Dear friend.

Thank you very much that your eyelight ignites these poems into life. I have tried to walk on water and failed. These poems are coming to you from the bottom of the pond!

Thoughts are like birds entering and leaving the belltowers of our minds. We are not the origin of these Godgifts.

Both of my parents were gifted poets. However because of lives of self sacrificing love, they did not pursue their own desires. They awakened my love of words in taking me to see a film of Othello when I was 10. Later Richard Wilbur with the poem Two Voices In A Meadow ignited a love of poetry.

A poem my mother Nellie wrote about the funeral of President John F Kennedy:

* 
MUFFLED CADENCE
* 
The sound of shot.
The roar of gun.
Thy will be done
blares the drum.
* 
The sudden shock.
The news farflung.
Thy will be done
beats the drum.
* 
The hour of grief.
The darkened sun.
Thy will be done
rolls the drum.
* 
The sound of shot.
The grave begun.
Thy will be done
mourns the drum.
(It was not for a while after I read the poem that I realized the poem itself was
the sound of a drum with its 4 syllable lines, most 2nd syllables accented.)

Someone I don't know once said of a friend: 'If anyone ever asks what love is I
will tell him of you.' I have been blessed by my Godgiven parents as well as
extended family and friends for whom the above sentence could be spoken.

You have my grateful permission to repost my articles. My poems may be
reposted on the internet and up to 18 poems in books and magazines provided
they remain unedited and include author attribution and link with the poems,
and if paper is involved that it be 100% recycled, cotton, rice or other less
violent paper. Unedited individual lines or phrases may be published with author
attribution. No exclusive rights granted.

I especially welcome their being put with the art of Deviantart and other artist
forums.

The poems have been written between 1956 and now. Some have been
published in magazines, newsletters, and an anthology or read over the air.

These poems reflect my own points of view. The political poems do not
necessarily represent the opinions of my loved ones. To love ones country and
people is a very different thing from rubberstamping the illegal wars of the last
67 years..

In my humble opinion, we are all love incarnate, pilgrims on the road of love,
back to our hearts in which God who is Infinite Love dwells.

May you live in miracles each day and all days, each way, and all ways.

I have put many poems on this website, and it is
my deep prayer that if you want to print any, they be copied onto paper which
does not kill trees.

The first one was written in 1956, and the others since then. When the internet
became available,
they were added onto websites.

If any are upsetting to you, please give me your opinions.

May all of us work to cancel World War III.

Please join millions in praying for rain everywhere in 2013 as needed. If you have trees and bushes please water them daily.

I began internet publishing on Netscape, MSN Groups, and a network in my city. Netscape and MSN eliminated all their websites. An Italy based forum eliminated 2 sites with over 5000 entries. An international socialist forum was hacked off of the internet by warmongers and vivisectors.108 of my Ebooks disappeared in the hacking.

The sun left for Chicago last night..without saying goodbye..
as he the sun has always done. We knew he had gone for suddenly
we felt alone. This morning he was here again! He has just now flown in from
Spain! We knew he was home....for suddenly we feel warm
*2
Today the sun is granting plenary indulgences.. to everyone.. shining on all
.. as he does everyday.. the great sun ball.
*3
Your lightning beams have my dreamstage curtains rent... dissolving actors and
scenes have been away sent
In the prided wood, the Lord of Luminescence gives to each fruit a dewy essence and with light each lemon limns and with love each lime She lines.

The dawn sky looks like a fertilized egg... sending forth tentacles of red life... soon to crack the shell of night

With the stretching lilac bush
the sun has kept his appointed tryst
In her his blaze glows as stained glass
or anointed amethyst

Daybreak ray ribbons...in the stream broken...rippling...
goldfish bread nibbling

The snowman fell in love with the sun queen but around her changed into a puddle.

Falling sunbeam took home as he kissed...
tendrils of rising mornmist

From dreams' reverie and night's revelry....
summoned by dawn's reveille

It is only where there are waves that the dawn sun makes a yellow-light fishing net upon the water... but this is a nonviolent net...which suffocates none... giving them all the energy to be free.

The moon crescent..... bathed in dawn rhodescent.... melts away in sun's........light excrescent

ALL GIVING

Before Himself the sun.. Before His Presence Come His Spirit Rays His ribboned Presents.
Before The Giver Come His Gifts Before the Great Forgiver Come the ForeGifts
The camels gave some of their carafes to the desertcrossing thirsty giraffes

The tree's branched plumes hold her purple plums while deeper into earth her rainward roots plumb.

The tide inrushes to nurse the bulrushes. Streams water meadows where the bull rushes

BEAUTY

*1
The invisible vine of heaven... with endless large brightberried stars
*2
Snowbibbing, peachbobbing, twigbobbling, babbling, bubbling, burbling brook seaward bound
*3
Beauty is not acting.. yet is He all-attracting

*

COURAGE

*1
Some said that Francis from Assisi was a coward..was a sissy until the day they watched the maneating Wolf of Gubbio kneel at his feet
*2
Dandelion spheres...Each ball made of spores Each seed without fear floats away from his core Courageous parachutists each making the jump... pioneers floating to worlds new..alighting with nary a bump

DIFFERENT DRUMMERS

*1
Rulemakers ordained that the morning light and the river water... take 1 step at a time down the waterfall. Both ignored the law as one downspilled and the other downpoured.
Angel winds forever rustle the Crow's Great Spirit feathers

Said the wind to the rose, 'Bee is not a humbug, merely a humming bug.'

EARTH

She chainsawed down a row of septuagenarian pines... I walked up the driveway as a birds' nest, now empty, rolled toward me.

Filbert pearls from forests unpurloined. Nut trees give all to all Who can steal the free?

One day soon the crown jewel pears lying on wood's moss velvet will be ignited by rainrods and sunbeam sceptres.

Tiny acorn germination.. greatoaks the German nation.

Wellwater through root.. upwells through stem flute.. until it swells in the music of fruit.

Where has gone evening's light ochre? into the leaves of the okra into the blooming orchids

On the shore near kind ones, nests are built by will of wasps Amongst the lacy willow's wisps one can spy the will o' wisps

Great clouds sift...Silent and swift... their flaky gifts...into fluffy snowdrifts

Eminent Domain: Do weeds with their fragile jade tendrils have more eminent domain, , than the gravestones marking places in which Spirit does not remain

Down drip stalactites...crystallizing stalagmites..the hourglass growing Angelic visions heaven born on our earth take form

She has taken infinite creek sips...has the mighty Mississip River collects stream children as she grows as onward to the sea she goes. Many
suns and stars she reflects Forgetting the past forward she flows.

While Scrooge siphons off all the banks are minting
God continues appling and spearminting, sapling and pepperminting

*

EMPTINESS

*1
Tara is the emptiness through which flute music pours. Tara is desireless.. the zeros which multiply other numbers.
*2
As cranes mind not the rain, detached yogis are beyond both pleasure and pain.
*3
The writer was given a vision of the Grand Canyon.. its very void attracting a rainbow which at sunrise arched from one end of its glorious emptiness to the other, a giant polyhued wicket through which the sunball strolled.
*4
When the matchmaker Cupid becomes attracted is it love or cupidity?
*5
In the sidewalk crack grew a clump of violets. The break had let in rays ultraviolet.

*

ETERNAL

*1
A jade curtain of willow fronds parts green earth from that of blue pond. A grey curtain of morning mist separates turquoise waters from blue sky. A more slender veil is at the portal hiding the paradise of the immortal.
*2
Not for long do garish street lights block the shy stars of night. Fire sirens not for long shroud the mornbird's chorus song. The eclipsed moon glows as the clouds pass on.
And the whispers of God... roar through eternity.
*3
There is lifeless symmetry in the gates to the cemetery and lifeless symmetry in the
teeth gates to a carnivore's stomach cemetery.

*4
River ice births ice floes. From their rims melted water flows. The ice remains while
Onward water goes. Thus with bodyleaving. Some back to God soar.
Others held by cold desires stay on earth.. neath sun fire.

*5
His opinions of the existence...of hellfire were absolute..
until his near death experience... after that he knew there was.....
universal absolution

A raindrop quenches...a fruit fly's lifespark... sending

*7
Sunrise on the horizon A Viking ship ablaze...
as a soul reclothes himself in earthly body.

*8
Souls slip from bodyclothes. Actors leave the stage. Snowflakes melt in
waterflow. Birds fly out of cage. Chambered nautilus moves
to bigger room. Wind blows the dandelion seeds The butterfly leaves his cocoon.
Rivers flow into the sea.

FIDELITY

*1
Star Candles burn on the Sky Altar. Sooner or later all vestal
virgins falter. That is why these candles cannot be snuffed.

*2
There is less iniquity where there's not propinquity.

*3
If tonight the stars called back their rays
and in their own beams themselves they arrayed
and to a private party they strayed... but, no, faithful they will stay

Sleeping Beauty seed of camellia lies slumbering in her ebony bed..
awaiting the kiss of the solar king...to awaken and yawn...
and then unfold her limbs to wear her robes

Ever inviolate are the souls of violets. Even when scotched by mowers violent
ever inviolate are the souls of violets.

brothers..? that in the skies of spirit they were meant to fly

*

FORGIVING
Sometimes the iceberg goes drip drip drip... slowly letting go. At other times like Beethoven's 5th there is a drip drip drip crash....a sudden silent cataclysm... as a whole icesheet falls into the sea

2 former competitors for the same man, not yet aware of their eternal spirit love for each other were yet bound by their love for him

As a trespassing bear's snow pawprints near a beehive's storehouse... does the sun melt away so does forgiveness the data banks of the past erase without a resenting trace leaving one free to write new love

Ha! Ha! Ha! said the devil 'Long ago to me you sold your soul for gold!' but only vows are legal which are made with GOD Those made under duress are buried neath sod

To ridicule with a mention a sad man's dimensions... retards ones own soul's quicker ascension.

Does each member of the vice squad see GOD in the unclad Godiva?

Within the husk are bright seeds containing future gold fields of corn. Just so God grows joy's bright kernels inside the husks of cruel scorn

He writes our sins upon the sand. Engraves our virtues in each stone. Washes our errors from the land and magnifies our good in the Heart Of God.

Vowbreakers: Zeus with Calisto... Odysseus next with Calypso

Masters look upon death as a banana freed from peel...a snowflake melt to raindrop a release from apple flesh for eternal seed... a bubble's blissful pop... Spirit heart from ribcage freed
Commingling with full moon, Big Dipper, and all other stars the light of northern Aurora.
With creation too each glow flows into that of foes...One are each and every aura.

* FORM AND FORMLESS

*1 Light leaves the form of the flame... It no longer belongs to the candle parent who continues to glow

FREEDOM

*1 Glowing flame within lightbulb... like yellow feathers of imprisoned bird
*2 More than the rosepink window in Notre Dame we love the unfiltered sun...bathing us from many directional beams of light...no media interfering or interpreting
*3 Government whales.. time to release all innocents....including Jonah pot smokers
*4 Stabled horse..Life of slavery Jailed in concentration camp to give children rides
*5 Ripe dandelion gave silent sermons on loosing hold.. and of her seeds letting go

* GRACE

*1 A traffic policewoman stands at a red light.. waving everyone through.. like visible grace from an invisible guardian angel.. turning all to green
*2 A fire in the church belltower. Since the structure was made of stone and
metal..not a single bell
to earth fell.
*3
Waves smash into the rock, which creates seaspray.
Every drop sparkles with the sun's rainbow rays...as the unconditionally loving
turn blows into blessings for their attackers.

*4

We came upon that silent sacred place...in which holy deer make sleeping space

*5
She took the direction and number and species of birds in skyflight...
as guiding messages from angels written in winglight.

HEALING

*1
Does a field of sunflowers need to believe in the sun? Will their
heads turn to watch Him? Will they grow toward Him whether or
not they are agnostic sunflowers?
*2
Evicted from their home cloisters...trillions of innocent oysters
giving hepatitis and anaphylactic shock when deprived of their sea moisture
*3
Tears of pain.. in anger's heat... turned to the steam, the fuel of her soul train
*4
A reflecting lake or mirror or all-Present listening ear

The mantra Gayatri, a ladder to the Lord of Ganapati

His heart was a mansion with infinite free chambers. His heart was a hotel open 24 hours.

Young souls are hard sour and green fruit. Old souls are soft and sweet and pink

Nyctitropic plants toward the darkness curl as in pain does the soul into inward God unfurl

The mercy rain follows dry river bed hollows Soon are new shallows.. then deeps which all hallow.
Should one say 'if you won't vivisect a tree.. don't critique poetry'?

Should a poet spirit be confined to the 5-7-5 police of haiku restraints? Who but God can revoke poetic license?

Western guitars Eastern sitars Melodies from each rise to the stars

Above us seven birds on a bowed branch.. seven notes of a score..... visible melody

As a parent with unconditional love for a Godsent handicapped child so poets often keep alive their imperfectly formed creations.

The storm orchestra's clashing cymbals...transcend weatherman's sunny day symbols

Mercy Rain is quiet today... her drops more silently than iceskaters inscribing circles in the lake. Yesterday she was happily tapdancing on the tin roof.

Some perfect poems are brief yet contain all like a raindrop imaging the morning star
.. an unshelled nut holding 1000 forests.. the eyes of someone in love

Is it crime to pour acid on garden saplings or critique art?

Can the meadowlark withdraw her song.. does it to the whole world belong?

She pours white onto her palate..turning some red to pink some blue to aquamarine...making saffron from orange and lime from kelly green...as her love as well.. lifts blacks and grays...from auras each day

Some did accuse his muse of being on and off in inspiring the great Rachmaninoff.
For his music he needed no muse. Always on... was Rachmaninoff.

Paganini's violin did maelstroms ferment in souls' firmament and others' raintears to fall
Where is the Moses rod sent now by God

The mother cow appealed to human judges that her baby had been murdered...

Eternal chain of kindness: From a stranger the hunter peasant received a

he granted life as a present
*5
Hidden mad cow incidence... their bones murdered into.. gelatin of

sheep it is called tallow. Cast off shells of assassinated clams... gather in the

electroshocked or pitchforked as they fought against the gallows. How many
humans follow the God Who all His creation hallows.

After years of service to be sold or eaten... that is the camel's lot.

Descartes has gone down in history as a great philosopher who said
'I think.. therefore I am'. In that life he nailed dogs' paws to the table so that

The war of the roses is over. The daisies grow by the clover.
In all the land.. marsh, field, woods and sand..Angelswords of Passover

Each enslaved farm animal being fattened up for the kill is a Hansel or Gretel

Salmon is a pretty color but saffron says it better. Salmon a choked fishie’s

Jesus said.. to preach to all creation.

Robins weave nests under the eaves. The woodpecker sculpts
a nave. The eagle takes crags none others desire The winter bear lives in a ls the
gopher before resting in loafers.
The raccoon in tree branches rests. Storks in kind people's chimneys dwell but
the cuckoo steals others' nests.

*2
It used to be that a prolife governor or Supreme Court nominee could support
sending the boys off to war...and chaining prisoners to the electric chair and
enabling hunters' murder of moose and b'ars and still count on the votes of the
prolife stars......May it be no longer.

*3
With each other the stars do not fight, do not war.
Nor is there any fear amongst orbiting spheres.
Neither do they care which have the brightest glow
nor which the shortest path round sun to go

POSITIVE THOUGHT
Every thought or word or verse is either a benediction or a curse.

We have the power to discourage art, hurt a heart, quench a candle, smash a hope, uproot a sapling...unplug joy.. derail a child...with 1 or 7..unkind words.

Trains of Destiny cannot be derailed

Those who wish upon a star...the Star of The Third Eye find all their dreams come true

As streams leaping beyond mountain waterfalls are summoned through meadows to the ocean's call all graduate into God

A half sun on dawn's sea's horizon.. yet we know the other half will soon be rising In the same way do we know even greater power will soon be Elizaing

PROJECTION

Is it the mirror's rejection of our light projections which causes the mirroring, the reflection?

The sun is not at all wet though into the sea he dips. The moon arises out of the bay and yet she doesn't drip.

PURITY

The moon's whitewash by sea did bleach the gold sands of the beach and did on highland blanch the crimson petaled branch

RESURRECTION

Scars have turned to stars, the cross to crown, the rejected rock to temple cornerstone. The metal resoldered is stronger than its original. Wings have emerged from
The most sacred place... where foes have reconciled.

The crown exists before the queen.* The green tiara which clasps the tomatoes precedes them in form as our queenship and kingship in union with God is ordained from the beginning of time.

The April fern as yet unfurled...coiled and curled ready forth to spring with the woundup power of resurrected spring

Where do shattered dreams go? Their bright shards are gathered by angel guards to become shining arcs in resurrected rainbows

Around Golgotha's empty gallows a surrounding light which all hallows

SIMPLICITY

God, the weaving Master, has made manifest purple asters... a teaching to brocaded pastors.

TEACHER

The lighthouse which guards from rocks The star which guides by night The compass needle pointing north The foghorn calling through the mist The Shepherd's gentle calling voice The ship arriving upon the horizon The Healer's touch of grace The pathfinder through trees' maze .. sent by the infinite love of God in which we are always immersed

Nate knew now it was not for naught that Nat him taught about nautical knots

TRUTH

My teacher was surrounded by a circle of His followers. He suddenly teleported
for them from the Tower of London the crown jewels of the Queen, jewels stolen
from India during the 150 years of British occupation. He passed them around
the circle and then... rather than reclaiming them for their rightful land, He
teleported them back to the Tower of London.

Faster than 1000 brooms the Wind has swept. As He passed trees their petals wept.  
The wind has swayed the bonnets of the blooms faster than a million hatteries

Forgive the male adjectives for God.. who is beyond gender.

Our brains are hardwired to be critical. What is loving, pure, joyful flows through. It
is what is not which sticks onto our neurons like barnacles on a ship. Yogananda said
of Gnana Mata that 'she never said an unkind word, nor even thought an unkindness'.
Now when I find myself making a critical mental list, I catch myself and begin to repeat my favorite name for God, visualizing grace being given to the subject of my
critique litany. I have a friend who decided to pray for someone who was giving her
constant opposition. That night in a dream the foe came to her with the gift of a solution
to a mathematical problem she was encountering.

02 Brief Fragments Of Longer Sea Poems

1* Rocking cradle of the world.. sunset stairway to the stars.. only by greatmasters trod... only written on by God.
2* Out of the sea the sun aborning with his awesome light of morning Not adorned but all adorning says to you 'Come! My Mavoorning! '
3* Rain at sea... redundancy?
4* It's snowing at sea... quiet falling in flakes...melting designs.... slip form for All
5* Wavecarved caves in the seagirt rock.. have sculpted it into a seagulled rookery..
6* Every morn...the sea reborn...is smoke and mirrors..... fog and reflection.
7* We gave him a pitcher. He gave us the sea
8* The rock temple to Poseidon will in some millenium show crumbling, but the wavy sea will remain... as ever the ocean main.
9* The tide sent into the cleft of rock Neptune's polyfingered hand of welcome.
10* Without equal, each wave sequel. Land is for eagles. The sea is for seagulls
11* The ebbtide slowly recedes, but in that sweet leg of the sea tidepools, seaweed, shells sunsparks and driftwood.... are his legacy
12* The rain in Maine remains mainly by the main.
13* That sand not soon turn the beachfence into driftwood the artist designed a metal seat.
14* From the shore.. one looks upward to the sanddune grass..10,000 green brush blades trying to paint the blue sky jade* No matter how high it climbs the mountain ash
finds
he cannot stamp his footprint frondprints of green hue upon the sky of
spiritblue
15*
Faster than any stylus squiggling.. can write the sun
in the water wiggling... but when the sea is perfectly still..
it appears it was water which held the quill
16*
Receives all arrows the universal quiver
as the sea receives all lonely rivers
17*
Daily the sea laves with tidal milk waves
nursing in love her hungromouthed caves
18*
Today in their palate of many hues
the sky and sea have 90 shades of blue
19*
Little petstore goldfishes.. suffocating in the tiny plastic bag.. God set you
free...into fresh water rivers which lead to the sea.
*20
Gentler than land's are the seasons of the seas.
*21
The rainbow's end touchdowns in the waving sea. Though she pours her pastels
endlessly, deep blue remains the sea
*22
Surfers delight in the motion of the angry waves of the ocean
as neptune, king of the sea, delights in their mars.
*23
Shadows of fishes play in the shallows above varying
shades of abandoned shells.

Within a wavelaved rock fissure, God hid the fish from the kingfisher.
25*
The rowboat's wake intersected the path
of the morning sun upon the water... effort was squared to light
26*
The sea mirror was framed by lobster traps..until she rose and smashed them
27*
A clamshell holds the seaswell.. Reflected in captured tide.. does Jupiter's
light dwell
28*
Waterfall mist asked the sea 'when shall I return to Thee? '
Windsent seascent everywhere went
As artists long for blank canvases, as sealovers yearn for the blue space of the skysea, the Spirit longs to be uncluttered.
So many shades of blue from royal navy to aqua hue.. without the horizon ship one could not tell sky from sea.
Seacradle is fishes rocking among the rocks but she is slapping at fishermen's docks
For the sun wearing daily a fresh foam frock helping God on all hearts to knock
The full moon lifts seawaves in joy, but only the sun can lift water drops out of the sea.
Blackberried tarts on white lace doilies are the seafoam framed ocean's dark rocks
Ships in bottles cannot sail, but messages unsealed from bottles do, and their words are meant most for those who find the script.
More than the stable shore God hallows the waving sea's shellshod shallows.
In the kinder world there surely no longer shall be shellfish shiv'd to shed their sheltering shells from the sea
Waves will rise in joy, they know soon toward the full moon of the longed for monsoon
Message in sea's bottles. Tidings in the tides. Time's rivers to the timeless sea glide. Every being will with God abide.
Cavecarver tide.. a patient sculptor who abides
He is like the sea: on the surface bubbling with wave effervescence ... in the depths one with divine Everpresence
The sun's fireball has scattered embers in the sea, unquenched by her waters. for love can never be extinguished.
The drops the rain scatters the river then gathers, for the sea who in turn offers them in her great chalice to the Sun Father

One smells seasalt before the first seasight...
of His Eoyal Lowness, Neptune bluerobed. He fills hearts with delight

She picked up only vacant seashells at the shores of the Seychelles.
For chambered nautili hollow were minnow castles in the shallows

It is the trickling time for the tiptoeing tide to float in gifts which abide beneath the twinkling stars' ides.

The tide is afoot! in the 10 million fingers of the sea

As seawaves slapped his sloop he slipped down a sweet slope into sleep

A red light where the road ends at the aquamarine sea.

Aboard the oceanliner they see... moonlight whitewashing the sea

Those who live by or on the sea can most frequently be healed by her empty canvas, rhythms, and frequency

Flags of fog flap not but float above the kingdom of Neptune

The sun scattered a trillion diamonds on the sea...his angels will gather them into a necklace for thee

Her listening heals... because she listens with total presence, without judgment, without interruption, with unconditional love

The sirens in his odyssey kept not Odysseus from the sea

The beachcombing sea gives more than she takes as she secedes

The sea: a blue jewel framed by shells... whose azure and aqua skies are not caught by aquarelles. Her sight and sound and smell.... lift us out of hell. In her space our spirits upwell.

As she hears the confessions of all rivers those on the shore hear the sea.. accepting all she calls no thing heresy.
So many sires he had in Donegal.. so many foremothers in Galway..he was made of
Donegalway
...in every cell of his being the sea calls to itself

That day the grey gulls over the grey gulf were invisible in the grey cover of the gloaming
*61
As rocks girding a tidal pool... As metal setting for sapphire jewel... As rigid bones around liquid soul eyes.. the body frame for the Spirit Nigh
*62
The mountain palm gave birth. Her coconut babes rolled downhill to the ocean.. Now they are islands in that sea.. with hard shells bathed inside by coconut milk and outside by piscean seas
*63
In an all-grey sky through a cloud goblet a sunbeam straw sucked up the sea
*64
The tide casts her slender silver fishnet veil, not to harm the fish, but to float them home to her sea.
*65
I want to be with my love by the sea near his seaweed strewn legacy hearing the gullsong..smelling salt air..feeling the sand arranged by the tide...... my heart slowing down to rhythms of seaslide.. seeing ascent of the Sun.. oer neptune..
watching the rise oer the bay of the moon..ambling to a cafe fireplace to sip berry tea
with book pen and community
*66
Sad was the sea of Being that she was not a river of doing and so God gave her currents. While the woodpecker wooed the woods with his whittling she carved caves.
*67
Birds have oerleapt the sea oarcleft. But she has not been harmed
Bee has the petals of clover cloven but she has not been harmed
*68
Constantinaples: Beneath the spires of Naples and Constantinople lies the sea shimmering in sun's iridescent opals.
.. as humans of varying frequencies float crystallized on their own Spirit Seas
*69
The sea honors the confessional seal... giving absolution to reformed fishermen who no longer club seals
*70
The bubbles, the spray, the breakers which have rent the surface of the Sea...are not sin but joy in being. She receives them... reseaves them...back into her serene quiet deeps.

*71

Some say the sea is sibilant..others that she is engaged in om-ing ... that she roars and crashes, , , or kisses the sand..or slaps the pier or murmurs beneath the moonlight... infinite are her melodies

*72

Korea, India, Florida, Italy, Indenesa, Hawaii, Denmark, Sicily... diamonds ever polished by the sea.. ever cooled by her breeze

CRADLE ROCKED

When the pond was smashed
by his clenched fist..
it became a cradle rocking
for little fish.

Anger is the ore for lovegold.

MAGNIFICAT

Is the painting less beautiful
because it's a forgery of Van Gogh's?
Is sunset lakemirrored less awesome
because not originally lake glows
Does the moon deny in the night
that unstolen is her light?

THE RIVER TARRIES NOT

The river tarries not
over the stones of karma.
To seaward joyfully running
is her destiny's dharma

TECUMSEH MUSEUM ON A HIGH HILL

A Tecumseh museum.. on a high
hill.. full of axes, scalps
and knives..
Someone enters and
walks around opening all
the shutters..
light pours in
One is then
aware.. only of the
supernal radiance.

And from the high hill
distance one sees puffs
from many chimneys.. all
smoking the pipes of peace.

(Native Americans had much
more to forgive than colonists,
in writers's humble opinion)

CONNECT THE DOTS

When I asked my father not to fish
I did not connect to the meat on my plate.
When I saw the film Mondo Kane I did not connect
When I saw the cow on the high school blackboard
marked with dotted lines I did not connect those dots
When I saw the picture magazine with a hyena's face frozen
in terror right before he was killed by a lion I did not connect
When I met a vegetarian I resisted
The different chambers of my brain did not speak to each other.
I now forgive myself.. for having been unripe fruit..
hard and green...unconscious... unawakened to suffering.

ICICLE POINT

The frozen daggers of
unforgiveness..
icicles..
shine in the light
but it is the orb
of forgiveness
.. the miracle
point at the drip
of the icicle tip
which reflects the sun

INVISIBLE GARLAND

Each of us wears an invisible
garland of skulls.. for all
the souls we have in this
or other lives killed, injured,
neglected, for all those beings
whose hearts we have hurt.

God's mercy sometimes
instantly, sometimes through
centuries, turns all the skulls
to jewels.

CROATIAN CREATION

Crocuses are blowing
with the news..
cows are crowing it
and frogs are croaking it..

A most sacred place
in all Creation
is the forgiving ground
of Bosnian Serb & Croatian

SEACHANGE IN HEART WATERS

There are signs of the tide's inrush
as the gulls come closer..
as the sound of waves lapping brings
peace
.. and in the waters of the heart
is a subtle seachange

VIOLET ME

As the sun poured into
her niches and naves
and
her coves and her caves
Mother Earth cried
'You violate me! '

But weeks went by
and she spied
April's apricot apron
and apple blooms
and then she exclaimed
'You violet me!' 

(to a quiet saint, Nita Nickol)

NIAGARA FALLS

Two rock divided branches of the same river of God approach a cliff. They are not waterfall foes. They do not each other oppose.

As each roars over the cliffside, unhurt they emerge as one, some drops rising as mist to bless riparian trees. Made of the Mist are new leaves.

(to the people of the United States and Canada)

TWO NEGATIVES A POSITIVE MADE

As two negatives when multiplied a positive do make .. former foes who seek each others' good cause miracles forth to break

BEING KIND

Those who refuse to harm the hearts of others with humor involving ridicule or cruelty or searing revenge .. are able to call on the aid of the guardian angels and parents who do not forgive as quickly as their human charges.
SILVER SCREEN PROJECTION

She never feels rejection
by others' projection..
as they describe their
own faces..
found in her soulmirror's
reflection...
when they cast
their negative movies
upon her luminous silver
screen. Its very purity
invites the process..
as a blank page invites
pen scrawl.
as a sea receives
rivers. Slowly
others learn it is their
own movies on her screen..
their own faces in her mirror.

BALL TO BALLOON

The ball got lighter and lighter
as she shed more and more
of her past insides....
until she became an invulnerable
balloon.. and soared away
wherever she wished
.. alighting again
whenever she wished

GREAT UNCLE

He was able to forgive
the hunter who shot
his great uncle
in the woods
when angels gave him
a dream.. showing that
the hunter had
let his uncle out
of earth jail...
and ushered him
into the world
of ecstasy.

ALTARS OMNIPRESENT

In doubt or
hesitation
do not falter
at Abba's
omnipresent altars
where
God forgives
all us knaves,
all defaulters

IF YOU

If you do now
your heart unlock
I promise in the future
I will knock

ICICLES

Our enemies..
they were huge
daggar icicles
hanging up high
.. ready at the
slightest sound
to crack down

Time passed..
they dripped
and grieved
at their own
passing
More time passed
.. they glow
in the morning sun
.. crystal..
exclamation points
of joy
with drops at the
bottom

Now all the ice
is gone
.. water no longer
caged by frozen
form

STAR SHAPED SCARS

As she began to focus
on the grace rather
than the pain

Each little scar
turned to miracle star

BOUGH

God looks upon
a broken vow
as on a river not
clinging to
bough

BRIGHT GOLD FIELDS

Within the husk
are bright seeds
containing future
gold fields of corn

Just so God grows
joy's bright kernels
inside the husks
of cruel scorn

DIVINE PAINT

The blue paint
of the third eye
cannot be chipped
away..
The blue eraser
of the 3rd eye
cannot be overlaid
It cancels all
mistakes of the past
.. all dark portraits

HEATHER

The falling snow erases
the criminal's footprint traces
The seas do not record
the weedcleaving swords
of the unknowing oared....
nor does the heather neath
highland mist
seek to remember the
heavy tread
which for wee moments
crushed
her violet head

(to H Schofield)

FORGIVING FOREGIVING

To forgive
is to release
to let go
to fore-give
to give first.

FLOW INTO FOE
When you can flow
into your foe
and witness his
most bright soulglow
love replaces
the wavering
of to and fro

SCARLET LEAVES ORANGE BERRIES

We passed a scarlet leafed
orange berried bush
..crimson leaves anger hued
support the monk- detachment
saffron- colored berries

HE IS CHANGING

You cannot see how he is changing
He is a growing baby eagle
with an unmoving shell
and within him does unseen
the force of Godlove swell.
He is water melting within
the towering iceberg spires
He is coldform becoming formless
through the touch of GodSunFire.
He is the April
leaf ready to unfold
.. which will calyx the fruit
as it turns to gold

CANCELLED STAMPS

God can forgive even
a general's or president's
millions of caused deaths
more quickly than Winston
Churchill's
image on a stamp
can be cancelled... once
a heart decides never
again to cause suffering.

TO UNDERSTAND ALL IS TO FORGIVE ALL

He who rescues an ox
from a ditch might
be muddy for a time
as the lake in which
the lion washed his blood
is for a while
crimson with his anger.

VIETNAM

The soul humbling forgiveness
of the Vietnamese
brings our hearts
to our bending knees

OARCLEFT

Birds have oerleapt
the sea oarcleft.
But she has
not been harmed

Bee has petals
of clover cloven
but she has
not been harmed

THE STONED WOMAN

The stones at her thrown
have become the cornerstones
of her Divine Love throne.

CHERISH THE CHERRYSTONES

Cherish the
hard cherrystones
.. inside each is
scarlet lettered code
They are
.. the crimson chariots
of future
cherries
transformed into rubies
by the
sun's cheer..
for every Chinawoman
and Cherokee
.. every child
young or old
For them.. every year
is a jubilee

(to Patty and Charles D)
(writer was ignorant of
cherrystones as a word
for suffocated clams)

RAM DASS

The Asian Indian Ram Dass
says that good and evil
are a projection of my mind.
Therefore it is myself
I must forgive.

KIND SURGEONS

there are kind surgeons
who stitch up sturgeons
and release them to the open seas
when the high tides are surgin

THE SUN AND THE MUDCLOD

The sun did shine in 360
degrees.. blessing all with her
rays.. one particular clod of
mud.. refused her love.. did not answer the door to her radiant silent knock.. did not.. the gate of his clodheart unlock.. so she held back one of her infinite rays.. but after a while realized that it was silly to waste energy.. and so let her rays shine in all directions as before. Letting go caused more energy to flow: And the mudclud, the hundredth lamb.. did eventually his heart unlock.

PEACE TEMPLE LIGHTNING

Carved in stone in the Peace Temple was 'those who live by the sword shall perish by the sword' but the caretaker of that temple had so learned his lessons that a God-dispatched lightning bolt.. erased those words and wrote in their place 'Perfect Love Casts Out Fear

FISHNET FORGIVEN

The fishing net has straightened out .. and become a dreamcatcher

(to J Lehman and his work)

ARIZONA RAIN

The feathers of the Phoenix bird are not always flakes of fire.. sometimes they are mercy's falling waterdrops
NINTH STEP

She was very upset to find that the woman to whom she wanted to make amends had died. Later she found that by miracle a friend had made amends for her.

BEYOND CRIMSON SCARS

Above earth's crimson scars shine the diamond stars
Beyond earth's greyest clouds shines the great sunstar
Beneath his angry mouth beats his peaceful heart
A paradox is it
.. that his angry words are written with the ink of love

HATE METASTASIZES

Revenge destroys the brain with fire
It is terror and cancer cells' multiplier
.. the great metastasizer...
We choose to focus on the rose rather than on the thorny briars

FORWARD BUTTERFLY

The butterfly does not look back to the cocoon of caterpillar. She does not want to be a Lot's wife...
bitter salt pillar

WILL I EVER BE

Will I ever be
like the peony
which responds to storms
heavensent
by gifting all with
her sweet scent? ..

LAVA TURNS TO JEWELS

She the sea
.. receives red hot
lava
and transmutes it
into green glass jewels.

She the listening compassionate
ear turns anger into love.

(to Lois Lichty who spoke only
of the good in others)

PRAYER

Thank You
for Your descent
Holy Spirit.. Dove
with Your transforming
Touch of Love
in the heart of each
killing general and
judge
prosecutor and gov
and of each of us
and our loves

PLANTS FORGIVE

Some day
the acacia leaves
will forgive giraffes
and in the presence
of koala bears
bamboo shoots will laugh
.. the cows will
be welcomed by
each blade of grass

SNOWMEN

'Snowmen dropp unassembled from the sky' *
some created by sculpting child's play
.. their life models men frozen into cruelty by pain

*(said the anonymous email..)

DEWdropp METAMORPHOSIS

The hanging ice daggers
slowly drip drip drip
and one by one they
do drop
until finally the last
one.. melts and plops..
some day.. it will
be dewdrops

BLUEPRINTS AND WIND

Of our past transgressions..
The Divine Wind away blew prints
and the Sun made reality
of wish blue prints

TO UNDERSTAND AN AGENT IS
TO FORGIVE HER OR HIM

Some agents were threatened physically
or their loved ones threatened.
Some were released early from
jail in exchange for services. Others had hearts’ desires for money, addictions, a person etc dangled in front of them

NONDUALISTS FORGIVING GOD

Nondualists who think that God is the only Doer.. believe that God is the only one they need forgive.

SHADOWS SCURRY

Entities who the dark path represent do forgiven images re-present. They scurry away when the Name of God is present.

GOD IS GUILTY

If God is the only Doer then..even a killer is an actor saying his preordained lines

CONNECTING THE SYNAPSES

When Kissinger declines to hunt boar with Brezhnev but arranges the bombing of Vietnamese.. this is a disconnect in the chambers of his heart

When Churchill directs a ladybug to be saved and bombs millions, . this is a disconnect in the chambers of his heart

When Hitler directs that animals be freed from the Berlin Zoo during the bombing
but kills millions.. this is a disconnect
in the chambers of his heart

Howard Zinn speaks of the disconnect
of bomber pilots who cannot
hear the screams, smell the blood
nor see the limbs being blown
off.. as they are 30,000 feet up

When people stand in freezing cold
for peace.. and then go home
to dead bodies on the dinner plate
this is a disconnect

When teachers show their
cooking classes graphs
of animals divided into
steaks.. it is a disconnect

All these illustrate the disconnect
of distance.. they cannot kill
whom they know but can
objectify beings they do not know

A soul ripe wil not attack
but only in sweetness attract.
It's not sin or lapse
but disconnected synapse

GRASS SEED

She often had to plant
grass seed where
her volcanic explosions
had occurred.

TAN

Dracula was running
from the dawn
.. on vines he tripped
and by temple dogs
was trapped
.. and found as the
sun rose
that he too by Sunlove
was tanned

EDITING

It is easier to
edit what is written
on paper than what is
carved in stone.
Easier still to edit
what is written on
sand or water.

RED DRESS

Unforgiving..
a desire for redress
It is good to shed
vengeance' red dress

THUNDERSTORM

His storm
in the fruitladen
tree released
her grace gifts
everly.

RADIUS RIVER

The radius river
moved..
fanning into a delta
before becoming
the circle sea

LIGHTNING SWORDS

As swords of lightning
cannot cleave the sky
the personality cannot harm
the God in which it lies

FEMORAL

On pot he looked down
at the chicken bones
femoral
of innocent birds
with lives so ephemeral
and decided from the
moment of that day
to attempt nonviolence
in every way

CHILDREN OF KAISER

When her pluto-ruled
underground springs
upwelled into Sagittarian
joy geysers
she was able to forgive
Nazi children of the Kaiser

TREE TEMPLE ROSEBUSH RIGHTS

To destroy a present tree temple
is akin to pulling down a living tree...
to resurrect old rocks..
...or to a psychopath killing
an 'illegitimate' child..

PUPPETEER

Those who believe
God is the only Doer
believe that the Puppeteer
punishes His puppets.

FORGIVING MYSELF FOR UNCONSCIOUSNESS
In the days before 1968
I stood for peace
but sat down to violence
.. vigilied for an end to war
and dined on blood turned juice.

UNIVERSAL

His posts were
usually off topic
and quite misanthropic
but they forgave him
and invited him back
to their paradise in
the tropics

VICTORY OVER TIME

As the physical magnetism
of some can affect wrist watches
so the spiritual magnetism
of the holy
can erase time's karma

HEART OF THE DEER

A tiny percentage
stalked the deer
to eat their hearts
But billions worked
to guard
the love flowing
from those hearts

(in the US, less than
4% of the population hunt..
hunters are down one third
among those 18 to 24)

DEICIDE IS IMPOSSIBLE

The neonazi changed.
He did decide
that if God is light
noone can commit deicide

NO HARM NO FOUL

A message bottled
within each sparkling sunbeam..
'no harm, no foul'
because it's a dream.

WOLLESLEY BEAR

I promise you Wollesley
Bear.. wherever you are
.. that next time I brake
for a butterfly
I'll make sure you
have your seatbelt
on

(Wollesley Bear, temporarily
in golden retriever form)

SNOWS OF THE MOUNTAIN CRAGS

As mountain crags do
hold the snow
though on it mightily
the sun does glow
so does it longer take
for some souls
to release pain which
long ago froze

FRUIT OF CRITICISM

What is the fruit of criticism?
The receiver's heart shuts down.
There is an urge to counterattack.
The ego and the heart are intertwined
so both feel judged and begin
to marshal defenses and to attack.

(Thaddeus Golas: 'In response to pain, expand')

FORGIVE ME LITTLE VIOLETS

Forgive me, little violets,
that in smelling lilacs
I did unconsciously step on
your shy little heads..
with of sensitivity a lack.

AS MOTHER LOOKS ON A TODDLER'S FALL

God looks on error
as a mother looks on a toddler's fall*
.. or on her young son making mudballs*
as the sun
gazes upon sour fruit soon to be sweet*
.. or upon a blow which releases
water from ice freezes

God does not send loved ones to hell
for acting on drives from the outer shell

God is more forgiving
than the daily snowfall which
erases
many human footfall traces
.. more forgiving than
the sea
which holds onto no boat wake
.. more forgiving than
the sky..
which forgets the path of clouds
or the fire
which devours the mistakes of
the past

Divine Love made us
.. anything which is not
of Divine Love
.. is not you.. is not me

FLOTILLA OF BIRDS

On the lake float
a flotilla of all direction flying
birds
neath a flotilla of 1 direction
clouds..

Some had landed first on ice
.. others differently upon the
water

.. In February Mother Earth
forgives sooner than
Father Water..but he too
will melt

DEBT ERASED

It had snowed
and the criminal's
footprints showed
the path to him.

However it was the
same snow.. knowing
he had changed
.. which again fell
erasing the tracks
to a judicial hell

FEBRUARY

A sudden February freeze
arrested the raindrops
on the branch
like a snapshot..
stopped them in their flow
..
but the afternoon sun frees
drops from the morning freeze
... gone the frost
nothing was lost

DIFFERENT RIVER

We are rivers who have changed
in this second..
some of us all has emptied
into the sea..
some is being renewed
in headwaters.

PENTACLES MELT IN THIRD EYE

In meditation he watched
black pentacles
melt in the cobalt blue
of the third eye

and knew someone's
past karma was being
erased

GOD KEEPS NO FILES

God keeps no files
on reformed pedophiles
.. Spirit
creates learning
situations..
with action's consequences..
but God sees
all bodies
as Divine Love phials
and can each soul
undefile
as She erases
all prison files

BOUND BY LOVE
2 former competitors
for the same man,
not yet aware of their
eternal spirit love
for each other
were yet bound
by their love for him

FROM ANY POINT ON THE WHEEL

God can catapult someone
from the most fallen states
into liberation.. while
another remains stuck
in orbital shells
not realizing his
complacence is a hell

33 DEGREE WATER

33 degree water
can be colder than 32 degree ice
for it is not barred
from entering the skin

When Cancer forgives
cancer can disappear

PATIENT TREES

Patient trees
receiving the blows
of elephant tusks, lovers' initialing
knives, 'pruning' shears, moose antlers,
lightning bolts, tornado winds,
utility axes, lumbermen's chain saws

never themselves holding up
branches defensively to fend
off the blows
CLEMENCY

I ask you tenderly
to grant me clemency
as polluted rivers' tendencies
are purified in clement sea.

COLD GOLD

The people's land
was given to the mineowners
at firesale prices.
They hired slaves at
less than minimum wage...
and when the fire
at their deathtrap mine
took the lives of many
it refined
the cold gold.

LOVING FOES

God told us to love our
neighbor as ourselves.
Jesus told us to love our
enemies.
Therefore we are told
to love our enemy as ourselves.

RELEASE THE WASTE

The body should not hold onto
toxic waste
nor should the mind or soul
cling to past hates.

ABOVE FREEZING

To frost had firmed the fog
which veiled the cranberry bog
but now iced crystal jewels
melt into Spirit's drops
LIQUID DECK OF CARDS

Iceberg spires and turrets of crystallized pain melt in warm waters off the coast of Spain.

FOUR ELEMENTS

God's water washes away transgressions. God's fire burns errors to ash. God's earth buries mistakes. God's air scatters them into harmless fragments.

GREEDY CATERPILLAR

Eric Carle sees greed as a hungry caterpillar. May I see it that way too: a voracious caterpillar soon to cocoon himself til his own transmutation ..the devoured sacrificed green leaves of spring turned to translucent feathery invulnerable wings

(sparked by Eric Carle's book The Very Hungry Caterpillar)

ICEBERG

Paradoxically an iceberg overhang is more dangerous when melting than when frozen. As evil is breaking up it can be more unstable and threatening. The wise avoid proximity in such cases.

PEAR TREE RESPONSE
The dump truck with driveby violence
slapped the pear
tree in her branch face
releasing a shower
of her sweet fruit grace
as a holy one responds
to hate with love
moving onward
in his Godward race

PRAYING FOR FOES

Durga decided to pray for a foe.
That night God came to her in the
form of her foes, giving her an answer
to a riddle upon which she'd been working.

GUZZLING BEE

Embezzled heart, can you forgive the guzzling bee
who has taken all your nectar? 'He knew not what he did',
young little bee.

DESPERATE

Those in despair do desperate things.
Indeed, the word 'desperate' comes
from 'despair'.

MOONLIGHT WHITEWASHING THE SEA

Aboard the ocean liner they see
moonlight whitewashing the sea
as do glances and shadows
of saints
in goldwashing our stains
pour radiant absolution
everywhere

UNIVERSAL AMNESTY
God's universal verdict
is 'Not guilty'
as all blessing as the
late afternoon sun
ever gilding trees

WHO KILLED THE GIANT SNOWMAN?

Who has the giant snowman killed?
he who has all around him chilled?
Was it the one who threw pots of
hot liquid upon him?
or the rainclouds who sacrificed
their being pouring their waters
upon him?
or the sun whose rays
were swords knocking off
different of his parts?

Now he is many drops of water
.. pooling at his former base
.. each dropp reflecting
the sun he had hated

COBRA LIBERATOR

The bite of a cobra
awakened him from a nightmare
dream
to an awakened world
through which sunbeams gleam
And he saw
that he was not
a ray of the Sun..
but the Sun itself
and with God One.
Then he was able
to thank the snake.

GREAT BEAR FREE

The sun has melted
a trespassing bear's pawprints
near a beehive's honey
storehouse.. frozen
in the snowlace.
Free now the great
bear prince.

LES MISERABLES NO LONGER
MISERABLES

Melt away now Valjean's pursuers,
who had chased him through Parisian sewers

IGNORANT SWORD

As a sword has the illusion it slices the sun's beams
so do the unforgiving have the illusion they have been harmed.

MULBERRIES

The bike rolled through the
mulberries on the sidewalk
leaving several purple streaks..
but some of the tree's babes
fell into the meadow..
and became new mulberry trees
(trees whose silkworms were
protected)

SLEEPSLIP Version II

As the south wind slapped
his sails and seawaves
slapped his sloop
his soul slipped down
a sweet slope into
sleep

INGATHERER

As the sea does each raindrop,
and all rivers ingather
so sooner or later

flows every soul
to God Mother Father

LAVA TURNED TO JEWELS

She the blue sea..
receives red hot lava
and transmutes it
into green glass jewels
while on land pressure turns
charcoal's black chalk into translucent
diamonds.

She the listening compassionate
ear turns anger into
love.

(to Lois Lichty and her loved ones..
Lois never said an unkind word to
anyone)
RAIN AT SEA

Rain at sea
redundancy?
Are reflected fires
needless beneath
ignited stars?

THE SEA RECEIVES ALL LONELY RIVERS

Sees all arrows
the universal quiver
as the sea receives
all lonely rivers
as the sea purifies
all polluted rivers
as the sea
calms all
ruffled rivers

(to E. M. Hubiak)

SHROUD TO SAIL

The shroud in which she did lie
is now sail for ship of joy.
Her tomb's boulder now
the cornerstone of resurrection.
The mist which clouded mirror
of soul
replaced by God's reflection
and ice of pain on sea did
melt..
it now flashes sun's perfection.

(to JBO)

SEA NILE

Where to salt water
turns the sweet
Where aqua becomes
dee navy
Where robins to

seagulls give way
And the linear
to spherical
gives sway

There the
sea is wed
to Nile..

Some had thought
the Nile
was senile..
but he was far beyond
earth's cares
merged in the ecstasy
.. of the ebttide sea
.. only a murmuring
to say where he'd merged

(to the Milcetich's)

FOAM LACE TABLE CLOTH

Mother Earth set daisy tables that
upon them bees might sup..
Mother Earth
set buttercups
that from them

Mother Sea.. threw a foamlace

that her fishies might dine..
and when they were finished
she slid it off and sudsed the
rock clean with her surf.

UNBOTTLED MESSAGE

Crowned by the starry sky

Garlanded by coral reefs
Starfish shod to copy heaven
Turquoise skirts.. wave slips neath.

Like rubies in rose velvet
Like stars in saffron billows
Like miracle: fall's cherries
in pink spring blooming pillows

Are the quintillion mirrors
Of sun diamonds on an azure sea
Bright rhinestone constellations
Heralds of eternity.

Rose at dawn Then silver morn
Sunset pink aft bright blue noon
Violet throne of King Neptune
Arises in joy to greet orange moon.

Of fingered wind: wavestringed harp
Where aqua meets the deep blue sea.

THE MIGHTIEST RIVERS

The mightiest rivers begin as a pooling of dew, a melting of snowflakes, a gathering of raindrops which grace the grass as they begin their majestic march. Down the mountain and past the marsh they flow to the sea.

MANY TONGUED WATER

revised

Water is silent in ice In baby clouds it says not a word nor in the great Amazon as its power into the sea flows. It begins in lakes to murmur. In rocky creeks as it stumbles over sharp stones in joy it sings.
In ocean storms
its cymbals crash
over rocks.
In raindrops it
tapdances on the roof.
Over waterfalls
with constant drums
it pours
and in the Falls of Niagara
it constantly roars.

FULL MOON HIGH TIDE

As the full moon high tide
in quiet inslides
it dips into rocky pools
dropping its shiny
shell jewels

MAVOORNING

Not adorned
but all adorning
says to you
'Come!

WATER HELD THE QUILL

Faster than any stylus squiggling
Can write the sun in the water wiggling
But when the sea is perfectly still
it appears it was water which held
the quill.

SEAS OF PEACE

The tides of the seas
do wane and cease
.. but the waves of the sea
have no surcease
.. Yet these restless waves
do give us peace
.. most on her shores healed
by her perfect peace

PEACEMAKERS

At times they crash upon the shore
.. sometimes they gently lap
sometimes.. they roll
sometimes they scroll
these waves.. these peacebreakers
.. never breaking the peace..
these peacemakers

FOUR NATIONS

In poisonous prussic acid they
dipped
their lethal harpoon tips

and Norway’s Svend Foyn
developed a gun torpedo
.. a karmic tornado
to slay whales with mechanical harpoons
in calm or in typhoons

(to the people of Japan, Norway, Iceland and the US.. please stop this ancient barbarism as the last nations to slay whales.. the US Govt is allowing Inuit to slaughter whales))

OCEAN CROWN

Change do landscapes
but the seascape..
one cannot look at her surface
and know if it is 2003 BC or 2000 AD

Neath the wingweave
of gulls..

they tossed a wreath upon her
to give her a crown
How absurd.. this tiny little crown.. upon her infinite immensity

.. but she is not interested
in honors from earth..
and she swept it to the shore

NEPTUNE AND THE MOON

The full moon
is a
mate of Neptune
Into the silent
mirroring sea
was thrown a stone
which shattered her face
but calm was restored
and the healed icon
was ensconced
once again in her
watery throne...

He did her array
in azure seaspray
.. and fashioned
a necklace
which heightened her
rays
as he let no drop
go astray

ARRIVE SHE SHALL

Beyond shallows
where
conch has left
his shelter
for a less confining shell
Past sunslivers
quivering
in waves' gentle swell
Away from softly
lappin tidalpools'
diurnal upwell
Daily to her quiet
seasoul
for a contemplative spell
.. come she shall

3 WAVE STEPS

3 tiers
of waves
.. each of them
starred by the
diamond sun
3 rings
.. a triple crown
.. for the horse
as she entered the sea

SAILS

The gale
seldom assails
in freeing
boat sails
beyond the
shore's rocky
mail

UNATTACHED SEA

The sea holds on
to nothing...
sending broken ships
to her earthy floor
.. sweeping driftwood
to her shore
..and lifting her
own essence to the
evaporating Sun
she adores

DEATH AT SEA

In 13th Century Messina's harbor,
French sailors drowned,
their invading sails
set afire by arrows.

In World War I,
thousands of sailors
in just 1 of many battles
drowned in the icy
Atlantic.
Off the coast of Connemara, yet another of hundreds of thousands of fishing boats goes down as men drown.13th C

SEA CURRENTS

Sad was the Sea of Being that she was not a river of doing so God gave her currents as Night was dewing. While the woodpecker wooed the woods with his whittling she carved caves.

THE AEGERAN SEA

Hercules sent a river through the stables Augean. Was the horse manure then purified in blue waters Aegean?

GIFT TO THE SEA

Rivers and rains give to replenish the sea. As they give living waters so they receive.

The gardener gives water today to fruit trees Branches in turn give gifts from their trees.

CHANGELING SEA

At its shores it's a changeling sea. In its depths it lives
in serenity

SEA DARSHAN

The sight of the sky
and the sea!
No green to block
the blue sky..
an empty
easel waiting!
Bystanders flow into
her ancient rhythmic
harmony... only
the waves kissing
the shore... only
the gulls crying
.. only the smell
of her salt water

My love for you.. a yearling became... many eons ago

She is my beloved sister and of all who come her way the assister.

Love... not force.... rides the free horse

Love surrounds hate as the sea laves icebergs.
Hate is frozen Love. God is Love.

From 2 dynasties of love they merge into a destiny of love

Love was the priest who married them.

The break of day! The crack of dawn! Look not at night's
shellshards but at the newbird sun!
What her omnipotent heart ordained, her obedient will obtained.
When comes eternal noon? When soul turns around each no. to on.
Rising waters in a quarry.. fill every niche and nave..
Spirit's rising waters grant each desire in heart cave.
A single silent green light empowered a line of awesome truck might. A single
band of pink dawning light
pushed back the entire greyblanket of night.
Can one brake the break of day? Can one brook the coming dawn?

helps heal the soul

Wind chimes play not on time... but when the Spirit moves.

The South Wind has for the evening donned jasmine scent*

* The wind weaves many white caps so quickly for the blue sea

* Mother Wind moves the water rocker
to and fro on the stormy sound's deeps. On the boatcradle by lapping
waves she is softly lulled to sleep.

* Will, your winded wings will win.

* Clouds' whitewaterweave covered the sky.. and yet
everywhere there was a patch of blue.. it was a different
hue... here aqua.. there cerulean... or teal or indigo

* The east wind blowing westward marries the falling rain
turning her attention elsewhere

* Crosswinds quilt the Connecticut River ever so slightly
but stil the waters flow to the sea.

* As gauzy veils lie on the shoulders of the slender, as avalanche
clouds pour through tall firs, as morning mist
rolls through ship masts, do monsoon clouds flow
over the peaks of the Himalayas

* Froggie croaks on his rock dais encircled by dizzy daisies
throughout summer days. The wind makes them wave in applause.

* The wind has blown away the cloud cover..
and he pond's reflection from grey to blue clover

* Spirit Wind when talking with wind chimes
strikes not on the hour nor at the 'right' time

The Sun

The bee's favorite couplet: a sunup-brimming buttercuplet
*
In dawning daybreak so pure and still he opened the window above the sill and the Sun of Love into room did spill ..
He who gilds the fringed coast Of all buttercups the toast.
More ancient than all.. yet evernew His ray host.
*
The forces of night.. their vanishing might .. melt away.. in dawn's vanquishing light
*
The sun's allgiving gold cheer.. has become the allgiving tree's purple cherries.
*
Popping oer the mountains the dawn sun arose, unrolling through windows welcome carpets.... of red rose
*
It is not the sweet nuthatch but the sun which hatches the nuts of nut trees everyone
*
The sun thought about another's criticism that he lacked focus.. but then began again to shine in all directions
*
moondown is sunup
*
Night can no longer suborn first light's gathering morn!
*
The sun diamond stipplesthe ocean's wind ripples.

Behind sparkling fountain waters sinking climb higher the rays of the giving sun king. We need not seek him. He comes to us.

The sun wears no dark glasses. He has nothing to hide and is not threatened by his own light.

Meat is the food which most harms the earth.
  Fruit is the food which most helps it.
  Vegetables are linear.
  Fruit and nut trees are spherical.

Global baking and Global freezing are 2 sides of the coin of global de-treeing.

Why is the area of most heat and light, the equator, only 70 degrees in equatorial rainforest and 130 degrees in temperate zone desert? Trillions of Trees. Trees as nature's weather stabilizers, trees, accounting for a 60 degree difference between rainforest on the equator and temperate zone desert, have been felled at an unprecedented rate. Harming trees causes fire, flood, famine, mudslides tornado and hurricane.

1. Plant zillions of trees in your yard, in your community.

2.66 reasons to stop mowing *1

3. Eat tree products.. fruits and nuts.. say yes to orchard growers *2

4. Build with stone stucco brick and block not wood. Some companies are making hard material buildings out of recycled plastic. You will nt termite destruction nonviolently, b save the $, time, and environmental damage of paint, c have natural insulation with its energy savings, d. prevent rotting wood e. have better insulation in summer & winter f. end the disease related to living near the mold from rotting wood g. reduce the arsenic in the watersystems, flowing in from pressed wood factories and h. have increasing rather than decreasing equity in your home. Use natural barriers such as bushes, or chain link, rather than wood fencing.

5. Cancel daily newspaper..and magazines and newsletters printed on felled trees, as 72% of the young have get your news on the web. Daily newspapers account for trillions of trees slaughtered annually and most promote anti environment corporations.In the US a high percentage of metropolitan dailies are controlled by warmongers as well.

6. Print on cotton, recycled or scrap paper
7. Use a water spray instead of toilet paper

8. Buy food naturally packaged.. nuts in nut shells, bananas in peels.. buy in bulk. Fruit is nature's most perfectly packaged food. How many trees go into cereal boxes

9. Use canvas bags for shopping.. neither plastic nor paper

10. Stop eating meat, since cutting forests for cattlegrazing is a major cause of deforestation.. Animal flesh yields a maximum of 100 to 1000 lbs an acre. Tri level agriculture (fruittrees, vines and fruit bearing plants) yields over 450,000 lbs. per acre. or 450 to 4500 times as much food as murdered mammals' flesh.

11. Work for peace.. work for an end to giving 10 million a day to violent governments, for the outlawing of membership on arms merchant boards by government officials and elsewhere radically affecting weather patterns.. work for an end to CIA, Army and other weather manipulation through Haarp, Woodpecker, chemtrail cloud seeding and other means. In 1972 Seymour Hersh reported in the NY Times the CIA's attempts through cloud seeding to cause flooding in N Vietnam.

12. Save fruit seeds and scatter them in wild places Rainforest Action Network. The average evaporation of mature trees is 42 gallons a day.. which becomes mist, then clouds, and then rain, eliminating drought.

13. Buy books and greeting cards published on cotton, rice, or other nontree paper.

14. Purchase furniture which is used and refurbish it or buy metal furniture with cotton padding. There are many nontree furniture options. The furniture, lumber, and construction businesses have lobbied for the cutting down of US forests, making the US a land of skinnier younger trees, whereas the UK, some cities in Maryland and California require a permit to cut down old trees.

15. Vote out earth abusers whether you oppose Republicans by voting Green, Libertarian, Socialist, Democrat or other.

16. Avoid fast food places which deforest for their packaging, have no recycling containers in most outlets, and create litter which fills dumpsites and requires labor pickup.
17. visualize sun and green trees everywhere

18. pray, meditate

19. Outlaw junk mail (as telemarketers have been curbed). File a form with the main post office in your area. Return to sender. The GOP & junkmailers are requiring you to subsidize their treekilling and invasive practices.

20. Recycle cardboard cartons at commercial establishments. Recycle your own scrap paper.

21. Leave Christmas trees in the woods. Replace the purchase of dead Christmas trees with artificial trees.. or living ones planted each year in the year. Oregon is the biggest Christmas tree killer, making more than 7 billion annually from deforestation. Ending the purchase of cut trees a. is good for animal habitat b. prevents fires c. supports the rights of sentient trees d. promotes anti global heating air exchange e. saves a lot of money... for giving to your immediate family and friends or to the homeless

22. Save seeds of trees, vines, bushes, plants and scatter them where mowing does not occur

23. Ban the cutting of trees entirely as Thailand has done. (The United Kingdom has banned the cutting of trees after they reach a certain width.. while Takoma Park Maryland in the US and other cities have required a permit to cut older trees. Around the world elephants are threatened by logging, as well as by poaching and war.

24. Stop through lawsuits, networking etc. the 'controlled fires' deliberately set by the US Park Service and the Forest Service... fires which often are made more lethal by the unpredictable wind.. fires which destroy trees, animals, birds, reptiles, insects. The United States is still a land of skinny trees, because of present control of the Usda Forest Svc. and National Park Service by lumber, mining oil and cattle interests.

25. Work for library, workplace, home, and other printers' use of cotton, recycled, or the back sides of already printed paper. Printer and copier manufacturers are part of the problem.

26. Stop the control of national and state executive branch, legislatures and courts by corporate contractors
27. Network with other environmentalists

28. Disinvest mutual funds, pension funds from earth abusing corporations such as Georgia Pacific and other tree killers.

29. Replace paper towels with washed cotton rags.

30. Contact the Usps to give you a Direct Marketing Assoc. form.. which will stop both commercial and nonprofit junk mail delivered to your home

31. Fax gives trees the ax... phone and email are more direct

32. Network with others working to end automatic phonebook distribution which besides killing trees.. would save the phone companies time gas and money

33. Please avoid insurance companies which mandate the killing of trees... (sometimes land speculators buy homes just long enough to put them on the market and profiteer from the sale... after axing centenarian trees... health departments too have joined in this anti health measure.)

34. Legislate underground power lines to save trees. This is done in several countries in Europe.

35. Clearcutting lumber and mining companies have caused flash floods around the world. One such began over the construction of 5000 homes near Beckley W. Va.

36. Lumber companies have put a variety of poisons into the waters.

37. Lumber companies have caused fires from dust accumulation such as the one occurring in Schofield Wisconsin in Oct. of 2005. Fire chief Doug Jennings: 'It is my belief (the fire was caused by a dust explosion.'

38. Using metal spiral staircases rather than wooden ones. Building with metal, stone, stucco, brick, block reinforced concrete protects from fire, termites, the need to paint, keeps houses from floating away in floodsor being shattered by hurricanes, Recycled plastic is now pulverized and with concrete made into building blocks. It is made into other very strong wood substitutes.

39. Both a UN and a UK government report link cattle ranches and dairy products to global warming, as they cause the removalof trees.
Avoid wood chips. In a hot Houston park, wood chips spontaneously combusted, causing fire.

Respond to others. When the lumber industry says it plants saplings, it doesn't say that it takes 1000 years to replace a millenial oak, hundreds of years to replace multicentenarian firs.

There are a number of recycling companies which will put collection bins on your school, library, corporate, community or other property if you can generate 1000 or more pounds of paper per month (poundage varies per company.

Create more green space by building stilt homes on metal pilings in lakes and bays.

Raking leaves a. wastes time b. fills landfills c. costs communities money d. removes blanketing leaves from Mother Earth during winter e. removes nuts which feed squirrels

49 Pain Transmuted

A child's cries in the store
disappear with a cruel parent walking him out the door
but....the cries remain in the heart
*
Humane slaughter.. an oxymoron.. from those who don't know.. oxen aren't morons
*
As small flowers bloom at the tips of glaciers so do children unluckier than I survive around cold parents.
*
Crocodiles shed crocodile tears which blend invisibly with riverdrops when they are underwater. They cry perhaps when they are hunted.
*
Margaret, when we see the Pieta, we think of you. But the frozen marble of pain has turned to rising joy.
*
The ice does not in pain scream when in the sun he melts into stream nor does he scream when he climbs into spiraling steam.
*
Is a swamp a pond.. in a state of despond?

5 Year Prison Sentences For Selling Murdered Cows' Flesh

Ted Koppel, former anchor for ABC's Nightline, said the story he would most like to cover is the prison sentences of 5 years in Mumbai for selling cow flesh in restaurants.

Mumbai has many apartment complexes in which nonvegetarians are excluded for several reasons including the noxious smell of meat while cooking or in the garbage. (The smell some love others hate.)

India has banned the slaughter of cows in most of its states.

COCONUT MILK PITCHER

CENTENARIAN APPLE TREE

She is a train.. each day

She is a river ingathering

With her every hour

MASTER OF ARTS
MASTER OF HEARTS

As ice millenia old
can melt and quench
the thirst of trees,
As a book several thousand
years ago written
can the spirit ignite
As gold found in an
ageless mountain
can make miracles now

As a candle buried
in the attic
can be enflamed now to light
As a seed from 900 BC
can be sunsparked
to life and yield
famine destroying free fruit
As starlight from 900
million years ago
can vivify this moment
eyesight
so the bottled lightning
of divine laughter
reaches the hearts of his
audience
from long ago shows
THE LAST IS FIRST

The rejected fruit
forlorn on the tree

The 100th Lamb realizes

The ugly duckling

The truth that
The last has become first..
shines in the dawn.

Transmuted scorpio's sanctuary is the Spirit Eagle's aerie.

The soul's essence is ever in God's presence, and unharmed by the
fires of creation or the ashes of cremation.

He was so loved by all creatures that when it rained

Candle flame fear not results if you ignite

THE RYE GROWS AWRY

When God's green grows
it's rarely in rows
.. Awry the rye rises
.. unruly the rose.

Unruled the wind blows
Unstraight..river flows
Unchained.. fire glows
rarely in rows.

Not meant dandelions
to grow in lines
Nor at right angles
do streams' rivers wed.

Nor are the fallen snows
to remain unswirled
unsquirreled.

they were not in lockstep
they were curled.

MASTER OF ASTERS

Has made manifest, God, Weaving Master
the unfolded fan spheres of each purple aster
while Mother Earth has knitted strong knots
in the faithful blue forget me nots.
and the sun has tied seamless buckles
from the roots to the blooms of the honeysuckle.

Of all beings, God is the
seamster, the weaver,
the knitter, the tier,
He welds, He unites, He joins
every leaf and soul with His sunfire.

DAFFODIL CHALICE

Father winter
..
he did fill
the hopeful cup of
wee daffodil
with the cold
sorbet
of chill
the icing of
snowspill.

But it melted
quickly..
and soon to
the touch of
the sun
the daffodil
did thrill.

OLIVES OF WRATH

There are olives of wrath
as well as grapes of wrath
... bulldozed
from their mother trees
May God
Who is Nonharming
Who is Peace
change all ways
so that always
peace will be theirs and thine
peace will be for all.. for mine

MAXWELL PERIWINKLE BLUE

Stars
above & their twinkles
are mirrored by
ground periwinkle
.. they do not sparkle
as much as J's smile
breaking through
her cheek crinkles
to JMB

DANDELION BLOOD

Dandelions' blood
is green..
Dandy lions' blood
is red
Because they hurt
They have bled

HOLLY HOCKS

Thought Holly in her hammock
'Never will Holly hock
the seeds of her
precious holly hocks

Their standards of cheer
are receivers of joy

GOLDENROD DUST

Dorothy has grown
since her trip to Oz..
she now prefers
a goldenrod powdered
wild trail..
to the yellow brick road

THE SPUN SUN

The sun
that night did shun
seen everywhere
in trees and flowers spun

JADE LINEN

Ever the tree of linden
is spinning his green linen

GRAPE GLEANINGS

Purple Grape gleanings
spun from sun gleamings
.. like the violet sunrise
shining in the gloaming

ORCHID BEDFELLOWS

They all alight
upon
the orgy of orchids..
the dragonfly
for a place to rest
the bee for nectar..
(though he loves his queen more)..
and the cicada
to munch upon the
leaves

(my muse for this poem
is Joan Beth Clair who wrote
'the black and yellow bee
the black and yellow butterfly
.. on the flower together'
.. paraphrased poorly
from memory)

NO HIDDEN ARROWS

There are no hidden arrows
in the bright golden yarrow
who ever knits her gifts
from the earth's very marrow

FOXGLOVE

The foxglove meant no offense
when you brushed by her fragrant fence
and she slapped you with her white glove

DUNEGRASS PAINTBRUSHES

Paintbrushes.. ten thousand
dunegrass blades: soft spears
work to paint the
blue sky sphere

yet no matter how
many strokes of green
the sky remains
invulnerably blue

CARNATION CORONATION

God's creation:
The incarnation
of pink carnations...
crowning circle of bees
completes coronation

ANEMONE

Beauty gives her

the pink bush of anemone

WILD VIOLETS

The gardening headline

were a persistent weed

they scotch these

REGALIA

A bursting regalia
of blooming azalea
God has enkindled
for themselves, the bees,
and to regale you

LADY BIRD’S COWSLIPS

Painters love flowers for their hues.
Perfumers love blossoms for their smells.
Bees other bees of bloom nectar tell.
Lady Bird loves cowslips for themselves.

Wherever she has trod in the dell
flowertrails to Mother Earth befell
.. daffodils and larkspur and bluebells
daisies and trilliums and cockleshells

FORSYTHIA

Impatiens
are often patient

Impatiens

PHYLLIS

Gladiolas are glorious

DOGWOOD

The sun wooed
the spring woods
Everywhere pink

PARACHUTES

FLOWERS OF FRANCE

Ants help peonies release their incense
Lilacs the wet westwind do scent
1000 blooms
1000 perfumes each heaven sent
.. and the flowers of France have fragrant frankincense

WALLFLOWERS

No more broken hearted wallflowers passed by
No more plants called weeds.. torn out by their roots

HYDRANGEAS

Sometimes confessor priests or flowers speak..
Hydrangeas change their hue
From the acid in the soil
They change from pink to blue.
(to Dave Baldacci who spoke of a row of pink hydrangeas, 1 plant of which had turned to blue... investigators dug and find a gun there)
(Most who kill are 1 time killers.. but when serial murder occurs, the ethics become more weighted)

BLOOMING HEART

The meadows and woods in her heart are

samara starred,
aster spangled,
daisy sprinkled
violet spattered,
buttercup strewn,
trillium studded,
bluebell splashed
dandelion splattered,

poppy peppered
cowslip stippled

GOLDENROD JEWEL

The bee hung upside down

IRIS UNPERPLEXED

NECTAR IN THE CHALICED BLOOMS

There are lilac honey,
rose honey
and honey from daffodils
There is honey from
lilies of the valley
and from apple blossoms
on the hill.
But whether it is honey
from honeysuckle
or from peach and pear trees
any honey eaten by humans
is a theft from the bees.

SUNFLOWERS SWIRLING

LOOSESTRIFE

Loosestrife was slain

But to save the bees,
more are saving her
the water purifier.

NOT BLUEBELL BLOSSOMS

White blossoms give way to sweet blackberries.
Pink blossoms blow away and lo are scarlet cherries.

RELEASING THE CHILD

The director has

MATE MATTER

The mind's expansion

as desire causes Spirit
to mate matter.

THROUGH THE FLUTE

Because of the space

living waters rise
from the roots

juice of mango fruit.
Because of the desirelessness
in the body's chakra'd spine
kundalini rises from the

THE POWER OF EMPTY SPACE

The actionless beauty of
the honeysuckle sparks the
actions of the bees.
The blankness of the page

The desirelessness of the Buddha
awakened the love of his disciples.
The matterless space of the

The charity of the bighearted one

The release of unneeded possessions

Desire rides on rocking horse

ROBIN'S EGG

3 SHIMMERING RAINBARRELS

The storm was full of menacing
dark clouds, hard cold rain..
treecleaving lightning.

BLUE CHALK CROSSES

A vision of blue chalk crosses

They can still be erased..

peace at the end of our forks
peace at the end of our tongues

WOODROW WILSON

Woodrow Wilson never recovered

OLD MEN

The old man running out of his burning hut, set on fire by napalm in Vietnam.
Another old man was not as lucky, bulldozed and buried alive in his home by the tanks of the occupiers.
A third, the father equivalent of the Pieta, silently wept as his son's coffin came home, disgorged from the plane's metal belly.
Countless others were incinerated by incendiary firebombs dropped on Tokyo's rice paper homes.

NO BOMBING OF THE BABIES OF KABUL OR BAGHDAD

Some Christians think

Some Adventists think no

Some atheists think no
theists are among the select

every path to God.
Everyone arrives.
All paths are holy.

HOW MAURY DROPPED THE A

This department store executive
handed out thousands of dollars of cigarettes.. in mental hospital wards.. because he hated forced change..

He adopted 12 people to love unconditionally.. to be present for at all times.. he said he knew this was impossible .. but that it could be no more than 12..

He became a vegetarian in a desire to reduce the suffering he caused,

and decided one day to figure the mathematical probability that with tens of thousands of fingers on the nuclear button no nuclear device had been detonated.. He decided then that the probability was so infinitesimal that a higher power of Infinity must be preventing the detonating.. since no nation since the US in 1945 had dropped the big A..

and he dropped the A from atheist.

PLATTSBURGH MIRACLE

1970, the Fifth of May
One day after
the Kent State Four.
The Plattsburgh students
decide to act
right
from their very heartcores.
They say that in league
with those at Kent State
They will march to
the SAC Air Force gate..
to witness that they
want peace evermore.
The SAC commander now decrees
that any who touch
the Air Force gate
will be summarily shot..
that their fate.
And as the students file by
what a miracle is in store.
Out of base homes come
the Air Force wives.
Holding their babes
they offer their lives
and stand between
the young and the armed
and by their courage
is peace reborn.

A Breeze Of Bees

Bees make honey for themselves
while capitalist human beings let them
labor all day long.. and then steal the profits
Many humans kill whole hives in the winter
rather than let the bees eat the fruit of their
own labor. Sometimes queen bees are
kidnapped. Their wings are clipped so that
they cannot move their hives.

Even their honeycombs are purloined for wax candles.
Some of them are killed by insecticides
sprayed by ecoterrorist cropdusters or municipal
death wagons
Others are killed by mowers, machine harvesters
They are stepped on by hikers.
They are crushed by beekeepers' movement of the racks.

he considered

Paraphrased messages from my teacher:

Subramaniam ran around the world. Ganesha stayed home taking care of his parents and won the race.

Balaram fought the demon all night and brought him to a standstill. Krishna transformed the demon with one smile of infinite unconditional love.

We become like those upon whom we focus.

To describe the negative qualities of a person is to summon demons around that person.

An Odyssey Of Drudgery

For several years
he worked in a freezing pit
in an alignment shop. In
the middle of winter the
grease in the car above him
mixed with melting snow
which ran down his back.
The owner didn't think heat
was important for the employees.

In his next job, after a decade
as a genius mechanic who
gave hard work and fidelity,
he was approached by coworkers
and asked to form a union. Explosive
chemicals, forklift crushings were
frequent. For his altruistic attempt
to affiliate with a national union
he was summarily fired and
given 10 minutes to gather his
10 years of tools before
he was escorted off of the property
by police. 'Right to work'
states don’t require an employer to
give a reason for capricious action
which sometimes destroys lives.
There is no accruing pension. There
are no health care, educational perks
or other benefits.

Next he worked in a factory
with corrosive chemicals which
have for years scarred his neck and face.
He has breathed in noxious fumes,
and labored in 115 degree heat
in summer months. To keep his
job he had to be on the job 7 days a week.
People who had heart attacks and died
on the job were removed from the
premises before a death certificate

work force was laid off.

In that job he was making $7.50 an hour.
Each Koch brother in the last 3 years increased his

He knows he is luckier than those in industries
with the highest turnover.

A UFCW union steward has said that most worker accidents occur in
slaughterhouses.
Workers are kicked, bitten, and scratched in the head by terrified animals
fighting for their lives unsuccessfully.
Contract ear problems from the screaming and shrieking of the animals,
Have problems with bones in relation to the cold storage rooms.
Cuts from the metal machinery, running into computer line knives.

Alcoholism and drug use from trying to deal with the animals' suffering they are
constantly absorbing.
The reduction of OSHA staff and the use of illegal aliens to fill these jobs, some of
the most unpopular in the industry, intrinsically means more accidents.
Electrocution from machinery near liquid secretions.
In slaughterhouses where pig flesh is scalded, there are frequent burns.
Open grease pits for blood, grease, feces, urine are traps for tired employees.
There is ligament tearing in the back, shoulders, and arms from the lifting of 100
lb. or several hundred lb. carcasses.
Carpal tunnel is a frequent complaint of meat cutters.
As a 1980's administration doubled the legal speed of the line, there is a
consequent increase in accidents.
The deregulation of some slaughterhouses has meant less trained personnel.
In fish slaughter, there are also bites, scratches, hook accidents, fishing line
accidents, drownings and other trauma.
Prevention of contracting the animals' diseases in contact with slaughterhouse
fluids (blood, feces, urine, vomit).
Slip and fracture themselves on blood, urine, vomit and feces soaked floors,
Lung problems from constant exposure to feather dust (A Japanese movie shown
on Bravo is a tale of peach trees cut down as their spirits speak to children.)

And What Do The Simple Kings Do

And what do the simple
kings do?

They need not take the
time to woo

By 'divine right'
they seize and rape
the beautiful wives
and virgins
in their kingdom

And steal the gold and lands
of their 'subjects'

And kill the noble stags
in 'the king's woods'
for kings love to
terrorize and to shed blood

And kidnap young men into
the king's army for
nefarious foreign ventures
from which these men return
maimed and old or coffined.

And that's
what simple kings do

Aurum Is The Aura Of Aurora

She pinks the Notre
dame crystal rose
and caps cloud mountains
with pinkest snows.

Sips the dew from chaliced blooms
and tips the trees with saffron singe
and sows the sea with seed light mirrors
and sews sky togas with purple fringe.

Crowing cock thinks
he summoned her quiet
Yet her stillness begets
the bees' buzzing riot

Next kindles the fires in the grates
and sets the kettles on to bubble
Breaks mouni vows as cities hum Om
Lovesilvers the lakes with power to double

She rolls back hillquilts of mysterious mist.
Unwinds vine tendrils so tenderly kissed
Lifts bird crowns from out their wings
winding their throats that they might sing

Wanded by her molten rays
Dracula is melted clear away
Cloistered petals come out to play
Sequestered sequins start to dancepray

Whispers the slumbering
down from dream stories
and swivels faces
of blue morning glories.

Takes down the moon she hung at twilight
Fires up lattice of moving searchlights
as she throws op the east gate in dawnlight
to wait for her God in demibright

Seeing His blazing face
vanished the night
In his unconditional love's arms enfolded
Aurum is the aura of Aurora unfolded.-

Bless The Beasts

In Canada they clubbed the seals.
In Ireland they killed the eels.
Bull fights they waged in Madrid Spain..
a most brutal public kind of pain..
In Galapagos upended tortoise.
In Japan they knifed the porpoise.
In Denmark they slaughtered sows.
In Argentina they killed cows.
In Mexico they beat up donkeys.
In Zaire they caged up monkeys.
In Utah trapped mated raccoons.
In Congo caged baby baboons.
Norway Iceland Japan and US Inuit
hunted the last remaining whales.
In Ohio they crushed chick males.
and caged millions of bird females.
S Africans slaughtered elephants for their tusks
Idaho killed musk oxen for their musk.
In Virginia they hunted fox
At church gatherings they roasted ox.
In Maine boiled lobsters alive.
They advertised flesh on Channel 5.
Maryland taxes suffocated crabs.
Boston queen of cruel labs
In Korea they ate the dogs..
while in France they de-legged frogs
and Manitoba murdered hogs
Littleton Colorado poisoned
prairie dogs.
In Germany they choked
the geese.
In New Zealand
froze sheep unfleeced.
In China for spare parts they farmed bears.
In New Jersey for pleasure they killed bears.
In Saskatchewan they made Mad Elk & Deer
by feeding to the living the parts of dead deer
Near the feedlots of Amarillo
They tried to hit the armadillo.
In Wisconsin they separate cow mothers
from their daughters, from their brothers.
In College Park for Frank Perdue
UM taught skinning rabbits.
In Chile from stolen skin
they made their riding habits.

old faithful slave camels.
In Mecca they slaughtered
countless millions of mammals.
In Florida boats defin manatee.
In W. Virginia groundhogs
poisoned on the golfing tee.
50,000 mice and dogs
drowned at U of T.
In Vietnam cut off eyes of shrimp
At UK’s Oxford they shocked the chimp.
In Australia clubbed 6 million kangaroo..
Hippo choked on tennis ball
at the Detroit Zoo.
At the stampede in Calgary
they create for calves a Calvary.
Kentucky horses die in barn fires.
and break their legs in the mire.
Water skiers marauded nests of powerless
floating loons.
Careless walkers smashed the nests
of terns in grassbraid dunes.
Chanel for civet harmed the cat
but who is tortured more than rat?
Ermine tongues to greased
traps in Siberia froze.
In Italy calves made veal..
.. especially loved.. flesh of rose.
Oregon cuts 1000 year old trees
while smashing their squirrels birds and bees.
Many hate the gentle cockroach
and upon her life span they encroach

Said one 'I think they're coming
to feed us! 
'No by God! they're coming to eat us! '

Everywhere they're dismembered subdivided
drawn and quartered crucified.
This hell will end... heart by heart..
as each soul wills to do its part.

A Christmas cactus was retrieved from the apartment building dumpster. Then a friend gave me an Easter lily... Further questions elicited that he had never been given a name and that he had left at age five after being beaten. For ten years he sold energy drinks and other items on the street, sleeping in stairwells and in toilets. As a teen he witnessed a singer who awakened his love of song. Cloud castles in the air

Saiom Shriver
Cloud Foes

The right and left

cloud bank

sun foe

Saiom Shriver
Cloud Horses

Today the sky angels
gave us a vision
of two cloud towers,
horses rampant facing
each other

Saiom Shriver
Cloud Jewelers

Clouds, master jewelers,
setting in gauze each raindrop
as night places star diamonds
on
a purple sky backdrop

Saiom Shriver
Cloud Weavers

Shakespeare wrote 'Sweet sleep
that knits up the ravelled sleeve of care'
but not of clouds which weave from nought
lace pockets of rain
and then unravel these water
chambers with storms.

Saiom Shriver
Cloudclad

Cloudclad
god of rain...

Saiom Shriver
Cloudless Horizon

An empty horizon
helps souls to release
as weighted rivers pour
into the waiting seas

Saiom Shriver
Cloudmerge

Two clouds slowly float toward each other.
They touch with nary a sound.

Saiom Shriver
Clove Trees

Piglets of hooves cloven
romp and cleave the
fields of clover
and then nap peacefully
under the clove trees.

Saiom Shriver
Clover Dweller

God
Divine Lover
dwells in the clover
lives in each plover
and in all beings

Saiom Shriver
Clown Frogfish

clown frogfish
that he be no part

Saiom Shriver
Clumps Of Clover

Clumps of clover...
cloud made clusters
clothed in pink and
purple luster

Saiom Shriver
Clutter

Clutter is sometimes crystallized sadness,  
or fear,  
sometimes an ethical decision to recycle,  
or maintaining a warehouse for those in need,  
or simply someone who doesn't have  
enough time in the day for all the work he does.

Saiom Shriver
Cob Homes

Homes of sand straw and clay
They call them cob homes...
made of nonviolent materials
not dead trees' axed bones

Saiom Shriver
Cockroaches Of Christ

'No room at the Inn'
they said when His cockroaches were born.

and in the middle of their lives... these wee ones
loved by the Son of Man, like Him have no place to lay their heads.

And at the end
'Father Father why hast Thou forsaken us' they cried
.. as they died

nailed by the shoes
of the unconscious

Then their souls
to Him soared in bliss

Only Love can be created by the Source of All Love

Saiom Shriver
Coconut Miracle

A coconut bobbed upon the waves
and alighted softly on shore sands.
Years later there
were many coconut palms on the
island. They provided milk for babies,
nut fiber for others, oil for lamps,
coconut shells for dishes, lauric
acid for meditation. Lifegiving
little lakes of milk unstolen from
an animal protected by a hard shell
transform into heaven
former
slaughterhouse hells.

Saiom Shriver
Coconut Palm

Sweet coconut palm
with such giving palms..
His leaves are his psalms
and coconuts his alms..
In one palm gesture
he bequeaths....
the shell-dish
..the pulp meal
and the inner sun..
as
external balm
from his inner calm.
*
(to the Mayasandra family
which has always continued
the chain of giving
of their palm trees.)
(My teacher says the coconut {and its lauric acid} are conducive to
meditation)

Saiom Shriver
Cocoon

Meditation unwinds
the mummy.
.. unravels
desire's
cocoon.

Saiom Shriver
Cod

Canada and the seals
war over flounder.
That's why fishermen
club seals asunder.

Britain and
Iceland warred
over cod.
None owned the fish
created by God.

Saiom Shriver
Cold And Warm

It is cold which
turns flowing water
into solid ice
but it is the warm sun
which turns
loving liquid rain
into green leaflace.

Saiom Shriver
Cold Rain

Often the cold rain
because it seeps and flows
is in strange ways
colder than that
of frozen snows.

The friends who are
judgmental and cold
are often worse than
those who term
themselves foes.

Saiom Shriver
Collateral Damage

Ticks in sheep eyes
and the handless mammals
have no way to remove them

Saiom Shriver

He was blue
because his friends
were called
reds and pinkos
by yellow journalists
funded by plutocratic
blackmailers
who had caused
brownouts to achieve
power
and had taken over
corporations
with greenmailers.

Yet God, beyond all
colors, all frequencies
is in control.

Saiom Shriver
Colossus Of Rhodes

The Colossus of Rhodes
who did 'bestride the narrow world'
was too big for his britches.
He who bestrides the universe

Ascendant in cancer.... around dusk this time of year
Mars in libra for the first time in 2 years.... the coming fortnight
Uranus in aries for the first time since 1936

A coming cardinal cross... with each planet
squared or opposed to the other three
Please act pray and visualize
that each take the path of peace
and that we all avoid World War III

When we learn the love we came here to
learn.... God shows mercy.

Saiom Shriver
Commingling Lights

Commingling with full moon,
Big Dipper, and all other stars
the light of northern Aurora.
With creation too
each glow flows into
that of foes...
One are
each and every aura.

Saiom Shriver
Community Potluck

After the rain
became the grain
and in the vine
leaves of green
from the trellis
by the lane
were made kind burgers
out of black beans

Others made hummus
if you please
replacing the chick
with cheaper green peas.

Saiom Shriver

They found a compromise
which doubled their plans:
blossoming fruit trees

Saiom Shriver
Conceived In Pain

the pearl grows....
becoming larger with
each sandfoe

May greedy humankind
not harm the oyster
living peacefully
in his cloister

with his fellow bivalves
in a cluster
each hiding
his smooth luster.

Saiom Shriver
Confess To The Sea

The other's teaching mission
was that no sin is mortal
for God is perfect love.
That was his belief's
concision.

Saiom Shriver
Conscientious Objectors

Conscientious objectors and pacifists
.. are not cowards
are not yellow
Not draft dodgers,
needing no white feather
insults.
they are holy fellows.

no intense concentration
to see all by God lit
with divine consecration.

Saiom Shriver

Saiom Shriver
Continue To Glow

Poems full of pain: which became the ink for the pen

Saiom Shriver
Controlled Flame

Controlled must be
the candle flame flag
lest its light

Saiom Shriver
Controller Of Time

To smash the gong
which hours chimes
or to break a clock

But God often enlarges
lives' hourglasses
adding luminescent
sands sublime.

Saiom Shriver
Convent Food

Saiom Shriver
Cookee

The barbecue
is the animal roaster,
the animal cooker...
A very different thing
From being the cook-ee

vegan cookies.

Saiom Shriver
Cop Shows

Cops arresting suspects shows,
FBI profiling shows,
crime scene investigation shows
are designed to spread fear of
the police and fear of all neighbors...
with sensationalism to improve
the advertising ratings.
Television networks violate
the rights of suspects, as they
show the faces of the falsely accused
to millions.

Saiom Shriver
Copenhagen Zoo Takes 4 Lions To Death Chamber

The Copenhagen Zoo

to feed to lions by halves.
Next it killed 4 lions

Saiom Shriver
Cops And Robbers

It is often not

but controlling police
who are the jawbreakers

It is sometimes hacking lawbreakers
who are more creative

police jawbreakers

Saiom Shriver
Copyrights And Patents

God doesn't claim
that artists plagiarize

Saiom Shriver
Corn Ears

Marc Antony asked the crowd to lend him an ear.
(Perhaps Van Gogh took this too literally)
and the corn responded.
She grew on cobs
she grew on curbs
and like a healing listener
she did not lend but
gave her ears.

Saiom Shriver
Corn On The Curb

The corn on the curb
was arrested
for disorderly conduct
for not growing
in a straight line

Saiom Shriver
Corners Of The Mouth

When Mr A smiles
at everyone he meets
he ignites return smiles..

He doesn't withhold them
from anyone..
no matter past history.
That would be akin to
pouring acid on plants
and expecting them to grow.

Imagine an atomic
explosion of smiles

so that each time
someone stepped out
of his home
he was immersed
in the love
of the universe

Saiom Shriver
I have a friend who twice gave me
the Course In Miracles... spending $81
In those days it was not free.

When she came to the lesson
'Giving and receiving are the same'
she walked to the Key Bridge across
the Potomac and tossed the book
into the water.

My resistance surfaced to
the lesson 'there are no special
relationships' which I initially assumed
was an attack on monogamy.

Saiom Shriver
Creative River

When high rocks
her way block
the river onward flows
to the left or
right she goes,

or gathering riverdrops
herself she pools
tl rising above
all barriers, all rules.

If further on
she is island-cleaved
she never has for
one second grieved

but plays one role
to the north bank
another to the south
as she drives onward
to the delta mouth

Coming to a mountain cliff
she does not pause
but in faith outpours her all
as a sublime waterfall.

Once again
merrily on her way,
she laughs as
oerflowing
sharp stones
she holds sway.

She nears the sea
gathering streams
and creeks and rain
gathering more
waterpower
in each hour
and readies to
offer all
to the One
Sea of All
to the One Sea

it is the morning star
she magnifies and cradles.

Saiom Shriver
Crime Scene

Is meat what we eat
or whom we eat?

Is meat

Should dining rooms

Did they

Saiom Shriver
Criminal Journey

The baby cow
Would be castrated
And branded with a hot iron
And earpunched for an ID tag
And with antibiotics injected.

To slosh around in
Thousands of other mammals'
Urine and waste.

In and out of the
Slaughterhouse truck
He was kicked and shocked
Before the final and
Unkindest cut of all

Saiom Shriver
Crimson And Lime

A little birdie

Deforesting River Of Mud Kills 14..176 Missing

A new meaning for Seattle Slew takes form.
In the fishing and logging village of Arlington Washington, as of March 25, there are 14 dead and 176 human beings and hundreds of thousands of animals birds unaccounted for in a mudslide, a river of wet dirt 1.5 miles wide. Damage covers 1 square mile. God bless all involved.

* A deforested mountainside came down in the rain in this logging state.

* We live in treewood homes.. sit on treewood furniture..
write on treewood desks on treewood paper with treewood pencils. We shove axed treewood into woodburning stoves. Tree paper is in our bathrooms. We take treexcised newspapers and magazines and junk mail in from the porch and mailbox.
Outside we mow down sapling trees. Later in the day we go to the store and bag our deadtree cereal boxes and paper wrapped tin cans in dead tree grocery bags. Some still eat fast food animal flesh which takes more trees per pound than any other food They are handed treepaper napkins and carryout bags.

* The surviving trees continue to knit their free nut and fruit gifts, to shelter birds, to evaporate water which becomes mist and then rainclouds.

* What is the effect of removing trees by the trillions? Mudslides, drought as the sentient trees who (they're not objects)
weave rainclouds are gone, famine, vanishing animal habitat, the coldest winter in history in many areas, record heat in the summer as the green cooling canopy of forests is removed. Flightless fledglings of bird flocks are a tiny fraction of the bird and animal casualties. Millions of species are disappearing in Mexico, Central and South America, Asian rainforests of Thailand, Indonesia, Malaysia, Vietnam etc.

* It's time to bring in the nonviolent safe and inexpensive alternatives to the deforesting of the planet.

Descartes Theorem Disproven

In his Frankenstein research lab, Rene Descartes nailed dogs' paws to tables, a modern crucifixion, impaling them that they not be able to escape the imposition of agony.

He believed animals did not have thought capability and that they had no feelings, though they screamed when he inflicted pain on them.

Descartes said 'I think. Therefore I am.' Because of this, he is called by some other rationalists the father of modern philosophy.

The logical next step from his biased point of view would be

'Animals think not. Therefore they are not.'

Yet whether one is aware or not of thousands of nonviolent experiments establishing animal intelligence, it is obvious that animals do exist, disproving Descartes' assertion that thought is the main criterion for existence.

No compassion had Descartes. Can we assume he had no heart?

Dialogue: One On The Path Of Mysticism, The Other Of Changing Society

First: Person  We become what we focus upon. Therefore constantly to write of injustice is to be tainted by it.

Second Person  One needs to shine a spotlight on the suffering to many caused by some.

First Person  One brings people down from their inherent joy by publicizing pain.

Second Person  We work together around the world in community and have victories.

First Person  Such activism destroys unity, creating divisiveness.

Second Person  One can love all and pray for all, yet work for change.

First Person It is impossible to avoid personal criticism in what you do. You are judging others which only God should do.

Second Person Generally we try to confine our criticism to corporations, not to people.

First Person You reduce your own vibrational frequency in such work. If you meditated more, you could create change with your thoughts.

Second Person  Preventing suffering is our first priority.

First Person As Gandhi says, you must first be the change you wish to see.

Second Person  I'm where I should be at this point in my evolution.
First Person: When you are ready, you will focus on the One God, not God's many moving temples.

Second Person: Each to his own path.

First Person: Gerard Manley Hopkins and Swami Rama obeyed their teachers and stopped writing.

Second Person: When desire to do what I do drops away, change will come.

Footnote:
The Course In Miracles is a course in forgiveness.

'This is a course in miracles. It is a required course. Only the time you take it is voluntary. Free will does not mean that you can establish the curriculum. It means only that you can elect what you want to take at a given time. The course does not aim at teaching the meaning of love, for that is beyond what can be taught. It does aim, however, at removing the blocks to the awareness of love's presence, which is your natural inheritance. The opposite of love is fear, but what is all-encompassing can have no opposite.

This course can therefore be summed up very simply in this way:

Nothing real can be threatened.
   Nothing unreal exists.
   Herein lies the peace of God.

Enabling

In the post Constantine Bible, Jesus is reported as saying 'resist not evil'. Some question this.. saying that one should not enable, not give energy to sinful cruelty. Others say that it is by unconditional love and light that we grow into goodness.

Constantine was a violent flesheating pagan who became emperor by force and himself called and presided over a bishops' conference called the Council of Nicea which determined which books would be removed from the Bible. The gospels of Mary, Thomas and others were removed. Constantine helped destroy 3 centuries of early Christian vegetarianism.

Flashpoint

To places of mass massacre, 
violece is magnetized.

When Chicago was the physical 
capital of mammal slaughter in the US 
there was a great fire. It was blamed 
on a cow in a barn kicking over a lantern. 
Karmically, it was an equal and opposite 
reaction to the violence.

Violence in fast food places is 
well documented.

When millions of mammals are murdered

Footnote:

George Bernard Shaw: I love little children but I don't cut off their heads and stick them in vases.

Sathya Sai Baba: Why pluck a flower and hasten his death.

If you love a flower, don't pick it up. Because if you pick it up it dies and it ceases to be what you love. So if you love a flower let it be. Love is not about possession. Love is about appreciation. -Osho-

CONNECTING THE SYMAPSES

When Kissinger declines to hunt boar with Brezhnev but arranges the bombing of Vietnamese.. this is a disconnect in the chambers of his heart
When Churchill directs a ladybug to be saved and bombs hundreds of thousands.. this is a disconnect in the chambers of his heart

Howard Zinn speaks of the disconnect of bomber pilots who cannot hear the screams, smell the blood nor see the limbs being blown off.. as they are 30,000 feet up

When people stand in freezing cold for peace.. and then go home to dead bodies on the dinner plate this is a disconnect

When teachers show their cooking classes graphs of animals divided into steaks.. it is a disconnect

What is the fruit of criticism?
The receiver's heart shuts down.
There is an urge to counterattack.

LOVING FOES

God told us to love our
neighbor as ourselves.
Jesus told us to love our
enemies.
Therefore we are told
to love our enemy as ourselves.

RELEASE THE WASTE

The body should not hold onto
toxic waste
nor should the mind or soul
cling to past hates.

ABOVE FREEZING

To frost had firmed the fog
which veiled the cranberry bog
but now iced crystal jewels
melt into Spirit's drops

LIQUID DECK OF CARDS

Iceberg spires and turrets of
crystallized pain
melt in warm waters
off the coast of Spain.

FOUR ELEMENTS

God's water washes away transgressions.
God's fire burns errors to ash.
God's earth buries mistakes.
God's air blows them into fragrant zephyrs.

GREEDY CATERPILLAR
Gopal said she saw
greed as a hungry caterpillar.
May I see it that way too: a voracious
caterpillar soon to cocoon
himself til his own transmutation
..the devoured sacrificed
green leaves of spring
turned to translucent
feathery invulnerable wings

ICEBERG

Paradoxically n iceberg overhang
is more
dangerous when melting than
when frozen. As evil is breaking
up
it can be more unstable
and dangerous. The wise
avoid proximity in such
cases.

CONNECT THE DOTS

When I asked my father not to fish
I did not connect to the meat on my plate
When I saw the film Mondo Kane I did not connect
When I saw the cow on the high school blackboard
marked with dotted lines I did not connect those dots
When I saw the picture magazine with a hyena's face frozen
in terror right before he was killed by a lion I did not connect
When I met a vegetarian I resisted
The different chambers of my brain did not speak to each other.
I now forgive myself.. for having been unripe fruit..
hard and green...unconscious... unawakened to suffering.

THOUGHTS ON FORGIVING

Jesus: Love your enemies. Do good to those who hate you.
Course In Miracles: The holiest ground in creation is that where 2 former opponents have forgiven each other.
(paraphrased)
J Myzkowski: My former enemy was a mirror who revealed the dirt upon my face. (paraphrased)
Kabir: The saint helped the scorpion over and over again and the scorpion each time returned a sting. Some said 'do you not know it is the nature of the scorpion to sting? ' and the saint replied 'it is my nature to save.'
Jan Freundschuh: When I'm having trouble forgiving someone I mentally regress him to baby state.
Sri Yukteswar: The vanished lives of all are filled with many shames. Therefore do not judge.
Gerald Jampolsky: Forgiving others helps us forgive ourselves.
Bible: Judge not lest ye be judged.
Kabir: Forgiveness is a game only saints play.
April Baer: Forgiveness is a form of cleaning out closets (paraphrased)
Nancy Taylor: Unforgiveness wastes energy as extra weight is carried around. Unforgiveness requires the energy waste of repressing.
Maria Susie: (re the Bible that God tosses our sins into the deep sea) God has posted a no fishing sign in His deep waters.
Sai Baba: You may blame me for the bad which passes through you if you praise me for the good.
(God is the only Doer)
Gopal: It helps to understand in why people do bad things to remember that only a tiny slice of the pie of their divinity was brought into this incarnation with them.
L Bertsch: Resentment turns a face slap into an ulcer.
Sai Baba: Not in the morning pond does the lion wash his blood.
The Buddha: The more evil done to you the more good do in return. (Buddha's purity was so great that those who plotted to kill him had their plans recoil upon themselves, not by his actions, but by the law of spiritual physics.) Evangelical tv pastor John Hagee: Did someone harm you in 1962.. let go of it! Control and ride the horses of anger.
(may Hagee be aligned to Jesus' teachings on pacifism)
Jan Freundschuh: (To a former foe) Now I see you as a pure rushing fountain..adorned only by your own sweet splashes.
D Calleia: I went to sleep praying for an opponent, someone who had repeatedly harmed me. That night God came to me in her form.. and gave me a creative new way to draw my graphs.

Poster: Don't go down Rearview Road. It's one way.. and leads to pillars of salt.

JBO: So are you saying that you are getting the senior citizen discount on your sins and the reduced weekend excursion rate on your transgressions?

Saint Of Shirdi: It is the fruitladen tree which attracts a shower of stones.

S Anthony Grafio: To hold someone in past thoughts is to imprison him.

A Thakur: My uncle received the anger of a great saint. He considered it a blessing.

Sai Baba: The actor who slapped you on the stage waits behind the curtain to congratulate you on your performance.

Alanon (passed through SC) Others' opinions of me are not my business

Bible: Judge not lest ye be judged.

Poster: Until past images are released, one is a blocked tv screen.

K. S. Hoare: The woman was not miraculously healed until she forgave the horse who had thrown her. (*perhaps all horses need to forgive their human oppressors)

John C Lehman Jr: Sometimes it is not necessary the problem to solve but change the angle of vision and the problem dissolves.

K. S. Hoare: Part of her heart was tied off by God.. that the rest might grow larger.

Mahatma Gandhi: An eye for an eye makes everyone blind. (Jesus came to make the blind see.)

Unknown: To understand all is to forgive all.

* A: What did I ever do to her.. I never spoke to her.. never touched her

B: You bathed her in your aura

Greedy Caterpillar was inspired by a thought of J Freundschuh. God Looks On Sin includes 2 of Sai Baba's parables and a dream of J Freundschuh stars in 'As Mother Looks on a Toddler's Fall' are based on the teachings of Sai Baba as is the parable that we should be like rivers flowing over sharp rocks. Tecumseh Museum is to all Native Americans and settlers who have suffered in the past. (Years after dreamer had this dream on the early morn of December 7 she heard broadcast on C Span a description of a Mohican museum.. followed by the song You are my sunshine) Mallik Arjunan: From any point on the wheel one can be liberated notes on As Mother Looks on a Toddler's fall.. title based on a quote by Saint of Shirdi.. mudballs based on a dream by Jan F (we are all Tecumsehs: look not at our past but at the divine light within each of us as we forgive ourselves). * The stars indicate concepts transmitted to writer by the words of Sai Baba Silver Screen Projection is to Susie M C If You is to T Jackson

Roman toga sand goldfringed
Crowned by the starry sky
Most stay on evergreen shore
Few everblue depths explore.

She's garbed in selfweaved seaweed
Garlanded by coral reefs
Starfish shod to copy heaven
Turquoise skirts.. wave slips neath.

Like rubies in rose velvet
Like stars in saffron billows
Like miracle: fall's cherries
in pink spring blooming pillows

Are the quintillion mirrors
Of sun diamonds on an azure sea
Bright rhinestone constellations
Heralds of eternity.

Rose at dawn Then silver morn
Sunset pink aft bright blue noon
Violet throne of King Neptune
Arises in joy to greet orange moon.

Of fingered wind: wavestringed harp
Where aqua meets the deep blue sea.
Ever amphitheatre of
seagull noted symphony.

Whispers in waning wavelets
Thunders in the roaring surf.
Yet secrets with her safest.
Dips bubbling stream to quiet mirth.

Anantarup where sky meets air
Ekanath the surf beneath
Babel tower above bequeathed
Mouni sadhu neath sea heath.
Those who thoughtless rape her shores
Destroy terns' nests near the lagoons
Water skiers and propellers
smash her floating nests of loons.

Sends dolphin harmers tidal waves
.. Some fishermen's final grave
Gently kissing concave naves
All water to the Sun she gave.

In shallows shelters shellfish shy

Goldilocks And The Three Bears

An innocent young girl
got married. One day she
discovered the secret passion
of her husband.

She went down to the basement
and was shocked to see
three bears' dead bodies
hanging from the ceiling.

Running screaming upstairs,
she inadvertently sparked

her down the steps,
breaking both arms.

with new gold locks.

Grace Ever Pouring Like A Waterfall In Spring

AMBER CHAMBERS

As the sunlight himself spills
into corn's kernel cells
As the bees' gathered amber
is poured in hive chambers
so is GOD'S GRACE
poured into mind's gridlace

(to Edmund and Julia L)

COCONUT ON HILLSIDE

The coconut palm
on a hill by the
sea..
dropped her coconut
into the sea..
his inner coconut sea
kept from the outer
by the husk
of the seed
.. but his mother
so wanted him
to become a tree..
for her sake
he floated to
the sands
and with root
strands
became a
tree on the
seagirt land

ERASER RAIN

CARVED GIFTS

They passed by her

the cones she'd carved

they grew to be greater

Lauric acid is an ingredient in coconut milk and is conducive to meditation. Leonardo Da Vinci ate no honey stolen from bees. Gratitude To The Citizens Of France

The United States would not exist without the priceless aid from the citizens of France.

Little that means to Bush-Obama who spied on those who bequeathed us liberty's dance.

James Mitchener in his book Chesapeake quoted historians who described the Battle of the Chesapeake on September 5th, 1781. The US had been losing the Revolutionary War since 1776 until 1981. (Such drives for independence are called rebellions, riots, mob action, insurgencies, insurrections, uprisings or mutinies, e.g., by the ignorant and cruel who are in power.) American soldiers often had no food, no pay, no arms, no shoes. At sea and on land, many courageous Americans lost their lives fighting the British. The thirteen colonies who had named themselves The United States of America were on their eastern coast rimmed by a band of iron... of British warships.. the shore the British cannonized sending many to be canonized...

The ships' blockade continued and so did the British control of New York City... when suddenly after years of lobbying by Ben Franklin 5500 French troops arrived and, . on the horizon.. like the miracle of the rising sun appeared the French fleet.

Temporarily they were trapped within the Chesapeake Bay.. but courageously and magnificently they broke out... and two lines five miles long! *! *! *! composed of British and French warships faced each other. The battle out at sea was seen by very few. One American civilian captain described his ship's witness role as that of a gnat watching eagles.

The British admiral's tactics were to focus on killing the French sailors, while the French tactics were to disable the British ships. It was the French who beat the British in this decisive naval battle of the war and who helped America's troops to surround Cornwallis in Yorktown, Virginia. With all our hearts may we say
Thank you eternally to the people of France.!

There once was a grey cloud which filled the sky. Thirsty plants called to her bounty on high.

She gave and she gave in response to their call Trees in her rains of great grace grew green tall

So much she did give she became faintly traced So slight now her cloud angel wings tiny laced

but a raintree for his dried grasses cried She gave of her last and became nothing at all

Lo and behold the nothing was all and this Cinderella now did come to each ball with the sky itself ever blue cloak with which to mantle each every and all

now the sun moon and stars shine on her tapestry and on this turquoise brocade is the Milky Way laid

After many many ages

Words from his own mouth

Ideas which him transfixed.
What we ourselves should do
we project to them and teach
not what's within our grasp

Hero With Two Achilles Heels

Many consider him a hero.
He is multilingual..
strong, of enduring will,
brilliant, controlled, fast,
loyal to his group.
He knows planes,
guns, computers, lockbreaking,
how to keep a secret, how to
quickly disguise himself.
He can go without food, sleep
and sex for longer periods than most.
But he has 2 Achilles heels.
First he is in a hierarchy
in which he must obey
the corrupt.
Second, he is willing to kidnap
and/or kill in his job.

How to serve a suffocated fish?
First cut off his fin

Human Chauvinism In Forest Fire Reporting

Reporters might list the number of wooden homes or metal trailers saved in a forest fire. They never give the numbers of flightless baby birds burned in their nests, the mothers who stay with them though they have the option to fly away, the millions and billions of beings, mammals, birds, fishes, reptiles, insects, plants, bushes and trees set on fire.

Nor do firefighters fighting fires or those who start controlled burns seek to rescue nonpets or nonlivestock animals.

Is God Random?

Theists who reject the philosophy of reincarnation might assume that God is randomly cruel.

Theists who accept that we've all had many lives believe that answers for present suffering are often found in past lives.

Souls who don't learn lessons through love's expansion are sometimes required to experience the opposite side of the coin of having been unfaithful, miserly, undisciplined judgmental.

When we arrive at a state of transcending earthly desires, of no negative or positive karma ('the chains of gold bind as strongly as the chains of iron') and no spiritual ignorance, we are free to merge forever in God.

When we become perfect Love we are free to merge in perfect Love.

The pond is not
full of blood, as
the lion thinks,
after washing
off his muzzle
from a fresh kill.

The mirror is
not 2 faced..
but polyfaced,
and no-faced.

.. It is not hypocrisy

unfaithfully

English professor and poet Narayana Kasturi was an employee of All India Radio. He had in an Indian humor magazine made fun of Sathya Sai Baba. After a series of miracles involving his family, he became a devout follower and editor of Baba's magazine Sanathana Sarathi (eternal charioteer, a reference to Krishna who would not fight in the Mahabharata war but instead was charioteer for Arjuna.)

One day a car caravan as often happened was following Baba's car to a destination. One after another, parts fell off of Kasturi's car. When they arrived Kasturi took the car to a mechanic who said it was physically impossible for the car to have arrived.

Kasturi went to Baba and asked 'Was it because we are good devotees that you did this miracle for us?' and Baba replied 'The car, the car is a great devotee.'

'Not in the morning pond does the lion wash his blood.'

'Inside the chalice of wrath is the blood of Jesus'

'They tangle the edge of the river with vines'

while Yogananda said to me and to all:

He has given me endless dreams... to teach me, to expand my mind, to nudge me into better ways.

It is not the horse head in the fountain which is the source of the water flowing through it.

Saiom Shriver
Lilies, Lilacs And Lotus Leaves

He has turned
bloody warfields gory
into climbing violet
morning glories

Grows out of slime
the blossom of the lime
so does every obstacle
turn to beauty.. in time

Out of the tiny acorn
10,000 oak forests
can be born
So the universe all
is contained in the small

The bee alights
in morning light
buzzing
'go not for the
sour but the sweet'.

Windsattered, the milkweed
... now ripe in seed
.. so do angels
send forth your beliefs.

The radiant butterfly reminds
she went from
crawling to pure flight
without having
to walk up stairflights

Rhododendron
can grow 90 or more
feet tall
in India and Nepal
.. left to be themselves
children small
grow
in spirit tall

The bamboo was bored by beetles.. through her holes
the wind played a symphony .. so does our pain
turn to music.

Through the bullet hole
in the wall
in pours the sun.

The peony bud is sometimes opened with the help of ants
.. the most rejected.. are our greatest helpers when we think we can't

Dandelions: how cheerful they are with sunny faces
in the midst of those who unjustly hate them

The buttercup holds the dew and sunup in her lemon colored cup
To her chalice of love bees come to sup.

To his parent plant the branch of honeysuckle needs no ties..
no external buckles so are we always connected to God's thoughts whether we do know it or not.

The lotus on the surface of water whispers ...
... be in the world
and not of it

while speaks the rose
where she grows:
the cross of suffering
is now joy's dynamo

It is the lily's leela*
... that out of the
illusion of death
bursts forever life

As the rain became
the grape upon the vine
so does Jesus turn
water into wine

The tree of mango
releases not all at
once
her annual manna
... all comes
with patience.

As apple blossoms
give way to fruit
so does earthly beauty
bow to the glowing
of heartroots

In the sun,
speak not
the chrysanthemums
God speaks most
when we are mum.

Glow out of African violets
the music of life's violins
.. their purple rivers of light
flow without violence

As Samson was stronger
when his hair was uncut
so do dahlias say..
'don't let Delilah
any flower pluck'

The lilac..
fragrance pours from
her unbound
though she is rooted
in the ground.

Deep is the hue of
the purple plum
... to find heart jewels
the depths we plumb.

Crimson red is the carnation
.. so are all in whom red
or green blood flow
... sacred incarnations

Radiant are the
rainbow of tulips
May only kindness will be spoken
from my two lips

God does not on
any
inflict pain or
experiment
when healing beings
or growing spearmint.

They think the
wind is lackadaisical
but because he freely blows the
world will not lack for daisies

As life force is
within each cockleshell
so heaven does dwell
inside what seems a hell
Painted by God's glowing brush
is the bright orange Indian
paintbrush
.. like the sunrise
your soulrays give love to all

The kudzu vine
has hidden the junkyard as she climbed
so say you to all
.. for forgiving.. now is the time

The little flowers of veronica
fall below the mowers' blades
so do the humble and meek
inherit the earth

Unrolls the scroll
of the trilliums deep in woods
.. they write we need no surety
save for purity

Saiom Shriver
Lincoln Memorial

Our father led us up the steps
of the Lincoln Memorial,
reverentially, as if entering
a sacred shrine.

He then began to read to us
the Gettysburg Address and the Second
Inaugural Address as though they were the two
scriptures selected for the service.

He had earlier lose his Ivy League law school degree,
disbarred for having in the 1930's been the first
lawyer in his city to sue the police department
for the beating of black prisoners.

His father had died of malaria in the Spanish American War.
He would go on to lose his only sibling in a freak
boating accident. The Japanese encephalitis shot
compulsory for US soldiers in the late 40's would
erupt into a fullblown Parkinson's Disease, after
generating in him a temperature of 107 degrees.

The following 20 years were spent in increasing
rigidity and for much of it he was bedridden, unable to move his
neck, unable to walk, unable to speak except in a whisper, his
muscles constantly shaking.

The experimental operation to offset Parkinson's
by injecting alcohol directly into brain cells
would take away for awhile his ability
to think at all.

I learned that difference of opinions (on peace and war, e.g.)
has nothing to do with Love.
He ignited his loved ones with his love for Lincoln,
for Jesus, and for the poor and the refugee,
and with the courage to witness for the spiritual
equality of every human being, each
child of the One Parent God.
Footnote:
The carnage of the war, for humans and animals, the hanging of draft resisters, and many other wartime events have caused endless diversity of opinion on this war. But in my humble opinion, Lincoln was a great man, a holy man.

Litany Of Divine Seed Protection

He makes tomato seeds
slippery beyond the
crunching teeth to slide

He clothes mango seeds
in saffron silk strands
that they discarded
catch the dew and
with life ignite

and gives maple seed
samaras
helicopter propellers
to take them far

He gathers dandelion seed spears
into a snowy perfect sphere
that the wind may
blow them to all points away

The almond he
bequeaths a hard shell
that it survive
January cold hells

Cockleburs He created
to travel, sticking to clothes
which gave someone the idea
for adhesive velcro.

The palm tree's coconuts
.. which might dropp into the sea
He plasters with a hard husk
to guard inner coconut milk sea

and sends apple seeds unharmed
through the bodies of birds...
these seedstorks..
dropp them into chimneylike
chutes in distant climes

The seed inside
soft avocado
is hard and
incommunicado
until the tiruna
when it will delve
into the earth

He seeps sap out of
female pinecones to
attract male pine cone
pollen.

Black watermelon seeds
He packs in pink satin
along with captured stormdrops
that they both quench human thirst
and nurse the seeds.

He hangs at the top
of the pepper belfry
the white pepper bell chimes
that they not be harmed
at salad time

Unlike the peachpit
hard as granite
soft and sweet..
seeds.. pomegranate...
Their ruby juiced beauty
multiplies them.

But in divine compassion

revealing corngold
easily unsheathable

The more it flows uncircumscribed

Loving Oneself

None of us can truly love another until we love ourselves. If we don't love ourselves we think we are unlovable and therefore distrust others' expressions of love. Only someone who loves greatly can help us to receive all the love which is out there. Since all sentient beings are one with God Who is Love we are all love incarnate.

Lower Bunk Karma

He described to his listener being in the army, coming back to his barracks drunk climbing to the top bunk.

He awoke as his buddy in the bottom bunk complained that the vomit was dripping down onto him.

He looked over the side and saw it also dripping onto the floor and in it his money was swimming.

That was the last time he ever took a drink.

Then there was the woman at an AA lead who said she woke up screaming at the people who were invading her bedroom until she realized that with too much to drink she'd fallen asleep in the elevator.

This writer was told by a psychic that I once died of alcoholism in a French gutter.

Messages From Angels

Around the world for many millennia, angels, in Hinduism devas, emissaries of God, have been giving messages to all human beings. Some messages are for the recipients only. Many are for all. Not everyone believes in angels. Some doubt their messages. Some copyright the messages given freely by these selfless servants.

The ancient sacred Sanskrit scriptures, Biblical writings, Pali sutras affirm that God can make a donkey or any other creature speak. God can speak through children to adults. It is not the intelligence of the receiver but the openness of the receiver to God's light and love which determines how much is received.

Sometimes angels give visual and subtle symbols to bypass the resistance and ego of the receiver. They give roleplay in dreams. They speak softly and directly inside our heads and hearts.

Sometimes they give visions of things to come, years or decades, centuries before they happen, as a way of teaching that God is before and after time, surrounding it, inside it.

1. The composer Schumann said he could not take credit for his work. After a series of painful explosions in his ears, he began to hear angelic music and was merely a recorder.

2. Brahms said his music came from beyond himself.

3. Puccini spoke of receiving Madame Butterfly from God.

4. Helen Blavatsky described herself as an amanuensis, a secretary only of the Tibetan masters.
5. Einstein wrote in his autobiography that angels gave him E = MC squared in a dream.

6. Srinivasa Ramanujan, the greatest mathematician ever, according to many, spoke of Namagiri, one of many names for God, giving him dreams in which equations were written on the wall. He memorized these. Namagiri also came to his mother asking that she no longer block his life's purpose.
7. Elias Howe who added the lock stitch to sewing machines was gifted with a vision of Native Americans carrying spears with holes in the spear point (thread openings for sewing needles).

8. German chemist August Kekule's ouroboros vision (a snake biting his tail), revealed to him that molecules like benzene can come in rings.

9. The fruitarian Leonardo Da Vinci wrote in his Notebooks he would meditate on a candle, whose flickering sent him into a trance.

10. William Blake wrote of angelic visitations as the source of many poems. Atheism, agnosticism block these free gifts. Those who operate only on average human frequencies only, thwarting by unbelief all higher frequencies, can even turn to laboratory torture of animals.

11. Nicola Tesla spoke of communication with higher beings.

12. Socrates wrote of a daimon (not demon) as his muse.

The Course In Miracles, transcribed from an inner voice over 7 years time, containing 1500 pages, and transmitted in iambic pentameter, states that the message is first for the messenger. Helen Schucman was the amanuensis.

God remind us that all messages have their source in Divinity, whether or not they are distorted by the conduits through which they come or the aura's color patterns of the receiving prisms. Water flows through a many tiered fountain... bursting or gurgling in a variety of ways, sometimes through the top it pours down to different shells. The source is the water, not the fountain's tiers.

Money Miracle

The writer covered the Democrat and Republican conventions in 1988 for the animal rights movement, though she was short on funds. On her return trip with her sister's credit card she traveled, sleeping in the car and bathing in motel and hotel pools. She had left California traveling east with 25 cents cash. She came to a Stop n Shop in Kansas and upon going in saw that the clerk was denying a man in his 30's the right to buy beer, though he was not the driver, because he did not have ID. Disliking force, she bought it for him with the credit card. Unsolicited, he handed her $7. A few miles down the road was a toll booth, the only one she encountered on Rt 70 between California and Ohio. God gave her cash right before she needed it.

Another time she was in Sandusky, Ohio, without resources to get home.. when suddenly there was $20 floating in Lake Erie at her husband’s ankle.

A third time, with no money for rent, she opened the door of her Maryland home and saw a man she'd never met, Nimbo there from Melsatosa, a fruitarian temple in Miami, who told her he had $2000 left, and that God had told him to give her some of it. He handed her nine one hundred dollar bills.

A fourth time, she traveled to India with the money her grandmother had left for her. The money arrived 18 years after her death, just enough for 2 round the world tickets.

A third time DG with mimicry said the equivalent of 'God give me orange...God give me orange' after hearing these amazing serendipitous feats of supply. They went to the Hampshire Open Air Market which was at that time on New Hampshire Ave in Takoma Park. There is the dumpster were six orange squash, each 2 feet long. DW said to DG 'Next time you ask God for orange, be more specific.'

Running out of money on the way back from India (we had purchased around the world airplane tickets...12 stops for $1100...) we were walking in the rainforest hills of Hawaii... and found a feast of ripe avocado gifts at our feet.
In 1980 we arrived back in Takoma Park after 3 months in India... with perhaps $5 and no money to fill an empty oil tank in November. M Banks called and said 'I was just meditating. Baba told me to bring you a space heater.'.

I could go on and on, but will say that the most constant supply of miracles has come from my mother, my siblings and their spouses, and my friends.

My first memory of my brother was the family picking Mom and him up at the hospital in April of 1950. One of several reasons we were part of a large family was that my father wanted a son. When his fifth daughter was born his brother telegrammed him in Korea... 'sorry missed again! '. When Leonard was two years old he decided to run naked down the street. I retrieved him. He was sunny, cheerful, charismatic, smiling at everyone. I would not know til he was an adult how brilliant he was. His timing with his humor was masterful. His wit was unique and as fast as lightning. Nor would I realize when he was little his waterfall of generosity... to all.. thousands of acts of giving... but especially to those in pain or poor. It was always anonymous. He seldom had a 5 digit balance in the bank.

When he was nine and on his bicycle he was hit by a 16 wheeled truck. I can remember our father in agony running down the long driveway to the street. Leonard was not expected in the first few hours to live. After surgery, he wore a helmet to cover the metal plate in his head and was unable to walk. It was his incredible will that he regained the ability. The metal plate was not replaced with more merciful alloys. It baked his head in summer and froze it in winter. He was never again without physical pain. It would make him less patient than the average person. In later years he told his sister that because he was in his eyes after the accident 'a freak' he began to develop his sense of humor. He would go on to have two serious motorbike accidents and to encounter black ice driving a tanker, a condition which overturned the truck. He was a peacemaker who could walk into a violent bar scene and calm people down. Bev told us that her mother in law was in the hospital the day of their wedding, and that L stayed with his aunt rather than go to the reception. Jesus and the message of the Gospel to 'love your neighbor as yourself' were imprinted on his heart, which included everyone. My mother asked my sister if she should buy him a new coat for winter. She was told he'd only give it away. And so he did, to the first
homeless man who needed one. He was a good listener to those in pain. He had an amazing memory and focus. He could keep a secret forever.

Some of the many things he said to me:

'You drive so slowly the bugs in the park are on your rear windshield'

* 'Don't think you have to be a chatty kathy doll and dump your entire tape load when someone pulls your string'

* (After putting a picture of a guru on the stove) 'Om on the range'.

* When he was healthy he said the video of his last will would start 'I'm dead now'.

His first wife Margaret was a wonderful hardworking reliable nurse, a beautifier of every place in which she's lived or worked. They had a daughter, Sarah. When she was nineteen, his daughter died in a car crash. For several years after that he wanted to check out. He told his sister S that every day he peered into the abyss until one day God pulled him back. Then he was fortunate enough to marry Allison, who gave him a reason to stay on earth. They lived simply. Neither has ever held onto things they don't need. Allison whose nurturing achieved a 23 year life span for her cat Yak made him a fellow cat person. Every year on his birthday he gave flowers to his mother since she had done all the work. His sister S remembered that he would park his truck out front and come in to take her toddler daughter for a ride in it.

My brother never served in the military because of his injuries. He often spoke against the military policies of later presidents. At the funeral home a scarred Vietnam veteran came up to the coffin and put what seemed to be a piece of cloth into the coffin. Then the vet approached my surviving brother and said 'I gave him my purple heart. He fought for everyone.'

He had grown up with a father who was the first in our city to sue the local authorities over the beating of black men in custody. Because of that lawsuit he was disbarred on a trumped up charge, losing his ivy league law degree. L continued his parents' work of opposing
racism.

In 1956 the Japanese encephalitis compulsory shot given to US military including our father in Korea would develop as it had in many others into Parkinson's disease. He was bedridden for many years. Our mother would for 20 years get up at 5 am.. take care of her husband and children, teach school all day, and then come home to work til 11pm. When our father died Leonard was so moved by those who had taken the time to come and pay their respects that after that he rarely missed a funeral of any one he knew.

Leonard supported his giving by starting a business imprinting corporate, school, and other logos on cups, t shirts, pens etc.

He wasn't perfect. Who is? But my surviving brother D said in his eulogy, 'If you were Leonard's friend, he had your back.' and he recounted what Leonard told a teen: 'The body is only a car. We're here to make life better for others... to give them rides.'

My Dog Ruthie

Less cautious in those days,
when receiving the answering service
call that a reddish haired dog with a broken leg and
her puppy were under someone's porch,
I crawled under the porch to retrieve them.
Stupidly I caught the black curlyhaired puppy
first. Even so, the mother did not harm me.
She was taken to a veterinarian who set her leg.
He said she was a throwback wolf. Her puppy
was placed in a loving home.
It was a surprise to find she had immediately
bonded with me and so she was adopted. Months went by.
Having to be away for the weekend, I took her
to a kennel. Returning, I was told she had
crawled up the 6 foot chain link fence and jumped over
but had been circling in the fields waiting. When she
saw me, she shot forward running like the wind.
She also had exceptional smell and hearing.
But these qualities were nothing in comparison
to her loyalty, intelligence and unconditional love.

No Adieu

The sun bids no adieu
to the sparkling dew
but to himself gathers
each drop.
Refreshed buttercups

Nor does God ever say goodbye
but only an infinitely welcoming
Hello! to those who slip from form.

Who were the first Gentiles to worship Jesus?
The Magi astrologers from Persia.
Said the Second:
They weren't astrologers. They were astronomers.
Said the First:

Not Milk

Is it a factor in American

Noxious Fumes

Saiom Shriver
Number 534

When he was just a baby boy bull, they brought out the knives, needles, and red hot branding irons.. to cut off his testicles, burn him with their brand, and needle him full of antibiotics and toxic vaccines. A few months later they stapled his ears with numbered tags. Now he is called a steer, not a bull, for his identity is defined by the mutilation they performed. He was not a living being to them, but an object to be numbered. His eyes were bloodshot from the irritation of sleeping on his own and others' fecal matter. If he had gone East, he might have been in an open slatted truck as the sub zero temperatures whipped through the Pennsylvania mountains. Or if he were transported in the summer, he might have died of thirst, or been smashed in the stampede inside the trailer as the terrorized
animals bellowed.
At the slaughterhouse
at age 14 months
he was shot
in the head with
a huge metal cylinder.
Because he was luckier
than some, the metal bolt worked
and he was not skinned alive.
As his spirit soared to God,
his body's
weight dropped from
1200 lbs or so to under 800
for they cut off his head
and chopped off his hooves and
tail.

Objectified To Death

Some faiths believe

Meateating gourmands don't care

Countless others

Of God's cheek
he was the dimple
Of God's smile
he was the crinkle.
Out of softest cloud he slept
into mommy
while she slept
Chose the purest of all mothers
Only she.. he'd have no other.

Paris Massacre

Extremist Muslims who use violence have angered nearly all other major religions: Buddhists (destroying their statues), Christans, Jews, Hindus, and others.

How much of this violence is generated by a response to capitalist imperialist war violence and theft of oil, land, houses, olive trees etc. is known by God.

It seems that the massacre in Paris has been coordinated by violent Muslims. God and those who planned the actions know who it was who were the architects.

The bombing of the World Trade Center was blamed on Muslims but was an act of the US government in conjunction with elements of the Israeli government as an excuse to wage war in Afghanistan, a war begun 6 weeks later.

Violence against nonMuslims is not in the original Quran.

God bless all who suffered because of it.

and when we hear the wind stir the lake..
we will know.. he is calling us to joy.

WOUNDS ARE NOW WANDS
SCARS ARE NOW SCARS

Whether widowers or wed,
windkissed we wend along
the winding way.
What a wonder to see His wounds..
and ours too!
have become magic wands.
Wednesday is no longer for woe.

WHO ARE THE CHOSEN PEOPLE?

Who are the chosen people?
After the Messiah came to earth,
the chosen people became those who recognized Him
He has chosen All
and All will sooner or later
choose Him.

HAWAII SPIRIT

First the lightning bolts
of spoken word
and then the rain of grace
As clouds from ocean clashed
gainst peaks of Hawaii
turned into rain and
waterfalls
and down slopes poured
to the waiting sea
so seekers to those with
Spirit Gifts come..
their hearts melt in Fire..
from above they pour down
cascade aisles and fall
to the ocean of God's love

MINGLED BLOOD

On Calvary Hill Jesus' blood drips from the cross..
With the raindrops it mingles.. and pours
into ruts before noon.. made by the dragging cross...
then into rivulets it goes
which to creeks flow
and to streams grow
.. to rivers.. to great rivers.. to bays and gulfs
til finally in ocean seas it merges.
The blood is everlasting.
Even this evening it enters as the residue..
in pine resin.. and mornglobes of dew.
Beetles bib and bees sup
it from each buttercup.
Hummingbirds sip it
in each trumpet flower goblet
It fills the cheeks of little plover
Alice
draughting of a cherrybloom chalice.
Each chrysalis is washed
in the crucible of Christ's rainblood.
Now winds are winding round cocoons
unwinding.
Each lake, every pond, yea every puddle
and rain drop.. is the Holy Grail
holding the Savior's
everlingering blood
and reflecting the SunSon of God.

SANDI PATTY

Perhaps she sometimes
feels sad
that her body is bound
by gravity
.. as she
wings the hearts

KNOCK

Jesus was knocking
on my heart's door
I told Him to come
back later..
and then discovered
He lived Inside.
God indwells every being.. no matter what we have done.. tiny clouds on earth can't bar the blazing infinite Sun

and at anytime

souls from jailcells

EURYDICE

Orpheus tried to
remove Eurydice
from hell
but J was willing

to save a friend
from hell

CHALICE VISIONS

1. Heard in meditation: 'Inside the chalice of wrath
is the blood of Jesus.'

2. Vision of a Y of streets.. at its intersection
in the bricks.. there was blood

3. Was told by someone that a common symbol is 2 swords
upside down in a chalice. This can be 2 former enemies
united in the chalice of communion.. or
a triangle of 2 men and 1 woman the painful effects
of which must be worked out or else cancelled through grace.
GENTLE GENESIS 1: 29

God designed not
sweat
nor that we be
with labor wet
but grows
easily wild wheat
and drops in our
lap
fruit so sweet

NOTHING IS CAESAR’S

Render unto Caesar what is Caesar's
and to God what is God's said
Jesus... leaving it to us
to discover after a long time
that nothing is Caesar's..
Those who commit larceny by trick
or achieve power through murder
or other violence
forfeit the right to their
stolen goods.

FINGERS POINTING

The morning cornfields in ecstasy
each plant points its crown
to the sun.. and says
'Seek ye first the kingdom
of God.. and all will be added
unto you.'

(to the people of Indiana)

OUT OF THE BLUE  OUT OF THE BROWN

Out of a monochrome of brown
out of the blue
from last year's leaves and barren
trunks and fallen pine needle quills
of a sudden everywhere
bursts of golden daffodil

LAZARUS COME FORTH

Mother Earth is struck
by spring's magic wand
From His 'Lazarus Come Forth! '

Rustbelt cities..
gone their cloak
of grey smoke
.. the skies
are blue

Gone Mary's foot
of the cross despair
Her Son is resurrected.

BARABBAS

30 PIECES OF GOLD

The full moon
through the clouds
threw 30 pieces of silver
to Judas on the shore.
But in the morning
they were turned gold
by sunfire
For all
redemption is entire

NOT COWARDICE BUT FOREKNOWLEDGE

It was not cowardice but foreknowledge
that Jesus' family hid from Herod.

MORNING RAYS

The morning sun beckons
and sends his morning rays
to show the way
The reborn Son calls
and sends his angel rays
to show the way

STYGIAN RIVERS

Near blood rivers
Stygian
they turned to squab
the guiltless pigeons
They desecrate Jesus'
nonviolent religion
as they add a pinch of
salt.. just a smidgeon
PRESENCE

ETERNAL CHAIN OF KINDNESS

he granted life

NUTHATCH

In winter winds
Sweet little nuthatch
can't find in
the nut a hatch
.. never fear
JR is here..
ready to spread a table for
you in the presence of your

full of seeds and raisins
and peanuts..

down the hatch

NIMBO
He knocked on our door

from Miami..
and said that all he had
in the world was $2000
.. and that God had told
him to give us
9 $100 bills.. which
he did.

EASTER BASKET

If it harms none
and in prayer you ask it
God has it for you
in your Easter basket.
And as time and tide
flow on
one sees that
his own heart
is the Easter basket.

BELLIES OF OCTOPI

'My ashes shall occupy
the bellies of octopi.
My aging brings
senility
and its even
more evil
twin sterility.
Declines my body's
utility.
All is futility'
did I moan to my teacher
who to my mind's
intuition replied

'It is a lie from hell
to think yourself
the body's shell'
'Do not cling
to the petals of spring
for that retards
the ripening fruit'

'Each day all spirits
uncover more of
their infinite
love, power, beauty,
peace, miraclemaking.'

WINDSTAR

Whenever winds howled
and whirled
and around homes
curled
he knew that beyond
them shone
the unchanging

CLARA T  VERSION 2

She could make a room
full of corpses laugh
.. could Clara T

Kindness-sheathed her verity
.. never with severity
She has a
mind of perfect clarity..
heartfont of pouring charity..

an allfruit giving cherry tree

APPLE CORE

The discarded block
became the cornerstone
of the Heart Temple
with His LoveThrone

The apple core
thrown into the weeds
contained timeless seeds
.. they are His Word
Made Flesh
in Apple Tree Deeds

23RD PSALM DANDELIONS

'I shall prepare
a table for you
in the presence of
thine enemies'
said God about
the gold dandelion
table.. to His
bees.. as He
prepared to
dismantle all herbicide
and
insecticide companies.
all machine harvesters
and mowers.

THEY HAVE DIVIDED MY LOTS

They invaded the woods
temple of the deer.. ran after him
with highpowered weapons
and dogs.. as his flesh
became saturated with
the adrenalin of terror..
it took 12 arrows to
bring him down..
while he was not yet
dead they stripped him
of his skin..
to make a coat
.. drew and quartered
his muscles
.. made salami
of his bowels..
and reduced and defined
him by the number of
points on his antlers
.. they divided his
lots amongst them.

Four Murderers Given Clemency by God Moses murdered an Egyptian in anger David murdered Uriah in lust. Cain murdered Abel in jealousy. Paul murdered Christians in obedience to a cruel state. All suffered afterward. Yet God spared their lives. (Commercially harvested grains kill many animals and are sometimes sprayed with insecticides 3 or more times..)

Clara T's rosary links turned gold at St Jude's when she was praying for another. There were 3 witnesses to this. -THE QUESTION OF JESUS AND FISH THREE OF MANY INTERPRETATIONS 1 The Greek word for the fish of the miracles of loaves.. is opsarion.. or pickled fish. Jesus materialized something chemically identical to dead fish without suffocating innocent fish. (Albert of Michigan is one of many who follow this interpretation.) 2. Jesus materialized fishes for others but did not eat it Himself. He did this feeling that the world at that time was not ready for the Genesis 1: 29 fruitarian world prescribed by His Father. 3. The most radical with the fewest adherents is that of the father of Edwin Booth, a 19th Century pastor, who said that if there had been no fish suffocation there would have been no crucifixion. Poems Of The Wind

WINDBROOM

More nonviolent than
a Buddhist monk's
soft feather broom
is the gentle wind,
when he wishes to be.

WINDBLOWN

On the desk a book open, windblown to a different page
with his airy finger underlining a message from the angels

WINDGUIDED

Said the Weathervane: I am not a flake
but an obedient instrument
of divine windwill.

WINDSIRED

Ripe dandelion seed windsired
as open hearts by God's words fired

WINDWAVED

Oh the playful wind fans the sea
As Spirit makes reality of Divine Fantasy.

WINDSAVED

The Memphis Belle took a sudden dive

LUCY AND AMY

their drums in music time

DAWNDRAWN

By dawn drawn
dandelion down
is falling down
falling down
and floating
still at sundown
the soft snow
of her spun down

POD OF CLOUDS

Slowly swimming
in the sky
a pod of greywhale
clouds, baby wisps
trailing along behind,
soon to bless all
with the rain of grace.
They are a backdrop
for starflakes of prana which float everywhere.

CLOUD CURTAIN

At intermission the wind pulled a grey cloud curtain over the stage. The main actor, the sun, needed no rest nor any new dress.

RIVEN BY THE RIVER

A mountain of ice by spring's river riven. A mountain of snow away by winds driven.

CLOUDS UNFURL

near the sound of waves uncurling oer unmolested oysters' pearling neath eastmoving clouds' unfurling and the downpour of the sunlight swirling the spinning heliotropes are still twirling

The cataract is carolling without the help of winter winds.

Plumes of spray, hurricane driven, smash against rock by time riven .. an ecstasy to the sea by God given

streamed from the chimney
as red fire's stokes
released grey smoke

DEW CLEMENT
*
As the falling dew clement
became bitter juice of lemon
so did the words
of the Peaceful Master
become the swords

and then he became the

HELLO

FOECUS

When one focuses on
a foe..
one becomes that foe.. this is foecus...
the enemy growing inside one
... like a foetus
Positive thoughts vanquish foes
as they try to defeat us

BREAK OF DAY

The break of day!
The crack of dawn!
Look not at night's shellshards
but at the newbird sun!

(to David Wright)

SPIDER WEB BEJEWELED

A spider web
dew bejeweled
.. shining necklace
hung on the throat
of dawn..

though its builder means it as a deathtrap
for innocents
.. God has other plans

CATCH A FIRE IN THE SKY

Catch a fire in the sky
with water.
Catch sun father
with pond daughter.
Water is not the foe
of fire.
Together rainbows they
do sire.

SUN ARRAYS HIMSELF

Over the lip of the earth
broke into night the sun.
A little cloud
.. a baby herald
ran and told everyone.
Each little cloud seemed to
catch the sun
and to steal his homerun.
But as they were later
rained away, we knew
his ball has gone
further than anyone's.
Himself sun arrays
in His own rays
and as He arises
and all birds He arouses
His rays are of
pink and purple and rose.

(to MBC of Columbus)

OBEDIENT ANGELS

Angels are obedient
to our wishes.
They are genies
in the bottles of
our hearts,
waiting to be prayed
into appearing..
waiting to
make concrete
our deepest desires.

IN MAY TO BLOOM COME THE BEES

She prayed and
into inviolate ethers
suddenly came
ultraviolet feathers
delicate gossamer
wings of thought
turning to real
all maybes and oughts
turning the verb of may
to that of be
as surely as in May
.. to bloom come the bees

DESIRE IS DESTINY

The foghorn sounds in the mysterious
mists.. a lonely call for his mate.
The train whistles
beckon to our desire which is our destiny.
The sea sings to the shore.
In Siberia snow falls soundlessly.
In a world beyond time
horses' hooves on cobbled stones,
the crash of the cataract,
the boom of the ocean,
the cheerful babbling of the brook,
.. the first trill of absolute joy
from a predawn bird.. a trill
which is a sword to
Dracula's night curtains.

First and last, God is in our
ears.

CHARGING THOUGHTS

Garbs her thoughts does Marge
with a positive charge
as surely as
putting things
in a bag of white
more than a dark one
reflects the light..
as surely as
rainbows striking
resin's dew
leave hope
as their residue

CLEMENT STONE

Pain is the clement stone,
the hard seed within soft fruit.
Those who chip away at it destroy life.
Others shine on it with sunlove
and rain mercy upon it..
and watch as green fire tongues
forklaugh through the hard
shell and to a sapling grow
.. which to a tree gives sway
which gives away
all her free food of life
From her fruit come unnumbered
pastel bloomed
and bright harvest orchards.

EASTRIDGE

Over the mountain's
Eastern ridge
Of a sudden came
mornlight's dawnbridge
Which distilled into
matter
and became
a light ladder
transporting
them..
wherever they wished

IN FRONT OF 8 BALL

We are all
in front of eight balls..
ever behind them..
because we act with all power of God
all evil
vanishes from our presence
as the shards of night
vanish before morning light

A DUPRE

Oh once fired
was A Dupre
for giving all
of his students
an A
.. for living
beyond the judges' realm
above the
Ivy League vines
and winter elms

FEW MORE SECONDS

She knows Dawn is coming
She saw his pink violet light suffuse the air
and though the sky is now
depressingly grey..
from a stray ephemeral
passing cloud
in a few seconds
oer the horizon
will pop
the blazing eternal sun!
(to Cathy Marshall)

INVIOLATE

Roses are pink
Violets are violet
Our love for you
is forever inviolate

(to JB)

RAISE HELL

-
Raise hell..
raise it to heaven
... use to lift it aloft
... love's airy leaven
the same place
.. are hell and heaven
.. only eyes of varying
frequencies
will difference see
Those immersed in ecstasy
.. see only divinity

RED LIGHT TO GREEN

the red light to green goes
fixed ice melts to water flows
to yes is wanded all the no's
now allies are all former foes

each thought
magnetically with
plus..
turning lack into
surplus
each thought
surcharged
with divinity
empowered

linking
connecting
through the
will God-aligned
as divine currents
flow down the spine

Love drops
its garb of hate
..the nine emerges
from the eight

allow not
the slightest doubt
to unplug current
or put light out

reaching out
to the Love in each
.. as each does
his own love teach

LOTTERY TICKETS

He thought himself unlucky
but it was positive
thoughts he
must unlock..
as he sat by
the abandoned
lottery tickets..
broken dreamshards
but near them
in a puddle
the sun beams
gleam
.. infinite
stems of the sunstar
asking him
to change the angle
of his vision

FORTUNE COOKIE SHARDS

Some impatiently pull
out the fortune
anxious to devour
the fortune cookie shards
Others care more for
the fortune
and abandon the cookie
shell
Still others make their
own good luck.

REMINDER TO MYSELF

Come from the mind to
the heart
.. to cool drinks
which quench thirst
.. not ever questing salt water
Extinguish the fire of
greed not by feeding
it but by walking away
Exhaust yourself not

in ever ending
multiplication of twigs of trees
but rather love their unity
Love less the
external
form everchanging
than the internal
Spirit neverchanging.
Still the endless ocean
waves
by dwelling in seadepths
Love less the ocean's
foamy pieces
than its deep blue peace.

RISING WATERS IN A QUARRY

As rising waters in a quarry..
fill every niche and nave..
so do Spirit's rising waters
grant each desire..
dwelling in heart cave.

(to the McGee's)

SIBERIAN SNOWDROPS

She was in the
north after the sun went down..
toward a snow machine's path
in the snow.. which ended
in vast measureless signs
of Siberian silence

of frozen dark cold wasteland
.. hell was cold not hot

But in the morning she looked
south.. and saw
the avalanches melting
into snowdrops
which would nurse
the headwaters
of the rivers of
joy and supply

Cold hell
is heaven's shell

God was telling
her for the thousandth
time.. to look upon
the bright side..

SPANGLE THE RODS

A grass spire
dewcrowned
reflects the entire sun.
Spangle the rods.
A stick discarded
or used as a club
becomes a magic wand
if it is starred
with the physics of
positive thought.
We write what
we must learn.

SUN'S YEAST RAISING THE EAST

It was the time of
the sun's yeast
raising all the East
... and he could
not understand
how quickly the
sky's hue
changed to sunrise pink
from blue..
until he realized
he had changed directions.

TOUCH DOWN SPIRIT

Angel Air..
lift our wordwings
into the realm of
reality.
Connect the dots
between our wishes and
their
fulfillment.
Color in our dreams.
Manifest our God
planted desires.
Materialize our
prayers.
Alight,
Spirit! Touch down!
into our
hearts

WE

We.. who are
dwarfs or giants or
paraplegics or
who have not been
by headturning beauty graced
or who have neck lines
of time beneath the face
we who haul extra weight
.. or are afflicted
by painquelling addictions..
or sit in prison..
or face bankruptcy
..or do not know where we
will lay our heads tonight..

we are among the first
to realize that the soul
is not the body machine
through which it pours..
and that beauty is not
Divine Love, that
the 999th match after 998
tries.. is enough to
set the world aflame
with Spirit Fire
...

WHAT HER OBEDIENT HEART ORDAINED

A magnet was her spine
attracting all to its line.
What her omnipotent heart ordained
her obedient will quickly obtained.
Around her granite resolve
worlds began to revolve!

WHAT WE THINK TOGETHER

What we
together think
manifests as
words in ink
.. and builds to
critical mass

WISH BECOMES WILL

Wish becomes Will
becomes action
becomes reality
as dreams touch down
..6 points
for all
Beneath his gaze
the impossible
became improbable
and then implausible
.. and then plausible
and then possible
and then probable

until that it would not
manifest was impossible

FILAMENT

A tiny piece of metal
plus the radio into
the universe.

A slender silk filament
of grass was enough
to bridge the vine
to a water trough..
as her prayer wishes

YOU ARE STRONGER THAN URI

As many like Uri Geller
can with mindpower
bend metal
so prayer and positive thought
can melt weapons.

FOUR DREAMS

A dreamt she rolled
a woman into an intersection
so great was her desire
to speed her to perfection

Then she was lifting
in a dream
a needle off a record
during static periods

B dreamt her friend
awakened someone
who wanted to go deep
back into the fields of sleep

and then she dreamt
she was singing in a choir
.. and wanted to sing
Amen before the appointed hour

(2 devotees with dreams
about the speeding up of liberation
from karma)

GANGGRAPE

The sun's sharp sword
rays
.. were like many gang rapes
.. yet in the end
they gave purple grapes.
The sun is a lust-er
and yet and yet
his brilliant lustre
is now graped cluster.

(to LM)

EVER PROTECTED

HELLO

Out of the darkest night is born the dawning light. Out of the greatest pain of hell so low is born of goodbye the sweetest hello (to E)

BOUNDARIES

You don't respect boundaries complained the mineshaft as daily at noon sent the sun into his dark her freeing light shafts.

LEMONS AND LIMES

How awestriking How sublime
that out of slime
God makes lemons
and God makes limes.

LIME WEAVE

The lime tree weaves the light
into limes on loom of night.
Some in theatre limelight
seek to hearts ignite
and others desire only
to weave lime-light.

WASHING WISHES

If we wash our wishes
they will sooner
whooooosh into reality.
May God now wash Washington..
through grace and miracles
cleanse it of greed and
violence, lies and
dictatorship, racism
and cruelty.

WHAT ARE PRAYERS?

What are prayers?
. the insistent ringing
of loud suffering
. desire seeds planted by God
springing.. greening
.. love leaving its birthplace
heart... as perfume
.. the incense of wishing all well
from the soul's wishing well

We pray Father Mother God
that the
ringing bell
does not crash down
calling us to
bellum’s hell
but calls us to the
shrines of peace
.. most holy calm and belle

THE PINE DOES NOT OPINE

The spruce, the fir,
the evergreen, the pine
does not to the air
or peers opine
and attracts more quickly
Spirit bird pinions
than those of more
Procrustean opinions.

NOT CATERPILLARS

Those who focus

are telling lies
as if referring

the now butterflies

NO SNOW AT SEA

snowflakes
fall on seashore sand
.. they blanket not
the sea but land
as cold insults
at saints thrown
do not remain
on their warm heart thrones

FLEUR DE LIS TRAIL
The raccoon's tracks
preceded hers in the snow
.. time kept them from
colliding.. (as does
space
in another case)
Even so she did not wish
to obscure his little
fleur de lis trail and
so stepped over it

POLLONIUS FELONIOUS

It was felonious
to stab Pollonius
but not to lob
a water balloon
at Dennis Hastert..
that sound was
euphonious

JIMMY BUFFETT

Jimmy said that on the tipend
of each sunset ray was an evening
star...
sunset and sunrise.. the time
when magic wands are most powerful

GOLD LINING

Every cloud has
a gold lining
a sign that the
sun behind it
is always shining.
Inside the
ore of war
are diamonds
for the mining.

(Anger about the Iraq
war will sweep out
many Republican governors

DATE SUGAR

As the date sugar is often
more at the bottom of the teacup
so the second half of your life
will be more filled with sweetness
than the first.

BLUE SMOKE IN MIRRORS

Spiraling up in the twilit
mirror.. curls of blue smoke
.. called substanceless
by many.. who do not
realize.. it is smoke
from the prayer fires
rising to the Almighty
Heart of God.. who
materializes sooner
or later all desire

WINDMILLS TURN

This Quixote seemed to tilt
at windmills
and they began to glow
Through them the air
did flow
and back to its mother
the sea
made the water go

SILVER LININGS
A gift for us all is coming.. wrapped with all the silver linings that ever were.. with a bow of the rising sunburst .. inside... the present: to be to all present and most of all to love ourselves

Each sweet dessert dropped by the date palm tree has her own unique
WISHING WELL STARS

He looked down into
the wishing well..
mirrored stars were
captured there in the well's upswell
It was those stars he wished upon
.. the same stars caged
in the nearby pond
and because angels answer
all wishes in time..
in a cloud of love with
his love he
now dwells

FIGMENT

Born is the sky blue and big
of the palate's pigments
and come the luscious figs
from imagination's figments

EVER POSITIVE

The sun is always positive
... ever pouring his infinite light
.. and fruit trees burst forth
with orbelled delight
The negative comes from
shortlived shrouding of his rays
.. the clouding of his light
vanquished soon the forces of night.

EFFECTIVE

not with negation.

FIBONACCI AND THE NEW CHAMBER

How amazing that
when the chambered nautilus

in letting go he finds

Pp 25 Of Many Prisoner Rights

Prisoners have a right to

1 life
2 libraries
3 communication tools
4 clean surroundings
5 blankets
6 immediate release for marijuana arrests
and many other nonviolent crimes
7 conjugal visits
8 food in accord with spiritual or ethical beliefs
9 noise free environment
10 protection from guard or other prisoner violence
11 access to lawyers
12 protection from extremes of heat and cold
13 protection from medical experiments
14 exercise... sunlight
15 job training
16 high school and college classes
17 medical attention
18 freedom from slave manual labor
19 voting (Jesus, Gandhi, Dr King were defined by
the arresting authorities as felons)
20. spiritual and or meditation time
21. ethical sentencing

22. the right to food without saltpeter or other toxic additives

23 the right to fresh fruit and vegetables in quantity

24 for citizens imprisoned in another country (the right to contact ones
consulate... a right not honored by G W Bush... citizens of Germany, Canada,
Mexico were executed without their contacting their embassies)

25 the right to human companionship (not solitary confinement except in rare
instances)
Prison Facts

1. The US has 2.3 million prisoners, more than any other country in the world including China which has 5 times the population.

2.56% of these prisoners are incarcerated for nonviolent drug use.

3. One million guards, prison cooks, and others depend on this large prison population for their livelihoods. Prisons were built in poor, white, rural counties to provide jobs.

4. In addition, the federal ATF agency and several others have higher budgets because of the high prison populations.

5. Corporations make huge profits from the privatizing of prisons.

6. Mandatory sentencing laws passed by Congress are harsher than what 99% of jurors want.

7. The average prisoner costs the taxpayer $27,000 a year. The average is more than doubled for older prisoners serving life sentences with medical problems.

8. Glenn E Martin stated in a radio show that a robbery in which no one was home is still classed as a violent crime.*

9. Sentencing of prison populations has involved much heavier incarceration rates for blacks and for the poor. Bernie Madoff is perhaps the only member of his economic class in jail, and that, say some, is because he stole from the 1% who were richest and not the other 99%.

10. One example of the racism in sentencing is that crack cocaine guidelines are much harsher than those for cocaine. A white cocaine user had to have 100 times as much of his drug as a black crack user to land in jail. That was changed. Now it's 18 to 1 instead of 100 to 1.

11 'Why call prisons correctional facilities when their goal is punishment not rehabilitation'

was the statement of a caller to Tom Ashbrooks radio show On Point.

12. Senator Rand Paul, candidate for President: Youthful mistakes should not
cause someone to be punished for his entire life. (paraphrased)

13. Joblessness creates idleness which is a climate for crime.

14. Between 1990 and 2000, says Judge Mark Bennett, in a mere 10 years the prison population went from 1 million to 2 million.

15. Tom Ashbrook reported that both Bill Clinton and Joe Biden created 3 strikes legislation, requiring that those who have been convicted 3 times of felonies receive life sentences.

16. In many prisons, religious and ethical dietary principles are not respected.

17. At least 14 prisoners in Texas since 2007 have died of temperatures as high as 130 degrees.

18. Prison guard violence has caused untold deaths and beatings.

'Sarseed Transmissions: One never has enough data to assign value to any action.'

1. The world is estimated to reach nine billion humans in population by 2040. How many trees will be left standing? How many animals' habitats will have been destroyed? Will the violent weather patterns increase exponentially from the crushing human tread on the planet?

2. Children born to parents who did not choose and do not want them are more likely to be beaten, sexually abused, neglected. Other babies are thrown into dumpsters or given to neglectful foster homes whose bottom line is money.

3. Should women be instructed about their bodies by celibate priests? Should the predominantly male governments of Romania, Spain or other countries insert themselves in decisions over the autonomy of Women over their own bodies? Many women believe no government nor hospital nor religious hierarchy of males should have sovereignty over women's bodies.

4. When a Catholic hospital chooses to sacrifice a mother's life to save an unborn child... is that murder? Many Catholic hospitals are refusing to give abortions to women with fallopian tube pregnancies.

5. Pregnancy is still sometimes a cause of death for the mother from breach births, toxemia, placental abruptions, hospital MRSA etc. Does anyone have the right to force a woman to risk her life?

6. Those who claim that aborting a first trimester foetus takes away forever the chance of human birth are unaware. One woman who'd had 3 abortions went to a counselor with the gift of spiritual prophecy who said to her never having met her or known of her 'A soul has knocked on your door three times. The fourth time you will let him in.' Those who are aware of reincarnation (something not banned in Christian sects for many centuries) know that no abortion is murder... only the delay of the entrance of a soul onto a human stage.
7. The time at which a soul enters a body... can be at conception, the quickening of the first heart beat, often in the 5th month, or at birth. No one but God can say when a soul enters a body.

8. Attending a mass in New Hampshire, a woman heard a priest pray that all human life is sacred. She stood up and said 'The life of all creatures is sacred.'

9. How often the 5 'prolife' Supreme Court judges, governors, senators etc. vote money for bombing others, ratify judicial murder, eat the flesh of murdered mammals, suffocated fishes.. The term 'prolife' is very narrow for such people.

10. How many 'spiritual' teachers who preach prolife are silent about the abortions by bomb of their governments, governments involved in the murder of pregnant women by drones.

11. Priests have counseled women with a dozen children, unfaithful nonproviding violent alcoholic husbands, that to divorce them would be a sin. These women are never free to pursue the true destiny of their hearts' labors of love. Their husbands often die sooner than the average life expectancy from lives of constant drudgery in jobs they hate trying to support the load of many offspring.

12. Alcoholic or drug abusing Women, women with AIDS, syphilis, etc., women beaten during pregnancy, have children who start off their lives with physical injuries and crippling handicaps. Often the brains of these babies are smaller because of nerve tissue destruction.

13. Jesus made no recorded comment about abortion but Jesus often condemned the hypocrisy and judgmental ways of the Pharisees.

14. Some males even want women whose pregnancies come from rape or incest to be forced to give birth.

15. The Catholic Pope says contraception is a sin. Are not many priests involved in voluntary contraception by refraining from sex?

16. Polls indicate that a majority oppose third trimester abortions... and support first trimester abortions.. with no majority either way regarding 2nd trimester abortions.

17. Daughters of fundamentalist parents or controlling judgmental parents have
often been beaten or shunned by those parents when their pregnancy is discovered.

18. Marriages and families can be destroyed by a husband's fathering a child with a woman not his wife.

19. Because the Catholic hierarchy in the US has aligned itself with the ostensibly prolife G W Bush and G H W Bush as well as countless Republican prowar senators, there have been wars initiated in Iraq and Afghanistan.

This poster has never had an abortion, but has not faced the crippling poverty and abuse that many women have.

BIRD CHOIR

When more than 1 human

is it cacophony..?
not if they are singing
in a chorus

When birds sing and frogs croak

a peaceful sound...
some say....
harmony

DAYBREAK DRINK

In the forest was a deer

Slighter than she is the touch of quiet
And non is quite as slight

Now came a freedom from fear
for the gentle deer
who arched his neck
and humbly lowered it
to drink from master lake
his thirst pain to slake.

Refugee Roundup

Refugees, immigration, 'Give me your tired, your poor, your huddled masses yearning to be free', an infinitely complex subject.

The Department of Homeland Security, born of what millions consider a black op conducted by rogue elements in our own government, has been criticized as a redundant federal agency gobbling up the jobs of the FBI and Immigration at great cost. DHS's purchases have been questioned as unsupervised and unethical. DHS is currently rounding up refugees from Guatemala, Honduras and El Salvador, sending them back to violence torn countries from which they escaped.

Dialogue between Mr A and Ms B:

A: We have hungry people here, with no jobs or health care. Our infrastructure is falling apart. We can't afford any more refugees.

B. Then stop the illegal wars which are hemorrhaging trillions of dollars, the spending of which bears only death, injury, destruction.

A. These people go to immigration court. It is due process.

B. Even when some go to court, most of that number have no attorneys.

A. They have no respect for our laws.

B. Each case is different. Many have come here legally. A certain percentage will face injury or death if they are forcibly returned.

A. The security of the United States is harmed by unchecked immigrants.

B. This roundup is family busting violence. People who've lived here for years are losing friends, jobs, possessions and homes.

A. Terrorists have come to the US in the guise of refugees.

B. Our government is bombing children, elders, animals and forests around the world. The best way to protect ourselves from violence is not to cause it. This is a job for the United Nations, not just one country. War is organized terrorism and the government has lied to us about the WTC bombing.
A. This is leading to a breakdown in law and order.

B. Most religions and ethical systems teach that we should feed the hungry and shelter the homeless. Where there is a loving will there is a way.

EVERY LEAF

Every lovely leaf  
in the rainforest  
weaves clouds of  
longed for rain for us.

INEVITABLE

The cross has  
become the crown.  
The rejected stone  
is in temple installed.  
The metal resoldered  
is stronger than original.  
Wings have emerged  
from cocoon.  
The most sacred place..  
where foes have reconciled.

AMAZING GRACE

The cloud which blocked  
the reveling sun  
became a rain of grace  
and in the barren
winter tree
has raveled to green lace.
The stone cold foe has
turned around
.. is now of hearts the ace
and out of the invisible
God
has given love
a face.
The world is now awahs
with love
.. arinised with rains
of light..
everywhere has been
cleared away
.. the illusory
pain of night

ARBOR AND HARBOR

Of every leaf's placement
in any arbor
God is the
First and Final Arbiter

Of every lapping wave
in each sacred harbor
His birds
are the harbingers.

BEIJING SPRING

In Beijing
the I Ching
joyful sings
eternal spring

Birch bloom strings
silent ring
Sun to all
quick'ning brings
BLUEBIRDS ON A BARREN TREE

Bluebirds sit
on the barren
black branches
of a winter tree..
but it is not
their gentle touch
which will resurrect
him with lifespringing.
It is the God ever within himself.

GREEN ROOM

She'd had a few lines of
tears in the scene
but in the Green Room
before and after
and on the stage as well
from her they heard laughter

BURSTING BRANCH

How has withered
winter ebony branch
become bursting flute
of bloomed blanche?
Though the kisses
of the sky's rain dance
and the wand of Sun's
most casual glance

They find no longer room
do the bursting blooms
in the branches' cocoon
Butterflies of purple
redbud
burst out of their tombs
(to J Dunlap)

CRIMSON RAINDROPS

Blood from the wounded deer
splattered everywhere..
it has become crimson
raindrops over there
.. raindrops which
to bright red berries
crystallized..
.. foiled more beautiful
by the bright blue air

when they fall to the
ground they become
greenleafed shrubs

BUTTERFLIGHT

Transubstantiate.. Metamorphose

Jesus miracles water into wine
Merciful rain turns
to grapes violet upon
the vine
and the communion giver
turns that wine into
Jesus' blood
as willow trees are
born of flood
as acorn becomes oak
and kernel the corn
and the love of a father
in forlorn child reborn
and Tolstoy's ink
becomes Sathyagraha
which Gandhi thinks
and the murdered pig's
fat candle becomes
sacred enkindling flame
and the manure pile
becomes the pink rose
and moon's night
becomes sun's light
and crawling worms
become butterflight
So does the Holy Spirit Dove
turn anger into Love
and make us One with
OUR GOD who is Love

(not an endorsement for
butter stolen from cows
)

CROSSROADS

We came to a crossroads sign
and what did we see?
   All directions pointing
to his heart's infinity.

   (to Mahashakti D'Alessio)

of cocoon
is not ready
to fly

CHRYSALIS IS NOT CRYSTAL
The larva..
the chrysalis
is not translucent
bright crystal..
but hidden
in the dark
.. the dark night
of the soul
before emerging
as the Christ

**

inspired by Emily Dickinson's
'My cocoon tightens
colors tease
I'm feeling for the air
A dim capacity for wings
Degraded the dress I wear'

heart)

POOL

The swimming pool shaped like a crucifix .. it hurts not to swim in its waters.

DREAMFILL

Some dreams seem to die so very quietly like the soft snow falling upon the mountain lee But in the morning sunrise
light we see
Dreams filled for
all eternity

ELEPHANT FOOTPRINTS

Around elephant footprints,
small animals circle
to drink the captured rain.

The ruts made
   by a visitor's drag race
   have left pools
   in which
      butterflies sip.

GANGRAPES

The sun's sharp sword
rays
.. were like many gang rapes
.. yet in the end
they gave purple grapes.

The sun is a lust-er
and yet and yet
his brilliant lustre
is now graped cluster.

(to LM)

EVER PROTECTED

She sits neath
the tree's

All round her

BOUNDARIES

You don't respect
boundaries
complained the mineshaft
as daily at noon
sent the sun
into his dark
her freeing light shafts.

CHICAGO
The sun left for Chicago
last night...without saying goodbye..
as he the sun has always done.
We knew he had gone
for suddenly
we felt alone.
This morning he was here again!
He has just now flown in from Spain!
We knew he was home....
for suddenly we feel warm.

HERR HERON

Herr heron
no longer
the free herring

MEDUSA VANQUISHED

The sight of Medusa
turned humans to stone
The sight of the past
turned Lott's wife to salt
but the sight of the sun
turns gloom to cheer
as the sight of Christ
breaks the stone in hearts.

PHOENIX ARIZONA

The ashes of the

Phoenix feathers
born of fire

the ants more
quickly come
as to heartbroken souls
come sooner seekers
after sweetness

abstention's awesome heights.

He earth sprinkles with periwinkles and wild places peppers
with green vines of red pepper
With unannounced blooms
the deserts He stars
and with sunrays arrays
spring trees with new sprays
He grows new green clumps
in junkyard dumps
With goldenrod He dusts
abandoned car rust
and with dandelion down
He powders the dawn

THIRTEENTH FAIRY

The 13th fairy not
invited to the ball
.. threw the apple of discord
... it rolled right out of
the hall
and fell into a ditch.. a niche
and her seeds grew and grew
.. into an orchard so fragrant
that all around it drew
In its midst the 13th
fairy..
her holy light blazing anew

SHORT POEMS

Reborn... Sappho... wears monks' saffron.
*
How awesome How sublime That out of muck and mud and slime God makes lemons God makes limes.
*
Oh Julie.. God's sun is shining She is grapevining
and the grove tree now she's liming
*
Out of the pain of hell so low..
was born of goodbye the sweetest hello
*

the bee the purple blooms did rape.. and now there
are sweet violet grapes

Glass shatters... neath sunfire... each shard reflecting his orb entire
*
The Great Lord can behind him twirl... vast universe' gyrating swirl... that his rebellious insurrection
.... become his glorious resurrection
*
No lid for the cups of sunlemony buttercups..
they just infold to escape night cold..
but in the morn... once again unrolled... their cheery gold
*
One upright pier pillar after another yields in the night to the hegemony of the tide.
*
Those who took opposition roles...
were midwives of her strengthened soul
*
The sun arises and rouses the rose. In raspberries,
His arisen rays are rose.
*

A wee teardropp reflects a star. The tears dry.. remain the stars.
*
Meet the sea the icebergs melted
.. and now reflect the sunrise molten

Transmuted scorpio's sanctuary is the Spirit Eagle's aerie.
*
Every dawn a straight rainbow of promise is on the horizon
...heralding each heartsun's rising.
*
As resoldered metal is stronger than when first forged,
so the resurrected are paradoxically more perfect than
the Godcreated original
*
The soul's essence is ever in God's presence, and unharmed by the
fires of creation or the ashes of cremation.
*
He was so loved by all creatures that when it rained
a cloud served as his umbrella.
*
Filling every inch of the line of floodcracked cement
is a thread of velvetjade moss
*
In the empty chalice of the rivercarved grand canyon
dawn has drawn with gold pink orange light crayons.
*
Candle flame fear not results if you ignite
the snuffed candle's reborn light.
*
As a clock with no hands can register time as the sun
plays across its face, so Spirit needs no body in order
to manifest its power.
*
The apple tree's each barren branch.. burst to
wands of blooming blanch
*
At the base of the birdfeeding pole, a perfect circle frames
it... the lace trace of birdprints, as they ate the
seeds which had a precipitous fall
*
God the Divine Genie is waiting in the bottles of all hearts
to answer wishes.
*
On Ararat rests the ark. A rainbow is born in the dark.
Out of silence bursts the joyful song of the lark.

A certain degree of the 360 degree zodiac wheel made a grand cross in my chart. I was attacked by a man with handcuffs and a hunting knife when neptune was that degree. It is true now as well

is the Lord of Wall Street,

Capitalist dictators are the Saudi sheiks
who rule Wahhabi Sunnis.

The world they create for

They decapitate, hang or to death stone

Annually for pilgrims millions of

Sea Poems

* Poems To The Sea

SAGARADHAR (GOD: THE HOLDER OF THE SEA)

Rocking Cradle of the World
Sunset Stairway to the Stars
Only by Great Masters Trod
Only Written on by God.

IT SNOWS AT SEA

It Snows At Sea
Quiet Falls in flakes

Melting designs

leave form for All.

INGATHERER

As the sea does each drop,
all rivers ingather
so flows every soul
to God Mother Father

RAIN AT SEA

Rain on the sea....

a redundancy?

as are reflected fires

neath ignited stars?

giving back a tiny

peace of the love God pours

MAVOORNING
Out of the sea
the sun aborning
with his awesome
light of morning
Not adorned
but all adorning
says to you
'Come!
My Mavorning!' 

DO NOT DISTURB

God has put a 'do not disturb'
sign
over the green shelled lobsters
and limpets
cozily nesting
in lime waters limpid

DUNE GRASS BRUSHES

From the shore.. one looks
upward to the sanddune grass..
10,000
green brushes attempting
where they laid
to paint the blue sky
jade

HURRICANE KATE

Hurricane Kate
forced proud palms
to padnamasakar
the humble ocean

Because she the sea
everywhere has feet
it's not hard for them
to show their devotion
COCONUT PITCHER

The full moon poured
pitcher after pitcher
of coconut milk
into the sea..
and the sea..
she silvered it all.

SEA PITCHER

I gave him a pitcher.
He gave me the sea.
*

FOAM LACE TABLE CLOTH

Mother Earth set daisy tables that
upon them bees might sit.

Mother Earth
set buttercups
that from them
bees might sip sunup

Mother Sea.. threw a foamlace
tablecloth over the flat rock
in the bay..
that her fishies might dine..
and when they were finished
she slid it off and sudsed the
rock clean with her surf.

SEA NILE

Where to salt water
turns the sweet
Where aqua becomes
deep navy
Where robins slowly
become sea gulls
And the linear
to spherical
gives sway

is where the
sea is wed
to Nile..
Some thought
the Nile
was senile..
but he was far beyond
earth's cares
merged in the ecstasy
.. of the ebttide sea
.. only a murmuring
to say where he'd merged

LAVA TURNED TO JEWELS

She the sea.. receives red hot lava
and transmutes it
into green glass jewels
while on land pressure turns
charcoal's black chalk into translucent
diamonds.
She the listening compassionate
ear turns anger into
love.

SEAS OF PEACE

The tides of the seas
do wane and cease..
but the waves of the sea
have no surcease..
These restless waves
do give us peace..
all on her shores healed
by her perfect peace

SHROUD TO SAIL

The shroud in which she did lie
is now sail for ship of joy.
Her tomb's boulder now
the cornerstone of resurrection.
The mist which clouded mirror
of soul
replaced by God's reflection
and ice of pain on sea did
melt..
it now flashes sun's perfection.

SEA RECEIVES ALL LONELY RIVERS

Receives all arrows
the universal quiver
as the sea receives
all lonely rivers
as the sea purifies
all polluted rivers
as the sea
calms all
ruffled rivers

PEACEMAKERS

At times they crash upon the shore
.. sometimes they gently lap
sometimes.. they roll
sometimes they scroll
these waves.. these peacebreakers
.. never breaking the peace..
these peacemakers

OCEAN CROWN

Changing landscapes
but not the seascape..one cannot look at its surface and know if it is 2003 BC or 2000 AD
Neath the wingweave of gulls..
they tossed a wreath upon herto give her a crown
How absurd.. this tiny little crown.. upon her infinite immensity.. but she is not interested
in honors from earth..and she swept it to the shore

NEPTUNE AND THE MOON

The full moon
is a
mate of Neptune
Into the silent
mirroring sea
was thrown a stone
which shattered her face
but calm was restored
and the healed icon
was ensconced
once again in her
watery throne...
He did her array
in azure seaspray
.. and made
a necklace
which heightened her
rays and
let no drop
go astray

ARRIVE SHE SHALL

Beyond shallows
where
conch has left
his shelter
for a less confining shell
Past sunslivers
quivering
in waves' gentle swell
Away from softly
lappin tidalpools'
diurnal upwell
Daily to her quiet
seasoul
for a brief spell
.. come she shall

3 WAVE STEPS

3 tiers
of waves
.. each of them
starred by the
diamond sun
3 rings
.. a triple crown
.. for the horse
as she entered the sea

CALL OF THE SEA

Ubiquitous is the voice of the Sea
in the steady raindrops'
beating of the leaky roof's
peachcan drum...
in the trickle of
spring's melting snow
..
in the brook's cheery chirping
wintershaking
as he seaward faster flows

in summer's lightning
and rainpour
in the waterfall's awesome roar

in powerful Mississippi's silent murmur
in the portal waves' omkar*
Millenial temple to Poseidon
stands on his shores..
its granite rectangles
crumbling.. while His
pourable Blueness remains.

Rockgirt tide pools,
and bonegirt eye depths
remind us of Him.

Down from his heights
His Royal Lowness Piscean
calls
his brother
Capricorn
From her crystallized opposition
with the magnetism of His
limitless pull
He calls Mother Earth.

How does he heal? the sea?
With his lowlying humility?
Proud rivers must stoop
to take padnamaskar.
In every conch shell
hear his gulls.
In every place where
lovewaters gather and pool..
hear his call..
summoning all to his
vastness his majesty

Sooner or later every drop
will
rush to His call.

(to the 12th chamber in everyone's
soul mansion)
* based on Baba's sentence
(to the Avatar and all His children drops)
(padnamaskar: touching the feet of the Guru)
NUTSHELLS AND SEASCAPES

On the left, her haiku.. capsulized as beautifully
as any tiny nut in a shell..
On the right, her seascapes... infinite
in their endless joy

SCHUYLKILL

The Schuylkill
does no fish schools kill
When she encounters a rock
the river never stops
never stops growing
.. she keeps rising
or seeping....or flowing
Past banks flowering she will flow
.. she will arrive
.. to merge in her Love, the Sea
and In him in joy to dive

DONEGALWAY

So many sires
he had in Donegal
.. so many
foremothers in Galway
..he was
made of
Donegalway
...in every
cell of his being
called the sea
to itself

DORIES ANCHOR

Quiet Peace of Eve
Fishing dories
anchor.. lapping
Grateful are fishes.

POSEIDON TEMPLE

Millenia ago
sealovers built
to Poseidon
a temple by the
sea..
they hoped
it might outlast the sea..
with its marble pillars
by the sea's wave pillows
with its rockhard stability
..and unfishy sterility
by the sea's
ancient senility..
As it has crumbled
into seagirting sand
it seems to have
multiplied everywhere..
in blue wavewashed tidal pools
..(resembling blue eyes
set within noble brows)
.. they lead
to their master:
the Sea Eternal

GULL STACCATO'D

He says the sea
forever chants omkar
as she abides
reflecting the stars..
.. gull staccato'd
.. their screams counterpoint
her invulnerable ananda.

NOT THE BOAT
You're not the boat
.. you are the sea

SEACHARGE

The sea
charges the shore
and withdraws
to charge some more.

NEPTUNE'S HAIR

Neptune's hair
its wavelet strands
melted the castles
in the sands
but further inland
with his tidal hand
sent coconuts
onto the shining sands
which have become
a palm tree stand

MERE'S MIRRORS

A storm tossed sea reflects
a fractured Sun
as if God were chaotic

The silent ocean
of no motion

mirrors God's miracles
and mercy..
in the mere.
Even those moored
on the shore
harvest the bliss.

SERMON OF THE SEA
What is the silent sermon
of the sea
she bequeaths to each mermaid and merman
she in seaweed wreathes.
What is her legacy
in each leg of the sea?
Accept all lonely rivers..
Don't strive.. just be
Offer your self to God the Sun
Be at peace beneath
gulls' staccato shrieks.

WHAT ARE THE THISTLES' EPISTLES

Merely let go of your seeds
and the wind will scatter them
the rain will enkindle them
the sun will lift them

WALKING ON WATER

only He who can
control
the ocean's roll
He who can walk
on the sea's liquid
scroll

DREAM OF PIER

She walked to the edge
of the pier.. the
Sea of God beckoned
to her.. but she could
not bring the discs
she clasped in her
hand with her..
and sadly turned around
.. never mind.. there will
come a time
when her strongest urge
is with God to merge

CRASHING ATLANTIC

We do not always want
the sea
to be at peace
.. or to be specific
we don't always want
a pacific Pacific

at times we want to
stand on a mountain
above
and watch the waves
crash upon the rocks
.. the sound is
shakti itself

ENTERING THE TEMPLE

Children enter the temple
of the
sea
splashing raucously
Older souls enter
with reverence
slowly silently
They enter
the shrine of the sea.

WHITE AND BLUE

fringe of white sand
then blue of the sea
fringe of white wave
then blue of the sky
fringe of white cloud
then blue of your eyes
AFOOT

The tide is afoot
in the 10 million fingers of the sea

DRIFTWOOD STREWN

The shore may be
with seaweed and shells
and driftwood strewn
but the open uncluttered space of sky and sea..
.. as soon as it's smelled...
... pours in the peace

UNBOTTLED MESSAGE

With a rare wave
Bottled messages float to the shore
but with each wavelet
the sea's unbottled message is
'they love you ever more'

UNBOTTLED MESSAGE COCONUT

Grew the palm tree
on a hill oer the sea
and dropped into the blue
her coconut gift free
. . whose bottled message bobbed on the waves
and wafted to a different shore
where she unscrolled her message seeds
into palm forests galore
SPARKLING REFUSE

They dig trenches
in the sand and bury
their father neckdeep
while with the sparkling
refuse their mother
makes sandcastles

SEACHANGER

One goes to the sea
When afflicted with anger
By her calm shores
gulls are no strangers
..
in the quiet pools..
the sea's little mangers
.. She rocks us to peace..
with God.. the Seachanger

WAY OVER WAVES

waves break the lightway
across the waters into pieces
but if the direction is maintained
one finds again the path to peace

COBBLER

I am the tree
which made the
peach which
became the cobbler,
said the peachtree.
I cobbled the street,
said the stone.
I cobbled the sea,
said the wind.
I made the wind
so I cobbled the sea,
said God.

SWALLOW THE SHALLOWS

In his becalmed depths
the sea swallows
the waves he caused
in the shallows.

SEA HEALER

Whenever she feels
blocked..
she goes to the
sea
where waves
crash over the
rocks

see the unbounded sky
and the emerald necklace
of seaweed
by seeds shore strewn
and then shore sewn

and the sun melting
its gold delight
at dawn into
the azure light

and begin to feel
the energy of joy
being unlocked
SEACARVED CAVES

How the softly lapping
ocean waves
.. with patient
chisels.. lick and lave
.. sculpting new
seacarved caves

And standing kneedeep
in her shallows
the rocks
she has turned to
rookeries..
some places turning
convex to concave
.. in others
new holes she has made

Beyond the world
of skill
She has sculpted
the coral reef
to make room
for the scallops

but inland
the falls roar
the falls thunder
faster breaking
rocks asunder

as Spirit too
can make new holes
in
hearts of stone

AQUARELLE

Her azure
and aqua skies
are not captured by aquarelles
her sight and sound
and smell
lift us out of hell

.. an infinite blue jewel
framed in the dead past..
her shells

- 

SEAGULLS

Not arrow grasping
bunny attacking
eagles
but the melodious
singing shipcircling
seagulls

...  
not lone stalkers
.. no.. each of them
equal
to his sequel

CURRENTS

Sad was
The sea of being
that
she was not
a river of doing
so God gave her
currents.

While the woodpecker
wooed the woods
with his whittling
she carved caves.
Red Carpet

RED CARPET

The sea unfolds
her carpet of silver waves
with constancy..
yet at daybreak
and dusk the sun
wands it into
an unrolling
welcoming
red carpet.

Penguins And Pelicans

PENGUINS AND PELICANS

Cold water penguins warm sea pelicans
one is anarchic in the Antarctic
the other avoids the jelly cans

OF LOONS AND PENGUINS
SANDBIPPERS AND PELICANS

Because of her God
will sooner bring
a world of no more suffering
.. where none are swallowing
a chicken's or a swallow wing.

Over fields all fallowing
rise flocks of follow Wings
.. feeling holy Spirit Wings
.. all flying birds His following.

(to Nita Nickol)

BLUEBLOCK

The place I most want to be
is by.. the blue sky
and by the blue sea
yet I bar these hues
from my home
choosing sunny yellow, enkindling
orange, cups of pink and aqua
and saffron
on walls of vast white

MARE MIRROR

Some project that the sea raves
as she smashes rocks with awesome

DIRECTOR'S CHAIR

Pat Leigh, please pray for her... asked God who her teacher was and was given a vision of a director's chair facing the ocean. Perhaps it meant Her who can control the ocean's roll or Him who can walk on the sea's liquid scroll I think of her When I see a lifeguard chair... on the sands instead of in the shallow sea

Poems To The Sea II

SEA RECEIVES ALL LONELY RIVERS

Receives all arrows
the universal quiver
as the sea receives all lonely rivers
as the sea purifies
all polluted rivers
as the seacalms all ruffled rivers

RESURRECTING SEA

How does the sea heal?

He is trustworthy
Greater than the seal of
the confessional
is the secrecy of the sea.

He is freeing.
I look upon the vast empty canvass
of his seas
and I am released..
free to write my destiny.

He is resurrecting.
As his waves crash upon the rocks
he reconnects me to divine energy.

He is harmony.
My body begins to beat to
the rhythm of his waves
and I return to peace.
PEACEMAKERS

At times they crash upon the shore.. sometimes they gently lapse sometimes.. they roll sometimes they scroll these waves.. these peacebreakers.. never breaking the peace..these peacemakers

OCEAN CROWN

Changing landscapes but not the seascape..one cannot look at its surface and know if it is 2003 BC or 2000 AD
Neath the wingweave of gulls.. they tossed a wreath upon her to give her a crown
How absurd.. this tiny little crown.. upon her infinite immensity.. but she is not interested in honors from earth..and she swept it to the shore

NEPTUNE AND THE MOON

The full moon is amate of Neptune Into the silent mirroring sea was thrown a stone which shattered her face but calm was restored and the healed icon was ensconced once again in her watery throne...
He did her array in azure seaspray.. and madea necklace which heightened her rays and let no dropp go astray

ARRIVE SHE SHALL

Beyond shallows where conch has left his shelter for a less confining shell
Past sunslivers quivering in waves' gentle swell
Away from softly lappin tidalpools' diurnal upwell
Daily to her quietseasoul for a brief spell.. come she shall

3 WAVE STEPS

3 tiers of waves.. each of them
starred by the diamond sun 3 rings.. a
triple crown.. for the horse as she entered the sea

CALL OF THE SEA

Ubiquitous is the voice of the Sea
in the steady raindrops' beating of the leaky roof's peachcan
drum...in the trickle of spring's melting snow..in the brook's cheery
chirping wintershaking as he seaward faster flows
in summer's
lightning and rainpour
in the waterfall's awesome roar
in powerful
Mississippi's silent murmur
in the portal waves' omkar*
Millenial
temple to Poseidon
stands on his shores..its granite
rectangles crumbling.. while His pourable Blueness remains. Rockgirt
tide pools, and bonegirt eye depths remind us of Him.
Down from his
heights His Royal Lowness Piscian
calls his brother Capricorn
From her
crystallized opposition with the magnetism of His
limitless pull He
calls Mother Earth. How does he heal? the sea?
With his lowlying
humility? Proud rivers must stoop to take padnamaskar. In every conch
shell hear his gulls. In every place where lovewaters gather and
pool..hear his call..summoning all to his vastness his majesty Sooner
or later every dropp will rush to His call.(to the 12th chamber in
everyone's soul mansion) * based on Baba's sentence(to the Avatar and
all His children drops) (padnamaskar: touching the feet of the Guru)

NUTSHELLS AND SEASCAPES

On the left, her haiku... capsulized as beautifully as any tiny nut in a shell... On the right, her seascapes... infinite in their endless joy

SCHUYLKILL

The Schuylkill
does no fish schools kill
When she encounters
a rock the river never stops
never stops growing... she keeps rising
or
seeping....or flowing
Past banks flowering she will flow... she will arrive... to merge in her Love, the Sea
and In him in joy to dive

DONEGALWAY

So many sires
he had in Donegal... so many foremothers in Galway... he was made of Donegalway... in every cell of his being called the sea to itself

DORIES ANCHOR

Quiet Peace of Eve
Fishing dories anchor... lapping
Grateful
are fishes.

POSEIDON TEMPLE

Millenia ago
sealovers built
to Poseidon a temple by
the
sea..they hoped
it might outlast the sea..
with its marble pillars
by
the sea's wave
pillows
with its rockhard stability..and unfishy
sterility
by the sea's
ancient senility..
As it has crumbled
into
seagirding sand
it seems to have
multiplied everywhere..in blue
wavewashed tidal pools..
(resembling blue eyesset within noble
brows) ..
they lead
to their master:
the Sea Eternal

GULL STACCATO'D

He says the sea
forever chants omkar
as she abides
reflecting the
stars.... gull staccato'd.. their screams counterpoint
her
invulnerable ananda.

NOT THE BOAT

You're not the boat.. you are the sea

SEACHARGE

The sea charges the shore
and withdraws
to charge some more.

NEPTUNE'S HAIR

Neptune's hair
its wavelet strands
melted the castles
in the sands
but
further inland
with his tidal hand
sent coconuts
onto the shining
sands
they have become a palm tree stand

MERE'S MIRRORS

A storm tossed sea reflects
a fractured Sun
as if God were chaotic
The
silent ocean of no motion
mirrors God's miracles
and mercy..in the
mere.
Even those moored
on the shore
harvest the bliss.

SERMON OF THE SEA

What is the silent sermon
of the sea
she bequeaths to
each mermaid and merman
she in seaweed wreathes.
What is her legacy in
each leg of the sea?
Accept all lonely rivers..Don't strive.. just be
Offer your self to God the Sun
Be at peace beneath
gulls' staccato
shrieks.

WHAT ARE THE THISTLES' EPISTLES

Merely let go of your seeds
and the
wind will scatter them
the rain will enkindle them
the sun will lift
them

DIRECTOR'S CHAIR

Pat Leigh, please pray for her.. asked God who her
teacher was and was given a vision of a director's chair
facing the ocean.
Perhaps it meant

Only She who can control
the ocean's roll
or He
who can walk
on the sea's liquid scroll

I think of her
When I see a lifeguard chair..
on the sands
instead of in the shallow
sea

DREAM OF PIER

She walked to the edge of the pier..
theSea of God beckoned to her..
but she could not bring the discs
she clasped in her hand with her..and sadly turned around.. never
mind.. there will
come a time
when her strongest urge
is with God to merge

SEA CRASHING UPON ROCKS

We do not always want
the sea to be at peace... or to be specific
we
don't always want
a pacific Pacific
At times we want to stand on a
mountain above and watch the waves
crash upon the rocks... the sound
is shakti itself

ENTERING THE TEMPLE

Children enter the temple of thesea splashing raucously
Older souls
enter with reverence
slowly silently
They enter the shrine of the sea.

WHITE AND BLUE

Fringe of white sand
then blue of the sea
fringe of white wave
then blue
of the sky
fringe of white cloud
then blue of your eyes

AFOOT

The tide is afoot
in the 10 million fingers of the sea

DRIFTWOOD STREWN

The shore maybe with
seaweed and shellsand driftwood strewn
but the open uncluttered
space of sky and sea.... as soon as it's smelled......
pours in the peace

UNBOTTLED MESSAGE

With a rare wave
Bottled messages float to the shore
but with each waveletthe sea's unbottled message
is 'they all love you ever more'

SPARKLING REFUSE

They dig trenches in the sand and bury
their father neckdeep
while with the sparkling
refuse
their mothermakes sandcastles*****

SEACHANGER

One goes to the sea
When afflicted with anger
By her calm shores gulls
are no strangers..in the quiet pools..
the sea's little mangers..
She
rocks us to peace..
with God.. the Seachanger

WAY OVER WAVES

waves break the lightway
across the waters into pieces
but if the
direction is maintained
one finds again the path to peace

COBBLER

I am the tree
which made the peach
whichbecame the cobbler,
said the
peachtree.
I cobbled the street, said the stone.
I cobbled the sea, said
the wind.
I made the wind
so I cobbled the sea, said God.

SWALLOW THE SHALLOWS

In his becalmed depths
the sea swallows
the waves he caused
in the shallows.

SEA HEALER

Whenever she feels blocked..she goes to thesea
where waves crash over therocks
see the unbounded skyand the emerald necklaceof seaweed
by seeds shore strewnand then shore sewn
and the sun melting
its gold delight
at dawn into the azure lightand begin to feel
the energy of joy unlocked

SEACARVED CAVES

How the softly lappingocean waves..
with patient chisels.. lick and lave..
sculpting new seacarved caves And standing kneedeep
in her shallownshe rocksshe has turned torookeries..some places
turningconvex to concave.. in othersnew holes she has madeBeyond the
worldof skillShe has sculptedthe coral reefto make roomfor the
scallopsbut inlandthe falls roarthe falls thunderfaster breakingrocks
asunderas Spirit too can make new holesinhearts of stone

AQUARELLE

Her azure and aqua skies
are not captured by aquarelles
her sight and
sound and smell
lift us out of hell..
an infinite blue jewel
framed in
the dead past..her shells

SEANILE

Where to salt water
turns the sweet
Where aqua becomes
royal navy
Where
robins slowly
become sea gulls
And the linear
to spherical gives sway
is
where the sea is wed
to Nile..
Some thought the Nile was senile..but he
was far beyond earth's cares
merged in the ecstasy.. of the ebbtide
sea.. only a murmuring current
to say where he'd merged-

SEAGULLS

Not arrow grasping
bunny attacking eagles
but the melodious
singing
shipcircling seagulls...not lone stalkers..
no.. each of them equal
to
his sequel

CURRENTS

Sad was The sea of Being
thatshe was not a river of doing
so God gave
her currents.
While the woodpecker wooed the woods with his whittling
she
carved caves.

RED CARPET

The sea unfolds her carpet of silver waves
with constancy..
yet at daybreak and dusk the sun wands it into
an unrolling welcoming red carpet.

PENGUINS AND PELICANS

Cold water penguins warm sea pelicans
one is anarchic in the Antarctic
the other avoids the jelly cans

OF LOONS AND PENGUINS SANDPIPERS AND PELICANS

Because of her God
will sooner bring a world of no more suffering..
where none are swallowing
a chicken's or a swallow wing.
Over fields all fallowing
rise flocks of follow Wings..
feeling holy Spirit Wings..
all flying birds His following.

(to Nita Nickol)

BLUEBLOCK

The place I most want to be
is by.. the blue sky
and by the blue sea
yet I bar these hues
from my home
choosing sunny yellow, enkindling
orange, cups of pink and aqua
and saffron
on walls of vast white

OCEAN MIRROR

Some project that the sea raves
as she smashes rocks with awesome waves
daily nursing with tidal milk
her hungrymouthed caves

SMOKE AND MIRRORS

Every morn
the sea reborn
is smoke and mirrors..
fog and reflection.

SMELL OF THE SEA

Windsent seascent

CONFIDES

The silent sea to
her confides
that though daily
do his highest tides
subside and to
depths slide...
in form and formless
he stays
by her side
He ever does
with her abide.

TEMPLE OF THE SEA

Under the rays of the ocean moon
one sees the rocky temple of Neptune.
The temple is gray but its deity
sea is blue.
The temple is frozen in form... the
sea is flexible and formless.
The temple has fallen stones
but unchanged is the seathrone.

(to E E and N A Lynch)

THE TIDE SHALL RETURN

Sudden showers
swell the shallows
of the seceding sea

SCULPTOR

They argued whether Michelangelo's Pieta
or Kamakura's Amita Buddha was greater...
while yonder
is the sea wonder
whose chisel
has in 1 place turned the rock into rookery
while elsewhere she pummeled
boulders into little rocks and then to sand..
She has whittled the driftwood
has etched stairs in the cliff
and carved sea caves...

We see
that the oarcleft sea
returns to whole

...while water is the master

as love is the most powerful
miracleworker

DRIFTWOOD BLANCH

Driftwood gift the sea did bleach
Tide has left upon the beach.

Saiom Shriver
Seacarved Caves

How the softly lapping ocean waves..
with patient chisels.. lick and lave..
newly sculpting seacarved caves
turning convex to concave.

Massive rocks
found in her shallows
she has turned
to rookery hallows.

She has made room
near the coral reef
for the God-sculpted
scallops.

Inland the falls roar
the falls thunder
faster breaking rocks asunder
as Spirit too can make
new holes in hearts of stone.

Seven Pines

That day she razed a row of seven 45 foot high pine trees...
the flightless baby birds fell to the pavement .. and several now empty birds' nests rolled.

She chainsawed the trunks and sent the caterpillars along with the wood into the chipper.

She thought herself the equal of any man

Saiom Shriver
Seven Sins Against Donkeys

Donkeys have been forced to carry arms and war supplies in Afghanistan, often plunging to their deaths over mountainsides. In many places, donkeys have frequently died of heart attacks from exhaustion. They have been shot to death at Israeli checkpoints, deliberately infected in a Brazilian and other universities, murdered and eaten in Kenya, singled out and pummeled by crowds in Spain whipped and beaten, everywhere they suffer pain.

Saiom Shriver
There is a matrix of fears associated with sexual activity.

1. Fear of STD's (sexually transmitted diseases), some lethal
2. Fear of violence (repe, death, kidnapping, pain)
3. Fear of pregnancy
4. Fear of loss of reputation or love
5. Fear of loss of freedom, control, power (e.g. fear of being enslaved)
6. Fear of financial loss in general, theft
7. Fear of rejection by family or church group
8. Fear of rejection or cruelty by a sex partner
9. Fear of embarrassment re bodily defects
10. Fear of loss of energy (chi)
11. Fear of hurting one's own or another's partner or children
12. Fear from belief in fundamentalist spiritual systems re the concept of sin and hell
13. Fear of lapse from celibacy
14. Fear of being overpowered
15. Fear of arrest for violating laws
16. Fear of losing a better partner because one didn't wait
17. Fear of partner jealousy and possessiveness or of one's own
18. Fear of violating one's own spiritual beliefs
19. Fear of not pleasing one's partner

Humans are not kangaroos with pouches for keys, money and credit cards. When one who is not focused on security but on passion chooses to be vulnerably naked with a stranger who is often stronger, who does not practice safe sex and can transmit STD's with pregnancy-generating semen, he or she is practicing Russian roulette.

There are hazards too in virginity. In fear of offending elders and others, the young are often funneled into marriages they would not choose otherwise. They are programmed to feel that one must marry someone with whom one has had sex. Women propagandized into virginity are also responsible for teasing a partner and themselves. Without an outlet, some partners seek prostitutes or other companions for release.

1 dedicated to Bonnie H, John L, John M, James L and tens of thousands of others
who died as a result of psychiatrists and
to the victims of torture around the world
in whose deaths psychiatrists and psychologists were complicit.
How does this profession kill?
a. Toxic psychiatric medications (Leonard Finz of Manhattan is
one of thousands of attorneys who sue drug companies over the
suicides caused by their medications. Prozac, Zoloft and others cause suicide
and homicide, incidents of violence
b. 'patient' visions and beliefs mocked
c. diagnoses of 'incurable schizophrenia' which cause despair and are inaccurate
d. the shame caused by such diagnoses
e. depression from being locked up
f. depression from increased weight caused by medications and hospital diet
g. torture

2 It is also dedicated to Neal Barnard founder of PCRM dot org, Sam Sandweiss,
author of The Holy Man and The Psychiatrist, Leonard Rack, Dr M Cohen, Dr Jerry Jampolsky and other heroes who refuse to do harm as they create a world of greater compassion.

3 The screenwriter of A Beautiful Mind distorted John Nash's biography. Nash refused psychiatric medications but he was in the movie portrayed as crediting his recovery to the poisonous biochemicals. There are many other instances in tv and movie productions of drug pushing propaganda.

4 Psychiatric drug companies have been sued repeatedly and successfully for causing homicide suicide, deaths from side effects of the drugs, weight gain, heart attacks, permanent shaking and fatalities from tardifdyskinesia. Certain drugs such as Navane and Ativan are more addictive than heroin.

5 The FDA, NIH, organizations like NAMI, many health departments and universities are dominated by the international pharmaceutical cartels.

6 DemocracyNow dot org has a series on the APA members' involvement with torture.

7 Thank you to SV for her research into the mental illness industrial complex.

8. TV networks have reported studies that friends and free support groups have a better record than professionals in curing stress episodes, depression etc.

9. The only legal grounds for locking someone onto a mental ward are proof of homicidal or suicidal tendencies.

10. The sexual determinism of Freud, the economic determinism of Marx, the genetic determinism of biologists, the religious determinism of religious fundamentalists are all projections from the adherents of those philosophies.

11. Psychiatrists and psychologists have higher incidence of suicide.

Saiom Shriver
In the US, 30 states allow silencers on hunters' guns.
The effects of this have been more children's and adult nonhunter fatalities, more hunter fatalities, and more illegal hunting in national, state and local parks as well as private property. Silencers keep hunters, nonhunters, and animals from knowing where the stalking killers are, as the animal slayers continue attempting to silence mammals' cries and birds' songs forever.

FIRE HAS LEFT THE HEARTH

Fire has left the hearth
Nautilus climbed from shell
Perfume flowed from bottle
Prisoner gone from cell

Butterfly flutterbied cocoon

Jesus away from manger
Cage deserted by Dove.

Sparklings soared away from wand.
Chick's egg become the bird.
Omkar sung from out the throat
Violin's notes now heard.

Buddhist temple pine cone
tabernacled godlet seed
Shattered that it might manifest
thousand forests of fir tree

from body cut left a hole
a stencil which paradoxically
heals other hearts to whole

Eternal snow of mountain top
now nurses meadow flowers.
Shining never held by sun
relentless melts ice towers.

Love has left its
spring the heart
Is now a liquid pond
Host stolen from the chalice
consumed in mouth of God
Starlight abandoned star
a billion years ago
Left that tonight you
might
have its sight
and know

Know Love is forever
no dropp of God ever dies
Lover not bound by form of love
God's bodies are not God's souls

Saiom Shriver
At 17 this writer had sponged up my father's conservative politics and wrote a paper about bombing an Asian country. ate the flesh of animals, mowed in ignorance the butterflies small reptiles and plants in my family garden, was ignorant about how to deal with a married man's advances without hurting his feelings.

At age 32 I still thought it alright to draft teens into my animal rights phalanx, feeling the cause more important than their individual desires.

At age 38 I was still killing trees and their resident fledgling birds and squirrels... by sending press releases to newspapers, and was unable to delegate mail opening and other tasks.

Life is a river. Our souls each day shed the past and take on the new. I try to remember the Course In Miracles sentence: 'guilt is a sure sign your thinking is unnatural'.

Saiom Shriver
Slower

Because their cargo is heavy, some trucks moving uphill are slower.

Mountain cascades pour very fast. Greater rivers near deltas are slower.

Saints carrying many souls... often their actions are slower.

Saiom Shriver
Slowmoving

A mountain cataract
has great speed
as it travels
from heights alone.

The Mississippi
flows slowly
with the weight
of many.... all One.

Saiom Shriver
Smaller Acorns

He observed that
the smaller acorns
drop last..
like thin

He saw that the

turning scarlet
were those which
had received
the least light.

Smoke In Mirrors 2

Smoke in mirrors
Morning mist on lake.

Saiom Shriver
Smoke Signals

Is smoking a form of mouth flatulence?

Saiom Shriver
Smoking

Hypnotism helped
as one awoke
to the dangers
of cigarette smoke.
He would not now
be going broke.
His throat no longer
feared to choke
His habit he didn't
need to cloak
from an addiction
worse than coke.
He would not now
of lung cancer croak

he resolved to begin

Snake Plant, Sansevieria

Plants precious to my mother-in-law were
to me an oxymoron...things which could demand attention.
She left an unwanted house full of
them... The dogs and cats tore some apart.
Some died of neglect. One was left... year
after year she endured...in a dark corner with
occasional watering...and the tooth marks
of unwanted attention. She, a sansevieria, is also
known as mother-in-law's tongue or a snakeplant.

The 10th year... one morning...
upsurging from the center of her green swords
was a rod of slender white
bells eighteen inches high..
The sweetest fragrance
poured from them as
they silently rang
in mystical beauty,
enduring spirit.

She taught me that
she had feelings..
and rights
and resurrection power
in God's light.

I realize writing this that my snake plant flowered shortly after the decision to
stop mowing a lawn was made when a leg was chopped off a toad by the mower.

*  

to Ruth Shriver

Sansevieria can live 6 months in
the trunk of a car and still survive.
it is made of swordlike
long forest green leaves.. if they are not
getting enough light
they have a yellow fringe

In, I believe, The Gospel Of Mary, it is recounted that when Mary had the child Jesus growing in her womb, her temple devised a plan by which God could choose her partner. Each man who wished to be part of this would put a stick on the altar. The stick which flowered would be her husband. Joseph did not join in, thinking himself too old. Several urged him to. Lo! The stick he put upon the altar was the one which flowered. Thinking of the rod of bells in the snake plant reminded of this story.

Something Fishy About French Fries

Around here, one can buy

Songwriter, Author, Philanthropist P F Sloan Died On Nov 16, 2015

Los Angeles resident P F (Philip) Sloan was born in New York in 1945. He died on Nov 16 of 2015.

In his youth he had been a rabbinical scholar, before choosing the path of music. He was made a millionaire by his songs' royalties. But he gave nearly everything away. He never liked to criticize anyone. His intuitive empathy and brilliance were exceptional.

He was with Steve Feinberg the coauthor of What's Exactly The Matter With Me.

In the last few years, each morning he began his day with a chapter from I Am That by Nisargadatta Maharaj followed by one from Sai Satcharitra.

Several decades ago he was near death when he dreamt that Sai Baba promised to heal him if he came to Baba's ashram. He went and he was healed. During and after that time he experienced numerous miracles, of which some are recounted in 2 links below.

He incorporated in his correspondence the shared letters of Sail Over and Sai Lover.

Those who are silent about the immorality, illegality, security-endangerment, bankrupting genocide of our occupying government's wars are not supporting our troops, not defending our soldiers, but making them cannon fodder for the warmongers and war profiteers who send them to lives of constant nightmares, to injury, to family busting, alcoholism, PTSD, homelessness, to the highest rates of suicide, of death by friendly fire, by training accident, by depleted uranium, by Veterans' Administration neglect, or by those who are the flavor enemy of the month.

You have been handed the wand of all power .. bejeweled with a trinity of Saturn and Neptune and Uranus.. a capricornucopia. You will change the world for the better. God bless you and those you love.

WANDING GREEN TO BLUE

PLUTARCH

To God did Pluto arc in the chart of Plutarch

Firebird is to Tom and Bill Kinzie and their anonymous tireless animal rights clipping service, networking with vegetarian athletes, and compassion unbounded Women's groups say that past use of alcohol is the most predictive factor in domestic battering. Alcohol causes fatalities and paraplegics, shattered families, demonic possession as the aura is rent. It causes cirrhosis of the liver. The GOP is the party more funded by alcohol corporations. General Bramwell
Booth of the Salvation Army treated alcoholism in London with vegetarian diet... highly yin alcohol and extremely yang meat crave each other. His success in breaking alcohol addictions was a factor in the spread of the Salvation Army around the world

Thank You To France

James Mitchener in his book Chesapeake quoted historians who described the Battle of the Chesapeake on September 5th, 1781. The US had been losing the Revolutionary War since 1776 until 1981. (Such drives for independence are called rebellions, riots, mob action, insurgencies, insurrections, uprisings or mutinies, e.g., by the ignorant and cruel who are in power.) Soldiers often had no food, no pay, no arms, no shoes. At sea, many courageous Americans lost their lives fighting the British. The thirteen colonies who had named themselves The United States of America were on their eastern coast rimmed by a band of iron... of British warships.. the shore the British cannonized sending many to be canonized... The ships' blockade continued and so did the British control of New York City... when suddenly after years of lobbying by Ben Franklin 5500 French troops arrived and, . on the horizon.. like the miracle of sunrising, appeared the French fleet. Temporarily they would be trapped within the Chesapeake Bay.. but courageously they broke out... and two lines five miles long! composed of British and French warships faced each other. The battle out at sea was seen by very few. One American civilian captain described his witness role as being a gnat watching eagles. The British admiral's tactics were to focus on killing the French sailors, while the French tactics were to disable the British ships. It was the French who beat the British in this decisive naval battle of the war and who helped America's troops to surround Cornwallis in Yorktown, Virginia. With all our hearts may we say 'Thank you eternally to the people of France.'

The painter tried to
make the world violet
with millions of dollars
of purple paint
The master donned
purple spectacles.

The traffic policeman
with great effort moved

But the green light
effortlessly moved
hundreds of cars.

The unripe fruit had
to be hacked to
the ground.
The ripened fruit fell
without effort.

The swimmer exhausted
himself after a few thousand

The sage found an
ocean current which

The hunter in vain
chased the deer through

.. the deer came unsummoned

The honeystealing beekeeper chased bees but they came unbidden to the nectared blooms.

The hard worker chipped away hour after hour at the ice while the serene did more pleasant things and allowed the sun to melt the crystals.

The bunter had to scurry around the bases. The homerun hitter could take his time.

The treasure seeker dug everywhere and risked his life under water. The meek was given a treasure map by God.

The fearful built an army. The fearless with perfect love needed only God.

One looked for the haystack needle... for hours Another with 1 magnet immediately magnetized it.

The scarcity conscious saved thousands of dollars but the friend had in his bank only the hearts of his friends.
The portrait artist took 20,000 strokes. the mirror did nothing and gave a better likeness.

Students doctoral toil thousands of days spending untold dollars. The great one is given an honorary doctorate.*

The angry one had static on his radio as he furiously turned the dial but the peaceful one magnetized the right frequency.

The lovehungry traveled the world seeking love but the Godlover became Godlove and love came to him.

The pyramid builders caused death and suffering to slaves but the saint moves mountains with a mere gesture.

Like the engineer who multiplies power by adding hundreds of cars to the engine of the train those who align to God act with the power of the Divine.

Unseen greater than the seen
High notes are soft but higher go
Jesus washed His disciples' feet.

The child in man
do women feed
for what is it
love has to prove

Who is the prime minister of love?
Who the president of caring?
Who the chief exec of Kind?
Who the highest head of sharing?

Male pyramids melt
in female fire.
Mens' skyscrapers stop
where women's sky begins.

Who advertise
the soul in their eyes?
What anonymous saints
do we immortalize?

Some day master learns
the faithful servant
was his guru..
Male foam wake of ocean liner
riding on a female sea.

Male speech echoes
in mate's silence
Soundless quiet which
holds all beings

to Constantina Salamone, lifetime worker for the rights of women
(The writer believes that we go back and forth between male and female incarnations.)
(This poem is about the male principle, not about the hundreds of millions of individually conscious men)

The Marine Survives The Captain's Daughter

The marine was engaged to the captain's daughter at Camp Lejeune. She discovered she was with child... they hastened their plans to marry. His low rank did not please the captain who, King David like, had him sent into harm's way in Iraq for an extended tour. Meanwhile the daughter, fearing her father, bowed to his will and married another.

Ten years went by. The marine left the military and decided to attempt once again to seek love. His relationship with the new woman grew over several months. He was in a jewelry store on the bottom floor of a downtown hotel buying her an engagement ring when coming out into the lobby he saw her making hotel room arrangements with another man.

Two decades flowed by. He never again sought to put out the tentative tendrils, the first overtures, to a woman. In the
vacuum that creates miracles, this time
Angel Raphael
made the move,
sending his destined love into his path.

The criminal desperate for money mused over counterfeiting,

Creating space is of things letting go.
Losing weight is of food letting go.

The Pre-Constantine Bible

In the pre-Constantine Bible
Jesus says 'My house is a house of prayer.
You have made it an abbatoir.'

Amplification:
The moneychangers WERE the butchers for after they exchanged money, they slaughtered the animals. Constantine was a violent flesheating pagan warrior who became emperor through his sword. He allegedly became a Christian upon his death in 337. This secular man in 325 AD convened and presided over a religious convocation of bishops. He oversaw the removal of many books from the Bible including the Gospels of Mary, Thomas, and others. He also distorted Jesus' words. Jesus ate no mammal or bird, yet these passages were removed from the Bible or distorted. Jesus' prohibition against polluting the body with the cadavers of animals was turned around into 'Not that which goeth into the mouth defileth a man, but that which cometh out of the mouth, this defileth a man.' How could eating decaying cadavers not defile someone?

Some of Jesus' words on diet remained such as Matthew 23: 27
'Woe to you, teachers of the law and Pharisees, you hypocrites! You are like whitewashed tombs, which look beautiful on the outside but on the inside are full of the bones of the dead and everything unclean.' The Aramaic word Jesus used was translated into a Greek word 'sarcophagi' meaning sarx flesh phagi eater. Jesus was an Essene from Galilee. The Essen

Constantine succeeded in destroying the first 3 centuries of Christian abstinence from mammal and bird flesh.

(There is still a debate on whether or not Jesus ate fishes. Jesus was an Essene from Galilee. The Essenes were vegetarian.)

The Right To Breath

Everyone has the right to life, liberty, the pursuit of happiness, food, clothing, shelter, and breath.

Everyone has the right to avoid a violent death.

Footnote:
'I can't breathe' is a reference to the man who was held in a chokehold by police and 12 times said he could not breathe before he died.

LeBron James wears an I Can't Breathe tshirt while playing a game with the Cleveland Cavaliers. In his game this week he scored 41 points, but the team lost by a handful of points.

Martin Luther King III said on Dec 13th,

'Police are in combat mode 24 hours a day. It is sometimes as hard for them as for war vets to reenter civilian life.'

(paraphrased)

The mayor of Akron Ohio, Don Plusquellic, has proposed that the FBI investigate all police killings.

LeBron James strikes a blow for egalitarianism.

Poems To Buddhists Or The Buddha Nature

ISSA

Issa saw from
the great Buddha's nose
a starling fly
Perhaps in the desert
Jesus saw a scorpion crawl
from a skull's eye socket.
An ancient warrior witnessed
a beehive in a lion's dead body.
Woodpeckers live in
selfcarved caves in deceased trees
while birds have replaced
cannons in the windows of the
seaside fortress.
Pigeons of life reside
on the heads of generals
who caused death.
Vines grow out of abandoned
tanks.
Sunlight
clothes a cemetery cross
with resurrection radiance.

BUDDHA IN CHINA

He walked toward
us.. this man born
in 1963 under Aquarius..
.. there was a cloud
of peace around him...
which lifted us slightly
above the ground..
severing our magnetism
with Mother Earth..
so that things of
the world receded..
we knew that he
cared for all beings..
we knew that he cared
for us as well.
He served us in
a restaurant..
the tofu with berry tea
became
bread and wine
in an ancient
sacrament of
initiation.

Some are stars
shining beyond
the cyclone..
the dry place
within the monsoon
.. the warm shelter
in the hurricane
.. the calm center
.. of the typhoon

but Buddhas reveal
to us
that we are all.

ANGKOR WAT

he would not repair the
roof of the Tibetan temple

of once living trees

THE WIND'S PRAYER WHEELS

THE POWER OF EMPTY SPACE

The actionless beauty of
the honeysuckle sparks the
actions of the bees.
The blankness of the page
.. the emptiness of the canvass
.. inspire the pen and the brush.
The desirelessness of the Buddha
awakened the love of his disciples.
The matterless space of the
seashore sky
creates the flow of healing.
The charity of the bighearted one
causes the miracle of resurrected energy.
The release of unneeded possessions
molds a vacuum in which solutions come.

DARSHAN OF THE HIMALAYAS
Below the Himalayas..
mountains pure, cool,
detached, clarified is
nestled the monastery of Lhasa
a home of infinite mansions..
and in them live masters
and monks
whose eyes are pure, cool,
detached and clarified.

ORANGE SHOOTING STARS

Looking down from the little bridge
upon
the lotus-spangled goldfish pond
one sees orange shooting stars
and gold comets
as the fish dart beneath
the green lilypad clouds in
the watery unfirmament.

May the waters of the streamfed
pool be very deep
that in winter the fish and frogs
not freeze.

to Thich Nhat Hanh Baba said that Buddha discovered 1/2 of truth.. that desire
causes suffering, but did not in that life see that ananda or joy permeates all. There is worldwide Buddhist opposition to the violence of the Ariel Sharon regime which is contrary to the Buddha's teachings of ahimsa, or nonviolence to every being. In addition there are Buddhists who take no stance on any political subject. - End forwarded message - There is debate about the meaning of the Pali sutras as to whether Buddha died of pork in his begging bowl (pig flesh) or pig found flesh (truffles or mushrooms). Maryland prison officials reported on NPR a reduction in violence when vegetarian loaves were given to prisoners...16 million birds in Ohio are imprisoned in Buckeye Egg Farms.. many are featherless or semi featherless. Especially at this time of year when the electricity goes out some freeze to death. They are kept 6 to a cage, 3 ft by 1 ft. They live in the constant smell of their own waste.. which has accumulated to the point it nearly killed an Ohio EPA worker. Their stolen eggs represent each one 32 hours of chicken jail, as well as 300 mg of cholesterol, food poisoning generating salmonella, passed through the mother to the chick..120 gallons of production water, ecoli in Ohio streams, toxic insecticides in Ohio streams, unnatural fly breakouts as these insects attempt to deal with the colossal tonnage of defecation. A year ago 1 million died.. half 9 days without food or water survived.. before they were bulldozed alive into graves.. similar to what happened to the humans in Jenin. Millions of chickens have been suffocated alive in summer time from electricity failures which turned their metal sheds into ovens. Please contact the Ohio AG, the EPA, and senators and reps. to shut down Buckeye now.. not allow it to be sold to another abuser. PINK PEACH FIRE
OR WOLF OF GUBBIO

Inside the soft peach flesh
lives hard peach pit.
Inside the hard peach pit..
eternal pink peach fire.
Inside the sheep's clothing
lives hard heart wolf.
Inside the wolf's belly
the wolf planned the lamb.
But instead.. inside
wolf's heart
the Lamb of God.

(the maneating wolf of Gubbio was tamed
by the love of Francis of Assisi)

INFANT OF PRAGUE

Why did this towering
masculine man
prefer to worship
the Infinite
.. as the cloaked
Prague Infant?

He had been abused
as a child..
by a strong male.
He found Spirit
in the Powerless

As a dewdropp reflects
the sun
so does the Prague Infant
pour forth the Infinite

LINKLING

A spiral swirl
of windwed weed
Each tiniest wheat-hued
needle
caught a globe of dew
.. a crystal rosary of 59 beads
already goldchained inside
and awaiting only the Jeweler
of Morning
to forge the links
and lift the love aloft to
the Lord

ANNUNCIATION

CURE OF ARS

Cure of Ars

PURPLE GRAPE JUICE

Wanded are dew and rain
and underground springs
into new wine
as
the sun world over
says mass in grape vines

CARMELITE

In dusk's carmel light
In the convent Carmelite
where they care more for grace
than karma's blight

.. golddusted are
the garden's gardenias
and bee-kissed
.. the camellias.
As the nuns listened
to the birds' vowbreaking
song.. and the
bees' vowbreaking buzz
some left..
and others stayed

CATHEDRAL BIRDS

Birds are fed at the Cleveland
Cathedral...
unlike the skyscraper diagonal,
it has niches.. and caves..

nooks and naves

where
dew is caught
and dwellings made..

When they are fed by passersby..  
the little sparrows sometimes 
defer to the pigeons of greater size..  
and sometimes quickly get their share.

ANEMONE

Beauty gives her 
hegemony... 
the pink bush of anemone 
.. a flock of settled 
butterflies..  
...with nary an enemy

CRIMSON CROSS TO PINK JOY

The sun through the crimson cross 
of stained glass 
.. made pink patterns on 
the tiles 
as the crimson crucifixion 
of Christ became 
the joy of His children.

GOSSIP

As if one were throwing 
human waste into 
the church sanctuary, 
gossipers 
defile the air waves 
of earth with their 
gossamer winged thoughts.. 
which can not be retracted  
.. save God do miracles
As they pick up
their dirt balls
they muddy their
own fingers.

GUADALUPE LUPINS

It was in a mountain meadow
of lavender lupins
that he first realized
his visit to the shrine of Guadalupe
had delivered him from lupus.

HOLY SPIRIT IN UNIONTOWN

The Church of the Holy Spirit in Uniontown..
has no stained glass.. no expensive
tower for the exposed bells..
only
a very big holy water font..
and a church
Spirit filled.

I CAN

In the heart of
everyone educated

In the fires of
God's embrace
it is transmuted
to 'I Will!' grace.

PAPAL BULL

Once the Holy Father
issued a papal bull
excommunicating all
who came to fights of bulls
Trappists would not eat
any part of the heart
or other piece of any bull
St Martin de Porres would

not spam or lamb or ham
St Francis ate no creature

Poor Clare consumed no being
not skin organ or muscle
Whether Jesus was an antiquarian
or an antiantiquarian
They all believed that
He.. was a vegetarian.

The forget me nots

The roses grow

OASES MARRY LAKES

There was a woman in
Libyan lands
who planted in the
thirsty sands..
a baby tree of date palm.
.. each day she came and gave him water alms..
.. and watched him grow and grow..
and stretch his roots to an oasis..
She planted more and more..
and the mist they released each day became clouds..
and rain..
which pooled in a new oasis .. which married the first..
to become a lake..
More and more soul torches were enkindled in witnessing this..
and each planted many green torch trees .. reclaiming the desert .. turning it back into paradise.

BETHLEHEM BOMBER

The suicide bomber from Bethlehem
said he had a right to

its latch.. to release the

He said that the Bethlehem

was not obeyed..
that many who call
themselves followers of
Christ
blindly follow
homicide bombers and
that the sacred soil of
Palestine was desecrated
by the metal shoes of
tanks.

but Allah the All Merciful
whispered to him:
I do not write My victories
in the bloodink within
finger pens torn from
innocent children.

ALLAH'S BIRDS

You are joy's warble in all bird throats
You are the guiding star of all flock migrations.
You are kindness to bird strangers
You in inns
along the way the blueberry bush's berrier
You are the flight which lifts feathers yond barriers.
You are the evening laving lakes
and You are the welcoming evening trees
You are the Indweller of each bird heart
You are the Warmth of every Mother Bird

You are the Love of every hardworking

THUMBPRINT OF ALLAH

The Islamic scholar passed on to us
that when an animal is born
with a spot midway between the shoulder

is referred to as 'the thumbprint

And yet do all animals have the thumbprint
of Allah.. His loving protection.
ALLAH

do their prayers
waft upon the rising
air..
and then spread to

for omnipresent
are Allah's lairs

NAMES FOR ALLAH

Water is hydra in Greek,
aqua in Latin, pani in

Just so is Allah called
God in the West, Shiva
in India, Abba in Christian

temples.

FOR ALWAYS, ALLAH

Allah Who indwells all end all violence
to any being now and forever
as You bless all
in all ways and for always

TAPESTREE

Coconuts Allah's light did braid
and almond trees of Jordanian jade.
Translucent glows His Libyan limeade
Black olives grow neath Iraqi shade.
Gold lemons swell from rainmist greyed
Orange apricots by Allah made
Trees give all fruit to all.. from
every orchard, grove and glade.

INSHALI

Allah passes His nonviolence miracles through human beings.
Peace for all, Inshallah

SHRIEKS OF THE POSTER VICTIM A Jewish ethics professor I stood next to at a

Three Babies

Triplet baby raccoons peered out of

Saiom Shriver
Three Shimmering Rainbarrels

The storm was full of menacing
dark clouds, hard cold rain..
treecleaving lightning.
Now it is over
and in the twilight
3 rainbarrels brimful of rain..
Atop them a mesh..
lifeguard for any country mice.
In its grid, the reflected stars

Saiom Shriver
Three Survive The Late Summer Scythe

Three survive the late summer scythe.
First..the humble violet..
which lies beneath the blade.
Second, the mighty centenarian
  oak too strong for any knife.
Third.. the royal purple ironweed..
so awesome is its beauty..
  death, transfixed, forgets his duty..
and stops in his tracks.. leaves the
  beheading of goldenrod and white daisies,
of blue chicory and pink
  clover..
and asks God for a new assignment.

Til Death Or Distance Do You Part

Chaplains performing wedding ceremonies might say
'till death or the Pentagon

while in the slavery states
preachers intoned
'til death or distance do you part'.

Time For Speech Time For Silence

Time Revolutions

Saiom Shriver
Times A Changin

It helped Corey Booker
the New Jersey Senate to win
when people knew he
ate no flesh fowl or fin.

But years ago the Colorado
chef of Governor Lamm
was fired for revealing
the vegetarian Lamm
ate no cow, pig or lamb.

Saiom Shriver
Times They Are A Changin

A dream we were talking to Jackie Robinson, the man chosen by his patience, intelligence, courage and talent to integrate American baseball on April 15, 1947.
He endured tens of thousands of threats, insults, bottles thrown at him from the field, inability to steal home because it would be inflammatory to plow into a catcher stealing home.
In many cities he stayed in a different hotel than his white teammates. He told us he had become bitter from the virtually infinite abuse but one day "God turned my stony heart into one burning with fires of love for all'.

Saiom Shriver
Tiny Cloud Of Negativity

A tiny cloud measuring only
a few feet in length is not
strong enough to stop a pebble's fall
but it can block the virtually omnipotent
self luminescent sun.
So can a small negative thought
block energy and miracles.

Saiom Shriver

Saiom Shriver
To 'Hopeless'

I've had these feelings... when I knew ny parent would die, for instance

In my nonomniscient opinion they pass... some sleep, others eat, things like chocolate or pasta... one group listens to music, another gets out in company, or specifically with a support group...

or physically moves to get endorphins going... or basks in the sun or goes to a movie and is magnetized to the seashore or finds a quiet place in which to sort out thoughts... in an undefined or in a meditative prayerful way

God lives inside each of us... and can at any moment awaken forever the fountains of joy within... with a rod infinitely greater than any a human being wielded.

God bless us all. We're all facing frightening weather patterns, news of wars, suffering of loved ones, private crosses.

Saiom Shriver
To Kurt Cobain

Over 1 billion vegetarians, vegans and fruitarians respectfully disagree with Kurt Cobain who said fish don't have feelings. Anyone seeing the panic in their eyes... or watching them struggle so hard against the hook... as predators are them inreeling or witnessing their gasping for breath on the dock as they helplessly flop around knows they have feelings..

What are their nerves for if not to transmit among other things..... feelings

Saiom Shriver
To Observant Christians And Jews

Can both of these be right?

Exodus 29: 38 (1611 King James Bible)
Now this is that which thou shalt offer vpon the Altar; two lambs of the first yere, day by day continually.

Isaiah 1: 11 (1611 King James Bible)
To what purpose is the multitude of your sacrifices vnto me, sayth the Lord? I am full of the burnt offerings of rammes, and the fat of fedde beasts, and I delight not in the blood of bullockes, or of lambes, or of hee goates.

Sooner or later does a soul believe that Isaiah's nonviolence and not the animal sacrifice of Exodus is what God wants?

Saiom Shriver
To The Orient

She was a young woman in her twenties able to accept the harsh truth that
a. the average woman lived longer than a man
b. that men often liked to date women younger by a few years or several decades
c. that fidelity is more difficult for men than women

and so she decided to move to China where the number of single men outnumbers that of women by tens of millions.

Saiom Shriver
Tolstoy, Tchaikovsky, Vereshchagin

Tolstoy has penned a description of a samovar which ignites beyond time... as the reader gets up to make a hot drink.

Tchaikovsky's Nutcracker from another century sparks old bones out of the chair to dance.

Vereshchagin's paintbrush from the corridors of time speeds up our heartbeats as we look upon revolutionaries strapped to cannons.. giving a new meaning to being cannonized... as they are blown apart by people with less compassion even than Bonaparte.

Saiom Shriver
Tom Earley

Tom from the time he was a little boy wanted to be in nature exploring riverbanks, trees, animals. He became a master gardener with an encyclopedic knowledge of bird behavior, animal habitats, reptile ways. A born peacemaker, he was always dissolving conflicts at work by making people laugh. He was also an inspiring grandfather, delighting in having his grandchildren over.. cooking spaghetti for them, unflappable about the spills, the minor chaos all children create, transmitting to his children and grandchildren his reverence for the land and organic foods, his respect for living creatures. His willpower was exceptional, his knowledge of building, wiring, machinery and organic gardening extensive. For many years he worked overtime at Goodyear to provide for his wife and children. His children and siblings honored with tireless work his desire to remain at home as he battled his illness. Before his death he had visions of the number and color associated with each music note, and of the bliss to come.

Trafficking

All human trafficking is
heinous... from child prostitution

of adults... drafting them into
armies, chaining them
in brothels, enslaving
them as domestics.

Trafficking in trillions

does not receive as
much attention.

Human and animal trafficking

Eating fishes is not only

but is a factor in human slavery

Two Roads

1. How to kill a mammal

First shoot him or club him in the head. You might need several men to restrain him as he fights for life.

Next decapitate him.
Then dehoove him.
Then skin him.
(If he is a goose, take 3 hours to pluck out his feathers.)
Then subdivide him.
Then freeze him.
Then transport his cadaver, in another freezing compartment truck.

Then freeze his corpse pieces in the warehouse.

Further subdivide him at the grocery store meat department.

Take him home.
Then roast his flesh.

Unsaved Dessert

Among the prisoners the governor, prosecutors, US Supreme Court and supreme court of that state executed was a man so retarded he did not know he could not save the dessert of his last supper for later.

Untimely Ripped

From his womb of Mother Earth
the carrot was untimely ripped
One who made God grow in squares
heard hedges ‘ouch’ as they were clipped.
Turnip rudely awakened from sleep
from his roots was painfully snipped.
Potatoes peacefully growing in earth
were evicted and cut and then they were whipped.
Because they thought him commoner born
dandelion’s merrygold head was nipped.
Then his body for greens was shred
and green blood slowly from him dripped.
Broccoli dancing in sunlight was beheaded
and then of her own life she was gypped
To faraway places she was shipped
and soup of her essence others sipped.
Celery was by human hand
grabbed and her throat was gripped.
When these souls of their plant forms stripped
into the sun of themselves they dipped
Their bodies they found were simply the crypt
Now out of their bodies to God they slipped.
In their next life they experienced
a kinder script.

War And Peace

War is hatred.

Warriors are taught
sneak attacks,
multipronged campaigns,
Trojan horse infiltrations,
seizure of systems of
money, manpower, the media
and military
of food and power grids
and transportation on land sea,
and air...
They are trained to divide and conquer
through lies and spies (the glorification of deception)
through killing (the glorification of bomber
pilots, of death squads, of pyramidal hierarchy.
Their handlers justify unspeakable
torture techniques, the bribing of
legislatures, the demonization of their
foes.

Peace is Love.

It is Truth, Universal Nonviolence,
Purity, Oneness,
Simplicity, Equality,
Tolerance and Infinite Generosity,

Where there is peace are one thousand year old trees.
One cannot have two masters. Each must choose.

Water never has to work
He runs where he pleases
Pours on under winter ice
when his surface freezes.

Merrily over rocks he goes
rocks on which some smash
Joyfully over waterfalls flows
Falls on which some crash.

Water through life easily floats
but bears heavy barges and boats
Water detached from every home
but shelters fishes as he roams.

Water never strains nor worries
but empowers great water wheels.
Water has no duties but quenches
millions' thirst upon his banks.

Water's essence has no color
He wears his crystal clear hue of old.
But he becomes purple in the grape
In the lemon he's yellow gold.

Through granite faced gorges
None can hope to climb
Through different countries
no passport need he find

and when he reaches the salty sea
He's lifted up by the Sun.

Waterfall Shakti

Before the fall, serene sheen of shanti
but at the edge.. in sheets soars shakti
further through boulder's lipped spout pours
water and toward the bottom it roars

Yonder a dry desktop flatted rock
neath it moss-wet tassled footstool
One for head hot with ephemeral thought
Other keeps feet most cornsilked cool

Here a big mug full of foam
there free of bottles bubbles roam
Out of cut glass decanted they flow
and skipping onto the sea they go.

Comes the cataract's thundering crash
All her wee babes on the rocks she dashed.
Such their purity that none were harmed
as into spray the drops she smashed.

In winter watch icicles slowly thaw
like bubbling holiday lights of old
One by one drops tremble and form
and wiggle free of the frozen mold.

Fearful hide in niches and naves
concealed from view in prefalls caves
Pyramiding trees can only stare
as networking water weds the air.

Great cascade where miracles made.
Cascade turning liquid to mist
Whited lightning which God kissed
from time’s dawn planned this secret tryst.

What You Have Done To These The Least Of My Brethren You Have Done Unto Me

Billions of animals have been burned, injected with poisons, decapitated, drowned, dismembered, drugged, starved, nailed to research tables, debarked (laryngectomies), exhausted in forced swimming and other experiments, frozen, electrically shocked, confined in restraining chairs or stereotaxic devices, have had their spines, arms or legs broken, their eyes needled or stitched shut. They have been invaded by piercing noise, exposed to bright light 24 hours a day, deprived of sleep until death. They have died of thirst, of suffocation, of excess heat. They have been isolated, exploited in maternal deprivation studies, used as explosives carriers, shot into space to rotate in the void until their deaths, Pets have been stolen from people’s yards for the endless greed and ignorance of the research industrial complex. Where Is My Lover The Sun

Where is my lover the sun?
Coming up over that mountain.
Where is my lover the sun?
Splashing on top of that fountain.
Where is my lover the sun?
Sparkling through all the blue sea.
Where is my lover the sun?
Goldappling inside that green tree.

She didn't pepper her text with product placement ads.

She rarely described food

She didn't recount grizzly scenes

seldom boring body

She didn't need fearmongering violence.. to sell a thriller.
She wrote against the corruption of imperialist oil thieves' coup d'etats
She was brilliant... compassionate and understanding.

Why Dreams

Nightmares are often a way
to burn negative karma on a less painful plane.

Recurring dreams are the soul's gradual compiling of the pieces of a problem puzzle

Sometimes dreams are precognitive or prophetic.

Sometimes they are a smoothing out of the day's emotional shocks.

At other times angels give solutions to problems.

Still other times a shaking of the kaleidoscope of memory shards makes a new sequence and new relationships.

Z Journalist Gary Webb Crucified For Revealing CIA Cocaine Distribution

Gary Webb And The Movie 'Kill The Messenger' Re CIA Distribution Of Drugs

I

Gary Webb, Pulitzer prize winning journalist from the San Jose Mercury News and author of the book Dark Alliance: The CIA, The Contras, And The Cocaine Explosion, was crucified for his investigation into the role of the CIA as the creator of the crack cocaine epidemic in the 80's. The CIA was the prime distributor of cocaine and crack in the inner cities of the US. This accomplished

a. revenue for the black ops of the CIA

b. so many incarcerations that the US became the biggest per capita imprisoner in the world

c. an army of addicts willing to obey their CIA overlords

d. the arming of right wing Central and S Americans in return for the received drugs

e. the deaths of many in the black community

The movie Kill The Messenger has been made about the government pressure to force the newspaper into a false retraction and about the destruction of Gary Webb's career.

Establishment media connected to the agency led the attack on Webb. The Los Angeles Times assigned 17 reporters to try to discredit Webb, who is now dead (1955-2004). The Washington Post and New York Times dismissed Webb. When Webb was found dead with TWO gunshot wounds to the head, the police termed this a suicide. It is very easy for a murderer to fake a suicide.
Gary Stephen Webb (August 31, 1955 - December 10, 2004) was an American investigative reporter best known for his 1996 Dark Alliance series of articles written for the San Jose Mercury News and later published as a book. In the three-part series, Webb investigated Nicaraguans linked to the CIA-backed Contras who had smuggled cocaine into the U.S. Their smuggled cocaine was distributed as crack cocaine in Los Angeles, with the profits funneled back to the Contras. Webb also alleged that this influx of Nicaraguan-supplied cocaine sparked, and significantly fueled, the widespread crack cocaine epidemic that swept through many U.S. cities during the 1980s. According to Webb, the CIA was aware of the cocaine transactions and the large shipments of drugs into the U.S. by Contra personnel. Webb charged that the Reagan administration shielded inner-city drug dealers from prosecution in order to raise money for the Contras, especially after Congress passed the Boland Amendment, which prohibited direct Contra funding.

Webb's reporting generated fierce controversy, and the San Jose Mercury News backed away from the story, effectively ending Webb's career as a mainstream-media journalist. In 2004 he was found dead from two gunshot wounds to the head, which the coroner's office judged a suicide. Though he was criticized and shunned by the mainstream journalism community, in 2013 Nick Schou, a journalist writing for the LA Weekly who wrote the book Kill the Messenger, stated that Webb's reportage was eventually vindicated; since his death, for example, both the Los Angeles Times and the Chicago Tribune have defended his 'Dark Alliance' series. Esquire wrote that a report from the CIA inspector general 'subsequently confirmed the pillars of Webb's findings.' Geneva Overholser, who served as the ombudsman for The Washington Post, wrote that major media outlets including the Washington Post had 'shown more passion for sniffing out the flaws in the Mercury News's answer than for sniffing out a better answer themselves.'

In 1988, the movie Coverup was narrated by Elizabeth Montgomery, daughter of head of the Screen Actors' Guild Robert Montgomery, and herself the star of the tv series Bewitched. The movie was about G H W Bush role in cocaine
distribution in the inner cities, as well as Operation Guido (GUIDO: Guns in Drugs Out) of Oliver North.

She subsequently died, it was said, of cancer.

III

Dick Gregory reported that during the Vietnam War, the CIA airline Air America was involved in secreting heroin in the coffins of dead soldiers being returned to America.

Ways Republicans Have Stolen Presidential, Gubernatorial, Senate, House, State Legislature, Mayor and Judicial Races

This writer intends to vote for Rand Paul, the only antiwar candidate in the Republican Party and the only candidate among Democrats and Republicans who is making ending the illegal wars of the US a campaign priority. Unlike Rand Paul, many in the Republican Party steal elections. Why is there much more vote fraud among Republicans? Answer: They are a minority of voters. In addition the 1% need to give the illusion to the 99% that there is democracy in the US.

Because of these election crimes, the Iraq and Afghan wars were begun. Money has been stolen from the poor and given to the rich by their politician pawns. Our environment would have been better protected by Gore whom the people elected.

Although the word gerrymander was coined in 1812 after Gerry Mander, a Bostonian, the blue state of Massachusetts has less vote fraud than red or purple states.

How have Republicans cheated in elections
1. barring third parties from the ballot
2. barring third parties from debates
3. voting machine fraud
4. stealing ballot boxes
5. unpostmarked absentee ballots
6. absentee ballot forgeries
7. illegal removal of people from voting rolls (as Jeb Bush did in 2000 for his brother)
8. jamming the handicapped voter transportation lines (as NH Republicans did and went to jail)
9. switching yes to no (as Diebold machines and Secretary of State Husted's operation did in Ohio on a pot legalization vote)
10. conducting a phony unbiased voter registration drive and throwing away all nonRepublican registrations (as Nathan Sproul, hired by McCain, by Romney, by Karl Rove, and by state Republican parties in Virginia, Minnesota, Colorado, Nevada, Arizona, Minnesota and other states did)
11. Voting the dead (as Nathan Sproul did in Florida and elsewhere for his
Republican paymasters
12. hacking the totals (Bev Harris of Black Box Voting showed Al Gore how Diebold machines could be hacked in 3 minutes' time
13. Sending police to intimidate voters or to block off their precincts (as Jeb Bush did in Florida in 2000)
14. Conspiring with the media to instruct the public incorrectly in order to invalidate ballots as the Jacksonville Florida Times Union did in 2000 putting out a special edition in the black precincts instructing voters to mark each page of the ballot (20,000 ballots invalidated)
15. delaying the opening of polls as the Ohio Republican Party did in 2004 in Akron Ohio and at Kenyon College, for instance
16. The Republican dominated Supreme Court (5 males who quash the will of the vast majority of Americans) have decided that money is speech which allows billionaires to flood the corporate owned media with ads.
17. Murder: Missouri's Democratic governor Mel Carnahan died during his 2002 campaign in a plane crash. Missouri's Democratic senate candidate Jerry Little died in a plane crash during the campaign in 1976. Iowa's Libertarian candidate, physician Doug Butzler, whose presence on the ticket would have given the Democrats a victory, died in a plane crash in 2014. Senator Paul Wellstone, Minnesota Democrat, died in a plane crash during his campaign. John Perkins who was an economic hitman for the government documents the number of leaders of other countries killed in the CIA's arranged plane crashes.*
18. barring Democrats and independents from the counting of ballots as happened in Warren Ohio in 2004.
19. Spreading lies about candidates as John Kasich did about his opponent Ed Fitzgerald in Ohio and Senator Thune did about Senator Tom Daschle in South Dakota..
20. cutting back on the number of voting machines in Democratic precincts
21. draconian voter ID requirements which penalize the poor
22. owning the media as Mitt Romney did by purchasing Clear Channel through Bain Capital of which he was the sole owner
23. owning or controlling the voting machine companies, as Mitt Romney's son did purchasing a voting machine company in Ohio, as the Republican Party did through Wally O'Dell, CEO of Diebold
24. Racism: blacks, Latinos barred from the ballot by literacy tests, poll taxes, and in the modern era other ways
25. gerrymandering... the arrangement of a district to maximize Republican power as the Ohio Republican Party has done
26. the US Senate, an anachronism which gives 64 times as much power to a citizen of Wyoming with 584,000 as a citizen of California with 37,253,000 people.
27. A Supreme Court which has quashed the will of the majority (as in Gore V
Bush in 2000)
28. treason (G H W Bush and others in March of 2012 as private citizens negotiated with the Iranian government to continue to hold US hostages until the election...)
29. Denying many prisoners the right to vote
30. truncating the hours in which voter registration is possible
31. truncating the hours in which citizens may vote
32. allowing the recipients of stolen elections to remain in office, as has happened in the 2015 election for Kentucky governor, both elections of G W Bush, etc.
33. Military control of nonofficer soldier ballots
34. The electoral college which has meant that candidates receiving fewer popular votes have still won.
35. spamming opposition party websites with pornography or commercial spam
36. having those trained in provocateur behavior disrupt internet forums, public meetings
37. campaign infiltrators who take charge of fundraising, financial records, media ads etc.
38. Hacking opposition sites... eliminating them from the Internet as happened with etc
39. Democratic voters showed up in Jeb Bush's election of 2000 and were told they needed 2 forms of photo ID
40. Without suppression sf the Native American vote no Republican can win statewide in South Dakota. Thune, Republican candidate, became senator by paying people to run lying websites about Daschle, by suppressing the Native American vote in a variety of ways, including police intimidating Native Americans and writing down their license plate numbers.
41. Whole counties of votes in New Hampshire were thrown away by Republicans in NH desperate to defeat Ron Paul
'Party leaders at the county and state level have changed or violated party rules, cancelled caucuses, changed vote counts, thrown out entire counties of votes, counted public votes privately, called-in the SWAT team, and inexplicably replaced Paul delegates with Romney delegates to block Ron Paul from winning the nomination.' Quote from Jaret Glenn wordpress site See *22
42. Romney operatives erased whole flash drives and destroyed computers of operatives of other parties
43. Many polls were propaganda machines owned by Republicans.... with fraudulent numbers reported, fraudulent samples, biased questions
44. war profiteer and other corrupt ownership of media... giving much more air time to Republican candidate
45. In Alabama, Richard Shelby ran as a Democrat in order to be elected and then switched to the Republican Party. In Colorado, Democrat Ben Nighthorse
Campbell switched to the Republican Party after elected.

Someone on a network news show said in December that Republicans are 28% of the population. Many dispute that figure. In 2012 Romney received less than 20% of the votes of those eligible.

In 2012, the estimated population was 314 million. If one deducts 2% for noncitizens, then 307 million were eligible to vote. If one deducts 23% for population under 18, then 236.9 million were the Americans eligible to vote. The total vote for president in 2012 was 127 million votes, with Obama receiving 51.19%, Romney receiving 47.32%, Libertarians receiving 99%, and Greens 36% with other parties receiving less. Romney's 47.32% is 19.9% of the total number eligible to vote. The numbers for third parties would be higher but many states block third party voters in a variety of ways, and corporate owned media block third parties from the debate, etc.

In addition the Republicans on the Supreme Court have defined money as speech so that billionaires can flood the airwaves with ads for their politician pawns.

8.6% of the US population has a felony conviction but different states have different rules about voting by felons (a number which includes Jesus, Gandhi, and others).

One can dispute the numbers used but the unchanging reality is that Republicans are a minority party.

Zz Was Hitler A Vegetarian

Jonathan Kellerman's creation, the detective Milo Sturgis, states that Hitler was a vegetarian. That is true, and yet he killed more animals than .99999999999999999999% of humanity. He provided animal flesh for the generals and other guests of his dinner table. He provided slaughtered animals' meat for the entire German army. His tanks crushed nesting birds, gophers, rabbits, chipmunks, squirrels etc. while destroying their homes. He ordered the bombing of millions of civilians with the collateral damage of trillions of animals, birds, frogs, bumblebees. God is not a separate entity. Humankind is the image of God. Daivam maanusha rupena, declare the scriptures. It means that God appears in human form. God has no separate form. It is to show to humanity how human life can be divinized that Avatars come from time to time.
I have often declared that God does not come down as avatar to relieve individuals of their troubles and sorrows and to confer joy and happiness on them. Difficulties, troubles and worries come in the natural course as a consequence of past actions. The Gita says: Karmaanubandhini manushya loke (Human beings are bound by Karma in the world). The Vedas have infinite depth of meaning. All may not be able to comprehend the inner meaning of the Vedic teachings. The earth's gravitational force existed even before it was discovered by Newton after rigorous experimentation. Similarly, the eternal truths hidden in the Vedas were perceived by the Rishis (seers) after intense penance and Sadhana (spiritual austerities). Unless one practises their teachings, one can never get happiness or peace. In order to realize the Divine, you have to practise the precepts prescribed in the Vedas. No doubt, even listening to the recitation of the Vedas is itself capable of purifying your mind and elevating you to a higher level. For, it is Shabdha

The world is a kaleidoscopic picture created by one’s own imagination.

An ant was caught on a dry leaf that was being carried down a flooded river and he called out from its tiny heart to God for succour who prompted a kite that was flying over the river to dive and rise up, with the leaf on its beak; for He made the bird mistake him for a fish or frog! The bird was sorely disappointed, but, the ant was delighted to land on hard ground! God came as a kite and rescued me, he felt. I must be grateful to the bird, to all birds, he resolved. One day, while on his morning round, he saw a hunter aim an arrow at a bird; he bit the heel of the hunter, just when he was releasing the mortal shaft; the aim failed; the bird flew off, and was saved. The ant had paid his debt.

Man's many desires are like the small metal coins he carries around in his pocket. The more he has, the more they weigh him down.

The blocks inside people manifest as obstacles in their paths. (paraphrased).

46 Maxims

1. Prema, Love, should be considered as the very breath of Life.
2. The Love that is manifest in all things equally, believe that the same Prema
is Paramatma.
3. The one Paramatma is in every one, in the form of Prema.
4. More than all other forms of Prema, man's first effort should be to fix his Love on the Lord.
5. Such Love directed towards God is Bhakthi; that is the fundamental test, the acquisition of Bhakthi.
6. Those who seek the Bliss of the Atma should not run after the joys of sense objects.
7. Sathya, Truth, must be treated as life-giving as breathing itself.
8. Just as a body that has no breath is useless and begins to rot and stink within a few minutes, similarly, life without Truth is useless and becomes the stinking abode of strife and grief.
9. Believe that there is nothing greater than Truth, nothing more precious, nothing sweeter and nothing more lasting.
10. Truth is the all-protecting God. There is no mightier Guardian than Truth.
11. The Lord who is Sathyaswarupa grants His Darsan to those of Truthful Speech and Loving Heart.
12. Have undiminished kindness towards all beings and also the spirit of self-sacrifice.
13. You must also possess control of the senses, an unruffled character and non-attachment.
14. Be always on the alert against the four sins which the tongue is prone to commit:
   Speaking falsehood
   Speaking ill of others
   Back-biting and
   Talking too much
It is best to attempt to control these tendencies.
15. Try to prevent the five sins that the body commits:
   Killing
   Adultery
   Theft
   Drinking intoxicants
   Eating of flesh
It is a great help for the highest life if these also are kept as far away as possible.
16. One must be always vigilant, without a moment's carelessness, against the eight sins that the mind perpetrates:
   Kamam or craving
   Krodham or anger
   Lobham or greed
Moham or attachment
Impatience
Hatred
Egoism
Pride
Man's primary duty is to keep all these things at a safe distance from himself.
17. Man's mind speeds fast, pursuing wrong actions. Without letting it hurry like that remember the Name of the Lord at that time or attempt to do some good deed or other. Those who do thus will certainly become fit for the Lord's Grace.
18. First give up the evil tendency to feel impatient at the prosperity of others and the desire to harm them. Be happy that others are happy. Sympathise with those who are in adversity and wish for their prosperity. That is the goal of cultivating the love for God.
19. Patience is all the strength that man needs.
20. Those anxious to live in joy must always be doing good.
21. It is easy to conquer anger through love, attachment through reasoning, falsehood through truth, bad through good and greed through charity.
22. No reply should be given to the words of the wicked. Be at a great distance from them; that is for your good. Break off all relations with such people.
23. Seek the company of good men, even at the sacrifice of your honour and life. But be praying to God to bless you with the discrimination needed to distinguish between the good men and the bad. You must also endeavour, with the intellect given to you.
24. Those who conquer states and earn fame in the world are hailed as heroes, no doubt; but those who have conquered the senses are heroes who must be acclaimed as the conquerors of the Universe.
25. Whatever acts a good or bad man may do, the fruits thereof follow him and will never stop pursuing him.
26. Greed yields only sorrow; contentment is best. There is no happiness greater than contentment.
27. The mischief-mongering tendency should be plucked out by the roots and thrown off. If allowed to exist, it will undermine life itself.
28. Bear with fortitude both loss and grief; try and search for plans to achieve joy and gain.
29. Assume silence when you are invaded by anger or remember the Name of the Lord. Instead, do not try to remind yourself of things which will inflame the anger more. That will do incalculable harm.
30. From this moment, avoid all bad habits. Do not delay or postpone. They do not contribute the least joy.
31. Try as far as possible within your means to satisfy the needs of the poor, who are really Daridranarayana. Share with them whatever food you have and make them happy at least that once.
32. Whatever you feel should not be done to you by others, avoid your doing such to others.
33. For faults and sins committed in ignorance, repent sincerely; try not to repeat the faults and sins again; pray to God to bless you with the strength and the courage needed to stick to the right path.
34. Do not allow anything to come near you, which will destroy your eagerness and enthusiasm for God. Want of eagerness will cause the decay of the strength of man.
35. Yield not to cowardice; do not give up Ananda.
36. Do not get swelled up when people praise you; do not feel dejected when people blame you.
37. If among your friends any one hates another and starts a quarrel, do not attempt to inflame them more and make them hate each other more; try, on the other hand, with love and sympathy to restore their former friendship.
38. Instead of searching for others' faults, search for your own faults yourself; uproot them, throw them off. It is enough if you search and discover one fault of yours; that is better than discovering tens of hundreds of faults in others.
39. Even if you cannot or will not do any Punya or good deed, do not conceive or carry out any Papa, or bad deed. This is far preferable.
40. Whatever people may say about the faults that you know are not in you, do not feel for it; as for the faults that are in you, try to correct them yourself, even before others point them out to you. Do not harbour anger or vengeance against persons who point out your faults; do not retort, pointing out the faults of those persons themselves, but show your gratitude to them. Trying to discover their faults is a greater mistake on your part. It is good for you to know your faults; it is no good your knowing others' faults.
41. Whenever you get a little leisure, do not spend it in talking about all and sundry, but utilise it in meditating on God or in doing service to others.
42. The Lord is understood only by the Bhaktha; the Bhaktha is understood only by the Lord. Others cannot understand them. So, do not discuss matters relating to the Lord with those who have no Bhakthi. On account of such discussion, your devotion will diminish.
43. If anyone speaks to you on any subject, having understood it wrongly, do not think of other wrong notions which will support that stand but grasp only the
good and the sweet, in what he says. True meaning is to be appreciated as desirable, not wrong meaning or many meanings, which give no meaning at all and cause only the hampering of Ananda.

44. If you desire to cultivate one-pointedness, do not, when in a crowd or bazaar, scatter your vision to the four corners and on everything, but see only the road in front of you, just enough to avoid accidents to yourself. One-pointedness will become firmer if one moves about without taking one's attention off the road, avoiding dangers, and not casting eyes on others' forms.

45. Give up all doubts regarding the Guru and God. If your worldly desires do not get fulfilled, do not blame it on your devotion; there is no relationship between such desires and devotion to God. These worldly desires have to be given up some day or other; Bhakthi feelings have to be acquired some day or other. Be firmly convinced of this.

46. If your Dhyanam or Japam do not progress properly or if the desires you have entertained do not come to fruition, do not get dispirited with God. It will dispirit you even more and you will lose the peace, however small or big, that you might have earned. During Dhyanam and Japam you should not be dispirited, desperate or discouraged. When such feelings come, take it that it is the fault of your Sadhana and endeavour to do them correctly.

When love matures, it turns into beauty. When the taste of Beauty ripens, it is sweetness. In that experience of sweetness everything appears brilliant and shining. The whole process may be likened to what happens when a flower ultimately becomes a ripe, sweet fruit. Ripeness is all. The Spirit is all sweetness.

'Bring me the depths of your mind, no matter how grotesque, how cruelly ravaged by doubts or disappointments. I know how to treat them. I will not reject you. I am your Mother...
A man with anger…. is despised by everyone.

Unrest, sorrow, anger, etc., are the reaction, reflection, and resound of the state of our inner being.

Surely, you did not come into this world with any name.

Love is another name of Brahman.

Hospitals are for people without faith. Vibhuti is for people with faith.

You are not one person, but three: the one you think you are, the one others think you are, and the one you really are. What others think is all imagination. The Self within you is the only truth.

When maya and Truth come together, creation takes place. Without maya, there can be no creation.

Maya is like a shadow to a human being. But this shadow deludes us. At sunrise, our shadow is long. As the sun gradually rises, the shadow falls under our feet at midday. Thus, the shadow grows and shrinks. We should not therefore mistake the shadow as our basis.

The entire creation is a manifestation of God's love, be it a tiny ant or a mighty elephant.

Not even a blade of grass will move without divine Will, People who do not realise this truth get carried away by their pride of intelligence and discrimination. But no one, however great they may be, knows what lies ahead for them in future. (Telugu poem)

SAI BABA ON RESTAURANTS

Sai Baba has asked his followers to avoid restaurants where meat is served.

He has said the vibrations of the cook enter the food.

One does not need to give energy in the form of money to those involved in the chain of slaughter which brings a living innocent animal to one's plate as meat.

It is also true that the agony the animal feels while being butchered is present biochemically in the meat, as great amounts of the adrenal fright and terror hormone are released.

In addition, 97% of the food poisoning fatalities annually come from meat, fish and eggs. It is much more difficult to control purity of food in a restaurant than at home.

(quote selection is an infinitesimal fraction of 72 volumes of Baba's discourses, thousands of books written about Baba, etc.)

Zz Worldwide Animal Rights Movement Reaches New Level Of Critical Mass

2 Boston radio stations, WGBH and WBUR, in programs The Takeaway and The World, on the 29th and 30th of July, 2015 gave air time only to defenders of the trophy seeking murder of animals. The host of Takeaway referred to the murdered lion as 'game'. The worldwide animal rights movement has reached a new level of critical mass. The New York Post headlined that the thrill kill murderer of Cecil the lion was the most hated man on the internet.

Walter Palmer, poacher and sadist, has gone into hiding after he, a dentist of Eden Prairie, Minnesota paid $50,000 in a Zimbabwe hunting safari. Cecil, a beloved lion, was lured off of a sanctuary by bait. Palmer then shot him with an arrow from an extremely highpowered bow, and tracked him for 40 hours of Cecil's suffering, finally shooting him with a rifle. Then he cut off Cecil's head and skinned his body, while trying to remove the GPS collar which Oxford University (a vivisection university) had placed on him. Palmer claims that he did not know he was acting illegally. His 2 Zimbabwe guides have been arrested taking the fall for Palmer's savagery.

The Safari Club gives special membership awards not to hunters who have murdered 300 animals but to those who have murdered 300 species of animals. Norman Schwarzkopf, another who loved to kill animals and one of the operatives executing G H W Bush's Highway of Death in Iraq, qualified for that special Safari Club membership.

The Safari Club International recently had more than 50,000 members and 180 chapters.

Billionaire Dan Duncan, Safari Club member, was stopped in Russia in 2002 after breaking their law by a. aerial hunting and b. murdering an endangered species bighorned sheep. He, like Palmer, claimed he did not realize he was acting illegally.

From Wikipedia: 'Duncan owned the Double D Ranch, a 5,000-acre hunting property in Texas. Duncan was a Safari Club International member who has been given numerous awards for his (serial murders.) In 2006, he received the SCI World Conservation Hunting Award, which requires a hunter to have hunted on six continents, and have received SCI's 13 'Grand Slam' awards, 22 'Inner Circle' awards, the Fourth Pinnacle of Achievement Award and the Crowning
Achievement Award. Duncan has 407 entries in SCI's trophy record book, including records for killing lions, elephants, rhinoceroses, a polar bear, and other animals.' 'In 1979, when SCI was fairly new, it sought government approval to import 1,125 trophies from 40 different species (gorillas, cheetahs, tigers, orangutans, snow leopards, and others) into the US for 'scientific research and incentive for propagation and survival of the species.' Because the animals were to be hunted, the U.S. Fish and Wildlife Service denied the request'. 'In 1994, SCI successfully lobbied for a change in the U.S. Marine Mammal Protection Act 1972 to allow for the importation of previously banned sport-hunted polar bear trophies into the United States from Canada.'

G H W Bush was the keynote speaker at a Safari Club convention. His son George Bush, announced the Safari Club, would be given a 'governor of the year' award. In addition, George W Bush wrote a letter for an Indiana trophy hunter asking Botswana to bring back lion hunting. Dan Quayle, vice president under G H W Bush, was also a big supporter of trophy hunting.

Walter Palmer, the murderer of the lion Cecil, has killed many kinds of animals, including, poster believes, a cheetah.

It is time for African nations and all the world to ban thrill of the kill hunters.

Walter Palmer was accused of sexual harassment in the past. If he was guilty, the incident serves to connect violence to animals with violence to women.

Zz 19 Ways The U.S.D.A. Kills People, Animals, Birds And/Or Trees

From killing tens of millions of birds for corporate farms, 'controlled' burns which in uncontrolled fashion burn many square miles of forests, burning animals alive, censorship of Mad Cow and other spongiform encephalopathy diseases, to requiring taxpayers to subsidize fast food ads overseas and torturing animals in a 55 square mile USDA complex in Nebraska, the USDA is a major cause of human disease, animal agony, environmental destruction, and energy waste.

1 THE USDA Has Killed Tens OF Millions OF Blackbirds And Other Birds *6 C S Monitor

2 USDA Lying About MAD COW, MAD PIG, MAD Sheep, MAD Deer, MAD ELK, MAD Chicken, MAD Fish, MAD Milk ETC FOR Decades

Ann Veneman, former head of the USDA, was mentored by R Lyng, president of the North American Meat Institute. She went on from the USDA to spread toxic meat philosophy at UNICEF, a UN agency which impacts children. Virtually every secretary of the USDA has been chosen because of a past history in promulgating poisonous meat products. There are over 150 links at rense dot com about spongiform encephalopathy incidents in the US. *1 see rense dot com

3 USDA Upheld BY Federal Court IN Suppressing MAD COW Tests See the organic consumers link. *2

4 The USDA's US Forest Service Would More Correctly Be Called The USDA Deforest Service.

US Forest Service through the criminal policy of controlled burns has set millions of acres on fire, burning people, animals, trees, buildings. Controlled burns are often uncontrolled by factors such as wind change. The USDA has allowed the timber industry for further deforestation. Like many other US federal agencies it is a factor in the violent weather around the country through removal of weather stabilizing trees.

5 USDA Subsidizes Animal Slaughter, Human Disease And Obesity, Higher Medical Costs, Energy Waste And Environmental Destruction Through Food Stamps.
As more insurance companies give discounts to vegans, vegetarians and fruitarians because of greater life spans and less incidence of cancers, heart disease, strokes, aneurisms, embolisms, kidney failure, Alzheimer's, arthritis, food poisoning etc., the Usda continues to subsidize the meat, fish egg and dairy industries through food stamps. We need food stamps but they should be for the purchase only of fruits and vegetables.

Christians, Hindus, Buddhists, Muslims, Jews whose religions oppose some or all animal consumption are being taxed to provide the flesh of murdered innocent animals to the world's most obese population.

6 Animal Torturing Semantics

The USDA Meat Animal Research Center defines cows, sheep and pigs as meat animals. Perhaps Tom Vilsack, Secretary of the USDA, would be defined as a meat animal by cannibals. The USDA has since its inception objectified living animals. Vilsack was governor of Iowa and did nothing to stop horrific torture of animals there. *9

7. Fifty Five Square Miles OF Animal Torture In Nebraska

The USDA continues to torture animals at the Usda Meat Animal Research Center. A cow was left in a ring with 6 bulls and died within 24 hours. Lambs abandoned by their mothers have been left alone in fields. *3 See petitions below on thepetitionsite dot com

9 THE USDA Plum Island Research Center: Bioterror And Disease Creation

Just as Blackwater changed its name to XE and Clear Channel to Iheart Radio after the notorious nature of their operations, so the USDA shut down its disease creation and bioterror center at Plum Island in NY and at great expense moved elsewhere. Lyme Disease was created there. *5 Wikipedia

10 Geese Buried Alive

Until members of Goosewatch NY organized against the USDA, the agency was capturing geese on the Long Island Sound and elsewhere and taking them to landfills to be buried alive. Now they are taken directly to a slaughterhouse.

13 THE USDA WIC Program (Women Infants Children) Is Also A Dumping Ground For Wisconsin, Minnesota and other eggs and dairy products.

Cows' milk is designed to make a baby calf into a 1000 pound animal within a year's time. It is a major cause of the US status as the most obese nation in the world per capita. Women who ingest the carcinogenic female hormones injected by force into cows, sheep, pigs, and birds so that they will gain water weight before slaughter have a much higher rate of ovarian, breast, uterine, cervical cancers. Men have much higher rates than in Europe. The European Union banned American meat and dairy because of such hormones and was overruled by a corrupt UN court. *10 PCRM dot org

14 THE USDA's Nearly 1 Trillion Dollar Farm Bill includes mass subsidies to huge agribusiness corporations and individual millionaires *11

15 USDA Operatives Have Infiltrated Coops, Vegan, Vegetarian And Animal Rights Groups
As one of countless examples, at Stone Soup in DC, USDA operatives stole petty cash, insulted customers, used polarization and division techniques in which they were trained to spread infighting

16 Farmers Ordered BY USDA To Destroy 30 Million Pounds Of Cherries. This is one of countless instances in which the USDA ordered the destruction of food. While the agency is seldom involved in meat, fish or dairy recalls, it often orders the destruction of fruits and vegetables.97% of all food poisoning fatalities occur with cadaver food (pieces of dead animals, birds or fishes) or stolen animal products (eggs and milk). Yet the corporate media are quick to amplify the 3% of food poisoning cases related to fruits and vegetables. *12 offthegridnews dot com

DANGERS TO THE HUNTER
1. Hunters trip on their guns going over fences, shooting themselves or others. They can discharge a rifle in twisting an ankle in a gopher hole or over roots. They can fall into unguarded ravines or capsize in a boat. Small planes with hunting party passengers in remote regions of the West crash.
2. There are many instances of bow and arrow hunters shooting others accidentally or impaling themselves on their own arrows.
3. Guns can misfire. Hunters sometimes look down the barrel of a rifle wondering why it didn't fire, only to have the gun discharge.
4. The use of animal urines to attract animals to their deaths can boomerang.
5. Injured animals (stags, boar, bears etc) can turn around and attack. There are many videos on the internet of injured or enraged animals attacking hunters.
6. Hunters often have heart attacks in the woods as they try to pull or carry or lift very heavy dead animals.
7. Hunters are frequently injured in tree stands. Injuries include falling asleep and then falling out of the stands.
8. Hunters lost in the woods suffer from heat or freezing, hunger and thirst.
9. While not life threatening, Ticks on deer and other animals can burrow into hunters or their dogs. Mosquitoes bite.
10. Foxhunters mounted on horses are often thrown to their deaths or injuries. Horses often break legs stepping into holes or trying to leap fences.
11. Hunters are not immune from the impotence which is related to animal flesh consumption. Michael Klaper MD has lectured around the country on vegan diet as a cure for impotence.
12. Eating animals shortens life expectancy by causing heart attacks, strokes, aneurisms, embolisms, many kinds of cancers, kidney disease, thousands of varieites of food poisoning.
13. Mad Deer, Mad Elk, and a number of other spongiform encephalopathy diseases make eating the cadavers of animals hunters kill even more dangerous.

DANGERS TO CHILDREN
14. Countless children have died, finding their hunter parent's gun stash and using the weapons to play, for instance, cops and robbers.
15. Hunters have accidentally shot children and adults in nearby homes.

DANGERS TO THE PUBLIC
16. Hunters often mistake hikers, campers in the woods for animals they are stalking.
DANGERS TO THE ANIMALS
17. Animals running in terror from hunters leave their bodies in fright and agony. Besides the painful death to trillions of animals are the countless animals who have died slowly from hunter injuries or the animals who are maimed but continue to live in pain with arrows protruding or infected gunshot wounds.
18. Fish die of suffocation, smashing or being knifed. Their eyes, gills, throats are ripped out by multipronged hooks.

MURDER
19. Murders have been disguised as hunting accidents, e.g. William Sullivan number 3 man at the FBI, shot by a New Jersey state trooper in a housing development.
20. Hunters can encounter farmers who don't want them shooting in the woods. Thomas Dillon (not Dylan Thomas) killed five hunters in Central Ohio.
21. A gathering of inebriated hunters can spell tragedy from shooting as alcohol opens the floodgates of anger.
22. The act of killing mammals and birds reduces the barrier between nonhuman and human beings. Criminal profilers and others have reported that those who have abused animals are more likely to become serial killers of human beings.

FISHING
23 Fishermen often catch fishhooks in face, fingers etc.
24 They can be spiked in femoral, hand or other arteries by catfish, bitten by sharks.
can be knocked out of boats by the ramming of sharks.
26 Deep sea fishing is listed by many organizations as one of the most dangerous occupations in the world. Drowning,
being caught in the nets are other hazards.

27. Radiation cancers from Fukushima and illegal nuclear waste dumping around the world by other nuclear facilities, stomach cancer, lethal food poisonings including anaphylactic shock from shellfish, choking, mercury and other heavy metals destroying memory and hastening Alzheimer's, Mad Fish disease from prions expelled into the water etc are some hazards of fish eating.

Saiom Shriver
42 Causes Of Alzheimer's: Homocysteine In Meat And Fish, Amyloid Plaque, Prions, Aspartame in Diet Colas, Alcohol, Mercury Etc.

There are many causes of Alzheimer's but the primary one is homocysteine, a protein in mammal, bird and fish flesh. The metabolism of homocysteine causes amyloid plaque to build up over a lifetime in the brain.

William Shakespeare in 'Twelfth Night': 'He is a heavy eater of beef. Methinks it doth harm to his wit.'

* Amyloid plaque a product caused by the metabolism of the animal protein homocysteine from mammal, bird and fish protein is the major cause of Alzheimer's. Science Daily reported that amyloid plaque clumps are found even in the brains of those in the 20's. These clumps accumulate more each year of flesheating. *A

Homocysteine, uric acid, animal fat or cholesterol are intrinsic to all mammal, bird, and fish flesh. In addition mercury, lead, and many other metals are some of the many compounds present in meat and fish in many times greater amounts than in fruits and vegetables. They harm the brain and its memory function. Aluminum compounds and alcohol consumption as well cause loss of brain function. A number of brain diseases are lumped under the term Alzheimer's which is generally a deterioration of brain function through loss of memory and other cognitive skills.

* DIET

1. The prime cause of Alzheimer's (senility, dementia) is the homocysteine protein in meat and fish, a protein breaking down to amyloid plaque which lines the arteries of the brain and other parts of the body causing hypoxia or deprivation of oxygen to the brain and other organs. The amino acid homocysteine occurs whenever meat and fish are metabolized by consumers. This is a product of the body's methylation process. Link from British medial journal Lancet *1
2. The animal fat, cholesterol, found in animal flesh (meat) , fish flesh, eggs, and
dairy.. also lines the brain and other arteries. Brain and cardiac surgeons
must often cut through this white gluey substance to do their operations.
Hypoxia, lethal stroke are some results.
3. The uric acid (trioxypurine or pre-urine) in the muscle cells of animals is
stronger than caffein or dioxypurine. Besides its addictive qualities, it crystallizes in
needle formation around the joints causing arthritic pain and rigidity. Its crystals
line the brain arteries as well.
4. The mercury present in all ocean fishes is a toxin which destroys memory.
Some other toxic metal present in ocean fishes include zinc, nickel, chromium,
copper, cobalt, cadmium, lead, magnesium, tin. Arsenic, a poisonous element, is
also present in fish. All of these harm brain function as well as do thousands of
poisonous chemicals discharged into the ocean from fertilizers, petroleum
products, oil spills, medications excreted in urine, etc.
'Some metals, such as lead and mercury, easily cross the placenta and damage
the fetal brain. Childhood exposure to some metals can result in learning
difficulties, memory impairment, damage to the nervous system, and behavioral
problems such as aggressiveness and hyperactivity. At higher doses, heavy
metals can cause irreversible brain damage.'
5. Heavy eaters of meat and fish have less fiber and less vitamin C in their diet.
Vitamin C is a bouncer of brain and other toxins. It also speeds the flow of
signals across brain synapses. It is absent in meat, fish and dairy products.
6. The insecticides in nonorganic meat and fish have thousands of toxic side
effects harming brain function.
7. Meat takes 3 to 4 hours to digest in the stomach, longer than any other food,
while most fruits take the least time to digest. After a lion has sprinted to kill
another
animal, he lies around for 3 days digesting his food. Meat diverts blood from the
brain to the stomach.
8. Thiamin Mononitrate (called B1) is often derived from pig flesh and organ
meats, foods which cause diseases including those of brain function. such as
General Mills include it in flours such as Bisquick.
9. The acids in mammal, bird, fish flesh, eggs, dairy, coffee, tea etc. destroy
parts of the insulating myelin sheath of the nerves (the body's electrical circuitry)
.
9a Many medications as well can destroy the myelin sheath, the protection
around nerve cells.
Many cause tardive-dyskinesia, an uncontrollable shaking. *9
10. Many other medications cause brain seizures. *10
11. Many vaccines contain mercury which destroys memory.
12. Now more than ever the radioactive spills from Fukushima, which accumulate
more daily, as well as those from Three Mile Island, Chernobyl, atom bombs
dropped on Nagasaki and Hiroshima, atom and hydrogen bomb testing by the US in Nevada, by the French in Bikini, by the 9 nuclear weapon nations harm brain function. This radiation is concentrated in fish flesh in many times the concentration in seawater.

13. Monosodium glutamate MSG is not intrinsic to meat but is put into the muscle flesh of meat to tenderize it. It also breaks down the brain's and other muscle and nerve tissue of humans eating the MSG meat. It is called the Chinese restaurant headache cause, generating crippling migraine headaches. The FDA allows it in tens of thousands of varieties of canned food and meats under the deceptive label 'natural flavors'. *13

14. Prions: the work of Nobel laureate Dr Stanley Prusiner was put on a back burner at Harvard, which is invested in the meat industry. He left and continued his prion research at Stanford. Prions are a cause of Mad Cow or bovine spongiform encephalopathy, cervine spongiform encephalopathy (Mad Deer) etc. The USDA has been involved in censoring incidents of Mad Cow in the US. Spongiform encephalopathy diseases gradually deteriorate the brain and spinal cord.

For many years the US unlike the UK has censored news of Mad Cow, Mad Pig, Mad Deer, Mad Chicken, Mad Turkey, Mad Fish, Mad Milk etc. in US animals.

15. Stearates are added to some vitamin pills and break down brain and other cell walls *15 a *15b

16a. It is not just the flesh of fishes but fish oil supplements in polluted vitamin D and other supplements which harm the brain in ways such as memory loss from mercury and other heavy metals.16b. Poisonous mercury is also in vaccines.

17. Gelatin and gelcaps are made from the powder of mammal bones and can contain many poisons from Mad Cow and other spongiform encephalopathy diseases to radiation, hormone residue etc.

18. Tryptophan is an amino acid in meat and fish which makes people sleepy, interfering with brain function.

Recapping, vitamin pills can contain magnesium stearate, gelatin, fish oil, and thiamin mononitrate, all of which come from the cadavers of animals or fishes. It is time for all corporations, grocery stores and chains, and restaurants selling food to be required to label items which are vegan or vegetarian.

19. Coumadin, a drug which prevents blood clots but causes internal bleeding, was the primary ingredient in rat poisons, causing the mammals to bleed to death. It is now causing internal bleeding in the brain of many humans given the drug.

20. Sodium nitrate, the red dye food coloring in many meats such as hotdogs,
sausage, bacon, and old meats, combined with animal protein forms the carcinogenic nitrosamines, linked to brain tumors and other cancers. *20
21. Creutzfeldt-Jakob disease, AIDS dementia, neurosyphilis are all diseases which can produce Alzheimer's type symptoms. *21
22. Radiation therapy harms the brain causing memory problems etc. Ernest Johnson, MD, employed for 58 years at Ohio State Medical School, recommended avoiding radiation treatments. *22
23. Cooking meat at High Temperatures Forms Carcinogenic Heterocyclic Amines Some carcinogens created by cooking animal and fish flesh over 300 degrees are malonaldehyde and methylcholanthrene. Tumors can occur in the brain with symptoms such as those in Alzheimer's. *23
24. Aspartame was originally banned by the US FDA. It was developed as an antkiller which would through artificial sweetness would attract ants to their deaths. Aspartame causes brain lesions, epilepsy, brain tumors, macular dystrophy of the eyes, as well as birth defects, cancer, diabetes *24 a, b, c
25. Listeria meningitis destroys brain cells and can be contracted by eating undercooked meat. There have been many meat recalls because of listeria in the US, Canada etc. *25 a b c
26. Limbic encephalitis one of whose causes is meat can destroy the hypocanthus, affecting the memory.
27. The Japanese encephalitis vaccine forced on US soldiers in the post World War II years and pressured on travelers to certain countries can cause temperatures of up to 108 degrees with concomitant brain damage.
28. Mothers' consumptions of cured meats in pregnancy can cause pediatric brain tumors. *28
29. Many other brain tumors are correlated to meat consumption.
30. Research indicates that hatred can literally cut grooves in the hypocanthus. *30
31. Brain injuries from football, boxing and other contact sports as well as from fighting can often have longterm effects
32. Studies have indicated a link between regular meat consumption and alcohol consumption, the one being very concentrated or yang, while the other is the opposite or yin. Eliminating meat reduces greatly the desire for alcohol was the research conclusion of General John Booth.
33. Dr Samuel Epstein testified before Congress that charcoal barbecues of meat create the carcinogen benzopyrene. Brain tumors are one effect. Other cancers also. *33
34. Eating food laced with bisphenol out of tin cans is also dangerous.
35. Drinking water from plastic bottles with bispheneol is harmful to the brain. BPA leaches into foods. Glass containers rather than plastic should be used in microwaves *35
36. Insomnia is one factor.
37. The dangers of BPA, bisphenol.
According to the FDA, 17% of the American diet comes out of cans, and many of those have an epoxy liner made with Bisphenol A, a chemical which can mimic human estrogen and which is linked to breast cancer and early puberty in women. While the leaching of BPA from Nalgene water bottles and other polycarbonate bottles is a concern, the danger from canned food may be greater.

ALCOHOL

38. Even a small amount of alcohol destroys brain cells. A few drinks can cause slurred speech, falls. Alcoholism causes delirium tremens.

ALUMINUM AND OTHER METALS DESTROY BRAIN CELLS
39.
a. Aluminum compounds in baking powder and as an additive in some flours. Some of these are sodium aluminium sulfate, sodium aluminum phosphate, and sodium acid pyrophosphate.
b. Aluminum in cookware
c. Aluminum in aluminum foil often used in baking.
d. Aluminum in chemtrails
e. Aluminum in deodorants
f. Workers making the new compact florescent lightbulbs (CFL's) as well as many other workers are exposed to heavy metals, mercury, radiation.

WATER POLLUTION
40
Pollution of the environment with poisonous chemicals, hormones, oil spills etc. affects the body in a variety of ways.

Human waste dumped into the ocean from some cities around the world, heavy metals, insecticides, fertilizers, factory farm effluents, thousands of kinds of chemicals, petroleum spills etc.

AIR POLLUTION

41
The aforementioned aluminum chemtrails, car gas emissions, factory pollutants
SOIL POLLUTION

42
Radiation, insecticides, fertilizers etc.

Despite what fish corporations' puppets say, fish is not brain food. It's brain destroying food.

Elimination of meat, fish, dairy, alcohol, aluminum sources can gradually heal the brain. Again, Vitamin C is excellent for speeding the flow of nerve signals across brain synapses.

Nearly every military in the world harms animals. All wars are wars on animals, birds and fishes as well as forests.

Trillions of Animals Died in World War I and II
Countless trillions of animals died in World War II of atom bomb testing, of bombing, starvation, abandonment. Animals were bulldozed by tanks, shot by machine guns. Zoos were intentionally bombed. Family dairy cows were rounded up, butchered, and eaten. Animals were victims of torture in military labs. 20 million horses died in World War I. They were the devoured, the blinded, the maimed, the dis-armed, the trampled, the lamed. They died freezing, blown apart, drowned, unfamed, these helpless victims, silent and unnamed.

It is likely that military in other countries harm animals. Do citizens of the US have a duty first to end cruelty at home?

BOMBS WHICH BURN
1 People animals birds are killed burned blown apart by bombs, rockets, missiles.
LAND MINES
2 People animals birds are blown apart by mines of war profiteers both when forced into service as dolphin or dog minesniffers or as unsuspecting victims of mines... A rhino whose legs were turned to jelly by a landmine in Africa was one of billions of animal, bird and other victims of landmines. Children think the land mines are toys and blow off their hands picking them up.
USE OF ANIMALS AS WEAPONS CARRIERS
3 The US regime under Reagan pretrained mules as Afghan ammunitions carriers. The mules were blown up not only by accidents on the trails but by combatants.
4 The US Navy has electroshocked porpoises and turned them into weapons.
carriers. (See Day of the Dolphin by former navy researcher Lilly)

**BOMBING OF OIL REFINERIES**

5 Whales, dolphins, fishes, turtles, sea birds are killed in oil spills from bombing power plants. 15,000 tons of oil have been dumped into the Mediterranean by the Israeli bombing of a Lebanese power plant.

**ZOOS BULLDOZED AND BOMBED**

6 Animals are bulldozed (killed or backs broken) in zoos in wartorn areas.*

**ENTOMBED BY BOMBS**

7. Bears and other animals are sealed into Afghan caves by bombs

**WHALES DOLPHINS KILLED BY SONAR OF NAVY SHIPS**

8 Naval warships' sonar kills whales.

**DEVORED**

9 Animals are seized, slaughtered and eaten by armies.

10 Animals disoriented by bombs run away from their homes.

**REFUGEE AND SOLDIER ABANDONMENT**

11a Animals are abandoned in the US by refugees and by soldiers ordered overseas.

11b Dogs taken overseas by the USAF, those which survived the bombs, the landmines, the bullets, were often left behind...

in Vietnam, Iraq etc.

**QUOTE**

Propaganda by the US Air Force on the use of dogs and other animals in the Iraq and many other wars.

**INSTITUTIONAL SHUT DOORS**

12 Animals are not allowed in to all refugee camps. The US Red Cross after a worldwide outcry re its gunbacked separation of people from animals has begun to change its rules on this.

**ANIMAL HABITAT DESTROYED**

13 Animal habitat (trees, orchards, vines, plants, watersheds) are destroyed by daisy cutter, bunker buster and other bombs, cruise missiles etc. Tanks crush sapling trees and add to the desertification of the planet. They create erosion ruts and cause mudslindes in areas with rain.

**DEPLETED URANIUM**
14 Depleted uranium is giving animals as well as people cancer, 81 times the average in Baghdad.

BOMBING OF REFUGEES
15 Animals as well as people have died as supply convoys were foiled by bombed roads and bridges, and as convoys have been fired upon. In the Highway of Death bombing directed by G H W Bush, 250,000 white flagged surrendering soldiers as well as refugees with donkeys, cats, dogs, goats, cows, chickens etc. were carpet bombed and bulldozed into graves.

UNABLE TO ESCAPE PENS, CAGES, ROPES
16. Some abandoned animals are left tied up without war and are dying of thirst and or heat or cold

UNCONSCIOUS DRIVERS
17. Motorists racing to get out of bombing areas are mowing down goats, cats, dogs, chickens, sheep on the roads.

PROPELLER AND TANK DEATHS OF BIRDS, MARINE MAMMALS, FISHES
18. Naval warships carve up marine mammals in their propellers as jetfighters carve up birds in their propellers.

Tanks have crushed untold trillions of small mammals, ground nesting birds, frogs, snakes, ants in anthills, and countless other species.

ALCOHOL RELEASED ABUSE
19. American soldiers drinking have shot tigers and lions in the Baghdad Zoo.

CHECKPOINT VIOLENCE
20. Donkeys and dogs have been shot at Israeli govt checkpoints

NASA VIOLENCE
21a. Currently Samuel Aronson of Brookhaven is irradiating squirrel monkeys in NASA's latest military research.

21b

NASA's military missions have involved secreting animals aboard. This is unpublicized. Many secreted animals were with the astronauts blown apart by Lockheed and other Bonapartes

21c

NASA against public will announces it intends to irradiate captive primates in its war to militarize space

[B]MILITARY RESEARCH[/B]

22 Animals die in military weapons research labs. Primates have been irradiated at Barnes Air Force Base in Texas.
23 They have been put in restraining chairs for months at a time in astronaut studies at Bethesda Naval and elsewhere.
24 Animals die in military contract 'vaccine' research.
25 When PETA was successful in cancelling the US Dept of Defense use of living dogs as target practice for the (unnecessary) training of surgeons, the DOD simply substituted goats, making them truly scapegoats.
26 Chemical and biological weapons from weaponized anthrax to nerve gases have been developed on captive animals for many decades. Recently biological weapons developed by George Merck of the Merck pharmaceutical company were destroyed after 45 or more years in storage.
27 In weaponized anthrax development by the CIA and Ft Detrick, 4000 primates were destroyed in just 1 experiment before captive primates and 1 billion dollars was given to Battelle of Tennessee. The books of Leonard Horowitz document the abuse.

Eric Levinson was appointed by George Bush to oversee plans for Saddam Hussein's illegal execution. He is now running for North Carolina's Supreme Court in a state which has not in years had executions.

Eric Levinson, appointed by the Bush administration to oversee judicial proceedings in Iraq, was one of the Americans illegally planning the execution of a foreign leader, Saddam Hussein, in an illegitimate war. Levinson has spent a great deal of money in ads. (Michael Scharf of Case Western Reserve was also part of the team which brought a new level of corruption to international law by arguing for execution.) The Nuremberg trials were also illegal executions. Over 3/4 of the world's countries have in practice or law repudiated judicial or governmental murder of prisoners. The US government gave Saddam Hussein mustard gas and untold billions in other weapons to fight Iran, before G H W Bush incited Hussein to action by slantdrilling from Kuwait into Iraq oil reserves. Later Bush told Hussein through April Glaspie of the State Dept. that the US would not intervene if Iraq wanted to regain the territory known as Kuwait, which had been carved out of Iraq's richest oil deposits at the end of the Ottoman Empire with an Anglo Iranian (now BP) oil engineer's drawings establishing the new boundaries.

North Carolina has not been an execution state in many years.

Of the 50 states in the US, only 9 are still committing prosecutorial, judicial and gubernatorial murder. All 9 have Republican governors. Only 1 Northern governor, John Kasich of Ohio, is killing prisoners.

There are 7 judicial races for the high courts in NC. Democrat candidates are Lucy Inman, Mark Davis, Sam Ervin, Cheri Beasley and Robin Hudson.

Zz Apartment Buildings Of India

This writer had great resistance to the first vegetarian I met. I rationalized that he was arrogant. But in time his compassion and intellect won me over.

For many years now, there has been a growing movement in Indian apartment buildings to accept only vegetarians.

Why? Some of many reasons:

Many states in India have banned cow flesh. Indeed even the world's biggest cowflesh monger, McDonald's, serves none in India.

The smell of cooking flesh is offensive to those who don't kill animals.

Nonvegetarians cause more grease fires.

Nonvegetarians have more communicable diseases.

The smell of cooking flesh is actually a group of molecules which can enter the nostrils of nonvegetarians.

A Deadly Pig Virus Has Killed As Many As 6 Million Pigs In the US, Canada And Mexico

Factory farm conditions of filth are one of the factors in the development of this deadly virus which has killed millions of piglets in Canada, Mexico and the US. 27 states at present are affected, with the most in Iowa, Minnesota, North Carolina and Illinois. Major media have not until now carried the story. ABC Disney and Breitbart are blaming China for a pig virus while the world's biggest pig producer is Smithfield of Virginia, with slaughterhouses and factory farms in Virginia, North Carolina, Mexico, the UK, Romania and Poland, with huge lagoons full of pig waste, dumping of toxic waste into rivers and the Chesapeake Bay causing brain infections and pfiesteria. ABC Disney is also falsifying the report of 'epidemic porcine diarrhea' by saying it does not spread to humans who eat the flesh of pigs.

As many as 6 million piglets have died, bringing the number of pigs captive in concentration camps in the US to 63 million, while China kills 450 million of these mammals annually.

Rabobank (not 'rob a bank') says there will be a 7% decline in the number of pigs raised for slaughter this year.

It is because of known hazards of pig flesh through the centuries that Moslems and Jews, Buddhists and Hindus, as well as some Christian denominations avoid pig flesh.

Some of hundreds of other diseases of pig flesh (zoonotic diseases) include:

- trichinosis from trichinella worms
- porcine spongiform encephalopathy or Mad Pig Disease
- heart attacks, strokes, aneurisms and embolisms from pig fat
- homocysteine from the amino acids in pig flesh... chief cause of Alzheimer's
- ecoli or colon bacteria from pig cadavers
- intestinal and other cancers
- arthritis and plaque from the uric acid or trioxypurine in pig flesh
'It takes about six months for a hog to reach market weight' writes ABC reminiscent of the witch checking on Hansel and Gretel's weights as she cages them for murder.

Meanwhile billionaires from Thiel to Bill Gates and Sergey Brin are investing in vegetarian alternatives to meat and Moslems have won a lawsuit which resulted in pig flesh elimination from Ohio prisons.

Zz Bomb Abroad. Spank At Home

Corporal punishment, the beating or striking of children with hand, belt, switch, hairbrush or other, is now banned in 39 countries. Such violence drives a child’s anger underground, makes him or her distrust and fear parents, creates depression. It has in some cases caused death or permanent injury. Arson by juveniles is one effect of the hiding of their anger at being violated.

Fundamentalist Christians quoting 'spare the rod, spoil the child' are at odds with the limitless compassion of Jesus who said 'suffer the children to come unto me'.

Shelby Capacio writes:

'Currently,19 states allow teachers to 'paddle' ding to data gathered by the U.S. Department of Education's Office for Civil Rights, an estimated 223,190 students were subjected to what is known as 'paddling' during the 2005-2006 school year. Typically, that involves using a wooden paddle that is often 15 inches long to strike a student three or more times on the buttocks or upper thighs. In some cases, shaved down baseball bats, hands, or rulers that are taped together are used.

Data shows black students, disabled children struck more frequently. A study conducted in 2009 by the American Civil Liberties Union and Human Rights Watch found a disproportionate number of the students who were struck by educators were disabled, accounting for 18.8 percent of the total incidents during the 2006-2007 school year. The estimates also show that black students received a disproportionate amount of corporal punishment as well - 35.67 percent - even though they made up only 17.13 percent of the student body.'

Corporal punishment can also be a form of sexual abuse which excites the abusive teacher or parent.

'Bomb Abroad Spank At Home' was a phrase repeated by Tom Ashbrook of On Point in an hour's discussion of the corporal punishment of children.

A 'study' in the UK claims that 37% of vegetarians and vegans eat meat when drunk. It was conducted by , a website promoting animal flesh restaurants.

The study was ballyhooed in the US on NBC's Today Show, in USA Today etc.

The founders of the Salvation Army, General and Mrs Booth and their son General Bramwell Booth were vegetarians who believed as did vegetarians John Wesley of the Methodists, the Seventh Day Adventists, the Franciscans and others that Jesus ate no mammals nor birds. They had great success treating alcoholics with vegetarian diet. Vegetarians and vegans have much lower rates of alcohol abuse than nonvegetarians. Animal flesh is very yang and craves yin alcohol. In India which has 450 million vegetarians and 700 million who eat no cow flesh, the rate of alcoholism is lower than in other countries.

American tv networks have made tens of billions of dollars in ad dollars from meat, dairy, fast food and other distributors of toxic animal flesh and products.

Zz Causes Of Heart Attacks

More men’s mortal heart attacks manifest on Monday morning as going to jobs they hate they leave their families mourning.

Finding work one loves is one way to prevent heart attacks.

There are many causes of heart attacks. Some are

1. Byproducts of animal protein metabolism line the arteries blocking blood flow.
2. Animal fat also clogs the arteries.
3. A study on the time of heart attacks revealed that more men die on Monday morning going to jobs they hate.
4. Insomnia can trigger heart attacks... That is the conclusion of a 14 year study on 657 men aged 25 to 64. (Insomnia can also trigger psychotic episodes.)
5. Coffee, tea and other caffeine containing drinks elevate heart beats per minute.
6. Smoking
7. Other forms of stress such as loss of a loved one, a breakup of a romance, losing a job also increase blood pressure and release adrenaline.
8. Many medications can cause heart attacks.
   a. Viagra and Cialis in increasing the pressure through blocked arteries cause in effect pipebursts.
   b. Heartburn pills for excess stomach acid are linked to heart attacks.
   c. Ibuprofen and other non-steroidal anti-inflammatory drugs
   d. Antipsychotic drugs, e.g. Zyprexa, Risperdal and Seroque, can cause heart attacks
   e. medications containing caffeine
9. Excess weight

Zz Cigarette Toxins Make A Smoking Gun

Smoking is the number 1 cause of home fire deaths in the US

Insecticides used on tobacco plants harm living beings and poison river waters.

Smoking adds to health costs all over the world.

Smoking takes an average 10 years off of a longterm smoker's life.

Some chemicals in cigarette smoke

- Acetone - found in nail polish remover
- Acetic Acid - an ingredient in hair dye
- Acrolein - used as a chemical weapon in WW1
- Ammonia - a common household cleaner
- Arsenic - used in rat poison
- Benzene - found in rubber cement
- 1,3 Butadiene
- Butane - used in lighter fluid
- Cadmium - active component in battery acid
- Carbon Monoxide - released in car exhaust fumes
- Chromium
- Formaldehyde - embalming fluid
- Hexamine - found in barbecue lighter fluid
- Hydrogen Cyanide - industrial insecticide
- Lead - used in batteries
- Naphthalene - an ingredient in moth balls
- Methanol - a main component in rocket fuel
- Nicotine - used as insecticide
- Nitrogen oxides - a component of smog
- Polonium 210 - radioactive
- Polycyclic aromatic hydrocarbons
- Polyvinyl acetate... one of the toxic fire suppression chemicals the government has not tested
- Tar - material for paving roads
- Tobacco specific nitrosamines
- Toluene - used to manufacture paint

NBC

' Kentucky has the most smokers — more than 28 percent of the population smokes there, compared to just 11 percent in Utah, which has the lowest rates'

While the CDC ignores mentioning the hazards in meat and fish and downplays alcohol,

it has some good facts about smoking.

An estimated 42.1 million people, or 18.1% of all adults (aged 18 years or older), in the United States smoke cigarettes. 1 Cigarette smoking is more common among men (20.5%) than women (15.8%). 1
Tobacco use leads to disease and disability.

Smoking causes cancer, heart disease, stroke, lung diseases (including emphysema, bronchitis, and chronic airway obstruction), and diabetes. For every person who dies from a smoking-related disease, about 30 more people suffer with at least one serious illness from smoking. More than 16 million Americans suffer from a disease caused by smoking.

Tobacco use is a leading preventable cause of death.

Worldwide, tobacco use causes more than 5 million deaths per year, and current trends show that tobacco use will cause more than 8 million deaths annually by 2030. Cigarette smoking is responsible for more than 480,000 deaths per year in the United States, including an estimated 41,000 deaths resulting from secondhand smoke exposure. This is about one in five deaths annually, or 1,300 deaths every day.

On average, smokers die 10 years earlier than nonsmokers.

If smoking persists at the current rate among youth in this country, 5.6 million of today's Americans younger than 18 years of age are projected to die prematurely from a smoking-related illness. This represents about one in every 13 Americans aged 17 years or younger who are alive today.

*************

It is not true that tobacco is the leading cause of preventable death. Meat far surpasses

The 7,000+ Chemicals in Cigarette Smoke

When you light a cigarette, you unleash more than 7,000 chemicals also
found in paint thinners, pesticides and even chemical of the chemicals in cigarette smoke have the potential to do serious harm to your body.

Many of the dangerous chemicals in cigarette smoke—like carbon monoxide, for example—are formed as the cigarette burns.

Chemicals in the soil and fertilizer used around a plant can add heavy metals like cadmium, lead and other toxins to toxins pass from the soil to the plant and straight into your body when you smoke.

Dangerous chemicals can also be formed when tobacco leaves are cured, processed and stored, or introduced when cigarettes are manufactured.

Even cigarettes marketed as 'natural' or 'additive-free' are not a safer option. Why? Because not all of the chemicals are added by tobacco companies—many, such as highly addictive nicotine, are found within the plant itself or form as the cigarette burns.

The Seventh Day Adventists have

to end smoking. Nicotine gum, nicotine patches

There has been a war between sugar and corn centimillionaires in the last few years. Because of disinformation in the anti-fructose campaign, Pepsi has gone back to sugar from corn based fructose.

1. Marian Burros, food editor of the NY Times, wrote that sugar requires pancreatic action whereas fructose does not. Sugar causes diabetes.
2. Corn syrup comes from a fruit (ears of corn). Sugar requires the killing of a plant.
3. Corn products have a much higher yield per acre than sugar.
4. It is a practice in many countries to burn sugar cane fields, a practice which results in the burning alive of all the small mammals, birds, reptiles, butterflies and other winged insects living in those fields.
5. Unlike sugar which burns up immediately in the body as sucrose, causing wild energy swings, accelerated heart rate, more frequent urination etc., fruit sugar has polysaccharides, disaccharides, and monosaccharides so that there is an even gradual time release of energy.
6. Sugar has a greater impact in rotting teeth than fructose.
7. Fructose is actually sweeter than sugar.
8. Human beings kill untold zillions of bees in stealing honey from them. Some hive owners kill the whole hive each year rather than feed them the fruits of their own labor each winter. Bees are crushed as hiveowners move racks in and out. The wings of the queen bee are often clipped so that she cannot locate the hive where she wishes. Bayer and other insecticides companies have been responsible for the decimation of bees.
9. Linus Pauling, winner of 2 Nobel Prizes, one in biochemistry and one for peace, established an institute for the study of orthomolecules. An orthomolecule or ideal molecule he said.... is fruit, which speeds up the transmission of data across nerve synapses. Many neurotransmitters are very similar in molecular structure to fruit orthomolecules. It is best to have sweets naturally in whole fruits such as dates, figs, peaches, mangos etc. It is best to derive sugar from tree crops, not machine harvester plant crops. But sugar is more harmful than any other natural sweetener.

Please ask cola companies to take the carcinogenic caramel color, the brain lesion causing aspartame (NutraSweet) which was first developed as an antkiller, and sugar out of your products.
Zz Connecticut: Retain Governor Malloy

In Connecticut, the incumbent governor Dan Malloy is running against a Bush fundraiser, unionbuster, and factory closer Tom Foley. who lost in the last contest with Malloy. Foley had raised over $100,000 for G W Bush and was cochair of the Bush campaign in Connecticut.

Foley has a 5 million dollar yacht, Perhaps some of the profits came from unionbusting and closing factories. Foley opposes incentives to keep businesses in Connecticut but approves of tax breaks for millionaires. He engineered a textile manufacturer company in Georgia into bankruptcy in 1996, taking the profits while workers got the shaft.

Foley went to a private academy with Jeb Bush and is expected to support the candidacy of Jeb Bush, whose criminal activities in Florida suppressing the vote as well as did the 5 Republicans on the Supreme Court, stole the vote of the American people, more of whom voted for Gore than Bush, both in the country and in Florida.

The site below has some details of Foley's business dealings. He is a private equity fund manager.

Zz Control Freak Caregivers

What is it about being around a powerless person which brings out the sadist in the caregiver?

Senior citizens misfortunate enough to lose control of their own lives find their freedom and power curtailed in many ways.

Many times

They are put under draconian guardianships and lose their power of attorney

Their freedom to come and go is removed

Their animals are placed or destroyed

Their possessions and money are stolen, removed.

Some are even institutionalized

In nursing homes, according to a recent AARP and many other studies, they are forced to take antipsychotic drugs

Both at home and in institutions, they can lose the power to watch or listen to their own choice of program.

They are often physically abused.

Their pain medications are stolen.

Their times of sleeping and waking are forced on them.

They can't eat what they choose to eat.

They seem to attract control freaks.

It's time for a proportional Senate, elections of federal judges, and an end to country music glamorizing of the massacres of 'cowboys'.

A few years ago, British Petroleum was pressuring for the hunting of mustangs by helicopter, the octopus oil company maintaining that 'its' pipeline (transporting American oil for which it paid absurdly low prices) was interfered with.

Zz Cows On Fire In Washington. Usda Won'T Let Montana Use Firefighting Helicopters

The biggest fire in Washington history, one of nearly 70 burning in Western states, has burned an area bigger than Rhode Island. States ask for volunteers. Inaction and lack of prioritization by the federal government has made this the worst fire season ever

Cows burn alive and in agony expire as USDA bans Montana planes from fighting forest fires. In Washington, Montana and elsewhere people and animals are dead because of obstruction and inaction by the feds. God have mercy.

The State of Washington asks for volunteers to prevent more deaths to people cows and deer.

The USDA would rather let people, animals, birds, trees, homes burn alive than let Montana use its planes over national forest in Montana.

In Washington an area larger than Rhode Island has been burned.

Causing fires overseas with bombs is more a priority for this administration than stopping them at home. Some estimate that Washington fires will continue til November 1st! . An official with the state of Washington said cattle were burning alive in the fields. In some cases, states' planes have been requisitioned by the feds for overseas wars rather than extinguishing flames at home.

Last year was Washington's biggest fire ever, until this year's fires broke all previous records.

Zz Cups Of Toxic Brew

One cup of coffee.. the jumpstart of hundreds of millions.. I've had you every day.. for 45 years..you have made me bitter, angry, impatient, in or not in traffic
This cup full of heavy metals.... has caused ulcer generating acid in my stomach...and has drained calcium from my bones, unnaturally stimulated my heartbeat... eroded my optic nerves...and reduced my sight. In my case it generated a placental abruption and loss of my infant son.
Your dioxypurines* are addictive and crystallize around my joints jabbing me with pain making me rigid, inflexible.. both in mind and body, causing obstacles to concentration after the initial high. The alternative decaffeination chemicals are also toxic (unless they are saltwater decaffeinated).
I have not always bought organic coffee... and the insecticides in each cup make a poison brew. The caffein is a diuretic.. stimulating frequent trips to the bathroom. Coffee is also a factor in bladder and pancreatic cancer. Its interference with peaceful energy flow is a factor in diabetes.

Coffee handed out in styrofoam cups interacts with heat to create cancer-causing styrene which mixes with the coffee.

Your bright berries grow in the high mountain sun..I love you, coffee trees but may I switch to blackberry and blueberry and elderberry teas...not teas steeped in the leaves untimely ripped from their mother trees..leaves whose tannic acid contains caffein and causes ulcers but teas from berries.. given freely by the bush and vine.

Countries with the highest meat consumption such as Australia, Canada, the US, Argentina, etc. have the highest rates of intestinal cancer, while those with the highest fish consumption such as Japan have the highest rates of stomach cancer. Leukemia can come from eating chickens whose leukemia is deceptively called leukosis. Cancer tumors the size of grapefruits can be cut out of a just murdered cow... and the rest of the cadaver approved for human consumption. The USDA under Ronald Reagan doubled the speed of the conveyor belts which pass inspectors, and recently the USDA has made inspection even more difficult. Countless carcinogens are added to foods. The sodium nitrate red dye used to hide the gray, brown and green of old meat combines with animal proteins in the stomach to form carcinogenic nitrosamines. Methylcholanthrene and malonaldehyde are carcinogens formed when animal flesh is heated to above 300 degrees, while cooking at low temperatures has many other problems including ecoli or colon bacteria. Dr Samuel Epstein testified at a Ralph Nader organized committee hearing about the lethality of charcoal broiling because of the carcinogenic benzopyrene created.

Supervised fasting, uncooked vegan food, massive doses of vitamin C (the bouncer of toxins) Phytochemicals and antioxidants in fruits and to a lesser extent in vegetables are natural cancer fighters. Cancer is often caused by enzyme depletion of the body. Cooking food destroys vitamin C and many enzymes. A number of vegan raw food healing clinics are available around the world, in contrast to the cancercausing food served in many hospitals. The female hormones given to captive animals so that they will gain water weight before being killed cause prostate, ovarian, cervical, breast and uterine cancers.

SURGERY

When cancer cells are encapsulated by cell walls in one area of the body, surgical knives often destroy those walls and send the lethal cells throughout the body.

Surgical errors often kill. The surgeon may
be inebriated, exhausted, incompetent etc. He or she may need some quick cash from unnecessary surgery. The US has several times the cancer surgery rate of other countries.

Anesthesia errors often kill.

Uncontrolled bleeding can result in death.

Reactions to drugs can be lethal.

Damage to other organs or nearby tissue can result.

Blood transfusion mistakes can spread disease.

RADIATION

Radiation is a carcinogen in and of itself. Radiation has turned internal organs into black goo.

Some of the numberless lethal side effects of radiation include difficulty swallowing, bladder irritation, impotence, problems breathing, frequent urination, Hair loss sometimes permanent, skin irritation, exhaustion, taste dysfunction, dry mouth, thickened saliva, difficulty swallowing, sore throat, earaches, sore jaw, cough, nausea, vomiting, diarrhea, bladder irritation

CHEMOTHERAPHY

Chemotherapy for cancer or Hodgkins Disease can turn a heart muscle into stone, can cause immediate lifeending heart attacks, weakening of the heart muscle, or arrhythmias, can numb the extremities (peripheral neuropathy) can cause dementia. Anthracycline drugs are among the worst offenders in generation of heart attacks and other heart problems.
Daniel S Loeb is a billionaire hedge fund founder who practices ashtanga yoga. It helps, he says, to still the mind and to make better decisions in ones field of work. Among other disciplines, ashtanga yoga teaches the control of breath. Loeb quoted the Patanjali sutra 'yoga chitta vritti nirodha' which he translated as 'yoga quiets the fluctuations of the mind'. He has contributed foundation money for yoga classes in public and charter schools. One of his ethical principles, he recounted, was 'first do no harm' (in Sanskrit ahimsa or nonviolence). In his first month in India studying ashtanga yoga, he developed a lifetime passion for spirituality, contemplation and meditation. He worked with others to bring the Dalai Lama to a forum on economic systems in relation to spirituality. The gentle voiced and kind-eyed man has a magnetic attitude about yoga, saying that if one practices ashtanga yoga daily, it will give all, and that if someone does something right often enough, he or she will win.

Along with his unusual mental energy perhaps increased by his yoga and breath control, he maintains physical fitness as a selfdescribed 'health nut', through marathons, skiing, biking and surfing. He encourages his employees to become physically fit. He has eliminated cafffein and avoids buying water in plastic bottles which create carcinogens. He has often at 5: 30 am done a yoga posture involving hooking his ankles behind his neck. He seems to wed a genius for investing with a psychic power of precognition and the hard work of research analysis, while others are increasingly using astrology as an analytical tool in buying and selling.

Many yoga teachers recommend vegan, vegetarian or fruitarian diet. In each butchered mammal, bird, or fish is uric acid, the preurine present in muscle cells when life stopped. Uric acid, trioxypurine, gathers in needle formation around the joints causing the pain of arthritis and creating rigidity. Rigidity is the foe of yoga, the creator of flexibility. Vertical or horizontal lines in the brow are an indication of uric acid. In each piece of meat or fish is also animal fat, cholesterol, which clogs the arteries, blocking the circulation necessary for yoga. In each bit of dead flesh is adrenal residue. When animals, birds and fishes are fighting for their lives during slaughter, they secrete massive amounts of adrenalin in terror and agony. Although some of the links of adrenaline hormone are broken in cooking, enough remain intact that eating the flesh is a form of eating biochemical anger, counterproductive to the peace yoga brings. These are only 3 of the hundreds of toxins in meat and fish. Partaking of the flesh of murdered animals is bad karma, a spiritual debt.
Millions believe in reincarnation as is taught in many religions, that one life as a human is not time enough to pass all our tests. Loeb's chart indicates he has passed many tests in previous lives. In his natal chart he has a close conjunction of the sun, mercury, venus and mars in sagittarius, the sign of focus, truth (sometimes unusual frankness) , sports, freedom, laughter, travel. In addition he has a conjunction of pluto and uranus in virgo, jupiter and saturn in capricorn and aquarius. His progressed chart (February 1962) and the charts of fellow souls who natally or in progressed charts are 1962 aquarians, were discussed by the famed astrologer Sydney Omarr. There are SEVEN aspects (6 planets and a node) in aquarius in that chart. Aquarius is the sign of Robin Hood, who takes back stolen wealth from kings and gives it to the poor. Aquarians take authority from themselves, and not from any level of earthly authority pyramid. They generally have a friendly affection for all, with a special defense of the underdog, the rejected, the eccentric. When the US was born in 1776, the country's moon was in aquarius. (US movie audiences prefer successful bank robbers to those caught by the police, one indication of an aquarian moon.) Loeb has attracted much more media attention than most hedge fund managers. His many aquarian planets surround the US moon. Loeb has astronomical aspects in all 4 signs mentioned in Daniel and Revelation. These are the scorpio eagle, the leo lion, the taurus ox and the aquarian human or angel. This is called the fixed cross and rotates with dynamic power when one lets go. Loeb has been known in the past for his frank and analytical letters criticizing corporate leaders, perhaps a function of pluto and uranus in virgo.

Loeb raises money for the ocean protection group the Surfrider Foundation. He and his wife raise consciousness about women's rights with their feminist art collection and will, he said, be expanding their philanthropic work. His employees include people of several faiths, Hinduism and Islam as well. Loeb's bookshelves include Isaac Bashevis Singer, the Nobel laureate vegetarian who criticized Vladimir Nabokov for impaling butterflies.

He continues both parents' work in civil rights and works for the rights of minorities. He has hosted holiday parties in Harlem rather than at one of the expensive Manhattan options.

This writer thinks of another wealthy man, Isaac Tigrett, founder of the Hard Rock Cafes, who went at least 15 times over a 15 yearperiod to India in order to have an interview with Sri Sathya Sai Baba, believed to be a poornavatar or full avatar by over 100 million people. Tigrett recounted how Baba had saved his life in miraculous ways twice, once by teleporting from India to pull him out of a Porsche plummeting over a cliff, and a second time teleporting to pull his tongue out of his throat and slap him back into his body after he had died of a cocaine...
overdoes. Tigrett broke a record in being the only Westerner to travel so often to the Puttaparthi ashram without having an interview with Baba. During these years, Tigrett was often advised by fellow followers that it would be good to disinvest from the sale of animal flesh and alcohol which are one aspect of the Hard Rock Cafes. After he sold the Hard Rock Cafes, 40 stores for ten million dollars a piece, he was given an interview by Baba. Subsequently, Baba guided him to use much of the money to build a very well equipped entirely free hospital in Bangalore, India, one which has performed 10,000 free heart surgeries annually. Sai Baba has asked his Indian followers legally to ban cow slaughter in India. This has now been accomplished in most Indian states.

The first 2 men publicly to break the 4 minute mile are British vegetarian Roger Bannister and Australian vegetarian John Landy. Those who believe that animals and plants have rights hope that Loeb's Third Point hedge fund will disinvest from any mutual funds invested in fast food, slaughterhouse, fishnet suffocation, and factory farm products, drug companies which inflict pain on animals, lumber companies involved in deforesting the planet, destroying animal habitat and creating global heating, any pricegouging unionbusting corporation.

Albert Einstein wrote in his autobiography that angels gave him the theory of relativity in a dream. Schumann recounted that after a series of painful explosions in his ears he began to hear angelic music, He was not he said a composer but only an amanuensis of the music he'd heard. Elias Howe had a breakthrough in his invention of the sewing machine when he dreamt that American Indians were carrying spears with holes in the metal of the tip. Friedrich August Kekule after working on carbon carbon compounds for 7 years had a vision of a snake biting his own tail. Before that it was not known that benzene and other molecules could have a ring shape. It is astounding to realize that Kekule is similar to Kikeleh, German for little circle’. These 4 tales are an infinitesimal fraction of spiritual and physical discoveries which come not from inflicting suffering on animals but from believing in ones inner connection to God and God's infinite knowledge.

Many agree that capitalism can through the pure energy of money materialize helpful new products through enabling inventions, technological breakthroughs, water projects, adding to the job market. Not all agree that the accumulation of wealth among 1500 or more known and countless secret billionaires is conducive to the dispersal of democratic power. Conflict over capitalism's markets between the Kaiser and the King of England caused WW1. Bankers' desires for reparations after WW1 created the seeds of WW2. Capitalism's wars in Korea cost half a million deaths to one side and millions to the other while in Vietnam the war cost millions of Vietnamese to die or suffer injuries with 58,000 deaths and hundreds
of thousands of injuries to Americans.

John F Kennedy's desire to end the Federal Reserve and bankers' domination of US economic policy were, say many scholars, two of several factors in his assassination. Capitalism has been the drive behind union busting, sweat shops, and what some would call the theft of the fruits of others' labors. It was the socialist governments of Iraq, Syria and Libya and not the petroplutocrat monarchies and sheikdoms which were bombed or invaded in the last few years by capitalist powers. Even Agatha Christie wrote of the way Anglo Iranian Oil's engineer carved out the richest oil deposit area of Iraq and called it Kuwait, followed by the British empire's installation of a a puppet sheik on the throne. Should allegedly political democracies kill to prevent economic democracy? No nation in which an unelected Supreme Court can trump the will of 360 million other citizens is a democracy, nor is a Senate in which Wyoming senators have 72 times the power per person of California's. The money of the few decides our elections through vote fraud, a corrupt Supreme Court and a media controlled by the plutocracy.

Dr David Spitz taught that it is fallacious to aver socialism as the opposite of democracy since socialism and capitalism are economic systems while democracy, dictatorship and oligarchy are political systems.

Does capitalism depend on scarcity? An acre of ground can yield 450,000 or more pounds of the fruits of trees, vines, fruitbearing plants. The maximum 'food' yield of an acre of ground devoted to mammal flesh is 1000 pounds, while in semi desert it is 100 pounds an acre. Mixed economies (capitalism and socialism) such as Sweden have more wealth per individual than countries spending trillions on killing wars.

These ahimsa (universal nonviolence) rules for investing are humbly offered.

1. First do no harm (excludes investment in fisheries, slaughterhouses, fast food chains, drug companies doing research on animals, weapons, lumber corporations, mutual funds invested in any or all of these, insecticide makers, etc.)

2. Invest in that which creates good fruit (mass transit, orchards, solar, wind, thermal and other nonviolent energies etc)

3. Companies which satisfy the first 2 conditions which are well managed and create ethical profit.

This writer owes a debt of gratitude to D Loeb. Having had yoga on my to-do list
since the age of 20, ignoring it year after year, I was inspired to do the first steps of ashtanga yoga and received relief from a painful pinched nerve, decreased appetite and more energy.

With all the recent news of National Football League players involved in domestic battering and child abuse, many hope that the yoga which creates peace and health will replace in schools and universities the football correlated to violence and injury.

Bruce Friedrich writing in the Huffington Post speaks of the UN as well as billionaires Bill Gates, Sergei Brin, saying the world has to move away from meat. Billionaire Mort Zuckerman and wealthy Michael Eisner, former CEO of Disney, have publicized their vegan diets.

'Oone area where we're seeing room for hope is with work from the Gates Foundation, Twitter co-founders Biz Stone and Evan Williams, Google co-founder Sergey Brin, and other Silicon Valley entrepreneurs and venture capitalists, who are bringing their skills and vision to the huge global warming problems with animal agriculture.

Just a few weeks ago, the latest report from the United Nations' Food and Agricultural Organization (FAO), 'Tackling Climate Change Through Livestock,' confirmed that more global warming is caused by the meat industry than by all cars, planes, trains, and other forms of transport combined.

Meat clocked in at 14.5 percent of global warming gases globally, to transport's 13 percent.' The growing knowledge of the deliberately hidden incidence of Mad Cow, Mad Pig, and the hundreds of toxins in animal flesh make meat a poor investment.

On Sept 27, 2014, an NPR show mentioned that NPR had taken a bath on its 200 million dollars in McDonald's stock. In September of 2014, in 150 cities there were pickets about the low wages in fast food chains.

Do Vegan Prisoners Have A Right To Nonviolent Food?

NONVIOLENT FOOD: POSITIVE CHANGE

Jails serving higher percentages of vegan food find health care expense and food costs are reduced and that prisoners are more peaceful because of less adrenalin and uric acid in the diet.

The U.S. Court of Appeals for the Seventh Circuit held in a case that 'when a person sincerely holds beliefs dealing with issues of 'ultimate concern' that for her occupy a 'place parallel to that filled by... God in traditionally religious persons, ' those beliefs represent her religion.' Beliefs 'need not be based on... a mainstream faith.' In other words, one need not be affiliated with a particular faith to have a right to a vegan meal. RLUIPA is the Religious Land Use and Institutionalized Persons Act -

Arizona's Maricopa County Jail has eliminated meat from the menu.

The Summit County Jail in Akron Ohio has in the last 3 months had a vegetarian kitchen. Prisoners who want meat may buy it in the vending machines.

Ohio prisons have removed pig flesh from menu after Muslim lawsuit

Florida's Department of Corrections has eliminated mammal flesh from the menu.

Florida is being asked to provide kosher diet upon request. 18 organizations including the ACLU, the National Association of Evangelicals, the American Jewish Committee, the Aleph Institute, the Rabbinical Council of America, and the Hindu American Foundation — have filed amicus briefs asking that Florida give kosher food upon request to inmates.35 states already do.

Professor Richard Schwartz, author of an course in Jewish vegetarianism has said that it is impossible to be kosher if not a vegetarian
since some blood always remains in the smallest arterioles of a butchered animal.

Several thousand health professionals recommending vegan diet are at pcrm dot org

THE MARK OF A DRAGGING FOOT ON THE SANDS OF TIME

Dave McDonald was in jail in California on a dubious drug charge. A vegan who had been vegetarian for 42 years, the 73 year old man was not given vegan mails by the Marin County Jail. He lost 50 pounds. Being a philosophical vegan was not acceptable to jail officials. He had to be affiliated with a particular organized religion.

Federal judge Shira A. Scheindli refused to order officials at Rikers Island Prison in New York to provide vegan meals on command

For some Illinois prisoners, the DC based Weston A Price Foundation, founded by Sally Fallon Morell a foundation which promotes animal flesh and whose funding is questionable, is suing on behalf of some Illinois prisoners. Its objective: more cadaver pieces on the menu. The foundation promotes among other carrion products cod liver oil, which is full of radiation, mercury etc. Dick Gregory: Eating fish oil is like eating the filter out of a car.

Doctors Without Borders Says Us Bombing Of Hospital A War Crime

The war in Afghanistan conducted by the US is immoral, illegal, expensive, harmful to the security of the US. Even were that not so, the bombing of an Afghan hospital of Doctors Without Borders by the Navy is inexcusable. Patients, she said, were burned alive in their beds. She called it a war crime.

A Doctors Without Borders spokesperson spoke on All Things Considered of NPR of the killing of 22 and the wounding of 40 in a hospital in Kunduz Afghanistan by American airstrikes. Large parts of the hospital were destroyed. The spokeswoman said that the hospital had been in existence for 4 years, that it had served 22,000 people in 2015 so far, that reports that 18 'terrorists' were in the building were unfounded, There were no Taliban patients in the building. Even if there had been, they should have been protected by international law. She stated, that the US Government had had the hospital coordinates for several years, that the hospital was clearly marked for airplanes, and that though the hospital had called the USG 15 minutes into the attack, it did not stop for 30 minutes more.

The hospital cannot function because of the mass destruction and has been shut down.

Some postulate that the US military was willing to kill patients, doctors, nurses and other staff in order to assassinate an injured Taliban leader.

Zz Ebola Litany

I

1 US Army refused to promise Germany that ebola samples would not be weaponized

Why would Germany want such a promise? Dr Leonard Horowitz reported that the CIA gave Battelle of Tennessee and Ohio 1 billion dollars to weaponize anthrax.

What is the advantage of weaponized ebola to those who wish to depopulate Africa?

Unlike normal ebola, weaponized ebola can be airborne and can target specific populations.

2 American soldiers sent to Liberia to quarantine Liberians at gunpoint

3 Why have none of the Americans exposed this year to ebola died... while many Africans have?

4 Carl Zimmer, New York Times

'Unlike ebola the influenza virus is truly airborne. And if recent history is any guide, it will kill thousands in the coming months.'

5 Ebola In Context

Perhaps 56 million of the world's 7.2 billion people will die this year. Of that number over half die of diseases caused by animal flesh: heart disease, strokes, embolisms, dozens of kinds of cancers, kidney disease, food poisoning, arthritis, Lou Gehrig's disease, etc. etc.

What are the World Health Organization and Centers For Disease Control doing to
educate the public about the dangers of animal and fish flesh, eggs and dairy? NOTHING

6 The original cause of ebola is the eating of primate meat

Toxic makers of vaccines have been offered immunity several times in the United States. President Gerald Ford pushed immunity for the 'swine flu' vaccine makers in 1976 which had caused hundreds of deaths and thousands of cases of Guillain-Barre syndrome. As four pharmaceutical companies profiteered, the taxpayers were out 135 million dollars. Gerald Ford was made a billionaire for his part in playing along. 40 million Americans were pushed to have vaccinations by the Centers For Disease Control and Ford, despite the fact that swine flu incidents were recorded only at Fort Dix and only for a fortnight in January and February. (Soldiers are also government victims in the case of the drug Lariam, called an antimalarial drug. Under its influence 4 Marines killed their wives. Soldiers on duty in Asia given were Japanese encephalitis shots resulting in many in very high fevers and resultant Parkinsons' Disease.)

Soldiers at US bases were unconstitutionally forced to have the vaccine. Pneumatically driven vaccine guns went down the rows of queued soldiers. Needles in the gun were not changed, and many soldiers contracted hepatitis.

There were 4 drug companies given contracts, one of which was Parke Davis.

Legal immunity from vaccine manufacture was again pushed through the Senate by Republican health care billionaire Senator Frist and also in 2009 by Kathleen Sebelius.

Avian flu, swine flu in 1976, swine flu in 2009, SARS... are they all scams of the international drug company cartels and their pawns in governments? Donald Rumsfeld owned the US distribution rights to Tamiflu, which was ballyhooed as a cure for avian flu.

The Federal Times reported in July of 1976 that Parke Davis had made 2 million doses of a faulty vaccine.

Ernest Johnson broke many records.
No other physician was ever employed by
the Ohio State Medical School as long as he (62 years).

Physicians at his memorial service spoke
of his boundless compassion, his irrepressible
humor, great generosity, infinite zeal, the very short distance between his
visualizing a problem and his working on the solution. He
made each he contacted feel like the most important person in the world.

He was one of the first workers for handicap access
at OSU, one of many areas of patient rights for which he worked.

He counseled his 300 residents never to extinguish
hope in a patient, never to use the phrase 'wheelchair confined'. He referred to wheelchairs as liberators.

He was a tireless and brilliant doctor whose international
renown began when he invented numerous devices
to ease the pain of polio victims

As a member of the admissions board for the OSU medical school
he hoped palmistry would be used as one tool in recognizing
healers.

He had the gift of laying on of the hands, transmitting healing with
his touch.

Later in life he began to
recommend vegetarian diet to some, vegan diet to others.

Thank you God for lending him to us.

Vegetarians Who Did Harm (We have all harmed beings but some have done it on a greater scale.)

Adolph Hitler was a vegetarian, but bombed billions of animals or smashed them with tanks while providing animal cadavers to the German army.

Health vegetarian Thomas Alva Edison publicly electrocuted a prisoner and an elephant, dog, cat to demonstrate his electric chair.

Rene Descartes a vegetarian for health who in vivisecting dogs nailed their paws to tables 3

Apologies for the hundreds of millions of wonderful beings whose names are not on the list.

Zz Federal And State Prison Privatization

The US role as the most imprisoning nation on earth results not only from criminalizing nonviolent actions such as the smoking of marijuana, and mandatory sentencing policies expropriated from the judiciary by the executive under Clinton, but in addition the profit motive in privatized prisons which make more money the more prisoners they have.

The bottom line in privatized prisons is saving money... cheaper less healthy food, shoddier libraries if any, guards it's harder to monitor, guards who are brutal or who rape the prisoners etc. etc.

Wackenhut has changed its name to GEO because of negative publicity (as Blackwater became Xe before it was sold to the Chinese) . Historically it has had connections to the CIA.

Wackenhut now GEO and its connections to the CIA

Zz Fish Can'T Scream. Their Flesh Is Radioactive, Neurotoxic, And Carcinogenic

JBO:

'The beach at Sanibel... an Arlington Cemetery of shells.'
*

Fish cannot scream. Greed for suffocated fish flesh causes seals to be clubbed in Canada, dolphins to be knifed in Japan, whales to be murdered by Norwegian Japanese Icelandic and American Inuit fishermen, bears to be murdered in Alaska.**

What's in fish? unreported Mad Fish Disease, nuclear toxins a million times more concentrated than in sea water, AIDS from unprocessed human waste dumped into the oceans, hepatitis, anaphylactic shock, ecoli, and other food poisoning, throat, stomach and other cancers, mercury and heavy metal sired brain damage,

Are all anglers stranglers? No.. some are smashers.

FISH CAN'T SCREAM, FISH TOXINS, FISH STORIES

Dick Gregory: Eating fish liver oil is like eating the filter out of a car.

A:

I

MERCURY AND OTHER TOXIC METALS HARM BRAIN
In reality the high mercury levels in fish cause memory and mental function loss. 'Symptoms of amnesic shellfish poisoning include possible permanent short-term memory loss.' * The cultures eating the most fish (Inuit) have the lowest life expectancy of any group surviving to adulthood, while the Japanese who eat high amounts of fish have as their number 1 cause of death fish correlated stomach cancer.

Toxins in fish include selenium, chromium, lead, arsenic, pcb's, pbb's, pvc's and every other nonbiodegradable toxin which is 100 to 1000 times more concentrated in the flesh of fish than in the water. (Rachel Carson's The Silent Spring dealt with among other things the massive loss of bird and fish life from DDT. Fish is the antibrain food as fruitarian and vegetarian geniuses DaVinci, Einstein, Ramanujan, Mary Shelley and others can attest. Linus Pauling, only person to win a Nobel Prize both for peace and his discovery of 6 elements, has written that an orthmolecule is a fruit molecule. They are the most similar to the neural transmitters in the brain. There is no vitamin C (speeds flow of nerve signals across synapses) in fish or animal flesh or in animal products.) The EPA issued 3500 warnings against fish consumption in one year alone. Arsenic poisoning (arsenic from the oceans is concentrated in the flesh of fishes) creates lesions and warts on the hands. Arsenic is also a byproduct of gold mining and processing. The coal ash being illegally dumped or put on winter roads as a salt substitute by coal burning utilities has cadmium and other toxins being washed into the watershed. The neurotoxin Corexit dumped into seas after an oil spill to break up the oil concentrates in the fishes.

II

GLOW IN THE DARK BY EATING RADIOACTIVE FISH CONCENTRATING FUKUSHIMA
AND ILLEGAL NUCLEAR WASTE DUMPING AT 1 MILLION TIMES THE LEVEL IN WATER

III
STOMACH CANCER

One national cancer association reports that fish consumption is related to stomach cancer. Those countries with the highest fish consumption having the highest rates. Included are Korea, Japan, Chile, Norway and others. Those countries with the highest meat consumption (Canada, Australia, the US, Chile, Argentina, etc.) have the highest intestinal cancer rates.

IV
FOOD POISONING

Fish flesh can cause food poisoning (ptomaine, brucellosis, toxoplasmosis, salmonella, ecoli). Anaphylactic shock frequently causes death to those who eat shellfish. It is universally known that dead fish stink (as do all cadavers). Choking on fish bones has been common throughout the centuries.

The Texas Dept. of Health stated in one year that 245 people had been victims of illness from oysters in Galveston Bay. The bacterium is Vibrio parahaemolyticus. 208 people have had oyster illness in the Northwest.

V BRAIN DAMAGE

VI
KIDNEY PROBLEMS

The ketosis from high animal protein diets leads not only to bleeding ulcers but to kidney shutdown and blocked urethras.

VII
PISCEAN SPONGIFORM ENCEPHALITIS OR MAD FISH DISEASE

In addition is the emerging truth of piscean spongiform encephalopathy or Mad
Fish Disease as both factory farmed and ocean fish are eating the parts of other animals.

VIII
HEART DISEASE AND ARTHRITIS
The uric acid in fish is trioxypurine, more powerful than caffeine, and is correlated to arthritis as it crystallizes in needle formation around the joints. It also adds to the incidence of heart disease and stroke, stimulating the heart unnaturally.

VIII B ADDICTION
The uric acid or trioxypurine like caffeine or dioxypurine is addictive, and since there are more oxypurines than in coffee, it is more addictive.

'If you miss fish or meat, take out a veggieburger and whiz on it.'

IX
WORMS.
Owen Parrett, MD wrote that even Rocky Mountain trout from the most unpolluted streams have worms while

X HEPATITIS
The coprophagous (human and other waste eating) habits of shellfish are the number 2 (yes) cause of hepatitis.

XI
MOST DANGEROUS OCCUPATION

Commercial fishing causes more fatalities annually than any other occupation, through sudden storm drownings, through problems with pulleys, ropes, nets, sails, through spiking and other injuries from fishes gasping for their breath and fighting for their lives. Noncommercial fishermen have died when lightning turned their metal poles into lightning rods.

XII
CHOKING
Choking on meat or fish is the 6th cause of accidental death in the US. So common has it been to choke on fish bones that the Catholic Church has a feastday dedicated to St. Blaize in which throats are blessed. Fraternity house pranks in the cruel blood sport of goldfish swallowing have resulted in deaths to humans as well as the fish.

XIII
ALLERGIES TO IODINE

A radio network caller, Oct 27, 97: 'My mother never got to see the same military MD twice, so it was years before medical detectives realized that her Saturday headaches were caused by her Friday fisheating with an allergy to iodine.

XIV
FISH DISEASES

NPR November 6, 1997: Dr. James Porter of the Univ. of Athens at Georgia was studying the many new fishes diseases such as black band and white pox. He reported that increased shipping, increased pollution, and overfishing (an oxymoron since all fishing is overfishing) are factors for the rise.

XV
INTESTINAL PROBLEMS

There is no natural bulk in fish. It is naturally constipating.

XVI
PROSTATE UTERINE AND BREAST CANCER FROM FISH

The female hormones correlated to skyrocketing rates of prostate, uterine and breast cancer in the US come from injections or 'medications' given to cows, sheep pigs chickens etc. The urine from these factory farmed animals is dumped into the waterways causing fish to have cancerous growths. If they are eaten by humans before they die they can cause cancer in human beings, just as
a chicken can transmit leukemia (though the multi trillion dollar chicken industry calls leukemia leukosis when they don't manage to hide chicken cancer altogether.)

B:

!

OXYMORONS: FRESH FISH AND OVERFISHING

With asbestos in Lake Michigan, pcb's in the livers of polar bears in Alaska, oyster contamination in the Gulf from the runoff of the Mississippi, lipophilic insecticides in Lake Erie, pfiesteria in the Atlantic seaboard..arsenic, chromium and mercury, pcb's, insecticides, fish killing old oil and every other toxin in the oceans, shellfish in the NE eating unprocessed human waste, where is there fresh fish?
The UN FAO, Prince Philip, and government and private coalitions around the world are working to reduce fishing so as not to wipe out certain species.

II

HUMAN TRAFFICKING: KIDNAPPING AND SLAVERY IN FISHING INDUSTRY WORLDWIDE

III

COMMERCIAL CORRUPTION

There are trillions of gallons of fish oil slop on trawler and processing floors.

Harvard whose corporate funded studies were a factor in Stanley Prusiner's (prion discoverer) leaving for California is also promoting the glut of fish on the market.
States like Maryland which subsidize fishing promotion are violating the first amendment rights of Buddhists, Hindus, vegetarians, vegans, Seventh Day Adventists, Jains, and many other religions which teach not killing. The sale of fish brings 54 million to the state of Maryland, whose governor prevailed on 3 chains in the Washington area to begin again to sell Chesapeake fish despite the pfiesteria disease caused by untold trillions of gallons of pig factory farm sewage being dumped into the Atlantic. One factor of many in the disease of the fish might be the Calvert Cliffs nuclear power plant, which raises the temperature of the water in the area.

III
MARINE MAMMAL MURDER

Seals and whales are killed by Canadians Norwegians and Japanese because they compete for fish. Penguin babies can die because there are no longer enough fish for them to eat.

Dolphins, turtles and other sea creatures are caught in the nets.

Whales are caught in lobster lines.

Manatee and all forenamed creatures are caught in boat propellers.

Those who promote fisheating incur the karma not only of the suffocated fish (problems of breath) but the karma of the seals, whales, dolphins, turtles, octopi and all other sea beings killed by the fishing industry or individuals.

A Hindu ashram not in accord with the Bhagavad Gita's dietary nonviolence was inundated by the perhaps military machine generated tsunami.

IV
FISHES' SENTIENCE
Dr Donald Broom, science adviser to the British government, has said that the pain system in fish is the same as for mammals and humans.

Any child who sees a fish flopping on the deck, or struggling for life on a hook, or impaled in the eye by a flyfisher knows that fishes fill pain.

What's worse than a snakeoil salesman? A pawn of fishmongers.

V: VEGAN CAT FOOD

A vanguard of holistic veterinarians, and James A Peden, author of VEGETARIAN CATS AND DOGS, which is in its third printing, are working to help petowners transition their cats to nonharmful foods, ones which do not cause urethra blockages, feline leukemia, kidney dysfunction or food poisoning. Andrew Knight DVM has written of a litany of toxins in commercial pet food.

MARINE TOXINS

* (Generally, the CDC has been the tool of multinational pharmaceutical drug pushers and has stifled information about the toxic effects of meat, fish, and animal products. However paragraphs from a CDC article from the webpage are informative.)

Picture is of some of the millions of fishes dead in Redondo Beach California

JAMES EARL RITCHEY ON A DOLPHIN DOCUMENTARY:

The average dolphin lifespan were their fins and bodies not maimed by propellers, were they not suffocated in fishing nets or knifed by Japanese fishermen nor poisoned by pollution would be 75 years.

A dolphin photographer as he was scuba diving saw 3 dolphins herd a shark away from him.

The Japanese continue to murder untold tens of thousands of dolphins yearly, with knives and other methods, considering them competitors for fish.

The pollutants of the world have filled the sea with so many pcb's, pbb's, so
much arsenic, chromium, mercury, nuclear waste, etc. that in some cases marine mammal milk has become contaminated.

Unknown author quoted by James Michener in the book Chesapeake

'The fisher also shall mourn and all they that cast angle into the brook shall lament and they that spread nets upon the waters shall languish.'

Zz Food Stamps: Over 50% Spent On Lethal Animal And Fish Flesh Eggs And Dairy

In the US, the Farm Bill passed in January with its cuts in food stamps for the poor. Columbus Public Radio reported in 2013 that 50% of food stamp purchases are used to buy animal and fish flesh and dairy products. These are unhealthy foods which cause all taxpayers to have to support their medical costs from heart attacks, strokes, food poisoning, many kinds of cancer, arthritis, kidney breakdown, etc.

Vegetarians and vegan taxpayers do not want to be forced to subsidize animal murder, human disease, environmental hazards, energy waste, and famine associated with the livestock economy, any more than a Jew or Muslim wants to be taxed for the pig flesh industry or a Hindu for slaughterhouses in general.

Allowing food stamp purchases only for fruits and vegetables such as lentil burgers, lima, green, navy, and other beans, potatoes, rice, barley, peas, pumpkin pies, sesame seeds, nuts, squash, tomatoes, mango, orange, apple and hundreds of other juices, ice creams and milks made from rice, coconut, almonds, cashes, and soy, falafel, tempeh, tofu, thousands of other nonviolent foods will reduce animal agony, human disease, and help reforest the planet. It will allow expansion rather than contraction of the program. By cutting the half of the budget which goes for toxic food, tens of millions can receive more help.

The tens of trillions the US Government has spent on criminal, stupid, violent wars are the reason money for the poor has not been available.

Zz Fruitarian Diet: Healthiest, Highest Yield Per Acre, Most Nonviolent, Most Reforesting

WHAT IS A FRUITARIAN?

Most of us affirm... what we must learn. In that spirit we offer you this article on fruitarian diet. These thoughts are our hearts' aspirations. May they be more and more our constant reality.

Fruit includes nonkilled products of nut and fruit trees, berry bushes, vines and plants.

Health

The healthiest food (see below in C. weight loss...natural food al for ntion of calcium oxylate kidney stones. electrolyte balance. polysaccharides which prevent insulin arian oils like olive oil best for ers ins no volatile sulfur gases {onions do}.most natural prevention of scurvy, beri beri, and ght er of free late enzymes which detoxify carcinogens, immune system nt diet-related diseases such as diabetes, arthritis, and heart disease through high potassium and other factors. no artificial colors, flavors, or MSG. the most efficient B12 {hydroxyl cobalamin not cyanocobalamin}.ulcer prevention with less hydrochloric acid)

Non-Violence

• The only nonviolent food (no killing or theft from animal or plant) No branding, castration, or eartag punching of voiceless innocent animals.
• POTENTIALLY NONVIOLENT HARVESTING The most nonviolent in harvest as well (prevention of harvester-caused deaths to humans and field mammals) (75,000 human accidents and some fatalities yearly.. as well as millions of mammals and other creatures sliced by combines, harvesters) (Gandhi said goats' milk kept him from being a full fruitarian.)
• MOST GENEROUS the only freely given food, from the fruit tree which bequeaths all
No Cost...Free:

• The most free food (freely given and no cost are not the same) (bury peachseeds in your back yard and come back) (May all who wish them have
back yards)
•Saves meat inspector costs, cattle raising tax-supported subsidies etc. etc. Highest Yield:

•Best feeds the hungry.. the food with the highest acreage yield (400,000 lbs. per acre) (spherical 3 dimensional fruit trees produce more than linear two dimensional rows of vegetables.) Dr. Faust, former chief of the USDA fruit labs: Centenarian apple trees can drop 2 tons each of food. (This is further multiplied if fruitbearing vines are planted around tree trunks and fruitbearing plants are placed interarboreally. This is called tri-level agriculture.)
•MOST DIVERSE food yield with millions of varieties of hundreds of thousands of species.

Environmental Reasons

•The only food which can reforest the world (saying yes to tree products)
•In reforesting the earth fruit and nut trees prevent erosion & mudslides and stabilizes temperature extremes And brings rain to desert, dust bowls and drought areas
•And trees along with vines create oxygen
•And purify and filter the air
•And reduce the noise pollution of the planet.
•The most efficiently wrapped (nutshells, banana peels, coconut husks)
•The most decentralized (can be grown wherever are light, water, earth, and air)

•Fruit trees, bushes and vines provide the most fabric for the planet (cotton etc.)

•Fruit trees, bushes and vines provide housing materials (not in the form of wood from the killing of trees but fallen palm fronds etc. used in tropical housing.)
18b: Fruit eliminates the problem of flesh-containing trash which attracts neighborhood cats and dogs.
•In reforesting, fruitarian diet adds greentree privacy screens
•Those who let things be have no time, money, or landfill problem with the raking of fall leaves.
•And re-provides a home for wildlife
•And trees eat carbon dioxide which prevents global warming 22a: Fastest to prepare.. the Goddesigned fast food is fruit.

Energy
Since fruit has the most prolific yield of any food, and since any food can be turned into fuel, fruit (corn is only one of many) is one of the best sources of alternative fuel. (Fox TV Jan 24th: High fiber foods like oats give longer energy flow.)

- The most energy free food in cultivation, harvest, and compost disposal. (Dr. Don Meyer: a lb. of vegetables takes 1/80th the production energy of a lb. of animal flesh) (Fruit foods are in tri level agriculture 450 times as energy efficient as meat)
- Fruitarian soaps leave none or the least bathtub rings while animal soaps (with lard or tallow) leave the most.
- Fruitarian cotton paper lasts 400 years. Libraries are finding that tree paper lasts 60 to 100 years.
- Fruit is the most easily reproduced of all foods. It can be windsired.
- The diet of humankind before we worked by the sweat of our brows
- Because it is the most easily reproduced, and the most diverse, it most easily makes new non-laboratory species.

Beauty

- The most beautiful (stained glass lime.. green pepper belltower where little seedbells hang) (fruits of almost infinite hues.. from most intense to most pastel.. from red passion to violet compassion)
- The food which most preserves the body's beauty (the most vitamin C (none in animal products) (vitamin C firms cellular tissue)
- Fruit is the sweetest food, meat the most bitter.
- The most fragrant.. with petaled fruit blossoms which effortlessly attract bees
- Of all dietary groups, fruitarians on the average weigh the least (Dr. Mervyn Hardinge Harvard study and others) (You can't be too rich or too thin.. say the actuaries about centenarian men.) (The causes of overweight are only tangentially overeating. Some of the root causes are fear of starvation, fear of sexual intimacy, a need for a weight blanket to counter sensitivity, unreleased anger, chewing as a relaxation device.) There have been a number of fruitarian diet books written, such as one on grapefruit, one on grape juice etc. Susan Estrich, former Dukakis presidential campaign manager, currently a law professor at UC, spoke of struggling with hundreds of diet books and overweight for 30 years, says be prepared to walk past vending machines by having apples in your purse or briefcase.

Addiction Breaking

- The uric acid (pre-urine) in the muscle cells of animal flesh is an addictive trioxypurine, even more so than caffeine (dioxypurine) A diet of much fruit replaces addictive biochemicals.
The True Natural AntiDepressant

• The adrenal poisons dumped by animals fighting for their lives in slaughter re-create depression, fright, and anger in those eating the animal flesh. Adrenalin is a long protein enzyme chain whose chain links are only partially broken by cooking heat.

Frees from Alcoholism:

• General Bramwell Booth of the Salvation Army found that vegetarian diet is a natural antidote to the biochemical marriage of meat and alcohol. Current researchers find that as alcohol solvents outside the body cut grease, so do they inside. (May other cities have proportionately as many corner fruit stands and fruit and smoothie vendors as the Big Apple has.)

• Fruits which are uncooked or eaten within 3 hours after cooking do not develop sleep-inducing bacteria (known in ancient over 20,000 year old Sanskrit as tamasic)

Consciousness and Brain Development:

• The food which most supports brain development and consciousness (according to double Nobel Prize winning, nonagenarian neurobiochemist Linus Pauling who discovered six elements in the chemical table) (Fruitarianism is indicated by several anthropologists including Dr. Leakey and Dr. Marvin Katz as humankind's natural diet) (It is the diet of Leonardo da Vinci according to his Notebooks as researched by Dudley Giehl, HarperCollins author) (Mathematicians Einstein, Pythagoras of the theorem and Ramanujan did not eat flesh.)

• The food which most supports mental and emotional peace (since the polysaccharides in fruit provide the most even of all energy flows in the body)

• Chewing apples and coconut relaxes mouth and body muscles.

• The most translucent...(the closest to pure light) (lime crosssection)

• An antidote to the light resistance of lower frequency foods the consumption of which creates a natural aversion to light

• A sleep conquering agent (The Sanskrit word for the sleep-inducing biochemicals in onions, garlic, and standing cooked meat is tamas.)

Empowerment:

• The food which saves the most time (compare 3 hours for a roast to 20 seconds to peel a banana or 3 minutes to cook a fruitarian burger) (Compare the time to scrub a roast pan and all the concomitant dishes to the time required to compost a peel.)

• Because fruit is so prolific, it melts away money, political and outside control systems which depend upon scarcity.

Promotes Meditation:
•As high quality wiring helps channel electricity into a home, fruitarian diet is a ground for Spirit. Specifically lauric acid in coconuts is conducive to a meditative, peaceful state.
•Just as the infra-red to ultraviolet light spectrum increases in frequency from red through orange and yellow to green blue and violet, so in fruits and foods in general. Therefore, limes are better than lemons. Violet grapes are better than crimson cherries.
Promotes Focus:

•John Feinstein NPR Sports spoke of Bill Walton on the Portland Blazers team scoring in 21 of 22 basket attempts. (During that time Mr. Walton was wearing Love Animals Don't Eat Them tshirts at press conferences.)
Best for Economy... in Centenarian Trees Many Fruit Cents become Dollars:

•Money does fall from trees. Look at the $2 avocados. If a centenarian avocado tree drops 2000 avocados that's $4000 per tree, $400,000 oer acre.
•The food most resistant to currency fluctuation (CNN on Jan 18th ran a Swiss Radio International report which finds that businesses which marry ethics and economics do better in the long run.) .
•Fruit is light's expansion. Meat is killing's contraction. Love is expansion. Selfishness is constriction.
•The food best for stable economies..(The drought which can destroy linear rows of plant crops does not kill orchards) (Thank you Jimmy Stewart for ordering tomato juice on the train in your movie.)
Safety:

•Prevention of choking on meat and fish, the 6th highest cause of accidental death.
•The food which causes the least grease and stove fires (Prevention of industrial accidents listed elsewhere) .
Prevention of Sexual Dysfunction:

•Dr. Michael Klaper MD lectures on vegan diet as a help for impotence.. relieving cholesterol pressure in arteries. He states that a 25% blockage of arteries can cause 4 times that much obstruction.
•The least breast and prostate cancer.
•The least gynecomastia (male breast growth from female hormones present in meat and dairy products)
Crime Prevention:

•The food which causes the least incidence of rape (the female hormones given
to cows, pigs, chickens, etc. cause an excitation of the sexual system in those who eat animal products) added to by adrenalin based violence (from the fright hormones secreted by animals before slaughter).

- Cotton fruit can eliminate forest destruction for paper.
- The pectin in apples is a fruit source for candles.
- Fruitarians need less dish soap and therefore less rinsing water.
- Coconut meat is an excellent chew toy for dogs.
- Reduce sulfuric acid. The volatile gas of sulfur in onions, when mixed with the lachrymater of tears.. becomes hydrogen sulfide, sulfuric acid or other sulfur compounds.

World Peace and Justice:

- Over a decade ago, a government research paper indicated the major cause of the crisis in Poland was a lack of meat. Entire populations were addicted to the uric acid (trioxypurine) in meat. Breaking addictions is a factor in world peace.
- General Bramwell Booth of the Salvation Army ended alcoholism for London drinkers through nonmeat diet. (His father General William Booth advocated planting fruit trees along railroad tracks, in parks etc. to create food for the poor.) kept the British Navy from scurvy. So the sailors were called limeys.
- A Czarist navy ship mutinied sparked by meat full of maggots. This led to an overthrow of Czarist anti peasant, anti-worker policies.
- Fruit lasts longer without refrigeration or freezing. Nuts in a shell.. apples in a cellar.. coconuts within the husk.
- More efficient military. The British navy found that limes prevented scurvy. The Odessa mutiny of the Czar's Odessa ship was sparked by sailors refusing to eat maggot infested meat.
- Politically uniting: combines the freedom granting of the poor and the left with the conservative nature of the right.

Self Replicating:

- The only food which can reproduce itself (containing eternal seeds)
- The only self replicating food (Fruitarians who believe in plant sentience would be upset with Nostradamus' suggestion that in a special recipe one needs 300 roses plucked before dawn.)

Oil Source:

- The oil used in eating fruit and cooking with fruit (coconut, olive, corn, nutoils etc.) is also oil which can fuel vehicles and oil machinery.

God Designed:

- Genesis 1: 29 The Garden of Eden Behold I have given you herb-yielding seed. To you it shall be for meat. The Hebrew holiday of Tu B Shvat or the awakening
of the fruit tree sap is one example.

- Buddha: May all that have life be delivered from suffering. If plants are sentient, have feelings, this prayer implies not killing them and not using insect killers, known as insecticides. There are frequent references to fruit in the Quran.
- The Essene Gospel of Peace and the research of many Biblical scholars indicates the pure diet of Jesus. His anger in the temple over money changing animal sacrificing, his cursing of the barren fig tree are some indications.

- In Hinduism, Rama the first embodied avatar, was fruitarian 14 years in the forest. Krishna, the first avatar to descend with all power, was a lacto-fruitarian (eating fruit and dairy at a time when animals were loved and not factory farmed). Mahatma Gandhi tried to become a full fruitarian. Gandhi felt his love of goats' milk a barrier. He planted fruit trees all over his ashram.

A fruitarian eats nothing which has been killed or stolen. That supplants meat, dairy, and plants with the thousands of fruit and nut combinations on the planet.

E.g., a fruitarian can eat an avocado sandwich, a coconut milk shake or the purest coconut ice cream made from the milk and meat of the fruit, veggie burgers made of lentil or bean paste or tofu etc., a succotash of corn, limas, peas, and tomatoes, sweets made with corn syrup or date sugar, or fructose, pecan pies made with fruit sugars, fruitshakes made of a mixture of orange and banana, pear and peach, pomegranate, papaya, and plum. A pizza of tofu, tomato, and pepper (not pepperoni), salads of tomato, cucumber, green and red peppers (but not lettuce, cabbage, or celery), nut butters such as almond butter, tahini (a mixture of sesame seed, lemon juice, and hummus {chickpea paste}), cornbread and muffins.

- The scriptures of several religions and the research of several anthropologists including that of Dr. Marvin Katz and Dr. Leakey, the son of another famous Leakey, indicates our frugivorous origins. Another implication of fruitarian diet is organic food, since insecticides are not used with their carcinogenic and bone and teeth harming results. The book The Holy Science by Sri Yukteswar has a fruitarian chapter which inspired Dennis Weaver 40 odd years ago on the set of Gunsmoke to give up meat.

Industrial Safety- Preventing Industrial Slaughterhouse Accidents:

- A UFCW union steward has said that most worker accidents occur in slaughterhouses. Fruitarian diet prevents the following accidents:
  - Workers are kicked, bitten, and scratched in the head by terrified animals fighting for their lives unsuccessfully.
  - Contract ear problems from the screaming and shrieking of the animals,
  - Have problems with bones in relation to the cold storage rooms.
  - Cuts from the metal machinery, running into computer line knives.
  - Alcoholism and drug use from trying to deal with the animals' suffering they are
constantly absorbing.

- The reduction of OSHA staff and the use of illegal aliens to fill these jobs, some of the most unpopular in the industry, intrinsically means more accidents.
- Electrocution from machinery near liquid secretions.
- In slaughterhouses where pig flesh is scalded, there are frequent burns.
- Open grease pits for blood, grease, feces, urine are traps for tired employees.
- There is ligament tearing in the back, shoulders, and arms from the lifting of 100 lb. or several hundred lb. carcasses.
- Carpal tunnel is a frequent complaint of meat cutters.
- As a 1980’s administration doubled the legal speed of the line, there is a consequent increase in accidents.
- The deregulation of some slaughterhouses has meant less trained personnel.
- In fish slaughter, there are also bites, scratches, hook accidents, fishing line accidents, drownings and other trauma.
- Prevention of contracting the animals' diseases in contact with slaughterhouse fluids (blood, feces, urine, vomit).
- Slip and fracture themselves on blood, urine, vomit and feces soaked floors,
- Lung problems from constant exposure to feather dust (A Japanese movie shown on Bravo is a tale of peach trees cut down as their spirits speak to children.)

Health Continued Weight Green Starch:

- Avocados, lima beans, peas are very filling fruits. The toxin bouncer chlorophyll is necessary. Any uncooked green fruit contains it. Other sources are limes, green peppers, etc.
- Fruit has the most natural fiber for good intestinal function. and therefore fruitarians have the least intestinal cancer, constipation, appendicitis, hemarrhoids, peritonitis etc.
- Fruit, says Marion Burros of the NY Times, requires no insulin for processing of its polysaccharides, disaccharides, and monosaccharides so that fruit does not exhaust the pancreas. It is a natural guard against diabetes. (Fruitarian Dick Gregory ran 3000 miles across the U.S.) Sachs of the Harvard School of Public Health confirms fruits and vegetables are the best.

- Elizabeth Cohen of CNN: A banana has 450 mg of bloodpressure reducing potassium. It is better to get potassium in fruit than in pills.
- The plethora of antacid ads showing pills after burgers underlines the hydrochloric acid required in the stomach to break down animal flesh. Countries with the highest rates of stomach cancer have the highest fish consumption.
- Even citrus fruit becomes alkaline in processing. Fruit is the least acid of all foods and therefore the food which is best for long life.
• Fruit is the best food for the electrolyte balance of body.
• Fruit yields its energy the most gradually as first monosaccharides are burned, then disaccharides, then polysaccharides.
• Fruit causes the least food poisoning of any foods. (Knight Ridder: 97% of all food poisoning fatalities are caused by animal products)
• Fruit prevents calcium oxylate kidney stones associated with the cooking of oxalic acid vegetables and the much more frequent uric acid kidney stones associated with meat.
• Fruitarian oils such as olive are best for the heart. Meat and fish oils are the most complex, hardest to break down, have the most toxins.
• Fruit contains no volatile sulfur compounds which can become sulfuric acid and lachrymators. Onions contain such.
• Fruit has the least insecticides. It is good to eliminate all insecticides.. to shop organically.. yet meat has 21 times the insecticide level of fruit because the average nameless 1,000 lb cow at her time of slaughter ate 21,000 lbs of fruit. In addition, fruit is from a filtering tree which deposits insecticides in the stem, twig, trunk, and roots, protecting the fruit as a mother protects her fetus. Besides a cruel death for insects, insecticides cause cancer, teeth loss, bone weakening, immune system devastation. A few drops of parathion is enough to kill. The United Farm Workers have spent decades fighting the planes of death which spray their fields.
• Stephanie Beling, M.D. cites nuts and seeds as boosters of the immune system, cholesterol reducers, elimination aids, inflammation preventers, and stimulants of enzymes which detoxify carcinogens.
• Fruit is best for the kidneys. Animal eaters, carnivores, have 5 times the kidney size per lb. that frugivores, fruiteaters, have. Carnivores have adapted to the extensive nitrogen shearing required by the kidneys in turning exaggerated protein intake into carbohydrate.
• Fruit breaks the addiction of uric acid in meat, which is trioxypurine.
• Fruit has the most vitamin C of any food. Dairy and meat have none.
• Fruitarian have the best heart since a. the stimulant uric acid is eliminated b. the stressful adrenalin from frightened animals is eliminated c. there is no animal fat etc.
• Fruitarian on the average weigh least. Nonvegetarians weigh the most. Vegans weigh 2nd least. Nondairy vegetarians third least (Dr. Mervyn Hardinge's research at Harvard and that of others)
• Organic fruit juice is more pure than spring water because it is filtered by the roots, trunk and twigs of the tree.
Prevention of Cruelty to Animals:

• It still occurs in some areas around the world (as described in Upton Sinclair's Jungle) that some animals are dropped alive into boiling water before dead.
Mother cows are separated from their calves at veal butchering time through shocking rods.
• There is freezing of some animals as the trucks go through mountain passes where the high winds rip through openslatted trucks.
• There is absolute terror as the animals hear the ones in front of them being butchered.
• The 30,000 blizzard-stranded cows and 20,000 sheep on Dec 31st, 1997 are a not wished for result of the cattle and sheep industries. Dick Goddard, Fox 8 weatherman and longtime animal protector, says paradoxically the cows sometimes do not freeze, but die of thirst because they cannot chew enough snow to process their needs.
• They are kicked, bitten by other animals as they panic in hearing the animals in front of them in the killing line.
• Animals relax around fruitarians because they do not smell like competitors.
• Animals die of thirst often in transit.
• Animals are goaded onto conveyor belts with pitchforks and electric shocking rods.

Most Varied:

• There are hundreds of thousands of varieties of fruit in the world. There are a few mammal types humans eat, hundreds of dairy combinations, tens of thousands of vegetables and hundreds of thousands of fruit combinations.

WAVE OF THE FUTURE

The world is evolving toward information and fruitarian economies and away from industrial and animal based supply systems. The stockmarket of October 97 gave indication of this.

Neil Sullivan: Institute For Local Self Reliance on the Derek McGinty Show: People who eat fruit tread most lightly on the earth.

1. HEALTHIEST:

A. VITAMIN C

B. BETA CAROTENE

C. INOSITOL

D. LAURIC ACID

Only fruit has the highest concentrations of vitamin C, the bouncer of the body,
which eliminates toxins and free radicals. Jackie Dewey, writer for the Los Angeles Times, suggests that we take vitamin C as Linus Pauling did in crystal rather than pill form so that the stomach lining is preserved. In addition, all orange and yellow fruits have betacarotene. Squash is a fruit since it is a vine, tree, or plant product. Dr. Reginald Cherry, MD, author and host of a Trinity Broadcast Network show, named after a treefruit, cites research about beta carotene as a cancer arian corn has inositol. Coconuts contain lauric acid, an enzyme uniquely conducive to meditation.

• What are the guts of an animal? Material containing E Coli, salmonella, and tens of thousands of potential diseases. God designed the contents of guts to be eliminated as waste.. not touched.. but buried.
• What are the intestines of a cantaloupe? Eternal seeds.. potentially containing enough lifepower to re-vine the globe.
• What is the liquid of an animal? His life blood.. which putrefies very quickly after slaughter.. which is why Biblical dietary laws forbid the drinking of his blood.
• What is the liquid of a fruit? Shining juice fathered by the sun and mothered by the rain.
Stephanie Beling, M.D. has written that nuts and seeds contain healthful lignans, B vitamins, vitamin E, copper, selenium, calcium, and fiber.

Polysaccharides Help Prevent Diabetes and Promote Biochemical Peace

Fruit has polysaccharides, disaccharides, and mono- saccharides for the most even energy flow. Fruit sugars, says Marian Burros, syndicated writer for the Washington Post and then the New York Times, bypass the pancreas unlike other sugars. Therefore fruitarians are less likely to contract diabetes, ith its potential blindness, amputation, cardiovascular problems.

Dr. Ann Wigmore found that patients on raw food could cut their insulin levels in half. For those who are not ready to become fruitarian, James Marcus recommends washing out the system once a week with an all fruit juice or fruit diet.

WEIGHT

Fruitarians, cites Dr. Hardinge in his Harvard research, weigh the least of the four groups of nonvegetarians, dairy vegetarians, nondairy vegetarians (vegans) and fruitarians.

Fewest Insecticides
Only fruit is filtered through roots, trunk, branch, stem, leaf, twig.. each of which protects the fruit from systemic insecticides. Red meat is the most insecticide-intensive of foods, since a one thousand pound cow represents 21,000 lbs of food eaten by the animal. These nonbiodegradable insecticides remain in the animal's flesh. WCPN Cleveland Public Radio on August 8 broadcast that in the fruit group strawberries tend to have higher concentrations of insecticide than other fruits. You do not have to battle the 300 lethal insecticides used by Mexico (source of more than half of American winter produce) or worry about whether food handlers washed their hands.. if you start your own fruit and nut tree orchards. Neil Sullivan of Institute For Local Self Reliance: Fruitarian tread more lightly upon the earth.

MOST ADAPTED TO HUMANS

Sri Yukteswar's book mentions the 36 foot intestinal tracts of frugivorous or fruitarian human beings.. as opposed to the very short intestinal tracts of carnivores. A national ad mentions that when John Wayne died he had 44 lbs. of unprocessed waste in his intestinal tract. We mean no disrespect to the greatly loved actor and thank him that his experience can help us. Meat is the hardest on the intestinal tract, while fruit is the easiest, with bulk which is perfect for peristalsis and biochemicals which detoxify the blood. Dick Gregory has commented that flour and mucus foods become plaster like on the intestinal walls, blocking the flow of blood and oxygen. Fasting and fruit are the best ways to deplaster the body. (NIH and other research reported on MSNBC indicates that the killing of carnivores is learned behavior and that carnivores raised in captivity do not know how to kill, only playing with their prey) . It would seem that Isaiah 65.. the wolf shall lie down with the lamb.. is possible. Sri Yukteswar also reported that fruitarians have the least HCL hydrochloric acid in their stomachs, and that carnivores have much higher concentrations as well as 5 times our kidney size per pound of body weight.

Natural Fiber

Reginald Cherry, MD, nutritionist for TBN, suggests at least 3 servings of fruit daily. Bran, the husks of seeds and grains, can be considered fruitarian. National Public Radio in the week of August 4th reminded its listeners that prune juice is one of nature's premier laxatives and that cranberry juice is a natural diuretic. (Check the labels.. some cranberry juices says Dr. Dean Edell contain a red dye, cochineal, made from the bodies of insects. It might be the same dye which made the British Redcoats.. red) An apple a day is good.. but four apples a day are more likely to keep the doctor away.
VEGETABLE CHRONICLES:

National Public Radio: Fruits are better than vegetables for reduction of heart pressure (they are more yin or more expansive).

LEAST FOOD POISONING HAZARDS:

97% of all food poisoning fatalities (E Coli, anthrax, salmonella, ptomaine, brucellosis, toxoplasmosis, etc.) are caused by animal flesh and animal products. Of the remaining 3%, fruit products are more protected than plants. Fruit's spherical shape (as compared to lettuce and cruciferous plants) allows for less possibility of contamination. (Peeling is recommended). The fewer the people who handle the food the more pure it is. Fruit grown in your backyard without insecticides is angel-given.

HIGH POTASSIUM AND ALKALINE FOODS AS A REVERSAL OF ACIDIFICATION

Many diseases come from over acidification of the body. Meat, eggs, fish, nicotine, coffee have high acid contents. Fruits, even citrus fruits, are excellent for potassium which offsets sodium and acidification. Fruits with average levels of potassium include apricots, peaches, bananas, raisins (1/2 cup), prunes, cantaloupe, figs, dates, watermelon, and juices such as orange, grapefruit, tangerine, prune. Fruits in general are alkaline and therefore reverse acidification. Even citrus has a biochemical change in the body.

MOST DIGESTIBLE

Fruit has the greatest range of texture.. from very soft and ripe to as hard as a coconut. Ripe fruit is the most easily digestible.. say Maria Cull and other researchers.

RESTORES ELECTROLYTE BALANCE OF BODY L. GARLIC AND ONIONS:

a. In certain Buddhist and Hindu branches, garlic and onions are considered tamasic or sleep-inducing. Those who eat them for lunch are more likely to want an afternoon nap than those who eat foods of light. b. Onions perhaps make us cry because they don't want to be cut up. Deepok Pokharna, a chemist, cites the volatile gases of sulfur. They become hydrogen sulfide, sulfuric acid and other compounds when in contact with tears. This is called lachrymation. (The New Scientist the source for the sulfur statement.)

PREVENTING CALCIUM OXYLATE KIDNEY STONES
Kidney stones are caused by excess calcium (in animal products), excess oxalic acid (from the cooking of some vegetables, and other factors. The thin green layer between potato's brown skin and white interior when cooked causes oxalic acid, e.g. Fruitarians in general have the fewest kidney stones. If you like fried potatoes it is better to cook them in olive oil and to peel them to avoid the oxylates.

HEALTH QUESTIONS

A. WHAT ABOUT PROTEIN?

A carnivore has 5 times our kidney size per lb. of body weight and has adapted more than humans to the elimination of nitrogen and the processing of ammonia byproducts of meat. Fruitarians use the most natural sources of protein, which are seeds, nuts, grains, peas, beans in their thousands of Godgiven natural states and combinations. (sunflower seeds, green beans, lima beans, sweet peas, corn, almonds, walnuts, nutbutters such as almond butter, hummus, rice, oatmeal, brazil nuts, navy beans, pinto beans, lentils, kidney beans, coconut, etc.

B. WHAT ABOUT CALCIUM?

There are 50 milligrams of calcium in a cup of dried raisins. Many fruits and nuts contain calcium. Fruitarian calcium is easier for the body to assimilate and is therefore not correlated with osteoporosis.

C. WHAT ABOUT B12?

B12 for animal product consumers is cyanocobalamin. B12 for vegans and fruitarians is hydroxycobalamin. Fruitarian B12 is more efficient. Fruitarians and vegans have more red blood cells per cubic centimeter than do animal product users. (The research of Dr. Mervyn Hardinge at Harvard). Some Red Cross volunteers have commented on the richer reds and deeper purples of vegetarian, vegan, and fruitarian blood. In addition, it does not contain white ropes of killer cholesterol.

D. ANATOMICAL INDICATIONS

Sri Yukteswar in The Holy Science describes some of the indications that humans are frugivorous or fruit eaters and not carnivores. Humans have the longest intestinal tract. Carnivores have the shortest. Humans have apple piercing
bicuspids not flesh rending fangs. Humans have much less secretion of hydrochloric acid in the stomach than carnivores. Carnivores have 5 times our kidney size per pound of body weight.

IDENTIFIC DOCUMENTATION

Dr Irving Fisher at Yale, Dr. Mervyn Hardinge at Harvard, Dr Owen Parrett of a Canadian hospital, Dr. Colin Campbell of Cornell, Dr. Joan Ullyot, Sports Medicine physicians in San Francisco, Dr. Michael Klaper, MD, Dr. Wm Harris of Hawaii are some of the thousands of scientists who have studied vegetarian and or vegan and fruitarian populations. 300 scientific studies are cited in the back of Dr. Neal Barnard’s book.

F. ENDURANCE ENERGY

Maurice Smith, world champion kickboxer, and McGuire, homerun champion for 1996, both recommend juicing and drinking many fresh fruit juices.

G. FRUITARIAN PETS

Dogs do very well on beans and rice. Many dogs are eating slices of coconut, banana, orange, avocado, apple. The more a dog bonds with his adopter, the stronger his urge to eat what his adopter eats. Cats have greater protein needs than dogs, and might require some dairy products as vegetarians. There are 4 books on vegetarian pets. The company which makes Nine Lives cat food is adding rice. (Mr. Barky is one of many brands of vegetarian pet foods.)

H. CLEANSERS

Olive oil is an excellent intestinal cleanser after a fast.

1. IF YOU CRAVE GREEN STARCH:

Eat lima beans, peas. Limas are better than potatoes. Potatoes grow under the ground. Just as a potato avoids the sunlight, its biochemical effect on us when we eat them is that we want to avoid the sunlight.

2. MOST FOOD YIELD

Only fruit yields 400,000 lbs. per acre (Source: Dr Faust, former chief of the USDA Fruit Labs, describing centenarian apple trees dropping 2 tons each of free food). This yield is multiplied with tri-level agriculture, with bean and other vines
wrapped around the tree trunks, and other fruit-yielding plants growing interarboreally (in the spaces among the trees.) According to WHO, orbiting mirrors can further multiply fruit production (as well as trellises and poles for bean and other vines.) This can be compared to the plan of one Chinese official to double egg production for his 1.2 billion fellow Chinese which would take the grain from 15 developing nations. May the Chinese and other nations benefit from the mistakes of the U.S. and not emulate our heart disease, cancer, environmental devastation.

3. REFORESTATION

Only fruit can reforest the planet. To offset the natural disasters of record breaking cold springs, drought which created a brown Ireland in April, floods in Arkansas and Ohio, tornadoes in Texas.. we need the creation of quatrillion cubic feet of green. To those who say that trees are renewable resources which can be 'harvested' one might respond that cannibals perhaps see us as delicious renewable resources.

4. NONVIOLENCE

Only fruit is potentially nonviolent.. involving no slaughter and no theft. Fruit from trees, vines, and plants is the only food Godgiven and plantgiven. Huge industrial harvesters in hay and corn fields slice and dice small field mammals.. A green thumb comes to those who love plants. The plants feel it, and grow more quickly around those who love them.

WHAT IS A CRESCOGRAPH?

The sentience or feeling of plants has been documented in the research of many.100 years ago Chandra Bose was knighted by the Queen of England for his crescograph, a machine which registers plants' feelings. The book Secret Life Of Plants documents many research studies. Clive Baxter and Luther Burbank have demonstrated plant sentience.

5. FREE FOOD

If one plants a peach or pear seed in 2 minutes in his back yard, and comes back in a few years, the tree does not charge to give everything she has.

6. ENERGY FREE PRODUCTION

Fruit is virtually energy in production in its natural state, as compared to
slaughterhouses. Meat requires veterinary care for the animal, freezing temperatures in warehouses, trucks, home freezers, labor intensive care of the animals etc. After slaughter, the animals' carcasses must be inspected by federal employees, cut up into little pieces. Even vegetables are often harvested by huge combines or harvesters which cause some human fatalities yearly in tipovers or fires and cause slicing or crushing deaths to millions of field mammals and other creatures.

7. ETERNITY

Only fruit contains the seeds of eternity. as compared to the bones and grease left from a meat meal, the eggshells left after the bird's spirit has flown and her potential body been consumed.

8. MOST CONSCIOUS

Only fruit has high concentrations of neurotransmitters, according to Dr. Linus Pauling, nonagenarian neurochemist and Nobel Prize winner twice (perhaps the only person to win two. in peace and biochemistry). Second, fruit has the least mucus and therefore the greatest flow of oxygenated blood to the brain. Preventing oxygen deprivation through increased flow of breath can increase the mental function. (Hindus avoid the use of onions and garlic. It is felt that biochemically they have a tamasic or sleep-inducing result on the consciousness.) WUAB TV, Channel 43, reported on Nov 10th, 1997 that several anti-cholesterol drugs reduce mental alertness (brain function). The natural way to reduce cholesterol is to reduce animal product consumption.

9... MOST FRAGRANT

Compare the smell of the frightened animals' sweat in the slaughterhouse. their urination in fright. their defecation in terror. and that of the congealing blood as their lives pour out onto the slippery floors, their necks having met the knife. compare this to the smell of creamy apple blossoms.

10. MOST TRANSLUCENT

The food nearest to pure light. a slice of lime held up to the sun is natural stained glass in a church grove. Dr. Sidney Perkowitz, author of Empire of Light, a physics book made easy for the public. said on National Public Radio July 17, 1997 he would concur with the view that of all foods fruit was closest to pure light.
11. MOST EFFICIENTLY WRAPPED

Compare the tin cans and glass and cardboard wrappings of other foods.. to the way God shells the nut, husks the coconut, peels the banana. a. no human time wasting trash pickup b. no landfill exhaustion c. no trees killed for packaging d. no energy wasted in recycling plants

12. MOST DECENTRALIZED

Compare the multinational nature of huge meat conglomerates to an apple orchard.. with her satellite bees, her resident birds and squirrels *(May,30 1997 National Public Radio Prof. John D Ruedy of Georgetown: I agree that the planting of fruit trees would alleviate the drought and desertifying of N. Africa)

13. MOST BEAUTIFUL

a rainbow of pastel fruit tree blossoms..a mosaic of intense fall harvest

14. ONLY FREELY GIVEN FOOD

Meat comes from butchered animals. Vegetables comes from sacrificed plants. Dairy products are stolen. Only fruit is gently and totally given. Compare the screams of agony in a slaughterhouse.. to the silent growth in the orchard.. as fruit trees weave and spin the sun into pink peaches, golden pears, bronze nuts, limes (whose crosssections look like stained glass when held up to their sire the sun).

15. FIRE PREVENTION

Fruitarian diet prevents the most fires. Just as vegetarians reduce the meatgrease fire hazard present in restaurants and homes with buildups of grease in stoves, on the walls, etc., fruitarians because they cook much less and in some cases not at all.. have the least incidence of fire.

16. SPIRIT GROUNDING

No matter is needed to ground Spirit. In addition Spirit can manifest in any being. However, there are optimum diets for the transmission of Spirit, its grounding, alighting, descent, the Touch Down, just as platinum wiring is better than copper wiring is better than rusty old wiring. Fruitarian biochemicals ground God’s lightning. Heavy thoughts create a desire for heavier food. Light thoughts create a desire for light food. When one is tired or angry or depressed that is the
time for the greatest discipline. 'Expand in response to pain'.

17. PHYSICAL BEAUTY RESTORATION

a. Vitamin C which is most in fruit, second in vegetables, not at all in dairy, fish, or meat.. firms up the cellular tissue of the body.. firms the connective tissue. b. Fruitarians weigh the least, on average, of the 4 groups of 1. fruitarians 2. nonvegetarians 3. dairy vegetarians 4. vegans (cannibals excluded)  c. The butyric acid of animal fat causes the bodies of those who consume it to have an unpleasant odor. d. The uric acid (pre-urine) in animals' muscles cells doubles the sweat load excretion of the body. - - - - - JBO: So do a lot of celery stalks around the world send birthday cards to fruitarians? - - - - - - - -

18. THE BEST FOR BUSINESS

Those with families dependent upon them cannot be Johnny Appleseeds reforesting the world without recompense. What is the fruit waiting to make you a multimillionaire? Mott is associated with apples, Minute Maid and Sunkist with oranges and lemons, Welch's with grapes, Ocean Spray with cranberries, Dole with pineapple, Chiqita with bananas, Smucker's with fruit jams, etc. Businesses in date sugar, fructose, nut butters, nut burgers, coconut icecreams, coconut milk, are waiting.. The business Nantucket Nectars started out in 1993 as a peach juice bottler and in 5 years this business of Tom Scott of Cambridge Mass has become a 60 million dollar business. In the long run, those fruit juices with the least insecticide, the most environmental bottling, the highest quality, the best price, the most efficient distribution, the kindest personnel etc. will do the best. Ethics is good business. Tropicana has begun producing fruit smoothies. Chicago's O'Hare Airport features a wonderful fruit juice bar (which would be wonderful for empty main street slots) . Post has begun advertising a cranberry, pecan, granola breakfast cereal. One waiting virtually infinite market is juices such as mango juice, sold in Asian Indian markets. Mangos are very sweet, not acid. There are some writers who have for money become mongers and pushers of slaughterhouse byproducts which are a burden to manufacturers. Carloads of bones, lard, cartilage plague butchers. Those such as Dr. JW, DVM who seek to market gelatins, shark and chicken cartilage will have to answer to God. Avocados which fall freely from trees just as apples do are being sold in some area markets for $2 each. Some avocado orchard owners a few years ago cut down their trees to keep the market prices high. May avocado trees grace the front and back yards of billions of people in warm climates. Coconuts can be shredded, blended, their meat cut up for chew toys.. their husks used as cups. Their milk can be made into fruitarian icecream. Their lauric acid (when uncooked) is conducive to meditation. Their oil is very heat resistant.. CNN
reported Thanksgiving weekend that the hog market is becoming weaker. In Japan it is environmentally destructive businesses (fishing and lumber) which are hurting. Everywhere it is businesses involving harm to living things which are continuing to lose customers as the Genesis 1: 29 investors are doing well. Dole has a delicious new orchard peach frozen juice.

A WORLD OF JOHNNY APPLESEEDS

If one sees a pine cone.. or an acorn.. a peach pit or an apple seed make a tiny tunnel in Mother Earth.. and plant it that the seed be freed. It is not necessary to shed the green blood of plants, nor untimely to rip them from Mother Earth. If onions make us cry, we also make them cry.. perhaps we do not recognize their tears. Gen. William Booth, founder of the Salvation Army, wanted the railroad tracks and public parks of his country lined with fruit trees producing for the poor.

NONCOOKING

Avoiding cooking prevents the hazards of the microwave, of burns, of fires, of enzyme destruction, of carcinogens created by heat, the cost of cooking, the time of cooking and of cleanup, carcinogens in metal cookware such as aluminum, etc.

A. HEALTH:

cooking prevents enzyme destruction. Enzymes are the chief cancer fighters of the body.
cooking prevents the creation of heatsired enzymes such as malanaldehyde and methylcholanthrene

Genesis I: 29, the Garden of Eden, for Christians, Jews, Moslems.. the Ramayana for the Hindus in which Rama is described as eating a fruitarian (phalahari) diet 14 years in the forest, the writings of Isaiah. There are copious references to fruit in the Quran. Buddhists whose prayer is 'May all t have life be delivered from suffering' have fruitarianism in the Pali, Dhammapada, and other sacred texts. Jains whose founder Mahavir preached reverence for all living beings have fruitarianism in their scriptures as well.

HOW TO GROW FRUIT TREES

Stick your finger in the dirt.. scoop out an inch of soil.. put in a fruit tree seed and cover with dirt. Then wait. Or, as was done with Isaac Newton's apple tree offspring in Teddington, take a cutting of a mature tree.. put it in water.. let it grow roots.. gradually add more and more dirt through the weeks and months to the water. Then plant. How to grow avocado trees to take south for planting or to plant in a greenhouse or a room of glass: Take a seed. Place it half way down in very wet dirt. Wait. To speed up the process, by yearling or several year old fruit trees from nurseries. Many nurseries will plant them for you. We will be adding the addresses of fruitarian groups, and related issues of preservation.

Zz George Harrison, Steve Jobs, And Paramahansa Yogananda

Linden called to say he'd seen yesterday the movie 'Awake' at the West End Theatre in Washington DC. It is a film of the life of Paramahansa Yogananda. When he died in 1952, Time Magazine reported that his body was fragrant with the smell of roses for 21 days without embalming.

The Beatle George Harrison, whose copy of the Autobiography was given to him by Ravi Shankar, kept stacks of Yogananda's book Autobiography Of A Yogi in his home to give to his guests. At Steve Jobs' funeral, guests were given the same book. It was the only book that had been on his iPad. Apple was named by the once fruitarian Jobs. Dennis Weaver, star of Gunsmoke, McCloud and many other tv series and movies, was a follower, as was actor Dick Haymes. Millions of copies of the book have been sold. Calvin Coolidge invited Yogananda to the White House, but in Florida, threatened by his olive skin, a group of 200 men threatened him with violence. J Edgar Hoover considered yoga to be a Communist threat and so had an FBI squad which followed Yogananda. It was not until 1965 that Asian Indians were permitted to become US citizens.

The Seventh Day Adventists had perhaps the first vegetarian health spas in the country, but Yogananda opened up the first vegetarian restaurant in the Los Angeles area. It featured mushroom burgers. He was an apostle of positive thought, of kriya yoga, of meditation, of the power of the will aligned to God.

He was a poet as well. One of his famous lines is 'Kashmir is montcrowned, lake garlanded and flower shod.'.

His follower Kriyananda wrote: 'My master's visualizations were so powerful their condensation into matter was mere signature.'

The great master took upon himself so much of the negative karma of his followers that before he died he could hardly walk.

Yogananda recited the poem 'My India' at the Ambassador Hotel in Los Angeles and immediately after went into samadhi, consciously leaving his body forever.

This writer has had many dreams and visions indicating I was Yogananda's follower in California in the life immediately preceding this one. In this incarnation as well, he protected my life from violence, warning in a dream that I
should immediately leave a place I was staying. He said to me in a dream 'The Star of India is within you (all).'

Now the evergreen book is free and at

Paramahansa Yogananda with Calvin Coolidge

Yogananda converses with an inebriated man.
Yogananda recited the following poem at the Ambassador Hotel in Los Angeles and immediately after went into samadhi, consciously leaving his body forever.

My India

Not where the musk of happiness blows,
Not where darkness and fears never tread;
Not in the homes of perpetual smiles,
Nor in the heaven of a land of prosperity
Would I be born
If I must put on mortal garb once more.

Dread famine may prowl and tear my flesh,
Yet would I love to be again
In my Hindustan.
A million thieves of disease
May try to steal the body's fleeting health;
And clouds of fate
May shower scalding drops of searing sorrow -
Yet would I there, in India,
Love to reappear!

Is this love of mine blind sentiment
That sees not the pathways of reason?
Ah, no! I love India,
For there I learned first to love God
and all things beautiful.
Some teach to seize the fickle dewdrop, life,
Sliding down the lotus leaf of time;
Stubborn hopes are built
Around the gilded, brittle body-bubble.
But India taught me to love

The soul of deathless beauty in the dewdrop
and the bubble -
Not their fragile frames.
Her sages taught me to find my Self,
Buried beneath the ash heaps
Of incarnations of ignorance.
Though many a land of power, plenty, and science
My soul, garbed sometimes as an Oriental,
Sometimes as an Occidental,
Travelled far and wide,
Seeking Itself;
At last, in India, to find Itself.

Though mortal fires raze all her homes
and golden paddy fields,
Yet to sleep on her ashes and dream immortality,
O India, I will be there!
The guns of science and matter
Have boomed on her shores
Yet she is unconquered.
Her soul is free evermore!
Her soldier saints are away,
To rout with realization's ray
The bandits of hate, prejudice, and patriotic selfishness;
And to burn the walls of separation dark
Between children of the One, One Father.
The Western brothers by matter's might
have conquered my land;

Blow, blow aloud, her conch shells all!
India now invades with love,
To conquer their souls.

Better than Heaven or Arcadia
I love Thee, O my India!
And thy love I shall give
To every brother nation that lives.
God made the earth;
Man made confining countries
And their fancy-frozen boundaries.
But with newfound boundless love
I behold the borderland of my India
Expanding into the world.
Hail, mother of religions, lotus, scenic beauty,
And sages!
Thy wide doors are open,
Welcoming God's true sons through all ages.
Where Ganges, woods, Himalayan caves, and men dream God -
I am hallowed; my body touched that sod.

*
Writer's footnote: India was always grain sufficient until invaded by the British Empire. Its wealth was stolen and removed from the country, everything from grain to jewels. We pray that the stolen Indian jewels will now be returned by the British crown to the people of India.

Samadhi
by Paramhansa Yogananda

Vanished the veils of light and shade,
Lifted every vapor of sorrow,
Sailed away all dawns of fleeting joy,
Gone the dim sensory mirage.
Love, hate, health) disease, life, death,
Perished these false shadows on the screen of duality.
Waves of laughter, scyllas of sarcasm, melancholic whirlpools,
Melting in the vast sea of bliss.
The storm of maya stilled
By magic wand of intuition deep.
The universe, forgotten dream, subconsciously lurks,
Ready to invade my newly wakened memory divine.
I live without the cosmic shadow,
But it is not, bereft of me;
As the sea exists without the waves,
But they breathe not without the sea.
Dreams, wakings, states of deep turiya sleep,
Present, past, future, no more for me,
But ever-present, all-flowing I, I, everywhere.
Planets, stars, stardust, earth,
Volcanic bursts of doomsday cataclysms,
Creation's molding furnace,
Glaciers of silent x-rays, burning electron floods,
Thoughts of all men, past, present, to come,
Every blade of grass, myself, mankind,
Each particle of universal dust,
Anger, greed, good, bad, salvation, lust,
I swallowed, transmuted all
Into a vast ocean of blood of my own one Being!
Smoldering joy, oft-puffed by meditation
Blinding my tearful eyes,
Burst into immortal flames of bliss,
Consumed my tears, my frame, my all.
Thou art I, I am Thou,
Knowing, Knower, Known, as One!
Tranquilled, unbroken thrill, eternally living, ever new peace!
Enjoyable beyond imagination of expectancy, samadhi bliss!
Not a mental chloroform
Or unconscious state without wilful return,
Samadhi but extends my conscious realm
Beyond the limits of the mortal frame
To farthest boundary of eternity
Where I, the Cosmic Sea,
Watch the little ego floating in me.
The sparrow, each grain of sand, fall not without my sight.
All space like an iceberg floats within my mental sea.
Colossal Container, I, of all things made.
By deeper, longer, thirsty, guru-given meditation
Comes this celestial samadhi
Mobile murmurs of atoms are heard,
The dark earth, mountains, vales, lo! molten liquid!
Flowing seas change into vapors of nebulae!
Aum blows upon the vapors, opening wondrously their veils,
Oceans stand revealed, shining electrons,
Till, at last sound of the cosmic drum, **
Vanish the grosser lights into eternal rays
Of all-pervading bliss.
From joy I came, for joy I live, in sacred joy I melt.
Ocean of mind, I drink all creation's waves.
Four veils of solid, liquid, vapor, light,
Lift aright.
Myself, in everything, enters the Great Myself.
Gone forever, fitful, flickering shadows of mortal memory.
Spotless is my mental sky, below, ahead, and high above.
Eternity and I, one united ray.
A tiny bubble of laughter, I
Am become the Sea of Mirth Itself.

* Samadhi means: oneness of human consciousness with cosmic consciousness.
The book suggests blessings for repeating 3 times the names Lahiri Mahasaya Babaji.

One then invokes the Poornavatar in the 6th through 9th syllables.

Charlottesville Virginia has a good policy on wildlife. If one has a birdfeeder or keeps nonsecure garbage cans or dumpsters, one is attracting wildlife and legally responsible for the results.

Around the country are many apartment building complexes in which the dumpsters are not secure, nor are there any industrial garbage disposals.

Many hazards to raccoons, squirrels, and birds result.

1. The creatures are crushed by commercial waste collectors' trash compacters.
2. They are also often crushed when apartment building residents don't look inside as they drop tv's or other heavy objects into the dumpsters.
3. While the animals are eating from the dumpsters, they can be poisoned by rotting meat, fish or dairy products.
4. The animals can be trapped at the bottom of 6 foot dumpsters.
5. In attempting to climb out of dumpsters, the animals can fall hard onto the metal below.
6. Apartment building residents often don't look inside as they drop tv's or other heavy objects into the dumpsters.

Time for a nationwide moratorium on the death penalty

A number of media outlets have been fund raising for animal research for Lou Gehrig's Disease. The WBUR program On Point allowed questions only about the fundraising campaign, not about the origins of the disease called amyotrophic lateral sclerosis or ALS.

In reality, Lou Gehrig was raised in a German family and continued to eat in his mother's kitchen often after he became a married baseball player. He was fed a diet which predominated in frankfurters, wienerschnitzel, hamburgers and many other meats. Both the trillion dollar animal research industry, aligned with international drug cartels, and the zillion dollar animal flesh industry like to hide the cause of ALS.

From the link above comes the following quote:

'Another famous person who had ALS was Chairman Mao of China. Out of the billions of people in China, he was the only person to ever have ALS, up to that time. So what did he do that none of the other Chinese people did? Mao had a Western diet, meaning that he didn't eat rice and lots of vegetables; instead, he ate lots of meat.'

From the Scientific American comes the following:

'What Do Alzheimer's, Parkinson's and Lou Gehrig's Have in Common? These diseases are produced in giraffe, herbivores, who are fed meat.'

It is sad to see athletic young men become wheelchair ridden and lose their power to speak or swallow before they die. It is a crime that those who inflict suffering on animals in research, physicians and the media are not trying to prevent ALS by educating the public about the need to avoid the flesh of mammals, birds, and fishes. An alkaline vegan diet is recommended.

Inventions By Indians For Which Others Have Been Given Credit

I RADIO
Jagadish Chandra Bose, an Indian, was knighted by Queen Victoria for his invention, the crescograph, which proved the sentience of plants.
In the 19th century Bose invented the radio. Marconi was only 21 in 1898 when Bose demonstrated his radio in India. *1 and 2

II CHESS
Indians were the inventors of chess. During the Mahabharata War which was fought 5000 years ago, the scripture Bhagavad Gita, the Song of God, emerged. The battle was fought using elephants and horses. The earliest chess pieces show elephants and horses along with human beings. So many died in the Battle of Kurukshetra that the sands of the battle field 10 miles from Delhi are still red with the blood.

Two bishops replaced other pieces when chess reached the West.

*3a *3b *3c *3d

III NUMERALS
Indians invented modern numerals. Arabs brought their invention to the West. *4

'Invention of Irrational Numbers
The Indians knew about fraction numbers, as recorded in their Stananga Sutra. Another text, the Sulba Sutra, expounds on irrational numbers. It dates from 800 to 500 BC. A Greek follower of Pythagoras, Hippasus, is said to have discovered irrationals at the same time. But Pythagoras refused to accept the existence of non-rational numbers and had Hippasus put to death.

Invention of Modern Numbers
The Indians also invented the modern number system. It is often called Arabic
Numerals because it came to Europe through the Arabs. The Persians copied the Indian number system and then passed it on to the Arabs. Then an Italian mathematician named Fibonacci traveled to Algeria to study. When he came back home, he brought the Indian numerals with him. He wrote about the system in his book “Liber Abaci.” This system soon gained wide acceptance throughout Europe. Today it is the number system used in practically the whole world.

The imperialist occupiers of India sought to diminish India. The sign 'dogs and Indians not welcome' is one of millions of examples. The invaders tried to discredit vegetarian diet India has for millennia had the most vegetarians in the world. Missionaries sought to describe Hinduism and Buddhism as pagan.

IV GAMES BESIDES CHESS

Other games including Polo, Snakes and Ladders, card games, the martial arts games of Karate and Judo were invented in India

LANGUAGE: A SEPARATE CATEGORY

Sanskrit which was described by occupying judge William Jones as 'more copious than Greek, more perfect than Latin, and more exquisitely refined than either' is the mother of all IndoEuropean languages. It is the only language whose written characters match the pattern of sound vibration when these characters are voiced. The Ramayana was recorded in Sanskrit 20,000 years ago, while the Bhagavad Gita was written down 5000 years ago.

India now has more English speakers than any other country.

Note: Thank you JBO for pointing writer to the chess and numerals histories

Isaac Tigrett as a young man was playing with
his brother. There was an accident and his
brother died. His second brother killed himself.
His parents never spoke again. It took Tigrett
many years to deal with this extreme sadness.

He had had psychic phenomena since the age of 13.
Norman Vincent Peale was a friend of his family
and told his parents not to worry about his psychic abilities.

He was in a metaphysical visitation told to
buy the book The Secret Life of Plants by Peter Tompkins
and Christopher authors told him it was a big failure,
though it was published by Harper and was their big Christmas book.
6 weeks after he bought the rights to the book it hit
the NY Times best seller list and stayed there for 57
weeks. Stevie Wonder became his partner, and did
the sound track to the film.

He began to found the Hard Rock Cafes, and they grow
to 40 outlets on several continents.

He was working many hours a day. In California, he
was driving his Porsche at 90 mph
while intoxicated and found it going over a cliff.
Suddenly a man materialized in mid air and held him
as he and the car went down the cliff. He was unharmed.
The car was totaled. The rescuing man disappeared.
A while later in 1977 high on a drug he had an epileptic fit
he was in Colorado. He choked to death. His spirit
came out of the top of his head. He was looking down
at his body. He hard a voice 'Your time is not yet.
Call your guru's name.' He had swallowed his tongue. The same
man materialized, slapped him on the back bringing his
soul back into his body, and pulled his tongue out of
his throat. He had been resurrected.

In an Aurangabad hotel Tigrett saw a picture of the
man who had rescued him. It was Sathya Sai Baba,
believed by over 100 million people to be the
Yugavatar or avatar of the age. Tigrett flew to
India to thank Baba. He did not receive an interview
in 1973 nor did he when he went every year for 14 more years.
He broke a record, the only Westerner to come so many
times without an interview.

During this time some of Baba's followers were suggesting
that perhaps he should end his connection to his restaurant
chain, which was involved in selling animal flesh and alcohol.
When after 15 years he sold his 40 outlet chain, he received an
interview.

He gave many millions for the creation of one of the world's
best equipped hospitals in Bangalore, India, one which does
not charge anyone and has done 10,000 free heart operations
a year along with countless other operations and procedures.
Western insurance companies send clients to India for these
free operations.

Zz Ken Saro-Wiwa And Richard North Patterson

'Kenule Beeson Saro-Wiwa (er 10,1941-died November 10,1995) was a Nigerian writer of novels, civil rights activist, television producer. In 1994 Saro-Wiwa was imprisoned by order of the dictator Sani Abacha. He had strongly defended the rights of the Ogoni people and criticized the government's oil policy with Royal Dutch/Shell. Despite wide international protests, Saro-Wiwa was hanged after a show trial with other eight Ogoni rights activists in Port Harcourt, on November 10,1995.’* The trial was conducted by a military tribunal.

Saro-Wiwa's son Ken wrote the book In The Shadow Of A Saint about his father. He has also produced and narrated tv and radio documentaries for Canadian Broadcasting and the BBC, and commentaries for NPR.

Patterson's book is fiction but a veiled reference, imho, to the murder of nonviolent environmental activist Ken Saro-Wiwa of Nigeria, who along with 8 others of his persuasion were hanged at the insistence of Shell Oil and a compliant corrupt Nigerian government. Neither the US State Department nor other branches of the US government seriously tried to prevent the execution.

Shell has for decades polluted the Niger Delta and the watershed of Nigeria with oil poisons while denuding the land of mango, palm and thousands of other species of plants.

Patterson recounts apartheid mercenaries displaced by the return of Nelson Mandela. These mercenaries join on the side of diamond, copper, gold and other miners and other commercial interests in many African conflicts. They also join the security forces of international corporations. The CIA has often subcontracted security work to these racists. He describes the torture, rape, and corruption employed by military dictatorships with sham trials, as well as black op diversions such as kidnappings.

In addition, Patterson investigates the world of oil speculators and their insider trading. They seem to know in advance coming crises and to buy futures in an almost omniscient way.

He weaves together vivid characters, a complex plot, and a masterful style of writing studded with occasional poem phrases.
This poster also recommends Patterson's books The Spire, The Race, Protect and Defend, Loss Of Innocence and Fall From Grace. With the book Devil's Light I part company, because of my belief that Osama Bin Laden probably died in 2001 after being hospitalized and in serious need of dialysis and the opinion of many millions that the bombing of the World Trade Center was an operation designed as an excuse to invade Afghanistan, and was a joint operation of elements in the CIA and Israeli military and intelligence.

Zz Kissinger's Shadow

Henry Kissinger became US Secretary of State though never elected to public office of any kind. He never answered to any electorate.

Greg Grandin's newest book is Kissinger's Shadow, a litany of Henry Kissinger's active legacy as seen in the current wars of the United States.

Christopher Hitchens' book is The Trial Of Henry Kissinger.

When CodePink recently organized demonstraters to speak up as Kissinger testified at congressional hearings chaired by John McCain, the courageous ones recited some of the atrocities orchestrated by Kissinger., to whom McCain colorfully responded 'Get out you lowlife scumbags.' Each Kissinger scholar has his own list.

1. The illegal bombing of Cambodia.. adding numbers to the American soldier deaths and to what would become 4 million deaths in the Vietnam War he helped Nixon wage. Since the war's end, 25,000 adults and children have died from US landmines, along with countless animals, birds etc.

2. The murder of the democratically elected Salvatore Alliende of Chile was orchestrated by Kissinger while an National Security Council adviser. A few days after the campaign, Kissinger became Secretary of State.

3. Kissinger, according to his own papers, supervised the creation of S American death squads responsible for thousands of deaths.

4. The encouraging of Sukarno in Indonesia to invade E Timor. The result was millions dead.

5. While Nelson Rockefeller was alive, Kissinger worked to protect Rockefeller capital around the world. He was also instrumental in trying to make Rockefeller president, Kissinger helped coordinate the campaign against Spiro Agnew first. After Nixon's vicepresident resigned, Kissinger with Mark Felt (Deep Throat) (2nd in command at the FBI) arranged the Watergate fiasco of which Nixon was not aware until it was too late. He was involved in the murder of William Sullivan, 3rd in command at the FBI, who on Nixon's behalf was investigating Kissinger. Finally, there was the attempt on Gerald Ford's life by Squeaky Fromme, who like her boss Charles Manson, was a CIA operative. 2 of 3 of the obstacles to Rockefeller's presidency were removed.
6. The establishment of Petro dollars.

7. The continued arming of the Shah of Iran with his torturing Savak secret police. (see also Number 19)

8. The enabling of the torture of socialists, the repression of women by the Saudis.

9. The failure to recognize Palestine as a state.

10. Encouraging Pakistani militants to go into Afghanistan. Kissinger in general sided with Pakistan in its disagreements with India.

11. Opening the door to outsourcing dollars and jobs to China.

13. Kissinger Papers reveal that he encouraged Turkey to invade Cyprus.

14. From The Nation magazine:
'Kissinger goaded Nixon to place illegal wiretaps on close friends, associates, journalists, government officials, including his own NSC aide Morton Halperin)

15. In Jamaica, Kissinger opposed Jamaica's right under the leadership of its prime minister Michael Manley to nationalize the bauxite industry.

16. Kissinger aligned with the repressive apartheid regime of South Africa, not with Mandela and the people of South Africa.

17. 'Kissinger supported an agreement that would end Kurdish autonomy in Iraq.' Source:

18. In Argentina, writes The Guardian 'Henry Kissinger gave his approval to the 'dirty war' in Argentina in the 1970s in which up to 30,000 people were killed, according to newly declassified US state department documents. Mr Kissinger, who was America's secretary of state, is shown to have urged the Argentinian military regime to act before the US Congress resumed session, and told it that Washington would not cause it 'unnecessary difficulties'.

19 In The Iran-Contra Connection: Secret Teams and Covert Operations in the
Reagan Era The Iran-Contra Connection: Secret Teams and Covert Operations in the Reagan Era by Marshall, Scott, and Hunter is written: 'Kissinger supported the oil price hike at the expense of world consumers as a clever means of financing the Iranian Shah's weapons purchases.'

20. In 1957 Kissinger in the book Nuclear Weapons and Foreign Policy promoted the use of tactical nuclear weapons in war. It is believed by many that the movie Dr Strangelove was a spoof of his warmongering.

21. At a Georgetown reception, an animal rights worker wearing a Love Animals Don't Eat Them tshirt thanked him for declining to hunt and asked about applying that philosophy to all animals. He replied 'I get the point. I just don't want to think about it.' A few weeks later he had a quintuple bypass. He was also asked at the University of Akron about his support of a Chinese plan to double their egg production and estimates that theat would take the grain of 18 nations. He declined to answer.

That 2 bombers, Kissinger and Obama, should win the Nobel Peace Prize cheapens considerably its status.

Despite the attempts of the cancer industrial complex of hospitals, drug companies, and others to suppress cancer cures, there are many. This article lists only a fraction of them.

1. Become vegan. The countries in the world with highest rates of intestinal cancer are heavy animal flesh consumption ones. Those countries with highest stomach cancer rates are high fish consuming ones. Countries with the highest rates of reproductive organ cancers (breast, prostate, ovarian, cervical, uterine) have the highest rates of dairy product consumption. rBST and other female hormones injected in captive animals multiply the likelihood of cancer.

2. Eat uncooked fruits and vegetables (Cancer is among other things a disease of enzyme depletion. Cooking destroys some enzymes.)

3. Avoid acid foods (animal and fish flesh, eggs, milk, coffee, tea, etc.)

4. Purchase only organic food. Many insecticides are carcinogens.

5. Vitamin C in powders, in pills, and in drips (Vitamin C is a toxin bouncer).

6. Forgive everyone. Cancer is a disease of retained pain, hoarded resentment.

7. Sunlight not radiation

8. Avoid unnecessary surgeries which break down cell walls allowing carcinogens to spread.

9. Prayer and positive thought Numerous studies indicate that those prayed for have a higher healing rate than those not prayed for.

10. Hyperthermia Cancer cells are more vulnerable to high temperatures than healthy cells. *1

11. Stop smoking through nicotine gum, lozenges, hypnosis etc.

12. Directed magnets cause cancer cells to self destruct. *3

13. The use of directed light and sound waves is done at a clinic in Mexico Number 4

14. MSM treatment #5

14. Detoxification in a variety of ways
   a. detoxification of ntestines through coffee enemas

The founders of Buddhism, Hinduism, Christianity, Judaism, Sikhism, Jainism, and the sects of Methodism, the Salvation Army, the Seventh Day Adventists, the Franciscans and many other monk orders were all vegetarian. They are respectively Buddha, Rama, Jesus, Abraham, Guru Nanak, Mahavira, John Wesley, General Booth, Ellen White, St. Francis etc.

In most of these cases, a majority of the followers are not following the spiritual path of their founders.

1

In Sikh temples only vegetarian food is served. The temple is called the Gurdwara.

2

The origin of the word Abraham say some linguistics scholars is 'A Brahmin'.

3

The Buddha did not require his monks to be vegetarian if flesh was put into their begging bowls.

Governors Perry And Kasich, Jim Bohannon And The Lethal Gardasil Of Merck

Merck’s Gardasil has killed dozens of young women, destroyed the ovaries of countless numbers, and created 12,000 reported toxic incidents, including coma, anaphylactic shock, seizures, and blood clots (the most common cause of death.

Merck has tried through bills in the legislatures of 24 states to MANDATE that girls be injected with its lethal alleged cervical cancer vaccine or not be admitted to school.

Retiring governor Perry of Texas tried to force Texas teens by law to be injected with the alleged anticancer vaccine Gardasil made by Merck. The people of Texas overrode him.

The campaign was picked up by Governor Kasich of Ohio and his Ohio Department of 'Health'. The department has been running public service spots attempting to sell the drug, endangering the people of Ohio. Voters have the opportunity to remove Kasich from office this November, whose financial connections to Merck have not been adequately investigated.

This incident was brought up by a caller on the Republican talk show of Republican warpromoter Jim Bohannon of Westwood One, who banned discussion.

Merck is advertising Gardasil as a safe sex vaccine. Nothing could be further from the truth. Cervical cancer is an STD, a sexually transmitted disease. It is a disease frequently contracted by prostitutes.

Merck wants girls vaccinated at age of 9 years.

Merck operatives also hack websites and run smear campaigns against those actively educating people to avoid Gardasil.

After animals have been tortured in Merck’s laboratories, young women become the new guinea pigs for the company.

George Merck’s career began in developing bioterror weapons for the US military.
These weapons were stored at Ft. Meade in Maryland.

From Snopes re Gardasil:

From Snopes:
'32 Girls Have Died. (Most have died from blood clots. Other effects include coma, anaphylactic shock and coma.)
11,916 adverse events already reported to the CDC... and counting. One girl took 6 steps after the vaccine and collapsed, foaming at the mouth. Pain and swelling. Life-threatening muscle weakness. Blood clots in the heart and lungs. And the deaths of 32 innocent girls and young women.

The health threats listed above have all been linked with Gardasil, the so-called 'cervical cancer vaccine.' And thanks to Pharma giant Merck, desperate parents and naive young women believe this vaccine saves lives... they couldn't be more wrong.'

Zz Lou Gehrig's Diet

Lou Gehrig was from a German family with which he lived as a child and for some years as an adult.

He was fed liverwurst, braunschweiger, frankfurters, (named for Frankfurt Germany) hamburgers (named for Hamburg Germany) ducks and geese cow flesh, pig flesh and lamb flesh.

Kielbasa also killed Gehrig.

Researchers know that animal flesh causes Lou Gehrig's disease. They hide that information from the public as they continue to torture animals to promote ineffective drugs and the cut burn and poison of chemotherapy radiation and surgery.

TV Networks help animal torturers to raise money. Instead they should tell the truth, frequently.

Bhagavad Gita: Lust is born of the contact of senses with their objects.

Tanya Siri: Lust is God's way of binding together former enemies to work out karma.

Sai Baba: Love is the rose. Lust is the thorn.

Ann Wigmore: Passing a pendulum over a pregnant woman it will often move in circles if the child is a girl and in straight lines if it is a boy.

S Grafio: I was sitting across the table from a beautiful young blonde woman. Suddenly I saw her in a past life, dying as a nonagenarian man. It was a lustbuster.

Zz Meat Is A Group One Carcinogen, Reports The World Health Org. Belatedly

Because of the power of the multi trillion dollar butcher industry, the World Health Organization is decades behind in reporting on studies which prove that all processed meats and red meat are group one carcinogens, in a class with alcohol, cigarettes etc. But this month it finally acted in a partial fashion. It has yet to act regarding cancers caused by chickens, turkeys and other birds nor has it warned about the correlations of fish consumption to cancer of the stomach, radiation poisoning, anaphylactic shock etc. Leukemia in chickens is deceptively called leukosis, but is transmitted to humans who eat chicken. Since Ronald Reagan doubled the speed of the slaughterhouse conveyor belts, it is very hard to see tumors in the whirring lines. Cancers the size of a grapefruit can be cut out and the rest of the cadaver approved. There is NO microscope inspection. The USDA has fought against any truly reliable Mad Cow testing. The USG has fought in the World Bank against the European Union ban on hormone laden American meat and dairy. The CDC and FDA have been virtually silent about dairy products and eggs and their correlation to reproductive cancers (breast, prostate, uterine, cervical, ovarian).

Even so, federal agencies in the US continue to protect the meat industry. The CDC has done NO public service spots warning people about the hazards of animal and fish flesh and animal products. The USDA actively works against good health by continuing in various ways to subsidize the raising of animals for the slaughterhouse. The USDA, founded to end the heinous conditions of slaughterhouses as reported in The Jungle by Upton Sinclair, very shortly after became an agency for the promotion of meat. It has for over a century chosen the help a small private lobby rather than advance the health of Americans. The FDA has allowed toxic practices in meat processing such as biophages, irradiation of meat, additives which cause cancer such as sodium nitrate, heterocyclic amines, female hormones forced on captive animals, methylcholanthrene, malonaldehyde, insecticide residues.

In addition the EPA has not warned the public about cattle and sheep ranches as a major cause of global heating and freezing, both because of deforestation and methane issues.

Nor has the government done anything to end the vicious cruelty of factory farms.
National Public Radio with its 200 million dollar investment in the world's biggest murderburger chain, did a report on All Things Considered after the WHO press release, without mentioning at all the connection of meat to any of the number of diseases it causes.

Zz Myriad Reasons To Stop Eating Animals

Whether you reduce or eliminate the consumption of meat, fish, dairy products.
Here are some reasons to take the first step

1. ANIMAL AGONY

- Trillions of animals suffer hideously in factory farms, transit and slaughterhouses. Fishes die of suffocation, asphyxiation.

2. Help the Environment
- prevent deforestation
- reduce global heating
- prevent drought
- stop conservation.

3. Prevent Disease
- vegan men have higher sperm counts while nonvegetarians have much more
- heart disease
- cerebral stroke
- cancer of many kinds
- ecoli or colon bacteria infections
- insecticide concentrations at the top of the food chain
- food poisoning.. corpses should be buried not consumed
- kidney dysfunction... carnivores have 5 times our kidney size per pound
- arthritis the uric acid or preurine (trioxypurine) in animals' muscles when they are murdered crystallizes in needle formation around the joints
- choking high up on the list of accidental deaths (comparable to swallowing shoe leather?)
- appendicitis (our fruitarian ancestors gave us the longest intestinal tract in relation to height of any animal)
- bleeding ulcers (carnivores secrete much more hydrochloric acid than human beings)
- parasites: liver flukes, trichinella and other worms

4. Create Most Food Yield Per Acre.. Preventing Hunger
Cow corpses yield 100 lbs of animal flesh per acre in desertified W Texas... a maximum 1000 lbs.
per acre in more rain-blessed areas. Dairy products and vegetables yield more per acre.
Centenarian fruit and nut trees can drop as high as 2 tons each of food or
450,000 pounds an acre in some cases.

5. Prevent Crime
. the adrenalin secreted by terrorized animals is only partially broken up by cooking and causes anger in those who eat the flesh

6. Stop Accidents
. slaughterhouse workers slip on the grease, fecal matter, urine, blood in abbatoirs
. slaughterhouse workers are kicked in the head and elsewhere as they electroshock, kick
. drag and otherwise force animals into the slaughterhouse chutes
. slaughterhouse workers are exposed to cold
For more:

7. Foster Esthetics
. Compare the fragrance of almond blossoms to the stench of the killing fields and the piercing shrieks of the abbatoir to the wind's symphony in olive groves. Compare a bowl of shelled nuts after 3 days to a flesh sandwich sitting on the kitchen table.

8. Restore Mental Health
. Russian research found that vegetarian diet eliminated the adrenalin saturated flesh which is a factor in depression, anger, anxiety

9. Stop Fires
. Animal fat (grease, lard, tallow) accumulating on restaurant and home walls causes fires.
. Malfunctioning ovens cause fires
. Gas and electric lines into stoves cause fires.
. [a whole firehouse goes vegan

10. Save Money
. Cadaver eating is expensive.. sometimes many times more per pound than fruits and vegetables
. Cooking and freezing are costly
. Around the world flesh-related diseases are hemorrhaging $$ from national health care.

11. Prevent Obesity
. The average vegan weighs 23 pounds less than the average nonvegetarian and 11 pounds less than the average dairy vegetarian.. That was the discovery of Mervyn Hardinge MD in isocaloric studies at an ivy league school.
There are over 100 studies indicating weight loss with vegan and vegetarian diet.
Lance Armstrong recommends meatless diet for weight loss and healing.

Cows' milk is intended for their baby calves and is designed to make a 1000 lb. animal in a few months. It engenders obesity in American children. Dr Atkins of the Atkins Diet (whose foundation is connected to Smithfield pig factory farms and Duke of North Carolina) died of a cerebral stroke which generated a fall while weighing 257 lbs.

12. Save Time
. Vegetarian, vegan and fruitarian meals take much less preparation time
. Vegetarian plates take less cleaning time
. Kitchen wall cleaning takes less time

13. Save Water
. 'Probably the most reliable and widely-accepted water estimate to produce a pound of cow flesh is the figure of 2,500 gallons/pound. Newsweek once put it another way: 'the water that goes into a 1,000 pound steer would float a destroyer.' No one begrudges patient cows water on their painful journey to a grizzly end, but the ratio illustrates the entire waste of cattle concentration camps.

14. Spiritual traditions and teachings
Christian
Muslim
Hindu
Buddhist
Sikh, Sufi, Rastafarian, Wesleyites, Salvation Army followers of General Booth, Franciscans,7th Day Adventists,
Cistercians, early Christians following Jesus' example... all have vegetarian traditions

15. Break Addiction's Chains Both Physical and Mental
. The uric acid or trioxypurine in flesh is stronger than caffeine (dioxypurine). Not everything we absorbed in childhood was good.

16. Foster International Peace
. As Mexican undocumented workers refuse slaughterhouse jobs, they are going to Central Americans. Slaughterhouses are an intrinsic part of the immigration problem.
. Japanese 'scientists' harpoon whales not only for their flesh but because they eat fish.
17. Save Energy

- meat takes over 81 times the production energy that nut protein takes... no till agriculture saves energy and animal lives
- energy in the freezer at slaughterhouse, warehouse, transportation truck, home
- energy in the stove
- energy and cost of veterinarians, toxic hormone injections etc.
- compare dropping a peach seed on the forest fringe and covering it with a little dirt.. coming back in 4 years to fruit which drops in your lap... to the great effort of killing animals

18. Live Longer

- Several life insurance companies give discounts to vegetarians. The January 1973 National Geographic mentioned that centenarian tribes are vegetarian (Villcabamba of Ecuador, Azerbaijans, Hunzas, yogis are some examples)

Thank you to Allison Aubrey of NPR for her coverage of the Meatless Monday campaign, the first step to a total Meatout.

**********

Lance Armstrong has asked people to start with a meatless Monday. 81,000 Baltimore school children are having 1 meatless day a week. Yale, UC Davis, Northern Kentucky University, Johns Hopkins are adapting their cafeterias.

* President McKinley was shot on Sept 6 2001 and was recovering, but gangrene from the bullet's path through nonvegetarian intestines was the final cause of death. When George Wallace, American candidate for president shot by a hit man employed by war profiteers, was hit, he had, said a national news magazine, just eaten a hamburger, and the bullet trailed an ecoli (colon bacteria) path through his body.)

Tobacco ads have been banned on tv and radio. Alcohol ads have been limited on tv and radio. Meat causes many kinds of cancer, heart disease, strokes, food poisoning, kidney dysfunction, Alzheimer's, arthritis, etc.

Americans are per capita the most overweight people in the world (69% of Americans overweight reported NPR, as opposed to 35% in Bogota Colombia while Americans have 4 times the cars that Colombians have). An Ivy League isocaloric study by Dr M Hardinge revealed that after 3 months on the same calories per day, nonvegetarians weighed 23 lbs. more than vegans and 12 lbs more than dairy vegetarians. Americans are forcefed more food ads than any other country.

Ads for toxic drugs which can cause death should also be banned from tv. It was during G W Bush's administration that Republicans jammed through Congress a law banning people from suing drug companies over vaccine deaths.

GOP election fraud crime in Ohio time after time.

*Televised screen shots taken Tuesday night of live election returns in Ohio provided by the Secretary of State's office showed hundreds of thousands of votes flipping from the 'yes' to 'no' column of Issue 3, the ballot measure to legalize marijuana.*

Recently in Kentucky a Republican governor won and those who installed him went to jail for election fraud. He had a landslide victory after being behind in polls.

In Ohio there was strong support for marijuana legalization, but Ohio Republican fraud with the help of Diebold machines (there still around despite Diebold's having sold the company) and criminal operatives. Ohio Republicans kept John Kerry out of the White House in 2004.

Republican vote fraud in several counties defeats marijuana legalization in Nov 20156 despite polls indicating Ohio 56% in favor.

Hamilton County, Ohio covers Cincinnati. It is the county in which Mitt Romney's son bought a voting machine company during his father's campaign for president.

Portage County Ohio vote fraud

Diebold machines
Secretary of State Husted's network made sure that despite poll support for pot in Ohio, it would fail. Note the 'times counted' below. These were Diebold machines. Diebold sold the company but there is widespread knowledge that their machines can be hacked in 3 minutes.

The following is just one of the counties in which computers mysteriously failed to work

Notice the 'times counted' figure.

Zz Ohio: Reasons To Vote Out Kasich

Revised Oct 11 2014

If you agree please email this to any Ohioans you know.

Reasons to vote out John Kasich from the governor's mansion and vote in Ed Fitzgerald

1. Murder by the State:

There are 9 executing governors out of 50 in the US. Over 2/3 of the world's countries do not execute. No country can join the European Union if it is involved in this ancient barbarism. John Kasich has without mercy sent 12 men to their deaths.

2. Promotion of War

When John Kasich was a regular on Rupert Murdoch's Fox News, he frequently promoted the illegal wars of G W Bush.

3. Personal Corruption

John Kasich was an executive with Lehman Brothers when the corporation went bankrupt.

4. Fracking earthquakes and poisoning of the watershed

Kasich is in the pockets of oil and gas billionaires such as the Koch Brothers.

5. Enemy of Mass Transit

Kasich, like fellow pawns of petroplutocrats Scott Walker of Wisconsin and Rick Scott of Florida, sent back several hundred million dollars to Washington, money earmarked for mass transit and trains linking Cleveland, Columbus and Cincinnati.

6. Promoting Killer Vaccines
Kasich's appointee is advertising that parents of young girls should force them into 'anticancer' vaccines, the Gardasil of Merck which has killed dozens of girls and destroyed the ovaries of many more.

7. Library Funds Cut Five Times

Kasich has five times reduced further the money the state gives municipal libraries.

8. Encouragement of Bow and Arrow Hunting

Kasich has not cut the Ohio Dept. of Natural Resources funds designed to desocialize children to violence while teaching them how to shoot arrows into innocent animals.

9. Violence Increases When The State Encourages Children to Kill

FBI profiles of serial killers and countless studies indicate that serial killers come most frequently from the ranks of hunters, laboratory researchers on animals, butchers, men trained to kill in the military.

10. Factory Farm Inaction

Under Kasich's administration, there has been virtually no action to eliminate factory farms with their hideous animal cruelty, their dumping of trillions of gallons of solid and liquid waste into the watershed, their use of child labor etc.

11. Health Insurance

Under Kasich, Ohioans, not a wealthy state, pay the 4th highest insurance premiums in the country.

Residents of 11 Ohio counties including Medina, Summit, Stark, and Columbiana were not consulted when through fraudulent eminent domain their property was seized for a fracking pipeline, a consequence of the water poisoning earthquake causing fracking industry, a pipeline with massive risk of ground water pollution and explosions as well as environmental damage to people's property. This pipeline is thoroughly backed by Kasich and the Republicans in the Ohio House. Spectra Energy is attempting to ram through its 'Nexux Gas Transmission'.

Ohio has not since Al Gore was elected president been a Republican state, only a Republican vote fraud state.

The Republican Party's decision to choose Cleveland Ohio as its convention site this year is partly due to Ohio's alleged historical role as a swing state, but also a bid to try to keep executioner John Kasich in the governor's office. Previous Republican Party thefts of the Ohio vote helped install the unelected George Bush twice. These are documented in a congressional committee investigation and by many numerous studies including one by Robert F Kennedy Jr. published in Rolling Stone magazine.

Time To Replace Executioner, Petroplutocrat Pawn, Library Funds Slasher John Kasich
Only 5 governors of 50 are still murdering prisoners in the name of the state. One is John Kasich of Ohio and to replace him with soon to be 47 year old Ed Fitzgerald.

Executioner, mass transit opponent, slasher of library funds, nonenforcer of Ohio environmental law, governor John Kasich should be dumped this fall. Please help make Democrat Ed Fitzgerald governor of Ohio.

While Kasich spends millions of state money for each murdered prisoner and uses tax money to support brutal bow and arrow hunting, he has cut library hours FIVE times. In Summit County 15 fewer hours a week at the library are now available.

REPUBLICAN EXECUTIONERS
The current incumbent, John Kasich, is one of only FIVE governors our of FIFTY still involved in the barbarism of state murder of prisoners (execution). The US is one of only 12% of the world's countries still involved in judicial, prosecutorial, gubernatorial or other government murder. Kasich ignores Episcopalian, Lutheran, Catholic, Methodist, Presbyterian, Hindu, Buddhist, Jain, Jewish and other groups opposed to state murder. Republicans on the Ohio Supreme Court have helped.

REPUBLICAN OIL AND GAS
Stop the fracking industry and Kasich from poisoning Ohio's waters.
TRAINS

When Abraham Lincoln was murdered, a funeral train brought his body through Cleveland and Columbus to Cincinnati. In the early 1900’s, a triumvirate of powerful car, gas, and tire men sought around the country to kill trains and streetcars. The Cleveland to Cincinnati train disappeared. For many decades now Ohioans have been working to bring back that train. But Kasich, indebted to oil and gas men for his election, sent 400 million dollars in mass transit money back to Washington. 2 of the 3 (Rockefeller, Ford and Firestone) who destroyed the US train system were Ohioans. Many cities and towns in Ohio clamored to be included in the Cleveland to Cincinnati route. Amtrak ridership has increased 10 of the last 11 years. Trains are hundreds times more efficient than planes, buses, and cars. Kasich was not alone in vetoing the mass transit wishes of citizens. Executioner Governor Rick Scott of Florida and unionbuster Scott Walker of Wisconsin also sent back hundreds of millions.

HEALTH CARE

Because of the Cleveland Clinic, Summa, and other hospital conglomerates as well as insurance scams by United health Care and others, Ohioans pay the 4th largest premiums in the country. When Kasich came into office he began slashing Medicaid recipients from the rolls and increasing copays for the poorest Ohioans. When a number of states recently took federal funds to expand Medicaid, Ohio was among them but the negligent phone contacts, the months and months for approval have made the Republican supervision of Medicaid in Ohio very inefficient. Medicaid applicants are not always known if their are rejected, nor the reason for the rejection.

OHIO PENSIONS: KASICH ADMINISTRATION STEALING FROM TEACHERS

Ohio has an unusually high percentage (15%) of its teacher pension funds invested in hedge funds which follow the two and twenty rule. They automatically take 2% of all the assets and 20% of the profits.

REPUBLICAN JOB FALSIFICATION
The Kasich administration has falsified its jobs record.

LIBRARY FUNDING CUT FIVE TIMES.... HUNTERS HELPED
John Kasich has 5 times further reduced the money for Ohio libraries, yet there have been no such reductions.
for the 5% of the population who enjoy slaughtering bears, killing deer, trapping beaver. The Ohio Dept. of Natural Resources actually spends tax money promoting the brutal blood 'sport' of bow and arrow hunting. Some state university libraries which by law must allow use by community residents have been making these patrons stand at computers. Ohio funded libraries seldom provide scanners, microphones, current software.

KASICH CORRUPTION
John Kasich was an executive of Lehman Brothers when that company went bankrupt.

He was a frequent warmonger guest on monopolist Rupert Murdoch's Fox News. Murdoch's NewsCorp has been itself making news illegally tapping British citizens.

He has accepted over a half million dollars in contributions from his political appointees.

WAR OR PEACE

When a regular guest on Fox News, John Kasich frequently promoted the illegal wars of G W Bush.

BILLIONS FOR BUILDINGS

Under Kasich, Voinovich, and Taft, billions have been spent for buildings and stadiums... but few can afford to go to college in these expensive buildings constructed by corporations which contributed to Republican governors.

REPUBLICAN VOTE FRAUD

The Republicans of Ohio have cut way back on early voting because they are a minority party. The Republican attorney general of Ohio has tried to throw 26 million dollars of state legal business to one of his biggest Columbus law firm contributors. Ohio Republicans were responsible for vote fraud which twice installed the unelected George W Bush and stole the presidency of the elected Al Gore and John Kerry.

PENSION ENDANGERING

Ohio pension funds under the control of Republican Josh Mandel and others are dangerously invested in fast food despite Wall St. warnings that fast food chains
are a bad investment.

PROCHOICE PROLIFE

One controversial issue is abortion legislation. The majority of people favor the right to have a first trimester abortion while opposing third trimester abortions. Women's rights groups are often on the opposite side of fundamentalist groups and half of Catholics. Kasich has taken a 'prolife' position, while frequently on Fox News supporting the illegal wars in Iraq and Afghanistan, bombing of Libya etc in which abortion by bomb has been committed.

ANIMAL RIGHTS

Kasich opposed Ohioans For Humane Farms legislation.

Many animals died because Kasich was late to act on exotic animals. The Kasich administration's ODNR has aggressively spent tax dollars promoting the torture of animals called bow and arrow hunting. Members of the Kasich administration have encouraged local communities to massacre deer rather than working on expanding habitat for voiceless animals.

Kasich administration Republicans have done virtually nothing to shut down brutal Ohio factory farms.

INSPECTOR GENERAL WHO DOESN'T INSPECT

HUMAN RIGHTS CAMPAIGN ENDORSES FITZGERALD

Despite Ed's youthful appearance he will be 46 in 2014 and has experience as a mayor, a county executive, and in law enforcement.

CORRUPTION IN REPUBLICAN ADMINISTRATION
PEOPLE'S LIVES DESTROYED, PRISONS CLOGGED WITH POT ARRESTS UNDER KASICH'S OUTDATED LAW ENFORCEMENT

ENVIRONMENTAL PROTECTION GOES BACKWARDS IN KASICH ADMINISTRATION

From derailing antifracking action and inaction regarding forest protection or killing untold numbers of trees for lottery tickets, the Kasich administration has been the enemy of nature. Kasich's brake on Ohio trains has meant more gas and oil pollution.

Ohio Gov Kasich Promoting Killer 'Vaccine' Which Also Destroys Teen Ovaries

The Ohio Department of Health, led by an appointee of Republican Governor John Kasich, is running public service spots promoting Merck's Gardasil, a lethal 'anticancer' vaccine which has killed dozens of preteen and teen girls and which destroys their ovaries.

Because of an outcry in Texas when Governor Rick Perry, who has killed more people in the death chamber than any other governor in US history, tried to make the alleged cervical cancer vaccine mandatory, he withdrew his support during his short presidential campaign.

Merck continues to promote the toxic 'vaccine' which prevents no cancer but causes deaths. This promotion is done through some of Merck's politicians who have received contributions from the company.

The Ohio Department of Health is criminally silent about the real causes of cervical cancer: meat, fish and dairy products loaded with the hormones forced on animals to make them gain water weight before slaughter.

Some wonder if an ovary destroying drug is not a depopulation scheme.

George Merck's bioterror weapons were a few years ago destroyed at Ft Meade in Maryland.
Unfortunately some radio stations heavily involved in the advertising of products from animal agony.... are promoting the public service spots.

Ohioans can vote out Kasich in November and change leadership of the Ohio 'Department Of Health'.

Google claimed falsely that they do not control the algorithms which were a part of the hundreds of categories of fraud used by the Republican Party. Google is once again using similar tricks in the Fitzgerald campaign.

Zz Oil Companies Try To Quash Tesla Cars

Old man winter's icy claws can not prevent the spring nor can petropawn state legislatures stop what the future brings

Petropawns in mostly red states have banned the sale of Tesla cars because of the corrupt petropawn legislatures' of these states, while 20 states allow the sale and there is litigation in Arizona.

For over 100 years, the oil and auto industries have conspired to destroy train systems and electric cars. Patents for electric car engines were secretly bought up and destroyed. The federal government was a coconspirator in requiring the destruction of electric cars in the mid 90's, under the fraudulent argument that state standards cannot be higher than the national government's, thus condemning the populace to the lowest common denominator. (The same corrupt standard has been used by the Republicans of the Ohio Supreme Court to quash city antifracking legislation).

What do these people have in common? They all own a Tesla.

There are issues in which the traditions and teachings of the Catholic Church have opposition. Some of these issues are

1. prolife or prochoice

2. the male domination of the church hierarchy

3. traditional marriage vs gay rights (The Pope has said no one should judge amother)

4. the suppression of the vegetarian diet of Jesus (a diet followed initially by Franciscans, Trappists, Cistercians etc.
5. the canonization of a missionary Native Americans say was not compassionate

6. bullfighting... centuries ago a papal bull excommunicated any priest who attended the blood sport of bullfighting.... the church has not yet taken a stance against specific customs of animal cruelty, such as foxhunting.

President Jimmy Carter's grandson, Jason, is running for governor of Georgia.

10 years ago, said NPR, Georgia was 70% white. Now it is 60% white with the rest divided among blacks, Latinos, and Asians. There are strong voter registration drives to bring 800,000 of the minority groups to the polls this fall.

From Wikipedia

A graduate of Duke University, Jason Carter volunteered for the Peace Corps in Lochiel, South Africa. He was an educator who became fluent in Zulu and Siswati. He is the author of Power Lines, about his experiences there.

Carter is a summa cum laude graduate of the University of Georgia School of Law.

He was a lawyer for the National Football League Players Association and was awarded the Stuart Eizenstat Young Lawyer Award for pro bono work defending voting rights.

Carter represented Georgia's 42nd district in the State Senate. receiving 65.6% of the vote. He won reelection in the 2010 and 2012 general elections where he authored legislation to require the state budget to be presented in two parts: first, a separate education budget, and then a budget to fund the rest of state government.

Carter also sponsored ethics reform legislation, including proposals to limit gifts from lobbyists to legislators, to create and fully fund an independent ethics commission, and to create a non-partisan redistricting commission.

In 2012, he was awarded Common Cause's Democracy Award for work in ethics reform.

In 2014, Carter voted for House Bill (H.B.) 60, the Safe Carry Protection Act
which opponents nicknamed the 'guns everywhere' Safe Carry Protection Act takes effect on July 1, 2014, and permits licensed gun owners to carry guns into many public and private places. The law is supported by the Georgia Baptist Convention which includes 3,600 Baptist churches in Georgia in favor of increased church autonomy, but is not supported by Catholic or Episcopalian church leaders.

President Carter is in this writer's opinion, the most spiritual president we ever had.

SENATE

Republican senator Saxby Chambliss is retiring. He along with his fellow Republican senator and 2 Oklahoma Republican senators, Coburn and Inhofe, worked to pass the Animal Enterprise Terrorism Act which criminalizes first amendment protected free speech in many instances for animal rights activists working to expose the brutality of factory farms and slaughterhouses.

Michelle Nunn, daughter of Senator Sam Nunn, is running on the Democratic ticket.

'Michelle Nunn is the CEO of Points of Light, the world's largest organization dedicated to volunteer service.'

David Perdue, the Republican candidate, in a deposition under oath said he had outsourced many textile jobs from Georgia. He is also the former CEO of Dollar General, a chain which has virtually no health food. He denigrated his Republican primary opponent saying she had only a high school diploma. He has no such handle with Michelle Nunn.

Perdue has asked for the support of his cousin, Sonny Perdue, former Georgia governor who killed 17 prisoners in Georgia's death chamber.

Zz Sai Baba And Car Miracles

A TINY FRACTION OF BABA'S MIRACLES INVOLVING CARS

KASTURI'S CAR

English professor and poet Narayana Kasturi was an employee of All India Radio. He had in an Indian humor magazine made fun of Sathya Sai Baba. After a series of miracles involving his family, he became a devout follower and editor of Baba's magazine Sanathana Sarathi (eternal charioteer, a reference to Krishna who would not fight in the Mahabharata war but instead was charioteer for Arjuna.)

One day a car caravan as often happened was following Baba's car to a destination. One after another, parts fell off of Kasturi's car. When they arrived Kasturi took the car to a mechanic who said it was physically impossible for the car to have arrived.

Kasturi went to Baba and asked 'Was it because we are good devotees that you did this miracle for us?' and Baba replied 'The car, the car is a great devotee.'

FOUNDER OF HARD ROCK CAFE

In California, Isaac Tigrett who founded the Hard Rock Cafe chain, was driving his Porsche at 90 mph while intoxicated and found it going over a cliff. Suddenly a man materialized in mid air and pulled him out of the car and set him on the top of the hill as the car crashed below. Tigrett was unharmed. Time passed. He was in a London book store and saw on a book cover that the man who had saved his life was Sai Baba.
A HUNTER’S CAR STALLS

A hunter shot a tiger. Later his car stalled near Puttaparthi. Baba’s ashram village. His driver told the hunter that Baba was in the village and would be able to start the car. The hunter sent his chauffeur to find Baba, who returned and told the hunter he had orphaned to tiger cubs and should see to their welfare. Baba then slapped the car, whose engine ignited.

CAR COLLISION

JMF was driving. Her two toddler daughters were in the back seat. As she turned, a speeding motorist hit her side of the car and totaled it. Glass had shattered all over the little girls. Yet neither she nor her children had been injured in the slightest.

PARTING THE RED SEA

SNS, a Sai devotee stopped her car and went across the road to gather some nuts in the gutter. She took 4 minutes to collect them. When she turned around the car was gone.

Looking frantically around she saw it a block and a half away, in what would normally be the grass strip in front of the sidewalk.

It had rolled back, through an intersection. It had avoided trees, people, children, animals, moving and parked cars, homes.

The one place onto which it rolled and stopped had no grass, but was dirt dug up for planting.
Only the ruts in the mud
were proof that Baba had parted
not the sea but the land for her
when she had failed to put the car
in park.

William Shakespeare had unusual empathy for the suffering of animals, birds, fishes, insects and plants. Among his endless stream of words are his thoughts on calves, bears, deer, pigs, horses, rabbits, wrens, beetles, flies, bees, animal research, hunting, plant consciousness etc.

OF CALVES

Henry VI Part II, act 3, scene 1, lines 202-220

Thou never didst them wrong, nor no man wrong;
and as the butcher takes away the calf,
and binds the wretch, and beats it when it strays,
bearing it to the bloody slaughter-house,
even so, remorseless, have they borne him hence;
and as the dam runs lowing up and down,
looking the way her harmless young one went,
and can do nought but wail her darling's loss.

Hamlet: It was a brute part of him to kill so capital a calf.

ON DEER

As you like it act 2, scene 1, lines 24-71

Duke s: . come, shall we go and kill us venison?
and yet it irks me, the poor dappled fools,
being native burghers of this desert city,
should in their own confines with forked heads
have their round haunches gor'd.
first lord. indeed, my lord,
the melancholy jaques grieves at that;
and, in that kind, swears you do more usurp
than doth your brother that hath banish'd you.
to-day my lord of amiens and myself
did steal behind him as he lay along
under an oak whose antique root peeps out
upon the brook that brawls along this wood;
to the which place a poor sequester'd stag,
that from the hunters' aim had ta'en a hurt,
did come to languish; and, indeed, my lord,
the wretched animal heav'd forth such groans
that their discharge did stretch his leathern coat
almost to bursting, and the big round tears
cours'd one another down his innocent nose
in piteous chase; and thus the hairy fool,
much marked of the melancholy jaques,
stood on the extremest verge of the swift brook,
augmenting it with tears.

duke s. but what said jaques?
did he not moralize this spectacle?
first lord. o, yes, into a thousand similes.

first, for his weeping into the needless stream;
'poor deer,' quoth he, 'thou mak'st a testament
as worldlings do, giving thy sum of more
to that which had too much: then, being there alone,
left and abandon'd of his velvet friends;
'tis right,' quoth he; 'thus misery doth part
the flux of company: ' anon, a careless herd,
full of the pasture, jumps along by him
and never stays to greet him; 'ay, ' quoth jaques,
'sweep on, you fat and greasy citizens;
'tis just the fashion; wherefore do you look
upon that poor and broken bankrupt there? '
thus most invectively he pierceth through
the body of the country, city, court, '
yea, and of this our life; swearing that we
are mere usurpers, tyrants, and what's worse,
to fright the animals and to kill them up
in their assign'd and native dwelling-place.

duke s. and did you leave him in this contemplation?
sec. lord. we did, my lord, weeping and commenting
upon the sobbing deer.

ON WRENS

Lady Macbeth:
Even the fragile wren, the smallest of birds, will fight against the owl when it threatens her young.

ON VIVISECTION OR RESEARCH ON ANIMALS WHICH HARDENS THE HEART

Cymbeline act 1, scene 5, lines 7-32

I will try the forces

ON BEARS AND OTHERS

King Lear: Horses are tied by the heads; dogs and bears by the neck; monkeys

ON BOAR HUNTING

*

ON HUNTING RABBITS

Venus And Adonis: The hunted hare...

And when thou hast on foot the purblind hare,
mark the poor wretch, to overshoot his troubles
how he outruns the wind and with what care
he cranks and crosses with a thousand doubles:
the many musets through which he goes
are like a labyrinth to amaze his foes.

Sometime he runs among a flock of sheep,
to make the cunning hounds mistake their smell,
and sometime where earth-delving conies keep,
to stop the loud pursuers in their yell,
and sometime sorteth with a herd of deer:
danger deviseth shifts; wit waits on fear:

For there his smell with others being mingled,
the hot scent-snuffing hounds are driven to doubt,
ceasing their clamorous cry till they have singled
with much ado the cold fault cleanly out;
then do they spend their mouths: echo replies,
as if another chase were in the skies.

By this, poor wat, far off upon a hill,
stands on his hinder legs with listening ear,
to harken if his foes pursue him still:
anon their loud alarums he doth hear;
and now his grief may be compared well
to one sore sick that hears the passing-bell.

Then shalt thou see the dew-bedabbled wretch
turn, and return, indenting with the way;
each envious brier his weary legs doth scratch,
each shadow makes him stop, each murmur stay:
for misery is trodden on by many,
and being low never relieved by any.

Lie quietly, and hear a little more;
nay, do not struggle, for thou shalt not rise:
to make thee hate the hunting of the boar,
unlike myself thou hear'st me moralize,
applying this to that, and so to so;
for love can comment upon every woe.

Puzzled wondering why
so many heads are hollow,
so many mean are walking beasts,
so much brutality blots the land,
such epidemics of violence,
such vertigos of sensuality
inoculate and intoxicate the race.

Zz Six Black Ops Which Caused Or Expanded Us Wars

1. World War 2
   The vast majority in the US did not want to enter the war.... Many including Gore Vidal have written that
   the US government had broken the Japanese code, knew the Pearl Harbor attack
   was coming, could have prevented it, but needed an attack by Japan to mobilize the populace. Roosevelt had engaged in many policies of provocation of the Japanese, including preventing their purchase of Western oil.

2. Vietnam
   the Tonkin Gulf was a black op by LBJ and others to justify their enlarging of the war

3. World War 1
   As in World War 2, the US population did not want to enter the slaughterhouse of the war,
   a war of capital conflicts between German and British markets. The Zimmerman telegram
   to Mexico was a forgery. In it the German government is alleged to have asked Mexico to
   invade the US. Because of the Zimmerman telegram, peace loving people were roused
   by the media to enter the war. Reilly, Ace of Spies, is one public tv series on the
   black ops of Britain in WW1.

4. Afghanistan
   There are millions of sites about Sept 11,2001 as a black op by the Mossad and certain cells within the CIA. Cui bono? The US government invaded Afghanistan shortly thereafter.

5. The Spanish American War
   'Remember the Maine' was the war cry of the Hearst media machine.

   The sinking of the USS Maine in Havana harbor was blamed unjustly on Spain as the US government sought to dismantle the Spanish control of Cuba.

6. Iraq
G H W Bush oversaw the slant drilling of oil... the theft of Iraqi oil through pipes in Kuwait. This was an act of provocation. He then sent April Glaspie of the State Dept. to Saddam Hussein to say that the US would not become involved should Iraq invade Kuwait, historically a part of Iraq. It was an Anglo Iranian oil engineer (the company is now BP) who drew lines around the richest oil deposits of Iraq at the end of the Ottoman Empire... and termed the land Kuwait as the UK government installed a puppet on a manufactured throne.

UNDERREPORTED MISCELLANEOUS HAZARDS... THE FREEZING IN AFGHANISTAN .... THE HORRIFIC HEAT OF IRAQ AFTER TREES BOMBED AWAY

No War in US History has
had such a high ratio of casualties
to deaths.. as of August, 2007, over 3681
deaths, over 40,000 casualties

suicides, homelessness, over 40,000
wounded, blinded, paraplegic and otherwise mutilated men and women..
land mines, depleted uranium, sniping, food poisoning.. toxic vaccines..

The Humvee is the most frequent tomb for American soldiers in Iraq.

****

I HEALTH HAZARDS

1 DEPLETED URANIUM 81 times the world's average, Dutch soldiers refuse to remove the depleted uranium, which can cause immediate damage to the prostate before its longterm effects. This is extended to children of soldiers with birth defects are caused by depleted uranium, napalm and other toxins.
2 LETHAL VACCINES of Chiron, Aventis Pasteur, Lilly, Roche and Glaxo Smith Kline over 100 million doses at 20 to 40 a shot.. or several billion for war profiteers

The latest victim is a servicewoman from Norton Ohio.

3 FOOD POISONING from packaged meals and from Halliburton contracted cafeterias

4.137 DEGREE HEAT, (multiplied by as much as 55 lbs of carried gear) has caused fatal heart attacks to dozens. Such heat can turn soap bars into liquid, turns metal packaged ingredients more toxic.. and its opposite:

5 FROSTBITE US soldiers in Afghanistan are getting frostbite.39 soldiers died of frostbite in 1 night in Korea. The generals' feet have been warm..

6 INSUFFICIENT MEDICAL PERSONNEL AND SUPPLIES NPR reported insufficient medical supplies and medical personnel for the several thousand injured.

7 GUTTED VETERANS' ADMINISTRATION an underfunded understaffed undersupplied VA hospital system gutted by the illegal administration. (There are Republican senators who have voted 11 times to cut veterans' benefits)

8 AGENT ORANGE American soldiers are still dying, untold thousands, from Agent Orange, napalm in Vietnam, in Colombia

9 GULF WAR SYNDROME American soldiers are still dying, untold thousands, from Golf War Syndrome. Those who have not died in some cases have passed birth defects to their children
10 HUMAN GUINEA PIGS While corpses have been blown apart by the Army for land mine shoewear tests (rather than sign the landmine ban) 7000 American soldiers have been used as human guinea pigs. -natur...m/ Captain Joyce Riley, USAF, one of the many truth telling whistleblowers in the US military

11 CANCELLED MEDICAL BENEFITS for WW2 vets, as international cartels' hireling judges rule that the WW2 recruiting officers had no legal right to offer these contracts. In the same week, billions were sent to Ariel Sharon who is using some of the money to separate Palestinians from their olive orchards, grapevines, places of work, food supplies etc.

12. HYGIENE VERY DIFFICULT Robert Wise, 21, of Tallahassee, wrote home he had not been able to take a shower in 20 days.. just before being killed in Iraq.

13 SANDFLIES Whether facial and other lesions are caused by sandflies as generals say or by depleted uranium, they are called Baghdad boils. The many lethal ingredients in chemtrails affect soldiers as well,

14. INSECTICIDES Insecticide disseminators at military bases have reactions from toxicity induced mental illness and metal poisoning to bone cancers.

15. CHEMTRAILS.. the chemtrails ingredients which poison the skies are in highest concentrations where they are stored and handled,

16. GUANTANAMO.. the torture of prisoners by the CIA in Afghanistan and by the USA military in Guantanamo.. has returned to Blackwater Security personnel.. as the Wolfowitz cartel has reduced the standards of international treatment of prisoners. Torture is a double edged sword which returns to soldiers of the torture hierarchy.

17 FOOD SHORTAGES Food shortages were caused by both inefficiency and Halliburton and other profiteering. 'US marines down to two hot meals a day' was the headline of one story.
18 LACK OF COUNSELING
Buzz Williams, Marine and author: When a soldier most needs a listening ear and counseling, he is least likely to receive it.

19 VETERANS ADMINISTRATION GUTTED
In the few VA hospitals which remain, soldiers of the poor are made unconscious guinea pigs of pharmaceutical drugs. The VA is made the arm of the pharmaceutical industry. The Washington Post in February of 2007 did a series on shocking conditions at Walter Reed Hospital to which horribly mutilated soldiers are brought.

20 WEAPON BOOMERANGS
Dangerous new bullets used by USA military can boomerang on the soldiers.

21 MERCENARIES BAD FOR MORALE
Senator Biden said in April that a system which pays private security as much as $1500 a day is bad for the morale of those paid much less (peanuts).

22 HUMVEE VULNERABILITY
Humvee vulnerability
TV news reported that 400 million will be spent on new Humvee's war profiteers rejoice as they continue to churn out a shoddy product, that even though newly armored, is vulnerable in tires, low windows and crowd caused rollovers

23 CARCINOGENIC PERCHLORATE
in rocket fuel, explosion materials and on many military bases in the water systems etc. is besides a cancer causer a harmer of thyroid function

24 DISRESPECT FOR SPIRITUAL DIETS
the lactose intolerant sometimes forced into dairy
The Danish dairy firm Maersk has 2 billion a year in contracts

Halliburton and other war profiteers are not providing enough health options in the way of vegan alternatives, fresh fruit, vegetarian protein.
25 HIGHEST CASUALTY TO DEATH RATIO EVER the highest casualty to death rate in history over 3681 American soldier deaths over 40,000 casualties (over 2 million deaths for Iraqis since Churchill bombed 9000 in 1920, since sanctions, Desert Storm, and now the worst of all..the 'Coalition')

26
War is not the only cause of deaths in the US military.

Compulsory vaccinations from Glaxo and others, new viruses, Lariam made by Roche, food poisoning, helicopter accidents, training deaths, live ammo deaths in training, friendly fire.. drowning in mud at Camp LeJeune and elsewhere are some of the causes of military fatalities

nonlethal: broken ear drums from flight training ... frostbite

27. AMMONIA Ammonia contamination by the Army Corps of Engineers

28 CHILD DEFORMITIES
A. Children of soldiers born deformed because of depleted uranium

B. Children of women separated from their husbands by war score lower on IQ tests, have more emotional problems, less health

29 DRINKING WATER SUPPLIED AT HIGH PRICES BY HALLIBURTON'S KBR IS CONTAMINATED Troops sickened by Halliburton KBR water

30. STINGER MISSILES THE CIA GAVE THE TALIBAN AND MUJAHIDEEN

The neocon regime has been willing to expose American soldiers
to death by stinger missiles. Soldiers have been exploded onto
the sharp and freezing peaks of the Afghan mountains at night.
The neocons don't care about the lessons the British and
Russians learned from their Afghan adventures.

33. Halliburton's subsidiary Kellog Brown Root (KBR) has electrocuted at least

35 Independent sources say there have been many electrocution

GOD bring the tankfodder poor home now..

II VIOLENCE FROM A VIOLENCE GENERATING SYSTEM

1 RAPES Congress in February 2004 hearings on American servicewomen,100 of
whom have reported being raped. A naval ship captain who is repressive is
responsible for the liberty
excesses of the sailors aboard his ship in the same way that those who build
up steam in pressure cookers can be responsible for explosions.

2 SUICIDES. Blinded, paraplegic, horribly burned and other soldiers kill
themselves at higher rates than the general population. (from conscience, from
stress, from drug reactions, etc.)
lres...ext=va&aid=7947

3 PTSS Post Traumatic Stress Syndrome.. plagues untold millions.. some in a
recognizable way.. some in a hidden way.
4 ANIMAL CRUELTY In Florida, California and elsewhere US soldiers have been ordered by military to destroy or to take to the pound their pets.

5 ALCOHOLISM AND DRUG USE Alcoholism is greatest among Marines but a growing problem in all services as the slaves of war profiteers feel trapped and seek escape. The Pentagon released a study in March 2004 indicating 1 in 5 in the military have a serious drinking problem.

6 ASSOCIATION VIOLENCE Any involvement in a violent system has negative associative effects for those involved.

7a. EXPLOITATION While USA soldiers are dying for perhaps 1/2 of minimum wage, assassins from Blackwater Security are profiteering from the outsourcing of war at the rate of $1000 to $2000 a day.

7b VIOLENCE TO CIVILIANS MAN OUT OF MARINE CORPS A YEAR KILLS FOUR AND WOUNDS 2 IN COLUMBUS OHIO CLUB

Columbus police identified the gunman as 25-year-old Nathan Gale of Marysville, Ohio, a former lance corporal in the Marine Corps.

8 Roche's Lariam has caused at least 4 Marines to kill their wives.

9 Officers returning home after ordering around privates like pawns... throw their weight around with relatives friends and coworkers.

III MILITARY INEFFICIENCY

1 FRIENDLY FIRE DEATHS

2 LACK OF PROTECTIVE GEAR such as vests

3 LAND MINES which US cartels want kept legal (US Govt and Israel, 2 of world's only non signers of the treaty)
4 HUMVEE OVER ROADSIDE BOMBS has happened so frequently..

5 TRAINING DEATHS

6 MACHINES MADE BY WAR PROFITEERS dangerous designs in Osprey helicopters and vulnerabilities in Chinook and Black Hawk helicopters
(LK: 'If you want helicopters to work better, stop naming them Black Hawk, Apache and other Native American names.) .. Sikorsky one of companies

7 BOMBS by some of the 13,000 cluster bombs dropped, 2000 of which are by Blair's troops.

8 OFFICERS who care more about career than the safety of their soldiers

9 SOLDIERS ARE PROGRAMMED to believe that what they are doing is for the freedom of their own country
The idealism of soldiers in every illegal and immoral war has been manipulated as they have been programmed to think they are protecting their country.

10 WHAT IS A PRIVATIZED MILITARY? MERCENARIES
More and more military operations are being given to private war profiteer companies, interested in money, not the welfare of the soldiers. CACI, Titan, Blackwater Security

Poster cannot translate the caption of the picture USC posted elsewhere... but the picture illustrates
the itching effect of carrying 100 lbs of gear in 135 degree heat.

Steps To Less Us Gun Violence

The second amendment question is complex. One need not ban guns to make constructive changes in US gun policy. It seems we are alone in the world in the number of mass shootings and have a higher murder rate than other countries in the technologically developed world.

1. Should guns be available only in licensed shops
   a. not over the internet
   b. not in WalMart and other chain stores
   c. not in gun shows
2. Should gun laws be enforced more than at present?
   (Nowt if a store operator has not heard back in 3 days on a background check he may go ahead and sell the gun)
3. Is US gun violence related to hunting as well as other factors? A high percentage of serial killers of human beings have been trained to kill animals by parents, 4H, or others. A major source of income for the National Rifle Association is hunters.
4. Is US gun violence related to the numbers of wars the US government has involved the country. Studies indicate that soldiers trained to kill are more likely than those who've never been so trained... to be violent with guns.
5. Is murder easier with a gun? It has been said that more are able to kill with guns because there can be distance between the killer and his or her victim. It is a widely documented fact that in Europe there are stricter gun laws and fewer murders.
6. Should assault weapons be banned?
7. Should there be stricter background checks?
8. Gun manufacturera profiteer from guns. Should they be held liable? Should they be prevented from advertising?
9. Should governments avoid scapegoating the mentally ill who have been healed?
10. Does corporate media in the US immerse children and adults in violence, shootings with programs such as Criminal Minds, with police shows such as Cops Reloaded, with the Justice Channel etc? Is such immersion a form of programming? '
11. Should courses in nonviolence be taught in grade schools, high schools, and colleges. Colman McCarthy, former Trappist monk and later Washington Post syndicated columnist, has taught Peace Studies for many years. John Looney of the American Friends Service Committee with others developed a course on
nonviolence to be taught in schools.

Zz Sweetener Industries Killing Animals

Fruit Sugar, Fructose, Is Better Than Sucrose, Beet Or Cane Sugar, Aspartame

How do the cane sugar, beet sugar, artificial sweeteners like aspartame harm animals?

1. Sugar comes from sugar cane or beets. Sugar cane fields are often burned to make harvesting easier. Mammals, birds, reptiles, insects are burned alive. Animals are shredded when the beets or the corn are harvested by huge machines.

2. The charcoal of animal bones, also called bone char, bone black, ivory black, animal charcoal or abaiser, is used as a whitening agent for cane sugar. Jay Dinshah of the American Vegan Society was one of the first to point out that char was a carcinogen.

3. Aspartame (NutraSweet) was originally developed as an antkiller, designed to entice ants through its false sweetness to their deaths. The FDA was banning aspartame which causes brain lesions when Ronald Reagan as a favor to Donald Rumsfeld circumvented the FDA. Rumsfeld was at the time CEO of Searle which was marketing Aspartame.

4. Sweeteners derived from tree fruit to not cause the death of plants. Any tree, vine, berry bush or plant which drops sweet fruit as a gift can be a source of fructose or fruit sugar. Date sugar is very common. Dates and grapes are 2 of countless fruit sugar sources. Many fruits are 40 to 66 percent fructose.

5. Fructose is sweeter than cane sugar.

6. There are at least three kinds of fruit sugars. They are monosaccharides, disaccharides and polysaccharides. Unlike sucrose from plants which burns in the body in the way a match flame ignites and dies, fruit saccharides given an even energy flow to the body over several hours. First the monosaccharides, then the disaccharides, and finally the polysaccharides are processed.

7. Fructose or fruit sugar bypasses the pancreas. Marion Burros, food editor of the New York Times, reported that fructose does not require the secretion of insulin. The trioxypurines of mammal, bird and fish flesh, as well as plant sugars, are all factors in pancreatic cancer. A diet of too much sugar is also a
cause of diabetes.

8. Who is leading the attack on fructose? The animal killing cane sugar and beet sugar industries as well as aspartame marketers.

9. Fruit sugars are better for the environment. They are not derived from linear rows of crops but spherical trees with many times the volume of green leaves.

10. The US government has for decades subsidized sugar.

11. Linus Pauling, only winner of Nobel prizes in both biochemistry and peace, wrote that an orthomolecule (or ideal molecule) was a fruitarian molecule. He also wrote that neurotransmitters in the human brain are similar to the molecules in fruit.

12. Avoiding all processed and concentrated sweeteners is best. But if you don’t wish completely to eliminate sweets, please know who are funding the 'scientific' propaganda and that sweets derived from fruits are better than sweets derived from killing plants.

13. There is slave labor and worker abuse in the sugar industry. (Thank you to Sarah Perrote for referring to it)

Who are the presidential peacemakers?
Who are the presidential warbreakers?

In the Democratic Party 2 of the 5 major candidates are peacemakers. The Republican Party has only 1 of 17.

THE ANTIWAR PEACEMAKERS:

Governor, Senator and Mayor Lincoln Chafee of Rhode Island Democrat

Senator Rand Paul Republican, former eye surgeon, son of Ron Paul (The Republican Party stole several primary victories from his father Representative Ron Paul in the 2008 election. It and corporate media are trying to derail Senator Paul.) It is interesting that Ben Carson's role as surgeon is widely publicized by corporate media while eye surgeon Senator Rand Paul's achievements are censored. The boyish looking Paul is actually 53.

Governor Martin O'Malley Democrat (unlike Chafee and Paul, O'Malley does not emphasize his antiwar position)

The Green Party Candidates

Most Libertarian Candidates

Socialists
and others

Governor Chafee is the strongest abolitionist of the Democratic Party and one of 2 candidates (Martin O'Malley as well) who oppose the wars Bush and Obama have waged.

As governor of Rhode Island, he refused to turn a prisoner over to the federal government, because unlike over 2/3 of the world and unlike 45 US states, the federal government kills some prisoners.

As senator representing Rhode Island, Lincoln Chafee changed from Republican
to Democrat when he disagreed morally and strategically with the decision of the Bush administration to invade Iraq.

Chafee has been governor of Rhode Island, a senator from Rhode Island and a mayor reelected several times. His father John Chafee was also a senator and governor, as well as Secretary of the Navy.

Gov Chafee signed a bill to increase minimum wage

Governor Lincoln Chafee refused to hand over a prisoner to the feds.... because unlike him, Rhode Island, and 44 other states, the feds wanted the man dead.

WARWAGERS:

Bernie Sanders was originally a conscientious objector, but supports the war in Afghanistan and a coalition to remove Assad. (Both George Bush and his father used the term 'coalition' but the US government was the primary invader of Iraq both times.)

Hillary Clinton has been hawkish throughout her senate and cabinet careers.

Joseph Biden has been silent or a supporter of Bush Obama wars.

16 of 17 Republican candidates for president are hawks who support further slaughter of innocents and combatants around the world as all but 1% of the US are impoverished, with schools, libraries, roads, bridges, hospitals etc. declining.

Rand Paul's campaign is censored by corporate media because a. he opposes the military industrial complex and b. because he opposes giving 30 billion a year in arms and money to the Netanyahu administration.

The Double Standard Of PBS TV And Frontline Re Vladimir Putin

Frontline, a 'news' show of PBS TV, did a 'biography' of Vladimir Putin, mentioning

1. the 110 oligarchs of Russia (those profiteers who stole the people's assets after Harvard economists were indicted by the Clinton presidency for deliberate destabilization of the Russian economy) but not the 400 richest Americans (each of whom has more than 1.55 billion according to)

2. that Putin put a rein on the oligarchs, jailing the most egregious of the thieves, Mikhail Khodorkovsky. Frontline simultaneously criticized Putin for Russia's oligarchs (who amassed their wealth during the G H W Bush planned destabilization, at the same time Frontline criticized Putin for acting against one of the oligarchs. (What billionaire in the US has been put in jail?)

3. the past war in Russia but not the ongoing wars of the US, 30 trillions of dollars or more for which have been stolen from the people of the US.

4. Putin's role as a minor officer in the KGB in E. Germany but not G H W Bush's role as head of the CIA

5. The assets of Putin but not that of Gerald Ford, who entered the presidency a man of modest means and left it as a billionaire, thanks to the pharmaceutical industry's 'swine flu vaccines'.

6. That Putin after Medyedev's term finished, began his 3rd term, but not that George Bush was never elected by the people of the US, not in 2000 nor in 2004.

7. secret trials in Russia but not the secret grand juries in the US, not the FISA Court secrecy, nor the trials in which the jurors are under gag rules and the court records sealed

Not mentioning

1. That Russia is among the 88% of the world's countries not involved in government murder, while the US remains one of the 12%, with the state of Texas executing more than many countries.
2. that Russia helps socialist countries while the US government overthrows democratically elected governments and assassinates socialist government leaders for the benefit of loan shark capitalism.

3. that Russia is not waging war against any country, while the handlers of our president are waging war in Afghanistan, Iraq, Yemen, Pakistan and other countries, murdering civilians and soldiers, animals, birds, reptiles, insects and trees.

4. A map of Goldman Sachs influence in the European Union, including in the Ukraine, can be seen as a motivation of socialist countries to take a stand.

This is written by a lifetime citizen of America, one who believes that before we point accusing fingers at others, we ourselves should be an honest democracy. With our unelected 5 Republicans who serve for life on the 'Supreme' Court, with our disproportionate Senate which gives cattle ranchers of Wyoming with its half million residents 72 times the power of citizens of California with its 36 million people, we have never been a democracy. The pawns of US oligarchs are oligarchs themselves in the US Senate. We have a rogue agency, the CIA, running amuck turning other countries' forests into muck as it bombs people who are sitting ducks. My own wish list for Russia includes disinvolving from the fur trade, deforesting lumber, etc.

The Many Ways Soldiers Die

In The Spanish American War
seven times as many US soldiers were killed by malaria and typhoid as by bullets.

In World War I, American soldiers were killed by poison gas bioterror.

In World War II and the Korean War they were killed by Japanese encephalitis 'vaccines'.

In Vietnam, they were killed by napalm and Agent Orange.

In Iraq they were killed by depleted uranium.

They are killed by suicide, drugs, alcoholism, STD's, friendly fire, training accidents, food poisoning, 135 degree heat, deaths by freezing in the mountains of Afghanistan, plane crashes.

They were sent to battle in unguarded Hummer's and in nonprotective clothing.

As the media and government paws of the plutocracy contemplate the heinous bombing of yet another country, may the citizens of the US and world speak out.

As deplorable, as horrifying as a death from decapitation is, thousands times more currently are dying from burns and smashings in plutocracy pawn Obama's airstrikes.

In God's eyes, all soldiers, all human beings are equal.

The concept of an omnivore's dilemma reminds one of Leo Tolstoy's statement: 'Who is worse? the wolf who dispassionately eats a lamb or the wolf who cries while eating?' The omnivore's dilemma is that he is addicted to meat (the trioxypurine in meat is stronger than dioxyypurine or caffeine).

Such omnivores might start a society of 3 legged mammals, for those who love meat but don't want to kill.

It is basically the meat, fish and dairy industries making trillions of dollars from the cadavers of murdered innocents who are trying to keep the dietary debate going.

When life insurance companies started giving discounts to vegetarians, vegans and fruitarians because of less cancer, heart disease, stroke incidence, kidney dysfunction, food poisoning, Alzheimer's, diabetes, obesity etc. it was because their bottom line is making money off of the longest lived people, vegetarians and vegans.

Books by Dr Stillman, Adele Davis, Dr Atkins, the Eads, etc promoting toxic high animal protein diets were funded by vested interests.

Zz The Purple Butterfly And A Toad's Severed Leg

In 1972 the writer's stepson David
was mowing the family lawn and accidentally
chopped the leg off of a toad. He was upset about it.

She suddenly
decided to stop mowing her
lawn. The following year when the local city
magistrates ordered her to
mow, she issued a press release about the ahimsa
(nonviolence) aspects of not
mowing. Channel 8
responded.. and scheduled an
interview.. but the following
day as she was driving up the
street in the Boxville type
development.. she felt no tv
show could communicate
anything but an unkempt
lawn surrounded by neatly
manicured ones in which no
dandelion dared lift his head.

She went in to cancel the show
and while she was on the
phone the Channel 8 van
drove up. She waited for the
newsman to knock on the door.
He never did. She looked out
back.. and saw him filming a
6 ft. high thistle plant with a
lavender blooma.. upon one flower had
alighted a 6 inch wide deep
royal purple butterfly who was
moving her wings back and
forth. Never before or since has she
seen that size butterfly. The scene
was the whole
television show.. the lavender
thistle and deep purple
butterfly, with no sound.
Never before nor

Sathya Sai Baba subsequently let her know that He had materialized the butterfly for her and that He had given victory in the court case, which was settled in federal court with probono attorneys.

The city came in and mowed down the lawn. Two merciful angels, Beverly R and Bill W, gave probono work and filed directly in federal court, challenging the mowing on the basis that it violates the 1st amendment of the U.S. constitution to force someone to kill living beings against spiritual principles. The judge ruled the city had to pay damages. It is virtually impossible to mow a lawn without killing baby sapling trees, ants, butterflies, fireflies, toads, bumblebees etc. With huge harvesters, the devastation is much greater as red winged blackbirds and small field mammals are shredded.

Through the years what began as a press release about 7 reasons not to mow has grown to 66 reasons.

Atty Rappoport in the Chicago EPA developed a legal brief defending those who are fighting against compulsory mowing. FoodNotLawns Dot Com has extensive chapters.

This Year's Flu Shots Causing Guillain-Barre And Other Lethal Side Effects

1 2013-2014 flu shots are causing Guillain-Barre syndrome.

2 CVS Pharmacies caught lying about their killer vaccines

3 123 of the lawyers filing claims for clients injured or killed by the vaccine are at

7 The Centers for Disease Control and Food and Drug Administration in the US continue to be pawns of the international pharmaceutical industry. As the US Army tried to break the grape boycott of the Farmworkers' Union by ordering mass amounts of grapes, so the CDC is perhaps the biggest purchaser of this year's flu shot. The quadrivalent flu shots made by MedImmune, GlaxoSmithKline (GSK), and Sanofi Pasteur, attack the body with 4 different flu strains instead of one, multiplying the risk
factor exponentially. The CDC is falsifying the numbers of those who have contracted Guillain-Barre from the flu shot. The disease is one which attacks the immune system, and can kill.

Drug chains aggressively promoting the toxic shots include CVS, Walgreen, and Drug Mart.

By a bill in Congress voted into law in 1986 which was upheld by the Supreme Court in 2011 vaccine law suits go to a special court. The funds for settlements are paid via a tax on the sales of vaccines.'

The US Government has long been a pawn of Roche, Pfizer, Eli Lilly, Glaxo Smith Kline, Johnson and Johnson and virtually every other pharmaceutical company and vaccine maker. The FDA has even reapproved thalidomide, the drug which took arms and legs off of fetuses in 1958 to 1960, a drug which did nothing to captive pregnant dogs in research studies.

The CDC reports that 95% of American children are subjected through government, school, and doctor force to lethal vaccines. This is one of the highest percentages in the world.

Kabir: Forgiveness is a game only saints play.

Jesus: Father forgive them for they know not what they do.

Jesus: Love your enemies. Do good to those who hate you.

Course In Miracles: The holiest ground in creation is that where 2 former opponents have forgiven each other. P

J Myzkowski: My former enemy was a mirror who revealed the dirt upon my face. P

Kabir: The saint helped the scorpion over and over again and the scorpion each time returned a sting. Some said 'do you not know it is the nature of the scorpion to sting?' and the saint replied 'it is my nature to save.'

J Freundschuh: When I'm having trouble forgiving someone I mentally regress him to baby state.

Sri Yukteswar: The vanished lives of all are filled with many shames. Therefore do not judge.

April Baer: Forgiveness is a form of cleaning out closets P
Nancy Taylor: Unforgiveness wastes energy as extra weight is carried around. Unforgiveness requires the energy waste of repressing.

Maria Susie: (re the Bible that God tosses our sins into the deep sea) God has posted a no fishing sign in His deep waters.

Patty: Do not look into the rearview mirror. (all who look back are turned into pillars of bitter salt)

Sai Baba: You may blame me for the bad which passes through you if you praise me for the good. (God is the only Doer)

Sai Baba: Not in the morning pond does the lion wash his blood.

The Buddha: The more evil done to you the more good do in return. (Buddha's purity was so great that those who plotted to kill him had their plans recoil upon themselves, not by his actions, but by the law of spiritual physics.)

Wayne Dyer: If you squeeze an orange, orange juice comes out. Nothing can come out of you that is not in you. If when you are pressured, anger comes out, it is not the fault of the person who pressured. P

The prisoner broke into tears.
Forgiveness can move mountains

It is the nature of judges to be judgmental, and in the US, the 'higher' their status, the more likely they are to kill with their pens.

Thaddeus Golas: In response to pain, the natural thing is to contract but one should expand (rather than shutting down when someone is cruel, Golas says to give more love)

Corrie Ten Boom: (paraphrased) Speaking about forgiveness after the war, a man came up to me after the lecture. He took my hand and told me he had been the jailer who had harmed my sister (who had died in the camp) . He asked for my forgiveness. My arm froze. I prayed to God that though I could not forgive him, God could pass forgiveness through me to him. In the current which rushed through my arm, we both began to weep.

Yom Kippur is not the only day God calls on Jews to forgive. Every day Jews are called on to forgive.

Quote:

When President McKinley was shot by Czolgosz

Those in line behind Czolgosz and guards in the room all jumped on Czolgosz and started to punch him. Seeing that the mob on Czolgosz might easily and quickly kill him, President McKinley whispered either, 'Don't let them hurt him' or 'Go easy on him, boys.'

Edmund Morris reports in the book Theodore Rex that McKinley's last words before his death several days later were 'Nearer my God to Thee. Thy will be done.'

(McKinley was shot on Sept 6 2001 and was recovering, but gangrene from the bullet's path through nonvegetarian intestines was the final cause of death. When George Wallace, American candidate for president shot by a hit man employed by war profiteers, was hit, he had, said a national news magazine, just eaten a hamburger, and the bullet trailed an ecoli (colon bacteria) path through his body.)

Toxins In Cow, Pig, Sheep, Bird, Fish Flesh, And Animal Products

1. Some are diseases resulting from consuming animal flesh.
2. Some of these toxins are intrinsic to all cadaver 'foods'.
3. Some are zoonotic diseases passed on to humans from animals or their factory farm waste.
4. Some are injected into animals or toxic additives in the food given to animals.
5. Some are added after the animal has been murdered.
6. Substances mammal, bird, fish flesh, eggs and dairy lack

I Diseases from consuming animal flesh:

acid reflux - meat, fish and eggs are acidifying. A number of diseases are caused by the body's acidification.

addiction - addiction: The trioxypurines or uric acid in mammal, bird, and fish flesh are stronger than the dioxypurines known as caffeine. When the animal was killed, she could not expel the uric acid in her blood stream.

It is addictive and a cause of artery plaque and arthritis as it crystallizes in needle formation.

alcoholism - studies including those by the vegetarian founders of the Salvation Army (from which diet that group has fallen) found unusual success in treating alcoholism with vegetarian diet and that vegetarians were much less likely to become alcoholics.

Alzheimer's - caused by homocysteine in meat which turns to amyloid plaque.

aneurisms - artery blockage due to animal fat, plaque.
anger - the adrenaline secreted in agony and terror by animals on the way and in slaughterhouses is a hormone only

partially broken up by cooking... to eat meat is to eat the chemical equivalent of fright, anger, panic

anthrax- used to be called Wool Sorters' Disease

arthritis - the trioxypurines in meat (uric acid) would have been excreted had the animal not been killed. They crystallize in needle formation around the joints, causing pain and rigidity.

autoimmune diseases - Every unique mammal, bird, or fish, every egg or dairy product, has its own unique matrix of organisms to which the human who eats the flesh or dairy must adapt. Eating flesh foods exhausts the immune system more than even the most promiscuous lifestyles.

breast cancer- from the female hormones forcibly given cows... hormones known to cause cancer and therefore banned by the European Union and others

cervical cancer from the female hormones forcibly given cows... hormones known to cause cancer and therefore banned by the European Union and others

depression - the adrenaline secreted in agony and terror by animals on the way and in slaughterhouses is an enzyme only partially broken up by cooking... to eat meat is to eat the chemical equivalent of fright, anger, panic

embolisms artery blockage due to animal fat, plaque

excess lactic acid - Dr Irving Fisher of Yale was one of many studying the excess lactic acid in the muscles of nonvegetarians, negatively affecting endurance... similar to lions who must sleep for 3 days after a heavy carcass meal

excess sodium causing acidification of the body and in some cases heart attacks

food poisoning - animal flesh is a cut up cadaver... like all cadavers it rots

heart attacks Vegan and vegetarian hearts need fewer beats a minute to pump
the same amount of blood

impotence affects untold millions... because animal fat clogs the reproductive arteries

intestinal cancer high correlation to meat consumption

kidney disease carnivores have 5 times the kidney size per pound that humans have

leukemia the Reagan and Obama administrations have both sped up the assembly lines at which meat inspectors stand as the cadavers whiz by There is no microscopic testing of cadavers approved... See Owen Parrett MD for the relationship of meat inspection to child leukemia His article is 'Why I Don't Eat Meat'

*****************************************************************************
II Toxins Intrinsic in Animal Flesh

Adrenalin - the adrenaline secreted in agony and terror by animals on the way and in slaughterhouses is a hormone

only partially broken up by cooking... to eat meat is to eat the chemical equivalent of fright, anger, panic

Blood - some might call it juicy... nevertheless it is the shed blood of innocents

Cholesterol or animal fat, chief killer in the US, responsible for heart attacks, strokes, aneurisms, embolisms,

impotence as it clogs the arteries

Ecoli or colon bacteria John Harvey Kellogg, MD found that colon bacteria multiplied into the billions within 4 hours of death. Colon bacteria are a major cause of food poisoning.

Gangrene - from decaying animal flesh All meat is from a cadaver.
Refrigeration can break down in several places: slaughterhouse, transportation trucks, warehouses, grocery stores, home freezers.

Homocysteine: animal flesh toxin which turns to amyloid plaque, the prime cause of Alzheimer's as it gradually blocks cerebral arteries

Insecticides in all nonorganic flesh, eggs and dairy - Many insecticides are cumulative and cause cancer in human beings. The average 1000 pound cow ate 21,000 pounds of food containing nonbiodegradable insecticides. Meateaters take in many times the insecticides of vegetarians, vegans, and fruitarians.
Maggots  All meat is from a cadaver. Refrigeration can break down in several places: slaughterhouse,
transportation trucks, warehouses, grocery stores, home freezers.

Malonaldehyde: carcinogen created by heating meat above 300 degrees

Mercury - many meats contain mercury, a memory destroying metal

Methylcholanthrene - carcinogen created by heating meat above 300 degrees

Uric acid: - or preurine or trioxypurine... present in the blood stream and muscles of animals as they are being murdered... it would have been expelled had they lived... it exhausts the kidneys

that there are worms in fish in even the
most pure waters

IV  Toxins Given To The Animals

Antibiotics - scientists around the world are alarmed by the resistance to
antibiotics developed by those who eat

animals or their products... MRSA is one disease developed because of caustic
cleaning agents in antibiotics in

hospitals which have served to make stronger and stronger organisms

Arsenic has been deliberately added to chicken food  see link below

Cadavers of birds and animals- are often mixed in with food given to animals

Female hormones... animals are injected with carcinogenic female hormones
because first they produce more milk (with
horribly bloated udders  2. because they gain water weight before slaughter  3. because they are gentler

Wastelage - is 1 part animal waste,1 part grain. It is fed to the cows

V  Toxins Added To Cadavers Or Animal Products

Bacteriophages  viruses approved as an additive by the meat industry
dominated FDA

Caffeine  added to meats such as beef jerky.. the FDA does not require caffeine
to be listed in the ingredients

Formaldehyde or other enbalming agents  Meat is a carcass which decays

Irradiation  approved by the meat industry dominatedFDA  the FDA has
increased the allowed amount of irradiation of food (radiation)
Isinglass... obtained from fish bladders... added to beer

MSG monosodium glutamate can be hidden under the label 'natural flavors' see link

Rennet enzymes in cows' and other ruminants' stomachs added to milk to make it curdle into cheese

Sodium Nitrate... a red food coloring used to cover meat which is often gray, brown, or green with discoloration.... Sodium nitrate combines with animal protein in the stomach to create carcinogenic nitrosamines

Stearic Acid is an animal derived carcinogen which causes neurotoxicity and organ toxicity

************************************************************************************

VI Substances Animal and Fish Flesh Lack
************************************************************************************

No forests an acorn potentially contains an oak and from that oak, forests of oak...whereas meat comes from cattle or sheep ranches, for instance. Not only are trees cut down on cattle ranches by human beings, but cows and sheep pull up grasses by their roots as well as sapling trees, causing drought.

No high vibrations meat is the densest and lowest vibration food.... next come to dairy and vegetables... the highest vibrations are found in fruit

No natural fiber Meateaters have the highest rates of intestinal cancer. Fisheaters have the highest rates of stomach cancer. Those who eat meat and dairy containing female hormones have the highest rates of reproductive cancers

No pastel Colors Meat is brown or red or white...
No peace    Meat is full of the chemical residue of the animals' agony (adrenaline) and this residue recreates stress in humans who eat the animals

No vitamin C    a vitamin C is the bouncer of the body facilitating toxin removal..    also speeds up thought signals across the neurotransmitters... c in addition it firms the connective tissue of the body... it is anti wrinkles... d it is a nontoxic preservative

is in fresh (uncooked only) fruit

Zz Treefree Paper From Coconut Husks, Cotton, Rice, Soybeans, Mango, Etc.

Our record breaking winter cold and summer heat are caused by the destruction of many trillions of trees around the world, as well as gasoline exhaust etc.

Paper is presently made from coconut husks, rice, cotton, straw, corn husks, soybeans, fiber from mango trees, banana plants, citrus, and cocoa bean pot plants, coffee bean bags, elephant waste etc.

'Most of the waste from many of the monoculture crops grown in the US are either burned or landfilled. Some is plowed under', writes Rainforest Relief. Instead of choking landfills or causing air pollution through burning, this stumbling block can become a stepping stone to paper.

Cotton paper lasts 400 to 500 years. Paper from killing sentient trees and their resident birds squirrels etc lasts perhaps 60 years, if not exposed to moisture etc.

Thailand has banned logging and learned to make paper from its elephant waste.

Many office supply stores carry 100% recycled paper. If yours doesn't please ask the manager to order it.

The US Constitution is printed on nontree paper.

It's time for the Social Security investors, state and corporate pension investors to disinvest from logging. It's time for newspaper and book publishers to make the change. We can all learn from Costa Rica's Ecopaper Company which uses a variety of nontree fiber sources.

The US Forest Service is blaming the Rim fire which destroyed 15,000 acres last year on a hunter's illegal campfire. Perhaps that is so and perhaps as has happened several times, arson is set by logging companies so that they may do lumber 'salvaging' at firesale prices. Now the US Forest Service wants to let timber companies 'salvage' at the very edge of Yosemite park.

The plan has received much opposition. In the past the USFS has actually set 'controlled burn' fires which often went the other way than the ostensibly planned one because of the wind, once again giving not a windfall but a firefall to the timber companies, while animals, birds, frogs and other creatures burned alive and their habitat was destroyed.

The US is a land of skinny trees... with the exception of the oasis of redwoods. India has trees 2 millennia or more old. England has protected many of its millennial oaks. Thailand has banned logging.

But the lumber-driven policies of the USFS and the Department of Interior, the failure to give financial incentives to wood alternatives, the many compulsory mowing ordinances, the unregulated use of treepaper by metropolitan newspapers... are some of the many enemies of trees.

The average tree evaporates 40 gallons of moisture into the water daily, reported Bayer Webster of the NY Times. This evaporation becomes mist, then clouds and finally rain. Without trees, there are drought, fire, and violent weather.

Stories Of Addiction Breaking... Sai Baba Helps Break The Chains

I The Cocaine Raft: Drugs Into Salt

A cocaine smuggler who sold his wares from a raft on the Indian waterways.. approached the bank and saw police coming toward him. Suddenly a man appeared from the other side and entered the boat.. went straight to his cocaine stash.. and touched it. The police directly entered the boat.. and searching it found the booty. When they tasted it.. it was salt. They left. The smuggler turned to the man.. who said 'Your wife has prayed many years for children.. but I have not granted her request because your business harms children.' From that day forward the man never dealt in cocaine.. and years later someone saw him at the ashram, the proud father of children.

Whether it is Jesus turning water into wine, Baba turning cocaine into salt, or a fruit tree turning rain into pear juice, God's miracles are delightful.

II Alcohol Materializes

B1 (he prefers to be anonymous) was frequently asked to translate into English by Baba (despite the fact that people around the world said Baba spoke their native language better than they did).

B1 was reluctant to do this partly because Baba's advice was sometimes strict.

One couple came in for a private interview. The wife spoke of her husband's alcoholism. Baba said 'He may keep drinking.' The woman replied that doctors said it was harming his health. Baba said 'One day he will also see me at the end of a bottle.'

Time passed. The couple returned home. One morning in America by their bed had materialized one of the world's most expensive brands of whisky, one which could not be purchased in America. Over the next 2 days, the man drank the bottle, and when it was empty he saw Baba's form. He never took another drop. They placed the empty bottle on their altar.
III Smoking Behind The Building

'Where are you going Bangaru? ' asked Baba of a boy in his school, and then made a motion of smoking, for He knew that the boy had been smoking behind a compound building in violation of the school rules. Bangaru is Baba's affectionate term for many of His devotees and means 'raw gold'.

The boy denied he had been smoking, until Baba held out His palm and materialized a photo of the boy smoking behind the building.

Baba in His incarnation as Shirdi Sai Baba smoked a cigar, but does not in this life.

Baba has for some immediately removed the desire for nicotine. For others He has gradually removed the desire.

IV Addiction To Cocaine

To one who asked for help with cocaine addiction, Baba gave a piece of chalk and said the man should write Om on the blackboard daily, and by the amount of chalk it took to write the letter, reduce his cocaine use. When the chalk was gone, the man was no longer an addict.

For others he has immediately removed the addiction.

V Coffee

A woman decided to surrender each cup of coffee to Baba. She would pray and then flip a coin. Heads would be yes, tails no. Over 3 days she got 9 tails in a row, 9 no's. The odds of that's occurring randomly are 1 in 512.

VI Relationship

A.

A woman who wanted out of a harmful relationship heard Baba's voice in
meditation say

'As much as possible sleep under the midnight sky.' She began to sleep on the porch... which helped in the weaning process.

B.

A woman married to a man from the Mideast was told at the ashram to return to their home for 3 weeks and then to return. Upon arriving she discovered her husband had been involved with another woman for a long time. This knowledge gave her the strength to divorce him.

ALCOHOL AND WAR

* 

EXCESS DRINKING CAUSES
1 domestic violence and barroom fighting.. in some cases fatal shootings as drinking hunters or bar room drinkers release violently the emotions uncorked by booze
2a break up of marriage through breakdown of fidelity
3 millions of traffic fatalities and broken neck paraplegics, faces turned into roadmaps through windshield collisions, decapitations, loss of limbs etc
4 fires as alcoholics go to sleep with lighted cigarettes
5 broken bottles left in the woods by drinking hunters
6 Alcohol poisoning of the optic nerve can cause blindness and sudden death, especially in teens... cirrhosis of the liver, delirium tremens, death from choking on vomit, kidney shutdown, the loss of brain cells from each drink etc.
Red wine can cause acid reflux and ulcers
7 broken bottles left in the woods by drinking hunters
8 how is it related to animal murder?
Animal flesh and alcohol are married.. the excess yang of cadaverous meat asking for the excess yin of alcohol to break it down
.. alcohol is like MSG (meat tenderizer.. also breaking down the muscle cells of the human brain)
9 how is alcohol related to war?
In the US the major alcohol distributors are big contributors to the warmonger political parties and are allowed to advertise to teen markets on radio at 11 am on weekdays. Coors funds the warmongering Heritage Foundation as well as sponsoring brutal rodeos Anheuser Busch has promoted warmonger candidates and rodeo as well.
10 There are many faiths which advise against alcohol which causes lesions in the aura through which disembodied entities can inhabit the soul
11 job loss
12. Alcohol, drug use and prostitution follow military bases.
13. more teen pregnancy of unmarried mothers
14. the deaths of the homeless from freezing because alcohol depresses the central nervous system
15. suicides from depression linked alcohol
16 Blood thinners can potentiate alcohol use, said a guest of Terry Gross on Oct
24,06.
17 International incidents: Poles fire on German cruise ship in a dispute over alcohol and cigarette taxes
18 Libertarians and many others believe that people have a right to brew their own alcohol, moonshine etc. Fights between ATF and other government officials and freedom lovers have caused present day murders and past ones (The Whiskey Rebellion).
19 Babies born to alcoholic mothers or even moderate drinkers can have brain damage.
20 Alcohol related lethal accidents include falling down stairs, getting hit by cars while walking across the streets.
21 Northern countries with cold and less light have more alcoholism than countries closer to the equator.
22 Some religions prohibit alcohol consumption but 'thou shalt not' can have the opposite effect.
23 Alcohol marketers are among those fighting the legalization of marijuana.
24 Humans are not the only victims of alcohol-released violence. Animals are kicked, killed, neglected, abandoned.

It is often the most sensitive members of the society who drink too much..these people absorb in sympathy so much of the pain of others that they try to tune it out.

The most reforesting, healthful and nonviolent drink is fruit juice (unfermented) or pure water.

God in all give us all the grace to break the chains of our addictions to alcohol, meat (trioxypurine in meat is addictive), drugs, sex, anger, etc.

Prevent the shotgun weddings of alcohol and war, alcohol and death, alcohol and disease, alcohol and violence

The biggest breweries in the United States are heavy contributors to the current regime, and through their cash influence have gotten several radio networks to promote alcohol consumption ads as early as 11 am on weekdays. Coors and Anheuser Busch are 2 major alcohol marketers. In addition the alcohol industry, says MADD, Mothers Against Drunk Driving, is marketing to youth. Many soldiers returning from war attempt to tune out the hideous violence witnessed through alcohol and drugs. Alcoholism related depression generates billions in multinational pharmaceutical medications. Fraternities, restaurants, and
corporate media promote alcohol consumption for reasons such as peer pressure and money. Sometimes, even the sight of someone drinking on tv or a description of this in a book is enough to kick the viewer or reader off of years of abstinence. The Salvation Army over 100 years ago treated alcoholism through vegetarian diet, since the excess yang of meat was offset by the excess yin of booze. However, the Army has gotten away from its vegetarian roots. Many Adventists treat alcoholism with vegetarian diet. There are virtually no vegetarian alcoholics because.. the biochemistry of non animal eaters is less acidic..

Zz Wcau Tv And Baby Calves

Sathya Sai Baba gave a follower a dream in 1980 in which He was on a Greyhound bus which stopped at a Burger King. At that time Burger King and Greyhound Bus (now owned by the British company Laidlaw) had an agreement that Greyhound would stop at Burger King's as the official restaurant for the bus line. In the dream there was nothing at the restaurant the writer could offer Baba who ate no animal bird or fish flesh, no animal products.

Shortly after that day she was asked to do media for a small coalition boycotting Burger King which included Trans Species Unlimited in State College headed by Dr George Cave, Farm Animal Reform Movement of DC founded by Dr Alex Hershaft, H Schofield's group in Boston, and Calf of Ted Zagar in Western Indiana.

The 3 year boycott of Burger King was resolved by the company's accession to withdrawal of veal in 1983. Before that the writer was typing press releases for Philadelphia tv and radio stations.. and came to Wcau.. which is on City Line Av. When she went to type 'city' she found her fingers typing 'cave' and took that as a message to call George Cave, a philosophy professor at Penn State and an animal rights activist. During the call he told her he had just finished an interview with Wcau on Pennsylvania's decompression chamber, a painful method of killing 'surplus' pound animals. A short time later, she wanted to ask a question of a guest on the Larry King Show on Mutual Radio. (She no longer listens.) For some reason she could not receive the signal that night on Wtop in Washington, but it came in clearly on Wcau, a distance away in Philadelphia. The guest that night was Ray Cave of Time Magazine. A third time there was another Cave Philadelphia connection, when William Cave of Philadelphia's American Antivivisection Society was a guest on the radio. Later SG took her to see Bawa Muhaiyyadeen, a Muslim mystic, whose aura was so bright it filled the room with white light, whose love was so strong that babies crawled to him from their mothers. He has since passed on to God.. but his simple mosque was in a home near City Line Ave. It occurred to the writer that it was a cave of light. What was God trying to underline for her with all this synchronicity? One meaning...
for her was that cities are projections upon the land.. caves are recesses. In addition actions take energy, but silence is effortless. It is also interesting that CAU is how CAV might appear in Roman script. In addition Wcau could be considered Wcow. The Bhagavad Gita, Gandhi’s Bible, states that the wise see action in inaction and inaction in action. She thought God was telling her to surrender every action for approval.. just as an empty flute.. bears music fruit.. so a disciple empty of self will can be more attuned to God's. This is a lesson she daily needs to relearn.

Burger King since the boycott added a vegetarian burger. For the sake of vegans as well as factory farmed chickens may the corporation which has been more responsive than several other fast food chains..give a vegan burger option.

Update: In 2014, Burger King now has a veggie burger, though not a vegan one. Taco Bell provides vegan burritos (They have announced they are eliminating the monosodium glutamate in it.) Subway has vegan sandwiches but not vegan protein sandwiches (e.g. hummus, tofu, falafel, lentil burgers etc.) McDonald's in compliance with Indian law has no cowflesh in India, nor does it have pigflesh. It has veggieburgers in some other countries but not in the US)

Asking GOD Through Chits

Baba had told His devotees if they had a question to which they did not know the answer He would reply if a. it was about an individual's own sadhana b. if the devotee were surrendered in advance to the answer, and if c. it entailed an immediate fork in the road.

There are many who immediately know in their hearts what course of action to take, but there are times when one is not sure. One should meditate or pray before doing this.

Baba said to take 4 symbols of equal size (e.g.4 pieces of paper) and write on one 'yes', a second 'no', and the 3rd and 4th 'wait'. Then pray and select one at random. One can also use coins or open a book to a random page after prayer.

When the writer was asked by a small coalition of 4 groups to do media for the Burger King Boycott, she asked Baba
by this method and got 'yes'.

Several months went by. Dr Rao of Lawrence Kansas told a friend to tell her that boycotts were not ahimsan (nonviolent) because they called down corporate wrath. This was a wise criticism, and she asked Baba again, and again got a yes to go forth.

More time passed. Bob Pinkus, editor of Vegetarian Living who had convinced both the writer and Connie Salamone to give up dairy said that boycotts increased corporate sales because they operated on the principle 'don't think of a white elephant', which increases thoughts of white elephants. She asked again for a third time and got another yes.

The river of life flowed on. Next L Yonish, coordinator of Vegetarian Action whose group was targeting restaurants which served veal, said this was the wrong target. Another casting of the chits (symbols) in prayer.. and another 'yes'. This time it was Lou Ann on the other end of the phone who made the selection.

D Giehl, founder of Animal Liberation and Michael Rothschild also participated in the chits. Altogether 6 times, Baba or the querant's form of God was asked, and 6 times a yes was given. The odds of this happening randomly are 1 in 4096.

All of the criticisms of the boycott were valid. Yet God is omniscient, and like someone on a hill who can look down on an intersection and see traffic patterns those in the cars cannot, God gave guarding and guidance.

Zz What's In Hot Dogs?

Jay Leno: They put pig uteri in those hotdogs.

What's In Hot Dogs, Sausages, Cold Cuts?

Lips Snouts Ground Up Hooves Eyelashes Tails Mad Cow and Mad Pig Spinal Cords and brain tissue, ground up uteri, eyeballs, intestinal mucosa, and slop from the slaughterhouse floor

Female Hormones Why? So the animals will gain waterweight before being butchered.. and make more profit. These hormones are banned in Europe because they cause prostate, uterine ovarian breast cervical cancers. Amazingly despite knowing that the US has 8 times the prostate cancer rate of the rest of the world because of these hormones from diethylstilbestrol to bovine growth hormone, the cancer-medico-pharma-hospital industrial complex treats prostate cancer with estrogen! rather than vegan diet.

Sodium Nitrate: red dye no.2 forms with animal proteins in the stomach to make carcinogenic nitrosamines is put in hotdogs to cover the brown, the grey, the green of rotting flesh and of the intestines. Now it is found that these nitrosamines block the flow of blood to the brain.

What Are Natural Casings? Some hotdogs come with an NC on the package, standing for natural casings. Natural casings are the actual intestinal links of the butchered animal, and are like everything else saturated with ecoli, a euphemism for colon bacteria. Creiophilic bacteria, cold loving, survive freezer temperatures. Thermophilic bacteria, heat loving, can survive a 300 degree oven for several hours. Microwaving flesh at much higher temperatures creates carcinogens even more dangerous.

When profiteers say some hot dogs have everything but the squeal, (or agonized shrieks) they can be taken literally. Howard Lyman got a spinal tumor from eating the meat of animals on his 4th generation Montana cattle farm. He promised God that if he recovered (he was told he would never walk again) he would end ranching. He began to tell the world about the animals fed to other animals. When he described this on Oprah Winfrey's show, they were both sued by Amarillo Texas cattlemen. The 5th Circuit upheld them saying the truth is not libelous. The cattlemen sued a second time! and were again defeated.
Oh I'd Love to Be An Oscar Mayer Wiener is a lie by ad execs. In reality 1100 pigs an hour were butchered in Madison Wisconsin. The sound they make would rend any heart which is why slaughterhouses have the most turnover of any occupation. The kicking terrified animals make slaughterhouse and deep fishing the 2 most dangerous occupations. Oscar Mayer with its Oscar Mobile is guilty of criminal child endangering as the corporation promotes leukemia and food poisoning engendering food and helps make American children the fattest in the world. The Minnesota Dept of Health says to give a child rare meat is like driving your child 95 mph down a road. (from an Iowa Oscar Mayer abbaitoir)

Ralph Nader who is not yet a vegetarian.. said he would never eat a hot dog and wrote about why. A meatcutter in upstate NY said although he was not a vegetarian he would never eat coldcuts or hot dogs.

George Bernard Shaw once asked a man with a meatless plate next to him if he was like Shaw a vegetarian. The man replied.. I wasn't til I became a meat inspector.

Red dye in hot dogs is used to cover up rotting brown and grey, congealed black blood and the green of gangrene. With the animal protein it forms carcinogenic nitrosamines. Animal protein without coloring agents becomes the amyloid plaque of senility or Alzheimer's disease. It lines the arteries of the brain and like animal fat cuts down the flow of oxygenated blood to the brain. Female hormones in meat make reduced sperm and sterility. Buns are hot dog cadaver coffins Antibiotic resistance from hiding cow coughin Adrenalin from mammals’ frozen fright.. as most are unable to escape knives in flight

Mother Earth is supremely patient, but she too can do time collapsing miracles.

This is a course in miracles. It is a required course. Only the time you take it is voluntary. Free will does not mean that you can establish the curriculum. It means only that you can elect what you want to take at a given time. The course does not aim at teaching the meaning of love, for that is beyond what can be taught. It does aim, however, at removing the blocks to the awareness of love's presence, which is your natural inheritance. The opposite of love is fear, but what is all-encompassing can have no opposite. This course can therefore be summed up very simply in this way: Nothing real can be threatened. Nothing unreal exists. Herein lies the peace of God.
