# Baby To Lady

I Never thought that I will meet someone like you  
I Never thought that you will care for me  
Baby please don't leave me  
The thought of us been apart drives me crazy,  
Just because my name is young wizzy  
Does not mean I am dizzy

I just want you to be my baby  
My right hand lady  
Side by side like a daisy  
Just 079 me when ever you are busy and  
I will be there to make things easy.

Baby girl please take it easy  
So you can live your life like a freebie.

# Endless Years

5 years in here  
Was a mission an  
Impossible task but  
I did it, yet  
I want to go back  
To the beginning  
Start all over aging  
But I don't want  
To change anything  
Just have all the fun again.

Make friends with people  
And meet new teachers  
Set new challenges also  
Set my boundary higher  
Maybe I would have chosen  
Another subject to study  
Instead of Spanish GCSE

I would never have  
Got involved if I knew  
It was going to end like this  
I would have taken a  
Step back and imagine  
But we all act before  
We have time to think  
But am glad I didn't  
Because I don't want my  
Time here to come  
To an end yet.

# Growing Pains

All of my life as been based around u  
I have now lost you  
But still ain't found my self  
I spent most of my life chasing dream  
But u don't have to have to give me everything  
Just say u love me  
Say am good enough then I can stop pleasing  
Maybe then one day I will make you proud

You cant change who I am  
I've got to stop screaming  
So please don't shoot me down  
Though you can save me now  
Maybe someday I will make you proud

We have been through the worst let's put it behind us  
The broken hearted now the disappointed  
If you u heard me then this one is for you  
Is it worth holding onto?  
Its only growing pains don't you know?  
The only way to live is letting go

# Hidden Truth

Looking back to the past is like a revelation of facts  
Our friendship has never been up to date  
The ache that runs through me when I see your name  
Made me realize that heartbreak can last for years.

We were close in the past  
Let's not get carried away even though u stole my heart  
But to hell with feelings friendship is the best  
The history behind the reason we are like this  
They don't know we have drifted  
But you still mean the world to me.

I wish time never moved  
Then we wouldn't have changed  
Maybe just maybe it would never have gotten complicated  
I hope the future is better than now  
Because I don't want to be the reason why  
I want to be the person behind  
Not the heart breaks but the smiles☐

I just hope one day you will be able to look at me  
The same way you look at her  
Feel the same way I feel about you  
Because you are a whole new chapter  
Waiting to happen.

# I Feel You

When you're happy  
When you're sad  
When you're angry  
Each tears, smile, frustration  
I feel it

When you're in-love  
Not with me but with her  
I feel it but in my heart  
You claim you love ME  
BUT  
Sometimes I wish you  
Really meant it!  
You said you'll prove your love

But each time you prove me right  
That you are a player  
Now my heart aches more than ever

'I love you' but I think as the day  
Goes on am starting to fall out of love  
I hope you feel it,  
The pain I go through  
So you can be a part of my life

I love you but  
It's really hard for you to feel my love  
Not because it's not shy but  
Just afraid of the pain.

Here is your love written down  
But my heart is still intact  
I got so much to say but  
I hope you can feel me  
No matter where you are

# I Want To Be. (Your Girl)

I wanna be your girl  
The one you can talk two  
When ever, where ever  
You just call me  
And I will be there  
No matter how far or close  
You are, I will be there  
You just give me time.

I will be there when you need me  
But not when you want me  
Tell me what is on your mind  
And I will tell you mine,  
In my darkest days  
You have been there  
To make it bright.  
You tell me jokes even if they  
Are not funny you still  
Make me smile.

# I'M Sorry

Im sorry for all the trouble I caused;

for not listening when you needed me most of all.

I'm sorry for all the sleepless nights and for not being by your side.

I'm sorry for not listening and pushing you away when you were the only one willing to hear my pain.

Sorry for all the fights and for not trying to make things right. I'm sorry for the pain I have caused and for acting as if I didn't care at all.

I'm sorry

# Inspiration

You are my teacher  
You no & I no  
But what you might  
Not know is that  
You inspire me  
Not with your teaching  
But your stories  
That's what we all needed  
A teacher to inspire,  
That's what you do  
Let's skip the goodbye parts  
Even though we all no  
The time is near  
But I will try  
Not to shed a tear  
We will miss you  
But this ain't the end.

Trust me, we make you a promise  
That we will make you proud  
Like you said on the 24th of May  
"If you work a little you get a little  
But if you work a lot you get a lot"  
So as we move on  
We just want you to NO  
Your name will forever  
Inspire us, we all  
Hope we meet again  
But under better circumstances  
And now we say  
THANK YOU for the inspiration.

# Invincible

Friends! !

What is the meaning of friend?  
Who are your friends?  
What is the purpose of having friends?  
How did we become friends?

Enemies?

Who are our enemies in the world?  
How did we become enemies?

I don't know who my enemies are  
They say we were once friends  
Now sworn enemies  
They say I am fighting with them  
But from what I can recall they were once my friends

Friends are meant to be trusted  
But who knew some friends can't be TRUSTED?  
I guess I made my mistake  
I picked you out of a crowd  
Now you betrayed me

You're one of those friends that are fake  
In everything you say and do  
But now I feel so used  
Because when I think of the past  
I never thought you would hurt me

Why did I ever rely on a word you said?  
What did I ever do to deserve this pain?  
I've trusted you but you've hurt me instead.  
And I don't know if I could believe you again.

# Jcp Smurf

People meet by mistake  
But meeting you was the opposite  
Hating you was not by mistake  
Most cases you drive me mental  
But either ways I pray it was all mistake

You don't fall in love by mistake  
Killing someone is the complete opposite  
Life sentence too sure it's not a mistake  
Your unstable mentality  
But either ways I pray it was not a mistake.

Counting down the days  
19th of each month  
Those days will never be mistaken  
3 months tomorrow but decades to go  
Time goes so fast my mistake  
I think am having fun.

I fell in the deep blue sea  
The tide is dragging me down  
I can't swim but  
I took the risk anyway  
Thinking it was a way to show  
You how much you mean to me.

Don't plan who you fall for  
Am so glad it was you  
Trust me you Mr Smurfz  
It was meant to be  
Won't change that feeling for nothing

here i am again celebrating 3 months  
with you but FYI shy or not  
you are my brave lil Smurf  
and I LOVE YOU J.C.P

## Lucky 2 Love

When you crack a mirror  
They say it is bad luck HA  
BOI I don't have any luck  
My life is torn to pieces  
Like shredded wheat's  
Friends say believe in luck  
I don't believe in luck  
But I believe in love.

5 years ago I renew my licences  
Went to a primary school called St. Matthias  
Met this boy called Anthony  
It like watching grey anatomy  
He is cute, young, fit and sexy  
Not even the sun is as hot as my baby

DAMN!

He is like my personal diary  
On the phone to him 2 many secrets  
Don't want to lie going to make him cry  
But he is going to watch me die.

Red roses on ma casket  
Golden nothing can get broken  
Just like me and Wasilat  
Dami I will see you later.

# Memories (R.I.P)

## Memories

I cried more than I thought I would  
A day ago I was mourning a friend  
Now am mourning for two  
2 separate lives miles apart  
I am just a kid who loves to smile  
Now they have to see me sad

Friend and family both starts with F  
F' means fear, faded, forever  
I was so close to fainting  
Yet my heart wont beat  
Death is so unfair  
It doesn't give us a chance  
I thought we was meant to go France  
You promised you would teach me  
How to dance, am still trying to balance  
The equation you was yet to announce

I got this message ASSFYL, YUPAT  
It didn't make sense but that was the equation  
It took me hour and I finally did it  
I broke down in tears because I wouldn't believe it  
Reading the message as I cried about it  
'Am so sorry for your loss, your uncle passed away TODAY'

THERE YOU GO I FINNALLY SAID IT  
NOW I BOW MY HEAD BECAUSE THE LEAST YOU DESERVE IS A CREDIT  
NOW EVERYTHING I DO, I WILL ASK YOU  
BECAUSE YOU DYING AS OFFICIALLY MADE YOU  
'MY OGA AT THE TOP' CHILLING WITH BABA GOD

IN LOVING MEMORY OF

and my uncle

R.I.P: rewind. If. Possible  
Uncle R.I.P: Rest. In. Paradise

# My Love

She has been through a lot in the past year it's a new year ppl nneed to shut their mouth

She is one of a kind, one generation standin on her feet no haterz allowed past her garden

Eminem was too gazin the stars but mishy is deafntlly risein the bars

Haterz are too busy watchin her go dat how she became a star shining for ever.

Ok...

I'll like to see a white girl bleaching (jooo oo)

Or a blind deaf man preaching

I'll like to see Sean paul do a catwalk

Or a street boi asking what is caps lock

I no like tech class, mr sarpong dey dull me (joooo oo)

Big girl, even Tupac dey call me

Conductors dey hail me for London

I get bling bling all over my condom

Hey girl, you gat me thinking, there's many things i can do to u

Hey girl, you gat me wishing, I could take youu home with me

Lets take one step at a time,2 by noon

be my girl, with you i rule

You are fresh and fly, dont deny

Nothing feels better

# Not Loving

Love is not what we all feel  
When we are with someone,  
Liking someone does not mean  
They will like you back.  
Real life isn't like twitter,  
Instant follow back will  
Never happen.

When you tell them your feelings  
It's not that they don't like  
You but sometimes they are trying to  
Protect you from getting hurt.

If he said he don't love  
He don't mean it  
He is just scared of either hurting you  
Or him getting hurt.

It is love if you both  
Learn to cope with each other  
And no matter what people say  
You still love each other.

# Smoking

Smoking aint ethical as much as I am lyrical  
It gets you high, spin your around and makes you unreasonable  
Temptation aint fit for someone in our generation  
The walls are caving in just like you are craving more.

Many names for just a tiny weed  
A tiny weed can give you so many different names  
I am a non-smoker surrounded by all smokers  
The pressure is high but my defences are low

My closest ones do it the most  
By far they are the most inspirational ones  
Peer pressure is really high  
The resistance to say no is too low

Many names for just a tiny weed  
A tiny weed can give you so many different names.

# They Don'T Get It

My family are so ignorant  
My family never listen  
My family are always preoccupied  
My family are never there  
But the don't get it

My family wants me to talk  
Talk about what if I may ask?  
Even if I do try to talk  
My family don't even care  
But they still don't get it

That my heart is breaking  
By keeping you away from me  
They don't get it

Just because I said you was my BF  
Don't mean we are going to have sex  
I was once a daddy's  
Now he thinks am a slut  
They will never get it

Why we are different  
Why our relationship is different  
I hardly ever see you  
Maybe on skype or a phone call  
Sometimes it don't feel  
Like we are together  
Please tell me if I am lying  
But they don't want to get it  
That you are a part of my life  
Whether they like it or not

but now I don't get it  
Why my dad is going insane  
Just because he saw the text messages  
I tried to explain to him  
But he don't care  
All I want is you and my family

Am making a promise DADDY  
I am still a virgin and I will  
Be until the day I get married  
Please tell me do you get it NOW.

# We Found Each Other

When I found you  
I used to dream that someday I might  
find a lover who would be tender, kind,  
and passionate...

I used to dream that someone whose  
touch would awaken my heart and fill  
me with sensations I had only  
imagined I would ever feel...

A partner who would show me how love  
was meant to be...

I told myself that this was more than  
I could hope for-more than I could  
ever deserve.

I used to hope that someday I might  
have a friend who would know what was  
deep inside my heart some one with  
whom I would be safe to share my  
secrets, my dreams, my fantasies, and  
my fears...

A friend I could always count on to  
listen and to understand...

I told myself that this was more  
than anyone could hope and much more  
than I could ever be worthy of...

I never let my heart imagine that I  
would find all of this and more...  
but that's what was waiting for me in  
your arms.

I found the best friend and the best  
lover I could ever have hoped for... When  
I found you

Happy Valentine's day  
to my dreams come true.

# You Are Gone (My World)

We met on my birthday  
You was there on the day  
Am just trying to say  
You went out of your ways  
Just so you can be there on that day.

We kissed on that day  
'I love you' was what you said  
No reply I walked away  
You stood in my way  
You asked me why?  
I looked into your eyes  
I told you no way.

Tears fills up your eyes  
You look like you are gonna cry  
I loce you in so many ways  
But don't no how to say  
Don't want my heart to break  
So I am not gonna say.

We met on my birthday  
You died on that day  
There was only one way  
You go shot in the alley way  
In my arms I held you close.

Then I saw it all on the floor  
I was in a pool of your blood  
My heary beat faster than ever  
I realise that I made a mistake  
But it was too late  
I never got the chance to say  
How much you mean to me.

My life crumbled in front of me  
Death was finally drawing in  
Three words stuck in my throat  
It was too late before I said it

YOU WAS GONE.
