And I Found My Home

Walking on a LONELY road
All alone dark and cold
I thought it was the end for me
But I found my home

Hiding in the shadows of my pain
ANd every word spoken made me insane
I thought nothing else matterd
But I found my home

Always confused never on the right
Closing my eyes to everything in sight
I didn't wanna keep going
But I found my home

Keeping everything there was inside
All I ever wanted to do was hide
I thought this whole world was nothing
But I found my home

Just when I lost all hope
When everything shatterd and I couldn't cope
A family of angels healed my pain
And I found my home

Becoming Strong

I tried so hard to be perfect
Perfect in every way
So hard I tried
I tried everyday

You said I wasn't good
NO not good ENOUGH
But your words taught me
YES taught me to be TOUGH

Every time I cried
Cried myself to SLEEP
I would fall in the hole
The hole that was so DEEP

So many times I thought
Thought of taking my LIFE
So many times I thought
Thought of using the KNIFE

One day it hit me
Hit me in the face
That there was a better
Far better place

I left the HURT
The hurt and PAIN
And told my self never
Never to go back there AGAIN!

Jess Zapata

Blinded

I thought you were the one
I cherished every moment we had
I dreamt of our future together
My love for you was strong
I told my self that we would last forever
But I guess I was wrong

You never stoped talking about her
I saw every sweet look you gave her
I felt every love you had for her
You spoke her name while dreaming
I never asked why

I smelt her scent in your skin
Every night you came home
I never spoke a word
She had you wrapped around her finger
I never tried to stop her

I thought that maybe if I started to be like her
You would love me more
But I guess I was wrong
You broke my heart in to two peices
But i still chose to stay

Jess Zapata

Changes

She cries herself to sleep
Cause the pain is too hard to bare

She drinks the pain away
Her life, her future she no longer cares

She hides the feelings
It's eating her up inside

She's turned from a sweet girl
To a girl that has gone wild.

Jess Zapata

Don'T Worry Be Happy

There are times in life when you fell down
Where all you can give is a single frown

Times when all you want to do is cry
And you wish everything around would die

I know it's really hard to forget the past
But always you our friendship will last

I'll be here for you forever and more
I'll be your shoulder to cry on that's for sure

And all the people that wreck your day
Can all go to hell cause there GAY

Jess Zapata

Fadding Dream

I sit outside and imagine my life
I imagine that she one day will be your wife

How things would be different if you were together
A happy family we'd have forever and ever

No longer would the hurt and the pain be real
I finally could tell you how I feel

I hate the fact that we are all so far away
If only there was something I could do to make you stay

But I know all of this will never come true
Because she's not the one, the one that's made for you.

Jess Zapata

How

How do I?

Tell you how I feel

Stop myself from crying

Forgive you from all you have done

Move on from the past

Love without getting hurt

See without being blind

Live without bleeding

Walk pass you without hurting

Sleep without dreaming about you

Look without touching

How Do I?

I Can'T Stay Away

The thought of you being with me
Is so wrong
But I can't stay away

I am so addicted to you
It's not right
But I can't stay away

The kiss you gave me was tastefull
It should stop
But I can't stay away

Your smile melts my heart
It's a crime
But I can't stay away

The love I feel for you is strong
It has to end somewhere
But I can't stay away.

Jess Zapata

I Just Wanna

I just wanna hold you close
Hold you so tight
I just wanna be in your arms
Even for just one night

I just wanna see your face
see your beautiful smile
I just wanna kiss your lips
Have the taste stay a while

I just wanna hear your voice
Say my name
I just wanna look in to your eyes
Let you hear my pain

I just wanna be with you
In everything I do
I just wanna let you know
That I still love you

Jess Zapata

I Miss

I miss your love
I miss your touch
I miss the way you make me smile

I miss your kiss
I miss your scented smell
I miss the way you hold me close

I miss your laugh
I miss your eyes
I miss your body next to mine

I miss your hair
I miss your lips
I miss the way you kiss me all the time

I miss the way you said I LOVE YOU
I miss the times we had together
But most of all I miss YOU!

In The Middle

In the middle of the night
When nothing and everything doesn't feel right
And everything is crushing in front of you
And there was nothing he did to help you through

In the middle of the day
When all is said and theres nothing left to say
How I wish I could hold you tight one more time
But I know I can't cause it would be a crime

In the middle of the walls
theres a place in there were I hide away from my fears
But it usualy finds me hunting me with tears

Jess Zapata

Is It Real

When you say
I love you
Is it TRUE

When you feel love
For soemone
Do they feel it to

When you want
To be with a person
Do you make it last

When you break up
With a person
Do they only live in the past

When you hurt
Is it real
Or is it all pretend

Jess Zapata

It Hurts To Say Goodbye

I've loved you from the first moment that I met you
I've loved you from the first moment I touched you
It hurts to say goodbye

I loved you every moment we spent together
I loved you every second we were apart
It hurts to say goodbye

I loved every tender kiss you gave me
I loved every single word you spoke
It hurts to say goodbye

I loved every smile you made
I loved every move you made
It hurts to say goodbye

I loved the times you stroked my hair
I loved the times you made me feel better
It hurts to say goodbye

I loved all these things about you
And I still do
It hurts to say goodbye

Its A Secret

You walked in to the room
And suddely my heart started to melt
Your sparkling eyes looked in to mine
And suddenly my heart started beating fast

I watched your every move
I watched your every smile
I listend to every word spoken
I kept every sight made by you to me

You left the room
And suddenly my heart started to sink
You walked away
And suddenly tears started rolling down my face

When will I see you again
Will I ever get to tell you how I feel about you
Do you kno that my feelings for you are strong
NO cause
Its A secret

Jess Zapata

Lesson Learnt

You left me left me for another
I thought we were meant to be
I thought we were meant for each other
I tried so hard to be your perfect one
But instead you pushed me away
And said this was all just FUN

You made me believe our love was strong
And it would never DIE
But then you made me realise
It was just all one big LIE
How stupid I feel to let you make me believe
That our love was strong
And that you would never LEAVE

Everything I did I did for you
Gave you my heart and soul and everything else
And you just broke my heart in TWO
I know it's hard to mend this broken heart
But now I'm happy, happy that were APART

I've learnt my lesson now
Never fall in love with the wrong guy somehow
And realise it's me who comes first
Not anyone else especially YOU
Who's caused me nothing but HURT

Promise Me

As you set off to make your journey
Promise me one thing
You'll never forget me

As you pack your bags
Promise me one thing
You'll remember the times we had

As you say your goodbyes
Promise me one thing
You'll think of me

As you leave this place
Promise me one thing
You'll always be brave

As you reach your destination
Promise me one thing
You'll smile a smile for me

And when you meet her
Promise me one thing
Tell her how much I loved YOU

Jess Zapata

Stop Doing That!

You say your always right
You say you know best
You say I should do this
You say I should do that
Stop doing that!

You never seem to leave me alone
You always hang around
You yell ugly word in my ears
Stop doing that!

You try to control my world
You push me around
You punish me for stupid things
Stop Doing that

You kick me till im down
You laugh at my mistakes
You lie to my face
Stop doing that!

You try to be something your not
You hide your feelings
You block me away
Stop doing that!

You ask me to forgive you
You say you'll change
You say it won't be the same
Stop doing that!

Surrogate Family

With open arms
They welcomed me
With open arms
They let me stay

With open hearts
They loved me
With open hearts
They show they cared

With open minds
They listend to me
With open minds
they believed me

Its very hard to find people
People that care
So hard infact
I think it's rare

Jess Zapata

Tell Me

Tell me that you love me one last time
Tell me that you need me again
Tell me that you miss me when were apart

Tell me that you'll always wait for me
Tell me that you can't live without my love
Tell me that you ache for my heart

Tell me that I'm what you need
Tell me that you'll never leave me
Tell me that you'll stand by me

Tell me all those things ONE last time
Tell me because you're the only one I love

Jess Zapata

Torn In Between

I thought I was strong
And that nothing could go wrong

I thought I had forgotten you
I replaced you for somebody new

I thought I moved on from the past
But that thought did not last

I locked your memories far away
I just knew that you were not gonna stay

You left without saying goodbye
All the things you said was a lie

I fell in love with someone new
Cause I thought I was over you

Now you're here once again
You're back to give me hell and pain

I realise how much you've hurt me
Now I can finally see

But no matter how hard I try
I still think of you and cry

I love him and still love you to
But I just don't know what to do

Where do I go from here
Nothing seems to be clear

Im torn between the two
The two of you

Was It A Dream?

The feeling of your body next to mine
Was it all a Dream?
The love you once had for me
Was it all a Dream?

The kiss that made my lips quiver
Was it all a Dream?
The eyes that took my fears away
Was it all a Dream?

The beautiful scent that made me cry
Was it all a Dream?
The touch that made me feel so good
Was it all a Dream?

The voice that made me feel so safe
Was it all a Dream?
The embrace that made me want to stay
Was it all a Dream?

The times that I thought you were mine
Was it all a Dream?

When You Left Me

I was lost
I was hurt
I was scared
When you left me

I was angry
I was alone
I was cold
When you left me

I was shattered
I was grieving
I was depressed
When you left me

Jess Zapata

When.....

When I hold your hands
I feel like all my fears just go away
When you kiss my lips
I feel like you'll always be here to stay

When you stroke my hair
I feel like nothing else matters
When you hold me tight
I feel like all my hurt just shatters

When I'm next to you
I feel like all my wishes have come true
When you look at me and smile
I feel like all i ever want is you

When I'm not with you
I feel like I love you more and more each day
When I'm with you
I feel like I do love you in every way

When you said goodbye
I felt like I could just die
When you said you had to go
I felt like there was nothing I could do but cry

Jess Zapata

Why?

Why did you leave?
Why did you let go?
Why did you leave me for that Hoe?
Why did I cry?
Why did I fall?
When I knew there's was nothing there at all!

Why did you PROMISE?
Why did you lie?
When you knew that I would cry?
Why did you say Goodbye?
Why did you smile?
Why couldn't I get over you after a while?
Why does it hurt?
Why does it BLEED?
I guess its you I need!

Wishpers In My Head

The wind blows and whispers your name
It makes me go crazy knowing you don't feel the same

Days turn into nights and I still feel pain
Every memory of you is making me go insane

I know the love you once had is now gone
Everything we had is now forever done

I know I must try to move on from the past
Becasue I know that we could never last

Jess Zapata

You Can'T

You don't understand what I'm trying to say
You don't get the fact that I just don't want to stay

I know I've hurt so many times before
My heart was confused my heart wasn't sure

Your friends always keep bugging me
Why can't they just stop why can't they see

I'm sorry it had to end this way
I don't know how to explain it or what to say

I hope in the end you'll be able to see
There is no us you can't be with me.

Jess Zapata

You Were There

When I needed to talk
And needed a friend
You were there
When I was down
And wanted to cry
You were there

When all I needed was a hug
And someone to talk to
You were there
When the day came
And everything fell apart
You were there

When times got tough
And I couldn't bare
You were there
When I thought I couldn't cope
And wanted to LEAVE
Thank god Emma
You were there.

Jess Zapata

Your Last Words

Your last words run through my head
Those last words the last words you said

Your last words made me feel pain
Your last words make me go insane

Your last words broke my heart
Your last words tore us apart

Your last words were not true
Your last words were I love You
