Again

Once again.....
once again i am cutting.
yes-once again.
you will never see them.
one slice from a razor,
hold down a wash cloth for 10 min.,
then cover it up.
you will never see it again
from all the hate and anger from my life
to all the stress from my friends
and bois.
Ppl think it hurts,
and they'll cry from its pain.
i think diffrent.
i think its calming &
and i cry because the pain in my life.
the calming of the cherry colord blood,
from my wrist and vain,
running down my arm,
while look ing for a cloth.
Once again i am
once again....
you will never see it.
AGAIN.

Alone I Sit Here

alone i sit here
wishing you were here

alone i sit here
in constant fear

alone i sit here
praying you care

alone i sit here
without cheer

alone i sit here
with way more than just a tear

alone i sit her
wishing you another year

alone i sit here
does anyone care? ? ?

alone i sit here
juat wishing you were near...

Because I Let Him Go

You think you hurt
but you dont know hurt

You dont know what youve got
when he picked you.

it makes him happy to see him happy
but you through it in his face
but at least you wanna be friends...right?
im not calling you dumn...
im calling me stupid
because i let him go

Being Loved No More

My love is broken.
Sadly no one can
fix it.

For the one boy i
loved is loved no more.

I learned not to trust
no one not even my best
friends.

Beacause of that one boy
i am loved no more.
Because of that boy.....
I am no longer free.

Broken

Broken

so i had to stich myself.

Now i have two sides,

one that loves,

and one that looks ot for the other side.

You tought me never to trust.

Your not here to see my heart

Brake when that boy cheated.

You wernt there to see me grow.

because of this i am broken

because of this WE are broken.

Dont Forget About Me...Dedicated To Frankie

Dont forget.

Even though you probably want to.

DONT!

i will never forget you.

jus dont forget me.

i dont want you to leave.

i dont want you to go.

Just promise me one thing

and never let me go.

Dont Know What To Name This One? ? ? ? ?

if i could have just one wish
i would wish to wake up everyday
to the sound of your breath on my neck
the warmth of your lips on my cheek
the touch of your fingers on my skin
and the feel of your heart beating with mine....
knowing that i could never find that feeling
with anyone other than you

Falling Down

Will you shut up & go
to hell? ? ?

Can you see im falling
down? ? ?

No one can see im DONE
with you.

Im done with it & im done
with you! ! !

Break the streak or I'll
break your face! ! !

You think you'll win
But i think you

Should think again! ! !
What the F***? ? ?

Who do yo think
you are? ? ?

Watch out im falling
down

And when i do

It'll be gone

with you! ! !

He Chose 1

he chose one.
he picked her.
you said i
was special...
and you didnt want
to lose me.
if you pick her, , ,
what do you think
will happen to me?
do you think i wanna...wanna hangout with the
boi i love and my friend making out?
NO!
im sorry...if yo two
go out...i dont think i can
hangout with you.
so go out with a girl who dont
even like you.
and lose a best friend.

Licking

Thank you for always
being my friend & licking
my rear end... of my face
and not chewing on
my favorite shoe lace.
You never sprayd me
with mace
when i violated
your personal space

Jordan Johnson

Should I? ? ?

You asked me out.

Should i believe you? ? ?

You wanted her...

but now you want me? ? ?

something sounds funny? ? ?

But i dont know? ? ?

Should i trust? ? ?

and go up with you.

or should i make you go down with out

Would you date me? ? ?

or would you play me? ? ?

Just tell me that.

If you date me...

Than ill date you back

but...If you play me...

The ship is gonna sink fast...

so play me & sink

or date me & link.

When We Were... Dedicated To My Cousin

when we were three we'd
play and run.
When we were three....
We were whole.

Now we cut, smoke,
and drink till we caint drink
no more.

I dont know you any more....
I dont even know me any more.

Maybe we can get through
this togeather and we wont
be emo we will be whole
once more.

Yea Ok You Real Cool

Yea o.k.
You real cool.
You left school.

You did weed.
Your foul smell.

Your foul soul.
Your soul died.

Just about a month
ago.

Your friends lived.
But you chose not to.

You chose a for what? ? ?
To sit on that block and smoke
just a little blunt.
Its not just a little blunt.
Its your little life.
Think about it.

Jordan Johnson

You

we flirted so much we acted like we
were going out
now the girl that you like talks to
to you....
you say all we can do is hug!
WTF!
well the girl...
you know my B.F.F....
lied to me for the third time!
the lies were stupid
but whatever
you hurt me!
YOU!

You Alone Was The Secret

You alone is the never ending battle,
You alone made these scars
now we separate and i feel neglected,
with you alone i find that you can end my agony,
you alone is the savior of my broken soul,
you alone will make me the queen of my fate
every day is a new sign and a new time,
you alone will make end to all my agony's,
you alone was th secret of my hurting soul

Jordan Johnson

You Were Never There

You were never there to
see my first pitch.
You were never there to
see my first board accident.
But you were there for the computer,
tv, couch, and your work.
You lied to mom so many times
SHOOT! you lied to mom all the time
Dont lie to me, not now, not ever
i will scream, kick, cry,
and run away
and go back to all the bad
suff i love.
i don want to i really dont
But if you do i wll too!
