Boy Of My Dreams

The boy of my dreams got to be all i wanted
The boy of my dream have to like me for me
He has to be the nice and respectful type
He got to be the type that don't like to hit on womens
My dream boy has to respect my wishes and ways
The boy of my dreams have to be one that knows what he want to do with his
life
The boy of my dreams don't have to buy me anything just the one to always be
there
I want him to be the type that love to laugh in have fun
The boy of my dreams have to be one that want to take care of his responsibility
I would wish for my dream boy to love to party, chill, relax, and hang out

Falling For You

I don't know how to say this
Every since the first time i saw you i knew you was the one for me
You was always on my mind
I think about you 24/7
But you was never there with me
Everytime we see each other we don't know what to say
Our minds be wondering we look each other deep in the eyes and just smile
My heart was just a pounding and stomach just a turning
In when i saw you looking at me i knew you was falling for me too.
I pray everynight wishing i can fell your warm touch again
You was in my dreams before i even knew there was a you and me
I pray that we never have to say good-bye
Everynight i pray that you stay by my side
When i see you my heart just start beating faster
Over these pass days, my feeling grown stronger and stronger
I've falling so in love with you everytime i speak your names the first thing that
come out my mouth
When you look around and see somebody falling thats me.....

Families

I have this family that loves me very much

I have this family that is way overprotecting

This family is overprotecting because they love me and don't want me to get hurt

This family is great because i am young and they watch to make sure i don't get hurt

My family sometimes make me mad but its life and its their jobs also

My family don't really want me dating yet because they din't want me to get hurt

So all my young ladies when your parent are being overprotecting they is doing it because they love you

So just relax and let your parents be parents

AND SHOW THEM THAT YOU UNDERSTAND AND LOVE THEM

My Feeling

My feeling for you have grown
My feeling started growing the day we looked at each other
The feeling grew because we was closer than we use to have been
My feeling for you grown the first day we laid eyes on each other
What made my feelings grew more was when you said i love you
Those words right there make any girls feelings grow
My love was never like this with any other dude until i meet you
The feelings i have for you always grow stronger
My feeling are true because my feelings follow my heart
Everytime we see each other we don't know what to say
I start growing feelings for you the day you came over my house
Baby to tell you the truth my feelings are stronger for you then it is for myself

Lovable, loved by many
Everyboby wishes you was here today
Tears are shedding every time you is thought of
Even though your not here i feel you are
Realize that you are gone forever
Rest in peace big bro and we miss you
Impossible to love another brother the way we love you
Only imagine what i go through because i never saw you
Unhappy that your not here
Sad that we never got a chance to meet and for me to tell you how much i love
you

Angry that i never saw you
Nevr got a chance to see how you look unless it was on a picture
Truly a wonderful brother
Quiet moments i have for you just thinking of what it would be like to have you
here
Unreleased tears still held inside
Always going to care and love you
Never going to let you out my heart

Just remebering you for what i heard about you is hard
Only me and god know how much i love and misses you
Never realize how much our parents was hurting that day you passed away
Each day i think about the brother i done lost
Sweet and lonely sad that my second big bro is gone from me

True Love

I have found true love

I have found true love because he never tries to hurt me

I know i found true love when i was able to look him in the eyes

True love is when you and that person has been together a while

True love is when you and that person has falling deep in love and can't nothing ruin that

I found true love when i meet my boyfriend Charles

He is my true love because he treat me right

Charles is my ture love because he never hit on me and we hate to leave each other

True love can be right in front of you and you never knew he was there

I knew i found true love the first day we saw each other and looked each other deep in the eyes and just smile

People ask god to send them true love

You just can't get sent true love you have to find that true love

True love just can't get true love you have to earn it

I knew I found true love when me and my boyfriend had been together 2 year

True love is when your feeling are growing stronger and stronger each day you is with the

People ask is true love real?

I can answer that yes true love is real just wait and it let it come to you.

Wondering

Some days i sit around the house wondering were he at
Some days i be wondering if he still love me
I be wondering everyday about my boyfriend
I wonder like on days were not together i wonder if he cheating
I be wondering everyday when i feel something is wrong
Just because i wonder don't mean i don't trust him its these other girl i
wondering about
I know i shouldn't be wondering because if he love me the way he say he want
cheat
But you got to wonder because some boyfriends can lie
I be wondering on my life how it will be
I got a voice in my head that said don't wonder so much everything will be fine
Yeah they say everything will be fine but are you sure they not lying
So don't worry you always got to wonder about something when you feel
something ain't right
So ladies don't worry about your man when he is gone because your the one that
got his heart and he has yours
Wondering! ! ! ! ! ! ! !

Would You Still Love Me

Would you still love me

Would you still love me if i didn't mind

Would you still love me if i stayed out late with a boy

Would you still love me if i argue with you

Would you still love me if i talk back to you

Would you still love me if i didn't come home one day

Would you still love me if i came up pregnant

Would you still love me if i moved out the house

Would you still love me if i got in trouble

If i get pregnant and moved out would you still love me

When i turn 18 in get out on my own would you still love me

If i do bad things would you still love me

If i said i don't care what happen to me

ould you still love me! ! ! ! ! ! !
