Life Is But A Dream

Life is but a dream
It sometimes takes a team
It's hard to move along
But its gonna make you strong

Our family comes first
Frustration makes it worst
Love might hurt
And it's pounding through your shirt

Think of a silver toaster
Life is like a rollercoaster
There is up and downs
Just don't act like a clown

Think of a city
Instead of p-diddy
There is noise all around
Even when you touch the ground

Life maybe hard
It's like playing with cards
You got to take risk
Don't sit there drinking brisks

Think of it as gambling

Life Is Hard

Life is so hard
It's like a broken card
It's broken and can be used
Sometimes deadly when you light up the fuse

Life is like a race
You got to keep a pace
You can't control life on how you feel
Life is just not an ordinary deal

An angel comes down from above
It's trying to give each of us a piece of its love
Each and every one of us rely on each other
Think of each other as a sister or brother

Life is like pain
It doesn't last forever
It will drive you insane
Then it puts you on the lever

Here's my advice to you out there
Listen to my words it's not a truth or dare:

Keep your head up
Don't let life kill your dreams
It doesn't take a team
So go out there and do your thing

Hope you stick around
Always hold your ground
That's all for now
Don't take a bow
