I Love You

I love you
I never really new you,
You were just a another friend,
But, when i got to know you,
I let my heart unbend.
I let my heart past memories
That would only make me cry
I had to forget my first love
And give love another try.
So, i have fallen in love with you.
And ill never let you go.
I love you more than words can say
I just had to let you know the truth.
And if you wonder why,
I don't know what ill say,
But, i will stop loving You
No matter what or how i will stop
My feeling for you will change
Just know my feelings for you are true,
Remember this one thing....

I will always LOVE you.

when ur not by me
when i go places ur not with me
i miss u
when i sleep with out u
i miss u
please come back to be with me
when night becames day

I Need You.

Your the only one
Who understands me
You listen to me
I listen to you.
We have great conversations.
We make each other laugh.
Why cant this work?
I know why...
Why cant we try?
No one will know.
I promise
Please i need you.
You probably need me
If we try this
And it doesn't work
I will leave the country...
The state...
Pretty much the universe.
Please i need you
I like you
I'm crazy about you.
I need you.

If I Forget To Tell You...

If I forget to tell you how much you mean to me,
I hope that you will remember while your not here with me.
If I forget to tell you that you are my world and more,
I hope that you will remember what I am waiting for.
If I forget to tell you I want you in my life,
I hope that you will remember that I am always by your side.
If I forget to tell you I love you more than words,
I hope that you will remember regardless of the hurt.
If I forget to tell you I am sorry for my mistakes, I
hope that you will remember with every one I make.
If I forget to tell you no other can compare,
I hope that you will remember the love that we both share.
If I forget to tell you I miss you everyday,
I hope that you will remember your absence causes pain.
If I forget to tell you that forever is what I want,
I hope you will remember that forever is what we have got.
Whether I say these words to you,
or wait until you are here with me,
I will show you this forever,
and these words will have no need.
to say i love you.

Love

broken damns and fading memories
nights in blue with lights and sounds
somethings moving in the distance
kill it when it comes around
lock it out and down forever
keep your heart a crying stone.
look forever while i think
you think its not fun to be alone
chocking on velvet, bitter laughter
watch and scream and bravely smile.
just remeber some how it will all be oer in a while
dance it out in tarentella
let it out to keep it in your head
lock it up and burn it over
keep it quiet
keep it dead.

My Love For You

There's nothing in this world
That can express my love for you
You're as beautiful as an angel
And pure as a dove.
when i travel around the world.
I've searched and searched
Looking for the one.
Fighting loneliness, sadness, and rejections.
But I now declare that the war is won.
I have found my love,
The love of my life.
And I think that one-day
You might be my husband.
We will have children
And live happily ever after
I will make your life joyful
And full of laughter.
Whatever you want I'll give you,
You're the love of my life
That is why I need you in my life.
With my arms open wide
As wide as the ocean
Just waiting to hug you and never let go
You're the one for me
and that's all I need to know
is that you are the love of my life.
