## Jimmy Woods(October 26,1990)

I was born in Sumter, SC I live with my aunt and uncle in North Carolina. Next year I plan to attend North Carolina Central University and its not over....to be continued

# October

That October breeze that breezes through my head  
The orange, red, brownish that makes autumn seem undead  
The leaves that change from quarter to quarter  
The leaf shower that pours like rain that forms into water

That fall feeling that seems so unreal so unusual  
The smell of happiness  
The feeling of freedom

Year by Year seasons leave and go  
But no season better than October's pose
