A Angle

A angle is waiting for me
A angle is waiting on you
An angle is waiting on us
Lets go meet our angle
An angle is a sweet thing to have around
An angle is your guide
They are people to guide you
Through your life and every thing
A angle has a beautiful meaning
In my opinion
It means your protector
Thats why I love angles

Daylight Or Night Time

Daylight is good to work with
Nighttime is good for sleeping
Which is better
Daytime or night time
Night is better because you get to sleep
When love ones to sleep
You tend to do more
When one loves to work you tend to do more
Day time or night time
Which is greater
Which could stay out a little bit more

Every Time I Look At You

I can't stand the awkwardness
Do I laugh
Do I cry
Do I dare remember your pretty eyes
Oh no, here it goes
My hands start to shake
My heart's gonna' show
Like the day we met
To the night you said we're through
Baby some things never change
I can't keep from go crazy
It's something that I can't control
Oh no, here it goes
My heart's gonna' show
Like the day we met
To the night you said we're through

I Get Carried Away

I don't take my drinks to extremes
I don't believe in chasin'
Crazy worlds all over
My feet are planted
Firmly on the ground
But darlin' when you come around
I get carried away
By the look in you eyes
Before I even realize
Where I am
Baby I'm long gone
I get carried away
Nothin' matters
But bein' with you
Like a bird flyin'
High up in the sky on a cloudy day
I get carried away
It might seem
Like an ordinary day
Same ol' start
The same ol' sun up high
But when I see you
Standin' at your door
Nothin's ordinary anymore
I get carried away
By the look in you eyes
Before I even realize
The cloud I'm on
Baby I'm long gone
I get carried away
Nothin' matters
But bein' with you
Like a rabbit flyin'
High up in the sky
On a windy day
I get carried away

I Left

I left without leavin' a number
Said I needed to clear my mind
It was almost a year before I called him up
Three rings and an answering machine is what I got
I Still Love You
I know what i need to do
But I still love you
Yes I still love you.

I Never Said Goodbye...

I hope you know that I never said good bye
And that I will love you till my blood runs dry
I had never felt the kind of love you gave
I am a child
A child not so brave
Not ready for life
Not ready for love
Not ready for what it takes
But I never said good bye my sweet sweet friend
I never said goodbye

Love Me

If your going to love me
Love me
If your going to break me
Go away
Love me
Or go
Do you love me
Or do you hate me
I'm getting mixed emotions
You want me
Then you don't
Love me
Don't break me
Love me sweetly
Love me truly
Just love me
Don't break me

Kathryn Thompson

Loving You

You can turn me loose
Tear me up
And run me down
Cause me shame
Drag my name all over town
Makes no difference
What you say or
What you do
As for me
I'll always be lovin' you
My love for you was not built
On shifting sands
I made a promise long ago
And it still stands
Go on and do what your heart tells you to
As for me
I'll always be lovin' you
You can change your dreams
Change your heart or
Change your mind
And just pretend
That it all ends
With your goodbye
You can walk out
And forget the love
We knew
As for me
I'll always be lovin' you

Numbers

I see numbers

I feel numbers

What are numbers

Numbers are small

Numbers are big

Numbers are mean

Numbers are cool

Numbers are awesome

Oh the numbers

Spells Of Life

The spells of life can be harmful
Or they can be playful
Depending on what
The spell of life is
It can be finding your true love when your only 25
Or it can be dieing at age 10
These are examples of
The spells of life

The Dark

The dark is here
I like the dark
The dark comes and goes
The dark is good
The dark is dark
Like I like it
When the dark is here
I am happy
The dark is here

Kathryn Thompson

The Horse

I know my math
I know the rules
I know the horses
But where's mine
I'm a country girl
And I want me a horse
Horses there and horses here
None of my own
They are so kind
They let me ride
But I'm a country girl
And I want a horse of my own
I have every thing I need
I just need one thing
And that's the horse
I said a million times
I'm a country girl
And I want a horse

Kathryn Thompson

The Light

The light is bright
Too bright
I like the dark
The light comes and goes
The light crosses people
The light is bright
Too bright
When the dark is gone
I am sad
When the light is out I am sad
The light is bright

Kathryn Thompson

The Music

I hear the music
The music is playing
The music is soft
The music is now fading
The music is gone
Which means so is my life
No music means no life
The music is gone
Come back to me music
The Music is begining
I have a life
The music is pretty
The Music is wonderful
Oh no
The music is fading again
I love the music
The music is gone
Good bye music

The Pity

The pity the pity
To one who knows pity is the one to win most
Who knows the pity
Who knows the pity
I do not know
Who knows pity
This I do not know
Do you know
I do not
Oh The Pity
What is pity
Why do we suffer from pity

Kathryn Thompson

The Song

I heard a song
It was a love song
The song changed my point of view
The song made me relise
Just who I am
I am the writer
I am the peot
I became one with
The song
It made me know
Just what to do
Oh how I love
The song
The song
Oh how the song calms your nerves
The song

Tick Tock

Tick tock
The clock tick tocks
Tick tock
It wont stop
The clock sings its song
All day long
Tick tock
It wont stop
I listen to it
All day long
Tick tock tick tock tick tock
It wont stop
The clock goes tick tock
All day long it goes tick tock
Tick tock
It wont stop
Tick tock
The clock tick tocks
Tick tock
It wont stop
Tick tock
Tick tock
Tick tock
Tick tock
The clock won't stop
Tick tock
Tick to *hear a noise like someone throwing a clock against the wall*
STOP YOUR TICK TOCKING ALL READY!

To Love Or Not To Love

To Love Or Not To Love
That is the question
Should or shouldn't we
To know love
To be love
You've got to feel love
You've got to know
When your in love
Or not
Do you know how it fills
To be in love
You've got to feel it
It feels so good to be in love
Your head rushes
Your heart beats
A million beats a minute
You can't stand it
When you have to be away
From him/ her for long periods of time
You think about him/ her 24/7
You dream about him/ her
You day dream about him/ her
To love or not to love
To love you've got to know
The risk of what happens
After you love
Not to love you've got to know
That this is really what you want
To feel love you've got to be love
You've got to love him your self
That is why
To love or not to love
Is and has always been
The main question of loving
This is why most people love
Know that they know every thing
About the person and the risks
This is why we love
Because we love him/ her

This is why we don't love
You don't know the person that well
Love and be happy
Or
Not love and be miserble
So I love
Just like others should too

Kathryn Thompson

What Others Do

What others do is no matter
What others do makes no sense
It's their life
Not mine
What others do
What others want to do
When it comes me
I do what I want to
I do not care
About what others do
What others do I can not argue
I am the one they come to
I do not pick what you do
You pick what you do
Oh what others do

Write Down This Little Note

never saw
How fools are kinda blind
Everything was goin alright
But I was runnin away
I swear
I didnt know what was going to happen
Here's some words
For you
Write this down
Take this with you
To remind you
Incase you never knew
I love you
And I think about you every day
Write this down
Take my words
And remember them everyday
Keep them close by
Dont you let them slip your mind
So you remember
What I forgot to say
