Anyone to attract all and appreciate it in recognition of
Anything produced for the use and benefit of all forever;
Beauty is the external work of great creativity finally!

Value of any work or art done with creativity or inventiveness
Finally is attracted by its presentation in a beautiful way!

Ramesh T A
Great Desire Of Human Beings!

Kindness and love bring closer two souls...;
With the seal of kiss they are united as one
Increasing joy of pleasure transcending all
Human limitation to higher level quite unique!

What a beautiful world with Nature making
Possible love as the greatest power that can ever
Increase but never disappoint souls in love in
Human relationship quite wonderful indeed!

This is the thing of beauty in human relationship
That brings joy invaluable to make this world
The best place of human habitation to proceed
Ever in fulment and never in distress in world life!

Achieving this state of human wonder is the desire
And the purpose of all human beings in the world!

Ramesh T A
Great Difference Between Selfishness And And Selflessness!

violence everywhere is the product of selfishness ever;
Love to all is possible and the outcome of selflessness;
Mercenaries and terrorists to satisfy their needs destroy
All good things and people created and fostered by love!

Acquiring wealth by selfishly violent activities can't be
Carried away with anyone, when death comes to one sure ever;
But love shared with all for doing a lot of common good and
Love earned from all give great relief, freedom at death sure!

Due to selfishness only joint family and business are spoiled
Leading to nuclearization of joint families to selfish persons
Who do all activities connected with violence to acquire wealth,
Sin and die in chaos and horrible deaths are their end sure..!

But loving souls earn love of all people spreading love and joy
Everywhere to have a blissful life and end in peaceful death sure!

Ramesh T A
Great Epics: History Or Story?

Classical poets have written great epics that last forever; Are the epics history or just stories? Many have doubts! Iliad of Homer, Ramayana of Valmiki and Mahabharata of Vyasa never look to be stories but real history of the past!

Places and relics of epics take us to those times, bring all Those great events to our mind's eye and make us believe Them to be true and still remain fresh in world literature Making all think about life matters as thought before so...!

I doubt such a thing of great skill can ever be written unless Willed by the Almighty to think of life ever in those lines sure! What a marvelous achievement those classical poets have Done for world men to remember and cherish them ever....!

Writing epics of that kind never seems to be possible to make Even an attempt whether it is successful or not by anyone....!

Ramesh T A
Great Literature Flourishes In Poetry!

Poems upon poems are piling up in poetry website;
But all are ores needing to be extracted and filtered
To get diamonds, gems and gold out of them......!

Poetry writing has become a fashion for communication
Among like-minded pals to have what they wish to share
And enjoy some fun time amidst usual chores of work!

Indeed, no other kind of writing can do this job better;
But poetry is significant in literature of the world sure;
So, care is needed to convey better and great ideas....!

All of a sudden such a thing can't be archived by anyone;
Writing poems after poems only perfection can be done
To the extent of creating really worthy stuff of literature!

Having the significance of and greatness of literature in mind,
If expressions are rendered well, poetry will shine forever.....!

Ramesh T A
Great Surprise Nature Is!

Flying free in air and singing musical song  
Birds in white move gracefully in V shape!  
Rain clouds on the other side of the sky are  
About to fall as a mass on the parched land!

What a cool atmosphere is developing despite  
A hot day has just ended in the evening hour!  
Transforming hot place into as cool as hill place,  
Clear fall of rain produces magic incredible....!

All heave a sigh of relief for the change of weather  
At last in the evening quite unexpected by everyone!  
All places well drenched in rain water now cools down  
Bringing joy to everyone's face as great relief at last!

When all hopes have died and a sudden spurt of change  
Transforms all to the great surprise of all is Nature ever!

Ramesh T A
Great Tragedy Due To Cyclonic Storm!

Exploitation of natural resources for food, duel and raw materials, Felling of trees and deforestation have led to long desertification; Pollution of air, water and land have changed climate itself for long Leading to droughts, sudden heavy rains, floods and cyclonic storms!

Due to no rains for long, trees are planted everywhere sans bothering About pollution facilitating climate change leading to hottest days And very cold climate or heaviest rain fall causing floods and in the Same way formation of severest cyclonic storms at the end of every year!

Cyclonic storm not just one, but in serials cause heaviest damages And destruction of trees, live-stocks, electrical posts and houses Immersing towns and villages in darkness sans water, food and power Supply for days together making it impossible to turn them to normalcy!

Simple village people and farmers after losing their houses, live stocks Are stranded on the road with no place for shelter for family and children And unable to do what next in life cry for food, water, dress and other Help needed to survive, sustain and seek means for pulling on days ever!

Can the up rooted trees be transplanted like the electrical posts are done To resume regular life activities and bring rehabilitation to all people?

Ramesh T A
Great Works!

Small drop is

The beginning for big flood

Of great works!

Ramesh T A
Greater Satisfaction In Life!

Attaining aged-ness, some feel there won't be
Prime time romantic interest again in life....!
Even if marriage takes place, some try to have
Consummation out of jealousy and competition!

Due to failure of mutual cooperation, some jump
To wrong option of separation through Court....!
Cohabitation and consummation may take time
Between partners of a couple for lack of attraction!

Good understanding, love and mutual interests
Bring closer the partners of a couple to have union
On a higher level rather than in the physical level
And many a couple enjoy better life in the world!

More than sensual, intellectual and spiritual interests
Keep couples intimate to attain greater satisfaction...!

Ramesh T A
Greatest And Highest Eternal Pleasure!

All kinds of pleasures are for what man is born to enjoy in life in the world; Beauty of Nature and all beings kindles his desire to love and enjoy forever; Collecting all beautiful and best ones for his joy, he lives life in love long!

Drawings, paintings and all art works of beauty he cherishes most and enjoys ever; Enjoying aesthetic please in Nature, he communes with his counter part by plans; Fully satisfied in physical pleasure, he intellectually develops to enjoy spiritually!

Gorgeous beauty he loves and enjoys pleasure often to get the satisfaction he needs; Higher still he goes up to enjoy higher pleasures intellectually to know truth of all; I or ego of inside kindling selfishness is a hurdle to go spiritually higher he knows!

Joy of great and highest pleasure he longs to enjoy to get highest and eternal pleasure; Keeping on progressing in enjoyment of new and new pleasures he settles in spiritual one; Liking first and loving for long as a mystic, he with his mind communes in Nature high...!

Musing over the eternal beauty of Nature, he discovers the power activating it from behind; Nature is the physical manifestation with man and all species he finds to know as parts of it; Objects of Nature including man he realizes are having that spirit within to function ever!

Particles to atoms to molecules to matters are functioning mainly due to that spirit only; Quite astonished, he intuitionally knows the truth that all beings begin and end in it sure; Rejoicing greatest and highest pleasure to know the greatest truth, he meditates in Nature!

Satisfied by that greatest truth, he mystically muses in Nature long enjoying
greatest bliss;
Transcending from conscious state to super-conscious state via subconsciously, he reaches peak;
Universal spiritual energy effect electrifies him with highest power to enjoy greatest bliss long!

Vertically going up and down after horizontally exploring everything, he enjoys sustained bliss;
World of physical pleasure is short range benefit he enjoys, but long range pleasure is in spirit;
X and Y not knowing this eternal truth, tries to find ways to enjoy long pleasure in physical world!

Years of enjoyment of all kinds of worldly pleasures are not enough to satisfy his long quest;
Zeal endless lies in spiritual world he finds finally and knows the way to enjoy eternal bliss there!

v

Ramesh T A
Greatness Of Real Friendship!

As in war and love, there is nothing fair and foul in friendship;
Best relationship is friendship only that sails on all seas ever;
Concern for friends is more than other cares of world only there;
Devotion, loyalty and love are the basic aspects of good friendship!

Everyone moves with them, but no one relinquishes anyone for anything;
Friends are natural brothers or sisters united by friendship as culture;
Good and bad times in life they face with joy and sorrow to pacify each;
High moral or no moral, they maintain unity whether life or death to all!

In all seasons, they are together in one place unlike migratory birds;
Joint ventures are common among friends only anywhere in the world;
Keeping contacts with each friend ever, they live a highly secure life;
Love and respect they maintain for everyone in any other company sure!

Most best benefits are enjoyed due to strong bonds of friendship ever;
No one is high or low though each one is from various classes or creeds;
Openly they share all their in and out details as they can't trust others;
Personally or impersonally, they handle all matters of each in friendship!

Quite a long way they go relying on friends' guts to face and win any enemy;
Restoring poise in all circumstances, they go ahead in pursuit of their goals;
Seldom they betray themselves while they deal with new or unknown men to them;
Trustworthiness is the maintain criteria upon which they have built friendship!

United by fortune or divided by fate, they never harm each other in anyway;
Various circumstances or situations in life, they may be separated but not in will;

Winning in missions and games, they maintain their calibre as chivalrous knights!

X or Y one may be by birth, status, religion and family, but they are equal ever;
Years may make changes in each one's life, but in heart they are same old friends;
Zeus of angels may play games in their friendship, but seeing unity, praise them!

Ramesh T A
Greatness!

Greatness of a person
Lies not in the head
But in the heart!

Ramesh T A
Greedy Desire Leads To Disastrous End!

There is a limit for desire according to one's status;
If you exceed the limit, it becomes greed damn sure!
Always desire what you deserve as a human being;
For, greedy desire leads one to the edge of a cliff...,
Which will make one fall to the abyss one day sure!

Even one deserves the merit to study a desirable course,
One is rejected by the authority due to some reason...!
On enquiry, one is driven out remarked by the chief
That 'you may ask even the Moon, how can I give you? '
It is fate that has created faults to reject the deserving one!

Not only in education but also in work and life many are
Facing such problems everyday in the world of partiality!
When this so, if a lad of no merit or qualification falls in
One sided love with a highly qualified and high pay earning
Lady, will it be fair that they ever be united by marriage...?

Certainly the lad will be rejected by the lady and if he tries
Even many times he will only be insulted and injured ever!
Vigorously irritated by the insults, if the lad murders the
Beautiful lady, will anyone or law accept it as fair the greedy
Desire of the lad leading to such an extreme act of injustice?

Ramesh T A
Green Plants On Dry Lands!

Everywhere lands are dry due to no rain; 
But plants are green due to well water....
Being used for irritation by many farmers!

On my train journey I see all farm lands 
So long musing over why monsoon is not 
Helping much the farmers in distress ever!

Linking of river waters to bring water to 
Dry land areas could solve farms' plight; 
But govt. is helpless to harness big finance!

Without cooperation among neighbours, 
Sharing of river water is impossible dream 
Needing national effort to solve it sooner!

Clever efforts of agriculturalists are keeping 
Green plants survive even under hot Sun long!

Ramesh T A
Greetings Are Common!

Greetings are common among all people to
Share their joy with all on many occasions!
Among them, birthdays are very famous,
New Year greetings and Lovers Day ones
Occupy a lion's share in the life of all ever!

Every day greetings in the morning, afternoon,
Evening and night have become a matter of fact
Things in the long run of everyone's life ever
So much that they come naturally whenever we
See some known persons on the way anywhere!

Words of mouth and greetings through cards
Many indulge in using them to convey their
Heart-felt desires to the loved or friendly ones
Whenever possible anywhere in the world and
So, greetings have an important place in all...!

Greetings begin and go on in everyone's life
As a mark of great culture and also, civilization
All cherish most in the life of the world we are
All part and parcel not only in the past but also
Forever in the future too till the end of time sure!

Ramesh T A
Greetings Of Nature!

Beauty of dawn and dusk

Is the way of Nature to say

All greetings all day long!

Ramesh T A
Grey Blanket!

Grey Blanket!

West to East a mass of thick grey clouds spread
As if the Sky is wearing all over dry, grey blanket!
Sun's heat is there and also, shade is all over there;
Yet, the coolness is prevented by this strangeness!

There are personalities prominent and famous now
Just as grey clouds covering up the whole blue sky....
Spoiling and hiding the beauty real forever and ever
In this world of illusion keeping the skillful in gloom!

Many a talented ones still tries and waits longer......
To see the light of day for their wonderful creations
That may bloom as choicest flowers in the dry desert
Only perhaps to fade away in the passage of time...!

But the seeds of talents never go away in waste.....and
One day will surely shine bright through followers sure!
Though the brightest ones pass away, their glowing
And guiding spirit will spread their will through disciples!

Ramesh T A
Haiku: Divine!

If instinct is animal
Though intellect makes rational
Intuition is divine!

Ramesh T A
Half-Baked Bread!

Acts tell what sort of a person one is more than words ever;
More words are in quantity where acts are less in quality;
Always it's better to follow, 'let words pass, let deeds speak!'

More energy is wasted in words full of sound and fury ever;
Also, more time is wasted in unnecessary thoughts for long
Before one starts to act to fulfil or achieve anything in life...!

Francis Bacon has said long ago, reading makes a ready man,
Conference makes a confident man, writing makes an exact man!
Reading gives confidence, conference boldness, writing sureness!

For any action, one is well prepared to face any eventuality sure,
Whereas other types of men are limited only in their sphere sure,
But thoroughly well trained one achieves success in all events...!

Knowledge and training equip one to deal all in a matter of fact way;
But mere speculation and words make one only a half-baked bread!

Ramesh T A
Half-Baked Matters Cause Problems!

With understanding, patience and tactics, many problems
Can be eliminated in the bud itself to make life go on
Smooth route keeping all live in joy and peace forever!

Fully listening to matter only, one can come to a clear
Understanding of anything before jumping to a conclusion
And expressing something that leads to arguments and fights!

Making remarks based on half-baked matters only prolong
Unnecessary problems creating enmity between people anywhere
Needing patience before saying anything and fighting ever!

Wise persons understand the cause and solution to unnecessary
Problems dragging compromise between two fighting parties ever
And come forward at the extreme stage, when all need compromise!

Arguments and fights go on as long as body strength of parties
Last and when worn out, all come for peace talks to end all ills!

Ramesh T A
Halloween Thrilling Effect!

Halloween day is nearing fast in October end!  
All are thinking about its effect now on nights!  
How are they going to tackle scary moment?  
Nobody knows as its suspense is very thrilling!

Grim spirits waiting to possess whoever is free  
Surely know the way to strike one at random!  
The spell lasts till a day complete till November  
Dawns the next day sure with cheers everywhere!

Halloween celebration out of fear by kids and all  
Having weak hearts and believers of ghosts ever  
Can't overcome the scary effect all through night  
Resorting to pumpkin display with light burning!

Just for one day drama all round the world there is  
So much thrilling effect as in Michael Jackson songs!

Ramesh T A
Happiness And Peace!

Waves of oceans by earth’s rotation and gravitation are a wonder!
Surfing or shipping on the waves of oceans many make journeys;
But reaching the harbour safe and in success is a mark of feat sure!

Ups and downs of life too are the waves lifting and leg pulling
As one ventures on a mission with determination firm ever;
But achieving great feat in one’s aptitude makes one great!

How many are reaching the end point with surety in life.....?
A handful of people does marvels in making world merry
And fruits of labour men next enjoy under their glory ever!

Are we here to make others happy or our selves only so?
Happiness of others by our acts makes us really happy;
But never our happiness alone makes the world safe ever!

Happiness and peace are the end point of our life journey;
For that make the world safe and prosperous ever and ever!

Ramesh T A
Happiness In Life!

Happiness comes in life
When we meet dear friends
On holidays after long...!

Ramesh T A
Happiness Is Not Far Off!

Child's wonder is amazing to see!
What a joy the child enjoys then
Seeing something new and fine..!

From the trivial things child loves
The things we all miss much long
To have happiness looking far off!

Happiness is not far away from us
And it needs a lot of efforts to get
Many feel when it's within our reach!

Even a mechanical effort to have joy
Will surely fetch a lot of benefits we
Cannot know otherwise so long.....!

From nothing and no efforts child
Gets joy and is the way we too can!

Ramesh T A
Happiness Not Far Away...!

Realities are difficult to cope with;  
Dreams give relief to escape a while;  
Nature makes us forget the world!  
Then return to reality isn't so harsh.

Relief, relaxation and rejuvenation  
Recharge the battery of mind ever  
To go ahead with renewed vigour  
In the venture we have undertaken  
To win laurels in colourful festoons!

Life may look to be a sea of woes;  
We have to swim to reach the shore;  
Shore leads us to pastures green  
To graze till we are satisfied to fight!

Happiness is ever in our hands that  
We achieve once we gain self confidence!

Ramesh T A
Happiness One Enjoys......!

Happiness in life lies in the pleasure one enjoys!
Satisfaction in life lies in the work one does!
Sans happiness and satisfaction freedom is nothing!
Knowledge and love give real freedom here!
Beauty and truth make one perfect in work!
Beauty, truth, love, joy and peace one seeks in life!
With knowledge, vision and ambition one makes achievement!
Knowledge, living, pleasure and absolute constitute life!
Sufferings are due to ignorance and negligence of wisdom!
Pleasures sans knowledge will thrust only in deep abyss!
Life is for enjoying happiness out of knowledge and love!
This is the grand truth both religion and literature say ever.
Losing happiness in life is entirely due to vehemence only;
Happiness one enjoys, so, is due to perfection by truth and love!

Ramesh T A
Happiness!

When desire is
Achieved despite difficult works
Real happiness is there...!

Ramesh T A
Happy Diwali Greetings To All!

Sitting in the veranda of my house, I see the wide
Open sky through the huge window facing East ever;
This evening just the sun is about to complete its
Journey what a display of beauty the sky offers now!

Streaks of rose clouds in horizontal bands expanding
On the blue sky canvas, Nature performs its special
Modern art to capture the hearts of all lovers of
Natural beauty so elegant, unique and wonderful...!

Festival of lights reaching its peak by the hustle
And bustle of people making their purchases of dress,
Sweets and crackers to celebrate tomorrow, perhaps
The sky in all its beauty is wishes all Happy Diwali!

The beautiful display of art by Nature just needs our
Festival messages for sending it as greetings to all..!

Ramesh T A
Happy New Year 2016 To All!

Hilarious happy new year celebration
All have been participating with fun;
With great enthusiasm and happiness
All have been exchanging wishes long!

Youngsters rushing everywhere in the
Motorbikes and cars on all the roads
Leading to beach and park and hotels
Shouted 'Happy New Year! ' to all....!

Colourful bonfires of all countries also
Kindled happiness and joy to all seeing
TV to know how new year celebrations
Everywhere are going on in the world!

New Year 2016 is born fresh like a
Newly bloomed exotic flower now!

Ramesh T A
Happy News!

Though we do all preparations
Anxiety and excitement are there
Till we hear happy news...!

Ramesh T A
Happy Pongal!

Rain in Summer and Fall seasons fall to fill up
Rivers, lakes and dams necessary for irrigation
in agricultural fields, the production of Hydro-
Electric power, thermal power and drinking purpose!

South-West and North-East monsoons bring good rains
Every year for rich growth of various crops on fertile
Soil for a big harvest in the month of January sure to
Celebrate as Festival of Harvest by farmers and all!

In gratitude to Rain, Sun and Oxen and Cows for their
Grand service for the survival of whole humanity and
All living beings are worshiped as Gods forever in the
Festival after harvest of rice, sugarcane and other crops!

Rice with milk is boiled in a mud pot and share as the
Pongal with all, offering it first to Sun on this auspicious
Day and go all over the place with decorated oxen and cows
All saying in top voices, "Happy Pongal! " wishing all in joy!

Ramesh T A
Happy V Day!

On Lovers Day

What they all say

Happy V Day!

Ramesh T A
Harmony In Life

Nature churns out poems from the heart of poets;
Poets inspire many hearts to live life of freedom;
Free will inspires many to live life of love here;
But is love easy to show or share or air we breathe?

Commercialised world buys anything with money;
Money and strength physical and material rule all;
Dictate the world by military and democratic rule;
So, where is the place for freedom and love for all?

Civilised society is the hypocrisy of modern world;
Education for freedom covering all is what needed
For all humans to live in harmony with Nature
To enjoy real freedom and love poets dream often!

Human spirit with scientific mind people should live
With education that links literature and science then.

Ramesh T A
Harmony With Nature

Flowers, birds and fish are colourful
Which men and women imitate by dress!
Dragon fly, Caterpillar and birds are models
Man imitates inventing copter, train and plane!

Nature is the model for man's Art forever!
By destroying Nature man develops technology,
Thereby destroys beauty, love and goodness
And suffers for want of rain, water and food!

By copying Nature can man excel it ever?
Competitive spirit of animal nature man follows
Without maturity to advance himself in modernity,
Thereby develops himself into machine-beast-man!

Without living in harmony with Nature can man survive
And save the Earth from destruction naturally or nuclearly?

Ramesh T A
Harmony With Nature A Bliss!

Nature is a great wonder only realized souls
Like mystics, poets, philosophers and children
Ponder much and appreciate in amazement!

Soul within aligning itself with divine spirit in
Nature, enjoys great bliss nothing can offer...
Other than Nature full of beauty and love…..!

Souls sans bias, desire and selfishness always
Have great wonders to enjoy when in harmony
With Nature open everywhere in flower world!

Flowers everywhere freshly blossomed from buds
Before blooming into full flowers transport mind
And heart inspired by soul within to heaven here!

Sans the wonder of Nature, nothing can give ever
Inspiration, zeal and enthusiasm to live longer here!

Ramesh T A
Harness Inherent Capacity To Go Forward With Self Trust!

With the strong manpower in hand, humanity can achieve anything, If they empower themselves with strong knowledge, skill training And entrepreneurship quality as they wish sans depending anyone!

Not knowing this and not taking initiative and caught under the Spell of others power supported by political and bureaucratic Force, they seem to be bogged down in quagmire now and then...!

With clear mind, true devotion to work and relying on truth ever, Humanity can go ahead straight on the path of forward looking Attitude making best use of available facilities to achieve laurel!

By being bold and courage based on their self trust and do spade Work well, they are sure to go ahead in any field they like in the World full of opportunities waiting with full door open forever!

With the full support of human unity, humanity is ever great to Do miracles in all fields of their interests in the human world!

Ramesh T A
Harnessing Of Luck For The Better Is Best!

When luck is in the high, one should make use of it
To the best one can to withstand the storms in bad time;
Fortune smiles by the grace of God for sometime to one
Who deserves it by one's goodness and frankness of heart!

One should be smart enough to harness it to make one's
Position better than before and best enough to bear the
Brunt when time is not on one's side in work and life
And wait for the next time to lift oneself up better!

Preparing oneself strong when luck shows the way for one
Surely will make one a better person to manage one's works
For the better to what one likes on a better strong footing
Which is most important then lavish enjoyment in good time!

World is like enemy's camp, where the privileges, one enjoys,
Will put one in great jeopardy at the cost of one's own life;
Hence, intelligence to escape is more important than enjoyment
Ever in the enemy's camp anywhere at anytime in this world!

Ramesh T A
Harshness Of Winter Cold!

Only I skin scrapped suffer much in Winter;
All are fantastically busy sans any trouble
Even with fans running on full speed now!

Sans the protective skin none can tolerate
The bitterness of winter cold weather sure
And that I bearing with biting my teeth long!

Unbearable the body seems to be in this long
And slow going winter in this leap year sans
Any respite for me though I patently wait....!

Will the suffering go to waste (I philosophically
And intellectually brood over) while suffering
A lot unless I am settled in warm bed forever?

Survival of the fittest does not seem to be wrong
While undergoing the harshness of Winter cold!

Ramesh T A
Has Human Nature Changed?

Kidnapping, raping, murdering, hacking to death out of wrath,
Throwing away the dead bodies in the dustbin and beheaded heads
Placing over the bonnet of car and burning whole family to death
Such acts of men surely reminds one of animal nature unlike men!

Death has become a common occurrence everyday everywhere in the world;
They are main news occupying pages of newspaper columns everyday;
Another funny news is revival of Nazism against coloured people and
Against Muslims and Mexicans in USA supporting Trump in block letters!

All activities of ordinary men and world leaders do not make any difference;
Fighting, bombing and lynching in public are usual news in the magazines
Coming in details to fill the pages to bring them out into saleable ones
Simply look to funny commercial art along with display of photos ever..!

Such awkward activities are videoed by onlookers instead of stopping
Such inhuman activities and make all wonder if human nature has changed!

Ramesh T A
Has Love Any Chance To Play Its Role Today?

Natural love has no chance to play any role as
Community is directed by traditional culture,
Modernity, civilization, status, ideals and
Ideologies besides family reputation and respect!

Natural love is like children's affection, divine
Like that transcends all controls, restrictions,
Conventions, circles' taboos, rules and regulations
As it is heart's expression of human emotion ever!

Tradition puts bottlenecks to avert consequences of
Love leading to marriages and their children's future;
Natural love of past is superseded by self selection of
Spouse superseded by arranged marriage mostly now..!

But civilization of modern world has further superseded
It by down to earth type of sexual attraction and
Satisfaction then and there and going ahead with next
Stage of life unconcerned about consequences and future!

Knowledge of literature and up bringing of children in
Loving atmosphere only can perpetuate sense of love in
The modern world citizens as materialism is top most in
Everyone's affair for survival in the competition world!

Ramesh T A
Has Love Any Role To Play In The Material World?

Love has become a matter of literature or dream,
But never a matter of reality, even if one tries much!
Love is ever giving, but never taking anything sure;
If one lives so, one is considered to be a fool by all
And is very well deceived and left stranded forever!

Then there is no soul having pity for such a one and
Left out to fend oneself against all odds and hurdles!
With no money and material help one is made nil
And none seems to bother about one at all as a man!

This is the result of one, who cared for love and lived
For love, when whole world is running on materialism!
Economic thoughts overshadowing everything, how
Can social thoughts have a place for the well being of
All based on humanism first before love can play its role?

Ramesh T A
Has Man Developed Or Not?

World cultures have developed following Nature
All round the year celebrating as traditional festivals!
Natural way of living is being pruned by civilization
Due to technological and economic developments...!

Sans thoughts on social development, economic acts,
Giving importance to materialism and money, have
Made man a mere material one driving him to lead
Mechanical life causing class differences and disparities!

Despite a lot of developments for a sophisticated life in
The name of civilization, materialistic man has forgotten
His natural culture and suffers seeking peace and bliss
In drugs and intoxicating stuffs believing to be civilization!

Up-gradation of human nature to divine nature is the main
Purpose of man's economic, social and cultural developments;
But caught by the web of technology and trade, man has
Become a machine-beast-man rather than a better human!

Not knowing anything about religion, literature and history,
Materialistic man sees everything in life as profit and loss....
And has become a slave of money in the mad race of economic
Development at the expense of social development forever...!

Ramesh T A
Has The Search Over?

Even if God comes nobody will believe;
For, man comes to know about truth late!
Life long suffering makes him still duller
To recognize truth from falsity forever...!

To believe or not to believe - it's the question!
That also takes a very longtime to have a good
Decision to finalize what to follow in life to be
Good, loving, free, happy, peaceful and fine!

This is the nature of man that makes or mars
Who he is from the time he has come to this
World full of uncertainties forever and ever
Making him try and try to find out the way!

Finding the right way to live well is a great job
Man has been doing from the dawn to the dusk
Everyday and every night without fail forever;
Yet, man has to see the dawn true for sure......!

Ramesh T A
Hate And Love!

Bomb blast in Boston and earthquake in Iran....
Both make all shudder at the effects of mayhem!
Destruction is easy but creation is difficult to do
For man but a matter of play for the Almighty!

Union of love among friends of distant shores
By way of poems on poetry websites make all
Nil to feel the sizzling effects of volcanic eruption
Or earthquakes or bomb blasts anywhere.....!

Hate and love counter balance in this way ever
And life goes on as usual one after the other....!
So many things have been seen in our life-time
And what new are we going to see yet? , , , , Nothing!

Destruction has become old fashion now, I feel!
Let love rule the world, for, love is ever new...!

Ramesh T A
Hatred And War Or Peace And Progress?

Unity among persons and nations saves all from great
Hardships like wars, natural disasters and dangers..!
Separation for disunity and hatred throws nation or
One out of paradise and also out of heaven to hell..!

Unity in diversity strengthens between men and nations;
Uniting and unification of men and nations regain sure
Paradise lost for the better and mutual benefits ever;
Nuclear weapons and terrorism necessitates unity sure!

Wisdom lies in coexistence, cooperation and coordination
Through the international culture of friendship among
World men and nations for mutual developments on various
Fields paving the way for peace, progress and prosperity!

When paradise and heaven are within the reach of all sure,
Why opt for war to make world a desert and hell forever..?

Ramesh T A
Have A Time For Love!

In routine artificial, mechanical way of machine life, how can one feel and love? If you get time in the world, devote it for love to promote peace and unity! But, is it an easy thing to love, when one doesn't know even to mate with one?

There is a vast difference between one who lives by intellect and one by instinct; The living beings going by instinct mate easily whereas the one by intellect not; This is the difference between rat and ape, between animals and men!

Sans learning, man cannot know and do anything unlike beings that live by instinct; Even for mating man has to learn by seeing or reading, how can man love Unless man has knowledge of literature or love stories of movies we see ever?

Technologically and scientifically developed man doesn't know of feeling and love; Economically thinking man doesn't know of physical and emotional needs; Unless man knows both science and poetry, it is impossible to know love life!

Love of beauty in Nature and human kindles feeling of heart towards bliss, The means of love to explore deep and fly high in a state of sublimity divine!

Ramesh T A
Have Ambition To Achieve What Is Possible!

Ambition is the driving force of life for anyone in the world;
Sans ambition, one's life is like a blind man's journey ever;
Ambition should not be based on wild imagination or dream sure;
Ambition should be an instrument that helps to express who one is!

Just attributes of physical personality or motivation of others
May inspire and provoke one to do so many things to become so..;
But lessons from world history will show one what the truth is
From great ambitionists like Alexander, Ashoka, Hitler, Napoleon!

WE have come to the world with nothing and leave it with nothing;
That is the reality all should realize before jumping into the
Horse wagon that runs wild without any good destination before it
And get no satisfaction, peace, happiness and fulfilment in life!

Based on one's nature, knowledge, skill and possible wish, if one
Has a broad ambition, one can achieve great laurel in flying colours!

Ramesh T A
Have Ambition To Do Great Deeds!

Just yearly celebration of anything is not enough;
Without development celebrating anything is nil;
There should be meaning in our celebrations ever.

Advancement in anything is possible only by work;
Sincere and hard work based on a great ambition
Only can one proceed on progress to achieve laurels.

The legends who have done great deeds lived so ever
And left us all as an example and model to follow in
All our ventures to contribute our best for the world.

It is not enough if we just live and leave the world....;
We have to think about what we have done for all....
And if we do so, what we do, will become achievement!

Having great ambition based on vision is possible by
Knowledge that makes one powerful to do great deeds!

Ramesh T A
Havoc Of Racism!

Racism of British Imperialist power ruled the world;
Right or wrong, English language spread all over
The world, though introduced for administration;
Administrative, educational and legal systems and
Hospital management did a great job at that time.

But people, unable to bear foreign rule, revolted against
British rule everywhere pushing them out in such a way
That Britishers left all places leaving them in turmoils
Continuing even today as Indo-Pak and Israel-Plastine
Conflicts escalating violence in other parts of the world
With the off shoot of Islamic terrorism everywhere...!

And now Brexit leaving European Union has created
Another turmoil affecting world economy in all nations!
More than Hitler, British racism of rightist wing is worst!

Ramesh T A
Havoc Playing Cyclones On End Of Year!

Cyclonic storm causes biggest destruction every time;
But its random course of journey brings rains to many
Dry land areas needing water for a longtime sure...!

Coastal areas affected by the devastation of cyclone
Ever abhor its arrival every time damn sure as they
Know pretty well its damages to such areas unbearable!

But for the inland area people, it is a fun to see how
A cyclone can arrive, do all possible havoc and go away
Scott-free without witnessing any hue and cry of people!

On war-footing all renovation works then begin and last
For some days to clear all up rooted trees, lamp posts
On the road and other damages caused by the storm sure!

Every year after all festivals, storms come and do their
Plays to clear all rubbishes to renovate towns and villages!

Ramesh T A
Health Is Wealth Ever!

Health is Wealth Ever!

Full Moon coming in May is great Summer Moon reminding Of Lord Buddha's enlightenment all think of enlightenment! Health is greatest wealth of all items of wealth in the world; Health in general means body health and mental health.

Mind is the top controlling organ of the body needing care; If mental health is well and good, all things function well ever; Mind should be focused on what one is best at and there lies One's desire and wish to achieve and become what one is!

To know one's duty in the world and fix an ambition to achieve That, one should acquire knowledge first to have a complete Vision so that one's ambition can drive one to do achievement One day to fulfil one's life destiny and good health forever...!

Fulment of man's life lies in making achievement in what one Likes very much in the world and what one is best at forever; Good health of mind and body can be maintained best by Doing what one is best and there lies one's real desire sure!

Ramesh T A
Healthy Romantic Life In Nature!

Easy come, easy go as there's no gain sans pain!
Simple living and high thinking romantic ones
Live best of their life in Nature to be blissful;
But luxuriously living ones suffer from illnesses!

This is the iron of fate that mocks at man's great
Advancements in science and technology being ever
Converted into wealth by economic pursuits in all
Matters in the name of modern life and comforts..!

All comforts of luxurious life of modern world
Certainly leads to new diseases earlier in life and
Sans any enjoyment of life in the true sense, many
Die early in life and leave the world in dismay..!

Technological developments have increased pollution
Spreading infectious diseases like encephalitis,
Avion flue, dengue and viral fevers unlike the ones
Living healthy and beautiful romantic life in Nature!

Ramesh T A
Heartiness Of Human Being!

Whole-hearted support of one to a friend is an act of heartiness;
Whole-hearted love of one to a lover is an act of human heartiness;
Anything thought, said and done with full heart is heartiness sure;
To do such an act of heartiness, one naturally must have a good heart!

Unless naturally one is good, act of heartiness is rare to see ever;
It is generally felt to be an act of feminines due to their softness;
But a magnanimous human being, man or woman, is noted for heartiness;
Heartiness comes to one, only when one naturally has a good heart ever!

All things done out of heartiness makes one a divine being to all;
This natural kind of way of doing everything is a natural attribute
Quite rare to find in humankind due to economic pursuits of all sure;
Naturally, if one is economically well, one may do all with heartiness!

Despite one's economic miserableness, if one does everything for
Humankind with heartiness ever, such a one is a rare human divine!

Ramesh T A
Heaven And Hell!

There cannot be one sans some short coming
That keeps the fire burning inside the heart,
That makes always some sort of nightmare
Till something else compensates it in life ever!

A carefree romantic life in land of dream all
Long to indulge to be free and joyous ever,
Feel reverie about it often to enjoy so once
At least before the life comes to an end sure!

Yearnings and longings keep sadness inside
Making all melancholic in loneliness very often,
Keeping the days move on in drowsiness....
Till a fortunate incidence balances the mind!

Heaven and hell are nowhere above or below;
It's within our mind that makes both in life...!

Ramesh T A
Heaven And Paradise!

Nature, friends and humour make life joyful
To live long in freedom, peace and satisfaction!
Friendship and love due to such an atmosphere
Certainly make one's life beautiful and lovely!

Enjoying beauty of Nature with friends and....
All beloved beings one experiences ecstasy sure!
Heaven and paradise are nowhere else but ever
Here only, if one is fortunate to live life so sure!

Friends helpful and useful ever will make one
Achieve laurels in all ventures of one's choice,
Make all dreams come true and make vision
See light of day in the long or short course of life!

Heaven and paradise have no difference in such
A setup, if one is supposed to live life forever here!

Ramesh T A
Heaven Of Earth!

Real freedom lies in the transcendence of social convention
And govt. restriction with full rights and liberty to do all...!
There shouldn't be any interference in the individual's work
Not affecting society, govt. and nation anywhere in the world!

Such a kind of freedom one can enjoy only in democratic State
With reforms providing facility for individuals to do as they wish!
Democracy is not another kind of modern dictatorship rule ever;
Democracy lies in people's power to do whatever they like sure!

When nations unite into a single whole as one world nation sure,
Then Utopia can be translated into reality fulfilling the dreams of
Intellectuals and freedom loving people of the past, present and ever
Bringing heaven on the Earth sans the necessity of dreaming heaven!

Present day hell of Earth can become heaven of Earth, only when
All are free to think, express and do whatever all like anywhere.....!

Ramesh T A
Heaven Or Hell!

People of a country may belong to different races, religions and cultures; 
But they identify themselves as one national despite differences of all hues; 
That is due to unity in diversity that defends them against all adversities...!

This kind of coexistence based on cooperation and coordination develops 
Friendship with all and submission to none as nonaggressive or nonviolent 
Towards neighbours and others fostering brotherhood and love with all...!

This kind of brotherhood is the noble principle of Hinduism behind world 
Friendship that fosters world culture promoting humanism that turns a 
Brute into a human being whether religion turns one into a divine or not!

A national of such a culture can be called as world citizen capable of living 
In harmony with Nature and all nationals for the formation of one world 
Union that prevents wars and promotes peace to make the world a heaven!

Heaven or hell are nowhere in the Universe, but in the same world we live in 
As they are the making of man due to his love or hate needing to be regulated!

Ramesh T A
Heavenly Life!

Beauty, music and love sway heart, mind and soul
And make human live in Nature as paradise of Earth
To enjoy heavenly joy in peace and bliss for long!

Beauty of Nature absorbs heart, mind and soul as
Classic Art that has eternal life inspiring all
With amusement divine in nature quite sublime...!

Knowledge all have to acquire to be human in the
World, but love is to offer the best to please and
Ease all so as to transform human into divine sure!

Lovely music makes all feel beauty kindling the
Nature of love in all to foster friendship, unity
And humane sense urging human live as divine being!

Music and song foster love in all and make impossible
Too possible sustaining life however hard world is ever!

Ramesh T A
Heavenly Nature!

Reflection of Sunlight by Moon is the only light
That dispels oblivion on the pavement of the beach
Caused by power shutdown in the night time often!

Moon with Stars surrounded by white feathery clouds
Brings heaven in view attracting all towards the Sky
Making one muse over heaven walking in darkness!

Brain washed or demorlaised by politicians, bureaucrats
People are driven to darkness and never brightness in life!
Only Nature gives asylum to those who seek its bosom.

Even on the pavements they set stages for meetings next
Or exhibition of one kind or other blocking peace seekers
To the beach everyday as pilgrims going to temples ever!

Despite many disturbances glimpses of heavenly Nature of
The Sky gives a sense of relief by diverting all by its attraction!

Ramesh T A
Heavenly Pleasure In Paradise Is Here!

All we dream about heaven are based on fiction we know;
But it is a grand dream to enjoy forever to be happy..!
Considering the way we enjoy pleasure, it's within us only;
Dreams, vision and imagination make this enjoyment complete!

Everyday we are actually enjoying this heavenly pleasure;
Full satisfaction is what everyone is trying to achieve;
Great efforts are being made to get satisfaction complete;
Heaven is in the enjoyment of pleasure we have in paradise!

Internationally searching, we have so many places of paradise;
Joy of heaven we indeed have in such places of Nature beautiful;
Keeping in touch with loving people in big parks of Nature we
Like with our full heart we can surely have heaven within reach!

Morning or night is immaterial to enjoy such a pleasure forever;
Nothing is beyond human endeavour as happiness is within our hands!
Open heart talks with loved ones will taken one to heaven immediate;
Pleasure physical is short and intellectual one is sustainable ever!

Question about spiritual pleasure is lasting forever more than all;
Real lasting pleasure is spiritual in Nature with suitable human;
Sensual to spiritual via intellectual is how it is reached in life;
True spiritual pleasure is what we call as bliss everlasting in life!

Universal enjoyment of heavenly pleasure is possible only by love;
Various ways may be various creeds say about it, but the goal is same;
War and peace are waged to attain this by self effort only with love!

X and Y surely can achieve pleasure of heaven in Earthly paradise;
Yearning of heaven is within our reach, if we love with true desire;
Zeroing our efforts to that centre ever, it is possible to be there!

Ramesh T A
Heaviest Rain Fall!

Three months' heaviest rain to the tune of 49 cm
Perhaps falls once in a blue moon or 100 years..!
One degree more than usual temperature in Oct.
Happens once in ten years to bring such a rain...!

Cyclonic storm, when becomes force-less, moves
Slow and falls as heavy or heaviest rain so after
One or two powerful storms before it have lashed
And also stands still raining like hell for many days!

Such sort of cyclonic storm and rain are occurring
Now inundating railway tracks, bridges and over
Flowing after filling lakes and rivers around city
Paralyzing business activities, schools and colleges!

Heaviest rain fall caused by high temperature over
Land and sea all over the world is a great climatic
Change all are concerned now as to how to change it
For the better by increasing forests and minimizing CO!

Ramesh T A
Hell Into Heaven!

Thin misty cloud coating of the Sky looks dreamy;
Dim Stars of flickering magic stays behind the screen;
Bright Moon looks cool by the cover of sun-glass clouds!

Moon light over the sea makes it buxom milky ocean,
The abode of the divine Lord of Song to enlighten all
To overcome the woes of the world to safe world soon!

The heaving waves of ocean sings with smooth rhythm,
Whose simple harmonic motion makes hearts swing
In harmony with the tune of the all pervading muse ever!

Wonderful divine mood sways mind, heart and soul in whole
To enjoy the bliss of heaven once again on this cool day
Most enthralling and energizing the soul so sweet and cool!

Heaven has condescended on the Earthly paradise at last
To make this hell too converted into heaven by a rare chance!

Ramesh T A
Hellish Torture At The Last Stage Of Life!

People suffering from diseases like cancer and AIDS
Have no chance to escape from death approaching them!
Painful diseases taking them to death is unbearable
Unlike the ones who die unaware of death by themselves!

Suffering from pain unbearable is indeed hell for one
Who feels it’s better to die rather than to suffer all
Pains till death comes sooner or later in one's life;
Such patients feel better to have death than avoid it!

Medical miracles may be there for some in the world,
But painful death is more unbearable than hell itself;
Let God give painless death rather than painful hellish
Death to the ones approaching death sooner or later sure!

Pain is the cause for fear and sans pain no one will
Feel hellish torture living the last stage of life here!

Ramesh T A
Help Loving Souls To Get Highest Satisfaction!

Caring affection of love is the best of care of all in the world one
Enjoys by one's sweet thoughts, kind words and gentle acts ever!
With the love of all that is more then gold, land and power, what else
Can one expect in this uncertain world of no respite for the needy?

Caught by the wants and needs of economically costly world, even
The loving hearts remain silent being under the control of wealthy!
That's the most unkindest cut one gets, when one happens to see
Dear ones, who loved long and ready to love even now, if well to do!

Living as royal personalities once, is it an easy joke to do so even
Today after losing all things due to honesty, sincerity and veracity?
Helping such a soul to get higher education and a honorable position
To survive well give a sense of joy to one who has enjoyed love!

Loving response as reciprocation to the loved ones is the highest
Help one can render of all helps one can in this world of no sense!

Ramesh T A
Her Feeling At Its Top!

Touch of a hero is the dream of many a Helen to enjoy
The unique pleasure each one is longing for forever;;
Goose-bump takes place immediately such a hero comes
In some TV shows or some special programme anywhere!

Love is an unique feeling none can overcome feel she
Thinking of her beloved hero after a dream about him;
Physically tempted so much by her infatuation to him,
She never fails to kiss him many a time before sleep!

Social media is a great boon for her to contact him,
Especially when she is longing for him at late nights;
Surprised by her intrusion, he chats with great sensation
And is elated to dizzy height by her bold kiss ..!

Virtual reality seems to be like a fantasy too involved
With unusual fascination, when her feeling is at its top!

Ramesh T A
Herculean Task!

When things go beyond one's control, limit and capacity,
What else one can think of doing to overcome any mesh
No one can guess even other than seeking God's grace...!

When one's position is so, what is the use of feeling much
Other than simply leaving the matter to God's disposal
And coolly mind something far away from this turmoil!

As long as memory is there and feeling is there, it is not
An easy thing to bear all load on one's shoulder to solve
All the problems multiplying everyday after commitments!

When one is driven to that extreme stage, it becomes ever
A limitless matter to deal with using one's materials at one's
Disposal to clear the mesh complicated as cobweb big....!

Tension builds up as ever boiling oil inside one's framework
Needing expansion for bearing all till something good happens!

Ramesh T A
Hero And Villain Of Life!

Romantic mind is positive, futuristic, dreaming and humorous;
Serious mind is negative, digging past, planning and horrible;
Romantic nature of man is creative or inventive to be joyful;
Serious ones are critical or fault finding to be arrogant...!

Romantic and serious ones clash with each other in all affairs;
Romantic ones take all matters in an easy way and forget ills;
But serious ones take all matters seriously sans forgetting all;
Fortune smiles on serious many a time but saves romantic finally!

Innocent and deceitful natures of romantic and serious ones are
The goodness and flaw of the characters respectively that decide
Each one's fate in life that the romantic one don't realize, but
The serious ones never accept the truth and always doubt all..!

The easy go and easy lucky nature of romantic ones are due to
Their harmless nature that burn the serious ones to fight ever!
The cocksure nature of the serious is slippery at the unexpected
Turn of life to defeat and failure favouring the romantic easily!

Ramesh T A
Heroic Inspiration!

The heroes of Expendables are majestic
With Sylvester Stallone leading them all
Entertaining the fans as to their wishes!

Expendables 3 I saw recently on TV
And enjoyed heroism of the best kind
Like the satisfied Harrison Ford says!

Stallone and Mel Gibson final fight
Also is wonderfully pictured in that
Nice movie I saw after a longtime...!

Film means it should be like that one
Unlike the usual potpourri types like
A pulp made out of dregs generally!

Heroic movie's inspiration gives strength
For the mind to deal life situate better..!

Ramesh T A
Hide And Seek In September!

Night is calm!
Sea looks dark due to clouds!
Full Moon has risen!
But it is blocked by clouds!
Yet the light falling on Sea
Shows a path of light
To travel from the Shore to Sky!

Hide and seek plays the Moon
Due to the clouds here and there!
Shadow of clouds falling on the Sea
Makes dark the night despite the Moon
Whose bright light shines as gold!

Both darkness and light of the night
Gives light and cool breeze
Most needed after hot day today!

Hot and cold the day and night
Pass on in this September season!

Ramesh T A
Highest Glory!

With low level of mind and inferiority complex,
No one can rise high in world life to praise
Worthy position rendering remarkable service!

But at the same-time, by overestimation of self
And superiority complex also, one cannot achieve
A high place in everyone's heart due to arrogance!

Only a person of high spirit and magnanimity in
One's service to society sans self interest can
Really do best things for humanity to rise high!

Selfishness spoils heart, but selflessness only
Ever discovers better things, creates best things
And achieves highest place for one's community!

Only person of high nature, noble mind and generous
Heart can achieve highest glory in the world ever!

Ramesh T A
His Order I Am Doing Everyday!

Not knowing the outcome of my expression, I venture out
Daily before I am satisfied at the end of the day ever!
Repeating the same feat is not in my hands sure I have
To say as the nature of my occupation is unpredictable!

One or two times, I can do the magic, but always how can
One perform the same feat sans any fault is in His Hands;
I say to myself after doing the work with great satisfaction
That it is not me who has done it but You using me as a tool!

The days, weeks, months and years are going on so making me
Feel this is my fate and this is His will that I am doing
To convey His message for the world that whether all know it
Or not is immaterial here, for, not only now but ever it's fine!

Whether All see it or not, appreciate it or not, i feel I am
A fortunate fellow to follow the orders of Him well everyday!

Ramesh T A
His Rose!

Entering the world of rose I am exhilarated
By the fragrance of flower filling everywhere
Making one and all addicted to its spell sure!

What an attraction this red rose has for men
Living long in desert lands due to wars of...
Attrition to have a foothold over enemy camp!

A great relief rose flower gives to the war torn
Soldier of justice waiting to throw away arms
To embrace lady love waiting for him as Penelope!

Ulysses lost ten years of life in war for the sake of
Love between Paris and Helen on Greek side and
Ten years to return home being the Hero of odyssey!

Many wayward tactics of fantasy world beings never
Wayward his singular object of uniting with his rose!

Ramesh T A
Historical Value Of Beauty Of Human And Art!

Beauty sways hearts both for good and bad in the world;
Beauty has kindled passion leading to the death of beauty;
World history tells of love and danger of beauty to all;
Yet, beauty is truth - truth beauty says a romantic poet!

Beauty is changeable by time, but it is frozen by art
To prove beauty of art as permanent to make beauty true
And lasting, inspiring and instructing so many meanings to
So many according to each one's state of mind and heart!

Cleopatra's beauty was a serpentine beauty that swayed and
Killed emperor and soldier friend in Rome and in Egypt
Leading to the suicide of her by herself with the bite of
Venous snake of Egypt and making it an indelible history!

In India, beautiful queen Padmavathi to maintain her honour
And pride of roayal heritage killed herself to stop the direct
Domination of a passionate Mohammedan King Alauddin Khilji
Telling historical truth of fortune and misfortune of beauty!

Yet, beauty of art, literature and poetry keep all amused
And at the same-time instructed by ideas of lasting values!

Ramesh T A
History And Literature!

History and Literature!

Uneasiness creeps like cold;
Tension builds up sweat fast;
But success makes all forget!

Life goes on as usual whether
Success or failure comes or goes
In daily transactions in the world!

The sum up of all incidences in
Our life gives a clear picture of
Our history at the end of life...!

That may be a model to many
Or may be a forgotten story
One day all will know as dawn!

What the history misses ever
Literature informs ever to all!

Ramesh T A
Hitting A Century!

Hitting a century is common in cricket and cinema;  
But hitting a century in writing Books is rare...;  
That too, if it happens for a poet, it's a miracle!

After started writing work, but not on a full scale  
Till the seventeenth year will make one fed up and  
Leave the idea of writing at all once and for all..!

Discovering talent in writing poetry and starting to  
Write poetry after the seventeenth year, no one can  
Even imagine that one would be writing for 3 decades!

Almost three decades of writing poetry books, if one  
Sees completing the hundredth one, means what shall  
I say, but only feel it's the will of God to do so..!

Duty of writing Poetry Books is completed, but the..  
Result of doing so is left to the Almighty to decide!

Ramesh T A
Holiday Freshness And Enthusiasm!

Holiday after a hard toil for long certainly
Seems to be a great boon to enjoy sure...!
What a great relief one gets out of holiday
To enjoy with dear and near ones all day!

The morning also looks fresh and calm....
Just as the one that comes after a big storm!
Never such a state of joy one can create sure
Unless it happens naturally when unexpected!

All new plans blossom and flourish beautifully
Kindling interest and enthusiasm to venture on!
Creativity beautifully forms itself to a nice state
Fueling the fire of adventure to achieve laurels!

Likewise many a mile one may have travelled....;
But the fresh one has splendour nothing can have!

Ramesh T A
Holidays Vs Working Days!

Continuous holidays give the impression of Sunday to each day! Every holiday gives the effect of Sunday to everyone everyday! Bandh on working days and current cut on such days also come And give the effect of Sunday holiday making all do no work....!

After the holidays, resuming works on regular working days is not So easy and each work has to be pushed forward to finish it well; Then it becomes smooth to work with interest to see all finish well One after the other giving a sense of relief and fulfilment at last!

Holidays are necessary to give freshness after putting an end to Monotony of doing same sort of work as a machine among them; Work satisfaction makes one do things with great interest and Artistic sense of feel to make all end with beautiful result ever...

Holidays are necessary to renovate mind to more tasks to Perform well to make progress possible with good motivation; Otherwise, more than works, holidays only all like with longing To spend time in fun and entertainment with no progress in life!

Ramesh T A
Honesty, Sincerity And Will Only Make Progress For Social Development!

All political parties in power do same thing making easy bureaucratic administration go free; Bureaucratic indifference makes people's plights nothing at the cost of democratic rights of all!

Controlled by money power in all walks of life democracy functions as powerless entity ever; Democracy sans proper persons in power and administration cannot bring quality life to society!

Economic development at the cost of social progress is only paper work of national growth sure; Fighting for one's right is possible as long as each has strength and manpower in social affairs; Government with its security forces has power to crush all uprisings controlling media too ever; Highly politicized in all fields no progress in reality is actually visible ever in the country!

Ineffective education and tax systems never seem to go on right route to raise standard of people; Just promises of politicians have not changed the situation for the better even after decades; Killing the interests of people and crushing their progress, a country will be always in anarchy; Local problems, national and international crises need effective and efficient management sure!

Money control of all matters has made man mad, indifferent and inhuman in all dealing everywhere; No scientist, intellectual and activist has take the reign of administration to set right set backs Openly in all world nations as they are ever kept in the second line of government management...; Power in the hands of wrong persons never solve any social problem but only personal matters ever!

Quarrels among politicians in power and opposition are in the sharing of money
looted by them...;
Resolving and restoring social order for the development of nation are never in their agenda at all;
Social change is impossible sans reforms in educational, administrative and security systems ever;
Trade in foreign countries, local businesses only when encouraged by fair means, nation will progress!

United efforts by cooperation and coordination of able men only nation can look ahead to progress;
Various measures taken then and there sans harming society, nation can make steady progress ever;
World community coming together relinquishing warring attitude can create world as a wonderful place!

X and Y unknown nations make great progress now due to their will and unity of men in power there;
Zeus cannot be playing game in men's affairs unless he is fair and just in all moves in power ever!

Ramesh T A
Honey And Milk Flow As River In This Heaven And Paradise!

Keeping this world as a place of heaven and
A place of paradise is in our hands only ever!
Devoid of wars, violence, terrorism, pollution
And poverty, our world is heaven and paradise!

Our world will be heaven to enjoy happiness
And a paradise to enjoy pleasure as we please
With complete freedom and vast scope for all
Kinds of creative works for all to achieve..!

With quality education, creative works after
Studies in many fields, romantic way of life
To live ever and to love all with whole heart,
This world will be heaven and paradise in one!

Honey and milk flow as river in this world, if
Love and knowledge unite in all giving full
Freedom to enjoy happiness, peace, bliss and
Full satisfaction through out one's life sure!

Ramesh T A
Honour For Sacrifices!

Halloween's day of October end
All Saints day and All Souls day
Have brought solemnity and also
Rain and storm to mourn for short!

Rains are the tears of Sky for Earth
To remain fertile and rich with all
Crops for the survival and sustenance
Of all in surplus to enjoy fun in life!

Remembrance day of soldiers who
Died for the world nations all have
Come in the November month to
honour their sacrifices as rain of sky!

Fruits of others labour we enjoy is to
Honour sacrifices and honour them!

Ramesh T A
Honour Human Sense Ever!

Human emotion is honoured only in romanticism
Making human life worth enjoyable in the world;
To have such an atmosphere in the world ever,
Government machinery must be good and sincere!

Sans honesty, sincerity and truthfulness in all
Social institutions, welfare measures of people
Cannot see the light of the day on the other
Side of dark tunnel ever anywhere in the world!

Indifference of bureaucracy is the enemy of all
Goodness people cherish most in the world life
Needing to be corrected by satirical expose of
Romantic expressions of intellectuals for humanity!

Unless humans are respected and human sense is
Honoured by humans, how can humankind enjoy life
As to the dreams of romantic expressions of great
Poets and philosophers who did a lot for humanity?

Ramesh T A
Honour In Public For Achievement Made Is Unforgettable!

Awards with prizes are the greatest honour for achievers in any field; Like Oscar award ceremony announcing awards to artists for film feats Writers, social workers, artists and all wait with awe for the award Announcement with their names being called one after the other sure!

Hard work rendering in making remarkable achievement in various fields Melt away with the announcement of award to honour one deserving one Among so many waiting for the announcement in the big hall of town with A lot of crowd making applause to each and every achiever on the dias!

Public honour is the greatest reward an artist can expect in the world For all the hard work put on one's most cherished and esteemed work That lifts one high to the Everest level in one stroke all in one at Last in the almost fag end of one's life in the world of art damn sure!

Achievements are aspired by many a great creator of arts everywhere And the honour one gets by award with prize in public is unforgettable In one's life time of all achievements one has made for long in the world Of art forgetting oneself of all pains and pleasures in sacrifice for art!

Ramesh T A
Honour Lies In Honest Toil Ever!

Doing interesting work in life long only gives one
Honour, pride, pleasure and satisfaction in the world;
That too doing it with truthfulness, sincerity, honesty,
Devotion and dedication gives greatest joy and fulfilment!

Dissatisfied with economically beneficial job, many switch
Over to writing profession and also write poetry for great
Fulfilment and satisfaction misusing their position in the
Society or abusing their status to gain popularity sure..!

Poetic field is not like other professional occupation to
Conduct conference like meetings of such kind of poets now
And then to get popularity through newspapers and magazine
Advertisements so that they can make bucks out of their books!

Poetry is the legacy poets leave to the world for posterity
To know reality of the past to live better in the present
And realize their dreams in the future by their cherished
Ideas for human unity, peace, prosperity and progress ever!

Honour, recognition and awards to poets have to come naturally
To them but never through business like conference and all;
For that, poets's works should be published in papers and also
All magazines to popularize significance of poetry to the public!

Ramesh T A
Honour Talented Ones For Peace And Progress Of World Nations!

Talented and developmental work oriented men are left In despair sans any concern by greedy politicians ever; If so, how can a nation progress to achieve self reliance?

This is the plight with developing nations of the world functioning under the control of military rule for long Needing democratization with statesmen to govern nations!

Ireland allows writers not to pay taxes as honour to them; Romania prints currency notes with poets on them as honour; And great nations honour scientists and their inventions..!

Knowledge and creativity of skillful and talented men are Great boon for a nation aspiring to develop and become Top nation in the world to lead all to peace and prosperity!

Men of skills are great assets to nations that have faith In democracy, knowledge and sincere work to progress ever!

Ramesh T A
Honouring Virtuosos With Mutual Respect Is An Art Indeed!

With mutual respect great virtuosos in art, music, dance, Painting and poetry are honoured in social forums ever...; When great personalities meet under one roof to attend public Functions, with mutual respect they are welcomed sans fail!

This is how great geniuses are respected in the society, when They happen to meet others of their kind anywhere in the world; Gaining such a honour in great public functions is not an easy Achievement to make unless they devote themselves complete in art!

It is a great pride for the sponsors of such a grand function To take utmost care as to how to honour great virtuosos with Mutual respect to maintain their reputation as best anchors of Such grand functions taking place anywhere at anytime in the world!

Honouring with mutual respect to all virtuosos in various fields Through equally great artists to present awards to them too is an art!

Ramesh T A
Hope For New Financial Year In April!

March marks the end of financial year!
A F marks the beginning of April to all!
All financial budgets are just cosmetics!
All are made fools by concessions ever!

Financial year end marching to new year
With new hopes and desires to fulfil sure,
Brooding how far all things will work out
To achieve goals all are left to fortune's grace!

This is how economic matters are analysed
And speculations are expressed by all ever!
If all things go on right direction somehow
Some progress in national economy is feasible!

Marching to April sooner all guesses and also,
All predictions each one in mind will start one's
Affair and business hoping to do something....
Better at least in this new financial year, all believe!

Ramesh T A
Hope!

Days run fast
Months move on
Year still's there!

Ramesh T A
Horrible End For The Adamant!

Misunderstanding makes easy to mislead one
To decide and take wrong decision in life;
Action taken so in a hurry makes one live
Life in darkness full of torture as in hell!

With a small mind doing an easy work for life
May make one have a pride and confidence to
Don't care others sans general knowledge of all
As blinded by regular little successes one sees!

Disrespect shown to all others with little learning
Indeed is dangerous to one's safety and security
Besides closing all opportunities to progress higher
Leading to nightmares of hell sans any redemption..

Bullying by the successes one sees when one is well
Will not continue ever and put one in misery at old
Age with none to one's side to support but only make
One isolated long to meet with horrible death sure!

Ramesh T A
Horrifying Storms!

Storms are regular feature every year after Spring, Summer and Autumn before winter comes to an end...!
Once storm warming announced means all have to be Ready to face the event with all possible preparations!

Due to climate change, in summer, heat is hotter than Usual, so also, in rainy season, rain is more than Usual and in the same way, in winter, cold climate is More than usual, unless pollution is controlled sure!

The timely occurrences of seasonal changes are not ever Taking place regularly and so, Nature to balance itself, Takes drastic measures like heaviest rains, strong storms And all natural disasters horrifying mankind of and on..!

If we play with fire, we will be burnt to death and also, If we play with Nature, natural disaster will destroy us!

Ramesh T A
Hot And Cool Air Flows!

Hot and Cool Air Flows!

Waiting for good time to begin I look at
The beauty of Nature to breathe fresh air.
Unassuming about anything I mind all
The things I have to pay attention to now!

Hot and cool air flows through the town
Making one and all dream and bear all
Brunt without any comment with the hope
That good time will dawn sooner sure....!

For all the toils in the hot day, for all, there's
Surely a cool evening with rain in the night
To assuage all the sufferings with balm only
Nature can provide to alleviate all pains ever!

The relief gives necessary hope to bear pain
Getting all things for one to be ready next
To face and settle dues immediately at dawn
To get the boon one deserves for all toils sure!

Ramesh T A
Hot Issues And Cold Actions!

People in hot places pray for rain to enjoy cool climate;
People in cold places pray for hot day to enjoy fun out;
Now, due to too much pollution, climate has changed;
We all have to bear with hottest and coldest climates!

For all the mistakes of man, Nature takes strong steps
To compensate all abnormal status of environment and
Bring normalcy to the world all can coup with in all the
Seasons of the year both in Summer and also, in Winter!

Due to shortage of rains, rivers are not flowing in full
And lakes are reaming as dry lands making space for
New buildings for man encroaching all water ways long
And sudden cloud burst of rains inundate all developments!

People of one nation living in all States fight among themselves
For sharing of river water for agriculture, quenching thirst and
Fishing for food on lean seasons and the uncontrolled surplus
Water in Winter as floods destroy all wastefully running to seas!

Political will and scientific acumen are what needed to put an
End to all those untoward happenings for bringing about unity
Among people for joint actions of the nation towards regular
And fast developments aiming progress and prosperity for all!

Ramesh T A
How Can Culture Be Developed?

How Can Culture Be Developed?

Material development by technology is not science;
Philosophic ideas of religion can't be for spiritualism;
Searched ideas expressed in literature can't be frozen;
All such things aren't enough to be preserved as culture.

Universe, life and death aren't decisively searched yet....;
Sense of intuition may show answers for all those matters;
But scientific proof has to be obtained by researches; and
The creative ideas expressed in literature have to be updated.

The culture based on old searches has become a tradition,
Which cannot be treasured as permanent truth forever as
We are yet to know the unknown by researching searches
To find out the truth or our knowledge has to be updated.

Culture doesn't mean a stagnant tradition to be followed ever;
Culture is best way of life based on scientific developments
And new creative ideas expressed in literature about all things
In books to be stored in libraries with recognition and honour!

Ramesh T A
How Could Valentine's Time Be Celebrated?

What is the use of praying
Inside the door
When hope has faded
And love too has faded?

Let us be truthful to ourselves first
Because truth certainly triumphs!

Indeed freedom is outside,
Even if it be rustic like or
Songs of unrefined nature
And in that state only
Love can really be celebrated
On Valentine's time! Truly!

Love can cherish and flourish
Only in freedom of the world
Around all and above all!

Ramesh T A
How Does Fortune Favour One?

With the grace of goddess of art, one has access to all
Information, knowledge and ideas to implement them for
Achieving dreams and desires of heart, if one is destined
To do so energized by the will of goddess of power sure!

With knowledge and courage graced by the goddesses of art
And power, goddess of wealth surely sanctions one with the
Necessary funds now and then for the achievements one makes
Approved by fate with fortune based on the virtue earned..!

Good thoughts, words and acts increase virtue to one's credit
Needed for fate to sanction fortune in the implementation of
Ideas to execute as one has planned to achieve the objective
For completing one mission driven by the force of ambition..!

Life of a person of virtue so goes on led by God's grace ever
That many believe happens due to luck of a person sans knowing
That all benefits one enjoys by the virtue of goodness of mind,
Heart and soul are due to acts of virtue of one does ever sure!

Ramesh T A
How Far Have We Gone?

We had conversation about A to Z of all in the world;
We have discussed in depth about life on many occasions;
We have exchanged ideas and thoughts by letters too;
But have we achieved ambition implementing all ideas?

Realities we know sure have to be changed in the world;
Dreams we have certainly have to be turned into realities;
Ideas we have from experience have to be used in action;
But how far have we drifted from the path of ambition!

Reforms are needed in the society for making developments;
What is the use of going by the tradition on the beaten track
For making quick buck for survival without sense as others?
By so doing how are we going to see our dreams come true?

Education does not end in schools and colleges but in Nature,
Where we discover our nature and the power we lay waste!

Ramesh T A
How Poetry Is Born!

Scenes of Nature inspires my heart
Driving my mind mystically muse
Over the beauty of misty mountains,
Lakes, green land with huts all over
To reside life long and enjoy peace
Kindling my poetic spirit to breathe
Fresh air that energizes whole self
To enthusiastically dance as a new
Born human charged with divine
Power to deal all things better than
Before in a new way giving full
Freedom to fly all over the places
Free as the bird that flies everywhere
As a unique being with the soul of poet!

Ramesh T A
How The Working Attitude Should Be?

All days go on in tight schedule already decided;
But all cannot be sure of success or failure ever;
Careful planning of work befog hand gives relief!

Day and night all thoughts are on the plan of action;
Execution of plans in time makes one free at sunset;
Full rest at night after hard work renews one's might!

Good health condition makes one to be brisk in action;
Health is indeed wealth to enjoy after accomplishment;
In the interval, some nap is better to finish all well!

Joint action surely allows better position to handle task;
Keeping all works listed in order makes one do all better;
Luck favours the one who works with sincere mind forever!

Matter of fact way of dealing works surely makes one okay;
Nothing seems to hurt one, if anything goes slightly awry;
Outstanding persons always take all odds with easy sure!

Perfection in implementing ideas one should aim at ever;
Quite miraculously some serendipity also happens sometimes;
Real joy there one enjoys by an unexpected good turn in job!

Sunday or any day also seems to be usual working one then;
True sense of fulfilment comes, when the job is done well;
Unexpected things also happen to put in surprise sometimes!

Victory in completion of work before time multiplies joy;
Work is worship, they say because then only all do honesty;
X is unknown as long as all matters are solved by doing work!

Yearning for good result, all work with sincerity and truthfully;
Zeal in doing things increase, when all things go on pretty well!

Ramesh T A
How To Be Free From All Bickerings?

Generally, friends ask, when meeting, how life is;
Reply from the wise will be that life is in our hand;
We will become what we dream about of us often in life;
It is all in the ideas we try we will be one day so!

An ivory tower living person feels uneasy to be alone
Confined within four walls of a room after the work
With a library of books ready to take and read ever;
He asks for a remedy from New York to one in India!

The Indian says see Nature, beautiful art picture or
See TV news to know what happens outside world now
Or have a brisk walk on the terrace of the building;
The New York friend follows one from the choice...!

Another friend asks Indian friend what he has done
To make the New York friend to be happy sans any
Problem, have nice sleep in the night and so on..;
The Indian friend just gives reply of what he said!

Life is our own making and there are so many things
We can do to change our attitude and live as we wish!

Ramesh T A
How To Be Free?

We suffer from a lot of pains we know not!
Pains of social issues, family issues and
Most of all our mental and physical ones
Make us reel under great confusion long!

When everything goes beyond limit,
We become free as one out of mind sure
And as a fully drunk person we behave
Like one acting in slow motion in dream!

Perhaps wine, beer, brandy, whiskey and
Rum, Gin and all intoxicating drinks and
Also all sorts of drugs have come into play
To make us float as in a dream in life ever!

Sure, dream, imagination and hallucination
Give relief from all tortures of mind to be free!

Ramesh T A
How To Be Happy?

Natural happiness seems to be a dream for many!
How to be happy, when happiness is impossible,
A big question needs to be answered by all sure!

Smile, gentle talk on humorous matter kindles all
Too to smile, an infection none can escape ever....!
The laughter caused by such humorous talk surely
Kindles happiness to one who initiates it with all....!

Seriousness and tension of fast world make all indeed
Forget happiness and smile forever at anytime of day!
To change the serious situation comfortable, humour
Surely helps to create ease and thaw to frozen faces..

After the spade work, all runs on even keel as train
Running on a smooth railway track anywhere sure!
That's the best way to be happy and gay forever!

Ramesh T A
How To Demand One To Quit?

Can we suddenly ask one to quit
A place one is doing one's business
In the premises belonging to you ever?

When we are getting regular income
As rent since a long time sans fail....,
How can we make one leave the place?

We can ask one to leave the place only
When we are in need of it for our own
Use for doing some business by us....!

We can give time to leave the premises
And then only we can demand for our
Purpose to do what we like later on...!

Maintaining good relationship and at the
Same time using it for our use is wise....!

Ramesh T A
How To Get Freedom And Peace!

All things, fast or slow, all do only to get freedom and peace; 
Without them no free air one can breathe or get good sleep! 
Even with discipline, if one does all, one also has tension and 
Fear not knowing the end point of all turmoils in the society!

No one is an island in the world, but of the same continent 
However vast one is separated by rivers and seas forever sure! 
No one can live at the top of the snow mountain forever and 
Also, no one can survive long under the deep sea forever....!

So, general problems affect all as all are chained to each other 
Just as network or gravitation attracting all planets in the Universe 
Making all think about fair means of survival together rather than 
Apart to enjoy benefits one only can to be blown up as balloon later!

By sharing both joy and sorrow with all, all can live peaceful life ever; 
But failing which, one has to face only chaos and calamities in turmoils!

Ramesh T A
How To Get Rid The Bad One!

How to Get Rid the Bad One!

Both joy and grief cross in life
When we negotiate a cross road!
It is sweet and hot to taste now
Like painful pleasure in reverse!

One good incidence and bad one
Come at the same time in world life
Sometimes to make both neutral
Neither to enjoy nor to suffer now!

We want to have the joyful good one;
But bad one comes as a nagging cold
To spoil the nice situation all love now!
How to get rid the bad one, that's it..!

When we have the jealous hearted one
Among us all such things happen sure!
We have to enjoy good time in distress
Eschewing worthless by chewing worthy!

Ramesh T A
How To Increase Readership For Books?

When book readers have become rare, what is the use of
Writing to develop literature of a language old or new?
When the situation is so, if some fight for the selection
Of a script for an old language, does it not look funny?

Except for the world language of English, some European
Languages and Chinese, readers are meagre for all languages;
From languages of less population, many have opted for the
Translation of them into English to find wider market now!

In the globalized market of the world, published works of
All authors in English language have good market of readers;
Lesser audience of a prominent book can be increased, if such
A one is published in English for the world market sure now!

Best English books, if translated in other languages of the
World also have good chance for wider readership everywhere;
For the minority language group, if books are written in their
own language as well as in English will have wide added value!

Ramesh T A
How To Know Value Of Joy?

Gentle southern breeze in orchard green
Wait I to see commence within a few days!
Wonderful time to enjoy cool breeze there
All like to spend sometime in Summer...!

Biting cold winter never brought sweats;
But sweat running like water cools body
Especially in Summer a natural counter
As water for the thirst to give relief ever!

Nature gives both to balance all year on
That man should know to live in harmony!
Day and night and hot and cold are there
As contrast of black and white to distinguish!

Shade of tree can be realized in heat of Sun
As value of happiness can be known in grief!

Ramesh T A
How To Make Good Of Conferences?

Meeting people in conferences is very nice
To have discussions on all various matters
Leading to thoughts of novel ideas to try
For making great strides in our jurisdiction!

Many a time the ideas that crop up then
Fade away after the vigour of the meeting
Slowly subsides in the course of time ever
Being occupied with the usual chores sure!

But great ambition is like fire ever burning in
And driving one to look for ideas to implement
Them to see some progress is made on our way
And finally achieve the objective to realize dream!

Only when the process of venture has started well,
Such conferences help to discover new ideas ever
To do the best one can to achieve the goals leading
To final stage to make a grand success in reality...!

Ramesh T A
How To Overcome Scarcity?

Rain clouds everywhere in the Sky give a pleasant look to the ever hot city!
What a blessing in guise, it seems, to witness such a change in the fast metropolitan city!
Monsoon rain only can save all from drought and change the climate for the better;
Dependence on ground water alone cannot fulfil all our needs ever sans natural rain!
Whether it is hill station or plains, without water nothing can be done or enjoyed;

water world our earth is as it is covered with sea for its three fourth area, but sans
Pure drinking water we are all placed in a status to face irony of fate only, so to say!
Unless we change moisture into water and convert sea water into drinking one, we suffer!
Lakes and rivers are polluted by industrial effluents and drainage incursions;
This is due to knowledge-less greedy politicians in power for a longtime sure;
Educated people should be inducted into power instead of ever corrupt politicians;
This realization should dawn on all common people so that our sufferings turn into joy!
Sans the united cooperation all people we cannot move the great obstacle standing
As huge Himalayan mountain forever making us unable to surmount or move it!

Ramesh T A
How To Turn Chaos Into Constructive Benefits?

War means only destruction of properties and loss of lives including natural resources;
Peace only assures safety and security to men and materials along with preservation of Nature!
Whatever be the problem and disputes between men and nations, peace talk only solve all;
Differences of religious and political ideologies are main causes for chaos needing unity!
Power games in international politics and economic competition make the world go in endless race;
Not competition and wars but cooperation and friendship are human way to solve world problems;
Only a world body can create possibilities to bring about unity by cultural activities among all;
Sharing best ideas of each ones among all nations under UNO turn attention from wars to sports!
By exchange of best ideas and cooperative efforts by cultural activities unity can be promoted;
Unity for solving common problems affecting the world can improve relations to friendship;
Developments on various fields by joint ventures bring mutual benefits to share in peace and joy;
And that way human sense will prevail everywhere to lead a better way of life by humanity!
Arms race and economic competition foster enmity brewing ideas of violence and wars;
But by cultural activities sharing of best ideas improve human grandeur towards peace and prosperity!

Ramesh T A
How Vital Love Is In World Life!

Love on anything and anyone varies from person to person;
Love of beauty, love of truth, love of Nature, love of god,
Love of life, love of world and love of people are there
That decide about one's nature and course of life forever!

To be precis, it is due to love all things are done by all;
Love kindles imagination, thoughts, vision and dreams ever;
Zeal of one's activities kindled by love never goes down
Sans doing something worthwhile creating impressive image!

Love of one's acts reveals where lies one's talent, interest,
Desire, in what one is best at, what for one is born in the
World to achieve what ambition one has based on a vision of
One's knowledge and cherished dream that makes one mark sure!

Works done sans such a zeal and passion do not create a clear
Impression of one making it how vital love is in world life!

Ramesh T A
Hue Of New Born Repeats!

I have become a grandfather
On my wedding day today!
Yes, my daughter has given
Birth to a beautiful girl baby!

The baby is free from cell
Of a mother's womb now!
Happy to breathe a new
Lease of life from today on!

Baby is reddish white in hue
Just like my own mother once
Was and called as Ruby.....
By name by her relatives...!

History repeats itself they say;
Hue also repeats itself by birth!

Ramesh T A
Human Life Is All In One!

Is life just mathematics or dance or research or money or power or art only? If it is so, it is like art for art’s sake suitable for artist only but not for world life! Art for art's sake is meaningless, if it is not useful for world life to live well; Arts and other things are necessary, but they are all not whole life for one!

One plus one is equal to two in mathematics, but three or more in life! Dance is for forgetting worries or for entertainment, but not necessary for full life; Research is to find cause to find a way to cure disease, but not an endless work; More than intelligence, wisdom is necessary to decide about thing to proceed on it!

Some good for nothing ones take up some course of education as there is no other go; Also, if they get jobs, they may feel elated and proud to the extent of being adamant; This kind of status makes them disrespectful towards others not knowing superiority of others; If they insult others not understanding and trusting others, they are isolated as idiots!

Life is not just one subject only, but all subjects in one to explore full for completion; Life becomes perfect by the union of love and knowledge to enjoy freedom To feel real joy in order to get satisfaction, fulfilment and peace in world life; Mere successful ones are not wise and unsuccessful ones are not fools!

Ramesh T A
Human Love And Friendship!

Love at first sight begins between two unknown souls.....;
But love between two known souls strengthens friendship!
Love is truly uniting hearts lifelong to do all things together
And brings real joy in creating a thing of beauty all love...!

A beautiful creation out of love gives full freedom to enjoy
Among the loving souls of hearts beyond all barriers ever!
Such a state of freedom only opens hearts to say all truths
Reliable to live a most fulfilled life till the end of time here!

Discoveries, inventions and creations in the world save all
Achieved only out of love by the good hearts for joy and
Peace to enjoy freedom in a healthy way lasting forever
For humankind to rise above all limitations to higher level!

Love and friendship are the best human emotion that unites
Heats, minds and souls to enjoy real freedom, peace and bliss!

Ramesh T A
Human Sense Lost By Gadgets!

Gramophone records delighted the listeners of songs in the past;  
Transistor radios and tape recorders entertained the song lovers;  
Then cassettes gave company to music lovers everywhere long;  
Now CD and DVD discs store all songs, movies and books for all!

DVD discs give company to all for entertainment and education;  
Many E Books are ready for the reading pleasure in DVD discs;  
Next to Computers notepads and smart phones do all for all now;  
What a small world mankind has become within the palms of all!

With video games, music and songs all are engaged by cell phones,  
People have last human touch with near and ones too whether they  
Are at home or on a travel or anywhere in the world due to that  
Small gadget making all spell bound by its magic all their lifetime!

With the cell phones in hand all make selfies at the cost their own  
Lives while on a bike ride and also never feel like helping the ones  
Caught by the thieves or rapers on the streets but only taking all  
The incidences in videos and selfies all day long sans human sense!

Ramesh T A
Human Sense Makes All Possible!

Decisions are made by the knowledge each one possesses;  
But the final decision is made by the chief of organization…!  
Individual decisions should be broad inclusive of all in and out;  
But narrow minded decision will not solve all matters forever!

Development does not mean only technological and financial  
Ones, but also social one based on humanism or human sense!  
Everyone is part of society and Nature in the larger context ever;  
For, all cannot be islands living far away from the Earth in reality!

Competition is for excellence to be achieved in over all progress,  
But not ever for individual development only at the cost of all…..!  
Wisdom lies in cooperation, coordination and coexistence, but  
Never in isolation to enjoy benefits alone sans sharing with all…!

If we live together, benefits are many to enjoy for all in world life…,  
But living in isolation none can be developed and benefited better!

Ramesh T A
Human Sensibility Is The Base For All Acts Of Man Ever!

Without human sensibility, man is but a machine or an animal; Also, according to one's sensibility, approach has to decided; Without sensibility, one is just a dead man walking in life; Sensibility of feeling is the base for all acts of man is ever!

Sensibility only kindles all acts of man to do good or bad; Sensibility is the cause behind one's pursuit in the world; Experience based on the sensibility of human feelings only Helps and gives ideas to one to do creative or inventive works!

Great masterpiece of literature and human feats are achieved Only by sensibility of one's feelings that has kindled great Ideas to express out one's best within hidden long for the Benefit of all bringing great reputation to the creator ever!

Just intellect or knowledge has nothing to kindle any interest In all unless touched by sensibility of feeling that has the key To make one happy or sorrowful causing great change in life that Brings about realization of one's self to do beneficial things!

Ramesh T A
Human!

Religion may make

Man a divine, but culture

Only makes brute a human!

Ramesh T A
Humanitarian Service Need Of The Hour!

Lethargic bureaucratic activities provoke wrath to public
Not getting timely service when in great need during the
Times of natural disasters like floods and cyclones sure!

Stranded on roads of villages and small towns in interior
Places after their houses are smashed to pieces by severe
Storm, where and how can they get water and food at all...?

Without knowing their pain in the least, these bureaucrats
Mind matters as if they are dealing with paper work, when
Humanitarian assistance is needed to alleviate their pains!

Ministers and officials come very late to know the acute
Situation in which people and children are put to greatest
Tragedy not knowing what's their next thing to do in life!

Humanitarianism service is the most needed thing all working
In public offices as human beings have to know and do service!

Ramesh T A
Humanity Is One World Society!

Humanity is a big world society like a joint family
Inclusive of all religious, ideological, professional,
Industrial, agricultural, social and political people
Under one roof like various fingers of the same hand
Doing various jobs in a coordinated way to cooperate
With all so as to live in coexistence supporting the
Policy of unity in diversity as in a social club ever
Working for the prosperity of the whole of humankind
For the promotion of human unity enjoying all benefits
and sharing all ideas, knowledge and technology for
The development of all communities as a united society
To maintain peace by love and friendship for creating
And inventing beautiful and beneficial things making
Use of everyone's skills, ideas, geniuses and talents!

Ramesh T A
Humanity Is The Flower Of Society!

Humanity and community come under the category of society;
Humanity is the flower of social tree with community as leaves;
Leaves are many in a tree but flowers are less among them;
For, humanity is the cream of both community and society!

Human sense, humaneness and humanism are what humanity is;
Community is for each religion, language, Class and caste;
Mankind, humankind, human beings and all form a society and
They all are called as world human society in general ever!

Whether good or bad or ugly or black or white or brown, men
Are humans with human nature, mind and heart in humanity..;
Community is the identity of each and every religion, caste,
Language, race and colour of human society in the world ever!

World human society comprising of both community and humanity
In general denote world human beings as trees and plants with
Leaves and flowers living with fruits of children as families
Among humans, animals, birds and fish evolved by Nature sure!

Ramesh T A
Humanity Or Animal Farm!

Humanity is made into herd or cattle in the forest
Threatened, chased and hunted by wild animals like
Terrorists, rowdies, police, bureaucrats and politicians!

Calm and peace loving humans are meek and weak, it's thought;
Humanity is majority in number in all nations of the world;
Of them, elephants, rhinos and hippos fight against injustice!

Their strength lies in unity and going together always sure;
Only stray and lonely ones are the victims to wild animals;
If they all joint together to fight, none can excel them ever!

Knowing this, they have to form themselves into protective force
To safeguard themselves as the elephants do ever in the forest
And that is the best way to protect and achieve what they like!

Is humanity an animal farm to be treated as underdogs forever?
Realizing their real nature, they have to stand steadfast ever!

Ramesh T A
Humasn Culture

Holiday mood in West and festival mood in East
Begin with the last phase of August till September!
Then Winter mood of festivals continue on starting
With Ganesh Chadhurthi, Krishna Jayanthi and on
Continuing with Navrathri, Diwali, Christmas & N Year!

So all the years go on and on in the world life cycle ever
Like the seasons changing from Spring to Summer and
Then to Autumn to Winter to say Good bye to the year!
But fun mood in all seasons connected with festivals and
Holidays to enjoy life in various ways we live life long....!

What a fun enjoying holidays with family and friends
Going to places in the South sea beaches and North
To have relaxation in hill station resorts in Summer!
In Winter palying Cards, Carrom, Chess and Billiards
We manage ourselves against all kinds of weathers...!

Best way of life we have discovered is human culture
We all like to live in the names of national and festival
Holidays we cherish most in heart to have joy and all
Kinds of fulfilment possible to live a complete life we love
Wishing best wishes sending greeting cards and all ever!

We cannot change this even the climate changes often!
Whether the weather is good or bad we have fun in all!
Life to be cheerful we drink to the health of all forever
Gathering friends we love and loving souls to enjoy life!
This is human culture to make even worst as best so...!

Ramesh T A
Humbug!

Humbug humans harm

Humming high ho haughty hellos

Humour hoaxed howls!

Ramesh T A
Hunger Activates All To Be Hurry!

All are in a hurry from the earliest morning on
Whether it be squirrel or crow or men or women!

Animals are in a hurry to find food to stop hunger
And get energy to do the daily chores sans stop!

But men and women are in a hurry to go to banks
To withdraw money from ATM for daily use quick!

Is there a way to stop hunger and use of money ever?
Without one or the other, life won't be vibrant sure...!

Hunger is the basic thing that activates all in the world -
Hunger for money, hunger for food and hunger for sex!

Only eastevation in Summer and hibernation in Winter
Are the period small animals and bears spend in slumber!

But man has not even that little time to take rest in life
To feel free from all hungers for which he is in a hurry!

Ramesh T A
Hunting Or Fishing?

Hunting or fishing – which is better?  
That is what I am thinking about!  
In business many hunt for customers;  
Some men prefer casting net to catch fish!  
Even for poets the position is the same  
In poetry websites to catch readers!  
Some lay wise traps to catch readers!  
I use fishing rod with a needle and bait  
To catch readers who can understand!

Whether the rank is high or low it is  
Immaterial but the true comment is!  
Hunting readers to comment and rank  
Or fishing readers to comment and rank  
Are not really going to enhance one’s status;  
For, voluntary comments are indeed valuable!  
Poets are jealous to appreciate others’ merit  
But some poets raise the status of others!  
So, letters to such poets increase sans end!  
This is the status of poetry websites now!  
So, it is left to you to hunt or fish or lay trap  
As you wish to catch readers for rank, etc.!

Ramesh T A
I Always Wonder.....!

I always wonder if there is any other planet......
As beautiful as Earth anywhere in the Universe!

Scientists are sending up in all directions rockets,
Satellites and working in Space research stations;
But it is not possible to find out a planet like our
Earth with the evolution of species like ours here!

I also wonder after evolving to such a high level,
Why man is indulging in destruction of Nature,
Which is providing all things we need so long and
Living in mechanical life rather than natural life!

With beauty and love only Earth has so much to
Give and evolve all better than before by Nature
Like loving mother kind, generous and hospitable;
But why is man not learning anything from it ever?

Ramesh T A
I Am A Book Man!

I am a book man forever in the world!
My present body may be having a soul;
But my book has a living spirit forever!

Due to Computer coming into vogue
My articles, poems and stories are
For all to read and enjoy a good time!

My soul may depart from my body one day;
But my living spirit in books or will
Never leave them to make them dead ones!

Being a poet I have attained immortality
To share my experiences and thoughts ever
With every reader and friend in the world!

My soul or spirit will ever be either in book
Or websites to communicate with you
And all forever in the world till it lasts in Space!

Words in poems and articles are my voice
That will forever speak with whoever contacts
Me on any topic to give a wonderful reply sure!

Search for any matter under my name on any
Search engines like Google or Yahoo or whatever
It is available on your Computer screen or my books!

This is what I leave for posterity or world forever
Doing the best I can till I am alive and also after my
Soul leaves the body to live eternally in my works!

Ramesh T A
I Am Immortal By My Poems!

! may be mortal, but my love is immortal!
My words of love are alive making all happy!
My love forever lives in the poems of past,
Present and forever in the form of books..!

Now all of my poems born of love for all are
Ever on various poetry websites sure!
Also my poetry videos all can read on youtube
Day and night in all days, weeks, months, etc.!

Since I am immortal, I answer to all of your queries,
If you type them and search in my name on google!
I am a open book to inspire and guide you all ever
Like the lighthouse on the shore for all ships on sea!

My poems born of love surely lead all to harbour of
Success to achieve love, joy, peace and satisfaction!

Ramesh T A
I Am Ruby's Son!

Ruby is the name of you, my mother!
I am called as Ruby's son, you know,
When we go to our native town ever!

Now, you are no more here after my
Dear father has gone away before you,
My mother, the most loved one ever!

Your innocence is well known everywhere
Unlike your elder sister in our circle,
All my relatives say among themselves!

My love of you increases when I hear
The love you have from everyone here
And the love they show to me forever!

All love me because I am your son and
They enjoy my talks of humour like you!

Ramesh T A
I Am Superman!

Superman I have become in my dreams!
Floating in air and flying all around here
I see all things as they really are in the world!

X ray eyes I have to see in and out of all!
Nothing can be hidden from my view ever
Whether it is deep under the sea or ground!

Clever persons may hide information long;
But I can read them all through their eyes
That cannot hide anything to me ever at all!

I am poetic, philosophic and prophetic too!
I am photometric, telepathic and clairvoyant;
I have been boasting to potentiality websites!

I am superman in mind by intellectual knowledge;
I am superman not by strength but by power of spirit!
All have to evolve by mind and spirit to be supermen!

Superman is forever to save mankind in the world
And by dreams I shall create many miracles ever!

Ramesh T A
I Can'T Be Hunted Down!

PH can hunt a lot of poets and keep them captive,
But I always escape from the top 500 as of now!
Many vie with each other to find a place there
But I don't do so for a place in the list as I am above all!

Best ones are free from this list and come as they wish;
I find most of my favourites are out of the list very often;
I feel happy I am also one among them now after long!
I think this position will continue hereafter-wards for good!

Thanks for those who have bold enough to comment me;
Thanks for those who read best of my poems without a word;
Thanks for the good hearts who encouraged me very often
Though I don't need as I am well fortified for that long ago!

Day and night come and go but our bond as poets is the same
Up and down are common in life and remain the same forever!

Ramesh T A
'I Can'T Betray! '

Escaping from prison hero hides in his friends house
Tells him, 'Don't say I am hiding here..... promise! '
But police suspects and enquires friend about hero
He says, 'How can I betray my friend saying he is here? '

Ramesh T A
I Compose As I Please!

First or last
I go on composing poems
As I please!

Ramesh T A
I Consider....

I consider
The day spent sans writing poem
A wasteful day!

I consider
The day spent on writing best poems
Best in my life!

My intention
Is not to spend time on useless matters
Both for me and world!

For, I want
All my best poems useful to all
Even after my death!

Ramesh T A
I Go On Writing Poems!

All loving souls supporting me are missing in usual places long!
I have this kind of experience from childhood on making me bear
The loss of loving souls becoming one with Nature for permanent
Rest in peace and making me feel sometimes about them in grief!

Becoming a world English poet, I have got a second chance to get
The loving support of such good friends I haven't even dreamt of!
That was a great surprise and solace to a soul craving for love as
Friends visiting poetry websites with many world poet members...!

I have been praised as icon full of wisdom in writing poems by one;
I am being branded as journalist, philosopher and poet rolled
In a writer; I have been praised as a challenging artist in English
Not my mother tongue but writes about Nature, people and places!

From Canada to Philippines, I have wonderful friends as fans, foes,
Commentators, critics, loving souls for sometime quite incredible.;
But now they have all gone where I don't know and I go on writing
My poems for all who are interested in poetry all over the world...!

Ramesh T A
I Like...I Like Very Much...!

I like... I like very much
Her beauty quite rare!

I like...I like very much
Beauty of Moon among clouds!

I like...I like very much
A gentle smile on her face!

I like...I like very much
Her blue eyes like the Sky!

I like...I like very much
Her red lips like the apple!

I like...I like very much
Her cheeks like the rose!

I like...I like very much
Her kisses like sea touching shore!

I like...I like very much
Her close embrace like creeper to tree!

I like...I like very much
Her love like the love of Divine!

Ramesh T A
I Love You Ever!

I love you under the Sun;
I love you under the Moon;
I love you in the twilight too!

I love you in all the sorrows;
I love you in all the joys;
I love you ever after death!

I love you ever in depth;
I love you ever in breadth;
I love you ever in height!

I love you ever by heart;
I love you ever by mind;
I love you ever by spirit!

I love you as you are for me;
You love me as I am for you!

Ramesh T A
I Still Write Poetry!

Today is my birthday....!
Do you know, my friends?
I am 66 going on sixty-seven!
I am yet to see the heaven!

1972 I vowed to be a writer.....;
17 years I was busy with joint-family
Business and family obligations!
Only from 1989 I started writing!

Despite disturbances and distractions
I have been writing poetry regularly
Making me realize that I am a born
Poet to write poems only forever...!

I have published all my writings on
Internet world wide websites and
From 2008 on I am daily writing
Poems and poems and poems....!

Still the zeal to write poetry has not
Stopped so far and so forth and so,
I continue to write poetry not only
For my friends but also for all ever!

Ramesh T A
Ideas Appear And Disappear!

So many best ideas crop up in the mind;
They are all written as poems and articles;
As time passes on they are all forgotten too!

Again when someone quotes them one day,
It looks as if they are said by the writer sure;
But one can’t remember when they are written!

Such things happen to writers of many years;
They are all searching for new ideas forgetting
The ideas they have written already earlier...!

What is new and old cannot be distinguished;
But when ideas look to be fresh and suitable,
Immediately they are all expressed in words!

Likewise, many best pieces are written and
Forgotten till one day they look new again!

Ramesh T A
Ideas Of Great Ones!

Expose of true and great ones in any field is an enterprising
Effort by the sincere and good ones who have enjoyed benefits
From the ideas of those benefactors as a mark of gratitude in
Return wherever they go and whoever they meet in work and life!

Promotion and progress they enjoy are the outcomes of those
Great benefactors' ideas they have acquired by casual meets
Earlier they have made and that make them feel as if they have
Met God in real life to the extent of worshiping them ever..!

This is the feeling of the developing ones at critical times
And the recoveries they have made out by those great ones' ideas
Surely that's impossible to believe even by the benefactors, if
They happen to hear from the benefited ones at anytime of life!

Unless the beneficiaries reveal about the ideas they have used
To solve matters for the progress of an institution, none will
Know of the great ones doing things selflessly unknowing how their
Ideas will be of great use somewhere else through somebody else!

Ramesh T A
Ideas We Form Are Got Out Of Perception And Conception!

Knowledge is power, we all know, but how do get it? That is a philosophic question worth exploring here! Knowledge or idea we get out of physical experience Is what we call or can say by the term perception..!

Strong impression or stimulus we get out of physical Experience such as seeing, hearing, smelling, tasting And touching we form a perception about things of all Nature we know, humans and feelings we get out of them!

Is that all the way we get knowledge? No, we have mind That does the jobs of thinking, visualizing, dreaming, Imagining and intuiting very helpful to conceive all Ideas advanced and amazing that make man powerful here!

Stimulus gives impression leading to physical perception And mental conception to form ideas that give knowledge!

Ramesh T A
Identity Of A Community!

Revival of ancient language and culture is like resurrection
Of a dead body such as Frankenstein monster or Egyptian mummy!
If anachronism is accepted, it could be possible to revive and
Produce old wine in a new bottle for the enjoyment of all sure!

Reforming the old language like modern languages as far as style
Of alphabetical letters are concerned to suit to the accessibility
In Computer use, such an exercise will fetch beneficial results
As far as communication among that community is concerned sure!

In the same way, old or traditional culture, if modified as per
The needs of modern time and future trend, it will surely bring
Great rehabilitation to the community to follow with ease and
Great pride distinguishing the community from other communities!

Language and culture are the real identity of a community ever
That needs to be cared, cherished and followed by majority sure!

Ramesh T A
Identity Of A Language Lies In Its Script!

Only script is the identity of each and every language;  
Pronunciation of words are indicated by alphabets in it;  
Script of other language cannot be suitable for each one  
Making the need for particular script for particular one!

For the selection of script for a spoken langue, use of  
Other language script is not giving separate identity  
And making it only a language coming under the identity  
Of that other language losing its own originality ever!

This makes an old spoken language driven to the state of  
Extinction sooner or later as it will become the other  
Language by script and use in the long run damn sure and  
To avoid such a situation particular script is necessary!

By no means, one should fall for other language script for  
A language to sustain its own originality and identity ever!

Ramesh T A
If I Were The Chief Of Uno!

If I become the Chief of United Nations Organisation,
I shall work for the formation of One Human World,
Which will supersede the Utopia of Thomas More,
Which will be better than Atlantis of Francis Bacon!

United Nations will be the Parliament of the World;
There will be Unity in Diversity among all Nations;
There will be Single Currency for all the Nations;
There will be one language for communication!

United Nations will control the security of the world;
All Weapons of Mass Destruction will be in its hands;
Nuclear Weapons will be in store to blast off asteroids
When they reach near the Earth to cause holocaust!

There will be common laws for all the nations to follow;
Education will cover agriculture, industry, science, arts
and give training in army too to give choice to choose
Jobs after education for all to live in peace, love and bliss!

Ramesh T A
Illness To Disease!

Small illnesses now and then pose as big disease!
That makes one lose confidence making one think
To the last stage of life unable to bear illnesses ever!

When recovery is attained by appropriate medicine
Everything is forgotten and no one thinks about the
Causes that lead to some illnesses sometimes or other!

Our mind makes a mole into a big mountain by the
Imagination that stretches like elastic resin and also,
No one understands why such things happen so at all!

Health is wealth is understood only after undergoing
Some illness for sometime in life and that brings a
Sort of control over one's physical self to be healthy!

Before small illnesses become big disease prevention
Is better than cure one has to keep in mind to be healthy!

Ramesh T A
Illusion And Reality!

What we see around
Are all just illusion only;
What we don't see
Are reality we won't
Accept as not visible!

We see a lot of Stars in
The Sky only in the night;
But in the morning we
Can't see any Star anywhere
As it is illusion only...!

Illusion and reality are
Always confusing unless
We know all by realization
Based on observation and
Also, by intuition ever!

Ramesh T A
Images Born Of Imagination!

Images created out of imagination
Everywhere serve as many ideas
Inspiring, encouraging, guiding
And also changing mood and path!

Classical paintings are great ones
Beautiful, truthful and joyous ever
Last as great images doing wonders
As images of God helping all well!

That thing of beauty is a joy forever;
That beauty is truth and as Keats says
That is what needed to be known
And nothing else in this world sure!

Purpose of image created by artists
Lasts longer than anything else sure!

Ramesh T A
Immortal Epics!

Immortal epic great poet puts down on paper.....
Once he sees the character of charismatic leader!
Rama, Krishna, Ulysses, Achilles, Buddha, Sankara,
Christ, Arthur, Robin hood, Alexander and Gandhi
How can mankind forget as long as Earth is there?

Moses, Solomon, Vikramaditya, Sanakya, Hermes
And many more immortal characters poets depict
In world Classical writings mankind remember ever!
Inspiration got out of them makes good hearts live
To do miracles by achieving impossible missions too!

Hard times, unfortunate situations in life put him
Under untold sufferings he has to endure by Fate....!
Many a skillful masters live and go as undiscovered
Treasure under ocean caves or flowers in the desert!
Yet, marks they left behind resurrect them someday!

Classical poetic plays are replaced by modern novels;
Short stories have come up in many forms everywhere;
Philosophical articles and criticism reveal many truths;
Journalism utilising all forms create a new art of writing;
Yet, poetry survives bringing back old charms still on line!

Telegraphic messages have become SMS messages now;
Many messages are compressed now into poems new!
Though poem looks like an atom has effect of atomic bomb!
Nothing else can replace them even after long passage of time;
New poetic epics will come from geniuses great sure soon!

Ramesh T A
Immortal Romantic Playwright!

Born and dead on Avon the same date, 23rd April
Romantic playwright Shakespeare none can ignore!
He ever lives in his 32 Plays and 154 Sonnets......!

His plays are mirror to life reflecting about humans
In seven ages of men opening the curtain to show
As child, pupil, lover, soldier, courtier, wise, old man!

What a quintessence of precious dust man is, he says!
Warrior, philosophic in nature, gentle and noble man
Surely cannot take revenge on murderer of his father!

Unlike Hamlet, Prince Hal jovial with fat Falstaff, yet
At the time of emergency fights bravely for nation
And proves himself to be worthy son to his father!

That character Shakespeare develops further into
His favourite hero Richard III and gives a sketch
And full picture to the best he can to immortality!

Comedy or Tragedy or history, he shows his skill,
Power and range depicting characters none can forget
And refer in life parallel happenings to one and all!

Whoever loved, that loved not at first sight.....?
Love at first sight we came to know from him first!
Romeo and Juliet & Antony and Cleopatra live long!

Star crossed lovers' hearts stricken with arrow
Cupid boy releases from his bow never fails and
Lovers live or die together to be immortals ever!

Cleopatra's serpentine beauty captures hearts of
Emperor Julius Caesar and his faithful friend Antony
Till death and suicides herself by the bite of snake!

He creates romantic love life controlled by Nature
At first and at the end of his career makes Nature
Go under the control of man envisaging future too!
For him life is such stuff as dreams are made on
And is rounded off with a sleep at the end sure!
Closing curtain so in blank verse he ends in sonnets!

Ramesh T A
Immortality!

All my poems are born from the love of Nature;
Nature has made me a poet for the world love;
Inspiration of Nature is endless ever for me...!
All poems created from my heart are wonder!

None can do so unless one has the grace of God;
Poetry is a great gift of God I cherish most ever!
Unless I have expressed heart in poems I perish;
I am still surviving because Nature sustains me!

All poetry come from heart direct for the readers
To enjoy, energize and elevate high to sublimity!
The pleasure and truth I have enjoyed, discovered
I bequeath all to my friends, fans and favourites!

My poetry has made me immortal, an award of God
I have to thank above all I am bestowed with so far!

Ramesh T A
Imposter!

Imposter!

Imitation does not

Make one what's not

Only an imposter!

Ramesh T A
Impressive Promises Though Never By Action!

Food, clothing, shelter, education and job are the basic
Necessities of all in any nation in the world damn sure;
But, if a national government is unable to provide even
Water for irrigation and drinking means what to say...!

Politicians talk about developments and show statistical
Figures of national economy making people wonder whether
That is true, when it is no possible to provide drinking
Water even after seven decades of getting independence..!

From childhood on I have been seeing this problem going on
Not only in one Temple city but also in many towns and all
Villages in some States of the nation putting me in great
Wonder how people are managing themselves with this problem!

Even if it is not possible to provide water to people by the
Government, it is due to the shameful politicians in power
Voted by the very people who still believe that politicians
Will solve it by impressive promises though never by action!

Ramesh T A
Impressiveness Captures All!

Impressiveness captures the hearts of many!
Impressive advertisement captures customers.
Impressive poetry keeps all in spell bound state
Though rhyme and theme are clear to none ever!

First duty of poetry is amusement before knowledge;
Impressiveness does that job pretty well by experts!
Poets of romantic calibre surprise by magic, vision
And fantasy by transporting all to a world they create.

That is why the subjective, philosophical, individual
Style of poetry makes a mark in the realm of literature
By impressive expression of ideas amusing all at once!

So, there are romantic dreamers, visionaries, magicians
Who have permanent places in the heats of many
By their impressive art of expression forever and ever!

Ramesh T A
In Company With Nature

Bright Sunshine and blue Sky are beautiful!
All of my close members have gone far away,
But loneliness does not hinder my happiness
For, I am ever in the company of Nature!

Peace and tranquility sway my heart full!
I have more than what I need to be happy;
All my days go on in composition of poems
Ever influenced by my beloved Nature....!

Being part of Nature and living in harmony
I feel it is more than a paradise I long for...!
Time goes on fully occupied by my business
That keeps me completely engrossed in....!

Stage of not having enough time feel I often
When I am composing poems in Nature ever!

Ramesh T A
In My Hand!

Birth and death going on the world moves on
In Space full of many Stars and planets ever!

Good and bad news each day news reveals
In spite of life's woes endless or joy everywhere!

How long or short we have lived does not matter;
What best we have done for the world counts....!

Each day with this in mind we have to do the best
Before meeting our end one day or other.... sure!

All days spent with Nature at the back ground surely
It seems to be glorious whether we have all or none!

With this note I push on body vehicle in condition good
Though time has been ear marked for departure......!

Time went on sans any thought of destination first;
But God has left me to decide the date by my health!

Ramesh T A
In Search Of Truth!

Religion, philosophy and science search for truth;
The approach of search of each may be different;
But the object of search for everyone is the same!

Religion by devotion tries to explore great truth;
Philosophy intellectually tries to know the truth;
Science experimentally tries to infer to know truth.

Spiritualists super-consciously explore to realize truth;
Mystics by Nature mysticism experience existing truth;
Poets using imagination explore the existence of truth!

Emotionally, intellectually and spiritually all try in life
To know, realize, experience and feel truth in all;
Understanding that is the main purpose of life for all!

Whatever be the approach of all in search of truth
Nature is the only link for everyone’s approach here!

Ramesh T A
In The Ranking List Of Pyramid!

In a pyramid, God is the top point and man is at the base; 
To come to the top point, man has to over take all others 
Such as world, Nature, Universe and finally God damn sure!

Unfortunately, by exploiting natural resources, he is ever 
Destroying environment, making Nature change climates and 
Feels pride by his bogus achievements in science and trade!

Man's survival, sustenance and his so called success depend 
On all other aspects of the pyramid that are inevitable and 
Indeed without them, he is nowhere but a nonentity forever!

By destruction of others, man is fast paving the way to his 
Own extinction making himself a great fool, his activities 
A big farce and his pride a meaningless matter lacking wisdom!

Man with his mind's fantastic work of achievements makes him 
Feel superior to all others, but sans zeroes number is a dwarf!

Ramesh T A
In What Kind Of World Are We Living Life?

What kind of life are we living in the world.........?
What kind of freedom are we enjoying here........?
Are we really free to do as we wish all we wish....?
Are our freedom, liberty and rights strong enough?

Are all things going on in the nation and the world
Happening according to our expectation at all ever?
The journey of exploration on such thoughts and...
Ideas has no end, it seems, each and everyday of life!

All political games are just making promises to a great
El Dorado as the cowboys make gold rush to nowhere
But only go round their own pet points to lure people to
Pocket their gains at the cost of all people, fooling ever!

Can the people be fooled forever by the greedy politicians
According to their will and pleasure all time and believe
People can be fooled to do whatever they like in power, from
Which they can't be pulled down soon but only in elections?

Ramesh T A
Incredible But True!

In the world of uncertainty now
Every good thing happening
looks to be a fluke chance!

All long for support and solace
And whoever gives them a friend
Without doubt due to situation so!

Life goes on for millions of years
On this loving Earth perhaps so
It seems and otherwise it's no-more!

We are fortunate despite sorrows
To have some hope to survive here
With love and solace coming somehow!

It's a great mystery Earth alone has this
Though there are a lot of planets but inauspicious

Ramesh T A
Incredible Instant Travel In Universe And Time Travel!

This Earth has witnessed so many wonders in the past;
Also, relics of the past say so many incredible stories;
Instant travel to anywhere in the Universe and time travel
Though impossible human endeavours, had happened in the past!

There were some spots called Star gates on the Earth
That helped instant travel to anywhere in the Universe;
Also, there were some spots that made possible for one
To travel in time to future and return sans aging oneself!

Travel through Star gate is like instant e mail sending to
Anywhere in the Universe and Time travel makes one's time frozen till the return to one's sense that makes one predict
About future to those who have become older than one by then!

Such incidences though seem to be unbelievable, had been in vogue being followed by Star men or aliens in the past world!
Otherwise, they could not have visited Earth and helped the Chosen one to have time travel and predict future happenings!

Ramesh T A
Incredible Meeting Of Poet Friends In Person!

Inspiration and advice of my friend kindled me to start writing All my ideas in a diary as poetry discovering my talent after Seventeen years, though engaged with full-time industrial job And also, dealing with my family affairs nonstop then in life!

Today he appreciates that I have lovely poet friends all over The world making me wonder and feel proud of the feat that Has happened naturally in my publication of poems on various Poetry websites after I have learned Computer use by chance!

Indeed the invention of Computer has brought a sea change Of life for poetry to become so popular making many hearts to Have chance of sharing poems and receiving comments and Criticisms immediately from poetry lovers all over the world..!

Above all, world poetry festivals in some nations have helped Poets meet in person, a great miracle incredible indeed now..!

Ramesh T A
Incredible!

Earth quakes
Followed by Tsunamis
Is incredible...!

Ramesh T A
Indeed A Thing Of Beauty Is A Joy Forever!

Rare natural phenomenon makes the day special anywhere;
Sunset and Moon-rise at the same time take place only
On rare occasion as it happens this evening at the tip
Of Southern part of India at a place called Kanniyakumari!

Is it not a fortunate thing to see half red ball of Sun
And half golden ball of full Moon just above Indian Ocean?
What a natural scene to witness happening before our own
Naked eyes as seeing beauty of human in a natural attire!

Like the beautiful poetry composed by a master poet rare,
Nature creates such a beautiful thing on the sky canvas
This evening to put all people in spell bound condition
And a joy that will last long in the hearts forever true!

John Keats's "a thing of beauty is a joy forever" is being
Becoming true once again by this rare natural phenomenon!

Ramesh T A
Indeed Reflection Of Almighty Is Nature!

All beautiful, artistic and lively works are in Nature;
Best and beneficial things are free in Nature forever;
Compensation for all losses in life one gets in Nature;
Description about Nature is endless and needs still more!

Everlasting joy, peace and bliss Nature only gives to all;
Free state of mind one gets only in Nature meditation…;
Good, great, gracious and grand ideas Nature gives to seeker;
High spirit and high nature only from Nature one can get!

Isolated from madding crowd of world, One gets inspiration,
Joy and new ideas to regain all losses incurred by all to one;
Kick starting all by renewed mind, one surely does better in
Life and work thanks to the timely supports of Nature forever!

Many inventions, discoveries and creations are done ever by
No other support other than from Nature we learn from history;
Open approach to Nature by one for anything is never betrayed;
Powerful influence, inspiration and effect of Nature is wonder!

Quite satisfied by success in all ventures inspired by Nature,
Respect to it by one is as awesome as you do in worship to God;
Sustained support of Nature by encouragements through its beauty,
True love of all species and beings is reflection of God’s nature!

Universal love of Nature is a greatest wonder and miracle of God;
Variety in all its manifestations Nature ever evolves all better;
Wide and wonderful scope of Nature is godlike sure everywhere ever!

X kind of species too Nature introduces to amaze all living beings;
Yugas many change, but Nature never changes by its bountiful love;
Zenith of Nature is the highest boon to all beings ever in Space!

Ramesh T A
Independence

Where's freedom for society
And liberty for individuals ever
There independence is...!

Ramesh T A
Independence And Interdependence!

All are interdependent in the Universe;  
Can anyone be independent in the world,  
That is self-reliant, alone and separate?

Independence is freedom of individual  
To think, speak and do what one likes;  
But can anyone exist sans anyone's help?

Individuality is specialty or uniqueness  
Denoting a part of variety in diversity;  
But only by unity in diversity all live...!

Organic unity of many organs is unique  
In the over all body of humans as a whole  
Like the Universe having all matters within!

So, individuals independently coexist in society  
By interdependence cooperating and coordinating!

Ramesh T A
Independent Day Celebration!

Colourful serial lights for illumination
On independence day is getting ready;
Governor's bungalow has living day lights
Making it a cynosure for visitors to see!

Light decorations on national leaders of
Past statues are getting ready sooner too!
The big central park receives light exposure
Making it a best resort for tourists sure....!

Sixty-eight years of independence people
Have enjoyed developing the nation sure!
Nation is stepping on the sixty-ninth year
With great dreams and hope to achieve..

Sixty-ninth independence day the new govt.
With promises to keep is to celebrate now...!
What could be the message for the people
And how they could achieve all, all speculate!

Ramesh T A
Independence Day Resolution!

Sovereignty and identity ensure freedom and liberty
A nation can enjoy with all its people and with that
In view, independence day is being celebrated with
The display of its defence capability and progress....!

Along with that, the colourful rally of cultural diversity,
Arts, sports and dance entertain and encourage all of its
Valour ever and renewal of resolution for national unity
And integrity is once again unanimously pledged by all!

This national feeling in harmony with Nature to save the
Earth by having solidarity with other world nations, world
Peace, prosperity and progress are ensured for preserving
Natural resources by recycling them for all utilities ever...!

Independence of nation remains eternal, only if art, human
Culture and world union are ever promoted with the progress
Of technology and defence capability by unanimous resolution
Of all people in harmony with Nature and all world nations ever!

Ramesh T A
Independence Day Swear!

Many Independence Day celebrations we have seen
Whether it is in the capital of the nation or states....!
The question is whether we have safeguarded the
Hard earned freedom and liberty we enjoy so much!

Surely, our freedom of nation and liberty of individuals
Seem to be in sound condition despite inefficiency of
Govt. and troubles from outside perpetrated by terrorists,
That now shake the world for joint action to root them our!

Terrorism of all brands practised by wayward and ruthless
Ones cannot be termed as good or martyrdom for freedom
By any benchmark of the world needing to be death with
By all nations that cherish freedom and modern civilization!

Independence of forward looking nations, terrorism cannot
Take as hostage for ransom and can't be tolerated ever by
All nations and this people of democratic nations should
Swear on Independence Day to bring peace to world sure!

Ramesh T A
Independence indicates the sovereignty of a free nation;  
Independence denotes freedom and rights of the people;  
Real freedom comes of economic and social developments;  
Such developments ensure security and safety of all ever!

Fighting enemies at the border to safeguard the nation seems  
Not so difficult as hunger, poverty and unemployment, which  
Can be eradicated only by effective education and suitable job;  
Providing food, clothing, shelter, education and job is important!

For a heavily populated democratic country, independence ever  
Seems to be in providing all needs of the people at any cost by  
Efficient government to achieve social justice to all men sure...;  
Otherwise, independence of a nation is just a dream to realize!

Freedom from foreign rulers doesn't bring independence but it's  
Possible only when a country achieves freedom from all social ills!

Ramesh T A
Independence Of Nation!

Long freedom movements only have
Finally brought independence to nations
With freedom and rights to the people!

Maintaining this independence is the
Cooperative efforts of people and govt.
By advancements and developments..!

After independence due to unhealthy
Politics and corruption, liberty is in
Great danger affecting independence!

Liberty and rights are vital for people
As freedom of nation is for peace and
Progress for enriching prosperity long!

But sans democracy of the people, for
The people and by the people, all is nil!

Ramesh T A
Independence Towards One World Order!

Independence is self-reliance sans under anyone's control; Self-reliance political, economic and social is the objective, Target, goal and aim a nation has to achieve politically, Administratively, technologically and commercially ever To become and be a Super Power to lead all world nations To achieve peace, prosperity and progress towards a New World Order to form One World Govt. with United Nations Organization functioning as World Parliament to make a Reality of peace loving intellectuals' and world people's Dream of World Utopia of the past, present and forever Sure with single currency for all transactions, one language For communication and other purposes, common laws for All citizens of the world free from all Nuclear Weapons or Weapons of mass destruction fostering nonviolence forever!

Ramesh T A
India, The Land Of Beauty And Greatness!

As a sparkling Diamond among the nations
India stands beautifully in shape and size
On the Map of the World attracting all!
For, India, the land of beauty and greatness
Naturally stands unique in Asia as it is
Noted long for its Rich Culture and
Ancient Civilization in the World!

From Kashmir to Kanyakumari and
Gujarat to Assam Regions of India
Many languages, religions, races,
Cultures and traditions thrive here!
The Aryan and the Dravidian Cultures
Mingled here as the Indian Culture!
Also, the cultures of each State
Embellish the greatness of India unique!
In Arts, Philosophy and Religion
Nature itself has inspired variously
Many poets, philosophers and saints
To excel here in their occupations;
Great they became simply because
They were born in this Great Land!

The natural shape of India is the very image
Of the Goddess Sakti herself in reality!
Jammu and Kashmir, paradise on Earth
Beautify the face of Mother India unique;
Himachal Pradesh, Punjab and Haryana
Form a necklace to her neck fine;
The Desert of Rajasthan and the Plains of Ganga
Beautify her body frame as garb;
The Central Plateau of Vindhian Mountains
Cover her chest and stomach firm;
The Deccan Plateau and the Carnatic Plains
Beautify her thighs and calves strong
With her feet gently immersed in the three Seas,
Bengal, Indian and Arabian firm!

The peaks of the snow capped Himalayas
Are the abode of Lord Siva forever;
The confluence of the Indian Ocean and the Sky
Forms the abode of Lord Vishnu eternally;
Siva and Vishnu of North and South India
Protect the Sakti to do her duties to the World.

The Sun comes everyday to glorify her power!
The Moon comes every night to glorify her beauty!
The clouds praise her valor in the day time!
The Stars glorify her beauty in the night time!
And the waves of the Indian Seas praise her eternally!

Ramesh T A
India, The Land Of Beauty And Greatness! - Ii

The Mother India is Saraswathi, in the North;
This Sakti is Lakshmi in the Central India;
And this Sakti is Parvathi in the South.
This Sakti gives knowledge, wealth and power all!

Yes, she stands erect holding a Bow in her right
With a stretched string in her left hand forever;
Her Arrow pointing to the West ready to fight
Any formidable enemy at anytime day and night!

The garlands of veins, wherein flow the life blood
Like rivers, making her soil fertile for crops grow!
The four Seasons round the year enrich her great Nature!
The four Yugas in a cycle glorify her Rich Culture!

The old Astrology and Astronomy still highlight
the advancement of her Ancient Civilisation!
The four Vedas of India still remain the Mother of
All Religions in the World North, East, West and South!

The four Indian Stages of Life (*)ever solve
The enigma of human life in the world!
The four Ways of Life (**)still uphold
The greatness of her Dharma and ever!

The beauty and greatness of India are
Eternal in Nature and Literature endless!
The Material Advancement of the West can't be
A great threat to her Spiritual Greatness!
And the Spiritual Science of India will certainly
Lead the World to peace and prosperity!

Note:
(*)- Existence, Knowledge, Bliss and Absolute
(**)- Brahman, Skhatrian, Vysian and Sudran

Ramesh T A
Indian Republic Day Celebration With France!

Republic day Indian nation has celebrated
With France as its guest of honour this year!
Soldiers of both the nations have joined in
The Republic day parade at New Delhi, India!

Both the nations noted for culture and civilization
Have proved to be the best friends in the world
As both respect human sense in world politics
Promoting unique identities since long in the world!

The confluence of both cultures broadens horizons
And also, perspectives uniting both East and West
For the formation of world union leading towards
The creation of one world state under UNO soon!

The constitutions of both nations support fraternity,
Liberty, equality, independence and democracy...!

Ramesh T A
Indian Unity In Diversity!

Great nation India is a big world in itself
With its each State functioning as continent
And each district functioning as nation ever!

Each State with separate language and culture
With a lot of religions and sub- languages being
Followed and used for worship and communication!

North and South of the nation have two races like
Aryan and Dravidian races following their own
Special cultures as identities with vast differences!

Despite all differences, the nation has two great
Epics formerly written in Sanskrit language
Are Ramayana and Mahabharata glory India..!

By the Constitution of India, all Indian people live in
Coexistence following the policy of unity in diversity!

Ramesh T A
Inference And Reforms!

Inference in the final analysis for all problems
In the world life is money and sex only sure...!
Money is needed to buy all materials in the world.
Urge to satisfy sexual need can't be thwarted ever.

Satisfaction in money and sex makes one good.
To satisfy these two needs or urges man does all
In this world full of uncertainties, opportunities,
Struggles, chaos, sufferings and victories forever!

All cannot be equipped with basic things to use
In all walks of life to get what they want to go
Ahead of previous bad position to a better one
In order to satisfy those two needs of men ever!

Malpractices, corruption, violence, extremism,
Smuggling, mercenary activities, burglaries
And finally ruthless terrorism have become
The agenda of activities of world today in news!

To stop these inhuman acts in the world affairs
Reforms in education, politics, governance,
Judiciary, social activities of all kinds and religion
Seem to be the means by literature for the world!

Ramesh T A
Infinite Love!

God gives
Many chances for man to atone
His love's infinite!

Ramesh T A
Infinite Pleasure Of Love To Experience!

All petals of red rose flower are the lips of his lady love;
Blue is the colour of her eyes lifting high to blue sky in love;
Colours of a rainbow are the joyful dance and fun she loves ever;
Dancing all day in great ecstasy is a boon one can enjoy with her!

Ever lifted up in joyful pleasure the days run unnoticed sure;
Full of healthy enthusiasm it is when in company with her in garden;
Garland of colourful flowers are the ornament she wears in her stay;
High spirit ever within take to heavenly heights to enjoy pleasure!

Ice cold climate is nothing before love fire with her night or day;
Jointly in sensuous pleasure endless they swim in ocean of love long;
Keeping ever in touch with oyster open below he swims longtime sure;
Longing of love never satiated, her red attire transparent lifts high!

Many a kiss the sea waves with shore only continues again and again;
No one can have the symbol of love so much fused to one's lovely fruit;
Openly embraced close, dancing in fantasy in blue sea lovers fly high;
Performance of love between beauty and fun has no end to stop merry!

Quixotic fellows stand in guarding gate never know how to open lock;
Red rose flower in hand, he only with his key opens her love lock ever;
Stimulated by the screwing of the key is a great pleasure lock loves;
Transcending all limits lovers enjoy all fun in pleasure from A to Z!

Universally floating in love fun, lovers move smooth in all regions;
Various music and dance they have according to the urge till horizon;
Where is, but, the limit for infinite game of love in Universe endless?

X and Y when joined in fun of love only blissful pleasure lovers have;
Z may be the end point, but each love alphabet has infinite gap next..!

Ramesh T A
Inflammation!

For all the people

According to the size of fingers

Inflammation is!

Ramesh T A
Influence Of Nature!

Nature still has influence over everything!
No one can escape from the control of Nature
As we are all part and parcel of Nature ever.
This no one can forget whatever we do here!

Hottest summer and coldest winter and also
Heaviest rains are for balancing itself does
Nature go on doing as there is no other go!
To have better treat we have to take efforts.

Pollution control consciousness is much needed
Both in land and air as well as water everywhere
To keep Earth healthy whatever man exploits
For the betterment of himself and places ever!

Whatever advancements man does by technology
Cannot excel or overcome Nature anywhere ever!

Ramesh T A
Inglorious Fools In Power!

All politicians act according to their whimsicality being rolling stones ever, Being bachelors due to their nature ever as square peg in round hole in life; Caring none, they go on with their own policies to dictate all holding top posts; Die hard kind of nature of them never allows them to be normal like others ever!

Every move they make by fluke chance succeeds brings encomiums from their chief; Fooled by their cajoling talks, they are ever in the good books of top leaders; Gaining power fortunately, they think themselves as real leaders born to rule; High position jobs are far away from ground realities of society to realize truth!

Iconic nature of their status makes them always utter words of promises teasing all; Joining hands with like-minded rolling stones, such fellows at the helm of affairs Keep on going ahead with their pet ideas to change existing order as to their tune; learning nothing about the hardships people face, they go on at top speed in work!

Many unsuitable measures they take all of sudden to stun all in the name of action Needed to clear cobwebs of previous lackadaisical administration in all walks of life; Obviously, in the course of their rule, opposition will always try means to topple Power they hold exposing them in their true colours to people in elections with fun!

Quite not satisfied by their rule, people experience hurdles in all their transactions; Restoring normalcy in the style of functioning of government becomes an impossible one; System's faults and drawbacks of inept rulers in true colours give better chance to others; Truth will come finally, as known by all, to show performance scale pointing downwards!

Unanimous approval they get as their majority position in power is such that all go awry; Vagaries of working life of many carried away by promises of people in power go
on nonstop;
Waves of problems remaining unsolved, people move on with tight fist to give blow to them!

X and Y like ones have no voice to give went to their feelings having supported fools;
yearnings of all not happening in reality, many simply wait for time to change regime;
Zeal of men in power not knowing reality, try one after the other in vain hoping for better!

Ramesh T A
Ingredients Of A Good Life!

Sans proper occupation nothing goes smooth!
Job or profession occupies one's life time ever.
Interesting job done with freedom gives joy
And satisfaction nothing can in this world...!

Education, job and life occupy one's time ever.
Without good education, job can't be done well;
And without good job, life cannot be lived well....
If one is not properly settled, others will also be so!

Above all, without good ambition, life will not shine.
Art of living lies in the successful expression of Self,
For which, an ambition based on knowledge and...
Vision are essential to drive the wheel of life rightly!

If all are settled in life, achievement is possible sure;
Even if luck doesn't shine, one's life will be a model!

Ramesh T A
Insatiable

Even the camel passes
Through the eye of needle
Money passion is insatiable!

Ramesh T A
Inside And Outside!

Is it a big poultry yard or firmament? I doubt;
Scattered white clouds everywhere look so!
All will be in a scattered condition in war field;
Even sans war society is also so due to bad govt.!
At the surface of sea everything looks to be cool
But inside the sea so many dangers, beauty there!
In life too with pain some look to be cool by culture;
Pain is also there though wound is not seen outside!
Just by look we cannot estimate who is who ever;
Outside appearance deceive larking inside-danger!
Rough looking person might be kind hearted ever;
But the world believes only the fake gold readily!
Both vast firmament and deep ocean look to be fine
But can we survive there without oxygen or guard?

Ramesh T A
Insignificant News Of Media!

Nowadays, news media are not saying new news at all;  
Only speculative ideas of personalities reveal they  
Making people to know nothing informative about any  
Important new matters of the world or nations ever!

Peripherals details of unimportant ones they cover  
In all news papers and news magazines for analysis;  
For the inquisitive minds there is much to know  
To have thoughts on the developments of the world!

Unnecessary coverage on political matters of no...  
Significance news media full up the pages of papers  
Like the exam students who not knowing the answers  
Write something signifying nothing about questions!

Instead of wasting time so, it's better for media to  
Write about poets who write about world and life ever!

Ramesh T A
Inspiration And Exploration!

Mind out of mood blindly sit I
Looking at flowers and stars!
What a sea change I feel then
Bringing me to heaven within!

Fragrance of flowers endless
And twinkling of stars all night
Take me to the world of dream
To forget all ills of world a while!

Refreshed I venture on new road
To explore world of wonder long!
Inspired by Nature I move on
With mood elevating the heart..!

The long journey I have ventured
Still has many wonders to explore!

Ramesh T A
Inspiration Is The Great Lifting Force For All!

Icon, Nature, arts, science, literature and historical heroes
Are the source of inspiration for one to rise sky-high to be
A star in the chosen field one is best at to show one's special
Capacity or talent or God's gift in any walk of life in the world!

Inspired expressions of one inspire others too to rise high
From the usual rut of life to a status unique of one's nature;
Such inspiring personalities are the models to motivate all
To do one's best utilizing full potentiality of one in any field!

Art, literature and Nature have great influence over many and
The inspiration got out of them has made great personalities
Like Wordsworth, Buddha and Rousseau in poetry, religion and
Sociology to remember forever and follow their path to progress!

Inspiration is the great lifting force for anyone to aspire high
To achieve best things for the social good of all in the world!

Ramesh T A
Inspiration Of Coffee Vapour And Mist In My Life!

My favourite beverage is coffee that I take thrice a day,
One in the morning while reading newspaper before breakfast,
One in the evening before sunset and one after night supper!

The vapour and flavour coming out of hot coffee transports me to
The hill station of my first visit, when I was just two years old
I have enjoyed jumping high to catch mists all over the place..!

The cool climate, mists, lake, boating on it, flower garden and
The cottage with a small stream going along it with a bridge over
It and the small black fish swimming in it that I was catching..!

All kith and kin visiting the hill station have loved me and how
They were all laughing at my childish talks I cannot forget even
Today and that is how my love of Nature has started in my life..!

Whenever I see vapour and mist, I am elated with joy I know not why
And the inspiration of Nature has made me poet to write poems ever!

Ramesh T A
Inspiration Of Man!

Inspiration of Man!

Special powers of all animals are inspiration for man
To create or invent all for his comfort and advancement
To live better improving his standard of living here...!

Birds, fish, caterpillars, dragonflies, fireflies and all are
Responsible for making planes, submarines, trains, etc.,
Electricity, explosive materials like gun powder, bombs!

Forces of Nature like heat, magnetism, planetary motion,
Space, Time, gravitation, electromagnetism, nuclear forces
And all he tries to link to find one final theory for all forces!

To find origin of life and its destiny man explores in Space
By going to Moon and other planets and also to all Stars
Perhaps in the future searches and researches of Universe!

Being part of Nature and inspired by Nature, man explores
Enjoying vast resources of Nature and its powers forever....!

Ramesh T A
Inspiration Of Nature Resumes Ever Our Life Journey!

Absorbed by colourful beauty of Nature, one forgets all;
Blue sky, blue sea and blue flowers all over grass lawn
Or Green sky full of green clouds, green water and plants
Are some of the best splendour of Nature never leaves mind!

The musical notes of birds like green parrots, myna birds
Or the frolicsome squirrels simply absorbs our heart, mind
And soul as we are familiar with them everyday of our life;
Such beings and trees, where they rest, are as our own life!

This kind of harmony between man and Nature cools heart and
Gives real peace when we are out of mood and directionless
In the course of long or short journey of our world life and
Greatly helps to resume our life journey with hope and joy!

All creatures of Nature live sans any plan of future and
Always forget past in the present busy state of life ever;
How faithful are they to live so ever sans bothering about
Life with free will and freedom so easy for them to enjoy!

Ramesh T A
Inspiration Of Nature To Man!

Art is the creation of man like Nature by God;
Nature is the model of man for his artistic works;
Beauty of animate and inanimate things of Nature
Always inspires lover of beauty to create art work!

Nature is real, but art is the image of real ever;
Beauty of Nature inspires love of all towards it
And that love is the expression of art to absorb all
Kindling love towards beauty, truth and goodness!

Like the beauty of Nature kindles heart to be an artist,
The power of Nature kindles mind to be a scientist to
Explore the laws of natural forces to harness them for
Running machines to produce energy needed for all works!

Art, science, literature and philosophy inspired by Nature
Have elevated man's heart, mind and soul to divine level!

Ramesh T A
Inspirations Form Flowers!

Flowers are harbingers of hope and fortune
For good hearts full of love for dear ones!
Flowers are trustworthy ones on all occasions
For unique fragrance and beauty sans doubts!
Flowers are bridge between personalities in life
For friendship and love ever to greater heights!
Flowers kindle imagination, thoughts and ideas
For all people seeking truth to solve mysteries!
Flowers are best gift to give to dear ones ever
For maintaining good relationships long in life!
Flowers are great fascination everywhere.....
For Nature loving poets of mystical nature!
Inspiration of flowers surely absorbs everyone
Heart, mind and soul to attain spiritual depths!

Ramesh T A
Inspiring Beauties Of The World!

Colourful flowers, birds and fish attract all much
By their graceful nature and gentle ways unique!

From the morning on all flowers bloom fresh to
Welcome all with smile bright and beautiful ever!
That makes one feel elated to do the best one can
As beautifully as the freshly bloomed flower sure!

Morning songs of nice birds surely cheer up mood
To be free as they are flying all day long in the sky!
Feeling light in heart it is always very good to do all
With great perfection as there's no harsh and fast rule!

Swimming deep as the fish it is possible to locate all
Oysters to get the best pearl to make garland to give
It to the beloved one loves most to live a good life....,
As long as the world lasts, together as angels do up..!

Ramesh T A
Inspiring Songs Of Poetry Endless!

Again and again repeating the song long
Beauty of life, love, art, nature and all...
Carries on the message of confidence!

Deep thoughts of truth touch the heart
Enlarging the horizon of mind forever
Fulfilling the needs of life quite unique!

Gains out of ideas are innumerable indeed
High thoughts of lovely poems suggesting
Inspiring life's mission better than before!

Joining hands with lovely people in thoughts
Kisses of beauty inspires wholehearted activity
Life long in joy, peace, freedom and satisfaction!

Many a hardship in life too gets nullified ever
Noting all wise ideas of poems sublime and
Open hearted love they extend at anytime...!

Power of love governs through ideas of life
Quenching the thirsts of summer drought
Regularising activities towards fulfilment..!

Seldom sustaining power of love diminishes
Though it takes time to heal wounds deep
Until every loophole is closed for truth to win!

Versions of love in poems in variety may vary
Whatever be the tune of songs born of poems
X men like great creators command anywhere!

Yearnings of all souls will be satisfied as long as
Zealous bards are there to inspire in songs endless!

Ramesh T A
Intelligence Keeps One Abreast Of Others In All!

Intelligence is mental capacity to understand
Matters quicker than others to keep abreast of
Any situation to deal better than others with
Sure success and overcome crises before hand!

Based on understanding capacity, status of one's
Nature is assessed by experts to assign suitable
Work in any institution for making advancement
To achieve better things in competition with all!

What is not possible by ordinary men is possible
By talented ones and what is not possible by the
Talented men is possible by geniuses anywhere, but
What is not possible by geniuses is possible by God!

With intelligence coupled with knowledge and talent, one
Achieves miracles rather than mere achievements sure!

Ramesh T A
Intelligence Of A Genius!

Quick understanding of things is mark of intelligence
A scholarly intellect has reflecting in one's creative works
Being appreciated by all for the genius one represents
Without egoistic self evaluation stooping only to insanity!

A genius is intelligent enough to know a matter from
A to Z sans going through all the books piled up in heaps
In a well furnished library or computer searches but only
By intelligent selection and search of truth of knowledge!

Vision of such a knowledge expressed by a genius is ever
A delightful feast of thoughts a reader can enjoy and truly
Appreciate willingly sans any bad criticism as comment
For promotion of greater understanding of whole truth....!

The expressions of such an unassuming genius are what
Needed much for the promotion of love and peace reliable!

Ramesh T A
Intelligent Ones Only Unearth Invaluable Treasures Of Literature!

All people believe literature is only imaginary story to amuse one; 
But in reality, literature is expression of author's life experience; 
Careful analysis of Shakespeare plays and Dickens's novels reveal that 
Direct life experiences of people are reflected as mirror to all ages!

Entire vicissitude of human life is visualized and expressed by genius 
Full of wisdom, truth and enlightening instructions with amusement...; 
Great Grecian and Indian classical epics say things everywhere to see; 
Highly philosophical truths of life they say for human growth in life!

Icon or ordinary men, literature says about past, present and future; 
Joys and sorrows of life they say are great lessons for all to learn; 
Keeping abreast of life details, one can avert pitfalls to live best; 
Love comedy and tragedy, humour and pathos say rise and fall of life!

Many miracles, predictions and future developments too they say well; 
Novel ideas of developments H G Wells and Jules Verne have truly said; 
On their ideas and dreams, inventions have been made into realities; 
Power of words just as bards say, make all believe as religious truth!

Quite a lot of unknown historical and religious facts are revealed in 
Records of literary writings by geniuses of great calibre, though many 
Seem to be destroyed by wars and natural disasters urging researchs 
That may fix the missing links to know the whole truth and secrets..!

Universal truths from trivial matters literature says to common men; 
Various versions of classical epics too make all wonder about power of 
World literature that wields spell on all even after many centuries..!

X and Y may dismiss those invaluable treasures as baseless rubbish and 
Years together they gather no truths and blabber trashes in criticism; 
Zealous ones, but, not heeding to that, follow hints to hunt treasures!

Ramesh T A
Interdependence Cherishes Joy!

Joyful time brightens children's faces!
Happy time they really enjoy well!
Autumnal rain on green lawn invites
Not only children but elders too to
Have a nice time both day and night!

Parched Earth needs water to quench thirst;
Planted saplings need water for growth;
Rich harvest depends rich growth of crops!
Rain only can solve all the problems ever;
Earth sans Sun and rain can't sustain life!

In the interdependent world all coexist
For survival, sustenance and success ever!

Ramesh T A
Interest Unites Two Souls By Love!

Is it beauty or kindness that starts love?
Beauty attracts kindling love towards one;
Kindness kindles affection towards one;
Love is a special concern of one on others!

This empathetic concern is true love
That blooms between two souls sure!
Even for the crow its kid is golden one,
Though nobody likes this black bird!

Love of heart never sees anything else
That others like or not to have interest
In the one under the spell of love unique
That is beyond any definition by one...!

Loves starts by first sight and also by
Interest of two hearts on a thing of beauty
That kindles joy others may not enjoy
As that may look to be a trivial one....!

Interest of the heart kindles love with the
One who has the same sort of interest
That unites two souls by love unique and
Beyond words to describe what it is ever!

Ramesh T A
Interlinking Of Languages!

All languages have interconnection with each other......; With one language, if it is possible to know what others speak, it will be a great wonder to feel among strangers!

Due to historical reasons, if some people migrate to many places, naturally, they adapt words from other languages in the use of their language as time passes on in their life!

Such a language is South Indian Sourashtra language that has connection with Sanskrit, Gujarati, Marathi, Konkani, Kannada, Telugu, Tamil, Hindi, Urdu and other languages!

Sourashtra have failed to develop their language even after more than thousand years as they are not living united in one place to speak, read and write in their language ever!

Development of a language depends upon settlement of people in one place or having link with their people wherever they are!

Ramesh T A
International Culture Of Friendship!

Love is the greatest power, greatest virtue of human beings, why all Beings in this beautiful world practised by people of outgoing mood! Free, enthusiastic, outgoing mood starts among friends towards Development of love in creating great things of human expression!

Love born of friendship is lasting way of living projected by and Extended from friendship, the best relationship of human relations! More than religions and all creeds, if all are naturally converted as Friends by this international culture there won't be any differences!

There won't be any differences indeed, there won't be any wars and There won't be any hatred, but only love will govern everyone's life; Beautiful creative and inventive works from best minds and hearts Will solve all problems of the world to peace and prosperity ever...!

Everyone's quest for world peace, prosperity and progress are within The scope of friendship born of international culture fostered by love!

Ramesh T A
International Friendship Is The Best Diplomacy!

Gathering of heads of world States in one place
Indeed gives a great chance to form unity for
Solving a biggest crisis threatening the world
Being caused by terrorism around the world sure!

Terrorism and Nuclear proliferation are external
Crisis, but corruption is internal crisis of each
State needing cooperation and coordination to deal
Well to boost world economy and world security...!

By strict measures external and internal threats
To world economy and peace can be tackled in an
United joint action of fast developing countries,
If they take actions by cooperation and coordination!

International friendship of heads of world States will
Pave the way for peace, progress and prosperity for all!

Ramesh T A
International Poetry Day Celebration!

I hear the sound of parrots, when I wake up from bed;  
Fun liking, brisk birds mingle with tree green in hue;  
What clarion call they make from the distant trees  
I wonder after a longtime in my vicinity here today!

Is it reminding me of International Poetry Day today?  
Its crooked red beak is the cynosure of its green attire  
That makes a great question mark as it nourishes fruits  
From the rich trees around my residential area long..!

Yes, I understand its question and answer it with my  
Poetry today especially dedicating it to them now...;  
Yes, like parrots and other beautiful birds, poets are  
Ever free birds to express all ideas sans any barrier!

Poets fly free in their world of poetry as the birds  
Fly free in the sky wandering like lonely clouds ever  
Searching for new things all over the world everyday;  
Everyone and everything everywhere are poetry to poets!

Everyday is poetry day for them, though one day is allotted  
For poetry to celebrate all over the world just to remind  
All that poetry is crown of literature and poets are ever  
The unacknowledged legislators of the human world sure...!

Ramesh T A
Introspection For Progress Is A Must!

No progress is possible sans the introspective investigation of self;
Introspection is like a doctor's diagnosis to know the cause of illness
To prescribe proper medicine to improve health condition for the better!

Introspection is internal analysis of the good and bad of a person;
Retrospection is the external progress or failure of a person in life;
Introspection now and then helps one to weed out flaw and grow rich crop!

Introspection of self is the way to assess both progress and failure
To know the exact status quo of a person, where lies flaw in character,
What's one real talent to uplift one to Stardom in world life and all!

Despite hard work one may not progress in life not knowing where lies
One's best talent, if introspective investigation is not carried out;
Even after many years, talent has been discovered and success achieved!

Not knowing one's real Self, many rush after wealth by dissatisfying works;
Real satisfaction and joy lies in the discovery of reality by introspection!

Ramesh T A
Invisible Friend

Visible friends are wayward ever;
But invisible friend is true ever
Helping impossible to happen!

Cyber friends we know forever;
But invisible friend we know never
Thinking much beyond scope to know!

Past friends and joys we forget not;
But invisible friend we forget often
Not knowing him physically ever!

Faith we don't have grip with ever;
But material grip never leaves us
Not understanding it's dwindling on!

Invisible friend is present as air ever
But we fail to realize this open secret!

Ramesh T A
Invisible Presence Of Divinity Is Certain!

Due to shortage of water in dams, sharing of water
Resulted in court cases among the States around them;
But monsoon rains falling in abundance give solace
To all water starved States for agriculture in summer!

Despite man is gratitude-less, God saves all in time
Proving the fact that God leads our life unknown ever!
Divinity in Nature always shows love unknown to all
Living beings as He is not for praise or reward ever!

Many times, when nothing seems to help finishing our
Works as stipulated earlier, that naturally finishes
By God’s grace and that we are not aware of as we are
Hopeless at the last moment due to frustration ever!

In the long run, it is clear that there is Godspeed
In all our efforts that makes all end well finally!

Ramesh T A
Inward Eye!

without inward eye
The two outward eyes for all
Are blind forever!

Ramesh T A
Is Beauty For Private Or Public?

Is beauty in the world for private or public to enjoy ever? Beauty of Nature is open, far and wide for all to enjoy; Expressions of beauty by artists are open to all to enjoy; But human beauty is for the loved ones only to enjoy sure!

Beauty of art and Nature are open and free for all to enjoy And appreciate and that is the great honour conferred on The creator human and the Supreme being ever open to the Public to please and amuse and instruct and guide forever!

But beauty of human is a personal treasure and property Only the loved one has the right and privilege to enjoy And appreciate in the world whether it is private or public; For, human beauty is for the eyes of loved one only in life!

Only the lovers of beauty know the value of beauty of Nature, Art and human and express its greatness in art and poetry ever!

Ramesh T A
Is Carefree Life Possible In The World?

Money is used for various transactions of business or anything; 
Money not kept in the banks is called as unaccounted money; 
All unaccounted money anywhere is known as black money..!

Duplicate currency note printed by black marketer is fake note; 
Fake notes in circulation have also become a business for frauds; 
When money is made invalid or demonized, it is just a paper only!

Invalid notes useless for any purpose are simply burnt or throw out; 
Money becomes waste paper, when time allowed for exchange ends; 
There is no security for money inside or outside banks sans secrecy!

Many frauds indulge in making duplicate credit/debit cards to steal 
All money kept in the bank accounts too and put people in jeopardy 
Unless they are always in the watch-out to safeguard money forever!

There is no carefree life for anyone in the material world whether one 
Has any money or no money with or without credit/debit cards too!

Ramesh T A
Is Chance In Life A Compensation?

After an unsatisfactory education and doing a job
Not so interesting to one's temperament, a good
Lady is offered for marriage making him wonder at
God's play in life to the extent of taking a chance!

His knowledge, discipline and good manners coupled
With adjusting nature not seeing one's status ever
Simply placed him on a high pedestal to the lady's
Circle of relatives to the extent of envying her!

Knowing this trend, he thought that God was doing
The compensation work to pacify him to live life
At least as he wishes in this world full of chances
Bringing another spring season in his world life!

He felt life was unpredictable and nothing could be Visualized correctly as God's moves were always a puzzle to solve only with intelligence and wisdom As and when time proceeded in one's course of life!

Ramesh T A
Is Equality Possible?

Envy is okay among friends for progress;
But jealousy of enemies is very dangerous!
Healthy competition is there among friends;
But cut throat completion by enemies is bad!

Poor is jealous of rich and rich of another one;
Jealousy and competition are burning problems
World needs to settle score to finish them off...;
But only when all become equal and good ever!

By good education only all can be made equal
And socialism is possible to follow in the world!
Otherwise, how can one tolerate socialism among
Thieves and innocents, good and bad guys ever?

Talent, genius and greatness can never be
Equated with all common ones anywhere!

Ramesh T A
Is Fulfilment Of Dreams Of Love A Reality Or Not?

All dreams are products of desire, interest and love to achieve wishes; Beauty of Nature, arts, painting, poetry and humans many have desire on; Consciously many indulge in reverie and unconsciously dream of beauties; Desire kindles dreams and heart longs for love to fulfil one's passion!

Entire living beings on Earth are bound by Nature's decree to long and Fulfil all dreams and desires controlled and planned by rational mind; Good ones have self control to channelize passion through proper means; Highly delicate matter it is to pacify passion by agreeable way in life!

Ivy plants green creep over oak trees and old worn out buildings ever; Joint cooperation of guy and girl only makes life enjoyable in life.; Keeping all promises each one attracts by beauty to flourish love life; Love kindled by beauty in each other, merry go round life rotates in joy!

Many a romantic classics have mesmerized many to fall in love boldly... Not bothering about consequences in a do or die resolution to lead life; Open secret of love between lovers no one detects by outward incidences; People come to know of the love affair only after lovers become couples!

Quite a criticism and tirades the love couples face to pull on days...; Restoring normalcy in the family, community and society takes time...; Seldom the resolution of genuine love fails whatever be the opposition; True love stories may have ended in tragedy but love lives on in tears!

Universally love is accepted as divine, but in reality, it's not so ever; Various factors of human dictum oppose union of lovers due to doubts.; World ever accepts majority support for love or any alliances of humans!

X or Y can't immediately fall in love to fulfil one's dream even if good; Years of struggles only bring a good end to love affairs due to that ever; Zeroing focus on love only, one can dream of achieving success in love...!

Ramesh T A
Is God Just A Stone Or Spirit?

Why has God become a stone being a spirit?
Is it due to man’s heart has become a stone?
Man’s heart is the place where conscience resides,
Which is the place from where God of Dharma rules!
If man’s heart becomes a stone conscience dies;
Where conscience is not there spirit of God vanishes!
So, making God a stone or spirit lies in man’s hand!

Ramesh T A
Is Immortality Possible?

Death is a destiny for the living beings;
Life after death! Yes, we believe there is!
But life after death we can’t say
What we will be like where as
It is not in our hands to decide.
Can we be born again as we wish?
Perhaps our wish and the Creator’s are the same!

Without sleep we cannot live;
Without life there cannot be death;
And without death there cannot be any life!
Life and death in this world we see;
But life and death in that world we don’t see!

After destruction of plants there is regeneration in Nature;
After death there may be Resurrection for the Holy Ghost.

But after man’s death, it would be horrible
If there is resurrection in the human world!
So, the Spirit of man from and to where
Has to come and go is kept a Secret!

As to the desire memory remains immortal
To fulfil man’s destiny in the world;
And after death there can be rebirth
Only for purification and perfection.
But the Memory Disc of the Dead Man
May be programmed in a Robot or Cyborg
To carry out the pending works in the future
Possibly longer to a logical conclusion only!

Ramesh T A
Is Independence Really Possible To Achieve?

Celebrating national Independence day every year,
Each one wonders how independent one is nowadays!
Independence means freedom, liberty and rights to
Do what one wishes without interference from all.

Now, politicians have all independence in their
Hands to handle civilians as they wish getting
votes from them to rule the nation as they wish
Thereby taking away the independence of all people!

Independence in only in the book, but not in reality;
The independence all have got is only political one
That gives full independence only to a political one
And that means it's not a real independence at all!

Real independence one gets only when one is politically,
Economically and socially independent sure in the nation;
When one will get total independence to enjoy full freedom
And rights has become a one billion dollar question now!

Even when that independence is got, one cannot call oneself
Independent as man is a social animal only and each and
Everything is interconnected and dependent in Nature and
That gives the inference that independence is a dream only!

Ramesh T A
Is It Called Civilization?

Business and pleasure are the way of life for many;
There is no chance for love with anyone in the world;
There is no friend to cherish a good friendship ever!

No one comes to one's care, if anything happens...;
With money all things have to be settled to go ever;
Money is the token for all things in life we have to do!

Credit Card or ATM Card is used for big bucks now!
Mechanically doing all kinds of work and living life
Satisfying only animal needs civilization has driven low!

Heart and spirit of man have no chance to play in the
Material world that moves on pace with time forever
Exploiting Nature and destroying art, culture and world!

Is this called civilization that doesn't have any cultural
Base as its foundation to boast oneself of skyscrapers.?

Ramesh T A
Is It Called Progress?

Mug-pots, materialists lack common sense;  
They don't think, analyse and decide things!

Following a formula they lose human sense;  
Mechanically living they are robot animals!

Mechanically do all, eat and live sans change  
Resulting in as mad men in society forever!

World ruled by such men life is meaningless  
Giving the impression machines are better  
Than these mad men governing all affairs!

Computer, TV games and entertainment  
They relish as hungry animals all day long!

Getting tired so they easily yield to slumber  
Never bothering about time wasted in life  
And is this called progress of science in world?

Ramesh T A
Is It Progress?

Peace and beauty vanish
In noise and pollution by vehicles
In the town of progress!

Ramesh T A
Is It The World Of Fate?

Earning a place in the good books of others
Indeed is a great deed one can do better as
The time passes on in working with care and
Concentration on a venture quite challenging!

All are free and enthusiastic in doing a thing
They are very much interested in the world;
That is the best thing one can think about
Doing better and best in the course of time!

Even doing so, some are deliberately neglected
Due to lack of fans and friends to support one!
Supporting a person because one is known and
Others are ignored even if their works are best!

Even the best ones in the good books of others
Have great admiration and appreciation for some
That others fail to make a note and give their
Support in appreciation of their favourites ever!

Due to this kind of partiality best souls are left
Untouched and unknown forever in the world
Thought their works are appreciated and followed
As model by the well known best ones in the field!

Ramesh T A
Is Liberty For Mechanical Life?

Mechanical life is not free life!
It's time table life we seem to live!
But we don't know end of our time!
Time spirit instead of real spirit leads!

Only in holidays we come to our self!
Otherwise men are one among machines
Driving cars, browsing computer and
Spending whole day in AC rooms of cells!

Burdens are minimised but greed makes selfish
Leading all do mechanically to live mechanical life!
In the name of progress and prosperity liberty is lost
And money occupies the driver's seat till the end of life!

For the sake of selfishness liberty is sacrificed
To enjoy comfort, wealth and power as machine men!

Ramesh T A
Is Life A Trial And Error Game?

Each day is a great moment in the life of many beings;
Beings of the Earth can't live without food and hunger;
Hunger is the big need to be satisfied by all each day;
Day and night making a complete day all have to do all!

All things easy, difficult and hard all pay justice sure;
Sure there is nothing in everyone's life, but goes on so;
So full of thrill and suspense all matters are dealt with;
With hope all begin and end day whatever be the situation is!

Is next moment known, can all be prepared to face it well?
Well, it is also cannot be said for sure due to its nature;
Nature of each and everything is such that none is certain;
Certain with some faith all things all try with hope to win!

Win or lose like the toss of a coin decides of a game ever,
Ever none knows for sure the end of life as in cricket game!

Ramesh T A
Is Life Of Man For Money Or Satisfaction?

Vision and imagination based on knowledge, thoughts and ideas are essential For anyone to have a broad ambition to express one's personality, but not To amass vast wealth at the cost of others life and works in the world sure!

Art of life is successful expression of one's personality to know who one is And also, to reveal to the world who one is and what's one's mission in the world By expressing one's Self by the use of talent within one for the well being of all!

Zeal, enthusiasm and interest won't be there for anyone due to lack of ambition Or inspiration by Nature or from others life and works that captures one's heart To do something praiseworthy in life to make one's life admirable by all around one!

Many waste time and energy in just making a lot of money to enjoy life at the fag End of one's life not knowing that it would be only for spending all money for Curing one's diseases and for medical expenses without any satisfaction at the end!

Life is for living to do what we love for the satisfaction of our Self and for all; That is the way to know all about the mystery of life before we leave this world...!

Ramesh T A
Is Love Really Welcomed By All?

Religions preach about love, literature, novels and Cinema say a lot about love with good intention only;
But in reality, if one loves someone, families of both Sides abhor such an act of young people everywhere...!

Why is this so? Is it due to divorces after love marriages? But, divorces are also there even after arranged marriages That nobody minds much and that leads to a lot of chats on Love and life needing clear understanding of them by all!

It is well known that a good life is inspired by love and Guided by knowledge stressing much on love and knowledge As they are the two eyes of each and everyone in the world To live life well and better than all other advices by all!

When love itself is abhorred so, how can peace and joy All can enjoy in human world life all have to live long?

Ramesh T A
Is Love Timely Or Eternal In Life?

There is a time for everything in the world. 
Now it is the time for love on Valentine's day; 
Is love a timely one or an eternal one in life?

Everything is going on for love or desire or 
Devotion or dream or vision in the world ever!

Without a cause there is no action going on 
In the world we all live so long and so forth!

Valentine's day is publicly declared starting 
Point highlighting love to be honoured and 
Respected by all human beings forever......!

With the sacrifice of one's life for others love 
Making it the most valuable thing in life and 
With the exchange of love, joy and peace 
Are guaranteed among human beings in life!

Ramesh T A
Is Man Or Nature Destroying Earth?

At last rain has come to an end;
Water is logging nook and corner;
Garbage is not cleared often!

Nature is not destroying the world;
Man is destroying by poisoning all
Over fertilizing and spraying insecticides!

Destroying forest for commercial crops
And for growing biofuel plants everywhere
Food grain cultivation is minimized!

For mass production for world market
Genetically engineered crops are cultivated
Whether they are hygienic or non-hygienic!

Leakage in off shore oil pipe line
Near Mexico has polluted the ocean
And marine life is endangered to extinction!

Colliding of oil cargo ships on seas and rivers
And the seeping of oil all over water bodies
Is poisoning sea water and drinking water too!

Already air is polluted by emission of carbon
And green house gases in all cities and towns
Making man to breathe only poison gases ever!

Poisoning land, water and air by pollution
Man is poisoning the Earth to kill mankind;
Dr. Nature resorts to complicated operations!

Very hot summers, cold winters and flash floods
Nature brings to dilute poisons pervading everywhere
And man laments Nature has changed and so the woes!

Cancun, Montreal, Copenhagen, Geneva & Singapore
Are centres pollution control measures are discussed;
But no measures are adopted to neutralize poison ever!
Is Marriage A Drama?

In the name of culture drama is played to conduct marriage!
Bridegroom embraces priesthood and goes on pilgrimage;
Bride’s father stops and offers him his daughter for marriage!
He ties a yellow thread round her neck with three knots
Pledging security to parents, bride and children before fire
And the married couple lives together till the end of time!

For this event the bride waits for months together in suspense!
In life too if one difficulty is over it’s forgotten in happiness
Not knowing that another difficulty is waiting to be faced soon!
Life goes on with crises and solutions till salvation is attained!
Difficulties, suspenses and solutions at last are quite common;
Despite crises living together by God’s grace is bliss here!

Dramatic cultural life makes one bear joy and sorrow same way
And surmount ocean of life like the ship moves on up and down!

Ramesh T A
Is Modernity For Progress Or Retardation?

Due to modernity and civilization, times have changed;
Equality of man and woman has changed many customs now;
Feminism has gone beyond limit paving way to sadism...;
World reels under hatred and violence making man a beast!

Destroying good culture, civilization has led mankind to
Savagery in the reverse direction towards retardation
Rather than progress from human to divine state nowadays by
Selfishness in the name of developing independence of each!

If jewels and valuables are stolen, we report to police;
If valuables are lost in function or journey, we forget it;
If ladies run away carrying jewels and valuables betraying
Loving husbands, what can we say for it, how can family live?

In the materialistic modern world of civilization, ladies love
Husbands' property but not the love of husbands going for
Divorce to live an independent life alone with the wealth
wrested from husbands by marriage taking advantage of freedom!

Due to such kind of happenings in more numbers, rape and murder
Of innocent, minor girls are coming as big news everyday with
The display of most inhuman acts openly in the world scenario
Today undermining the good human relationships of family life!

Independence, freedom, liberty and rights are the basic essence
Of democracy that provides a system for man to live as humans
With good manners, adjustibility, morality and unity facilitating
Procreation of better humans to live in unity, love and peace!

Ramesh T A
Is One World Dream Become A Reality?

The creation of one world is indeed a Utopia;
In view of the world situation now, will it be
Possible even to dream about such a thing at all?

Utopia of Thomas More a ideal human world ruled
By scholars talking about humanism, aestheticism,
Justice and harmony like Francis Bacon's Atlantis!

Due to communism and socialism in the 20th century,
Aldous Huxley and George Orwell wrote about Brave
New World and Animal Farm and 1984 to warn of danger!

All dangers pointed out are still prevailing long
via corruption, pollution and destruction of natural
Resources leading to climate change droughts, storms!

All the grim realities indicate one world turning
Into an agrarian state will be better for world sure!

Ramesh T A
Is Paradise  Heaven Or Hell?

It's a beautiful sandy beach at the estuary, where river and sea join into one;
Heavenly joy the union of river and sea gives to one and all in that beautiful site;

It is indeed a paradise beach that has become famous attracting all comers;
Making a to and fro trip in boat there surely gives great pleasure to all tourists!

Beauty and danger are also common there due to rough nature of sea
That has taken the lives of many tourists who jump in to swim enticed by its beauty!
It is a paradise as long as one enjoys its beauty sans resorting to play with it;
Man's exploitation of Nature has turned this beauty into a carnivorous one!

Foolish planning in the construction of some provisions for parking fishing boats
Sans bothering about the course of sea has carried away sand at shore of town
By many a storm in the winter times resulting into a turbulent sea along the coast-line;
Heaven and hell have come there in the paradise beach enticing and perishing people!

Nature is a formidable force nothing can tame it unless we go and do all things According to its nature and course to make a paradise a heaven to enjoy ever!

Ramesh T A
Is Poetry A Good Business?

Computer internet service is facilitating  
Many poets see the light of the day nowadays..;  
Their friendships with other kindred poets in the  
World get opportunities to publish anthologies!

But the question is whether such world anthologies  
Have readers and buyers to bring good royalties  
To the respective poets good, great, moderate  
And all kinds or just their names on the Books..!

Some are paying money also for the publication of  
Their poems facilitating the undertaker to gain a  
Lot of commissions as a new kind of business that  
Just sways the hearts of new poets float in the air!

Poetry is not a profit making business work at all,  
Unless the poet is well known everywhere in the world!

Ramesh T A
Is The World A Football Or Rugby-Ball?

Indirect religious priest rule through kings were over in the past;
Then military dictator rules still seem to be there in some nations;
Also, dictators under the garb of democratic rule are also there now!

In obsolete religious nations, people are struggling for democracy;
In a few old political ideological States, democracy is on slow run;
Bureaucrats under the shade of democracy are perpetrating corruption!

World is in a state of boil due to these statuses of main nations now;
Due to the flaws in weak nations, terrorist gangs are deep rooting long;
Nuclear proliferation in the hands of hardcore leaders threatens peace!

Materialism, religious fanaticism and militarism are big burning barnacles;
Humanism, naturalism and divinity in the midst of all are solacing some;
Pollution, exploitation of natural resources sans conservation are grim...!

Is the world a football or rugby-ball tossed and kicked by heroes and big
Villains on the arena of gladiators of Roman time even today everywhere?

Ramesh T A
Is There A Replacement For Earth?

Sans humanism, art and Nature humanity is in doldrums!

Already art and humanism are corroded by mechanization
Controlling human activities and mechanical life flourishes
At the expense of natural or human life in the fast world...!

Due to commercial competition, technological development
Material world has been exploiting natural resources in full
And with the neglect of Nature world is at the brink of extinction!

Nature is the binding factor of human world after evolution
Adopted man as the controlling agent of all species in the world;
Not knowing or forgetting or neglecting this man destroys all!

Our world of Nature is unique perhaps in the whole of the Universe
Full of Stars and planets of different kinds we are unaware of and
Need a lot to know from our unique Earth we are fortunate to live!

Before having a replacement for Earth we cannot destroy it ever...!

Ramesh T A
Is There An Alternative For Love In Life?

Mere words are not enough, but action is needed to show love;
When no one is there to give comfort by love, Where to go is
What one's heart longs in life and suffers great pain ever...!

Art, painting and poetry may give some relief making one forget
All worries, pain and self for sometime only like liquor does;
But what can one do, if love can't be perceived but conceived?

Intellectual and spiritual pursuits may make one explore love;
Spiritual conception of love may make one relieved by a spell;
But unless physical perception of love is experienced, it's nil!

Love is a matter of heart needing emotional satisfaction for one
To get the cheerful mood to live life in peace and bliss ever.;;
Failing which, life is hell to suffer till the end of one's time!

Love of mother, relatives, friends and all is a great boon for all
And that only gives comfort, solace, inspiration and confidence sure;
Otherwise, beauty of Nature and its spell only can give company ever!

Beautiful flowers, green meadows, snow mountains, deep blue sea and
Sky with cotton floating clouds, setting Sun, winking Stars in nights
And golden Moon kindle poems many to make one manage oneself sans love!

Aesthetic pleasure in the beauties of Nature intoxicates one to forget
The loss of love in life as the mystic forgets all in communion with
Nature for long far from the madding crowd of the world in bliss divine!

Ramesh T A
Is There Heaven Anywhere?

Happiness is where heaven is actually;  
Happy state of feeling is what heaven is.  
There is not a place called heaven above;  
It’s all the story symbolically said so far  
About a perfect state of happiness so!  
Heaven can be reached only by soul  
But not by body or materially ever truly!  
Body functions by the energy within  
That has come from all pervading state  
And can reach at the end there only;  
That is the place called heaven by all!  
Hell is the place we make of ourselves  
By the problems accumulated by mess;  
Hell becomes heaven when all is well!

Ramesh T A
With tight embrace and passionate kiss dear one is welcomed in love; 
This happens in life when the dear one is far away working long sans 
Any communication and almost believed to have passed away in long wars 
At the snow capped mountains on the top of the world to fight terrorism!

A tourist spot praised as paradise on Earth has been turned into hell 
With full of violence, bomb firings and tough gun firings often ever 
Going on and the soldiers there are willing sacrifices one believes 
seeing the protracted wars going on throwing away all cease-fire notices!

Love and peace seem to be matters of romantic stories we read in novels 
When the whole world is caught by terrorist violence as forest fire 
Raging and surging endlessly day and night with all people praying God 
For big rain to stop the holocaust by the grace of Nature at last....!

Nature has provided all resources for all to share and live life in love 
As in heaven on Earth, but creed and greed have driven the world in chaos! 
Is it not making the human race worse than forest animals sans any sense 
And making human life a great farce and the world worse than hell ever?

Ramesh T A
Is World Peace A Matter Of Stories And Dreams?

On one side Nuclear proliferation and terrorism are
Rocking the Earth down to another world war between
Capitalist and communist countries and on another side
Between civilization and radical religious bigotry..!

Regular bomb blasts by terrorists in places of worship
And highly populated places days are going on nonstop
Putting people in panic stricken condition on one side
And on other side, Nuclear missiles testing stirs West!

No place on Earth seems to be out of danger forever
And world peace seems to be a matter of stories and
Dreams of poets all over the world speculating over
The possibilities to bring an end to all the horrors!

Are they all political stunts or mad pursuits to control
The whole world under one emperor as was tried in vain
In the past world full of conflicts between the strong
And weak nations due to lack of development and knowledge?

Even after advancement of mankind by science & technology,
The old way of "might is right" instead of "right is might"
Still seems to be continuing exposing the fact that though
Man develops his nature never will change by time or situation!

Ramesh T A
Isolated Islands!

Without love close human relationship is impossible;
Without love family, children and friends won't be there;
One will be like a lonely tree in a barren field forever
Without fruits and flowers blooming for anyone sure!

Union between hearts is possible only by love ever here;
Without love everybody will be drifting apart far and wide
Nowhere to go for solace in times of woes and joys to share
As distance keeps them far away even though in one place!

Modern world life with gadgets and computers all are ever
In isolation minding one's business and entertainment alone
Completely forgetting the outside world or Nature in all its
Glory and richness that keeps all in freshness quite amazing!

Without harmonious human life with all and Nature, humans
Can't be humans but are isolated islands in a vast ocean of life!

Ramesh T A
Isolation From Beloved Ones!

Only Nature and Poetry come to the rescue of one
Isolated from all beloved ones by misfortune ever!
Good and loving souls are rare to see in the world
And get the opportunity to move for sometime sure!

I don't know why God takes away such souls so soon
And put the good guys in distress ever in isolation;
Separated by envious and cunning ones the good ones
Ever live in separation looking after destined work!

Legendary Sita was taken away by Earth mother to
Put an end to the unbearable sufferings of world;
And Rama her better-half had to live in isolation
Minding work of Kingdom according to Dharma ever!

Sans living love of the beloved how painful to live
Only with the memories of the beloved to complete
One's destined work till the end to make a mark as
Example to the world so as to pass away in peace...!

Ramesh T A
It's Foolish To Be Cock-Sure In Precarious World!

Ego of talented ones makes them speak loud,
Sans knowing what is next in their life here,
As they wish not bothering about consequences
Or Fate's play in their career before game ends!

Only one well experienced in life game knows
All well and is capable of having vision of whole
To follow the safe route despite drawbacks in the
System that lifts one up or pulls down to abyss!

Nothing is certain in this precarious world, which
One should know before being cock sure of oneself
To command others or follow the best to be safe
To do best and great to become one so in the future!

But the half baked or the successful in the beginning
May dream of one has become the top in the field
And try to dictate terms to others not knowing others
Valour and their silence due to fate in this world ever!

Only after falling into the ditch, they may realize
What flimsy ground on which they are standing
And how deep the valley down below is actually!
Intelligence lies in learning from the mistakes of all!

Ramesh T A
It's Summer!

All day it's hot

Without moisture winds blows

It's Summer!

Ramesh T A
It's The Game Of God!

Not able to become a novelist or an article writer
Becoming an industrialist to indulge in inventive
Works, for seventeen years, I have worked sans no
Time left for my entry into the world of literature!

My pent up feelings at last have burst into poetry;
With the advise of my friend, I have started writing
Poetry expressing all my ideas on all subjects ever;
Is it the work of fate or the play of God with me..?

Fate has made me spend precious time of my life in
Joint family business and industry with no time left
For writing to satisfy my spirit to get satisfaction
I was needing very much for a long, long time in life!

Many ideas come and disappear unless they are all
Expressed in some form of literature to see a sense of
Fulfilment and making me frustrated, at last I have
Found out the way to do justice only by writing Poetry!

It is the game of God that I write Poetry nonstop for
The past three decades expressing all possible ideas
Sans a pause due to the grace of Almighty who has at last
Destined me to be a Poet yesterday, today and tomorrow!

Ramesh T A
Jealousy Blinds To See Good Things!

What can we say about the people, who feel jealousy of one, Whose acts of anything is getting appreciated by others...? This world criticizes, if one does good thing and also, if One fails in something or suffers due to loss, criticizes!

Such dark-hearted ones never help, when one suffers nor say Anything good, even if one helps them on some occasion of Great importance to all in a function that is celebrated for The good of all via some festival or family get together...!

If the good one after tolerating all their fault finding fun, Falls ill and suffers for a longtime, they never see that one And feel glad about that one's bad time and wait to see if that One breathes one's last in the world sooner or later damn sure!

Sadists of this kind where can one see in the world other than In one's one family circle living in prosperity sans satisfaction?

Ramesh T A
Jingoistic Warriors Of Words!

careless nature coupled with discipline not cultivated long
Some command others for doing all things finding faults with
Keen eyes on nearby ones unaware of one's own faults ever!

They always talk about the mistakes of all persons they meet;
What is wrong with themselves they never realize for long;
With that attitude and uncompromising mind they trouble all!

Without self realization, no progress can be made ever here;
Living long so, they will soon be put to disillusionment sure;
Disappointed and dejected, they soon feel much pain unbearable!

But the patiently adjusting themselves to those adamant minds,
Many meek persons have made great strides by their good nature
Though not in a single stroke but step by step by experience..!

All jingoistic warriors of words are certainly going to succumb
To reality though late but surely with great dejection at the end!

Ramesh T A
John's Baby

John's baby! Will she be like Johnson's baby
Tender, soft as rose flower we see on TV screen?
How nicely she enjoys bath and has powder on her!
With a gentle smile she sleeps with sweet dreams!

March or April John's little Nightingale will sing songs
To cheer all, daddy, mummy and brother of the family!
Poems on her arrival by poets of world welcomes her
Like Baby Jesus was welcomed by all of East and West!

It's wonderful John's baby too enjoys such a reception
Making happy all who meet together in this website
To write poems of hearts' content as in a grand family
Everyday without fail to excite all in ecstasy and joy!

So nice the atmosphere for a child to enjoy poems of all
Laying good foundation for her to sing songs as fountain
For making fertile the garden of joy in Spring, Summer, Winter
After Autumn with fruits sweet to enjoy and live in joy ever!

Ramesh T A
Joint Actions Needed For Peace!

A handful of terrorists are trying to take whole
World nations one by one for ransom hating
Modernity, arts, Music, science and technology,
Education and liberty of women to dark ages...!

Caught between offenders and defenders in war
Somehow people find a way out to escape to nations
Like Hungary, Greece, Spain, France, Germany,
Austria, Canada and Australia as refugees for relief!

Many travel in overloaded ships to distant shores
With the risk of drowning in the seas too and some
Sneak through other countries hiding in front car
Engines too almost exhausted by heat and die out!

News of these daily tragedies underscore the need
For joint actions by nations to fight surely to the last
Against all terrorists to bring peace to the whole world
By passing suitable UN resolution to take actions soon!

Ramesh T A
Jolting Earth!

Earthquakes and bomb blasts shake the Earth;
Molten lava within the Earth has not solidified yet;
As the quash ball bouncing between wall and bat
Earthquakes let out the earth’s gas here and there!

Quakes hit Indonesian Isles and Afghanistan or India
The another one hits near Philippines before Italy
Besides tornadoes hitting America and even India
While bomb blasts hit Pakistan or America now and then!

Tremor in the town stirred and shaken people out of wit
Leaving all in nightmares perhaps for many days to come!
For tsunami people go up the house to escape drowning
But, for quake, people come out of the house to escape!

Nothing is sure in the bubble world of ours that jolts often
Making ego, pride, wealth and power very poor too soon!
Only love, knowledge, cooperation and company help all
Whatever be the situation of life in this precarious world!

Ramesh T A
Journey Of Poesy In Love Endless!

With the wings of poesy fly high to lands of yore
And also many Utopian lands of future to come!
Imagination guiding the route under moon light
A wonderful journey I venture on with pleasure!

What a wonder I see all the way over meadows
Green with yellow and white flowers smiling for
The lovers to enjoy love life on their natural bed!
Pleasant smell of exotic flowers send invitation so!

Red roses on the middle of orchard gives grand
Welcome to Romeo and Juliet to dance on a tune
Tango of the modern world liked most in clubs..!
Music playing fast all couples spend night full so!

But in world of Utopian life time is as in dreams
Going according to the will and pleasure of lovers!
Till enjoyment is complete where is the end at all?
So, the journey also goes on poesy in love endless!

Ramesh T A
Joy And Pain Of World Life!

For everything, there is no gain without pain in this world!
Giving pain to mother we are born with cry to live life;
So also, making all cry, we die with painful heart finally!

Many are born in hospitals with caesarian operation sans
Any pain to mother and child by scientific marvel in the
Modern world but pain of death many meet with even now!

Some blessed ones in life after many a sufferings from the birth
On meet with painless death in the night sleep dreaming of
Wonderful paradise of Earth and the heaven of colourful Stars!

Some are born in travels by bus, train, plane and bullock carts;
Also, many deaths take place in the road and train accidents
Meeting with awful and horrible extinction nobody likes to see!

If there is pain in the beginning, there is joy in the end of life;
If there is joy in the beginning, there is pain in the end sure..!

Ramesh T A
Joy And Peace Lie In The Life Of Honesty!

Honour lies in the honest toil in any walk of life anywhere
Whatever be the field of work one is best at in performance;
Honesty maintained so makes one cool in heart whatever be
the situation bringing sense of satisfaction and peace ever!

Honesty makes one have a peaceful sleep at night and his
Desire to earn good name, fame and love of good hearts is
More than wealth and power got by short cut route to high
Position in life many aspire for losing peace and joy ever!

Shameless and senseless ones follow wrong means to develop
One's position in life to enjoy comfort and luxury at the
Cost of others service caught by pricks of conscience ever
Driving one to hell of torture by nightmares in night sleep!

Realization comes very late after a lot of sufferings alone
For many unlike person of honesty enjoying joyful life ever
And hard lesson learnt so makes all realize that honesty is
ever the best policy to follow in life and work forever sure!

Ramesh T A
Joy And Sorrow Of 2018!

Good and bad, joy and sorrow and pleasure and pain
Are what two thousand eighteen for some to face and
Before normalization the last month has come up...!

Both the extremes have happened at the unexpected
Time in the course of the year after the passing of
Quarter of a year and the scenes have moved fast..!

Joyful excursion to sea resort was a memorable time
Can't be forgotten so easily being a holiday trip with
Dear ones far away from usual trials and tribulations!

Within three months illness of a dear one plunged all
In grief leading to seeing the demise of that nice soul
And fast moving of time has brought all to end of year!

Life with parents, own family life, children and grand
Children seen, third phase of life is the final to finish!

Ramesh T A
Joy In Summer Time!

Summer time is best for romantic persons
For going round places during holidays
As a picnic tour programme for enjoying
A good time with friends and families!

A joyful occasion even elders long for
To enjoy seeing the fun youngsters enjoy
With all fun and pageantry they display
With full of laughter till satisfied!

Drinking sweet and cool beverages they all
Take healthy ones to overcome dehydration
Due to shortage of water content in body
By losing all in sweats all the day long!

Now due to lack of sufficient rain in all
Monsoon times, drought is posing as a great
Treat to survival seeing crops becoming dry
Sans sufficient irrigation to grow crops!

What is the end point, nobody knows, unless
Nature opens its eyes to see the dangerous
Situation to save crops, lives and prosperity
In the villages that share a big share ever!

We all know miracles happen at the last minute,
Whenever such situations happen in world life!
Let us all hope Nature will shower its blessings
To all as they enjoy good time in Summer time!

Ramesh T A
Joy Of Rain!

Two days of cloudy atmosphere
Making it look like a dream we
Enjoyed greatly Nature's comfort!

Expected rain fell late in the night
When all were asleep and floating
In dreams of fantasy all nightlong!

More rain clouds are greeting all
In the morning making all feel
Better than before by cool climate!

Signalling voices of many myna birds
Create an atmosphere of briskness
And quickness to do all in a hurry...!

The thrilling joy of briskness keeps all....
Busy with immediate work to enjoy rain!

Ramesh T A
Joy Or Sorrow!

Life is impossible to enjoy happiness,
If you worry about everything ever!

It is a heaven to live life among
Good friends and good lovers!

Cooperation, coordination and joy
Are the hallmarks of such people!

Joy of good-hearted people is ever
Burning the hearts of evil people!

Jealousy, envious, evil minded and
Bad people are dangerous sadists!

Sadists enjoy great pleasure making
Good people suffer forever in life...!

Joy or sorrow, it is better not to let it
Be known to others ever in world life!

Ramesh T A
Joy There Is Only In Permanent Beauty!

Permanent beauty of the world lies in the changeless Nature in the forms of
The snow capped mountain peaks on the top of the world;
The bottom of sea and oceans covering major areas of the world;
The Star studded sky of innumerable galaxies of the Universe;
Green meadows trees and valleys, water cascades and rivers;
Singing birds under shining lights of Sun and Mon as windows!

Divine spirit within Nature only gives permanence to the beauty of Nature ever;
But, human spirit within men is in doubts ever, human beauty never lasts long!
This is the illusion and reality of the world all have to make a note to rely on the
truth!
Permanent beauty of Nature is the reality of truth reliable forever,
Whereas the temporary beauty of man is illusion man has to realize in life
And rely on the permanent things of beauty based on truth and divinity!

Permanent beauty only can give eternal joy and bliss, when man is in
communion with Nature ever,
But not ephemeral beauty that fascinates by its spurious glittering glamour sure!

Ramesh T A
Judging A Work Of Art!

Classic, romantic and modern arts and literature
Indeed stand as bench marks to decide about all
Arts and literary works in the present day world!

No one likes to follow any strict rules proposed,
But never can be enacted for judging any work;
None takes critical look at work but popularity!

Whether it is dance or painting or poetry, all are
Judged on the basis of popularity and majority
Following the principle of democracy here too...!

Taste of majority doesn't see through the lens of
Perfection attained in arts or literature but only
The timely need and all are forgotten afterwards!

The lasting value of fine arts is not visualized in
The fast world that sees only immediate need...!

Ramesh T A
June Weather!

Tuft of hair or
Bald head situation now
Is June weather!

Ramesh T A
Just Abc Of Language!

When education becomes business, it loses value;
That too technical education after becoming so,
Manufactures products of degree holders sans no
Hope of future and knowledge to stand on one's legs!

Not knowing history and world's future, these technicians
Sans general knowledge too, don't know how to change
Their attitude and try their level best in some other line,
When the particular line of job becomes out of reach ever!

Caught in the quagmire, they become depressed due to
Their obsession and roam around as lunatics not knowing
Where they stand and where they have to go in this world
To achieve their aim and get fulfilment in the course of time!

Whatever be the education, it is just the ABC of language;
Using it with creative ability only, one can shine in any field!

Ramesh T A
Justice And Dharma!

Our faults are visible only to others;
We should have a mirror to see ours
Before pointing out mistakes of others!

This is fair and just to exercise one's power
To take any action to implement anything
Whether it is in an organization or in public!

Justified action only has real power anywhere;
Realizing this, if rulers exercise their authority,
There won't be opposition but compliance only!

Just printing currency notes will not solve deficit
Unless there is equal measure of gold in reserve
To have a healthy national economic development!

To cover up mistakes, it is easy to punish others,
But mistakes will punish one soon as it's Dharma!

Ramesh T A
Justice Is Ever For Love!

Romantic heroes and Helens are lovers of beauty;
It's their beauty that has attracted each other
And love bloomed between them against all odds!

In the classical epic it is said that thousand
Ships were launched due to single beauty of Helen
And the war went on for ten years for nothing...!

Because of beauty and love perfectly matched each
Other and the war that tried to separate them was
Not achieved and love had won against many losses!

Power and wealth may be impossible to surmount by
Beauty and love, but the supporters of good cause
Never can meet with failure though prolongs long..!

Arrogance may dominate in the beginning and until the
End, but justice only can rise against all to win..!

Ramesh T A
Justice!

In the darkness of Court

Justice by truths, proofs and evidences

Shines as Sun forever

To save innocent victims

Against offenders of law of land!

Ramesh T A
Keen Observer Nature!

Burning Summer heat has just started its course
After Winter has shown its biting cold very long!
Surviving bitter cold is very trying to best of health;
But burning Summer with water and wind soothes!

Blow cold and blow hot, Nature shows its spell to
Make all swayed by the magic only it knows well!
We are just puppets on a string dancing by the
Tunes of Nature forever whether we like or not...!

Forces of Nature such as Wind, Water and Fire
None can tame as we do with Earth in the Space!
The harms we do to Earth are returned in the
Same coin by those forces of Nature sans fail....!

Elemental fraternity of Nature no one can misjudge;
For, Nature is keen observer of all criticism by all....!

Ramesh T A
Killing Of Journalists Inhuman Act!

Murder of journalists is a jarring news to hear;
Newspaper reporters gather news and report for
The information of the public about the world;
When this is so, what is the use of killing them?

Killers cannot achieve anything by that cowardly
Act needing to be condemned by all nations and
Leaders to convey the message that they are like
The Blue Cross who do serve sacrificing themselves!

The UN secretary general has deplored that the
Killing of journalists are exorbitant in number
By bringing the red news to the attention of all
World nations to stop such inhuman act on them!

Journalists do their jobs to put before public all
the informations they gather for the public to judge
Sans taking any side as correct or wrong ever that
All nations should respect to allow them do works!

Ramesh T A
Kindness Another Avatar Of Love!

Kindness of words and behaviour comes of gentle character of one,
Who has good human heart and noble mind having feeling of oneness;
Kind request of such a person has a unique response anywhere sure;
Due to lack of this way of dealing matters, many meet failures ever!

Understanding the nature of others, kind approach solves many a
Headache in many a place of solemnness and seriousness anywhere;
kindness is a unique approach that comes of habit from childhood
On helping many a good person at the prime age of life in the world!

Even an impossible matter can have some response to settle in some
Other way, if it is put forth to person concerned with kindness;
This is the value of kindness all need to know before venturing on
Any mission anywhere at anytime in the busy world that rejects all!

Kindness is another avatar of love or friendship that makes men
Show some response making all difficult matters not stumbling block!

Ramesh T A
Kiss is the expression of love one shows to another one;
Kiss is the appreciation of one to another one as praise;
Kiss is a mark or seal of love one makes to another one;
Kiss is the expression of heart unique among humans ever!

Flying kiss is given to others from a distance visible…;
Flying kiss is given by a favourite one to one's fans…;
Flying Kiss of a beloved makes all get great pleasure…;
Flying kiss is an easy way to do even to one doesn't like!

Kiss of man to woman, husband to wife, mother to child,
Child to parents, friend to friend are a natural act of
Love of one to the other one very common in the world since
The time immemorial to everyone both in the East and West!

Kiss is an act of love followed as world culture, though it
May not be a culture in some nations due to various reasons
They only know, yet, this culture is followed by intimate
Ones whether in the East or West as intimate act of love ever!

Ramesh T A
Kiss Strengthens Bond Of Love!

Beauty of lovely person surely, when happens to be
A beloved one, makes one to hug and kiss to show
One's natural love of emotion free from heart ever!

Kiss of cute husband and wife is an eternal game
With hug so warm and passionate that each one goes
High into the realm of heaven unmindful of time...!

Long passionate kiss of lovers show how deep their
Love and concern for each is in the world life we
All live whether we are happy or sad till the end!

Embracing the loved one simply makes one to kiss
So as to forget the world and all we are engaged with
To have the greatest pleasure and joy in one as bliss!

Kiss brings much more closer than before souls who
Bonded together for love eternal in this world sure!

Ramesh T A
Kiss Token Of Love!

A token of love

Impression of kiss is placed

On the beloved ones!

Ramesh T A
Kissing In Public!

Kissing in public is being tried to be forbidden by religion;  
What is kissing and why is kissing cannot be criticized?  
Kiss is a mark of love and can't be banned as an obscene!

Love and truth are said to be God by religion anywhere;  
When this is so, how can true love not be allowed in open?

Hugging and kissing are common among friends and lovers  
To renew close rapport whenever they meet by chance sure!

This is a natural act of voluntary disposition of any human  
Taking place sans any sense of public or private place ever!

Love has no condition to abide by as it's an act of freewill  
And anyone has the freedom to act so in any democracy...!

Why do the hardcore religionists fail to forget that love is God?  
Whether it's Valentine's day or any other occasion or anytime  
Love can't be forbidden in public as it's an act of human feeling!

Ramesh T A
Know Before Swimming!

Swayed by beauty
Of Sea never swim without
Knowing depth!

Ramesh T A
Know History To Progress!

To know who we are, we leaf through the pages of history;  
If the history itself is vague and incredible, how can we  
Decipher our origin, forefathers or race for sure ever...?  

Findings of archeology and the mythical history are varying,  
But the literary history only gives some clues to know past  
And that only can be taken to have a theoretical history of us!  

Only the classical epics of the past and our present culture  
Reveal many things we instinctively believe sans any proof  
Or evidence physically available and hence history is a bore!  

Even then, history cannot be neglected, though it's theoretical  
And try to form conviction about it to have a rough idea of  
Our Self and basing which we can go ahead further with hope..!  

Knowing our origin from ancient history, we can avoid same  
Mistakes done earlier to reform to be better citizens forward!  

Ramesh T A
Know True Knowledge!

Understanding each one is an art in life;
That too knowing the truth of one is great!
For, individuals adjusting to others lose
Their real identity in the opinion of public!

Wrong understanding of public spoils all;
That's how rumour looms large in the society!
Only friends of the individual know the secret
And through them only an individual's known!

When the truth will come to surface is doubtful
As long as the individual or friends reveal it by
Chance in the long run of life in the world sure
And till then only wrong opinion overshadows one!

Only keen observer of facts and persons has the
Capacity to know true knowledge in the world!

Ramesh T A
Know Values Of Contrasts!

All days are extremely hot being Summer;
But what a cool surprise evenings are now!

Perspiration due to outside activities there is;
But a cool shower brings heavenly comfort!

Summers are extracting all waters from body;
But evening cool breeze takes one to heaven!

Spring after winter brings regeneration of plants
With beautiful flowers, fruits and green leaves...!

Pain and pleasure alternate in world life forever
Making all realize values of both joy and grief...!

The wise like the ant is industrious all summer
Reserving resources for winter enjoyment in view!

Knowing and living in harmony with Nature all
Can ever make earth a heaven and never a hell!

Ramesh T A
Knowledge

Whatever you hear

Intellectually knowing the truth

Is real knowledge!

Ramesh T A
Knowledge Gives Confidence To Explore Mystery Of Life!

The mystery of life is a never ending story of humans;  
How life has started in the world we have nice theory;  
From where soul has come to body and where it leaves  
After death or how rebirth takes place is still unknown!

We believe and have as conviction that soul or spirit is  
Energy that comes to a body to activate it for sometime  
Has come from the Universal energy that can neither be  
Create nor destroyed forever and goes on like electrolysis!

Hence mystery of life can be solved only by knowledge we  
have gained so far and so forth and goes on still further  
As and when knowledge accrues from the writings of poets,  
Scientists and intellectuals who make deep researches ever!

Such deep knowledge only gives clear ideas about life and  
Hope, freedom and confidence to live better than before;  
Indeed knowledge is power that makes one go ahead in one's  
Pursuit of knowing truths about the mysteries of life ever!

Ramesh T A
Knowledge Is The Best Means To Deal All Matters!

Violence is never the best means to achieve social goals; Intellectual understanding based on knowledge is ever the Best means to fight on the basis of justice to achieve all!

Indulgence in violence to achieve anything is cannibalistic Way of dealing matter in society with brute force of men Due to lack of attitudinal development based on knowledge!

On the basis of wrong emotional effect at a critical moment People not having faith in knowledge and due to lack of Knowledge physically apply force to do things favourable..!

If such kind of violence is allowed, society will soon become Battle field for dealing matter that can be dealt with in a Fair and justified human means making peace and love prevail!

Might was right in ancient time, but right is might after man Has become civilized by knowledge and live by culture in life!

Ramesh T A
Knowledge Is The Only Best Means To Unite All Sure!

Only knowledge by good education can make democracy effective
For all to enjoy freedom, liberty and rights sans fail sure;
Such a knowledge only can be helpful for all to know the truth
And realities as they really are from above all dogmas ever!

True knowledge obtained by all only can be helpful to unite
All people of the world to feel as one world family members to
Be able to know the pros and cons of entanglements that are
departing all in the name of religions, races, cultures and all!

Such a knowledge truly make one know of one's real self, world,
Nature and God to have a broad vision to fix an ambition for
Each and everyone to follow the path in a coordinate way so as
To be cooperative with each other to create One World order...!

True to the saying that knowledge is virtue and power can be
The best means to unite all by democracy based on the policy of
Unity in diversity on the basis of international or universal
Friendship to coexist in a cooperative way to enjoy love and peace!

Ramesh T A
Knowledge Not Enough!

All knowledge are not
Enough to know the dimensions of
The vast Universe as God!

Ramesh T A
Knowledge Of Love A Must!

Reciprocation is where success of love lies in life!
Not knowing how to proceed many a love is lost;
The passage of time brings thoughts again on love;
The chance lost in love is felt much by many in life!

Love is a rare flower that blooms in everyone's life....;
When it happens, the one not prepared to deal with it
Loses a wonderful chance to pocket the flower in heart
And it is of no use to lament over it later forever in life!

Clap sound can be heard, only when both hands are hit;
When reciprocation is not done with understanding, how
Can love get fulfilled in life between two souls longing for
Love to bloom in their life to bring joy otherwise impossible?

Even for sex, when knowledge is very much needed, how
Can love be made successful without the knowledge of it?

Ramesh T A
Knowledge!

Perception and conception

Help develop knowledge to

Make decision to act in life!

Ramesh T A
Knowlege Of Truth Is Power!

Moon and Stars are beautiful at night;
Do the celestial bodies disappear at dawn?
It is indeed illusion we don't see them
In the broad day light in the open Sky!

Likewise truth is also invisible behind all!
That's why truth is always called open secret
Which nobody notices as Stars in the day!
The same thing also holds good for God sure!

Without knowing the truth we have fears ever;
That is why knowledge is power ever here!
Knowledge of truth makes all clear in the world
Whether it is day or night, darkness or light!

Intellectually knowing truth only gives real knowledge
And not the just passed on knowledge of others ever!

Ramesh T A
Kodaikanal Hill Station!

Climbing up the Kodai hill station was
A unique pleasure to enjoy and cherish
In memory so as to talk whenever possible!

Pleasant morning Sunshine, fresh green trees
With flowers, healthy Eucalyptus smell
And dizzy ranges of hills covered with
Mists and clouds were all wonderful
To see, feel and enjoy in life at least once!

At 8 am just before the Silver Falls Bridge
Sumo stopped for the friends to see the view
Of cool, beautiful, white, silvery water
Cascading down the ridges of the hills!
The beautiful sight was hard to miss
For the pals to take photos of themselves
With the Silver Falls at the background!

After completing shopping work, Gir led
The friends for sight seeing round Kodai!
Coaker’s Walk was the place they halted to walk
Round to see the beauty of the valley below;
What a beautiful sight it was with mini houses
Of the town in the valley below under the Sun!
They took instant photos of the scenes, but,
The mists covered the scenes within seconds!
Sunshine and mists were playing the game of
See-Saw on the scenic beauty of the spot!
Visiting Observatory they went to Silent Valley,
Which was previously called as Suicide Point
Covered with full of mists, a grave place
Where tragic lovers committed suicides
Believing to get peace in that deep abyss!
Being a memorable spot they took photos
To talk about that later with their dear ones!
Then crossing the Golf Club they proceeded
Straight towards the Pillar Rocks spot next.
On the way they purchased packets of peanuts
Anticipating their needs later in the lunch!
Rocks standing as two pillars were vague
For the view of Pug due to the cover of mists.
Under Ram’s instruction to wait and watch
The wonder, Pug looked with concentration;
And the mists too moved away making clear
The mystery of Pillar Rocks truth to the eyes!

Then the crew of Gir stopped near Guna point

To see the naturally formed rock cave there,

Made popular by the Guna movie, wherein the

Hero kidnaps and hides the heroine of his dream

And there he composes a love-letter song to her

And sings beautifully with her in that fine movie!

Indeed it was difficult to climb up and down

The vertical slope of the narrow rock cave

And so, they took photos of the Guna cave

In many possible angles for their Photo Album.

Ramesh T A
Krishnapuram

Suddenly stopped they at the Krishnapuram Krishna Temple
Made famous by the frequent visits of the dignitaries.
The statues standing in an array in the front hall
Show the immortal artists’ skill in display there;
The depiction of human emotion, passion, anger, pain,
Arrogance and valour impress one as if they are alive!
Lord Krishna of the Temple is the exact replica
Of Lord Venkateswara of Tirumala Tirupati
With two Devies standing on both sides.
The uncared Temple lost lustre of artistic treasure
Before the eyes of the public due to long neglect.
With such an impression and opinion the pals
Preceded their journey towards Kanyakumari.

Ramesh T A
Lack Of Forethought!

Late thought is the nature

Of weaker vessels in the world

Failing by lack of forethought!

Ramesh T A
Language Crisis And Possible Consequence!

Knowledge of language is necessary to speak, read and write
For spoken and written ideas to communicate and convey message
With everyone concerned for business, profession and all works!

Perhaps more than 6000 languages are spoken all over the world;
In India alone more 1650 languages are spoken in all its States;
In the North and South there are more movies in Hindi and Tamil!

Hindi and other North Indian languages are in Devanagari scripts;
Tami and other south Indian languages are in Dravidian scripts;
There is great opposition between the two languages in India ever!

Due to Cavery river water dispute between Karnataka and Tamil Nadu,
Hardliners in Karnataka oppose Tamils and Tamil language there and
In Tamil Nadu there is a longtime opposition for Hindi language..!

In the North, everywhere notice boards and signal and route boards
Are mainly in Hindi as in Maharashtra and Bengal boards are in the
State languages except in Tamil Nadu following two languages ever!

AS there's is political clash between Central and State governments,
On various matters like fishermen problems and agriculturalists crisis,
The opposition of Tamil Nadu is intensifying ever sans an end nonstop!

Among the spoken languages, Sourashtri language in Tamil Nadu is in
Use by lakhs and lakhs of Sourashtrians in the State, all over India
And also all over the world, but sans script and literature development!

There is clash between Sourashtrians for two types of scripts for ever
Bringing in use, though there is no public use since more than thousand
Years, when the situation is getting hotter for Tamil in Tamil Nadu.!

Devanagari script is similar to Hindi and Sanskrit languages, but Ramarai Script
is different and better for it to have a separate identity, or else,
If Devanagari script is adopted, Sourashtrians have to face wrath of Tamils!

Sourashtrians have migrated to the South of India thousand years ago and if
They happen to earn the anguish of Tamils, they may have to face reverse
Migration to Sourashtra region of Gujarat, which they have to make a note!
Ramesh T A
Language Extremists Rock The World!

There are various kinds of extremists rocking the Earth
More than storms, volcanic eruptions and Earthquakes…;
There are religious extremists, political extremists,
Language extremists, nationalists and so on in the world!

Of them, language extremists are like man of one book,
Who cannot be changed even if natural disasters shack
The Earth and bring an end to the very existence of world
Due to their stubborn stand and adamant nature for language!

Their mother tongue is life, blood and breath for them ever;
Basing that they talk and talk hours, days, weeks and years
Together nonstop making all other languages and men as nothing
And establish their language as number one in the world ever!

If a language is beautiful in script, lipi, rich in heritage,
Vast and great in literature, has more words than other languages,
Suitable for expressing for science and technology matters
And also, wonderful in saying spiritual matter more than others!

There are so many scripts for so many languages in the world;
Can it be possible to learn all scripts to use various languages?
To learn many languages, single script is preferred nowadays;
When it’s so, can a old language be interesting to learn in old lipi?

What can we say about a language extremist insisting on using a
Oldest language in a confusing script not yet decided to follow
To see boasting like other language extremists do on stages and
In politics, movies and newspapers, magazines and books in the world?

Ramesh T A
Language Gives Identity!

Language is the identity of a race or community;
A language without script, books and letter or mails
Surely means doesn't developed and is a gypsy one
Generally used by the nomadic people migrating
From place to place sans no place of their own ever!

When this is so, public use of that language is nil
As they are minority people living in an alien place..!

To have a well known status for a language, script,
Literature and communication by word of mouth
And also by writing letters and so on are very vital!

Unless a language has script and literature of its own,
That language won't be respected by others in the world!

There are some oldest languages that have extinct due to
Non-usage of them by their own people due to no value!

Ramesh T A
Language Is The Identity Of Community!

Language only gives identity to any community!
If a language is just used for spoken purpose only
Without any script to write anything for reading,
It will be an extinct one in the due course of time!

Various languages have different scripts with a lot
Of libi or alphabetical letters in various styles ever
Making them difficult to learn and remember sure.
But a language without proper script is dishonoured!

Easy and beautiful style of alphabetical letters surely
Attracts anyone to learn that language for all uses....!
But an archaic style of script will take a lot of time to
Learn and use for writing purpose due to its dullness!

Any language with a few alphabetical letters is quick
To learn for immediate use to read and write leading
To fast development of literature and recognition also
Anywhere in the modern world of hurry and business!

For the survival of languages in the Computer age, if all
Languages have Roman letters as script for writing purpose,
They will have wide popularity, recognition and use by
All who wish to learn for various purposes in the world...!

Ramesh T A
Language Sans Script!

If there is a language sans script or alphabetical letters,
How can one learn and study in that mother tongue?
If a language is just spoken at home or among relatives,
But nowhere else in the public, can it be developed at all?

Some say the language has Devanagiri script or other one;
But govt. wants them to have national language script....!
For pronunciation, the language needs Devanagiri script;
But not knowing this, the linguists insist on national script.

When can a script be decided for the language and books
Too can be printed for learning purpose in schools ever...?
A language having thousand years of no development at all
Really needs very great effort to decide about all for use ever!

Even if script and books are also prepared for learning purpose,
Will it be of any useful in the public that speaks some other one?

Ramesh T A
Languages That Play Major Parts In The Future!

Ancient languages used only for spoken purpose ever
Are called as raw or Prakrit languages in the past;
Those Prakrit languages are around fifteen in numbers;
From them well cooked languages are nine in numbers!

Greek, Hebrew, Latin in the West, Arabic, Persian in
The centre, Tamil, Sanskrit in Asia, Chinese in the East
Mostly have evolved from Prakrit languages with alphabets
For reading and writing purposes to many languages now!

Of them, only English, French, German, Arabic, Urdu, Tamil
And Chinese are playing main roles in communication use;
Many other languages are branches grown out of them only
With some languages like Sourashtra are still in spoken form!

Fixing lipi and script for such spoken languages are still
In discussion stages waiting to be moulded into written
Form for communication in the print form sooner or later;
Some languages are useful in science, technology and Computer!

As Computer has come into vogue for all working purposes in
The World, English, some European languages and Sanskrit
Seem to play major parts in all walks of life everywhere as
Time goes on with the fast developments in science, trade, etc.

Ramesh T A
Lasting Friendships!

Of all the friendships, lasting friendship I have
Only with poet friends of the world in a way
Nowhere one can see and appreciate ever sure!

This website friends have daily contacts with
Each other and exchange ideas by composing
Good poems quite exhilarating and hilarious!

They are in the course of time become soulmates
Giving comfort of mind and heart of satisfaction
All the riches of the world cannot buy anytime...!

What an invention computer websites that give
Opportunities none can offer in the world to have
A better time and better choice in the world ever!

These lasting friendships have no end to have all
Kinds of ideas to discuss and get clarified ever...!

Ramesh T A
Partiality of love shown to one or two children among some children makes other children know what love is and its value; basing that as benchmark of love, they grow judging all others good, bad and ugly everywhere in the society and world ever!

Such critical minded children enjoy real love, if they come across people with open heart, frankness and outgoing concern for others meet and move with them in some juncture of their life preferably at the childhood and young age in the journey of life!

Starving for love, such neglected children give no importance to education that forces knowledge in the formative minds of them; due to their minute and critical nature of mind, they are keen to know causes of all matter whether it is science or literature....!

Children searching for real love, grow to be great critics or poets to express incredible ideas of love to fascinate all by their art sure!

Ramesh T A
Late Realization Of True Status Of Man!

In the technologically developed modern world, people
Using machines, cell phones and laptops are known as
Civilized ones, but due to their engagements with them,
They have no time to know neighbours and communication!

So, each and every civilized person is branded as selfish
Minding own business only with no time devoted to others;
When this is so, how can they know anything about human
Relations, have romance, love or intercourse even ever..?

Living life in isolation with machines, they have lost
All contacts with others, though they are enjoying all
Comforts of modern world facilities sans any human touch
And forget themselves who they are sans knowing Nature!

Only when cyclones, earth-quakes, Continuous heavy rains
And left no way out of natural disasters, they long for
Other people's assistance, help and support to overcome
The tragedy in vain and come to realize their true status!

Is this kind of modern life really a civilized one at all?
Is it not looking idiotic and foolish to live so only for
Earning money always not knowing money alone cannot save one
From disasters and buy even a glass of drinking water then?

Technology and machines may make man developed and advanced,
But man should not become a slave of them and get disillusioned
At the time of natural disasters caused by climate change due
To pollution made by man exploiting natural resources for profit!

Ramesh T A
Laughing Pieces!

Laughing Pieces!

Finishing facial and make up to oneself in beauty parlour, Girls, ladies and women come for public functions as if They are going to dance or act in a cinema more than Attending the programme for the social well being ever!

Erasing natural beauty of face by cosmetics and dressing With clothes unhygienic, just to show themselves of in Public places as if they belong to upper strata of society Waste they a lot of money just to spoil their image ever!

Unsuitable make up and dress make them an object of Bully publicly; some ignorant mademoiselles fool themselves Sans their own knowledge making easy for critics and Satirists to deal with their outward appearances as expose!

Many magazines use them as comic pieces by point blank Exposures by powerful cameras to make one and all laugh!

Ramesh T A
Layer Upon Layer Snow Everywhere!

Piling layer upon layer snow builds mounds;  
It has created snow meadows everywhere.....  
And things from road to houses and trees.....  
All are covered with uniform white snows on!

Scrubbing snow out of road has become daily job  
Before starting anything or moving out anywhere  
In vehicles on road to do any kind of job thereafter  
In snowy winter season long and quite all powerful!

Snow ball throwing on each other is a game of fun  
All enjoy now and then when they gather around  
To spend sometime in fun to forget all snowy blues  
Whether they are elders or youngsters or children!

Snow white as milk or the computer screen ever  
Stands bright as Sun all day long and in the night  
Too along with howling wind can melt all fat off  
Body that have accumulated through out the year!

Snow bears all snow mounds remind all to visualize  
Seeing the layers upon layers of snow accumulating  
All over the places under its spell all day and night  
Making all amaze at another strong aspect of Nature!

Ramesh T A
Lead Best Life As In Paradise Of Heaven!

The usual day has started after the New Year celebration;
The sky is blue with bright Sunshine everywhere with hope;
Everything going on peacefully and beautifully, day goes on;
What a nice feeling each has with joy to do all afresh again!

Inspiration of friends has energized many to go ahead with
Full of hope and confidence to achieve great things ever!
Celebration of such a kind surely has its own effect, only
Those who have experienced it can understand and enjoy life!

Encouragement of love by dear ones is indeed a great boon for
Mankind to avail of by New Year celebrations everywhere in
The world we all wish to bring about humanly changes by good
Reforms to make our world a better place than before to live!

Living in harmony with Nature and eschewing bad thoughts,
Surely, we all can lead best life as in paradise of heaven!

Ramesh T A
Leaders And Followers Are Partners Of Humanity!

Great, noble, charismatic, venerable and divine leaders
Whether they are poets or philosophers or politicians
Or scientists or litterateurs or novelists or anyone
Ever love all and govern all with love but not by force!

Only animals exert force to create fear to make all obey
To their commands and keep them all as slaves ever till
They are completely used and thrown out as nonentities
And look for other fools to do service as they like ever!

People who rich or poor or white or any colour or clever
Or dull or shrewd or stooges or beautiful or rough or
Whatever be the external or internal attire may be, are
All humans in the world human society forever and ever!

Both leaders and followers or disciples or fans or all
Are partners of one humanity or one human world family!

Ramesh T A
Leading To New Pastures!

Visualizing God in various ways religions thrive
Mesmerizing people's minds making them believe
Their is the real and best one to follow of all of them
Not giving anyone the chance to visualize the true
One God who is Universally present from the past
To the present and also forever eternally in infinity
Imminently activating all matters animate and also
Inanimate in Space and Time in a continuous fashion
In such a way that none can finally have one theory
For everything however persistently only tries in this
Great venture of all time fascinating each one with
The impression that it has been discovered with proof,
Yet, it remains only to be a mirage in the long desert
Full of dunes up and down leading to newer pastures!

Ramesh T A
Leaf Of Love!

Reality of worsening situation is building suspense
And tension is increasing like rising temperature!
Only soothing and easing aspect comes from love
That sustains life with confidence to go on further!

This kind of faith love only offers to one forever
At the most critical situation in life whoever one is!
Sans love surely life cannot be sustained long in
This world full of chaos and uncertainty lifelong..!

Loveless soul cannot live in heaven but only in hell,
If the world goes on ever in excitement and anxiety!
Between war and peace the oscillating mind never sees
The shore as the agony ant feels between fire and river!

Only a leaf of love can save the ant to float on river....
To go to a safer place to escape from fire uncontrollable!

Ramesh T A
Leave A Mark!

Not just work
But make achievement
To leave a mark!

Ramesh T A
Lesson All Should Learn!

Festivals come often to unite people for good;
But arch villains remain clever as jackal ever;
They separate good peoples by tricks to satisfy
Their inner plan so as to gain what they need!

They plan every move as in a Chess game and
Play the game to win as they wish many a time!
They do all things like Sakuni of Mahabharata and
Whose tricks can be countered only by Lord Krishna!

Like Satan and Jesus for Christians, there are also
Sakuni and Krishna for Hindus to show ways to all
As to how to tackle with arch villains among us all!
Bad people never correct themselves till the end....!

Intelligence is there to know good and bad to live well....;
But bad never comes to terms with good till death comes!

Ramesh T A
Lesson To Be Learnt In Life!

No medical treatment can keep one alive forever;
No wealth accrued can go with one after death and
Nations and wealth can't be carried away by hands!

So decreed Alexander to be inscribed on his tomb;
He got the wisdom after tried to conquer India, where
He could not answer a question asked by someone!

That question was 'You first conquer Self and then
You can conquer the whole world; can you do it....? '
This wise meaningful words led to his death knell...!

Whatever things we do in this world are for this world;
We cannot carry anything with us after death ever.....;
So, let us do the best thing for the world to remember us!

Desiring what we deserve let us do our duties here
And there lies peace, happiness and satisfaction ever!

Ramesh T A
Lessons Of Life!

Sickness creeps in one unaware rendering ineffective
Until one gets all right by medicine and vitamins....!
Being sapped off all energy, one is just a body sans soul
Unless one takes solid food to gain energy to do all well!

Days go on when one is well chasing after dreams long;
But only when one is caught by web of sickness, one knows
What is one's real position and all dreams and imagination
Fly to nowhere putting one in realistic thoughts to know truth!

Wisdom prompts one to think about what is possible and
Eschew vainful dreams so as to achieve what one deserves!
One can fly in imagination, but ground is the landing place
And sky is only a temporary excursion to free oneself of fatigue!

Experiences in life give real lessons about our life in the world
And what we can achieve to build tower based on that foundation!

Ramesh T A
Lessons Of Nature!

When days are hot we desire for rain;
When rain comes we think about Sun shine;
But Nature never disappoints us!

Nature takes its own time to appear
In various attires to support life dear
And does with natural feat par excellence!

But man never changes realising errors
And exploits Nature for personal gains
At the expense of his own destruction!

Accordingly Nature shows its wrath
And balances itself to maintain poise
To show man its love and mercy forever!

Will man learn lessons from Nature at all
Or jump from tree to tree as monkey ever?

Ramesh T A
Let Dreams, Thoughts And Ideas Continue!

What could not even be dreamt
Is being realized now and what
Cannot be dreamt will happen!

Many authors like Jules Verne
And H G Wells wrote in novels
Of their dreams by imagination!

They all have happened today
By scientific inventions in
The modern world of civilization!

But political governance and
Administration holding the rein
Mind economy at the cost of life!

Political freedom has not given
Social, cultural and individual
Freedom needed as real development!

Dystopia instead of Utopia seems
To be the reality of tomorrow as
Per the views of Huxley or Orwell!

Rivalry between political ideologies
And radical religious bigotry have
Triggered arms race and terrorism!

Technological and commercial greed
At the cost of good social life has
Perpetrated corruption and pollution!

Consequently, destruction of humanism,
Art and Nature leads to destruction of
World and humankind sooner or later..!

Still, let us not stop dreaming of a
Better world tomorrow by ideas new and
Better to make our dream a reality soon!
Until then, let us dream all best ones,
Think all best ones and pursue with best
Ideas to achieve our dream with success!

Ramesh T A
Let Soul Leave Earth In Fulfilment!

Without love life is insipid to enjoy in the world;
Such a life can be lived without joy and pleasure;
Only dead people walking in the world live life so!

Duration of life is unknown to all in the world;
Till the end it is better to enjoy life with love,
Joy and pleasure to have fulfilment and peace sure!

Wealth and arrangement for the future are okay, but
All such things are nothing if one doesn't have time to
Enjoy pleasure with the loved one to have satisfaction!

Becoming old and after death, no love or joy or pleasure
One can even dream about besides nothing will be known
About our avatar in which part of the universe and planet!

If satisfaction and fulfilment are attained in love, joy
And Pleasure in world life, our soul will leave Earth well!

Ramesh T A
Let Us All Unite To Unite Nations To Create One World!

Like nuclear chain reaction, joint families are Disintegrating into nuclear families everywhere! Also, nuclear families are disintegrating into Sheer individuals though belonging to one family!

Father is doing some professional work somewhere; Mother is doing some other work also somewhere... And their children are pursuing studies in some Course sans any contact, communication for years!

By doing so, unity of family is lost and no one Can recognize who's who, when they suddenly meet By chance somewhere in the world at an unexpected Time unless someone introduces each to each now!

Without contacts and communications often, how can There be emotional attachment, affection and love Flourishing among family members in the world and If it goes on so, how can human unity be achieved?

Is it development? Is it civilization? Is it called Modernity? After disintegration to individuals, each One is self interested and even selfish to find things Necessary for each one's survival as in ancient time!

Let human culture be cherished so as to be best in one's Thoughts, words and deeds in knowledge and work and love Each and occupation to live as high level humans to be United as one humankind to unite nations to see one world!

Ramesh T A
Let Us Be Free To Leave This World!

Love and knowledge give hope, confidence and courage
To be capable of realizing freedom to enjoy life in
Joy and peace doing what we like with satisfaction..!

Freeing ourselves from neck strangling entanglements,
We feel liberated to think, speak and do what we wish
To achievement fulfilment in world life before our end!

Till the end we meet with death let us enjoy all possible
Pleasures with fun and joy to satisfy all our inner needs
Physically, emotionally, intellectually and spiritually!

This is the best way we can utilize all things and people
At our disposable to do the best we can and establish our
Name in our natural work of interest before our end comes!

We can do everything to the best we can to get satisfaction
So as to be happy and free to leave all for others to enjoy!

Ramesh T A
Let Us Live A Heavenly Life!

Without rain water, rivers cannot flow ever facilitating
All plants, trees, crops, flowers and fruits to satisfy
Various needs of men, animals and all living beings sure!

Without melting of ice and snow on top of mountains ever,
Water falls cannot flow out water down the valleys to flow
As rivers for agricultural works and for drinking even..!

Air, water, food, light, shelter and comfort of all sorts
Nature provides to man to survive, sustain and succeed in
All one's ventures to live a complete life in the world...!

Without this help or assistance of Nature, life cannot go on
In the world we are living in forever and this fundamental
Knowledge all cannot forget and save this loving Earth sure!

To be so ever, let us all avoid pollution of air, water and
Environment to make Earth a paradise to live heavenly life!

Ramesh T A
Let Us Preserve Our Earth!

In the Universe of Stars countless
Planets full of bizarre atmosphere
There is no planet as beloved Earth
Thriving life on love and joy ever!

Mother Earth garbed in green and blue
Is what everyone wants to be forever!
But what a pity in the name of progress
Man is destroying green with greenhouse gas!

If we lose one Earth can wet get another one?
Think well dear ladies and gentlemen!
Can we see this kind of love of Nature
And beauty full of joy and peace ever?

Nowhere shall we get a planet so dear
As the Earth we live on and so, preserve ever!

Ramesh T A
Let Us Save The Only Abode Of Man In The Whole Universe!

Of all pollution on land, in water and air in the world,
Noise pollution is unbearable and may kill that way soon
By the way many do celebration of New Year everywhere now!

By pollution many lakes and rivers are made contaminated;
By Nuclear leakages here and there also, seas are polluted;
By this way, only Nuclear World War is remaining in balance!

If Nuclear World War also conducted between nations surely,
WE can end the existence world making a great farce of our Knowledge, culture and civilization in the world sooner...!

If seas and oceans too polluted by Nuclear bombs testing
Or by Nuclear power station getting blasted by earthquakes,
There will not be even some water to drink sooner or later!

Let wisdom rescue all from such an incredible holocaust of Whole world, the only abode of man in the whole Universe!

Ramesh T A
Let Us Share Water And Save World!

We all live only on one-fourth portion of our Earth;
But, three-fourth of our world is covered with ocean;
Yet, sea and ocean waters can't be used for anything!

Only ship crews purify sea water by condensation process;
Now sea water is purified for drinking purposes everywhere;
Desert countries, USA, Israel, Europe and India too do so!

Sharing of river water dispute in many states is planning
To purify sea water for drinking and agriculture purposes;
Linking of rivers and sea water purification are best...!

Instead of using science and technology for that purpose,
Capitalist and communist countries spending money on arms
Made of Nuclear material to destroy the world in wars ever!

Not only they, but also terrorists too have joined in that
Competition to involve whole world in great global war soon!

Ramesh T A
Let's Play Our Roles!

Joy makes time fly soon ever!
Grief makes time move as snail!
Love consoles to regain mood!

Between joy and grief we sail on
Same boat of life on ocean broad;
Harbours are a lot but end's one!

Seeing love and war follow rules
Not so ever as there's nothing
Fair or foul for both in the world!

Ocean of world has treasures hidden
That only wise ones know where ever
However hard all toil day and night!

Till all reach the destiny of journey all
Play their roles king or pauper ever!

Ramesh T A
Liars Life!

Liars cannot lead

Long term life with anyone

Unlike truth tellers ever!

Ramesh T A
Life

Life is
A duration between
Birth and death!

Ramesh T A
Life All Love!

Pleasure enjoyed due to sensuous activity gives joy unique;
To enjoy such a sensuous pleasure all love romance in life.
Romantic love leads to great pleasure one can enjoy ever;
This lifelong experience keeps one's spirit bright in the world.

Life without romantic experience is surely quite dull and dry;
No inspiration one can get, if there is no chance for romance
And all the ventures one attempt seem to be a great task
Giving a hell of problem as risk taking ability is very meagre!

Living a life sans romance or anything to enjoy with pleasure
Certainly make one most difficult to manage monotony till end
And there is nothing interesting to share with anyone anywhere
As isolation will make one a lunatic seeking relief and redemption!

Life sans love, friendship and adventure is a great monotony
Contrary to romantic life full of risk and adventure ending in joy!

Ramesh T A
Life As Smooth River!

Life goes on as smooth river governed by love and beauty
Inspired by all animate and inanimate things of Nature;
Naturally, a person of soft heart having deep interest
In creating beautiful things is an unacknowledged artist!

Love of beauty in creativity and performance of all things
Naturally makes one an artist whether one indulges in art
Works or not and one's quest to do all with perfection
Surely gives satisfaction, joy and peace as nothing can...!

Living life so, one has greatest joy and has the capability
To turn even adverse situation into a blessing in disguise
To enjoy aesthetic pleasure in such an aspect of human life
Too and becomes a wise person to deal all phases of life well!

Where there is a sense of love, beauty and truth, there life
Will be heavenly even in the world of uncertainty forever!

Ramesh T A
Life Devoid Of Human Touch In The World!

Due to mechanical way of life, natural love, joy and
Pleasure vital ingredients of romance have become ever
Out of order in the human life of the world since long!

Human culture cherishes literature, music, arts, poetry
And sociology besides economy and technology of world;
But civilization and modernity have mechanized full life!

The busy nature of mechanical life goes according to the
Status of time sans giving importance to human sensibility
And totalitarian kind of social management reduces humanity!

Humans are just identity numbers in the total number of men
In the world or national or state level for assessing each
One's performance for promotion or depromotion in status!

Human touch has totally become out of place in world life
Fully occupied by machine transactions in all dealings here!

Ramesh T A
Life Enjoyed Full!

Living life enjoying the beauty of Nature
He has completed his sojourn on the Earth!
Walking on the fields of green valley ever
He mused over as a mystic and wrote a lot!

Sitting on a reclining chair in the garden
He watched dancing flowers and birds,
Watched also the countless Stars in the Sky
In the long nights and wrote nice ideas...!

He spent his retired life devoted to all things
In Nature observing all details of activities
Going on around him in harmony with the
Beautiful things of Nature as long as possible!

All things he enjoyed are now in poems quite
Immortal and vicariously taking all there long!

Ramesh T A
Life Experience

Literature is the dictionary

Of life yet experience but not

Past record counts much!

Ramesh T A
Life Full Of Clash Between Obligations And Interests!

Life of loneliness is one man show or one man army;
One man has to do many men's jobs at home and outside;
Usual chores will take a lion's share leaving one not
Able to mind one's work of interest as there's no time!

Also, obligations make others not able to do what others
Like in the world life making all sail in the same boat;
This is the work of fate many feel and do all things with
Heavy heart and heave a sigh of relief in the interval..!

There may be many intervals for all to breathe well and
Take up heavy works as a challenge and move on in life;
Finishing the undertaken works well is the goal and target
Of all and that gives a great relief, when all is done well!

But no one can live sans any worries and woes in the world
As obligations and works of interest clash till the end sure!

Ramesh T A
Life Goes On!

Sun shines;
Day breaks;
Work begins;
Rest comes;
Work goes on;
Sun sets;
Evening comes;
Moon rises;
Stars twinkle;
Night cools;
Day ends,
Life goes on!

Ramesh T A
Life In The Precarious World Today!

The very existence of Earth has become precarious
Due to hatred, violence and wars perpetrated by
Fanatics of religious bigots staying as Stateless
Players instigating troubles through mercenaries!

Natural calamity caused by unpredictable tremors,
Earthquakes and volcanic eruptions here and there
Also make precarious the stability of Earth forever
Coupled with climate change caused by pollution..!

Weapons of mass destruction such as Nuclear bombs
In the stocks of some vulnerable nations are a big
Threat to peace and escalating tension everywhere
Besides testing of Nuclear missiles by some nations!

Everything has become uncertain in this precarious
World in which we are all living with so many dreams
Of progress, prosperity and life of paradise to lead
Heavenly life of love and joy forgetting all threats!

Knowledgeable people who are aware of the uncertainty
Of the world more than religions people pray to God
For safety, security, peace and nice family life for all
And pull on the days involving oneself with good deeds!

Ramesh T A
Life In The World Is Miracle!

Without rhythmic waves, there is no sea;
Without sea, there cannot be any wave!

Without sorrow, there is no joy in life;
Without joy, sorrow will be ineffective!

Without day, there is no night in the world;
Without night, day will be very boring...!

Without leaves, there is no tree, flower, fruit;
Without water, there is no life in the world!

Without imagination, intelligence is useless;
Without intelligence, knowledge is incomplete!
Without vision, ambition to achieve is nil ever!

Without love, there is no life enjoyable;
Without life, love is unknown in the world;
Without vibrant heart, there is no life ever!

Ramesh T A
Life In The World!

Life in the World!
Heart longs for love to live life well;
Well to do have wealth but not love;
Love is a natural spring can't stop;
Stop of natural process is never done.

Done things happen due to Nature;
Nature is the source of love forever. 
Forever there's no end for spring;
Spring of fountain strews well.....!

Well is formed out of spring natural;
Natural love oozes as free water.....!
Water of life sustains all living beings
Being an ever endless source of life!

Life is process between birth and death;
Death is the full stop for all world acts!

Ramesh T A
Life Is A Challenge!

Why is death a common destiny for everyone in the world? 
Death only saves from pain one suffers for a longtime..!
If life is to be lived, it should be joyful, jovial and jolly;
Otherwise, it is meaningless and worthless to live in the world!

Poverty, old age, illness and death are sad indeed forever;
Desire and attachment make us suffer a lot in life no doubt;
That is why it is better to live non附件ed way of life
With love for all doing everything with disinterest forever!

That way disappointment can be avoided for the better in life;
Life is not just victory and defeat, it is beyond those two;
Life is a challenge to balance both and go above both forever;
That is how one's poise in life can be maintained to be happy!

Whatever thing we do, we should be able to get peace and joy
By performing it with love, interest and perfection to be free!

Ramesh T A
Life Is A Dream!

All reality of past becomes dreams in the present;
Incidences of present will become history later;
And imagination of future is new dreams of life;
As long as we are living, our life is live show!

Once they all become stories and poems in literature,
All read, learn, comment and criticize there after;
This is how life is going on in the world since long;
Dreams and realities are alternating in our life ever!

Dreams and ideas, ideas and realities may come true
And may not also come true, but they all continue
Forever as dreams, ideas and realities long as we are
Living in the world full of beauty, romance and love!

This life is not only joyful, but also sorrowful;
But they all become dreams once the show is over!

Ramesh T A
Life Is A Full Circle!

Except the things we love, we slowly forget all in life;
Life is a long journey to remember everything till the last;
Last thing we forget is ourselves like a new born child;
Child is born with clean and clear mind to learn all new!

New is everything in the world for child to see and remember;
Remember all minute details so as to compare and contrast;
Contrast is growing critical mind in the child to say own;
Own details in a creative manner, child creates to be joyful!

Joyful time in life ever remains in mind to give cheerful mood;
Mood only makes the creative mind to make interesting things;
Things of beauty created by mind gives a sense of joy in world;
World is vast as Universe to discover, create and invent all!

All things we do to explore beginning and end to make full circle;
Circle is human life crossing all stages to finish it in the start!

Ramesh T A
Life Is A Great Mystery!

Who knows the course of human life in the world
To implement and execute all plans we make before
As we make for our work, tour to foreign countries
And whatever things we wish to turn into realities?

We don't know what's going to happen next in life!
With some intuition we guess certain things and go
Ahead with a spirit of adventure in the world ever
Not knowing the course of fate or God's plan sure!

Yes! Indeed, man proposes many things, but it's only
God who disposes everything according to His will...!
That's why we feel that God moves in a mysterious way
And it's luck that makes all our plans successful in life!

Indeed, the course of life is a great mystery man has to
Untie the knots to be free to achieve what all he plans!

Ramesh T A
Life Is A Journey!

Life is a happy journey.
There is nothing so thorny
When your heart is light
And your mind is right.

Never doubt with a pout the love,
Which you ought to worship with awe.
So, love, love and love
Your Lord and your lady
And nothing will be bitter
Instead everything will be sweeter.

Life may have many changes,
Blend with others if there be chances;
A lot you need to know in this world.
Sorrows there be in everyone's life,
Yet never lose your precious heart;
That is how life has to be lived.

Life's destiny is the inevitable death.
Time keeps all in suspended animation.
But all dreams come to an end
However sweet they may be.
Therefore you wish for your activities end,
A peaceful sleep may come at last one day.

Ramesh T A
Life Is Dark Sans Education!

Just acquiring knowledge does not solve everything. Intellectual thinking is needed to know the truth ever. Failure of educated people is mainly due to this plight.

Aping others ignorant people live in the world ever; For knowing matters, they depend others forever; Otherwise, they blabber, if helpless, out of fear sure!

What is the difference in both the cases is education....! Educated can be made to understand matters somehow; But the illiterate never know a system to follow anything.

In the modern times, simple living, ignorant men can't be Utilized in any work to do something useful to the society And the relationship no one will like to have with them....!

Without basic or proper education, it is difficult to live in The modern world full of sophistication and advancement!

Ramesh T A
Life Is For Upliftment Of Soul!

We are higher beings higher than all living beings;
We live as we wish based on our status and life;
We are far away from the madding crowd sometimes;
Yet, our life is also controlled by fate of God!

We have man made laws to follow and also, dharma,
God made laws that many ignore and caught by the
Web of fate we suffer and obey finally to God's will
And surrender to redeem our life to reach real home!

We are in the process of evolution from animal to
Divine through out of life in the world by many births;
By being so, we uplift our soul to divine level sure
And finally reach the universal spiritual energy state!

Not knowing this and realizing this nature of our birth,
Why are many go against all laws of man and divine ever?

Ramesh T A
Life Is Insipid To Live Sans Ambition!

No one is interested in doing anything
Unless there is money value in that one!
Money can't be earned unless work is done
In some field of interest or not ever..!

But, all cannot get jobs to do as they wish
And earn money as they wish in the world;
If it is so, can anyone simply while away
All the Time one has in hand doing nothing?

If no job is available, one has to do some
Self-employed work for earning some money;
But, hope should not be dropped, if one is
Unable to do the job one likes very much!

Many uninterested men, to forget their worries,
And misfortune, indulge in drug taking and
Ruin whole life as good for nothing ones in
Fear and hopelessness rest of their life...!

One should have good ambition based on dreams,
Visions got out of knowledge of self, world,
Nature and Universe to make life interesting
To live in pursuit of goals of ambition ever!

Ambition is the driving force of life for all;
That urge kindles all to do anything with zeal
To achieve some sort of beauty as artist tries
To achieve completion in work forgetting Self!

That way, creative work changes one's life interest;
It makes one discover one's real talent or genius;
In that one achieves something wonderful in the world;
One's beautiful work of art will fetch all one dreams!

Ramesh T A
Life Is Magic!

Life is like magic
Existing only on Earth
As no replica in Universe!

Ramesh T A
Life Is Not Romantic Cinema!

World is a big stage, where men and women
Take responsibility to play their roles;
Life of human beings is like a dream from
The birth on till it's rounded of by sleep!

Life of each has purpose to fulfil till end
By rendering all things with noble service;
For that knowledge, skill and bold steps are
Brought into service to achieve one's dream!

But in the modern days not knowing noble
Purpose of man, many are mesmerized by the
Silver screen romantic stories or hypnotized
By the stage speeches of politicians as true!

Politics for money and romance for life many
Dream about and try to follow on full time
Basis only to be fooled and disappointed, when
They fall into the abyss of no return as end!

Human life is not so easy as romantic cinema
That serves only as entertainment to forget all
Stresses and strains of daily work to renew one's
Spirit to proceed with one's mission to success!

Ramesh T A
Life is not an easy joke or game!
Life is a rhythm of words ever
Travelling in the lines of poetry!

Life is a beautiful poetry sure...!
Life is a clear expression of poetry
Of comedy or tragedy or history!

Life of some is a classical poetry;
Life of some is a romantic poetry;
And of some is historical poetry!

Experience of life has profound
Meaning in the all the words of
Poetry to remain as masterpiece!

So, never make life a farce to live
As poetry in the world of literature!

Ramesh T A
Life Is To Live Happily Ever In Love!

Life has to be lived happily till the end in the world;  
No one needs to suffer, worry and endure pain till last;  
Love to do all for God's sake sans expecting anything;  
The duty done perfectly well has its own reward later!

If one worries and cries, it's of no use and none cares;  
Happiness is in each one's hand to enjoy with love ever;  
With true love if anything is offered, it will be accepted;  
By doing so, one will not lose anything but gain love...!

Enjoy love with whole heart sans any doubt about anyone;  
Both in love and war there is nothing fair or foul ever;  
All things done with true love has no objection anytime;  
Love requires no licence to do anything and to go anywhere!

Such kind of act of love all cannot say any criticism  
And all will welcome it with open heart to enjoy ever!

Ramesh T A
Life Is.....!

Life is journey
Travel it!

Life is beauty
Enjoy it!

Life is challenge
Face it!

Life is struggle
Surmount it!

Life is war
Win it!

Life is poetry
Read it!

Ramesh T A
Life Journey

Natural life journey

Looks to be better than

Material vehicle journey!

Ramesh T A
Life Of A Person Of Great Ambition!

Person with great purpose or ambition cannot live like all others; One does or dies on one's adventurous path of ambition in life sure! They try and try to the last drop of blood till they achieve ambition; That is their goal, aim, destiny and all in one fate face ever...!

For such personalities, nothing is important except their purpose; They live life so only for that purpose, hard or soft, till the end; Their interest, enthusiasm and zeal lie in work of ambition ever, From which they never budge an inch whether others enjoy or suffer!

Family life or single life is one and the same for them forever As noting is great or important except their life work of ambition They cherish most in heart till they make a mark in the world in The line of their favourite choice of work, profitable or unprofitable!

Day or night, alone or in company, the thoughts, words and acts of A person of great ambition are converged focusing aim at the target!

Ramesh T A
Life Of Human Beings In The World!

Origin of anything and everything cannot be decisively said; It is like asking the question, which has come first - Egg Or Hen or Hen or Egg, Seed or Tree or Tree or Seed and also, Seed or Oil or Oil or Seed like literature or grammar, etc.!

We also cannot say for sure whether by creation or evolution Man has come to the world leaving aside religionists and Scientists as both cannot prove by any evidence but only by The acclaimed authorities’ opinions with the majority votes!

Literature itself was first orally expressed as stories which Were memorized by followers to recite them to others to make it Live in the world for generations to know and pass them on...; Later script, grammar and criticism have come into vogue sure!

With the refined language Vedas, epics and philosophies are Written for the posterity to know the richness of human life, Culture, religion, Universe, Nature, God and final liberation For all to understand and live a satisfying life in the world!

Ramesh T A
Life Of Love By Friendship Ever!

Life is still a great mystery that has yet to be unearthed;  
Love is still an elusive matter can't be definitely defined;  
Friendship of philosophic poets ever explore them sans an end!

In this mysterious life, surely love is a good fantasy luring  
All to a care free state by its inspiring spell nothing can  
In this world of great uncertainty needing control by some means!

Sans love, there is no hope and idea to inspire one to try all  
Means to find a way to live with some aim to achieve in this world  
For life to thrive and flourish as garden of beautiful flowers long!

Philosophic poets only know how to preserve the value of love ever  
In meaningful poems of great feat to perpetuate its greatness sure  
For humankind to proceed long with acts of kindness to live divinely!

Life of love only poetic friendship community cherishes as model for  
All freedom loving souls to follow in life to the full in satisfaction!

Ramesh T A
Life Of Romance!

Life of romance is adventure in the world;  
Stories are interesting to read on romance.  
Luck plays very much in the game of love,  
The main matter in any romantic story...!

Can life be like romantic love story all like?  
Everyone wishes to enjoy romance in life  
Full of love going on tours and in parks  
Full of beautiful flowers and delicious fruits!

Green lawns, fragrant flower plants and  
Trees full of various fruits all enjoy ever  
Only in romantic atmosphere one can see  
But never in real life situation sure ever!

Life of romance is luck one enjoys in world,  
If one's star is blessed with roses sans thorns!

Ramesh T A
Life Or Death, Love Entanglement Is Inextricable!

Just as beauty lies in the eye of the beholder,
Desire of heart kindles love between two souls;
At first sight itself love starts straight strong
With gaze of eyes sans any thoughts of pros or cons!

Free love with open heart whisper words of love;
In a state of nirvana, there is nothing to hide
Between two hearts that entwine two souls into one
With no force in the world to separate them ever!

As two oppositely charged clouds they dash at each other
At sight and love tears of joy fall as rain with all
Lightnings and thunders drenched in each others kisses
Forgetful of time, food and fear of all kinds in life!

Force of love is such that lovers cannot escape from
Its spell unmindful of all consequences in world life
And suffer or enjoy forever whether they fail or succeed
In materializing their union by marriage or not in life!

Ramesh T A
Life Proceeds Only By Love!

Before buying anything we see so many aspects
Thinking over the durability and reliability ever!
But having love does not see anything like that
Except the liking of the person to be loved in life!

Money and materials are not reliable and so, all
See so many things before having them for our
Use and work in world life unlike love that has
Only heart to decide about sans work of mind!

For anything to do in this world love of heart is
Most important before thoughts of mind begin
To proceed as to how to materialize anything of
Heart's desire in this world of uncertainty ever!

Human life survives and sustains successfully ever
Only if inspiration of love is strong and supporting!

Ramesh T A
Life Without Ambition!

Without ambition

Life is a long boring journey

Without destination!

Ramesh T A
Life Without Fruits Is Incomplete!

Fruit salad ice cream is my favourite item!
Fibrous mango fruit pulp is delicious to taste!
Papaya fruits are common here everyday.
Many fruit and juice stalls delight all here!

Pickles and fruit jams decorate dinning table;
Without fruits food items are incomplete in life.
Banana, grapes and dates are essential for health;
Nobody can avoid fruits in their daily food.

With fruits alone many sages spend life in forests;
With banana and milk seers pull on days well!
Date and milk sake maintain many people’s life.

Fruit breads are common grocery item now;
Plum cake everybody loves on birthday times;
Without fruits joy of life cannot be enjoyed much!

Ramesh T A
Light Reflection

Light reflection of
Precious gold and diamonds
Reveal high value!

Ramesh T A
Like Battlefield Wars!

Who is always fighting for something or other? Only a controversial one almost a mad one is so! Defeat or victory, they want some end in the fight And that they take as justice and go on in life!

If there is not any result, they continue war ever; They go ahead sans realization that it is waste of Time, efforts and wealth to fight without any sense; But go on fighting as if playing game to win sure..!

What kind of attitude and mind such stooges have and It makes true the saying that it is impossible to win In an argument with an idiot unless you are also so! This is mad way of world not mature enough to know truth!

Litigation in courts, protracted guerrilla wars and Now terrorist wars are same like battlefield wars ever!

Ramesh T A
Liking Of Rivers A Must!

Many bridges train runs on the way
From the North to the South long..;
But not even a single river is with
Water flowing to give a cool look!

Due to shortage of water for irrigation
And drinking purposes, dams are not
Kept open for water to flow to riparian
Places leading to farmers' strikes ever!

Due to climate change and insufficient
Rain fall every year water scarcity
Problem affects people and farmers ever
Making it necessary to link rivers sure!

Wastefully waters of rivers flowing to
Seas need to be interlinked for supplying
Water to dry lands and needy States along
The areas of rivers of the nation sure!

Ramesh T A
Limitation Of Sourashtra Language!

Great epics like Ramayana and Mahabharata
And classics of literature were orally passed on
From generation to generation in India before
Sanskrit language was developed to write those
Epics around 500 BC borrowing terms from
Sourashtra being derived from Sourseni,
The central Prakrit language of ancient India.

Perhaps Sourashtra was in Devangiri script,
Which was not developed by Sourashtrians
As they were in a state of panic and chaos
When they were migrating from place to place!
As they were ever engaged with weaving works
They did not find time to write literary stories
And Ideas or record their history for posterity!

Despite those drawbacks, preserving the oldest
Language of India as spoken language, Sourashtra
Indeed is a miracle language in the whole world!
Even if Devenagiri script is adopted to write all'
In Sourashtra language, it looks bleak literature
Will develop as it cannot be used among people
They are moving with in a State not of their own!

Ramesh T A
Lingering Thoughts On Ability!

On my tour out of station, I have felt I am sinking
Day by day in health and feeling I am nearing end!
Death seems to be within reach already with my choice to
Decide the end of my life as my movements are arrested!

Cracks at the feet and pain here and there on my body
With a sort dizziness often knocks at my door of life!
My hope of attending poetry festivals in foreign country
Or in a nearby place also seems to be out of reach now!

Many are spending money in this kind of venture to see
That their names are announced for some certificate of
Recognition to make themselves satisfied and also pride
Being publicized as poets of some kind in the public...!

Praises for some should come naturally from unknown ones
To be really recognized as an able poet for all to accept!
That is the way talent of one has to be appreciated and
Recognized in public for the world to know and support it!

What is my status as far as my talent is concerned sure?
Are the website recognitions count in the world of doubts?
How are these discrepancies of one be rectified by what?
Will there be any scope for a physically crippled poet ever?

Such questions are lingering in my heart very often, though
My words flow in verses many everyday from morning to night!
Will my poetic words have any effect in this world full of
Doubts not so easily recognizes anyone for anything sure!

Ramesh T A
Ignorant people live under fear aping others for everything;
But educated people lit light to disperse fear of darkness....!
Previously ignorant people are afraid of people of knowledge;
But now civilized people are afraid of terrorists' bomb attacks!

Both ignorant and educated people are afraid of terrorists
And are always on the alert to overcome threats of bombs
Being exploded by enemies using remote control devices
Whether it is in the West or in the East of the world forever!

Terrorists make use of advanced technology of destruction
Like Trojan horses amidst thick population in metro-cities
At anytime anywhere in the world today controlled by fear
That rules all whether one is rich or poor, ignorant or educated!

Differences of rich and poor and developed and backward ones
Seem to be balanced among people of all sorts of races, religions,
Civilizations and cultures under one roof of democracy shunning
Out monarchy, dictatorship rules and haves and have-nots ever!

Ramesh T A
Epics of classical literature are intellectual, wise, moral, Social and universal in nature and written in grand style..;
Poems and novels of romantic literature are emotional, sensual, Sentimental, personal and individual in nature and unique...;
Articles and criticisms of modern literature are formal, Social, satirical, political and rational in nature to expose reality!

Romantic literature is natural in its expression of humanism;
Classical literature is refinement of human experience always Expressed in rational way to entertain and instruct all for The better as a religious scripture to turn a brute into a Human being to live life better in the human world as divines;
Modern literature is impressive to make impact by artificial flow!

Poetry is succinct in verse, elaborate in blank verse, grand in classics, ex-temporary in romantics and impressive in journalism!

Ramesh T A
Little Squirrels Like Little Children!

Little squirrels are like little children
Playing around my house making screeching
Noises from early morning on of the day..;

They eat white rice but not take flesh,
Fish and fowl that are very much taken
By crows waiting to have as feast ever!

The squirrels even enter the house and
Play all around eating walnuts, dry grapes,
And even full banana fruits kept on table!

The little squirrels remind me of my nice
Grand children who mischief, when they all
Come to my house on holidays after long...!

These small observations everyday cheer up
The mood and divert our attention from ills!

Ramesh T A
Live And Then Die!

We are all destined to live for sometime and die one day sure;
There is no change in this diktat decided by Nature in this world;
Consciousness only is the identity of one who is alive or dead;
Once the spiritual energy leaves the body one is said to be dead!

Blood consciousness of the past birth makes us do things sans learning;
Stream of consciousness makes us to remember of our past birth;
Consciousness makes us know what we are doing and also telepathy;
Subconsciousness makes us dream, have vision and super consciousness helps spiritual union!

The whole Universe functions under the control of the universal spiritual energy;
Likewise human body functions powered and controlled by spiritual energy;
This human spiritual energy is the soul that has come from the universal spirit;
Its source and destiny is in the Universal spiritual energy or Universal spirit!

By meditation it is possible to know our past, present and future;
By mysticism we can commune with universal spirit and reach it at the end!

Ramesh T A
Live Natural Life!

Natural way of living has been forbidden
By materialistic thinking and training ever!
Here competition is ever prevailing in all to
Decide about best to enslave so as to win...!

The diseased or hurt horses are shot to stop
All pains of the suffering to think about the
Next best to win in the race against all so as to
Maintain profit level never diminishing at all!

Second level ones or mediocres struggle ever
Seeking placement in some place only to seek
A better one as the ship sinks to the bottom
Sooner they stabilize themselves in one place!

Materialistic world has races to win sans heart
To love, live natural life as humans unlike horses!

Ramesh T A
Live Real Life For Love!

Love is difficult to practise in real life
Carried away by tradition and taboos!
Sans revealing love one can move only
As a friend with the loved one, it seems!

Great classic and best lovers of the world
Have been driven to death due to love...!
Love seems to be interesting to read only
In stories, but not in real life due to laws!

But all are wholeheartedly welcoming
Love to prevail in human society ever
To foster good relationship with all in
The communities we move with always!

Only in free and real life one can venture
On love to live as in the stories we love..!

Ramesh T A
Lively World Life!

Tears of joy and melting of heart
Happen seeing a new baby sure
Whoever a human being is here!

Such a good feeling comes sure
To anyone whether one is a human
Or a bird or wild animal, if a family!

Family life is the speciality of world
That gives birth to children and...
Sans this relationship, we are nowhere!

What a concern comes to a beast or man
Once one has a child in hand so pure,
Good and clear as white pearl of oyster!

This world of love and life never
Seems to be lifeless due to family!

Ramesh T A
Living Life Sans Pleasure Is A Big Waste!

Living life without enjoying any pleasure is a saintly life;
Just doing duty with or without interest is a drudgery long,
If one does against one's desire but to fulfil one's destiny!

Everyone is born in this world to get knowledge of all things,
Do duty based on knowledge, enjoy all pleasures and spend rest
Of life in spiritual pursuits high relinquishing all to all..!

Knowledge and duty being fulfilled, it's time for pleasure to
Have relaxation so as to proceed with other chores to finish
One's assignments well next and keep oneself ready to go high!

Enjoying physical pleasure in accordance with the desire of heart,
Intellectually exploring truth according to the zeal of mind and
Mystically enjoying spiritual bliss in Nature one gets fulfilment!

Sans doing duty according to one's nature and enjoying all pleasures,
Nothing worthwhile can be explored and achievements made in life!

Ramesh T A
Living Life With Pleasure!

The purpose of life is to enjoy all pleasures in the world
Based on justice doing works according to knowledge ever..!
Passing on such knowledge and experience to our fellow beings
To posterity is the best way of living and human culture sure!

Knowledge, existence, pleasure and absolute is the way to
Attain total liberation or state of Nirvana finally in life;
That is why up-gradation of living emotionally, intellectually
And spiritually is the way to aim as goals to achieve in life!

Having suitable ambition to do so, all can sure achieve full
Satisfaction in life and perfection in life to qualify oneself
For reaching the blissful divine-hood of spiritual liberation
After many a trial and tribulation by evolution and culture...!

knowledge of this kind only is the true way of leading best life
Necessary for all to know so as to live life with pleasure ever!

Ramesh T A
Living On Faith!

For proving truth so many proofs are needed;
For faith nothing is needed to know the truth!
It is not difficult to wake up a sleeping person;
But it's not so to wake up one acts to be sleeping!
For the nonbeliever no proof will convince ever;
Heart's satisfaction will make one accept anything!
Based on nothing love blooms between persons;
Nothing can be solidly said as to how love arises!
Precarious Earth we all solidly rely on to live long, but
Earthquakes or volcanic eruptions can't be predicted!
Based on faith we live on earth with confidence and
Our days are going on so long and so forth here.....!
It is a great wonder the circus of Earth still going on,
When all other planets are lifeless in our Solar system!

Ramesh T A
Living Still!

In the middle of night
Perfect silence prevails everywhere
With cool air unlike day!

Days are very hot
Even though Summer has gone away
Is it due to Sun's flare up?

Nobody is sure
But the facts reveal it is so
And how long will it go?

Due to atmosphere
Earth is left with some mercy
For all of us to live still!

This man should not
Spoil by destroying all resources
For commercial benefit!

Ramesh T A
Lomg Life Possible Only By Nature!

Freshness and glory of morning Sky absorb all;
All living beings getting energy from Sun survive;
Survival of all beings are guaranteed by Sun.

Sun's arrival inspires all by its spell to see in awe;
Awe inspiring nature of Sun at dawn makes magic;
Magic of morning splendour of Sky is full of hues!

Hues of red, orange and blue captivate all eyes;
Eyes are attracted by the fast changing hues sure;
Sure is the activity of all things in Nature forever.

Forever as all work in Nature well, all live long;
Long life of all beings is possible only by Nature,
Nature being the mother of all living beings ever.

Ever Sun, Moon and seasons work for all to act
Acts as to each one's nature for ecological balance!

Ramesh T A
Long Festival Holidays!

Festival holidays at a stretch of four or five days
Create a very great fun time for many to go out!
Festival rush is too much to coup with for all to
Buy or go on a tour to any out of place for change!

Many new faces accompany everyone everywhere
And is the best time to mingle with new friends sure!
Many distant friends meet in a surprise way to one
When least expected in the long run of life in this time!

Meeting close friends after longtime during festival
Seasons surely boosts the joyful mood to a great level!
Time goes fast no doubt on such occasions in the town
Noted for feasts, fetes and carnivals of all kinds ever...!

Holidays of festivals coming on working days add
Extra holiday times extending leave for many long
Making all enjoy programmes with timetable to
Kill the time with dear, close and longtime friends sure!

Ramesh T A
Long Journey!

Controlled by fate and driven by desire
Under confusion as a drunken person
We all live life and wish to go to the full!

Pleasure and pain alternately encounter
All of us and hope and disappointment
Like the up and down toss of waves go!

In the long or short journey of our life
We move on to unknown destination
On a vast ocean on a ship sans compass!

During the night time we look for some
Distant lighthouse beacon to get a sense
Of hope to find a direction to reach shore!

Somehow after reaching the shore, life tour
Doesn't end until we climb up hills to go high
On misty staircase to the galaxy to heaven...!

Ramesh T A
Long Rosy Life All Shun!

Disease-less life is limitless wealth in the world
in the course of life for anyone anywhere sure...!
For, the cost of treatment of illness simply consumes
The whole wealth of man who doesn't now of his wealth!

Modern world life leaves no leisure in the world
Even for check up of health to anyone at anytime!
When disease catches one unaware, one is in great confusion to overcome the cobweb in which one lives!

After a major operation, one gets after effects
Needing further treatments consuming whole wealth!
They all prolong medical treatments to a longtime
And expenses as well skyrocketing leaving one sad!

Noticing these hellish adventure, one feels like
A fish out of pond to live long any longer and
Wishes for quicker demise rather than a rosy life longer than usual short life full of fun forever!

Ramesh T A
Longer Poems!

Gushing words of passion

Pacify heart full of pent up feelings

In Poems longer.....!

Ramesh T A
Longing Still Continues!

Days go on whether weather is good or bad!
Like or not, works have to be done to finish
The assignment undertaken to complete in
Time that drives all to do looking sharp ever!

Seeing time now and then we do all things
And our mechanical way of living has not
Changed a little after technology has advanced
Turning the old world into a modern one...!

This we say as civilization all love to boast
Comparing the way our predecessors have
Lived on this same old Earth before us and
Dreamed so many changes we have now..!

Our civilization sans culture has made us only
A machine and not a man to live as he wishes
Enjoying freedom to do whatever he wishes to
Get the satisfaction he is still longing as elders!

Ramesh T A
Look Before You Leap!

We forget something or rather, when we are in a hurry
However careful and well planned before execution....!
What can we say of persons of little knowledge in hurry?
Nothing they remember needing assistance from others!

Based on little knowledge, if actions are taken, how wrong
Actions will be and how sad later life will be, many know not!
Only after falling in the abyss, they cry for help with no use
And there won't be any good helping hand to support them!

Realization comes late for hurrying persons after all things
Are done in waste benefiting none with the loss of time......,
Money and energy like water is irrigated to field full of weeds
Spreading everywhere spoiling the rich growth of good crops!

Life is like poetry with words good or bad that last forever
Making or marring the name of the creator in memory ever!

Ramesh T A
Love

Love is
Out going concern for
Loved one!

Ramesh T A
Love Activates All In Man!

As long as heart is there, feelings cannot die ever;
Feelings of love cannot be forgotten as long as mind
Controlling the whole of man is alive till the end..!

Heart starts all the affairs of love making mind to
Remember all to be happy or sad till the end comes in
The world life of man and woman together or separated!

Life cherishes love in the world, but death is sudden
Thunder falling on one full of feelings in heart ever
Remembered by the mind day or night seeing souvenirs!

Love is affection, attachment and affinity of one over
The other born of feelings of heart incorporated in
The mind never to be erased by any means in one ever!

Feelings of love activates one's life's adventure in
All fields of human endeavour leading to great feat!

Ramesh T A
Love Addict Fallen In The Web Of Romance!

For drinking, smoking, gambling and lust,
There are a lot of addicts in the world forever!
For beauty and sex too, there are addicts long;
But addicts for love and Nature, there are a few!

Moon light love is indeed romantic and sensuous!
Like the Stars winking around Moon for its beauty,
Invisible angels dance around lovers in the garden
Full of fragrant flowers just bloomed to greet them!

Love blooms between hearts made for each other
Like the Sunflower that blooms at the sight of Sun
And the lily beautifully blooms at the sight of Moon,
A magic Nature only knows and makes all addicts!

Yes, love addict fallen in the web of romance is ever
Nature's trick making lover a poet of love poems all
Quite incredible like honey oozing out of flower that
Melt beetle to fall on her bed to enjoy nectar nonstop!

Ramesh T A
Physically no one can escape from becoming aged;  
Old age and physical weakness are curse of man...!  
But heart, mind and soul or essence are very young;  
Romance blooms like new and fresh flowers forever!  

Love and affection of romantic ones never become old;  
They are like old wine in new bottle forever in life sure!  
They are the blessing in disguise even one becomes aged  
And make one fresh and brisk to live life with zeal sure!  

No race, religion, region, class, creed and colour come  
In their way to make them come under the spell of long  
Hatred, violence, revenge, malice, jealousy or war ever  
As love is all absorbing power that neutralizes all hates!  

Old age or young, romance makes human life fresh ever  
To live in love with all to enjoy love, joy and peace sure..!  

Ramesh T A
Love And Beauty True In Life!

Heart hardened by denial of true love from childhood on,
He cannot rely on anyone and believe anything, though he
Moves with gentle and cool manner with one and all in the
World due to his cool calculated and critical assessment!

He knows of versions of love of different people he meets
And accordingly he reciprocates by his actions genuine...;
he loves beauty and love true anywhere he sees by a rare
Chance now and then and feels unique joy he only can know!

True love and beauty have become rare and hence precious in
Life according to him and due to this reason, he has become
A poet to express all of his ideas based on his own true
Experiences in the world life and his poems still sings love!

Unless there is true realization in life, value of virtues
Like Love and Beauty cannot be assessed properly by anyone!

Ramesh T A
Love And Freedom!

Loveless life is like bird without wings;
Nation without freedom is big prison!
Love and freedom go together always;
Without love and freedom life is useless!

Love and knowledge are two eyes for all!
But without love and freedom no chance
There is for one to accomplish any wish
As interest and desire never leave one ever!

Love and knowledge only make one perfect
To enjoy real freedom in joy and peace ever!
Beauty is truth only when love is true there,
Where real freedom prevails as heart's desire!

Love, beauty and truth make one perfect
To enjoy real freedom in life of joy and peace!

Ramesh T A
Love And Friendship!

Love and friendship make human life divine on Earth;
Such a relationship it is rare to expect in other planets!
Love unites all as one entity in a world of chaos ever
And friendship maintains the bond of love well forever.

Love makes life nobler than other ties in the world;
For the sake of love many sacrifice all as it is precious!
Love brings all things within the reach of anyone here;
With love one gets all even one loses all earlier in life!

Friendship helps to unite souls separated by fate in life;
Epics and literary stories are full of ideas of this nature
That gives inspiration, confidence and hope to live well
In spite of many obstacles and hurdles on life’s journey!

Wealth, knowledge are nothing if one has love, friendship
That compensates the missing elements in the life of man!

Ramesh T A
Love And Non-Attachment!

Bees hover over
Flowers to suck honey
But never spoil!

Dew drops
Never mix with lotus petals
Because non-attached!

Ramesh T A
Love And Peace Or Lust And Money?

Love and Peace or Lust and Money?

Buddha, Jesus and Gandhi are symbols and examples of love; With love only, peace of mind one can have in this world ever; This truth they have very well realized and preached to all...; But despite that, love and peace we have to search forever!

Lust and money are the interest of many in the modern world; Lust in cinema, advertisements and dress fashions attract all As the fire that attracts moths for total destruction damn sure! Even then in the Kali Yuga period, people are attracted to lust!

Romantic love is replaced by realistic lust and exposed in news Full of rapes and murders due to the vanity being hypnotized by The stories of movies and sexy advertisements killing the good Hearts by seduction to lust and money in lieu of love and peace!

Classical, romantic and modern literatures of the world are no More to be seen in anyway as they are all considered as bluffs And realism in the form of sensuous and sexy way of life is being Perpetuated to hypnotize men to the pitfalls of wrong routes ever!

Ramesh T A
Love And Truth!

According to any world religion, love is God;  
According to religious philosophy, truth is God;  
Love gives freedom and happiness and truth gives  
Confidence and courage to live in the world well!

If love is heart, truth is mind and body is vehicle  
Powered by energy called soul for all living beings;  
Also, love and truth are the two eyes of human beings;  
Through them we see the world and decide all matters!

If persons are of the same mind, heart and nature,  
Then there love blooms between them and creative  
Works of all kinds are well produced to enjoy life  
With happiness and freedom better than all others!

Love and truth build bond between persons and spread  
To all other people of the same nature expanding all  
Creative productions for the better of the world to  
Enjoy life better in freedom and joy with confidence!

Ramesh T A
Love As Way Of Life!

Regardless of age difference love only sees all as equals;
With love only one can move with all as friends ever...!
Affectionate movement with all is desire of one in love
Who has no enmity, jealousy, hatred and fear wherever!

There is nothing secret, when all love with each other.
Love and beauty together sway the hearts of all to be
Ever in the company of such persons for whole of life
And that's where real freedom and joy all can enjoy!

With love, peace and joy, life has real freedom to enjoy
In the world and which is possible, if the world becomes
An Utopia, Where all can do whatever all wish with
Love and freeness as never before as in dream in reality!

If only the human world achieves the goal of love as the
Way of life in full, real joy, peace and freedom all can have!

Ramesh T A
Love At First Sight Now!

World literature and history are full of love stories
Both tragic and comic possible now only in imagination
And dreams raising the question in reality, is love
Really possible in the world as in novels and movies?!

Due to disproportionate ratio between boys and girls,
Inter caste marriages have common now in the society;
Inter caste marriages are lasting and also ending in
Divorcees both by love and arranged marriages often..

Indeed love is blind against race, religion, language,
Caste, colour, creed and culture anywhere in the world;
Understanding by intuition, love starts at first sight
In works, journeys, conferences and community activities!

But only outspoken, outstanding and brave ones only can
Indulge in love, successfully face oppositions and live
 Married life long unlike weak and timid ones whose love
And marriage live in dreams but in reality, end in tragedy!

Ramesh T A
Love Beauty And Joy!

Love is endless
But life is short
Love till the end
Grief will pine away!

Art is long
Life is short
Love art ever
To forget ire!

Beauty is joy
Flowers are beauty
Smile of flowers
Make love live!

Love beauty, joy
To live life in peace
This is the truth
You know to live!

Ramesh T A
Love Being The Greatest Force In Life!

Rare loving hearts have become distant Stars never reachable;  
Only a donation of flying kisses can be sent as a mark of love  
As there is no chance of meeting together leaving behind all  
Obligations each and everyone is tied to everywhere now.....!  
Perhaps by email communication it may be possible to know  
The status of loved ones wherever they may be destined to live!  
That is the only consoling aspect left now to be satisfied with  
Till some miracle happens to unite the loving hearts together!  
History and literature are full of such lovers all over the world  
Who have attained immortality due to the sacrifices they have  
Made in their long tenure of separated life with communication  
Rarely possible though now and then in the whole of their life!  
But their immortal love serves as an example for all others to  
Follow to cherish and foster love being the greatest force in life!

Ramesh T A
Love Brings Harmony!

Love brings about

Harmony among all people ever

North, East, West, South!

Ramesh T A
Love Flourishes Despite All Sufferings!

As fragrance of flower memory of love
Ever remains fresh in heart in love life!
Passion of love fuels love fire to burn
Ever with yellow flame till quenched!

Thrust of love passion is never quenched
Unless union between lovers are achieved!
Passion of lovers is rain clouds when met
Falls as rain with lightnings and thunders!

Passionate love reminds one of Summer rain
Falling with lightnings and deafening thunders
Late at night though Stars and Moon shine
Despite days are hot with no sigh of rain at all!

Despite sufferings of life, love flourishes as rain
In Summer nights after day long harsh sun's heat!

Ramesh T A
Love For All Makes A Big Difference Between Nature And Man!

Nature makes wonder by creating beauty out of ugliness;
Yes, in the swampy place, lotus flowers bloom to cheer
All around the place and attract towards them forever!

Man creates beautiful concrete jungle polluted by all
Kinds of vehicular smoke and drainage with opennings
Here and there producing nasty stinking odour all day!

Whatever things Nature does ends in beauty and benefit
To all and whatever advancement man makes ends in after
Effects quite tedious to overcome for the better soon!

The balancing act of Nature is simply amazing with broad
Scope of benefit in a beautiful way indicating its way of
Showing love to all for supporting all species survive well!

Love for the well being of all man has to think about before
Doing anything beyond his scope in the name of development..!

Ramesh T A
Love For Relief!

Love of interest unites hearts intimate;
Love of art, music and poetry does so!
Such a love transcends all barriers ever
And nothing is unfair, foul or wrong....!

Love transforms adverse time into fun
Despite tense moment in life of the world!
Loveless life is surely a hell to live here
Despite all pleasures and comforts are there!

Love of hearts in Nature to mystic level is
Of all things a supreme state of joy forever!
Divinity is felt in a state of trance in Nature
That makes all forget all ills to bliss ever..!

Fate of life drags one against all interests
To a state of hell eternal beyond redemption!
Yet, love of deep kind gives solace and time
To breathe a sigh of relief to go ahead well..!

Ramesh T A
Love For Sales!

People are still human animals only
Though educated, civilised or cultured!
Not knowing difference between love and lust
Thinking to be loving they indulge in lust only!

Love does not mean just enjoyment only;
Love also means endless suffering in life!
Love is sacrifice for the sake of loved ones
Without any selfish desire at anytime in life!

When all have become business in the world
Such as in politics, social life, education too
Many approach love also as product of trade
Plan, programme, execute to achieve objective!

Can love be bought or sold out in the open market
With money power or status of wealth in the society?

Ramesh T A
Love For What?

Is love for spoiling
Pet children or inspiring them
To be independent one?

Ramesh T A
Love Has No Dimension!

The Universe may be expanding ever and infinite in dimension;
Oceans and Seas may be unfathomable in depth and unreachable;
Sun and Stars may be blindingly brighter and burning than fire;
But love like divine spirit activating all is greater than all!

Sunrise and sunset may be beautiful and wonderful is the Universe
In the night with billions of Stars twinkling like diamond jewels;
But the beauty of love is like divine being reflecting oneself as
One's beauty in Nature all around the world and Universe everywhere!

Love has no dimension as music has no language to gauge by mind;
Love is deep emotional feeling that flows spontaneously from one;
Love can be felt only by heart like truth is known by intuition;
Empathetic heart only can know, realize and practise love in life!

Sans the aid of all faculties of man, love only guides one in life
To live in the best and high means to unite all hearts as kith and kin!

Ramesh T A
Love In Action Real!

Is it all enough if you say
“I love you” to one you know?
Love has to be practised in action,
In service, sacrifice, sustenance!

Love does not end with kiss, hug
And saying just “I love you” ever!
It is a natural gesture of inner self
And it’s not by acting it can be felt!

Love of high nature can be expressed
By poetry, social service, art and so on!
Love of this high kind lives immortal
And serves as example to posterity too!

Love in action rather than in just gesture
Sans a sense of feeling is no love at all!

Ramesh T A
Love In Governance Fosters Humanism!

Hatred, extremism, violence and terrorism spread
Where humanism is ruthlessly crushed under foot!
People treat with fear persons dominating due to...
Power by commanding respect, wealth and money!

Both the categories of society never know the value of
Humanism that unites all people as humans by love;
Greatness of men are judged not by power of intellect,
Commanding respect, wealth or money but by love...

Humanity thrives on love, mercy, good will of heart
And all are judged by the scale of love one practices;
Governed by love human society can live with hope
And achieve satisfaction and peace in world life ever!

Governance by the force of fear is animal in nature;
That is necessary in the forest to bring order for good!
But one can be a great leader who governs people by
Love to bring order, peace and prosperity to people...

Ramesh T A
Love In The World!

Love between suitable souls are rare in world life!
Even if love blooms between two soul mates success of
Its fulfilment seems to be in oblivion as in tragic plays ever!

Agony of failure in love is too much to bear due to
Attachment of love in life cannot be changed forever!
Non-attached love is spiritually high as it's universal in nature!

Love and wisdom make life blissful and free to live in the world!
It is only fortune that brings two souls of true love together
And makes life a complete story of joy to live well ever!

Beauty and sensuous love are rare indeed for anyone to enjoy!
Such a love in reality can become a romantic poetry as in dream!
Where can such a life one can see if love life happens so in reality?

Love in life is rare as precious material or treasure hidden unknown to all;
Finding that treasure of love is the utmost quest of all ever in world life!

Ramesh T A
Love Is A Boon Of Life!

Sans love, even if there's much wealth, life is worthless
To live in this world full of happiness and sorrow ever!
Love enjoyed, enjoying and enjoy forever is the guiding
Torch light in the dark forest tunnel leading to light!

In business, both profit and loss are common in the world;
So also, in world life, both birth and death are eternal!
Because there loss in business, business doesn't stop;
So also, because there's death in life, life doesn't stop!

Profit or loss and birth or death, business of life goes on
By the spell of love that inspires all to live life to the
Full keeping in mind the joys enjoyed by love with pleasure
As the source for all joys one accrues to one's life ever!

Life lived in love and life being lived with love ever is
The boon one has enjoyed, is enjoying and will enjoy ever!

Ramesh T A
Love Is A Greatest Panacea!

Love is divine as love cherishes top most human relationship;
Like a mystic in communion with Nature enjoys bliss unique,
Like the lover in union with loved one enjoys great pleasure
Love only gives highest joy, pleasure and satisfaction in life!

Love and beauty memorize the loved ones attached to lover
that helps peace and bliss ever enjoyable in world life as
In heaven we all dream to enjoy when not able to have love
Within the reach due misfortune in world life full of pains!

For a soul starving for love to console one's heart ever,
Love from any unknown being is surely a greatest blessing in
Disguise in the human world that one has an opportunity only
In the poetic World at last as great asylum one can have sure!

Words of love from poets are really panacea to overcome the
Pain one suffers due to lack of love one has by fate in life!

Ramesh T A
Love Is A Heavenly Boon Sure!

Kiss is to show love in action by one to another one ever; Kissing by embracing the beloved is an act of intimate love; By this kind of love, one enjoys heavenly pleasure on Earth; That makes one forget all problems and powerful to solve all!

Love is a greatest boon man has in this world to do anything; Love in action brings joy to the beloved against all odds and One is endowed with confidence, courage and perseverance to Deal with all sorts of miseries, pangs and problems damn sure!

Even in loneliness, the thoughts of love enjoyed gives great Relief and rejuvenates one's spirit, enthuses heart and clears All thoughts of mind to do better things to change worst scene To best scene in one's life thwarting all pitfalls to progress!

Love is indeed a heavenly boon no one can avoid or live sans it, If one has to do best and beautiful things to benefit all ever!

Ramesh T A
Love Is A Matter Of Dreams!

If marriages are made in heaven, are divorces decided in hell? 
Love or arranged marriages in the materialistic world do not 
Go on love between couples but based on money, jewels, property! 
As long as comforts of wealth are there, couples live together!

That's all and after that, love ends in divorce for next marriage; 
This kind of artificial or materialistic kind of love is in vogue 
In the modern world making love a matter of fun just like sex all 
Know and many indulge in latter instead of former for convenience!

If love blooms naturally and married life continues long, it is 
Due to genuine and real love between two souls made for each other; 
That kind of natural love is rare and is possible only in romantic 
Stories of movies, novels of classical and romantic periods only...!

Love has become a matter of literature and dreams only as all are 
Involved in economic pursuits at the cost of quality social life!

Ramesh T A
Love Is A Miracle!

Love makes one stronger and never weaker in world life ever;
Love is greatest support without any condition or expectation;
But love is a matter of imagination or dream world for many as
Real love is rare to find in this selfish fast materiel world sure..

Feeling like speaking kind words, helping and protecting one
Willingly as if one's own someone unknown are all acts of love
Kindled by the desire of heart sans thinking about anything and
Least bothered of consequences good or bad unmindful of all!

When friendship itself becomes unreliable at the critical moment,
How one can feel love towards unknown one is indeed a miracle!
The sudden love at first sight is a matter of heart and never mind
Says best romantic literary pieces of the world making all wonder!

Love is really a miracle and wonder happening in the life of one
As if ordained by the will of God perhaps one has to presume…!

Ramesh T A
Love Is A Natural Act Of Heart Sans Friction!

Only love brings closer two loving persons in world life;
No formalities have to be followed, when both are in love;
After moving together long, no one can blame either one
Has behaved badly later, if split takes place between them!

If such a thing happens, then there love has not rooted
At all between two persons, but just a pastime company has
Been followed by them believing to be both are in love then;
Love is for sharing both benefit and loss throughout lifetime!

If such sort of relationship has not been developed means
They have not even started the spade work in love to build
Foundation before constructing a beautiful palace to love
Against all storms or seen any southern breeze in summer!

Many believing to be in love, start relationship sans meaning;
When relationship breaks, they blame each other for all faults!
Love is a natural act of heart that has no friction but only
Pacification to flourish love as a well constructed palace!

In that palace, only they two have the place to live in love
With the foundation laid by both with whole-hearted approval;
Sans such an agreement by their hearts, foundation of love
Can't have been laid to build pleasure palace to enjoy love!

Ramesh T A
Love Is A Unique Act!

People judge one not by words but by acts of others;
Love cannot be expressed just by saying 'I love you, '
But by acts of love through kind words, help and all
Usefulness both in private and also in public life ever!

Love is a natural and voluntary act out of one's concern
For the loved being whether one reveals it or not to one!
Selfless act of emotion humans have is unique to know
And cherish ever for the healthy human relations in life!

Each one's love is one of a kind act never can be copied
Or imitated by any means if it is a real one that lasts ever!
Love starts direct from the depth of heart like a beautiful
Poem the poet spontaneously expresses in words sure....!

Like painting, music, poetry and art, love is a unique act
Only the one who loves by heart can express it better ever!

Ramesh T A
Love Is All In All!

Love never sees one as high or low, aged or young;
Love equalizes all as the same and moves as equals;
Love voluntarily hugs and kisses sans any distinction;
Love can be reciprocated only with love whoever one is;
Love only gives full freedom to anyone in this world;
Love never betrays and disappoints one in life sure...;
Love transcends all barriers of religion, class, status, etc.;
Love never sees profit and loss in relationship with all;
Love gives anything without expecting anything in return;
Love moves closer than friends do and satisfies one long;
Love is heavenly with the beloved one whatever be the time;
Love gives comfort, pleasure, joy, peace and zealous mood;
Love gives solace, inspiration, encouragement as none can;
Love is more than friend, philosopher and guide in life ever!

Ramesh T A
Love Is All Powerful Ever!

They say love is God and also love is blind!
The all pervading invisible God is a spirit;
That is why God cannot be seen by eyes
And also, cannot be realized by reason or
Also, felt by heart but only by intuition sure!

Like God love is invisible, cannot be realized
By reason but only felt by the heart ever...!

There is nothing fair or foul both in war or love!
Love is a free state of feeling that cannot be ever
Controlled by any man made laws or force as
In the war no reason or laws are followed to win
And the victorious ones have all rights to deal with
The victims as they please after the war in the world!
Hence love is the greatest force as the almighty God!

Ramesh T A
Love Is All!

Love is bright
Because it is truth
That lights all!

Love is cheer
Because it is natural joy
That makes all happy!

Love is beauty
Because it is natural ever
That never covers anything!

Love is power
Because it is selfless ever
That sways all selfish ones!

Love is peace
Because it hides nothing ever
That makes all believe!

Ramesh T A
Love is the only feeling beautiful and true
That never changes by the passage of time!
All other things change and never treat one
In the same way as love does to one ever..!

This beauty (love) is truth, this truth (love)
Is beauty and this is all one should know
In this world and nothing else one is need
To know ever to live true to oneself and all!

The loving souls are the real angels in the
Human form one comes across in the world
In the long or short journey of one's life sure
And that is the crystal clear picture of heart!

Words of love from the heart are the truth
That remain long in mind to guide all ever!

Ramesh T A
Love Is Divine!

Long hours of sleep in the night mark winter!
Beautiful scenes of Nature, romance and love
Keep the mind occupied all day long to dreams!
A leisurely romantic heart kindles ideas of love.

Waiting for my love I dream several things.....;
Love is a waiting business all lovers never mind.
When all hope comes to an end, love begins its
Account with song, music and dance in joy.....!

All things romantic are ever in adventure sure
Chasing after love testing one's patience much
As if a devotee with great devotion prays before
Almighty who condescends finally to save him!

Why is this so happening to ardent lover ever?
Love is divine forever and only true one enjoys!

Ramesh T A
Love Is Ever Great!

Is it by instinct or intuition
One falls in love with another one?
For, they say love is blind as
The lovers seem to be unsuitable!

Lovers go by their hearts and never
By their minds in world life sure;
So, lovers are madly in love with
Each other, they say in public life!

Love is as mysterious as our life
We are living in the world forever;
Mist or mystery, it is due to love
Only, we are all born and live here!

Love is selfless addiction for the
Loved one whatever be one's status!
That is why, love is ever great in
The world, of all virtues, for sure!

Ramesh T A
Love Is Everything In Human World!

Is love a secret matter to practise in privacy only in life?
Love is true, open and frank in any matter in the world ever;
Free, frank and fearless love is in thoughts, words and deeds!

Love never sees danger due to its openness needing protection;
But love never bothers about danger due to its boldness, courage;
Companion in love is true friend who fights against all to save it!

Due to truthfulness, lover never hides and fears unlike cowards;
Love only has the magic to turn a coward into a brave human sure;
Due to confidence and courage love achieves all by determination!

Sans love, nothing can be learnt, no art is fostered and peace made;
Love is the beginning for knowledge, talent and creative works sure;
Sans love, no great achievements are made to amuse and guide all ever!

As love is the creator and saviour of all in human world, love is God;
Love is world's most power, love is work's most light and justice sure!

Ramesh T A
Love Is God!

Love is the breath of life that survives all beings;
Of all virtues, love is the greatest and noblest
Emotional feeling that perpetuates all living beings
In the human world as the Universal being sustains all!

Love only unites two soulmates to create a new being
With flesh, bone and blood in the human form forever;
Creativity of humans by love is the aspect derived from
The Almighty who lives as Universal spiritual energy!

The divine being present in all things of Nature ever
Activates all benefiting all beings by His bounty to
Show His love by philanthropy by offering food crops,
Vegetables, fruits and flowers reminding idea of love!

Sans love nothing is created and sustained not only in
The world by humans and all, but also in the whole vast
Universe by the Universal God revealing the eternal truth
That Love is God sans any doubt and remains as open secret!

Ramesh T A
Love Is Greatest Ever!

Power of love is greatest in the whole world!  
With a single kiss, love makes one an addict  
Forever going after the beloved against odds!  

Spell of love works as magic to make one do  
All kinds of things for love making all noting  
Except love only in the world of men ever....!

This magic of love is real power in human world  
That makes the world go round and round ever  
Appreciating love against all oppositions in life!  

Love only has the power to make even a meek  
And dull head become a hero to do miracles  
Powered by love functioning as an ambrosia!  

The all powerful love has nothing to replace it  
And all things are matchless before love ever!  

Ramesh T A
Love Is Incredible Ever In Life!

All love starts at first sight only, but it's confirmed after sometime;  
Best thing for love to survive and fructify into lifelong success takes time;  
Continuous meeting by chances only lovers get opportunity to chat and confirm love!

Daring thing is to decide and confirm love to live so forever sans change later;  
Everyone who goes by love cannot say immediately one's consent, but mutual consent  
Full confirmation is really possible to go ahead in life so against all odds ever!

Good many people welcome love, but reality of life is such that none says it openly;  
Honesty and truthfulness are essential to be sincere in one's love to say and live so;  
Iron will is necessary to love from first to last in life against all obstacles sure!

Joint cooperation of lovers are very important to take action and be so together ever;  
Killing them to maintain honour of society is animal like approach as love is not bad;  
Love is divine and true emotional feeling of humans that is harmless to anyone sure!

Many a dream of romantic love is hardly possible in reality but only in dreams ever;  
Nevertheless, romance and love of one's heart never dies and sustains life long so...;  
Openly declaring love may be hard to do, but love lingers between lovers in secret!

Personal touch love can provide for anything and everything in the human world ever;  
Quite a trying thing love is enteasing one with imaginations always going wild nonstop;  
Romance is immortal in human affairs leading to fruition of love, but when can't be said!

Some have hard heart to indulge in such sorts of romance like a hard nut or rock to crack;
That kind of status too love makes upside down like the rare flower blooming on rocks....;
Union of opposing types of guys and girls fall in love suddenly so in life as in cinema..!

Voluntary participation in romantic affair only can lead to love and fruition in life ever;
Ways of life are such that when two hearts meet and get united in love is a big question as
X and Y are supposed to solve a problem in mathematics applying some formula to cook answer!

Years of hidden love between two hearts waits for apt opportunity to reveal with time going fast
Zeroing to the central point of love praying to Cupid to strike arrows between hearts one day!

Ramesh T A
Love Is Miracle!

Love is what all long for to feel peace
As love is divine like, if we feel and
Share with humans like fire that spreads
Immediately, when it touches one soft...!

Love gives brightness and strength to
Heart, if we feel its all embracing
Comfort nothing in the world can ever
Provide to one in need in life crises!

The warmth of love fire comforts one
When shivering by the biting winter
Cold chilling flesh and bone ruthless
And its breeze is spring in summer...!

The hot and cool power of love gives
Divine comfort in human form as miracle!

Ramesh T A
Love Is Not Free!

Free love is what heart longs for forever in life;
Can we have that freedom to enjoy love so ever here?
Is it possible to fall in love not knowing one ever
But accepting what heart only says to fall in love?

Believing in others is a big matter to discuss ever;
Only when we believe in ourselves first, we can do
That in others and then only in God say philosophers!
So, only when we love ourselves, we can love others!

Good nature, attractive personality and loving heart
If one possesses, anyone will love one in this world;
Unless one becomes so naturally in reality, how can
One expect love from others to satisfy one's heart..?

Love is a precious and rare treasure one can have in
This world and is why love is not free to have easily!

Ramesh T A
Love Is Painful Pleasure!

Though live far off, we are together by love ever....;
Union of hearts sings of love joy in songs melodious
Writing love poems quite romantic cheering hearts!

When love is our asset in life nothing can shake us,
Though many problems may stir us now and then
Because nothing is greater than love in life we live!

She is patient as earth bearing all drought much
As her faith in love of sky for her will never go false
And at the last moment with rain sky saves her ever!

This ever lasting love between earth and sky is ours
Broad as vast sky and deep as blue ocean forever....
Cooperating with each other in both pleasure and pain!

Both in joy and sorrow lovers of this rare kind never
Lose heart as they know well love is painful pleasure!

Ramesh T A
Love Is Same!

Invitations we are sending;  
Greetings we are receiving.  
All friends we are inviting;  
Many bless in the function.

Party goes on pretty well;  
People praise and talk high!  
Life, love and joy continue;  
Dreams come true soon!

Achievements are made;  
Name and fame come soon!  
Wealth and power place high;  
Special status comes soon!

People meet with awe then;  
But loving souls move same way!

Ramesh T A
Love Is Supreme Ever!

For everything, conference has become a common thing;
Like business people, all come and go attending conference;
Economic world should become social world in the world
To make human value superior than money value in all!

Anything that adds value to anything is superior in the world;
Currency note, when banned, becomes a mere worthless paper
Big property, when smashed by storm, one becomes a pauper;
But love that has earned all hearts, makes one rich even in storms!

Money may make many miracles, but can't buy love and soul;
What's not possible by ordinary ones, is possible by talented one;
What's not possible by talented one, is possible by genius ever; but
What's not possible by genius, is possible only by God, the Supreme!

Supreme God too becomes one with love, for, only love is supreme....;
Can value of money or wealth or extraordinary power be equal to love?

Ramesh T A
Love Is Supreme In The World!

Greatest achievements are made possible by love
And is why love can be called as supreme power
In the world not only in the past but also now!

The invading brutes of Islamic powers might have
Conquered India, but the lovely reception of Indian
Culture had tamed them to create monument for love!

Taj Mahal is the symbol of love and the greatest
Wonder of the world was built by Islamic king of the
Past in India though they are brutes in the world..!

Mahatma Gandhi got freedom for India by the means of
Love such as truth and nonviolence by his famous non-
Cooperation movement against British colonial power!

Biggest and greatest achievements are accomplished by
The means of love as love is supreme in the world sure!

Ramesh T A
Love Is The Alchemy!

Uniting people of a nation following heterogeneous culture
Indeed is an impossible work possible only by a rare, great
Charismatic leader like Gandhi, who followed the means of
Nonviolence, a form of love to get independence for India!

Love is a kind of alchemy that only can turn even a baser
Metal into gold all are eager to grab if offered in public;
Such a feat only a mahatma like Gandhi can do in the world
Feel many a charismatic leader in the world even today sure!

Even for melting a stone of heart into nectar, a divine
Personality like Buddha or Jesus or Gandhi is needed in the
World as they only have the heart, mind and soul dedicated
And devoted to sway all by love that we all have to learn!

Total dedication and sense of sacrifice to the extent of
Do or die kind of resolution is needed to do great feat of
Common cause to unite and take all people to the route to
Achieve greatest benefit reasonable and justified by love!

Ramesh T A
Love Is The Base For All!

Is it beauty that kindles love in others?
Is it love that kindles beauty in others?
Is there love, where freedom is for all?
Is there freedom, where love is free ever?

Freedom is where love and beauty are free;
Love and beauty are free, where freedom is!
Beauty needs protection, even if freedom is;
But love is free as it is nothing to fear!

Beauty that kindles desire needs protection;
But love is true and strong being smart ever!
What is not possible by force or fear, love can;
Hence love is the greatest power in world life!

For beauty and freedom to flourish anywhere,
Love is the basic necessity that kindles all!

Ramesh T A
Love Is The Crowning Piece Of Nature!

Ultimately what does matter in this world?
Other than love what else could it be.....?
Without love where is life in this world?

Love is giving but not taking from others!
If you have this great sense you have the key
That opens the heart of all in this world!

With the key of love you can steal all hearts!
Loving soul is loved by all souls in the world!
God is the greatest lover of the Universe!

Life is short but art is long as it is love only!
All creations of Art are the out come of love;
God has created Nature so out of love only!

That too flower is the crowning piece of Nature;
For, flower blooms forever to remind love to all!

Ramesh T A
Love is the ever green theme of sweet romantic life
All wish to live in the world beyond all time here!
The loving kiss is more than any gold or diamond one
May have one's disposal as nothing can buy love ever!

Love is the natural feeling that blooms between two
Souls of attractive beauty like the two clouds of
Hydrogen and oxygen dashingly embrace with lightning
And thunder to produce rain of fulfilment in love!

How love starts, proceeds and fulfils itself in union
Between two souls of naturally loving humans who have
Not known earlier but only by chance on their way to
Mind their professional occupation come in contact..!

The nature of infection of love between two attractive
Souls is a great mystery yet to be unearthed by humans!

Ramesh T A
Love Is The Power Of Nature!

Nature has created congenial atmosphere for love and life
To flourish in the human world we are all partners forever;
Nature has created beauty to attract each other for the
Perpetuation of life and love to go on forever and ever..!

Man made laws, religions and social conventions, Nature
Never sees and goes on for love to bloom between hearts
That transcends all nations, regions, races, colours,
Creeds, classes, cultures and civilizations everywhere!

Against all restrictions and taboos, love survives to
Sustain itself as a broad and tall tree that gives shelter
To all living beings solacing with shade in Summer, satisfies
Hunger with fruits and cheers up mood with flowers forever!

Love is the power of Nature that embraces all in its sway
To make all survive, sustain and succeed in the world ever!

Ramesh T A
Love Is The Source And Cause For Creation And Salvation!

God has created man in His image, they say;
But man has created God in his image with
Best beauty and all to perfection as attribute
To God to be a model for man to be and reach Him!

God out of love has created man with heart, mind
And soul to live in harmony with Nature to see,
Enjoy its beauty and create best and beautiful
Things using his power as his gratitude to God!

So, love is the source for all creations by God
In the Universe and love only can be the cause
And source for man to be creative in arts, science,
Poetry and life to cherish and flourish love ever!

Love is the divine force that unites all as a
Panacea that cures all illnesses to feel free
And prepares all to shed all evil feelings to be
Pure in heart, mind and soul to be eternally free!

Ramesh T A
Love Is The Source Of Life!

I like beauty because it kindles love;
Love inspires interest in life to live...
Long to do beautiful things we cherish
Most in heart for the loved ones ever!

Love gives great hope and desire to
Dream best things and do better than
Before in all matters of world we like
To create out of love for great satisfaction!

Love only gives happiness and satisfaction
Nothing can give in this world of hurry
That made all machines to work under the
Diktat of time as in a great race sans an end!

Far from this madding crowd love only can
Give all joy and satisfaction in life forever...!
The things of beauty created out of love only
Cherishes and flourishes love, a source of life!

Ramesh T A
Love Is True!

Decision making is a difficult process;  
Foolish persons never give good clues;  
But love is never betraying one ever.  
So, I judge, of all things, only by love!

It's love that bridges gap though long!  
I have missed many loving persons;  
But the love is ever the same to unite  
Even after longest gap ever in life...!

Love is beyond all considerations in life;  
Love transcends all taboos in the world;  
Love is unique to keep souls united ever;  
Love is eternal though life is short for all!

I never mistrust loving souls ever in life;  
For, love only helps me to see truth sure!

Ramesh T A
Love Kisses!

Countless love kisses

Suffocate at times when least expected

But can’t help it.....!

Ramesh T A
Love Life!

Support of love makes life going
Smooth even on rough ground!
What a magic love has in store
To keep life livable in this world!

Love of knowledge, beauty, truth,
Love of love, Nature, life, world,
Love of ocean, Universe, spirit
Keep life an adventure to explore!

Knowledge known out of all ideas,
Stories, philosophies and poems
Out of love poet reveals to world
Exploring human, Nature and life!

Sans love nothing is known to all
As out of love we are all born here!
Love rules mankind in the world
Rough or tough or soft or sweet!

Ramesh T A
Love Makes Miracles Nil!

Love against all opposition is amazing to have
When one is in a critical moment in life sure;
Trust based on true love makes one stronger
Than one looks to be to surmount biggest hurdles!

Earning love more then wealth makes one ever
Hopeful of doing anything risky thing in life
To do great achievements looking like miracle
To others not capable of understanding love!

Due to love only all are functioning everywhere
Making great feats in all fields that are not
Otherwise possible in the material world full of
Doubts about good things rather than bad things!

Love is only, of all things, a divine power in
The hands of human being that makes miracles nil!

Ramesh T A
Love Needs A Good Heart!

There is no chance to love or to be loved in this world;
For, with fear all see others for reliability or integrity...;
How can we believe and love strangers unknown to us?

If one really loves one, one will be fooled and robbed of all!
In this world of wants and needs, one cannot love to lose all;
Unless one is ready to forego all and live, one may love all!

In such a situation no one seems to be placed in this world;
Always worrying about economy at the cost of society ever
The world goes on with no chance of human sense to love!

Love is more than friendship in any relationship relying on one
Against all odds and situations in world life till the end of time,
Which is quite a rare thing to find in this uncertain world ever!

Only when one is economically, socially and culturally free, one
May love others, if and only if such a one has very good heart!

Ramesh T A
Love Never Attains Old Age!

Almost all lovers never show their love openly in the society;
Before the eyes of public, they never show themselves even as friends;
Culture of West never cares for others, but Asian one cares for society!

Directly also, one hesitates to say of one's love to the loved one;
Ever keeping in heart one longs and waits for opportunity to say it;
Fear keeps one shut one's mouth, unless the other one moves free for it!

Great lovers of history and literature fought for it heroically till end;
Heart feelings of high love are expressed only in poems kindling love in all;
Iconic lovers only openly love before all risking life to live bravely ever!

Joy or sorrow, lovers never show to each other unless realized openly;
Kinds of love feeling are expressions of human emotion quite high ever;
Love blooms unknown to lovers and unite them against all controls sure!

Mankind could have vanished, unless love has had sustained hearts to flourish;
Never love leaves good hearts in despair and sustains lovers to leave legacy;
Open love between lovers begins as romance before becomes reality by union!

Public should encourage open love between genuine lovers to highlight humanness;
Quixotic taboos, conventions and controls make love ever a secret matter in life;
Really, love is not an illegal affair, but a highest emotional expression of man!

Slow and steady state of love sustains and succeeds any couple in life long...
True love is good, great and strong capable of lasting forever against all seasons;

Universally, there is no one ever opposed to love of heart despite controls of culture!

vagaries of life are well shielded and sustains only by love of heart of dear ones;
World of woes, difficulties are made null and void only by encouragements of love ever;
X and Y are nothing, unless love has enhanced their status by its power of sweet hearts!

Years of loving hearts have never seen superannuation due to love's zeal serving as boon;
Zeal of love never grows old, though human anatomy attains superannuation by time passage!

Ramesh T A
Love Never Disappears In Dreams!

Magnetic beauty of love attracts even a rigid iron man too
Like a smiling beauty of flower that attracts high flying bee!
Even if one resists love's magnetism, love's scent never leaves
Anyone sans falling in its embrace and kiss sometime or other!

Once caught by the spell of love's scent, one will fall on the lips
Of flower to enjoy sweet honey of kisses even heaven can't give!
This is the romantic nature of love Nature is ever full of all over the
World preaching the religion of love since the beginning of life..!

Life cannot flourish with interest and fun ever sans love sure and
Sans love, you and I cannot have been born in this world at all...!
Beauty of attractive romantic love how can anyone overcome ever
As long as this flower world is there in the vast Universe wonderful?

Even if one is unfortunate to be successful in love, romantic love can
Never disappear from dreams that keep alive love for next chance..!

Ramesh T A
Love Never Seems To Be Out Of Fashion!

For risk-less, ideal life, culture is the best way to follow, it's believed; 
Love between lad and lady is believed to be immoral in life before marriage; 
So, love based on kindness, affection, gentleness and morality is struck down 
As it is believed to be unreliable and prone to lust leading to misery in life!

The chance for love to play a main role in life is out of place in the society; 
Love becomes a secret matter between understanding and courageous ones in world; 
If the lovers happen to be in opposite camps due to enmity between two groups, 
Their love affair ending in marriage becomes an impossible matter to pursue ever!

From the 16th century Romeo and Juliet time to modern time the same thing continues; 
But, for the fortunate lovers, everything happens as in romantic As You Like It Story leading to happy ending as in a comedy play well liked and enjoyed by all ever; 
But both comedy and tragedy are common in love life stories of many in the world!

Despite good and bad aspects of love affairs, love never seems to be out of fashion 
Whether it is in the classical time or romantic time or in the modern time damn sure!

Ramesh T A
Love Of Beauty Leads To Perfection For Satisfaction!

Lover of beauty has too much interest in art and Nature
As they inspire enthusiasm to indulge in inventive and
creative activities to achieve remarkable things of value!

Creative and inventive works require real talent or genius
With relevant knowledge of all things and love to use such
Best things in them to achieve a sort of perfection sure..!

Culture itself is knowing and thinking about best things of the
Past relevant today and forever to express them in their works
To pass them on to dear ones and posterity by improvisation..!

Art work, poetry and technological inventions are done out of
Natural love or interest and so, they cannot be taught by anyone
But should spontaneously come out from one through skill natural!

It is like the difference between behaviour and pretension that can
Take place by real love to produce beauty by expression of truth..!

Ramesh T A
Love Of Beauty!

Why is beauty there in the world? 
Really beauty kindles love forever! 
Beauty of flower attracts beetle, a 
Symbol of love by beauty, fragrance 
And honey that woos one to love..!

Kiss of honey intoxicates lover to 
Dance to the tune of beauty ever 
In love endless as long as the spell 
Of beauty attracts the lover long to 
Do all for love in the journey of life!

Beauty is truth that kindles love to 
Bring joy between two hearts to... 
Live life in freedom enjoying sweet 
Honey of kiss in peaceful bliss ever!

Ramesh T A
Love Of God!

Love knows no words from the mind ever;
Love knows only words from the heart sure!
That's why greatness of a person lies not ever
In the head but only in the heart in humanity!

According to philosophy truth is ever God;
But according to religion love is ever God!
Philosophy or religion, divine spirit is ever
Present in Nature as all pervading spirit...!

Beauty of all things in Nature reflects beauty of God;
All music we hear in Nature reflects the voice of God;
All these manifestations of Nature are expressions of love
God has lovingly exhibited by the creativity of heart!

There is love, beauty, truth and ever lasting spirit in
Nature reflecting God's presence we see everywhere!

Ramesh T A
Love Of Heart!

How love begins between two lovers is ever a great mystery in the world!
Love is a matter of the heart and never of the mind all believe sure ever;
Love begins at first sight according to Shakespeare and is famous ever!

Love has the power to change the status of anyone once caught by it spell;
The sacrifices the lovers take to fulfil their dream of love is well a big story
All love to read, see, know and understand the greatness of love indeed!

But in reality love is not that easy to fall in it and fulfil the dream one has;
For, love is different from liking as per the view of Lord Buddha know!
Like is like plucking a flower, but love is watering the plant to grow flower!

Right or wrong, love is commitment like the marriage being made for youths;
Marriages may end in divorces too, but lovers live lifelong together or
Die for each other's happiness till the end of world life they live short or long!

Love of heart is emotional feeling of human beings that never decides
Based on thoughts, but by deep liking of heart more than friendship!

Ramesh T A
Love Of Limited Knowledge Of Interest!

Decisions taken based on limited one-sided knowledge
Of the inexperienced aged people cannot stand for long
Due to its partiality of love towards some pet matters
They cannot believe as false or unsuitable for all ever!

Due to respect to aged people, immediately no one can
Oppose the decisions, but sooner or later, indirectly
Their decisions are reversed by the majority approval
And this kind of rendering justice to matter is in vogue!

Though some may love certain things sans any change and
scrutiny, truth based on over all knowledge of matters
Will prevail to make the social machinery run for the
Better of all to have easy way to deal and settle matters!

Experience alone based on the love of limited knowledge
Of one's own interest need not be right before erudition
As little learning is dangerous in life and work that
Will degrade one's hard earned respect and reputation!

Ramesh T A
Love Of Mother, The Source For Everything!

Mother is the personification for love ever
As father is personification for knowledge!
Mother's love is the source for everything
In the world we all live in the Universe...!

Due to this truth it can be surely said that
Mother is the first known God in the world!
To honour her it can be said that we call our
Nation as Mother Land in the whole world!

Not only that, Nature that gives us light, air,
Food and all we call it as Mother Nature sure!
It is all due to Nature's love we all live long and
So, it's true to say that divine spirit is within her!

Mother, nation, world and all are parts of Nature
And whose love is what making us do all ever...!

Ramesh T A
Love Of One Soul In Two Bodies!

Love scent is uniquely alive in heart ever
Though days, months and years pass on
In distant places with no hope of return
Turning all tender things in oblivion sure!

Days of yore can anyone forget of this
Immortal love ever smelling like rose
With fragrance distinct from all others
Whatever be the day or night in life...?

If fortune brings together such a time
As was well enjoyed with no thoughts of
Separation and departure to distant shore,
A point of no return, it will be a miracle...!

Miracles are nothing before love eternal
That lives with one soul in two bodies...!

Ramesh T A
Love Of The Almighty!

Love of the Almighty!

The cool, beautiful sunset reminds me of the Almighty's love of beauty sure; The Almighty activates all things in the Universe as Universal Spiritual energy; The summer sunset is so bright that whether it's sunset or sunrise, know not!

The infinite dimensions of the creator, preserver and destroyer are unique; The love of beauty by the Almighty is clearly revealed by Nature and beings; What an interest the Supreme Being displays by all His creations ever!

None can even imitate let alone excelling Him ever by all man's advancements; The care, perfection and the precise timing in doings things He only can do; However man is aiming for perfection in all his excellent works, he is nowhere near Him!

Himalayan grandeur and beauty only He can create to put all in spell bound status; Such an awe inspiring feat only He has the capacity to perform excelling man And inspiring, kindling and urging man as challenge to do the best he can ever!

In all things, He is the model and the instigator to man however grand he attempts; It is all due the Almighty's limitless love of beauty in doing all things in the vast Universe!

Ramesh T A
Love Only Builds Good Atmosphere For Life!

Where there's love, one can find fun, joy and laughter in life;
There only one can see little squirrels making high pitch sweet
Sound and run one after the other as children play everywhere!

Not only squirrels, but also crows sit in silence to receive
The food as obedient pupils do in the schools anywhere sure
Sans irritating with their usual sound that annoy many here..!

Both crows and squirrels are children who come for food ever;
Satisfied with the amount of food, they run and fly in joy
Making all here happy and feel satisfied by their good gesture!

House without children is like many praising guitar music is nice
Or melody of piano is wonderful witnessing the mouth-less souls
Like Crows and squirrels who cannot speak to say what they want!

Children are the outcome of love in a house family life is what
Considered to be a good life not knowing that love makes all good!

Ramesh T A
Love Only By Luck!

Love Only by Luck!

Game of life sans love is useless to play;
But true love one has to enjoy with fun,
Which is beyond everyone's reach now
In this fast moving world of no pause!

Romantic love is possible only in dreams,
Stories in novels and movies we all see..!
But in real life all those romance and love
No one can even imagine or feel in heart!

Mechanically living a life of schedule, all
Find no chance to even think about love
Happening as in romantic novels of yore
That are rare to find nowadays of tension!

Love at home beginning well one can see
Love elsewhere too depending upon luck!

Ramesh T A
Love Only Can Open Any Lock!

All things go on in the world only for and by love;
Better things are achieved mainly by love influence;
Care, concern and consideration take place by love;
Delight of doing even difficult thing is for love!

Everyone in the world survives for the sake of love;
Force of fear has nothing to do with boldness of love;
Good, great and glorious matters take place by love;
High, hilarious and humble natures are due to love only!

Ice heart or iconic being, all melt down by love appeal;
Joy and sorrow of life are well balanced only by love;
Keeper, maker and breaker of promises obey to love's call;
Life, long or short, survives, sustains and succeeds by it!

Miracles happen by love, though dodges by mirages are high;
Nobody knows source and end of Almighty but the soul of love;
One oblivious long in life, becomes bright by light of love;
Power of love is power of God in the human world forever sure!

Questions unanswerable are solved only by deep heart of love;
Regaining paradise is done by love after paradise is lost ever;
Surprise and unexpected things happen only by the force of love;
Truth hidden long comes out of darkness, when love looks for it!

Universal love is the best means to approach friend, foe and all;
Veracity prevails, where love rules the hearts of all anywhere;
World of uncertainty is managed by faith based on love of truth!

X or Y or Z one may be, but love sees all as human first and last;
Yearnings of love none can deny as who can refuse the call of love?
Zeus of all angels never goes against love however formidable foe is!

Ramesh T A
Love Only Gets Special Reception Everywhere!

All things of love for all are beauty, Nature, painting and poetry;
Best, noble and great are always seem to be aspects of natural love;
Care and concern of love continues whether it is a good or bad time;
Delightful is world life where there is all absorbing love as Nature!

Everyone and everything acts in the world for, of and by love ever;
Full support or protection one can get only from true persons of love;
Giving all, love bears all pains to see one achieves all in life;
Hunger and pain are alleviated only by true love of good souls ever;

I am always for love and judge all based on love for anything ever;
Justice in life always go in favour of love as it never does wrong;
Key to success on any matter lies in the strong love of a person sure;
Love life is a best culture one can follow to be perfect in the world!

Most of the world problems in life or politics are solved only by love;
Nothing seems to be impossible for a person of deep love on anything;
Open love of a free-minded one all respect as charismatic personality;
Persons of noble heart approach all with free love and care anywhere!

Quite satisfied with their works, loving persons live a fulfilled life;
Rising high in world life, loving persons never lose their kind nature;
Special honour and respect only good hearted ones get for their love;
True love of good persons never change by knowledge, wealth and power!

Unanimously all support the cause of loving souls ever in the world;
Very best treatment persons of love only get, if they fall ill in life;
World sustains mainly by the services of loving persons in all fields!

X and Y unknown to all, get special honour due to their loving service;
Years of their changeless loving services bring rare prizes to them;
Zealously all help, support and respect persons of true love in life!

Ramesh T A
Love Only Gives Fulfilment In Life!

Love doesn't care for position and possession of a person;
But cares only kindness, patience, mercy, goodness of heart!
Love never bothers about power, intellect and intelligence;
But likes only human sense, tolerance, helpfulness, usefulness!

Love cannot be developed by rigidity, egoism, domination ever;
But can be fostered by cooperation, coordination, coexistence!
Love can thrive where there is goodness, kindness, truthfulness;
But cannot be forced by fear, terrorism, bigotry of any kind ever!

Love lies in beauty of doing things with discipline and dedication;
But never by ugly, awkward way of doing things to see end fast!
Love of beauty, goodness and truth brings two hearts together;
But never by falsity, cruelty and arrogance bring anyone closer!

Love of beauty, Nature, art and life inspires and influences mood
Full of enthusiasm and zeal to see completion, perfection in life!

Ramesh T A
Love Only Makes World A Heaven!

Romantic love is natural attraction between two soulmates
That brings together lovers to face life with adventure
To achieve their goal of union sooner or later in joy!

Love is not that only famously know by all from romantic
Stories and in reality going on all over the world among
Youngsters since a long, long time ago in humans life..!

Affection, devotion, loyalty, friendship and all constitute
in a single term called love in the human world since long
Happening between parents and children, friends and lovers!

Only love takes humans to divine level in the relationship
Of mankind needing to be cherished to bring joy and peace
In world life whatever developments enhance civilization!

Best human culture is fostered by love romantic and real
And that only can make modern world a heavenly place to live!

Ramesh T A
Love Only!

I love loving persons in life
I see divine power in love
I cannot forget loving souls
I live for love only in the world
I judge all based on love only
I love love more than lust ever
I see loving persons always top
I find loving souls are treated high
I never care those who don’t love
I love all who love me forever
I see loving souls are friends ever
I live with loving souls high or low
I esteem high love more than anything
I love openly loving persons everywhere

Ramesh T A
Love Or Hate, Chain Of Contact Is There!

We are all bonded to each other like a long chain in life;
It is happening with all living beings in Nature forever
For the maintenance of ecology for survival and sustenance!

Attracted by beauty, affected by taste, carried away by
Affinity and attachment, romance of life goes on forever
Matured by love, the linking chain of life for all beings!

If not love, hate makes all to have contact to fight and take
Revenge and the link continues between persons somehow in
The world we are partners of the business of life damn sure!

Hate or love, Affair takes place between persons in world life
For the continuation of life business for profit and loss ever
For sometime and changing for better course by compromise too!

But without contacts and interdependence among humans, life can't
GO on forever in this good old mother Earth for her children sure!

Ramesh T A
Love Or Lust?

Is love living in reality or in poems and literature?
Or is love still alive in the material world of no time?
Business and pleasure take the lion's share in work
Motivated towards achieving goals to make profit.

Even poems are full of lust rather than love to cherish
To make mankind humane rather than animal in life.
But romance without love increases the longing of all
To lose everything one is supposed not to lose in duty.

Everything attractive in business provokes lust to lose
One's mind, money and energy in the time precious.
Mechanical life with animal heart makes life artificial
And natural life nobody knows to live and love indeed!

Intellect dominates instinct though nature controls still
Making life meaningless in the profit-loss material world!

Ramesh T A
Love Or War

In love or war
There is nothing fair or foul
As no control!

Ramesh T A
Love Passion!

Love passion is an eternal fashion of life
And without which procreation is nil....!
All things perishable are bound by rule
Nature has destined for all to follow....!

Without this passion of life nothing shines
In this flower world reminding love ever
Even when man fails to cope with hardships
And suffers endlessly in world of chaos....!

For all ills of man love is the only panacea
That compensates all drawbacks for better!
Rejuvenated by love man does all miracles
Despite many blockades persisting long....!

Love passion gives life to worn out souls
As the direct energy of Sun to flowers
That attract all by beauty of love forever
And make life liveable in the world long!

Ramesh T A
Love Pitfalls!

Loving words romantic ones spray
And many succumb to the spell!
Deceived they realise it's false
And lament in poems endless here!

Love is not an easy joke to fool all;
But some have the gift of tongue
Like the heroes of movies often
And sway the preys very easily!

Then many stores in poetic forms
All read and say comments fast!
Popularity of love poets rise high
Making others to aspire so here...!

Sans experience nothing can be done
To say words of truth touching hearts!
But with new forms and techniques
Try their best in vain for a longtime!

Who can stop the moths flying to fire
Carried away by bogus romantic heroes?
Time only can stop such pit falls for them
And bring them to this world sooner sure!

Ramesh T A
Love Remembers Ever!

Love only remembers all forever in world life
And recognizes one even after a longtime like
The faithful dog that recognizes its master ever!

So also, a mother recognizes even if she sees her
Son after a very, very long time, when he has
Grown up to an unrecognizable stature in life!

Only an intimate friend can recognize one's pal
If they meet after a long period sans seeing each
Other due to work in distant land far, far away!

Not only friend but also arch villain like foes too
Recognize one by one's acts, behaviour and talks
Not due to love but due to enmity out of jealousy!

In the Mahabharata epic, friend Krishna and foe
Sakuni know each other well and help their sides!

Ramesh T A
Love Solves All!

Sacrificing one's life for the sins of others to redeem them
Indeed is a greatest act of love only a divine being can do!
Preaching love, mercy, patience and peace for all to live
Well enjoying all good things and benefits is indeed great!

What is sin? Hurting and harming the lives of others it is!
Averting harms to others itself can redeem one from sins
And minding one's business in peace and patience is best
With a broad ambition one can do great miracle in the world!

If thoughts and acts of everyone are so, all can live life of
Heaven on the Earth forever making love and peace prevail
Everywhere and can create kingdom of God or Utopia here
For all creating beautiful and beneficial things for all ever...!

Of all things, love is all for solving all in this world of woe to attain
Greatest bliss in harmony with Nature enjoying art and culture...!

Ramesh T A
Life of love goes on like song with music;  
The song continues endless until music is!  
Even after life ends in death, memory of  
Love life ever reverberates in hearts long!

Love life is love song that resonates forever,  
Even if the music stops song after sometime.  
In memory the love song lives forever non-stop;  
For, as music, love never vanishes from heart!

As the echoing effect of voice on the mountain,  
The love song of life echoes even after death...!  
For, love is eternal as it is godlike in humanity  
Unlike any other human virtue in the world...!

Love song of life going on the tune of music has  
Echoing effect as the eternal rhythm of verse long!

Ramesh T A
Love Transcends All Barriers!

Is there any other relationship better than love?  
Or, is there any other relationship on par with love?  
The relationship before the beginning of love is there;  
That relationship we love most certainly is friendship!

Love in friendship or friendship in love is indistinguishable;  
But love transcends in relationship intimate most in life  
Nothing can substitute on any occasion in the world sure  
Among intimate souls going on a journey of life till the end!

Love between soulmates or among feathers of the same flock  
Never loses its tie whether volcano erupts or earthquake shrikes  
Or storm rages or flood inundates property or drought scorches  
As the bond among them is beyond words to fathom forever....!

Friendship has a limit but love transcends all limits in the world  
Transcending all barriers of race, religion, language and culture!

Ramesh T A
Love Web!

As lover caught

By the web of lady love

He becomes

A pray sucked by spider ever

Like Hercules became in island of virgins!

Ramesh T A
Love With Caution Is Best!

Many like competitions to win valuable prizes, to get honourarium for their feat! If they are mature minded and well developed personality, it is welcome; But there are immature minded with insensitive conscience and childish nature, Who are ruthless in their pursuit to acquire whatever they want by any means!

To discover the intention of one it's necessary to observe one's wishes; That is possible by the observation of one's words, possible thoughts and acts. The black sheep among the white ones have to be watched to overcome pitfalls; Otherwise, others mingling with them with open mind will lose all things soon!

This is the nature of the world we are living, it seems, based on our experience; It becomes necessary to say about such fellows as a warning to all to be wakeful;

Otherwise, many will be robbed of all valuables and good name too in public! Caution in moving with all is best policy to surmount hurdles that may come later!

By love we can have good relationship with all, but not with hard core elements, Who do anything to acquire what they want abusing the love they enjoy ever!

Ramesh T A
Love, Friendship And Wisdom As Heart, Mind And Soul!

Love and friendship are like heart and mind of a person
With truth as the soul of all that makes all work in unity;
Art and science are like the heart and mind of a person
With wisdom by intellect makes all work on worthy pursuits!

Unlike sensuous love of flesh or fowl or fish, true love of Heart
even if it has become aged and living like scarecrow
Or scapegoat, it protects the hard earned trust that drives
Away all unworthy and opportunistic ones for the good ever!

Unlike fanciful and time passing companions, real friend only
Knows the useless persons and pursuits and leads the ship of Friend
against all storms of ocean to the harbour of success
Benefiting not only all in friendship but also to the world..!

Love and friendship like heart and mind with wisdom as soul
lead world similar to art and science that lead to development
Of humanity decided by intellectual wisdom for peace, prosperity
And progress fostering natural life instead of mechanical life!

Ramesh T A
Love, God, Truth!

Love is true;
Love is God;
Truth is God!

Ramesh T A
Love, Joy And Pleasure In Romance!

Enjoyment of love is the main act of romance for pleasure
Among lovers all over the world as far as life is concerned;
Romance is the inspiring fact of human life all are enticed
To indulge in the young years of all for the sake of love!

This spring of natural love in heart takes place at first
Sight or chat among soul mates of like minded persons...;
Well bloomed flower of love between lovers creates beauty
Unique that touches the hearts of all and wish them well!

The joy of pleasure in loving each other days go on fast;
Union between lovers is the success confirmed by marriage;
Such a life of humans is the best to live in this world
In joy and pleasure that no wealth can buy by any means..!

Money can buy materials and all but not love that naturally
Bloom among naturally made for each other souls only ever!

Ramesh T A
Loveliness Is Where Paradise And Heaven Exist!

Act of loveliness is reflected and revealed in
the thoughts, words and deeds one does in life;
It is also reflected in the atmosphere created
By one making one's place a paradise on Earth!

Loveliness of the place is where heavenly love
Governs all beings in beautiful creative acts
That bring great joy and peace fulfilling the
Heart with bliss elevating life to divinity..

Loveliness in such a paradise making all living
Beings like humans, swans, deer, squirrels, birds,
cats and dogs live as members of one family sure
With fun, joy, gaiety and games inspiring zeal!

Interesting things quite inspiring with enthusiasm
All are involved in human loveliness making heaven
And paradise not anywhere in the Universe but only
On the Earth we are all living forever and ever...

Ramesh T A
Lovers Dream Song!

Blue Sky, white clouds and cool range of mountain
For romantic love, sure, it is a beautiful location!
Joyful song of lovers there cannot be seldom and
Lady certainly will sing, “I have given myself to you! ”

“Just even if you think of me I shall come there;
Even if you deny I shall give you love without fail;
Thousand dreams will come in love relations there;
In all your desire I shall be strewing love forever! ”

Hero will sing, “Love birds, love birds, lala, lala, la..! ”
“Even if it is a sparrow or robin or wren love is sure!
No one can live without love sure in this cool world
And in dreams and desires only love dominates ever! ”

Yesterday, today and ever Sun and Moon have come
As witnesses for the lovers dreams and delights sure!

Ramesh T A
Lovers of beauty have heart of love and goodness;
Such good hearted ones love peace, unity and joy;
They have pleasure in artistically executing things;
Their undertakings please all and all support them!

Not only artistically interested persons but also
Great ruling personalities like Cleopatra and kings
Of India of the past have done all things with beauty
For the posterity to appreciate their great works..!

Love, peace and joy are the motive behind all dreams,
Thoughts, ideas, expressions and acts of lovers of
Beauty since the time immemorial in the history of
World literature, arts and administration of humanity!

More than intellectuals giants, lovers of beauty have
Done things to make all love to live in peace forever!

Ramesh T A
In the December Wintry night, no Star is visible in the Sky,
But people wait for the Star to be born on the Christmas Day!
The Lord of Love all love all over the world since long sure
As love he has preached is immortal and all who love too be so!

There is no power eternal except love as it is the strongest
That can withstand all storms of the world and save it ever!
No political, military and religious power can do that miracle
As they all are one sided ever sans having inclusive heart of all!

Love is free as the high flying bird in the sky that only can
Ever shine as unique Star of the Universe inspiring and guiding
The weak, meek, good, honest, true and real lover of love sure
And save them forever from all miseries building strength long!

All lovers of love become Stars of Love flying free in the Sky
Cheering and encouraging all to peace, prosperity and progress!

Ramesh T A
Lovers Of Nature!

[Written in memory of Robert Alun Blackwell of South Africa]

Lovers of Nature are feathers of the same bird
That flies in zeal all over phases of Nature ever
Exploring and enjoying the bliss none can sure!

Enjoying boyish pleasure at first we play there
Plucking the leaves of grass, pulling out plants and
Playing all day long in joy children only know!

Growing up swayed by the beauty of flowers
And enjoying sweet taste of fruits we bask there
Whether it is day or noon or evening or night...!

Still growing up whether it is hard time or good one
Intellectually we find the secret behind all woes of
World in connection with Nature's silence or storms!

Mingling at last one with Nature we get dizzy rapture
That helps with bliss eternal when we finally breathe last!

By T A Ramesh

Ramesh T A
Love's Supreme Nature!

Flowers remain fresh even thrown on rain water
Stagnant wherever possible a day or two here!
Love too never changes its nature thrown down
In status of society for sometime in world life!

The beauty of Nature is joy forever at all times
For, it is created by love of the Supreme eternal!
Love by its beautiful and serene nature absorbs all
Through thick and thin in life to cherish hope bright!

Like the soothing flute music in desert or long pasture
Love moves heart and elevates mind high forever!
Soothing words of love consoles and inspires soul
To move forward and higher always to divine stardom!

The beautiful creations of love are ever supreme
Superseding all drawbacks to successes unprecedented!

Ramesh T A
Loving The Haters Too!

Forgetting all ill-wills, green-eyed monsters
And all sorts of trouble creators, we have to
Do everything possible sans anger and also
Breeding hatred to make them feel shame!

Though it's not possible to love them all, at
Least by that kind of tolerance, they can be
Made to realize their blunders and turned
Into humans to live better than before well!

All blamers and blunderers, when placed on
High pedestals, feel ashamed of their postures
And never think of criticizing the good hearts
Or creating troubles out of haughtiness ever!

This is the best way one can love even the big
Haters of society or bad elements trying to
Topple all good things of social workers for
Humanity for the welfare of all in the world!

Ramesh T A
Luck Decides All!

Constant support of followers, fans and friends only makes one great
Whether one is a poet or painter or singer or musician or leader!
Works of distinguishing personalities when capture the hearts of
All people, they become great and also, legends in their life-time!

Popularity, prosperity and Reputation of such a one happen by luck;
Sans luck no one's efforts, hard work and genuine creations never
Even see the light of the day in this world that never sees value
But only the supports of many sans knowing the facts and worth..!

Coming to the top and establishing oneself great in one's occupation
One becomes a deity, whose sanction makes one's followers too so soon!
This is the nature of the world that believes and relies on that only
For deciding about one's work as worthy one or not sans knowing the truth!

It is by luck and rare in life one becomes great by one's own efforts
In the world that believes all that glitters are gold like moth to fire!

Ramesh T A
Luck Favours The Resolute At Last!

Knowledge only can change one and the world for the better sure!
Vision of the whole helps to fix an ambition to achieve dreams;
This is so, because ambition is the driving force of life to realize
Dreams with ideas inspired by Nature and desire to the best possible!

To achieve anything in the world support of friends, interesting job
Along with sufficient funds to do anything immediately necessary
In the atmosphere of favourable govt. are very much needed sure;
And most of all, luck only can assure one's success in this venture!

Initial failures many make one pessimistic of one's act but one's dream
And ambition give renewal of one's resolution now and then sure;
That is the way to keep alive one's vigour to do anything to go ahead
On one's journey towards the point of one's target to hit bull's eye sure!

The trials and tribulations in life make one perfect in one's occupation
And that surely will bring success with full satisfaction one is in need of!

Ramesh T A
Luck Shines!

Luck shines
On those who live
According to Nature!

Ramesh T A
Luck Smiles!

Luck smiles
When all hope is lost
And dejected!

Ramesh T A
Luck!

Luck comes
Once in a while
Rare in life!

Ramesh T A
Mad Adventure In Art!

Any good artist with heart of love unites all in one world life;  
Love in works of art unites hearts by blooming love between them;  
But competition among artists shouldn't make them heartless!

Profession of any kind has tough situation to face and win  
In all competition to show one's skill or genius to the world  
For recognition and achievement of one's mark all can praise!

Some to come to the top position become arrogant and don't care all  
Whether it is family or public life digging one's own grave only  
Realizing the mistake or flaw only at last quite irredeemable sure!

Art for art's sake only will make any art useless and meaningless;  
but out of fanatical nature some indulge in mad adventure  
Winning perhaps in the beginning stages only by fluke chance!

Such jingoistic adventures of some artists bring not fame but only failure  
And disgrace to oneself and the world of art forever and ever!

Ramesh T A
Made For Each Other Poetry And Friendship!

Consistent constructive communication builds up friendship among like minded people;  
That too poetic communication of ideas brings closer distant people as intimate friends;  
The best means to any friendship in the world surely begins from portal of poetry!

Poets are the friends of world people connecting hearts more than minds forever;

Friendship of poets are real friendship the world witnesses from time immemorial to man;  
Poet friends are far above all barriers of the world and transcend all differences of all!

Even if their lives are short, their ideas, wisdom and prophecies continue to guide all;  
Their words of wisdom are eternal truths based on experience and researches minute in life;  
Their prophecies never go waste and remain in vain as neglected Books on shelves!

Poetry and friendship are made for each other that transcend all customs by love unique;  
The magic of poetry no other art has so firm and fabulous that poetry is divine sure;  
The loving words of poetry are the mantra that makes man a human and divine at the same time!

Anthology of poems of poets all over the world unites mankind to form one world,  
Where they see no colours and races as different but one and the same world family!

Ramesh T A
Made For Each Other!

Man’s life cannot become complete without
The inclusion of woman in the world life;
So, the better half should not become bitter half
If the bittersweet life should be a beautiful one!

Man and woman are made for each other
To play their roles by Nature in the world;
To know the self and for salvation one needs
Another soul as life partner till one departs life.

As flowers women are born to charm and attract men
By their beauty, kindness, care, talk and act in life.
As multicoloured flowers attract by their beauties
Men are loved by women for their valour and worth.

To know the in and out of man woman is needed
And for safety of woman man is certainly needed;
So, women woo men like birds and flowers do
And men long for their love to achieve laurels!

Hence women woo men naturally, since
They are born to woo men in the world life!
Only mutual love between man and woman
Makes life merry if they wish for married life!

Ramesh T A
Magazines Of All Kinds!

Magazines rule minds by communication of ideas
About politics, religion, cinema, sports and stories!
Magazines after paper news everyday analyze all
To comment, criticize, speculate and suggest ideas!

Magazines make or mar the images of all by ideas
That make one high or low in the eyes of the world!
Magazines in the print form and as e journals thrive
Ever on advertisements attractive and brainwashing!

Magazines are also there only for advertisements of
Sexy pornographic photos with pages of articles no
Use to anyone but for making bucks out of fancy that
Kindles and spoils the young and old by blasphemy...!

Amusement and ideas of betterment in life are the aim
Of literature but commercial magazines are for money
And for making money by false images that deceive
Heart, mind and soul by front and back poses of photos!

Ramesh T A
Magic Moments!

Magic moments

Both Sunrise and Sunset are

While transition goes on..!

Ramesh T A
Magnanimity Of Great Ones Are Misjudged Ever!

Some deities have wide reception, but great ones
Though have great philosophical significance
Not that much widely popular in the world nations;
But this does not mean that they are neglected..!

They require great understanding of their significance;
That takes much time and experience to appreciate the
Value of great deities everywhere sure in the world;
Same sort of thing happens to love too in modern time!

Literature, religion and history have a great place
For love being the greatest emotional force in the world;
Yet, in the modern material world even love loses its
significance due to its magnanimity to care nil for money!

Money is the token or pass to have any transaction of trade
Or deals after the barter system has been replaced by money;
Economic development overshadowing social development has
Driven love to the back burner and made mean ones great now!

Duplicate ones by its gorgeous cosmetic appearance make all
Apparently glittering ones as valuables and real gold or diamond
Due to lack of lustre but has actual great value unknown to
All novices who are not well versed in judging value of true ones!

Ramesh T A
Mahatma - The Living Legend!

Gandhi used Non-Violence and Truth to get freedom for India;  
He utilized fasting as Non-Cooperation means against foreigners;  
Simple living and high thinking measures made Gandhi a Mahatma!

Mahatma Gandhi is honoured in all the Currencies of India;  
Sans village development, Indian economy can't be developed;  
For, "India lives in her villages," said Gandhi long, long ago to all!

Gandhi advised to start new political parties after freedom  
For fair democratic development against corruption, casteism  
And favoritism not to thrive in all walks of life of the nation ever!

"See not, hear not and speak not Evil things" are symbolized  
Through Mahatma's Dolls of Monkey to the people forever;  
Now Gandhi smiles from above as he does in all the Currencies!

So, Education without Character, Politics without Principles  
And Freedom without Discipline cannot achieve his Dream;  
Remembering this, let us honour Mahatma following his ideals!

Ramesh T A
Mahatma Gandhi, An Icon Of The World!

All praise the champion of non-violence, Mahatma Gandhi!
Before and after the independence of India is violence still
Causing great havoc and threat to world peace everywhere!
Definitely Mahatma was a miracle man among mankind!

Even now there's no soul as true and honest as Gandhi sure;
Foreign countries praise him and open statues of him ever;
God like such souls are indeed very rare to find in the world;
High in thoughts and simple in living he lived as a lord long!

Icon of Gandhi there is yet none born in this world of man;
Kings and queens of the world loved him as great friend;
Lacking self-confidence so many have sought his model
More than anybody else to imbibe in life to live true life!

No one has yet come to the top of the world to lead all men
Openly to talk all sans any secret and save society from pitfall!
Pure as gold he was noble from the beginning to the end....;
Questions none had to find fault with him being a legend star!

Read he Bhagavad Gita, Quran and Bible to lead spiritual life;
Seldom such a strong statesman one can see then and now sure;
Truth and nonviolence were his weapons to fight against injustice;
Universal brotherhood he followed to live one among world citizens!

Various leaders have come and gone, but none is equal to him ever;
World men wonder such a soul walked on this Earth now in awe;
X man he was sure as there was and is none so to see anywhere.....!

Years of hard toil he had made many fasts to be a mahatma unique;
Zeal of his spirit had not become weak and is still leading the world!

Ramesh T A
Main Weaknesses Of Personalities!

Control of emotional feelings comes of discipline
In thoughts, words and deeds and carefulness in
Doing all things both in work and life in the world
To avoid rumours leading to unnecessary problems!

Carelessness and indiscipline make one arrogant in
Thoughts, words and deeds as if one is from a great
Royal family and others are supposed to listen him
And accept whatever one says or does in the society!

Discipline from the childhood on makes one acceptable
Whatever one says or does due to one's carefulness
And reliability creating the impression of a truthful
Personality all can support as his acts are correct!

Over confidence based on one's arrogance others fear
To face makes one careless of what one says or does
And due to no objection or opposition to one makes
One indisciplined in all one's activities to downfall!

Ramesh T A
Maintain Human Sense For Love To Survive!

Celebrations in the name of love everybody enjoys
Just as in other festivals we all come across in a year;
But the purpose of celebration all should remember
To follow it in life to spread love for world peace…!

That is most important in the world full of chaos,
Crises and wars caused by inhuman hatreds of
All kinds bottom rocking the ship of humanity
Making it difficult to steer ship on smooth waters!

For love to survive in the world human sense first
Should be flourished in all walks of life whether
It is business or education or sermons or politics
Apart from science & technology for development!

Life sustaining Nature is the source for all things
Including love man has to learn besides education
From schools and colleges all undergo from child
Stage on in the world we all live since long above all!

Ramesh T A
Maintaining Poise Is Hard!

Before we venture on our favourite occupation,
So many intruders and intrudes affect our wish!

Managing them all to a level before returning to
Our favourite work, the zeal becomes reel like
Thing losing real desire to do something worthy!

Certain times when we are much fed up in doing
Things to avoid frustrating intrudes, good thing
Also interferes to bring something good in our life!

At that time maintaining our inner poise to receive
Such good gesture seems to be not so easily coming
In our way to give a good return response to the good!

Only experienced and well cultured ones know how
To bring natural poise to one's self to meet such good
Doers on the welfare of our life in this ruthless world!

Ramesh T A
Maintaining Great Achievement Makes One Great Ever!

It is not enough making greatest achievement in the world;
It is like constructing a biggest building as the mark of one;
It is like building a world’s biggest ship to float on sea;
All things achieved have to be maintained till the end of time!

To make the greatest achievement remain in the memory of all
And to make it stand as a model to inspire all to do great thing,
One has to maintain or retain the glory by continuing with that
Kind of pursuit to do still more greatest thing to renew name!

Building or ship built in a grand fashion has to be maintained
By proper maintenance now and then to make build free from cracks
And to maintain ship with proper rust coating now and then so that
The ship won't get rusted and sunk into the deep sea forever sure!

It is not enough to create one great masterpiece in literature;
Next and next, such great masterpieces have to be created to get
One's mark remain with brilliant lustre without diminishing in the
Least like the great poets' poetic masterpieces in world literature!

Ramesh T A
Make Democracy Not A Farce!

Over estimation, under estimation and exact estimation
Of each and everyone shows the assessment ability of each!
From that reliability over one or lack of confidence on
One is made possible in simple life matter and on polling!

Failure of democracy is due to lack of proper assessment
Of people before voting for the suitable candidates to
Power to rule them for many years sans any change leading
To frustration and wrath of them to oust them out earliest!

Policy, promise and ability of each and every political party
Need to be properly assessed before people go to polling booth
To vote for proper candidates who can govern the nation or state
Properly for a term of some years in any country in the world!

Without this knowledge, it is useless to vote in the election
And bring useless persons to power to make democracy a farce!

Ramesh T A
Make Life Meaningful By Suitable Ambition!

Ambition is a must for everyone to live interesting life in the world; Based on knowledge and vision, one should have an ambition to progress Carefully knowing Self, world, Nature and Universe and visualizing all Directly linking one to society, nation and world to know one's duty!

Everyone sans having such a whole vision, ambition and duty are dark; Fully unaware of all those things clear, one will be in confusion Going on a meaningless journey of life sans any idea of destination; Highly ever in anxiety and excitement, one will be living in fear ever!

Interestless life will lead one to destitution and despair drowning in Jittery state seeking ever some tranquilizer to over come depression; Keeping pace with others in this competitive world will be impossible; Life will be meaningless pastime needing something to occupy with...!

Money only cannot give all emotional needs of a person, unless one has Novel ideas to make one's activities interesting and worthwhile ever; Obviously, one looks for relief and guidance to set-right one's state Purifying one's demoralized dirty mind with wisdom and confidence...!

Quick introspection and retrospection will give a clear picture of one Restoring one as to what one has to follow to clear all cobwebs made; Sunshine will be showing the route now has to follow to reach a good Target to make one's life bloom with beautiful flowers to live in joy!

United efforts of heart, mind and soul will make one steady in life; Various good incidences thereafter will build up one's confidence...; Worries and woes caused by anxiety and fear will vanish into thin air!

X or Y or Z unknown will be known as after solving a problem by steps; Years of wasteful time can then compensated with renewed vigour sure; Zealous mood instead of depression will make life run on jet speed...!

Ramesh T A
Make Problem A Pleasure To Solve!

Pleasure gives joy, but it's not a longtime affair;
Food is needed for hunger, but it's forgotten later;
When the urge comes, it needs to be satisfied sure;
Otherwise, interest in life goes away in the world!

Pleasure pacifies, when one is in great tension and
Troubles that cannot be arrested by normal way sure;
When difficulty comes, smile a while in thoughts of
Pleasure to make burden of problem feather soft ever!

When normalcy of mind is retained by such diversion,
Surely many a mountain can be surmounted by any means;
Not knowing this, many lose precious time of life in
Wasteful way to wade through difficult moments ever!

When personal risk is dispersed among team of men,
Heavy burden of solving problem becomes a pleasure!

Ramesh T A
Make The World Into A Golden One!

The world is reeling under monopolists and terrorists!
Multinational corporate entrepreneurs enslave all and
Fanatical religious extremists try to control the world!

Caught between the two all are suffering untold agony
Looking for a way out to breathe a sigh of relief from
All controls forbidding freedom and birth rights of all!

Reforms are needed in governments ruling nations ever;
Unity among peace, love and freedom loving people is
The only way to push out all rubbishes accumulating...!

Cleaning and overhauling the world machinery is the
Only solution to set right all set backs sooner the better
To translate our best and cherished dreams into realities!

Will all unite in this bold venture to turn the old ways into
A new way to make this worn out world into a golden one?

Ramesh T A
Making A Good For Nothing Matter Possible!

Amidst the group of veterans, novices won’t show their heads
Besides sitting with the romantics who question all top ones; but
Concern of all would be for the theme meant for the community
Doing best things in all walks of life to uplift the status of all…!

Engaged with the thoughts of how to bring all under one roof,
Focus is for unity, solidarity and achieving a place among the
Great and major races in the majority of population in the nation
Highlighting the achievements made by them in the general race!

Iconic men among the underprivileged race have started this union
Jointly with all age groups to create awareness among all of them
Keeping in view the over all advantages of other groups of all races
Let alone the really advanced ones among them competing with all!

Majority of this minority group feeling elated by the top seeds of them
Nowhere seems to be led down by backwardness because of confidence
Openly felt by all after witnessing the bright luminaries of their group of
People getting sound applause from all men on confidence building meets!

Question of making their presence well known in the public forum, they all
Resort to participating in all social and political forums too selecting their leaders
Starting from their first solidarity meeting onwards with unanimous resolution
That all will go as a group to authorities concerned for solving their problems!

United thereafter they all feel better to put forth all their matters for consensus
Various measures they have got the opportunity to take for moving ahead
With all necessary legal supports to be sure to achieve goals in all their efforts!

X factor files have become open files to push forward for implementation sans fail
Years after gathering dust in the back-burner as if nothing can be done for good;

Zeal of going faster, after making a good turn deserving another ones, has
started!

Ramesh T A
Making A Mark!

More than intelligence and knowledge
Wisdom and imagination are essential
To decide about going head long in the Venture we would like to take in life ever!

For, sans visualization of the whole matter
As picture in the mind we cannot decide
And plan anything to achieve in life with
A suitable ambition that drives one ahead!

That is the way the expression of one's Personality is possible in the world and
That is the art of living we have to know
And follow our line of thought to victory!

Pursuing one's dream to make our mark
In the field one is best at is our duty ever!

Ramesh T A
Making Civilization Of Modern World A Worthy One!

Around the world modernized nations have embraced civilization; Beauty and sophistication by science have created material world; Civilization sans human culture has turned men as mechanical ones; Danger of new diseases, Nuclear wars and Terrorism threatens peace!

European Union, African union, Asian union and American union can Fully finish the formation of one world union, if all cooperate well; Grand unification of scattered nations into one can create One world; However, sans touch of human culture, civilized world is precarious!

Isolated nations following communism or obsolete religion pose threat; Joy of civilization by modernity fostering humanism only can save all; King's rule, dictator or religious rule only drag world to abyss sure; Long cherished Utopian dream can't be achieved, if there's no change!

Modern world of materialistic and mechanical life can't fulfil heart; No one can say civilization is the golden way to life of paradise; Over all progress of modern world needs to be tinkered for the better; Peace, progress and prosperity of whole world depend on human sense!

Quarrels of all divide quantity underscoring the need for quality; Restoring the world order, modernity and civilization can be fostered; States of East and West in the world should be united by friendship; Trade and all developments encouraging art and science flourish world!

Universal brotherhood and friendship develop humanity on many fields; Very great change of modern world then only witness best results; World union so farmed will lead to one world government rule soon!

X files of unsolved mysteries will get a chance to know truth finally; Years of efforts for unity, peace and prosperity of world will win; Zeal of happy mood will govern humanity making one world a heaven!

Ramesh T A
Making Dead Work Again!

Words are the form of thoughts;
Poetry is the picture of vision;
They are physical relics of beings!

Spirit has no form and limit;
Spirit is timeless and permanent;
Spirit is like gas and air in Space!

Spirit in body gives life in world;
Spirit is a genie in a bottle here;
When bottle opens spirit flies away!

Thoughts and memories are in brain;
If brain stops all those things vanish;
Science cannot save them in DVD disc!

If memories are saved in DVD disc
A robot can revive dead man's work!

Ramesh T A
Making Miracle Possible!

Discipline and knowledge help much to creative persons
To make miracles in anything in the world of man sure!
Analysis based on knowledge gives clear picture to have
A Vision of the whole knowing whole truth to do miracle!

Outline of doing works based on such a vision surely of
Great accuracy to achieve matters with success at last;
Such a project work with suitable, understanding persons
Can be achieved with surety all can appreciate by uses..!

Not only in administration of office and management of
An organization, but also ruling the nation and uniting
All nations to create One Human World to fulfil the great
Dream of Vasudev Kudumbakkam, discipline makes all happen!

Aim, ambition and goal of such a team will be practically
Possible against all odds to establish miracle sans fail!

Ramesh T A
Making Of A Mystic Poet Of Nature!

A pleasant Sunday morning makes me brisk with my favourite occupation;
Yes, this pleasant atmosphere reminds me of my experience on a brief stay in a hill
Many years ago when mist and clouds touching together as inextricable lovers!
What a romantic mood I have enjoyed then and that still gives brisk mood!

Even after many years and that too in super old age, I feel that zeal of youth!
This is the magic of Nature by its misty and pleasant climate that makes miracle
Happen at the unexpected age of one's life so blissful and heavenly in the world!
What else is needed other than this kind of feeling that makes young again!

This is the beauty and magic of Nature that has kept me ever inspired to
Do the best work of art in poetry to tell the secret of Nature's magical power
That has made me forget misfortunes and drawbacks to the level of high poet of
Nature, which is if not a miracle, what else could it be, I wonder very often!

Pleasant atmosphere of Nature like a misty mountain makes me a mystic poet
Of high calibre happening like a miracle in my life that none can believe ever!

Ramesh T A
Making One A Poet Is A Miracle!

How will you feel when your wishes are denied
By your parents, when you are a smart boy......?
Not knowing your knowledge and also capability,
They feel it's a risk to allow you to do what you like!

Likewise, if you have been grown up to manhood,
How will you feel to be one with other dull heads to do
What others say as if that is the only way to come up
In life according to your parents who are ignorant...?

Having such kind of humiliating experience and also,
Inducted into family business as there are none to promote
Business to prosperity, with what kind of mind will you
Undertake the project to do all according to their plans?

Only a non-attached kind of person perform such duties
Whether that will be helpful in the future or not but just
To please elders; and many years, if spent so, what kind of
Joy can one enjoy in the world that doesn't care for you...?

Later, after one becomes a family man and has children too,
Will he get that kind of freedom and time to do what he likes?
One will only be a reckless man always feeling angry with all
And caring nothing in the world as his dreams are shattered!

But, if one survives all those unsuitable times, will it not be a
Great miracle that has happened in the life of that person...?
Yes, surely, that is a miracle, if one becomes a poet and writes
Wonderful poems to share and become a great world poet...!

Ramesh T A
Making Success Of A Great Venture Of Common Good!

Danger of nuclear proliferation has been well exposed long;
But threat to world peace is international terrorism now
Needing to be stopped at any cost by joint venture of nations!

Not only nations but also individuals have to do something;
Without such a stand is taken by all, nothing can be done
And not even an inch one could make move even after years!

For making it happen sure, we all have to make joint efforts
Whether it is sports or business or achieving peace in the world
Let alone whether we are successful or not in our ventures ever!

Selflessness is the first necessity rather than selfish benefit in this
Great venture leading to common good of all and benefiting all
One should not forget and foster such ideas in all by all means!

For making a success of a great venture of common good, first and
Foremost popularization of the idea only can fetch laurel finally...!

Ramesh T A
Man And God!

Living and dying
Story of life comes to an end
Some day or other!

Dying and living
In the hearts of men great soul
Lives forever in the world!

Ramesh T A
Man And Wman Are Made For Each Other!

Relaxation is important in life to survive and succeed in all ventures; Man and woman are made for each other to support and sustain in life; There is no point in functioning as feminist or malist in world life; That kind of activism leads to separation and extinction of society!

Youngsters may raise their voices so and fight each other as enemies; Girls and guys are supposed to love each other to maintain world peace; Due to harsh treatment meted out against females by males based on out Moded cultures and religious wrong preaching need to change by reforms!

Instead of reforming and changing the status quo for the better, it is No use fighting each other to die and make diktats of religious customs As if correct and follow them sans any human sense as was in the past; That would wrongly make obsolete diktats as divinish making all fools!

In the modern democratic world, there is freedom and right for all to Reform old religions, customs and cultures with sensible changes for All to live as one family members in the world that belongs to all men And women to live in coexistence, cooperation and coordination by love!

Ramesh T A
Man Is Yet To Be Cocksure In Reality!

All are living mechanical life in the modern materialistic world;
But animals, birds and fish live ever in Nature in harmony with it;
Catastrophe due to natural disasters they know by instinct to escape;
Dangers like tsunami, earthquake, tremor we can't know by intellect!

Every being in the world are products of Nature we should not forget;
Foreign objects from far off Space, flying saucers and aliens we know;
Great gadgets they used were too far ahead of our technological feats;
However, we have not dropped our efforts to other stars and work hard!

Intelligence of those ancient astronauts we are yet to compete sure;
Joining hands with them only we can develop to their levels and so, to
Keep in touch with them by communication, we try yet to establish;
Learning by doing is wisdom, which we have to put into practice ever!

Many billions of miles we have to travel to go to Stars near by;
No human efforts can help this possible except through robots there;
Outer Space exploration of life and possibility to live there we try
Putting all sophisticated technology in use sans knowing our Earth!

Quite a lot we have to know of our Earth to predict happenings next;
Resolving all those things first, we have to safeguard our Earth;
Star dwelling aliens' technology may help us to up-date our stage;
That doesn't mean we are well equipped to try that sans knowing Nature!

Universe is vast area of research needing knowledge of Nature best;
Various scientific laws we are yet to link to have them as one theory;
What we know is handful, but what we have to know is Earthful ever!

X, Y, Z we have detected by intellect, but we are not so by instinct;
Yet we have to find way to know prediction by instinct and intuition;
Zeus in heaven perhaps may be laughing at our cock-sureness in pity!

Ramesh T A
Man Lives In Two Worlds Ever!

Man lives in two world - inner world and outer world;
Only when he feels free ever, man can live in one world!
Man only lives twice - one for self and one for dreams;
Only when his dreams are achievable, man can live one life!

That's why world had become a drama stage, where men and
Women play their roles wearing masks they prefer but not
The real face make-up forever to lead a true life forever;
When will man feel free to live life and fulfil his longing?

Man has ignored the reality of Nature, art and culture being
Absorbed, demoralized and deceived by the sophistication of
Modernity in the name of civilization and believes to be ever
Flying with wings, when it is not so in reality, when he lands!

The door of feelings of heart is closed and the door of mind is
Ever open with thoughts searching for some facts to support his
Acts instigated by modern world life unable to shackle out his
Belief of illusion instead of reality that is only reliable ever!

Ramesh T A
Man Of Achievements!

Life full of achievements of some is also will of God;
Not an easy thing to climb to the top in any line sure;
Yet, whatever some do become achievements quite amazing;
It's all happening by knowledge, experience and skill!

Well versed in a particular line of action, one shines
Bright as Sun and twinkles as charming Star in the night!
Thoughts, words and deeds of such a bright one is always
Thought provoking, enlightening and inspiring to do best!

Such souls are born with God's gift to do noble, best and
Great in the world whatever be the field of work forever;
They are made to make a mark all will cherish for inspiration
To achieve as they have done in Art or science or literature!

Even the presence of such great achievers create hope and
Confidence assuring victory for any event undertaken by all!

Ramesh T A
Man Of One Book!

Man of culture has many beautiful things
To think about and follow to live a full life!
But man of one book refuses to see other
Views and enhances one's scope in life ever!

Life is not just art only or dance only or
Money or gold or lust only, it is all in one!
Even sans them many live life to the full
To get joy, peace and satisfaction here....!

Like art for art's sake, man of one book
Never many facets of art and its use in
Life to live a creatively interesting life....
But only as a mad man sans satisfaction!

Such men cannot change and stick to
A new changed life, but sans firmness
In anything, they again and again turn
To one book wasting money, time, energy!

Fickle minded, such changeless men
Never see light going to the other side of
The tunnel to see many wonders of life
To enjoy with sustenance and success!

Ramesh T A
Man Or Money?

Mechanical way of life has made men robots
Sans human sense and feeling vital for life!

Virtues of life like love, courage, magnanimity,
Human dignity, decency and discipline are nil
Before commercial technology to run economy!

Business and pleasure are matter of fact works
Making human civilisation and culture a farce!

Art, women and Nature are simply ignored...and
Are exploited for personal greed feeling no disgrace!
Money power makes man forget values of things!

Things of precious nature have become very cheap
In the commercial world of man making him a thing
That has value as long as money is there in hand....!

Love, human sense and natural simple life none cares!

Ramesh T A
Man, Machine, Money, Time!

Matter is more important than mind or heart
In this money world that rules all mankind!
Machine does more than what man can do
And man is made a servant of machine care!

The time saved by machine work is not used
Well for the betterment of man's world but are
Used for the accumulation of more money only
And man wastes time in gambling for money!

Man has become a slave of machine and money
That make him think and plan for their development
But not for the development of mind and spirit
For which all inventions were made to save time!

Caught among machine, money and time man is mad
Now not knowing how to regain his glorious state again!

Ramesh T A
Manage Situation Till Control Comes!

Dreaming of golden time we build hope within us;
We cannot expect things to happen as to our wish
Done by others who give us promises after promises,
But prolong without achieving anything in time...!

This is the reality one should understand sooner in life,
When dealing with all matters at the critical moment!
Since nothing is under our control, indeed we have to
Depend on others to make matters move to good end!

Until then, we should not lose hope and go ahead with
Adjustments possible at our end as far as possible sure!
When the right moment comes, we can settle all scores
And get relieved from all entanglements to be free ever!

Without giving room for controversy and confrontation
Till control comes to our hand, we have to manage all
Things by rationalization and taking austerity measures
To cope with the status as far as possible to a better status!

Ramesh T A
Manhood!

Even after growing to be a man the child nature
Never seems to change as far as game is concerned!
Always they want to play some game with the cube
Or play video games or play while driving car or bike!

Sportsmanship compels them to be competitive ever
Whether it is work or business or art or science and all!
They learn all techniques and show great feat by them,
But never know how to have control and poise to be great!

Maturity comes of experience through all seasons of year,
But never by knowledge and knowing some techniques!
Success or failure is not the objective but achievement in
Creating a history in what one does in the profession is...!

Luck may bring them success for sometime but not ever;
If the spell diminishes, they are nowhere in the picture sure!
But the mature and well seasoned one is the man to face
All situations and shine bright ever by valour true ever....!

Ramesh T A
Man's Quest and Longing For Freedom!

Differences are many in anything and everything in the world; This is due to the fact that Nature is a lover of variety in all! But despite differences in all, there is unity in diversity for Survival, sustenance and success to live to perpetuate species!

Otherwise, Earth too would be another barren planet in Universe; Beauty, bounty and love of Nature have swayed and are swaying all To have union by coexistence, cooperation and coordination for Creative and inventive acts of all to survive better in peace...!

Love and friendship are the unifying feeling that brings together Various kinds of beings for a good cause to form a group in the World to create beautiful, better and beneficial things for all to Share and survive well long against all odds beyond one’s control!

Our survival seems to be ever in suspended animation in the world As we cannot guess about origin of soul and destiny of soul after We have left the world for another abode or state of nothingness To have eternal liberty in a state of nirvana forever and ever..!

Man's longing for that kind of freedom has developed knowledge in All spheres of things kindling exploration in outer Space and also, Above all, spiritual pursuits to know higher state of being and Reach that level so that all secrets and mysteries can be solved!

Ramesh T A
Man's World Needs Peace Ever!

Great world wars had come to an end long ago; Yet, the warring nature of leaders and nations Following various political, religious and all Philosophical systems has not stopped for peace!

World peace is ever in jeopardy due to various Reasons and causes prevailing everywhere now.. Needing immediate attention more than before as Terrorism too is shaking and stirring world ever!

Exploitation of natural resources sans any sense Of recycling or preserving soil strength has caused Climate change provoking natural disasters due to Heavy sudden rains, storms, droughts and floods!

Living in chaos of various kinds man made and also Natural, man's life is precarious ever needing peace!

Ramesh T A
Many Moves To Be Made In The International Chess Board Politics!

A nation commands the world due to its economic and military power; Based on economic and scientific developments, superiority is judged; Careful planning by intelligence, it wins in wars to be great ever; Danger in some form or other threatens world peace despite modernity!

Every political move is remote controlled by religion, money, army; Full control by educational knowledge has not yet come into vogue; Good many ideas are still under estimated and world reels in danger; High mind, broad heart and sportive spirit are yet to be experimented!

International politics goes on balance of power sans mind for peace; Joint actions by all nations only can solve all threats to peace sure; Kicking the ball from one side to another side of the court goes on ever; Listlessness prevails by suspense created by competition for superiority!

Many moves of peace are thwarted by this game for domination in world; No nation is sincere in taking initiative to stop all threats to peace; Openly all are not for controlling pollution or recycling resources...; Proper approach to problems and joint actions are not initiated ever..!

Quite a lot has to be done to make use of UNO to find solutions to all; Resolutions taken are not properly implemented with sincere monitoring; Same kind of situation since second world war continues for more wars; Thoughts on reforms for UNO to function effectively are not begun still!

Unanimous approval for stopping pollution, eradicating terrorism, wars is Very much lying at the back burners even after seeing a lot of menaces Without any sense of human feeling to set right the setbacks of world!

X or Y cannot come forward to change the situation due to superiority by Years of super powers' economic and military status in the world arena; Z status to put an end to this nonsense has many steps to move in Chess!

Ramesh T A
Many Things Of Love!

Many I would like to discover of love
Because love is a big deep ocean of life!

Many are the ways of love man learns
Because love is an endless source of all!

Many are offers of love for man to accept
Because love is irresistible force of attraction!

Many are the pleasures love gives to all
Because love is source of sweetness in life!

Many are the consolations love only can give
Because love is ever generous and selfless!

Many are the gifts of love man enjoys long
Because love is the only greatest power here!

Many more things love will go on offering to one
Because love is decisive and determined forever!

Ramesh T A
March Ahead!

March has overtaken February this year also
Though February leaps to a day more this time!
March has the special capacity to march ever
After Winter to Spring before Summer begins!

It is not the march of the army we all know well;
It is the march of seasonal change needed forever
Like the poems march on every page of poetry
Books noted for inspiration and contemplation!

A lot of Sunshine and bright blue sky mark its
Course before the hotter and hottest days begin!
The steady march of poetic lines mark the grade
Each poet achieves here like March every year..!

With the beginning of March all seem to march
To achieving their goals one after the other in...
This year we have started two months back with
All pageant and revelry we could to win all laurels!

Ramesh T A
March Is Marching Too!

It seems just now we have celebrated New Year and Lovers Day festival; within that, two full months have gone away without our notice so soon; After Spring, symptoms of Summer have started for all to feel just now; So soon Time is running so fast that This new year 2018 too will win race!

Now March has started marching fast to bring an end to the financial year; Budget for the new financial year will soon be tabled for approval soon; Have we progressed, are we happy with our progress and what's next in store? Such questions are going to crop up very soon for all to plan for next year!

Every year we are doing like that and our days are rather flying on high; So we are counting our days and Time taking survey of all goes ahead fast; There is no respite or rest or renovation in our usual approach to all things; What is important that counts much here is what achievement we have made so far!

Days, weeks, months and years may go on, but what we have done needs checks; Our efforts, achievements and laurels in flying colours only can cheer us ever!

Ramesh T A
Mark Of A True Artist!

Greatness lies in politeness, gentleness and control of tongue; That's why it is true that empty vessel sounds well anywhere. Though a dance and music artist but childish in nature, one Surely seems to be wrongly appreciated by her performance!

She is enjoying all day in doing such kind of deed that she Seems to be unfit to lead a family life holding responsibility! This is perhaps such kind of so called artists don't have any Maturity to digest facts of life and lead it well as in art ever!

Frolicsome nature may have taken advantage of an art to Give free vent to her childish feelings only as child artist, But never a mature and well versed and seasoned artist of a Virtuoso at all by any means people have to be careful about!

All that glitters cannot be a real gold at all in the world of art; That only a critical observer can know and point out for sure!

Ramesh T A
Masimagam Festival Of India In Tamilnadu!

Cool breeze with warm Sunshine is pleasant climate
To enjoy as Spring season transforms into Summer
Season being celebrated as Masimagam festival here!

All Temple Deities are taken on a tour to nearby
Seas and rivers to cleanse them of all dirt due to
Winter hibernation sans sunshine falling on them!

Now Summer Sunshine is becoming brighter day by day
Denoting the symbolic purifying effect of it over
All living beings to function with full energy long!

Celebration of this harbinger of Summer season is
Considered auspicious and shower of bright time
Ahead for all living beings in the world by Sun...!

Sun is the giver of energy for all living beings in
The Solar system we all live in sustaining life long!

Ramesh T A
Matter Of Concern!

Matter of Concern!

Heavy down pour of rain has lashed out for an hour;
Flood of water is seen going everywhere in the night!
Days are very hot and equally rain in nights are heavy;
This is how Nature balances itself against all odds now!

Heat and rain have driven people to evacuate in places
Quite unusual in Summer time too making people blink
And find a way out of such natural calamities very often!
Neglect of natural resources for commercial use is cause.

Knowing the mistakes of all, many ignore the consequences
Minding only commercial interest above all other things that
All have to pay attention to so that recurring disasters can
Very well be arrested for the well being of ecological balance...!

Technology and commerce alone are not enough for progress;
Natural resources need to be conserved for true progress ever!

Ramesh T A
May Day!

May Day is celebrated to honour world workers,
Who work eight hours a day all round the year!
It's called as International Workers Day or May
Day or Labour Day all over the world forever...!

For everything there is a limit, human or machine;
For humans eight hours of work a day is enough
And also for machines to avoid fatigue rest is needed;
Starting from USA this convention is being followed.

Labourers means not Communism but all workers,
Who work to earn their lively hood to live in honour,
Not to support any ideology against any other class
And develop themselves so to live well in society ever!

Work gives satisfaction, joy and pride for anyone and
That done with effectiveness, efficiency and excellently
Brings great honour and respect to one in the society
And makes world go on in peace, progress, prosperity!

Ramesh T A
Maya (Illusion)!

Before performing a vital deed it looks difficult;
Thinking over it and visualizing it complete
It may take sometime, but doing is not difficult!

Tension of completing the deed tests patience!
Performing the deed one gets confidence and joy;
Completing the deed everything is forgotten soon!

Many missions undertaken regularly will be good;
That would bring self confidence and courage ever!
So, difficult deeds too can be done as a matter of fact.

Knowing the full picture of thing is most important
Before strategy is devised to deal any matter well
And that gives idea to do the job with satisfaction!

All deeds before being undertaken to be performed
Look like a big ocean to cross but they are just maya!

Ramesh T A
Mayan New Year!

Now it's lunch time when I come here!
What shall I do to fill some lines here?
Shall I write a poem or go out soon...?

Bad news of murder, rapes and violence
Generally mark the day when I get up!
Endless collateral damages are continuing!

Will tomorrow a doomsday or boomsday?
If Mayan Calendar ends tomorrow, what?
Next Mayan New Year only will start...!

If Calendar ends we can't image world will!
That's quite ridiculous indeed, all should feel!
But media news are making reel real....!

Let not friends be carried away by foolish news;
Let all celebrate New Year is starting tomorrow!

Ramesh T A
Meditation

What is meditation? Have you thought about it?
Closing eyes and concentrating on one thing make
One forget oneself which is what meditation is all!
Making one forget oneself is the work of mediation!

Book reading makes one forget oneself against all odds;
Mingling one with Nature also makes one forget oneself;
Mingling one with the tune of music also makes one so;
Dancing to the tune of music produces that effect too!

They are all other forms of meditation indeed......!
Poetry writing too makes one forget oneself of all ills;
Music too cures many maladies and rejuvenates spirit;
Interesting job, whatever it is, is surely a meditative work!

The best way to overcome stress and depression in life
Surely is a meditative kind of work just as philosophers do!

Ramesh T A
Meeting Aliens Soon In Space!

Sending car to Space to orbit round the Sun is news now;  
Will the Aliens travelling Space find it to analyse it?  
So many things are being discovered about Aliens on Earth  
And so many inventions are made matching with theirs also!

Why is it they are delaying to contact earthlings now..?  
After seeing the orbiting car, will they remember Earth?  
I wonder they will be in some far off galaxy to think  
About Earth and our expectations of meetings them here!

At least in Space journey, when our astronauts land on  
The Moon, they can take car also there to have a jolly  
Go round on the Moon to plan for our migration there  
And also build some houses, labs and community hall..!

Perhaps a town well built on the Moon may be useful for  
All efforts of scientists to live there and experiment  
Living life as we do on the Earth and make Moon a good  
Colony to advance further in Space to meet Aliens soon!

Ramesh T A
Memorable Insights Of Great Geniuses!

Insights are concentrated details of anything
Expressed by scribes or poets noted for prolific
Writings of great ideas to impress all ever..!

Insightful writings by prolific poets capture
the hearts of all audience and transport to the
World they depict in perfect order are an art!

Brief concentrated ideas in minute details of
Poetry is an art possible by prolific ideas of
Great poets we all cherish most in heart ever!

More than in articles or stories in minutest of
Details poetry says in succinct form as rare gems
Or Stars studded in sky jewels that lasts forever!

Only masterpieces of great geniuses have insights
Memorable to remember and follow in life by all!

Ramesh T A
Memoreis Best And Worst!

Memories of best and worst incidences in life
Remain as photographic pictures in the mind
Echoing in the heart now and then kindling
Thoughts on an elongated and enlarged sizes
Based on the joy and sorrow of the experiences
We have had earlier knowingly or unknowingly
Urging us to make a further move upon those
Incidences with the people we love most or hate
Much for all their dealings with us on occasions
We cannot forget later that being significant in
Our life bridging the gap between long forgotten
Ones and concertizing our relations with the ones
We move frequently everywhere as close friends
Till the end of time in the world we all have to live!

Ramesh T A
Memories Incorporated In Heart Never Die!

Memories of interesting moments of life incorporated in heart
Live evergreen and never die, but renovate whenever recollected!
Many incidences in life from childhood to old age all memories
Serve as recorded DVD disc that plays whenever it is clicked on!

Railway engine running on steam, coffee vapour with flavour looking
Like smoke or cloud or mist on a hill station kindling wonder at
First sight, Travelling on a long journey in train meeting various
People and enjoy natural scenes sitting near the window are some..!

Going to modern cinema theatre in metropolitan city, having grand
Party on the roof-garden of a star hotel with friends and meeting
Close friends in beach, park and botanic garden with many species
Of trees, flowers, animals and various kinds of fish are wonder..!

Above all, basing one's experiences so in life and suddenly getting
Mood to write poetry for the first time is biggest sensation in life!
That way memories of one open a big door to go on an adventure with
Words knowing one's talent at last give great zeal compose poems ever!

Ramesh T A
Memories Never Die!

Days going fast, we don't know the date
Like we never know the air we breathe!
Likewise we don't know many things
As we take all for granted in our life...!

We enjoy fruits of labour by others.....
Sans any gratitude unless we realise!
Only by way of education some of the
Inventors, discoverers, poets we know!

Only from literature all the known......
And unknown masters of achievements.
Often remembering and reminding
Such personalities they are honoured.

Memories of great souls never die....
As they come again and again by births!

Ramesh T A
Memories Of Intimate Ones Never Die!

Intimate people's memories never die so easily,
If they die very early and suddenly in life...!
How their memories can be replaced by any other
Ones, nobody knows immediately as it's difficult!

Images they have created on frequently visited
Places remind one whenever one visits there...;
The happy times spent there are not an easy thing
To erase in the mind and pass over to other things!

Hiccups continue to affect one unless suddenly...
Some mind affecting thing is brought to the notice
Of the affected one to bring one to normal status;
Such a sort of thing is needed to forget intimates!

Images of intimate ones come in all dreams everyday
As if they are still alive somewhere we don't know!

Ramesh T A
Memories Of Thousand And One Tales!

Photos are keeping memories alive forever;
Many a difference we can note therein sure
That helps much to develop one's personality!
Recollection of best moments in life is possible
Seeing those photos we have forgotten long...!
What a change and what a beauty we have
Been undergoing to a clear cut figure at last..!
Memories of dear friends are revived and the
Time we were having fun and serious we see
Once again when we turn the leaves of alum!
All times that have passed out of our control
We have a chance to see in those frozen pictures
That have been captured by the camera old
And new tell thousand and one tales forever...!

Ramesh T A
Memory Of Friendship An Immortal Record!

Friendship in life cannot be forgotten ever,
Though all cannot meet or speak or do anything;
But the thoughts of friendship days still live
In each one's heart as fresh as new flowers sure!

Only some functions of related persons give
Chances to see again old friends now and then;
With that when each one will meet each other is
A million dollar question to answer for anyone!

Memory of friendship remains as immortal record
In the album of photos or souvenirs of some books
Or some gifts given in some functions important;
Otherwise, they all remain as monuments somewhere!

Friendship is unique in human relationships ever
And the deeds of achievements stand as great and
Inspiring examples to others keeping alive the
Spirit of adventure giving hope and confidence..!

Ramesh T A
Mending Mistakes Into Greater Good!

Great reed leads to greatest loss in the course of life as
Too much of anything will become good for nothing finally!
Common property of Nature for all people to share forever;
Denial of that privilege by some for many is very bad sure!

Proportionately sharing all with all will foster good will;
Failing to do so will lead only to chaos ending in loss
That natural disaster teaches to all in the course of life
And that no one should forget for the good of all ever...!

Cooperation during the time of disaster unites all for good;
Taking that as good opportunity bad intention of some ones
All can turn into a good chance for promoting good will sure
For a greater benefit by united efforts in mending mistakes!

This kind od simple truth of life serves for greater good to
Mend small mistakes into great things for the benefit of all!

Ramesh T A
Diana, the goddess of Moon is the night queen
Ruling the night world of Universe with Stars
Winking eyes over lovers indulging in romance
And dreaming of love fantasy all over the night!

Coming closer to Earth, Moon has become red
And large seeing all the ruthless acts of men
Indulging in lust rather than in love divine ever
Believing the body to be the be all and end all...!

Play, sing and dance as children among themselves;
That is the real act of love pure and lasting forever..!
Saying so, red Moon turns silver going higher ever
To normal and usual size above the Earth to heaven!

Message of night queen no one should forget here,
If all good things are to happen ever and ever sure!

Ramesh T A
Metro City Life!

Metro city is congested with all kinds of vehicles;
Buildings are usually many storeyed ones ever;
Also, big trees are interspersing the buildings...!

Birds of the kinds like mynah, parrot and crow
Along with grey pigeons all over the places are
Living in gaps of temple-like towering buildings!

Green parrots have their nests in-between trees
And building holes here and there and fly free ever
Followed by pigeons spreading high everywhere!

Only people staying in the top flats have access
To see free birds' activities all day long whether
It rains or wind blows from the east now and then!

Otherwise, this metro is a big concrete jungle only
With people thriving on mechanical way of life...!

Ramesh T A
Micro And Macro Activities Of Life!

Night comes following the day;
And day dawns after night slips!
Life continues in circle for all ever
Whether we know of it or not...!

Likewise life is going on in the world
We all destined to live and leave one
Day whether we realize it or not...
For, it is the way of all in Space....!

Space and Time are relative to know
How far things are going or stopping
Based on the activities of all things in
The big Universe we are all parts...!

Micro and macro levels of activities
Go on as electrons in configuration
Around protons and neutrons in an
Atom combining in molecules of life!

Ramesh T A
Midwinter Night's Dream!

Midsummer night's dream is romantic one!
Midwinter night's dream is full of nightmares;
Howling of wolves are well heard in winter
Snow covered places of the world everywhere!

However hot the summer is one can manage;
But bitter or biting cold of winter is unbearable!
Sans stamina and good health impossible it is
To withstand the winter cold, even if it lasts less!

All horrible dreams, scary nights and thriller
Type of songs accompany in the mind screen
Terrifying the weak and small children, especially
When heavy howling wind and storm lash long!

That's why winter sports, Christmas and New
Year and such inspiring ones change all gloom!

Ramesh T A
Migrations Don't Make Any Change In One World Family!

All nations are changing into cosmopolitan ones in the world now;
Best minds migrate to the places they can do better jobs anywhere;
Countries where such a change always takes place are USA, Canada..;
Duties of excellent nature they are capable of doing there ever!

Every nation is one's native place and everyone is one's kin sure;
First quality education, job and life one can have, if one has will;
Gathering such people in one, a nation will shine bright in the world;
Having best immigrated minds, such a nation is super power sure ever!

Iconic people are the VIPs who do miracles anywhere in the world;
Joining hands with people of their nature, they have good friendship;
Killings of Jews by Nazis began the act of migration in the world first;
Living anywhere by their skills, they achieved great feats in the world!

Migrations of Tamils from Ceylon to various nations are modern incidence;
Now, war affected peoples migrate to places from Syria, Burma and so on;
Options left for them are limited, yet, they do what they can in turmoils;
Palestinians and Jews settling in a place, fight forgetting to live as pals

Quagmire of wars swallows good, bad and ugly Whether they succeed or not;
Resolving all differences as human all races can live as brother and sisters;
Seeing things so, they instead resort to wars to settle scores by revenge;
Truth is animals fight and hunt for survival, but humans live as a society!

Unanimously all agree that all races are different branches of same tree;
Various differences are only unique natures of all for distinction, identity;
World is one big family as all are children of one God present everywhere!

X and Y are not separate entity, but belong to same language alphabet list;
Yesterday, today and tomorrow there has been no change in this language;
Z may be last, but not least to complete the language unity for use ever!

Ramesh T A
Mind

Mind rules
Body and amplifies
Pain, pleasure...!

Ramesh T A
Mind Is Everything For Man!

Mind is everything for man in the world!
Mind is the CPU of man forever to say!
Sans mind nothing can be known in life;
Sans mind nothing can be ordered to body!

Brain is the instrument mind ever works in;
Heart, kidney, ears, eyes and all in the body
Function under the supervision of mind sure!
In fact soul is supposed to reside in the mind!

Like the all pervading spirit is what God is,
The all pervading soul is the spirit of man
Through the mind activates the whole of man
Residing within the energy of man all his life!

Mindless man is called as mad man, when he
Is out of control under the spell of booze sure!
But by knowledge and rationality, man is ever
Bright in mind to act the best on all matters better!

Knowledge is the food for mind as food for body;
Soul in energy kindles mind to think and know
All truths and ultimate truth by consciousness,
Sub-consciousness and super-consciousness ever!

Intellectual thoughts of mind makes strong conviction;
Strong conviction develops intutional power of mind;
Meditation serves food for the mind of man forever and
Mysticism makes mind mingle with Nature to enjoy bliss!

Ramesh T A
Mind Joyful Things In Life Least Bothering About Misfortunes!

What can we say about money minded persons openly cheating others? Their mind is obsessed with garbing money from others to be richest Not knowing the fact that extreme greed will lead one to big loss By way of big diseases, theft of valuables and other lavish expenses!

Contention of heart of noble ones is ever gold making alchemy in life; Their losses are compensated by some other kind of boon in the world That they have never even dreamt before and least wish to have sure; But fate never leaves them to go empty in hand and live ever prosperous!

It is not consoling our hearts by ourselves so as to bear big losses; Best and wise way of living is never bother about the misfortunes ever; Always think of joyful things in life and enjoy such things forever And life will bring all boons rare and best making all jealous of them!

Nothing is in hour hand to control all things that are happening ever; Also, no one can hold control of all in one's hand and rule the world!

Ramesh T A
Mind Or Heart?

Mind forgets good old past childhood fun;
But heart cherishes such loving things of life!
It is the heart immediately unites past friends;
But mind cautions by negative thoughts ever!

Loving people ever remain the same long;
But thoughtful calculating people remain aloof!
Frank and loving people remember even now of
The past but the reserved don't show themselves so!

This is the trend of the world we all should know
To judge the people whoever they are in the world!
More than the intellect and wealth it is the heart
That cherishes humanness and love to sustain here!

So, between heart and mind which one will you cherish
Most for living a long life of love and joy in this world?

Ramesh T A
Miracle Of Survival!

Can there be history sans evidence of events
Oral, written and witness on such periods..?
Can a community of people be known sans any
Written history by some scholar in the world?

Without script can history of any community be
Maintained by those people who live somewhere?
Such questions crop up when one thinks about
Sourashtra community living in South India long!

Yes, without any record, history and script of their
Own language, Sourashtrians live doing various jobs
Speaking Sourashtra at home and among thenselves
Without using it in public writing in their own script!

Miracle of survival of Sourashtrians in South India
Saving their language even after hundreds of years
Indeed is a great feat no other community anywhere
Seems to have achieved in the whole world, I say...!

Ramesh T A
Mirage!

What is mirage

You need not search in deserts

Freedom we enjoy is!

Ramesh T A
Modern Habitat Of Man!

Many birds have disappeared in the neighbourhood; Sparrows and eagles have gone away except bats; But crows, mynahs and parrots are seen here now; Also, some chameleons and squirrels are seen here!

For the few surviving species of birds and reptiles Food and water are need that they somehow get and So, they all survive and have become very interesting Species for the small babies and children to see now!

Children love to supply food for crows and squirrels Loitering in our house balcony and in the terrace..; These birds drink water poured on the flower pots, But never they take water kept on separate vessels..!

Men have polluted land, water and sky by PVC pockets Throwing away after purchasing materials and other items In them that are endangering animals, fish and birds That consume them now and then for want of good food!

All go for milk satchels and water bottles instead of Taking them from cows and taps because nothing is ever Reliable due to some diseases that could have infected them and so, all are deprived of natural food and water!

Modern way of life devoid of naturalness in all things is what we call as civilization we have achieved by Our advanced knowledge and technology that have turned Man into a sort of mechanical being rather than a human!

Ramesh T A
Modern Man's Life!

Modern man's invention is money in the world;
With money he has to buy everything to survive.
Yes! Even to drink water, he has to spend money!

Next, sans cell phone or smart phone, Computer
And TV, his life cannot go on smooth in the world
And he cannot know anything outside of them...!

All the modern gadgets of daily use have simply
Isolated each and everyone to be individuals only
In the society we all live in coexistence sans contact!

Yes, sans direct contact everything is being dealt with
using smartphone or Computer all day long
And also, years together as scientists in Space Station!

We are living on this beautiful blue marble called Earth
And that we should never forget and loose ground ever!

Ramesh T A
Modern Mentality Of Men!

What can we say about the mentality
That believes only in the work that
Fetches money is worth doing forever?

It is just like lamenting only for money
In the funeral house needing some men
To create an atmosphere of grief for death!

Earning of livelihood is not doing work
Out of love towards that kind of work ever
Unlike doing out of interest not for money!

Any work is done out of interest not for money
Only but for joy, satisfaction and pride and
That can only give real fulfilment in life ever!

Only man has got this mentality as slave to money,
Whereas animals, birds and fish don't have this mind!

Ramesh T A
Modernity Throws Sand On Great Expectation!

Sans thinking of pollution and its dangerous effects,
Many have introduced technologies and turned forests
Into cultivable lands with greed for business profits
Promising heaven by civilization in the modern world!

Due to too much industries leading to pollution and
Shrinking of cultivable lands, long droughts have come,
Rivers have dried up with no good water to drink or
Irrigate agricultural fields leading to buying waters!

Great expectations are there to see paradise again,
When cultivating new crops, planting seeds for flower
Trees and green plants everywhere and planting trees
All along the roads to bring rain and water to Earth!

But climate change brings cloud bursting rain and goes
To destroy all crops at harvest time or sudden forest
Fire destroys all trees and towns unless rain falls to
Subside fire or volcanic eruption throws sand on dreams!

Ramesh T A
Moments Becoming History!

Sudden call of being selected for an Award
 Makes one thrilled to the core to attend...!
 But the last minute announcement is testing
 And tantalizing the winner to attend or not!

A chance in life cannot be missed at all.........
Say many and influence to rush to participate
In the function grande and finale on that day!
Flying there is indeed an experience wonderful!

Attending the function among so many crowd
There indeed a great experience to enjoy in life!
Appreciations and applauds from the crowd
Surely elate the winners and the friends much!

Returning home the record of function is fine
To see and enjoy with all people everywhere!
Just a brief moment in life becomes history
To be read and wondered by all is incredible!

Ramesh T A
Money

Passion for money
Drives one deep
Even into abyss!

Ramesh T A
Money Passion!

Even the sea shrinks to nil
Money passion never dies
Till the end of time!

Ramesh T A
Monsoon Rain!

South-West monsoon rain comes
Before Sunset and evening fine!
It seems rain has set in this time to
Quench the thirst of parched field!

Cool breeze and slow and steady
Rain falling in the town is nice....!
All take shelter under shades....
Before returning home after work!

All hearts are filled with joy now
As rain brings good hope for all!
Rain is the essential thing for fields
To have irrigation for growing crops!

Rain with good Sun's heat, all feel
Good growth and harvest in months!

Ramesh T A
Monumental Mismanagement Of Political Parties!

Poverty can be eliminated only by providing employment;  
It is not enough educating people to be just literates,  
But for their survival, they should be provided with jobs!

Many technical colleges are started with the hope of  
Solving employment problem once and for all, but where  
Is the provision for starting enterprises to do so ever?

Due to monumental mismanagement of political parties in  
Power, developments are taking place at a snail's pace  
And lopsided economic development can't be appreciated!

For all the mismanagement of government, people are ever  
Tortured with more taxes and unchecked price rise in all  
Products strangulating people in the name of development!

By mismanagement and legal looting by monetary exercises,  
Poverty and unemployment problems cannot be solved ever..!

Ramesh T A
Mood Of Holiday On Monday!

Joyful excitement of Sunday has paved for Monday;
Yet, all things are in a state of slumber even today!
Is it due to the hazy sky that filters Sunlight now?

Interspersed crowds of car were plying on Sunday....!
Today no signs of anxiety and excitement mark the day;
Even things of Nature, trees, birds and squirrel are still!

Convectional rain is predicted by meteorological dept.;
Will their prediction become into reality for three days?
I wonder at Nature's design full of suspense and absorption!

Beginning of week day does not look busy as usual at all;
Holiday mood only has cast its spell over all in the town;
Everything is moving at snail's pace even on Monday....!

State of dream marks the day, even if the week day begins
And gives a sense of joy one can feel only on holidays.......!

Ramesh T A
Moon Song Dance!

Moon singing song

Waves of sea dance

In rhythm Universal!

Ramesh T A
More Holidays To Enjoy In 2016!

January of New Year 2016 has surprise...!
Yes! Three Fridays, Saturdays, Sundays!
Once in a Blue Moon such a thing happens
In the World Calendar we all love to follow!

Another thing is this 2016 is a leap year too
With one more day added to February plus
Many festivals and national holidays come
Attached to Saturdays and Sundays long...!

To balance these holidays some important
National and festival holidays come on....
Sundays disappointing some and for others
Giving thoughts of that holidays on Mondays!

Work and play seem to have been balanced
With more holidays and compensations sure!

Ramesh T A
Going out of station after a longtime is interesting;  
After quite a lot of tedious engagements, returning  
Home seems to be utmost need to get freedom of relief  
All long much till one catches the correct bus home!

Settling comfortably in the seat of one's own choice  
Gives great relief making one forget all difficulties  
Undergone during the visit to a place of no convenience  
But has to be done to fulfil one's commitment made...!

Of all the places one has visited in life, one finally  
Feels even if it is heaven, could it be one's own place?  
Never, not at all as far as one's own convenience is  
Concerned in the whole world we are all living our life!

Wherever we go to fufl our ambition, the peace, comfort  
And the freedom we enjoy in our own place, we cannot get  
there all except in our own place we live despite it is  
Not so interesting and elevating as in high places ever!

Ramesh T A
More Than History!

Solar eclipse by moon we know!
But solar eclipse by Venus know we?
It is happening says newspaper report!

Certain usual things we all know!
But certain unusual things know we?
It is a rare happening indeed we can say!

A tiny black dot crossing the Sun is indeed
A great natural scene to see in the sky!
How many have you seen this rare phenomenon?

Once in a blue moon rare things happen sure!
But how many are recording them in some forms?
It is neglected by many but some make a note!

Things of rare nature happening in Nature
Only poets pay attention and record in poems!
That posterity cherishes more than history!

Ramesh T A
Morning Zeal And Enthusiasm!

Morning freshness is unique to enjoy
Fresh and clean air to breathe and feel
Far better than before and go ahead
With confidence and high spirit sure!

Trees stand still inviting Sun rise and
Feeling joyful, squirrels run and play
Everywhere with companions to feel
Joy as no other time in the world ever!

Vendors buying fruits and vegetables
From the big market carry them in
Fish carts to various destinations to
Do retail business in colonies new…!

What a zeal and enthusiast I see now
And feel brisk to do my works of day!

Ramesh T A
Mother's Love!

Mother's love
Never dies even death
Comes by war!

Ramesh T A
Moths Rush Only To Fire Ever!

Love is a rare thing to reach for many in the world;
That's why they all at least expect kindness or mercy
In lieu of love from the ones they love very much...!

Lacking love, many jump to lust to enjoy from whores
And cheap form of love lust has become everywhere now;
That has resulted in prostitution to be flourishing job!

Gorgeous beautification of fair sex has become common
To get better encumbrance out of prostitution everywhere;
And love has become rarest rather than rare in the world!

Like flowers lust has short life immediately after they
Bloom everywhere unlike the flowering plant is watered for
Eternal enjoyment of beauty with love anywhere in the world!

Enjoyment of pleasure is eternal only with love in the world;
But for quick enjoyment, many rush as moths to fire for lust!

Ramesh T A
Moulding Of Complete Human Being!

We come to know of anything in the world
Seeing statues, paintings, literature and history!

Artistic works of Raja Ravivarma, Picasso,
Michael Angelo, Leonardo Da Vinci and all
Express the ideas of everything helping all to
Visualize about anything to start with before
We come to know the truth by our own ideas!

Before them and after them all over the world
So many creative works have come and are still
Coming to enlighten, inspire, instruct and guide.

Knowledge of our interest, general knowledge
About everything and our own visualization
Mould our mind and develop our personality
To make us complete human being to do all sure!

Ramesh T A
Mourning With Rain Of Tears!

Mourning for the demise of beloved one coupled with
The cloudy atmosphere always waiting to rain anytime,
One is driven to the verge of tears by cry at last!

Many people exploit the good souls for their benefits
Without bothering about the development of their health
Always minding one's own enjoyment and happiness only!

Bearing all the brunt, the good ones finally seek rest,
Which is not easily possible to enjoy due to personal
Tasks waiting to be finished for settling to have rest!

After hellish service also, some more are ready to ask
For their assistance to carryout certain works not easily
Possible by them only to criticize and find fault as ever!

For such souls, demise is blessing in disguise to leave all
Troubling elements suspended in disappointment ever, it seems!

Ramesh T A
Movies Are Not Movies Now!

Many kinds of movies are coming;
But horror movies are not interesting
As the James Bond 007 movies!

Movies means it should be thrilling
Making one forget the time and world
And that is the thing movie has to do!

Movies of the past starting from 1960s
Till around 1980s were really wonderful
And can be seen even now without bore!

Why are such worthy movies are not coming
On the silver screen theatres around the world?
There is nothing amazing as romantic ones too!

Certainly movies are replaced by TV shows
And DVD players are more than movie theatres!

Ramesh T A
Much Ado About Nothing!

When we are living in 21st century now,
Some still live in 20th or 19th century ever!
Understanding of matters differs much
And also, convincing the backward minds!

Logical analysis gives a visionary picture;
But exaggeration of matter by imagination
Makes all matters beyond focus to know
And bring to a logically practical possibility!

Not knowing the difference between two things
Contrary, people imagine to be the same and
Jump to a wrong conclusion starting troubles
And chaos leading to big crisis quite foolish...!

Instead of thoughts based on knowledge, some
Make a mole into mountain by imagination...!

Ramesh T A
Multiple Problems Need Proper Listing To Solve All!

Troubles of all kinds are common for all to face in the world; Multiple troubles when come at the same time, one has to deal With them one by one to settle all in a single stroke ever...!

If whole life is spent so, where is the time to mind one's own Interest to get peace of mind and some joy to have solace sure? But not knowing this some go on pestering with problems forever!

Only a resourceful person can bear all those things in silence And divert one's attention in things of one's own interest to Get satisfaction one longs for quite long with some settlement!

Anybody else in such a one's shoe would have ran away or gone Mad or ended one's life unable to bear all crises as a whole Not knowing to solve them by listing all in order to settle all!

Persons and situation are powerless unless one reacts to them; It depends on one's proper decision to solve all listed in order!

Ramesh T A
Music Is The Best From The Birth To The Death In Life!

According to the tune and the rhythm of music, if Song is sung, it will be melodious and enthusiastic To listen and dance forgetting oneself in the world!

The combination of seven notes in the tune and the beat Of rhythm lift up the mood of the singer to sing song In enthusiasm making audience to dance to the tune..!

The symphony of music composed with various orchestras Like violin, guitar, trumpet, piano, flue and drums om A huge theatre full of audience is a grand performance!

Time and space nobody is aware of in the mood of trance Controlled by the magic of music that takes all up above The world to a world, where there is no boredom in life!

Such a mood inspiring music is a wonderful gift of God Man has to use it to the best from the birth to death ever!

Ramesh T A
Music Is The Food Of Love!

Love is the song of heart that goes on endless,
When the romantic music serves as food to love!
Inspired by romantic mood, love blooms betweeen
Two hearts in song and dance for union of souls!

Romantic atmosphere like in the cool hill station
Who cannot love one's lady or a lady one's hero?
Romance is the healthy food that flourishes love
Between hearts in endless new tunes on and on...!

Tango dance between two intimate hearts goes on in
Romantic music increasing the crescendo of love
Like the feast full of new items to consume endless
Till they kiss each other many times as thanks sure!

Song and dance of love inspired by enthusiastic music
love flourishes in healthy life with kiss and joy ever!

Ramesh T A
Music Is Universal!

Music captures mind,
Moves heart and soul!
Music sways everyone
Both for joy and sorrow!
Music has no language
But absorbs all languages!
Music is food for love,
Creates mood for romance!
Music makes all dance
To its tunes long or short!
Music is divine for all
Whether it's East or West!
Music is eternal as Universe
As silent as divine everywhere!

Ramesh T A
Musketeers Rise!

Musketeers are great boon to any nation;
Fiction or fact, nation will enjoy good time,
If such kind of watch dogs are there ever!

Now, such musketeers are needed for world
To be safe from terrorists and Nuclear threats
That are looming large ticking to alarm soon!

Certain incorrigibles need to be eliminated by
Faithful musketeers to safeguard security system
Quite vulnerable to bad elements due to infiltration!

World is reeling under the threats of bad elements
Sure to create havoc anytime under some pretext
Or other anywhere from the vulnerable States soon!

Sooner the better, if the musketeers, who are under
Ground, show their brave heads to stop all ills sure!

Ramesh T A
Mustache Or Soup?

It is not possible to deal with two things of interest at the same time with full justice;
If interested in taking soup, mustache has to be cut or if interested in mustache, cut soup!
If both cannot be relinquished, it is like riding on two horses at the same time,
Which will split one into two pieces, if one is stubborn in two matters at the same time!
Family and profession are two things one has to deal with suitable action sure;
If profession is top most interest for one, family will suffer needing one's care;
If family with children is top most in heart, one's professional work will go slow;
If one cannot decide firm about what has to be taken care of most, one is ambiguous!
Sans proper planning and clever action, one is not able to perform anything better;
Sans making arrangement to deal one after the other, two matters can't be done;
It is like a matter of a man with two wives having children too with both forever;
If one is capable of dealing with two families, one is an extraordinary person damn sure!
Success and failure of a person in life depend upon right decisions taken earlier;
But it is of no use crying over spoiled milk late, when no help is ever available!

Ramesh T A
My Be All Nature!

My mother, father and God are Nature ever;
My friend, philosopher and guide are Nature;
Those who don't see Nature so, seek others
And suffer not having a true and proper ones!

Disappointments and desolation have taught
Lessons of that kind to me and I have embraced
Nature forever for all my necessities and guidance
To surmount all hurdles whether it is hill or sea!

Gaining strength to strength each day I stride long
Like a soldier with steady march on my way to
Glory and prosperity on my own terms and condition
Whatever be the deal and whoever they may be ever!

With the inspired mood direct from Nature I daunt
Against all except love and kindness of the beauty!

Ramesh T A
My Career!

When I was directionless losing all chance for a good career
At the beginning of young age, I expressed my feeling of great
Dejection, disappointment, disillusionment and hopelessness,
(I decided to write) in a poem that made my only best friend
To advise me to become a Poet writing poems in a diary what
All I felt and ideas that were wonderful according to him then!

All kinds of writing was beyond my jurisdiction due to paucity
Of time and so, I wrote a few lines then and then and completed
Full poems taking time and wrote only just twelve poems only
In 17 years because of confusion to follow any form of writing
And then only realized that my talent was in writing poetry and
I have become a Poet to write poems continuously for about three
Decades besides doing business out of obligation to fulfil elders' wish!
Otherwise, I would have become mad or a vagabond or a suicider!

Ramesh T A
My Daily Activity!

Writing in the diary became a habit for me; Writing poetry has become a hobby later...; Now breathing poetry is vital for my life....!

Imagination makes a seemingly nothing real! It was a big instrument for our great bard..., William Shakespeare, a great poet of all times!

Literature is the story book of human life ever; Both comments and criticism are common there; For Matthew Arnold, literature is criticism of life!

Criticism is the assessment and judgment of life A scribe writes based on the experiences of others One comes across in the world life we all live ever!

All these ideas and knowledge help me to write All my poems everyday as my daily activity now!

Ramesh T A
My Daily Routine!

Tricycle carts carrying flowers, fruits, fish and vegetables
Capture my attention, when I am standing in my house balcony
Breathing fresh morning air just after waking up from my bed!

Washing mouth and taking bath, I take breakfast early now..., 
A departure from my way of routine unlike in last years, when
I read paper, eat, browse and write poetry before bathing...!

Morning hunger is more than the hunger at lunchtime or night
Dinner that I take very late and settle myself browsing all
In my computer before I go and fall down on bed tired sure.!!

Other times, I go out for purchasing or having walk in the beach
Before I sit and see TV news and film songs of my interest ever;
That happens usually in the evening before writing on computer!

Poetry is like a spring coming out from the depths of my heart
Not knowing anything before and after writing and forget all..!

Ramesh T A
My Dear Marieta!

Many more Happy
Returns of the Day to You
My dear Marieta Maglas!

Ramesh T A
My Debt Is To Serve Forever!

In this world of uncertainty ever,
Deserving people are unrecognized;
So, my debt in this world forever
Is to simply lie doing service...!

Only economic development is ever
Given focus at the cost of society;
Human value is degraded so much that
Only money value for all stands top!

Even knowledge and power are poor
Sans the background of money to do
All things all can know and like to
Recognize for any value of a person!

With money, politics is run in nations;
For anything, unless it brings money,
No one takes note of any great thing
And say anything good in praise even!

When will world economy reach high point
For society to have human sense to feel
Well for love, affection, empathy, mercy
And kindness to prevail in social moves?

Appreciating goodness, beauty, truth and
Great values on the basis of merit and
Accomplishments by sincerity, honesty,
Talent, genius or skill when will happen?

Ramesh T A
My Dream World!

Transparent light green screen on two French windows give the impression of dream world, when I enter the bed room, where Sun light or streetlight filters through them in the morning or night...!

Once entering the dream world, the noise and other disturbances of Outside world immediately disappear making me float in imagination Somewhere in a place like Moon, Mars or the Stars in the Universe!

Light and dark shades all over the places simply transport to a state Of trance romantically or mystically according to the mood of the day Or night to explore long in a timeless space never gone before ever!

All happen coupled with deep sleep until the sound of birds and Bright light of Sun wakes me from slumber after going to the distant Dream world just as in the silent, beautiful world of sea sublime long!

Such a wonder the transparent window screens create in the mind of One who is tired of world woes and works endless everyday of life...!

Ramesh T A
My Exclamation Marks In Poems!

I haven't even dreamt that I would be writing poetry;
It is a miracle I write all lines of each and every poem!
There is a criticism that I write poems with exclamations;
Lines and titles of each and every poem are incredible,
When I am writing and completing poetry every time!

All ideas come like a lightning flash and disappear soon!
Before they vanish completely I write lines with words
That flow like river fast and slow according to my mood!
Every time I complete writing a poem, I feel it is a miracle
That has happened and so, I punctuate and put exclamations!

Exclamation marks are very common in all my poems
And they mark my identity even without noting the title!
It is not my special fun to play but a surprise that I write
Such and such lines and such and such titles to my poems
As they occur to my mind in a flash of light I catch tight!

Creativity itself is a great surprise needing to be marked
With exclamation marks without fail to share my surprises
So with all who happen to read my poems and also, feel so!
This kind of extempore expression of my experience in life is
An incredible surprise making me to put exclamation marks!

Ramesh T A
My Family Tree!

My family is a good tree;
Trunk and branch are father and mother;
Fruits and flowers are me and my sister;
Leaves are the home of our family
Giving shade not only to us but also others!

Ramesh T A
Shakespeare, Milton, Wordsworth, Coleridge, Shelley, Keats, Byron and Browning are poets Who have molded the poetic minds of many!

Erudite poet Milton is difficult to decipher ever; But his Paradise Lost and Paradise Regained Surely stand as new bible in everyone's house!

Wordsworth takes the garb of Nature mystic Writing Tintern Abbey and Prelude for all to Read and understand power of Nature ever!

Coleridge. his friend born to write poetry of All kinds and supernatural too drinking as A soup philosophy, was to guide his friend!

Likewise Shelley and Keats were friends Noted for free love and freedom in the Romantic era enriched literature forever!

Adventurous Byron and love poet Browning Are the final poets of romantic movement That make literature a complete book for all!

Of them all, Shakespeare is the King of romance Who mirrored life in literature forever to read and Relate in life even today being my favourite ever!

Ramesh T A
My Favourite Poet!

With his erudition in philosophy, romanticism, Supernaturalism, dreams, extempore art and Criticism Coleridge is my guide of poetry ever!

Of the contemporary poets who come to my Mind are Stella, Magnolia, Karin Anderson And finally Fay Slimm besides Ramesh T A!

Stella has great skill in writing various forms of Poetry on garden of flowers, Stars of Sky, Nature, Love and sparrow bird stories quite interesting...!

Magnolia is another poet of a genre captures all Hearts in dealing poems of emotion, love and life Appreciating others on points of view on wisdom!

Poet Karin has poetic diction full of imagery when Narrating romance in free style she only can ever Capturing the hearts of minute detail seekers sure!

Lover of Nature, poet Ramesh dwells deep in various Subjects according to his mood quite philosophic in His approach being romantic in sense of humour...!

His only best friend Fay Slimm is his favauorite of All his contemporary poets here for her nuance in Style in writing poetry of adventure on love forever!

Ramesh T A
My Favourite World Of Fantasy!

Becoming busy with creative activity
I find no time to go to Nature and
Lie down on green meadow or lawn
To watch blue sky with white clouds
Or see the number of stars winking
Eyes at the Super-moon queen rise!

Composing poems and writing all
Sorts of comments and criticisms
All day long I am immersed in those
Continuous activity till there is no
Time left to mind my special hobby
Of basking in Nature as I please...!

It's Nature that has made me so now
And still inspiring me with its special
Effect magic to create masterpieces
Like work of art by me on various matters
To the best I can to get the satisfaction
I have been longing then and now too!

Though I am far away from my beloved
Nature I love most, I am still have photos
Of beautiful, colourful and lovely flowers;
The cluster of flowers like the Stars of Sky
Take me to the fantasy world of infinity,
The Universe engrosses and engulfs one...!

Ramesh T A
My Great Poetic Journey!

My Great Poetic Journey!

About all subjects I have written in my poems and articles;
Before and after writing I don't remember about those matters;
Care I take composing all poems till I get some satisfaction ever;
Delighted in creating something new I am elated high in mind often!

Enjoyment, enlightenment, inspiration, information and energization all have
From my poems, articles I have contributed to various websites long;
Good responses from ardent readers have surprised me many a time;
How I wonder about my ideas that have inspired all to higher states often!

Iconic poet and heroic scribe are some of the titles I have earned so far;
Joyful readers' appreciations urge me to publish more of such best ones;
kicking the ball of my ideas I gain many a goal in my poetic adventures;
Lovely poet friends I have earned from various websites all over the world!

Many miles I have crossed in my explorative and fine philosophic poetry;
Never have I exhausted in my journey in the world of literature so far;
over and again I have earned high encomiums from high minds long;
Perfection is yet a great task to perform to attain the lord-hood still!

Quite a lot I have written, but the satisfaction I am longing for is still in balance;
Rules and regulations no one can fix in poetic expressions sure ever;
Saturation point cannot be achieved unless sublimity is arrived at in poetry;
Truly that is what my heart is ever craving for in my long journey of poetry!

Universally have I been flying like a free golden bird in high level so far;
Variety of minds, hearts and souls have I come across on many occasions;
World wide poet friends give great delight and dignity to my reputation sure!

X men like poets are extraordinary souls I find in my long literary journey;
Years of effort have not failed me to discovery many unknown ideas;
Zealous mood in poetry has not yet diminished within me as quasars in Space!

Ramesh T A
My Heart Welcomes You!

In this New Year I wish to see you all
Once again as in the past in this website!
Will you all hear my voice and respond?

I wait for you all my friends for your
Nice voice to hear through your poems.
Come on! Don't bother about any dolts
Restricting your honour or valour here!

My old friends, I am still thinking about all;
I am continuing my poetic works nonstop;
But I don't find my best friends here long!

I am here to receive you with my heart!
Along with me still some friends of your
Group doing the best they can selflessly;
Why can't you join us again from now on?

Ramesh T A
My Inspired Writings!

Travelling a very long way in poetry, I have
So far completed more than 80 books in all!
They are all read as poems, articles and stories
On various websites in the English speaking world!

Compiling all my writings in the form of Books
Such as novel, short stories, non-fiction ones
And poetry books, I have enjoyed a sumptuous feast
In the world of English Literature for two decades!

They are all appreciated as one a kind creation
By intelligent readers, friends and fans all over
The world with their esteemed comments and criticisms
For the past a decade and more on many websites...!

Around five thousand poems I have created out of
Self induced inspiration direct from Nature ever!

Ramesh T A
My Journey Of Ambition!

Nature is the only resort, when everything fails!
The beauty of Nature cools my heart with relief
And rejuvenates my spirit to go ahead forward!

More than the living companion and wise books,
Nature is my only friend, philosopher and guide
So long and so forth making me what I am today!

With Nature inspired dreams and a vision of the
Whole I have been going on with my activities ever
Nonstop crossing many a mile to my destination!

I am still continuing with my journey of ambition
Seeing many a laurel and pitfalls with renewed
Efforts to achieve a mark in the world quite novel!

Nature only is still providing necessary energy to
Venture on the project none has ever ventured....!

Ramesh T A
My Life On A Canvas!

My life will be a map of inner life rather a vision;
It's an ocean island in all surrounded by blue water
With snow capped mountain peak touching mists
Which connect the Earth and the Milky Way in the sky
Having the Milky Way as the stair case to heaven!

Man is stranded on a boat in the middle of the ocean;
It is night time and he sees a light house at a distance;
Even after the boat is broken by a storm he swims
With the sole aim of reaching the island shore first!

His aim is to cross the plains, climb the mount to reach top,
where he can mingle in meditation with the mists there;
The vision will tell the route to reach the heavenly stair case;
With gentle walk on the Milky Way heaven can be reached!

Struggle on the ocean gives resolution to reach the destination;
Crossing the plains in toils gives experience to aim high;
Climbing the mountain gives maturity of thought to muse then;
Mystical communion of mind with Nature paves the way to bliss!

Knowledge, vision and ambition drives will to make achievement;
The mingling of inner soul with the Universal Spirit ends mission;
The paradise of Earth after suffering leads one to heaven of joy;
This vision of life is the dream of many a poet all over the world!

Ramesh T A
My Mark In The World Literature!

I just wanted to be a writer,
But God has made me a poet!
I wanted to write what I wished;
Now, I am writing poems much!

Continuous writing of poems is
Not an achievement but a miracle!
It is not work of talent, but a
Gift of God happening forever!

Three books such as Day and Night
Poems, Dreams and Realities and
The Ultimate One I have compiled
as Dreams, Ideas and Realities!

My name's engraved in golden letters
With my Poetry Book, Dreams, Ideas
And Realities forever and that's
My mark I have made in Literature!

Ramesh T A
My Nation!

I live where flowers bloom all round the year!
All natural resources are well available here.

Many rivers of life run through the nation!
Dry lands and fertile lands are a combination.

Blue sky, grey sky and misty sky are there!
Birds of many colours are we can see here.

Two seas and one ocean surrounds the nation.
Tallest mountain in the world is here a fashion!

Mountains on the North and seas in the South
This nation has ever with many a colourful fete!

Fishing and agricultural activities occupy ever
People here though ignored by industries sure.

This land of beauty and greatness all love to visit
Coming from North or South or East or West...!

Ramesh T A
My No Return Journey In World Literature!

Literature was of great interest to me, when I finished school;  
Due to limited colleges, getting seat in professional courses  
Like medical and engineering was an impossible dream at that time!

Neither able to fulfil my dream of becoming a medical practitioner  
Nor the wish of my father to do engineering service as engineer has  
Made me to study Physics course being interested in Nature ever..!

Not only in studies but also in life, Nature has given me solace.  
Inspiration and encouragement to overcome all disappointments earlier  
And compensate all losses by giving hope to achieve something great!

Even after working as an industrialist for a lion's share of my life,  
Passionately I have begun my poetic writing career after seventeen  
Years and am achieving many laurels as World Poet nonstop even today!

Being swayed by romantic poets interested in Nature, freedom and love,  
I go on a no return basis in my onward journey in world literature...!

Ramesh T A
My Poetry Writing Not An Achievement But A Miracle!

There are persons becoming famous in the poetry world too
Because they are well known professionals in some fields;
But I am standing tall in such a position by my Poetry only
After I have devoted to Poetry writing work since 46 years!

Even after writing one hundred and ten (Poetry)Books, I am
Still going on writing poetry as a lively river sans stop!
Many may feel it is a great achievement and praise me as
Great and all, but I say it is a miracle happening in my life!

On search and discovery, I feel my poetry writing skill is
Not just talent or genius, but it's a God given Gift to me;
Perhaps through my pen, God is writing His ideas for the world
People to read and say what they like plain or philosophical!

It gives me great relief and satisfaction I have not got from
Many things I have done whether I liked them or not in my life!

Ramesh T A
My Self Development!

Caught by the conventional rigours of society
I sought for some relief here and there with
My mind engrossed in the beauty of Nature!

Got peace of mind and an idea to read books
By Charles Dickens and Ian Fleming due to
Educational influence and movies of the time!

Influence of Dickens urged me to write all I could
With the encouraging inspiration of James Bond
Movies in the 1960s continuing to my status now!

My survival, sustenance and success are due to
My strenuous efforts in writing poems of all things
To find solutions and go ahead scot-free in mind!

Greatness of my Self is being established by Poetry
I write ever with inspiration and power from Nature!

Ramesh T A
My Success In Poetry Is Miracle From Nature!

Nature and Poetry inspire and survive me forever;
Nature gives solace when nothing seems to be ever
Fulfilling me in whatever thing I do since long;
Inspiration from Nature helps me to write in poetry!

So many poems I have written so far I remember not all;
But the satisfaction I get after expressing ideas in verse
Indeed is something no one can enjoy like me I am damn sure;
All these things give me the feeling that I breathe Poetry!

Nature is living scientific art nothing can be compared with;
Poetry is the art that depicts the beauty and wisdom of Nature;
The happiness I enjoy in Nature and the ideas I write in Poetry
Surely have increased my longevity and made me an immortal being!

Divine spirit in Nature is real as I have enjoyed its miracle
In the achievements I have made through Poetry so far and so forth!

Ramesh T A
My Thoughts On My Becoming A Poet!

All thoughts of New Year creep in my mind to think about it now;
Before venturing on writing poems, I was just dreaming to be a writer;
Conditions prevailing at that time did not allow me time for that;
Definitely I never dreamt that I would become a world English poet!

Entire energy of mine was devoted to industrial development work only;
Full time I was forced to occupy industrial work in an inventive way;
Gone were twenty two years so with no time to see even cinemas for long;
Highly dejected, depressed and deprived of time, I cried in a verse then!

I could not get peace of mind and looked for the sky with stars at night;
Joy in communion with Nature diverted my attention to a Star in the West;
Keeping myself occupied so, I dreamed so many things and felt to write;
Longings of longtime made me write a poem called That Midnight Star...!

Mentally occupied with all things of Nature, I became a mystic so to say;
Never before that I had that kind of peace and bliss in Nature so sure;
Over all 17 years it took me to discover that my talent was in poetry;
Poetry has become my life first and last and I breathe poetry forever!

Quite a lot have I written from trivial thing to philosophical ideas;
Resolved to make all my poems into a poetry book arose 20 years ago;
Surprisingly with 68 poems, I published a poetry book somewhere in 1996;
That Book called by the title Dreams, Ideas and Realities bears my mark!

Universally the mark I have made as poet stands firm with that book ever;
Various subjects I have dwelt with to compose poems in my Dreams book;
World has called me as an established poet, after I wrote on websites!

X and Y have become my poet friends in many poetry websites of world;
Years of my yearning to become a writer has destined me to be a poet;
Zealous mood everyday urges me to write poems endless as I do now ever!

Ramesh T A
Mysteries Still Remain As Puzzles!

Everyday night crescent Moon comes as shining gold
Whether the Sky is scattered with Stars or just clouds
To entertain the curious child to have fun for long
To have a clear view of its arrival and departure!

When I say the Moon has only sand, no trees or water,
The child listens with amazement as it looks strange
And incredible and when I say Moon has no water and
No clouds or atmosphere, the child get puzzled deep!

Such a gold like shining Moon has nothing there means
What a great mystery the Moon is just as we too felt
When we were a little child like this child who is
Listening every detail with keen interest and curiosity!

Yes, the creation of curiosity makes all think much to
Explore the hidden truth in all things mysterious in the
World an the Universe since time immemorial to mankind;
Yet, many mysteries remain as great puzzles till this day!

Ramesh T A
Mysterious And Funny!

Forlorn in a land of no return, they have left the world;
Moving on the long grass land no mountain or sea there's
To see higher or go out on a boat to somewhere else for
A survival and finding a way out of the labyrinth I have
Been disposed like a waste paper drifted in the wind by
Time to a space none has any access to know anything
About me or for me to have contact to get out of the impasse
To be in the world I have been familiar with to go ahead
According to my will and pleasure to achieve the goals of
My ambition in life to be happy and gay to fulfil my
Destiny fixed by fate that decides about everyone's life
In this world of uncertainty, mysterious and funny making
One hopeful and at the same time disappointed by the
Returns I get for all my efforts in the field I am best at ever!

Ramesh T A
Mystery Of Life!

Life is a mystery as long as choice is not made. 
Man does not live by instinct but by intellect; 
So, only by learning and knowledge, man lives!

Man needs a model to follow to live a safe life; 
Being a thinking social animal, man can select 
A way of life knowing religion and literature...!

Based on knowledge, man can visualize whole life, 
Have an ambition to achieve before the end of his life 
And fulfil his wish according to his nature in the world!

Literature is life guide book and religion is spiritual 
Guide to reach the saturation point to realize liberation 
By union with the Universal Spirit to have completion!

Light house of knowledge shows one stranded in the sea to 
Swim to shore to cross fields, climb hills and reach heaven!

Ramesh T A
Mystical Communion With Nature!

The confluence of sea and sky at the horizon
Before sunset is beautiful and absorbing the
Whole soul besides heart and mind musing
In delightful fantasy solaced by cool breeze!

What a relief one gets from all stress and strain
Leading to tension all over the day to the point
Of depression too unless one happens to see the
Point of confluence of sea and sea at the horizon!

Time and place forgotten in this state of trance
Float I in full freedom as the spirit within is awake
To enjoy the communion of mind with Nature
Wonderful, beautiful, delightful and elevating long!

No healing balm can replace this kind of relief ever
One gets from mystical communion with Nature...!

Ramesh T A
Names Of Poets!

Names of poets

Are shining as Stars of Sky

In the hearts of men

As they are in the good books of God

Telling truth always to triumph!

Ramesh T A
National Economy!

National development

Can't be decided by economic note

But by happiness of all!

Ramesh T A
Natural And Artificial Developments Of Humans!

Natural interest develops one to the full to do great feat
Whether one is fully educated or not due to one’s situation
In life like great geniuses like Albert Einstein, Bill Gates!

Whatever be the situation and circumstance in life, natural
Interest drives and brings one up in life to do great things
To achieve a name and a mark unique by one in the world sure!

The artificially imparted educational knowledge prepares one
Only as a standard citizen capable of doing ordinary jobs
Requiring no thinking and initiative, but a mechanical one!

Only multi-faceted knowledge of extraordinary ones with some
Talent or genius can do many inventive and creative works in
Any field benefiting the creator as well as the society much!

Education realizing the natural interest of one if develops
Fully well, many talented ones and geniuses create miracles!

Ramesh T A
Artistic mood increases interest and enthusiasm in art;
Even if mood is disturbed, beauty of art makes one free;
For, art absorbs heart, mind and soul to forget the world!

As in meditation, art makes one forget worries, nigh-mares;
Meditation, imagination, emotion and vision help create art;
Knowledge, experience and talent help one create masterpiece!

Beauty of Nature is the first inspiration that absorbs one
And kindles to create picture, painting and poetry ever-lasting;
Art is frozen Nature that poetry paints with words full of life!

For facing problems and living life meaningful poetry is there
To inspire and encourage one with vigour, vitality and power
Since time immemorial ancient, current and future art fresh...!

Nature is living scientific art that energizes heart, mind and soul
Of one to be a poet, philosopher, scientist and bard to humanity!

Ramesh T A
Natural Beauty!

Beauty is adequate natural or real expression of animate and Inanimate things in Nature, art, human and all in the world sure!
Flower is best expression of natural beauty we all love much;
Paintings, statues carved in cave rocks are best beauty of art!

Green meadows and valleys, Star studded Sky and blue sea
Are all best beauty of Nature that elate mind and heart ever;
Dance that absorbs everyone and kind, graceful words and
Acts of fair sex surely have magnetic effect by beauty ever!

Anything that is naturally beautiful sans any artificial setup is
True and ever lasting serving a great purpose in alleviating all
Pains and suffering by its grace unique being the gift of Nature
Inspires man to achieve something as a mark of gratitude in art!

That is why, art expresses ever best of beauty in all its forms to
Appreciate beauty in gratitude for all to know and cherish ever!

Ramesh T A
Natural Beings And Artificial Machines!

Lively natural creations in the world are wonderful
And that have kindled creativity in man too long ago;
vast wide sky is the world of birds to fly and see all
And that has kindled man to invent flying machines...!

Swimming fish has kindled desire for man too to make
boats, ships and submarines and swimming suit to see
What is inside the seas and oceans to know mysteries
And all sunk ships full of treasures of the past sure!

Bold and courageous fighting animals in the forest have
Inspired man too to fight with small stone weapons to
Swords, guns, bombs, tanks and missiles to extent of
Destroying properties, lives and even the world sooner!

Naturally living beings and mechanically working machines
Seem to be in competition vying with each other to take
The leadership of the world to monitor and maintain all
Things animate and inanimate in the due course of time!

Lively natural things and remote controlled artificial
Machines make the world a place of experiment and also,
A junction for still more advanced creatures like Aliens
To do so many fascinating and mind boggling matters ever!

Ramesh T A
Natural Calamity The Sure End!

We can express only what is within;
We cannot out do beyond ourselves.
Longing musical beat or poetry stuff
Are for our satisfaction to gain ground;
Personal satisfaction cannot be compromised.
The freedom we enjoy cannot be curtailed
By others privilege at our own destruction.
Democracy is of, for and by the people;
Politicians and bureaucrats can be changed.
True feeling has respect from other humans;
Readymade items cannot match before tailor-made!
Nature cannot be tamed by artificial barriers
Blocking its free flow forever and forever;
For, natural calamity is the end sure otherwise!

Ramesh T A
Natural Character!

Why dog's curly tail
Can't be straightened out is
Natural Character is fixed!

Ramesh T A
Natural Couples!

Tectonic plates' movements of Earth cause catastrophes; Earthquakes, tsunamis and volcanic eruptions have come; Natural disasters cause havoc unprecedented very often; Yet, mother earth survives many lives none can ever...!

Conjoined continents are now separated all over Earth; Structures of America and Europe-Africa are examples! Better halves made for each other are coupled by ocean, A great wonder reflects living beings' nature forever sure!

Better halves naturally made for each other getting coupled Seem a fortune many witness in the world of living beings! Perhaps if all beings are naturally well coupled forever Will there be any catastrophes as happening in Nature.....?

Kisses of couples confirm union of better halves well made; But all weddings have to be fixed by heaven above ever...!

Ramesh T A
Natural Destruction!

Natural destruction  
Is irreparable once happens  
Anywhere!

Ramesh T A
Natural Development Is Real Growth In Life!

Natural Development is Real Growth in Life!

Clean slate is the mind of child in the beginning of its life;
The child wonders at seeing everything in the outside world;
What it physically perceives and mentally conceives records in mind;
All decisions the child takes are based on the ideas in its mind!

Based on experiences, perceptions and conceptions are made;
Based on perceptions and conceptions of ideas decisions are made;
For everything, knowledge is necessary to know, decide and act in life;
To do so, knowledge is gained by experience, observation, reasons and ideas!

Knowledge and experience help one gain wisdom in life of the world;
Man develops from childhood to divine hood by knowledge, meditation and mysticism;
Physical, mental and spiritual growth leads to sublime state of being;
Attainment of such a state is the spring board to divinity or moksha!

Like the tree grows from the seed, the natural growth of man takes place;
Only by natural self growth and expression total fulfilment is truly possible!

Ramesh T A
Natural Feeling!

Days fly fast in the material world;
All work as machines mechanically
Watching and running with time
Whether we succeed or not ever!

There is no chance for natural feeling
To understand value of love or kind
Gestures, words and acts that affect
Our life both for good and joy sure!

What is the use of life sans feeling
That inspires and transforms one
From lowest level to a high status,
But just as a mechanical Creature?

Apart from a mechanical routine
Time for natural life makes a human!

Ramesh T A
Natural Festival Of Lights!

Festival of Lights is celebrated
For the downfall of evil forces
Trying to have control over
The world for destruction and
Never for construction of good
For mankind forever and ever!

To vouchsafe this fact clearly
Nature itself has brought rain
With sparkling lightnings and
Crackling thunders in November
Just as people enjoying in burning
Sparklers and exploding crackers!

To drive away evil forces and inviting
Good forces for the benefit of
Mankind and for the survival of
All peace loving beings in the world
All are burning colourful lights and
Exploding various colourful crackers!

By Nature's grace drought prone areas
Are benefited with heavy rains filling
Up all lakes, dams and rivers needing
For irrigation and growth of rich crops
To make life go on prosperity and ever
Surplus produce during harvest time!

Ramesh T A
Natural Is Original Ever!

More than the original, the imitation
Always attracts much many anywhere!
Art itself is an imitation of a natural one
Capturing all hearts by realistic picture!

Beautiful creative work is an art requiring
Great skill to excel the model itself forever!
But the first original creation is the natural
One that inspires many to create in variety!

The fortunate ones reach many before the
The original one sees the light of the day!
There the twist of fate plays its tricks on
The first natural creation as secondary...!

Support of the fans for the inspired art
Overshadows the inspiring natural one!
But the truth comes finally after all sounds
Subside elating the natural as original...!

Ramesh T A
Natural Justice Never Fails!

Heavy down pour of rain on Western Ghats
Already have made the rivers go on spate
Flooding waterfalls and filling dry ponds
In all the South Eastern States of the nation!

Though man fails to heed the Supreme Court
Orders, Nature makes them open dam doors
For surplus water to flow to riparian areas of the
Southern States by heavy rain on Western States!

Though the law is hoodwinked, Dharma saves
The deserving ones finding a way to alleviate the
Sufferings of needy people to enjoy with rich
Dividends at the end every time without fail...!

Sharing of national river water among all the
States is just and fair indirectly Nature says so!

Ramesh T A
Natural Justice Of Nature Is For Fulfilment In Life!

Natural growth or formation of trees, plants, leaves, flowers on Hills, valleys, plains along the river course to sea meeting sky at The horizon is beauty of Nature no one can fail to appreciate getting Peace of mind, when in a lost mood one approaches to get solace!

Nature is a lover of beauty that kindles love and awe to the seeker Of bliss and peace getting wasted time in mundane things of the World for long duty bound ever not knowing the way out to get Relief or respite to breathe free air to realize self and power within!

Education and work make one a prisoner of life in the usual route Believing to be safe to live life as a mechanical being till the end Sans knowing the potential power within to know truth in all things Around, their purpose and fulfilment in human life till one's end...

Merely living life sans knowing Self, world, Nature and Universe is Total waste of time in the world and also not realizing what life is..! Knowledge, existence, bliss and absolute are all constitute one's Life in this world and afterwards till one reaches ultimate reality....!

Enjoying beauty and achieving beauty in everything in life to attain Perfection or completion or fulfilment is what Nature teaches to all! Discipline, order and perfection are the aspects of beauty all can Say as natural Justice of Nature we have to follow to get fulfilment!

Ramesh T A
There is limit for everything in human life in the world; 
Like changing seasons, man's life has age phases here...;
There is birth, growth, youth, old age, death and rebirth;
Particular phase of life cannot be prolonged forever sure!

Human enjoyment of pleasure in life, art, Nature and all
Take place according to the situation of one's life phase;
Prolongation of sensuous pleasure can't go on forever as the Season of life after Spring, Summer, Autumn ends in Winter!

Again rebirth of Nature starts with spring to Winter to Go through the phases to have completion of cycle forever;
The process of Nature no one can change by science, art And technology to have particular phase of life forever!

In the modern world with science, man tries to excel Nature Manipulating natural order for one's own convenience here;
By doing so, he exploits Nature for food, fuel and energy to The extent of polluting and changing climate for disaster only!

Earthquakes, tremors, tsunamis, storms, typhoons and floods Are the greatest natural disasters man has to face eternally; Though he boasts about his science and technology to overcome All Natural disasters beyond man's limit, he is powerless sure!

Ramesh T A
Poetic visions are a great wonder to explore and admire; 
Keats and Yeats are best of such poets no one can forget; 
We know map of the world and aliens know map of Universe; 
But Yeats expresses map of vision about life quite amazing!

Heard melodies are sweet, but unheard melodies are sweeter; 
Unheard melodies may be sweeter, but heard ones always sweet! 
This is how Keats and Yeats say about their taste of songs! 
That is the difference between romantic and philosophic poets!

Both are best at expressing wonderful ideas quite immortal in 
Their poetic outputs from first to last in their career ever! 
After them everything has changed with the arrival of Browning 
And then Mathew Arnold, T S Eliot and modern poets we know...!

Whether it is classic or romantic or modern, natural poetry is 
The best expression of heart in a genre quite new and lasting!

Ramesh T A
Natural Poets Way Of Fun!

Academicians and professionals too embrace Poetry; They too have to live life the way they prefer and To overcome their helplessness and lack of fulfilment Only Poetry seems to give a helping hand it seems..!

Teachers, professors, doctors, engineers, physicists, Mathematicians and litterateurs have taken the dress Of Poets to write ideas of their in the genre of poems They like and feel calling themselves as Poets ever...!

Poet is a free bird who cannot take the garb of others And sing one's songs in full throated voice as all those Professionals do having meetings like business conference Or University convocation conferring or fellowship ones!

Novelty is what Poets love in performing happy programmes Quite in a free style without tightening each one with Limited time or long time like slow or fast rpm records For all serious or jovial or humorous or dramatic scenes!

Away from all these academic or institutional scribes, Natural poets have a way of doing all such things bettter In a natural way under natural atmosphere in open lawns Or roof gardens having full freedom to enact what they like!

Ramesh T A
Heat fluctuation brings in convectional rains making us believe season has changed;
But after the rains, again radiation of Sun doesn't seem to minimize in measure;
If there is rain on some places, heat waves don't seem to show mercy elsewhere;

It is due to man's pollution making advancements, climate has changed all over world!

Despite such drawbacks, Nature balances itself by sudden rains in dry areas
Bringing some solace to farmers and water scarcity places bringing cheers to all;
Perhaps Nature by rationalization shares even the meagre resources with all;
Not only Nature, but also, all disciples of it follow the same rule in all seasons!

Yes, the so called ordinary crows share whatever available food with all their kind;
This is the everyday lesson they teach to all mankind to follow with its kind ever;

Yes, I mean sharing of river water with all drought prone States by neighbours;
Not only for crows but also for all united we stand, divided we fall ever damn sure!

Jasmine flowers of neighbour's garden please outsiders too by their fragrance;
This is because air, water and natural resources are for all to share by Nature!

Ramesh T A
Natural Romantic Picture By Art And Poetry!

Art and Nature are the ingredients making romantic picture
Creative artists use to depict beauty of humans and all
Things of Nature touching the hearts of all and kindling
Human emotion to be alive for passion to play its part well!

Pictures painted by great artists and poems created by Poets
Of great heart, mind and soul kindle feelings and thoughts
On romantic nature of life to come to the forefront in all
The activities of humankind for the sustenance of human sense!

Romantic mood makes many things interesting in human life to
Give importance so as to make world life interesting to live
Enjoying pleasure, love and bliss that liberate heart, mind
And soul of all enhancing wisdom to live life better forever!

Without creating such an amicable romantic atmosphere by art,
Nature cannot be enjoyed not only aesthetically, intellectually
But also mystically or spiritually to have fulfilment which is
Not otherwise possible to experience and pass it on posterity!

Ramesh T A
Natural Symbols Are Metaphors Of Life Poetry!

Free flying birds are the symbol of freedom ever;  
Smiling fragrant flowers are the symbol of love;  
Vast blue sky is the all pervading one Almighty;  
Deep blue sea is the mystical fantasy to explore;  
Night sky of stars is the dream world of heaven;  
Green pasture of flowers and fruits is paradise;  
Snow mountains, hills and valleys are stair steps;  
Water falls, rivers and ocean are the path to all;  
Long deserts with a little oases are a place of hell;  
Furious eruption of volcanoes are towering inferno;  
Storms and cyclones are symbol of wrath of Nature;  
Moonlit night is interlude between hell and heaven;  
All the symbols are the metaphors of divine poetry;  
Nature and humans are inside and outside of life!

Ramesh T A
Natural Symptoms Predict Hope And Despair!

Sprung green leaves with little flowers give the hope of future;
But grown saplings turned to black drive to despair and death!
Hope and despair of life due to fortune and fate are common;
But care taken to be fair counts much in one; 's affairs of life!

Man's urban economic development at the cost of rural one is
Indeed the zigzag graphic condition of social life forever sure!
If the govt. takes correction in its action where necessary, there's
sure hope of better tomorrow for all in the society anywhere...!

Scientific development challenging natural resources heeding
None of artistic expressions of the evils by critical experts will
Surely bring all lopsided economic developments to downfall
One day or other unless if hints are given taken for rectification!

Inspirations of Nature as prediction of both good and bad only
Art hints at at first, that when respected, benefits all in the society!

Ramesh T A
Natural Union For Peace!

Though Sky and Earth look to be in union at the horizon,
It is an illusion, but it becomes a reality by rain fall sure...!
Sky and Earth are in union by rain with melting of clouds
Of feeling clashing together with lightning and thunder fine!

By the melting of hearts two separate elements unite into one;
The two being constant in their pursuit of embracing each other,
The fire of love vapourizes water to rise high into clouds of feeling;
The longing clouds cool down and finally fall as rain to soothe...!

Emotional feelings hoarded long at last burst into storm showing
Their depth and strength of hearts by the natural union to satisfy
Their longings with many a lightning and thunder to have peace
At last after emotional storm subsides by grande union one day...!

Humans born of Nature reflect natural force by emotional feelings
That burst out as storms and cyclones to get peace by union grand!

Ramesh T A
Natural Vision Far Better!

Long drug induced vision may lead to addiction
Unlike art, Nature, gems eternal to seeker only!
Shortcut route may be instant in result making
But not a reliable and lasting aid to vision ever!

Colours have special effect in inspiring vision
Though they may be effective through glasses too!
Even distant illumination has a wonderful effect
As mirages to many in the desert crossing distance!

Vision produces peaceful joy freeing mind complete
From all woes and worries of the world insurmountable!
More than intoxicating stuffs beauty of Nature is panacea
That brings one to one’s self inspiring spirit within sure!

Poetry is unique to transport to the world incredible
For those who have the taste for it and are blessed ever!

Ramesh T A
Romantic way of life is the dream of everyone ever,
Where only natural way of living is possible by all
As far as education, work and life are concerned!

There only inspiration, love, interest and enthusiasm
In the adventurous pursuit of ambition fuel one to go
Ever ahead whatever be the situation in world life...!

Artificial and mechanical way of life brings monotony
Only in the course of time making all feel the touch of
Naturalness being neglected long sans any sense...!

We are all products of Nature and our beginning and
Also, the end are ever in Nature only and that none
Can excel or exceed ever in world life we are living...!

Natural love life is the best way all can dream and live
Whatever be our personality development in our life!

Ramesh T A
Nature

Thousand eyes
Are not enough to appreciate
The beauty of Nature!

Ramesh T A
Nature Absorbs All!

Riding on golden chariot in the Universe
King and queen sing romantic song joyfully
Before descending on paradise of Earth!

Universe full of Stars shining bright ever
Are the living day lights of modern cities
Seen from above the Earth from Spaceships!

Paradise is the spendour of Nature beautiful
Giving cool and colourful plants full of
Colourful flowers and fruits hosts all in joy!

Between the Universe and paradise here
Lovers like kings and queens choose what
Is quite obvious to guess by all no doubt!

Nature indeed sways all whatever the magic
Illuminations natural or artificial cast on all!

Ramesh T A
Nature And Art For Sublimation!

Nature is a living scientific art sustaining all living beings
To complete each one's life cycle in the process of evolution;
Art is imitation of Nature to create image of reality as it is!

Nature is ever changing to cooperate with the process of evolution;
But art is frozen state of reality created by process of revolution
Kindled by imagination, dream and desire of human heart and mind!

Natural selection of changes or modification upgrades every being
To facilitate the process of evolution to higher state so as to
Achieve perfection necessary for taking beings to other dimension!

Artificial changes created by imagination of mind as desired by
Heart serve as a catalyst to facilitate revolution possible kindling
Natural sublimation bringing bliss to soul realize higher dimension!

Nature and art in union kindles human nature to enjoy bliss in the
All pervading state of Universal spiritual energy to liberation full!

Ramesh T A
Nature And Art!

God is all pervading Universal Creative Spirit forever;  
Man is a creative human being in the world, of all beings.  
Nature is the form God uses for all creative works ever;  
Art is the form man uses for all his creative works sure!

Man has separated each of his pursuits to express himself  
And they are called as art, science, history, literature, etc.  
But the Universal Spirit is expressing all His manifestations  
Through Nature to express Himself for all living beings ever!

Nature of God is lively, lovely and wonderful forever long...;  
Art of man is beautiful, absorbing and inspiring forever too.  
Man's art differs from science, history, literature, philosophy,  
But God's Nature has all aspects of man's pursuits in one ever!

Nature in art makes it have universal appeal of man's creativity;  
Art in Nature is God's living scientific art for man to follow ever!

Ramesh T A
Nature And Man!

Nude the trees become to have bath in rain
Before having turkey towel of white snow on
To cover the body for warmth before dressing!
The changing attire of Nature is unique indeed!

The lover of change ever Nature never wears
The same kind of dress as it's against fashion!
The changing dresses denote various seasons
That we celebrate under various names ever!

From Spring on Nature wears colourful dresses
And makes itself bare to have Sun bath sometime;
Then throws away all dresses on to have rain bath;
Such a clean fellow Nature is longing for pure white!

The creepers, parasites and vermin we are ever
Like to have the same kind of treatment to be safe!

Ramesh T A
Nature And Modernity!

Nature is the mother of all plants, fish, birds, animals and men;
All live caressed by Nature except man who wants to excel it ever!
Materially he has mastered many things that can be bought by money;
After all these achievements, he has made money as centre for all!

Modern world is the creation of man by advancement and developments
In science and technology and world trade and is being proudly and
Boldly boasted as civilization always fearing about Nuclear arms,
Terrorism leading to destruction of all by climate change by pollution!

Caught by cloud bursting rains, storms and inundation of nations by
Floods, man has at last realized money cannot buy food and water to
Survive during the times of such natural disasters mocking at man's
Foolish adventure in materialism that cannot excel Nature forever...!

Nature, humanism and culture are the pages missing in the book of
World overwhelmingly taken over by civilization in the name of and
Wrong belief of the one and only best way of progress is modernity;
Yes, it's necessary not in outward show but in internal outlook..!

Ramesh T A
Attributes of each species are set in the genes of everyone;
Natural character can't be changed, but only controlled by
Rationality, if one's personality is developed by knowledge,
Which is not permanent as it's stifled, when emotion is utmost!

To have a perfect species genetically modified hybrid is being
Created in the lab by genetic engineering or cloning so to say;
If such a being is created, will it behave as a natural being
Or as a mechanical being is a big question needs to be tested!

But changing natural character by genetical engineering is
A revolution may be feasible by scientific catalyst, which is
Against natural evolution though slow process, yet, is a sare
One to behave in a natural way humans can digest in the world!

Physical and mental aspects of man may be manipulated but not
Emotional and spiritual to attain the natural destiny of nirvana!

Ramesh T A
Nature And Technology For Living Life!

Dizziness makes me drowsy from the beginning of the day;
But dizzy rapture seeing the beauty of Nature makes it nil
And I float in a dream of fantasy land as a poet in poetry!

Blanket of cloud is a blessing in disguise against summer heat
And cool sea breeze compensates all heat and sweating sensation
Giving great relief and its effect slowly cheers up my mood..!

Power shutdown for maintenance work has caused lethargy again
Feeling there won't be any relief from stickiness of body long;
But fortunately power has resumed to ease all our frustration!

After an hour or so, natural mood of joy has returned now to help
All indulge in interesting work of each with Computer working well
Making the day full of creativity again as usual boosting zeal...!

We are slaves of technology addicting one and all to depend on it
For easy way of life and without which we are in hell feel all sure!

Ramesh T A
Nature Can't Be Played With!

Classical and romantic ideas are old wine brewing forever;
Same themes in modern form is novelty as wine in new bottle;
Love, beauty and joy are what they all speak about in styles
That vary according to time and situation by individual hue!

Birth, life and death can't be changed by human means ever;
Science and spiritual techniques may play magic but nothing
Lasts forever in the world of humans as end for all things
Will come by the very folly and foolishness of mad ones…!

Many secrets of longevity of life are destroyed by human
Rivalry and errors by the subsequent generations and also
Feeling that prolonging life in the world is not worth doing
And willingly all follow the course of Nature for good ever!

Familiarity breeds contempt in the world not of our own
Making as all cannot change natural order that is eternal!

Ramesh T A
Nature Changes!

Nature goes on changing
As the scenes of Nature changes
All along a journey!

Ramesh T A
Nature Forgotten!

Prosperity of nation lies in timely monsoons every year; 
Timely intake of food maintains health condition proper! 
Economy of nation depends on growth and monsoons too; 
Agricultural growth saves nation from economic woe 
Though rural scope of growth is curtailed by urban fair, 
Sophistication and spending to influence investors there! 
Next fishing industry too needs much attention for exports; 
Another field not much care is shown in developing nations! 
Due to lack of infrastructural developments in rural areas 
And boosting of agro-industries for promoting exports 
Unemployment and migration to rural areas take place! 
Scientific prosperity and education provide opportunities 
For jobs especially to youths dreaming about quick welfare; 
But villages are neglected to the extent of annihilation of Nature!

Ramesh T A
Nature God!

Far and wide blue Sky is amazing always!
Beginning and end nobody can know ever!
Nature is a great wonder by all means!

God is a greatest mystery yet to be deciphered!
Universe is the body of God full of wonders!
This Universal Spirit is infinity and eternity!

A speck of this Spirit is in every one of us ever!
Our soul has come from the Universal Spirit
And after enjoying and knowing all has to reach It!

Is it imprisonment in our body or independence?
A temporary freedom we enjoy with mind here
Till wisdom matures and makes us know the Truth!

The vastness of Universe gives us joy in amazement
Inspiring, energizing and instructing all forever and ever!

Ramesh T A
Nature Is A Great Wonder - I

Time watching all, Space includes within
Everything – air, fire, water and matter!
Nature is a great wonder, a myriad mystery
Making man a mystic in search of truth.
But, for the scientist Nature is physics
With Space, energy, matter and Time
Working under the Laws of Nature!
Religionists believe that the Laws of man
May be hoodwinked but not that of Dharma,
The Will of God, following which only
Natural justice or order can be maintained!

Beauty cheers the mood of man ever
By freshness, freedom, truth and order!
Beauty of Nature satisfies man’s taste
For aesthetic love with joy and pleasure!
As mother, scenes of nature encourage
And satisfy man according to his mood!
No one is desolate and forlorn as pauper
Or orphan as Nature compensates all losses!

Even worn out souls, at last, resorting to Nature
Have attained enlightenment and turned new leaf.
For the intellectuals too Nature is best philosopher
Giving great ideas to change the world for the better.
Happy times of past in Nature cannot come again
But the joyful thoughts ever linger on alive in memory!
Recollection of such joyful experience in Nature gives
Rapture, rejuvenation and rehabilitation to human spirit!

Ramesh T A
Nature Is A Great Wonder - II

Surfing on the waves of the ocean or
Jumping from the plane to the ground
By parachute satisfy sportive passion!
Climbing the snow mountain or diving
Deep in the ocean is adventurous feat!
Travelling in Space Ship, walking in
Space or Moon is giant leap for man!

Universe expands, says Space telescope
Observing the nook and corner of Space;
Time never moves backward but forward
Only whether Universe expands or contracts!
So, Time Machine is only intellectual rubbish
Giving no new meaningful message to man!

Seasons are changing, monsoons are failing
Man many times in many places here;
Despite many mistakes of man on the Earth
Nature is balancing itself somehow soon!

As the grains of sand, Stars are strewn
In the Universe, countless in number!
Our Sun is a Star too in Space burning out
Hydrogen into Helium by Nuclear fusion
Reaction controlling all planets in orbits.

But after a billion years, this Sun too will bulge
Into a Super Nova to shrink to a white dwarf!
Until then all planets will revolve round the Sun
By its gravitational force in their orbits as of now!
One such planet is our Earth, wherein we all live
Saved by the security belt of atmosphere round it!

Ramesh T A
Global warming, cyclonic storms, earthquakes
And volcanic eruptions are the furies of Nature;
They are the warnings of the coming total destruction
As the symptoms a doctor says for deadly diseases!
So, the fate of man is left to the mercy of Nature
Whose will decides the destiny of mankind here!
Beloved Nature gives many warnings before destroying
Anything by its power to create something new again;
So, all creations of Nature are for destruction
And all destructions are for new creations only!
By science man may control Nature and disease
But not change Nature or cure disease completely!

Sunny cool climate, southern breeze and green plants,
Sweet fruits and fragrant flowers are Nature’s bouquets!
Romantic mood thrives on in this natural atmosphere,
Wherein all romantic lovers long to enjoy life forever!
Green meadows with beautiful flowers in many colours
And fountain water flowing high and falling down near
The dam is where lovers like to play all the day always
In love songs enjoying romantic life to the core ever!
The taste of life man gets on seeing the joyful plays of
Squirrels, birds and bees hopping from flower to flower!

Beautiful morning Sun rise, twilights of the evenings
And Stars and Moon of the night Sky Nature draws
For the desolate people, forlorn lovers, depressed youths
And lonely persons to have respite and relief in life!
Music, cinema, TV and books may be man’s pastime
But not give ever relief, peace and the needed mood,
Which Nature only can provide to man and wake up
The sleeping soul to life to know his true nature,
The starting point to explore past, present and future
That enlightens and energizes man’s mind and soul!
The Nature charged batteries of his soul drives again
Man with renewed vigour and enthusiasm to do duties!
Such a turning point comes sooner or later in life only
After many sufferings and experience nobody can escape!
Materialistic and meaningless pursuits of life of man
Frustrates and finally make him surrender to Nature;
Meaningless life becomes meaningful only after
Man realizes his Self and its connection with Nature!
Unconscious of the air he breathes and many comforts
Man enjoys in the world are bequeathed by Nature;
But due to lack of time in his selfish pursuits ever
Man never realizes, appreciates and thanks Nature!
Nature offers opportunities despite his negligence
But it’s a pity man neglects them by his ignorance!

Ramesh T A
Nature Is A Great Wonder - Iv

It’s the duty of naturists to reveal the open secret
Of Nature to man and make him an enlightened being.
Nature is the body of God and the indwelling spirit
Gives divine bliss to man, when his mind is in
Communion with the divine spirit within, which is
Unforgettable, most precious, myriad and magnificent!

In loneliness Newton sat under an apple tree
And the fall of an apple on his head revealed
The secret of gravitation through him to the world!
To know the mystery of life Buddha sat under a tree
Called Bodhi in deep meditation and that afterwards
Revealed the power of love and wisdom to the world!
Romantic Rousseau too sadly sat under a tree
Deeply moved by the imprisonment of his friend
And his deep contemplation in Nature gave the ideas
Of liberty, equality and fraternity to the whole world!
Tree of Nature not only gives fruits, shade and shelter
But also great ideas to save and sustain mankind!
Indeed Nature gives new ideas, life and rehabilitation
Especially for the hopeless human beings in the world!

After the great Big Bang the Earth has evolved
With atmosphere around it in the present orbit;
Blue green algae of water have slowly evolved
Into plants and trees everywhere in the world.
Seeds of tree falling into the water have evolved
Into fish and have come out as birds and reptiles!
Nature has evolved man from the animals and is
Evolving man into angel developing mind and spirit!
The blend of the two in one is man and evolves
Man into animal again or angel according to his acts!
So, Nature is everything for man whether he neglects
Or forgets it, as man is part and parcel of Nature!

Ramesh T A
Nature Is A Great Wonder Ever!

Transformation of weather for the better in Summer
Indeed is a great wonder to witness here now sure!
A coastal area near the sea shore with full of trees
Now has worn the attire of a hill station for days
Making all wonder what a magic nature does in summer
Noted for hot, hotter and hottest days only long...!
Suffering long in scarcity of water, people cry for
Getting water from distant areas everyday due to
Pollution of lakes by drainage and factory effluent
Causing them non-usable for long, long time here
By the lackadaisical administration of goverments;
Nature by its characteristic style has woken up
The long slumbering administration to clean lakes
And rivers for it to go ahead performing its duties well!

Ramesh T A
**Nature Is A Lover Of Novelty!**

Novelty, innovation, invention, creation and all part of
A progressive state of activity of human and Nature ever;
Nature is, in fact, a lover of novelty though looks to be
Changeless and repeating the same thing forever and ever!

Novelty is happening in Nature following same rhythm ever
Like in poetry known as simple harmonic motion as in sea
waves like the pendulum of clock oscillating in uniform
Motion making time to move on bringing day and night ever!

Day and night are the same happenings on the Earth but the
Four seasons are taking place one after the other within
A time period regularly helping growth possible for the
Promotion of evolution to continue for innovation or change!

Novelty is more visible during the time of dawn and sunset
With the twilight under going quick changes of hues ever...!

Ramesh T A
Nature Is All For All!

Nature is the background for romance to flourish in human world
As Nature is ever there to inspire, bring cheerful mood and great
Courage to adventurous heroes in love, melancholic philosophers,
Rebels fighting for justice and all worn out souls seeking solace!

All dreaming romantic souls getting inspiration and ideas, try
Their level best in translating their dreams into realities soon!
Since time immemorial to man, Nature is the source of love, joy,
Teachings of God and God Himself who saves and sustains all ever!

Sun, moon, stars, clouds, sky, sea, mountains, valleys, rivers
And gardens, parks, flowers, green pastures and what not all are
Nature that has no beginning and no end as far as we see and know
Not only in the world but also in the Universe vast and wide ever!

Nature is the source and model for all and for all matters to
Imitate and imbibe in life and work to progress and prosper sure!

Ramesh T A
Nature Is Beautiful!

Flowers are lovely!
Fruits are sweet!
Trees are fine!
Park is ever green!
Fountain is wonderful!
Nature is beautiful!

Ramesh T A
Nature Is God!

Behind the transparent cloud, the full Moon has come up
Creating beautiful picture of Nature all admire much..!
What a contrast of scene of Nature in the evening against
The too much heat of all the day long all have suffered!

Now, the gentle evening breeze cools mind, heart and body
Making all free to go out to enjoy evening time to the best;
This is the great relief Nature provides to all even though
It makes all suffer in the first part of day to cry for mercy!

Nature is God for its timely love it shows to all after the
Great suffering due to too much heat in the morning and after
Noon till sunset paving the way for the evening to replace
The hot morning day with cool breezy time for night to come!

Night is enjoyable time in Summer to experience cool breeze and
Also, a very good rest needed to recoup oneself for the better!

Ramesh T A
Nature Is Great!

The living presence of Nature ever
More than philosophy and books
Say many information unlike all!

Divine aspect in Nature ever inspires
And guides influencing spirit within
To save from all troubles brewing..!

When everything goes beyond limit
And no way seems to help, seeking
Relief in Nature is the best panacea!

Having enjoyed help of divine spirit
From Nature, one need not seek others
For anything to tide over setbacks ever!

Nature surely attends to all pleas sans fail
And whose clout how can be shackled...?

Ramesh T A
Nature Is Poetry!

Colourful things of Nature are attractive beauties free for all ever; That doesn't mean they are cheap, but a generous gesture of God And His love towards humankind to recover from tragedies at times! This boundless things of Nature can't be confined to some only...!

Nature is poetry that cannot be confined under a fixed definition; Poetry has various forms of structure and styles according to the Expressive capacity, ability and capability of poets on various Subjects reflecting the life of man and Nature in world literature!

Both Nature and poetry are free for all to get solace and inspiration To rise high from downtrodden state like the phoenix birds that rise From the ashes and their invaluable aspects make them last ever In the world of human life unique on the Earth in the Universe vast!

There is noting that can save man from his misfortunes in life, if he Neglects or ignores them as they are available sans any shortage!

Ramesh T A
Nature Is Source Of Life!

Life is a struggle, when things become impossible to surmount!
Life is an adventure, when plans and strategies collapse sure!
Life is a bed of roses, when all things go according to our will!
Life is heaven to live, when romance seems to be way of life..!
Living in harmony with Nature, life becomes a paradise to live in;
Neglecting Nature, men are in jeopardy ever to the extinct of all!
Sufferings and hardships increase only due to the pride of man
That all developments in the material world are real advancement!
Wrath of Nature in the forms of hottest days in summer and
Coldest climate in winter with droughts, storms, rains and floods
Are all due to pollution caused by technological developments
At the cost of natural resources sans any thought of conservation!
Nature is the source for all in the world and life we all live is also
Evolved from it and so, man's endeavours should respect it.......!

Ramesh T A
Nature Loves All!

By giving all Nature loves all to make life happy!
Nature loves creative expansion for the benefit of all
And endlessly indulges in expanding self to serve all.
This nature of paradise on Earth is unique in Universe!

Enjoying all man exploits Nature to its own destruction
Not knowing the source of love and life here is Nature
Carried away by his pride of knowledge and superiority
Over all creatures big or small being the master of world!

Animal nature tamed by love of Nature man is evolved!
Learnt he love but failed to realize it by material growth
Carried away by economic thoughts at the cost of humans
To accrue wealth and enjoy comforts believing this eternal!

Nothing is permanent in Nature as it is ever in change
To evolve better creatures according to the will of God.
Can man defy laws of Nature established by will of God?
No, never and so, it is better he goes on the path of love!

Ramesh T A
Reciprocation in love is the romance of life;
Reciprocation in friendship doubles joy in life!
Friendship based on love edifices courage;
Friendship on a great cause grows confidence!

Romantic love helped by friendship fills heart
Full of joy and enthusiasm to venture on new way
Never before tried as in adventure to achieve laurel
Ending in fulfilment of joy as you like it in romance!

Romantic life of friends builds bond stronger ever
To indulge in creative activities exploring truth
As mystic poets of romantic period pioneered
To bring treasures of art for the benefit of all!

Inspired by romantic pursuits friendship is lovely
To live on so as there is no time for monotony ever!

Ramesh T A
Nature Of Things Happening!

Rain has come and gone in the morning
And Siberian storks too have gone...;
All day sunshine and rains now and then
Have played their parts as a chores..!

Sunset is now performing its act well;
Parrots are hurrying to their homes..;
Cool climate is continuing its coolness;
A nice evening at last has arrived now!

Silence is creeping along with coolness;
Calmness is making one feel lonely now;
Afraid of rain coming again, many are
Not interested in going out anywhere...!

When we expect something, it will not come;
But when we don't expect, something comes!

Ramesh T A
Nature Plays Music!

Nature plays game using sea, wind, tree, sky
Like fingers playing on the key board of piano!
Dashing waves, thudding waves, hissing waves
Are different notes of music of all Nature knows!
Oozing or howling sound is the music of storms;
Hissing sound of breeze is the music of spring
And many sounds of music produced by nature
Everybody cannot forget along with the smell sure!
Simple harmonic waves are the rhythmic beat music
Every heart and verse of poet has like the ticking time
Or the works of mind nonstop till the end of time here!
Wind passing through flute or saxophone is nice to hear
Like the vocalist produces various rhymes of music
Forming natural base for all songs we enjoy in life forever!

Ramesh T A
Nature Returns What We Give!

For Nature to be harsh in the cold season
Or even in the hot season who is responsible?
It is not the mistake of Nature, but it is sure
The mistakes of man keeping the world dirty!

Climate has changed very much and Nature
Seems to be unbearable by its extreme condition
Needing to be noted by man to keep himself
Well under restraint from invoking its wrath!

Severe storms, cloud bursting rains and inundating
Floods affecting nations are all symptoms of Nature
Before going extreme and unbearably to human
Habitation, if man continues to destroy resources!

Nature only returns what we give to it at first and
If we are very bad, it will also be dreadful later on!

Ramesh T A
Nature Rules All With Pain And Pleasure!

Bright and beautiful smiles of flowers invites all
Like the Sun at dawn and at its zenith in Winter
With warmth and relief from cold effect of night!

Winter night is hellish, but winter morning is warm
As heavenly comfort nothing can offer in this world
Making all become brisk to do all kinds of job well!

What a pain and pleasure Nature offers to all in all
Climatic conditions of the four seasons round the year
Like day and night hot and clod effect kindling feelings!

Feelings of pain and pleasure all cannot escape ever
As we are all dancing to the tunes of Nature in all the
Four seasons of the year knowingly or unknowingly sure!

Beauty of Nature kindles pleasure, but harshness of
Weather kindles hellish pain to live and die sans fail!

Ramesh T A
Nature The Renderzvous Of Science, Literature And Spiritualism

Nature is called physics in Greek language;  
For poets Nature is the most esteemed field;  
It’s the bridge between science and literature.  
Living in harmony with it man has to manage  
Following principles of meditation and mysticism.  
So, BSc, MA and MBA make one well qualified  
And know the art of living life in the world well;  
Well equipped to see, know and appreciate divinity!

Ramesh T A
Nature The Source And End Of All Ever!

Nature is a living art ever in the whole Universe;  
Nature is scientifically also called as Physics...;  
Nature is the source of modern art that absorbs all;  
Nature is the resource for food, fuel and raw materials!

Nature is the source of life and all living beings ever;  
Latent power called Universal spiritual energy activates all  
Facilitating evolution for the advancement of all species  
From unstable impure forms to steady state of Spirit finally!

All forms of living beings are in an impure and imperfect state;  
By creation, preservation, destruction and regeneration, all are  
Purified, made clear and perfect from forms to formless state  
Finally as spiritual ones to mingle one with the Universal spirit!

This living scientific art of Nature is an eternal source of all  
That activates all ever starting from and ending in it forever!

Ramesh T A
Nature Too Gives Vent To Its Pent Up Feelings!

Winter is surely
The time for Nature too
To mourn...!

With closed eyes
The Sky sheds all tears
In profusion..!

Encroachments on
Natural resources cause
Floods everywhere!

Due to not
Drudging of lakes, ponds
Rain water goes waste!

That results in
Long droughts in the
Summer times!

Nature indulges in
Long hot days, storms and
Floods for its relief!

Nature so indeed
Gives vent to its pent up
Feelings now....!

Ramesh T A
Nature Verses Man!

Painting of rainbow on rainy sky
Is a wonder of Nature!

Meeting of sky and sea at the horizon
Is an incredible wonder!

Blooming of flowers on plants unwatered
Is a great wonder too!

Monsoon every year doing havoc also
Is never thought of........!

Nature is a great creation of God as
Art is by man ever!

We are also part of Nature; yet, how much
Are we differing from all creations!

Knowing this still man never realises that
He cannot survive sans Nature!

Ramesh T A
Nature World And Machine World!

Beautiful green plants I dreamt about in my early morning sleep;
A beautiful kingfisher bird landed on top of a plant under the blue
    Sky painted with a little white cotton clouds here and there
reflected
On the stream going along green land
towards the South of land!
Beauty of Nature offered as a great feast in my dream has soon got
Vanished by the noise of water motor lifting water to the overhead
    Tank for morning chores - bathing and washing of dresses soon to
Begin the day's mission with briskness and responsibility to do well!
In-between Nature world and machine world we live our life ever on
The Earth never knowing when the contrast will become one and the
    Same by the conquest of the latter the former demolishing dream
With some scenes of Nature still sticking somewhere in our minds!
Beautiful Nature and noisy machines make both heaven and hell
Stay side by side, though now, may not be so sooner or later, I feel!

Ramesh T A
Nature's Bow!

Nature's bow is rainbow;
Falling rains are arrows!

Floods are Earth's blood;
That fills the war field!

The Earth is purged of sins;
Fresh crops are off-springs!

Rich harvest is new generation;
They come to save all population!

Toiling on the field is industry;
All do to produce products for all!

Food is the life saving panacea
That renews all life forms ever!

Sun rays bloom flowers, ripen fruits
To cheer all to smile and live long!

Ramesh T A
Nature's Effects!

Indeed summer rain is a blessing in disguise;
All the day, sunshine is bright and hot sure;
Just before evening, clouds come and rain falls;
The whole atmosphere turns cool as hill station!

All feel to sing: summer, summer go away soon!
Also feel all: rain, rain come again and again!
Many home going guys and girls dance drenched
In the fresh rain water so cool and exhilarating!

Unmindful of Nature's effects, no one can live;
Obligations, works or none, none can neglect Nature;
Being part of it, though man is advanced by learning,
He takes off hat in tribute, when things change well!

No one is exception to ignore or neglect Nature's will
As we are nothing before the wrath or bounty of Nature!

Ramesh T A
Nature's Friendship

Cool morning and gentle southern breeze cheer the mood;
Shrill noise of parrots and screeching noise of squirrels out
Play a joyful atmosphere everywhere making the day fine!
This welcome note of Nature diverts mind to garden beauty.

Newly blossomed flowers smile at visitors with sweet smell
And entertain them with colourful beauty never before fresh
Compelling them to have them to wear on or present as gift
To the loved ones to create new chapter in their life to live!

Fruits of many shapes ready and ripe entice all to taste soon
Before they finish their visit of the garden to mind other works
Creating sweet thoughts and ideas to implement eagerly soon
To hit the Jackpot as quickly as possible before others overtake!

Hospitable generosity of Nature reveals the secret of friendship
For mankind to cherish as culture to win all in the world indeed!

Ramesh T A
A wonder the beauty of sky is at the sunset!
What a cool place it is now after a hot day!
Just after summer the climate change there is
So gradually changing for the better sure...!

Nature ever moves in a graceful way quite unique
Making all wonder at its spendour at the sunset!
Awe stricken all are at the amazing art depiction
Nature before everyone’s eyes by each moment of time!

The hardships patiently borne people are relieved of
All their difficulties once they take bath at the end
Of the day that has gracefully completed its chores
Making all to imbibe in life so to lead to glory nicely!

Gradual transition is the way Nature changes all things,
When all lose hope exceeding the limit of endurance....!

Ramesh T A
Nature's Lessons!

Due to water level ever increasing by incessant rain
People are captivated in the upstairs of houses long!
Heavy rain steadily falling all the night lonely ones
Under go the freaky situation as in Mill on the Floss
By George Meredith I have studied long, long ago...!

Broken lakes and rivers are on the spate around city
Drown moving vehicles and inundate first floor of
All houses making people imprisoned in the top floors
And pray for God's mercy for food and water from
Govt. departments concerned as beggars on the road!

Metro city noted for drought situations in many months
Now looks like Venice city with boats rescuing people
And ferrying them to various safe destinations till rain
Fall stops decisively and brings quick relief from authority
Indeed make all think about harms to Nature and its revenge!

Nature does the pending works of man by drudging and
Flushing out polluted river going across the metro city to
The nearby sea, a Herculean task being postponed by
The authority for many years and reminding them of
The duties to be done sans forgetting or procrastinating!

Ramesh T A
Nature's Love

Hot Summer Sun exhausts all beings;  
Water melon and fruits quench thirst!

Dry weather is a torture to all beings;  
Suddenly clouds gather and rain comes!  
Totally changes the climate to coolness;  
Removes tired and creates joy everywhere!

This is how Nature shows love to all  
To survive long on this beautiful Earth!

All day grey clouds occupy sky with chillness;  
Night is bitter cold in winter to bear endless!  
Yet in the morning the bright sun shine dawns  
To change all numbness to briskness with hope!

Balancing aspect of Nature is simply amazing!  
If this is not Nature's love what else is it then?

Ramesh T A
Nature's Playing Tricks!

Rim of cyclonic peripheral slightly touching town
Sans any rain but only wind and shady cloud cover
Surely has converted place into paradise now here!

Hazy atmosphere with cool wind blowing fine all day
With neither storm nor heavy rain town is enjoyable
Of all days so far and so forth to say in brief here...!

What a pleasant climate making all feel effect fine
Minding one's business sans any inconvenience at all
More than any modern facility could offer in anyway!

First storm has gone up towards the northern side
And now the next one is going down southwards....;
In-between these, this town enjoys benefits unique..!

Nature's playing tricks are unimaginable sometimes
Making farce all predictions by many experts ever...!

Ramesh T A
Nature's Taming Of The Careless!

Warning of cyclonic storm with heavy rains given,
The fear of cloud bursts and three months' rain in
One day come to the mind of men driving to panic!

But the storm has moved up from the area to some
Other area making all to heave a sigh of relief seeing
The TV news announcing its latest course of journey!

Not caring Nature long, now it has landed all men to
Fear whenever the announcement of storm is heard..
Making all respect the greatness of Nature again......!

More than the burning fire like heat, the heavy down
Pour of rain by cyclonic storm makes all shiver not in
Cold weather but in fear of Nature's havoc nowadays!

What a shock treatment Nature has put all people to
Experience other side of it and reminding now and then!

Ramesh T A
Necessity Of Criticism!

Scholars like Matthew Arnold and T S Eliot
Noted for poetry and criticism revealed truth
That literature is criticism of human life ever!

Futuristic intellectuals like Orwell and Huxley
Criticized very well about political and scientific
Utopia the world should be careful about well!

Now, clash between civilization and culture is
Wrecking havoc to the world under the guise of
Religion making all feel humanism is far better!

Brutes cannot be turned into divine being forever;
So, let religion make man first into a human being
Telling man how to tame animal nature to human!

Criticism on all matters including religion, politics,
Science and society needs to be encouraged for better!

Ramesh T A
Necessity Of Realization!

Natural way of living is the free life one can enjoy sure;  
But many carried away by sophisticated way of life,  
Believe they have developed to live modern life in the  
World giving importance to civilization of materialism!

Sans electricity and aid of machines, modern man can't  
Live even for a few hours in the top of many storeyed  
Building and within a day for want of water he has to go  
Out of the building somehow even if lifts don't work...!

Enjoyment of luxurious life with all comforts make man  
A slave of civilization sans any control over his next step  
He has to take, if cyclonic storm hits the city with heavy  
Rains flooding with water ever rising to many heights..!

Natural calamity or fire accident caused by technical fault  
Only brings man to realization that all that glitters aren't gold!

Ramesh T A
Necessity Of Romance!

Sans romance, love life won't be possible ever;
San love, life will be dull and insipid and it's
Very difficult to pass time in life's journey long!

Kind words and polite behavior seem rare then;
Only brute kind of beings look to be living like
Animal-man cusp beings we encounter here..!

Humans will be rare to be seen in th world;
Such a situation no one likes to see forever!
To avert that, let us all cherish romance ever.

Sans love nothing be learnt and no arts can
Flourish making human society uplift itself
And advancement of humankind wii be nil!

Romance is like a broad flower garden ever;
Whereas others are like vast barren desert...!

Ramesh T A
Need For Long Holidays!

Holiday mood continues long
Even after working day begins!
Holidays are not enough, it seems,
Feeling the need for long tour...!

Long rest is needed after week long
Work with concentration sans relief!
After rest only joyful mood returns
To go here and there to satisfy heart!

Sans enjoyment of heart, satisfaction
Never seems to absorb one making
Ready to proceed with usual work,
When the working day begins again!

Holiday tours only recoup whole self
Ready to face any eventuality strong!

Ramesh T A
Need Of The Hour!

Everything is looked through the lens of money
As that has become the benchmark to decide all!
Mankind lives in the fast moving material world
After world wars, technological competition and
Cold war for forty years due to ideological fight!

Even reactionary rightists have turned into progressive
leftists except for one or two rightists after the cold war!
Terrorism based on old religious system is the main
And only enemy for both the political ideologists now!

What is the need of the hour all should think about now;
The need of the hour now is world peace, unity and
Most of all respect for humanity that suffers a lot
Due to economic competition going on in the world!
Humanity, world and Nature need priority ever...!

Ramesh T A
Needing A New House!

With the construction of building, work is not over;  
After construction, maintenance work is there ever;  
Building provides many works to be done forever.

Many think having a house will solve many matters;  
But own house brings many new problems to be solved;  
First, security and safety need to be maintained forever.

After sometime, expansion of residence needs to be done  
To provide room for new entrants and children growing  
To the level of elders needing convenience for their works!

Then the building becomes old needing repairing after  
Heavy storms and rains damaging many portions of it  
Biting the budget of the family that has become old....!

Even after meeting out all the expenses of construction and  
Repairing, members are dissatisfied and need a new house!

Ramesh T A
Needs Of The Hour!

Needs of the hour are

Disarmament and promotion of peace

By world nations in unity!

Ramesh T A
Negative And Positive Thoughts Of Great!

Negative thoughts and positive thoughts come in many minds;
Negative thoughts increase doubts and fear among all men;
Positive thoughts increase clarity and confidence in minds!

Negative thoughts sustain alertness till matter never flops;
But positive thoughts takes one higher level in one's pursuits;
Negative and positive thoughts have their own effects in all!

Both positive and negative thoughts may be altered by matters
Happening entirely on new and different ways from usual ways
Due to perhaps the will of God as He only leads everyone's life!

Romantic, scientific, philosophic and modern thoughts have all
Positive and negative effects in the lives of men in the world
And their reactions create history through the leadership of great!

The rise and fall of empires and course of world history are all
Products of negative and positive thoughts of men in high places!

Ramesh T A
Negative Nature Of Jealous Guys!

Wasteful negative thoughts caused by unnecessary doubts about Good, sincere and straightforward persons are the daily duty Of psychologically sick persons living as close neighbours!

Absorbed by the well being of such good persons, they have Wild imagination and soaring desire to be like them and also, To excel them somehow by wantonly indulging in troubling games!

Even if fortune shines on such negative guys, whatever they do In renovating their house to look like the good neighbour's one, Never seems to be up to the mark if natural disaster occurs..!

All their dreams and imaginations based on jealous desires are Shattered to pieces kindling anger and frustration in them leading To creating more unnecessary troubles to others to spoil theirs!

Negative guy's lack of knowledge and wisdom ever keeps them in Jealous adventures with neighbour of good nature and calibre!

Ramesh T A
Negative Personalities!

Jealousy, too much greed and no work
Attribute green eyed monster;
Human face and kind words is mask
Of such devilish persons!

They want all things to be theirs
Whether deserve or not!
Whatever they do is farcical
For others to laugh!
Yet, not knowing any shame
They indulge in pursuits
As romantic personalities
Causing havoc to others works!

Why the hell they are like that
God only knows ever!
Perhaps they are the executioners
Of fate decreed by God!
We have to believe so and ignore
Rather than fight against
And waste our precious time!

Not only competitors but also
Friends and relatives are so!
Even within a family too
Brothers and sisters are so!
We cannot believe anyone
And rely on anyone too!

They get pleasure unimaginable
In the sufferings of others;
They always wait for opportunities
To witness such things in life
Rather than realize and rise up
To higher level at all!

How to overcome such guys
Is a big matter to think about
To surmount hurdles they place
On each and every thing!
The tussle continues ever
Till matters are done
By efforts with Godspeed!

Realization dawns very late
Till they lose all in life
Name, fame and good status!
But by the time how much
Burden they put on others
God only knows!

Ramesh T A
Never Back-Step To Be Successful!

Never Back-step to be Successful!

Grey blanket clouds en masse occupy whole Sky
Giving the impression that rain will come soon!
But many times even the meteorological dept.
Also gives wrong predictions about the rains..!

Uncertainty even in this matter leads one astray
Making one postpone one's movement outside;
But contrary to one's assumption nothing happens
And time is wasted unnecessarily often so in life!

Postponements and procrastination spoil matters
That otherwise would have fructified to fruitfulness!
Likewise most of one's life is wasted in the world
And at the end all try to hurry up to hollowness..!

At any occasion, one shouldn't budge from one's
Resolution, when one is on a great mission in life!
Relinquishing from one's resolution surely leads one
To failure, which otherwise would have been a success!

Ramesh T A
Never Be Body Sans Head!

Face is the real identity of a person sure;
Name is the identity of a person anywhere.
Language is the identity of a community;
Name of a nation is its identity in the world.

Without ID card, no one accepts who you are;
For the ID, permanent residence address, bank
Details are very much needed anywhere sure;
But without identity, no proof is accepted ever!

All story books have some title for their identity;
All novels have some title making all think of them;
So also, all poetry books have some title for reference;
So, a poem sans title is like a body without a head!

Title or name immediately reminds one of person or thing;
All the history of that one which is otherwise impossible...!

Ramesh T A
Never Be Negative!

Life is short, but art is long ever!
Life is real, but dream is vague!
What was impossible was a dream;
Now it is possible by some idea!

What is impossible is a big dream;
Next, it will be possible by new idea!
Have vision based on knowledge to
Have an ambition to achieve dream!

Love to do with devotion what you
Desire in life, success or failure, ever!
Impossible past is possible in present;
Impossible present will be possible soon!

Never stop doing with worries thinking
All in negative; your work will win soon!

Ramesh T A
Never Betrayed!

Time has come for rain to fall! 
Summer heat at last has to go! 
Distant lightnings bring hope!

Summer rain with thunder is 
A great declaration of Nature 
That balances climate somehow!

Monsoon may fail at first but 
Nature compensates all sure 
Somehow before end comes!

Now cool surrounding at night 
Looks paradise is regained... ha 
And what a great relief at last!

Faith based on truth never fails; 
Trust on Nature is never betrayed!

Ramesh T A
Never Fail To Show Gratitude!

For problems, help and money they come to me;  
For pleasure and enjoyment they forget me ever!  
For consolation after defeat they come to me;  
For victory celebration they always forget me!

What can I say about the nature of men ambitious?  
In this competitive world they need catalyst to win!  
For taste and hygiene they add ingredients very well;  
But they throw away vital ingredients while eating!

Sans me they cannot accomplish achievement here;  
But once they achieve glory they coolly forget me!  
Your glory is blemished if you forget gratitude ever!  
Forget not to remember those helped you in your life.

One should not fail to show gratitude to one who helped  
Though one may forget anything in life done to one!

Ramesh T A
Never Lose Peace At Any Cost!

Eager and passionate pursuits after wealth end
All interests of heart that can't be pursued after!
Silence seems to be golden after all disturbances;
Peace comes of calmness attained after all fuss!

Material pursuits take a lion's share in man's life
Making living an irritating and monotonous one
When one is exploited or extracted of all talent
In something not one's own interest in works...!

Life going on so due to obligations and duties
Makes one long for peace becoming precious
That can never be mortgaged for money only
For the sake of dear one's benefit and profit...!

One's help and good nature can't be exploited
Taking for granted as all are kith and kin ever!

Ramesh T A
Never Neglect Real Friends!

What can we say about the friends, who forget one, who has Helped, no sooner they get touch with prospective friends...? This shows they are for benefit at the cost of even dear ones Not having any sense of gratitude or reciprocation in friendship!

Such spineless creatures are many mingling with the good ones Waiting for a better chance to jump to the other side leaving the Good ones in despair without any sense of remorse in life until They fall in bad times seeking some help from reliable ones....!

Unable to get help from the good ones, they realize the blunder They have committed earlier without any chance of having such Friends once again to give solace, help and support to get over the Bad situation to a better one sooner or later in world life sure..!

Opportunists seeking benefits only sans knowing the value of real Friends, the sooner they come up, they fall to the abyss not....... Knowing the works of fate that lifts the fallen and puts down the Glorious at unexpected moment giving many chances of success!

Ramesh T A
Never Relinquish Determination To Achieve One's Ambition!

A deep disappointment and disillusionment drives one out of sense;
Bringing back to one's self one needs solace and comfort sure;
Confident exchange of hearts by physical contacts between souls
Definitely takes one out of the mess to a state of transcendence!

Every attempt in a job of risk surely leads to many a down fall;
Failure is the stepping stone to success inspired by love ever;
Guarding oneself against all discomfiting negatives solves all;
High hill is difficult to trek, but peak is top point of victory!

Involving oneself with whole heart, even a mountain can be moved;
Just by a matter of fact way, if task is dealt with, it's enough;
Keeping steady pace while moving ahead, one gets confidence needed;
Looking ahead the flag post, surely will make the task as nothing!

Miles of journey in an adventure increases the hope to see the goal;
Nearing the point of goal it's by the swift stroke of leg, goal is put;
Open game victory is so ever achieved before the audience applause;
Perfect finish of game with the last goal, victory is decided sure!

Queries, questions will be pricking one's heart and mind in mission;
Restoring one's poise by the great cause of mission confidence is kept up;
Sustained efforts in a steady state, one goes ahead of each hurdle;
Target once reached, it's the custom to hoist flag of victory ever!

United efforts of all in a team make difficult task easy to do sure;
Victory and defeat are part and parcel of sports and wars in the world;
Winning by sincere efforts, real joy is felt in world life after trials!

x and Y then only are known to the world as remarkable champions to all;
Yearnings of all give joy only by making clever moves to the right spot;
Zeroing all attention focused to central point, sure success is achieved!

Ramesh T A
Never Stoop Low If Sensible And Superior!

Heavy wind and rain with lightning and thunder have lashed out for a few hours! Drought hit dams and lakes are filled with water needed for many days by surprise! Wind speed and rains have reminded of winter storms in summer time this time! Plays of Nature are always a thrilling experience to witness and enjoy as children!

Yes, we are just small kids before the formidable friend of all species on the Earth! Earth itself is a tiny dot invisible before the giant galaxies in the Space of Nature!

But many enjoying the generous gestures of Nature simply forget its huge power And take everything for granted to the extent of destroying it by materialistic greed!

Harsh and honourable treatments of Nature all should respect in awe; Our powers are nothing before its infinite power forever we all should realize; That is the way we can live in harmony with Nature for long till time's end; Sufferings and solaces we experience should give us wisdom to act wisely ever!

Otherwise, there is no difference between the senseless stones and us, if We are really sensible and superior to all other species of Nature in the world!

Ramesh T A
New Government

Elections are around

People vote for their candidates

But new govt. isn't theirs!

Ramesh T A
New Lease Of Life For Poetry In Modern Time!

Alliteration alluring all, poetry perpetuates popularly;
Versification variously warbles as wondering Willow
The wisp fascinating famous fellows too to vie with all
To enjoy ever emancipating engravings of ideas in the air!

Transmission of radio songs has paved the way for television
Telecasting songs in videos now on many pop songs channels;
Just as poetry turned into pop songs musical verses move all
Hearts despite the invasion of cinemas from dramas of yore!

This is possible by the popularity of poetry websites ever
Pushing all kinds of new forms of poetry in a brief way in
The fast moving modern world all competing with time to have
Enjoyment in all forms and kinds due to new technological trends!

Alliterations, similes and metaphors have new lease of life
Due to wireless internet computer facilities forever!

Ramesh T A
New Resurrected Spirit Of Poetry!

Like business conference, Poetry meets are in fashion;
Many distant poets writing on websites meet together;
Poetry seems to have sprung with a new resurrected spirit!

Awards, certificates and Poetry Anthologies are presented;
Many poets feel elated to Everest level by such meets sure;
Like Nobel Prize or Sahitiya Award, Poetry should be honoured!

Both in the world level and national level those prestigious
Awards should be conferred on great, best and noble Poets for
Their valuable works of art in literature every year sure..!

TV channels can start this kind of best programme for the
Sake of honouring really great poets who are devoted to high
Standard Poetry for a longtime in the world nations everywhere!

Poetry websites have become a great boon for poets to display
Their poetic works of art that have not popularly known ever!

Ramesh T A
New Things Require Advertisements Or Criticism!

We cannot think anything new ever and express new ideas;  
We can only present matters impressively in a new form;  
That is why it is said that history repeats itself sure;  
This holds good both for good and bad things in the world!

Criticism cannot be said as something desecrating anything;  
For, criticism only advertises something all cannot know..  
And introduces about one or thing to create interest in all;  
Criticism analyses both good and bad aspects for all to see!

Historical approach to any matter reveals same truth getting  
Repeated in a novel manner to impress all to pay attention to;  
Otherwise, how can any interest can be created to even see  
Or make all think about the necessities to buy something needed!

Not only for literary works but also for any product in the  
Market to push in the world, criticism and advertisements are  
A vital necessity, because then only a thing called book or  
Product will be known in the world and can kindle all buy them!

Ramesh T A
New World Of Ideas!

Pet animals and birds are the companion all through life,
When all relatives, friends and assistants go away due to
Some reason or other in the world some day or other sure!

Managing oneself in loneliness is the greatest test one
Has to face in life making one think of one's interest
To engage oneself upon it to indulge in creative works!

Artist paints pictures, story writer writes short stories,
Singer sings songs, musician composes music divine, Nature
Observer finds new phenomena, but poet writes poems of all!

World, life, love, Nature, romance, beauty, Universe and
God poet ponders on to churn new ideas from within and all
To express novel matters many have missed in world life..!

Poetry is the encyclopaedia of poet's knowledge, conviction,
Suggestions and ideas that absorb all in new world of thoughts!

Ramesh T A
Next Move!

Exhausted sit I before computer;
Thinking about what to write
In the time I have in hand today!

I have family and relatives too
Besides friends, poets and all
To fulfil my obligations of family!

Poetry is the realm exclusively
Meant for mind of my type ever
To record, biographical for all!

Today I am here with you all;
Yesterday we were not known;
Tomorrow I will live in literature!

Time permits me to say this now
And time only decides my next move!

Ramesh T A
Nice Sleep Somehow!

Two nights I have observed this matter;
Exactly at midnight the howling noise
Of fox-dogs and the barkings of locals
Serve as twitter and woofer music all
The night for the sleep and the dream!
What a harrowing night life we have
Caught between the sound of dogs and
The humming music of mosquitoes all
Around head and face nonstop all night!
Even when sleep comes by a rare chance,
The special music and songs of main
And background players make day all
The night despite one tries all the best
One can to have a nice sleep somehow..!

Ramesh T A
Night Dreams!

Dreams endless
In the night without end
Can't go on!

Ramesh T A
Night Sky!

Moon queen smiles
While Stars wink eyes
Over the world!

Ramesh T A
Night!

Sun went down
When Moon came up
And it's Night!

Ramesh T A
No Barrier For Natural Law Of Love!

Like the soft, tender beauty of children, damsels are
Dancing in the flower garden to express their joy
Attracting handsome gentlemen to join in the fun!

Like the soft petals of flowers, beautiful ladies smile as
The freshly bloomed flowers in the garden at the sight of
The bright Sunshine like handsome guys meant for love!

The union between dames and gents in love are like
The honey and milk, music and dance, flower and bee
And magnet and iron designed by Nature never miss!

The mutual attraction of guy and girls are Nature's
Eternal design none can change however restrained by
Religion, culture or law anywhere in the world sure...!

Law of Nature is the will of God no one can thwart even
By manmade laws but only at the cost of mishaps ever!

Ramesh T A
No Chance For Nonviolence Sans Gandhi!

Today is the remembrance day of our father of nation, Gandhi; 
All over the world he is remembered for his nonviolent policy; 
Even from small children to old men he is loved by his fondness; 
Now with two minutes' silence he is forgotten in noise of violence!

Mahatma Gandhi has statues all over the world and on currencies; 
But the world is still looking for a great man of nonviolence in vain; 
There is none to cherish nonviolence in this time of terrorism sure; 
Love is totally out of focus in the absence of nonviolence forever!

It is impossible to believe such a great charismatic leader lived...! 
Only if he is reborn perhaps there is some chance of nonviolence; 
But when all are competing for amassing nuclear weapons, war and 
Violence cannot be obliterated on the all bearing terrain of Earth...!

Sans Gandhi, India could not have got the chance of breathing 
Freedom and so, sans him, there is no chance for nonviolence...!

Ramesh T A
No Chance To Lose Pleasure In Life!

Without pleasure in life, nothing is interesting in the world;
To get such a mood, arts such as music, song and dance are there;
Music groups such as Shadows and Ventures are eternal amusement;
Songs by Jim Reese, Elvis, Tom Jones, Michael Jackson are nice!

For dance, there are groups such as rock and role, twist, disco,
Ball dance and break dance besides the intimate tango dance, etc.;
For entertainment to kindle mood of pleasure, there are car sports
To see or wrestling matches or sports like cricket, soccer and tennis!

Also, lovers of beauty may go for artistic pictures to get mood;
More than that, there is beautiful things of Nature such as flowers,
Birds, fish, mountains, meadows, rivers, seas, star studded night sky
With dream kindling Moon to entice men get pleasure to enjoy beauty!

When there are so many interesting entertainments to inspire joyful Mood,
pleasure and all, there's no chance to lose pleasure in life!

Ramesh T A
No Change!

Day is very hot
Night a lot of rain falls
Next day no change...!

Ramesh T A
No Compensation Can Replace Irreparable Loss In Life!

What is the compensation for the life lost in the world? Compensation for the people died in train or bus or car Accidents occurring here and there is money or job to The dependent people to the dead ones at the most ever!

What is the compensation for the living dead who have Lost all chances, hopes and reliefs available here...? The losers have to find out the way to mend themselves To pull on the remaining days in the world till the end!

No compensation can replace the life lost and the chances Denied ever, but they are all only some consolation for The remaining ones to stand on their own legs somehow or Other by finding some alternative to cope with life later!

Compensation in life is just a small token of relief only; No compensation can replace anything or anyone lost forever!

Ramesh T A
No Development!

Economic development
Without social development is
No development!

Ramesh T A
No First Cheer Even....!

None other than poets appreciate seasons best!
Already some are thinking about Winter.......;
But here we are still waiting for summer rain!

After August and till end of September still....
There will be hot Sun and also some rain..... as
South West monsoon has yet to go some miles!

All kinds of fruits are coming to the market
For celebrating festivals one after the other;
But lo, drops of rain are still missing the show!

October on we will have North East monsson,
The time for formation of depressions in the bay;
Also a lot of rain and cyclones too till mid December!

Only two cheers we have ever year, but now.....
We don't have even the first cheer well, friends....!

Ramesh T A
No Full Stop!

No Full Stop!

Friends and all are very careful to deal with him;
He has had a slight heart attack sometime back;
Very closely talking persons too have become so!
When all expect the end will come soon for him,
The date of his expiry seems to prolong forever!

He achieves many laurels on many matters sure
After knowing fully well his end is nearer soon!
Many have stopped all continuing contacts and
Wait for his smooth passage to the other world!
But the creator has some other thing in mind...!

By all his creative activities he has no demise
Ever to be known to put a full stop to his life!

Ramesh T A
No Good Hopes From Movies Today!

Movies are not about real life but only speculation
That makes one forget oneself in the dream of future!
In the Oscar Award ceremony Mad Max, Revenant and such
Movies are awarded with those prestige prizes for nothing!

Movies of wonderful message and all time appreciable ones
Seem to be lacking in all present day movies so to say sure!
The Revenant says about the fate of the present day world
Due to Climate Change needing the attention of all for sure!

That's why Revenant deserves that Award this year one can say;
Other movies are not that much worth seeing it seems as madness
How can anyone appreciate even if they seem to play with bombs
Like Atomic ones or chemical ones in the near future so to say!

On the whole movies are not giving any inspiration or hope
For having a better life in the future by any individual...!

Ramesh T A
No Great Influence Needed!

Those days of wandering with friends are gone
Long, long ago; yet the thoughts remain ever
Green in heart to feel the pleasure unique sure!

Our days spent in natural surroundings how
Beautiful and wonderful to love and enjoy our
Youthful time so during our college days, ha..!

No more such times will come again in our life
To refresh spent up spirit full of energy and speed
That can overcome even the horse powers we know!

Such was our time that we were never in want of
Any inspiration but Nature, the master spirit that
Influenced and inspired us to be free as birds....!

No great influence is needed except Nature to inspire
All to go Ahead in life to achieve great things for world!

Ramesh T A
No Loss For Love Ever!

For all close relationships love is the base,
Upon which only companionship, intimacy
And friendship are developed for life sure!

Sans love there cannot be anything fun
To think about or live for in this world
Full of worries, woes and monotony ever!

Love creates pleasure unique suffering pain
That disappears with joy and happiness
Making life enjoyable and endurable ever!

There is no gain sans pain in human life;
Love is no exception for this natural rule;
But love is beyond all matters of gain or loss!

Love never loses anything in life as there's none
For love to lose as it gains all by giving all ever!

Ramesh T A
No loved ones can be with me always!
All have the role to play in the world stage;
When the time is over one has to quit;
After playing the role the curtain will be down!

No loved ones can be with me always!
I have the fate of seeing the loved ones
Go away soon leaving me forlorn!
So, I learnt nonattachment earlier in life.

No loved ones can be with me always!
The more they love the soon they leave me;
I suppressed sadness long to become hard
And I am firm in my mind to feel cold!

No loved ones can be with me always!
If I too love them I will be the saddest;
I will be the worst hit to suffer endlessly!
So, I keep my cool whoever leaves me!

Ramesh T A
Killing pilgrims on the way is a heinous and dastardly act of
Extremist radical bigots no religion will ever accept in any way!
Such terrorists are the most cowards no one will hail as
Heroes by any standards of any religion in the world sure ever!

By such an heinous act what are they accomplishing or
Achieving to call themselves as praise worthy ones sure?
Nothing and they will become nothing and nonentity in the
World uncared for by all whether they are happy or sad!

If you destroy good things and innocent people in the world,
You will be destined to be in the hell not only here but also
There in the other world and there won't be any redemption
For persons of bad, worse and worst character sans mercy!

Never will you have four beauties to enjoy in heaven after
Your death sooner or later as you are brain washed earlier!
The promise and money you get for this sinful work will never
Bring you liberation in the world and in the other world sure!

Ramesh T A
No One Is Independent!

No one is independent in the world;  
All are interdependent by Nature;  
No one is separate entity forever  
As all are part and parcel of Nature!

All are products of one and only Nature;  
All are ecologically connected in Nature  
Like a circuit board parts linked with each  
Other to function in an electronic device!

Even the Almighty living sure as Universal  
Spiritual energy exists imminent and also  
Transcendental activating everything every  
Where in the Universe linked with all ever!

The truth is independently none can survive  
Perpetuating life or activities in the universe  
Without having the link with each other to  
Pass on vital life supporting ingredient to all!

Ramesh T A
No One Is Perfect!

Making a commitment and taking a contrasting stand
Will expose one as a traitor only to the world sooner...!
Tough or easy, once a decision is taken, one has to face
All related aspects with open heart and sincerity ever..!

All cannot have everything in a perfect condition always;
Finding faults here and there based on silly matters is
Only showing one's incapability to deal with matters sure!
Learning with patience, one can surmount all faults well.

Taking decision on wrong understanding will spoil all....
Things started with good hope and confidence on a venture
Vital to one's life and all connected with each other sure...!
Knowing this, with restraint and patience one can do well.

No one is perfect and all learn to correct oneself for the better
To deal all matters and make good of a bad bargain in life..!

Ramesh T A
No Pain, No Gain!

In all things, without pain there is no gain in the world! Without suffering, the fruit of love can't be enjoyed ever. Some souls take pain for others to make them enjoy love, Peace, joy and to know value of love and divinity finally!

Great souls suffering for love of all have become divines, Delivered all from bondage to live in peace and prosperity In the place they loved much in the world standing against All odds cherishing the valueless of love and sacrifice for all!

Selfless service of love, though painful, provides rich dividend To share and live in love, friendship and peace in the world... Changing hell into heaven here itself for all irrespective of Diversities in race, religion, language and culture for unity!

Sans love unity in diversity can't be achieved for all to live in Coexistence by cooperation and coordination in one world...!

Ramesh T A
No Place For Sincere Works!

Nothing seems to be smooth going everyday! Only Jack of all trade can deal all to go ahead; Even after doing all nothing seems to be fine For spectators who comment and criticize all!

Many works done so are not cared for by many; What sort an involvement is applied to do all Only those who have experience so can know For sure to appreciate or at least console here!

Many sincere works of experts are neglected by All who look for easy way to assess and decide About the validity of a real accomplishment of Something not so easily possible by any means!

This is the nature of the world, where all best Things are neglected and ignored forever......!

Ramesh T A
No Point Of Return!

Most money spenders are the winners in the election!
The party that has spent a lot of money has won in
The election and come to power again to rule the mass;
Masses are not interested in the change for the better!

People are still believing that the party worked for the
Freedom movement is the good party to help the people!
They are the source of corruption who have spoiled the
Progress of the nation still the mass doesn't believe ever!

What a pity! The herd mentality is still guiding the mass
As the main aspect of democracy with number that decides
The fate of all for the best and worst even after many years
Have gone away after getting freedom for the nation.......!

Corruption has become part of culture leading all to some-
Where there is no point of return at all, if things go as ever!

Ramesh T A
No Romance!

Romantic heroes
Are rare in modern world as
No romance...!

Ramesh T A
No Subject!

Aimlessly sitting to write with no subject
What and how can I write anything at all?

Likewise feeling so many poems I wrote
Not remembering all and knowing next!

Yet, no day seems to go without a poem
Surely flowing from my colourful pen ever!

I have seen many writing many with this
Topic of no man's land as philosophers do!

From seemingly nothing Big Bang occurred
And a beautiful Universe stands as wonder!

Seeming nonexistent within all God activates
Our body, all beings and the whole Universe!

Perhaps only poets do such a magic with poetry
Writing many wonderful matters with no subject!

Ramesh T A
No Use!

Without luck
Even colour and music in life
Are no use!

Ramesh T A
No Way To Go Out!

No sleep came due to chill night climate;
Throughout the day rain was heavy;
Nowhere anyone could go out full day;
Darkness prevailed all over the town;
Water logging almost immersed vehicles;
No respite came though all prayed long!

Roads were eroded by flash floods in villages;
Bridges were broken down by heavy rain;
Buses and cars could not go on fast ever;
People were stranded in Bus stands;
No way to go home constrained all people;
New companions talked about all woes!

When rain comes heavily all think about Summer,
But if Summer heat is too much think about Winter!

Ramesh T A
Noathing Is Impossible!

Never keep anything inside heart;
That will keep you ever in distress!
Speak them out to feel free ever and
Find a way to fulfil your heart well!

If it is a long time consuming matter,
Have diversion in some other matter,
Which may help one console and also,
Give some clue as to how to settle all!

Pending matter is a corroding sea wave
That will go on corroding the peripheral
Heart before that reaches into the core to
Destroy the whole being some day sure!

Nothing is not achievable in the world,
If the way is found out by efforts real!

Ramesh T A
Nobel Prize!

Works of noble hearts

There is one Nobel forever

To give golden prize!

Ramesh T A
Noble Services Of Great Ones Develop Humankind Ever!

Heart, mind and soul of man attain perfection
By the union of knowledge and love ever sure;
Perfection achieved by knowledge and love gives
Real sense of freedom to enjoy life of bliss..!

Knowledge of arts, music, painting, poetry, science
And philosophy with the love of creativity of one
Will result in the expression or production of
Great ideas by works of masterpiece to last ever!

Knowledge of Self, world, Nature and Universe helps
To have broad vision of the whole of all in one sure
And that will help one to have a great ambition of
Life work ending in noble achievement for the world!

All great achievements of creativity and inventions
By noble souls have developed humankind for the better;
And the continuation further is the culture noble ones
Follow to maintain achievements made for better cause!

Ramesh T A
None Can Escape Fate!

No one can escape from the ever watchful eye of Fate in the world!
By knowledge, smartness and God's grace one may change the course
Or minimize the vigour of Fate, but none can escape from its target;
For, fate is clamped on everyone based on each one's acts in last births!

Will of God is laws of Nature no one can escape or hoodwink it by science;
No one can stop or smoothen the surge of sea by storm wheel of cyclone
Or predict or stop the earthquake and tsunami triggered by it by any means;
The good and bad things of life are also happening due to the will of fate!

Even God as friend of man can change the direct hit of arrow on head
To the cap one wears, but not the object of destruction of fate ever sure;
For, for every action there is reaction directly opposite to it in direction;
Best thing is bow low to allow the arrow pass over you at the right time!

The mark of act left behind by a thief is found out by spy to catch one;
Likewise, the mistakes we do in life affect us as fate in the next birth sure!

Ramesh T A
None Can Escpae Natural Design Of Passion!

All people may believe they have self control, rationality and all; 
But Nature’s design is such that no one can escape from its clout; 
Control of all sorts yield before the seduction of its lovely beauty!

Delight in beautiful things of Nature, animals and humans is natural; 
Entire world species indulge in love affairs influenced by beauty; 
Fun in sensuous romantic acts is natural as all are susceptible to that!

Good, cunning and bad are swayed by Nature's design of love by beauty; 
High or low one's passion may be, but none can escape from Nature's net; 
Indulgence in sensuous act is the means for perpetuation of species!

Jokingly persons may set aside that, but when alone, all are helpless; 
Keeping company to beautiful companions will be fire beside cotton sure; 
Lustful love under the influence of Nature makes all susceptible to it!

Most of the cases of love, comedy or tragedy, start so and go on so; 
None is an exception in this matter, however good or bad one may be; 
Open secret it is, though it may not look so for the eyes of others!

Power of Nature's fusing design is so that none has escaped in history; 
Quite a puzzle or mystery this seductive socialization is in world life; 
Resolving this no science or spiritual act can excel against Nature...!

Subsiding this passion is possible only by satisfying its needs ever...; 
Truth is that though we have mind and rationality, we are still animals; 
Universal system for all is such that human advancements are temporary!

Various methods one may adopt by scientific or spiritual means, but 
World wide social life and its influence is such that nothing lasts ever 
X and Y even though may look to be an exception by a rare mutation...!

Years of human endeavours haven't changed this natural design anywhere; 
Zero is result despite persistent efforts being taken even by experts!

Ramesh T A
Nonentities Of Human Race!

The irresistible magic spell of Nature attracts
Suitable male and female each other forever in
The world however developed and advanced due to
Science and technology helping mechanical life!

Devoid of natural life, abnormal beings also are
Now becoming popular as lesbians and homos to
The extent of living a married life too in the
Modern material world as impotent non-producers!

Due to disobedience to natural laws adapting the
Benefits of modern technology to the challenge of
Natural laws, those non-productive species are only
Driving the mad society to the bring of destruction!

Not knowing what love is and natural life, many are
Trapped in this way of life against Nature only to
Be defeated sooner or later when realization comes
To such nonentities of human race in the world...!

Ramesh T A
Nonviolence And Tolerance!

Sans Mahatma Gandhi, India wouldn't have got independence earlier; 
Sans the struggles and sacrifices of Indians, Pakistan won't be there now! 
India got independence due to nonviolence movement of M K Gandhi; 
Pakistan got independence due to Gandhi's selection of choice so then!

Truth, nonviolence and justice were the shield that helped Gandhi sure 
Achieve his goal of freedom for India by democratic resistance forever! 
Due to his long fasting for demands of India, alertness is on everyone 
Seeking the wise messages of great leaders suitable even today I am sure!

His smiling face on currency notes are a warning against corruption 
That has retarded progress and is driving India to fight against Pakistan 
To bring peace, art and fruits many love in their hearts very much long, 
Though they are supposed to create novelty in arts that bring joy ever!

Nonviolence is new way of life we all have to learn from good scriptures; 
But in reality, only fakes have better chance in the society that believe in 
Peace and love for all successes in any field of the world, man works ever 
To achieve one's ambition or belief against all odds blocking the path ever!

Tolerance in public and love in private only help to practise love anywhere, 
If extremism, violence and terrorism are weapons of the weak to do anything! 
But there is no guarantee for success even though tolerance is difficult to use, 
When feeling is provoked by extremist acts of the incorrigible persons ever..!

Ramesh T A
Nonviolence, A Matter Of Dream Impossible!

M K Gandhi lived as an example more than
His precept of simple living and high thinking;
Achieved freedom for our country, India in 1947
And has become a symbol for nonviolence ever!

Wearing a half dhoti as pant and towel over his
Bare body, he lived one among the mass pricking
The conscience of all Imperialists though famously
Criticized as fakir by British PM, Winston Churchill!

Agricultural, Industrial and Electronic revolutions
Have modernized world and civilized the life of man
By sophisticated technology, transportation, etc.....
Making man live mechanical life rather than human!

Still wars as uncivilized man, man wages against others
Making nonviolence a matter of dream quite impossible!

Ramesh T A
North Or East Or West Or South, Poetry Serves Best!

North or East or West or South, Poetry Serves Best!

Due to Computer coming into vogue, Poetry flourishes; Only in Poetry with less words more ideas are written. Time being precious for many works, Poetry is best... For all to adopt writing all matters briefly for all to see!

Whether it is best idea or just a small announcement, Everything can be conveyed in poetic form quickly For all to reach the message sans any inconvenience, Which is not so easily possible by any other forms sure!

Many poetry websites hence have come into fashion now Serving the purpose of each one according to one's need Whether one is in office or on a tour or doing anything Anywhere in the world, North or East or West or South!

News of all kinds reach all more quickly by means of Poetry Than by News Papers, magazines or books or anything......!

Ramesh T A
Not An Achievement But A Miracle!

Luck is really smiling on me, I feel,
When I see something happening
Beyond my dream or imagination!

At the least expected moment, when....
A thing of my great joy happens means,
Surely it is due to luck and nothing else!

Sans luck whatever you do, nobody
Really cares in this crazy world, I feel
Very often, when I see the news daily!

The things we do, others may say that
As great achievements, but they happen
Naturally not by efforts but by miracle!

When we are driven to the extent of no hope, ... if
Anything clicks, it is not achievement but miracle!

Ramesh T A
Not An Easy Job To Approach God Sans Knowledge!

Mathematical suppositions of X, Y and Z represent
The unknown values of things that are finally
Arrived at by step by step evaluation usually!

Likewise, activities of God such as creation,
Protection and destruction are supposed to be
Represented as personification by three lords!

Three jobs of God are represented by Lords like
Brahma, vishnu and Shiva to govern the whole
Universe by maintaining Dharma to balance life!

By this way, approach of relevant powers is easily
Possible to pray for help to overcome difficulties
In human life in the world and life goes on well!

These all show that sans knowledge of God so, it's
Not an easy job to reach Him, even if we wish much!

Ramesh T A
Not An Easy Joke!

Talking is easy;
But doing is difficult!
Talking with experience has truth;
That truth is practically useful!

Singing song may look to be easy;
Poetry writing may look to be simple;
Painting pictures may look to be nothing;
But all arts require talent and practice!

If one indulges in such acts it is funny;
If there is no critic nobody knows mistakes.
It’s like Turkey dancing believing to be a peacock!
It’s like crow crowing believing to be singing as Koel!

Not an easy joke it is to do things seemingly easy;
By practice only real difficulties can be understood!

Ramesh T A
Not Fire But Water Needed!

Love to create or invent best things for mankind;  
Never create Frankenstein monsters nobody likes;  
Create beautiful and best things beneficial to all;  
The world will praise and human race applaud you!

Go to Moon or Mars and explore the Universe well;  
Never find hell instead of heaven anywhere in Space!  
Many intellectuals have discovered Dog and not God,  
The opposite of what was aimed mostly for many years!

The world is always in troubles and never seems to end  
In the name of religion, science, technology and commerce!  
Civilisation of man does not go forward but only backward  
And leads the world once again to the Stone age to fight ever!

The accidental invention of fire led man towards civilisation  
But his craze of fire made him invent many kinds of weapons!  
Not stopping so he waged wars just to use the weapons made;  
So, let him think about water which is what needed everywhere!

Ramesh T A
Nothing Can Go Against Nature!

Sunshine in the morning is strong
Giving the impression that there, s
No rain we can expect later sure!

But in the evening clouds engulf
The sky, mountains and all trees
Like mist covering all en bock...!

What a sudden change so soon
Has brought rain soaking all
Places wet and slipppy ever!

All programmes are blocked,
All things have to be cancelled
According to Nature, s diktat...!

We think to do one thing ever,
But against Nature are zero...!

Ramesh T A
Nothing Can Shake Or Stir!

Life is full of opportunities to turn dreams into realities;  
No time should be wasted in hitting the target with arrows  
Ever focused directly at the centre of the object sans fail;  
Otherwise, it would be like the slip between the lip and cup!

However, for the confident and thorough guys, fast or slow, one  
Will achieve one's goals sans fail compensating losses by tact!  
It is the case with well seasoned and experienced one sure and  
Such a one would never miss achieving dreams into realities...!

Mind with potential ideas and prolific details of all matters,  
It is a feast to deal matters in an adventure when it's a race  
To win the target sans fail due to confidence, courage and faith  
Ever capable of daunting whatever the pitfalls or drawbacks sure!

A person of guts capable of turning failures into successes in  
All works, nothing can shake or stir on any moment in world life!

Ramesh T A
Nothing Is Fair Or Fowl In Love!

No rules and regulations are there for poetry and poets; 
No rules and regulations can forbid natural love forever; 
No fair or fowl means are there in wars of the world ever; 
Nothing is fair or fowl as far as love is concerned in life!

Passionate feeling of human emotion is what love is ever; 
Such a feeling inspires poetry to compose poetry for love; 
Passion rules high in wars against enemies of humankind sure; 
Like poets, lovers are rebellions to achieve union by love!

Sans the union of lovers where can we find poems, songs of life? 
Thriving of life itself will be no more possible in the world, 
If love does not unite two suitable lovers as one couple in life; 
If not, humankind itself would have been disappeared as barren planet!

All social norms, etiquette, laws and religious taboos are there 
Just to maintain order in world life but not to destroy love ever! 
For, love is the life giving force responsible for perpetuation of 
All kinds of species from single cell to complex human beings sure!

Ramesh T A
Nothing Is Lost By Positive Thoughts!

Things may happen or may not happen, but positive thoughts Should not be given a go bye relying on negative thoughts; Negative thoughts may be needed, but not to be had in depth To the extent of becoming an inactive person in life long!

Intuition cannot be explained as it's like knowing answer Sans working out all steps to the end to say the result..! Intellectual analysis of matters and new information has A sort of conviction that helps to say any prediction sure!

Romantic persons have great vision and philosophical thoughts Leading to the extent of making predictions and wishing all Best things to happen to please others and bring cheerful mood To make all go ahead with positive ideas pushed by inspiration!

Never hope should be last till the end of any experiment to Save one in critical condition needing emergency treatment..! For, medical miracles cannot be ruled out in this world full Of such stories that produce goose-bump effect to the listeners!

Ramesh T A
Nothing Is Permanent Here!

Nothing is permanent in this world, when the world itself is Uncertain in the Universe including our life and dear ones! We came here with nothing handed and will also, go nothing Handed one day, because this destiny is God made one ever!

Best thing is we can befriend with likeminded persons ever And extend our love to all loving persons wherever they are! Our best thoughts and ideas that are useful and helpful to all We can share for the development of others to attain happiness!

We cannot take away anything with us at the end except joy or Sorrow of our acts in this world leaving everything for all to have! Best thing is we can enjoy everything in any manner we like as long As we are here leaving our best ones for all to enjoy as they like!

By satisfying our desires so, we can prepare ourselves free of any Want or need and be happy to leave this abode for real home....!

Ramesh T A
Nothing Is Permanent!

Nothing is permanent in this world being a finite thing;
If it is an infinite one, it won't be interesting unless classic!
Poetry, short story and novel all are aware of in literature;
Short story and novel take time, but poetry is instant one
To read, know, feel and have a say immediately damn sure!

Anything interesting from the beginning to the end with
A quick way to say all in a nutshell as poetry does in life
Surely has an appeal over the long plays like short story
And novels do taking a lot of time to know and appreciate
Only when they are interesting and quick to touch heart!

The instantly impressing and touching heart with lasting truth
Surely enthusiastic as there is a beginning and end wonderful;
Whereas the long plays like novels and stories unless amusing
And brief nobody wants to have any truck with them though
Lasting longer in time like the infinite things of the Universe ever!

Ramesh T A
Nothing Is Sure!

Morning it is  
Cold and beautiful at dawn  
But then very hot!

What a climate  
We feel everyday sans fail  
All due to pollution!

Then clouds come  
In the evening kindling thought  
Of rain but not sure!

Hot and cold  
Blows the climate sans certainty  
Dictating all as it likes!

Our advancements  
Are nothing before Nature ever  
It seems sure!

Ramesh T A
Nothing Possible Sans Knowledge!

For every incidence we encounter, we have nostalgia
To compare and contrast to say our opinion in life...;
This is how we philosophize over a funny incidence
And say our wise words based on experience of past!

Reading newspaper everyday we come across so many
Incidences funny and serious making us think over them
To have a clear idea of situation so as to be alert to face
Any untoward incidence or mishaps that may follow next!

In the modern world sans knowledge it's waste of time to
Spend our life not knowing where we are going as that
Would bring anxiety and excitement leading to heart
Problems costing much making one a good for nothing one!

Knowledge of past and present builds up intuition to know
In a vision all that would happen in the future to prepare
One ready to face and win over with profit and benefit in
The long or short journey of our life we live in this world...!

Ramesh T A
Nothing Special

Full Moon came up
But clouds keep Sky dark
And people walk on!

Ramesh T A
Novelty In Literature Increases Audience!

Same thing said in a novel way is novelty in literature;
Everyone loves the same things of life in a new fashion;
Style of saying the usual things differs from each one;
The most loved by all has a chance to shine long here...!

All stories begin with Nature to characters one after the
Other slowly but steadily in a sequence all enjoy much, if
They have poems or songs with melodious music in movies to
Kindle interest in the audience to see complete stories..!

Novelty in literature is developed by technology in the
Clear presentation through cinemas all enjoy as entertainment;
Afterwards serious part of story reveals truths and ideas
That make men remember and follow in life to better time..!

Expression of novelty by artistes increases fans to them
And that enlarges popularity in the society of story lovers!

Ramesh T A
Novelty Is Needed To Make All Interesting In World Life!

Novelty only adds taste to everything we deal with ever; It is like offering old wine with new bottle to enjoy; Whether it is way of worshiping or rendering justice or Enjoying life by culture and civilization, novelty is must!

Traditional culture is following culture sans change and Modernity sans change with novel ideas are all dull and dry; To make settled way of life with settled works to pull on Days need some novelty to do all so that interest never dies!

Interest, enthusiasm and zeal only keep all do usual routine With love and satisfaction and that's possible by novelty sure; House painting, dress to lift up image, delicious food and Visiting new places on holidays are all novelty in usual things!

Sans novelty in dress, way of enjoying life and work following Best culture maintaining modernity is not so interesting and full Of fun in the world we live in mechanically like machines ever And to change that with human touch, novelty is ever needed sure!

Ramesh T A
November Rain Washing The Sky Canvas!

On Halloween's Day when many are enjoy festival fun,
I was engrossed in the beauty of evening sky of Nature!
Rose clouds here and there on the blue sky is what a
Beauty, Nature has painted on the canvas of sky..!

November one is covered with grey clouds everywhere;
A steady and long rain is falling all day sans stop
Washing the painted canvas of yesterday's sky beautiful
Perhaps for painting another beautiful picture sure!

With North-East monsoon rain starting just on first day
Of November perhaps serves as harbinger of storms and
Cyclones that may follow before the end of December for
Filling ponds, wells, rivers and all with full water..!

That will help agricultural fields to proceed on full
Swing with planting and harvesting of crops in January!

Ramesh T A
Numerous Celebrations Rock The World!

Everyday is a day of celebration in the name of
Father, mother, yoga, lovers, colour, lights, new
Year, harvest, Gods, leaders, poetry and so on!

Of them, poetry festival has great reception sure
Everywhere with song, dance and recitation of poems
Giving awards to renowned poets of nation and world!

Celebration in the name and cause of something has
Become a most favoured thing all wish to participate to
Have a joyful time among pals as feathers of same bird!

Love and peace are addressed by poetic ambassadors of
World nations to stop wars, hatred and disputes on
Various reasons that divide the world into many pieces!

Celebrations of something have so many benefits to men
And world to promote, peace and prosperity sure to have!

Ramesh T A
Nurture Can; T Change Nature!

Rein-less horse and race horse will run away sure;
Street grown dog when well fed and kept at home also
Will run out to feed street excreta as t's true that
It's impossible to straighten out dog's tail ever...!

Real nature of a person cannot be changed by anyway;
Nature and education may develop one's personality,
But natural character cannot be changed ever anywhere
When one loses control by an extraordinary situation!

Mere education cannot make one perfect, but by long
Experience in life only makes one flawless in character;
That depends upon strenuous practice and assistance by
Others with special care and control for a longtime..!

Above all, it's will of God the good and bad nature of
One is controlled or revealed in the course of one's life!

Ramesh T A
O All! Why Not Answer All?

O Readers! Where have you gone?
O Poets! Why have you lost interest?
O Media! Why have you become mediocre?
O God! Why have you become silent?

O Universe! Why are so silent for long?
O Stars! Why are you standing apart always?
O Sun! Why are you not seeing other side of Moon?
O Moon! Why are you not turning yourself round?

O Planets! Why are you not looking the same?
O Earth! Why are you so patient always with all?
O Ocean! Why are you not going to take rest?
O Rivers! Why are you always going to meet the ocean?

O Poets! Why are you not writing articles and stories?
O Writers! Why are you not writing poems for change?

Ramesh T A
O Democracy!

Politicians are democratic kings
Each one having a province to rule;
No police, court and office can stop!

Jungle rule they prefer to modernity;
Their family from top to bottom say
What others have to do and listen!

Grand father will rule the state;
Elder son will assist him as obedient son
And grand son will take care of central rule!

People cannot change it by election;
For, all voting machines have no proof
Of who has voted for who and so on!

Democratic dictators politically deal all
Making matter of nothing big and big nothing!

Ramesh T A
O Democracy! Can You Hear?

Due to disturbances of govt. to all sections of people,
All start to think about the value of democracy now!
Democracy is supposed to be having choice for all
People to think, speak and do as all wish anywhere!

By sudden govt. measures by ordinance, all people's
Works are diverted to new situation's activity only for
Many days sans any respite or relief whatsoever as to
The promises preached by politicians putting all in soup!

People's rights, liberties and choice are narrowed down
By sudden measures making all beggars and fighters
On the street for quicker actions by govt. to normalcy
So that all can mind their works sans any interference!

It seems democracy is suitable only for people who shout,
Fight and go on strike in large numbers to make all things
Favourable for all ordinary people to lead a decent life in
A honest, sincere and gentle way possible forever sure!

Ramesh T A
O My Computer!

Computer problem makes me inactive;  
Connection reset and server not found  
Always make a hell of time to browse!

After computer has come into vogue  
These problems have become common  
To endure and go ahead with our work;  
What to do with this modern gadget!

Nice old days of using long hand writing  
Have disappeared and letters too gone!  
Without email facility we are nowhere  
It seems when computer goes wrong!

Can there be an alternative for this?  
I wonder to overcome this problem  
Now and then I have to endure, ah!

Ramesh T A
O Rain!

Layers and layers
Of clouds are gathering
Nothing to stop rain!

Ramesh T A
O Rain, Rain!

O rain, rain
Go away they say
But we say come!

Ramesh T A
O Spring Rise Again!

Snow covered places of Earth long for Spring!
But tropical places have rich growth of green
Plants and trees full of flowers and fruits sure
According to the seasons of the year nonstop!

Deserts are another anomaly of Nature ever
Just as the snow in Winter sans leaves, flowers
And fruits on trees stripped naked for months
Till Spring brings new clothes for them to wear!

What a relief for snow covered regions to see
Springing of vegetation and also, for deserts
Rain or water of oases gives joy as never before
To make life go on thriving on the Earth we live!

Let Spring recreate life and regenerate planet
With full of living beings to survive in love ever!

Ramesh T A
Oasis In The Desert!

Ice cream in Summer and hearth in Winter romance is
In life full of uncertainties in the world we all live so long!
Romance is the entertainment that flourishes on dreams
And imagination enlarging in fantasy no one can escape!

In the world of romance love blooms between hearts of
Innocent beings full of woes insurmountable in the life
They are living among strangers in an entirely unfeasible
Situation for romance and love to flourish at all anytime!

Caught by the web of romantic love they move as strangers
With hearts full of love they are unable to convey anywhere
Until by accident it is known to the lovers longing to unite by
Some chance they are unable to create by themselves somehow!

Romantic mood keeps lovers engaged in pursuits quite strange
Directed by heart against the negative thoughts of mind forever!
As in the dreams they go on doing things whether profitable or
Not at all sans bothering about the consequences of their acts....!

Romance is the oasis in the desert full of no life helping anyone
Ever think of survival in plenty anytime of their life in the world!
Yet, carried by dreams of romance they try to live putting up all
Difficulties leading finally to fruition of their love in joy at the end!

Ramesh T A
Obsessive Sadists!

Obsessed people who have turned into sadists can't see
Things normally as they really are as they cannot believe
Anything and imagine everything to the extreme level ever!

Due to mental shock, they take even small things to extreme
Levels and are unable to decide which one to believe and
Which one to neglect or ignore as silly matters in world life!

Due to their inability to realize truth, they cannot live normal
Life like all others in the society to fulfilment and completion
In life and pull on the days in mental torture and nightmares...!

It becomes true that it is difficult to win in an argument with
Idiots as they cannot be convinced due to the fact that they
Can't believe and understand anything by their own reason!

Living life with such people will make one feel as if one is
Coexisting with mad people in a mental hospital forever....!

Ramesh T A
Ode To Passing Clouds!

O Passing Clouds! Wait a while!
Green meadows call all to lie on!
Under the shade of trees lovers sit!
Blue Sea kisses brown sandy beaches!
Don't you see and enjoy such scenes?

O Passing Clouds! Wait a while!
Why are you busy as bee like business men?
They have no time for love in the world
And take all in a matter of fact fashion!
Life also they take so and end in gloom!

O Passing Clouds! Wait a while!
While passing over places have a look at all!
They all show their best in natural art everywhere!
If you don't appreciate them you are worthless in life!

Ramesh T A
Odes To The Blue Moon!

Beautiful blue full Moon shines bright in the night Sky
Again in the same March month to surprise all by its stay;
After the end of hot day of Summer, the cool breeze from
the South is a blessing in disguise so to say for sure..!

Bright blue Moon among billions of tiny twinkling Stars is
Indeed queen of Sky tonight to give company to individuals
And a great inspirer of mood to lovers separated by distance,
But connects them carrying their odes to each other all night!

Lovers say their wishes and despair alternately in odes new
And Unique being the blue Moon coming for the second time in
The same month to hear their plights and petitions to carry
All their odes to the respective lovers of the world sure..!

Odds are not the odes as they all carry messages of love for
The beloved soul mates they wish to meet sooner or later sure!

Ramesh T A
Offbeat Music!

Attitude of men and women differ quite a lot in all!
But in the modern world both don't have high aim,
Ambition and guts to achieve something remarkable!

Only physical aspect of human beings is top most
Forgetting mind, heart and spirit and their values
That enhance human stature against all living beings!

Only animal kind of pleasure all are interested now in
The present era called Kali Yuga, where unworthy beings
Seem to be at the top of helms controlling human society!

Higher nature of humans are out of place now and the
Quest to satisfy such taste has gone awry in all walks of life
Rendering sense of goodness, beauty and truth as useless one!

In this offbeat of music what can one expect in this world
That has retarded in pursuit of a mad search quite unwise?

Ramesh T A
Old And New Differences!

What is the difference between old and new?
Old is always slow and steady due to age....;
But new is always in a hurry being energetic!

Old is noted for wisdom and insightfulness...;
Whereas new is noted for new ideas sans any
Idea of its durability due to lack of wisdom...!

Old and new indulge in vicarious pleasure in
Their own favourite subjects forever and ever
To find the depth, height and ultimate truth!

Old and new enjoy together computer browsing,
TV programmes and cricket matches often having
Their own say about each and everything thing...!

The big difference between the old and new is ever
Resting on wisdom and intelligence as to experience!

Ramesh T A
Old Is Gold!

Old songs
Still entertains many but...
New ones not!

Ramesh T A
Old Pride!

Will old pride

Provide honour and power

To one over others?

Ramesh T A
Omm...!

Om is the beginning
Of sound and all words in
The world and Universe!

Ramesh T A
On Resuming Lost Mood!

All thoughts lingering on day today matters
Best of mood never comes to do anything fine
Casting aspersion over my ability to do better!
Delight disappears sans mood of zeal sometime.

Elite intellectuals again and again see favourite
Fort of thoughts inspiring mood to grandeur
Gamut of rich ideas clustering around truth!
High flying birds like Skylark sing songs natural
Ignoring watchful eyes appreciating or criticising!

Joyful experience in high place sustains heart;
Kaleidoscopic designs colourfully appear beautiful
Like love inspiring as Nature cheering with flowers
Making mind, heart and soul submerged in sublimity!

Nostalgia of best moments in life enjoyed comes
Of and on making one forget unfortunate situations
Perpetuating cherished dreams to be realised soon!

Quixotic interferences by dolts spoil mood and time;
Restoring mood to the best of interest resumes all
Superseding lost opportunities by novel approach!

Thousands of ideas appear and disappear sometime;
Universe seems to come closer to assess all in nutshell!
Vertical and horizontal exploration to visualise all
Wonders of Nature in a lightning flash disappears!

X, y, z again has to be started from a, b, c on as never
Yearnings of reaching the Ultimate reality subside
Zeroing on the focus that never leaves mind ever!

Ramesh T A
On Whose Boat Are You Sailing?

We are
Sailing on the same boat
Of Poetry!

What is
Your opinion about
This here?

There are
Many boats going on
On this stream!

Yeah! A lot
Of poetry boats are
Many going on!

Whose boat
Are you going on
Poetry stream?

Ramesh T A
Once Good Time Begins To Shine Bright!

In this world of uncertainty, settled life seems to be a dream! 
Dream of such a life to live is a great boon to many a people!

People are made to suffer for sudden measures of govt. forever; 
Forever it is like sword hanging over head looming large sure! 
Sure of nothing, only based on some faith, we all pull on the days; 
Days go on unnoticed before we think of our achievements so far!

Far and far the dream seems to be ever for us to catch as train; 
Train travel we make to have respite from usual uncertain life; 
Life is both pain and pleasure alternating like day and night; 
Night sleep only is ours whatever things happen in the day...!

Day begins with usual sunshine and birds' song for poets ever! 
Ever nothing new seems to happen at all with hope and gaiety; 
Gaiety of festivals gives some relief to forget our worries, but... 
Worries turn into thin air once good time begins to shine bright!

Ramesh T A
A common script for all languages is an artificial arrangement
For all to learn many languages in a nation or in the world;
It's like preferring crow for peacock as it's more in number!
Separate script only can give natural identity to any language.

The same sort of thing is felt, if one common language is used
For administrative and working purposes though a nation has
Many languages for various States from the North to the South;
All will have aversion for it, if that is a northern language!

But the unique thing is that due to historical reason, English
Language has become a best world language for communication and
Exchange of all ideas according to the developments of world and
Technology faster and more suitable than all other languages..!

When this is so, if all States of a nation have separate language
Policy being followed in education, will one common language for
The whole nation be acceptable other than English in a multi-lingual
Nation with each language having five times less than English words?

Even smaller nations like Sri Lanka, Singapore, Malaysia and also,
Canada have more than one language for communication and all business
Purposes making other nations to amend policy for the introduction of
Some major languages for the governance of the States in the world!

No one would like the imposition of one script or one language for
the people to follow for education, administration and communication
Purposes among the people of the nation or the world as that will
Curtain the liberty and rights of citizens of free democratic country!

Ramesh T A
One Common Language!

In a multi-lingual nation, one or two languages
The govt. may use for administrative purposes
Including the national anthem in a language no
Other language speakers may decipher at all....!

Yet, all businesses are going on with people using
The languages they know not knowing the official
National language or ever trying to learn that one
With so many other languages just spoken only...!

In a secular democratic country, no one language
Can ever be imposed on other languages speaking
People, whose languages should be given opportunity
To be officially used for maintaining national integrity!

Having one common language for all people is surely
Impossible to practise unless all unanimously accept it!

Ramesh T A
One Earth

Hard earned freedom is spoiled by bad governance;
Promise of bringing river of milk and honey now
Never allows even water to flow due to drought!

Dried river beds have turned into plots for buildings
Completely effacing the imprint of precious rivers
Making blue gold a rare commodity to find forever!

Ice are melting on Arctic and Antarctic oceans now;
Pure drinking water is polluted, wasted and abused
Making the world dig hard for a dropp of water soon!

Even basic necessities are not provided by nations
Making world a play ground for wars of all kinds
Forgetting the fact there is only one Earth of all!

A small step on Moon may be a giant leap for mankind
But all planets cannot become one Earth in whole Universe!

Ramesh T A
One Eye For Two Eyes!

What to say of “If I lose one eye you lose two eyes! ”
This is how many are doing both in private and public.
Political parties coming to power are mainly following it!
In history King Thuklag ruled India boisterously in the
Medieval period and when he died there was nothing
Left in the vault for the next in line of throne to rule!
Many are looking to be the followers of the notorious
Don Quixote and Sancha Poncho, the comic Chivalrous
Knights of the 18th century in the democratic setup now!
So, it becomes easy for the villainous democratic dictators
To capture power by money power and swindle wealth
Of the public using the corrupt official till the end and
Leave the power with nothing left for the next in power
To do anything worthwhile for the people eternally here!

Ramesh T A
One Eye!

Billions of eyes for night
But there is only one for the day
What is that eye?

Ramesh T A
One God In Various Versions!

330 million deities of India are famous ever!
They are the cynosure of all wherever they
Are displayed during the times of festivals,
Especially on Nine and One Nights festival!

God is all pervading being in the Universe;
To represent this idea various versions by
Various names of God have come into vogue
To celebrate various festivals by all en masse!

Also, the offerings of all men go to one God,
If the food, fruits and sweets, after the prayer,
Are shared among all the people who have
Gathered for the festival anywhere in India!

Sharing of all offerings of God with all says
The idea that by doing so, they reach God as
God is in everyone and everything everywhere
Not only on the Earth but also in the Universe!

Ramesh T A
One God, One Nature, One World And One Humanity!

Is religion promoting human unity and peace in the world?
Religion is a system of faith and worship of God having
Many versions in many nations and according to individuals!
Though all faiths preach peace and love, differences are there!

Religions are the rivers coming from various sources only to
End in oceans and seas having connections all over the world;
Religions may be many preaching various ways to reach God, but
They all talk about one God in various names and styles only!

Nations are many with boundaries and mountains, rivers and seas;
But they all exist only in one world in which we are living ever!
Rivers, seas and oceans many have many names and exist in many
Nations, but they all start from seas and also end in seas ever!

Air, fire, water, earth and sky are all different forces or
Elements of one Nature everywhere and in which and from which
All creations of animate and inanimate things take place ever;
We belong to it with all of them within us too first and last!

One God, one Nature, one world and one humanity by various ways
And means start and end and continue each one's activities to
Make life to go on ever in cycles may be to continue the process
Of evolution to attain sublimation by understanding and cooperation!

When the whole system of life activities are going so, why after
The advancement of knowledge and understanding the significance of
Love, instead of cooperation, coordination to coexist in one world,
Man is fighting on differences negatively in lieu of fostering unity?

Ramesh T A
One Good Turn....!

Misty morning welcomes me when I wake up.
Everything is calm, cold and fresh to see out..!
Freshness of air is feeling like fragrance of fine
Flowers in multicolours blooming full in parks!

What a change immediately, when Sun shines
Very bright and hot to give warmth from cold
And gives energy to be brisk and active sure
Before the routine things begin to push the day!

Life has to begin just after the mist vanishes...
What a peaceful day with warn Sun comforting
Human body to rejuvenate well for the day to
Deal all matters better than before to see victory!

One good turn deserves another is sure to believe
And the situation makes this saying true forever!

Ramesh T A
One Great Power!

Bead-String in one hand and Book in another hand
Goddess Saraswathi sits on a White Lotus
Victoriously invoking art with her beautiful Veena
Eternally divine notes infinite
To grace the ardent one with knowledge to stand in this world
And have a permanent place in that world!

Sitting on a Pink Lotus Goddess Lakshmi shines bright
In all her glory wearing Ornaments of Gold and Diamonds
Gracing the suitably great persons with
Progress, prosperity and wealth;
Briefly, beautiful Sri Lakshmi symbolizes all
Wealth, comfort and jollity wherever she is present!

Goddess Sakti majestically sits on the Red Lotus with
A Trisul in one hand and a Tambourine in another hand
Ready to slay down the formidable foes,
Who act arrogantly against dharma in the world;
Also, without Sakthi no one can survive fighting
Courageously against adharma in the world!

So, Saraswathi is the source and for the development of
Knowledge for everyone in the world;
Lakshmi is the source and for the development of
Wealth for everyone in the world;
And Sakti is the source and for the development of
Power for everyone in the world!

Without knowledge creation of any kind
Cannot be good and great;
Without wealth protection of lives
Cannot last longer;
Without power destruction of evil
Cannot be perfectly complete!

To accomplish those aspects the Consorts of these Goddesses,
Brahma, Vishnu and Siva are there respectively
Looking after the duties of Creation, Protection and Destruction
Both in the world and in the Universe
In many Forms of Incarnations variously pointing out
The One All Pervading Great Power!

Four Vedas in the four hands of the four headed Brahma
Sits on a beautiful Lotus Flower,
Whose stem is connected to
The abdominal navel point of Lord Vishnu
Doing the duty of creation of Stars, planets
And living beings in the Universe!

Lord Vishnu reclining over the five headed Snake Bed
Comforted by the hand pressings of Lakshmi of His leg calves,
And surrounded by the Gods of Heaven ponders over
The ways to protect the Good against the Bad
Keeping ever ready in His hands weapons like
Chakra, Conch and Club to do His duty of protecting dharma!

Sitting on the highest Snow Mountain top
In a best possible yogic position
With a String of Beads, Holy Water Pot
And Trisul in His hands
Lord Siva coolly calculates each and everything
And performs His duty of destruction in time!

Ramesh T A
One Human World Of Love!

Efforts inspired by love will never go waste;  
Sure the success will soon reach one  
Whose activities go on for the sake of love!

World's great achievements are made of love,  
Without which where is peace and happiness  
Ever engulfing mankind through poetry so long?

World brotherhood and peace through poetry  
Everywhere echoes inspiring noble souls to come  
Together in this great effort of creating one world!

That day is not far off to happen as the UNO now  
To rule the world nations as single entity forever  
Inspired by love and guided by knowledge unique!

One human world is eternal dream of many greats  
That will soon be established by love spreading everywhere!

Ramesh T A
One Human World Or Jingoistic World?

To give send off to half baked ideological rule,
A Super power made use of dark age bandits in war;
After the cold bear was sent out, the white eagle
Flew away leaving the dark age jingoist to control!

When the people cried for relief, white eagle soon
Drew out the dark age jingoists, who infiltrated in
The neighbouring paradise converting into hell with
The earlier sponsor being greedy to have paradise..!

Jingoists then bombarded twin trade towers by two
Passenger plans as their way to show gratitude to
White eagle for fostering into Frankenstein Monster
And so, white eagle knocked out their king pin....!

Then black flag dark age jingoist group has come up
To create Satanic State separate indulging in long
Bombarding jingoism both in East and West often…
Making white eagle, white bear and all to put an end!

Can a Caliphate rule for the whole world as in dark age
Be acceptable by the civilized and well cultured States?
Will it not be a great farce to make people live as old
Time bandits to live fighting ever as cow boys nonstop?

Ramesh T A
One Human World Society!

Unity of humanity is the primary requirement
For the creation of one human world society;
Silent obedience of humanity is for the
Common good of all for all they accept ever!

One human world society is the Utopia they
All welcome forever so that a borderless,
Enemy-less and custom-less one world can be
Created to enjoy peace, prosperity and progress!

In such a one human world society, there will
Be common laws for all, single currency in all
Circulation of business, one language of English
For communication and no nuclear weapons ever!

All these aspects of one world are possible after
The unification of all unions of world into one
World union mainly by the consent of world human
society by mutual understanding and unanimous approval!

Ramesh T A
One Human World!

The spirit of unity of the people for world peace is wonderful; There are world forums growing up here and there nowadays For the promotion of peace and unity among world nations.

Economic developments of the nations have created material World at the expense of social development devoid of human Values making wealth or money as the bench mark for growth!

Material world has created mechanical life in lieu of natural life For all to follow in order to achieve progress and prosperity Killing human sense in all as poison to the extinct of humanity!

Competition instead of cooperation has triggered race in all Walks of life making all as machine-beast-men in lieu of humans Reminding all the Animal Farm of George Orwell novel now....!

With the initiative of world forums for world unity and peace, Perhaps the dream of one world with one humankind will dawn!

Ramesh T A
One Million Dollar Question!

Some accept marriage without reason and rhyme;
Immediately after marriage they rush for divorce!
It's meaningless why they have accepted marriage;
They shouldn't have done so, if they dislike family life.

Sans tolerance, shyness and sense of shame they live!
Speaking, behaving and moving sans following
Norms of family life culture, they can't live better
After getting married anytime anywhere in life!

What a contradiction, if a lady studying music....
And dance behaving so immediately after marriage!
Is she misguided and misled by her close relatives
And friends as she has been talking over phone often?

Can a lady rush for divorce immediately after marriage,
If she is a professional sans involving herself with a new
Family members and adjusting herself to a new situation?
It is a one million $ question remains waiting for an answer!

Ramesh T A
One Of A Kind Friendship!

We are both distant friends;
But we are very close in heart,
Though there is no chance
To meet in person anywhere!

Intellectually and spiritually
We are united as soulmates;
But physically we have not touch
At all including handshake ever!

Our deep interest in our art
Has united us via websites
Before we had contact over
Chat and then we are friends!

Our friendship is beyond all
Norms and one of a kind sure!

Ramesh T A
One With The Ultimate!

Even if one loses in everything in world life
Nature inspires love absorbing by its beauty
And kindles aesthetic pleasure towards bliss
Offering as boon to discover new pastures
Quite intoxicating and relieving inner pains
Filling heart with peace unique to meditate
And mystically commune with divine spirit
That restores one to a new status charged
With renewed hope, vigour and vitality....
So much that one realizes reality and the
Illusion in the seemingly permanent things
That bring grief with agony making one
Philosophically know the ultimate truth and
Direction to become one with the ultimate!

Ramesh T A
One World Dream!

Love grows without ever meeting the lover;  
Without meeting how can love be exchanged?  
It happens in life though they meet too late!

Knowing each other’s love amazement fills mind  
And both wonder and feel much about fate's rule;  
Being together at the end makes tragedy nothing!

Antony and Cleopatra’s love story is history  
Though goes on as in romantic love stories  
Wonderfully weaved in literature by geniuses!

One world of love and peace she dreams about  
Under the rule of one emperor and herself first;  
Almost she tries to do it but fate makes it tragedy!

Dictatorship or democracy, one world is still a dream  
In the hearts of great and noble personalities ever...!

Ramesh T A
One World Family!

colourful flowers attract all with swaying smiles long;
Many varieties of fruits invite all with sweet scents;
Bright blue sky welcomes all visitors with white clouds;
Glorious Sunshine calls all to relax under tree shades!

Harbinger of Summer joy sets in romantic mood to the fore;
Visitors from all over the world cluster to the town for
Sun bath, surfing on the sea waves, boating to paradise
Beach and all places of fun and fair open to all the week!

Bonding with Nature is a great fun and relaxation all can
Have nowhere else except in this erstwhile French town as
In European towns with the continental cuisine in hotels
For all cosmopolitan kind of people seeking love and peace!

People of all nations gather here as one family members
Vouchsafing the fact that the world is one big family..!

Ramesh T A
One World Humanity!

One world is divided into many nations to maintain identity;
Many nations have many people of many religions for faith;
Many people have many communities to maintain linguistic identity;
Many religious and linguistic people have many cultures to follow;
Many nations have become modern by technological developments;
People of modern nations by developments live life of civilization;
Differences of religions, cultures, languages and all are unique;
Despite all differences, unity in diversity is maintained by humanity!

All people are children of God and world is one family of Vasudeva;
Adam and Eve are the parents of human community of one world;
Nations are joint families of one world humanity despite diversities;
Differences and diversities of all people are unique in nature;
Liberty, equality and fraternity have given each rights in democracy;
All individuals have freedom, liberty, rights and duties in one humanity!

Ramesh T A
One World Life!

One world
We live in as if in different worlds
Human life!

Ramesh T A
One World Of Bliss!

Internet facilitates world people connect each other
Through various social media and websites of world
To unite for world peace and harmony under a roof
Each one lives to be in to promote friendship unique!

Universal brotherhood, love, friendship and harmony
Give great chance for bringing peace to the world of
Constant chaos due to various causes and reasons ever
Remaining unsolved for long by differences of opinions!

Opinions vary according to the experiences of each one
Differing with one another on various matters of world
Affairs wanting love of heart to look for change to bring
About peace and harmony among all sections of people!

The voluntary willingness of people only paves the way
To create opportunities and enlarge scope for play quite
Broad and high and everlasting kind of good relationship
That helps to forget differences to come together for peace!

Universal peace and harmony are possible to happen only
When all minds, hearts and souls love all for unity and joy
To take lion's share against all odds obstructing all routes
Towards union and love for eternal peace for all to enjoy long!

Only the unacknowledged legislators of the world whom we
All call as world poets having easy access to unite with hearts
Having same kind of feeling of love to promote world peace,
Love and harmony can create one world for all to live in bliss!

Ramesh T A
Greetings and birthday celebrations are over; 
All have settled for the night sleep at last......!
Peace and cool breeze prevail now in a nice way; 
Poem develops with flowing words of joy fine!

Night sky with stars twinkling is an eternal wonder 
None can miss whatever be the situation of life...!
Music playing love theme by The Shadows move 
Heart, mind and soul to dance to the tune in peace!

It's heaven indeed to feel the mood of night so! 
Dreams and imagination of paradise come up 
And thoughts of Utopia lingers on to and fro 
With confidence building of future very near..!

One language, currency and common laws for all 
Nations working under one roof of world organisation 
Surely not a cherished dream ever but a reality soon 
Will make this world a paradise to live in joy and peace!

Ramesh T A
Rich-poor difference is ever exploited by politicians for playing game of politics! Political ideologies like capitalism and socialism (erstwhile communism) clash ever Splitting the world into two breeding enmity between innocent people forever! World reels under extremism, terrorism, violence and wars without an end; Due to divide and rule policy of politicians clash is there between white and black; Difference in all is exploited by opportunists to gain victory for their selfish ends! Race, colour, creed, culture and class of people are utilized in a negative way To perpetuate troubles and turmoils in the society as fishing in troubled waters To increase the divide between rich and poor so as to make peace a thing of dream! The luxurious enjoyments of the the rich and the endless sufferings of the poor Have become a familiar matter sans any complaint by the exploited people And that the politicians use to tease all in political game sans a way to solve ever! Only scribes and poets remind people of the cruel games politicians play And perhaps only poetic organizations unite people to create One World sans differences!

Ramesh T A
One World Union!

World union is the great dream of
Peace loving intellectuals in all ages;
Starting from Francis Bacon of 16th
Century to Albert Einstein of 20th
Century, the dream is ever continuing!

After the two World Wars only first,
The formation of Leagues of Nations
And finally United Nations Organization
Have had the shape and formation of world
Union to avert war and promote peace!

With the approval of all nations, if the UNO
Turns to be the World Parliament, that great
Dream will surely become a reality sooner or
Later as there is no other go to save the world
From threats of terrorism and destruction.....!

Now the unions like European union, African
Union and developing Asian Union Community
Along with the possible unions of North Asia,
North America and South America are surely gaining
Strength to strength for the formation of world Union!

Ramesh T A
One World Utopia!

Freedom of thoughts, speech and action are vital in democracy; Individual rights, common freedom are the mark of democracy; Liberty, equality, fraternity and justice survive democracy and Legislature, bureaucracy, judiciary and press are its pillars ever.

Of all forms of govt., parliamentary form of democracy is the best To govern people of a nation in the world like the UNO does now! UNO is the world parliament growing to govern the world people Paving the way for One World Govt. with all the consent of nations!

Monarchy, military dictatorship and autocracy are all over everywhere! Secular democracy is the best all strive to have all over the world now; Some religious fanatics and old political ideologists are the stumbling Hurdles blocking the progress of free people all over the world now....!

By spread of good education and moral principles, world people's dream Of creating One World Utopia will become a reality sooner or later sure!

Ramesh T A
One World!

All may look to be different
But all of the same materials!
All are born on the same world
And live in the same one world;
Yet we feel we are not connected.
It's all politics, corruption and greed
That divide us all and rule world!
If corruption is eliminated all is over
And new and fresh beginning will start
When education and wisdom will rule
Mankind for the creation of one world!
Dreaming and writing poetry will go on
To make all think and be united for that!
We are one people living in One World!!!

Ramesh T A
Oneness Of Humanity Discards All Identities!

When many say that people are children of God,
Why are they fighting for identities of nation,
Language, colour, race, religion, culture and
So on and so forth forever and ever in the world?

Indian philosophy says that world is one family
By the term Vasudev Kudumbakam meaning family of
Lord Vasudeva, the protector of good people ever
By taking incarnations to establish dharma sure!

Identity card of each and everyone covers all
Details of an individual and other national,
Community, language, etc. identities are not
At all necessary for any world citizen forever!

If national, sovereign and other identities are
Compromised for oneness of humanity, all nations
Will surely can discard boundaries, passports,
Various currencies, languages and cultures ever!

Ramesh T A
Devotion to mother or father or teacher or personalities and
Characters of history, literature and religion makes one a great
Fan, friend and devotee to them as they are friend, philosopher
And guide in life and work through out one's world life sure..!

Benefited by the ideas and suggestions of icon in all one's works,
A fan becomes a disciple and devotee to the extent that one's
Mentor or model icon becomes a God and always dreams, imagines,
Thinks and talks of and about the icon god and succeeds in all acts!

Inspired by the image of one's icon god, one's devotion develops
As faith unshakeable by any means by anyone and everyone as one
Has met real situations in life with great success by the ideas
Of one's model hero so much that, one even dies for one's hero!

Hero worship makes one not only manage all problems and succeed
But also makes one great or at least saves one sure by faith
That can move even mountain making one stout and strong to face
All difficulties as diamond as that brings gold by one's icon god!

Ramesh T A
One's Mark In The World!

Cyclonic storm warning helps much to make preparations
To encounter it without getting affected in the least by all!
A well prepared mind is ready to face any eventuality in life
And that is possible by acquisition of true knowledge ever!

General knowledge, common sense and presence of mind
Always keep one ready for facing any situation in life well!
Knowledge of subjects gives complete picture we have to
Handle using that with talent in a creative manner to win all!

Success and failure depend upon that utility of one in life
With a broad ambition based on a whole vision of all in one!
The steps one takes in life will lead to the status of using all
To one's advantage to accomplish one's aim in achievement!

That is how one's approach should be, if one ventures out
To achieve something remarkable as one's mark in the world!

Ramesh T A
Musical voices of various birds cheer up the mood
When I get up from bed in the early morning ever!
A sense of freedom fills up the heart with confidence
To begin and go ahead like a free bird all the day!

Fragrance of colourful flowers freshly bloomed also
Gives the impetus to move about with joy incredible!
Everything seems to be so light and nothing that all
Things done surely meet with success we expect.....!

Many a time this has happened in life and yet, we
Never remember them all to get the encouragement
We need and always seek external aid to be all right!
Whatever rights or freedom we have, we are not free!

Independence and self-reliance seem to be only a dream
And it remains as mirage in the desert sans reaching us!

Ramesh T A
Only A Dream!

Apparently looking problems actually...
Have a lot of complications in everything!
For the sake of adjusting ourselves to....
The beloved ones, we are caught in webs!

Shackling off all webs is a great ordeal
As big as Herculean tasks in the world!
On such circumstances, if we think of our
Freedom, we feel like a speck in Space...!

What and where one can get relief from
All these webs of problems never ending
As the endless insects coming out of the
Pandora's box one after the other sans end?

Freedom can be enjoyed only where there is
Peace of mind......, otherwise it's only a dream!

Ramesh T A
Only Adaptability Guarantees For Survival Ever!

The erstwhile French town noted for beach and park
Now gives boost to other lakes like Kanagan and
Vambakeerapalam to attract tourist attention here!

Boating on a nearby tributary of a river joining sea
To Paradise beach has huge crowd ever on all holidays
Making the authority to increase ferry boat services!

The small town has the look of festival celebration
From Friday night to Sunday night every week here
Making all winder what has happened to sleeping town!

Once flourishing business town noted for cheaper goods
Due to lesser taxes on all items than in other places
Has lost all businesses now due to uniform sales tax!

The only income fetching business is tourism now here
Making all wonder at the adaptability of the town ever!

Ramesh T A
Only Balanced Life Has A Long Course To Live!

Life is a mixture of all passions in one needing  
Each to be experienced without leaving one or other;  
Enjoying passion in life is like having food with  
The inclusion of vegetables and non-vegetable items!

Only balanced diet maintains health for a long period;  
Likewise, all emotional aspects of life has to be  
Evenly distributed in the course of life in the world  
To live well balanced in all the seasons of life sure!

Anything in excess brings health problems one after the  
Other both physically and psychologically leading to  
Hospitalization often before the end comes sooner in  
Some cases as they are beyond recovery due to weakness!

Diseases can be cured, only when the body cooperates well  
By medical treatment followed by a team of doctors sure!

Ramesh T A
Only By Luck!

Wherever I see green grass lawn and park,
I am reminded of my friends and above all,
The time we spent joyfully in such places..!

In the formative period of our youth we had
Many dreams and plans to perform later on
And achieve what we had aimed to do in life!

Due to family situation all had changed then
And each one was driven to different places
To perform a livelihood for survival somehow!

Despite obligations, some of us never forgot
The dreams we had to achieve in our life....
And fulfil the vow had taken in our meets!

Achieving what we have been dreaming long
Only one has done perhaps by luck so to say!

Ramesh T A
Only By Peace!

Weapons of mass destruction, chemical weapons and Nuclear weapons in the hands of wrong nations or leaders are greatest danger to The whole of world of humanity that lives for peace and love ever!

World is now working towards democratization. liberty and peace; After colonial powers have returned to their countries, many nations Slowly work towards democracy and developments with friendly nations!

Most of the Islamic and African nations are in quest of freedom, rights, Liberty and democracy needing good education, training and jobs for all People suffering from hunger and poverty for long in struggle for change!

Nations that have opted for long military wars are for peaceful talks For change knowing by long experience that wars cannot solve all problems Faced by the people requiring relief, assistance and support from nations!

Terrorism is adding fuel to fire and aggravating hatred, revenge and wars Unable to achieve anything better for struggling people, but only by PEACE!

Ramesh T A
Only Curiosity Makes One What One Wants To Be!

The child looks at all things with wonder being new;
Wonder of child drives it explore deep all things....;
Curiosity kindles it to dissect things like scientists do
To see the internal structure and know truths of organs!

The more the child discovers new things the more it
goes deep in the subject as to its curiosity to know all
Things in minute detail until it gets satisfied to feel a
Joy that nothing can give in this world and grows tall!

This childhood curiosity as time goes on makes a child
A scientist or philosopher or poet unless others acts of
interference intervene in its special field of interest that
Has started from childhood on due to some rare chance!

Only lucky persons have the opportunity to make a mark
In the world in creative and inventive works of great merit so!

Ramesh T A
Only Fame By Merit Lasts Long!

Name, fame and glory make one a great personality
Honoured by people of one's place and nation sure;
This comes of sincere and true service of one in
Some field of interest on the basis of merit ever!

In the normal course, this is the way one attains
That coveted status in the world of humanity sure;
Driven by this kind of desire, others too wish to
Attain that status by advertising oneself by money!

The difference is in getting to the peak of fame by
Merit of natural, real and true efforts of one's own
Sans seeking support from others and by money ever
Of artificial and self popularization of oneself..!

In competition of business, self advertisement may help,
But in arts like poetry, such a thing can't stand long!

Ramesh T A
Only Fortune Brings Freedom And Love To One To Prosperity!

Apart from freedom, sans free love, life is worthless to live ever; Beauty, love, knowledge, freedom, joy and peace give real satisfaction; Carelessness and ignorance make one's life a great waste of time; Dreams, ideas and realities make one's life complete in the world!

Enjoyment of mind, heart and spirit give fulfilment in human life; Freedom to achieve all best things in life makes one a fortunate one; Great and glorious life enjoyed with rich experience fulfils one to a High level of amusement noble and great human freedom offers to one!

Incredible fortune only one in a million can enjoy by such freedom; Joy of achieving all dreams by fortune rare and freedom by chance Keep one to be floating on the top of the world a boon in one's life; Life has to be lived so only and otherwise, one's life is worthless!

Many a miracle happen only to a chosen one after all agonies in life; Nothing may have been changing one's life for the better due to pains; Obstruction, odd situations, hurdles and jealousies of all together may Put one in eternal chaos, plunge in darkness, but fortune changes all!

Quite amazing it is, if impossibilities turn into realities in life; Realization of all dreams all of a sudden is a real miracle indeed; Sudden change of bad situation into favourable one in one's life Truly stuns all stake holders of other side into despair and defeat!

Ultra high time of fortune makes miracles as nothing in one's life, if Veracity, sincerity, honesty seem to be one's motto of life in the World full of malpractices, corruption and selfishness everywhere...!

X, Y and Z will take the positions of A, B, C in all realms of life Years after such ones have worked hard sans seeing benefits by luck; Zero state of life turns to a hero status, if fortune smiles on one!

Ramesh T A
Only Intoxicating Beauty Makes One Forget All!

Beauty swaying mind, heart and soul, one forgets world
In gorgeous dame, flowers, tender child, art and Nature;
The wound left by unkindest cut may heal someday, but,
The memory of tragedy never leaves the mind forever..!

Beauty only has the spell to make one have diversion
To a world of fantasy leading to dream paradise in
The world we live in making one walk and lay on the
Green lawns of park with water sprinkling fountains!

Flowers of many colours here and there in that paradise
invite heavenly bees to hop over each one swayed by
Their beauty and scent that transport one to the world of
Heaven to enjoy unique pleasure of mind, heart and soul!

Romantically, intellectually and spiritually one has the
Special passport to any exotic world in the Universe as
Long as the spell and sway of beauty intoxicates one long
Lying in dizzy rapture that never makes one come to senses!

Ramesh T A
Only Leaves!

Will there be fruits without flowers?
Will there be flowers without leaves?
But in my garden only leaves grow
Without flowers and fruits ever!

Selfish growth will mar healthy society!
It will be like westward rush for gold
Where everyone fights with gun to kill
One another along with joy and fun ever!

Competition sans cooperation kills joy!
Animal lust cannot sustain divine love
Making joy bloom as flowers in garden
To make joy rule life forever in bliss!

Life sans good company as desert sans oasis is
Stock piling of wealth sans none to share joy!

Ramesh T A
Only Love Can Empower One!

One's magnetic attraction of love makes
All naturally hug and kiss the one sure!
Otherwise, such a voluntary act of reply
No one can extend to anyone in the world!

Only love makes all transcend all barriers
To embrace the loved one with kisses ever!
Such frank act of response for love is human
That is shown to the favourite or loved ones!

Only power of love gives self confidence and
Courage to act with voluntary heart forever!
The act of love is true response nothing can
Mislead or deceive in this world of uncertainty!

Free act of no hesitation only love can empower
One against all odds standing as hurdles ever...!

Ramesh T A
Only Man Of Culture Of Humanity Can Form One World Union!

Population of humanity is majority in all nations of the world; With their real capacity and power, they can achieve anything; But, due to their obedience to seniors and leaders, they are Ever kept as underdogs unable to do anything extraordinary sure!

If they are firm in their resolution, they can unite humanity of World to create one world to overthrow all hurdles blocking the Peace, prosperity and progress of humanity preventing them to Ever come up in life and live a better and developed life sure!

Due to their basic obeying nature, they are in need of a proper Leader to bring them all together to work for uniting all nations For the formation of one world union to solve all their outstanding Problems so as to make the world a better place to live than before!

All arrogant leaders of one book based on religion, political ideals, Economy, science and technology did not succeed in creating one World by military force says world history clearly to all reminding All that only man of culture from humanity can do that damn sure!

Ramesh T A
Only Mark Of One Leads To Glory Lasting Ever!

Glory comes to one after one has earned name and fame;
Name, fame, wealth, position and power lead to glory
Once one's efforts lead to achievement in one's field
After making one's work always look towards perfection!

Making achievement once is not enough unless one does
Repetition in one's field of work to maintain one's
Status of glory attained by remarkable achievement out
Of one's great efforts that has established one's name!

Immediately wealth and power one cannot achieve ever;
Making one's mark in one's field is possible by making
One's name first known to all that brings fame in the
World and its sustenance only brings glory to one ever!

Mark of one's name established only after lasting for
Generations, makes one's glory really venerable in the
Hearts of fans, friends and all inspiring all as an icon
Capable of inspiring and leading all to success forever!

Ramesh T A
Only Person Of Propriety Is Praised As Gem Of Persons!

No one can find fault with one morally and socially right;  
Such a person of propriety is reliable to anyone anywhere;  
Propriety of a person brings praises as gen of persons sure!

A person of propriety immediately gets clearance anywhere as  
No one has any doubt about such a one due to sound character;  
Persons of this type get all benefits wherever they go ever!

Earning such a good name is the first need for anyone to have  
Laurels in any field anywhere in the world but not one's status  
Or wealth or knowledge or position or power or style of action!

Originality of a person is revealed only by one's propriety, but  
Not by One's learning or Degrees of knowledge or support from  
Own community or any organisation whatsoever one can have here!

Sincerity, honesty, morality and reliability are part of one's  
Propriety that fetch all favours, approvals and praises to one!

Ramesh T A
Only Poets Can Do!

Winter night is so calm and silent that I hear
Only the sound of tube-light giving me company!
Like the beetle making buzzing noise over flowers
This tube-light goes on making its own noise..!

With the writing mood, whenever I sit before this
Computer, someone comes and disturbs my mood ever
Everyday both in the morning and evening too, but
In the night none other than tube-light does that!

Despite all such nuisances, my writing of many poems
Goes on as if happening in a miracle my creative
Work perhaps by God's grace that I am destined to
Write poems, though unprofitable business it is ever!

Why are poets placed in such a state forever in life?
Because no one can do what the poets do ever in world!

Ramesh T A
Only Proper Administration Does Magic!

Procedure, system and style of functioning have created habit
By which all approach to do anything both in private and public;
Due to non-change of working way, everything goes on a slow speed;
So, corruption has crept in all activities to be a part of culture!

If anyone attempts change by rigid means no one will accept it;
If acceptably slow changes are made in the procedure it will work;
Sans keeping one's group sincere, honest and good, there's no point
In pointing out mistakes to previous rulers and insist on rigid way!

By military way of dealing things, nothing can be achieved for good;
Not knowing this and understanding the flaws to correct all in time,
No new rulers can make positive change in the style of functioning
To create a new nation or world order for the welling being of all!

Anticipating consequences of new action, administration can try
New means to achieve best results efficiently and excellently..!

Ramesh T A
Only Recession In The End!

Salary of many digits all aim and join job;
Devotion, development of institution and
Nation no one has in mind but selfishness!
Strict discipline and family business molded
My mind and character to do for perfection!
No way to go scot-free as in old Russia I did
All kinds of jobs for the common good of all!
When times have changed and old chips died
I have to quit the job as to the wish of all ever!
Now I see nobody does anything with devotion
For the development of institution or nation!
All work for money sans mind for satisfaction
In job or education or life in the world today!
But economic globalisation has led to recession..!

Ramesh T A
Only The Loving One Joins Us Ever!

Droughts, rains, floods, storms, volcanic eruptions
And Earthquakes are part of this world we are living in;
Despite all these things, many species are surviving
In the oceans and many living beings are living here!

All feel what a world we live in both hot and cold,
Sweet and bitter, pain and pleasure we experience
And go on living life good or bad from start to end
To make a mark and meaningful by making an end so...!

For all good things we are enjoying we feel it is luck
And for all bad things we are undergoing we feel it's fate;
Luck or fate, life is life and this life if lived with
Love and humour we smile and laugh with all till the end!

If we smile and laugh, all will join us to be so with us;
If we are melancholic, no one will feel to be with us ever;
If we do good, world will criticize and if we do bad also,
They do so, but only the loving one consoles and joins us!

Ramesh T A
Only With Full Personality Development All Things Can Be Done!

Importance given to economic development in a nation has Turned everything into a business in all walks of life; Education too has become a business with many colleges of Technology, medicine, arts, sciences coming as mushrooms!

All dreaming of earning thousands of money, select course] In education and join colleges in large numbers as products To be manufactured and rolled out into the market for sales; But many are disappointed when jobs are not ready there ever!

Schools and colleges are many, but education is not wholesome To develop full personality of anyone to withstand harsh reality Immediately after education while hunting for suitable jobs and Frustrated youths stand still stranded sans knowing way out...!

All round education connecting arts and science including all Aspects of humanities and literature with complete training in Industries, agriculture, business and army only can open the door For skillful youngsters to take any task for survival and success!

Ramesh T A
Order Out Of Chaos!

Hopping on flowers one after the other  
Honey bee collects honey everyday  
To fill the beehive slots with great care!

Extracting juice out of many fruits in cups  
Juice maker prepares fruit juice all day  
To satisfy the taste of his customers best!

Making order out of chaos artist paints  
Wonderful expression of Nature panoramic  
To inspire audience with confidence and courage!

Combining sounds of musical instruments many  
Musical maestro creates beautiful symphony  
To spell bound audience for an hour or so!

Musing over ideas many one after the other  
Poet selects best ideas to compose poems  
To create a poetry book for all to enjoy in life!

Ramesh T A
Our Cherished Wish!

Festivals are celebrated in a matter of fact manner
Meeting friends just at that moment and leaving soon!
But the thoughts remain evergreen in heart Making
One long for another such a time to enjoy or dream!

Yes, in dreams, we have great many enjoyments to go on
Till we actually meet all in person one day later on;
But till then, there is no chance to have enjoyment of
That kind as all are immersed and engrossed in works!

All works we do are not so much interesting unless they
Happen to be the life-time ones driven by great ambition
Formulated by vision based on knowledge to achieve some
Thing wonderful and of one's deep interest superseding all!

Pleasure after achieving something of our cherished wish
Seems to be really satisfying one in the world we live..!

Ramesh T A
Our Existence In The World!

Every thinker of world life will know answer
For the question 'What is world life? ' sure...!
Life is simply existence, knowledge and bliss!

Total life is living, knowing, enjoying, absolute!
We are incomplete as long as our soul becomes
One with the Universal Spirit, which is absolute!

This world is for the physical and material ever
And that world or heaven is for the spirit finally!
But for our better physical living, survival is vital!

The source for all living beings in the world should
Be ever maintained or recycled sans any disturbance;
That's possible, only if we live in harmony with Nature!

Our life sustenance is going on due to rain, Sun and milk;
That we have to honour and respect sans any neglect ever!

Ramesh T A
Our Friendship Days!

Days of friendship still lingering in heart
I am pleased to meet my friend's friend
In the morning telling me about our friend
And the best things that have happened!

Living in one place we are unable to meet
As was in the past, when we roamed about
The French town visiting coffee house and
Beach near the central park often then....!

Now family matters occupying everyone
And looking after the grown up children's
Families with children take a lion's share
And we are helpless to think of our friendship!

But the days of friendship how can anyone
Forget whether young or old or deserted...?

Ramesh T A
Our Friendship!

Our contacts are rare and unexpected!
First, I thought we were just friends
Like we are with all in the same field.

I never thought she was very much like
To have a lasting relationship as we were
Deeply interest in our work quite selfless!

I am an exploratory type of the subject;
She is also deeply exploring in the field;
But our approaches are different in it!

Our deep interest and love united us well
As ideal friends having no differences
Whatever so ever even after many years!

In a most melting way we had flying kiss;
After that we are friends sans contact long!

Ramesh T A
Our Gift!

World Book Day and World Earth Day come one after the Other kindling thoughts on both being vital for our survival! Book gives knowledge and by long experience we get wisdom To save Earth, the only abode for our survival to live life long!

Men may come and men may go, but for our survival and all Guidance to face odds and live well, book only supports ever As a good and responsible friend forever and ever long and Also gives all details of our beloved Earth to preserve it well!

Sans books and our beloved Earth, we are unknown to all Who live after us and know of what great hardships we have Taken to save ourselves and the Earth for our achievements And a mark we have made to be known for others after us!

Earth is Nature's gift to us and all books are our gratitude of Expression with our full gift and self as gift to others after us!

Ramesh T A
Our Great Friendship!

Nineteenth May is an unforgettable day for me;
For, on this day only birthdays of my dear son,
Friend and girl friend are coming every year...!

It's a rare coincidence that all three persons are
Having the one and the same date as birthdays
Making me wonder such persons connected to me!

Their help in my life I cannot forget forever sure.....;
Due to my friend's advise I have become a great poet;
Also, due to my girl friend's help I am a world poet now!

We all know each other more than anybody else in...
The whole world and our friendship is an immortal one
As our works will ever make us live till the end of time!

The greetings and messages by us cannot be equal to our
Great friendship that will ever be lasting beyond our time!

Ramesh T A
Our Great Tribute To The Almighty!

Introspection and retrospection leading to a composition of poem
Really it's a nice way of creativity with richness making it a prolific
Out pouring of ideas revealing erudition and expansion of mind
To a broad-way of life and an intellectual indulgence in creativity
That surely gives satisfaction to the creator as well as the reader ever!

That happens so, especially when one is in a meditative mood alone
In Nature surrounded with beautiful flowers, hills and mountains
With birds signing songs melodious soothing the heart and kindling
A sense of awe to have a stride on the long passage of grassland
Meeting the blue sky at the horizon as mind in communion with all!

I feel God in Nature by its beauty, voice, music and manifestations
He being imminent and transcendental in nature though our brain
Is limited to grasp the whole idea of God except by imagination,
Dreams of exploration, meditation, intuition, mysticism and being
A philosophic poet above all faculties inbuilt in a unique human...!

No doubt, God being the Ultimate, Supreme poet and this vast Universe
His broad canvas ever depicting Stars, planets, Moons and all kinds of lives
In Uni-verse to boost evolution to create divines out of humans as on Earth
Indeed makes us have nice exchanges of ideas we being poets ever ordained
To make unique creations of poetry as our great tribute to the Almighty...!

Ramesh T A
Our Humorous Friendship!

Where do I start to tell this humorous story?
We were sitting in the English class all in one
On the first day of college for the first period!

All arts and science groups were sitting together;
As soon as the English professor came to the class,
He asked all to write about any play of Shakespeare!

For my mind, I got the idea of writing something on
A Midsummer Night's Dream telling some ideas on
Romantic love with the end that love is blind forever!

At that time, a friend next to me quite new to me
Until then asked me to tell him who is male and
Female in Romeo and Juliet to my humorous surprise!

I told him that Romeo and Juliet are male and female
Respectively and something about the immoral divine
Love and got his friendship like Romeo and Mercutio!

Even today, when we meet, that incidence we cannot
Forget and never fail to remember about our humorous
Friendship developed with four others as Pickwickians!

Ramesh T A
Our Life In Suspended Animation!

We live in suspended animation in this world
As our life is going on the route of God sure!
What is the point in worrying about our future,
When nothing is sure in this suspended world?

Anytime someone is born and someone dies!
It seems all happens according to the will of
One God, who is imminent and transcendental
In nature, by His Laws of Nature in Universe!

Whatever names we give to God and whatever
Religions we follow, all routes lead like branches
Of rivers going only to mingle finally in the ocean,
The abode of the Almighty, the final home of all!

So, our duty ever should be to do the best we
Can using all the best within us as our gratitude
To the Almighty, who has created us with special
Gifts we are supposed to know and use the best!

Ramesh T A
Our Precarious Existence!

In this endless, infinite, Universe nothing seems to last forever; This is the nature of Universe that's a greatest wonder forever! All created matters, beings are destroyed after a time limit... Perhaps this may be due to evolution of matters to modified state; But humanistically seeing, creator killing beings is indigestible!

Both good and bad are side by side existing in the world of life; The strongest ones survive against all dangerous situations in life; But that is possible only as long as strength is there in one sure; This is a great world of contractions all have done nil to stop...; Yet, life is going on saved by the very same creator so long here!

What a pity and what a contradiction it is for us to brood and ponder To get hidden truth and and with wisdom to survive well to the end In a natural way all love to have in the long or short journey of life; Only when we know the whole, full and complete truth and purpose, We all surely can enjoy real freedom and liberty to do what we like!

History, literature, religion and philosophy with the aid of Science We all explore the source and the destination for all things in this Great wonder called Universe since time immemorial of mankind here..; Yet, what we have achieved and how far we have gone in the right path, We cannot say for sure and so, we have to explore and go a long way!

Ramesh T A
Our Unique Friendship!

Love of literature, poetry and criticism has
United as friends in quest of knowledge about
Customs, culture, life, world, Nature and all
To shackle all the ills of society and reform
Society for a better way of living in the world!

We have decided not to heed to the ways of old
Tradition good for nothing in the modern world -
Modern not in time and dress but in outlook,
Always based on knowledge about truth of all
Things connected with life, work and world ever!

We have discussed at length about all matters
From sex to space till we are totally satisfied
And have had conviction based on intellectual
Knowledge of truth to live a correct, true and
Purposeful life rather than a run on the rot...!

We have overcome shyness, timidity and fear
And become bold to question all things we are
Confronting in our daily way of life in the world
Becoming a model to others as well educated
Rather than a traditionally moulded guy ever!

This kind of fortitude of our mental attitude has
Made us bold and outgoing lot to try experiments
In the ventures sans fear of meeting with failures
Or incurring loss to our enterprise we are trying to
Build as a unique organization to achieve laurels!

In the long journey of our life we have done worthy
Works feeling a sense of pride, satisfaction and joy
Which won't be possible otherwise if we have been
Following worn out tradition to do all things in the
World full of challenges or uncertainties in everything!

Ramesh T A
Our Unique Love!

The love between is unique and wonderful ever...!
We may be far off by distance and may not meet,
Yet, we are intimate and closer in love of heart sure!

The deep desire of love has made us inextricable
And ever united soul mates par excellence in life
In our journey of discovery in literature forever!

We love each other very much forever and ever sure,
Though we live in distant or nearby places in the world
And may live at two edges of the world enlarging ever!

We are one in heart, mind and soul, but two only in body,
Which is the decree of the Almighty who only can unite
Us physically somewhere some day in the world, I believe!

Who knows, we may meet, when we least expect our union,
By God's grace, as in a romantic dream we love most in life!

Ramesh T A
Our Works Live As Immortal!

Without any problem, human life cannot go on in the world;  
A; so, if one problem is solved, another one may start next;  
Not only that, if one illness is cured, another one can start;  
These things happen beyond our analysis and intuition in life!

Pain comes to our body through some part of our body structure;  
Blood test shows one has thyroid problem needing medication..;  
Pains stops, but pain in some other part of body begins later;  
That on diagnosis shows that some internal wound needs operation!

To do that, full body check up is needed to cure that disease;  
One after the other all check ups surely make one lose heart...;  
Life seems to be a hell rather than a bed of roses forever..;  
Feeling of frustration due to cheerless life ever pricks heart!

Yesterday, today and ever same status repeats in our life here;  
But, though we lose our life, our works only make us immortal!

Ramesh T A
Out Of Date Procedure!

Creativity and inventiveness look rare virtues;
In the name of procedure they are crushed
And novelty and innovation seem seldom ever!

Many wish to be in job till retirement sans change;
That way they can comfortably settle and go on
Like oil mongering bull or horse running round pot!

Oil mongering bull functioning in circular motion,
Horse running in round poet no way to go out ever
Are like a frog living in well not seeing outside world!

Mainly due to such men progress and development
No institution or nation can dream about ever at all
Making men of creativity dull and insipid in society!

Changes and reforms on procedure only open gate
To a world of plenty and progress anywhere sure!

Ramesh T A
Outcome Of Festival Is Freedom And Joy!

Just celebrating festivals does not serve any good purpose; Festival celebrations if enjoyed in true unity and love with All, would give a sense of freedom and joy as nothing can ever!

If such kind of experience is enjoyed further with all, indeed, Why one can seek the abode of heaven and paradise anywhere else Other than this beautiful, lively and lovely Earth forever sure!

Knowledge of life and selfless love bring real freedom in life To live in happiness and peace so as in festival times and it's Bliss one can experience as one enjoys in harmony with Nature!

Human gathering in love with religious harmony in communion with Nature, surely can make life a heavenly one to enjoy in satisfaction Nothing can be comparable in this world meant to achieve so by all1

In such atmosphere only with love and knowledge, perfection is made For all to enjoy freedom and joy lasting long in one world in peace!

Ramesh T A
Outstanding Physicist Stephen Hawking!

Scientists say that the Universe is expanding ever; 
Mathematical equation is not enough to discuss on 
The Universe why it is like this and why it exists 
Opines Stephen Hawking the handicapped physicist…!

Suffering from motor neuron disease since the age of 22, against the prediction of very early death, he 
has survived successfully till his 76th year making 
Great achievement in theoretical physics for the world!

Though an atheist, Hawking has earned a remarkable 
Place by his works like A Brief History of Time, The 
Theory of Everything and The Universe in a Nutshell 
Just missing one award of Nobel price in his career!

Stephen Hawking's outstanding achievement in the world 
Of Science has placed him only next to Albert Einstein!

Ramesh T A
Overcoming Crises!

When all things turn to be of no help,
Man seeks some relief from all pains
In something that diverts his attention
From the serious to familiar or easy one!

After pencil, pens, papers and postage
Problems have disappeared with the
Coming of computer to do all for man,
All seek help from Computer to escape!

If Computer also becomes a problem,
Man seeks the bosom of Nature out of
All things he has tried for sometime
To have diversion he needs from all ills!

Now between Computer and Nature,
My time oscillates to overcome crises!

Ramesh T A
Overcoming Loneliness In Life!

One is driven to loneliness by the deaths of close ones
To one as handicap in life, but it is compensated by the
Proximity of friends who are natural brothers, though not
By blood relationship in the world we are all partners!

Friends are more trustworthy than relatives in one's life
To share confidential matters and get ideas to solve all
Problems affecting one that no other persons can advise or
Help to solve for the benefit of one and all related ones!

Otherwise, life cannot be lived according to one's will
And fulfil one's destiny better before leaving the world
By making a mark in the field one is best at within the time
Frame of one's life having a good ambition for inspiration!

Ambition makes one occupy oneself with the works one loves
Making loneliness in life null and void for the better sure!

Ramesh T A
Overcoming Syndrome!

Change of place by travel changes routine;
After return, resuming routine looks new!
Again picking up normal pace in works is
Something beyond prediction like thing..!

This is just like the retired people's syndrome
One attains at an young age itself like the small
Children going to school at snail's pace ever
After enjoying holidays in playing games long!

Not only the kids, but all grown up workers too
Have this kind of hang over when the week end
Ends and working day begins every week sure
Particularly for city dwellers working in one place!

Working or not, alertness like adventurers all need
To have to overcome this kind of syndrome forever!

Ramesh T A
Overcoming Uneasiness!

Uneasy moments in life are nullified,
When our concentration is diverted
Towards a familiar work of interest!

Basking in the beauty of Nature with
The free play of imagination, one can
Fly on the wings of poesy anywhere!

Such a concentrated diversion of great
Interest increases enthusiasm going on a
Reverie towards bliss and peace precious!

A sense of ease mingled with mirth indeed
Takes one to high level of mind and there
Confidence brings boldness to face all sure!

Best way to turn uneasiness to boldness is
To divert concentration on familiar scene....!

Ramesh T A
Overcoming Winter Rigour!

Army of ants works through out Spring, Summer and Autumn
In collecting food items for storing them in the den long
So as to feed themselves through out Winter inside it...!

So also in ice cold regions of the Earth, grizzly bears
And white bears feed themselves with salmon fish climbing
Hill for depositing eggs to breed new fledglings long sure!

These bears have winter hibernation to overcome Winter cold
Climate in icy regions till spring season begins and this
Is a routine going on every year to protect themselves sure!

Even for humans, this holds good in winter time all over the
World, when human movements outside is impossible due to mist
Fog and storms wrecking havoc in undecipherable proportion!

Naturally, Winter season is the time for story telling by
Elders to youngsters to pastime for forgetting winter rigour!

Ramesh T A
Oxymoron Of Natural Life!

War and peace are two sides of a coin;
Love and hate are also two sides of a coin
As life and death of human world are ever!

Due to that aspect, life is bitter-sweet
And love in life is painful pleasure ever
Like hot and cold day and night are daily!

Not only that, we have Summer and Winter
With Spring and Autumn in-between as the
Four seasons in the rotation of a year too!

Hot and sweet tastes of food too of two kinds
We all enjoy for change so as to overcome
Boredom and monotony in taste as in life....!

Any one side of a coin denoting victory or defeat
Cannot always stay in one position as it; s Nature!

Ramesh T A
Oxymoron Of Nature!

All day long some clouds are there;
Heat of Summer has not shrunk;
Yet, in the evening breeze is cool!

This is the oxymoron of Nature
That makes the Earth a paradise
With beauty and love to enjoy...!

Beauty of Nature we see everywhere
Surely brings cheerful mood to all
Softening rigid nature to gentleness!

Naturally love blooms even in long
Rocky heart to have humane aspect
Thrive in humans aiding to live well!

Sea breeze in the land in the day and land
Breeze in the beach at night are oxymoron!

Ramesh T A
Pain Of Poet A Pleasure To Readers!

For all the works we do sincerely in the world ever
What we get in return is only pain nothing but pain;
Pain and aches of body and heart are what we get
Being a poet after wishing to be a novelist or essayist!

Novels and articles we write take a long, long time
To write with full concentration focused on matters
Connected with the story one after the other in good
Sequence to give joy and interest to readers forever!

Those writings of literature are no doubt bring money,
Popularity and glory in the world full of readers for
Such kind of writings rather than in poetry which is
Not a single publisher's interest, but the most praised one!

Whatever things others may say about all kinds of writings,
Poetry is the only one always gives interest to poet and all!

Ramesh T A
Pain To The End!

Pain increases on and on

When body weakens day by day

To the end of life!

Ramesh T A
Pain!

Life's painful days pass on without respite;
Physical pains can be contained by poems;
Heart's wounds caused by words pain much
Due to tolerance to unsuitable dogmats long!

How can adjust with friends or relatives long so?
To live in harmony we have to pay a heavy toll
Going by the democratic will of the human society
Till everyone knows the reason and respects truth!

Time tests the stamina of person to bear all pains;
But relief comes after the limit is stretched extreme!
Still the world is for the survival of the fittest, seems!
Is man just advanced form of animal reined by pains?

Ramesh T A
Painful Goose-Bumps!

With pealing skin and burning body
What pleasure can one enjoy in life?
The transmission of heat from one side
To another side it produces goosebumps!

Piercing with pins here and there feel I
Whenever heat moves all over the body!
What kind of pain and goosebumps it's
Happening all over the body can ye know?

It is a kind of skin problem aggravated by
The biting cold winter long that has gone
Away a few days ago leaving me in this
Condition of body to suffer all pains now!

They say life is bitter -sweet and love is
Ever a painful pleasure kind of thing sure!
This kind of skin problem that gives pain
With goose-bump effects is Psoriasis......!

Ramesh T A
Painful Pleasure I Cannot Give Up!

Painful pleasure will be there forever!
Back pain is there for me;
But I cannot stop reading newspaper!
Back and neck pains are there;
But I cannot stop browsing poetry websites!
These painful pleasures I cannot give up;
For, we are all destined to live with them!
It is said 'no pain, no gain! ' It's true!
When we are happy we forget to thank God;
When we are in troubles only we think of God!
That is why difficulties, troubles and pains are there
And to give relief joy, luck and pleasure are there!
So, pain and pleasure together have to be enjoyed ever
And no man can escape from this destiny to enjoy this pleasure!

Ramesh T A
Painful Pleasure!

Painful pleasure

Never leaves the memory

Till the end of time!

Ramesh T A
Painted Birds On A Painted Sky!

Free birds flying in tranquility
in the beautiful atmosphere
is pleasant to see and enjoy ever
as they look like painted birds
on the painted firmament....!

It is a great symbol of freedom
to cherish in heart to get the
inspiration and mood to do best
things in the world flying free
as birds in the sky through poetry!

Frozen by a snapshot of Camera,
all standstill as in a painted picture
suspended in the air in motion
ever flying but never reaching
the destination to stop all show!

O! Free birds! Why can't you
all carry me too with you to
heaven in mystic mood high
in a state of reverie forever
as in a still-photo quite timeless!

Ramesh T A
Paradise And Heaven In One We Muse On!

Gorgeous park full of green lanes and fountains near
The dam welcomes all people with family and friends
To have a joyful time with children in the holidays!

We with a few close friends went on a bus journey to
The dam to see the beautiful park like paradise on the
Earth so vast and long to have some fun for a while..!

Between this gorgeous paradise and heaven of sky full
Of twinkling stars in the night we have made a stay
There before we have left the place the next day in bus!

We cannot forget the stay there enjoying feast and fun with
Friends thereafter and the thoughts of such a brief stay
Kindle many poems to write about paradise and heaven in one!

Paradise and heaven why man has forgotten to expand on Earth
Instead of destruction of forests and nations in wars, we muse!

Ramesh T A
Paradise And Heaven Within Reach!

War zones are the hell of world to be changed to paradise;
Farms and forests are paradise of world to be maintained so;
The destiny of soul is not somewhere outside the world ever;
Heaven is in the centre of paradise only felt by enjoyment!

Earth is the only paradise of the Universe needs to be saved;
Terrorism, violence and wars have made Earth a great hell now;
By knowledge of good education, mankind needs to be reformed
And refined by culture to embrace love and peace to save Earth!

Social institutions, social media and political activists have
Great responsibility and parts to play in this vital venture;
Arts, literature, entertainment media and cinema have to be
Well informed and prepared to dealt this matter for the better!

Both paradise and heaven are within our reach to rebuild with
Love and peace for all to enjoy happiness as never before sure!

Ramesh T A
Paradise With Heavenly Love Is The Dream Of All!

Without green pastures, lawns, fields and meadows
With flower plants and fruit trees along streams,
Brooks and small rivers with water murmuring ever
Paradise can exist anywhere in any planet in Universe!

Heavenly love and joy one can enjoy there only in
Cottages, houses and huts on green lawns or trees
Free from city traffics and noises of vehicles and
Pollution creating smokes of industries and all ever!

Farm houses are mainly created and maintained to have
Such an atmosphere to live life of love and joy in
A natural surrounding to make possible harmony between
Man and Nature and social harmony with all free there!

Paradise with heavenly joy and love is the desire and
Dream of all to live ever in this world we are living!

Ramesh T A
Paradox Of Life!

Earth is in-between paradise and hell;
Paradise is above and hell is below ever;
So, earthly life is bitter-sweet to live....;
Hence everyone aspires to go to paradise!

Good and evil look similar in sight forever;
Evil glitters more than good gold attracting
All like the serpentine beauty of a whore who
Captures all hearts by her gorgeous decoration!

Man struggles between love and beauty ever
Not realizing which is ever lasting in life to save
One from all turmoils that spring as the Pandora's
Box is opened when one rises high in world life!

Paradox of life is such that there is nothing certain
Man can rely on as there is not day only in life, but
Night life is also there to rejuvenate all for facing
Life problems ever till the end of time in the world!

Paradise on Earth is in the hands of man to make
Although crises of the world always make life a hell!
Regaining paradise lies ever in following good things
Avoiding the pitfalls of evil emitted as heat from hell!
Dog is the reverse of God, a great paradox, man forgets
Obliterated by the glittering of false gold as God ever..;
Xerox of original can only be an image of true one ever!

Ramesh T A
Park Friendship! (Acrostic)

Park is the place friends meet every weekend;
All things they discuss with open heart ever;
Renewing their with new knowledge they go ahead;
Keeping pace with the world trend they progress!

Friends five are fine set of men born to excel;
Ready are they for anything to face in world life;
Icons are they in various fields everywhere sure;
Enjoying victory in all their pursuits they progress;
Nothing they ignore to explore to know new matters;
Definitely they are the best set to do great feats!

Ship of their group sails smooth on any seas ever;
High thinking and simple living they follow as policy;
In all situations and circumstances they do all best;
Peace, prosperity and progress they enjoy by best means!

Ramesh T A
Pave The Way For Peace!

Whatever be the shape and size, race and religion, colour and culture, Creed and civilization, language and literature, life and style, etc. Human unity only can bring all benefits to all in the world forever.. And that only can stop all chaos, turmoil, terrorism and wars sure..!

Likes and dislikes everyone has over everything in the world life; Though we cannot love each other, at least tolerance helps much to Coexist side by side as one humankind unlike fighting animals of Jungle sans unity, love, peace, prosperity and progress to divinity!

To be so, at least quick reaction to any difference one doesn't like By way of speech, writing and action should be restrained to practise Tolerance so as to maintain peace and unity that may minimize many Riots, agitation and violence amounting to no development of unity..!

Cooperation and coordination to maintain unity by tolerance will pave The way for peace, unity and love to make this world a heaven to live As in paradise with everything available to everyone sans shortage Both in hottest summer and severest winter of world life forever sure!

Ramesh T A
Peace And Joy In Life!

Peace and joy are very important to live a long life;  
To live so, non-attached way of living with love to all  
Can be the means one can follow in the world life ever!

Attachment is commitment that puts one in troubles and  
Sorrow follows one's life, when one's object or person  
Is not as one pleases to be in any walk of life sure!

Attachment to and trustworthiness on any worldly object  
Or person are not permanently reliable as the policy of  
Non-attachment advocated by the philosophic Lord Krishna!

Likes and dislikes, profit and loss, victory and defeat  
One cannot face in the same way, if one is committed to  
Or attached to person or object in the world damn sure!

So, non-attached way of living helps one do all with love  
In a disinterested way to get peace of mind and joy ever!

Ramesh T A
Peace And Joy Out Of Reach!

A wall of black clouds block the Moon to view the world!
The Moon rising above the wall, changes size from gold to silver;
From above all hurdles Moon can see all things as they really are!

Whatever be the matter some are always in a hurry in the world!
Why are they doing all things so? Do they want to escape ever?
The past mistake is like a black mark on their name forever so!

They are doing so ever as if they are obsessed or have lost paradise...!
And are always in a hurry to finish matters before they may lose them
As it has happened last time and to over come the same kind of destiny!

Fate is pursuing them through thick and thin by their behaviour and tongue
That act in a bizarre way quite abnormal affected by their last mistake
And continues through all their activities in thoughts, words and deeds!

Relaxation, concentration and focus on any thing are beyond their scope;
So, peace of mind and joy are out of their reach always in world life now!

Ramesh T A
Peace And Love Instead Of War And Hatred!

What is the way to stop wars going on all over the world
Between soldiers and terrorists in various nations everyday?
Hatred due to political and religious ideologies lead to wars;
Democracy and religious harmony based on one God will end all!

Developments on various fields based on friendship among nations
Are the need on war footing for fast development of economy and
Based on that development of society instead of wars on bad ideas;
Unanimously bringing all together on this ground, peace has chance!

Individually on a small scale, middle scale and large scale, efforts
By sincere and honest people are being taken like top sportsmen and
Soldiers of war risking time, money and energy ever only to retire
With satisfaction and peace after achieving their dreams and targets!

Humanity and forwarding looking men sincerely hope such a situation will
Surely turn up for the world to see peace and love dawn at the horizon!

Ramesh T A
Peace And Prosperity!

Humanism thrives on

Love and friendship of people, nations

Flourishing peace and prosperity!

Ramesh T A
Peace Is The Need Of The Hour!

Still slumbering the town is yet to wake up
Though the Sun shines bright in the morn!
This kind of peace is a great bliss to enjoy
On the birthday of Mahatma Gandhi today!

Due to negligence of nations, terrorism has
Come into the world and is thriving on bombs
As culture everywhere underscoring the need
For joint actions by all to eliminate it forever!

Violence looms large night and day nonstop
And people live in fear forgetting love forever!
War as a consequence is driving people to run
For safe places all over the world as refugees!

Buddha, Jesus and Gandhi showed ways for
All to follow to live peaceful life ever in the world!
But will all heed to their words of wisdom to stop
Wars and bring peace the world starves forever?

Ramesh T A
Peace Of Mind!

Smiling flowers welcoming me
I enjoy beauty of rose, lily, lotus!
Sweet fruits ready to receive me
I enjoy tasting their deliciousness!

Green meadows readily waiting
I lay down on with mystic mood!
It's a spot of paradise to witness
Valleys and streams going down!

Trees interspersed among grassland
I feel elated in my mystical venture!
What a heavenly place of tranquility
I experience far away from all noises!

One may have billions of money;
But what's the use if one has no peace!

Ramesh T A
Peace Only At Home!

We can go anywhere
But we cannot enjoy comfort
As in the home!

Human body is not
A permanent abode for the soul
As the Universal soul!

It is temporary only
However comfortable or hellish
It is in the world!

What we see is
Illusion only which is incredible
As the spirit within!

What we can’t see is
The truth which is also incredible
As the Universe above!

Everything is unreliable
Except this truth we ignore coolly
In the day today life!

Realization of this truth
Will give us the confidence sure
To achieve peace true!

Ramesh T A
Peace!

Where there is

Love, there courage and

Peace prevail ever!

Ramesh T A
Peaceful Coexistence!

World wars went on due to economic and military power
Based on racial hatred and revenge in the past by madness!
Following obsolete political ideologies or fanatical religious
Ideas is meaningless madness in the modern world sure!

Also, trying to impose such foolish isms and ideals on others
By force of military power by wars with other nations is sheer
Madness only under scoring the need to stop such nonsense
By united efforts of peace loving, civilized, modern nations!

Economic and social developments of nations by education,
Cooperation and coordination among developed and developing
Nations only can pave the way for peaceful coexistence among
All by the culture of international friendship under the aegis of
The world body called the UNO that has been established
Fortunately after the two world wars between 1914 and 1945...!

Ramesh T A
Penny Wise And Pound Foolish!

After my coming into the picture of relatives and friends
Many better changes have taken place sure so far...!

Wherever my presence is there best things happen;
My childhood days of 3 years they still talk with smile!

After seeing me many have married and had children
And they too have married and have grand children;
Still my presence brings olden days' joys once again!

I have studied, got married and have become poet;
All have my first foundation books in their hands
And even now when they see me ask for my 2 books -
Dreams, Ideas and Realities & The creation of One World!

All are keeping them in bureaus inside the locker as if
They are gold or diamonds sans saying anything........;
But they talk about my 3 years old talks and acts ever!

Poetry is highly praised and valued in the society;
But they don't give the honour they give to others
Like novels, short stories and even plays with Awards!

What shall I say about this society that cherishes
Not eternal values but only silly and small matters?
Arts and Literature also have the same fate of great
Religion and Philosophy keeping films and TV on head!

Ramesh T A
People Are Not Fools Ever!

Individuals, common men and men in power and supporters
Represent as members of democracy to run the affairs of nation.
But men in power with their supporters suppress, depress and
Oppress all in the society comprising of all people in one forever!

No progress or developments go on smoothly satisfying society;
Taking law in hand they intimidate all common men and loot
Exchequers as they wish to satisfy the needs of their favourarites
Making corruption go on unabatedly under the shadow of power!

The wrath of people like the ever increasing Summer heat brewing
In the belly of the Earth to erupt as volcano looking to be sleeping
Is waiting for the appropriate time to bring down the looters in power
And punish them with rule of justice sans fail just after the election!

Never one should think the people are fools who can be hoodwinked
Forever and ever taking advantage by giving freebies just to win hearts!

Ramesh T A
People Are The Judge!

Writing on the wall now is election everywhere!
Once in five years election for the Assembly comes
And people vote some party to power to rule them;
But what the rulers do is quite absurd always sure!

Many opposition parties vie with each other ever
As if they are all paragon of virtue in wooing voters
Forgetting what nonsense they have done earlier
When in power sans caring people for five years…!

Without doing anything worthwhile anytime they
All talk about good governance blaming the present
One in power for all drawbacks and mistakes they
Have done now and then while carrying out plans!

People are the judge to decide who has to be in power
To perform duties for the welfare of the people ever…
Using their memory and wisdom who is the worthy
One to be again in power to do good to the society…!

Ramesh T A
People Are The Main Characters!

Writings on the wall are clear and sure
In saying the fact that which political
Party has the chance of winning in the
Election as people are pretty aware of
The truth and sure of knowing who to
Vote and who to reject in their minds
Whether the parties who call themselves
As paragon of virtue and will bring all
Facilities people need for development
And also for reducing the burden they
Have been shouldering due to the flaws
Of ruling parties earlier and the present;
For, people are the main characters in
The democratic system, good or bad, ever!

Ramesh T A
People Of Double Mind!

If one wants to forego all govt. benefits,
One can go by the pride of belonging
To a high caste or class community ever!

But if one wants all benefits from govt.,
One should reveal oneself as belonging
To a backward or minority community!

Instead of following either of the two, if
One wants to say oneself as high caste as
Well as backward, it's riding on two horses!

Riding on two horses with one leg on each
Horse is doing circus, which is as standing
On quagmire and river at the same time!

People of double mind cannot decide anything
With positive outlook to progress in the society!

Ramesh T A
People's Rule Or Dynastic Rule?

Crossing the board from one side to another side between Black and White kings is Chess game all ages of people play as indoor game..!
In politics, opposition tries to topple the ruling party to come to power
And the ruling party tries to foil all their attempts to be in power ever!

Both in love and war there is nothing fair or foul in the struggle or Battle, but only the end point of victory to achieve their objective!
In business too competition between two companies to capture the Market for their products is the only aim of vigorous companions!

In politics, war and love, everything is fair to achieve their goals by Any means to eliminate enemies in their favour only in any situation!
In politics, war and love, victory of their party, nation and love are Most important and not friends or anybody else close to one's heart!

Now people have realized all the natures of governance and the Corruption being perpetrated by them since time immemorial ever!
So, they have resolved to uphold the political party that supports People rule and not dynastic rule that governs nation by corruption!

Ramesh T A
Performance Od Duty Natural And Artificial!

Natural performance of duty by one in any field is welcomed[
But performing duty to impress others is artificial one sure;
Sans expecting anything only, one can do duty really well..;
But generally, sans lucrative benefit, none does duty well..!

Sans each one doing duty well, society cannot progress well;
Sans Sun, Moon and stars doing duty well, Universe won't stand;
Universe or life won't naturally sustain, if all artificially do;
Natural and artificial ways of doing things have after effects!

Good means only can lead to good end and the shortcut route of
The bad will lead only to the bad end showing clearly which is
Better between natural and artificial ways of work everywhere
As a lesson for all to know and do better one's duty forever!

Progress and stagnation of society depend on the ideology that is
Naturally good only unlike the artificial promises of politicians!

Ramesh T A
Performance Of Duty Natural And Artificial!

Natural performance of duty by one in any field is welcomed[
But performing duty to impress others is artificial one sure;
Sans expecting anything only, one can do duty really well..;
But generally, sans lucrative benefit, none does duty well..!

Sans each one doing duty well, society cannot progress well;
Sans Sun, Moon and stars doing duty well, Universe won't stand;
Universe or life won't naturally sustain, if all artificially do;
Natural and artificial ways of doing things have after effects!

Good means only can lead to good end and the shortcut route of
The bad will lead only to the bad end showing clearly which is
Better between natural and artificial ways of work everywhere
As a lesson for all to know and do better one's duty forever!

Progress and stagnation of society depend on the ideology that is
Naturally good only unlike the artificial promises of politicians!

Ramesh T A
Perhaps An End In Promise!

Bright Sunshine and cloudy Sky welcome October month;  
Between hot day and rain now and then mark this month;  
This month is noted for hot day capable of melting sand  
And also, rain that can wet very well the sand ever..!

October is the beginning of the last quarter of the year;  
All Hindu festivals leading to Christmas and New Year are  
All are going to enjoy sure with joy and pleasure in full;  
This also reminds of the three-fourth of year spent so far!

Great fun and enjoyment we have had and also witnessed an  
Irreparable loss due to the demise of my better-half too!  
That sad time and grief this year has as its scar never  
To be erased in the diary of the year 2018 of my life sure!

Profit or loss, the year goes on yet to see other incidences  
Before it completes its full term perhaps ending in promise!

Ramesh T A
Like ripples on the pond, the silence of environment has got
dissipated by the heavy down pour of rain in the late night!
Perhaps to give life to the parched earth, Nature has ordained
Rain to solace the long thirst of drying dark plants at last...

The recently sprouted grass of crops have dried dark by long
Drought even in the rainy winter season too this year suiciding
Many a farmer in uncontrollable grief for want of water for all
Irrigation and growth of crops for the next year to be happy...

What a tragedy for the farmers as there is no water in river
And also, no rain to quench the thirst of dark soil and the hearts
Of many farmers and brothers and sisters to toil and harvest
Best crops for next year needed to lead a good life with hope!
After all failures of seasons, Nature has finally condescended
As rain to solve all the woes of the world for a better life for all
And has decided to compensate all the losses of the year by
A single stroke of cloud bursting rain perhaps Nature only knows!

Ramesh T A
Personalities I Cherish Most!

Good friendship, love and beauty I cherish most in heart; They always give me the cheerful mood I need anywhere! Persons of that kind seek my company wherever I go...., !

Perhaps the charm of my personality and mood touch all Bringing closer firm relationship lasting long in world life Without any change resulting in no untoward status sure!

Due to this nature it becomes easier for anyone to approach And have cheerful atmosphere in my company anywhere Whether I am travelling in a train or meeting in any function!

Such kind of meetings with personalities of top quality ever Give me the necessary details and inspiration for developing Ideas needed for my speculation and expression of matters!

Seeing beautiful, friendly and loving personalities are rare to Love or to be loved in this material world of no human sense!

Ramesh T A
Personality Of A Person!

Acquired knowledge, intellectual thoughts, healthy body,
Aesthetic taste in Nature and non-attached love of a person
Simply reflects one's high personality development in life!

Character is natural aspect of a person inherited by birth, but,
Personality is acquired aspect of a person by self learning ever!
Very attire, style of functioning on any event, self control and
Ideas suggestive nature for all matters say high of personality!

Many achievements are made by top personality persons sure!
Super power of such persons developed by intelligent efforts
Make many miracles in any field boosting up the stature of any
Enterprise due to one's entrepreneurship quite amazing indeed!

Without waste of thoughts all things they analyze before hand
To be sure and ready to use them to excel in deeds quite amazing!
This is the top secret of persons of great personality in any field ever!

Ramesh T A
Pessimism And Optimism!

Constant negative thinking makes one a pessimist
To live under the control of fear in world life;
Peace of mind never seems to be achieved in their
Life making them which one to believe and not..!

Positive thinking based on vision makes one optimist
To live a confident life with hope to achieve all;
Joy, peace and freedom they only can enjoy forever
Despite hurdles they may have to face in the world!

For a good life, good education, friends, enough
Money, interesting job and favourable govt. are
Needed so that pessimism and optimism have no chance
To oscillate in one's life, long or short here...!

Pessimism and optimism are one's state of mind only
Based on the conviction one has in the course of life!

Ramesh T A
Petty And Useless Ones!

Antagonism based on intolerance makes all indulge
In sarcastic tirades with no sense of reconciliation with
Colleagues in doing common works for the society!

Already world problems like pollution and terrorism
Seem to divide the world into pieces leading to its own
Destruction sooner or later needing to be dealt-with first!

When the larger problems need to be solved first,
What's the use of indulging in petty matters leading to
Big chaos and crisis dragging endlessly to nowhere?

All thinking and peace loving people should take
Initiative to stop the unnecessary and petty matters
And bring about rapport among fighting cocks!

When so many problems are waiting to be solved....,
What is the use of indulging in petty and useless ones?

Ramesh T A
Philosophic Truth In Poetry!

Philosophic Truth in Poetry!

Renaissance and romantic movements explored art, Search deep all philosophies to know truth and Also, created ideas about ultimate reality of life sure!

Nature poets did tremendous job to inspire and guide All to follow philosophic truths about life instead of Relying on traditional ideas of religion, art and so on!

Aesthetic art, literature and painting expressed better On all matters concerning human life and encouraged Mysticism by communion of mind with Nature long!

Confluence of cultures of East and West opened new Horizons and enlarged mind and perspectives ever Influencing all progressive minds towards perfection!

Expressions of poets based on intellect, intuition and Meditation and mysticism unite mystics, seers, sufis!

Ramesh T A
Philosophy Of Black Crows!

Everything is going on as in a competition;  
Catching the winning post first is the aim  
Of all in this great race going on forever;  
All are opportunists to go on winning side!

Sans this kind of frenzy and selfishness,  
No one can participate in this race to win;  
There is no unity among them for cooperation  
To share all rather than by competition ever!

Sports or wars is the way of the world now in  
All things to come up somehow by serving under  
Some wealth providing forum rather than having  
One's own concern to develop and live free ever!

Winner laughs and loser cries first, but the  
Loser soon learns the art and wins all later!  
Coming to the top, the wise one leads others to  
There to form a team to run a cooperative firm!

Enjoyment of one man's wealth by others too by  
Sharing it, happiness is enjoyed by all for good  
And that is the philosophy one has to learn from  
The black crows do before our eyes everyday sure!

Ramesh T A
Pillar In The Ditch!

Pillar in the ditch

However tall and strong

Will fall down sure!

Ramesh T A
Play Shouldn't Become Real Event!

Nuclear weapons are a symbol of greatest destructive power
Each nation believes to have to be listed as a world power!
Sans knowing nuclear weapon is a great danger capable of
Destroying both the enemy and the holder, they long for them!

This has become the game of balance of power after World War
II on started between USA and USSR and escalated by others!
After forty-four years of cold war, they started to put an
End to this game bringing all under a treaty called NPT....!

Further, the nuclear fuel used in power stations to produce
Electricity seems to of great danger, if the structure isn’t
Securely built and protected with complete security forever,
Which has no guaranty, if earthquake occurs sometime or other!

All nations, realizing this great world danger, should unite for
Peace, prosperity and progress under one roof known as UNO...!

Ramesh T A
Playing The Same Old Game!

Government cannot run sans bureaucratic coordination
In cooperation with it for all policies and promises!
But bureaucratic interference in individual liberty
Spoils beauty and greatness of democracy of a nation!

If it so happens, it is only a fascist dictatorship
Rule which is worse than direct emergency rule sure!
Without cleaning one's own house, there is no point
In criticizing about the cleanliness of others ever!

Leaving the big thief to go Scot-free, it is not fair
To introduce strict measures to punish small offenders!
Even in implementation, first government machinery
should be corrupt-less before eradicating it everywhere!

Majority of poor people cannot know of this high drama
And support the rhetoric of gullible political leaders
To win in the elections and come to power to continue
The fascist rule still more arrogantly only sans progress!

Then there is no point in praising democracy and doing
The same old nonsense to hoodwink the people as fools!

Ramesh T A
Pleasure And Peace!

Pleasure and peace are out of place sans a vision of life…!
To have a vision in toto, knowledge of life, world, Nature
And Universe are very essential so as to have an ambition
That generates a force to do whatever one wants to win sure!

Everything we have to know is knowledge, but true one is
What makes one to be sure of everything and go ahead with
Confidence, courage and perseverance in pursuit of objective
To be achieved without fail in the long or short journey of life!

Only on such a venture, one can have the zeal to do all well
And in perfection that gives a unique experience of joy nothing
Can give in this world and there lies the secret of one's pleasure
Lasting long to attain real peace in this world full of surprises!

The things done in that mood, really can create or invent something
Worthwhile that brings full satisfaction and benefit to one and all!

Ramesh T A
Pleasure For Recognition Of Valour Is Incentive!

If there's no pleasure to enjoy after a hard work or mission,
Life will be uninteresting, dull and insipid to live in the world!
Pleasure is self gratification for a job performed well in life
Whether it's individually or in company enjoyed as entertainment!

Pleasure is the recognition and incentive for the valour of skill
One has shown in some field in the world in some significant level
And for the future accomplishment one is expected to achieve sure;
Such an incentive gives greater pleasure to do still more better!

Sans pleasure after making an achievement not easy to do by all
Will make one a stoic to do good and bad sans any sense of joy;
Only a person of great tragedy can be living so in world life
Jut to past time to see the end at the shortest time possible sure!

Person of great skill, promise and valour shouldn't be left sans
Any recognition and entertainment by the well wishers of such a one;
Loving ones give solace and encouragement, if not pleasure, to the
Lonely one capable of making achievement for the well being of all!

Ramesh T A
Pleasure The Objective Of Any Mission!

Many undertake to do hard toils for the sake of enjoying Pleasure at the end to celebrate victory and achievement; The objective of all kinds of activities of men are only Pleasure that brings great joy in the world of men ever!

Without any benefit of any kind, no one likes to do any Work in the human world and that one is for money, love, Pleasure and satisfaction for the hard toil one does for The sake of others through some field in any walk of life!

Above all, without pleasure to enjoy at the end of any Mission, no one comes forward to do anything for the sake Of anyone or others in the world and the most advanced One does all for the sake of love that brings joy and all!

Pleasure to be enjoyed out of love one does any great work Surely seems to be a noble one all praise and respect ever!

Ramesh T A
Poems Are Still Filling Pages!

Between the lines of poetry ideas hide
Many believe and search for ideas!
But such secret of ideas are nowhere
Nowadays in many poems of modernity!

All are straight from the heart poems
Spring forth like a fountain spring
If the ideas are of romantic nature
And like volcano if ideas are of anger!

Old forms of poems are nowhere now
And nobody likes to write or read too!
Poems of short length and structure
Abound with or without meanings now!

Poetry survives through many websites
But some websites for fun publish poems!

Ramesh T A
Poems From Pure Heart!

Forgetting pain in poems plenty
Fine moments of life are versed
For the present and posterity
To immerse in ocean of poetry
Poets produce poems from heart!

Wondering the verses weaved
From words full of profound fun
And power to spell-bind all in
Word magic to mould minds
All poets perform pure artistry!

Love and life living with vitality
In all the verses of profound news
Born of pure heart for thrilling all
Not as journalists do but as artists
Poets make art for life to be hailed!

Nature as dreams leading to fantasy
Verses full of visions new and fresh
Enlightening minds and hearts ever
Along the green pastures of freedom
Poets entertain and lead to joy ever!

Ramesh T A
Poems Live In Hearts!

Nature inspires poet
For poems to come out of heart
To live ever in hearts!

Ramesh T A
Poems Of Many Categories!

Several ideas are coming in mind;
Which one shall I arrange in order
To compose poems of my desire?

It is all left to the will of God only
Who decides the matter as to time
What is needed for the world to know!

Sonnets and poems of many stanzas
Poets write to create beauty out of chaos
For the pleasure and enlightenment of all!

Free verse is the best for all to write ideas
That create sensation or seriousness about
Various topics romantic or burning here!

Writing poetry many do miracles on screen
Sensational, serious, sensuous and sentimental!

Ramesh T A
Poems To Write!

Enjoying reverie
I have many poems
To write now!

Ramesh T A
Poet Is All!

Poet is unique

As he turns failures into

Great achievements!

Poet is fortunate

As he knows how to change

Grief into gaiety!

Poet is a prophet

As what he dreams ever

Become realities!

Poet is a God

As what he does is

Creation as God!

Ramesh T A
Poetic Enlivening Of Best Moments In Nature!

Colourful Nature is a spectacular sight to see everyday;
The living beauty of Nature inspires cheerful mood ever
Making one muse in it and enjoy unique pleasure long...!

But the cheerful mood got from inspiring Nature makes one
Take the routine obligations and duties in a light and
Matter of fact manner sans any sense of monotony or boredom!

Mental diversion by the images of Nature impressive in heart
Relives one of anxiety, excitement and tension and cools down
Mind renewing inner spirit by its echoing effect as heart beat!

Other diversions in the beauty of art, dance and music are
All have come from the inspiring and living beauty of nature
Initiated by soul stirring poetic expressions of master spirit!

Of all things, perhaps poetry only captures best moments in life
Enjoyed in Nature stirs heart, mind and soul to rejuvenate Self!

Ramesh T A
Poetry All Want To Write!

So many people are writing poetry.....;
Poetry engages diverse kinds of people.
People write poetry when time permits;
Permission is not necessary for poetry.
Poetry has become a nice pastime......;
Pass time all in devoting time to poems.
Poems of all genres are quite common;
Common people to high level all write.
Write they whatever they like to be free;
Free all feel writing poetry on all matters,
Matters as diverse as professions do......!
Doing their jobs write poetry as all wish.
Wish all to write poetry and want fame;
Fame comes only when fortune smiles!

Ramesh T A
Spontaneous flow of extempore expression of a poet is natural poetry
That is natural, philosophical and wholesome in fashion is listed
Under romantic poetry and has superseded and replaced classical poetry
Before formalistic modern poetry has come into vogue in literature!

Natural poetry is exploitative and featuristic in expression unlike
Classical poetry that has been followed in accordance with some listed
Styles that were in vogue in the past mostly blank verse in genre and
Also quite differing from modern poetry of various styles in vogue now!

Natural poetry is pure poetry in free style and all verses of all
Periods are quite artificially assembled poetry with ideas and words Following
rigid rhythm and rhyme looking to be similar written by all
And that makes big difference with natural poetry of individual style!

Natural poetry has personal element and style quite different and also,
Eminent from verses looking to be the same by different poets forever!

Ramesh T A
Poetry As A Life Critique!

Keen observation of a sharp mind reveals the nature of a critic[
Such an observation indeed has many aspects of life to be lived
Surely gives wisdom for those who happen to know of them in life!

This is the work of poet who is also a critic who talks about life;
For him poetry is the criticism of life rather than just a piece of
Entertainment and instruction sans any facts of truth to know ever!

Literature is not just a matter of amusement to pass time in the
Life full of uncertainties and problems making one fed up with
Works ever needing one to have rest hearing or seeing amusing story!

Not only that but also a true guideline it is to live life changing
Drudgery into a delightful venture to achieve great things by having
An ambition that ennobles one as one's life becomes a story to follow!

By imagination previously great bard entertained and instructed by
Holding mirror to life, but modern poet makes poetry a life critique!

Ramesh T A
Poetry Belongs To All!

Poetry is the free air I breathe ever in life in this world.....!
I have been said that I see poetry in everything everywhere
And whatever things I scribble on paper are poetry forever!
So, I am living of poetry, by poetry and for poetry for sure!

Poetry is not the property of academicians or litterateurs only;
It is not the product produced exclusively by those people only;
It is the product manufactured by the raw material of experience
By professionals and persons belonging to various walks of life!

Previously all subjects existed under one room called philosophy;
But as time went on, religion, history, astronomy, logic, etc. took
To separate rooms leaving common sense, scientific analysis to it!
But poetry has taken to include all subjects under its one roof now!

Modern poetry is the combination of prose and poetry in one sure;
Pure poetry is the creation of natural poet in thoughts, words, deeds
By the magical power of one's heart, mind and soul as a whole in one
Blending all subjects with multi-pronged approach to all matters in life!

Ramesh T A
Poetry Can't Be Discarded Or Replaced Ever!

All subjects under one roof poetry only deals with in literature;
Best medium of all forms of writings is poetry only as it only can
Convey unknown matters with known words for the understanding of all;
Divine spirit, it says, man can commune with in Nature to enjoy bliss!

Everyone believes there's no link between literature and science, but
Full agreement there is between Physics and literature as Nature is
Given importance in both fields to explore mysteries of Nature and life
However puzzling the matter is for scientists and litterateurs ever!

Immensely interesting ideas poetry says by its quest for novelty ever;
Joyful or sorrowful experiences poetry says for change and solace sure;
Kings to paupers, poetry touches hearts for human sense to prevail in
Life with love to enhance human nature to divine nature in the world!

Modern world surrealistically deals with human life due to materialism; Nothing
matters, even seeing grim realities in this material world full
Of anxiety and excitement due to nuclear proliferation and terrorism,
Putting all people in panic and nightmares day and night in world life!

Quite a lot need to be changed by poetic expressions of criticism ever;
Restoring humanness from brutish nature by cultural arts is its duty;
Sustaining human balance by poetry has become its main purpose ever.;
Truth needs to be exposed for human transformation feasible only by it!

Use of poetry cannot be replaced by any other forms of literature as the
Very fast going world needs all in an instant fashion that poetry does
With words in a brief style all can accept as time is in shortage ever!

X and Y problems are dealt with in acceptable fashion only by poetry;
Years of poetry's existence in many forms is mainly due to this need that
Zealously poets perform as their duties in a prompt fashion as none can!

Ramesh T A
Poetry Can't Be Like Any Other Subject To Be Taught!

In South Indian village temples some deity's spirit
Descending on a chosen disciple predicts what next
May happen or answers to questions of devotees ever!

Likewise, poets too have that kind of sensation to say
Matters to the astonishment of many who cannot ever
Decipher how and from where one gets ideas of Poetry!

When this so, it is doubtful Poetry can be taught as
Any other subjects taught in schools and colleges sure
Leaving the question believing it's possible by geniuses!

Even geniuses and talented poets cannot go on writing
Poems endless unless one gets ideas nonstop forever sure
And that too is not an easy joke for all to do by practice!

Writing many poems and books are not in one's hand ever
Unless it is a God given gift to one to say His message!

Ramesh T A
Poetry Climbing To The Peak To Mingle With The Universe!

All achievements of dreams born of love are realized
By ideas of great visions got out of knowledge of all
Categories of life such as Self, world, Nature and God!

Dreams created outlines are visualized as a whole by
Enquiries made on all aspects leading to have ambition
Fructified by actions well planned before hand ever sure!

God's gift being discovered by a fluke chance has changed all
Highly inspired by Nature leading to the creations of works
I have not even dreamed before in life as my destined talent!

Joy of many a reader's comments praising my works as something
Keeping pace with masterpieces of great litterateurs whose
Lovely creations listed as excellent, brilliant, great and glorious!

Most of my creative works of art in poetry are not just achievements
Nor even may be called as masterpieces but only as miracles in life
Openly and totally everyday happening even though I have no ideas!

Poetry is a wonderful medium of expression useful to say unknown ideas
Quite amazing to the poet as well as readers ever in the world sure
Requiring just inspiration to trigger wings of imagination to do all!

Starting from Nature by inspiration going through inner space of heart
True out put of mystical kind of exploration is created as verse full of
Universal ideas of wisdom passed on to the world and posterity daily!

Vertically climbing ideas to the peak mingle with the Universe always all
Written words of every line of verse as they are condescending from God as
X and Y like me how can express such great and excellent ideas, I wonder!

Years of acquired knowledge, intellectually analyzed ideas and spiritual ones
Zeroing to the centre of all composition ever put me in joyous heart at the end!

Ramesh T A
Poetry Contest!

Poetry contest is a thrill to participate!
Waiting for the result is full of suspense;
When result comes everything is over!

Poetry itself is never boring to write...!
But reading all kinds of poems is not so;
Only poems of one's taste attract ever!

Writers of poetry are many on websites!
Contemporary poets are difficult to list;
But some prominent ones shine everywhere!

Poetry contest gives a chance for popularity;
Poets then on are well known to all there off
And their poems have a good reception sure.

Poetry only gives such an opportunity to all....
And luck plays a major part for one's popularity!

Ramesh T A
Poetry Flower!

Poetry blooms ever

Like colourful flowers in

The garden of literature!

Ramesh T A
Poetry Is A Rare Blessing In Disguise!

Dream of medical practitioner or dream of physicist aiming high
When shattered to pieces by obligations of joint family system,
Poetry only comes to the rescue to compensate all losses of life
For one in the world interested in Nature, literature and culture!

Like diamond formed under great pressure and high temperature long,
A poet is born to express brilliant ideas and wisdom for the world to
Know unknown facts, noble aspects of life and things invaluable
That are otherwise hidden forever in darkness having no idea of existence!

Such a high place Poetry allots to a great soul left in the world alone
With no way to go and no direction to take to have fulfilment in life;
Poetry is God given gift sanctioned to one as a great blessing in disguise
One is destined to have to render greatest service to humanity ever!

Perhaps only a chosen few has this rare chance to hold this great post
That fate and fortune together bless one to enjoy great bliss and do rare feat!

Ramesh T A
Poetry Is Best Panacea!

Culture is best way of living in the world. Many shortcomings, drawbacks and all Many have overcome by wise diversions! This culture is best followed by wise men!

For certain illnesses medicine can cure or Control men making them live life well..! But for other kind of illnesses only by..... Diversions they can be overcome for sure!

Some sing songs to overcome the pain of Some illnesses they cannot have control Over by any means whatsoever possible And have lived long creating history great!

Some have recited poetry stanzas of great Poets to overcome their shortcoming in life! Some have composed poems to overcome The pain of diseases they have been suffering!

In that way poetry seems to be the best one, Panacea to overcome pains of great illnesses! This medicine has much helped romantic poets Of the past consoling the present sufferers too!

Ramesh T A
Poetry Is Ever Interesting!

Poets are many,
But readers are few!
Poems are many,
But expose is less!

Poems are many,
But comments are few!
Poets are rare,
But reviews are rarest!

Poetry is appreciated,
But awards are for others!
Poets are unsung,
After death only highlighted!

All writings are there,
But only poetry is ever interesting!

Ramesh T A
Poetry Is Ever New!

Purpose of poetry
Is to entertain and enlighten
But not to frighten
By strict rhythm and rhymes ever
Giving the clue it's old form of writing!

Only one idea
Is being developed in stories
And also in novels
With suspense and characters
Within a frame work of time ever!

Poetry is ever
Interesting from start to end
And timeless always
Unlike monotonous prose or
Long novels testing patience long!

Poetry it's believed
An old form of writing ever
With meaning between
Lines and difficult to understand
But it's ever new, simple and short!

Ramesh T A
Poetry Is Forever!

Paint pictures in words;  
It is metaphoric poetry!  
Write melodious words;  
It is rhythmic poetry!

Similes smile in simple verse!  
Metaphors mirror Nature!  
Alliterations produce music!  
Onomatopoeia sounds real!

Free flowing poems are extemporary;  
Spontaneous poems are romantic;  
Verses full of fantasy are dreams;  
Free verse or blank verse absorbs all!

Poems make you feel free to write  
Feelings, ideas and dreams full ever!

Ramesh T A
Poetry Is Immortal!

Friends may come and friends go;
They may write thousand things
And leave their imprint on here..!
New ones come then to fill the gap;
But one thing is sure whether they
Come and go or not, poetry blooms
Forever and ever nonstop on screen
Like the daily newspaper that comes
At every dawn after dust sans fail...!
This is because poetry has no death;
Poetry is immortal and ever young
Thriving with vibrant vigour none
Can ever have in this world of ours
Even after thousand years damn sure!

Ramesh T A
Poetry Is Life Like The Nation And God!

Many, who ask what this poetry is that cannot save nation and men, Do not know the value of poetry and its significance for the society! Poetry is not a piece of amusement only but also an instructor of life And its value not only in the past but also in the present and forever!

Poetry is the voice of the unknown poet, who inspires all others to Take action to save nation and its people whatever be the situation! Poetry is the first information report of the situation, good and bad to All as it is for prevention that is better than cure of a disease forever!

The written expressions of experiences of life that become literature As the daily report of news that will become history later to know right And wrong for correction so that history may not repeat itself forever, Poetry is the record of experiences of life even history can't tell truth!

Poetry is life like the nation and God we cherish most in heart and Sans it, human life is incomplete forever as blind man in the world!

Ramesh T A
Poetry Is My Gift Of God!

Everyday I start my day with so many ideas floating
And disappearing in my mind with nothing concrete to
Stick to to utilize for any purpose as I am engaged
With mundane daily regular chores being a lonely guy!

Except poetry nothing can I rely on to express my
Self in words worthy of my birth in this world to the
Notice of all my dear friends, fans and readers to
Say something about my poetic ideas they enjoy much!

It is God's will that i have to say all my ideas,
Thoughts and messages in verse rather than in any
Other form of literature as this being a great gift
Of God that I write many poems nonstop for 3 decades!

Ideas appear and fly fast like lightnings everyday;
What I capture I write in some verses with available
Words only make or mar my image in the world as a
Poet with poetry praised as one of a kind forever!

Ramesh T A
Poetry Is The Best Of Human Knowledge!

People interested in beauty, freedom, romance and Nature love poetry; Strong and concentrated talent work in poetry takes one to the top sure; Intellect, intelligence, experience and emotion help much to compose poetry; Knowledge of anything, everything in detail with talent one creates masterpiece!

Natural creativity of a genius uses everything as means to a good end; Education is just alphabetical letters creative mind uses as bricks to build tower With experience, feeling and imagination as foundation to raise structure high To create a majestic castle or palace or fort or temple that makes creator immortal!

A masterpiece of such a genius makes love of man divine and ever lasting Inspiring and influencing sense of love flourish forever in human society! Sans love, good human life cannot be fostered as fertile green field of rich crops To feed mankind with strength, stamina, vigour and vitality to live free life ever!

Poetry is the encyclopaedia of human life. philosophy of religion And God of love that gives human culture to achieve completion And true fulfilment in the human world keeping alive human sense, Feeling and bliss in Nature to attain absolute statehood with divinity!

Ramesh T A
Poetry Is The Source For All!

Life is short but art is long forever....;
But our short life lives long in poetry!
Spoken words die the moment spoken;
But the words written in poetry is ever!

Source of all arts is the ideas of poetry;
Songs, dance postures, dramas, paintings
And all forms of expressions reflect all
Ideas poetry has expressed first before all!

Poetry is old, new and forever existing to
Lead all arts, rule man's mind and guide
All people to live life full to enjoy love,
Truth, peace, joy, freedom and satisfaction!

For the beginning and for the end of all
Only poetry is there to live and tell ever!

Ramesh T A
Poetry Lives Longer!

Fresh smell of vegetation refreshes heart;
Smiling faces of flowers rejuvenate spirit;
Watering flower pots I enjoy real pleasure!
Flowers though have brief life are majestic,
Quickly blooms, blossoms and fades all days!
What's the use of living long as burden to earth
Without doing wholesome everyday in life?
Even the meanest of mean things in Nature
Lead a glorious life though a brief period here!
All these things make me think always high
And do whatever I can aiming only great ever!
That's why I have chosen to write poetry ever
Though it's not welcomed much as other forms;
But poetry lives longer than all thrashes there...!

Ramesh T A
Poetry Only Is Rescue For All Ills!

World is reeling under racism, terrorism and Nuclear proliferation;
All things are politicized and political game is played by politicians;
Tycoons exploit natural resources for boosting business interest;
Wars between nations may start as storms sooner or later it seems!

Nightmares make men psychosis hit creatures due to sleeplessness;
For diversion to recover from depression seek they in art, Nature and culture;
But even that in the name of civilization are buried as fossil things in museums;
When such tender and beautiful things are effaced, how can love and peace thrive?

If democracy is turned into indirect dictatorship rule, freedom and rights get nullified;
When individual liberty and rights are in doldrums, love will be story in literature;

When there is no time and chance for love, how can peace thrive in the world?
To inspire and arouse people fight against all ills, only Poetry can do miracles!

To crack hard nuts, diamond like brief poetry only can rescue all in fast world
That reels under the illusion of false civilization and progress of modernity!

Ramesh T A
'Nothing will come out of nothing!' says Aristotle;  
According to him everything will come out of something;  
But the nothing called Zero makes all numbers big!  
Zero is the discovery of Indian astronomer, Aryabhata!

All things are made up of atoms and molecules invisible;  
This seemingly nothing cannot be presumed to be nil!  
Each thing in Universe though as small as particle ever  
Are connected with the potentiality of whole everywhere!

From the smallest of small and seemingly noting seed only  
The big tree grows with leaves, flowers and fruits everywhere!  
All things have evolved from the smallest of small microbes  
And is it not amazing that man is also evolved from microbe?

Magician conjures up flowers, rabbit and all from his cap!  
Poet above all conjures fantastic ideas out of nothing from poems!

Ramesh T A
Poetry Pictures!

Pictures are painted

Not with brush or pencil ever

But by pen in poetry!

Ramesh T A
Poetry Sleeps!

Heart willing
But brain not approving
Poetry sleeps!

Ramesh T A
Poetry Stands As A Star!

Like a lightning flash all things appear
And also disappear suddenly in the mind!
With the words available what all one can
Write creates poetry all love it's so pretty!

All wave like rhythmic lines of a poem are
Full of musical voice to satisfy the taste of all
When they all read to enjoy the story or idea
The poem conveys in the structure wonderful!

All poetry says is just to amuse you first and
Then conveys ideas to instruct or guide you
All to lead a wonderful life in the world we all
Love to live much to the end we can forever!

Having done so poetry stands on top of the hill
Like a bright Star in the Sky all the night long!

Ramesh T A
Poetry The Beacon!

Beacon of literature is ever poetry only!
Greatness of literature lies in quality ideas;
Richness of language depends on poetry;
Worthiness of matter in poetry only is best!

Writing needs creative mind whatever thing is!
Novels, Short stories, Prose and Poetry are they
That enhance the richness of literature ever;
That too writing poetry makes one great sure!

Having chosen the form of poetry to write itself
Is not an easy matter as it needs skill and time
To write what one feels, thinks and conceives
In heart, mind and soul, otherwise no good at all!

Other forms of literature needs concentrated work
But poetry needs natural ability to express free all!

Ramesh T A
Poetry Universe!

Poetry is the Universe, where all poets are the Stars shining as Brilliant diamonds forever and ever till the end of Space and Time Entertaining, inspiring, instructing, energizing all to aspire high to Reach the heaven of Sky from the hell they are destined to suffer Sans love, peace, joy, freedom and bliss due to hatred, extremism, Terrorism, violence and wars ever in the names of race, religion, Region, colour, class, caste, creed, etc. in the materialistic world In the pursuit of power, position, possession, etc. due to greed, Egoism, sadism, all isms sans an end not getting fulfilment, Completion, satisfaction and perfection seeking a way out To have a change of oneself and the world for the better So as to be out of darkness, chaos anarchy, troubles and Tribulation in an eternal state of joy, bliss, peace, freedom In poems divine created by starring poets of world literature!

Ramesh T A
Poetry Writing Is God's Gift!

Poetry Writing Is A Gift of God!

Just shaking hands, legs and body one can't perform a dance; To do so, the skill to make body movements in a beautiful fashion To deliver a message for all to know and understand is most Essential of all things of art one knows before one ventures!

Poetry is also not an easy joke to write for all to thrill and guide; Writing poetry long to achieve remarkable feat is not feasible By all except by a few determined, dedicated and disciplined ones Who live with knowledge, vision, ambition and achievement as life!

Vision of writing a whole poem is executed with logical points to Convey an idea all can understand only a few chosen ones can do With a unique skill bestowed as God's gift decreed by fate in the Life of a person quite rare among the men of skills quite many…!

Action is easy, thinking is difficult, speaking is bold feat, writing is Expression of skill and poetry writing is rare gift direct from God!

Ramesh T A
Poetry Writing Practice In Existence Now!

Computer is a great boon for poetry writers; Poetry was previously written for print and That too was with great difficulty published By risk taking publishers only in the world!

With that it does not end as who are the Readers having interest in reading poetry That was believed to be difficult to know The ideas written by some nice poets sure?

Everything has changed by the time internet Facility came into vogue since some decades Ago making all to try their luck in poetry Writing by way of world wide poetry websites!

Then, maintaining copy right is another matter; Pirates copied and published under someone's Name and plagiarism has come into practice now And problems of blocking put poets in troubles!

But, poetry is still in doldrums with no steady State of existence, support and reception ever Making many drop the idea of writing good poems And contributing to good poetry websites long!

After playing video games, many indulge in playing Poetry writing work and publishing on websites With not much readers to browse and appreciate Poems to have some interest for a change in routine!

Still poetry is surviving and sustaining itself with Some success due to some really interested poets' And poet readers' support like some oases in the Great desert of world literature so to say now sure!

Ramesh T A
Poetry Writing!

Poetry writing is an art;
It needs talent to write;
It requires also genius.

Desire and imagination develop art;
Till perfection is achieved it develops;
It is a true beauty that attracts all!

It is inspiring, thought provoking and absorbing;
Feelings, images and ideas abound in poetry;
That is why it is an ever lasting work of art!

Rhythmic words with reason lasts lingering ever;
Echoing music represents movements of waves;
That is why it is harbinger of music and song!

Poetry entertains and enlightens the mind;
Inspires all to rejuvenate spirit and go ahead;
Poetry is eternal and ever lasting in human life!

Ramesh T A
Poetry!

All things that
Directly come from heart
When expressed
In lines of rhythmic words
Become a poetry!

Ramesh T A
Poetry! I Pity For You!

Population of poets' world has exceeded limit!
Poetry world has become like political world;
Like in politics, poetry has become the last resort!

All write something and call them as poems;
There are supporters, friends and fans for some;
All kinds of writings are considered as poetry.

World of poetry has lost its glory of the past;
Some select best poets among such lot too....
There are comments and criticisms for that too!

For the really poetic writing no one seems to
See and say something as their views anymore!

Politics of poetry talks of high about new leaders;
Whatever they say they take as best poems....;
Poetry! I pity for your reception so now here...!

Ramesh T A
Poetry, The Best Medium!

All difficulties I have experienced in my long life
And have gained experience in all walks of life..!
On the critical moment to get some respite and
Relief from all adversities, Nature only has helped
To regain peace of mind and inspired me to write!

Poetry has come naturally for me to express myself
With ease and flow as nothing can due to paucity of
Time that has been spent totally on my obligations!
Almost three decades the free flowing river of poetry
Has not failed me ever and is still continuing nonstop!

All things top to bottom, from left to right and from
A to Z I have dealt with and dwelling deep to find all
Best of things for the notice of all and expressed all
Problems with solutions possible and dreamed great
Dreams for further progress of world with hope full!

Poetry is the only best medium most helpful for the
Rescue of the potential minds with full of ideas and
Thoughts and images that are quite inspiring, thought
Provoking and absorbing the readers who seek peace
And enlightenment to go ahead with renewed spirit!

Ramesh T A
Poets Are Not Frogs!

Globalization makes world a global village;  
Computer has brought world within palm!  
Best skills are exposed in websites many;  
But no one seems to know them outside!

Media mills grind grist again and again  
Never taking effort to make known news  
Makers in poetry websites to the world  
And the plight of poets is ever in square 1!

Best of art suffers like choicest flowers  
Blooming and being blown away by desert  
Wind ruthlessly producing new poems  
Great, mediocre, pulp and all in one place!

Website poets are not frogs in the well  
To be read and forgotten by a few readers!  
They should be referred and quoted by  
Critics to be known to the world in creativity!

Ramesh T A
Poets' Freedom!

Lovers of freedom

Poets cannot be imprisoned in cell

It's just another room!

Ramesh T A
Poets' Realm!

Poets are the

Unacknowledged legislators

To inspire and guide all!

Ramesh T A
Poets, Please Live In The Present!

Let not poets live in the archaic period
Forgetting the reality of the world full!
Let them think about the world today
To express their views and solutions ever!

Reporting the incidences of the world is
The duty of the journalists in the papers;
But analyzing over the matters with a
Human touch only poet can write wisely!

Many a matter even the journalists look
To the poetic expressions of websites....
To get points to write for the next day's
Newspaper before midnight for print!

Poets are the unacknowledged legislators
Having all responsibly to make world nice!

Ramesh T A
Political Buffoons!

Election counting of votes are gong on full swing;
Even with a slight swing see saw game is on now!
Without good policies and record so many parties
Have staked their claims to capture power now..!

Ultimately only two parties are standing for and
Against this time also as was in the past elections!
I don't know why unnecessarily so many political
Parties are wasting their time, money and energy!

Politics seems to be the easiest way to get power
And wealth to rule people and enjoy best time in
The world life, win elections with money power and
Go on spending life always in power sans change!

Many have this kind of dream and which is why
They are so crazy to stand in the elections and lose
Without any shame and sense like buffoons in the
Circus of politics playing poly tricks forever & ever!

Ramesh T A
Political Ideology Is All!

As things are going on today we can read
In literary stories or see in movies only
Love, friendship, peace and freedom..!

For, political ideologists control affairs
Of men in governing world nations to
Establish their ideals sans human sense!

These governing classes seek power by
Any means to change the world as to
Their ideals by hook or crook in the world!

So, rivalries, enmities and competition are
Common instead of coexistence, friendship
And cooperation for love, peace and progress!

Hence family, human society, coordination for
Good are nothing before inhuman politicians..!

Ramesh T A
Politics As Big Business!

Leaders of the past embraced politics for social work;  
But the followers have turned politics into big business  
By making public party into family party day by day  
Bringing up family members as custodian of party ever!

Now candidates in election buy votes from voters ever;  
With that their business with the people is over forever!  
Voters selling their votes have to forget the rulers ever;  
This is the nature of political business going on forever!

100% voting is democratic duty of all the people sure....;  
But what for elections are conducted? No one bothers...!  
Whether govt. is there or not, people are not aware of as  
Govt. never comes to their rescue in droughts or floods...!

Reforms on administration, education, taxation and also,  
Pricing policy on all commodities, things and articles are  
Not made and none coming to politics never takes this work  
As social service but only as big business to make money quick!

Ramesh T A
Pollution Cause For All Woes!

Infection caused by air pollution due to dust and smoke Affects all with cold, fever and so on everyday and ever; Infection caused by dirty water leads to many diseases!

Urban drainage and industrial effluent materials mixing With lakes and river water endanger marine life and affect Irrigation in agriculture and drinking water needed for all!

Due to air and water pollution, climate undergoes changes Causing long drought with no rain through out the year Resulting in depression, sudden storms and heaviest rains!

Agricultural products and crops of all kinds are affected By lack of rain and also due to sudden heavy rains now and Then every year besides scarcity of water everywhere long!

Destruction of natural resources due to exploitation for Food, fuel and raw materials sans recycling cause all woes!

Ramesh T A
Popularity Of Poets!

Names of poets getting published in newspapers, magazines and websites
Make them popular with world readers of poetry and general public ever;
Media there on harp on the same note sans any change either to introduce
Or write about the works of new poets flourishing in the field of poetry!

Reviews and week end articles on poetic works and poets come only about
The already known ones to the public whether they like them or not ever;
This kind of repetition on same poets and their books blackout the new
And better poets from being becoming popular among the poetry lovers...!

Media should be aware of the really best ones in any field of work and
Should not hesitate to expose such deserving ones to the public for all
To get a chance to graze on new green pasture for enriching the minds
With new and fresh ideas uplifting all with inspiration needed much!

The popular and long standing tabloid media shouldn't be always on safer
Pasture only and grind the same gist again and again in a matter of fact
Way, but clear the ground for new and young bloods to show their skills
For the healthy development of all sections of departments of enterprises!

Ramesh T A
Possibilities And Impossibilities In World History!

New measures to solve long standing impossible problems
Seem possible seeing the history of the world everywhere!

Division of labour in the society was a measure of justice, says
The Republic and following dharma according to one's birth,
Says Bhagavad Gita, is natural justice or righteousness in life!

For easy administrative purpose in the past, all people were
Segregated into classes according to various professions of all,
Though they all looked to be harsh at that time of no education!

After monarchy is superseded by democracy and education has
Superseded all class or caste systems, people have liberty and all
Rights to do one's will and pleasure according to the law of land!

Non-Violence movement by Gandhi following the preachings of
Jesus shocked the arrogant British colonial power to give freedom
To India, but that seems to be impossible as history repeats itself..!

Ramesh T A
Possibility And Impossibility Of Prediction!

We can predict when rain and storm will come;  
But we cannot predict Tsunami will come ever!   
We can predict fever seeing symptom of body;  
But we cannot predict when death will come..! 

We can know who can become friends in a group;  
But we cannot know who will love who at all..!   
We can know how friendship will break when...;  
But we can't say whether love will end in tragedy! 

By intellectual accuracy and intuition we know  
By vision what can happen when and why and how;  
But we cannot know by instinct like birds and  
Animals when Tsunami will come as they live there! 

There vast gap between intellect and instinct ever;  
As animals live in and harmony with Nature, they  
Natural changes, disasters and all by instinct ever;  
But man with mind lives away and can't know Nature! 

Instinct, emotion, intellect and intuition are there  
For all within, but their use varies in percentages  
Making great difference between animals and men ever  
Unlike the mystics who know past, present and future!

Ramesh T A
Possibility Of Human Unity And Peace!

Rivalry, competition and hatred leading to enmity ever
Prolong the course for promotion of unity and peace sure;
Tolerance and restraint on both sides need to be emphasized
For peace dialogue and after having some agreement too!

Insoluble longstanding problem needs to be given a fresh
Touch to start the space work for the promotion of unity
To replace enmity of all kinds from the past to the present
Paving the way for future peace, prosperity and progress!

New generation with education and broad outlook of world
Will surely don't like to be addicted to wars based on
Enmity meaningless in the context of changed circumstances
And situations prevailing all over the world of humankind!

Cooperation so and coordination by novel means, coexistence
Has to be promoted for making human unity and peace possible!

Ramesh T A
Possibility Of Human Unity Only By Love!

Unless hearts and minds are of the same kind,  
Union of souls cannot be possible by any means!  
Instant liking of heart based on affection only,  
Love blooms between two souls for lifelong unity!

Without human kindness in thoughts, words and acts,  
There's no chance for love to flourish in one's life!  
Also, there is no chance for romance to take place  
In one's life fostering love to rule hearts for good!

Human unity is possible only if love prevails in life  
Works uniting persons of good hearts together as a  
Suitable team to go on a venture leading to success  
Benefiting the whole group flourishing friendship..!

Human unity develops on love on a team work for a good  
Cause building up friendship by cooperation forever..!

Ramesh T A
Possibility Of Perpetuation Of Life By Procreation!

Love attracts all by beauty to love for enjoying bliss;
Beauty of Nature sways all hearts to love to be joyful;
Such a joy, when shared among loved ones, enriches joy...!

Joy is the breath of freedom that makes all live long in
Entertaining oneself with all to share love and joy ever
In blissful state of peace that procreates living beings!

Attraction of beauty in Nature and humans everywhere kindles
Love between souls for union towards enjoyment of pleasure
That enhances longevity of life and procreation of life ever!

Sans love and joy born of freedom in union between knowledge
And love, satisfaction and peace can't be attained in life as
Perfection of souls cannot be achieved in any other way ever!

Sans the confluence of love and knowledge of truth, freedom
Can never be obtained to enjoy bliss, satisfaction and peace!

Ramesh T A
POSTCARD everyone should remember
If one wants to manage an event in life!

Principles, planning and programming
All should know, if an objective is achieved!

Next, an Organization has to be established
With Staff like manager, supervisor, peon, etc.

The employees then have to be well Trained
To govern, administer, execute and do works.

Then Communication and Control are very
Important to make all know and do all well!

For all activities of an organization there
Should be good Administration to click sure!

Not only that Research should be done ever
To make Development possible for success!

Ramesh T A
Potential Poetry!

Love has no fear whatsoever in the world;  
Poet does all by his love of all matters here;  
Poetry is inspiring words of poet for all!

What's not possible by poetry is nothing!  
Impossible is expressed in possible words  
Making unknown known by poetry only!

Forms and style are poets own creations;  
Poetry is ever new in expression of ideas  
Inspiring all to be enthusiastic, enlightened!

Love of Nature, life, beauty and love poetry  
Explores always deep to express truth new!  
Poets are gods of Earth to men to new realm!

Poetry briefly converges all in a nutshell  
As powerful as atomic energy in control!

Ramesh T A
Power Is Needed!

Eyes are burning!
Body is aching!
What has happened?

Is it the extreme climate
Or the food we eat?
Age also is a reason!

Youthful jollity no one can forget;
We are youthful in mind forever;
But our body is not cooperating!

For competition energy is needed;
Even for computing eye needs power!
Otherwise we cannot do much here!

What is the use of talent sans energy?
One cannot shine and achieve fame!
But will power moves many to the last!

Strength and stamina are needed
To achieve all goals till the end of time.
Let God give power to good ones to shine!

Ramesh T A
Power Of Intuition!

Cloudy day brings the hope of rain today;  
Before the night fall rain we can see, I feel!  
A well prepared mind can have intuition...  
That would be correct unlike others promise!

Saying that something would happen needs  
Great skill in assessing the situation and also,  
Anticipation that is sure to happen in life ever!  
This needs great observation and experience!

Knowledge gives confidence and hope to go  
Ahead on any venture, but knowledge based  
On experience gives great faith and power of'  
Intuition that helps to predict and see happen!

Knowledge, observation, experience, intuition  
And faith help ever one to anticipate and do all!

Ramesh T A
Power Of Love!

Kind words of love

Make hearts to do anything

Even in harsh world!

Ramesh T A
Power Of Words Of Bards!

Touchingly inspiring words sway hearts and bring closer
Even strangers unknown as brothers, sisters and friends!
Power of words works as magic that makes all to transform
Into what the word magicians like poets or writers wish!

Poets express the inexpressive matters in other forms of
Writings in poetry with words of power to do great magic!
They are articulate in expressing matters others find it
Impossible to do so and wonder at poets' power of words!

Rhythmic lines with or without rhymes create wonder by
Their magical words that sway all to see reality or truth
Unknown, unknowable and inexpressible like the vision that
Flashes as lighting a moment and disappears into nothingness!

Poet sings, draws and commands songs, pictures and mankind
Whether praised with prizes or criticized with venom...!
Poets' words are predictions that happen sooner or later
As they are the prophecy of bards of humanity forever..!

Ramesh T A
Practice Is Better Than Precept For Love And Peace!

Love and peace are what human world wants to prevail over
Everywhere in all walks of life strengthening bond for good;
Freedom and free love are what poets since a longtime want
To live a natural human life in harmony with Nature forever!

But the question is whether we have achieved that wish ever
Or we can make it possible by advancement of knowledge sure;
Freedom, love and peace only make this world a habitat of
Humans in the real sense whatever be the thing we plan and do!

Sans good knowledge by educational training and culture to live
Life better than before, such a thing of seeing freedom, love
And peace prevailing over in all walks of life everywhere in the
World will be just a great promise politicians say before election!

Unless what we profess is being practised in the human society,
Nothing worthwhile can be established for Love and peace ever!

Ramesh T A
Preadching And Practice

It is easier

To preach than to practise

In life!

Ramesh T A

Prediction Of Natural Disasters!

Earth is like an ant caught between fire and water
As it's vulnerable to internal and external natural
Disasters that may occur at anytime to everyone's
Surprise one day or other in its long journey so far!

Tremors, earthquakes, tsunamis, cyclonic storms ever
Followed by heaviest rains affect the Earth often and
Also, comets, meteorites and asteroids from outer
Space fall and cause greatest natural disasters sure!

Except storms and rains, man's science and technology
Are incapable of predicting tremors, earthquakes, tsunamis;
But animals like elephants, cattle and birds know when
to go to safe places by instinct before disaster occurs!

It's a pity man believes knowledge is power due to intellect;
But animals with no knowledge know coming danger by instinct!

Ramesh T A
Preservation Of Nature A Must!

Deforestation of rain forest in many places
For soya and sugar cane cultivation as they
Being commercial crops accruing wealth to
Exploitors, many indulge in such activities
With no sense of recycling and has led to
A puncture in the atmosphere allowing Sun's
Ultraviolet rays directly affecting all beings on
The Earth and such activities of people may lead
To many holes appearing in the atmosphere
Sooner or later with Sun's heat beyond human
Resistance will affect all melting Arctic snow increasing
Sea levels around the world inundating small islands
As in Pacific ocean accompanied by long droughts,
Heaviest rains to balance climate change by Nature!

Ramesh T A
Preserve Earth!

Summer heat is burning the body from top to foot;
Raging heat is melting the body as butter on the bread;
All activities in the street are silent in the day time;
In the evening people brisk as ant buy and go home!

Global warming due to pollution is melting Arctic ice;
Tornadoes and heavy rain lash out and disappear;
Nobody knows what the next move of Nature will be;
Hottest summer and coldest winter punish people!

Ultraviolet rays of Sun pass through the atmospheric holes,
Cause blister to the skin and diseases to the eye of people;
No more Sun bath lovers can have as Baywatch in the beach;
Dangerous and harmless diseases affect all kinds of people!

Leaving this Earth where else man can go and settle?
Even in the Moon and Mars nothing has been done so far;
But rockets are fired everyday to Space to explore planets;
Why can’t we preserve Earth instead of such pursuits?

Ramesh T A
Preserve Nature To Foster Romance To Save World!

Romance without Nature is unimaginable in life and literature;
Only romance perpetuates love in harmony with Nature forever;
Love blooms into beautiful flower enjoyable in garden, park,
Green pasture and beach with blue sea touching blue sky ever!

What a wonder love is, when it blooms between two hearts, when
Both are unknown before, but become intimate after falling in
Love that cannot be separated from them by any formidable force
Anyone can imagine in the world full of chaos and uncertainties!

If Nature is completely polluted and destroyed by greedy men
Exploiting natural resources for food, raw materials and fuel
Sans any sense for conservation and recycling of such basic
Materials of Nature for minting money, world will vanish soon!

Fostering romance in Nature can be facilitated only by preservation
Of Nature, art and culture humans for sustaining life ever on Earth!

Ramesh T A
Presidential Victory For Second Term!

Obama has won in presidential election
For the second term to finish his tasks...!
People have elected him to power again
Believing he will bring old glory to America!

Will world recession disappear soon ever?
Will American economy attain surplus status?
Will America lead the world for peace or war?
Will world be a safe place sans terrorism....?

So many questions are waiting to be answered;
Will he get answers for them and make all happy
Resolving all crises America is trying to solve
And make this world a better place to live sure?

Oratorical victory should match with action too;
World people are waiting and watching in awe...!

Ramesh T A
Prevention Is Better Than Cure!

Promotion of unity of nations and world people by UNO
Only can achieve positive results satisfying all sure!
One super power or some terrorist groups cannot do
Anything as they wish as majority are not with them!

Unity of USA, EU, Russia, China and Islamic countries
Only can bring peace to the whole world sans any doubt!
Keeping this in mind, all nations should work together
In a cooperative and coordinate way for world peace sure!

UNO should keep itself abreast of what all happening in
All nations and take steps in anticipation before untoward
Incidence occur complicating international relations among
All nations now and then so that checks can be made earlier!

For maintaining good international relations among all world
Nations, UNO should adopt the policy of prevention before cure!

Ramesh T A
Problematic Youths Today!

Seventy percent of population seems to be self-employed; 
sixty percent of people is educated with many unemployed; 
Yet, overwhelming unemployment problem is main issue ever!

After education and employment, question of marriage comes; 
Leaders say educated people should be self-employed employing 
Many others under them, but bride parents accept employed!

How can the mentality of elders be changed according to the 
Situation of the nation that has heaviest population in the 
World today and pacify them to accept the prevailing status?

Due to this reason, many youths languish in job and bride 
Hunts becoming aged sans any change in their life situation 
And also, fed up with that, become depressed and oppressed!

Survival without subsistence, how life can be lived with 
Hope, confidence and progress in the modern material world!

Ramesh T A
Profession Of Scribe None Can Plagiarize!

Writers write matters for the world to know ever;
Their ideas inspire all to do better for world;
Even in this service for humanity, many indulge in
Plagiarism to get name and fame true one deserves!

But the style and way of depicting matters are well
Known to ardent readers of the world and the wrong
Ones would be exposed to all one day to be dealt
With appropriate measures by authority concerned!

The fun here is that those who have amassed wealth by
Some other profession by such methods are also want to
Do something through the profession of scribe making it
The most noble and great one for all to know everywhere!

Whether awards and rewards for the achievements of scribbe
Come or not, exposing truth to the world they continue ever!

Ramesh T A
Profile Of A Poet!

Born on 28th August 1950 Poet T.A. Ramesh is a post-graduate in English Literature and Personnel Management as well and is living in Pondicherry, India. After working as an industrialist in Sri Lakshminarayana Industries for 22 years, he is occupied in writing poems and essays since 1989 and has become a Writer Publisher at Halo Papers, India publishing books from 1996 onwards. From 2005 he is occupied in publishing his poems and articles on internet.

He wanted to be a writer after he completed his college education in the year 1972. But he was inducted into family business due to shortage of men to look after flourishing business. A sort of mechanical life it was and his inclination towards writing as he wished could not materialize immediately.

He wanted to be a novelist but tried to write some articles of research on his favourite subject; due to paucity of time he could not do anything as he liked. Likewise 17 years passed sans his notice and that gave him great pain and he uttered his feeling in a verse to his friend and that made his friend to the level of advising him to write poetry!

With the available time he started to write poetry from 1989 on. In 1992 he has completed writing 68 poems that in three years have become a compilation of a poetic anthology called Dreams, Ideas and Realities published by Halo Papers, India, which is the first of his Poetry Book he has published in 1996! Later the new edition of the Poetry Book, Dreams, Ideas and Realities was published by Minerva Press, UK in the year 2000. Then he wrote some poetry books under the titles such as The Vision of Life, Soaring High to Sublimity and so on!

From 2005 on he has become a website poetry writer. Thereafter everything has started to change and from 2008 onwards he has been writing poetry everyday sans fail! He has written about 80 English Books such as novel, short stories, non-fiction ones and poetry books and has become famous as World English Poet! His journey is still continuing in the World of Literature....!

Achievement Awards:

Thereafter he has been honoured with Awards such as Best English Book Author along with a title, Sourashtra Sri by Sourashtra Community Welfare Chamber (Sourashtra Samuga Nalapperavai) in 2005, elected as Poet of the Year 2010 for his fine philosophic poetry by the readers of , honoured with Special Commendation Award for Writer in English presented with Sourashtrian
Achievers Award trophy and a silver medallion by BVK-SITCON committee in 2013 for having written more than 70 books and also honoured with a prize of $250 for winning in Poetry Contest as one of the top three finalists in September 2013.

Anthologies and Videos:

Further his poems such as Perennial Philosophy (2008) and Birds of the Same Feather (2010), The Town Life (2009) and Love Life (2013) are published in Poetry Anthologies like The Enchanting Verses International and Conifers Call magazines and Fiesta of Love (Songs of Loving Hearts): and poems such as Colourful Flowers (2009) and Water of Life (2009) are released as Poetry Videos on  and . T A Ramesh was also honoured with the publication of two of his poems such as Passionate Longing of Rose and Singing Songs in Sonnet Long in Romanian language along with other poems of 14 poets on November 2014 in Geneza Visurilor, a Romanian Anthology of International Poetry by Dr. Marieta Maglas.

Ramesh T A
Progress Against All Odds!

National economic development shouldn't affect
Individuals in the name of social development....
As was being done in socialistic countries earlier!

Nation may develop slowly or not by politicians
Who are manipulating all things and for all their
Mistakes they impose tax on people to compensate!

This kind of governance has led the nation to spoils
Deceiving the people and the progressive individuals
Who would have managed all crises by themselves!

State administrative controls in democracy is causing
All progressive efforts retard making all suffer by its
Rulers till election comes to put an end to all their ills!

Administration is not just taxation at the expenses of all
Enterprising individuals for progress against all odds...!

Ramesh T A
Progress Of A Community In Danger!

All human affairs start with vainful utterances of tongue;
Half baked knowledge leading to sinful comments in life
Surely create many a problem resulting in dangerous wars
Whether it is money or matter or love or anything ever!

Cruel, mean and arrogant activities of the so called top
And elderly one who want to dominate and rule others in
The community has dragged down the progress of it forever;
Even then many want to indulge in dominating status long!

Educationally knowledgeable community only has the decency,
Dignity and decorum with a sense of shame, respect and
Conscience controlling one's behaviour in the world life;
Others are famous for blabbering as if they are leaders!

Foolishness of some, when placed in high place, leads the
Community in a dangerously wrong direction by mere blabbering
Words of gloomy mind and heart that mesmerize men in spell
And lead to the downfall of a community of good background!

But the free, frank and fearless criticisms of great souls
only can restore order and freshness of life in the diseased community that needs a incomparably able and better guide as Leader to mend the mistakes and escort all to progress soon!

Ramesh T A
Progress Of Man!

Intellect and imagination give power to go ahead
In the pursuits of man to know truth, joy in life!
Instinct helps much ever for animals to survive;
Intuition is a great boon to man to know all ever!

Seeing, hearing, smelling, tasting, feeling and thinking,
The six senses of man help to gain knowledge and live!
The seventh sense is intuiting by spiritual pursuits high
Making man superman to do many miracles in the world!

Intellectual thoughts, imagination, vision and dreams
Develop man his power of intuition in mystical venture
Under the influence of Nature while meditating high
Many a time in loneliness on long hours of indulgence!

Dimensional aspect of man's nature increases by progress
As he goes higher and higher soaring to sublimity in Nature!

Ramesh T A
Sans amusement or pleasure nothing seems to know
For many in the world of fast mechanical life for all!
Naturally, Epigrammatic expression serves well now
Creating vast opportunity for poetry to flourish ever!

Articles, stories and reviews take a lot of time to read!
Philosophy and history nobody seems to bother about;
But, when such matters too are expressed in poetry....,
It attracts all with amusement and instruction indeed!

This trend of poetic expression of all matters of subjects
In one is an art first initiated by Samuel Taylor Coleridge,
Whose living presence only inspired Wordsworth to shine
Venturing upon his own kind of poetry in world literature!

Prolific poetry has come into vogue to inform all all matters
Briefly, beautifully bringing adventure in words amusingly!

Ramesh T A
Promote World Peace By Love And Progress!

Hatred leads to wars and love inspires peace;
International peace cannot be promoted by just
Flying white pigeons high up in the wide sky,
But by spreading love to every corner of world!

Promotion of peace is possible by preservation
Of Nature, spread of humanism or human culture
And uniting all unions of world nations for the
Creation of One human world by human love only!

International peace can be achieved not by army
Frills among nations to protect world from wars
Nor by proliferation of Nuclear weapons but by
Promotion of friendship by development programmes!

World peace can be promoted by exchange of cultural
Activities promoting values of love and friendship
And their benefits for peace, prosperity and progress
Of all world people against poverty and unemployment!

Ramesh T A
Promotion Of Peace!

Power of muscle, gun and bomb in lieu of
Power of love, knowledge and God is being
Wielded by politicians, religionists and
Mafia or terrorist chiefs in the world..!

Without weapons, they will be fangless snakes,
It seems and this seems to be needed to be
Done to stop weapon culture in the world now
For the promotion of peace, unity and love!

Gun culture is heavy investment programme
Possible only by the wealthy guys anywhere;
The source of wealth needs to be curtailed
By the actions of authority to bring peace!

Only if the fang is removed, snake can ever
Become harmless to inject venom on anyone to
Kill or control for antisocial purposes sure;
When will authority take the bull by the horn?

Ramesh T A
Proper Diagnosis Important!

New found joy makes one forget
All the troubles faced earlier sure!
But the cause for the trouble must
Be known to face it bold next time!

Each has got one's own way to deal
All problems in the human world...!
But one common solution cannot be
Used for all to solve the problems...!

What's most important here is one
Should know or understand the thing
Before suggesting any solution to
Solve it to create freeness and joy...!

Without proper diagnosis nothing can
Ever be solved by any sophistication!

Ramesh T A
Pros And Cons!

Like ant caught between fire and water, humanity suffers caught Between feminism and male chauvinism longing for love forever! Like ruling party and opposition, many fight for and against things Like political parties that have mushroomed everywhere nowadays!

Man and woman are made for each other to live family life like the North Pole and South Pole are united by Earth for the survival of all! If the two poles fight against each other, there won't be Earth for all To live in love and beauty only union of two can provide forever....!

Can it be possible to eat sweet alone or hot things alone forever..? Can there be gain without pain or pleasure without pain in world life? Can sound be produced without clapping two hands or with one Hand only in the same way as united we stand and divided we fall?

Why are fingers provided in various sizes for everyone in the world? By converging them one can pick or throw away anything one likes! For everything, views for and against are necessary to know truth; It is why democracy has for and against views for good governance!

Ramesh T A
Pulling On The Days...!

Looking at the billions of stars twinkling
And the beautiful silence of the Universe
They talk kind words of love endless....!

Moon has travelled to the end of journey
The sign of coming sun is surely seen...!
They have to part before the day is bright
And so they kiss each other and say bye!

Days have gone unnoticed thereafter...
And the thoughts of love linger forever!
Their life is not just a dream to be ignored
But it's a reality they cannot forget forever!

When they can meet again nobody can say;
Their dream will surely be realised soon
And with that note they pull on the days...!

Ramesh T A
Puppets In The Hands Of Universal God!

There is no exception for the way of birth and death
For anyone in the world as none is permanent here..!
Every one's days are counted immediately after birth;
Not knowing this, what's the use of laughing or crying?

Laughter lasts for a while and cry cannot last longer;
This is the nature of all things in the world life here;
Knowing this, let us all mind our business for a finish
That is good and praiseworthy before leaving the world!

Before end comes, it is better to weigh and see how far
We have marched forward in our pursuit of our dreams...;
Just prolonging our cherished dreams is not enough and
Action taken based on our vision and ambition is better!

End of our life journey is not in our hand as we are just
Puppets in the hands of the Almighty the universal energy!

Ramesh T A
Purpose Of Beauty Is To Enjoy Pleasure!

Attractive beauty kick-starts urge to enjoy pleasure;
The pleasure of gazing beauty of Nature is fine ever;
Beauty kindles pleasure to do things better than before;
Longing to enjoy pleasure increases love of beauty ever!

Discipline, neatness, gentleness and sense of perfection
Every artistic mind does all creating beauty in everything
Quite attractive and kindling interest to all in the creator
To see with love all their creations with great anticipation!

Works of art, literature and creativity have beauty as the
Magic wand to amuse, inspire, enlighten and instruct all
To know, remember and follow ideas for betterment in life
As the highest aim in all expressions since a long time sure!

Art of beauty has been swaying the world for good and bad
By its attractive power to capture heart, mind and soul ever!
Without its existence there is no way man can have relief
From pain, physical, mental and spiritual in the world ever!

Ramesh T A
Purpose Of Identity Of Each One!

Similar names of two or more persons create confusion
In the minds of others, if initials are not mentioned;
If it is so, what can we say for the twins we see in
The World creating confusion as to who is who forever?

It is a boon for the mischief makers and frauds to do
All kinds of illegal things making responsible for the
Genuine one to answer to all unnecessary enquiries by
Authorities who put to great troubles such victims..!

Thieves and frauds always escape hoodwinking the police
As they become cause for confusion creation impossible
For many to detect easily the culprit and correct guys
In the vast world full of loophole laws for easy escape!

Perhaps due to identity purpose, each one is created with
Different attribute along with various finger prints ever!

Ramesh T A
Purpose Of Man To Become Machine Or Divine?

What is physically impossible, man is technologically doing;  
He is running, working and flying faster than physically ever  
In the modern world feeling proud of his civilization now!

Electrically and electronically man is making marvels now;  
All is done with electrical power generation utilizing coal,  
Fuel, water, nuclear fuel, solar energy and so on everywhere!

Machine and man go hand in hand and also in competition and  
So, man loses human touch already and now involving much with  
Computer works and games, man's brain works as is computer way!

Nature, culture and humanism are all have become matters of  
Past history and literature as they are of no use materially  
And can't make money out of them for everyday benefit and use!

Purpose of man is, after evolving from animal, to become super  
Human towards divine being but not one among many machines ever!

Ramesh T A
Pursuit Of A Dream To Sure Success!

Achievements in art or any field begins first as a dream;
Before one actually indulges in serious pursuit of one's aim,
Cross examination by introspection and retrospection begins
Directly or indirectly making an easy looking dream an abyss!

Every character has a time to play one's role, but not ever;
Full time pursuit of one's dream is a boon one enjoys in life;
Good, bad and ugly play their parts in one's adventure too;
High and low in social levels accordingly have their own mess!

Initially started projects make look beautiful and wonderful;
just when the interest develops interferences block all paces;
Keeping in touch with the cherished dream shouldn't be lost;
Long pursuit of dream after a long travail only looks bright!

Multi-faceted talent of one gives variety of ideas to proceed;
Noble intention of great dream cannot become a farce in anyway;
Oblivious times will dishearten the pursuits of a good intention;
Powerful expression only makes pursuits push forward somehow!

Quite a formidable hurdles have to be surmounted to see plains;
Restoring to normal mode of pursuit makes all good on smooth way;
Sure way to success depends on strong will and concentrated focus;
Target of aim can be hit only by concentrated mind on the centre!

United effort of heart, mind and spirit shouldn't be let loose;
Vagaries of life surely make one lose one's heart now and then;
Winning the goal post by full effort only fulfil one's dream..!

X and Y may start but not continue to the end to complete project;
Years of strenuous preparation and pursuits only lead to end point;
Zealous mood seeing the winning post cheers one to see laurel sure!

Ramesh T A
Pyramids And Valleys!

Pyramids and valleys are crests and troughs
Kindling curiosity of men of various natures!
Pyramid immediately reminds of Egypt first,
Then Mexico and South America of world ever!

Mystery of mummies preserved therein and
Thoughts of aliens coming anytime there
And many more precious ideas evolve ever
Making man wonder at ancient civilisation!

If pyramids' top points point at heaven
Valleys point at abysses to mystery world
Man is ever enticed to engross in imagination!

Romantic nature kindles great pleasure ever
At the sight of twin pyramids and Valleys
Making men forget present world for relief..!

Ramesh T A
Quality Of Education Depends On Dedicated Teachers!

Teachers are personification of knowledge full of wisdom;
They are responsible for building character and manners
With discipline to all lifting them up in any profession;
Like Vivekananda and Valluvar, they make all wise by words!

Such teachers have become rare as new recruits are not
Up to the mark to take the position of great teachers we
All cherish most in heart and the quality of education has
Come down as education has become like any other business!

Discipline, knowledge, character and skill are out of
Order now with youngsters who aspire for high pay jobs
BY boosting business of big companies with clever and
cunningness in marketing products sans quality in public!

Reforms in education with dedicated teachers only poor
Educational standard can be revived whether the nation is
civilized or cultured in the modern material world that
Gives importance to technology and economy sans any sense!

Ramesh T A
Queen Of Hearts!

For all people she is the queen of hearts!
She sways everyone by beauty and love;
Cynosure she becomes wherever she is;
There is no one who can be against her.

Whether it is beauty contest or anything
She is sure card to succeed all by her will!
She loves beauty of Nature and poetry
Full of ideas taking one to new dimensions!

Love and Nature are themes she dwells in
To find best pearls diving deep in ocean of
Literature quite rare nowadays anywhere!
She has deep interest only in poet of Nature.

That Nature poet gives her inspiration to do
Great feat in poetry since long, no one knows!

Ramesh T A
Questions About Aliens?

Is evolution of man manipulated by intervention of Aliens?  
Or God has created man in His image with heart and mind?  
Are the ghosts of the past replaced by Aliens of today?  
Can there be clues available in the pyramids of the world?

Have we got the answers for the all questions we have here?  
Have we achieved scientific marvel Aliens achieved long ago?  
Will there be any sign of Aliens returning to Earth sooner?  
Can man excel Aliens in intelligence, inventions and all...?

Are stories about Aliens mere hoaxes or facts all rely on?  
Why are Aliens silent to our broadcasting of signals to them?  
Have they not developed the communication technology of man?  
Why are the Aliens playing hide and seek games of and on...?

Will there be an end to all those mysterious happenings ever?  
Will we get answers to all the questions lingering in mind?

Ramesh T A
Radiance By Its Attraction Sustains All!

Radiance is bright radiating light from powerful source of energy
Like Sun, Stars, Star galaxies we all see in the night from far off!
Radiance is simply means brightness of Star or face of personalities
With high spirit and beauty fresh as newly bloomed flower we know!

Bright radiating energy emitted by powerful Star activates all planets
And the animate and inanimate things and beings in the world we live in;
The radiance is a lasting light source of energy by its gravitational
Force attracts all weaker planets and Stars too under it in orbits ever!

Radiance of Sun blossoms and blooms the flowers with smiling brightness
That attracts by an unique beauty no one can escape once one sees them;
This natural phenomenon is unique wonder that keeps all Stars in balance
Connected with each other by gravitational force produced by radiation!

Radiance simply is an unique beauty with attractive force from a source
Of great energy that attracts all, sustains all and survives all forever!

Ramesh T A
Rain Has Come!

Slowly but surely rain too has come in the night!
A steady rain lasting for some hours has cooled
All floors, buildings and roads of the town well!

Rain means, it should fall like this for sometime;
Then only all will be satisfied by the fall of rain!
If rains come so in the monsoon time, all will be
Surely benefited; otherwise, it will be useless sure!

More than rain falling in the town, it should fall
In the nearby villages, farms and agricultural fields
So that rich crop can be expected to grow for harvest;
But if it falls in the town, all go waste only to the sea!

Monsoon rain is useful in Western Ghats and North,
If it is South-West one, but if it is North-East one,
Then Eastern areas will be much benefited sure ever!

Ramesh T A
Rain Play!

Rain comes
But plays hide and seek long
Till all lose hope!

Ramesh T A
Rain Sure In Dreams!

Very hot day it is indeed!
Only green avenue trees
Give relief to eyes to see..!

No one likes to go out
Unless some work's there!
Only in the evening
After Sunset it's nice
To see out world life!

We look at the Sky
If there's some clouds;
For, that will give
Some hope to feel
That there will be rain!

In the night we look up
To see whether rain comes
Or not expecting it much!

If rain comes there's
Much relief to feel..!

Otherwise, with hope
We sleep to see rain
Not in the night
But sure in dreams!

Ramesh T A
Rain, The Water Of Life!

Without two monsoon rains life cannot go on;
For, sans rain where is water of life for survival?
All living beings in the world are products of
Water of life by evolution and also for survival!

Trees bring rain, give shade and make all live
Welcoming all by their fragrant flowers ever
And giving sweetly fruits of minerals for all
To fight all bacteria to live by immunity ever!

Water and food for survival and energy ever
Help all live forever in this world unique in the
Whole of Universe full of many Stars and planets
To wonder and think of life still a mystery for all!

Rain brings pure water to drink and live long…
Facilitating agriculture to produce food and all!

Ramesh T A
Rare Book Reading Public!

Only printed books seem to have authenticity
Whatever be the form of writing by anyone
Anywhere in the world of writing even today
After all writings of authors are getting
Published in various websites world wide..!

In spite of this development in writing field,
The readers are very rare as they have no time
To read books even though many best works of
Great writers are available on internet making
The efforts of authors as water wasted on weeds!

This is the fate for the languages being used
By Computer websites means what can we say about
The languages that have not popular support even
From communities that have them as mother tongues?

Ramesh T A
Rare Delight Summer Rain Is!

Night rain is unexpected after the hot day;
More than an hour rain fall has lasted
Drenching roads, all roofs and buildings!

Rain water has stagnated in some places;
Joyfully drenching in the rain water people
Have had a nice time in the beach and park!

Such kind of Summer rain is a great delight
Indeed for the people not having much rain in
All the year usual in the coastal areas sure...!

This unexpected rain has confined all shoppers
In the shops they are looking for their favourite
Items to purchase for important occasions here!

Sudden surprise by rain or wind Nature really
Engages in delights now and then though rare!

Ramesh T A
Rare Seeing Rare Achievements!

Only one of a kind one can earn a place of one's own
In the field one is best at making a mark in the world
Dedicated, devoted, diligent and determined forever!

There is a special place for such a one anywhere sure
Being a rare person to do great achievement in life in
The chosen field from the beginning to the end sans fail!

The single resolution taken at the earliest age itself and
The concentrated focus on the occupation against all odds
And hurdles is indeed rare to see in this mechanical world!

Creativity is a God given gift perhaps only to a few chosen
Ones seeing the light of the day by rare chance in the world
Sooner or later and sometimes better late than never to be sure!

Seeing such marvels from rare persons of great feat are a great
Fortune for the society so to say when world is going after fakes!

Ramesh T A
Rare Treasures!

Poems in plenty get published on poetry websites
Like flowers that bloom in thousands in the garden!
Only flowers like rose, lily, lotus, jasmine and sunflower
Seem to be seen by many with appreciations by many!

Among them there are some rare orchids too hidden
Among the creepers, green plants and green meadows!
Medicinal power of such rare flowers like real poems
Only surely cure the ills of society to live in health long!

Such great flowers sometimes seem to be like the fine
And choicest flowers bloom and fade away in deserts
Unnoticed and uncared for by long time and seen only
By travelers going on strong camels to cross the deserts!

Travelers like Marco Polo or some Magellan only have
Revealed all the great and rich treasurers rare to world!

Ramesh T A
Reaction After Cyclonic Storms In 2018!

Cyclonic storms in 2018 have destroyed lakhs and lakhs
Of coconut and other trees, houses in towns and villages;
Normalization seems to take place after quite a longtime;
People's subsistence for survival is totally erased now!

Agricultural development of the nation is not taken care of,
New government is also following the same economic route
Unsuccessfully followed by previous one and has not made
Any economic change for the better and prospered people..!

The wrong route of the government has provoked great wrath
In people making them show their great reaction of opposition
In the State elections giving the hint that even in the general
Election too same reaction will be shown by all everywhere..!

Cyclonic storms have provoked people's wrath against the
government's wrong policy and total displeasure on them!

Ramesh T A
Real Beauty In Life!

Love is real beauty in human behaviour;
But many see love and beauty as separate
Swayed by the painted veil among us...!

As long as people are there like dogs
With tongue hanging out with saliva
Hanging down to the earth seeing veils!

Carried away by artificial beauty, many
Lose love in real life not knowing its fine
Beauty nothing can excel in the world!

But, what to do, the world under the grip
Of maya lose all in the illusion ever till
Realization comes to one at the end of life!

True beauty lies in natural love of human....
Reflecting divine grace to be cherished in life!

Ramesh T A
Real Beauty Is Natural!

Artificial makeup never brings real beauty to one;  
Real beauty lies in true colour of naturalness only!  
All dyed dress or hair never has a permanent hue to  
Make one truly beautiful before the eyes of all ever!

The glittering charm of gorgeous beauty lasts not  
As permanent as the natural beauty of a person sure;  
Artificial beauty is the drama of real life for show only  
By artists to transport all imaginatively to fictional time!

The makeup is erased immediately after the show, as  
Its chemical effect is harmful to the health of skin sure!  
Makeup and dress style are not forever to make one look  
Beautiful, but for the time being only unlike natural one!

Natural beauty is truth that only can give real joy forever;  
But artificial beauty is false one to bring temporary joy only  
That kindles cheers for a while in the world of imagination  
That can never become a reality in life however hard one tries!

Ramesh T A
Real Bliss In Life!

Like night and day, rain and sunshine come
Like winter and summer or spring and autumn
To balance all seasons everyday and months
In all the years we have seen before as of now!

The balancing act of Nature is unique and apt
According to the season and necessity sans fail!
The change is interesting and refreshing all sure
Whether it is harsh or pleasant all round the year!

Man may fail to appreciate Nature being ever
Overwhelmed by his scientific and technological
Advancement in pursuit of mere materialism
For comforts and easy way of life of civilization!

But it is only in harmony with Nature, man lives
Real life of satisfaction, peace and bliss forever....!

Ramesh T A
Development of a language depends upon words for all things;
Basic things should be represented by words of that language
And for advanced matters, words of world language can be there;
A developed language only has maximum words for all things..!

A spoken language with officially accepted script can be adopted
For speaking, reading and writing purposes with coining of new
Words and addition of advanced words as is stipulated earlier by
Draining out other language words with proper measures by all..!

If a language is very old and the style of alphabets are difficult
To write as modern languages, they all have to be reformed or
Modified so as to enable the users sans any difficulty whatsoever;
Then only a language can have easy access by all for future use!

Sans understanding these fundamental things, there is no point in
Promoting a script not having separate identity and acceptable by
All as there won’t be many takers of such a language for any use
When it has no public use already as populations is dissipated..!

Ramesh T A
Real Education!

Enthusiasm out of creativity increases interest,
Confidence and power based on the knowledge
One has gained through education earlier in life!

Pursuit of knowledge towards ultimate reality
Indeed makes one erudite and full of wisdom in
All expressions of one's creative work in the world!

Years of education that does not kindle creativity, but
Just issues recognition as educated is one that is not
Knowledge oriented but only mark oriented education!

Due to mark oriented education many are unemployable
For any job making them pursue further education to make
Their knowledge strong to get job with some training later!

Only persons of creativity can do best things as self employed
But, merely educated ones can shine only if they are employed!

Ramesh T A
Real Freedom Lies In Natureal Way Of Life Only!

Relaxation, rest and freedom are what is needed
From stay put up in one place with fixed work
Nonstop for months together to have joy and peace
To renew our body, mind and soul to live life well!

Artificial and mechanical way of life has become
Modern culture to follow to be civilized in the world
Full of uncertainty no one can escape however all
Facilities by technology may offer to all men ever!

Natural feeling, natural way of life and natural place
Of habitation only can relieve one of all odd obligation
Got fixed for the involved souls to attend to ever
By hook or by crook to filfil target fixed to be free!

Whatever facilities or comforts one may have in the world;
But sans freedom to live a natural life is not real and
Artificial only that all have to shun and abhor to live
A best and beautiful life in Nature in a natural way sure!

Ramesh T A
Real Freedom!

Real Freedom!

Achieving freedom from foreign rule
A nation gets independence finally!
It is indeed a great feat possible by
The unity of people under a leader!

If all works are done based on plan
Fixed on the basis of a whole vision
Inspired by heart and controlled by
Mind, one can achieve freedom sure!

More than national freedom, one's
Liberty to maintain independence
Surely is very important anywhere,
If one wants to be an individual ever!

Real freedom indeed lies in individual's
Independence anywhere in the world!

Ramesh T A
Real Fulfilment In Life!

Sages, yogis and seers are exceptional beings ever;
But, for all beings, sans sensual satisfaction,
Nothing can be achieved in the world life sure!

This is the findings of great psychologists in
The world all pay attention to in human life now
More than before as many are living individual life!

Nuclear families have come up everywhere breaking
From joint families functioning as great tree full
Of many branches in the past with some exceptions now!

Real love was visible then, but now, only lust is
There or abstaining from sexual life is as if it is
Not necessary for living a wholesome and complete life!

Physical, intellectual and spiritual fulfilment of life
Is necessary with importance given to physical one first!

Ramesh T A
Real Leader Never Aspires For Power!

Real and natural leader never aspires to power to dominate others;
Only selfish minded ones capture it by corruption to divide and rule all;
To bring justice to people, real leader rises to the occasion to power;
Otherwise, there is no need for him to be in power to serve people!

It is people who have to find out such a leader to power to govern nation;
People need education, knowledge and will to bring such a one to power;
That day only a nation can hope for real development in all walks of life;
Otherwise, only wrong persons will be in power to loot the wealth of nation!

Due to wrong choice of leaders in power, all suffer by monumental mismanagement;
The novice kind of leaders experiment all things to know about the way to rule;
By the time, they learn anything worthwhile, a great lot of sufferings all endure;
Politically, economically and socially all cannot have upliftment at all for long!

Unless the right leader rises to the occasion to set-right setbacks, nation
And people suffer economically and socially sans any change as in the regime of Tuglakh who was prosperous in power, but after power, nation was in same status
Quo as in the past sans any sign of development showing nil balance of revenue!

Ramesh T A
Real Love Only Endures Till The End!

Is love an easy affair to practise in real life today?
Unless one is mad, one can’t go after another soul ever;
Love of fancy does not last longer leading to anywhere;
Only real love has the power of endurance to last longer!

Quick love and marriage lead to quick divorce and ends;
Love based on material benefits go on till benefit is;
Such a love cannot be called so in real sense of word;
It is only madness of dreamer fascinated by fancy only!

Love of mutual agreement of hearts, endures all storms
Both in sorrow and joy following give and take system;
Benefits or no benefits, such kind of love only can ever
Go a long way in the world life full of uncertainties!

Such kind of real love only gives company to one to the
End of life and supports one’s venture to success sure!

Ramesh T A
Real Medals Of A Great Poet!

Words full of profound power, awesome, mighty ink, excellent Writings, great write and such praises decorate a natural, real, Poet just as the medals embellish the uniform of an army general!

With the comment of him as iconic poet as the feather on his cap By another awe struck activist poet working for peace and culture In another continent and many others praise with high regards!

These high praises come to him for his poetry that inspires ever All with high spirit to go ahead with full vigour and vitality... To achieve great laurels bringing honour to one and humanity!

In the world that can buy anything with money also witnesses Some indulging in getting honour in great function with some Payment of funds to some dignitaries known to be popular...!

A great natural poet cannot be one among such spurious ones Due to lack of funds in one's bank account, but in hearts of all!

Ramesh T A
Realism Is Reflection Of Modern World Life!

incidences taking place before us and what we see happening
In the world, when expressed as stories, movies, novels, poems,
Newspaper magazine articles, denote realism in modern literature!

Realism is photo pictures of all happenings listed in categories
In an album exposing naked truth by seeing things as they really
Are without even a postage stamp space to hide from public eyes!

Realism is modern version of literature starting from classicism
Of highest quality going down by symbolism to romanticism and then
To naturalism, surrealism and modern formal form of realism now..!

Realism is all what realistic things of human life and world in it
We are all part and parcel of characters playing various roles in
All walks of life as in a Shakespearean drama of world stage ever!

Realism is a mirror of human world and life reflected as images
As perfect as real pictures of characters we all see everywhere!

Ramesh T A
Realistic Dream Life Is For The Faithful!

Divine spirit present in all things of Nature attracts all
Lonely souls, solaces, inspires and reveals truths to build
Confidence, courage and enthusiasm renewing spirit within
To perform things based on vision about the whole picture!

All things of beauty in Nature reflect divine beauty ever;
All music and sound of Nature are the echoing voice of God
And the miracles happening everywhere are the works of God
That make all feel the living presence before our own eyes!

When such wonderful things are happening as open secret
Before our own eyes, why still many doubt about His existence
And feel sad and worry about negative things more than all
Positive things happening to give us hope now and then ever!

Faith based on truth if we are sure about in world life,
That will surely make all things end well as in a dream!

Ramesh T A
Reality Or Illusion?

Trees, birds, fish and all beings -  
Are they all just a stuff of dream?  
Are they all just a thing of shadow?

All things we see everywhere -  
Are they all a mean illusion only?  
Are they all meaningless ones?

Storms smash and blow them all!  
Not even their imprint is seen now!  
Reality once has become illusion now!

Our life also becomes so after death;  
Not even single things of us remain  
If storm destroys lives and properties!

Like a bubble our Earth floats in Universe  
And know not when it will become illusion!

Ramesh T A
Realization Of Spirit!

Just as Space and Time are eternal, soul is also so;
But their existence cannot be felt or realized ever
Unless we think about Stars, Moon and Sun of Sky
Or we think about the time between birth and death
Or we actually see birth or death of a person in life!

In the same manner, the existence of Universal spirit
Also cannot be felt unless realized by experience in life!
Feeling of pain and pleasure, dreams, imagination and
All thinking and intuitional aspects are the works of body
Conscious of by brain wherein soul exists and activates all!

Mystically, Self in communion with the all pervading Spirit
In Nature, divine bliss is enjoyed and this experience only
Surely gives realization of Universal Spirit activating all
Animate and inanimate beings everywhere in the universe!

Ramesh T A
Realization Of Truh Necessary For Remedy!

Grim realities of the world, however high we have developed
Economically and scientifically, keep us under the control
Of fear and make us do all works in competition with time..!

The reason behind this state of affairs is the education
System that has introduced no link between science and
Literature, economy and sociology, technology and humanities!

Also, as there is no connection between religion and science,
Religion is blind sans science and science is lame sans religion
Making easy for extremists to terrorize humanity by bomb blasts!

Jihad supposed to be internal purification has been distorted
As holy-war by religious bigots and indulge in creating panic
In the society to the extent of inserting love jihad to rule all!

All should realize wisdom is more important than intelligence
And imagination and vision of the whole is better than intellect!

Ramesh T A
Realization!

Logic can't solve all

Intuition tells unknown

But realization say truth!

Ramesh T A
Realize Reality Of The World For The Good!

Sans knowing the precarious condition of Earth
Due to climate change caused by man-made pollution,
The fanatical terrorists are causing troubles in
Some countries of the world makes all blink as to
How to make them realize reality of human existence
In the changed bad situation of the world at all...!

Before their own eyes long droughts, sudden cloud
Bursting rains causing biggest floods, earthquakes
Triggering tsunamis and volcanic eruptions are not
Bringing their senses to know the real danger of the
World surely leading to its total annihilation by
Expanded forest fire and blast by Earth's methane gas!

First religious fanaticism should be trashed out and
Jingoism of superpower should be curtailed by world!

Ramesh T A
Realizing Dreams Of Utopia!

Dreams of Utopia are the expressions of great romantic personalities. We can say are Thomas More, Francis Bacon, Lord Tennyson, H G Wells, and so on since the Shakespearean time to modern time supported by scientists like Albert Einstein and intellectuals like Aldous Huxley!

The modern version of Utopia is the United Nations Organization, a modified form of The League of Nations formed after World War I to maintain peace, alleviate poverty, and cherish humanity by giving aids collecting funds from the advanced and developed countries...!

Even then, wars are there in a new version called terrorism threatening world peace, human culture, and civilization being followed by all world nations developed and developing based on modern educator and technology needing to be protected by collective efforts of all nations as one...!

To make dreams of high human mind into realities, ideas of romantic poets are of great aid and assistance sure needing support by all!

Ramesh T A
Reason Or Rhyme!

There is no reason or rhyme in what you say!
It is generally said of a matter not understood;
People are interested in something with reason;
Otherwise, at least matter should be rhyming.

It is like music that is interesting to listen whether
It is understood or not by the listeners of the tune!
Rhyme is like the beauty and smile that conceal
Something others should not notice somehow....!

Rhyme is like sound of music that entertains one
Whether it has any message to say or idea vital!
Many a philosophic matter is neglected because
It is not expressed in an interesting manner ever!

Like rhyme in poetry beauty of a person makes
All blind to note the meaning of a matter ever...!

Ramesh T A
Recharging Lost Spirit!

Reviving lost spirit is getting up after falling down;
It is surely paradise regained after paradise is lost!
Cheerful mood and free state of mind come only
When one forgets oneself in something wonderful!

What is wonderful and attractive forever in world
One can find is only in all absorbing beauty of Nature
Or man's creation of arts like painting, music, plays
Or Poetry that inspire, absorb and provoke thoughts!

For all such diversions one should have influence from
Love of a friend or beloved who is trustworthy to one!
If not, only book or movie can inspire one to oneself
Rejuvenating mood towards a thing that renews spirit!

When once one has regained lost spirit, it would be
Like well recharged engine that runs efficiently well!

Ramesh T A
Recognition Of One's Valour!

Destiny of everyone is decided by the decree of God...;
According to one's destiny, fate lays the course of life;
Despite knowledge of work and hard work, many don't shine;
But after a long trial and travail, success one may see!

It is like getting opportunity to enjoy sensuous pleasure
After one has reached the fag end of one's world life sure;
Knowing the futility of one's attempt, many forget the award
Or reward one may get at that time of life by a rare chance!

Recognition at the last stage of life is a small consolation
For efforts one has strenuously taken through out one's life;
Even if the consolation is missed due to carelessness, some
Complaint about the partiality by juries and go ahead further!

Efforts taken should be based on smart move, if one wants public
Recognition of one's valour in any field of life in this world!

Ramesh T A
Recovering Health!

Recovering from sickness is not enough;
Recovering normal health is most needed
To do effectively all things once again....!

Otherwise, it's just prolonging time here
Expecting and waiting for the end sans
Without any change in the destiny sure!

It is like old age people’s life in this world
Just mechanically doing things as routine
To pass the time and take rest everyday....!

Nothing new, creative and imaginative
Based on best thoughts to inspire and guide
All to a golden time all love to see someday!

Healthy or not, being creative is the mark of
Energy, vibrancy, potentiality of a person sure!

Ramesh T A
Recovering The Last Mood Again!

A day without usual work seems to be a worthless one;
Travels, functions and such engagements take lion's share
Leaving no chance for minding usual life work even an iota;
This is what happening for one day's holiday from work!

Likewise many days have we lost doing worthless things;
Realization has led to doing compensation to recover the
Last days from unnecessary wasteful use of time before;
That gives a sense of redemption and rejuvenaion of spirit!

Away from our usual worthy works makes one's spiritless sure;
The earlier we return from our such an engagement seems better
To recover the last best of mood of self on the regular path;
All by mental adjustment all things can be recovered damn sure!

Holidays or engagements or functions, they are immaterial in a
Person of great ambition, noble purpose of life and high spirit!

Ramesh T A
Recycle For Better!

Hot and cool the day and night feature
Themselves balancing the aspects of Nature despite climate change affecting One and all all over the world in these Days by El Nino and La Nina effects One after the other with full Moons Coming in miniature and mega sizes Making all curious to know about Nature Much more better than before so as to Make all aware of its good and bad Natures better than before and warns All to be careful if they have plans to Exploit natural resources without any Thoughts of recycling them for better!

Ramesh T A
Reequipping Lost Mood!

Cheerful mood to do anything of great interest, if distracted and
Spoiled by untoward occurrences everyday, will provoke irritation
Leading to dissatisfaction unlike in other occupation all are ever
Engaged with in the day today activities in all walks of life sure...!

A person of such a situation, if no chance helps to change for the
Better, it makes the world a hell one has to deal with rather than
Doing something for the satisfaction of the heart and such a one
Surely will resort to a lonely place for recouping oneself better...!

Such a place of peace one can get nowhere but only in Nature
Full of beautiful things that can absorb heart, mind and soul to
Turn a worn out soul into an enthusiastic being forgetting all the
Losses of life to start one's most avowed art to come into play....!

Expressions of such a reequipped soul can be ever poetry only
That only has the power to touch hearts and inspire all high sure!

Ramesh T A
Reforms For Advancement Of A Language!

Many have to know about the question - what is language? Language is just a medium to convey one's ideas to others; But fanatics religiously say so many things and fight ever As if identity of one's community will be lost by change!

Changes are common for all things including man's body; According to changes of time, reforms are needed to make Language and personality updated to develop commuknity Paving the way for prosperity and progress as imperative!

Some fight with cock-sureness that changes in script and Lipi would alter language's independent identity and make It easy to replace it with some other language sooner or Later making it an inferior language compared to others!

The more reforms are made, the more language will be better In use along with scientific and literary developments Enriching vocabulary of the language and guaranteeing its Longevity in competition with other advanced languages sure!

Ramesh T A
Reforms Of Religions Help Evolution For The Better!

Religion of a nation has to be respected,  
But not at the cost of other religions...!  
No religion should be imposed on others  
Making it the great and best in the world!

Every religion evolves itself in the course  
Of time according to the advancement of each  
One's knowledge, but a fixed religion is ever  
A stagnant water poisonous to all anywhere!

Rigid religious cultures based on knowledge  
Of modern world should relax themselves by  
Suitable reforms in accordance with a culture  
Of civilization that is friendly to all people!

Many disputes, differences and cultures of all  
Religions can then be sorted out so for the  
Good of all and better of the modern world and  
Its way of living based on knowledge and love!

Ramesh T A
Regaining Old Charm Once Again!

When we meet friends, we become young again in life;
Retirement and old age are all fully forgotten then;
Our talks go back to the college days, we have enjoyed;
The zeal and enthusiasm we have had gets revival again!

Age does not make us old, but our thoughts make us so;
Thoughts of remembrance frozen in heart, when melted,
We are regaining our old charm of youth once again so
To play the part we have played at that time of our life!

Many players may be missing on the stage as they have
Gone to the other world very soon in course of their life;
But the remaining lot again bring back the old memories
Fresh as newly bloomed flowers one by one to regain self!

But for the unfortunate ones, social clubs and the latest
Social media give another chance to regain old charm now!

Ramesh T A
Regaining Old Glory Of A Sea Port!

Historically noted erstwhile sea port of a small town
Now looks like a deserted one due to the old pier has
Been eroded by storms and change of sea status long!

In the old times ships were coming very close to the pier
And loading and unloading of goods were taking place
Connecting the French colony with the European towns!

Old glory of thriving trade is no more seen and possible;
Now the beach with the distorted coastal area vulnerable
To storms and heavy rain is standing just as a tourist place!

Even to improve tourism connectivity by sea, air, road and
Also rail needs to be implemented underscoring the need
For infrastructural development to make it again a best place!

Unless the persons in power take initiative to improve the
Status of the sea port nothing worthwhile is possible there!

Ramesh T A
Regaining Power To Create Wonders!

A place of natural scenes is where peace lives;
Mind cools down to serenity to breathe free air
Deprived of all tensions and worries for a while!

What a change we get once we are in the bosom of
Nature like the child getting comforts in the arms of
Mother after shackling ties with strangers after long!

Breathing fresh air, we get the mood to face anything
That kindles curiosity and accumulates all woes of.....
All kinds of unwanted things, thoughts and threats sure!

Freeing ourselves of all unnecessary ideas by the spell of
Nature, we really enjoy freedom to indulge in our world of
Great dreams of desires to direct our energy to create wonders!

Only with this kind of facility in outside world of our occupation,
We regain our powers that lay in waste unknown and untried!

Ramesh T A
Rehabilitating The Frustrated Souls!

Pleasure of doing things we like brings joy and satisfaction
In life full of frustrating and irritating things we bear..;
The relief and peace of mind we get out of doing things of
Big interest is boon or fortunate moment in life damn sure!

If life goes on odd and time testing works of no value or
Any benefit in any way but has to be done being an obligatory
One, our life seems to be worthless and waste of time without
Satisfaction and pleasure to enjoy entertainment at time...!

With no time to enjoy any pleasure even after doing works long,
Life is no use to live on so and no way to have pacification by
Any means but simply doing things for the sake of doing will never
Bring any cheers and no way to have any pleasure to forget all..!

There comes a role for love to play to rehabilitate the frustrated
Souls by social service institutions like clubs through smart phones
To bring relief in some way by visual entertainments of inspiring
Stars of Pop songs and soul healing Nature beauties created by artists!

Ramesh T A
Rejuvenation Of Self In Something New!

Tragedy after tragedy make one fed up with life sure;
The only way out of this impasse will be entertainment
That can divert one's mind to something never tried;
Aesthetic pleasure in Art and Nature is the choice.!

Beautiful expression of heart touching ideas in Art
Surely captures one's attention and gives new mood
In pursuit of unexplored regions of interest in heart
Kindling pleasure to experience joyful state sure!

After a mishap in life, indeed a new life is started
Again for anyone to proceed to forget tragic past and
Indulge in pleasure of enjoying something new in Nature
That may give a sense of fulfilment and satisfaction!

Knowledge and love in something new gives freedom to
Enjoy pleasure unique that will give joy and peace sure!

Ramesh T A
Relax And Write!

Yes, you can speak
As you wish
As you sing!

Singing relaxes
Everyone to be free!

Dancing entertains
For a short time
Till tension disappears!

Then write poems
To share your joys
With friends ever!

Ramesh T A
Relentless Efforts Shine Best Ever!

Relentless Efforts Shine Best Ever!

A lot seems to be done as duty by artists ever!
Before seeing any profit or loss, poets write a lot;
Caring for the best ideas to be known to all they do
Duty to fulfil their urge to put forth truths and drawbacks!

Ever ready to express matters day and night they work;
For, all changes for the best they have initiate first ever;
Gathering all beautiful and beneficial things they cheer all
However adverse or favourable they may be placed to do so!

Iconic status they enjoy amidst adverse situations always
Joyfully enjoying the parts they are playing anywhere sure!
Keeping all pains hidden within, they offer best thoughts only
Lovingly for the amusement and satisfaction of all people ever!

Moments of great achievements in their lives are very common;
Nothing they feel even such things happen in their lives as they
Openly face brickbats and bouquets of flowers alternately ever
Patiently bearing both good and bad in the way for higher level!

Quietly such great artists surmount all hurdles and hills to face
Regularly highest mountains too in the world society to unearth
Serious ills and all to tackle the best they can to bring peace,
Truth and joy to good and sincere people to survive successfully!

Universal brotherhood, love, friendship and progress are they
Verily aspire top most to see ever prevail in the human society
World lives in dreams and reality to happen now or later sure!

X or Y there may be as drawbacks but that can be solved as
Years go on in pursuit of such goals of great value all aspire;
Zealous mood, but, can't diminish ever all their efforts sure!

Ramesh T A
Relentless November Rain!

Waiting for friend's response I browse on
The Computer late night after the current
Has come as rain is heavily lashing out...!

Staying in one top flat it's difficult to go out
Anywhere due to rain water clogging as a
Great flood on all the main roads of metro!

Such a heavy rain comes only once in a
Blue moon and happens now in the city
Making all have a trying time in winter!

Sophistication of civilization has got nothing
To do with Nature's way of movement ever,
It seems, seeing the heavy down pour of rain!

Cyclone prone weather when becomes slow
Rain falls in profusion relentlessly in November!

Ramesh T A
Relief By Nature!

Blue Sky, green grassland and violet flowers
Keep the eye cool and the heart light in delight!
What a beautiful atmosphere it is to give peace
Everyone is longing for in this world full of chaos!

Sans Nature, beauties and music, there's no chance
To get peace of mind when needed much nowadays!
Being part of Nature and advancing in technology,
Man has lost peace by politics and bureaucracy ever!

Sans rectifying drawbacks of previous governance,
New govt. can't go ahead by sudden changes putting
People in hardships new unmindful of external dangers
Suddenly intruding in the day today affairs of all sure!

As in Chess game, for every move, careful planning
With the visualization of overall moves have to be done
Before jumping into some conclusion to go forward
To avoid pitfalls into the abyss in the darkness ahead...!

After getting into quagmire, getting out is the first thing
All have to think about before drowning permanently...!
Next, the tension built by uncertainties due to the first one
Surely makes one lose peace of mind needing relief by Nature!

Ramesh T A
Relief In Ever Absorbing Nature!

When everything seems to be useless I seek relief in Nature.

Nature absorbs mind by its beauty fresh and glorious
Through flowers of various hues and fragrance forever,
Through green grass fields along with passing brook,
Through cascading water falls from high hills to plains,
Through twinkling Stars with Moon at the cenre of Sky,
Through ever changing colours of Sky at dawn and dusk,
Through birds of various kinds colourful and musical ever,
And through snow mountains with unique calmness ever!

Recollecting our experiences in such aesthetic scenes of Nature
It's possible to get peace of mind and cheerful mood once again!

Heart enjoys joy and bliss being long in the presence of such
Awesome beauty quite grand and unique open to all forever
To transport to a world mystically divine and elevating spirit!

Ramesh T A
Relief Measures After Floods!

After the floods all places are being restored as they are
Before with encroachments removed and new houses are
Carefully built for the poor people to proceed with works
Dear to their livelihood and usual way of life they like!

Everything is being done on a war-footing, it seems, with
Full of improvisations made for their progress to be effective;
Good prospects are surely waiting in store for the people!
Houses perfect for residence and living are made well.

Improvements are made for averting floods on river banks;
Justice is rendered for the stranded people all over the places
Keeping them well fed during floods and engaging them with
Lively-hood they are in need are well planned and done sure!

Many heave a sigh of relief for relief and rehabilitation works
Never even imagining that such things could be possible so soon!
Openly they all praise the administration's quick activities.

Perspective of relief measures and provisions for re-life are nice and
Quite amazing, when people were stranded with nothing in hand!
Resorting their regular way of life is indeed a great job of govt.

So many hurdles are surmounted by the assistance of govt. they feel;
That truly they all praise with thanks right from their hearts!
Unanimously all have come forward to offer voluntary services.

Very interesting and very good attitude of people has helped much
With great expectations of solving the needy's aspirations thereof.
X or Y or Z has not said anything contrary to their expectations;
Yearnings of long felt needs of people are fulfilled as blessing in disguise;
Zeal focus on all things are well done indeed to the satisfaction of all!

Ramesh T A
Relief, Respite And Redemption!

All kinds of disturbances were there.....,
When we were living a joint-family life!
Parents, grandparents and brothers
And sisters were many to coup with!

After them after my marriage my family
Next has taken the place of the previous
Members to disturb all my plans and....
Writing chances everyday when I sit.....!

My heart longs for writing poems daily;
But all obligations crush my interest sure!
After managing them all somehow, I sit for
Writing something to my heart's content!

Likewise, my days are going on even today;
A world English poet I have become despite
All disturbances working as great nuisance
And this is my relief, respite and redemption!

Ramesh T A
Rely On Permanent Faith Ever!

Falling in waves of tears people suffer in great grief
When a great leader passes away leaving all stranded..;
Not knowing how to control feelings and what to do next,
All suffer in unbearable loss that can't be deciphered!

However much they cry and roll on the floor in heart pain,
The lost soul won't return to the body of the leader to
Cheer up all crying souls anywhere like a miracle sure as
Life lost once won't have another chance to live again..!

Only in another birth the leader may be born in the world
To continue pending works left unfinished in the world;
That is a wishful thinking that may or may not take place
In the world we all live under great stress and strain ever!

Best thing to overcome pain and disappointment is to rely
Not on impermanent faith but on permanent faith of truth;
Yes, man is not a permanent being, but the Universal Spirit
Surely is permanently activating energy to have faith on!

Ramesh T A
Remedies Are There For All Illnesses!

Uncertainty of life with imagination makes it formidable
Foe to face rather than approach it with love to overcome
The passing clouds like small disturbances and unexpected
Things taking place making one feel it insurmountable ever!

After solving the small problems, one gets great joy and
Sense of relief to devote oneself to one's matter of nice
Interest to indulge in to get the satisfaction one likes
In everyday of one's life in the world one prefers ever!

Being becoming a slave of one's accustomed activities in
Life, man never gets the idea that always there are chances
To overcome the disappointments to solve insurmountable
Matters giving troubles like nagging cold needing cure well!

There are remedies for all ordinary illnesses we face often;
With the usual medicines, they all can be overcome immediately
And one can proceed with one's works as one prefers to do
Everyday to enjoy life better than before with satisfaction!

Ramesh T A
Remembering Mother!

Mother's Day all think about and remember
How the time was when we were with mother!
I can only see in my mind screen the sufferings
She has endured throughout her life in the world!

She felt being born as a woman was a sin in life;
Due to lack of comprehensive knowledge and
Not capable of improving anymore, she was ever
Caught under the spell of fear imagining big....!

She suffered and laughed with whole heart ever,
When all difficult moments had turned into a
Piece of comedy being sentimental and romantic
In nature and ever believed in the words of all....!

Ensuring her nothing was going wrong and all would
Turn out to be favourable to us indeed took lion's share!

Ramesh T A
Renewing The Year!

Three days only left for this year to come to an end
All turn back to the year from January on to December
And make a stock what all have been done so far...!

This year we had hottest days and heaviest rains finally
With a pause for the new year to start after two days
Kindling thoughts on celebration with friends on a fete!

Happiest and saddest days have we seen in this year
Not only enjoying all pleasures but also all pains in life
Giving us the notion that combination of both is life ever!

It's only old wine in a new bottle that we taste every-year
Sans knowing that the content of life is the same but only
The dresses we wear are new and there's nothing new ever!

Renewing the year with a new beginning we proceed with yet
Another year fresh from January to December with all seasons!

Ramesh T A
Renewing With Hopeful Spirit!

Heavy wind from the rough sea blowing fast
All kinds of trees from coconut to banyan are
Playing ghostly dance caught by tune of storm!

Cyclonic storm circling with wind and rain
Pushes inside sea shore towns to toss about
In all directions all things loose and fragile!

Wiping away all dirt and dust causing pollution
Ran renews all roads and streets with new look
Fresh but strewing rubble causing new garbage!

All stagnant waters are stirred and new water
From rains pushed by circling storm wind wash
All places with renewed freshness with green trees!

After the storm, intermittent rains give relief
For birds to come out and regain their nature
And fly searching their kind to start life again!

Birds like Mynah, Parrots and Eagle fly high
To explore places of safety to settle there to
Start their fresh life with a renewed spirit....!

It's a model for man to learn how to regain
Lost hope to try one's luck in a new atmosphere
Otherwise impossible to think about here...!

Ramesh T A
Repeat Not History!

War is animal way

Of seeking justice to

Settle disputes!

Ramesh T A
Respect Gods That Sustain Us Ever!

It is traditional culture to pray to Varuna, the God of rain
First and to pray to the Sun God next every year sure
And also, pray to Comada, the Goddess of Cow sans fail;
For, for all of our lives, we depend on their bestowal ever!

This may be the custom and long culture being followed
Since time immemorial on wards before modern culture
Based on civilization came into fashion due to Scientific &
Technological developments and commercial advancement!

Whatever be the advancement of man's knowledge and also,
Whatever be the development based on mechanization in
All walks of life, life is impossible sans rain, Sun and milk
Whether we live in the villages or towns or metro cities sure!

Realizing this great truth, all have to honour and pay respect
To Rain, Sun and the Cow that gives milk as Gods every year!

Ramesh T A
Respect Good Warning Of Nature!

After seeing severe storms and cloud bursting rains
Now we have to see El Nina effect of Summer sure!
All are going extreme nowadays not only among
Men we are moving with but also Nature, it seems!

Individual convictions cannot be imposed on all others;
All religions have come into vogue based on revelations
Being experienced by extraordinary individual leaders
Needing reforms to make the world go on even pace...!

Respecting Art, Humanism and Nature only humans
Can enjoy living life forever in this beautiful world of
Ours saving as so long and so forth that all should realize
Before we can stop doom's day taking strong hold sure!

Nature's wrath born of man made mistakes is a warning
Before we put an end to this world established by Nature
So lovingly and beautifully for all to enjoy love and life here
And appreciate Nature's generosity and imbibe it for good!

Ramesh T A
Respect Nature Ever!

Nature is the mother of all creations in the world;  
Leaves, trees, flowers, fruits, fish, reptiles, birds,  
All animals and men and women are all her children!

For all pollution of air, water and environment, violence,  
Wars and destruction of natural resources, properties  
And lives, mother Earth bears with patience forever sure!

Why she is doing so? Sh does so, because she can only love  
Her children but called not kill or destroy their progress;  
For, Earth wants all evolve into higher beings to divinity!

Nature with the spiritual energy in inner self wishes all  
To evolve to higher level realizing and communing with the  
Spirit within to rise to higher stage to be one with Almighty!

Leaving futile venture aside and realizing the supremacy of the  
Universal spiritual energy, all respect and honour Nature ever!

Ramesh T A
Respect Nature For Good!

Mechanically living life in this materialistic world
Natural resources are exploited for raw material,
Food and energy without recycling or renewing
And not bothering about pollution of air, water
And environment by growing trees to purify them or for shade, shelter and attracting rain
Droughts are long in summer and floods by sudden heavy rains in winter breaking bridges, dams and buildings inundating villages and towns driving away poor people as exodus to shelter wherever available craving for food
And drinking water till they settle in a safe place Assisted and rehabilitated by philanthropists and government agencies respecting Nature!

Ramesh T A
Respect The Good Natured People Ever!

Money minded, jealous hreated people always try to insult
The good natured and frank hearted ones in all functions;
They do so because all they do are not appreciated by all,
But the good hearted gets nice encomiums from all one does!

Good people do all for the satisfaction of all, but the
Bad hearted ones do all for advertisement and praise from
All by the support of many such like minded ones like them
Though are just handful of them in the great events ever!

Good people achieving all in all their ventures despite
The problems created by the bad elements, lead a forward
Life making the insulting ones shed their pride and respect
Them at last as they cannot get good name sans their support!

This is the nature of the world we all live in all should know
And respect the wise and good natured people forever for good!

Ramesh T A
Respect To Nature Results In Rich Dividend!

Time for fall of rain has come;
Cloudy days mark the occasion;
South West monsoon has gone away;
Now it's time for North East monsoon!

Rains now and then in Summer have helped
For dry lakes, dams and rivers to get
Ample water for agriculture to prosper
Making happy the farmers to change gear!

Yes, the next monsoon will help rich growth
Leading to best harvest of crops sooner..
Prosperity is about to knock the door of all
Farmers to gamble high prize in the market!

If Nature is respected, all have a good time
To depend on success to come sure at the end!

Ramesh T A
Restoration Of Earthly Paradise!

All love and dream about paradise and heaven forever;
But many fail to recognize Earth is paradise in Universe!
Complex organism called man imagines much and longs for it;
Dreams of heaven are possible to enjoy in Earthly paradise!

Ever advancement seeking man has gained a lot of knowledge;
Fun in material technology is like child playing with toy;
Good, great and grand things man has achieved using this;
Highest level of technological feats are achieved too now!

Imagination, ingenuity and innovation of man have done this;
Joy of creativity and inventions has failed him to see faults;
Kicking out precautions he wants to go high above all ever;
Lacking wisdom, he is caught in the web of his own making now!

Many miles man has marveled, but failed to stop drawbacks in all;
Nothing he has achieved has excelled Nature being part of it ever;
Over all, man has polluted air, water and land to destroy Earth!
Population has increased and problems have increased due to that!

Quite a lot has to be done to bring back paradise of Earth again;
Resorting Nature, culture and humanism only that can be possible;
Stars we have to explore, but we have to save Earth to explore much;
Transcending material and intellectual aspects to spiritualism is must!

Universe is vast and ever expanding and we also should be so creatively;
Vast field of things are there waiting to be done through villages;
World is paradise due to Nature and is where heavenly love is feasible!

X or Y may be great scientist, but wisdom of artist only decides good;
Yearnings of world unity, humanity and harmony are to be respected and
Zeus who is invisible as universal spiritual energy will restore all soon!

Ramesh T A
Resurrection!

Resurrection is possible

By transmigration of soul

An acme of yoga skill!

Ramesh T A
Retrospection And Resolution For New Year!

A year end before current year, severe storm ravaged south;  
Before last year, cloud bursting rain inundated many buildings;  
Current year has witnessed rains now and then with storm now!

Days have run to the last month of year sans notice of all sure;  
Endless damages by rains and very hot summer time are all over;  
Flowers, fruits, plants and birds' songs delight despite gloom!

Good and bad alternately have engaged all with joy and grief;  
High time it is to weigh and see pros and cons of the year now;  
Interesting incidences and changes have not to be ignored too!

Joint ventures by art and cultural initiators are a solace sure;  
Keeping up this kind of trend in politics too would have benefited;  
Laurels by individuals need to be snatched by nations in all fields!

Multinational enterprises should function to promote world peace;  
Nothing seems to be done to unite nations to stop wars and violence;  
Open-hearted approach needs to be initiated to settle disputes well!

People of all nations need friendship with all, but politics spoils all;  
Queens and kings time has changed, but democracy needs reforms to do all;  
Royal reception for individuals can inspire to use skills to solve all!

States should know the pulse of people to make moves to achieve progress;  
Then only thoughts, ideas of the best can turn dreams into realities;  
United efforts in one direction will pave the way for prosperity sure!

Various means of coordination and cooperation by all make miracles;  
World needs peace and love to make humans live as one family members;  
X and Y unknown are still trying to the best to bring about good change!

Years of yearnings for Utopia to live a best human life will not die;  
Zeroing all concentration on such noble idea will make all divines...!

Ramesh T A
Reverie!

Wonderful dreams
I have in the day time
As reverie...!

Ramesh T A
Reverse Evolution Leads Man To Animal Status!

All pervading Nature what a pleasure it kindles
In the hearts of lovers by its beauty forever...!
Romance blooms like fresh, colourful and beautiful
Flowers exotic transporting all to the world of love!

World in a hurry has no time and chance for love
Born of romance fostered by beauty of Nature ever!
Working among machines by great competition among
All zealous and ambitious opportunists forget heart!

Heartless men more than animals indulge in sex games
Deteriorating culture and modesty of woman to death!
Such happenings make all think whether human nature
Has turned in the reverse direction against evolution!

Life gives opportunity to upgrade soul to divine level;
Failing which man becomes only animals to nowhere due to
Material world's mad pursuit towards economic progress
At the cost of social progress by human sense development!

Ramesh T A
Revival Of Human Sense And Love!

Love is top most human sense in the human world
Considered to be equal to divinity has to be
Welcomed and celebrated as a world festival sure!

Though a religious priest has sacrificed his life
For the sake of love to fructify it for true lovers,
It can't be called as a religious festival alone!

tine Day or Lovers Day represents the whole
Of humanity and consequently, it assumes great value
And significance making it a world festival for all!

In the present juncture, it assumes greater importance
As commercialization of all things has turned modern
World into a materialistic world nullifying human value!

By celebrating Lovers Day festival only, human sense and
Love can be revived to turn this world into human world!

Ramesh T A
Revolution At The Cost Of Evolution Lead To Chaos!

By scientific and technological revolution world has progressed;  
Agricultural revolution has helped to achieve self sufficiency;  
Industrial revolution has helped increased potentiality of trade;  
Civilization replacing culture, sophisticated life is in fashion now!

Evolution of Nature is a slow process bringing about change sure  
But unlike revolution, evolution hasn't brought consequences that  
Cannot be tackled easily as of now due to dwindling of natural  
Resources in urbanization triggering pollution to climate change!

Droughts, floods due to sudden heaviest rain affect many nations,  
Even water is poisoned by pollution leading to nonavailability of  
Clean drinking water and shortage of river water for irrigation in  
Agricultural fields leading to eternal fights among States now…!

Revolution at the cost of evolution along with political revolution  
Indeed has benefited at first but led to chaos and crises forever!

Ramesh T A
Right Knowledge Necessary To Avert Great Disasters!

Intellectual thoughts on knowledge help all know truth;
General knowledge and common sense help to decide all;
Modern education lies mainly on specialization of subjects
Depriving knowledge of other subjects necessary for all!

Sans over all view of all matters, no one can be right
In one's attitude to analyze, find truth and solution;
Such kind of habit if cultivated through schools and
Colleges, many can develop into broad minded citizens!

Correct knowledge about Self, world, Nature and God
Only can provide better vision of the whole to make one
Have a broad ambition to do one's duty in the field
One is best at rendering great service to human society!

Adamant believers of superstitious religion bring great
And much disasters by their extremism towards terrorism!

Ramesh T A
Right National Approach To Economic Development Is Best!

Citizens of a nation pay taxes with the hope that Government will take timely action to meet needs of Their urgent problems then and there so that it can facilitate fast development of society and nation!

Cooperation and coordination of all States in a nation Are the main work of individual State governments and In return the Central national government should help Clear all pending matters of them for good relationship!

If all funds are utilized for the lump of backward States That never make efforts of economic and social developments, The progressing States paying huge taxes are affected to The level of frustration due to poor allocation of funds!

Going by the trend of world trade and industries, a nation may Take action to see such developments may benefit them too…; But ground realities of States cannot be left out on the back Burner for long leading to big chaos disrupting unity of nation!

Heavily populated nations' plights are mainly poverty and also, Unemployment needing urgent attention to agrarian and fishing Industries that are long neglected by urban trade and industries Needing huge capital investments by Foreign Direct Investments!

If the national government is incapable of raising funds by FDI, It should pay importance to exports of products from industries Such as agro-industries and fishing industries capable of offering Employment opportunities to a large mass of unemployed people…!

Instead of thinking and planning so, if the national government Aims for only raising money by way of increased taxation, the Sincerely tax paying people will be frustrated and revolt against National government leading to retarded economic progress ever!

Ramesh T A
Right Or Wrong, Payment Is Sure!

Excitement nonstop builds up tension in mason works!
If everyday the work is continued nonstop all day long,
Even the sight of such men brings excitement and tension!

For them, it is their regular work whether they roll on dirt
Or sit on clean stairs of concrete building, their health is same!
But for us, the dirty atmosphere infects and makes us sick long!

Though the work looks to be simple, it eats away one’s health;
For many, this simple work is great and enjoy whether they are
Dirty or clean, because it never fails to give money everyday....!

For all repairing works, after the work, only after checking all,
Money is paid for the service, but it is not the case with masonry,
For, since long time, they are paid whether it is right or wrong!

Mason work brings money for any work, right or wrong forever;
Doing nonsense they go scot-free, for, right or wrong is known late!

Ramesh T A
Right Path To Peace!

Persons of superiority complex hate inferiority complex ones
And dominate all others to act according to their will ever;
Alexander, Chengiz Khan, Caesar, Hitler and Napoleon all know
What happened to them from world history, but it continues still!

Also, all know Mahatma Gandhi and his way of dealing matter
To a wonderful completion from history now, but no one follows;
Means followed bring ends accordingly ever in the world history;
Good means bring only good ends and bad means bring only bad ends!

This is the truth all have to know and remember forever in life;
That only can guide all to go on the right path to end in right
End in work and life to enjoy peace and joy in the world forever;
If all follow this means, human unity and peace are sure to see!

Media, magazines, books, movies and TV serials should project
Such good matters to educate all to go on right path to peace!

Ramesh T A
Righteousness Is Natural Justice!

Dharma, natural justice, natural order or righteousness are all
Similar terms saying about justice in life classified in the past
According to each one's duty in society and duty in individual life
To fulfil destiny well in the world before going to eternal home!

First, division of labour of each one was decided by one's nature;
Society was divided into four communities such as Brahman doing the
Work of sage, seer, mystics or teacher, then Skatriyan doing the
Work of ruling as king, administrator, soldier to safeguard nation,
Then Vysian doing trade, agricultural and industrial works to support!

Income was fetched by Vysian for the development of nation and finally
Sudran served as helpers to all as subordinate ones in the society!
Generations doing community work by birth were called as castes then;
After democracy has come into vogue, each does duty as to one's nature!

That is social righteousness and individual righteousness is doing job
As to One's knowledge to enjoy bliss to attain spiritual absoluteness!

Ramesh T A
Rise And Fall Of Novice!

Is art for art' sake only and not for human life?
Learning divine art, can a lady kill art of life?
If it so happens, it's true a dog's tail can't be
Straightened as real nature can't be changed ever!

A seemingly modest lady will even kill one, if
Needed to satisfy one's carnal desire in life!
Men may ask, 'will this cat too drink milk...? '
But it will not only drink but also break pot!

One feeling pity of such a one will be pitied..!
Even if you wash and feed with good food, the
Stray dog will only rush to street to take shit!
This is way of life of many an ignorant vagabond!

Vagabonds' hunger to prosper never know quality
And will even kill art and men to soar to top
Not knowing that there's a steep slop that will lead
To the abyss once they reach peak and jump in joy!

Ramesh T A
Roaming Romantic Lovers!

All day long we roam round the park
Like the romantic lovers flying free
As the bird in the sky and swimming
Deep as fish in the sea in full freedom
Exploring each others hearts in words
By exchange of ideas flowing as water
Direct from the spring of a fountain in
The centre of the garden full of flowers
Fragrant right from the distant end of
The paradise made of green lawns and
Trees of colourful flowers and fruits
Nowhere can be seen in realm of humans
But only in domain of heaven where angels
Reside to sing songs of love forever and ever!

Ramesh T A
Rolling Stones Gather No Moss!

All who don't know the smell of education and roam as vagabonds are rolling stones;
Best part of life living so, if anything not goes as per their will, they blame all;
Caring none, they do whatever they feel as they like and if not they feel angry!

Daring things they try to do by deceitfulness and swindle wealth of others in life;
Earning by wrong means they spend lifetime sans any sense of remorse or correction;
Fools all others they believe and show their skill to deceive and rob riches of all!

Great family homes they intrude in, move as noble ones, but finally destroy all;
High place they aim at to settle so that they can live in a lavish fashion long;
Ironing out their way so, they survive by fortune and escape from all fighters!

Jokingly they criticize everything and everyone as if they paragon of virtue to all;
Keeping pace with the prey behind their undertakings to make note and rob one day;
Lessons in life they don't learn, but poke at others follies and weaknesses ever!

Miles and miles they go round all places to escape from security people somehow;
Nowhere they settle, but roll down as rolling stones till they become sand in beach;
Openly they talk ill of others face to face by boldness making others feel guilty!

People are deceived by gullible talks and guide all to wrong routes to fool them;
Quite a lot they make mischief in high places making them unable to talk by shame;
Rolling stones of that kind cannot gather moss of good family members to live well!

Socially living isolated they never turn a new leaf in their life for good ever;
Truthful they are they make others to belief till they rob and reel them in mess;
United in their mission they very well play their parts to play drama everywhere so!

Various techniques they adapt on their journey of life doing mischief in creative way;
World is the stage they enact their plays to entease and elope with innocent ones and
X and y caught in their web they use everywhere to fool others and put them in dismay!

Years of such activities of such rogues never end in good way but only in horrible way;
Zeus watching the play waits for the apt time to topple the apple cart at the end sure!

Ramesh T A
Romance And Reality!

In dreams and imagination erotic romance thrives!
But in reality only real love leads to joy in life ever,
Without which life is an eternal hell to endure long!

Isolated soul cannot think of union as fate is firm;
Only friendship can one think of but not love ever
And pull on the days doing the best for the society!

Stories of novels, poems of passion may survive...;
But they are only for consoling worn out souls.....!
Recovery from grief takes long to resume life.....

Nature, art and music divert attention from grief
To an imaginary world for temporary relief only
So that some sleep could give rejuvenation of spirit!

Romance and reality cannot be mistaken for surety
As there's noting sure in this uncertain world we live!

Ramesh T A
Romance In Life!

Sans love there is

No romance in human life ever

To perpetuate humanity!

Ramesh T A
Romance Makes Monotony Nothing In Life!

Romantic mood develops by visiting gardens, parks, beach, hill station, Green meadows and green pastures with friends and beloved persons ever! Life becomes a sweet affair in such a mood, when monotony of day today Activities rise up to the zenith quite unbearable and out of control..!

Work, work and no time to spare for leisure to relax heart, mind and Soul means life is a hell to endure long so without any change ever! Nature, art, music and dance are created by man to enjoy life in good Mood of romance so that life can be livable forever in the same world!

Also, important is going to new places to see life and works of all Living there and how they are coping with monotonous situation ever! Many lessons life gives in our lifetime and many more each of us has to learn by doing our new kind of works in new situations of world..!

Romance is the best way to enjoy life in a real way one has not tried And is ready to have a change for the better if one has a heart for it!

Ramesh T A
Romance Or Reality?

Romantic world has music, song and dance!
It has love life, long adventure, magic and all;
It is a poetic world that has all within forever.
Romantic world survives in beautiful Nature!

Real world of modern times is mechanical,
A machine world running according to time
Exactly within a frame work as in prose works
That go on as in a long changeless journey....!

Romance and reality are green pasture and
Concrete jungle juxtaposed as fiction and facts
Like cinema and world we all live in like the
Children play with video games in real world!

Too much of romance or reality is too much
To bear and boring to experience in real life!

Ramesh T A
Romance Rare In Modern Day!

Romance in life is a rare occurrence in the modern world;
If at all it happens, it may take place in train travel, beach,
Park, cinema theatre at an unexpected time or in hotel..!

That too, if meeting of guy and girl takes place again by
A rare chance no one can think or dream about in fast life;
There the acquaintance turns into romantic love quite rare!

Exchange of love poems, love letters and greeting messages
Surely increases care for each other to meeting in privacy by
Dates often in leisure time at the week ends somewhere out!

Beauty, sweet words and hugs with kisses lead to passion
High to the extent of living together in residence besides all
Works all day long till mutual desire to have marriage soon!

Materialization of romantic love in marriage with the help of
Dear friends begins family life leading to children and joy ever!

Ramesh T A
Romance The Source Of Love In Life!

Romance is the source of love for human life in the world;
Longing between lovers unites and prolongs bond of love
That no force can separate them, even if it be one day or
Many days they have lived together in the world of uncertainty!

Sans sense of romance, where is fun and joy among all humans
That makes life living in love whatever be the nature of life
All have to live to cross over the ocean of woes to reach the
Harbour of peace, fulfilment, bliss eternal with success sure?

Romantic love is the source of sensuous life that strengthens
Bond between passionate souls ever in adventure to see new
Paradises in the world of blue that never seems to change for
Long to pacify and satisfy the longing of lovers of bliss ever!

Life of struggle to alleviate pains and sufferings of humans,
Dreams of romance enjoyed for short or long mitigate miseries!

Ramesh T A
Romanitic Rule Of The World!

It is a romantic world where all things happen;
Nobody knows how to proceed but goes on...
And when the climax comes hero shows skill...
To save innocent, wise and good to rule all.....!

This is all due to hero worship being followed
Even today by almost all people of the world;
For, all expect someone to save mankind from
Going down to the abyss due to wrong rule...!

Some flaw in the administration of both of the
Govts following dictatorship rule or democratic
Rule brings people to the edge of life so as to....
Oust the incumbent out of office by revolution!

Revolution gains ground where there are dictators;
Election is the only way where democracy is there!

Ramesh T A
Romantic Ar Is Best Blended Wine!

Romantic poetry is a human art with unfathomable depth of ocean; Such a romantic art only gives satisfaction, fulfilment and peace; This kind of art can never be ignored, neglected and destroyed as This art only gives finally a relief for all losses in one's life!

Art of romantic poetry unlike classical poetry and modern poetry Has great depth of heart, personal element of one and limitless In its way of expression making it impossible to bring an end to Anything that is weaved in this kind of verse that sways heart ever!

Modern art is an extension of individual art of romance in display That has many interpretations sans touching heart as romantic one as romantic art is infinite in nature and eternal in existence for Its depth, style, philosophy, individuality and emotional touch..!

Romantic art of poetry is like hand spinned and weaved silk cloth Just as painting is done with oil and brush created by emotional Direction in development of ideas that has unique way to start and End assimilating inspiration from various sources blended as best wine!

Ramesh T A
Romantic Dreams All Love!

All dreams of all people are not the same in world life;
Beautiful and best dreams of heart never die very soon;
Combination of heart, mind and soul produce unique dreams;
Dreams of love, God, paradise, heaven, one world are fine!

Every dream and achievement in the world is history ever;
Full scale dream of great ideas turn into reality sure;
Great dreamers are the leaders, poets and scientists ever;
High and noble dreamers have been achieved in the world!

Icons are the great heroes youngsters dream to be so ever;
just the image of such heroes trigger dreams wonderful...;
Keeping images of heroes as Gods they all dream high life;
Love in life and zeal to achieve best things all dream ever!

Multifaceted personalities are the heroes of dreams of all;
Noble and handsome heroes come in all dreams of young girls;
Obviously, the handsome hero of film ladies dream to live with;
Personality of angelic order all youngsters dream to be happy!

Queens of world beauties occupy the dreams of young men ever;
Rosy lips of heroes young ladies kiss long in dreams forever;
Stimulating passion in all lovers of great fame inspire all;
Tragedy of tiresome persons are compensated by dreams of beauty!

Universe itself is the greatest source of heavenly dreams ever;
Various charming poses of favourite personalities kindle dreams;
Whole world moves in zeal only by dreams of golden time to come!

X files of close encounters with mermaids are ever dreamlike sure;
Years of many noble dreams have become realities by ideas new...;
Zealous mood kindled by fine dreams moves all to romantic victory!

Ramesh T A
Of all friendships, friendship of romantic persons is
A great wonder in the world to be cherished to live
Long in Nature talking, writing, enjoying and loving
Life to the last making romantic friendship the best!

Romantic poets and afterwards college students of the
World are most interested in this kind of friendship
That moulds great and high mind to each and everyone
To do the best for humanity and an inspiration to all!

Life means it has to be lived so only as otherwise, the
Life all living are worthless to speak anything better
About it being an insipid kind of life that is not up
To the mark of any cultured or civilized humans ever!

Our civilization and culture are not praiseworthy,
Unless it is practised as romantic friendship i say!

Ramesh T A
Romantic Icons!

Romantic intellectuals are iconoclastic in nature
To criticize the faults of religions, politics,
Social conventions and all to create new human
Culture to be followed as tradition to lead world!

For romantic poet Wordsworth poetry is spontaneous
Overflow of emotion recollected in tranquillity..!
His philosophic friend Coleridge enlarged the scope
Of Poetry that included politics and philosophy also!

For Mathew Arnold poetry is the criticism of life;
Shelley rebelled against religions for freedom and
Free love and expressed his revolutionary ideas of
Change in romantic poetry and he is followed by all!

Jean Jacques Rousseau's revolutionary ideas of France
Such as liberty, equality and fraternity have become the
Constitutional principles of world democracy ever and
Many writers, novelists and activists followed suit..!

Ramesh T A
Romantic Life In The Pastoral Setting!

Romantic way of living is the best way to enjoy love And peace in the pastoral atmosphere near the towns Far away from the world full of chaos and unrest ever!

Settlements on such beautiful surroundings of Nature certainly give peace of mind, sense of joy in the Calm and tranquil environment that makes life lovable!

Romantic intellectuals and poets of the past and even Today are preferring to live in the farm houses outside The towns and cities after saving income from works..!

Contention of heart only those good souls have ever in The life of the world that has many things to observe, Learn and know to have spiritual satisfaction in peace!

Development of romantic nature from the childhood on Lead one and all to pastoral settings to live well sure!

Ramesh T A
Romantic Life Is A Must!

Sensuous love of romantic life is the best panacea
That has the power to cure all ills of humans ever
Whether it is imaginary or psychological or real!

Sensuous pleasure is the biological need for all
Living beings to balance the chemistry between two
Opposite sexes created by Nature for endless life!

Sans perpetuation of species, life cannot continue
In this Earthy world in which we all live in the
Same way generation after generation forever here!

Romance of life is the best way to compensate all
Sorrow, sad situations and losses in world life
That put anyone in great melancholic mood forever!

Love of romantic life is the best way to live best in
This material world that cannot provide human needs!

Ramesh T A
Romantic Life!

Why is bird singing?

Looking for soul-mate
Bird flies singing love song
To live romantic life!

Ramesh T A
Romantic Love Drives Life!

Romance is full of challenges to deal with;
Romantic hero and heroine take them well!
Romantic story captures the hearts of youths;
Romeo and Juliet now all like to end in comedy!

Famous love stories are written to be tragedies;
Love touches all and lives longer than humans!
Famous love comedies are romance in novels
And movies are full of such stories to please all!

Only love is vital and most important in life
Of all the virtues man cherishes most in world!
For, with love comes all virtues to one in life
As love is divine as pretty Nature that inspires!

Romance makes life interesting to live in the world
And for the sake of love all hardships are endured!
Comedy or tragedy, love is the central theme here
That drives romantic life to go on all terrains sure!

Ramesh T A
Romantic Love Is Gold Making Alchemy!

Melancholic nature of a person caused by disappointment, Disillusionment and depression can be transformed into Mirthful one by romantic love in Nature as a great cure!

Even mentally retarded persons are changed to reasonable Normalcy of nature by romantic love more than any kind of Treatment medical or otherwise is a practical success story!

Dull, foolish and good for nothing fellows too become better, When one falls in romantic love that turns one into a great Hero of romantic comedy pays of Shakespearean time onwards!

Romantic love frees heart, makes mental illness as nothing And one becomes a most wonderful person to do grat deeds in world life making all wonder at such personalities' heroism!

Romantic love is a great panacea that transforms melancholic Ones into mirthful one as the alchemy that turns all into gold!

Ramesh T A
Romantic Love Of Human Life In The World!

Besides exploration of truth in religions, deep search
In Nature, social life governance of nations and all,
Romanticism indulges in romantic love in all its forms
Such as emotional, aesthetic, intellectual, universal
And mystical love in Nature to have fulfilment in life!

Seeing the beautiful acts of lovely child kinds emotional
Love to fondle and kiss the little angel sure in life;
Good hero suffering in life being solaced by lady love
Kindles love of emotion even to the onlooker of the scene!

Beauty of things of Nature such as flowers, green meadows,
Mountains touching sky with mist and clouds, landscape of
Green pasture side by side of long blue sea and evening and
Night sky full of twinkling stars kindle aesthetic love..!

Exploration of principles and causes and reasons for all
Happenings of Natural phenomena and human life full of pain
And pleasure of love in bittersweet life help to know truth
And solve problems thereby due to intellectual love sure..!

Human heart that finds joy in loving all persons, friends,
Beautiful beings of humans, animals and Nature is indeed
universal love only persons of broad mind and humane heart
For the well being of all in spirit and deed have in world!

Besides love of beauty in all things of Nature apart from
Love for beautiful sweet heart, indulgence in spirit in the
The silent and tranquil atmosphere of Nature slowly and
Certainly drives one in mystical love soaring to sublimity!

Romantic love of humankind is a great wonder caused by the
Beautify of Nature and beauty of loving hearts due to tender
Human mind, heat and soul from the formative time to maturity
Of Self in the life of the world that leads to divinity later!

Ramesh T A
Romantic Nature Has To Be Fostered!

The frolicsome nature of children if continues even
After education and working in a job, they are romantic
In their style of living to be real humans forever..!

Only if the playful nature is not there in others, they
Are sure not to be transforming into romantic humans, but
Only serious guys to the extent of becoming hardliners..!

Due to the hardliners, war lords, mercenaries, terrorists
And violent guys indulge in their own sort of war games to
Make all obey to their commands to turn world as they like!

Love among humans that is already seeming to be rare becomes
Rarest in the world and only hatred, enmity and violence
Rule the world to settle all matters of dispute among men..!

Romantic nature only maintains human sense and saves humanity
Due to good nature, love and friendly relations to be fostered!

Ramesh T A
Romantic Poetry Is Forever!

Romantic poets are of great inspiration to many
Starting from Shakespeare to Robert Browning..!
Of them, Wordsworth, Coleridge, Keats, Shelley
And so on no one can miss before becoming a poet!

Those poets lived romantic life to the full and the
Experiences they have expressed in new poems that
Has inspired many and is still inspiring so by their
Individual, emotional and philosophical poems great!

Due to their reception everywhere even today, their
Poems have become classical romantic poems in world
Literature for their individual philosophical ideas
That hold good even today in the life of humans ever!

Romantic poetry has a vast scope for expansion of great
Ideas for the encouragement and instruction to all men!

Ramesh T A
Romantic Poetry So Far!

Romantic movement and revival of romantic movement of Sixteenth century and eighteenth century are remarkable. In the history of world literature we all cherish most. Even today wondering at the creative geniuses' works from Shakespeare and romantic poets like Wordsworth, Coleridge, Keats, Shelley and Robert Browning sans having same sort of respect and honour for modern time poets and nothing for Post modern time poets whose names we are not well versed!

Yet, poetry has got its own value whoever writes poetry. Whether it is in England or America or Europe or India or Philippines and all other nations of the world as far as World literature is concerned with the feeling of fulfilment. Seeing some extraordinary poems by some extraordinary poets. To heave a sigh of relief for having some solace or satisfaction!

Ramesh T A
Romantic Poets Forever!

Spirit of poets immortal intoxicates me complete
With poetic mood transporting to exotic world
Full of magic, vision and fantasy never ending
Making poet and reader forget in the vast Universe!

Poets of the calibre of Coleridge, Shelley and Keats
Engross one in pure poetry inspiring high forever
Whenever the mood is out of control even for a while
By their intoxicating romantic expressions ever!

Romantic poets of the first order still rule the realm
As what they have created for the world to enjoy
Make poetry an endless source of inspiration
Changing all ever bright with sparks of ideas novel!

Whenever I am out of mood I seek their blessings
To recharge and recover the lost mood to write ever!

Ramesh T A
Of the romantic poets, I cherish most ever in heart are
Wordsworth, Coleridge, Keats, Shelley and browning
That no one can deny their spell of poetic skill sure....!

Of them, the extempore poems of S T Coleridge are my
Ever favourite ones inspiring me and absorbing my heart
To write best poems of great value whatever be the subject!

His Kubla Khan simply transports one to the Xenado dome
Fortified by green pasture long ever haunts me like heaven
Making my soul wander across the river flowing through it!

This along with his friend, Wordsworth's Tintern Abbey poem
Makes a complete spiritualist of Nature forever and for all my
Poems I get ideas starting from there analyzing all subjects well!

Aesthetic pleasure in Nature and philosophic thoughts on life
Lead me to get bliss communing my mind with Nature forever!

Ramesh T A
Rose Is A Token Of Love!

All colours of rose flowers are a symbol of love for all forever;
Flowers and women are of the same kind by nature and beauty;
All women are emotional and go by the will of heart in life ever;
Rose is cherished most as it represents love of heart like women.

Like love, rose gives sense of cheerful mood by its very presence;
As red rose flower like the heart that pumps red blood with oxygen,
Love bears all poisonous blues of life to rejuvenate heart with joy
To make life a bed of roses soaking heart, mind and soul with ease!

The comfort and joy beautiful rose flower gives only a woman knows
The art of love to make man a kind and graceful being for living a
Good and smooth life relieving all hardships of the world by pleasure
That gives joy and peace to go on surrounding all hurdles of life...!

The heart touching rose flower is a great thing of beauty Nature has
Bestowed to mankind as its token of love for humanity to live in love!

Ramesh T A
Rose Is Rose!

Garden full of rose flowers everywhere
Invite everyone to have a nice time there!
Fragrance of rose flower world absorbs
All lovers of flowers as soon as one enters!

The up and down meadows full of green
Grass fine as velvet welcomes all tired....
Tourists to lay down all their belongs on
Bed cover to have food to energize well!

Boosting with energy all soon get up ready
To see the varieties of rose flowers with a
lot of colours varying from each other sure
To have a good idea and conclusion of rose!

Rose is rose whatever be its colour and scent..
All decide to have a view of it before all go out!

Ramesh T A
Round And Square Pegs!

Love and peace

Are round peg in a round hole

But square peg..

Like hate cannot suitable for

Round hole ever anywhere sure!

Ramesh T A
Ruby, Centre Of Gems!

Ruby is the name of my mother!
Ruby is red diamond full of energy
As powerful as fire inspiring all
To act with vigour and vitality!

Among nine gems it denotes Sun,
Centre of all planets controlling all!
Sans Sun all planets are nowhere
In the Solar system we function!

Red blood in white skin is rosy in hue
That attracts one and all sure above all
Being of noble image no one can deny
Due to its inspiring influence energetic!

Ruby always stands bright at centre
Of all nine gems for all businesses here!

Ramesh T A
Rule Of Good System By Benevolent Leader Is The Best!

Fascism, Nazism, Communism and Socialism by dictatorship rule
Have failed in many nations of the world due to falsity in all;
Capitalism based on democracy and individualism is surviving
But not satisfying the needs of all due to lack of humanism!

Perhaps socialistic democracy with knowledge, individual liberty,
Equality, justice, rights and humanism can help humanity better;
But, democracy with liberty, equality, fraternity and justice
Only can provide better benefits all are in need of forever sure!

The leader ruling the nation should be humanistic, benevolent,
Selfless and ever for development of all economically, socially,
politically and culturally in a civilized fashion following
Modernism not at the cost of naturalism and humanism by all means!

Leaders of such a kind by united efforts only can achieve all for
All uniting all men and women by human sense, service and love!

Ramesh T A
Ruthless Killing Machine The Cyclonic Storm Is!

Nothing can be saved from the natural disaster, if triggered
Directly by a severe storm about to cross coastal areas at
A speed of 80 to 100 Km. per hour as we have witnessed earlier!

Cyclonic storms of this kind are ruthless in their power that
Develops step by step moving towards the inland areas of the
Nation destroying trees, lamp posts, vehicles, boards and all!

The storm is like tyrannosaurus type dinosaur described as a
Ruthless killing machine never misses to cripple and swallow
Victims crossing on its path, while it is on a big rampage sure!

After the storm, though calm returns, no doubt, but no current,
Water supply and basic amenities take a lot of time to get
And restoration of normalcy of human activities will take days!

The natural destruction is a routine affair every year sure, if
The storm starts from the sea just after the rainy season begins!

Ramesh T A
S.T.A.R!

Sri
Thumati
Alagarsamy
Ramesh

Sure
That's my full name
All know well with
Respect ever!

Star is
Truly attached
Always to me as a
Record!

Sun shines
To bring light and life
All over the world
Rejuvenating Spirit ever!

Sun is a star
That rules all planets
All round the year and on
Remarkably ever!

Sun and Star
Teach me great lesson
All round my life to
Remember and remain so!

Stars all night
That shine bright
Advise me to inspire all
Remain radiant ever!

Star in my name
Always shines to say
This message to
Restore Love and Peace!
(Dedicated to Poets Marvin Brato and Bernard Auscion)

Ramesh T A
Sadists!

Making good ones suffer

Gives great pleasure ever

Only to Sadists sure...!

Ramesh T A
Safeguarding Democracy For Peace And Progress!

Without discipline and alertness democracy is in doldrums;
The hard earned freedom and liberty will be ever in jeopardy;
Education, discipline and training only inculcate honesty,
Sincerity and truthfulness to same nation and freedom sure!

Honest toil of all only pave the way for eradicating hunger,
Poverty and unemployment corroding as cancer our society;
Cooperation and coordination of all people only can move
The nation forward to peace, prosperity and progress ever!

Union of such nations as one world only can destroy all plans
And executions of mafias, antisocial elements, terrorists and
All looting national treasure, reaches and destroying the
Greatness of nations driving the world to brink of destruction!

Sacrifices of freedom movement leaders like Gandhi, Mandela,
Lenin and all should not go waste by wrong politicians doing
Administration of nations in the world needing people's efforts
To eliminate such one in elections with proper care forever!

Ramesh T A
Safety And Security Of Men And World!

Due to man made pollution, climate change is affecting All nations of the world now and ever so it seems sure! Floods in Venice of Italy is unusual thing happening now And is the warning to other low lying nations of world!

Due to hottest climate affecting all nations, it has not Left free North and South of World too, where permafrost Ice is also started melting and if it so happens, methane Gas stored in there in large quantity will burn everywhere!

Already forest fires are common event in many nations now; If after melting of permafrost ice both in the Arctic and Atlantic regions of the world, the whole world will one Day burn as hell destroying animate and inanimate things!

It is the prime duty of mankind to keep frozen permafrost As it is for the safety and security of men and world ever!

Ramesh T A
Sail On To Overcome The Waves Of Worries!

There is no end for worries as the waves of the ocean in the world;  
To overcome worries, one has to sail on a ship to move forward  
To the shore desired to do what one likes and achieve joy of success  
In the field one is best at to attain peace, bliss and satisfaction!

Rowing the boat with the oar, we can move on the water to the shore,  
Though it is hard to perform, but it's better than worrying over misfortune!  
Relief we get from crossing the river or lake will minimize weight of worries  
That our head feels carrying the heavy burden of grief of failure!

Failure by such a diversion of work will become the stepping stone to success  
That surely helps one to climb to the top to feel cool being away from  
The hot plains full of thorns and broken pieces of sharp stones wide  
And a great relief one enjoys being made light by mystical floatation!

Worries are just passing clouds that are not attached to one as nail to finger  
That can be cut whenever it grows beyond limit so as to make oneself free!

Ramesh T A
Same Destiny!

In life's journey
Death is the destiny for all
As birth begins all!

Ramesh T A
Sans Ambition One Will Be Nowhere!

Sans ambition, I could not have become what I am today!
I had the zeal to write and become a writer one day then;
But soon after education, I was inducted into family business
And later became a family man with no time to write ever!

It was so from 1972 to 1981 due to my involvement in business;
From 1981 to 1989 family occupied my time and other works!
For 17 years, I was in wilderness not able to do what I love to do
And spontaneously expressed my feel in a poem to my friend...!

The poet in me came out that way and through the advice of
My dear friend, I started to write poetry whenever possible as
A diary writer at first and patched up the lines written therein
Into some poems quite meaningful to my great amazement...!

After 17 years nobody will try to go on a line one was dreaming!
It is due to my ambition and its zealous drive I have at last turned
Into an English poet to write poems to publish two books at first by
My own efforts in the Print Form, the most difficult job for anyone!

But I never stopped the urge to write as I wished and went on writing;
Thanks to Computer Internet coming into vogue, I have published
All of my writings on various world wide websites by the end of 2007
Starting from 2005 with a little learning to operate computer box well!

Then from 2008 daily I have started to write poems after poems and
I have become a World English Poet getting recognition and awards
Locally and internationally to my great wonder and joy unknown
Before in my life and my name will live through my writings ever....!

Ramesh T A
Sans Beauty No Victory In Competition!

Whatever be the performance in any profession, ladies ever have Advantage over men by attractive beauty covering up all draw backs; Skill, hard work, modern style and novel manner in any work of men Are simply superseded by the makeup of external beauty of ladies..!

Whether it is cinema, TV, art work or poetry, ladies works are taken Up first and selected for award and any prize to get advertisement! This advantage cannot be taken up by awarding any prize to men in Any profession for promotion of any company in the world ever sure!

Craze for beauty is a great psychological defect or the blind spot of Brain of many taken advantage of by the beauty of ladies in work...; That is why, it's felt it is better to have been born with beauty or else Not to have been born at all to win in this foolish competitive world!

Otherwise, fate or luck only can lift one up in world life full of many Competitions in all walks of life from the beginning to the end of time!

Ramesh T A
Sans Frankness, Genuine Progress Is Impossible!

Frankness of heart makes one speak truth forever;
Truth makes one brave, confident, fearless, free;
Free, frank and fearless thoughts, words and acts
Make one always sincere, honest and true in works!

Frankness makes one noble, great and high among
Men of high quality in life and makes one view all
Things from above all circles and see things as
they really are to know truth and be clear in mind!

Only a clear mind of a person with frankness of heart
Can judge matters wisely to render justice in one’s
Expression of thoughts, utterances of words and acts
Of boldness to achieve all objectives of dreams sure!

Sans frankness of feeling, thoughts, words and works,
Where can genuine progress of mankind be possible ever?

Ramesh T A
Sans Freedom And Liberty Even Heaven Is Hell Only!

All individuals love freedom and liberty above all rights in life,
Because sans those privileges none can turn dreams into realities;
Coining new words, making inventions or creations are done in liberty;
Discipline, decency and dignity of individuals lie in such a privilege!

Energy, enthusiasm, effectiveness, inspiration and inform are ever in
Free creative and inventive works of great individuals in the world;
Great achievements by creative individuals are realities of dreams they
Have cherished long in heart for making mankind better in the world!

I am proud to say that I also belong to that category or group ever;
Joy of creativity flourishes only in the freedom one enjoys anywhere;
Keeping in touch with the cherished dream ever, they get inspiration
Like the plants and natural vegetation get energy direct from Sun..!

Many great poets like Milton, leaders like Cromwell supported liberty
Not bothering about security in the literary war of individual liberty;
Orient or Occident, all countries fought for freedom and liberty long;
Peace, progress and prosperity of nations lie in freedom and liberty!

Quenching thirst or satisfying hunger one can’t enjoy in enemy country;
Restoring country's freedom or individual's liberty only all can do all
Surviving, sustaining and succeeding as they wish though wealth, power
That one enjoys sans liberty is an illusion and mirage in the desert..!

Universal freedom, individual liberty are cherished dream of humanity;
Various comforts or luxuries one may enjoy in hostage, but that are not
Wealth, power and knowledge one enjoys in freedom in one's own place..!

X, Y or Z may be great leaders or dictators, but sans liberty it's hell;
Yearnings of all unless satisfied by liberty, even heaven is an abyss;
Zealous mood, enthusiasm are import that only freedom and liberty give!

Ramesh T A
Sans Romance No Pleasure To Enjoy Ever In Life!

Without romance, no pleasure can be enjoyed in the world life;
Only monotony, frustration, fatigue, gloominess and mourning
Days one has to spend throughout one's life in this uncertain
World that never guarantees anything positive before hand…!

That's why many go for drug, indulgence in sex and drinking
Ever to overcome the great loss of life, if one doesn't have
Interest in arts, music, song, dance or in the beauty of the
All pervading Nature or the Universal spiritual energy sure!

Romance brings all such interesting things in life to enjoy
Great pleasure to have bliss, satisfaction and peace in the
Long or short journey of human life in this material world
That allows mechanical way of life to be lived by all ever!

Humans are not technological machines to work mechanically ever
Sans human feeling, sense and emotion possible by natural life!

Ramesh T A
Sans Shepherd Sheep Cannot Graze!

In the depth of night when I come I see
All things waiting to be completed.....!
Nothing seems to be in order to proceed
Making me to manipulate everything!

At last a sign and hope of recovery has
Given me some chance to reopen all....!
Again as time is out of limit I seek only
To put an end to the day's progress sure!

Next day only I can proceed fresh with
My ardent desire leading in my spirit..!
With that note I have brought all matters
To a completion before I close all business!

Sans a shepherd nothing seems to go smooth
And that I have to be so to make all work...!

Ramesh T A
Sans Success One Can't Survive And Sustain In Life!

Welcome and respect never knock at one's door sure
Unless one meets with victory in some way or other!
One may suffer for a lot of hardships in the world;
Yet, none will turn one's face to say anything good!

One may try so many ways to achieve laurel in some
Field or other sincerely, honestly and truthfully;
Yet, unless one makes a mark in one's efforts sure,
No one will appreciate one's valour to lift one up!

Hardships, Difficulties and efforts are not bothered
By anyone in the world unless one achieves victory..!
It is not enough one may have a lot knowledge, unless
One gets qualification and victory there's no life..!

For surviving successfully to sustain oneself in life,
One has to achieve success in some field or other sure!

Ramesh T A
Sapped Of All!

Dreams have evaporated to dryness;
Humour has become out of place;
Sense of beauty has sunk in anxiety!
Music is mourning now out of tune;
Nature shines with hot days blinding!

With this fortitude I am sapped of all!
No energy is left to say a word now;
I am thirsty, hungry and haggard!
How long can I stand under hot sun?

No breeze seems to solace me at last;
Am I reeling under delirium of late?
Poetry I am extracting from sugarcane
Fills the cup with sweet-less juice to drink!
Perhaps coconut juice will revive life again!

Ramesh T A
Save Beloved Earth!

Nowadays hot days are hotter than usual; 
Also, summer rains are heaviest with all 
Lightning and thunders as if moving Earth!

Anytime depression in the sea turns into 
Storm and brings rains more than needed 
Making all wonder at Nature's play ever!

Nature is playing with climatic change 
Caused by man's exploitation of natural 
Resources for his greedy profit business!

Planting of trees all over Sahara desert 
is a movement and many other world places 
Planting of trees has become a must for all!

Normalization of climate and Nature as a 
Whole are best to save our beloved Earth!

Ramesh T A
Save Democracy By Watchfulness!

Without freedom and love, one can live only slavish life; Naturally, one will rebellious to overthrow dictator sure; That is how, democratic governments have come int vogue!

Some power hungry and greedy ones to live comfortable life Long sans any interference, make others slaves under them Holding power using loopholes of law of land with money!

But one day or other, such arrogant ones too are overthrown By the iron hands of people by their voting power without Being swayed by the words of ones in power for change sure!

For democracy to be strong, people should be watchful of The persons in power and what they do in public life using The privileges they enjoy in office and at home anywhere!

Otherwise, democratic dictators rule the nation putting the People in great troubles in the name of developments forever!

Ramesh T A
Save Freedom!

Keep yourself abreast of latest knowledge;
Keep yourself well versed in latest technology;
Otherwise you will lose your freedom any moment!

Already the world has gone into small computer;
Everything is controlled automatically everywhere;
Sans knowledge and technology you can't survive!

Man has become a slave of machines in all walks of life;
Future world will be run by machines with no man on top;
Mental and physical activities will be nil to stand still!

Letters, books, pens and calculations will be out of fashion;
If Computer system fails everyone will be caught in the middle
Or the whole power system fails man will be back to square one!

Freedom gained by knowledge will be last through machines;
Slavery again will come into vogue if we don't wake up soon!

Ramesh T A
Save Nature By Social Development For Future Of Mankind!

Only in Nature one can enjoy real freedom and peace
And is where love blooms between hearts in world life!
This is true not only for animals and men, but also
For all living beings as all are children of Nature!

Man has advanced by science and technology and living
In economic competition with one another sans thinking
Much about social life resulting in disparities among
Many societies of humankind in the world needing relief!

Hunger, poverty and unemployment are still affecting
Many in all world nations due to economic competition
By technology at the cost of agricultural maintenance
Ignoring natural resource recycling for profit motive!

Pollution of environment, deforestation and urbanization
Besides many other exploitative acts of greedy tycoons
Are destroying Nature resulting in climate change leading
To typhoons, heavy rains, foods and droughts everywhere!

Living in harmony with Nature only, mankind can survive
With joy, pleasure, love and peace solving all basic needs
Of the suffering people by social development programmes
Thinking about the future of mankind and our mother Earth!

Ramesh T A
Save The World From All Threats To Peace!

All point out the trouble spots of world are Middle East;
But the eternal trouble spots are Syria, Iraq, Afghanistan
Causing concern to all peace lovers along with Pakistan;
Dangerous country with Nuclear weapons is now North Korea!

Enlightenment seems to have for Cuba and China all believe;
French president and German Chancellor are placed top in office;
Good governance is believed to be taking place in India now;
High praise goes to Canada for its welcome to all in the world!

Indonesia, Philippines, China, South America are prone to tremors;
Japan warns about North Korea's bomb testings and China's threats;
Korea's turmoil and Pakistan's double talks earn displeasure from all;
Lasting peace for the world seems to be a dream due to ISIS terrorism!

Many African countries and Burma are facing rebel threats for long;
No country in the world seems to be in peace and all want peace ever;
Opposition to many ruling governments face tough time with opposition;
People feel living in hell in Syria, Iraq, Pakistan, Palestine and Burma!

Questions of Nuclear proliferation and terrorism are still to be solved;
Refugees in Turkey, Lebanon, Iraq in 40 lakhs and 15 lakhs are alarming;
Stateless people living all over the world seems to increasing everyday;
Trades all over the world should have concern for natural resources....!

Unanimous support of developed countries for developing ones should increase;
Veracity in all dealing by world nations should look for good relations;
World will become an Utopia, if all join hands for peace, unity and friendship!

X and Y kind of unknown nations also should be treated with equal respect;
Years of peace efforts under the aegis of UNO should never go waste sure;
Zealous mood to promote world peace and friendship should be made a success!

Ramesh T A
Save World By Wisdom!

Charlie Chaplin has felt that we are thinking sans feeling and
What is needed is not cleverness but kindness and gentleness;
Otherwise, the world will be ever violent and all will be lost!

So true his view is even today needing the world to change from
Such competitive state to cooperative state to make humanity
Live in peace, love and joy to overcome all drawbacks soon sure!

Hatred breeds hatred, violence increases violence and world is
In great turmoil like the match stick ready to burn near cotton
Godown of factory to blaze and explode all in minute to waste..!

World exists because of humble humanity in large population and
The culprits who are in small numbers are threatening peace and
Good works of wise men to destroy all in a rage of passion foolish!

It is difficult to create great work of art and developments in the
World, but easy to destroy all in no minute destroying themselves!

Ramesh T A
Say Hello To 2016 Soon!

Within a week we will say goodbye to 2015
And say hello to 2016 holding glass full of
Wine to say cheers to all with friends sure!

Let us sneer to sarcastic remarks of bitter hearts
And let us smile with inviting look of love ever
 Whoever one is to promote friendship and trust!

That way all nations and world people can be
United with one mind to feel we all belong to
One family of humanity living in One World!

Let us throw away terrorism and corruption
To the seas to harvest rich crops of gold ever
Toiling together to enrich the world with joy!

Let peace, love, friendship and development
Enrich everyone's life with joy and enthusiasm!

Ramesh T A
Scarcity Of Peace Diplomats Increase Demand For Poets!

How to bring two opposing persons to table for dialogue
And settle their problems is a big matter to handle ever;
This happens between developed and backward persons sure
Needing delicate tactics to deal it for a good settlement!

Rightist political ideology and backward religious ideology
Seem to be rocking the Earth after the World War II as Cold
War first between Soviet union and USA and then between US and
Communist and Islamic countries sans an end as Vietnam war..!

History means it should be full of wars many believe for long;
This is due to the fact that history repeats itself despite
Peace talks and cease fires between fighting nations forever;
Bringing an end to wars and eternal peace need diplomacy sure!

Skillful diplomatic talks are needed ever to make warring nations
To come to table for peace talks to bring peace to the world sure;
But, due to lack of such diplomats in world politics, other such
Kind of persons like writers, poets and peace activists need much!

Ramesh T A
Scary Effects!

Scary moments of first experience
About ghosts and now Aliens are
More than a thriller movie effect
Still lingers in heart in dark times!

Scary effects of art are puzzling
Than real scary things in life often
And activate on certain persons
Quite incredible to accept normally!

Supernatural acts are impossible
Ever to prove unless experience
One has sometime or other in life,
But a man of strong mind transcends!

Knowledge with clear mind only helps
Much to unearth falsity in scary times!

Ramesh T A
Scent Of Spring!

Like the smell of soil

Just when rain comes on dry day

Scent of Spring is!

Ramesh T A
Search For Earth Like Planet!

Today there is no sound of music from birds and squirrels;
The day is very hot with the wind blowing hot from the sea;
Depression has formed some 650 km over sea from the shore;
But before crossing the sea, wind becomes hot and blows hot!

Earth, mother Nature mercifully supports all kinds of life;
Gives fruits and water melon to all to quench summer thirst;
Gives warmth inside ice cave to protect all from winter cold;
Also maintains 4 deg. for the survival of water species below ice!

She allows eastivation for animals to survive in hot summer;
She allows hibernation for animals to survive in bitter winter;
She gives minerals from fruits to increase body immunity;
Also she helps all to survive, sustain and succeed in life ever!

Search is still on to find another Earth somewhere in Space;
Is there any Earth like planet anywhere in the wide Universe?

Ramesh T A
Second Season!

Hill station ever

Has second season

When September comes!

Ramesh T A
Secret Knowledge Is The Key To Progress!

Knowledge of arts and sciences was a matter of secret
In the past and taught only to the good, disciplined
And truthful ones only and of them, spiritual science
Master taught to the top class soul of students only!

Best knowledge in the world was discovered in India
And imparted to the most deserving students only in
Olden days and due to the deaths of such great masters,
Knowledge of ancient time disappeared in the world...!

Also, such great secrets of knowledge were stolen by
Foreign rulers of the past and taken to their countries;
The discoveries and inventions they make afterwards are
Just the left out little knowledge of past in their hands!

Only arts and material sciences are now spread to all
By education in the modern time according to western
Way of educational system sans any progress made in the
Spiritual science after India had developed in the past!

By invasions and wars many matters of secret knowledge
Had been destroyed and spiritual science has become
Completely unknown matter now and none believes anything
About incarnation, reincarnation and transmigration..!

The stories of great messiahs and sages are full of such
secret knowledge that quacks and fake mystics take advantage
Of to deceive common people everywhere to exploit riches of
Others for self develop of one's economy to live in luxury!

Now it has become a fashion, if one knows something others
Don't know, one boasts oneself of greatness by criticizing
And insulting others by not spreading such knowledge to others
For the growth of society hampering the progress of others!

Now development of knowledge of scripts of long spoken languages
Are gaining ground with some charlatans playing with scripts
They have known sans spreading them by educating all for good
And go on fighting in selecting script and soiling progress ever!
Such charlatans indulge in leg pulling works against critics
Who try to bring to the front the flaws of scripts for reforms;
Due to this kind of skirmishes in language wars, development of
Language is hampered to the extent of driving it to extinction!

Ramesh T A
Secrets Are For Survival And Security!

All for survival turn into good, bad and ugly according to situation and circumstance in life;  
But one wants to be other than what one likes to live world life with necessary things ready;  
Conditions of living, one has to follow, are such that all see one with the image one does all;  
Difference between one's image and natural one if various much, nobody will trust one forever!

End of one's drama will come one day, when all will know one in one's true colour sans fail;  
Full picture of one will make all get surprised or ashamed of being in company with such a one;  
Good many number of persons in life pretend rather than behave truthfully for survival ever;  
Having known of one's double role in life and work, many maintain equidistant from such one!

Icons among men may be good or bad so due to some reason till they materialize their objective;  
Just prolonging in the mask also not a permanent possibility as climax has to come sooner or later;  
Keeping up promise or one's vow, one will reveal who one is to the trusted people after a mission;  
Likewise, life of many goes on in the world full of mysteries helping or harming some or all ever!

Much needs to be studied, before one has to take a firm stand in company with such personalities;  
Nobody in the beginning knows of one in one's true colour unless they face extraordinary situation;  
Open secret of some also not so easily notable unless one is intelligent and smart in one's dealings;  
Particular character of one comes out, when one is emotionally out of control in the course of time!

Quickly also one cannot jump to a conclusion about one, because when truth is known, one will be placed in  
Restless position making all matters complicated to bring normalcy in joint
activities with such ones;
Spy networks have such kind of problems before all are introduced to each other in joint operations ever;
Transactions go on whether each one knows each other or not as doing things is important and not relations!

United actions for a common cause take place so as after the mission, they may meet or not depends on next job;
Verily such activities always go on suspense and thrill as we all see in such kind of movies generally;
World moves on so in the modern world of competition full of secrets to be maintained for security reasons!

X and Y connected persons cannot be known till the whole job is done jointly in many cases among nations;
Years of working together on foreign missions, they know each other only by intelligence strengthening ties;
Z box even before opened, missions ay be finished making secrets remain as secrets forever and ever....!

Ramesh T A
Seemingly The Same Kind Of Things!

Love and lust and love and like are misunderstood often by many!
Love is selfless and giving all, but lust and like are selfish desire;
If we like flower we pluck and wear, but if we love it, we grow more!

Jealousy and envy are two misleading ones too all have to know;
Jealousy of one is harmful to the good, but envy develops one..
Inspiring persons are affected by both jealousy and envious ones!

Politics and social service are services to the people all think.....;
But politics may do good or bad, but social service does good only!
Politics does for short term benefit, but statesmanship for long term!

Humanitarian and friend are both useful and helpful to many in life;
Humanitarian is useful in public at emergency time mainly in life, but
A friend is useful in public and helpful in private for lifelong in world!

Likewise, there are many seemingly the same kind of things in life
All have to know to be careful to do service to humanity for good..!

Ramesh T A
Select Worthy Person For World Prize!

Some get world prizes by luck due to lack of competitors; Nobel Prize to Bob Dylan is one such incidence in 2016; There were Robert Frost, Gandhi, Michael Jackson and Many such best personalities weren't given that prize...!

To be selected for Nobel Prize, one should be popular, Nominated by somebody else and selected by Nobel Committee, says a news making all wonder why they Have failed to note best poets ever writing on websites!

Political influence and the whimsicality of the committee Perhaps have made this coveted world prize a big farce! If it is a small amount nobody would feel much about it; But a big sum is wasted lavishly by giving it to someone!

If any prize is given to anyone, that one should be really A worthy one and whose works would then be a great Use to many inspiring many to work with perseverance To achieve perfection to contribute best to the world use!

Ramesh T A
Self Believers Of High Caste!

How has caste system come into vogue in Indian society?
Based on the work one does, caste is decided in society;
Brahmin caste is derived from the term Brahman, high caste;
They wear holy thread, take vegetarian food, do rituals!

Besides that, one who knows Hindu mantras for all occasions
And regularly does Gayatri mantra prayer four times a day,
At dawn, after noon, evening and night is a Brahmin, we say;
But sans knowing these things, some call themselves also so!

Not knowing the significance of three twain holy thread, some
Wear it, eat only veg food and don’t do manual work to call
Themselves as Brahmin and believe to be high caste human
Making themselves as comedy pieces in the society forever!

Not knowing that the three twain thread denotes three vows such
As thinking good things, doing things with kindness and involving
oneself ever in spiritualism, one has to follow some wear holy thread
To show as true Brahmins just to make others believe them to be so!

Ramesh T A
Self Realization Reveals Incredible Truth!

Hard time continues till difficulties are met out
In the course of human life by suitable measures;
Helping hands are there or not, facing the hell
And going ahead of difficult time only, all end!

No one knows how divine intervention will come
Through what means and who all in the world…;
But at the critical moment, miracle happens well
To make the hard time situation null and void…!

Miracle is incredible by human thoughts forever;
No one also can't believe such things happening
In he course of one's life in the world we live;
But only by experience realization proves it sure!

Value of any great thing can't be realized by all
Unless one understands it by self experience of it!

Ramesh T A
Self!

Philanthropy and Dharma

Are all only after

One's own Self!

Ramesh T A
Selfless Love Is Real Love!

Helping the helpless in life is love;
Feeling something for others is love;
Alleviating poverty is an act of love;
Providing free meals to public is love.

'Serving the poor is love in action, '
Says the world renowned Saint Teresa!
Saving the life in hospital is also love;
Providing education is also an act of love.

Whatever's done selflessly is an act of love;
Selfless action for the good of all is also love;
Love for others sans expecting benefit is love;
Love is beyond religion, nation, language, etc.!

Selflessly machine also does a lot of work,
But if man does so he is doing so out of love!

Ramesh T A
Selfless Works Of Great Scribes!

Minding not sacrifice Great writer selflessly writes
All his creative output and registers them on webs
For the world humanity to read and appreciate ever!

Great poet never longs for cheap ravishing reviews;
But always appreciates open hearts' view points for
All of his expressions touching the hearts of many!

Such works of great scribes are the world's worthy
Masterpieces generation after generation browse
For self satisfaction and cherishes in heart their works!

Becoming popular and wealthy is not the objective
But it's fortune's way of doing honour to such great
Ones mankind cannot forget ever even after longtime!

Masterpieces of great scribes are like works of a great
Statesman doing all with foresight no one can decipher!

Ramesh T A
Sense Of Beauty Makes One An Artist!

Beauty has a special appeal to anyone anywhere in the world; Anything said and done in a beautiful way has a reception Special in all walks of life everywhere sure ever indeed!

Beauty attracts heart, mind and soul of beings ever sure; Discipline, care and patience are all the attributes of A beautiful personality who loves to do all beautifully!

Love of beauty is the beginning of the making of an artist; Dream, imagination and thoughts involved to form an idea Is expressed in some form of art gives satisfaction to one!

Such activities of one qualify one as an artist sure ever; Such a one may be a painter, sculptor or a poet all welcome With good reception absorbed by one's creative work beautiful!

Beautiful creative work transforms disturbed mind into a Tranquil one impossible to be achieved by any other means!

Ramesh T A
Sense Of Beauty!

Going along the park I go to beach everyday;
In the first quadrant of the park I see pals....
Reminding me of my old friends of yore......,
When we met and discussed so many ideas!

We used to sit and relax on green grass lawn,
When we were studying in the arts college...,
Especially in the holiday evenings till night
After taking snacks in the nearby hotel ever!

Now no one does such an enjoyable meet-chats
As all are browsing on smart phones or simply
Playing video games like small kids even growing
Old and studying in colleges sans any maturity!

Even in the beach, they come with shabby dress
Sans any sense of neatness and behave like gypsies
Walking as herd and without caring for the beauty
Around; also, not interested in making themselves so!

Materialistic pursuits have made them lose touch with
Nature and its benefits in many ways not being taught
In educational institutions of the sense of Nature to be
Inculcated earlier to develop intellect and spiritualism!

Poetry, sense of beauty, truth and goodness are lacking
Due to the taste for them are not fed anywhere in any of
The gatherings they are involved for developing themselves
And such thoughts make me feel pity for their waste of time!

Ramesh T A
Sense Of Beauty, Goodness And Truth Reflects Loveliness!

Act of doing everything with a sense of beauty, goodness and truth Reflects the loveliness of one in art, music, painting and poetry! Kindness in words, gentleness in behaviour and act are naturally Born of loveliness in heart and mind denoting essence of humanness!

Loveliness lies in maintaining beauty of flowers by watering them Rather than plucking them out of desire revealing selfishness of lust! Love of maintaining beauty, order and perfection reflecting nature of An artist is loveliness in human action that denotes high culture!

Nature reflects its loveliness by its art picture on sky canvass, By beautiful green trees, meadows and grass lands with flowers Spreading fragrance to attract all by its loveliness unique as a Symbol of love kindling love in all though don't last long in life!

Even mundane things of Nature though having short duration for Survival in the world, devote themselves in highlighting loveliness More than anything else means that the Creator Himself wants to Remind love ever and spread love to live in joy by acts of loveliness!

Ramesh T A
Senseless Soul!

Soul reincarnates from one body to another body
Immediately when a body becomes worn out
Totally due to lack of energy to keep it fit to do
All works as it was long ago till it has become
Incapable of coping with the usual load to take up
In performing both the internal and external jobs
Just as an efficient machine or robot does for long!

Soul doesn't have feeling like the body as it cannot
Enjoy happiness or suffer pain or think high ideas
Or dream beautiful things of life in Nature or do
Anything like the efficient body does with hands,
Legs, brain to create whatever one imagines or feels
As it is senseless to fire or knife or water or wind or
Space that kindles feelings joyful or painful to body!

Ramesh T A
Thoughts, imagination and sentiments guide attitude of men;
Sentimental way of approaching matters makes all a fuss ever!
Even a small matter builds up tension spoiling the mood of peace
And the reactions thereafter create hell one cannot escape sure!

This is the nature of emotional persons due to fostering problems
That have moulded one to be sentimental and romantic in acts
Making one joyous on simple day today activities but for all
Other serious matters they cannot bear any odd situations in life!

No decision proper one can have based on such sentimental ones
Thoughts and ideas in discussions on vital situations in life sure…;
It makes difficult to take any decision and take action immediately
And leaves one to think all fresh sans their ideas in mind forever…!

Sentimental persons sans development of mind with knowledge
Surely makes them difficult to live in the world of chaos forever!

Ramesh T A
September Inspires Mood For Great Achievement!

After August with start of September all festivals come
One after the other till the dawn of New Year celebration
With colourful bonfires cracking everywhere in the world!

With excitement and brisk movements the year moves fast
And colourful flowers and fruits abound everywhere sure
Making all indulge in joyful celebrations with friends!

Nine and One Nights festival and Festival of Lights urge
All think of great ventures by the enthusiasm of happy mood
That makes all ready to finish the year's project for new one!

New ideas spring in the hearts and minds of adventure lovers
To have a new resolution to venture on with pals' cooperation
To achieve one of a kind achievement in the circle of all in one!

Sans inspiration, enthusiasm and excitement, nothing is interesting
And can move fast with full hope to achieve anything great in world life!

Ramesh T A
Serendipity!

Searching something
We find some other new thing
It's serendipity...!

Ramesh T A
Settled Family Life!

Settled family life, if one has, is fortunate in the world!
One can be assured one has a good life to lead doing
The work one likes undisturbed to achieve great feat!

But shackling off such a good setup, if one wants to go,
It will be only like the elephant that sprays on itself sand
After coming out of river bath along with its herd sure!

Some may think by training in the course of time, it is
Possible to turn an urchin into a family lady as depicted
In Pygmalion which is like straightening a dog's tail.....!

However hard one tries natural character can't be changed!
Even if one tries so, the street dog, which is washed and fed
Well, will again go out to the street and eat outside excretion!

Good character developed from childhood only can last long
Doing good thing in the world living a fine settled family life!

Ramesh T A
The lethargic cyclone is now blowing wind
At a lesser force on its way to north slowly!
This is the final weak knock out to the city
Perhaps allowing a bright dawn tomorrow!

Chill wind with bitter winter effect bites....
Even the bone inside the body of the weak!
What a profound cutting effect the chillness
Executes so clearly in the night after rain...!

Doing all kinds of havoc all day with rain
That usually takes three months, falls in just
One or two days concentrating on this very
Busy metropolitan city disrupting whole life!

Nature is settling its scores with man in this
November month by cyclone, rain and floods!

Ramesh T A
Severe Season!

Due to climate change, cold climate is severe
For ones having skin problem long to bear...!

Only month is changing in the Calendar, but
The real nature of the month is not showing
Itself immediately making all wait for change
To take place in a slow and steady pace perhaps!

Quite contrary to tropical region, climate change
Seems to affect like in other zones of our sphere
Making all undergo the harsh weather condition
Sans any respite wherever one lives in this planet!

But whatever be the severity of the season past
Still continuing, the next season surely has to
Appear sooner or later to put one and all in great
Surprise as Nature is noted for such magic ever!

Ramesh T A
Sex

Principle of Nature
Is perpetuation of species
Through sex!

Ramesh T A
Sex And Love In Life Of All In Nature!

Scientist Sigmund Freud lays stress on sex for all problems; Sixties, Seventies and eighties had romance with sex in all Stories, novels and silver screen movies all over the world And confused ideas between love and lust among youths and all!

Human intercourse as a relief from stress and strain has helped; After World Wars I and II, Psychos, homos and lesbians have Increased and marriages of that sorts have come up as legal too Making sexual life itself as farce leave alone heterosexuals!

Sex is biological necessity for all living beings in Nature; There is no difference between animals, birds, fish and humans As far as sexual urges and fulfilment are concerned forever As that is Nature's design for all living beings to flourish!

Sexual act man comes to know only by knowledge but not ever By instinct like all animals in Nature as intellect is greater Than instinct in man unlike animals that have the reverse status Due to underdevelopment of mind like higher beings like man!

When sex itself is difficult to know, understand and enjoy in life, How can love, the greatest emotional feeling of man be learnt and Pratised and spread among all in the world to unite mankind forever For peace and joy eschewing the sense of warring nature in man?

There comes the necessity of literature to give a clear picture of Human feelings, needs and fulfilment by love, a divine feeling Above all feelings of man that elevates humans to divine level ever And only that can solve all needs of man and bring peace to all sure!

Ramesh T A
Shameless Talkers Never Move Forward In Action!

Good talkers are not so good in action forever;  
Civilized relationship they wish to have with all;  
But their Hamlet type of nature makes them useless  
And they go on talking so as if paragon of virtue!

One side supporting terrorism and another side ever  
Talking about peace with neighbours, such persons  
Never realize that they are having one leg in dregs  
And another leg in floods of river as if all right!

The whole world knows that they are double meaning  
Talkers sans any sense of shame of what they have  
Been doing is like measuring with empty hand ever  
Leading to nowhere though many years go by fast..!

Without moving forward in peace talk even an inch,  
Thy say if the neighbour makes one step forward,  
They will make two steps forward in peace talk and  
Pull on the days with empty talks sans any shame!

Ramesh T A
Share Correct Information For Good!

Sharing information about self and status among friends
And sharing such information among their friends are
Always useful afterwards for many purposes in world life!

Without this being done, many misunderstanding about each
One leads to disappointment later on in the course of our
Life and there's no point in crying over spoiled milk later!

These things are done by talking among friends only ever;
But this talking business too has to be done with clarity
About self and status without leaving anything in blank..!

For, later on not able to know about the missing information,
Many make a wrong conclusion about really better person sure
And spoil both ones future of family life and better relations!

Relatives and friends should have communication about correct
Matters of each one's background, stature and status for good!

Ramesh T A
Sharing Of Life Experiences Vital!

So many incidences we come across in the course of life;
Many we forget and some we remember forever and talk of
All those unforgettable ones with all pals and people..;
Of them, cyclonic storms, tsunamis and floods are vital!

Tremors, earthquakes and forest fires are also very, very
Devastating incidences nobody can fail to mention in any
Conversation we have with friends and dear ones and also,
Discuss about the way to surmount such disasters in life!

They are all great life experiences no one can deny and
Always such incidences none can fail to remember when we
Discuss about life matters in any forum, clubs and private
Or public platforms when we are travelling to many places!

Sharing great experiences of life with all brings closer
All known and unknown new friends for a common cause sure!

Ramesh T A
--She Is--!

Smiling beauty sure she is sweet;
Loving heart she has to love all;
Friend she is with good hearts;
Joyful days she loves to live!

Free life she enjoys to live;
Lucky days she has in all works;
Sweet life she has as her heart;
Good heart she has all love much!

No vengeance she has on anyone;
Sweet lady she is to love forever;
Fair complexion she has as her heart;
Red lips she has to speak sweet words!

Beautiful walk she has as she goes as swan...
Sweet dance she does like peacock....and more!

Ramesh T A
Shining Bright Ever!

Shining Bright Ever!

Fortune smiles on the unassuming one
Whether it is joy or sorrow, profit or loss
And benefit or nothing in world life...!

Minding regularly one's life work, go on
Such a one to get satisfaction in all works
Done to the best one can forever and ever!

Fate or fortune doesn't interfere with one,
Who does all for the sake of the divine,
Who has given one with such a power....!

Such a one feels what you are is God's gift
And what you do with it is yours to Him
Whether it is in misfortune or fortune in life!

Performing one's duty to the best one can
One shines bright in all seasons of one's life!

Ramesh T A
Lot of engagements confuse the mind much,
If and when everyone wants quick reply...!
To exploit others, all press for quick replies
Which are not necessary at all in reality....!

Exploiting innocent people many make
Fast buck for their survival at others cost!
This has become the way of the world
Materialism being the trend everywhere!

As all matters are converging to money,
This Kind of exploitation has become a
Habit among all who want to come up
Quick not knowing it's not sure way...!

Caught by the web of greed, many seek
Short cut route not to heaven but hell...!

Ramesh T A
Shun Terrorism For Forward Movement Of World!

The symbol of world trade centre was the twin towers
Of New York, USA, which was brought down to ground
By breaking them by two planes controlled by terrorists!

Eleventh September is the day to remember that and
Take a resolution and pledge to stop terrorism once
And for all to make this world a place of peace sure!

Modern world cherishes civilization based on scientific
And technological developments and advancements ever,
But never out-moded radical religious bigotry sure...!

Forward movement of world economic trade and innovations
No progressive group or persons will shun and opt for
Fanatical movement to drive the world to dark ages sure!

No terrorist destruction can change the forward movement
Of the modern world for peace, progress and prosperity ever!

Ramesh T A
Shun With Fanatics Of Many Kind!

What can we say about fanatics of religion and language? There is no difference between both anywhere in the world! The die-hard of these are the extremists and terrorists, Who threaten unity and peace for good for nothing ever!

Religious bigots and language lunatics make loud sound And say raging slogans and stories signifying nothing! All fanatics make sound and musicians too make sound..; But what a difference between the two all know pretty well!

Spiritual meditation is direct link with Universal spiritual Energy that brings joy and peace with vigour and vitality; In the same way, music entertains and inspires whole soul And brings the lost mood of zeal to be happy and gay ever!

Meditation directly connects all with one God through sure; But all religionists with only one God ever fight with each Other without any reason and rhyme in the same way like the Linguistic fanatics unlike the music that has no language..!

Ramesh T A
Creativity is gift of God one has to use it to the best
For constructive works but never for destructive works;
Good mind, discipline, knowledge and training are the
Basic need for anyone to make this world a better place!

Sans discipline carelessness, arrogance, jealousy, ill
Will covetousness and bad mind will make all useless in
The world leading to hatred, violence, wars and total
Destruction of all good things created by good hearts!

Hence, love and discipline are most important for all
Ever to do worthwhile things for the well being of all;
That is why Nature, art and culture are least cared for
In the modern world of comfort, sophistication and luxury!

Without the proper foundation, no building of modernity
Can withstand any cyclonic storm or typhoon anytime sure!

Ramesh T A
Silence Is Better Than Useless Talks!

Communication of right information among friends develops Wise friendship that lasts longer than other friendships; With bricks of words, poets among them construct building Of Poetry that stands tall among many towering buildings!

Light-house is one such one that by its flash light shows The shore to the ships travelling on the ocean in the night; With the light of knowledge only wise men inspire and guide All to right route in the world life by their invaluable work!

It is better to talk with best ideas rather than just talk To while away time anywhere in the world whether one is in A journey in ship or train or meeting relatives or friends In some functions outside one's place to share wise ideas!

Silence is golden rather than talking useless matters just To pass time on a journey or attending a function somewhere!

Ramesh T A
Silencing Voice Of Spectre!

The spectre of violence is wielding power now
Whether it is Syria or France or Lebanon or
Whatever country in the world making all
Blink as to how to control and contain it....!

United Nations resolution is being awfully all
Are waiting to take united action against terror
Unleashed by Spectre in the world for long
Day by day going on unabatedly sans check..!

It's sooner the better all think to crush terror
In the bud itself before it flourishes favouring
The incorrigible mercenaries recruited by the
Spectre of terrorism under a black flag NOW!

Silencing voice of spectre only can give solace
To the world society for peace and prosperity!

Ramesh T A
Silent Humanity Is For Progress Ever!

Humanity is the world human society largest of all
Societies in the past, present and future sure here!
Such a vast society is ever silent minding its own
Works sans raising its voice for anything needed..!

Humanity running on its own industry or agriculture
Live life long whether the governments help or not,
They go on doing their level best to stand on its
Own legs ever as they are independent and confident!

In fact, humanity provides jobs and employments in
Their own line, if others willing to join in their
Venture to go ahead in peace and progress whether
They get any support or not from any quarter of world!

Humanity's silent progressive production runs the world
Against all odds and adverse situations only to fulfil
their targets in time for their self satisfaction better
Than all records sans working for achieving them in life!

Ramesh T A
Silent Performer Of Duty In Harmony With Nature As Example To All!

After the celebration of Harvest Festival for Rain and Sun
In the first and second day, now it is time to celebrate
For Ox and Cow for ploughing and milking to produce food
And milk for mankind forever and ever every year and on!

Like father and mother, ox and cow work to keep all well
In the world sans rest till they retire and die one day..!
Sans any grudging and complaint, they carry out all duties
Like a yogi who takes both joy and sorrow in the same way!

Their debt is to serve and live as long as possible here
Leaving for the Creator to take care for their matters
Sans any criticism whether rewarded at the apt time or not
As they have no voice to make promises and perform noting!

Ox and Cow are not politicians to do so, but are disciples
Of Nature destined to work as Sun, Moon and Stars in Universe!
In harmony with Nature, they live their life as example to
All living beings with contention of heart sans any ambition!

Ramesh T A
Simple Style Is Natural Unlike Artificial Decoration!

Natural state of existence is true, real and original;
Artificial state of existence is false and imitation;
Natural is lovely and artificial is beautiful, but in the
Long run, natural is ever lasting and beauty diminishes!

Relying on lasting natural one is better than mere beauty
Unstable except by makeup shows of one's understanding
And wisdom in choosing the right one to depend life long
To live a wise life in love, peace and harmony with Nature!

Simple style comes of natural desire making a permanent
Image unlike the decorated one that is never the same but
Always changing just to hoodwink others hiding the real
State of one's existence that disappoints when revealed!

Maintaining the same image ever is possible only by natural
Bahaviour but never by pretension that exposes one's darkness!

Ramesh T A
Simplicity And Image Of Great Personalities!

Simplicity in thoughts, words and actions shows the
Actual nature of a man different from artificiality;
Artificiality comes of concoction to look to be not
The original but something designed to be better...!

Maintaining the artificial make up long is impossible
As when one is out of one's control, the nature of one's
Character shows one's head in the true colour that makes
All not to believe and consider one's gesture acceptable!

But the mask or image one has built up and maintained long
All believe but not the simple and natural originality of
One's appearance as the image has embedded in the minds of
All in such a way that no one believes one's original status!

Simplicity shows the originality and naturalness of one like
The great leaders such as Gandhi, Ramakrishna Paramahamsa;
But there are also leaders like Nehru or MGR or Hitler known
By their images they have created of themselves in the world!

Ramesh T A
Sin And Punishment!

Facts are facts and can't be ignored in life and work ever; For, accurate facts are the truth in the final analysis sure! For a good and long term relationship whether it is family, Friendship or business, one should be true in all respects!

Lying, stealing with clever plan and living as thief one can Never make all wrongs right by acquiring wealth one day! It is a great sin to come up in life so in this world forever and Nothing can cleanse that by any means one should know!

The curse of the affected soul will bring the wrong doers Nightmares impossible to overcome ever in life and that's The greatest punishment one will be undergoing as in hell As life sentence decreed in the legal courts of the world!

One may escape using the loopholes of law and escape From punishment of the legal court of man in the world; But the wrong or sin committed will be the greatest wound One will be carrying in the heart never can be cured at all!

Ramesh T A
Sincerity Is The Basis To Achieve Laurels In Life!

Sincerity, honesty, truthfulness and morality are the embodiment Of discipline one has dispensing one's duties in life and work; Sincerity is the first need of one who can do all things better Of all other needs as discipline to execute all in the world ever!

Due to lack of sincerity in thoughts, words and deeds, administrative Machinery has lost honesty, truthfulness and morality in discharging All duties of nation becoming a pray to corruption sans any feeling For nation and indulging in all sorts of malpractices as slave sure!

Without sincerity, self-discipline one cannot foster ever to shine Bright in bold and straightforward acts based on clarity of thoughts; The biggest flaw in the character of bureaucracy of the nation has Joined hands with corrupt politicians and spoiled the glory of nation!

Sincerity has to start from schools and colleges as basic discipline In all as it is the basic necessity for all to achieve laurels in life!

Ramesh T A
Sing A New Song!

laala laala...lala....lala...!
lulla lulla.... lulla lulla....!

Let me sing a new song;
Let flowers come and dance!
There is nothing to fear;
There is joy only forever!

Is there control for the river?
Is there any reign for the wind?
So, let the flowers be free of fear;
Let them come and dance for ever!

The long winter slumber is over;
And the spring has come over!
There is only joy now forever;
Come on let us all sing, dance ever!

Blue sky is the umbrella in summer
And green meadow is the fun cover!
Let us all play like children ever
And joys engulf us all in fun forever!

laala laala.... lala...lala...!
lulla lulla..... lulla lulla....!

Ramesh T A
Singing Birds Singing For Relief!

Nightingales, Skylarks and other singing birds sing ever
Not for getting comments of appreciation, recognition for
Poetic skill in any public function and awards by a leader,
But for freeing oneself of all aches and ecstasies sure!

Both for pleasure and for pain, they all sing their songs
Direct from the depths of heart in cascades of great and
Beautiful expressions quite fine and one of a kind sans any
Learning and training through experts ever in world life!

There are a lot of precious hidden treasures in them that on
Getting a sudden mood to say what all they have in heart,
Mind and soul and get a relief and satisfaction that they
Have done the best within and probe for still more better!

Sans cooperation or competition, all best singing birds
Sing songs to free themselves of all stored up within long!

Ramesh T A
Skin Reflects Health!

Skin is the natural dress for all beings
protecting and beautifying body ever!
If the skin is affected, it is difficult to
Bear the external weather conditions!

Both hot and cold seasons affect skin...
Putting one and all in very difficult state!
Though beauty is skin deep, sans it.....
Health and all activities are in doldrums!

Only healthy state of body gives shine to skin;
Without health skin is lustreless and ugly....
Making all neglect and ignore such persons
However skillful and talented one is ever sure!

Skin is just an outer cover, but without it the
Whole system of body is affected very much!

Ramesh T A
Sky And Earth!

New and old

Never go close together

As Sky and Earth!

Ramesh T A
Sky Fall!

Clouds are there

Heat of sun is felt much

Rain only can subside

But rain dodges everyday

As if it's going to fall as Sky Fall!

Ramesh T A
Sky Sleeps Deep!

Winter time makes the sky to sleep
covering itself with grey clouds ever!
The sky opens its eyes now and then
And the world knows the day is on!

Again the sky covers itself with clouds
Dense, thick and dark still further long!
Cyclonic storm seems to be ready to go
Inside sea shore areas as early as possible!

All warnings are announced with 24 hours
Time for the storm to cross the shore sure!
All well prepared to see the arrival of storm
And do the needful immediately after effects!

Whether storm rages on the land or not,
Sky is deeply covered to sleep all the time!

Ramesh T A
Sleep To Rejuvenate Life!

Unconscious state of being is sleep;
Sleep refreshes mind, heart and soul.
While awake our activities are known
And while asleep no activity is known!

Dreams are common in sleep for all;
It fulfils the heart not possible otherwise!
First all starts as dreams and ends in action;
So, dream is consolation and inspiration!

Coming back to senses seems to be a magic!
If it does not take place one is concluded as dead!
In activities and sleep man's life goes on here;
But without good sleep no activity is bright!

Work while you work, play while play and also
Sleep while you sleep to rejuvenate your life!

Ramesh T A
Small But Worse Than Great Disease!

Air pollution everywhere subjects all to allergy
Causing nagging cold, cough and internal dryness
And no one seems to be out of its clutches sure!

Due to lesser immunity by old age, next to diabetes,
And Blood Pressure, all are affected by cold ever
That seems to be the greatest hurdle to enjoy life!

This cold problem caused by allergy often seems to
Give false diagnosis of greater diseases and the
Medicine taken due to them never seems to solve cold!

Cold, though a small health matter, gives greatest
Trouble all through the life leaving none free from
It so much that many feel ill for years together!

Lasting small illness seems to pose great threat to
All as if suffering from chronic diseases we know!

Ramesh T A
Small Drops Make A Big Flood!

A big flood is made up of small drops of rain
After a few minutes of rain fall in the town
Running to sea at last to mingle one with ocean!

All living beings are made up of many life cells
Composed of molecules, atoms and particles
Like matter is formed of mass by God particle!

All matters in the Universe formed by big bang
As the bonfire we see on the festival of lights
All celebrate in remembrance of victory of Dharma!

The matter called body of human beings is full of
Bacteria fighting a battle good and bad ones inside
Making survival possible by the victory of good ones!

All these actions and reactions between good and bad
Are like the battle for victory to reach the home of God!

Ramesh T A
Small Drops Of Rain Only Make A Big Flood!

Sans complete rest and relaxation, freshness of mind
And mood never seems to give necessary briskness ever;
Drowsiness occupies whole mind and with a sense of
Drunkenness one pulls on the day as in dream sure..!

Thoughts and imagination never works on such a time
Making one feel like in a state of trance for long..!
Time passes on even though nothing is done certain days;
But the sense of not doing worthwhile stirs the heart!

Day wasted without expressing worthwhile points in talks
Also pricks one's mind to do something better to make it
Look that a day has not been spent in vain making one feel
A sense of fulfilment for which one's hearts long everyday!

Efforts taken so in all the days of the year sans any help
Form others itself makes one feel that life is well utilized!
It is like small drops of rain making a big flood, if it falls
Now and then in summer time also before completing winter sure!

Ramesh T A
Small Is Beautiful!

If it's small
Even a donkey's baby
Will be beautiful!

Ramesh T A
Smile Is Unique Gesture Of Man!

First step for making friendship with anyone is smile;
Smile is the mark of a gentleman before all other things;
Before handshake and hello start from one to another one,
The beginning gesture is smile from the face of one ever!

Silence is the gesture of acceptance for any matter sure;
But smile is the gesture that helps to manage critical time
Without making any wrong statement at the first instant
Before all things are made for a favourable position in life!

Smile begins and laughter strengthens close friendship and
That later on leads to love also in some exceptional cases;
Smile, hello, handshake, hug and kiss make completion of a
Foundation to build a tower of great things to last forever!

Of all beautiful creatures, birds and animals, God has given
To man only to smile and think to be next to Him forever sure!
Smile no great soul ever forgets to make relationship go on
Smooth ground before flying to high region of life in the world!

Ramesh T A
Smile Of Love Deals All To Success!

Love in all relationships makes hatred and enmity impossible
To crop up anytime to sustain human life in a nice way sure;
In an indifferent atmosphere of any working place, just a
Smile of love can deal all matters better than before ever!

Smile, kind words and helping tendency are all born of love
That make any situation amicable for all to bear and adjust
To make things proceed in a smooth way without causing any
Anxiety and tension maintaining good mood for all damn sure!

In such a situation and circumstance only, romantic affairs
Begin well leading to love and happy life after marriage to
Do great deeds resulting in achievements that bring a lot of
Honours and encomiums to romantic fellows of good nature sure!

Whatever one does or forgets in life, keeping a smile on one's
Face is the first and best posture or gesture that helps to
Solve all difficult matters in a matter of fact way without
Any fuss and tussle among the group of various natures ever..!

Ramesh T A
Smile To Win!

When sorrow comes
Smile a bit whatever be the situation
You will win battle!

Ramesh T A
Soar High!

Young poets
See works of Bowen or Blackmore
And soar high!

Ramesh T A
Soar To Sublimity!

For spiritual pleasure
Look for Ramesh or Ori
To soar high to sublimity!

Ramesh T A
Soccer Prediction!

Octopus soccer prediction

Decides the victory for world cup

Among nations for 2010!

Ramesh T A
Economic developments have created material world...;
Only social development can change it into human one!

Such a social change is possible only by class education
That combines humanities and science to give knowledge
That empowers all to do anything in private and public!

With proper training in the field one is best at one can do
Job better anywhere in the world as a modern world citizen;
That's possible when all States function as one world nation!

With the creation of World Parliament by making reforms
Over the present United Nations Organization social change
Can be effectively made possible for all to live better in life...!

Human culture based civilization evolved out of advancement of
Knowledge only can help much social change possible in one world
Created by unanimous approval of all world unions in one voice...!

Ramesh T A
Soft Words!

Whispering soft words
Expressing love of heart
Unite lovers ever!

Ramesh T A
Soldiers To Sportsmen!

Fighting spirit never dies in man!
Man never sees wonder of his life;
Physical form of man is a miracle
That should be put to best use...!

This he has to remember before
Fight to the last to destroy all....!
Perhaps sports is created well
To satisfy warring talent for good!

Valour was decided by fight earlier....;
Fight was turned into sports in arena
That slowly turned into Olympic game
Starting from spear fight on horse back!

Soldiers turned into chivalrous knights,
Gladiators, national cadet corps, athletes,
Soccer, cricket and base ball players.....
Surely are far better than war soldiers!

Ramesh T A
Solving Problem By Intuition Sans Steps!

Intuition is instant correct mental guess of anything
Without following the process of intellectual thoughts;
Intuition is giving correct answer for a mathematical
Problem without steps required to arrive at the result!

Mystics and scientists like Nostradamus and Einstein
Whose predictions have come true later on in history
Show the power of intuition of great and noble minds
Mankind admires with awe for making such feats rare!

Intuition is extraordinary mental calculation done fast
Unlike all other ordinary persons in the world sure
To say for sure about some difficult matter impossible
To solve at all for long before by anyone in the world!

Intuition is unique mental capacity born of deep thoughts
In one as an intellectual for solving quiz without steps!

Ramesh T A
Some Remembrances Of Aliens!

Unidentified flying objects haven been spotted on Earth; Signs created on the green fields of England say about Alien's works kindling curiosity to explore about them..

Inscriptions on rocks and drawings of various forms of Aliens South America and Iraq give ideas to identify them As giants, greys and aliens according to their sizes...

Greys are said to be a new breed of humans with genes of Aliens with great intelligence, some magical powers and So on are attributed to their nature and character....!

Pyramids of Egypt and other places and Temples of India Too are said to be models of rockets with crew cabins Inside are where deities are giving poses to the people!

Tribal people celebrate with strange dances in remembrance Of Aliens believing that they will return here one day...

Ramesh T A
Somehow We Forget Something Or Other!

Many things we forget, when happenings are many in life;
After finishing a thing, when we return back, we forget
To close one thing or other that we recollect very late;
Again go back to that place to set-right the thing ever!

This happens often even though we are careful in doing
Anything everyday of our life only to miss something...!
Forgetfulness is a common among busy people engaged with
Too many works at the same time, though we do all well!

Forgetting to carry suitcase while travelling in train
And remembering that only after the journey has started;
Also, hurrying to railway station to catch the reserved
Seats in train sans switching off lights, while locking house!

likewise, so many things we forget, when we are concentrating
On urgent one immediately to finish work in time everyday sure!

Ramesh T A
Somerset Maugham

Somerset Maugham
A novelist and critic
I remember now here!
'Beauty is truth! '
Says John Keats
But he says not!
Ant and Grasshopper
Story know we all
But his is different!
Beauty is painted veil
[The Painted Veil, novel]
Luck decides life's fate
Maugham says well!
'Poetry is crown
Of literature' ever
Beautifully says he!
Somerset Maugham
I can't fail to like!

Ramesh T A
Somewhere Floating In Dreams...!

Somewhere in the Universe move I floating,
Crossing many Stars and planets unknown
Wander I as a lone Star wondering of them
In dreams colourful and fantastic so far!

Somewhere in the deep ocean dive I swimming,
Encountering colourful fishes and mermaids
Inviting me to have fun with them on oyster beds
In dreams full of fantasy and magic ever!

Somewhere in the garden of paradise walk I musing,
Enjoying the fragrance of colourful flowers and fruits
Freshly blooming for my arrival to appreciate all
In dreams of heavenly Nature full of blissful joy!

Do we live without dreams of fun and frolicsome ease
To rejuvenate inner spirit long in this world of tension?

Ramesh T A
Song!

Song, old and new
Is the world Time machine
That takes to
Past, present and future
As you please....!

Ramesh T A
The unknown singing bird sang
Several songs for some years;
The songs of the singing bird
Soon created news and history!
All the life songs of the bird about
Nature and culture are literature now!

Knowledge and experience give wisdom
That gives a system of life to live;
This is called human culture.
For all, the beginning and the end
Are in Nature only and so it is
The friend, philosopher and guide
Not only to poets, scientists and artists
But also to the whole of mankind.

From first melody to last funeral song
All songs say only about human love!
In reality the more we love the dear one
The more the dear one goes far away!
The tragedy of loved one lives in mind
Ever plunging everyone in endless tears!

Love is the source of all creations in evolution
From blue green algae to man in the world!
Without love nothing can be created and
Great things worthwhile are achieved by men!
One such great thing is poetry of great poets
Absorbing heart, mind and soul of man ever!

What is poetry? Poetry is the magical expression,
Words of poet's heart echoing in the minds of men!
Building castle in the air and capturing in camera
Poetry does to produce the album of poetry book!
Collecting honey from flowers to build beehive
Poet bee weaves ideas together to compose poetry!

Arranging beautiful ideas focused on a subject
A great work of art poet creates in poetry with
Sound, sense, substance and seriousness in words!
Beautiful, sweet and light music of poetry absorbs
Heart, mind and soul to entertain and instruct with
Inspiring ideas to live a happy and prosperous life
With confidence, courage and endurance in the world!

Expressing experience of life in meaningful verse
Poet finds favour with everyone everywhere here!
Compressing many ideas in a nutshell, poet makes it
Possible to reveal Universal truths from trivialities;
Such a magical art in any other form of literature
It is not worth trying other than in poetry alone!

The all absorbing power of poetry is an invaluable art
That has royal reception everywhere in world literature.
Sweet songs of Nightingale, beautiful dance of peacock
And so on will be immortal and unforgettable in poetry!
So, the songs of the singing bird, whom we call a poet,
Will echo eternally in the hearts of men and world of art!

Ramesh T A
Sonner The Better!

Uncontrolled population growth and traffic
Surely make dirty all human habitat ever!

Pollution of environment and destruction
Of natural resources for short range benefits
Kill biological recycling system to nowhere!

Long droughts, heavy rains with floods, etc.
Inundate nations under water irrecoverable!

Pampering with Nature is direct destruction
All have to pay by heavy price beyond all
Limits man has faced so far sooner or later!

Exploitation due to greed will make survival
Of humankind impossible if not rectified....!

Realization should dawn upon all to save Earth
From turning into desert like other planets...!

Ramesh T A
Sound And Silence

Noise of all
Abounds all day ending in
Night's silence!

Ramesh T A
Sourashtra!

Soura is a Sanskrit term meaning flame or dawn of Sun
And the people worshiping Sun are called as Sourashtraians!
It is presumed that even Adi Shankara learnt the Mantra
Called Gayathri from the Sourashtraians visiting Gujarat!

Many Sanskrit words are coined from the basic Prakrit
Language of Sorouseni now called as Sourashtra sure!
That language, which was in practice in Sourashtra province,
Can be heard only among the Sourashtraians of Tamilnadu!

It's a miracle that an oldest language without script sure
Is still in practice with the mixture of Aryan and Dravidian
Languages of North and South of India in the South now!
With the Tamil or English script, Sourashtra is being written!

When Sanskrit, Latin and other ancient languages have extinct,
Sourashtra language is still in use with the migrated Sourashtraians!

Ramesh T A
Source Of Miracle Love Is!

Love is the beautiful behaviour of human life ever;  
That is the best culture and human civilization and  
Is where open, frank and free discussion take place  
Sharing enjoyable experiences quite enlightening...!

Hugging and kissing meeting the loved one give sure  
Comfort, peace and joy nothing can give anywhere...!  
Love at first sight or chat surely brings closer two souls  
Made for each other and is the greatest wonder of all..!

Enjoyment of love by the union of two souls from things of  
Creativity based on similar taste is ever lasting in the world  
Achieving miracles in the field they are best at benefiting  
Them and humanity to sustain with hope urging to do best!

Love is the source for making miracles possible by the efforts  
That seemed to be impossible earlier in life in this world sure!

Ramesh T A
Souvenir Of Sea!

Both Sky and Sea are dark in the night.
Only light of an anchored ship is seen
At a distance from the shore of the town.
A few lights of the old pier is also there;
Before the middle of beach road all see
Some left out iron pieces of old pier ever.
Corrosion and erosion of iron and shore
Sea never bothers to decimate by salt water;
But the relic of old piers carry great history
That all talk about and carry to other places.
Not only the relics but also new constructions
Tell many old and new stories to all standing
As achievements of past and present for the
Posterity in the future too as souvenir does..!

Ramesh T A
Space Adventures!

Alien abduction of humans for experiments
Look bizarre and weird for world men long!
They used Earth as a junction in Universe,
As testing laboratory and a place of hideout!

Extra=Terrestrial's manipulation of genes....
Perhaps could have created man from animal
And left man to develop and advance using
Mind to gain knowledge to their level soon...!

Until then, it is not possible for man to have contact
With aliens to go to their place and have exchange
Of ideas and further developments to explore the
Whole of Universe with transport system advanced!

Steps being taken now perhaps will help much man
In the future to accomplish all Space adventures well!

Ramesh T A
**Space!**

Space is home

For matter, water, gas, energy

Big Bang or not!

Ramesh T A
Speciality Of Poetry!

Poetry only rescues to give respite and relief
For high mind in distress inevitable anyway!
Writing about the feeling one gets in diversion
Like a far away misty hill station as in winter!

Far from the madding crowd, it serves well to
Give peace and most of all bliss that simply
Rejuvenates spirit, clears mind and brings joy
Nothing can provide like the living art, Nature!

The experiences of Nature one enjoys, when
Written in words of a verse remain indelible
To recollect that unique sense whenever one is
In irrecoverable distress, that too in loneliness!

Except poetry no one else fulfils that requirement
In whatever way one tries to pacify one's heart....!

Ramesh T A
Spectre!

Rain lashing all day long night has come!
An army of rain clouds raided all day and
Dampness keeps all washed clothes wet...
Making all drenched in water including
Even main roads too clogged with water!

Caught inside the flat, we watch TV only
To know about storm news and some....
Entertaining movie already well known...!
Especially James Bond movie with Sean..
Connery starring in Never Say Never Again
Looks to be nice about Spectre terrorist firm!

It reminds me of the new James Bond movie,
Spectre which is supposed to be released in
November just after Halloween's Day today!

Ramesh T A
Speed Of Year Picks Up With August!

National and festival holidays begin from August on
Picking up the run speed on and on of the year till
The end and Start of New Year making world joyful..!

Fun and pageantry in each and every nation is beautiful
And lovely for all people to unite and celebrate in joy
So much that all don't want to see the end of festivals!

Yet, who can control and stop the run of fun of festivals
every month from August on till December and January ever?
And world life goes on the same lovely and joyful track..!

Nature of the world is so destined to be by the Almighty
That all cannot leave aside human unity, love and fun in
Festivals of great joy that perpetuates human species ever!

Seasonal change of Nature is meant to be celebrated due to its
Colour, benefits and fun of festivals due to that ever sure!

Ramesh T A
Spirit

Spirit is
Unaffected by pain, pleasure,
Desire, fear....!

Ramesh T A
Spirit Of Undecipherable Magic!

Spirit of Undecipherable Magic!

Seeing the beauty of Nature at dawn or dusk
And musing over its grand beauty simply...
And surely elevates..... heart, mind and soul!

Inner self is transported to another dimension
Quite relieving and relaxing one from all pain
That has been persisting as nagging cold long!

What magic living picture of beauty Nature is
Changing so fast and at the same time doing
Incredible miracle to the onlooker in spell long!

Still spell binding effect of living natural beauty
That captures whole soul working as magic potion
Surely the best panacea for all illnesses of mankind!

This spell binding effect of Nature reflects divine
Spirit within all activating magic undecipherable!

Ramesh T A
Spirit!

Mountains, meadows, Valleys and plains,
Brooks, streams, rivers, seas and ocean,
Seeds, plants, trees, leaves, flowers and fruits,
Sun, Moon, Stars, Galaxies, Universe and Space,
Algae, fish, reptiles, animals, man and birds,
Mist, fog, clouds, ice, rain, falls and water,
Air, gale, wind, storm, Tsunami and typhoon,
Tremor, earthquake, volcano and blizzards,
Mountains, hills, cliffs, ridges, rocks and plains,
Atmosphere, Space, Universe and Outer Space,
Man, mystics, seers, sages, yogies, divines, God,
Litterateurs, scientists, artists, philosophers, poets,
Girls, ladies, women, mothers, angels, goddesses,
Fools, intellectuals, geniuses are nothing sans spirit!

Ramesh T A
Spiritual Power Of Mind!

By meditation it may be possible to visualize past, present and also, future of oneself; 
But proving what has been discovered about self is not so easy as we visualize ever!
Mind travel with spirit of one is a great wonder one can experience in lief damn sure;  
But such an experience is like a great dream only having no proof to explain to all!

Photo-metric effect of mind gives the chance for mind to travel to the past to know self;  
Clairvoyance of mind helps to know about the destiny and future reincarnation of one;  
The present we can recollect by conscious effect itself from the birth up to now sure;  
Such things are quite strange to visualize and impossible to explain to all ever at all!

Persons having power of intuition only can understand such happenings of others; 
Transmigration is another great mystery of mystics who excelled in ultimate meditation;  
Those ancient spiritual arts of great mystics are still a great puzzle impossible to unearth;  
But mystical nature of one perhaps can give the clue to learn and achieve great feats!

Mastering the science of yoga in practice perhaps can help one experience such arts  
And discover many mysteries of myriad mind to transform oneself to a divine by firm will!

Ramesh T A
Spiritual Upliftment In Nature!

Spiritual satisfaction one can get nowhere else better than Nature ever;
Nature is the source and destination for all things and beings in the world;
For, we are all evolved from Nature as the child born from the mother
And is why, both for sorrow and joy, Nature is the best companion to share with!

Nature is the reliable friend, philosopher and guide, when all wash their hands
And leave one in despair horrible and dark in life as one left alone in forest;
Loneliness in Nature finally enlightens one in higher state of Self to sublimity,
That gives spiritual strength to rise high from the den of darkness to brightness!

Nature opens another door and turns a new leaf of life with spirit and enthusiasm;
The new path lifts one high intellectually and spiritually towards liberation sure;
Nothing thereafter chains one to any hardship in life, but opens all gates far and wide
For one to have easy entry so as to swim in rapture in divine bliss long!

Knowledge and love free one's soul in joy, peace and satisfaction as never before
And all achievements in one's efforts give fulfilment and high recognition finally!

Ramesh T A
Spoil System Of Greedy Politics Blocks Progress Of Human Society!

All political things are done for publicity only anywhere ever; Best, noble and great things are done by silent social workers; Corruption is made into a culture only by political die-hards; Duty, discipline and dignity no politician cares for anywhere!

Everything is spoiled by politics earning the name as gutter; Fools are not people but the politicians fooling the people; Good opportunities are wasted by politicians to lose in polls; Heaven like world is turned into hell, when all are politicized!

Icons of politics spoil the youths taking them to wrong routes; Joy of creativity, inventions and great works are spoiled by it; Keeping pace with world developments is beyond politicians'reach; Learning by doing is wisdom, but spoiling good works is politics!

Movements of democracy by people are crushed by old ideologies; Nonsense is made sense and sense is made nonsense by politicians; Obsolete and obscene matters are bone of contention among politicians; Popular parities with the demise of great leaders disappear forever!

Quiet social works of great souls are taken advantage of by politicians; Right reactionary politicians lead to violence to gain foothold in public; State of affairs under the control of corrupt politicians leads to chaos; Truth, talent and hard works of sincere people are never rewarded here!

Utilization of natural resources sons conservation is exploited by greed; Various development projects remain on the back-burners due to bad leaders; World reels under chaos mainly due to hardliner politicians everywhere now!

X and Y like good social service minded politicians are made address-less; Years of hard works of great well wishers are blocked by greedy politicians; Zeal of doing great social service is hence willingly made to die in society!

Ramesh T A
Spoiling One's Life!

Gentle elephant sometimes
Threw sand on itself for nil
Like some spoil their life!

Ramesh T A
Sports In Lieu Of Wars!

Parcipation of all nations in Olympics 2016 is over;  
From Greecian time to the present it's a best event  
That unites nations to assess the sports talent in all  
Instead of testing one's valour in wars of the world!

This way the warring minds are softened and also,  
The nature of dominating others goes down in the  
Show of talent that can be appreciated by all with  
Gold, silver and bronze metals full of real recognition!

Even during the second World War time also such an  
Event has taken place between Allied and Axis forces  
Sans relinquishing racism by Nazist force of the world  
Then to show their superiority even in sports aginst all!

In the old testament, the chariot race between the Jew  
And the Roman soldier is a typical example to note here!  
Sports is created to forget enmity and promote friendship  
And appreciate the unique talent of each by one's valour!

Ramesh T A
Spring Behind Winter!

Winter snow

Still persisting with chill longer

Spring waits to spring!

Ramesh T A
Spring Comes!

Sky is getting clear

A few clouds is changing colours

Spring is sure to come!

Ramesh T A
St. Valentine's Day In February!

Everyone is talking about love in February!
February is the month of St. Valentine’s Day,
Which is celebrated in memory of that saint,
Who sacrificed his life for the union of lovers!

Every religion preaches about love for best life!
Love is selfless act of empathy for others feeling
Not an easy job to practise in real life in the world!
So, lovers are warned against pitfalls in real life.

When this is so, who can practise love in the world?
One who is strong, brave, capable of standing on
One's own leg only can practise love to support the
Beloved through thick and thin in life till the end...!

Other romantic loiterers can only send gifts, greetings
And spend happy time in celebrating St. Valentine Day!

Ramesh T A
Star

Triangle penetrates through
Inverted triangle to enjoy bliss
As Star of the Sky!

Ramesh T A
Star Shining Eyes!

Stars are Sun in the Sky!
Each Star is a pair of triangle,
A triangle with inverted one
Well coupled to make union!

Sunset brings cold at night
With Moon reflecting Sun!
Stars in dark night Sky
Shine as diamonds never old!

Sun never becomes cold!
Stars never stop shining!
The union of opposite poles
Couples to form one Earth!

Stars are there to remind
The union of couple ever!
Honey Moon couples enjoy
With Stars shining in eyes!

Ramesh T A
Stateless Citizens Forever!

Due to continuous wars, properties and lives are lost;  
It is unbearable tragedy for surviving others ever  
And they leave their countries to other countries as  
Refugees and after many years they are Stateless people!

Vietnamese, Ceylon Tamils and Syrians seeking peaceful  
Places have settled in other countries since a longtime;  
American, Canadian, European and Australian countries  
Have accommodated them with food and shelter to survive!

Recently, Lebanon has allowed refugees numbering 15,00,000;  
Even Israel has allowed refugees around 2,00,000 in number;  
Turkey has refugees around 40,00,000 in number surviving;  
India already has 2,00,000 Tamil refugees from Sri Lanka!

Unless wars of the world come to an end, where is the future  
For the refugees except to be Stateless citizens forever...!

Ramesh T A
Status Of Freedom!

Without freedom power cannot be exercised ever!
Freedom with many restrictions is no freedom at all!
Can you do anything as you wish in the world?
A big question arises if everything becomes tedious!

With knowledge all have to be tackled to enjoy freedom;
With love all complexities and tension can be nullified.
Approach to matters with love and knowledge eases all
And many hard nuts can be cracked against all odds!

Non-attachment and patience are needed to deal all matters
So that all effects of adversities can be made null and void!
This is the approach to life holy song of Lord always helps
When one is in great hardships or in bad health forever here!

Knowledge is power but without love nothing can be achieved!
Wisdom of experience helps enjoy freedom here, liberty there!

Ramesh T A
Status Of Nonviolence!

Followers of truth and nonviolence are mocked at!
Nobody relies on nonviolent way of life nowadays;
Really the fakir of India was an incredible soul
To have walked on the Earth with flesh and bone!

Only violent person dominates the scene anywhere;
Even the hero in the movie is respected by all only
If he has the capacity to fight physically against all!
This is the trend of the world nobody can change!

Peace, truth and nonviolence will have no respect
As long as people are afraid of a few terrorists now!
Fear is the key the extremists use to materialise all
They want against the world wish so long here!

Nonviolence needs expertise and strength to follow!
Will the world wade through waves of terrorist woes?

Ramesh T A
Stepping Stones To Sublimity!

Stepping Stones to Sublimity!

Hot day has come to an end!
Sans current it's sweating all day!
At Sunset time current has come at last!

West to East Sky looks from green to blue!
Rose carpet clouds are slowly turning to brown;
Sky turns dim in colour from East to West to darkness!

The green to blue colour of Sky becomes dark;
Night has set in for the Stars to pop up one by one;
Steady change of scene makes Sky canvas a beautiful picture!

The inspiration of Nature surely kindles poet to write all;
Surely the Sky is the wisdom giving philosophic tree forever
And whose flowers are Stars that wink their eyes to make all joyful!

Ideas of mystical mood in Nature are stepping stones to sublimity
That transform all dark mood to sparkling light of bliss to peace sure!

Ramesh T A
Still Life Goes On....!

Love they much at the start;
Life is amicably well settled;
Even children get going on!

Life becomes sourly to taste;
Divorce also they are ready for;
They consult friends and all!

One sided people support divorce;
But wise one advise them differently!
They suggest them to live for children.

They pull on the days biting teeth!
Children go and earn for life;
Each falls in love and starts life!

Father lives with son's family...!
Mother lives with daughter's family!

Ramesh T A
Still Pupils!

Sans mental maturity

Physically, educationally grown

Persons are still pupils!

Ramesh T A
Stooges On World Forum!

Funny people do double contrasting things
Like the transgender ones do sans shame
Making all think that they are senseless too!

Such a thing if a national leader does in an
International forum, what the multi-nationals
Do - feel pity for him or show angry or isolate?

If you are a modern, civilized, secular minded man,
You will wear attire, behave, talk and do all things
Accordingly creating credibility to all nationals sure!

But if you pose as a modern man and support all
Things of radical bigots of terrorist organizations
In World forum, how can anyone support you at all?

Either you must be a senseless fool or believe all others
Are fools feeling all can be hoodwinked being diplomats!
Are all diplomats fools to support a stooge like you ever?

The most funniest thing is he delivers speech sans sense
And asks support for his foolish cause in the world forum!
Will the world laugh or cry for this foolish show on stage?

Ramesh T A
Stop Bullying For Good!

Bullying others is a fun for some;
Who are those some who do so?
Generally good for nothing guys!

The pity is some culture adopts it!
Halloween's day celebration is one;
Using this as guise many indulge so!

Faith should be based on truth ever!
Superstitions lead nowhere sure;
This all should know and do better!

Festivals are there to unite people;
Clear all confusions and promote...
Peace and love in humour and fun!

Gathering people, all enjoy fun
And is best way to promote joy!

Ramesh T A
Stop Burning House To Kill Mosquitoes!

Big and horrible terrorists are decimated in the world;  
Yet, menace, mayhem and destruction go on undauntedly;  
In some countries, it is like burning house to kill  
Mosquito menaces disturbing sleep, work and joy ever!

Wars go on endlessly in nook and corner of the world  
For a very longtime to put an end to terrorist violence;  
Like the termites they build their camps here and there  
And indulge in violence occupying all armies to be busy!

War against terror is like giving great exercise to all  
Army rank and file in each and every country in the world;  
Yet, conflicts go on like guerrilla warfare like the  
Children play hide and seek to spend time till satisfied!

Cause of extremism leading to terrorism and violence and  
Wars in the world needs to scrutinized and clever plans  
Have to be drawn to meet them red-handed to put an end to  
This kind of horrible mischief like rats' incursion by trap!

Ramesh T A
Stop Wars And Conflicts!

Despite the functioning of the unique and Great world body famously known as the United Nations Organization in New York, War and conflicts are going on endlessly in The world between the govts. and rebels and Also between religious terrorists and nations!

This saddest state of humankind underscores The need for strengthening and reforming the UNO at the earliest so that the inhuman fights And punishments met out to innocent people Can be brought to an end fair and just sans Fail bringing peace and joy to their rightful Places in the governance of the nations by the Representatives of the people to prosperity.....!

Ramesh T A
Storms Are Common Today!

Night full of dark clouds is standing still
Waiting for the coming rain at any moment!
Rain comes before the storm and after it too
Being a cyclonic storm carrying rain on rims!

There is eerie calm after the beginning of storm;
Then the storm with full speed attacks towns
Along the coastal line of the region under storm!
Afterwards the normal situation reappears there!

This is the usual story of cyclones everywhere!
Cyclones of the tropics are hurricanes of North;
Like storms of the bays are the typhoons of Pacific
Or the Atlantic Ocean countries of the world ever!

Now Summer or Winter due to climatic changes
Cyclones, hurricanes, storms or typhoons are common!

Ramesh T A
Strange Living Conditions Of Living Beings!

It is a great wonder fish surviving in water ever!
When cold climate is unbearable even on land..., How can the fish survive and live long in water?
These things make all think much about that ever.

Living beings on land will freeze to death, if they
All are put on freezing cold water in the winter..!
Also, it is very strange fish cannot live on land and
Immediately die, if they fall on land in Summer...!

But there are some exceptions both on land and
In water as they are capable of living either way!
Such living beings are known as amphibians like
Frog, turtle, crocodile, hippopotamus, snake, etc.

Also, quite strange is hibernation and estivation
Called as Winter sleep and Summer sleep of some
Animals for survival in the extreme climatic states
Quite impossible to digest as far as their lives are!

Ramesh T A
Strange Style Of Functioning Of National Government!

Politics and media play a big role in the function of democracy;
Right to individual speech and expression in all forms is effective;
More than doing duty to make achievements, talks take lion's share;
Many developmental matters are lying in pending for decades together!

Laying of new roads and railway lines for connecting places are nil;
Due to non-developmental governments, business and economy are zero
Turning many places as just tourist spots of a nation sans attraction;
Being state affairs are so, how can standard of social life improve?

All matters indicate that the fault lies in corruption at the cost of
All works lying on back-burner due to lazy function of bureaucracy
Everything being manipulated by gullible talks of political icons
National government pull on the days filling their own pockets only!

Consequently, rich becomes richer and poor becomes poorer day by day
Fooling the people and compensating losses by new, new taxes forever!

Ramesh T A
Street Dog!

Stray dog however hard

One tries to bath and feed

Will quit to eat thrown food!

Ramesh T A
Strive For Good Cause To Achieve Best Things!

Freedom fighters dying for the cause are honoured as martyrs;  
But how can separatists dying in the fight be praised as martyrs?  
If they happen to be extremists/terrorists who can glorify them?

Terrorists calling themselves as freedom fighters are not good ones;  
Terrorists working for separatism cannot also be called as good ones;  
Both of them soaked in the pond can be termed only as bad terrorists!

There are no good or bad terrorists to be eulogized or glorified ever!  
They are all prone to violence cannot achieve anything for peace!  
Their all activities end only in shattered pieces by bomb blasts sure!

Relying upon such extremists many a soul has been sacrificed so long  
That at least here afterwards youths should realize their responsibility  
And strive for good cause with broad ambition to achieve best thing!

For, such kind of antisocial elements are all radical bigots of religions  
Leading wayward youngsters to nowhere with any guarantee reliable!

Ramesh T A
Struggle For Survival Is The Natural Policy Of Life!

All struggle for survival unless well placed with all one needs;
Survival of the fittest is justice in the animal kingdom of forest;
Justice was decided by the success of fittest in a struggle as race;
Struggle is maximum possible efforts one exerts to eke out a living!

Hunger, poverty and unemployment of many leave them to struggle ever
In the do or die situation of life for survival, if they prefer sure;
There is no alternative for them from this dictum they have to fulfil
Till they succeed in life or give up life of the world for the other!

It is well known that there is no gain without pain in human world..;
Even living life is bitter sweet as love is painful pleasure for all;
Sans a struggle in the day, no one can enjoy pleasure in the night ever;
Day and night revolve round the day to have a completion by Nature..!

Without difficulties in life, value of happiness cannot be realized;
Sans the policy of struggle for survival, life wouldn't have evolved!

Ramesh T A
Students' Dreams A Mirage!

Students live in the dream world of future
Not knowing the reality of world life sure!
Before they finish school education, they
Dream and plan many things forgetting fate!

Many years they study in school to get all
Top marks in subjects only to meet with fail
Result in the national entrance exams to get
A seat in the college of medicine or technology!

Due to variations in syllabus or study materials
In various States of the national, many students'
Dreams of higher studies to become professionals
Are shattered to pieces driving them to suicides!

Had the schools and colleges uniform syllabuses
Students would have fulfilled their dreams joyfully!

Ramesh T A
Sublime Music!

Dreaming of golden world many bear punches of reality!
With hopes of a better tomorrow never diminishing in mind
Pull on the days doing what each can in this world of hurry!

All misfortunes of the suffering lot can't be construed as real
Until the final stroke brings all chaos to null and void status
Transforming all anarchy to a peaceful utopia all dream about!

The seemingly victorious moments of the devils never last longer
Once the onslaught of justice on the judgement day for all comes
To bring peace and love to prevail on the world of men of ours...!

All the jingoistic dances of the half-baked ones go on pretty well
Once the well versed ones come on the stage to render their play
Surprising one and all in spell bound state by music sublime sure!

Music of love no one knows where and when it begins and also,
No one knows when and where will end until music ends in peace!

Ramesh T A
Success And Failure In The Competition!

Lucky persons are the winners in competitions and entrance exams;
But sincere and hard working of deserving persons won't fail sure;
If not now, at least in the subsequent rounds, they get good chances
To secure a top position and come out in flying colours one day..!

In professional works, competitions are common leading to tough time;
Delayed announcements of results are a great tension building one;
By the time it is announced, all lose interest and go ahead with next
Plan of action unless it seems to be a most extraordinary one sure!

After the winners are announced, the process of selection in good
Places of study and work comes playing a critical role in one's life;
Choosing and getting place and institution of interest another matter
All pay much attention to and winners in this venture are the happiest!

Life in the modern age of science and technology goes on so for all;
No one can escape from this race whether success or failure is there!

Ramesh T A
Success In All Fields Lies In Right Decision!

Success of managing company or family lies in taking
Right decision on works when and how to be started
And also, when and how to be completed by listing them
In order to avoid unnecessary works and expenses ever!

To solve problems multiple in nature, list of works in
Order has to be taken up one by one after the other;
That way all confusions and wastage can be avoided well
Concentrating on main and really necessary works sure!

Unless such a managing technique is properly handled,
Unnecessary double expenditures can't be avoided and
Works also can't be completed in short period with full
Efficiency and effectiveness satisfying all concerned!

A person of correct management techniques is a boon for
Any organization or family noted for sure success ever!

Ramesh T A
Success Of Any Company Lies In Efficiency!

Are the growth and harvest be possible, if the fence itself grazes crops?
Being in a company, if the sleeping partners take away lion's share of profit,
Can the working partners and other workers get any money for survival ever?

Direct responsibility if no one has means, anyone can take and go anything Scot-free;
Efficient administration with cooperation and coordination builds up any company;
Full responsible person with control only can develop a small business to a big level!

Good persons do their jobs sans meddling with others works in any concern sure;

High quality company will not face such problems and function with great reputation;
In a reckless company, good people's works are spoiled by clever rogues to great loss!

Joy of working with enthusiasm will turn into indifferent working atmosphere there;
Keeping all works up to date can't be visible in such big corporate companies ever;
Losing interest, best beans of company will jump to best companies to do better jobs!

Many cannot be fortunate to leave worst company and join best company due to bindings;
No one will be satisfied with work and be happy to continue so in the company long;
Opportunity if ripe and fortune smiles on sincere ones, they will have a best time!

Professional careers if go well for individuals, they can make miracles in their jobs;
Quite a few only opt for creative or inventive kind of works that are beyond scope of all;
Remarkable achievements are made so by extraordinary individuals with talent in job!
Satisfaction, joy and salary if uncongenial to one, nothing worthwhile is feasible; Treating all travails and turmoils as nothing, one cannot perform all tedious ones well; Using one's own skill and judgement only, all can do best things in any work or project!

Various factors may be favourable and disadvantageous in any work one undertakes ever; World is full of opportunities despite flaws, one cannot miss to be successful in life; X and Y are the suffering lot despite they adjust themselves to any situations therein!

Yearly introspection and retrospection are needed to plan well to achieve better results; Zero will be result if nothing is anticipated and no precautionary actions are taken earlier!

Ramesh T A
Success Of New Measures Only By Wise Implementation!

Scientists experiment with animals to find medicine for disease; Economic exercise is experimenting with men to curb corruption; Demonetization and new single tax imposition are also done so To stop corruption, fake and black money in circulation for long!

Major small businesses and job loss to many have decelerated Economic growth as black money unearthed is not so high as Expected by politicians leaving people to bear the brunt in A very painful way so much that people have lost hope on govt!

Due to govt's improper planning and implementation of new programme For the first time has failed to achieve the promises made to Set-right malpractices going in all walks of life in the country To boost economy so as to alleviate the pains people are having!

Funding for terrorism, corruption and black money activities Seem to have been better tackled by remonetization in lieu of Demonetization done in a hurry putting all people under great Hardships mainly due to changing goalposts to cover up lapses!

Ramesh T A
Sudden Storm And Rains A Warning Of Nature!

Sudden storm just before summer is seldom known;  
Salt made out of sea water in hill like heaps and  
Just about to be harvested crops have been wiped  
Out by sudden heavy rain just for one day now...!

This kind of sudden happening makes a lot of loss  
For farmers now and then though water is very much  
Needed in many rivers and lakes all round the year  
Making people suffer both for scarcity and surplus!

Is it due to climate change or what? Many think of  
Such sudden changes in the regular pattern of Nature;  
Greediness of man has brought about changes in all  
The things of natural cycle leading to such mishaps now!

Man thinks one thing, but the Almighty thinks something  
Else making all nothing before the forces of Nature...!

Ramesh T A
Sufferings And Joys Of Life!

All the sufferings of romantic hero finally lead to joy!
Sufferings of good men have to end only in happiness;
All enjoyments of arrogant fellows have to end in sorrow!
Sorrows of comedians are generally groundless ever;
Pleasures of villains at the cost of others end in pain!
Sorrows and joys are two sides of a coin for good or bad;
If the beginning is joyful then end will be full of sorrow
And if the beginning is full of grief the end will be joy!
Fruits of labour are produced by painful works of others
Nobody can ignore but cherish and do better in works,
A gratitude no one can fail to show in life to be civilised!
Enjoying pleasures at the painful cost of others no human
Will willingly perform anytime but only a savage creature
Without any merciful heart does if there is rhyme or reason!

Ramesh T A
Summer And Winter!

After the hot day has settled,
Cool breeze from the South
Comforts one and all so fine!

More than the Winter cold
This Summer heat is okay
To suffer and enjoy in a day!

Body heat in Winter dries skin,
While the Summer heat makes
Body sweat with water so cool!

Many months in the West are
Under Winter season every year;
But in the East Summer is long!

Summer and Winter hot and cold in
East and West are painful pleasure...

Ramesh T A
Summer Arrived..!

Summer has arrived

With cold winter no more near

Sweats dominate now!

Ramesh T A
Summer Has Come Now!

Summer has started just today!
All wish for air conditioned rooms!
Rain in some places is blessing in disguise!
Legs, stomach and eyes are burning!
Cold water seems to be a great panacea!
Breeze on the terrace in the evening is nice!
Ice cream and fruit juices are enjoyable!
Stomach cools down and eyes are cool too!
What a relief water and fruits give in Summer!
Six months have to be negotiated so, it seems!
Unless rain in Summer comes there's no relief!
I hope this Summer will bring rains, if it is too hot!
I wish all a good Summer time this time sure!
Share all your adventures in Summer places!

Ramesh T A
Summer Heat!

In the early morning itself
Though fans run in all rooms
Summer heat burns body!

Ramesh T A
Sun Plays Hide And Seek!

In the night
Moon played hide and seek
With the Star!

In the morning
Sun is playing hide and seek
With rain clouds!

After two hot days
Rain profusely poured water and
Cleaned the city nice!

In the evening too
Rain clouds hide Sunset
With winter cool!

North-East monsoon
May want to show its last rain
Before biding adios!

Ramesh T A
Sunday Market!

People flock to Sunday market from everywhere;
Bees are attracted to the flowers under the hot Sun!
Moths fly over the flame till the rain comes at dark!
Sunday market is the carnival in the time of festivities!

Nothing can stop the zeal to buy things necessary or not!
It’s a place to get top to bottom human needs all in one-
Pen, comb, belt, sari, dhoti, bag, pant, shirt and shoes!
Fashion fascinates fashion lovers among females mostly!

Fair sexes dream of shining as silver screen stars ever
And boys roam about as Romeos to feel heroine’s touch
Wearing blue jeans pants and hanging shabby shirts
To enjoy romantic comedy of their dreams in reality!

Sunday market is the weekly exhibition of the town
That attracts surrounding villagers to visit for fun!
Two main streets, Nehru and Gandhi at the centre
Crossing the town to make it a junction for the people!

Overwhelmed by fun people coolly forget what to buy;
This is the status of the country on the 62nd anniversary!
Nehru’s democratic socialism tries to compete with West;
But Gandhi’s agrarian dream promises people’s progress!

All national planning failed due to poor implementations!
Big projects and heavy industries failed due to socialism!
So far we have missed two buses to catch the world pace;
Electronic bus shouldn’t be missed as industries, S&T buses!

Economic liberalization was followed dropping socialism;
Nationalization was replaced by privatization in all fields;
Liberalization of nation has started to compete with others;
But too much politics spoils all types of systems of progress!

Nuclear weapon testing hoodwinked advanced countries;
The consequential imposition of sanction too proved nothing;
Yet, the uncertainty of the nation threatens its own stability!
The eternal corruption is collapsing the economy forever!
The nation has to go many miles to cross 30% of poverty;
60% of illiteracy, population explosion and unemployment
Problems can be solved only by fishing and agro-industries
And water problem can be solved only by interlinking rivers.

Literary, legal and administrative systems need to be reformed
For the nation to go ahead technologically to lead the world!
80% of villages need to be developed for total economic growth.
So, glamour of Sunday market can't be the model to restore glory!

Ramesh T A
Sun's True Colour!

Sun burning everything hot no oven is needed to cook
Food we all eat delicious or not everyday in Summer time!
In a hottest place a woman has fried an egg omelet well
For the lunch her family will be taking sooner or later there!

What a convenience to cook food without oven for the work!
But what a radiation the Sun emits over everything all day
Long frying everything like the food being cooked on the road
By a poor woman minimizing cooking cost of food in one place!

Jokingly I have been talking with friends that we can cook food
On a vessel without a stove being burnt by gas or an induction
Stove, if the Sun persists in burning everything so hot and long
And everybody have appreciated for the implementation of idea!

Sun's true colour can be witnessed perhaps only in Summer time,
But never on a cloud day or long winter with grey clouds all day!

Ramesh T A
Superman The Poet!

For the weak person prayer to God is the only hope
In the world that makes one precarious to live ever;
So delicate a heart of a person has no chance of
Reviving one's healthy mind to do great work of art!

Of all persons, Poet is the only one who has hope
Despite one's precarious nature in this uncertain
Realm of human life that always disappoints all in
One way or other due to politics and economic race!

Immersed in one's poetic writing on favourite matters,
A Poet is a superman and king to inspire men and to
Assist one and all to go forward with dreams of a
Better world tomorrow with renewed hope and zeal ever!

Superman poet is ever takes direct inspiration and
Energy from Nature to write forcefully all of one's
Ideas to make all dream with hope to achieve great
Things in the world that has lost hope of tomorrow!

Ramesh T A
Super-Manhood!

Purpose of religion is to make man a human being
Before man becomes a divine being by spiritualism!
It's not enough he attains manhood but beyond that
He should strive to become a Superman above all...

Humanism only can make him a mature human being
With non-attached love towards all beings high or low!
Realizing being part of Nature, he has to live in harmony
With Nature to recollect his past, present and future....!

Knowledge of truth, intuition and mysticism uplifts sure
Man to super-manhood, which is the proper state and...
Also, the spring board to divine-hood, the final stage....
To achieve salvation towards total liberation to moksha!

Super-Manhood takes place by the evolution of mind
That reveals three ages and the way to reach divinity!

Ramesh T A
Surging Storms!

Cyclones, hurricanes and storms surge
Through all coastal areas from east....!

Gentle sleeping giant when gets angry
As the elephants do, destroys all fields of
Sugarcane, rice, wheat, maize and so on!

Heavy rain outbursting from clouds up
As sudden warfield attacks, submerges
Agricultural fields, villages, towns and
Bridges connecting places everywhere!

Even coconut trees, big banyan trees,
Tall Peepal trees and plants are uprooted
When raging storm intensifies up and up
From 40 to 60 Km. speed at full toss....!

Who can stand and stop such storms?

Ramesh T A
Survival Of A Language!

Can a language sans public use be developed or promoted?

A language in public use is spoken, read and written only
Among the people of the race belonging to that language.
If they are living in a place of other racial community, the
Use of that language is impossible let alone its development!

Those people are termed as linguistic minority in that place;
Unless they all live in a place of their own, they surely can't
Dream of developing and promoting their language ever....!

Due to this helplessness, that language remains to be not
Productive as for as newspapers, magazines and books are
Concerned and literature can't be developed for any use ever.

At the most survival of that language is possible, only if it is
Spoken at least among its own people at home or when they
Are meeting in some functions not often but now and then...!

Ramesh T A
Survival Of All!

Helping the old people in loneliness, Feeding food
For the disabled people, providing good atmosphere
For the orphan children are all humanitarian service!

Giving food, clothing and shelter is good service;
But educating many with knowledge, giving training
In self-employment programmes are best service sure!

Empowering the weak people to stand on their own feet
Seems to be the best humanitarian service in the world;
That way many problems can be solved for the better ever!

Hunger, poverty and unemployment of many are real problem
The world is facing still unsolved though governments and
Clubs talk much and do some service needing utmost care..!

Only when all people get basic necessities, survival of all
Can really be possible on their own sure ever in the world!

Ramesh T A
Survival Of Love In Life!

Without liking, no one can love anyone in life;
Desire developed of love is naturally expressed
By gestures such as hand shake, hug and kiss..;
But culture embedded in blood never allows to do so!

Due to social taboos, love is imprisoned in heart
Sans finding a way to reveal it to anyone till end;
Hence love becomes like a hidden treasure in the ocean
Never seems to be discovered for long in world life!

Affected persons get solace in Nature, art and so on;
But articulate persons capable of composing poems
Express all ideas of heart out of love to share with
The ones interested in love and get solacing comments!

Love has no hard and fast rules as for birds, soldiers
And poets and they only have the chance to succeed in
Love to express, enjoy and live a fulfilled life sure;
Sans expression of heart, love cannot survive ever here!

Ramesh T A
Survival Of Migrant People's Language!

Due to migration for hundreds of years,
People lose touch with the lipi or script of
Mother tongue as there is no public use!

Sans script a language survives only as a
Spoken language among its community
Due to adherence to traditional culture...!

Otherwise, due to inter caste marriages with
Different communities the language becomes
Extinct knowingly or unknowingly one day!

Unless people maintain traditional culture and
Links with their community people living in
Their place of origin, its extinction is damn sure!

Only by unity and communication, link is possible
And language and literature can flourish forever...!

Ramesh T A
Survival Of Species!

There are morning workers and night workers in Nature.  
All birds, herbivorous animals and creatures are day workers.  
All wild, nocturnal animals and creatures are night workers.  
But man only works anytime of the day to finish his task!

The hard toils of morning workers are open and frank in nature;  
But night workers are stealthy, ruthless and criminal types!  
Day workers eat, work and love in company with all wherever;  
But night workers are selfish, clever and live in isolation ever!

Works of various creatures differ as carnivorous and herbivorous  
Natures of various species in the world since time immemorial;  
According to the availability of food and resources all live here  
Following hard and soft working techniques by day or night...!

Natures of living beings are formed according to the availability  
Of resources in surplus or scarcity in Nature for survival forever!

Ramesh T A
Survival Of The Fittest!

Survival of the fittest

Continues even today in commerce

For prominence ever!

Ramesh T A
Survival!

Animals or men
Only survival makes them
Good or bad...!

Ramesh T A
All beautiful things of Nature are ever fresh
Unlike the perishable commodities like us!
We cannot have a replica of our images like
Nature does with its flowers, leaves, trees and
All things from the past to the present to future!

Good, bad and ugly are there in Nature since
The longtime on and so many species are still
Thriving with their own characteristic activities
Whether it is elephant or cow, shark or crocodile,
Lion or tiger, lizard or snake, animals or men...!

Even the extinguished animals as fossils are under
The Earth for man to discover and know its past,
Evolution of various species to man and the further
Evolution of intellect and spirit to divinity finally to
Attain absolute state to be one with the Universal Spirit!

Ramesh T A
Sustenance Of Faith And Belief!

Faith based on truth and belief based on conviction can thrive only on love ever; 
Love is the only influence that can foster all other virtues in everyone sure!  
Earning the hearts of all is far, far worthier than earning wealth in the world; 
For, with love one can get all things one needs to live a good life forever!

Conditions are necessary to maintain discipline and execution of plans in public; 
But with love all conditions can be forgotten to perform works well and better!  
Betraying and blaming the loving ones are the most horrible crime of all 
One has to be careful about in the world full of fake notes mixing everywhere!

Love is the healing power best to convert all categories of men to be good; 
Only the hardcore and ruthless rigid rogues betray the loving souls too; 
Only the Creator has to take care of such incorrigible ones to bring peace 
And make the world a place of loving humans to thrive with all others ever!

For faith and belief to be reliable, sans love nothing worthwhile can be done 
In this world of suspicions and doubts of hardcore nonbelievers everywhere sure!

Ramesh T A
Swimming In The Ocean Of Love!

Swimming deep in love, it is possible to get rare pearls,
A fulfilment nothing can give in this world of uncertainty;
Love is the source for all remarkable things of great value
That are achieved by ambition inspired by love quite amazing!

To swim deep, it is like churning the milky ocean to get
Ambrosia for the long life of angel like humans in the world;
Cooperation of mutually interested souls only can take up
Such a great adventure to achieve the greatest joy unique!

Diving deep in the ocean of love, there is no fatigue or
Tiredness for the persons involved in such a love venture;
Will there be any end or failure for the players of love
Game in life that has no destination but only space journey!

Getting through the invisible slit it is possible to knock
The door of heaven leading to the milky ocean to churn to
Get the ambrosia of love that brings eternal pleasure born
Of passion lifting high to sublime state of bliss forever!

Ramesh T A
Symbols Of God!

Imaginary images of God are the symbols of Universal Being
Infinite in dimension, all pervading in nature and beyond brain
To decipher or comprehend but can only be realized by spirit
And can be understood only by intuition based on intellect ever!

It's like x and y of maths used as supposition to find out the value
In a problem with many steps to arrive at the answer at the end!
Images and symbols of God are also like that to be understood by
Steps one by one according to our knowledge and understandings!

By regular practice, we can say the answer of a problem sans steps
And that process is what can be called as intuition needing no steps
To realize God directly after the practice of intellectual inquires long
And by meditation and mysticism in Nature enjoying bliss of divinity!

Man's mind in communion with Nature enjoys bliss divine present in
All things animate and inanimate around us in a mystical mood ever!
Nature is the best place to realize God and whose presence can be felt
Truly better than from religious prayers in temples, churches or mosques!

Ramesh T A
Symptom Of Strong Rain!

Symptom of strong rain is provided by clouds very cool!
Rains in hot months are rare indeed in East coastal areas;
But in other parts of the region rain lashes in full everywhere
As they don't have good rain in cold months unlike in the East!

South West monsoon in Summer and North East monsoon in
Winter only rain are expected for the whole year for the nation!
If one fails, another one helps in a year to satisfy water issue....
Filling lakes, rivers and dams for agriculture and drinking uses!

Now, after the hot day, evening becomes cool due to long night!
If rain also accompanies it, next day, it will be fresh and beautiful
Making trees healthy and green for the eyes to have cool look at!
So many things are there in the fall of rain now and more to muse!

Now, we can only pray for the rain to come to satisfy our needs so
That we can appreciate it with our whole heart at this hour of need!

Ramesh T A
Synchronization Of Culture And Modernity!

Cultural deterioration in society or community has begun debates everywhere; Is it due to parents or children such a situation has arisen in the society? Can morality and discipline go away with the acquisition of knowledge? Will job develop egoism among youngsters leading to unhealthy competition?

Modern development sans cultural background has deteriorated human culture Needing the introduction of cultural value in education system to revive humanism;
Human culture and modern civilization are counterproductive due to contradiction Needing to be synchronized to bring about harmonious human development!

Just economic progress at the cost of social progress provokes power hunger To have superiority over lesser ones in order to dominate in all ways possible; Knowing the role of one's natural design one has to cooperate with other partners To attain social harmony that can pave the way for fulfilment in human life!

Cultural education system only can develop love and friendship towards creativity In all fields to appreciate beauty and bring out truth in all to enjoy bliss and divinity!

Ramesh T A
T Rex Species Need To Be Eliminated Only!

Without love and peace, humanity cannot survive any longer; For, fear, hatred and uncertainty always affect all with Anxiety and excitement exhaust to the extent of death sure!

Without women and children, love and joy cannot be seen If the tender parts of society like them are ruthlessly Killed by heartless, incorrigible ruffians, men also die!

This beautiful and lovely paradise of Universe, Earth is Not a grave yard or war field to make all die forever and Vanish the very existence of Earth by senseless cutthroats!

The irredeemable sub-animal creatures should be dealt with Ruthless measures to render justice to the affected people Sooner by worst form of punishment in public to pacify all!

The ruthless killers of innocent people are incorrigible Species like T Rex dinosaurs needing to be eliminated only!

Ramesh T A
Take Challenge To Succeed In Life!

Challenges take us to greater heights in life;
Safe play is a cautious person’s way to do all;
With knowledge, vision and talent one can deal
All challenges with confidence to win in game!

In everything in life, taking challenges all
Are doing masterpieces to become great ever;
If matter is known by visualization of ideas,
It is possible to take challenge and do great!

Once it has become a habit, it is a routine
To do so everyday to tackle any matter so well;
Whether it is music or song or poetry or art,
Urge to do makes one take challenge and do well!

Before writing poetry, there will be nothing in
The mind to start with, but once determined to
Do something worthwhile, inspiration and urge
Within will lead one get ideas and words to do it!

Likewise, many things are done by many experts
In the world we are all part and parcel for long;
This we should not forgetn when we hesitate to do
Anything challenging to succeed in world life sure!

Ramesh T A
Tales Full Of Sound Signifying Nothing!

Tales of romance in fairy tale atmosphere are plays
The masters of poetic geniuses have created for all
to enjoy and get enlightened to lead life in joy..!

Such kind of entertaining literature and songs are
Rare to be seen in the modern age full of scientific
And technological marvels dominating in all movies!

Great satirical social novels and adventures of great
Chivalrous knights putting an end to tyrannical rulers
Are replaced by detective novels and space adventures!

Fairy tales are coming in new garbs like scientific
Space fantasies by development of animation technics
Are indeed great marvels that fascinate modern audience!

But all marvels of modernity should not make all mad
By such adventures in machine races with full of sound!

Ramesh T A
You can even move a mountain by faith, they say;
You can melt even a mountain by poetry, I say!
You can crack even a hard nut by poetry, know you!
Who cannot be moved by music in the world?

Music makes even a poisonous snake dance to its tune!
Music has the power to tame or drive away wild animals.
Poetry is musical words created by poet’s magic power;
Man being a higher being is tamed by musical poetry.

Poetry has the power to absorb, tame and inspire many!
Poetry consoles as music, art and Nature worn out souls
As poetry is the best and final resort for the hopeless here
For, it’s like God’s power that can turn hopeless into hopeful!

Poetry, the source of music and song, is the first and last
That tames the shrew and turns a dolt into a daunting don!

Ramesh T A
Taming The Wild Horse!

Reign-less horse always runs wild!
Same thing happens to one, if one
Is fostered so from childhood on..!

Horse grazes in the open ranch ever
And gets satisfaction it needs, but...,.
If it’s kept in stable, it becomes restless!

Even if such a person is provided all
As one wants and is kept happy, one
Never knows the value and runs off!

To tame such a horse, it should be
Allowed to run as long as possible
And when tired, it should be reigned!

The value of shade cannot be known
Unless one suffers in hot sun long....!

Ramesh T A
Taste Or Life?

They say honey is sweeter than wine;
Many say kiss is sweeter than wine!
Some are fond of sweet taste in all;
Many like hot taste in food we eat ever.
Taste is just a flavour of coffee we take;
Tasteless food nobody likes at first ever;
But food for living life cannot be ignored.
Sugar coated pill makes us take medicine;
Just like that taste makes food delicious!
Taste various from person to person ever;
Hence one man's food is another's poison!
So also taste for poetry, novel and articles
Say about one's mind, heart and soul ever;
More than taste food for living is fine ever!

Ramesh T A
Taxes And Prices Hikes!

Taxes are levied to accrue national income
For developmental works and salaries...!
But levying taxes under various names
Sans control of price of all materials is bad!

For all the mistakes of governance, people
Are made to suffer by various new taxes!
Increasing the prices and taxes sans sense
How can a political party run a government?

Promising a lot before election they come
To power to rule the nation to prosperity!
But if they follow the same old policy, how
Can anything be solved to make all happy?

People wait and watch as spectators only
Unable to do anything before another poll!

Ramesh T A
Taxing For Investment On Projects!

Every political party comes to power with the promise of bringing down prices; But coming to power, every govt. levies taxes in new names to raise funds For investments in big projects to achieve economic growth sans any guarantee Pursuing the same route followed by the previous govt. that has failed to do anything!

For raising funds they should increase production, exports and cut expenses; Goods and service tax is a blend of local and national taxes in one to share burden By all for all things from North to South and West to East by the mantra of one nation And creating chance for central govt. to have a share in all local sales of goods!

Agriculture and sea resource need extra care besides industry and software ones To exploit export potentialities to accrue national income by efficient administration Instead of always going for taxing to raise funds by increasing prices on things And making people suffer with additional burden as last straw on camel ever!

Many failures of various govts have taught the lesson that politicians are politicians And their promises are words written on water that can't be relied on ever by all!

Ramesh T A
Tears As Rains!

Tears come out of joy for a brief time;
Tears come out of sorrow for a longtime!

Ice clouds of sky melt into rain like tears;
Is this tear come out of joy or sorrow....?

Out of body heat too tears come out of eyes;
After long browsing before computer too it is!

But further heat of body dries the eye tears;
Only blurred vision then can be seen, ho.....!

Tears of eye are for good health to maintain;
Without tears none can live ever on the Earth!

So also without rain Earth cannot survive long
And none can enjoy beauty, love and joy ever!

Melting of frozen ice gives birth to many rivers;
Mingling with oceans they go up to fall as rain!

Melting of heart gives birth to tears of joy or sorrow;
Tears as rains heart will always shed for life to go on!

Ramesh T A
Tell Me If You Can!

Love nobody rejects because it gives joyful comfort!
Friendship everybody loves as it gives joyful company!
Beauty everybody enjoys as it gives cheerful mood!
Nature nobody can avoid as it gives inspiration and joy!
So, between religion and Nature which one will you choose?
Nature is the source for religion, philosophy, art and science!
When this is so what makes man destroy Nature, tell me!

Ramesh T A
Tension And Thrill!

All things have become very costly
Making life very difficult to live now!
Very less things only all can buy now
With more money making many shy!

Many things many should buy with
Very less money in a great country..!
That is the mark of economic progress
In reality sure of a democratic country!

Black money and fake money make all
Ever suffer sans any development sure!
This should be rectified then and there
For the people to breathe a sigh of relief!

Tension and thrill are not good for all, who
Want settled way of life to live in peace.....!

Ramesh T A
Terrorism Formed Of Total Lack Of Love For Death Only!

For every dragging matter, the final solution lies in love only;
Love only solves seemingly impossible problem of world life in
The final stage, when all human efforts fail sans any good result!

Love is the only key that can open any door that can't be opened
By all kinds of keys in the world as love only has the magic touch
Like the panacea that cures all kinds of diseases in the world!

But love cannot work before terrorism that is against all norms of
Religion and human sense as it is ruthless, inhuman animal worse
Than wild animals in the forest never to be tamed but only eliminated!

Due to this incorrigible nature of terrorism, just as the devil of
Hell, it can be driven out only by burning completely by not even
Leaving a bit of ash in the world by the joint efforts of all humans!

Terrorism is a venom formed out of total lack of love fueled ever by
Hatred against all moral values, conscience and truth for death only!

Ramesh T A
Thane Or Tsunami?

On eve of New Year cyclone Thane came
And attacked Pondicherry town for 8 hours!
People said 'Thane is worse than Tsunami! '

Tsunami comes with 45 feet tall wave silent!
Displaces ships and boats into the land areas
Or drifts away cars, buses and materials to sea!

Cyclone comes like angry elephants to shore!
Goes inside on a rampage destroying all things
Howling like a ghost all night and day nonstop!

Tsunami silently shows water force as a phantom!
Cyclone comes with wind force full of sound and fury
Uprooting all trees, lamp posts from ground for hours!

Natural forces triggered out of sea are horrible indeed
To forget ever in life though wounds are healed in time!

Ramesh T A
Thank Nature To Perpetuate Love Ever!

Thank Nature to Perpetuate Love Ever!

After merry Christmas and New Year festivals, tine's Day is Celebrated as Lovers Day with loved ones sharing cake, balloons, Sweets, gifts and greetings strengthening love with all once again!

A wonderful festival to celebrate for love remembering the one who Has sacrificed one's life for the union of lovers and giving importance To love as God is love, when we live our life in love with loved ones!

Nature is the symbol of living love forever created by God for man to Enjoy in its beauty and bounty that offers selflessly for all to live in This flower world of ours with love, joy and peace sharing as Nature!

Smiling flowers bright as sun shine greet all with love as the first Thing we see and go ahead in cheerful mood doing all things Everyday bringing joy to all and real satisfaction to ourselves ever!

As best things of Nature are free for all, we all have to share love Thanking Nature on this occasion to perpetuate love in the world!

Ramesh T A
That Twinkle Star Effect Still..!

With red, white and blue colours rotating
The Star light shines in the night Sky by
The prism effect of transparent clouds...!

That effect makes the Star twinkle all night
As diamond kindling great joy to the child
Refusing to sleep disturbing others sleep...!

Telling story about the Star with diamond
Like twinkling effect kindles the child to
Visualize a dream like situation quite a while!

Slowly like an opium eaten being gently closes
She eyes for a nice sleep for the night with
the parents and all taking great of the child!

The 'Twinkle, twinkle little Star' song still
Keeps many a child to wonder, dream and sleep!

Ramesh T A
The Alien Connection!

Evidences in Mexico, South America, Eastern Europe and all Clearly say a lot about Aliens' visits to Earth and their Construction sites make all accept that are real ones sure!

Humans are well versed in world map and explorations here And also some experiments being made in international Space Centre reveal a lot of efforts being put on meeting Aliens!

Aliens are well versed in Space map and their visits here And their markings on many world sites reveal the fact that They are advanced in knowledge and developed in technology!

Their advanced level of development perhaps not approving Them to contact us with not so up to their level of advancement Humans have made on the Earth so far and so forth, it seems!

The Alien connection and their attitude are similar to the Behaviour pattern of erudite minds with ordinary men here!

Ramesh T A
The All Pervading Blue God!

Royal blue ink colour is the hue of my God I see ever,
When I look at sky and Sea embracing each other at the
Horizon completing the union between vast sky and Earth!

Brindhawan is the paradise where the God has brought
Heavenly love in spiritual union with faithful disciples,
Cowherds and devotional dames by His melodious flute music!

Disciples, birds, cows and all dance mystically to His
Divine music of philosophy that showes the way out of the
Ocean of woes all suffer in the world of worries and works!

Like the all pervading blue colour of sky and seas unite at
The horizon, the finite beings mingle one with the infinite
Eternal universal spiritual energy activating all forever..!

This universal blue God is the beginning and end for all beings
To realize and by devotion can reach Him to be one with forever!

Ramesh T A
The All Time Form Of Literature Poetry Is!

After religion and philosophy, poetry is the encyclopaedia of life and after life ever;
However hard short story and novel play in literature place of poetry can't be forsaken;
Poetry will ever rise again as phoenix bird from the ashes even after many centuries!

Poetry is the free flying bird in the sky symbolizing freedom of thoughts and ideas;
There cannot be a better medium for anyone to express all ideas under one roof;

For, poetry only can give vent to one's spontaneous over flow of feeling unknown!

Poetry is the expression of impossible expressed in possible words man can ever;

Many unknown and unknowable matters in known words poetry only can express
Ever to entertain and instruct all at the same time in a form unique to each one sure!

This all time form of literature called poetry says all in a nutshell as in a precis writing
By its suggestiveness all matters that can't be expressed in many pages of books;
For, poetry can say so many things briefly in less lines and also in between lines too!

Poetry is the only medium that never stops interest both to the poet and the reader
And due to this reason, rhyme or no rhyme, poetry says everything in waves of rhythm!

Ramesh T A
Surely a Wordsworthian poet loves Nature
For its beauty, bounty, love and power...!
He only can feel the presence of divine
Spirit in things of Nature sharing love;
And also with one's mind in communion with
Nature can enjoy divine bliss precious...!

Physical scientists, exploring Nature, try
For one final theory for all laws of Nature;
They try to unify the principles of light,
Magnetism, electricity, nuclear forces -
Strong, weak, space, time and gravitation by
Linking quantum radiation and gravitation!

All galaxies of Universe are chained with
Each other by gravitation and black holes
In each suck in by strong force all Stars
Within their vicinity like the flowers of
Earth that attract beetles by beauty and
Love scent to enjoy nectar for germination!

Like the universal spiritual energy by the
Power of gravitation attracts and controls
All Stars and planets just as the scent that
Sways beetles, soul in living beings control
All organs to function according to their
Design meticulous created by Supreme Creator!

What the galaxies do in the Universe, flowers
Do to attract, activate and control on Earth!
Like the central gravitation, love on Earth
Controls the lives of all living beings ever!
What the Universal Spirit does by gravitation
To Stars, It does by Love to all living beings!

Ramesh T A
The Ambrosia Of Life!

Many, many years have gone sans change in life
Being bogged down in quagmire of tedious obligations;
Overcoming such dry state of life has been tried in ways
That could not bring about the needed change ever....!

Only dreams and imaginations of romance served as oasis
To sustain oneself against all frustrations of obligations....!
What a magic romance has not only in novels but also in life
With the wonderful God given gift of imagination and dreams!

Life without romance even in dreams is a wasteful desert
Sans oasis and no water to quench one's thirst of joy ever!
Life becomes a great waste sans romance and joy of life
Nonstop caught in the wheel of ever rotating machine long!

Poetry and literature are a great boon left as legacy by great
Poets to bring solace and hope to dry souls by romance that
Ever serves as ambrosia to give new life with joy endless in
The ocean of woes and worries ever reverberating as waves!

Ramesh T A
The Beatles In One!

The Beatles are legend forever!
The Beatles and Elvis Presley
Pop singers immortal love all!

McCartney, John Lennon and
George Harrison with Gringo Starr
Make The Beatles a music group!

Music mesmerised many in 1960s!
The Beatles were welcomed ever
With Red Carpet welcome everywhere!

Love me do and Hard day's night still
Ring in the ears with haunting spell
No one can forget even today, well!

John Lennon or Paul McCartney,
Single or group is The Beatles in one!

Ramesh T A
The Beauty Of An Artist!

Love of beauty in everything makes one an artist
To create beautiful picture, music, song, poetry,
Painting and sculpture according to one's desire!

Such a beautiful creation aspiring for perfection
Ever increases joy in pursuit of sublimity sure;
Poetry, painting and music surely take one higher!

Classical poet, romantic poet and cinema singer
On this day born on various times have achieved
Great feats in their fields to live in forever..!

Tamil Poet Kambar, English Poet Keats and Tamil
Cinema singer Sounderarajan have achieved immortality
In their respective arts by their beautiful feats!

Talented artist makes all remember one in art, but
A genius makes all forget one in one's art ever...!

Ramesh T A
The Beginning And End Of All In Nature!

Aesthetic feelings, creative ideas, scientific discoveries, inventions and species start from Nature;
Bountiful Nature enclosed within atmosphere has made our Earth a paradise unique in the Universe;
Cause and effect there are in all manifestations of Nature with a beginning and end for everything!

Delightful life of all living beings ever go on by mutual attraction of beauty among all species;
Earthly paradise has effect of heavenly joy nowhere else man's endeavour has discovered in Universe;
Fabulous activities of all elements of Nature are lulling this Earth as pet child among all planets!

God dwelling as Universal spiritual energy activities everything in the whole Universe placing Earth on
High position to the extent of making man believe Everest as Shiva Lok and Indian ocean as Vaikundam
In the mid point between Heaven above and Hell below as the extreme ends of North and South of Space!

Journeys around the Universe aliens may travel, but Earth has been their junction to stop and go ever;
Keeping pace with their advanced state of living our earthlings are trying their level best since long;
Long way still there is to go for man with his science and technology with many laws to discover yet!

Marvelous Nature is still man's friend, philosopher and guide to make him advance to divine level ever;
Nature is the beginning and end points for man though he aspires to excel it being a part of it ever;
Outer Space man wants to fly to know the secrets of Nature to solve all puzzles posing as mysteries long!

Particles of Nature with God particle matters in the Universe are created, it is postulated by man now;
Quite a lot has to be discovered and experimented to prove so many things theorized by many scientists;
Remarkable things are created by poets in poetry unique as it's a great medium to say about unknown matters!

Science, philosophy and art as one in Poetry, man by intuition and mysticism expresses ever new ideas for all; Treatise of such world of fantasy none can create other than poets of world born to say all only by poetry; Universe with Nature man tries to explain with his limited brain to grasp and express though impossible ever!

Vertically, horizontally and laterally, man explores to understand and express the magic of Universe with Worldly knowledge of natural laws ever inspired by the spell of Universal wonder ever putting in surprise; X, Y and Z dimensional character of Nature is beyond man to confine the limitless Universe to know truth!

Years of quests are yet to be known and explained in discussions endless to find one final theory of Nature; Zeroing all concentrations of many super-minds seem to be insufficient to solve this greatest puzzle ever!

Ramesh T A
The Beginning And The Course Of World Chaos!

For the jealous eyes, good, perfect and glorious ones
Never seem to be liked as they are not so in life ever;
If their jealous eyes fall on anyone, till that one falls
In disgrace and eliminated, they always think of that!

The jealousy ones somehow want to get name and fame like
The one who is already so in public or anywhere else sure;
For that, they do anything to bring great harm to the good
And really great through some means or other in world life!

Even the good one happens to be friendly to the jealousy one
Not knowing the evil desire of the counter part, the bad one
Try something or other to create trouble in the peaceful life
Of the neighbour and continue so with all the ones around them!

In the broader sense, this is what happening in the world
And wars go on until the one is eliminated in this great war!
That is why human unity and peace are always in jeopardy in
The world full of competition, rivalry and violence forever!

Ramesh T A
The Beginning Of Romance!

Arbour in the park is the place romance starts
Inspired by the aesthetic pleasure of seeing many
Beautiful things in Nature we love most forever!

After facing many a mind boggling problems,
Man finally settles in the park to heave a sigh of
Relief and breathe some free air to bring to oneself!

Colourful flowers, fruits and birds singing in awe
Indeed are a great blessing in disguise that moves
One's heart by their beautiful nature so wonderful!

And there only the chance of love at first sight starts
With the glimpse of smiling lady entering into one's
Heart, when she sits with him like he is exhausted...!

The mutual cause reciprocates between them into love
So beautiful and lovely that they enjoy love life long...!

Ramesh T A
The Beginnings And The Ends Of Nature Ever!

Beginning and end for all is in Nature in this world;
Re-generations and rebirths are also due to Nature here;
Due to this fact, romantic love cannot be stopped ever;
Also, pleasure in romance is a continuous story on earth!

Romance under moonlight and first night also so are not
Just in stories and poems of literature, but are realities
Happened in history and happening in the human world ever
As Nature is the source and end for all living beings here!

Creation and destruction for regeneration and continuation of
All species, plants and all is a continuous serial stories
In reality forever and ever as long as the world is there and
The time is there moving on nonstop till the end of Universe!

Nature facilitating romance, life in love and pleasure goes on
And on with births and deaths continuing forever on the earth!

Ramesh T A
The Best Medium In The World!

The Only Best Medium in the World!

There is no boundary line for English poetry in the world; English is a world language useful to write poetry ever; There is no hard and fast rule to compose poetry sure; Poetry is a lively flowing river that reaches ocean of readers!

In the ocean of world, all poetry rivers reach to mingle one With all beyond all barriers of race, religion, region, caste, Colour, class, culture and civilization finally by love to make Peace a living reality in the one world called Utopia of all...!

English poetry is the bridge connecting all over the gaps Caused by all isms that separate mankind into many hues And branches for the political rulers divide and rule all as They wish sans putting an end to all differences to wars...!

Of all the media in the world, Poetry is the only best medium Suitable to reach all people to develop unity, peace and love!

Ramesh T A
Many ideas come and go in the mind like lightning flashes in a few seconds; Filtering out best ideas out of all is like extracting precious metals out of Ores beneath the Earth only a skilful expert can produce in the valuable form; Such a feat is possible only in poetry of all the forms of literature by skilful poet!

Castle in the air is captured only by such a poet in his unique poetic camera To produce excellent pictures rare to be found in the world of arts ever new; Ancient civilization under the ocean or just a sea of water depends upon The eyes of the viewer just as beauty lies in the eye of the beholder ever!

Poetry is the best medium that beautifully and briefly expresses matters That is impossible to do so in any other form of literature introduced by Expert poets like S T Coleridge or modern poets like Matthew Arnold Who have combined romanticism, philosophy, ideologies and criticism in one!

Poetry is not just rhythmic lines ending in rhymes only or horizontal or vertical ones, But all kinds of subjects besides descriptive Nature or flowery words of Love Poetry in novel style with words that produce all of music and sound With matter and reason that are otherwise not possible in forms of literature!

Ramesh T A
The Birds No More Now...!

Even in the late morning, though the climate is pleasant
And beautiful, no noise of squirrels or crows or any other
Birds are heard let alone the disappearance of Sparrows!

Are the birds drifting away from the towns to outskirts?
Once eagles were visible ever along with crows while
Feeding the food placed on the open terrace of building!

Where are the golden eagles of our favourite brand we love
Most to witness everyday along with other birds like crows,
Parrots, mynas and sparrows roaming round all buildings here?

Sparrows were well known for making nests for laying eggs
Near the ceiling joints of the remote rooms in every house;
Now such a cute looking little sparrow birds are invisible!

Low flying sparrows and high flying eagles are birds of great
Wonder all witnessed everywhere, but they are no more now....!

Ramesh T A
The Blue Carpet!

The Blue Carpet!

Ocean of the world is a big blue carpet
That covers all the treasures and all as
Settled down paraphernalia of a vault
Only unearthed by ocean researchers!

Not only ancient civilizations but also
All tallest mountains and volcanoes too
One can see going deep inside the abyss,
If a team ventures out inside by necessity!

Titanic ship with all its glory and war ships
Sunk in World Wars I and II tell stories....
Unheard and many secrets unknown to all
Along with mysteries of ocean yet to be known!

Above all, mermaids and merworld are as great
As Angels and heaven we long to go one day...!

Ramesh T A
The Brewing Wine!

For the active and curious mind, creative work is the best Panacea as the ever expanding Universe involved in creativity! The urge of creativity never stops when the inspiration and Interest coincide in one resulting in expression of best ideas!

It is like the scientists trying to measure the dimensions of the Infinite Universe that has no beginning and end as far as we Know about Space and as long as white papers give space to Write what the active, creative mind wants to have fulfilment...!

Even the creator doesn't know what one is going to create before One embarks on creativity with enthusiasm and interest inspired By some catalyst triggering the spontaneous overflow of emotion Until all runs out as a river to mingle with the ocean as only goal!

Catalyst is the inspiring agent that may be Nature or an idea that Triggers the urge of creativity brewing as fine wine within one....!

Ramesh T A
The Burning Pain!

Pealing of dry skin as leaves of tree
Burn body as winter cold triggers
Heat within amplifying pain ever!

It's like sending prisoners to coldest
Siberian cell with window sans glass
On the top of the building forever...!

Roman way of torturing prisoners
Creates hell of pain unbearable and
Almost takes away soul out of body!

Such a torture dry skin in winter
Leads one to to bear pain quite
Unbearable and horrible like hell!

With the hope of Spring dawning
Soon all pains are borne firm ever!

Ramesh T A
The Capable One!

The Capable One!

When all things come in one, dealing is difficult;  
But if done well, all things will be solved in one!  
It's like hitting several mangoes with a single shot.

For the capable one, even a single grass is a weapon  
To destroy all foes with nuclear like effect in no time!  
It's the effect of consolidated learning and skill in one.

Such a powerful person is known as one man army  
Capable of executing all kinds of works in one shot  
And perform a feat none can even dream or think...!

With learning, skill and wisdom, the capable one does  
Always aiming at performing his duty with perfection  
Not bothering about the army or foes before his eyes!

For the capable missionary, aim, goal and ambition are  
One and the same coupled with enthusiasm and interest!

Ramesh T A
The Challenges We Face!

We all live a life and also, know we die one day;
We balance supply and demand of materials;
Spiritually think over philosophic ideas of religion;
We feel comfortable with scientific advancement
And spend sometime in creative ideas of literature.

Yet, we don't know anything about the unknown -
The things like Universe, life and death forever....!
Searches are made and religion gives answers and
Literature also says so many things about them...;
Even then we do not have a decisive answer ever!

What is Universe and what is the meaning of life?
These questions are again and again asked ever
By individuals to get answers by search and also,
Doing a lot re-searches and their findings are written
Well in literature, but needing updates in libraries!

To find answers all can rely on, researches are needed
From scientists and litterateurs more than before sure,
It seems and for that importance should be given to
Science and literature and their creative ideas should
Always be updated in the libraries for all to know....!

Ramesh T A
The Clever And Resourceful!

People become less, when they know the old ship will sink;
Those, who take chances to travel in it, pay meagre charge;
After reaching harbour, they get garlanded for safe journey;
It will be a miracle, if the ship sinks thereafter, while on shore!

For the clever and resourceful persons all dangers are nothing!
They face all directly to overcome all pitfalls by intelligence....;
Their steady pace of life is a boon that saves nine troubles ever
As they stitch in time to save nine through out their life forever!

They take advantage of everything at every moment on their
Moves with calculated risks to hoodwink all jealousy hearts
And escape from all dangers with success to achieve their goals,
Aim and ambition as their concentration is directly at the object!

Being familiar with all dangers, they know the escape route ever
And handle the dangerous situations in a matter of fact manner...!

Ramesh T A
The Coming Of Festivals And Fetes!

Autumn season beginning, all fruits sweet are available!
Sever hot climate in the morning and some rains in night
Everyday thread on slowly to next season of rain sooner.

Colourful flowers of choicest perfumes abound in shops
Fresh as newly blossomed ones to bloom for all functions!

Every home with its household filled with fruits and flowers
Really gives the impression that there is surplus snacks
Decorating around ice creams children enjoy everyday sure!

Days of festivals and fetes coming one after the other, there's
Quite a lot of preparations going on everywhere to have....
Grand celebrations with music parties being arranged sure
On all areas of meetings in the cosmopolitan town now itself!

Banners and cutouts displaying various groups of entertainers
Everyone can see as advertisements on the beautiful beach...!

Ramesh T A
The Course-Less World Now!

The Course-less World Now!

No one knows the source and destiny of human life in the world; Materially world has developed by advanced technology now; This we proudly call as modern world and civilization of man; But socially man hasn't advanced by civilization sans culture!

Culture was first created based on past best experience in life; Due to material pursuits civilization has been fostered by man Believing to be the advancement of human being ignoring The best things of past in arts, music, books, Nature and all!

Due to lopsided development sans the inclusiveness of all Men of the world community and extremism leading to Radical bigotry, the world has fallen into the ditch of wars To decide about who has to rule who in the world today!

Day and night the worst kind of things trying to have upper Hand the world reels sans any good course to follow now....!

Ramesh T A
The Crown Of Literature!

Romantic poets and satirists only question veracity in all matters—God, religion, political system, bureaucracy, government and all! If they don't question, then there won't be any change for the Better in all matters concerning human life, human value and world!

Absolute knowledge can be found only in poetry of great world poets; World poets are the friends, philosophers and guides to world people; Their words in their verses ever echo and reverberate in the minds And hearts of mankind whether they are alive or dead for the betterment!

Golden quotations of such masters are the words of God expressed ever Through them for the world to learn, understand and live life accordingly To enjoy knowledge, love, freedom, joy and peace in the real sense sure And their poetry is the only source mankind can rely on for sure forever!

That's why poetry is called as crown of literature that has all best and True knowledge and love man has to know and pass them on to posterity..!

Ramesh T A
The Culture Of Violence In The World!

Violence has become the common feature of stories
And movies to thrill the audience with actions..!
Nonviolence in stories and movies are boring to
Read and see according to the audience everywhere!

In reality too, violence seems to be impossible to
Bring to an end to the world starving for peace and
Love everywhere as mechanical money making life is
Full of tension and danger in busymetro cities..!

Love, joy and peace are out of place everywhere now
As thrilling action and pleasure after action are
The regular features of everyday life and movies
That seem to be all right in the world life of all!

This kind of culture-less world is a great jungle...,
But not an Utopian civilization that solves all ills!

Ramesh T A
The Curse Of Models In The World!

With attractive appearance, good nature and gentle smile,
He is inspiration and model for many from childhood to
Manhood in the joint family with many new couples growing!

Each couple has wished to have a child like him for long;
Each new born child is even give a name similar to his...;
Many companions have come up there to deal all with him!

Whatever thing he does, is impressive and all like that;
Each one is also advised to do as he does to be better;
In education he has shined well and inducted into business!

His talks are full of wisdom whoever he has met around there;
All have believed that he would become a leader to lead all
To progress as his talks are full of developmental ideas ever!

Following his deeds, others have come up in life too everywhere;
But jealousy in them all has gone to the extent of excelling him!

Ramesh T A
The Decree Of Fate!

Everyone wants things to be done immediately;
But there is a time for everything to be done.....!
First, how a thing has to be done has to be planned;
But sans proper persons nothing can be done well!

If we call for the men to be done, they won' be there;
They may be engaged with busy works somewhere;
Only when they are available, our work can be finished
To the satisfaction of all to go ahead with our occupation!

If we are jack of all trades, we can do all things forever;
But we have to do what for we are destined to do ever!
Due to this fact, many works are lying in pending ever
With adjustments to manage till the things are rectified!

Unless the Lord sanctions, noting can be built or destroyed!
This is the decree of fate all cannot change by any means...!

Ramesh T A
The Decree Of Nature!

Colourful flower with unique fragrance smiles bright;
Flying flower hops on flowers with colourful attire ever!
It is a flower or fly that files ever before it dies sure?
Yes, it is indeed none other than butterfly we all love!

A photo of a friend shows a butterfly lying with a dead leaf;
Moving as a caterpillar for sometime, sleeps for sometime in
A cocoon before it becomes a flying insect this butterfly is;
Butterfly flies while living, but leaf flies, when it dies!

All beautiful beings like butterflies and birds fly, while they
Are living a beautiful life in the world till they fall dead;
Like the leaf man also lives sans flying, but after death, all
Souls fly high leaving behind the corporeal body some day sure!

It is the decree of Nature that makes some to fly in freedom,
But makes many not to fly ever till death makes soul to fly!

Ramesh T A
The Demise Of beloved Making Me An Independent Individual!

Demise of my beloved better half is a greatest grief
In the course of life in this world of tension ever;
Fighting for survival against a cystic tumour of
Pancreas being operated by experts, O she has died!

O What a great loss in my life of a beloved wife,
A good woman without any grudge over anyone, who was
Susceptible to anyone feeling pity for all poor ones
And was deceived by gullible guys and girls sans fail!

Both relatives and foes feeling jealous towards her
Said stories and found faults driving her to the brink
Of falling to the abyss but never losing her special
Spell to attract good people to help her at the climax!

That escape from trap has made all feel still more
Triggered to make her fall down again and again sans
Success in the journey of life leaving fate to take
Care of her demise by a pancreatic cystic tumour...!

Not being a God and nor even a surgeon, I could not
Save her from death the inevitable one for all born
In this world of life and death nonstop as ambulances
Functioning as input and output of lives in hospitals!

Has God chosen me to be an independent individual to
Live as Poet forever to share ideas of vital interest
with all in the world to be free from all sorts of crises
To challenge against all odds in the world of Uncertainty?

Ramesh T A
The Divine Beings In Human Forms!

The personality of a poet or writer or artist is effaced
In the great work of art one produces to last forever...!
Artist is the creative life force of one's work of art
Like God who invisibly activates all living beings ever!

Projection of personality in any art-work is talent indeed;
But projection of art but not personality is work of genius!
In any movie, star actor is remembered in the long run but
Not the director or writer who activates all characters...!

More than the creators, the created characters, fiction and
Songs are known forever and that is the mark of great success
Of Best artists as they live forever in the ideas they have
Created unlike popular personalities who mesmerize audience!

Creators who activate all characters and living beings by ideas
Invisible are indeed divine beings in human forms in the world!

Ramesh T A
The Divine Like Philosophic One Of Life!

Happiness is very important in the life of the world;  
Without happiness, life is a dead log to pull on ever!  
One may be pacified and made to forget the great loss,  
But the lost paradise like happiness never be regained!

To forget that, diversion in Nature and art makes one  
Go into deep exploration by intellectual and spiritual  
Pursuits turning one into a great philosopher of some  
Wisdom that sticks to one finally in all one's expressions!

Melancholic words self facing one make all think and get  
Enlightenment to the level of worshiping that one as a  
Divine not knowing the seemingly wise one is a big failure  
That has made one to say truth unquestionable by anyone!

Seers, sages and mystics are of that product who have all  
Become pure diamond under pressure of life unbearable sure!

Ramesh T A
The Dominating And Suffering Ones Due To One Sided Love!

One sided love, partiality in love and no love can't
Develop good character to know right and wrong in life;
Such persons don't understand others feeling and mind,
Don't care and do by force as they wish to dominate all!

As they did not have hardships earlier and don't know any
Difficulty being experienced by others, bully and humiliate
As they wish that others bear knowing that they are unable
To know the feelings of others and mind ignoring them ever!

Only by hardships and sufferings alone in their pursuits,
They come to know how they have made others suffer due to
their arrogant and not caring attitude due to one sided
love and support they have been enjoying for long in life!

But the suffered ones by discipline and patience manage
Their difficulties and come up with maturity and wisdom..;
That state of maturity, the trouble creating ones who have
Been enjoying one sided love, slowly and lately attain in life!

Ramesh T A
The Dream Of Democracy Of All!

Democracy can achieve perfection if the govt. is ever Honest, sincere and truthful in its deliverance of Goods and duties to the people respecting as heroes!

Education in such a democratic State will bring great Honour to the educated people irrespective of their Social status as for as economic condition is concerned!

All people who are truthful, honest and sincere should Have special treatment and immediate response from the Govt. for whatever things they approach govt. offices!

Quick disposal of people's needs should be given first Priority above all works govt. minds everyday all round The year for the development of the nation and people!

Such a democratic form of govt. is still in the stage of Dreams only all over the world that all wish to see soon!

Ramesh T A
The Dream Of Everyone!

The dream of peace, love and joy in one human world is there
In the hearts of everyone, romantic or intellectual or spiritual
One may be, while pursuing various objectives in world life...!

After the two great world wars, reduction of nuclear weapons
And moratorium of weapons of mass destruction, UNO is ever
Striving its level best to do for the promotion of world peace...!

Realization that hunger and poverty are the priority every nation
By all means has to pay much attention to besides other matters
Like preservation of art, Nature and culture while fighting terrorism!

Education, training and job besides providing food, clothing, shelter
Seem to be offered to every citizen of the world by the joint efforts of
All nations under the direction and assistance of UNO in lieu of wars!

Wars are not means to settle disputes by military might and economic
Power, but by right of each on the basis of human laws to be civilized!

Ramesh T A
The Driving Spirit Of Life!

Once an ambition is fixed, it becomes a mission
Or an objective of a competition to be done sure!
We are not dependent on any medium to do our
Thing whether it is there or not, but go ahead ever!

That kind of resolution becomes a driving spirit
That moves us towards our goal with our aim
Ever directed straight against all distractions and
Disturbances to the end point of our mission...!

Likewise so many things in our life we have been
Concentrating and doing now and then to achieve
Our objective fixed based on knowledge and vision
As an ambition living a simple life with high thoughts!

Whether we have help from friends or not, we have to
Go ahead with our ambition broad as the driving force
In life to express our personality and fulfil the purpose
Of our life with efforts clear based on thoughts sure...!

Ramesh T A
The Emotional Play Of Love Life!

Romantic love starts at first sight making true the  
Fact that first impression is the lasting impression!  
Love is a matter of emotion of heart and not intellect  
Of mind to decide about life partnership between two!

Animals, birds and fish by natural instinct find partner  
To mate and perpetuate their species ever in the world;  
That is the natural way of life going on among all living  
Beings since time immemorial of humankind in the world!

Man being a higher being of all living beings has his  
Emotion to play the part for love and achieving fruition  
In love, intellect plays its part to make life enjoyable  
And successful in happy married life beyond any doubt..!

Love is unique and one of a kind in human relationship  
Besides friendship for starting the emotional play of life!

Ramesh T A
The Enchanting Look Of Rain!

Fed up with heat and sweat of climate long,
All long for rain to fall and quench thirst
Not only for men but also for farms parched
As drinking water and as river for irrigation!

Suffering under burning Sun all sought rains
To come and solve all problems water scarcity;
All complain about sweats and no sleep in nights
For want of breeze and mosquito bites till morn!

Rains have come to alleviate such sufferings sure;
But in the time of Fall, storms and tsunamis are
Simply waiting in store ready to strike at anytime
To inundate villages and towns in floods and woes!

Climates are like distant look enchanting the view
Only, but never a welcome panacea to many a time..!

Ramesh T A
The End Point!

To forget oneself, one indulges in writing poetry;
Becoming one with poetic stream, one loses self
And expresses ideas flowing like smooth river!

Also, recollecting in tranquility of blissful moments
Of life in Nature, one enjoys real pleasure for long
And recoups lost mood once again to do all better!

Meditation makes mind clear, clean and bright to
See the past, present and future births too, if one
Becomes a mystic and attains super-mental state!

Mystically, inner spirit mingles with all pervading
Spirit to enjoy divine bliss ever lasting and eternal
Till moksha is attained to enjoy total liberation...!

All struggles in life of all living beings are for this
Full freedom or total liberation only, the end point!

Ramesh T A
The Endless Mystery Universe Is!

All twinkling Stars of Universe are Suns of many planetary systems;  
Before the end of each Star's span becomes a supernova to a dwarf;  
Constellations in the Space we know are counted to be twenty seven;  
Dwarf star is dark and intense in density and can be a Bloch Hole too!

Ever the Universe is expanding, scientists say, but may be circling too;  
Full idea of Universe is still a mystery needing to be unearthed sure;  
Giant red supernova each star becomes at the end before becoming defunct;  
Highest point of saturation of a Star is Black Hole at the centre of galaxy!

Is the Universe expanding in straight line or in circular motion ever?  
Joy of exploring the mystery of Universe never ends kindling curiosity;  
Keeping pace with the knowledge explored, still it makes a mystery sure;  
Long explorations have not solved all the problems and doubts of Universe!

Many theories without proofs are increasing by analyses made by many ever;  
Nothing seems to have given a final theory of everything so far and so forth;  
Open secret is the Universe since the time immemorial to mankind in the world;  
Popular theories of Universe are out of the realm of mathematical equations!

Questions of creation and evolution are still remaining on the debating table;  
Results cannot be arrived at for so many things as experiments are not possible;  
Stars are greatest wonders from childhood on and never seem to be solved yet;  
Truth behind this mysterious open secret is still impossible to decipher sure!

Universe kindles thoughts, imaginations, ideas and dreams impossible to stop;  
Very nature of Universe is so vast and wide that no one can complete quiz ever;  
World of our kind in the Universe too seems to be a great matter to settle yet!

X, Y and Z of this Universal mathematical problem never seems to be solved;  
Years of discoveries and explorations also have no end and will not end ever;  
Zeal to know this mystery also never seems to end yesterday, today and ever!

Ramesh T A
The Enigma Of Life!

My heart is aching with painful joy, 
When both bad and good things 
Happen simultaneously in life long!

Both grief and joy are neutralized; 
Nothing seems to be normal and 
This abnormal state is enigmatic!

My natural feelings are fettered 
Making me neither happy nor 
Sad by all things happening so...!

What a dilemma life has become, 
When such things happening ever 
Beyond my control now and then!

It is the work of fate, I feel much 
And expect relief soon from them!

Ramesh T A
The Existence Of God!

Hearing my heart talk about all philosophical truths,
I dream about many things sleeping through the night!
Are the religious preaching make us see and prove
The existence of God many ask nowadays everywhere?

Can we see the air we breathe other than feeling it?
Can we see the current flowing inside live wire ever?
God is also like that and we have to realize God by
Our experience as God is invisible spirit everywhere!

Energy can neither be created nor destroyed, says
Science and is the postulate helps to say exactly about
God as spirit existing in energy activating everything and
Everyone everywhere in the world and the Universe ever!

As God is not a matter or having body like us to feel all,
Perceive and conceive with heart and mind like us ever!
As God is energetic universal spirit can be realized only
By our spirit within in communion with it in Nature sure...!

So, whatever the religions say become useless to know
And realize God except by spiritual efforts and that is
Possible only by meditation and mysticism in Nature ever
We have to conclude about the existence of God here..!

Ramesh T A
The Expiry Date Of Man!

Pleasure in grief and grief in pleasure are classified
For all in the life of the world by the Supreme Creator;
That's why religious scripture says that there is limit
Both for desire and imagination man dreams about in life!

It's well known life is bitter-sweet and love is painful
Pleasure that man needs art to handle both better to have
Joy, satisfaction and peace in the journey of world life
Having knowledge of literature serving as encyclopaedia!

Life may be short or long depending upon one's nature;
By wisdom, it is possible to utilize time in hand to do
The best one can both for achieving one's ambition and
Desire knowing and following limit level of each one..!

That too one has to do them as if each day is the last
Day of one's world life as man's expiry date is unknown
Unlike the expiry dates of medicines, food products,
Fish, meat and chicken we all know pretty well before..!

Ramesh T A
The Eye Of Nature!

Eye of Nature ever focuses on completion or perfection in all its manifestations
Following the famous proverb practice makes all perfect to improve by evolution
From the seed to tree with branches of leaves full of flowers and fruits,
From the embryo to man to superman to divine being finally to be one with God!

The evolving process of Nature like the seven colours of rainbow to colourlessness
Of water or glass or the invisible spiritual state is the focus that goes on ever
Until the saturation point of sublimation after purification and up gradation
Arrives in perfect, pure and Absolute state to be one with the all pervading one!

This concentrated focus of Nature is the hint for the seekers of divinity
Who have to aspire, aim and achieve end point sans losing the grip of focus
In all the pursuits of man from the beginning to the end, from the childhood
To manhood, super-manhood and divine-hood, from subconscious to super-conscious state!

By colourful beauty of attraction, Nature kindles realization in all to higher state
To soar high to sublime state like the mystic or poet does to see the Absolute one!

Ramesh T A
The Fake Great Personalities!

Half-baked ones jump to conclusion to do anything, good or bad under confusion;
And then later on lifelong suffer sans redemption as elephant thrown sand on self!
But, if someone comes forward to turn a new leaf for them, they act as the stray dog that is
Well cleaned and fed with good food, will run to the street again seeking street food only!

They say that one who cannot bend at the age of five will not bend at the age of fifty in life;
Also, they say that the bent dog tail can't be straightened out as it will restore to its natural state again;
Immature, childish and adamant nature of one if not trained in good discipline, will not change ever;
After seeing a little success in the beginning of life, they imagine to be great and behave so ever!

Blinded by initial successes and support of some flatterers, such adamant egoists never care anyone;
Never respect anyone, elder or learned or superior, as they feel they are great forever sans renewal
And expect others only to respect them as they are supported by many for their works earlier;
Slowly seeing their such untamed horse nature, all keep distance with them and isolate them one day!

Not realizing their flaw in character and drawbacks, they take advantage of all weak people
By their old fame sans any improvement in profession and personality, try to live so forever;
Sooner or later all come to know their fake skill and exploitation of other weak persons
And completely ignore them and isolate forever from social functions leaving them on the back-burner!

Ramesh T A
Greek, Latin, Sanskrit and Tamil are Top, independent world languages..!
Prakrit is known as common man's Language or formative language....;
But Sanskrit is well made language Used, developed in writing classics
Just like Greek, Latin and Tamil....!

All well developed languages are Formed out of Prakrit languages!
Maharashtri, Magathi, Goudi,
Ladi and Souraseni are five
Basic Prakrit languages of India!

Sourashtra is formed out of the Souraseni Prakrit language....,
Which is the central language of
All the five basic Prakrit languages!

Sourashtra language was believed To be the language of Harappa
And Mohenjodaro civilization time
And is also supposed to be the Language of Rig Veda era of India!

Abode of Sourashtra language
Before the independence of India was Flourishing in Sourashtra province;
After independence of India it has Shrunk as an oasis of desert in
The western part of Gujarat State!

But due to Mohammedan invasions,
Sourashtra language has gone with The migrating population mixing
With Marati, Konkani, Kannada,
Telugu and Tamil languages to the Southern tip of Indian peninsula...!
The Fault For Crisis!

Good thoughts, kind acts and spiritual pursuits make one
Live a clear life against all odds and crises in the world;
For, that is the wise way of life one can live in the ever
Uncertain materialistic modern world full of violence sure!

Pollution in air, water and environment is what modern man
Seems to have achieved for all to suffer from all kinds of
Diseases making one unable to enjoy a happy life after a
Final period of work in retirement making dreams just dreams!

What we do should give a sense of fulfilment and satisfaction;
Just amassing wealth to enjoy life at the fag end of duration
Is a mirage for one to cross a long desert before seeing the
Nice paradise one has in mind only but never in reality forever!

Economic thinking with the development of technology only at
The cost of good social life seems to be the fault for crisis!

Ramesh T A
The Festival Mood Of Town In The Night!

A whole town lights I see from above as the Stars of Universe;  
Burning bright as living day lights festival time has begun..!  
Cars and buses running with full rush for shopping everywhere;  
Delighted by jolly mood of town, all purchase things all like!

Engine sounds of vehicles are subsided people's laughing chats;  
Full heads of people seen from above look like coconut shells!  
Goods purchased are being delivered by van to various destinations;  
High expectations of people are almost satisfied by shop keepers!

Ice cold winter weather has become warm by the rush of all long;  
Joyful dancing children getting whatever things they like all run  
Keeping pace with the fast walking elders to all the shops soon  
Loving the day's fun they have never seen before being very little!

Merry Christmas and New Year time have created joyful mood to all  
Needing no incentive to kindle that mood as delightful crowd's chats  
Opening the doors of all hearts to express their feelings hidden in  
Past busy occupations all day long for many days altogether long...!

Quivering voices by winter cold too have become bold by taking hot  
Refreshments like soup, coffee and tea in the modern cafes there;  
Souls recharged with strong energy by snacks and beverages all walk  
Through the nook and corners of the main street to purchase all...!

Universe full of Stars twinkling everywhere, illumination lights with  
Various colours in movements create dream like situation as in heaven;  
World has turned into merry land by light arrangements so sophisticated!

X, Y and Z always engrossed in duty are seen moving round shops there;  
Years of heard works they have put a halt so as to buy things needed;  
Zeal in their faces have brightened like dawn turning into day bright!

Ramesh T A
The Final Solution For World Peace!

Due to differences of religions, races, cultures, colours and languages of all
One world looks to be many nations
Separate by demarcation of boundaries!

Due to the differences in ideas of all,
God is called by many names, faiths and
Worshiped in many ways according to the Cultures of various peoples forever…!

For maintaining peace and order in the world,
It was felt to bring all nations under the rule of one ruler with the view to create One world for all nations and people ever!

By religious conversions, it was tried to Create one world order to bring about peace;
By military force in World Wars also, many Times nations were tried to be ruled by one!

By one political ideology also, it was tried To bring all nations under the control of one Ruler to create One World State for all people Only to meet with great failure in the past!

To rule the whole world with a lot of diversity In all respects by one religion or one military Force or one political ideology is like ruling The world by a man of one book contrary to all!

Modernization of nations by knowledge and technology, Civilization of mankind has opted for integrating All nations for globalization of economy to share All benefits by further globalization in all aspects!

Slowly perhaps after the formation of European Union, Other unions of nations in other continents of the world Would opt for One World Government under the aegis of United Nations Organization as final solution for peace!
The Final Destination!

Non-attachment to anything and anyone gives real independence to one; Real independence leads one to total liberation of spirit to its final destination; Final destination is making one be one with the all pervading spirit of God; God can take only when one is ever stable in intellect, emotion and spirit!

Spirit is realized by knowledge of Self, world, Nature and universe sure; Sure of all knowledge to stable state begins meditation leading to mysticism; Mysticism is spiritual experience with mind having communion with Nature; Nature is the beginning and end for man's temporary sojourn on the Earth!

Earth is the prison for the soul fettered to body to experience painful pleasure; Pleasure of body, mind and soul realization has to make one stable in all; All knowledge, experience and wisdom make one non-attached to everything; Everything on the Earth is illusion and formless spiritual state only is real!

Real knowledge only helps one to realize illusion and ultimate reality; Ultimate reality is body-less spiritual state in communion with Universal spirit!

Ramesh T A
The Finished Product!

Without writing something I can't leave the website;  
Every time I write something new I am enthralled...  
When this is so, how can I stop writing at all ever....?

New ideas flourish as and when I develop on some  
Matter of some significance that transforms itself  
Into something wonderful, when I finish writing it!

I don't know what I am going to write before I write;  
But as I proceed on a lot of new and interesting things  
Come up in my mind that turn into words in my verse!

The calm looking high Sky and deep sea are eternal  
Spring of many wonders we go on brooding anytime  
To have something creative in the mill of mind to grind!

The finished product is the birth of a poem everyday we  
All can enjoy, appreciate and muse over forever and ever!

Ramesh T A
The Fittest To Survive Ever!

Heedless chill climate still continues with freezing activity
Even after the fag end of Winter season supposed to be ended;
This is due to a little less rains at the end of the last year;
Also, this long chill climate may be a harbinger of hottest Summer!

Sans strength and stamina in the body, it is impossible to bear
Bitter cold Winter climate whether it lasts for four months or
Even lesser months as persistent chillness is too much to resist
By old people, weak persons and children unless they are healthy!

Summer months though are longer in tropical places, it brings
Convectional rains now and then if the climate becomes hottest;
That way the balancing of Nature is wonderful to witness ever
And enjoy Summer time going to places of hill stations nearby!

If we are well prepared to face all weather conditions as we do
For facing problems of life, we are the fittest to survive ever!

Ramesh T A
The Force Of Love!

Social conventions, other taboos and all are nothing
Before love that is true and even if life is blue,
Love never changes to face all odds and turmoils to
Save the loving soul to surmount all to success sure!

Love takes all measures to overcome all opposition to
Make the object of it get what it needs to be done as
There is nothing fair or foul in both love and war...
And nothing can defeat the force of love by any means!

Such is the nature of love that many take it for granted;
Stoics ignore and neglect as idlers romantic pastime work,
When all things are achieved for the lovers by the clout
Of love that is so comforting and makes all convenient!

The spell of love makes one to do anything, when a decision
Against all forms of risks is taken to plunge headlong in
Action to achieve object of plan well carved out of hard
Rock or soft clay the image that is beyond one's scope!

Ramesh T A
The Forgotten Significance Of Supporters!

Programmes fixed can't be followed as they are sans making
Changes necessary before a trip to a place for a long stay;
This happens, if we have to stay with close family members living
In a far off place due to lack of persons to assist them sometimes!

The distant members in great eagerness to see us ask us to hurry
Up the journey so that they can proceed with their works sooner;
What a strain it causes to the helping members the receiving
Members won't understand, if they happen to be young ones ever!

This is an instance of love bickering the elders have to undergo to
Satisfy their dear ones who are trying to come up in a profession;
The success of such people can't have been achieved sans the
Timely support of their mentors in the formative times of their life!

The mentors and followers forget all about those painstaking work
That has been put before all the ventures that have met with victory!
Victory of a person in a team work doesn't solely belong to one only,
But it is the victory of the team represented by that person sure....!

Ramesh T A
The Fortunate Ones!

Fortune favours only the popular and famous ones
Despite one is really great by one's act in society...!
Till one becomes popular by politics, cinema, sports
Or music, there's no way one can become successful!

Until one becoming famous, one is unknown and also,
One's most cherished work of achievement is unknown!
The moment one holds a great post of social importance,
Demand of one's things goes beyond limit in the world!

Until such time, one's works lie filled with full of dust in
A remote corner uncared for by anyone in the world...!
This is the fate of anyone in this world of uncertainty
And full of inglorious bastards at the top of helms ever!

The curse of democracy affects all the really great ones
Rather than stooges who become famous by fluke chance!

Ramesh T A
The Fourth Planet In The Solar System!

After Earth, man's search is on Mars planet
For human habitation as Mars is the fourth
Planet in the solar system full of red soil
With frozen rivers unlike the Moon without
Atmosphere as on Earth needing the creation
Of vegetation and atmosphere helpful for life!

The question of Aliens still remains to be solved;
Whether it is hoax or real nothing is known except
Some evidence and dwarf like carcass of the strange
Extraterrestrial only in the research stage long...
And no direct contacts seem to be known so far...!

Of all the planets of solar system, Mars only seems
To be of any use further, if life habitation possibility
Is created by science and technology in the near future!

Ramesh T A
The Fragrance Of Love!

As paradise flowers, fragrance of love remains ever in mind
To inspire heart with joy and enthusiasm to go ahead with
Cheerful mood in works of creativity and inventiveness sure!

Joy of love is where heaven we all dream about is in the world;
Instead of realizing this truth, how many are longing for it all
Their life in vain losing sense of smell to feel its fragrance!

Beauty of paradise with the fragrance of heavenly love at the
Centre, all knowing hearts ever aspire to reach to enjoy love
That is lasting forever in heart, mind and soul as immortal...!

Like fragrance of flowers, remembrance of love fragrance ever
Keeps up the joyful spirit within to survive, sustain and succeed
In all ventures of life in the world full of agony and ecstasy!

The fragrance of love is the worldly heaven ever staying steady
At the centre of paradise of Nature we all have to cherish in heart!

Ramesh T A
The Freedom We Enjoy!

Free birds are flying in joy everywhere!
Squirrels in a shrill voice play everywhere!
They are children of Nature enjoying freedom!

We have created plane to fly and music to dance;
Yet, without material aid we can't do these feat
To overcome our limitation by mental power!

The power and freedom we enjoy are nothing
Before the natural power and freedom they enjoy!
But the comforts we enjoy have made us slaves.

Yes, we are slaves of the material world forever
Living artificial life more than natural life long
Unable to excel Nature's power in any way!

Knowing this we have to live in harmony with all
In Nature to enjoy real joy and peace in freedom!

Ramesh T A
The Fulfilment Of Great Expectations In Life!

Growing, achieving ambition and becoming a gentleman
Seem to be the dream of an individual whoever one is;
For that, education, vision and ambition are needed
To be finalized and fixed before action is taken ever!

But for a poor kid, how can such a dream be fulfilled?
There comes the service of good people who have failed
To fulfil their desire of love in life in the world,
If they have heart to divert in art, music, etc. so!

Great artists, philosophers and intellectuals have
Done great service to human society mainly due to such
Helpful hearts have supported them to come up with their
Best ideas into action for the betterment of humanity!

Diversion for a good philanthropic cause has compensated
The loss in one way to another way benefiting the really
Miserable in life to come up with their talent or genius
Paving the way for the benefit of whole of humanity sure!

Ramesh T A
The Game Of Life!

Playing game is not life forever for everyone;
Playing game is a happy state of life activity.
Living life is an art one has to play as a sport;
Otherwise, life is full of wars with enemies…!

As in game, life also meets with success or defeat;
Both has to be taken in the same way and proceed
To see the victory in the next effort of one's activity,
A continuing process no one has to leave it out ever!

From the game only life's activity starts with a goal
In view based on our interest and desire in the life
Full of opportunities with the scope we have to create
By our broad outlook of world trend we are living in!

Well planned and chosen route will make us proceed to
Our object of life and reach there with success one day!

Ramesh T A
The Game Of Love!

Why are we hugging and kissing
When we meet loving souls in life?
It is the physical expression of love
Towards the loved one most close
To heart beyond words to describe!

When two souls are in love beyond
All norms and ethos and conventions
There is no rule or regulations
Restrictions one to show and share
Love With one most precious in heart!

Yes, it is true there is nothing
Fair or foul both in war and love!
That is, there is no limit both in
War and love to show one's force of
Passion to the other half in game!

Lovers become players to play the
Game of love like children do in
The hide and seek game they play
In the play-ground just as the two
Lovers enjoy in the garden or park!

However long the lovers play this
Game of love, there is no tiredness
And the passion also never ends
Making the love game to be continued
Long again and again they only can do!

Ramesh T A
The Gentle Nature Of Humanity!

Only humanity has majority of population in every country; Knowing this advantage, they can use power to demand as to Their rights to achieve what they want in the world level!

But as they are gentle human society, they always use their culture of lovingly to get their demands done in a good Manner sans creating troubles to anyone in a civilized way!

Many misunderstand their gentility as weakness and never Much care for their demands easily and put them in suspense And after a long drag of time their needs are satisfied..!

Due to patience and tolerance, they never take seriously any Humiliation they have to suffer as they are work oriented and As their duty is done, they mind their next step to progress!

Their hard working nature and perseverance always take them up In all walks of life though that may be time consuming matter!

Ramesh T A
The Golden Greats!

All day long we have been meeting friends;
They are all having engagements tight ever;
We cannot talk free about favourite matters;
So, we just say pleasantries and leave soon!

Again when we will be meeting, God knows!
The good old times of joy, fun no more come
And bring the zealous mood we love much!
The time of happy trend never shows up....!

All things have changed whatever be it......!
Novels or movies or music or pop songs,
We cannot enjoy as we did earlier sure and
We have to be content with old tunes in disc!

All golden greats are eternally entertaining
Unlike thrash things immatures enjoy now!

Ramesh T A
The Good And Bad!

Beautiful mind only good people have ever in the world
And whose thoughts, words and deeds based on love
Become works of art for others to imbibe in life sure...!

Maturity of mind never develops in frolicsome people
And whose childish acts, though have training in arts,
Never create love towards them for whatever they do!

Such childish ones never listen and correct themselves
To live a good life settling with good people even when
Fortune moments knock at their doors of world life ever!

These evil-minded childish people are a great threat to
Society of good people they exploit for their well being
Whenever they get opportunities to come up in life so!

For all people whoever they are, if they don't follow ever
Good means, they all meet with bad ends one day or other!

Ramesh T A
The Good And The Bad!

Just as hot climate denotes Summer
Cold climate sure denotes Winter!

Just as good acts denote Hero
Bad acts sure denote Villain!

Just as work of beauty denotes Art
Pollution by technology denotes Science!

Just as generous donation denotes Philanthropy
Hoarding of wealth by selfishness denotes Miserliness!

Just as domination in forest denotes Lion
Monopoly by big business denotes Boss!

Just as unassuming nature denotes Maturity
Haughtiness by inferior guys denote Novice!

Just as all good aspects denote Godliness
All bad aspects denote ever Ugliness!

Ramesh T A
The Great Festival Of Joy!

Festivals are the best time for romantic nature of all
To come to life to show its power of magic in fun works;
Decoration of places in colourful floral designs covers
All people's heart to participate in joy and fun sure..!

Romantic minded men and women in colourful cosmetics play
Their roles to attract all others to join them in the fun
Of festival with plates of various fruits of the season
As nice offering to the three beautiful deities all love!

Goddesses of art, wealth and power denoted by Saraswathi,
Mahalakshmi and Shakti give blessings to the pious and good
Hearted ones with real joy in spiritual way unique to them
And bring peace of mind and fulfilment of heart with bliss!

The festival of dusserah being celebrated for ten days is
The top most one in India that absorbs all societies in joy!

Ramesh T A
The Great Grace Of Nature!

Green grassland interspersed with colourful little flowers
Indeed is beautiful carpet of Nature that invites all there
To lie down with dear ones and friends to spend wonderful
Time in life to remember that forever and ever later sure!

Bouquet of colourful flowers we make out of freely grown
Flowers on various plants and trees we offer as our great
Gratitude to honourable souls and divine beings we love
To get a sense of fulfilment and satisfaction in our life!

Crowning beauty of Nature is the colourful flowers with
Various kinds of fragrances of their own we select to
Offer to our special and beloved beings in our lifetime
As our reciprocation of love we enjoy from them forever!

Nature is heaven and paradise in one that has helped us
To imagine about them and create for all to dream about
In life with moments difficult to surmount certain times
And that helps to lessen our burden albeit we aren't there!

This solacing, hope giving and confidence building measure
With the help of Nature is a great boon of all gifts we have
By the grace of the Universal Spiritual Energy activating
All things animate and inanimate everywhere in the Universe!

Ramesh T A
The Great Idea Of One World!

By human unity many things can be achieved unanimously; Uniting diverse kinds of people due to religions, cultures, Languages and nations is the way to create one human world; This is the purpose and aim of United Nations Organization!

If all national governments work together for achieving this Great goal of humanity, world peace, prosperity and progress Surely can be realized, though it seems to be a great dream of All humans in the world now and it should not be so forever!

Education of children, youths and general public through good Magazines and clubs such a nice notion has to be popularized And that in the due course of time can inspire and urge all Work towards that great goal of humankind sure sooner or later!

Intellectuals, writers and poets have a great duty in doing The job of familiarization of that great idea of one world!

Ramesh T A
The Great Migration Of Sourashtrians!

The Great Migration of Sourashtrians!

Like the exodus of Jews from Egypt to Promised Land,
Like the ouster of Kashmir Pundits by Islamic extremists,
Due to inevitable historical reasons, the great migration of
Sourashtrians to South India took place around 8th century!

Losing and leaving behind their houses, properties, valuables
And everything to escape from the looting of Mohammedan
Invaders from the West, Sourashtrians migrated from place
To place relying only on their working skill as weavers ever!

Sourashtrians are invited by Emperor Krishnadevaraya to
Make silk dresses for Royal families in his capital in Hampi
Near Bellary district of today after they had worked in
Maharashtra and Karnataka States for two centuries in each!

When the Krishnadevaraya Empire came down, Sourashtrians
Received the patronage of Madurai Naick Kings in 16th century
With their families settling around Thirumalai Naicker Mahal
And the Meenakchi Temple as Royal guests to make dresses....!

The survival, sustenance and success story of Sourashtrians is
Quite amazing though they have not developed their script
And maintained any record or history of their migration long
Staying and developing places like Madurai, Trichy, Tanjore!

Ramesh T A
The Great Truth Of Nature!

Beautiful sunset after a very, very hot summer day
Gives great solace to the heart, when I stand in
The balcony looking at the sanctuary of birds and
Small pet animals on a hundred acre college campus!

Outside the metro-city also there is no breeze
And also, there is no shade even though there are
A lot of old trees still existing by escaping from
Urban development and expansion of industries there!

Sufferings of all kinds have not left free here also
Despite the place is far off from congested city full
Of traffics day and night being a largest business
Centre in the whole of nation in the southern part...!

Enjoying after suffering is a great bliss in life...!
This great truth Nature says so and never betrays all
Unlike the short range benefit seekers who do all things
Including betrayal to achieve their myopic objective!

Ramesh T A
In the course of our life, we see many people and things;
Who and what remain in mind reminds very few only later;
Most of the time is wasted in wasteful persons of no value;
Vital things and men we have little time to pay attention!

Some die soon sans any to replace them and some are born new;
After the demise of dear one/ones, we are unnecessarily bored
By unwanted ones without leaving us free to think fresh next;
Likewise, our life is frustrated by elements of no use long!

It is not an easy thing to do even a simple interesting work
Due to the nuisances of such unwanted elements moving with us;
Such things are not new to us, but many intellectuals like the
Great Bernard Shaw, Poet Coleridge have achieved despite that!

If we answer to each and everything of time passing companions,
We will have no time to do worthwhile things to achieve anything;
This is the greatest lesson one has to know before venturing on
Achieving great ambition in life and do best by hook or crook!

Ramesh T A
The Hall Mark Of Greatness Of The Great!

How one becomes great is all time suspense can't be decided by one's power, position or possession in the world ever! Great men make great promises and also fulfill them sans fail; Love makes them do all as greatness lies in love, not in intellect!!

Achievements they leave behind ever talk about their greatness; And inspire everyone to aspire for the great in the world sure! Inspiration gives determination to think great to do great things; With inspiration they move people and world as they wish ever!

Temples, churches and mosques are the achievements of their greatness; Schools, hospitals, gardens and so on are the extensions of their deeds; Arts, science and philosophy are the scales they use to measure truth; Love and truth are the foundation upon which they build their empire!

Power corrupts, Wealth makes arrogant, Knowledge makes proud but not great; Great scientist Edison once forgot his name and Tagore his own poems, when Quoted by someone on an occasion as true artists forget themselves in art; But that is the hallmark of the greatness of a great person in the world!

Ramesh T A
The Harbinger Of Love!

Kind, hospitable treat is the harbinger of love in life
That brings closer host and guest for lasting relationship
Blossoming as friendship before blooming into love ever
That transforms chaos of society into harmony ever lasting!

Expressions of love language turn anyone to be good and
That unites humanity as a whole to live in one world ever
Transcending borders, nations, regions, religions, races and
All colours, classes and creeds promoting higher order of life!

For, love is the ultimate solution for all problems in the world
By its fostering of human sense that turns brutes into humans
Before religion turns humans into divines to climb stairs to heaven
Which is nowhere but in the world only built by love forever sure!

Sans love, knowledge is impossible to gain to have freedom to
Enjoy amusing joy and pleasure to attain satisfaction and peace!

Ramesh T A
The Heaven Of One World!

Universal brotherhood by creation of one world is dream for all!
By realization of this dream, it's possible to have Universal peace
And harmony to enjoy golden time of life in this world of ours...!

Heaven and hell are nowhere in the Universe but in our mind and
Come as enjoyable or nightmarish dreams till unity is made possible
By world people of all races, religions, regions, culture and civilization!

Inspiration by poetry and education so by all educational institutions
By schools and colleges can foster such kind of beings of humans sure
To realize that dream of one world with Universal peace and harmony!

Literature, magazines and world clubs of social services can promote
Creation of One World with one language, single world currency and
Common laws for all with Nuclear arms under the control of UNO....!

Dawn of such a golden day will bring joy and bliss all can enjoy in One
World sans boundaries and other restrictions to govern all by love ever!

Ramesh T A
The High And Melodious Music Of Nature!

Bright Sunshine gives great warmth in December Winter; What a sea change it is now to see after rains and mist! Sans warmth, it is impossible to overcome chillness sure Till the end of Winter time from December to February..!

Summer hot season is very high, yt, it can be managed; But biting cold Winter time is impossible to bear sans Proper food to withstand the harsh weather by weak ones Unless one is well prepared to face the wrath of winter!

Summer and Winter are the testing time for all humans As far as health and strength are concerned every year; Spring and Autumn are great relief to enjoy life sure In-between other seasons of every year to live life...!

Nature is hot and cold with mild and soothing times too Like the symphony with high pitch and melodious ones..!

Ramesh T A
The Immortal Master Spirits!

The book is the life blood of a master spirit says Milton;  
Yes, novelists, poets and writers are the life force of  
Stories and spirits activating all characters behind them;  
Stage and film actors and pop song singers are all puppets!

The spirit behind all fiction characters is the life force  
Directing them to do whatever things of the master and all  
Players are the puppets dancing to the tune of the master;  
Nothing can move even an inch sans the signal of mater spirit!

These masters whether they are novelists or poets or writers,  
Are the immortal spirits through their puppet characters  
Entertain and instruct world people forever and ever by the  
Spell of their creative geniuses like a magician doing magic!

Under the spell of master's magical skill, all are swayed to  
Laugh, cry, fear and activated to forget world to be renewed!

Ramesh T A
The Immortal Young One!

This is the end one has to think and decide about finally;
Resurrection of youthful zeal at old age is a revolution;
Many long for it dreaming sans an end as it's impossible;
But there is an exception always in everything in the world!

Who is it who can do this miracle in the world forever...?
Emotionally one may feel young, but physically never achieves;
Exercise and medicine one may try, but naturally none does;
But the one who is ageless and ever the same is poet only...!

Poet only inspires zeal in all young and old sans exception;
Poet never becomes aged until one achieves one's ambition;
Till then one keeps ambition in frozen state to revive it...;
When the time comes, frozen ambition gets animated to do all!

Poet places one's ideas at the centre of world language wheel
That rotates to scatter and spread inspiring ideas to all to
Pass on to one after the other and generation after generation
As it's culture reaming immortally young in words to achieve!

Ramesh T A
The Immortality Of The Great!

Living life long does not make one great in the world;
Living with a great purpose and achieving it are best;
That too living long achieving a lot makes one great;
By that way one's identity is well known everywhere..!

Not only that but also, the mark one makes by achievements
Stand as beacon light serving better in the guidance of all;
Identity and also, immortality are achieved so as a record of
Great ideas incorporated permanently as in the life of legends!

Many talented ones who are unknown, become known by new
Social media, though unrecognized or honoured in the world
Making them immortal exposing their best works to everyone
Not only now but also forever as long as the world is there!

All best matters that did not see light of the day, due to
Computer internet service, get an immortal life living in
The hearts, minds and souls of all people as permanent feature
No one miss to quote wherever possible exposing true greatness!

Ramesh T A
The Imperative Now Is To Set-Right The Setbacks Of World!

Invasions of foreign powers and imposition of their religions, Languages and cultures by conversions have affected nations And their cultures changing the course of world history to The present status though technology modernized and civilized!

The natural evolution of world religions is affected much; Many reforms of religions have brought new versions too; Despite the spread of religions by conversions, naturally Spread religion and religious cultures rule the world men!

Enlightenment by intellectual knowledge of education has Been guiding people's minds in the civilized modern world; Yet, radical bigots of unformed religion under various names Now are threatening world peace and stability by terrorism!

Fear and love are two opposing forces now control the minds Of men all over the world whether they are civilized or not, Cultured or not and educated or not underscoring the need For development of virtues like love, courage and truth...!

Flaws in religions, cultures, educational systems, ideologies And administrative systems seem to be corrected and reformed For masking human value instead of material value to be ever Relied on by all first and foremost to give life to human sense!

By the influence of love in action, tilt of human nature from Animal to human towards divinity has to be effected sure to Bring forth sense of goodness, beauty and truth to prevail Over all the affairs of humans everywhere in the world soon!

Ramesh T A
The Imperative Of Education System!

Life is not mathematics with formulae to apply for solution;
If a formula is not found out, problem can't be solved in life
For the people, whose mind functions like that in the world!

Calculative people love mathematics and become engineers too
Sans any knowledge of history or literature unlike knowledge of
People of other courses of arts or science subjects in general sure!

Many don't like subjects other than their own subjects in studies;
Especially scientists for earning more money use their knowledge
For destructive purposes and arts lovers face difficulty at modernism!

This is the blunder of education system in many countries of the world
That give importance to specialization in education making all have
Incomplete education due to non-combination of arts and science ever!

If human sense is to be developed to be a whole human being, studies of
Science and humanities are necessary in education system for all ever...!

Ramesh T A
The Impression About Nature!

Hot day with clear blue sky gives impression
That the day will end so till sunset comes here!
But suddenly clouds come as umbrella to hold
Against the harsh sun before sunset after noon!

The thought of sudden rain looms large now in
The mind with the feeling that current will go off!
The whole town will then be in gloom sans light
Till late night after cut wires are rectified in town!

Either this or that in Summer has become common
In dry land areas of the nation in the hot seasons....!
In some places in the north cyclonic storm lashes
As in Mumbai or in Odisha or in Andra States sure!

This gives the impression that Nature never leaves
Anything compensated at anytime in the whole year!
But the pity is that we are unable to cope with its feat
That's something quite supernatural to bear with ever!

Ramesh T A
The Invincible Power!

Bright Sunshine and cloudless blue Sky welcome day;
Sun’s rays reflecting from the next building through
The window bright as flash light being used for clicking
Photo is making all things crystal clear quite amazing!

The distant solar power covers thousands of miles in
The Sky to reach Earth with so much brightness that
It makes us all wonder like the many Stars we wonder
At in the night twinkling like diamonds in the darkness!

 Darkness has no chance to prevail over against the all
Pervading brightness of Sun, a Star among billions of Stars
In the Universe is a greatest miracle happening as a magic
Everyday nonstop without losing its power in the least...!

This is just one element of the five elements of Nature with
Powers invincible that no force of darkness can excel it ever!

Ramesh T A
The Irredeemable Incorrigble!

Why is terrorism showing its ugly head Anywhere at anytime now and then....? Terrorism is the work of wayward and Good for nothing fellows failing in life!

These ruthless mercenaries do anything For money under the garb of some religion, When actually there's no connection at all Between them and religion in the least sense!

The radical bigots getting funds from some Stupids go ahead enacting their jingoism... Terrorizing people like the racists bullying To satisfy their egoism in the rich quarters!

Irredeemable incorrigible one only indulge in Such heinous acts to satisfy one's sadistic self!

Ramesh T A
The Island Of Fantasy!

Dreams of subconscious desire drive home to an island of fantasy
To escape from disappointments, despair, dejection and destiny
That none and nothing can change for the advanced one in a field
Living among the mediocres and down to earth type ones forever!

These dreams are the like the hug of a mother to her children ever
That only can give comfort and hope for survival with confidence
Surmounting all hurdles that appear on and on on every-walk of life
Needing endurance and perseverance to achieve what one loves ever!

This island is the only place of Nature with all beauties and freedom
Open to one to indulge as one pleases whatever be the woe of the world
In the long and changeless state of stupor all are driven to languish sure
For centuries and centuries till the end of the time in the world by fate!

Wisdom lies in enjoying the best in the worst to wade through all hurdles
Eternal on the route to a state of heaven by doing the best one can be sure!

Ramesh T A
The Island Of Life!

Each one is an island going in pursuit of own interest in life;
But the unfortunate ones go on a long journey of odyssey
After having a long battle of Iliad like Ulysses until he joins
His wife Penelope gaining knowledge, wisdom by experience!

Experience in life comes of struggle, battle and journeys in the
Pursuit of one's ambition based on dreams all love much ever!
But the lucky few have no chance of gaining experience to be
A great personality to inspire and guide others in world life sure!

In the modern world, gadgets confine all anchored in digital world
Sans any chance to be exposed to Nature, society and reality of life!
It's like controlling mischievous children doing harms to prune them
Towards better things by diverting their attention on toys of creativity!

But such an act has developed only wrong side of progress in lieu of
All rounded development to live healthy human life better than before!

Ramesh T A
The Isolated Ones In The World Society!

Adamant and stubborn kind of people with their half baked Knowledge never listen and believe words of truth from others Not able to decide due to their inability to understand anything Making true the saying that little learning is dangerous in life!

To believe and accept anyone and anything, they have their own Conditions that have to be followed by others to have business; This being quite unusual and contrary to common standard, None will have any truck with such adamant nonbelievers ever!

Such kind of people ever take everything to the extreme level of Understanding and deal with all so much that they can be termed Only as narcissist who cannot think and move with all outside Their own circle of members like logs soaked in the same pond!

Such adamant ones are the extremists or hardliners who can live Only in isolation though live in the common society of the world...!

Ramesh T A
The Joy Of Living As One Family!

Peaceful beauty of Nature in the forms of mountain ranges, green meadows and valleys inspire love to bring together Two hearts of love in the fragrance of flowers everywhere!

Life is indeed a bed of colourful flowers to enjoy feasting Fruits of trees and pure water of rivers formed out of all Cascades of water falls coming after the melt down of ice!

Birds singing everywhere all the way along the river to Celebrate prosperity and peace bestowed by Nature forever Making a fun for peacocks to dance with spread wings long!

All hearts of love in joy and pleasure welcome Nature's Offer with open hands in gratitude and thank for its Philanthropic character to assimilate in life to be so!

What a joy and pleasure to live life so in the bosom of Grand Nature, if all forget enmity and live as one family!

Ramesh T A
The Last Winter Full Moon Night!

It is a last winter full moon night;
The beautiful moon shines bright!

The sky is also very clear tonight;
Only distant stars shine with light!

The trees dance by breeze light;
They are ladies of Nature tonight!

All busy activities are out of sight;
Only some stray dogs are in fight!

Only a few cars come fast with light
That shines like some lantern light!

A few beggars look for a good site
At last to have rest for the night!

But the bright full moon light is up
All the way to west before dawn's up!

Ramesh T A
The Legendary Stars!

Without fans, no Star can shine in the world;
Many Stars are there twinkling in the Universe;
Many Stars come and go everyday in the Sky;
But only North Star stands ever steady there!

The Stars who have created history in the world
For a longtime in the hearts of millions of fans,
Become legends in the due course of time, we know;
Such legendary Stars are heroes and models for all!

In art, science, literature, cinema, pop Music, songs,
Novels, politics and many other fields, we have such
Great legends who inspire and make all follow their
Footsteps to live and do great things in the world!

Of all Stars, the North Star like legends are the ones
All worship as Gods and move ahead inspired by images!

Ramesh T A
The Living Dead Ones!

All need food, clothing, shelter, education and job to survive in this world ever;
But most of all, sans food and money, hunger and shelter cannot be managed sure;
Cause for concern greatly now is the employment opportunities are very rare now
Due to heaviest population, competition in all fields and corruption everywhere!

Everywhere manual works are available for a meagre salary for the uneducated only;
Full of scarcity in job market, educated youths not getting suitable jobs look for
Good or bad jobs of any kind below their qualification for survival for long or short
Hoping soon good opportunity will change their status for long and in vain forever!

In all walks of life, their educational qualifications are of no use and value at all;
Joining some job after a great hunt, they feel their life has been wasted and useless;
Keeping pace with the changing trend in the world job market, it's a great chase ever;
Looking for suitable job and losing interest in current jobs, they roam as gypsies...!

Many a hurdle on the way they have to encounter before heaving a sigh of relief ever;
Nothing gives satisfaction they long for in job, life and world they live in anywhere;
Over population, inefficient governance, unfamiliar surrounding and all dissatisfy all;
Perpetuation of same situation sans change, kills their mind and heart by corrosion..!

Quite unsure of next moment in life, they pull on the days looking on their horoscope;
Restoring their glorious status of their dream moves away as mirage in the desert daily;
Seeing the bleak nature of future, they become too extremists and opt for terrorist job;
Threat to their life have led them to choose worst mission creating threat to
world peace!

Universe of theirs is full of promises but sans any safety and security to life and money;
Vagaries of their life is such that they don't feel anything and do all in a matter of fact
Way from the very start of their new destructive assignment to their end of life itself soon!

X and Y of a very poor families do anything to amass wealth to live luxurious life later and
Yearnings of their hearts are passing clouds and wild dreams they don't care due to hunger;
Zeal of life, joy and aspiration having died long ago, they walk and live as dead bodies only!

Ramesh T A
The Living Power Of Almighty!

Space, air, fire, water and matter are elements
Nature manifests itself as its forces of power to
Make all realize the existence of Almighty ever!

Realizing this almighty God in Nature we all
Surely feel God ever to say our thoughts, ideas,
Desires and dreams to realize them in reality!

Mystically living presence of divine in beauty,
Music and love of Nature, we can surely ever
Enjoy bliss to attain peace of mind, joy of heart!

Mind in communion with Nature brings ever
Confidence, inspiration and energy to overcome
Formidable hurdles to reach harbour of success!

Nature surely reveals the living presence of God
Ever to give all hope, courage and will to win all!

Ramesh T A
The Loving Nature!

Summer rain is a great boon to crops and trees!
Green leaves of trees are a great blessing to man!

Nature gives both good and bad to choose for all;
According to one's selection one enjoys or suffers;
Both sufferings and enjoyments are common for all.

Knowing the Nature's course and going on the path
Of Nature, many benefits one can enjoy in life ever;
Failing to do so, we all have to suffer till normalcy
Comes back by Nature's balancing act in the world.

For everything there is a compensation being accorded
By Nature as a mark of love to all living beings in the
World we all live since the beginning of the Earth, a
Wonderful and beautiful abode formed by Nature, which
We have to recognize, honour and preserve as gratitude!

Ramesh T A
The Maddening Metro-City Life!

A visit to a metropolitan city from a cosmopolitan town
Indeed makes one wonder at the vast developments that
Simply fascinate everyone and muse over it in awe sure!

Too much of developments has made all work as machines
With machines sans any human space to breathe free air
To feel any human emotion in the long run of one's life!

Only at the retirement age, one gets time to stand and
Stare at Nature, get a sense of trance in art, enjoy
Music and songs in leisure to get back the human touch!

It is like the life of ants, people have to live all of
Their life in metro-city unlike in cosmopolitan city full
Of many chances to mingle with many cultures of the world!

Full time engagement with works only sans any time left out
For engagement with human sense makes one mad at retirement!

Ramesh T A
The Mountain And The Mole!

Nature, attitude, taste, foresight, dreams and visions make
One differ from others of down to earth type in the society!
Thinking of the bright one differs from others all around one
Making it difficult to cooperate or coexist among all as one!

Tolerating to differing views of others and adjusting to the
Measures of government make one a hell to live in the world!
But remaining one of a kind, it seems impossible to do anything
Minding one's own business as one can't live in an island isolated!

People of extraordinary nature or genius seems to tolerate all in
The society and at the same time stand on one's own legs is great!
The views are also high coming from their minds and can be ever
Appreciated only by high minded persons unlike dolts of negation!

There is a vast difference between the mountain and the mole ever
And the gap between two is so big that top minds can't be understood
By the fickle minded fellows finding faults not knowing highness or
The broad nature of high souls needing to be imbibed but not eschewed!

Ramesh T A
The Natural Divine Being!

Love and beauty in one form a divine being in the human world!
Such a being only artists depict as deities or angels for worship;
For, those wonderful beings are the model for all to achieve by
Making all possible efforts in one's thoughts, words and deeds!
Artists painted pictures attract all and absorb in the vision that
Hypnotizes all to dream oneself in the shoes of divine beings
Whose love and beauty make one always to do all perfect and
in the best and beautiful way to have satisfaction and be so...!
Ever engrossed so in such a trance that all deeds one does
Surely converts one shine bright as haloed deities one worships
And is the way one can become one with the divine being,
When one successfully passes through all gates to heaven!
The heavenly beings of love and beauty in one acquire such
A status through mystical communion with Nature by meditation!

Ramesh T A
The Nature Of Sustenance Of Power Ever!

From seeds plants and trees with flowers and fruits grow
Having new seeds within helpful for cultivation and growth
To regenerate new plants and trees to continue the process!

From energy matter such as planets, plants, trees, animals
And humans is produced with energy within to activate them
And regenerate new matter as a process till all end as energy!

This relationship between energy and matter goes on so in the
Universe as a process of evolution for the creation of newer
Ones beginning from energy to matter ending in energy again..!

Energy as power reigns supreme creating, preserving and destroying
All kinds of matter finally to make all become one with it ever
To create again new matters everywhere in the endless Universe..!

To sustain the power of energy ever so, creativity goes on sure
In expansion to have contraction by destruction to begin new ones!

Ramesh T A
The Necessity Of Courtesy Call For Good Relationship!

We meet strangers in public places and while travelling
In train, bus, plane and ship to many places in the world;
Again we may get the chance to see them in our neighbourhood
And abroad bringing chances to pay a courtesy call to them!

Courtesy call is the staring point for good neighbourly
Relationship developing to family relationship, friendship
And even love in the due course of time based on good nature,
Like mindedness and common interests on many matters of world!

Courtesy visits give chance for maintaining good contacts
Whether they are beneficial or not, whether people are good
Or bad and whether there is cooperation or not, but the
Equidistance maintained paves way for better relations later!

It is better to pay a courtesy visit, when we meet persons
We have already met somewhere in the past to have good human
Relationship both for the good or bad, though it's necessary
Or unnecessary it may be, but it's good practice to be humans!

Ramesh T A
The Necessity Of Courtesy Call For Good Relationship!

We meet strangers in public places and while travelling
In train, bus, plane and ship to many places in the world;
Again we may get the chance to see them in our neighbourhood
And abroad bringing chances to pay a courtesy call to them!

Courtesy call is the starting point for good neighbourly
Relationship developing to family relationship, friendship
And even love in the due course of time based on good nature,
Like mindedness and common interests on many matters of world!

Courtesy visits give chance for maintaining good contacts
Whether they are beneficial or not, whether people are good
Or bad and whether there is cooperation or not, but the
Equidistance maintained paves way for better relations later!

It is better to pay a courtesy visit, when we meet persons
We have already met somewhere in the past to have good human
Relationship both for the good or bad, though it's necessary
Or unnecessary it may be, but it's good practice to be humans!

Ramesh T A
The Necessity Of Entertainment!

Entertainment is most important for all in the world  
To renovate body condition, to renew normal mood of  
Mind and to revamp one's self with vigour and vitality!

That's the way one can proceed with normal work with  
New enthusiasm and zeal to carry out all targets fixed  
To achieve one's ambition in the course of life sure!

Lethargy, fatigue and monotony of work may make one  
Lose interest in usual work, but a sense of perfection  
to do all beautifully surely make all quite interesting!

Never the task undertaken should not be let loose as  
That may make one lose the touch of purpose with which  
A thing has been started by renewing one's ambition ever!

Entertainment now and then makes fatigue and monotony  
Fly to pieces and diverts mind for purposeful action!

Ramesh T A
The Necessity Of Faith For Survival!

In this uncertain world, nothing seems to be controlled
And nothing can be controlled by us except by the Creator;
In this sense, we can say and hope our life is led by Him
And with this faith only we can pull on our days here...!

There is no other way to get peace of mind sans this faith;
When civil liberty, safety and security are in danger, only
This faith in the Almighty only makes us divert our attention
In the things we can get some relief from this uncertainty!

Another thing that makes us think, plan and decide about is
Our survival by the allotment of money for each and everything
Thing, balance maintenance for dealing with emergency situation
And to see that it doesn't occupy the lion's share of our life!

Sans the rectification of cash maintenance now and then, our
Little bit interest in something that cheers will be lost ever!

Ramesh T A
The Necessity Of Introspection To Achieve One's Goal!

If anything goes right or wrong, to know the truth,
The process of inner search of self is introspection;
The process to know the truth, analysis of inner self
Helps to get the answer so as to solve query of one!

Introspection helps to find truth so as to rectify
The drawback for going ahead in one's venture in life;
Without making introspective analysis what has made one
What one is good or bad can correctly be assessed at all!

Before deciding about future course of action of one,
Introspective thought is necessary to know the plus and
Minus points of one so that how one has to deal matters
To achieve something remarkable can be decisively known!

That is why it is said that one has to look before one
Makes a leap so that one can cross over pitfall to the end
Without fail and achieve the goal one has fixed to pocket
For making further strides in one's onward journey for sure!

Ramesh T A
Sans unity among all, how can peace and love be possible in society?
Individuals unless have cohesive transactions, unity is impossible;
For changing society for the better, attitude of individuals first
Needs change as they are the backbone of humanity in the world ever!

System of education, administration, judiciary and politics in the
Democracy of a nation or world should have clear motivation based
On the ideas of peace loving intellectuals of the past, present and
Forever due to their words of wisdom that always aim for unity ever!

Unity among nations, individuals and people needs to be established
At any cost eschewing wars emphasizing dialogues and peace talks by
Bringing together warring States and people by the world organization
That has been established for this purpose after World Wars of past!

Social clubs, forums of all kinds like art, literature, poetry and
culture by spreading thoughts on unity for the formation of One World,
The idea of One World Family can be made successful by acts of love
To bring about eternal world peace for all to live a glorious life..!

Ramesh T A
The Needs Of Real Progress To Prosperity!

Good education and strong health help to acquire wealth
By hard work driven by a broad ambition in the world life.
That's how many generally think about starting any job;
But reality is not so to have a dream so to live a good life!

Exploring prospects to prosperity one progresses to live
A life of peace in this world full of uncertainties to do any
Work with peace of mind and achieve satisfaction so ever
As discipline and morality have gone down in all walks of life!

Departmentalized type of education not covering all aspects
Makes one handicapped to find the prospective job one likes
Or any work interesting to one though not as to one's course of
Education making the present day education a waste of time!

Knowledge of all aspects of work going on in the world by
Way of industries, farming, fishing, science and technology,
Arts, history, sociology, politics, army and medicine all are
Supposed to have so as to be a really educated in the world!

Religious and philosophic education along with the general
Education covering the practices of world need to be imparted
To make all worthy citizens of the world to do better and best
Kind of things with interest so as to make the world a better place!

Ramesh T A
The Non-Profit Organizations Services For World Unity And Peace!

Like politics, social service clubs and associations, literature serves people
Through novels, nonfiction articles and poetry for the betterment of world ever;
These are the fields where selfless service for humankind is really possible;
By doing great service by these means, one establishes as who one is the world!

These works are similar to farmer's work or cinema director's work for the public;

Message for social change or social betterment is the motive behind their services
That occupy them ever on thoughts, ideas, dreams and visions what to do next ever;
Such a sense of service keeps them going in the field they are interested very much!

They are the interlocutor or mediator or moderator bringing all people together on
One platform to discuss their viewpoints and foster peace, love and friendship
For the realization of a great dream of all, which's nothing but creation of one world
By uniting all one nations under one roof to share all natural resources and all...!

World Conferences of such organizations are the occasions that bring closure all
Peace and love fostering ones as ambassadors of the world nations as in UNO ever!

Ramesh T A
The Old French Glory!

Cool hill station breeze is natural air condition
Keeping all fresh all the day long in the seashore
French town attracting tourists from all over
The world to visit at least once in lifetime sure!

Otherwise hot town for eight months in a year
Now welcomes all for the winter time fetes here
With the European continental atmosphere ever
To keep all under the spell of spiritual bliss sure!

Erstwhile French colony is now a cosmopolitan
City still holding the vestiges of French culture
Being followed by the local people after they have
Worked in France and returned home for retirement!

The old French glory slowly fading into nothing...,
Even now has the European culture welcoming all!

Ramesh T A
The Opening Scene Of My Day!

The clarion call of mynah bird was at its top
When I just entered the balcony of my house in
The morning before refreshing myself for the day!

Yes, as answering to mynah bird's call, its pals
Flew to it in a group only to fly together for
The day's business to begin as the morn was fresh!

After that, the regular noises of motor vehicles
And horn sounds of various cars have filled the air
Making all mind each one's business of the day..!

Reading news of the day I too went ahead to begin
My day's occupation of writing something novel in
My own style of poetry I am very fond of forever!

How I started to write, what I conveyed and how I
Had finished poem, I did not remember afterwards..!

Ramesh T A
The Ordeals We Face!

All world life matters move according to fate's decree;
Fate is the check and twist that purifies man's action!
Melting precious metals like silver, platinum and gold
Are for purification for keeping as pacca by hall mark!

All ordeals we face make us strong and steady to live
And achieve our goals to fulfil our dreams we cherish
With vision of the whole and ambition to make us go
Ahead against all odds to complete all tasks perfectly!

Victory and failures on the way are not the end point,
But the final one decides where one stands to pass all
Tests for the golden gate to open to enter heaven sure
As we play Candy Crush or any other video games...!

Once the stumbling block is negotiated successfully,
The way becomes clear to pass fast all gates to victory!

Ramesh T A
The Panacea Of Passionate Kiss!

Kiss is a rare expression of love one gives to another one; 
Thereafter exchange of kiss becomes usual courtesy in life; 
Embrace and kiss between soulmates continue as hand shakes 
Between friends wherever and whenever they meet before talks!

Natural kiss exchanged between dearest ones brings closer 
Two souls of same heart and mind on many matters forever and 
such personalities are two bodies with one soul seen in pair 
Whether life is hell or heaven as they are made for each-other!

Even if world is going to meet with destruction by nuclear war or 
Natural disaster, they don't have any fear as they are together 
To bear bitter sweet life with painful pleasure sans any denial as 
They are two in one soul both for joy and bliss, grief and agony!

With passionate kiss intimate souls are ever sure to forget whole 
World unmindful of both joy and sorrow against hurdles or odds!

Ramesh T A
The Paradise Livable!

Beautiful butterfly hovering over colourful flowers
Really attracts one and kindles feeling of love sure!
Suddenly meeting of one cherished long in heart
When comes before one, surely butterfly flutters..!

The feeling of seeing the loved one creates fluttering
Effect of butterfly inside one's stomach, a wonder..
No one can escape in life however well controlled sure
One is at first, but it becomes a usual matter afterwards!

The natural beauty of outside world has a link within
Our physical stature as feeling and our mind in union
With beauty in Nature transports one to a fine world
Of fantasy bringing joyful dreams to lead life in bliss!

Art born of such beauty in Nature is ever inspiring
The tender feeling of love and makes man a human!
Love born of such feeling makes life livable forever in
The paradise called Earth though an island in Universe!

Ramesh T A
The Peeping Moon!

A week or so, clouds and rain have rented the sky; Tonight only I have the opportunity to see Moon Shining in all its glory as Full Moon so beautiful!

A rare sight to see happening in the Sky looking As if mourning as all day long only grey clouds And intermittent rains mark the days nonstop...!

Winter time symbolically represents black colour Especially famous for mourning over the dead… And many deaths can be witnessed due to bad time!

So, the bright Moon seems to be a blessing in Sure disguise to console a lover of Nature ever Praising its glory, greatness, beauty and benefit!

But very soon the clouds have engulfed the whole Sky sans a gap for Moon to peep through the window!

Ramesh T A
The Pleasure Of Great Involvement In Work!

Too much thoughts on many matters increase internal heat
Resulting in rheum filled eyes making one see all as if
Seeing through mists even wearing specks due to age ever!

But when translating thoughts into action to achieve some
New feat in some field of great interest, one gets real joy
With satisfaction that no one can enjoy in any other way!

Both creative and inventive works give such an experience
When one ventures on achieving something great in the world
And is the way one gets full satisfaction in what one does!

Medical or engineering or artistic works involve such a work
Experience satisfying one the most and at the same time that
Bring great benefit to world society praising the achiever best!

Involvement of whole self - heart, mind and soul gives unique
Pleasure that only the experiencers know and enjoy best in life!

Ramesh T A
The Possibility Of Love Governing All!

Loving person is outgoing, frank and concerned about all;  
Selfish person is concerned only about one's self forever;  
A broad minded independent person looks after all plus self;  
Family, though disintegrated by duties, is concerned for all!

Capitalist economy encourages greed and domination due to  
Its policy of self development breeding selfish individuals;  
Communist economy encourages from each according to one's  
Capacity and to each according to one's need for development!

Both the political systems are not fostering humanitarianism;  
That is why both democracy and other systems are not satisfying;  
They are all concerned with economic matters sans any concern  
For the quality of social life in many nations of the world sure!

Besides materialistic development, human development shod also be  
Given importance for making love possible to govern affairs of all!

Ramesh T A
The Power Of Music Transcends All!

More than song and dance, music absorbs heart, mind and soul; Music gives impetus to singer to render better one’s voice as If voice dancing according to the tune of music entertaining All audience from children to elders to join the dance as one!

From the start to the end, music electrifies all by the rise And fall of rhythm and inspires the mood the music produces; Even after a longtime the sound of music heard never leaves Out of memory and brings the same kind of inspiring mood again!

This is the power of music transcending all languages of world Whether the instruments are guitar, fiddle, trumpet, drums and Piano or simply the so called jazz having all in one together Or simply flute, sitar, bongos and violin with harmonium box!

What a wonderful creation music is with instruments of all items From East to West or North to South all over the world for sure!

Ramesh T A
The Presence Of Sea!

Searching for Nature I see only sea everyday!
All the place has turned into concrete jungle!

Free open sea before me with waves is calm;
Go straight! You see Andaman Nicobar islands,
Thailand, Malaysia, Singapore, Indonesia, ..... Philippines, Pacific Ocean, America, Atlantic Ocean, Europe -Africa, Arabian sea and India!

Ships are navigating through all seas of world;
World Wars have sunk many merchant ships in Oceans of world with treasures unrecoverable!

Only pirates and private sea explorers have gone Deep inside the seas to see for treasures ever!

Colonial merchant ships carrying golds and silver Torpedoed by Nazis are lying partially hidden In the ocean beds of world yet to be recovered!

Only such thoughts flow whenever I see sea...... But calm sea makes me feel nothing of this effect!

Without sea waves and wind can anyone feel...... The presence of sea in the night time ever at all....?

Ramesh T A
The Problem With The Development Of A Language!

Sans public use, no language can have respect and value! There won't be reception and interest to learn by its own People even for maintaining its community identity ever!

That too, if there are differences among its own people for Having a lipi proper based on its old identity and modern Use by necessary reforms, it is difficult to have a solution!

Another important thing is that it should have link with its Present language in the place of its origin for making it good For public use or for getting recognition and benefit from the Govt. for its development and its community anywhere sure!

If there is lack of link between its people anywhere else and The place of origin, it is difficult to find unity and uniformity Both linguistically and culturally between both in the nation!

The complication increases, if the nation has many languages With the main languages of North and South having influence Over other sub-languages of the North and South damn sure!

This is the problem with Sourashtra language of Saurashtra Region of Gujarat State and Southern States of Indian nation Besides its mixing with Persian and Gujarati languages in the North and Dravidian languages in the South for many years!

Ramesh T A
The Prominence Of Fruits!

Apples, citrons, pomegranates and bananas,
Among fruits, are mostly displayed everywhere
In the fruit markets and are also bought by all!

Who has to enjoy fruits of labour in the world?
A big question always stands to be answered!
Benefits of great efforts have to be meant for all.

Only selfless minded, great men do all for all
And wish to see society to live in comfort and fun
Sharing greatness of Nature for a long joyful life!

Fruits are full of minerals necessary for immunity
The body needs to fight against diseases forever
And is why fruits of all seasons all have to consume!

Fruits are prominent along with flowers in festivals
To make all remain healthy and loving ever in life!

Ramesh T A
The Purpose Of Beauty In The World!

Beauty is impressive, inspiring, attractive and appealing;
Beauty kindles best of mood among insipid, dry and dull ones;
Morning and evening times of Nature are lovely beauties sure;
This beauty of Nature is the reflection of God's beauty ever!

Sky, Sea and Ocean are beauty of Nature vast and amazing in blue;
Green leaves of trees, grass, lawn and meadows are cooling beauty
Of Earth that comfort, solace, sustain and sublimely appeal heart;
Flowers of many colours with fragrance wonderful are smiling beauty!

Among humans, women and children are representatives of beauty
Who sway all with their attractive and appealing beauty with love
Born to bring peace of mind at moments of tension in life to all
And make life worth living in their company till the end of life!

Like cool breeze and shade of trees under the burning hot Sun,
Beauty of flowers, green grass pasture, smooth rivers and Stars
Of dark night with Moon at the centre makes man forget all fears,
Tension of life and worries by its soothing comfort to face all!

Ramesh T A
The Purpose Of Man!

Thousand and One Nights stories queen may say
To escape from the execution by ruthless king!
But Nine and One Nights is a real story forever!

Nine planets and one Sun are our solar system;
A burning star is our Sun keeping all planets
With fire burning-in to revolve round it in orbits!

Destiny of all planets are tied to this one Star
Among many stars in Milky Way and galaxies
Balanced each other by each others gravitation!

The fire or heat within all keeps all alive here;
This is soul or spirit, a speck from Universal Spirit
After serving its purpose to reach all pervading Spirit!

Nine stages are there for a soul to attain tenth stage,
The final stage to reach the all pervading spirit or God;
This is the message of Nine and One Nights festival!

Plants and trees have one sense or knowledge;
Fish and reptiles have two senses or knowledge;
Ants and insects have three senses or knowledge.

Crabs and wasps have four senses or knowledge;
All wild animals have five senses or knowledge;
Above all man has six senses or knowledge!

After man, mystics have seven senses or knowledge;
Above them, angels known have eight senses or knowledge;
Above them, divine Lords have nine senses or knowledge!

Above all on the tenth level, the all pervading God comes,
The final stage of hierarchy just as the rungs of a ladder;
Climbing each rung to final one is the purpose of man here!

Creation, preservation and destruction God does as duty;
Man has to develop knowledge, wealth and power as duty
In life time to attain divine-hood with one mind as mission!
Ramesh T A
The Quest To Know The Ultimate!

World life seems to be not so difficult to know and define;
But human life is still a great mystery to understand sure!
For, even after learning a lot and doing a lot of great things,
Life seems to be still lacking something needing heart search!

Whatever we do, satisfaction of the heart seems to decide all
And bring an end to a matter before starting the next thing…!
Knowledge, observation and experience in life never give the
Needed fulfilment or satisfaction unless we get it in something!

What is that something is what all are searching for in the journey
Of our life in this world from the beginning to the end of life here!
it may be the way we live life in this world or the work we do ever
Hoping to get that fulfilment one day in our long short journey…!

Best thing to achieve that feat can be in our search or research
We do or the creative work we do with quest to know the ultimate!

Ramesh T A
The Question Of Right To Privacy!

Do you have individual privacy, when nothing is going on smooth in the society? Can all our information in unique identity number be ever kept in secrecy? 1984 Big Boss type CCTV watching everything everywhere, do we have any privacy? Is right to privacy like constitutional right to think, speak and do free as in democracy?

Sans privacy and secrecy, can safety and security of individuals and things be maintained? Can we live in safety, if we are frank, open and truthful in this world of uncertainty in all? When creations of man like religion, money, border and nuclear weapons have become Dangerous things in the world, can right to privacy be relied on in a democratic country?

Due to frail nature of everything in the world, can we rely on the assurances of any govt.? With delineation of borders, conversions by religions, money security for all, weapons for defence And so many other things for security allowed, why can't right to privacy be allowed? If right to privacy is pampered with, do individuals have freedom and rights?

Debates and discussions go on in democracy over many questions endless ever; But any solution can ever be relied on even if experts' verdict is respected?

Ramesh T A
The Raging Fire Of Love!

Craving for passionate love, sensual desire burns as fire;
Fire of love never leaves one young or old in this world;
All cannot escape from the cloud of love fire forever...!

Once caught by this raging love of fire, it spreads like a
Forest wild fire and burns the whole body to yield to its
Formidable passion that has no beginning and end in life!

Fate has decreed to all to enjoy and suffer and also, suffer
And enjoy endless in this desire of passion called sesuous
Pleasure of love that rules all souls, minds and hearts ever!

Time is not enough to put an end to this raging passion of
Love that is the greatest power, light and justice in this
Flower world of humans where fragrance of love never dies sure!

The scent of love kindles raging fire of passion of love to
One and all to work, live and enjoy life always for love sure!

Ramesh T A
The Raging Love Fire!

Attraction of personalities by beauty blooms love;
Fire of love burns between two souls bringing closer
By some chance or other in the course of life sure!

Unless the two soulmates unite by a circumstance,
The fire of love rages high between two hearts long
Without an end to subside by any means whatsoever..!

Imagination grows leading to romantic mood night and
Day like the raging storm that smashes towns and all
Till the power comes down to normalcy to calmness…!

What a force this love emotion between two souls ever
That play a major role in the lives of lovers once
Caught by the spell of love struck by Cupid's arrow!

The raging love fire never stops till the day comes for
Lovers to couple themselves as one in peaceful bliss!

Ramesh T A
The Rare Breeds!

Some come to the top by luck sans any difficulty;  
But the one who comes to the top by hardships  
Negotiating all leg pulling works is indeed great!

Such a feat only some in the millions preform in  
A style they only can know being one of a kind;  
Even at the top the jealousy ones try to hide him!

The worst among them get the chance lift up by  
The mere coincidence of name being the same;  
What a luck these ones enjoy as imposters sure!

Only time identifies the real gold by its nobility of  
Staying ever on the top never lacking lustre sure  
Making all admire them in awe and reception unique!

Seeing such rare breeds are indeed a miracle  
They being God's special beings to deliver best!

Ramesh T A
The Rewards Of Faith!

World functions despite all threats to peace mainly
By the grace of great God who only disposes all things
At the appropriate time to recognize hard toils of men!

Good, bad and ugly men among mankind do what they like;
But the destiny of all lies in the hands of the Almighty
Who gives chances to bad many a time but finally helps good!

Only the faithful ones believe in Him and mind their works
Without disturbing the normal progress of performance of all
That finally go according to the plan of good punished the bad!

Despite all these really happening before the eyes of all, the
Bad is ever bad sans any redemption, but the seemingly very
Incorrigible once benefited by some hard work changes from ugly!

The good ever remains good due to one's faith in God, the bad ever
Remains bad sans any faith, but the ugly turns well by God grace!

Ramesh T A
The Rhythm Of Life!

The Rhythm of Life!
Working ever implementing ideas of desire, we get great satisfaction in our life;
But without entertainment now and then, life will be boring to live in the world!
Both sorrow and joy when becomes too much it brings aversion towards it;
That is why like day and night joy and sorrow come like spring, summer,
autumn, winter!

Men come and go on the stage of the world as change to make life enjoyable;
Otherwise, life will be uninteresting and boring to the extent of hatred to men;
Change brings new hope and enthusiasm to think of new things for change;
There comes real joy and satisfaction to all sections of people in the world!

If there's tome for prolonged sorrow in life, there will come time for joy also,
Don't we know that if winter comes, spring will not be far behind to come next!
Yes, there is surely a time for all aspects of life to decorate, delight and disappear;
This is why we have death after birth and also, birth after death for life to go on!

Work and entertainment like waking and sleeping and sleeping and waking
Surely has Steady pace of rhythm as in lines of poetry interesting to read!

Ramesh T A
The Rotation Of The World Continues Forever!

Arguments and competitions continue in suspense till results come;
But victory and defeat are not eternal to participants on events of life!
If night comes, surely day will dawn and vice versa as long as things rotate;
But instead of circling on one point, if movement is made, tension stops!

Moving forward gives new hope and confidence with better ideas to go ahead
To realize impossible dream of the past in the present and the dream of
The present one will be realized in the future with ideas new and suitable!
This is how dreams, ideas and realities of human life go forever and ever!

Due to differences of interest, opinion, pursuits and ambitions, wars go on;
After every war, there is a pause for peace to prevail over all for sometime;
Again war and peace go on like day and night, work and rest and life and death!
This is the story of man and is the world history of mankind since long on..!

Nothing is permanent in this rotating world on an axis of point fixed already
Until some other point is found out to fix it for rotation of the world forever sure!

Ramesh T A
The Same Family Of Homo Sapiens!

Fire is useful for cooking food and also for burning a house!
Knife is useful for cutting vegetables and also for killing a person!
Nuclear fuel is useful for generating electricity and also for making weapons!

Both good and bad are existing side by side in this world we all live in;
But a slight difference of opinion is enough to trigger a great war to destroy all!
We are still surviving due to our virtues of tolerance and restraint against all ills!

For everything there is a limit and date of expiry, but beyond which all go awry!
Maintaining peace for common good of all, our world is going on in routine all like;
Despite living so, some stray incidences are still causing concern now and then!

Like the nagging cold, the troublesome antisocial elements are being there everywhere
Making all take some antidotes to arrest the minor incidence turning into big danger;
Some harsh measures to stop the spread of epidemic are necessary sure!

Survival, sustenance and successful of all are in the hands of all as we are all Belonging to the same family of Homo Sapiens whatever be the differences are!

Ramesh T A
The Scene Of Park!

Depression in the Bay of Bengal has developed
Into a cyclonic storm to cross the shore soon...
With a speed of sixty kilometres per hour sure!

Today the election voting day in our town too!
After a slight rain it has been drizzling here and
I took the chance to visit polling station to vote!

Opposite the park is the polling booth to do my
Democratic duty of casting my vote on my guy
Whether he wins or loses in the election this time!

But the green park was a beautiful sight to see and
Muse over till my other partners came for voting
Along with me and so, it was a pleasant time indeed!

Whether I am going to be benefited by the poll or not,
At least I can remember the day due to the scene of park!

Ramesh T A
The Secret Behind Grey Blanket Sky!

Dry as army grey blanket the Sky is
Covered with clouds all round the day!
Night sky is like black velvet case long
Holding all diamond Stars with Moon!

What is hidden in the morning is seen
In the night when crescent Moon comes!
Crescent Moon is the pendant hanging
Below the chain of diamond Star necklace!

Again in the morning all those jewel like
Beauty is covered by grey blanket ever!
Next, what sort of a design of necklace
We can see only when the night comes!

The secret behind the grey blanket is
Ever continuing in suspense in the sky!

Ramesh T A
The Secret Behind Shining Moon!

Bright blue Sky all day without any clouds
And clear Sky in the night too with no rain
Full Moon bright as Sun shines all night...!

However bright Moon shines it can't be a Sun;
It can only apparently shine bright reflecting
Sun's rays far off from all planets in the Sky!

When no one is in the field, some may shine
And also win in competition sheerly by luck;
That doesn't mean it's due to their performance.

The cooperation of all in the musical group.....
Only brings victory that can't be repeated again
Unless the same sort of performance is repeated!

The collective contribution through one at the helm
Makes that one shine as Moon others can't know...!

Ramesh T A
The Secret Behind The Sweet Romantic Life!

Romantic life is independent way of life to enjoy
Freedom and love wholly depending upon one's own
Creative skill alone to establish one's Mark for
The posterity to appreciate and follow in the world!

It is a do or die determination to live as has been
Decided to live according to one's own conviction
Based on truth ascertained by intellectual knowledge
To express one's own new ideas using one's creativity!

This kind of romantic life is an adventure on a new
Route of life to discover, create and enjoy happiness
By creating new ideas to live a better life of deeds
Leading to great achievements for the satisfaction of all!

Sweet are the uses of adversity, it is said and that
Says the secret behind sweet romantic life of noble ones!

Ramesh T A
The Secret Desire Of Sensuous Heart!

When love is too much to bear, desire is very vibrant,
Though modesty keeps all under control by tradition!

All worn out organs rise tip top high with high energy,
When the loved one comes directly before one, having
Control on one's desire, to have union with the loved one!

How can the desire be fulfilled to satisfy one's passion of
Love over the desired one, when the opportunity comes up?

Conveying the secret desire of sensuous heart is a great art
Very difficult to master against all odds one has to face ever!

The longing of passionate heart ever keeps one with the
Butterfly fluttering in the stomach, whenever the thought of
The beloved one comes to one whether it is day or night!

Only rare luck can bring together the passionate ones to
Have fulfilment of desire physically, emotionally, spiritually!

Ramesh T A
The Secret Of Life!

Earth is an unique planet in the Solar system
Full of life with colourful living species long
Unlike in other planets and also in other Stars,
Where similar kind of planets seem to be nil!

Universe is a great wonder with billions of Stars
Functioning in clusters called galaxies everywhere
With planets too like or unlike Earth functioning
Since billions of years needing to be explored....!

Sans such explorations and researches origin of
Life not only on the Earth but also in other planets
Can't be found out and that only reveal all hidden
Secrets of the Universe we are yet to know sure..!

Living life without knowing the secret of life is indeed
Making it imperative to unravel the truth to know all!

Ramesh T A
The Secret Of Skin!

Skin is the weather protecting natural dress for all;
It is the mask that covers the ugliness within of all;
Single layer of skin has so much to cover in all ever;
But onion has many layers of skin with nothing in!

Petals of flowers are beauty that attracts bees ever;
The multi-coloured dress of men has no attraction;
But the colourful dress of women woos men forever;
This is the secret of Nature that makes all ponder...!

Skin deep beauty has so much to cover and attract all
Making all fools by its shining apparel like cover ever!
All that has a cover covers secrets none can understand;
But the open one is truthful having nothing to hide ever!

Skin is an illusion that covers so many things within;
But the one who sees inner beauty only knows truth!

Ramesh T A
The Significance Of Dream Eyes!

Dreaming eyes belong to great and noble persons, poets, Philosophers, lovers and all who have great desires ever! Thoughts and imaginations have limit, but dreams have No limit whatever so ever we know and so, is eternal...!

Of all, dream of love never has a limit and sustains all To live to achieve it one day or other in our world life! Romantic love develops much by long dreams of it forever And inspires zeal and adventurous spirit to one and all sure!

All reveries in the mornings and dreams in the nights Romantic heroes and heroines have from the college days on And proceeds further even after working hard to come up In life anywhere in the world with new renewed vigour sure!

If successful in love, dream then continues on further lines; If not possible at all, dreams are forever give solace and New inspiration to forget failures and proceed with new hope And enthusiasm none can stop as long as heart of romance is!

Dreams are the incentive that fuels the heart with love and Also, burns desire to achieve great ambition in the field One is best at to show the world who one is for getting Applause and support for one's onward journey towards glory!

Ramesh T A
The Source And The Ultimate Reality!

Everything in the world including man has a beginning and an end; 
All physical things are visible and non-physical things are invisible; 
All physical things like Stars, Sun, Moon and planets are visible; 
All non-physical things like Spirit, energy and wind are invisible!

When we think about Sun, Stars and all matters only, we realize Space; 
When we think about how they function, we come to know of energy; 
When we think about the beginning of them, we realize presence of Time; 
When we think about the source of function of all, we realize about Spirit!

All visible things we know by perception and invisible things by 
Conception through the means of relativity and logic of man's mind by 
Intellectual analysis made possible by association of ideas and the 
Inference arrived at by researches in pursuit of truth of knowledge!

The Universal Spiritual energy is what we can call in one word as God 
That activates all animate and inanimate things everywhere in Space 
And is the source and the ultimate reality for all to realize at the 
End of one's function comes to a stop in the world and in Space sure!

Ramesh T A
The Source Of Inspiration!

Beauty of Nature depicted in artistic painting works ever
Inspire best mood to persons of creative mind to indulge
In some creative works based on their best of ideas sure!

Nature is living art whose lively nature brings inspiration
And interest to one like a mother who kindles interest in
The hearts of her spouse to do best things for all to enjoy!

This is the way natural creative talent of one is realized in the
Life of the world to do what best one can to deliver as art work
For the joy of all leaving one's permanent mark in the world!

Masterpieces in art, painting and poetry are created so to
Serve as great inspiration to kindle artistic urge to create
Best works by potential creative minded geniuses in the world!

Sans the creative expressions of great artists interest in life
Cannot ever be sustained with determination to achieve all!

Ramesh T A
The Source Of Love In Life!

Influence of romance inspires sensuouos feeling to keep alive human love ever! Like human love, yoga and spiritualism have no connection with religions; Breathing controlled by mind, yoga and meditation help spiritual awakening; Emotion, intellect and spirituality in union keep love transcend all barriers!

Mood of love free from all entanglements of human creations make wonders; This unique emotion makes one enjoy pleasure, bliss and peace in one; Real freedom one can actually enjoy by this emotional feeling called love And that only sways plants, animals and humans good, bad and ugly sure!

The passion of emotional love only makes one fly high above all circles That enslave many breeding hatred in all walks of life and enmity forever And see all things as they really are, and decide all things based on truth Making simple even complicated matters due to all isms, creeds, colours..!

Only romance in life develops free love among all human beings forever And makes all live in paradise of Earth the heavenly life all dream ever...!

Ramesh T A
The Source Of Power To Humans!

Freshness and beauty of leaves and flowers in Nature
Make every morning glorious to enjoy reception so
Sweet and cheerful to start the day's occupation fine!

What a briskness electrifies nerves with new vigour
That makes muscles and bones have a new kind of strength
To lift up even a big mountain and throw with ease...!

Such kind of encouragement who can provide better than
Nature that has the healing touch to every kind of person
Needing special care only it can give ever unlike others!

Inspiring best of mood, Nature, the earthly paradise of
Divine spirit within, has Godspeed to start all engines of
All living beings to function with full power to do all!

Only by living in harmony with Nature, we can function as
Humans before we become divines to live heavenly life sure!

Ramesh T A
The Specialists!

The joyful time in life is when one is young  
Full of dreams, ideas and imagination in  
Care free life with there is nothing to worry!

To translate dreams into reality youth take  
Education they prefer not knowing all the  
Contents and their use later in job and life!

Educational institutions are just business  
Organizations just churning out graduates  
With knowledge of no practical use ever...!

As they are all specialists, they cannot fit into  
Any other work unrelated to their education,  
If they don't get any job immediately or ever!

There tragedy of life begins for millions sure,  
If they are not intelligent and Jack of all trade!

Ramesh T A
The Spell Of Splendour Of Nature!

Twilight zone before sunrise and sunset everyday is when the
Spendour of golden spangle inspires great spiritual mood ever!
Change of hues is fast as Nature paints beautiful pictures on
The Sky canvas that no artist ever can imitate even a slice!

The inspiring spiritual mood is at its best at that time of
Great splendour of Nature no one can forget and move away soon
As the spell cast by the magic of natural beauty so unique
That who can't ignore or refuse to enjoy aesthetic pleasure sure!

Even after the twilight zone splendour ends smoothly with the
Poping up of twinkling Stars one by one after full moon rising
Exactly at the time of sun setting at the tip of Southern India
Is unforgettable image as it's the reflection of God's beauty!

Splendour of twilight zone Nature inspires aesthetic and romantic
Moods in one to the mystic like the pious devotee devoted to the
Beauty of deity in the spiritual mood turns to be a great Nature
Poet to compose poems endless by the spell of natural splendour.!

Ramesh T A
The Spring Of Romance!

Nature is a great inspiration for creating beautiful and best things in the world; Spring season symbolically inspires romance and love in human life ever; The flower of love blooms between intimate hearts turning into real lovers And kinds them exchange words of love in verses leading to be wedded couples!

The sprouts of leaves and flowers of Spring give the sure hope of seeing them Grow into plants and trees full of leaves, flowers and fruits to fulfil destiny; Hope of Spring makes all face seasonal changes of Summer, Autumn, Winter And all to be well seasoned ones to face all life matters to achieve laurels!

The adventure of romance starting as hopeful Spring season goes on ever For the courageous lovers starting from the Lovers Day to go on the path of Love as the single motive to achieve their goals all through the year Unmindful of tragedy or comedy their life could become sooner or later!

Spring of romance kindled by love of hearts among lovers blooms into many Colourful flowers of unique fragrance in the garden of world life forever As the year begins with Spring leading to Summer, Autumn and Winter Resulting into celebrations of festivals with fun and pageantry in victory!

Ramesh T A
The Starry Night Sky Fantasy!

Is the starry night of the sky a dream or reality
Or is it a magic happening by the chain link of
Invisible gravitational pull and push by all Stars?

Going to the top of the terrace, clusters of stars
Make all spell bound by their winking here and there
In the vast Universe impossible to fathom and measure!

The starry night takes one to the world of greatest
Wonder none has explored by dreams, imagination and
Intuition being infinity and beyond brain calculation!

Yet, the dreams of fantasy they create in such a way
That there is no end in the realm of humankind to have
Observed all to a resultant conclusion forever sure!

The starry night sky and its inspiration to take all
To the world of fantasy many can say in verses endless!

Ramesh T A
The Starter Of The Day!

Cool and fresh morning first makes squirrels sing
Songs and go ahead with their activities all day..!
Next, crows call for their share of food at every
House windows whether there is response or not!

Mynah birds and parrots make a clarion call to
Their flocks to gather together for the day's hunt
Going from trees to trees and fly over the town
Resting now and then over overhead water tanks!

All these birds and creatures persuade all to get up
And be brisk in performing daily chores sans fail
So that all other things go on smooth keel nonstop
For all members of the family to do their parts well!

For all species, the Sunrise is the starter of daily works
That move the world to go ahead from mile to mile well!

Ramesh T A
The Status Of Mankind In Kali Yuga!

Persons contrary to our reason and imagination will
Sit on the helm of affairs and control society or State
In the Kali Yuga time is the prediction of the past
Now seems to be happening, when we see political scene!

Persons of advanced knowledge and technology are now
Sub-serving such wrong men holding top most post in the
Government office governing the people and the affairs
Of the nations whether we like it or not till the end!

But even though intelligentsia knows this, they can't
Make people understand and change the situation as they
All are swayed by the words of politicians who know the
Art of convincing mob whether it is of any benefit or not!

Sticking to power by hook or crook, politicians rule the
Nation filling their own pockets but not the people ever
As they have promised before every general election in
The nation and people, after voting, mind their business..!

Ramesh T A
The Status Of Puppets!

We are all puppets on the string of Nature activated by Universal God! Hardships and enthusiasms are influenced by hot and cold climates of Nature; Drought, snow, water falls, rivers and lakes long with seas have impact on all; Leaves, flowers, fruits, variety of fragrant flowers and fruits please all round the year!

Desert and paradise are the hell and heaven of Earth all know very well; Loss and profit, defeats and victories and death and life are fate and luck That are decided by Nature under the the influence of God, Universal energy; From this set up, man cannot escape whatever advancement man makes!

This is a great competition going on for long between God and man sans an end Like the competition between man and Time now due to man and machine partnership; All advancement with his technological knowledge and power are checked now and then By natural disasters caused by burning heat in summer and storms and rains in winter!

Like the robots in the hands of man, Men are in the hands of Nature ever designed To act by the keying of the top power to dance to the tune selected by the highest one!

Ramesh T A
The Status Of The Sourashtrian Community!

'We salute to agricultural and industrial entrepreneurs;  
But we scold those who eat and enjoy pleasure uselessly! '  
This is the motto of a community that has migrated  
From the North-West to the South of Indian nation!

Spinning and weaving thin silk like cotton cloth long....  
They had been living in the Sourashtra province of India!  
Often disturbed by the Mohammedan invasion from West,  
They decided to move to a peaceful place to do their business!

They first moved to the North, the Centre and the South of  
India, the land of beauty and greatness that conquered invaders  
By its high culture in the world since thousands of years ago,  
In search of suitable place to settle and do their traditional job!

Wherever they went, they earned the encomiums of all royalties  
And were welcomed to many royal families to make dresses  
Only they could make to the enjoyment of royal people in places  
Down the South of the nation and settled for many centuries now!

Not knowing the script of the Sourashtra language they cannot  
Read and write in that language being spoken only at home  
For many centuries, they now try to rectify the long mistake  
To have their identity and pride as Sourashtrians everywhere!

Ramesh T A
The Status Of Truthfulness In The World!

Truth may be hidden, but can't be altered or changed
As truth is eternal, absolute and reliable forever..!

Falsity, fraudulent means and imitation may help one
To come on a shortcut route to a top position in life;
But truth only brings respect, honour and love ever
For the sincere, honest, steady minded one anywhere!

Truth makes one stand tall on the basis of one's work
And meritorious service done in any field in the world;
Making use of them, the cunning and nefarious fellows
Thrive minting money behind the shadow of the true one!

The prestigious life style of the true personality ever
Brings praise from others and honour from one's country;
That is self-respect one earns by one's merit in life
And the good hearted one gets special respect forever!

Ramesh T A
The Stories Of Aliens!

There are a lot of stories for and against Aliens
Being weaved based on the relics of the past in
Many nations of the five continents of the world
Believable and unbelievable though interesting
To know and think over them with awe and have also
Inspired for scientific developments leading to
New technological inventions making the modern
World a materialistic one changing the very culture
Of world people to excel the achievements made by
The so called Aliens despite the fact that those
Advanced extraterrestrials are supposed to be ever
Hiding in some planets of the Solar system just
Waiting for an appropriate moment to strike on the
Earth to invade and rule earthlings as slaves ever!

Ramesh T A
The Stranded Little Flower!

A nice little flower is stranded on the pavement
Like a little child is floating in a box on sea waves!
The innocent smile of flower is same as a child
Ready to go with anyone who discovers it there!

How is it possible for anyone to leave it so there
Heartlessly not cared for at the verge of being
crushed by feet of men walking fast in a hurry
In this mechanical world of no mercy ever......?

Musing over its isolation I take it home for relief
Like the child taken by a merciful mother to take
Care of it as one's own child to see it has a good,
Fortunate future all can appreciate in the world...!

The child may become a Moses or Karna to save
All miserable people suffering from want forever!

Ramesh T A
The Sublime Sea!

The still, calm and serene sea at Sunset
Absorbs all on lookers as if it is a fine
Painted picture with no noise of activity!

What a grand goodbye the sea offers to
The Sun till the dawn appears next day
Making all awe struck till darkness falls!

Then the Stars appear one by one to sing
Many songs all the night with the Moon
At the centre witnessing all as a queen....!

Everyday the chores take place nonstop,
Yet, the special effect of the Sunset scene
Today is another wonder of Nature sure!

The muse kindled by the painted picture
Of the calm and serene sea is sublime sure!

Ramesh T A
The Summer Drunken Mood!

The Summer Drunken Mood!

Everything in the world including man has a beginning and an end; 
All physical things are visible and non-physical things are invisible; 
All physical things like Stars, Sun, Moon and planets are visible; 
All non-physical things like Spirit, energy and wind are invisible!

When we think about Sun, Stars and all matters only, we realize Space; 
When we think about how they function, we come to know of energy; 
When we think about the beginning of them, we realize presence of Time; 
When we think about the source of function of all, we realize about Spirit!

All visible things we know by perception and invisible things by 
Conception through the means of relativity and logic of man's mind by 
Intellectual analysis made possible by association of ideas and the 
Inference arrived at by researches in pursuit of truth of knowledge!

The Universal Spiritual energy is what we can call in one word as God 
That activates all animate and inanimate things everywhere in Space 
And is the source and the ultimate reality for all to realize at the 
End of one's function comes to a stop in the world and in Space sure!

Ramesh T A
The Summer Harsh Weather!

The Sky is not with much clouds to bring rain;
A thin blanket of grey coating covers the Sky;
The heat of Sun is more than the usual level;
Unable to bear the heat, all avoid coming out!

Only in the evening all venture out to shopping
Necessary items to run the families to cool down
Body heat so as to overcome the Summer harsh
Weather again showing its valour over the town!

Walking in the beach brings heavy sweats all over
The body in such a fashion that all feel as if all have
Taken bath in the beach instead of cooling in the air
The beach provides or the breeze from the South sure!

Late night sleep only brings some peace in silence
Being disturbed by dog barks now and then long!

Ramesh T A
The Super Moon!

Super full Moon has come after sixty nine years..;
Bright and big in size looks spectacular in the sky!
Up above the green leaf trees it is golden in colour;
But reaching high it is silver in colour as platinum!

What a change the Moon has attained doing its own
Regular round of visit in the sky everyday forever...!
Never disappointing anyone watching the sky visiting
The beach whether it is summer or winter or autumn!

But the Super Moon is rare phenomenon like the rare
Blue Moon that too surprises all coming twice in a month!
This special Moon is my Moon and everybody's Moon
Being super in size and special for the occasion this even!

The queen of sky when comes nearer than usual, the full
Moon becomes a Super Moon to put all in dreams long!

Ramesh T A
The Surprise Of Humble One When Promoted To Higher Level!

Openly cocksure of one's ability, one may feel proud
Of oneself humiliating lesser ones in the public too;
But someone of lesser calibre unknown in public much,
When excels in job, it makes the proud one humiliated!

But the lesser calibre of one makes one feel inferior,
Improve a lot in job, but, when promoted to a highest
Post, one feels surprised and his humility humbles one
Much putting one incredible of one's high ability sure!

In any profession, the humble ones not knowing one's
Real ability, have low opinion of oneself and even feel
Fearful in facing the higher level professionals in office;
But when elated to great position, one's humility is high!

Humility of one, ever humiliated by the pride ones, makes
One feel much about oneself, when promoted to highest level!

Ramesh T A
The Talking Business!

Stage speakers speak whatever they can to absorb audience; 
Audience wants entertainment from the speakers on stage; 
Stage is the place of attraction exposing speakers to all well!

Well of legislative assembly or parliament is the empty place; 
Place of talking business is parliament in good democracy sure; 
Sure the speakers are with what they have in mind to speak!

Speak what you are ready with and favourite ones they feel; 
Feeling is what needed to be kindled by speeches to get support; 
Support of audience by applauses and ovation are for the best one!

One and the only one who has support is the popular personality; 
Personality of a person shines bright by the acquirement of ideas; 
Ideas flow in best one's speech wherever that one delivers is talk!

Talk of well versed persons are clear and perfect to make all know; 
Knowing ideas from knowledgeable persons enriches mind and life!

Ramesh T A
The Things To Be Done At Any Cost!

Usual happenings, when all get used to them, become
A matter of lesser importance in human society sure!
Hence, people take violence, bomb-blasts and pollution
For granted and mind their usual business by all means!

Not realizing the grim situation our world is placed
And relying on the rulers everyone pulls on the days
With the hope that the one who has planted the tree
Surely will pour water to save and grow the tree ever!

World peace and very existence are getting worse day
In and day out day by day sans a solution contain them!
Realization should dawn on all to put an end to them;
For and otherwise, world will become hell and destroyed!

Naturally and nuclearly, the world is surely heading to
The end point of destruction that all should make a note
And collectively and unanimously all should make a firm
Resolution to contain pollution and terrorism at any cost!

Ramesh T A
The Things We Love!

The things we love we never forget; We long to enjoy such things again.
In this uncertain world that is solace, That cheers up mind to go on ever!

Life we live with that in heart is fine As long we are not placed in despair!
Nostalgia of such lovely time lives Forever in our heart and mind sure!

The things we share with our beloveds Give joy and satisfaction nothing can!
Such moments in life we cherish most To repeat again and again to live well!

Happy moments and thoughts live Inspiring heart, mind and soul long!

Ramesh T A
The Thread Of Flower Garland Also Has Fragrance!

Birthday celebration flies off spending time in hotel and cinema with dear ones; There is nothing remarkable in it and even forget to remember thereafter every year; But the things that have happened then is written in the form of poetry stays long; There the happy moment is frozen in time to remember it ever with many readers!

Poetry written on Grecian Urn by John Keats about the lasting lovers romantic moment is also so And a perfect example to vouchsafe my point of view as for as the significance of poetry; Yes, Poetry serves as permanent souvenir about the important moments in life; Is it not a great art that makes even a small matter have great importance as Poetry?

So many things happen in life, but the moment frozen in time by Poetry is significant ever; A feature poetry has all details in brief to remember a small significant part of life ever as record, When those incidences are incorporated in a poem that lasts as great record for all to see; The greatness of poetry is a flower garland that makes the thread also have its fragrance...!

Celebration of birthday comes in the passage of every year in one's life in the world, But it is remembered forever, when the celebration is incorporated in a poem by chance ever!

Ramesh T A
The Truth

One world is
The wish of all noble men
As it's the truth!

Ramesh T A
The Ultimate Abode Of Peace!

Natural beauty kindles mystical nature to divinity
By the vastness of Universe and depth of blue ocean
Apparently mingling into one at the horizon of globe
Quite absorbing mind, heart and soul by its panorama!

Undergoing all kinds of torture in the mundane world
Man tries to seek relief with drinks and dames at night!
But not getting real relief forever seeks asylum in Art
And finally goes to the abode of Nature for mystical bliss!

As in political rivalry religious differences too irritates
Making one escape from all circles of adversaries here!
Art, literature and Nature according to one's nature
Gives great relief to the seekers of peace and bliss ever!

Nature the source of all creations of life always cools
Mind, heart and soul leading to divine bliss sure ever!

Ramesh T A
The Ultimate One!

Thinking, speaking, writing and doing complete human activity;
Success, failure, blocking, praising and criticism are reactions;
Joy, grief, melancholy, comedy and tragedy are the outcome of all!

Musing, meditating and mystifying make man a great philosopher;
Beautifying, romancing, liking and loving satisfy emotion of all;
Cooling, solacing, relaxing and pacifying make all renovating!

Observing, knowing, visualizing and expressing are work of genius;
Enjoying, remembering, recollecting and composing poems poet do;
Analyzing, inferring, recommending and rectifying scientists do!

Mocking, rocking, knocking and panicking extremists do by terrorism;
Facing, fighting, destroying and winning soldiers do to bring peace;
Preaching, moralizing, redeeming and restoring the healers do to all!

Creating, protecting, preserving and destroying Almighty do to all;
Realizing, practising and reaching Ultimate One spiritualists do...!

Ramesh T A
The Ultimate Reality!

Spring is the regeneration of plants in the world.
Such things are not possible for animals and men
As far as our observation is concerned so long.....!
For, evolution is there for animals and men to.....
Higher stages of development physically, spiritually!

That is how animals become men and men divines
According to their deeds in line with advancements
They all make in various stages of evolution here....!

Resurrection is regeneration perhaps possible only
By extraterrestrials who are termed as Aliens or
Angels or God we are aware of according to our
Advancement of knowledge based on researches
Our scientists, intellectuals, philosophers and poets
Perform to know truth, ultimate truth or reality...!

Ramesh T A
The Unforgettable Rose Flower!

Flowers of many colours are there to cheer the people
On the Earth proudly called as flower world forever;
For, flowers come up as buds to blossom everyday to
Bloom as beautiful flowers with fragrance only here!

Of the many beautiful flowers, rose flower is the queen
That leads the flower world forever to inspire all souls
In unique colours like light pink, red, blue and green
To be presented to persons of various natures all know!

This unique rose flower by its soft, tender and delicate
Nature exists ever as a symbol of beauty and love in one;
Light pink colour rose flower has given birth to rose milk;
And red for love, blue for noble friend and green for Nature!

Having all aspects of greatness, rose flower is a favourite
For many a soul spreading its fragrance unforgettable ever!

Ramesh T A
The Unkindest Kind Of Cut Of Fate!

Many justify their acts to overshadow their drawbacks
To maintain their professional stand as if all is well!
Also, say that mistakes beyond one's control take place
Despite they take careful imprecation in the works ever!

The victims are made to shut their mouth against their
Will to think about the next things to go ahead in life!
Operation is successful but patient has passed away by
Misfortune as exceptional case in the long run of works!

Connected persons to safe guard their reputation blame
the victims themselves as responsible for the tragedy!
This is the way of the successful professional for long
In the field that is beyond everyone's knowledge forever!

In such a field, no one can be sure of anything and many
Say that misfortunes are common in cases needing major
Operation as the victim seems to have been unaware of the
Chronic or extreme nature of illness before hand sure..!

Ramesh T A
The Unpredictable Nature!

Clouds all over the sky are there all the day
Creating the impression that rain will come!
But everyday ends without any rain at all
And disappointing towns men and farmers!

Some cyclones were formed over the bay
And have gone towards the North finally
Disappointing the expectations of all that
Due to that, good amount of rain would come!

Yes, cyclones suddenly changing directions
Have carried away moisture from the clouds!
That is why places in the South have become
Dry and hot sans any symptom of rain at all!

This is the play of Nature nobody can guess
When and how it will behave where and why!
Fortunate are the people who have all benefits
From Nature by rain, sunshine and mists sure!

Ramesh T A
The Unsteady Minded Persons!

What can we say about the fickle minded
Persons with ever changing attitude in life?
How difficult to cope with such persons...,
No one can say with words available ever!

A lot of time and moneey would be wasted
By all connected with ever changing minds
Making all watch the acts from the beginning
To the end to regulate wherever possible...!

Living in such a situation what joy or peace
One can have except tension and panic only!
Managing and bringing them to a steady stand
Needs an expert mind in this kind of art sure!

Why are they doing like that? It is a big question
To find an answer, only after having a thorough
Analysis with great efforts based on their past,
Present and possible future way of life sure ever!

Otherwise, they have to be controlled by dictator
Type guardian and regulated now and then on
The track all can like to have proper decisions
Now and then on any event that may take place!

Ramesh T A
The Vagaries Of Climate!

A good rain in the early morning is a surprising thing to see
Just before Summer is going to blow its heat long sure indeed!
Immediately after hot sun has started to cast its spell all
Water drenched street and building evaporated soon sans imprint!

The surprised birds like parrots and mynas are flying all over
The place in a calamitous manner making noises special today
Putting one and all watch all these happening in big surprise;
What a magic Nature is planning to do no one knows for sure..!

For the later sleepers, those things of change are as usual have
No effect as they have to hurry to mind the daily chores fast to
Compensate the time last so as to go ahead with the usual rut of
Work they are destined to mind to make the day a best one sure..!

If rain and hot climate alternate all through the Summer, no one
Will surely mind with no hush and fuss the vagaries of climate..!

Ramesh T A
The Value Of Unknown Matters And Men!

The Value of Unknown Matters and Men!

By communication, advertisements and sharing of messages
Only world knows what is what whoever one is or
What ever thing is and failing to do so, one or a thing is
Like a flower bloomed and faded in the desert unknown or a
Treasure in the deep sea wasted sans any use to anyone!

In that respect, Smart phone and interneted Computer are a great
Boon for Artists, poets and all of great calibre living as beacon covered
By mountain or Huge trees of blockages by powerful foes or disturbances
By obligations Endless and big distractions by jealous hearted neighbours
Ever waitng to topple one in a matter of no minutes in this world sure!

Likewise many are made unknown in the world along with their great works of
Art valuable to humankind for the great promotion of peace, prosperity and
Progress by vital ideas of confidence building measures that would have change
The world for the better long ago before all complications messed all ever!

Ramesh T A
The Victor!

For the victor

Even a blade of grass is weapon

To vanquish any enemy!

Ramesh T A
The View Of Misty Eyes!

Misty eyes see everything everywhere in smoke...;
For the misty eyes, everything looks to be vague;
Real world and all happenings look as dream world;
Unless the eyes are clear and clean, all are vague!

It's the same for dizzy mind that makes all as dream
For one who is in apparent sleep though not sleeping;
Only for the clear mind, the truth of things is known
That leads one to go confident anywhere one likes..!

For the drunkard, whether in sleep or awake, everything
Looks to be the same due to one's resolution to forget
All things happening against one's desire and wish in
The world that goes on whether one like or not forever!

When all things are not in one's favour, misty eyes,
Dizzy mind and booze keep one float in dream world to
Overcome the rigour of world life unbearable and one
Can't stop things happening beyond one's control ever!

Ramesh T A
The Way To Endure Both Pain And Pleasure!

Earthquake or tremor in the ocean triggers tsunami;
It has happened in Indonesia in 2002 at Christmas;
Now in 2018, volcanic eruption has triggered tsunami
Again in Indonesia just before Christmas time sure!

Due to man made pollution, there are natural disasters;
Also, due to unknown natural cause also, disaster is
Affecting the Earth here and there creating tragedy
Unbearable just before good festival means what to say!

This Earth is like a coin with both sides representing
Joy and sorrow mankind has to witness and experience
To know pain and pleasure and take them in the same way
Reminding all to be non-attached to things and men ever!

Both Bhagavad Gita and Buddhism advocates all men to
Follow non-attached love with all to be unaffected by
Both sorrow and joy, pain and pleasure in the life of
Bitter-sweet nature all have to experience and endure!

Ramesh T A
The Way To Enjoy Real Freedom!

With love and knowledge only, one can get real freedom
To enjoy happiness, pleasure and peace in world life!
Political freedom is there, but economic and social
Freedom all have to get yet by national developments!

All cannot wait depending the political government to
Provide economic and social welfare to enjoy full and
Whole freedom as per the promises in elections by
Political persons of various political parties forever!

Union of love and knowledge only can make one enjoy the
Real value of freedom to provide oneself with all possible
Developments to progress forward economically and socially
So as to stand on one's own feet to live a successful life!

Knowing this practical possibility one has to acquire all
Possible knowledge by love of it to become a fully developed
Person and enjoy all benefits of world with full pleasure
And satisfaction so as to be a complete man to live in peace!

Ramesh T A
The Way To Feel Better!

Everyday uneasiness creeps in my heart
And makes me think about its validity!
Wasting time is a big crime in life feel I
Immediately once I wake up from sleep!

Many things float in my mind to know
About things I have missed and feel I
That they all have to be compensated
With some other developed way sure!

Compensating the loss of time with
Something better the mistake can be
Corrected and keep oneself ahead of
All the time wasted according to my self!

Even though nothing wrong has been
Committed, that sensation makes me
To do better than before and do ever
Something remarkable to feel better!

Ramesh T A
The Way To Worship!

Knowing that the Almighty is Universal spiritual energy And It is imminent and transcendental, is it right to Confine It in temples, churches and mosques to worship?

Indeed it is impossible to imagine and visualize It and the images man has created for It are only a sort of the X, Y and Z mathematically supposition for the present...!

By confining such a greatest power in shrines, concentration Of all people are focused there to realize It emotionally And spiritually in peaceful union of one mind to feel effect!

Meditation in Nature and mystical communion with Nature, such A sensation can be enjoyed with full bliss better than any other Way of feeling, realizing and enjoying the effect in the world!

But worshiping the Almighty in the way one prefers will surely Bring bliss within one's reach as all get anywhere else ever!

Ramesh T A
The World Cannot Forget!

Memory of the loved one of the past inspires many ideas
For a great poet to compose poems in epic proportion…!
Life of Adam and Eve inspired Milton to write paradise Lost;
Common stories of world inspired Shakespeare to create Plays!

Not only that, recollection of the past in tranquility has
Greatly helped Wordsworth to write Prelude after composing
Romantic poems inspired by Nature and has created a special
Place in literature that still inspires poets like me ever!

Coleridge, an extempore poet, has composed poems like Kubla
Khan, Ancient Mariner and so on quite new in the poetic
World as they are all esoteric, supernatural and romantic in
Creativity that helped to make an indelible mark in Poetry!

Interest in literature increases ever inspired by the masters
Of literature unique the world cannot forget till end of time!

Ramesh T A
The World Is One Family!

Manpower of humanity is making all developments in the world
Whether it is agriculture or industry or defence or any walk
Of life without saying anything in revolt of anything ever!

They are neither going up nor coming down in world life, though
They are satisfied or not, but with contention of heart living so
Pulling on the days and years generation after generation sure!

With self inspiring dreams, imaginations and plans they live with
Hope and expectations believing they would become realities in
One day or other as nothing is permanent in the world forever...!

They are like Lord Hanuman, who has forgotten his power until he
Saw Lord Rama of the hero of the classical epic, Ramayana written
By sag Valmiki in the legendary time in the ancient past of India!

Hinduism itself says that the world is one family by the Sanskrit
Term, Vasudev Kudumbakkam, which Humanity should know and realize!

Ramesh T A
The World Today!

Roaming round the world I meet pals on websites;
We exchange our ideas writing poems we prefer.;
Based on comments we judge our supporters and
Also we come to know real friends and foes where!

Envious and jealousy guys and girls say many things
Ill of us and turn to destroy our good images ever!
But being well seasoned in this field long, we bear
All brunt w8th stoic heart and proceed further long!

What an adventure writing on websites full of all
Kinds of personalities vying with one another to
Get to the top of the ladder sans any sense of good
Will for the well being of world men in all fields!

Competition but not cooperation has become the way
To follow to be in the field in many websites as
World life has become jungle life of the ancient
Time after material world has emerged the eminent one!

Ramesh T A
Based on the knowledge of one-sided view, many judge on matters, Decide about persons and things and deal all not knowing truth And also, think, talk and do things with all, right or wrong!

Especially where there is partiality of love prevails and the Support to the loved one who is good or bad, right or wrong none Knows if it's fair or foul, injustice hurts innocent or good much!

The pain of injustice hardens heart by experience in life long And the isolated one by majority makes one clear to have true Understanding of all matters to deal independently in life ever!

After supporters have dwindled for the enjoyer of love of all, As has grown up with carelessness and arrogance, when dealing Matters independently only come to know of one's wrongs to failure!

This the world should know and partial love one enjoys with all Support should realize to be fair and reasonable in dealing matters!

Ramesh T A
There's No Event Sans A Cause!

For all events happening in the world,
There must be some causes behind them;
In Nature itself, nothing takes place
As effect without a cause sure ever!

Without knowing the cause or reason,
No action can be taken to solve it;
Under a wrong notion or usual practice,
If action is taken, it will solve nothing!

If such actions are taken in haste ever,
Surely, the result will be disastrous;
This is what happening now in countries
Vulnerable to terrorism and violence..!

Ignorant and misled extremists indulge
In terrorist acts whether justified or
Not to materialize their objective sure,
Which is poverty needing money to survive!

Rebellions fighting for democracy against
Monarchy or dictator rule also due to
Extremism, indulge in terrorist acts to
Achieve their goals somehow or other sure!

No war ends in peace sans peace talks ever;
So also, if talks are had with rebellions,
Their genuine problems can be solved with
Proper measures to put an end to wars sure!

Ramesh T A
Things Behind All Works Of Art!

Whatever thing you do in any manner is art, if it is done beautifully well;  
But sense of beauty, truth, goodness, discipline only helps to create work of art!  
Knowledge, experience, vision and ability are needed to create masterpiece;  
But love of beauty and genius of one only can create great art work ever sure!

For all things to be utilized to create a good work of art discipline is a must;  
Discipline in thoughts, words and deeds is necessary for integrity in execution;  
Any work of art like dance, painting, music and poetry involves total dedication;  
Unless such an involvement nothing can reach larger audience for appreciation!

Just like the distant look enchants the view, great work of art may look easy;  
Great philosophical ideas are expressed in so simple a way that all feel it’s so;  
But in reality, talent with all abilities and hard work are involved to do so;  
Making a matter look easy and simple itself is an art only a chosen few have!

Great artistic works produced so only inspire, absorb and energize all;  
Such works only kindle interest in all to attempt so and achieve one such one!

Ramesh T A
Things To Think!

Earthquake or nuclear explosion, there is no difference!
Such a doubt now arises due to North Korea's testing
A Hydrogen bomb within its territory in its nation now!

Nuclear non-proliferation treaty and comprehensive
test ban treaty now need to be dusted for reappraisal
So that safety of the world's existence can be checked!

Gun culture is another great problem needs to be solved
By USA so that its future citizens can be safe with the
Thoughts of world peace and promotion of democracy!

Weapons of mass destruction, free use of guns and violence
And other matters affecting world peace not only in one
Or two countries but in all countries need to be tightened!

Freedom sans discipline is the root cause for all problems
And promotion of democracy with proper reforms solves all!

Ramesh T A
Things Unique In Nature!

Birds are of many kinds but each one is a kind;
Fish are of many kinds but each one is a kind;
Flowers are of many kinds but each one is a kind;
Fruits are of many kinds but each one is a kind;
Poems are of many kinds but each one is a kind;
Ladies are of many kinds but each one is a kind;
Men are of many kinds but each one is a kind;
For, each and everything is unique in Nature!

Ramesh T A
Things We Are Unaware!

We plan so many things before hand and do with precaution
To avoid pitfalls in our journey ahead in world life ever;
But for some, everything seems to be easy go and easy lucky
Being blessings ever bestowed on them by the Almighty ever!

from this what can be understand is that whatever we plan
And do, our acts are watched and guided by the power above!
Though this is unbelievable, it is a fact we have to recognize
As against our efforts many forces are working we are unaware!

Forces against our efforts are may be man made behind us and
Also, natural incidences going on that many affect us unaware!
The invisible negative acts natural and man made only the
Almighty can know and save us from many troubles we are unaware!

But our positive thoughts and acts we have to continue with,
Though invisible forces against us go on we are unaware ever!
Our life itself is going by miracle against the precarious status
Of the world in which we are surviving against all odds unaware!

Ramesh T A
Think Of Gratitude To The Ones Who Serve For The Well Being Of All!

Artificial, mechanical life of modern world is full of selfish people
Who have no gratitude for the some serving for the well being of all;
What is the use of doing good to the people who don't have any gratitude?
This question arises in the hearts of well wishers, yet they serve well!

In many ways such people serve for the common good of all in the world;
But that does not mean that they have any self interest to satisfy them;
Their interest in the field they like only can give peace and joy ever;
Though no one cooperates, they should be let to do what they like sure!

Joy, peace and satisfaction are what all need in all they do in the world;
This is the way natural work of one is done to get fulfilment in world life;
But the mechanical life living people don't feel what's their heart wants
And never think and do anything in return for the services they get ever!

The simple, natural way of life of people only fosters all as humans with
Human feeling to assist the people, who serve them forever to fulfil their
Aspiration and interest in the field they are best at as their gratitude
To them which is what expected of the people needing the service of them!

Ramesh T A
This Beauty Is Truth!

Perfection in work brings natural beauty to anything; This truth is well exposed in art, music, painting, poetry; This beauty is truth and nothing else needs to be known!

This is possible only by knowledge, discipline and talent; But above all, devotion to work and love in performance Indeed do miracle in creative works by lovers of beauty!

Beauty reflects truth, perfection and love in any work of Art that amuses and enlightens all seeking answers to Their queries nagging inside their hearts for long in life!

Love, discipline and sense of beauty in anything reflect The true personality of a person whose art work in any Field will make mark in the world whether known or not!

True art of beauty makes the artist invisible as God in the Work that absorbs heart, mind and soul of everyone ever!

Ramesh T A
This Is A World Of Love Life Ever!

Love is God's will for everyone to enjoy in world life;
Teachers loving teachers and students loving students
In college life accrue intellectual knowledge and also,
Bloom flower of love to perfect personality in union..!

Romance is part of love life in the world that starts
At first sight with smiles as beautiful as fresh flowers
That invite as garden flowers all best beetles to carry
Fragrance of love to germinate species of life forever!

This unique Earth is meant for love life to cherish with
The beauty of flowers that cheers up mood of love to fight
Against all hatred and violence that divide and destory
Human world into pieces needing to be remedies by passion!

Passionate love life is the need of romantic world that only
Makes the war-turn world into paradise to enjoy heavenly joy!

Ramesh T A
This Is Birthday Party!

Gathering round cake and candle burning,
I stand at the centre of the table ready to
Pooing the lights and cut the cake for all!

All friends of my group have gathered to
Say Happy Birthday, when current went off;
But under the candles light all are seen well!

Then immediately current is restored by
Switching on the generator that can take
Care of current problem very well long...!

Now settled all, cakes are being served on
Throw away plates with cool drinks too
Served to all, colourful balloons dance high!

Bouquet of flowers and presents coming in,
We all enjoy the party long to our great fun!

Ramesh T A
This Is Winter

Dawn is bright
But the day is cold
Evening is colder
All the night it's coldest
This is Winter!

Ramesh T A
This Or That?

More than friends lovers are many!
Which one shall I choose? I wonder!
Days go on in love poems endless.....!

All days abound with love verses
Whichever website I wade through
And love also never dies on papers!

Which one shall we choose in life -
Love or truth or beauty or knowledge?
I love all in one whatever it is.......!

Love is the beginning for anything
And without which nothing is done
Better and wholeheartedly in life!

Only love of heart has to decide
In choosing this or that ever in life!

Ramesh T A
Thorny Rose Flower Life Of Love Is!

Hardships are many to face in all stages
Before we complete a full circle of life!
Hardships are the thorns we have to thwart
On our way to go ahead in the journey of life!

Life is hence bittersweet and love is painful
Pleasure all have to endure sans any cry sure;
Many have lived so and many have shown the way
To tackle all mishaps to maintain poise ever!

Life is bed of roses with thorns all have to deal
With to enjoy fragrance of pleasure with the one
Beloved to one mutually adjusting and cooperating
To make good of all bargains as to time and place!

For, love is painful pleasure like the beautiful
Red rose flower with thorns to thwart with knack!

Ramesh T A
Those Few Seconds!

All difficulties come as big mountain;
But they all disappear soon as dew,
When the Sun shines hot after dawn!

Many a time I have seen and felt so
Difficulties coming all together too!
If calm is maintained, all fall in order!

All problems become big giants
Mainly due to fast reactions only!
This from experience all can see sure!

As lessons in the long journey of life,
Our experiences on various matters
Teach us to be patient to deal all well!

Despite all experiences, those few seconds
All try to react false unless stopped by luck!

Ramesh T A
Threats Of Nuclear War!

Testing atomic bombs in ground, air or water
Is different from waging Nuclear War sure...!
No one can win in a Nuclear War in the world!
For, Earth itself will be destroyed once and for all!

Not knowing this some incorrigible nations are
Indulging in testing atomic bombs now and then
Warning against America and western countries
Just as North Korea does in the Korean peninsula!

Communist dictatorship nations and Islamic terrorist
Outfits are indulging in slogans against other nations
And testing atomic bombs and making dirty bombs
Bent on destroying not only others but also themselves!

These threats are not going to bring anything good to
Themselves and others for humankind in the world...!

Ramesh T A
Threats To World Peace!

Human unity is very important for maintaining peace;
Sans peace, no socio-economic development is possible;
Especially, neighbours should maintain good rapport with
Each other settling all problems then and there ever!

Not religion or political ideology is important there,
But only human sense, humanism and humanitarian works
Need to be given prominence for maintaining good human
Relationship with neighbours and promote unity and peace!

There are adamant neighbours who stick to some obsolete
Creed or ideology and never come to compromise for any
Movements towards mutual peace, prosperity and progress
And remain eternal hurdle for peace and escalate tension!

Treats of this nature not only to neighbours but also to
Whole of mankind block the process of human unity and peace
Forever and the world moves on unbearable suspense craving
For unity and peace to have a better way of life forever!

Ramesh T A
Three Cheers!

&lt;/&gt;XXX has many things to remember;
XXX is an American agent in movies;
XXX is brand of Rum available here!

Three cheers people say after victory;
Cheers all say to have toast in parties!
This XXX reminds me of the Rum only;
XXX Deluxe Rum is the best one here
Similar to Johny Walker whiskey, yeah!

Is Ian Bowen thinking of hosting a party
To celebrate of the best poet he has in mind?

Competition has come to the fag end now;
After tomorrow the result will be out
Many think and await the announcement!
Will Ian say the result or simply go away?

Ramesh T A
Three Phases Of World Life!

It gives relief, peace and great pleasure to do what one likes to do whether one is in monotonous mood or Grief stricken state in certain times of world life!

In some tragic situation in working life, many do not Know how to coup with afterwards and what to do next To manage oneself in new situation in life sure here!

Each and everyone has some interest in something ever; That is the starting point for turning a new leaf in Life to coup with the new situation for the better..!

Loving persons and friends are come to this context to remind one of that idea and make the sad on see a New way to live the next life after a tragedy sure...!

Life with parents and education is first phase, family, Work and children are second phase and turning a new leaf In doing interesting work is third phase of life ever!

Ramesh T A
Three Unique Flowers!

Due to flowers world itself is called as flower world!
Of them lotus, rose and tulip are world renowned ones
Nobody can deny their significance anywhere anytime!

Danish renowned tulip flowers cheer all by unique beauty!
Tulip flowers of many colours have made mark in literature;
Everybody cherishes their beauty unique in Nature all time.

Rose flower, the thorny beauty of all is the queen of flowers
Everybody has an high esteem and value for rose everywhere!
It is the chosen flower uniquely cherished as a symbol of love.

Lotus flower with yellow seeds in is cherished as divine one!
It is highly esteemed as a spiritual flower for meditation most;
Spiritually valued high lotus flower has mystical significance.

If tulips are angels rose is the queen of love poets cherish
Meant to worship mystically elevating divine lotus ever fresh!

Ramesh T A
Thriller Night!

Halloween night scene

With evil spirits coming from graves

Reminds MJ Thriller song!

Ramesh T A
Chillness of cold climate calls for
Confluence of attracting souls...!
The duet of romance between two
Irresistible souls start the game...!

O My dear tulip flower, show me
Your beauty in full bloomed way!
O My dear sweet banana, come on
Let me taste the silhouette of you!

O My dear honey, let me see your
Mango fruits two to taste just now!
O My dear sweet fruit, I want my
Rose petals two to feel your slices!

O My dear tulip, your mangoes are
Juicy to taste and takes me high....!
O My dear banana, your oozing fruit
Kindles my, my flower to dance....!

O My dear beautiful tulip, let our
Fruit slices and rose petals fuse tight
For the banana to intercourse tulip
To dance till we reach the heaven...!

Ramesh T A
Time For Stars!

Golden Moon at the centre of Eastern Sky
With a bright Star above shines glorious
Like in the full Moon time even today sure!

Night has settled now with calmness every-
Where making it very cold before mist full
Formation to go on all the night before all!

Before dawn breaks out clearing all darkness
Ruling the whole night, it's the time for Stars
To draw symbols in constellations far above!

All Greek mythological and ancient Indian
Group of Stars making zodiac symbols.....
Saying all about each one's status and future!

All thoughts of past, present and future surely
Occupy all as long as all Stars never diminish!

Ramesh T A
Time Is Not Enough!

Float I in air as Harrier plane or superman
In many of my dreams to go over world
To see all the wonders of the world fine!
It's like movie song scene changing soon;
What a pleasure and ease to travel so!
Except flying man can do anything in life;
But in dreams everything is possible sure!
Nature inspires to go higher than usual;
Supernatural happenings happen in dreams;
By magic man does many wonders for fun!
Many things are waiting to be done yet!
Nature, dreams and imagination absorb all
From the childhood till one sees destiny!
But time is not enough to do all before the end!

Ramesh T A
Time Is Short To Browse All Scribes!

Poems abound on every poetry website!
Readers are poets of every site no doubt;
Everyone tries to excel each one sure
And the publication of poems go on ever!

Talent, genius, intelligence and cleverness
Everywhere are scattered as Stars of Sky!
Very difficult to pick one among so many
From the vast resource of poems in all!

Sans expecting reward all write as they like
Endlessly as spring oozing ever nonstop!
What a spontaneous out flow of expressions
All display for readers to browse long here!

But where is the time to read all and muse over
In the fast world full of crises of one kind or other?

Ramesh T A
Time Lost Can't Be Regained To Enjoy Freedom

Finally!

All dream of living a free life like the birds do;
Before they really start to enjoy, they fall ill;
Conditions when go beyond limit by chronic diseases,
Dullness creeps in one to pull on the days in pains!

Everything after settlement one thinks to enjoy life;
Freedom lost by ill health can never be regained sure;
Greed of amassing wealth takes a lion's share of life;
High status too is attained, but it's of no use later!

Ignoring the best time in youth, many live as workaholic;
Juggling all kinds of works together time is spent ever;
Keeping up punctuality and running in completion with time,
Life is being utilized to achieve their ambitious plan..!

Many people spend time so, losing no time to enjoy later;
Nothing seems to be happening according to their plan...;
Over and again they overdo to make all things for future;
Proper time to enjoy, one cannot avail of, when it comes!

Quite a lot one has to sacrifice to make oneself free;
Restoring health to best condition becomes impossible dream;
Sound body and strong mind once lost cannot be regained;
Through out life, one is busy with mundane things and dies!

Unique nature of healthy life when once lost, all is lost;
Various comforts and wealth may be acquired, but not peace;
World is full of opportunities, but all can't be utilized ever!

X and Y enjoying life are not really wealthy or great men;
Years of toil, only leads one to ill health sans joy at all;
Zealous youth should be enjoyed with less desire to be free!

Ramesh T A
Time Lost Is Lost!

Wasting time in
Wrong thing for long cannot
Regain time lost!

Ramesh T A
Time Machine Miracles!

Ages past, present and future by Time machine we travel;
Before knowing what Time machine is all think if it's true;
Careful analysis shows it is book, dreams and imagination;
Duration of travel is long, but this instantly takes there!

Energy is everywhere in the Universe making travel faster;
Fastest running thing is light that carries messages fast;
Gmail, yahoo and all use that to communicate ideas faster;
Highest range of Time travel has been tried by Aliens, know!

Instant travel to anywhere is possible by dreams at night;
Journeys to past or future, reading books we know a lot sure;
Keeping oneself abreast of technological advancement one wins;
Long and short waves of frequencies carry messages in Space!

Millions of light years light travels to reach various points;
Nothing is faster than that all feel, but Time machines excel;
Open Space has no hurdles to stop fastest journeys by rockets;
Pure energy of all matters is light and fast in transmission so!

Quivering waves or quanta are the form all energy particles have;
Radiation of electromagnetic and gravitational waves are high;
Sustained force energy particles have in transmission long ever;
Telecast of videos or audios take place so to reach places fast!

Universal travel by dreams, imagination and books we do much;
various destinations, descriptions and details we know that way;
Ways or means of reaching and returning are miracle of Time trip!

X men, X files, X stars, X life may be realities against dreams;
Years of Space travels will become instant by energy form of all;
Z rays perhaps, who knows, if invented, do Time machine miracles!

Ramesh T A
Time Of Cultural Festivals!

Time of Cultural Festivals!

Fruits of many kinds are thriving in the market;  
This is the symptom of the festivals to come soon!

Flowers and fruits abound everywhere to buy...  
Marking ripeness indicating the arrival of autumn  
Before rainy season starts before biting cold winter.

What a wonderful time ahead to celebrate in fun  
With friends, family and all sharing our joy with all!

Music, song and dance play a important role now on  
Depicting our rich culture through epic stories and fine  
Mythological stories full of moral justice and wisdom.

They stimulate heart, mind and soul to soar to sublimity  
In all auditoriums and sabhas of temples belonging  
To various cultural communities functioning for many  
Generations to share literature to live a rich life forever!

Ramesh T A
Time Spirit!

We see time for every matter under the aegis of Time Spirit
In the modern world full of hurry in our mechanical life
Due to scientific advancement against art, Nature, culture
In the name of civilization that offers comfort and facilities!

Everything goes on as in a race, contest or competition ever
With our eyes ever seeing time to complete our assignments in
The stipulated time limit to achieve many things beyond our
Human limits in all matters we deal with the modern world....!

In all matters, Time spirit whips us to look sharp to do all;
Otherwise, we will be lagging behind in all matters unless we
Do our best within the short or long time limit we have in hand;
This is the obligation of modern world no one escape to be free!

In pursuit of advancement by science to lessen burdens and make
Life comfortable in the name of civilization, we all have become
Slaves of Time losing our freedom precious to human sense and
Natural human life in race with machines as machines by Time!

Ramesh T A
Time To Eliminate Anti-Social Elements!

Naturally ripening fruits are sweet to taste and enjoy in life;  
But artificially ripened fruits are very bad for health ever;  
Same thing with chicken, egg and so on we eat as food nowadays!

Whether it is politics or religion, forcibly introduced ones are  
Bound to have reactions leading to ouster of such things in society;  
Unless the rulers are good and alert, all menaces affect humanity!

Suicide bombing, rape and murder are very horrible to bear ever;  
Such hard core antisocial elements should be ruthlessly dealt with;  
There should be no leniency be allowed in render justice to them!

Not only capitalist nations or communist nations or democratic ones  
All are with one mind against extremism and terrorism of all kinds  
Searching for the best means to settle scores with those cowards..!

Only incapable rogues, rascals, rowdies, extremists and terrorists  
Indulge in inhuman acts to turmoil humanity till they are eliminated!

Ramesh T A
Time To Paint Picture!

The avenue trees standing still giving shade
To the pavement and buildings nearby are
Really look like a painted picture to view..!

It's all happening due to no breeze coming
From the South as the day in all its hottest
Temperature strikes the town once again...!

Only in the evening after the clear Sunset,
Southern breeze peeps through the town
For all in the beach to heave a sigh of relief!

Weather forecasts' are not helping to hope
For a good rain to pacy the Summer heat
All are undergoing for the past several days!

Otherwise, all things we see everywhere will
Stand still helping only artists to paint picture!

Ramesh T A
Time To Take Rest!

Winter sleep is what the animals like polar bear and all
Are driven to take as white snow covers all places with
No chance for leaves, flowers and fruits to show their
Heads and nothing for them to eat as food for a longtime!

This is what all call as hibernation similar to the known
Aestivation some smaller creatures like amphibians, hares
And all are forced to take shelter inside holes or caves
In the harsh Summer heat unbearable for all living beings!

Harsh weather both in Winter and Summer many are left with
No choice but to take shelter till that condition changes
For the better in the due course of time whatever be the
Place in the world all are partners whether like or not!

In this world like day and night, there is a time to work and
There is a time to take rest as hibernation or aestivation!

Ramesh T A
Time!

Time goes slow
When expecting benefit, but enjoying it
Time goes fast!

Ramesh T A
Timely Doing Things Fast Makes Life Mechanical Ever!

All people are in a hurry always due to time consciousness is top most; Before they take time to make sigh of relief all things have to be done; Consciously or unconsciously, Time moves faster than commitments are done; Daily same thing continues before we try to find what worthy thing is done!

Entire world mechanically runs in a race with Time, it seems as things go on; Full time occupation in worthy cause seems to be out of reach for many in life; Game like life in competition with time things have to be done in the world; Highly fed up with this system in the modern world life seems to be insipid!

Island becomes the status of all, though all wish for social life for long; Joy of enjoying a nice time with friends and loved ones is out of reach now; Keeping things to be done ever in time, all forget all interesting things in life; Love of doing things as per one's taste one can't dream about in mechanical life!

Moments of best time spend with dear ones too all forget very soon by this hurry; No one remembers what has been done recently too due to fast pace of things ever; Operating system of all too changes faster than to think about their worthiness; Perplexed by urgency in all matters life seems to be meaningless to live so ever!

Quickly everything seems to be done to think about next matter to fulfil obligation; Readily changing over to something better also unthinkable in this mechanical world; Surprisingly if any better changes take place also will be impossible to adopt to; Truly all cannot say all have done to their full satisfaction in their profession!

Unanimously if all opt for a better change of lifestyle only, this state will change; Various ways many may suggest, but implementing them is beyond one's jurisdiction; World is made to run on the rut as there's no other go as time limit for all arrests!

X and Y in this circumstance, what can one thing or dream about to fulfil in life? Years of doing things in this fashion, man becomes worn out and loses all interest; zeal, enthusiasm and interest based on inspiration only, one can do miracles
ever...!

Ramesh T A
Tit For Tat!

Tit for tat children play in games;
When that becomes serious, it is
Known as revenge by any means!

Friends play game using tit for tat
Technique, but enemies never do it
Lightly but disastrously by revenge!

That is what terrorists do today in
The world creating fear psychosis
By bomb blasts here and there....!

This kind of dissipating or scattering
Way of doing things makes all have
Mind boggling effect in great confusion!

Doing so now and then they gain win
In their ventures not knowing their fate!

Ramesh T A
To Be Alive Ever!

Death is assured for all living beings;
There is no escape from that aspect!
Instead of worrying about death ever,
It is better to use the time best in life!

Even when an institution ends soon,
We have the world open before us!
We can again see, choose and settle
In the firm we are suitable forever!

Living the life of oil mongering bull
No one has any interest in life ever;
Instead, one can go out and explore
The world to see wonders and work!

Adventure keeps one ever alert in life;
But settled way of living has no zeal!

Ramesh T A
To Be In One's Own Self!

Facing twists and turns in artificial life, men miss peace of mind! To forget all despairs, one seeks the abode of beauty in Nature, Literature, religion, art, dance, song and music, if one escapes The pitfall of drug addiction to overcome misfortune in world life!

Art, Nature and culture past, present and forever play a vital role To bring man to one's senses whenever pushed down by the Mechanical life being perpetrated by modern civilization to be a Human rather than a machine-beast-man in race with Time ever!

Man's confinement in the circle, one belongs, never allows one to See light of the day and reality making one to come out and look From above to see realities as they really are to overcome the State of helplessness to escape from falling into pitfalls of drug!

Living human life rather than mechanical or animal or divine one is the first imperative now before one attains any state of mind to Achieve the status one dreams about or the vision one has long To be so one day or rather in the journey of life in this world sure!

Ramesh T A
To Be Or Not To Be?

To Be or Not To Be?

When will rain come? Nobody knows....! 
But rain comes sooner or later in the night. 
So, many think whether to go out or not.... 
Seeing the cloudy sky before making a walk!

Mind wayward between this or that decision, 
They move as the leg takes one away out...! 
Then, it's felt if doesn't rain, it's well and good; 
Also, even if it rains, let me be drenched in rain!

That is how risk is taken sometimes in our life; 
Nothing as we imagine ever happens at all..., , ! 
But, when we are cocksure, then worse thing does 
Happen to our great surprise and make us face all!

Then that passes away and we forget that forever; 
But indecisiveness continues due to uncertainty....!

Ramesh T A
To Breathe Fresh Air!

Misty clouds here and there now and then
With their dew falling in dense form make
A rain lasting for a few minutes gives relief
From sultry day frying all in the hot pan
By severe Sun's radiation making this Earth
Not a paradise but a hell nowadays sure....
And putting one and all seek some respite
In the beach or some other open ground
To breathe some fresh air like patients in
The hospitals are put under ventilation pipes
For regaining breath natural for having
Normal resuscitation of heart with ease quite
Very essential for survival against all odds
All have to face in the modern mechanical life!

Ramesh T A
To Create New Beautiful Things In Poetry!

Each morning is a fresh day!
Sun shines on my balcony!
Freshly bloomed clouds make
Sky look new once again today!

I pour water on flower pots
Standing in a row on the balcony
With flowers violet, yellow and blue
Well blossomed by the day break!

How cheerfully flowers welcome
With the smile as fresh as clear water
Making me joyful and smile full
In response to their invitation!

With new enthusiasm I go ahead
To create new beautiful things in poetry!

Ramesh T A
To Do Best Again!

There is an end for all finite beings and things;  
This diktat holds good for websites too here...!  
There is no exception even for best websites...;  
But good service for a longtime is remembered  
However trials and tribulations they encounter!  
It has been a good habit for browsers to begin  
The day with the websites that were good long  
And helping them to rejuvenate life everyday!  
Finding such a place in other website is rare  
For most of the browsers who are used to this  
Nice kind of websites in he computer world...!  
Changing oneself to new pasture takes time...;  
But sooner a new atmosphere will certainly....  
Help one to renew one's prowess to do best again!

Ramesh T A
To Escape To Safety To Get Relief!

Coldest weather is still continuing like hungry vampire
Sucking blood to make one sapped of energy in winter!
This late winter effect makes all fear when it will end to
Escape from biting cold bitterness to summer sweetness!
Can there be summer without spring queen coming out of
The snow white cover of thick ice as sprout of green grass,
Leaves with buds ready to blossom before blooming into
Beautiful blushing flowers accompanied by fruits of labour?
Again when summer comes all rush to cool hill stations to
Free oneself of sweats and boiling heat of middle of year!
'If winter comes, can spring be far behind' ever? Shelley
Questions and so, i question, 'can summer come before all? '
What a quest of man sans patience expecting with great and
Fast expectation a thing one likes most to overcome the effect
Of the existing one to escape to safety so as to get some relief
From rigorous and ruthless effects of some season at its worst!

Ramesh T A
To Explore With Curiosity And Continue With Creativity!

Just a month is there before the year comes to an end;  
Lost and regained health with no time to spare long..  
Being engaged with my exploratory writing of poems  
Having poet friends all over the world to have chat ever!

All other disturbances are there as usual to distract me  
From my favourite work of musing in Nature to discover  
New ideas to put down on paper to edify my wall of poetry,  
An everlasting medium of my expression to world men...!

The long discussions I have had with my friends are still  
Lingering in their minds and that they retell me whenever  
I happen to meet them on their sudden coming to my home  
Putting me on a journey to the golden past we enjoyed once!

All those thoughts make us feel that we are all extraordinary  
Kind of intellectuals among men of formative stages even now!  
Especially my friends quoting of my ideas of past, they feel, they  
Have much benefited by them of late too make me quite elated!

Our high nature of mind we come to know very late only after  
Having a lot of experience with other people both old and young  
Not having that kind of curiosity and creativity of mind as we  
Have simply makes us feel we are one of a kind due to creativity!

Knowing about our own selves itself is a great exploration in life,  
It seems, whether we are worthy or not in all our pursuits of truth  
To be confident and sure with our conviction to go ahead bold in  
All our ventures in our field of exploration to greater heights ever!

With that note, though we have signed off our meet today, it is our  
Intention to explore further about matters of great importance to  
Know still more better about human life, love, friendship, world,  
Nature, Universal spirit and ultimate reality as long as we can sure!

Ramesh T A
To Have A Heavenly Time!

Storms creating depressions are forming in the sea; 
Due to lack of force and speed, rains fall on sea;;
Yet, after sometime, another depression is formed
With the weather office predicting heavy rains soon!

Likewise, two months have to pass before New Year
All will celebrate with bonfire, jubilation and fun
Meeting friends and exchanging greetings among them
To start the journey of life in another year sure!

What we have done and what we have to do to achieve
Our dreams this is time to think over before having
A good resolution to follow in executing our goals
To fulfil our quest just as to quench our thirst..!

World people are so intricately connected that even
If a small mistake will trigger big holocaust like
A flicker of fire ignited by a scratch of match stick
Over bundles of cotton kept in the storeroom of mill!

Words, deeds and result have to be visualized before
Each step has to be taken as in the Chess board game;
This is the trend of international politics now that
Makes the nations to be double careful in each move..!

Forgetting all differences and forgiving all blunders,
All have to follow give and take policy to live peaceful
Life in the world now, it seems, better to be happy
And have a heavenly time at least from New Year on..!

Ramesh T A
To Have Completion, , , , !

Due to photos and videos, whether people live or die,
Their past activities live for all to see again and
Again as long as we wish making us feel happy or sad!

No one can live forever as some day all have to go
Away one by one whether expected or not according to
The will of God, Fate decreed unaware of by all here!

As nothing is permanent in this world, both sorrow
And joy also cannot go on in the lives of men in the
World which exists as junction for men and aliens too!

After fulfilling everything in this world, we have to
Go to the other world supposed to be permanent and for
That, we have to prepare ourselves spiritually finally!

For emotional, intellectual and spiritual fulfilment,
We have to know, live and enjoy all to have completion!

Ramesh T A
To Heaven Ultimately!

Love of beauty kindles passion
To seek the bosom of love....!
Beauty of sunset spell binds
And takes one to dizzy state!
Rainbow colours of attire on
Fair complexioned lady attracts!
Dreams are full of enchantresses
Dancing club dance to fantasy!
Passionate dance with dame
In the world of fantasy is ecstasy!
Tight embrace of dance flies
Butterflies as lightning inside!
End of dance with a sweet kiss
Takes one to heaven ultimately!

Ramesh T A
To Hell Sure!

Prolonged hunger
Destroys peace of world
To hell sure!

Ramesh T A
To High Heaven!

Books, music and Nature occupy many in life!
The season of reading of books has gone away;
Music still rules the hearts of men all over world;
But failure of these leads one to Nature sure...!

We welcome at least with a bouquet of flowers;
For, flowers give cheerful mood whatever time is;
Flower is a galaxy of Universe in Nature here...!
Cheerful mood kindled by flowers makes miracles!

Galaxies of colourful flowers of green meadows
Spread over hills of mist and fog cool mind ever
And transport one to the world of mystic unique!

Aesthetic and mystical combination of hills ever
With snow and fauna and flora is always sublime
Lifting up heart, mind and soul to high heaven....!

Ramesh T A
To Live A Full Life!

With a lot of uncertainty and confusion day begins.  
A sort of uneasiness creeps the whole body each day. 
To avoid this state of condition, we work to forget all; 
In work, we get a sort of satisfaction and joy elevating!

Taking cue from this, we proceed further everyday;  
We create beauty out of chaos that makes us joyful  
To feel better than before and that kindles heart to 
Dream a lot of new things and expectation grows...!

Desire on such kind of aesthetic pleasure inspires  
Heart, mind and soul to get a sense of satisfaction  
In all things we aspire for perfection as the artists do 
And live art for art's sake to overcome all turmoils...!

Nature full of lovely beauty in all its manifestations  
Inspires artistic mood to do all better and live full life!

Ramesh T A
To Live A Healthy Life..!

Good health depends upon sound body, clear mind and Free spirit facilitated by good food, clean environment And interesting job in the company of humorous friends Supported by happy family and cooperative relatives ever!

Such an atmosphere of life is more than a heaven to live Not anywhere in Space or Universe but on Earth that has Beautiful things of Nature such as singing birds, flowers, Fruits in parks and gardens, green pastures, rivers and seas!

Such a place of Nature is paradise in the real sense but Not any other dreamy, visionary or imaginary depiction of Scriptures and literature we all know and dream about for Ever in the world full of chaos, troubles and turmoils sure!

Clean air, water and environment are where we have a very Good atmosphere to live a healthy life whether it is city or Town or village with all commodities and things available At fair price within the budget of all classes of people ever!

Ramesh T A
To Live In Joy Ever!

Without ending violence and wars, there's no peace in the world ever!
Love governs all in the world of peace, only when all trust on all as friends!
Until then, there will be only chaos, disunity, hatred and wars among all!
Only after chaos, wars and upheavals, Value of peace and love can be felt!

Only after great destruction by wars or natural calamity, unity among all begins;
Cooperation, coordination and community feeling bring all together to reconstruct all;
A new beginning of life with human sense will begin flourishing love for joy for all;
There only truth will prevail making all have real faith for sure rehabilitation!

That day when will dawn is the speculation of all forever and ever in the world;
When the feeling of all proceeds so, a turning point will come to put an end to wars;
Love of peace and unity among all sections of people irrespective of creeds, class
Surely will make inroads into the affairs of all to create one world of Utopia!

All struggles, chaos and wars are the paths that make all fed up with them
Kindling cravings of heart to see peace, love and unity to live in joy ever!

Ramesh T A
To Rest In Peace At The End!

Living as good human is very difficult among doubters ever;
If one adjusts to all others around one, others doubt one;
If one does all things pretty well, all feel jealous of one;
At the end, due to such adverse situation, one is disappointed!

This is the bad situation good human has to live in the world;
Some by luck meet with success in all they plan to do in any field;
Believing whatever they do is correct, they feel free to do all;
At the end, when meeting with big failure, they are disillusioned!

One meets with disillusionment, if one has not seen difficulties;
One meets with disappointment facing difficulties and failure...;
Both lucky worker and hard worker meet with such situations sure
It's due to fate, many say, assessing the natures of each one's life!

Sans losing heart, one has to continue one's work to subside grief
So that despite disillusionment and disappointment, end will be peaceful!

Ramesh T A
To Tell Truth...

Prose uses intellect
But poetry uses imagination
To tell truth!

Ramesh T A
To Understand Feelings!

Searching house number and locating it
In summer time is a great adventure...!
Door number is one thing and plot another
And both look to be confusing in all places!

After all searches, phone calling it is located!
What a victory at last to find the person....!
The good old man is 90 years old and joyful
To see us calling him to invite for a wedding!

Summer mornings are very hot to go anywhere;
But what a satisfaction it gives finishing a job!
Evenings are very cool and breeze is heavenly
To enjoy after a lunch and good sleep at home...!

Life is love having painful pleasure to enjoy.....
And is the best way to understand feelings ever!

Ramesh T A
Tolerance In Lieu Of Love Is A Negative Virtue!

Tolerance is a negative virtue to practise,
Where love is too difficult to follow in life as
Love is top most positive virtue of humanity!

After waging horrible wars, Emperor Asoka
Could not face the curses of mothers, widows
And housewives who had lost sons, husbands!

Under the advice of Buddhist monk, he became
Buddhist to serve people by tolerance in planting
Trees on high ways, building wells and guest houses!

Tolerance is indirect way of love in action by not
Only kings but also persons like Montaigne writing
Essays nonstop for the good of all till heart-content!

For, love can be practised only in private, whereas
Tolerance can be practised in lieu of love in public!

Ramesh T A
Tomorrow Will Be Better!

Hot breeze still blowing night has come now. There is no way to cool done today, it seems! Heat of the building still not dissipating, only With all fans running on full speed, we take Night rest expecting cooling to take place Later for a good rest to recoup oneself so that Next day it would be better to go ahead with The usual work in a matter of fact manner Hoping everything will turn for the better! Likewise we have been proceeding earlier, When the day has been very hot sans relief Relying upon cool water bath to make oneself Fresh and free to have a relaxed rest at last Expecting that tomorrow will be a better one!

Ramesh T A
Too Late!

For the sake of others He sacrificed Himself;
An infinite act of love He has shown and gone!
In remembrance, Good Friday is observed.

Looking after oneself is great work now......
How can one selflessly show love to others?
One has to help oneself as no help comes
And at least human sense should prevail
So that love can thrive in this world sure!

Love power is known only after great sacrifice!
After losing a great soul all remember and love
His image believing His love will resume again;
This is the nature of human being everywhere!

Realization coming too late brings only grief
But not joy and peace ever in vulnerable world!

Ramesh T A
Total Liberation Through Natural Life!

Birth of Lord Rama highlights the value of natural justice in the world; Living as human only maintaining natural justice His life serves as a model For all men in power to serve the people with best welfare measures ever!

In the fast modern world, all live artificial, mechanical life ignoring Nature and human sense forgetting all are part and parcel of Nature! This kind of life contrary to human nature is an illusion one has to realize To correct oneself to live natural life to achieve fulfilment in life sure!

Modern world life is passed on natural development giving No hope for emotional, intellectual and spiritual development To attain state of Absolute hood which is what one’s destiny is; This is what all have to know, study and pursue by natural life!

This mechanical or artificial life will give only comfort but not completeness, Which is possible, only when all live with human sense in harmony with Nature And that’s the best way all can live a satisfied life to achieve total liberation!

Ramesh T A
Towards The Creation Of One Human World!

Union of all nations only can form One Human World; United Nations Organization needs to be activated To make that dream possible sooner the better sure!

Unification of separated nations due to various political Ideologies has to be achieved by negotiations, talks and All possible efforts making use of UNO initiated by all!

Unity of all religions needs to be made possible by the Coming together of all religious leaders of the world to Facilitate the creation of One Human World better sure!

For the economic development of developing nations, the Developed nations should come forward collectively to Assist the poor and developing ones in all respects sure!

For the social development of all nations, education needs To be reformed and inclusive of all subjects for studies All nations should make all possible arrangements collectively!

Not just the knowledge of economy, science and technology are Not enough, cultural development is a must for human unity and Which is the best way One Human World be created with surety!

Ramesh T A
Tragedy Of Unprecedented Kind!

Coconut trees and palm trees dance to the tune of cyclones
And so, they sway to the symphony of storm and stay well
Unlike the other trees that stand rigid against storm only
To be punished by the force of strong storm wind to pieces!

But this time, the Gaja cyclonic storm raging at a speed of
Hundred and more kilometres per hour in circular motion has
Totally rooted out and broken coconut trees too along with
Other trees to pieces in all numbering about four millions!

Farmers' subsistence completely pulled out so, have become
Paupers begging for water, food, shelter with no future ever
Needing government assistance for revival and rehabilitation
Of their lives or looking for suicidal option in waiting...!

What a grim reality of total destruction of houses and farms
The poor village and town people face so soon by a single
Strong cyclonic storm called Gaja this unforgettable November
To lament in many folk ballads endlessly here-afterwards sure!

Moire than three hundred thousand people losing all their
Properties take shelter in community halls in many places now
Looking for relief from all philanthropic institutions, State
And Central governments of the nation for turning a new leaf!

Ramesh T A
Transformation From Animal To Divine Nature!

Change of animal nature to human nature is needed
To aim for changing to divine nature finally sure!
Social animal to social human is what one needs to
Change first before one tries to become a divine one!

All religions preach about peace, love and divinity;
A religion may change a brute or an animal being into
A divine being, but it's not possible before one first
Turns into a human being imbibing tolerance, patience!

After one is well soaked in kindness, gentleness and
Love only, one can be a perfect human being before
One transforms into a divine being by mediation and
Mysticism of divinity in communion with Nature ever!

Sans becoming a human being, how can one ever become
A divine being even by religion sans first by human
Culture that prunes one to have best thoughts, best
Speech and best deeds as way of world life forever.?

Ramesh T A
Transformation Of Human World To Heaven!

There is no enmity or rivalry among romantic poets,
But only cooperation and coordination on the basis of
Friendship with all, love of humanity and equality!

Romantic poets' philosophical ideas have great respect
And honour all over the world promoting love and peace
Reminding people of all ills of modern society and relied!

Modern world devoid of human sense, neglect of Nature
And rivalry among nations to have supremacy over military
Of all nations have turned man into a machine-beast-man!

Only romantic poets of the world highlight the significance
Of human nature, human culture and humanism to bring humanity
To its proper self to govern and lead the world to peace sure!

Revival of romanticism through the poetic output of romantic
Poets only our world will turn into human world so to heaven!

Ramesh T A
Transmission And Reception Of Ideas Possible By Energy Quanta!

Dreams, visions, ideas, thoughts and prayers never die with One's dead body even after buried or burnt in the graveyard! For, along with conscious energy, they mingle with the Universal Spiritual energy only to be received by new born body again!

In that way, dreams, ideas and prayers are realized by suitable Acts benefiting and satisfying the proposer in another birth; Dreams, ideas and prayers, whether spoken or written or not, Will be there saved in the universal energy to be realized soon!

Blood consciousness and stream of consciousness are not fiction But facts happening through all living beings though may not be Explained with scientific proof as spiritual science needs to be Developed to prove and convince persons of no intuition or faith!

Just as messages are floated by electromagnetic and gravitational Waves, our ideas are transmitted and received by energy quanta!

Ramesh T A
Travel Tedious!

Tavelling was once a great pleasure
To see the outside world face to face
To know many unknown new things!

But bus travelling is very tedious now;
It makes me very tired at old age and
Wish to travel only in trains nowadays!

Busy city life has lost its magic of past;
City's mechanical life gives no fun and
Relief unlike the comforts it gave once!

All basic necessities are far away and
Car riding for hours makes it tiresome
And gives no charm it once gave well!

Travel is fun only for the youth ever
But not for the ripe old age people...!

Ramesh T A
Treasure!

Indeed interesting letters inspire many an angel;  
But angels don't have physical matter to enjoy here!  
Angels are always in spiritual form above firmament,  
Where only by the Milky way Stair case can one go  
To enjoy eternal pleasure in the paradise of heaven!

Many have paradise regained though paradise lost  
As one door is closed another door is always open  
For the relentless efforts of sincere hearts on duty  
Forgetting pleasure without minding pain on mission  
To achieve ambition based on knowledge and vision!

For all so Nature reminds of love to know of pleasure  
That is more than treasure one hoards till end of time!

Ramesh T A
Trojan Parasites!

Trojan horses are
The communist parties of India
But parasites are
The ramifications of Congress
Like the kids of pigs all over India!

Ramesh T A
Troubles Teach Us Who's Trustworthy And Who's Not!

Always swayed by the words of relatives, one commits in obligation;
But when one is in troubles, no relative comes forward for support;
Careful dealing has to done whoever one is, even if one is foe or pal;
Dragged into quagmire otherwise, one is cornered as in Chess sans moves!

Entire life then goes as making careful moves in Chess game forever;
Fools or foes, no one can be trusted, if we have to finish our tasks;
Good all will be as long as they enjoy feast at our expense anywhere;
However, when time comes for them to treat us, they rationalize all!

In this world of profit motive, the lenient will be the loser ever;
Joining hands with like-minded happens very rare, when we are in soup;
Killing the time in company with such a lot is beyond one's scope;
Losing interest to be so, it is better to leave them sooner the better!

Mastering the art of gullibility only, one can survive ever in tension;
No one can be believed for a few seconds to trust even for a small thing;
Over night itself what the guys and girls do behind us no one can guess;
Personal care is needed to watch all and deal, when responsibly is on us!

Quite unexpected, seeing our dilemma, some unknown ones help us by surprise;
Restoring all somehow to put an end to a dealing, herculean task is lessened;
Surely, it's happening by God's grace via some good hearted people, we believe;
Truth is that when one is in trouble, seeing our good nature, good ones help!

Ultimately it is only by our humanly treatment of all, we are saved sure;
Various men with various natures are beyond our scope to assess all well;
Way of the world only if know well, we can deal well and achieve all well!

X or Y though unknown, we will realize that they are reliable in troubles;
Yearnings of ours we can materialize not with known ones, but unknown ever;
Zeroing our concentration on sincere ones from start to end, we can do all!

Ramesh T A
True Beauty Kindles Love Natural!

Beauty attracts to love and enjoy it well
For sustaining life better than before...;
Beauty kindles cheerful mood by its attraction
Before love blooms in heart to enjoy life!

Natural beauty is openness and frankness of
Body, mind and heart that sways hearts forever;
Beauty builds up confidence and courage to
Deal all under the influence of its love sure!

Beauty moves all by its truthfulness to all;
Beauty is truth, natural and open ever to all
Unlike painted veil that fades soon revealing
The reality hidden for a brief time only ever!

Love kindled by beauty is true and binds all
By its fearless frank nature that unites all!

Ramesh T A
True Beauty Of Love!

Beauty is like the cover design of a book displayed
In the glass show case of a book shop in the market
To attract all kinds of people to buy it forthwith!

Mostly such books are provoking romance of lower
Order leading to lust but not love in the least;
But modest book reveals love by deep matter inside!

Both beauty and love in one is work of perfection
Whether it is by an author or the Supreme Creator,
Which we can understand only by experience in life!

True love of heart is revealed only in deep substance
Inside a classical book or book of romance with true
Love all cherish in heart and mind forever and ever!

Beauty of a person or book is not in dress or design,
But in true love that absorbs all sorts of people ever!

Ramesh T A
True Faith Only Can Lead To Right Destiny!

Blind faith on superstitious belief of God drives many nowhere;  
Without the knowledge of God, how can one realize and reach Him!  
Adishankara has asked this question to all who aspire for God;  
Ramanuja has said sans devotion one cannot mingle one with God!

It becomes a necessity for all to know the nature of God first;  
God exists everywhere as Universal spiritual energy activating all;  
Science says energy can neither be created nor destroyed forever;  
Matter is formed out of energy like the rocks and hills everywhere!

That's why flicker of flame comes by friction of two flint stones;  
Also, if a material is burnt, energy via fire escapes to Space...;  
Albert Einstein's equation, energy = matter and vice versa is true;  
Like fire in stone, God resides as soul within acting human body..!

God is existing everywhere activating everything everywhere and to  
Know this truth, man is created with heart, mind and soul to realize;  
Having faith based on this truth can help one to spiritually enjoy the  
Almighty's blessing and bliss to attain total liberation by nirvana!

Ramesh T A
True Independence Day

Sans sincerity, honesty and discipline
Freedom is nowhere to be found ever!
Corruption, malpractice and violence
Ever keep freedom at bay anywhere!

Birds enjoy freedom flying in open sky;
Fish enjoy freedom swimming in deep sea;
Lions and elephants wander as they wish;
Can we ever be free to do so...........at all?

If we are free as birds we enjoy freedom;
But are we really ablute to do so ever.....?
As Poet I have freedom of expression no one
Anywhere has as far as Poetry is concerned!

Man and woman should enjoy freedom ever
Free, frank and fearless as poets and birds are!
That day only the Independence day is true
And celebration of the day is joyful and real

Ramesh T A
True Realization!

All things we see, feel and believe to be real are illusion including Our body, life and world as they are all time bound ones like the Ephemeral rainbow like bubbles showing kaleidoscopic magic a while Only unlike the ever all activating spiritual energy within us!

The direct descendance of universal spiritual energy is the spiritual Energy within us which is making a sojourn in body to realize itself Of pain and pleasure, joy and sorrow, difficulty and comfort, anxiety And satisfaction, chaos and peace by our own feelings in world life!

This temporary state of human life is illusion and the ever lasting State of spirit is reality we have to realize to make ourselves free From all bondage we are willingly and unwillingly accepted being Hypnotized by the feelings of heart enjoying temporary pleasures!

Realization comes only when we see all things as they really are From above coming out of all circles of bondage in the world by Deep meditation and mystical communion with Nature in loneliness Willingly going away far from the madding crowd one day or other!

Ramesh T A
A great difference is there between sensuous desire and love ever in world live; 
Between these two many are caught in great confusion lingering on sans as end; 
Confusion of this nature can be cleared, only when one knows that love is 
changeless!

Desire is forever changing from time to time like monkey jumping from tree to 
tree; 
Engaged in this great controversy, many lose the love of others and waste life 
sure; 
Fair chance to win love is lost by sensuous desire at the cost of changeless love!

Greatness lies in following morality even in the satisfaction of sensuous desire! 
Human beings have emotional feelings needing to be fulfilled before life ends for 
one; 
Incomplete fulfilment in life makes one ever linger in longing even crossing such 
age!

Joy of satisfaction is more important then accruing wealth at the cost of enjoying 
life; 
Killing the wish of love, such persons pass on life only believing in sensuous 
desire; 
Love absorbs whole soul manifesting itself in intellectual pursuits and desire of 
heart!

Moved by love one sacrifices desire too to live in peace and satisfaction with all 
ever! 
None the less, love gives more satisfaction lasting than mere physical desire 
temporary; 
Option for satisfying sensuous desire has many chances in the course of romantic 
life!

Persons with loving heart have all things as they desire as they are trustworthy 
ever; 
Quite a great boon it is for a loving person as one's morality wins the hearts of 
many; 
Response for love is more favourable than one who merely longs and relies on 
sensuousness!

Strong animal magnetism, beauty and love in one help one do all romantically to
one's wish;
Trustworthiness due to morality and love is most important to achieve all in one's life sure;
Universal love of one makes one the favourite regardless of age ever anywhere in the world!

Various kinds of persons trust and do anything relying on one's discipline, morality and love;
World has such personalities rare in quantity as their quality is the desire of good ones ever;
X and Y may not be fulfilling the world standard, but they are unique despite that drawback!

Yearnings of sensuous desire too of a really loving soul never be unsuccessful in human society;
Zeal of all attracted to such one is ever readily waiting to fulfil one's desire if chance comes!

Ramesh T A
Truth Finally Saves The Good Sure!

Ability, capability and capacity decide one's superiority;
Best quality of one is not decided by class or caste or birth;
Class of one is decided by one's superiority, high mind, good heart;
Definitely it's not by vegetarianism or holy thread or conditions!

Everything one does reflects one's thoughts, expressions and deeds;
Full picture of one lies in right understanding, wisdom and love;
Greatness or victory in all races lie in one's poise and coolness;
Haughty, stubborn, vehement and adamant ways are animal and not human!

Iconic quality of one is due to popular view of one in unanimity;
Joy, satisfaction and peace are aim of everyone's life got by love;
Keeping oneself abreast of all ideas by intelligence one wins all;
Low mind, insulting behaviour, shamelessness irritate all anywhere!

Most people seeing this worst behaviour of one isolate or avid one;
No one will like to have any truck with self boasting blabbering one;
Openly such snobs are rejected, if they request for any support sure;
Power hungry insulting ones never get the sympathy at difficult time!

Quality of one is decided based on discipline, decency, culture ever;
Respect and honour are shown to one who has those aspects with self-respect;
Sadist of the first kind only behave insulting others to get joy;
Truly great never stoops low to get all benefits as the selfish ones!

Unity in thoughts, words and deeds is the mark of a man of integrity;
Veracity of one doesn't lie in verbosity but in acts of true talent; World surely recognizes the true and honest efforts, not tricks of one!

X, Y and Z may glitter but never become gold if adamant and brutish;
Years of good one's life efforts will never be a dark den ultimately;
Zeus of angels in the form of judge will decide in favour of true one!

Ramesh T A
Truth!

Lie triumphs fast
But to save the intimates
Truth comes late!

Ramesh T A
Truthfulness is like the hallmark of a gold!

Truthfulness gives freedom and peace to be fearless and bold
In thoughts, words and deeds and saves from troubles and crises
Unlike falsehood needing a lot of covers with negative thoughts
To escape from the suspicious eyes looking for culprits ever!

Truthfulness gives a free heart to mingle with one and all ever
sans any hesitation or veil to cover oneself of one's falsity;
Words of truth abiding personalities are bold and effective
And that no one can refute due to their justified facts all like!

Truthfulness in thoughts, words and deeds of one shows of one's
Integrity of character and broad nature no person of falsity can
Do any harm or sway by false promises to deceive and survive in
The darkness of hideouts to escape from law keeping citizens sure!

Truthfulness of one makes all rely on one whatever be the situation
And circumstance in life leading one to be the guardian and leader
Of any community or society to the level of governing a nation too,
If chance clicks on such a one by inevitable circumstances too sure!

Truthfulness is like a gold or diamond that never loses its value
Due to its noble nature and lasting value in the world forever sure
And is an asset to have such persons as friends or guardians or
Teachers or leaders to have a confident relationship of any kind ever!

Ramesh T A
Truthfulness Only Builds Confidence!

Truthfulness only kindles others to extend hand of love to one;
Truthfulness is the reliability of one to have good relationship;
Truthfulness is the qualification for trustworthiness of one
to be recognized as a friend to others in any friendship sure!

Truthfulness both in love and friendship strengthens bond between
Persons to have any team work of great importance to achieve well
Sans any doubt and hesitation to take strong actions to deal all
Matters obstructing the mission to go forward and finish in time!

Truthfulness, trustworthiness, reliability, loveliness and all
Make a human complete in nature to do anything in any walk of life
To the best of all concerned for the betterment and satisfaction
That are otherwise remain only as dreams waiting for luck to smile!

Truthfulness only builds confidence, courage and strenuousness in
The pursuit of goals to achieve great ambition for love and peace!

Ramesh T A
Turning Failures Into Successes By Diversion

Interesting!

All worries only make all as ill persons ever in the world sure;
Best way to have relaxation is by diversion in interesting things;
Cause of worries may be solvable and insolvable too needing peace;
Diversion to something entertaining and relaxing will show a way!

Every matter has both good and bad aspects leading to crises later;
Failures and successes alternate in the vicissitude of human society;
Good and bad happen in various stages of one's life in the world;
High or low one's status may be, but faith one shouldn't lose ever!

Inspiration by Nature gives cheerful mood like art to some in life;
Joint action in both work and entertainment brings a lot of benefits;
Keeping up good achievements, one can develop to higher level sure;
Like jobs done well, refreshments too one has to have by some means!

Much devotion to work makes one exhausted needing pleasure to relax;
No one is an island as all are social animals needing human warmth;
Options are many depending upon one's taste to enjoy pleasure after
Performing important and intricate work to achieve one's targets well!

Quite a few losing chance to enjoy in life, suffer later, when worn out;
Relaxation after service in enjoyment of pleasure relieves one of ills;
Several means are there to do that based on one's nature and interest;
Transition to higher bliss is by physical, intellectual, spiritual ways!

Union of heart, mind and soul in such ways brings fulfilment real in life;
Value of joy, peace and bliss one realizes so by successful experience..;
World full of woes and worries then turns into a paradise to enjoy bliss!

X and y unknown become well known, if one knows how to harness chances;
Years of efforts on life work will become success only by such ones ever;
Zeal of such one's youth never sees superannuation even after becoming so!

Ramesh T A
Turning Misfortunes Into Great Achievements!

Due to drawbacks, hurdles, lack of opportunities
And misfortune caused by fate in life, many lose
Heart and get funked down leading to addiction of
Intoxicating stuffs or drinks and so on in life!

Diversion from nightmares and haunting memories
Many know not how to have interest in art or Nature
That is very significant in the development and
Progress in world life by their inspiration for good!

Inspiration of Nature by the invisible Universal
Spiritual energy with makes one a great philosopher
Or Poet or scientist to give vent to their inner
Feelings, divert their skill in creative works for all!

Personal tragedy when diverted towards creative or
Inventive works can make great achievements giving
Solace, consolation and fulfilment in world life
Benefiting the whole humankind for the better sure!

Ramesh T A
Turning Of Denial Into Approval!

Denial of due share of river water to the tail end States, Custodian States of source of rivers and dams not only Block passage, but also breed long enmity to have grat Political domination over others forgetting brotherhood!

They are denying not only other States people but also Their own men working out in sharing their own river..; Political arrogance of haughty heart is being watched by Almighty allowing them chance for change of heart long!

Failing to realize that makes Almighty to invoke Nature To settle score by heaviest rains and over flowing floods That over flow all dams from the source to tail end places Making sad men and women in other States to feel joyful!

Man made denial Nature turns into limitless approval to put All hopeless ones in incredible joy to see dry course in floods!

Ramesh T A
Arms race make mad many nations to show themselves as great world powers!
Bad attitudes of nations build up tension among peace loving developing nations;

Ceaseless activities of enmity create unnecessary problems increasing burden to all;
Danger of violence seems to be endless on all corners of the world day and night!

Enmity based on sharing of resources has triggered balance of power game since long!
Faith in peace, love and friendship for the promotion of confidence building acts needs
Great efforts by all peace loving nations making use of UNO as the best way to solve all
Hard nut like problems to pave way for developments in various fields by cooperation!

In spite of peace talks many disputes remain unsolved for years together still...!
Joint efforts of all nations are needed to the common world problem of terrorism now;
Keeping dence building measures for the promotion of peace shouldn't be stopped;
Live fostering of friendship by friendly nations connected to vulnerable ones needs priority steps!

Multi-national cooperation and efforts not only in business but in cultural activities
Not only eases tension but also builds up confidence in solving long disputes better;
Options for cooperation and coordination should be open ever to promote free will for
Peace, prosperity and progress towards creating One World for long term benefits for all!

Quizz like insoluble matters too get a chance if cultural activities are quickened;
Results of positive nature will soon bring cheers to all concerned in the course of peace;
Survival, sustenance and success of humanity will surely see bright light soon on the path
That has been taken by all sincere, honest and dedicated peace makers of the world!

Universal brotherhood soon will give the sense of feeling of one world family sure!
Various kinds of differences of race, religion, region, colour, class, culture and all will go off
With the awakening of human goodwill among all when all get shares of each sans fail!

X or Y or Z of some outstanding balances of unsettled matters will be nullified;
Years of efforts in the right direction will turn chaos into beauty as poets do with words;
Zealous mood then will make peace and progress not a dream but a reality sure!

Ramesh T A
Two In One!

Two hearts can be made one only by love;
With the kisses of two pairs of lips like the
Ebb and flow of sea waves kissing shore
There is no end for it but only in love forever!

Kiss is the fuel that burns alive love of two
Always into one soul in two bodies lifelong!
No power can separate this inextricable one
Fused together forever to burn as fire sure...!

This fuel supplies energy for the love to burn
Bright not only all night but also all day long!
Without this fuel all days are nights and all
Nights are hell that only can keep alive love!

Kiss of love is bittersweet as life is food of all
Tastes that make one enjoy food forever sure!

Ramesh T A
Two Negatives Make A Positive!

To eliminate bad guys

It's like removing

The thorn struck to the foot

By needle as two

Negatives make a positive!

Ramesh T A
Two Sides Of A Coin Love Is!

Love of heart only a heart can understand in world life;
Knowing love between two hearts is one thing and making
It known between themselves is a long process in life!

Sound can be produced by clapping both hands hand together;
Otherwise, no noise can be possible to produce in the world;
So also, unless both say out of their love, it's useless!

Many a failure in love happens to be due to non declaration
With the available opportunity in hand immediately in life;
Otherwise, nothing can in the world help it possible sure!

Love needs quick decision to declare it at once in life;
Even if it is not feasible, at least a great tragedy can be
Thwarted at the bud itself and breathe a sigh of relief..!

Love is vital requirement in life to live a happy life, but,
If it is not suitable for one, that itself becomes a tragedy!

Ramesh T A
Two Sides Of A Coin!

Two Sides of A Coin!

There are places where splash of water turning into ice in seconds;
There are hot springs of water and fire spewing volcanoes also;
There are vast areas of desert sand and deep frozen areas of ice;
There are snow, fog, mist, forest, plains and water in the world!

More than six billion people are living in various climatic conditions;
Millions of years people are living on the Earth under one sky long;
Many species of living beings are still living side by side for long....;
Yet, there's love, peace and war among them on all bearing Earth!

Despite diversities of climate, geography, culture, etc., Earth is one;
Despite diversities of language, religion, colour, etc., world is one;
But seas, oceans and rivers are not separated by boundaries as
On lands of various continents of the same world under same sky!

Nature has created vegetation, species and all living beings on the Same Earth
under the same Sky, but what a difference among all!
It shows love and hate are two sides of the same coin like day and Night Earth
has like alternating current man has invented to run all!

Ramesh T A
Two Sides Of All In Nature!

New moon is full black moon ever;
Then it waxes into crescent moon;
Crescent moon waxes into full moon!

Crescent moon is a wonder among Stars;
Full moon is fantasy full of dreams;
All romantic dreams live in full moon!

Front moon waxes and wanes in all months;
Back moon is ever in dark unknown unseen;
For all, there are outer and inner sides!

Like two sides of a coin, moon has two sides;
All living beings too have two sides ever
Like Day and night of each day, we all know!

Bright and dark sides, hence, are common for
All matters and species in Nature everywhere!

Ramesh T A
Ultimate Reality!

All thoughts on vague matters lead nowhere;
Ideas centred to Almighty enlarges vision;
Out of vision pictures of divines are drawn
Lasting for hundreds of years enlightening all!

All personifications of Almighty inspire all
Coupled with faith based on truth atoning!
Exploration to know Almighty has no end
As it is an endless source of pursuit forever!

Visions and epic stories of great poets live
Eternally to enlarge the horizon of thoughts
Leading ever to blissful state to recover all
Lost hopes again to live better to do better!

Individual pursuits of the eternal power fill
Heart, mind and soul with zeal to go ahead
To unravel the mysteries of ages to know
Ultimate Reality and reach it in good stead!

Ramesh T A
Uncertain Life

My life goes on, often I feel, only by the will of God!
Nothing is in my control constrained by connections.
Even Computer works by electrons powered by electricity
Also serves not well on critical moments many a time!

Hard works, sincere efforts, intelligent planning also fail
To give hopeful results in the world of competition for all!
But miracle when least expected or hopeless times happens
Putting one and all in surprise joy by God's mystery moves!

The circus of matters in the Universe go by Laws of Nature;
Though they are all uncertain go on as to the Will of God.
Laws of Nature nobody can disobey as its the Will of God;
This discovery brings hope to all to have faith in God sure!

Only the God given gift when used at will gives sure hope;
For, there is no failure in selflessness to win hearts in poetry.

Ramesh T A
Uncertainty In Everything Everywhere!

Everything is going on under the atmosphere of tension now;  
Tension builds up by uncertainty in everything everywhere;  
No one can be sure of anything until all things are well;  
The world reels under fear psychosis of this or that sure!

Sincerity, honesty and faithfulness are lacking everywhere;  
Unless one is watchful of things going on, one will be in soup;  
This is how days are going on everyday means how life is one  
Has to imagine oneself and try to free oneself of all shackles!

The more one keeps oneself of from all bindings, the more one will  
Be free to breathe a sigh of relief from all entanglements to have  
Freedom to think better things and do better things in the world  
So as to gain joy and peace of mind to live a nice life again...!

Unless one frees oneself of all cobwebs, one has no clarity of  
Thoughts to do anything better to regains freedom and satisfaction  
In life in this world full of uncertainties in everything due to  
Lack of sincerity, honesty and truthfulness in everything everywhere!

Ramesh T A
Understanding Helps Well To Solve Problem!

Understanding the correct picture of the life of one
Makes it easy to know one's true nature and character;
Understanding one so, it is easy to make a correct
Move in dealing with one for any matter in the world!

Also, without understanding the correct picture of a
Situation, it is not possible to make a good approach
With relevant persons to say anything worthwhile to
Deal the situation with proper measures to solve matter!

from the dress, hair style, foot wear and other materials
It is possible by an experienced and correct imaginative
Power of one to understand one's problem and also, how
To tackle the problem to solve with apt measure damn sure!

By the proper detective power, it is possible to understand
One and the situation to solve difficult matter pretty well!

Ramesh T A
Undiminishng Secrets Of Sea!

There are many things hidden long under the sea -
Ancient cities, pyramids and treasures unfathomable!
Titanic ship and its glory still not diminishing and
Ships sunk in the World Wars and pirates thefts, etc.
Seem very interesting to read and know to muse
Ever long in our imagination and dreams with stories
We cannot forget along with the mysteries of mermaids
Still remaining to be unearthed from the oceans
All over the world around needing more exploration
Than we make or venture out in the Space to know
All about other planets similar or not to the Earth
Kindling everyone's curiosity to know more and more
Such things of great interest to all who want to know
All about our past culture, civilization and life style!

Ramesh T A
Unemployment After Education!

Even after a lot of developments, socio-economic condition of people has not changed;
Both prices and taxes have increased in various names unlike in other countries and
Money circulation is meagre as there is no savings keeping the condition of social life
Same as in the past sans any improvement or bringing any cheers to anyone forever!

Unemployment after education is in critical condition to youths yesterday and today!
Technological development at the cost of agriculture has not enhanced economic status
In the country with heaviest population ever making anything insufficient for the society
Pointing out the mistakes in planning and implementation of the government damn sure!

In the past, unemployed youths' grim life conditions were depicted even in movies like The Colour of Poverty Is Red, Shadows and Oasis in the Desert as they were doing even the jobs
Of cleaning the tables in the hotels, cooling the hot coffees in restaurants and doing the job of Barbers in the Saloons of big cities quite glaring to the eyes of all people in the society then...!

That was the pitiable condition of B.A., ., M.A. . students and that sort of condition
The present day Engineering students are undergoing in towns and villages of the country
Accepting to do 100 Days Job for Rs.100 per day under the National Mahatma Gandhi Rural Employment Scheme and also prepared to do even sweeping jobs anywhere, if available ever!

Ramesh T A
Unexpected Turns To New Route!

Blindly I sit browsing emails and read matters;  
No idea seems to strike me to venture on poem.  
Not knowing anything at first I start writing;  
But many a time worthwhile poems I have made!

Unexpectedly I find many comments for poems  
That are not actually satisfying my taste often!  
What I like is not at all even read by many...  
It has happened many a time and yet I go on  
Writing poems of my taste and sans any idea too!

Likewise I have written hundreds of poems  
And many of them are also branded as wise, etc.!  
The spring of poem from my heart has stopped  
And the little bit that oozes out sometimes has fun  
For many readers making me stupefied to write further!

Ramesh T A
Uniformity And Identity Of A Language!

Due to lack of link among people of one linguistic community, Development of that language literature never picks up anytime!

This happens due to vast difference between the language of the People of origin in the changed circumstance and the people who Have migrated from place to place for hundreds of years making The migrated people aliens in their own land of origin with entirely Different changes in the same language due to mixing of influential Languages all speak in different places of a nation in the due course Of time and travel quite peculiar in the history of an old language!

After hundreds of years, will it be possible to bring about uniformity And single identity to that old language by adapting words both Have to follow and a lipi both have to accept for public use forever?

To effect that change for the better and benefit of both peoples of that Language, they should have link with each other by communication And visit to their places in different parts of the nation so that literature Can develop in that language for sharing old heritage and changes by all!

Ramesh T A
Union Of Best Relationship!

Joy of union is unique in any relationship in the world
Whether it is in the relationship of insects, animals,
Humans and all living beings sure anywhere forever...

Union of friendship makes marvelous stride in research
Work, adventure in Space, team work in sports, scientific
Inventions, creative works of poetic anthologies, politics!

Union of like-minded persons do a lot of great works in
Any field such as science, philosophy, poetry, politics,
Arts and literature for the welfare of humankind ever...

But even in destructive works, union of persons of hard core
Criminals do ruthless destruction works in the world to the
Extent of creating fear psychosis threatening world peace!

Joy comes of doing things that brings peace and happiness to
All and the union of such relationships is best for humanity!

Ramesh T A
Unique Emotional Force!

Sensuous state of heart gets satiation
Meeting the suitable counterpart only
Whatever be the situation and also,
Whoever teases one or not in the day
Or night of natural surrounding nice
In the world life where romance ever
Builds up mood and longing for love
To bring joy, peace and satisfaction
Nothing else can bring by whatever
Means however hard any other means
May be tried or being tried forever as
There is no other emotional force can
Ever replace the unique emotion of
Love quite precious in human world!

Ramesh T A
Unique Experience!

Meeting of friends

In person knowing only on

Websites is wonderful!

Ramesh T A
Unique Friendship!

All five fellows have formed a friendship for fostering intellectual ability; 
Before completing our degree course, we five became friends; 
Continuously we met often to discuss all matters as philosophers; 
Doctorate research fellows only do like that though we were undergraduates!

Expanding our knowledge by intellectual talks we searched for the ultimate; 
Friendship of ours was a different kind from others and unique indeed; 
Great were the days when we indulged in our philosophic pursuits; 
Highly elated by our thoughts and ideas we decided to run a magazine too!

In all some fifteen to twenty months we went on that kind of adventure; 
Joy, fun and intellectual development combined together as in a dream; 
Kick starting each one's life work there after we could not do so ever; 
Learning and doing things of our own accord we improved and developed!

Most of the time we were work oriented and forgot all entertainments; 
Nothing seemed to be important except development in our jobs only; 
Organizations we belonged prospered by our work contributions sure; 
Peace, prosperity and progress were our motives by discipline, duty, dignity!

Quarrels we did not have, but we could not meet to revive our indulgence; 
Regularly we mused over religion, philosophy, literature, law and science; 
Seriously we gathered all information and had our own convictions; 
 Thoughts of clarity and perfection we attained to take bold actions in all!

Unique friendship of ours surely helped a lot to achieve what we wanted; 
Verily we all attained the status of intellectuals appreciated by others; 
We all five friends even today meet and be so as we were in the past!

X men like we are when we think about our natures and the way we do things; 
Years of our activities so have turned us into great and wise by experience; 
Zeroing to the core, we can say we are humans who have become whole!

Ramesh T A
Unique National Characters!

Which is better character among nations
Of emotional, reactionary and cold ones?
Indians react emotionally to a situation;
French react immediately and forget;
English react in a cold way to a situation.

Likewise other nations in another ways
React to a situation joyful or tragic in real life.
National characters are built on Nature, culture
That are typical and distinct with each other!
Their characteristics can be seen in sports,
Other activities of arts, culture and technology.

These traits cannot be compared and criticised
Based on the quality of each and everyone
For, they are all unique in their own ways!

Ramesh T A
Unique Natural Art!

Blue Sky of canvas painted with orange, grey clouds,
Spread wings of birds painted here and there nice,
Look majestic and beautiful as never before!

Summer rain have visited the town to make clean
The town to make it wonderful this evening, ah!
What a beauty the Sky look today of all ever!

Unique nature of Universe is an eternal wonder
Always studded with winking Stars all the night
Strewn as diamond jewels by Creator Supreme!

If anyone misses the chance to witness this picture
What can I say of them living so long in the world?
Never miss this unique beauty before end comes!

What are we gaining in this world by material pursuits
Always without bothering about this natural art unique?

Ramesh T A
Unique Talents Of Men In The World!

Born speakers speak on all forever on the dias;
Born singers sing songs forever on the stage;
But speakers can't sing and singers can't speak!

Journalists write on all matters in the newspaper;
Poets write poems on all subjects and publish them;
Journalists can't write poetry, but poets write news!

Speakers speak wonderfully but not write so well;
Writers write excellently but not speak well on stage;
Poets writing poetry never wish to be writers or speakers!

One can be best at only in what one is naturally interested;
And the best ones are appreciated as geniuses in their fields;
But there are also polyglots having ingenuity in various fields!

Whatever be one is, only the born geniuses perform art longer;
But other talented ones perform only as long as they have stuff!

Ramesh T A
Uniqueness Is Noted For One Of A Kind In The Art Of Any Field!

Uniqueness is common among artists, writers and leaders, Whose works seem to be one of its kind unlike others in Their respective fields quite different, eminent and high Due to originality of expression of ideas that impress all!

Especially poets are noted for uniqueness of literary Expressions that stand eminently apart from contemporaries; Genuine, original and impressively different ideas in such Works of individual style appeal to all and inspire much!

Matters may be new or usual ones, but their uniqueness in Expression always tops above the rut in the art or trade Capturing a special place in the hearts of fans and friends Who never fail to appreciate in words coming direct from heart!

Uniqueness is one of a kind in any work of art or poetry or trade That excels others in the same field among the contemporaries ever!

Ramesh T A
United We Achieve What All We Dream Sure!

Seeing many world wars, nobody likes any more such things
More horrible than hell happening in the world all love
To live in unity against all diversity across many nations
That are connected by seas and oceans around the globe!

The Sky with clouds in the day and Stars in the night is
A great wonder all love to see sans changed into greenhouse
By pollution and ice at the North and South Poles melt
Into water to increase sea levels to immerse world in it!

Natural resources with green plants everywhere all want
To see turning large deserts of the world so that all can
Enjoy rich harvest of crops of food, vegetable, fruits and
All colourful flowers with choicest fragrances all love!

All these things are not just the aspects of grand dream
But a reality all men can surely see happening, if we all
Realize that we are all brothers and sisters of One World
Family eschewing all differences as just passing clouds!

Ramesh T A
Unity Among persons Of Diverse Natures!

The things that had happened a few years ago looks
As if they have happened just recently, when all unite
After enmity was neutralized between persons ever!

Unity brings joy that has no limit, when all things
Have become a joint venture by different kinds of
People many not well aware of about their character!

Life saving measures were not known in the past,
But now it has become a sport for many new faces
And it has become a fashion to unite races together!

Due to such reasons, some rely on horoscope and finger
Print to detect persons in great troubles, but, such
Ventures are good for nothing in some great group...!

Unity that is formed in this way may not last as the
Group problems are like Ramayana and Mahabharata sure!

Ramesh T A
Unity And Love Purpose Of Functions And Festivals!

Celebrations for functions and festivals all witness ever;
What is the outcome of celebrations for various reasons?
Functions and festivals make get together feasible for all
To meet in one place at the same time anywhere in the world!

Functions give opportunity to see long ago seen friends and
Close relatives to renew contacts and also reconcile separated
Remembers of relative groups that would facilitate the fixing of
Association meetings and marriage alliances for girls and boys!

Festivals are for larger gathering of many people at the same
Time in one place to spend sometime for a change from regular
And usual chores making all feel monotonous to live life long
And for various better reasons and causes to build unity ever!

Unity among various personalities based on love and friendship
Certainly festivals strengthen building ties to foster sense of
Freedom, confidence and Courage against external threats affecting
Some sometime or other and boost up love, joy and peace among all!

Ramesh T A
Unity In Diversity By Festival Of Lights!

Celebration of festival of lights all community people enjoy
Like never before in thee history of India as far as festivals
Are concerned not only in one or two States but national wide!

Naturally this nation wide celebration unites all communities
Together making true the Indian culture is in unity in diversity
Whether they are Hindus or Christians or Muslims or Sikhs sure!

People in the South celebrate it as Lord Krishna's success, but
In the North, they celebrate it as the victory of Lord Rama and
Buddhists and Sikhs too on various grounds with other religions!

Whatever it is, triumph of light over darkness is natural phenomenon
That truth nobody can deny or refuse whatever be one's religion is
Whether it is in India or America or England or Europe or Australia!

Light of fire whether it is camp fire or Bon-fire, protects all from
Hardcore wild animals and bitter cold Winter darkness about yo come!

Ramesh T A
Unity In Diversity!

Unity in diversity is a great policy to follow
Whether it is society or nation or world sure!

A lot of languages, religions and cultures
Naturally has diversity very profound true!
Yet, unity in diversity in European Union
As well as in India makes life go on smooth!

This kind of unity based on coexistence sure
Can help much to promote peace in the world,
If this policy is being followed all over the world!

The philosophy supporting universal brotherhood
As in India, if followed in all nations of the world,
Mankind will soon realize the truth that world is
Just one family only without any doubt whatever
Be the religion or language or culture or class ever!

Ramesh T A
Unity Of Nations A Must!

Unity of nations is necessary to solve all world problems; Terrorism, climate change, poverty and disease need all Nations' cooperation and joint action based on friendship And developments by mutual give and take policy forever!

World is the common property of all nations of the world; All nations have share and responsibility to protect and Save the world from natural disaster, wars and destruction Of natural resources sans recycling them by all nations!

By such kind of cooperation and coordination only, the one And only world we are living in can be saved forever and Ever as living beings of all kinds of the world are unique and are impossible to see so in any other planet we all know!

The union of all nations is possible by the United Nations Organization needing to be strengthened for all matters sure!

Ramesh T A
Universal Love And Peace!

Harmonious human perfection is the aim of culture;
Culture is the love of, study of and pursuit of perfection;
Culture is the best way of life to live in this world of chaos!

Best thoughts, words and deeds are the way of life of culture;
Knowing such best things of the past and passing them on
To posterity is the duty of everyone culture is meant for ever!

Follower of human culture is a man of many books willing to
Know truth in all intellectually known Ultimate Reality ever
So as to proceed spiritually to become one with the Absolute..!

But man of one book is unwilling to learn new facts to know truth
Bound to dictate all others based on one's pet ideas only in vain
However powerful or wealthy in the world finally despite forceful!

Living in harmony with Nature enjoying best things of book, music,
Art, science and technology in harmony with humanity, Universal
Love and peace are feasible in the creation of best and beautiful thing

Ramesh T A
Universality Of Humanity!

One may live in America or India, Europe or Africa, 
Russia or Australia or anywhere in the human world, 
By one's good nature, truthfulness, sincerity and 
Honesty one belongs to humanity only forever sure!

Such good world human society is what we know as 
Humanity that runs the whole of the world nonstop 
By its continuous contribution of services for the 
Well being of all despite all differences in all!

Due to their goodness, truthfulness and sincerity, 
Despite their differences like colour, class, caste, 
Creed, race, region, religion, language, culture and 
Civilization, they all are in one world human society!

All of them as humanity represent one world human society 
Only forever, though their differences, races, nationalities 
And all are exploited by politicians as identity to block 
Their internationality, universality and unity to rule ever!

Ramesh T A
Unless Differences Nullified, Identities Are Needed!

Nation has many languages, traditions, cultures and religions; That all represent the identities of that communities forever.; Language has separate identity for each and every community..! Above all, script has separate identity for every language....!

If the scripts of languages seem to be the same, the identity Of language and community cannot be ascertained by any means; Separate script only can be useful to know the identity of each Language, if the name of the language is not mentioned forever!

Though there is same script for many languages in the world as In America, England and Europe, they are distinguished and also, Identified by the use of style of expression and words therein; Otherwise, it is not at all possible to identify which is which!

Unless all differences are made null and void by universal education With one language, culture and union of all religions and nations, Differences and need of identities for all cannot be nullified and Also, single script cannot be practised for all languages in the world!

Ramesh T A
Unlocking The Door To Paradise!

Many work hard and are sincere in all dealings,
Yet, they meet with failures in their ventures;
But some work not so hard and are careless in all,
Yet, success smiles in all their dealings ever..!

Why does God set fate of people so in the world?
Success and failure come to each and everyone at
Sometime of life and vice versa alternating ever;
But luck smiles, when unexpected and frowns, if not!

These all show that it is God who does all behind
Man's efforts in all activities in world life sure;
Unless God sanctions, nothing seems to be done well
However clever and careful one is in one's works..!

There is choice for everyone to select what one like;
But the selection of work should be according to one's
True nature and there God’s sanction helps one to do
All things satisfying the doer and the beneficiaries!

Some by fate never get works suitable to one ever;
Yet, they do with sincere efforts all possible things
Sans expecting any reward or satisfaction for sometime;
But they get time to mind their interest and succeed!

This too happens, if they never lose hope to fulfil
Their natural desire in the course of life in the time
Gaps now and then available showing the way to do
Their life work and shine great later by God's will!

Sans losing hope, if prayers to God are made, benefit
Will come to one in someway or other in the long journey
Of one's life, because one's desire and will of God are
Needed to coincide for unlocking the door to paradise!

Ramesh T A
Unpredictable Havoc Due To Climate Change!

Climate change due to pollution of environment everywhere, Seasons have changed leading to abnormal sorts of weather Conditions that cause heaviest rains, hottest days, storms, Earthquakes, tsunamis and all revealing wrath of Nature..!

Due to out burst of Nature in the forms of earthquakes, Tsunamis and heaviest rains, people are killed in mass and Properties of destroyed in countless proportions making All feat that the doom’s day is slowly but surely coming!

Especially this year 2018 has hottest Summer and Winter is Approaching with earthquakes, heaviest rains and typhoons with wind speeds ranging between 140 to 300 Km. usual and Abnormal in the West and East of our beloved Earth, wow..!

None can say what next will happen after these climatic Havocs that shake the Earth more than ever before in life!

Ramesh T A
Unreliability Of Reliable Persons!

We rely on information from reliable persons in life;
For, they are living in that place known to all ever;
We believe that they are aware of people of that area;
We take vital decision based on their knowledge sure!

We commit ourselves on a matter relying on them first;
If things go well, it would be well and good for all;
But, if anything goes wrong in the matter, we suffer
And seek the help of the persons we relied on for long!

It is learnt that external matters are well known to all;
But the internal matters of some won't come out in open;
That is where, we get into trouble and solve it our-self;
Then only we are aware of the unreliability of all persons!

Depending on reliable persons we cannot commit anything sure;
For, on certain matters, even reliable persons are unreliable!

Ramesh T A
Unsuitable Winter Climate Causes Change In Plan To Visit Places!

All round cold climate of winter brings in mist, fog and snow falls heavy;
Bright Sunlight is now out of focus everywhere making chillness felt well;
Completer darkness covers in the night and morning also never looks bright;
Dim views of people or vehicles now make all alert when going out anywhere!

Engulfing all in mist and fog, chill weather may continue for two months;
Full January after December till the middle of February chill wind lashes;
Great care all take while going out with woolen rugs in hand or on body;
High quantity of ozone three times on ordinary oxygen will keep health well!

Ice, ice-cream and cool drinks no one now seeks and opts for hot coffee;
Journey on hill stations is averted to avoid cold attack to freezing stage;
Keeping near fire-side is nothing unlike in the summer season all day long;
Long dark cold nights now make all feel day has disappeared replacing night!

Most of the darkness is dispelled only by bright electric lights everywhere;
Nothing can be done, if electricity fails in this dark situation damn sure;
Open door and windows can't be possible, even if it so happens wind closes all;
Perfect closure of doors and windows are now possible due to heavy wind long!

Quivering and shivering under this cold climate make all take hot beverages;
Restoring one's warm is the thing all try now and then to withstand chillness;
Storms too start now and then from distant seas travelling miles to reach shore;
The day when cyclone hits coastal areas, all vacate the place to avoid destruction!

Uncertainty of storms hitting the shores predicted also changes sometimes...;
Various ways climatic conditions changes causes great havoc unexpected often;
World now witnesses tremor due to tectonic plate movements triggering tsunamis!

X and Y unaware of these, visit such places in holidays only to meet with tragedies;
Yearly planning to visit some places that are not suitable has to be cancelled now;
Zeroing everyone's attention only on safety all have to plan and enjoy season better!
Until Fortune Smiles....!

Rains come and go everyday or not;
But hot days have not changed at all!
Money comes and we spend a lot ever
And so, everyday difficulties continue!

Prices are going up and down nonstop;
But the money we have is never enough!
Scarcity of water and money are the same
And so, we wait for rain and lottery victory!

No chance there is to become wealthy ever
Over night to settle all debts to be free sure!
Lottery victory or sale of property only can
Change the situation entirely trouble free!

Until fortune smiles at the right moment ever,
There is nothing one can be sure about in life!

Ramesh T A
Untying Knots!

Things to be done are crisscrossing
Making it difficult to arrange them
In order of execution before the start!

Unless everything is first visualized
Knowing which ones can be finished
Priority can't be given to them first...!

Works to be done at home and outside
Should not clash with our travel out
To attend to the dear one's shifting job!

Unless knowing the way to untie the
Knots that have complicated due to
Incapability prioritizing jobs is difficult!

Also, sometimes ideas occur in mind giving
Clue to untie the knot doing another work!

Ramesh T A
Ups And Downs In The Course Of Life!

We apparently visualize course of human life in the world;  
But the actual of life nobody knows how it will go and end;  
The apparent and actual visualization if doesn't differ much,  
Our predictions of life will come true in the course of life!

External activities of Self we have control over forever;  
But internal activities go on without our knowledge sure;  
That is where, Fate plays a vital role in the human life,  
That we can have control only by the grace of God sure!

We plan and do usual things in the course of human life;  
But Fate makes changes in the course contrary to our plan  
That we have to set-right by our knowledge and intelligence;  
However, it all depends upon the will of God forever sure!

That is why, our course of life has many ups and downs  
That we have to manage by our intelligence and knowledge!

Ramesh T A
Ups And Downs Of Life!

Life is going on continuously as the waves of ocean
Only on the Earth ever in a simple harmonic motion!
Ups and downs of life go on as a smooth hill and valley
And they also go on as a zig zag graph though not fair!
Like day and night, joy and sorrow, hot and cold,
Bitter and sweet, pain and pleasure, birth and death,
Life and death as two sides of a coin are common in life!
So also fate and fortune fluctuate in the Nature’s game
Wherein men, animals, plants, birds and fish are pawns
Destined to play their parts as hero, villain or comedian
Climbing ladders and falling bitten by snakes now and then
According to the roll of dice cast by the Creator till the end!
Knowing the game and accepting the reality are wiser for all
Than wooed away by pleasures instead of viewing to go home!

Ramesh T A
Use Of Knowledge And Money By Wisdom Leads To Progress!

Money power only can solve all problems of mankind;
Only by doing work, money can be earned in the world;
Education and training only can provide work for all;
Standard of life can be improved only by knowledge!

Knowledge and wisdom only help all to choose best ones
Out of the available things based on our needs and uses;
Careful planning and implementation help one achieve all
Objectives needed for managing life and work better ever!

Sans knowledge and wisdom money cannot be managed well;
Waste-less use of resources saves many expenses later;
Wise management of affairs ever makes one efficient...;
Expert handling of any situation comes of experience!

Knowledge, wisdom, money and work are useful ever to
Achieve ambition to peace, prosperity and progress..!

Ramesh T A
Useless To Worship Sun Becoming Blind!

Naturally beautiful persons make life happy to live in the world;  
But the gorgeously decorated ones deceive all to destroy relations!

Civilization of modern world recognizes all to be equal by law;  
But natural design of each one is unique for special purpose  
That cannot be altered or changed by any means ever to say;  
For, revolution quickens change, but Nature makes change real!

Not realizing this, some jump to quick conclusion believing equality;  
Good human relation gives security, safety and support to succeed in all;  
But the impatient ones to get benefit fast follow shortcut route to achieve  
Short term benefit closing the door for long term benefits forever!

Weaker vessels with immature mind indulge in frolicsome ventures  
Believing that they are equal in all respects fall in the drainage of life  
And suffer later on in endless troubles getting no relief by any means.  
But late realization will make one useless worshiping Sun becoming blind!

Ramesh T A
Utopia!

By liberty, equality, fraternity

Justice, education and job for all

Utopia can surely be created!

Ramesh T A
Utopian Speculation!

Both love and peace are everyone's dream!
But is it an easy joke to achieve here soon?

Both joy and peace are the aim of life for most!
But is it conducive as to the atmosphere now?

Both beauty and truth are joy in creative art!
But where is such an art existing at all now?

Both freedom and joy can be attained by love and truth!
But union of love and truth where is the guarantee?

Both justice and peace really can give bliss!
But will it be easily achievable as in Utopia?

Ramesh T A
Valentine Day!

Is love to be remembered only on Valentine's Day?
Life should be lead by love all round the year sure!

It's the sacrifice of St. Valentine has opened love life
For all lovers of the world to enjoy love and live well!

Otherwise religious diktats would be ruling all life
Ignoring the natural feeling of love divine forever!

From animal man is evolved by Nature so long
And love only keeps man as human being so far!

Everlasting love only can evolve on man into divine;
Otherwise where is human being in this world...?

Paradise of love is only earth in the whole Universe
And beyond which love is nowhere to be seen so far!

This lovely feeling love only makes all live in peace
And pull on the days as if we are all living in heaven!

Ramesh T A
Valentine's Day On Sunday!

Whether one adjusts oneself to others or not,
Whether one does as one wishes carrying none,
Maintaining peace of mind is out of reach for all!

Only love can bring peace and joy in the world!
Love of friends, dear ones and all make us live...;
Love of art, poetry and things we like give us joy!

Our survival in the world long or short goes on so
Bringing meaning to our life and a message to world
Even after we left the world for the other world sure!

Whether we are loved or not, our love of things like
Poetry, music, painting, Nature and God leaves the
Best side of us for the world to think and get benefit!

Love is doing the best things of our heart's desire ever
Forgetting ourselves in the common cause of the world!

Ramesh T A
Value And Significance Of Things!

Value of shading trees is better felt in Summer than in other seasons of the year!

It's all needs of our life decide about the significance of things in the world! Rain is another thing we wish for much unable to bear heat of Summer long, But shun it during the times of cyclone and foods causing havoc everywhere!

Technological developments expanding big urban areas shrink villages; Profitable crops are being cultivated in clearing rain forests everywhere That cause drought condition long eschewing most wanted rains in monsoons Making the need for sure cultivation of trees as much as possible everywhere!

Sans single life cell causing growth of green algae life could not have evolved From leaves, trees, species of animals to human beings like us still evolving Perhaps to divine beings after man has become superman by evolution further; But without trees, there is no shelter to birds, animals, man and also no rain.

Without trees, there won't be rain and without rain, there is no Water To irrigate fields to grow food crops to feed animals, birds and humans ever!

Ramesh T A
Value Of Certificate!

Certificates are not just ordinary newspaper to read and throw;  
Certificate is a document of identity of a personality forever!  
Degree certificates and achievement award certificates enhance  
The value and personality of a person with honour all respect!

Certificates from renowned universities of the world are indeed  
A special and unique honour the owner will have everywhere sure!  
Oxford, Cambridge and Harvard are world renowned institutions of  
Education that make a graduate a great personality in all nations!

It is the quality and value maintained by many years of care these  
Institutions take that adds special status to any of their graduates!  
Education makes one a complete personality capable of making great  
Achievements in various fields of one's undertakings in the world!

Mere certificate sans quality of education does not make one great;  
But one's achievement in some field only makes one great in the world!

Ramesh T A
Value Of Friendship!

In this world, all relationships are doubtful to keep on;
But only friendship of lasting friends goes on forever.
Friends of same feather meet once in a while, may be;
But their trustworthiness remains the same for long..!

To that kind of friends only can we confide our secrets,
The life problems we cannot speak to anybody else
And get wise ideas to rely on difficult situations ever.
This is the revelation I have got in my long friendship!

Exchange of ideas and suggestions are quite valuable
Indeed, when we are not in a position to decide on well
About certain tricky matters that remain as nightmare.
What a relief one can get, if trustworthy one is nearby!

Value of friendship is greater than all valuables in life
We give importance that we realize when in big crisis!

Ramesh T A
Value Of Kiss!

Only feelings of love kindle one to kiss one in life;
Such a one could have won the heart of another one
By one's character, personality, ideas and works good
With a sincere heart, mind and soul since long sure!

Kiss is a praise one offers in recognition of one's good
Nature and valour that has to be appreciated though no one
Seems to openly say it due to envy or fear of greatness that
Has not been approved by higher ones due to doubt long!

Kiss is natural feeling of one towards another one expressed
To recognize and encourage one for the real value of one
Not appreciated by others for various reasons in the world of
Competitions endless to reject some for other one's success!

There kiss of a good and great heart is more than gold and
Diamonds one can have as prize for recognition of one's value!

Ramesh T A
Values Of Virtues!

Difficulties, hardships and bad times in life give experience
To have knowledge about the values of virtues like love, truth,
Joy, courage, morality, honesty and so on in the world sure..!

In the absence of such a knowledge in life, virtue and power
Where does lie no one can ascertain to cherish them for going
Ever on the right track to meet one's destiny with joy and peace!

When values of great virtues are obliterated by false things in
the name of tradition and modernity giving importance to materials
At the cost of good virtues, one becomes a victim of fear at the end!

Not knowing the purpose of life, one loses health of heart, mind
And soul and tossed about by the force of fate one becomes dead
Man walking as if a mad soul seeking peace beyond one's reach ever!

Time wasted in vain glory of materialism and comforts, man's precious
Life is wasted on meaningless pursuits leading to hell in lieu of heaven!

Ramesh T A
Vasudev Family!

Friends of the same feather flocking together
Enjoy life thinking, speaking and doing things
Of their own interest and achieve laurels ever
As a team, if they are poets or artists sure..!

Transcending all barriers of religions, races,
Regions, nations, cultures and civilizations
The romantic friends search deep in all to see
Truth and create new philosophy of life for all!

Only romantic philosopher poets have researched
On many subjects for the development of humanity
Proposing measures for the development of peace by
Making moratorium for weapons of mass destruction!

Conventional world wars are over and now war is on
Terrorism, poverty, hunger and unemployment to make
All educated, well trained in agriculture, fine arts,
Industries, science and technology to be independent!

That way peace, freedom, liberty, equality, fraternity
And justice would the world constitution to rule all
Races of people as one humanity to live in One World
As is envisaged by Hinduism that says as Vasudev family!

Ramesh T A
Versions Of Love!

Versions of love
Are like avatars of God
Meaning only one!

Ramesh T A
Very Close Friends!

Distant friends are very closer in heart than nearer friends
by the magic of poetry uniting all as members of one family!
Performance of poetic art is magic only natural poets have
As great gift direct from God to maintain unity of mankind...!

Religion was the first encyclopaedia of mankind replaced by
Philosophy later only to be conquered forever by poetry sure!
Poetry is the only realm that accommodates all aspects of all
Subjects to give a full and wholesome feast to satisfy all ever!

Poetry is the only magical wand that can bring everything ever
Under one roof saying all of Self, world, Nature, Universe or God!
What else can do such a feat that can give fulfilment nothing can
Give in this world of uncertainty in all walks of life whatsoever...!

Poet friends are frank, fearless and bold saying about all matters
Quite an outspoken way than anybody else ever in the world sure!
Poets are the real friends no one can deny whether are alive or
Dead as their words in verses are immortal to inspire and guide all!

Ramesh T A
Victories, Failures And Achievements!

First victory in life makes one passionately joyful;
Second and third victories make one cheerful in life;
Many victories ever make one humble sans any passion!

First failure in life makes one passionately dejected;
Second and third failures make one feel usual in life;
Many failures one after the other make one effectless!

Victory and failure one after the other make one balanced;
Mixed victories and failures make one take them factually;
many mixed victories and failures make one used to them!

Victories and failures are common in human life for all;
Victories and failures make one take them in sportive way;
Victories or failures are nil but achievement makes one great!

Great achievements only make one joyful and proud in life;
Doing things of great achievement makes one really super ever!

Ramesh T A
Victory For Love Ever!

Valentine's day celebration is especially for young lovers,
Who will marry soon after understanding each other well!
Other days are for love too for all to all forever in the world!

Only a day cannot be fixed for love to celebrate and forget;
Love is for lifelong to practise so that all can be happy ever;
For, happiness and peace are vital for life to live in the world!

Where there is love, there all life's things will be there to enjoy
Life better than whatever wealth and power one has in the world
As they are all nothing before the eternal power of love sure...!

In this world with love only all can get all for life to live well sure
With friendship and other relationships going on smooth ground
Or smooth river gently going on to have final destination with sea!

Valentine’s day is celebration of victory for love in the world ever
Whatever be the crises or wars perplexing all in all walks of life!

Ramesh T A
Victory For The Well Versed Only!

For the novice others' achievements looks to be a troll ever;
But for the well seasoned ones they are remarkable ones!
Words uttered once cannot be taken back by anyone sure;
Hence it is better look before you leap whatever be the say!

Some always appreciate others as incentive or encouragement
Making the tired and hopeless too achieve something great
Surprising all who haven't thought so about them earlier then;
But in reality it is the truth we are all witnessing in the world!

Efforts of longtime with sincere nature never can be a failure
And that only the experienced ones know and wish well sure
With whole heart for good things to flourish and guide all ever
Making the world a better place to live among nice guys long!

Improving oneself in creativity and helping all to achieve so,
The best ones shine with flying colours ever in any field sure!

Ramesh T A
Virtue Versus Vice!

About peace, friendship, love, mercy and honesty religion and politics say;
But are those virtues practically promoted by all working under them ever?
Care is not taken to implement that in real social life of the world sure!

Dangers engulfing human world are due to lack of implementation of virtues;
Everything and everyone are undergoing a lot of threats due to that sure;
Foolishness and funny ideas are followed but not good and noble virtues!

Good people and bad people are always on opposite camps resulting in
High tension prevailing in all walks of life day and night in the world
Indecisively dragging all issues of social importance in turbulent waters!

Joint action by all seeking peace and harmony in society is effect-less to
Keep all involved to change the bad situation to better status in the world
Lacking strong will and courage to take bold steps to make that a success!

Movies, magazines, TV and computer internet services indulge in pornography;
Nothing good towards promoting healthy mind and heart to live better life is
Openly informed supporting only negative virtues to spoil society forever!

Perpetrated by pornography and unhealthy negative aspects of life world goes
Quite abnormally in all aspects of world affairs making convenient for all
Retardation in lieu of progress for the downfall of mankind to deep abyss!

Saturation point of all hellish activities surely will come soon it seems;
That will be world's doom's day to make former paradise a dream story in the
Universe by the sheer foolish nature of man who prides oneself as supreme..!

Vices instead of virtues cannot be the easy route to make world a paradise;
Worthy causes if relinquished to negative ones of world, will make it hell;
X and Y are not experts who can bring heaven to Earth by vices ever sure!

Yearnings of good, loving ones when realization dawns to all, will happen;
Zero minded negative hearts will realize soon knowledge is virtue and power!

Ramesh T A
Vision Divine!

Rainbow colours of illumination as halo of deities
Really produce vision divine to cherish in memory
To have confidence on our way to destiny we love,
When all see divine chariots going by the street
Everyday till the birthday of deity comes after
One month making all engulfed in divine trance,
A traditional culture quite classical in nature ever
Being followed from time immemorial in towns
Where temples and festivals are very famous
Engaging all devotees indulge in divine service
Leaving all personal and official duties in this
Grand social service in which all like to participate
To get the feel of divine love being overwhelming
Against all odds all face everyday till the end of year!

Ramesh T A
Vive La France!

With echoing effect colourful bon-fires were burning
To celebrate National Day of France in Pondicherry
That kept the crowd in the beach spell bound for long!

The erstwhile colony of France is this French town
Full of European architectural beauty and green park
People like to enjoy by cosmopolitan culture forever!

Most civilised country in the world France preached
Democracy by the famous slogans of Rousseau like
Liberty, Equality and Fraternity India cherishes most!

Bon ami of French culture and international brotherhood
Of India keep both the countries natural friends forever
Flourishing humanism as an example to all world nations!

Vive la France French nationals along with Indians say
To strength the bond between two bon ami forever and ever!

Ramesh T A
Volcanic Human Feeling!

Deep emotion is just like latent heat apparently unknown;
But actually, it explodes like a volcano, when triggered by
An explosive incident or experience touching heart much!

After giving vent to one's feeling, normalcy comes to one;
By our control due to education and training goes to nil
Effect, when natural expression comes to the forefront sure!

Unless the volcano explodes, the inside pressure brewing
Like beer in the cellars has no way out to release the built
Up steam like emotion inside our heart if we are true humans!

Best thing is to speak out the feeling one has with someone
Who can be a good confident so that the relief one gets so
Surely transforms one better to tackle other matters as usual!

Our emotional feelings unless satisfied, it will function as
Great nightmare making one an uncontrollable elephant in anger!

Ramesh T A
Waiting For A Golden Yellow Crescent Moon!

I went to the balcony to see the crescent moon
I saw yesterday glowing in golden yellow hue..!
But the sunset has just now completed in the west
With the whole sky clear for the night to see moon!

So, I feel I can wait some more time to see the
Golden yellow crescent moon tonight with my dear
Grand daughter who also loves to see the moon since
She was one year old and calls me to show the moon!

Now, she is two years old and talks a lot with
Many words flowing freely from her mouth everyday;
Also, she loves blue colour in all things she has
With clear ideas to express her thoughts forever!

For all in the world, moon is a great boon to see
It growing everyday as the child grows to be like us!

Ramesh T A
Wake Up Please!

Nothing in mind people rush to beach fast
Doing things mechanically in material world!
What relief do they get God only knows....
But rush is there more than before in all days!

Whether they love to live in harmony with Nature
Or live usual mechanical life in the material world
Their heart pushes them to the bosom of Nature
Like the children rush to mother doing menaces!

Seeing all things of man Nature too remains silent;
But warns mankind of its destructive pursuits too
By triggering earthquakes and storms now and then!
Even then they never realize Earth's days are counted!

Days go on unnoticed whatever happens everyday....;
Will man wake up to the warnings of Nature before late?

Ramesh T A
War And Peace: Two Sidea Of A Coin!

Insatiable jealousy leads to competition;  
Cut throat competition leads to real war;  
Victory by war develops domination;  
Dictator and slaves are contrary to society!  
Materialistic selfishness begins races endless;  
Zeal for victory always never helps maturity;  
Knowledge without wisdom destroys all!  
Love, beauty and goodness start from heart;  
Imagination is more important than intelligence;  
Cooperation is more important then competition;  
Without these competition and violence rule all!  
Denial leads to extremism and terrorism sooner;  
Result will be eternal wars between rivals endless  
And war and peace will be two sides of a coin then!

Ramesh T A
War Of Water Problem!

Water is the basic necessity of all living beings;
Playing with water is playing with others lives
That no one can tolerate long sans a fight ever!

That's why there is a fight at the street corner tap
Among common people everyday without fail sure
Needing a mediator to settle matter then and there!

Taking advantage of this, some clever politicians
Play politics to win votes from the common people;
After coming to power, no one cares the people ever!

The fight at the street tap continues forever among all;
Not only in the street but also at homes the problem is
Ever there as burning problem leading to partitions...!

Not only at homes but also among states of nation and
Also among nations water sharing problem leads to war!

Ramesh T A
Wars And Peace Among Nations!

There is a vast difference between the history of the past and present; History of the past was full of conspiracies, murders, wars and enmities; History of the present is full of wars and only proxy wars sans an end!

Peace talks are there, but again wars to take revenge still continue; Between communism and capitalism and between terrorism and modernism There are many wars to be waged to bring world peace at last one day!

UNO is there, yet, wars are there in-between some peace talks between Nations of the world believing that with sophisticated weapons of war If tried, they believe, there will be chances to make a dent in enemy camps!

Between two religious countries and between developed and developing ones Many wars remain in pending only to be continued at anytime anywhere in The world with many countries still hoping for peace to prevail everywhere!

War and peace are not coming one after the other like day and night ever; But wars for wars are ever ready for peace to come finally everywhere now!

Ramesh T A
Wars Continue Still!

Union of two hearts reinforces love after long gap;
Lasting love waits many years in isolation for union;
Ulysses and Penelope of Iliad are great lovers too!

Retired after war soldiers of yore spend in grief
Losing friends, loves and all known faces of humour
Just to pass on time in booze many a time in life!

Wars leave many scars unchanged for eternity!
For the sake of peace they have fought endless wars;
Their sacrifices no one understands much later in life!

Some have become addict of liquors and lose life........;
Some become mad left in isolation long sans any respite;
Some have become poets to pour out their hearts to all!

Wars of the world have changed life style everywhere;
But wars are still going on for the sake of justice endless!

Ramesh T A
Waste Of Time!

More than working waiting takes a lot of time!
More than celebration preparation takes a lot of time!
More than doing examination waiting for result takes a lot of time!

More than actual living waiting for all takes a lot of time!
More than enjoying life making arrangements takes a lot of time!
More than loving waiting for the lover takes a lot of time!

More than meeting all family guys waiting for it takes a lot of time!
More than enjoying fruits of labour labour itself takes a lot of time!
More than spending wealth saving wealth itself takes a lot of time!

More than enjoying peace living in worries itself takes a lot of time!
More than enjoying happiness life spent on hardships takes a lot time!
More than living free in life living in fear itself takes a lot of time!

More than living dying itself we take a lot of time in life!
More than enjoying freedom living under pressure a lot of time is wasted!

Ramesh T A
Waste Or Wise?

Waste or wise
I am writing on verses nice
On Nature, life, love, beauty, joy...
Whether I get any money or not
But appreciation and name are ever there!

Ramesh T A
Way Of Life Towards Freedom!

Life of emotion is sentimental, passionate and down to earth type; For them, life is simply eating, working and loving as regular one; They never keep within anything but say all to make themselves free!

Life of intellect finds satisfaction in exploring truth of all matters Like a sieve that separates the good from the wasteful things for use And that gives a sense of fulfilment in all their activities in life!

Life of spirit lies in mystical satisfaction in harmony with divinity One feels in Nature, When all things seem to be out of joint for long And finds satisfaction arriving at ideas of wisdom to move on with well!

Simple way of living is led with the barest necessities, with the self Contented heart to do better things in life and finding great fulfilment And satisfaction that bring real joy and free way of dealings in all...!

Living life according to one's nature or temperament only gives real joy And satisfaction with the feeling of real freedom and liberation ever...!

Ramesh T A
Way Out For World Peace!

Old religious ideas sans reforms can't be imposed on anyone
And old religious way of life can't be forced on all to live now!
World union can't be made by old religious imposition by force!

Perpetrating violence in a cowardice way can't achieve anything;
Only shadow wars can be enacted without fulfilling any objective;
Violence by fanatics may help to give vent to false pent up feeling!

In no way that can be a wise move to solve insoluble desire of some
Wayward, good for nothing and failed fellows in any work and life
To compensate for their great mistake and failure from childhood on!

Asylum or refuge for incorrigibles can't be a worthless, obsolete creed
That may lure them to be in for getting monetary benefit at their cost
And the promise of false liberation in heaven for sins can't be real ever!

United efforts by right thinking and forward looking world people
Surely pave the way for rooting out complete the wrongs of fanatics!

Ramesh T A
Way To Control And Satisfy Desire!

Problem of desire in life can be solved by satisfying or controlling it; Control over desire cannot be reliable as presence of mind fails sometimes; Satisfaction of desire can be settled by engaging heart with such matters; But unless heart desire is satisfied more than its demand, there's no end!

If desire is diverted to long creative activity, there's fun and enjoyment One can have without time being not enough everyday to free oneself of it; Such an engagement of heart desire in things of great interest will make One have an interesting time ever to explore many things to one's surprise!

Desire not satisfied so will certainly lead one to restlessness and a sense Of uneasiness needing something that can divert one's attention on some other Form of diversion quite new and engaging mind to have deep thoughts so as to Have a new kind of curiosity to fulfil in things of deep exploration long...!

A sort of philosophical journey of life certainly provides one with knowledge And wisdom that reveals significance of things permanent and temporary in life; The clarity got out of such a venture can help one conquer desire forever and Can show one a way to intellectual maturity and deep desire in spiritual venture!

Ramesh T A
Way To Enjoy Nirvana State Of Freedom And Bliss!

Passionate attachments to things and men makes one suffer pain ever; Whole world looks to be a great ocean of woes impossible to cross over; But relinquishing all attachments makes one feel free and joyful sure; One becomes like high flying bird full of freedom and bliss to enjoy!

Relinquishing all attachments, entanglements, bindings, properties, Ornaments, attires, pride, prejudice, fear, lust, hatred, jealousy And all is actually a real state of nirvana that takes one to the State of freedom of heart, mind and soul to enjoy divine bliss ever!

Desire of love in such a nirvana state only one creates masterpieces In art, literature, music, science and philosophy in mystical communion With Nature to feel this world is a paradise of heaven to enjoy eternal Divine bliss full of beauty and truth ever lasting with zealous mood..!

Such a situation of freedom of mind, heart and soul all dream and long Forever and ever not knowing that it is within reach of all, if only All shed all their attachments over things and people ephemeral in nature And have spiritual interest in all shedding off ego and pride complete!

Ramesh T A
Way To Get Total Liberation!

Nothing finally comes with one after death
Except one's sin and virtue one has earned;
Weighing sin and virtue, which one is more
Decides the karma of next birth of one sure!

Accordingly, many births one has to live to
Do the duties connected with the births ever;
After one has attained nil balance between
Sin and virtue, one is gets no birth status!

No birth status is Moksha all souls are striving
By up-gradation process of eliminating sins by
Correction of mistakes committed earlier by
Suitable redemption of duties in each birth sure!

By this kind of promotion of soul from each and
Every birth, one gets total liberation or Moksha!

Ramesh T A
Way To Make Progress Possible!

Days are going faster than we know usually;
What we have done at the end of the day is
What have to see to decide about our moves
Next so as to make progress possible for sure!

Drop by drop only bucket is filled with water
As we all know only small drops make a big
Flood during the rainy season which is a very
Usual incidence during Summer rain time sure!

Each day, at least a least effort should be taken
In the right direction on our occupation so that
In the long run it will become a most relevant
Step taken earlier to make the project worthy!

Everything has a beginning, middle and end
And that is the way for all project to complete!

Ramesh T A
Way To Realize Dreams!

Beauty and love touch heart kindling desire
And desire creates dreams day and night...!
Unless dreams are fulfilled they never stop.
And so, man lives two lives in this world -
One for his life and one for his dream ever!

To fulfil his dream he pays a heavy price...
Just to get the satisfaction he longs for ever!
It is not just enough you have dream in life,
You should also have a vision based on facts,
Facts based on truth leading to knowledge!

Yes, knowledge is power for man in the world!
With full knowledge if you have a whole vision,
You will know the means to achieve your dream,
Which is worthy of you based on qualification...!
Unless one is qualified your dream is greedy one!

To realize your dream be qualified with knowledge;
Have a vision based on complete knowledge you have;
Afterwards fix an ambition suitable to your nature
And that will pave the way for achieving your goals
Leading to realization of your dream by ideas great!

Ramesh T A
Way To Slove Problems Of The World!

Apart from poverty and unemployment problems
Pollution and terrorism are the big threats to world!
All these things are somehow seem to be connected
To corruption, maladministration of govts. of nations!

Due to corruption, climate change has occurred now
Triggering droughts in Summer times and storms
And cyclones with floods in Winter times of the world
Putting everyone's life and property in danger ever!

Due to cold war for forty years between US and Russia,
Terrorist groups of the world have taken root strongly;
After the cold war, wars in the Middle East countries
Have fanned world economic recession, world terrorism!

Due to those factors, world poverty and unemployment
Have taken a formidable proportion needing the aid of
UNO to solve them collectively by making reforms in the
Style of functioning of United Nations Organization.....!

Perhaps only by reforms UNO can provide education,
Encourage democratization, Bring together all nations
Under one roof to influence developments in industry,
Fishing and agricultural fields so as to create job facilities!

Ramesh T A
We All Can Love All!

Love of open heart is open book to browse on anywhere
As there is nothing to hide like one in nirvana state!
All conventions and man made taboos have driven to a
Place, where love seems to hide like fruits in leaves!

natural beauty is real and naked for the eyes to see
And enjoy as Adam and Eve lived in love in paradise!
With man made differences, love has become rare and
Precious gold or diamond to be kept in a secret safe!

We have lost the touch to love with open heart ever;
All now long for love and peace preaching that ever
Not able to rely on others to show it with open heart
And live life of freedom, joy and satisfaction sure!

Freedom depends on open love with nothing to hide ever;
When we have such a state of life, we all can love all!

Ramesh T A
We All Live In One World Ever!

A blanket of grey cloud has engulfed the sky over town; Sounds of thunder are being heard coming from somewhere; Is it distant sound of doom's day somewhere in the world? What a world we live in with joy and sorrow juxtaposed!

In some places, bright sunshine and blue sky beauty world; In some other places, cyclone and earthquake shake world; In other places, mild rains and sunshine come and go here; All these happen in the same one world we all live in ever!

It is like poverty and richness juxtaposed in the same world; Suffering people and white collared people live side by side; Both the opposites of life and work are two sides of same coin; If we have heart of love, we can balance all with give and take!

Storms and rains come and go, but we have to live in the same One world whether we suffer or enjoy here forever with all...! But adjustment, we can make this one world a heaven to live And also, paradise to enjoy love with all forever and ever sure!

Ramesh T A
We All Sit On Hot Bed!

Many are unaware of the precarious status of our Earth;  
We are not sure of where the next Earthquake will occur;  
Most of the Earthquakes occur in Pacific ocean regions  
Such as Indonesia, New Zealand, Japan and South America!

People in other parts of the world are safe and unaware of  
Such happenings and mind their business as usual everyday!  
That is the big irony of fate playing on the lives of men in  
The world each and every day we are conscious of it or not!

This is a very strange phenomenon of Earth all should be  
Conscious of through media and newspapers ever to find the  
Means to protect men and women from such kind of real danger  
Everyone may face one day or other sans fail in our life time!

We all sit on hot bed and feel comforted by technological  
Facilities like AC, TV, Smart phone and video games in them!  
We forget all things of Nature and life matters around us  
And also, are not having any programme to solve such dangers!

Ramesh T A
We Are Part And Parcel Of Nature!

The joyful time we have spent in Nature remains fresh ever in mind; Flowers, children's park, long green lawn and the water spraying fountains Bring us back those delightful times we have spent with our dear ones there And many other memories give us the cheerful mood we long for later! Such kind of joy nowhere we can dream about in our world life though we Have embraced all comforts of civilization with technologies of the modern world;

For, scientific and impermanent things we are artificial ones only and can Never be the real and natural ones that last forever unlike the ice that melts! However intelligent and skillful in implementing ideas of advanced knowledge, We cannot change our nature to be some other being even by scientific marvel As we are all part and parcel of Nature and evolved only from Nature eternal Left still in the process of natural evolution which only can modify our Self! The revolutionary changes we make are not the permanent and real ones ever, But only the natural evolutionary changes only can really change us to new state!

Ramesh T A
We Can Achieve World Peace!

Of lawlessness, ruthless suicide bombing, sniper killing, Kidnapping and killing of hostages are usual news now! Justice has no place now in the society being threatened By obsolete, obscure creed and cult followers of a few...!

A large population of the world is threatened by a few Blind followers of inhuman dictum of some fanatical And death wishing religious ideologies of the world....; Which can be in any moment eliminated, if all will for it!

People are terrorized by a few out-of-the-world minded.... Culprits disturbing all progress and developmental activities Needing to be realized by all and be aware of those useless, Nonsensical fanatics for taking united action against them!

When a few good for nothing fellows are so bold in indulging In antisocial activities fetching no benefit to anyone in the world, Why can't a large section of the world people be bold and take a Suitable action against them to bring peace to the world soon...!

Ramesh T A
We Can Go Only On The Track!

With careful management of resource in time
Difficult situation is overcome by clever moves!
But how long can this tactics be continued.....?

Believing God we proceed with good intention;
Many times we have surmounted pit falls.....!
But fear of misfortune haunts when tension builds
While managing critical situation to complete work!

What a life we have to live doing this gimmick...!
Will life be full of such bumpy terrains only ever....?
Nothing can be relinquished to rest in peace.....!

Expressing such things here one may get relief
Now and then by the grace of poetry we love....!
But nothing moves without the grace of Almighty!
Friends! We all after all go on the path He shows!

Ramesh T A
We Know Nothing!

When everything goes beyond limit
And out of control, what can be done?
Nothing seems to be in our hands to
Direct and do things as per our wish!

We are all just puppets on a string
Playing our roles when screen opens!
We don’t know the story and where
All will lead to sans knowing game!

As long as we play the possible game
We are in the arena pleasing spectators!
Our existence depends upon their good
Applause we receive so as to be there ever!

When end will come, we know not and when
Our game will come to an end we know not!

Ramesh T A
Weavers Of Words!

Whole day without electric power
One is helpless to do many jobs
Till the evening sets in for rest!

All busy things to be done first
Before one sits to muse in poetry
Reading poems of grandeur here!

Romantic love, Spring smell and
Bouquet of greetings for lovers -
About all amass in one day’s write!

It is suffocating pressed by so many
At the same time in one day’s work
Wonderfully performed by scribes!

Weavers of words in music are hilarious
Poets born to amuse and elate all at once!

Ramesh T A
Weird Happenings Of The World!

Variation in magnetic field of Earth sucks in seas
And oceans planes and ships without any trace of
Debris being found in Bermuda Triangle in Atlantic
And also in Pacific ocean near South China sea...!

This happening is well known to everyone in the world;
But recent disappearances of planes from Malaysia and
Also, now from Indonesia into the sea create panic and
Sad situation to many not able to locate anything there!

Black-box of disappeared planes in seas are not yet found
Out, as plane, people and materials are yet to be located
By expertise in the line making use of air force of the
Nations concerned and the world is waiting and watching!

Such bizarre happenings besides earthquakes, tsunamis and
Typhoons along with volcanic eruptions now and then in
Some countries of the world are putting one and all ever
In nightmares all over the world and our life goes on here!

Ramesh T A
Welcome Rain!

Steady rain fall has lashed out all the night;
In the morning, sky is clearing of all clouds;
Yet, again clouds are coming as an army...!

If not now, when can rain fall for this year?
This is the view all have, though rain is hell,
When it falls nonstop for some days, all feel!

Without clouds, rain cannot come and soil
Also cannot think of growing plants ever
And surplus of food products won't be seen!

Without rain, growth of plants and sunshine,
Life in the world won't enjoy fun and joy even
If festivals come and go all round the year...!

In toto, sans rain, life is weak and enervated; and
So, let us welcome rain to fall as long as possible!

Ramesh T A
Welcomes!

I am overwhelmed

By welcomes of dear ones

Know not response

To satisfy adequately ever

But love sustains so longer!

Ramesh T A
Weltanschauung!

Intellectual construction  
Of anything to a significant conclusion  
Is weltanschauung!

Ramesh T A
Wet Body!

In the sultry evening
Though the breeze is strong
Walking wets body!

Ramesh T A
What A Change!

A cheeky lady

With smiling face

And bright eyes

Changed her posture!

Now she looks

Sad with face

Reclining on hand

And brooding much!

What does it mean?

Can you guess?

Ramesh T A
What A Contrast Of Human Characters!

Best of and worst of human characters I have seen in my life;
Best of humans always say truth, show love to all and believe all;
But worst of characters live sans shame, respect and conscience!

What a contrast of characters god has created to live in the world
Making enemies and friends as human to move hand in hand in life!
But are we swans to suck milk only from a cup of milk and water..?

Good ones suffer ever and give all goods to all sure for love;
Bad ones enjoy ever and pluck away all wealth from others in greed;
But good or bad, no one is going to carry all with one at the end!

The patient and all bearing heart only ever remains with one sure;
The impatient and all throwing ones never remain steady in one place;
But one standing against storm and giving company in love comes together!

Born of good parents, lover of family life only live together with one;
But characterless family persons ever look for separation with valuables!

Ramesh T A
What A Creation!

Scenes of Nature are always beautiful
And inspiring when one is out of mood!
Even in paintings Nature is wonderful,
If the artist is a virtuoso in painting it...!

Green pasture, colour flowers and fruits
With a brook or river running along it
Surely captures heart and takes one to
Heaven one can enjoy forever in life....!

Habitation on such a natural location is
Indeed a lovely place to live and muse
So as to write thousand poems on Nature
Sans any sense of boredom by all means!

What a creation of God Nature is indeed
And sans Nature man will be mad ever!

Ramesh T A
What A Difference In Climate!

Climatic difference between plains and hills
Is simply fantastic to feel on journeys around!
In the plains it is sweating in the summer time
But it is very cool and beautiful at the hills up!

It's like the difference between water and ice water,
Hot room and air conditioned room in our homes!
Just a few degrees difference makes a sea change
And makes life activities very trying everyday!

Sweating is good for health but nobody wants
For a longtime so in the summer time everywhere!
So, people have become addicted to AC facility
And everybody longs to have AC arrangements ever!

In hot countries this is the story but in the cold countries...
The story is entirely different as they long for blue Sky and Sun!

Ramesh T A
What A Joyful Enjoyment Of Love!

Beauty kindles goose-bump and love blooms between hearts;
Union of lovers so opens the course of romance to paradise;
Heavenly joy and pleasure never stops then in world life!

Beauty and love one enjoys in a never ending way long sure;
What a pleasure, joy, satisfaction and peace one encounters
And loses oneself in the fantasy of bliss quite divine ever!

Nature with beautiful birds with joyful music fly and nice
Peacocks dance with with spread wings of feather colourful
Inspiring joyful pleasure to have whole union in ageless way!

Time and space disappear with the enchanted lovers in the
Unique enjoyment of love and pleasure as if floating in the
Dream world of ecstasy entertained by dancing beauties top!

What a life of joy and enjoyment till the end of time in the
World that all never care Nature, beauty and love senseless!

Ramesh T A
What A Joyful November Morning!

Morning Sun slowly peeps through window of clouds
After a down pour of clean rain steady and slowly
And the trees full of green leaves drenched in rain!

Movements of vehicles and men start again in town;
Life starts again its routine ones as usual afresh;
Between avenues noise and traffic pick up on road!

Sitting near the balcony of my house, I witness all
Absorbed by the glorious beauty of this November
Morning with a sense of joy nothing can give ever!

To enjoy this joyful occasion, squirrels in four
Rush here and there chasing their first going one
As like in a car race so beautiful and humorous..!

Really what a joyful November day kindling in me fresh
Ideas to write this poem to have a good conclusion now!

Ramesh T A
What A Painful Pleasure Love Is!

Is love a private or public matter being the all powerful one
Of all human relations in the world that cherishes it most ever?
Love is an intimate relationship of soulmates exchanging hearts'
Messages in whispers and silence engrossed in gaze of eyes long!

Immaterial and unmindful of who all see them or where they are,
Lovers exchange flying kisses or intimate close ones at will..!
That is real, open and Western culture that permits love so
And is supported by all who cherish love in all ways possible!

But in Eastern culture, love is cherished as divine and private
Never needs to be popularized and is fostered in lovers' hearts;
Being so delicate and intimate that love faces many hurdles
And the bold and courageous ones only succeed at last in life!

What a painful pleasure human love is being an intimate relation!
Let not all disturb and spoil the intimate love quite rare ever!

Ramesh T A
What A Sea Change!

Running an enterprise needs entrepreneurship;
That too if it has to be run in a backward area in
A developing State is a greatest risk one undergoes!

Backward area won't have any hotel, snack-bar or
Anything to have refreshment making one to endure
All inconveniences to run an enterprise nobody likes!

Comparing the place now and then, there is a vast gap
Due to developments of the area by the coming of schools,
Hospitals, hotels, wedding halls and conveyance facilities!

Two decades ago, all these facilities were impossible to say
Would happen at all as the area was a remote and isolated
Place from the town that has turned into a tourist spot now!

Enduring all inconveniences and successfully running an
Enterprise for two decades seems to be a miracle now sure!

Ramesh T A
What A Spell Of Beauty!

Attractive beauty certainly sways hearts of many sure;
Beauty is a compellingly impressive look that does all
Magic to make many cheered and be disciples in love of
An outward image that haunts all forever in its favour!

By sheer beauty many achieve what they want anywhere ever;
The spell of beauty simply memorizes all to be supportive
Whether it is good or bad that rules many sans their own
Self knowing what they are doing till they meet with danger!

Realization comes only after they are caught in an abnormal
Situation and feel what way are they connected to beauty
To the extent of abhorring it to get rid of it as quickly
As possible for the better to mind one's regular works..!

The world reels under the spell of beauty mainly through
Advertisements of things to the extent of fooling them to
Buy them without even knowing their value and their worth
And feeling deceived only after losing amount on them ever!

Ramesh T A
What A Waiting!

Under the pale moon light picture perfect lady
With full of hope waits for her lover long in veil!

Gentle breeze has tried all to uncover the lady;
Beautiful smiling flowers send smell of scent too;
The murmuring brook too sounds its music....;
Yet, she never relinquishes her resolution sure!

A horse shoe sound slowly has started yonder;
The white knight returning from long war
With full of dreams looks nook and corner
For his lady as promised long ago for union!

Enjoying his presence close by she plays lyre
Harping on the note of passion he likes high!
With a sense of success more than war success
He finally holds the lady's hand to kiss sure...!

Ramesh T A
What A Wonderful Life!

My day begins with the sound of little squirrel near
The large veranda window every morning at sunrise!
I feel it says: "Hello! Anyone there? I am hungry!"

This makes me to place some food for little squirrel
Near the Veranda window and some more food near the
Balcony outside for crows to take breakfast earlier!

Crows and squirrels are like little children around
My house they all play and do all things they can
Everyday and have become part of our life in the house!

Below the balcony, I see a brown dog looking at me
When I stand and muse seeing the vast sky with stars
At night and also, I see six buffaloes walking there!

These domestic animals big and small live the same old
Life in the same joyful style unlike sophisticated men!

Ramesh T A
What A Work Of Nature Artist!

A sea of blue ink is ever ready for the artist
To paint beautiful pictures on the wall of sky!
Is the Nature artist waiting for suitable brush
To paint a picture of his desire on the sky wall?

White cotton clouds first he draws on blue sky
Wall all daylong before he gets the mood to draw
A beautiful hues of quickly changing splendour of
Clouds With red ball of sun at the bottom of wall!

Then he paints black on the sky wall to draw a
Lot of little stars with the crescent moon at the
Centre of sky wall like the Indian lady having a
Dot of suitable colour on her forehead everyday!

Many more designs Nature painter ever goes on
Drawing morning, day, evening and night forever!

Ramesh T A
What A World We Live In!

Just a civil war between govt. and rebels
Leading to the killing of 200,000 citizens
In five years in Syria has led to refugee
Problem for the world by way of migration
Helping much the ISIS terrorists group
Persons entering European countries amidst
Refugees migrating to Greece, Turkey, Spain,
Germany and other countries very easily!
In that way the IS army has captured some
Portions of Syria and Iraq to form a terrorist
Nation called Kurdistan is mind boggling
And has turned into a big headache for the
World now involving 14 nations to send armies
To oust the terrorists out of Syria, news says...!

Ramesh T A
What Can I Say?

No one would write if one is in my shoes!
What a joy it gives when things happen
As to our expectation and as we wish....!

Waiting for the book I spend a lot of days
Looking at the house door for the post....!
Poetry book is the life giving source ever
For me for a long, long time in life so to say!

Writing poems in between all kinds of distractions,
Occupation, obligations, ordeals, obstacles, odds
And all objections is indeed a great miracle...!

After all those things if a book is published
And first copy comes to my hand means......,
What can I say? Nothing is so important
And nothing is equal to this great achievement!

Ramesh T A
What Do You Say?

What is this world
If nothing is joyful?
Thinking only harms
Coming as nightmare!
Some intoxicating thing
Looks to be better!
Is sex, drink and long tour
Make anything all right?
Worries make the mind
Drunk with liquor strong
And dizziness drowns in despair!
Can anything save one
From this state of mind?
I think Nature of beautiful
Scenes in distant places
Like hill stations could do!
What do you say?

Ramesh T A
What Else Can?

Beauty of Nature makes all love much;
Natural beauty has a special value ever;
Beauty of flower influences love sure....!

Beauty of sea, sky, misty mounts absorb all!
Cascading water fall of Niagara is lovely ever!
Peaceful snow mountains of Himalayas is blissful!

Height of Everest and depth of Pacific are exquisite!
Half setting sun and half rising moon are ever a wonder!
Seas and oceans with such beauty are wonder par excellence!

Colourful butterflies hopping from flower to flower
Surely reflect angels of heaven on earth forever!
Oyster with white pearl is flower unique of sea ever!

If such beautiful Nature does not kindle love, what else can?
If you fail to love such beauty, your life is a great waste sure!

Ramesh T A
What Everyone Has To Think About!

We are always occupied by our personal problems;  
Or else, we give time over thinking about pollution;  
Or in the international level we talk about terrorism.

We never think on Earth's vulnerability to destruction,  
Which may be caused by asteroids approach it in space  
Or natural disasters triggered by earthquake or storms!

If everyone's attention is diverted towards those calamities,  
The problems we are occupied with ever will become nothing  
And unity of world men will develop to save all in future.....!

Those are the things media by way of magazines, news, etc.  
Have to do their duties to alert humanity and make them  
Ever think better ideas of survival in the event of great disasters!

Best thing for the social media to do is ever say about how  
Disasters can be avoided or how one can tackle and escape!

Ramesh T A
What Is Freedom?

Even after a great recovery from major illness,
The days are counted due to weakness and age;
But the picture of remaining life in the world
Is clear to now the next course of action well!

It is another kind of freedom got by play of fate;
Freedom is there to do anything, but nothing is
Possible to do due to health at the last stage of
Life and is where irony of fate is realized sure!

So, the best course of action for one will be just
To enjoy remaining days of life in pleasure that can
Cheer up mood and bring solace in some joy unique in
Life at last unless people around leave one free..!

Loving beauty in art and Nature and humans gives
Indeed great pleasure and that kindles poems many
For one to write finally for the world to realize
What is freedom at the fag end of life in the world!

Ramesh T A
The more money we have, the more we spend;
The more we spend, the more we want money!
The more curious we are, the more we long for;
The more curiosity is fulfilled, the more we have!

There is no end for soaring ambition or desire ever,
When we are capable of obtaining whatever we like!
This is childish nature that has no end till satisfied
And again another kind of greed starts and goes on!

In the olden time, kings were curious to invade other
Countries to establish their might and power on all!
The more countries they conquer, the more they go
For war and go on so until they become emperors!

Emperor never realizes that he has been killing men,
Who are fathers to children, husbands to young wives,
Great helpers of the needy people and friends dear to all;
But the realization comes only on hearing curses on him!

Such an emperor was King Ashoka the great, who not
Able to bear the curse of old woman, feeling helpless to
Pacify her emotional loss and anger, fortunately meets
A Buddhist monk who led him to redemption finally..

The monk's words like the following changed him fully:
Love is only the world's great power of all powers be!
Love is only the world's great light of all lights anywhere!
Love is only the world's great justice of all justices ever!

Ramesh T A
What Is Important In Human Life?

What is important to live a good life in the world?
Peace and happiness are what all long for in life;
Sans them long, it's worthless to live with big wealth!

It makes many to think about what life is in the world;
Life is acquiring knowledge to live enjoying pleasure
So as to achieve fulfilment, perfection to absolute state!

For that, fixing a broad ambition is necessary after having
An over all vision based on true knowledge to serve as a
Driving force for life to make a remarkable achievement!

The satisfaction we get in the job we do and the pleasure
In world life gives real peace of mind and happiness of
Heart leading to spiritual bliss in Nature to liberation......!

Perfection by knowledge and love gives freedom to enjoy
Happiness and peace leading to liberation by spiritualism!

Ramesh T A
What Is Important In Life?

Who can one love and have friendship with in life?  
They are important questions helpful to live better.  
Encouragement, support and inspiration of love  
And help, assistance and guidance of friendship  
Make one do anything with confidence and courage!

But jealousy minded hating company and betrayers  
Mislead one in life in all situations as close colleagues;  
Family relatives too of that kind make one miserable.  
Unsuitable companions and cutthroat competitors  
Are lifelong debts to be cleared as soon as possible!

Harmless ideas in thoughts, words and deeds leave one  
In peace and lead one towards progress and prosperity!  
Persons of such nature are better to have company with  
Though friendship and love are not within one’s reach  
Than to have bad company to pass time or pull on in life!

Life is not a bed of roses for many but roses one can have  
Provided one knows how to remove the thorns before hand!

Ramesh T A
What Is Life?

Everyone should ask, 'What is life?' to know it. 'What does life mean?' Everyone should think!

Does life mean wealth and comfort in the world? Does life mean kin and affection in the community? Does life men power and authority in governance? Or what else does life mean in the world we live in?

Human life is existence, knowledge, bliss and absolute Says Bhagavad Gita in the great epic, Mahabharata! Human life is dharma, wealth, bliss and abode says Sage Thiruvalluvar in his Thirukkural next in India!

Life is knowledge, survival, pleasure and salvation say I based on my conviction pondering over all scriptures! Life is knowledge, vision, ambition and achievement Finally say I to attain fulfilment in world life to all ever!

Ramesh T A
What Is Love?

Whether one adjusts oneself to others or not,
Whether one does as one wishes carrying none,
Maintaining peace of mind is out of reach for all!

Only love can bring peace and joy in the world!
Love of friends, dear ones and all make us live...;
Love of art, poetry and things we like give us joy!

Our survival in the world long or short goes on so
Bringing meaning to our life and a message to world
Even after we left the world for the other world sure!

Whether we are loved or not, our love of things like
Poetry, music, painting, Nature and God leaves the
Best side of us for the world to think and get benefit!

Love is doing the best things of our heart's desire ever
Forgetting ourselves in the common cause of the world!

Ramesh T A
What Is Miracle?

Impossible thing, if done, it is a miracle, we say!
Even small thing it may not be possible to do
Due to other occupation we are forced to do as
Obligation and general work necessary to do!

Same thing after sometime or a long time, it is
Beyond time and necessity to do at all and if
Due to frozen ambition or desire done, it is also
A miracle happening in one's life quite impossible!

That others don't understand and also don't think of
Doing it at all being occupied in day today jobs....!
If it is left as it is, it makes one incapable of fulfilling
One's wish and makes one's life incomplete forever!

Many never think and carry out what they have wished
And pass on the time with no direction and satisfaction!
If rethinking has brought one to the earlier zeal to do that,
Surely an impossible deed could have been done by miracle!

Ramesh T A
What Is Most Important In Life?

What is most important in life?
Happiness is most important in life.
How does life go on forever for all?
Only by love life can go on forever.

What can we say about world life?
World life is unique in the Universe.
What does make world life unique?
Nature is the source that makes life so!

What is the main source of Nature...?
Love is the main source of Nature...!
Can life be going on long sans love?
No living being can go sans love....!

But mechanical way of world life destroys
Natural love and life loses its significance!

Ramesh T A
What Is Necessary?

What is necessary is to bring about the result of
Peace, joy and progress by love for all in the world
Sans hatred, violence and war as we all belong to
One human family and the children of God Vasudevan
According to Hinduism, the oldest mother of all religions!

Hug and kiss as children do to all by love to rejoice
And celebrate one's joy with all sans seeing how high
Or low, rich or poor, black or white, tall or short as
There's no difference between races, religions and
Cultures as far as flesh, bone and blood are concerned!

Borders and boundaries are manmade for governance
To do in a civilized way as different parts of body to do
Different kinds of works to run the whole system of body
Controlled by human brain just as the United Nations
Organization for all world nations for peace and progress!

Ramesh T A
What Is Old Age?

What is old age? It is body condition
Not cooperating with mind and heart...!
All things have to be done according
To body health to satisfy heart by mind!

With experience and knowledge, one plans
To do all wisely to compensate losses..!
Doing possible things wisely one gets some
Satisfaction that's impossible otherwise!

With remaining strength and usable teeth,
One manages to do work, eat and live well;
Mechanically one manages by exercise and
Diet control to tackle health matters sure!

Contention of heart is gold making medicine
Old age wisely teaches lesson to the aged!

Ramesh T A
What Is Permanent Truth?

With the knowledge we have acquired, have we solved all puzzles?
Have we found out the starting and end points of the Universe?
Have we found out how the life cell has appeared on the Earth?
Have we found out the source of soul and where it goes after death?

Nothing of this sort we have so far found out with our knowledge!
The knowledge we have gained so far seems to be nil to answer all!
By intuition we guess certain things and predict certain things!
By our scientific search and intellect we are not sure of anything!

We are unable to prove any religious philosophical truths so far!
Everything is uncertain and nothing seems to be permanent everywhere!
The physical reality we see also is not stable and lasting forever!
This gives the impression that everything is illusion only at last!

The Universal Spirit present in the all pervading Energy activates all!
So, all matters have evolved from that and also can end only in that...

Ramesh T A
What Is Poetry?

Is poetry a picture drawn with words?
Can it be a conversation coming from heart?
Is it just ending in rhyming words ever?
Can a poetry be cooked sans rhythm?

So many poems are coming up every second
In many poetry websites of the world wide!
Yet, which one stands apart and remains in
The hearts of the readers and poets ever?

Poetry should entertain and guide all for good;
Without amusement can anything attract any?
Poetry is entertainment of all forms of writings
That never hides truth to bore readers sure!

Emotion, intellect, imagination and intuition
Poetry combines to weave with words well
To create fabric of fashionable beauty ever
Making minds bright and hearts happy in all!

Ramesh T A
What Is Real Wealth For Enjoyment In Life?

Zero gravity in Space journey of astronauts is an experience
One can have, if one is affected by blood pressure with sugar
Hick in the body of a normal person with head reeling effect!

In such a time, unless one holds any supporting device firm,
One will dash against wall or thrown down on ground with strong
Blow causing inflammation if head impacts on any object of place!

What a calamity of health sudden, if one doesn't have any check
Up of medical experience anytime or needs medical observation..,
But doesn't get time to have it with the cooperation of some ever!

When food becomes a thing of poison due to weak health condition,
Floating and rolling effect of body on bed and standing position
Surely one has a great experience to know how precarious we are..!

Whatever wealth one has and high status in society anywhere sure,
It has to be realized that health real wealth for enjoyment in life!

Ramesh T A
What Is Reality?

What is reality and what is illusion in the world?
What is permanent is reality and what's not is illusion;
People, world, Moon, Stars and planets are all illusion;
Like perishable commodities, they all have lifespan!

There is limit and time for everything everywhere;
After that they are no more to be seen anywhere..;
That is reality and if we don't believe and see truth,
We are absorbed by images of illusion and ignorant!

Sentiment, emotion and feelings are impermanent;
Thoughts and spiritualism show reality and truth;
They all seem to be vague and unbelievable here;
For, this world and all forms are only illusions!

Enjoy life like the food we eat to satisfy hunger;
Use all things for survival till the end and leave
The world free with satisfaction for total freedom
Only soul can bring which is reality we should realize!

Ramesh T A
What Is Talent Or Genius?

It may look simple and easy the work of an artist
Like a poet or singer who conveys one's ideas and
Thoughts that flow in mind based on the desire of
Heart quite absorbing anyone who has a glimpse...!

But when one tries to do the same work of art, it
Will not be possible at all as there lies the art
Of talent or genius of a real artist and that is
What one's skill one comes to know of it then only!

The easy looking dance or song or music or poetry
Is not so simple as all feel or think, it involves
The feeling of heart and ideas going on in the mind
That a genius or skillful person says by talent...!

All masterpieces of art and poetry are created so,
That all feel simple and easy to enjoy only but not
And never they all are so, when one tries to do that
Or even to imitate only to realize the impossibility!

Ramesh T A
What Is The Best Route To Follow?

Relying on the words of politicians and govt.
sans relying on self is contrary to the saying
That a bird in hand is worth two in the bush!

They all experiment on something like all the
Scientists do at the expense of people's money;
If success comes, people are lucky; if not, taxed!

Sans the cooperation of people, nothing is feasible;
Promises are like currency notes anytime can be
Banned making them just waste papers unreliable!

Best thing is rely on self to do something one's own
With an ambition and guts like creative workers do,
Success or failure, one can see light one day sure!

People shouldn't be like the moths running to fire by
The promises unreliable, but rely on self for life ever!

Ramesh T A
What Is The Compensation?

What is the compensation for the loss of all beloved ones
Leaving one isolated in the crowded world full of woes only?
Singing sad songs one tries to find self solace like the
Nightingale sings in full throated voice its sad story...!

Before the fruit ripens, if autumn comes leaving it in
Green ever, only tells the immature love story forever!
What compensation there one can expect except songs of sad
State one is forever pinning for one's young lover forever?

What a cruel state one is placed in life before fulfilment
Is about to fructify into beautiful joy to enjoy in love!
Is blossoming of love in such a raw state to be cursed or
Wait for another season to see fruit ripening into full state?

Where is the second chance for one who has lost all chances
Losing all one's beloveds one by one by fate in this world?

Ramesh T A
What Is The End?

Free birds give a sense of joy to persons of obligations;
Always engaged with problems to deal with, life seems to be
An endless world of work grinding one's hopes and desire
Ever in a state of chaos to run from pillar to post to fly!

Life itself seems to be a big prison meant to be spent in
Big darkness sans anyway of seeing light of the day outside;
If there is a chance to escape from one prison, another one
Seems to be the other side of prison still bigger than last!

If the prison seems to be a big ship in the middle of the ocean
Like in a movie, how can one think of escape knowing where one
Is and where one can swim and go to see landscape to cross so
As to climb a tall mountain to reach plains of hope finally..?

If life seems to be an inescapable prison forever, what sense of
Hope or dream one can have, no one can say for sure except end!

Ramesh T A
What Is The Purpose Of Life?

We suffer and enjoy life in this world
We being the part of Nature forever..!
Nature is ever procreative in the world
And this is why generation continues!

Modern materialistic world of machines
Has made man dependent of materials
To live mechanical life in comforts and
Luxury, a costlier than natural life......!

Man is neither living as human nor divine
And has lost touch of human sense ever!
Civilization has not made man a divine,
But only turned into a machine-beast-man!

Instead of living a simple and high thinking
Life, man lives far away from Nature ever
By reducing certain burdens and increasing
Unnecessary burdens in the modern world!

Living with the barest minimum in Nature
Only, we can enjoy natural life in line with
Evolution soaring high to divinity by mental
Advancement and spiritual development sure!

Ramesh T A
What Is The Salvation For Man?

After humans, no other new living beings are evolved. Only intellectual evolution is going on among humans. Knowing ultimate reality, spiritual evolution develops; Sans knowledge none can know all, God to become so!

Difference among God, divine beings and angels sure All have to know to have spiritual completion and also, Completion of wordily life to live in the other world as Divines, the last destination of human evolution of man!

God is the all pervading, eternally living being present In all things animate and inanimate everywhere in the Vast and endless Universe, in which all divines, man, Beasts, plants, planets, Stars evolve to higher state ever!

Man's purpose is to evolve from material to ionic form After attaining full spiritual maturity by meditation and Mysticism always living in harmony with Nature, the Only essence that absorbs and dissolves all for salvation!

Ramesh T A
Human body is the inheritance everyone has...;
Earth is the present environment we are living in;
Making use of both to the best one can is wisdom;
We have to preserve both and do the best we can!

We don't know human beginning and end of all!
Human body and Earth are temporary things sure;
What is our next position here and here after, one
Cannot say for sure as it is still a mystery and ever!

As long as the spirit within gives power, we do all
Our works and have to do the best for oneself and
Also, for others to know and say about the mystery
Of man's life to find out all and the ultimate reality!

Mainly and mostly for that purpose we live in this
World saving ourselves and the Earth and exploring
The Universe to find answers for all the questions....
We are trying to know so as to realize ultimate reality!

Ramesh T A
What Is Unreliable And Reliable?

Behaviour without discipline is never acceptable by all;
Unmindful of all, if one does so, it's awkward to tolerate;
But the well to do who cares only money but not men ever,
Behaves sans discipline relying that money will manage all!

Many are behaving so in the society until they lose all
Wealth and money some day in such a way that they even
Kill themselves losing all hope due to no money in hand
And so, always feel hungry for money to avoid such an end!

If we rely on talent and hard work with good behaviour,
It's possible to regain lost wealth sure sans fearing
About anything in the world till the last of drop of
Blood to strive and regain one's last status again sure!

This sort of confidence comes only by one who has strong
Faith on God who leads everyone's life in the world ever!
Money is not a stagnant and permanent thing to be with one
Ever unlike knowledge, talent and strength to do hard work!

Ramesh T A
What Kind Of Democracy!

Bright Sunshine welcomes all from early morning on;  
But Sun's heat radiation brings Sunstroke to many  
People who wait directly under Sun to attend big  
Public meetings addressed by political party leaders!

Poor people for want of money, food and work come  
Accepting to attend public meetings in remote areas,  
Where there is no water or shade for them to rest ever  
Till the public meeting comes to an end any day sure!

Election in hot months is a great headache for all people!  
Nobody can go scot-free carrying heavy money or any  
Valuables sans receipts for quick business or attending  
Functions in an out station somewhere away from home!

Once the election dates are announced, the restrictions  
Come into force making all disturbed till end of election!  
What a pity this kind of democratic system meant for  
The people, of the people and by the people in any nation!

Ramesh T A
What Kind Of People Are They?

What kind of people are they,
If they pack all good things
And kick off the helper in life?

Enjoying all comforts and feasts,
They incur heavy loss to the host
And fly away without gratitude!

At the expense of the partner, they
Celebrate in a grand function all
They can and leave one in soup!

Even the companions they leave
Alone, while going out for a picnic,
When they are out of station.....!

They are the embodiment of ego,
Selfishness and cunningness in one!

Ramesh T A
What Kind Of World Is This?

There is no one to help for anything;
But they are many needing help ever!
Self help is the best way to go ahead;
Creating opportunity and enlarging
Scope all things have to be dealt with!
Whether it is writing book or publishing
Or Sales, there is no one to depend ever;
Not only in this individual pursuit but
Also in other fields of work it is the same!
But after climbing the hill and establishing
A place for oneself, there are many good
Flatters ready to do leg pulling work for
All sincere workers of humanity in the world;
This world criticizes, if you live well or fall!

Ramesh T A
What Miracle Can Make Man Complete?

Bountiful beauty of Nature mellows heart and cools temper by its generosity;
What a solace one gets in its graceful embrace that gives greatest comfort
Nothing can give in this material world full of competition for profit making ever!

We are heartlessly driven to extremist route for all matters of no importance ever;
All religious and political making lure and leave all to dark den or abyss only;
Realizing its futility by preachers and promise makers, all wake up to reality!

Doing duty to perfection all things and beings in Nature spend all their time
Making all things beautifully attracting to mesmerize by its spell magic ever;
Such a power and bewitching art only man by art and poetry can do sure

Not realizing such a power within our reach due to our creativity like all in Nature,
We are pursing materialistic goals to accrue wealth to boost one's economy
That all believe will solve all problems of man's needs emotional and spiritual!

Just economic and technological progress can't satisfy social needs ever;
All round harmonious development by human culture only can do that miracle!

Ramesh T A
What Or Who Is God?

Is God like a human being?
Is God a good, bad animal?
Is God an angel, divine being?
Or simply, truly what is God?

All religions preach about God;
Is God man or beast or divine?
Is God Zeus or Allah or Vishnu?
Is Jesus or Krishna son of God?

God is not all those persons ever....!
He’s neither man nor beast of divine;
God is infinitely greatest power ever!
God is power full of infinite energy...!

God is not human or divine or energy!
God is Universal Spirit activating all;
God is everything in one everywhere
Imminent, transcendental and infinite!

Ramesh T A
What People Should Know Before Election!

Democracy of and by the people is for the people!
Election is a very important aspect of democracy
For governing the people, developing the nation,
Social justice and for socio-economic development!

Keen observation of the people about true colours
Of all political parties are very important before
Deciding about the selection of political party for
Governing the people in the general election sure!

Past records of the political parties reveal their true
Nature, interest and ambition clearly telling in open
Whether they are for the people or for their own
Personal developments they are venturing in election!

Votes of the people are the clear acceptance of them
For the political parties to govern them for some years;
This is a very great commitment and faith of people
Allowing some party to look after the public works..!

Before allowing some political party to govern nation
People should be sure of the party that can render
Justice and deliver goods to the people while developing
The nation forward to shine as super power in the world!

Ramesh T A
What Poetry Is This?

All styles of poetry have come into fashion now;
But even then, some refuse some kind of poems
And allow some kind of poems in various websites!

In lieu of horizontal lines, many write vertical lines
As if it's displayed into many pieces of vegetables!
It's new poetry after classical, romantic, modern ones!

Some say it is confusing, there's repetition of words,
If natural poetry is presented to such new editors,
Who have influence with newspapers and magazines!

Some even conduct competitions also and announce
Winners too who are unknown before and will be so
After too, rejecting the genuine poetry writers ever...!

Poetry is direct expression of heart, mind and soul
Having echoing effect when read aloud to listen...!

Ramesh T A
What To Say?

Led by God’s will
When my going is
Why feel jealousy!

Ramesh T A
What We Have To Aspire?

For beauty and love, Nature is the best example to quote;
Beauty of Nature has no words to describe better ever sure;
Bountiful Nature is incomparable as far as love is concerned!

Beauty and love both in one Nature is model for all to imbibe;
It is rare to see both in one person anywhere in the world sure;
Such a being is really a divine one among humans in the world!

The infinite and eternal nature of Nature is greatest wonder
That in all respects has to be respected with awe as God ever as
We are children of this great manifestation of Universal spirit!

By the communion of humans, new beings are born in the world ever;
By the communion of our spirit with Universal one, we enjoy bliss
Of divine as long as in the world until we too become so finally!

This world is perhaps meant for the transformation of man to divine
Hood by evolutionary improvements by many births we have to aspire!

Ramesh T A
What's Our Gift To All?

Nature is the gift of God to man on the Earth ever;
Nature is the inspiration for poets, scientists and all;
Their fruits of labour all enjoy in the world forever!

Sans expecting any reward they all worked hard to
Discover, invent and create so many best things for
All to enjoy as their gifts to their creator in gratitude!

They believed what we are is God's gift to us and so,
They decided what we do with that is ours to Him by
Contributing the best they can throughout their life!

Without seeing the best things in Nature are free for all,
Many do things only when they have benefits to them
Or do nothing saying what world has done to us to do all!

If everyone has had this kind of attitude, the world would
Not have progressed and civilized for posterity to enjoy all!

Ramesh T A
What's Real Courage To Imbibe Forever?

Physical courage, intellectual courage and spiritual courage are
Three phases of courage we witness among various personalities in
The world to visualize what phase of courage to imbibe forever!

Based on physical stamina, if one crosses over the border to hide
In a safe place to fight for victory is praised as a brave soldier;
But this lasts like as long as bank balance is in one's account..

So, what's reliable courage is based on knowledge of truth as that
Only gives confidence to work out strategy well and win in the battle;
So, we think intellectual courage is better than physical courage..

But what's real courage that makes one sure from beginning to the
End of a mission is courage based on truth, which is moral or spiritual Courage
that brings sure victory as Mahatma Gandhi did by nonviolence!

Indeed real courage is moral courage that withstands all mighty better
Than intellectual or physical courage we all witness in the world ever!

Ramesh T A
What's The Next Action Of World Nations?

Four decades of cold war after world war II
Divided the world into two supporting the
Ideologies of Communism and capitalism..!

Technological competition between the two
Introduced new weapons of mass destruction
Keeping the world ever on hot bed sans an end!

In that kind of cold war, capitalism almost wiped
Out communism in many countries of the world
Making socialism supersede communism in all..!

Socialism paved the way for corruption by trade
Unions and conflict between Israel and Palestine bred
Violent rivalries between Christians and Muslims..!

Socialistic Islamic movements rose against monarchy
Embracing wahhabism in rich Islamic countries with
Afghanistan as headquarter under Al Qaeda outfit...!

Talibans of Al Qaeda supported by the American alley,
Pakistan with latest weapons drove out Soviet Union
Out of Afghanistan paving the way for world terrorism!

After America drove out Talibans from Afghanistan, they
Formed Pakistan as the epicentre of terrorism encouraged
By ISI of Pakistan army exporting terrorism to the world!

When all world countries are vying with one another to
Have economic supremacy, Pakistan has developed the
Advantage of Terrorism escalating tension all over the world!

Terrorism is the enemy of the peace loving world now
Needing joint action by all nations to isolate and oust
The only Terrorist State well exposed to all nations now!

Ramesh T A
What's The Remedy For The Disease Of Corruption?

The culture of corruption never seems to be corrected;
Like many are addicted to smoking, drinking and drugs,
All are forced to be addicted to money for everything!

If all the people are rich and have pocket full of
Money always, perhaps they can deal all matters quickly
By paying bribes to officials to finish matters soon!

Like big beggars, peons, clerks, assistant officers and
Chief officers collect money for each and everything from
The people as if they are raising funds for common use!

A chunk of such money raised by corrupt practice by the
Bureaucrats is paid to the ministers governing the State
For running their affairs sans any disturbance from any!

How can dependence to money for each and everything be
Curbed by whom needs to be explored to cure this disease?

Ramesh T A
What's Your Dream?

Neither becoming medical practitioner as I wished after school
Nor becoming an educated engineer as my father wished, I have
At last become a poet by fate as decreed by God perhaps sure!

About the grim realities I see, I write since my college days on
Expressing ideas to solve all the problems with possible solutions
And depicting dreams to realize later all the impossible ones.....!

All those composition in natural poems I have compiled into a nice
Poetry Book called Dreams, ideas and Realities and published also
In my own Halo Papers, India and also by Minerva press, UK.....!

Knowing that well, some ask in a plain manner, ' What's your dream? ' I say my dream is The Creation of One World and have written all
About that in a nonfiction book called by that very title and published!

What was impossible is possible and what is impossible will be possible!
By the creation of One World, world unity and peaceful are surely possible!

Ramesh T A
When Achievements Become Miracles...!

Against all odds, unsuitable circumstance, situation and people. One can't venture on one's own interest in the world forever...; For, focusing one's concentration on a matter to express in some form of art is beyond the scope of any person with normal stature!

In the normal circumstance and situation, if one creates an art work, It is possible by talent of a person considered to be an achievement; But if one does work on an art form against all troubles, it is a Miracle happening by the will of God through the chosen one sure!

In spite of recurring troubles and problems, if it is possible to do Some spontaneous work of art, it's not an achievement but a miracle One is destined to do for the world and posterity serving the deserving Ones by immortal words in poetry and lives forever to uplift the good!

It is not necessary for God to make incarnations or make man or poet To reincarnate to do such miracles for the good of humanity in the world! Just one's creative work of art or other forms of art is fit to do that job Pretty well and is why against all oppositions good works survive ever!

Ramesh T A
When All Things Fail....!

Flowers, music and song capture heart
When the mood is out of tune ever sure!
Nature with beauty and music unique
By flowers and birds elevates mind fine!

Recouped by the splendour of Nature
Everything is sweet as in dreams, wow!
What a pleasure one can enjoy among
Such beauteous and brave beings there!

Never a moment is wasted in pleasure
When heart, mind and soul are in union
With the aesthetic feat of Nature ever
Remaining par excellence in the world!

Sweet is the time spent in the beautiful...
Company of things in Nature when all fails!

Ramesh T A
When Can Best Poetic Life Be Possible?

Alliterative poetry attracts all aspiring for beauty;
Beauty and meaning sway hearts of all readers;
Reading such poems surely stimulates interest!

Interesting poems are possible to write by mood;
Mood of enthusiasm brings ideas incredible ever!

Ever best kind of poems occur in mind, only if free;
Free mind is open book with open heart to open all!

All doors of secret seem to be nothing for one in love;
Love is the way for achieving all one dreams in life.

Life is best to live, if one is friendly with all persons;
Persons of good will never let one down in the world.

World is a heaven, when love plays on one's journey!
Journey of life becomes an enjoyable feast sure then;
Then there is nothing possible in one's life forever!

Ramesh T A
When Love And Tolerance Are Effect-Less....!

Love all says all religions and their preachers everywhere;
Is it such an easy thing to do in the world full of varieties?
Taste, liking, wish and desire vary from person to person;
As one man's food is another man's poison, what can be done..?

Just like doing things for the sake of doing duty, love can't
Be practised without real desire and interest towards others;
In lieu of love, with patience and tolerance, we have to deal
With persons of various natures we have to move with in life!

Scolding with disrespectful words and beating one not seeing
Others also as human beings like them are quite beyond one's
Tolerance and if such things go beyond tolerance limit also
As in the case of extremists and terrorists, what can be done?

Those who don't know respect, decency and shame, are surely can
Be called only as inhuman beings or simply machine-beast-persons!
Such persons take advantage of tolerant behaviour as weakness
Incapable of realizing that it's a high level of human sense!

Best thing to do with such persons is to simply ignore them ever
And go ahead minding one's works for the sake of humanity and for
Maintaining peace for promotion of good sense and love with others
Kindling longing for love in the ruthless hearts of such persons!

Ramesh T A
When heart melts
The words one uses
Make one a poet!

Ramesh T A
When Real World Becomes Dream World....!

Sluggishness engulfs my whole self caught by the dizziness
Of cold not leaving me even after many days and months now;
What a boozy feeling I have though not taking any booze
So forth and so long for more than one and half decades!

Due to too much heat always within my body circulating but
Not dissipating and leaving me even by good relaxation in
Cool breeze breathing fresh air all day long and night and
Taking a lot of water while doing my usual work at home..!

Real world has become dream world due to severe cold affecting
Me for a longtime though medicines I take regularly with due
Care both in the morning and evening, but it's of no use as cold
Again catches me the day dawns everyday nonstop and weakening me!

When real world becomes dream world, what a dizzy rapture captures
One making one fed up with that bliss Nature poets enjoy forever!

Ramesh T A
When That Day Will Dawn?

Diwali! What is it and why is it celebrated so lavishly every year? It is the celebration of the Death Anniversary of Demon Narakasura, The incarnation of All Evils in toto in the legendary age of the world! Corruption, dowry, unemployment, poverty, ignorance and disease are The Evils need to be eliminated for celebrating Diwali....... soon.....!

Commission called corruption is paid for any job to be done today Whether to get admission for education or job in the govt. institution. Such a demand there is in all walks of life due to population... that..... Quality, honesty, sincerity are all thrown away as obsolete escutcheon. Simply fair or foul, nothing is impossible by corruption in this world; By this Evil politicians exploit people before and after the Elections; Believing them people too vote them to power only to be deceived!

Since long domination of male over female is there till today; Dowry system is the evil that degrades the whole of woman race And that makes women folks a life long bondage to men in marriage; Women as the mother earth are born to bear but not foolishnesses; Women folks keeping this in mind should mould the modern world.

Wrong planning and over population keep unemployment eternal, Putting youths, educated or uneducated in despair and desolation; They out of fear of the future get excited, restless and unreleased; Not knowing what to do next they seek for some asylum in vain; And to get peace of mind they easily succumb to drug culture, From where there is no escape to anyone but only in death!

Poverty is acute where population is high and development is poor; Superstition and ignorance put people forever in misery and poverty; Poverty is the last stage of the border line to the death of eternity, Where on millions make the tight rope walk between life and death, And hue and cries are heard everyday without a solution to find yet; Even then days are pulled on though poverty persists beyond limit!

An old saying says, “Ignorance is bliss! ” But a recent saying says, “Ignorance is sin! ” Bliss or sin, ignorance certainly makes one a slave; An ignorant person may be independent but psychologically a slave! Mass ignorance makes politicians easy to exploit for staying in power;
Of all, ignorance is the root cause for all problems and diseases;
So, unless ignorance is squarely eliminated no progress is possible.

Disease leading to quick death is the end for all the evils;
Of all the causes, the most inexcusable one is ignorance.
To cure but not accrue disease drugs and drinks are used,
But for kick to knock out worries many lick liquors beyond limit,
And often not satisfied go to drugs and fall ill wholly forever;
So, physical and psychological diseases need serious treatments;
Spiritual healing too is needed to bring enlightenment to the ill.

For better future, the evils have to be destroyed by the Almighty;
But brightness comes to one only after profound meditation in Him;
only when that state is achieved darkness will be fully driven out!
So, friends celebrate Diwali keeping that in mind to achieve that!

Ramesh T A
When Will Justice Be Alive?

Law is there to protect the innocent and punish the criminal;
But tricksters in the garb of innocents take advantage of it
To abuse law by making court proceedings a farce, lawyers as Fools, judge as a filtered idiot and people silent spectators!

Gullible lawyers pleasing the judge help the tricksters all
For money to survive in the profession perpetrating litigation
Forever and ever at the expense of litigants instigating them to Go on running to courts in the name of justice as in horse race!

Justice delayed is justice denied, but justice prolonged is
Doing business to fill up the pockets of lawyers and charges for The Courts to run regular business nonstop in the name of justice Just like the politicians fooling the peoples to fool litigants!

Drama like proceedings in the Courts only when changes suitably According to the changes of time, justice will be alive ever...!

Ramesh T A
When Will Man Regain His Actual Status?

Nature with all its paraphernalia makes all live well;  
Air, water, food and shelter are common for all ever  
Since a longtime making all species survive long here!

By experience, experiment and understanding knowledge  
For all has become a necessity to do anything in the  
World we all live so long and so forth in this paradise!

But too much of anything is good for nothing, they say;  
Too much of technological pursuits has made man obsessed  
With material development at the cost of human and spirit!

Material and money are everything now, though man is a most  
Superior being of all species in the world making all his  
Advancements and developments as a big farce or mad thing!

Realizing this, if man with human sense and spiritual acts,  
All can hope, will surely recover his wonderful place again!

Ramesh T A
When Will The Storm End?

Moonless night calm and serene waits for what?
Is it searching for the on coming storm afar?
The direction changed storm is heading towards
The coastal area to strike not on the North
Nor even in the South, but at the centre sure!

What a suspense it has been creating for days
Since the day and time it has started in the bay!
Now is it coolly moving straight against the spot
It has chosen to hit the target like a gun shot sure
Whether it is a single shot or some shots at random?

Only on the next day it will be known to all it seems;
But storm is storm to hit the target with terrific
Speed that will smash to pieces whatever that comes
On its way sure and there the show will end, it seems!

Ramesh T A
Where Are Spiritualists?

Spiritualists are nowhere
Among religious fanatics and drunken looses
In erstwhile spiritual town!

Ramesh T A
Where Are The Political Parties?

Rejected political parties are vigorously
Vying with each other to get the favour
From the people to take power to rule
As they like once again believing people
Surely would have forgotten their flaws!
These parties can be seen around the scene
Only when the election comes to take place
And there after people have to search for
Them not having any idea where they all
Have gone and what they will do next or
Simply disappear till next election comes!
This is the nature of political parties breeding
Like pig babies in large numbers everyday
Grazing on the wastes of gutter all the day!

Ramesh T A
Where Can Goddess Of Wealth Reside?

Neat and clean house with all furnishing kept in order
Along with the garden with all plants, trees and lawn
Ever kept in well pruned and clean state, it will be
Appreciated as deity of wealth, Goddess Lakshmi resides!

Such a beautiful place of residence looks bright ever
To invite all with cheerful mood would be the right place
For Goddess Lakshmi to live not that one has gold, diamond
And money, but the cleanliness that only gives bright look!

It is said that cleanliness is next to godliness, if one
Maintains one's place, things and all in good order and
Condition that create the impression of godliness ever
Prevailing around that place and all good comes to one..!

Goddess of wealth cannot be residing in a corrupt man's
Residence full of gold, silver, diamond and currencies,
But only in a well disciplined and sincere persons house
With less things well kept in order and beauty forever..!

Ramesh T A
Where Can Love Be Found?

Where do I find loving people
When I have lost most of them
Due to death at untime mostly?

I cherish most love of people
As I judge all based on love only
Which tells the truth of a person.

Where can I find loving souls
Like the flowers blooming for love
And inviting all love them fresh?

No soul is real enough to love me
Unless they find wealth at my hand
Which is where love depends on now!

Does life of man depend on love or money
I am searching longtime without any clue?

Ramesh T A
Where Does Bliss Lie In Life?

Love and knowledge are two eyes to see world and live life!
Aim of love is to give hope, confidence, joy and sense of freedom;
Knowledge gives truth of everything to guide one to live life!

With love and knowledge we get freedom to live in joy and peace;
Joyful peace is what bliss is all about all are longing for in life ever;
Not science, art and enjoyment but divinity in Nature gives bliss!

Worshiping invisible God and destroying visible Nature, we fail to
Feel divinity present in Nature, which is possible by mediation and
That is concentrated focus in Nature's beauty forgetting one's self!

By so doing, the state of rapture brings bliss to self and a great
Fulfilment and peace to get satisfaction we are longing for ever!

More than worship, the bliss and benefit we enjoy in meditation is
Far better than visiting many temples and praying Gods forever...!

Ramesh T A
Where Does Lie Safety For A Lady?

What does give safety to a lady in the world?
Is it money and jewels or valuables to a lady?
Not at all and never can valuables give safety
But only insecurity as they need safety first!

So, what can give safety and security to a lady?
Only marriage can make a miss into a madam
And that only can give safety with security ever
Providing food, clothing and shelter forever sure!

Yet, some go for divorce after marriage believing
Money and valuables can give safety and not a
Good companion with legal licence for life long;
Lately realize where lies real safety for a lady...!

Due to professional pride and earning capacity
Some don't realize where's natural safety for one!

Ramesh T A
Where Has Nonviolence Hidden?

Father of nonviolence, Mahatma Gandhi is no more in the world;  
He is not only father of nation but also father of nonviolence;  
Transcending his own nation he has make his mark in the world;  
Today we pay homage to him on his day of remembrance everywhere!

In the violent world today, if you follow nonviolence, you will  
Be nowhere in no minutes after being made into nonentity by the  
Perpetrators of extremism, terrorism and wars in the world sure!  
This is the status quo of the world in which we are living now!

Indifferent bureaucrats administrating the affairs of the world,  
Only inhuman, money minded, greedy men do all businesses ever  
Exploiting technology and natural resources for their benefit  
And profit caring nothing about pollution, nuclear proliferation!

Is this called civilization of modern world we label as progress?  
What is the difference between man and machine in this world of  
Competition against time that is going on to fulfil targets ever?  
Hardcore terrorists taking advantage of weapons destroy world..!

Both so called civilized and savage clash between themselves to  
Mould the world as they like and proceed on endless war as it was  
A daily routine during the Vietnam war time in the past world...;  
That kind of stage the world is driven to before falling into abyss!

Art, Nature and humanism are out of order now needing resuscitation  
Before a major operation has to be carried out to remedy the chronic Illness by pumping oxygen of goodness and love of human culture to  
Breathe deep so as to reach normalcy of health sooner or later sure!

Ramesh T A
Where Is Modern Material World Leading To...?

In the material world of modern day, all are evaluated
On the basis of money value only sans any regard for
Human values such as honesty, truthfulness, empathy,
Mercy, humanness, friendship, love and all forever..!

Perhaps only when all are educated and become rich...,
Social quality of life may change for the better, all
Think and go on the route laid by commercially minded
Ones who are managing world economy in this fashion...!

Sans knowledge, health and good environment not being
Given importance, how such a state of change can be
Materialized in the near or far future world is a real
Million or billion dollar question needing answer sure!

Many such questions are there following the main question
For all to think, know and decide correctly for the world
To go on the right direction for the formation of One
World with the world body of nations to govern all as one!

Ramesh T A
Where Is Respite?

Winter cold is increasing everyday!
Some say it is raining heavy full
Of lightning and thunder all night!
Many are looking for shelter better!

Nature does not want to leave free
For all the pollution man has caused
Till the natural situation becomes normal!
What a pity for those caught in-between!

Poor are the suffering lot among all sections
And the govt. thinks much what to do!
Just discussing with all and proposes some
Plans and before implementation all are gone!

Man changes with the season and forgets all,
Enjoys and suffers but not corrects himself ever!

Ramesh T A
Where Is Soul?

Time is going on..........
Days are gong on.........
But there is no response
After death from anyone!

What is soul?
Even a single virus has it!
We are composed of many cells;
Each cell has it!

Where is soul in our body?
Is it in heart or mind or where?
With mind only we know it!
Mind death is real death!

Soul activating mind, body functions;
So, soul could be in all controlling mind!

Ramesh T A
Where Is The Control For All Everywhere?

Planets are functioning under the control of Sun in Solar system;
Sun and other Stars are under the control of gravitation of each
In the Universe that is existing in limitless state forever sure;
We men are under the control of gravitational of all everywhere!

This is the overall picture of Nature we are part and parcel of it;
Though man is advanced by science and technology, Nature rules all;
When everything is going on under the control or fate of gravitation,
How can man control anything according to his will and pleasure ever?

I we cry or worry or do something in madness, it is not to be changed;
Change will take place according the evolutionary design of Nature
Functioning by the power of Universal spiritual energy infinite in its
Dimension we cannot even imagine how it could be at all ever in life!

Love is the only inspiring, consoling and guiding boon we have to have
Anything to confide, trust and rely on for all our good and bad in life!

Ramesh T A
Where Is The End For Romance In Life?

Where is the End for Romance in Life?

Romantic life of dream world is joyful to imagine it to be real in life! Sans romantic ideas there is no imagination, dreams or vision; Romantic life does not end in old plays, romantic novels or in love stories; Romance flourishing in dreams and imaginations happen in real life too!

Artistic mind full of romantic ideas and imaginations kindle love poems And love songs composed and published kindle love towards one sure; That is the starting point for the birth of romantic love between soul mates Leading to real romantic love through love poems and letters in life!

What a sea change of life paving the way to dream world of love in reality! Many have enjoyed as in love plays love in real life as romantic lovers; But love ending in marriage happens by luck of fate none can know; Comedies and tragedies of romantic love surely inspire all to dream so long!

Where is the end for romantic love in the human world whether It is successful or not and romance in life drives life ever......?

Ramesh T A
Where Is The Limit For Romance?

Whatever you write is poetry ever;
Whatever you think is ever novel!
From where shall I start to taste
To enjoy best the essence of feast?

Where shall I begin to tell the story
I have enjoyed most in life with you?
Shall I begin the days I spent at college
Or shall I start narrating our meets of park?

Those days have disappeared as mirage
In the desert whenever we cross miles!
Can we regain the youthful days now
Once more to enjoy those timeless dreams?

Romance has no boundaries what so ever
However hard we try to draw line of control!

Ramesh T A
Where Is The Time For Romantic Love?

Love at first sight is the beginning of care
And concern one has for the other one in life;
After understanding very well of one, the love
Has deep root connection with the one in heart!

Many not even see each other but play hide and
Seek game for long as romantic plays of the yore;
Only chance or fate makes such souls to have a
Meeting quite unexpected in the life of the world!

Thereafter, the love develops like a well grow up
Tree full of many branches of leaves with flowers
Fragrant and fruits with sweet and delicious taste
In all their dreams and contacts in persons long!

What a life of romance the love between hearts
Leads to in all the summers and winters of life!
The final scene of union brings an end to their
Fruitful love after many a trials and hurdles!

But such kind of love life is rare in the world
And that too in this material world full of all
Competitions, where is the time for such romantic
Love as one dreams aboutas happening in plays?

Ramesh T A
Where Lies Bliss?

Nature, music and love are great in life
A poet and mystic of high nature loves!
Spiritually satisfying Nature he enjoys
Like a free flying bird in this world...!

Whatever comforts one gets in the world
The sense of satisfaction and joy is unique
Each one tries to find in quest of truth
In art, woman and Nature all life forever!

The solace and comfort he seeks he gets
For sure mostly in Nature when all fails!
The expression of such a unique experience
In poems endless he lives forever to guide all!

One's time will have an end one day but
What he does by his art only gives bliss!

Ramesh T A
Where There Is A Will, There Is The Way!

One-sided knowledge, partiality of love and forceful nature, All have done a lot of havocs in joint family relationships; Yet, such things go on creating confusions and complexities Paving the way for eternal rivalries and fights lifelong ever!

Proper knowledge, love to all approach and gentle dealings Surely bring together all rival groups in a joint family setup To enjoy life in a joyful and hilarious way celebrating all Festivals to turn life into a heaven to live sans sorrow ever!

Not only family life, but also, international relationships Can be made to proceed on favourable line pleasing all in the Game as the children enjoy merry go round in exhibitions ever To make the world a paradise to live in peace sans wars forever!

Everything is within reach in the paradise of Earth full of Beauty and love to ease all difficulties, if only we all have The heart to forget and forgive so that all can enjoy life Better than before eschewing adamant cohesion to useless things!

Ramesh T A
Which Is Better?

Which is better for mankind –
Nature controlling man or man controlling Nature?

Which is better for world economy –
Money controlling man or man controlling money?

Which is better for human society –
Man controlling woman or woman controlling man?

Which is better for future world –
Man controlling machine or machine controlling man?

Which is better for world governance –
Science controlling religion or religion controlling science?

Which is better for man’s living –
Man living on the Earth or man living on the Mars?

Which is better for man’s exploration –
Man exploring the ocean or man exploring the Universe?

Ramesh T A
Which Is Immortal - Body Or Spirit?

Desire cannot be restrained, Enjoyment of pleasure
Has no control and joy no one seems to be stoic to
Lose in life though life is not eternal to live here!

Animate nature of flesh, fowl and fish seeks sensuous
Pleasure as long as youth-hood is there in world life
And also all long for joyful pleasure to continue ever!

Animate nature of things long and indulge in temporary
sensuous pleasures not knowing the ever lasting value of
Spirit that can give joy ever through art and poetry..

Many waste time in sensuous pleasure by trying to maintain
Youth not ever lasting instead of developing interest in
Art and Poetry full of spirit within alive ever beyond time!

Immortality of body is impossible, whereas immortality of
Spirit within art and poetry is possible to rely on forever!

Ramesh T A
Which Is Real Love - Natural Or Traditional?

Which is real - love before marriage or love after marriage?
First is natural and free, next is necessity with responsibility;
First is romantic in nature, next is classical in nature;
First is emotional one, next is traditional and usual one!

Natural love is real and spontaneous, but traditional love is not;
Natural love blooms at first sight and traditional one is very slow;
Natural love is fast between two persons and also hate comes fast;
Traditional love pursuit is slow and steady enduring to the last..!

Natural love is painful pleasure, whereas traditional one is not so;
Natural love is hot and very passionate, but traditional one is cold;
Natural love has quick response for all, but traditional one is not so;
Natural love is sensible and sensuous, but traditional one is senseless!

First love in life is immortal even if it fails changing life course;
But traditional love making is effect-less and makes life dull ever!

Ramesh T A
Which Is Scariest Now?

Illusion created by art scares real
Psychologically affecting weak minds!
Love for truth reveals hidden secrets
And solves many mysteries ever....!

Suspense thrillers attract attention
Whether they are stories or movies!
Fear of man time immemorial changed
By science and technology by modernity!

Yet, fear based on experience makes
Man still to go a long way to stop acts
That cause incredible havocs by terror!
Terrorism is greatest threat by all means!

Mythological scariness is nothing before
Terrorists' acts of violence in world now!

Ramesh T A
Which Is Weilding Power - Money Or Love?

Can you live without money in the modern world?
Money is the mark of civilization of mankind now!
Can the power of love overcome money power here
And lead all to live life of heaven in the civilized world?

Gold in the form of money glitters in the world of men!
Gold in the form of ornaments beautifies women as queens!
Beauty shines not by Moon light but by money showers
And men live as slave of money and beauty in the world!

Cities are the advancements of modernity by civilization;
Villages are the settlements in Nature by human culture.
Without the feeding supplies of village city cannot function;
Without the foundation of culture civilization cannot survive!

Manifestations of Nature reflect divine love everywhere;
Love and unity are for expansion of developed community.
For good or bad, perpetuation of species goes on nonstop
As Nature is always against destruction of any kind here!

Galaxies of the Universe are the eyes of God doing magic!
Floating stars are the jewels in the Universal box of night!
Heavenly bodies are in suspended animation by gravitation
Or Love unifying all for the Universal Circus to go on and on!

Can money buy all, love and soul for your eternal survival?
Money cannot buy love but can buy only lust for a while,
A prostitutional service that cannot do the service of a family
And cannot take care, concern and well being of you always!

Can you do anything without the backing of love in the world?
Can you do anything only for money even if you don’t like it?
If so, will you get happiness, satisfaction and peace after it?
So, we all do anything or everything best only out of love here.

Without love of gravitation magic show of Universe cannot go,
Nothing can move without collision in the Universal circus ever!
Family, children, men, animals and plants cannot live sans love
As sans God nothing can survive in suspended animation so long!
Which Is Wise - Taste Or Health!

When everything is in surplus, choice is more for one;  
The choice to choose is more than usual anywhere sure;  
All go for what each one likes in the variety available;  
It is like seeking tasty item in a variety of dishes!

Even crews take only bones and flesh of fish or chicken;  
They don't even see other food items kept for them to eat;  
Men also go only for tasty and delicious junk food items  
At the cost of their own health in the long run everywhere!

When scarcity of food, water and other items becomes reality,  
Whatever items available all hunt for them as in competition;  
This is the general nature of all living being in thie world;  
But the wise ones take food for health to fight diseases ever!

Indeed taste varies from person to person for all things sure;  
But, for our survival and health, we have take the good forever!

Ramesh T A
Which One Makes Man A Human?

What a quintessence of precious dust man is! Shakespeare says so of man in his Hamlet play. To think of man in a plain way, we can say that One who lives life directed ever by mind is man!

The question when man becomes a human comes next; Knowledge from books makes man a human in the world; Now in the modern world, of the two - Books and Websites, which one does make one a human in life?

Books give knowledge and guide one to become a human; Knowledge of Digitized books websites provide for quick reference and help quick transfer of ideas by Email to anyone anywhere in the world at anytime..!

Printed book knowledge is authentic and long lasting, Whereas website knowledge is not reliable and lasting; Knowledge from books takes time to remember, kindles Mind to think of truth and matures mind to be a human!

After quick reference of information through websites, There is no time to think to have new ideas to develop Mind and also to turn man into a human unlike book does making it to rely better on printed book sure forever!

Ramesh T A
Which One?

Foot ball, Cricket

Games open everywhere

Which one to see?

Ramesh T A
White As The Final Process Of Nature!

Lack of rain in Winter time increases cold climate;
Climate that has changed is changing all things;
Things are all becoming cold as unbreakable ice!

Ice as white as milk cover as blanket over all places;
Places submerged in white blanket look like mountains;
Mountains of this artificial set up reminds one of Everest!

Everest is the top most mountain on the top of the world;
World rivers and water falls turning into ice everywhere;
Everywhere all things become one with milky shapes...!

Shapes of all sizes in white colour look like pure uniform;
Uniformity is the thing perhaps Nature likes to create
Created in different shapes and sizes in different colours!

Colours of all things perhaps denote some process of Nature;
Nature finally allows white surely as the saturation point for all!

Ramesh T A
White Crow!

Black crows are common bird everywhere;
Black elephants are common in the forest;
But can you find white crow anywhere?
Or can you find white elephant anywhere?

Is it possible to distinguish between birds
Like the common crow and Nightingale?
Both are of the same colour more or less
But their voices show them in true colours!

How can common and superior varieties
In birds or other species be found anywhere?
Nightingale being superior lays its eggs
In the nest of crows to grow its siblings!

Likewise white crow is called a rare species
But not actually ever found among black crows!

Ramesh T A
White Horse

Perseus flew on
White flying horse high
To save Andromeda!

End of Kali Yuga

Kalki avatar of God will ride on
White horse to destroy
All bad elements to the core
Brandishing sword shining bright!

Ramesh T A
White Pearl!

Each poem is
White pearl of oyster
That beautifies
As shining teeth of a
Smiling lady!

Ramesh T A
Who Can Be A Real Leader?

Some are good at advising others whether they follow or not
Their own advises making themselves insignificant being so!
Advises go to deaf ears unless they are said less with more
Adherence to that in action as example to others for better!

Before becoming a leader to lead people, nation and world,
One should first of all be a follower, worker and servant
In public service with love and devotion to one's duties
For making oneself well versed and weather worn well first!

Words backed by action as example only, all will accept all
And follow advise to achieve laurels in accomplishing best
And great for humanity to prosper and progress in the long
Journey of development to become advanced more than before!

Just standing in the front for photo poses and advertisements,
One cannot be appreciated as future leader that all politicains
Perform perfectly well sans any sense of duty to solve problems
To make the world a better place to live than before forever!

Real workers of humanity do service sans any publicity ever;
They only actually lead the society in the real sense sure
Making society function with real devotion pleased by their
Sincere service as that's example better than precept forever!

The invisible God never shows Himself in the front row for any
Publicity ever but minds His grand service of Universe or Nasture
Like the Poet who devotes his lifetime in composing masterpieces
Sans seeking popularity but only wishing ideas to benefit all ever!

Love is selfless service to the loved ones from first to last
To make all joyful, comfortable and free to enjoy benefits for
Making oneself well versed in one's devoted service for the
Benefit of all in a creative way like God does to all everywhere!

Ramesh T A
Who Can Be Respected?

What can we say about the people who believe
That those who have got money are great and
Have to be respected first before others who
Are respected for quality of mind and nature?

As people won't respect such die-hards, they
Try all means such as funding for the charity
Or such matters to show they are great because
They have money and do donation works to all!

Even then after doing all those things, they
Feel jealous of others having great respect
In the society for their good nature and out
Going concern for other suffering ones outside!

Respect should come naturally but never by any
Other means that is artificial ripening of fruits!

Ramesh T A
Who Can Bell The At?

Fight between technology and terrorism leaves no place for Peace and love to play any part in the material world today! Between conventional and guerilla wars the world is now like Ant caught between water and fire unable to decide the way out!

It seems there is no chance for peace to be the end for the fight Between two hardliners going on unabatedly sans any respite! Hardliners, Trump in USA, Putin in Russia, Kim in North Korea, Erdogan in Turkey and Rodrigo in Philippines too won't budge!

The last straw on the camel is the testing of Nuclear weapons By North Korea has triggered the imminent doubt that World War III Seems to be on the anvil for all hardliners to strike as hard as They can to make the world a hot spot for eternal wars!

So, who can bell the cat to open talk between who and who to Stop wars that may end the world benefiting none damn sure!

Ramesh T A
Who Can Excel Death?

For all kinds of people the end place in the world is graveyard; 
However luxurious one has lived or built tallest buildings here 
The last place for the body to rest is graveyard and then gone!

However sophisticated one may have lived in the world for long 
Or short, yet, the end for all is sudden death by heart attack! 
There is no exception and no one can escape from this end sure!

Along with the death, the memories and knowledge of one go too; 
No one has yet found out how to save one's memories in DVD disc 
Unless one expresses all of one's memories in Computer forever!

Expression of knowledge and memories of one's life in articles, 
Autobiographies, stories and poems remain to answer to all the 
Queries some may enquire in Google search after one's death...!

Reincarnation of one with memories of the past life only can have 
The chance to continue with previous works better to finish well!

Ramesh T A
Who Can Love In Life!

Many lovers without saying their love
To the one they love live in dreams ever!
Many a love remains in the heart sans
Anyone knowing it till the last moment!

Life path changes and many live a life
They cannot enjoy as they could have
With the loved one of their heart in life
And pass the time sans any taste of love!

Finding the way to express love is a must,
Without which love of one becomes a waste
And fades into thin air or like the flower that
Has bloomed in the desert unknown to all!

The art of love is the greatest of art in life;
Only knowing it one can venture on love!

Ramesh T A
Who Does Enjoy The Fruits Of Labour?

Hard working man goes on working to earn his livelihood; The products he has produced is being marketed and sold by The broker giving him a low amount being the first sale!

The farmer or labourer is happy that he gets regular work And pay, the fruits of labour are enjoyed be the receivers Such as the broker and sellers thereafter one by one here!

Like the farmer or movie director, who works hard, never Knows what will happen to his produce or film until it is Welcome by wide audience or else he will be nowhere ever!

The fate of writers and poets is also like the above workers Who work hard feeling that their debt is to serve on ever Sans expecting high pay or reward but regular work and pay!

Fate of the hard working lot turns into a boon only by the Nod of luck not knowing when the lady luck will smile on one!

Ramesh T A
Who Has To Change?

Painful days never seem to end overnight
Even though season has changed to next
Season according to the time we watch...!

It's due to climate change perhaps, all feel,
Minding each one's business ignoring that;
For nothing can be done with uncontrollable!

We are left at the mercy of Nature forever
And this all should not forget and stop ever
Meddling with its course by our power poor!

We are not the creator of natural design, in
Which we are also part and parcel whether
We accept it or not as that can't be changed!

Our ego, power and greed make us feel we can
Change all ignoring the fact we have to change!

Ramesh T A
Who Has To Rule To Bring Peace To World?

All world religions have come into vogue around 500 AD;
All religions highlight peace, love, truth and brotherhood;
Religious conversions have created all problems and turmoils
As spiritual pursuits by intellectual knowledge none aspires!

Rivalry among various world religions divide and rule people
Taken advantage of by politicians everywhere in the world ever;
Knowledge of science and technology has modernized nations
And civilization with or without culture everyone wants to have!

Religions say that love is God and truth is God, but both
None seems to pay attention to in the fight among religionists
Splitting the world into many pieces towards its destruction
By terrorism and Nuclear weapons proliferation by many nations!

World control by hardliners needs to be transferred to the hands of
Leaders trusting love and truth to govern people to world peace now!

Ramesh T A
Who Is A Savage And Who Is Civilized?

In the ancient time, when savage way of life was in vogue,
Might was right to settle matters by fighting with each other;
In the modern time, after advancement in knowledge, life style
Has changed due to civilization with right as might afterwards!

Wrong use of development of science and technology in wars has
Brought in vogue sophisticated weapons of mass destruction now;
Is world history repeating itself again as was in the ancient time
By making might as right to settle scores in wars often nonstop?

What is the difference between wars then and now going on ever?
Is civilization also equal to savagery as possible in mathematics?
It looks illogical to have this kind of equation now and forever;
In mathematics anything can be proved in anyway, but it's nonsense!

Art for art's sake is foolish as the way proofs are made in maths;
Art is for life and mathematics should be meaningful to accept ever!
Civilization sans culture is like the civilization of Aliens we know;
The question is - Do we too live so after making developments so far?

Ramesh T A
Who Is Best Guide To Society?

Face shining as Sun's rays and eyes penetrating into anyone and anything he sees realities as they are to express exact ideas to all! Not siding to any side and judging the right and wrong of things he conveys matters for all to think to decide about all as to their reason!

This is the work of a journalist based on exact information but not a story writer based on imagination to entertain to pass the time ever! Article writers analyze the situation and give ideas men may think to have a correct assessment of matters to have a correct conviction!

Everyday sans seeing the news and articles no one seems to have a good understanding of the situation so as to decide matter well sure! Followers of daily news know who can be believed and who can't be So that the future of the nation they can know pretty well to plan life!

National development predicts individuals' prospects on their careers To progress on fields they can shine best contributing goods to all!

Ramesh T A
Who Is Better?

Who is better -
An educated fool with you
Or uneducated one?

Ramesh T A
Who Is Courageous?

A group supporting, bullying is easy to do;
But sans justice no support can stand long!
This one knows when one faces it alone in life.

Facing challenge alone and standing after fall
Really one can prove one's mettle sure ever!
This only a man of confidence, courage can do.

Silent persons speak more in action than in words;
But bullying guys speak more in group than alone!
That's the difference between men of words and acts.

Confidence, courage, perseverance keep one steady;
Physical strength, support and money are not eternal;
Clarity, boldness and truth always support the brave!

Physical, material and group support make one brave;
But truth, knowledge and timing make one courageous!

Ramesh T A
Who Is God?

All pervading Spirit activating all!

Ramesh T A
Who Is Great - Destroyer Or Alleviater?

One cannot play with fire as it will burn sure!
So also, one cannot play with Nuclear weapons
As that will destroy others and also the user..!

So, what is the use of keeping those weapons of
Mass destruction in store to destroy the enemy or
Destroy oneself and the world at the same time?

Advancement of man in science & technology,
Modernization of world nations and civilization
Seem to be only a folly before Nuclear proliferation!

Is man a great fool to produce weapons of mass
Destruction to feel to be most powerful in the world
Capable of intimidating all lesser developed ones...?

Who is really great and powerful in the human world -
A mass destroyer or a mass alleviater of poverty by love?

Ramesh T A
Who Is Lunatic?

Obsessed and depressed
They have become lunatics long ago
Judging others as lunatics now!

Ramesh T A
Who Is The Master Of The Universe?

All activities of life seem to be functioning by electric power and
By machines functioning electronically in railways, airport and all;
Careful setting of electronic gadgets and devices help men do jobs;
Differences in identity of one and wrong entry of PIN will close all!

Electric power supply if stops due to some reasons, all works stop;
Fitting all things in perfect order only, everything will resume work;
Guarding all matters around, CCTV cameras monitor round the clock;
Highly sophisticated machine world has made man do all mechanically!

Iron, silver, gold and platinum materials form all devices and things;
Joining everything intricately, all work faster than ever before now;
Keeping pace with all machine works, man's brain plan and do all things;
Locking and keeping all in secure conditions, everything is safeguarded!

Man and machine now work side by side like companions everywhere ever;
Nothing goes wrong due to precise precision arrangements by fore-plans;
management of all works have reduced physical activities of all;Perfection is being achieved in works to improve quality in all almost!

Quite a mishap happening due to fire or earthquake or wars arrests all;
Restoring normal activities after all comes to an end, again all begin;Systematic functioning of all electrical and electronic machines start
The life and works of man everyday and end all, if anything goes wrong!

Universe itself is monitored and soon robots too go to Space to do jobs;
Vertically and horizontally everything is being planned to explore Space;
World is not enough and nothing, as things go now towards future world…!

X, y and Z axes with Time, Space special Theory of Relativity was written;
Z world war with aliens is the next man has to deal with to master Space!

Ramesh T A
Who Is The Ruler?

Queen of friends talks all as she wishes,
Tells tales from her own heart ever.....!
Leaders are there or not it is immaterial!

Such a privilege she has attained by fans
Who uphold her being feathers of same bird!
What a pity of the genuine professionals!

Parallel governments are run so in nations,
Where liberty is issued to anyone to live
Whoever who are chucked out in many places!

An asylum turned into place of domination,
Where queen of fox heart takes charge of all
Soon indirectly make all follow her diktats!

Allowing weaker vessel's skill to rule all ever
Gentleman King smiles seeing all just for love!

Ramesh T A
Why Are Some Always Bullying?

Some bully others not knowing they are the object of bully; Those who have no hard work in life, have easy access to all, Getting support for all their things and luck favouring them Know not anything about the hardships of others and bully..!

Also, there are failed persons, due to sadist nature finally, Indulge in bullying good fellows and hard working persons to Enjoy sadist pleasure as they cannot do like others and live Like others in the human society in a honourable way forever!

By bullying, they try to be all right, but only to feel sad in Loneliness due to their inability to shine like others in the Society in which they are placed in high status sans any ability visible to all for appreciation and honour like others forever!

By learning and sincere work, this kind of bullying sadists can Regain a good place in the hearts of others in the society sure; But the habit of bullying keeps them ever away from the common People's hearts that if they realize, may change for the better!

Ramesh T A
Why Bees Buzz Over The Flowers!

Life partners of romance are man and woman in the world; 
Looking beautiful, speaking kind words and loving act of 
Behaviour are the attributes of a woman born for giving 
And enjoying pleasure and whose other name is beauty ever!

Heroism of handsome man is rewarded with beautiful prize 
Which is no other thing other than a beautiful woman sure! 
Romance between hero and heroine in stories of literature 
Revolves round them in love to fulfilment eliminating villain!

As she is born to woo man, this beautiful being is known as 
Woman and are made for each other to support for themselves 
Both in pain and pleasure whether life is bitter or sweet 
And is why each is the better-half to each other ever in life!

Without woman there is no love known in the world and to remind 
This, flowers are there attracting bees to buzz over them ever!

Ramesh T A
Why Blame Rain?

It's been predicted that rain will come within 24 hours;  
I have been waiting to see rain and cool breeze.....;  
Slightly hot condition has changed to cool one now;  
That's all and no rain seems to come now or later!

Many a time it has happened in our sultry town;  
Though sea is there, weather seems not to change.  
Rain also never comes so easily long every year;  
But the average rainfall per year seems to be same!

Instead of rain coming over the town, it can fall....  
Somewhere on the nearby agricultural field, farms,  
Where rain water will be of much use and benefit;  
This is what many feel when rain goes to sea ever!

Due to man's fault, Nature has changed much....,  
Say experts and so, what's the use of blaming rain!

Ramesh T A
Why Do Moths Rush To Fire?

Like moths many rush to the fire by its attraction
Not knowing that it will burn to death all who play
Around and touch it sans any consideration of one!

People are attracted towards egregious, fake things
And realization comes only after downfall in the
Gamble before starting life again with good people!

Good, honest, truthful and talented ones may not be
Attractive for the appearance but only after knowing
The capacity, capability and ability all bow to them!

This is human nature and is the nature of the world we
All live in and why fake ones are at the helm of affairs
Blocking the growth of qualified ones and world progress!

Just knowledge is not enough, but wisdom is needed to
Decide about the genuine nature of things to rely on!

Ramesh T A
Why Doesn't Nation Progress?

Why is water shortage problem coming in any place of any nation?
Many lakes are hidden due to encroachment of lands everywhere;
When floods come, then only the passage of rivers is known to all!

Also, in such places, when weeds are removed, a wonderful lake appears;
That lake later becomes best tourist spot of a historical town;
As all drainage and effluents are mixed in it, lake turns poisonous!

Likewise, many lakes of a well known city have been forgotten long;
For drinking water, from somewhere water is drawn by long pipeline
And mineral water bottles are being bought by all to quench thirst!

Having best water resources spoiled by lackadaisical management,
The scarcity of water is artificially created where water is surplus;
If administration of a nation is done so, how can a nation progress..?

All by wrong political maneuverability, all shortages are created
To take advantage of them for canvassing that to come to power ever!

Ramesh T A
Why Dream Comes?

Dream comes
To make one forget
Worries briefly!

Ramesh T A
Why Dreams?

Without dreams

No one can think of ideas

To realize dreams!

Ramesh T A
Why Family Life?

Disintegration of joint-family into nuclear families
Have made marriage meaningless and a farce now!
Marriages and divorces have become very frequent
Leaving individuals know the value of family late!

As long as youth and body strength are there, there's
No feeling to have marriage and necessity of family!
When health goes down and old age comes, family
Sense and assistance of youngsters glaringly arise..!

Family life is unique culture even individuals of ambition
Can feel its necessity and use or help to continue their
Ventures long as in Space voyages or vital researches
To see the end complete which is otherwise impossible!

Marriage of suitable male and female only is natural
To perpetuate good human species for long world life!

Ramesh T A
Why Festivals And Celebrations?

End of festivals and celebrations is difficult to feel;
But the final celebration lies in St. Valentine's Day
That kindles romantic mood to sustain all odds now sure;
Romance gives the zeal otherwise a boring time to bear!

Likewise, man's life goes on with some incentive given
By such mood kindling thoughts of festivals and love;
Life is being pulled or pushed on to the state we like
The dry land of desert followed by green grassland long!

Just land sans flowers is not interesting even for eyes
To see out something that kindles joyful mood to go ahead
With our romantic ideas to flourish as in music and dance
Programme that's pulled on with songs melodious in life!

Not we now but from time immemorial on in a year all those
Features are designed to make dry and dull life interesting!

Ramesh T A
Why Have We Body?

In the race between mind and body with spirit
Remaining silent bearing all pangs is wonder;
Only due to body we know pains but spirit has
No such feeling at all whatever be the situation!

This makes one to doubt the very existence of it;
But can a machine work without battery power?
Machine is the body carrying smaller units to do
All kinds of works activated by power within...!

In the same fashion God being invisible cannot
We decide about whose existence as nil anytime;
For, without that power functioning as energy
Everywhere nothing can move in the Universe!

Our body only with mind gives chance to know
All knowledge that can't be felt otherwise ever...!
Perhaps by this grand arrangement we are made
To know the grandeur of the great Almighty sure!

Ramesh T A
Why Is Patience Necessary For A Lady?

If a lady wants to give birth to a child,
What will she do seeing a pregnant one?
Will the lady feel jealousy or like to be
With the pregnant lady to know all....?

Will the lady run away to her mother's home
Quarreling with her husband once and for all
And find out loopholes as proof against her
Husband to sue a divorce case in the Court?

If the lady does so, what can we say about her?
Her jealousy has made her weak and fail in life
Not able to digest the situation due to immaturity
And lack of confidence and patience to face life!

A good lady would cooperate with the pregnant
Lady to know about child birth with patience
And would succeed becoming pregnant to give
Birth to a child of her own sooner or later sure!

Even if one becomes pregnant but is impatient,
She will soon meet with the situation of abortion,
Lose the chance to give birth to a good child soon
Or fail to become a good mother to save a child!

For, due to impatience, she may not be able to give
Milk to her child with natural secretion of milk in
Time to feed whenever the child becomes hungry
Not for one or two days or weeks but for six months!

Ramesh T A
Why Joys And Sufferings One Can't Escape?

Human sense such as sentiment, emotion, feeling, desire, dream, Joy, sorrow and so on is the main aspect of human nature ever; Memories, thoughts, intellect, intuition and mysticism are all Common activities of human mind promoting spiritualism finally!

Human feelings, thoughts and spiritual activities are what Make human life possible to survive, sustain and proceed ever In the world we all live in coming from our ancestors and Forefathers making perpetuation of human lives since long..!

These human activities are happening between birth and death Of each and everyone in the world life only, but not in other Worlds, when one dies and reaches there in another dimension Called spiritual state of formless nature of a living energy!

Spiritual state is the free and liberated status of a being; That is supposed to take place after many a birth in the world Undergoing all phases of emotional, intellectual and spiritual Activities to a saturation point of soul in the human world..!

That kind of promotion to pure spiritual state is possible Only when man has experienced all sorts of joys and sorrows in Spite of one's knowledge as to how to become so and tries to restrain oneself of all pleasures as a sage to attain divinity!

Man is destined to be born in the world to know temporary and Permanent natures of things or illusion and reality or truth; All joys and sufferings due to emotional and intellectual acts Only reveal the permanent value of spirit to become so sure..!

Ramesh T A
Why Life And Death?

The soul departs from the body at an unexpected time
Against all speculations and calculations of experts ever!
The longevity or sojourn in the world can't be controlled
As the brief or long life is not in our hands to decide ever!

Fulfilment comes of achieving desires as one has in world life;
If not, one suffers a lot and even it is supposed that one takes
Many births to fulfil all desires in the world before one thinks
About and prepares oneself to attain moksha at the end sure!

This world is only a temporary abode to feel, think and know
All hardships and happinesses to have a balance in enjoyment
Sans any arrogance and domination to have spiritual fulfilment
So as to have eternal state of bliss quite divine in nature sans end!

Nonattached state of love one has only in eternal space of heaven;
To attain that status all have to undergo all tests in the school here!

Ramesh T A
Why Long Spoken Language Can't Be Developed?

Spoken form of an ancient language not developed
Into classical language and later developed into
A modern language won't be of any public use, if
An attempt is made for its script and lipi ever!

For, people of its community will be living not in
One place but dissipated in various States of a nation
Working and communicating in States' languages for all
Purposes with their language spoken only at home sure!

Also, as there is no chance for using it for writing
letters among themselves, articles in newspapers and
Stories in magazines or poems in books, nobody will
Like to develop it for reading and writing uses ever!

Such a community people won't have their own indivual
Culture as they won't have one place of their own avd
A separate identity by their language and literature
Due to lack of its use in public for any purpose long!

Ramesh T A
Why Love Has So Much Significance Forever?

Sacrifice for the sake of love is the top most price one can pay;  
Caught by the spell of divine love, life itself becomes nothing;  
Love has got so much value that nothing can be equal to it ever;  
A saint has sacrificed his life for the union of two lovers....!

That was in the West, whereas in the East, one has built a monument  
In memory of his wife he loved most just as a temple that stands  
As a symbol of love like arrow struck heart, beetle and flower  
And flower itself by its fragrance inviting all to cherish love!

Love makes one even feel nothing about pain due to its influence  
That intoxicates one to forget all woes and worries due to many  
Reasons in the world full of incentives for survival, because one  
Is born here to live life against all odds and hardships forever!

That's why, love has significance and importance forever as it only  
Can compensate all losses of one's life to revive and resume all!

Ramesh T A
Why Many Births Are There For Man?

Suffering a lot, a poet laments about God
Saying that Cosmos is very vast and wide
And it takes longtime for God to attend to
The problems of men as Stars and planets
Are endless there to visit and deal all!

Due to this enormity, by the time God
At last comes to the world, man will
Surely die and God cannot do anything
To set-right the ills of society to
Create a Utopia for solving all matters!

To make our prayers not to go waste, He
Has man to be born again so that He will
Surely get a chance to solve individual's
Problem one day and give him the chance
To see heaven at last he is fully purified!

Ramesh T A
Why Rain, Sun And Cattle Are Celebrated?

All plants, animals and humans are all products of Nature;
Rain, Sun and farming animals are natural resources of Earth
All have to cherish, preserve and flourish to save Earth ever;
All celebrations on their behalves are most important, of all!
For rich growth of crops and fertility of farming fields, rain and Sun play most important roles for the survival of all living beings;
First, rain is worshiped as it's indispensable for irrigation of fields;
Next, Sun is worshiped as it's the supplier of energy for all ever!
For planting, ploughing and growing crops for food for all beings, Farming animals like oxen and cows serve as father and mother
For ploughing fields, dragging carts and giving milk respectively
Under scoring the need for worshiping them as gods lifelong…!
Due to survival and sustenance of all living beings in success,
During the Festival of Harvest just after the yearly harvest, for Rain, Sun and Cattle a day is allotted for each respectively in Gratitude to worship and celebrate with due respect every year!

Ramesh T A
Why Rebels, Struggles, Fights, Wars And Deaths?

What is the difference between terrorists and military dictators? Terrorists are Stateless players, but dictators are State rulers; Both don't bother about the people, but only their diktats to them; Both ruthlessly kill the people, if they don't obey to commands!

People are caught between dictators and terrorists like the ants Caught between fire and river and their dilemma is which one to Choose to escape from immediate danger and destruction of life And properties in States like Syria, Afghanistan and Pakistan...!

In Myanmar Burma, Muslim race belonging to Rohingya is driven out And about seven lakhs of the people have taken refuge in Bangladesh; The people escaping from Syria have taken refuge in Turkey, Lebanon And Europe and terrorists taking advantage of this enter all places!

Rebellions in many States fight for democracy against dictatorship; But the terrorists as intruders plunge in the spoil to create a State Of their own between Syria and Iraq taking advantage of the turbulent Situation threatening the world peace as a whole making world a hell!

Thousand of people have died in the prolonged wars in Syria for the Past seven years with intensive war going on for the past 2 years sans Stop killing innocent people with women and children stranded sans Any help from any quarters and redemption from this hellish bombasts!

All these fights and struggles of people are for freedom, democracy, Liberty and rights to live a honourable life with education, work And better life than before free from military rulers in the guise of Saviours of them and also as dictators in the garb of democratic rulers!

Ramesh T A
Why So Harsh Ever?

Efforts to unite world people and create one world are
Thwarted by harsh words of fundamentalistic extremists
Dividing the world into many pieces by hatred forever
And wars against peace and love that bring all together!

Military rulers followed the policy of divide and rule
And the religious radical bigots of today follow that
To rule the world people to create a fundamentalist one
World to put all in gloom and chaos under their spell!

Instead of making 21st century a peaceful, prosperous
And progressive one they take to the dark ages of 15th
Century and backward inundating all better thoughts and
Ideas under the carpet of fundamentalist to stampede all!

Why are the fundamentalistic hardliners so harsh ever?
Do they consume chilies only as food forever and ever?

Ramesh T A
Why Such A Longing?

Many a time feel I - Am I right?
Am I going on the right route at all?
Is it correct what I am doing ever?
Feel I great sorrow within undecipherable!

Life is going on the world as a journey;
Men are coming and going in places on the way;
Our destination we only know to go only
Our place comes in the long journey of life!

The thing we doing should give us satisfaction;
I am elated in doing creative work often
And yet, the satisfaction I am long for ever
I feel I am not getting at all after achievements!

Why such a longing is continuing even after
I have successfully done whatever I can long?

Ramesh T A
Will Nature Be Merciful?

Rains have fallen more than necessary for the year;
The whole metro city is flooded with rain water....
Making all starve for water, milk and food for days!

Only tall buses can go across the city as usual.......,
But boats are plied to ferry people stranded in houses
Surrounded by rain water making each one an island!

Helicopter services are being lately used to supply
Water, food and other necessities for people on top of
Each and every house in water clogged areas of city.

Railway trains are all stopped as rail tracks are inundated
And in some places railway tracks are washed away by
Floods going very fast to the sea nonstop carrying everything
With them after inundating even Air Ports making air
Travels too impossible for days seeking mercy of Nature!

Ramesh T A
Will Of God Only Can Save Independent Ones!

When problems come, they come in the form of visitors,
Electric supply not coming with correct voltage, water
Supply coming with contamination condition and drainage
Clogging not getting rectified and more all in one time!

They all make maintenance of house a great task for all;
All charges to set-right the problems go beyond budget
Making the house owners go with empty purse before the
Month end, adjusting all with reserve amount is a miracle!

When everything goes beyond control favouring only the
Friends known among themselves, how can an independent
Person tackle everything sans loss to one's exchequer?
Only by the will of God the partial favouritism gets nil!

Whatever be the developments in the modern world, a person
Of Knowledge cannot survive among people of favouritism!

Ramesh T A
Will The Goddess Of Luck Shine?

A considerable
Majority of dull heads
Darkens
All the prospects
Of truly great!

Dull heads
At the top of the helm
Darkens
All the prospects
Of many people
In democracy!

All the progress
Of the talented
Lay waste forever
Without seeing
The light of the day!

For the sake of all
Precious gold is
Thrown into the ocean
Never to be known!

If such a treasure
Is unearthed
It has to be said
Goddess of luck
Is shining on
The rare breed indeed!

Ramesh T A
Will There Be Love Between Venus And Jupiter?

Will there be Love between Venus and Jupiter?

Planets revolve round the Sun in their own orbits;
Some planets align themselves on a straight line
On their revolution round the Sun once in a while;
These are all rare phenomena of Nature in the Sky.

Meeting together of Venus and Jupiter is rare too
Happening as a Natural phenomenon in the Sky!
Searching for the shadow of Pluto falling on the
South Pacific Ocean by plane is great news now!

All planets including Jupiter revolve from west to east;
But Venus is the only planet revolves from east to west!
To see in the Sky after the Sunset in the evening.......
What a wonder if Venus and Jupiter meet each other!

Venus noted for romance and Jupiter noted for wisdom,
If they meet face to face, will there be love between them?

Ramesh T A
Will There Be Relief Soon?

Will there be Relief Soon?

No beautiful phrase and musical word seem to suit
Describing Nature and talk intellectual truth ever
When the mood is out of control looming large on
Endless things escaping all chances to settle all well!

Just for relief when one gets into the world of poetry,
Those brain storming nightmarish matters float on
All matters interesting and creating sense of joy ever
To nothing and frustrate and torture one beyond respite!

What use is there of knowledge and talent one has ever,
When moments of unsolvable situation in life come and
Pester one beyond recovery making this Earth a hell fire
To sustain with tightly biting the teeth to see some relief!

After storm only calm comes and after tasting salt one
Drinks water to dilute the concentration of corrosion...;
But when nothing is available that moment of life is hell
One has to bear all by hook or crook to see relief soon..!

Ramesh T A
Win World Family!

Winners are members of world family;
International friendship is world culture;
Nations function as one world nation!

World family is one as it is Vasudev family;
Over seas this family functions sans discrimination;
Reaching the Stars is its aspiration in all matters;
Limitless love with which members deal all works;
Distinction is the mark they achieve in all targets!

Friends of the same feather they are forever in life;
All ventures they turn into great achievements ever;
Most of their messages many are interested to accept;
Icons are very common in the list of members here;
Long service they render everywhere by their love;
Years of their efforts never go waste but in victory!

Ramesh T A
Wind Comes Before Rain Comes Behind!

Trees have rich green leaves dancing in the wind,  
While the monsoon rain clouds fast coming to town,  
After lashing out in the Western Ghats region first!

There is a saying that 'sound of bell comes before  
The temple elephant comes behind! ' Likewise,  
Wind comes before monsoon rain comes behind!

The whole day hot Sunshine tortures all in heat....  
Without a relief, unless some trees give shelter from  
Radiation to escape from Sun stroke at the noon time!

But quite contrary to that, before evening comes, all  
Things change to invite cool wind and fast rain next  
To make the whole night look like Winter in Summer!

Nature plays hot and cold tune at the end of Summer  
Before Autumn and Winter come with rain behind ever!

Ramesh T A
Wind Mills

Rotation of the Earth produces waves on the ocean. 
Wind produced by the sea waves passes through land. 
High or low pressure is formed on the regions of the world. 
And Monsoon seasons in a year cause climatic changes.

Air charged with power is the wind that flies many miles 
Across lands till it becomes weak or ineffective. 
Nothing can stop the wind force whether it is 
Mountain or river, forest or village, or city or town! 
So, wind power is harnessed to produce electricity 
Necessary for living civilised life in the modern world.

Now pollution is the big threat triggering global warming 
Leading to destabilisation of ecological balance in Nature. 
So, exploration, experimentation and commercialisation 
Of new sources of energy are going on for replacing 
Coal, petrol and diesel as fuels for industries or vehicles. 
According to the availability of natural power, 
Conversions are made in lieu of consuming fossil fuels 
For operating automobiles, factories and home appliances. 
Compressed natural gas converters are used now 
Instead of petrol or diesel to run cars and buses.

Solar power is used for producing electric power 
For the consumption of household machines. 
Nuclear fuel is used now instead of coal or oil 
In the power stations to produce electricity. 
Also, wind power is harnessed by means of wind mills 
For lifting up water from under ground for irrigation 
And for generating electric power too for local use.

So, adapting new sources of energy for consumption, 
Pollution of environment can be curtailed in many ways. 
Wind mills run by natural wind replacing electric power 
Seems to be ideal for agricultural activities in all villages. 
Instead of thermal or nuclear power stations Wind mills 
Can be harnessed for the generation of electric power.

In our road travels to the South we come across
A network of Wind Mills generating electric power,
A wonderful sight indeed to look at in many places!
Each wind mill is like a tall light house tower
Driven by the wind passing through those places.
Indeed wind power is a great force waiting to be
Harnesssed for many useful projects in the future.
Man cannot fly with the wind but he can use
Wind power for many purposes by mind power!

Ramesh T A
Wind Power Adds Fuel To Fire!

Cold wind still creeping through windows
Takes pride in freezing anything and anyone
Even after the hot month of March has begun!

Such a power wind has after water and fire
That keep all in a state of terror when storm
Comes or forest fire rages long anywhere sure!

Wind moves storm and makes rain fall heavy
Moving from place to place to show its rage
By destroying all materials and up rooting trees!

Wind fans slight fire into a mayhem or holocaust
And burns anything and everything to the state
Of skeleton and leaves the memory never vanishing!

Now in the cold season wind adds power to coldness
And makes all shiver till some warmth keeps all alive!

Ramesh T A
Wing Of Imagination!

Imagination is the wing

With which poet soars high to

Sublimity weaving verses!

Ramesh T A
Wings Of Fancy!

Wings of fancy is the Pegasus horse for the poet
To travel as in Time machine of H G Wells anywhere
In all three ages of past, present and future..!

Travelling from one end to the other end of Universe,
He sees planets, Stars and galaxies spiraling round
Black Holes as in a miracle all species of lives sure!

Like beauties of mermaids to divine beings of heaven
In all their free lives enjoying eternal pleasure in
Paradise exotic and heaven of luxurious palaces he sees!

As in the deep blue ocean, angels residing in fantasy
Abodes have greatest joy and pleasure with their mates
On oyster couches none has dreamt in life in the world!

Morn till night, they have all their dealings in paradise
As was once enjoyed by Adam and Eve with all animals,
Birds, fish and plants with exotic flowers of all perfumes!

Night is the time for heaven to open its gate to fancy
For all angels to dance by the twinkling music of Stars
Kindling desire to enjoy pleasure of heaven endless long!

Just long distance to cross and reach each sport of heaven,
He has established secret Star gates in secret places of Earth
No ordinary being can know and use to know heavenly secrets!

By Time travel, poets have visited all places of Universe
From the past to the present and the future as in dreams
None can know unless in their poems written on secret pages!

Ramesh T A
Wings Of Poesy!

Wings of poesy take poet to the world of fantasy; 
Roaming round knows he all about heaven’s realm 
Enchanted by the lovely dances by divine beauties 
According to the music of Universal tune unique!

Renewed with new life poet descends down to 
The paradise on Earth full of fruits and flowers 
Well decorated by green, green trees everywhere 
Making cool under bright sunshine ever all day!

There damsel with dulcimer waits for her divine lover 
Gorgeously attired better than all beauties of heaven! 
Lover too comes with a peacock feather gently behind; 
Strokes her shapely velvet structure provoking pleasure!

Knowing heaven to paradise all, poet composes poems 
Countless in numbers of blissful love known only on Earth!

Ramesh T A
Winter Cold Effect!

Time for feverishness seems to have began
With the Autumnal rain and cold effect of
Coming Winter is written on the wall now!

Increasing body heat and burning eyes with
Reddish colour quite eminently seen for all
Surely indicate the arrival of severity of cold!

Heavy wind pushing all lean persons away
Also a common sight on news channels too
Clearly pledges the coming of severe Winter!

Keeping warmth of the body ever in good
Condition can save one from Winter cold bite
Sooner or later with coming of November....!

Bullying of Halloween's day joins hand with
Cold effect to make worse feverishness for all!

Ramesh T A
Winter Cold Starts…!

Winter cold calls for warmth for the body;
Cold is creeping inside the body to shiver;
Winter mist is about to start its part to play
And to hide all cars, men and things sooner!

This silent cold simply makes whole body cold
Unless one is brisk with activity at home or
Outside home each day till the end of winter
Somewhere in February of New Year, I believe!

If rains are less, mist and cold will be more;
If rains are more than usual, mist and cold
Never seem to a big problem to anyone through
Out the Winter months improving health better!

Dust won't be there and dress won't get dirty
As pollution due to flying and floating of dust
Won't be there and all can breathe fresh air, if
One is hale and healthy by maintenance earlier!

Ramesh T A
Winter Hibernation!

A sort of weakness creeps my whole body;
So tired and so low in spirit, my body aches!
I feel I am sapped of all energy in such a way
I feel like taking rest on the bed and nothing.

What has happened to me at this stage of life?
Is it due to old age that I feel so weak and dull
Or the coming Winter effect makes me feel so?
So haggard looking I have become exhausted!

Nothing seems to bring me to my usual self;
Without any briskness I simply coin words
To make a poetry expressing my status well;
But weakness within me makes me insipid...!

Long night sleep also seems to be not enough;
Perhaps this is stage for hibernation for Winter!

Ramesh T A
Winter Horror Tale!

Winter cold creeping the whole body, flesh and bone,
When combined with horror stories of night, surely
Start jerking movement to the weak hearts very soon!

Blood sucking creatures like bats and other animals
Seem to be personified as Dracula of Slovenia surely
Come to everyone's mind creating nightmares to many!

That was time, when friends were in the childhood stage,
When horror movies like Dracula with fang like teeth
With blood oozing out after he had sucked from victim!

With eyes like burning fire, he memorizes the victims,
Especially young ladies and makes them standstill till
He sucks blood through their neck till he disappears!

Seeing such movies at such an young age, friends talk
About that action and laugh in fun with fearing ones!

Ramesh T A
Winter In Summer!

Cool cloudy days have converted Summer into Winter!  
It's a monsoon magic only Nature can perform ever to 
Delight people who worship Nature as the imminent one!

The worst things of climate change in the form of severe 
Cold and very hot weathers we have seen so far, but this 
Kind of change making Summer into Winter is wonderful!

All day it looks like there will be rain, but only cool weather 
All day long prevails to delight all people in all walks of life 
Appreciating Nature with great feeling of relief in Summer!

The beauty of Sky, green leaves of trees dancing by breeze 
Coming from the South are all a great blessing in disguise 
At this time of the year unlike in other years so far, I am sure!

Climate change for the better is always welcome by all, though 
Man's way of polluting the environment needs to be stopped..!

Ramesh T A
Winter Spell Is On!

All are waiting for the firmament to open its eyes;
But mist covered atmosphere prone to dense rain is
Waiting to let loose heavy down pour of rain sure!

All the roads of the city are filled with rain water;
Buses, cars and all vehicles move as ferry boats...;
Schools, colleges and other institutions are closed!

Announcements of the formation of depression in the
Sea slowly turning into storm are causing concern
And five days of rain are in the offering to cover the city!

November noted for storms, rains and deaths is natural
Every year and this time it rains in larger measures than
As it used to be usually before severe cold weather starts!

Storms, chill weather and mists everywhere mark Winter
Surely is going to make its mark indelible in men's minds!

Ramesh T A
Wisdom

Wisdom lies
In learning by doing
Things well!

Ramesh T A
Wisdom Of Learning And Control

Wisdom of Learning and Control

Self control makes one great among scholars!
Control of tongue saves one from great troubles!
Failing to follow those two sayings is not wise
And lead one to trouble after trouble in life sure!

Going astray men may fight against all endlessly;
But woman fighting so will be isolated from all
Good company however hard she strives later on
And she will be endlessly suffering from nightmares!

Thinking persons never lose tongue in conversation;
Their thoughts and measured words make all listen
And bring honours from all quarters for scholarship
That adds to their character in boosting personality!

There is a vast difference between forest river and
Regulated river like the learned and educated ever!
Also, there is a vast difference between learned and
Self-taught ones in regard to knowledge and wisdom!

Ramesh T A
Wisdom Or Intelligence For Good Life?

Someway or other all want to enjoy benefit in everything; Nothing is interesting, if there's no benefit in anything..! So, money has become everything in the world life today And the value of everything is judged only by money value! There is no chance of doing anything according to desire; All desires, wishes and wants are looked through the lens Of money and then only, all efforts are taken to materialize In the short or long duration of performance of anything..! Likewise, whole life activities are planned, programmed and Executed losing taste in everything, though money is accrued Beyond one's dream or desire till the feeling of dissatisfaction Drives one to seek for fulfilment in something of heart's desire! Mechanical life of fast material world of modern time has turned Man only into a beast or machine or a machine-beast-man in The long run making him long for natural life to live in harmony With Nature he has developed all to destroy with no time left..! Developments made on the basis of intelligence sans imagination Make man a fool as wisdom is indispensable to decide before all The projects taken for execution to achieve ends desirable as Per the wish, wants and natural needs of humans in the world...!

Ramesh T A
Wisdom Prunes Up All To Overcome Grief!

Men may come and men may go, but life goes on ever; These sentiments and emotions we have here only that affect human beings with good heart sure...!

If one dies, another one is born somewhere here; What next has to be done, others proceed with And life goes on its own way in this world ever!

Perhaps to balance population level, storms, Earthquakes kill many men, women and children Though we blame God for the acts sans mercy!

We are all born to die one day as Nature has such A decree of God to obey and it does perfectly its Work nonstop beyond sentiments of men forever...!

Knowledge of this truth prunes up wisdom in all As days go on in the world we are all partners!

Ramesh T A
Wise Way For World Peace!

When North Korea and South Korea join hands for peace,
Friendship and union later, why can't Israel and Palestine
Join hands for friendship and coexistence as two States
And maintain good relationship as India and China try well?

Germany seems to be the best example for such nations now and
Ever to have union as East and West Germany united into one
And also united into European Union for larger union of all
The unions of world sooner or later one day in the near future!

Forgetting hatred on the basis of political ideologies, religious
And economic differences, if all nations join hands for friendship
And peace towards developments in various fields by cooperation and
Coordination on the basis of love, World Union of all is possible!

Union of all nations into one World under the aegis of UNO, which
Is the dream of all world people is the wise way for world Peace!

Ramesh T A
Wish Of World People!

Terrorists are stateless vagabonds belong to no religion,
But want to establish a state of their own capturing
Some parts of the other nations cannot be recognized
In the modern world as that kind of history is over now!

International laws, Constitutions of nations, democracy
And UNO are recognized and being followed everywhere.
When this is so, stateless terrorists' pursuit is a great waste
And misleading innocent people by way of religion sure!

Their fundamentalism of dark ages and extremism are
Dead late for preaching and following in the civilized world
That goes on good education and high pursuits in all fields
Aiming a better standard of life for all people in the world!

Likewise, by religion, many wish for reforms to seek spiritual
Enlightenment like mystics, seers and Sufis enjoy bliss ever..!

Ramesh T A
Wish To Be What You Deserve!

The Sense of Ending, a Novel by Julian Bares
This year Booker Prize is awarded recently!

'You too Brutus! ' by Julius Caesar... and
'Hey Ram! ' by Mahatma Gandhi...and now
'Please don't kill me! ' by Muamur Gadhafi
Are some of the leaders' famous ending words!

We don't know who we are as we all wear masks
Wishing to be so by our desire but not in reality!
But the ending words of person say who one is..!

Let us be true to our Self or try to be what we wish
That the end will be as we wish and show in true hue!

Character is the true colour of any person ever.....
But personality development may refine one better!
So, let us try to be what we wish what we truly deserve!

Ramesh T A
With August Comes All Fun!

When August comes all holidays begin
Both festival and national ones in order
And the year reaches its end in fun and
All kinds of revelries with days moving
So fast that there is no boredom and
Also there is no monotony and fatigue
For elders to youngsters in their own
Ways they will be having engagements
So interesting and enjoyable that all
Days go on fast in occupations quite
Long and never ending with lack of
Sufficient time to do all to get full
And whole satisfaction to invite another
Good year to embark on new projects!

Ramesh T A
With Balanced Mind All Can Be Solved!

Days pass with good and bad things happening;  
Hard times and joyful times are passing clouds.  
If we have balanced mind both can be tackled;  
If not, we have to bear bouquets and brickbats.

By patience many hurdles and traumas can be  
Well managed whatever be the situation or time!  
Faith always helps one to surmount all hurdles  
And bring rich dividends despite all hardships!

Opening one's heart and getting on with truth,  
All bullies and threats can be made nil somehow!  
Only in the beginning there is force full of power,  
But soon they lose ground and become humble!

Whatever be the problem, surely there is a way  
To solve or have easy pass from all troubles soon!

Ramesh T A
With Love One Gains All!

What is most important in life?
Love or happiness or peace....?
All three are equally important!
With one you will have all three!

With love and truth there's freedom;
With freedom there will be joy, peace;
With joy and peace there's satisfaction.
But perfection comes with love and truth!

Love is the beginning for all in life;
Love of knowledge reveals all truth;
Knowledge of truth gives confidence;
Love of confident one is real in life!

Love is most important in life as with
Love only all things can be gained...!

Ramesh T A
Without Sense Of Anything How Can One Do Anything?

Without sense of humour many people are out of gear!
Without sense of beauty, goodness and truth all are in fear!
Without sense of freedom can anyone know what they hear?

Without sense of common touch for all matters many are in tears!
Without sense of being a human many have become beasts in gear!
Without sense of presence many live in the world of dream here!

Without sense of time many indulge in nonsense to get fire!
Without sense of shame many do things as they are in retire!
Without sense of feeling many express poems of funeral pyre!

Without sense of imagination many do write a lot in long quire!
Without sense of wisdom many drag themselves into quake mire!
Without sense of fire within many live a cold world life entire!

Without sense of feeling how can anyone express love my dear?
Without sense of love how can anyone live life which is very dear?
Without sense of dear ones how can one think of switching on live wire?

Ramesh T A
Woes Of All In The World!

Every year Sun's radiation increases on the Earth  
Due to various causes and reasons making man to  
Put an end to pollution and exploitation causing  
Depletion of all Natural resources driving our abode  
To the brink of destruction besides volcanic eruptions  
Still not stopping due to the boiling lava inside the  
Womb of Earth not cooling and solidifying into rock  
As in the upper layers of it along with oceans warming  
Up ever with greater heat due to El Nino effect still....  
Continuously leading to the formation of biggest and  
Formidable typhoons and cyclonic storms destroying  
Cities in coastal areas and ice melting on the two Poles  
Causing increase of sea water levels all round the world  
Inundating small islands here and there to the woes of all!

Ramesh T A
Woman For Love

Without woman

Where can one go for love

In this world?

Ramesh T A
Wonder Above And Waste Below!

Morning calls of all birds are a wonder to wake us all;  
Chup, chup of mynah and ki, ki of parrot birds welcome  
All with vigour and vitality to venture on day's work!

The busy nature of all species in Nature resembles like  
Vehicular traffic business from morning on to evening  
Till night comes with calm situation for to ponder all!

The whole black Universe with Stars in billions burn like  
The night as calm as the cities and towns lights as jewels;  
What a cooperation between heaven and Earth we live in...!

Pollution of all kinds like air, water, environment and  
Sound rock the boat of Earth contrary to poised Stars that  
Beautifully wink at man's dubious advancement of technology!

All disciples of Nature are wonderful in their performance;  
But why the hell man's world is so wasteful in their pride?

Ramesh T A
Wonder I At Nature!

Lovely song delights heart;
Beautiful poem pleases mind;
Sweet art sustains soul ever;
Nature is living art all in one!

Singing bird is amazing wonder;
Swimming swan is swaying beauty;
Colourful butterfly is flower alive;
Nature is divine art all in one!

Beautiful flowers dancing by wind,
Colourful fish swimming in ecstasy,
Stars twinkling as diamonds in sky
Nature simply delights all in ecstasy!

Is Nature in all its glory only on Earth
Or in the whole of Universe? I wonder!

Ramesh T A
Wonderful Ambition Interests!

Each day is a new day!
All try to achieve something;
Useful things done is well;
Otherwise it is waste of time!

The driving force is ambition;
Vision based on knowledge is nice
And helps much to do much
To achieve a broad object in life!

For such men time is not enough!
For aimless ones days may go boring;
Knowledge, experience, vision, ambition
Are necessary to make life interesting ever!

To anticipate a bright morning interest is needed
Based on ambition wise and wonderful for all!

Ramesh T A
Words Of Bards Come True!

What the creative poets and scribes write of their dreams
Sooner or later becomes realities benefiting humanity sure!
Such foresightedness they only have since they only are
Aware of the truth of the past, present and future very well!

That's why great poets are called as bards for their great
Prophecies happen later surprising people in awe and respect!
Words of verses that have come out of their hearts can't be
Neglected or ignored as they are the outcome of experience!

Knowledge, observation, experience and wisdom of great poets
Mould predictive ideas in their visions and dreams so much
That they cannot stop the urge to express ideas in words full
Of wisdom and truth that happen in reality to inspire humanity!

Prophecies of bards are the warning and guidance for mankind
To avoid bad situations and welcome better changes needed for
The world to go on the right track to save world and men to
Live life better than before in peace, prosperity and progress!

Ramesh T A
Words Of Love!

Words of love from distant persons over phone
Indeed kindles sensationalism bringing peace
And hope to the heart sans any direction after
A tragedy that has occurred recently in life!

Beloved ones are really comforting angels in
the world life of humans surviving humanity to
Perpetuate love and peace that brings joy and
Confidence to go ahead in one's venture to glory!

Sans love and encouragement, many a soul would
Not have achieved anything positive and progressive
In the world full of chaos and turmoils destroying
All the good things achieved by predecessors ever!

Words are the beginning that inspire hope and ideas
That maintain love for making changes for the better
For generations to live in love to promote human will
And sense to make the world a heaven to live in bliss!

Ramesh T A
Works And Life Go On Despite Rains!

Roads are flooded with rain water;
Vehicles are running as motor boats;
Train services are delayed or postponed.
Draining of clogged water takes long…;
None can cross the road to go anywhere!

Agricultural lands are flooded with crop
Being completely destroyed for acres...!
Many towns and villages lack drinking
Water, food and electricity for days now!
Situation is going from bad to worse.....!

Seeing sunshine or moon and stars are
Things of the past for a week or so now!
Heavy down pour of rains with thunders
Occur every night non-stop puzzling all;
But works and life go on hoping for better!

Ramesh T A
Works In Fast Material World!

Computer and cell phones use have reduced mind and
Paper works greatly with the click of button ever;
Longhand and shorthand writing works are all have
Come to an end making communication very fast indeed!

The hard work of printing and publishing of books too
Have been taken over by web publishing immediately
With all corrections, editing and cover designing
Works done beautifully as E books kept inever!

The web stored E books can be copied in DVD discs or
Print out on papers are possible to prepare easily
Making all these things instantly for various uses
In the fast material world of modern time we are in!

So many innovations in many fields of works are now
Surely making man supersede previous inventions better!

Ramesh T A
World Achievements!

Fountains and parks
Created by the genius of man are
World achievements!

Ramesh T A
World Friends!

Friends are there all over the world;
But close by there is none to say!
World friends are united by Computer.

Computer is magic box to see them
Whenever we want to have chats
And exchange views to our satisfaction!

The things we could not even dream,
We are dreaming now due to this box
And also have friendship with all we wish!

Peace or turmoil, we have someone here
To have our conversation for the better
And go ahead with out acts with confidence!

Sans peace progress in friendship is mirage...;
But Computer friends are great compensation!

Ramesh T A
World History: A Waste Or Treasure?

Great events both good and bad have a place in world history
To remind all world people to imbibe good things and shun bad ones!
Best events remind all to follow them and continue such ones ever;
Worst events make all abhor such things and remind not to repeat them!

Many ignore world history as waste-paper matter and fail to check wrongs
And when bad things happen beyond control, they say history repeats
Itself as if the bad ones cannot be checked and stopped at the bud itself
Though it is quite eminent that the building events will burst as inflated balloon!

The recorded history is a permanent feature useful to curtail bads in future!
Best things of the past inspire as great literary works to aspire high and
Better works of art and science instead of indulging in war plans ever
That pave the way for destructions and build atmosphere for world peace!

World history is not just a record of war and peace but also a souvenir of all
Best memorable events that inspire and guide to continue best things
As a mark of culture to perfection by proceeding with the best works in
All fields of man's endeavour in the world that enlightens and guides all ever!

Ramesh T A
World Is In Suspended Animation Ever!

Impossible is becoming possible and possible remains
As impossible in the world affairs making all ponder
Over the happenings in the nations of the world sure!

The die-hard North Korea has changed its warring nature
By bringing moratorium to Nuclear weapons programme and
Shaking hand of friendship with USA and union with S Korea!

Coexistence of Israel and Palestine States as good ones
Still remains as a great dream though the possibility is
Ripe all the times for want of proper inter-locution...!

Knowing pretty well that terrorism is fanatical act ever,
Still the terrorists are getting safe haven in some States
Of the world increasing tension and panic in many nations!

World peace, cooperation for friendly works and most of all,
Coordination for the formation of world union are in suspense!

Ramesh T A
World Is One Family!

August month all fruits come to the market;
Big or small, all varieties of fruits are available;
Can there be anyone not liking fruits now?

Delight to take fruits all enjoy good health;
Everywhere all kinds of fruits are for sales;
Fun of the season begins with sweet fruits.

Gathering all flowers and fruits one is delighted;
Having fun with friends on holidays begins now;
Independence day, Krishna's, Ganesha 's birthdays come;
Joyful days one after the other surely are enjoyable!

Keeping up programme schedules is very trying;
Life enjoyed by so many fun times is indeed a boon!
Many have a nice time with the dear ones in this way;
No one is left behind to be enlisted in these fun times.

Openly all greet everywhere to celebrate festivals;
Purpose of all festivals is to unite people for good sure!
Quite a few only seeks seclusion to get peace they long;
Royal families to ordinary men gather for good in festivals.

Stimulated by collective joy all forget enmities to be friends;
True happiness in life really begins only through such festivals;
Universal brotherhood is developed only by such gatherings.

Various groups of programmes unite to enjoy fun collectively;
What a joy and fun society gets through these programmes!
X or Y or Z is not seen as stranger when all gather for fun.

Yearly festival holidays bring all together to develop friendship;
Zeal of mass unity really makes all feel world is one family!

Ramesh T A
World Life

For some a stair way
And for some a slide way
World life is...!

Ramesh T A
World Life To Enjoy As In Heaven!

World Life to Enjoy as in Heaven!

World life of man is a greatest wonder in the whole Universe!
This world, which is also rightly called as flower world is
Indeed gift of Nature that sways all hearts by beauty to love
In joy sans any hatred, enmity, jealousy and envy sure!

Leaves sprouting from the seeds under the soil grow into
Plants, creepers, trees with many branches blooming into
Flowers finally to fruits like banana, grapes, apples, mango,
Jack fruits and so on to enjoy by their sweet taste forever!

Also, from leaves to cereals like rice, wheat and vegetables
Like brinjal, cauliflowers, tomatoes and potatoes to provide as
Food for all to survive, sustain and succeed living a strong and
Happy life perpetuating all species forever and ever in the world!

Nature gives everything in love for all to live in joy, peace and bliss,
But forgetting all these things, still many fight with each other sans
Any sense of reciprocation to cherish love, truth, beauty, joy and
Peace enjoying life in freedom as in heaven forever and ever sure!

Ramesh T A
World Life! (A Loop Poem In Sonnet Form)

A miracle it is to see survival of good people!
People of all categories are many except good;
Good ones are rare to find in the society now!
Now, all are materialistic and money minded.

Mind full of clever ideas to mint money live;
Living life is difficult for meek and dull ever.
Ever there is no scope for sincere, honest ones.
Ones are easy to see in life, but families are rare!

Rare indeed people of virtue to find everywhere!
Everywhere there is sky and also, ocean in blue;
Blue is life's journey for many and so are miseries!
Miseries can be forgotten in the beauty of Nature.

Nature is the source for all living beings in the world;
World forgetting this, can ever live happy life sure..?

Ramesh T A
World Paradise Lies In The Unity Of Mankind By Wisdom!

A great threat to world peace and progress lies in obsolete creed and communism;
Best course can be followed by knowledge of science, literature and humanities
Coupled with democratic ideas of liberty, equality, fraternity and justice sure!

Dark age ideologies and creeds can't be useful unless they are scientific facts;
Economic growth at the cost of social thought will make man only a machine in life;
Foolishness of politicians spoil progress in all walks of life by sentimentalism!

Good governance of government should follow the culture of general knowledge ever;
Hard nuts in high places insist or persist as die hard man of one book to decay only;
Iconic rebels surely take up charge to dispose such obsolete philosophies of die-hards!

Joy of harmonious human develop lies in humanistic combination of work and play ever;
Kiss of love in all serves as feedback and incentive to progress of humankind sure;
Love and peace can be established only by human culture of best ideas, words and deeds!

Multifaceted personality leaders by their versatile geniuses can create One World;

Noble ideas of such intellectuals only pave the way for the formation of Utopia sure;
Origin of such a great dream has truly started from Vasudevaya Kutumbakam of Hinduism!

Popularization of such an ancient, effective ideology only has the capacity to do all;
Quite clear ideas, facts and possibilities are well thought out long ago for common good;
Resolution based on such a noble philosophy only can solve all malaise of mankind sure!
Social ideas of political ideologies have only created clashes between cultures of world;
Truth of all isms should be acceptable by all and should be humanistically feasible ever;
Universal truths existing as treasures in ancient wisdom cannot be shattered by any means!

Variety of political ideologies and parties have sprung up as mushrooms to work as weeds;
World is stirred and shaken up by violence and wars by such harmful ideas destroying all;
X and Y of such untested ideals are harming man's mind, heart and soul towards extinction!

Years of well proven noble, wise ideas are uncared for and kept on the back-burner ever;
Zeroing on such worthy matter everyone's mind should be concentrated to achieve paradise!

Ramesh T A
World Peace Lovers Gather Full Support!

Due to lack of reformation among religious hardliners,
Threat to world peace is ever in doldrums even after
Many years of war on terrorism all over the world sure!

Political hardliners of various hues make use of that
To create riots, campaigns, bandhs and unrest to take
Advantage of vulnerable situations to come to power...!

Hardliners of political ideologies of failed experiments
With military force and dictatorship rule still create
Threats to peace escalating tension all over the world!

Democracy with inclusive political ideology only can ever
Solve the insoluble world peace problem and pave the way
For friendship, developments, prosperity and progress..!

For promoting world human unity, all peace loving people,
Groups, clubs and parties should gather full support sure!

Ramesh T A
World Peace!

Threats of terrorism, proliferation of nuclear weapons
And pollution are jeopardizing the very existence of
World and humankind needing change of situation sure!

The solution to this dangerous problem lies in unity of
All nations and love of all people against them to root
Out the dangerous united efforts on war footing sure...!

Super Powers and United Nations Organization have to pay
Full attention to this grave danger to human world now
And take positive measures in this regard at the earliest!

Preservation of Nature, creation of one world and development
Of human culture or humanism are the need of the hour to
Deal with this greatest danger to bring peace to world sure!

World peace lies in the transformation of world into NO
Nuclear weapon, elimination of terrorism and pollution sure!

Ramesh T A
World Situation

Former world heroes have become mediocre now;
Hence world order is impossible to maintain sure!

World powers of the past ruling many nations then
Left for their land leaving many colonies in trouble,
Though they were given freedom and rights then..!

Afterwards, the Super hero of world wars I and II
Could not do the same saga in Vietnam, Afghanistan,
Iraq and elsewhere due to wrong approach always..!

Problems created in that way remain unsolved ever;
That's why Israel-Palestine, India-Pakistan, India-China,
North Korea-South Korea matters are dragging endless!

Now, for all nations, not communism, political ideologies
And religious fanaticism are threatening world peace, but
Terrorism and Nuclear proliferation are real dangers sure!

Ramesh T A
World Union For Peace, Prosperity And Progress Of All!

As far as world is concerned, European Union is the model to follow
To unite all nations in all continents to form one world union with
The governance of United Nations Organization for peace and prosperity!

All will have pride in calling themselves as World citizens submerging
National identity and sovereignty of each cherishing unity, friendship
And love with all by providing food, clothing, shelter, education and job!

Giving importance to intellectual knowledge all differences of religions,
Cultures and civilization can be neutralized by equality, liberty and
Democracy instead of monarchy, military dictatorship and all world isms!

Sharing natural resources by all in fair distribution of food products
And sharing of rivers, lakes and all maintaining clean environment to
Breathe fresh air humanity can live in harmony with Nature to save Earth!

By international friendship among all citizens, developments in all fields
can be geared up to prosperity and progress by cooperation and coordination!

Ramesh T A
World War III!

Will there be third world war among the nations of the world on what basis? This is the question everyone thinks about reading the world news today! Will the war begin due to religion or ideology or military might among nations? People think over these matters as they watch bombings going on somewhere!

Terrorism of the Stateless players is posing as great threat to all now sure! Now hardliners leading some great nations are making all think of world war; Relentless testing of Nuclear bombs by North Korea is the big news now That makes all speculate over who will win - USA or North Korea, if war starts!

China, Japan and South Korea are much more concerned than all others Being the neighbouring countries of East Asia worried by Indonesia, Philippines And all others around that part of the world and also speculated by the world Looking for Russia's response in this adventure being the top anti-terrorist!

Outdated strategies of balance of power has no place hot enough ever To play the game of international politics among the war minded world nations!

World Wide Poetry Websites!

Where and when does poetry come to the rescue of many ever? When there is no chance to share some significant ideas due to Lack of time, opportunity and listening person, writing down on A diary in some form is the only way and there poetry helps best!

My poetic career has started like that at first and the collection of Such ideas have become poems and those poems have become Books with ideas preserved for the present and posterity making Them into treasures as time went on appearing on websites later!

Many poems like drops of rain making into floods have inundated Many pages of diaries turning into poetry books like the many Storeyed buildings with foundation of great ideas as their base For the reading pleasure of all and also as a guide to some in life!

Many men have missed such a chance to preserve their great and Best ideas making their long life as a big waste useless to all ever! Have they thought a while in this way, they too could have become Best citizens of the world one day thanks to world wide websites....!

Worship Work As God!

The work we do is the God we worship ever;
We survive by this God, but not anyone else!
We had lost all belongs in our ancient nation
Due to disturbances caused by foreign invasion!

Looking for peaceful place to settle and do job
Traditionally famous for in the textile line ever
We came down to the South of India in stages
By migration for hundreds of years with hope!

We forgot our language, development of script,
Any record or history of our migration due to
Uncertainty and instability in all places in our
Migration just maintaining our spoken language!

Ever panic stricken we mingled with local people
Following their culture, language and system in life!
Except by weaving work our survival could have
Ended long ago and so, we worship our work as God!

Wounds And Balms!

Gloom prevailing by dark clouds in sky,
Then heavy down pour of rain falling,
Heavy wind banging windows and doors
And not allowing even birds to reach nests
Besides making cars and vehicles go slow
As if they are all floating on the sea blue!
These say seeing the scene my poet friend!

But in the South down below the big cities here
All day is hot with no sign of rain of last night!
Cloudy evening here too now makes us feel
Such a scene can be seen soon sure, dear poet!
Also all dancing under the droplets of rain
In the beach is the next scene I may see soon!
Nature sustains us with wounds and also applies balm!

Wrong Choice In Marriages!

Wrong marriage alliances are due to wrong choice
Made out of improper exchange of information ever
Leading to failure of marriages in most cases sure!

Due to love marriages in known circles, better choice
Cannot be made for many in the modern days anywhere
Leading to selection of some third rate alliance...!

To overcome the age problem of spouses in all cases,
A hurried selection of alliance partners is being done
In a haphazard manner leading to displeasure finally!

Marriages are made in heaven becomes true, but wrong
Choice is made due to interference of hell many feel
And suffer for the consequences leading to divorces!

Marriage or not, sans love, no relationship can last
Longer in the world life anywhere damn sure now or ever!

Ramesh T A
Wrong Done By Partiality Cannot Be Rectified!

facing difficulties in the world only one can have true knowledge
Of the world, people, life and the way to lead one’s life well…;
But the one, who has been enjoying the support of persons around
Given by love, surely is unaware of dealing anything with success!

Also, they are unaware of the effect of loss in such a way that
They learn nothing and proceed to do in the same way entering into
Turmoils and go on due to the sympathetic support of all showing
Love to them making the counter parts suffer due to discouragement!

In the long run, many, who are wrongly informed and dragged into the
Wrong side of the group, are stupefied and disgraced for having done
Great wrong in supporting the black sheep but not the good one for
No wrong of one sans able to redeem and renovate good relationship!

Due to wrong understanding and support to wrong ones sans correcting
In the bud itself, many misunderstood ones produce harmful flowers
Hated by all in the end benefiting no good ones to develop a community
That is not having good name in the books of the world men anywhere!

Yesterday, Today And Tomorrow Poetry!

Sans interest we cannot get enthusiasm to do anything;  
No idea seems to strike the mind to do something ever;  
Our mind seems to be blocked from functioning nicely;  
But when in interest, many ideas bombard the brain...!

If all ideas are not expressed in some form or other,  
They disappear like the lightning does after striking!  
The only form of literature that can do that magic is  
Ever our beloved poetry we cherish most in our heart!

In a limited format, Poetry conveys all ideas sure and  
Puts the poet and the readers in amazement quite unique!  
What a pleasure poetry brings when all matters are made  
Into words of wonder in just a single small poem sure!

Yesterday, today and tomorrow only Poetry can do great  
Magic in expressions of heart, mind and soul as an Art!

Ramesh T A
Yesterday, Today And Tomorrow!

What was impossible

Is possible and what's not

Will be possible..!

Ramesh T A
You Are The Judge!

Let the world say thousand things

Take care of your dear heart

For, you are the judge for your self!

Ramesh T A
You Say!

Poems abound here

But how many remains in mind

Only you can say!

Ramesh T A
Your Name Will Be Permanent!

Your name will be written in the Sky
As the countless Stars in the Universe!

Your name will be imprinted on the sands
Of the beaches of the world forever and ever!

Your name will be permanent in the hearts
Of the men of the world forever and ever too!

If you are in the good books of God the great
Your name will be ever in the Sky and hearts!

Ramesh T A
Youth And Immortality!

Maintaining youth till the end of life is impossible;
So also, achieving immortality is impossible for all!
Man has achieved cloning of animals before human;
And is going on cloning human parts for replacement!

When I was hospitalized for mild chest pain a decade
Ago, my thoughts were on youth and immortality...!
By cloning of human body and transmigration of soul
To it as if changing a new dress, that can be achieved!

But making a copy of one's memory and saving it in
A new brain is another difficult thing to achieve sure!
By material science and spiritual science, those things
May be possible to achieve at least in the near future!

Such ideas may be useful to create a novel as Jules Verne
Did in the past hoping they may be achieved later on...!

Ramesh T A
Youthful Friendship Forever!

A joy of walking with friends is unique!
Never a thing called dullness comes;
Only enthusiasm filled with humour
Drives the boat to dream island nice!

Many a time we have forgotten all
In joyous mood nothing can give ever!
In world life anywhere at anytime
What a fortune we have friends so here!

Host and guests forgetting status all time
Indulge in talks fantastic and humorous
That question of equality never arises
And all get mingled in joy unique in life!

Picnic tours to distant places as bees
Always buzzing hovering over flowers
To collect choicest honey for beehive
Surely is a great adventure unforgettable!

Like the bees enjoy honey from beehive
Later in life, friends enliven in thoughts
That always bring joy never growing old!
Youth of life never dies in friendship sure!

Ramesh T A
Youthfulness Is A State Of Mind!

Youthfulness is only a state of mind, it seems,
If one observes the behaviour, talks and acts
Reflected by people who are physically aged,
Mentally wise but emotionally young forever!

Youthfulness reflects romantic nature of many
Capable of taking any risk as a matter of some
Adventure and try to achieve something they feel
Whether it is love or competition or race sure!

That too if we take poets of romantic period,
It's very clear how young they have been in their
Thoughts, words and deeds from young age to old age
Due to their romantic heart that is ever youthful!

Not only poets, but also sportsmen and active ones
In any walk of life shine well due to youthfulness!
